<b>Community Development Block Grant (CDBG)</b>	Annual grants awarded to the City on a formula basis for housing and community development activities.	<ul style="list-style-type: none"> <li>▪ Acquisition</li> <li>▪ Rehabilitation</li> <li>▪ Home Buyer Assistance</li> <li>▪ Economic Development</li> <li>▪ Infrastructure Improvements</li> <li>▪ Homeless Assistance</li> <li>▪ Public Services</li> </ul>
<b>HOME Investment Partnership Act Funds</b>	Flexible grant program awarded to City on a formula basis for affordable housing activities.	<ul style="list-style-type: none"> <li>▪ Acquisition</li> <li>▪ Rehabilitation</li> <li>▪ Home Buyer Assistance</li> <li>▪ New Construction</li> </ul>
<b>Emergency Shelter Grants (ESG)</b>	Grants awarded to implement a broad range of activities that serve homeless persons in the City.	<ul style="list-style-type: none"> <li>▪ Shelter Construction</li> <li>▪ Shelter Operation</li> <li>▪ Social Services</li> <li>▪ Homeless Prevention</li> </ul>
<b>Housing Opportunities for Persons with AIDS (HOPWA)</b>	Funds for housing development and related support services for low-income persons with HIV/AIDS and their families. HOPWA funds are provided to the Community Housing and Shelter Services for use in communities throughout the County.	<ul style="list-style-type: none"> <li>▪ Acquisition</li> <li>▪ Rehabilitation</li> <li>▪ New Construction</li> <li>▪ Housing-related Services</li> </ul>
<b>Section 8 Rental Assistance Program</b>	Rental assistance payments to owners of private market rate units on behalf of very low-income tenants. Section 8 program is administered by the Stanislaus County Housing Authority.	<ul style="list-style-type: none"> <li>▪ Rental Assistance</li> </ul>

**Table 4-6**  
**Financial Resources for Housing Activities**

<b>Program Name</b>	<b>Description</b>	<b>Eligible Activities</b>
<b>Mortgage Credit Certificate Program</b>	Income tax credits available to first-time homebuyers to buy new or existing single-family housing. Certificates are made available through the Stanislaus County Housing Authority.	<ul style="list-style-type: none"> <li>▪ Home Buyer Assistance</li> </ul>
<b>Low-income Housing Tax Credit (LIHTC)</b>	Tax credits are available to persons and corporations that invest in rental housing for lower income households. Proceeds from the sale of the credits are typically used to create housing.	<ul style="list-style-type: none"> <li>▪ New Construction</li> <li>▪ Acquisition</li> <li>▪ Rehabilitation</li> <li>▪ Historic Preservation</li> </ul>
<b>Shelter Plus Care Program</b>	Rental assistance that is tenant-based, project-based, or sponsor-based to maximize independence for disabled homeless persons. Funds to support the provision of permanent housing and supportive services for the homeless.	<ul style="list-style-type: none"> <li>▪ Rental Assistance</li> <li>▪ New Construction</li> <li>▪ Support Services</li> </ul>
<b>2. State Programs</b>		
<b>California Housing Finance Agency (CHFA) Rental Housing Programs</b>	Below market rate financing offered to builders and developers of multi-family and elderly rental housing. Tax exempt bonds provide below-market mortgages.	<ul style="list-style-type: none"> <li>▪ New Construction</li> <li>▪ Rehabilitation</li> <li>▪ Acquisition</li> </ul>
<b>California Housing Finance Agency (CHFA) Home Mortgage Purchase Program</b>	CHFA sells tax-exempt bonds to make below-market loans to first-time buyers. Program operates through participating lenders who originate loans for CHFA.	<ul style="list-style-type: none"> <li>▪ Home Buyer Assistance</li> </ul>
<b>Proposition 46 Housing Funds</b>	California voters approved a \$2.1 billion bond to address the State's affordable housing crisis. According to HCD, the housing bond will create up to 22,000 permanently affordable homes for rent; enable more than 65,000 families to purchase their own homes; provide housing assistance for 12,000 to 24,000 farmworker families; and underwrite 20 million shelter bed days for homeless people. These bond funds will be available on a competitive basis and represent a major opportunity to leverage local monies for affordable housing.	<ul style="list-style-type: none"> <li>▪ New construction/acquisition</li> <li>▪ Homebuyer assistance</li> <li>▪ Supportive assistance</li> <li>▪ Farmworker housing</li> </ul>

**Table 4-6  
Financial Resources for Housing Activities**

<b>Program Name</b>	<b>Description</b>	<b>Eligible Activities</b>
<b>Jobs-Housing Balance Grant</b>	The Jobs Housing Balance Incentive Grant (JHB) awards production of residential units by permit activity that exceeded the threshold as established in the guidelines.	<ul style="list-style-type: none"> <li>▪ Capital asset project, service, or other local need determined by the recipient to be in the community's best interest</li> </ul>
<b>Downtown Rebound</b>	Funding to facilitate infill development and conversion of commercial buildings for "live-work" spaces.	<ul style="list-style-type: none"> <li>▪ Rehabilitation</li> <li>▪ Conversion</li> </ul>
<b>3. Local Programs</b>		
<b>Redevelopment Housing Set-Aside Funds</b>	State law requires that 20% of Redevelopment Agency funds be set aside for a wide range of affordable housing activities.	<ul style="list-style-type: none"> <li>▪ Acquisition</li> <li>▪ Rehabilitation</li> <li>▪ New Construction</li> </ul>
<b>Single-Family Mortgage Revenue Bond</b>	Issue mortgage revenue bonds to support the development and improvement of affordable single-family homes to qualified households.	<ul style="list-style-type: none"> <li>▪ New Construction</li> <li>▪ Rehabilitation</li> <li>▪ Acquisition</li> </ul>
<b>Multi-Family Mortgage Revenue Bond</b>	Issue mortgage revenue bonds to support the development and improvement of affordable multi-family homes to qualified households.	<ul style="list-style-type: none"> <li>▪ New Construction</li> <li>▪ Rehabilitation</li> <li>▪ Acquisition</li> </ul>
<b>4. Private Resources/Financing Programs</b>		
<b>Federal National Mortgage Association (Fannie Mae)</b>	<ul style="list-style-type: none"> <li>▪ Fixed rate mortgages issued by private mortgage insurers.</li> </ul>	<ul style="list-style-type: none"> <li>▪ Home Buyer Assistance</li> </ul>
	<ul style="list-style-type: none"> <li>▪ Mortgages which fund the purchase and rehabilitation of a home.</li> </ul>	<ul style="list-style-type: none"> <li>▪ Home Buyer Assistance</li> <li>▪ Rehabilitation</li> </ul>
	<ul style="list-style-type: none"> <li>▪ Low Down-Payment Mortgages for Single-Family Homes in under served low-income and minority cities.</li> </ul>	<ul style="list-style-type: none"> <li>▪ Home Buyer Assistance</li> </ul>
<b>California Community Reinvestment Corporation (CCRC)</b>	Non-profit mortgage banking consortium designed to provide long term debt financing for affordable rental housing. Non-profit and for profit developers contact member banks.	<ul style="list-style-type: none"> <li>▪ New Construction</li> <li>▪ Rehabilitation</li> <li>▪ Acquisition</li> </ul>
<b>Federal Home Loan Bank Affordable Housing Program</b>	Direct subsidies to non-profit and for profit developers & public agencies for affordable low-income ownership and rental projects.	<ul style="list-style-type: none"> <li>▪ New Construction</li> </ul>
<b>Freddie Mac</b>	Provides first and second mortgages that include rehabilitation loan. City provides gap financing for rehabilitation component. Households earning up to 80% MFI qualify.	<ul style="list-style-type: none"> <li>▪ Home Buyer Assistance</li> </ul>

## C. ADMINISTRATIVE RESOURCES

Non-profit agencies that are involved in housing development represent a substantial resource for the provision of affordable units in a community. Nonprofit ownership helps assure that these housing units will remain as low-income housing. Described below are major public and non-profit agencies that have been involved in affordable housing activities throughout Modesto. These agencies/organizations play important roles in the production, improvement, preservation, and management of affordable housing.

### City of Modesto

The City maintains overall responsibility for the development of housing and community development plans, policies, and strategies, including the City's Housing Element and the Consolidated Plan. In addition, various City departments implement programs designed to increase and maintain affordable housing; expand economic and social opportunities for lower income, homeless and special needs populations; and revitalize declining neighborhoods.

#### Community and Economic Development Department

The Community and Economic Development Department is responsible for both long-range and current planning of development in the City. The Department plans for, encourages and facilitates private investment in the community by coordinating those municipal activities that affect such investment. The Department is comprised of three divisions: Business Development Office; Building and Development Services; and Planning.

Planning Division provides effective planning to manage growth and change in a manner that avoids unsightly and leapfrog development, rapid urban sprawl into prime agricultural land, destruction of environmentally sensitive areas, and unfunded infrastructure needs. The Division provides professional planning knowledge and research to the public hearing bodies of the City on both zoning and land use matters. Public hearing bodies for planning entitlements within Modesto's include City Council, Planning Commission, and Board of Zoning Adjustment. The Planning Division is responsible for the development and implementation of the General Plan, including the Housing Element, as well as other development-related plans such as specific plans and urban growth reviews.

The Building and Development Services Division carries out building inspection and code enforcement activities designed to ensure the safety of the City's housing stock. Significant resources of the division are utilized in conjunction with the maintenance and rehabilitation of low-income properties, in accordance with numerous City assistance programs. In addition, the division helps implement and educate community members regarding the City's weatherization, emergency home repair, and energy conservation programs.

## **Redevelopment Agency**

The Redevelopment Agency supports and provides resources for affordable housing development for all areas of the City. In accordance with State law, the Redevelopment Agency reserves 20 percent of its annual tax increment revenues for the support of affordable housing projects. RDA resources are used to support the maintenance and expansion of affordable homeownership and multi-family rental opportunities within the redevelopment areas. These funds may be pooled with other resources to maximize efficient use of available funds, depending on project needs and the funding status of other programs.

## **Parks and Neighborhood Services Department**

The Parks and Neighborhood Services Department is responsible for administering the City's housing assistance programs, including the first-time homebuyer and rehabilitation programs. The Department also administers the CDBG, HOME, and ESG funds for housing and supportive services.

## **Housing Authority of Stanislaus County**

The Stanislaus County Housing Authority plays a major role in supporting and implementing the City's housing programs. The Housing Authority is responsible for the County's public housing and rental assistance programs (e.g. Section 8 certificates and vouchers, mortgage credit certificates), operates rental housing rehabilitation programs for several jurisdictions, and is the sponsor for selected affordable housing projects. The Housing Authority retains ongoing responsibility for management of its facilities serving the homeless and other special needs groups.

## **Habitat for Humanity**

Habitat for Humanity is a non-profit agency dedicated to building affordable housing and rehabilitating homes to provide affordable homeownership opportunities for lower income families. Habitat builds and repairs homes with the help of public funds, private donations, volunteers, and partner families. Habitat homes are sold to partner families at no profit with affordable, no-interest loans. Volunteers, churches, businesses, and other groups provide most of the labor for the homes. Habitat is active in pursuing sites for residential development to aid low-income families.

## **Community Housing and Shelter Services**

Community Housing and Shelter Services (CHSS) is a non-profit agency that assists the homeless and lower-income residents through provision of transitional and shelter facilities, various housing assistance programs, information and education programs, and community outreach. CHSS maintains and runs several transitional housing facilities, including Laura's House and the Samaritan House. CHSS receives funding from multiple HUD programs, including HOPWA, ESG, and CDBG in providing its services.

## **Disability Resource Agency for Independent Living**

Disability Resource Agency for Independent Living (DRAIL) provides information, education, and advocacy on accessible and low-income housing and maintains a current housing list for renters. DRAIL staff assists low-income persons with disabilities with their Homeowner's and Renter's Tax Assistance forms. This agency also provides information on City and County programs designed to assist low-income residents.

## **Gospel Mission**

This privately funded and faith-based shelter is located on a two-block campus including seven buildings on Yosemite Boulevard. The Gospel Mission provides 225 beds to single women, single men, and single adults with children. The Mission serves 150,000 meals per year to clients and to the general public. Two thousand people are served by the Mission each year.

## **Project Sentinel**

Project Sentinel serves as the fair housing provider for residents of Modesto. This agency provides information and education on fair housing laws, actively addressing issues of housing discrimination. In addition to education programs, Project Sentinel also offers landlord/tenant mediation, referrals on various housing issues, and support for other agencies in ensuring provision of affordable housing for all segments of the population.

## **Stanislaus County Housing Support Services Collaborative**

This consortium of area fair housing providers, service providers, non-profit developers, government agencies, homeless advocates, veterans, and others advocates the provision of affordable, safe, and decent housing in Modesto. The goal for the SCHSSC is to develop a viable working Continuum of Care Plan. The SCHSSC is committed to working collaboratively on identifying needs and service gaps.

## Stanislaus County Affordable Housing Corporation (STANCO)

STANCO has two transitional houses within Stanislaus County: one located on Maze Boulevard that provides three units, and the second located on Powell, providing one unit. STANCO works with CHSS for operation of its facilities, as well as future development plans for care facilities.

### Salvation Army

In January of 2004, the City Council declared a “Shelter Crisis” under California Government Code Section 8698 (d) and a temporary emergency shelter was immediately established at 320 Ninth Street. This declaration allowed the City to suspend certain development standards and development code requirements that were non-safety in nature. This emergency shelter facility was remodeled and furnished over a four-week period with City coordination and much community participation. The Salvation Army elected to operate the shelter during the emergency period. The shelter accommodates 50 adults.

## D. OPPORTUNITIES FOR ENERGY CONSERVATION

Utility-related costs can directly impact the affordability of housing in Northern California, particularly in light of the 2002 energy crisis. Title 24 of the California Administrative Code sets forth mandatory energy standards for new development and requires adoption of an “energy budget.” In turn, the home-building industry must comply with these standards, while localities are responsible for enforcing the energy conservation regulations.

The following are among the alternative ways to meet these energy standards.

- *Alternative 1:* The passive solar approach which requires proper solar orientation, appropriate levels of thermal mass, south-facing windows, and moderate insulation levels.
- *Alternative 2:* Generally requires higher levels of insulation than Alternative 1, but has no thermal mass or window-orientation requirements.
- *Alternative 3:* Also is without passive solar design but requires active solar water heating in exchange for less stringent insulation and/or glazing requirements.

Additional energy conservation measures include: (1) locating the home on the northern portion of the sunniest location of the site; (2) designing the structure to admit the maximum amount of sunlight into the building and to reduce exposure to extreme weather conditions; (3) locating indoor areas of maximum usage along the south face of the building and placing corridors, closets, laundry rooms, power core, and garages along the north face; and (4) making the main entrance a small enclosed space that creates an air lock between the

building and its exterior; orienting the entrance away from winds; or using a windbreak to reduce the wind velocity against the entrance.

Utility companies serving the City offer various programs to promote the efficient use of energy and assist lower income customers. These programs are discussed below.

## **Pacific Gas & Electric**

Pacific Gas & Electric (PG&E) provides natural gas services to Modesto residents. The company offers a variety of energy conservation services to residents, and PG&E also participates in several other energy assistance programs for lower income households which help qualified homeowners and renters conserve energy and control costs. These include the California Alternate Rates for Energy (CARE) Program and the Relief for Energy Assistance through Community Help (REACH) Program.

The California Alternate Rates for Energy Program (CARE) provides a 15 percent monthly discount on gas and electric rates to income-qualified households, certain non-profits, facilities housing agricultural employees, homeless shelters, hospices, and other qualified non-profit group living facilities.

The REACH Program provides one-time energy assistance to customers who have no other way to pay their energy bill. The intent of REACH is to assist low-income customers, particularly the elderly, disabled, sick, working poor, and the unemployed, who experience severe hardships and are unable to pay for their necessary energy needs.

In addition, the State Department of Health and Human Services funds the Home Energy Assistance Program (HEAP). Under this program, eligible low-income persons, via local governmental and non-profit organizations, can receive financial assistance to offset the costs of heating and/or cooling dwellings.

## **Modesto Irrigation District**

The Modesto Irrigation District (MID) provides electricity in Modesto. MID also offers energy conservation programs, including the CARE Service Program that provides a 20 percent discount to households that are below MID income limits.

## **Turlock Irrigation District**

The Turlock Irrigation District (TID) providing electric power to the portion of Modesto south of the Tuolumne River. TID offers the We Care program, which provides a 15 percent discount for the first 800 kWh of usage to income-qualified households. This program is administered by the Salvation Army.

# REVIEW OF 1992 HOUSING ELEMENT PERFORMANCE

## A. PURPOSE

In developing a housing strategy for the City, it is important to begin by reviewing the actions and approaches the City has utilized in the past. In addition to meeting a requirement of State law, an analysis of the past actions provides a beginning framework of what approaches, policies, and programs have been successful in helping meet the City's housing goals. This review will help ensure that the past accomplishments and lessons learned are reflected in future policy, and that new approaches are formed and implemented in areas of concern.

The City last prepared a comprehensive update of the Housing Element in 1992. This Element was re-adopted by the City in 1997 and has served as the City's housing policy for the past ten years. In assessing the ability of the policies and programs to accomplish the goals set forth in the 1992 Element, a variety of methods are used. While many of the programs had quantified targets established, many others were left open regarding their anticipated productivity. With unquantified programs, the assessment of relative success will be based on the individual program's contribution to the overall goal. All assessments will be for the time period in which the document was in effect; 1992-2002.<sup>1</sup> The most recent information available was used for analysis of each program.

This paper is an assessment of the performance of the City's 1992 Housing Element, based on its adopted goals, policies, and programs. Included in this section is a summary of each program and policy adopted to meet the stated housing goals, and an analysis of the relative successes and failures of each. The analysis concludes with a discussion regarding the usefulness and continued appropriateness of the individual programs for the 2003-2008 housing element period. The review is based on the three adopted goals of the 1992 Housing Element.

- A. Match housing supply with need
- B. Maximize housing choice throughout the community
- C. Provide safe and decent housing

---

<sup>1</sup> Some programs and policies were discontinued, consolidated, or replaced before 2002. In these cases, the assessment will be based on the period in which the program or policy remained in effect.

## **B. ASSESSMENT OF GOALS**

### **Match Housing Supply with Need**

In the 1992 Housing Element, the City adopted four policies directed at accomplishing the goal of providing a sufficient amount and type of housing for the anticipated needs of the residents of Modesto. These policies laid out a direction for the implementation programs. The policies focus on providing housing for residents of all income ranges, ensuring incremental ranges in housing to allow for step-up buying opportunities, and focusing on the needs of the disadvantaged in creating housing choice.

The Stanislaus Council of Governments (StanCOG) assigned a Regional Housing Needs Assessment (RHNA) for the period of 1990-1997 for all communities in Stanislaus County. This assessment provided a total number of anticipated units needed to accommodate growth within Modesto during this time frame. The RHNA determined that the City needed to produce 11,688 new residential units in the 7.5 year housing cycle.

Because of the recession of the mid-1990s, budget from the State for local councils of governments to develop the RHNA for the 1997-2002 cycle was eliminated and special legislation was adopted to suspend the housing element update process. As such, local jurisdictions were given an extended period of time to fulfill the previous RHNA. Housing units developed between July 1, 1992 and December 2000 can count toward the RHNA for the 1992 housing element.

Based on building permit data, 5,932 units were constructed during this time frame. A variety of reasons contributed to the City's lower housing production than the RHNA allocation. The major reasons include:

- The recession of the mid-1990s slowed residential development throughout the Central Valley and the State of California.
- Population growth in the City was well below the expected increases established by the State of California. The California Department of Finance, which provides population projections used in the needs determination, estimated a 2000 population for the City of 244,850. The actual 2000 U.S. Census population for the City was 188,856.

The reduction in anticipated population growth and the recession of the mid 1990s resulted in a significantly lower than expected amount of housing production both in the City of Modesto and throughout the Central Valley. Table 5-1 shows the total housing production from 1992-2000 and the corresponding goal for production.

**Table 5-1  
Housing Production from 1992-2000**

Year(s)	Units Produced	Goal	% of Goal Produced
1992-1997	2,242	n/a	19%
1998-2000	3,690	n/a	32%
Total	5,932	11,688	51%

Housing production has increased dramatically in the past three years due to a number of factors, including a significant influx of Bay-area residents, expanded economic development within the City and the region, and the other factors.

### Program Analysis

The City adopted and implemented 27 programs to meet the goal of matching housing supply with housing need. These included various investment and rehabilitation activities within the Redevelopment Agency, establishment of housing funds, use of HOME, CDBG, and other federal funds, and partnerships with non-governmental organizations throughout the County. A full listing of the programs and their accomplishments can be found at the end of this chapter in Table 1-2 Housing Accomplishments Table. The highlights of the accomplishments and programs are as follows:

- Federal funds such as Community Development Block Grants and HOME funds, as well as local funds such as Redevelopment Set-Aside funds, have been instrumental in providing financing for low- and very low-income housing projects. Federal Low-Income Housing Tax Credits (LIHTC) have also provided a significant source of financing for new housing projects, being used for the development of 263 low-income units in the City since 1992. Redevelopment Set-Aside funds have helped create or rehabilitate 296 units since 1992.

- The First-time Homebuyer Program has utilized all of its funds each year providing downpayment assistance since its adoption in 1995. Over the past seven years, it has helped 268 Modesto households become first-time homeowners.

- Countywide programs, such as the Section 8 Voucher Program and the Mortgage Credit Certificate Program, have provided rental and ownership assistance to 1,167 households throughout Stanislaus County since 1992. No exact figures are available for the City of Modesto, but it is estimated that more than half of the assistance from the programs occurs in Modesto.

- A community-wide housing group, the Stanislaus Housing and Support Services Collaborative, was formed in 2000 to coordinate and discuss activities among the various housing providers and advocates in the City. The meetings of this group have resulted in increased knowledge and information sharing among the groups, and promoted the City's goal of improving referral accuracy among groups.

## Maximize Housing Choice throughout the Community

The second goal of the City in the 1992 Housing Element was to maximize the choice of housing and housing opportunities for residents throughout the community. Four policies were adopted in the Element to direct programs to achieve this goal. These goals directed the housing policy to:

- Promote equal opportunity for all residents to reside in the housing of their choice.
- Continue to make a strong commitment to the issue of fair housing practices, as well as ensure that fair housing opportunities prevail for all citizens.
- Work to establish programs to assist in the removal of constraints to the production of housing, where feasible.
- Work to promote energy conservation activities in all residential neighborhoods.

### Program Analysis

Establishing and maintaining diverse neighborhoods with a mix of housing types and affordability was the approach taken to realize this goal. The City made several important policy decisions to further this aim, including establishing 24 Comprehensive Planning Districts to allow for planning of each area of town in a coordinated manner, establishment of numerous policies to promote affordable and multi-family development in Village One (a traditionally moderate and upper income single-family area), and prioritized use of federal and local funds to help balance housing choices throughout the community.

The Housing Element has had mixed results with regard to this goal. Major accomplishments during the cycle include improving coordination between the City and fair housing providers, establishment of energy conservation programs to improve efficiency within homes and reduce costs to homeowners, and adopt numerous policies, ordinances, and resolutions aimed at removing barriers to housing production within the City. While these areas of the Element have shown positive results, there have been areas which have failed to produce the desired outcomes. Rising housing costs have led to a lack of choice among housing, especially in recent years and in lower income brackets. There remain significant economic disparities in housing costs in some areas of the City. Finally there has been a lack of affordable housing produced in targeted areas, especially in Village One.

Many of the programs and ordinances adopted to achieve this goal have had positive results, while some have been neutral or negative in effect. City policy has evolved over the past 10 years, often in an attempt to accomplish one goal at the expense of another. The mixed results of the programs for this goal are due largely to the mutual incompatibility of some policies and the need of the City to prioritize total housing production over diversity within particular areas.

The highlights of the accomplishments and programs are as follows:

- The City has revised and maintained clauses in the zoning ordinance to allow for a variety of housing options within single-family districts, including provisions to allow for second units and manufactured housing to be created in all single-family zones. Consistent with State law, these activities help allow for more diversity within neighborhoods and promote improved housing choice.
- City support of groups such as Project Sentinel (Fair Housing Agency), the Human Relations Commission, and SHSS Collaborative (as referred to under Goal 1) has strengthened the City's commitment to fair housing and reducing discrimination within Modesto.
- The Multi-family Developer Incentive Program, which uses deferrals and exemptions of Capital Facilities Fees to encourage development of multi-family housing, has provided more than \$800,000 in financial incentives to developers since 1992. The program has helped add 334 new multi-family units to the City's housing stock during this span, and represents one of the most successful City programs for promoting housing choice within the community.
- The City's Housing Program Office, as well as utility providers in the area, provides no-cost or low-cost weatherization for homes within the City. The City provides this service as part of several programs, including the Emergency Home Rehabilitation Program and the Disabled Access Assistance Program. The programs are marketed through brochures and by staff at neighborhood meetings.

## Provide Safe and Decent Housing

The third goal of the City in the 1992 Housing Element was to ensure that housing within the community was both safe and decent. Three policies were adopted in the Element to direct programs to achieve this goal. These goals directed the housing policy to:

- Maintain a supply of safe, decent and sound affordable housing in the City of Modesto through the conservation and rehabilitation of the City's existing housing stock.
- Focus the use of City resources for housing rehabilitation and assist housing in those neighborhoods and residents having the greatest need for housing assistance.
- The City should make a maximum effort to preserve, of its lower-income households, the units in assisted housing developments that are at risk of converting to market rate uses.

### Program Analysis

Rehabilitation and improvement of existing housing stock is vital to the goal of providing safe and decent housing within the community. To this end, the City has adopted a variety of programs and actions aimed at improving the quality of both individual homes and entire neighborhoods, focusing not only on safety and health issues, but also aesthetic and maintenance concerns. Targeted rehabilitation programs have helped hundreds of households make emergency repairs, improve dilapidated and unsafe houses, and establish neighborhood identity in older areas of town.

Between 1992 and 2002, the various rehabilitation and assistance programs of the City have helped improve more than 500 properties. The highlights of the accomplishments and programs are as follows:

- The City currently operates a Housing Maintenance Program, which provides grants to repair and improve all properties within a designated neighborhood. This program addresses the issue of deteriorating neighborhood quality and identity by ensuring that all homes along a particular street or within a geographic area receive assistance for improving the property. This program has made grants for the improvement of 353 homes since 1992.
- The City created the Emergency Home Repair Program (formerly the Home Emergency Loan Program) to assist low-income residents in making necessary emergency repairs for safety and health. This program has provided assistance in the form of loans and grants to 106 households since 1992.
- Market rate housing is a large component of the City's goal to provide a sufficient amount and quality of safe and decent housing. Based on averages from the previous decade, it was assumed in the 1992 Housing Element that an average of 1,000 units per year would be produced independent of subsidy or action by the City. The recession of the early 1990s dramatically slowed residential construction, and it was

not until 1998 that the City first achieved 1,000 units constructed in a single calendar year. In all, 6,733 units were produced in the ten-year span, an average of 673 units per year of market rate construction.

## C. ASSESSMENT OF PROGRAMS

The following pages contain the Housing Accomplishments Table, a summary of each of the programs and policies enacted by the City in the 1992 Housing Element, a summary of the accomplishments of each program, and a brief discussion of its continued relevance or usefulness to the City’s housing goals. The information in the table comes from a variety of sources, including data from Census 2000, program and implementation information from the Community Development Department, Parks, Recreation, and Neighborhoods Department, Development Services Department, Public Works Department, and a host of community service providers within the community.

The results shown in Table 5-2 are an indication of the relative success of each program in meeting its overarching goal. Reasons for the successes or failures of particular programs are provided when known and applicable.

**Table 5-2  
Housing Accomplishments since 1992**

Housing Program	Program Action/Objective	Accomplishment/Continued Appropriateness
<b>GOAL 1: MATCH HOUSING SUPPLY WITH NEED</b>		
<b>Policy 1a Establish and/or support programs to supply below market housing for very-low, low- and moderate-income households, as well as market rate housing.</b>		
1a.1	<p><b><u>Affordable Housing Catalog</u></b></p> <p><b>Program Description – Existing:</b> Aggressively explore the variety of potential financial housing assistance programs from both the public and private sector to provide more affordable housing units. Update the Village One Affordable Housing Catalog (A.H.C.); which highlights all available local, state, federal and private affordable housing programs; to include citywide programs for new housing as well as programs that assist in the conservation and/or rehabilitation of existing housing. This catalog should include ways to leverage additional funds to provide an even greater number of affordable housing units.</p>	<p>The City has been actively exploring and utilizing a variety of financial and housing assistance programs, including grant funding, federal, state, and local assistance programs, coordination with developers, use of redevelopment funds, and other mechanisms to support affordable housing goals. Funding sources utilized include CDBG, HOME, RDA Set-Aside, and Mortgage Revenue Bonds. The Village One A.H.C. has not been updated, and has not served as a primary tool for encouraging affordable housing in Modesto.</p>

**Table 5-2  
Housing Accomplishments since 1992**

<b>Housing Program</b>	<b>Program Action/Objective</b>	<b>Accomplishment/Continued Appropriateness</b>
1a.2	<p><b><u>Citywide Housing Trust Fund</u></b></p> <p><b>Program Description – New:</b> The City shall seek to establish a Citywide Housing Trust Fund whose purpose would be to provide financial support to various housing programs, and to increase the supply of housing affordable to very-low, low- and moderate-income households. The Housing Trust Fund should also seek to improve the neighborhoods and housing conditions of the City’s residents who are at or below 80% of the area median income, as established by HUD.</p>	<p>The City has in past years combined various funding sources, including HOME and Low-Moderate Set-Aside funds, in order to increase affordable housing opportunities. While this is not currently in operation, the establishment of such a fund may again prove useful in the future, and this program should continue to be considered for use. The Updated Housing Element will address the continued appropriateness of this program.</p>
1a.3	<p><b><u>Community Housing Coalition</u></b></p> <p><b>Program Description – New:</b> Consider the establishment of a local community housing coalition that may include the following: Realtors, developers, business leaders, environmentalists, low-income housing producers and social service providers. This coalition could meet on a semi-annual basis to discuss and exchange information on successful affordable housing programs that can be implemented on a community-wide basis.</p>	<p>A community housing coalition, the Stanislaus Housing and Support Services Collaborative, was formed in 2000 to address housing issues within the entire County. This group holds monthly meetings, with representation by more than 40 involved agencies, to discuss housing policy, homelessness issues, and coordination within the County.</p>
1a.4	<p><b><u>Community Reinvestment Act</u></b></p> <p><b>Program Description – New:</b> The City shall seek to establish a program to work with local Community Reinvestment Act lenders. This program could be the development of a resource list for interested developers/builders, as well as commercial lenders interested in funding construction loans for low-income housing. As a result of the passage of the Community Reinvestment Act, many commercial lenders have developed an interest in funding low-income projects, within their local community.</p>	<p>Modesto does not currently monitor the affordable housing lending activities of local financial institutions under the Community Reinvestment Act. CRA monitoring is done at the national level by the Office of the Comptroller of the Currency, under the U.S. Department of the Treasury. Establishing programs with high ranking CRA lenders will continue to be a program priority for the City. As part of the City’s Housing Element Update, the City will evaluate the availability of mortgage lending and top lenders in the community using the Home Mortgage Disclosure Act (HMDA) data.</p>

**Table 5-2**  
**Housing Accomplishments since 1992**

Housing Program	Program Action/Objective	Accomplishment/Continued Appropriateness
1a.5	<p><b><u>Comprehensive Housing Affordability Strategy (CHAS)</u></b></p> <p><b>Program Description – New:</b> HUD requires communities to develop a CHAS in order to apply for certain housing assistance programs. 1991 was the first year in which CHAS was required. The development of the 1992 CHAS shall be consistent and reflect the policies and programs of the Housing Element. Preparation of a CHAS acts as a jurisdictions' "notice of intent" to participate in applying for program funding offered by HUD.</p>	<p>The City prepared its final CHAS shortly after the 1992 Housing Element was adopted. The CHAS was replaced in 1993 by HUD with the Consolidated Plan, which has a broader scope and better summarizes housing activities and approaches. Modesto has prepared the 2000-2005 Consolidated Plan consistent with the adopted Housing Element for HUD funding purposes.</p>
1a.6	<p><b><u>Density Bonus</u></b></p> <p><b>Program Description – Existing:</b> Continue to grant density bonuses for the provision of affordable housing units as required by state law. The units shall remain affordable for a minimum of 10 years. For those granted additional incentives, the units must remain affordable for 30 years.</p>	<p>The City continues to offer density bonuses to developers of affordable and senior housing, as required by Government Code section 65915. Municipal Code section 10-3.103 provides density bonuses for all developers meeting the minimum requirements of the City. One project in the City has received a density bonus during the previous housing cycle. Projects meeting the minimum requirements must remain affordable for a minimum of 10 years, while projects receiving incentives beyond the minimum bonus must remain affordable for at least 30 years. The City will continue to comply with the State density bonus provisions.</p>
1a.7	<p><b><u>Land Banking</u></b></p> <p><b>Program Description – New:</b> The City shall work toward establishing a land banking program for very-low, low- and moderate-income housing. In this program, the City's Nonprofit Housing Corporation, or Redevelopment Agency would purchase land for affordable housing where there is a reasonable expectation that development will occur there in the short-term future. (The establishment of a Citywide Nonprofit Housing Corporation is listed under Program 1a.10.)</p>	<p>The City has utilized land banking once in its provision and support of affordable housing. Several lots in the airport neighborhood were acquired by the City and made available to the affordable housing developer DLA. These lots were not developed by DLA for financial reasons. The City will continue to consider use of land banking for promoting affordable housing opportunities. HOME regulations allow for holding of land for no more than two years, so careful consideration of what funding sources are used in the land banking program is essential to the success of the program.</p>

**Table 5-2**  
**Housing Accomplishments since 1992**

Housing Program	Program Action/Objective	Accomplishment/Continued Appropriateness
1a.8	<p><b><u>Low- and Moderate-Income Housing Fund</u></b></p> <p><b>Program Description – Existing:</b> State law (AB265) required all redevelopment project areas in the state to set aside 20% of tax increment revenues for increasing and improving the community's supply of low- and moderate-income housing. Furthermore, Chapter 1140, Statutes of 1989 amended the Housing Element Law to require the housing program of an Element to include a description of the use of monies in the Redevelopment Agency's Low- and Moderate-Income Housing Fund. This fund was established with the adoption of an expanded project area in 1991. It is estimated that over the next five years there will be one million dollars accumulated in this fund. It has not yet been determined how these funds will be used. However, this Housing Element proposed several programs (e.g. 1a.11, 1a.13 and 1b.3) that could assist the Redevelopment Agency in increasing and improving the community's supply of low- and moderate-income housing.</p>	<p>The Redevelopment Agency sets aside 20% of tax increment financing revenue for use in the Low and Moderate Income Housing Fund. Until late in 2000, the Low-Moderate Income Housing Fund was combined with HOME funds for use on low-income housing projects throughout the City. These funds were fully expended each year. Since 2000, the Redevelopment Agency has been pooling monies in the fund to promote a coordinated downtown development project with a substantial amount of low-income housing. These funds are expected to be distributed in 2003.</p>
1a.9	<p><b><u>Multi-Family Mortgage Revenue Bonds (MFMRB's)</u></b></p> <p><b>Program Description – Existing:</b> Continue to participate in mortgage revenue bond programs when market conditions stimulate developer participation. MFMRB's provide tax-exempt low-cost financing to developers of projects who provide a portion of rental units at rents affordable to lower income households.</p>	<p>The City has issued one new Multi-Family Mortgage Revenue Bond during the most recent housing cycle for the production of multi-family housing, financing \$2.2 million of the Shadowbrook Apartments in 2001.</p>
1a.10	<p><b><u>Nonprofit Housing Development Corporation</u></b></p> <p><b>Program Description – New:</b> Establishment of a Nonprofit Housing Development Corporation to promote, assist and or sponsor housing developments in the City of Modesto for lower income families. The City will establish a Nonprofit Housing Development Corporation. The City will develop a citywide publicly-assisted program to be administered by the nonprofit. This present program does not prohibit the City from working with STANCO or other nonprofit housing agencies, nor does it require the creation of a new agency. When this program is implemented, the most effective agency structure will be determined at that time.</p>	<p>STANCO is currently the only local nonprofit housing development corporation located in Modesto. The City has provided support to STANCO and DLA (a now-defunct low-income developer) during the previous housing cycle through land dedication and financial assistance. The City continues to seek out new groups interested in forming a nonprofit housing development corporation, and will continue its support of all groups working towards affordable housing goals.</p>

**Table 5-2  
Housing Accomplishments since 1992**

Housing Program	Program Action/Objective	Accomplishment/Continued Appropriateness
1a.11	<p><b><u>Relocation Assistance Program</u></b></p> <p><b>Program Description – Existing:</b> This program assists residents who may need relocation assistance because of the Redevelopment Agency actions. If relocation is necessary, this program helps to minimize relocation as much as possible by implementing the Agency’s relocation guidelines.</p>	<p>The City has adopted a relocation assistance ordinance as part of the Implementation Plan. Due to a lack of displacement activity by the Redevelopment Agency, no action has been taken under the program. The City will continue to comply with the relocation assistance ordinance should future redevelopment activities result in displacement of existing residents.</p>
1a.12	<p><b><u>Section 8 Certificate Program</u></b></p> <p><b>Program Description – Existing:</b> Under this program, eligible participants pay a maximum of 30 percent of their income for rent. The program then pays the difference between the rent the participants pay and total (market rate) rent of the unit.</p>	<p>The Stanislaus County Housing Authority has a current total of 3,995 Section 8 vouchers allocated to residents of the County, as of October 2002. In addition, there is a long waiting list for these vouchers. Overall, this program is very successful in assisting very low-income households in obtaining affordable housing. The City will continue to participate in this program to expand affordable housing opportunities for City residents.</p>
1a.13	<p><b><u>Support Nonprofit Housing Sponsors</u></b></p> <p><b>Program Description – Existing:</b> Support nonprofit corporations such as the Stanislaus County Affordable Housing Corporation in their efforts to make housing more affordable to lower- and moderate-income households.</p>	<p>The City has assisted STANCO and DLA with CHDO (Community Housing Development Organization) grants, developed partnerships for affordable housing projects, and provided assistance for the Housing Authority of the County of Stanislaus, Habitat for Humanity, Community Housing and Shelter Services, the Children’s Crisis Center, Hutton House, and the Haven.</p>
1a.14	<p><b><u>Very-low Income Renters Assistance Program</u></b></p> <p><b>Program Description – New:</b> Establish a Renters Assistance Program to assist very-low income households seeking new rental housing in Village One. Possible very-low-income households needing assistance: senior citizens (Senior housing will be provided in the Village Center, as described in the Village One Specific Plan). If this program proves successful, consideration will be made to establish a program of this nature citywide.</p>	<p>The City has not adopted a Renters Assistance Program in Village One. There have been no affordable housing projects completed or approved in the Village One planning area during the previous housing cycle, thus there has not been a need to utilize such a program. Renter’s Assistance is provided by CHSS for renters throughout the City, including for potential future developments in Village One.</p>

**Table 5-2**  
**Housing Accomplishments since 1992**

<b>Housing Program</b>	<b>Program Action/Objective</b>	<b>Accomplishment/Continued Appropriateness</b>
1a.15	<p><b><u>Village One Housing Trust Fund/Equity Sharing Program</u></b></p> <p><b>Program Description – New:</b> The City shall draft and adopt an ordinance establishing a Housing Trust Fund/Equity Sharing Program, which will be supported by a developer fee based on single family homes built in excess of 800 square feet. This program will assist eligible low- and moderate-income households with “gap financing”, with the City taking equity share in the home. The funds collected from the Equity Sharing Program will go into the Housing Trust Fund. The program represents the best utilization of local resources and was developed by the Village One Affordable Housing Task Force. In addition, should State or Federal government funds become available; the City will consider applying for these funds to assist in the implementation of this program.</p>	<p>A Housing Trust Fund was proposed and authorized for the Equity Sharing Program in Village One. However, the fund and program were eliminated by the City Council in the mid 1990s during the recession and housing construction slow-down in Modesto. The intent of the Council in eliminating the program was to remove a regulatory barrier to housing to facilitate new construction of housing units</p>
1a.16	<p><b><u>HOME Consortium Program</u></b></p> <p><b>Program Description – New:</b> The City of Modesto will explore participating in the formation of a Consortium for the purpose of seeking increased federal funding under the HOME program. The formation of the Consortium should include other incorporated cities and the County, along with the Stanislaus County Housing Authority. It is assumed that this Consortium could potentially increase the entitlement funding for all members, including the City.</p>	<p>The County of Stanislaus, along with the cities of Modesto and Turlock, entered into talks to form a HOME Consortium in the early 1990s. A Consortium was formed, but the City of Modesto elected not to participate. Since then, the City has become an entitlement jurisdiction under the HOME Program. This status offers the City much greater local control over the program and therefore the City is not likely to join the consortium in the near future.</p>
<p><b>Policy 1b Work to supply housing for the unmet needs of lower income special needs groups, including the disabled, elderly, homeless and large families (families with five or more persons).</b></p>		
1b.1	<p><b><u>Federal Low-Income Tax Credits</u></b></p> <p><b>Program Description – Existing, but limited source of funding:</b> Encourage the use of Federal Tax credits for the production of low-income housing. City staff will research the use of Federal Tax Credits and request application packets from the Mortgage Bond Allocation Committee; prepare an information summary to inform prospective users of the program.</p>	<p>There have been a number of successful projects in the City of Modesto which utilized LIHTCs. Woodstone Apartments, Ashwood Village, Gateway Apartments, and Sherwood Home were all financed in part by these tax credits, and resulted in a total of 262 units. This financing tool is well known in the industry, and the City promotes its use for affordable housing projects.</p>

**Table 5-2  
Housing Accomplishments since 1992**

<b>Housing Program</b>	<b>Program Action/Objective</b>	<b>Accomplishment/Continued Appropriateness</b>
1b.2	<p><b><u>Handicapped Accessible Housing</u></b></p> <p><b>Program Description – Existing:</b> The City shall continue to comply with the 1988 Fair Housing Access Act, which requires access requirements for disabled and physically handicapped persons for public and multi-family housing.</p>	<p>The City complies with the 1988 Fair Housing Access Act through building inspections, as well as the Disabled Access Assistance Program. Standards from the Fair Housing Access Act were written into the Uniform Building Code, and are enforced by building inspectors. In addition, as part of this Housing Element Update, the City will assess constraints to the provision of housing for persons with disabilities pursuant to SB 520 (effective January 1, 2002).</p>
1b.3	<p><b><u>Single Room Occupancy</u></b></p> <p><b>Program Description – New:</b> The City shall develop an ordinance that will encourage the development of single-room occupancy housing units. These units can serve primarily the lower income tenant, and should be located in close proximity of existing social services, such as within the City's urban transitional zones. Development of this program would include the identification of, and the elimination of, any present development regulations which would preclude construction of single-room occupancy projects.</p>	<p>The City does not have an ordinance specifically endorsing or prohibiting SRO units. There have been no specific development regulations identified as impediments to development of SRO units. The City will encourage the creation of this development type in areas consistent with zoning and general plan designations, specifically in urban transitional areas.</p>
1b.4	<p><b><u>Coordination with Agencies Serving the Homeless</u></b></p> <p><b>Program Description – Existing:</b> The City shall continue to work with agencies such as the County Social Services Department, the Community Housing and Shelter Services (CHSS), United Way, and the Modesto Gospel Mission on developing housing and employment programs for the homeless.</p>	<p>A communitywide housing group, the Stanislaus Housing and Support Services Group, was formed in 2000 to coordinate and discuss ideas for addressing homelessness and related housing issues. In addition, the City continues to provide financing and information for each of the homeless service providers in the County, as well as pursuing programs when appropriate.</p>

**Table 5-2  
Housing Accomplishments since 1992**

Housing Program	Program Action/Objective	Accomplishment/Continued Appropriateness
1b.5	<p><b><u>State Bond Programs</u></b></p> <p><b>Program Description – New:</b> In general, the City shall seek to secure state bond financed funds, such as Proposition 84 and 107 Bond funds, which provide financing for several affordable housing programs. One such program makes low interest deferred payment loans to public and private developers to develop affordable rental housing. Prop. 107, the “Housing and Homeless Bond Act of 1988”, provides funding for the following: emergency shelters and transitional housing for homeless persons; the development of new rental housing that meets the needs of the elderly and disabled; the purchase and/or rehabilitation of residential hotels; and provides home purchase assistance for first-time homebuyers.</p>	<p>The City has continually applied for all applicable state financing for use in the promotion of affordable housing. This practice will continue in the future. The Parks, Recreation, and Neighborhoods Department monitors funding sources annually to ensure that the City is seeking all available funds. As part of the Housing Element Update, the City will evaluate the potential new state funding sources to generate additional affordable housing.</p>
1b.6	<p><b><u>Transitional Housing Program</u></b></p> <p><b>Program Description – Existing:</b> The City shall continue to work with HUD and the Community Housing Shelter Services in providing transitional shelter (single family residences), and counseling services to homeless families.</p>	<p>Transitional housing is provided primarily by Center for Human Services, which operates the Hutton House, Laura’s House, and Samaritan House. The City continues to support the provision of transitional housing by Community Housing and Shelter Services through the use of CDBG funds.</p>
<b>Policy 1c Work to supply entry level housing as well as “step-up” housing.</b>		
1c.1	<p><b><u>First-time Homebuyer Program</u></b></p> <p><b>Program Description – New:</b> Develop a Citywide program to assist first-time homebuyers of low- and moderate-income with down payment assistance. Work with local groups such as the Association of Realtors, Mortgage Lenders Association, Building Industry Association (BIA), Modesto Chamber of Commerce Affordable Housing Task Force, and others to establish a first-time homebuyers program.</p>	<p>Modesto passed Resolution #95-563 in 1995 creating the Down Payment Assistance Program to serve this need. It is funded annually from CDBG allocation, and provides up to \$25,000 in down payment assistance to first-time homebuyers meeting income restrictions. This program has utilized 100% of its funds in each year of operation and assists approximately 33 households annually.</p>
1c.2	<p><b><u>Mortgage Credit Certificates</u></b></p> <p><b>Program Description – New:</b> Mortgage Credit Certificates allow first-time homebuyers to take 20 percent of their annual mortgage interest as a dollar-for-dollar tax credit against their federal income tax. Certificates are issued by a local agency (e.g. Housing Authority) and are most applicable for moderate-income households.</p>	<p>The City has partnered with the Housing Authority of County of Stanislaus to provide an unknown number of Mortgage Credit Certificates for the purchase of homes by low and moderate-income residents of Modesto. A total of 216 first-time homebuyers were assisted.</p>

**Table 5-2**  
**Housing Accomplishments since 1992**

Housing Program	Program Action/Objective	Accomplishment/Continued Appropriateness
1c.3	<p><b><u>New Construction: Moderate and Above Moderate Units</u></b></p> <p><b>Program Description – Existing:</b> Past results revealed that private sector residential construction activity produced an estimated 9,155 new moderate- and above moderate-income housing units between 1984-1989. It is expected that the building activity in these income categories will continue, although not as many as in the previous years.</p>	<p>During the previous housing cycle of 1992-2001, the City of Modesto produced 7,192 housing units, an average of 719 per year. The recession of the mid 1990s drastically reduced the number of units constructed in the City, which has only once (2000) had a production year greater than the 1984-1989 average of 1,526 units per year. The majority of the housing units constructed were single-family homes, affordable primarily to moderate and above-moderate income households.</p>
1c.4	<p><b><u>Single Family Mortgage Revenue Bonds (SFMRB's)</u></b></p> <p><b>Program Description – Existing:</b> Continue to encourage the participation in Single Family Mortgage Revenue Bond programs, when market conditions stimulate developer participation. SFMRB's provide tax-exempt financing to first-time homebuyers.</p>	<p>No Single-Family Mortgage Revenue Bonds have been issued within the City of Modesto for construction of affordable housing during the most recent housing cycle.</p>
<p><b>Policy 1d Promote the development of affordable housing on surplus, underused or vacant public lands, where appropriate and where compatible with existing uses.</b></p>		
1d.1	<p><b><u>Identification of Public Surplus Lands</u></b></p> <p><b>Program Description – New:</b> Establish a program to identify and monitor surplus public lands suitable for residential development. The surplus land could possibly be purchased by the city's Nonprofit Housing Corporation or other housing providers to develop affordable housing. The program will consist of a listing of providers as well as other agencies interested in the development of affordable housing.</p>	<p>The Housing Authority purchased land from the City for Brighton Villas, resulting in 11 housing units. Four private parcels in the airport neighborhood were purchased by the City and made available to a local low-income developer. Monitoring of public and private properties suitable for development continues by the City.</p>
<p><b>GOAL 2: MAXIMIZE HOUSING CHOICE THROUGHOUT THE COMMUNITY</b></p>		
<p><b>Policy 2a Promote equal opportunity for all residents to reside in the housing of their choice.</b></p>		
2a.1	<p><b><u>Manufactured Housing</u></b></p> <p><b>Program Description – Existing:</b> Continue to allow manufactured housing/mobile homes in all residential districts provided that it meets the same standards as conventional housing and is placed on a permanent foundation.</p>	<p>Manufactured Housing is allowed in all residential zoning districts as long as it is placed on permanent foundations, consistent with State Law. This will continue to be a policy of the City. While no totals are available for manufactured housing, 148 permits have been issued for mobile homes between 1992 and 2001.</p>

**Table 5-2  
Housing Accomplishments since 1992**

<b>Housing Program</b>	<b>Program Action/Objective</b>	<b>Accomplishment/Continued Appropriateness</b>
2a.2	<p><b><u>Second Units/Accessory Units</u></b></p> <p><b>Program Description – Existing:</b> Continue to encourage the use of second units in single family residential areas where additional parking for the second unit is provided, and where the second unit neither adversely affects nor alters the character of the surrounding single-family residence.</p>	<p>Second residential units are allowed in all residential zoning districts with a plot plan, consistent with State law. Development of these units is encouraged by City staff. The City will continue to comply with State law requiring that second residential units be allowed in single-family residential districts.</p>
<p><b>Policy 2b Continue to make a strong commitment to the issue of fair housing practices, as well as ensure that fair housing opportunities prevail for all City residents regardless of age, sex, religion, ancestry, marital status, family status, income or source of income, race, creed, national origin or disabilities.</b></p>		
2b.1	<p><b><u>Community Housing Resources Board (CHRB)</u></b></p> <p><b>Program Description – Existing:</b> The Federal Department of Housing and Urban Development in conjunction with the Association of Realtors recommends the establishment of a local fair housing education board. This board, appointed by HUD, is comprised of local people in the community interested in fair housing and acts as a referral group.</p>	<p>A HUD appointed Fair Housing Board has not been created in the City. Project Sentinel provides fair housing services and counseling for the community, working to eliminate discrimination based on age, sex, disability, income, and all other protected categories. As part of the City's CSBG and HOME programs, the City offers affirmative marketing of housing choices and works to remove any potential impediments to fair housing choice in the City. In compliance with HUD regulations, the City completed an Analysis of Impediments to Fair Housing Choice in 1996.</p>
2b.2	<p><b><u>Human Relations Commission</u></b></p> <p><b>Program Description – Existing:</b> Support the work of the Human Relations Commission, which acts a conduit for fair housing complaints and referral to enforcement agencies. The Commission acts as the first line of referral, in conjunction with the State Department of Fair Employment and Housing. Informational brochures and copies of complaint forms are available throughout the community. The complaint referral process is publicized through the Modesto Bee, the County Library, local schools, and through local housing advocacy groups. The goal of this Commission is to ensure that fair housing opportunities prevail for all City residents.</p>	<p>The City continues to support the Human Relations Commission in its activities to promote fair housing opportunities. This seven-member advisory group meets bi-monthly to promote good human relations in the community. This agency is a valuable tool in promoting fair housing and providing a central agency for issues of human relations in housing.</p>

**Table 5-2  
Housing Accomplishments since 1992**

Housing Program	Program Action/Objective	Accomplishment/Continued Appropriateness
<b>Policy 2c</b>	<b>Work to establish programs to assist in the removal of constraints to the production of housing, where feasible.</b>	
2c.1	<p><b><u>Annual Report of General Plan</u></b></p> <p><b>Program Description – New:</b> In accordance with State Law, an annual review of all elements in the General Plan must be reviewed by the City Council. This review must include the progress of the Housing Element in meeting its share of the regional housing needs, along with updates of 1990 Census data, where applicable. In order to fulfill this requirement with regards to the Housing Element, the City will monitor this element yearly to:</p> <ul style="list-style-type: none"> <li>• check on program implementation</li> <li>• update 1990 Census data in sections (such as Overpayment and Income Figures)</li> </ul> <p>After the Annual General Plan Report is reviewed by the City Council, the City will send a copy of this report to the HCD, within 30 days, so that they may review the Housing Element Section. Beyond this review, the City will make any necessary amendments to the General Plan to correct any inconsistencies that are found.</p>	<p>The City Planning Commission has annually assessed the progress and implementation of programs within the General Plan. Staff is in the process of creating the General Plan Annual Report for 2002, which will summarize General Plan programs and information, including the housing element. The findings of this Annual Report will be used in the creation of the 2003 Housing Element Update by City staff, ensuring that the Housing Element maintains consistency with the other elements of the General Plan.</p> <p>The legal requirement to create the Annual Report remains in place, thus the program remains necessary to comply with State Law.</p>
2c.2	<p><b><u>Multi-family Developer Incentive Program</u></b></p> <p><b>Program Description – Existing:</b> The Stanislaus County Housing Authority and nonprofit sponsors of housing for very-low-income households are exempt from Capital Facilities Fees (developer fees). For multi-family projects with density bonuses, a certain percentage of the projects must serve very-low or low-income households. For these projects, developer construction fees are levied by deferring payment of Capital Facility Fees with twenty percent required down and five years to pay. Fee waivers or deferrals pertain to only the city's fees and do not refer to school district fees.</p>	<p>The City regularly defers or exempts low-income housing developments from payment of Capital Facilities Fees. The amount of deferral or exemption is determined on an individual case basis, depending on the number of low-income units provided and the financing situation. Between 1992 and 2001, the City exempted fees for 237 units and deferred fees for 97 more, representing \$804,240 of total incentives to low-income housing developers.</p>

**Table 5-2  
Housing Accomplishments since 1992**

<b>Housing Program</b>	<b>Program Action/Objective</b>	<b>Accomplishment/Continued Appropriateness</b>
2c.3	<p><b><u>Priority Processing for Affordable Housing Projects</u></b></p> <p><b>Program Description – New:</b> Time is a very important factor in the cost of a housing project. It is especially important to the economic feasibility of very-low, and low-income housing, thus, the City will give such projects priority in application processing. This priority will extend to building inspections carried out during various phases of the construction process. This priority program will be reviewed by the City Attorney to ensure the legality of such a program.</p>	<p>The City complies with the State mandated Permit Streamlining Act, which ensures timely processing of planning development applications. Building permit inspections and review have a minimal turnaround time, thus negating the need for prioritization. Staff has found no extensive delays in the processing of affordable housing projects. Existing laws and practices are sufficient to ensure expedient processing of project applications and permits.</p>
2c.4	<p><b><u>Reduction of Parking Standards</u></b></p> <p><b>Program Description – Existing:</b> The City of Modesto allows a reduction in parking standards for senior citizen housing developments. The objective is to match parking standards with need to reduce costs.</p>	<p>The Community Development Department allows a reduction in parking standards for senior housing projects. The amount of reduction is determined on an individual project basis, with cost reduction considered in the determination.</p>
2c.5	<p><b><u>Streamline Application Process</u></b></p> <p><b>Program Description – Existing:</b> Continue efforts to streamline and improve the development-review process, as well as eliminate any unnecessary delays and restrictions in the processing of permits for applications and projects submitted.</p>	<p>The City complies with the provisions of the Permit Streamlining Act, which limits the amount of time the City may spend reviewing a project. The City will continue to look for provisions of the development review process which can be improved, as well as remove unnecessary restrictions or delays that are identified within the system.</p>
<b>Policy 2d Work to promote energy conservation activities in all residential neighborhoods.</b>		
2d.1	<p><b><u>Energy Conservation and Efficiency</u></b></p> <p><b>Program Description – Existing:</b> Continue to encourage development and construction standards that encourage energy conservation in residential buildings. The City of Modesto Housing Program Office, and agencies such as P.G.&amp;E., and the Modesto Irrigation District, provide no cost or low-cost weatherization and other energy efficient programs to low-income residential households. Public service announcements and brochures are provided to reach the widest possible audience.</p>	<p>The City of Modesto supports the provision of no-cost or low-cost weatherization for low-income homes under the EHRP/DAAP programs. In addition, the City provides literature and information on programs for increasing energy efficiency in residential structures. This program continues to be relevant to the housing goals of the City, and helps ensure that the available programs are utilized to the greatest extent possible.</p>

**Table 5-2  
Housing Accomplishments since 1992**

Housing Program	Program Action/Objective	Accomplishment/Continued Appropriateness
<b>GOAL 3: PROVIDE SAFE AND DECENT HOUSING</b>		
<b>Policy 3a Maintain the supply of safe, decent and sound affordable housing in the City of Modesto through the conservation and rehabilitation of the City's existing housing stock.</b>		
3a.1	<p><b><u>California Housing Rehabilitation Program</u></b></p> <p><b>Program Description – Existing:</b> This program offers housing rehabilitation loans as low as three percent to low-income owner/occupants; with a maximum loan amount of \$10,000.</p>	The City offers housing rehabilitation loans up to a maximum of \$10,000 for qualified homeowners as part of the CDBG program. This continues to be a useful tool in improving the quality of existing housing stock within the community.
3a.2	<p><b><u>Distribution of Energy Saving Devices</u></b></p> <p><b>Program Description – Existing:</b> The City will continue to distribute smoke detectors, water heater blankets, and anti-siphon backflow devices for hose bibs, free of charge for rehabilitation clients. Also, to continue the maintenance of safe and decent housing and by contributing to energy savings and safety.</p>	This program continues to be administered by the City to promote energy efficiency and safety in existing homes. As part of the property rehabilitation program, homeowners are informed about potential energy saving devices and programs that are available in the City.
3a.3	<p><b><u>Education of Available Rehabilitation Programs</u></b></p> <p><b>Program Description – Existing:</b> Continue to educate and inform all major ethnic groups and groups representing handicaps in the community of available rehabilitation programs through neighborhood and community organizations, and by using the most effective media.</p>	Numerous community service providers offer information on the City programs, and the City promotes rehabilitation programs through handouts, the City website, and information posted at libraries and City offices.
3a.4	<p><b><u>Housing Condition Survey</u></b></p> <p><b>Program Description – Existing:</b> Continue to maintain a current housing condition survey of all housing units within the City. Also, an updated number of units in need of rehabilitation or replacement should be included.</p>	The City completed a housing survey of the three redevelopment target neighborhoods in 1993. A Citywide housing conditions survey has not been completed yet, although staff is currently seeking options to perform such a survey. This survey, when completed, will help staff better monitor housing conditions in the community, better target rehabilitation and loan programs, and improve housing strategies.

**Table 5-2  
Housing Accomplishments since 1992**

<b>Housing Program</b>	<b>Program Action/Objective</b>	<b>Accomplishment/Continued Appropriateness</b>
3a.5	<p><b><u>Rental Rehabilitation Program</u></b></p> <p><b>Program Description – Existing:</b> The City’s Housing Program Office provides financial assistance to owners of rental property to rehabilitate substandard units, in order to ensure that rental units are affordable to low- and moderate-income families.</p>	<p>The City completed 49 Rental Rehabilitation Loans between 1992 and the end of the program in 1997. The older program was replaced by a Property Enhancement Rebate available to rehabilitate rental properties in the low-income areas of the City. This program serves to spur rehabilitation and improvement of owner-occupied and rental housing within targeted areas. Rebates are available in seven categories, for a maximum total of \$1,350 per rental property.</p>
3a.6	<p><b><u>Water Conservation Program</u></b></p> <p><b>Program Description – New:</b> The City will consider the initiation of a water conservation program. The purpose of this program would be to install and encourage the use of water conservation devices and measures in all houses rehabilitated under the City’s housing rehabilitation programs.</p>	<p>The City has established a Water Conservation Program to promote the sound management of water resources in Modesto. Water conservation devices are included with rehabilitation loans for residential properties. Building inspections by the City ensure that the devices are installed and used properly, further ensuring the success of the program.</p>
<p><b>Policy 3b Focus the use of City resources for housing rehabilitation and assisted housing on those neighborhoods and residents having the greatest need for housing assistance.</b></p>		
3b.1	<p><b><u>Emergency Home Repair Program</u></b></p> <p><b>Program Description – Existing:</b> Low interest loans, to repair immediate critical hazards for Modesto residents with very-low incomes, are available through the City’s Housing Program Office.</p>	<p>The Recreation and Neighborhood Serviced Division operates the Emergency Home Repair Program, eligible to all residential homeowners outside of the target areas. This program offers low-interest loans up to \$25,000 for emergency safety repairs or modifications to make the home handicapped accessible. Since 1992, 105 of these loans have been made.</p>

**Table 5-2  
Housing Accomplishments since 1992**

Housing Program	Program Action/Objective	Accomplishment/Continued Appropriateness
3b.2	<p><b><u>Handicapped Barrier Removal Program</u></b></p> <p><b>Program Description – Existing:</b> This program provides free technical advice on removing mobility barriers from home or property. Low interest financing is also available to handicapped homeowners living in Modesto, to assist them with removing mobility barriers from their home or property.</p>	<p>The Handicapped Barrier Removal Program (HBRP) was formally discontinued in 1996, not having assisted any households in the City. It was replaced by the Disabled Access Assistance Program (DAAP), which provides low-interest loans for removing barriers to housing accessibility for disabled homeowners. Information on this program, home inspections, and technical advice on modifications are available free from the Modesto Building Department. A total of 15 loans have been made from this program since 1996.</p>
3b.3	<p><b><u>Home Emergency Loan Program (H.E.L.P.)</u></b></p> <p><b>Program Description – Existing:</b> This program is designed to correct substandard housing conditions and eliminate health and safety hazards. How interest loans are available through the City's Housing Program Office for homeowners with incomes that fall into the 50-80% median area income, as determined annually by HUD.</p>	<p>This program completed only one loan for \$37,650 in 1993. The H.E.L.P. program was replaced by the Emergency Home Repair Program (EHRP). It provides for low-interest loans to low-income residents to correct health and safety hazards within the home. This program is well utilized within the City and continues to aid in the provision of safe, affordable housing for all residents of the community. As stated in 3b.1, this program has completed 105 loans since 1992.</p>
3b.4	<p><b><u>Housing Maintenance Program</u></b></p> <p><b>Program Description – Existing:</b> This program is designed to eliminate health and safety hazards within neighborhoods targeted for rehabilitation within the City of Modesto. The City's Housing Program Office provides technical and financial assistance to property owners required to make repairs ordered by the City's Building Inspection Division. This program is mandatory to ensure that an entire neighborhood, not just a few select properties, would undergo revitalization to meet requirements of the City's Housing Code.</p>	<p>The Housing Maintenance Program provides low-interest loans to property owners within the designated target areas for home improvements. The Neighborhood Services Division implements this program, which revitalizes entire project areas at a time. The program calls for revitalization of all homes within target areas, to ensure that property values for the entire neighborhood rise and that each house in the area meets minimum safety and health standards. The program has rehabilitated 353 units since 1992, and more than 2,100 since its inception in 1976.</p>

**Table 5-2**  
**Housing Accomplishments since 1992**

Housing Program	Program Action/Objective	Accomplishment/Continued Appropriateness
Policy 3c	The City of Modesto should make a maximum effort to preserve, for its lower-income households, the units in assisted housing developments that are eligible to change to non-lower-income uses, due to terminations of subsidy contracts, mortgage prepayment, or expiration of use restrictions.	
3c.1	<p><b><u>Coordination with HUD to Monitor At-Risk Projects</u></b></p> <p><b>Program Description – Existing:</b> The City of Modesto will continue to work with HCD, to ensure that any notifications of potential sales of at-risk units are forwarded to the City. Any owners of projects at-risk of conversion must notify HUD of any impending sales or conversion and if they plan to prepay their mortgages and/or if they decide not to renew their Section 8 contracts.</p>	The Parks, Recreation, and Neighborhood Department is the responsible agency for monitoring at-risk housing units within the City. The City will continue to work with HCD and HUD to minimize conversion of affordable housing units to market rate. The City will also work with property owners who have indicated their intention to make such a conversion in an effort to preserve the units as affordable. As part of the Housing Element Update, the City will assess the at-risk status of existing affordable-housing units and develop a program to assess the preservation of such units in the City.
3c.2	<p><b><u>Coordination with Other Agencies to Monitor At-Risk Projects</u></b></p> <p><b>Program Description – Existing:</b> The City of Modesto Housing Program Office will continue to work with the California Housing Partnership Corporation (CHPC). The CHPC provides support to localities and nonprofit housing corporations in addressing a wide range of preservation opportunities.</p>	There has not been a substantial amount of coordination between the Housing Program Office and the CHPC regarding at-risk housing units. In future discussions regarding policies and strategies to deal with conversion issues, including identification of units, the City will seek out the CHPC for inclusion and to make recommendations.
3c.3	<p><b><u>Monitor At-Risk Projects</u></b></p> <p><b>Program Description – Existing:</b> The City of Modesto Housing Program Office shall continue to monitor the at-risk assisted housing projects on an annual basis. The City will keep in touch with the necessary agencies and sources, such as the Housing Authority, the owners of the at-risk units, HCD and HUD. This contact is essential and will help the City to be aware of any situation where assisted units are in danger of converting to non-low-income housing uses. The City will annually monitor the status of the Section 8 renewal contracts and HUD assisted units. The City will also continue to work with the Stanislaus County Housing Authority to develop contingency plans as needed if contracts are not renewed.</p>	The City of Modesto does not have an adopted contingency plan to deal with potential conversions of low-income property to market rate. The City has indicated a desire to work more closely with HCD and HUD to monitor at-risk projects, and to ensure that strategies and techniques used to limit such conversions are current and applicable. As part of the Housing Element Update, the City will assess the at-risk status of existing affordable-housing units and develop a program to assess the preservation of such units in the City.

# HOUSING PLAN

This Housing Plan is a statement of the City's commitment to maintaining, preserving, improving, and developing housing opportunities for all segments of the community. The Plan contains the goals, policies, and objectives, as well as implementing programs, to achieve a high-quality, balanced housing stock that accommodates the needs of existing and

future Modesto residents. Pursuant to State law, the Housing Plan must achieve the following:

- Identify adequate sites that will be made available through appropriate zoning and development standards and with public services and facilities needed to meet the needs of all income levels.
- Assist in the development of adequate housing to meet the needs of low-and moderate-income households.
- Address and, where appropriate and legally possible, remove governmental constraints to the maintenance, improvement, and development of housing.
- Conserve and improve the condition of existing affordable housing stock.
- Promote housing opportunities for all persons regardless of race, religion, sex, marital status, ancestry, national origin, color, familial status, or disability.

The goals, policies, and programs in this Housing Plan are directed to address the following areas:

1. Matching Housing Supply with Need
2. Maximize Housing Choice throughout the Community
3. Provide Safe and Decent Housing
4. Ensure Land Use and Zoning Procedures Accommodating to Housing
5. Reduce Governmental Constraints
6. Ensure Adequate Services to Housing
7. Promote Jobs-Housing Balance

The goals, policies, and programs in this Housing Plan are built upon the 1992 Housing Element and modified to reflect the current and projected needs, existing and potential constraints and opportunities, and effectiveness and relevancy of existing programs.

## **A. HOUSING GOALS AND POLICIES**

### **Goal 1: Match Housing Supply with Need**

- Policy 1.1: Establish and/or support programs to supply below market housing for very-low, low- and moderate-income households, as well as market-rate housing.
- Policy 1.2: Promote the development of affordable housing throughout the community, where appropriate and compatible with existing uses.
- Policy 1.3: Facilitate the development of entry-level housing as well as “step-up” housing.
- Policy 1.4: Facilitate the development of housing for the unmet needs of lower income special needs groups, including the disabled, elderly, homeless and large families (families with five or more persons).

### **Goal 2: Maximize Housing Choice throughout the Community**

- Policy 2.1: Promote equal opportunity for all residents to reside in the housing of their choice.
- Policy 2.2: Continue to make a strong commitment to the issue of fair housing practices, as well as ensure that fair housing opportunities prevail for all City residents regardless of age, sex, religion, ancestry, marital status, family status, income or source of income, race, creed, national origin, sexual orientation, or disabilities.
- Policy 2.3: Encourage a range of housing types to be constructed in subdivisions and large developments.
- Policy 2.4: Facilitate the development of second units as an affordable housing alternative.
- Policy 2.5: Encourage the development and rehabilitation of housing that is accessible to persons with disabilities.

### **Goal 3: Provide Safe and Decent Housing**

- Policy 3.1: Maintain the supply of safe, decent and sound affordable housing in the City of Modesto through the conservation and rehabilitation of the City's existing housing stock.
- Policy 3.2: Focus the use of City resources for housing rehabilitation and assisted housing on those neighborhoods and residents having the greatest need for housing assistance.
- Policy 3.3: Make a maximum effort to preserve, for its lower-income households, the units in assisted housing developments that are eligible to change to non-lower-income uses, due to terminations of subsidy contracts, mortgage prepayment, or expiration of use restrictions.
- Policy 3.4: Assist non-profit housing providers in the acquisition and/or rehabilitation of older residential structures, and maintenance as long-term affordable housing.
- Policy 3.5: Promote energy conservation activities in all residential neighborhoods.

### **Goal 4: Ensure Land Use and Zoning Procedures are Accommodating to Housing**

- Policy 4.1: Track changes in Housing Law to ensure that land use regulations, including zoning, subdivision regulations, and permit processes, are consistent with and supportive of State and federal laws.
- Policy 4.2: Review local regulations periodically for the ability to accommodate projected housing demands.
- Policy 4.3: Maintain an up-to-date site inventory detailing the amount, type, and size of vacant and underused parcels, and assist developers in identifying land suitable for residential development.
- Policy 4.4: Maintain an adequate supply of appropriately designated land for special needs housing, including seniors, disabled persons, large households, farmworkers, the homeless, and transitional persons.

## **Goal 5: Reduce Governmental Constraints**

- Policy 5.1: Establish and maintain development standards that support housing production while protecting quality of life goals.
- Policy 5.2: Continue to provide financial incentives such as fee deferrals and exemptions for developments meeting the affordable and special housing needs of the community.
- Policy 5.3: Continue to provide for timely and coordinated processing of residential development projects to encourage housing production within Modesto.
- Policy 5.4: Review the City's fee structure, including development fees, impact fees, and other municipal costs, periodically to ensure that they do not unduly constrain the production of housing, especially affordable housing.

## **Goal 6: Ensure Adequate Services to Housing**

- Policy 6.1: Promote coordination between infrastructure master plans, service area boundaries, and housing plans to ensure that adequate services be available to serve expected housing growth.
- Policy 6.2: Direct housing to areas where infrastructure and utilities can be provided commensurate with housing production.
- Policy 6.3: Promote infill development as a method of ensuring maximum utilization of existing urban services.
- Policy 6.4: Support policies and programs that will help achieve compliance with Federal and State regulations relating to stormwater pollution prevention.

## **Goal 7: Promote Jobs-Housing Balance**

- Policy 7.1: Encourage the development of workforce housing.
- Policy 7.2: Promote economic development efforts that create employment opportunities for City residents.
- Policy 7.3: Work with Stanislaus County and neighboring jurisdictions to improve the jobs-housing balance in the region.

## **B. IMPLEMENTING PROGRAMS**

Each housing goal is expressed through specific policy statements and implemented with a range of housing programs. A housing program often implements more than one policy and sometimes, more than one goal. For example, the Inclusionary Housing Program (Program 1.3) promotes the development of affordable housing throughout the City (Policy 1.2), offers housing options for persons seeking entry-level and step-up housing (Policy 1.3), and makes available housing affordable to the workforce (Policy 7.1). The programs are categorized by the primary goal for which the programs are intended.

### **Goal 1: Match Housing Supply with Need**

#### **Program 1.1: Community Housing Coalition**

The City will consider the establishment of a local community housing coalition that may include realtors, developers of market rate and affordable housing (both for-profit and non-profit), lenders (for mortgage and construction financing), business leaders, environmentalists, and social service providers.

This coalition could meet on semi-annual basis to discuss and exchange information on successful housing programs that can be implemented either citywide or in specific neighborhoods, strategies to promote the development of a range of housing types that serve the local needs and consistent with the goals and policies of the Modesto Housing Element, and funding resources for affordable housing and neighborhood improvements.

#### **Five-Year Objectives and Time Frame:**

- Establish coalition in 2004 and coordinate semi-annual meetings thereafter

#### **Responsible Agencies:**

- Community and Economic Development Department; Parks, Recreation, and Neighborhoods Department, Stanislaus County Planning Department; Stanislaus County Housing Authority; STANCO; Modesto Association of Realtors; Building Industry Association; developers; lenders; and interested community groups and organizations

#### **Funding Sources:**

- CDBG and private resources

#### **Program 1.2: Affordable Housing Resources**

The City, in coordination with Stanislaus County, affordable housing developers, and others, will continue to pursue affordable housing resources at the national, State, and local levels. With staffing constraints and the competitive nature of most funding programs, the City will focus on pursuing those determined to be most cost-efficient, given the possibility of successful funding applications. The City of Modesto is designated as Participating

Jurisdiction by the United States Department of Housing and Urban Development (HUD). As a result, the City receives an annual grant allocation directly from the HOME Investment Partnership Act as administered by HUD. The City is also designated as an Entitlement Jurisdiction by HUD and receives an annual allocation from HUD Community Development Block Grant (CDBG) program as well as an allocation from the Emergency Shelter Grant (ESG) program. Together, the City has annually received over 3.7 million dollars through these HUD grant programs. The City also receives program income from HUD funded loans that are repaid back to the City. The Modesto Redevelopment Agency annually receives tax increment revenue, of which 20 percent is programmed for housing opportunities for very, low, and moderate-income households. The following is a list of potential programs:

- Low-Income Housing Tax Credits
- State Proposition 46 Housing Funds
- State Downtown Rebound Program
- State Jobs-Housing Balance Grants
- Single-Family Mortgage Revenue Bonds
- Multi-Family Mortgage Revenue Bonds

**Five-Year Objectives and Time Frame:**

- HUD requires the City of Modesto to prepare a five-year plan, also known as the Consolidated Plan, to discuss the manner in which CDBG, HOME and ESG funds will be applied in the community during the five-year period. The City also prepares an annual action plan and an annual performance report on the expenditure of these funds. Separate community development and housing program objectives are included in the Consolidated Plan.
- The Modesto Redevelopment Agency is also required to prepare a five-year plan known as the Redevelopment Implementation Plan. This five-year plan contains objectives on the use of the Redevelopment Agency's 20 percent set-aside funds for furthering housing opportunities in the community. Mid-term during the five-year plan (no later than the end of the third year), the City is required to review the objectives in the Implementation and re-align objectives and planned expenditures, if necessary.
- Monitoring funding cycles annually.

**Responsible Agencies:**

- Community and Economic Development Department; Parks, Recreation, Neighborhoods; Redevelopment Agency; and affordable housing developers. (The Parks, Recreation and Neighborhoods Department makes the federal grant funds available through a variety of methods such as Requests For Proposals, grant applications, and through agreements for exclusive negotiations.)

**Funding Sources:**

- Redevelopment housing set-aside funds, HOME, CDBG as matching grants if necessary

### **Program 1.3: Inclusionary Housing Program**

---

The City will conduct a feasibility study to establish an inclusionary housing program with an in-lieu fee option. This program will require a fixed percentage of all units in new developments to be affordable to lower income households. Potential parameters for the program include:

- A citywide inclusionary program with a minimum requirement of 10 percent of the units being affordable to lower income households
- Policy is applied to all new housing developments (both single-family and multi-family) of more than 10 units
- An in-lieu fee option is available when on-site provision of inclusionary units is deemed not feasible
- Units remain affordable for the longest time feasible either through deed-restrictions (rental units) or resale provisions (ownership units)
- Inclusionary units to primarily benefit existing Modesto residents and persons who work in the City

If an inclusionary housing program is determined to be infeasible, the City may also consider adopting an affordable housing fee to be imposed on new housing development.

#### **Five-Year Objectives and Time Frame:**

- Research the feasibility of adopting either an inclusionary housing program or an affordable housing fee program in 2004, with the potential adoption of an ordinance in 2005

#### **Responsible Agencies:**

- Community and Economic Development Department (Planning Division); City Attorney's Office; Planning Commission; and City Council

#### **Funding Sources:**

- General Fund

### **Program 1.4: Citywide Housing Trust Fund**

---

The City will be considering the adoption of an inclusionary housing policy with an in-lieu fee option or an affordable housing fee program after first conducting a nexus study to determine if it is legally possible to establish such a fee. If either approach is adopted, the City will seek to re-establish a Citywide Housing Trust Fund for the provision, preservation, and improvement of housing affordable to lower and moderate income households using the fees collected. Expenditure and monitoring of the Housing Trust Fund, as well as other housing funds, will be performed by one department, ensuring improved coordination and cost efficiency. Other funding sources with consistent requirements may be combined in the Housing Trust Fund.

**Five-Year Objectives and Time Frame:**

- Staff to study the feasibility of a citywide program by the end of 2004
- Prepare ordinance (if determined to be feasible) and begin implementation by the end of 2005

**Responsible Agencies:**

- Community and Economic Development Department; Parks, Recreation, Neighborhoods; Redevelopment Agency; Planning Commission; and City Council

**Funding Sources:**

- Redevelopment housing set-aside funds, HOME, CDBG
- Inclusionary housing in-lieu fee (potential)
- Other funding sources as they become available

**Program 1.5: Consolidated Plan**

---

The City is an entitlement jurisdiction eligible to receive Community Planning and Development (CPD) funds from HUD. Annually, the City receives approximately \$7.5 million in CDBG, HOME, and ESG funds from HUD. Uses of these funds must:

- Create decent and safe living environment
- Benefit people with lower incomes (up to 80 percent of County Median Income)
- Aid in the prevention or elimination of blight
- Provide economic opportunities
- Address an urgent need (such as earthquake or flood)

To receive these funds, the City must develop a Consolidated Plan that outlines the City's strategy for addressing housing and community development needs. The Consolidated Plan must be consistent with the policies and programs of the Housing Element. The Consolidated Plan strategy must be updated at least once every five years, and annually an Action Plan is required to describe the City's planned use of HUD funds.

**Five-Year Objectives and Time Frame:**

- Prepare Action Plan annually
- Prepare new Consolidated Plan for FY 2005/06 through FY 2009/10 due at HUD on May 15, 2005

**Responsible Agencies:**

- Parks, Recreation, and Neighborhoods Department

**Funding Sources:**

- CDBG, HOME, and ESG funds

### **Program 1.6: Nonprofit Housing Development Corporations**

---

The City will support non-profit corporations in their efforts to make housing more affordable to lower and moderate income households. Specifically, the City will work with City-designated Community Housing Development Corporations (CHDOs) to promote, assist, and/or sponsor housing developments in Modesto for lower income households.

#### **Five-Year Objectives and Time Frame:**

- Ongoing

#### **Responsible Agencies:**

- Parks, Recreation, and Neighborhoods Department; and Community and Economic Development Department

#### **Funding Sources:**

- CDBG, HOME, and redevelopment housing set-aside funds

### **Program 1.7: Density Bonus**

---

State density bonus law requires that a jurisdiction grant a 25 percent density bonus and at least one regulatory concession or incentive if a developer provides one of the following: 1) 20 percent of the units affordable to lower income households; 2) 10 percent of the units affordable to very low income households; 3) 50 percent of the units for seniors; or 4) 20 percent of the condominium units affordable to moderate income households. The units must remain affordable for a minimum of 10 years if no financial assistance or regulatory concession/incentive is provided. For projects that receive financial assistance and/or regulatory concessions/incentives, the units must remain affordable for 30 years.

The current density bonus provisions contained in the Modesto Zoning Ordinance grants a density bonus to a senior housing project only if 50 percent of the units are affordable to very low income seniors. This provision is considered more stringent than the State density bonus law and will need to be modified to comply with State law. In addition, the Modesto Zoning Ordinance will need to be modified to incorporate the recent changes in State law (AB 1866) regarding density bonus for moderate income condominium units.

#### **Five-Year Objectives and Time Frame:**

- Revise City density bonus provisions to comply with State law by the end of 2004
- Ongoing promotion of the density bonus program to developers with the objective of achieving 250 density bonus units between 2003 and 2008 (or an average of 50 units per year)

#### **Responsible Agencies:**

- Community and Economic Development Department (Planning Division); Planning Commission; City Council; and Stanislaus County Housing Authority (for contract monitoring)

### **Funding Sources:**

- General Fund and applicants for contract monitoring costs

### **Program 1.8: Land Banking and Land Trust**

---

The City will continue its land banking efforts for the development of lower and moderate income housing. The City/Redevelopment Agency, working with nonprofit organizations such as CHDOs, will purchase land suitable for affordable housing in the near future. Land banking will ensure preservation of areas in the City for future affordable housing by removing these areas from the private development market and allowing the City to work with nonprofit organizations to develop affordable projects that serve the specific needs of the community, such as the need for entry-level and step-up housing.

The City will also explore other mechanisms such as a land trust to facilitate the development of affordable housing. Land trusts are an increasingly popular mechanism used by communities where high land costs make the provision of affordable housing difficult. Typically, a nonprofit organization forms a trust that holds the title of the land on which affordable housing is developed. When the housing is developed, the individual homebuyers purchase only the improvements (the housing units) on the land, but do not hold the title to the land, thereby making the purchase prices affordable to lower and moderate income households.

### **Five-Year Objectives and Time Frame:**

- Ongoing land banking efforts
- Explore the use of land trust for affordable housing in 2004

### **Responsible Agencies:**

- Parks, Recreation, and Neighborhoods Department; Community and Economic Development Department; Redevelopment Agency; and local nonprofits (e.g. STANCO and Habitat for Humanity)

### **Funding Sources:**

- CDBG, HOME, and redevelopment housing set-aside funds

### **Program 1.9: Homebuyer Assistance**

---

The City offers a range of homebuyer assistance programs to promote homeownership among lower and moderate income households. Three homebuyer assistance programs are available:

- Down Payment Assistance Program: The City provides down payment assistance of up to \$25,000 to lower income households (up to 80 percent of County Median Income) using CDBG funds. Homebuyers must provide minimum initial investment of 1.5 percent of the sales price. The loan accrues at an annual fixed rate of 3 percent

and is secured by a promissory note and Deed of Trust recorded after the primary mortgage.

- Lease-to-Own Program: The City partners with Pacific Housing and Financing Agency (PHFA) to promote a lease-to-own program. Under this program, the income-qualified participant (up to 140 percent of County Median Income) selects a home, which PHFA will buy and finance a 3 percent down payment and pay all closing costs. The participant will pay a 1 percent participation fee and make lease payments for 39 months. After 39 months, the participant assumes title to the house with a competitive interest rate loan for the remainder of the mortgage (26 years and 9 months). If the participant is unable to assume the title for the home for any reason, the lease can be terminated without penalty.
- Mortgage Credit Certificates: The City participates in the County Mortgage Credit Certificates (MCC) program. The MCC program is administered by the Stanislaus County Housing Authority and allows lower and moderate income first-time homebuyers (up to 100 percent of County Median Income) to take 20 percent of their annual mortgage interest as a dollar-for-dollar tax credit against federal income tax.

#### **Five-Year Objectives and Time Frame:**

- Assist 18 lower and moderate income households annually through the City's various homebuyer assistance programs (Down Payment Assistance: 10 households; Lease-to-Own: 3 households; MCC: 5 households), with an objective of assisting 90 households over 5 years
- Assist annually in the dissemination of information on available homebuyer assistance programs through brochures available in the City's central and field offices, City website, referrals, attendance at homebuyer fair, presentations to lenders and realtors, ads in local newspapers (e.g. Modesto Bee, El Sol 2000) and in the City monthly utility insert bulletin
- Annually review the down payment assistance amount and loan term to assess if adjustments are necessary to reflect local housing market conditions and affordability of housing relative to household incomes (such as lower interest rate or higher down payment assistance)

#### **Responsible Agencies:**

- Parks, Recreation, and Neighborhoods Department; Redevelopment Agency, PHFA; and Stanislaus County Housing Authority

#### **Funding Sources:**

- Down Payment Assistance Program – CDBG
- Lease-to-Own Program – PHFA mortgage revenue bonds
- Mortgage Credit Certificates – Allocation from CDLAC

### **Program 1.10: Rental Assistance**

---

The Section 8 Rental Assistance Program for very low income households is administered by the Stanislaus County Housing Authority. As of 2002, approximately 4,000 households receive rental assistance under the Section 8 Rental Assistance program. Under this program, the participants typically pay no more than 30 percent of their household income on rent (affordable housing cost threshold). The Housing Authority pays the rental property owners the difference between the payment standards established by the Authority and the affordable housing cost threshold.

#### **Five-Year Objectives and Time Frame:**

- Ongoing support for the Housing Authority to petition for increased Section 8 allocation
- Ongoing assistance in promoting the program to eligible households through City website, brochures, newsletters, and referrals

#### **Responsible Agencies:**

- Stanislaus County Housing Authority; and Parks, Recreation, and Neighborhoods Department

#### **Funding Sources:**

- HUD Section 8 allocations, Housing Authority administrative funds, and City CDBG funds (for program promotion)

### **Program 1.11: Relocation Assistance**

---

When housing units are removed (permanently or temporarily) due to actions of the redevelopment activities, the Redevelopment Agency (Community and Economic Development Department) must provide relocation assistance to those affected. If relocation is necessary, the Agency must adhere to the Agency's relocation guidelines to minimize impacts on residents and provide adequate and reasonable relocation assistance. When housing units are being rehabilitated under the City's Housing Maintenance Program, or when households are displaced because of City housing code enforcement efforts, the City offers temporary relocation assistance to displaced households.

#### **Five-Year Objectives and Time Frame:**

Assist annually in the dissemination of information on available relocation assistance programs through brochures available in the City's central and field offices, City websites, referrals, attendance at homebuyer fairs, presentations to lenders and realtors, ads in local newspapers (e.g. Modesto Bee, El Sol 2000) and in quarterly in the City's monthly utility insert bulletin

#### **Responsible Agencies:**

- Parks, Recreation, and Neighborhood Department; Community and Economic Development Department

### **Funding Sources:**

- CDBG, HOME, and Redevelopment housing set-aside funds

### **Program 1.12: Continuum of Care Serving the Homeless**

Modesto joined forces with other jurisdictions in the County to address homeless issues in the County through a continuum of care approach. The continuum of care system involves seven components: 1) outreach; 2) intake and assessment; 3) supportive services; 4) emergency shelter; 5) transitional housing; 6) permanent housing with supportive services; and 7) permanent housing.

The Stanislaus Housing and Supportive Services Collaborative, a regional collaborative, was formed to update and further the goals of the Continuum of Care Plan. This collaborative is comprised of local government representatives, nonprofit service providers, advocates for the homeless, neighborhood representatives, and business groups. The following strategies have been identified by the collaborative as key elements to deliver an integrated and coordinated system of services:

- Deliver preventive and support services
- Promote outreach and education on available services
- Integrate health and social services
- Expand on existing collaborative efforts and develop additional supportive housing
- Provide vocational and employment-readiness training
- Address the diverse needs of homeless persons and families
- Establish a local board that will ensure implementation of the Continuum of Care
- Consider the needs of the homeless on a regional and inter-agency basis

In adherence with the Continuum of Care model, the City continues to address the needs of homeless persons and families by funding local nonprofit agencies that provide direct services to the homeless, including emergency shelters, transitional housing facilities and programs, and supportive services. Specifically, the City has leased repossessed houses from HUD for transitional housing services and has provided funding to nonprofit organizations to purchase houses that would be used for transitional housing.

### **Five-Year Objectives and Time Frame:**

- Ongoing support of the Continuum of Care Plan and participation in the Collaborative
- Annually allocate funding resources to support agencies that serve the homeless
- Seek to increase the transitional housing inventory by five units over the next five years

### **Responsible Agencies:**

- Parks, Recreation, and Neighborhoods Department; and Collaborative partners

### **Funding Sources:**

- CDBG and ESG funds

## **Goal 2: Maximize Housing Choice throughout the Community**

### **Program 2.1: Manufactured Housing**

---

Pursuant to State law, the City will continue to permit manufactured housing/mobile homes in all residential districts, provided that they meet the same standards as conventional housing and are placed on a permanent foundation.

#### **Five-Year Objectives and Time Frame:**

- Continue to provide information on permitting requirements for manufactured housing/mobile homes with the objective of achieving 10 units per year for a total of 50 units over five years

#### **Responsible Agencies:**

- Community and Economic Development Department (Planning Division)

#### **Funding Sources:**

- None required

### **Program 2.2: Second Units/Accessory Units**

---

The Zoning Ordinance allows the development of a second living unit in all residential districts. Currently, approval of a second unit is granted either by the Planning Commission or Zoning Administrator, depending on the zoning district in which it is proposed. Recent changes to State law (AB 1866) require that second units be allowed by a ministerial permit rather than a discretionary permit.

#### **Five-Year Objectives and Time Frame:**

- Review the City's second unit provisions in 2003 to ensure development standards facilitate and encourage the development of such units without compromising neighborhood integrity
- Revise the Zoning Ordinance by the end of 2003 to allow second units by a ministerial permit provided the units meet City standards
- Create marketing strategy (cable television announcements, website, newsletter, brochure at public counters) in 2004 to actively promote the development of second units, with the objective of achieving 15 units per year for a total of 75 units over 5 years

#### **Responsible Agencies:**

- Community and Economic Development Department (Planning Division)

#### **Funding Sources:**

- None required

### **Program 2.3: Handicapped Accessible Housing**

---

The City complies with the 1988 Fair Housing Access Act through building inspections, as well as the Disabled Access Assistance Program (Program 3.1). Standards from the Fair Housing Access Act have been incorporated into the Uniform Building Code and are enforced by the building inspectors.

#### **Five-Year Objectives and Time Frame:**

- Ongoing compliance with Fair Housing Access Act through enforcement of the Uniform Building Code
- Ongoing assistance in promoting awareness of accessibility requirements through City website and brochures

#### **Responsible Agencies:**

- Community and Economic Development Department (Building and Development Services Division); Stanislaus County Housing Authority; and providers of multi-family housing

#### **Funding Sources:**

- General Fund and private resources

### **Program 2.4: Single Room Occupancy**

---

Single Room Occupancy (SRO) units serve primarily the lower income tenant and should be located in proximity to existing social services. While the demand for such housing is low, the City will continue to permit Single-Room Occupancy projects through the Planned Development Zone process.

#### **Five-Year Objectives and Time Frame:**

- Ongoing

#### **Responsible Agencies:**

- Community and Economic Development Department (Planning Division)

#### **Funding Sources:**

- General Fund

### **Program 2.5: Fair Housing Services**

---

The City actively furthers fair housing in the community. Specifically, the City continues to support the Human Relations Commission in their activities to promote fair housing. The Human Relations Commission is a seven-member advisory group that meets bi-monthly to promote good human relations in the community and is staffed by the City Manager's Office.

The City contracts with Project Sentinel to provide fair housing services and counseling for the community, working to eliminate housing discrimination and remove impediments to equal housing opportunities. The City also coordinates seminars on tenant rights and responsibilities and to address illegal activities in rental housing.

#### **Five-Year Objectives and Time Frame:**

- Ongoing provision of fair housing services
- Periodically report to the Human Relations Commission on fair housing issues
- Update the Analysis of Impediments to Fair Housing Choice by 2004
- Assist annually in the dissemination of information on fair housing rights and violation remedies through brochures available in the City's central and field offices, City websites, referrals, attendance at homebuyer fairs, presentations to lenders and realtors, ads in local newspapers (e.g. Modesto Bee, El Sol 2000) and in occasionally in the City's monthly utility bulletin insert

#### **Responsible Agencies:**

- Human Relations Commission; City Manager's Office; Parks, Recreation, and Neighborhoods Department; and Project Sentinel

#### **Funding Sources:**

- CDBG and General funds

## **Goal 3: Provide Safe and Decent Housing**

### **Program 3.1: Housing Rehabilitation and Improvement**

---

The City offers a range of housing rehabilitation and improvement assistance to lower income households (up to 80 percent of County MFI). These include:

- **Property Enhancement Program:** The City provides financial assistance, in the form of rebates, to enable property owners to improve the exterior appearance of their properties. Eligible homes must be located within the city limits and within one of the City's low-income census tracts. Types of eligible improvements include: property clean up, painting of the exterior of the housing unit, fence/gate repair, front and side yard landscaping, security/safety and energy savings improvements, as well as exterior property enhancements.
- **Emergency Home Repair Program (EHRP)/Disabled Access Assistance Program (DAAP):** The City provides low-interest, deferred payment loans for the repair of

immediate critical hazards for Modesto households with low and very-low incomes. The program is only available to owner-occupants. In addition, the City offers free technical assistance on removing mobility barriers from home or property. Low-interest financing is also available to handicapped homeowners living in Modesto to assist them with removing mobility barriers from their home or property.

- **Housing Maintenance Program:** The City provides financial and technical assistance to eliminate health and safety hazards to homes within the City's Target Areas: Airport Neighborhood; Highway Village Neighborhood; and Maple, Oak and Pine – 400 Block.
- **Tool Bank Rental Program:** The City offers a property maintenance tool rental program in the City's current Target Areas: Airport Neighborhood; Highway Village Neighborhood; and Maple, Oak and Pine – 400 Block, and previous target areas. Eligible tools include lawn mowers, weed eaters, lawn edgers, tillers, sewer snakes and carpet cleaners. Rental of the tools is free of charge during the allowable time period.

**Five-Year Objectives and Time Frame:**

- Assist 53 households annually through the various programs (Property Enhancement: 5 households; EHRP/DAAP: 12 households; Housing Maintenance: 36 households), with an objective of assisting 265 households over 5 years
- Continue to promote the availability of the various housing rehabilitation and improvement programs through neighborhood and community organizations, and by using the most effective media, including brochures, newsletter, City website, and referrals

**Responsible Agencies:**

- Parks, Recreation, and Neighborhoods Department

**Funding Sources:**

- CDBG

**Program 3.2: Preservation of Units at Risk**

---

Several publicly assisted housing projects, totaling 735 units affordable to lower income households, may be at risk of converting non-low-income uses due to termination of rental assistance contracts and/or expiration of deed restrictions. To the extent feasible, the City will work to preserve the affordability of these units in partnership with property owners and/or other interested housing providers.

**Five-Year Objectives and Time Frame:**

- Monitor the at-risk status of projects annually and contact project owners to discuss preservation options and incentives
- Send a list of potentially at-risk housing projects to nonprofit developers to solicit participation in the City's efforts to preserve the units

- Work with the Stanislaus County Housing Authority to provide technical assistance to tenants regarding the availability of Section 8 vouchers in case units are converted to market rate housing
- Work with project owners and nonprofit housing providers to pursue preservation of the at-risk units, with the goal of meeting AB 438 provisions for using existing units to fulfill a portion of the City's RHNA for lower income households

**Responsible Agencies:**

- Parks, Recreation, and Neighborhoods Department; Stanislaus County Housing Authority; HUD

**Funding Sources:**

- HOME, Section 8 Rental Assistance, redevelopment housing set-aside funds, citywide Housing Trust Fund (if adopted), among others

**Program 3.3: Energy Conservation and Efficiency**

---

The City will continue to encourage development and construction standards that encourage energy conservation in residential buildings. The City provides no-cost or low-cost weatherization to low-income households through the Disabled Access Assistance Program and Emergency Housing Repair Program (Program 3.1). Energy efficiency improvements are automatically included and required in all housing rehabilitation projects. In addition, the City provides literature and information on programs for increasing energy efficiency in residential structures.

**Five-Year Objectives and Time Frame:**

- Ongoing distribution of program materials through brochures and City website
- Assist 10 households annually through the Disabled Access Assistance Program and Emergency Housing Repair Program with the objective of assisting 50 households over 5 years

**Responsible Agencies:**

- Parks, Recreation, and Neighborhoods Department

**Funding Sources:**

- CDBG funds

**Program 3.4: Distribution of Energy Savings Devices**

---

The City will continue to distribute smoke detectors, water heater blankets, and anti-siphon backflow devices for hose bibs free of charge to rehabilitation clients (see Program 3.1).

**Five-Year Objectives and Time Frame:**

- Continue to offer energy savings devices to rehabilitation clients (number of households to be assisted is included in the various housing rehabilitation programs)

**Responsible Agencies:**

- Parks, Recreation, and Neighborhoods Department

**Funding Sources:**

- CDBG

**Goal 4: Ensure Land Use and Zoning Procedures are Accommodating to Housing**

**Program 4.1: Residential Sites Inventory**

---

As part of this Housing Element update, the City has reviewed in detail its residential land inventory for vacant and underutilized sites available for housing development within the time frame of this Element. The City identified a surplus in sites for the development of housing for all income groups. To meet the State mandate of accommodating the RHNA and to maintain consistency with the City’s goal of focusing growth within the Baseline Development Area and the Planned Urbanizing Area, the City is committed to maintaining this sites inventory by facilitating the development of the Roselle/Claribel, Fairview Village, Johansen/Empire North and Waterman/Luchessa areas and designating at least 15% of the residentially designated areas be developed with multi-family development at an average density of 22 units per acre.

The local housing market has made it difficult for very low and low-income households to purchase a single-family detached home. As a result, very low and low-income households are planned to be served by multi-family units. The City estimates a surplus of 2 to 9 acres of multi-family designated sites during the period of this Housing Element.

**Five-Year Objectives and Time Frame:**

- Adopt specific plans for the following Comprehensive Planning District areas by the following dates:

<u>Specific Plan Area/Name</u>	<u>Anticipated Specific Plan Adoption</u>
Roselle/Claribel SP	December 31, 2006
Fairview Village SP	December 31, 2006
Kiernan/Carver (Waterman/Luchessa)	December 31, 2006
Johansen/North Empire	June 30, 2007

- If the above specific plans are not adopted, then the City will take the following actions, if necessary to maintain a sufficient sites inventory to meet the City’s Regional Housing Needs Allocation.
  - Rezoning, as appropriate, existing R-2 multi-family sites for R-3 multi-family housing to fill any gap for lower income households not accommodated by the specific plans listed above commensurate with anticipated plan adoption timelines. Rezones will be initiated no later than 6-12 months after anticipated specific plan adoption dates.

- Rezone, as appropriate, existing vacant and/or underutilized commercial and industrial properties within the City limits for R-3 multi-family housing development
- Continue to assess the appropriateness of public surplus lands to be used for residential development
- Pursue voter approval for additional areas for annexation
- Continue to pursue opportunities to preserve at-risk rental housing and to convert existing non-affordable rental housing to long-term housing affordable to lower income households in accordance with the provisions of AB 438
- Identify and evaluate appropriate sites for upzoning and rezoning in 2004 and complete upzoning/rezoning process in 2005, if necessary to maintain a sufficient sites inventory to meet the City's Regional Housing Needs Allocation.
- Identify additional areas for annexation in 2005 and pursue Measure M approval in 2006
- Update residential sites inventory annually
- To provide for adequate multi-family housing sites, all new residentially designated areas in developing Comprehensive Planning Districts will be designated and developed with a minimum 15 percent of residential area as multi-family. The City is committed to maintaining this sites inventory by facilitating the development of the Roselle/Claribel, Fairview Village, Johansen/Empire North and Waterman/Luchessa areas.

#### **Responsible Agencies:**

- Community and Economic Development Department (Planning Division); Planning Commission; and City Council

#### **Funding Sources:**

- General Fund

### **Program 4.2: Zoning Code Amendments**

---

As part of this Housing Element update, the City has identified several revisions to the Zoning Code necessary to meet recent changes to State laws and to further facilitate the development of affordable housing and housing for persons with special needs. These include:

- Revision to the density bonus provisions to eliminate the low income requirement for senior projects and condominium projects to receive density bonus in compliance with state law (Program 1.7)
- Revision to specifically identify in which zones transitional housing is permitted through a Conditional Use Permit subject to approval by the Board of Zoning Adjustment.
- Revision to reflect recent changes in State law regarding second units (Program 2.2)
- Revision to eliminate pyramid zoning system that permits single-family housing to be constructed in multi-family zones
- Revision to establish a formal procedure for persons with disabilities seeking reasonable accommodation (see Program 4.3)

**Five-Year Objectives and Time Frame:**

- Within one year of the adoption of the 2003-2008 Modesto Housing Element, amend the Zoning Code to address density bonus, transitional housing, second unit, and pyramid zoning issues
- Annually review zoning ordinance, subdivision regulations, and development policies and procedures for consistency with State and Federal laws
- Within one year of the adoption of the 2003 –2008 Modesto Housing Element, amend the Zoning Code to establish a minimum development density for the R-2 and R-3 residential zones and to disallow lower densities in the R-2 and R-3 zones

**Responsible Agencies:**

- Community and Economic Development Department (Planning Division); City Attorney's Office; Planning Commission; and City Council

**Funding Sources:**

- General Fund

### **Program 4.3: Reasonable Accommodation**

---

As part of the City's 1998 Analysis of Impediments to Fair Housing Choice, the City's Zoning Ordinance and building codes were reviewed for impediments to housing for persons with disabilities. As a result of the study, the Zoning Ordinance was amended to expand the definition of family to accommodate group home development and other licensed community care facilities.

As part of this Housing Element update, the Housing Element update Project Manager interviewed the Chief Building Official in the Building Inspection Division and the Principal Planner of Current Planning Section of the Planning Division to assess if City application and development procedures and codes constrain the development of housing for persons with disabilities. In their review of the City's land use zoning policies, adopted building codes, development standards, and permitting procedures, these sources did not identify any potential constraints for the development of housing for the disabled. To the contrary, the City's Planned Development zoning designation provides for the development of residential projects at relaxed development standards. The City expects that housing development projects for the disabled would be approved with relaxed development standards.

In addition, the City has five advisory committees established to help address the various needs of the disabled. These include: Citizens Housing and Community Development Committee; Disabled Access Appeals Board; Equal Opportunity/Disability Commission; Human Relations Commission; and Housing Rehabilitation Loan Committee. The City does not charge any fees associated with access to these committees and does not assess fees for review or approval of accommodation requests. The one potential constraint is the lack of a specific procedure for processing reasonable accommodation requests.

The City will establish a formal reasonable accommodation process to provide individuals with disabilities, reasonable accommodations in rules, policies, practices and procedures that may be necessary to ensure equal access to housing. The purpose of this effort is to provide a clear and consistent process for individuals with disabilities to make requests for reasonable accommodation in order to obtain relief from the various land use, zoning, building laws, rules, policies, practices and/or procedures of the City.

The reasonable accommodations process would specify that following ADA requirements, fair housing laws, as well as definitions of disabilities, the City will take steps to establish procedures for granting reasonable accommodations. This may include revisions to the zoning ordinance which would specify who qualifies for reasonable accommodation, how to apply for reasonable accommodation, what types of reasonable accommodations can be made, provided health and safety codes are not violated, and the procedures for approval (as discretionary approval by the Zoning Administrator or Community & Economic Development Director). The types of reasonable accommodation may include relaxing development standards in order to accommodate a disabled person's application for permits relating to modifications of his/her home for accessibility purposes. Reasonable accommodation may also include fee waiver or reduction for disabled persons.

**Five-year Objectives and Time Frame:**

- Establish a formal reasonable accommodation process by July 2005 to incorporate procedures for requesting reasonable accommodation

**Responsible Agencies:**

- Community and Economic Development Department; Modesto Independent Living Center

**Funding Sources:**

- City General Fund

## **Goal 5: Reduce Governmental Constraints**

### **Program 5.1: Multi-Family Developer Incentive Program**

The Stanislaus County Housing Authority and nonprofit sponsors of housing for very-low-income households are exempt from the City's Capital Facilities Fees (developer fees). For multi-family projects with density bonuses, 20 percent of the project units must serve low income households or 10 percent of the units must serve very low income households. For these projects, developer construction fees are levied by deferring payment of Capital Facility Fees with 20 percent required down and five years to pay.

**Five-Year Objectives and Time Frame:**

- Assist multi-family density bonus project developers with fee deferrals of Capital Facilities Fees, for projects serving very-low and low-income households with an objective of assisting 30 units per year or 150 units over 5 year

**Responsible Agencies:**

- Community and Economic Development Department (Planning Division); and City Council

**Funding Sources:**

- General Fund

### **Program 5.2: Streamlined Application Review and Permit Processing**

The City complies with the State-mandated Permit Streamlining Act, which ensures timely processing of planning development applications. The City building permit inspections and review have a minimal turnaround time, and no processing procedures result in extensive delays for affordable housing.

The City Council has available to it the ability to declare a "shelter crisis" eliminating the requirement for a use permit for the establishment of an emergency shelter for any period of time so designated. By adopting such a declaration, the City may also suspend certain development standards and building code requirements that were non-safety in nature. In

January of 2004, the City Council declared a “Shelter Crisis” under California Government Code Section 8698 (d) and a temporary emergency shelter was immediately established at 320 Ninth Street. This emergency shelter facility was remodeled and furnished over a four-week period with City coordination and much community participation. The Salvation Army elected to operate the shelter during the emergency period. The shelter accommodates 50 adults.

**Five-Year Objectives and Time Frame:**

- Continue the City’s periodical reviews of the application review and permit processing procedures and time frame to ensure continued compliance with the Permit Streamlining Act

**Responsible Agencies:**

- Community and Economic Development Department

**Funding Sources:**

- General Fund

**Program 5.3: Reduction of Parking Standards**

---

In general, parking requirements in the City do not serve as a constraint to housing development. However, the City allows a reduction in parking standards for senior housing developments. The objective is to match parking standards with need to reduce costs. As the City begins to promote mixed-use developments along the commercial corridors, flexible parking standards may be adopted for mixed use projects and projects that involve small-size units.

**Five-Year Objectives and Time Frame:**

- Continue to offer reduced parking requirements for senior housing developments
- Review parking requirements in 2005 for mixed-use projects to offer flexibility in meeting parking needs (such as shared parking with commercial uses, off-site parking, reduced parking due to potential reduced trips)
- Consider reducing the parking requirements in 2005 for projects that include small-size units (such as studios, lofts, and one-bedroom units)

**Responsible Agencies:**

- Community and Economic Development Department (Planning Division)

**Funding Sources:**

- General Fund

### **Program 5.4: Annual Report of General Plan**

---

In accordance with State law, an annual review of the City's progress in implementing the General Plan must be conducted by the City Council. This review should include the progress of the Housing Element in meeting its share of the regional housing needs. The City will make any necessary adjustments to the General Plan elements (including the Housing Element) to ensure consistency among the elements, to promote effective policy and program implementation, and to reflect changed conditions and regulations. As part of the annual review, the City will evaluate its progress in meeting its share of the Regional Housing Needs Allocation (RHNA). If components of the RHNA are not met, the City will evaluate the reasons for this occurrence and respond in conformance with implementation programs as set forth in the Housing Element

#### **Five-Year Objectives and Time Frame:**

- Conduct annual reviews of the General Plan implementation

#### **Responsible Agencies:**

- Community and Economic Development Department (Planning Division)

#### **Funding Sources:**

- General Fund

### **Program 5.5: Administrative Coordination**

---

Currently, several departments in the City are responsible to the delivery of various housing programs. For example, the CDBG- and HOME-funded housing programs are administrated by the Parks, Recreation, and Neighborhoods Department. Uses of the redevelopment housing set-aside funds are overseen by the Community and Economic Development Department. The coordination of program delivery and uses of funds among departments requires increased efforts and sometimes results in duplicated efforts. Particularly, if a Housing Trust Fund is created to consolidate various housing funding sources (Program 1.3), the City may consider assigning the responsibility of overseeing the Trust Fund to one department.

#### **Five-Year Objectives and Time Frame:**

- Consider reassignment/consolidation of housing program responsibilities in 2004

#### **Responsible Agencies:**

- Community and Economic Development Department; Parks, Recreation, and Neighborhoods Department; City Council

#### **Funding Sources:**

- None required

## **Goal 6: Ensure Adequate Services to Housing**

### **Program 6.1: Urban Growth Policy Update**

---

The Modesto General Plan calls for the City to maintain a five-year supply of vacant and agricultural land served with urban infrastructure and available for development. In addition, the General Plan provides that new development should occur next to existing development. This avoids situations in which the City might become responsible for extending urban services (for example, sewer lines) through open areas to new development.

The purpose of the Urban Growth Policy Update is to identify land that would be available for development, and would be sufficient to provide a five-year supply. There are two parts to this process: one is the preparation of an inventory of available land for various uses (residential, commercial, business park), and the second is an analysis of market conditions expected over the next five years.

Three areas of the City are identified in the Urban Area General Plan. One is the Redevelopment Area, located in the downtown area of the City. The second is the Baseline Developed Area, which is generally that portion of the City that is already developed. The third area is the Planned Urbanizing Area. This portion of the community extends beyond the City limits to the City's "Sphere of Influence." The Sphere of Influence is the area in which the City would likely extend urban services at some point in the future.

Preparation of a Sewer Master Plan is expected to commence in 2003. This plan will analyze sewer infrastructure improvements needed to provide sewer service to both growth areas and existing areas. The analysis will evaluate sewer trunk extensions, relief sewers, wastewater treatment, disposal capacity, costs of improvements and funding sources for system upgrades. Once this information is available, the City will be in a position to evaluate how much and where the City can grow.

#### **Five-Year Objectives and Time Frame:**

- Conduct an Urban Area Growth review every two years to direct and manage growth, ensuring adequate urban services for new developments
- Commence the preparation of Sewer Master Plan in 2003

#### **Responsible Agencies:**

- Community and Economic Development Department; and Engineering and Transportation Department

#### **Funding Sources:**

- None required

## **Program 6.2: Encourage Infill Development**

---

In an effort to maximize efficiency of existing infrastructure, the City will establish a program to provide regulatory, financial, or other incentives to promote infill development to meet projected housing needs.

According to Section 15331 of the California CEQA Guidelines, Infill development projects are those projects that meet the following characteristics:

- a) The development project is consistent with the general plan designation and the zoning.
- b) The project is located within the City limits on a site of no more than five acres, substantially surrounded by urban uses.
- c) The project has no value as habitat for endangered, rare or threatened species.
- d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality.
- e) The site can be adequately served by all required utilities and public services.

The City will solicit input from local developers and interested parties to determine the greatest obstacles to infill development, and develop strategies accordingly to address these obstacles. The creation of marketing materials by the City to promote infill development may be a part of this program. Marketing materials may include development fee waivers for the development of affordable housing, the availability of CDBG grants to assist with public infrastructure improvements to affordable housing projects, the availability of vacant residential sites inventory report, listing site locations, acreages, ownership, zoning and entitlement requirements.

In addition to the resources listed above, the City indirectly lowers the development costs by streamlining the development application process for infill-development through a number of activities that include:

- pre-application meetings with applicants
- consolidation of development applications
- expedited review
- streamlined environmental assessment through the use the infill exemptions where appropriate and the use of a Master Environmental Impact Report.
- Lesser requirements and costs for the entitlement process (for example, no specific plan or financing master plan is required).

Infill development incentives include the advantage of existing infrastructure, straight zoning that allows development to go directly to filing a building permit, deferred dedication and improvements where appropriate and relaxed standards through the availability of the planned development zone.

Residential development proposals that agree to provide affordability covenants may receive fee deferrals or waivers based on household income criteria applied to the residential development.

**Five-Year Objectives and Time Frame:**

- Ongoing, with incentives in place by 2005

**Responsible Agencies:**

- Community and Economic Development Department (Planning Division)

**Funding Sources:**

- General Fund, CDBG, HOME, redevelopment housing set-aside funds

## **Goal 7: Promote Jobs-Housing Balance**

### **Program 7.1: Coordination of Housing and Economic Development Efforts**

In recent years, housing growth in Modesto has been largely absorbed by San Francisco Bay Area workers who seek affordable housing eastward. A jobs-housing imbalance exists, jeopardizing the quality of life offered by Modesto, creating impacts on the City's infrastructure systems, air quality, and economic well-being of the community. To attempt balancing housing growth and economic development, the City offers several mechanisms:

- Urban Growth Policy Update (Program 6.1): to ensure a balanced inventory of land uses is available for the upcoming five years
- Redevelopment: to revitalize residential neighborhoods and commercial/industrial areas with blighted conditions
- Revolving Loans: to assist businesses in making necessary improvements and expansion efforts for economic/employment development purposes
- Revenue Bonds: to provide for the construction and rehabilitation of major infrastructure and facilities necessary to support economic development efforts
- Enterprise Designation Area: to offer fee rebates or exemptions to attract new businesses, retain existing businesses, and encourage expansion efforts
- 

**Five-Year Objectives and Time Frame:**

- Ongoing economic development efforts

**Responsible Agencies:**

- Community and Economic Development Department (Business Development Office)

**Funding Sources:**

- Redevelopment tax increment, revenue bonds, General Funds, among others

### **Program 7.2: Affordable Workforce Housing**

Many people who work in the City cannot afford to live in the City. Through economic development efforts (Program 7.1), the City will work with businesses to create and expand higher-pay jobs in the City. The City will also coordinate with the business community to address the housing needs of workers.

The City may also consider a mechanism whereby housing created in the City demonstrates an improved match between the wages offered by jobs available in the City and a range of housing options is provided. In conjunction with the Inclusionary Housing Program (if adopted), the City can develop incentives in the Inclusionary Housing Program for developers to offer a range of housing options. The City may also establish a preference points system for allocating the affordable housing units created based on place of current residency and employment.

**Five-Year Objectives and Time Frame:**

- Consider mechanisms in conjunction with the adoption of the Inclusionary Housing Program (if pursued)

**Responsible Agencies:**

- Community and Economic Development Department; Parks, Recreation, and Neighborhoods Department; Planning Commission; and City Council

**Funding Sources:**

- None required

## **C. QUANTIFIED OBJECTIVES**

### **Sites to be Provided**

Potentially, the City of Modesto has a regional housing needs allocation of 15,347 units for the period of January 1, 2001 through June 30, 2008. With 3,227 units already built, the City needs to provide adequate sites for the construction of 12,120 units.

### **New Units Anticipated**

Between January 2001 and December 2002, 3,227 units were constructed in the City. Based on a historic trend (over the past 20 years), the City has an average construction rate of 1,200 units annually. Given the significant infrastructure constraints, particularly in terms of water and sewer services, the City does not anticipate an accelerated construction rate that would significantly exceed historic trends. Therefore, between 2003 and 2008, the City anticipates a total construction objective of 6,000 units. Combined with the 3,227 units already constructed, the City's construction objective for the 7.5-year period is 9,227 units.

### **Units to be Rehabilitated**

The City administers a number of residential rehabilitation programs. Based on past experience, funding availability, and staff constraints, the City anticipates assisting 265 households with various levels of housing rehabilitation assistance.

### **Units to be Conserved**

A number of publicly assisted housing developments in the City, totaling 735 units, may be at risk of converting to non-low-income uses. The City has established an objective to help conserve this affordable housing stock.

### **Households to be Assisted**

Through homebuyer assistance programs, density bonuses, and fee deferrals, the City plans to extend affordable housing opportunities to 340 households.

**Table 6-1  
Summary of Five-Year Quantified Housing Objectives**

	Very Low	Low	Moderate	Above Moderate	Total
Housing Sites to be Provided (RHNA minus units built since 2001)					
RHNA	3,326	2,603	2,544	3,647	12,939
Total New Units Anticipated (5 yrs)	1,320	1,070	1,260	2,400	6,000
Mobile/Manufactured Homes	25	25			50
Second Units	30	45			75
Total New Units Anticipated (7.5 yrs) (including units built since 2001)	1,370	1,076	1,939	4,892	9,227
Housing Units to be Rehabilitated					
Housing Rehabilitation	130	135			265
Housing Units to be Conserved					
Preservation of At-risk Housing	735				735
Households to be Assisted					
Homebuyers Assistance		25	65		90
Density Bonus	100	100	50		250
<i>Fee Deferrals</i>	75	75			150

Note: The income distribution of the housing objectives is estimated based on program requirements and typical market conditions.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-234**

**A RESOLUTION CERTIFYING THAT THE INITIAL STUDY ENVIRONMENTAL ASSESSMENT NO. EA 2003-54 FOR THE PROPOSED GENERAL PLAN AMENDMENT FOR THE HOUSING ELEMENT UPDATE IS WITHIN THE SCOPE OF THE GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (STATE CLEARINGHOUSE NO. 199908041) (CITY OF MODESTO)**

WHEREAS, on March 4, 2003, the City Council of the City of Modesto recertified the Final Master Environmental Impact Report ("Master EIR") (SCH No. 1999082041) for the Modesto Urban Area General Plan, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a Master EIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the Master Environmental Impact Report as being within the scope of the project, and

WHEREAS, the City's Community and Economic Development Department prepared an Initial Study, Environmental Assessment No. 2003-54, on the Housing Element Update, in accordance with the California Environmental Quality Act and determined that this project is within the scope of the City Modesto Master EIR (State Clearinghouse No. 199908041) approved earlier, and the Master EIR adequately describes the activity for the purposes of CEQA, and

WHEREAS, the Initial Study EA/C&ED 2003-54, was considered by the Planning Commission at a duly noticed public hearing which was held on February 18, 2004, at 7:30 p.m., in the Tenth Street Place Chambers, 1010 Tenth Street, Modesto, California, and

WHEREAS, after said public hearing, the Modesto Planning Commission adopted Resolution No. 2004-08, recommending to the City Council certification of the Initial Study as described in Exhibit A, attached hereto and incorporated herein by reference, and

WHEREAS, said matter was set for a public hearing of the City Council to be held on March 9, 2004, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing of the Council was held for the purpose of receiving public comment on the proposed amendment to the Modesto Urban Area General Plan Housing Element Update, and

WHEREAS, said public hearing held on March 9, 2004, was opened, comments received, and said public hearing was continued to April 27, 2004, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California.

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby finds and determines the following:

- A. The proposed amendment to the Modesto Urban Area General Plan, as it pertains to the City's Housing Element, is within the scope of the General Plan covered by a Master Environmental Impact Report (SCH No. 1999082041).
- B. The proposed amendment to the Modesto Urban Area General Plan as it pertains to the City's Housing Element will have no new additional significant effect on the environment not identified in the Master EIR and no new or additional mitigation measures are required.
- C. No new environmental document, nor findings shall be required pursuant to Section 21081 of the California Environmental Quality Act (per section 21157.1).

- D. There are no specific features unique to the proposed amendment to the Modesto Urban Area General Plan as it pertains to the City's Housing Element that require project specific mitigation measures. All certified mitigation measures identified in the MEIR will apply Citywide as appropriate.
- E. The Initial Study, Environmental Assessment No. EA/C&ED 2003-54 provides the substantial evidence to support findings "A, B, C, and D" above.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of April 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Jackman, Keating, Marsh, Mayor Ridenour

# City of Modesto Initial Study

## General Plan Amendment: Update of the City of Modesto Housing Element (2003-2008)

EA NO. C&ED 2003-54

### I. PURPOSE:

Finding of Conformance under the City of Modesto Final Master Environmental Impact Report for the Urban Area General Plan.

The City of Modesto Final Master Environmental Impact Report (MEIR) for the Urban Area General Plan allows for environmental review of proposals within the City's general plan area. The City of Modesto Draft Housing Element (2003-2008) addresses areas located entirely within the City's General Plan boundary. The MEIR contains a detailed analysis and a comprehensive program of mitigation measures to address development impacts within the Modesto General Plan Area. The MEIR was first certified on August 15, 1995 (SCH #92052017), in conjunction with the adoption of the Modesto Urban Area General Plan. On March 4, 2003, the City Council certified the MEIR Update (SCH #1999082041).

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any significant effect on the environment that was not identified in the Final Master EIR (MEIR) for the General Plan and whether any new or additional mitigation measures or alternatives may be required. This Initial Study also provides documentation on whether the project is considered in the Master EIR as being within the scope of the General Plan analyzed by the Master EIR.

### II. PROJECT DESCRIPTION:

- A. Project Title:  
General Plan Amendment: Update of the City of Modesto Housing Element (2003-2008).
- B. Lead Agency Name and Address:  
City of Modesto, Community & Economic Development Department, P.O. Box 642 Modesto, CA 95353
- C. Contact Person, Address and Phone Number:  
Patrick Kelly, Suite 3300, 1010 Tenth Street, Modesto, CA 95353  
(209) 577-5268

- D. Project Location:  
The Modesto Urban Area General Plan Boundary area.
- E. Project Sponsor, Address and Phone Number:  
City of Modesto, P.O. Box 624, Modesto, CA 95353 (209) 577-5268.
- F. Modesto General Plan Designation:  
The Land Use Diagram of Modesto Urban Area General Plan.
- G. Zoning:  
All of the zoning as depicted on the City of Modesto Zoning Map.
- H. Description of Proposed Project:

The project consists of a proposed amendment to the Modesto Urban Area General Plan as it pertains to the City's Housing Element. The State of California (Government Code Section 65580) requires each local jurisdiction to update their respective housing policy. The proposed Housing Element is attached as **Exhibit A**. It will supersede the existing housing goals, policies and implementation programs included in the 1995 Urban Area General Plan.

The proposal implements the Urban Area General Plan as it contains housing goals, policies and implementation programs. The proposed Housing Element Update does not propose specific construction development projects, instead it serves as a policy guide to direct the type of residential development.

The 2003-2008 Housing Element contains an implementation program (see Exhibit A, Section 6) that requires the City to subsequently consider amendments to the City of Modesto Zoning Ordinance and the City's Land Use Diagram. These possible amendments are of a minor nature and would not rise to the level of a significant revision to the City's General Plan Land Use Designations that were analyzed by the Master EIR. These proposed subsequent actions will be considered by the Planning Commission and the City Council after adoption of the Housing Element. As subsequent and separate proposals, additional environmental assessment(s) will be prepared pursuant to Section 21157.1 and will be considered by the Planning Commission and City Council, which will determine whether they are "within the scope of the Master EIR."

- I. Surrounding Land Uses:  
Unincorporated County.
- J. Other Public Agencies Whose Approval is Required:  
The State of California Housing and Community Development Department (HCD).

II. **ANALYSIS OF CONFORMANCE WITH THE MASTER EIR:**

There are eighteen subject areas in the Master EIR for the General Plan. Following is an analysis of how this project conforms to the analysis contained within the Master EIR.

**A. Traffic and Circulation**

While it is widely acknowledged that housing is a traffic generator, the Housing Element, as a policy document, will not directly create an adverse affect on the City's circulation and transportation system.

The proposed Housing Element Update would not cause additional significant increase in traffic and circulation impacts, not already identified in the MEIR. The Housing Element provides for housing goals, policies and programs that guide the type of housing anticipated to be developed within the City's General Plan Area. Capital Facilities Fees collected at the time of actual housing development will contribute to public facility improvements necessary to accommodate additional housing. The Housing Element does not propose any significant changes to the total gross acreage, infrastructure, land use designations, or circulation system of the General Plan analyzed by the MEIR and thus would not adversely affect the roadway or intersection capacity of the City's circulation system beyond what was identified in the MEIR. Therefore, any potential adverse impacts on traffic and circulation were analyzed and mitigation provided by the GPMEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Traffic and Circulation Needs (pages V-1-1 through V-1-33) are still valid at this time.

**B. Degradation of Air Quality**

The proposed Housing Element update would not cause additional degradation of air quality, not already identified in the MEIR. The Housing Element provides for housing goals, policies and implementation programs that guide the type of housing anticipated to be developed or rehabilitated within the City's General Plan Area.

The Housing Element does not propose any significant changes to the infrastructure, land use designations or circulation system of the General Plan analyzed by the MEIR and thus would not adversely affect the air quality of the City beyond what was identified in the MEIR. Therefore, any potential adverse impacts on air quality were analyzed and mitigation provided by the GPMEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Degradation of Air Quality (pages V-2-1 through V-2-26) are, therefore, still valid at this time.

**C. Generation of Noise**

The proposed Housing Element update would not cause additional generation of noise, not already identified in the MEIR. The Housing Element provides for housing goals, policies and programs that guide the type of housing anticipated to be developed or rehabilitated within the City's General Plan Area.

The Housing Element does not propose any significant changes to the total gross acreage, land use designations, infrastructure, or circulation system of the General Plan analyzed by the MEIR and thus would not adversely affect noise levels in the City's General Plan area beyond what was identified in the MEIR. Therefore, any potential adverse impacts for generation of noise were analyzed and mitigation provided by the GPMEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Generation of Noise (pages V-3-1 through V-3-22) are, therefore, still valid.

**D. Loss of Productive Agricultural Land**

The proposed Housing Element update would not cause additional effects on the loss of productive agricultural lands, not already identified in the MEIR. The Housing Element provides for housing goals, policies and programs that guide the type of housing anticipated to be developed within the City's General Plan Area.

The Housing Element does not propose any significant changes to the total gross acreage, land use designations, infrastructure, or circulation system of the General Plan analyzed by the MEIR and thus would not adversely affect agricultural lands within the City's General Plan area beyond what was identified in the MEIR. Therefore, any potential adverse impacts on agricultural lands were analyzed and mitigation provided by the GPMEIR. The Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for Loss of Productive Agricultural Land (pages V-4-1 through V-4-12) are still valid.

**E. Increased Demand for Long-Term Water Supplies**

The proposed Housing Element update would not cause additional increased demand for long-term water supplies, not already identified in the MEIR. The Housing Element provides for housing goals, policies and programs that guide the type of housing anticipated to be developed within the City's General Plan Area.

The Housing Element does not propose any significant changes to the total gross acreage, land use designations, infrastructure, or circulation system of the General Plan analyzed by the MEIR and thus would not adversely affect water supplies within the City's General Plan area beyond what was identified in the MEIR. Therefore, any potential adverse impacts on agricultural lands were analyzed and mitigation provided by the GPMEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Increased Demand for Water Supplies (pages V-5-1 through V-5-13 are, therefore, still valid.

**F. Increased Demand for Sanitary Sewer Services**

The proposed Housing Element update would not cause additional increased demand for sanitary services, not already identified in the MEIR. The Housing

Element provides for housing goals, policies and programs that guide the type of housing anticipated to be developed within the City's General Plan Area.

The Housing Element does not propose any significant changes to the total gross acreage, land use designations, infrastructure, or circulation system of the General Plan analyzed by the MEIR and thus would not adversely affect sanitary sewer services within the City's General Plan area beyond what was identified in the MEIR. Therefore, any potential adverse impacts on sanitary sewer services were analyzed and mitigation provided by the GPMEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Sanitary Sewer Services (pages V-6-1 through V-6-12) are, therefore, still valid.

**G. Loss of Sensitive Wildlife and Plant Habitat**

The proposed Housing Element update would not cause additional increased disturbance of wildlife and plant habitat areas, not already identified in the MEIR. The Housing Element provides for housing goals, policies and programs that guide the type of housing anticipated to be developed within the City's General Plan Area.

The Housing Element does not propose any significant changes to the total gross acreage, land use designations, infrastructure, or circulation system of the General Plan analyzed by the MEIR and thus would not adversely affect wildlife and plant habitat areas within the City's General Plan area beyond what was identified in the MEIR. Therefore, any potential adverse impacts on loss of sensitive wildlife and plant habitat were analyzed and mitigation provided by the GPMEIR. The Existing Conditions, Impact Analysis, and the Mitigation Measures listed in the MEIR for Sensitive Wildlife and Plant Habitat, (pages V-7-1 through V-7-29) are, therefore, still valid.

**H. Disturbance of Archaeological and Historic Sites**

The proposed Housing Element update would not cause additional disturbance of archaeological and historic sites, not already identified in the MEIR. The Housing Element provides for housing goals, policies and programs that guide the type of housing anticipated to be developed within the City's General Plan Area.

The Housing Element does not propose any significant changes to the total gross acreage, land use designations, infrastructure, or circulation system of the General Plan analyzed by the MEIR and thus would not adversely affect archaeological and historic sites within the City's General Plan area beyond what was identified in the MEIR. Therefore, any potential adverse impacts on disturbance of archaeological and historic sites were analyzed and mitigation provided by the GPMEIR. The Existing conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Disturbance of Archaeological or Historical Sites (pages V-8-1 through V-8-22) are, therefore, still valid.

**I. Drainage, Flooding and Water Quality**

The proposed Housing Element update would not change the size or configuration of drainage, flooding and water quality facilities, not already identified in the MEIR. The Housing Element provides for housing goals, policies and programs that guide the type of housing anticipated to be developed within the City's General Plan Area.

The Housing Element does not propose any significant changes to the total gross acreage, land use designations, infrastructure, or circulation system of the General Plan analyzed by the MEIR and thus would not adversely affect flooding and water quality services within the City's General Plan area beyond what was identified in the MEIR. Therefore, any potential adverse impacts on drainage, flooding and water quality were analyzed and mitigation provided by the GPMEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Drainage, Flooding, and Water Quality (pages V-10-1 through V-10-16) are, therefore, still valid.

**J. Increased Demand for Storm Drainage**

The proposed Housing Element update would not generate any additional population or development beyond that identified in the MEIR that cause increased demand for storm drainage facilities, not already identified in the MEIR. The Housing Element provides for housing goals, policies and programs that guide the type of housing anticipated to be developed within the City's General Plan Area.

The Housing Element does not propose any significant changes to the total gross acreage, land use designations, infrastructure, or circulation system of the General Plan analyzed by the MEIR and thus would not adversely affect storm drainage services within the City's General Plan area beyond what was identified in the MEIR. Therefore, any potential adverse impacts on Increased Demand for storm drainage were analyzed and mitigation provided by the GPMEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Storm Drainage (pages V-9-1 through V-9-13) are, therefore, still valid.

**K. Increased Demand for Parks and Open Space**

The proposed Housing Element update would not generate any additional population or development beyond that identified in the MEIR that cause increased demand for parks or open space facilities, not already identified in the MEIR. The Housing Element provides for housing goals, policies and programs that guide the type of housing anticipated to be developed within the City's General Plan Area.

The Housing Element does not propose any significant changes to the total gross acreage, land use designations, infrastructure, or circulation system of the General Plan analyzed by the MEIR and thus would not adversely affect parks

and open space facilities within the City's General Plan area beyond what was identified in the MEIR. Therefore, any potential adverse impacts on Increased Demand for parks and open space facilities were analyzed and mitigation provided by the GPMEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Parks and Open Space (pages V-11-1 through V-11-14) are, therefore still valid.

**L. Increased Demand for Schools**

The proposed Housing Element update would not generate any additional population or development beyond that identified in the MEIR that cause increased demand for school facilities, not already identified in the MEIR. The Housing Element provides for housing goals, policies and programs that guide the type of housing anticipated to be developed within the City's General Plan Area.

The Housing Element does not propose any significant changes to the total gross acreage, land use designations, infrastructure, or circulation system of the General Plan analyzed by the MEIR and thus would not adversely affect school facilities within the City's General Plan area beyond what was identified in the MEIR. Therefore, any potential adverse impacts on Increased Demand for school facilities were analyzed and mitigation provided by the GPMEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Schools (pages V-12-1 through V-12-11) are, therefore, still valid.

**M. Increased Demand for Police Services**

The proposed Housing Element update would not generate any additional population or development beyond that identified in the MEIR that cause increased demand for police services, not already identified in the MEIR. The Housing Element provides for housing goals, policies and programs that affect the type of housing anticipated to be developed within the City's General Plan Area.

The Housing Element does not propose any significant changes to the total gross acreage, land use designations, infrastructure, or circulation system of the General Plan analyzed by the MEIR and thus would not adversely affect police services within the City's General Plan area beyond what was identified in the MEIR. Therefore, any potential adverse impacts on Increased Demand for police services were analyzed and mitigation provided by the GPMEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Police Services (pages V-13-1 through V-13-7) are, therefore, still valid.

**N. Increased Demand for Fire Services**

The proposed Housing Element update would not generate any additional population or development beyond that identified in the MEIR that cause increased demand for fire protection services, not already identified in the MEIR. The Housing Element provides for housing goals, policies and programs that guide the type of housing anticipated to be developed within the City's General Plan Area.

The Housing Element does not propose any significant changes to the total gross acreage, land use designations, infrastructure, or circulation system of the General Plan analyzed by the MEIR and thus would not adversely affect fire services within the City's General Plan area beyond what was identified in the MEIR. Therefore, any potential adverse impacts on Increased Demand for fire protection services were analyzed and mitigation provided by the GPMEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Fire Services (pages V-14-1 through IV-14-9) are, therefore, still valid.

**O. Generation of Solid Waste**

The proposed Housing Element update would not generate any additional population or development beyond that identified in the MEIR that would result in increased generation of solid waste or related facilities, not already identified in the MEIR. The Housing Element provides for housing goals, policies and programs that guide the type of housing anticipated to be developed within the City's General Plan Area.

The Housing Element does not propose any significant changes to the total gross acreage, land use designations, infrastructure, or circulation system of the General Plan analyzed by the MEIR and thus would not adversely affect solid waste facilities within the City's General Plan area beyond what was identified in the MEIR. Therefore, any potential adverse impacts on solid waste facilities were analyzed and mitigation provided by the GPMEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Solid Waste (pages V-15-1 through V-15-10) are, therefore, still valid.

**P. Generation of Hazardous Materials**

The proposed Housing Element update would not generate any additional population or development beyond that identified in the MEIR that would result in increased generation of hazardous materials, not already identified in the MEIR. The Housing Element provides for housing goals, policies and programs that guide the type of housing anticipated to be developed within the City's General Plan Area.

The Housing Element does not propose any significant changes to the total gross acreage, land use designations, infrastructure, or circulation system of the General Plan analyzed by the MEIR and thus would not adversely affect of the anticipated increases in hazardous materials within the City's General Plan area beyond what was identified in the MEIR. Therefore, any potential adverse impacts on generation of hazardous materials were analyzed and mitigation provided by the GPMEIR. The Existing Conditions, Impacts analysis and the Mitigation Measures listed in the MEIR for the Generation of Hazardous Materials (pages V-16-1 through V-16-15) are, therefore, still valid.

**Q. Landslides and Seismic Activity**

The proposed Housing Element update would not generate any additional population or development beyond that identified in the MEIR that would result in increased exposure to landslides and seismic activity, not already identified in the MEIR. The Housing Element provides for housing goals, policies and programs that guide the type of housing anticipated to be developed within the City's General Plan Area.

The Housing Element does not propose any significant changes to the total gross acreage, land use designations, infrastructure, or circulation system of the General Plan analyzed by the MEIR and thus would not adversely affect of the anticipated increases in increased exposure to landslides and seismic activity within the City's General Plan area beyond what was identified in the MEIR. Therefore, any potential adverse impacts on exposure to landslides and seismic activity were analyzed and mitigation provided by the GPMEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Landslide and Seismic Activity (pages V-17-1 through V-17-12) are, therefore, still valid.

**R. Energy**

The proposed Housing Element update would not generate any additional population or development beyond that identified in the MEIR that would result in demand for energy, not already identified in the MEIR. The Housing Element provides for housing goals, policies and programs that guide the type of housing anticipated to be developed within the City's General Plan Area.

The Housing Element does not propose any significant changes to the total gross acreage, land use designations, infrastructure, or circulation system of the General Plan analyzed by the MEIR and thus would not adversely affect of the anticipated increases in increased demand for energy within the City's General Plan area beyond what was identified in the MEIR. Therefore, any potential adverse impacts on demand for energy were analyzed and mitigation provided by the GPMEIR.

Mitigation Measures for air quality and traffic would also help to mitigate energy impacts.

**IV CONCLUSIONS/DETERMINATIONS OF FINDINGS**

- A. The proposed amendment to the Modesto Urban Area General Plan, as it pertains to the City's Housing Element, is within the scope of the General Plan covered by a Master Environmental Impact Report (SCH# 1999082041).
- B. The proposed amendment to the Modesto Urban Area General Plan as it pertains to the City's Housing Element will have no new additional significant effect on the environment not identified in the Master EIR and no new or additional mitigation measures are required.
- C. No new environmental document, nor findings shall be required pursuant to Section 21081 of the California Environmental Quality Act (per section 21157.1).
- D. There are no specific features unique to the proposed amendment to the Modesto Urban Area General Plan as it pertains to the City's Housing Element that require project specific mitigation measures. All certified mitigation measures identified in the MEIR will apply citywide as appropriate.
- E. This Initial Study provides substantial evidence to support findings "A, B, C, and D" above.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-235**

**A RESOLUTION VACATING AND ABANDONING BRET HARTE PLACE  
STREET RIGHT-OF-WAY BETWEEN GUTHERIE STREET AND FRAZIER  
STREET (MODESTO CITY SCHOOLS)**

WHEREAS, Modesto City Schools has filed an application to vacate and abandon Bret Harte Place street right-of-way between Gutherie Street and Frazier Street, and

WHEREAS, a title report was submitted by the applicant with the abandonment request which vests fee title to the street right-of-way in the adjacent land owners who are proponents of the abandonment, and

WHEREAS, the proposed abandonment has been referred to affected City departments and local utility companies, and no objection to the proposed abandonment has been received, and

WHEREAS, Streets and Highways Code Section 8320 et seq. prescribes the procedures to vacate and abandon public rights-of-way, and

WHEREAS, Government Code Section 65402 requires that prior to abandoning a public right-of-way, the Planning Commission shall make a determination as to whether the abandonment is consistent with the General Plan, and

WHEREAS, the Planning Commission considered the proposed abandonment on March 15, 2004, in the Tenth Street Chambers, located at 1010 Tenth Street, Modesto, California, at which meeting evidence both oral and documentary was received and considered regarding the proposed vacation and abandonment, and

WHEREAS, by Planning Commission Resolution No. 2004-14, the Planning Commission determined that the proposed vacation and abandonment is consistent with the City's General Plan, and

WHEREAS, a duly noticed public hearing was held by the Council of the City of Modesto on Tuesday, April 27, 2004, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which time all persons interested in or objecting to the proposed abandonment were afforded the opportunity to appear, and

WHEREAS, notices were posted in the proposed street right-of-way abandonment area for two successive weeks prior to the hearing, and notice was published in the Modesto Bee for two successive weeks prior to the hearing, per Streets & Highways Code Sections 8323 and 8332 respectively, and

WHEREAS, all things and acts necessary to be done as required by the State of California Streets and Highways Code, Section 8300 through 8363: Public Streets, Highways and Service Easements Vacation Law, in order to vacate and abandon the subject walkway have been done and accomplished, and

WHEREAS, on April 27, 2004, the Council of the City of Modesto reviewed the Initial Study (EA/C&ED 2003-89) for the proposed street right-of-way abandonment and adopted Resolution No. 2004-236 , which determined that the project is within the scope of the Modesto Urban Area General Plan Master Environmental Impact Report,

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto finds and determines as follows:

1. That the street right-of-way to be abandoned is unnecessary for present or future pedestrian or vehicular use.
2. That Environmental Assessment No. EA C&ED 2003-89 judged this project to be within the scope of the General Plan Master EIR.
3. That the vacation and abandonment of Bret Harte Place street right-of-way between Gutherie and Frazier Streets is in conformance with the City of Modesto's General Plan.

BE IT FURTHER RESOLVED that the Council hereby orders and declares the vacation and abandonment of Bret Harte Place street right-of-way between Gutherie Street and Frazier Street. Said street right-of-way to be vacated and abandoned is more particularly described in **Exhibit "A"** attached hereto, and by this reference made a part hereof as though set forth in full herein.

BE IT FURTHER RESOLVED that the City Clerk shall cause a certified copy of this resolution, attested under seal of the City, to be recorded in the Office of the County Recorder of Stanislaus County.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of April 2004, by Councilmember Dunbar, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Dunbar, Jackman, Keating, Marsh, Mayor Ridenour

BRET HARTE PLACE

DESCRIPTION

All that certain real property situate in portion of the northwest quarter of Section 8, Township 4 South, Range 9 East, Mount Diablo Base and Meridian, in the City of Modesto, in the County of Stanislaus, State of California, described as follows:

Beginning at the northwest corner of Lot 1, Block 9828 of the Rutherford Tract, filed for record in Volume 16 of Maps, Page 37, Stanislaus County Records, on the east line of 60 foot wide Frazier Street; thence North 89°10' West 60.00 feet to the northeast corner of Lot 13, of Block 9812 of said Rutherford Tract, being a point on a non-tangent curve, to which a radial line bears North 89°10' West from the center; thence northeasterly 102.10 feet, along said non-tangent curve and the northwesterly line of Bret Harte Place, said curve being concave to the southeast, having a radius of 65.00 feet and a central angle of 90°00'; thence South 89°10' East, along the north line of said Bret Harte Place, a distance of 242.75 feet to point on a tangent curve; thence southeasterly 63.52 feet, along said tangent curve and northeasterly line of said Bret Harte Place, said curve being concave to the southwest, having a radius of 65.00 feet and a control angle of 55°59'32", to a point of reverse curve; thence southeasterly 14.09 feet, along said reverse curve and northeasterly line of Bret Harte Place, said curve being concave to the northeast, having a radius of 14.42 feet and a central angle of 55°59'32"; thence South 60°38' West 59.64 feet to a point on a non-tangent curve to which a radial line which bears South 89°10' East from the center; thence northwesterly 39.27 feet, along said non-tangent curve and southerly line of said Bret Harte Place, said non-tangent curve being concave to the southwest, having a radius of 25.00 feet and a central angle of 90° to a tangent line; thence North 89°10' West along said tangent line and said southerly line of Bret Harte Place a distance of 222.04 feet, to a tangent curve; thence southwesterly 23.56 feet, along said tangent curve and said southerly line of Bret Harte Place, said curve being concave to the southeast, having a radius of 15.00 feet and a central angle of 90°00'; thence South 0°50' West 10.00 feet to the point of beginning.

Containing 15,380 SF; 0.353 AC.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-236**

**A RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 1999082041): VACATION AND ABANDONMENT OF BRET HARTE PLACE STREET RIGHT-OF-WAY BETWEEN GUTHERIE STREET AND FRAZIER STREET. (OWNER: MODESTO CITY SCHOOLS)**

WHEREAS, on March 4, 2003, the City Council of the City of Modesto certified the updated Final Master Environmental Impact Report ("Master EIR") (SCH No. 1999082041) for the Modesto Urban Area General Plan, and

WHEREAS, Modesto City Schools have proposed that the Bret Harte Place street right-of-way between Gutherie Street and Frazier Street be vacated and abandoned (the "Project"), and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a Master EIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the project, and

WHEREAS, the City's Community & Economic Development Department by Environmental Assessment Initial Study EA/C&ED 2003-89 ("Initial Study") reviewed the proposed Project to determine whether the Project is within the scope of the project covered by the Modesto Urban Area General Plan Master EIR, and made the determination that the proposed Project will have no additional significant effect on the environment that was not identified in the Master EIR, and further, that no new or

additional mitigation measures or alternatives are required, and that, therefore, the proposed Project is within the scope of the project covered by the Master EIR, and

WHEREAS, in accordance with CEQA guidelines, beginning on January 30, 2004, the City caused to be published a 20-day notice of the City's intent to make a finding that the proposed Project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on April 27, 2004, at 5:30 p.m. in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed Project, a copy of which is attached hereto as **Exhibit "A"**, and incorporated herein by reference. Based on the substantial evidence included in said Initial Study, Council hereby makes the following findings:

1. That the proposed vacation and abandonment of Bret Harte Place is contemplated and described in the Master EIR (SCH No. 1999082041) as being within the scope of the Master EIR.
2. That the proposed Project will have no new significant effects on the environment not identified or examined in the Master EIR, and no new or additional mitigation measures are required.
3. That, as per Section 21157.1 of the Public Resources Code, no new environmental document or findings are required by the California Environmental Quality Act (CEQA).
4. That there are no specific features which are unique to the proposed Project that require project specific mitigation measures. Accordingly, the certified mitigation measures identified in the Master EIR will be sufficient for this Project.
5. That all feasible mitigation measures set forth in the Master EIR which are appropriate to the Project shall be incorporated in the Project.
6. The Initial Study, EA/C&ED No. 2003-89, provides substantial evidence to support findings 1 through 5, above.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of April 2004, by Councilmember Dunbar, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Jackman, Keating, Marsh, Mayor Ridenour  
NOES: Councilmembers: None  
ABSENT: Councilmembers: Hawn, O'Bryant

ATTEST: Jean Zahr  
JEAN ZAHR, City Clerk

## Master EIR Initial Study Checklist

### I. PURPOSE

CEQA allows for the limited environmental review of subsequent projects under the City's Master EIR. This Initial Study Checklist is used in determining whether the **Bret Harte Elementary School Expansion and Modernization Project** is "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 1999082041) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformity.

A subsequent project is "within the scope" of the Master EIR when:

1. It will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and
2. No new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect in the Master EIR. (Public Resources Code Section 21158(d))

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (State CEQA Guidelines Section 15384)

City staff consulted with appropriate Responsible Agencies and City Departments regarding potential environmental impacts associated with this project. Any significant comments and conditions are incorporated into this Initial Study. The City's MEIR (SCH# 1999082041) was also consulted which lists both General Plan policies and mitigation measures for each area of environmental study.

### II. PROJECT DESCRIPTION

- A. Title: Bret Harte Elementary School Expansion and Modernization Project
- B. Address or Location: 909 Bret Harte Place (North side of Glenn Avenue, west of Guthrie Street) Modesto, California, 95351.
- C. Applicant: Modesto City Schools  
426 Locust Street  
Modesto, California, 95351-2699
- D. Application Contact Person: Becky Meredith, Director of Planning and Research

City Project Manager: Miguel A. Galvez, Associate Planner  
Department: Community & Economic Development Department  
Phone Number: (209) 577-5276  
E-mail address: [mgalvez@modestogov.com](mailto:mgalvez@modestogov.com)

- E. Current General Plan Designation(s): R: Residential
- F. Current Zoning Classification(s): Not Applicable, (presently unincorporated).
- G. Surrounding Land Uses: North: Existing Bret Harte Elementary School  
South, East & West: Developed single-family residences  
in the unincorporated area of Stanislaus County.
- H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR (Attach additional maps/support materials as needed for complete record):

Modesto City Schools proposes to expand and modernize Bret Harte Elementary School located at 909 Bret Harte Place, Modesto, California, refer to Exhibit A. This School presently serves over 1,000 students in grades, Kindergarten through Sixth grade, on a seven-acre school site. The school presently qualifies as a "Critically Overcrowded School.

The Bret Harte Elementary School expansion and modernization project involves adding to and reconfiguring the onsite parking and circulation area, adding and renovating structures on the school campus, refer to Exhibit B. To facilitate this expansion, the School District proposes to annex five adjoining school acquired properties, along with adjacent street and alley rights-of-way located south of the school site to the City of Modesto, refer to Exhibit C. The School District also proposes to prezone this subject area to P-R-1 (Low Density Residential), refer to Exhibit D. Two additional applications are also proposed and will be considered subsequently by the City of Modesto. One application proposes to abandon Bret Harte Place street right-of-way, a portion of Frazier Street right-of-way, and adjacent alley right-of way, refer to Exhibit E. The other subsequent application is a Tentative Parcel Map proposing to merge the School acquired lots along with the proposed abandoned rights-of-way, refer to Exhibit F. Exhibits A through F are attached at the end of this document.

- I. Other Public Agencies Whose Approval is Required:

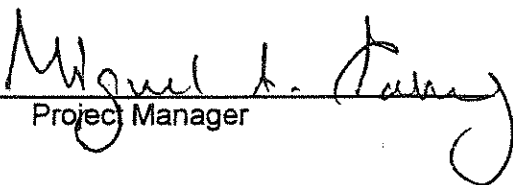

State of California Division of State Architect  
Local Agency Formation Commission  
San Joaquin Valley Air Pollution Control District

### III. FINDINGS/DETERMINATION (SELECT ONE ON THE BASIS OF THE ANALYSIS IN SECTION IV)

- 1. X **Within the Scope** - The project is within the scope of the Master EIR and no new environmental document or Public Resources Code Section 21081 findings are required. The following items are found to be true:

- A. The type of project is described in Chapter II of the Master EIR.

- B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the project or otherwise made conditions of approval of the project.
  - C. An Initial Study was prepared by the City of Modesto that analyzed whether the proposed subsequent project may cause any significant effect on the environment that was not examined in the MEIR and it has been determined that the project was described in the MEIR as being within the scope of the MEIR.
  - D. Based on the Initial Study, the City of Modesto finds and determines:
    - a) The proposed subsequent project will have no additional significant effect as defined in CEQA Section 21158 that was not identified in the MEIR.
    - b) No new or additional mitigation measures or alternatives are required.
  - E. The criteria for currency of the Master EIR were reviewed (section 5 below) and it was determined that the Master EIR is current for all areas of the Initial Study.
2.      **Mitigated Negative Declaration Required** - On the basis of the above determinations, the project is not within the scope of the Master EIR. A mitigated negative declaration will be prepared for the project. The following items are found to be true:
- A. The type of project is described in Chapter II of the Master EIR.
  - B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the project or otherwise made conditions of approval of the project.
  - C. The project will have one or more potential new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures are being required of the project that will reduce the effects to a less-than-significant level.
3.      **Focused EIR Required**- On the basis of the above determinations, the project is not within the scope of the Master EIR. A Focused EIR will be prepared for the project. The following items are found to be true:
- A. The type of project is described in Chapter II of the Master EIR.
  - B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the project or otherwise made conditions of approval of the project.
  - C. The project will have one or more new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures or alternatives are required as a result.

#### 4. Within the Scope Analysis of this Document:

The Master EIR permits projects to be found within the scope of the MEIR if certain criteria are met. Basically, if the following statements are found to be true for all 20 sections of this Initial Study, then the project was covered by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

- |   | YES | NO                       |
|---|-----|--------------------------|
| (1) The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.  | X   | <input type="checkbox"/> |
| (2) City policies which reduce, avoid or mitigate environmental effects, will continue to be in effect and therefore would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures attached to the Initial Study template. | X   | <input type="checkbox"/> |
| (3) Federal, State, Regional and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).  | X   | <input type="checkbox"/> |
| (4) No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources.  | X   | <input type="checkbox"/> |
| (5) The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.  | X   | <input type="checkbox"/> |
| (6) Development within the project will comply with all mitigation measures identified in the General Plan Master EIR.  | X   | <input type="checkbox"/> |

#### Discussion:

- (1) The City of Modesto is the lead agency for processing the requested land use entitlements (i.e.: rezoning, annexation, parcel map and abandonment applications). Modesto City Schools is the Lead Agency for the expansion and modernization of the Bret Harte Elementary school site.
- (2) The subject project proposes improvements to an existing developed site located within the Baseline Developed Area. The subject area includes five parcels, which each contained a single-family home. All appropriate City General Plan development policies will be continue to be in effect and appropriate mitigation measures will be applied.
- (3) The Master EIR was last updated in March 2003. Since that update, there have been no changes to Federal, State, Regional and County regulations that have resulted in less restrictive regulations.
- (4) The subject site involves five residential lots. After the application proposals were referred to Trustee Agencies, no significant resources are identified in this proposal
- (5) The subject area is located within the Modesto Urban Area General Plan in the Baseline Developed Area, refer to **Exhibit G**, all appropriate mitigation measures as listed in the Master EIR are incorporated into the project.

- (6) A Global list of General Plan Policies and Mitigation Measures was reviewed (which is attached to the initial study) and appropriate Mitigation Measures will be required as part of the project's approval.

### 5. Currency of the Master EIR Document

The MEIR should be reviewed on a regular basis to determine its currency, and whether additional analysis/mitigation should be incorporated into the MEIR via a Supplemental or Subsequent EIR (CEQA Section 21157.6). Staff has reviewed sections 1 through 20 of this document in light of the criteria listed below to determine whether the MEIR is current. The analysis contained within the Master EIR is current as long as the following circumstances have not changed. Any no response must be discussed.

- |  | YES                        | NO                       |
|--|----------------------------|--------------------------|
| (1) Certification of the General Plan Master EIR occurred less than five years prior to the filing of the application for this subsequent project.   | X <input type="checkbox"/> | <input type="checkbox"/> |
| (2) This project was described in the Master EIR and its approval will not affect the adequacy of the Master EIR for any subsequent project because the City can make the following findings (3, 4, 5, below). | X <input type="checkbox"/> | <input type="checkbox"/> |
| (3) No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified.   | X <input type="checkbox"/> | <input type="checkbox"/> |
| (4) No new information, which was not known and could not have been known at the time the Master EIR was certified as complete, has become available.  | X <input type="checkbox"/> | <input type="checkbox"/> |
| (5) Policies remain in place that require site-specific mitigation, and avoidance or other mitigation of impacts as a prerequisite to future development.  | X <input type="checkbox"/> | <input type="checkbox"/> |

Discussion:

No discussion is necessary.

### IV. ENVIRONMENTAL ANALYSIS

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any project-specific significant effect on the environment that was not examined in the Final Master EIR (MEIR) for the General Plan and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the project is "within the scope" of the Master EIR.

Pursuant to Public Resources Code Section 21157.1, no new environmental document or findings are necessary for projects that are determined to be within the scope of the MEIR. Adoption of a notice of conformity after completion of the Initial Study fulfills the City's obligation in that situation.

All environmental effects cited reflect year 2025 build out of the Urban Area General Plan as identified in the MEIR.

The Master EIR for the General Plan organizes its analysis of environmental impacts into eighteen subject areas. The following analysis is based on the impact analyses contained in Chapter V of the Master EIR. For ease of cross-reference, the sections are numbered in the same order as the analyses in Chapter V.

In addition to the 18 Master EIR subject areas, the Initial Study checklist addresses the issues of land use/planning and aesthetics. The reason for including these additional issues is to ensure that consideration is being given to the full range of subjects of importance contained in Appendix G of the CEQA Guidelines. The format for the land use/planning and aesthetics sections differs from that of the other 18 subject areas since these two subjects were not addressed as distinct subjects in the Master EIR.

## **1. TRAFFIC AND CIRCULATION**

### **a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant and unavoidable traffic and circulation impacts:

Effect: Increased traffic will result in certain roadway segments operating at LOS D or worse.

Effect: The Substantial increase in traffic relative to the existing load and capacity of the street system will cause, violation, either individually or cumulatively, of an LOS standard established by the County CMP for designated roads and highways.

Effect: Creation of need for Capacity-enhancing modifications to existing facilities.

Effect: Increase in energy consumption associated with the operation of highway projects, rail improvements, and aviation facilities.

Effect: Severe contrast with existing neighborhood or area character caused by highway and transit projects.

### **b. Master EIR and/or New Mitigation Measures Applied to the Project**

Traffic and Circulation mitigation measures that are pertinent to this project are found on MEIR pages V-1-15 through V-1-21. All feasible measures appropriate to the project – including any new measures - will be incorporated into or made conditions of approval of this project and will be listed in Section IV, Mitigation Measures Applied to Project.

#### Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

### **c. Project-Specific Effects**

Section V-1.B of the MEIR provides analysis of Traffic and Circulation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project would contribute more than an additional 100 average daily trips (ADT) to adjoining roads and generates more trips than assumed for their general plan land use category and zoning in the Master EIR. City Engineering & Transportation Staff will review the project to determine whether the project contributes more than 100 ADT thresholds. Such Projects are presumed to generate more trips than assumed by the Master EIR. | <input type="checkbox"/> | X  |

Where a project exceeds an additional 100 ADT contribution, a site access study will be conducted to determine to what extent the project would exceed the year 2025 level of service (LOS) expected for the adjoining roadways under the Master EIR. The site access study will recommend new, project-specific mitigation measures. Where the project also exceeds the Master EIR's traffic generation assumption, as determined by Engineering & Transportation staff, a comprehensive traffic study will be required that will include off-site traffic impact analysis.

- |  | YES                      | NO |
|--|--------------------------|----|
| (2) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g. farm equipment). | <input type="checkbox"/> | X  |
| (3) Result in inadequate emergency access.   | <input type="checkbox"/> | X  |
| (4) Result in inadequate parking capacity.   | <input type="checkbox"/> | X  |

Discussion:

- (1) The project was referred to the Engineering and Transportation Department and the Transportation Division staff did not cite the need for a site access study.
- (2) The project was referred to the Engineering and Transportation Department and the Transportation Division commented that City's Standards Specifications require that the Glenn Avenue be dedicated and improved to full City Street Standards.

The proposed alley abandonment may affect vehicular access to adjacent residences and the Turlock Irrigation District lateral located west of the school site. The City recommends that a separate alley right-of-way be maintained immediately west and adjacent to the western access driveway. A vehicular access easement may serve to meet the access needs of the users of the alley.

All proposed fence and wall heights shall adhere to the City's Clear Vision Triangle requirements.

- (3) The project was referred to the City of Modesto Police and Fire Department as well as to the City of Modesto Engineering and Transportation Department. The City Fire Marshal cited the following California Fire Code requirements:

- a) Fire Hydrants shall be spaced at 450-foot intervals along fire department access roads capable of providing 2,250 gallons per minute.
  - b) Fire department access roads shall extend within 150 feet of all portions of buildings. For buildings provided with an automatic fire sprinkler system this distance may be increased to 200 feet.
  - c) Fire department access roads shall be provided with an inside turning radius of 25 feet and outside 45 feet. Dead end fire department access roads that exceed 150 feet in length shall be provided with an approved turnaround.
- (4) The project will result in additional parking and better on-site circulation for the school site. The project also proposes street improvements along the adjoining streets improving the safety for both pedestrians and vehicular traffic. The proposed relocated alley right-of-way will need to be designed to provide an adequate turning radius for utility service vehicles.

## 2. AIR QUALITY

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to air quality:

Effect: Projected traffic levels will result in increased ambient carbon monoxide (CO) levels in the project area. This is a significant and unavoidable impact.

Effect: Projected traffic levels will result in increased ROG and NOX levels in the project area. This is a significant and unavoidable impact.

These are also cumulative impacts on air quality.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

Air Quality mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-2-11 through V-2-18 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section IV, Mitigation Measures Applied to Project:

#### Discussion:

Mitigation measure Air-1 from the MEIR is required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards. In addition, the San Joaquin Valley Air Pollution Control District commented: "Because the project site contains a building needing renovation/demolition, the applicant will need to be in compliance with the National Emission Standards for Hazardous Air Pollutants (NESHAPS). Specifically, the primary air pollutant of concern is the asbestos. To ascertain whether this project is subject to the NESHAPS, the project applicant is advised to review the Asbestos – Compliance Assistance Bulletin, dated December 1994.

**c. Project-Specific Effects**

Section V-2.B of the MEIR provides analysis of Air Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project exceeds the emissions thresholds established for CO and NOx by the San Joaquin Valley Unified Air Pollution Control District's (SJVUAPCD) adopted CEQA Guidelines. | <input type="checkbox"/> | X  |
| (2) The project does not incorporate the best management practices for PM10 reduction established by the SJVUAPCD.   | <input type="checkbox"/> | X  |
| (3) The project does not comply with the air quality policies of the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (4) The project would expose sensitive receptors to substantial pollutant concentrations.  | <input type="checkbox"/> | X  |
| (5) The project would create objectionable odors affecting a substantial number of people.   | <input type="checkbox"/> | X  |

Discussion:

- (1) The project was referred to the San Joaquin Valley Air Pollution Control District and it commented that the project appears to have a less-than significant impact on the ambient air quality. It commented that the Project will need to be in compliance with the National Emission Standards for Hazardous Air Pollutants (NESHAPS).
- (2-3) See discussion under 1 above.
- (4) The project consists of expanding an existing elementary school and renovating some of the existing structures. The entitlement applications of rezoning, annexation, right-of-way abandonment, and a parcel map do not change or affect the quality of air in the area.
- (5) The project does not involve manufacturing or food processing – it is a minor expansion and improvement of an existing school site.

**3. NOISE**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant and unavoidable environmental impacts relative to noise:

Effect: Traffic noise levels for future conditions in the plan area have the potential to result in exceedances of the City's Noise Significance Standards (see Table 3-3 MEIR).

Effect: Noise level projections based on the traffic levels anticipated in the General Plan indicate that noise will exceed the City's General Plan and noise ordinance standards.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-10 through V-3-15 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project and any new measures are listed in Section IV, Mitigation Applied to Project:

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-3.B of the MEIR provides analysis of noise impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance.   | <input type="checkbox"/> | X  |
| (2) The project will exceed the noise policies of or otherwise be inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (3) The project will result in a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?             | <input type="checkbox"/> | X  |
| (4) The project will result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project. | <input type="checkbox"/> | X  |

Discussion:

- (1) The project involves an existing school site that operates between 7:00 am and 5:00 pm, within Modesto Noise Ordinance time limits. The project does not change the hours of operation.
- (2) School operations generate mild levels of noise during normal business hours from children playing on the field s or in the playground. The existing school will not generate

higher levels of noise that are presently generated at the school site during regular hours of operation.

- (3) See discussion above.
- (4) To reduce temporary impacts on noise during construction, construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields.

#### 4. AGRICULTURAL LANDS

##### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to agricultural lands:

Effect: Development within the urbanized Baseline Developed Area and Redevelopment Area will have a less-than-significant impact on agricultural lands.

Effect: Conversion of agricultural land will occur as available developable land is occupied within the City. This is a significant and unavoidable impact.

Effect: Growth within Modesto's planning area would contribute considerably to the loss of agricultural land within Stanislaus County. This is a significant and unavoidable cumulative impact.

##### b. Master EIR and/or New Mitigation Measures Pertinent to the Project

Agricultural Land mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-4-7 and V-4-8 MEIR. All feasible measures appropriate to the project and any new mitigation to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project:

##### Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

##### c. Project-Specific Effects

Section V-4.B of the MEIR provides analysis of Agricultural Lands impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

YES NO

- (1) The project is inconsistent with the Modesto Urban Area General Plan.  X
- (2) The project will directly result in the development of land outside the March 2003 planning area boundaries.  X
- (3) The project will Conflict with existing zoning for agricultural use, or a Williamson Act contract.  X
- (4) The project will Involve other changes in the existing environment, which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use.  X

Discussion:

- (1) The Modesto Urban Area General Plan designates the site as R, Residential. Schools are permitted in this land use designation, thus the project is consistent with the General Plan.
- (2) The project involves an existing school in an already that is already developed. Agricultural uses have not been in practice in this area for over 30 years.
- (3) The existing school site is located in the R-1 zoning district. The expansion component is proposed to be annexed and rezoned as R-1. As the area has been developed for some time, there are no Williamson Act contracts in the neighborhood.
- (4) See discussion above.

**5. WATER SUPPLY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to water supply:

Effect: Urban Area General Plan policies are established to limit groundwater extractions to the safe yield of the aquifer and thereby avoid aquifer over drafting. In addition, the UWMP requires that new urban development would proceed in conjunction with the availability of water supplies and distribution facilities. It is assumed that increased entitlement of surface water supplies such as a water transfer from another water purveyor would undergo independent environmental review pursuant to CEQA. This is a less-than-significant impact.

Effect: Development to the future projected City population would require expansion of the MRWTP to its full 60 mgd capacity, development of additional groundwater wells, and construction of additional water distribution and treatment facilities. Construction of some of the required facilities would most likely require site-specific environmental impact assessments to be conducted under CEQA. Consequently, the potential environmental impacts of the Urban Area General Plan are considered less-than-significant.

Effect: During drought years, despite available options, significant water shortages are forecast for the San Joaquin River basin by the year 2020. Modesto would make a cumulatively

considerable contribution to the cumulative impact on water supply under drought conditions. This is a significant and unavoidable cumulative impact.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Water Supply mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-5-7 through V-5-8 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-5.B of the MEIR provides analysis of Water Supply impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) Sufficient water supplies are not available to serve the project from existing entitlements and resources, new or expanded entitlements are needed. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2) The School expansion consist of additional parking, reconfigured on-site traffic circulation, additional school classrooms and auxiliary buildings, and renovation of some of the existing buildings. The expansion will take place on five parcels that were formally developed with single-family homes. The project was referred to the City's Capital Planning staff and adequate water supply and delivery system is present to serve the project.

**6. SANITARY SEWER SERVICES**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to sanitary sewer services:

Effect: The City has already begun to implement the provisions of the Wastewater Master Plan (WMP) to meet future demand for sanitary sewer services. As City wastewater treatment facilities are expanded to meet the needs of the Baseline Developed, Redevelopment, and Planned Urbanizing Areas, the City will obtain the necessary wastewater discharge and NPDES permits from the Central Valley RWQCB, as required under Urban Area General Plan Policy V-D.2(a). Implementing the WMP, requirement of Best Management Practices for post-construction activities, as well as the Urban Area General Plan policy cited above, will avoid violation of wastewater discharge requirements. As a result, this impact would be less-than-significant.

Effect: The City has adopted the WMP specifically to ensure that sewer capacity will match the level of growth projected by the Urban Area General Plan. Development within the Baseline Developed and the Planned Urbanizing Areas that is consistent with the Urban Area General Plan will not have a significant effect on capacity. Urban Area General Plan Policy III-D.1(d) will ensure that development in the Planned Urbanizing Area will fund the necessary improvements. This is a less-than-significant impact.

Note on the WMP Master EIR. The WMP Master EIR identified a number of impacts and mitigation measures. Its mitigation measures have been adopted by the City and are being implemented by the City under the WMP. Those impacts are being independently addressed under that Master EIR and do not need to be considered under this Initial Study. Refer to the WMP Master EIR for details.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Sewer Service mitigation measure(s) pertinent to the project being analyzed in this Initial Study, are found on pages V-6-4 through V-6-7 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-6.B of the MEIR provides analysis of Sanitary Sewer Service impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project will result in a determination by the wastewater treatment provider which serves or may serve the project that it has adequate | <input type="checkbox"/> | X  |

capacity to serve the project's projected demand in addition to the provider's existing commitments.

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2) The School expansion consist of additional parking, reconfigured on-site traffic circulation, additional school classrooms and auxiliary buildings, and renovation of some of the existing buildings. The expansion will take place on five parcels that were formally developed with single-family homes. The project was referred to the City's Capital Planning staff and adequate wastewater treatment and delivery system is present to serve the project.

## **7. SENSITIVE WILDLIFE AND PLANT HABITAT**

### **a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to sensitive wildlife and plant habitat:

Effect: Although many sensitive species live in riparian habitats within the planning area, the policies of the plan will ensure that impacts of the Urban Area General Plan will be less-than-significant.

Effect: Requiring higher residential density than the suburban norm and a compact pattern of growth within the designated planning area to the year 2025 will minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

### **b. Master EIR and/or New Mitigation Measures Applied to the Project**

Wildlife and Plant Habitat mitigation measure pertinent to the project being analyzed in this Initial Study are found on pages V-7-19 through V-7-21. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

### **c. Project-Specific Effects**

Section V-7.B of the MEIR provides analysis of Wildlife and Plant Habitat impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) Consultation with the California Department of Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on special status species. | <input type="checkbox"/> | X  |
| (3) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.  | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2) The School expansion consist of additional parking, reconfigured on-site traffic circulation, additional school classrooms and auxiliary buildings, and renovation of some of the existing buildings. The expansion will take place on five parcels that were formally developed with single-family homes. As the subject property is located in an already developed area and not in a potential biological resource study area, as a result, the proposal was not referred to the U.S. Department of Fish and Game.
- (3) See discussion above. In addition, there are no mature trees in the subject area.

## 8. ARCHAEOLOGICAL OR HISTORICAL SITES

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to archaeological or historical sites:

Effect: If a site-specific project involves the modification or demolition of a qualifying structure more than 50 years in age, then the impact will be significant.

Effect: Areas of high probability for archaeological resources are located within the riparian corridors along the Tuolumne River, Dry Creek, and the Stanislaus River. There, the potential impact comes from earthmoving activities that could result in disturbance of resources or human remains. There is a low probability that archaeological resources will be uncovered in areas outside of the riparian corridors.

Effect: The City Zoning Ordinance requires that when substantial changes to a structure are proposed, the development will be required to comply with other Zoning Ordinance provisions such as parking or landscaping requirements. This could result in modifications to the structure,

which substantially reduce its historical significance. This would be a less-than-significant impact with the imposition of new mitigation measure Cultural-1.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Archaeological or Historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on page V-8-13 and V-8-14 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project:

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-8.B of the MEIR provides analysis of Archaeological/Historical impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources, or that is listed by the City of Modesto as a Designated Landmark Preservation Site. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2) The project involved the acquisition and demolition of five residentially developed parcels located in the County. None of these properties were designated as historical resources or as a Landmark Preservation Site in the Modesto Urban Area General Plan.

**9. STORM DRAINAGE**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to storm drainage:

Effect: The potential impacts on storm water drainage that could occur from the project were qualitatively evaluated with respect to several factors including: extent of the projected increase in urban surface area compared to undeveloped ground; magnitude of projected changes to hydrologic and physical site characteristics of the study area compared to existing conditions; regulatory criteria and guidelines; and professional judgment. Because the Urban Area General Plan includes policies that require new development in all three sections of the planning area to install approved drainage facilities, the potential impacts of the Urban Area General Plan on storm water drainage are considered less-than-significant.

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious areas and associated urban storm water drainage. Cumulative hydrologic impacts of storm water flows from Modesto urban areas and other areas of the County could occur due to the fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel. Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Storm Drainage mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-9-4 through V-9-8. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-9.B of the MEIR provides analysis of Storm Drainage impacts of development of the General Plan; the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project would substantially increase the rate or amount of surface | <input type="checkbox"/> | X  |

runoff in a manner that would result in flooding on- or offsite.

- (3) Create or contribute runoff water that would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff.  X

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2) The project includes the construction of an additional parking area for the school site. The project will be required to control storm drainage in accordance with the City's Guidance Manual for New Development Stormwater Quality Control Measures.
- (3) The neighborhood was developed to County standards and no storm drainage was installed at the time the area was developed. The project will be developed to City standards with the full street improvements along project's frontage along the north half of Glenn Avenue.

## 10. FLOODING AND WATER QUALITY

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to flooding and water quality:

Effect: Increased runoff can accelerate soil erosion, stream channel scouring, and sedimentation of channels, and also increase pollutant transport to waterways. The potential impacts of the project on flooding are considered less-than-significant because the Urban Area General Plan Update includes policies to restrict development in the floodplain and therefore would avoid exposing persons and property to flood hazards. In addition, new development under the Urban Area General Plan is required to install storm water drainage facilities that restrict the amount of post-development runoff from exceeding pre-development conditions.

Effect: The potential impacts of the project on surface-water quality are considered less-than-significant because the City policies and capital improvement projects for storm water drainage facilities would minimize discharges of urban pollutants to natural waterways. The City drainage program policies require new development to prepare drainage plans and implement urban runoff control measures; larger Specific Plan developments must have storm drainage systems designed to control pollutant runoff. The City's implementation policies for the municipal NPDES storm water permit require new development to implement an appropriate selection of permanent pollution control measures. Permanent erosion control measures such as seeding and planting vegetation for new cut-and-fill slopes, directing runoff through vegetation, or otherwise reducing the offsite discharge of particulates and sediment are the most effective method of controlling offsite discharges of urban pollutants.

Effect: The City's future development will contribute to cumulative water quality effects. EPA regulations for NPDES storm water permits and new proposed regulatory additions to the rules have become much more comprehensive in recent years and are being implemented to reduce pollutant runoff from both large- and small-scale activities. Implementation of NPDES-permitting programs throughout the county will reduce potential water-quality impacts to a less-than-significant level.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Flooding and Water Quality mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-10-7 through V-10-10 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project:

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-10.B of the MEIR provides analysis of Flooding and Water Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act.	<input type="checkbox"/>	X
(3) The project does not comply with Modesto's Guidance Manual for New Development Storm water Quality Control Measures.	<input type="checkbox"/>	X
(4) The project would create or contribute runoff water, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff.	<input type="checkbox"/>	X

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.

- (2) The construction component of this project is subject to the review and approval of the State Architects Office. The reviewing agency will require adherence to any Clean Water Act requirements, as it deems appropriate.
- (3) The project includes the construction of an additional parking area for the school site. The project will be required to control storm drainage in accordance with the City's Guidance Manual for New Development Stormwater Quality Control Measures.
- (4) The neighborhood was developed to County standards and no storm drainage was installed at the time the area was developed. The project will be developed to City standards with the full street improvements along project's frontage along the north half of Glenn Avenue.

## **11. PARKS AND OPEN SPACE**

### **a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to parks and open space:

Effect: Within the Baseline Developed and Redevelopment Areas, the Urban Area General Plan does not propose any elimination of existing park and/or open space land. Impacts on parks and open space will be less-than-significant.

Effect: The projected population of the Planned Urbanizing Area is 148,600, requiring 149 acres of neighborhood parks and 298 acres of community parks. The required minimum acreages can be met through the application of existing policies and regulations, including Government Code Section 66474, which require developers to pay Parks Capital Facilities Fees to fund the acquisition of appropriate parkland acreage. This impact is less-than-significant.

### **b. Master EIR and/or New Mitigation Measures Applied to the Project**

Parks and Open Space Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-11-4 through V-11-19 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project:

#### Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

### **c. Project-Specific Effects**

Section V-11.B of the MEIR provides analysis of Parks and Recreation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

YES NO

- (1) The project is inconsistent with the Modesto Urban Area General Plan.  YES  NO

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.

## 12. SCHOOLS

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to schools:

Effect: The estimated increase in population over 1994/1995 would generate an additional 29,200 elementary school students, 7,330 middle school students, and 14,640 high school students above those enrollments. Assuming that existing facilities cannot sufficiently accommodate this increase and that all of the new students would require new school facilities, build out of the General Plan would result in the need for approximately 37 elementary schools, 8 middle schools, and 7 high schools beyond 1994/1995 levels. This would result in a significant impact on schools in that it would exceed current capacity. By statute, this impact is considered to be mitigated below a level of significance by payment of school impact fees and exercise of any or all of the financing options set out in Government Code Section 65997.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. As long as all anticipated subsequent projects apply these policies, no new mitigation is necessary. Further, payment of school impact fees and compliance with SB 50 is statutorily deemed to be full mitigation of school impacts (Government Code Section 65995). The proposed additional school policy will address the situation that would arise should AB 50 be repealed. It will authorize impact fees or other methods to finance additional school facilities.

The following schools mitigation measure(s) are pertinent to the project being analyzed in this Initial Study. See pages V-12-4 through V-12-7 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section IV, Mitigation Applied to Project:

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-12.B of the MEIR provides analysis of Schools impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) The project does not comply with SB 50/Proposition 1A funding provisions, or succeeding measures which provide that compliance results in less-than-significant impacts on schools. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2) The project will result in accommodating the students in this already critically overcrowded school.

**13. POLICE SERVICES**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to police services:

Effect: The 1995 Master EIR identified two impacts on the demand for police services; however, it concluded that no significant impact, based on the mitigation measures identified in the 1995 Master EIR, would occur. Those mitigation measures are now policies of the Urban Area General Plan. The impact is less-than-significant.

Effect: Within the Planned Urbanizing Area, complying with the Urban Area General Plan policies, particularly the policy that requires a long-range financing strategy for each Comprehensive Plan Area, will allow the City to provide the resources necessary to extend service to the newly growing Planned Urbanizing areas. These policies reduce the impact to a less-than-significant level.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Police Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-13-3 and V-13-4 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-13.B of the MEIR provides analysis of police services impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project would result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2) The project involves minor expansion of an existing school that is already served with adequate police services. The proposal was referred to the Modesto Police Department which did not comment on the need for additional facilities.

**14. FIRE SERVICES**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to fire services:

Effect: The Baseline Developed Area and Redevelopment Area are already developed. Impacts on fire services of development in these areas will be less-than-significant.

Effect: In the Planned Urbanizing Area, the Urban Area General Plan would result in the need for additional fire protection services due to increases in the number of employees, permanent population, and associated improvements. City policy requires that fire protection be in place concurrent with construction in the Planned Urbanizing Area. This policy will be implemented with the adoption of future Comprehensive Plans in the Planned Urbanizing Area. This impact would be less-than-significant.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Fire Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-14-3 through V-14-5 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-14.B of the MEIR provides analysis of fire services impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project would result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2) The project involves minor expansion of an existing school that is already served with adequate fire protection services. The project will be required to meet all City Fire safety requirements.

**15. SOLID WASTE**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to solid waste:

Effect: Since the project would exceed available landfill capacity, it is identified as a significant impact. The Fink Road Landfill may be closed by the time the City reaches build out, unless an expansion is approved by the County and the Integrated Waste Management Board. As the waste stream generated increases with population, additional landfills and methods for diversion would have to be utilized. The project will also generate the need for additional collection and transfer facilities. This impact is significant and unavoidable. The impact would be less-than-significant at such time as the Fink Road Landfill expansion is approved.

Effect: The project makes a considerable contribution to the cumulative impact on landfill capacity of development in Stanislaus County. This impact is significant and unavoidable.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Solid Waste Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study, are found on pages V-15-5 and V-15-6 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project:

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-15.B of the MEIR provides analysis of solid waste impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) The County is unable to expand its solid waste disposal capacity and the project would result in waste stream levels that exceed disposal capacity. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2) This project was referred to the Solid Waste Division of the City's Engineering and Transportation Department and they had no comments regarding this project's impact on the solid waste impacts.

## 16. HAZARDOUS MATERIALS

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to hazardous materials:

Effect: The impacts of the project relative to hazardous materials are less-than-significant, based on the existing regulatory framework. New development will be required to comply with regulations monitoring and controlling the handling and use of hazardous and toxic materials.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under federal, state and county policies and regulations, and the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Hazardous Materials Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-16-9 through V-16-12 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project

#### Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

### c. Project-Specific Effects

Section V-16.B of the MEIR provides analysis of hazardous materials impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project does not comply with all applicable federal, state, and county standards and regulations relative to the handling, storage, disposal, and transport of hazardous or toxic materials or wastes. | <input type="checkbox"/> | X  |
| (3) The project contains a contaminated site not identified as of March 2003.  | <input type="checkbox"/> | X  |
| (4) The project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.                             | <input type="checkbox"/> | X  |
| (5) The project would be located on a site which is included on a list of  | <input type="checkbox"/> | X  |

hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment.

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2-5) The City's Final Master Environmental Impact Report lists hazardous materials sites and this project is not near any those sites.

## 17. LANDSLIDES AND SEISMIC ACTIVITY

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to landslides and seismic activity:

Effect: There are areas of known sand and gravel resources within the Baseline Developed Area and Redevelopment Area. Future development will be subject to SMARA requirements, therefore, the project impact will be less-than-significant.

Effect: There are areas of known sand and gravel resources within the Planned Urbanizing Area. Future development will be subject to SMARA requirements, therefore, the project impact will be less-than-significant.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Landslide and Seismic Activity Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-17-6 and V-17-7 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

### c. Project-Specific Effects

Section V-17.B of the MEIR provides analysis of landslides and seismic impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) The project would be located on soil that is unstable, or that would become unstable as a result of the project, and potentially result in on or off-site landslide, lateral spreading, subsidence, liquefaction or collapse. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2) The project involves property that was previously built-upon with single-family residences and road improvements. According to the MEIR's physical description of the General Plan's study area, the site is not located in area subject to landslide, lateral spreading, subsidence, liquefaction or collapse.

**18. ENERGY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to energy:

Effect: The Baseline Developed Area and Redevelopment Area are already developed. New development within the Redevelopment Area will comply with Title 24 standards as well as City Urban Area General Plan policies. Impacts on energy by development in these areas (i.e., changes in levels of use above the current baseline) will be less-than-significant.

Effect: Build out under the Urban Area General Plan will utilize an estimated 1,400 million cubic feet per month of natural gas, 1,300 million kilowatt hours (kwh) of electricity per year and 650,000 gallons of gasoline per day. PG&E has indicated that they have at the current time sufficient supplies of natural gas to serve the increased natural gas demands of the project. At present, gasoline supplies are apparently sufficient to serve the gasoline demands of the project. Title 24 of the California Code of Regulation, which ensures that the project will not exceed local, state, and federal energy standards. The impact is less-than-significant.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

The following energy mitigation measure(s) are pertinent to the project being analyzed in this Initial Study. See page V-18-3 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section IV, Mitigation Applied to Project:

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards

**c. Project-Specific Effects**

Section V-18.B of the MEIR provides analysis of energy impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-than significant unless:

- |   |                          |    |
|---|--------------------------|----|
|   | YES                      | NO |
| (1) The project is inconsistent with the Modesto Urban Area General Plan. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.

The proposed school parking lot should contain shade trees as required in the Modesto Municipal Code. The City suggests that applicant provide for nine shade trees in the parking areas, six in the parking lot fronting Glenn street, and three in the parking area along the east side of the project site.

**19. PLANNING AND LAND USE**

The Master EIR was certified for the Modesto Urban Area General Plan. The significant effects described in the 18 subject areas contained in the Master EIR are based on the planning policies and diagrams adopted as part of the General Plan. Planning and land use were not among the 18 subject areas analyzed in the Master EIR because they essentially defined the project being evaluated in the EIR.

**a. Project-Specific Effects**

Determination of project effects will be based on the following threshold. A project-specific effect is less-than-than significant unless:

- |  |                          |    |
|--|--------------------------|----|
|  | YES                      | NO |
| (1) The project is inconsistent with the Modesto Urban Area General Plan.                | <input type="checkbox"/> | X  |
| (2) The project includes a substantive amendment to the Modesto Urban Area General Plan. | <input type="checkbox"/> | X  |
| (3) The project would physically divide an established community                         | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2) The project involves annexation to the City Limits and does not include an amendment to the Modesto Urban General Plan.
- (3) The project will serve to strengthen the bonds of the neighborhood as the elementary school unites the children and parents in the neighborhood.

## 20. AESTHETICS

The Master EIR was certified for the Modesto Urban Area General Plan. The significant effects described in the 18 subject areas contained in the Master EIR, are based on the planning policies and diagrams adopted as part of the General Plan. At that level of detail, no significant effects on aesthetics were identified.

### a. Project-Specific Effects

Determination of project effects will be based on the following threshold. A project-specific effect is less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project would have a substantial adverse effect on a scenic vista.   | <input type="checkbox"/> | X  |
| (3) The project would substantially degrade the existing visual character or quality of the project site and its surroundings.             | <input type="checkbox"/> | X  |
| (4) The project would create a new source of substantial light and glare, which would adversely affect day or nighttime views in the area. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2-4) The project is located within an established residential neighborhood and there are no scenic vistas in the immediate area. The expansion of the existing school is consistent with the type of development in the area.

The applicant is encouraged to provide for screen planting and a CMU block wall between the parking area and the residential unit to the west of the proposed parking area. Provide for a climbing vine planning to cover the CMU block wall.

## V. MITIGATION MEASURES APPLIED TO THE PROJECT

### A. Master EIR Mitigation Measures Applied to the Project

Pursuant to CEQA Section 21157.1 (c), in order for a Finding of Conformance to be made, all feasible measures from the Master EIR appropriate to the project shall be incorporated into the project. The following adopted General Plan Policies and Master EIR Mitigation Measures (also contained in Section III, "Global List") shall be made part of the project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan:

All applicable and appropriate mitigation measures have been applied to the project (see mitigation measures listed below).

#### Traffic and Circulation Measures:

N/A

#### Air Quality Measures:

##### Mitigation Measure Air-1: PM10 Control Measures

1. SJVUAPCD Regulation VIII Control Measures for Construction Emissions of PM-10.  
The following controls are required to be implemented at all construction sites:
  - a. All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover
  - b. All on-site unpaved roads and off-site unpaved access roads shall be effectively stabilized of dust emissions using water or chemical stabilizer/suppressant.
  - c. All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.
  - d. With the demolition of buildings up to six stories in height, all exterior surfaces of the building shall be wetted during demolition.
  - e. When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.
  - f. All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. *(the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)*

g. Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.

h. Within urban areas, trackout shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.

i. Any site with 150 or more vehicle trips per day shall prevent carryout and trackout.

**B. Recommended Conditions of Project Approval**

1. Glenn Avenue be dedicated and improved to full City Standards.
2. The proposed alley abandonment may affect vehicular access to adjacent residences and the Turlock Irrigation District lateral located west of the school site. The City recommends that a separate alley right-of-way be maintained immediately west and adjacent to the western access driveway. A vehicular access easement may serve to meet the access needs of the users of the alley.
3. All fences and walls heights shall adhere to the City's Clear Vision Triangle requirements.
4. The City Fire Marshal cited the following California Fire Code requirements:
  - a) Fire Hydrants shall be spaced at 450-foot intervals along fire department access roads capable of providing 2,250 gallons per minute.
  - b) Fire department access roads shall extend within 150 feet of all portions of buildings. For buildings provided with an automatic fire sprinkler system this distance may be increased to 200 feet.
  - c) Fire department access roads shall be provided with an inside turning radius of 25 feet and outside 45 feet. Dead end fire department access roads that exceed 150 feet in length shall be provided with an approved turnaround.
5. The project will result in additional parking and better on-site circulation for the school site. The project also proposes street improvements along the adjoining streets improving the safety for both pedestrians and vehicular traffic. The proposed relocated alley right-of-way will need to be designed to provide an adequate turning radius for utility service vehicles.
6. SJVUAPCD Regulation VIII Control Measures for Construction Emissions of PM-10. The following controls are required to be implemented at all construction sites:

- a) All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover
  - b) All on-site unpaved roads and off-site unpaved access roads shall be effectively stabilized of dust emissions using water or chemical stabilizer/suppressant.
  - c) All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.
  - d) With the demolition of buildings up to six stories in height, all exterior surfaces of the building shall be wetted during demolition.
  - e) When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.
  - f) All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. *(the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)*
  - g) Following the addition of materials to, or the removal
  - h) Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.
  - i) Within urban areas, trackout shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.
  - j) Any site with 150 or more vehicle trips per day shall prevent carryout and trackout.
  - k) The Project will need to be in compliance with the National Emission Standards for Hazardous Air Pollutants (NESHAPS).
7. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields.
  8. The project will be required to control storm drainage in accordance with the City's Guidance Manual for New Development Stormwater Quality Control Measures.
  9. Fire Hydrants shall be spaced at 450-foot intervals along fire department access roads capable of providing 2,250 gallons per minute.
  10. Fire department access roads shall extend within 150 feet of all portions of buildings. For buildings provided with an automatic fire sprinkler system this distance may be

increased to 200 feet.

11. Fire department access roads shall be provided with an inside turning radius of 25 feet and outside 45 feet. Dead end fire department access roads that exceed 150 feet in length shall be provided with an approved turnaround.
12. The proposed school parking lot should contain shade trees as required in the Modesto Municipal Code. The City suggests that applicant provide for nine shade trees in the parking areas, six in the parking lot fronting Glenn street, and three in the parking area along the east side of the project site.
13. The applicant is encouraged to provide for screen planting and a CMU block wall between the parking area and the residential unit to the west of the proposed parking area. Provide for a climbing vine planting to cover the CMU block wall.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-237**

**A RESOLUTION ESTABLISHING FEES FOR THE TUOLUMNE RIVER  
REGIONAL PARK FACILITIES AND RESCINDING RESOLUTION NO. 2002-  
383.**

WHEREAS, on August 8, 2002, the City Council adopted Resolution No. 2002-383 establishing certain fees for use of Tuolumne River Regional Park facilities managed by the City's Parks, Recreation and Neighborhoods Department, and

WHEREAS, on March 23, 2004, the City Council adopted Resolution No. 2004-167, establishing policies and procedures and fees for Parks, Recreation and Neighborhoods Department facilities and services, and

WHEREAS, said resolution did not include establishing fees for facilities of the Tuolumne River Regional Park, and

WHEREAS, the Tuolumne River Regional Park Citizens Advisory Committee met on March 24, 2004, and supported the recommended fees for Tuolumne River Regional Park facilities and related services managed by the Parks, Recreation and Neighborhoods Department, and

WHEREAS, the Tuolumne River Regional Park Commission met on April 12, 2004, and supported the recommended fees for Tuolumne River Regional Park facilities and related services managed by the Parks, Recreation and Neighborhoods Department, and

WHEREAS, pursuant to an agenda report to the City Council dated April 12, 2004, the Parks, Recreation and Neighborhoods Department staff has recommended to the City Council certain fee assessments relating to the use of facilities and other related services for Tuolumne River Regional Park facilities managed by the Parks, Recreation

and Neighborhoods Department, a copy of which is attached hereto as Exhibit 1 and incorporated herein by reference, and

WHEREAS, said matter was set for a public hearing of the City Council to be held at 5:30 p.m. on April 27, 2004 in the Tenth Street Place Chambers, located at 1010 Tenth Street, Modesto California, and

WHEREAS, on said date and time said duly noticed public hearing of the City Council was held for the purpose of receiving public comment on the proposed fees for Tuolumne River Regional Park facilities managed by the Parks, Recreation and Neighborhoods Department,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves certain fees relating to the use of Tuolumne River Regional Park facilities managed by the Parks, Recreation and Neighborhoods Department, a copy of which is attached hereto as **Exhibit "1"** and incorporated herein by reference.

BE IT FURTHER RESOLVED that Resolution No. 2002-383 is hereby rescinded effective April 30, 2004.

BE IT FURTHER RESOLVED that this resolution shall become effective on May 1, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of April 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Jackman, Keating, Marsh, Mayor Ridenour  
NOES: Councilmembers None

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-238**

**A RESOLUTION RESTATING USAGE POLICIES, BOOKING PROCEDURES AND RENTAL RATES FOR JOHN THURMAN FIELD, AND AUTHORIZING STAFF TO NEGOTIATE THE PARKING FEES FOR NON-BASEBALL EVENTS AT JOHN THURMAN FIELD AT A RATE FROM \$3.00 TO \$5.00 PER CAR, AND RESCINDING RESOLUTION NO. 98-51.**

WHEREAS, the City owns, operates and manages John Thurman Field, a Class A professional baseball stadium, and

WHEREAS, Section 12-3.03 of the Modesto Municipal Code authorizes the City Council by resolution to control and regulate the use of John Thurman Field, and

WHEREAS, special non-baseball events are held at John Thurman Field on occasion, and

WHEREAS, on January 27, 1998, by Resolution No. 98-51, the City Council established rental fees, usage policies and booking procedures for use of John Thurman Field, including parking rates for private non-baseball events at John Thurman Field at \$3.00 per car and no charge for non-profit special events, and

WHEREAS, pursuant to an agenda report to the City Council dated April 7, 2004, the Parks, Recreation and Neighborhoods Department staff has recommended to the City Council that certain usage policies and booking procedures for rental and use of John Thurman Field be restated, a copy of which is attached hereto as **Exhibit "1"** and **Exhibit "2"**, respectively, and incorporated herein by reference, and

WHEREAS, pursuant to an agenda report to the City Council dated April 7, 2004, the Parks, Recreation and Neighborhoods Department staff has recommended to the City Council that certain fee assessments relating to the use of John Thurman Field be restated, a copy of which is attached hereto as Exhibit "3" and incorporated herein by reference, and

WHEREAS, pursuant to an agenda report to the City Council dated April 7, 2004, the Parks, Recreation and Neighborhoods Department staff has recommended to the City Council that staff be authorized to negotiate parking rates for all non-baseball events at John Thurman Field at a rate from \$3.00 to \$5.00 per car, as shown on Exhibit "3", a copy of which is attached hereto and incorporated herein by reference, and

WHEREAS, at their April 5, 2004, meeting, the Safety and Communities Committee recommended authorizing staff to negotiate the parking fees for non-baseball events at John Thurman Field at a rate from \$3.00 to \$5.00 per car, and

WHEREAS, said matter was set for a public hearing of the City Council to be held at 5:30 p.m. on April 27, 2004, in the Tenth Street Place Chambers located at 1010 10<sup>th</sup> Street, Modesto, California, at which date and time said duly noticed public hearing of the Council was held for the purpose of receiving public comment on the proposed parking fees,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the usage policies, booking procedures and rental rates for John Thurman Field previously approved by the Council are hereby restated as set forth in Exhibits "1" and "2" attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the fee assessments for rental of John Thurman Field previously approved by the Council are hereby restated as set forth in **Exhibit "3"** attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED that the Council authorizes staff to negotiate the parking fees for non-baseball events at John Thurman Field at a rate from \$3.00 to \$5.00 per car.

BE IT FURTHER RESOLVED that Resolution No. 98-51 is hereby rescinded effective April 27, 2004.

BE IT FURTHER RESOLVED that this resolution shall become effective on April 28, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of April 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

## John Thurman Field USAGE POLICIES

### GENERAL INFORMATION

No person may use John Thurman Field without first having obtained a written license. Parties to license and use negotiations with John Thurman Field must be legally qualified to execute binding contracts. Licensee shall not conduct within or upon the premises any other operations except those described in the license unless prior written consent of the City of Modesto is given. Licensee, its officers, agents, and employees shall comply with all rules and regulations, laws, and ordinances adopted or established, from time to time, by any governmental agent or department thereof.

#### 1. Rates and Services

Rates for the rental of John Thurman Field shall be indicated in the rate schedule. These rates are adjusted periodically to reflect the Mission Statement and budgetary goals for John Thurman Field. Changes in the schedule of rates for John Thurman Field are approved by the Modesto City Council.

The rental rate schedule states the maximum rentals to be collected by the stadium management. These rates will be charged to all stadium users with few exceptions. At the discretion of the stadium manager, lower rental rates can be negotiated by the stadium manager for one or more of these reasons:

- A quantity of dates that are scheduled in the same calendar year.
- A use that will render appropriate revenue levels to the stadium through other means than rent.
- In order to foster the addition of desirable events to the calendar that were unattainable in the past.
- A proposed use that does not fit the current rental rate schedule.

#### 2. Scope of Rental Payment

The agreement to pay a stated rental amount for the stadium entitles the Licensee to these facilities and services unless specifically stated in the license.

- The stated public space(s) at the stated times on the stated day(s).
- Concourse lighting as appropriate.
- Event supervision by the stadium management.

- Any other equipment or services specifically provided for in the use license.

### 3. Rental Rate Categories

The applicable rate to be charged for the use of the stadium will vary according to the prospective Licensee, the public space(s) requested, the time(s) requested, and the contemplated use of the space. Based on the above factors, the stadium management will establish the applicable rate to be charged that is also consistent with the rental schedule and stadium policies.

Definitions of the rental rate categories are below.

#### LICENSEE CATEGORIES:

- A. *Non-profit.* Rates listed for non-profit groups shall be extended to non-profit organizations that have a 501 (c) (3) tax status with the I.R.S.
- B. *Private.* All individuals and organizations that do not meet the non-profit criteria as set out above.

#### TIME CATEGORIES:

- A. *Overtime.* Will be facility usage that extends beyond the normal operation hours of the stadium.
- B. *Rehearsal.* Time used the day before the event for rehearsal or setup, or the day after an event for move-out. Rehearsal rates are only applicable on days when the public or event attendees are not present.
- C. *General time calculation.* The time of use begins when the Licensee, its representatives, employees, or contractors arrive at the stadium to begin event preparations. The time of use ends when the Licensee, its representatives, employees, contractors, and event attendees have totally vacated the stadium.
- D. *Normal operating hours.* Building usage before 6:00 a.m. and after 2:00 a.m. will only be allowed with stadium management approval.

#### USE CATEGORIES:

- A. *Ticketed events.* Events that fit some or all of these descriptions:
  - Typically sports or entertainment events.
  - Events where an admission is charged and the gross potential is greater than ten times the base rent.
  - Events where the general public is invited.
  - Not to include picnics and banquets where the admission charge is not predominantly aimed at the cost of entertainment.

Licensees in this category will be charged a flat guarantee versus 10% of the gross ticket sales, whichever is greater.

- B. *Trade shows.* Licensees that sublet space to exhibitors and charge for the right to exhibit will be charged a flat guarantee versus a net square foot cost, whichever is greater. The net square foot charge will be calculated on all floor space that is utilized by the exhibitors. Licensees that plan a trade show, craft show, etc., where the exhibitor's fee paid to the Licensee is too low to justify the net square foot rental rate, will be charged the flat rate for the stadium at the stadium management's discretion.
- C. *Baseball.* Non-profit Licensees that wish to use the stadium for the sole purpose of hosting a baseball game will pay the baseball rate.

#### **4. Expiration of License**

Licensee shall remove from the facilities all property, goods, and effects belonging to Licensee or caused by him to be brought upon the premises. If property is not removed within the time limits stated in the license, City shall have the right to dispose of, sell, store, or cause to be stored any property, for which Licensee shall pay a penalty fee, plus all storage and moving expenses incurred therefor, prior to release of the property from storage.

At the expiration of the time of use of the facilities set forth, Licensee shall quit the facilities and return all equipment and facilities procured, which premises, equipment, and facilities shall be in as good condition and repair as before Licensee's use thereof except for ordinary wear and use.

#### **5. Payment for Damages**

Licensee agrees to pay costs of repair or replacement for any and all damages of whatever origin or nature to property of City and John Thurman Field equipment resulting from Licensee's exercise of its license, whether deliberate, accidental, or other causes not predicated on active negligence of City. If possible, John Thurman Field management may withhold from box office receipts before settlement a reasonable amount to cover the costs arising from such damages. John Thurman Field management shall refund to Licensee any amount withheld in excess of actual damages. Otherwise, John Thurman Field management will bill Licensee for damage costs.

#### **6. Scheduling**

John Thurman Field management will at its sole discretion determine the acceptable frequency in a one-year period and the acceptable closeness of two similar events. If similar events are too frequent or too close on the calendar, John Thurman Field management reserves the right to deny permission to use John Thurman Field for the event.

#### **7. Event Information**

Licensee shall provide John Thurman Field management, at least fourteen days prior to the first day of a scheduled event, a full and detailed outline of all event requirements, including the setup, equipment, personnel, and all other such information as may be required by management.

## **8. Lawful Activity**

No performance, exhibition, or activity shall be given or held in John Thurman Field which is illegal.

## **9. Tickets**

Licensee will pay the City for all box office services as may be required. Licensee is required to sell all tickets at prices advertised, and no deviation will be allowed without the prior written consent of John Thurman Field management. In the handling, control, custody, and keeping of funds, the City is acting for the accommodation of Licensee, and as to such funds the City shall not be liable to Licensee or to any other persons for any loss, theft, or defalcation thereof whether such loss, theft, or defalcation is caused or done by employees of City or otherwise.

## **10. Concession Sales**

Licensee shall not sell, serve, or give away any concession items, including but not limited to tobacco products, beverages, food, candy, or refreshments of any kind, within the leased space except with prior written permission from John Thurman Field management. Licensee, his exhibitors, or persons caused by him to come on the premises may distribute free samples of food or beverages only upon receipt of written permission from John Thurman Field Manager.

City reserves the right to operate or contract for operation and receive the income from concessions for the events to be covered by this license. Such concessions shall include, but not be limited to, the dispensing or sale of food, beverages, programs, souvenirs, and novelties. John Thurman Field shall designate stand and/or bar locations for selling and serving such items.

## **11. Merchandise Sales**

- A. Performances, Entertainment, Concerts, Dances: Programs, garments, tapes, CDS, and other novelties may be offered for sale in authorized spaces during the time of the license with approval in advance from John Thurman Field management. Licensee shall pay 20% of the gross receipts from such sales to the stadium management. Licensee should be prepared to inventory in all merchandise available for sale before sales are begun. Additionally, an inventory will be conducted at the conclusion of the sale to establish gross sales.
- B. Conferences, Conventions, Meetings, Seminars, etc.: Merchandise may be offered for sale in authorized spaces during the time of the license with approval in advance from John Thurman Field management. The organization or company which is using John Thurman Field and hosting the event may sell merchandise and educational materials that promote their organization or its mission and/or bear its name or logo at no charge to the organization. When the sponsoring organization makes space available to another company or organization for the purpose of selling merchandise, the sponsor will be charged \$75 for each such merchant per day.

## 12. Broadcasting

No event presented in John Thurman Field shall be broadcasted, televised, or in any manner recorded for reproduction without the written consent of John Thurman Field management, and then only upon the express condition that all John Thurman Field expenses pertaining thereto will be paid in advance.

Additionally, John Thurman Field management reserves the right to charge a reasonable usage fee for any broadcast or recording activity. Licensee shall hold City harmless from such broadcasting activity and shall provide all insurance requested by John Thurman Field management prior to conducting the broadcasting.

## 13. Copyrights

Licensee agrees, represents, and warrants that nothing contained in the program, performance, or exhibition, or in any other way connected with Licensee's activities under this contract, shall violate or infringe upon any copyrights patented, right of privacy, or other statutory or common law right of any person, firm, or corporation. John Thurman Field will not be responsible for any violations of copyright laws by Licensee.

## 14. Advertising

It is agreed that no signs, posters, or advertisements shall be posted in, on, or about John Thurman Field without the prior written consent and approval of John Thurman Field Manager. In addition, Section 10-2.2108(o) of the Modesto Municipal Code reads as follows:

*"No signs on street trees, utility poles or structure in street right-of-way. No signs will be attached to any City street tree, or any poles such as utility poles, street signals, street lights, street name signs, or traffic warning signs, or on any bus shelter."*

Advertising materials must assure "truth in advertising" and good taste for the event authorized by this license.

Prior to the execution of this license, Licensee shall not publicize, nor cause to be publicized, in any manner, a performance or event at John Thurman Field. John Thurman Field reserves all rights to the information and manner of publicized display on John Thurman Field scoreboard or marquee.

## 15. Security

Licensee shall engage, through John Thurman Field management, and reimburse City for the services of adequate security personnel, to be appropriate for the intended facility use as required by John Thurman Field management. John Thurman Field management shall determine the number of officers, and duties will be assigned at the sole discretion of the City.

Licensee shall be solely responsible for the orderly conduct of all persons using the premises by its invitation, either expressed or implied, during all times covered by this license. City reserves the right to eject or cause to be ejected from the premises any person or persons objectionable due to unlawful conduct.

## **16. Seating Capacity**

Licensee shall not sell or permit to be sold or distributed, tickets or passes in excess of the capacity of facilities leased nor admit thereto a larger number of persons than can safely and freely move about therein. The decision of John Thurman Field management in this respect shall be final and shall include the right to cancel the event if the number present exceeds the number permitted by law.

## **17. Control of Stadium**

The entrances and exits of said premises shall be locked and unlocked at such times as may be required for Licensee's use, but Licensee at his expense must place proper watchmen at all entrances and exits when same are unlocked. The City and all duly authorized representatives of the City shall have the right to enter John Thurman Field and all parts thereof at all times.

## **18. Lost Articles**

City shall have the right to collect and have custody of articles left in the building by persons attending any event in John Thurman Field, and Licensee or any person in Licensee's employ shall not collect nor interfere with the collection or custody of such articles.

## **19. Flammable Materials**

No flammable materials such as bunting, tissue paper, crepe paper, etc., will be permitted to be used for decorations, and all materials used for decorating purposes must be approved by the Fire Department.

## **20. Utility Connections**

Unless otherwise authorized by John Thurman Field management, all plumbing, electrical, domestic gas, or carpenter's work required to be done on the premises of John Thurman Field in connection with Licensee's use thereof, shall be done or furnished by City or approved representative.

## **21. Storage**

In the receipt, handling, care, or custody of property of any kind shipped or otherwise delivered to the premises by any Licensee, the City, John Thurman Field management, and its employees shall act solely for the accommodation of the Licensee, and neither City, John Thurman Field management, nor employees shall be liable for any loss, damage, or injury to such property.

## **22. Business License**

Private individuals and private companies utilizing John Thurman Field as a place to conduct business are required to have a City of Modesto business license. One-day licenses can be obtained from the City of Modesto Finance Department at (209) 577-5389.

LICENSEE HAS READ AND UNDERSTANDS THE STADIUM USAGE POLICIES AS SET FORTH ABOVE. LICENSEE AGREES TO OBSERVE AND ABIDE BY THE RULES AND REGULATIONS GOVERNING THE USAGE OF JOHN THURMAN FIELD FOR PURPOSES AS STATED PER USE LICENSE.

City of Modesto  
Parks, Recreation and Neighborhoods Department  
Cultural and Enterprise Services Division

## John Thurman Field BOOKING PROCEDURES

### A. Calendar Distance From Proposed Date

#### *Full Stadium or Full Concourse Rentals*

1. During Professional Baseball Season

Uses for John Thurman Field that use the entire stadium or the entire concourse and take place during the professional baseball season (approximately April 1 through September 7 of each year) will only be booked after the professional baseball schedule is announced for each year. Stadium management will not make available dates that are scheduled for home games and dates that are required for the field maintenance that supports professional baseball. Field maintenance days will be selected at the sole discretion of stadium management.

2. Outside of the Professional Baseball Season

Uses for John Thurman Field that use the entire stadium or the entire concourse and do not occur during the professional baseball season may be booked a maximum of 13 months prior to the requested event date.

#### *Partial Stadium Rental*

1. During Professional Baseball Season

Uses for John Thurman Field use less than the entire stadium or the entire concourse and take place during the professional baseball season, approximately April first through September seventh of each year, will only be booked after the professional baseball schedule is announced for each year. Stadium management will not make available dates that are scheduled for home games and dates that are required for the field maintenance that supports professional baseball. Field maintenance days will be selected at the sole discretion of stadium management.

2. Outside of the Professional Baseball Season

Uses for John Thurman Field that use less than the entire stadium or the entire concourse and do not occur during the professional baseball season may be booked a maximum of 6 months prior to the requested event date.

#### *Exceptions to the above are:*

Large date-specific events that do not occur during the professional baseball season may be guaranteed use dates up to five years prior to a selected event date at the sole discretion of John Thurman Field management. By definition date-specific events are those that are held on

specific dates and can not occur on another day because of the type or theme of the event. These tend to be holiday or other significant date events. Examples would be Halloween or the Fourth of July.

#### **B. Spacing of Similar Public Events**

At its sole discretion, John Thurman Field management will establish appropriate spacing for similar public events.

#### **C. Tentative Event Date Holds**

1. John Thurman Field management will hold tentative dates that are more than 13 months out until someone else requests the same date(s).
2. John Thurman Field will hold tentative dates that are less than 13 months out for a maximum of six weeks. If the prospective licensee does not call John Thurman Field staff and request a license for the tentative hold within the six-week period, the hold will automatically be dropped at the end of the six-week period.
3. Requests for the same event space on the same date are handled as follows:

The prospective licensee that has the date as a tentative will be notified. They will be required to make their deposit payment within two working days. If they fail to do so, their date will be released to the second party. The second party will then be required to make the deposit payment within two working days.

#### **D. License Deposit**

1. No license is valid unless it is returned to John Thurman Field staff with the specified deposit by the date specified on the license.
2. Half of the space rental rate will be required as a deposit, with these exceptions:
  - a. The minimum guaranteed rental will be required as deposit for percentage based and square foot rentals.
  - b. Licensees who hold more than three licenses in a calendar year may be allowed to submit one deposit to apply to all contracts. This deposit will be rolled over and held continually against future licenses at the conclusion of each event. It is understood with the above arrangement that the amount stated as deposit on each license will serve as damages for each event in the case that it is canceled. Despite the above arrangement, it is further understood that multiple cancellations may result in damages paid to John Thurman Field in excess of the original deposit payment.
  - c. At its sole discretion, management may elect to waive the deposit payment. Typically, this will be considered based on one or more of the factors below:
    - (1) Past successful events where dates were not canceled and all fees and charges were paid in a timely manner.
    - (2) Institutional financial stability; i.e., government and schools.

(3) Minimal entrepreneurial risk associated with the event.

3. In the case of cancellation of the event by the lessee or a default of license terms by the licensee causing the City to void the license, the City will retain the entire deposit as damages and bill the licensee for any and all out-of-pocket expenses incurred as preparation for the canceled event. Any notice of cancellation, with the exception of ticketed entertainment, must be received a minimum of 48 hours prior to event date or full rental will be charged. When an event is booked as ticketed entertainment, whether flat rate or percentage based, any cancellation notice must be received a minimum of one week prior to event date or full room rental will be charged.

When a date is canceled and rebooked within the same six-month period, half of the deposit will be retained by John Thurman Field as damages; additionally, the licensee will be billed for any and all out-of-pocket expenses incurred as preparation for the canceled date.

4. In cases when a licensee reduced the total number of spaces described in the license, the City will collect the standard deposit amount for the unused space instead of full rent.

**E. Cause to Deny John Thurman Field Use**

1. Failure to fully pay bills that were incurred in connection with another event at another facility, regardless of who had not been fully paid.
2. Failure to fully pay John Thurman Field settlement statements on or before the date specified on the license, including all rental fees, services, and other charges.
3. Failure to perform to the letter of John Thurman Field license agreement on a past event.
4. Damage to John Thurman Field or another facility in excess of normal wear, that was of an intentional or willful nature.
5. Past situations where a prospective less condoned, encouraged, or engaged in activities that were deemed dangerous or harmful or potentially dangerous or harmful to event attendees and/or employees of John Thurman Field or another facility.
6. Any event that is deemed potentially intrusive of the neighborhood that surrounds John Thurman Field.
7. When the proposed activity is deemed to be unlawful according to City, State, or Federal law.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-239**

**A RESOLUTION REJECTING ALL BIDS AND AUTHORIZING RE-BIDDING  
FOR THE PURCHASE AND ASSEMBLY OF TEN (10) GRANULAR  
ACTIVATED CARBON (GAC) UNITS**

WHEREAS, granular activated carbon (GAC) units are pressure vessels filled with granular activated carbon, and

WHEREAS, granular activated carbon is a filter used to remove and dissolve organics and chlorine from drinking water, and

WHEREAS, on February 24, 2004, in an effort to return inactive wells to service prior to the peak water use season, Council approved Resolution No. 2004-115, authorizing the Purchasing Supervisor to formally solicit bids for the purchase and assembly of nine (9) granular activated carbon (GAC) units for the Operations and Maintenance Department, Water Division for an engineer's estimated unit cost of \$80,000, and for an engineer's estimated combined total cost of approximately \$720,000, and

WHEREAS, the purchase of these vessels would provide treatment capability at four (4) priority wells; Well 225, 303, 21 and 8, and

WHEREAS, returning these wells to service, coupled with the completion of work on Well 65 (new well at Tank 5), Well 312 (new well in Empire), and the return to service of Well 50 (work already underway to install GAC treatment) will regain approximately thirty-six (36%) percent of the lost drinking water well production capacity, and

WHEREAS, on February 25, 2004, the Purchasing Division solicited Request for Bid No. 0304-19, for the purchase and assembly of nine (9) granular activated carbon

(GAC) units to three (3) vendors, plus posted the bid on the City's web site. The bid was also formally advertised by the City Clerk's Office, and

WHEREAS, during the bid process, the Operations and Maintenance Department, Water Division made a request to add one (1) additional GAC vessel for Well 303, and

WHEREAS, on March 5, 2004, Addendum No. 1 was issued adding one (1) additional GAC vessel, bringing the bid total to ten (10) GAC vessels, and

WHEREAS, on March 10, 2004, Addendum No. 2 was issued affording prospective bidders the opportunity to submit bids for vessels filled with either "Domestic" or "Foreign" GAC, or both, if they were capable of supplying both, and

WHEREAS, bids were opened in the City Clerk's Office on March 16, 2004, and

WHEREAS, of the three (3) vendors solicited, all chose to respond, and

WHEREAS, two (2) out of the three (3) vendors submitted responsive bids, providing the required number of signed original bid documents and copies per the bid requirements, and

WHEREAS, one (1) vendor Carbon Activated Corporation (CAC), submitted one (1) signed original bid marked "Foreign" and one (1) signed original bid marked "Domestic", along with four (4) required bid copies marked "Domestic", and

WHEREAS, based on the documents submitted it appeared as though Carbon Activated Corporation was submitting a bid for "Domestic" GAC, and

WHEREAS, a phone call was made to clarify Carbon Activated Corporation's bid intention, and

WHEREAS, Carbon Activated Corporation submitted an email stating that they had intended to bid "Foreign" GAC, and

WHEREAS, based on not submitting the Council required number of signed original bid documents for either “Foreign” or “Domestic” GAC, their bid was deemed to be non-responsive and was disqualified, and

WHEREAS, Carbon Activated Corporation filed a written protest to the Purchasing Supervisor, and

WHEREAS, the Purchasing Supervisor reviewed Carbon Activated Corporation’s written protest and supporting documents and responded in writing the following: This mandatory Purchasing Division formal bid requirement is based on direction from Council and is clearly stated in three (3) different sections within the bid document, and

WHEREAS, based on being directed by Council, the language is absolute and staff does not have the authority to disregard it, and

WHEREAS, in order to comply with Council policy ensuring the integrity of the bidding process, the Purchasing Division had no option but to reject the bid of the non-responsive vendor, and

WHEREAS, City staff recommends rejecting all bids for Request for Bid No. 0304-19 for the purchase and assembly of ten (10) granular activated carbon (GAC) units based on responsive bids received exceeding the engineer’s estimate. Staff also recommends authorizing the Purchasing Supervisor to re-bid for the purchase and assembly of ten (10) granular activated carbon units, and

WHEREAS, re-bidding is the recommended option because the responsive bid packages were significantly higher than the original engineer’s estimate. This is likely due to the steel shortage. According to industry experts, there has been an international

shortage of steel due to strong international economic growth in the past year. This situation has impacted the pressure vessel industry in multiple ways,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby rejects all bids for the purchase and assembly of ten (10) granular activated carbon (GAC) units.

BE IT FURTHER RESOLVED that the Purchasing Supervisor is hereby authorized to re-bid for the purchase and assembly of ten (10) granular activated carbon (GAC) units.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of April 2004, by Councilmember Keating, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NUMBER 2004-240**

**A RESOLUTION OPPOSING STATE SENATE BILL 1866, LEGISLATION  
RELATING TO POLICE MOTOR VEHICLE PURSUITS**

WHEREAS, the Council of the City of Modesto has considered the provisions of Senate Bill 1866 relating to police officer motor vehicle pursuits, and

WHEREAS, Senate Bill 1866 proposes the virtual elimination of police officer vehicle pursuits, and

WHEREAS, Senate Bill 1866, if passed into law, would eliminate immunity for law enforcement in civil claims related to police motor vehicle pursuits, and

WHEREAS, Senate Bill 1866, if passed into law, will greatly increase the City of Modesto's exposure to civil liabilities, and

WHEREAS, Senate Bill 1866, if passed into law, will allow for the potential escape of suspected dangerous felons,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it is hereby strongly opposed to the passage of Senate Bill 1866 into law.

BE IT FURTHER RESOLVED that certified copies of this resolution shall be sent to the author of Senate Bill 1866, Senator Aanestad, and to the City of Modesto's State representatives.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4<sup>th</sup> day of May, 2004, by Councilmember O'Bryant, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-242**

**A RESOLUTION ACCEPTING THE BID AND AWARDING A \$265,672.50  
CONTRACT WITH RODGERS CONSTRUCTION & ENGINEERING CO., INC.,  
FOR THE PROJECT TITLED "HATCH ROAD IMPROVEMENTS AT DALLAS  
STREET INTERSECTION," AND AUTHORIZING THE CITY MANAGER TO  
EXECUTE THE CONTRACT**

WHEREAS, the bids received for the Hatch Road Improvements at Dallas Street Intersection project were opened at 11:00 a.m., on April 6, 2004, and later tabulated by the Acting Engineering and Transportation Director for the consideration of the Council, and

WHEREAS, the Acting Engineering and Transportation Director has recommended that the bid of \$265,672.50 received from Rodgers Construction & Engineering Co., Inc., be accepted as the lowest responsible bid and the contract be awarded to Rodgers Construction & Engineering Co., Inc.,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the bid of Rodgers Construction & Engineering Co., Inc., in the amount of \$265,672.50, and hereby awards Rodgers Construction & Engineering Co., Inc., the contract titled "Hatch Road Improvements at Dallas Street Intersection" for \$265,672.50.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of May, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-243**

**A RESOLUTION AMENDING THE FY 2003-2004 CAPITAL IMPROVEMENT BUDGET TO TRANSFER \$77,967 FROM THE 1410 FUND BALANCE TO CIP PROJECT (MY-1410-430-A014) FOR STREET WIDENING IMPROVEMENTS ALONG HATCH ROAD AT ITS INTERSECTION WITH DALLAS STREET**

WHEREAS, the bids received for the Hatch Road Improvements at Dallas Street Intersection project were opened at 11:00 a.m., on April 6, 2004, and later tabulated by the Acting Engineering and Transportation Director for the consideration of the Council, and

WHEREAS, the Acting Engineering and Transportation Director has recommended that the bid of \$265,672.50 received from Rodgers Construction & Engineering Co., Inc., be accepted as the lowest responsible bid and the contract be awarded to Rodgers Construction & Engineering Co., Inc.,

WHEREAS, on February 24, 2004, the City Council passed Resolution No. 2004-108 amending the FY 2003-04 Capital Improvement Budget to reduce the Traffic Signals Modifications' CIP appropriation by \$80,640 and return those funds to the fund balance, and appropriate \$240,840 to the Capital Improvement Project for Street Widening Improvements along Hatch Road at its intersection with Dallas Street (MY-1410-430-A014), and

WHEREAS, the Acting Engineering and Transportation Director has determined that \$77,967 in additional funds is required to fully fund the construction of this project, and

WHEREAS, the Finance Department has indicated that there are sufficient funds in the Fund 1410 fund balance for the appropriation of this project within the FY 2003-2004 Capital Improvement Program Budget to fully fund MY-1410-430-A014,

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto hereby approves amending the FY2003-2004 Capital Improvement Budget to transfer \$77,967 from the CFF reserves to MY-1410-430-A014 to cover the increase in expenditure appropriation.

BE IT FURTHER RESOLVED that the Finance Director, or her designee, is hereby authorized to take the steps necessary to amend the Capital Improvement Program Budget.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of May, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-244**

**A RESOLUTION ADOPTING AN INITIAL STUDY FOR THE HATCH ROAD IMPROVEMENTS AT DALLAS STREET INTERSECTION IN THE CITY OF MODESTO, AND ADOPTING A FINDING THAT THE CITY COUNCIL HAS REVIEWED AND CONSIDERED AND MADE FINDINGS REGARDING THE CEQA ENVIRONMENTAL REVIEW DOCUMENT (ATTACHMENT B)**

WHEREAS, on March 4, 2003, the City Council of the City of Modesto adopted Resolution No. 2003-123 certifying that the Modesto Urban Area General Plan Master Environmental Impact Report (“Master EIR”) (SCH No. 1999082041) for the Modesto Urban Area General Plan is complete and adequate pursuant to Section 15090 of the California Environmental Quality Act (“CEQA”) Guidelines, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a Master EIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the Master Environmental Impact Report and whether the subsequent project was described in the Master Environmental Impact Report as being within the scope of the project, and

WHEREAS, the Engineering and Transportation Department, by Initial Study, EA/ET 2003-29, reviewed the proposed Hatch Road Improvements at Dallas Street Intersection, which determined that the proposed project is within the scope of the project covered by the Master EIR and that the project will have no additional significant effect on the environment that was not identified in the Master EIR; and further, that no new or additional mitigation measures or alternatives may be required, and

WHEREAS, on February 8, 2004, the Engineering and Transportation Department caused to be published notification of the determination conferred in Initial Study 2003-29, pursuant to Public Resources Code Section 21092, and

WHEREAS, said matter was considered by the City Council at a duly noticed meeting held on the 4th day of May, 2004, at 5:30 p.m., in the Tenth Street Place Chambers, located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study EA 2003-29 prepared for the proposed Hatch Road Improvements at Dallas Street Intersection project, a copy of which is attached hereto as **Attachment "B"**, and incorporated herein by reference, and based on the substantial evidence included in said Initial Study makes the following findings:

- A. The proposed Hatch Road Improvements at Dallas Street Intersection project is within the scope of the General Plan Master EIR (SCH No. 1999082041), which analyzed the potential impacts of buildout of the Urban Area General Plan, including roadways in this area.
- B. No additional significant environmental effects will occur as a result of the Hatch Road Improvements at Dallas Street Intersection project that were not previously examined in the General Plan Master EIR.
- C. No new or additional mitigation measures or alternatives will be required as a result of the proposed Hatch Road Improvements at Dallas Street Intersection that were not previously considered in the General Plan Master EIR.
- D. There are no specific features unique to the Hatch Road Improvements project at Dallas Street Intersection that requires specific mitigation measures. All certified mitigation measures identified in the MEIR would apply city wide, including this project, as appropriate.
- E. This Initial Study, Environmental Assessment No. EA 2003-29 provides substantial evidence to support findings A, B, C, and D above.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Engineering and Transportation Director is hereby authorized and directed to file a Notice of Approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of May, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**INITIAL STUDY**

**EA/ET 2003-29**

City of Modesto  
Initial Study

HATCH ROAD IMPROVEMENTS AT DALLAS STREET INTERSECTION

E.A./E.T. No: 2003-29

I. PURPOSE

Section 21157.1 of the Public Resources Code, allows for limited environmental review of subsequent projects under a Master EIR, provided that certain findings are made. The Modesto Urban Area General Plan Master EIR (SCH No. 199082041), adopted March 4, 2003, allows such limited review for projects in the Baseline Developed Area that are consistent with the General Plan and existing zoning.

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any significant effects on the environment that were not examined in the General Plan Master EIR. This Initial Study also provides documentation that the project is within the scope of the General Plan Master EIR.

II. PROJECT DESCRIPTION

A. Project title:

Hatch Road Improvements at Dallas Street Intersection

B. Lead agency name and address:

City of Modesto, P.O. Box 642, Modesto, CA 95353

C. Contact person, address and phone number:

Melchor C. Funtila, Engineering and Transportation Department, (209) 571-5181

D. Project Location:

Along south side of Hatch Road and its intersection with Dallas Street

E. Project sponsor:

City of Modesto, P.O. Box 642, Modesto, CA. 95353

F. General Plan Designation:

Planned Development Zone, P-D(542) per Ordinance No. 3188-C.S.. a City of Modesto ordinance amending Section 8-4-9 of the Zoning Map to rezone from low density Residential Zone, R-1 to Planned Development P-D(542) (Donald L. Sanders)

G. Zoning:

Planned Development Zone, P-D(542)

H. Description of Proposed Project:

This is an application to construct Hatch Road street widening improvements including asphaltic concrete paving, curbs, gutters, sidewalks, curb ramps, rockwells; and to relocate and modify the existing traffic signalization system at its intersection with Dallas Street. The street improvements and the traffic signalization system modification are required for coordination with the abutting existing convenience market/gas station and a future commercial development located on the southeast and southwest corners of the intersection of Hatch Road and Dallas Street.

The right-of-way and public utility easements dedications required for this widening has been completed and accepted by the City of Modesto through the Planned Development P-D 542 conditions of approval. Hatch Road is a designated Class C 4-lane expressway. The ultimate design of the roadway would follow Standard Detail No. 356 of the City of Modesto's Standard Specifications for a Class C 6-lane expressway at a minor collector.

The widening, modifications to the existing traffic signalization system and new traffic striping will help reduce stopping delay, increase traffic safety, and result in a reduction in air pollution. The proposed project will include improvements to the pedestrian phasing and crosswalks, vehicle detection, and other typical improvements associated with traffic signal installation.

I. Surrounding land uses:

The project is bounded on the North and Northwest by City of Modesto zoned R-1 lots and county village residential lots within Stanislaus County. The project is also bounded on the South by county zoned village residential lots and the Turlock Irrigation District (T.I.D.) Lateral No. 1. Southwest of the project are City of Modesto zoned R-1 lots. The Northeast area consists of county village residential lots.

J. Other public agencies whose approval is required:

None

### **III. ANALYSIS OF CONFORMANCE WITH THE MASTER EIR**

There are eighteen subject areas in the Master EIR for the General Plan. Following is an analysis of how this project conforms to the analysis contained within the Master EIR.

#### **A. Traffic and Circulation**

The project proposes public improvements consistent with the General Plan designation for this site. The project would be within existing rights-of-way. Land for public right of way and for public utility easements was dedicated by the adjacent landowner for public use. The ultimate design calls for a Class C 4-lane expressway per the General Plan Program Circulation and Transportation Diagram of Figure V-1. Therefore, the traffic impacts of this project are consistent with those contained in the General Plan Master EIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Traffic and Circulation Needs (pages V-1-1 through V-1-33) are, therefore, still valid.

#### **B. Degradation of Air Quality**

The air quality impacts for this development are directly related to the traffic impacts. Since traffic impacts are no greater than those anticipated in the Master EIR, this development would not cause additional impacts to air quality beyond those described in the Degradation of Air Quality section of the MEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Degradation of Air Quality (pages V-2-1 through V-2-26) are, therefore, still valid.

#### **C. Generation of Noise**

The proposed project will create additional noise, but this additional noise is not significant in comparison to the general traffic noise on Hatch Road. The noise impacts from the project and to the project are consistent with those analyzed in the Master EIR. The project will not create additional significant effects, and the Mitigation Measures listed in the MEIR for Generation of Noise (pages V-3-1 through V-3-22) are therefore still valid.

#### **D. Loss of Productive Agricultural Land**

This area is located in an urbanized portion of Modesto, and there are no agricultural lands affected by this project. The Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for Loss of Productive Agricultural Land (pages V-4-1 through V-4-12) are still valid.

**E. Increased Demand for Water Supplies**

The proposed project will require no additional water beyond that identified in the Increased Demand for Water Supplies section of the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Water Supplies (pages V-5-1 through IV-5-13 are, therefore, still valid.

**F. Increased Demand for Sanitary Sewer Services**

The proposed project will create no additional demand for sewer capacity not identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Sanitary Sewer Services (pages V-6-1 through V-6-12) are therefore still valid.

**G. Loss of Sensitive Wildlife and Plant Habitat**

The project is located in a built-up urban area and is not located in a Potential Biological Resource Study Area, as presented in Figure 7-1 of the MEIR. Therefore, the project will not impact sensitive wildlife or any plant habitat above and beyond that which was identified in the Loss of Sensitive Wildlife and Plant Habitat section of the MEIR. The Existing Conditions, Impact Analysis, and the Mitigation Measures listed in this section of the MEIR (pages V-7-1 through V-7-29) are still valid.

**H. Disturbance of Archaeological and Historic Sites**

This project will not disturb any archaeological or historic sites that have been identified in the Disturbance of Archaeological or Historical Sites section of the MEIR. Figure 8-1 of the MEIR indicates that it is also outside the Archaeological Resource Study Area, which shows areas that may require additional site specific investigations. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Disturbance of Archaeological or Historical Sites (pages V-8-1 through V-8-22) are, therefore, still valid.

**I. Drainage, Flooding and Water Quality**

The proposed project will conform to the City's Standards for drainage, flood control and water quality. The mitigation measures in the Master EIR will not reduce the impacts of increased runoff within the baseline developed area to a less than significant level. In adopting the Master EIR, the City Council adopted a finding of overriding findings for this impact. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Drainage, Flooding, and Water Quality (pages V-9-1 through V- 9-13) are, therefore, still valid.

**J. Increased Demand for Storm Drainage**

The proposed project will provide the necessary infrastructure to provide storm drainage to meet City Standards. The mitigation measures contained in the Master EIR will not reduce the impacts of increased runoff within the baseline developed area to a less than significant level. In adopting the Master EIR, the City Council adopted a finding of overriding findings for this impact. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Storm Drainage (pages V-10-1 through V-10-16) are, therefore, still valid.

**K. Increased Demand for Parks and Open Space**

The proposed project will not have an effect upon the parks or open space needs in the area over that anticipated in the Master EIR. The MEIR concluded that demand for parks and open space would be mitigated through the payment of Capital Facilities Fees (CFF) for new development, which would be used for the development of new parks. Since the City's CFF program applies to this project, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Parks and Open Space (pages V-11-1 through V-11-14) are therefore still valid.

**L. Increased Demand for Schools**

The proposed project will not create any additional demand for schools. The MEIR concluded that demand for schools would be mitigated by collection of fees by the affected school districts. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Schools (pages V-12-1 through V-12-11) are still valid.

**M. Increased Demand for Police Services**

The proposed project will not result in any significant increase in the demand for police services in the context of the MEIR, because of the small size of the project and its location in a highly-urbanized area. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Police Services (pages V-13-1 through V-13-7) are therefore still valid.

**N. Increased Demand for Fire Services**

This project will not result in any significant increase in the demand for fire services in the context of the MEIR, because of the small size of the project and its location in a highly-urbanized area. In addition, the project provides for emergency access to meet City Standards. The Existing Conditions, Impacts

Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Fire Services (pages V-14-1 through V-14-9) are therefore still valid.

**O. Generation of Solid Waste**

This proposed project will not result in any significant increase in the generation of solid waste in the context of the MEIR, because of the small size of the project and its location in a highly-urbanized area. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Solid Waste (pages V-15-1 through V-15-10) are therefore still valid.

**P. Generation of Hazardous Materials**

This proposed project will not result in additional hazardous materials generated beyond those identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Hazardous Materials (pages V-16-1 through V-16-15) are therefore still valid.

**Q. Landslides and Seismic Activity**

This proposed project will result in no additional potential for exposing people to landslides or earthquake related hazards such as liquefaction beyond those identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Landslides and Seismic Activity (pages V-17-1 through V-17-12) are therefore still valid.

**R. Energy**

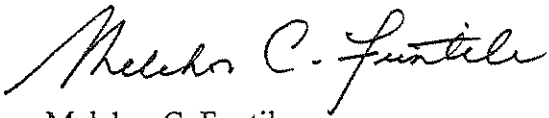

This proposed project will result in less than significant additional demands for energy, as identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Energy (pages V-18-1 through V-18-7) are still valid.

**IV. CONCLUSIONS/DETERMINATIONS OF FINDINGS**

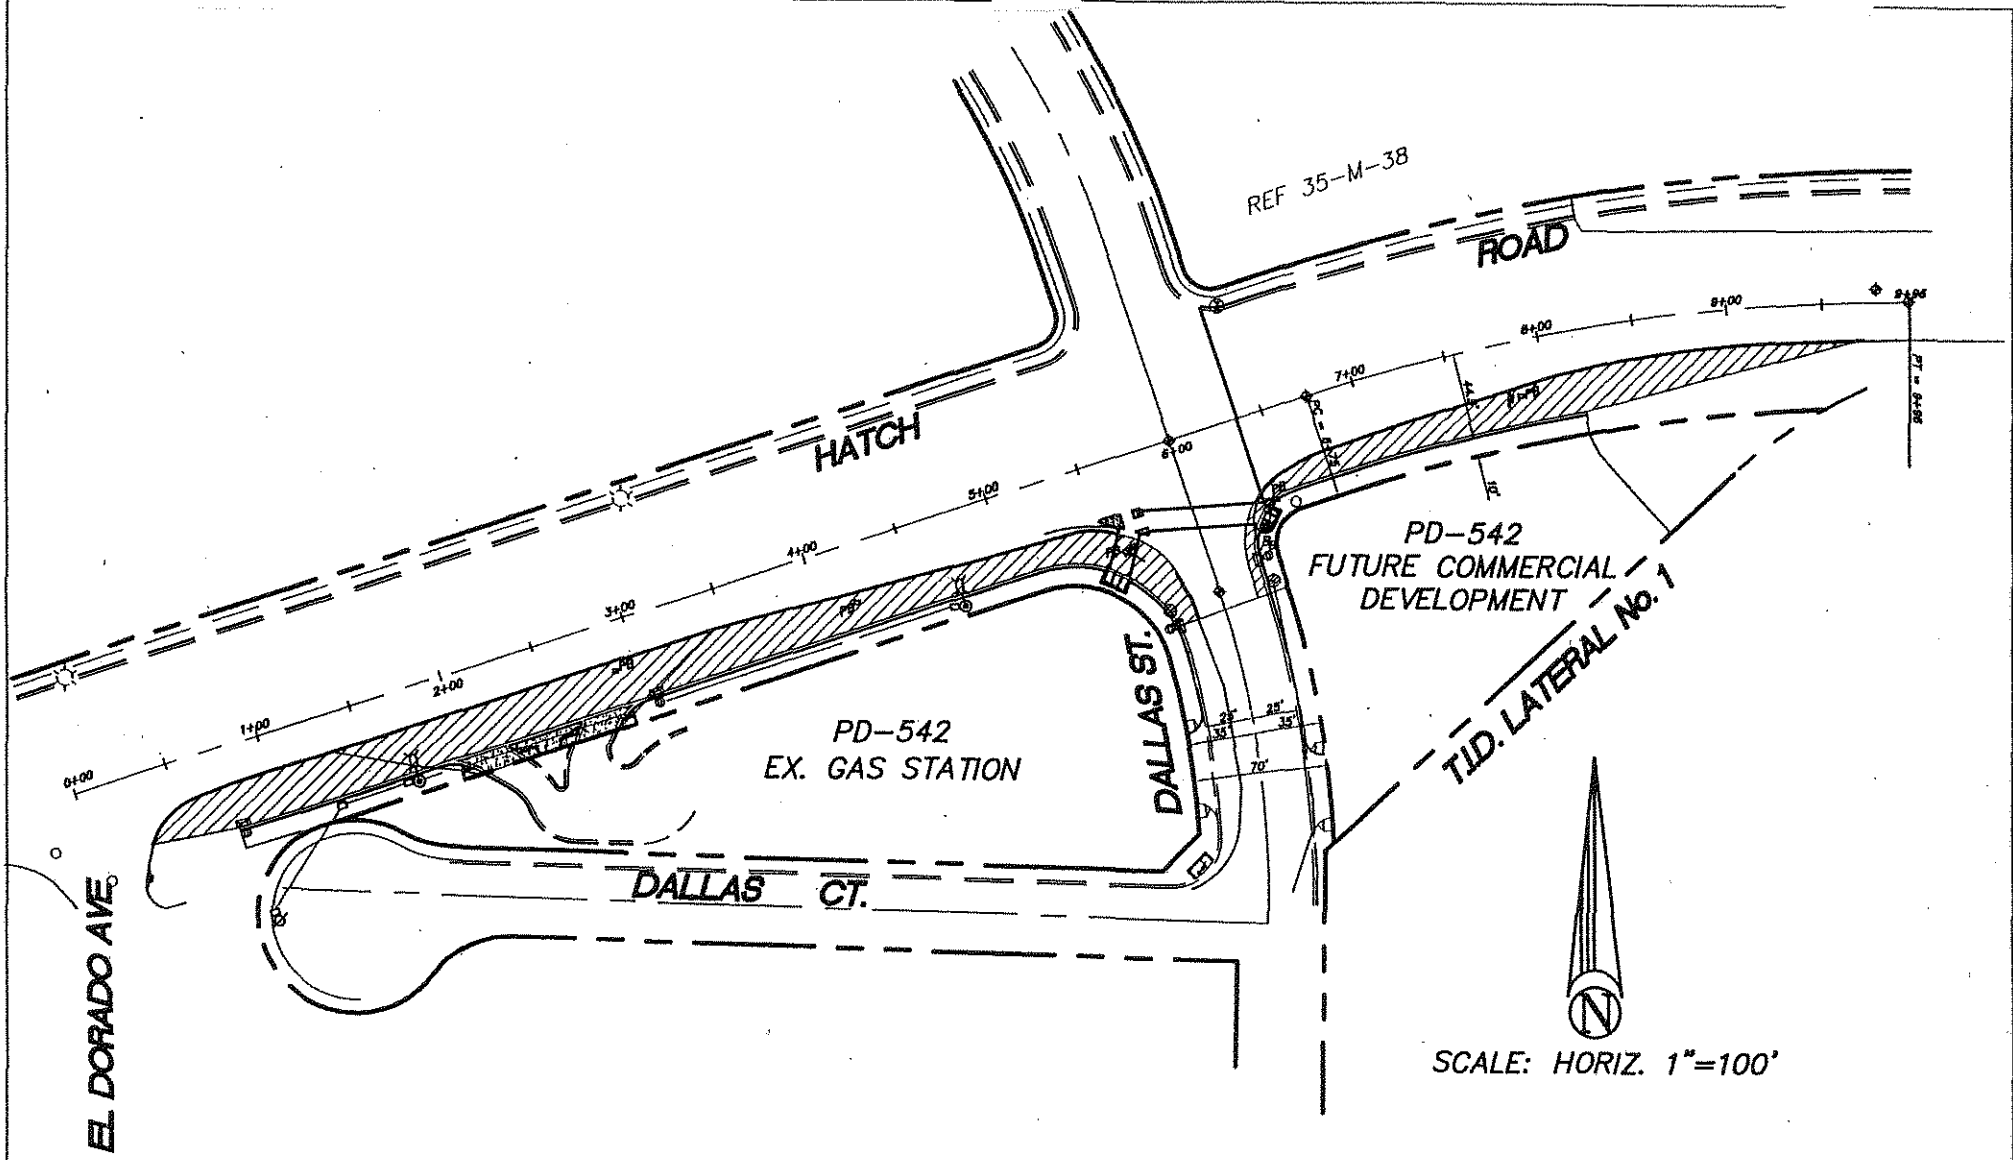

- A. The proposed Hatch Road Improvements at Dallas Street Intersection is within the scope of the General Plan Master EIR (SCH No. 1999082041), which analyzed the potential impacts of buildout of the Urban Area General Plan, including roadways in this area.
- B. No additional significant environmental effects will occur as a result of the Hatch Road Improvements at Dallas Street Intersection that were not previously examined in the General Plan Master EIR.

- C. No new mitigation measures or alternatives will be required as a result of the proposed Hatch Road Improvements at Dallas Street Intersection that were not previously considered in the General Plan Master EIR.
- D. There are no specific features unique to the Hatch Road Improvements at Dallas Street Intersection that requires project specific mitigation measures. All certified mitigation measures identified in the MEIR would apply city wide, including this project as appropriate.
- E. This initial study provides substantial evidence to support findings A, B, C, and D above.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 245**

**A RESOLUTION AMENDING THE FISCAL YEAR 2003-2004  
ANNUAL BUDGET**

WHEREAS, a monthly financial analysis has been completed and it has been determined that certain adjustments are required to the Annual Budget of the City of Modesto for the Fiscal Year 2003-2004,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that appropriations, revenues, and transfers for the 2003-2004 budget have been adjusted as shown in **Schedule A**.

BE IT FURTHER RESOLVED that the Finance Director is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of May, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

NOES: Councilmembers: None

ABSENT: Councilmembers: None

ATTEST: Jean Zahr  
JEAN ZAHR, City Clerk

**COMMENTS/JUSTIFICATION**

These transfers adjust claims expense in the Workers' Compensation and General Liability Funds to the "Expected Claims Loss" from the "75% Confidence Level". The Finance Committee informally approved this action at its March 22, 2004 meeting.

**COMMENTS/JUSTIFICATION**

In a joint effort to eliminate redundant projects and reprioritize existing projects, O&M and E&T have gone through existing Water CIP and identified these projects as either redundant or in need of reprioritizing in order budget for predesign work needed for MID Phase II. Projects A021 Ground Water Mgmt, A200 Water System Analysis, A022 Replace and Upgrade Water Mains, and A042 Satellite Corp Yard Wall have all reduced their budgets. Projects A024 Tank 10, A028 Retro Tank 2, M210 Extend New Water Mains, N160 Purchase Land Tank 10, M216 Expand Surface Water, Q214 Purchase land Tank 11, and Q215 Purchase Land Tank 12 will be closed since they fall under the scope of A202 MRWTP Phase II. All funds will be returned to Water fund Reserves then be reallocated based on the priority of the Phase II expansion to A202

**COMMENTS/JUSTIFICATION**

This adjustment is to close projects J505 Install GAC, Q217 Wellhead Treatment Well 21 and A028 Retro Tank2. In a joint effort to eliminate redundant projects and reprioritize existing projects, O&M and E&T have gone through existing Water CIP and identified these projects as redundant needing to be closed and funds returned to reserves then reallocated to A023 Wellhead Treatment

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-246A**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO CALLING AN ELECTION FOR THE PURPOSE OF SUBMITTING THE LEVY OF THE CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2004-1 (VILLAGE ONE #2) SPECIAL TAXES TO THE QUALIFIED ELECTORS OF THE TERRITORY PROPOSED TO BE ANNEXED TO THE DISTRICT ANNEXATION NO. 1**

WHEREAS, this Council did, on March 23, 2004, adopt its Resolution No. 2004-146 (the "Resolution of Intention to Annex") to indicate its intention to annex certain territory to the City's Community Facilities District No. 2004-1 (Village One #2) (the "District") and authorize the levy of the District special taxes within the territory proposed to be annexed (the "Annexed Territory"), pursuant to Chapter 2.5 of Part 1 of Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the "Mello-Roos Community Facilities Act of 1982" (the "Act"), and set a hearing thereon; and

WHEREAS, notice of the hearing was duly published as required by law, as evidenced by the proof of publication on file with the City Clerk; and

WHEREAS, a map of the Annexed Territory, entitled "Proposed Boundaries of Annexation #1 to City of Modesto CFD No. 2004-1 ("Village One #2)" was recorded on March 25, 2004, in the Office of the County Recorder of the County of Stanislaus, in Book 3 of Maps of Assessment and Community Facilities Districts, at page 86; and

WHEREAS, at the time and date set for the hearing (May 4, 2004) pursuant to the Resolution of Intention to Annex, this Council held the public hearing, as required by the Act, related to the proposed annexation and the levy of the District special taxes within the Annexed Territory, and all other matters set forth in the Resolution of Intention to Annex; and

WHEREAS, at the hearing all persons desiring to be heard on all matters pertaining to the proposed annexation and the levy of the District special taxes within the Annexed Territory, and all other matters set forth in the Resolution of Intention to Annex, including all interested persons for or against the proposed annexation to the District and the levy of the District special taxes within the Annexed Territory were heard and considered, and a full and fair hearing was held thereon; and

WHEREAS, at the hearing evidence was presented to this Council on the matters before it, and this Council, at the conclusion of the hearing, was fully advised as to all matters related to the proposed annexation and the levy of the District special taxes within the Annexed Territory, and all other matters set forth in the Resolution of Intention to Annex; and

WHEREAS, written protests against the proposed annexation and the levy of the District special taxes within the Annexed Territory have not been filed with the City Clerk by fifty percent or more of the registered voters or six registered voters, whichever is more, residing within the District or residing within the Annexed Territory, or the owners of one-half or more of the land in the District, or in the Annexed Territory; and

WHEREAS, the Stanislaus County Registrar of Voters has certified there are less than 12 registered voters residing in the Annexed Territory; accordingly, the qualified electors are the landowners; and

WHEREAS, the City Clerk, being the Council's designated election official for purposes of the election herein called, has concurred in the election date herein set forth for the election;

NOW THEREFORE, BE IT RESOLVED, ORDERED AND FOUND by the City Council of the City of Modesto that:

SECTION 1. The foregoing recitals are true and correct.

SECTION 2. All prior proceedings taken with respect to the annexation of the Annexed Territory to the District, and the levy of the District special taxes within the Annexed Territory were valid and in conformity with the requirements of the Act. This determination shall be final and conclusive upon all persons.

SECTION 3. The proposed annexation of the Annexed Territory to the District and the levy of the District special taxes within the Annexed Territory have not been precluded by majority protest pursuant to Section 53339.5 of the Act.

SECTION 4. As stated in the Resolution of Intention to Annex, it is the intention of this Council, subject to the approval of the qualified electors of the Annexed Territory, to annex the Annexed Territory to the District and levy the District special taxes within the Annexed Territory. Upon such approval the Council will be authorized to levy the District special taxes within the Annexed Territory.

SECTION 5. A special election is hereby called at which the question of levying the District special taxes within the Annexed Territory shall be submitted to the qualified electors of the Annexed Territory. The election shall be held in accordance with and subject to the Act, all of the terms of which shall, unless waived as herein provided, be applicable to such election. The ballot measure shall be substantially in the form attached hereto as **Exhibit A**.

SECTION 6. Fewer than twelve (12) persons have been registered to vote within the Annexed Territory for each of the ninety (90) days preceding the close of the hearing

referenced herein. Accordingly, the vote shall be by the landowners of the Annexed Territory, and each such landowner shall have one vote for each acre or portion thereof that he or she owns within the Annexed Territory. The ballots shall be distributed by mail with return postage prepaid, or by personal service, to each landowner, all as provided in Section 53326 of the Act.

Since the City Clerk has received appropriate waivers of time limits and other requirements pertaining to the conduct of the election by each of the owners of land in the Annexed Territory (collectively, the "Landowners"), the election shall be held on the 4<sup>th</sup> day of May, 2004. The election shall be conducted by the City Clerk in the manner required by this resolution, the Act and applicable laws.

The hour on such date when the ballots are required to be received in the office of the City Clerk is noon, Pacific Time. If all qualified electors have voted prior to such time, the election shall be closed.

SECTION 7. In accordance with Section 53327(b) of the Act, analysis and arguments, as required by Section 53327(a) of the Act are hereby waived, as the City Clerk has received the unanimous consent to such waivers from the Landowners.

SECTION 8. The publication of this Resolution as notice of the special election is hereby waived as the City Clerk has received the unanimous consent to such waiver from the landowners.

SECTION 9. The Annexed Territory shall constitute a single election precinct for the purpose of holding the election.

SECTION 10. The City Clerk is hereby authorized to take any and all steps necessary for the holding of the election, and to perform and render all services and proceedings incidental to and in connection with the election.

SECTION 11. The City Clerk shall canvass the returns and certify the results of the election to this Council. If two-thirds or more of the votes cast are in favor of levying the District special taxes in the Annexed Territory, this Council may thereafter, order the annexation of the Annexed Territory to the District and levy the District special taxes in the Annexed Territory in the amount and for the purposes specified in Resolution No. 2004-199 adopted by this Council on April 6, 2004 (the "Resolution of Formation"). The Special Tax will be levied only at the rate and apportioned only in the manner specified in the Resolution of Formation.

SECTION 12. In order to amend the title on the map of the Annexed Territory heretofore approved by Resolution No. 2004-146, adopted by this Council on March 23, 2004, and thereafter recorded with the County Recorder in Book 3 of Maps of Assessment and Community Facilities Districts, at page 86, the City Clerk is directed to file with the County Recorder a map, hereby approved, entitled "Annexation Map No. 1 of Community Facilities District No. 2004-1 (Village One #2) of the City of Modesto, County of Stanislaus, State of California".

The City Clerk shall endorse her certificate on the original and one copy of the map evidencing the date and adoption of this Resolution, file the original in her office and, not later than 10 days after the adoption of this Resolution, file a copy of the map with the County Recorder of the County of Stanislaus. The map shall contain the legends provided in Sections 3110 and 3110.5 of the California Streets and Highways Code,

including a reference to the title, book, page and recording date of the original boundary map of the District, and a reference to the previously recorded map of the Annexed Territory.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of May, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004- 246**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO CANVASSING THE RESULTS OF THE MAY 4, 2004, ELECTION HELD WITHIN THE TERRITORY PROPOSED TO BE ANNEXED TO CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2004-1 (VILLAGE ONE #2), AND ORDERING ANNEXATION OF THE TERRITORY TO THE DISTRICT (ANNEXATION NO. 1)**

WHEREAS, this Council is conducting proceedings pertaining to the annexation of certain territory to the City's Community Facilities District No. 2004-1 (Village One #2) (the "District") and the levy of the District special taxes (the "District Special Taxes") within such territory, as described in its Resolution No. 2004-146, entitled "A Resolution of the City Council of the City of Modesto of Intention to Annex Territory to Community Facilities District No. 2004-1 (Village One #2) and to Authorize the Levy of Special Taxes therein [Annexation No. 1]" adopted on March 23, 2004, pursuant to Chapter 2.5 of Part 1 of Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the "Mello-Roos Community Facilities Act of 1982" (the "Act"); and

WHEREAS, the owners of all the property within the territory proposed to be annexed to the District waived those provisions related to the timing and conduct of the election referenced in Sections 5, 6, 7 and 8 of this Council's Resolution No. 2004-246A, adopted on May 4, 2004, and, as a result, this Council called an election within the territory proposed to be annexed to the District (the "Election") for May 4, 2004, relative to the foregoing; and

WHEREAS, on May 4, 2004, the Election was held; and

WHEREAS, the City Clerk has certified that at the Election the proposition of levying the District Special Taxes within the territory proposed to be annexed to the District was approved by more than two-thirds (2/3) of the votes cast at the Election;

NOW, THEREFORE, BE IT RESOLVED, ORDERED AND FOUND by the City Council of the City of Modesto that:

SECTION 1. The Election was duly and validly conducted in conformity with all applicable laws pertaining thereto. It is hereby determined that the owners of the territory proposed to be annexed is as set forth in the Certificate of City Clerk as to Distribution of Official Ballots, submitted to this Council and on file with the City Clerk.

SECTION 2. The ballot proposition presented to the qualified electors of the territory proposed to be annexed at the Election received at least two-thirds (2/3) of the votes cast at the Election. A copy of the City Clerk's certificate of election results is attached.

SECTION 3. Pursuant to Section 53339.8 of the Act, it is hereby ordered that the territory proposed to be annexed to the District pursuant to Resolution No. 2004-146 be annexed to and be a part of the District with full legal effect, and that the District Special Taxes be levied within the territory so annexed.

SECTION 4. The City Clerk is hereby directed to enter this resolution on the minutes of this City Council, which shall constitute the official declaration of the result of the Election.

SECTION 5. The City Clerk is further authorized and directed to record an amendment to the Notice of Special Tax Lien with the County Recorder of the County of

Stanislaus, within 15 days from the date hereof, in accordance with the provisions of Sections 3114.5 and 3117.7 of the California Streets and Highways Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of May, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-247**

**A RESOLUTION DENYING AN APPEAL OF MR. ERIC REIMER AND MR. GREG DIAS TO A BOARD OF ZONING ADJUSTMENT DECISION GRANTING THE APPEAL OF MR. YOURA TARVERDI DETERMINING THAT A CONDITIONAL USE PERMIT IS NOT REQUIRED FOR CONTINUED USE OF THE PARKING AREA BEHIND 945 McHENRY AVENUE. (REIMER/DIAS)**

WHEREAS, Mr. Youra Tarverdi, the owner of “The Seasons”, formerly the Elks Lodge property at 945 McHenry Avenue, was advised by City staff that a Conditional Use Permit is required by the Modesto Municipal Code for the existing non-conforming parking area to continue to serve a changed use or occupancy, and

WHEREAS, after considerable exchange of correspondence between City staff and Mr. Tarverdi, as authorized by Section. 10-1.202(b) of the Modesto Municipal Code, an appeal was filed on February 11, 2004, to an administrative decision by a City official pertaining to the requirement for a Conditional Use Permit, and

WHEREAS, a public hearing was held by the Board of Zoning Adjustment on March 25, 2004, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered, and

WHEREAS, Resolution No. 2004-10, the Board of Zoning Adjustment granted the appeal of Mr. Youra Tarverdi determining that a Conditional Use Permit is not required to continue use of the parking area for the property located at 945 McHenry Avenue, for the following reasons:

1. The subject parking area is established as a nonconforming use which “runs with the land,” and for which rights are not affected by change of ownership.

2. The Subject parking area, in serving the Elks Lodge, has for many years provided parking for restaurant use, catering, and large functions much like the current useage.
3. The subject parking area which is the nonconforming use will continue unchanged as a parking area serving the commercially zoned property

and

WHEREAS, an appeal to the decision of the Board of Zoning Adjustment was filed with the office of the City Clerk on April 8, 2004 by Mr. Eric Reimer and Mr. Greg Dias, and

WHEREAS, said appeal was set for a duly noticed public hearing before the City Council to be held on May 4, 2004, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said public hearing was held and evidence both oral and documentary was received and considered, and

WHEREAS, after said public hearing the Council found and determined that the appeal of Mr. Eric Reimer and Mr. Greg Dias to the decision of the Board of Zoning Adjustment should be denied and the decision of the Board of Zoning Adjustment should be affirmed for the reasons set forth in Board of Zoning Adjustment Resolution No. 2004-10, and quoted above,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appeal of Mr. Eric Reimer and Mr. Greg Dias to the decision of the Board of Zoning Adjustment granting the appeal of Mr. Youra Tarverdi to an administrative decision by a City official pertaining to the requirement for a Conditional Use Permit for a nonconforming parking area serving a change in use from a fraternal organization to a commercial use, property located at 945 McHenry Avenue, is denied, and the decision of

the Board of Zoning Adjustment is hereby affirmed for the reasons set forth in Board of Zoning Adjustment Resolution No. 2004-10 and quoted above.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of May, 2004, by Councilmember Dunbar, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-248**

**A RESOLUTION IN SUPPORT OF AB 2318, PROPOSED LEGISLATION TO  
EXTEND CONFIDENTIALITY PROTECTIONS TO CITY AUDITORS EQUAL  
TO THOSE CURRENTLY HELD BY STATE AUDITORS.**

WHEREAS, State of California auditors currently possess confidentiality protections for their documents supporting audit reports and for persons providing confidential information, and

WHEREAS, city auditors do not possess these protections, and

WHEREAS, such protections would enhance the ability of city auditors to obtain confidential information in support of their work, and

WHEREAS, there is currently legislation proposed in the State Assembly that would remedy the lack of confidentiality protections for city auditors, and

WHEREAS, at its April 20, 2004, meeting the Audit Committee recommended that the Council approve a resolution in support of the aforementioned legislation,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby supports Assembly Bill 2318 which provides confidentiality protections to the city auditors .

BE IT FURTHER RESOLVED that the City Clerk and Auditor, or her designee, is hereby authorized to communicate the Council's support for the aforementioned legislation.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of May, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-249**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO OF INTENTION TO ANNEX TERRITORY TO COMMUNITY FACILITIES DISTRICT NO. 2004-1 (VILLAGE ONE #2) AND TO AUTHORIZE THE LEVY OF SPECIAL TAXES THEREIN [ANNEXATION No. 2]**

WHEREAS, pursuant to Chapter 3.5 Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the “Mello-Roos Community Facilities Act of 1982” (the “Act”), proceedings for the annexation of territory to an existing community facilities district may, pursuant to Chapter 3.5 of the Act, be instituted by the adoption by the legislative body of a resolution of intention to annex such territory; and

WHEREAS, pursuant to the Act, this Council did, by its Resolution No. 2004-199, adopted on April 6, 2004 (the “Resolution of Formation”), establish the City’s Community Facilities District No. 2004-1 (Village One #2) (“the District”); and

WHEREAS, this Council hereby determines that the public convenience and necessity require the annexation of certain territory to the District; and

WHEREAS, the territory to be annexed is within the City limits;

NOW, THEREFORE, BE IT RESOLVED, ORDERED AND FOUND by the City Council of the City of Modesto, California, that:

SECTION 1. The above recitals are true and correct.

SECTION 2. The boundaries of the District are shown on a map entitled “Proposed Boundaries of Community Facilities District No. 2004-1 (Village One #2) of the City of Modesto, County of Stanislaus, State of California” on file with the County

Recorder of the County of Stanislaus, at Book 3 of Maps of Assessment and Community Facilities Districts, at Page 85, and the map related to Annexation No. 1 to the District, on file with said County Recorder at Book 3 of Maps of Assessment and Community Facilities Districts, at page 86.

SECTION 3. The territory proposed to be annexed to the District (the "Territory") is described in **Exhibit A**.

SECTION 4. The boundaries of the Territory are also shown on the map thereof, entitled "Annexation Map No. 2 of Community Facilities District No. 2004-1 (Village One #2) of the City of Modesto, County of Stanislaus, State of California," on file in the office of the City Clerk, hereby approved and adopted. Pursuant to Sections 3110.5 and 3113 of the California Streets and Highways Code, the City Clerk shall endorse her certificate on the original and one copy of the map evidencing the date and adoption of this Resolution, file the original in her office and, not later than 10 days after the adoption of this Resolution, file a copy of the map with the County Recorder of the County of Stanislaus. The map shall contain the legends provided in Sections 3110 and 3110.5 of the California Streets and Highways Code, including a reference to the title, book, page and recording date of the original boundary map of the District.

SECTION 5. The public facilities and services to be provided for the District are set forth in the Resolution of Formation. It is intended that these same facilities and services be provided to the Territory.

SECTION 6. The special taxes to be levied in the District are also set forth in the Resolution of Formation. It is intended that the same special taxes be levied in the Territory.

SECTION 7. A public hearing on this Resolution will be held at 5:30 p.m., or as soon thereafter as practicable, on Tuesday, June 22, 2004, at the regular meeting place of the City Council, City Council Chambers, Basement Level, 1010 Tenth Street, Modesto, California 95353, such time being not less than 30 or more than 60 days following the adoption hereof.

SECTION 8. At the hearing, any interested persons for or against the annexation of the Territory to the District, and the levy of the special taxes therein, may appear and will be heard and considered. Any protest may be made orally or in writing. However, any protests pertaining to the regularity or sufficiency of the proceedings shall be in writing and clearly set forth the irregularities and defects to which the objection is made. All written protests shall be filed with the City Clerk on or before the time fixed for the public hearing. Written protests may be withdrawn in writing at any time before the conclusion of the hearing.

SECTION 9. The City Clerk is directed to publish, not later than seven (7) days prior thereto, a notice of the hearing, in the form required by the Act, in a newspaper of general circulation published in the area of the District, being *The Modesto Bee*, and otherwise in accordance with Section 6061 of the California Government Code, stating (a) the text or a summary of this Resolution, (b) the time and place of the hearing, and (c) that all interested persons for or against the annexation of the Territory to the District or the levying of the special taxes in the Territory will be heard.

SECTION 10. (a) If a majority (but at least six) of the registered voters residing within the District or a majority (but at least six) of the registered voters residing within the Territory, or the owners of one-half or more of the area of the land in the District and not exempt from the special tax, or the owners of one-half or more of the Territory, file written protests against the proposed annexation, and the protests are not withdrawn so as to reduce the value of the protests to less than a majority, no further proceedings to annex the Territory to the District, or to levy in the Territory the special taxes to be levied in the District, shall be taken for a period of one year from the date of the decision of the Council on the issues discussed at the hearing.

SECTION 11. At the conclusion of the hearing, if the Council determines to annex the Territory to the District, it will submit the levy of the special taxes to the qualified electors of the Territory in a special election.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11<sup>th</sup> day of May, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-250**

**A RESOLUTION APPROVING AMENDMENT NO. 2 TO THE AGREEMENT BETWEEN THE CITY OF MODESTO AND TURNSTONE CONSULTING FOR PRELIMINARY WORK TO ASSIST IN THE PREPARATION OF AN ENVIRONMENTAL IMPACT REPORT FOR A PROPOSED KAISER MEDICAL CAMPUS PROJECT, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT IN AN AMOUNT NOT TO EXCEED \$160,450.00**

WHEREAS, Kaiser Permanente has applied for an amendment to the Kiernan Business Park Specific Plan, rezoning to a planned development zone, a development agreement, annexation and sphere of influence amendment to allow a 1.4 million square-foot medical campus and the annexation of 39 acres of adjacent business park land located on the west side of Dale Road north of Bangs Avenue (“Kaiser Medical Campus”), and

WHEREAS, Section 21080.1 of the California Public Resources Code requires the City of Modesto, as lead agency, to make a determination of whether an environmental impact report is required for projects, and

WHEREAS, the City has determined that an environmental impact report is required for the proposed Kaiser Medical Campus project, and

WHEREAS, on December 10, 2002, the City Council approved a list of environmental service providers, including the firm of Turnstone Consulting, to assist with the preparation of environmental impact reports and other environmental documents for the Kaiser Medical Campus project, and

WHEREAS, City staff selected Turnstone Consulting to prepare the environmental impact report for the Kaiser Medical Campus because of their extensive experience on similar projects in other jurisdictions, and

WHEREAS, City Staff anticipates that the EIR work will involve three contract phases, and

WHEREAS, on June 24, 2003, the City Council adopted Resolution No. 2003-298, approving an agreement with Turnstone Consulting for preliminary work to assist in the preparation of an environmental impact report (“EIR”) for the proposed Kaiser Medical Campus in an amount not to exceed \$130,793 (“Agreement”), and

WHEREAS, on October 28, 2003, the City Council adopted Resolution No. 2003-561, approving Amendment No. 1 to the Agreement with Turnstone Consulting for preparation of the Draft EIR in an amount not to exceed \$635,768.00, and

WHEREAS, during preparation of the Draft EIR issues arose that required additional analysis and services beyond the scope of Amendment No. 1 to the Agreement, requiring a further amendment to the Agreement.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that Amendment No. 2 to the Agreement between the City of Modesto and Turnstone Consulting Corporation to perform additional tasks related to the preparation of the Draft EIR, in an amount not to exceed \$160,450.00 is hereby approved.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute Amendment No. 2 to the Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11<sup>th</sup> day of May, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-251**

**A RESOLUTION APPROVING THE FINAL MAP OF THE UDONA GROVE  
SUBDIVISION AND AUTHORIZING THE CITY MANAGER TO EXECUTE A  
SUBDIVISION AGREEMENT WITH WILLIAM EUGENE BUCHTA AND  
CHARISSE RENEE BUCHTA, HUSBAND AND WIFE AS JOINT TENTANTS  
AND INDERJIT S. TOOR AND HARINDER S. TOOR, INDIVIDUALS**

WHEREAS, WILLIAM EUGENE BUCHTA and CHARISSE RENEE  
BUCHTA, husband and wife as joint tenants and INDERJIT S. TOOR and HARINDER  
S. Toor, individuals, are possessed of a tract of land situated in the City of Modesto,  
County of Stanislaus, consisting of 2.67 acres, known as the UDONA GROVE  
("SUBDIVISION"), and

WHEREAS, a tentative map of said tract was approved by the Planning  
Commission of the City of Modesto on the 8<sup>th</sup> day of September, 2003, and

WHEREAS, the Secretary of the Planning Commission of the City of Modesto  
has certified that the final map of said tract substantially conforms to the approved  
tentative map, and

WHEREAS, the City Engineer of the City of Modesto has certified that the final  
map of said SUBDIVISION meets all of the provisions of the California Subdivision  
Map Act and the provisions of the Modesto Municipal Code relating to subdivisions, and  
that the map is technically correct,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto  
that said final map be approved; that the dedications for streets and easements as shown  
thereon within the boundaries of said tract be accepted on behalf of the public for public  
use; and that the City Clerk be authorized to certify the map of said tract on behalf of the

City of Modesto after the fees and deposits required by the Modesto Municipal Code in amounts determined by the City Engineer have been paid, and after subdivider has furnished securities, as set forth in Section 4-4.605 of the Modesto Municipal Code, which shall secure the obligations set forth in Section 66499.3 of the Government Code of the State of California. Said securities shall be in forms acceptable to the City Attorney and in the amounts required by the City Engineer.

BE IT FURTHER RESOLVED that the City Manager and the City Clerk be authorized to execute and attest, respectively, an agreement with subdivider as required by Section 4-4.604(c) of the Modesto Municipal Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11<sup>th</sup> day of May, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-252**

**A RESOLUTION INCREASING THE DIRECTOR OF ENGINEERING AND  
TRANSPORTATION'S AUTHORITY TO ISSUE CHANGE ORDERS ON THE  
"INTERIOR IMPROVEMENTS – WASTEWATER COLLECTION  
MAINTENANCE BUILDING" PROJECT FROM 10 PERCENT (\$66,044.50) TO  
19 PERCENT (\$125,484.55) OF THE ORIGINAL CONTRACT PRICE WITH  
THE MCDONALD GLENN COMPANY**

WHEREAS, on January 6, 2004, the City Council awarded a \$660,445.00 contract to The McDonald Glenn Company to construct the "Interior Improvements – Wastewater Collection Maintenance Building" project, and

WHEREAS, the contractor started work on February 11, 2004, and

WHEREAS, additional work not included in the original bid needs to be added to the project to allow completion of a useable building that conforms to code requirements, and

WHEREAS, the cost of the extra work could be as high as an estimated \$125,484.55, an amount, which exceeds the Director's authority for the project as established by the Council's Change Order Approval Policy adopted by Resolution No. 94-443 on July 19, 1994, and

WHEREAS, the Director currently has authority to approve change orders up to a cumulative amount of \$66,044.50,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby increases the Engineering and Transportation Director's authority level to issue change orders, from 10 percent (\$66,044.50) to 19 percent (\$125,484.55) of the original contract price for the project entitled "Interior Improvements – Wastewater Collection Maintenance Building."

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11<sup>th</sup> day of May, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-253**

**RESOLUTION AMENDING THE FY 2003-2004 CAPITAL IMPROVEMENT BUDGET TO: 1) CLOSE PROJECT ACCOUNT NUMBER 6210-480-L074, PRIMARY CLARIFIER SCUM MIXING, (PROJECT COMPLETED) AND RETURN \$88,000 TO THE WASTEWATER RESERVES; AND 2) APPROPRIATE \$88,000 MOVED TO THE WASTEWATER RESERVES TO PROJECT ACCOUNT NUMBER 6210-480-F743-6040, WASTEWATER COLLECTION MAINTENANCE BUILDING, THEREBY FULLY FUNDING THE PROJECT TITLED "INTERIOR IMPROVEMENTS – WASTEWATER COLLECTION MAINTENANCE BUILDING"**

WHEREAS, on January 6, 2004, the City Council awarded a \$660,445 contract to The McDonald Glenn Company to install the interior improvements in the Wastewater Maintenance Building exterior shell constructed under a previous contract, and

WHEREAS, items needing to be included in the project were excluded when the project was split into two phases, resulting in added construction costs not originally provided for in the project account, and

WHEREAS, the items of work now need to be added to the contract by change order, and

WHEREAS, a shortage of funds will occur once the change orders are executed, and

WHEREAS, the shortage resulted in additional funds being required to fully fund the project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the FY 2003-2004 Capital Improvement Budget to: (1) Close project account number 6210-480-L074, Primary Clarifier Scum Mixing, (project

completed) and return \$88,000 to the Wastewater Reserves; and (2) appropriate \$88,000 moved to the Wastewater Reserves to project account number 6210-480-F743-6040, Wastewater Collection Maintenance Building, thereby fully funding the project titled "Interior Improvements – Wastewater Collection Maintenance Building."

RESOLUTION NO. 2004-256**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO FORMALLY SOLICIT REQUEST FOR BIDS FOR THE FURNISHING OF ELEVATOR PREVENTATIVE MAINTENANCE SERVICE AND REPAIR, "CITYWIDE", FOR A THREE (3) YEAR AGREEMENT, WITH TWO (2) ONE-YEAR EXTENSION OPTIONS, FOR AN ESTIMATED ANNUAL COST OF \$56,985**

WHEREAS, the Operations and Maintenance Department, Building Services and Building Engineering Divisions have requested elevator preventative maintenance service and repair, on the City's elevators, and

WHEREAS, services shall consist of scheduled preventative maintenance, and service and repair, on an "as needed basis", and

WHEREAS, elevator maintenance is requested to ensure top performance on the operating systems of the City's elevators, and

WHEREAS, the current service agreement for preventative maintenance service and repair will expire on June 30, 2004, and

WHEREAS, by authorizing the Purchasing Supervisor to solicit formal request for bids, for a three (3) year agreement, with two (2) one-year extension options, the City will achieve the best value possible for elevator preventative maintenance service and repair, and

WHEREAS, Modesto Municipal Code, MMC Section 8-3.203, generally requires all purchases that meet or exceed \$50,000.00 for material, equipment or contractual services to be formally bid, and

WHEREAS, by soliciting competitive bids for elevator preventative maintenance service and repair, the Finance Department, Purchasing Division will comply with MMC Section 8-3.203 regarding formal bid procedures,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Purchasing Supervisor is hereby authorized to solicit formal request for bids as follows:

SECTION 1. The City Clerk shall call for public competitive sealed bids for the furnishing of elevator preventative maintenance service and repair, for a three (3) year agreement, with two (2) one-year extension options, to be opened in the office of the City Clerk, 1010 Tenth Street, in the City of Modesto. The City Clerk shall be directed to give notice inviting such sealed bids in the time, form, and manner provided by law.

SECTION 2. After the sealed bids are opened, they shall be tabulated and analyzed and a report submitted to Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11<sup>th</sup> day of May, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-257**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO ISSUE A REQUEST FOR PROPOSALS (RFP) FOR UNIFORMS AND LAUNDRY SERVICES FOR AN INITIAL ONE-YEAR CONTRACT PERIOD, WITH FOUR (4) ONE-YEAR CONTRACT EXTENSION OPTIONS, FOR AN APPROXIMATE ANNUAL TOTAL COST OF \$114,637**

WHEREAS, the Operations and Maintenance Department and Engineering and Transportation Department has requested the purchase of uniforms and laundry services, and

WHEREAS, Article 23 of the Memorandum of Understanding (MOU) between the City of Modesto and the Modesto City Employees Association (MCEA) details Dress and Grooming criteria for Non-Sworn City employees, and

WHEREAS, subsection (c) of the article requires employees in the following classifications to wear uniform cap and shirts provided by the City: Storekeeper, Senior Storekeeper, Maintenance Worker I/II, Parks Crew Leader, Maintenance Mechanic-Parks, Equipment Operator, Tree Trimmer, Tree Trimmer Crew Leader, Maintenance Mechanic-Pumps, Equipment Crew Leader, Water Distribution System Operator, WWC System Operator, Electrical Technician I/II, Assistant Electrician, Electrician, Custodian I/II, Civil Engineering Technical I/II/II, and

WHEREAS, the City is also required to provide coveralls, pants, and rain gear for certain employees, dependent upon classification, and

WHEREAS, the City also provides uniforms for certain classifications of Management and Confidential Employees, including Operations and Maintenance Supervisor, Custodial Supervisor, Land Surveyor, Plant Maintenance Supervisor,

Secondary Treatment Facilities Supervisor, Electrical Supervisor, and WQC Operations Supervisor, and

WHEREAS, the combined estimated total cost of this purchase is \$114,637 on an annual basis, and

WHEREAS, the Modesto Municipal Code (MMC) Section 8-3.203 generally requires all purchases exceeding \$50,000 for materials and equipment of this type to be formally bid, and

WHEREAS, by soliciting competitive proposals the City will achieve the best value for uniforms and laundry services and meet the City's requirements for formal bidding, and

WHEREAS, at its March 22, 2004, meeting the Financed Committee gave unanimous approval to move this request for authorization to issue Request for Proposal (RFP) on to Council for review,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Purchasing Supervisor is hereby authorized to issue a Request for Proposals for uniforms and laundry services for a initial one-year period, with four (4) one year contract extensions options, for approximate annual cost of \$114,637 as follows:

SECTION 1. The City Clerk shall call for public competitive sealed proposals for uniforms and laundry services to be opened in the office of the City Clerk, 1010 10<sup>TH</sup> Street, in the City of Modesto. The City Clerk shall be directed to give notice inviting such sealed bids in the time, form, and manner provided by law.

SECTION 2. After the proposals are opened, they shall be tabulated and analyzed and a report submitted to Council.

RESOLUTION NO. 2004-258**

**A RESOLUTION AUTHORIZING THE AWARD OF BID AND CONTRACTS FOR CONCRETE BOXES AND COVERS, CAST IRON COVERS AND FRAMES, AND RELATED ACCESSORIES FOR A ONE-YEAR PERIOD TO THE FOLLOWING VENDORS: KENKO UTILITY OF TRACY, CA. FOR A TOTAL APPROXIMATE ANNUAL COST OF \$122,445; GROENIGER OF MODESTO, CA. FOR A TOTAL APPROXIMATE ANNUAL COST OF \$548; AND GENERAL PLUMBING OF SONORA CA. FOR A TOTAL APPROXIMATE ANNUAL COST OF \$320. THE COMBINED TOTAL APPROXIMATE ANNUAL COST IS \$123,312**

WHEREAS, the Finance Department, Central Stores Division has requested the purchase of concrete boxes and covers, cast iron covers and frames, and related accessories for a one-year period, and

WHEREAS, the Central Stores Division of the Finance Department operations is responsible for maintaining inventory for concrete boxes and covers, cast iron covers, and related accessories for use by all City-departments for City projects, and

WHEREAS, Resolution No. 2004-057 authorized the solicitation of bids for concrete boxes and covers, cast iron covers and frames, and related accessories, and

WHEREAS, out of sixteen (16) vendors solicited, four (4) chose to respond, and

WHEREAS, bids were evaluated per Specification 0304-15 and awarded on a line by line item basis, and

WHEREAS, Kenko Utility of Tracy, Ca. is the lowest responsive and responsible bidder for items 1-14, 16-25, and 27-30 on RFB 0304-15 for a total approximate annual cost of \$122,445, and

WHEREAS, Groeniger of Modesto, CA. is the lowest responsive and responsible bidder for item 26 on RFB 0304-15 for a total approximate annual cost of \$548, and

WHEREAS, General Plumbing of Sonora, CA. is the lowest responsive and responsible bidder for item 15 on RFB 0304-15 for a total approximate annual cost of \$320, and

WHEREAS, the total approximate annual cost for concrete boxes and covers, cast iron covers and frames, and related accessories is \$123,312,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards the bid and contracts for concrete boxes and covers, cast iron covers and frames, and related accessories for a one-year period for a total approximate annual cost is \$123,312,

BE IT FUTHER RESOLVED that the Purchasing Supervisor is hereby authorized to issue purchase orders for concrete boxes and covers, cast iron covers and frames, and related accessories to the following vendors: Kenko Utility of Tracy, Ca for a total approximate annual cost of \$122,445; Groeniger of Modesto CA. for a total approximate annual cost of \$548; and General Plumbing of Sonora, CA. for a total approximate annual cost of \$320.

RESOLUTION NO. 2004-259**

**A RESOLUTION AUTHORIZING THE FIRE CHIEF TO SUBMIT A FORMAL  
BID TO PROVIDE FIRE APPARATUS MAINTENANCE TO THE STANISLAUS  
CONSOLIDATED FIRE PROTECTION DISTRICT.**

WHEREAS, Stanislaus Consolidated Fire Protection District is in need of fire apparatus maintenance, and

WHEREAS, Stanislaus Consolidated Fire Protection District approached the City of Modesto Fire Department and requested that the City of Modesto Fire Department submit a formal bid for apparatus maintenance, and

WHEREAS, the Modesto Fire Department currently employs two full-time Fire Apparatus Mechanics with the required skills to provide the maintenance and service requested by the Stanislaus Consolidated Fire Protection District, and

WHEREAS, if Stanislaus Consolidated Fire Protection District were to accept the City of Modesto's bid, the Modesto Fire Department would need to hire one additional Fire Apparatus Mechanic with a cost to the City of approximately \$70,000 annually, and

WHEREAS, the revenue received by providing apparatus maintenance to the Stanislaus Consolidated Fire Protection District could exceed the cost of the additional Fire Apparatus Mechanic, and provide revenue to the City of Modesto, and

WHEREAS, if the City of Modesto Fire Department bid is selected by Stanislaus Consolidated Fire Protection District, there would be the possibility of additional contracts with surrounding fire departments for the City of Modesto Fire Department, which would be a revenue generating venture for the City of Modesto, and

WHEREAS, the Safety and Communities Committee accepted staff's recommendation to submit a formal bid to the Stanislaus Consolidated Fire Protection District at its May 3, 2004, meeting,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Fire Chief to submit a formal bid to the Stanislaus Consolidated Fire Protection District for apparatus maintenance.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-260**

**RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO  
ACTING IN ITS CAPACITY AS THE LEGISLATIVE BODY OF CITY OF  
MODESTO COMMUNITY FACILITIES DISTRICT NO. 2003-1 (FAIRVIEW  
VILLAGE) CALLING A SPECIAL ELECTION ON A PROPOSITION TO  
AMEND THE EXISTING RATE AND METHOD OF APPORTIONMENT OF  
THE SPECIAL TAX**

WHEREAS, the City Council of the City of Modesto (the “City Council”) acting as the legislative body of the City of Modesto Community Facilities District No. 2003-1 (Fairview Village) (the “Community Facilities District”), has determined that the rate and method of apportionment of the special tax (the “Rate and Method”), currently described in Ordinance 3339-C.S. adopted by the City Council on December 11, 2003 (“Ordinance 3339-C.S.”) and approved by the qualified electors within the Community Facilities District at a special election held on December 11, 2003 pursuant to the Mello-Roos Community Facilities Act of 1982, as amended, commencing with Section 53311 of the Government Code (the “Act”), should be changed as set forth in **Exhibit A** to Resolution No. 2004-173 (the “Rate and Method Amendment”); and

WHEREAS, the boundaries of the Community Facilities District are as depicted on the boundary map recorded with the County Recorder in the book of maps of assessment and community facilities districts in Book 3AM, at Page 83, as Instrument No. 03-0190347 (the “Map”); and

WHEREAS, the City Council has determined in accordance with the requirements of Section 53331 of the Act that the public convenience and necessity require the Community Facilities District to consider the Rate and Method Amendment; and

WHEREAS, the City Council has adopted Resolution No. 2004-173 (the “Resolution of Consideration”) expressing its intention to consider the proposed Rate and Method

Amendment and has conducted a public hearing on May 11, 2004 as required by Section 53338 of the Act after mailing a public notice as required by Section 53335 of the Act; and

WHEREAS, the proposed Rate and Method Amendment has not been precluded by a majority protest pursuant to Section 53337 of the Act; and

WHEREAS, the City Council now desires to submit to the qualified electors within the Community Facilities District a proposition regarding the proposed Rate and Method Amendment substantially in the form set forth in Section 3 below;

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF MODESTO ACTING IN ITS CAPACITY AS THE LEGISLATIVE BODY OF CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2003-1 (FAIRVIEW VILLAGE) DOES HEREBY RESOLVE, DETERMINE AND ORDER as follows:

SECTION 1. The above recitals are true and correct.

SECTION 2. The City Council finds and determines that written protests to the proposed Rate and Method Amendment, or any other matters set forth in the Resolution of Consideration, are insufficient in number and in amount under the Act, and the City Council hereby further orders and determines that all protests to the proposed Rate and Method Amendment, or the extent thereof, or any other matters set forth in the Resolution of Consideration, are hereby overruled.

SECTION 3. A special election on the proposed Rate and Method Amendment shall be and is hereby called and ordered to be held in the Community Facilities District on the date established pursuant to Section 6 below, at which election the following proposition shall be submitted to the qualified electors:

PROPOSITION A: Shall the amended and restated rate and method of apportionment of special tax set forth in Resolution No. 2004-173 adopted by the City Council of the City of Modesto as the legislative body of the City of Modesto Community Facilities District No. 2003-1 (Fairview Village) (the "Community Facilities District") replace the existing rate and method of apportionment for the Community Facilities District and be levied for the purposes set forth in Resolution No. 2003-660?

Section 4. If the proposition set forth in Section 3 receives the approval of more than two-thirds (2/3) of the votes cast on such proposition, then such proposition will take effect.

Section 5. The City Council has heretofore found that fewer than twelve persons have been registered to vote within the territory of the Community Facilities District for the ninety days preceding the close of the public hearing heretofore held by the City Council for the purposes of these proceedings. Accordingly, the vote shall be by the landowners of the Community Facilities District, and each owner of record at the close of such public hearing, or the authorized representative thereof, shall have one vote for each acre or portion of an acre that he or she owns within the Community Facilities District.

Section 6. The date of the election shall be May 11, 2004, and the City Clerk shall conduct the election. The election shall be conducted by personally delivered or mailed ballots and in accordance with the provisions of law regulating elections of the City insofar as such provisions are determined by the City Clerk to be applicable. The voted ballots shall be returned to the City Clerk not later than 9:00 p.m. on May 11, 2004; provided that if all of the qualified electors have voted prior to such time, the election may be closed by the City Clerk.

Section 7. The form of the ballot for the election is attached hereto as **Exhibit A** and by this reference incorporated herein. The City Clerk shall cause to be delivered to each of the qualified electors of the Community Facilities District a ballot in said form. Each ballot shall indicate the number of votes to be voted by the respective elector based upon the number of acres of land owned by such elector as set forth above. The identification envelope for return of the ballot shall be enclosed with the ballot, shall have the postage prepaid and shall contain (a) the name and address of the landowner, (b) a declaration, under penalty of perjury, stating that the elector is the owner of record, or the authorized representative thereof, and is the person whose name appears on the identification envelope, (c) the printed name, signature and address of the elector, (d) the date of signing and place of execution of the declaration described above and (e) a notice that the envelope contains an official ballot and is to be opened only by the canvassing board. Analysis and arguments with respect to the ballot proposition are hereby waived.

Section 8. The City Clerk shall accept the ballots of the qualified electors in the office of the City Clerk to and including 9:00 p.m. on May 11, 2004 whether said ballots shall be personally delivered or received by mail.

Section 9. There is on file with the City Clerk a written instrument executed by the sole qualified elector of the Community Facilities District requesting a shortening of the time for the special election in order to expedite the process of approving the Rate and Method Amendment and waiving any requirement for analysis and arguments in connection therewith.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11<sup>th</sup> day of May, 2004, by Councilmember Keating, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-261**

**RESOLUTION DECLARING THE RESULTS OF A SPECIAL ELECTION ON A PROPOSITION TO ALTER THE EXISTING RATE AND METHOD OF APPORTIONMENT OF THE SPECIAL TAX PERTAINING TO CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2003-1 (FAIRVIEW VILLAGE) AND CHANGING SAID RATE AND METHOD**

WHEREAS, this City Council, acting as the legislative body of the City of Modesto Community Facilities District No. 2003-1 (Fairview Village) (the "Community Facilities District"), called and duly held an election of the Community Facilities District pursuant to resolutions adopted by the City Council on May 11, 2004 for the purpose of presenting to the qualified electors within the Community Facilities District a proposition (the "Proposition") for the replacement of the existing rate and method of apportionment of special tax (the "Existing Rate and Method") with a new rate and method of apportionment of special tax (the "Amended Rate and Method"); and

WHEREAS, there has been presented to the City Council a Certificate of the City Clerk as to the Results of the Canvass of the Election Returns, a copy of which is attached hereto as **Attachment "A"**; and

WHEREAS, the City Council has now determined to adopt this resolution of change in accordance with Section 53338(b) of the Mello-Roos Community Facilities Act of 1982, as amended, commencing with Section 53311 of the Government Code (the "Act");

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto, acting as the legislative body of the City of Modesto Community Facilities District No. 2003-1 (Fairview Village), hereby finds and determines as follows:

SECTION 1. The above recitals are true and correct.

SECTION 2. Two-thirds or more of the votes cast by the qualified electors of the Community Facilities District at the special election held on May 11, 2004 on the Proposition were cast in favor of the Proposition, and the Proposition carried.

SECTION 3. The City Council hereby determines that the Amended Rate and Method Amendment is lawfully authorized and that the Existing Rate and Method has been changed and the Amended Rate and Method Amendment is now in effect. The City Council further finds and determines that the apportionment of the special tax as set forth in the Amended Rate and Method Amendment is apportioned to each parcel in accordance with the requirements of Section 53325.3 of the Act and is not apportioned on or based upon the ownership or value of real property and that all proceedings with respect to the authorization of the Rate and Method were valid and in conformity with the requirements of the Act.

SECTION 4. The City Clerk is hereby authorized and directed to execute and cause to be recorded in the office of the County Recorder of Stanislaus County an amended notice of special tax lien in the form required by law, said recording to occur no later than fifteen days following adoption of this Resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11<sup>th</sup> day of May, 2004, by Councilmember Keating, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

CERTIFICATE OF CITY CLERK  
AS TO RESULTS OF THE CANVASS OF ELECTION RETURNS

STATE OF CALIFORNIA )

) ss.

COUNTY OF STANISLAUS )

As City Clerk of the City of Modesto, I do hereby certify that I have examined the returns of the special election for City of Modesto Community Facilities District No. 2003-1 (Fairview Village) (the "Community Facilities District"). With my concurrence, the election was conducted on May 11, 2004. On or prior to said date I had mailed or caused to be personally delivered a ballot to the landowner listed on the latest equalized assessment roll prepared by the Stanislaus County Assessor prior to May 11, 2004 or otherwise known by me to own the property within the boundaries of the Community Facilities District. The landowner was given one vote for each acre, or portion thereof, that the landowner owns within the Community Facilities District.

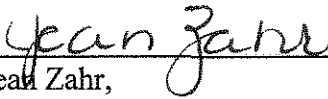

I further certify that the results of said election and the number of votes cast for and against the Proposition are as follows:

YES: 82

NO: 0

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-262**

**A RESOLUTION ADJUSTING RENTAL CHARGES AND FEES FOR  
ACTIVITIES AND SERVICES AT THE MODESTO CITY-COUNTY  
AIRPORT/HARRY SHAM FIELD, AND RESCINDING COUNCIL  
RESOLUTION NO. 2003-267**

WHEREAS, Section 7-3.401 of the Modesto Municipal Code authorizes the Council, by resolution, to establish rental charges and fees for activities and services at the Modesto City-County Airport/Harry Sham Field, and

WHEREAS, the during the past year the Consumer Price Index (CPI) of the western United States, which is used as the measurement for airport rates and fees adjustment increased at a rate of two and one-tenths percent (2.1%), and

WHEREAS, the Modesto City-County Airport Advisory Committee recommended adoption of the 2.1% rate increase at its meeting on March 17, 2004, and

WHEREAS, the Economic Development Committee considered the rate increase at their meeting on April 7, 2004 and recommended the City Council increase general aviation, hangars, offices, and tie-downs by 2.1%, and

WHEREAS, by an agenda report to the City Council from the Acting Engineering and Transportation Director dated April 22, 2004, City staff recommended a rate increase of 2.1% for aircraft hangars, office space, and tie-down rentals, and

WHEREAS, a duly noticed public hearing was held by the Council on May 11, 2004 at 5:30 p.m. in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which hearing all interested persons were given the opportunity to be heard relative to the proposal to increase the rates and charges for the Modesto City-County Airport's aircraft hangars, office space, and tie-down rentals,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. HANGARS. Rental charges for the rental of hangars at the Modesto City-County Airport/Harry Sham Field are hereby established as follows, payable in advance:

(1) T-Hangars

Hangar A	.....	\$114/*\$141 unit per month
End Units	.....	\$133/*\$158 unit per month
Hangar B	.....	\$139/*\$164 unit per month
End Units	.....	\$172/*\$197 unit per month
Hangar C	.....	\$146/*\$173 unit per month
End Units	.....	\$177/*\$202 unit per month
Hangar D	.....	\$131/*\$156 unit per month
End Units	.....	\$155/*\$182 unit per month
Hangar E	.....	\$191 unit per month
End Units	.....	\$223 unit per month
Hangar F	.....	\$191 unit per month
End Units	.....	\$223 unit per month
Hangar G	.....	\$191 unit per month
Hangar H	.....	\$191 unit per month
Hangar I	.....	\$373 unit per month
Hangar J	.....	\$191 unit per month
Hangar K	.....	\$214 unit per month
End Unit	.....	\$321 unit per month
Storage	.....	\$76 per month
Portable Land Rent	.....	\$56 unit per month
*T-Hangar A – D with electrical service		

A five percent (5%) discount will be made in any of the above rental charges when a year's lease is entered into and the year's rental charges are paid in advance.

(b) Storage Hangars:

Hangar No. 1	....	\$1,399.00 – Sheriff Aero Squadron lease rate (is discounted to \$950.00 per month)
Hangar No. 2	....	\$1,167.00 per month
Hangar No. 3	....	\$615.00 per month

Hangar No. 4	....	\$1,046.00 per month
Hangar No. 5	....	\$1041.00 per month
Hangar No. 6	....	\$610.00 per month

SECTION 2. TIE-DOWN FEES. Tie-down charges and fees at the Modesto City-County Airport/Harry Sham Field are hereby established as follows, payable in advance:

- (a) Tail-in Tie-Down – Permanent, light single and multi-engine (under 12,500 lbs.) \$35.00 per month
- (b) Taxi-in Tie-Down – Permanent, light single and multi-engine (under 12,500 lbs.) \$56.00 per month
- (c) Taxi-in Tie-Down – Permanent, large multi-engine (over 12,500 lbs.) \$.041 per square foot per month
- (d) Taxi-in Tie-Down – Transient, helicopter/single-engine aircraft \$6.00 per day
- (e) Taxi-in Tie-Down – Transient, twin-engine aircraft (under 12,500 lbs.) \$8.00 per day
- (f) Taxi-In Tie-Down – Transient, twin-engine aircraft (over 12,000 lbs.) \$12.00 per day
- (g) Jets – \$12.00 per day

A five-percent (5%) discount will be made in the rental charges set forth in subparagraphs (a), (b), and (c), above when a year's lease is entered into and the year's rental charges are paid in advance.

A volume discount may be given to Fixed Base Operators (FBO) that operate flight schools for light single and multi-engine aircraft (under 12,500 lbs.) for tie-down spaces as set forth in subsections (a) and (b) above. For every two tail-in spaces the FBO agrees to lease, one taxi-in tie-down may be leased for the same price as a tail-in tie-down.

Overnight tie-down of aircraft belonging to or in the custody or possession of a lessee at the Modesto City-County Airport/Harry Sham Field shall be subject to the normal tie-down charge as specified by this section.

SECTION 3. OFFICE SPACE. The monthly charge for office spaces at the Modesto City-County Airport/Harry Sham Field are hereby established as follows:

- (a) Old Administration Building ..... \$.77 per square foot
- (b) Office Building No. 1 ..... \$.77 per square foot
- (c) Office Building No. 2 ..... \$.77 per square foot
- (d) Hangar Office Space ..... \$.348 per square foot

SECTION 4. TEMPORARY USE OF AIRPORT PASSENGER TERMINAL.

Organization and service providers desiring to temporarily use the passenger terminal will be charged a daily rate:

- (a) Ticket counter ..... \$.067 per square foot
- (b) Other areas ..... \$.067 per square foot

SECTION 5. NONSCHEDULED TRANSIENT AIRCRAFT CARRYING

PASSENGERS AND/OR CARGO FOR HIRE. Aircraft landing at the Modesto City-County Airport/Harry Sham Field shall pay a landing fee as follows:

- (a) All light single, multi-engine aircraft and helicopters - \$10.00 per landing
- (b) All large single and multi-engine aircraft – \$.66 per 1,000 pounds of gross weight, but not less than \$10.00 per landing
- (c) All transient aircraft owned and operated by individuals, companies, and corporations carrying their own products shall not be charged for the first two (2) trips per calendar months. All other trips for the same calendar month shall be charged for at the same rates applied to nonscheduled aircraft carrying cargo for hire.
- (d) No landing fee shall be charged for any aircraft, which lands at the airport due to any mechanical or other emergency, except weather, provided that such emergency is reported to the Airport Control Tower prior to landing.

SECTION 6. PASSENGER FACILITY CHARGE (PFC). Commercial air carrying passengers excluding “frequent flyers” or similar airline bonus award enplaning at Modesto City-County Airport/Harry Sham Field shall pay a PFC as approved by Federal Aviation Regulations (FAR) Part 158.

- (a) Enplane passenger by airline \$3.00 per ticket passengers.

SECTION 7. ADVERTISEMENT CALLBOARD. Firms wishing to advertise in the airport passenger terminal shall have an approved agreement with the City of Modesto. A monthly charge shall be assessed for the use of the advertisement callboard as follows

<u>Display Size</u>	<u>Display Only</u>	<u>Display &amp; Telephone</u>
7.5" x 9.5"	\$30.00	\$50.00
7.5" x 21"	\$35.00	\$55.00
19" x 21"	\$40.00	\$60.00

SECTION 8. FAX SERVICE. Persons wishing to use the airport administration office fax machine shall be charged for the service. Airport personnel is authorized to collect as follows:

- (a) Incoming Service ..... \$.50 per page
- (b) Outgoing Service ..... Area code 209 - \$1.00 per page  
Other area codes - \$2.00 first page  
\$1.50 - all other pages

SECTION 9. PERMANENTLY BASED COMMERCIAL SERVICES. Any person engaging in a commercial enterprise permanently based at the Modesto City-County Airport/Harry Sham Field shall pay to the City a fee equivalent to the City Business License Fees set forth in Chapter 1 of Title 6 of the Modesto Municipal Code, except that a minimum fee of \$100 will be paid for each aircraft sold, for the privilege of engaging in business in the City of Modesto and on the Airport. Said sum shall be payable at the time and in the manner provided for in Chapter 1 of Title 6 of the Modesto Municipal Code.

SECTION 10. FUEL FLOWAGE FEES. A fuel flowage fee of six cents (\$.06) per gallon of fuel sold or dispensed on the Airport shall be collected for the City of Modesto by the fuel vendors, except that reduced fuel flowage fees collected from scheduled air carriers can be negotiated for volume purchases.

SECTION 11. TEMPORARILY BASED COMMERCIAL SERVICES. Any person engaging in a commercial enterprise, temporarily based at the Modesto City-County Airport/Harry Sham Field, shall pay to the City a license fee in the sum of Two Hundred and no/100ths (\$200.00) Dollars, payable in advance.

Each such operator shall also pay to the City as a minimum an additional sum of Ninety and no/100ths (\$90.00) Dollars per month, or any portion thereof, payable in advance, for the privilege of using the Airport and its facilities.

SECTION 12. OFF-AIRPORT CAR RENTAL OPERATOR FEE. Off-airport operators picking up customers at the Modesto City-County Airport/Harry Sham Field will pay to the City of Modesto the greater of ten percent (10%) of gross on time mileage of vehicles rented or the monthly charge for passenger terminal advertisement space and callboard phone service. Additionally, the operators will be assessed a parking fee at the same rate on-airport car rental operators are charged for vehicles left in the public parking area overnight.

SECTION 13. MOTOR VEHICLE STORAGE CHARGES. Any person who parks a motor vehicle at the Modesto City-County Airport/Harry Sham Field for longer than thirty (30) days at a time shall pay to the City a parking fee of Twenty-five and no/100ths (\$25.00) Dollars per month, payable in advance.

SECTION 14. PENALTIES. A five percent (5%) per month penalty charge shall be made on any of the charges and fees established by this resolution when such charges and fees are not paid within thirty (30) days after they are due and payable. No penalties will be collected on the PFC.

SECTION 15. ANNUAL ADJUSTMENT OF RENTS, FEES AND CHARGES. Commencing July 1, 2004, the rents, fees and charges set forth in Sections 1, 2, and 4 of this resolution may be adjusted annually as of the first day of July.

Said rents, fees, and charges shall be adjusted in the following manner: The base for computing the adjustment is the National Consumer Price Index for the West Urban (all urban consumers), published by the United States Department of Labor, Bureau of Labor Statistics ("Index"), with a base year of 1982 – 1984 = 100 ("Beginning Index"). The Index published most immediately preceding the Adjustment Date in question ("Adjustment Index") is to be used in determining the amount of the adjustment. If the Adjustment Index has increased over the Beginning Index, the rents, fees and charges set forth in this resolution shall be set by multiplying the rents, fees and charges set forth in this resolution by a fraction, the numerator of which is the Adjustment Index and the denominator of which is the Beginning Index.

In no case shall the minimum rents, fees and charges be less than existing approved and adopted rents, fees and charges nor shall any increase in a year be greater than five (5%) percent. If the indexes change so that the base year differs from that in effect on July 1, 2004, the Index shall be converted in accordance with the conversion factor published by the United States Department of Labor, Bureau of Labor Statistics. If the Index is discontinued or revised at any time after the effective date of this resolution, such other government index or computation with which it is replaced shall be used in order to obtain substantially the same result as would be obtained if the Index had not been discontinued or revised.

SECTION 16. EFFECTIVE DATE. This resolution shall go into effect and be in full force and operation on July 1, 2004.

SECTION 17. SUPERSEDE. This resolution rescinds Council Resolution No. 2003-267.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11<sup>th</sup> day of May, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-263**

**A RESOLUTION APPROVING THE CITY OF MODESTO DRAFT 2004-2005  
HUD ANNUAL ACTION PLAN AND AUTHORIZING THE CITY MANAGER  
TO EXECUTE RELATED NECESSARY DOCUMENTS.**

WHEREAS, the City of Modesto receives several Federal grants from the United States Department of Housing and Urban Development (HUD), and

WHEREAS, the City receives a Community Development Block Grant (CDBG), a HOME Investment Partnership Grant (HOME), and an Emergency Shelter Grant (ESG), and

WHEREAS, the City receives these grants annually because of its population size, number of households living below the poverty line, and the number of housing units that are considered substandard, and

WHEREAS, submittal of an Annual Action Plan is required to receive the City's entitlement grants from HUD, and

WHEREAS, the Citizens Housing and Community Development Committee (CH&CDC) recommended support of this item at its April 23, 2004 meeting, and

WHEREAS, a duly noticed public hearing was held by the City Council at its meeting of May 11, 2004, to consider submission of an application to the U.S. Department of Housing and Development (HUD) pertaining to the 2004-2005 HUD Annual Action Plan, which describes how the City intends to spend Federal assistance received from HUD in the areas of Community Development, Housing Production and Homeless Assistance,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the 2004-2005 HUD Annual Action Plan as presented to the Council for the

Community Development Block Grant (CDBG), HOME Investment Partnership Program (HOME) and the Emergency Shelter Grant (ESG) is hereby approved, and a copy of said HUD Annual Action Plan is on file in the Office of the City Clerk.

BE IT FURTHER RESOLVED that the City Manager, or his authorized designee, is hereby authorized to execute any and all documents necessary in relation to grant agreements, and City staff is hereby authorized to submit an application to the U.S. Department of Housing and Urban Development (HUD) pertaining to the 2004-2005 Annual Action Plan which describes how the City intends to spend Federal assistance received from HUD in the areas of Community Development, Housing Production and Homeless Assistance.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-264**

**A RESOLUTION APPROVING A SECOND AMENDMENT TO THE CITY OF  
MODESTO 2003-2004 HUD ANNUAL ACTION PLAN.**

WHEREAS, the City of Modesto receives several Federal grants from the United States Department of Housing and Urban Development (HUD), and

WHEREAS, on May 13, 2003, by Resolution No. 2003-241, the City Council approved the 2003-2004 HUD Annual Action Plan, and on December 11, 2003, by Resolution No. 2003-654, the City Council approved the first amendment to the 2003-2004 HUD Annual Action Plan, and

WHEREAS, since then, staff has determined that changes should be made to programs and services provided to better meet the needs of the citizens of Modesto, and

WHEREAS, City staff has proposed a second amendment to the 2003-2004 HUD Annual Action Plan, and said proposed second amendment is as set forth in Exhibit "A" attached hereto and incorporated herein by reference, and

WHEREAS, notice has been duly given to the community of the proposed second amendment to the 2003-2004 HUD Annual Action Plan, and to provide a 30-day comment period, which began April 9, 2004, and ended on May 11, 2004, and

WHEREAS, the Citizens Housing and Community Development Committee (CH&CDC) considered the proposed changes to the 2003-2004 HUD Annual Action Plan at its April 23, 2004, meeting, and recommended that the City Council approve the second amendment to the 2003-2004 HUD Annual Action Plan as proposed by staff as well as budgetary adjustments as recommended by staff, and

WHEREAS, a duly noticed public hearing was held by the City Council on May 11, 2004, to consider approval of the proposed second amendment to the 2003-2004 HUD Annual Action Plan,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the proposed second amendment to the 2003-2004 HUD Annual Action Plan as presented to the Council is hereby approved, and a copy of said second amendment to the 2003-2004 HUD Annual Action Plan is attached hereto as **Exhibit "A"** and incorporated herein by reference.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the City Manager, or his designee, is hereby authorized to execute any documents with respect to the second amendment to the 2003-2004 HUD Annual Action Plan be submitted to the U.S. Department of Housing and Urban Development (HUD).

BE IT FURTHER RESOLVED that any and all documents necessary to implement the Action Plan shall require further Council approval.

FOR FISCAL YEAR 2004-2005**

**I. INTRODUCTION**

This document serves as the City of Modesto's 2004-2005 Annual Action Plan, updating the most recent 5-Year Consolidated Plan submitted to the U.S. Department of Housing & Urban Development (HUD). The Consolidated Plan covers the years 2000 to 2005, and was approved by the City Council on June 27, 2000.

The 5-Year Consolidated Plan analyzes the City's housing and community development needs, with a priority focus on low- and moderate-income individuals, households, and neighborhoods, and describes a long-term strategy for meeting those needs. In addition to the development of a broad policy framework, the Consolidated Plan also addresses how the City will utilize funding from three different entitlement grants to meet those needs: The Community Development Block Grant (CDBG), the HOME Investment Partnership Grant (HOME), and the Emergency Shelter Grant (ESG). In general, these funds must be used to revitalize low-income neighborhoods, assist disadvantaged populations by providing adequate public facilities and services, generate affordable housing opportunities, and implement effective strategies to reduce and end homelessness.

As part of the consolidated planning process, HUD requires the submission of an Annual Action Plan that details the proposed activities, projects and expenditures for the three entitlement grants, using the goals and priorities of the 5-Year Consolidated Plan as a guide. The Annual Action Plan must also describe all anticipated resources for the coming year that may be used to address the variety of housing and community development needs in the jurisdiction. The Annual Action Plan for the coming year is due to HUD by May 31, 2004.

Citizen participation is a key component of the consolidated planning process. The federal regulations implementing the three entitlement grants discussed above require that the City provide ample opportunity and means for the populations served by the grants, as well as the general citizenry, to provide input to the goals and priorities that should be reflected in the plan, as well as the specific types of activities that will be funded. The Citizen Participation Calendar shown on Appendix A, outlines the meetings, public hearings and application deadlines used as part of the preparation of the 2004-2005 Annual Action Plan.

The primary oversight of the City's HUD entitlement grant programs comes from the Citizens Housing and Community Development Committee (CH&CDC). This committee, appointed by the City Council and chaired by the Mayor, has representatives of various other City committees (Community Development and Housing, Planning Commission, Housing Rehabilitation Loan Committee, etc.), as well as a Stanislaus County Supervisor's delegate representing the low-income areas in the City. In addition, at-large seats, generally representing low-income and racial minority groups, fill out the 11-member committee.

Staff from the Parks, Recreation and Neighborhoods Department, Recreation and Neighborhood Services Division, provides day-to-day administration of the programs.

## II ENTITLEMENT PROGRAM GOALS AND REQUIREMENTS

As previously mentioned, the City of Modesto is an “entitlement” grantee for three programs administered by HUD: the Community Development Block Grant (CDBG), the HOME Investment Partnership Grant (HOME), and the Emergency Shelter Grant (ESG). As an entitlement grantee, the City is eligible to receive a specified amount of funding under each program annually, based upon a variety of socioeconomic and housing data.

Each grant is authorized under a specific law and a set of implementing regulations that must be followed in the execution of funded projects, as follows:

- Community Development Block Grant: Title I of The Housing and Community Development Act of 1974, 24 CFR Part 570
- HOME Investment Partnership Grant: Title II of the Cranston-Gonzalez National Affordable Housing Act in 1990, 24 CFR Part 92
- Emergency Shelter Grant: Subtitle B of Title IV of The Stewart B. McKinney Act, 24 CFR Part 576

The CDBG funds must be used to primarily benefit low- and moderate-income persons in accordance with the following major goals:

- ***Provide decent housing:*** this includes assisting homeless persons in efforts to obtain affordable, stable housing; retention of affordable housing stock; and increasing the stock of housing affordable to low- and moderate-income persons.
- ***Provide a suitable living environment:*** includes efforts to improve the safety and livability of neighborhoods; increasing access to quality facilities and services; revitalizing deteriorating neighborhoods; restoring and preserving natural and physical features of special value for historic, architectural or aesthetic reasons; and conserving energy resources.
- ***Expand economic opportunities:*** may include programs to create jobs accessible to low- and moderate-income persons; providing job development and skill training; and providing assistance for persons living in assisted and public housing to achieve self-sufficiency.

In the CDBG program, a minimum of 70% of funds expended for the goals listed above must benefit individuals or households who are in the low- and moderate-income level. The remainder of funds may be used for the following eligible activities:

- ***Program Administration and Planning & Capacity Building:*** Up to 20% of the total of the grant plus program income is to be used for necessary costs to meet the administrative requirements of the grant. The regulations require grantees to provide program management, coordination, monitoring, reporting, evaluation, citizen participation, and fair housing activities. Costs include not only payroll for staff directly involved in carrying out the grant, but also items such as public notices, printing of documents, public meetings, office space rent, computer leases, and internal costs such as legal review of program documents, technology support, and accounting services.

- ***Preventing or Eliminating Slums or Blight:*** A carryover from the Urban Renewal Program, which was replaced by CDBG, these activities may address major slum and blight problems through clearance, abatement of toxic materials, facade improvements, elimination of code violations (including housing), and rehabilitation of buildings to eliminate specific conditions detrimental to public health and safety.
- ***Other Urgent Community Development Needs:*** To be eligible, conditions must exist that pose a serious and immediate threat to the health or welfare of the community, are of a recent origin, and there are no other funding sources available to address the need. This might cover such items as a flood or earthquake, when local resources are depleted, and other Federal programs cannot cover the entire cost of the project.

The **HOME** program is the largest Federal block grant to State and local governments designed exclusively to create affordable housing for low-income households. Among the items that HOME funds can pay for are:

- Construction or rehabilitation of housing for rent or ownership
- Site acquisition or improvement
- Down Payment Assistance (American Dream Down Payment Initiative Program)
- Home purchase or rehabilitation financing assistance
- Tenant-Based Rental Assistance
- Demolition of dilapidated housing to make way for HOME-assisted development

Those who benefit from HOME assistance must meet certain eligibility and compliance requirements; these vary with the nature of the funded activity:

- In rental projects with five or more assisted units, at least 20% of the units must be occupied by families with incomes that do not exceed 50% of the HUD adjusted median
- For rental housing and rental assistance, a minimum of 90% of benefiting families must have incomes that are no more than 60% of the HUD-adjusted median family income for the area
- HOME-assisted rental housing must comply with certain rent limitations
- The income of households receiving HOME assistance must not exceed 80% of the area median

**ESG** funds must be used to assist persons who are homeless or at great risk of becoming immediately homeless. Funds can be used to:

- Provide certain essential services to homeless individuals and families, so that these persons have access not only to a safe and clean shelter, but also access to the supportive services and other kinds of assistance needed to improve their situations and move them from homelessness to stable housing
- Help meet the cost of operating those shelters
- Help improve the quality of existing emergency shelters for the homeless, and provide for additional emergency shelters, including rehabilitation of existing buildings
- The ESG program is also intended to help reduce the number of persons becoming homeless through preventive programs and services

### III ESTIMATED FUNDING

A. The 2004-2005 Annual Action Plan is based upon the following estimated revenues:

<u>Revenue Source</u>	<u>Estimated Revenue</u>
CDBG Entitlement	\$2,854,000
CDBG Program Income	\$200,000
CDBG Revolving Loan Program Income	\$180,000
CDBG Revolving Loan Reprogramming	\$1,750,000
HOME Entitlement	\$1,375,817
HOME American Dream Down Payment Initiative (ADDI) - FY03-04	\$116,089
HOME Program Income	\$100,000
ESG Entitlement	<u>\$105,715</u>
<b>Total Estimated Revenues</b>	<b>\$6,681,621</b>

In the above chart, *entitlement* refers to the annual grant amount received by the City through formula allocation, *program income* refers to revenue received through payments of principal and interest on loans made through the program, *revolving loan fund* refers to the special fund established for housing maintenance loans that is replenished through the payment of principal and interest on loans originating from that fund, *reprogramming* refers to a portion of a previous year's funds that was not spent, and is now being reprogrammed for a different activity than the one it was previously obligated for.

B. The following summarizes proposed activities and funding totals by category for all three entitlement grants for 2004-2005 in accordance with total estimated revenue available. A complete description of each activity can be found in Section VI, categorized by the IDIS project it will be funded under.

<u>Activity Category</u>	<u>Funding Amount</u>
Housing Development, Preservation, and Homeownership	\$3,201,228
Infrastructure & Public Improvements	\$1,313,337
Neighborhood Preservation & Stabilization	\$298,416
Economic Development	\$24,573
Public Services (CDBG, RLF & ESG)	\$673,258
Program Administration & Planning (includes Fair Housing)	\$759,809
Loan Repayment	\$361,000
RLF Interest Payment	<u>\$50,000</u>
<b>Total Funding</b>	<b>\$6,681,621</b>

C. Leveraging of Other Funding Sources for Housing and Community Development Projects:

#### Redevelopment Funds:

The City of Modesto's Redevelopment Agency, by law, must allocate 20% of its tax increment proceeds to affordable housing. The agency has already determined allocation priorities through the adoption of the Agency's Housing Implementation Plan in December 1999. It is anticipated that the Agency will have available approximately \$2.9 million in FY 2004-2005 to allocate to

affordable housing projects in the downtown area. Potential projects would include mixed-used housing as well as mixed-use land uses. The Community and Economic Development Department administers these funds.

American Dream Down Payment Initiative (ADDI) Program:

This is a new program, approved by Congress and sponsored by President Bush. This program is designed to help more residents become first time homebuyers. The program will be incorporated into the City's existing Down Payment Assistance Program. The total funds allocated in 2004-2005 are \$116,089 (\$53,251 for FY03-04 plus \$62,838 for FY04-05).

Section 108 Loan Guarantee:

In fiscal year 2003-2004, the City of Modesto requested \$4.5 million in Section 108 Loan Guarantee funds from HUD to finance:

- \$3.1 million for the construction of the Neighborhood Center at Marshall Park, a joint service facility for police, fire and recreational services; and
- \$1.4 million for the renovation and expansion of the Maddux Youth Center.

These projects will provide safety services, as well as family and youth services to a low-income area located in the western sector of Modesto. These projects are described in more detail in Section V of this plan.

State of California CalHome Funds:

In fiscal year 2003-2004, the City of Modesto applied for and received \$300,000 in CalHome funds from the State of California to apply to the Down Payment Assistance Program. Due to delays in the award announcements and contract administration at the State level, the funds have not been available during this FY03-04. The City of Modesto and the California Department of Housing and Community Development are working on the contracts and set up of this program. Most of the funds will be available during FY04-05 to fund down payment loans.

State of California Job Housing Balance Funds:

Besides the above-mentioned Cal Home funds from the State of California, the City of Modesto also received \$166,485 in Job-Housing Balance Funds. These funds were put towards the construction and remodeling costs of the Maddux Youth Center and the Neighborhood Center at Marshall Park. These funds will help insure that both project are fully funded and of top quality when completed. These projects are described in more detail in Section V of this Plan.

Housing Opportunities for Persons with AIDS (HOPWA):

The Housing Opportunities for Persons with AIDS (HOPWA) program is authorized by the AIDS Housing Opportunity Act (AHOA) and amended by the Housing and Community Development Act of 1992. The program is designed to provide States and localities with resources and incentives to devise long-term comprehensive strategies for meeting the housing needs of persons with acquired immune-deficiency syndrome or related diseases and their families. The program authorizes entitlement grants and competitively awarded grants for housing assistance and services. The City of Modesto does not receive HOPWA funds through the entitlement process as it does with CDBG, HOME and ESG. The Stanislaus County Ryan White Consortium is the agency that receives HOPWA funds locally. For fiscal year 2004-2005, the Consortium expects to receive approximately \$114,378. Through an RFP process, these funds will be allocated to a local service provider to pay for housing-related costs. Funds are also allocated to Doctor's Medical Foundation for administration of the program.

### Private Resources:

The use of private resources (such as debt financing, equity, owner cash, sweat equity, expertise, materials, donations, land and buildings) is an essential component of the City's attempt to maximize all available means to accomplish the wide variety of housing and community development goals. For example, in the City's Housing Rehabilitation Program in mandatory Target Area Four, only 24% of the units rehabilitated have been completed with CDBG financing. The individual owners have financed the remaining 76% of the households. Developers of affordable housing projects also typically use state and federal tax credits as equity for the development of both senior and multi-family rental housing for very low- and low-income households. Both private conventional lenders and governmental lenders such as CHFA, FHA, and FNMA have provided and are anticipated to continue to provide private funding.

#### D. Matching Requirements

The City of Modesto will provide the required 25% match for HOME funds by continuing to require HOME recipients to provide other sources of funding for the HOME-assisted project, including private financing, as well as waiver or deferral of development fees, per City Council policy for Affordable Housing projects. In addition, the City has accumulated a match surplus from previous HOME-assisted projects. Some of the match credit on the books resulted from waived and deferred development fees.

For the ESG program, the City requires that ESG recipients provide the required 100% match for the funds they receive. Typically, the City is able to generate significantly more match than the amount required, through the contributions of both grants and in-kind costs by local nonprofit organizations providing services to homeless families and individuals. The agencies providing the match for the coming year are the Center for Human Services, Interfaith Ministries and the Children's Crisis Center.

#### IV. ON-GOING ACTIVITIES AND RESOURCES FROM PREVIOUS YEARS

At this time, the City is not programming any new activities under the revenue category of "CDBG Reprogramming". Once the fiscal year is closed in June 30, 2004, and the actual amount of carryover is known, the City will make decisions regarding reprogramming any unspent funds for new activities, and would include those in an amendment to the 2004-2005 Annual Action Plan.

#### V. SUMMARY OF PRIORITIES AND OBJECTIVES FOR THE 2004-2004 ACTION PLAN

As a result of the community input meetings held in March, and the participation of a variety of interested persons and agencies in the process, the following areas have been identified as priorities for the upcoming year:

- ***Focusing on Concerns of Persons in Low-Income Neighborhoods:*** In March, staff convened a series of meetings in low- and moderate- income neighborhoods to solicit residents' views on the use of HUD funds in their neighborhoods. As a result of their input, the objectives in this area for the coming year are as follows:

- ✓ Support neighborhood groups' efforts to eliminate slum and blight through assistance to organize and fund neighborhood clean-up efforts;
  - ✓ Update and renovate community facilities, such as the kitchen in the King-Kennedy Memorial Center and the Maddux Youth Center, as these are widely-used by residents in the neighborhood;
  - ✓ Assist with efforts to reduce illegal dumping by working with neighborhood groups and citizens on notification programs and education on the City's solid waste programs;
  - ✓ Continue with infrastructure improvements in low-income neighborhoods, including street paving, installation of curbs, gutters, and sidewalks.
  - ✓ Strongly market and fund the Housing Rehabilitation Program, to preserve existing housing stock and to prevent further decline of older neighborhoods;
  - ✓ Provide financial support for neighborhood-based groups, as appropriate, to assist with Asset Based Community Development.
- ***Continued Efforts to Develop and Facilitate Construction of Affordable Housing:*** The City of Modesto continues to suffer from a crisis of not having enough affordable housing for its citizens. The costs of housing, both in terms of homeownership and the rental market, have skyrocketed in the past several years, while job and wage growth have not kept pace. Those on fixed incomes, including seniors and those receiving other forms of public assistance, are the most affected. There is also a low vacancy rate in the rental market, further compounding the problem. Objectives will include:
    - ✓ Ensuring citizens participation in the planning process for affordable housing developments;
    - ✓ Continuing to educate citizens about quality affordable housing developments that have been and are being built, to neutralize the "not in my backyard" syndrome. Successful NIMBYism has halted development in the past, and can unfairly restrict housing choice;
    - ✓ In fiscal year 2003-2004, the City made major modifications to the Down Payment Assistance Program, including raising the maximum loan amount to \$60,000 to ensure the program was keeping pace with the housing market. Staff will continue to monitor the program closely as well as monitoring the housing market to make sure the program can benefit as many first-time homebuyers as possible while protecting the City's investment;
    - ✓ Identifying and certifying additional Community Housing Development Organizations (CHDO) to utilize available HOME funds;
    - ✓ Working closely with the City's Redevelopment Agency to ensure that Housing Set-Aside funds are used in a timely and efficient manner;
    - ✓ In addition, issues such as inclusionary zoning and financial incentives for developers are being recommended for future study in the update to the City's Housing Element.
  - ***Continue to Remove Barriers to Accessibility for Severely Disabled Individuals:*** The removal of architectural barriers in order to make facilities accessible to severely disabled persons is an eligible activity under CDBG. The City has continued to receive strong input from the disabled community and advocacy groups regarding their desire to see funding for such activities to continue. To that end, the City is proposing to continue to fund the following:

- ✓ Removal of curbs and installation of curb ramps at prioritized intersections, in order to make the streets and sidewalks accessible and navigable to persons in wheelchairs;
  - ✓ Installation of audible pedestrian signals at prioritized intersections to allow navigation of the streets and sidewalks by persons with visual disabilities;
  - ✓ Removal of architectural barriers in public buildings. Two projects that were started in 2003-2004 should be completed in 2004-2005. These two projects are the "ADA improvement project at the King-Kennedy Memorial Center," which will result in accessible restrooms, stage area, front counter and drinking fountains. The other project, which will be completed, is the installation of the elevator at the Modesto Centre Plaza, the City-owned and operated convention center.
- ***As Part of the Continuum of Care Consortium, Address Both the Short- and Long-Term Needs of the Homeless:*** Two city staff members (the CDBG/ESG Program Manager and the HOME Program Manager) sit on the Stanislaus County Housing and Support Services Collaborative. This body functions as the Continuum of Care Consortium for Stanislaus County. The Continuum of Care is a strategy by which homeless individuals may receive the services they need to address both their immediate and long-term needs. An effective system provides an assessment of needs, adequate emergency shelter resources, social services such as mental health, substance abuse, and job training, transitional housing, and ultimately either supportive housing or permanent housing. A strong homelessness prevention strategy is also a key to the success of such a system. Obviously, such a system requires the cooperation and resources of numerous agencies that each has a unique and key role to play in the delivery of services. The objectives for the coming year include:
    - ✓ Continue to monitor and encourage the operation of a day center, where the homeless may use telephones, shower and laundry facilities, as well as see case workers from a variety of social service agencies;
    - ✓ Develop a ten-year plan to end long-term homelessness, and identify the number of units and the support services needed to assist this target group.
    - ✓ Increase options for long-term transitional housing, especially for certain affected groups such as single women with children, and those with mental health and chemical dependency issues;
    - ✓ Continue to increase affordable housing options. The low vacancy rate in the rental market and unaffordable rents are causing more and more working families to become homeless;
    - ✓ Apply for grants and other special funding, such as Proposition 46 funds, a special bond measure passed by California voters in the November 2002 election. These funds are exclusively designed to increase shelter and transitional housing options for homeless individuals.
  - ***Improve and Construct Major Public Facilities through the Section 108 Loan Guarantee Program:***

The City of Modesto has identified the need for two major public facilities construction projects on the west side of Modesto, a predominantly low-income area that continues to have many infrastructure and facilities needs. The City is proposing to fund these

projects through the CDBG Section 108 Loan Guarantee Program. The two projects are "The Neighborhood Center at Marshall Park" and "The Maddux Youth Center".

### ***Neighborhood Center at Marshall Park***

The City proposes to build on the existing site of Marshall Park at the corner of Sutter and Chicago Avenues, a joint service facility that will provide citizens the opportunity to interact with City employees in their own neighborhood. They will be able to meet with police and fire staff, conduct city business such as paying water or sewer bill, enroll a child in a recreation program, or just ask questions concerning City programs and policies.

The existing fire station located in the area was built in 1923 and is outdated and there is no room for expansion. The community police sub-station is in an existing strip mall and could easily be combined with the fire staff. The new facility would be an 8,500 square foot fire station with three truck bays and a 4,075 square foot police and recreation area. There would be an office that would staff personnel from all three departments, as well as a weight room, community meeting room, restroom, and a small kitchenette.

WLC Architects has been working on the schematic design, preparation of design development documents, plans, specifications and the cost estimate for the new joint use facility. WLC has been meeting with staff and community groups to ensure that the design is the best fit for the community, the needs of City staff, and the existing appearance of the park. Upon completion of the design and environmental documents, a Request for Proposal process will be used for the selection of a contractor to build the new joint facility. This should be accomplished by October 2004. Construction could begin in December 2004 and completed twelve months later.

### ***Maddux Youth Center***

The Maddux Youth Center was built in 1952 and is located in the existing Cesar Chavez Park located at 4th and G Streets. The center houses a gym, a weight room, and offices for staff. This building is in desperate need of renovation and expansion to meet the needs of today's youth.

Renovation to the existing 7,000 square foot structure would include a new roof with skylights, a new air handling system, replacement of interior and exterior doors, enclosure of existing windows, and abatement of the asbestos in the flooring, and installation of new flooring in the facility, excluding the gym. A 2,500 square foot addition to the south side of the building would be utilized as a computer lab, additional restrooms, and a multi-purpose room. A 3,500 square foot addition to the northeast side of the building would accommodate the activities of the Police Activities League (PAL) youth boxing program.

RRM Design Group has been working on the design development and construction documents since August 2001. The City of Modesto has hosted two public meetings on the design to facilitate community input. Following the final design, the City will seek Request for Proposals for the construction of the project. It is estimated that the contractor will be selected by May 2004, with construction to begin in July 2004 and completed twelve months later.

## *Collateral*

The City of Modesto proposes payment of the Section 108 Loan Guarantee with funds from the annual CDBG entitlement. The City will also pledge the parks and the two buildings, the proposed Neighborhood Center at Marshall Park and the improved Maddux Youth Center, as collateral for the loan. A Deed of Trust in favor of HUD will be recorded against the land and buildings.

## *Time Tables and Stages*

The construction for both projects should begin by summer or fall of 2004 and be completed by the end of 2005. During the construction phase, initial advances will be taken from the Section 108 Loan Guarantee to pay the construction costs. Interest due on the initial advances will be paid through the adjustable rate interim financing. It is hoped that the project will be almost fully funded at the time of the annual public offering of the bond in 2004, if the public offering is in the later half of the year. The City will participate in the public offering and convert the existing Section 108 Loan Guarantee into fixed rate financing for a 20-year term.

The City proposes to address the above-identified priorities and objectives through the funding of the specific activities listed below.

## **VI. LISTING OF PROPOSED ACTIVITIES BY CATEGORY, ALL FUNDING SOURCES**

### **HOUSING DEVELOPMENT, PRESERVATION, & HOME OWNERSHIP**

The following are recommended activities to increase, improve, and preserve decent, safe and affordable housing opportunities for low- and moderate- income individuals and households throughout Modesto. A list of program budgets is shown on Appendix C.

#### **Project 0001: Homeownership Assistance**

**First-Time Homebuyers Classes:** **\$3,000** **CDBG**  
Funds will be used to pay the fee for eligible low-income persons to attend a First-Time Homebuyers Education class, a requirement to be eligible for the City's Down Payment Assistance Program. Proposed accomplishments: Provide 15 persons or households with a home-buying education class.

**Down Payment Assistance Program:** **\$303,000** **CDBG**  
Provides funding for loans of up to \$60,000 each, to assist low-moderate income persons and households with the down payment and closing costs on a home purchase. Proposed accomplishments: Provide 5 down payment assistance loans with the CDBG entitlement funds

**American Dream Down Payment Initiative (ADDI)** **\$116,089** **HOME**  
These funds will be used to augment the existing City of Modesto Down Payment Assistance Program. Proposed accomplishments: This funding will help assist 9 families become first time homeowners.

**Project 0002: Housing Maintenance Program**

**Housing Rehabilitation Loans:** **\$550,000** **CDBG RLF**  
Utilizing existing funds in the City’s CDBG Revolving Loan Fund or private funds, low-interest loans may be provided to property owners in the City’s two residential Target Areas (Highway Village, and the Airport Neighborhood) to address health and safety hazards within the homes, which have been found and documented by a City Building Inspector. Proposed accomplishments: Completion of initial inspection and rehabilitation (if needed) of 36 housing units in the set Target Areas.

**Property Enhancement Program:** **\$4,000** **CDBG**  
This program provides financial assistance in the form of rebates, to enable very-low and low-income property owners to improve the exterior appearance of their property. Items covered may include: removal of debris, exterior painting, front and side yard landscaping, fence/gate repair, energy savings improvements, and other external improvements such as gutters and chimneys. Proposed accomplishments: Complete/improve 8 properties of very low and low-income owner.

**Paint and Insulation Rebate Program:** **\$4,000** **CDBG**  
This program provides property owners with an incentive to improve the condition of their home, improving the appearance of their neighborhood, and reducing utility costs by reimbursing specific dollar amounts for materials and/or labor for painting and insulation projects. Proposed accomplishments: Provide 5 paint and/or insulation rebates.

**Tool Bank Program:** **\$1,000** **CDBG**  
Funding will be used to rent tools through the City’s Tool Bank Program. This lending program provide yard tools for persons in existing and previous Housing Maintenance Program target areas, to assist with tidying up their property by providing items such as lawn mowers, edgers, weed-eaters, carpet cleaners and sewer snakes. Proposed accomplishments: Issue 8 tool bank authorizations.

**Project 0003: Emergency Home Repair/Disabled Access Assistance Program**

**Emergency Home Repair/Disabled Access Assistance Program:** **\$150,000** **CDBG RLF**  
Funding will be provided to cover low-interest loans made to very-low or low-income owner-occupants, who have one of the following needs: emergency conditions necessitating repairs to protect health and safety, or renovations necessary to make a home more accessible and safe to a person who is disabled. Proposed accomplishments: Assist 10 households with emergency home/disabled access assistance.

**Project 0004: Building Code Enforcement**

**Building Code Enforcement:** **\$52,000** **CDBG/RLF**  
Funds are provided to cover the portion of the salary for a City Building Inspector to perform the necessary inspections, clearance and documentation work for the City’s Target Area Housing Rehabilitation and Maintenance Program. Proposed accomplishments: Continued resolution of outstanding Notice and Orders, as well as 36 anticipated new inspections.

**Project 0005: Lead-Based Paint Services**

**Lead-Based Paint Services:** **\$8,500** **CDBG**  
As part of the Housing Rehabilitation Program, funds will cover the costs necessary for testing, paint stabilization and clearance of lead-based paint hazards. *Proposed accomplishments: 4 households will be assisted.*

**Project 0006: Housing Demolition**

**Housing Demolition:** **\$2,000** **CDBG**  
Funding for the costs of demolishing a structure when deemed necessary through the Housing Maintenance Program. *Proposed accomplishments: One unit to be demolished.*

**Project 0007: Temporary Relocation**

**Temporary Relocation:** **\$5,000** **CDBG**  
Funds will provide for any necessary costs of temporarily relocating an individual or household who must in the interim vacate their dwelling while undergoing rehabilitation through one of the Housing Maintenance Program Target Area projects. *Proposed accomplishments: 4 individuals or households will be assisted.*

**Project 0008: Housing Rehabilitation Support**

**Rehabilitation Services:** **\$664,404** **CDBG**  
Funding for staffing, services and supplies necessary to provide technical support and oversight of the City's Housing Maintenance Programs listed above, including inspections and guidance provided by Housing Rehabilitation Specialists, loan administration provided by the Housing Financial Specialist.

**Project 0009: Affordable Housing Direct Loans**

**Affordable Housing Direct Loans:** **\$1,035,791** **HOME/PI**  
These funds will be used to either construct new housing or rehabilitate existing housing, per HOME guidelines. Funds may be provided as loans or as grants to eligible developers, either private or public. *Proposed accomplishments: It is anticipated that the majority of the funds will be allocated via a Request for Proposal process for the development of affordable housing.*

**Project 0010 CHDO Set-Aside**

**CHDO Set-Aside:** **\$206,373** **HOME**  
15% of the HOME grant will be set aside for eligible Community Housing Development Organization(s) to cover the project costs of affordable housing projects. *Proposed accomplishments: No specific recipients have been identified at this time.*

**Project 0011: CHDO Operating**

**CHDO Operating:** **\$68,791** **HOME**  
5% of the HOME grant will be set aside for eligible Community Housing Development Organization(s) to assist with the operational costs of the organization implementing an

affordable housing project. Proposed accomplishments: No specific recipients have been identified at this time.

**Project 0012: Tenant Based Rental Assistance**

**Tenant Based Rental Assistance:** **\$27,281** **HOME**  
Funds will be provided to assist with the move-in deposit for low-income households who are currently rent burdened (paying more than 50% of their gross income towards rent), or who have become homeless in the last 6 months due to being rent burdened or have been evicted from their home due to code enforcement issues. Proposed accomplishments: The program will assist 22 rent burdened households by providing deposit assistance on a new rental unit.

**Total Housing Development, Preservation & Home Ownership:** **\$3,201,228**

**INFRASTRUCTURE & PUBLIC IMPROVEMENTS**

The following are recommended capital improvements of public or community-based facilities and public rights-of-way. These activities, when appropriate, will be coordinated with other City Departments to maximize leveraging of resources:

**Project 0013: Accessibility Improvements, Streets**

**ADA Improvements - Curb Ramps:** **\$101,912** **CDBG**  
Funds will be used in priority intersections to grind down existing curbs and install ADA-compliant curb ramps, so that the sidewalk and street crosswalk will be accessible to disabled citizens in wheelchairs. Proposed accomplishments: 35 curb ramps will be installed.

**Project 0014: Infrastructure Improvements, Streets**

**Street Paving in Low-Income Areas:** **\$130,000** **CDBG**  
Will provide funding for the paving of streets in low-income areas where such amenities are non-existent or in a state of neglect, requiring re-paving of an area. Proposed accomplishments: 6 street sections in low-income areas will receive infrastructure upgrades.

**Project 0015: Neighborhood Improvements**

**Neighborhood-Based Projects:** **\$30,000** **CDBG**  
Funding is used to provide small grants, up to \$10,000 each, to neighborhood-based groups to carry out small infrastructure or beautification projects on either public right-of-way, or for projects benefiting a community-based nonprofit organization, or on private property, if the beneficiaries are low-moderate income. Proposed accomplishments: 3 groups will receive funding to do neighborhood improvements.

**Project 0016: Property Acquisition**

**Property Acquisition** **\$849,927** **CDBG/RLF**  
Funds are used to support the City's Property Agent to pursue the purchase of land or right-of-way for CDBG-funded projects.

**Total Infrastructure & Public Improvements:** **\$1,313,337**

## NEIGHBORHOOD PRESERVATION & STABILIZATION

The following activities are proposed to increase the livability of neighborhoods by assisting citizens in taking back control of their neighborhoods, cleaning up slum and blight conditions, and improving the capacity of neighborhood-based groups to become effective agents of change:

### Project 0019: Alley Closures

**Alley Closures:** **\$15,723** **CDBG**

Funds will be provided to install swing gates with locks in alleys in low-income neighborhoods, where residents have expressed a desire for such closures to prevent nuisance behaviors, such as illegal dumping, as well as criminal behaviors, such as drug-dealing and prostitution. Proposed accomplishments: 2 qualifying alleys may be closed.

### Project 0020: Neighborhood Clean-Up Projects

**Neighborhood Clean-Up Projects:** **\$18,000** **CDBG**

This program is designed to assist the City's low-income residents remove blighted materials and/or debris from their neighborhoods. The program pays for the placement of a dumpster in a low-income census tract to clean up the neighborhood. The dumpsters are granted after the City of Modesto staff finishes a review of the application and deems that the clean up will remove an imminent health or safety risk from a qualifying neighborhood. Dumpsters are usually placed at the request of a City Code Enforcement Officer working with residents to resolve an illegal dumping issue or at the request of neighborhood coalitions working to clean up their neighborhood during an event. Proposed accomplishments: 12 dumpsters will be placed and dumped for neighborhood clean-up efforts.

### Project 0021: Code Enforcement

**Code Enforcement:** **\$238,971** **CDBG**

This provides funds for City code enforcement officers working in low-income census tracts, as well as support staff processing complaints, addressing violations of the municipal code that contribute to slum and blight conditions. Proposed accomplishments: 3,000 cases will be enforced in low-income census tracts.

### Project 0022: Community Based Development Organizations

**Community Based Development Organizations (CBDO):** **\$25,772** **CDBG**

Funding for eligible CBDO to carry out allowable activities in a specific geographic area in one or more of the following areas: Neighborhood Revitalization, Economic Development or Energy Conservation. This will also include staffing time for neighborhood interns who work directly with CBDO as part of the City's Neighborhood Capacity Building efforts. Proposed accomplishments: 1 CBDO will receive funding for an eligible project, and interns will assist with capacity building efforts.

**Total Neighborhood Preservation & Stabilization:** **\$ 298,416**

## ECONOMIC DEVELOPMENT

The following are recommended to improve the earnings capabilities of low-moderate income persons:

### Project 23: Workforce Development Strategy

**Workforce Development Program Support:** **\$24,573** **CDBG**  
Funding for 0.3 FTE of an Administrative Services Officer Analysts to provide City input and oversight into the programs operated by the Workforce Development Collaborative. The City is interested in looking at a new workforce development program, as the first program, which included work preparation for the construction trades is successfully running on the Modesto Junior College Campus. The City is interested in working with Kaiser Medical Corporation, who is getting prepared to open up a new campus facility and two building hospital in the next several years. This person will work on coordinating the basic of a nurse's assistant program as well as working with Kaiser to definite their job needs and match their need with the employment needs specified by the community. These funds are paid for from the Administrative Cap.

**Total Economic Development:** **\$24,573**

## PUBLIC SERVICES

The following are recommended funding allocations to support human assistance programs to provide for acute, crisis needs of individuals and families, as well as addressing long-term developmental needs:

### Project 0024: General Public Services

**Community Housing & Shelter Services (CHSS)** **\$73,000** **CDBG/RLF**  
**"Homeless Prevention Case Management"**  
Prevention Case Management for families and/or individuals who are homeless or at risk of homelessness due to eviction. Funding specifically for rental or shelter vouchers. *Proposed accomplishments: Provide 1,460 nights of shelter to 40 families, rental assistance for up to 20 households. Also \$600 in funding is included for bus passes. It is anticipated that 300 persons will be utilizing these bus passes.*

**Stanislaus Literacy Center "Adult Literacy"** **\$31,785** **CDBG**  
This program will provide literacy services and opportunities through a computer lab in West Modesto. *Proposed accomplishments: 40 adults served through the computer lab and 20 adults through Job-Club Center reading classes.*

**United Way "UW Information and Referral Program"** **\$13,044** **CDBG**  
These funds will help the United Way expand their information and referral program by funding a portion of one staff person to provide information and referral services. *Proposed accomplishments: This staff person will serve 400 calls from City of Modesto residents.*

**DRAIL "Assistive Technology Services"** **\$18,000** **CDBG**  
DRAIL provides information, referral and equipment services for the disabled residents of Modesto. Funding is to provide durable medical equipment, adaptive aids or assistive devices

that will lead to an increased independent life-style. *Proposed accomplishments: Currently DRAIL has 12 people on the waiting list for the described type of devices.*

**Project 0025: Food Programs for Low-Moderate Income**

**Second Harvest Food Bank “Food Assistance Program”**      **\$35,000**      **CDBG**  
 Expand the food bank program by purchasing and distribution of supplemental groceries.  
*Proposed accomplishments: Distribute more than 800,000 pound of groceries*

**Stanislaus Community Assistance Project**      **\$41,485**      **CDBG**  
**Nutritional Supplement & Education Program (NSEP)**  
 This program will deliver nutritional food items to person or people with HIV/Aids. Also, the funding will pay the salaries of the person delivering the food. *Proposed accomplishments: This programs aims to assist 5 clients per day every weekday of the year. Total duplicated count will be approximately 260.*

**The Salvation Army “Hotel Food”**      **\$10,000**      **CDBG**  
 The program will deliver food products to homeless residents or referred clients that are temporarily living in hotels or are unable to attend the noon-meal program served at Salvation Army. *Proposed accomplishments: It is anticipated that this program will serve 700 cases.*

**The Salvation Army**      **\$10,000**      **CDBG/RLF**  
**“Homeless Noon Meals Program”**  
 This program will provide food for the hot lunch program provided at the Salvation Army for homeless individuals and families on a daily basis, Monday-Friday. *Proposed accomplishments: It is anticipated that this program will provide in total 50,000 meals and the City of Modesto funding will provide approximately 6,000 meals.*

**Project 0026: Shelter Services**

**Interfaith Ministries “Santa Fe Emergency Shelter Project – Rent & Food”**      **\$42,800**      **CDBG/RLF**  
 The Santa Fe Emergency Shelter is a homeless seasonal shelter designed to serve homeless families. The funding will cover the entire rental amount for 20 units and portion of the food for the clients. *Proposed accomplishments: At least 20 families will be sheltered and provided with food for the winter season, approximately 90 days. Over 1800 shelter nights provided.*

**Interfaith Ministries “Redwood Family Center”**      **\$2,243**      **ESG**  
 This is a homeless transitional shelter, which provide housing to women and children that are recovering from drug and alcohol addictions. The funding is to replace the existing gas water heater including: the earthquake straps, labor and new water heater. *Proposed accomplishments: This facility currently houses 73 families of women and children*

**Interfaith Ministries**      **\$27,000**      **ESG**  
**“Santa Fe Emergency Shelter Project”**  
 The Santa Fe Emergency Shelter is a homeless seasonal shelter designed to serve homeless families. The funding will provide 2 security employees for the shelter season. *Proposed accomplishments: At least 20 families will be sheltered and provided with food for the winter season, approximately 90 days. Over 1800 shelter nights provided.*

**Project 0027: Youth Services**

**Children Crisis Center** **\$10,063 CDBG/RLF**  
**“Sawyer House Children Homeless Shelter”**  
This program provides respite childcare services to low-income at risk children and families who are homeless. Funding is for salaries (1,151 hours of children care staff) to increase the service level. *Proposed accomplishments: 95 low-income children will be served with this funding*

**Children’s Crisis Center of Stanislaus County** **\$18,720 CDBG**  
**“Cricket’s House Respite Childcare”**  
Cricket’s House provides childcare, respite care as well as shelter for youth who are homeless or at risk of homelessness. The client’s ages vary from birth to 17 years of age. Funding is for salaries for 2080 hours of respite childcare staff time at \$9.00 per hour. This will provide direct care and supervision to at-risk children. *Proposed accomplishments: Each unit will provide 2080 hours of shelter care at \$9.00 per hour*

**Children’s Crisis Center of Stanislaus County** **\$13,000 CDBG**  
**“Sawyer House Nursery Expansion Project”**  
This funding is to provide a capital project to help expand a nursery expansion. These funds will add a new room that will be used for a “diaper changing area” which will include: running water, infant sink and diaper changing station. Currently the diaper changing area is located in the actual sleeping quarters. *Proposed accomplishments: Will provide services to 29 unduplicated homeless children, who will be more rested and cleaner due to this project.*

**Center for Human Services** **\$16,860 CDBG/RLF**  
**“Pathways Transitional Living Program”**  
The funding will provide a substance abuse counselor for this program. The Pathways Transitional Living Program which provides temporary shelter in an independent living setting for up to 16 youth, ages 18-21 who are leaving foster care, and who are or will be homeless without assistance. The counselor will provide drug and alcohol counseling as well as prevention and intervention programs. *Proposed accomplishments: 16 youth will receive the above array of services for 48 weeks*

**Center for Human Services**  
**“Hutton House Runaway & Homeless Youth Shelter”** **\$ 1,700 ESG**  
Hutton House is a shelter for runaway and homeless youth (ages 13-17) that provides temporary shelter as well as social services to stabilize the lives of youth who are or will be living on the street without assistance. ESG funds will be used to cover costs of replace old cabinets and install new cabinets in the existing structure. *Proposed accomplishments: Necessary shelter renovations will be made and 225 youth from Modesto will receive services.*

**Center for Human Services** **\$16,848 ESG**  
**“Pathways Transitional Living Program”**  
The Pathways Transitional Living Program provides temporary shelter in an independent living setting for up to 16 youth, ages 18-21 who are leaving foster care, and who are or will be homeless without assistance. The funds will provide food for the clients who will visit the shelter. *Proposed accomplishments: 14 youth will receive the above array of services plus food funded by the ESG grant*

**Parent Resource Center** **\$21,747** **CDBG**  
**“The “ABC” of Childcare Expansion & Enhancement”**  
 Funding for the expansion of the childcare facility. The funding will cover salaries of an interaction facilitator and childcare worker for the expanded childcare facility as well as a portion of direct service costs including supplies. *Proposed accomplishments: The CDBG funds will serve 30 unduplicated children and 20 unduplicated parents in the enhancement services*

**Project 0028: Crime Awareness**  
**Modesto Police Department** **\$150,000** **CDBG/RLF**  
**“Crime Free Multi-Housing Project”**  
 This program provides training to tenants and landlords on crime prevention in rental complexes. Developments that complete the training and comply with safety design standards are certified. Funds will be used to fund only duplexes and triplex units. *Proposed accomplishments: The program will be increased to include landlords and property owners who manage/own duplexes and triplexes. At least 5 training sessions will be provided, and 15 structures will be certified.*

**Project 0029: Abused Children’s Services**  
**Children’s Crisis Center of Stanislaus County** **\$14,040** **ESG**  
**“Cricket’s House Respite Childcare”**  
 The purpose of this center is to provide shelter for abused, neglected and at risk children and support services for their families. The funding is to be used for childcare staffing. *Proposed accomplishments: Provide 1,560 of respite childcare staff time and serve 1,140 youth.*

**Project 0030: Fair Housing Services**  
**Project Sentinel “Fair Housing”** **\$22,000** **CDBG**  
 Project Sentinel provides HUD-mandated Fair Housing Services to the citizens of Modesto, including outreach and education, investigation of complaints, conciliation of cases, and litigation, where necessary. CDBG funds pay for verified fair housing complaints and cases handled by the agency. *Proposed accomplishments: 11 educational presentations to other agencies on fair housing law, and one tenant/landlord workshop. Provide information and refer services to a minimum of 1,300 callers. 800 phone calls for assistance, provide 40 fair housing investigations and provide tenant/landlord services to 35 verified house complaints.*

**Project Sentinel “Tenant-Landlord Services”** **\$24,569** **CDBG**  
 The services provided by Project Sentinel for this funding are education and intervention in situations such as: assistance for deposits, evictions, rental agreement terms, outreach and education as well as specific mediation assistance. *Proposed accomplishments: 250-dispute resolution complaints tenant/landlord, distribution of 2,000 pieces of education material. Also conduct 7 presentations to other agencies and one fair housing tenant/landlord workshop. Handle over 700 information and referral phone calls.*

**Project 0031: ESG Unobligated**  
**ESG Unobligated Public Service Funds:** **\$43,884** **ESG**  
 Funding not yet committed for a winter shelter activity, but will be committed prior to the beginning of the fiscal year on July 1, 2005.

**Total Public Services:** **\$673,258**

## PROGRAM ADMINISTRATION & PLANNING

The following costs are related to program administration, program planning, community participation, and Fair Housing services. For CDBG, HUD limits the funding for this category to twenty percent of the total of the entitlement grant and program income. For the HOME program, the limit is 10%. ESG program administration is paid for out of the CDBG grant, as allowed by HUD:

### Project 0032: Administration

**General Administration** **\$492,134 CDBG**

Costs for staff directly responsible for day-to-day administration of the grant, including the salaries, supplies and services necessary to prepare the annual application and performance reports, monitoring of activities, and data gathering and reporting, in compliance with federal regulations.

### Project 0033: Indirect Administration

**Indirect Administration** **\$83,648 CDBG**

General administrative support provided by staff throughout the City for the administration of the program, as well as the program's share of internal service charges and indirect costs.

### Project 0034: Fair Housing Services

**Fair Housing Services** **\$35,000 CDBG**

Funding provided to Project Sentinel, Inc., for the provision of HUD-mandated fair housing services, including public information and outreach, referrals, investigations, conciliation and litigation services for alleged violations of fair housing laws.

### Project 0035: Planning and Capacity Building

**Planning & Capacity Building:** **\$11,445 CDBG**

Includes necessary staff time to complete other federal or state grant applications, and Neighborhood Services Interns' time to work on special capacity-building studies and activities.

### Project 0036: HOME Program Administration

**HOME Program Administration:** **\$137,582 HOME**

Funds will cover the costs of salaries, supplies and services necessary to administer the HOME Program per federal regulations. This funding reflects 10% of the annual grant, as allowed by HUD regulations.

**Total Program Planning & Administration** **\$784,382**

## LOAN REPAYMENTS

The following is the projected debt service payment for the coming year for the HUD Section 108 Loan Program:

### Project 0037: Section 108 Loan Repayments

**Neighborhood Center at Marshall Park/  
Maddux Youth Center Section 108 Loan Guarantee:** **\$361,000 CDBG**

The first year's payment for the Section 108 loan funds used to construct the Neighborhood Center at Marshall Park and expand/rehabilitate the Maddux Youth Center at Cesar Chavez Park.

**Project 0038: RLF Interest Payment**

**RLF Interest Payment** **\$ 50,000 RLF**

**Total Loan Repayments:** **\$411,000**

## **VII GEOGRAPHIC DISTRIBUTION OF PROJECTS**

The maps in Appendix B show the geographic areas of the City of Modesto, specifically the census tracts that will be the focus of assistance during the program year. The first map shows the low-income census tracts, per the 2000 Census, where median household incomes are below 80% of the area's median income. The second map shows the areas of minority concentration for those who identified themselves in the 2000 Census as Hispanic, Black-African/American, Asian, and American Indian/Alaskan Native. In the funding of all projects, and in providing assistance to specific beneficiaries, the City will ensure:

- that it has documented the low- and moderate-income status of individuals/households; or
- that the area where a project benefit will be realized has a population where at least 51% of the residents are low-and moderate-income; or
- that a slum and blight project meets the criteria for such projects.

## **IX LEAD-BASED PAINT HAZARDS**

Effective September 15, 2000, Lead-based paint regulations have been implemented and are currently being complied with. Due to Senate Bill SB 460, February 2003, and Final Lead Regulations EPA, July 2003, staff found that in order to become more knowledgeable with lead-based paint regulations, the City's rehab housing specialists completed and passed the U.S. Department of Housing and Urban Development Lead Hazard Control's Visual Assessment course, pursuant to 24CFR, Part 35, and received completion certificates.

Recreation and Neighborhood Services Division rehabilitation staff developed a workbook to guide them through the process when lead-based paint is found or presumed to be present during construction. The workbook contains Federal requirements for paint and rehabilitation programs, a flowchart of assistance thresholds, and the documentation that is required and when it is required, and cost worksheets on level of rehabilitation assistance. This workbook includes Lead Safe Housing Rule Checklist and Associated Guidance, which comply with Information Bulletin CPD-2003-017, August 2003.

In August 2002, two housing rehabilitation specialists attended a HUD-sponsored update session entitled "Making it Work." In December 2002, one rehabilitation specialist attended a course on Lead-based Paint Abatement Supervision and Monitoring. In September of 2002 one of our rehabilitation specialist became a DHS Certified Inspector/Assessor and followed up to become a DHS Certified Supervisor in 2003. The City will continue to send staff to training to better prepare them for dealing with lead-based paint in conjunction with construction regulations. Staff is scheduled to attend a Western Regional Conference on "Mold & Lead," in 2004.

As an additional effort in spreading the word about the effects of lead-based paint, the City had 2,000 copies of the "Spanish" version and 1,000 copies of the "English" version of the Environmental Protection Agency's pamphlet entitled "Protect Your Family From Lead in Your City of Modesto" 2004-2005 HUD Annual Action Plan

Home" reproduced for distribution at neighborhood meetings in low-income neighborhoods. Copies of the pamphlets are also available at the information counter at the Parks, Recreation and Neighborhoods Department.

## **X OTHER ACTIONS**

In addition to the provision of housing services, community development/infrastructure, and public service, the City plans to continue working in the following areas:

**Removal of Barriers to Affordable Housing:** The City will continue to foster the construction of affordable housing projects by:

- providing funding for land acquisition, secondary financing and infrastructure costs;
- down payment assistance to qualified households to purchase a home;
- by encouraging the provision of Mortgage Credit Certificates;
- through the exemption or deferral of Capital Facilities Fees for projects providing low-income housing;
- by using the adopted streamlining process for environmental review;
- by continuing to work with nonprofit housing agencies in the provision of their services and programs.

**Analysis of Impediments to Fair Housing:** The Department of Housing & Urban Development (HUD) is committed to eliminating racial and ethnic segregation, illegal physical and other barriers to persons with disabilities and other discriminatory practices in housing, through the implementation of fair housing actions. Provisions to affirmatively further fair housing are principal and long-standing components of HUD's housing and community development programs. These provisions come from the mandate of Section 808(e)(5) of the Fair Housing Act which requires the Secretary of HUD to administer the Department's housing and urban development programs in a manner to affirmatively further fair housing.

HUD's housing and community development program regulations, handbooks and notices interpret the statutory requirement in specific standards that entitlement jurisdictions, such as the City of Modesto, must meet or actions they must take. The Community Development Block Grant (CDBG) program contains a regulatory requirement to affirmatively further fair housing based upon HUD's obligation under Section 808 of the Fair Housing Act. The HOME program regulation states the statutory requirement from the Comprehensive Housing Affordability Strategy (CHAS) that the jurisdiction must affirmatively further fair housing.

In order to meet these statutory requirements, HUD requires grantees to:

- Conduct an analysis to identify impediments to fair housing choice within the jurisdiction; this should be done at least every 5 years;
- Take appropriate actions to overcome the effects of any impediments identified through the analysis;
- Maintain records reflecting the analysis and actions taken in this regard.

HUD interprets these broad objectives to mean:

- Analyze and eliminate housing discrimination in the jurisdiction;
- Promote fair housing choice for all persons;
- Provide opportunities for inclusive patterns of housing occupancy regardless of race, color, religion, sex, familial status, disability and national origin;

- Promote housing that is structurally accessible to, and usable by, all persons, particularly persons with disabilities;
- Foster compliance with the nondiscrimination provisions of the Fair Housing Act.

Although the obligation to affirmatively further fair housing arises in connection with the receipt of Federal funds, this obligation is not restricted to the design and operation of HUD-funded programs. This obligation extends to all housing and housing-related activities in the jurisdiction (the City of Modesto), whether publicly or privately funded.

Currently, the City of Modesto contracts with Project Sentinel, Inc., a fair housing non-profit agency, to assist with compliance of the nondiscrimination provisions of the Fair Housing Act, a portion of the federal requirements. This agency provides fair housing education to both the public and the housing industry, information and referral on fair housing questions, fair housing investigations, conciliating landlord/tenant disputes of a fair housing nature, and litigation of fair housing cases. These services are paid for with CDBG funds.

As stated above, HUD mandates that jurisdictions regularly conduct an Analysis of Impediments to Fair Housing (commonly referred to as the AI). The AI is a review of impediments to fair housing choice in the public and private sector. Impediments to fair housing choice are any actions, omissions, or decisions taken on the basis of race, color, religion, sex, disability, familial status, or national origin that restricts housing choices or the availability of housing choices. Policies, practices or procedures that appear neutral on their face, but which operate to deny or adversely affect the provision of housing to persons of any of the protected groups mentioned above, may constitute such impediments.

The most recent "Analysis of Impediments to Fair Housing", completed for the City of Modesto, was done in May 1996. This takes the City beyond the recommended 5-year cycle. In addition, there have been tremendous changes in the housing market since that time. Staff is recommending that a Request for Proposals (RFP) be issued for a qualified provider to carry out the Analysis of Impediments to Fair Housing, and that this study be completed in the early portion of 2004-2005. At a minimum, this assessment will include:

- A comprehensive review of the jurisdiction's laws, regulations, codes, ordinances and administrative policies, procedures and practices;
- A comprehensive review of private sector practices in such areas as design, occupancy quotas, deed restrictions, lease provisions, banking and insurance policies, brokerage services, etc.;
- An assessment of how those laws and practices, etc. affect the location, availability, and accessibility of housing;
- An assessment of conditions, both public and private, affecting fair housing choice for all protected classes;
- An assessment of the availability of affordable, accessible housing in a range of unit sizes.

**Public Housing Resident Initiatives:** The Housing Authority of Stanislaus County will continue to encourage public housing residents to become more involved in management by supporting the formation of resident councils and encouraging resident involvement and input into management issues.

**Anti-Poverty Strategy:** Providing opportunities for low-income families to improve their economic status is a focus of effort for the City, and is reflected in our strategic plan. The City will work in this area in the following ways:

- Continue to work cooperatively with the local Workforce Investment Board, the Workforce Alliance, community college and other partners to implement innovative training programs in our community which address the needs of both those families receiving public assistance and the working poor. The Workforce Alliance is a newly reformed coalition that brings together economic development efforts with workforce training efforts.
- Continue to provide staff support to the City's Workforce Development Program operated by the Community and Economic Development Department.
- Enhance relationships with other public agencies that work with low-income families through nonprofit workgroups, to address the potential of joint applications for grants that address the needs of low-income families.
- Continue with efforts to increase the supply of affordable housing in our community. While the production and preservation of affordable housing on its own will not raise people's income or lift them from poverty, it does contribute to stabilizing living expenses for low-income families, so that they have more discretionary income for other living expenses.

## **XI MONITORING PLAN**

The City of Modesto monitors its performance in meeting the goals and objectives set forth in our Consolidated Plan in the following ways:

- By ensuring that the community is made aware of the contents of the Consolidated Plan through community meetings, and asking the community for its input on the City's progress in meeting those goals and objectives through a variety of public forums;
- In proposing activities for funding, staff reviews those proposals for consistency with the Consolidated Plan. In staff reports to the City Council, we discuss how these activities support and further these goals;
- In preparing the CAPER at the end of each year, we evaluate and discuss in detail our performance for the last year as it relates to the Consolidated Plan, building upon areas of strength, and looking for innovative ways to improve in those areas where we have not yet attained our goals.

In addition, within the Parks, Recreation and Neighborhoods Department (Recreation and Neighborhood Services Division) a coordinated procedure has been established to verify and confirm the fact that grant funds have been used in an eligible and appropriate fashion. The Division receives monthly budget printouts from the Finance Department, which identify the total funds used by all programs during a given month. Staff verifies and cross-references the information on the monthly budget activity reports with supporting documentation maintained at the office. In addition, staff assigns a unique number to each activity that provides easy identification on both the City's financial reporting system and IDIS. Implementation of this "cross-reference" system also helps staff to monitor progress on its draw downs in order to

ensure compliance with the timeliness requirement. This procedure also offers a form of "checks and balances" in order to verify expenditures and to determine the availability of funds. This procedure has proven to be effective for staff in the management of a variety of programs.

Additional monitoring procedures have been established to provide further controls on the use of funds in specific projects. A summary of the method and procedures are identified below:

**Housing Rehabilitation Loan Program:**

When a project is funded under the Housing Rehabilitation Loan Program, both the Housing Financial Specialist and the Housing Rehabilitation Specialist monitor the use of those funds. Funds are disbursed according to a detailed Real Property Improvement Agreement that is executed by the property owner and the contractor. When a phase of the work is completed, the Housing Rehabilitation Specialist confirms the completeness of the phase of rehabilitation in accordance with the appropriate housing codes and the work write-up specifications. The Housing Rehabilitation Specialist reviews the work with the property owner and the owner signs a payment request voucher that authorizes the disbursement of funds according to the contract. This procedure is followed throughout the entire project to completion and all funds have been disbursed. The Housing Financial Specialist reviews the payment voucher, after which time it is approved by the Deputy Director of the Parks, Recreation and Neighborhoods Department. Funds are disbursed to the contractor by Citibank under the City's Lump Sum Draw down agreement. The City's Finance Department monitors the disbursement of funds and balance of the project account.

**Public Services Program/Emergency Shelter Grant and Community Development Block Grant**

As contracts are written for the various organizations (sub recipients) receiving CDBG or ESG funds, strict controls are placed on the use of the funds. Whenever possible, payments are made for units of service delivered to beneficiaries. Performance measures (i.e., number of individuals served, type of activity, accomplishments, etc.) are established as part of the agreement. This enables City staff to monitor the effectiveness of the funded project. The agreement for services also includes general performance standards, including the provision of monthly activity reports to the City, and written requests for disbursement of funds.

In addition to implementing agreement for services for local non-profit organizations, the Parks, Recreation and Neighborhoods Department also has written "Memorandum of Understandings" (MOUs) with other departments within the City organization. These MOU's describe, in general, the services that are to be delivered to the community, quantify the services in measurable objectives and terms and lists the funds dedicated to these activities. The staff then follows up on the conditions of the MOU's and monitor the progress of departmental internal to the City, as well as those non-profit agencies. All internal departments also submit written requests for disbursement of funds.

City staff conducts an on-site monitoring session once a year to confirm the supporting documentation for use of funds and to confirm that the services were rendered as reported. Staff also addresses key issues that may arise from general programmatic concerns, audit findings, or public concern. A written report on each sub recipient is provided to the Citizens Housing and Community Development Committee which oversees the funding process.

**HOME Program: On-Site Inspection of Housing Units for Determining Affordability Compliance**

HOME-assisted rental units are inspected for rent, income, housing quality, and other affordability criteria in accordance with section 92.252. Complexes containing 1 to 4 HOME-assisted units are monitored not less than three years; complexes containing 5 to 25 units are monitored every two years and projects containing 26 units or more are monitored every year.

**XII HOME-SPECIFIC REQUIREMENTS**

- **Recapture/Resale for Home Ownership Activities:** The City of Modesto has elected the recapture option during the affordability period. As such, the full amount of the HOME down payment assistance loan made to the homebuyer is recaptured and returned to the HOME program account. Payments on HOME loans are deferred for 5 years, at which time amortized payments begin. Full repayment (principal plus accrued interest) is due at the time the owner sells, transfers title, refinances or discontinues using the home as their principal residence.
- **Tenant Based Rental Assistance:** Due to the low vacancy rate in the rental market in Modesto (around 2%) and lack of affordable rents in the area, the City has chosen to continue providing Tenant Based Rental Assistance through HOME funds for persons who are low-income and who are rent-burdened.
- **Affirmative Marketing:** The City of Modesto implemented an Affirmative Marketing Policy for use in its HOME program in order to comply with HUD Fair Housing objectives. Both the borrow/developer and the City share the responsibility to inform the public about Federal Fair Housing Laws. The City through its monitoring of the HOME units evaluates the effectiveness of the marketing efforts. The beneficiaries are held to the terms of the policy by reference in the HOME Loan Agreement and Trust Deed executed to secure the HOME loan.
- **Minority-Women's Business Outreach:** The City of Modesto has a Small, Minority Business Enterprise/Women's Business Enterprise (MBE/WBE) policy and procedures guideline that was accepted by HUD in May 1994. The City's Recreation and Neighborhood Services Division conducts outreach efforts throughout the year to inform licensed minority and women contractors and prospective MBE/WBE contractors about the advantages of making bids on rehabilitation projects, as well as new construction. Also, applications are sent to nonprofit agencies, construction firms, developers, and real estate agents for the release of HOME funds for the rehabilitation of existing units and/or development of new units.

**XIII ESG-SPECIFIC REQUIREMENTS**

The City of Modesto beginning with the funding cycle for Fiscal -Year 2004-2005 changed the funding process for ESG and CDBG Public Services funding. A pre qualification process was implemented. The agencies interested in applying for these funds were required to submit a list of documents such as a business license, proof of insurance coverage, Articles of Incorporation as a non-profit corporation Copy of By-Laws, letter from either the Internal Revenue Service or

the California Franchise Tax Board determining tax –exempt status, copy of their organization chart, list of Board of Directors and/or officers, copy of their most recent audit performed by a CPA and a completed conflict of interest statement. This process started on October 1, 2003 and ended on January 16, 2004. Once the agencies submitted a complete pre qualification package they were notified that they have been pre-qualified to apply for this year’s funding cycle. The Request For Proposals (RFP) was released in February, advertising the availability of Emergency Shelter Grant funds for the coming year. Eligible nonprofit agencies were invited to attend a technical assistance conference, where staff covered the eligible uses of ESG funds, using the HUD-published “ESG Program Desk Guide”, and describe the application process. Once the RFP cycle was closed and proposals had been received, a review committee made up of staff, the President of the Stanislaus Housing and Support Services Collaborative and members of the Citizen’s Housing & Community Development Committee read each proposal and provided funding recommendations based upon the following criteria:

- Soundness of the agency: Is the agency a nonprofit in good standing in the State of California, have there been any major changes in staffing in the last year, is the agency’s most recent audit sound?
- Eligible activity: Is the agency proposing to provide an eligible activity under ESG? Is there request in line with funding restrictions in ESG, such as no more than 30% of funding for essential services? Can the agency provide the required 100% match?
- Alignment with community need: Is the proposed service one that is needed and is not being provided through other funding sources, or will this funding augment an existing service to ensure that as many homeless individuals as possible will receive services? Does it fit into the Continuum of Care Plan?
- Quality of Service: Does the agency have adequate staffing and resources to carry out the project, do they have the ability to collect and report data as required, have they operated similar programs in the past?

Funding recommendations of the Review Committee are provided to the Citizen’s Housing and Community Development Committee, as well as the City Council. Once approved, these projects are included in the list of projects for the Annual Action Plan.

For 2004-2005, the ESG allocation will be matched by the following agencies with funding as follows:

**Center for Human Services:**

Contribution from Wells Fargo	\$6,743
Federal Emergency Management Grant	\$8,000
United Way-Youth Advisory Board	\$3,898
Grant from Federal Youth Services Bureau	\$199,880
United Way	\$29,350
United Way Diversity	\$2,917
Parents & Teens FPSP	\$24,714
State of California Grant	\$117,040
Federal Housing and Urban Development Grant	\$71,608
Stanislaus County	\$98,496
Donations & Fees	<u>\$54,665</u>
	<b>\$617,311</b>

**Children's Crisis Center:**

Proposition 10	\$86,294
PSSP	\$33,000
United Way	\$10,000
Childcare Food	\$16,000
CVOC	\$2,000
GCTR	\$217,000
Federal Block Grant	\$15,000
Children's Trust Fund	\$35,000
Various Foundation Grants	\$16,000
Charitable Contributions	<u>\$11,607</u>
	<b>\$441,901</b>

**Interfaith Ministries:**

Contributions/Cash Reserves	\$132,400
-----------------------------	-----------

**XIII 5 YEAR CONSOLIDATED PLAN**

One of the other major undertakings that the Parks, Recreation and Neighborhoods Department will take on during the next program years is the creation of the 2005-2010 5 year consolidated plan. The 5-Year Consolidated Plan analyzes the City's housing and community development needs, with a priority focus on low- and moderate-income individuals, households, and neighborhoods, and describes a long-term strategy for meeting those needs. In addition to the development of a broad policy framework, the Consolidated Plan also addresses how the City will utilize funding from three different entitlement grants to meet those needs: The Community Development Block Grant (CDBG), the HOME Investment Partnership Grant (HOME), and the Emergency Shelter Grant (ESG). In general, these funds must be used to revitalize low-income neighborhoods, and to assist disadvantaged populations by providing adequate public facilities and services, generating affordable housing opportunities, and implementing effective strategies to reduce and end homelessness. Citizen participation is a key component of the consolidated planning process. The federal regulations implementing the three entitlement grants require that the City provide ample opportunity and means for the populations served by the grants, as well as the general citizenry, to provide input to the goals and priorities that should be reflected in the plan, as well as the specific types of activities that will be funded. The Consolidated Plan will cover the following subject matters:

- An outline of the approach and the degree of citizen participation sought in developing the plan and identifying community development needs;
- An overview of the national and local goals for housing and community development and the anti-poverty plan;
- A community profile, which describes the community, gives background and trend information, and provides insight into the characteristics of Modesto's population.
- A strategic plan for addressing non-housing community development needs and activities the City jurisdiction will attempt to undertake during the next year and subsequent years through 2010 to address the needs prioritized in the plan.
- A strategic plan to address the future economic development needs of the community
- Modesto's housing market and inventory characteristics. Other topics included in this section are barriers to affordability, public and assisted housing.
- Housing and homeless needs assessment as well as an update to address the needs of the homeless and how the Consolidated plan will integrate into HUD's 10 year plan to end chronic homelessness.
- Modesto's housing services and strategies. This section will also discuss strategies to reduce barriers to affordable housing, continuum of care, public housing resident initiatives, and the lead-based paint hazards reduction activities.
- The coordination and delivery of services. This would attempt to summarize the institutional structure, lists the entities the City consulted with, or will consult with, in regards to the Plan, and discusses the gaps in the institutional structure.
- Funding resources and allocation for the federal, state, local, and private resources expected to be available to address the housing and community development needs identified in the Consolidated Plan

### **XIII PUBLIC NOTICE**

#### ***PUBLIC NOTICE***

*The City of Modesto has prepared the draft FY 2004-2005 Annual Action Plan identifying uses of Community Development Block Grant (CDBG), HOME Investment Partnership Grant, and Emergency Shelter Grant (ESG) program funds. A total of \$4,451,621 of new entitlement funds will be allocated for community development projects and programs. This Annual Action Plan will also include estimated program income and reprogram funds from prior years.*

*There will be a 30-day public comment period beginning April 9 2004. The Citizens Housing and Community Development Committee will receive comments on the draft at their April 23, 2004 meeting. Comments received in writing or orally will be responded to accordingly. A public hearing will be held on May 11, 2004 at the Modesto City Council meeting, beginning at 5:30 p.m. The meeting will be held at the Modesto City Council Chambers, 1010 Tenth Street, Modesto. This public hearing will conclude the public comment period.*

*Copies of the draft FY 2004-2005 Annual Action Plan will be available at the Parks, Recreation and Neighborhoods Department, 1010 Tenth Street, Suite 4300, Modesto, on April 9, 2004. For additional information, call 209-577-5247, fax 209-544-3982 or TDD (hearing impaired only) 1-800-735-2929.*

## **XV PUBLIC COMMENTS**

No public comments because the AAP is not available yet. This item has to be completed after the 30-day public comment period.

### **Certifications**

**Applicant Assurances and Certifications** U.S. Department of Housing and Urban Development

OMB Approval No. 2501-0017  
(exp. 03/31/2005)

**Instructions for the HUD-424-B Assurances and Certifications**

As part of your application for HUD funding, you, as the official authorized to sign on behalf of your organization or an individual must provide the following assurances and certifications. By signing this form, you are stating that to the best of your knowledge and belief, all assertions are true and correct.

As the duly authorized representative of the applicant, I certify that the applicant [Insert below the Name and title of the Authorized Representative, name of Organization and the date of signature]:

Name: Jack R. Crist, Title: City Manager  
Organization: City of Modesto, Date: \_\_\_\_\_.

1. Has the legal authority to apply for Federal assistance, has the institutional, managerial and financial capability (including funds to pay the non-Federal share of program costs) to plan, manage and complete the program as described in the application and the governing body has duly authorized the submission of the application, including these assurances and certifications, and authorized me as the official representative of the applicant to act in connection with the application and to provide any additional information as may be required.
2. Will administer the grant in compliance with Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000(d)) and implementing regulations (24 CFR Part 1), which provide that no person in the United States shall, on the grounds of race, color or national origin, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any program or activity that receives Federal financial assistance OR if the applicant is a Federally recognized Indian tribe or its tribally designated housing entity, is subject to the Indian Civil Rights Act (25 U.S.C. 1301-1303).
3. Will administer the grant in compliance with Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794), as amended, and implementing regulations at 24 CFR Part 8, and the Age Discrimination Act of 1975 (42 U.S.C. 6101-07), as amended, and implementing regulations at 24 CFR Part 146 which together provide that no person in the United States shall, on the grounds of disability or age, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any program or activity that receives Federal financial assistance; except if the grant program authorizes or limits participation to designated populations, then the applicant will comply with the nondiscrimination requirements within the designated population.
4. Will comply with the Fair Housing Act (42 U.S.C. 3601-19), as amended, and the implementing regulations at 24 CFR Part 100, which prohibit discrimination in housing on the basis of race, color, religion, sex, disability, familial status, or national origin; except an applicant which is an Indian tribe or its instrumentality which is excluded by statute from coverage does not make this certification and further except if the grant program authorizes or limits participation to designated populations, then the applicant will comply with the nondiscrimination requirements within the designated population.

5. Will comply with the acquisition and relocation requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (42 U.S.C. 4601) and implementing regulations at 49 CFR Part 24 and 24 CFR 42, Subpart A.
6. Will comply with the environmental requirements of the National Environmental Policy Act (42 U.S.C. 4321 et seq.) and related Federal authorities prior to the commitment or expenditure of funds for property acquisition and physical development activities subject to implementing regulations at 24 CFR parts 50 or 58.
7. Will or will continue to provide a drug-free workplace by:
  - (a) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the applicant's workplace and specifying the actions that will be taken against employees for violation of such prohibition;
  - (b) Establishing an on-going drug-free awareness program to inform employees about --
    - (1) The dangers of drug abuse in the workplace;
    - (2) The applicant's policy of maintaining a drug-free workplace;
    - (3) Any available drug counseling, rehabilitation, and employee assistance programs; and
    - (4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;
  - (c) Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required in Paragraph (a);
  - (d) Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will --
    - (1) Abide by the terms of the statement; and
    - (2) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

**Applicant Assurances and  
Certifications (Continued)**

**U.S. Department of Housing  
and Urban Development**

OMB Approval No. 2501-0017  
(exp. 03/31/2005)

(e) Notifying the agency in writing, within ten calendar days after receiving notice under paragraph (d)(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee has worked, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

(f) Taking one of the following actions, within 30 calendar days of receiving notice under paragraph (d)(2), with respect to any employee who is so convicted--

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by Federal, State, or local health, law enforcement, or other appropriate agency;

(g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a),

(b), (c), (d), (e), and (f).

(h). The applicant may insert in the space provided below the site(s) for the performance of work or may provide this information in connection with each application.

(i). Place of Performance (street address, city, county, state, zip code)

8. In accordance with 24 CFR Part 24, and its principals:

(a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;

(b) Have not within a three year period preceding this proposal, been convicted of or had a civil judgement rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification, or destruction of records, making false statements, or receiving stolen property;

(c) Are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State, or local) with commission of any of the offenses enumerated in the preceding paragraph of this certification; and

(d) Where the applicant is unable to certify to any of the statements in this certification, an explanation shall be attached.

(e) Will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion - Lower Tier Covered Transaction," provided by the HUD without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

These certifications and assurances are material representations of the fact upon which HUD can rely when awarding a grant. If it is later determined that I, the applicant, knowingly made an erroneous certifications or assurance, I may be subject to criminal prosecution. HUD may also terminate the grant and take other available remedies.

**CERTIFICATIONS (91.225)**

**LOCAL GOVERNMENT CERTIFICATIONS**

In accordance with the applicable statutes and the regulations governing the consolidated plan regulations, the jurisdiction certifies that:

**Affirmatively Further Fair Housing** -- The jurisdiction will affirmatively further fair housing, which means it will conduct an analysis of impediments to fair housing choice within the jurisdiction, take appropriate actions to overcome the effects of any impediments identified through that analysis, and maintain records reflecting that analysis and actions in this regard.

**Anti-displacement and Relocation Plan** -- It will comply with the acquisition and relocation requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended, and implementing regulations at 49 CFR 24; and it has in effect and is following a residential antidisplacement and relocation assistance plan required under section 104(d) of the Housing and Community Development Act of 1974, as amended, in connection with any activity assisted with funding under the CDBG or HOME programs.

**Drug Free Workplace** -- It will or will continue to provide a drug-free workplace by:

1. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;
2. Establishing an ongoing drug-free awareness program to inform employees about -
  - (a) The dangers of drug abuse in the workplace;
  - (b) The grantee's policy of maintaining a drug-free workplace;
  - (c) Any available drug counseling, rehabilitation, and employee assistance programs; and
  - (d) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;
3. Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph 1;
4. Notifying the employee in the statement required by paragraph 1 that, as a condition of employment under the grant, the employee will -
  - (a) Abide by the terms of the statement; and
  - (b) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;
5. Notifying the agency in writing, within ten calendar days after receiving notice under subparagraph 4(b) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

6. Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph 4(b), with respect to any employee who is so convicted -
  - (a) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or
  - (b) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;
7. Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs 1, 2, 3, 4, 5 and 6.

**Anti-Lobbying --** To the best of the jurisdiction's knowledge and belief:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of it, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement;
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, it will complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions; and
3. It will require that the language of paragraph 1 and 2 of this anti-lobbying certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

**Authority of Jurisdiction --** The consolidated plan is authorized under State and local law (as applicable) and the jurisdiction possesses the legal authority to carry out the programs for which it is seeking funding, in accordance with applicable HUD regulations.

**Consistency with plan --** The housing activities to be undertaken with CDBG, HOME, ESG, and HOPWA funds are consistent with the strategic plan.

**Section 3 --** It will comply with section 3 of the Housing and Urban Development Act of 1968, and implementing regulations at 24 CFR Part 135.

## Specific CDBG Certifications

The Entitlement Community certifies that:

**Citizen Participation** -- It is in full compliance and following a detailed citizen participation plan that satisfies the requirements of 24 CFR 91.105.

**Community Development Plan** -- Its consolidated housing and community development plan identifies community development and housing needs and specifies both short-term and long-term community development objectives that provide decent housing, expand economic opportunities primarily for persons of low and moderate income. (See CFR 24 570.2 and CFR 24 part 570)

**Following a Plan** -- It is following a current consolidated plan (or Comprehensive Housing Affordability Strategy) that has been approved by HUD.

**Use of Funds** -- It has complied with the following criteria:

1. **Maximum Feasible Priority.** With respect to activities expected to be assisted with CDBG funds, it certifies that it has developed its Action Plan so as to give maximum feasible priority to activities which benefit low and moderate income families or aid in the prevention or elimination of slums or blight. The Action Plan may also include activities which the grantee certifies are designed to meet other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community, and other financial resources are not available);
2. **Overall Benefit.** The aggregate use of CDBG funds including section 108 guaranteed loans during program year(s) ~~2003, 2004~~ 2005 (a period specified by the grantee consisting of one, two, or three specific consecutive program years), shall principally benefit persons of low and moderate income in a manner that ensures that at least 70 percent of the amount is expended for activities that benefit such persons during the designated period;
3. **Special Assessments.** It will not attempt to recover any capital costs of public improvements assisted with CDBG funds including Section 108 loan guaranteed funds by assessing any amount against properties owned and occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements.

However, if CDBG funds are used to pay the proportion of a fee or assessment that relates to the capital costs of public improvements (assisted in part with CDBG funds) financed from other revenue sources, an assessment or charge may be made against the property with respect to the public improvements financed by a source other than CDBG funds.

The jurisdiction will not attempt to recover any capital costs of public improvements assisted with CDBG funds, including Section 108, unless CDBG funds are used to pay the proportion of fee or assessment attributable to the capital costs of public improvements financed from other revenue sources. In this case, an assessment or charge may be made against the property with respect to the public improvements financed by a source other than CDBG funds. Also, in the case of properties owned and occupied by moderate-income (not low-income) families, an assessment or charge may be made against the property for public improvements financed by a source other than CDBG funds if the jurisdiction certifies that it lacks CDBG funds to cover the assessment.

**Excessive Force** -- It has adopted and is enforcing:

1. A policy prohibiting the use of excessive force by law enforcement agencies within its jurisdiction against any individuals engaged in non-violent civil rights demonstrations; and
2. A policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of such non-violent civil rights demonstrations within its jurisdiction;

**Compliance With Anti-discrimination laws** -- The grant will be conducted and administered in conformity with title VI of the Civil Rights Act of 1964 (42 USC 2000d), the Fair Housing Act (42 USC 3601-3619), and implementing regulations.

**Lead-Based Paint** -- Its activities concerning lead-based paint will comply with the requirements of part 35, subparts A, B, J, K and R, of title 24;

**Compliance with Laws** -- It will comply with applicable laws.

**OPTIONAL CERTIFICATION  
CDBG**

Submit the following certification only when one or more of the activities in the action plan are designed to meet other community development needs having a particular urgency as specified in 24 CFR 570.208(c):

The grantee hereby certifies that the Annual Plan includes one or more specifically identified CDBG-assisted activities which are designed to meet other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community and other financial resources are not available to meet such needs.

## Specific HOME Certifications

The HOME participating jurisdiction certifies that:

**Tenant Based Rental Assistance** -- If the participating jurisdiction intends to provide tenant-based rental assistance:

The use of HOME funds for tenant-based rental assistance is an essential element of the participating jurisdiction's consolidated plan for expanding the supply, affordability, and availability of decent, safe, sanitary, and affordable housing.

**Eligible Activities and Costs** -- it is using and will use HOME funds for eligible activities and costs, as described in 24 CFR § 92.205 through 92.209 and that it is not using and will not use HOME funds for prohibited activities, as described in § 92.214.

**Appropriate Financial Assistance** -- before committing any funds to a project, it will evaluate the project in accordance with the guidelines that it adopts for this purpose and will not invest any more HOME funds in combination with other Federal assistance than is necessary to provide affordable housing;

**LOCAL GOVERNMENT GRANTEE  
FY 2004 EMERGENCY SHELTER GRANTS PROGRAM  
CERTIFICATIONS BY THE CHIEF EXECUTIVE OFFICER**

I, Jack R. Crist, City Manager, ~~Chief Executive Officer~~ City Manager of City of Modesto, certify that the local government will ensure the provision of the matching supplemental funds required by the regulation at 24 CFR 576.51. I have attached to this certification a description of the sources and amounts of such supplemental funds.

I further certify that the local government will comply with:

- (1) The requirements of 24 CFR 576.53 concerning the continued use of buildings for which emergency shelter grants are used for rehabilitation or conversion of buildings for use as emergency shelters for the homeless; or when funds are used solely for operating costs or essential services.
- (2) The building standards requirement of 24 CFR 576.55.
- (3) The requirements of 24 CFR 576.56, concerning assurances on services and other assistance to the homeless.
- (4) The requirements of 24 CFR 576.57, other appropriate provisions of 24 CFR Part 576, and other applicable Federal laws concerning nondiscrimination and equal opportunity.
- (5) The requirements of 24 CFR 576.59(b) concerning the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970.
- (6) The requirement of 24 CFR 576.59 concerning minimizing the displacement of persons as a result of a project assisted with these funds.
- (7) The requirements of 24 CFR Part 24 concerning the Drug Free Workplace Act of 1988.
- (8) The requirements of 24 CFR 576.56(a) and 576.65(b) that grantees develop and implement procedures to ensure the confidentiality of records pertaining to any individual provided family violence prevention or treatment services under any project assisted with ESG funds and that the address or location of any family violence shelter project will not be made public, except with written authorization of the person or persons responsible for the operation of such shelter.

- (9) The requirement that recipients involve themselves, to the maximum extent practicable and where appropriate, homeless individuals and families in policymaking, renovating, maintaining, and operating facilities assisted under the ESG program, and in providing services for occupants of these facilities as provided by 24 *CFR* 576.56.
- (10) The requirements of 24 *CFR* 576.57(e) are met dealing with the provisions of, and regulations and procedures applicable with respect to the environmental review responsibilities under the National Environmental Policy Act of 1969 and related authorities as specified in 24 *CFR* Part 58.
- (11) The requirements of 24 *CFR* 576.21(a)(4) providing that the funding of homeless prevention activities for families that have received eviction notices or notices of termination of utility services will meet the requirements that: (A) the inability of the family to make the required payments must be the result of a sudden reduction in income; (B) the assistance must be necessary to avoid eviction of the family or termination of the services to the family; (C) there must be a reasonable prospect that the family will be able to resume payments within a reasonable period of time; and (D) the assistance must not supplant funding for preexisting homeless prevention activities from any other source.
- (12) The new requirement of the McKinney-Vento Act (42 *USC* 11362) to develop and implement, to the maximum extent practicable and where appropriate, policies and protocols for the discharge of persons from publicly funded institutions or systems of care (such as health care facilities, foster care or other youth facilities, or correction programs and institutions) in order to prevent such discharge from immediately resulting in homelessness for such persons. I further understand that State and local governments are primarily responsible for the care of these individuals, and that ESG funds are not to be used to assist such persons in place of State and local resources.
- (13) HUD's standards for participation in a local Homeless Management Information System (HMIS) and the collection and reporting of client-level information.

I further certify that the submission of a completed and approved Consolidated Plan with its certifications, which act as the application for an Emergency Shelter Grant, is authorized under State and/or local law, and that the local government possesses legal authority to carry out grant activities in accordance with the applicable laws and regulations of the Department of Housing and Urban Development.

## APPENDIX TO CERTIFICATIONS

### INSTRUCTIONS CONCERNING LOBBYING AND DRUG-FREE WORKPLACE REQUIREMENTS:

#### A. Lobbying Certification

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

#### B. Drug-Free Workplace Certification

1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification.
2. The certification is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, HUD, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.
3. For grantees other than individuals, Alternate I applies. (This is the information to which jurisdictions certify).
4. For grantees who are individuals, Alternate II applies. (Not applicable jurisdictions.)
5. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.
6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio stations).
7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).
8. The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant:

Place of Performance (Street address, city, county, state, zip code)

City of Modesto  
Tenth Street Place  
1010 Tenth Street  
Modesto, CA 95354

Check \_\_\_ if there are workplaces on file that are not identified here; The certification with regard to the drug-free workplace required by 24 CFR part 24, subpart F.

9. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

"Controlled substance" means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C.812) and as further defined by regulation (21 CFR 1308.11 through 1308.15);

"Conviction" means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

"Criminal drug statute" means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

"Employee" means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All "direct charge" employees; (ii) all "indirect charge" employees unless their impact or involvement is insignificant to the performance of the grant; and (iii) temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).

## Certifications

I certify, to the best of my knowledge and belief, that no Federal appropriated funds have been paid, or will be paid, by or on behalf of the applicant, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress, in connection with the awarding of this Federal grant or its extension, renewal, amendment or modification. If funds other than Federal appropriated funds have or will be paid for influencing or attempting to influence the persons listed above, I shall complete and submit Standard Form-LLL, Disclosure Form to Report Lobbying. I certify that I shall require all sub awards at all tiers (including sub-grants and contracts) to similarly certify and disclose accordingly.

Federally recognized Indian Tribes and tribally designated housing entities (TDHEs) established by Federally-recognized Indian tribes as a result of the exercise of the tribe's sovereign power are excluded from coverage of the Byrd Amendment, but State-recognized Indian tribes and TDHEs established under State law are not excluded from the statute's coverage.

This application incorporates the Assurances and Certifications (HUD-424B) attached to this application or renews and incorporates for the funding you are seeking the Assurances and Certifications currently on file with HUD. To the best of my knowledge and belief, all information in this application is true and correct and constitutes material representation of fact upon which HUD may rely in awarding the agreement.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-265**

**A RESOLUTION AMENDING THE FISCAL YEAR 2003-2004 ANNUAL  
OPERATING BUDGET TO REFLECT APPROVED CHANGES TO THE HUD  
ANNUAL ACTION PLAN, TO INCLUDE ADJUSTMENTS TO PRIOR YEAR'S  
CARRYOVER REVENUES AND APPROPRIATIONS.**

WHEREAS, the City of Modesto receives several Federal grants from the United States Department of Housing and Urban Development (HUD), and

WHEREAS, on May 13, 2003, by Resolution No. 2003- 241, the City Council approved the 2003-2004 HUD Annual Action Plan, and on December 11, 2003, by Resolution No. 2003-654, the City Council approved the first amendment to the 2003-2004 HUD Annual Action Plan, and

WHEREAS, since then, staff has determined that changes should be made to programs and services provided to better meet the needs of the citizens of Modesto, and

WHEREAS, City staff has proposed a second amendment to the 2003-2004 HUD Annual Action Plan, and

WHEREAS, these program changes require re-allocation of operating budget funds, and

WHEREAS, re-allocation of these funds is more fully described on **Exhibit "A"**, attached hereto and incorporated by reference, and

WHEREAS, the Citizens Housing and Community Development Committee (CH&CDC) considered the proposed changes to the HUD 2003-2004 Annual Action Plan at its April 23, 2004, meeting, and recommended that the City Council approve the second amendment to the 2003-2004 HUD Annual Action Plan as proposed by staff as well as budgetary adjustments as recommended by staff, and

WHEREAS, a duly noticed public hearing was held by the City Council on May 11, 2004, to consider approval of the proposed second amendment to the HUD 2003-2004 Annual Action Plan,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Fiscal Year 2003-2004 Annual Operating Budget is hereby amended to reallocate the Community Development Block Grant (CDBG) and HOME Investment Partnership Grant (HOME) funds as described on **Exhibit "A"** attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED that the Finance Director is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11<sup>th</sup> day of May, 2004, by Councilmember O'Bryant, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

NOES: Councilmembers: None

ABSENT: Councilmembers: None

Budget adjustments required to reflect changes per Amendment to 2003-2004 HUD Annual Action Plan.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-266**

**A RESOLUTION OF INTENTION TO LEVY AND COLLECT ASSESSMENTS  
FOR LANDSCAPE MAINTENANCE ASSESSMENT DISTRICT NO. 1 FOR DRY  
CREEK MEADOWS SUBDIVISIONS NOS. 1-6.**

WHEREAS, Resolution No. 88-935, adopted by the Council of the City of Modesto on December 13, 1988, initiated proceedings for the formation of Landscape Assessment District No. 1 for the purpose of administering the maintenance of landscaping in the public right of way within the street medians and adjacent to the access control walls in Dry Creek Meadows Subdivisions Nos. 1-6, and

WHEREAS, said assessment district was formed in accordance with the Landscaping Act of 1972, (Street and Highways Code Sections 22500 through 22679), and

WHEREAS, Section 22623 of the Streets and Highways Code requires the City Engineer, the person designated by this Council as Engineer of Work for Assessment District No. 1, to prepare and file an annual report, and

WHEREAS, the City Engineer, said Engineer of Work, has prepared and filed said annual report with the City Clerk, and

WHEREAS, the Council has approved said annual report by motion, and

WHEREAS, Section 22623 of the Street and Highways Code requires the legislative body (the City Council) to adopt a resolution of intention which shall include the following:

- a. Declaration of intention of the legislative body (the City Council) to levy and collect assessments within the assessment district for the fiscal year stated in the annual report.
- b. General description of the existing improvements and proposed improvements and any substantial changes proposed to be made in the existing improvements.
- c. Reference to the assessment district by its distinctive designation and indication of the general location of the district.
- d. Reference to said annual report, on file with the City Clerk, for a full and detailed description of the improvements, the boundaries of the assessment district and any zones therein, and the proposed assessments upon assessable lots and parcels of land within the district.
- e. Notice of the time, as fixed by the Streets and Highways Code Section 22625, and the place for hearing by the legislative body (the City Council) on the levy of the proposed assessment.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that:

1. The City Council intends to levy and collect assessments within Landscape Maintenance Assessment District No. 1 during the fiscal year 2004-05.
2. There are no proposed new improvements or any substantial changes in existing improvements in Dry Creek Meadows Subdivisions Nos. 1-6 and that

the existing improvements to be made in said assessment district are generally described as follows:

The City shall provide maintenance, in perpetuity, of landscaping and any and all improvements required for such maintenance including, but not limited to landscape irrigation systems in the following locations:

- a. Street medians in Creekwood Drive
- b. Areas adjacent to the access control walls along Creekwood Drive
- c. Areas adjacent to the access control walls along Claus Road

3. Landscape Maintenance Assessment District No. 1 is located in the County of Stanislaus, within the City Limits of the City of Modesto and is more specifically located on the west side of Claus Road, between Modesto Irrigation District Lateral No. 2 and State Route 132 (Yosemite Boulevard).

4. Said annual report filed with the City Clerk and approved by the Council by motion does provide a full and detailed description of the improvements, the boundaries of the assessment district and any zones therein, and the proposed assessments upon assessable lots and parcels of land within Landscape Maintenance Assessment District No. 1.

5. On Tuesday, the 13th day of July, 2004, at the hour of 5:30 p.m., the City Council will conduct a public hearing on the question of the levy of the proposed annual assessment. The hearing will be held at the meeting place of the City Council located in the Tenth Street Place Chambers located at 1010 10<sup>th</sup> Street, Modesto, California.

6. The City Clerk is authorized and directed to give the notice of hearing required by the Landscaping and Lighting Act of 1972.

7. The levy and collection of assessments as set forth in this resolution are exempt from the procedural and substantive requirements of Proposition 218 pursuant to Article XIII, Section 5(a) of the California Constitution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25<sup>th</sup> day of May, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-267**

**A RESOLUTION OF INTENTION TO LEVY AND COLLECT ASSESSMENTS FOR LANDSCAPE MAINTENANCE ASSESSMENT DISTRICT NO. 2 FOR DRY CREEK MEADOWS SUBDIVISION NOS. 7-10, CREEKWOOD MEADOWS SUBDIVISION AND YOSEMITE MEADOWS SUBDIVISION UNITS 1 & 2.**

WHEREAS, Resolution No. 89-460 adopted by the Council of the City of Modesto on April 4, 1989, initiated proceedings for the formation of Landscape Assessment District No. 2 for the purpose of administering the maintenance of landscaping in the public right of way within the street medians and adjacent to the access control walls in Dry Creek Meadows Subdivisions Nos. 7-10, Creekwood Meadows Subdivision and Yosemite Meadows Subdivision Units Nos. 1 & 2, and

WHEREAS, said assessment district was formed in accordance with the Landscaping Act of 1972, (Streets and Highways Code Sections 22500 through 22679), and

WHEREAS, Section 22623 of the Streets and Highways Code requires the City Engineer, the person designated by this Council as Engineer of Work for Assessment District No. 2, to prepare and file an annual report, and

WHEREAS, the City Engineer, said Engineer of Work, has prepared and filed said annual report with the City Clerk, and

WHEREAS, the Council has approved said annual report by motion, and

WHEREAS, Section 22623 of the Streets and Highways Code requires the legislative body (the City Council) to adopt a resolution of intention which shall include the following:

- a. Declaration of intention of the legislative body (the City Council) to levy and collect assessments within the assessment district for the fiscal year stated in said annual report.
- b. General description of the existing improvements and proposed improvements and any substantial changes proposed to be made in the existing improvements.
- c. Reference to the assessment district by its distinctive designation and indication of the general location of the district.
- d. Reference to said annual report, on file with the City Clerk, for a full and detailed description of the improvements, the boundaries of the assessment district and any zones therein, and the proposed assessments upon assessable lots and parcels of land within the district.
- e. Notice of the time, as fixed by Streets and Highways Code Section 22625, and the place for hearing by the legislative body (the City Council) on the levy of the proposed assessment.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that:

1. The City Council intends to levy and collect assessments within Landscape Maintenance Assessment District No. 2 during the fiscal year 2004-05.
2. There are no proposed new improvements or any substantial changes in the existing improvements within the existing Landscape Maintenance

Assessment District No. 2, and the existing improvements to be made in said assessment district are generally described as follows:

The City shall provide maintenance, in perpetuity, of landscaping and any and all improvements required for such maintenance including, but not limited to landscape irrigation systems in the following locations:

- a. Street medians in Creekwood Drive
- b. Areas adjacent to the access control walls along Creekwood Drive

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-268**

**A RESOLUTION SUMMARILY VACATING AND ABANDONING A 10-FOOT  
PUBLIC UTILITY EASEMENT LOCATED ON 1460 EAST ORANGEBURG  
AVENUE IN THE CITY OF MODESTO**

WHEREAS, Chapter 4, Part 3 of Division 9, Section 8330, et seq of the California Streets and Highway Code authorizes a city council, by resolution, to summarily vacate public service easements where the easement has been superseded by relocation and there are no other public facilities located within the easement, and

WHEREAS, the City of Modesto has received a request from MARK JACOBS, owner, to abandon a 10-foot Public Utility Easement located on 1460 East Orangeburg Avenue on APN 032-009-044, and

WHEREAS, this easement was created and dedicated to the City of Modesto on January 25, 1966 on the Greenbrier No. 1 Subdivision Map Vol. 21; Page 29, and

WHEREAS, when the public utilities constructed their facilities they did not use this easement, and the utilities were constructed along the frontage of the parcels, and

WHEREAS, said easement referred to above on the real property located on 1460 East Orangeburg Avenue in the City of Modesto is more particularly described in **Exhibit "A"** attached hereto and incorporated herein by this reference, and

WHEREAS, the Engineering and Transportation Department has contacted the Operations and Maintenance Department, Community and Economic Development Department, and all public utilities and none of these agencies have any objection to the abandonment, and

WHEREAS, the Council of the City of Modesto finds and declares that:

1. The vacation of this easement is made pursuant to Chapter 4, Part 3 of Division 9, Section 8333(c) of the California Streets and Highways Code.

2. The use of the property described in **Exhibit "A"**, attached hereto, is a 10-foot Public Utility Easement located on 1460 East Orangeburg Avenue in the City of Modesto, which is more particularly described in **Exhibit "A"**, has been superseded by relocation and there are no other public facilities within the easement and the easement is no longer required for public utilities.

3. That from and after the date of this resolution is recorded, the 10-foot Public Utility Easement vacated will no longer constitute a public utility easement.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the 10-foot Public Utility Easement located on 1460 East Orangeburg Avenue in the City of Modesto, which is more particularly described in **Exhibit "A"** which is attached hereto and incorporated by reference, be and is hereby vacated and abandoned.

BE IT FURTHER RESOLVED the City Clerk is hereby directed to record a certified copy of this resolution in the Stanislaus County Recorder's Office and that such vacation and abandonment shall become effective immediately upon such recordation.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25<sup>th</sup> day of May, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 –269**

**A RESOLUTION APPROVING A ONE-YEAR LEASE AGREEMENT  
BETWEEN THE CITY OF MODESTO AND MORRIS B. BALL FOR SUITE “A”  
IN THE AIRPORT’S OFFICE BUILDING NO. 2**

WHEREAS, Morris B. Ball, an individual and general aviation tenant at the Modesto City/County Airport, wishes to rent Suite A in the Airport’s Office Building No. 2 from which he can perform general office-related activities, and

WHEREAS, vacant office space is available to rent in Office Building No. 2 at the Modesto City-County Airport, and

WHEREAS, the lease agreement is for one-year, and it is expected to increase revenues in the airport enterprise fund by approximately \$6,200 a year, and

WHEREAS, the City’s policy as stated in Modesto Municipal Code Section 7-3.417 is to enter into lease agreements at Modesto City-County Airport, and

WHEREAS, there have been no other aviation or non-aviation users expressing any interest in leasing Suite A in Office Building No. 2, and

WHEREAS, the City Council has entered into similar office lease agreements with non-aviation users to lease office space at the Modesto City/County airports and those leases are still in effect with the same tenants.

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby approves a one-year office lease with Morris B. Ball for the purpose of conducting general office related activities.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is hereby authorized to execute the lease agreement on behalf of the City.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25<sup>th</sup> day of May, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 270**

**A RESOLUTION APPROVING A REVISED POLICY FOR INVESTMENT OF  
PUBLIC FUNDS, POLICY NO. 1.019**

WHEREAS, pursuant to Section 2-3.401 of the Modesto Municipal Code, it is the function of the City of Modesto (“City”) Finance Department to deposit and invest funds in accordance with sound treasury management, and

WHEREAS, the City is also governed by Sections 53600 et seq. of the California Government Code, which requires that local agencies annually adopt an investment policy, and

WHEREAS, the City Council approved a contract on February 3, 2004 with Public Financial Management (PFM), an investment services advisor, to provide investment management, research and supervision of the City’s Managed Funds, and

WHEREAS, PFM has reviewed the City’s Investment Policy and is recommending changes to bring the policy up to date and more in line with the City’s general investment philosophy, and

WHEREAS, by an Agenda Report dated May 13, 2004, from the Deputy Director of Finance, the recommendation has been made to revise Policy No. 1.019 relating to the Investment of Public Funds, and

WHEREAS, a copy of the proposed policy is marked **Attachment “A”**, attached hereto and incorporated herein by reference,

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto hereby approves the revised policy for Investment of Public Funds, Policy No. 1.019.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of May, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

# ATTACHMENT A

 CITY of MODESTO	CITY COUNCIL POLICY	<u>POLICY NO.:</u> <u>1.019</u>
SUBJECT: INVESTMENT POLICY		

## PURPOSE

The purpose of this document is to identify various policies and procedures that enhance opportunities for a prudent and systematic investment policy and to organize and formalize investment-related activities.

## BACKGROUND

Under Section 2-3.401 of the Municipal Code, it is the function of the Finance Department to deposit and invest funds in accordance with sound treasury management. As a charter city, Modesto operates its pooled idle cash investment under the “prudent investor” rule which states that:

“When investing, reinvesting, purchasing, acquiring, exchanging, selling, or managing public funds, a trustee shall act with care, skill, prudence, and diligence under the circumstances then prevailing, including, but not limited to, the general economic conditions and the anticipated needs of the agency, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the agency.”

~~“Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not of speculation, but for investments, considering the probable safety of their capital as well as the probable cause to be derived.”~~

The City is also governed by Sections 53600 et seq. of the California Government Code. This affords the City a broad spectrum of investment opportunities, so long as the investment is deemed prudent and allowable under current legislation of the State of California and the charter of the City of Modesto.

On an annual basis, the Finance Director/Treasurer will render to the City Council the statement of investment policy. The report will be considered, with any changes, by the City Council at a public meeting.

## INVESTMENT REPORT

The Finance Director/Treasurer shall provide the City Council with a monthly report of investment transactions. In addition, the Finance Director/Treasurer shall render a quarterly report to the City Council, City Manager and the internal auditor within 30 days following the

end of the quarter. The report shall contain the following:

1. The type of investment, issuer, purchase date, date of maturity, credit rating, overall portfolio yield based on cost, total par and dollar amount invested on all securities, investments and monies.
2. The weighted average maturity of the portfolio.
3. A description of any funds, investments or programs that are under management of contracted parties, including lending programs. Funds and investments held by contracted parties shall be reported at market value and the source of valuation shall be reported.
4. The market value as of the date of the report, and the source of the valuation.
5. A statement of compliance with the investment policy or manner in which the portfolio is not in compliance.
6. A statement denoting the City's ability to meet its expenditure requirements for the next six months or provide an explanation as to why sufficient money shall, or may, not be available.

#### **INVESTMENT CRITERIA**

Public funds are invested in the following manner in order of priority:

1. **Safety of Principal**

The duty of the Finance Director/Treasurer is to protect, preserve and maintain cash and investments on behalf of the citizens of the community. To guard against loss of principal, only prudent and safe investments will be considered.

2. **Liquidity**

The receipt of revenues and maturities of investments should be scheduled so that adequate cash will be available to meet disbursements. An adequate portion of the portfolio should be maintained in liquid short-term instruments which can be readily converted to cash if necessary.

3. **Yield**

Yield is the potential dollar earnings, or rate of return, an investment can provide. Yield becomes a consideration only after the basic requirements of safety and liquidity have been met.

#### **SAFEKEEPING AND CUSTODY**

All security transactions entered into by the City shall be conducted on a delivery-versus-payment basis. Securities will be held by third party custodian designated by the Finance

Director/Treasurer and evidenced by safekeeping receipts.

The only exception to the foregoing are Local Agency Investment Pools, Certificates of Deposit, and money market funds since the purchased securities are not deliverable. In all cases, purchased securities shall be held in the City's name.

### **PERFORMANCE STANDARDS**

The investment portfolio shall be designed with the objective of obtaining a rate of return throughout budgetary and economic cycles, commensurate with the investment risk constraints and the cash flow needs. The City will measure the portfolio's performance against a market benchmark that is commensurate with the City's investment risk constraints and the cash flow characteristics of the portfolio.

### **AUTHORIZED INVESTMENTS**

Commencing with Section 53601 of Article 1, Chapter 4 of the Government Code of the State of California, surplus money may be invested in the following:

- A. **City of Modesto bonds.** Bonds issued by the City.
- B. **U.S. Treasury securities.** United States Treasury notes, bonds, bills or certificates of indebtedness or those for which the faith and credit of the United States are pledged for the principal and interest.
- C. **State of California securities.** Registered State of California warrants, treasury notes or bonds, provided that the securities are rated AAA by a nationally recognized statistical rating agency.
- D. **California municipal securities.** Bonds, notes, warrants or other evidence of indebtedness of any local agency within California, provided that the securities are rated AAA by a nationally recognized statistical rating agency.
- E. **Federal Agency securities.** Obligations issued by a federal agency or United States government-sponsored enterprise.
- F. **Bankers' Acceptances.** Bankers' Acceptances issued by domestic or foreign banks, which are eligible for purchase by the Federal Reserve System, the short-term paper of which is rated in the highest category by a nationally recognized statistical rating agency.

Purchases of Bankers' Acceptances may not exceed 180 days maturity or 40 percent of the City's surplus money. The maximum amount permitted to be invested in the Banker's Acceptances of any one commercial bank is the greater of 10 percent of the City's surplus funds or \$1 million.

~~Bills of exchange or time drafts (bankers acceptances) drawn on and accepted by a commercial bank.~~

**G. Commercial Paper.** Commercial paper of "prime" quality of the highest ranking or of the highest letter and number rating as provided for by a nationally recognized statistical-rating organization. The entity that issues the commercial paper shall meet all of the following conditions in either paragraph (1) or paragraph (2):

(1) The entity meets the following criteria: (a) is organized and operating within the United States as a general corporation. (b) Has total assets in excess of \$500 million. (c) Has debt other than commercial paper, if any, that is rated "A" or higher by a nationally recognized statistical-rating organization (NRSRO).

(2) The entity meets the following criteria: (a) is organized within the United States as a special purpose corporation, trust, or limited liability company. (b) Has program wide credit enhancements including, but not limited to, over collateralization, letters of credit, or surety bond.

Investments in commercial paper are limited to a maximum of 25% of the portfolio. Purchases shall not exceed 10 percent of the outstanding paper of the issuing corporation. The maximum investment maturity is restricted to 270 days.

~~Commercial paper of "prime" quality.~~

**H. Certificates of Deposit.** FDIC insured or fully collateralized time certificates of deposit in financial institutions located in California. Eligible investments are restricted to those issuing institutions that have been in business at least five years. The maximum term for deposits shall be one year. Investments in certificates of deposit are further limited to 20% of surplus funds. All time deposits must be collateralized in accordance with California Government Code section 53561. The City, at its discretion, may waive the collateralization requirements for any portion of the deposit that is covered by federal insurance.

**I. Negotiable Certificates of Deposit.** Negotiable certificates of deposit issued by a nationally- or state-chartered bank or a state or federal savings and loan association or by a state-licensed branch of a foreign bank; provided that the senior debt obligations of the issuing institution are rated "AA" or better by Moody's or Standard & Poor's. Investments in negotiable certificates of deposit are limited to 30 percent of the portfolio.

~~H. Certificates of deposit (CD) and negotiable certificates of deposit (NCD) issued by a nationally or state-chartered bank or a state or federal association or a state-licensed branch of a foreign bank.~~

**J. Repurchase Agreements.** Repurchase Agreements used solely as short-term investments not to exceed 90 days.

The following collateral restrictions will be observed: Only U.S. Treasury securities or Federal Agency securities as described in 1 and 2 will be acceptable collateral. All securities underlying Repurchase Agreements must be delivered to the City's custodian bank versus payment or be handled under a tri-party repurchase agreement. The total of all collateral for each Repurchase Agreement must equal or exceed, on the basis of market value plus accrued interest, 102 percent of the total dollar value of the money invested by the City for the term of the investment. For any Repurchase Agreement with a term of more than one day, the value of the underlying securities must be reviewed on a regular basis.

Market value must be calculated each time there is a substitution of collateral.

The City or its trustee shall have a perfected first security interest under the Uniform Commercial Code in all securities subject to Repurchase Agreement.

The City may enter into Repurchase Agreements with (1) primary dealers in U.S. Government securities who are eligible to transact business with, and who report to, the Federal Reserve Bank of New York, and (2) California and non-California banking institutions having assets in excess of \$1 billion and in the highest short-term rating category as provided by Moody's Investors Service, Inc. or Standard & Poor's Corporation.

The City will have specific written agreements with each firm with which it enters into Repurchase Agreements.

**K. Reverse Repurchase Agreements.** The City may invest in reverse repurchase agreements only with "primary dealers" with which the City has entered into a master repurchase agreement contract. The City may invest in reverse repurchase agreements with the following conditions: The City may only use reverse repurchase agreements to (1) cover a temporary cash shortage, or (2) augment earnings. Reverse repurchase agreements may not be used to leverage the portfolio.

In addition, if a reverse repurchase agreement is authorized, it may be utilized only if the security to be sold on reverse repurchase agreement has been owned and fully paid for by the City for a minimum of 30 days prior to the sale; the total of all reverse repurchase agreements on investments owned by the City does not exceed 20% of the portfolio; and the agreement does not exceed a term of 92 days, unless the agreement includes a written codicil guaranteeing a minimum earning or spread for the entire period between the sale of the security using a reverse repurchase agreement and the final maturity date of the same security. The proceeds of the reverse repurchase agreement may not be invested in securities whose maturity exceeds the term of the Reverse Repurchase Agreement. I-

—Investment in repurchase agreements or reverse repurchase agreements of any authorized securities.

**L. Medium-term corporate notes .** Medium-term corporate notes defined as all corporate and depository institution debt securities with a maximum remaining maturity of five years or less, issued by corporations organized and operating within the United States or by depository institutions licensed by the U.S. or any state and operating within the U.S.

Medium-term notes shall be rated in a rating category "AA-" or its equivalent or better by a nationally recognized rating service. Purchase of medium-term corporate notes may not exceed 30 percent of the City's investment portfolio.

~~Medium-term corporate notes of a maximum of five years maturity issued by corporations operating within the United States.~~

M. Money market funds. Shares of beneficial interest issued by diversified management companies that are money market funds registered with the Securities and Exchange Commission under the Investment Company Act of 1940 (money market funds). ~~Shares of beneficial interest issued by diversified management companies as defined in Section 23701(m) of the Revenue and Taxation Code (mutual funds).~~

N. State of California Local Agency Investment Fund (LAIF).

O. Mortgage and asset-backed securities. Any mortgage pass-through security, collateralized mortgage obligation, mortgage-backed or other pay-through bond, equipment lease-backed certificate, consumer receivable-backed bond that has been issued by a Federal Agency and has of a maximum of five years maturity.

### MAXIMUM MATURITY

Investment maturities shall be based on a review of cash flow forecasts. Maturities will be scheduled so as to permit the City to meet all projected obligations.

Maximum maturity of an authorized investment is limited to five years.

Proceeds of sales or funds set aside for the repayment of any notes (e.g., Tax and Revenue Anticipation Notes) shall not be invested for a term that exceeds the term of the notes.

### INELIGIBLE INVESTMENTS

Any security type or structure not specifically approved by this policy is hereby specifically prohibited. Security types which are thereby prohibited include, but are not limited to,

Investment in inverse floaters, range notes, or interest only strips that are derived from a pool of mortgages is prohibited.

Investment in any security that could result in a zero interest accrual if held to maturity is prohibited.

~~Detailed descriptions of investment instruments and terms are provided in Appendix A-Glossary.~~

### RESTRICTIONS SET BY THE FINANCE DIRECTOR/TREASURER

A. Prior approval of the Finance Director/Treasurer is required for the following transactions:

- Sale of securities
- Swaps and trades
- Purchase of collateralized mortgage obligations (CMO)
- Purchase of mortgage-backed obligations
- Purchase of corporate notes
- Purchase transaction in excess of \$3 million

B. The following investments are not deemed appropriate for the City and will not be utilized:

- Futures and options
- Small Business Administration notes

### **AUTHORIZED INVESTMENT PERSONNEL**

Pursuant to the Government Code, the City Council delegates the authority to invest or to reinvest funds, or to sell or exchange securities so purchased, to the Finance Director/Treasurer for a one-year period. The Finance Director/Treasurer is charged with the responsibility for carrying out the policies of the City Council and shall assume full responsibility for investment transactions until the delegation of authority is revoked or expires.

Idle cash management and investment transactions are the responsibility of the Finance Department, which is under the control of the Finance Director/Treasurer. The Finance Director/Treasurer may designate an individual(s) ["Designee"] to be responsible for the daily management of the City's portfolio of treasury investments. The Designee may also be directed to monitor and forecast the City's cash flows, and prepare periodic investment reports that are submitted to the City Council. The Accounting Division of the Finance Department monitors all treasury transactions and prepares accounting records of all investment transactions as to type of investment, amount, yield, and maturity. No other person has authority to make investment transactions without the written authority of the Finance Director/Treasurer. Pursuant to Government Code chapter 53600, all persons investing monies are trustees and therefore fiduciaries subject to the prudent investor standard. Financial market security transactions will be executed by delivery versus payment and the securities will be held by a third party custodian.

~~The Finance Director/Treasurer or Designee is authorized to make all investment transactions allowed by the Investment Policy. The Finance Director/Treasurer may authorize the Designee to enter into investments within specified parameters. No other person has authority to make investment transactions without the written authority of the Finance Director/Treasurer. Pursuant to Government Code chapter 53600, all persons investing monies are trustees and therefore fiduciaries subject to the prudent investor standard. Financial market security transactions will be executed by delivery versus payment and the securities will be held by a third party custodian.~~

Subject to required procurement procedures, the City may engage the support services of outside professionals in regard to its financial program, so long as it can be demonstrated or anticipated

that these services produce a net financial advantage or necessary financial protection of the City's resources.

### **POLICY REVIEW**

The investment policy shall be adopted by resolution of the City Council on, at minimum, an annual basis. This investment policy shall be reviewed at least annually to ensure its consistency with the overall objectives of preservation of principal, liquidity and yield, and its relevance to current law and financial and economic trends. Any amendments to the policy shall be forwarded to City Council for approval.

This policy and the internal controls related to the investment of City funds will be reviewed by the City's independent external auditors in the conduct of their annual audit of the City.

## APPENDIX A - GLOSSARY

### Bankers Acceptances (BAs)

Bankers Acceptance is a time bill of exchange drawn on and accepted by a commercial bank to<sup>1</sup> finance the exchange of goods. When a bank “accepts” such a bill, the time draft becomes, in effect, a predated certified check payable to the bearer at some future specified date. Little risk is involved for the investor because the commercial bank assumes primary liability once the draft is accepted.

### Certificates of Deposit (CDS)

A certificate of deposit is issued against funds deposited in a commercial bank for a definite period of time and earning a specified rate of return. They are issued in two forms, negotiable and non-negotiable:

**A negotiable certificate of deposit** may be sold by one holder to another prior to maturity. This is possible because the issuing bank agrees to pay the amount of the deposit, plus earned interest, to the Bearer of the certificate at maturity.

**A non-negotiable certificate of deposit** is collateralized and is not a money market instrument since it cannot be traded in the secondary market. It is issued on a fixed maturity basis and often pays a higher interest rate than is permissible on other savings or time deposit accounts.

### Collateralized Mortgage Obligation (CMO)

A CMO is a pool of mortgages sold as a single investment with interest paid monthly, quarterly, or semi-annually. Mortgage securities pay a higher rate than U.S. Treasury securities due to risk of prepayment and default.

### Commercial Paper (CP)

This is a short-term promissory note issued by a corporation to raise working capital. The interest rates tend to be higher than other investments of similar liquidity.

### Derivatives

A financial instrument with a value derived from the value of one or more underlying assets or indexes of asset values. The term “derivative products” refers to instruments or features such as collateralized mortgage obligations (CMOs), interest-only (IOs) and principal-only (POs), forwards, futures, currency and interest rate swaps, options, floaters/inverse floaters, and caps/floors/collars.

### Federal Agency Securities

Certain agencies created by Congress and sponsored by the federal government issue debt that is considered to be of prime quality and have a very high standing in the bond market. The major federal agencies are described as follows:

**Federal National Mortgage Association (FNMA, “Fannie Mae”)** provides funds to the mortgage market primarily by purchasing loans from local lenders.

**Federal Home Loan Mortgage Corporation (FHLMC, "Freddie Mac")** purchases conventional mortgages and sells mortgage-backed securities.

**Student Loan Marketing Association (SLMA, "Sallie Mae")** facilitates that flow of private capital into various federally-guaranteed student loan programs maintained through banks, S&Ls, educational institutions and other participating lenders.

**Federal Farm Credit System (FFCB)** sells securities to provide mortgage loans and short-term and intermediate-term credit to farmers, ranchers, and agricultural cooperatives.

**Federal Home Loan Bank (FHLB)** acts as a credit reserve system for the thrift industry to stabilize the flow of funds to member savings and loan and savings banks.

### **Futures**

Exchange traded contracts specifying a future date of delivery or receipt of a specific product (physical commodity or financial instrument). Futures are used by business as a hedge against unfavorable price changes, and by speculators who hope to profit from such changes.

### **Local Agency Investment Fund (LAIF)**

State of California LAIF is designed to provide a convenient and safe means of investing temporarily idle monies by the State Treasurer. LAIF provides high liquidity and generally pays higher yields than can be realized by individual local agencies (for similar maturities) due to economies of scale.

### **Medium-Term Notes**

Issued by corporations (in the form of secured or unsecured debt) for the purpose of raising working capital and purchasing capital assets.

### **Options**

A right to buy (call) or sell (put) a fixed amount of a given stock at a specified price within a limited period of time. The purchaser hopes that the stock's price will go up (if he bought a call) or down (if he bought a put) by an amount sufficient to provide a profit when he sells the option. If the price is static or moves in the opposite direction, the price paid for the option is lost entirely.

### **Repurchase Agreement**

As authorized in Government Code Section 5360i(1), these investment vehicles are (generally short-term) agreements between the local agency and seller for the purchase of Government securities to be resold at a specific date and for a specific amount.

### **Reverse Repurchase Agreement**

This transaction is the opposite of a repurchase agreement. The dealer buys securities with a contractual agreement to sell them back at a prearranged date. The local agency pays the dealer' interest for the use of the funds. The money "borrowed" on a "reverse repo" can be reinvested in higher yielding instruments.

**U.S. Treasury Securities**

The highest quality, most liquid debt investments available in the fixed income market-place; unconditionally backed by the “full faith and credit” of the U.S. Government. Treasury bills are short-term instruments (maturity of three months to one year); Treasury notes and bonds are currently issued with maturities of two to ten years.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-271**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO FORMALLY SOLICIT REQUEST FOR BIDS FOR THE FURNISHING OF DISCING AND FLAIL MOWING SERVICES, ON A "CITYWIDE" BASIS, FOR A THREE (3) YEAR AGREEMENT, WITH TWO (2) ONE-YEAR EXTENSION OPTIONS, FOR AN ESTIMATED ANNUAL COST OF \$24,073**

WHEREAS, the Operations and Maintenance Department, Park Services Division has requested discing and flail mowing services for nine (9) City locations, consisting of approximately 196 total acres, and

WHEREAS, discing and flail mowing is performed as part of a weed abatement program on open fields to control the over-growth of weeds, and

WHEREAS, discing and flail mowing services shall be provided on a scheduled program determined by the Operations and Maintenance Department, Park Services Division, and

WHEREAS, by authorizing the Purchasing Supervisor to solicit formal request for bids, for a three (3) year agreement, with two (2) one-year extension options, the City will achieve the best value possible for discing and flail mowing services, and

WHEREAS, Modesto Municipal Code, MMC Section 8-3.203, generally requires all purchases that meet or exceed \$50,000.00 for material, equipment or contractual services to be formally bid, and

WHEREAS, by soliciting competitive bids for discing and flail mowing services, the Finance Department, Purchasing Division will comply with MMC Section 8-3.203 regarding formal bid procedures,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Purchasing Supervisor is hereby authorized to solicit formal request for bids as follows:

SECTION 1. The City Clerk shall call for public competitive sealed bids for the furnishing of discing and flail mowing services, for a three (3) year agreement, with two (2) one-year extension options, to be opened in the office of the City Clerk, 1010 Tenth Street, in the City of Modesto. The City Clerk shall be directed to give notice inviting such sealed bids in the time, form, and manner provided by law.

SECTION 2. After the sealed bids are opened, they shall be tabulated and analyzed and a report submitted to Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of May, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-272**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO FORMALLY SOLICIT REQUEST FOR BIDS FOR THE FURNISHING OF TANK DIVING SERVICES, FOR THE OPERATIONS AND MAINTENANCE DEPARTMENT, WATER DIVISION, FOR A THREE (3) YEAR AGREEMENT, WITH TWO (2) ONE-YEAR EXTENSION OPTIONS, FOR AN ESTIMATED ANNUAL COST OF \$42,150**

WHEREAS, the Operations and Maintenance Department, Water Division has requested tank diving services for seven (7) above ground non-elevated potable water storage tanks, and

WHEREAS, the tank diving services consist of performing all work necessary for the removal of sediments, touch-up and repair of corrosive areas, underwater closed circuit video inspection, visual inspections of the tank floor, interior coating and exterior coating, and underwater cutting and welding, and

WHEREAS, each tank varies in size, holding from .22 million gallons to 2.0 million gallons of potable water, and

WHEREAS, tank diving services shall be performed on an annual basis, scheduled by the Operations and Maintenance Department, Water Division, and

WHEREAS, by authorizing the Purchasing Supervisor to solicit formal request for bids, for a three (3) year agreement, with two (2) one-year extension options, the City will achieve the best value possible for tank diving services, and

WHEREAS, Modesto Municipal Code, MMC Section 8-3.203, generally requires all purchases that meet or exceed \$50,000.00 for material, equipment or contractual services to be formally bid, and

WHEREAS, by soliciting competitive bids for tank diving services, the Finance Department, Purchasing Division will comply with MMC Section 8-3.203 regarding formal bid procedures,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Purchasing Supervisor is hereby authorized to solicit formal Request for Bids as follows:

SECTION 1. The City Clerk shall call for public competitive sealed bids for the furnishing of tank diving services, for a three (3) year agreement, with two (2) one-year extension options, to be opened in the office of the City Clerk, 1010 Tenth Street, in the City of Modesto. The City Clerk shall be directed to give notice inviting such sealed bids in the time, form, and manner provided by law.

SECTION 2. After the sealed bids are opened, they shall be tabulated and analyzed and a report submitted to Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of May, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-273**

**A RESOLUTION APPROVING AN AGREEMENT WITH GARTNER CONSULTING IN THE AMOUNT OF \$99,500 TO CONDUCT A “BUSINESS PROCESS ANALYSIS AND SYSTEM REQUIREMENTS STUDY” AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT.**

WHEREAS, it is the City’s goal to use state-of-the-art technology to provide an economically feasible information technology environment, which will improve access, reliability, productivity, efficiency and effectiveness, and which in turn will allow City staff to better serve the public and manage public resources, and

WHEREAS, the City utilizes a wide variety of computer applications to provide services to internal and external customers, and

WHEREAS, the existing applications lack the ability to share information in an enterprise manner, and

WHEREAS, the City desires to conduct a comprehensive analysis of systems and associated processes to improve current systems and implement future systems, and

WHEREAS, the development of a business process and system requirement plan is directly related to Strategic Plan item numbers “IV.L” and IV.M, which focus on increasing productivity through the use of information tools and increasing productivity through systems integration, and

WHEREAS, this project was coordinated with the City Attorney’s Office, City Manager’s Office, and the following City departments: Community and Economic Development, Finance, Information Technology, Operations and Maintenance and Parks, Recreation, and Neighborhoods, and

WHEREAS, the Finance Committee met on January 26th, 2004 and supported the

execution of an agreement with Gartner Consulting to perform the "Business Process Analysis and Systems Requirements Study" to go to the full Council for the review.

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby approves an agreement with Gartner Consulting in the amount of \$99,500.00 to perform a "Business Process Analysis and Systems Requirements Study".

BE IT FURTHER RESOLVED that the City Manager or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of May, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**A RESOLUTION APPROVING AN AMENDMENT TO THE AGREEMENT  
BETWEEN THE CITY OF MODESTO AND SUE FISCOE, DBA FISCOE  
MANAGEMENT (FM GOLF) AND AUTHORIZING THE CITY MANAGER TO  
EXECUTE THE AMENDMENT TO THE AGREEMENT.**

WHEREAS, the City owns, operates and manages the Municipal Golf Course (“Municipal Course”), Dryden Park Municipal Golf Course (“Dryden Course”), Dryden Park Municipal Golf Course Driving Range (“Dryden Range”), Creekside Municipal Golf Course (“Creekside Course”) and Creekside Municipal Golf Course Driving Range (“Creekside Range”), and

WHEREAS, on March 21, 2000, the City of Modesto and FM Golf entered into an agreement under authority of Resolution No. 2000-131, retaining FM Golf as golf course professional to provide golf professional services at Municipal Course, Dryden Course, Dryden Range, Creekside Course, and Creekside Range, and

WHEREAS, also under authority of Resolution No. 2000-131, FM Golf was retained to provide food and beverage concession services at Municipal Course and Dryden Course Clubhouse, and

WHEREAS, on November 13, 2003, the City extended the agreement with FM Golf under authority of Resolution 2003-606 for a five-year period commencing on July 1, 2003, and

WHEREAS, it is the desire of CITY and FM Golf that FM Golf also provide food and beverage concession services at Creekside Municipal Golf Course, and

WHEREAS, at their May 3, 2004, meeting, the Safety and Communities Committee recommended amending the agreement with FM Golf to provide food services at Creekside Golf Course,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves amending the agreement with FM Golf to provide concession services at Creekside Municipal Golf Course.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute said amendment to agreement.

RESOLUTION NO. 2004-275**

**A RESOLUTION APPROVING A COOPERATIVE AGREEMENT NO. 10-177  
WITH THE STATE OF CALIFORNIA – DEPARTMENT OF  
TRANSPORTATION TO PROVIDE FOR LANDSCAPE ENHANCEMENT  
WITHIN AND NEAR THE BRIGGSMORE EXPRESSWAY INTERCHANGE,  
AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE  
COOPERATIVE AGREEMENT.**

WHEREAS, at the March 21, 2001, meeting, the City Council authorized the City Manager to submit an application and negotiate an agreement with the State of California Department of Transportation (Caltrans) for the use of Transportation Enhancement Activities (TEA) funds for a landscape beautification project within and near the Briggsmore/State Route 99 Interchange, and

WHEREAS, at the same time, the City Council committed matching funds of up to \$75,000 for this project from the General Fund, and

WHEREAS, in the Fall of 2002, the City was notified that funding in the amount of \$1,300,000 in non-local funding was identified for this project, and

WHEREAS, on September 2, 2003, the City Council authorized the City Manager to execute two cooperative agreements with Caltrans, and

WHEREAS, following submission of the agreements to Caltrans, City staff was informed that Caltrans wanted to revise the agreements to consolidate them into one agreement and that funding was no longer certain for this project, and

WHEREAS, Caltrans has now completed the agreement and has notified City staff that funding is available, and

WHEREAS, the Transportation Policy Committee met on February 22, 2004 and endorsed the submittal of the TEA application, and

WHEREAS, the Safety and Communities Committee endorsed the original two agreements on August 4, 2003 and supported staff's recommendations to enter into a cooperative agreement on May 3, 2004,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves a Cooperative Agreement No. 10-177 with the State of California Department of Transportation to provide for landscape enhancement within and near the Briggsmore Expressway Interchange.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the cooperative agreement.

RESOLUTION NO. 2004-276**

**A RESOLUTION AUTHORIZING STAFF TO PROCEED WITH A REQUEST FOR PROPOSALS TO PROVIDE LANDSCAPE ENHANCEMENT WITHIN AND NEAR THE BRIGGSMORE EXPRESSWAY INTERCHANGE, AND SUPPORTING THE PROPOSED EVALUATION CRITERIA FOR THE DESIGN OF SAID ENHANCEMENTS.**

WHEREAS, at the March 21, 2001, meeting, the City Council authorized the City Manager to submit an application and negotiate an agreement with the State of California Department of Transportation (Caltrans) for the use of Transportation Enhancement Activities (TEA) funds for a landscape beautification project within and near the Briggsmore/State Route 99 Interchange, and

WHEREAS, following submission of the agreements to Caltrans, City staff was informed that Caltrans wanted to revise the agreements to consolidate them into one agreement and that funding was no longer certain for this project, and

WHEREAS, Caltrans has now completed the agreement and has notified City staff that funding is available, and

WHEREAS, in order to proceed with the project, staff is requesting authorization to send a Request for Proposals (RFP) to the following landscape architectural firms, deemed most qualified based on their qualification package: Royston Hanamoto Alley and Abey; Callander Associates; and, Stantec Consulting, and

WHEREAS, on May 3, 2004, the Safety and Communities Committee supported staff's recommendations to proceed with a Request for Proposals and the proposed evaluation criteria, a copy of which is attached hereto as Exhibit "A", and is incorporated herein by reference.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby authorizes staff to proceed with a Request For Proposals to provide landscape enhancement within and near the Briggsmore Expressway Interchange.

BE IT FURTHER RESOLVED that the proposed evaluation criteria, a copy of which is attached hereto as **Exhibit "A"**, and is incorporated herein by reference, is hereby approved.

SELECTION CRITERIA

A. EXPERIENCE (50%)

1. Years of experience of firm and/or its team as design professionals.
2. Broad Character and scope of past projects.
3. Experience of proposed team members in designs of similar magnitude, design requirements and complexity within past five years.
4. If experience is lacking, explanation by consultant as to why it should be selected over others with more experience.
5. History of repeat business with clients. Stipulate the number of previous contracts with the City of Modesto.

B. Analysis (40%)

6. Demonstrated management and organizational ability as relates to time management, scheduling, City staff/client relationships, etc., and the ability to meet deadlines.
7. Ability to execute complete designs of cost-effective and aesthetically pleasing highway landscape projects and produce a quality work order.

C. GENERAL (10%)

8. Size of firm and available staff appropriate to project size.
9. Location of firm in relation to City of Modesto and project size.
10. Firm reputation as relates to principles, credibility and attitude.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 277**

**A RESOLUTION ACCEPTING A GRANT ENTITLED "CALIFORNIA SEAT BELT COMPLIANCE CAMPAIGN" FROM THE STATE OFFICE OF TRAFFIC SAFETY FOR THE GOAL OF INCREASING STATEWIDE SEAT BELT USE TO 94 PERCENT AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE NECESSARY GRANT DOCUMENTS AND RESCINDING RESOLUTION NUMBER 2003-535**

WHEREAS, the City of Modesto Police Department desires to undertake a certain project designated as California Seat Belt Compliance Campaign from the State Office of Traffic Safety (hereafter referred to as OTS), and

WHEREAS, the goal of the grant in the amount of \$101,392.00 is to increase statewide seat belt use to 94 percent in the year 2004 through the combined efforts of the California Highway Patrol, the State Office of Traffic Safety and local law enforcement, and

WHEREAS, the monies provided in this grant will provide for overtime police personnel for seat belt enforcement during a mobilization period from November 17 – 30, 2003 and will provide for overtime police personnel for seat belt enforcement during the following three mobilization periods:

May 24 – June 6, 2004,

August 12 – 18, 2004, and

September 2 – 8, 2004, and

WHEREAS, there is no required City match for this program and all costs are paid for by funds from the State, and

WHEREAS, the State Office of Traffic Safety and the City of Modesto have an executed agreement for a grant project in the amount of \$34,469.00 for the mobilization period of November 17 – 30, 2003, approved by Council Resolution Nnumber 2003-535,

and the State Office of Traffic Safety has chosen to incorporate that agreement into this new agreement which will cover all four mobilization periods and all the budget costs thereof,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts a grant from the State Office of Traffic Safety in the amount of \$101,392.00 to participate in the California Seat Belt Compliance Campaign.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the grant contract with OTS, including any extensions or amendments thereof and any subsequent contract with the State in relation thereto.

BE IT FURTHER RESOLVED that Resolution Number 2003 – 535, accepting the first Office of Traffic Safety agreement for the mobilization period of November 17 – 30, 2003, is hereby rescinded.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of May, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 279**

**A RESOLUTION ACCEPTING TWO GRANTS, ONE IN THE AMOUNT OF \$6,470 FROM THE OFFICE OF CRIMINAL JUSTICE PLANNING AND ONE IN THE AMOUNT OF \$43,024 FROM THE BOARD OF CORRECTIONS, APPROVING THE MODESTO JUVENILE IMPACT PROGRAM AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE NECESSARY GRANT DOCUMENTS**

WHEREAS, the Modesto Police Department proposed a project to the State Office of Criminal Justice Planning designated the Modesto Juvenile Impact Program to continue the WAKE-UP (Willing to become Aware and to Gain Knowledge of Experiences that are Useful Program) sessions and the Diversion Clean-Up Work Details, and

WHEREAS, Modesto's allocation under this program was \$44,545 from the State with a match of \$4,949 for a total program amount of \$49,494 for the 2003/2004 fiscal year, and

WHEREAS, the grant covers the cost of six WAKE-UP sessions for a total of 210 at-risk or first-time offending diversion referred juveniles and their parents and 37 community clean-up work details for 370 first-time offending diversion referred juveniles, and

WHEREAS, approval of this program will assist in attaining the Health and Safety Plan Strategic Action to "Develop and implement **Youth Crime Prevention Programs,**" and

WHEREAS, this grant program was approved for a three month grant with the Office of Criminal Justice Planning for \$6,470 and for a nine month grant with the Board

of Corrections for \$43,024 because the Office of Criminal Justice Planning was eliminated in the 2003/2004 California State budget, and

WHEREAS, in anticipation of the approval of the Modesto Juvenile Impact Program, funds were budgeted in the 2003/2004 Police Department Budget,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the two grants in the total amount of \$49,494 and approves the Modesto Juvenile Impact Program with the State Office of Criminal Justice Planning and the Board of Corrections.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the necessary grant documents for the two grants.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the City of Modesto agrees to provide the matching funds in the amount of \$4,949 for the program.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the grant funds received hereunder shall not be used to supplant expenditures controlled by this body.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25<sup>th</sup> day of May, 2004, by Councilmember Dunbar, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004- 281**

**A RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS WITHIN THE SCOPE OF THE VILLAGE ONE PROGRAM ENVIRONMENTAL IMPACT REPORT (SCH NO. 90020181), AS AMENDED BY THE SUPPLEMENTAL EIR: PRECISE PLAN AMENDMENT FOR AREA NO. 13 TO ALLOW THE CREATION OF 16 ADDITIONAL LOTS**

WHEREAS, the Modesto City Council has adopted Resolution No. 90-757 certifying that the Village One Final Environmental Impact Report (“EIR”) (State Clearing House No. 90020181) is complete and adequate pursuant to Section 15090 of the California Environmental Quality Act (“CEQA”) Guidelines, and

WHEREAS, the Modesto City Council has adopted Resolution No. 94-297 which certified the Final Supplemental EIR for Village One; thus, the 1990 Village One Program EIR has been superseded and updated by the 1994 Supplemental EIR, adopted on May 24, 1994, which Supplemental EIR incorporates by reference technical studies and background material from the 1990 Program EIR, and

WHEREAS, an application has been filed by John Lagos for a Precise Plan Amendment for Area No. 13, property located east of Roselle Avenue, between Hillglen Avenue and Kodiak Drive, and

WHEREAS, the City’s Community & Economic Development Department reviewed the proposed project to determine if said project might have a significant effect on the environment, and

WHEREAS, City staff has prepared an Initial Study, Environmental Assessment No. EA/C&ED 2002-24, which concluded that the proposed project is within the scope of the Village One Program EIR (SCH No. 90020181), as amended by the Village One Supplemental EIR, and

WHEREAS, the Planning Commission, by Resolution No. 2004-23, adopted on April 19, 2004, and City staff, by a report dated May 3, 2004, from the Community and Economic Development Department, recommended to the City Council approval of an amendment to Precise Plan Area No. 13, property located east of Roselle Avenue, between Hillglen Avenue and Kodiak Drive, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on May 25, 2004, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 10<sup>th</sup> Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered Environmental Assessment No. EA/C&ED 2004-24, and the Council hereby makes the following findings:

1. As per Sections 15168(c) and 15182 of the California Environmental Quality Act ("CEQA") Guidelines, this project is within the scope of the projects covered by the Program EIR, and no new environmental document or findings are required by CEQA.
2. There are no substantial changes proposed in the project which result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the Village One Program EIR, as amended by the 1994 Supplemental EIR, are required.
3. No substantial changes have occurred with respect to the circumstances under which the project is undertaken which will result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and therefore, no major revisions to the Village One Program EIR, as amended by the 1994 Supplemental EIR are required.
4. There is no new information of substantial importance that was not known and could not have been known with the exercise of reasonable diligence when the Village One Program EIR, as amended by the 1994 Supplemental EIR, was adopted which shows any of the following:
  - a. one or more significant effects which is not discussed in the Village One Program EIR, as amended by the 1994 Supplemental EIR; or,

- b. significant effects which were previously examined will be substantially more severe than previously shown; or,
  - c. previously infeasible mitigation measures or alternatives are now feasible and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative; or,
  - d. mitigation measures or alternatives which are considerably different from those analyzed in the Village One Program EIR, as amended by the 1994 Supplemental EIR, would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.
5. The Initial Study, Environmental Assessment EA/C&ED 2004-24, provides the substantial evidence to support findings 1-4, noted above.

A copy of said Environmental Assessment No. EA/C&ED 2004-24, is attached hereto as **Exhibit "A"**, and incorporated herein as reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25<sup>th</sup> day of May, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

# WRITTEN CHECKLIST

EA/C&ED No. 2004-24

## I. PURPOSE

This written checklist, pursuant to CEQA Guidelines Section 15168 (C) (4), serves to make a determination where subsequent activities of a Program EIR involve site-specific operations, based on evaluation of the site and the activity to determine whether the environmental effects of the operation were covered in the program EIR. Based on a review of the project and Section 15162(a), this determination would permit the lead agency (City of Modesto) to approve the activity as being within the scope of the project covered by the Program EIR. This determination includes whether any new environmental document is required beyond the adopted Village One Specific Plan Program EIR (SCH# 90020181) for the proposed Amendment to Precise Plan Area #13 and Lagos VTSM and Rush VTSM (project).

The 1994 Supplemental EIR that amended and superseded the 1990 Program EIR is the document reviewed for projects within the Village One Specific Plan area. A summary of significant impacts and their mitigation measures from the 1994 Supplemental EIR is attached as Exhibit "A." Where appropriate those feasible mitigation measures developed in the Supplement to the program EIR shall be incorporated into the proposed project.

## II. PROJECT INFORMATION

1. **Project Title:** Amendment to Precise Plan 13 & Lagos VTSM and Rush VTSM
2. **Lead Agency Name and Address:** City of Modesto
3. **Contact Person and Phone Number:** Josh Bridegroom, Associate Planner  
Modesto Community & Economic Development  
Department  
209/571-5540

4. **Project Location:** Between Hillglen Avenue and Kodiak Drive East of Oakdale Road.  
Modesto, California  
APN #s 085-001-061, 010, 017, 048
5. **Project Sponsor's Name and Address:** Associated Engineering  
4206 Technology Drive  
Modesto, Ca. 95354
6. **General Plan Designation:** The General Plan land use designation for the project site is: Village Residential (VR).
7. **Zoning:** Specific Plan Overlay (SP-O)
8. **Description of Project:** This is an application to amend Precise Plan Area No. 13, to allow the creation of 19 additional lots. The redesign affects the circulation and density of the previously approved Precise Plan. Specifically, it proposes to create an additional through street to Kodiak Drive and add 13 new lots to the southwest section of the precise plan and to construct a new cul-de-sac with six lots and a remainder out of a ranchette parcel, one parcel south of the intersection of Esta Avenue and the future extension of Hillglen Avenue. The Lagos VTSM proposes the creation of 50 lots on the northwest corner of Kodiak Drive and Esta Avenue. The Rush VTSM proposes the creation of six lots with a remainder on the southwest corner of Hillglen and Esta Avenues.
9. **Surrounding Land Uses and Setting:** The Village One Specific Plan Area is over half built, as planned and approved by the 1990 Village One Specific Plan. The project area is surrounded by single-family residential development and ranchettes.
10. **Other Public Agencies whose Approval Is Required:** None.

### **III. DETERMINATION:**

Based on the analysis contained in this document, staff finds that pursuant to Guidelines Section 15162 the following is true for the proposed project:

- (1) Major revisions to the Village One Program EIR as amended by the 1994 Supplement, are not required because the project will not involve new significant environmental effects or increase severity of effects previously identified, and
- (2) Major revisions to the Village One Program EIR as amended by the 1994

## IV. PROJECT EVALUATION:

The following written Checklist based on Appendix G of the CEQA Guidelines serves to document the evaluation of the site and activity of the proposed project pursuant to CEQA Guidelines Section 15168 (c) (4) to determine whether the environmental effects of the operation were covered in the Program EIR.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
<b>I. AESTHETICS.</b> Would the project:				
a. Have a substantial adverse effect on a scenic vista?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings along a scenic highway?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c. Substantially degrade the existing visual character or quality of the site and its surroundings?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Create a new source of substantial light or glare that would adversely affect daytime or nighttime views in the area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

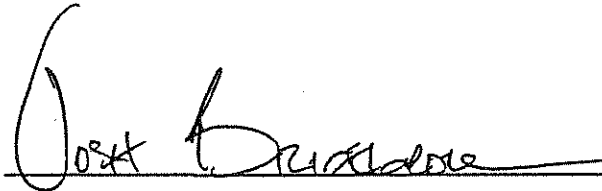

Aesthetic and visual impacts are analyzed on pages III-100 through III-101 of the 1994 Supplement.

### Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that as the Specific Plan area is developed, it will eliminate views of the valley and the distant mountains from adjacent areas and reduce the area's visual open space. However, the program EIR found the effects of buildout of Village One on scenic vistas to be less than significant because views from the project area are minimal. The proposed residential projects would not change the extent or nature of construction in the Specific Plan area, or cause any other changes in the project area. Impacts on scenic vistas would therefore remain the same as those identified in the program EIR. There would be no additional impact. No mitigation is required.
- b. The Village One Specific Plan program EIR found that there are no scenic resources in the project area, and that development within the Specific Plan area would therefore not result in significant impacts on scenic resources. This

Supplement, are not required because no substantial changes to circumstances have occurred that involve new significant environmental effects or increase severity of effects previously identified, and

- (3) No new information of substantial importance that was not known has become available that shows:
  - a. one or more significant effects is not discussed in the Village One Program EIR as amended by the 1994 Supplement,
  - b. identified significant effects will be more severe,
  - c. previously infeasible mitigation measures are now feasible,
  - d. project proponents have declined to adopt mitigation measures that would substantially reduce significant effects.
- (4) Because no new significant effects have been identified and no new mitigation is required for the project, the environmental effects of the operation of the proposed project were covered by the Village One Program EIR as updated by the 1994 Supplement. Therefore, pursuant to CEQA Section 15168 (C) (4) no new environmental document is required.
- (5) Therefore, the projects known as Amendment to Precise Plan Area 13 and Lagos VTSM and Rush VTSM are within the scope of the Village One Program EIR.

 4/9/04  
Project Manager Date

finding would not be affected by the proposed residential projects. There would be no impact. No mitigation is required.

- c. The Village One Specific Plan program EIR found that the development within the Specific Plan area would have a less-than-significant impact on the visual character of the area. The proposed residential projects would not change the design or layout of the development proposed within the Village One Specific Plan. For this reason, impacts on the visual character of the area would remain the same as those identified in the program EIR. There would be no additional impact. No mitigation is required.
- d. The proposed residential development is consistent with the Village One Specific Plan. For this reason, impacts associated with additional light and glare would remain the same as those identified in the program EIR. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**II. AGRICULTURAL RESOURCES.** In determining whether impacts on agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Department of Conservation. Would the project:

- |    |   |                          |                          |                          |                                     |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Conflict with existing zoning for agricultural use or conflict with a Williamson Act contract?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Involve other changes in the existing environment that, due to their location or nature, could result in conversion of Farmland to non-agricultural use?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on agricultural resources are analyzed on pages III-80 through III-94 of the 1994 Supplement.

## Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that land designated as Prime Farmland would be lost as a result of development in the Village One Specific Plan area. This impact was determined to be significant and not mitigable. The proposed residential development would not affect this finding because the project area would remain the same. There would be no additional impact. No mitigation is required.
- b. The Village One Specific Plan program EIR presented information showing that any Williamson Act contracts in the Village One Specific Plan area would be automatically cancelled on annexation of the land to the City of Modesto, which has occurred, or would expire within 10 years of the time the original program EIR was prepared. The last Williamson Act contract covering land in the Village One Specific Plan area expired in 2001. There are no lands in the project area under Williamson Act contract. The Village One Specific Plan area has also been rezoned consistent with the specific plan, and no lands in the project area are now zoned for agricultural use. There would be no additional impact. No mitigation is required.
- c. The Village One Specific Plan program EIR identified a potential land use conflict between new residential uses in the specific plan area and adjacent agricultural uses. Such conflicts can lead to conversion of adjacent farmlands to other uses. The program EIR proposed mitigation measures for this potential impact that would reduce the impact's significance, although the EIR noted that the mitigation measure might not fully mitigate the impact. No additional mitigation measures are available for this impact. This finding would not be affected by the proposed project because the project area and proposed land uses would remain the same. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**III. AIR QUALITY.** When available, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the following determinations. Would the project:

- |    |   |                          |                          |                          |                                     |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Conflict with or obstruct implementation of the applicable air quality plan?                                    | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Violate any air quality standard or contribute substantially to an existing or projected air quality violation? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
c. Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is a nonattainment area for an applicable federal or state ambient air quality standard (including releasing emissions that exceed quantitative thresholds for ozone precursors)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Expose sensitive receptors to substantial pollutant concentrations?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e. Create objectionable odors affecting a substantial number of people?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on air quality are analyzed on pages III-45 through III-54 of the 1994 Supplement.

## Responses to Checklist Questions

- a. / b. The Village One Specific Plan program EIR found that air pollution from project-related construction traffic and fireplaces & wood stoves in planned residential areas would violate air quality standards and contribute to an existing air quality violation. Construction traffic emissions would contribute to violation of the state and federal 8-hour carbon monoxide (CO) and particulate matter (PM10) standards and the federal ozone standard in the Modesto Urban Area and the San Joaquin Valley Air Basin. Urban traffic pollution would contribute to violations of the state ozone, CO, and PM10 standards in the Modesto Urban Area and San Joaquin Valley Air Basin. Residential pollution would contribute to violations of the pollutant standard index in the Modesto Urban Area. Partial mitigation for these impacts is included in the program EIR (Mitigation Measures 3–5), and the City of Modesto adopted a statement of overriding consideration for each impact. The proposed residential projects would not change the amount of development and construction in the project area, so trips generated by the project would not be affected and the types of land uses would not change. There would be no additional impact. No mitigation is required.
- c. The Village One Specific Plan program EIR found that air pollutant emissions associated with traffic at buildout of Village One would exacerbate the existing ozone, PM10, and CO violations in the Modesto area and cause a significant cumulative impact. Partial mitigation for these emissions is included in the program EIR (Mitigation Measures 4.5.3[a] and 4.5.3[b]), and the City of Modesto made a statement of overriding consideration for each impact. The proposed residential development would not change the amount of traffic associated with buildout of Village One or the types of land uses, so trips

generated by the project would not be affected. There would be no additional impact. No mitigation is required.

- d. The Village One Specific Plan program EIR found that PM10 generated during construction would aggravate the respiratory problems of people living and working nearby, therefore exposing sensitive receptors in the area to pollutant concentrations and causing a significant impact. However, the program EIR outlines mitigation measures that will be implemented to reduce the impact to an acceptable level (Mitigation Measure 40). The proposed residential development would not change the level of construction emissions. There would be no additional impact. No mitigation is required.
- e. The proposed residential development would not create odors. There would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**IV. BIOLOGICAL RESOURCES.** Would the project:

- |  |                          |                          |                                     |                                     |
|--|--------------------------|--------------------------|-------------------------------------|-------------------------------------|
| a. Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special-status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service? | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/>            |
| b. Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/>            | <input checked="" type="checkbox"/> |
| c. Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marshes, vernal pools, coastal wetlands, etc.) through direct removal, filling, hydrological interruption, or other means?                                 | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/>            | <input checked="" type="checkbox"/> |
| d. Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/>            | <input checked="" type="checkbox"/> |

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
e. Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f. Conflict with the provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on biological resources are analyzed on pages III-68 through III-79 of the 1994 Supplement.

## Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that the buildout could result in the loss of foraging habitat for Swainson's Hawk, a state-listed threatened species. However, a Swainson's Hawk survey was conducted by a qualified biologist for the project site. The ensuing report (attached) found that the development of the project site would result in a less than significant impact to foraging habitat for Swainson's Hawk. Therefore, no mitigation is required.
- b. The Village One Specific Plan program EIR did not find that any riparian habitat or other designated sensitive natural community was present in the project area, and so found that the project would have a less-than-significant impact. The proposed residential development would not change the boundaries of the Specific Plan area. There would be no impact. No mitigation is required.
- c. The Village One Specific Plan program EIR found that buildout of the Village One Specific Plan area would result in the loss of lands that might be classified as wetlands by the U.S. Army Corps of Engineers, but that, with mitigation, the impact would be less than significant. The proposed residential development would not change the Specific Plan area boundaries or the areas that would be disturbed. There would be no additional impact. No mitigation is required.
- d. The Village One Specific Plan program EIR did not identify any migratory corridors in the project area, nor did it find that the project would interfere with the movement of any species. The proposed residential development would not change the Specific Plan area boundaries. There would be no impact. No mitigation is required.
- e. / f. No local biological resource protection policies, ordinances, habitat conservation plans, or natural community conservation plans apply to the Village One Specific Plan area. There would be no impact. No mitigation is required.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
<b>V. CULTURAL RESOURCES.</b> Would the project:				
a. Cause a substantial adverse change in the significance of a historical resource as defined in Section 15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Cause a substantial adverse change in the significance of an archaeological resource pursuant to Section 15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c. Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Disturb any human remains, including those interred outside of formal cemeteries?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

## Responses to Checklist Questions

- a.-d. Impacts on cultural resources resulting from the buildout of Village One (e.g., from construction of associated infrastructure) are addressed in the Opportunities/Constraints Report prepared for the Modesto Planning Commission (December 1, 1989). The report concluded that there are no known historic, archaeological, or paleontological resources in the Village One Specific Plan area. Based on the results of this report, (Cultural and Historic Resources Report, page 3) it was determined that the likelihood that the proposed residential development would change or disturb human remains or significant historic, archaeological, or paleontological resources was low.

The proposed project would not change the locations or types of construction in the project area nor the boundaries of the project area. Development of the proposed project will not result in effects on scattered existing structures. A Cultural Resources Assessment was prepared to determine if any of these affected structures are considered historic resources. The Cultural Resources Assessment is attached to this document as Appendix A. No historic structures are located within the project area boundaries. Therefore, no mitigation measures are necessary.

Since no archaeological, or paleontological resources were found in the previous document to be located in the project area, and since the proposed project would not have a significant impact on historic structures, there would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**VI. GEOLOGY AND SOILS.** Would the project:

- |    |  |                          |                          |                          |                                     |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving:  |                          |                          |                          |                                     |
|    | 1. Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
|    | 2. Strong seismic groundshaking?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
|    | 3. Seismic-related ground failure, including liquefaction?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
|    | 4. Landslides?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Result in substantial soil erosion or the loss of topsoil?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Be located on a geologic unit or soil that is unstable or that would become unstable as a result of the project and potentially result in an onsite or offsite landslide, lateral spreading, subsidence, liquefaction, or collapse?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e. | Have soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts associated with geology and soils are analyzed on pages III-105 through III-108 of the 1994 Supplement.

## Responses to Checklist Questions

- a.-d. The program EIR, as supplemented, found that the project area is not subject to geologic or soil-related hazards that cannot be adequately mitigated through the implementation of existing city regulations, such as the building code. No significant impacts were identified, and no mitigation measures were required. The proposed residential development would not change the locations or types of construction in the project area nor the boundaries of the project area. There would be no additional impact. No mitigation is required.
- e. The Village One Specific Plan included provisions for the project to be served by public sewers. No septic tanks or alternative wastewater systems were proposed. The proposed residential project would not change the proposed method of wastewater disposal. There would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

### VII. HAZARDS AND HAZARDOUS MATERIALS.

Would the project:

- |    |  |                          |                          |                          |                                     |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Emit hazardous emissions or involve handling hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Be located on a site that is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?                   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e. | Be located within an airport land use plan area or, where such a plan has not been adopted, be within two miles of a public airport or public use airport, and result in a safety hazard for people residing or working in the project area? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Potentially Significant	Less than Significant	Less-than- Significant	No Impact
----------------------------	--------------------------	---------------------------	--------------

	Impact	with Mitigation Incorporated	Impact		
f.	Be located within the vicinity of a private airstrip and result in a safety hazard for people residing or working in the project area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g.	Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
h.	Expose people or structures to a significant risk of loss, injury, or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with hazards and hazardous materials are analyzed on pages III-80 through III-94 and III-109 through III-119 of the 1994 Supplement.

## Responses to Checklist Questions

- a.-c. The Village One Specific Plan does not allow any land uses that would use hazardous materials. The proposed residential development would not change land uses contemplated by the Specific Plan. There would be no impact. No mitigation is required.
- d. The Village One Specific Plan program EIR, as supplemented, found no hazardous materials were stored at or near the project site. No significant impacts were identified, and no mitigation measures were required. There would be no additional impact. No mitigation is required.
- e. The Village One Specific Plan area is not located in an airport land use plan area or within 2 miles of a public airport. There would be no impact. No mitigation is required.
- f. The Village One Specific Plan program EIR found that a private airstrip, the Eastside Mosquito Abatement District Airstrip, is located to the east of the Village One Specific Plan area. However, take-offs and landings were found to take place parallel to and outside the Specific Plan area boundaries, and flight patterns are generally situated to the east of the Specific Plan area. There would be no additional impact. No mitigation is required.
- g. Since the adoption of the Village One Specific Plan, the Modesto General Plan has been updated to include development of Village One consistent with the specific plan. City emergency plans are developed with the assumption that the Village One Specific Plan will be implemented. The proposed residential development would not change construction, land use, or other physical attributes of the Right-of-Way Acquisition. There would be no additional impact. No mitigation is required.

- h. The project site is located in an area of the City of Modesto planned for buildout of an urban neighborhood. Approximately 50% of the project area remains undeveloped, with a covering of dry brush and vegetation. The potential for wildland fires is low, and this potential will decrease further as buildout continues. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**VIII. HYDROLOGY AND WATER QUALITY.**

Would the project:

- |    |  |                          |                          |                          |                                     |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Violate any water quality standards or waste discharge requirements?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Substantially deplete groundwater supplies or interfere substantially with groundwater recharge, resulting in a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level that would not support existing land uses or planned uses for which permits have been granted)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner that would result in substantial erosion or siltation onsite or offsite?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner that would result in flooding onsite or offsite?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

- |    |   |                          |                          |                          |                                     |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| e. | Create or contribute runoff water that would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f. | Otherwise substantially degrade water quality?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

- |    |  |                          |                          |                          |                                     |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| g. | Place housing within a 100-year flood hazard area, as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| h. | Place within a 100-year flood hazard area structures that would impede or redirect floodflows?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| i. | Expose people or structures to a significant risk of loss, injury, or death involving flooding, including flooding as a result of the failure of a levee or dam?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| j. | Contribute to inundation by seiche, tsunami, or mudflow?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts associated with hydrology are analyzed on pages III-109 through III-119 of the 1994 Supplement.

## Responses to Checklist Questions

- a. The Village One Specific Plan program EIR did not find that residential development would violate any water quality standards or waste discharge requirements. The proposed project is consistent with the Village One Specific Plan, so there would be no additional impacts. No mitigation is required.
- b. The Village One Specific Plan program EIR found that buildout of the Village One Specific Plan area might interfere with local groundwater recharge. However, the impact was found to be less than significant because the Specific Plan area is not a major groundwater recharge area and it includes a recharge/discharge plan for disposal of stormwater runoff and recharge of groundwater. The proposed project would not change the amount of impervious surface in the Specific Plan area or the proposed storm drain facilities. There would be no additional impact. No mitigation is required.
- c.-e. The Village One Specific Plan program EIR found that development will substantially alter the existing drainage pattern of the area but, because the project will incorporate an urban storm drain system, will not result in any erosion impacts. The proposed project would not change the amount of impervious surface or the proposed storm drain facilities. There would be no additional impact. No mitigation is required.
- f. The Village One Specific Plan program EIR did not find that development would substantially degrade water quality. The proposed project would not change water use or discharge associated with the buildout of the Village One Specific Plan area. There would be no additional impact. No mitigation is required.
- g.-i. According to the Village One Specific Plan program EIR, the project site is not situated in a 100-year flood hazard area or downstream from a levee or dam. There would be no impact. No mitigation is required.

- j. The project site is located in a flat, inland area not susceptible to seiche, tsunami, or mudflow. There would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**IX. LAND USE AND PLANNING.** Would the project:

- |    |   |                          |                          |                          |                                     |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Physically divide an established community?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Conflict with any applicable land use plan, policy, or regulation of an agency with jurisdiction over the project (including, but not limited to, a general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Conflict with any applicable habitat conservation plan or natural community conservation plan?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts associated with land use and planning are analyzed on pages III-80 through III-94 of the 1994 Supplement.

## Responses to Checklist Questions

- a. The proposed project would not result in any physical changes to the environment beyond those described in the Village One Specific Plan. Village One would continue to be developed as a planned community; therefore, the project would not divide an established community. There would be no impact, and no mitigation is required.
- b., c. The Village One Specific Plan has been adopted by the City of Modesto and has been incorporated into the Modesto General Plan. The proposed project would be consistent with the Village One Specific Plan. There are no other applicable land use or conservation plans for the project area. There would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**X. MINERAL RESOURCES.** Would the project:

- |    |   |                          |                          |                          |                                     |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|

- b. Result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan?

## Responses to Checklist Questions

- a., b. No known mineral resources or important recovery sites are located in the Village One Specific Plan Area. There would be no impact. No mitigation is required.

### XI. NOISE. Would the project:

- c. Result in a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?
- d. Result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?
- e. Be located within an airport land use plan area, or, where such a plan has not been adopted, within two miles of a public airport or public use airport and expose people residing or working in the project area to excessive noise levels?
- f. Be located in the vicinity of a private airstrip and expose people residing or working in the project area to excessive noise levels?

Impacts associated with noise are analyzed on pages III-55 through III-67 of the 1994 Supplement.

- a., c. The Village One Specific Plan program EIR found that proposed residential housing in the project area would be exposed to noise levels exceeding general plan thresholds, but mitigation measures were incorporated to reduce the impact to a less-than-significant level. The proposed project would not change project-related noise-generating activities. There would be no additional impact. No mitigation is required.
- b. The Village One Specific Plan program EIR found that the buildout of Village One would not expose people to, or generate excessive, groundborne vibration or groundborne noise levels. There would be no impact. No mitigation is required.
- d. The Village One Specific Plan program EIR found that construction of the proposed project would result in a substantial temporary increase in ambient noise levels for residential housing. However, mitigation measures were incorporated into the program EIR to reduce the impact to a less-than-significant

level. The proposed project would not change construction activities. There would be no additional impact. No mitigation is required.

- e. The Village One Specific Plan program EIR found that the Village One Specific Plan area is not located in an airport land use plan area or within 2 miles of a public airport. There would be no impact. No mitigation is required.
- f. The Village One Specific Plan program EIR found that a private airstrip, the Eastside Mosquito Abatement District Airstrip, is located east of the Village One Specific Plan area. However, take-offs and landings take place parallel to and outside the Specific Plan boundaries, and flight patterns are generally situated east of the project area. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**XII. POPULATION AND HOUSING.** Would the project:

- |    |  |                          |                          |                          |                                     |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Induce substantial population growth in an area, either directly (e.g., by proposing new homes and businesses) or indirectly (e.g., through extension of roads or other infrastructure)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Displace a substantial number of existing housing units, necessitating the construction of replacement housing elsewhere?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Displace a substantial number of people, necessitating the construction of replacement housing elsewhere?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on population and housing are analyzed on pages III-95 through III-99 of the 1994 Supplement.

## Responses to Checklist Questions

- a.-c. The Village One Specific Plan program EIR found that buildout of the Village One Specific Plan area would not result in significant adverse impacts on population and housing units. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**XIII. PUBLIC SERVICES.** Would the project:

- a. Result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities or a need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times, or other performance objectives for any of the following public services:

Fire protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Police protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Schools?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Parks?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Other public facilities?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on public services are analyzed on pages III-120 through III-158 of the 1994 Supplement.

## Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that the only significant impact that buildout of the Village One Specific Plan area would have on public services would be in the areas of fire protection and law enforcement. Mitigation measures were identified in the program EIR to reduce the level of this impact to a less-than-significant level. No other significant impacts on public services were identified. The proposed project would not change the provision of public services. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**XIV. RECREATION.** Would the project:

- |  |                          |                          |                          |                                     |
|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. Increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. Include recreational facilities or require the construction or expansion of recreational facilities that might have an adverse physical effect on the environment?                        | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on recreation are analyzed on pages III-120 through III-158 of the 1994 Supplement.

## Responses to Checklist Questions

- a., b. No significant impacts on recreation were identified in the program EIR. The proposed project would not change the provision of parks and recreation facilities. There would be no additional impact. No mitigation is required.

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
<b>XV. TRANSPORTATION/TRAFFIC.</b> Would the project:				
a. Cause an increase in traffic that is substantial in relation to the existing traffic load and capacity of the street system (i.e., result in a substantial increase in the number of vehicle trips, the volume-to-capacity ratio on roads, or congestion at intersections)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Cause, either individually or cumulatively, exceedance of a level-of-service standard established by the county congestion management agency for designated roads or highways?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c. Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Substantially increase hazards because of a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e. Result in inadequate emergency access?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f. Result in inadequate parking capacity?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g. Conflict with adopted policies, plans, or programs supporting alternative transportation (e.g., bus turnouts, bicycle racks)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on transportation and traffic are analyzed on pages III-40 – III-44 of the 1994 Supplement.

## Responses to Checklist Questions

- a., b. The Village One Specific Plan program EIR found that buildout of the Village One Specific Plan area would cause an increase in traffic that is substantial in relation to the existing traffic load and capacity of the street system and would affect level of service at several intersections. Mitigation measures identified in the program EIR were identified to reduce impacts to a less-than-significant level for all intersections except the Briggsmore Avenue/Oakdale Avenue intersection. For that intersection, the impact was determined to be significant and not mitigable. The City of Modesto made a statement of overriding considerations for that impact at the time it certified the 1994 Supplement. The proposed project would not alter traffic patterns in the Specific Plan area or result in additional trips. There would be no additional impact. No mitigation is required.
- c. The Village One Specific Plan program EIR did not find that the buildout of the Village One Specific Plan area would result in a change in air traffic patterns. The proposed project does not include any elements that would affect air traffic patterns. There would be no impact. No mitigation is required.
- d. The Village One Specific Plan program EIR did not find that buildout of the Village One Specific Plan area included any hazardous design features or increased any incompatible uses for roads in the project area. The proposed project would not change roadway design or land uses. There would be no impact. No mitigation is required.
- e. The Village One Specific Plan program EIR did not find that buildout of the Village One Specific Plan area would result in inadequate emergency access in the Specific Plan area. The Specific Plan includes provision of adequate roadways to serve the Village One development. The proposed project would not change roadway design or land uses contained within the Specific Plan. There would be no additional impact. No mitigation is required.
- f. The Village One Specific Plan program EIR did not find that buildout of the Village One Specific Plan area would result in inadequate parking capacity in the Specific Plan area. The provision of parking, consistent with zoning requirements for the proposed project, is included in the project design. There would be no impact. No mitigation is required.
- g. The proposed project does not include any changes related to transportation policies, and would have no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

### XVI. UTILITIES AND SERVICE SYSTEMS.

Would the project:

- a. Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board?

- |    |   |                          |                          |                          |                                     |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| b. | Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?                           | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Require or result in the construction of new stormwater drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?                                     | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Have sufficient water supplies available to serve the project from existing entitlements and resources, or would new or expanded entitlements be needed?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e. | Result in a determination by the wastewater treatment provider that serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f. | Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| g. | Comply with federal, state, and local statutes and regulations related to solid waste?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on utilities and service systems are analyzed on pages III-120 through III-158 of the 1994 Supplement.

## Responses to Checklist Questions

- a. The City provides sewer services to the Village One area. All wastewater would be directed to city wastewater treatment facilities. No wastewater discharges would occur in the project area. The proposed project would not increase the amount of wastewater that will be generated at buildout of the Specific Plan area. There would be no additional impact. No mitigation is required.
- b., e. The Village One Specific Plan program EIR discusses the changes and new facilities that will be needed to accommodate buildout of the Village One Specific Plan area. The EIR found that, with mitigation, there would be no significant impact on water or wastewater infrastructure. There would be no additional impact as a result of the proposed project. No mitigation is required.
- c. The Village One Specific Plan program EIR discusses the changes and new facilities that will be needed in order to accommodate buildout of the Village One Specific Plan area. The EIR found that, with mitigation, there would be no significant impact on stormwater drainage facilities. An update to the Storm Drainage Master Plan has been prepared and is under consideration by the City.

An addendum to the Village One program EIR for the Storm Drainage Master Plan has also been prepared and is under consideration by the City. The project would not result in any additional impacts or the need for any additional mitigation beyond that assessed in the Addendum to the Village One Program EIR for the Storm Drainage Master Plan.

- d. The Village One Specific Plan program EIR found that, with mitigation, the effects of buildout of the Village One Specific Plan area on water supply would be less than significant. There would be no additional impact resulting from the proposed project. No mitigation is required.
- f., g. The Village One Specific Plan program EIR found that the area's landfills have sufficient permitted capacity to accommodate the project's solid waste disposal needs. The proposed project would not result in any physical changes in the environment or the generation of any additional solid waste. There would be no impact. No mitigation is required.

**XVII. MANDATORY FINDINGS OF SIGNIFICANCE.**

- a. Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory?
- b. Does the project have impacts that are individually limited but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.)
- c. Does the project have environmental effects that will cause substantial adverse effects on human beings, either directly or indirectly?

Cumulative impacts are analyzed on page III-161 of the 1994 Supplement.

**Responses to Checklist Questions**

- a. As described above, the proposed project would not result in any significant impacts on the environment over and above those associated with

implementation of the Village One Specific Plan and as analyzed in the Village One Specific Plan program EIR.

- b. As described above, the proposed project would not result in any significant impacts, either on a project or on cumulative level, over and above those associated with implementation of the Village One Specific Plan and as analyzed in the Village One Specific Plan program EIR.
- c. As described above, the proposed project would not result in any significant impacts affecting humans over and above those associated with implementation of the Village One Specific Plan and as analyzed in the Village One Specific Plan program EIR.

## V. MITIGATION APPLIED TO PROJECT

The following mitigation measures developed in the 1994 Village One Specific Plan Supplement to the Program EIR are appropriate to the project and will be incorporated into the project. Therefore, the environmental effects of the project were covered by the program EIR.

1. Prior to the Final Inspection, Building Inspection Division shall verify that all fireplaces and wood stoves in residential units are equipped to meet the performance and emissions standards set forth in Part 60, Title 40, Subpart AAA Code of Federal Regulations, February 26, 1988.
2. Construction noise is regulated by the City's Noise Ordinance, Section 4.9 – 103. Construction noise is generally permitted during the hours of 7:00 am to 9:00 pm. To avoid complaints from nearby residents, and possible citations, the full text of the ordinance should be reviewed by builders prior to construction. City construction projects will be monitored by Construction Inspection for conformance with the City's Noise Ordinance.
3. During construction activities, Building Inspection Division shall verify that contractors observe the requirements of City of Modesto Standard Specification 2.07(A)(5), Dust Control, and when necessary, Regulation VIII of the San Joaquin Valley Unified Air Pollution Control District to control the generation of PM 10 from construction related dust and emissions.
4. "All deeds for lots sold in this subdivision shall contain the following statement:  
  
"This lot is located near existing agricultural operations. Residents may be subjected to customary and accepted farming practices that produce noise, dust, smoke and other impacts. The grantee accepts the potential impacts of customary farming practices, which may include the application and use of various, chemicals through spraying, spreading or other customary means in accordance with applicable state and federal regulations regarding such applications. The grantee also acknowledges the need to avoid activities that conflict with nearby farm uses."

## INTRODUCTION

Swainson's Hawk, *Buteo swainsoni*, is a species of large hawk that nests in the Central Valley of California. It is a California state listed threatened species and thus it is protected, as is its nesting and foraging habitat. The large Village One development in Modesto, California has been divided into 35 "Precise Plan Areas". An earlier study had identified, in general terms, possible Swainson's Hawk foraging habitat within this development. Swainson's Hawks forage for food in a prescribed manner. As is typical of a number of other large hawks, they forage during the daylight hours by soaring high above the ground and watching for suitable prey (mostly small mammals such as mice and ground squirrels, but also large insects like grasshoppers). Once prey is spotted the bird dives to the ground to capture it. Thus suitable foraging habitat must be relatively clear of high vegetation or other obstructions, such as fences, for two reasons: to allow the hawk to see the prey; and to allow the hawk to swoop down upon it without striking obstructions. Thus, open fields and low growing croplands are suitable but orchards, vineyards, and tall crops (mature corn) are not. Since the Swainson's Hawk is only present in the Central Valley during Spring and Summer and nesting occurs predominantly from April through July, it is the condition of the fields at that time which is most important.

This study was undertaken to assess the foraging habitat for Swainson's Hawk in Precise Plan Area 13 for Village One in Modesto, California. This area contains approximately 55 acres of land bordered by Roselle Avenue to the West, Millbrook Avenue to the East, Hillglen Avenue (proposed extension) to the North and Kodiak Avenue (proposed extension) to the South.

## QUALIFICATIONS

My Curriculum Vita (resume) is attached. In summary, I have a Ph.D. in Zoology with over 30 years of university teaching experience in ecology and ornithology and appropriate research experience in each including conducting numerous wildlife surveys in Stanislaus County. I am also an ardent bird watcher who has spent many hours observing Swainson's Hawks both in California and throughout its range in the United States.

## FIELD SURVEY

Since all of the land in PPA #13 is visible from the existing roads, access to the property was not necessary, and a single visit was sufficient to assess the potential of its use for foraging by Swainson's Hawk. I conducted this visit on March 24, 2004.

## Swainson's Hawk Foraging Habitat Survey - Village One Precise Plan #13 - page 2

### DESCRIPTION OF THE AREA

As presented above, Roselle Avenue, Millbrook Avenue, Hillgren Avenue and Kodiak Avenue border PPA #13. In addition, Esta Avenue runs through the area from North to South near Millbrook Avenue. Much of the area is already developed, or is currently being developed, as house lots. This includes almost all of the area between Esta Avenue and Millbrook Avenue. Most of the frontage along Roselle Ave. and on the West side of Esta Ave. is developed as house lots. The development along Roselle is particularly deep into the area, extending to the East as far as Kodiak Avenue is currently paved (about half way between Roselle and Esta).

### ASSESSMENT OF THE AREA AS SWAINSON'S HAWK FORAGING HABITAT

Historically, the entire 55 acres of PPA #13 would have been good Swainson's Hawk foraging habitat. However, at the present time, more than half of this area is definitely not foraging habitat for this species. Although some of the developed acreage is in the form of pasture or gardens, the fences present obstacles to Swainson's Hawks foraging and render it unsuitable. The remaining land, between the developed land west of Esta Avenue and the west end of the existing pavement on Kodiak Avenue, is undeveloped pasture and thus it is potentially foraging habitat. However, a number of factors indicate that this land is, at best, very poor foraging habitat and the hawks probably use it minimally.

First, the preferred food of this hawk is small mammals, the predominant species in this area being the California ground squirrel. If this species is present in this area it is in very low numbers. I did not observe any ground squirrels or burrows on the property during my visit.

Second, since this land is surrounded by housing developments with a lot of automobile traffic on the roads, people walking through the area, and pets, particularly dogs being present, the hawks are likely to be disturbed while foraging and feeding which would drastically reduce the foraging efficiency for the species. Such reductions in foraging efficiency have been shown to result in nest failure or nest abandonment by the parents.

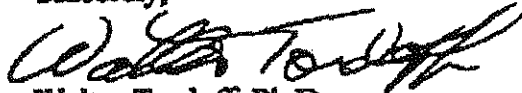

Finally, the close proximity to many humans and their activities presents the possibility of inadvertent poisoning of the hawks if people are intentionally or even unintentionally introducing toxic substances into the food chain. Poisons put out for rats, mice, and squirrels have been shown to be ingested by raptors causing illness, sterility, and/or death (this was one of the major causes of the decline in California condors in the 1980's). Substances such as antifreeze, while not intended to kill, may also be lethal to the hawks if ingested.

**Swainson's Hawk Foraging Habitat Survey – Village One Precise Plan #13 - page 3**

**CONCLUSIONS**

Although some of the land in Precise Plan Area #13 is technically foraging habitat for the Swainson's Hawk, a number of factors render it of minimal value to the species and I strongly doubt that it is used by that species. The loss of this habitat will have no significant impact for the Swainson's Hawk and no mitigation should be required.

Sincerely,

Walter Tordoff, Ph.D.  
Professor Emeritus of Biology

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-282**

**A RESOLUTION DENYING THE APPEAL OF NIKKI CROWL TO A  
PLANNING COMMISSION DECISION APPROVING THE FINAL  
DEVELOPMENT PLAN FOR SHADOW CREEK APARTMENTS, PROPERTY  
LOCATED NEAR THE NORTHEAST CORNER OF ROSELLE AND FLOYD  
AVENUES (AMERICAN PROPERTY DEVELOPMENT)**

WHEREAS, the City Council adopted the Village One Specific Plan, a 1,780-acre area of land adjoining the northeast portion of the City of Modesto, on October 16, 1990, and

WHEREAS, in accordance with the Village One Specific Plan, on July 10, 2001, by Ordinance No. 3229 C.S., the City Council adopted a Precise Plan for Area No. 20(NE), which designated 14 acres at the northeast corner of Floyd and Roselle Avenues for multi-family residential development, and

WHEREAS, an application for a Final Development Plan for a 232-unit apartment complex within Precise Plan Area No. 20(NE), near the northeast corner of Floyd and Roselle Avenues, was filed by American Property Development on December 19, 2003 in accordance with Chapter IV-C(1) of the Village One Specific Plan, and

WHEREAS, a public hearing was held by the Planning Commission on March 29, 2004, in Chambers, Tenth Street Place, 1010 Tenth Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered, and

WHEREAS, after considering testimony from staff, the applicants, and neighbors, the Commission continued the hearing item to April 19, 2004, and directed the applicants to work with neighborhood residents and staff to resolve compatibility issues related to privacy concerns, and

WHEREAS, the continued public hearing was held by the Planning Commission on April 19, 2004, in Chambers, Tenth Street Place, 1010 Tenth Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered, and

WHEREAS, Planning Commission Resolution No. 2004-21, approved the Final Development Plan for a 232-unit multi-family apartment complex located near the northeast corner of Floyd and Roselle Avenues, and

WHEREAS, an appeal to the decision of the Planning Commission was filed with the Office of the City Clerk by Nikki Crowl on April 28, 2004, and

WHEREAS, said appeal was set for a duly noticed public hearing before the City Council to be held on May 25, 2004, in the Tenth Street Place Chambers located at 1010 10<sup>th</sup> Street, Modesto, California, at which time said public hearing was held, and evidence both oral and documentary was received and considered, and

WHEREAS, after said public hearing the Council of the City of Modesto found and determined that the appeal of Nikki Crowl to the decision of the Planning Commission should be denied and the decision of the Planning Commission should be affirmed for the following reasons:

1. The proposed Final Development Plan for a 232-unit multi-family apartment complex located near the intersection of Floyd and Roselle Avenues meets all requirements of the City of Modesto Municipal Code and Village One Specific Plan.

2. Due to specifics of the project design, such as eight-foot masonry walls and screen landscaping, no neighborhood compatibility issues should be created by the proposed project.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appeal of Nikki Crowl to the decision of the Planning Commission approving a Final Development Plan for a 232-unit multi-family apartment complex located near the northeast corner of Floyd and Roselle Avenues is denied and the decision of the Planning Commission is hereby affirmed for the reasons set forth above.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25<sup>th</sup> day of May, 2004, by Councilmember O'Bryant, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Sabatino

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-283**

**A RESOLUTION ESTABLISHING NEW RATES AT THE MUNICIPAL NINE-HOLE GOLF COURSE, THE DRYDEN PARK MUNICIPAL GOLF COURSE AND THE CREEKSIDE MUNICIPAL GOLF COURSE, ESTABLISHING NEW RATES FOR ANNUAL PASSES, ESTABLISHING NEW RATES FOR HIGH SCHOOL ROUNDS AND TOURNAMENT PLAY, DEDICATING \$1.00 PER 18-HOLE ROUND AT THE END OF EACH FISCAL YEAR TO THE GOLF FUND RESERVE FOR CAPITAL IMPROVEMENTS, INTRODUCING A 6-HOLE RATE AT MUNICIPAL NINE-HOLE GOLF COURSE, AND RESCINDING RESOLUTION NO 2003-329.**

WHEREAS, on June 24, 2003, the City Council adopted Resolution No. 2003-329 which increased green fees at Municipal Nine-Hole Golf Course, Dryden Park Municipal Golf Course and Creekside Golf Course, and

WHEREAS, Resolution No. 2003-329 also established new rates for annual passes, high school rounds and tournament play, and

WHEREAS, City staff is recommending a green fee rate increase at the Municipal Nine-Hole Golf Course, Dryden Park Municipal Golf Course, and Creekside Municipal Golf Course, an increase in the price of annual passes, an increase in the price of high school rounds at City courses, and an increase in the tournament fee schedule, and

WHEREAS, City staff is recommending that a Golf Fund Reserve be established for future capital improvements, and this reserve be funded at the end of each fiscal year based on \$1.00 per round played that fiscal year, and

WHEREAS, City staff is recommending the introduction of a 6-hole rate at Municipal Nine-Hole Golf Course, and

WHEREAS, the Golf Courses Committee met on April 21, 2004, and supported rate increases at the City's Municipal Golf Courses if the \$1.00/r18-hole round was

RECEIVED

reserved for capital improvements and supported the introduction of a 6-hole rate at Municipal Nine-Hole Golf Course, and

WHEREAS, the Safety and Communities Committee met on May 3, 2004, and supported increases in green fees and annual passes at all City Municipal courses, supported the dedication of \$1.00 per 18-hole round for capital improvements and supported introduction of a 6-hole rate at Municipal Nine-Hole Golf Course, and

WHEREAS, by an agenda report to the City Council from the Parks, Recreation and Neighborhoods Department dated May 5, 2004, City staff recommended the changes as outlined in the report, and

WHEREAS, said matter was set for a public hearing of the City Council to be held at 5:30 p.m. on May 25, 2004, in the Tenth Street Place Chambers located at 1010 10<sup>th</sup> Street, Modesto, California, at which date and time said duly noticed public hearing of the Council was held for the purpose of receiving public comment on the proposed amended golf fees, and

WHEREAS, the Council of the City of Modesto finds that new fees for play need to be established at the Municipal Golf Course, the Dryden Park Municipal Golf Course and the Creekside Municipal Golf Course,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves dedicating \$1.00 per round at the end of each fiscal year to the Golf Fund Reserve for capital improvements to be used for capital improvements to the Modesto Nine-Hole Municipal Golf Course, the Dryden Park Municipal Golf Course, and the Creekside Municipal Golf Course.

BE IT FURTHER RESOLVED by the City Council as follows:

SECTION 1. RATES. The rates for players upon the Modesto Nine-Hole Municipal Golf Course, the Dryden Park Municipal Golf Course, and the Creekside Municipal Golf Course are hereby established as set forth on **Exhibit "A"** attached hereto and incorporated herein by reference.

The policies and rates for tournament players upon the Modesto Nine-Hole Municipal Golf Course, the Dryden Park Municipal Golf Course, and the Creekside Municipal Golf Course are hereby established as set forth on **Exhibit "B"** attached hereto and incorporated herein by reference.

SECTION 2. DISCOUNTS. (a) School Golf Teams. School golf team passes are to be issued only upon presentation by holder of a current high school or college student body card and verification of golf team membership by the school golf coach. Students shall possess and display an etiquette card obtained by completing a required training course in golf rules and etiquette at a recognized golf facility. Team members with team member passes must be accompanied by their respective golf coaches and shall play only between the hours of 2:00 p.m. and 5:00 p.m. during the spring golf season. The specific spring school golf team season will be set by the golf professional after receiving the schools' schedules of matches from each school coach. Green fees at the rate of \$5.00 per round shall be implemented for high school and Modesto Junior College golf programs at the Modesto Nine Hole Municipal Golf Course, the Dryden Park Municipal Golf Course and the Creekside Municipal Golf Course.

(b) Junior Discounts. Junior discounts are to be given only to persons eighteen (18) years of age and younger any day after 12:00 noon. Juniors shall possess

and display an etiquette card obtained by completing a required training course in golf rules and etiquette at a recognized golf facility.

(c) Senior/Junior/Disabled Discounts. Senior/Junior/Disabled discounts are to be given only to persons who are eighteen (18) years of age and younger or sixty-two (62) years of age or older or to those who are on disability retirement. Proof of age or proof of disability retirement must be displayed to obtain a Senior/Junior/Disabled discount.

Discounts are good weekdays except for holidays.

Members of the five officially recognized golf clubs (Muni Niners, Modesto Golf Club, Dryden Park Women's Golf Club, Creekside Golf Club and S.I.R.S.), who qualify, will be allowed to use Senior/Junior/Disabled discounts for official club tournaments Monday through Thursday, excluding holidays.

(d) Valu-Play Cards. Golfers can purchase a weekday, 6-round Valu-Play (multiple play) card for Dryden/Creekside or Muni. Valu-Play Discounts are effective for sixty (60) days from the date of purchase except for the months of December, January and February. During this period multiple play cards will be good for the entire three months. Multiple play cards are not refundable or transferable. The multiple play card is not good on weekends or holidays.

(e) Special Rates. From time to time, the Parks, Recreation and Neighborhoods Director or his or her designee may provide up to a fifty percent (50%) discount off of daily greens fees. Such specials shall occur no more than twenty (20) days per month at each golf course.

(f) Family Tee Program. To promote family play, golfers may play from established "family tees" to be set no more than 175 yards from the greens at Municipal

Nine-Hole Golf Courses. Rates for play are \$6.00 weekdays and \$7.00 weekends. All members of the foursome or group must use the family tees for this rate to be in effect.

(g) Play one round, get the second round at half price. This discount is good on the day and at the course on which the original full-fee round is played. The fee for the second round shall be one-half of the green fee in effect at the time the second round is played.

SECTION 3. COMPLIMENTARY TICKETS. Complimentary tickets without fee may be issued by or under the direction of the Golf Course Professional to visiting professionals or others, for services rendered to the golf course. Free play must be approved by the Parks, Recreation and Neighborhoods Director or designee.

SECTION 4. CHILDREN. Children under the age of eleven (11) will not be permitted to play golf unless accompanied by an adult playing golf.

SECTION 5. POLICY. In order for fees to be consistent and competitive with other courses in the valley, the Play Day Policy for Play at the City's Municipal Golf Courses by Non-Affiliated Groups shall continue to be implemented as set forth on Exhibit "C" attached hereto and incorporated herein by reference.

SECTION 6. HOLIDAYS. "Holidays", as used herein, shall mean New Year's Day (January 1st), Martin Luther King's Birthday (the third Monday in January), Washington's Birthday (the third Monday in February), Memorial Day (the last Monday in May), Independence Day (July 4th), Labor Day (the first Monday in September), Veterans Day (November 11th), Thanksgiving Day (the fourth Thursday in November) and the day after Thanksgiving. When a holiday falls on Sunday, the following Monday

shall be observed as a holiday. When a holiday falls on Saturday, the preceding Friday shall be observed as a holiday.

SECTION 7. SIGNS. The Golf Course Professional is authorized and directed to post a sign in a conspicuous place informing all golfers of the established greens fees.

SECTION 8. OFFICIALLY RECOGNIZED AFFILIATED GOLF CLUBS. Golf Clubs officially recognized under the terms of this resolution are: Muni Niners, Modesto Golf Club, Dryden Park Women's Golf Club, Creekside Golf Club and S.I.R.S.

SECTION 9. EFFECTIVE DATE. This resolution shall go into effect and be in full force and operation on and after July 1, 2004.

SECTION 10. REPEALS. Resolution No. 2003-329 is hereby rescinded effective June 30, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25<sup>th</sup> day of May, 2004, by Councilmember O'Bryant, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: None

TOURNAMENT FEE SCHEDULE AND POLICY  
EFFECTIVE JULY 1, 2004

	FEE PER PLAYER		
	<u>Regular Tee Time Style</u>	<u>Full Shotgun Tee Time Style Excluding cart</u>	<u>Modified Shotgun Tee Time Style Excluding cart</u>
<u>CREEKSIDE</u>			
Weekday	\$32.50	\$40.50	\$40.50
Weekends	\$39.50	\$48.50	N/A
<u>DRYDEN</u>			
Weekday	\$30.50	\$38.50	\$38.50
Weekends	\$36.50	\$45.50	N/A
<u>MUNI</u>			
Weekday	\$23.00	\$25.00	N/A
Weekend	\$25.00	\$27.00	N/A

In addition, a non-refundable deposit of \$50.00 per tournament is required.

Regular tee time style tournaments require a minimum of 28 players. Per player fees include: green fees (\$22.50 weekdays/\$29.50 weekends at Creekside, \$20.50 weekdays/\$26.50 weekends at Dryden and \$13.00 weekdays/\$15.00 weekends at Muni); and Pro Shop merchandise credit (\$5.00 at Creekside/Dryden/Muni); and golf course restaurant credit (\$5.00 at Creekside/Dryden/Muni).

Full shotgun tee time style tournaments require a minimum of 120 players at Creekside/Dryden and a minimum of 72 players at Muni. Per player fees include: green fees (\$26.50 weekdays/\$34.50 weekends at Creekside, \$24.50 weekdays/\$31.50 weekends at Dryden and \$15.00 weekdays/\$17.00 weekends at Muni); Pro Shop merchandise credit (\$7.00 at Creekside/Dryden and \$5.00 at Muni); and golf course restaurant credit (\$7.00 at Creekside/Dryden and \$5.00 at Muni). Cart rental is required for shotgun style tournaments.

Modified shotgun tee time style tournaments require a minimum of 72 players at Creekside/Dryden. Per player fees include: green fees (\$26.50 weekdays at Creekside; \$24.50 weekdays at Dryden); Pro Shop merchandise credit (\$7.00 at Creekside/Dryden); and golf course restaurant credit (\$7.00 at Creekside/Dryden). Cart rental is required for modified shotgun style tournaments. Modified shotgun style tournaments are not available at Muni.

Members of the five officially recognized affiliated golf clubs (Muni Niners, Modesto Golf Club, Dryden Park Women's Club, Creekside Golf Club and S.I.R.S.), who qualify, will be allowed to use Senior/Junior/Disabled discounts for official club tournaments Monday through Friday, excluding holidays.

PLAY DAY POLICY  
FOR PLAY AT THE CITY'S  
MUNICIPAL GOLF COURSES  
BY NON-AFFILIATED GROUPS

The following policy is hereby established for Non-Affiliated Groups to encourage their use of the City's municipal golf courses:

Criteria for these groups are:

1. They are a group with an identification or organizational structure;
2. They commit to use the City's golf course(s) on a regular basis (weekly, bi-weekly, monthly, etc.);
3. They have a minimum of twenty-four (24) players;
4. Regular tee-time style starting will be used (no shotgun style starting will be allowed);
5. Their events do not promote a formal competition or championship; and
6. Play days will be restricted to Monday through Wednesday after 9:00 a.m.

In recognition of their contribution to the golf program, no mandatory pro shop or restaurant fees will be assessed. Tee time reservations, in advance of public reservations, will be allowed.

**RESCINDED**

JUL 26 2007

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-284**

**A RESOLUTION REVISING TIPPING FEES AT THE STANISLAUS RESOURCE RECOVERY (WASTE-TO-ENERGY) FACILITY AND RESCINDING RESOLUTION NO. 2003-364**

RESOLUTION WAS  
RESCINDED BY MODESTO  
CITY COUNCIL RESOLUTION  
NO. 2007-382

WHEREAS, the City of Modesto and the County of Stanislaus are joint partners in the Waste-to-Energy Facility, which is operated by Covanta Stanislaus, and

WHEREAS, tipping fees are established to pay debt service, operation and maintenance costs and pass through costs, such as insurance, property taxes, and various permits and fees that are incurred by Covanta Stanislaus, as provided for in a Service Agreement, and

WHEREAS, tipping fees at the Waste-to-Energy Facility are set by joint action of the Contracting Communities, which are the City of Modesto and Stanislaus County, and

WHEREAS, the Contracting Communities approved a \$28.00 per ton tipping fee at the Waste-to-Energy Facility which became effective August 1, 2003, and

WHEREAS, the Council of the City of Modesto must concur with any proposed reduction in the tipping fees at the Waste-to-Energy Facility, and

WHEREAS, the Solid Waste-to-Energy Executive Committee, at its April 29, 2004, meeting discussed a \$3.00 per ton reduction in the tipping fees at the Waste-to-Energy Facility and recommends approval of said decrease in the tipping fee and City staff recommends, upon concurrence by the County Board of Supervisors, that the tipping fee at the Waste-to-Energy Facility be decreased from the present \$28.00 per ton to \$25.00 per ton, effective August 1, 2004, and

WHEREAS, the 25<sup>th</sup> day of May, 2004, at 5:30 p.m. in the Tenth Street Place Chambers, located at 1010 10<sup>th</sup> Street, Modesto, California, was set as the time and place for consideration of a decrease in tipping fees at the Waste-to-Energy Facility.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a decrease in the tipping fee at the Waste-to-Energy Facility from the present \$28.00 per ton to \$25.00 per ton, effective August 1, 2004.

BE IT FURTHER RESOLVED that Resolution No. 2003-364 is hereby rescinded effective July 31, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25<sup>th</sup> day of May, 2004, by Councilmember Dunbar, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-285**

**A RESOLUTION APPROVING THE PARKS, RECREATION AND NEIGHBORHOODS DEPARTMENT FUND DEVELOPMENT PROGRAM REPORT AND: AUTHORIZING STAFF TO NEGOTIATE AN AGREEMENT WITH THE STANISLAUS COMMUNITY FOUNDATION; DIRECTING STAFF TO DEVELOP A POLICY AND MARKETING PLAN FOR CORPORATE NAMING RIGHTS AND TO IDENTIFY PROPERTIES TO INCLUDE IN THE NAMING RIGHTS INVENTORY; DIRECTING STAFF TO DEVELOP A POLICY AND MARKETING PLAN FOR CORPORATE PROGRAM SPONSORSHIPS; DIRECTING STAFF TO DEVELOP A PLAN TO SELL OR LEASE REMNANT PARCELS OF CITY-OWNED OPEN SPACE; DIRECTING STAFF TO PURSUE EXCLUSIVE VENDOR/OFFICIAL SPONSOR CONTRACTS; DIRECTING STAFF TO DEVELOP A POLICY AND MARKETING PLAN FOR PRESENTATION SPONSORS; AND, DIRECTING STAFF TO DEVELOP A METHODOLOGY TO CREATE PRIVATE-PUBLIC PARTNERSHIPS TO SECURE NEIGHBORHOOD IMPROVEMENT SPONSORS.**

WHEREAS, for many years, the Parks, Recreation and Neighborhoods Department has been successful in its fundraising efforts, and

WHEREAS, this effort notwithstanding, in recent years, the Parks, Recreation and Neighborhoods Department has faced an increase in the demand for services and the prospect of dwindling funding, and

WHEREAS, on February 25, 2003, the City Council by Resolution No. 2003-95 accepted the Parks, Recreation and Neighborhoods Department's first Fund Development Report, and

WHEREAS, on September 9, 2003, by Resolution No. 2003-485, the Council approved an agreement with Koegler Consulting Group to conduct an asset inventory and valuation assessment of parks, trails, recreation facilities and recreation programs, and to offer recommendations to lead us into a successful fund development program, ("Report") and

WHEREAS, this Report addresses short-term fund-raising for on-going operations and programs and provides a long-term strategy for replacing infrastructure in our parks and along our trails, and

WHEREAS, this Report was presented to the Safety and Communities Committee at its April 5, 2004, meeting and the Committee supported the recommendations presented in the Report,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby accepts the Fund Development Program Report, a copy of which is on file in the City Clerk's Office.

BE IT FURTHER RESOLVED that the Council hereby authorizes staff to negotiate an agreement with the Stanislaus Community Foundation.

BE IT FURTHER RESOLVED that the Council hereby directs staff to develop a policy and marketing plan for Corporate Naming Rights and to identify properties to include in the naming rights inventory.

BE IT FURTHER RESOLVED that the Council hereby directs staff to develop a policy and marketing plan for Corporate Program Sponsorships.

BE IT FURTHER RESOLVED that the Council hereby directs staff to develop a plan to sell or lease remnant parcels of City-owned open space.

BE IT FURTHER RESOLVED that the Council hereby directs staff to pursue Exclusive Vendor/Official Sponsor Contracts.

BE IT FURTHER RESOLVED that the Council hereby directs staff to develop a policy and marketing plan for Presentation Sponsors.

BE IT FURTHER RESOLVED that the Council hereby directs staff to develop a methodology to create private-public partnerships to secure Neighborhood Improvement Sponsors.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25<sup>th</sup> day of May, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-286**

**A RESOLUTION APPROVING CHANGES TO THE EMERGENCY HOME REPAIR PROGRAM (EHRP)/DISABLED ACCESS ASSISTANCE PROGRAM (DAAP) AND APPROVING THE REVISION OF CHAPTER 12 OF THE PARKS, RECREATION AND NEIGHBORHOODS DEPARTMENT, RECREATION AND NEIGHBORHOOD SERVICES DIVISION MANUAL.**

WHEREAS, on December 2, 2003, by Resolution No. 2003-631, the City Council approved the current EHRP/DAAP policy and loan limits of \$15,000 for EHRP and \$10,000 for DAAP, and

WHEREAS, as construction costs rise, EHRP projects are topping the \$15,000 limit if additional items, along with roof replacement, are needed, and the current loan limit is not sufficient to cover the needed repairs that are critical to the well being of the applicants, and

WHEREAS, a DAAP for a bathroom renovation, changing doorways, and adding a wheelchair ramp could easily exceed the \$10,000 limit, and

WHEREAS, staff recommends raising the loan limit for EHRP to \$20,000, DAAP to \$20,000, for a combined loan limit of \$40,000 if both programs are necessary, and

WHEREAS, homes built prior to 1978, where paint may be “disturbed”, must be tested for the presence of lead based paint, and if lead based paint is present, the cost of testing, assessment, clearance, and possible stabilization could add up to \$5,000, and

WHEREAS, staff recommends an additional \$5,000 be included in the loan limit for these items; any type of environmental hazards work would qualify in this category, such as mold, air quality issues, or asbestos, and

WHEREAS, if a combined EHRP/DAAP required necessary environmental hazards work in the amount of \$5,000, the maximum loan amount would be \$45,000, but only if that amount was needed to cover critical needs, and

WHEREAS, the environmental hazards work would be limited to testing, risk assessment, clearance, and stabilization; any amount exceeding the \$5,000 limit would have to come from the EHRP or DAAP loan limit, as applicable, and

WHEREAS, with the increased limits for EHRP/DAAP, it becomes necessary to determine a maximum allowable loan-to-value ratio (LTV); this is the percentage of indebtedness against the property compared to the after rehabilitation value of the home, and

WHEREAS, staff recommends a maximum LTV of 90%, and

WHEREAS, all the above changes will be reflected in the revisions to Chapter 12 of the Parks, Recreation and Neighborhoods Department, Recreation and Neighborhood Services Division Manual, a copy of which is attached hereto and incorporated herein by reference, and

WHEREAS, the Housing Rehabilitation Loan Committee (HRLC) recommended approval of this item at its April 22, 2004, meeting, and the Citizens Housing and Community Development Committee (CH&CDC) also recommended approval of this item at its April 23, 2004, meeting,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the changes to the EHRP/DAAP to include: increasing the Emergency Home Repair Program (EHRP) loan limit to \$20,000; increasing the Disabled Access Assistance Program (DAAP) loan limit to \$20,000; allowing an additional \$5,000 loan limit for Environmental Hazards on EHRP/DAAP; establishing a Loan-To-Value (LTV) ratio for EHRP and DAAP, not to exceed 90% of the property value after rehabilitation.

BE IT FURTHER RESOLVED that the revisions to Chapter 12 of the Parks, Recreation and Neighborhoods Department, Recreation and Neighborhood Services

Division Manual are hereby approved, a copy of which is attached hereto and incorporated herein by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25<sup>th</sup> day of May, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-287**

**A RESOLUTION APPROVING CHANGES TO THE LEAD BASED PAINT  
HAZARDS PROGRAM AND APPROVING THE REVISION OF CHAPTER 11  
OF THE PARKS, RECREATION AND NEIGHBORHOODS DEPARTMENT,  
RECREATION AND NEIGHBORHOOD SERVICES DIVISION MANUAL.**

WHEREAS, on April 13, 1999, by Resolution No. 1999-148, the City Council approved the policy for the target areas and the Housing Maintenance Program, and

WHEREAS, the Housing Maintenance Program available to the City's Mandatory Target Areas was established to save existing housing stock in those areas by upgrading the area as a whole community, and

WHEREAS, in 2000, the Department of Housing & Urban Development (HUD) enacted lead based paint regulations, stating that if these property owners wish to use the City's financial assistance, either in the form of a loan or a paint rebate, they are subject to the lead based paint regulations, and

WHEREAS, since rehabilitation work in the mandatory areas is a requirement for many homeowners, and the City seeks to improve the appearance of the homes, staff recommends that lead based paint costs for testing, assessment, clearance, and stabilization, up to \$5,000, be covered by HUD funds, and

WHEREAS, if the property owner requests a housing maintenance program loan, and if lead based paint work is necessary, a grant will be provided for the lead based paint costs, up to \$5,000, and if the property owner requests a paint rebate, the total costs for testing, assessment, clearance, and stabilization of the affected areas will be rebated to the owner, up to \$5,000, and

WHEREAS, all the above changes will be reflected in the revisions to Chapter 11 of the Parks, Recreation and Neighborhoods Department, Recreation and Neighborhood

Services Division Manual, a copy of which is attached hereto and incorporated herein by reference, and

WHEREAS, the Housing Rehabilitation Loan Committee (HRLC) recommended approval of this item at its April 22, 2004, meeting, and the Citizens Housing and Community Development Committee (CH&CDC) also recommended approval of this item at its April 23, 2004, meeting,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the changes to the EHRP/DAAP to provide grants of a maximum of \$5,000 per property for Lead Based Paint Hazards in the Mandatory Target Areas.

BE IT FURTHER RESOLVED that the Council hereby approves revisions to Chapter 11 of the Parks, Recreation and Neighborhoods Department, Recreation and Neighborhood Services Division Manual, a copy of which is attached hereto and incorporated herein by reference.

RESOLUTION NO. 2004-288**

**A RESOLUTION APPOINTING TAMMY MAISETTI TO THE DOWNTOWN  
IMPROVEMENT DISTRICT ADVISORY BOARD**

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards and Commissions, and

WHEREAS, the Economic Development Committee met on May 10, 2004, and recommended appointment of TAMMY MAISETTI to the Downtown Improvement District Advisory Board.

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. TAMMY MAISETTI is hereby appointed to the Downtown Improvement District Advisory Board, with a term expiration of January 1, 2008.

SECTION 2. The City Clerk is hereby directed to transmit a copy of this resolution to the newly appointed member of the Downtown Improvement District Advisory Board, and the Secretary thereof.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 1st day of June, 2004, by Councilmember Keating, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-289**

**A RESOLUTION APPROVING AND AUTHORIZING SUBMISSION OF THE  
FISCAL YEAR 2004-2005 ANNUAL TRANSPORTATION CLAIM FOR  
\$4,857,817, FOR TRANSIT PURPOSES ONLY, TO THE STANISLAUS  
COUNCIL OF GOVERNMENTS**

WHEREAS, the greatest portion of the City's funding for the Transit Service Program, other than fare revenue and federal funds, is the Local Transportation Fund (LTF), and

WHEREAS, on February 11, 2004, the Stanislaus Council of Governments (StanCOG) pursuant to Section 99401.6 of the California Public Utility Code (PUC) has determined that there are no unmet transit needs and no unmet transit needs that are reasonable to meet, and

WHEREAS, StanCOG has informed the Finance Department that LTF funding has been apportioned by the State to StanCOG for allocation to transportation public agencies pursuant to Sections 99233.3 and 99234 of the California PUC, and

WHEREAS, the City has developed an application for Fiscal Year 2005 LTF reimbursement pursuant to Section 99233.3 of the California PUC, and

WHEREAS, the City's transit LTF Claim for Fiscal Year 2004 is \$4,857,817, and

WHEREAS, the total transit operating budget is \$10,478,927, and

WHEREAS, the added transit capital budget is \$1,628,987 and

WHEREAS, Council action authorizing the Claim is required by StanCOG pursuant to Section 99261 of the California PUC before any LTF funding can be released to the City.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the annual LTF transit claim in the amount of \$4,857,817.

BE IT FURTHER RESOLVED that the City Manager, or his authorized designee, is hereby authorized to execute and submit the Transit Claim for apportionment of LTF to StanCOG for Fiscal Year 2004.

BE IT FURTHER RESOLVED that the City Manager, or his authorized designee, is hereby authorized to modify the FY2004-2005 Operating and Capital Budgets of the Bus Fund to assure consistency between the LTF Claim and these budgets, as necessary.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 1st day of June, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**COMMENTS/JUSTIFICATION**

In order to eliminate redundant projects within the utility funds, E&T, O&M and Finance are in the process of reviewing and reprioritizing Wastewater Capital Improvement Projects. This project L084 Annual Renewal and Replacement - Secondary has been identified as complete needing closure. This adjustment will allow the budget to be adjusted to reflect the final cost of the project and close the project completely.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-291**

**A RESOLUTION APPROVING A SUBORDINATION AGREEMENT FOR THE HOME LOAN PROVIDED TO STANISLAUS COUNTY AFFORDABLE HOUSING CORPORATION (STANCO) IN FISCAL YEAR 2001-2002, FOR THE DEVELOPMENT AND CONSTRUCTION OF THE 3333 CARVER ROAD PROJECT, APPROVING AN EXTENSION FOR COMPLETION OF THE CONSTRUCTION BY JUNE 30, 2005, AND AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE TO EXECUTE THE AGREEMENT.**

WHEREAS, on April 9, 2002, by Resolution No. 2002-168, the Modesto City Council approved the allocation of \$250,000 for the Miller Pointe project and \$832,000 for the 3333 Carver Road project; the development of these two projects will add 34 affordable multi-family units for very-low, low, and moderate-income families in the City of Modesto, and

WHEREAS, on September 3, 2002, by Resolution No. 2002-426, the City Council approved an agreement with STANCO to provide \$657,000 in HOME funds and \$175,000 in HOME CHDO-designated funds for the development of 3333 Carver Road; the agreement was executed and then recorded at the Stanislaus County Clerk's office on October 4, 2002, and

WHEREAS, the funds allocated to this project along with other funding sources were estimated to be enough; however, after the construction bids were opened, it was revealed that the lowest responsible bids were approximately \$600,000 higher than originally budgeted due to:

- The housing industry is booming and contractors are extremely busy, which invariably raises the prices,
- Workman's Compensation insurance for contractors and subcontractors has drastically increased,

- It is difficult to get contractors to bid for small projects because the cost of the insurance for multi-family housing developments,

and,

WHEREAS, in September 2003, the City received an application from STANCO requesting additional funds for the 3333 Carver Road project; STANCO also secured additional funds from other financial institutions, and

WHEREAS, on March 23, 2004, by Resolution No. 2002-164, the City Council approved a request from STANCO for HOME funds in the amount of \$624,831 for the development of the 3333 Carver Road project, and

WHEREAS, in May 2004, the City received a subordination agreement from STANCO for the subordination of the \$832,000 HOME loan provided by the City of Modesto for the development and construction of the Carver Road project, and if the Council approves the subordination agreements, the City HOME loans will be in second position,

WHEREAS, the financial institution lending the funds to STANCO requires that as a condition to provide the loans, the loans be and remain at all times prior and superior to other loans, and the subordination agreements set forth the priority of repayment rights against the borrower and its assets, and

WHEREAS, the City of Modesto HOME loan agreements executed in the year 2002 required that the project be completed by December 2003; based on the issues above mentioned and the financing gap, the project was not completed by December 2003, and an extension is needed for completion of construction by June 30, 2005,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves a Subordination Agreement for the HOME loan

provided to Stanislaus County Affordable Housing Corporation (STANCO) in fiscal year 2001-2002, for the development and construction of the 3333 Carver Road project.

BE IT FURTHER RESOLVED that the Council hereby approves an extension for completion of the construction by June 30, 2005.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 1st day of June, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-292**

**A RESOLUTION APPROVING A SUBORDINATION AGREEMENT FOR THE HOME LOAN PROVIDED TO THE HOUSING AUTHORITY OF THE COUNTY OF STANISLAUS IN FISCAL YEAR 2001-2002, FOR THE DEVELOPMENT AND CONSTRUCTION OF THE MILLER POINTE PROJECT, APPROVING AN EXTENSION FOR COMPLETION OF THE CONSTRUCTION BY JUNE 30, 2005, AND AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE TO EXECUTE THE AGREEMENT.**

WHEREAS, on April 9, 2002, by Resolution No. 2002-168, the Modesto City Council approved the allocation of \$250,000 for the Miller Pointe project and \$832,000 for the 3333 Carver Road project; the development of these two projects will add 34 affordable multi-family units for very-low, low, and moderate-income families in the City of Modesto, and

WHEREAS, On October 22, 2002, by Resolution No. 2002-519, the City Council approved an agreement with the Housing Authority of Stanislaus County to provide \$250,000 in HOME funds for the development of Miller Pointe subdivision; the agreement was executed and then recorded at the Stanislaus County Clerk's office on December 2, 2002, and

WHEREAS, the funds allocated to this project along with other funding sources were estimated to be enough; however, after the construction bids were opened, it was revealed that the lowest responsible bids were approximately \$600,000 higher than originally budgeted due to:

- The housing industry is booming and contractors are extremely busy, which invariably raises the prices,
- Workman's Compensation insurance for contractors and subcontractors has drastically increased,

- It is difficult to get contractors to bid for small projects because the cost of the insurance for multi-family housing developments,

and,

WHEREAS, in September 2003, the City received an application from the Housing Authority requesting additional funds for the Miller Pointe project; the Housing Authority also secured additional funds from other financial institutions, and

WHEREAS, on March 23, 2004, by Resolution No. 2002-164, the City Council approved a request from Housing Authority for HOME funds in the amount of \$400,000 for the development of the Miller Pointe project, and

WHEREAS, in May 2004, the City received a subordination agreement from Housing Authority for the subordination of the \$250,000 HOME loan provided by the City of Modesto for the development and construction of the Miller Pointe project, and if the Council approves the subordination agreements, the City HOME loans will be in second position,

WHEREAS, the financial institution lending the funds to the Housing Authority requires that as a condition to provide the loans, the loans be and remain at all times prior and superior to other loans, and the subordination agreements set forth the priority of repayment rights against the borrower and its assets, and

WHEREAS, the City of Modesto HOME loan agreements executed in the year 2002 required that the project be completed by December 2003; based on the issues above mentioned and the financing gap, the project was not completed by December 2003, and an extension is needed for completion of construction by June 30, 2005,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves a Subordination Agreement for the HOME loan

provided to the Housing Authority of the County of Stanislaus (Housing Authority) in fiscal year 2001-2002, for the development and construction of the Miller Pointe project.

BE IT FURTHER RESOLVED that the Council hereby approves an extension for completion of the construction by June 30, 2005.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 1st day of June, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-293**

**A RESOLUTION APPROVING A SETTLEMENT AGREEMENT, AN  
AMENDMENT TO THE CABLE TELEVISION FRANCHISE RENEWAL  
AGREEMENT, AND AN INSTITUTIONAL NETWORK CONSTRUCTION AND  
MAINTENANCE AGREEMENT WITH COMCAST, INC., AND AUTHORIZING  
THE CITY MANAGER TO EXECUTE THE AGREEMENTS.**

WHEREAS, the City and Comcast, Inc. (Comcast), desire to settle pending litigation in federal court relating to Comcast's failure to correct the cable system grounding within the time set forth in the cable franchise documents, and

WHEREAS, the cable franchise agreement provides for a 5-year extension of its term in the event that Comcast completes the cable upgrade by July 5, 2003, and

WHEREAS, with the completion of the upgrade, the City and Comcast now desire to enter into an Amendment to the Cable Television Franchise Renewal Agreement for a five-year extension, said term expiring on July 4, 2016, and

WHEREAS, the City and Comcast desire to enter into an Institutional Network Construction and Maintenance Agreement whereby the terms of Comcast's construction of an Institutional Network are set forth,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Settlement Agreement, the Amendment to the Cable Television Franchise Renewal Agreement, and an Institutional Network Construction and Maintenance Agreement with Comcast, Inc.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute said Settlement Agreement, Amendment to the Cable Television Franchise Renewal Agreement, and the Institutional Network Construction and Maintenance Agreement with Comcast, Inc.

RESOLUTION NO. 2004-294**

**A RESOLUTION AUTHORIZING MODESTO AREA EXPRESS (MAX) TO  
IMPLEMENT TWO NEW ROUTES AND MAKE CHANGES TO ELEVEN  
OTHER ROUTES EFFECTIVE JANUARY 2005**

WHEREAS, the City of Modesto's Strategic Plan includes Strategy III.B.1:  
"Develop an efficient, well coordinated, county-wide, multi-modal transportation  
system", and

WHEREAS, Modesto Area Express (MAX) is a critical component of the  
transportation system, and

WHEREAS, establishing two new routes to serve South Modesto and the Vintage  
Faire Mall areas would enhance the efficiency of the MAX system, and

WHEREAS, additional efficiencies are to be gained by making schedule and/or  
route changes to eleven other routes, and

WHEREAS, an informal, drop in, public meeting was held on Thursday, April 29,  
2004, from 4:00 p.m. to 6:00 p.m. to allow for discussion of the new routes and proposed  
route changes, and

WHEREAS, the Economic Development Committee approved this item at its  
May 10, 2004 meeting, and

WHEREAS, by a report to the Council dated May 17, 2004, from the Engineering  
and Transportation Department, City staff recommended implementing two new routes  
and revising schedules and/or routes for eleven other routes, a copy of said report is

attached hereto and incorporated herein by reference, and is on file in the Office of the City Clerk, and

WHEREAS, the City Council conducted a duly noticed Public Hearing on these proposed changes on June 1, 2004, in accordance with Federal Transit Administration regulations,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the two new routes and the changes to eleven other routes and authorizes the Transit Manager to implement the two new routes and make changes to eleven other routes effective January 2005.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 1st day of June, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-295**

**A RESOLUTION APPROVING THE FINAL MAP AND ACCEPTING PUBLIC IMPROVEMENTS IN THE ESTA ESTATES SUBDIVISION OF THE CITY OF MODESTO AND AUTHORIZING THE CITY MANAGER TO EXECUTE A SUBDIVISION AGREEMENT WITH RANDALL A. O'DELL AND CARLA O'DELL, HUSBAND AND WIFE AS JOINT TENANTS**

WHEREAS, RANDALL A. O'DELL and CARLA O'DELL, Husband and Wife as Joint Tenants, are possessed of a tract of land situated in the City of Modesto, County of Stanislaus, consisting of 2.07 acres, known as the ESTA ESTATES SUBDIVISION ("SUBDIVISION"), in the Village One Specific Plan Area, and

WHEREAS, an application for a vesting tentative subdivision map was deemed complete by the Secretary of the Planning Commission on June 10, 2002, and

WHEREAS, a tentative map of said tract was approved by the Planning Commission of the City of Modesto on the 29th day of July, 2002, and

WHEREAS, the Secretary of the Planning Commission of the City of Modesto has certified that the final map of said tract substantially conforms to the approved tentative map, and

WHEREAS, the City Engineer of the City of Modesto has certified that the final map of said SUBDIVISION meets all of the provisions of the California Subdivision Map Act and the provisions of the Modesto Municipal Code relating to subdivisions, and that the map is technically correct, and

WHEREAS, the Engineering and Transportation Director has certified that all public improvements required by the City of Modesto have been completed in said tract to the satisfaction of the Engineering and Transportation Director, and

WHEREAS, the Engineering and Transportation Director has indicated that it would be in order for the City Council to accept the public improvements in said subdivision as complete and authorize the City Clerk to file a Notice of Completion and release the bonds upon the expiration of the statutory periods,

WHEREAS, the subdivider has posted a warranty security in an amount equal to the estimated cost of the public improvements, as determined by the City Engineer, to guarantee and warranty the public improvements for a period of one year after acceptance.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that:

1. The final map is hereby approved.
2. The dedications for streets and easements as shown thereon within the boundaries of said tract are hereby accepted on behalf of the public for public use.
3. The improvements completed in Esta Estates Subdivision are hereby accepted and the City Clerk is hereby authorized to file a Notice of Completion for the improvements.
4. The City Clerk is hereby authorized to certify the map of said tract on behalf of the City of Modesto, after the fees and deposits required by the Modesto Municipal Code in amounts determined by the City Engineer have been paid.

5. The City Manager and the City Clerk are hereby authorized to execute and attest, respectively, an agreement with subdivider as required by Section 4-4.604(c) of the Municipal Code.
6. The City Clerk is further authorized to release the warranty security to guarantee improvements in the amount of \$10,427.19 one year and one day after the effective date of this resolution, provided no claim is made thereon.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8<sup>th</sup> day of June, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

CITY OF MODESTO  
COUNCIL AGENDA REPORT

COUNCIL MEETING:  
Date of Meeting  
June 1, 2004

Date: May 17, 2004

TO: Mayor and City Council  
FROM: Peter Cowles, Interim Engineering & Transportation Director  
SUBJECT: Modesto Area Express (MAX) Route and Schedule Changes  
CONTACT: Fred Cavanah, Transit Manager, fcavanah@modestogov.com 577-5295  
PRESENTER: Fred Cavanah, Transit Manager

**RECOMMENDED COUNCIL ACTION:**

Approve routes and schedules for two new Modesto Area Express (MAX) routes and route and schedule changes for 11 of the 17 existing MAX routes to become effective January 2005 at a cost of approximately \$184,000 in Local Transportation Fund (LTF) monies for FY 2004/05.

**I. BACKGROUND:**

On April 6, the City Council approved conceptual plans and funding to implement two new MAX routes in January 2005. In addition to adding new routes, staff indicated in the report its plan to make route and/or schedule changes to several additional MAX routes. The proposed new routes and revisions to existing routes are described in the attachments to this report and are summarized below.

**New Routes**

The two new routes proposed for implementation are shown on the attached Public Hearing Notice as Routes 41x and 42.

**Route 41x** would operate between the Transportation Center and Vintage Faire Mall via the freeway and also facilitate the provision of service to areas north of the mall. On weekdays, this route would operate every 30 minutes between 9:15 a.m. and 7:40 p.m. On Saturdays, it would operate hourly, between approximately 9:30 a.m. and 7:40 p.m.

**Route 42** would connect the downtown Transportation Center, the Community Services Agency on Hackett Road, and the residential area west of Crows Landing Road. It would operate every 30 minutes between 5:51 a.m. and 7:54 p.m. This route would replace a portion of Route 29 that currently serves this area. It would significantly reduce passenger travel time and overcrowding on Route 29, which routinely operates with standing room only.

**Revisions to Existing Routes**

**Scheduling:** The bus bays at the Transportation Center are fully utilized at present. As a result, in order to add the two new routes it is necessary to revise the times that routes stop there. Routes currently come into the Center only at 15 and 45 minutes past the hour. The

proposal is to shift approximately half of the routes to come into the center on the hour and/or the half hour, dependent upon bus operating frequency.

**Routing:** Proposed changes to existing routes are briefly described as follows and are shown on the map in the Public Hearing notice.

- Route 29 would be split into two routes and Route 42 would cover the route portion deleted from Route 29.
- Route 31 would be deleted from Standiford Ave. between Tully Rd. and Dale Rd. It would be rerouted to provide service to the Stanislaus County Housing Authority residential facility at the intersection of Pelandale Ave. and Tully Road and would also serve the recently opened Kaiser Permanente facility on Dale Road, north of the mall.
- Service on Route 33 would be reversed on parts of Tully Road, 9<sup>th</sup> St. and Coldwell Ave. in an effort to enable the route to run on schedule.
- Due to poor ridership, Route 34 would no longer make the morning and evening trips east of Lakewood that it currently does and would instead provide more service to that portion of Route 34 north of Orangeburg Ave.
- Route 36 would no longer serve Robertson Rd. and portions of Carpenter Rd. and Sutter Ave. south of Beverly Dr. and Rouse Ave., respectively. This change will shorten the route and allow it to better adhere to its schedule.

**II. REASONS FOR RECOMMENDATION:**

The transit system needs to grow with the community to maintain its effectiveness. In addition, as traffic congestion and ridership increase, existing routes need to be revised occasionally to better operate on schedule.

**III. EXISTING POLICY / RELATIONSHIP TO THE STRATEGIC PLAN:**

Provision of transit service is consistent with City policy and the strategic plan.

**IV. POLICY ALTERNATIVES:**

The City Council may choose to implement more or fewer services than staff recommends.

**V. FISCAL IMPACTS:**

The two new routes and other route and schedule changes proposed for implementation in January 2005 would require about \$184,000 in LTF funds for FY2004/05. Total LTF required for a full year of operation of the route and schedule changes would be approximately \$440,000. The gross cost of providing these new services for a little over 5 months during FY 2004/05 is approximately \$305,000. The gross cost for a full year would be \$730,000. In addition to LTF, funding needed to operate the new service would come from the Federal Transit Administration (FTA) and passenger fares. Funding for the new service is included in the FY 2004/05 baseline operating budget. LTF is eligible to be used for street purposes if it is not needed to meet unmet public transit needs that are reasonable to meet.

**VI. INTERDEPARTMENTAL COORDINATION:**

Staff works with the O&M Bus Maintenance Division on all proposals.

**VII. PUBLIC PARTICIPATION:**

An informal, drop in, public meeting was held Thursday, April 29, from 4 p.m. to 6 p.m. Since no formal presentation was made, the public could come and go as they pleased and not miss anything. The time was very convenient for bus riders since bus service continues well after the 6 p.m. ending time.

Seventeen individuals attended the public meeting and staff received e-mails or telephone calls from thirteen others. Nearly all comments were very supportive. Among the small group of individuals who voiced concerns, the largest number was regarding the removal of Route 31 from Standiford. Although Standiford will continue to be served by Route 22, Route 31 stops at the mall's rear entrance and Route 22 stops on Dale Road adjacent to the mall. The concerned passengers wanted to be able to continue to ride the bus to the mall's rear entrance and avoid the walk from Dale Rd.

The other major concern was the timing of Route 34. However, the complainants were satisfied with the staff proposal to offset Route 34 by 30 minutes from its proposed schedule.

**VIII. COMMITTEE RECOMMENDATION:**

The Economic Development Committee (EDC) approved this item at its meeting on May 10, 2004.

**IX. ENVIRONMENTAL REVIEW:**

Not required for this project.

**X. STEPS FOLLOWING APPROVAL:**

The route changes will take effect in late January 2005. The changes will be preceded by a campaign to inform passengers.

## NOTICE OF PUBLIC HEARING

A public hearing will be held by the Council of the City of Modesto on Tuesday, June 1, 2004, at 5:30 pm in the City Council Chambers, Basement Level, Tenth Street Place, 1010 10th Street, Modesto, California, to consider establishing two new Modesto Area Express (MAX) routes and revising eleven other routes. If you have any questions, please call the Transit Division at 577-5295.

### *Overview of Proposed Route and Schedule Changes*

Staff is proposing to add two new routes: (1) **Route 41x** would connect the downtown Transportation Center with Vintage Faire Mall via the freeway. (2) **Route 42** would connect the Transportation Center via the freeway with Crows Landing Road and the County Community Services Agency and also serve the neighborhood west of Crows Landing Road. Schedule changes would have buses leave the Transportation Center every 15 minutes to the Modesto Junior College East campus and Vintage Faire Mall. These changes would also help buses stay on time and make transferring easier.

### *Route Additions, Deletions and Revisions (See reverse side for maps)*

- Existing **Route 29** would be split into two routes, a revised **Route 29** and a new **Route 42**. The revised **Route 29** would be shorter than the old **Route 29**. New **Route 42** would serve the neighborhood southwest of Crows Landing Road that would not be served by the revised **Route 29**. Both routes would run every 30 minutes.
- A new **Route 41x** would be an express route traveling between Vintage Faire Mall and the Transportation Center using Highway 99 and would run every 30 minutes.
- **Route 31** service would be eliminated from Standiford between Tully and Dale Rd. New service would be provided as shown on the map.
- **Route 36** service would be eliminated from Robertson Rd, Sutter and a part of Carpenter. Service would be added to Beverly and Rouse.
- **Route 34** would no longer serve any streets east of Lakewood. Additional trips would be provided on the portion of Rt 34 north of Orangeburg.
- **Route 33** service would be reversed on parts of Tully, 9th, and Coldwell.

### *Monday - Saturday Schedule Changes*

For weekdays and Saturdays, instead of leaving from the Transportation Center at 15 and/or 45 minutes past the hour as they currently do, the routes listed below would leave on the hour and half past the hour. New weekday and Saturday leave times are listed below for each route that would change. All routes NOT LISTED would stay the same as they are currently.

- **Route 22** would leave on the hour and the half hour (on the hour on Saturdays)
- **Route 24** would leave once each hour at half past the hour
- **Route 26** would leave on the hour and the half hour
- **Route 27** would leave once each hour at half past the hour
- **Route 30** would leave on the hour and the half hour (Saturday is yet to be determined)
- **Route 33** would leave on the hour and the half hour (on Saturdays, once each hour at 15 minutes past the hour)
- **Route 34** would leave once each hour on the hour
- **Route 38** would leave on the hour and the half hour

Leave times on Sunday would continue to be 15 and/or 45 minutes past the hour for all routes.

42	Yes	----	30 Minutes	15 and 45 After	Areas served will have same service as they currently have with Rt 29

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-296**

**A RESOLUTION ACCEPTING IMPROVEMENTS IN PAPTONE EAST  
SUBDIVISION, IN THE VILLAGE ONE SPECIFIC PLAN AREA, AUTHORIZING  
THE CITY CLERK TO RECORD A NOTICE OF COMPLETION AND  
AUTHORIZING RELEASE OF BONDS**

WHEREAS, LANCELOT PAPTONE, L.P., an Arizona limited partnership, and  
MERITAGE HOMES OF NORTHERN CALIFORNIA, INC., a California Corporation,  
are the subdividers of the Papatone East Subdivision, and

WHEREAS, MERITAGE HOMES OF NORTHERN CALIFORNIA, INC., a  
California Corporation, has filed irrevocable subdivision bonds to secure faithful  
performance and payment for labor and materials in the amounts of \$875,174.00 and  
\$437,587.00, respectively, and

WHEREAS, MERITAGE HOMES OF NORTHERN CALIFORNIA, INC., a  
California Corporation, has filed a warranty bond in the amount of \$87,517.40 to  
guarantee improvements in the Papatone East Subdivision, and

WHEREAS, the Engineering & Transportation Director, in a memorandum to  
Council, indicates that all work required by the Subdivision Agreement has been  
completed to the satisfaction of the Engineering & Transportation Department, and

WHEREAS, the Engineering & Transportation Director has indicated that it  
would be in order for the City Council to accept the improvements in said subdivision as  
complete, and authorize the City Clerk to file a Notice of Completion and release the  
bonds upon expiration of the statutory periods,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto  
that:

1. The improvements in the Papatone East Subdivision are hereby accepted and the City Clerk is hereby authorized to file a Notice of Completion for the improvements.
2. The City Clerk is hereby authorized to release the subdivision bond for faithful performance in the amount of \$875,174.00 upon recordation of the Notice of Completion.
3. The City Clerk is hereby authorized to release the subdivision bond for labor and materials in the amount of \$437,587.00 sixty (60) days after the recordation of the Notice of Completion, provided no claim is made thereon.
4. The City Clerk is hereby authorized to release the warranty bond to guarantee improvements in the amount of \$87,517.40 one year and one day after the effective date of this resolution, provided no claim is made thereon.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8<sup>th</sup> day of June, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-297**

**A RESOLUTION SUMMARILY VACATING AND ABANDONING A 30-FOOT  
SEWER, WATER AND ACCESS EASEMENT LOCATED ON 1000 OATES  
COURT AT APN 086-014-019 IN THE CITY OF MODESTO**

WHEREAS, Chapter 4, Part 3 of Division 9, Section 8330, et seq of the California Streets and Highway Code authorizes a city council, by resolution, to summarily vacate public service easements where the easement has been superseded by relocation and no other public facilities are located within the easement, and

WHEREAS, the City of Modesto has received a request from MARVIN OATES, Trustee of the MARVIN L. OATES TRUST, PHILIP D. OATES, a married man, as his sole and separate property, and O.B.F., A California General Partnership, to vacate one of two Sewer, Water, and Access Easements at 1000 Oates Court on APN 086-014-019, and

WHEREAS, said 30-foot Sewer, Water and Access Easement was created and dedicated to the City of Modesto on July 7, 1999, on the Enterprise Business Park Subdivision Map Vol. 38; Page 58, and

WHEREAS, said 30-foot Sewer, Water, and Access Easement is more particularly described in **Exhibit "A"** attached hereto and incorporated herein by this reference, and

WHEREAS, on July 1, 2002, the then property owners dedicated a relocated Sewer, Water, and Access Easement at 1000 Oates Court to the City of Modesto to replace said easement, and

WHEREAS, the Engineering and Transportation Department has contacted the Operations and Maintenance Department, Community and Economic Development

Department, and all public utilities and none of these agencies have any objection to the abandonment, and

WHEREAS, the Council of the City of Modesto finds and declares that:

1. The vacation of this easement is made pursuant to Chapter 4, Part 3 of Division 9, Section 8333(c) of the California Streets and Highways Code.

2. The use of the property described in Exhibit "A", attached hereto, is a 30-foot Sewer, Water and Access Easement located at 1000 Oates Court on APN 086-014-019 in the City of Modesto, which is more particularly described in Exhibit "A", has been superseded by relocation and there are no other public facilities within the easement and the easement is no longer required for sewer, water and access purposes.

3. That from and after the date this resolution is recorded, the 30-foot Sewer, Water and Access Easement which is proposed for vacation will no longer constitute a public service easement.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the 30-foot Sewer, Water and Access Easement located at 1000 Oates Court on APN 086-014-019 in the City of Modesto, which is more particularly described in **Exhibit "A"**, attached hereto and incorporated herein by reference, be and is hereby vacated.

BE IT FURTHER RESOLVED that the City Clerk is hereby directed to record a certified copy of this resolution in the Stanislaus County Recorder's Office. From and after the date this resolution is recorded, said 30-foot Sewer, Water and Access Easement shall no longer constitute a public service easement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8<sup>th</sup> day of June, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-298

RESOLUTION ACCEPTING THE WORK BY D. A. WOOD CONSTRUCTION, INC., FOR THE "VILLAGE ONE FORCE MAIN" PROJECT AS COMPLETE, AUTHORIZING THE CITY CLERK TO FILE A NOTICE OF COMPLETION, AND AUTHORIZING PAYMENT OF AMOUNTS DUE TOTALING \$565,805.70 PER THE CONTRACT. TOTAL PROJECT COST IS \$678,941.92.

WHEREAS, a report has been filed by the Acting Engineering & Transportation Director that the project titled "Village One Force Main" has been completed by D. A. Wood Construction, Inc., in accordance with the contract agreement dated August 12, 2003.

NOW, THEREFORE, BE IT RESOLVED that the "Village One Force Main" project be accepted from said contractor, D. A. Wood Construction, Inc., that the notice of completion be filed with the Recorder of Stanislaus County and that payment of amounts due totaling \$565,805.70, as provided in the contract, be authorized.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8<sup>th</sup> day of June, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-299**

**A RESOLUTION AUTHORIZING THE AWARD OF BID AND CONTRACT  
FOR THE PURCHASE AND ASSEMBLY OF TEN (10) GRANULAR  
ACTIVATED CARBON (GAC) UNITS, TO CARBON ACTIVATED  
CORPORATION, COMPTON, CA, FOR A TOTAL COST OF \$803,131**

WHEREAS, granular activated carbon (GAC) units are pressure vessels filled with granular activated carbon, and

WHEREAS, granular activated carbon is a filter used to remove and dissolve organics and chlorine from drinking water, and

WHEREAS, on February 24, 2004, in an effort to return inactive wells to service prior to the peak water use season, Council approved Resolution No. 2004-115, authorizing the Purchasing Supervisor to formally solicit bids for the purchase and assembly of nine (9) granular activated carbon (GAC) units, for the Operations and Maintenance Department, Water Division, for an engineer's estimated unit cost of \$80,000, for a combined total engineer's estimated cost of \$720,000, and

WHEREAS, the purchase of these vessels would provide treatment capability at four (4) priority wells; Well 225, 303, 21 and 8, and

WHEREAS, returning these wells to service, coupled with the completion of work on Well 65 (new well at Tank 5), Well 312 (new well in Empire), and the return to service of Well 50 (currently advertising for bids to install GAC treatment), would regain approximately thirty-six (36%) percent of the lost drinking water well production capacity, and

WHEREAS, on February 25, 2004, the Purchasing Division solicited Request for Bid No. 0304-19, for the purchase and assembly of nine (9) granular activated carbon

(GAC) units to three (3) bidders, plus posted the bid on the City's web site. The bid was also formally advertised by the City Clerk's Office, and

WHEREAS, during the bidding process, the Operations and Maintenance Department, Water Division made a request to add one (1) additional GAC vessel for Well 303, and

WHEREAS, on March 5, 2004, Addendum No. 1 was issued adding one (1) additional GAC vessel to the bid, bringing the bid total to ten (10) GAC vessels, and

WHEREAS, on March 10, 2004, Addendum No. 2 was issued affording prospective bidders the opportunity to submit bids for vessels filled with either "Domestic" or "Foreign" GAC, or both, if they were capable of supplying both, and

WHEREAS, bids were opened in the City Clerk's Office on March 16, 2004, and

WHEREAS, of the three (3) bidders solicited, all chose to respond, and

WHEREAS, two (2) out of the three (3) bidders submitted responsive bids, providing the required number of signed original bid documents and copies per the bid requirements, and

WHEREAS, one (1) bidder Carbon Activated Corporation (CAC), submitted one (1) signed original bid marked "Foreign" and one (1) signed original bid marked "Domestic", along with four (4) required bid copies marked "Domestic", and

WHEREAS, based on the documents submitted it appeared as though Carbon Activated Corporation was submitting a bid for "Domestic" GAC, and

WHEREAS, a phone call was made to clarify Carbon Activated Corporation's bid intention, and

WHEREAS, Carbon Activated Corporation submitted an email stating that they had intended to bid “Foreign” GAC, and

WHEREAS, based on not submitting the Council required number of signed original bid documents for either “Foreign” or “Domestic” GAC, their bid was deemed to be non-responsive and was disqualified, and

WHEREAS, Carbon Activated Corporation filed a written protest to the Purchasing Supervisor as well as to the Deputy City Manager, per written protest procedure guidelines, and

WHEREAS, both the Purchasing Supervisor and Deputy City Manager acting as the Hearing Officer, reviewed all of the documents submitted by Carbon Activated Corporation and based on their findings, concluded that Carbon Activated Corporation had submitted a non-responsive bid, and

WHEREAS, based on Council policy ensuring the integrity of the bidding process, the Purchasing Division had no option but to reject their bid, and

WHEREAS, City staff recommended rejecting all bids for Request for Bid No. 0304-19 for the purchase and assembly of ten (10) granular activated carbon (GAC) units based on responsive bids received exceeding the engineer’s estimate. Staff also recommended authorizing the Purchasing Supervisor to re-bid for the purchase and assembly of ten (10) granular activated carbon units, and

WHEREAS, re-bidding was the recommended option because the responsive bid packages were significantly higher than the original engineer’s estimate, and

WHEREAS, on April 27, 2004, Council approved Resolution No. 2004-239, rejecting all bids and authorizing re-bidding, for the purchase and assembly of ten (10) granular activated carbon (GAC) units, and

WHEREAS, on April 28, 2004, the Purchasing Division solicited Request for Bid No. 0304-22, for the purchase and assembly of ten (10) granular activated carbon (GAC) units to three (3) bidders, plus posted the bid on the City's web site, and

WHEREAS, the engineer's estimate remained the same as in the first bid of, \$80,000 per unit, for a combined total engineer's estimate of \$800,000, and

WHEREAS, bids were opened on May 11, 2004, in the City Clerk's office, and

WHEREAS, of the three (3) bidders solicited, all three (3) chose to respond, and

WHEREAS, all three (3) bidders submitted responsive bids, and

WHEREAS, only one (1) bidder, Carbon Activated Corporation, submitted a bid that was within the range of the engineer's estimate, and

WHEREAS, Carbon Activated Corporation submitted a total bid price of \$803,131, and

WHEREAS, based on being the lowest responsive bid, it is recommended by staff that the City award the bid and contract for the purchase and assembly of ten (10) granular activated carbon (GAC) units, to Carbon Activated Corporation, Compton, CA, for a total bid price of \$803,131.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards the bid and contract for the purchase and assembly of ten (10) granular activated carbon (10) granular activated carbon (GAC) units, to Carbon Activated Corporation, Compton, CA, for a total bid price of \$803,131.

BE IT FURTHER RESOLVED that the City Manager is hereby authorized to execute said contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8<sup>th</sup> day of June, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-300**

**A RESOLUTION AUTHORIZING THE SOLICITATION OF BIDS FOR COMMUNICATION EQUIPMENT AS PART OF THE NATIONAL ASSISTANCE TO FIREFIGHTER'S GRANT PROGRAM. THE ESTIMATED COST OF THE EQUIPMENT IS \$256,000.00. THE CITY'S SHARE IN THE COST FOR THIS GRANT-FUNDED PURCHASE IS 30% (\$77,000.00)**

WHEREAS, the City of Modesto applied for a grant for communications equipment as part of the National Assistance to Firefighter's Grant Program in the category of Fire Operations and Firefighter Safety Program in March of 2003, and

WHEREAS, the grant was awarded and accepted by Council on November 13, 2003, and

WHEREAS, the granted dollar amount is \$256,000.00, and

WHEREAS, the City of Modesto's Federal cost-share of 30% is \$77,000.00, and

WHEREAS, by soliciting bids for the communication equipment requested as part of this grant, the City will satisfy the Municipal Code requirements and will obtain the best pricing.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the solicitation of bids for communication equipment as part of the National Assistance to Firefighter's Grant Program in the category of Fire Operations and Firefighter Safety Program in the amount of \$256,000 grant amount and the \$77,000.00 City of Modesto Federal cost-share.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8<sup>th</sup> day of June, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-301**

**A RESOLUTION AUTHORIZING THE IMPLEMENTATION OF AN AUTOMATED RED-LIGHT ENFORCEMENT PROGRAM TO AUGMENT THE EXISTING COMPREHENSIVE TRAFFIC CALMING MEASURES CURRENTLY BEING UTILIZED BY THE MODESTO POLICE DEPARTMENT APPROVING A FIVE (5) YEAR BASE CONTRACT WITH TWO (2) ADDITIONAL, ONE YEAR CONTRACT EXTENSION OPTIONS WITH REDFLEX TRAFFIC SYSTEMS OF CULVER CITY, CALIFORNIA FOR THE DESIGN AND IMPLEMENTATION OF SAID AUTOMATED RED-LIGHT ENFORCEMENT PROGRAM AND AUTHORIZING THE EXECUTION OF SAID CONTRACT BY THE CITY MANAGER**

WHEREAS, research by the United States Department of Transportation revealed there are more than 1.8 million intersection collisions annually, and, according to the Insurance Institute for Highway Safety, red light running is the leading cause of urban collisions, and

WHEREAS, in the year 2000, more than 106,000 of those 1.8 million collisions were the result of vehicles running a red light, and

WHEREAS, those red light collisions resulted in 89,000 injuries and 1,036 deaths, and

WHEREAS, in the year 2003, the City of Modesto had 313 intersection collisions directly attributable to red light running, and

WHEREAS, this statistic represents five percent (5%) of the total citywide collisions for 2003, and

WHEREAS, as the result of those collisions, there were 170 injuries, and

WHEREAS, in those cities where photo enforcement technology has been deployed, red light violations, traffic collisions and the resulting injuries and fatalities have been significantly reduced, and

WHEREAS, as part of a comprehensive traffic safety program, the Police Department, the Engineering and Transportation Department, and the Operations and Maintenance Department believe that the implementation of red light photo enforcement will significantly reduce the number of red light violations in the City of Modesto, and

WHEREAS, collisions resulting from red light violations will be reduced, thus providing the City with another valuable traffic calming tool to improve community and pedestrian safety, and

WHEREAS, the Council of the City of Modesto approved the issuance of a Request for Qualifications (RFQ) to prospective Automated Red Light Photo Enforcement vendors at its meeting of October 8, 2002, and

WHEREAS, in December of 2002 the Purchasing Division sent out an RFQ to seven (7) prospective vendors of automated red light camera systems, and

WHEREAS, out of the seven (7) vendors solicited, four (4) vendors submitted qualification proposals, and

WHEREAS, after reviewing the proposals three (3) vendors were selected to give presentations to the evaluation committee, and

WHEREAS, the committee comprised of City of Modesto staff, one City of Modesto Council Member, a City of Modesto citizen, and a member of the Stanislaus County District Attorney's Office carefully evaluated the responses based on the criteria contained in the RFQ, and

WHEREAS, that evaluation process included proposal evaluations, presentations, telephone interviews with references, and visitation to site references, and

WHEREAS, the committee selected Redflex Automated Red Light Camera technology for installation and use in the City of Modesto for the following reasons:

\*Redflex technology and the company's past performance in other cities came closest to fulfilling the original list of desired features the committee felt would be the best fit for Modesto,

\*The combination of digital photography and video, coupled with access via the Internet from any computer, including the courts, was very significant,

\*Redflex was the only vendor with this technology in place in California for the required 18 months prior to the RFQ, and

WHEREAS, this red light camera system is revenue neutral for the City of Modesto, and

WHEREAS, at its meeting of April 5, 2004 the Safety and Communities Committee unanimously recommended this action,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the implementation of an Automated Red-Light Photo Enforcement program to augment the existing comprehensive traffic calming measures currently being utilized by the Modesto Police Department.

BE IT FURTHER RESOLVED that a five (5) year base contract with two (2) additional one (1) year contract extension options with Redflex Traffic Systems of Culver City, California for the design and installation of said Red Light Photo Enforcement equipment and all related maintenance services at up to ten (10) City designated intersections for a phased implementation plan is hereby approved.

BE IT FURTHER RESOLVED that the Council hereby authorizes the City Manager or his designee to execute the contract with Redflex Traffic Systems.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8<sup>th</sup> day of June, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-302**

**A RESOLUTION APPROVING AND AUTHORIZING THE FILING OF A  
SECTION 5307 APPLICATION WITH THE FEDERAL TRANSIT  
ADMINISTRATION FOR PUBLIC TRANSIT OPERATING AND CAPITAL  
PURPOSES AND AUTHORIZING THE CITY MANAGER TO EXECUTE ALL  
GRANT APPLICATION AND GRANT AGREEMENT DOCUMENTS**

WHEREAS, the Federal Transit Administration (FTA) has been delegated authority to award federal financial assistance for transportation related projects, and

WHEREAS, the City of Modesto has provided all annual certifications and assurances to the Federal Transit Administration required for the projects, and

WHEREAS, each year the City of Modesto submits a grant application for Section 5307 funds from the formula apportionment made available to the Modesto Urbanized area by the FTA, and

WHEREAS, the City of Modesto has received authority from the Designated Recipient, StanCOG, to apply for Section 5307 Urban Area Formula Program Assistance for no more than \$2,503,541 for FY 2003-04, and

WHEREAS, the projects in the Section 5307 grant application are in the Federal Transportation Improvement Program (FTIP) adopted by StanCOG November 12, 2003, and

WHEREAS, the grant for Federal assistance will impose certain obligations on the City of Modesto, and may require the city to provide the local share of the project costs, and

WHEREAS, the Economic Development Committee approved this request to file a Section 5307 application with the Federal Transit Administration at its meeting on May 10, 2004, and

WHEREAS, by a report to the Council dated May 17, 2004, from the Engineering and Transportation Department, City staff recommended submitting a grant application for \$2,530,541 in Section 5307 formula FTA funds to partially offset the operational and capital costs of the City's public transit program, a copy of said report is attached hereto and incorporated herein by reference, and

WHEREAS, the City Council conducted a duly noticed Public Hearing on June 8, 2004, in accordance with FTA regulations,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the filing of the Section 5307 application is hereby approved, and the City Manager, or his designee, is hereby authorized to execute and file said application for Federal Section 5307 assistance on behalf of the City of Modesto with the Federal Transit Administration (FTA) for Federal assistance authorized by 49 U.S.C. chapter 53, Title 23, United State Code, or other Federal statues authorizing a project administered by the Federal Transit Administration.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute and file the annual certifications and assurances and other documents the Federal Transit Administration requires for awarding a federal assistance grant.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute grant agreements with the Federal Transit Administration on behalf of the City of Modesto.

**A RESOLUTION ACCEPTING THE 2004 *PUBLIC HEALTH GOALS REPORT* IN COMPLIANCE WITH TITLE 22 OF THE CALIFORNIA HEALTH AND SAFETY CODE.**

WHEREAS, Title 22 of the California Health and Safety Code requires that all large water system providers issue a *Consumer Confidence Report* on water quality standards in their service area, and

WHEREAS, said *Consumer Confidence Report* is required to be delivered to customers by July 1, 2004, and

WHEREAS, Title 22 of the California Health and Safety Code also requires all large water system providers to issue a *Public Health Goals Report* once every three years on exceedances of the Public Health Goals, and

WHEREAS, the water system providers are also mandated to hold a public hearing for comments regarding the *Public Health Goals Report*, a copy of which is on file in the office of the City Clerk, and

WHEREAS, said *Public Health Goals Report* has been prepared and the matter set for a public hearing to be held on June 8, 2004, at 5:30 p.m., in the Tenth Street Place Chambers, located at 1010 10<sup>th</sup> Street, Modesto, California, at which date and time said duly noticed public hearing of the Council was held for the purpose of receiving public comments.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that following the receipt of public comment, and the 2004 *Public Health Goals Report* having been duly considered, said report is hereby accepted.

**A RESOLUTION APPOINTING SAM PIERSTORFF AS THE POET  
LAUREATE OF THE CITY OF MODESTO FOR A TWO-YEAR TERM  
FROM JULY 1, 2004, THROUGH JUNE 30, 2006.**

WHEREAS, on July 13, 1993, by Resolution No. 93-412, the City Council established a non-salaried honorary position to be known as “The Poet Laureate of the City of Modesto”, and

WHEREAS, the Culture Commission has the responsibility for nominating and recommending appointments to the Poet Laureate position, and

WHEREAS, the purpose of a Poet Laureate is to present original poems at various official occasions, and

WHEREAS, a copy of the City of Modesto Policy regarding said non-salaried honorary Poet Laureate position is on file in the office of the City Clerk, and

WHEREAS, the Culture Commission met on May 3, 2004, and concluded that Sam Pierstorff met the criteria for fulfilling the obligations as Poet Laureate of the City of Modesto, and

WHEREAS, the Culture Commission recommended the appointment of Sam Pierstorff as Poet Laureate of the City of Modesto, and

WHEREAS, the Safety and Communities Committee met on June 2, 2004, and supported the Culture Commission’s recommendation to appoint Sam Pierstorff as the City of Modesto’s Poet Laureate,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby appoints Sam Pierstorff as the Poet Laureate of the City of Modesto from July 1, 2004, through June 30, 2006.

**A RESOLUTION APPROVING AN AMENDMENT TO THE CONTRACT FOR AUDIT SERVICES WITH MAZE & ASSOCIATES AT A COST NOT TO EXCEED \$5,155 FOR 2003 AUDIT WORK, \$17,126 FOR 2004 AUDIT WORK, \$17,656 FOR 2005 AUDIT WORK, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE CONTRACT AMENDMENT.**

WHEREAS, at its April 1, 2003, meeting the Modesto City Council adopted Resolution 2003-164 approving execution of a contract with Maze & Associates to perform the City's annual financial audits, and

WHEREAS, the City Manager executed said contract on behalf of the City of Modesto, and

WHEREAS, the audit firm was required as part of its work to perform additional work for the 2003 Single Audit that was outside the scope of the original contract, at a price not to exceed \$5,155, and

WHEREAS, additional audit services are required in Fiscal Years 2004 and 2005, for two additional federal programs and two additional Community Facilities Districts, at respective additional annual costs of \$17,126 and \$17,656, and

WHEREAS, the contract for these audit services requires Modesto City Council approval for such additional work, and

WHEREAS, at its June 21, 2004, meeting the Audit Committee recommended that the Council approve payment for the additional work,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an amendment to the contract for audit services with Maze & Associates, authorizing the additional work proposed, at a cost not to exceed \$5,155 for Fiscal Year 2003, \$17,126 for Fiscal Year 2004, and, \$17,656 for 2005.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute said contract amendment.

WHEREAS, by Resolution No. 96-545, adopted on October 8, 1996, the City Council made certain amendments to its “Policies and Procedures” for the creation and administration of Mello-Roos Community Facilities Districts, and

WHEREAS, by Resolution No. 98-164, adopted on March 24, 1998, the City Council made certain amendments to its “Policies and Procedures” for the creation and administration of Mello-Roos Community Facilities Districts, and

WHEREAS, by Resolution No. 98-186, adopted on April 7, 1998, the City Council made certain amendments to its “Policies and Procedures” for the creation and administration of Mello-Roos Community Facilities Districts, and

WHEREAS, by Resolution No. 98-483, adopted on September 8, 1998, the City Council made certain amendments to its “Policies and Procedures” for the creation and administration of Mello-Roos Community Facilities Districts, and

WHEREAS, by Resolution No. 99-405, adopted August 10, 1999, the City Council made certain amendments to its “Policies and Procedures” for the creation and administration of Mello-Roos Community Facilities Districts, and

WHEREAS, by Resolution No. 99-500, adopted October 5, 1999, the City Council made certain amendments to its “Policies and Procedures” for the creation and

administration of Mello-Roos Community Facilities Districts, and

WHEREAS, by Resolution No. 2002-39, adopted on January 22, 2002, the City Council transferred the CFD administration function from the City Clerk and the City Attorney to the City Manager, and by the same Resolution the City Council made certain amendments to its Policies and Procedures for the creation and administration of Mello-Roos Community Facilities Districts, and

WHEREAS, by Resolution No. 2004-172, adopted April 6, 2004, the City Council made certain amendments to its "Policies and Procedures" for the creation and administration of Mello-Roos Community Facilities Districts, and

WHEREAS, The City Council desires to further amend the City's Policies and Procedures for formation and administration of Mello-Roos Community Facilities Districts.

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that its "Policies and Procedures" relating to the application for, creation of and administration of Mello-Roos Community Facilities Districts, formerly adopted and amended by this Council, be further amended as set forth below:

1. That the following definition be added to Section 2) Definitions:
  - k) City Manager. City Manager or his or her designee.
2. That Section 3) Application Process be amended to read as follows:
  - 3) Application Process.
    - a) Application. The applicant shall submit an application in the form attached hereto as Example "A", or as may be amended from time to time by the City Manager to the City together with a nonrefundable fee as set forth herein and amended from time to time. The fee is for the purpose of application processing, other preliminary costs, retention of appropriate consultants, and the compensation of staff

time devoted to the formation of the CFD.

- b) Project Review. Applicant and the CFD Formation Group may discuss the application including but not limited to further information that might be required and other issues as necessary. If necessary, the applicant may be required to submit a revised application. Once the application is accepted by the CFD Formation Group, it may be reviewed by City Finance personnel or City consultants to determine the adequacy of the proposed financing. CFD Formation Group may also forward the application to the City's engineering staff for determination that the application package is in fact both complete and practicable. Applicant and the CFD Formation Group may also conduct a face to face meeting between the applicant and the CFD Formation Group to "scope" the consultant work necessary to the formation of the CFD. However, the final authority to approve the scope of the consultant work to be performed in connection with the formation of any CFD and for the compensation of such services shall be solely within the authority of the CFD Formation Group.
- c) Project Initiation. The application is accepted by the CFD Formation Group and the CFD Formation Group receives contracts, reimbursement agreements, bond documents and other pertinent items for consideration by the City Council, as required.
- d) Costs Incurred By The City Prior To Formation. All costs incurred by the City prior to formation of the CFD, including but not limited to consultant costs (e.g. legal counsel, engineer firms, appraisers, special tax consultants, financial advisors), City staff and administrative costs and related expenses, cost of providing notices, printing and publication costs, and all expenses directly or indirectly relating to these items, shall be reimbursed to the City by the applicant prior to the completion of formation. The CFD Formation Group shall utilize timekeeping computer software, as such may be updated from time to time, to track billable hours in 1/10 hour increments attributable to CFD formation, amendment, annexation or other modification, and CFD administration. The timekeeping process will be used both to audit time spent as appropriate, and to generate bills to applicants for formation costs. Such bills shall also contain, in so far as practicable, costs or estimates of costs incurred by CFD group members in connection with CFD formation and/or CFD administration.

From time to time the CFD Formation Group will review and re-evaluate the City's fee/deposit requirements in light of the cost

results of recent CFD formations for the purpose of recommending modifications of excessively high or low fee/deposit charges as required. The initial such review shall occur in September 1998.

- e) Costs Incurred Prior To Bond Closing. If a CFD is formed, and if bonds are issued, the City may direct that all of its costs of formation be reimbursed from bond proceeds.
- f) Costs Incurred By The City Subsequent To Formation. All City administrative and consultant costs, including those of the District Administrator, related to administration of a CFD and incurred after formation shall be included within the special tax formula in accordance with applicable provisions of law.
- g) Formation Reimbursement To Applicant.
  - (1) Where CFD is Not Formed, or where CFD is Formed and Bonds are Not Issued. In the event that the CFD is not formed due to City disapproval or abandonment, or due to applicant abandonment, or due to nonpayment of any reimbursable fee, or the CFD is formed and bonds are not issued for any reason, the City will refund to the applicant any remaining unexpended and unobligated portion of advance deposits posted with the City, subject to the City's prior and full reimbursement of all of its direct and indirect costs. In the event that the applicant's advance deposit to the City is not sufficient to reimburse the City for all of its direct and indirect costs, the City will require an additional deposit by the applicant for the difference. The City shall be entitled to pay any refund to the applicant listed on the application form without interest, irrespective of any changes in the ownership or compensation of the applicant.
  - (2) Where CFD is Formed and Bonds are Issued. If the CFD is formed and bonds are issued, bond proceeds shall be used to defray all approved costs and expenses incident to the proceedings in construction of the public facilities, subject to approval of the CFD Formation Group in conjunction with Bond Counsel, and subject to any applicable restrictions contained in the Act as amended. With respect to applicant paid consultant costs, reimbursement shall be limited to those CFD-related consultant's hired by the City or those hired by the applicant and expressly approved by the City in writing. Eligibility for reimbursement of any otherwise-eligible expense is conditioned upon the applicant providing paid invoices therefore to the City, and the CFD Formation Group's approval thereof. The applicant shall not be entitled to reimbursement from

bond proceeds for any of the following reasons: interest expense incurred by the applicant during the planning or design of construction (subject to exception for construction-related interest expense, set forth below) of the public improvements and any other costs and expenses incurred by the applicant which are not legally authorized for reimbursement, or as to which Bond Counsel has declined approval for reimbursement.

- (3) Pursuant to Government Code Section 53314.9, the City Council may enter into an agreement, by resolution, with a person or entity advancing funds or work-in-kind for any authorized purpose, including, but not limited to, paying any cost incurred by the City in creating a CFD, without interest, under all of the following conditions:
  - (a) The reimbursement proposal is included in the resolution of intention to establish the CFD and in the resolution of formation to establish the CFD, or in the resolution of consideration adopted pursuant to Government Code Section 53334.
  - (b) The proposed special tax or change in a special tax is approved by the qualified electors of the CFD, or in the event that the electors do not approve the proposed special tax or change in a special tax, the City shall return any funds which have not been committed for any authorized purpose at the time of the election.
  - (c) Any work-in-kind accepted pursuant to this paragraph shall have been performed or constructed as if the work had been performed or constructed under the direction and supervision, or under the authority of, the City.
  - (d) Any reimbursement agreement entered into pursuant to this paragraph and Government Code Section 53314.9, shall not constitute a debt or liability of the City or of the District.

The reimbursement procedure specified in Government Code Section 53314.9 and incorporated in this paragraph may be utilized both in the case where the requesting person or entity owns all of the land within a proposed CFD, and in the case in which the requesting person or entity owns less than all of the land within the proposed CFD. In the later event, consideration will be given to setting forth two (2) or more tax districts within the CFD in order to facilitate reimbursement of the person or entity which paid more than its pro-rata share of the formation costs from the proceeds of one time special facilities taxes paid by landowners in the tax district or

districts that does/do not include the land owned by the person or entity that paid more than its prorata share of the CFD formation costs.

- (4) Where CFD is Formed and Bonds are Not Issued. With respect to advance formation fees pursuant to Paragraph 3.u. of these Policies and Procedures, any portion of such fee/deposit not paid out or obligated for the direct or indirect costs of CFD formation by the CFD Formation Group, may be further obligated by the CFD Formation Group based on its good faith estimate of the cost, including consultant costs, and other reasonable incidental costs as defined in the Act that may be incurred in the administration of the CFD during the period of time following its formation but prior to the City's receipt of sufficient annual maintenance special taxes to provide for appropriate administration of the CFD. The remaining fee/deposit not paid out or obligated for the direct or indirect costs of the CFD formation or administration by the CFD Formation Group shall be returned to the applicant within five (5) business days after the CFD Formation Group presents its written accounting and good faith estimate. The accounting and good faith estimate shall be prepared within thirty (30) days after the CFD is formed.
  
- (5) "Dollar for Dollar" Credit Against One-Time Facility Tax. Where the applicant makes a timely request that CFD formation costs be included in the cost of infrastructure for the purpose of computing taxes due under the Rate and Method of Apportionment and the final tax formulas, such CFD formation costs, including the initial fee/deposit, may be recovered by crediting such formation costs against facilities special taxes which would otherwise be due from the applicant from the time when such taxes would initially be due until the subject formation costs to be credited are exhausted by facilities special taxes incurred.
  
- h) Agreements Required. Applicant will be required to enter into all necessary agreements incident to CFD proceedings in a form provided by the City and consistent with these Policies and Procedures. These agreements may include, but not be limited to:
  - (1) Acquisition and Shortfall Agreement
  - (2) Advance Deposit Agreement
  - (3) Land Dedication Agreement (where required)
  - (4) Acquisition and Disclosure Agreement
  - (5) Disposition and Development Agreement (where required)
  - (6) Development Agreement

(7) Other agreements (as required)

As a condition of the issuance and sale of bonds, all of the agreements required by the City shall be duly approved and executed by the parties thereto. Prior to execution of any such agreements, the agreements shall be reviewed and approved by the City Attorney. They may also be reviewed by Bond Counsel and such other consultants as the City believes are appropriate.

- i) Land Use Approvals. All projects within the proposed CFD, together with the infrastructure and public facilities, must be consistent with the City's adopted General Plan and zoning classifications. All property within the proposed CFD must possess land use determinations or zoning classifications of sufficient certainty, and facility requirements of sufficient specificity that each parcel can be adequately assessed.
- j) Use of Consultants. The City shall employ any consultants necessary for the formation of a CFD, review of financing, the issuance and administration of bonds, including but not limited to underwriters and underwriter's counsel, Bond Counsel, Financial Advisor, special tax consultant, engineers, appraisers, market absorption study consultant, or any other consultant deemed necessary by the CFD Formation Group in its judgment to complete the CFD proceedings and/or for issuance of bonds. The cost reimbursement provisions of these Policies and Procedures shall apply to all costs and expenses incurred by the CFD Formation Group in employing such consultants. An applicant may retain its own consultants for its own benefit, but must work only through those consultants hired by the City. In the event the applicant retains its own consultants, all costs associated therewith shall be borne by the applicant, without reimbursement from bond proceeds unless expressly agreed in writing by the CFD Formation Group.
- k) Eligible Infrastructure and Public Facilities. Infrastructure and public facilities eligible for CFD financing are those public improvements which benefit properties within a proposed CFD and/or will mitigate impacts of that development upon areas of the City outside the proposed CFD, and which will be owned, operated and maintained by the City or another public agency expressly approved in writing by the City. Improvements which are or will be owned, operated or maintained by a private company or utility are not eligible, except for improvements to be owned by shareholder owned utility companies regulated by the California

Public Utilities Commission and which comprise less than five (5%) percent of the project. In-tract facilities, exactions, or other public right of way easements and/or lands which are dedicated by applicant as a condition of a development entitlement will not be eligible for bond financing, except if they are expressly allowed in a development agreement or other agreement between the City and the applicant.

- l) Bidding Process.
  - i) In retaining construction contractors for work which is reimburseable by a City of Modesto CFD and where the Acquisition and Shortfall Agreement (or other similar agreement) with the CFD is less than \$300,000.00, the developer shall abide by the following bid process:
    - (1) The developer shall provide three (3) competitive bids. If the developer desires to award to a contractor other than the low bidder, a written request must be submitted to the District Engineer. The District Engineer may allow this if the developer can provide adequate justification
    - (2) The developer shall insure that all contractors and subcontractors are licensed in accordance with sections 7000 through 7145 inclusive, of the California Business and Professions Code and maintain adequate insurance for any work or services performed.
    - (3) In accordance with California Labor Code section 1770, developer shall require the payment of prevailing wages based on the rates determined by the California Director of Industrial Relations. Unless otherwise directed by the District Engineer, Developer's construction schedule shall provide adequate time for completion of the work such that no holiday or overtime labor shall be required. The CFD shall not reimburse developer for any labor costs which exceed the normal and customary straight time rates as described in the City of Modesto General Provisions, Section 4.19, for the work performed unless the District Engineer authorizes the use of overtime or legal holiday time, in advance and in writing.
    - (4) The District Engineer shall retain the right to be in attendance to inspect all bids and change orders. Any extra work or charges during construction for which reimbursement is sought shall be justified and documented. Except in the case of an emergency, any such charges shall be approved by the District Engineer in advance and in writing. In the case of an emergency, any such charges may

be authorized by the District Engineer if the developer provides adequate justification that an emergency existed and that the extra work or charges incurred were reasonable. Said justification shall be provided within a reasonable time after the emergency ends and prior to reimbursement for any such charges.

- (5) No permits shall be issued and no work shall commence until the developer and the District Administrator have executed an Acquisition and Shortfall Agreement for the improvements to be constructed.
- (6) The developer shall maintain certified payroll records for all labor costs incurred on all CFD reimbursable work for a minimum period of four (4) years from the issuance of the Notice of Completion. Said payroll records shall be made available to the CFD or any state regulatory agency for review, audit, inspection or copying upon request.
- (7) Developer shall indemnify and hold the City and the CFD harmless for ensuring that the project is bid and constructed in accordance with City and CFD standards, and in compliance with all applicable local, state and federal laws. Developer shall also indemnify and hold the City and the CFD harmless for any damages, claims or actions arising out of said construction activities in a form approved by the City Attorney and the Risk Manager.
- (8) Developer may be reimbursed for design costs incurred prior to the execution of an Acquisition and Shortfall Agreement for completed and accepted, CFD-funded facilities as determined and approved by the CFD Administrator and the CFD Engineer.
- ii) In retaining construction contractors for work which is reimburseable by a City of Modesto CF and where the Acquisition and Shortfall Agreement (or other similar agreement) with the CFD is \$300,000.00 or greater, the developer shall abide by the following bid process:
  - (1) Using a bid package approved by the City, the developer shall advertise for bids in the appropriate newspapers and periodicals, including but not limited to the local Builders Exchange and the Modesto Bee. Bid opening shall be no sooner than 7 days after the initial publication.
  - (2) The bid package shall include, and be based upon, improvement

plans as stamped approved by the City Engineer or his or her designee ("City Engineer"), and the Community Facilities District Engineer or his or her designee ("District Engineer"). The bid package may not contain any alterations, deviations or exceptions to the improvement plans, unless the alteration, deviation or exception is approved in writing by the District Engineer and is advertised for a reasonable period prior to the bid opening.

- (3) The developer shall only accept bids using a bid proposal form approved by the City. The developer shall ensure that copies of the form are made available to prospective bidders at a local business office located within Stanislaus County during reasonable business hours throughout the bid advertising period. Contractors interested in submitting sealed bids for the project will be directed to do so on the approved form and at a specific date and time (e.g., at 9 a.m. on February 1, 2004, at the developer's place of business) . At this specified time, the District Engineer may be in attendance to receive the bid packages.
- (4) The bid packages will be opened immediately after the close of the specified time period. The bid opening shall be open to the public and may be in the presence of the District Engineer. All bids will be publicly announced at the bid opening. The developer will then begin the process of executing a contract with the lowest responsible bidder.

If the developer desires to award to a contractor other than the low bidder, a written request must be submitted to the District Engineer. The District Engineer may allow this if the developer can provide adequate justification.

- (5) The developer shall insure that all contractors and subcontractors are licensed in accordance with sections 7000 through 7145 inclusive, of the California Business and Professions Code and maintain adequate insurance for any work or services performed.
- (6) In accordance with California Labor Code section 1770, developer shall require the payment of prevailing wages based on the rates determined by the California Director of Industrial Relations. Unless otherwise directed by the District Engineer, Developer's construction schedule shall provide adequate time for completion of the work such that no holiday or overtime labor shall be required. The CFD shall not reimburse developer for any labor costs which exceed the normal and customary straight time rates as described in the City of Modesto General Provisions, Section 4.19,

for the work performed unless the District Engineer authorizes the use of overtime or legal holiday time, in advance and in writing.

- (7) The District Engineer shall retain the right to be in attendance to receive the bid package, or to inspect all bids and change orders. Any extra work or charges during construction for which reimbursement is sought shall be justified and documented. Except in the case of an emergency, any such charges shall be approved by the District Engineer in advance and in writing. In the case of an emergency, any such charges may be authorized by the District Engineer if the developer provides adequate justification that an emergency existed and that the extra work or charges incurred were reasonable. Said justification shall be provided within a reasonable time after the emergency ends and prior to reimbursement for any such charges.
- (8) No permits shall be issued and no work shall commence until the developer and the District Administrator have executed an Acquisition and Shortfall Agreement for the improvements to be constructed.
- (9) The developer shall maintain certified payroll records for all labor costs incurred on all CFD reimbursable work for a minimum period of four (4) years from the issuance of the Notice of Completion. Said payroll records shall be made available to the CFD or any state regulatory agency for review, audit, inspection or copying upon request.
- (10) Developer shall indemnify and hold the City and the CFD harmless for ensuring that the project is bid and constructed in accordance with City and CFD standards, and in compliance with all applicable local, state and federal laws. Developer shall also indemnify and hold the City and the CFD harmless for any damages, claims or actions arising out of said construction activities in a form approved by the City Attorney and the Risk Manager.
- (11) Developer may be reimbursed for design costs incurred prior to the execution of an Acquisition and Shortfall Agreement for completed and accepted, CFD-funded facilities as determined and approved by the CFD Administrator and the CFD Engineer.
- m) Designation of Spokesperson. The applicant(s) owners requesting preparation of a petition for formation of a CFD, if more than one, shall designate a spokesperson for all of them. The

applicants' spokesperson shall be responsible for the following.

- (1) Advising joint applicants to contact him or her for answers to their questions concerning CFD matters.
- (2) Contacting appropriate City representatives to obtain answers to such questions as he or she is unable to answer. The appropriate City representatives are the members of the CFD Formation Group.
- (3) Informing joint applicants that any estimated cost figures supplied to them prior to the estimate contained in the public report, as preliminarily approved by the CFD Formation Group, must not be relied upon as necessarily precise.

n) Additional Advances. It is the policy of the City that applicants with properties improved through CFD proceedings pay all City and associated costs of such proceedings and other costs incurred in advance of CFD formation, or, in the case of the sale of bonds, before any bonds are sold. Therefore, with respect to all developer-initiated applications, if actual City costs exceed the amounts estimated below, the applicant will be required to advance additional monies to pay all costs incurred or to be incurred. Any failure to do so within ten (10) days of provision of written demand by the CFD Formation Group will be grounds for immediate termination of all activities by the CFD Formation Group, and by the consultants, if any, retained by the CFD Formation Group for the purpose of bond financing.

o) Boundary Map. A boundary map for each proposed CFD must be provided with the application. The boundary map should be provided in the following formats:

- (1) 18" x 26" Mylar
- (2) 8 ½ x 11" paper
- (3) PDF

Assessor's parcels maps may be compiled on which the project boundary and other required information are shown. The map must identify all Assessor's parcels within the project boundary and the boundary of the area being annexed must follow existing parcel lines. The map must be certified by a licensed civil engineer. The CFD number to be included in the map title and page numbers may be obtained from the CFD Formation Group.

p) Registered Voter/Property Owner Certification. Any CFD

election will be voted upon by property owners (one vote per acre) so long as there are fewer than twelve (12) registered voters residing within the proposed CFD area. The CFD Formation Group will not process registered voter elections absent special arrangements with the CFD proponent. Each of the property owners must designate a single proxy to cast their ballot. The civil engineer for the CFD applicant must verify the number of registered voters within the project and list all property owners showing APN and number of acres. The civil engineer must then file a certification suitable to the CFD Formation Group as part of the application package. This certification must be made within ninety (90) days prior to the hearing on the resolution of formation for the CFD.

- q) Waiver and Consent. The qualified electors (property owners) must file a waiver and consent document suitable to the CFD Formation Group waiving some of the statutory election requirements, particularly the time lines. With this waiver, the election may take place sooner than otherwise.
- r) Fiscal Feasibility Report. Prior to the formation of a CFD, a fiscal feasibility report may be required if a portion of the land within a CFD is substantially undeveloped. The report shall be prepared by or at the direction of the CFD Formation Group. All costs for preparing this report shall be borne by the applicant.
- s) Special Taxes and Assessments. The projected special tax, when added to the ad valorem property tax and other direct and overlapping debt for the proposed CFD (including other benefit assessments, special taxes levied for authorized but unissued debt, and any other anticipated special assessments, taxes or charges which may be included on a property owner's annual property tax bill), shall not exceed two (2%) percent of the projected assessed value of each improved parcel within the CFD. A backup special tax may be required to protect against changes in land use that may result in insufficient annual special tax revenues.
- t) Special Tax Formula. The maximum special tax submitted to the qualified voters of the CFD shall not exceed one (1%) percent of the projected assessed value of the developed properties at the time of full build out of CFD formation. Furthermore, the total of the following shall not exceed two (2%) percent of the projected assessed value of the subject properties
  - (1) Ad valorem property taxes levied by the City.

- (2) Voter approved ad valorem taxes levied by the City in excess of one (1%) percent of the assessed value.
- (3) Special taxes levied by any existing CFD for the payment of bonded indebtedness or ongoing services.
- (4) Assessments levied for any assessment district or maintenance district for the payment of bonded indebtedness or services.
- (5) The maximum special tax for the proposed CFD.

The maximum special tax formula shall adhere to the following requirements:

1. The maximum special tax shall be established when a developed parcel is first subject to the tax and shall include the annual administrative costs to the City to administer the CFD.
2. Concerning that portion of the tax restricted to generating funds for maintenance of facilities, the special tax formula shall not include escalator rates allowing annual tax increases above four (4%) percent per year for developed parcels.
3. The City shall have discretion to allow a special tax in excess of the two (2%) percent maximum tax burden limits for any commercial or industrial lands within the CFD.
4. Concerning that proportion of the tax restricted to generate funds for the payment of debt service, the special tax formula shall not include escalator rates allowing annual tax increases above two (2%) percent.
- u) CEQA Compliance. The CFD Formation Group shall be responsible for compliance with the California Environmental Quality Act with respect to each CFD formation analyzed or completed by it.
- v) Based on substantial evidence presented to the City Council, it is determined that advance deposits in the following sums must be received in all cases, whether reimbursable or not, prior to an applicant's application for a CFD being deemed complete by the CFD Formation Group.
- (1) A CFD is to be created at applicant's request and where bonds are

issued - \$64,500.00. The Developer shall make additional advances to the City within ten (10) days following receipt from the City of a request for an additional advance to cover the costs referred to herein.

- (2) A CFD is to be created at applicant's request and where bonds are not to be issued - \$64,500.00. The Developer shall make additional advances to the City within ten (10) days following receipt from the City of a request for an additional advance to cover the costs referred to herein.
- (3) In the case of the creation of a "simple" annexation to an existing CFD, which does not require the preparation of a new public report, or the alteration of an existing Public Report or modification of any other CFD-related document for the existing CFD, and the annexation does not involve the sale of bonds - \$9,500.00. The Developer shall make additional advances to the City within ten (10) days following receipt from the City of a request for an additional advance to cover the costs referred to herein.
- (4) In the case of the creation of a "complex" annexation to an existing CFD, which requires an amendment to or modification of a Public Report or other CFD-related document, and the annexation does not require the sale of bond - \$20,500.00. The Developer shall make additional advances to the City within ten (10) days following receipt from the City of a request for an additional advance to cover the costs referred to herein.
- (5) In the event that a "registered" voter election is required, an additional amount over and above the previously mentioned fees may be incurred. The City Clerk will estimate the minimum time and material costs pertaining to such an election based on the facts known at the time the election becomes necessary, and payment of the estimated sum shall be required prior to initiation of such an election.
- (6) In the event that a "registered voter" election is both required and results in the nonformation/nonannexation of the subject CFD, the above-referenced fees and costs will not be refundable to the applicant save and except those amounts advanced by the applicant which are in excess of those obligated for the CFD Formation Group formation/annexation costs, consulting fees and other related expenses.

- w) Resolution of Intention. When a CFD application and all related documents have been completed, the appropriate fee has been paid, and the CFD Formation Group has agreed to place the matter of the formation/annexation of the pertinent CFD before the City Council, the vehicle for such placement shall be the "Resolution of Intention" as required by the Act. The City Council vote on the Resolution of Intention shall also be the City's final determination on the application. If the Resolution of Intention is approved, the CFD Formation Group will undertake the necessary steps to complete formation/annexation of the CFD, including, but not limited to, completion of appropriate contracts, legal documentation, bond documents, project schedule, and other pertinent items.
- x) Fiscal Year Planning. In the event that the fiscal year in which a CFD is commenced ends during the formation of the CFD, the Finance Department of the City shall carry forward any unused CFD funds to the next fiscal year in order to facilitate a smoothly continuous CFD formation/annexation process, and to permit prompt payment of ongoing expenditures.
- y) Fiscal Authority. The CFD Formation Group has the inherent authority to receive and to appropriate CFD revenue and to direct the Finance Department of the City of Modesto to establish a new fund for each new CFD formation/annexation.

3. That Section 4) a. Terms and Conditions of Bonds be amended to read as follows:

- 2) Terms and Conditions of Bonds.
  - a) All terms and conditions of bonds shall be established by the City. The City will control, manage and invest all CFD issued bond proceeds. Unless otherwise authorized by the City, the following shall serve as bond requirements:
    - (1) A debt service reserve fund equal to an amount not less than ten (10%) percent of the bond issue's par value, subject to federal tax regulations will be established.
    - (2) The special taxes shall be levied for the first fiscal year following sale of the bonds for which they may be levied. Unless otherwise agreed to by the City, interest shall not be funded (capitalized) beyond the earliest interest payment date for which sufficient special tax revenues will be available for payment of interest.

- (3) Beginning with the commencement of the repayment of principal, annual debt service may be level or may escalate up to a maximum of two (2%) percent per year.
  - (4) The maximum special tax shall be established to assure that the annual revenue produced by levy of the maximum special tax shall be equal to at least one hundred ten (110%) percent of the average annual debt service.
  - (5) The initial maximum annual administration requirement shall be no more than two (2%) percent of the par amount of the bonds but may escalate up to a maximum of two (2%) percent per year.
  - (6) Prior to the issuance of bonds, the City shall authorize its Bond Counsel to commence and process to final judgment an action establishing the validity of the proceedings, special tax and issuance of bonds, unless advised to the contrary by such Bond Counsel.
  - (7) In instances where multiple series of bonds are to be issued, the City shall make a final determination as to which public facilities are of the highest priority and those public facilities which will be financed first, pursuant to funding availability and the proposed timing of facilities development, and will be subject to the earliest or most senior lien except, when concerning land-secured financings if the City and applicant agree separately.
  - (8) The City may require that each new CFD bond issue refund any prior issues, if they exist on properties included in the CFD, in order to avoid subordinated liens. Instances where prior issues may not require refunding are:
    - (a) Where refunding of prior issues will result in higher interest costs;
    - (b) Where there can be assurance that prior liens may pose no marketing problems for the new CFD bonds; or
    - (c) Where refunding of prior issues may present future administrative difficulties to the City or other affected public entities.
4. That Section 4) h. (1) Credit Quality to be Required of Bond Issues be amended to read as follows:
- (1) Debt Service. Except for commercial or industrial property

financings with no residential components, debt service shall be substantially level throughout the life of the bond issue or shall escalate at a rate generally not greater than two (2%) percent per year. Phased bond issuance shall not result in increased debt service to existing residential homeowners. Unless determined to be specifically required, debt service shall not exceed thirty (30 years) from the date of bond issuance.

5. That Section 5) d. District Administrator be amended to read as follows:

- d) Take any and all actions necessary for prudent administration of all post-formation/post-annexation CFDs, including but not limited to the expenditure or allocation of District funds, in strict accordance with Section 53343 of the Mello-Roos Act of 1982 as it may be amended, so that any such funds shall only be allocated or expended for facilities and services authorized by the Act. This shall include but not be limited to, creation of and modification to the Capital Improvement Project (CIP) budgets.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of June, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour

NOES: Councilmembers: None

## CITY OF MODESTO

### POLICIES & PROCEDURES FOR THE FORMATION, ANNEXATION AND ADMINISTRATION OF COMMUNITY FACILITIES DISTRICTS CREATED PURSUANT TO THE PROVISIONS OF THE MELLO-ROOS COMMUNITY FACILITIES ACT OF 1982

---

#### 1) Introduction.

The following policies and procedures (“Policies and Procedures”) for the use of the Mello-Roos Community Facilities Act of 1982 (the “Act”) are established pursuant to Government Code Section 53312.7. These Policies and Procedures describe the application, formation, annexation, appropriate uses for and administration of any Community Facilities District (“CFD”) used to finance facilities or for the provision of allowable services.

The City of Modesto (the “City”) will consider developer or property-owner initiated applications requesting the formation of a CFD, and the possible issuance of bonds or the generation of revenues to finance eligible public facilities necessary to serve residential, commercial and/or industrial projects. The City may also establish CFDs which are initiated by the City. Priority in using CFD funding will be given to capital projects that are regional in nature and have the broadest possible benefit to the land uses included in the CFD. While it is the City’s intent to use the Act to provide for the financing of City-owned and operated infrastructure and services, projects of a regional nature may include facilities to be owned and operated by other public agencies. In any event, only regional or community serving public facilities which directly benefit the CFD, and the provision of services (if applicable) may be eligible for CFD funding.

The City shall make the final determination as to whether or not a proposed CFD shall proceed under the provisions of the Act. The City may confer with the applicant and its consultants to learn of any unique district requirements, such as regional-serving facilities or long term development phasing prior to making any such final determination.

The Act may be used for the purchase, construction, expansion, rehabilitation, or acquisition of public improvements, or the provision of public services subject to the provisions of these Policies and Procedures and any subsequent amendments thereto, to the fullest extent permitted by the Act. The City shall use the Act to provide for the financing of City-owned and operated infrastructure and services, except as noted above.

The City will make the final determination whether or not the CFD will be a construction or acquisition district. All City and consultant costs incurred in the evaluation of CFD applications and the creation of CFDs must be paid in advance by the applicants in those instances where a CFD is initiated by a party or parties other than the City. However, the City may incur expenses for analyzing proposed districts where the City is the principal proponent of the CFD formation for financing of the CFD.

Expenses not legally reimbursable by the district shall be borne by the applicant. Both City costs and district consultant costs may be funded from bond proceeds.

For the purposes of reviewing activities undertaken pursuant to these Policies and Procedures, and to review proposed Mello-Roos financing, all relevant matters shall be referred to the Financial Policy Committee of the City Council.

2) Definitions.

- a) Acquisition District. A CFD formed to finance the acquisition of infrastructure or public facilities where the applicant will be reimbursed for eligible construction related costs by means of tax credits or otherwise.
- b) Amendment. A change, in any manner, to an adopted Public Report.
- c) Annexation. The addition of real property into a CFD which has already been formed, and for which a Public Report has already been prepared and adopted. "Annexation" in this context does not mean a change in organization as described in the Cortese-Knox Act of 1985 (Sections 56000 et seq., Division 3 of the Government Code).
- d) Applicant. Developer or landowner who initiates formation/annexation of a CFD.
- e) Bonds. Bonds authorized and issued under the Mello-Roos Community Facilities Act of 1982.
- f) Bond Counsel. Outside counsel retained by the City to assure compliance with applicable federal and State tax and other laws and regulations relating to public financing.
- g) Bond Underwriter. The investment banker(s) retained by the City to design, develop and execute the sale of bonds in the market place.
- h) Certificate of Completion: A written document provided to a facility provider by the District Engineer stating that the facility is complete and in good working order, and that the requirements of the facility acquisition agreement have been met.
- i) City. The City of Modesto.
- j) City Attorney. City Attorney of the City of Modesto or his or her designee.
- k) City Manager. City Manager or his or her designee.
- ~~l~~l) Community Facilities District (CFD). A special district formed pursuant to the provisions of the Mello-Roos Community Facilities Act of 1982 as amended, to finance specific public improvements or public services, and where properties within the CFD are levied a special tax in accordance with the rate and method of apportionment adopted as part of the district proceedings.
- ~~m~~m) Conclusion of Formation. The date a tax lien, for a specific CFD, is successfully recorded by the Stanislaus County Clerk Recorder.

- ~~m~~)n) Credit. An offset against tax owed, or cash reimbursement for tax paid, as appropriate, calculated by subtracting from the Facility Cost Estimate any non-prepaid costs or incidental costs as defined in the Mello Roos Act, Section 53317(c) and (e), by means of a cash administrative cost offset. The administrative offset may be specified in the public report.
- ~~n~~)o) CFD. A Community Facilities District created for the purpose of financing the costs of certain public facilities and services pursuant to the provisions of Chapter 2.5 of Part 1 of Division 2 of Title 5 (commencing with Section 53311) of the California Government Code.
- ~~o~~)p) CFD Team. An interdepartmental City working group consisting of a representative of the City Attorney's Office, the District Administrator and such other staff as the District Administrator may designate. Its function shall be to process CFD applications and the formation of CFDs, including elections as appropriate.
- ~~p~~)q) District Administrator. A subgroup of the CFD Formation Group composed of a Deputy City Manager, selected by the City Manager. The District Administrator shall have the power to retain and consult with an outside consultant experienced in administering established CFDs in order to assure such administration is in accordance with City ordinances, resolutions, these Policies and Procedures as amended, and applicable law. The District Administrator shall also have the power to appoint an Acting District Administrator to serve in his or her absence.
- ~~q~~)r) District Engineer. A California registered professional engineer employed by the City of Modesto, or a City of Modesto CFD, who is responsible for making final engineering determinations on behalf of that CFD.
- ~~r~~)s) Facility. Any public works-type infrastructure for which tax is to be collected pursuant to the public report, which could be eligible for tax credit and is located within a CFD.
- ~~s~~)t) Facility Cost Estimate. The facility (or facility segment) cost estimate, including contingency cost estimates relating to that facility (or segment) which are included in the tax stated directly, or by reference, in the public report, as that report may be amended or adjusted for inflation from time to time.
- ~~t~~)u) Facility Provider: Any person or entity constructing a facility.
- ~~u~~)v) Fair Market Value, or Value. The amount of cash or its equivalent which property would bring if exposed for sale on the open market under conditions in which neither buyer nor seller could take advantage of the exigencies of the other and both have knowledge of all of the uses and purposes to which the property is adapted and for which it is capable of being used and of the enforceable restrictions upon uses and purposes.
- ~~v~~)w) Financial Advisor. Financial consultant retained by the City to review, comment and advise on financial matters relating to CFDs.
- ~~w~~)x) Fiscal Feasibility Report. A study performed under the direction of the City to

determine the financial viability of a proposed CFD.

~~x~~)y) Infrastructure and Public Facilities. Those public improvements including but not limited to major streets and arterials, highway improvements and freeways, freeway interchanges, right of way acquisitions, bridges, street lights, water, flood, sewer and drainage improvements, fire and police stations, parks, wetlands, telephone ducts, electrical conduits, libraries, transit improvements (including public parking facilities), and the provision of certain services (if applicable), that may be eligible for financing pursuant to these Policies and Procedures, and which are authorized improvements pursuant to provisions of the Mello-Roos Community Facilities Act of 1982 ("Act").

~~y~~)z) In-tract Facilities. Infrastructure and public facilities which serve an individual CFD, such as local subdivision streets, local utilities and local drainage systems. Not all such infrastructure and public facilities may actually be located within the boundaries of the CFD. (Possible example: drainage system).

~~z~~)aa) Oversubscription. Oversubscription is the furnishing of land or facilities whose total value as set forth in the public report exceeds the total taxes attributable to a facility provider's entire development within a CFD.

~~aa~~)bb) Public Report. A report generally containing the following:

- (1) A description of the public capital facilities and services proposed for the CFD.
- (2) A general description of the area to be served by said facilities; said areas being the boundaries of the CFD.
- (3) A cost estimate, setting forth the costs and expenses for providing the public facilities and services to the properties within the boundaries of the CFD and the costs of any incidental expenses to be paid by the CFD.
- (4) The rate and method of apportionment of the special tax in sufficient detail to allow each landowner or resident within the proposed CFD to estimate the annual amount of payment;
- (5) General Terms and conditions relating to the proceedings.
- (6) All exhibits and attachments to the resolution of formation of a CFD, and documents included therein by reference.

~~bb~~)cc) Special Tax Consultant. A consultant retained by the City to develop the rate and method of apportionment and other special tax formulas and criteria for a Mello-Roos CFD.

~~cc~~)dd) Tax: Any facilities special tax specified in the public report for the CFD.

~~dd~~)ee) Value-to-Lien Ratio. The value of a parcel of land as determined by an MAI appraisal relative to the amount for which land secured bonds may be sold for the parcel.

3) Application Process.

- a) Application. The applicant shall submit an application in the form attached hereto as Example "A", or as may be amended from time to time by the City Manager to the City together with a nonrefundable fee as set forth herein and amended from time to time. The fee is for the purpose of application processing, other preliminary costs, retention of appropriate consultants, and the compensation of staff time devoted to the formation of the CFD.
  
- b) Project Review. Applicant and the CFD Formation Group may discuss the application including but not limited to further information that might be required and other issues as necessary. If necessary, the applicant may be required to submit a revised application. Once the application is accepted by the CFD Formation Group, it may be reviewed by City Finance personnel or City consultants to determine the adequacy of the proposed financing. CFD Formation Group may also forward the application to the City's engineering staff for determination that the application package is in fact both complete and practicable. Applicant and the CFD Formation Group may also conduct a face to face meeting between the applicant and the CFD Formation Group to "scope" the consultant work necessary to the formation of the CFD. However, the final authority to approve the scope of the consultant work to be performed in connection with the formation of any CFD and for the compensation of such services shall be solely within the authority of the CFD Formation Group.
  
- c) Project Initiation. The application is accepted by the CFD Formation Group and the CFD Formation Group receives contracts, reimbursement agreements, bond documents and other pertinent items for consideration by the City Council, as required.
  
- d) Costs Incurred By The City Prior To Formation. All costs incurred by the City prior to formation of the CFD, including but not limited to consultant costs (e.g. legal counsel, engineer firms, appraisers, special tax consultants, financial advisors), City staff and administrative costs and related expenses, cost of providing notices, printing and publication costs, and all expenses directly or indirectly relating to these items, shall be reimbursed to the City by the applicant prior to the completion of formation. The CFD Formation Group shall utilize timekeeping computer software, as such may be updated from time to time, to track billable hours in 1/10 hour increments attributable to CFD formation, amendment, annexation or other modification, and CFD administration. The timekeeping process will be used both to audit time spent as appropriate, and to generate bills to applicants for formation costs. Such bills shall also contain, in so far as practicable, costs or estimates of costs incurred by CFD group members in connection with CFD formation and/or CFD administration.

From time to time the CFD Formation Group will review and re-evaluate the City's fee/deposit requirements in light of the cost results of recent CFD formations for

the purpose of recommending modifications of excessively high or low fee/deposit charges as required. The initial such review shall occur in September 1998.

- e) Costs Incurred Prior To Bond Closing. If a CFD is formed, and if bonds are issued, the City may direct that all of its costs of formation be reimbursed from bond proceeds.
- f) Costs Incurred By The City Subsequent To Formation. All City administrative and consultant costs, including those of the District Administrator, related to administration of a CFD and incurred after formation shall be included within the special tax formula in accordance with applicable provisions of law.
- g) Formation Reimbursement To Applicant.
  - (1) Where CFD is Not Formed, or where CFD is Formed and Bonds are Not Issued. In the event that the CFD is not formed due to City disapproval or abandonment, or due to applicant abandonment, or due to nonpayment of any reimbursable fee, or the CFD is formed and bonds are not issued for any reason, the City will refund to the applicant any remaining unexpended and unobligated portion of advance deposits posted with the City, subject to the City's prior and full reimbursement of all of its direct and indirect costs. In the event that the applicant's advance deposit to the City is not sufficient to reimburse the City for all of its direct and indirect costs, the City will require an additional deposit by the applicant for the difference. The City shall be entitled to pay any refund to the applicant listed on the application form without interest, irrespective of any changes in the ownership or compensation of the applicant.
  - (2) Where CFD is Formed and Bonds are Issued. If the CFD is formed and bonds are issued, bond proceeds shall be used to defray all approved costs and expenses incident to the proceedings in construction of the public facilities, subject to approval of the CFD Formation Group in conjunction with Bond Counsel, and subject to any applicable restrictions contained in the Act as amended. With respect to applicant paid consultant costs, reimbursement shall be limited to those CFD-related consultant's hired by the City or those hired by the applicant and expressly approved by the City in writing. Eligibility for reimbursement of any otherwise-eligible expense is conditioned upon the applicant providing paid invoices therefore to the City, and the CFD Formation Group's approval thereof. The applicant shall not be entitled to reimbursement from bond proceeds for any of the following reasons: interest expense incurred by the applicant during the planning or design of construction (subject to exception for construction-related interest expense, set forth below) of the public improvements and any other costs and expenses incurred by the applicant which are not legally authorized for reimbursement, or as to which Bond Counsel has declined approval for reimbursement.
  - (3) Pursuant to Government Code Section 53314.9, the City Council may enter into an agreement, by resolution, with a person or entity advancing funds or work-in-kind for any authorized purpose, including, but not limited to, paying any cost incurred by the City in creating a CFD, without interest, under all of the following conditions:

- (a) The reimbursement proposal is included in the resolution of intention to establish the CFD and in the resolution of formation to establish the CFD, or in the resolution of consideration adopted pursuant to Government Code Section 53334.
- (b) The proposed special tax or change in a special tax is approved by the qualified electors of the CFD, or in the event that the electors do not approve the proposed special tax or change in a special tax, the City shall return any funds which have not been committed for any authorized purpose at the time of the election.
- (c) Any work-in-kind accepted pursuant to this paragraph shall have been performed or constructed as if the work had been performed or constructed under the direction and supervision, or under the authority of, the City.
- (d) Any reimbursement agreement entered into pursuant to this paragraph and Government Code Section 53314.9, shall not constitute a debt or liability of the City or of the District.

The reimbursement procedure specified in Government Code Section 53314.9 and incorporated in this paragraph may be utilized both in the case where the requesting person or entity owns all of the land within a proposed CFD, and in the case in which the requesting person or entity owns less than all of the land within the proposed CFD. In the later event, consideration will be given to setting forth two (2) or more tax districts within the CFD in order to facilitate reimbursement of the person or entity which paid more than its pro-rata share of the formation costs from the proceeds of one time special facilities taxes paid by landowners in the tax district or districts that does/do not include the land owned by the person or entity that paid more than its prorata share of the CFD formation costs.

- (4) Where CFD is Formed and Bonds are Not Issued. With respect to advance formation fees pursuant to Paragraph 3.u. of these Policies and Procedures, any portion of such fee/deposit not paid out or obligated for the direct or indirect costs of CFD formation by the CFD Formation Group, may be further obligated by the CFD Formation Group based on its good faith estimate of the cost, including consultant costs, and other reasonable incidental costs as defined in the Act that may be incurred in the administration of the CFD during the period of time following its formation but prior to the City's receipt of sufficient annual maintenance special taxes to provide for appropriate administration of the CFD. The remaining fee/deposit not paid out or obligated for the direct or indirect costs of the CFD formation or administration by the CFD Formation Group shall be returned to the applicant within five (5) business days after the CFD Formation Group presents its written accounting and good faith estimate. The accounting and good faith estimate shall be prepared within thirty (30) days after the CFD is formed.

- (5) “Dollar for Dollar” Credit Against One-Time Facility Tax. Where the applicant makes a timely request that CFD formation costs be included in the cost of infrastructure for the purpose of computing taxes due under the Rate and Method of Apportionment and the final tax formulas, such CFD formation costs, including the initial fee/deposit, may be recovered by crediting such formation costs against facilities special taxes which would otherwise be due from the applicant from the time when such taxes would initially be due until the subject formation costs to be credited are exhausted by facilities special taxes incurred.
- h) Agreements Required. Applicant will be required to enter into all necessary agreements incident to CFD proceedings in a form provided by the City and consistent with these Policies and Procedures. These agreements may include, but not be limited to:
- (1) Acquisition and Shortfall Agreement
  - (2) Advance Deposit Agreement
  - (3) Land Dedication Agreement (where required)
  - (4) Acquisition and Disclosure Agreement
  - (5) Disposition and Development Agreement (where required)
  - (6) Development Agreement
  - (7) Other agreements (as required)

As a condition of the issuance and sale of bonds, all of the agreements required by the City shall be duly approved and executed by the parties thereto. Prior to execution of any such agreements, the agreements shall be reviewed and approved by the City Attorney. They may also be reviewed by Bond Counsel and such other consultants as the City believes are appropriate.

- i) Land Use Approvals. All projects within the proposed CFD, together with the infrastructure and public facilities, must be consistent with the City’s adopted General Plan and zoning classifications. All property within the proposed CFD must possess land use determinations or zoning classifications of sufficient certainty, and facility requirements of sufficient specificity that each parcel can be adequately assessed.
- j) Use of Consultants. The City shall employ any consultants necessary for the formation of a CFD, review of financing, the issuance and administration of bonds, including but not limited to underwriters and underwriter’s counsel, Bond Counsel, Financial Advisor, special tax consultant, engineers, appraisers, market absorption study consultant, or any other consultant deemed necessary by the CFD Formation Group in its judgment to complete the CFD proceedings and/or for issuance of bonds. The cost reimbursement provisions of these Policies and Procedures shall apply to all costs and expenses incurred by the CFD Formation Group in employing such consultants. An applicant may retain its own consultants for its own benefit, but must work only through those consultants hired by the City. In the event the applicant retains its own consultants, all costs associated therewith shall be borne by the applicant, without reimbursement from bond proceeds unless expressly agreed in writing by the CFD Formation Group.
- k) Eligible Infrastructure and Public Facilities. Infrastructure and public facilities eligible for

CFD financing are those public improvements which benefit properties within a proposed CFD and/or will mitigate impacts of that development upon areas of the City outside the proposed CFD, and which will be owned, operated and maintained by the City or another public agency expressly approved in writing by the City. Improvements which are or will be owned, operated or maintained by a private company or utility are not eligible, except for improvements to be owned by shareholder owned utility companies regulated by the California Public Utilities Commission and which comprise less than five (5%) percent of the project. In-tract facilities, exactions, or other public right of way easements and/or lands which are dedicated by applicant as a condition of a development entitlement will not be eligible for bond financing, except if they are expressly allowed in a development agreement or other agreement between the City and the applicant.

1) Bidding Process.

i) In retaining construction contractors for work which is reimburseable by a City of Modesto CFD and where the Acquisition and Shortfall Agreement (or other similar agreement) with the CFD is less than \$300,000.00, the developer shall abide by the following bid process:

- (1) The developer shall provide three (3) competitive bids. If the developer desires to award to a contractor other than the low bidder, a written request must be submitted to the District Engineer. The District Engineer may allow this if the developer can provide adequate justification
- (2) The developer shall insure that all contractors and subcontractors are licensed in accordance with sections 7000 through 7145 inclusive, of the California Business and Professions Code and maintain adequate insurance for any work or services performed.
- (3) In accordance with California Labor Code section 1770, developer shall require the payment of prevailing wages based on the rates determined by the California Director of Industrial Relations. Unless otherwise directed by the District Engineer, Developer's construction schedule shall provide adequate time for completion of the work such that no holiday or overtime labor shall be required. The CFD shall not reimburse developer for any labor costs which exceed the normal and customary straight time rates as described in the City of Modesto General Provisions, Section 4.19, for the work performed unless the District Engineer authorizes the use of overtime or legal holiday time, in advance and in writing.
- (4) The District Engineer shall retain the right to be in attendance to inspect all bids and change orders. Any extra work or charges during construction for which reimbursement is sought shall be justified and documented. Except in the case of an emergency, any such charges shall be approved by the District Engineer in advance and in writing. In the case of an emergency, any such charges may be

authorized by the District Engineer if the developer provides adequate justification that an emergency existed and that the extra work or charges incurred were reasonable. Said justification shall be provided within a reasonable time after the emergency ends and prior to reimbursement for any such charges.

- (5) No permits shall be issued and no work shall commence until the developer and the District Administrator have executed an Acquisition and Shortfall Agreement for the improvements to be constructed.
  - (6) The developer shall maintain certified payroll records for all labor costs incurred on all CFD reimbursable work for a minimum period of four (4) years from the issuance of the Notice of Completion. Said payroll records shall be made available to the CFD or any state regulatory agency for review, audit, inspection or copying upon request.
  - (7) Developer shall indemnify and hold the City and the CFD harmless for ensuring that the project is bid and constructed in accordance with City and CFD standards, and in compliance with all applicable local, state and federal laws. Developer shall also indemnify and hold the City and the CFD harmless for any damages, claims or actions arising out of said construction activities in a form approved by the City Attorney and the Risk Manager.
  - (8) Developer may be reimbursed for design costs incurred prior to the execution of an Acquisition and Shortfall Agreement for completed and accepted, CFD-funded facilities as determined and approved by the CFD Administrator and the CFD Engineer.
- ii) In retaining construction contractors for work which is reimburseable by a City of Modesto CF and where the Acquisition and Shortfall Agreement (or other similar agreement) with the CFD is \$300,000.00 or greater, the developer shall abide by the following bid process:
- (1) Using a bid package approved by the City, the developer shall advertise for bids in the appropriate newspapers and periodicals, including but not limited to the local Builders Exchange and the Modesto Bee. Bid opening shall be no sooner than 7 days after the initial publication.
  - (2) The bid package shall include, and be based upon, improvement plans as stamped approved by the City Engineer or his or her designee ("City Engineer"), and the Community Facilities District Engineer or his or her designee ("District Engineer"). The bid package may not contain any alterations, deviations or exceptions to the improvement plans, unless the alteration, deviation or exception is approved in writing by the District Engineer and is advertised for a reasonable period prior to the bid opening.

- (3) The developer shall only accept bids using a bid proposal form approved by the City. The developer shall ensure that copies of the form are made available to prospective bidders at a local business office located within Stanislaus County during reasonable business hours throughout the bid advertising period. Contractors interested in submitting sealed bids for the project will be directed to do so on the approved form and at a specific date and time (e.g., at 9 a.m. on February 1, 2004, at the developer's place of business) . At this specified time, the District Engineer may be in attendance to receive the bid packages.
- (4) The bid packages will be opened immediately after the close of the specified time period. The bid opening shall be open to the public and may be in the presence of the District Engineer. All bids will be publicly announced at the bid opening. The developer will then begin the process of executing a contract with the lowest responsible bidder.

If the developer desires to award to a contractor other than the low bidder, a written request must be submitted to the District Engineer. The District Engineer may allow this if the developer can provide adequate justification.

- (5) The developer shall insure that all contractors and subcontractors are licensed in accordance with sections 7000 through 7145 inclusive, of the California Business and Professions Code and maintain adequate insurance for any work or services performed.
- (6) In accordance with California Labor Code section 1770, developer shall require the payment of prevailing wages based on the rates determined by the California Director of Industrial Relations. Unless otherwise directed by the District Engineer, Developer's construction schedule shall provide adequate time for completion of the work such that no holiday or overtime labor shall be required. The CFD shall not reimburse developer for any labor costs which exceed the normal and customary straight time rates as described in the City of Modesto General Provisions, Section 4.19, for the work performed unless the District Engineer authorizes the use of overtime or legal holiday time, in advance and in writing.
- (7) The District Engineer shall retain the right to be in attendance to receive the bid package, or to inspect all bids and change orders. Any extra work or charges during construction for which reimbursement is sought shall be justified and documented. Except in the case of an emergency, any such charges shall be approved by the District Engineer in advance and in writing. In the case of an emergency, any such charges may be authorized by the District Engineer if the developer provides adequate justification that an emergency existed and that the extra work or charges incurred were reasonable. Said justification shall be

provided within a reasonable time after the emergency ends and prior to reimbursement for any such charges.

- (8) No permits shall be issued and no work shall commence until the developer and the District Administrator have executed an Acquisition and Shortfall Agreement for the improvements to be constructed.
  - (9) The developer shall maintain certified payroll records for all labor costs incurred on all CFD reimbursable work for a minimum period of four (4) years from the issuance of the Notice of Completion. Said payroll records shall be made available to the CFD or any state regulatory agency for review, audit, inspection or copying upon request.
  - (10) Developer shall indemnify and hold the City and the CFD harmless for ensuring that the project is bid and constructed in accordance with City and CFD standards, and in compliance with all applicable local, state and federal laws. Developer shall also indemnify and hold the City and the CFD harmless for any damages, claims or actions arising out of said construction activities in a form approved by the City Attorney and the Risk Manager.
  - (11) Developer may be reimbursed for design costs incurred prior to the execution of an Acquisition and Shortfall Agreement for completed and accepted, CFD-funded facilities as determined and approved by the CFD Administrator and the CFD Engineer.
- m) Designation of Spokesperson. The applicant(s) owners requesting preparation of a petition for formation of a CFD, if more than one, shall designate a spokesperson for all of them. The applicants' spokesperson shall be responsible for the following.
- (1) Advising joint applicants to contact him or her for answers to their questions concerning CFD matters.
  - (2) Contacting appropriate City representatives to obtain answers to such questions as he or she is unable to answer. The appropriate City representatives are the members of the CFD Formation Group.
  - (3) Informing joint applicants that any estimated cost figures supplied to them prior to the estimate contained in the public report, as preliminarily approved by the CFD Formation Group, must not be relied upon as necessarily precise.
- n) Additional Advances. It is the policy of the City that applicants with properties improved through CFD proceedings pay all City and associated costs of such proceedings and other costs incurred in advance of CFD formation, or, in the case of the sale of bonds, before any bonds are sold. Therefore, with respect to all developer-initiated applications, if actual City costs exceed the amounts estimated below, the applicant will be required to advance additional monies to pay all costs incurred or to be incurred. Any failure to do so within ten

(10) days of provision of written demand by the CFD Formation Group will be grounds for immediate termination of all activities by the CFD Formation Group, and by the consultants, if any, retained by the CFD Formation Group for the purpose of bond financing.

- o) Boundary Map. A boundary map for each proposed CFD must be provided with the application. The boundary map should be provided in the following formats:

- (1) 18" x 26" Mylar ~~and three blue lined copies~~
- (2) 8 ½ x 11" paper
- (3) PDF

Assessor's parcels maps may be compiled on which the project boundary and other required information are shown. The map must identify all Assessor's parcels within the project boundary and the boundary of the area being annexed must follow existing parcel lines. The map must be certified by a licensed civil engineer. The CFD number to be included in the map title and page numbers may be obtained from the CFD Formation Group.

- p) Registered Voter/Property Owner Certification. Any CFD election will be voted upon by property owners (one vote per acre) so long as there are fewer than twelve (12) registered voters residing within the proposed CFD area. The CFD Formation Group will not process registered voter elections absent special arrangements with the CFD proponent. Each of the property owners must designate a single proxy to cast their ballot. The civil engineer for the CFD applicant must verify the number of registered voters within the project and list all property owners showing APN and number of acres. The civil engineer must then file a certification suitable to the CFD Formation Group as part of the application package. This certification must be made within ninety (90) days prior to the hearing on the resolution of formation for the CFD.
- q) Waiver and Consent. The qualified electors (property owners) must file a waiver and consent document suitable to the CFD Formation Group waiving some of the statutory election requirements, particularly the time lines. With this waiver, the election may take place sooner than otherwise.
- r) Fiscal Feasibility Report. Prior to the formation of a CFD, a fiscal feasibility report may be required if a portion of the land within a CFD is substantially undeveloped. The report shall be prepared by or at the direction of the CFD Formation Group. All costs for preparing this report shall be borne by the applicant.
- s) Special Taxes and Assessments. The projected special tax, when added to the ad valorem property tax and other direct and overlapping debt for the proposed CFD (including other benefit assessments, special taxes levied for authorized but unissued debt, and any other anticipated special assessments, taxes or charges which may be included on a property owner's annual property tax bill), shall not exceed two (2%) percent of the projected assessed value of each improved parcel within the CFD. A backup special tax may be required to protect against changes in land use that may result in insufficient annual special

tax revenues.

- t) Special Tax Formula. The maximum special tax submitted to the qualified voters of the CFD shall not exceed one (1%) percent of the projected assessed value of the developed properties at the time of full build out of CFD formation. Furthermore, the total of the following shall not exceed two (2%) percent of the projected assessed value of the subject properties
- (1) Ad valorem property taxes levied by the City.
  - (2) Voter approved ad valorem taxes levied by the City in excess of one (1%) percent of the assessed value.
  - (3) Special taxes levied by any existing CFD for the payment of bonded indebtedness or ongoing services.
  - (4) Assessments levied for any assessment district or maintenance district for the payment of bonded indebtedness or services.
  - (5) The maximum special tax for the proposed CFD.

The maximum special tax formula shall adhere to the following requirements:

1. The maximum special tax shall be established when a developed parcel is first subject to the tax and shall include the annual administrative costs to the City to administer the CFD.
  2. Concerning that portion of the tax restricted to generating funds for maintenance of facilities, the special tax formula shall not include escalator rates allowing annual tax increases above four (4%) percent per year for developed parcels.
  3. The City shall have discretion to allow a special tax in excess of the two (2%) percent maximum tax burden limits for any commercial or industrial lands within the CFD.
  4. Concerning that proportion of the tax restricted to generate funds for the payment of debt service, the special tax formula shall not include escalator rates allowing annual tax increases above two (2%) percent.
- u) CEQA Compliance. The CFD Formation Group shall be responsible for compliance with the California Environmental Quality Act with respect to each CFD formation analyzed or completed by it.
- v) Based on substantial evidence presented to the City Council, it is determined that advance deposits in the following sums must be received in all cases, whether reimbursable or not, prior to an applicant's application for a CFD being deemed complete by the CFD Formation

Group.

- (1) A CFD is to be created at applicant's request and where bonds are issued - \$64,500.00. The Developer shall make additional advances to the City within ten (10) days following receipt from the City of a request for an additional advance to cover the costs referred to herein.
  - (2) A CFD is to be created at applicant's request and where bonds are not to be issued - \$64,500.00. The Developer shall make additional advances to the City within ten (10) days following receipt from the City of a request for an additional advance to cover the costs referred to herein.
  - (3) In the case of the creation of a "simple" annexation to an existing CFD, which does not require the preparation of a new public report, or the alteration of an existing Public Report or modification of any other CFD-related document for the existing CFD, and the annexation does not involve the sale of bonds - \$9,500.00. The Developer shall make additional advances to the City within ten (10) days following receipt from the City of a request for an additional advance to cover the costs referred to herein.
  - (4) In the case of the creation of a "complex" annexation to an existing CFD, which requires an amendment to or modification of a Public Report or other CFD-related document, and the annexation does not require the sale of bond - \$20,500.00. The Developer shall make additional advances to the City within ten (10) days following receipt from the City of a request for an additional advance to cover the costs referred to herein.
  - (5) In the event that a "registered" voter election is required, an additional amount over and above the previously mentioned fees may be incurred. The City Clerk will estimate the minimum time and material costs pertaining to such an election based on the facts known at the time the election becomes necessary, and payment of the estimated sum shall be required prior to initiation of such an election.
  - (6) In the event that a "registered voter" election is both required and results in the nonformation/nonannexation of the subject CFD, the above-referenced fees and costs will not be refundable to the applicant save and except those amounts advanced by the applicant which are in excess of those obligated for the CFD Formation Group formation/annexation costs, consulting fees and other related expenses.
- w) Resolution of Intention. When a CFD application and all related documents have been completed, the appropriate fee has been paid, and the CFD Formation Group has agreed to place the matter of the formation/annexation of the pertinent CFD before the City Council, the vehicle for such placement shall be the "Resolution of Intention" as required by the Act. The City Council vote on the Resolution of Intention shall also be the City's final determination on the application. If the Resolution of Intention is approved, the CFD Formation Group will undertake the necessary steps to complete formation/annexation of

the CFD, including, but not limited to, completion of appropriate contracts, legal documentation, bond documents, project schedule, and other pertinent items.

- x) Fiscal Year Planning. In the event that the fiscal year in which a CFD is commenced ends during the formation of the CFD, the Finance Department of the City shall carry forward any unused CFD funds to the next fiscal year in order to facilitate a smoothly continuous CFD formation/annexation process, and to permit prompt payment of ongoing expenditures.
- y) Fiscal Authority. The CFD Formation Group has the inherent authority to receive and to appropriate CFD revenue and to direct the Finance Department of the City of Modesto to establish a new fund for each new CFD formation/annexation.

4) Terms and Conditions of Bonds.

- a) All terms and conditions of bonds shall be established by the City. The City will control, manage and invest all CFD issued bond proceeds. Unless otherwise authorized by the City, the following shall serve as bond requirements:
  - (1) A debt service reserve fund equal to an amount not less than ten (10%) percent of the bond issue's par value, subject to federal tax regulations will be established.
  - (2) The special taxes shall be levied for the first fiscal year following sale of the bonds for which they may be levied. Unless otherwise agreed to by the City, interest shall not be funded (capitalized) beyond the earliest interest payment date for which sufficient special tax revenues will be available for payment of interest.
  - (3) Beginning with the commencement of the repayment of principal, annual debt service may be level or may escalate up to a maximum of two (2%) percent per year.
  - (4) The maximum special tax shall be established to assure that the annual revenue produced by levy of the maximum special tax shall be equal to at least one hundred ten (110%) percent of the average annual debt service.
  - (5) The initial maximum annual administration requirement shall be no more than two (2%) percent of the par amount of the bonds but may escalate up to a maximum of two (2%) percent per year.
  - ~~(5)~~(6) Prior to the issuance of bonds, the City shall authorize its Bond Council to commence and process to final judgment an action establishing the validity of the proceedings, special tax and issuance of bonds, unless advised to the contrary by such Bond Council.
  - ~~(6)~~(7) In instances where multiple series of bonds are to be issued, the City shall make a final determination as to which public facilities are of the highest priority and those public facilities which will be financed first, pursuant to funding availability and the proposed timing of facilities development, and will be subject to the earliest

or most senior lien except, when concerning land-secured financings if the City and applicant agree separately.

~~(7)~~(8) \_\_\_\_\_ The City may require that each new CFD bond issue refund any prior issues, if they exist on properties included in the CFD, in order to avoid subordinated liens. Instances where prior issues may not require refunding are:

- (a) Where refunding of prior issues will result in higher interest costs;
- (b) Where there can be assurance that prior liens may pose no marketing problems for the new CFD bonds; or
- (c) Where refunding of prior issues may present future administrative difficulties to the City or other affected public entities.

b) Security and Credit Enhancement.

- (1) Financial Plan. Prior to City Council approval of the CFD, the applicant must submit a financial plan which demonstrates to the City's satisfaction the applicant's ability to pay all assessments and/or special taxes through build out of the project.
- (2) Credit Enhancement. In general, where credit enhancement is required for the bond issue as a whole, in the opinion of the City, the applicant shall provide such enhancement in such form as is approved by the City and the underwriters. Such enhancement may, for example, be required in cases where the value-to-lien ratio for property within the CFD is sufficient, and may take the form of letter of credit, policies of insurance, or other vehicles.
- (3) Letter of Credit Requirements. In general, the following requirements apply to letters of credit.
  - (a) The term shall be at least one (1) year, with automatic renewal unless canceled in writing by City.
  - (b) The amount the applicant is required to post shall be determined by the City.
  - (c) The letter of credit must be posted with the City in final form, properly authorized and executed, prior to Council authorization to issue bonds for the CFD. Irrevocable credit commitments, commitment letters, in-lieu letter of credit guarantee forms, or other similar instruments, will not be accepted.
  - (d) The letter of credit shall be irrevocable, and issued for the benefit of the City.
  - (e) The issuer of any Letter of Credit or other credit enhancement shall be a bank legally operating within the State of California, and which has a Thompson Bank Watch rating of "C" or higher, or an equivalent rating by any other nationally recognized financial institution rating agency, and whose letters of credit are

deemed marketable by the City for public financing purposes.

- (f) The City reserves the right to consider other forms of credit enhancement or bond guarantee which are determined by the City, in its sole discretion, to be a lawful and adequate substitute for a letter of credit.

c) Value-to-Lien Ratios.

- (1) If the value-to-lien ratio is 3:1 or greater for the entire CFD and if there is a value-to-lien ratio of 3:1 on at least ninety (90%) percent of vacant land in the CFD, the City may not require letters of credit or other security to secure payment of the special taxes to be levied annually on properties within the CFD.
- (2) If the value-to-lien ratio is less than 3:1 for the CFD as a whole or on at least ninety (90%) percent of vacant land in the CFD, the City may require either letters of credit or other security (assigned deposits, deposits to escrow) to secure payment of the special taxes/special assessments on properties within the CFD or may elect to abandon the CFD.

- d) Market Absorption Study. The City in its discretion may require and may employ a consultant for the purpose of conducting a market absorption study. The study, if required, shall include and estimate the total number of units, land uses and rate of absorption, and will be used as a basis for verification that sufficient revenues can be generated, and to determine if the financing of the infrastructure and public facilities is appropriate given the projected level and pace of development.

- e) Disclosure Requirements. The applicant shall be responsible for compliance with all applicable federal and state statutory disclosure requirements, as well as any additional City requirements, in transactions with purchasers of properties with the CFD.

- f) Continuing Disclosure. The developer will comply with federal and State securities laws and SEC Rule 15c 2-12 requirements concerning secondary market disclosure as those requirements are interpreted by the City and its counsel.

- g) Refunding. The City will analyze outstanding bond issues for refunding opportunities. In addition, the City will accept refunding proposals from underwriting firms and financial advisors which the City will then analyze and verify. The City will refund outstanding bond issues if:

- (1) The refunding will generate at least five (5%) percent net present value savings; or
- (2) There is another reason the City determines is compelling enough to complete a refunding (e.g. for the purpose of changing onerous legal requirements in a previous bond indenture or resolution).

- h) Credit Quality to be Required of Bond Issues.

- (1) Debt Service. Except for commercial or industrial property financings with no residential components, debt service shall be substantially level throughout the life of the bond issue or shall escalate at a rate generally not greater than two (2%) percent per year. Phased bond issuance shall not result in increased debt service to existing residential homeowners. Unless determined to be specifically required, debt service shall not exceed ~~twenty-five~~<sup>thirty</sup> ~~(25)~~<sup>(30)</sup> years) from the date of bond issuance
- (2) Bond Redemptions. Maximum redemption premiums shall not exceed three percent (3%). Call protection provisions shall not exceed ten (10) years and no provision shall be made to restrict the ability of the City to refund any bond issue. Consideration shall be given to allowing redemption of bonds at par (without premium) with surplus construction funds, or from the prepayment of the special tax. Provision shall be made to allow the City to purchase bonds on the open market at par plus accrued interest, in lieu of redemption of bonds.
- (3) Reserve Funds. A reserve fund shall be required (unless specifically exempted for cause) for every land-secured financing. The City will consider the substitution of other security, such as a letter of credit, for monies in the reserve fund. The reserve fund will be sized by the City with the advice of the financing team, and, for tax-exempt financings, will not exceed the maximum prescribed by applicable federal tax law. Reserve fund earnings beyond maximum reserve fund size should be used to credit debt service and may be used to pay applicable rebate obligations under federal tax law. (The City may also determine to permit such reserve fund earnings to be transferred to the construction fund until the project is completed.)
- (4) Capitalized Interest. The City, with the advice of the financing team, will determine, on a case by case basis, the amount of capitalized interest for a particular financing. The amount of such interest will be determined based on factors such as the length of the construction period, the earliest date upon which tax roll collection may commence and the amount such interest will add to the total amount of the financing, taking into account the restrictions on value to lien expressed herein, the ability of the owner(s) to defray the debt service, and applicable provisions of the Act.
- (5) Foreclosure Covenants. Every land-secured financing bond issuance document shall provide for the judicial foreclosure of delinquent payments of assessments or special taxes. Such covenants may vary with the particular financings, but shall at the minimum generally provide for the institution of foreclosure not more than 150 days from April 10 of a calendar year and shall authorize the City Attorney or delegate thereof to commence foreclosure without further Council action upon notification of a delinquency. Provision may be made to allow deferral of foreclosure in the event the City advances funds to the reserve fund to maintain any specific reserve requirement.
- (6) Discounts. In competitive bond sales, the amount of discount shall be determined by the City with the advice of its financial advisor. In negotiated sales, it shall be the burden on the underwriter to justify its discount as competitive and such justification must take into account any other compensation being paid to the underwriter.

Original issue discount will be allowed if it results in a lower true interest cost and will not adversely affect the ability to construct the public improvements.

(7) Information to Property Owners.

1. Prospective Purchasers. The Director of Finance shall be responsible for providing notice of special tax to prospective property owners pursuant to Section 53340.2 of the Act and, upon request of an applicant, or its agent or representative, information in order for such applicant, agent or representative to comply with Section 53341.5 of the Act.
2. Existing Lenders. The City may require the consent of the existing deed of trust holders in any CFD to be formed by landowner (rather than registered voter) approval.

i) Criteria for Evaluating the Equity of the Special Tax Formula.

The proposed rate and method of apportionment shall comply with the following criteria:

- (1) The rate and method of apportionment generally shall not provide for an annual increase in the maximum special tax for any classification. However, under limited circumstances an increase in the maximum special tax will be permitted, not to exceed two percent (2%) annually. As a general rule, escalation of the maximum annual special tax will be allowed when bonds are to be sold in several series over an extended period of time.
- (2) The total projected annual special tax revenues, less estimated annual administrative expenses, must exceed the projected annual gross debt service on the bonds by ten percent (10%). In structuring the special tax, projected annual interest earnings at current passbook savings rates on bond reserve funds may also be included as revenue for the purpose of this calculation. Reserve fund interest earnings credit in excess of the foregoing will only be permitted if an investment agreement, satisfactory to the City, is secured at the time any bonds are sold and delivered.
- (3) The projected annual tax revenues shall include reasonable annual administrative expenses and other direct costs to the CFD.
- (4) All property not otherwise statutorily exempted or owned (or to be owned) by a public entity shall bear its appropriate share of the special tax liability.
- (5) The special tax shall be allocated and apportioned on the basis of reasonableness to all categories and classes of property receiving general or specific benefit within the CFD.
- (6) A formula to prepay the special tax shall be considered.
- (7) The projected ad valorem property tax and other direct and overlapping debt for the

proposed CFD (including estimated CFD charges, projected benefit assessments, levies for authorized but unissued debt and any other anticipated municipal charges which may be included on a property owner's annual tax bill), including the proposed maximum special tax, should not exceed two percent (2%) of the anticipated assessed value of each improved parcel upon completion of the public and private improvements. Any deviations from the foregoing will not be permitted unless specifically recommended by the CFD Formation Group and approved by the City Council.

- (8) The special tax formula shall be structured to produce sufficient annual special tax revenue to pay annual debt service, administrative expenses, and "pay as you go" programs funded by the CFD special tax. To the extent a special tax is to be levied to pay for services, it should be separate from the special tax to pay for facilities.
- (9) The special tax formula shall be such that once the total special tax need is known, and the status of all properties within the CFD relative to that formula are known, the special tax on each parcel is determined purely by the application of the formula without the exercise of discretion on the part of any person.

j) Criteria for the Sale of Bonds.

In order to ensure the long-term security of any bonds sold as the result of the formation of a CFD, the following policies shall be followed:

- (1) The ratio of the appraised value of the land to the value of the proposed bond issue, and any other overlapping debt, shall not be lower than 3-to-1 unless authorized by the City Council with specific findings in accordance with the Act.
- (2) Market absorption studies may be required at the City's discretion to determine if the financing of the infrastructure and public facilities is appropriate given the projected level and pace of development. The study may also be required by the appraiser for use in the appraisal process. The City will employ any market-absorption consultant.
- (3) All terms and conditions for the sale of bonds shall be established by the City.

k) Continuing Disclosure.

By being allowed to participate for a Mello-Roos proceeding, each owner of land therein must be willing to provide information deemed by the City and its financing team to be needed in order for the City and the underwriter to comply with applicable Federal and State securities laws, including continuing disclosure requirements imposed by S.E.C. Rule 15c 2-12.

l) The Appraisal Process.

Appraisals undertaken to establish value-to-lien ratios for land-secured financings can be complex, requiring the appraiser to interpret the significance of various financial and demographic data. Because an appraisal essentially is an appraiser's *opinion* of value, the City requires

that the appraiser be qualified to render this opinion.

- (1) Credentials. The appraiser will be credentialed by the State of California Office of Real Estate Appraisers and be a member of the Appraisal Institute (MAI) or have similar training, experience and qualifications.
- (2) Independence. The appraiser will be an independent contractor retained by the public agency, rather than a land owner/developer.

m) The Appraisal Problem.

The appraiser will begin each assignment by defining the *appraisal problem* - that is, succinctly stating the objective of the appraisal. The statement of the appraisal problem will identify (1) the property rights to be valued, (2) the operative definition of value, and (3) the date of the value estimate.

- (1) Property Rights to be Valued. Appraisals undertaken to establish value-to-lien ratios in CFDs and assessment districts will value the fee simple estate within the established district and subject to the special tax or assessment lien.
- (2) Definition of Value. Appraisal undertaken to establish value-to-lien ratios in CFDs and assessment districts will estimate the market value of the subject property. The market value estimate will be the bulk sale value for all vacant properties - both unimproved properties and improved or partially improved but unoccupied properties. The bulk land value will include the property within the district as it is currently entitled with all appropriate zoning and in its current state of development, the value of the improvements to be financed with the proposed bond issue, if any, and the value of other improvements to be financed with any other cash escrow or security whose cash value is entirely controlled by the City. Paragraph O, which follows, provides those valuation methods the City will allow an appraiser to use to estimate the bulk sale value.
- (3) Date of the Value Estimate. The date of the value estimate should clearly be identified in the appraisal report. The period between the date of the appraisal and the financing should be no more than four months, to accurately represent land values to prospective investors.

- n) Valuation Methods. The first three valuation methods discussed below - the Sales Comparison Approach to Value, the Cost Approach to Value, and the Income Capitalization Approach to Value - form the core of modern real estate appraisal practices. These valuation methods are appropriate for conventional appraisal assignments involving improved real property, but are less well-suited to the valuation of unimproved land. Appraisals of unimproved CFDs and assessment districts will additionally employ a Discounted Cash Flow (DCF) analysis based upon the bulk land value of the property appraised, the fourth valuation method discussed in this section. This section concludes with a brief discussion of Mass Appraisal techniques and an assessed value approach alternative. An appraisal may include more than one appraisal method, depending on the

status of the project.

- (1) Sales Comparison Approach to Value. The Sales Comparison Approach to Value offers the best indication of the market value of the subject property, because it is based on actual sales data. This methodology is appropriate for most improved properties, but the absence of comparable sales data usually constrains its application to appraisals of unimproved CFDs and assessment districts. The Sales Comparison approach, however, provides the analytical basis for estimating a future retail value of presently unimproved properties which may be incorporated into a Discounted Cash Flow analysis.
  - (2) Cost Approach to Value. The Cost Approach to Value is not appropriate for appraisals undertaken to establish value-to-lien ratios in CFDs and assessment districts. Cost does not create value. The Cost Approach may be useful, however, for adjusting for physical differences between properties under the Sales Comparison Approach. Sales Comparison appraisals can be adjusted to reflect infrastructure differences between different projects.
  - (3) Income Capitalization Approach to Value. The Income Capitalization Approach to Value is appropriate for retail value calculations of income-producing properties. It also may be appropriate for estimating the future retail values of income-producing properties for use in a Discounted Cash Flow analysis.
  - (4) Discounted Cash Flow Analysis. Discounted Cash Flow Analysis is appropriate for bulk sale valuations of unimproved properties and improved or partially improved but unoccupied properties. Discounted Cash Flow valuations should rely on an absorption study to estimate how quickly properties can be developed and sold or leased to end users. The expense of converting raw land to finished product or improved lots must be deducted from gross cash flow to derive net cash flow prior to discounting. The value of the public facilities to be financed with the contemplated bond financing will be included in the appraisal. The discount rate should reflect the rates of return needed to attract debt and equity participation in the project.
  - (5) Mass Appraisal Techniques. When an entire tract or project has been built and fully absorbed, the appraiser may employ mass appraisal techniques, utilizing conservative per dwelling unit estimates.
  - (6) Assessed Value. If, based upon assessed value, the value-to-lien ratio of the project and ninety (90%) percent of the undeveloped parcels is greater than 3:1, then a separate appraisal may not be required. If the assessed value of ninety (90%) percent of the undeveloped parcels is not greater than three times the amount of the lien then the City can require an appraisal to be completed on the undeveloped portion of the project while it uses the assessed value for the developed portion.
- o) Contents of Appraisal. The appropriate format and level of appraisal documentation can vary according to its complexity. A detailed appraisal will reflect nationally recognized

appraisal standards, including, to the extent appropriate, the Uniform Standards of Professional Appraisal Practice. Appraisal methodology and presentation of the results of the appraisal shall be presented in writing in either form report or narrative report, as required, by the CFD Formation Group.

Appraisals should conform to the following specific criteria:

- (1) Appraisals must be selected from a “pre-qualified” list of appraisers determined by the City.
- (2) Appraisals must be in writing, using either a “form report” (Uniform Commercial and Industrial Appraisal Report - Existing Property) or a “narrative report.”
- (3) Each appraisal shall clearly state the purpose of the report; a definition of the estate being appraised (i.e. fee, leasehold, etc.); and a description of the limiting conditions and assumptions underlying the appraisal.
- (4) Valuation dates shall be as determined by the City, but in no event earlier than 120 days prior to the sale of the bonds. To the extent practical, valuation dates on all properties shall be synchronized to a specific date, such as “October 1, 1999.”
- (5) A physical description of the property being appraised, along with a discussion of its “highest and best use,” land use regulations, present use and location.
- (6) An opinion of value which specifically considers the value of the property (including individual parcels) with the completed public facilities (bond proceeds and other financial guarantees).
- (7) A certificate of the appraiser stating the absence of any direct or indirect interests in the property, along with a brief description of the appraiser’s qualifications.
- (8) Improvement description (to the extent information is practically available).
  - (a) Land parcels which have been developed and subsequently sold should at a minimum indicate land parcel size, number of lots, density, number of plans, square footage, year construction was initiated, year of completion, and when sales were initiated.
  - (b) Land parcels with product under construction or with standing inventory, should be described as in (5) above and include a summary of the stage of development including: number of residential units or buildings completed, number of buildings, status of buildings under construction, finished lots and mass-graded or raw lots. In addition, a comment on the marketability of the building (architecture, size, etc.) is appropriate.
  - (c) Land parcels which have been developed with income-producing (or owner-occupied) commercial, industrial, offices, etc., should be described as follows:

- (i) Commercial Retail. Land parcel size; basic construction type; typical tenant improvements (and who is responsible for their construction); leasable area, when construction was initiated; and date of completion.
- (ii) Industrial. Land parcel size; basic construction type, whether single or multi-tenant typical office build-out as percentage of total area, when construction was initiated; and date of completion.
- (iii) Office. Land parcel size; basic construction type; typical tenant improvements/allowance; net rentable area, when construction was initiated; and date of completion.
- (iv) Residential. Land parcel size; basic construction type; whether single or multi-family; when construction was initiated; and date of completion.

5) District Administrator.

Upon completion of the formation of or annexation to a CFD, the District Administrator shall oversee all post-formation/post-annexation administrative duties. Examples of said duties include but are not limited to the following:

- a) Establish through the Finance Department of the City of Modesto the financing mechanism to receive, dispense and administer all monies received post-formation/post-annexation.
- b) Establish and administer a reserve fund.
- c) File all appropriate notices.
- d) Take any and all actions necessary for prudent administration of all post-formation/post-annexation CFDs, including but not limited to the expenditure or allocation of District funds, in strict accordance with Section 53343 of the Mello-Roos Act of 1982 as it may be amended, so that any such funds shall only be allocated or expended for facilities and services authorized by the Act. This shall include but not be limited to, creation of and modification to the Capital Improvement Project (CIP) budgets.

6) District Administration.

- a) District Administration Requirement of Infrastructure/Credit Specification in Subdivision Agreements.

On or after December 1, 1998, it shall be City policy with respect to those subdivisions located within the boundaries of a proposed Community Facilities District, an existing Community Facilities District, or a proposed or existing annexation to a Community Facilities District that the subdivision agreement required by the City for each such subdivision specify the creditable infrastructure or infrastructure segment percentages to be provided by the Developer of that

subdivision in detail, as well as proposed credit amounts associated with the subject infrastructure or infrastructure segment percentages. The infrastructure or infrastructure percentages shall be among those required to be completed by the Facility Master Plan or another similar infrastructure specification pertaining to the subdivision for which an agreement is sought.

b) District Administrator To Consult With Director Of Community Development Re Inclusion of Community Facilities Districts In Specific (Or Other) Plan Finance Plans.

When Specific or analogous Plans required by law for development are being prepared by the City, the City's Director of Community Development, after consultation with the City's Director of Engineering and Transportation and its District Administrator, shall determine whether or not a Community Facilities District shall be at least one means of financing infrastructure within any proposed Specific Plan on and after December 1, 1998, once the Director of Community Development has determined that a Community Facilities District shall be one means of financing such infrastructure, each subdivision within such a Plan shall have approval of its tentative subdivision map conditioned on the creation of or annexation to a Community Facilities District prior to final approval of its subdivision map, and the District Administrator shall assist the Director of Community Development in ensuring enforcement of this policy.

c) Uncreditable Portion Of Contingency Estimates In Village One.

The District Administrator, in coordination with the City's Community Development Department, shall ensure that the contingency portion of each facility segment credit against the one-time facilities taxes otherwise due shall be uncreditable, and received in cash, in an amount equivalent to 10.5% of the 25% contingency portion of each such facility segment credit, so that Village One developers will receive a net credit of 14.5% with respect to the contingency portion of each such facility segment credit against the appropriate one-time facilities tax.

d) Uncreditable Portion Of Contingency Costs To Be Included In Future Community Facilities Districts.

The District Administrator, in coordination with the City's Community Development Department, shall insure that an uncreditable percentage of each future one-time facilities tax is incorporated into each of the City's future Community Facilities Districts by means of inclusion in the Public Report and in the Rate and Method of Apportionment of Taxes. In order to ensure that the City's sunk costs of planning and engineering, ongoing administration, indirect costs and consultant costs can be paid from cash on hand generated by this requirement, some portion of the estimated cost of each facility, facility segment, or unit cost of a facility shall be disallowed from presentation for credit against the special one-time facilities tax which would otherwise be due with respect to the provision of that facility.

e) Tax Credit Procedure

- i) Facility providers may be permitted credits against taxes owed, or cash credits, as appropriate, and as set forth herein.
- ii) In the case of oversubscription, cash up to the amount of the oversubscription may be paid to a facility provider as cash becomes available to the CFD through tax collection.
- iii) Taxes shall be payable at the time specified in the public report. Until January 1, 2000, the tax payable shall at least equal the administrative offset specified in the public report or otherwise.
- iv) The district shall also be compensated from available tax monies for money and services advanced by it for the acquisition, construction, improvement or control of any or all of the facilities set forth in the public report, all in accordance with and subject to the Mello Roos Act (including, without limitation, Section 53314.9 of the Act), the resolution of formation of the CFD, the policies and procedures for administration of the CFD, the public report and other applicable law.
- v) In no event shall cash advances, dedications, or construction of facilities become either a debt of the City, or a debt in excess of actual tax receipts, of the CFD.
- vi) All tax credits shall be made by the District Administrator pursuant to a valid, executed facility acquisition agreement in a form approved by the District Administrator.
- vii) Prior to January 1, 2000, with the approval of the District Administrator, credits may be furnished to a facility provider to offset taxes otherwise due if the facility provider has furnished or is furnishing facilities which have not yet received a notice of completion. Notwithstanding the foregoing, such discretionary credit shall be fully reimbursable to the CFD in cash by the facility provider in the event that a facility acquisition agreement is not executed by the facility provider, or if that facility provider does not receive a notice of completion from the District Engineer.
- viii) On and after January 1, 2000:
  - (1) The District Administrator shall ensure that the full tax is collected as it becomes due from each provider of facilities or facility segments to the CFD until (a) a valid facility acquisition agreement exists between the CFD and the facility provider and, (b) the facility has been completed, and (c) a certificate of completion has been issued to the facility provider. The District Administrator shall then provide facility special tax credits or cash reimbursement, as appropriate, to that facility provider.
  - (2) All facility providers shall be denied tax credit for any portion of an otherwise credit-eligible facility constructed prior to execution by that provider of a facility acquisition agreement suitable to the District Administrator. Credit shall not be denied for planning or engineering costs included in a Facility Cost Estimate incurred prior to execution of that agreement.

- (3) Credits shall be expended by the District Administrator in date order of the certificate of completion of the facility for which credits are requested, and each such facility shall be completely credited before the district administrator shall grant credits to a facility receiving a certificate of completion later in time.
- (4) Where apportionment is required, as with respect to a total facilities cost stated in the public report including two or more sub-facilities, or where more than one person or entity participates in the construction or furnishing of a facility, the determination of such apportionment and credit by the District Administrator or their designee shall be conclusive evidence of the amount of the credit derived thereby.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-308**

**A RESOLUTION APPROVING A SECOND AMENDMENT TO AGREEMENT FOR WEBSITE CONSULTING SERVICES WITH MICAHLYNN RIVERA, IN AN AMOUNT NOT TO EXCEED \$50,000; AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AMENDMENT TO AGREEMENT.**

WHEREAS, the Community & Economic Development Department (CEDD) website is an important tool used to provide the public with information about the Department's services, and

WHEREAS, the Community & Economic Development website was designed, created and maintained by the Department's website consultant, Micahlynn Rivera, and

WHEREAS, the Business Development Division has a website, specifically for site selectors searching for new business locations, and

WHEREAS, both of these sites provide the public with a wide range of Department services and information such as zoning, the Housing Element, General Plan and the Urban Growth Review, and

WHEREAS, meeting agendas, minutes and resolutions for the Planning Commission and Board of Zoning Appeal are made available on the Department website, and

WHEREAS, the website consultant has unique skills and abilities that are critical in maintaining current web services and meeting future goals and demands, and

WHEREAS, the City desires to extend Consultant's contract through June 30, 2005, for an additional amount not to exceed \$50,000 for services as set forth in **Exhibit "A"** attached hereto, and

WHEREAS, the Finance Committee recommended approval of this item at its June 21, 2004 meeting.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Second Amendment to Agreement for Website Consulting Services with Micahlynn Rivera through June 30, 2005, in an amount not to exceed \$50,000.

BE IT FURTHER RESOLVED by the Council that the City Manager, or his designee, is hereby authorized to execute said Second Amendment to Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of June, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-309**

**A RESOLUTION REJECTING THE SOLE BID OF \$944,176 FROM GEORGE REED, INC., FOR THE PROJECT TITLED "EXTEND CORPORATE AND RECONSTRUCT TRANSIENT AIRCRAFT APRONS," AND AUTHORIZING STAFF TO RE-ADVERTISE THE PROJECT AT A FUTURE DATE**

WHEREAS, the bid received for the Extend Corporate And Reconstruct Transient Aircraft Aprons project was opened at 11:00 a.m. on May 11, 2004, and later tabulated for the Acting Engineering and Transportation Department Director for consideration by the Council, and

WHEREAS, the sole and low bid for the project was 47% above the engineer's estimate, and

WHEREAS, the FAA will not approve construction grants for projects where the sole low bid is more than 10% above the engineer's estimate,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby rejects all bids for the project titled "Extend Corporate And Reconstruct Transient Aircraft Aprons."

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of June, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-314**

**RESOLUTION AMENDING THE FY 2003-2004 CAPITAL IMPROVEMENT BUDGET TO: 1) REDUCE PROJECT ACCOUNT NUMBER 6100-430-A03, WELLHEAD TREATMENT ZONE 1, BY \$14,812 AND RETURN \$14,812.00 TO THE WATER FUND RESERVES; AND 2) REAPPROPRIATE \$14,812 MOVED TO THE WATER FUND RESERVES TO PROJECT ACCOUNT NUMBER 6100-480-Q211, ACQUIRE PROPERTY/INSTALL GAC AT WELL 50, THEREBY FULLY FUNDING THE PROJECT TITLED "RELOCATION OF GAC FILTERS TO WELL 50."**

WHEREAS, the bids received for Relocation Of GAC Filters To Well 50 project were opened at 11:00 a.m. on June 1, 2004, and later tabulated by the Acting Engineering and Transportation Director for the consideration of the Council, and

WHEREAS, the Acting Engineering and Transportation Director has recommended that the bid of \$249,130.00 received from Clayborn Contracting Group, Inc., be accepted as the lowest responsible bid and the contract be awarded to Clayborn Contracting Group, Inc., and

WHEREAS, total estimated project cost for Relocation Of GAC Filters To Well 50 is \$298,956.00, which includes construction contingency and construction administration, and

WHEREAS, funding available in account number 6100-480-Q211, Acquire Property/Install GAC at Well 50, is in the amount of \$284,144.00, and

WHEREAS, an additional amount of \$14,812.00 from the Water Fund Reserves is required to fully fund the project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the FY 2003-2004 Capital Improvement Budget to: (1) reduce project account number 6100-430-A023, Wellhead Treatment Zone 1, by \$14,812,

and return \$14,812.00 to the Water Fund Reserves; and (2) reappropriate \$14,812 moved to the Water Fund Reserves to project account number 6100-480-Q211, Acquire Property/Install GAC At Well 50, thereby fully funding the project titled "Relocation Of GAC Filters To Well 50."

RESOLUTION NO. 2004-315A**

**A RESOLUTION APPROVING A ONE-YEAR AGREEMENT WITH THE  
PENTECOSTAL CHURCH OF MODESTO REVIVAL CENTER TO LEASE 75  
CARPOOL PARKING SPACES COMMENCING JULY 1, 2004 THROUGH  
JUNE 30, 2005**

WHEREAS, the Stanislaus Council of Governments (StanCOG) entered into an agreement with the Pentecostal Church of Modesto Revival Center (the Church) to lease 75 carpool parking spaces at a cost of \$1,125 per quarter year, and

WHEREAS, said agreement expires June 30, 2004, and

WHEREAS, StanCOG no longer wishes to be a party to the agreement, and

WHEREAS, a need exists for carpool parking spaces to replace those that will be lost by the impending closure of the Vintage Faire Mall park and ride lot, and

WHEREAS, the Church is willing to enter into a lease agreement with the City of Modesto for 75 carpool parking spaces at a cost of \$1,125 per quarter year commencing on July 1, 2004 and expiring on June 30, 2005, and

WHEREAS, Engineering and Transportation Department staff recommended to the Economic Development Committee (EDC) that the City of Modesto assume StanCOG's role in the agreement with the Church, and

WHEREAS, the EDC met on June 7, 2004 and supported the recommendation of City staff, and

WHEREAS, by an agenda report to the City Council dated June 8, 2004, from the Engineering and Transportation Director, City staff recommended to the Council that it approve the agreement with the Church,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the agreement with the Pentecostal Church of Modesto Revival

Center for the lease of 75 carpool parking spaces at a cost of \$1,125 per quarter year, commencing July 1, 2004 through June 30, 2005.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of June, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**A RESOLUTION AUTHORIZING STAFF TO ENTER INTO NEGOTIATIONS WITH PARKING LOT OWNERS TO SECURE CARPOOL PARKING SPACES FOR THE EXCLUSIVE USE OF CUSTOMERS OF THE MODESTO AREA EXPRESS (MAX) COMMUTER ROUTES TO THE BAY AREA RAPID TRANSIT (BART) STATION AND ALTAMONT COMMUTER EXPRESS (ACE) TRAIN STATION**

WHEREAS, customers of the MAX commuter express routes to the BART station in Pleasanton and the ACE train station in Manteca will no longer have the opportunity to park their cars at the Vintage Faire Mall Park and Ride lot as the mall owner is desirous of closing the lot as soon as possible, and

WHEREAS, a need exists for carpool parking spaces for use by MAX customers to replace those that will be lost by the impending closure of the park and ride lot, and

WHEREAS, Engineering and Transportation Department staff recommended to the Economic Development Committee (EDC) that the City of Modesto negotiate lease agreements with parking lot owners to allow for the parking of MAX commuter bus customers, and

WHEREAS, the EDC met on June 7, 2004 and supported the recommendation of City staff, and

WHEREAS, by an agenda report to the City Council dated June 8, 2004, from the Acting Engineering and Transportation Director, City staff recommended to the Council that it authorize staff to negotiate said lease agreements to provide parking spaces for customers of the MAX commuter express routes,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes staff to negotiate lease agreements with parking lot owners to provide carpool parking spaces for customers of the MAX commuter express routes.

#### COMMENTS/JUSTIFICATION

This is a reallocation of funds within Water's Zone 1 CIP to fund the treatment of Well 100. Funds are being moved from the recoat tank interior CIP because upon inspection, tank coating in Zone 1 is not needed this FY. Once this CIP has been reduced, it will be closed.

Although the Kansas Needham overcrossing and several roundabouts were completed by the city this year, no funds were established to maintain them. E&T has proposed to move \$25,000 from the gas tax reserves to provide this necessary maintenance. This will roll over to FY05.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 -317**

**A RESOLUTION APPROVING RENEWAL OF EXCESS WORKERS'  
COMPENSATION INSURANCE AND AUTHORIZING HE CITY MANAGER  
TO EXECUTE THE RENEWAL AGREEMENT FOR THE INSURANCE**

WHEREAS, the City of Modesto has participated in the workers' compensation excess insurance pool, California Public Employers Insurance Authority (CPEIA), since July 1, 2002, and

WHEREAS, renewal of City's excess workers' compensation insurance is due on July 1, 2004, and

WHEREAS, staff has received an initial quote that provides for a rate increase due to the pool's loss experience and the City of Modesto's loss experience in particular, and

WHEREAS, our Broker of Record, Driver Alliant, was unable to obtain a better price in the commercial insurance market, and

WHEREAS, based upon prior policy direction received from Council, staff will bind Insurance coverage through the City's broker at \$750,000 self-insured retention.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Risk Manager is hereby authorized to bind excess workers' compensation insurance coverage in the amount of \$244,127 as presented by the City's Broker of Record.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the renewal agreement for excess Workers' Compensation Insurance.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of June 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 318**

**A RESOLUTION AUTHORIZING THE RISK MANAGER TO BIND  
PROPERTY AND BOILER & MACHINERY INSURANCE FOR THE CITY OF  
MODESTO OWNED AND/OR OPERATED PROPERTIES AND AUTHORIZING  
THE CITY MANAGER TO EXECUTE THE RENEWAL AGREEMENT FOR  
THE INSURANCE**

WHEREAS, since 1993, Driver Alliant Insurance Services has been the Broker of Record for the City's property-related needs, and

WHEREAS, Driver has developed a joint-purchasing group of clients called PEPiP (Public Entity Property Insurance Program) which includes over 4,400 public entities in 7 different states, and

WHEREAS, PEPiP's loss experience, coverage form and pricing have been the most competitive in the industry, and

WHEREAS, renewal of said insurance is due on June 30,2004 and

WHEREAS, staff has received the initial renewal quote that provides for a rate decrease of 3.16% for property and boiler & machinery coverage due to stabilization in the market and City of Modesto's favorable loss record, and

WHEREAS, based upon policy direction from Council, staff will bind the insurance coverage through PEPiP, at the cost of \$216,754.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Risk Manager is hereby authorized to bind property and boiler & machinery insurance coverage in the amount of \$216,754 as presented by the City's Broker of Record pursuant to Council direction.

BE IT FURTHER RESOLVED that the City Manager, or his authorized designee, is hereby authorized to execute the renewal agreement for property and boiler & machinery insurance coverage and pay the quoted premiums.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of June 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-319**

**A RESOLUTION APPROVING THE REQUEST FROM THE WEST MODESTO  
KING KENNEDY NEIGHBORHOOD COLLABORATIVE FOR A TOTAL OF  
\$175,000 IN CDBG FUNDS FOR A NEW “COLLABORATIVE  
NEIGHBORHOOD CENTER HEADQUARTERS” AT MELLIS PARK, AND  
AUTHORIZING STAFF TO NEGOTIATE A LEASE AGREEMENT.**

WHEREAS, on October 26, 2001, the Citizens Housing and Community Development Committee (CH&CDC) approved a request by the Collaborative to use \$125,000 of Community Development Block Grant (CDBG) funds to acquire property to establish a new or expanded headquarters for their administrative offices and program activities, and

WHEREAS, since the time of this approval, the Collaborative has looked at many properties to “house” their offices and activities; however, they have been unsuccessful in obtaining any solid leads on properties suitable for their purposes, in an appropriate location, and

WHEREAS, during the search for properties, the staff of the Collaborative started meeting with City staff to discuss the possibility of expanding the King Kennedy Memorial Center (KKMC); after a few meetings, staff of the Collaborative and City both agreed that there would be significant benefit to the community, as well as both organizations, to be located in the same area, and

WHEREAS, after further review, both the Collaborative and the City realized that a separate building, detached from the KKMC, would better serve as the Collaborative headquarters; this building would serve as a meeting place and program location, open to the public, to take advantage of the Collaborative programs, and

WHEREAS, the Collaborative building would include the following features:

- Offices for the Collaborative staff
- Meeting and conference rooms
- Restroom facilities
- Storage area
- Small kitchenette area

and,

WHEREAS, during the past 12 months, the Collaborative has been working to find additional funding to contribute to the construction and furnishing of the building; one funding source the Collaborative has been actively pursuing is the Cowell Foundation, and

WHEREAS, in February, representatives from the Cowell Foundation visited Modesto in order to conduct a site visit to evaluate the Collaborative, their work, as well as their relationships within the community, and

WHEREAS, the site visit was very successful that the Cowell Foundation has tentatively committed to fund the Neighborhood Headquarters and other Collaborative projects, and

WHEREAS, in order to receive the full commitment from the Cowell Foundation, (valued at approximately \$325,000), the Collaborative needs to secure an additional \$150,000 in matching funds; in order to meet this mandate set forth by the Cowell Foundation, the Collaborative has requested an additional \$50,000 from the City of Modesto and is also requesting \$100,000 from the County of Stanislaus, and

WHEREAS, the Community Housing and Citizens Development Committee (CH&CDC) approved this request on May 14, 2004, increasing the total City contribution to the Collaborative for their "Headquarters Project" to \$175,000; in addition, the local representatives from the American Institute of Architects (AIA) will be donating all

services from the pre-design service to construction drawing to the project; this donation represents a large investment from the local AIA community, and

WHEREAS, the Collaborative also has to receive City Council verification of their proposed lease with the City of Modesto for the land where their building will be located, and

WHEREAS, the City and Collaborative staffs need to verify that each agency is willing to agree to a \$1.00 per year lease for 98 years in order for the Collaborative to receive the funds from the Cowell Foundation; the Foundation wants to make sure both the City and the Collaborative are committed to a long-standing relationship, and

WHEREAS, when the lease is completed, staff will bring the item back to City Council for a full review of the terms; the lease agreement will include language that, in the event the West Modesto King-Kennedy Neighborhood Collaborative ceases to exist for the stated purposes (social and health services open to the public), the Collaborative can assign the lease to another non-profit organization that serves the community in a similar manner, if approved by the Collaborative and the Modesto City Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the request from the West Modesto King Kennedy Neighborhood Collaborative (Collaborative) for a total of \$175,000 in CDBG funds (in FY 2004-2005) for a new "Collaborative Neighborhood Center Headquarters" at Mellis Park.

BE IT FURTHER RESOLVED that the Council hereby authorizes staff to negotiate a lease agreement with the West Modesto King Kennedy Neighborhood Collaborative for \$1.00 per year for ninety-eight (98) years.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of June 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-320**

**A RESOLUTION APPROVING A THIRD AMENDMENT TO AGREEMENT  
WITH MODESTO SISTER CITIES INTERNATIONAL TO DECREASE  
FUNDING FOR FISCAL YEAR 2004-05 BY 10%, AND AUTHORIZING THE  
CITY MANAGER TO EXECUTE THE THIRD AMENDMENT.**

WHEREAS, in 1996, the City of Modesto entered into an agreement with Modesto Sister Cities International (MSCI) for MSCI to administer Modesto's Sister City program, and

WHEREAS, the City agreed to compensate MSCI \$31,600 annually to administer the Sister City program, and

WHEREAS, said annual compensation remained the same until FY 02-03, when MSCI agreed to accept a 5% budget cut due to budgetary constraints, and

WHEREAS, the City Council recommended a 10% budget reduction to MSCI for the Fiscal Year 2003-04, and

WHEREAS, MSCI agreed to a 10% decrease and accepted payment in the amount of \$28,440 for Fiscal Year 2003-04, and

WHEREAS, a 10% reduction in funding to MSCI is again included as part of the adoption of the Fiscal Year 2004-05 budget, and

WHEREAS, MSCI has again agreed to a 10% decrease and accepted payment in the amount of \$28,440 for Fiscal Year 2004-05,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves a Third Amendment to Agreement with Modesto Sister Cities International to decrease funding by 10% from \$31,600 annually to \$28,440 for Fiscal Year 2004-05.

BE IT FURTHER RESOLVED that the City Manager is hereby authorized to execute the Third Amendment to the Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of June 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-321**

**A RESOLUTION APPROVING A THREE-YEAR RENEWAL AGREEMENT WITH COMMUNITY REINVESTMENT FUND, INC. FOR LOAN SERVICING OF EXISTING AND FUTURE LOANS, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT.**

WHEREAS, the City's current loan portfolio includes housing rehabilitation loans, down payment assistance loans, HOME loans, Redevelopment Agency loans, and tracking of Capital Facilities Fees and Deferrals, and

WHEREAS, during an audit of the Finance Department in 1993, it was recommended that the loan portfolio be serviced by an outside company; in November 1993, the City Council authorized the City Manager to execute a two-year agreement for loan servicing with Community Reinvestment Fund, Inc. (CRF), located in Minneapolis; this agreement has been renewed every two years, and

WHEREAS, the current agreement for loan servicing was approved by City Council on July 23, 2002, by Resolution No. 2002-350, and

WHEREAS, in February 2004, a Request for Qualifications for Loan Servicing was made available to all known servicing companies; the City received proposals from two companies: Community Reinvestment Fund, Inc. (CRF), and Loan Service Center (LSC), Atlanta, and

WHEREAS, the proposals were evaluated by a staff committee, in the categories of pricing, completeness of the RFQ, customer service, and stability of the company; staff also analyzed loan servicing activity using data from three separate months during last year, and compared the proposed pricing for CRF and LSC for these months, and

WHEREAS, each member of the evaluation committee scored CRF higher than LSC in each category, and the monthly fees for CRF averaged 47% of the proposed LSC pricing, resulting in the recommendation of CRF as the continued loan servicer for the City, and

WHEREAS, CRF is a nonprofit organization that began operations in 1989 to provide capital to community development lenders in low- to moderate-income communities; their core service is to purchase loans so that the funds can be reinvested in the community, and

WHEREAS, the CRF loan servicing includes the processing of monthly payments, sending payment coupons to customers, a toll free number for customers, collection efforts on past due loans, insurance tracking, processing of demand statements and subsequent payoffs, monthly reports to the City, and a monthly check to the City for funds collected on the serviced loans, and

WHEREAS, the City will remain responsible for collection efforts on loans past due more than 90 days, follow-up for needed fire insurance, and releasing all liens for loans that have been paid, and

WHEREAS, the agreement will be a three-year agreement and will expire on June 30, 2007, and

WHEREAS, the Housing Rehabilitation Loan Committee reviewed and supported this action at its May 6, 2004, meeting, and

WHEREAS, the Citizens Housing and Community Development Committee reviewed and supported this action at its May 14, 2004, meeting,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves a three-year renewal agreement with Community Reinvestment Fund, Inc. for loan servicing of existing and future loans.

BE IT FURTHER RESOLVED that the City Council hereby authorizes the City Manager, or his designee, to execute the Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of June 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 322**

**A RESOLUTION ESTABLISHING THE CALCULATION FOR THE  
APPROPRIATION LIMIT FOR THE FISCAL YEAR 2004-2005 ANNUAL  
BUDGET**

WHEREAS, the Annual Budget of the City of Modesto is recommended for adoption, and Proposition 4 of the California State Constitution requires the City to establish an appropriation limit calculation for the Fiscal Year 2004-2005, and

WHEREAS, Article XIII B of the California Constitution specifies that appropriations made by State and local governments may increase annually by a factor comprised of the change in population combined with either the change in California per capita personal income or the change in the local assessment roll due to local nonresidential construction, and

WHEREAS, the attached schedule shows the preferred price and population factors to be used and the appropriation limit with the recommended factors in calculating the limit are the price factor of "state growth in per capita income" and the population factor of "growth rate in Stanislaus County", and

WHEREAS, a copy of said report is on file in the City of Modesto Finance Department,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appropriation limit calculation is established as shown on **Attachment A**, attached hereto, and made a part hereof.

BE IT FURTHER RESOLVED that the Finance Director is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of June, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following votes:

Population Change (Modesto)	1.32%
-----------------------------	-------

Per Capita converted to a ratio	1.0328
---------------------------------	--------

Population converted to a ratio	1.0132
---------------------------------	--------

Calculation of factor for FY2004-2005	1.0464
---------------------------------------	--------

Adjustment	\$11,687,512
------------	--------------

FY2004-2005 Appropriation Limit	<u><u>\$263,573,544</u></u>
---------------------------------	-----------------------------

Article XIII B places a limit on most, but not all, government revenue sources. The limit applies to appropriations from proceeds of taxes from both the general fund and special funds of government entities. Proceeds of taxes include tax revenues, interest earnings on invested tax revenues, and any revenues collected by a regulatory license fee or user charge in excess of the amount needed to cover the cost of providing the regulation, product, or service.

Appropriations from nontax revenues, including the City's enterprise funds, are not subject to the limit. Enterprise fund expenditures for fiscal year 2004/05 are estimated to be \$102 million. We are significantly below the limit when we exclude these expenditures from the calculation.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-323**

**A RESOLUTION APPROVING A DEVELOPMENT PLAN FOR PLANNED  
DEVELOPMENT ZONE, P-D(566) (SIGNATURE THEATRES)**

WHEREAS, a verified application for an amendment to Section 8-3-9 of the Zoning Map was filed by Signature Theatres on December 17, 2003, to reclassify from Highway Commercial Zone, C-3, to Planned Development Zone, P-D(566), to allow expansion of an existing movie theater, property located at 3969 McHenry Avenue, described as follows:

All that portion of the northeast  $\frac{1}{4}$  of the northeast  $\frac{1}{4}$  of section 8, Township 3 South, Range 9 East, M.D.B. & M., City of Modesto, County of Stanislaus, State of California, described as follows:

Parcel A of that certain Map filed in Vol. 25 of Parcel Maps at Page 37, Stanislaus County Records;

Also including the Westerly  $\frac{1}{2}$  of McHenry Avenue, all being adjacent to the above-described property.

WHEREAS, after a public hearing held on April 19, 2004, in the Tenth Street Place Chambers located at 1010 10<sup>th</sup> Street, Modesto, California, it was found and determined by the Planning Commission, by its Resolution No. 2004-22, that rezoning of the property as requested is required by public necessity, convenience, and general welfare for the following reasons:

1. The project site is large enough to accommodate the proposed planned development zone for movie theaters and associated off-street parking, and is located on a principal arterial (which is also a State highway), and therefore will not result in adverse impacts to the adjacent residential neighborhoods.
2. Due to the specifics of the existing and proposed site design features (masonry wall separating residential, reduction in number of drive-ways), the proposed Planned Development Zone is compatible with existing and potential surrounding development.

WHEREAS, said matter was set for a public hearing of the City Council to be held on May 25, 2004, in the Tenth Street Place Chambers located at 1010 10<sup>th</sup> Street, Modesto, California, at which date and time said duly noticed public hearing was held, and

WHEREAS, after said public hearing the Council found and determined that the application of Signature Theatres for a Planned Development Zone should be granted as consonant with public necessity, convenience and general welfare for the reasons set forth in Planning Commission Resolution No. 2004-22 and quoted above, and

WHEREAS, the Council has introduced Ordinance No. 3352-C.S. on the 25<sup>th</sup> day of May, 2004, reclassifying the above-described property from Highway Commercial Zone, C-3, to Planned Development Zone, P-D(566).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. DEVELOPMENT PLAN. The development plan for Planned Development Zone, P-D(566), is hereby approved subject to the following conditions:

1. All development shall conform to the site plan and elevations titled "Signature Theatres 14-Screen Cinema Renovation" as amended in red, stamped approved by the City Council, including extension of the north (inbound) side of the center and south driveways, consistent with City of Modesto Standard Specifications Table 10.2.
2. Prior to the issuance of a building permit, a landscaping and irrigation plan shall be approved by the Chief Building Official. Landscaping and the irrigation system shall be installed and maintained in accordance with the approved plan.
3. All landscaping, fences, and walls shall be maintained and the premises shall be kept free of weeds, trash, and other debris.
4. Prior to the issuance of a building permit, the developer shall submit a plan to provide on-site treatment of storm water, as

approved by the Operations and Maintenance Director. Storm drain improvements shall be constructed in accordance with the approved plans.

5. Existing overhead and underground electric facilities shall be removed, protected, or relocated as required by the Modesto Irrigation District and the Engineering and Transportation Director.
6. Street dedication consistent with Standard Specifications, and as shown on the approved site plan, shall be made prior to the issuance of a building permit or at any time requested by the Engineering and Transportation Director to alleviate a health, safety, or traffic problem in the area.
7. Prior to issuance of a building permit, improvement plans for required improvements shall be prepared by a Registered Civil Engineer and approved by the Engineering and Transportation Director. Improvements shall be constructed in accordance with the approved plans.
8. Ten-foot-wide public utility easements and four-foot planting easements located within the ten-foot-wide public utility easements shall be dedicated along all street frontages as required by the Engineering and Transportation Director.
9. Prior to issuance of a building permit the developer shall dedicate public utility easements as required by the utility companies and the Engineering and Transportation Director.
10. All signs shall comply with the sign requirements of the C-3 Zone.
11. All outdoor lighting shall be shielded from adjacent residential properties as required by the Engineering and Transportation Director.
12. The property owner and developer shall, at their sole expense, defend, indemnify and hold harmless the City of Modesto, its agents, officers, directors and employees, from and against all claims, actions, damages, losses, or expenses of every type and description, including but not limited to payment of attorneys' fees and costs, by reason of, or arising out of, this development approval. The obligation to defend, indemnify and hold harmless shall include but is not limited to any action to arbitrate, attack, review, set aside, void or annul this development approval on any grounds whatsoever. The City of Modesto shall promptly notify the developer of any such claim, action, or proceeding and shall cooperate fully in the defense.

13. At the time McHenry Avenue is widened, and the public improvements along the theater parcel frontage are relocated, the developer shall physically modify the project site to provide a minimum eight-foot-net landscaped setback for all parking areas along McHenry Avenue

In addition, the following mitigation measures from the approved Modesto Urban Area General Plan Master EIR should be included as Conditions of Approval:

14. All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover.
15. All land clearing, grubbing, scraping, excavation, land leveling, grading, cut and fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.
16. The City's noise ordinance (Modesto Municipal Code Section 4-9.101) prohibits the "loud and raucous discharge into the open air of the steam of any steam equipment or exhaust from any stationary internal-combustion engine."
17. The noise ordinance prohibits the loud and raucous operation or use of any of the following before 7:00 a.m. or after 9:00 p.m. daily (except Saturday and Sunday and State or Federal holidays, when the prohibited time shall be before 9:00 a.m. and after 9:00 p.m.):
  - a. A hammer, or any other device or implement used to pound or strike an object.
  - b. An impact wrench, or other tool or equipment powered by compressed air.
  - c. A hand-powered saw.
  - d. Any tool or piece of equipment powered by an internal-combustion engine such as, but not limited to, chain saw, backpack blower, and lawn mower.
  - e. Any electrically powered (whether by alternating current electricity or by direct current electricity) tool or piece of equipment used for cutting, drilling, or shaping wood, plastic, metal, or other materials or objects, such as, but not limited to, a saw, drill, lathe, or router.

- f. Any of the following: heavy equipment (such as but not limited to bulldozer, steam shovel, road grader, back hoe), ground drilling and boring equipment (such as but not limited to derrick or dredge), hydraulic crane and boom equipment, portable power generator or pump, pavement equipment (such as but not limited to pneumatic hammer, pavement breaker, tamper, compacting equipment), pile-driving equipment, vibrating roller, sand blaster, gunite machine, trencher, concrete truck, and hot kettle pump.
  - g. Any construction, demolition, excavation, erection, alteration, or repair activity. In the case of urgent necessity and in the interest of public health and safety, the Chief Building Official may issue a permit for exemption from these. Such period shall not exceed three (3) working days in length while the emergency continues but may be renewed for successive periods of three (3) days or less while the emergency continues. The Chief Building Official may limit such permit as to time of use and/or permitted action, depending upon the nature of the emergency and the type of action requested.
  - h. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields.
18. If archaeological resources are discovered at any time during construction, all activity shall cease until the site is surveyed by a qualified archaeologist. The survey shall include mitigation measures, which shall be implemented before construction resumes. The survey shall follow the criteria presented in Appendix K of the State CEQA Guidelines.

SECTION 2. DEVELOPMENT SCHEDULE. The following development schedule is hereby approved for said Planned Development Zone, P-D(566):

The entire construction program be accomplished in one phase, construction to begin on or before May 25, 2006, and completion to be not later than May 25, 2008.

SECTION 3. CHANGES IN DEVELOPMENT PLAN. Any changes in the above approved development plan shall be made in accordance with the provisions of Section 10-2.1709 of the Modesto Municipal Code.

SECTION 4. COMPLIANCE WITH CODE PROVISIONS, ETC. In all other respects said planned development shall be accomplished in accordance with and in strict adherence to the provisions of Article 17 of Title 10 of the Modesto Municipal Code relating to Planned Development Zones and other applicable City laws, rules, regulations and procedures.

SECTION 5. EFFECTIVE DATE. This resolution shall not become effective unless and until the ordinance reclassifying the above-described property to Planned Development Zone, P-D(566), becomes effective.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of June 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-324**

**A RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 1999082041): AMENDING SECTION 8-3-9 OF THE ZONING MAP TO REZONE FROM HIGHWAY COMMERCIAL ZONE, C-3, TO PLANNED DEVELOPMENT ZONE, P-D(566), PROPERTY LOCATED AT 3969 McHENRY AVENUE (SIGNATURE THEATRES)**

WHEREAS, on March 4, 2003, the City Council of the City of Modesto certified the Final Master Environmental Impact Report (“Master EIR”) (SCH No. 1999082041) for the Modesto Urban Area General Plan, and

WHEREAS, Signature Theatres has proposed the zoning designation for the property located at 3969 McHenry Avenue be amended to rezone from Highway Commercial, C-3, to Planned Development Zone, P-D(566), in the City of Modesto (“the project”), to allow expansion of an existing movie theater, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a Master EIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the master environmental impact report and whether the subsequent project was described in the master environmental impact report as being within the scope of the project, and

WHEREAS, the City’s Community & Economic Development Department by Environmental Assessment Initial Study EA/C&ED No. 2004-23 (“Initial Study”) reviewed the proposed amendment to the zoning map and rezone to P-D(566) project to determine whether the project is within the scope of the project covered by the

Modesto Urban Area General Plan Master EIR (“Master EIR”), and made the determination that the proposed project will have no additional significant effect on the environment that was not identified in the Master EIR, and further, that no or new additional mitigation measures or alternatives are required, and that, therefore, the proposed project is within the scope of the project covered by the Master EIR, and

WHEREAS, in accordance with CEQA guidelines beginning on May 4, 2004, the City caused to be published a 20-day notice of the City’s intent to make a finding that the proposed project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on May 25, 2004, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed amendment to the zoning map and rezone to P-D(566) project, a copy of which is attached hereto as **Exhibit “A”**, and incorporated herein by reference, and based on the substantial evidence included in said Initial Study makes the following findings:

1. That the proposed project is contemplated and described in the Master EIR (SCH No. 1999082041) as being within the scope of the Master EIR.
2. That the project will have no new significant effects on the environment not identified or examined in the Master EIR, and no new or additional mitigation measures are required.

3. That, as per Section 21157.1 of the Public Resources Code, no new environmental document or findings are required by the California Environmental Quality Act (CEQA).
4. That there are no specific features which are unique to the proposed project that require project specific mitigation measures. Accordingly, the certified mitigation measures identified in the Master EIR will be sufficient for this project.
5. That all feasible mitigation measures set forth in the Master EIR which are appropriate to the project shall be incorporated in the project.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of June 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

## Master EIR Initial Study Checklist

### I. PURPOSE

CEQA allows for the limited environmental review of subsequent projects under the City's Master EIR. This Initial Study Checklist is used in determining whether the proposed SKW office addition is "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 1999082041) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformity.

A subsequent project is "within the scope" of the Master EIR when:

1. it will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and
2. no new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect in the Master EIR. (Public Resources Code Section 21158(d))

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (State CEQA Guidelines Section 15384)

### II. PROJECT DESCRIPTION

- A. Title: Rezone to Planned Development for Signature Theatres Expansion
- B. Address or Location: 3969 McHenry Avenue
- C. Applicant: Signature Theatres  
1600 Broadway, Suite 150  
Oakland CA 94612
- D. City Contact Person:
- Project Manager: Brad Wall  
Department: Community & Economic Development  
Phone Number: (209) 577-5282  
E-mail address: bwall@modestogov.com
- E. Current General Plan Designation: C – Commercial

- F. Current Zoning Classification(s): C-3, Highway Commercial
- G. Surrounding Land Uses: North: Mobile home park  
 South: Mini-storage  
 East: McHenry Avenue / Commercial  
 West: Single-family residential
- H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR (Attach additional maps/support materials as needed for complete record):
- The applicant seeks plot plan approval for a four-screen, 12,328 square-foot, addition to an existing ten-screen movie theater complex. The project site is in an urbanized area, surrounded by a mixture of residential and commercial uses.
- I. Other Public Agencies Whose Approval is Required: None

### III. FINDINGS / DETERMINATION

The project is within the scope of the Master EIR and no new environmental document or Public Resources Code Section 21081 findings are required. The following items are found to be true:

- A. The type of project is described in Chapter II of the Master EIR.
- B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the project or otherwise made conditions of approval of the project.
- C. An Initial Study was prepared by the City of Modesto that analyzed whether the proposed subsequent project may cause any significant effect on the environment that was not examined in the MEIR and it has been determined that the project was described in the MEIR as being within the scope of the MEIR.
- D. Based on the Initial Study, the City of Modesto finds and determines:
- a) The proposed subsequent project will have no additional significant effect as defined in CEQA Section 21158 that was not identified in the MEIR.
  - b) No new or additional mitigation measures or alternatives are required.
- E. The criteria for currency of the Master EIR were reviewed (section 5 below) and it was determined that the Master EIR is current for all areas of the Initial Study.

  
 Project Manager

ASSOCIATE PLANNER 3/31/04  
 Title Date

#### 4. Within the Scope Analysis of this Document:

The Master EIR permits projects to be found within the scope of the MEIR if certain criteria are met. Basically, if the following statements are found to be true for all 20 sections of this Initial Study, then the project was covered by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

- |   | YES | NO                       |
|---|-----|--------------------------|
| (1) The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.  | X   | <input type="checkbox"/> |
| (2) City policies that reduce, avoid, or mitigate environmental effects will continue to be in effect and therefore would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures contained within the Master EIR. | X   | <input type="checkbox"/> |
| (3) Federal, State, Regional and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).  | X   | <input type="checkbox"/> |
| (4) No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources.  | X   | <input type="checkbox"/> |
| (5) The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.  | X   | <input type="checkbox"/> |
| (6) Development within the project will comply with all mitigation measures identified in the General Plan Master EIR.  | X   | <input type="checkbox"/> |

#### 5. Currency of the Master EIR Document

The MEIR should be reviewed on a regular basis to determine its currency, and whether additional analysis/mitigation should be incorporated into the MEIR via a Supplemental or Subsequent EIR (CEQA Section 21157.6). Staff has reviewed sections 1 through 20 of this document in light of the criteria listed below to determine whether the MEIR is current. The analysis contained within the Master EIR is current as long as the following circumstances have not changed. Any negative response must be discussed.

- |  | YES | NO                       |
|--|-----|--------------------------|
| (1) Certification of the General Plan Master EIR occurred less than five years prior to the filing of the application for this subsequent project. | X   | <input type="checkbox"/> |
| (2) This project was described in the Master EIR and its approval will not affect the adequacy of the Master EIR for any subsequent project.       | X   | <input type="checkbox"/> |
| (3) No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified.                               | X   | <input type="checkbox"/> |

(4) No new information, which was not known and could not have been known at the time the Master EIR was certified as complete, has become available. X

(5) Policies that require site-specific mitigation remain in place, in addition to avoidance or other mitigation of impacts as a prerequisite to future development. X

#### IV. ENVIRONMENTAL ANALYSIS

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any project-specific significant effect on the environment that was not examined in the Final Master EIR (MEIR) for the General Plan and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the project is "within the scope" of the Master EIR.

Pursuant to Public Resources Code Section 21157.1, no new environmental document or findings are necessary for projects that are determined to be within the scope of the MEIR. Adoption of a notice of conformity after completion of the Initial Study fulfills the City's obligation in that situation.

All environmental effects cited reflect year 2025 buildout of the Urban Area General Plan as identified in the MEIR.

The Master EIR for the General Plan organizes its analysis of environmental impacts into eighteen subject areas. The following analysis is based on the impact analyses contained in Chapter V of the Master EIR. For ease of cross-reference, the sections are numbered in the same order as the analyses in Chapter V.

In addition to the 18 Master EIR subject areas, the Initial Study checklist addresses the issues of land use/planning and aesthetics. The reason for including these additional issues is to ensure that consideration is being given to the full range of subjects of importance contained in Appendix G of the CEQA Guidelines. The format for the land use/planning and aesthetics sections differs from that of the other 18 subject areas since these two subjects were not addressed as distinct subjects in the Master EIR.

##### 1. TRAFFIC AND CIRCULATION

###### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant and unavoidable traffic and circulation impacts:

Effect: Increased traffic will result in certain roadway segments operating at LOS D or worse.

Effect: The Substantial increase in traffic relative to the existing load and capacity of the street system will cause violation, either individually or cumulatively, of an LOS standard established by the County CMP for designated roads and highways.

Effect: Creation of need for Capacity-enhancing modifications to existing facilities.

Effect: Increase in energy consumption associated with the operation of highway projects, rail improvements, and aviation facilities.

Effect: Severe contrast with existing neighborhood or area character caused by highway and transit projects.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Traffic and Circulation mitigation measures that are pertinent to this project are found on MEIR pages V-1-15 through V-1-21. All feasible measures appropriate to the project – including any new measures - will be incorporated into or made conditions of approval of this project and will be listed in Section V, Mitigation Measures Applied to Project.

**c. Project-Specific Effects**

Section V-1.B of the MEIR provides analysis of Traffic and Circulation impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

- |   | YES                      | NO                                  |
|---|--------------------------|-------------------------------------|
| (1) The project would contribute more than an additional 100 average daily trips (ADT) to adjoining roads and generates more trips than assumed for their general plan land use category and zoning in the Master EIR. City Engineering & Transportation Staff will review the project to determine whether the project contributes more than 100 ADT thresholds. Such Projects are presumed to generate more trips than assumed by the Master EIR. | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Where a project exceeds an additional 100 ADT contribution, a site access study will be conducted to determine to what extent the project would exceed the year 2025 level of service (LOS) expected for the adjoining roadways under the Master EIR. The site access study will recommend new, project-specific mitigation measures. Where the project also exceeds the Master EIR's traffic generation assumption, as determined by Engineering & Transportation staff, a comprehensive traffic study will be required that will include off-site traffic impact analysis.

- |  | YES                      | NO                                  |
|--|--------------------------|-------------------------------------|
| (2) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g. farm equipment). | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| (3) Result in inadequate emergency access.   | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| (4) Result in inadequate parking capacity.   | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Discussion:

The proposed project would generate less than 100 ADT, and would have no impact relative to transportation system design, incompatible uses, and emergency access, nor would it result in inadequate parking capacity.

**2. AIR QUALITY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to air quality:

Effect: Projected traffic levels will result in increased ambient carbon monoxide (CO) levels in the project area. This is a significant and unavoidable impact.

Effect: Projected traffic levels will result in increased ROG and NOX levels in the project area. This is a significant and unavoidable impact.

These are also cumulative impacts on air quality.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Air Quality mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-2-11 through V-2-18 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

**c. Project-Specific Effects**

Section V-2.B of the MEIR provides analysis of Air Quality impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

		YES	NO
(1)	The project exceeds the emissions thresholds established for CO and NOx by the San Joaquin Valley Unified Air Pollution Control District's (SJVUAPCD) adopted CEQA Guidelines.	<input type="checkbox"/>	X
(1)	The project does not incorporate the best management practices for PM10 reduction established by the SJVUAPCD.	<input type="checkbox"/>	X
(2)	The project does not comply with the air quality policies of the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(4)	The project would expose sensitive receptors to substantial pollutant concentrations.	<input type="checkbox"/>	X

- (5) The project would create objectionable odors affecting a substantial number of people.  X

Discussion:

The proposed project would not result in long-term air quality-related impacts, as it is simply an addition to an existing office building. However, in order to minimize any short-term air quality-related impacts associated with construction, the appropriate mitigation measures will be applied from the MEIR.

**3. NOISE**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant and unavoidable environmental impacts relative to noise:

Effect: Traffic noise levels for future conditions in the plan area have the potential to exceed the City's Noise Significance Standards (see Table 3-3 MEIR).

Effect: Noise level projections based on the traffic levels anticipated in the General Plan indicate that noise will exceed the City's General Plan and noise ordinance standards.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-10 through V-3-15 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project. New measures are listed in Section V: Mitigation Applied to Project.

**c. Project-Specific Effects**

Section V-3.B of the MEIR provides analysis of noise impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance. | <input type="checkbox"/> | X  |
| (2) The project will exceed the noise policies of or otherwise be inconsistent with the Modesto Urban Area General Plan.     | <input type="checkbox"/> | X  |

- (3) The project will result in a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?  X
- (4) The project will result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project.  X

Discussion:

The proposed project will not result in any substantial increase in noise levels that exist without the project, and construction-related noise is limited per the City of Modesto Municipal Code. The appropriate mitigation measures will be applied from the MEIR.

**4. AGRICULTURAL LANDS**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to agricultural lands:

Effect: Development within the urbanized Baseline Developed Area and Redevelopment Area will have a less-than-significant impact on agricultural lands.

Effect: Conversion of agricultural land will occur as available developable land is occupied within the City. This is a significant and unavoidable impact.

Effect: Growth within Modesto's planning area would contribute considerably to the loss of agricultural land within Stanislaus County. This is a significant and unavoidable cumulative impact.

**b. Master EIR and/or New Mitigation Measures Pertinent to the Project**

Agricultural Land mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-4-7 and V-4-8 MEIR. All feasible measures appropriate to the project and any new mitigation to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

**c. Project-Specific Effects**

Section V-4.B of the MEIR provides analysis of Agricultural Lands impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- YES NO
- (1) The project is inconsistent with the Modesto Urban Area General Plan.  X

- (2) The project will directly result in the development of land outside the March 2003 planning area boundaries.  X
- (3) The project will Conflict with existing zoning for agricultural use, or a Williamson Act contract.  X
- (4) The project will Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland to non-agricultural use.  X

Discussion:

The proposed project is in an urbanized area, and will have no effect on agricultural lands of any kind.

**5. WATER SUPPLY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to water supply:

Effect: Urban Area General Plan policies are established to limit groundwater extractions to the safe yield of the aquifer and thereby avoid aquifer over drafting. In addition, the UWMP requires that new urban development would proceed in conjunction with the availability of water supplies and distribution facilities. It is assumed that increased entitlement of surface water supplies such as a water transfer from another water purveyor would undergo independent environmental review pursuant to CEQA. This is a less-than-significant impact.

Effect: Development to the future projected City population would require expansion of the MRWTP to its full 60 mgd capacity, development of additional groundwater wells, and construction of additional water distribution and treatment facilities. Construction of some of the required facilities would most likely require site-specific environmental impact assessments to be conducted under CEQA. Consequently, the potential environmental impacts of the Urban Area General Plan are considered less-than-significant.

Effect: During drought years, despite available options, significant water shortages are forecast for the San Joaquin River basin by the year 2020. Modesto would make a cumulatively considerable contribution to the cumulative impact on water supply under drought conditions. This is a significant and unavoidable cumulative impact.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Water Supply mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-5-7 through V-5-8 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

**c. Project-Specific Effects**

Section V-5.B of the MEIR provides analysis of Water Supply impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |     |   | YES                      | NO |
|-----|---|--------------------------|----|
| (1) | The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) | Sufficient water supplies are not available to serve the project from existing entitlements and resources, new or expanded entitlements are needed. | <input type="checkbox"/> | X  |

Discussion:

Water supplies are available to serve the proposed development.

**6. SANITARY SEWER SERVICES**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to sanitary sewer services:

Effect: The City has already begun to implement the provisions of the Wastewater Master Plan (WMP) to meet future demand for sanitary sewer services. As City wastewater treatment facilities are expanded to meet the needs of the Baseline Developed, Redevelopment, and Planned Urbanizing Areas, the City will obtain the necessary wastewater discharge and NPDES permits from the Central Valley RWQCB, as required under Urban Area General Plan Policy V-D.2(a). Implementing the WMP, requirement of Best Management Practices for post-construction activities, as well as the Urban Area General Plan policy cited above, will avoid violation of wastewater discharge requirements. As a result, this impact would be less-than-significant.

Effect: The City has adopted the WMP specifically to ensure that sewer capacity will match the level of growth projected by the Urban Area General Plan. Development within the Baseline Developed and the Planned Urbanizing Areas that is consistent with the Urban Area General Plan will not have a significant effect on capacity. Urban Area General Plan Policy III-D.1(d) will ensure that development in the Planned Urbanizing Area will fund the necessary improvements. This is a less-than-significant impact.

Note on the WMP Master EIR. The WMP Master EIR identified a number of impacts and mitigation measures. Its mitigation measures have been adopted by the City and are being implemented by the City under the WMP. Those impacts are being independently addressed under that Master EIR and do not need to be considered under this Initial Study. Refer to the WMP Master EIR for details.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Sewer Service mitigation measure(s) pertinent to the project being analyzed in this Initial Study, are found on pages V-6-4 through V-6-7 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

**c. Project-Specific Effects**

Section V-6.B of the MEIR provides analysis of Sanitary Sewer Service impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project will result in a determination by the wastewater treatment provider who serves or may serve the project that there is not adequate capacity to serve the project's projected demand in addition to the provider's existing commitments.	<input type="checkbox"/>	X

Discussion:

The City of Modesto wastewater infrastructure has adequate capacity to serve the proposed project.

**7. SENSITIVE WILDLIFE AND PLANT HABITAT**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to sensitive wildlife and plant habitat:

Effect: Although many sensitive species live in riparian habitats within the planning area, the policies of the plan will ensure that impacts of the Urban Area General Plan will be less-than-significant.

Effect: Requiring higher residential density than the suburban norm and a compact pattern of growth within the designated planning area to the year 2025 will minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Wildlife and Plant Habitat mitigation measure pertinent to the project being analyzed in this Initial Study are found on pages V-7-19 through V-7-21. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

**c. Project-Specific Effects**

Section V-7.B of the MEIR provides analysis of Wildlife and Plant Habitat impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) Consultation with the California Department of Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on special status species.	<input type="checkbox"/>	X
(3) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	<input type="checkbox"/>	X

Discussion:

The proposed office addition would not have any impact on wildlife nor plant habitat.

**8. ARCHAEOLOGICAL OR HISTORICAL SITES**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to archaeological or historical sites:

Effect: If a site-specific project involves the modification or demolition of a qualifying structure more than 50 years in age, then the impact will be significant.

Effect: Areas of high probability for archaeological resources are located within the riparian corridors along the Tuolumne River, Dry Creek, and the Stanislaus River. There, the potential impact comes from earthmoving activities that could result in disturbance of resources or human remains. There is a low probability that archaeological resources will be uncovered in areas outside of the riparian corridors.

Effect: The City Zoning Ordinance requires that when substantial changes to a structure are proposed, the development will be required to comply with other Zoning Ordinance provisions such as parking or landscaping requirements. This could result in modifications to the structure, which substantially reduce its historical significance. This would be a less-than-significant impact with the imposition of new mitigation measure Cultural-1.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Archaeological or Historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on page V-8-13 and V-8-14 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

**c. Project-Specific Effects**

Section V-8.B of the MEIR provides analysis of Archaeological/Historical impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources, or that is listed by the City of Modesto as a Designated Landmark Preservation Site.	<input type="checkbox"/>	X

Discussion:

The proposed office building expansion would have absolutely no impact whatsoever on archaeological / historical sites.

**9. STORM DRAINAGE**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to storm drainage:

Effect: The potential impacts on storm water drainage that could occur from the project were qualitatively evaluated with respect to several factors including: extent of the projected increase in urban surface area compared to undeveloped ground; magnitude of projected changes to hydrologic and physical site characteristics of the study area compared to existing conditions;

regulatory criteria and guidelines; and professional judgment. Because the Urban Area General Plan includes policies that require new development in all three sections of the planning area to install approved drainage facilities, the potential impacts of the Urban Area General Plan on storm water drainage are considered less-than-significant.

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious areas and associated urban storm water drainage. Cumulative hydrologic impacts of storm water flows from Modesto urban areas and other areas of the County could occur due to the fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel. Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Storm Drainage mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-9-4 through V-9-8. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

**c. Project-Specific Effects**

Section V-9.B of the MEIR provides analysis of Storm Drainage impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

		YES	NO
(1)	The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2)	The project would substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or offsite.	<input type="checkbox"/>	X
(3)	Create or contribute runoff water that would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff.	<input type="checkbox"/>	X

Discussion:

The proposed office building addition would not substantially increase the rate nor amount of surface runoff. Furthermore, the storm water drainage system will accommodate all on-site runoff.

## 10. FLOODING AND WATER QUALITY

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to flooding and water quality:

Effect: Increased runoff can accelerate soil erosion, stream channel scouring, and sedimentation of channels, and also increase pollutant transport to waterways. The potential impacts of the project on flooding are considered less-than-significant because the Urban Area General Plan Update includes policies to restrict development in the floodplain and therefore would avoid exposing persons and property to flood hazards. In addition, new development under the Urban Area General Plan is required to install storm water drainage facilities that restrict the amount of post-development runoff from exceeding pre-development conditions.

Effect: The potential impacts of the project on surface-water quality are considered less-than-significant because the City policies and capital improvement projects for storm water drainage facilities would minimize discharges of urban pollutants to natural waterways. The City drainage program policies require new development to prepare drainage plans and implement urban runoff control measures; larger Specific Plan developments must have storm drainage systems designed to control pollutant runoff. The City's implementation policies for the municipal NPDES storm water permit require new development to implement an appropriate selection of permanent pollution control measures. Permanent erosion control measures such as seeding and planting vegetation for new cut-and-fill slopes, directing runoff through vegetation, or otherwise reducing the offsite discharge of particulates and sediment are the most effective method of controlling offsite discharges of urban pollutants.

Effect: The City's future development will contribute to cumulative water quality effects. EPA regulations for NPDES storm water permits and new proposed regulatory additions to the rules have become much more comprehensive in recent years and are being implemented to reduce pollutant runoff from both large- and small-scale activities. Implementation of NPDES-permitting programs throughout the county will reduce potential water-quality impacts to a less-than-significant level.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

Flooding and Water Quality mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-10-7 through V-10-10 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

### c. Project-Specific Effects

Section V-10.B of the MEIR provides analysis of Flooding and Water Quality impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

		YES	NO
(1)	The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2)	The project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act.	<input type="checkbox"/>	X
(3)	The project does not comply with Modesto's Guidance Manual for New Development Storm water Quality Control Measures.	<input type="checkbox"/>	X
(4)	The project would create or contribute runoff water, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff.	<input type="checkbox"/>	X

Discussion:

The proposed project is subject to all City of Modesto storm water quality control requirements.

**11. PARKS AND OPEN SPACE**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to parks and open space:

Effect: Within the Baseline Developed and Redevelopment Areas, the Urban Area General Plan does not propose any elimination of existing park and/or open space land. Impacts on parks and open space will be less-than-significant.

Effect: The projected population of the Planned Urbanizing Area is 148,600, requiring 149 acres of neighborhood parks and 298 acres of community parks. The required minimum acreages can be met through the application of existing policies and regulations, including Government Code Section 66474, which require developers to pay Parks Capital Facilities Fees to fund the acquisition of appropriate parkland acreage. This impact is less-than-significant.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Parks and Open Space Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-11-4 through V-11-19 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

### c. Project-Specific Effects

Section V-11.B of the MEIR provides analysis of Parks and Recreation impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

YES NO

- (1) The project is inconsistent with the Modesto Urban Area General Plan.  YES  NO

## 12. SCHOOLS

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to schools:

Effect: The estimated increase in population over 1994/1995 would generate an additional 29,200 elementary school students, 7,330 middle school students, and 14,640 high school students above those enrollments. Assuming that existing facilities cannot sufficiently accommodate this increase and that all of the new students would require new school facilities, build out of the General Plan would result in the need for approximately 37 elementary schools, 8 middle schools, and 7 high schools beyond 1994/1995 levels. This would result in a significant impact on schools in that it would exceed current capacity. By statute, this impact is considered to be mitigated below a level of significance by payment of school impact fees and exercise of any or all of the financing options set out in Government Code Section 65997.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. As long as all anticipated subsequent projects apply these policies, no new mitigation is necessary. Further, payment of school impact fees and compliance with SB 50 is statutorily deemed to be full mitigation of school impacts (Government Code Section 65995). The proposed additional school policy will address the situation that would arise should AB 50 be repealed. It will authorize impact fees or other methods to finance additional school facilities.

The following schools mitigation measure(s) are pertinent to the project being analyzed in this Initial Study. See pages V-12-4 through V-12-7 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

**c. Project-Specific Effects**

Section V-12.B of the MEIR provides analysis of Schools impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project does not comply with SB 50/Proposition 1A funding provisions, or succeeding measures, which provide that compliance results in less-than-significant impacts on schools. | <input type="checkbox"/> | X  |

Discussion:

The proposed office expansion would have no impact to schools.

**13. POLICE SERVICES**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to police services:

Effect: The 1995 Master EIR identified two impacts on the demand for police services; however, it concluded that no significant impact, based on the mitigation measures identified in the 1995 Master EIR, would occur. Those mitigation measures are now policies of the Urban Area General Plan. The impact is less-than-significant.

Effect: Within the Planned Urbanizing Area, complying with the Urban Area General Plan policies, particularly the policy that requires a long-range financing strategy for each Comprehensive Plan Area, will allow the City to provide the resources necessary to extend service to the newly growing Planned Urbanizing areas. These policies reduce the impact to a less-than-significant level.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Police Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-13-3 and V-13-4 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

### c. Project-Specific Effects

Section V-13.B of the MEIR provides analysis of police services impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project would result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. | <input type="checkbox"/> | X  |

#### Discussion:

The proposed project would have no effect relative to provision of police services.

## 14. FIRE SERVICES

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to fire services:

Effect: The Baseline Developed Area and Redevelopment Area are already developed. Impacts on fire services of development in these areas will be less-than-significant.

Effect: In the Planned Urbanizing Area, the Urban Area General Plan would result in the need for additional fire protection services due to increases in the number of employees, permanent population, and associated improvements. City policy requires that fire protection be in place concurrent with construction in the Planned Urbanizing Area. This policy will be implemented with the adoption of future Comprehensive Plans in the Planned Urbanizing Area. This impact would be less-than-significant.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Fire Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-14-3 through V-14-5 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project. are listed in Section V, Mitigation Measures Applied to Project.

**c. Project-Specific Effects**

Section V-14.B of the MEIR provides analysis of fire services impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds: The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project would result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives.	<input type="checkbox"/>	X

Discussion:

The proposed project would have no effect relative to provision of fire services.

**15. SOLID WASTE**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to solid waste:

Effect: Since the project would exceed available landfill capacity, it is identified as a significant impact. The Fink Road Landfill may be closed by the time the City reaches build out, unless an expansion is approved by the County and the Integrated Waste Management Board. As the waste stream generated increases with population, additional landfills and methods for diversion would have to be utilized. The project will also generate the need for additional collection and transfer facilities. This impact is significant and unavoidable. The impact would be less-than-significant at such time as the Fink Road Landfill expansion is approved.

Effect: The project makes a considerable contribution to the cumulative impact on landfill capacity of development in Stanislaus County. This impact is significant and unavoidable.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Solid Waste Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-15-5 and V-15-6 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

**c. Project-Specific Effects**

Section V-15.B of the MEIR provides analysis of solid waste impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The County is unable to expand its solid waste disposal capacity and the project would result in waste stream levels that exceed disposal capacity.	<input type="checkbox"/>	X

Discussion:

The proposed project will have not impact relative to solid waste.

**16. HAZARDOUS MATERIALS**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to hazardous materials:

Effect: The impacts of the project relative to hazardous materials are less-than-significant, based on the existing regulatory framework. New development will be required to comply with regulations monitoring and controlling the handling and use of hazardous and toxic materials.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under federal, state and county policies and regulations, and the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Hazardous Materials Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-16-9 through V-16-12 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

**c. Project-Specific Effects**

Section V-16.B of the MEIR provides analysis of hazardous materials impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

		YES	NO
(1)	The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2)	The project does not comply with all applicable federal, state, and county standards and regulations relative to the handling, storage, disposal, and transport of hazardous or toxic materials or wastes.	<input type="checkbox"/>	X
(3)	The project contains a contaminated site not identified as of March 2003.	<input type="checkbox"/>	X
(4)	The project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.	<input type="checkbox"/>	X
(5)	The project would be located on a site that is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment.	<input type="checkbox"/>	X

Discussion:

The proposed project would have no impacts relative to hazardous materials.

**17. LANDSLIDES AND SEISMIC ACTIVITY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to landslides and seismic activity:

Effect: There are areas of known sand and gravel resources within the Baseline Developed Area and Redevelopment Area. Future development will be subject to SMARA requirements, therefore, the project impact will be less-than-significant.

Effect: There are areas of known sand and gravel resources within the Planned Urbanizing Area. Future development will be subject to SMARA requirements, therefore, the project impact will be less-than-significant.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Landslide and Seismic Activity Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-17-6 and V-17-7 MEIR. All feasible measures

appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

### c. Project-Specific Effects

Section V-17.B of the MEIR provides analysis of landslides and seismic impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project would be located on soil that is unstable, or that would become unstable as a result of the project, and potentially result in on or off-site landslide, lateral spreading, subsidence, liquefaction or collapse.	<input type="checkbox"/>	X

#### Discussion:

The proposed office addition would have no potential to increase risks associated with landslides or seismic activity.

## 18. ENERGY

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to energy:

Effect: The Baseline Developed Area and Redevelopment Area are already developed. New development within the Redevelopment Area will comply with Title 24 standards as well as City Urban Area General Plan policies. Impacts on energy by development in these areas (i.e., changes in levels of use above the current baseline) will be less-than-significant.

Effect: Build out under the Urban Area General Plan will utilize an estimated 1,400 million cubic feet per month of natural gas, 1,300 million kilowatt hours (kwh) of electricity per year and 650,000 gallons of gasoline per day. PG&E has indicated that they have at the current time sufficient supplies of natural gas to serve the increased natural gas demands of the project. At present, gasoline supplies are apparently sufficient to serve the gasoline demands of the project. Title 24 of the California Code of Regulation, which ensures that the project will not exceed local, state, and federal energy standards. The impact is less-than-significant.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

The following energy mitigation measure(s) are pertinent to the project being analyzed in this Initial Study. See page V-18-3 MEIR. All feasible measures appropriate to the project will be

incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

**c. Project-Specific Effects**

Section V-18.B of the MEIR provides analysis of energy impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan. | <input type="checkbox"/> | X  |

**19. PLANNING AND LAND USE**

The Master EIR was certified for the Modesto Urban Area General Plan. The significant effects described in the 18 subject areas contained in the Master EIR are based on the planning policies and diagrams adopted as part of the General Plan. Planning and land use were not among the 18 subject areas analyzed in the Master EIR because they essentially defined the project being evaluated in the EIR.

**a. Project-Specific Effects**

Determination of project effects will be based on the following threshold. A project-specific effect is less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.                | <input type="checkbox"/> | X  |
| (2) The project includes a substantive amendment to the Modesto Urban Area General Plan. | <input type="checkbox"/> | X  |
| (3) The project would physically divide an established community                         | <input type="checkbox"/> | X  |

Discussion:

The proposed office addition is consistent with the Modesto Urban Area General Plan, and would not physically divide an established community.

**20. AESTHETICS**

The Master EIR was certified for the Modesto Urban Area General Plan. The significant effects described in the 18 subject areas contained in the Master EIR, are based on the planning

policies and diagrams adopted as part of the General Plan. At that level of detail, no significant effects on aesthetics were identified.

**a. Project-Specific Effects**

Determination of project effects will be based on the following threshold. A project-specific effect is less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project would have a substantial adverse effect on a scenic vista.	<input type="checkbox"/>	X
(3) The project would substantially degrade the existing visual character or quality of the project site and its surroundings.	<input type="checkbox"/>	X
(4) The project would create a new source of substantial light and glare, which would adversely affect day or nighttime views in the area.	<input type="checkbox"/>	X

**V. MITIGATION MEASURES APPLIED TO THE PROJECT**

**A. Master EIR Mitigation Measures Applied to the Project**

Pursuant to CEQA Section 21157.1(c), in order for a Finding of Conformance to be made, all feasible measures from the Master EIR appropriate to the project shall be incorporated into the project. The following adopted General Plan Policies and Master EIR Mitigation Measures (also contained in Section III, "Global List") shall be made part of the project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan:

Traffic and Circulation Measures: N/A

Air Quality Measures:

- A. All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover
- B. All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.

**Noise Measures:**

The City's noise ordinance (Modesto Municipal Code Section 4-9.101) prohibits the "loud and raucous discharge into the open air of the steam of any steam equipment or exhaust from any stationary internal-combustion engine."

The noise ordinance prohibits the loud and raucous operation or use of any of the following before 7:00 a.m. or after 9:00 p.m. daily (except Saturday and Sunday and State or federal holidays, when the prohibited time shall be before 9:00 a.m. and after 9:00 p.m.):

1. A hammer, or any other device or implement used to pound or strike an object.
2. An impact wrench, or other tool or equipment powered by compressed air.
3. A hand-powered saw.
4. Any tool or piece of equipment powered by an internal-combustion engine such as, but not limited to, chain saw, backpack blower, and lawn mower.
5. Any electrically powered (whether by alternating current electricity or by direct current electricity) tool or piece of equipment used for cutting, drilling, or shaping wood, plastic, metal, or other materials or objects, such as, but not limited to, a saw, drill, lathe, or router.
6. Any of the following: heavy equipment (such as but not limited to bulldozer, steam shovel, road grader, back hoe), ground drilling and boring equipment (such as but not limited to derrick or dredge), hydraulic crane and boom equipment, portable power generator or pump, pavement equipment (such as but not limited to pneumatic hammer, pavement breaker, tamper, compacting equipment), pile-driving equipment, vibrating roller, sand blaster, gunite machine, trencher, concrete truck, and hot kettle pump.
7. Any construction, demolition, excavation, erection, alteration, or repair activity. In the case of urgent necessity and in the interest of public health and safety, the Chief Building Official may issue a permit for exemption from these. Such period shall not exceed three (3) working days in length while the emergency continues but may be renewed for successive periods of three (3) days or less while the emergency continues. The Chief Building Official may limit such permit as to time of use and/or permitted action, depending upon the nature of the emergency and the type of action requested.
8. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields.

**Agricultural Land Measures:** N/A

**Water Supply Measures:** N/A

**Sanitary Sewer Service Measures:** N/A

**Sensitive Wildlife and Plant Habitat Measures:** N/A

**Archaeological or Historic Sites Measures:**

If archaeological resources are discovered at any time during construction, all activity shall cease until the site is surveyed by a qualified archaeologist. The survey shall include mitigation measures, which shall be implemented before construction resumes. The survey shall follow the criteria presented in Appendix K of the State CEQA Guidelines.

**Storm Drainage Measures:** N/A

**Flooding and Water Quality Measures:** N/A

**Parks and Open Space Measures:** N/A

**Schools Measures:** N/A

**Police Services:** N/A

**Fire Services:** N/A

**Generation of Solid Waste:** N/A

**Generation of Hazardous Materials:** N/A

**Potential for Landslides and Seismic Activity:** N/A

**Energy:** N/A

**Planning and Land Use:** N/A

**Aesthetics:** N/A

## **B. New or Additional Mitigation Measures or Alternatives Required**

Where the project's effects would exceed the specific thresholds defined for each environmental category, a mitigated negative declaration or Focused EIR must be prepared. Staff has reviewed the project against those thresholds set forth in the Master EIR for all applicable categories in this Initial Study. The following project-specific mitigation measures are necessary to reduce the identified new significant effect: None.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-325**

**A RESOLUTION DENYING THE APPEAL OF ANTHONY LANGFORD TO A  
PLANNING COMMISSION DECISION APPROVING THE PAPILLON PARK  
VESTING TENTATIVE SUBDIVISION MAP**

WHEREAS, Modesto Municipal Code Section 4-4.404 authorizes the Planning Commission to take action on proposed subdivision maps, and

WHEREAS, on February 9, 2004, Marilyn Shroyer submitted an application for a vesting tentative subdivision map entitled Papillon Park, and

WHEREAS, the Planning Commission considered the application at its regularly scheduled meeting on April 19, 2004, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which meeting evidence both oral and documentary was received and considered, and

WHEREAS, the Planning Commission continued the hearing to May 17, 2004, in order to allow the applicant an opportunity to discuss design alternatives with his client, and

WHEREAS, the continued Planning Commission hearing was held on May 17, 2004, in Chambers, Tenth Street Place, 1010 Tenth Street, Modesto, California, at which meeting evidence both oral and documentary was received and considered, and

WHEREAS, the Planning Commission approved the vesting tentative subdivision map entitled Papillon Park, because the proposed subdivision map, together with the provisions for design and improvements, was deemed consistent with the Modesto Urban Area General Plan, the City of Modesto Municipal Code and State of California Subdivision Map Act, and

WHEREAS, an appeal to the Planning Commission's approval of the Papillon Park vesting tentative subdivision map was filed with the Office of the City Clerk by

Anthony Langford, together with other residents of the Havenbrook neighborhood, on May 25, 2004, and

WHEREAS, said appeal was set for a duly noticed public hearing before the City Council at its regular meeting place located in the Tenth Street Place Chambers located at 1010 10<sup>th</sup> Street, Modesto, California, at 5:30 p.m. on June 22, 2004, and

WHEREAS, after said public hearing the Council of the City of Modesto found and determined that the appeal to the decision of the Planning Commission should be denied and the decision of the Planning Commission should be affirmed for the following reason:

The proposed vesting tentative subdivision map entitled Papillon Park, together with the provisions for its design and improvements, is consistent with the Modesto Urban Area General Plan, the City of Modesto Municipal Code, and the State of California Subdivision Map Act.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appeal of Anthony Langford, and the other residents of the Havebrook neighborhood to the decision of the Planning Commission approving the Papillon Park vesting tentative subdivision map is denied and the decision of the Planning Commission is hereby affirmed for the reasons set forth in Planning Commission Resolution No. 2004-27 and quoted above.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of June 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour
NOES:	Councilmembers:	None

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-326**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO CALLING AN ELECTION FOR THE PURPOSE OF SUBMITTING THE LEVY OF THE CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2004-1 (VILLAGE ONE #2) SPECIAL TAXES TO THE QUALIFIED ELECTORS OF THE TERRITORY PROPOSED TO BE ANNEXED TO THE DISTRICT (ANNEXATION NO. 2)**

WHEREAS, this Council did, on May 11, 2004, adopt its Resolution No. 2004-249 (the "Resolution of Intention to Annex") to indicate its intention to annex certain territory to the City's Community Facilities District No. 2004-1 (Village One #2) (the "District") and authorize the levy of the District special taxes within the territory proposed to be annexed (the "Annexed Territory"), pursuant to Chapter 2.5 of Part 1 of Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the "Mello-Roos Community Facilities Act of 1982" (the "Act"), and set a hearing thereon; and

WHEREAS, notice of the hearing was duly published as required by law, as evidenced by the proof of publication on file with the City Clerk; and

WHEREAS, a map of the Annexed Territory, entitled "Annexation Map No. 2 of Community Facilities District No. 2004-1 ("Village One #2) of the City of Modesto, County of Stanislaus, State of California," was recorded on May 21, 2004, in the Office of the County Recorder of the County of Stanislaus, in Book 3 of Maps of Assessment and Community Facilities Districts, at page 91; and

WHEREAS, at the time and date set for the hearing (June 22, 2004) pursuant to the Resolution of Intention to Annex, this Council held the public hearing, as required by the Act, related to the proposed annexation and the levy of the District special taxes within the Annexed Territory, and all other matters set forth in the Resolution of Intention to Annex; and

WHEREAS, at the hearing all persons desiring to be heard on all matters pertaining to the proposed annexation and the levy of the District special taxes within the Annexed Territory, and all other matters set forth in the Resolution of Intention to Annex, including all interested persons for or against the proposed annexation to the District and the levy of the District special taxes within the Annexed Territory were heard and considered, and a full and fair hearing was held thereon; and

WHEREAS, at the hearing evidence was presented to this Council on the matters before it, and this Council, at the conclusion of the hearing, was fully advised as to all matters related to the proposed annexation and the levy of the District special taxes within the Annexed Territory, and all other matters set forth in the Resolution of Intention to Annex; and

WHEREAS, written protests against the proposed annexation and the levy of the District special taxes within the Annexed Territory have not been filed with the City Clerk by fifty percent or more of the registered voters or six registered voters, whichever is more, residing within the District or residing within the District or residing within the Annexed Territory, or the owners of one-half or more of the land in the District, or in the Annexed Territory; and

WHEREAS, the Stanislaus County Registrar of Voters has certified there are less than 12 registered voters residing in the Annexed Territory; accordingly, the qualified electors are the landowners; and

WHEREAS, the City Clerk, being the Council's designated election official for purposes of the election herein called, has concurred in the election date herein set forth for the election;

NOW THEREFORE, BE IT RESOLVED, ORDERED AND FOUND by the City Council of the City of Modesto that:

SECTION 1. The foregoing recitals are true and correct.

SECTION 2. All prior proceedings taken with respect to the annexation of the Annexed Territory to the District, and the levy of the District special taxes within the Annexed Territory were valid and in conformity with the requirements of the Act. This determination shall be final and conclusive upon all persons.

SECTION 3. The proposed annexation of the Annexed Territory to the District and the levy of the District special taxes within the Annexed Territory have not been precluded by majority protest pursuant to Section 53339.5 of the Act.

SECTION 4. As stated in the Resolution of Intention to Annex, it is the intention of this Council, subject to the approval of the qualified electors of the Annexed Territory, to annex the Annexed Territory to the District and levy the District special taxes within the Annexed Territory. Upon such approval the Council will be authorized to levy the District special taxes within the Annexed Territory.

SECTION 5. A special election is hereby called at which the question of levying the District special taxes within the Annexed Territory shall be submitted to the qualified electors of the Annexed Territory. The election shall be held in accordance with and subject to the Act, all of the terms of which shall, unless waived as herein provided, be applicable to such election. The ballot measure shall be substantially in the form attached hereto as **Exhibit A**.

SECTION 6. Fewer than twelve (12) persons have been registered to vote within the Annexed Territory for each of the ninety (90) days preceding the close of the hearing referenced herein. Accordingly, the vote shall be by the landowners of the Annexed Territory, and each such landowner shall have one vote for each acre or portion thereof that he or she owns within the Annexed Territory. The ballots shall be distributed by mail with return postage prepaid, or by personal service, to each landowner, all as provided in Section 53326 of the Act.

Since the City Clerk has received appropriate waivers of time limits and other requirements pertaining to the conduct of the election by each of the owners of land in the Annexed Territory (collectively, the "Landowners"), the election shall be held on the 22<sup>nd</sup> day of June 2004. The election shall be conducted by the City Clerk in the manner required by this resolution, the Act and applicable laws.

The hour on such date when the ballots are required to be received in the office of the City Clerk is noon, Pacific Time. If all qualified electors have voted prior to such time, the election shall be closed.

SECTION 7. In accordance with Section 53327(b) of the Act, analysis and arguments, as required by Section 53327(a) of the Act are hereby waived, as the City Clerk has received the unanimous consent to such waivers from the Landowners.

SECTION 8. The publication of this Resolution as notice of the special election is hereby waived as the City Clerk has received the unanimous consent to such waiver from the landowners.

SECTION 9. The Annexed Territory shall constitute a single election precinct for the purpose of holding the election.

SECTION 10. The City Clerk is hereby authorized to take any and all steps necessary for the holding of the election, and to perform and render all services and proceedings incidental to and in connection with the election.

SECTION 11. The City Clerk shall canvass the returns and certify the results of the election to this Council. If two-thirds or more of the votes cast are in favor of levying the District special taxes in the Annexed Territory, this Council may thereafter, order the annexation of the Annexed Territory to the District and levy the District special taxes in the Annexed Territory in the amount and for the purposes specified in Resolution No. 2004-199 adopted by this Council on April 6, 2004 (the "Resolution of Formation"). The Special Tax will be levied only at the rate and apportioned only in the manner specified in the Resolution of Formation.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of June 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,

RESOLUTION NO. 2004-327**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO  
CANVASSING THE RESULTS OF THE JUNE 22, 2004, ELECTION HELD WITHIN  
THE TERRITORY PROPOSED TO BE ANNEXED TO CITY OF MODESTO  
COMMUNITY FACILITIES DISTRICT NO. 2004-1 (VILLAGE ONE #2), AND  
ORDERING ANNEXATION OF THE TERRITORY TO THE DISTRICT  
(ANNEXATION NO. 2)**

WHEREAS, this Council is conducting proceedings pertaining to the annexation of certain territory to the City's Community Facilities District No. 2004-1 (Village One #2) (the "District") and the levy of the District special taxes (the "District Special Taxes") within such territory, as described in its Resolution No. 2004-249, entitled "A Resolution of the City Council of the City of Modesto of Intention to Annex Territory to Community Facilities District No. 2004-1 (Village One #2) and to Authorize the Levy of Special Taxes therein [Annexation No. 2]" adopted on May 11, 2004, pursuant to Chapter 2.5 of Part 1 of Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the "Mello-Roos Community Facilities Act of 1982" (the "Act"); and

WHEREAS, the owners of all the property within the territory proposed to be annexed to the District waived those provisions related to the timing and conduct of the election referenced in Sections 5, 6, 7 and 8 of this Council's Resolution No. 2004-326, adopted on June 22, 2004, and, as a result, this Council called an election within the territory proposed to be annexed to the District (the "Election") for June 22, 2004, relative to the foregoing; and

WHEREAS, on June 22, 2004, the Election was held; and

WHEREAS, the City Clerk has certified that at the Election the proposition of levying the District Special Taxes within the territory proposed to be annexed to the District was approved by more than two-thirds (2/3) of the votes cast at the Election;

NOW, THEREFORE, BE IT RESOLVED, ORDERED AND FOUND by the City Council of the City of Modesto that:

SECTION 1. The Election was duly and validly conducted in conformity with all applicable laws pertaining thereto. It is hereby determined that the owners of the territory proposed to be annexed is as set forth in the Certificate of City Clerk as to Distribution of Official Ballots, submitted to this Council and on file with the City Clerk.

SECTION 2. The ballot proposition presented to the qualified electors of the territory proposed to be annexed at the Election received at least two-thirds (2/3) of the votes cast at the Election. A copy of the City Clerk's certificate of election results is attached.

SECTION 3. Pursuant to Section 53339.8 of the Act, it is hereby ordered that the territory proposed to be annexed to the District pursuant to Resolution No. 2004-249 be annexed to and be a part of the District with full legal effect, and that the District Special Taxes be levied within the territory so annexed.

SECTION 4. The City Clerk is hereby directed to enter this resolution on the minutes of this City Council, which shall constitute the official declaration of the result of the Election.

SECTION 5. The City Clerk is further authorized and directed to record an amendment to the Notice of Special Tax Lien with the County Recorder of the County of Stanislaus, within 15 days from the date hereof, in accordance with the provisions of Sections 3114.5 and 3117.7 of the California Streets and Highways Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of June 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Hawn, was upon roll call carried and the resolution adopted by the following vote:

RELATING THERETO AND AUTHORIZING AND DIRECTING CERTAIN  
RELATED ACTIONS**

WHEREAS, the City Council of the City of Modesto acting as the legislative body of City of Modesto Community Facilities District No. 2003-1 (Fairview Village) (hereinafter sometimes referred to as the “legislative body of the Community Facilities District” or the “City Council”) has heretofore undertaken proceedings and declared the necessity to issue bonds on behalf of City of Modesto Community Facilities District No. 2003-1 (Fairview Village) (the “Community Facilities District”) pursuant to the terms and provisions of the Mello-Roos Community Facilities Act of 1982, as amended, being Chapter 2.5, Part 1, Division 2, Title 5, of the Government Code of the State of California (the “Act”); and

WHEREAS, based upon a resolution adopted by the legislative body of the Community Facilities District on December 11, 2003 and an election held on December 11, 2003 authorizing the issuance of bonds by the Community Facilities District, the Community Facilities District is now authorized to issue bonds in one or more series, pursuant to the Act, in an aggregate principal amount not to exceed \$25,000,000; and

WHEREAS, the legislative body of the Community Facilities District intends to accomplish the financing of the purchasing, constructing, expanding, improving or rehabilitating certain public improvements and appurtenances and appurtenant work in connection with the foregoing (the "Facilities") and the incidental expenses incurred and to be incurred in connection with financing the facilities, including costs associated with the creation of the Community Facilities District and the issuance of bonds and the establishment of a bond reserve fund (the "Incidental Expenses") through the issuance of bonds designated as the "City of Modesto Community Facilities District No. 2003-1 (Fairview Village) Special Tax Bonds Series 2004" (the "Bonds"); and

WHEREAS, the Community Facilities District has determined all requirements of the Act for the issuance of the Bonds have been satisfied; and

WHEREAS, in connection with the authorization, sale and issuance of the Bonds and the acquisition and construction of the facilities, forms of the following documents have been presented to this City Council for approval:

1. the Trust Indenture, dated as of July 1, 2004, by and between BNY Western Trust Company, as trustee (the "Trustee"), and the Community Facilities District (the "Indenture");
2. the Continuing Disclosure Agreement, dated as of July 1, 2004 by and between BNY Western Trust Company as dissemination agent (the "Dissemination Agent"), and the Community Facilities District (the "Continuing Disclosure Agreement");
3. the Preliminary Official Statement relating to the Bonds (the "Preliminary Official Statement"); and
4. the Bond Purchase Agreement relating to the Bonds (the "Bond Purchase Agreement") by and between the Community Facilities District and UBS Financial Services Inc. (the "Underwriter"); and

WHEREAS, the rate and method of apportionment of special tax heretofore approved for the Community Facilities District (the “Rate and Method of Apportionment”) is unclear with respect to the includability of amounts to pay “Administrative Expenses” in the “Annual Facilities Special Tax Requirement” (as each such term is defined in the Rate and Method of Apportionment), and the City Council wishes to make it clear that such amounts are includable therein;

**NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF MODESTO, ACTING AS THE LEGISLATIVE BODY OF CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2003-1 (FAIRVIEW VILLAGE), DOES HEREBY RESOLVE, DETERMINE, AND ORDER AS FOLLOWS:**

SECTION 1. The above recitals, and each of them, are true and correct.

SECTION 2. The proposed forms of the Indenture and the Continuing Disclosure Agreement are hereby approved; and the District Administrator and the City Clerk are hereby authorized and directed for and in the name and on behalf of the Community Facilities District to execute, acknowledge and deliver to the respective other parties, the Indenture and the Continuing Disclosure Agreement in substantially said forms, with such additions thereto, completions thereof and/or changes therein as the officers executing the same may approve as necessary or desirable (consistent with the provisions of this Resolution and with form of the Bond Purchase Agreement approved pursuant hereto), such approval to be conclusively evidenced by the execution and delivery thereof.

SECTION 3. The issuance of the Bonds pursuant to the Indenture in an aggregate principal amount (not in excess of \$5,000,000) approved by the District Administrator or his or her designee (the "District Administrator") as being necessary and appropriate in order to provide financing for the Facilities and the Incidental Expenses and to fund the various funds and accounts created by the Indenture in the amounts described in the Preliminary Official Statement (or as determined by the District Administrator), is hereby authorized. The Bonds shall mature on the dates and in the amounts, and bear interest at the rates, set forth in the Bond Purchase Agreement to be executed on behalf of the Community Facilities District in accordance with Section 8 hereof. The sum of (i) the aggregate principal amount of the Bonds so authorized plus (ii) the principal amount of all other bonds outstanding that are secured by a special tax levied pursuant to the Act on property within the Community Facilities District or a special assessment levied on such property (as shown in the Preliminary Official Statement under the caption "THE COMMUNITY FACILITIES DISTRICT – Direct and Overlapping Debt") does not exceed one-third of the value of the property within the Community Facilities District that will be subject to the Special Tax, as such value is estimated in an appraisal prepared for the Community Facilities District by Bender Rosenthal, Inc. of Sacramento, California (a copy of which is set forth in Appendix B to the Preliminary Official Statement).

SECTION 4. In connection with the issuance of the Bonds, the District Administrator is hereby authorized and directed for and in the name and on behalf of the Community Facilities District to execute, acknowledge and deliver to the respective other parties such additional agreements, as the officer executing the same may approve

(including, but not limited to an Investment Agreement, as defined in the Indenture) as necessary or desirable to provide reductions in the yields of Bonds or additional debt service relief or cash flow savings or increased payments to the Community Facilities District, such approval to be conclusively evidenced by the execution and delivery thereof.

SECTION 5. The form of the Bonds, as set forth in the form of the Indenture (as the Indenture may be modified pursuant to Section 2 hereof), is hereby approved; and the Mayor and the City Clerk are hereby authorized and directed to execute them by manual or facsimile signature in the name and on behalf of the Community Facilities District.

SECTION 6. The proposed form of the Preliminary Official Statement is hereby approved with such changes thereto as may be approved by the District Administrator in order to make such Preliminary Official Statement final as of its date, except for the omission of certain information, as permitted by Section 240.15c2-12(b)(1) of Title 17 of the Code of Federal Regulations (the "Rule"); and the distribution of the Preliminary Official Statement in connection with the sale of the Bonds, with such changes included, is hereby authorized. The District Administrator is authorized and directed to execute and deliver a certificate relating to compliance with the Rule. The Mayor and the District Administrator are each authorized and directed, jointly and severally, to execute and deliver to the Underwriters a final Official Statement in substantially the form of the Preliminary Official Statement hereby approved with such changes as may be approved by the officer executing said document as necessary or desirable, such approval to be conclusively evidenced by the execution and delivery thereof; and the distribution of such final Official Statement in connection with the sale of the Bonds is hereby authorized.

SECTION 7. In accordance with the provisions of Section 53360.4 of the Act, the City Council hereby finds and determines that a negotiated sale of the Bonds to the Underwriters in accordance with the terms of the Bond Purchase Agreement will result in a lower overall cost to the Community Facilities District than a sale conducted pursuant to Section 53360 of the Act.

SECTION 8. The proposed form of the Bond Purchase Agreement and the sale of the Bonds pursuant thereto are hereby approved, provided that (a) the aggregate purchase price of the Bonds (exclusive of any original issue discount) shall not be less than ninety-eight percent (98%) of the original aggregate principal amount of the Bonds, (b) any original issue discount shall conform to the City's policies with respect thereto, (c) the true interest cost of the Bonds shall not exceed six and three quarters percent (6.75%), (d) the final maturity of the Bonds shall be not later than September 1, 2034 and (e) the maturity dates and purchase price of and interest rates and original issue discount applicable to the Bonds shall have been approved by the District Administrator; and, subject to such approval, the District Administrator is hereby authorized and directed to evidence the Community Facilities District's acceptance of the offer made by said Bond Purchase Agreement by executing and delivering to the Underwriters said Bond Purchase Agreement in said form with such changes therein as the officer executing the same may approve as necessary or desirable, such approval to be conclusively evidenced by the execution and delivery thereof.

SECTION 9. In voting to approve the Rate and Method of Apportionment, the City Council intended that the Rate and Method of Apportionment should provide for the payment of "Administrative Expenses" in the same manner as is provided for the

payment of administrative expenses in the rate and method of apportionment of special tax applicable to City of Modesto Community Facilities District No. 2004-1 (Village One #2). That rate and method of apportionment of special tax permits the proceeds of the annual tax for facilities to be used to pay for administrative expenses. Del Valle Capital Corporation, Inc., the owner of all of the taxable property within the Community Facilities District (the "Owner"), which cast all of the votes at the election that approved the Rate and Method of Apportionment, has advised the City Council that it intended a similar result in voting for the Rate and Method of Apportionment. Moreover, the last paragraph of Section F of the Rate and Method of Apportionment clearly contemplates that the "Annual Facilities Special Tax" may be used to pay for "Administrative Expenses;" and all of the analysis of the financing capacity of the Community Facilities District that were presented to the Owner on behalf of the Community Facilities District included "Administrative Expenses" in the calculation of the maximum "Annual Facilities Special Tax." In order to make it clear that the "Annual Facilities Special Tax" may be used to pay for "Administrative Expenses," the phrase "Annual Facilities Special Tax Requirement" should be interpreted to include amounts necessary to pay "Administrative Expenses," and the City Council hereby adopts that interpretation and authorizes and directs the District Administrator and all other officers, employees and agents of the Community Facilities District to apply and administer the Rate and Method of Apportionment consistently therewith. Terms in this Section that appear in quotation marks shall have the respective meanings ascribed to them in the Rate and Method of Apportionment.

SECTION 10. In the event the Mayor is unavailable to execute and deliver any of the documents that the Mayor is authorized and directed to execute and deliver pursuant to the terms of this Resolution, then any other member of this City Council is hereby authorized and directed to do so. In the event that the District Administrator is unavailable to execute and deliver any of the documents that the District Administrator is authorized to execute and deliver pursuant to the terms of this Resolution, then each of the City Manager and the designee of the District Administrator is hereby authorized and directed to do so.

SECTION 11. The Mayor and the District Administrator and other officers of the City of Modesto are hereby authorized and directed, jointly and severally, to execute and sign any and all approvals, certificates, statements, requests, requisitions and orders of the Community Facilities District in connection with the issuance of the Bonds; and any action specifically authorized or directed by this Resolution to be undertaken by any of such officers may be undertaken by either of the others with the same force and effect as if it had been undertaken by the officer specifically authorized or directed to do so.

SECTION 12. If and to the extent that any provision of this Resolution or of any of the documents approved pursuant hereto is inconsistent with the City's policies and procedures for the formation, annexation and administration of community facilities districts, said policies and procedures are hereby waived.

SECTION 13. If any section, paragraph or provision of this Resolution shall be held to be invalid or unenforceable for any reason, the invalidity or unenforceability of

such section, paragraph or provision shall not affect any remaining provisions of this Resolution.

SECTION 14. This Resolution shall take effect from and after its adoption.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of June 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-331**

**A RESOLUTION RECOGNIZING  
“JULY IS RECREATION AND PARKS MONTH”**

WHEREAS, July is the month nationwide that kicks off the summer season; whether playing sports, visiting our local parks, participating in recreation programs or just spending time outdoors, July is a great time for families and friends to enjoy all of the park and recreation amenities Modesto has to offer, and

WHEREAS, that is why the Modesto City Council has joined forces with the National Recreation and Park Association, the California Park and Recreation Society and cities nationwide to designate July as “Recreation and Parks Month”, and

WHEREAS, the National Recreation and Park Association, the California Park and Recreation Society and City of Modesto are creating community and enhancing neighborhoods through people, parks, programs and facilities, and

WHEREAS, parks and recreation activities and leisure experiences in Modesto provide opportunities for young people to live, grow and develop into contributing members of society, and

WHEREAS, parks and recreation in Modesto creates lifelines and continues life experiences for older members of our community, and

WHEREAS, parks and recreation generate opportunities for residents of Modesto to come together and experience a sense of community through fun recreational pursuits, and

WHEREAS, park and recreation agencies provide outlets for physical activities, socialization and stress-reducing experiences, and

WHEREAS, parks, playgrounds, ball fields, non-motorized trails, open spaces, community and cultural events, and historic sites make a community attractive and a

desirable place to live, work, play and visit and contribute to Modesto's ongoing economic vitality, and

WHEREAS, parks, greenways and open spaces provide a welcome respite from our fast-paced, high-tech lifestyles while protecting and preserving our natural environment, and

WHEREAS, parks and recreation agencies touch the lives of individuals, families, groups and the entire community, which positively impacts upon the social, economic, health and environmental quality of our community,

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto hereby encourages all residents to enjoy Modesto's parks and recreation amenities by participating in their choice of pleasurable activities to experience refreshment from their leisure time.

BE IT FURTHER RESOLVED that the Council of the City of Modesto hereby recognizes July as "Recreation and Parks Month."

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of July, 2004, by Councilmember Jackman who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-333

A RESOLUTION ESTABLISHING ANGLE PARKING IN THE CITY OF  
MODESTO AND RESCINDING RESOLUTION NOS. 2003-500 AND 2004-160

WHEREAS, Article 10 of Chapter 2 of Title 3 of the Modesto Municipal Code 2004-642 authorizes the City Council, by resolution, to establish angle parking in the City of Modesto, and

WHEREAS, the Downtown Redevelopment Committee and representatives from the City, have requested angle parking on the east side of 8th Street between L and Jefferson Streets to supplement the parking supply from downtown Modesto and the City Corporation Yard, and

WHEREAS, City staff has reviewed the geometrics and traffic flow at this location and has concluded that angled parking can be accommodated on the east side as requested without creating a hazard and without impeding traffic flow, and

WHEREAS, the Economic Development Committee considered the additional angle parking on 8th Street at its June 7, 2004, meeting and supported staff's recommendation,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. ANGLE PARKING. Angle parking in the City of Modesto is hereby established at the following locations:

- Portions of 10<sup>th</sup> Street, between I & K Streets (west side) (diagonal)
- 18<sup>th</sup> Street, between G and H Streets (west side) (diagonal)
- F Street, between 10<sup>th</sup> and 11<sup>th</sup> Streets (south side) (diagonal)
- I Street, between 9<sup>th</sup> and 12<sup>th</sup> Streets (both sides) (diagonal)
- P Street, between 9<sup>th</sup> and Needham Streets (both sides) (diagonal)
- Coldwell Avenue, between Tully Road and College Avenue
- 4<sup>th</sup> Street, between E Street and G Street (west side)
- 16<sup>th</sup> Street, between I Street and J Street (east side)

- Elm Street, between Jefferson and Washington Streets (diagonal)
- Jefferson Street, between 8<sup>th</sup> and Laurel Streets (diagonal)
- 13<sup>th</sup> Street, between H and L Streets (east side)
- J Street, between 7<sup>th</sup> Street and 8<sup>th</sup> Street (north side)
- 10<sup>th</sup> Street, between G Street and F Street (east side) (diagonal)
- F Street, between 10<sup>th</sup> Street and 11<sup>th</sup> Street (north side) (diagonal)
- 15<sup>th</sup> Street, between K Street and H Street (east side) (diagonal)
- F Street, between 9<sup>th</sup> Street and 10<sup>th</sup> Street (north side) (diagonal)
- 8<sup>th</sup> Street, between J Street and K Street (east side) (diagonal)
- 8<sup>th</sup> Street, between K Street and L Street (east side) (diagonal)
- Sierra Drive between F Street and 4<sup>th</sup> Street (north side)
- 8<sup>th</sup> Street between L Street and Jefferson Street (east side) (diagonal)

SECTION 2. The Engineering and Transportation Director is hereby directed to implement the provisions of this resolution.

SECTION 3. Resolution Nos. 2003-500 and 2004-160 are hereby rescinded.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of July, 2004, by Councilmember Jackman who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-334**

**A RESOLUTION ACCEPTING IMPROVEMENTS IN FERNWOOD PHASE 2  
SUBDIVISION, IN THE VILLAGE ONE SPECIFIC PLAN AREA, AUTHORIZING  
THE CITY CLERK TO RECORD A NOTICE OF COMPLETION AND  
AUTHORIZING RELEASE OF BONDS**

WHEREAS, FERNWOOD PROPERTIES LLC, a California Limited Liability Company, but its Manager Member, BENNETT DEVELOPMENT, INC., a California Corporation, is the subdivider of the Fernwood Phase 2 Subdivision, and

WHEREAS, FERNWOOD PROPERTIES LLC, a California Limited Liability Company, but its Manager Member, BENNETT DEVELOPMENT, INC., a California Corporation, has filed irrevocable subdivision bonds to secure faithful performance and payment for labor and materials in the amounts of \$1,001,600.00 and \$500,800.00, respectively, and

WHEREAS, FERNWOOD PROPERTIES LLC, a California Limited Liability Company, but its Manager Member, BENNETT DEVELOPMENT, INC., a California Corporation, has filed a warranty bond in the amount of \$100,160.00 to guarantee improvements in the Fernwood Phase 2 Subdivision, and

WHEREAS, the Engineering & Transportation Director, in a memorandum to Council, indicates that all work required by the Subdivision Agreement has been completed to the satisfaction of the Engineering & Transportation Department, and

WHEREAS, the Engineering & Transportation Director has indicated that it would be in order for the City Council to accept the improvements in said subdivision as complete, and authorize the City Clerk to file a Notice of Completion and release the bonds upon expiration of the statutory periods,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto

that:

1. The improvements in the Fernwood Phase 2 Subdivision are hereby accepted and the City Clerk is hereby authorized to file a Notice of Completion for the improvements.
2. The City Clerk is hereby authorized to release the subdivision bond for faithful performance in the amount of \$1,001,600.00 upon recordation of the Notice of Completion.
3. The City Clerk is hereby authorized to release the subdivision bond for labor and materials in the amount of \$500,800.00 sixty (60) days after the recordation of the Notice of Completion, provided no claim is made thereon.
4. The City Clerk is hereby authorized to release the warranty bond to guarantee improvements in the amount of \$100,160.00 one year and one day after the effective date of this resolution, provided no claim is made thereon.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of July, 2004, by Councilmember Jackman who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-338**

**A RESOLUTION GRANTING APPROVAL FOR THE FLOYD/LINCOLN OAK INTERSECTION CONTROL TO BE CHANGED FROM A ROUNDABOUT TO A TRAFFIC SIGNAL. FUNDS ARE BUDGETED IN ACCOUNT NO. 1410-160-M194, "GROWTH RELATED NEW TRAFFIC SIGNALS."**

WHEREAS, on July 1, 2003, the City Council approved a roundabout as the traffic control device for the Floyd/Lincoln Oak intersection, and

WHEREAS, the City's consultant, Alternate Street Design, has found that a multi-lane roundabout will need to be configured for said intersection such that it will significantly encroach upon property to the north in order to fit within existing confines of the already developed south side of Floyd Avenue, and

WHEREAS, use of a roundabout would necessitate a larger property take on the north side of Floyd Avenue as well as create access issues for the residents on the south side, while creating additional unusable pavement on the south side, and

WHEREAS, Floyd Avenue has been designated a minor collector street, four lanes wide, in the General Plan, Village One Specific and Village One Precise Plans, so a multi-lane roundabout would be required, and

WHEREAS, the capacity analysis also suggests that a traffic signal would not significantly impact traffic flow on Floyd Avenue and would yield a Level of Service B at this location, and that a single lane roundabout would fit at this intersection, but would require redesignating Floyd Avenue as a two-lane rather than a four-lane street, and

WHEREAS, a signalized intersection is equivalent in cost to a roundabout and funds are budgeted in Account No. 1410-160-M194, "Growth Related New Traffic Signals," and

WHEREAS, the Economic Development Committee at its June 7, 2004, meeting reviewed this item and concurs with staff's recommendation that the Floyd/Lincoln Oak intersection control be changed from a roundabout to a traffic signal,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby grants approval for the Floyd/Lincoln Oak intersection control to be changed from a roundabout to a traffic signal.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of July 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-340**

**A RESOLUTION APPROVING A THIRD AMENDMENT TO AGREEMENT  
WITH RRM DESIGN GROUP TO PROVIDE ADDITIONAL SERVICES  
RELATED TO THE PREPARATION OF THE CONSTRUCTION DOCUMENTS  
FOR MADDUX YOUTH CENTER IMPROVEMENTS AT A COST NOT TO  
EXCEED \$17,720 AND AUTHORIZING THE CITY MANAGER TO EXECUTE  
THE AMENDMENT TO AGREEMENT.**

WHEREAS, the City of Modesto owns the Maddux Youth Center located at 619 Sierra Drive in César Chávez Park, and

WHEREAS, on August 14, 2001, by Resolution No. 2001-425, the City Council approved an agreement with RRM Design Group (“RRM”) to provide a Schematic Design Report and Construction Documents for the Maddux Youth Center for a total contract amount of \$58,200, and

WHEREAS, on February 26, 2002, by Resolution No. 2002-87, the City Council authorized an amendment to the agreement to expand the project scope from a 2,000 square foot addition to 6,000 square feet to include a Police Activities League (PAL) boxing arena, a multi-purpose room, a computer classroom, restroom and entry lobby, at a total contract amount of \$112,626, and

Whereas, on September 23, 2003, by Resolution No. 2003-154, the City Council approved a second amended contract with RRM Design Group, Inc., to provide additional services related to the preparation of the construction documents for the Maddux Youth Center at a cost not to exceed \$40,374 plus a \$2,000 contingency, bringing the total cost for architectural services to a not to exceed figure of \$155,000, and

WHEREAS, at the request of City staff, the scope of work of this project has increased to include a City-initiated change in structural engineer of record for the design and construction administration of the Maddux Youth Center at the additional not-to-

exceed cost of \$16,720, plus associated reimbursable expenses of not-to-exceed \$1,000,  
and

WHEREAS, the Third Amendment provides for a total contract cost of \$172,720,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves a Third Amendment to Agreement with RRM Design Group to include a City-initiated change in structural engineer of record for the design and construction administration of the Maddux Youth Center at the additional not-to-exceed cost of \$16,720, plus associated reimbursable expenses of not-to-exceed \$1,000.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Third Amendment to Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of July, 2004, by Councilmember Dunbar, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-341**

**A RESOLUTION AUTHORIZING SEVERANCE PAY, HEALTH BENEFITS AND  
INTERVIEW LEAVE FOR EMPLOYEES SUBJECT TO AN AUTHORIZED  
REDUCTION IN FORCE**

WHEREAS, the City of Modesto is facing a budget crisis which may result in employee layoffs, and

WHEREAS, current Personnel Rules and Memoranda of Understanding provide that employees who are laid off receive only those benefits to which any departing employee would be entitled, and

WHEREAS, City staff is recommending to the Council that laid off employees should receive Severance Pay equivalent to a minimum of four (4) weeks of the employee's salary and City health contribution upon the effective date of the layoff and thereby provide a limited cash payment to assist the laid off employee who is faced with loss of job and income, and

WHEREAS, City staff is also recommending that employees who are notified of pending lay off should receive Interview Leave which would provide paid leave time for employees to seek other employment prior to their date of layoff, and

WHEREAS, City staff is recommending that where an employee volunteers to be laid off and is in the classification or the approved bumping chain of a position authorized for layoff, the City manager may authorize said employee to be laid off, with all rights to receive severance benefits, and

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. Eligibility for Benefits: City employees who are laid off due to an authorized reduction in force shall be eligible to receive severance benefits subject to the terms and conditions as set forth below. All severance benefit entitlements shall be in addition to any other benefits to which the employee would otherwise be entitled pursuant to the City's Personnel Rules or appropriate Memorandum of Understanding. The City Manager is authorized to postpone an employee's date of layoff or demotion for up to ninety (90) days, at his discretion, if deemed necessary to meet the needs of the City.

SECTION 2. Eligibility for One Hundred and Sixty (160) Work Hours of Severance Pay: All non-sworn employees in regular positions in the classified service who are laid off due to a reduction in force shall be entitled to receive upon separation from service, severance pay equivalent to One Hundred Sixty (160) work hours. Severance pay shall be calculated based upon the employee's regular base pay, excluding acting pay, assignment pay, shift differential, or other special pays.

SECTION 3. Eligibility for Additional Severance Pay: All non-sworn employees in regular positions in the classified service who are laid off due to a reduction in force and who have six (6) or more complete years of continuous service are eligible for additional severance pay as follows:

A. Severance pay equivalent to forty (40) work hours of salary for each completed year of service in excess of five (5) completed years of service, up to a maximum of one hundred and sixty (160) work hours. Additional severance pay shall be calculated based upon the employee's regular base pay, excluding acting pay, assignment pay, shift differential, or other special pays.

SECTION 4. Severance Pay Options: At the time of separation, an employee may elect to receive severance pay in a lump sum payment or in the form of a contribution to the employee's deferred compensation plan or a combination thereof subject to all appropriate IRS regulations and limitations.

SECTION 5. Eligibility for Health Contribution: Employees who receive severance pay shall also be eligible to receive the City's contribution to health, dental and vision premiums for a period of four (4) to eight (8) weeks following layoff. The amount of this contribution shall be the same as that provided to active employees, except that the amount shall not include the equivalent of any in-lieu deferred compensation. The duration of the premium contributions shall be for the same number of weeks as the severance pay provision (4-8 weeks depending on years of service). The contribution shall be paid directly to the insurance carriers.

SECTION 6. Eligibility for Interview Leave: All non-sworn employees in regular positions in the classified service who are provided notice by his/her Department Director that the employee may be laid off due to a reduction in force shall be entitled, prior to separation, to a maximum of fifteen (15) work hours of paid leave time for purposes of participating in employment interviews or examinations with any other employer.

Authorized interview leave shall be subject to prior written approval of the employee's supervisor and with consideration for the needs of the City. Written verification of scheduled interviews or examinations may be required by the employee's supervisor. Interview leave in excess of fifteen (15) work hours may be granted with the prior written approval of the employee's Department Director. Interview leave shall not be subject to cashout or conversion to any other benefit.

SECTION 7. Voluntary Layoff: The City Manager may authorize any non-sworn employee in a regular position in the classified service who volunteers to be laid off, and is in the classification or the approved bumping chain of a position authorized for layoff, to be laid off, with all rights to receive severance pay, health contributions and interview leave as provided herein.

SECTION 8. Term: Severance benefits, as set forth in this Resolution shall terminate effective June 30, 2005, unless extended by resolution of the Modesto City Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of July, 2004, by Councilmember Jackman who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 342**

**A RESOLUTION APPROVING THE CONTRACT WITH EDAW, INC. FOR THE PROJECT TITLED "UPDATE TO THE REDEVELOPMENT AGENCY MASTER PLAN AND ENVIRONMENTAL IMPACT REPORT", AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE CONTRACT FOR SAID PROJECT**

WHEREAS, in November 1991, the Redevelopment Agency of the City of Modesto ("Agency") adopted the Amended Project Area and the Redevelopment Plan for a Project Area of approximately 2000 acres encompassing the downtown, a portion of the West side, as well as a smaller portion along Scenic Drive, and

WHEREAS, as a part of this Project Area adoption, an Environmental Impact Report ("EIR") was approved in accordance with California State law, and

WHEREAS, subsequent to said actions, in 1994, a Redevelopment Master Plan ("RDA Master Plan"), which is attached hereto and made a part hereof by this reference, was adopted to implement the goals and objectives of the Redevelopment Plan, and

WHEREAS, the purpose of said RDA Master Plan is to provide a policy guideline document to identify specific types of land uses that the City should encourage and promote within the Redevelopment Project Area, and

WHEREAS, as a continuation of the overall downtown renovation, the Agency has determined that both the RDA EIR and RDA Master Plan should be updated in order to reflect the current developments and to set forth future development goals for the RDA Project Area (the "Project Update"), and

WHEREAS, to complete said Project Update, the firm of EDAW, Inc. has been selected from the approved Qualifications-based list of outside service providers for planning and environmental services and a Project scope and budget has been agreed upon in the amount of

\$482,619, and

WHEREAS, said Project Scope also includes the preparation of a Safety Campus Concept Master Plan for which the City of Modesto will be providing funds in the amount of \$77,254, with the remaining Project Update cost of \$405,365 being at the expense of the Redevelopment Agency as follows:

FY 2004-05 budget in the amount of \$482,619 in the following accounts:

<b><u>Redevelopment Agency:</u></b>		<b><u>\$405,365</u></b>
9080-140-1493-0235 - RDA Master Plan:	\$285,365	
9080-140-K871-6010 - CIP - Update RDA EIR:	\$120,000	
<b><u>Fire:</u></b>		
1300-180-N412-6040	Fire Station #1- Seismic Imprv	<u>\$ 77,254</u>
		\$482,619

, and

WHEREAS, the following City Council Committees have received a staff report on said Project Update on the following dates and have recommended said Project Update to the full Council for approval:

1. Safety and Communities Committee – March 1, 2004
2. Economic Development Committee – March 8, 2004
3. Finance Committee – March 22, 2004
4. Finance Committee – May 26, 2004

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a professional services contract with EDAW, Inc. in the amount of \$77,254 for completion of said Safety Campus Concept Master Plan in conjunction with the Modesto

Redevelopment Agency's Project Update pursuant to the agreed-upon Project scope and budget as stated above.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized and directed to execute said contract for the completion of the Safety Campus Concept Master Plan in conjunction with the Modesto Redevelopment Agency's Project Update.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of July, 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-343**

**A RESOLUTION APPROVING THE REORGANIZATION OF THE PARKS,  
RECREATION AND NEIGHBORHOODS DEPARTMENT, THE OPERATIONS  
AND MAINTENANCE DEPARTMENT AND THE ENGINEERING AND  
TRANSPORTATION DEPARTMENT.**

WHEREAS, as part of the proposed Fiscal Year 2004-05 budget reductions, the City Manager has proposed consolidation of three operating departments (Parks, Recreation and Neighborhoods, Operations and Maintenance, and Engineering and Transportation) into two (Parks, Recreation and Neighborhoods, and Public Works), and

WHEREAS, the proposed Parks, Recreation and Neighborhoods Department will have six divisions; the current four (Administration, Recreation and Neighborhood Services, Park Planning and Development Services and Cultural and Enterprise Services), and the two new divisions of Park Services and Building and Parking Services being moved from the Operations and Maintenance Department, and

WHEREAS, the new Public Works Department will have nine Divisions (Administration, Transit, Airport, Solid Waste, Water/Forestry/Fleet, Wastewater Collections/Treatment, Transportation/Development Services, Capital Planning/Projects and Tenth Street Place), and

WHEREAS, in order to provide for appropriate staffing and allocation of resources, several specific steps are necessary, which include:

1. Approval of the structure of the Parks, Recreation and Neighborhoods Department and the Public Works Department.
2. Approval of the transfer of an Administrative Analyst II position from Public Works to the Parks, Recreation and Neighborhoods Department.
3. Approval of the reallocation of an existing Management Analyst position in the Administration division of the Parks, Recreation and Neighborhoods Department to an Administrative Services Officer classification.

4. Approval of the reallocation of a new Housing Program Supervisor in the Parks, Recreation and Neighborhoods Department to a HUD Programs Superintendent.
5. Approval of increasing the range for compensation of the Parks, Recreation and Neighborhoods Director and the Public Works Director.
6. Approval of the reallocation of an Office Supervisor position in the Public Works Department to Executive Secretary.
7. Approval of the elimination of one Senior Administrative Office Assistant position in the Public Works Department, already reflected in the Proposed Budget.
8. Establishment of the assignment of City Engineer in the Public Works Department.
9. Direction to staff to prepare changes to the Modesto Municipal Code, which will reflect the reorganization changes approved by the City Council.

and

WHEREAS, the City Council will be asked to consider separately Items 5 and 8 above, and

WHEREAS, the Finance Committee met on June 21, 2004, and supported the recommended reorganization plan,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the structure of the Parks, Recreation and Neighborhoods Department and the Public Works Department.

BE IT FURTHER RESOLVED that the Council approves the transfer of an Administrative Analyst II position from Public Works to the Parks, Recreation and Neighborhoods Department.

BE IT FURTHER RESOLVED that the Council approves the reallocation of an existing Management Analyst position in the Administration division of the Parks, Recreation and Neighborhoods Department to an Administrative Services Officer classification.

BE IT FURTHER RESOLVED that the Council approves the reallocation of a new Housing Program Supervisor in the Parks, Recreation and Neighborhoods Department to a HUD Programs Superintendent.

BE IT FURTHER RESOLVED that the Council approves the reallocation of an Office Supervisor position in the Public Works Department to Executive Secretary.

BE IT FURTHER RESOLVED that the Council approves the elimination of one Senior Administrative Office Assistant position in the Public Works Department, already reflected in the Proposed Budget.

BE IT FURTHER RESOLVED that the Council hereby directs staff to prepare changes to the Modesto Municipal Code, which will reflect the reorganization changes approved by the City Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of July, 2004, by Councilmember Jackman who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-344**

**A RESOLUTION REVISING THE POSITION CLASSIFICATION PLAN FOR  
THE CITY OF MODESTO.**

WHEREAS, a Position Classification Plan for the City of Modesto was adopted by Modesto City Council Resolution 88-338 pursuant to Rule 2 of the Personnel Rules and Regulations of the City of Modesto, and

WHEREAS, the City Manager has recommended to the Council amendments to the Position Classification Plan, and

WHEREAS, Rule 2.2 of the City of Modesto Personnel Rules provides that revisions to the Classification Plan shall be effective upon adoption of resolution of the City Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION I. CLASSIFICATION CREATED. The Position Classification Plan of the City of Modesto is hereby amended to create the following classification:

Public Works Director

The job specification for this classification is being created as a result of the reorganization of the Parks, Recreation and Neighborhoods, Operations and Maintenance and Engineering and Transportation Departments. The specification for the classification of Public Works Director Range 1422), assigned to Executive Management, as shown on the attached **Exhibit "A"**, which is hereby made a part of this resolution by reference, is

hereby approved and made part of the Position Classification Plan of the City of Modesto.

SECTION 2. CLASSIFICATION AMENDED. The Position Classification Plan of the City of Modesto is hereby amended to revise the following classification:

Parks, Recreation and Neighborhoods Director

The job specification for this Executive Management classification is being amended to reflect the changes in responsibilities as a result of the reorganization of the Parks, Recreation and Neighborhoods Department and Operations and Maintenance Department. The specification for the classification of Parks, Recreation and Neighborhoods Director, as shown on the attached **Exhibit "B"**, which is hereby made a part of this resolution by reference, is hereby approved and made a part of the Position Classification Plan of the City of Modesto.

SECTION 3. CLASSIFICATIONS DELETED. The Position Classification Plan of the City of Modesto is hereby amended to delete the following classifications.

Engineering and Transportation Director

Operations and Maintenance Director

SECTION 4. EFFECTIVE DATE. This resolution shall become effective on and after July 13, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of July, 2004, by Councilmember Jackman who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

NO. 1780

July 2004

## PUBLIC WORKS DIRECTOR

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

### DEFINITION

To plan, direct and review the functions of the Public Works Department including but not limited to: fleet, streets, water, waste water collection and treatment, stormwater, solid waste, airport forestry, electrical service, engineering, capital projects and utility planning, traffic and transit divisions; to coordinate assigned activities with other City departments and outside agencies; and to provide highly responsible and complex administrative support to the City Manager.

### SUPERVISION RECEIVED AND EXERCISED

Receives administrative direction from the City Manager.

Exercises direct supervision over professional, technical, maintenance and clerical administrative support staff.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS - Essential and other important responsibilities and duties may include, but are not limited to the following:

#### Essential Functions:

Develop, plan, and implement Department goals and objectives; recommend and administer policies and procedures.

Direct, oversee and participate in the development of the Department's annual work plan as approved by the City Manager; assign work activities, projects and programs; monitor work flow; review and evaluate work products, methods and procedures.

Plan, organize, direct and evaluate all operations relating to streets, water, solid waste, and sewer including the design, operation, construction, maintenance and repair of utility facilities.

Essential Functions: (Continued)

Plan, organize, direct, evaluate and schedule the construction, maintenance and operation of City-owned electrical facilities including street lights and electrical systems associated with City buildings.

Plan, organize, direct, evaluate forestry related activities including the planting, maintenance and preservation of street and park trees.

Prepare and implement long-range planning for public works systems and improvements; prepare public works conditions to be placed on new and redeveloped parcels.

Direct the installation of all public improvements in subdivisions and developments.

Direct the development, implementation and administration of the City's capital improvement program as it relates to City-owned utilities and electrical facilities.

Direct the City's parking, traffic, transit, airport, and solid waste activities.

Confer with and advise supervisory assistants and outside consultants on problems related to the operation, construction and maintenance of City utility and electrical facilities.

Supervise and participate in the development and administration of the department budget; direct the forecast of additional funds needed for staffing, equipment, materials and supplies; monitor and approve expenditures; implement mid-year adjustments.

Prepare resolutions, ordinances, reports and correspondence.

Review plans, engineering reports and budget estimates prepared by subordinates, outside consultants and other City departments.

Perform utility rate structure analysis and make recommendations on utility rates.

Evaluate and recommend professional engineering consultants and contracts.

Represent the City before citizens, elected officials and community groups on a variety of matters; participate on a variety of boards and commissions; attend and participate in professional groups and committees.

Coordinate Department activities with those of other departments and outside agencies and organizations; provide staff assistance to the City Manager and City Council; prepare and present staff reports and other necessary correspondence.

Essential Functions: (Continued)

Select, train, motivate and evaluate personnel; provide a high level of leadership; provide or coordinate staff training; work with employees to correct deficiencies; implement discipline and termination procedures.

Marginal Functions:

Perform related duties as assigned.

Respond to and resolve difficult and sensitive citizen inquiries and complaints.

QUALIFICATIONS

Knowledge of:

Methods, materials, techniques and equipment used in the construction, operation and maintenance of fleet, water, sewer, streets, forestry, telecommunications and electrical systems, solid waste systems and waste-to-energy facilities.

Applicable laws and regulatory codes related to utility and solid waste operations.

Principles and practices of civil engineering administration and parking and traffic program development and administration.

Organizational and management practices as applied to the analysis and evaluation of programs, policies and operational needs.

Recent developments, current literature and sources of information regarding water, sewer, solid waste and waste-to-energy facility engineering and operation.

Principles and practices of budget preparation and administration.

Principles and practices of organization, administration and personnel management.

Principles of supervision, training and performance evaluation.

Pertinent Federal, State, and local laws, codes and regulations.

Ability to:

Organize, direct and coordinate the activities of the Department in a manner conducive to full performance and high morale.

Analyze problems, identify alternative solutions, project consequences of proposed actions and implement recommendations in support of goals.

Prepare and administer a budget.

Analyze organization system issues and select proper courses of action.

Interpret and apply City policies, procedures, rules and regulations.

Communicate clearly and concisely, both orally and in writing.

Select, lead, supervise, train and evaluate professional and technical subordinates.

Represent the City's interests before boards and commissions of local agencies and special water and sewer districts as directed by the City Manager.

Identify and respond to public and City Council issues and concerns.

Build consensus and develop a team approach; gain cooperation through discussion and persuasion.

Maintain physical condition appropriate to the performance of assigned duties and responsibilities.

Experience and Training

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

Eight years of increasingly responsible public works type experience including five years of administrative and supervisory responsibility.

Training:

Equivalent to a Bachelor's degree from an accredited college or university with major course work in civil engineering, public or business administration, or a related field.

License or Certificate

Possession of, or ability to obtain, an appropriate, valid California driver's license.

Possession of a Certificate of Registration as a professional civil engineer in the State of California is highly desirable.

WORKING CONDITIONS

Environmental Conditions:

Office and field environment; exposure to computers.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for sitting for prolonged periods of time and traveling to and from job sites in a vehicle.

## PARKS, RECREATION AND NEIGHBORHOODS DIRECTOR

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

### DEFINITION

To plan, direct and review the activities and operations of the Parks, Recreation and Neighborhoods Department, including the construction, maintenance, and acquisition of all parks and related facilities, leisure and community services programming and activities, human services program administration, and community and neighborhood outreach and improvement; to coordinate assigned activities with other City departments and outside agencies; and to provide highly responsible and complex administrative support to the City Manager.

### SUPERVISION RECEIVED AND EXERCISED

Receives administrative direction from the Deputy City Manager and City Manager.

Exercises direct supervision over professional, technical, maintenance and clerical staff.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS - Essential and other important responsibilities and duties may include, but are not limited to, the following:

#### Essential Functions:

Develop, plan, and implement division goals and objectives; recommend and administer policies and procedures.

Direct, oversee and participate in the development of the department's annual work plan; assign work activities, projects and programs; monitor workflow; review and evaluate work products, methods and procedures.

Plan, organize, direct, evaluate, and schedule the work and programs of the department divisions, programs and the administrative office staff.

Plan and direct the development of community and neighborhood improvement initiatives and programs.

Administer Housing and Urban Development programs and services.

Essential Functions (continued):

Plan, direct, and/or facilitate leisure services programs and activities, parks operations, building services, city-owned parking facilities, golf operations, and community-wide programs or activities.

Negotiate and resolve significant and controversial neighborhood and community issues.

Prepare and submit reports and recommendations and provide technical advice to the City Manager, City Council, and related boards and commissions.

Coordinate department activities with those of other departments and outside agencies and organizations; provide staff assistance to the City Manager and City Council; prepare and present staff reports and other necessary correspondence.

Develop and implement citizen based problem-solving models.

Respond to and resolve difficult and sensitive citizen inquiries and complaints.

Participate on a variety of boards and commissions; attend and participate in professional groups and committees.

Prepare long-range plans to meet community needs based on studies of local conditions and projections of the future composition of the community; recommend additional, altered or expanded public parks and recreation facilities.

Supervise and participate in the development and administration of the department budget; direct the forecast of additional funds needed for staffing, equipment, materials and supplies; monitor and approve expenditures; implement mid-year adjustments.

Select, train, motivate and evaluate personnel; provide or coordinate staff training; work with employees to correct deficiencies; implement discipline and termination procedures.

Coordinate and direct fund-raising activities.

Direct the establishment and maintenance of files and records of departmental activities.

Marginal Functions:

Perform related duties as assigned.

QUALIFICATIONS

Knowledge of:

Principles, practices and methods used in community and leisure services administration and management, and program and facility acquisitions and maintenance.

Modern and highly complex principles and practices of housing and community development programs, redevelopment and financing programs.

Recreational, cultural, human, and social needs of all age, ethnic and economic groups.

Organizational and management practices as applied to the analysis and evaluation of programs, policies and operational needs.

Record keeping and reporting procedures.

Principles and practices of budget preparation and administration.

Principles of supervision, training and performance evaluation.

Group problem-solving techniques and partnerships with individuals and community groups.

Pertinent Federal, State, and local laws, codes and regulations.

Principles and practices of organization, administration and personnel management.

Grants and administration of funds obtained from external agencies.

Ability to:

Organize, direct and coordinate the activities of the department in a manner conducive to full performance and high morale.

Understand and implement the community, social and leisure services needs of the community and recommend additional areas, facilities and programs to meet those needs.

Ability to (continued):

Formulate substantive recommendations for community development and financing programs.

Prepare and present complex reports.

Work through complex community and neighborhood issues.

Analyze problems, identify alternative solutions, project consequences of proposed actions and implement recommendations in support of goals.

Identify and respond to public and City Council issues and concerns.

Interpret and apply Federal, State and local policies, procedures, laws and regulations.

Maintain liaison with various private and public agencies and deal successfully with the public and other interested groups.

Prepare and administer a budget.

Select, lead, supervise, train and evaluate assigned staff.

Communicate clearly and concisely, both orally and in writing.

Establish and maintain cooperative working relationships with those contacted in the course of work.

Build consensus and develop a team approach; gain cooperation through discussion and persuasion.

Experience and Training Guidelines:

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

Eight years of increasingly responsible supervisory or administrative experience in community, leisure or human service programs.

Training:

A Bachelor's degree from an accredited college or university with major course work in public administration, recreation, or a related field.

License or Certificate:

Possession of, or ability to obtain, an appropriate valid California driver's license.

WORKING CONDITIONS

Environmental Conditions:

Office environment.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for sitting for prolonged periods of time.

MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-345

**A RESOLUTION AMENDING EXHIBIT "N" OF RESOLUTION 2003-330, ENTITLED "A RESOLUTION GRANTING SALARY AND BENEFIT CHANGES TO UNREPRESENTED MANAGEMENT AND CONFIDENTIAL EMPLOYEES, INCLUDING CHARTER OFFICERS AND EXECUTIVES, EFFECTIVE JULY 1, 2003 AND RESCINDING RESOLUTION NOS. 2002-307 AND 2003-81A AND AMENDING EXHIBIT A OF RESOLUTION NO. 2003-331 EFFECTIVE JUNE 20, 2003," TO CHANGE THE SALARY RANGE FOR PARKS, RECREATION AND NEIGHBORHOODS DIRECTOR FROM RANGE 1420 TO RANGE 1422 AND TO ESTABLISH A SALARY RANGE FOR PUBLIC WORKS DIRECTOR AT RANGE 1422, EFFECTIVE JULY 6, 2004.**

WHEREAS, Resolution No. 2003-330 granted salary and benefit changes to Unrepresented Management and Confidential Employees including Charter Officers and Executives, effective July 1, 2003, and

WHEREAS, the City Council desires to increase the Salary Range for Parks, Recreation and Neighborhoods Director from Range 1420 to Range 1422, and

WHEREAS, the City Council desires to establish the Salary Range for Public Works Director at Range 1422,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. AMENDMENT OF RESOLUTION NO. 2003-330.

Exhibit "N" entitled "City of Modesto Class Range Table, Executive Management Effective July 1, 2003," attached to Resolution No. 2003-330, is hereby amended as shown on the amended **Exhibit "N"** entitled, "City of Modesto Class Range Table Executive Management Effective July 13, 2004," which is attached hereto and made a part hereof as though set forth in full herein. Said amended Exhibit "N" changes the Salary Range for Parks, Recreation and Neighborhoods Director from Range 1420 to Range 1422 and establishes the Salary Range for Public Works Director at Range 1422.

SECTION 2. EFFECTIVE DATE. This resolution shall become effective on and after July 13, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of July, 2004, by Councilmember Jackman who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-346**

**A RESOLUTION CREATING A SPECIAL ASSIGNMENT DESIGNATION OF  
CITY ENGINEER AND ESTABLISHING A 5% PAY DIFFERENTIAL FOR THE  
INDIVIDUAL ASSIGNED THIS RESPONSIBILITY.**

WHEREAS, the City Manager has proposed the consolidation of the Operations and Maintenance Department and the Engineering and Transportation Department, and

WHEREAS, this consolidation results in the creation of a Public Works Department, and

WHEREAS, the Public Works Department is responsible to perform statutory duties of City Engineer as prescribed by state law and the Municipal Code, and

WHEREAS, by agenda report dated June 22, 2004, the Deputy City Manager is recommending that the Public Works Director delegate the responsibility of City Engineer to an employee in possession of a Certificate of Registration as a Professional Civil Engineer in the State of California, and

WHEREAS, the duties and responsibility of the City Engineer shall be established by way of a special assignment,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves creation of the Special Assignment of City Engineer and hereby establishes a 5% special assignment pay differential for the individual esignated as City Engineer.

BE IT FURTHER RESOLVED that this resolution shall become effective on an after July 13, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of July, 2004, by Councilmember Jackman who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 347

**A RESOLUTION APPROVING A TAX SHARING AGREEMENT BETWEEN THE CITY OF MODESTO AND THE COUNTY OF STANISLAUS FOR THE KAISER MEDICAL CENTER/CORNERSTONE BUSINESS PARK PROJECT, AND AUTHORIZING THE CITY MANAGER TO SIGN SAID AGREEMENT.**

BE IT HEREBY RESOLVED by the Council of the City of Modesto that the Tax Sharing Agreement between the City of Modesto and the County of Stanislaus for the Kaiser Medical Center/Cornerstone Business Park Project is hereby approved.

BE IT FURTHER RESOLVED that the execution of said agreement by the designated City officials is hereby authorized.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of July, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-348**

**A RESOLUTION DENYING THE PARENT RESOURCE CENTER'S REQUEST FOR A CAPITAL FACILITIES FEE WAIVER AND UPHOLDING THE REQUIREMENT FOR PAYMENT OF CAPITAL FACILITIES FEES.**

WHEREAS, the City Council of the City of Modesto has adopted Modesto Municipal Code Sections 8-1.904 et seq. creating and establishing the authority for imposing and charging Capital Facilities Fees (CFF), and

WHEREAS, the City's CFF are set forth in City Council Resolution 88-649, as amended by Resolution Nos. 89-373, 89-986, 89-1132, 90-36, 91-90, 91-703, 91-780, 92-176, 92-507, 94-409, 95-393, 97-122, 98-654, 99-237 and 2003-309, and

WHEREAS, the Parent Resource Center (PRC) a non-profit child abuse prevention program, has requested a waiver of \$5,343 capital facility fees for the expansion of their building to include a modular unit, and

WHEREAS, said request for waiver is based in part on PRC's financial status and upon the temporary nature of a modular building and

WHEREAS, said request for waiver of CFF fees was denied by the CFF Steering Committee, and

WHEREAS, on April 6, 2004, the Parent Resource Center appealed the decision of the CFF Steering Committee to require the payment of CFF for a modular building to be installed at PRC's facility, and

WHEREAS, the City Council referred the matter back to the Economic Development Committee for their review, and also requested that the impacts created by said building be reviewed, and

WHEREAS, the referral by Council was reviewed by the CFF steering Committee which is comprised of staff from the Planning, Building, Engineering, Fire, City Manager and City Attorney's departments who recommended that payment of the CFF fee be upheld and

WHEREAS, while the PRC is a non-profit group serving the needs of in need families, its existence creates an impact on the City of Modesto's infrastructure, and

WHEREAS, the establishment of the City's capital facilities fees (CFF) is independent of the costs relating to the construction of new buildings and are developed based on the cost of capital infrastructure to support development's associated impacts, and

WHEREAS, a temporary building still creates the same impacts as a permanent building, resulting in the same necessary fees to support infrastructure development, and

WHEREAS, upon further review the Economic Development Committee recommended that the Council uphold the requirement of paying Capital Facilities Fees,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby denies the Parent Resource Center's request for a waiver of Capital Facilities Fees and upholds the requirement for payment of Capital Facilities Fees.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of July, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-349**

**A RESOLUTION APPROVING AN AGREEMENT BETWEEN THE CITY OF MODESTO AND JONES AND STOKES FOR WORK ON AN ENVIRONMENTAL IMPACT REPORT FOR A PROPOSED COMMERCIAL/OFFICE PROJECT, THE PROMENADE, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT IN AN AMOUNT NOT TO EXCEED \$173,552.00**

WHEREAS, Setrok Limited Partnership has applied for a general plan amendment and rezoning to a planned development zone to allow 202,225 square feet of specialty retail shops and restaurants, a 73,000 square foot multi-screen theater, 98,050 square feet of offices and a 108-room, three-story hotel on property located on the west side of Dale Road, north of the Vintage Faire Mall (The Promenade), and

WHEREAS, Section 21080.1 of the California Public Resources Code requires the City of Modesto, as lead agency, to make a determination of whether an environmental impact report is required for projects, and

WHEREAS, the City has determined that an environmental impact report is required for the proposed Promenade project, and

WHEREAS, on December 10, 2002, the City Council approved a list of environmental service providers, including the firm of Jones and Stokes, to assist with the preparation of environmental impact reports and other environmental documents, and

WHEREAS, City staff selected Jones and Stokes to prepare the environmental impact report for The Promenade because they had an organized project team at the time of the selection interviews and the sub-consultant they had selected to do the traffic analysis had just completed work in this quadrant of the City for the Kaiser Medical Center project.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the agreement between the City of Modesto and Jones and Stokes for work on an environmental impact report for the proposed Promenade Project in an amount not to exceed \$173,552, is, hereby approved.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of July, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-350**

**A RESOLUTION AUTHORIZING AN APPLICATION TO THE HOUSING AND  
COMMUNITY DEVELOPMENT DEPARTMENT OF THE STATE OF  
CALIFORNIA FOR AN ENTERPRISE ZONE DESIGNATION THAT  
INCLUDES THE CITY OF MODESTO.**

WHEREAS, the Housing & Community Development Department of the State of California (“HCD”) oversees an Enterprise Zone Program with the goal of stimulating growth in economically depressed areas of the State, and

WHEREAS, there are forty-two (42) California Enterprise Zones authorized by HCD, with only thirty-nine (39) Zones approved to date, and

WHEREAS, in order to complete the Enterprise Zone designations, HCD has issued a competitive Request for Proposals (“RFP”) to identify and designate three (3) additional Enterprise Zones, and

WHEREAS, in response to said RFP, the City of Modesto, City of Turlock, City of Ceres, and Stanislaus County (“Applicants”) have formed a partnership and have determined that certain territories within said cities and the County do meet the criteria for an Enterprise Zone designation based on certain census tracts demonstrating depressed business activity, high unemployment levels and low income levels, with a mix of commercial and industrial zoned areas, and

WHEREAS, based on this determination, the Applicants have produced an application to HCD for a California Enterprise Zone designation and wish to be designated as such, and

WHEREAS, the qualifying census tracts within the Modesto Sphere of Influence are identified as: 16.01, 16.03, 16.04, 17.00, 18.00, 19.00, 20.02, 20.04, 21.00, 22.00, 23.01, 24.00, 25.01, and 31.00 which Tracts encompass, in general: (1) Downtown

Modesto, and the contiguous and adjacent industrial area just northwest up to Blue Gum Ave along Highway 99; (2) West Modesto, out to the southwestern most boundaries of the Sphere of Influence; (3) the area around and including the Lamatis Business Park; (4) Commercial land use along Yosemite Boulevard; and (5) Beard Industrial District, and

WHEREAS, the City has jurisdiction over a portion of the application area as outlined above, and is adopting this resolution for the territories described herein, and

WHEREAS, in the event HCD grants a conditional Enterprise Zone designation, the City agrees to complete all actions that apply to the City pursuant to the Preliminary and Final Applications, and

WHEREAS, the application area is a depressed area and designation of the application area as an Enterprise Zone is necessary in order to attract private sector investment to the application area, and

WHEREAS, the California Enterprise Zone area will be referred to as the **“Stanislaus County/Highway 99 Corridor Enterprise Zone”**.

WHEREAS, the City acknowledges that the Stanislaus Economic Development and Workforce Alliance (The Alliance) shall be designated as the agency responsible for the implementation and oversight of the application area, in cooperation with member cities and the County.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Modesto that the boundary of the proposed Enterprise Zone is hereby approved as described in attached **“Exhibit A”**, which is incorporated herein by this reference.

BE IT FURTHER RESOLVED that a finding has been made that the application area is a depressed area and designation of the application area as an Enterprise Zone is necessary in order to attract private sector investment to the application area.

BE IT FURTHER RESOLVED that, should the Final Application be awarded a Conditional Designation as an Enterprise Zone, the City agrees to complete all actions stated within the Preliminary and Final Applications that apply to the City.

BE IT FURTHER RESOLVED that the City, as a member of said partnership, shall work cooperatively to obtain the approval of the Enterprise Zone designation for all areas described in attached "**Exhibit A**".

BE IT FURTHER RESOLVED that the City understands and acknowledges that there are other qualifying territories within Stanislaus County that are not currently described, and that inclusion of these territories in the Stanislaus County/Highway 99 Corridor Enterprise Zone would provide significant economic benefit to all communities within Stanislaus County, and therefore the City agrees to working cooperatively and expeditiously with other members of the partnership to obtain approval of future expansion requests immediately following approval of the initial Enterprise Zone application.

BE IT FURTHER RESOLVED that Brad Kilger, Director of Community & Economic Development, is hereby authorized and directed to execute and submit all required documentation, including the application, memorandum of understanding, and other necessary documents, on behalf of the City Modesto, subject to any minor conforming technical or clarifying changes approved by the City Attorney, to the California Housing & Community Development Department for review and approval of the preliminary application and Enterprise Zone boundary as described in Exhibit A.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of July, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-351**

**A RESOLUTION AUTHORIZING THE AWARD OF BID AND CONTRACT  
FOR THE FURNISHING OF BULK FUEL RED DYED #2 DIESEL, TO W.H.  
BRESHEARS, INC., MODESTO, CA, FOR A THREE (3) YEAR AGREEMENT,  
AT AN ESTIMATED ANNUAL COST OF \$72,963**

WHEREAS, the Operations and Maintenance Department, Waste Water Division and Water Division use red dyed #2 diesel fuel to fuel non-public roadway diesel powered equipment, and standby diesel powered generators that supply backup power to municipal potable water wells, and

WHEREAS, currently, these divisions purchase red dyed #2 diesel fuel in bulk, by issuing request for quotations on an "as needed basis", and

WHEREAS, although competitive pricing has been obtained, this is not an efficient or effective way of bidding this commodity, and

WHEREAS, by soliciting formal Request for Bids, the City will achieve the best price possible by combining the volume of both divisions for an annual agreement, and

WHEREAS, on April 6, 2004, Council approved Resolution No. 2004-182, authorizing the Purchasing Supervisor to formally solicit bids for the furnishing of bulk fuel red dyed #2 diesel, for a three (3) year agreement, and

WHEREAS, by bidding a three (3) year agreement, red dyed #2 diesel fuel would be up for re-bid on the same time line as the City's current agreement for bulk fuel, which expires December 3, 2007, and

WHEREAS, going forward, these commodities would then be bid together to obtain a greater volume discount for the City, based on economies of scale, and

WHEREAS, the Purchasing Division issued Request for Bid No. 0304-10, for the furnishing of bulk fuel red dyed #2 diesel to thirty (30) companies, posted the bid on the City's web site and formally advertised as required by law, and

WHEREAS, of the thirty (30) companies solicited, only one (1) company chose to respond, and

WHEREAS, the Purchasing Division received letters from two (2) companies declining to bid due to delivery requirements, and

WHEREAS, City staff recommends the award of Bid No. 0304-10 and contract for the furnishing of bulk fuel red dyed #2 diesel, to W.H. Breshears, Inc., Modesto, CA, for a three (3) year agreement, at an estimated annual cost of \$72,963,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards Bid No. 0304-10 and contract for the furnishing of bulk fuel red dyed #2 diesel, to W.H. Breshears, Inc., Modesto, CA, for a three (3) year agreement, at an estimated annual cost of \$72,963.

BE IT FURTHER RESOLVED that following Council approval, the Purchasing Supervisor will issue a purchase agreement to W.H. Breshears, Inc., Modesto, CA, for the furnishing of bulk fuel red dyed #2 diesel.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of July, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-352**

**A RESOLUTION AUTHORIZING THE AWARD OF BID AND CONTRACT FOR THE FURNISHING OF HEATING, VENTILATION AND AIR CONDITIONING (HVAC) SERVICE AND REPAIRS AT THE MODESTO CENTRE PLAZA, TO AMERICAN CHILLER SERVICE INC., MODESTO, CA, FOR A THREE (3) YEAR AGREEMENT, WITH TWO (2) ONE-YEAR EXTENSION OPTIONS, FOR AN ESTIMATED ANNUAL COST OF \$23,442**

WHEREAS, the Parks, Recreation and Neighborhoods Department has requested the furnishing of heating, ventilation and air conditioning (HVAC) service and repairs at the Modesto Centre Plaza, and

WHEREAS, HVAC services consist of scheduled preventative maintenance and emergency service repairs, on an "as required" basis, to ensure top performance of the HVAC system in order to provide comfort to the patrons of the Centre Plaza, and

WHEREAS, on January 6, 2004, Council approved Resolution No. 2004-014, authorizing the Purchasing Supervisor to formally solicit bids for the furnishing of HVAC service and repairs at the Modesto Centre Plaza, and

WHEREAS, the Purchasing Division solicited Request for Bid No. 0304-13, for the furnishing of HVAC service and repairs to thirty-three (33) companies, plus posted the bid on the City's web site. In addition, the bid was formally advertised by the City Clerk's office, and

WHEREAS, of the thirty-three (33) companies solicited, sixteen (16) reside in the city of Modesto, and

WHEREAS, out of thirty-three (33) companies solicited, only one (1) company chose to submit a bid, and

WHEREAS, City staff recommends the award of Bid No. 0304-13 and contract for the furnishing of HVAC service and repairs at the Modesto Centre Plaza, to American Chiller Service Inc., Modesto, CA, for a three (3) year agreement, with two (2) one-year extension options, for an estimated annual cost of \$23,442,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards Bid No. 0304-13 and contract for the furnishing of HVAC service and repairs at the Modesto Centre Plaza, to American Chiller Service Inc., Modesto, CA, for a three (3) year agreement, with two (2) one-year extension options, for an estimated annual cost of \$23,442.

BE IT FURTHER RESOLVED that the City Manager is hereby authorized to execute said contract.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-353**

**A RESOLUTION AUTHORIZING THE FIRE CHIEF TO PURCHASE A PIERCE TYPE I ENGINE (VIN #4PICA0ZD4MA000830) FROM THE INDUSTRIAL FIRE DISTRICT FOR THE PURCHASE PRICE OF ONE DOLLAR AND APPROVING AN AMENDMENT TO AGREEMENT FOR FIRE PROTECTION SERVICES WITH THE INDUSTRIAL FIRE PROTECTION DISTRICT.**

WHEREAS, in 1993 the City of Modesto entered into a contract to provide fire protection for a portion of the Industrial Fire Protection District, and

WHEREAS, as part of the contract, the City of Modesto Fire Department agreed to lease the Industrial Fire Station (148 Imperial Avenue) for one dollar a year, and

WHEREAS, the City of Modesto Fire Department also agreed to lease the 1991 Pierce Type I Engine from Industrial Fire District for one dollar, and

WHEREAS, due to the high maintenance costs for the engine, it needs to be replaced, and

WHEREAS, the Industrial Fire District Board of Directors has agreed to sell the City of Modesto Fire Department the engine for one dollar, and

WHEREAS, the City of Modesto Fire Department will in turn trade in the engine for a trade in value of approximately \$48,000, which will be used toward the purchase of a new engine that will be assigned to Station 10 for the remainder of the contract, and

WHEREAS, the City desires to enter into an Amendment To Agreement for Fire Protection Services with the Industrial Fire Protection District, a copy of which is on file in the office of the City Clerk,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Fire Chief to purchase a 1991 Pierce Type I Engine (VIN #4PICA0ZD4MA000830) from the Industrial Fire District for the purchase price of one dollar.

BE IT FURTHER RESOLVED that the Amendment To Agreement For Fire Protection Services with the Industrial Fire Protection District is hereby approved.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-354**

**CONSIDER AUTHORIZING THE PURCHASE OF ONE PIERCE QUANTUM FIRE ENGINE FROM GOLDEN STATE FIRE APPARATUS, FOR A TOTAL COST OF \$311,906.67 AND AUTHORIZING THE CITY MANAGER TO ACCEPT THE SUM OF \$48,150.00 AS TRADE-IN VALUE FOR ONE 1991 PIERCE ARROW ENGINE TOWARD THE PURCHASE OF THE NEW PIERCE QUANTUM FIRE ENGINE.**

WHEREAS, the Modesto Fire Department uses fifteen engine companies and two truck companies in its current fire/life safety delivery system, and

WHEREAS, front line apparatus consists of twelve engine companies and two truck companies, and

WHEREAS three reserve engines are utilized when front line apparatus are out-of-service for repairs and/or when additional apparatus is needed to maintain our system delivery, and

WHEREAS, an engine company's useful lifespan is projected at fifteen years in front line service and five in reserve status, and

WHEREAS, in 1989 the Modesto Fire Department established an apparatus committee consisting of our Senior Fire Mechanic and representation from all suppression ranks, and

WHEREAS, their charge was to develop apparatus specifications and to review the capabilities of fire apparatus manufacturing facilities, and

WHEREAS, Finance Department and Fire Department representatives worked together through the bid process to award of contract, and

WHEREAS, Pierce Manufacturing (Pierce) was declared low bidder and awarded the contract, and

WHEREAS, Modesto Fire Department received its first Pierce fire engine in 1989 and a second in 1990, and

WHEREAS, since that time, we have purchased ten (10) additional engines and two (2) trucks from Pierce, and

WHEREAS, the City desires to purchase a new engine, and

WHEREAS, purchasing the fire engine from Pierce will maintain our operational costs and system reliability, and

WHEREAS, pricing provided to the City will be effective through July 14, 2004, and

WHEREAS, after July 14, 2004 Pierce will increase pricing to cover a metal surcharge of \$14,900.00 that became effective on June 1, 2004, and

WHEREAS, the total cost of the engine is \$311,906.67, and

WHEREAS, purchase of a new engine will remove a 1991 Pierce Arrow fire engine from City's fleet, and

WHEREAS, Pierce has offered the City \$48,150.00 in trade-in allowance for the 1991 Pierce Arrow engine, and

WHEREAS, Safety and Communities Committee approved this request on July 7, 2004,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the purchase of one Pierce Quantum fire engine from Golden State Fire Apparatus, for the sum of \$311,906.67 is hereby approved.

BE IT FURTHER RESOLVED that the City Manager is hereby authorized to accept the sum of \$48,150.00 as trade-in value for one 1991 Pierce Arrow engine toward the purchase of the new Pierce Quantum fire engine.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of July, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**A RESOLUTION AUTHORIZING THE CHIEF INFORMATION OFFICER TO  
ISSUE A REQUEST FOR QUALIFIED ORGANIZATIONS/GROUPS (RFQ) TO  
CONSIDERED CAPABLE OF MANAGING THE PUBLIC, EDUCATION AND  
GOVERNMENT (P-E&G) STUDIO AND BROADCASTING OF MUNICIPAL  
MEETINGS ON THE COMCAST CABLE SYSTEM**

WHEREAS, on July 23, 2002, by Resolution No. 2002-360 , Council approved a two-year agreement with Final Cut Media for the management of daily operations of the Master Control Room Studio for the purposes of airing Public, Education and Government (P- E&G) television programming and broadcasting municipal meetings, and

WHEREAS, the agreement between the City of Modesto and Final Cut Media expires on July 23, 2004, and

WHEREAS, the City must find a qualified applicant to manage the P-E&G and broadcasting of municipal meetings, and

WHEREAS, this RFQ has been approved by the Finance Committee to go to Council for full review.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Chief Information Officer to issue a RFQ to qualified organization/groups for the management of P-E&G and broadcasting of municipal meetings.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of July, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-357**

**A RESOLUTION APPROVING STAFF'S RECOMMENDED CHANGES TO  
THE TENANT BASED RENTAL ASSISTANCE (TBRA) PROGRAM  
BEGINNING FISCAL YEAR 2004-2005.**

WHEREAS, the Tenant Based Rental Assistance Program (TBRA) provides a one-time financial grant of \$1,200 for the applicant's first month's rent and security deposit; the funds are paid directly to the landlord after the unit has passed an inspection and met the criteria of HUD's Quality Housing Standards, and

WHEREAS, this program has been in existence for approximately four years; during the initial years, the program was used extensively for displaced tenants of Prescott Estates, a housing complex determined to be sub-standard by the Building Inspection Division of the City, and

WHEREAS, during the past year, the program was opened to homeless households as a small solution to this growing problem; there has been an overwhelming interest and response from the homeless community and \$45,000 was used to assist 42 households during fiscal year 2003-2004, and

WHEREAS, at this time, staff has reviewed the program in detail and is recommending program changes to better meet the challenges of the target audience, as set forth in the Director of Parks, Recreation and Neighborhoods' report to Council dated June 28, 2004, and

WHEREAS, significant changes are:

- Eligibility limited to homeless households or households being displaced through the City's code enforcement effort,
- Expand the definition of homelessness to meet HUD guidelines,

- Household's income cannot exceed 70% of the Median Area Income, decreased from 80% used during fiscal year 2003-2004,
- Households must contribute 10% of first month's rent,
- Rent must not exceed HUD guidelines for Fair Market Rent for the area, and tentatively, require applicants to attend Housing Counseling/Budget Workshop, and

WHEREAS, homeless, as defined by HUD, is any household lacking a regular, fixed, adequate nighttime residence; it can include those persons not having a roof over their head, living in a dwelling not considered a home (shed), living in a shelter, transitional housing, supportive housing, living in an institution for 30 days, or those facing imminent eviction, and

WHEREAS, homeless means those persons or households "not having the resources or support to obtain access to housing, and proof of homelessness will be obtained through the various types of documentation, and

WHEREAS, additionally, staff is working with a local agency that can offer housing counseling to assisted households prior to move-in; this will help the households to have the budget and social skills to remain in the selected housing, and

WHEREAS, staff is also working with the City Attorney's Office to create a condition that requires the landlord to return any unearned security deposit to the City if the tenant moves out within six months of receiving assistance from the City; this money would be re-programmed for more TBRA assistance, and

WHEREAS, the Citizens Housing and Community Development Committee (CH&CDC) recommended support of this item at its June 28, 2004 meeting,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves staff's recommended changes to the Tenant Based Rental Assistance (TBRA) program beginning fiscal year 2004-2005, as set forth herein and mad a part hereof.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of July, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-358**

**A RESOLUTION APPROVING A ONE-YEAR LEASE RENEWAL WITH STANISLAUS COUNTY AFFORDABLE HOUSING CORPORATION (STANCO) FOR THE USE OF CITY OWNED HOUSE AT 308 LOCUST STREET BY STANCO'S TRANSITIONAL HOUSING PROGRAM, AT THE COST OF \$1.00.**

WHEREAS, In 1988, the City received the property at 308 Locust Street during the foreclosure process on a housing rehabilitation loan; this house was then used for temporary relocations for households being required to move while their units were being rehabilitated under the Housing Maintenance Program, and

WHEREAS, in 1997, the City began leasing the home to Stanislaus County Affordable Housing Corporation (STANCO) at the cost of \$1.00 per year; the house was not needed for relocations at that time, and had been vacant, and

WHEREAS, STANCO has expressed their interest in renewing the lease which expired on July 13, 2004; and

WHEREAS, City staff anticipates relatively few temporary relocations from the Housing Maintenance Program during the next year and does not feel the home would be used enough to deny STANCO's full-time use of the house, and

WHEREAS, the Citizens Housing and Community Development Committee (CH&CDC) recommended support of this item at its June 25, 2004 meeting,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a one-year lease renewal with Stanislaus County Affordable Housing Corporation (STANCO) for the use of a city-owned house at 308 Locust Street by STANCO's transitional housing program, at the cost of \$1.00.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the lease renewal.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of July, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-361**

**A RESOLUTION APPROVING AN AGREEMENT CONSENTING TO  
COMMON USE WITH MODESTO IRRIGATION DISTRICT (MID) AT MID  
LATERAL NO. 6 AT WELL 50, AND AUTHORIZING THE CITY MANAGER  
TO EXECUTE THE AGREEMENT**

WHEREAS, the City of Modesto desires to construct a flush line from the GAC filters that are to be relocated to Well 50, and

WHEREAS, the flush line from the GAC filters at Well 50 will go along MID Lateral No. 6 to Tully Road, and

WHEREAS, installation of the flush line in MID's Lateral No. 6, rather than the access easement to Well 50, avoids trenching about 500 feet of the paved entrance to the Big Valley Grace Church, and

WHEREAS, the Modesto Irrigation District (MID) has an interest in certain real property commonly known as MID Lateral No. 6, and

WHEREAS, staff at MID has approved an Agreement Consenting to Common Use for this property,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Agreement Consenting to Common Use with Modesto Irrigation District for installation of a flush line from Well 50 to Tully Road.

BE IT FURTHER RESOLVED that the City Manager is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of July, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-362**

**A RESOLUTION APPROVING A PROPERTY LEASE AGREEMENT  
BETWEEN THE CITY OF MODESTO AND THE CALIFORNIA STATE LANDS  
COMMISSION FOR CONSTRUCTION, USE AND MAINTENANCE OF  
SANITARY SEWER PIPELINES ACROSS THE TUOLUMNE RIVER AT THE  
SHACKELFORD CROSSING, AND AUTHORIZING EXECUTION OF THE  
LEASE AGREEMENT BY THE CITY MANAGER**

WHEREAS, an existing City sanitary sewer pipeline crosses the Tuolumne River at the Shackelford crossing and is under the jurisdiction of a California State Lands Commission Agreement, and

WHEREAS, said existing City sanitary sewer pipeline is operating satisfactorily but is nearing its useful life, and

WHEREAS, City desires to construct new pipeline construction across the Tuolumne River, which will be in the California State Lands Commission jurisdiction, and

WHEREAS, new pipeline construction across the Tuolumne River will require a new California State Lands Commission Lease Agreement, which does not require any monetary payment by City, other than an application fee of \$1,775, which has been paid to the State for the State's cost to process the application for the lease,

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto that the property lease agreement between the City of Modesto and the California State Lands Commission for construction, use and maintenance of sanitary sewer pipelines across the Tuolumne River at the Shackelford Crossing is hereby approved.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the lease agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of July, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004 - 363**

**A RESOLUTION APPROVING A TEN-YEAR WATER SERVICES AGREEMENT BETWEEN THE CITY OF MODESTO AND BASINWATER, INC. FOR SERVICES AND LEASE OF EQUIPMENT RELATED TO THE REMOVAL OF NITRATES AT WELL NO. 100 LOCATED WITHIN THE CITY OF MODESTO WATER SYSTEM AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT.**

WHEREAS, the City of Modesto is the potable water provider for Modesto, and

WHEREAS, Well No. 100 is owned by the City of Modesto and requires nitrate treatment to meet water quality standards, and

WHEREAS, an engineering contract was approved by the City Council on November 6, 2002, to evaluate treatment options for nitrate removal, and

WHEREAS, this engineering contract is complete with a recommendation that Ion Exchange treatment be utilized, and

WHEREAS, BasinWater, Inc. can provide the necessary service and equipment for removal of nitrates at Well 100, and

WHEREAS, it is the City's obligation to provide and maintain an adequate water supply for public health and safety, and

WHEREAS, City staff has arranged for a long-term Water Services Agreement with BasinWater, Inc. for an Ion Exchange unit for nitrate treatment at Well No. 100, and

WHEREAS, costs for Fiscal Year 2004-2005 are estimated at \$348,600, including \$140,000 in one-time startup costs for installation and construction work to prepare the well site, and

WHEREAS, the Agreement terms are considered acceptable to the City,

NOW THEREFORE, BE IT RESOLVED that the City Council of the City of Modesto hereby approves a ten-year Water Services Agreement with BasinWater, Inc. for services and lease of equipment related to the removal of nitrates at Well No. 100 at an estimated cost of \$348,600 in Fiscal Year 2004-2005.

BE IT FURTHER RESOLVED that the City Manager or his authorized designee is hereby authorized to execute the Agreement.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-364**

**A RESOLUTION APPROVING THE FY 2004-2005 BUDGET FOR THE  
STANISLAUS RESOURCE RECOVERY (“WASTE-TO-ENERGY”) FACILITY**

WHEREAS, on December 17, 1985, the City of Modesto and County of Stanislaus entered into an agreement for administration of the City/County Service Agreement with the Stanislaus Waste Energy Company (now Covanta Stanislaus) for supply and acceptance of solid waste, and

WHEREAS, since that time, the City has been partners with Stanislaus County and

Covanta Stanislaus in the Stanislaus Resource Recovery Facility (the “Waste-to-Energy” or “WTE” Facility), and

WHEREAS, the Agreement established a Solid Waste-to-Energy Executive Committee (“Executive Committee”) to prepare an annual budget for each fiscal year, which Waste-to-Energy annual budget is to be submitted to the City Council and Board of Supervisors for approval, and

WHEREAS, at its April 29, 2004, meeting the Solid Waste-to-Energy Executive Committee considered the 2004/2005 budget as shown in the attached Exhibit “A”, and the Executive Committee unanimously approved forwarding the 2004/2005 Waste-to-Energy budget to the Modesto City Council and the Stanislaus County Board of Supervisors for approval,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the FY 2004-2005 Waste-to-Energy Project Budget, a copy of which is attached hereto as **Exhibit "A"** and incorporated herein by reference, as recommended by the City/County Solid Waste-to-Energy Executive Committee.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-365**

**A RESOLUTION ORDERING THE LEVY AND COLLECTION OF CHARGES  
WITHIN LANDSCAPE ASSESSMENT DISTRICT NO. 1 FOR DRY CREEK  
MEADOWS SUBDIVISIONS NOS. 1-6**

WHEREAS, the City of Modesto has by Resolution No. 2004-266 adopted on May 25, 2004, declared its intent to levy charges or assessments for the purpose of administering the maintenance of landscaping in the public right of way within the street medians and adjacent to the access control walls in Dry Creek Meadows Subdivisions Nos. 1-6 under the provisions of the Landscaping and Lighting Act of 1972, and

WHEREAS, the cost for Fiscal Year 2004-05 is \$26.00 annual assessment per lot, and

WHEREAS, the charges against the real property are not levied with regard to property values but rather by allocated cost reports prepared by City Engineering, and

WHEREAS, the City of Modesto has determined and certifies that the charges are either exempt from or in compliance with all the provisions of Proposition 218, which was passed by the voters in November 1996, and

WHEREAS, the City of Modesto has further determined the charges are in compliance with all laws pertaining to the levy of such charges,

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto hereby orders the levy and collection of \$26.00 annual assessment per lot within Landscape Maintenance Assessment District No. 1 for Dry Creek Meadows Subdivisions Nos. 1-6 for the 2004-05 fiscal year, and that a certified copy of this resolution shall be

delivered to the Auditor –Controller of the County of Stanislaus for placement of such charges on the 2004-05 County Tax Roll.

BE IT FURTHER RESOLVED that the diagram of said assessment district and amount of levy thereon is hereby confirmed.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of July, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-367

**AMENDED**  
on August 12, 2008  
By Resolution 2008-483

**A RESOLUTION SETTING TIPPING FEES AT MODESTO COMPOSTING  
FOR GREEN WASTE, PRUNED REFUSE, AND BIOSOLIDS AND  
ESTABLISHING A SEPARATE COMPOST ENTERPRISE FUND**

WHEREAS, the City of Modesto operates a compost facility, Modesto Composting, at the Secondary Wastewater Treatment facility on Jennings Road, and

WHEREAS, historically Modesto Composting has not charged a tip fee for green waste, pruned refuse, or biosolids from City sources, but has charged the entire cost of the composting operation to the Wastewater Fund because all of the materials were co-composted together as a strategy for recycling the biosolids, and

WHEREAS, the compost facility has therefore been operated as part of the Wastewater Fund, and

WHEREAS, due to changes in regulatory and market conditions, it is no longer practical to compost all of the green waste and pruned refuse with the biosolids, and the facility is now co-composting only a portion of the green waste and pruned refuse with the biosolids, and is composting the majority of the green waste separately, and

WHEREAS, it is therefore no longer equitable to charge the entire cost of the composting operation to the Wastewater Fund, and

WHEREAS, a fee based system at Modesto Composting would be the most equitable way to allocate the cost of operating the facility to the correct user group, and

WHEREAS, by an agenda report dated June 24, 2004, from the Acting Engineering and Transportation Director, City staff is recommending that the City's Composting Facility

AMENDED

~~be established as a separate Enterprise Fund and that tip fees be established for facility users at the Compost Facility, and~~

WHEREAS, City staff recommends a tip fee of \$18.35 per ton for green waste and pruned refuse, and a tip fee of \$6.50 per ton for biosolids be established for users of the Compost Facility, effective August 1, 2004, and

WHEREAS, a combination of tip fees for green waste, pruned refuse, and biosolids, and revenues from the sale of the compost and co-compost products would offset all operations costs, and

WHEREAS, the Modesto City Council must approve the establishment of tip fees at Modesto Composting, and

WHEREAS, on June 7, 2004, the Economic Development Committee considered the proposal to establish tip fees at the facility and to create a separate Compost Enterprise Fund, and voted unanimously to forward staff's recommendation to the full Council, and

WHEREAS, a duly noticed public hearing before the City Council to be held on the 13<sup>th</sup> day of July, 2004, at 5:30 p.m. in the Tenth Street Place Chambers, located at 1010 10<sup>th</sup> Street, Modesto, California, was set as the time and place to consider establishing tip fees for green waste, pruned refuse, and biosolids at the City's compost Facility, and

WHEREAS, at said public hearing on July 13, 2004, evidence both oral and documentary was received and considered,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves a tip fee of \$18.35 per ton for green waste and pruned refuse, and a tip fee of \$6.50 per ton for biosolids at the City's compost facility, effective August 1, 2004.

BE IT FURTHER RESOLVED that the Council authorizes the establishment of a separate Compost Enterprise Fund.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of July, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-368**

**A RESOLUTION AUTHORIZING NEGOTIATIONS WITH THE CITY'S SOLID  
WASTE COLLECTION COMPANIES FOR THE PROVISION OF PRUNED  
REFUSE COLLECTION SERVICES AND DIRECTING CITY STAFF TO BEGIN  
THE MEET AND CONFER PROCESS WITH MCEA AND MCMA CONCERNING  
PRIVATIZATION OF PRUNED REFUSE COLLECTION SERVICES**

WHEREAS, the City of Modesto provides residents with curbside or alley collection of large tree or shrub prunings during the months of February to November, and

WHEREAS, this program, referred to as "pruned refuse collection", is performed by city crews, and

WHEREAS, this service has been funded by sewer ratepayers since 1994, and the annual cost of providing pruned refuse and leaf collection is approximately \$1 million, and

WHEREAS, these same City crews collect leaves from City streets during the months of November and December, which services are paid for out of the Storm Drain Fund, and

WHEREAS, the City's solid waste collection companies also provide containerized collection of green waste, which is made up of materials such as grass and small prunings that cannot be put in the street piles in large "toters", and the cost of this collection program is included as part of the maximum garbage rates, and

WHEREAS, both green waste and pruned refuse are taken to the city's co-compost facility on Jennings Road, where some of the material is combined with biosolids from the primary treatment processes, and is used to make biosolids co-compost, and

WHEREAS, composting operations have also historically been funded out of the Wastewater Fund, and

WHEREAS, due to unresolved regulatory issues and limited markets for the biosolids co-compost products, the composting facility has now changed its production methods, and has reduced the amount of co-compost it produces, and instead produces more green waste compost, and

WHEREAS, due to this shift in production, it is now appropriate for the City to charge the costs of both the collection and composting operations to the garbage ratepayers and reduce the charges to the Wastewater Fund, and

WHEREAS, in a separate public hearing held on July 13, 2004, the Council authorized charging tip fees for green waste, pruned refuse, and biosolids to properly allocate the cost of composting operations to the correct ratepayers, and

WHEREAS, staff has recommended that the Council authorize negotiations with the City's solid waste collection companies to provide pruned refuse collection services, and

WHEREAS, if these negotiations are successful, the cost of the pruned refuse program would also become part of the maximum garbage rates, and

WHEREAS, a report dated July 13, 2004, from the Engineering and Transportation Department, a copy of which is on file in the office of the City Clerk, sets forth said recommendations, and

WHEREAS, July 13, 2004, at 5:30 p.m., in the Tenth Street Place Chambers, located at 1010 Tenth Street, Modesto, California, was set as the date, time and place for consideration of said recommendations regarding pruned refuse collection services, and

WHEREAS, a duly noticed public hearing was held at said time and place, at which time evidence, both oral and documentary, was received and considered,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby authorizes staff to negotiate with the City's licensed solid waste collection companies to provide pruned refuse collection services, and to report back to the Council with the results of these negotiations.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Council hereby directs staff to begin the meet and confer process with MCEA and MCMA on the process and impacts of privatizing Pruned refuse collection services.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of July, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-369

**A RESOLUTION CALLING FOR A SPECIAL ELECTION TO BE HELD ON NOVEMBER 2, 2004, AND REQUESTING THE BOARD OF SUPERVISORS OF THE COUNTY OF STANISLAUS TO CONSOLIDATE THE SPECIAL ELECTION WITH THE STATEWIDE GENERAL ELECTION TO BE HELD ON THAT DATE PURSUANT TO SECTION 10403 OF THE ELECTIONS CODE FOR THE PURPOSE OF SUBMITTING TO THE VOTERS AN ADVISORY MEASURE RELATING TO THE EXTENSION OF SEWER SERVICE TO THE UNINCORPORATED AREA REFERRED TO AS "ROBERTSON ROAD INFILL AREA," GENERALLY LOCATED SOUTH OF ROBERTSON ROAD, EAST OF CARPENTER ROAD, WEST OF HAYS STREET AND NORTH OF JOHN STREET CONTAINING 334 PARCELS ON 96.8 ACRES IN THE MODESTO URBAN AREA GENERAL PLAN, AND APPROVING AN AGREEMENT BETWEEN THE CITY OF MODESTO ("CITY") AND COUNTY OF STANISLAUS ("COUNTY") TO RESOLVE POTENTIAL FISCAL IMPACTS OF UPGRADING EXISTING DEFICIENT INFRASTRUCTURE WITHIN THE ROBERTSON ROAD INFILL AREA OF THE MODESTO URBAN AREA GENERAL PLAN, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT.**

WHEREAS, on March 6, 1979, the voters enacted the Modesto Citizens' Advisory Growth Management Act (Measure A) which provides that the City Council of the City of Modesto shall not approve, authorize, or appropriate funds for the extension of any sewer improvement without first holding an advisory election, and

WHEREAS, on November 4, 1997, the voters enacted the Modesto Citizens' Advisory Growth Management Act of 1995 (Measure M) which provides that the City Council of the City of Modesto shall not approve, authorize, or appropriate funds for sewer improvements without first holding an advisory election, and

WHEREAS, in order to satisfy the requirements of Measure A and Measure M the City Council of the City of Modesto desires to submit to the qualified electors of the City of Modesto, at a special municipal election to be held on November 2, 2004, an advisory measure relating to the provision of sewer service to a certain area of the City with the understanding that

this action is not the first step leading to annexation, it is for the sole purpose of making sewer service available to that area and with the further understanding that no City funds will be expended to provide such sewer service, and

WHEREAS, the Measure M Policy further provides that a Measure M vote for substantial infill areas will not be scheduled until the City and County have addressed and reached agreement to resolve the potential fiscal impacts of upgrading existing deficient infrastructure, and

WHEREAS, the City and County have resolved the potential impacts of upgrading existing infrastructure on the terms and conditions as set forth in an agreement entitled Public Improvement Agreement (“Agreement”) so that the City can schedule a Measure M vote for the Infill Area.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. BALLOT MEASURE.

That pursuant to Section 9603 of the Elections Code, the Council of the City of Modesto proposes to, and hereby does, on its own motion, submit to the qualified electors of the City of Modesto at a special election to be held on November 2, 2004, an advisory measure relating to the provision of sewer service to certain areas of the City as set forth below, and hereby designates the form of the ballot measure for use at said special election as follows:

MEASURE D

Shall the City Council provide sewer service to the following described area of the Modesto Urban Area General Plan?

**“Robertson Road Infill Area”**

The following unincorporated area generally located south of Robertson Road, east of Carpenter Road, west of Hays Street, and north of John Street containing 334 parcels on 96.8 acres.

SECTION 2. FORM OF BALLOT

On the ballots to be used at said election, in addition to any other matter required by law to be printed thereon, shall be printed the following question relating to the proposal to extend sanitary sewer service:

MEASURE D City of Modesto Sewer Service Extension Advisory Measure.

Shall the City Council provide sewer service to the following described area of the Modesto Urban Area General Plan?	Yes	<input type="checkbox"/>
	No	<input type="checkbox"/>

**Robertson Road Infill Area**

The following unincorporated area generally located south of Robertson Road, east of Carpenter Road, west of Hays Street, and north of John Street containing 334 parcels on 96.8 acres.

SECTION 3. CONSOLIDATION

Pursuant to the requirements of Section 10403 of the Elections Code, the Board of Supervisors of Stanislaus County is hereby requested to consent and agree to the consolidation of the special municipal election with the statewide general election on Tuesday, November 2, 2004, for the purpose of submitting the ballot measure described in Section 1.

SECTION 4. CONDUCT OF ELECTION

That the County Elections Department is hereby authorized to canvass the returns of the special municipal election. The election shall be held in all respects as if there were only one election, and only one form of ballot shall be used. That the Board of Supervisors is requested to issue instructions to the County Elections Department to take any and all such steps necessary for the holding of the consolidated election.

#### SECTION 5. ELECTION COSTS

Normally when the City of Modesto calls a special election to be consolidated with the statewide general election all additional costs associated with the special election incurred by the County are reimbursed to the County by the City. However, in this instance, pursuant to the terms of the Agreement, the County has agreed to pay for all such additional costs.

#### SECTION 6. CITY CLERK CERTIFICATION

That the City Clerk is hereby directed to file a certified copy of this resolution with the Board of Supervisors and the County Elections Department of the County of Stanislaus, and the City Clerk shall certify to the passage and adoption of this resolution and enter it into the book of original resolutions.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is hereby authorized to execute the Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of July, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-376**

**A RESOLUTION APPROVING AMENDMENT NO. 3 TO THE AGREEMENT BETWEEN THE CITY OF MODESTO AND TURNSTONE CONSULTING FOR PRELIMINARY WORK TO ASSIST IN THE PREPARATION OF AN ENVIRONMENTAL IMPACT REPORT FOR A PROPOSED KAISER MEDICAL CAMPUS PROJECT, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT IN AN AMOUNT NOT TO EXCEED TWO HUNDRED EIGHTY-SEVEN THOUSAND, THREE HUNDRED FIFTEEN AND NO/100 CENTS (\$287,315.00)**

WHEREAS, Kaiser Permanente has applied for an amendment to the Kiernan Business Park Specific Plan, rezoning to a planned development zone, a development agreement, annexation and sphere of influence amendment to allow a 1.425 million square-foot medical campus and the annexation of 39 acres of adjacent business park land located on the west side of Dale Road north of Bangs Avenue (“Kaiser Medical Campus”), and

WHEREAS, Section 21080.1 of the California Public Resources Code requires the City of Modesto, as lead agency, to make a determination of whether an environmental impact report is required for projects, and

WHEREAS, the City has determined that an environmental impact report is required for the proposed Kaiser Medical Campus project, and

WHEREAS, on December 10, 2002, the City Council approved a list of environmental service providers, including the firm of Turnstone Consulting, to assist with the preparation of environmental impact reports and other environmental documents for the Kaiser Medical Campus project, and

WHEREAS, City staff selected Turnstone Consulting to prepare the environmental impact report for the Kaiser Medical Campus because of their extensive experience on similar projects in other jurisdictions, and

WHEREAS, City Staff anticipates that the EIR work will involve three contract phases, and

WHEREAS, on June 24, 2003, the City Council adopted Resolution No. 2003-298, approving an agreement with Turnstone Consulting for preliminary work to assist in the preparation of an Environmental Impact Report (“EIR”) for the proposed Kaiser Medical Campus in an amount not to exceed \$130,793.00 (“Agreement”), and

WHEREAS, on October 28, 2003, the City Council adopted Resolution No. 2003-561, approving Amendment No. 1 to the Agreement with Turnstone Consulting for preparation of the Draft EIR in an amount not to exceed \$635,768.00, and

WHEREAS, on May 11, 2004, the City Council adopted Resolution No. 2004-250 approving Amendment No. 2 to the Agreement with Turnstone Consulting to perform additional tasks related to the preparation of the Draft EIR, in an amount not to exceed \$160,450.00, and

WHEREAS, City staff have negotiated a scope of work for the final phase of the contract involving completion of the final EIR and attendance at public hearings in an amount not to exceed Two Hundred Eighty-Seven Thousand, Three Hundred Fifteen and No/100 Cents (\$287,315.00), and now recommend that the Agreement be amended to add this work to the contract.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that Amendment No. 3 to the Agreement between the City of Modesto and Turnstone Consulting Corporation to perform tasks related to the completion of the final EIR in an amount not to exceed Two Hundred Eighty-Seven Thousand, Three Hundred Fifteen and No/100 Cents (\$287,315.00) is hereby approved.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute Amendment No. 3 to the Agreement.

RESOLUTION NO. 2004-377**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO SOLICIT BIDS FOR NEW VEHICLES AND HEAVY EQUIPMENT THROUGHOUT FY 04/05 THROUGH VARIOUS COMPETITIVE PROCESSES AND IN A CUMULATIVE AMOUNT NOT TO EXCEED THE BUDGETED AMOUNT OF \$2,859,500, AND AUTHORIZING THE PURCHASING SUPERVISOR TO PURCHASE SEVENTEEN (17) USED VEHICLES AT WHOLESALE AUCTION OR THROUGH OTHER COMPETITIVE PROCESSES FOR AN ESTIMATED BUDGETED AMOUNT OF \$263,500.**

WHEREAS, the City has an ongoing need to purchase vehicles and heavy equipment throughout the year, and

WHEREAS, the expenditures for vehicles and heavy equipment have been approved by Council through the budget process, and

WHEREAS, the vehicles and heavy equipment are purchased by means of formal and informal bid processes, auction, negotiation, and by “piggybacking” off State contracts and other agencies’ competitively bid contracts, and

WHEREAS, in past years Council has authorized the Purchasing Supervisor to solicit bids and go to auction for said vehicles and heavy equipment without having to go before the Finance Committee and the Council for authorization to issue bids, and

WHEREAS, in August of 2002 the Purchasing Supervisor went before the Finance Committee seeking authorization to purchase budgeted vehicles and heavy equipment for the entire 02/03 fiscal year, and

WHEREAS, based on the uncertainty of the State budget, the Finance Committee requested that purchases for vehicles and heavy equipment be brought forward on an as needed basis, and

WHEREAS, over the next twenty-three (23) months the Purchasing Supervisor went before the Finance Committee on numerous occasions seeking authorization to purchase new vehicles and heavy equipment, and

WHEREAS, the Finance Committee gave their authorization for all of the requests and then the items were taken before Council for authorization to bid, and

WHEREAS, after going through the bidding or competitive purchasing processes the requests then went back to Council for authorization to award , and

WHEREAS, each vehicle and/or heavy equipment staff report that goes through this process takes approximately 90-120 days to complete and on average accounts for approximately fifteen (15) hours of staff time to process, and

WHEREAS, by authorizing the Purchasing Supervisor to purchase budgeted vehicles and heavy equipment for the entire fiscal year without returning to Council for subsequent solicitation of bids approval, the following benefits are realized:

- Reduces staff time when preparing for and conducting the bidding process,
- Avoids the possibility of missing manufacturer cut-off ordering dates,
- Improves delivery time of new vehicles allowing them to be put into service sooner,
- Improves reaction time as “good deals “ become available, and

WHEREAS, by authorizing the Purchasing Supervisor to solicit bids and attend auctions to purchase vehicles and equipment for the entire fiscal year without having to go before Council for bid/purchasing approval the City will save substantial staff and processing time, and

WHEREAS, the request for authorization to award bid and contract for new vehicles and equipment will still come before Council and conform to Modesto Municipal Code (MMC) 8-3.203(a), and

WHEREAS, the Purchasing Division will continue to work at increasing local vendor inclusion in the bidding process, and

WHEREAS, upon approval by Council the Purchasing Supervisor will solicit bids for new vehicles and heavy equipment throughout FY 04/05 through various competitive processes and in a cumulative amount not to exceed the budgeted amount of \$2,859,500, and

WHEREAS, upon approval by Council the Purchasing Supervisor or his representative will purchase seventeen (17) used vehicles at auction or through various competitive processes for an estimated total budgeted amount of \$263,500,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Purchasing Supervisor is hereby authorized to solicit bids for new vehicles and equipment throughout FY 04/05 through various competitive processes and in a cumulative amount not to exceed the budgeted amount of \$2,859,500, and returning to Council for authorization to award said new vehicles and equipment.

BE IT FURTHER RESOLVED that the Purchasing Supervisor or his representative is hereby authorized to purchase seventeen (17) used vehicles for an estimated budgeted amount of \$263,000 at auction or through various competitive processes without having to return to Council for authorization to award said used vehicles.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 4<sup>th</sup> day of August, 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Marsh, O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-378**

**A RESOLUTION APPROVING TWO (2) ANNUAL RETAIL ADVERTISING CONTRACTS WITH THE MODESTO BEE (MCCLATCHY NEWSPAPER GROUP), TO COINCIDE WITH THE FISCAL YEAR CALENDAR, CONSISTING OF, ONE (1) CONTRACT FOR A 500-COLUMN-INCH “NO-COMMITMENT” ADVERTISING RATE OF \$47.95 PER COLUMN INCH AND THE OTHER CONTRACT FOR A “12X COMMITMENT” BUSINESS PACKAGE ADVERTISING PLAN “D”, AT A STANDARD AD SIZE RATE OF \$34.28 PER COLUMN INCH AND AUTHORIZING THE CITY MANAGER TO EXECUTE BOTH CONTRACTS**

WHEREAS, the City of Modesto is currently using the Modesto Bee (McClatchy Newspaper Group) as its primary advertising source for its advertising requirements, and

WHEREAS, the advertising services are required for classified and legal advertisements as required by law, and for retail advertisements for public information purposes, and

WHEREAS, in May of 2002 Council directed staff to consolidate the procurement of advertising through a central source in order to obtain the best contractual pricing available for the City, and

WHEREAS, the City’s Purchasing Supervisor met with the Modesto Bee and based on advertising volume commitments identified two (2) retail contract options which best met the City’s retail advertising needs, and

WHEREAS, in November of 2003 staff went before Council with a recommendation to approve both retail advertising contracts for a seven (7) month time frame to coincide with fiscal year calendar, and

WHEREAS, in November of 2003, by Resolution No. 2003-605, Council approved both contracts and authorized the City Manager to sign the seven (7) month contracts, and

WHEREAS, both retail contracts expired on June 30, 2004, and

WHEREAS, staff met with the Modesto Bee to discuss what contract renewal options would be available to the City, and

WHEREAS, the Modesto Bee has agreed to renew both retail advertising contracts for another year based on the fiscal year calendar, and with a 5% price increase on both, and

WHEREAS, Council has requested that the annual retail advertising contracts be put in place to coincide with the fiscal year calendar, and

WHEREAS, the price increase associated with the contract renewal would put the "non-profit no-commitment" contract rate at \$47.95 per column inch and the "12x - commitment business package" rate at \$34.28 per column inch, and

WHEREAS, the Purchasing Supervisor has determined that a process other than the formal bid procedure will result in a procurement of advertising for the City at the lowest cost commensurate with the desired quality, as provided for in MMC 8-3.204(d), and

WHEREAS, the Finance Committee at its July 15, 2004 meeting voted unanimously to move this item to full Council for review, and

WHEREAS, once signed, both advertising contracts shall be implemented and tracked by the City's Purchasing Supervisor, and with the City's Public Information Technician assisting departments with their advertising needs.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves two (2), twelve (12) month retail advertising contracts with the Modesto Bee (McClatchy Newspaper Group), to coincide with the fiscal year calendar, one for a 500 column inch "no-commitment" non-profit rate at \$47.95 per column inch and the other for a "12x-commitment" business package advertising plan "D" at a rate of \$34.28 per column inch, based on a standard 2x5 inch ad size run three (3) times as outlined in plan "D".

BE IT FURTHER RESOLVED that the City Manager or his designee, is hereby authorized to execute the contracts.

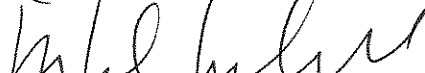

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 4<sup>th</sup> day of August, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Marsh, O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 379**

**A RESOLUTION AMENDING THE FISCAL YEAR 2004-2005 ANNUAL BUDGET**

WHEREAS, a monthly financial analysis has been completed and it has been determined that certain adjustments are required to the Annual Budget of the City of Modesto for the Fiscal Year 2004-2005,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that appropriations, revenues, and transfers for the 2004-2005 budget have been adjusted as shown in **Schedule A.**

BE IT FURTHER RESOLVED that the Finance Director is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 4<sup>th</sup> day of August, 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

<b>TO</b>					
05-7200-800-8000-8003	7200R		\$17,692	\$17,692	Fleet Contingency
05-7200-480-5813-0255	5813C	\$1,502	\$12,000	\$13,502	

#### COMMENTS/JUSTIFICATION

This budget adjustment will clean up the relocation of the Fleet Pool. Originally the JPA TSP provided this service to the Fleet Fund. Beginning in FY05 that job was shifted to the 5th floor Finance Department Purchasing Division. This adjustment will reduce the revenue received by the JPA and increase the revenues of the Finance Department. Fleet will also see a slight reduction in their Interfund Svc expense.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 380**

**A RESOLUTION ORDERING THE LEVY AND COLLECTION OF  
ASSESSMENTS WITHIN IMPROVEMENT DISTRICT #29 – STREET  
AND WATER SYSTEM IMPROVEMENTS**

WHEREAS, the City Council of the City of Modesto, California (“Council”), has by previous resolutions, initiated proceedings, declared its intention to form the Improvement District #29 – Street and Water System Improvements (herein after “District”); issue bonds; and levy assessments; and approved the Engineer’s Report that describes the formation, bond issuance and the assessments against parcels of land within the District, pursuant to the provisions of the Municipal Improvement Act of 1913, Part 1 of Division 12 of the Streets and Highways Code of the State of California, commencing with Section 10000, and the Improvement Bond Act of 1915, Division 10 of the Streets and Highways Code of California, beginning with Section 8500, and

WHEREAS, the charges against the real property in each assessment area are not levied with regard to property values but rather per the method of spread indicated in the Engineer’s Report, and these charges are for the purpose of paying for the street and water system improvements; and

WHEREAS, the City Council has determined and certifies that the charges are either exempt from or in compliance with all the provisions of Proposition 218 which was passed by the voters in November 1996, and

WHEREAS, the City Council has further determined the charges are in compliance with all laws pertaining to the levy of such charges,

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto hereby orders the levy and collection of assessments within the District for the 2004-05 fiscal year as shown in **Attachment A**, and that a certified copy of this resolution together with attached documentation shall be delivered to the Auditor-Controller of the County of Stanislaus for placement of such assessments on the 2004-05 County tax roll.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 4<sup>th</sup> day of August, 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-383**

**A RESOLUTION AUTHORIZING THE FIRE CHIEF TO RECRUIT AND HIRE  
A FIRE PREVENTION TECHNICIAN II.**

WHEREAS, the Fire Prevention Bureau (FPB) plays a significant role in the development of new construction and tenant improvement projects throughout the City of Modesto, and

WHEREAS, there are approximately 1,100 businesses that require fire and life safety inspections each year, and

WHEREAS, several large construction projects are scheduled to start or have already started in FY 04-05 that will demand plan reviews and inspections, and

WHEREAS, in order to maintain current performance measures and plan review in fourteen (14) days or less an additional Fire Prevention Technician is needed, and

WHEREAS, the addition of a fourth Fire Prevention Technician will allow the Fire Prevention Bureau to maintain its current level of service, and

WHEREAS, this position was recommended by the Safety & Communities Committee and the Finance Committee,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Fire Chief to recruit and hire a Fire Prevention Technician II.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 4th day of August, 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Marsh, O'Bryant,  
Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-385**

**A RESOLUTION AWARDING THE BID FOR COMMUNICATION  
EQUIPMENT (GROUP 1) TO DELTA WIRELESS IN THE AMOUNT OF  
\$8,072.52.**

WHEREAS, the City of Modesto applied for a grant for communications equipment as part of the National Assistance to Firefighter's Grant Program in the category of Fire Operations and Firefighter Safety Program in March of 2003, and

WHEREAS, the grant was awarded and accepted by Council on November 13, 2003, and

WHEREAS, the granted dollar amount is \$256,000.00, and

WHEREAS, the City of Modesto's Federal cost-share of 30% is \$77,000.00, and

WHEREAS, on June 8, 2004, Council approved by Resolution the formal solicitation of bids for communication equipment, and

WHEREAS, bids were solicited from nineteen (19) companies, and the bid solicitation was posted on the City's web site, and

WHEREAS, eleven (11) companies responded with valid bids, one (1) of which resides within the City of Modesto, and

WHEREAS, a cost analysis was performed on the bids received, and

WHEREAS, it is recommended that the bids be awarded by grouping as provided by the specification, and

WHEREAS, Delta Wireless submitted the lowest responsive and responsible bid for Group 1 of the Communication Equipment bid in the amount of \$8,072.52.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards to Delta Wireless the bid for Group 1 of the communication equipment bid, in the amount of \$8,072.52.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-389**

**A RESOLUTION APPROVING THE REORGANIZATION OF THE  
INFORMATION TECHNOLOGY DEPARTMENT.**

WHEREAS, many of the current Information Technology (IT) job classifications were written 10 – 15 years ago, and

WHEREAS, many of the existing job classifications do not meet the current technology needs of the IT Department and the City of Modesto, and

WHEREAS, in order to provide for appropriate staffing and allocation of resources, the IT Department has rewritten all of its technical job classifications to be consistent with the current IT market, and

WHEREAS, the Finance Committee met on the 15<sup>th</sup> of July 2004 and supported the recommended reorganization plan.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the reorganization of the Information Technology Department.

BE IT FURTHER RESOLVED that the Council hereby approves the elimination of one Senior Administrative Office Assistant position in the Information Technology Department, already reflected in the Proposed Budget.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 4th day of August, 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-390**

**A RESOLUTION REVISING THE POSITION CLASSIFICATION PLAN FOR  
THE CITY OF MODESTO.**

WHEREAS, a Position Classification Plan for the City of Modesto was adopted by Modesto City Council Resolution 88-338 pursuant to Rule 2 of the Personnel Rules and Regulations of the City of Modesto, and

WHEREAS, the City Manager has recommended to the Council amendments to the Position Classification Plan, and

WHEREAS, Rule 2.2 of the City of Modesto Personnel Rules provides that revisions to the Classification Plan shall be effective upon adoption of resolution of the City Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION I. CLASSIFICATION CREATED. The Position Classification Plan of the City of Modesto is hereby amended to create the following classifications:

1. Systems Technician I
2. Systems Technician II
3. Systems Technician III
4. Software Analyst I
5. Software Analyst II
6. Software Analyst III
7. Software Analyst IV

8. Systems Engineer I
9. Systems Engineer II
10. Systems Engineer III
11. Information Technology Unit Manager
12. Deputy Chief Information Officer

The job specifications for these classifications are being created as a result of the reorganization of the Information Technology Department. The specifications for the classifications of Systems Technician I/I/III, Software Analyst I/II/III, Software Analyst IV, Systems Engineer I/II, Systems Engineer III, Information Technology Unit Manager and Deputy Chief Information Officer, as shown on the attached **Exhibit "A,"** which are hereby made a part of this resolution by reference, are hereby approved and made part of the Position Classification Plan of the City of Modesto.

SECTION 2. CLASSIFICATIONS DELETED. The Position Classification Plan of the City of Modesto is hereby amended to delete the following classifications:

1. Programmer Analyst I
2. Programmer Analyst II
3. Systems Technician
4. Systems Analyst
5. Systems Engineer
6. Information Services Manager
7. Geographic Information Systems Analyst
8. Geographic Information Systems Coordinator
9. Development and Operations Coordinator

Said classifications are being deleted, as they are no longer needed.

SECTION 3. EFFECTIVE DATE. This resolution shall become effective on and after August 4, 2004.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 4th day of August, 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Marsh, O'Bryant,  
Mayor Ridenour

## DEPUTY CHIEF INFORMATION OFFICER

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

### DEFINITION

To assist the Chief Information Officer in the planning, directing, supervising, and coordinating of departmental functions and technology activities; to assist in the monitoring and preparation of operating and capital project budgets, and the management of personnel assigned to the department; and to provide highly complex staff assistance to the Chief Information Officer.

### SUPERVISION RECEIVED AND EXERCISED

Receives administrative direction from the Chief Information Officer.

Exercises direct supervision over professional, technical and support staff.

Exercises responsible charge of assigned information technology functions, including cross-departmental project management leadership for enterprise-wide technology projects.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS - Essential and other important responsibilities and duties may include, but are not limited to, the following:

#### Essential Functions:

Assist in planning, directing, supervising, and coordinating departmental operations; oversee and participate in the development of departmental strategic planning; assign work activities, projects and programs; monitor work flow; review and evaluate work products, methods and procedures.

Appear before the City Council, Council Committees, boards, commissions and numerous civic organizations representing the Department.

Assist with the preparation of operating and capital project budgets and control of expenditures.

Essential Functions: (Continued)

Assist subordinate supervisors in the operations and maintenance of City technology, particularly networks, servers, and business applications; establish long-range plans and goals, including strategic planning for technology systems, applications, and infrastructure.

Coordinate Department activities with those of other departments and outside agencies and organizations; provide staff assistance to the Chief Information Officer; prepare and present staff reports and other necessary correspondence.

Oversee system performance measurements; assure that Service Level Agreements are met.

Work across department lines to ensure that the long-term technology infrastructure needs of the city are met.

Supervise, evaluate and coach assigned staff including maintaining discipline and ensuring all rules, policies and procedures are enforced; advise and counsel subordinates, follow up on problems and complaints; and participates in the selection of staff.

Monitor franchise and service agreements related to cable and other technology infrastructure contracts.

Prepare a variety of correspondence including general and special reports.

Serve as Chief Information Officer, as required.

Marginal Functions:

Perform related duties as assigned.

QUALIFICATIONS

Knowledge of:

Principles of supervision, training, management and technology administration.

Principles of budget preparation and expenditure control.

Principles and practices of public administration labor relations and public personnel management.

QUALIFICATIONS: (Continued)

Knowledge of, Continued:

Principles and practices of implementing and sustaining a complex and technologically up-to-date IT infrastructure.

Technical, legal, and financial issues related to the acquisition of software, hardware, and their associated maintenance contracts.

Strategic and tactical technology planning processes.

Project Management methodologies.

Methods of preparing designs, plans, specifications, estimates, reports and recommendations relating to proposed technology projects.

Procedures, materials, equipment and methods used in all areas of public works activities.

Pertinent Federal, State, and local laws, codes and regulations.

Ability to:

Oversee and coordinate the activities of a number of sections within the Department.

Prepare and administer the departmental operating and capital project budgets and control budget expenditures.

Review and interpret cost estimates.

Effectively represent the Department before the Council, Council Committees, boards, commissions, public agencies and private groups.

Prepare clear and concise written reports and develop and implement appropriate recommendations.

QUALIFICATIONS: (Continued)

Ability to:

Establish and maintain cooperative relationships with those contacted during the course of work.

Perform a variety of technical research and prepare reports of findings.

Effectively manage a diverse staff of professional and technical staff, vendors, consultants, and contractors.

Experience and Training Guidelines:

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

Seven years of increasingly responsible professional IT experience in an internal technology support environment, including at least five years in a supervisory or managerial capacity.

Training:

Equivalent to a Bachelor's degree from an accredited college or university with major course work in information technology, computer science, systems engineering, business administration or a related field.

License or Certificate:

Possession of, or ability to obtain, an appropriate, valid California driver's license.

ADDITIONAL REQUIREMENTS:

Candidates must pass a P.O.S.T. level background investigation for clearance to work on Police Department Information Systems prior to appointment.

WORKING CONDITIONS

Environmental Conditions:

Office environment; occasionally travel from site to site.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for sitting for prolonged periods of time; traveling to and from sites and attending meetings.

## INFORMATION TECHNOLOGY UNIT MANAGER

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

### DEFINITION

To assist the Chief Information Officer in providing direction and supervision, budget development and monitoring, program definition, goals development, vision setting and overall program/project oversight and to provide complex staff assistance.

The Information Technology Unit Manager may be assigned as Division Manager overseeing applications or networks.

### SUPERVISION RECEIVED AND EXERCISED

Receives administrative direction from the Chief Information Officer.

Exercises direct supervision over professional, technical and other assigned staff.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS - Essential and other important responsibilities and duties may include, but are not limited to, the following:

#### Essential Functions:

Manage, direct and organize division activities in the area of network or application operations; assign work activities and projects; monitor work flow; review and evaluate work products, methods and procedures.

Prepare, appear and make presentations before the City Council, Council Committees, boards, commissions and numerous civic organizations representing the Department.

Assist with the preparation of operating and technology fund and control of expenditures and administer the division budget.

Oversee third-party systems, vendor sales, and support; the installation, configuration, and cutover phases of a project; professional IT consulting/development projects; and complex business changes in the implementation of emerging Information technologies.

Assure a strong commitment to customer service; monitor and manage departmental customer satisfaction.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS - Continued

Participate in recommending the appointment of personnel; provide or coordinate staff training; establish performance expectations and evaluate performance of subordinate personnel; work with employees to correct deficiencies; implement discipline procedures; recommend employee terminations.

Review system design and end-user documentation prepared by other project staff.

Carry out resource allocation planning and management to effectively assign work tasks to team members.

Develop and manage project cost controls.

Coordinate Division activities with those of other departments and outside agencies and organizations; provide staff assistance to higher-level management; prepare and present staff reports and other necessary correspondence.

Manage the development, production, and execution of training programs.

Develop policies and procedures and assure they are carried out.

Prepare a variety of correspondence including general and special reports.

Marginal Functions:

Perform related duties as assigned.

QUALIFICATIONS

Knowledge of

Information Technology best practices.

Governmental business practices.

Business issues related to implementing systems.

Principles of organization, administration, supervision, training and personnel management.

Principles of budget preparation and expenditure control.

Knowledge of - Continued

Disciplined project management methodologies, including project estimating, planning, executing, and examining business or functional issues including technical, operational, and management concerns.

Organizational and management practices as applied to the analysis and evaluation of programs, policies, and operational needs.

Procedures, materials, equipment and methods used in all areas of Information Technology activities.

Skill in:

Organizing work and the work of others, establishing procedures, and assuring deadlines are met.

Preparing project proposals including the submission of budget items.

Managing project costs, resources, and schedules.

Carrying out and/or managing application design, development, deployment, support and maintenance.

Demonstrating leadership skills.

Transferring knowledge, providing direction and supervising, evaluating and training staff.

Designing and developing presentations, documentation, and training.

Preparing workflow and process diagrams, and cost/benefit analysis.

Assisting with the preparation of divisional operating and technology fund budgets and control budget expenditures.

Effectively representing the Department before the Council, Council Committees, boards, commissions, public agencies and private groups.

Preparing clear and concise written reports and developing appropriate recommendations.

Skill in: Continued

Effectively managing assigned areas of the divisional program.

Establishing and maintaining cooperative relationships with those contacted during the course of work.

Effectively overseeing multiple projects simultaneously.

Experience and Training Guidelines

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Training:

Equivalent to a Bachelor's degree from an accredited four-year college or university in a computer related field, business information systems, public/business administration, or closely related field.

Experience:

Equivalent to five years increasingly responsible experience carrying out and managing complex system development and/or network projects at the departmental and/or enterprise level. Three years of the required experience must have been in a lead or supervisory capacity.

OR

Two years of experience performing duties as a Software Analyst IV or Systems Engineer III with the City of Modesto. At least one year of the required experience must include working in a lead or supervisory capacity.

Other Requirement:

Specified positions must possess a valid California Driver's License and have a satisfactory driving record; and be able to pass a POST level background investigation.

WORKING CONDITIONS

Environmental Conditions:

Assignments may include office and field environment; positions may require working evenings including weekend and holiday assignments, and traveling to and from site to site.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for sitting, standing, bending, and stooping for prolonged periods of time; using various office equipment including a computer screen and keyboard.

## SOFTWARE ANALYST I/II/III

Class specifications are intended to present a descriptive list of the range of duties performed by employees in these classes. Specifications are not intended to reflect all duties performed within the job.

### DEFINITION

Under general supervision, to perform a variety of application support, business process analysis and maintenance duties including specialties such as Software, GIS, Web and Database Administration (Level III only), to perform application support and maintenance, business/workflow analysis, application integration, report development, testing processes, and project management. Duties may vary depending on the division to which assigned. The Software Analyst classification is focused on the maintenance of existing third-party applications and/or the development of new service delivery programs and solutions.

### DISTINGUISHING CHARACTERISTICS

The Software Analyst I is the entry-level class in the series. Initially under supervision, incumbents will participate in application support and maintenance, business/workflow analysis, application integration, report development, testing processes, and some project management responsibility. Positions in this class are flexibly staffed. Incumbents normally advance to the II level after a minimum of 12 months, receive satisfactory performance evaluations, and meet the requirements of Software Analyst II.

The Software Analyst II is the fully qualified, professional-level class in this series. Competent to perform a variety of analytical duties, positions are characterized by the presence of general guidelines from which to make decisions and the availability of supervision in non-routine circumstances. Positions at this level require experience in carrying out application development efforts and project management support at the departmental or enterprise level, have knowledge of industry standard structured life cycle development methodologies, and will focus on the maintenance of existing applications and/or the development of new service delivery programs and solutions as related to the area of assignment. Positions in this class are flexibly staffed. Incumbents may only advance to the III level after a minimum of 18 months as a Software Analyst II, receive a satisfactory performance evaluation, meet the requirements of the Software Analyst III, pass the appropriate proficiency standard rating, and with approval of Chief Information Officer.

The Software Analyst III is the highly qualified, senior-level class in this series. Competent to perform a wide range of analytical duties, this position requires an in depth knowledge of one or more of the specialty areas. Positions in this class work under general guidelines but typically receive minimal supervision when working on assignments. Assignments require experience in carrying out and managing application development projects with a focus on business process re-engineering at the departmental and/or enterprise level. Development experience includes playing a key role with all or parts of application development projects ranging from user analysis, development, coding, implementation, project management, and support. Analyst experience includes a focus on the analysis of business and service delivery requirements and developing well-defined procedures and programs to deliver practical solutions. Judgment and initiative in making decisions in accordance with established guidelines is required.

#### SUPERVISION EXERCISED AND RECEIVED

The Software Analyst I & II positions do not provide supervision to other staff while the Software Analyst III may be required to supervise the Software Analyst I/II positions and/or other assigned staff. The Software Analyst I/II/III receives supervision from the higher-level Software Analyst IV, or as necessary from higher level management.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS: - Essential and other important responsibilities and duties may include, but are not limited to, the following:

#### Essential Functions:

##### Level I:

- Assist with development projects on one or more of the following platforms: Unix, Microsoft, client-server or web-enabled.
- Communicate and work with third-party vendor sales, applications, and support.
- Workflow/business process analysis.
- Application development, integration, and monitoring.
- Customer presentation, demonstrations, and feedback sessions.
- Testing: alpha, beta, and production testing.
- Application support, maintenance and ongoing enhancements.
- Assist with customer training.
- Prepare procedures, handbooks, manuals, and other training related materials.
- Assists with the development of project proposals and yearly work program/budget.

Essential Functions - Continued

Level II: (In addition to Level I)

- Develop functional/technical specifications identifying the features and functions of an application.
- Installation, configuration, and go-live testing.
- Perform quality assurance over interim work products and deliverables.
- Assume project management responsibilities including the development of project plans and timelines.

Level III: (In addition to Level I & II)

- Assume a key role in the execution of professional IT consulting/development projects.
- Recommend technology solutions to clients.
- Monitor and manage departmental customer satisfaction.
- Perform first-line issue resolution.

When Assigned to Software Analyst Track:

Level I & II:

- Become subject matter experts on supported third-party applications.
- Keep current and maintain a strong knowledge of emerging programming languages and procedures.
- Prepare workflow and process diagrams, which may include cost/benefit analysis.
- Code difficult program instructions.
- Perform software maintenance.
- Design and develop complex datamarts and data warehouses.
- Analyze procedures and data, and develop logical conclusions.

Level III: (In addition to Level I & II)

- Carry out business process analysis/re-engineering, using a formal and proven methodology.
- Participate in the execution of the full life cycle of development projects on one or more of the following platforms: client-server or web-enabled.
- Facilitate customer sessions to define their application requirements.
- Participate in the following: database design, development specifications, application prototyping, development, and production testing

**When Assigned to GIS Analyst Track:**

**Level I:**

- Coordinate with department/division "clients" to address and respond to their mapping, tabular, analytical, reporting needs. Develop, implement, and maintain applications and products that meet the client's needs.
- Prepare working and presentation maps, reports, and documents on an as needed basis.

**When Assigned to GIS Analyst Track:**

**Level I (continued):**

- Assist with the maintenance of the City GIS Intra/Internet site and related data.
- Assist with data development and maintenance as needed.

**Level II: (In addition to Level I)**

- Responsible for development and maintenance of GIS applications.
- Assist with the conceptual design of databases.
- Assist with the maintenance of database indices and relational items.
- Document the design, implementation, maintenance, and use of GIS applications.
- Develop and carry out training for GIS applications.
- Make recommendations for current and future technology infusions and upgrades by keeping abreast of current technology through seminars, journals, professional associations, peers, and other means.
- Define, develop, and carry out analytical tasks and reports requested by customers ranging from simple query to complex overlay and what if modeling scenarios.

**Level III: (In addition to Level I & II)**

- Work on the conceptual and physical design of databases, including establishing and maintaining table relationships, indices, and the rules governing data input into database applications.
- Design, develop, and maintain interfaces between GIS and existing City applications and databases such as: Permits Tracking, Fire Records Management, Police Records Management, Utilities work order processing, Business licenses, Financials, and other systems.
- Develop and maintain SQL query statements and database connectivity.
- Design, modify, and/or develop programming for the customization of end user applications or automation of processes.

Essential Functions - Continued

**When Assigned to Web Analyst Track:**

Level I:

- Assist with security related issues pertaining to web site operation.
- Provide technical assistance with Internet e-mail related issues.
- Assist in design and implementation of web-based applications.
- Coordinate with the City Manager's Office to ensure conformance with design standards.
- Prepare and review statistical information pertaining to web sites.

**When Assigned to Web Analyst Track (continued):**

Level II: (In addition to Level I)

- Coordinate with staff and the public for implementation of new features.
- Provide for the implementation and operation of web sites and servers.

Level III: (In addition to Level I & II)

- Manage domain names and associated records.
- Provide representation on web related issues.

**When Assigned to Database Administrator Track (Level III only):**

Level III:

- Provide technical guidance and assistance to other staff associated with software development.
- Solve complex software programming and system design problems.
- Recommend measures to optimize system performance and response.
- Code highly technical programs for data processing applications.
- Perform database analysis and data modeling for logical and physical database design.
- Manage and/or participate in database development.
- Manage and/or participate in database integration between existing and new applications.
- Manage and/or participate in database sizing and tuning.
- Manage and/or participate in database development, rollout, and support of production databases.
- Design and develop systems documentation and training.
- Design and implement unattended backup and disaster recovery procedures.

Marginal Functions:

Perform related duties as necessary.

QUALIFICATIONS:

Knowledge of:

Software Analyst I:

- One or more specialty areas including Software, GIS, Web and Database.
- Off the shelf vendor support.
- Emerging technologies, including web-enabled (e-government) service delivery applications.
- Desktop applications.
- Developing end-user documentation and training materials.
- The principles of database design, development, and administration.
- Quality assurance programs.
- The principles of Internet (Web) design, development, and implementation.
- Computer programming languages such as: Visual Basic, HTML, Java, C++.
- PC skills to include proficiency in Microsoft Office suite software.
- **Software** - Unix Systems, Client-Server, Web-enabled and related software used by the City of Modesto.
- **Software** - Basic scripting languages in a UNIX and/or Microsoft environment.
- **Software** – Database reporting tools used by the City of Modesto.
- **Software** - Fundamental knowledge of software design, relational and distributed database technology.
- **Software** - Commonly used programming languages, databases, and operating systems on multiple hardware platforms.
- **Software** - Concept of data warehouse design and data mining.
- **GIS** –Geographic Information Systems, Global Positioning Systems, automated mapping systems, and database management systems and how they are utilized in the working environment.
- **GIS** –Remote sensing including its capabilities, applications, and use in conjunction with GIS.
- **GIS** –Principles of cartography including methods, techniques, and symbolism.
- **GIS** – Common GIS data formats.
- **WEB** - Computers, information systems, and Internet technologies.

Software Analyst I - Continued

- **WEB** - HTML and Active Server Page programming.
- **WEB** - Database connectivity; with City of Modesto standard databases.
- **WEB** – City of Modesto standard web server.
- **WEB** - Basic security considerations pertaining to web-based applications.
- **WEB** - DNS and basic connectivity issues related to web sites and their presentation.
- **WEB** - Basic e-mail as related to web site operation.

Software Analyst II: (In addition to the requirements of the I, and depending on assignment):

- Information Technology best practices.
- Formal application development methodologies.
- Project management methodologies.
- **GIS** – Global and local coordinate systems and datum.
- **GIS** – National standards as related to data formats and metadata.

Software Analyst III: (In addition to the requirements of the II, and depending on assignment):

- Industry best practices used in the development arena.
- Various application development tools supported by the City of Modesto.
- **Software** - Software design, relational and distributed database technology.
- **Software** - Data warehouse design and data mining practices.
- **GIS** – Applied usage of Geographic Information Systems as it relates to all sectors of local government.
- **GIS** – Customization capabilities of GIS software.
- **DBA** - Database backup and recovery.
- **DBA** – Methods for installing and upgrading database servers.
- **DBA** – Methods of database maintenance and system security.
- **DBA** – Database performance and optimization methods.

Skill In:

Software Analyst I:

- Carrying out multiple tasks simultaneously.
- Analyzing and develop logical solutions and alternatives to problems.
- Prioritizing tasks based on importance to the business.
- Working under the direction of immediate supervisor.

Software Analyst I - Continued

- Maintaining effective working relationships with those contacted in the course of work.
- Assisting with business process analysis, application design, development, system installation/deployment, support, and maintenance.
- Demonstrating, developing, and supporting a strong commitment to customer service.
- Communicating clearly and concisely, both verbally and in writing.
- Analyzing procedures and instructions, and developing logical conclusions.
- Organizing work, establish procedures, and meeting deadlines.
- Keeping current and maintain a strong knowledge of emerging programming languages and procedures.
- Working with, control, and maintain sensitive, confidential information according to legal standards and/or City regulations as required.
- Working in a team environment or independently, as conditions require.
- Working with word processing, database, spreadsheet, and presentation software.
- Under supervision, assist in developing project proposals including the submission of budget items, project plans, and reasonable timelines.
- Providing excellent customer service and support.
- Preparing required documentation, including both program-level and user-level documentation.
- Understanding and working with relational databases.
- Conducting computer system and procedure analyses, making sound recommendations for new applications.
- **Software** - Coding programs for data processing applications.
- **Software** - Remaining current in software development techniques, technology, and tools.
- **GIS** - Understanding GIS Concepts.
- **GIS** - Working with GIS software products.
- **GIS** - Understanding and working with object oriented GIS software.
- **GIS** - Working proficiently using Computer Aided Drafting (CAD) software.
- **GIS** - Working with and interpreting maps including a variety of engineering, planning, assessment, and other maps.
- **WEB** - Troubleshooting basic connectivity issues related to web site operation.
- **WEB** - Implementing basic security procedures.
- **WEB** - Working with standard design and layout tools.
- **WEB** - Assisting in design and implementation of web-based applications.

Software Analyst II: (In addition to Level I)

- Working within project costs, resources, and schedules.
- Developing project plans and reasonable timelines.
- Carrying out and/or manage 3<sup>rd</sup> Party application systems, application design, development, deployment, support, and maintenance.
- Recommending measures to optimize systems performance and response.
- **GIS** - Working with database tools used by the City of Modesto.
- **GIS** – Integrating data from multiple sources with City of Modesto GIS data.
- **GIS** - Solving complex analytical problems utilizing GIS software.
- **WEB** - Deploying, configuring, and maintaining web servers and related software.

Software Analyst III: (In addition to Level I & II)

- Providing leadership skills.
- Transferring knowledge and providing direction to other staff.

Software Analyst III (continued):

- Designing and developing presentations, documentation, and training oriented toward customers.
- Preparing workflow and process diagrams, and cost/benefit analysis.
- Analyzing procedures and data, and developing logical conclusions.
- Assuming overall responsibility for a variety of projects.
- **GIS** - Communicating the use of GIS tools to end-users.
- **GIS** - Understanding and integrating GPS technology within the GIS environment.
- **GIS** – Constructing SQL calls to external or relational tables.
- **GIS** – Designing the physical layout of databases and the physical relationships of databases and/or database tables.
- **GIS** – Customizing the GIS graphical user interface (GUI) according to customer needs.
- **WEB** – Managing DNS and domain related issues.
- **DBA** - Providing technical guidance and assistance to other staff associated with application development.
- **DBA** - Solving complex application programming and systems design problems.
- **DBA** - Recommending measures to optimize systems performance and response.
- **DBA** – Coding highly technical programs for data processing applications.
- **DBA** - Troubleshooting database problems.

Ability to (all levels):

- Reason logically, draw valid conclusions, and make appropriate recommendations.
- Occasionally perform medium lifting up to 50 lbs.

EXPERIENCE AND TRAINING GUIDELINES:

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

**Software Analyst I**

Training:

Equivalent to an Associate of Arts / Science Degree from an accredited college with major coursework in business information systems, computer science, geography, or a closely related field.

Experience:

One year of full-time business application support and/or development experience in any of the three defined assignments: Software Analyst, GIS Analyst, or Web Analyst.

**Software Analyst II**

Training:

Equivalent to an Associate of Arts / Science Degree from an accredited college with major coursework in business information systems, computer science, geography, or a closely related field.

Experience:

Equivalent to two (2) years of full-time, increasingly responsible applications development / maintenance experience in any of the three defined assignments: Software Analyst, GIS Analyst, or Web Analyst.

OR

One year of experience performing duties as a Software Analyst I with the City of Modesto.

**Software Analyst III**

**Training:**

Equivalent to a Baccalaureate of Arts / Science Degree from an accredited college or university with major coursework in computer science, geography, or a closely related field.

**Experience:**

Equivalent to four (4) years of full-time relevant, increasingly responsible experience performing a variety of duties in any of the four defined assignments: Software Analyst, Database Administrator, GIS Analyst, or Web Analyst.

OR

Two (2) years of experience performing duties as a Software Analyst II with the City of Modesto.

**Other Requirement:**

Specified positions must possess a valid California Driver's License and have a satisfactory driving record; and be able to pass a POST level background investigation.

**WORKING CONDITIONS**

**Environmental Conditions:**

Assignments may include office and field environment; positions may require working evenings including weekend and holiday assignments, and traveling to and from site to site.

**Physical Conditions:**

Essential and marginal functions may require maintaining physical condition necessary for sitting, standing, bending and stooping for prolonged periods of time; using various office equipment including a computer screen and keyboard; requires medium lifting (up to 50 lbs.).

## SOFTWARE ANALYST IV

Class specifications are intended to present a descriptive list of the range of duties performed by employees in these classes. Specifications are not intended to reflect all duties performed within the job.

### DEFINITION

To act as a principal technical consultant in an assigned specialty area. Incumbents are expected to perform a variety of application analysis and development duties with a high degree of complexity encompassing one or more of the following specialty areas:

- Business workflow analysis.
- Applications development, maintenance, and administration.
- Database administration.
- Geographic information analysis.
- Web application development.

### DISTINGUISHING CHARACTERISTICS

As a Software Analyst IV, responsibilities include: assuming total responsibility for the technical aspects of application development projects, knowledge and experience with structured life cycle development methodologies, analysis of business and service delivery requirements and developing well-defined procedures and programs to deliver practical system solutions. The Software Analyst IV is considered the master level, capable of solving the most complex issues in at least one of the specialty areas.

### SUPERVISION EXERCISED AND RECEIVED

Receives general direction from higher-level management.

May exercise direct supervision over professional, technical and other assigned staff.

### ESSENTIAL AND MARGINAL FUNCTION STATEMENTS:

Essential and other important responsibilities and duties may include, but are not limited to, the following:

Essential Functions:

- Communicate and work with third-party applications, vendor sales, and support.
- Manage the installation, configuration, and cutover phases of a project.
- Assume a key role in the execution of professional IT consulting/development projects.
- Recommend technology solutions to clients.
- Manage complex business changes in the implementation of emerging Information Technologies.
- Provide subject matter knowledge to the project team or the customer.
- Demonstrate a strong commitment to customer service.
- Make recommendations for current and future technology infusions and upgrades.
- Use formal project management techniques and tools to effectively manage the scope of work, project costs, technical resources, and maintain schedule integrity; utilize project management software; make modifications and adjustments as required to ensure projects are delivered on time and within budget.
- Carry out business process analysis/re-engineering, using a formal and proven methodology.
- Develop systems on platforms such as Unix, Microsoft, client-server or web-enabled.
- Provide technical guidance and assistance to other staff associated with Information Systems.
- Recommend measures to optimize system performance and response.

Depending on assignment, duties may also include:

- **Software** – Act as subject matter experts on supported third-party applications.
- **Software** - Facilitate customer sessions to define their application requirements.
- **Software** - Assume overall accountability when managing and/or participating in the execution of the full life cycle of development projects on one or more of the following platforms: client-server or web-enabled, whether City staff or Vendors retained by the City carry out the work.
- **DBA** - Database analysis, data modeling, and CASE tools for logical and physical database design.
- **DBA** - Manage and/or participate in database development, integration between legacy and new applications, sizing and tuning, rollout, and support of production databases.
- **GIS** - Develop, implement, and maintain applications/products that meet the clients' needs.

Essential Functions - Continued

- **GIS** – Manage the physical design of databases, the rules governing data input, and assure that database indices, relational items, and connectivity are properly and continuously maintained.
- **GIS** - Design, develop, and maintain GIS interfaces with City computer applications/databases used by the City of Modesto.
- **GIS** - Extends “out of the box” capability of GIS software used by the City of Modesto.
- **WEB** - Work with security related issues pertaining to web site operation.
- **WEB** - Work on the design and implementation of web-based applications.
- **WEB** - Provide for the implementation and operation of web sites and servers.
- **WEB** - Provide representation on web-related issues.

Marginal Functions:

Perform related duties as assigned.

QUALIFICATIONS:

Knowledge of:

- Technology advancements and how they can/will be applied within our current/future business models.
- Information Technology best practices.
- Quality assurance programs.
- Principles of budget preparation and expenditure control.
- Methods and techniques of statistical analysis, effective technical report preparation and presentation.
- Database design, development, and administration.
- Software development tools used by the City of Modesto.
- Database reporting tools used by the City of Modesto.
- In-depth knowledge of software design, relational and distributed database technology.

When assigned to the following:

- **Software** – Scripting languages in a Unix and/or Microsoft environment.
- **Software** - Commonly used programming languages, databases, and operating system on multiple hardware platforms.
- **Software** - Data warehouse design and data mining practices.
- **DBA** - Database backup and recovery.
- **DBA** - Installing and upgrading database server.
- **DBA** - Enrolling users and maintaining system security.
- **DBA** - Monitoring and optimizing the performance of the database.

Knowledge of - Continued

- **DBA** - Modifying the database structure as requested by vendor or users.
- **DBA** - Troubleshooting database problems.
- **DBA** - Creating database storage structures and objects.
- **GIS** – The applied use of Geographic Information Systems, Global Positioning Systems, automated mapping systems, and database management systems as it relates to local government.
- **GIS** – One or more major GIS software packages.
- **GIS** - Remote sensing including its capabilities, applications, and use in conjunction with GIS.
- **GIS** - The principles of cartography including methods, techniques, and symbolism.
- **WEB** - Internet design, development, and implementation.
- **WEB** - HTML and Active Server Page programming.
- **WEB** - Microsoft Windows server software and web servers.
- **WEB** - Security considerations pertaining to web based applications.
- **WEB** - DNS and connectivity issues related to web sites and their operation.

Skill In:

- Applying knowledge of industry best practices, business process reengineering or change management methods.
  - Making sound judgments and decisions in accordance with established guidelines.
  - Working effectively with development and customer teams.
  - Analyzing and developing logical solutions and alternatives to problems.
  - Creating and implementing project plans.
  - Supervising and guiding technical staff in the performance of their routine tasks.
  - Keeping current with emerging technological advancements and evaluating their benefits as applied to the City's current/future business processes.
- When assigned to the following:
- **Software** - Fluently programming in one or more standard programming languages.
  - **Software** - Coding difficult program instructions.
  - **Software** – Preparing complex workflow and process diagrams, and cost/benefit analysis.
  - **DBA** – Managing multiple relational databases including the physical design, maintenance, and fine-tuning.
  - **DBA** – Developing reporting capabilities.
  - **DBA** – Managing database backup and recovery.

Skill In - Continued

- **DBA** – Setting up user and database security.
- **DBA** – Upgrading or installing different database versions.
- **DBA** – Monitoring disk space and assigning disk space capacity.
- **DBA** – Interpreting trace and lock files for problem solving.
- **DBA** – Developing and reviewing standards to assure application design and code are produced with proper integrity, security, and performance.
- **GIS** - Comprehending and implementing GIS projects and programs.
- **GIS** - Expertly developing, working with, managing, and applying the use of GIS desktop, workstation, and web enabled products.
- **GIS** - Extending the capabilities of GIS products.
- **GIS** - Working with relational database tools such as Access, Oracle, or SQL Server.
- **GIS** - Integrating GIS with other data management applications.
- **GIS** - Integrating GPS technology within the GIS environment.
- **GIS** - Solving complex analytical problems utilizing GIS software.
- **GIS** - Designing the physical layout of databases and the physical relationships of separate but related databases.
- **WEB** – Managing web related tools and services.
- **WEB** - Integrating web technologies into desktop tools aimed at simplifying access to data and the research of information.
- **WEB** - Troubleshooting connectivity issues related to web site operation.
- **WEB** – Designing, testing, implementing, and maintaining e-government services including security procedures.
- **WEB** - Deploying, configuring, and maintaining web servers and related software.
- **WEB** – Managing DNS and domain related issues.

Ability To:

- Work independently.
- Communicate clearly and concisely, both verbally and in writing.
- Effectively manage multiple projects simultaneously.

EXPERIENCE AND TRAINING GUIDELINES:

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

EXPERIENCE AND TRAINING GUIDELINES - Continued

Training:

Equivalent to a Bachelor's degree from an accredited four-year college or university in business information systems, geography, public/business administration, other computer related or closely related field.

Experience:

Equivalent to four (4) years increasingly responsible experience carrying out and managing complex application development projects with a focus on business process re-engineering at the departmental and/or enterprise level, database development, maintenance, analysis, and tuning, the development and applied use of Geographic Information Systems (GIS), or web application development and interface skills. Two (2) years of the required experience must have been in a lead capacity.

OR

Two (2) years of experience performing duties as a Software Analyst III with the City of Modesto.

Other Requirement:

Specified positions must possess a valid California Driver's License and have a satisfactory driving record; and be able to pass a POST level background investigation.

WORKING CONDITIONS

Environmental Conditions:

Assignments may include office and field environment; positions may require working evenings including weekend and holiday assignments, and traveling to and from site to site.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for sitting, standing, bending, and stooping for prolonged periods of time; using various office equipment including a computer screen and keyboard.

## SYSTEMS ENGINEER I/II

Class specifications are intended to present a descriptive list of the range of duties performed by employees in these classes. Specifications are not intended to reflect all duties performed within the job.

### DEFINITION

Under general direction, to manage a variety of network operating systems or Local Area Networks/Wide Area Networks (LAN/WANs), telecommunications networks and/or mid to high-end computing platforms, Network Operating Systems (NOS). To analyze, plan, install, evaluate, monitor, test and maintain systems and application software in a personal computer, client/server, or web environment, and to perform other related duties as required. Assignments may specialize in the area of LAN/WAN systems, operating systems and/or telecommunications. Duties assigned to this class may include supervision of staff and/or include technical assignments.

### DISTINGUISHING CHARACTERISTICS

The Systems Engineer I is the fully qualified, professional-level class in this series. Competent to perform a variety of analytical/ technical duties, positions are characterized by the presence of general guidelines from which to make decisions and the availability of supervision in non-routine circumstances. Incumbents work with complex and highly sophisticated network operating systems, LAN/WAN projects, or telecommunications projects. Positions in this class are flexibly staffed. Incumbents may only advance to the II level after a minimum of 24 months as a System Engineer I, receive a satisfactory performance evaluation, meet the requirements of the System Engineer II, pass the appropriate proficiency standard rating, and with approval of Chief Information Officer.

The Systems Engineer II is the highly qualified, senior-level class in this series. Competent to perform a variety of analytical/technical duties, this position requires an in-depth knowledge of one or more of the specialty areas. Incumbents manage complex and highly sophisticated network operating systems or LAN/WAN projects. Generally, duties assigned at the Systems Engineer II level may include supervision of staff and technical functions performed with greater independence than the Systems Engineer I classification.

### SUPERVISION RECEIVED AND EXERCISED

The Systems Engineer I does not supervise other staff while the Systems Engineer II may be required to supervise the Systems Engineer I and/or other assigned staff. The Systems Engineer I/II generally receives supervision from the higher-level Systems Engineer III, or as necessary from higher-level management staff.

### ESSENTIAL AND MARGINAL FUNCTION STATEMENTS:

Essential and other important responsibilities and duties may include, but are not limited to, the following:

#### Essential Functions:

##### System Engineer I:

- Establish standards and procedures relating to operating systems software products.
- May assign work or provide technical guidance.
- Utilize current and emerging networking, communications or operating system technologies.
- Monitor the overall performance of operating systems and communications software, and resolve problems as required.
- May perform project cost estimates and ensure billing procedures and costs are correct, timely, and within applicable accounting principles.
- Assist with the development and implementation of project plans.
- Keep current and aware of "state-of-the-art" information technology.

##### System Engineer II: (In addition to System Engineer I)

- Plan, install, evaluate, monitor and maintain client/server operating system releases, enhancements and/or application software.
- Supervise, evaluate and coach assigned staff including maintaining discipline and ensuring all rules, policies and procedures are enforced; advise and counsel subordinates; follow up on problems and complaints; participate in the selection of staff.
- Oversee, direct and train staff in the analysis, monitoring and fine-tuning of the City's standard operating systems.
- Work with department management, internal customers, and information technology professionals to define automated solutions to short and long-range computer services and integrated network needs.
- Manage and support client/server application software products installed throughout the City including connectivity with multiple remote sites.
- Perform data base administration on the City's client/server environment.

System Engineer II: (In addition to System Engineer I)-continued

- Work with the organizational team and vendor personnel as appropriate regarding changes to existing systems or to resolve technical questions related to the operating system.
- Establish operational and technical procedures for the utilization of client/server systems and program products.
- Monitor system performance and evaluate system status and resources; develop and write scripts to address the monitoring and evaluation as needed.
- Coordinate hardware installation, configuration and maintenance.
- Prepare and develop budget recommendations related to client/server environment.
- Provide resolution to systems errors and/or problems as they occur; apply "fixes" to system and program product software.

**When Assigned to LAN/WAN System Engineering:**

System Engineer I:

- Assist with the execution of Networking/Communications (LAN/WAN) projects.
- Assist in developing LAN/WAN system requirement definitions.
- Assist in developing functional and technical specifications.
- Participate in LAN/WAN installations and configurations.
- Assist with the quality execution of LAN/WAN task(s), within budget while maintaining the schedule integrity.
- Assist in resolving LAN connectivity issues and maintaining LAN and Internet connections.
- Assist with LAN/WAN upgrades, support, and maintenance.
- Stay current on emerging networking/communications technologies.

System Engineer II: (In addition to System Engineer I)

- Carry out the execution of Networking/Communications (LAN/WAN) projects that are larger in scale and complexity.
- Develop LAN/WAN system requirement definitions and functional and technical specifications.
- Assume responsibility for the quality execution of LAN/WAN task(s), within budget while maintaining the schedule integrity.
- Resolve LAN connectivity issues and maintain LAN and Internet connections.
- Play a key role with LAN/WAN upgrades, support, and maintenance.
- Develop cost data used for LAN/WAN project cost estimating.
- Carry out LAN/WAN system analysis, at the workgroup, department or enterprise level.
- Design and engineering of LAN/WAN installations.

**When Assigned to Network Operating Systems Engineering:**

**System Engineer I:**

- Assist with the installation and maintenance of Network Operating Systems (NOS) on small to medium projects.
- Participate in reviewing new network operating systems and enhancements.
- Resolve basic system errors and problems as they occur applying the appropriate fixes to those problems.
- Interface with IT staff and users as appropriate, regarding changes to existing system software or to resolve technical problems regarding changes to existing system software.
- Assist in documenting standards and procedures developed by senior staff as it relates to network operating systems.
- Monitor the overall performance of the network operating systems and communications software, and resolve problems as required.

**System Engineer II: (In addition to System Engineer I)**

- Carry out the installation and maintenance of Network Operating Systems (NOS) projects that are larger in scale and complexity.
- Participate in reviewing and evaluating new network operating systems and enhancements and assist in planning their installation.
- Resolve system errors and problems as they occur applying the appropriate fixes to those problems.

**When Assigned to Telecommunications:**

**System Engineer I:**

- Assist with the installation, repair, and maintenance of telecommunications systems and equipment.
- Evaluate projects and estimate costs as required.
- Assist with the design of telephone systems and networks to meet departmental needs, including telephone system and network traffic analysis.
- Assure that Federal Communication Commission requirements are met in regard to licensing, operating, and the technical performance of wireless communications equipment.
- Prepare Federal Communication Commission license applications.

**System Engineer II: (In addition to System Engineer I)**

- Perform the installation, repair, and maintenance of telecommunications systems that are larger in scale and complexity.
- Participate in reviewing and evaluating new telecommunications systems and enhancements and assist in planning their installation.

System Engineer II: (In addition to System Engineer I) – Continued

- Prepare and review detailed final construction plans for specifications, special conditions, agreements, and instructions.
- Design and prepare plans and develop specifications for current and future city communications systems and networks, including computer-assisted communications systems and control systems.
- Advise, assist, and instruct operating and maintenance personnel in matters pertaining to all phases of wireless and wired communications systems.

Marginal Functions:

Perform related duties as assigned.

QUALIFICATIONS:

Knowledge of:

Systems Engineer I:

- E-mail systems.
- Systems Engineering problem solving and solution development.
- Trends in data processing and/or telecommunications.
- Data base administration concepts.
- Analyzing problems and developing solutions.
- **LAN/WAN** - TCP/IP communications protocols.
- **LAN/WAN** - Ethernet.
- **LAN/WAN** - Installation of routers, hubs and switches.
- **LAN/WAN** - Implementation and administration of network operating systems such as Novell NetWare and Microsoft NT.
- **LAN/WAN** - Network remote dial-up technologies.
- **LAN/WAN** - Local Area Networks, configuration, and topologies with departmental LANs.
- **LAN/WAN** - LAN/WAN maintenance and support.
- **LAN/WAN** - Web Internet/Intranet servers.
- **LAN/WAN** - Wide Area Networks, configuration, and topologies.
- **NOS** - Researching and evaluating micro and mini hardware, operating systems, and communications software.
- **NOS** - Analyzing Systems Engineering problems and developing solutions.
- **NOS** - Network Printing and Print Servers.
- **Telecom** - Data communications and telecommunications.
- **Telecom** – Telephone network design, configuration, and provisioning.
- **Telecom** – PBX and carrier network technologies and protocols.

Systems Engineer I: - Continued

- **Telecom** – Radio frequency coordination and Federal Communication Commission licensing process.
- **Telecom** – Voice messaging systems.
- **Telecom** - Local and long distance carrier providers and rates.
- **Telecom** – Automated Call Distribution (ACD) systems.
- **Telecom** – Interactive Voice Response (IVR) systems.

Systems Engineer II: (In addition to System Engineer I)

- Principles, practices and techniques of information systems management including applications, design, hardware and software options for administrative and business-oriented application.
- Methods and techniques for project management including identifying project task, scope, team building, resource allocation, scheduling/timelines, and communicating the deliverables/results.
- Principles and practices of supervision including selection, training, evaluation and discipline.
- Accounting principles, statistical methods, business administration principles, organization techniques and management procedures.
- Computer operating environments such as UNIX, Microsoft Windows, and Novell.
- Telecommunications including WAN and LAN topologies, hubs, routers, bridges, modems and high-speed data communication technology.
- Network protocols including TCP/IP and IPX/SPX.
- Principles and techniques of budgeting.
- Systems documentation procedures and methods; systems and network security administration.
- **LAN/WAN** – Industry standard LAN/WAN, communications protocols, and network speeds.
- **LAN/WAN** - Installation and configuration of routers, hubs, bridges, switch routers, and switches.
- **LAN/WAN** - Designing and deploying network architecture and infrastructure.
- **LAN/WAN** - Network remote dial-up technologies.
- **LAN/WAN** - Local Area Networks, configuration, and topologies; Departmental LANs, WANs, and multiple server LANs; LAN/WAN implementation, maintenance, and support.
- **LAN/WAN** - Internet/Intranet/Extranet web servers.
- **LAN/WAN** - Cross platform communications.
- **NOS** - Research and evaluation methods associated with micro and mini hardware, operating systems, and communications software.
- **NOS** - Analyzing Systems Engineering problems and developing solutions.
- **NOS** - Network Printing such as HP JetDirect and UNIX print daemons.

Systems Engineer II: (In addition to System Engineer I) - Continued

- **NOS** - Capabilities and limitations of current micro and mini hardware, operating systems, and communications software.
- **NOS** - Implementing and managing network operating systems such as Novell NetWare and Microsoft, and administering network security.
- **Telecom** - Advanced knowledge of data communications and telecommunications and integration with networks.
- **Telecom** – Advanced knowledge of telephone network design, configuration, and provisioning.
- **Telecom** - Extensive knowledge of PBX and carrier network access technologies and protocols.
- **Telecom** – Principles and practices of current trends in telecommunications engineering: wireless and wired networks, systems, and equipment.
- **Telecom** – Modern methods and techniques used in the design and construction of a wide variety of telecommunications engineering projects.
- **Telecom** – Applicable laws and regulatory codes relevant to design and construction.
- **Telecom** – Advanced knowledge of voice messaging systems.
- **Telecom** - Extensive knowledge of local and long distance carrier providers and rates.
- **Telecom** – In-depth knowledge of Automated Call Distribution (ACD) systems.
- **Telecom** – Advanced knowledge of Interactive Voice Response (IVR) systems.

Skill in:

Systems Engineer I:

- Organizing work, establishing priorities, and meeting deadlines.
- Following verbal and written instructions.
- Communicating effectively in English, both verbally and in writing.
- Understanding technical materials.
- Developing and maintaining effective working relationships.
- Working well in a team environment as well as independently.
- Working under the direction of immediate supervisor.
- Prioritizing tasks based on importance to the business.
- Carrying out multiple tasks simultaneously.
- Assisting in the preparation of written reports.
- Working with, control, and maintain sensitive, confidential information according to legal standards and/or City regulations as required.
- Preparing required documentation, including both program-level and user-level documentation.
- Analyzing and develop logical solutions and alternatives to problems.

Systems Engineer I (continued):

- Remaining current in software development techniques, technology, and tools.
- **LAN/WAN** – Carrying out networking/communications projects.
- **NOS** – Assisting in installing, implementing, and monitoring non-application software associated with Intel based and mid-range system computer operating systems including but not limited to Unix, Novell, or Microsoft Windows platforms.
- **Telecom** - Preparing and evaluating engineering plans, programs and specifications for communications systems
- **Telecom** - Investigating and analyzing communications operations and problems, and effect improved procedures and solutions
- **Telecom** – Designing, planning, installing, and maintaining complex wireless and wired networks, and related electronics equipment.

Systems Engineer II: (In addition to System Engineer I)

- Preparing and presenting oral and written reports effectively.
- Analyzing complex procedures and instructions, and developing logical conclusions.
- Carrying out positive time management strategy.
- Carrying out networking/communication/telecommunications project life cycle from analysis through deployment.
- Solving complex hardware and software problems given minimal diagnosis.
- Providing excellent customer service and technical direction to other staff members.
- Understanding technical material and presenting it in a clear and concise manner to technical and non-technical persons.
- Supervising, training, planning, organizing and reviewing the work of assigned staff.
- **LAN/WAN** - Installing, configuring, and supporting complex router configurations, switches and switch routers including VLANs, Internet/Intranet routers in complex TCP/IP configurations, and securing communication solutions.
- **LAN/WAN** - Installing, configuring, and supporting security devices such as firewalls and intrusion detection systems (IDS).
- **NOS** - Installing, configuring, and supporting network operating systems such as Microsoft Windows, Unix, and Novell NetWare.
- **NOS** - Installing, configuring, and supporting Web servers: Internet, Intranet, and Extranet.
- **NOS** - Installing, configuring, and supporting UNIX servers, network routers, hubs, bridges, and coordinating network security.
- **Telecom** - Conducting and obtaining approval of feasibility study reports for telecommunications projects

Ability to (all levels):

- Reason logically, draw valid conclusions, and make appropriate recommendations.
- Perform medium-heavy lifting up to 75 lbs.

EXPERIENCE AND TRAINING GUIDELINES:

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

**System Engineer I**

Training:

Equivalent to an Associate of Arts / Science degree from an accredited college with major coursework in a computer related field including: computers, business information systems or other related field, or a professionally recognized computer systems engineering certification acceptable to the City of Modesto.

Experience:

Equivalent to two (2) years of relevant experience performing network administration, installing, implementing and monitoring communications or operating system software and hardware, and/or maintaining high-end computing platforms.

**System Engineer II**

Training:

Equivalent to a Bachelor's degree from an accredited four-year college or university in a computer related field including: business information systems, public/business administration, or other related field. A professionally recognized systems engineering certification recognized by the City of Modesto may substitute for up to one year of the required education.

Experience:

Equivalent to three (3) years of relevant, increasingly responsible experience performing network administration, installing, implementing and monitoring communications or operating system software and hardware, and/or maintaining high-end computing platforms; automated business systems, including technological project management, and the implementation of new systems using client server technology.

OR

Experience - Continued

Two (2) years of experience performing duties as a Systems Engineer I with the City of Modesto.

Other Requirement:

Specified positions must possess a valid California Driver's License and have a satisfactory driving record; and pass a POST level background investigation.

WORKING CONDITIONS

Environmental Conditions:

Assignments may include office and field environment; positions may require working evenings including weekend and holiday assignments, and traveling to and from site to site.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for sitting, standing, bending, and stooping for prolonged periods of time; using various office equipment including a computer screen and keyboard; requires medium-heavy lifting up to 75 lbs.

## SYSTEMS ENGINEER III

Class specifications are intended to present a descriptive list of the range of duties performed by employees in these classes. Specifications are not intended to reflect all duties performed within the job.

### DEFINITION

The Systems Engineer III job class is assigned as a Principal Technical Consultant. As a Principal Technical Consultant, incumbents will perform a variety of systems engineering duties of a high degree of complexity including the overall management of complex networks encompassing one or more of the following specialty areas:

- Local/Wide Area Networks.
- Network Operating Systems.
- Telecommunications Networks.

The successful candidate is expected to have familiarity with all of these areas, but must have a depth of experience and expertise in at least one of them.

### DISTINGUISHING CHARACTERISTICS

As Principal Technical Consultant, experience in carrying out development projects include: assuming total responsibility for the technical aspects of networks and/or network operating systems, knowledge and experience with structured life cycle development methodologies, analysis of business and service delivery requirements and developing well-defined procedures and programs to deliver practical system solutions. The Principal Technical Consultant is considered the master level, capable of solving the most complex issues in at least one of the specialty areas.

The System Engineer III will manage multiple programs and projects performing complex professional level work requiring strong technical and managerial skills, intense concentration, and attention to detail.

### SUPERVISION EXERCISED AND RECEIVED

The Systems Engineer III supervises assigned Information Technology staff. The Systems Engineer III receives general direction from higher-level management.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS:

Essential and other important responsibilities and duties may include, but are not limited to, the following:

Essential Functions:

- Use formal project management techniques and tools to effectively manage the scope of work, project costs, technical resources, and maintain schedule integrity; utilize project management software; make modifications and adjustments as required to ensure projects are delivered on time and within budget.
- Communicate and work with third-party applications, vendor sales, and support.
- Assume a key role in the execution of professional IT consulting/development projects.
- Manage complex business changes in the implementation of emerging Information Technologies.
- Interface with appropriate department staff in defining systems standards and operating procedures.
- Utilize current and emerging networking, communications or operating system technologies.
- Prepare activity reports, progress reports, and correspondence.
- Review, interpret, and maintain contracts.
- Oversee the work of contractors involved with City IT projects and systems.
- Actively monitor systems performance, architecture changes, and be aware of future upgrades in an effort to proactively avert potential problems.
- Carry out business process analysis/re-engineering, using a formal and proven methodology.
- May supervise, evaluate and coach assigned staff including maintaining discipline and ensuring all rules, policies and procedures are enforced; advise and counsel subordinates; follow up on problems and complaints; participate in the selection of staff.
- Review system design and end-user documentation prepared by other project staff.
- Work with the Information Technology Management Team and customers to resolve staffing and business issues.
- Manage the development, production, and execution of training programs.
- May develop policies and procedures and assure they are carried out.
- Provide technical guidance and assistance to other staff associated with Information Systems.
- Monitor the overall performance of systems and resolve complex problems as required.

Essential Functions - Continued

- **LAN/WAN** - Manage the execution of Networking/Communications (LAN/WAN) projects of scale and complexity.
- **LAN/WAN** - Perform LAN/WAN system requirement definitions, identifying end user operational or customer service delivery needs.
- **LAN/WAN** - Assume management responsibility for LAN/WAN projects including: scope of work, quality execution of task(s), resources, staff allocation, planning and management, cost controls, and maintenance of schedule integrity.
- **LAN/WAN** - Manage and/or participate in network/communications upgrades, support, and maintenance.
- **LAN/WAN** - Perform LAN/WAN systems analysis at the workgroup, department or enterprise level.
- **LAN/WAN** - Perform LAN/WAN design and engineering.
- **LAN/WAN** - Develop functional and technical specifications used to procure and deploy networking/communications systems.
- **NOS** - Manage the installation and maintenance of Network Operating System (NOS) projects of scale and complexity.
- **NOS** - Play a key role in reviewing and evaluating new operating systems and enhancements, developing purchasing guidelines, and aid in planning their installation.
- **NOS** - Work with IT staff, vendors, and system users regarding changes, anticipated upgrades, and future enhancements to existing systems software or to resolve / prevent technical problems.
- **NOS** - Establish standards and procedures relating to operating system software products.
- **Telecom** - Manage the installation, repair, and maintenance of telecommunications system projects that are larger in scale and complexity.
- **Telecom** - Manage the review and evaluation of new telecommunications systems and enhancements, develop purchasing guidelines, and aid in planning their installation.
- **Telecom** - Develop the vision, promote the visionary plan, and manage the procurement for the current and future city communications systems and networks, including computer-assisted communications systems and control systems.
- **Telecom** - Establish standards and procedures relating to telecommunications systems.

Marginal Functions:

Perform related duties as assigned.

QUALIFICATIONS:

Knowledge of:

- Quality assurance programs.
- Technology advancements and how they can/will be applied within the City's current/future business models.
- Information Technology best practices.
- Advanced knowledge of voice over IP.
- Principles of budget preparation and expenditure control.
- Methods and techniques of statistical analysis, effective technical report preparation and presentation.
- Government business practices.
- Quality assurance programs.
- Business issues related to implementing systems.
- Disciplined project management methodologies, including project estimating, planning, executing, and examining business or functional issues including technical, operational, and management concerns.
- Principles and practices of organization, administration, staff development and supervision, training, and personnel management.
- Organizational and management practices as applied to the analysis and evaluation of programs, policies, and operational needs.
- Systems Engineering problem solving and solution development.
- **LAN/WAN** - Industry standard networking and communications protocols, standard speeds, network design, management and security.
- **LAN/WAN** - Installation, configuration, and troubleshooting of routers, hubs, and bridges.
- **LAN/WAN** - Implementing and managing network operating systems such as Novell and NT.
- **LAN/WAN** - Wide Area Networks, backbone network; Asynchronous Transfer Mode (ATM) and Regional Networks.
- **LAN/WAN** - Internetworking and voice; bridges and routers; design considerations building versus campus voice systems.
- **NOS** - Research and evaluation methods associated with micro and mini hardware, operating systems, and communications software.
- **NOS** - Analyzing systems engineering problems and developing solutions.
- **NOS** - Capabilities and limitations of current micro and mini hardware, operating systems, and communications software.
- **NOS** - Implementing and managing network operating systems such as Novell NetWare and Microsoft, and administering network security.
- **Telecom** - Extensive knowledge of data communications and telecommunications with an emphasis in networking.
- **Telecom** - In-depth understanding of network design, configuration, and provisioning.

- **Telecom** - Extensive knowledge of key network access technologies and protocols.

Knowledge of - Continued

- **Telecom** - Telecommunications equipment including PBX and Centrex phone systems.
- **Telecom** - Router installation and the best use of high speed (e.g. T1) information lines.

Skill in:

- Remaining current with the latest trends and developments in the computer, networking, and telecommunications industry.
- Applying knowledge of industry best practices, business process re-engineering or change management methods.
- Making sound judgment and decisions in accordance with established guidelines.
- Creating and implementing project plans.
- Organizing work and the work of others, establishing procedures, and assuring deadlines are met.
- Preparing project proposals including the submission of budget items.
- Managing project costs, resources, and schedules.
- Transferring knowledge, providing direction, and supervising, evaluating, and training staff.
- Designing and developing presentations, documentation, and training.
- Preparing workflow and process diagrams, and cost/benefit analysis.
- Organizing and managing small and large teams for the purpose of carrying out projects and programs.
- Analyzing procedures and data, and developing logical conclusions.
- Managing the technical aspects of the assigned systems, from analysis through deployment and management.
- Providing technical direction and supervising both technical and non-technical staff.
- **LAN/WAN** - Carrying out and/or managing networks design, development, deployment, support, and maintenance.
- **LAN/WAN** – Planning system architecture, installing, configuring, and supporting network operating systems such as Microsoft Windows, Unix, and Novell NetWare.
- **LAN/WAN** – Planning system architecture, installing, configuring, and supporting complex router configurations, hubs, and bridges, switches and switch routers including VLANs, Internet/Intranet routers in complex TCP/IP configurations and VPN solutions.
- **LAN/WAN** – Managing network security including, planning system architecture, installing, configuring, and supporting security devices such as firewalls and intrusion detection systems (IDS).
- **LAN/WAN** - Supporting desktop Operating Systems.

Skill in – Continued

- **NOS** - Managing the planning, installation, evaluation, monitoring, and implementation of non-application software associated with computer operating systems such as Unix or Microsoft Windows.
- **NOS** – Planning system architecture and managing the installation, configuration, and support of Web servers such as Internet, Intranet, and Extranet.
- **NOS** – Planning system architecture and managing the installation, configuration, and support of IBM AIX and UNIX servers, network routers, hubs, bridges, and coordinate network security.
- **Telecom** – Planning system architecture and installing, configuring, and supporting telecommunications systems and associated infrastructure.

Ability to:

- Communicate clearly and concisely, both verbally and in writing.
- Work independently.
- Effectively manage multiple projects simultaneously.

EXPERIENCE AND TRAINING GUIDELINES:

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Training:

Equivalent to a Bachelor's degree from an accredited four-year college or university in a computer related field, business information systems, public/business administration, or closely related field.

Experience:

Equivalent to four (4) years of experience performing network administration, installing, implementing and monitoring communications or operating system software and hardware, and/or maintaining high-end computing platforms; automated business systems, including technological project management, and the implementation of new systems using web-based and client server technology.

OR

Two (2) years of experience performing duties as a Systems Engineer II with the City of Modesto.

Other Requirement:

Specified positions must possess a valid California Driver's License and have a satisfactory driving record; and be able to pass a POST level background investigation.

WORKING CONDITIONS

Environmental Conditions:

Assignments may include office and field environment; positions may require working evenings including weekend and holiday assignments, and traveling to and from site to site.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for sitting, standing, bending, and stooping for prolonged periods of time; using various office equipment including a computer screen and keyboard.

## SYSTEMS TECHNICIAN I/II/III

Class specifications are intended to present a descriptive list of the range of duties performed by employees in these classes. Specifications are not intended to reflect all duties performed within the job.

### DEFINITION

Under general supervision, to troubleshoot, analyze and resolve system/application related support requests including specialties such as Help Desk, GIS and Web, to assist and train users in personal computer hardware/software, and to provide systems support and to perform related work as assigned.

### DISTINGUISHING CHARACTERISTICS

Systems Technician I is the entry-level class of the series. Initially under close supervision, incumbents learn and perform a variety of functions related to support of PC's, Networks, Operating Systems, and Applications. Positions in this class are flexibly staffed. Incumbents normally advance to the II level after a minimum of 12 months, receive satisfactory performance evaluations, and meet the requirements of Systems Technician II.

Systems Technician II is the qualified, assistant level class of this series. Competent to perform a variety of technical duties including the maintenance and support of PC's, mapping, or web development, positions are characterized by the presence of general guidelines from which to make decisions and the availability of supervision in non-routine circumstances. Positions at this level are accomplished users of common desktop and/or specialized applications software related to the area of assignment. Specific assignments include Systems, Help Desk Specialist, GIS and Web. Duties may vary depending on the division to which assigned. Incumbents may only advance to the III level after a minimum of 12 months as Systems Technician II, have passed the appropriate proficiency standard rating, and with approval of CIO.

Systems Technician III is the highly qualified and diversified, associate level class of this series, competent to perform a multitude of support, maintenance, and applications development duties. Incumbents work with minimal supervision, and generally receive only occasional assistance. Employees in the associate level class may review, direct, supervise, and train the lower level Systems Technician I and II.

### SUPERVISION EXERCISED AND RECEIVED

The Systems Technician I & II positions do not provide supervision to other staff while the Systems Technician III may be required to supervise the Systems Technician I/II positions and/or other assigned staff. The Systems Technician I/II/III will generally receive supervision from higher level management.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS - Essential and other important responsibilities and duties may include, but are not limited to, the following:

- Assist users to locate and resolve personal computer problems which may include: communications, hardware and software, GIS map/data maintenance, or web page maintenance.
- Work as part of a team that troubleshoots, analyzes, and resolves system/application related support requests.
- Keep users informed as to project or program status.
- Assist in providing citywide training for hardware, software, and/or applications for potential purchases or modifying City standards.
- Provide quality assurance oversight on various projects, programs, applications or data sets.
- Assist in securing information required for completion of projects.
- Assist in testing and maintaining microcomputer hardware and software.
- Perform research and development tasks in personal computers and related software.
- Provide quality assurance oversight on various projects, programs, applications or data sets.
- Provide technical support to customers of standard city hardware, software, and applications.
- Assist with the development of procedures.
- May research and evaluate new advances in Information Technology; perform project management duties (Level III).

### When assigned to Systems:

- Specialize in the testing, configuration, and installation of new microcomputer hardware and software.
- Assist in researching and evaluating new advances in personal computer hardware and software.
- Troubleshoot and perform minor maintenance on personal computer hardware, software, printer, and network related computer problems.
- Assist in the installation, troubleshooting, maintenance, and administration of Local Area Networks (LAN).
-

**When assigned to Systems - Continued**

- Install personal computer cables, personal computer devices, and hardware upgrades as assigned.
- Assist in maintaining inventory of existing and newly acquired computer hardware and software.
- Assist with the maintenance of cable route maps, software license, and version tracking.

**When assigned to Help Desk:**

- Diagnose and resolve problems in the area of hardware, applications, and operating systems on Windows based PC's over the phone.
- Assist callers with connectivity problems in a network environment.
- Dispatch service to provide advanced levels of support when necessary.
- Keep users informed as to the status of open calls, per established procedures.
- Detail users problems into problem management software.
- Routinely check the Help Desk after-hours voice mail and respond to requests or service appropriately.
- Assist in maintaining inventory of existing and newly acquired computer hardware and software.
- Assist in maintaining cable route maps, software license, and version tracking.

**When assigned to GIS:**

- Assist with the development, maintenance, and quality assurance of geographic and tabular GIS data sets.
- Maintain meta-data for GIS data sets.
- Carry out data entry needs, including geocoding services.
- Prepare working and presentation maps, reports, and documents on an as needed basis.
- Maintain printing and plotting devices.
- Collect data from field inventory and process internally.

**When Assigned to WEB:**

- Develop and maintain web pages for city-hosted sites.
- Prepare graphics and banner ads.
- Ensure Meta tag and all text data is complete.
- Assist in securing information required for completion of projects.
- Monitor site for broken links, correcting as necessary.
- Provide technical support to customers for Internet related tasks.

Marginal functions:

Performs related duties as assigned.

QUALIFICATIONS

Knowledge of:

Systems Technician I:

- Depending on assignment, special interest areas including Systems, Help Desk, GIS, and Web.
- Personal Computer and Server systems.
- Principles and techniques of computer systems analysis and programming.
- Local Area Network (LAN) and Wide Area Network (WAN) concepts, terminology, and operating systems.
- Principles of Information Systems security.
- Computers, information systems, and Internet technologies and applicable to specialized concepts related to Systems, Help Desk, GIS, or Web.
- **GIS** – Concepts of GIS, Global Positioning Systems, automated mapping systems and database management.

Systems Technician II: (In addition to the requirements of the I, and dependent upon assignment):

- **GIS** - Principles of cartography including methods, techniques, and symbolism.
- **GIS** - Principles of Geographic Information Systems, Global Positioning Systems, automated mapping systems, and database management systems and their applied use in the working environment.
- **WEB** – HTML programming.
- **WEB** - Database connectivity; computer graphic applications and appropriate use of graphics formats.

Systems Technician III: (In addition to the requirements of the I & II, and dependent upon assignment):

- Database concepts.
- Experience with database systems used by the City of Modesto.
- **GIS** - Working knowledge of Geographic Information Systems, Global Positioning Systems, automated mapping systems, and database management systems and their applied use in the working environment.
- **WEB** - HTML and Active Server Page programming.

Skill in:

Systems Technician I

- Developing and maintaining effective working relationships with those contacted in the course of the work.
- Operating a personal computer and related office equipment.
- Maintaining attention to detail despite interruptions.
- Communicating effectively, both verbally and in writing.

Systems Technician I (continued)

- Following oral and written instructions.
- Documenting and maintaining accurate computer records and procedures.
- Working with, controlling, and maintaining sensitive, confidential information according to legal standards and/or city regulations as required.
- Organizing and managing assigned tasks and requests from customers.
- Working in a team environment or independently, as conditions require.
- Providing excellent customer service and support.
- Working with word processing, database, spreadsheet, and presentation software.
- **Help Desk, Systems** - Troubleshooting, configuring, performing simple repairs, and installing microcomputer and server hardware/software.
- **Help Desk** - Assisting in maintaining inventory of existing and newly acquired computer hardware and software.
- **GIS** - Working with GIS software.
- **GIS** - Working with AutoCAD or other Computer Aided Drawing software tools.
- **GIS** - Producing maps that satisfy departmental requests.
- **WEB** - Creating/editing/updating web pages in standard formats.
- **WEB** - Preparing graphics and banner ads.
- **WEB** - Working with standard design and layout tools.
- **WEB** - Assisting in the design and implementation of web-based applications.

Systems Technician II: (In addition to the requirements of the I, and dependent upon assignment):

- Using initiative and sound, independent judgment within established guidelines.
- Prioritizing work and coordinating several activities simultaneously.
- Work with vendors to resolve application issues.
- **Help Desk** - Assisting in maintaining cable route maps, software license, and version tracking.
- **GIS** - Working with and interpreting maps including a variety of engineering, planning, assessment, and other maps.

Systems Technician III: (In addition to the requirements of the I & II, and dependent upon assignment):

- Leading team to implement and deliver a consistent, reliable, accurate, and cost effective support environment.
- Directing, scheduling, training, and coaching the work of subordinate personnel.
- Independently addressing complex business and technical issues.
- Working with minimal supervision.
- **GIS** - Work with specialized GIS software.
- **GIS** - Modify GIS procedures utilizing macro tools.
- **WEB** - Creating, modifying, and maintaining advanced scripted and dynamic web pages and applications using standard formats.
- **WEB** - Creating database connectivity components.

Ability to: (All levels)

- Learn specialized functions, procedures and technical support tasks related to the assignment.
- Communicate tactfully and effectively with the public and remain calm and follow designated protocols in stressful and/or emergency situations.
- Read and understand job-related technical manuals.
- Coordinate with customers to ensure successful completion of projects.
- Assist in obtaining information required for completion of projects.
- Perform occasional medium lifting up to 50 lbs.

Systems Technician I:

- **GIS** - Perform technical research in Geographic Information Systems.
- **WEB** - Review and place appropriate META information into HTML documents.

Systems Technician II: (In addition to the requirements of the I, and dependent upon assignment):

- **GIS** - Review and maintain meta-data.
- **WEB** - Verify link integrity within website.

Systems Technician III: (In addition to the requirements of the I & II, and dependent upon assignment):

- Analyze and solve problems in a timely manner.
- Possess strong analytical skills and be able to think fast when problems occur.
- **Help Desk, Systems** - Troubleshoot, configure, perform simple and complex repairs, and install microcomputer and server hardware/software.
- **GIS** - Work with GPS hardware/software tools for data collection.
- **WEB** - Assist with server configuration and maintenance tasks.

Experience and Training Guidelines:

Any combination of experience and training that would likely provide the required knowledge, skills and ability is qualifying. A typical way to obtain the knowledge, skills and ability would be:

**Systems Technician I:**

Training:

Equivalent to graduation from high school or GED supplemented by specialized training in subjects directly related to the specific assignment.

Experience:

Six months of responsible paid or unpaid computer related work experience including proficiency in related technology used by the City of Modesto in one of the assigned areas.

**Systems Technician II:**

Training:

Equivalent to graduation from high school or GED supplemented by specialized training in subjects directly related to the specific assignment.

Experience:

Eighteen months of responsible paid full time computer related work experience including proficiency in related technology used by the City of Modesto in one of the assigned areas.

or

Twelve months of experience performing duties as a Systems Technician I with the City of Modesto.

**Systems Technician III:**

Training:

Equivalent to 15 semester units of college coursework in a related area of study or possession of a recognized computer certification accepted by the Information Technology Department may be substituted for up to six months of the required experience.

Experience:

Two years, six months of responsible paid computer related work experience including proficiency in related technology used by the City of Modesto in one of the assigned areas.

or

Twelve months of experience performing duties as a Systems Technician II with the City of Modesto.

OTHER REQUIREMENTS:

Specified positions must possess a valid California driver's license and have a satisfactory driving record; and be able to pass a POST level background investigation.

WORKING CONDITIONS

Environmental Conditions:

Assignments may include office and field environment; positions may require working evenings including weekend and holiday assignments, and traveling to and from site to site.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for sitting, standing, bending and stooping for prolonged periods of time; using various office equipment including a computer screen and keyboard; requires occasional medium lifting (up to 50 lbs.).

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-391**

**A RESOLUTION AMENDING EXHIBIT "A" OF RESOLUTION 2003-330, ENTITLED "A RESOLUTION GRANTING SALARY AND BENEFIT CHANGES TO UNREPRESENTED MANAGEMENT AND CONFIDENTIAL EMPLOYEES, INCLUDING CHARTER OFFICERS AND EXECUTIVES, EFFECTIVE JULY 1, 2003 AND RESCINDING RESOLUTION NO. 2002-307 AND 2003-81A AND AMENDING EXHIBIT A OF RESOLUTION NO. 2003-331 EFFECTIVE JUNE 30, 2003," TO ESTABLISH A SALARY RANGE FOR DEPUTY CHIEF INFORMATION OFFICER AT RANGE 2452, EFFECTIVE AUGUST 4, 2004.**

WHEREAS, Resolution No. 2003-330 granted salary and benefit changes to Unrepresented Management and Confidential Employees including Charter Officers and Executives, effective July 1, 2003, and

WHEREAS, the City Council desires to amend Resolution No. 2003-330,  
NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

**SECTION 1. AMENDMENT TO RESOLUTION NO. 2003-330.**

Exhibit "A" entitled "City of Modesto Class Range Table, Unrepresented Management and Confidential Non-sworn Classes, Effective July 1, 2003," attached to Resolution No. 2003-330, is hereby amended as shown on the amended Exhibit "A" entitled, "City of Modesto Class Range Table, Unrepresented Management and Confidential Non-sworn Classes, Effective August 4, 2004," which is attached hereto and made a part hereof as though set forth in full herein. Said amended Exhibit "A" establishes the Salary Range for Deputy Chief Information Officer at range 2452.

**SECTION 2. EFFECTIVE DATE.** This resolution shall become effective on and after August 4, 2004.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 4th day of August, 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Marsh, O'Bryant,  
Mayor Ridenour

NOES: Councilmembers: None

ABSENT: Councilmembers: Keating

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-393**

**A RESOLUTION REVISING THE POSITION CLASSIFICATION PLAN  
FOR THE CITY OF MODESTO.**

WHEREAS, a Position Classification Plan for the City of Modesto was adopted by Modesto City Council Resolution 88-338 pursuant to Rule 2 of the Personnel Rules and Regulations of the City of Modesto, and

WHEREAS, the City Manager has recommended to the Council amendments to the Position Classification Plan, and

WHEREAS, Rule 2.2 of the City of Modesto Personnel Rules provides that revisions to the Classification Plan shall be effective upon adoption of resolution of the City Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION I. CLASSIFICATIONS AMENDED. The Position Classification Plan of the City of Modesto is hereby amended to revise the job specifications for the following classifications:

1. Assistant Planner/Associate Planner
2. Assistant Risk Manager
3. Building Inspector I/II
4. Civil Engineering Technician I/II
5. Construction Inspector
6. Police Officer Trainee/Police Officer
7. Senior Building Inspector

8. Senior Construction Inspector
9. Supervising Construction Inspector
10. Tree Trimmer

Said classifications are being amended to revise the job specifications to more accurately reflect the requirements of the various job classifications.

SECTION 3. EFFECTIVE DATE. This resolution shall become effective on and after August 4, 2004.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 4th day of August, 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Marsh, O'Bryant, Mayor Ridenour

NOES: Councilmembers: None

ABSENT: Councilmembers: Keating

ATTEST: Jean Zahr  
JEAN ZAHR, City Clerk

JULY 2004

**~~LABORATORY & ENVIRONMENTAL MONITORING SUPERVISOR~~  
ENVIRONMENTAL LABORATORY SUPERVISOR**

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

DEFINITION

Supervise, plan, direct, and coordinate the City's Laboratory and Environmental Monitoring Program; to maintain the consistency of the City's Laboratory with State and Federal mandates, approved standards and quality assurance and control; to maintain consistency of the City's Environmental Monitoring Programs with State and Federal mandates; to direct the implementation of required sampling and testing; to direct the activities related to state, Federal and local regulations regarding stormwater and pretreatment sampling and industrial discharges into the City's wastewater collection system; to direct the monitoring, sampling and record keeping associated with compliance with discharge permits; to coordinate the development and maintenance of a data base regarding Industrial, pretreatment, Water Quality processes, and Water Quality discharge samples and testing, to correspond and write required documents associated with NPDES discharges; and to do related work as required.

DISTINGUISHING CHARACTERISTICS

This is a single-position, first level supervisor for the Laboratory and Environmental Monitoring functions. The incumbent is responsible for supervising two major programs consisting of laboratory and environmental sampling and directing the work of assigned staff, ensuring that programs are fully implemented and meet required standards and mandates. In addition, the incumbent has a major role in the development of new markets for water quality and water laboratory services.

SUPERVISION RECEIVED AND EXERCISED

Receives direction from the Deputy Director of Operations and Maintenance.  
Exercises direct and indirect supervision over technical and clerical support staff.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS – Essential and other important responsibilities and duties may include, but are not limited to, the following:

Direct Industrial and Water Quality Control sampling and testing programs and Laboratory Staff in accordance with regulations, standards, and quality assurance requirements.

Coordinate the development of additional markets for existing laboratory services and recommend further testing apparatus be purchased based on cost effectiveness or the need to meet regulatory requirements.

Coordinate with the Water Operations Division and other existing clients to make sure client monitoring, sampling, testing, and reporting needs are being met.

Supervise, evaluate and coach assigned staff including maintaining discipline and ensuring all rules, policies and procedures are enforced; advise and counsel subordinates; follow up on problems and complaints; participate in selection of staff.

Develop programs for the implementation and enforcement of environmental monitoring, sampling, and testing programs to protect collection systems, groundwater, and receiving waters in compliance with state, Federal, and local laws, regulations, and ordinances.

Develop and manage program budgets, projecting future goals and projects based on program elements, ensuring proper spending and funding.

Oversee development and submission of required reports for State and Federal regulatory agencies associated with programs.

Monitor and coordinates contractual service activities related to effluent discharges, storm water, and pretreatment sampling activities.

Meet with industry managers to discuss current pretreatment sampling needs and pending regulations.

Oversee the development and maintenance of a laboratory, water quality control, and environmental monitoring database.

ESSENTIAL FUNCTIONS, Continued:

Meet with various City and community groups and committees to discuss Laboratory and environmental monitoring issues.

MARGINAL FUNCTION STATEMENTS:

Perform related duties as assigned.

QUALIFICATIONS

Knowledge of:

Program planning and development methods and techniques.

Principles of budget development and fiscal monitoring.

Principles and practices of water/wastewater laboratory operations, maintenance, and services.

Approved related laboratory practices and procedures.

Pertinent State and Federal environmental health and water quality regulations.

Policies and procedures of the City's Environmental Compliance Program.

State and Federal laws, rules, regulations, requirements and procedures governing laboratory and pretreatment, and storm water sampling including applicable local ordinances, and related State and Federal regulations.

Chemical, biological, physical, and environmental sciences.

Principles and practices of environmental sampling and testing, methods and practices.

Functions and operations of State and Federal environmental health and regulatory agencies.

QUALIFICATIONS:

Knowledge of, Continued:

Sampling techniques and standards.

Computers and software used in laboratory testing and environmental sampling.

Principles of personnel administration including staff supervision, training, and performance evaluation.

Ability to:

Plan, develop, organize, implement, and direct laboratory and environmental monitoring programs and staff to ensure compliance with State and Federal programs.

Supervise and train staff to perform a variety of laboratory and environmental monitoring and associated activities.

Analyze, and interpret environmental data, reaching valid conclusions.

Prepare a variety of technical reports, which includes use of word processing and spreadsheet software.

Develop budget and conduct fiscal monitoring activities.

Prepare or oversee the preparation of a variety of technical program reports.

Operate a variety of office and technical equipment and computers in the performance of laboratory sampling and testing and environmental monitoring.

Effectively represent the Environmental Services Section of the Water Quality Control Division in contacts with the public, businesses, engineers, architects, and other City staff.

Establish and maintain cooperative working relationships.

Experience and Training Guidelines:

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

Three (3) years of experience performing laboratory analyses ~~chemical, biological, or microbiological analysis~~ and/or a variety of laboratory work including with emphasis on environmental monitoring, sampling, and analysis of water, wastewater or other closely related environmental samples, including at least one year of lead or supervisory experience

Training:

Education equivalent to completion of college degree in biology, chemistry, biochemistry, or closely related field.

License or Certificate

Possession of, or ability to obtain, an appropriate, valid California Driver's license.

Possession of a valid CWEA Grade II Laboratory Certificate within two and a half years (2.5 years) years of appointment. Possession of a CWEA Grade III Laboratory Certificate within four (4) years of appointment.

Completion of Hazardous Material Forty-Hour (40) First Responder Training, as prescribed by the State Office of Emergency Services within two (2) years of appointment.

WORKING CONDITIONS

Environmental Conditions:

Work is usually performed in office environment; some work is performed in varying temperatures and humidity; some exposure to dust; possible exposure to hazardous waste and materials; possible

Environmental Conditions, Continued:

exposure to gases, fumes, and a variety of pollutants; contact with other staff and the public.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for sitting for prolonged periods of time, and frequently standing and walking.

AUGUST 2004

### **ASSISTANT PLANNER ASSOCIATE PLANNER**

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

#### **DEFINITION**

To perform professional level work in the field of current and advance planning; and to provide information and assistance to developers and the public on planning related matters.

#### **DISTINGUISHING CHARACTERISTICS**

**Assistant Planner** - This is the entry level class in the professional planning series. This class is distinguished from the Associate Planner by the performance of the more routine tasks and duties assigned to positions within the series including the responsibility for assignments in the fields of current or advance planning which require the application of fundamental planning principles. Since this class is typically used as a training class, employees may have only limited or no directly related work experience.

**Associate Planner** - This is the full journey level class within the professional planning series. Employees within this class are distinguished from the Assistant Planner by the performance of the full range of duties as assigned including responsibility for the application of professional knowledge and skills to various municipal planning problems and projects and project supervision to professional and other planning employees. Responsibilities include the preparation of specific reports and plans with opportunity for independent judgment in planning work details and making technical determinations. Employees at this level receive only occasional instruction or assistance as new or unusual situations arise, and are fully aware of the operating procedures and policies of the work unit.

#### **SUPERVISION RECEIVED AND EXERCISED**

##### **Assistant Planner**

Receives general supervision from higher level Planning staff.

##### **Associate Planner**

Receives direction from higher level Planning staff.

**SUPERVISION RECEIVED AND EXERCISED** (Continued)

Depending on assignment, exercises direct supervision over less experienced professional and technical staff. ~~in assigned area.~~

**ESSENTIAL AND MARGINAL FUNCTION STATEMENTS** - Essential and other important responsibilities and duties may include, but are not limited to, the following:

**Essential Functions:**

Research, analyze and interpret social, economic, population and land use data and trends; prepare written reports on various planning matters and elements of the general plan.

Prepare initial studies and assist in preparing or reviewing environmental impact reports.

Compile information and make recommendations on special studies and prepare planning reports.

Review development proposals and applications for compliance with appropriate regulations and policies; prepare reports and recommendations.

Assist in preparing staff reports for the Planning Commission, various committees and advisory boards as directed.

Check commercial, industrial and residential development plans for issuance of zone clearance; process permit applications and calculate appropriate fees.

Research and draft ordinances for review.

Confer with and advise architects, builders, attorneys, contractors, engineers, and the general public regarding City development policies and standards.

Collect, record and summarize statistical and demographic information; establish and maintain a comprehensive database.

Prepare and review plans for the subdivision and development of land such as neighborhood zoning and development; advise developers in the design of proposed subdivisions and plot plans; process plans as required by the subdivision and zoning regulations.

Write, compile and illustrate departmental reports; draft charts and diagrams for use in departmental presentations at meetings; draft revisions to maps; provide consultation to **ESSENTIAL AND MARGINAL FUNCTION STATEMENTS (continued)**

citizens and developers regarding these matters.

Write staff reports and process applications for zoning changes, variances and use permits; provide information to the public on possible uses of land, physical design constraints, and other use limitations.

Answer questions and provide information to the public; investigate complaints and recommend corrective action as necessary to resolve complaints. ~~concerning the City's planning function.~~

Present information to the Planning Commission, Board of Zoning Adjustment, Local Agency Formation Commission and related boards and committees.

Participate in coordinating City planning activities with outside departments.

Plan, prioritize, assign, supervise and review the work of staff involved in planning activities.

**Marginal Functions:**

Perform related duties as assigned.

**QUALIFICATIONS**

**Knowledge of:**

Principles and practices of urban planning and development.

Statistical and research methods as applied to the collection and tabulation of data effecting urban planning.

Graphic illustration and presentation.

~~Purposes,~~ Policies and procedures of the City Council, Planning Commission, Board of Zoning Adjustment, and the Local Agency Formation Commission.

Site planning and architectural design.

Current literature, information sources, and research techniques in the field of

urban planning.

**Knowledge of: (Continued)**

Modern office methods, practices, procedures and equipment.

**Ability to:**

Learn laws underlying general plans, zoning and land divisions.

Learn applicable environmental laws and regulations, and methods of assessment.

Analyze and compile technical and statistical information and prepare reports.

Make presentations before governmental bodies with planning related responsibilities.

Prepare charts, maps, and other graphic illustration.

Prepare concise written and oral reports.

Coordinate the work of assisting employees.

Understand and carry out oral and written directions.

Communicate clearly and concisely, both orally and in writing.

Establish and maintain cooperative working relationships with those contacted in the course of work.

**In addition to the preceding, when assigned as Associate Planner:**

**Knowledge of:**

Laws underlying general plans, zoning and land divisions.

Applicable environmental laws and regulations.

Principles of supervision, training and performance evaluation.

**Ability to:**

Interpret planning and zoning programs to the general public.

Perform professional planning work with a minimum of supervision.

**Ability to: (Associate Planner, Continued)**

Provide lead supervision, training and project guidance to other planning employees.

**EXPERIENCE AND TRAINING GUIDELINES**

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

**Assistant Planner**

**Training:**

Equivalent to a Bachelor's degree from an accredited college or university with major course work in City, regional or urban land use planning or a related field.

**Experience:**

Two years of directly related land use planning experience is desirable.

**Associate Planner**

**Training:**

Equivalent to a Bachelor's degree from an accredited college or university with major course work in urban planning or a related field.

**Experience:**

Two years of professional urban or related land use planning experience.

**WORKING CONDITIONS**

**Environmental Conditions:**

Office and field environment; travel from site to site.

**Physical Conditions:**

Essential and marginal functions may require maintaining physical condition

necessary for sitting for prolonged periods of time; traveling to and from sites and attending meetings.

**Exhibit "A-3"**

CITY OF MODESTO  
NO. 2370

AUGUST 2004

**ASSISTANT RISK MANAGER**

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

DEFINITION

To plan, organize and supervise a major function of the City's Risk Management office including property and casualty insurance, Workers' Compensation, employee safety, and public loss prevention programs; and to provide staff assistance to the Risk Manager.

SUPERVISION RECEIVED AND EXERCISED

~~Receives direction from the Risk Manager~~

~~Exercises direct supervision over technical and clerical staff.~~

**ESSENTIAL AND MARGINAL FUNCTION STATEMENTS** – Essential and other important responsibilities and duties may include, but are not limited to, the following:

Essential Functions:

Supervise and participate in the administration of several of the City's risk management programs including property and casualty insurance, workers' compensation, employee safety, and public loss prevention.

Recommend goals and objectives; assist in the development of and implement policies and procedures; review and evaluate assigned staff.

Conduct employee safety inspections and public loss prevention surveys; prepare recommendations for improvements and implementation.

Serve as City Safety Officer.

Implement and conduct a safety training program for City employees; prepare and distribute safety material and aids.

Conduct surveys relating to insurance protection of all City-owned real and

personal properties, ~~public~~ General Liability, Workers' Compensation, and employee bonds; develop adequate and appropriate levels of insurance.

#### ESSENTIAL AND MARGINAL FUNCTION STATEMENTS (Continued)

Administer the ~~Public~~ General Liability and Workers' Compensation self-insured programs; investigate and adjust claims as necessary.

Recover damages from responsible third parties; negotiate cost effective settlements with claimants and plaintiffs.

Maintain accurate statistical records and provide quarterly and annual injury/accident reports for distribution.

Maintain a variety of confidential records and files.

Gather and analyze statistical and insurance-related information; prepare recommendations for changes to operating procedures and policies.

#### Marginal Functions:

Perform related duties as assigned.

#### QUALIFICATIONS

##### Knowledge of:

Liability and employee benefits insurance coverages.

Principles, practices and techniques of establishing, maintaining, and modifying a comprehensive risk management program.

The records and reports necessary in the insurance and claims field.

Worker's Compensation Law and claims adjustment administration.

CAL-OSHA regulations.

Records and procedures relating to court actions on insurance and related legal matter.

Principles and practices of organization, administration and personnel management.

Skill in:

Planning, organizing and developing risk management and loss prevention programs.

Developing, implementing and coordinating effective programs for safety and training.

Analyzing and interpreting a variety of complex insurance, medical and legal documents.

Preparing clear and concise reports.

Perceiving and analyzing problems correctly and taking effective corrective action.

Communicating clearly and concisely, both orally and in writing.

Establishing and maintaining cooperative working relationships with those contacted in the course of work.

EXPERIENCE AND TRAINING GUIDELINES

Any combination of experience and training that would likely provide the required knowledge and skills is qualifying. A typical way to obtain the knowledge and abilities would be:

Training:

Equivalent to a Bachelor's degree from an accredited college or university with major course work in business or public administration or a related field.

Experience:

Four years of responsible experience in adjusting worker's compensation and casualty claims.

WORKING CONDITIONS

Environmental Conditions:

Office and field environment.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition for sitting for prolonged periods of time; attending meetings; using a personal computer and related office equipment and traveling from site to site.

Exhibit "A-4"

CITY OF MODESTO

AUGUST 2004

**Building Inspector I  
Building Inspector II**

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

**DEFINITION**

To perform a variety of residential and commercial building inspection duties at various stages of construction, alteration and repair; to maintain a variety of inspection related records; and to provide information and assistance to the public.

**DISTINGUISHING CHARACTERISTICS**

**Building Inspector I** - This is the entry level class in the Building Inspector series. This class is distinguished from the Building Inspector II by the performance of the more routine tasks and duties assigned to positions within the series including inspections and the issuance of permits. Since this class is typically used as a training class, employees may have only limited related work experience.

**Building Inspector II** - This is the full journey level class within the Building Inspector series. Employees within this class are distinguished from the Building Inspector I by the performance of the full range of duties as assigned including combination inspection (building, electrical, plumbing and mechanical). Employees at this level receive instruction or assistance as new or unusual situations arise, and are fully aware of the operating procedures and policies of the work unit.

**SUPERVISION RECEIVED AND EXERCISED**

**Building Inspector I**

Receives general supervision from higher level inspection staff.

**Building Inspector II**

Receives general supervision from higher level inspection staff.

May exercise technical supervision over less experienced staff.

**ESSENTIAL AND MARGINAL FUNCTION STATEMENTS** - Essential and other important responsibilities and duties may include, but are not limited to, the following:

**Essential Functions:**

Make field inspections of building construction and its components in residential, commercial and industrial applications to assure compliance with applicable codes and regulations of City, State and Federal agencies.

Examine, evaluate and approve the construction of structural framing systems in compliance with Title 24, Title 25 and applicable fire, life and health and safety requirements.

Examine completed construction and general workmanship prior to occupancy.

Maintain plan files, progress reports and properly complete permit inspection records.

Investigate alleged violations of zoning ordinance and related policies.

Perform inspection duties in trade specialties such as plumbing, electrical and mechanical, structural and finish trade areas.

May perform necessary field work and/or issue permits for residential building, plumbing, mechanical and electrical code compliance and special inspection applications.

Inspect foundation, cement, framing, plastering, plumbing, heating, and electrical installations, and a large variety of other complex and routine building system elements for compliance with applicable codes and standards of workmanship.

Check stud, joist, rafter spacing and other structural member factors.

Examine grade, quality, and treatment of lumber, cement, lath, wire and composition.

Ensure proper and safe installation of routine and complex building systems.

Coordinate inspection activities with other City departments and divisions.

Review plans, schedules and specifications for compliance with applicable codes and ordinances.

**ESSENTIAL AND MARGINAL FUNCTION STATEMENTS (continue)**

Ascertain conformance to Uniform Building Code, Plumbing and Electrical Codes, and pertinent provisions of State and County health and environmental ordinances.

Confer with architects, contractors, builders and the general public in the field and office; prepare correspondence as required.

Explain and interpret requirements and restrictions.

Recommend amendments to building, plumbing, mechanical and electrical codes.

Maintain detailed records and prepare reports.

**Marginal Functions:**

Perform related duties as assigned.

**QUALIFICATIONS**

**Knowledge of:**

Accepted safety standards and methods of building construction.

Building related codes and ordinances enforceable by the City, including the Uniform Building, Electrical, Plumbing and Mechanical Codes.

**Ability to:**

Apply technical knowledge and follow proper inspection techniques to examine workmanship and materials, and detect deviations from plans, regulations, and standard construction practices.

Make appropriate decisions.

Learn to perform journey level inspection skills in a variety of specialty trade areas and to perform competent and efficient work as a combination Building Inspector.

Enforce State and Municipal Codes under the jurisdiction of the department.

**Ability to: (Continued)**

Read and interpret building plans, specifications, and building codes throughout the course of construction.

Understand and carry out oral and written directions.

Advise on standard construction methods and requirements.

Make arithmetical computations rapidly and accurately.

Communicate clearly and concisely, both orally and in writing.

Prepare precise written inspection correction lists and properly complete permit inspection records.

Establish and maintain cooperative, working relationships with those contacted in the course of work.

Enforce necessary regulations with firmness and tact.

Perform medium manual labor, including but not limited to lifting and carrying up to fifty (50) pounds of weight, climbing, bending, stooping, etc.

**In addition to the preceding, when assigned as Building Inspector II:**

**Knowledge of:**

Principles and techniques of building inspection work.

**Ability to:**

Determine that construction systems conform to City Code requirements.

Apply City codes and policies regarding zoning, environmental matters, and other regulations to field situations.

Work independently with minimal supervision.

**Experience and Training Guidelines**

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

**Building Inspector I**

**Training:**

Equivalent to an Associate of Arts degree with major course work in Building Inspection Technology or a related field.

**Experience:**

Four years of responsible construction experience equivalent to journey level in one of the following building trades: plumbing, electrical, carpentry, mechanical systems (heating, ventilation and air conditioning (HVAC) or related field.

**License or Certificate:**

Possession of, or ability to obtain, an appropriate, valid California driver's license.

Possession of an International Conference of Building Officials (I.C.B.O.) certificate as a Certified Building Inspector is desirable.

**Building Inspector II**

**Training:**

Equivalent to an Associate of Arts degree with major course work in Building Inspection Technology or a related field.

**Experience:**

A minimum of two years of responsible experience as a combination building inspector.

**License or Certificate:**

Possession of, or ability to obtain, an appropriate, valid California driver's license.

Possession of an International Conference of Building Officials (I.C.B.O.) certificate as a Certified Building Inspector is required at the time of appointment.

**WORKING CONDITIONS**

**Environmental Conditions:**

Field environment; travel from site to site; exposure to inclement weather conditions.

**Physical Conditions:**

Essential and marginal functions may require maintaining physical condition and good balance for stooping, squatting, bending, stair climbing, reaching, standing, lifting, and walking on even and uneven levels; operating motorized equipment and vehicles; occasionally lifting and carrying up to fifty (50) pounds.

## Exhibit "A-5"

CITY OF MODESTO  
NO. 3320  
NO. 3315

AUGUST 2004

### CIVIL ENGINEERING TECHNICIAN I CIVIL ENGINEERING TECHNICIAN II

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

#### DEFINITION

To perform a wide range of technical engineering work including surveying, drafting, office engineering, and traffic engineering work.

#### DISTINGUISHING CHARACTERISTICS

Civil Engineering Technician I - This is the entry-level class in the Civil Engineering Technician series. This class is distinguished from the Civil Engineering Technician II by the performance of the more routine tasks and duties assigned to positions within the series including surveying, drafting, and a variety of office engineering work. Since this class is typically used as a training class, employees may have only limited or no directly related work experience.

Civil Engineering Technician II - This is the full journey level class within the Civil Engineering Technician series. Employees within this class are distinguished from the Civil Engineering Technician by the performance of the full range of duties as assigned including technical engineering work and inspections. Employees at this level receive only occasional instruction or assistance as new or unusual situations arise, and are fully aware of the operating procedures and policies of the work unit. This class is distinguished from the Civil Engineering Assistant in that the latter perform more complex technical duties.

#### SUPERVISION RECEIVED AND EXERCISED

##### Civil Engineering Technician I

Receives direct supervision from higher level engineering staff.

Civil Engineering Technician II

Receives general supervision from the higher level engineering staff.  
May exercise functional and technical supervision over lower level engineering staff.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS – Essential and other important responsibilities and duties may include, but are not limited to, the following:

Essential Functions:

When assigned to Computer Services:

Using a computer mapping system, update and draft City limit maps, sewer maps, water maps, subdivision maps, and parcel maps; supply contractors and general public with engineering information.

Perform computer backup of files; analyze, digitize and input data points and other information from maps, aerial photographs and other sources.

When assigned to Field Survey:

Perform instrument work on field surveys; assist with the gathering and compilation of field data for layout of road beds, curbs, paving, gutters, and sidewalks; establish tentative lines and grades.

Make engineering computations using survey/engineering related software, keep and reduce field survey notes using survey software and data collection. Use Microsoft Excel to prepare cut sheets for construction stakes.

Using rod or chain, Total Station, or GPS, assist or set and make center line, cross-section and grade stakes, and other markers and reference points; drive stakes, cut brush, locate monuments, and measure distances; assist in making topographical surveys.

Operate transits- Total Station, GPS, and levels in the conduct of a variety of location, construction, property, and other survey work; determine lines, angles, distances and elevations.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS (Continued)

Use ~~drafting instruments and other engineering aids~~ Computer-Aided Drafting (CAD) software and other specialized survey software in the office to perform the computing and ~~drafting~~ drawing operations involved in checking and reducing field and survey notes; calculate distances, ties, angles, area, traverses, and closures; computes grades and profiles; clean and ~~adjust~~ calibrate survey instruments.

When assigned to Permits:

Provide information related to project design to the general public, contractors and developers; advise members of the public regarding City standards and development of approval procedures and requirements.

Check legal descriptions of property for accuracy and conformity to legal requirements.

Check subdivision maps, parcel maps, and other engineering documents for conformance to State laws and local ordinances; oversee and update maps to include new subdivisions and other changes.

Research files and records or preparation of legal descriptions and a variety of projects; check and write routine legal descriptions for lien agreements, proposed right-of-way, and utility easements.

Issue utility, curb, sidewalk, street and encroachment permits to developers, contractors and members of the public; calculate permit fees.

Maintain files, maps and records; prepare reports and correspondence.

When Assigned to Traffic Engineering:

Design and draft routine and less complex plans for Parking and Traffic projects; compile data and prepare reports.

Inspect parking and traffic construction projects; investigate and make recommendations on complaints relating to traffic, pedestrian and parking.

Assist in the preparation of statistical and revenue reports related to Traffic engineering.

Marginal Functions:

Perform related duties as required.

QUALIFICATIONS

Knowledge of:

Principles of trigonometry, geometry, and algebra.

Basic drafting principles and practices.

English usage, spelling, grammar and punctuation.

Ability to:

Understand and carry out oral and written instructions.

Learn to skillfully perform technical surveying, drafting, traffic engineering and office engineering.

Perform arithmetical computations neatly and accurately.

Use hand tools with skill and care.

Perform manual labor, when assigned to survey crew, in lifting, carrying, and hammering stakes, hubs, and other instruments.

Clean and maintain surveying equipment.

Keep and maintain records.

Write the less difficult legal descriptions.

Establish and maintain cooperative working relationships with those contacted in the course of work.

**In addition to the preceding when assigned as Civil Engineering Technician II:**

Knowledge of:

Application of algebra, geometry, and trigonometry to technical surveying and drafting work.

Principles, methods, techniques and equipment used in surveying, drafting, and traffic engineering.

Common engineering construction methods and standards.

Ability to:

Operate surveying and engineering equipment efficiently and accurately.

Make accurate engineering computations.

Prepare maps, drawings, and layouts from notes and sketches.

Assist with calculation of cost estimates for Public Works Projects.

EXPERIENCE AND TRAINING GUIDELINES

Any combination of experience and training that would likely provide the required knowledge and skills is qualifying. A typical way to obtain the knowledge and skills would be:

**Civil Engineering Technician I**

Training:

Equivalent to an Associate of Arts Degree from an accredited college with major coursework in civil engineering or a related field.

Experience:

No Experience required.

License or Certificate:

Possession of, or ability to obtain, an appropriate, valid California driver's license.  
**Civil Engineering Technician II**

Training:

Equivalent to an Associate of Arts Degree from an accredited college with major coursework in civil engineering or a related field.

Experience:

Eighteen months of experience comparable to that of a Civil Engineering Technician I with the City of Modesto.

License or Certificate:

Possession of, or ability to obtain, an appropriate, valid California driver's license

**WORKING CONDITIONS**

Environmental Conditions:

Office and field environment; travel from site to site.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for walking or standing for prolonged periods of time; operate motorized equipment and vehicles.

CITY OF MODESTO  
No. 3245

August 2004

**CONSTRUCTION INSPECTOR**

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

DEFINITION

To inspect workmanship and materials used in a variety of public works projects and to ensure conformance with plans, specifications and Departmental regulations.

SUPERVISION RECEIVED AND EXERCISED

Receives general supervision from the Supervising Construction Inspector.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS – Essential and other important responsibilities and duties may include, but are not limited to, the following:

Essential Functions:

Inspect various structures and construction projects for conformance with specifications and regulations; check line, grade, size, elevation and location of structures.

Monitor traffic control problems at construction site and coordinate corrections if necessary.

Record amounts of materials used and work performed; prepare necessary reports for progress payments.

Review plans and specifications of assigned project; attend pre-construction conferences as necessary.

Inspect materials for identifications as conforming to specifications.

Perform a variety of field tests.

Observe work during progress and upon completion; monitor contractor workforce for adequate staffing levels.

Inspect adjacent properties for damage from construction activity.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS (Continued)

Confer with property owners the public regarding project schedule, hazards and inconvenience.

Coordinate work with other City departments and utilities.

Prepare a variety of activity records and reports; maintain as-built notes for each set of plans.

Evaluate and negotiate contract change orders related to construction.

Marginal Functions:

Perform related duties as assigned.

QUALIFICATIONS

Knowledge of:

Principles, methods, materials, equipment and safety hazards of constructions inspection.

Defects and faults in construction.

Basic mathematics including algebra, geometry, and trigonometry.

Basic soil mechanics and geology.

Materials sampling and estimate procedures.

Engineering mechanics of structures.

Applicable laws, regulations, codes and departmental policies governing the construction of assigned projects.

Ability to:

Understand and interpret engineering plans and specifications and prepare accurate engineering records reports.

Detect and locate faulty materials and workmanship and determine the stage of construction during which defects are most easily found and remedied.

### QUALIFICATIONS (Continued)

Address issues from contractors, engineers, and members of the public in an assertive and tactful manner.

Establish and maintain cooperative working relationships with those contacted in the course of work.

Communicate clearly and concisely, both orally and in writing.

Use basic computer software programs.

### EXPERIENCE AND TRAINING GUIDELINES

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

#### Training:

Equivalent to an Associate of Arts degree from an accredited college with major course work in civil engineering, construction technology or a related field.

#### Experience:

Two years of increasingly responsible experience performing construction inspection in a variety of public works or related construction projects, such as preparing daily reports, monitoring change order work, evaluating material testing results, preparing correction notices and obtaining corrective action, and preparing monthly progress payments.

#### License or Certificate

Possession of, or ability to obtain, an appropriate, valid California driver's license.

### WORKING CONDITIONS

#### Environmental Conditions:

Office and field environment; travel from site to site.

#### Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for walking or standing for prolonged periods of time, operate motorized equipment and vehicles.

CITY OF MODESTO  
NO. 7115  
NO. 7120

AUGUST 2004

**POLICE OFFICER / POLICE OFFICER TRAINEE**

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

DEFINITION

To perform law enforcement and crime prevention work; to control traffic flow and enforce State and local municipal codes, violations and traffic regulations; to perform investigative work; to participate in and provide support and assistance to special crime prevention and enforcement programs; and to perform a variety of technical and administrative tasks in support of the department.

DISTINGUISHING CHARACTERISTICS

Police Officer Trainee - This is the entry-level class in the sworn Police Officer series. The classification is designed for candidates currently attending a POST-certified Regular Basic Course academy or for those who have successfully completed a California POST-certified Regular Basic Course academy (Intensive, Extended or Modular formats) by date of appointment. This class is distinguished from the Police Officer by the performance of the more routine tasks and duties assigned to positions within the series. Since this class is typically used as a training class, employees may have only limited or no directly related work experience.

Police Officer - This is the full journey level class within the Police Officer series. Employees within this class are distinguished from the Police Officer Trainee by the performance of the full range of duties as assigned including the full range of law enforcement work. Employees at this level receive only occasional instruction or assistance as new or unusual situations arise, and are fully aware of the operating procedures and policies of the work unit.

SUPERVISION RECEIVED EXERCISED

Receives general supervision from higher level supervisory and management staff.

Exercises technical supervision over non-sworn personnel.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS - Essential and other important responsibilities and duties may include, but are not limited to, the following:

Essential Functions:

Patrol a designated area of the City to preserve law and order, discover and prevent the commission of crimes, and enforce traffic and other laws and ordinances; assist stranded motorists.

Answer calls and complaints involving automobile accidents, robberies, and related misdemeanors and felonies; render first aid as required.

Respond to general public service calls including animal complaints, domestic disturbances, civil complaints, property control, and related incidents.

Collect, process, photograph and present evidence using scientific techniques including fingerprints, fibers, blood, and related physical evidence.

Check buildings for physical security.

Serve as Field Training Officer as assigned; train new officers on departmental policies, procedures and activities.

Enforce traffic laws and ordinances; check speed with radar; issue warnings and citations.

Direct traffic at fire, special events, and other emergency or congested situations.

Conduct investigations of serious injury and fatality traffic accidents.

Conduct traffic accident analyses and general traffic surveys.

Conduct a variety of criminal investigations involving crimes against persons and property, auto theft, white-collar crime, and narcotics; gather evidence and prepare cases for prosecution.

Identify suspects; conduct interviews and interrogations; apprehend and arrest offenders.

Teach bicycle safety in accordance with State agencies.

Contact and interview victims and witnesses; preserve and investigate crime scenes.

Conduct covert, undercover investigations as assigned.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS (Continued)

Contact and cooperate with other law enforcement agencies in matters relating to the apprehension of offenders and the investigation of offenses.

Maintain contact with citizens regarding potential law enforcement problems and preserve good relationships with the general public; take an active role in areas of public education relative to crime and crime prevention.

Assist in the performance of special investigative and crime prevention duties as required.

Prepare reports on arrests made, activities performed and unusual incidents observed.

Make arrests as necessary; interview victims, complainants and witnesses; interrogate suspects; administer polygraph tests; gather and preserve evidence; testify and present evidence in court.

Serve warrants within the department and with outside agencies; remain current on laws and procedures required for processing warrants.

~~Serve as Assistant Squad Leader performing the duties of a Police Sergeant as assigned; act as Watch Commander; review and approve the reports of other Police Officers. (removed all)~~

Perform a wide variety of laboratory tests and procedures including those related to narcotics testing; act as Department photographer; testify in court as an expert witness.

Serve as Department Training Manager; review and assess training needs and available programs; oversee and coordinate the attendance of Departmental staff at training programs and seminars; research policies and procedures related to training activities.

Serve as Crime Prevention Officer; oversee and coordinate crime prevention activities; make presentations to local citizens and community groups.

Serve as Intelligence Officer or Gang Officer; gather crime related intelligence information and conduct background investigations; coordinate information and activities with outside agencies and jurisdictions.

Investigate juvenile related crimes including child abuse and juvenile narcotics; coordinate youth services with outside agencies and organizations including local school districts; conduct community presentations and instruct assigned classes.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS (Continued)

Participate in recruiting sworn staff; conduct background investigations; interview potential job candidates and references; administer voice stress analysis tests.

Give oral presentations at schools, clubs and other community organizations.

Act as Department court liaison.

Marginal Functions:

Perform related duties as assigned.

QUALIFICATIONS

**Police Officer Trainee**

Ability to:

Learn proper Police procedures and methods.

Analyze situations quickly and objectively, and determine and take emergency and/or appropriate action.

Understand and carry out oral and written instructions.

Communicate effectively, both orally and in writing.

Learn the operation of standard equipment and facilities required in the performance of assigned tasks including a computer.

Type at a reasonable speed necessary for successful job performance (25 wpm).

Learn standard broadcasting procedures of a police radio system including mobile dispatch terminals.

Meet the physical requirements established by the Department.

Prepare accurate and grammatically correct written reports.

Use and care for firearms.

Use maps and learn City geography.

QUALIFICATIONS (Continued)

Handle multiple assignments.

Perform occasional medium-heavy lifting up to 75 lbs.

**Police Officer**

In addition to the abilities listed for Police Officer Trainee:

Knowledge of:

Police methods and procedures including patrol, crime prevention, traffic control, investigation and identification techniques.

Criminal law and criminal procedure with particular reference to the apprehension, arrest and custody of persons committing misdemeanors and felonies, including rules of evidence pertaining to the seizure and preservation of evidence.

Offensive and defensive weapons nomenclature and theory.

Self defense tactics.

First aid and CPR procedures and practices.

Interviewing and interrogation techniques.

**EXPERIENCE AND TRAINING GUIDELINES**

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

**Police Officer Trainee**

Training:

Equivalent to the completion of the twelfth grade.

Graduates of a California POST-certified Regular Basic Course must have completed and completion of a minimum of 30 units of college coursework from an accredited college or university.

EXPERIENCE AND TRAINING GUIDELINES (Continued)

Candidates currently enrolled in a California POST-certified Regular Basic Course must have completed a minimum of 15 units of college coursework from an accredited college or university.

Possession of an Associate of Arts degree is desirable.

Experience:

None required.

License or Certificate:

Possession of an appropriate, valid California-driver's license at time of application; valid California driver's license by time of appointment

Police Officer Trainees must be currently attending or completed a California POST certified Regular Basic Law Enforcement Academy Course (Intensive, Extended or Modular formats). Proof of completion of a California POST certified Regular Basic Law Enforcement Academy Course is required by time of appointment. Certificate must be dated within three years unless candidates has qualifying service, as defined in the POST Administrative Manual, Regulation 1008(b), within the past three years.

Additional Requirements:

Minimum of 21 years of age at time of application.

Must meet physical requirements of the job established by the department.

Physical condition is, after examination by a licensed physician and surgeon, free from any physical, emotional, or mental condition that might adversely affect his/her exercise of powers as a Police Officer.

Must be a citizen of the United States or a permanent resident who is eligible for and has applied for citizenship.

Police Officer

Training:

Equivalent to the completion of the twelfth grade and completion of a minimum of 30 units of college coursework from an accredited college or university. Possession of an Associate of Arts degree is desirable.

EXPERIENCE AND TRAINING GUIDELINES (Continued)

Experience:

One year experience in a California law enforcement agency which requires a Basic POST certificate.

License or Certificate

Possession of an appropriate, valid California driver's license at time of application; valid California driver's license by time of appointment.

Possession of a Basic POST Certificate from the State of California.

Additional Requirements:

Minimum of 21 years of age at time of application.

Must meet physical requirements of the job established by the department.

Physical condition is, after examination by a licensed physician and surgeon, free from any physical, emotional, or mental condition that might adversely affect his/her exercise of powers as a Police Officer.

Must be a citizen of the United States or a permanent resident who is eligible for and has applied for citizenship.

WORKING CONDITIONS

Environmental Conditions:

Field environment; travel from site to site.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for walking or standing for prolonged periods of time; operating motorized equipment and vehicles and medium/heavy occasional lifting up to 75 lbs.

Exhibit "A-8"

CITY OF MODESTO  
No. 3231

AUGUST 2004

### **Senior Building Inspector**

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

#### **DEFINITION**

To perform a variety of commercial, industrial and complex residential building inspection duties at various stages of construction, alteration and repair; to provide technical assistance to other inspection staff; and to provide information and assistance to the public.

#### **SUPERVISION RECEIVED AND EXERCISED**

Receives general supervision from the Chief Building Official.

Exercises functional supervision over building inspection staff.

#### **ESSENTIAL AND MARGINAL FUNCTION STATEMENTS**

##### **Essential Functions:**

Make field inspections of industrial, commercial, and complex residential buildings during various stages of construction and remodeling to assure compliance with applicable codes and regulations of City, State and Federal agencies.

Check plans and specifications of proposed buildings and structures for compliance with uniform building codes and accepted engineering practices; review test reports from laboratories and consulting engineers; make field inspections as required.

Provide technical assistance and educational programs to other building inspection staff in area of assigned specialization.

Review building, electrical, mechanical, plumbing and other specialty plans and specifications to ensure conformance to California Energy laws outlined in Title 24; conduct field review of plans and specifications; approve

changes in work procedures.

Ascertain conformance to Uniform Building Code, Mechanical, Plumbing and Electrical Codes, Dangerous Building and Housing Codes, and pertinent provisions of State and County health and environmental ordinances.

Confer with architects, contractors, builders and the general public in the field and office; explain and interpret requirements and restrictions.

Inspect foundation, concrete, steel, masonry and wood construction, framing, plastering, plumbing, heating, and electrical installations, and a large variety of other complex and routine building system elements insuring proper and safe installations.

Coordinate inspection activities with other City departments and divisions.

Maintain detailed records and prepare reports.

Assist in the preparation of performance evaluation of field personnel.

**Marginal Functions:**

Respond to requests and inquiries from the general public.

Perform related duties and responsibilities as required.

**QUALIFICATIONS**

**Knowledge of:**

Accepted safety standards and methods of building construction for commercial, industrial and residential buildings.

Building related codes and ordinances enforceable by the City, including the Uniform Building, Electrical, Plumbing and Mechanical Codes.

Advanced principles and techniques of building inspection work.

Principles of structural design and engineering calculations.

**QUALIFICATIONS (Continued)**

**Knowledge of:**

Research methods and sources of information related to building code enforcement.

**Ability to:**

Apply technical knowledge and follow proper inspection techniques to examine workmanship and materials, and detect deviations from plans, regulations, and standard construction practices.

Read and interpret complex building plans, specifications, and building codes.

Understand and carry out oral and written directions.

Advise on standard construction methods and requirements for residential, commercial and industrial buildings.

Provide technical assistance and direction of other building inspection staff in assigned area of specialization.

Make arithmetical computations rapidly and accurately.

Enforce necessary regulations with firmness and tact.

Determine that construction systems conform to City Code requirements.

Apply City codes and policies regarding environmental matters, and other regulations to field situations.

Work independently with minimal supervision.

Communicate clearly and concisely, both orally and in writing.

Establish and maintain cooperative working relationships with those contacted in the course of work.

~~Maintain mental capacity which allows the capability of making sound decisions and demonstrating intellectual capabilities.~~

~~Maintain physical condition appropriate to the performance of assigned duties and responsibilities.~~

~~Maintain effective audio-visual discrimination and perception needed for making observations, communicating with others, reading, writing and operating assigned equipment.~~

Perform medium manual labor, including but not limited to lifting and carrying up to fifty (50) pounds of weight, climbing, bending, stooping, etc.

### **Experience and Training Guidelines**

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

#### **Experience:**

Three years of increasingly responsible experience as a combination building inspector.

#### **Training:**

Equivalent to an Associate of Arts degree with major course work in building inspection technology or a related field.

#### **License or Certificate**

Possession of, or ability to obtain, an appropriate, valid California driver's license.

Possession of an I.C.B.O. certificate as a "Certified Building Inspector" is required at time of appointment. An additional I.C.B.O. certificate in any of the following: electrical, plumbing, mechanical or combination is required within one year of appointment.

**WORKING CONDITIONS**

**Environmental Conditions:**

Field environment; travel from site to site; exposure to inclement weather conditions.

**Physical Conditions:**

Essential and marginal functions may require maintaining physical condition and good balance for stooping, squatting, bending, stair climbing, reaching, standing, lifting, and walking on even and uneven levels; operating motorized equipment and vehicles; occasionally lifting and carrying up to fifty (50) pounds.

**Exhibit "A-9"**

No. 3244

AUGUST 2004

**SENIOR CONSTRUCTION INSPECTOR**

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

DEFINITION

To perform a variety of public works construction project inspection duties at various stages of alteration and repair; to provide technical assistance to other inspection staff; and to provide information and assistance to the public.

SUPERVISION RECEIVED AND EXERCISED

Receives general supervision from the Supervising Construction Inspector.

Exercises functional and technical supervision over construction inspection staff.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS – Essential and other important responsibilities and duties may include, but are not limited to, the following:

Essential Functions:

Inspect a variety of public works construction projects for adherence to plans and specifications such as subdivision and major street construction and reconstruction, sidewalks, curbs, and gutters, waterlines, storm drains, sewer lines, sprinkler systems, airport facilities, street lighting facilities, public buildings and structures, parks and park facilities.

Approve construction procedures and authorize the use of construction materials; enforce compliance with approved plans and specifications.

Provide technical assistance and educational programs to other construction inspection staff.

Confer with architects, contractors and the general public in the field and office; explain and interpret requirements and restrictions.

Monitor traffic control problems at construction site and coordinate corrections if necessary.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS (Continued)

Record amounts of materials used and work performed; prepare necessary reports for progress payments.

Review plans and specifications of assigned project; attend pre-construction conferences as necessary.

Perform a variety of field tests including soil tests and other materials testing.

Observe work during progress and upon completion; monitor contractor workforce for adequate staffing levels.

Inspect adjacent properties for damage from construction activity.

Confer with ~~property owners~~ the public regarding project schedule, hazards and inconvenience.

Coordinate work with other City departments and utilities.

~~Maintain detailed records and prepare reports.~~

Prepare a variety of activity records and reports; maintain as-built notes for each set of plans.

Evaluate and negotiate contract change orders related to construction.

Marginal Functions:

Perform related duties as assigned.

QUALIFICATIONS

Knowledge of:

Principles, methods; materials, equipment and safety hazards of construction inspection.

Defects and faults in construction.

Basic mathematics including algebra, geometry, and trigonometry.

Basic soil mechanics and geology.

QUALIFICATIONS (Continued)

Materials sampling and estimate procedures.

Engineering mechanics of structures.

Applicable laws, regulations, codes and departmental policies governing the construction of assigned projects.

Research methods and sources of information related to construction inspection.

Ability to:

Provide technical assistance and supervision to other construction inspection staff.

Understand and interpret engineering plans and specifications and prepare accurate engineering records.

Detect and locate faulty materials and workmanship and determine the stage of construction during which defects are most easily found and remedied.

Address issues from contractors, engineers, and members of the public in an assertive and tactful manner.

Apply technical knowledge and follow proper inspection techniques to examine workmanship and materials, and detect deviations from plans, regulations, and standard construction practices.

Work independently without supervision.

Communicate clearly and concisely, both orally and in writing.

Establish and maintain cooperative working relationships with those contacted in the course of work.

Use basic computer software programs.

## EXPERIENCE AND TRAINING GUIDELINES

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

### Training:

Equivalent to an Associate of Arts degree from an accredited college with major course work in civil engineering, construction technology or a related field.

### Experience:

Three years of increasingly responsible experience performing construction inspection in a variety of public works or related construction projects, such as preparing daily reports, monitoring change order work, evaluating material testing results, preparing correction notices and obtaining corrective action, and preparing monthly progress payments; including one (1) year of experience as a Construction Inspector for the City of Modesto.

### License or Certificate

Possession of, or ability to obtain, an appropriate, valid California driver's license.

## WORKING CONDITIONS

### Environmental Conditions:

Office and field environment; travel from site to site.

### Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for walking or standing for prolonged periods of time; operate motorized equipment and vehicles; occasionally lifting and carrying up to fifty (50) pounds.

**SUPERVISING CONSTRUCTION INSPECTOR**

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

DEFINITION

To inspect workmanship and materials used in a variety of public works projects; to ensure conformance with plans, specifications and Departmental regulations; and to provide technical assistance and training to other inspection staff.

SUPERVISION RECEIVED AND EXERCISED

Receives general direction from the ~~Engineering Services Director~~. Senior Civil Engineer assigned to Construction Administration.

Exercises direct supervision including both technical and functional supervision over assigned staff.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS – Essential and other important responsibilities and duties may include, but are not limited to, the following:

Essential Functions:

Plan, prioritize, assign, supervise and review the work of staff involved in construction inspection.

Participate in the selection of staff; provide or coordinate staff training; work with employees to correct deficiencies; implement discipline procedures.

Evaluate operations and activities of assigned responsibilities; recommend improvements and modifications; prepare various reports on operations and activities.

Participate in budget preparation and administration; prepare cost estimates for budget recommendations; monitor and control expenditures.

Resolve work problems and interpret administrative policies to subordinates, other departments, consultants, contractors and the public.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS (Continued)

Participate in the most complex inspections of various structures and major construction projects for conformance with specifications and regulations; check line, grade, size, elevation and location of structures.

Monitor traffic control problems at construction site and coordinate corrections if necessary.

Record amounts of materials used and work performed; prepare and review necessary reports for progress payments.

Review plans and specifications of assigned project; attend and conduct pre-construction conferences as necessary.

Inspect materials for identification as conforming to specifications.

Evaluate and negotiate contract change orders related to construction.

Perform a variety of field tests.

Observe work during progress and upon completion; monitor contractor workforce for adequate staffing levels.

Inspect adjacent properties for damage from construction activity.

Confer with ~~property owners~~ the public regarding project schedule, hazards and inconvenience.

Coordinate work with other City departments and utilities.

Prepare a variety of activity records and reports; maintain as-built notes for each set of plans.

Marginal Functions:

Perform related duties as assigned.

## QUALIFICATIONS

### Knowledge of:

Principles, methods, materials, equipment and safety hazards of construction inspection.

Defects and faults in construction.

Basic mathematics including algebra, geometry, and trigonometry.

Basic soil mechanics and geology.

Materials sampling and estimating procedures.

Engineering mechanics of structures.

Applicable laws, regulations, codes and departmental policies governing the construction of assigned projects.

### Ability to:

Understand and interpret engineering plans and specifications and prepare accurate engineering records/reports.

Detect and locate faulty materials and workmanship and determine the stage of construction during which defects are most easily found and remedied.

Address issues from contractors, engineers, and members of the public in an assertive and tactful manner.

Establish and maintain cooperative working relationships with those contacted in the course of work.

Communicate clearly and concisely, both orally and in writing.

Use basic computer software programs.

## EXPERIENCE AND TRAINING GUIDELINES

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

### Training:

Equivalent to an Associate of Arts degree from an accredited college with major course work in civil engineering, construction technology or a related field.

### Experience:

Four years of increasingly responsible experience performing a variety of public works or related construction inspection work. Including two years of experience as a construction inspector with the City of Modesto. One year of the required experience must be in a lead or supervisory capacity.

### License or Certificate

Possession of, or ability to obtain, an appropriate, valid California driver's license.

## WORKING CONDITIONS

### Environmental Conditions:

Office and field environment; travel from site to site.

### Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for walking or standing for prolonged periods of time; operate motorized equipment and vehicles.

AUGUST 2004

**TREE TRIMMER**

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

**DEFINITION**

To perform skilled work in the trimming, maintenance, and planting of City trees within the Public Works Department.

**SUPERVISION RECEIVED AND EXERCISED**

Receives general supervision from a higher level supervisory and management staff.

Exercises functional and technical supervision over lower level maintenance staff.

**ESSENTIAL AND MARGINAL FUNCTION STATEMENTS** - Essential and other important responsibilities and duties may include, but are not limited to, the following:

**Essential Functions:**

Using an aerial lift, trim and prune trees to provide clearance of streets, sidewalks, buildings, signs and lights as well as to ensure the continued health of the tree.

Perform ground trimming using pole saws and hydraulic loppers.

Remove standing and fallen trees, stumps, limbs and related debris.

Plant, stake and maintain trees on City owned property and in the public right-of-way.

Operate tree trimming and maintenance equipment such as aerial boom trucks, chippers, stump grinders, dump trucks, and power tools such as chain saws and hydraulic loppers.

Spray and inject pesticides; bolt and cable tree limbs.

Respond to requests and inquiries from the general public.

Identify equipment needs for each assigned project.

Utilize proper safety precautions related to all work performed.

May supervise a work crew.

Perform related duties as assigned.

### **QUALIFICATIONS**

#### **Knowledge of:**

Methods and techniques used in the tree trimming and maintenance.

Uses and purposes of tools and equipment related to tree trimming and maintenance.

Uses and purposes of knots and ropes related to tree trimming and maintenance.

Safe work practices.

#### **Ability to:**

Perform skilled tree trimming and maintenance work.

Operate a variety of vehicular and stationary mechanical equipment in a safe and effective manner in routine situations.

Work independently in the absence of supervision.

Use and operate hand tools, mechanical equipment, and power tools and equipment required for the work in a safe and efficient manner.

Establish and maintain cooperative working relationships with those contacted in the course of work.

**Perform heavy manual labor, including occasional heavy lifting up to one hundred (100) lbs. of weight.**

### **EXPERIENCE AND TRAINING GUIDELINES**

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

**EXPERIENCE AND TRAINING GUIDELINES, Continued:**

**Experience:**

Two years of increasingly responsible experience performing tree trimming and tree maintenance duties.

**Training:**

Formal or informal education or training which ensures the ability to read and write at a level necessary for successful job performance.

**License or Certificate:**

Possession of a valid Class B, California driver's license is required within 45 days of appointment.

Possession of a line Clearance Tree Trimmer certificate is desirable.

Certification by the International Society of Arboriculture as a tree Worker or Arborist designation is highly desirable.

**WORKING CONDITIONS**

**Environmental Conditions:**

Field environment; travel from site to site; exposure to inclement weather conditions.

**Physical Conditions:**

Essential and marginal functions may require maintaining physical condition necessary for walking, standing or moving for prolonged periods of time; operating motorized equipment and vehicles for an entire work shift; occasional heavy lifting one hundred (100) lbs. of weight.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-394**

**A RESOLUTION REVISING THE POSITION CLASSIFICATION PLAN  
FOR THE CITY OF MODESTO.**

WHEREAS, a Position Classification Plan for the City of Modesto was adopted by Modesto City Council Resolution 88-338 pursuant to Rule 2 of the Personnel Rules and Regulations of the City of Modesto, and

WHEREAS, the City Manager has recommended to the Council amendments to the Position Classification Plan, and

WHEREAS, Rule 2.2 of the City of Modesto Personnel Rules provides that revisions to the Classification Plan shall be effective upon adoption of resolution of the City Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION I. CLASSIFICATION CREATED. The Position Classification Plan of the City of Modesto is hereby amended to create the following classification:

Employee Relations Specialist

The job specification for this classification is being created as a result of a new position approved in fiscal year 04/05 budget. The specification for the classification of Employee Relations Specialist, as shown on the attached **Exhibit "A,"** which is hereby made a part of this resolution by reference, is hereby approved and made part of the Position Classification Plan of the City of Modesto.

SECTION 2. EFFECTIVE DATE. This resolution shall become effective on and after August 4, 2004.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 4th day of August, 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Marsh, O'Bryant, Mayor Ridenour

NOES: Councilmembers: None

ABSENT: Councilmembers: Keating

ATTEST: Jean Zahr  
JEAN ZAHR, City Clerk

(SEAL)

APPROVED AS TO FORM:

By Michael D. Milich  
MICHAEL D. MILICH, City Attorney

## EMPLOYEE RELATIONS SPECIALIST

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

### DEFINITION

Under general administrative direction, to plan, organize, and implement employee relations activities for the City; investigates and resolves grievances; advises departments on disciplinary matters; oversees the Equal Opportunity function; provides negotiation support, provides administrative support to the Personnel Director in assigned program areas; and perform related work as assigned.

### SUPERVISION RECEIVED AND EXERCISED

General direction is provided by the Personnel Director and Assistant Personnel Director.

May exercise direct supervision over professional, technical and other staff.

### ESSENTIAL AND MARGINAL FUNCTION STATEMENTS

Essential and other important responsibilities may include, but are not limited to, the following:

Advises departments on performance management and disciplinary matters; may act as lead during administrative investigation, reviews or drafts counseling memoranda, reprimands, notices of intent and final notices of discipline; may represent the City in appeal hearings.

Participates in determining modified duty assignments and reasonable accommodation assignments; advises departments on staffing issues; advises supervisors on interpretation of rules, policies and procedures and Memoranda of Understanding.

Advises supervisors and employees regarding Federal, state and City policies and processes to access leave benefits (such as Family and Medical Leave, Pregnancy Disability Leave, Catastrophic Leave, Military Leave, Leaves of Absence, Administrative Leave, Compulsory Leave, etc.).

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS (Continued)

Advises supervisors regarding appropriate payroll application of leaves, holiday pay, overtime and compensating time, workers' compensation, suspensions and other pay issues related to personnel actions.

Receives and reviews grievances; assists supervisors and managers in investigating and resolving grievances; meets with employees and labor representatives regarding grievances and recommends resolutions; may represent the department or the City at hearings.

Establishes and administers tracking systems to monitor trends in grievances and complaints; investigates and recommends proactive solutions to reduce or mitigate problems.

Provides responsible administrative staff assistance including monitoring developments in the human resources field, evaluating their impact on City activities, and recommending policy and procedural improvements.

Conducts salary and benefit surveys; gathers information from other agencies regarding terms, conditions and benefits; meets with department managers to identify concerns; recommends labor strategy and management objectives consistent with strategic plan.

Participates in meet and confer process; analyzes and costs contract proposals, researches issues raised during bargaining; obtains management input on issues; drafts tentative agreements and contract language; maintains accurate records of proceedings.

Represents the City in labor management committees, side table matters and meet and confer on specific issues.

Oversees implementation of Equal Opportunity Plan; ensures timely completion of EEO 4 and annual status reports, maintains annual plan.

Receives and reviews EEO complaints; advises departments on conduct of preliminary investigations; serves as resource for internal investigators; coordinates activities of external investigators; receives and reviews findings and makes recommendations.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS (Continued)

Analyzes legislation and regulations to determine effect on public personnel management, labor relations and EEO programs and services.

May supervise assigned staff; manages consultants and investigators.

Marginal Functions:

Performs related duties as assigned.

QUALIFICATIONS

Knowledge of:

- Principles and practices of public personnel administration, including methods and techniques used in labor relations, recruitment and selection, testing, classification and pay, salary and benefits administration, training and equal opportunity.
- Principles and current methods of public and business administration.
- Principles and practices of organization, administration and personnel management.
- Principles and practices of supervision, training and performance evaluation.
- Modern office management practices and procedures including the operation of a variety of office equipment.
- Technical report writing procedures.
- Applications of statistical methods to management analysis.
- Advanced methods of report preparation and presentation.
- English usage, spelling, grammar, punctuation at an advanced level.
- Administrative research techniques, sources and availability of information.
- Applicable Federal, State, and local laws, codes and regulations.

QUALIFICATIONS (Continued)

- Work with and control sensitive, confidential information.
- Communicate clearly and concisely, both orally and in writing.
- Establish and maintain effective relationships with those contacted during the course of work.
- Read, understand, and apply complex materials.
- Establish record keeping systems.
- Administer contract services.

QUALIFICATIONS (Continued)

Skill In:

- Use of computers and computer applications and software.

Experience and Training Guidelines:

Any combination of training, experience, and education which demonstrates the possession of the knowledge and abilities stated above, and the ability to perform the duties of this position. A typical way to obtain the knowledge and abilities would be:

Experience:

Four years of increasingly responsible professional-level experience involving human resources management, employee relations, and labor relations. Experience in a public agency is desirable.

Training:

Equivalent to a Bachelor's Degree from an accredited college or university with major course work in public administration, business administration, management, personnel, or a related field.

WORK CONDITIONS:

Environmental Conditions:

Office environment; occasionally travel from site to site.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for sitting for prolonged periods of time; traveling to and from sites and attending meetings.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-395**

**A RESOLUTION AMENDING EXHIBIT "A" OF RESOLUTION 2003-330, ENTITLED "A RESOLUTION GRANTING SALARY AND BENEFIT CHANGES TO UNREPRESENTED MANAGEMENT AND CONFIDENTIAL EMPLOYEES, INCLUDING CHARTER OFFICERS AND EXECUTIVES, EFFECTIVE JULY 1, 2003 AND RESCINDING RESOLUTION NO. 2002-307 AND 2003-81A AND AMENDING EXHIBIT A OF RESOLUTION NO. 2003-331 EFFECTIVE JUNE 30, 2003," TO ESTABLISH A SALARY RANGE FOR EMPLOYEE RELATIONS SPECIALIST AT RANGE 2439, EFFECTIVE AUGUST 4, 2004.**

WHEREAS, Resolution No. 2003-330 granted salary and benefit changes to Unrepresented Management and Confidential Employees including Charter Officers and Executives, effective July 1, 2003, and

WHEREAS, the City Council desires to amend Resolution No. 2003-330,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

**SECTION 1. AMENDMENT OF RESOLUTION NO. 2003-330.**

Exhibit "A" entitled "City of Modesto Class Range Table, Unrepresented Management and Confidential Non-sworn Classes, Effective July 1, 2003" attached to Resolution No. 2003-330, is hereby amended as shown on the amended Exhibit "A" entitled, "City of Modesto Class Range Table, Unrepresented Management and Confidential Non-sworn Classes, Effective August 4, 2004," which is attached hereto and made a part hereof as though set forth in full herein. Said amended Exhibit "A" establishes the Salary Range for Employee Relations Specialist at range 2439.

**SECTION 2. EFFECTIVE DATE.** This resolution shall become effective on and after August 4, 2004.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 4th day of August, 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-396**

**A RESOLUTION APPROVING THE AGREEMENT BETWEEN THE CITY OF MODESTO AND PACIFICARE, KAISER PERMANENTE, AMERICAN SPECIALTY HEALTH PLANS (chiropractic coverage) AND PACIFICARE BEHAVIORAL HEALTH; CONTINUING DENTAL AND VISION COVERAGE THROUGH THE CITY'S SELF-INSURED PROGRAM AND AUTHORIZING THE RISK MANAGER TO SERVE AS THE COORDINATOR FOR THE VARIOUS PLANS AND AUTHORIZE THE CITY MANAGER TO EXECUTE ALL NECESSARY AGREEMENTS**

WHEREAS, the City of Modesto provides its employees with employee and dependent health insurance coverage, and

WHEREAS, the Employee Benefits Committee (EBC) has met and reviewed and evaluated coverage for Fiscal Year 2004/2005, and

WHEREAS, the rates charged by health insurance carriers have increased by 0.7% for Kaiser and 15.3% for PacifiCare, and

WHEREAS, mental health rate has increased by 1.72% and dental rates by 10%, and

WHEREAS, chiropractic rates are increasing by 5.14%, and the vision rates are remaining the same, and

WHEREAS, the EBC voted to continue to offer PacifiCare as an alternate to Kaiser, and

WHEREAS, both health plans agreed to continue to offer Preferred Provider Option (PPO) to all employees, and

WHEREAS, the EBC agreed to change the health plan design by increasing the office visit co-pay from \$10 to \$15 for both Kaiser and PacifiCare, and maintaining the drug co-pay at current rates,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves execution of agreements with PacifiCare, and Kaiser Permanente, with changes in co-pays; and with American Specialty Health Plans, and PacifiCare Behavioral Health.

BE IT FURTHER RESOLVED that the Council hereby approves the continuation of dental and vision coverage through the City's self-insured program as recommended by the Employee Benefits Committee.

BE IT FURTHER RESOLVED that the Risk Manager is hereby authorized to serve as the coordinator for the various plans and authorize the City Manager to execute all necessary agreements.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 4<sup>th</sup> day of August, 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004- 397**

**A RESOLUTION APPROVING A THIRD AMENDMENT TO THE CRIME PREVENTION ACT 2000 AGREEMENT BETWEEN THE CITY OF MODESTO AND THE COUNTY OF STANISLAUS, FOR ONE MODESTO POLICE OFFICER TO WORK ON THE HIGH-RISK OFFENDER/JUVENILE WARRANT ENFORCEMENT PROGRAM AND AUTHORIZING THE CITY MANAGER TO EXECUTE SAID AMENDMENT TO THE AGREEMENT**

WHEREAS, on July 1, 2001, by Resolution Number 2001-351, the City Council approved an agreement between the Stanislaus County Probation Department and the City of Modesto Police Department for a Modesto Police Officer to partner with a Stanislaus Probation Officer to monitor high-risk juvenile offenders and to enforce Juvenile Court warrants, and

WHEREAS, on August 8, 2002, by Resolution Number 2002-377, the City Council approved the first amendment to that agreement, and

WHEREAS, on August 6, 2003, by Resolution Number 2003-428 the City Council approved a second amendment to that agreement between the Stanislaus County Probation Department and the City of Modesto Police Department for a Modesto Police Officer to partner with a Stanislaus Probation Officer to monitor high-risk juvenile offenders and to enforce Juvenile Court warrants, and

WHEREAS, the County of Stanislaus Probation Department and the Modesto Police Department desire to continue to provide intensive supervision and monitoring to high-risk juvenile wards, enforce Juvenile Court warrants and conduct police/probation activities to curtail delinquent behavior for the purpose of reducing juvenile crime and gang involvement and increasing offender accountability, and

WHEREAS, the Modesto Police Department can provide an experienced and competent Police Officer for these purposes and the City wishes to enter into a third amendment to the agreement with the Probation Department to provide such services, and

WHEREAS, the cost of one Modesto Police Officer, his or her benefits and personal equipment, will be paid by the County of Stanislaus by a federal grant obtained for the High Risk Offender/Juvenile Warrant Enforcement Program, and

WHEREAS, said amendment extends the term of the agreement from July 1, 2004 to June 30, 2005, and provides total compensation of \$79,700,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Third Amendment to the Crime Prevention 2000 Agreement between the City of Modesto and the Stanislaus County Probation Department for one Modesto Police Officer to work in the High-Risk Offender/Juvenile Warrant Enforcement Program for fiscal year 2004/05 is hereby approved.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute said amendment to the agreement.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 4<sup>th</sup> day of August, 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004 - 399**

**A RESOLUTION APPROVING AN AGREEMENT WITH THE HOUSING  
AUTHORITY OF STANISLAUS COUNTY FOR PROVISION OF A  
COMMUNITY POLICE OFFICER FOR THE WESTVIEW GARDENS  
HOUSING COMPLEX, WITH AN OPTION TO EXTEND THE AGREEMENT  
FOR TWELVE MONTHS, AND AUTHORIZING THE CITY MANAGER TO  
EXECUTE THE AGREEMENT**

WHEREAS, the Housing Authority of Stanislaus County operates the Westview Gardens federal housing complex in Modesto, California, and

WHEREAS, by agreement, the Modesto Police Department has assigned a Police Officer to the complex for twelve years, and

WHEREAS, the Housing Authority is desirous to continue this special police service providing investigation and response to calls for police service, presentation of community crime resistance education, drug traffic suppression and drug education, graffiti abatement education and the exchange of information between the residents and other non-enforcement services of the City, and

WHEREAS, the parties may extend said agreement for a period of twelve months upon the written mutual agreement of the parties, and

WHEREAS, this police service is reimbursed by the Housing Authority of Stanislaus County and the service benefits the City of Modesto in reducing calls for police service to the housing project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the agreement with the Housing Authority of Stanislaus County for special police services to the Westview Gardens housing project for a twelve-month period, with an option to extend the agreement for twelve months, is hereby approved.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the City Manager or his designee is hereby authorized to execute the agreement.

**A RESOLUTION AUTHORIZING SUBMITTAL OF AN APPLICATION FOR  
THE 2004 FEDERAL LOCAL LAW ENFORCEMENT BLOCK GRANT WITH  
THE U.S. DEPARTMENT OF JUSTICE, BUREAU OF JUSTICE ASSISTANCE  
FOR THE PROCUREMENT OF EQUIPMENT AND TECHNOLOGY AND  
AUTHORIZING THE CITY MANAGER TO EXECUTE SAID APPLICATION**

WHEREAS, the City of Modesto Police Department can make application to the U. S. Department of Justice, Bureau of Justice Assistance for the 2004 Local Law Enforcement Block Grant Program, and

WHEREAS, the program is of 24-month duration, and it includes the program area of procuring equipment and technology to enhance law enforcement, and

WHEREAS, the Police Department wishes to submit an application for various unmet equipment and technology needs, and

WHEREAS, acceptance of this grant enhances Healthy and Safe Strategic Action Plan action, H.1.B.8., which calls for obtaining public service grants, and

WHEREAS, the total grant project will be \$81,277 of which the federal share is \$73,149 and the local match is \$8,128 and that match is available from the Asset Forfeiture Trust Account, and

WHEREAS, as required by the dictates of this program, the Police Department will present a specific budget for equipment and technology to the Council of the City of Modesto, in a public hearing, after notification that the application has been accepted,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto, that it hereby authorizes submittal of an application for the 2004 Local Law Enforcement Block Grant for the purchase of police equipment and technology.

BE IT FURTHER RESOLVED that the City Manager, or his authorized designee, is hereby authorized to execute said grant application.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-401**

**A RESOLUTION REJECTING THE LOW BID OF \$51,600 FROM COLLINS ELECTRICAL COMPANY, INC., FOR THE PROJECT TITLED, "SCENIC DRIVE LIGHTED CROSSWALK," AND AUTHORIZING STAFF TO RE-ADVERTISE THE PROJECT AT A FUTURE DATE.**

WHEREAS, this project will install a solar-powered lighted crosswalk and handicap ramps at the intersection of Scenic Drive and Wycliffe Drive, and

WHEREAS, this project will increase safety and encourage pedestrian use in this neighborhood, and

WHEREAS, after several neighborhood meetings and receiving feedback, the Economic Development Committee (EDC) at their May 12, 2003, meeting directed staff to leave the intersection status quo, and to install a lighted crosswalk east of Wycliffe Drive on Scenic Drive, embellish existing striping, replace existing signs with lime green signs, and to add advance signs, and

WHEREAS, this lighted crosswalk project was the preferred alternative of the neighborhood over a traffic signal at Scenic/Lakewood, and

WHEREAS, following the direction from EDC in May, 2003, and approval by Council, staff requested that StanCOG reappropriate the funding intended for a traffic signal at Scenic/Lakewood to be used for a lighted crosswalk at Scenic/Wycliffe, and

WHEREAS, staff received approval of the fund change in January 2004, and

WHEREAS, at the June 3, 2003, Council meeting, staff reported to Council that they were proceeding with the installation of a lighted crosswalk at the intersection of Scenic Drive and Wycliffe Drive, and

WHEREAS, the project was advertised for three weeks during the month of June and bid opening was June 29, 2004, at 11:00 a.m., and

WHEREAS, Collins Electrical Company, Inc., was the low bidder and staff recommends rejecting the bid received due to the fact that this low bid is 78% over the engineer's estimate, and

WHEREAS, there will be no impact to the operating budget if the low bid is rejected and the project re-advertised,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes staff to reject the low bid of \$51,600 from Collins Electrical Company, Inc., for the project titled, "Scenic Drive Lighted Crosswalk," and authorizes staff to re-advertise the project at a future date.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 4<sup>th</sup> day of August, 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**A RESOLUTION APPROVING AN AMENDMENT TO THE AGREEMENT WITH PARSONS BRINCKERHOFF QUADE AND DOUGLAS, INC., FOR DESIGN SERVICES IN THE AMOUNT OF \$96,958.11 FOR ADDITIONAL WORK NOT INCLUDED IN THE ORIGINAL AGREEMENT AND FOR REIMBURSABLE EXPENSES FOR THE PROJECT TITLED "MODESTO TRANSIT BUS MAINTENANCE FACILITY" AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AMENDMENT TO THE AGREEMENT**

WHEREAS, on July 2, 2002, the City Council approved a professional services agreement with Parsons Brinckerhoff Quade and Douglas, Inc., a California corporation, in the amount of \$610,280, to develop engineering plans for the design of the New Bus Maintenance Facility, and

WHEREAS, the City of Modesto has requested additional design services for a bus canopy, oversight for hazardous material abatement for compliance with State laws and local ordinances, Record of Survey to establish new property lines, and design plans for phased construction, and

WHEREAS, Parsons Brinckerhoff Quade and Douglas, Inc., required an additional topographical and boundary survey to complete the design and drainage plans, and

WHEREAS, on June 29, 2004, Parsons Brinckerhoff Quade and Douglas, Inc., submitted to City a scope of work and a fee schedule and requested an amendment to the original Agreement in the not to exceed amount of \$96,958.11, to provide additional engineering on the New Bus Maintenance Facility,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the amendment to agreement with Parsons Brinckerhoff Quade and Douglas, Inc., in the not to exceed amount of \$96,958.11, for additional design

services and for reimbursable expenses for the design of the New Bus Maintenance Facility.

RESOLUTION NO. 2004-405**

**A RESOLUTION DENYING THE APPEAL OF PRATT NAVARRO  
ARCHITECTURE TO A BOARD OF ZONING ADJUSTMENT DECISION  
DENYING A CONDITIONAL USE PERMIT FOR AN OFFICE COMPLEX ON  
THE EAST SIDE OF DALE ROAD, NORTH OF VENEMAN AVENUE.**

WHEREAS, an application for a conditional use permit for an office complex on the east side of Dale Road, north of Veneman Avenue was filed by Pratt Navarro Architecture on September 15, 2003, and

WHEREAS, Section 10-1.202(a) and 10-2.2503 of the Municipal Code authorizes the Board of Zoning Adjustment to grant conditional use permits, and

WHEREAS, a public hearing was held by the Board of Zoning Adjustment on May 27, 2004, in the Tenth Street Place Chambers, 1010 Tenth Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered, and

WHEREAS, by Resolution 2004-16 the Board of Zoning Adjustment denied the conditional use permit, finding that the proposed three-story office building is not compatible with the adjacent residential neighborhood of principally single-story, single-family homes due to privacy concerns relative to the views from the east-facing third-story windows and outdoor stairway, and

WHEREAS, an appeal to the decision of the Board of Zoning Adjustment denying the conditional use permit for an office complex on the east side of Dale Road, north of Veneman Avenue was filed with the Office of the City Clerk by Pratt Navarro Architecture on June 9, 2004, and

WHEREAS, said appeal was set for a duly noticed public hearing before the City Council to be held on July 13, 2004, at 5:30 p.m. in the Tenth Street Place Chambers located at 1010 10<sup>th</sup> Street, Modesto, California, at which time said public hearing was held, and evidence both oral and documentary was received and considered, and

WHEREAS, after said public hearing the Council of the City of Modesto found and determined that said appeal to the decision of the Board of Zoning Adjustment should be denied and the decision of the Board of Zoning Adjustment should be affirmed because the proposed three-story office building is not compatible with the adjacent residential neighborhood of principally single-story, single-family homes due to privacy concerns relative to the views from the east-facing third-story windows and outdoor stairway.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appeal of Pratt Navarro Architecture to the Board of Zoning Adjustment decision denying the conditional use permit for an office complex on the east side of Dale Road, north of Veneman Avenue is denied for the reasons quoted above, and the decision of the Board of Zoning Adjustment is hereby affirmed for the reason set forth above.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 4<sup>th</sup> day of August, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-406

**A RESOLUTION ADOPTING A REVISED SCHEDULE OF MAXIMUM RATES 2005  
AND CHARGES FOR THE COLLECTION OF GARBAGE IN THE CITY OF  
MODESTO, AND SUPERSEDING RESOLUTION NO. 2001-280**

WHEREAS, with the adoption of Ordinance No. 3068-C.S. in November of 1997, 2005-

the City no longer sets rates for the collection of garbage in Modesto, and instead performs a comprehensive review of cost information submitted by the contract garbage haulers, and

WHEREAS, the City sets a maximum rate that the haulers may charge for the various types of services provided under the contracts based on cost data provided by the lowest cost hauler, and

WHEREAS, Section f(2) of the City's Service Agreements with its solid waste collectors requires that when the City makes adjustments to the collection services provided under the Agreements, any additional costs should be covered by adjustments to the maximum rates, and

WHEREAS, the City Council adopted a resolution authorizing tip fees at the City's compost facility, said tip fees will be incorporated as part of the maximum rate for residential solid waste collection services, and

WHEREAS, maximum rates for solid waste collection services are reviewed annually and the City's garbage collection companies, have requested an adjustment in the maximum rates, and

WHEREAS, the City's outside auditor, Maze and Associates conducted the annual rate review analysis of the base maximum rates using the audited financial statements provided by the garbage haulers, and

WHEREAS, new maximum rates have been calculated based on adjustments to the base maximum rates for cost decreases and increases, and a recommendation for a new maximum rate schedule has been developed, and

WHEREAS, July 13, 2004, at 5:30 p.m., in the Tenth Street Place Chambers, 1010 Tenth Street, Modesto, California, was set as the date, time and place for consideration of said recommendations, and

WHEREAS, on July 13, 2004, the City Council opened the public hearing on this issue and continued the matter to August 4, 2004, at 5:30 p.m., in the Tenth Street Place Chambers, 1010 Tenth Street, Modesto, California, and

WHEREAS, the Finance Committee considered this maximum rate schedule at their meeting on July 15, 2004, and recommended by unanimous vote to send this item to the full Council for its consideration, and

WHEREAS, a report dated July 16, 2004, from the Public Works Department, a copy of which is on file in the office of the City Clerk, sets forth said recommendations, and

WHEREAS, on August 4, 2004, in the Tenth Street Place Chambers, 1010 Tenth Street, Modesto, California, a duly noticed public hearing was held, at which time evidence, both oral and documentary, was received and considered, and

WHEREAS, it was found and determined by the Council of the City of Modesto that the existing schedules of rates and charges for garbage service in the City of Modesto should be revised as recommended,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. That it hereby approves the Maximum Charges for Garbage Service as attached hereto, marked **Exhibit "1"** and incorporated herein by reference. Said Maximum Charges for Garbage Service includes twice-a-year bulky item pickup for residential customers and all other residential services as stipulated in the Service Agreements and shall become effective on August 1, 2004, and shall remain in effect until revised by Council.

BE IT FURTHER RESOLVED that any person who has prepaid garbage service charges for residential garbage service shall be entitled to receive garbage service for the balance of said prepaid period at the prepaid rates.

BE IT FURTHER RESOLVED that Resolution No. 2001-280 is hereby superseded, effective August 1, 2004.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 4<sup>th</sup> day of August, 2004, by Councilmember Dunbar, moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Marsh, O'Bryant, Mayor  
Ridenour

NOES: Councilmembers: None

**MAXIMUM CHARGES FOR GARBAGE SERVICE**

**STANDARD CONTAINERS**

Maximum Monthly Rates  
(Once a Week Pickup Service)

Standard service shall include one, 90-gallon container for garbage/recyclables, one, 90-gallon container for green waste, blue bag recycling, a countertop container for kitchen scraps, drop-off of old TV and computer tubes, and two bulky item collections per year by appointment. Customer may opt for smaller containers; however, maximum rates apply.

The maximum rate for new sign ups for service or change in service which occurs after July 1, 1996, shall be charged \$18.45 per month regardless of size of container. The maximum rate for each additional garbage container shall be \$13.75 per month.

The maximum rate for customers with 60 gallon containers who subscribed to service at an address prior to July 1, 1996 and who have not changed their service address shall be \$15.55. The maximum rate for each additional garbage container shall be \$13.75 per month.

The above maximum standard container rate shall apply for service when containers are placed in a location set forth in Section 5-5.11 of the Municipal Code.

**DETACHABLE CONTAINERS**

Number of Collections Per Week

Container Size	NUMBER OF COLLECTIONS PER WEEK					
	1	2	3	4	5	6
1 CY	\$31.87	\$53.25	\$74.60	\$95.97	\$117.34	\$138.71
1½ CY	\$42.57	\$74.61	\$106.68	\$138.46	\$171.11	\$202.83
2 CY	\$53.24	\$95.97	\$138.71	\$181.44	\$224.16	\$266.89
3 CY	\$74.60	\$138.71	\$202.80	\$266.89	\$331.00	\$395.09
4 CY	\$95.97	\$181.44	\$266.89	\$352.36	\$437.82	\$523.29
5 CY	\$117.34	\$224.16	\$331.00	\$437.82	\$544.66	\$651.48
6 CY	\$138.71	\$266.89	\$395.09	\$523.29	\$651.48	\$779.68

**DETACHABLE CONTAINER RENTAL RATES  
ARE INCLUDED IN ABOVE SCHEDULE**

Detachable container size	1 CY to 6 CY
Monthly rental rate	\$10.00

## DROP BOX CONTAINERS

Pick up charge - \$191.35 per pick up  
Rental - \$0.85 per day up to 7 day maximum rental  
\$3.00 per day additional for boxes kept 7 or more days without servicing  
\$10 per day additional for boxes kept 21 or more days without servicing

Disposal charge - Actual charge to be paid by customer

Garbage company will provide up to 40 CY Drop Box containers for above stated charges subject only to load limit of transfer vehicle.

## COMPACTORS

### Front Loader Type:

Compactor Size	NUMBER OF COLLECTIONS PER WEEK					
	1	2	3	4	5	6
3 CY	152.12	304.24	456.36	608.48	760.60	912.72
4 CY	201.72	403.44	605.16	806.88	1008.60	1210.32

### Roll-Off Type:

6 CY to 40 CY \$191.35 per pickup  
Washing of compactor at the request of customer \$30.00  
Disposal Charge: Actual charge to be paid by customer

## EXTRA PICKUPS

Standard containers or equivalent \$3.50 plus \$1.38/container  
Detachable containers \$12.00 plus \$2.75/cubic yard

## SPECIAL SERVICE CONDITIONS

In situations where none of the above maximum rates reasonably apply, the cost of service is to be negotiated between the garbage company and the customer.

## DETACHABLE CONTAINER ONLY REPLACEMENT AND CLEANING SERVICE

	1 CY	1½ CY	2 CY	3 CY	4 CY	5 CY	6 CY	
	\$10.12	\$11.00	\$12.10	\$15.40	\$20.24	\$25.08	\$29.92	

## NOTATIONS

1. The above maximum residential rates include the \$0.10 per month per household recycling fee payable to the City by the garbage company. In addition to garbage, maximum residential rates also include twice-a-year bulky item pickup, blue bag recycling, green waste collection, food waste containers, cathode ray tube drop-off, and illegal dumping removal from streets and alleys.
2. Pursuant to Section 11-6.16(c)(2) of the Modesto Municipal Code, the garbage company may require a deposit equivalent to two (2) months service charge from customers prior to beginning service.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-407**

**A RESOLUTION APPOINTING DAVID COGDILL, JR. TO THE BOARD OF  
ZONING ADJUSTMENT**

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards and Commissions, and

WHEREAS, Section 10-1.201 of the Modesto Municipal Code provides that one member of the Board of Zoning Adjustment shall be appointed from the members of the City Planning Commission, and

WHEREAS, on August 2, 2004 the Planning Commission recommended appointment of DAVID COGDILL, JR. to the Board of Zoning Adjustment.

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. DAVID COGDILL, JR., as representative of the Planning Commission, is hereby appointed to the Board of Zoning Adjustment, with a term expiration of January 1, 2006.

SECTION 2. The City Clerk is hereby directed to transmit a copy of this resolution to the appointed member of the Board of Zoning Adjustment, and the Secretary thereof.

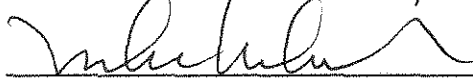

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of August, 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

## ATTACHMENT "A"

### MODESTO CITY COUNCIL

### BUSINESS LICENSE TAX APPORTIONMENT GUIDELINES

#### A. Preamble

Pursuant to Section 6-1.436 of the Modesto Municipal Code, the City Council hereby issues the following apportionment guidelines to instruct taxpayers who do business in more than one city to divide their gross receipts between those cities to reduce the risk of multiple taxation. These guidelines are intended to guide City officials and their representatives in administering and enforcing the business license tax ordinance.

#### B. Apportioning Taxpayers

For purposes of the business license tax, also known as the mil tax, the City of Modesto ("City") regards as taxable gross receipts all receipts derived from the taxpayer's fixed place of business in the City, or from the taxpayer's business operations performed in the City, as recorded on the records of the business. If a portion of such receipts is derived from business conducted outside the City limits, the taxpayer may apportion its receipts between the jurisdictions in which it does business when the following conditions are met:

1. The activity or portion of activity for which apportionment is requested is part of the business' own operations and it is conducted internally by this business completely outside the City limits; and
2. The taxpayer's business records support with clarity the place of such outside activity and, to the extent practicable under the circumstances, the receipts connected therewith.

#### C. The Apportionment Factors

Receipts are apportioned with emphasis on different aspects of a taxpayer's operations. The taxpayer's business can be divided into as many of the eight economic components as apply to the taxpayer's activity.

If you apply all of the economic components and the maximum percentage for each, one will account for more than 100% of the value of his or her receipts. But by their terms, some of the components apply only to retailers and other sellers of goods and other components apply only to service providers. Therefore, no taxpayer will apply the maximum of each component to its gross receipts.

## 1. The Eight Factors

An apportioning taxpayer may reduce its total receipts from its operation of its City business or from work done in the City by the percentage (not exceeding the cap) reflecting various lands of activity that occur outside the city: (1) if the relevant sales or a portion thereof are negotiated or solicited elsewhere, the taxpayer may reduce its base up to 25%; (2) if the sales office or the place where contracts or orders are accepted and/or processed is elsewhere, the taxpayer may reduce its base up to 15%; (3) if the merchandise was stored elsewhere immediately prior to delivery, the taxpayer may reduce its base by up to 20%; (4) in the case of service providers, if the location of the principal place of business of the service providers who actually worked on the project is outside the City, the taxpayer may reduce its base up to 30%; (5) if the ultimate point of delivery is out of the City, the taxpayer may reduce its base by up to 10%; (6) if the service is actually performed outside the City, the taxpayer may reduce its base by up to 30%; (7) if the billing office is outside the City, the taxpayer may reduce its base by up to 5%; and (8) if the collections office is elsewhere, the taxpayer may reduce its base by up to 5%. These factors are set forth in the following table:

<b>FACTOR</b>	<b>RANGE</b>
Point Of Sale (solicitation or negotiation)	1 % up to 25%
Sales Office Or Place Where Contracts Or Orders Are Accepted And/Or Processed	1 % up to 15%
Warehouse Location.	1 % up to 20%
The Service Providers' Principal Place of Business	1 % up to 20%
Place Where Goods Are Delivered	1 % up to 10%
Place Where Service Is Performed	1 % up to 30%
Location of Billing Office.	1 % up to 5%
Location of Collections Office	1 % up to 5%

## 2. Definitions

### a. Point Of Sale

The location where the sales were negotiated or solicited by the taxpayer, through his or her physical presence or the presence of an employee, representative, or agent.

### b. Sales Office Or Place Where Contracts Or Orders Are Accepted And/Or Processed

The sales office(s) that served as the base of operations for sales activities, or if there is no such sales, the office(s) from which sales activities were internally directed or controlled, or where orders, contracts, etc. were received, accepted or approved at a level above the sales level.

**c. Warehouse Location**

This component applies only to retailers and other sellers of goods to whom the business license tax applies. It refers to the facility or facilities, internally controlled and operated, where the goods, wares, or merchandise were stored immediately prior to shipment or delivery.

**d. Service Provider's Principal Place Of Business**

This component applies only to service providers to whom the business license tax applies. It refers to the location(s) of the principal place of business of the service providers who generated the taxable receipts.

**e. Place Where Goods Are Delivered**

This component applies only to retailers and other sellers of goods to whom the business license tax applies. It refers to the place(s) where goods, wares, merchandise, or services were delivered if the ultimate delivery point is outside the city.

**f. Place Where Services Are Performed**

This component applies only to service providers to whom the business license tax applies. It refers to the location(s) at which the service providers actually perform their work.

**g. Location of Billing Office**

The place(s) where the taxpayer internally performed billing activity.

**h. Location of Collections Office**

The place(s) where the taxpayer internally performed its revenue collection activity.

**D. The Safety Valve**

Given the difficulty of designing an apportionment system that can apply evenly and fairly to all business types, the City Council directs the taxpayer to subdivision (c) of Section 6-1.436 of the Municipal Code, which allows taxpayers, with the consent of the Director, to employ an alternative apportionment method:

None of the business license taxes provided for by this title shall be so applied as to occasion an undue burden upon interstate

commerce or be violative of the Constitutions of the United States or the State of California. In any case where a business license tax is believed by a tax license holder or applicant for a license to place an undue burden upon interstate commerce, or be violative of such constitutional clauses, he may apply to the Tax Collector for an adjustment of the tax. Such application may be made before, at, or within six (6) months after payment of the prescribed business license tax. The applicant shall, by sworn statement and supporting testimony, show his method of business and the gross volume or estimated gross volume of business and such other information as the Tax Collector may deem necessary in order to determine the extent, if any, of such undue burden or violation. The Tax Collector shall then conduct an investigation and, after having first obtained the written approval of the City Attorney, shall fix as the business license tax for the applicant an amount that is reasonable and nondiscriminatory, or if the business license tax has already been paid, shall order a refund of the amount over and above the business license tax so fixed. In fixing the business license tax to be charged, the Collector shall base the tax upon a percentage of gross receipts or any other measure which will assure that the tax assessed shall be uniform with that assessed on businesses of like nature, and that the tax is imposed only on gross receipts resulting from business done with the City, or reasonably deemed to have been conducted in the City.

### **1. The Apportionment Questionnaire**

Concurrent with each tax payment, an apportioning taxpayer must submit a document showing its application of the foregoing guidelines and all supporting documents necessary to illustrate their apportionment calculations.

### **E. Applicability**

These rules will apply to all future payments under the City's business license tax, as well as all claims by taxpayers for tax refunds and all claims by the City for underpayment of the tax, including claims by taxpayer(s) or the City that are pending or being litigated on the date these rules are adopted, if one basis for the taxpayer's claim for refund, or one defense against the City's claim for underpayment, is the City's application of the tax to receipts arising from transactions that occur, in whole or in part, outside the City.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-409**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO OF INTENTION TO ANNEX TERRITORY TO COMMUNITY FACILITIES DISTRICT NO. 2004-1 (VILLAGE ONE #2) AND TO AUTHORIZE THE LEVY OF SPECIAL TAXES THEREIN (ANNEXATION No. 3)**

WHEREAS, pursuant to Chapter 3.5 Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the “Mello-Roos Community Facilities Act of 1982” (the “Act”), proceedings for the annexation of territory to an existing community facilities district may, pursuant to Chapter 3.5 of the Act, be instituted by the adoption by the legislative body of a resolution of intention to annex such territory; and

WHEREAS, pursuant to the Act, this Council did, by its Resolution No. 2004-199, adopted on April 6, 2004 (the “Resolution of Formation”), establish the City’s Community Facilities District No. 2004-1 (Village One #2) (“the District”); and

WHEREAS, this Council hereby determines that the public convenience and necessity require the annexation of certain territory to the District; and

WHEREAS, the territory to be annexed is within the City limits;

NOW, THEREFORE, BE IT RESOLVED, ORDERED AND FOUND by the City Council of the City of Modesto, California, that:

SECTION 1. The above recitals are true and correct.

SECTION 2. The boundaries of the District are shown on a map entitled “Proposed Boundaries of Community Facilities District No. 2004-1 (Village One #2) of the City of Modesto, County of Stanislaus, State of California” on file with the County

Recorder of the County of Stanislaus, at Book 3 of Maps of Assessment and Community Facilities Districts, at Page 85, the map entitled “Proposed Boundaries of Annexation #1 to City of Modesto CFD No. 2004-1 (Village One #2)”, on file with the County Recorder at Book 3 of Maps of Assessment and Community Facilities Districts, at page 86 (as amended by the map entitled “Annexation Map No. 1 of Community Facilities District No. 2004-1 (Village One #2)”, on file with the County Recorder at Book 3 of Maps of Assessment and Community Facilities Districts, at page 90), and the map entitled “Annexation Map No. 2 of Community Facilities District No. 2004-1 (Village One #2),” on file with the County Recorder at Book 3 of Maps of Assessment and Community Facilities Districts, at Page 91.

SECTION 3. The territory proposed to be annexed to the District (the “Territory”) is described in **Exhibit A**.

SECTION 4. The boundaries of the Territory are also shown on the map thereof, entitled “Annexation Map No. 3 of Community Facilities District No. 2004-1 (Village One #2) of the City of Modesto, County of Stanislaus, State of California,” on file in the office of the City Clerk, hereby approved and adopted. Pursuant to Sections 3110.5 and 3113 of the California Streets and Highways Code, the City Clerk shall endorse her certificate on the original and one copy of the map evidencing the date and adoption of this Resolution, file the original in her office and, not later than 10 days after the adoption of this Resolution, file a copy of the map with the County Recorder of the County of Stanislaus. The map shall contain the legends provided in Sections 3110 and 3110.5 of the California Streets and Highways Code, including a reference to the title, book, page and recording date of the original boundary map of the District.

SECTION 5. The public facilities and services to be provided for the District are set forth in the Resolution of Formation. It is intended that these same facilities and services be provided to the Territory.

SECTION 6. The special taxes to be levied in the District are also set forth in the Resolution of Formation. It is intended that the same special taxes be levied in the Territory.

SECTION 7. A public hearing on this Resolution will be held at 5:30 p.m., or as soon thereafter as practicable, on Tuesday, September 14, 2004, at the regular meeting place of the City Council, City Council Chambers, Basement Level, 1010 Tenth Street, Modesto, California 95353, such time being not less than 30 or more than 60 days following the adoption hereof.

SECTION 8. At the hearing, any interested persons for or against the annexation of the Territory to the District, and the levy of the special taxes therein, may appear and will be heard and considered. Any protest may be made orally or in writing. However, any protests pertaining to the regularity or sufficiency of the proceedings shall be in writing and clearly set forth the irregularities and defects to which the objection is made. All written protests shall be filed with the City Clerk on or before the time fixed for the public hearing. Written protests may be withdrawn in writing at any time before the conclusion of the hearing.

SECTION 9. The City Clerk is directed to publish, not later than seven (7) days prior thereto, a notice of the hearing, in the form required by the Act, in a newspaper of general circulation published in the area of the District, being *The Modesto Bee*, and otherwise in accordance with Section 6061 of the California Government Code, stating

(a) the text or a summary of this Resolution, (b) the time and place of the hearing, and (c) that all interested persons for or against the annexation of the Territory to the District or the levying of the special taxes in the Territory will be heard.

SECTION 10. (a) If a majority (but at least six) of the registered voters residing within the District or a majority (but at least six) of the registered voters residing within the Territory, or the owners of one-half or more of the area of the land in the District and not exempt from the special tax, or the owners of one-half or more of the Territory, file written protests against the proposed annexation, and the protests are not withdrawn so as to reduce the value of the protests to less than a majority, no further proceedings to annex the Territory to the District, or to levy in the Territory the special taxes to be levied in the District, shall be taken for a period of one year from the date of the decision of the Council on the issues discussed at the hearing.

SECTION 11. At the conclusion of the hearing, if the Council determines to annex the Territory to the District, it will submit the levy of the special taxes to the qualified electors of the Territory in a special election.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of August, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-410**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO FORMALLY SOLICIT REQUEST FOR BIDS FOR CURB, GUTTER AND SIDEWALK REPAIR OR REPLACEMENT, FOR A THREE (3) YEAR AGREEMENT, WITH TWO (2) ONE-YEAR EXTENSION OPTIONS, AT AN ESTIMATED ANNUAL COST OF \$170,000**

WHEREAS, the City Council adopted a formal policy in 1953 obligating the City to repair curbs, gutters and sidewalks when damage is caused from a City tree, and

WHEREAS, the Public Works Department, Urban Forestry Division is responsible for maintaining the City's curbs, gutters and sidewalks, and

WHEREAS, the Urban Forestry Division currently has a five-plus year backlog for curb, gutter and sidewalk repair or replacement, and

WHEREAS, contracting these services will help to reduce this backlog, and

WHEREAS, bidding these services on an annual basis allows for greater volume of linear feet of work to be bid, thus reducing the overall total cost to the City, and

WHEREAS, contracts may be awarded to more than one (1) company in order to provide backup, or in case the "primary" contractor is unable to meet the City's needs, and

WHEREAS, the secondary or third company could be awarded a specific job only if the primary contractor is unable to perform the service, or if the primary contractor is unable to complete the specific job within the time frame required by the City, and finally if the primary contractor is unable to maintain acceptable quality standards required by the City, and

WHEREAS, Modesto Municipal Code, Section 8-3.203, generally requires all purchases, which meet or exceed \$50,000.00 for material, equipment or contractual services to be formally bid, and

WHEREAS, the issuance of a formal Request for Bid for the furnishing of curb, gutter and sidewalk repair or replacement will conform to Modesto City Code Section 8-3.203,

NOW, THEREFORE, BE IT HEREBY RESOVLED by the Council of the City of Modesto as follows:

SECTION 1. The City Clerk is hereby authorized to call for public competitive sealed bids for curb, gutter and sidewalk repair or replacement, for a three (3) year agreement, with two (2) one-year extension options, to be opened in the office of the City Clerk, 1010 Tenth Street, in the City of Modesto. The City Clerk shall be directed to give notice inviting such sealed bids in the time, form, and manner provided by law.

SECTION 2. After the sealed bids are opened, they shall be tabulated and analyzed and a report submitted to Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of August, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 411**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO  
FORMALLY SOLICIT REQUEST FOR BIDS (RFB) FOR FOUR (4) LIGHTED  
CROSSWALK UNITS FOR A TOTAL ESTIMATED COST OF \$70,000.00**

WHEREAS, the Public Works Department-Traffic and Development Services Division has requested the purchase of four (4) Lighted Crosswalk Units, and

WHEREAS, on February 24, 2004, the City Council adopted Resolution No. 2004-113 approving the installation of lighted crosswalks at the intersections of Sunrise Avenue and Coolidge Avenue, Orangeburg Avenue and Martin Avenue, Floyd Avenue and Vicki Drive, and Rumble Road and Wales Way, and

WHEREAS, funding from an Office of Traffic Safety (OTS) grant in the amount of \$60,000, and a \$10,000 grant from the Community Development Block Grant (CDBG) has been awarded to the City for the purchase of this equipment, and

WHEREAS, Funding for the lighted crosswalk units are budgeted in Account No. 2300-160-A221 (OTS Lighted Crosswalks Various) and Account No. 1130-320-3254-0505 ( Direct Services Non-Housing), and

WHEREAS, the installation of the lighted crosswalks will promote citizen safety and enhance the quality of life in our community in accordance with the goals sated in the City of Modesto Strategic Plan by providing efficient and effective movement of people, goods, and services by enhancing traffic safety in the area, and

WHEREAS, Modesto Municipal Code, MMC Section 8-3.203, generally requires all purchases that meet or exceed \$50,000.00 for material, equipment, or contractual services to be formally bid, and

WHEREAS, by soliciting formal bids for the purchase of four (4) lighted crosswalk units the Finance Department, Purchasing Division will comply with MMC Section 8-3.203 regarding formal bid procedures, and

WHEREAS, the Economic Development Committee (EDC), at their February 9, 2004, meeting discussed this item and concurred with staff's recommendation,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Purchasing Supervisor is hereby authorized to solicit formal Request for Bids as follows:

SECTION 1. The City Clerk is hereby authorized to call for public formal bids for the purchase of four (4) lighted crosswalk units to be opened in the office of the City Clerk, 1010 Tenth Street, in the City of Modesto. The City Clerk shall be directed to give notice inviting such sealed bids in the time, form, and manner provided by law.

SECTION 2. After the sealed bids are opened, they shall be tabulated and analyzed and a report submitted to Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of August, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-412**

**A RESOLUTION APPROVING AN AGREEMENT WITH MOUNTAIN-VALLEY  
EMERGENCY MEDICAL SERVICES AGENCY FOR ADVANCED LIFE SUPPORT  
(ALS) FIRST RESPONDER, RELOCATING THE ADVANCED LIFE SUPPORT (ALS)  
ENGINE PROGRAM TO FIRE STATION #7 (1800 MABLE AVENUE), AND  
AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT**

WHEREAS, on October 1, 2000, the Safety and Communities Committee approved “in-concept” the Pilot Advanced Life Support first responder program within the Modesto Fire Department, and

WHEREAS, on June 25, 2002, the City Council approved funding for the development of a Modesto Fire Department – Advanced Life Support (ALS) Pilot Program, and

WHEREAS, on October 2, 2002, the Safety and Communities Committee received an update on the progress of the ALS Pilot Program to date, and

WHEREAS, the development of the program and labor agreements were completed, and

WHEREAS, the training and licensing of the Fire Department ALS pilot personnel was completed in February, 2003, and

WHEREAS, on February 4, 2003, by resolution No. 2003-70 the City Council authorized the Fire Department to participate in an ALS Engine Pilot Program and authorized the City Manager to execute all necessary contracts and agreements, and

WHEREAS, on July 19, 2003, the Modesto Fire Department implemented the ALS Pilot Program which required contractual agreements between the City of Modesto and Mountain-Valley Emergency Medical Services Agency, the governing Emergency Medical Services Authority for the County of Stanislaus, and

WHEREAS, City staff is recommending an agreement with Mountain-Valley Emergency Medical Services for Advanced Life Support (ALS) First Responder for a period of six months, to be effective through January 2005, and

WHEREAS, City staff also recommends relocating the ALS Pilot Program to Fire Station #7 (1800 Mable Avenue), and

WHEREAS, the Safety & Communities Committee accepted staff's recommendations at its August 2, 2004 meeting,

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that the agreement with Mountain-Valley Emergency Medical Services Agency for the Advance Life Support First Responder program effective through January 2005 is hereby approved.

BE IT FURTHER RESOLVED that the City Council authorizes the relocation of the Advanced Life Support (ALS) Engine Program to Fire Station #7 (1800 Mable Avenue).

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the City's acceptance of all contracts, agreements and documents necessary regarding the aforementioned program.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of August, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-414**

**A RESOLUTION APPROVING A FIVE-YEAR AGREEMENT WITH FINAL CUT MEDIA IN THE SUM OF \$167,000 FOR MANAGEMENT OF A PUBLIC, EDUCATION, AND GOVERNMENT (P-E-G) TELEVISION MASTER CONTROL ROOM AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE SAME.**

WHEREAS, Final Cut Media will provide management of the daily operations of a Public, Education, and Government (PEG) television master control room facility including scheduling of multi-media programming on between three (3) and twenty (20) channels, plus web casting via the Internet, and

WHEREAS, Final Cut Media will provide production and management of Public, Education and Government Video Bulletin Boards, which appear on each channel in between taped or live programming, and

WHEREAS, Final Cut Media will provide a camera crew to produce, broadcast and/or video tape the following meetings originating from the basement chambers of Tenth Street Place, Modesto Centre Plaza, Modesto Police Department and/or the Stanislaus County Office of Education:

- a. All regularly or specially scheduled Modesto City Council Meetings (may include various locations throughout Modesto)
- b. All regularly or specially scheduled Modesto City Council Committee Meetings (upon request)
- c. All regularly or specially scheduled Modesto City Planning Commission Meetings
- d. Specially scheduled City of Modesto Department and/or Citizen Advisory Committee Meetings (upon request and not to exceed 16 per year).
- e. All regularly or specially scheduled Stanislaus County Board of Supervisors Meetings (may include various location throughout Stanislaus County)
- f. All regularly or specially scheduled Stanislaus County Planning Commission Meetings

- g. Specially scheduled Stanislaus County Department Meetings
- h. All regularly or specially scheduled County Board of Supervisor Committee Meetings (upon request)
- i. Three 30-minute monthly produced programs of "Making the Grade" for the Stanislaus County Office of Education
- j. Specially scheduled Stanislaus County Office of Education meetings

WHEREAS, Final Cut Media will duplicate DVD of all Modesto City Council and Stanislaus County Board of Supervisors meetings, providing copies of said meetings to the City of Modesto Clerk's Office and the Stanislaus County Clerk of the Board's Office and storing master copies of all meetings in the Master Control Room library, and

WHEREAS, Final Cut Media will provide staff possessing a qualified skill-level and working knowledge of operating and maintaining broadcast equipment for the transmission of Public Access, Education and Government programming and answer any technical questions regarding the equipment, and

WHEREAS, Final Cut Media agrees to maintain the Regular Hours of Operation as:

- a. Monday through Friday 8 am – 5 pm for Tape Drop-Off for Public
- b. Monday through Friday 10 am – 7 pm for Master Control Room Operation
- c. Monday through Saturday as needed for Education/Government programming
- d. Saturday and Sunday – Open only for Master Control Room Operation
- e. On-Call – 24 hours per day and 365 days per year to oversee the use of the facility and provide technical management as needed, and

WHEREAS, Final Cut Media will work with City staff and contracted broadcast engineers to ensure the proper installation of new equipment and inherited equipment

from Comcast Cable at the Master Control Room location of 1100 H Street, Modesto, California, and

WHEREAS, Final Cut Media will provide ongoing recommendations to City staff for the effective management of the Master Control Room facility, and

WHEREAS, Final Cut Media agrees that any commercial use of equipment is prohibited, and

WHEREAS, Final Cut Media may not rent city-owned equipment to other parties and may not profit from programs produced with City equipment and facilities, and

WHEREAS, Final Cut Media agrees that all access equipment and facility resources must be used to produce programs for broadcasting on the Public-Education-Government access channels, and

WHEREAS, Final Cut Media must adhere to current and future policies and procedures related to Public-Education-Government Programming as established by the City of Modesto, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby adopts approves a five-year agreement with FINAL CUT MEDIA in the total sum of \$167,000 per year for management of the daily operations of a Public, Education, and Government (PEG) television master control room.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of August, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-415**

**A RESOLUTION APPROVING A TWO-YEAR EXTENSION OF THE  
CURRENT MEMORANDUM OF UNDERSTANDING BETWEEN THE CITY OF  
MODESTO AND THE MODESTO CITY FIRE FIGHTERS ASSOCIATION TO  
DECEMBER 25, 2006, WITH RELATED SALARY AND BENEFIT CHANGES.**

WHEREAS, certain agreements with the Modesto City Fire Fighters Association (MCFFA) that were reached through the meet and confer process and were approved by Resolution No. 2001-529 are contained in the Memorandum of Understanding (MOU) between City and MCFFA, along with additional provisions resulting from an Arbitration Award dated May 2, 2002, and

WHEREAS, said MOU will expire on December 27, 2004, and

WHEREAS, an amendment to said MOU providing for a revised method of implementing employee cost sharing of retirement contributions was approved by Resolution No. 2003-602, and

WHEREAS, the City and MCFFA agree that it is in their best interests to extend the current MOU by amendment to December 25, 2006 to provide for salary increases and for increases in the City's contribution to employees' health premiums, which amendment, upon execution, shall be attached hereto and made a part hereof, and will be on file in the office of the City Clerk, and

WHEREAS, the MOU Amendment provides as follows:

SECTION 1. Salary: Across-the-board salary increases of 2.5% to be effective 6/28/05 and an additional 2.5% to be effective 9/19/06.

SECTION 2. Health Contribution: The City contributions toward the employees' health, dental and vision insurance premiums, as well as contributions for those who opt out of coverage, shall be as follows:

<u>City Contribution (Health &amp; Cafeteria Plan)</u>		
	<b>December 2004</b>	<b>December 2005</b>
Family	\$750 mo.	\$775 mo.
Single	400 mo.	450 mo.
Opt Out	350 mo.	400 mo.

SECTION 3. Additional Provisions: The MOU extension shall also include provisions for a minimum City contribution to single health coverage, a "me too" as relates to Modesto Police Officers Association health contributions and a commitment to discuss comparable labor markets beginning in January 2006, and

WHEREAS, the Council considered this matter at its meeting of August 10, 2004,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes a two-year extension to the current Memorandum of Understanding between the City and MCFFA, to December 25, 2006, and upon execution shall be attached hereto and made a part hereof, and will be on file in the office of the City Clerk.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of August, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**Extension to**  
**Memorandum of Understanding**  
**Modesto City Fire Fighters' Association**

This extension to the Memorandum of Understanding (MOU) is entered into this 10<sup>th</sup> day of August, 2004, by and between the Management representatives of the City of Modesto and the representatives of the Modesto City Fire Fighters' Association. This agreement extends the MOU, otherwise set to expire on December 27, 2004, to December 25, 2006.

The initial MOU, effective January 2, 2001, and an amendment effective November 13, 2003, remain in full force and effect with the following modifications:

**Article 2. TERM OF MEMORANDUM**

- a) The term of this Memorandum of Understanding shall be the period of January 2, 2001, through December 27, 2004, inclusive. **This MOU shall be extended to cover the period of December 28, 2004 through December 25, 2006, inclusive.**
- b) The CITY and MCFFA agree to begin subsequent negotiations no later than August 15, 2006. The parties shall meet no later than April 30, 2006, and attempt to reach agreement on a negotiations model for the subsequent negotiations. In preparation for these negotiations, the parties agree to begin discussions on a comparable labor market in January, 2006.

**Article 4. SALARY RATES and STEP ADVANCES**

- a) The parties jointly agree that the following base salary ranges and rates shall be applicable on the dates indicated for classifications in this Unit for the period commencing January 2, 2001 and ending December 25, 2006.

Classification Title	Ranges Effective 1/2/01	
	56 Hour	40 Hour
Firefighter Trainee	203	903
Firefighter	207	707
Fire Engineer	211	711
Fire Captain	217	717

- b) For purposes of this Agreement, base salary range shall mean the salary range assigned to a specific classification as provided in Section (a) of this Article. Base salary rate shall mean the hourly rate of pay established pursuant to the step placement within the base salary range as provided in this Agreement. Salary ranges shall be those provided in Appendix A (Salary Range Chart) of this Agreement, which shall be updated to reflect the new wage rates effective January 2, 2001. Paid time shall be based upon the regular rate of pay with the computation rounded to the nearest cent.
- c) Effective January 2, 2001, the salary range shall be adjusted upward by four and one-half percent (4.5%). Effective January 1, 2002, the salary range provided in Appendix A shall be further adjusted upward by an additional four and one-half percent (4.5%). Effective December 31, 2002, said ranges will be further adjusted upward an additional three percent (3.0%). Effective February 10, 2004, (amended from December 30, 2003), said salary ranges shall be further adjusted upward an additional three percent (3.0%). Effective **June 28, 2005**, said salary ranges shall be further adjusted upward an additional two and one-half percent (2.5%). Effective **September 19, 2006**, said salary ranges shall be further adjusted upward an additional two and one-half percent (2.5%).
- d) When an employee is promoted, the calculation for the salary increase shall be based on the employee's base salary, excluding any Relief Engineer pay, incentive pay or acting pay.
- e) Each salary range shall consist of five (5) steps, A through E. Progression through the steps shall be based upon both length of service and job performance.
- (1) Step A will normally be paid upon initial employment. The initial salary may be set at a higher step only upon approval of the department head and/or City Manager. In cases of exceptional performance, employees hired at higher than Step A, may be considered for their first step increase after thirteen (13) pay periods.
  - (2) Step B shall be paid upon completion of 13 pay periods with an overall "Meets Expectations" performance evaluation.
  - (3) Steps C and D shall be paid upon completion of 26 pay periods with an overall "Meets Expectations" performance evaluation.
  - (4) Step E shall be paid upon completion of 26 pay periods with an overall "Meets Expectations" evaluation and a current certification as a Forty-hour First Responder or EMT. Failure to maintain such certification shall result in automatic reduction to Step D. Only employees who were

certified as Forty-hour First Responders as of May 1, 1994, shall be eligible for Step E without being certified as an EMT.

(5) Merit step increases within the established salary range, may be granted in addition to those above, upon approval of the City Manager.

(6) When a step increase is denied, there shall be another performance evaluation of the employee within thirteen (13) pay periods from the effective date of the denied increase. There is no right of appeal to the withholding of a step increase, but the reasons for withholding shall be given in writing to the employee.

(7) Due to performance deficiency, lack of application, indifferent attitude, or other legitimate reasons, an employee's step may be reduced to a lower step upon recommendation of the department head and approval of the City Manager. There is no right of appeal due to the lowering of steps, but the reasons for such shall be given in writing to the employee.

#### **Article 8. RELIEF ASSIGNMENT**

- a) Effective January 2, 2001, Fire Engineers assigned to relief shall receive an additional five percent (5%) in compensation based upon a full one hundred and twelve (112) hour pay period.
- b) Relief Engineers may be assigned to long term vacancies or absences in represented ranks, when it is determined that the vacancy or absence will exceed thirty (30) days. Assignment of a Relief Engineer into long term vacancies or absences shall not exceed sixty (60) calendar days. For vacancies or absences that exceed sixty (60) calendar days, Relief Engineers shall be rotated at 60 day intervals, unless mutually agreed upon by the employee, MCFFA and Fire Management. Relief Engineers assigned to long term vacancies or absences shall continue to receive a five percent (5%) relief incentive pay, regardless of assignment.
- c) Fire Management will make every effort to fill vacancies through hiring and promotion when practical.
- d) Effective December 28, 2004, employees assigned as Relief Firefighters shall receive an additional two and one-half percent (2.5%) in compensation based upon a full one hundred and twelve (112) hour per payperiod.

## Article 16. HEALTH, DENTAL, VISION INSURANCE

- a) All employees in regular positions budgeted for forty (40) hours or more per pay period shall be eligible to participate in the health, dental and vision insurance program described in this Article.
- b) The CITY agrees to make available health insurance coverage through the auspices of the Public Employees' Retirement System (PERS) and the dental and vision insurance program currently provided for employees represented by MCFFA or any other program(s) mutually agreed upon by the parties. There shall be a sixty (60) day waiting period for new employees before they become eligible for health, dental or vision insurance benefits.
- c) The CITY shall contribute toward payment of any health premium an amount not to exceed the minimum established by Government Code Section 22825. This minimum health contribution may vary from year to year and is included within the Cafeteria allowances listed in Article 17. CAFETERIA PLAN, below. The CITY shall not contribute this health payment towards the premium of the dental or vision program or for those who waive health, dental or vision coverage.
- d) Except as otherwise required by law, employees on leave without pay in excess of forty (40) hours in a pay period shall not receive a contribution from the CITY towards premium payment and coverage shall cease, unless the premium is paid by the employee. Employees on leave without pay who return to work shall have their health, dental and vision insurance benefits reinstated on the first day of the pay period following the employee's return to work.
- e) The CITY agrees to provide the benefits described in this Article subject to carrier requirements. The parties shall annually determine the amount of the surcharge to apply to active employee's health premiums required to fund the CITY's contribution to retired employee's health premiums under PERS Health Plans. Effective January 1, 2002 the surcharge applied to active employees will terminate, and will no longer be applied to active employees' health premiums.
- f) Should either Federal or State statute(s) mandate that the parties participate in a national or state health care plan or system, the parties agree that to the extent practicable, the level of health care benefits currently provided will not be diminished. The parties further agree that should the CITY's cost be reduced, the parties will expeditiously meet and confer to determine how such savings shall inure to the benefit of the employees.

## Article 17. CAFETERIA PLAN

- a) All employees in regular positions budgeted for forty (40) hours or more per pay period shall be eligible to participate in the Cafeteria Plan described in this Article. Each such employee may select among the following options and specify

what portion of the amount designated below will be applied. The cafeteria allowance amounts listed in (b) (1) and (b) (2), include the required minimum health contribution, as set forth by Government Code Section 22825.

- b) Cafeteria allowances effective November 30, 2004 and November 29, 2005, are for premiums effective January 1, 2005 and January 1, 2006, respectively. Eligible employees shall be entitled to the following monthly allowances:

1. Effective November 30, 2004, the allowance shall be \$750.00 for employees with dependent coverage (health, dental and vision).

Effective November 29, 2005, this allowance shall increase to \$775.00.

2. Effective November 30, 2004, the allowance shall be \$400.00 for employees with employee only coverage (health, dental and vision), provided that the allowance shall not be less than the combined premium for the lowest cost HMO, dental and vision plan.

Effective November 29, 2005, this amount shall increase to \$450.00, provided that the allowance shall not be less than the combined premium for the lowest cost HMO, dental and vision plan.

3. Effective November 30, 2004, the allowance shall be \$350.00 for employees who waive health, dental and vision, or who waive health but keep dental and vision, regardless of whether the dental and vision is for employee only or dependents.

Effective November 29, 2005, this amount shall increase to \$400.00.

- c) The CITY's Cafeteria allowance in Section (b) above, for health plan years 2005 and 2006, shall not be less than the amounts provided to employees represented by the Modesto Police Officers Association (MPOA) for MPOA's health plan years beginning August 2005 and August 2006, respectively. This "me to" provision shall sunset with the expiration of MCFFA's contract extension, on December 25, 2006. Excluded from this "me too" provision are:

1. any CITY health, dental and vision contributions awarded to MPOA as part of an interest arbitration proceeding,
2. any CITY health, dental and vision contributions to MPOA which may exceed MPOA's negotiated amounts for employee only coverage, if MPOA should enter into an agreement with the CITY whereby the CITY's contributions shall not be less than the lowest cost health, dental and vision premiums for employee only coverage.

d) The Cafeteria Plan shall include the following options:

1. Health, Dental and Vision Insurance. This option provides a monthly allowance toward the combined total premium for the health, dental and vision insurance program provided by the CITY not to exceed the stated monthly maximum benefit of the Cafeteria Plan. All employees shall select this option at least to the level that provides for health, vision and dental coverage for the individual employee, provided that employees may request a waiver of the health coverage from the Personnel Department. Such waiver shall only be granted if the employee shows proof of other health insurance coverage from another carrier. Effective August 1, 2002, an employee who has waived health coverage may also elect to waive dental and vision coverage, provided that the employee shows proof of other dental coverage. Dental and vision coverage may only be waived together, and may not be separately waived. Should an employee who has obtained a waiver to this provision lose such alternative coverage, the employee shall notify the Personnel Department within five (5) work days and enroll in a CITY provided insurance program.
2. Additional Insurance Programs. This option provides a monthly allowance toward payment of premiums for additional insurance programs sponsored by MCFFA or the CITY.
3. Cash. That portion of the allowance not utilized for option (1) or (2) above shall be paid to the employee as cash. Such cash shall be subject to all applicable provisions of the tax code.

e) The CITY shall continue an IRS section 125 program for pre-tax deductions for the employee share of health, dental and vision insurance premiums and for dependent care costs.

## Article 18. RETIREE HEALTH INSURANCE

Employees may elect on a one-time basis at retirement to continue to participate in the dental and/or vision insurance program at their own cost. Upon the death of a retired employee, surviving dependents retain eligibility for continued participation in the dental and/or vision insurance programs.

Retired employees may continue to participate in the PERS Health Plans at their own cost, except that the City shall contribute toward their health premium an amount not to exceed the minimum employer contribution as designated in Government Code Section 22825. During calendar year 2005, the designated minimum employer contribution is \$48.40, increasing to \$64.60 for calendar year 2006.

## Article 31. CATASTROPHIC LEAVE

- a) Employees in regular positions shall be eligible to participate in the catastrophic leave program. To be eligible, an employee must have a verifiable long-term illness or injury, or have a member of the employee's immediate family with a long term illness or injury which results in the employee being requested to take time off from work to care for that family member, and must have exhausted all accrued leave, or soon will have exhausted all such leave, resulting in the employee being in a no-pay status. Catastrophic leave shall be coordinated with Family Leave with respect to CITY payment of insurance contributions.
- b) When a Department Head has determined that an employee would benefit from the establishment of a leave bank, the Department Head will notify the Personnel Office requesting the establishment of a leave bank in the employee's name. The Department Head will be responsible for notifying CITY employees of the need for donations. The Department head will take necessary actions to help ensure that individual employee decisions to donate or not donate to a leave bank are kept confidential and that employees are not pressured to participate. ALL DONATIONS SHALL REMAIN CONFIDENTIAL.
- c) The maximum time that may be initially donated into an employee's leave bank account is 1040 hours. To be eligible to receive more than the original 1040 hour limit, there must be a favorable prognosis for recovery and a predictable date of return to work.
- d) An employee may donate sick leave, vacation and holiday leave only in increments of four (4) hours to a specific employee for which a leave bank has been created. An employee may donate leave only if their own total accrued leave balance will not drop below 168 hours following donation. Donated hours shall be credited to the leave bank of the affected employee as sick leave. The donation of leave hours is irreversible. Should the person receiving the donation not use all donated leave for the initial long-term illness or injury, any balance will remain with that person. When an employee is utilizing leave bank hours, they will not accrue any leave time.
- e) Employees wishing to donate time shall complete and submit the required form to the Personnel Office. After review, the form will be forwarded to the Finance Department for payroll action and adjustment to donor and recipient's paid leave balances.
- f) In no event shall donated time have the effect of altering the employment rights of the CITY or the recipient employee, nor shall it extend or alter the limitations otherwise applicable to leaves of absence or sick leave. The city reserves the right to modify or terminate an established leave bank program as it deems necessary.

## Article 49. PENDING ISSUES

The parties agree to meet and confer during the term of this MOU regarding the issue(s) listed below, once comprehensive information has been obtained. In an attempt to reach a mutual agreement regarding the issue(s), it is agreed neither party may impose upon the other party any changes of terms and conditions, nor exercise the provisions set forth in Section 1206 of the Modesto City Charter.

- 1) PERS Service Credit for Unused Sick Leave.
- 2) Alternative Methods of Dispute Resolution which utilize Interest Based problem solving methods.
- 3) Personnel Systems Redesign
- 4) Vantage Care
- 5) Fire Investigation Staffing

## APPROVAL

This MOU extension was presented to the Modesto City Council for approval on August 10, 2004 and was so approved.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-415A**

**A RESOLUTION AMENDING THE FISCAL YEAR 04-05 OPERATING BUDGET TO TRANSFER \$79,000 FROM THE GENERAL FUND RESERVE TO THE FIRE DEPARTMENT HEALTH CAFETERIA PLAN ACCOUNT TO PROVIDE FUNDING FOR HEALTH BENEFIT CHANGES.**

WHEREAS, City desires to approve a two-year extension of the current Memorandum of Understanding (MOU) between the City of Modesto and the Modesto City Fire Fighters Association (MCFFA) to December 25, 2006, with related salary increases and increases in the City's contribution to employees' health premiums, and

WHEREAS, in addition to funds budgeted within the Fire Department, an additional \$79,000 is needed for increases in the City's contribution to employees' health premiums, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Fiscal Year 04-05 Operating Budget is hereby amended to transfer \$79,000 from the General Fund Reserve, to the Fire Department Health Cafeteria Plan Account.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of August, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-416**

**A RESOLUTION APPROVING AN AGREEMENT TO TERMINATE  
CONTRACT FOR OPERATION OF MULTIPURPOSE FACILITY AT  
SOMERSET MIDDLE SCHOOL, AND AUTHORIZING THE CITY MANAGER  
TO EXECUTE THE AGREEMENT.**

WHEREAS, on May 2, 1995, the City entered into an agreement with Sylvan Union School District (District) for the use of a multipurpose facility at Somerset Middle School, and

WHEREAS, Paragraph 9 of said Agreement allows for its termination by agreement between the City and District, and

WHEREAS, City and District do agree to terminate the Agreement,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves an Agreement to Terminate Contract for Operation of Multipurpose Facility at Somerset Middle School.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of August, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-417**

**A RESOLUTION APPROVING THE RECOMMENDATIONS OF THE CITIZENS HOUSING AND COMMUNITY DEVELOPMENT COMMITTEE (CH&CDC) TO APPROPRIATE \$28,600 FOR THE NEIGHBORHOOD CAPITAL IMPROVEMENT PROJECT (NCIP) PROPOSALS FOR SUMMER OF 2004.**

WHEREAS, annually the City of Modesto receives a Community Development Block Grant (CDBG) from the federal Housing and Urban Development Department, and

WHEREAS, for Fiscal Year 2004-2005, \$30,000 has been allocated for the purposes of providing funding to neighborhood-based groups or individuals for beautification or capital projects in their respective neighborhoods that will result in an improvement in the quality of life for the residents of that neighborhood, and

WHEREAS, a Request for Proposal (RFP) for up to \$10,000 per project was released on May 17, 2004, and three proposals were received, and

WHEREAS, a review subcommittee met on June 16, 2004, to review the proposals and submitted recommendations of the Citizens Housing & Community Development Committee (CH&CDC), and

WHEREAS, the CH&CDC met and recommended support of this item at its June 25, 2004, meeting,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves funding for the following proposals:

- Stanislaus County Mentors: "Zero Graffiti" - \$8,600
- City of Modesto Youth Commission: "Lighted Crosswalk" - \$10,000

- Visually Impaired Person Support (V.I.P.S.): "Center Rehabilitation" -  
\$10,000

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of August, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-418**

**A RESOLUTION APPROVING THE FINAL MAP OF THE OAKCREST  
SUBDIVISION OF THE CITY OF MODESTO AND AUTHORIZING THE CITY  
MANAGER TO EXECUTE A SUBDIVISION AGREEMENT WITH KB HOME  
NORTH BAY, INC.**

WHEREAS, KB HOME NORTH BAY, INC., is possessed of a tract of land situated in the City of Modesto, County of Stanislaus, consisting of 13.36 acres, known as the OAKCREST (“SUBDIVISION”), in the Village One Specific Plan Area, and

WHEREAS, an application for a vesting tentative subdivision map was deemed complete by the Secretary of the Planning Commission on December 4, 2003, and

WHEREAS, a tentative map of said tract was approved by the Planning Commission of the City of Modesto on the 15<sup>th</sup> day of December, 2003, and

WHEREAS, the Secretary of the Planning Commission of the City of Modesto has certified that the final map of said tract substantially conforms to the approved tentative map, and

WHEREAS, the City Engineer of the City of Modesto has certified that the final map of said SUBDIVISION meets all of the provisions of the California Subdivision Map Act and the provisions of the Modesto Municipal Code relating to subdivisions, and that the map is technically correct,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that said final map be approved; that the dedications for streets and easements as shown thereon within the boundaries of said tract be accepted on behalf of the public for public use; and that the City Clerk be authorized to certify the map of said tract on behalf of the City of Modesto after the fees and deposits required by the Modesto Municipal Code in

amounts determined by the City Engineer have been paid; and after subdivider has furnished securities, as set forth in Section 4-4.605 of the Modesto Municipal Code, which shall secure the obligations set forth in Section 66499.3 of the Government Code of the State of California. Said securities shall be in forms acceptable to the City Attorney and in the amounts required by the City Engineer.

BE IT FURTHER RESOLVED that the City Manager and the City Clerk be authorized to execute and attest, respectively, an agreement with subdivider as required by Section 4-4.604(c) of the Modesto Municipal Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of August, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**A RESOLUTION AMENDING THE FY 02-03 CAPITAL IMPROVEMENT BUDGET TO MOVE FUNDS TO 2300-430-M205 CAPITAL GRANTS FUND: A) \$70,000 FROM 0700-430-4380 SPECIAL GAS TAX FUND – SLURRY SEAL B) \$22,000 FROM 0700-800-8000 SPECIAL GAS TAX FUND – GAS TAX C) \$147,948.10 FROM 0700-410-4120 SPECIAL GAS TAX FUND – STREET MAINTENANCE**

WHEREAS, the City of Modesto intends to award a contract to George Reed, Inc., for \$826,227.20, and

WHEREAS, an additional amount of \$240,000 is needed in the 2300-430-M205 Capital Grants Fund, Sisk Road – Evergreen to Dale, Capital Improvement fund to fully fund the construction contract plus construction administration and contingencies,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the FY02-03 Capital Improvement Budget as follows:

1. Close project 0700-430-L036 and return the remaining balance of \$27,355 to fund balance.
2. Reallocate and transfer \$22,000 from fund balance 0700-800-8000-8003 to 2300-430-M205 Capital Grants Fund - Sisk Road.
3. Transfer \$148,000 from 0700-410-4120 Special Gas Tax Fund –Street Maintenance to Capital Improvement Project 2300-430-M205 Capital Grants Fund - Sisk Road.
4. Transfer \$70,000 from 0700-430-4380 Special Gas Tax Fund - Slurry Seal to Capital Improvement Project 2300-430-M205 Capital Grants Fund - Sisk Road.

BE IT FURTHER RESOLVED that the Finance Director, or his designee, is hereby authorized to take the necessary action to amend the FY 02-03 Capital Improvement Budget.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of August, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-421**

**A RESOLUTION AWARDING THE BID AND APPROVING A \$629,204.73 CONTRACT WITH GRAHAM CONTRACTORS, INC., FOR THE PROJECT TITLED "2004 SLURRY AND CAPE SEALS" AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE CONTRACT. TOTAL ESTIMATED COST OF THIS PROJECT IS \$760,000.**

WHEREAS, the bids received for 2004 Slurry And Cape Seals were opened at 11:00 a.m. on July 20, 2004, and later tabulated by the Public Works Director for the consideration of the Council, and

WHEREAS, the Public Works Director has recommended that the bid of \$629,204.73 received from Graham Contractors, Inc., be accepted as the lowest responsible bid and the contract be awarded to Graham Contractors, Inc.,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the bid of Graham Contractors Inc., in the amount of \$629,204.73, and hereby awards Graham Contractors, Inc., the contract titled "2004 Slurry And Cape Seals."

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of August, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-423**

**A RESOLUTION APPROVING THE FILING OF AN AMENDMENT TO AN APPROVED SECTION 5307 GRANT WITH THE FEDERAL TRANSIT ADMINISTRATION FOR PUBLIC TRANSIT CAPITAL PURPOSES AND AUTHORIZING THE CITY MANAGER TO EXECUTE ALL GRANT AMENDMENT AND GRANT AGREEMENT DOCUMENTS**

WHEREAS, the Federal Transit Administration (FTA) has been delegated authority to award federal financial assistance for transportation related projects, and

WHEREAS, the City of Modesto has provided all annual certifications and assurances to the Federal Transit Administration required for the projects, and

WHEREAS, each year the City of Modesto submits a grant application for Section 5307 funds from the formula apportionment made available to the Modesto Urbanized Area by the FTA, and

WHEREAS, the City of Modesto desires to amend the grant application for FY 2003/04 previously submitted by the City and approved by the FTA, and

WHEREAS, Stanislaus Council of Governments (StanCOG), the designated recipient, is expected to amend on August 11, 2004 the previously approved grant under Section 5307 Urban Area Formula Program Assistance for FY 2003-04, and

WHEREAS, the projects in the Section 5307 grant application are in the Federal Transportation Improvement Program (FTIP) adopted by StanCOG on November 12, 2003, as amended, and

WHEREAS, the grant amendment will impose certain obligations on the City of Modesto, and may require the City to provide the local share of the project costs, and

WHEREAS, the Economic Development Committee approved a request to file a Section 5307 grant application with the Federal Transit Administration at its meeting on May 10, 2004, which included the funds being requested in this grant amendment, and

WHEREAS, by a report to the Council dated July 30, 2004, from the Public Works Department, City staff recommended submitting a grant amendment for \$879,394 in Section 5307 formula FTA funds and Congestion Mitigation and Air Quality (CMAQ) funds to partially offset the capital costs of the City's public transit program, a copy of said report is attached hereto and incorporated herein by reference, and

WHEREAS, the City Council conducted a duly noticed Public Hearing on August 10, 2004, in accordance with FTA regulations,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the filing of the Section 5307 grant amendment is hereby approved, and the City Manager, or his designee, is hereby authorized to execute and file said amendment for Federal Section 5307 and CMAQ assistance on behalf of the City of Modesto with the Federal Transit Administration (FTA) for federal assistance authorized by 49 U.S.C. chapter 53, Title 23, United State Code, or other Federal statues authorizing a project administered by the Federal Transit Administration.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute and file the annual certifications and assurances and other documents the Federal Transit Administration requires for awarding a federal assistance grant.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute grant agreements with the Federal Transit Administration on behalf of the City of Modesto.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of August, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-423A**

**A RESOLUTION MAKING CERTAIN FINDINGS CONCERNING MITIGATION MEASURES, ADOPTING A MITIGATION MONITORING AND REPORTING PROGRAM, MAKING FINDINGS CONCERNING ALTERNATIVES, ADOPTING A STATEMENT OF OVERRIDING CONSIDERATIONS, AND CERTIFYING THE FINAL ENVIRONMENTAL IMPACT REPORT FOR THE KAISER MODESTO MEDICAL CENTER/CORNERSTONE BUSINESS PARK PROJECT (STATE CLEARINGHOUSE NUMBER 2003072085)**

WHEREAS, on December 30, 2002, Kaiser Foundation Hospitals filed applications for amendments to the Kiernan Business Park Specific Plan, a rezoning to Planned Development Prezone, a Development Agreement, a Sphere of Influence amendment and annexation to the City of Modesto, all to allow a 1,425,000-square-foot Medical Center on 49 acres located on the west side of Dale Road north of Bangs Avenue (“the Project”), and

WHEREAS, the Project also includes a proposal to amend the Sphere of Influence and annex to the City of Modesto an adjacent 39 acres located on the west side of Dale Road south of Kiernan Avenue (“Cornerstone Business Park”), and

WHEREAS, the City of Modesto (“the City”), on July 17, 2003, published an Initial Study and a Notice of Preparation for the Project, which identified potentially significant environmental impacts attributable to the Project, on which basis the City determined that an Environmental Impact Report (“EIR”) was required for the Project, and

WHEREAS, the Notice of Preparation provided notice of the City’s determination, and solicited public input on the proposed scope and content of the EIR for the Project, and

WHEREAS, on July 23, 2003 the City held a public scoping meeting to receive public comments on the scope and content of the EIR, and

WHEREAS, the City published and distributed a Draft EIR for the Kaiser Modesto Medical Center/Cornerstone Business Park Project (State Clearinghouse Number 2003072085) (“DEIR”) for public comment on March 26, 2004, in accordance with Section 21091 of the California Environmental Quality Act (“CEQA”), and

WHEREAS, the DEIR was available for public comment for a period of 45 days as required by Section 21091 of CEQA, the close of the public comment period being May 10, 2004, and

WHEREAS, during the 45-day public comment period the City received twenty letters commenting on the DEIR, and

WHEREAS, the City prepared written responses to all written comments received on the DEIR, said responses being contained in a Final EIR for the Kaiser Modesto Medical Center/Cornerstone Business Park Project (State Clearinghouse Number 2003072085) (“FEIR”) prepared pursuant to Section 15089 of the CEQA Guidelines, and

WHEREAS, the FEIR was published and distributed on July 9, 2004, and consists of the Draft EIR, a list of commentors, copies of all written comments received, responses to those comments that raise environmental issues, and any revisions to the text of the Draft EIR made in response to the comments, as required by Section 15132 of the CEQA Guidelines, and

WHEREAS, the Project would include approval of the following: an amendment to the City’s Sphere of Influence; Annexation of the Project site to the City;

rezoning of the Medical Center site as a Planned Development; an amendment to the Kiernan Business Park Specific Plan; approval of a Development Agreement; permits for the development of site, including building, landscaping, and signage improvements; building permits for the structures; and any necessary agreements for public infrastructure improvement, and

WHEREAS, CEQA requires that, in connection with the approval of a project for which an EIR has been prepared which identifies one or more significant environmental effects, the decision-making agency make certain findings regarding those effects, and

WHEREAS, a public hearing on the Project was held by the Planning Commission on July 19, 2004, in the Chambers, Tenth Street Place, 1010 Tenth Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered, and

WHEREAS, after said public hearing, the Modesto City Planning Commission adopted Resolution No. 2004-36, recommending to the City Council adoption of certain findings and certification of the FEIR, and

WHEREAS, said matter was set for a public hearing of the City Council to be held on August 10, 2004, in the Tenth Street Place Chambers located at 1010 10th Street, Modesto, California, at which date and time said duly noticed public hearing of the Council evidence both oral and documentary was received and considered, and

WHEREAS, the City Council has received and considered the FEIR for the Kaiser Modesto Medical Center/Cornerstone Business Park Project (SCH No. 2003072085) that analyzed the potential environmental effects of the proposed Project.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of

Modesto that it hereby finds and determines in respect to the FEIR:

1. That the FEIR has been completed in compliance with CEQA; that the City Council has reviewed and analyzed the FEIR and other information in the record and has considered the information contained therein, including the written and oral comments received at the public hearings on the FEIR and the Project, prior to acting upon or approving the Project; and that the FEIR represents the independent judgment of the City of Modesto; and
2. That the Findings and Recommendations set forth in Exhibit "A", and incorporated herein by reference, be made by the Council as the City's findings under the California Environmental Quality Act ("CEQA") (Pub. Resources Code § 21000 *et seq.*) and the CEQA Guidelines (Cal. Code Regs., Title 14, §15000 *et seq.*) relating to the Project. The Findings provide the written analysis and conclusions of the Council regarding the Project's environmental impacts, mitigation measures and alternatives to the Project.
3. That pursuant to Public Resources Code Section 21081 and CEQA Guidelines Sections 15091 *et seq.*, the City Council of the City of Modesto adopts and makes the following statement of overriding considerations regarding the remaining unavoidable impacts of the Project and the anticipated economic, social and other benefits of the Project.

a. Significant Unavoidable Impacts

With respect to the foregoing findings, as set forth in Exhibit A, and in recognition of those facts which are included in the record, the City has determined the following:

- that the Project will cause significant, unavoidable impacts to Agricultural Resources, Transportation and Circulation, Air Quality, Noise, and Water Supply; and
- that the Project will contribute to significant, unavoidable cumulative impacts to Agricultural Resources, Transportation and Circulation, Air Quality, Noise, and Utilities and Service Systems.

These impacts cannot be avoided or substantially reduced by feasible changes or alterations to the Project, other than the changes or alterations already adopted.

b. Overriding Considerations

The City Council specifically adopts and makes this Statement of Overriding Considerations that this Project includes all feasible measures that would eliminate or substantially lessen the significant impacts of the Project on the environment, and that the remaining significant, unavoidable impacts of the Project are acceptable in light of the environmental, economic, social and other considerations set forth herein because the benefits of the Project outweigh the significant and adverse impacts of the Project. The City Council finds that each of the overriding considerations set forth below constitutes a separate and independent ground for finding that the benefits of the Project outweigh its significant adverse environmental impacts and sets forth an overriding consideration warranting approval of the Project. These matters are supported by evidence in the record.

c. Benefits of Proposed Project

The City Council has considered the FEIR, the public record of proceedings on the proposed Project and other written materials presented to the City as well as oral and written testimony at all public hearings related to the Project, and does hereby determine that implementation of the Project as specifically provided in the Project documents would result in the substantial public benefits set forth below.

The City Council has weighed the benefits of the proposed Project against its unavoidable environmental risks and adverse environmental effects identified in the FEIR and hereby determines that those benefits outweigh the risks and adverse environmental effects and, therefore, further determines that these risks and adverse environmental effects are acceptable.

- (i) High-Quality Medical Care. The Project would enable Kaiser to provide high quality, cost effective, accessible health care to Kaiser Permanente's members and the Modesto community. The Project would provide a new, state-of-the-art inpatient

facility for Kaiser Permanente members in the Modesto area to meet changing health care demands and practices.

- (ii) Provision of Medical Care. The Project will alleviate the existing and projected shortfall of hospital beds in Stanislaus County and enhance Modesto's emergence as a Regional Center of Health Care Excellence by creating a third hospital.
- (iii) Seismic Safety. The Project would create seismically safe, inpatient facilities in Modesto and Stanislaus County.
- (iv) Support Modesto's Objectives for the Kiernan Business Park Specific Plan Area. The Project would play an important role in the enhancement of the Specific Plan Area, particularly given the size of the Medical Center.

The Project would provide a campus environment that is easy to negotiate for both pedestrians and vehicles, by creating open spaces and pedestrian walkways with clearly recognizable destination points, building entrances, landmarks, and street crossings to orient people to Medical Center programs. The Project would create a friendly environment for a diverse mix of people and uses. The Project would establish a central public gathering space that serves as a focal point for the community and, in addition, helps to define the Specific Plan Area.

- (v) Projected Economic Impacts to the Kaiser Modesto Service Area, Stanislaus County and the City of Modesto. As outlined in the March 2004 report prepared by Sedway Group, City believes the Project will result in significant economic benefits to the community which the City recognizes that the exact numbers set forth in the Sedway Report may be optimistic and probably reflect a best case scenario, the City Council finds that Project will result in economic benefits substantially similar to those outlined below.

### Construction Impacts

The Project will result in a construction investment of \$428.4 million through build-out. This level of investment is estimated to generate an average of 394 construction jobs each year of construction and \$156.4 million in construction employee wages.

### Operational Impacts.

#### *Kaiser Modesto Service Area*

The Service Area effects of the Project's operational spending on wages, goods, and services will increase over time as the Project is phased in and employment steadily increases to meet the growing needs of Kaiser's members.

- In 2008, when the hospital becomes operational, the entire Service Area will benefit from an infusion of \$98.9 million in sales, 2,636 jobs, and \$147.7 million in wages, all attributable to the Project.
- By 2013, when the second phase of construction is complete, these impacts will grow to \$158.5 million in sales, 4,077 jobs, and \$247.2 million in wages.
- By 2025, when the facility reaches its planned maximum, Service Area sales will increase by \$327.6 million and the employment base will have 7,516 jobs with \$525.0 million in associated wages that would not be present absent the Project.

#### *Stanislaus County*

Stanislaus County as a whole will capture an estimated 90 percent of the Project's Service Area effects. Thus businesses and households throughout the county will be the major beneficiaries of the Project's economic contributions. These will take the following form:

- As early as 2008, businesses will be enriched by sales of \$85.0 million, 2,390 jobs will be

created, and household wealth will increase by \$134.6 million.

- By 2013, sales will increase to \$136.2 million, with 3,694 jobs supported and \$225.1 million in wages.
- By 2025 when the Project reaches its peak size, Stanislaus County businesses will achieve \$281.7 million in new sales, jobs will increase by 6,795, and households will be richer by \$478.1 million.

These findings indicate that Stanislaus County's economic base will be boosted substantially as a result of Kaiser's health care investment serving the residents of Stanislaus as well as the Southern San Joaquin counties. This will be a vital contribution to the county's economy, helping to improve the county's rate of unemployment which is currently 12 percent.

#### *City of Modesto*

The City of Modesto will reap many benefits from Kaiser's operation of the Project. On average, about 38 percent of the Service Area effects will go to Modesto residents and businesses. This will result in the following economic effects:

- In 2008, Modesto business sales will increase by \$38.6 million, 998 new jobs will be created, and household earnings will increase by \$55.3 million.
- By 2013, sales impacts will increase to \$61.3 million, with 1,542 jobs supported and \$92.9 million in wages.
- By 2025, when the Project is built-out, local sales will increase by \$125.4 million and the employment base will have expanded by 2,844 jobs, with \$197.1 million in associated wages, all attributable to the role of the Project as a major contributor to Modesto's economy.

Within the Service Area, Modesto is the geographic area positioned to garner the greatest economic benefits from the Project. These benefits will be felt throughout the city and not just in the area immediately adjacent to the Project.

4. The Mitigation Monitoring and Reporting Program for the Kaiser Modesto Medical Center/Cornerstone Business Park is attached to this resolution as Exhibit "B" and is incorporated and adopted as part of this resolution herein. The Program identifies impacts of the Project, corresponding mitigation, designation of responsibility for mitigation implementation and the agency responsible for the monitoring action.
5. The City Council hereby finds and recognizes that the FEIR contains additions, clarifications, modifications and other information in its responses to comments on the Draft Environmental Impact Report for the Project ("DEIR") and also incorporates information obtained by the City since the DEIR was issued. This Council hereby finds and determines that such changes and additional information are not significant new information as that term is defined under the provisions of the California Environmental Quality Act, because such changes and additional information do not indicate that any new significant environmental impacts not already evaluated would result from the Project and do not reflect any substantial increase in the severity of any environmental impact; that no feasible mitigation measures considerably different from those previously analyzed in the DEIR have been proposed that would lessen significant environmental impacts of the Project; and that no feasible alternatives considerably different from those analyzed in the DEIR have been proposed that would lessen significant environmental impacts of the Project. Accordingly, this Council hereby finds and determines that recirculation of the FEIR for further public review and comment is not warranted; and
6. The City Council does hereby designate the Community and Economic Development Director of the City of Modesto, at his office at 1010 Tenth Street, Modesto, California 95354 as the custodian of documents and record of proceedings on which the decision is based; and
7. The City Council does hereby make the foregoing findings with respect to the significant effects on the environment of such Project, as identified in the FEIR, with the stipulations that all information in these findings is intended as a summary of the full administrative record supporting the FEIR, which full

administrative record should be consulted for the full details supporting these findings, and that any mitigation measures and/or alternatives that were suggested by commentors to the DEIR and were not adopted as part of the FEIR are hereby expressly rejected for the reasons stated in the responses to the comments set forth in the FEIR and elsewhere in the record.

BE IT FURTHER RESOLVED by the Council that it hereby certifies the Final Environmental Impact Report for the Kaiser Modesto Medical Center/Cornerstone Business Park Project (SCH No. 2003072085), a copy of which is available in the City Clerk's Office.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of August, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour
NOES:	Councilmembers:	None
ABSENT:	Councilmembers:	None

## EXHIBIT "A"

### FINDINGS & RECOMMENDATIONS ON THE KAISER PERMANENTE MODESTO MASTER PLAN FEIR

#### I. LAND USE

**Potential Impact:** Impact A.1. The Project would introduce new medical center and business park uses in proximity to existing residential uses, creating the potential for land use compatibility conflicts. (Less than Significant).

**Mitigation:** No mitigation necessary.

**Finding:** The Project is not inherently incompatible with nearby residential land uses. The screening and buffering between the Project and the nearby residential properties, as well as the thoughtful site planning and building design found in the Project, will ensure that the Project will not conflict with the use and enjoyment of nearby residential properties. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

**Potential Impact:** Impact A.2. The Project would introduce new medical center and business park uses in proximity to ongoing agricultural operations, creating the potential for land use compatibility conflicts. (Less than Significant).

**Mitigation:** No mitigation necessary.

**Finding:** The placement of the Project at the edge of urban development would not increase the potential for compatibility conflicts between urban and agricultural uses beyond that which already exists. Rather, it would move an existing urban edge incrementally north and west. Residential properties south of the Project site would cease to occupy the edge of urban development and would themselves be buffered from continued agricultural operations by the proposed development on the Project site. The Medical Buildings, in turn, would be buffered from ongoing agricultural operations to the west by the ring road. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

#### II. AGRICULTURAL RESOURCES

**Potential Impact:** Impact B.1. Implementation of the proposed project would directly result in the permanent loss of Prime Farmland. (Significant and Unavoidable)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure B.1. Compensation for loss of farmland

**Finding:** The loss of farmland on the Project site directly resulting from the Project could be partially mitigated through contribution to the Farmland Conservancy Fund, or to an equivalent program for funding farmland preservation in Stanislaus County, as a condition precedent to the issuance of building permits for the Project. This would serve to compensate for the loss of farmland on the Project site directly resulting from the Project. However, preservation of Prime Farmland through agricultural easements on other Prime Farmland parcels would not mitigate the direct loss of Prime Farmland resulting from the Project to a less-than significant level. Accordingly, notwithstanding the implementation of the mitigation measure described above, impacts related to the permanent loss of Prime Farmland remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact B.2. Development of the medical center and business park uses on the project site may impair the agricultural productivity of surrounding Prime Farmland. (Less than Significant)

**Mitigation:** No mitigation required.

**Finding:** The placement of the project at the edge of urban development would not increase the potential for compatibility conflicts between urban and agricultural uses beyond that which already exists. Rather, it would move an existing urban edge incrementally northward. Residential properties south of the project site would cease to occupy the edge of urban development and would themselves be buffered from continued agricultural operations by the proposed development on the project site. The eastern and northern edges of the project site are separated from agricultural operations by Dale Road and Kiernan Avenue, respectively. An internal ring road, landscaping and surface parking would buffer the hospital buildings from adjacent continued agricultural operations to the west of the project site. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

**Potential Impact:** Impact B.3. Implementation of the proposed project would incrementally contribute to the cumulative loss of prime agricultural land in the Modesto area and in eastern Stanislaus County. (Significant and Unavoidable)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure B.3. Same as Mitigation Measure for Impact B.1.

**Finding:** Contribution to the California Farmland Conservancy fund, or an equivalent farmland preservation program, to fund farmland preservation projects in Stanislaus County would serve to compensate for the Project's contribution to the cumulative impacts of farmland conversion in Stanislaus County and thereby serve to mitigate cumulative Project impacts. However, it would not mitigate the cumulative impacts of the loss of Prime Farmland

to less-than-significant levels. Accordingly, notwithstanding the implementation of the mitigation measure described above, impacts related to the permanent loss of Prime Farmland remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

### III. VISUAL RESOURCES

**Potential Impact:** Impact C.1. Development of the project would change the existing visual character of the project site. (Less than Significant)

**Mitigation:** No mitigation required.

**Finding:** Implementation of the Project would transform the existing agricultural visual character of the Project site to that of a medical center and business park. However, this change would not constitute a significant adverse visual impact under CEQA because the Project will not demolish or obscure any unique or distinguished visual resource. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

**Potential Impact:** Impact C.2. Development of the Kaiser Modesto Medical Center component of the Project would introduce buildings that differ markedly in scale and visual character from the Fleur de Ville residential subdivision to its south. (Less than Significant)

**Mitigation:** No mitigation required.

**Finding:** Although inconsistent with the visual character of the Fleur de Ville residential subdivision, the medical center campus would be separated from Fleur de Ville by a wide setback from the southern property line, landscaping and screening, and through building design. Such measures would minimize the visual impact of the Project on the residential subdivision to its south by buffering and screening the transition between the two uses, and are intended to enhance the visual quality of the Project, its site and its surroundings. The Project, therefore, would not degrade the visual quality of the site and its surroundings. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

**Potential Impact:** Impact C.3. The Project would require outdoor lighting, creating the potential for light and glare on nearby properties. (Less than Significant)

**Mitigation:** No mitigation required.

**Finding:** In the interests of public safety and in order to conform to City requirements for lighting of parking areas, building grounds, interior roadways, and surface parking lots will be illuminated. However, in accordance with City standards, the proposed exterior lighting plan for the medical center would contain and avoid the spillage of direct light onto nearby properties. Although not yet developed, the exterior lighting plan for the

Cornerstone Business Park will comply with the same standards. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

#### IV. TRANSPORTATION AND CIRCULATION

**Potential Impact:** Impact D.1. Traffic generated by Phase A of the project would increase queues at the northbound approach to the intersection of Kiernan Avenue and Salida Boulevard. (Significant and Unavoidable)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less than significant level, but the measure is not feasible and is therefore not adopted:

- Mitigation Measure D.1. Lengthen the northbound left turn pocket by 110 feet.

**Finding:** Mitigation Measure D.1 is not feasible because the City of Modesto does not have jurisdiction to design or construct this improvement, which is under the jurisdiction of Stanislaus County. In addition, no funding mechanism has been identified by the County to fund the contemplated improvement and to which the Project sponsors could be required to contribute, and therefore there can be no assurance that sufficient funds would be available by 2008 for the County to construct the improvement. Accordingly, impact D.1 remains significant and unavoidable. In its discussions with City planning staff, the Project sponsor has agreed to make an additional voluntary financial contribution that is intended to encourage private participation by retail, commercial and other developers in developing a plan for augmenting state and federal funding for Kiernan Avenue improvements or other regional traffic mitigation, facilitate possible further private financial participation, and which should provide funding for the improvement if dedicated by County to this mitigation measure. Such a measure can and should be adopted by Stanislaus County.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.2. Traffic generated by Phase A of the Project would increase queues on the eastbound and southbound approaches, and affect traffic levels of service at the intersection of Kiernan Avenue and SR 99 Southbound Ramps during the a.m. and p.m. peak hours. (Significant and Unavoidable)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less than significant level, but the measures are not feasible and are therefore not adopted:

- Mitigation Measure D.2.a. Reconstruct the overpass to provide two westbound and two eastbound through lanes.

- Mitigation Measure D.2.b. Widen the eastbound approach to provide one through lane and one shared through/right lane.
- Mitigation Measure D.2.c. Add second westbound left turn lane.
- Mitigation Measure D.2.d. Widen the southbound approach to provide two left-turn lanes and one shared through/right lane.

**Finding:** Mitigation Measures D.2.a-d are not feasible. The City of Modesto does not have the jurisdiction to design or construct these improvements to the SR 99 freeway interchange with Kiernan Avenue, which is under the jurisdiction of Caltrans. Caltrans is encouraged to pursue the construction of the identified improvements. The City has established a Capital Facilities Fees program (CFF) for its share of the cost of these measures, to which the project sponsors will be required to contribute. While construction of these improvements is anticipated to occur as the City builds out, there can be no assurance that sufficient funds will be available by 2008 for Caltrans to construct the improvements. As a result, the intersection could operate poorly for a substantial period of time. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.3. Traffic generated by Phase A of the Project would increase queues on the northbound approach, and affect traffic levels of service at the intersection of Kiernan Avenue and SR 99 Northbound Ramps during the a.m. and p.m. peak hours. (Significant and Unavoidable)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less than significant level, but the measures are not feasible and are therefore not adopted:

- Mitigation Measure D.3.a. Reconstruct the overpass to provide two westbound and two eastbound through lanes.
- Mitigation Measure D.3.b. Restripe the northbound shared left/through lane to a shared left/through/right lane.

**Finding:** Mitigation Measures D.3.a and D.3.b are not feasible. The City does not have the jurisdiction to design or construct these improvements to the SR 99 freeway interchange with Kiernan Avenue, which is under the jurisdiction of Caltrans. Caltrans is encouraged to pursue the construction of the identified improvements. Reconstruction of the overpass would require substantial capital contributions from governmental agencies such as Caltrans; it is not feasible to impose such mitigation measures on a single developer/applicant. Nor is it likely that a fair share contribution by any single developer would have a significant impact on the overall cost of mitigation measures to the overpass, which may also require property acquisition. The City has established a CFF program for its share of the cost of these

measures, to which the Project sponsors would be required to contribute. However, an additional bond measure, traffic impact fee, public facility fee, or similar program that seeks to mitigate impacts of this nature by spreading the cost for major transportation projects would need to be adopted and imposed by the County or Caltrans at some future time. In its discussions with City planning staff, the Project sponsor has agreed to make an additional voluntary financial contribution that is intended to encourage private participation by retail, commercial and other developers in developing a plan for augmenting state and federal funding for the Kiernan interchange improvements or other regional traffic mitigation, and facilitate possible further private financial participation. However, this voluntary fair share contribution alone would not mitigate significant existing and future traffic impacts on the Kiernan interchange to a less-than-significant level. In addition, while construction of these improvements is anticipated to occur as the City builds out, there can be no assurance that sufficient funding from all sources would be available by 2008 for Caltrans to construct the improvements. As a result, the intersection could operate poorly for a substantial period of time. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.4. Traffic generated by Phase A of the Project would increase queues at the southbound approach to the intersection of Kiernan Avenue and Sisk Road. (Significant and Unavoidable)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less than significant level, but the measure is not feasible and is therefore not adopted:

- Mitigation Measure D.4. Add second southbound left-turn lane.

**Finding:** Mitigation Measure D.4 is not feasible. The City does not have the jurisdiction to design or construct this improvement, which is under the jurisdiction of Caltrans and Stanislaus County. Caltrans and Stanislaus County are encouraged to pursue the construction of the identified improvement. Therefore, there can be no assurance that this mitigation measure could be constructed prior to 2008. Roadway segment improvements on Kiernan Avenue would require substantial capital contributions from governmental agencies such as Caltrans and the County; it is not feasible to impose such mitigation measures on a single developer/applicant. Nor is it likely that a fair share contribution by any single developer would have a significant impact on the overall cost of mitigation measures along Kiernan Avenue, which may also require property acquisition. Any bond measure, traffic impact fee, capital facility fee, or similar program that seeks to mitigate impacts of this nature by spreading the cost for major transportation projects over a number of funding sources could be adopted and imposed by the County or Caltrans at some future time. In its discussions with City planning staff, the Project sponsor has agreed to make a voluntary financial contribution that is intended to encourage private participation by retail, commercial and other developers in developing a plan for augmenting state and federal funding for Kiernan Avenue or other regional traffic mitigation, and facilitate possible further private financial participation. However, this voluntary fair share

construction towards the cost of improving traffic flow on Kiernan Avenue or other regional transportation corridors would not mitigate significant existing and future traffic impacts on Kiernan Avenue to a less-than-significant level. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.5. Traffic generated by Phase A of the Project would increase queues on the westbound and northbound approaches, and affect traffic levels of service at the intersection of Kiernan Avenue and Dale Road during the a.m. and p.m. peak hours. (Significant and Unavoidable)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less than significant level; however, Mitigation Measures D.5.b and D.5.c are not feasible and are therefore not adopted:

- Mitigation Measure D.5.a. Add a second northbound left turn lane, and provide a storage length of 300 feet for each lane.
- Mitigation Measure D.5.b. Add an eastbound right turn lane and restripe shared through/right lane to through lane.
- Mitigation Measure D.5.c. Add a second westbound left turn lane.

**Finding:** Mitigation Measures D.5.b-c are infeasible. The City does not have the jurisdiction to design or construct Mitigation Measures D.5.b or D.5.c because these legs of the intersection are under the jurisdiction of Stanislaus County and Caltrans. Caltrans and Stanislaus County are encouraged to pursue the construction of the identified improvements. Mitigation Measure D.5.a is adopted, however, implementation of Mitigation Measure D.5.a would only partially mitigate the significant impact at this intersection, and therefore this impact would remain significant and unavoidable. Representatives of the City and project sponsors have been discussing and would continue to discuss with Stanislaus County and Caltrans possible opportunities for the project sponsors to assist in carrying out Mitigation Measures D.5.b and D.5.c to improve the entire intersection.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.6. Traffic generated by Phase A of the Project would increase queues at the northbound approach to the intersection of Dale Road and Technology Drive. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, are hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.6.a. Add a second northbound left turn lane, and provide a storage length of 300 feet for each lane.
- Mitigation Measure D.6.b. Add a second northbound through lane.

**Finding:** Implementation of Mitigation Measures D.6.a and D.6.b will accommodate queues on the northbound approach and thereby reduce the impact described above to a less than significant level.

**Potential Impact:** Impact D.7. Traffic generated by Phase A of the Project would increase queues at the northbound approach to the intersection of Dale Road and Kaiser Medical Center Entrance. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.7. Add a second northbound left turn lane and provide a storage length of 300 feet for each lane.

**Finding:** Implementation of Mitigation Measure D.7 will accommodate queues on the northbound approach and thereby reduce the impact described above to a less than significant level.

**Potential Impact:** Impact D.8. Traffic generated by Phase A of the Project would increase delays and affect traffic levels of service at the intersection of Bangs Avenue and American Avenue during the p.m. peak hour. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.8. Convert intersection to a side-street STOP-controlled intersection.

**Finding:** Implementation of Mitigation Measure D.8 would improve traffic operating conditions at the location described to LOS B during the p.m. peak hour, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.9. Traffic generated by Phase A of the Project would increase delays and affect traffic levels of service at the intersection of Bangs Avenue and Prescott Road during the a.m. and p.m. peak hours. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, are hereby adopted and either Mitigation Measures D.9.a and b or D.9.c will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.9.a. Signalize intersection.

- Mitigation Measure D.9.b. Add a westbound left turn lane.
- Mitigation Measure D.9.c. Alternative Mitigation Measure – Convert the intersection to a roundabout.

**Finding:** Implementation of Mitigation Measures D.9.a and D.9.b would improve traffic operating conditions at the location described to LOS B during the a.m. peak hour and LOS D during the p.m. peak hour. Implementation of Mitigation Measure D.9.c would also enable the intersection to operate at LOS A during both the a.m. and p.m. peak hours, and the City is considering this alternative measure. Accordingly, implementation of either alternative would reduce the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.10. Traffic generated by Phase A of the Project would increase delays and affect traffic levels of service at the intersection of Pelandale Avenue and SR 99 Southbound Ramps during the p.m. peak hour. (Significant and Unavoidable)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measures are not feasible and are therefore not adopted:

- Mitigation Measure D.10.a. Reconstruct the overpass to provide two eastbound through lanes.
- Mitigation Measure D.10.b. Restripe the southbound approach to provide a left turn lane and a shared left/through/right lane.

**Finding:** Mitigation Measures D.10.a and b are not feasible. The City does not have the jurisdiction to design or construct these improvements to this SR 99 freeway interchange with Pelandale Avenue, which is under the jurisdiction of Caltrans. Caltrans is encouraged to pursue the construction of the identified improvements. Reconstruction of the overpass would require substantial capital contributions from governmental agencies such as Caltrans; it is not feasible to impose such mitigation measures on a single developer/applicant. Nor is it likely that a fair share contribution by any single developer would have a significant impact on the overall cost of mitigation measures to the overpass, which may also require property acquisition. The City has established a CFF program for its share of the cost of these measures, to which the Project sponsors would be required to contribute. While construction of these improvements is anticipated to occur as the City builds out, there can be no assurance that sufficient funding from all sources would be available by 2008 for Caltrans to construct the improvements. As a result, the intersection could operate poorly for a substantial period of time. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.11. Traffic generated by Phase A of the proposed project would increase queues at the eastbound and southbound approaches, and affect traffic

levels of service at the intersection of Pelandale Avenue and Dale Road during the p.m. peak hours. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, are hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.11.a. Add a third southbound through lane at the approach and departure legs of the intersection.
- Mitigation Measure D.11.b. Add a third eastbound through lane at the approach and departure legs of the intersection.
- Mitigation Measure D.11.c. Add a second eastbound left turn lane.
- Mitigation Measure D.11.d. Lengthen the southbound left turn pocket by 150 feet.

**Finding:** Implementation of Mitigation Measures D.11.a-d would improve traffic operating conditions at the location described to LOS D during the p.m. peak hour, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.12. Traffic generated by Phase A of the Project would increase queues at the northbound approach to the intersection of Pelandale Avenue and Prescott Road. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.12. Lengthen the northbound left turn lane by 100 feet.

**Finding:** Implementation of Mitigation Measure D.12 would allow for accommodation of queues at the location described, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.13. Traffic generated by Phase A of the Project would increase queues on the northbound approach and affect traffic levels of service at the intersection of Pelandale Avenue and McHenry Avenue during the p.m. peak hour. (Significant and Unavoidable)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measure is not feasible and is therefore not adopted.

- Mitigation Measure D.13. Add a second northbound left turn lane.

**Finding:** Mitigation Measure D.13 is not feasible. The City of Modesto does not have the jurisdiction to design or construct this improvement, which would be under the jurisdiction of Caltrans. Caltrans is encouraged to pursue the construction of the identified improvement. The City has established a CFF program for the cost of this measure, to which the Project sponsors would be required to contribute. While construction of this improvement is anticipated to occur as the City builds out, there can be no assurance that sufficient funding would be available by 2008 for Caltrans to construct the improvement. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.14. Traffic generated by Phase A of the Project would increase delays and affect traffic levels of service at the intersection of Standiford Avenue and SR 99 Southbound Ramps during the p.m. peak hour. (Significant and Unavoidable)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measure is not feasible and is therefore not adopted.

- Mitigation Measure D.14. Widen southbound off-ramp to provide for a second southbound left turn at the approach to the intersection.

**Finding:** Mitigation Measure D.14 is not feasible. The City does not have the jurisdiction to design or construct this improvement to the SR 99 freeway interchange with Standiford Avenue, which is under the jurisdiction of Caltrans. Caltrans is encouraged to pursue the construction of the identified improvement. In addition, interchange improvements would require substantial capital contributions from governmental agencies such as Caltrans; it is not feasible to impose such mitigation measures on a single developer/applicant. Nor is it likely that a fair share contribution by any single developer would have a significant impact on the overall cost of mitigation measures to the overpass, which may also require property acquisition. The City has established a CFF program for its share of the cost of this mitigation measure, to which the Project sponsors would be required to contribute. While construction of this improvement is anticipated to occur as the City builds out, there can be no assurance that sufficient funding from all sources would be available by 2008 for Caltrans to construct the improvement. As a result, the intersection could operate poorly for a substantial period of time. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.15. Traffic generated by Phase A of the Project would increase queues on the westbound approach and affect traffic levels of service at the intersection of Standiford Avenue and SR 99 Northbound Ramps during the p.m. peak hour. (Significant and Unavoidable)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measures are not feasible and are therefore not adopted.

- Mitigation Measure D.15.a. Widen the eastbound departure to provide for a free northbound right turn lane.
- Mitigation Measure D.15.b. Add a third westbound through lane to the approach and departure legs of the intersection.

**Finding:** Mitigation Measures D.15.a and b are not feasible. The City does not have the jurisdiction to design or construct these improvements to the SR 99 freeway interchange with Standiford Avenue, which is under the jurisdiction of Caltrans. Caltrans is encouraged to pursue the construction of the identified improvements. In addition, interchange improvements would require substantial capital contributions from governmental agencies such as Caltrans; it is not feasible to impose such mitigation measures on a single developer/applicant. Nor is it likely that a fair share contribution by any single developer would have a significant impact on the overall cost of mitigation measures to the overpass, which may also require property acquisition. The City has established a CFF program for its share of the cost of these measures, to which the Project sponsors would be required to contribute. While construction of these improvements is anticipated to occur as the City builds out, there can be no assurance that sufficient funding from all sources would be available by 2008 for Caltrans to implement these improvements. As a result, the intersection could operate poorly for a substantial period of time. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.16. Traffic generated by Phase A of the Project would increase delays and affect traffic levels of service at the intersection of Standiford Avenue and Dale Road during the p.m. peak hour. (Significant and Unavoidable)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measures are not feasible and are therefore not adopted.

- Mitigation Measure D.16.a. Add an exclusive westbound right turn lane. An acceptable alternative to adding a second westbound right turn lane would be converting the existing westbound right-turn lane into a third westbound through lane and creating a new westbound free right turn lane.
- Mitigation Measure D.16.b. Add a third eastbound left turn lane.
- Mitigation Measure D.16.c. Add a third westbound through lane.

- Mitigation Measure D.16.d. Add a third eastbound through lane.
- Mitigation Measure D.16.e. Add a third northbound receiving lane.

**Finding:** Mitigation Measures D.16.a-e are not feasible. The additional eastbound left turn lane in Measure D.16.b is not physically possible to accommodate, as it would require acquisition of private property in an already developed area, significantly impair the operation of existing businesses and reduce the City's economic tax base. The additional third northbound receiving lane in Measure D.16.e is also infeasible and unnecessary, as the only purpose of this lane would be to receive traffic from the additional eastbound left turn lane identified in Measure D.16.b. For the remaining mitigation measures, the City of Modesto has established a CFF program to fund construction of these improvements as the City builds out, to which the project sponsors would be required to contribute. The City has adopted CFF as a reasonable and comprehensive program to mitigate the impacts of new development through the imposition of proportionate and fair share impact fees to ensure that the mitigation of impacts caused by new development is achieved in an equitable manner. However, the City does not expect to have sufficient funds available by 2008 to implement the measures that are physically feasible. As a result, the intersection could operate poorly for a substantial period of time. In addition, even if the physically feasible measures were adopted, implementation of these mitigation measures would only partially mitigate the significant impact at this intersection, and therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.17. Traffic generated by Phase A of the Project would increase queues at the westbound approach to the intersection of Standiford Avenue and Sisk Road. (Significant and Unavoidable)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measure is not feasible and is therefore not adopted.

- Mitigation Measure D.17. Add a third westbound through lane.

**Finding:** Mitigation Measure D.17 is not feasible. The City of Modesto has established a CFF program to fund construction of this improvement as the City builds out, to which project sponsors would be required to contribute. The City has adopted CFF as a reasonable and comprehensive program to mitigate the impacts of new development through the imposition of proportionate and fair share impact fees to ensure that the mitigation of impacts caused by new development is achieved in an equitable manner. However, the City does not expect to have sufficient funding available by 2008 to implement this measure. As a result, the intersection could operate poorly for a substantial period of time. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.18. Traffic generated by Phase A of the Project would increase delays and affect traffic levels of service at the intersection of Standiford Avenue and Prescott Road during the p.m. peak hour. (Significant and Unavoidable)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measure is not feasible and is therefore not adopted.

- Mitigation Measure D.18. Add a third eastbound through lane to the approach and departure legs of this intersection.

**Finding:** Mitigation Measure D.18 is not feasible. The City has established a CFF program to fund this improvement as the City builds out, to which the Project sponsors would be required to contribute. The City has adopted CFF as a reasonable and comprehensive program to mitigate the impacts of new development through the imposition of proportionate and fair share impact fees to ensure that the mitigation of impacts caused by new development is achieved in an equitable manner. However, the City does not expect to have sufficient funding available by 2008 to implement this measure. As a result, the intersection could operate poorly for a substantial period of time. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.19. Traffic generated by the Project would increase traffic volume demand on the segment of Kiernan Avenue between Salida Boulevard and SR 99 Southbound Ramps, which would approach or exceed the capacity of the segment during the p.m. peak hour. (Significant and Unavoidable)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measure is not feasible and is therefore not adopted.

- Mitigation Measure D.19. Provide a second eastbound through lane.

**Finding:** Mitigation Measure D.19 is not feasible. The City does not have the jurisdiction to design or construct this improvement on this roadway segment, which is under the jurisdiction of Stanislaus County and Caltrans. Caltrans and the County are encouraged to pursue the construction of the identified improvement. In addition, no funding mechanism has been identified by the County or Caltrans to fund the contemplated improvement and to which the Project sponsors could be required to contribute, and therefore there can be no assurance that sufficient funds would be available by 2008 for the County or Caltrans to construct the improvement. In its discussions with City planning staff, the Project sponsor has agreed to make

an additional voluntary financial contribution that is intended to encourage private participation by retail, commercial and other developers in developing a plan for augmenting state and federal funding for the Kiernan Avenue improvements or other regional traffic mitigation, and facilitate possible further private financial participation. However, this voluntary fair share contribution alone would not mitigate significant existing and future traffic impacts on Kiernan Avenue to a less-than-significant level. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.20. Traffic generated by the Project would increase traffic volume demand on the segment of Kiernan Avenue between SR 99 Southbound Ramps and SR 99 Northbound Ramps, which would approach or exceed the capacity of the segment during the a.m. and p.m. peak hours. (Significant and Unavoidable)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measure is not feasible and is therefore not adopted.

- Mitigation Measure D.20. Provide a second eastbound through lane.

**Finding:** Mitigation Measure D.20 is not feasible. The City does not have the jurisdiction to design or construct this improvement to the SR 99 freeway interchange with Kiernan Avenue, which is under the jurisdiction of Caltrans. Caltrans is encouraged to pursue the construction of the identified improvement. Reconstruction of the overpass would require substantial capital contributions from governmental agencies such as Caltrans; it is not feasible to impose such mitigation measures on a single developer/applicant. Nor is it likely that a fair share contribution by any single developer would have a significant impact on the overall cost of mitigation measures to the overpass, which may also require property acquisition. The City has established a CFF program for its share of the cost of this measure, to which the Project sponsors would be required to contribute. However, an additional bond measure, traffic impact fee, public facility fee, or similar program that seeks to mitigate impacts of this nature by spreading the cost for major transportation projects would need to be adopted and imposed by the County or Caltrans at some future time. In its discussions with City planning staff, the Project sponsor has agreed to make an additional voluntary financial contribution that is intended to encourage private participation by retail, commercial and other developers in developing a plan for augmenting state and federal funding for the Kiernan interchange improvements or other regional traffic mitigation, and facilitate possible further private financial participation. However, this voluntary fair share contribution alone would not mitigate significant existing and future traffic impacts on the Kiernan Avenue interchange to a less-than-significant level. In addition, while construction of this improvement is anticipated to occur as the City builds out, there can be no assurance that sufficient funding from all sources would be available by 2008 for Caltrans to construct the improvement. As a result, the roadway segment could operate poorly for a substantial period of time. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.21. Traffic generated by the Project would increase traffic volume demand on the segment of Pelandale Avenue between SR 99 Northbound Ramps and Sisk Road, which would approach or exceed the capacity of the segment during the p.m. peak hour. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.21. Provide a third westbound through lane.

**Finding:** Implementation of Mitigation Measure D.21 would improve traffic operating conditions at the described location to LOS D during the p.m. peak hour, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.22. Traffic generated by the Project would increase traffic volume demand on the segment of Pelandale Avenue between Sisk Road and Costco/Save Mart, which would approach or exceed the capacity of the segment during the p.m. peak hour. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.22. Provide a third westbound through lane.

**Finding:** Implementation of Mitigation Measure D.22 would improve traffic operating conditions at the described location to LOS D during the p.m. peak hour, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.23. Traffic generated by the Project would increase traffic volume demand on the segment of Pelandale Avenue between Chapman Road and Dale Road, which would approach or exceed the capacity of the segment during the p.m. peak hour. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, are hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.23.a. Provide second and third westbound through lanes.
- Mitigation Measure D.23.b. Provide a third eastbound through lane.

**Finding:** Implementation of Mitigation Measures D.23.a and b would improve traffic operating conditions at the described location to an acceptable LOS D, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.24. Traffic generated by the Project would increase traffic volume demand on the segment of Standiford Avenue between SR 99 Southbound Ramps and SR 99 Northbound Ramps, which would approach or exceed the capacity of the segment during the p.m. peak hour. (Significant and Unavoidable)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measure is not feasible and is therefore not adopted.

- Mitigation Measure D.24. Provide a third westbound through lane.

**Finding:** Mitigation Measure D.24 is not feasible. The City does not have the jurisdiction to design or construct this improvement on this roadway segment, which is under the jurisdiction of Caltrans. Caltrans is encouraged to pursue the construction of the identified improvement. Reconstruction of the interchange would require substantial capital contributions from governmental agencies such as Caltrans; it is not feasible to impose such mitigation measures on a single developer/applicant. Nor is it likely that a fair share contribution by any single developer would have a significant impact on the overall cost of mitigation measures to the interchange, which may also require property acquisition. The City has established a CFF program for its share of the cost of this improvement, to which project sponsors would be required to contribute. However, an additional bond measure, traffic impact fee, public facility fee, or similar program that seeks to mitigate impacts of this nature by spreading the cost for major transportation projects would need to be adopted and imposed by the County or Caltrans at some future time. In its discussions with City planning staff, the Project sponsor has agreed to make an additional voluntary financial contribution that is intended to encourage private participation by retail, commercial and other developers in developing a plan for augmenting state and federal funding for the Kiernan interchange improvements or other regional traffic mitigation, and facilitate possible further private financial participation. However, this voluntary fair share contribution alone would not mitigate significant existing and future traffic impacts on the Kiernan Avenue interchange to a less-than-significant level. In addition, while construction of this improvement is anticipated to occur as the City builds out, there can be no assurance that the funding from all sources would be available by 2008 for Caltrans to construct the improvement. As a result, the roadway segment could operate poorly for a substantial period of time. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.25. Traffic generated by the Project would increase traffic volume demand on the segment of Standiford Avenue between SR 99 Northbound Ramps and Sisk Road, which would approach or exceed the capacity of the segment during the a.m. and p.m. peak hours. (Significant and Unavoidable)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measures are not feasible and are therefore not adopted.

- Mitigation Measure D.25.a. Provide a third westbound through lane.
- Mitigation Measure D.25.b. Provide a third eastbound through lane.

**Finding:** Mitigation Measures D.25.a and b are not feasible. The City does not have the jurisdiction to design or construct these improvements on this roadway segment, which is under the jurisdiction of Caltrans. Caltrans is encouraged to pursue the construction of the identified improvements. Construction of these interchange improvements would require substantial capital contributions from governmental agencies such as Caltrans; it is not feasible to impose such mitigation measures on a single developer/applicant. Nor is it likely that a fair share contribution by any single developer would have a significant impact on the overall cost of the mitigation measures, which may also require property acquisition which would significantly impair existing businesses. The City has established a CFF program for its share of the cost of these improvements, to which project sponsors would be required to contribute. While construction of these improvements is anticipated to occur as the City builds out, there can be no assurance that funding from all sources would be available by 2008 for Caltrans to construct the improvements. As a result, the roadway segment could operate poorly for a substantial period of time. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.26. Traffic generated by the Project would increase traffic volume demand on the segment of Standiford Avenue between Sisk Road and Dale Road, which would approach or exceed the capacity of the segment during the a.m. and p.m. peak hours. (Significant and Unavoidable)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measures are not feasible and are therefore not adopted.

- Mitigation Measure D.26.a. Provide a third westbound through lane.
- Mitigation Measure D.26.b. Provide a third eastbound through lane.

**Finding:** Mitigation Measures D.26.a and b are not feasible. The City has established a CFF program to fund construction of these improvements as the City builds out, to which project sponsors would be required to contribute. The City has adopted CFF as a reasonable and comprehensive program to mitigate the impacts of new development through the imposition of proportionate and fair share impact fees to ensure that the mitigation of impacts caused by new development is achieved in an equitable manner. However, the City does not expect to have sufficient funding available by 2008 to implement these measures. As a result,

the roadway segment could operate poorly for a substantial period of time. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.27. Traffic generated by the Project would increase traffic volume demand on the segment of Standiford Avenue between Dale Road and Prescott Road, which would approach or exceed the capacity of the segment during the a.m. and p.m. peak hours. (Significant and Unavoidable)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measures are not feasible and are therefore not adopted.

- Mitigation Measure D.27.a. Provide a third westbound through lane.
- Mitigation Measure D.27.b. Provide a third eastbound through lane.

**Finding:** Mitigation Measures D.27.a and b are not feasible. The City has established a CFF program to fund construction of these improvements as the City builds out, to which project sponsors would be required to contribute. The City has adopted CFF as a reasonable and comprehensive program to mitigate the impacts of new development through the imposition of proportionate and fair share impact fees to ensure that the mitigation of impacts caused by new development is achieved in an equitable manner. However, the City does not expect to have sufficient funding available by 2008 to implement these measures. As a result, the roadway segment could operate poorly for a substantial period of time. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.28. Traffic generated by the Project would increase traffic volume demand on the segment of Standiford Avenue between Prescott Road and Tully Road, which would approach or exceed the capacity of the segment during the a.m. and p.m. peak hours. (Significant and Unavoidable)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measure is not feasible and is therefore not adopted.

- Mitigation Measure D.28. Provide a third eastbound through lane.

**Finding:** Mitigation Measure D.28 is not feasible. The City has established a CFF program to fund construction of this improvement as the City builds out, to which Project sponsors would be required to contribute. The City has adopted CFF as a reasonable and

comprehensive program to mitigate the impacts of new development through the imposition of proportionate and fair share impact fees to ensure that the mitigation of impacts caused by new development is achieved in an equitable manner. However, the City does not expect to have sufficient funding available by 2008 to implement this measure. As a result, the roadway segment could operate poorly for a substantial period of time. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.29. Traffic generated by the Project would increase traffic volume demand on the segment of Dale Road between Kiernan Avenue and Technology Drive, which would approach or exceed the capacity of the segment during the a.m. and p.m. peak hours. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.29. Provide a second northbound through lane.

**Finding:** Implementation of Mitigation Measure D.29 would enable the roadway segment at the above-described location to operate at an acceptable level of service of LOS D, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.30. Traffic generated by the Project would increase traffic volume demand on the segment of Dale Road between Technology Drive and Kaiser Medical Center Entrance, which would approach or exceed the capacity of the segment during the a.m. and p.m. peak hours. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.30. Provide a second northbound through lane.

**Finding:** Implementation of Mitigation Measure D.30 would enable the roadway segment at the above-described location to operate at an acceptable level of service of LOS D, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.31. Traffic generated by the Project would increase traffic volume demand on the segment of Dale Road between the Kaiser Medical Center Entrance and Bangs Avenue, which would approach or exceed the capacity of the segment during the a.m. and p.m. peak hours. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.31. Provide a third southbound through lane.

**Finding:** Implementation of Mitigation Measure D.31 would enable the roadway segment at the above-described location to operate at an acceptable level of service of LOS D, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.32. Traffic generated by the Project would increase traffic volume demand on the segment of Dale Road between Bangs Avenue and Fleur de Lis Drive, which would approach or exceed the capacity of the segment during the a.m. and p.m. peak hours. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.32. Provide a third southbound through lane.

**Finding:** Implementation of Mitigation Measure D.32 would enable the roadway segment at the above-described location to operate at an acceptable level of service of LOS D, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.33. Traffic generated by the Project would increase traffic volume demand on the segment of Dale Road between Fleur de Lis Drive and Pelandale Avenue, which would approach or exceed the capacity of the segment during the a.m. and p.m. peak hours. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.33. Provide a third southbound through lane.

**Finding:** Implementation of Mitigation Measure D.33 would enable the roadway segment at the above-described location to operate at an acceptable level of service of LOS D, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.34. Traffic generated by the Project would increase traffic volume demand on the segment of Dale Road between Snyder Avenue and Standiford Avenue, which would approach or exceed the capacity of the segment during the p.m. peak hour. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.34. Provide a third southbound through lane from Veneman Avenue to Standiford Avenue.

**Finding:** Implementation of Mitigation Measure D.34 would enable the roadway segment at the above-described location to operate at an acceptable level of service of LOS D, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.35. Roadway improvements on Dale Road south of the MID Lateral No. 6 would not accommodate the bicycle lane on Dale Road included in the Non-Motorized Transportation Plan. (Significant and Unavoidable)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level but the measure is not feasible and is therefore not adopted.

- Mitigation Measure D.35. Provide a northbound and southbound connection to the proposed Class I bicycle path along the north side of the MID Lateral No. 6 irrigation canal in the vicinity of Dale Road and Bangs Avenue.

**Finding:** Mitigation Measure D.35 is not feasible. Measure D.35 is not physically possible to accommodate without the acquisition of private property which would eliminate an existing business and reduce the City's tax base. In addition, no funding mechanism for this measure has been identified to which the project sponsors could be required to contribute and therefore there can be no assurance that sufficient funds would be available by 2008 to construct the improvement. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.36. Traffic generated by the Project would increase traffic volume demand on one freeway segment exceeding the capacity of the system. (Significant and Unavoidable)

**Mitigation:** No feasible mitigation measure has been identified which would potentially reduce the significance of the impact described above to a less-than-significant level.

**Finding:** No feasible mitigation measure has been identified which would potentially reduce the significance of the impact described above to a less-than-significant level. Although widening of short segments of SR 99 could theoretically mitigate the impact described above, such improvements are not consistent with established principles of freeway design. Such improvements would cause bottlenecks as motorists merged back to the smaller numbers of lanes after the short wider segment. In addition, freeway widening is a regional issue that is implemented based on increases not just in local traffic but also in long-distance travel. Construction of the additional freeway segment would require substantial capital contributions from governmental agencies such as Caltrans; it is not feasible to impose such mitigation

measures on a single developer/applicant. Nor is it likely that a fair share contribution by any single developer would have a significant impact on the overall cost of mitigation measures to the overpass, which may also require property acquisition. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.37. Development of the proposed project would significantly impact the operations of one freeway ramp. (Significant and Unavoidable)

**Mitigation:** No feasible mitigation measure has been identified which would potentially reduce the significance of the impact described above to a less-than-significant level.

**Finding:** No feasible mitigation measure has been identified which would potentially reduce the significance of the impact described above to a less-than-significant level. Although widening of short segments of SR 99 could theoretically mitigate the impact described above, such improvements are not consistent with established principles of freeway design. Such improvements would cause bottlenecks as motorists merged back to the smaller numbers of lanes after the short wider segment. In addition, freeway widening is a regional issue that is implemented based on increases not just in local traffic but also in long-distance travel. Construction of the additional freeway segment would require substantial capital contributions from governmental agencies such as Caltrans; it is not feasible to impose such mitigation measures on a single developer/applicant. Nor is it likely that a fair share contribution by any single developer would have a significant impact on the overall cost of mitigation measures to the overpass, which may also require property acquisition. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.38. The design of the Kaiser Modesto Medical Center portion of the project would not provide for adequate pedestrian access and circulation. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.38. Provide additional sidewalks/pedestrian paths between the main entrance and the extension of the driveway from Dale Road.

**Finding:** Implementation of Mitigation Measure D.38 would increase pedestrian access to an acceptable level, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.39. The design of the internal circulation system in the vicinity of the Kaiser Modesto Medical Center Entrance on Dale Road would not provide for sufficient on-site storage capacity and would impact the operations of the signalized intersection of Kaiser Medical Center Entrance and Dale Road. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.39. Revise the site plan to remove the entrances to the parking lots from the main driveway. At the intersection of the main driveway with the internal ring road, install STOP signs for the internal ring road approaches and for the eastbound main driveway approach in order to provide right of way to vehicles entering the Kaiser Medical Center. In addition, adjust the curb radii to allow for 15 mph travel speeds for vehicles entering the Kaiser Medical Center and turning right onto the internal ring road.

**Finding:** Implementation of Mitigation Measure D.39 would change the internal circulation system such that sufficient on-site storage capacity is provided, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.40. Traffic generated by Phase B of the Project would increase queues at the eastbound approach to the intersection of Kiernan Avenue and Salida Boulevard. (Significant and Unavoidable)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measure is not feasible and is therefore not adopted.

- Mitigation Measure D.40. Add a second eastbound through lane.

**Finding:** Mitigation Measure D.40 is not feasible. The City does not have the jurisdiction to design or construct this improvement, which would be under the jurisdiction of the County and Caltrans. Caltrans and Stanislaus County are encouraged to pursue the construction of the identified improvement. In addition, no funding mechanism has been identified by the County or Caltrans to fund the contemplated improvement and to which the Project sponsors could be required to contribute, and therefore there can be no assurance that sufficient funds would be available by 2008 for the County or Caltrans to construct the improvement. In addition, roadway segment improvements on Kiernan Avenue would require substantial capital contributions from governmental agencies such as the County and/or Caltrans; it is not feasible to impose such mitigation measures on a single developer/applicant. Nor is it likely that a fair share contribution by any single developer would have a significant impact on the overall cost of mitigation measures along Kiernan Avenue, which may also require property acquisition. Any bond measure, traffic impact fee, capital facility fee, or similar program that seeks to mitigate impacts of this nature by spreading the cost for major transportation projects over a number of funding sources could be adopted and imposed by the County or Caltrans at some future time. In

its discussions with City planning staff, the Project sponsor has agreed to make a voluntary financial contribution that is intended to encourage private participation by retail, commercial and other developers in developing a plan for augmenting state and federal funding for Kiernan Avenue or other regional traffic mitigation, and facilitate possible further private financial participation. However, this voluntary fair share construction towards the cost of improving traffic flow on Kiernan Avenue or other regional transportation corridors would not mitigate significant existing and future traffic impacts on Kiernan Avenue to a less-than-significant level. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.41. Traffic generated by Phase B of the Project would increase delays and affect traffic levels of service at the intersection of Kiernan Avenue and SR 99 Southbound Ramps during the a.m. and p.m. peak hours. (Significant and Unavoidable)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measure is not feasible and is therefore not adopted.

- Mitigation Measure D.41. Add an eastbound right-turn lane.

**Finding:** Mitigation Measure D.41 is not feasible. The City does not have the jurisdiction to design or construct this improvement to the SR 99 freeway interchange with Kiernan Avenue, which is under the jurisdiction of Caltrans. Caltrans is encouraged to pursue the construction of the identified improvement. Construction of this interchange improvement would require substantial capital contributions from governmental agencies such as Caltrans; it is not feasible to impose such mitigation measures on a single developer/applicant. Nor is it likely that a fair share contribution by any single developer would have a significant impact on the overall cost of mitigation measures to the overpass, which may also require property acquisition. The City has established a CFF program for its share of the cost of this measure, to which the Project sponsors would be required to contribute. However, an additional bond measure, traffic impact fee, public facility fee, or similar program that seeks to mitigate impacts of this nature by spreading the cost for major transportation projects would need to be adopted and imposed by the County or Caltrans at some future time. In its discussions with City planning staff, the Project sponsor has agreed to make an additional voluntary financial contribution that is intended to encourage private participation by retail, commercial and other developers in developing a plan for augmenting state and federal funding for the Kiernan interchange improvements or other regional traffic mitigation, and facilitate possible further private financial participation. This voluntary fair share contribution alone would not mitigate significant existing and future traffic impacts on the Kiernan Avenue/Highway 99 interchange to a less-than-significant level. In addition, while construction of this improvement is anticipated to occur as the City builds out, there can be no assurance that sufficient funds would be available by 2013 for Caltrans to construct the improvement. As a result, the intersection could continue to operate poorly for a substantial period of time. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.42. Traffic generated by Phase B of the Project would increase delays and affect traffic levels of service at the intersection of Kiernan Avenue and SR 99 Northbound Ramps during the a.m. and p.m. peak hours. (Significant and Unavoidable)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measure is not feasible and is therefore not adopted.

- Mitigation Measure D.42. Add a westbound right-turn lane.

**Finding:** Mitigation Measure D.42 is not feasible. The City does not have the jurisdiction to design or construct this improvement to the SF 99 freeway interchange with Kiernan Avenue, which is under the jurisdiction of Caltrans. Caltrans is encouraged to pursue the construction of the identified improvement. Reconstruction of the interchange would require substantial capital contributions from governmental agencies such as Caltrans; it is not feasible to impose such mitigation measures on a single developer/applicant. Nor is it likely that a fair share contribution by any single developer would have a significant impact on the overall cost of mitigation measures to the overpass, which may also require property acquisition. The City has established a CFF program for its share of the cost of this measure, to which the project sponsors would be required to contribute. However, an additional bond measure, traffic impact fee, public facility fee, or similar program that seeks to mitigate impacts of this nature by spreading the cost for major transportation projects would need to be adopted and imposed by the County or Caltrans at some future time. In its discussions with City planning staff, the Project sponsor has agreed to make an additional voluntary financial contribution that is intended to encourage private participation by retail, commercial and other developers in developing a plan for augmenting state and federal funding for the Kiernan interchange improvements or other regional traffic mitigation, and facilitate possible further private financial participation. This voluntary fair share contribution alone would not mitigate significant existing and future traffic impacts on the Kiernan Avenue/Highway 99 interchange to a less-than-significant level. In addition, while construction of this improvement is anticipated to occur as the City builds out, there can be no assurance that sufficient funds would be available by 2013 for Caltrans to construct the improvement. As a result, the intersection could continue to operate poorly for a substantial period of time. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.43. Traffic generated by Phase B of the Project would increase delays and affect traffic levels of service at the intersection of Kiernan Avenue and Sisk Road during the a.m. and p.m. peak hours. (Significant and Unavoidable)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measures are not feasible and are therefore not adopted.

- Mitigation Measure D.43.a. Add a westbound right turn lane, and convert through/right lane to through lane.
- Mitigation Measure D.43.b. Add a southbound right turn lane, and convert through/right lane to through lane.

**Finding:** Mitigation Measures D.43.a and b are not feasible. The City of Modesto does not have the jurisdiction to design or construct these improvements, which are under the jurisdiction of Stanislaus County. In addition, no funding mechanism has been identified by the County to fund the contemplated improvements and to which the Project sponsors could be required to contribute, and therefore there can be no assurance that sufficient funds would be available by 2008 for the County to construct the improvements. Such a measure can and should be adopted by Stanislaus County. In its discussions with City planning staff, the Project sponsor has agreed to make an additional voluntary financial contribution that is intended to encourage private participation by retail, commercial and other developers in developing a plan for augmenting state and federal funding for improvements along Kiernan Avenue or other regional traffic mitigation, facilitate possible further private financial participation, and which should provide funding for the improvements if dedicated by the County to this mitigation measure. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.44. Traffic generated by Phase B of the Project would increase delays and affect traffic levels of service at the intersection of Kiernan Avenue and Dale Road during the a.m. and p.m. peak hours. (Significant and Unavoidable)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but Mitigation Measures D.44.b-c are not feasible and are therefore not adopted.

- Mitigation Measure D.44.a. Add northbound right turn lane on Dale Road.
- Mitigation Measure D.44.b. Add a third eastbound through lane.
- Mitigation Measure D.44.c. Revise signal phasing to provide overlap phase.

**Finding:** Mitigation Measures D.44.b-c are not feasible, because the City does not have the jurisdiction to design and construct these improvements, which are under the jurisdiction of Caltrans. Caltrans is encouraged to pursue the construction of the identified

improvements. In addition, no funding mechanism has been identified by Caltrans to fund the contemplated improvements contemplated by D.44b.-c. and to which the Project sponsors could be required to contribute, and therefore there can be no assurance that sufficient funds would be available by 2008 for Caltrans to construct the improvements. Mitigation Measure D.44.a is adopted, however, implementation of Mitigation Measure D.44.a would only partially mitigate the significant impact at this intersection, and therefore this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.45. Traffic generated by Phase B of the Project would increase delays and affect traffic levels of service at the intersection of Dale Road and Technology Drive during the p.m. peak hour. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.45. Add a southbound right turn lane, and revise signal phasing to provide overlap phase.

**Finding:** Implementation of Mitigation Measure D.45 would improve traffic conditions at the above-described location to LOS C during the p.m. peak period, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.46. Traffic generated by Phase B of the Project would increase delays and affect traffic levels of service at the intersection of Dale Road and Kaiser Medical Center Entrance during the p.m. peak hour. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, are hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.46.a. Extend the northbound left turn lane to provide 340 feet of storage capacity.
- Mitigation Measure D.46.b. Allow for free eastbound right turn movement from the Kaiser Medical Center Entrance onto Dale Road southbound.

**Finding:** Implementation of Mitigation Measures D.46.a and b would improve traffic operating conditions at the above-described location to LOS C during the p.m. peak hour, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.47. Traffic generated by Phase B of the Project would increase delays and affect traffic levels of service at the intersection of Dale Road and Bangs Avenue during the p.m. peak hour. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level. Mitigation Measures D.47.a., D.47 b. and D.47.c. are hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program. Mitigation Measure D.47.d (Alternative Mitigation Measure to D.47.a) is not feasible and therefore is not adopted:

- Mitigation Measure D.47.a. Convert the roundabout to a signalized intersection having the following configuration: on southbound approach – two left turn lanes, two through lanes, and one shared through/right lane; on westbound approach – two left turn lanes, one right turn lane; on northbound approach – two through lanes and one right turn lane; and on eastbound approach – one or two right turn lanes (depending on signal phasing).
- Mitigation Measure D.47.b. Restrict the Kaiser driveway (west) leg of the intersection to right-turn-in and right-turn-out access.
- Mitigation Measure D.47.c. Add a second eastbound receiving lane on Bangs Avenue.
- Mitigation Measure D.47.d. (Alternative Mitigation Measure to D.47.a) Extend Technology Drive west to Quinturn Lane and Chapman Road, and Chapman Road over the MID Lateral No. 6.

**Finding:** Implementation of Mitigation Measures D.47.a-c would improve traffic operating conditions at the above-described location to LOS C during the p.m. peak hour. Implementation of alternative Mitigation Measure D.47.d would also improve traffic operating conditions at the above-described location to an acceptable level. However, Mitigation Measure D.47.d. is not feasible as it would require significant acquisition of right-of-way, design and construction for roadway improvements in an area outside of City limits and City's sphere of influence. The City does not have jurisdiction to design or construct these improvements, which are under the jurisdiction of Stanislaus County. In addition, no funding mechanism has been identified by the County to fund the contemplated improvements and to which the Project sponsors could be required to contribute, and therefore there can be no assurance that sufficient funds would be available by 2008 for the County to construct the improvements. In its discussions with City planning staff, the Project sponsor has agreed to make an additional voluntary financial contribution that is intended to encourage private participation by retail, commercial and other developers in developing a plan for augmenting state, federal and local funding for regional traffic mitigation, and facilitate possible further private financial participation. This voluntary fair share contribution alone would not be sufficient to mitigate significant existing and future traffic impacts to a less-than-significant level. Therefore, Mitigation Measure D.47.d is rejected as infeasible. However, adoption of alternative Mitigation

Measures D.47.a, D.47.b. and D.47.b would reduce the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.48. Traffic generated by Phase B of the Project would increase delays and affect traffic levels of service at the intersection of Bangs Avenue and American Avenue during the a.m. and p.m. peak hours. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.48.a. Signalize intersection.
- Mitigation Measure D.48.b. (Alternative Mitigation Measure) Construct a roundabout at the intersection.

**Finding:** Implementation of Mitigation Measure D.48.a would improve traffic operating conditions at the above-described location to LOS C during the p.m. peak hour. Implementation of alternative Mitigation Measure D.48.b would also improve traffic operating conditions at the above-described location to LOS A during both the a.m. and p.m. peak hours. Accordingly, implementation of either alternative would reduce the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.49. Traffic generated by Phase B of the Project would increase delays and affect traffic levels of service at the intersection of Bangs Avenue and Prescott Road during the a.m. and p.m. peak hours. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, are hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.49.a. Signalize intersection.
- Mitigation Measure D.49.b. Add a westbound left turn lane.
- Mitigation Measure D.49.c. (Alternative Mitigation Measure) Construct a roundabout at the intersection.

**Finding:** Implementation of Mitigation Measures D.49.a-b would improve traffic operating conditions at the above-described location to LOS D during the p.m. peak hour. Implementation of alternative Mitigation Measure D.48.c would also improve traffic operating conditions at the above-described location to LOS A during the a.m. peak hour and LOS C during the p.m. peak hour. Accordingly, implementation of either alternative would reduce the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.50. Traffic generated by Phase B of the Project would increase delays and affect traffic levels of service at the intersection of Pelandale Avenue and Dale Road during the a.m. and p.m. peak hours. (Significant and Unavoidable)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the Mitigation Measure D.50.a is not feasible and is therefore not adopted.

- Mitigation Measure D.50.a. Add second eastbound right turn lane.
- Mitigation Measure D.50.b. Add second westbound left turn lane.
- Mitigation Measure D.50.c. Add third westbound through lane.

**Finding:** Mitigation Measure D.50.a is not feasible. The improvement contemplated by Mitigation Measure D.50.a would be physically impossible to accommodate without substantial acquisition of private property and existing parking structures, which would significantly impair the continued operation of an existing multi-family residential complex. Mitigation Measures D.50.b and D.50.c are adopted, however, implementation of Mitigation Measures D.50.b and D.50.c alone would only partially mitigate the significant impact at this intersection, and therefore this impact would remain significant and unavoidable. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.51. Traffic generated by Phase B of the proposed project would increase delays and affect traffic levels of service at the intersection of Standiford Avenue and SR 99 Northbound Ramps during the p.m. peak hour. (Significant and Unavoidable)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measures are not feasible and are therefore not adopted.

- Mitigation Measure D.51.a. Widen the eastbound departure leg of the intersection to provide for a free northbound right turn lane.
- Mitigation Measure D.51.b. Add a third westbound through lane to the approach and departure legs of this intersection.

**Finding:** Mitigation Measures D.51.a and b are not feasible. The City does not have the jurisdiction to design or construct these improvements to the SR 99 freeway interchange with Standiford Avenue, which are under the jurisdiction of Caltrans. Caltrans is encouraged to pursue the construction of the identified improvements. Reconstruction of the interchange would require substantial capital contributions from governmental agencies such as Caltrans; it is not feasible to impose such mitigation measures on a single developer/applicant. Nor is it likely that a fair share contribution by any single developer would have a significant impact on the overall cost of the mitigation measures, which may also require property acquisition which would significantly impair existing businesses. The City has established a CFF program for its share of

the cost of these improvements, to which the Project sponsors would be required to contribute; however, it cannot be assured that sufficient fund from all sources would be available by 2013 for Caltrans to implement these improvements. As a result, the intersection could operate poorly for a substantial period of time. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.52. Traffic generated by Phase B of the Project would increase delays and affect traffic levels of service at the intersection of Standiford Avenue and Sisk Road during the p.m. peak hour. (Significant and Unavoidable)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measure is not feasible and is therefore not adopted.

- Mitigation Measure D.52. Add a third westbound through lane.

**Finding:** Mitigation Measure D.52 is not feasible. The City has established a CFF program to fund construction of this improvement as the City builds out, to which project sponsors would be required to contribute. The City has adopted CFF as a reasonable and comprehensive program to mitigate the impacts of new development through the imposition of proportionate and fair share impact fees to ensure that the mitigation of impacts caused by new development is achieved in an equitable manner. However, the City cannot assure that it will have sufficient funding available by 2013 to implement this measure. As a result, the intersection could operate poorly for a substantial period of time. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.53. Traffic generated by Phase B of the Project would increase delays and affect traffic levels of service at the intersection of Standiford Avenue and Dale Road during the p.m. peak hour. (Significant and Unavoidable)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measures are not feasible and are therefore not adopted.

- Mitigation Measure D.53.a. Same as Mitigation Measure D.16.b.
- Mitigation Measure D.53.b. Add a third northbound receiving lane.

**Finding:** Mitigation Measures D.53.a and b are not feasible. Measure D.53.a is not physically possible to accommodate without the acquisition of private property which would

significantly impair the operation of existing businesses and reduce the City's tax base. With respect to Measure D.53.b, the City has established a CFF program to fund construction of this improvement as the City builds out, to which the Project sponsors would be required to contribute. The City has adopted CFF as a reasonable and comprehensive program to mitigate the impacts of new development through the imposition of proportionate and fair share impact fees to ensure that the mitigation of impacts caused by new development is achieved in an equitable manner. However, adequate funding to complete the improvement by 2013 cannot be assured. As a result, the intersection could operate poorly for a substantial period of time. In addition, even if the physically feasible measure was adopted, implementation of this mitigation measure would only partially mitigate the significant impact at this intersection, and therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.54. Traffic generated by Phase B of the Project would increase delays and affect traffic levels of service at the intersection of Standiford Avenue and Prescott Road during the p.m. peak hour. (Significant and Unavoidable)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measures are not feasible and are therefore not adopted.

- Mitigation Measure D.54.a. Add a second northbound left turn lane.
- Mitigation Measure D.54.b. Add a second southbound left turn lane.
- Mitigation Measure D.54.c. Add a second eastbound left turn lane.
- Mitigation Measure D.54.d. Add a second westbound left turn lane.

**Finding:** Mitigation Measures D.54.a-d are not feasible. The City has established a CFF program to fund construction of these improvements as the City builds out, to which project sponsors would be required to contribute. The City has adopted CFF as a reasonable and comprehensive program to mitigate the impacts of new development through the imposition of proportionate and fair share impact fees to ensure that the mitigation of impacts caused by new development is achieved in an equitable manner. However, it cannot be assured that the City would have sufficient funds available by 2013 to implement these measures. As a result, the intersection could operate poorly for a substantial period of time. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.55. Traffic generated by Phase B of the Project would result in traffic volumes on Pelandale Avenue between Dale Road and Prescott Road to

approach or exceed the capacity on roadway segments during the p.m. peak hour. (Significant and Unavoidable)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measure is not feasible and is therefore not adopted.

- Mitigation Measure D.55. Provide a third eastbound through lane.

**Finding:** Mitigation Measure D.55 is not feasible. The City has established a CFF program to fund construction of this improvement as the City builds out, to which Project sponsors would be required to contribute. The City has adopted CFF as a reasonable and comprehensive program to mitigate the impacts of new development through the imposition of proportionate and fair share impact fees to ensure that the mitigation of impacts caused by new development is achieved in an equitable manner. However, it cannot be assured that the City would have sufficient funds available by 2013 to implement the measure. As a result, the intersection could operate poorly for a substantial period of time. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.56. Traffic generated by Phase B of the Project would result in traffic volumes on Dale Road between Snyder Avenue and Standiford Avenue to approach or exceed the capacity on roadway segments during the a.m. and p.m. peak hours. (Significant and Unavoidable)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measures are not feasible and are therefore not adopted.

- Mitigation Measure D.56.a. Provide a third northbound through lane.
- Mitigation Measure D.56.b. Provide third and fourth southbound through lanes.

**Finding:** Mitigation Measures D.56.a and b are not feasible. It would not be physically possible to accommodate the fourth southbound through lane called for in Measure D.56.b, as it would require substantial acquisition of existing private residential property which would result in the elimination of front yard setbacks and unsafe conditions. The City has established a CFF program that could fund construction of the contemplated improvements as the City builds out, to which Project sponsors would be required to contribute. The City has adopted CFF as a reasonable and comprehensive program to mitigate the impacts of new development through the imposition of proportionate and fair share impact fees to ensure that the mitigation of impacts caused by new development is achieved in an equitable manner. However, it cannot be assured that the City would have funding available by 2013 to implement these

measures. As a result, the roadway segment could operate poorly for a substantial period of time. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.57. Two of the Kaiser Medical Center driveways would have insufficient capacity to accommodate the projected traffic volumes. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.57.a. Dale Road and Kaiser Medical Center Entrance. Same as Mitigation Measures D.46.a and D.46.b.
- Mitigation Measure D.57.b. Dale Road and Bangs Avenue. Same as Mitigation Measures D.47.a and D.47.b.
- Mitigation Measure D.57.c. (alternative mitigation measure) Dale Road and Bangs Avenue. Same as Mitigation Measure D.47.c.

**Finding:** Implementation of Mitigation Measures D.57.a and b would consist of internal site refinements that would increase capacity to accommodate the projected traffic volumes. Alternative Mitigation Measure D.57.c would divert a sufficient number of vehicles from the roundabout to result in acceptable operating conditions. Either option would reduce the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.58. A temporary parking shortage would occur on the Kaiser Medical Center portion of the Project during construction of the hospital expansion and parking structures. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.58. Prepare a Construction Parking Management Plan for the Kaiser Medical Center which will ensure that measures are taken to prevent temporary parking shortages.

**Finding:** Implementation of Mitigation Measure D.58 would ensure that measures are taken to prevent temporary parking shortages, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.59. The Project would cause additional roadway segments to operate at unacceptable levels of service E or F along Kiernan Avenue between Dale Road and Prescott Road. (Significant and Unavoidable)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measures are not feasible and are therefore not adopted.

- Mitigation Measure D.59.a. Kiernan Avenue between Dale Road and American Avenue. Add fourth eastbound and fourth westbound through lanes for a total of eight lanes.
- Mitigation Measure D.59.b. Kiernan Avenue between American Avenue and Prescott Road. Add fourth eastbound and fourth westbound through lanes for a total of eight lanes.

**Finding:** Mitigation Measures D.59.a and b are not feasible. Kiernan Avenue is outside the City's Sphere of Influence, and is under the jurisdiction of Caltrans and Stanislaus County. Eight lanes on Kiernan Avenue is inconsistent with Caltrans' current plans for the SR219 widening project and the City's General Plan, both of which call for a six-lane facility. Caltrans and Stanislaus County are encouraged to pursue the construction of the identified improvements. No funding mechanism has been identified by the County or Caltrans to fund the contemplated improvements to which the Project applicant could be required to contribute. Construction of an additional lane on Kiernan would require substantial capital contributions from governmental agencies such as Caltrans; it is not feasible to impose such mitigation measures on a single developer/applicant. Nor is it likely that a fair share contribution by any single developer would have a significant impact on the overall cost of mitigation measures to the overpass, which may also require property acquisition. In its discussions with City planning staff, the Project sponsor has agreed to make an additional voluntary financial contribution that is intended to encourage private participation by retail, commercial and other developers in developing a plan for augmenting local, state and federal funding for improvements to Kiernan Avenue or other regional traffic mitigation, and facilitate possible further private financial participation. This voluntary fair share contribution alone would not mitigate significant existing and future traffic impacts on this segment of Kiernan Avenue to a less-than-significant level. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.60. The Project would cause additional roadway segments to operate at unacceptable levels of service LOS E or LOS F along Pelandale Avenue between Sisk Road and Chapman Road, and between Prescott Road and Carver Road. (Significant and Unavoidable)

**Mitigation:** No feasible mitigation measure has been identified which would reduce the significance of the impact described above to a less-than-significant level.

**Finding:** No feasible mitigation measure has been identified which would reduce the significance of the impact described above to a less-than-significant level. Although widening Pelandale to 10 travel lanes could theoretically mitigate the impact described above to a less-than-significant level, the proposed lane configuration would make the roadway wider than most freeways (6 to 8 lanes) and is inconsistent with the City's adopted General Plan. Not only would relatively new existing buildings need to be acquired and demolished, at significant cost and with the resulting loss of tax base, but the roadway would also no longer be a local expressway, as designated in the Modesto Urban Area General Plan. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.61. The proposed project would cause additional roadway segments to operate at unacceptable LOS E or LOS F along Standiford Avenue between Dale Road and Prescott Road. (Significant and Unavoidable)

**Mitigation:** No feasible mitigation measure has been identified which would reduce the significance of the impact described above to a less-than-significant level.

**Finding:** No feasible mitigation measure has been identified which would reduce the significance of the impact described above to a less-than-significant level. Therefore this impact would remain significant and unavoidable. In order to mitigate this impact, this roadway segment would need to be widened to a total of eight lanes, with extensive widening and expansion of the intersection in order for the segment to operate properly. This would require substantial acquisition of fully-developed residential and commercial properties, significantly impair the operation of several existing business and, in some cases, result in removal and/or relocation of buildings and businesses, with the resulting loss of tax base. This roadway configuration is not consistent with City standards and the General Plan, and no funding mechanism has been identified to implement such extensive improvements.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.62. The Project would cause additional roadway segments to operate at unacceptable levels of service LOS E or LOS F along Dale Road between Kiernan Avenue and Technology Drive. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, are hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.62.a. Provide a third northbound through lane.
- Mitigation Measure D.62.b. Provide a third southbound through lane.

**Finding:** Implementation of Mitigation Measures D.62.a and b would improve traffic at the above-referenced locations of acceptable levels of service, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.63. The Project would cause the segment of Dale Road between Kaiser Medical Center entrance and Bangs Avenue to operate at unacceptable levels of service. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.63. Provide a third northbound through lane.

**Finding:** Implementation of Mitigation Measure D.63 would improve the traffic operating conditions at the above-referenced location to LOS D or better, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.64. The Project would cause additional roadway segments to operate at unacceptable levels of service LOS E or LOS F along Dale Road between Bangs Avenue and Pelandale Avenue. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.64. Provide a third northbound through lane.

**Finding:** Implementation of Mitigation Measure D.64 would improve traffic operating conditions at the above-referenced location to LOS D or better, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.65. The Project would cause additional roadway segments to operate at unacceptable LOS E or LOS F along Prescott Road between Pelandale Avenue and Standiford Avenue. (Significant and Unavoidable)

**Mitigation:** No feasible mitigation measure has been identified which would reduce the significance of the impact described above to a less-than-significant level.

**Finding:** No feasible mitigation measure has been identified which would reduce the significance of the impact described above to a less-than-significant level. Therefore this impact would remain significant and unavoidable. Prescott Road between Pelandale and Standiford is fully developed, with no land available for additional lanes in each direction. Although widening of this segment of roadway could theoretically mitigate the impact described above, such improvement would require substantial acquisition of private property, including potential demolition of fairly new single family homes and portions of a newer multi-family complex to accommodate the resulting changes to the roadway and corresponding intersections,

with the resulting loss of tax base. In addition, no funding mechanism has been identified by any private or governmental agency to implement such a plan.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.66. The Project would result in significant impacts at the intersections of Kiernan/SR 99 Northbound Ramps and Pelandale Avenue/Dale Road. (Significant and Unavoidable)

**Mitigation:** No feasible mitigation measure has been identified which would reduce the significance of the impact described above to a less-than-significant level.

**Finding:** No feasible mitigation measure has been identified which would reduce the significance of the impact described above to a less-than-significant level. Therefore this impact would remain significant and unavoidable. In order to mitigate this impact, the intersection of Kiernan with SR 99 Northbound Ramps would theoretically require 7 lanes on Kiernan and at least 3 lanes on the ramp to operate at LOS D or better in 2025. This would require acquisition of fully-developed property and significantly impair the operation of numerous existing businesses, with the resulting loss of tax base. The intersection of Pelandale and Dale would theoretically require 18 lanes on Pelandale and 14 lanes on Dale and would still theoretically operate at LOS E in 2025. Roadways constructed with this number of lanes would require major property acquisition, are not consistent with City, County or Caltrans standards and would result in inefficient operation. In addition, no funding mechanism has been identified by any private or governmental agency to implement such a plan.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.67. The Project would result in significant impacts at the intersections of Kiernan Avenue/Quinturn Lane and Kiernan Avenue/Dale Road. (Significant and Unavoidable)

**Mitigation:** No feasible mitigation measure has been identified which would reduce the significance of the impact described above to a less-than-significant level.

**Finding:** No feasible mitigation measure has been identified which would reduce the significance of the impact described above to a less-than-significant level. Therefore, this impact would remain significant and unavoidable. The intersection of Kiernan and Quinturn would theoretically require 15 lanes on Kiernan and 11 lanes on Quinturn to theoretically operate at LOS D in 2025. The intersection of Kiernan and Dale would theoretically require 18 lanes on Kiernan and 13 or 14 lanes on Dale and would still operate at LOS E in the p.m. peak hour in 2025. Roadways constructed with this number of lanes would require major property acquisition, are not consistent with City, County or Caltrans standards and would result in inefficient operation. In addition, no funding mechanism has been identified by any private or governmental agency to implement such a plan.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact D.68. The Project would result in significant impacts at the intersection of Dale Road and Technology Drive during the a.m. and p.m. peak hours. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, are hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.68.a. Same as Mitigation Measure D.45.
- Mitigation Measure D.68.b. Provide a northbound right turn lane and restripe shared through/right lane to a through lane.
- Mitigation Measure D.68.c. Provide a third southbound through lane.
- Mitigation Measure D.68.d. Provide a second eastbound right turn lane and second left turn lane.
- Mitigation Measure D.68.e. Provide a westbound right turn lane and restripe shared through/right lane to a through lane.

**Finding:** Implementation of Mitigation Measures D.68.a-e would ensure that the intersection operates at an acceptable level of service, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.69. The Project would result in significant impacts at the intersection of Dale Road and Kaiser Medical Center Entrance during the p.m. peak hour. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.69.a. Same as Mitigation Measure D.46.a.
- Mitigation Measure D.69.b. Provide a third northbound through lane.
- Mitigation Measure D.69.c. Provide a southbound right turn lane and restripe the shared through/right lane to a through lane.
- Mitigation Measure D.69.d. Provide a second eastbound right turn lane and second left turn lane.

**Finding:** Implementation of Mitigation Measures D.69.a-d would ensure that the intersection operates at an acceptable level of service, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.70. The Project would result in significant impacts at the intersection of Dale Road and Bangs Avenue during the a.m. and p.m. peak hours. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, are hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.70.a. Same as Mitigation Measures D.47.a, D.47.b, D.47.c, and D.47.d.
- Mitigation Measure D.70.b. Provide a third northbound through lane.

**Finding:** Implementation of Mitigation Measures D.70.a and b would ensure that the intersection operates at an acceptable level of service, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.71. The design of the Kaiser Medical Center Driveway onto Technology Drive would have insufficient capacity to accommodate the projected traffic volumes. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.71. Signalize the intersection of Western Driveway II and Technology Drive.

**Finding:** Implementation of Mitigation Measure D.71 would improve operating conditions at this intersection to acceptable levels, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact D.72. Under Phase C, a temporary parking shortage would occur on the Kaiser Medical Center portion of the proposed project during construction of the final phases. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure D.72. Prepare a construction Parking Management Plan for Kaiser Medical Center to ensure that measures are taken to prevent temporary parking shortages.

**Finding:** Implementation of Mitigation Measure D.72 would ensure that measures are taken to prevent temporary parking shortages, thereby reducing the impact described above to a less-than-significant level.

## V. AIR QUALITY

**Potential Impact:** Impact E.1. Emissions of criteria pollutants during Project construction would contribute to existing violations of the ambient air quality standards in the region. (Significant and Unavoidable)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure E.1. Implementation of air district recommendations to minimize emissions during construction phases.

**Finding:** Implementation of Mitigation Measure E.1 would reduce impacts of construction-related PM10 and impact of ozone precursors from construction equipment exhaust, but not to a less-than-significant level. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact E.2. Emissions of criteria pollutants during Project operation would contribute to existing violations of the ambient air quality standards in the region. (Significant and Unavoidable)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, are hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure E.2.a. Implementation of design features to reduce emissions from motor vehicle activity.
- Mitigation Measure E.2.b. Development and implementation of an approved trip reduction plan to reduce emissions from motor vehicle activity.
- Mitigation Measure E.2.c. Implementation of site design features to reduce emissions from energy consumption.

**Finding:** Implementation of Mitigation Measures E.2.a-c would reduce impacts related to energy consumption and motor vehicle emissions, but not to a less-than-significant level. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact E.3. Motor vehicle emissions would locally contribute to elevated concentrations of carbon monoxide. (Less than Significant)

**Mitigation:** No mitigation is necessary.

**Finding:** Based on the study reported in the FEIR, implementation of the Project would not contribute significantly to locally elevated concentrations of CO. Accordingly, Impact E.3 is less than significant, and no mitigation is necessary.

**Potential Impact:** Impact E.4. Emissions during project operation would cause sensitive receptors to be exposed to toxic air contaminants. (Less than Significant)

**Mitigation:** No mitigation is necessary.

**Finding:** Measures that will be utilized by the medical center to handle toxic air contaminants will ensure that emissions will be diluted or otherwise contained such that the Project would not be likely to cause substantial health risks. Accordingly, Impact E.4 is less than significant, and no mitigation is necessary.

**Potential Impact:** Impact E.5. Emissions of objectionable odors could occur during project operation. (Less than Significant)

**Mitigation:** No mitigation is necessary.

**Finding:** Measures that will be utilized by the medical center to handle chemicals and processes that generate objectionable odors will ensure that such odors will be diluted or otherwise deodorized such that the Project would not be likely to emit objectionable odors that will be detectable off-site. Accordingly, Impact E.5 is less than significant, and no mitigation is necessary.

**Potential Impact:** Impact E.6. The project would cause a cumulatively considerable net increase of pollutants for which the San Joaquin Valley is designated as nonattainment. (Significant and Unavoidable)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure E.6. See mitigation measures listed under Impact E.2.

**Finding:** Implementation of Mitigation Measures E.2.a-c would reduce Project-related cumulative impacts related to mobile source activity and associated regional emissions,

but not to a less-than-significant level. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact E.7. The Project, including annexation of the proposed parcels to the City of Modesto and changes to adopted community plans, could conflict with or obstruct implementation of the ozone and PM<sub>10</sub> attainment plans. (Significant and Unavoidable)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure E.7. See mitigation measures listed under Impact E.2.

**Finding:** Implementation of Mitigation Measures E.2.a-c would reduce Project-related cumulative impacts related to conflicts with attainment plans, but not to a less-than-significant level. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

## VI. NOISE

**Potential Impact:** Impact F.1. Project-related construction could cause substantial, though intermittent and short-term, increases in noise levels. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measure is not feasible and is therefore not adopted.

The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure F.1. Protection of sensitive receptors from excessive construction noise.

**Finding:** Implementation of Mitigation Measure F.1 would ensure implementation of several noise reduction practices during construction, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact F.2. Increased traffic could cause substantial noise increases for existing sensitive receptors in the project vicinity. (Significant and Unavoidable)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less than significant level; however, Mitigation Measure F.2.a is not feasible and is therefore not adopted:

- Mitigation Measure F.2.a. Design and implementation of new barriers for noise control at residences on Dale Road.
- Mitigation Measure F.2.b. Implementation of traffic control features to reduce traffic-related noise on Dale Road.

**Finding:** Mitigation Measures F.2.a is infeasible. The area subject to this impact has been annexed into Modesto and is located in the Kiernan Specific Plan area. There are relatively few residences along the east side of Dale Road in the vicinity of the Project Site that would be subject to excessive traffic noise levels; these properties are designated for Business Park development and therefore would be expected to be replaced with less noise-sensitive uses in the relatively near future. Additionally, a sound wall or high (6 feet or more) berm would have negative aesthetic effects, as noted on EIR p. IV.F.10. Mitigation Measure F.2.b is adopted, however, implementation of Mitigation Measure F.2.b would only partially mitigate the significant noise impact, and therefore this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact F.3. Ambulance traffic to the new hospital could cause substantial noise increases for existing sensitive receptors in the project vicinity. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, are hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure F.3.a. Implementation of programs to minimize adverse noise from ambulance traffic, including requiring ambulances to travel with sirens off when accessing the medical center from the south on Dale Road or Chapman Road between Pelandale Avenue and the emergency room, and including a requirement that ambulance drivers use Highway 99 and Kiernan Avenue for access to Kaiser when feasible.
- Mitigation Measure F.3.b. Evaluation and implementation of programs to minimize adverse noise from ambulance traffic, including evaluation after 6 months of operation of the emergency department to determine whether noise from sirens has resulted in adverse impacts, and additional

measures such as changes to typical travel routes shall be established following a publicly noticed meeting.

**Finding:** Implementation of Mitigation Measures F.3.a and b would reduce the use of ambulance sirens in the vicinity of the medical center and discourage use of noise-sensitive routes in the vicinity of the medical center, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact F.4. Helicopter noise associated with the use of the medical center could generate noise levels incompatible with the City's ordinance or goals for the surroundings. (Less than Significant)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure. No mitigation necessary.

**Finding:** Given the infrequency of the anticipated number of helicopter flights associated with the medical center, the average noise level will be acceptable. The proposed flight paths avoid residential areas which will further reduce any noise impacts. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

**Potential Impact:** Impact F.5. New stationary sources of noise associated with the proposed project could generate noise levels incompatible with the City's ordinance or goals for the surroundings. (Less than Significant)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure. No mitigation necessary.

**Finding:** The infrequency of the loud noises described in Impact F.5, together with the site features that minimize the impact of such noise on residences, will substantially eliminate any adverse effects. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

**Potential Impact:** Impact F.6. Use of the medical center by patients would introduce new noise-sensitive receptors to the project area. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure F.6. Implementation of appropriate noise attenuation measures in proposed hospital facilities.

**Finding:** Implementation of Mitigation Measure F.6 would ensure that patients are not exposed to noise levels exceeding an average of 45 dBA, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact F.7. Cumulative development could lead to noise conflicts between incompatible land uses. (Significant and Unavoidable)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less than significant level; however, Mitigation Measure F.2.a is not feasible and is therefore not adopted:

- Mitigation Measure F.7. See mitigation measures for Impact F.2.a-b.

**Finding:** Mitigation Measures F.2.a is infeasible. The area subject to this impact has been annexed into Modesto and is located in the Kiernan Specific Plan area. There are relatively few residences along the east side of Dale Road in the vicinity of the Project Site that would be subject to excessive traffic noise levels; these properties are designated for Business Park development and therefore would be expected to be replaced with less noise-sensitive uses in the relatively near future. Additionally, a sound wall or high (6 feet or more) berm would have negative aesthetic effects, as noted on EIR p. IV.F.10. Mitigation Measure F.2.b is adopted, however, implementation of Mitigation Measure F.2.b would only partially mitigate the significant noise impact, and therefore the project contribution to significant cumulative impacts would be reduced, but not to less-than-significant levels. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

## VII. HAZARDS

**Potential Impact:** Impact G.1. Infectious, radioactive, and hazardous materials use, storage, and transportation and the risk of accidents would cause potential hazards to the public and environment. (Less than Significant)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure. No mitigation necessary.

**Finding:** Required control measures will minimize the risk of handling, storing and disposing of infectious materials, radioactive materials and hazardous materials. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

**Potential Impact:** Impact G.2. Regulated medical waste generation and treatment and disposal of waste after treatment would cause potential hazards to the public and environment. (Less than Significant after Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure G.2. Proper disposal of medical waste.

**Finding:** Implementation of Mitigation Measure G.2 would establish appropriate procedures for handling, treatment and off-site shipment of medical waste, thereby minimizing potential hazards and reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact G.3. Radioactive waste storage would cause potential hazards to the public and environment. (Less than Significant)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure. No mitigation necessary.

**Finding:** Given the medical center is unlikely to generate radioactive waste for off-site disposal, the impact as described above is therefore found to be less than significant, and no mitigation is necessary.

**Potential Impact:** Impact G.4. Hazardous chemical waste treatment and disposal would cause potential hazards to the public and environment. (Less than Significant)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure. No mitigation necessary.

**Finding:** The medical center will, like all hazardous waste generators, certify that it makes a good faith effort to minimize its waste and to select the best waste management method available. Accordingly, generation of hazardous waste by the medical center will have little observable effect on the levels of existing hazards that waste disposal poses to the public. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

**Potential Impact:** Impact G.5. The proposed project would cause members of the public to be exposed to magnetic fields. (Less than Significant)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure. No mitigation necessary.

**Finding:** The medical center's MRI equipment would be located in a specially designed facility to shield the surrounding environment from magnetic fields and exclude access of the general public. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

**Potential Impact:** Impact G.6. The project would involve increased use and transport of infectious, radioactive, and hazardous materials and wastes in California. (Less than Significant)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure. No mitigation necessary.

**Finding:** Use and storage of infectious, radioactive, and hazardous materials related to the Project would be localized and in quantities small enough that interaction with materials used and stored at the sites of other development in the Modesto area would be extremely unlikely. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

**Potential Impact:** Impact G.7. The project would involve increased generation of medical and hazardous waste in California. (Less than Significant)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure. No mitigation necessary.

**Finding:** The increased generation of medical and hazardous waste resulting from the project is not considered to be cumulatively considerable, and in any case would be commensurate with the demand in the region for health care services regardless of health care provider. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

## VIII. BIOLOGICAL RESOURCES

**Potential Impact:** Impact H.1. Implementation of the Kaiser Modesto Medical Center project would directly affect the Swainson's Hawk through the loss of foraging habitat. (Less than Significant)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure. No mitigation necessary.

**Finding:** Development of the Project site and loss of the existing agricultural habitats would not significantly affect Swainson's Hawks through the direct reduction of nesting or foraging habitat. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

**Potential Impact:** Impact H.2. Implementation of the Kaiser Modesto Medical Center project could indirectly affect the Swainson's Hawk through the loss of foraging habitat. (Less than Significant)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure. No mitigation necessary.

**Finding:** The Project would not result in the fragmentation or isolation of undeveloped habitat from larger areas of contiguous habitat because the foraging habitat on the project site is currently isolated and the remaining habitats for Swainson's Hawks are expected to have the same biological values as those prevailing before development. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

**Potential Impact:** Impact H.3. Implementation of the Kaiser Modesto Medical Center project could cumulatively affect the Swainson's Hawk through the loss of foraging habitat. (Less than Significant)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure. No mitigation necessary.

**Finding:** The Project is a disjunct parcel of habitat, barely within the ten-mile foraging radius of the nearest nest, that is very unlikely to be used for foraging. Therefore, the Project would not contribute to cumulative loss of Swainson's Hawk foraging habitat. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

## IX. HYDROLOGY AND WATER QUALITY

**Potential Impact:** Impact I.1. Development of the project could result in reduced groundwater recharge and/or increased flooding hazards at or in the vicinity of the project site. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, are hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure I.1.a. The project sponsor shall design appropriate retention facilities, if necessary.
- Mitigation Measure I.1.b. Maintenance of retention facilities.

**Finding:** Implementation of Mitigation Measures I.1.a and b would provide for the construction and maintenance of adequate storm water collection and retention facilities, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact I.2. Development of the Project could result in reduced groundwater quality due to potential releases and infiltration of hazardous materials into the subsurface. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measures, as set forth in the FEIR, are hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure I.2.a. Appropriate design of retention facilities.
- Mitigation Measure I.2.b. Pollutant source control.

**Finding:** Implementation of Mitigation Measures I.2.a and b would ensure construction of appropriately designed retention facilities and implementation of best management practices, thereby reducing the impact described above to a less-than-significant level.

**Potential Impact:** Impact I.3. Existing water supply wells at the project area, if not properly managed or decommissioned, could be damaged during construction, potentially allowing impacts to groundwater quality. (Less than Significant with Mitigation)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure I.3. Proper well abandonment.

**Finding:** Implementation of Mitigation Measure I.3 would ensure inspection and, if appropriate, abandonment of any water wells on the Project site, thereby reducing the impact described above to a less-than-significant level.

## X. COMMUNITY SERVICES

**Potential Impact:** Impact J.1. Development of the proposed Kaiser Modesto Medical Center / Cornerstone Business Park project would result in an increased demand for Modesto Police Department officer hours due to the potential for increased on-site criminal activity and increased number of traffic incidents near the site. (Less than Significant)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure. No mitigation necessary.

**Finding:** Training of medical center staff will minimize police calls. The projected number of calls will require some additional police services, but would not result in the need for the expansion of any police facilities. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

**Potential Impact:** Impact J.2. Development of the Project would result in an increased demand for California Highway Patrol officer hours due to the potential for increased number of traffic incidents near the site. (Less than Significant)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure. No mitigation necessary.

**Finding:** The changes to the different roadways as a result of the Project are based on constant growth scenarios, and the traffic changes would not require the CHP to expand existing facilities or build new police-related infrastructure. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

**Potential Impact:** Impact J.3. Development of the Project would result in an increase in call volumes. (Less than Significant)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure. No mitigation necessary.

**Finding:** Although development of the Project would lead to an incrementally higher volume of fire-related emergency calls, it would not result in the need for the expansion of any new fire protection-related infrastructure. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

**Potential Impact:** Impact J.4. Development of the Project with building heights over three stories could result in insufficient water pressure for fire fighting. (Less than Significant)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure. No mitigation necessary.

**Finding:** Medical center buildings that exceed three stories have been designed with fire pumps. These pumps and the proposed construction of a 10-inch fire service pipe line would provide adequate waterflow and pressure for the proper operation of automatic fire sprinklers as well as other multi-story fire-fighting operations. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

## XI. UTILITIES AND SERVICES SYSTEMS

**Potential Impact:** Impact K.1. Development of the Project would result in an increased demand for wastewater treatment and disposal. (Less than Significant)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure. No mitigation necessary.

**Finding:** Wastewater flows from the Project would not exceed the available capacity of wastewater treatment facilities. Similarly, effluent discharges from the Project can be accommodated at existing and planned discharge locations. Radioactive waste discharged by patients into the wastewater treatment system would be virtually undetectable by the time it reaches the treatment plant. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

**Potential Impact:** Impact K.2. Development of the Project would result in an increased demand on the wastewater collection system. (Less than Significant)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure. No mitigation necessary.

**Finding:** Construction of wastewater collection infrastructure as part of the Project, together with existing infrastructure, will accommodate the increased flow volume from the Project. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

**Potential Impact:** Impact K.3. Development of the Project would contribute to future cumulative increases in demand on the wastewater collection system. (Significant and Unavoidable)

**Mitigation:** No feasible mitigation measures have been identified which would reduce the significance of the impact described above to a less-than-significant level.

**Finding:** No feasible mitigation measure has been identified which would reduce the significance of the impact described above to a less-than-significant level. Therefore, this impact would remain significant and unavoidable. No measures have been established to mitigate area-wide cumulative significant impacts on wastewater collection facilities. Although the City could establish an appropriate funding mechanism applicable either to all wastewater generators, to all wastewater generators in the northern tier area, or to only new development, and could use the funds to construct the necessary conveyance capacity, such a mechanism has not been established. Therefore, the project's contribution to this cumulative impact remains significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact K.4. Development of the Project would contribute to cumulative increases in demand for treatment facilities and discharge options. (Significant and Unavoidable)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, would potentially reduce the significance of the impact described above to a less-than-significant level, but the measure is not feasible and is therefore not adopted.

- Mitigation Measure K.4. The City could acquire additional land adjacent to the wastewater treatment plant for land application of treated effluent, providing additional disposal capacity.

**Finding:** The City is in the process of studying and planning for additional land acquisition. However, further analysis and funding are needed prior to implementation. As a result, this measure must be characterized as infeasible until plans are finalized and funding is assured. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact K.5. Development of the Project would result in an increased demand on regional landfill facilities and the Waste-to-Energy Facility. (Less than Significant)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure. No mitigation necessary.

**Finding:** Waste management plans that will be implemented as identified in the FEIR will minimize this potential impact. In addition, the total solid waste generated due to the Project would not impose significant demands resulting in the need for expansion of either the Fink Road landfill or the Waste-to-Energy Facility. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

**Potential Impact:** Impact K.6. Development of the Project could contribute to cumulative impacts on the capacities of regional landfill facilities and the Waste-to-Energy Facility. (Less than Significant)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure. No mitigation necessary.

**Finding:** Given the adequate landfill capacity, together with the relative insignificance of Project solid waste impacts compared to the cumulative impacts, the Project impact as described above is found to be less than significant, and no mitigation is necessary.

## XII. WATER SUPPLY

**Potential Impact:** Impact L.1. Development of the proposed medical center would increase the demand for potable water in excess of the amount planned in the Urban Water Management Plan. (Less than Significant)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measures. No mitigation necessary.

**Finding:** Based on the Water Supply Assessment referenced in the FEIR, there will be sufficient supply to serve the Project. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

**Potential Impact:** Impact L.2. The proposed new well on the Project site intended to increase the City groundwater supply to serve the project could contribute to groundwater overdraft conditions in the Modesto Subbasin of the Stanislaus and Tuolumne Rivers Groundwater Basin at full buildout of the proposed project. (Significant and Unavoidable)

**Mitigation:** No mitigation is necessary for Phases A and B of the proposed project. No feasible mitigation has been identified to address the potential groundwater overdraft conditions in the Modesto Subbasin of the Stanislaus and Tuolumne Rivers Groundwater Basin at full buildout of the proposed project.

**Finding:** Although groundwater extraction for Phases A and B would result in a total annual extraction within the groundwater basin's safe yield, Phase C extraction would cause the total annual extraction to exceed the safe yield. It would be speculative at this point to establish specific measures to assure water sources are available in 2025 that would avoid significant contribution to groundwater overdraft conditions. Conservation measures in place in the City should continue to help reduce overall water demand in this portion of the water service area; however, the effectiveness of future conservation cannot be quantified at this time. It is reasonably anticipated that as agricultural use declines in the Modesto Irrigation District service area, increased groundwater supplies will be available in the future, but the amount has not been quantified. The City is also exploring additional sources of surface water. All of these approaches may be feasible in the future, and are expected to provide sufficient water for future development, including that in the proposed project. Because these are not assured water sources, mitigation has been determined to be infeasible. Therefore, this impact would remain significant and unavoidable.

**Overriding Considerations:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

**Potential Impact:** Impact L.3. Development of the Project could contribute to cumulative demand for potable water in the Modesto Water Service Area, exceeding existing and known water supplies. (Less than Significant)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measures. No mitigation necessary.

**Finding:** Although growth forecasts for the area would contribute to an overall demand that could exceed available water supply, this analysis does not account for reasonably anticipated reductions in demand due to conservation measures already in place, the decline of agricultural use in the Modesto Irrigation District service area, and the development of additional sources of surface water which would account for increased groundwater supplies that will be available in the future to serve this future growth. All of these actions would reduce the significant cumulative impact which, absent the above measures, would likely occur before 2020

with or without development of the Project. The Project's incremental contribution to this impact would be about .5 to .6 percent of the total water demand and would not be cumulatively considerable. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

**Potential Impact:** Impact L.4. Development of the Project could contribute to the potential for regional cumulative demand to result in overdraft of groundwater supplies. (Less than Significant)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measures. No mitigation necessary.

**Finding:** The proportional contribution of the Project to this potential impact is insignificant. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

### XIII. POPULATION AND HOUSING

**Potential Impact:** Impact M.1. Development of the Project area would induce population growth that would affect the demand for housing. (Less than Significant)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure. No mitigation necessary.

**Finding:** Since projected employment on the Project site would not induce substantial new, unanticipated employment growth, it would have a less-than-significant impact on the population and housing demand in Modesto, and no mitigation is necessary.

**Potential Impact:** Impact M.2. Development of the Project area would displace people and existing housing. (Less than Significant)

**Mitigation:** The following mitigation measure, as set forth in the FEIR, is hereby adopted and will be implemented as provided in the Mitigation Monitoring and Reporting Program:

- Mitigation Measure. No mitigation necessary.

**Finding:** The Project will only displace four existing residences, and the City currently has an excess of housing units in relation to job availability. The impact as described above is therefore found to be less than significant, and no mitigation is necessary.

**Potential Impact:** The planned upgrade by Caltrans of Kiernan Avenue between SR 99 and Tully Road to a four-lane Class B Expressway could be temporarily delayed, resulting in additional impacts to Kiernan Avenue intersections and roadway segments as set forth on Pages IV.D.53-IV.D.56 of the EIR. (Significant and Unavoidable)

**Mitigation:** No feasible mitigation measure has been identified which would reduce the significance of the impacts described in the EIR to a less-than-significant level.

**Finding:** No feasible mitigation measure has been identified which would reduce the significance of the potential impacts described above to a less-than-significant level. Therefore, this impact would remain significant and unavoidable. The traffic analysis in the EIR assumes that this segment of Kiernan would be upgraded by Caltrans to a four-lane Class B expressway by 2008. Based on public information produced by Caltrans at the state level, the City still believes that funding for this project will be available in a timely manner and therefore this is a reasonable and valid assumption. If, however, the upgrade is not completed by 2008, the roadway segment and intersections could operate poorly for a temporary period of time and could create the temporary impacts described above. The Kiernan Avenue upgrade is outside the City's limits and under the jurisdiction of Caltrans. Caltrans is encouraged to pursue the upgrade of Kiernan Avenue to a four-lane Class B Expressway in an expeditious manner so as to ensure their completion by 2008.

**Overriding Consideration:** The environmental, economic, social and other benefits of the Project override the significant impact described above, as more fully stated in the Statement of Overriding Considerations in Section 3 of the Resolution.

## FINDINGS CONCERNING PROJECT ALTERNATIVES

An EIR must describe a range of reasonable alternatives to the project, or the location of the project, which would feasibly obtain most of the basic objectives of the project, but would avoid or substantially lessen any of the significant environmental effects of the project, and evaluate the comparative merits of the alternatives. Even if a project alternative will avoid or substantially lessen any of the significant environmental effects of the project, the decision-maker may reject the alternative if it determines that specific considerations make the alternative infeasible. The findings with respect to alternatives identified in the FEIR are described below.

### I. NO-PROJECT ALTERNATIVE

The No Project Alternative includes two scenarios. No Project: No Development assumes that no development would occur on the 88-acre project site, and existing uses would remain for the foreseeable future. No Project: Existing Specific Plan assumes that development would occur on the project site pursuant to the adopted *Kiernan Business Park Specific Plan* with no amendments to permit medical use.

#### A. No Project: No Development

**Description of Alternative:** Under this scenario, the proposed Kaiser Modesto Medical Center / Cornerstone Business Park project would not be constructed. The three remaining homesteads would remain (the fourth homestead was demolished in March 2004 after the Draft EIR was sent to the printer) and the site would continue in agricultural use. There would be no annexation of the project site into the City of Modesto, nor Sphere of Influence amendment. There would be no Specific Plan amendments to the *Kiernan Business Park Specific Plan*.

**Finding:** With the No Project: No Development alternative, existing physical conditions on the project site would continue as described in the Land Use, Agricultural Resources, Transportation and Circulation, Air Quality, Noise, Hazardous Materials, Hydrology and Water Quality, Utilities and Services Systems, and Water Supply Sections of Chapter IV of the FIER. There would be no loss of agricultural lands or changes to the visual character of the project site. No project-generated traffic would be added to City or County roadways and no new air emissions would be generated. There would be no changes to hydrology and water quality on the project site. Other impacts identified for the Project would not occur should existing physical conditions on the project site area remain.

The No-Project Alternative would fail to satisfy the following objectives of the Project, as identified in the FEIR:

- To alleviate the existing and projected shortfall of hospital beds in Stanislaus County.
- To enhance Modesto's emergence as a Regional Center of Health Care Excellence by creating a third hospital.

- To create a campus-like environment that is easy for both pedestrians and vehicles to access by creating open spaces and pedestrian walkways.
- To create seismically safe, inpatient facilities in Modesto and Stanislaus County.
- An important objective for the applicant is to “provide inpatient care with the Kaiser Permanente system in the Modesto region.”

Based on the foregoing, the City finds that, on balance, the Project is preferable to the No-Project: No Development Alternative and that the No-Project: No Development Alternative is not a feasible alternative to the Project as that term is defined in CEQA.

## **B. No Project: Existing Specific Plan**

**Description of Alternative:** This scenario would include development pursuant to the pre-zoning designation established for the site in the *Kiernan Business Park Specific Plan*, unless Stanislaus County were to adopt General Plan amendments establishing new land use designations for the project site. Consistent with the City of Modesto’s *Kiernan Business Park Specific Plan*, development would contain about 1,210,000 gsf of one- to three-story buildings.<sup>1</sup> Development of business park uses would require the City of Modesto to amend its Sphere of Influence and annex the project site into its boundaries.

**Finding:** As described in detail in the FEIR, impacts resulting from development under the existing *Kiernan Business Park Specific Plan* would be similar to, but generally less than, those identified for the proposed project.

As with the proposed project, land use impacts under this alternative would be considered less than significant for the purposes of CEQA. Like the proposed project, development under this alternative would result in the permanent loss of 88 acres of Prime Farmland, a significant unavoidable impact. As with the proposed project, visual impacts under the No Project: Existing Specific Plan scenario would be considered less than significant. Transportation and circulation impacts would be similar to those identified in the FEIR, would remain significant and unavoidable, but would be expected to occur at fewer locations than with the Project. Air quality impacts during construction phases would be somewhat reduced, but they would continue to warrant mitigation similar to the project. Noise impacts during construction phases would be reduced in duration under this scenario because less building construction would occur, but they would still warrant mitigation similar to the project. Because this scenario would not include the proposed hospital, impacts due to medical-related hazards would be eliminated. As with the Project, biological resources impacts under this scenario would be considered less than significant. Like the Project, this scenario would have less-than-significant impacts to hydrology and water quality with implementation of the groundwater quality mitigation measures as identified. Similar to the proposed project, the demand for police

---

<sup>1</sup> Under the No Project Alternative, gross square footage (gsf) is calculated by using a Floor Area Ratio (FAR) of 0.4 sq. ft. of building area to 1.0 sq. ft. of the project site’s net lot area. About 810,000 gsf would be constructed on the Kaiser portion of the project site and 400,000 gsf on the Cornerstone Business Park portion of the project site.

and fire services would increase under this scenario, albeit to a lesser degree as the development area would be smaller than with the proposed project. Impacts related to wastewater collection and solid waste under this scenario would be less than with the proposed project, but there still would be a significant cumulative impact and the project would contribute substantially to this significant impact. Implementation of this scenario would result in less-than-significant impacts to groundwater levels. Similar to the proposed project, this scenario would not induce substantial population or housing growth at the local or regional level that is not already accounted for by the *Urban Area General Plan*.

Given the Project objectives set forth above, as well as the desire of the City to ensure the provision of quality health care services to its residents, the City finds that, on balance, the Project is preferable to the No-Project: Existing Specific Plan Alternative and that the No-Project: Existing Specific Plan Alternative is not a feasible alternative to the Project as that term is defined in CEQA.

## II. REDUCED INTENSITY ALTERNATIVE

**Description of Alternative:** The Reduced Intensity Alternative would construct a smaller Medical Center on the Kaiser portion of the project site. The Cornerstone Business Park would be developed as described with the proposed project. Under this alternative, the Kaiser Modesto Medical Center Campus would be developed through Phase A, and would include the 260,000-gsf, four-story, 71-foot-tall, Hospital Support Wing, the 140,000-gsf, two-story, 37-foot-tall Medical Services Building (MSB I), the 250-bed, 400,000-gsf, two- and three-story, 57-foot-tall hospital facility with two, five-story, 90-foot-tall nursing towers, and the 30,000-gsf, one-story, 21-foot-tall central utility plant (CUP). Approximately 2,450 surface parking stalls would be constructed. As with the proposed project, a helicopter landing pad (helistop) would be constructed on the north-central portion of the Kaiser Modesto Medical Center Campus site proximate to the future hospital building.

**Finding:** Although the Reduced Intensity Alternative would result in impacts that are similar to, but generally less than, the Project, as discussed in detail in the FEIR, that alternative would not meet many of the objectives for the Project. The Reduced Intensity Alternative will result in an inadequately-sized medical facility to meet the City's long-term healthcare needs. The Project, on the other hand, contemplates phased development to occur with the demand.

Based on the foregoing, the City finds that, on balance, the Project is preferable to the Reduced Intensity Alternative and that the Reduced Intensity Alternative is not a feasible alternative to the Project as that term is defined in CEQA.

## III. OFF-SITE ALTERNATIVE

**Description of Alternative:** The Off-Site Alternative would include full development of the 1,425,000-gsf Kaiser Modesto Medical Center Campus on a 45-acre site north of the Vintage Faire Mall. This Vintage Faire Mall site is located about one mile south of the Project site along Dale Road near Standiford Avenue. Under the Off-Site Alternative, the

development and phasing of Kaiser's Modesto Medical Center Campus would be similar to the proposed project and would include similarly sized medical services buildings, a hospital, a hospital support wing, nursing towers, parking garages, and a central utility plant. Like the proposed project, about 3,860 parking spaces would be constructed. A helistop would also be planned for the non-routine transport of seriously injured or ill patients to higher-level trauma centers and other facilities after stabilization. Primary vehicular access to the site would be from Dale Road, with secondary access points along the northern edge of the project site along Vintage Drive.

Under the Off-Site Alternative, the Cornerstone Business Park project, or other similar business park development, would be constructed on the 39-acre Cornerstone property. This portion of the proposed project site is owned by its project sponsor, who does not own other sites suitable for business park development. Business park development on this portion of the project site would not require amendment of the *Urban Area General Plan* or the *Kiernan Business Park Specific Plan*. The business park would include approximately 400,000 gsf of one- to three-story buildings for professional office space with 1,500 parking spaces.

**Finding:** As specifically discussed in the FEIR, the Off-Site Alternative would generally result in fewer significant impacts than the Project, although several impacts would be similar to those of the Project and some impacts would be greater. The reduction in significant impacts will generally occur as a result of the elimination of the proposed commercial development at the Vintage Faire Mall Site.

In addition, as described at the City Council hearing for certification of the EIR and consideration of the Project, the Alternative would not meet many of the objectives for the Project. The Off-Site Alternative is a long rectangular site which would not provide parking that is equidistant from buildings, provides limited access on Dale which would make both public and emergency vehicle access difficult, would tie traffic circulation for the Project to residential development and would place the Project in closer proximity to Vintage Faire Mall which could increase the possibility of conflicts at times of the year that are critical to both facilities.

Based on the foregoing, the City finds that, on balance, the Project is preferable to the Off-Site Alternative and that the Off-Site Alternative is not a feasible alternative to the Project as that term is defined in CEQA.

**EXHIBIT "B"**

**MITIGATION MONITORING AND REPORTING PROGRAM**

## **VI. KAISER MODESTO MEDICAL CENTER / CORNERSTONE BUSINESS PARK MITIGATION MONITORING AND REPORTING PROGRAM**

---

### **Introduction**

In accordance with CEQA Guidelines § 15097, to ensure implementation of mitigation measures identified in the EIR as included in the project and those imposed as conditions of approval by the lead agency, a program for monitoring or reporting (Mitigation Monitoring and Reporting Program (MMRP)) must be adopted. Until mitigation measures are completed, the lead agency remains responsible for ensuring that implementation occurs in accordance with the program.

The attached MMRP lists the Kaiser Modesto Medical Center / Cornerstone Business Park project mitigation measures that will be implemented. It identifies who is responsible for implementation of the mitigation measure and the necessary steps, or actions, to complete it. The MMRP describes how the measure will be monitored, who is responsible for the monitoring, and presents a schedule of when the mitigation is to be implemented.

### **Phasing**

Construction of the Kaiser Medical Center and Cornerstone Business Park project will occur in three major phases, Phase A, B and C, through the years 2025 to 2028, as described below:

#### Phase A (2004-2008)

##### *Kaiser Modesto Medical Center*

- Hospital Support Wing
- Medical Services Building (MSB I)
- Hospital with Nursing Towers
- Central Utility Plant

##### *Cornerstone Business Park*

- 400,000-gsf business park for professional and medical office use

#### Phase B (2010-2013)

##### *Kaiser Modesto Medical Center*

- Hospital Expansion with Nursing Tower
- Parking Garage I

#### Phase C (2018-2025)

##### *Kaiser Modesto Medical Center*

- Medical Services Building (MSB II)
- Parking Garage II
- Medical Services Building (MSB III)
- Parking Garage III

**KAISER MODESTO MEDICAL CENTER /  
CORNERSTONE BUSINESS PARK  
MITIGATION MONITORING AND REPORTING PROGRAM**

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
<b>Agricultural Resources</b>				
B.1. Compensate for the loss of farmland.	Project Developers	1. Project Developers shall provide current per-acre valuation, based on information from the California Department of Conservation if available, or from an independent appraisal based on comparable agricultural lands.  2. Project Developers shall provide documentation of contribution to California Farmland Conservancy or to an equivalent program for funding farmland preservation in Stanislaus County.	Community and Economic Development Department shall review the farmland valuation information, compensation transactions and other documentation for concurrence.	1. As part of building permit application.  2. Following concurrence from Modesto's Community and Economic Development Director and prior to building permit issuance.
B.3. Compensate for the loss of farmland. (Same as Mitigation Measure B.1.)	Same as Mitigation Measure B.1.	Same as Mitigation Measure B.1.	Same as Mitigation Measure B.1.	Same as Mitigation Measure B.1.

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
<b>Transportation and Circulation</b>				
D.5.a. At the intersection of Dale Road and Kiernan Avenue, add a second northbound left turn lane on Dale Road and provide a storage length of 300 feet for each lane.	Project Developers	Project Developers shall submit road improvement plans for the intersection of Dale Road and Kiernan Avenue to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase A developments.
D.6.a. At the intersection of Dale Road and Technology Drive, add a second northbound left turn lane on Dale Road and provide a storage length of 300 feet for each lane.	Project Developers	Project Developers shall submit road improvement plans for the intersection of Dale Road and Technology Drive to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase A developments.
D.6.b. At the intersection of Dale Road and Technology Drive, add a second northbound through lane on Dale Road.	Project Developers	Project Developers shall submit road improvement plans for the intersection of Dale Road and Technology Drive to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase A developments.
D.7. At the intersection of Dale Road and Kaiser Medical Center Entrance, add a second northbound left turn lane on Dale Road and provide a storage length of 300 feet for each lane.	Project Developers	Project Developers shall submit road improvement plans for the intersection of Dale Road and Kaiser Medical Center Entrance to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase A developments.

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
D.8. Convert the Bangs Avenue and American Avenue intersection to a side-street STOP-controlled intersection.	City of Modesto	Project Developers shall contribute their fair share of the cost of implementation.	Public Works Department shall construct in accordance with the City's Standard Specifications.	All improvements shall be completed prior to December 31, 2008 or certificate of occupancy of Phase A developments, whichever occurs later.
D.9.a. Signalize the intersection of Bangs Avenue and Prescott Road.	City of Modesto	Project Developers shall contribute their fair share of the cost of implementation by paying into the Capital Facilities Fees Program.	Public Works Department shall construct in accordance with the City's Standard Specifications.	All improvements shall be completed prior to December 31, 2008 or certificate of occupancy of Phase A developments, whichever occurs later.
D.9.b. At the intersection of Bangs Avenue and Prescott Road, add a westbound left turn lane on Bangs Avenue.	City of Modesto	Project Developers shall contribute their fair share of the cost of implementation by paying into the Capital Facilities Fees Program.	Public Works Department shall construct in accordance with the City's Standard Specifications.	All improvements shall be completed prior to December 31, 2008 or certificate of occupancy of Phase A developments, whichever occurs later.
D.9.c. Or, Alternative Mitigation Measure - Convert the intersection to a roundabout.	City of Modesto	Project Developers shall contribute their fair share of the cost of implementation by paying into the Capital Facilities Fees Program.	Public Works Department shall construct in accordance with the City's Standard Specifications.	All improvements shall be completed prior to December 31, 2008 or certificate of occupancy of Phase A developments, whichever occurs later. The City Council will determine, prior to occupancy of Phase A, whether intersection will be signalized or have a roundabout.

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
D.11.a. At the intersection of Dale Road and Pelandale Avenue, add a third southbound through lane on Dale Road at the approach and departure legs.	Project Developers	Project Developers shall submit road improvement plans for the intersection of Dale Road and Pelandale Avenue to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase A developments.
D.11.b. At the intersection of Pelandale Avenue and Dale Road, add a third eastbound through lane on Pelandale Avenue at the approach and departure legs.	Project Developers, City of Modesto	<p>1. Improvements to the approach leg would be implemented by Project Developers.</p> <p>2. Improvements to the departure leg would be implemented by the City.</p>	<p>1. City Engineer shall review and approve road improvement plans.</p> <p>2. Public Works Department shall construct in accordance with the City's Standard Specifications.</p>	All improvements shall be completed prior to December 31, 2008 or certificate of occupancy of Phase A developments, whichever occurs later.
D.11.c. At the intersection of Pelandale Avenue and Dale Road, add a second eastbound left turn lane on Pelandale Avenue.	Project Developers	Project Developers shall submit road improvement plans for the intersection of Dale Road and Pelandale Avenue to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase A developments.
D.11.d. At the intersection of Dale Road and Pelandale Avenue, lengthen the southbound left turn pocket on Dale Road by 150 feet.	Project Developers	Project Developers shall submit road improvement plans for the intersection of Dale Road and Pelandale Avenue to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase A developments.

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
D.12. At the intersection of Prescott Road and Pelandale Avenue, lengthen the northbound left turn lane on Prescott Road by 100 feet.	City of Modesto	Project Developers shall contribute their fair share of the cost of implementation by paying into the Capital Facilities Fees Program.	Public Works Department shall construct in accordance with the City's Standard Specifications.	All improvements shall be completed prior to December 31, 2008 or certificate of occupancy of Phase A developments, whichever occurs later.
D.21. Provide a third westbound through lane on the Pelandale Avenue road segment between Sisk Road and the SR 99 Northbound Ramps.	City of Modesto	Project Developers shall contribute their fair share of the cost of implementation by paying into the Capital Facilities Fees Program.	Public Works Department shall construct in accordance with the City's Standard Specifications.	All improvements shall be completed prior to December 31, 2008 or certificate of occupancy of Phase A developments, whichever occurs later.
D.22. Provide a third westbound through lane on the Pelandale Avenue road segment between Sisk Road and Costco/Save Mart.	City of Modesto	Project Developers shall contribute their fair share of the cost of implementation by paying into the Capital Facilities Fees Program.	Public Works Department shall construct in accordance with the City's Standard Specifications.	All improvements shall be completed prior to December 31, 2008 or certificate of occupancy of Phase A developments, whichever occurs later.
D.23.a. Provide second and third westbound through lanes on the Pelandale Avenue road segment between Dale Road and Chapman Road.	Project Developers	Project Developers shall submit road improvement plans for the Pelandale Avenue road segment between Dale Road and Chapman Road to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase A developments.
D.23.b. Provide a third eastbound through lane on the Pelandale Avenue road segment between Dale Road and Chapman Road.	Project Developers	Project Developers shall submit road improvement plans for the Pelandale Avenue road segment between Dale Road and Chapman Road to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase A developments.
