**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-003**

**A RESOLUTION APPROVING AN AMENDMENT TO A LEASE  
AGREEMENT WITH GREYHOUND FOR THE LEASE OF SPACE AT THE  
TRANSPROTATION CENTER AND AUTHORIZING THE CITY MANAGER  
TO EXECUTE THE AMENDMENT.**

WHEREAS, a lease agreement was entered into by the City of Modesto and Greyhound Lines, Inc. on the 27<sup>th</sup> day of October 1992 to lease facilities in the Modesto Transportation Center located at 1001 Ninth Street, Modesto, and

WHEREAS, said lease actually commenced on January 10, 1994, the date Greyhound Lines, Inc. opened for business in the Transportation Center, and

WHEREAS, said lease agreement gives Greyhound Lines, Inc., the option to extend the lease term for three consecutive five-year options, and

WHEREAS, said lease was amended on March 9, 1999, to extend the lease for five additional years and provide for rental provision adjustments, and

WHEREAS, the City and Greyhound Lines, Inc., desire to again amend the provisions of said lease agreement to extend the term of said lease agreement for an additional five-year term and provide for rental provision adjustments, and

WHEREAS, the Economic Development Committee met on December 8, 2003, and concurred with staff's recommendation to amend Greyhound Bus Lines' lease at the Modesto Transportation Center to extend the term of the lease to January 9, 2009, and to revise the payment amount,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an amendment to the lease agreement with Greyhound Lines, Inc. to extend the lease an additional five years through January 9, 2009 and provide for rental provision adjustments.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the amendment to the lease.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of January, 2004, by Councilmember O'Bryant, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-004**

**A RESOLUTION APPROVING AN AMENDMENT TO A LEASE AGREEMENT WITH STANISLAUS COUNTY FOR THE LEASE OF SPACE AT THE TRANSPORTATION CENTER TO EXTEND THE TERM OF LEASE THROUGH JANUARY 9, 2009, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AMENDMENT TO THE LEASE AGREEMENT.**

WHEREAS, a lease agreement was entered into by the City of Modesto and Stanislaus County on the 14<sup>th</sup> day of December 1993 to lease facilities in the Modesto Transportation Center located at 1001 Ninth Street, Modesto, and

WHEREAS, said lease actually commenced on January 10, 1994, the date Stanislaus County opened for business in the Transportation Center, and

WHEREAS, said lease agreement gives Stanislaus County the option to extend the lease term for three consecutive five-year options, and

WHEREAS, said lease was amended on September 29, 1999 to extend the lease for five additional years, to revise paragraph 10 and add paragraphs 18.a., 18.b and 18.c., and

WHEREAS, the City and Stanislaus County desire to again amend the provisions of said lease agreement to extend the term of said lease agreement for an additional five-year term, and

WHEREAS, the Economic Development Committee at its meeting of December 8, 2003, concurred with staff's recommendation to amend Stanislaus County's lease agreement at the Modesto Transportation Center to extend the term of the lease to January 9, 2009,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an amendment to the lease agreement with Stanislaus County to extend the lease an additional five years through January 9, 2009.

BE IT FURTHER RESOLVED that the City Manager is hereby authorized to execute the amendment to the lease agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of January, 2004 by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-005**

**A RESOLUTION APPROVING A SECOND CONTRACT AMENDMENT WITH THOMPSON-HYSELL ENGINEERS, A DIVISION OF THE KEITH COMPANIES, INC., A CALIFORNIA CORPORATION, IN THE AMOUNT OF \$10,200.00, FOR ADDITIONAL WORK NOT INCLUDED IN THE ORIGINAL AGREEMENT AND FOR REIMBURSABLE EXPENSES, ALL TO PROVIDE ENGINEERING DESIGN SERVICES FOR THE PELANDALE INTERSECTION IMPROVEMENTS AND THE PRESCOTT/SNYDER TRAFFIC SIGNAL PROJECTS, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AMENDMENT TO THE AGREEMENT**

WHEREAS, on January 14, 2003, the City Council approved a professional services agreement with Thompson-Hysell Engineers, a division of The Keith Companies, Inc., a California Corporation in the amount of \$179,380.00, to develop engineering plans for the design of the Pelandale Intersection Improvements and the Prescott/Snyder Traffic Signal, and

WHEREAS, on October 7, 2003, the City Council approved the first amendment to agreement with Thompson-Hysell Engineers in the amount of \$22,041.85, to provide additional services to resolve right-of-way issues, to prepare ultimate design and improvement plans, to perform miscellaneous design changes, and for reimbursable expenses in accordance with the original agreement, and

WHEREAS, on or about November 4, 2003, Thompson-Hysell Engineers submitted to City scope of work revisions and a fee schedule and requested a second amendment to the original Agreement in the not to exceed amount of \$9,700.00, to provide additional engineering design on Prescott Road south of Pelandale, and

WHEREAS, Thompson-Hysell Engineers has also requested a fee proposal for reimbursable expenses in the not to exceed amount of \$500.00,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the second amendment to agreement with Thompson-Hysell Engineers, in the not to exceed amount of \$10,200.00, for additional design services and for reimbursable expenses for the Pelandale Intersection Improvements and the Prescott/Snyder Traffic Signal projects.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the amendment to agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of January, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004 -010**

**A RESOLUTION APPROVING A LAW ENFORCEMENT PERSONNEL  
REIMBURSEMENT AGREEMENT WITH THE TRANSPORTATION  
SECURITY ADMINISTRATION FOR SECURITY SERVICES AT THE  
MODESTO CITY-COUNTY AIRPORT AND AUTHORIZING THE CITY  
MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT ON  
BEHALF OF THE CITY**

WHEREAS, the Aviation and Transportation Safety Act was enacted by the President and Congress on November 19, 2001, which established the Transportation Security Administration (TSA), and

WHEREAS, TSA is responsible for providing civil aviation security at the Modesto City-County Airport, and

WHEREAS, TSA is empowered to order the deployment of law enforcement personnel authorized to carry firearms at each airport passenger security screening location, and

WHEREAS, TSA has called upon the City of Modesto to make its police officers available as the law enforcement component of the security force at the Modesto City-County Airport, and

WHEREAS, said deployment of officers is recognized as an expense to the City of Modesto and TSA is willing to provide reimbursement for the costs associated with this activity, and

WHEREAS, TSA has prepared a Law Enforcement Personnel Reimbursement Agreement establishing the parameters by which the City of Modesto will be reimbursed for its costs, and

WHEREAS, TSA and the City of Modesto mutually agree that the terms of the Reimbursement Agreement are acceptable to both agencies and desire to execute said agreement.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Law Enforcement Personnel Reimbursement Agreement between the Transportation Security Administration and the City of Modesto.

BE IT FURTHER RESOLVED that the City Manager or his authorized designee is authorized to execute the Reimbursement Agreement on behalf of the City.

WARNING: THIS DOCUMENT CONTAINS SENSITIVE SECURITY INFORMATION THAT IS CONTROLLED UNDER THE PROVISIONS OF 49 CFR PART 1520. NO PART OF THIS DOCUMENT MAY BE RELEASED WITHOUT THE WRITTEN PERMISSION OF THE ADMINISTRATOR OF THE TRANSPORTATION SECURITY ADMINISTRATION, WASHINGTON, DC 20590. UNAUTHORIZED RELEASE MAY RESULT IN CIVIL PENALTY OR OTHER ACTION. FOR U.S. GOVERNMENT AGENCIES, PUBLIC AVAILABILITY TO BE DETERMINED UNDER 5 U.S.C. § 552.

**REIMBURSEMENT AGREEMENT BETWEEN  
THE TRANSPORTATION SECURITY ADMINISTRATION AND  
CITY OF MODESTO  
REGARDING LAW ENFORCEMENT SERVICES AT  
MODESTO CITY COUNTY AIRPORT H SHAM FIELD (MOD)**

**I. PARTIES**

The parties to this Reimbursement Agreement (RA) or otherwise referred to herein as “Agreement” are the Transportation Security Administration (TSA) and City of Modesto.

**II. BACKGROUND**

On November 19, 2001, the President and Congress enacted the Aviation and Transportation Security Act (ATSA), P.L. 107-71, 115 Stat. 597, which established TSA as a new Federal agency. ATSA provides authority to the Administrator of the Transportation Security Administration to carry out chapter 449 of Title 49 United States Code relating to civil aviation security, including responsibility for supervision of screening passengers and property at airports, and for ordering the deployment of law enforcement personnel (LEOs) authorized to carry firearms at each airport security passenger-screening location to ensure passenger safety and national security. See 49 U.S.C. §§ 44901. Much of the authority of the Administrator of the Transportation Security Administration provided by ATSA and the United States Code has been delegated to the Assistant Administrator for Aviations Operations and to the Federal Security Directors (FSDs). The FSD is TSA’s representative for security matters at the airport.

Pursuant to 49 U.S.C. § 44903(c) and 49 C.F.R. Part 1542, each Airport Authority is required to establish an air transportation security program that provides a law enforcement presence and capability at the airport that is adequate to ensure the safety of passengers. This reimbursable agreement is part of the cooperative effort of TSA through the FSD and the City of Modesto to deploy sufficient law enforcement officers to meet their dual responsibility to ensure the safety of passengers and to counter risks to transportation security.

**III. AUTHORITY**

TSA enters into this RA under the authority of 49 U.S.C. §§ 106(m) and 114(m). TSA has programmatic authority for the activities undertaken in this RA pursuant to 49 U.S.C. §§ 114(g), 44901(g), 44903(e) and 44922(f).

City of Modesto enters into this RA under the authority of City Council Resolution No 2003-

## **IV. SCOPE**

### **A. Purpose**

The purpose of this RA is to provide reimbursement (subject to the availability of appropriated funds) for LEOs provided by the City of Modesto Police Department at the hourly rate, mutually agreed to by the parties in Appendix A of this RA, for providing qualified law enforcement services on-site at Modesto City County Airport H Sham Field and to provide law enforcement response to the security passenger-screening checkpoints in keeping with requirements provided by TSA. This RA neither guarantees nor forbids reimbursement through other United States Government programs that may be available as long as the United States Government does not pay, fund or reimburse the City of Modesto Police Department for the same expenses incurred by the qualified LEO in performing such services while assigned on-site at the airport to respond to the security passenger-screening checkpoints at Modesto City County Airport H Sham Field. The City of Modesto Police Department is prohibited from seeking or obtaining double recovery for LEOs services performed at airports.

### **B. Contributions of the Parties**

(1) The City of Modesto is responsible for providing qualified LEOs at airports it operates in accordance with the most recent version of Security Directive 1542-01-07 (series), or other subsequent and superseding regulations or documents regarding law enforcement services regardless of the status of this RA.

(2) TSA agrees to pay pursuant to Appendix A the fixed hourly rate of the qualified LEOs for on-site response to airport security passenger-screening checkpoints supplied by City of Modesto Police Department pursuant to the terms of this RA. Payment is subject to the availability of appropriated funds and compliance with the requirements of the applicable Security Directive(s), the Airport Security Program, and regulations or documents regarding law enforcement services as noted in Sub article (1) of this Paragraph above. Such appropriated funds shall cover such LEO services provided to the airport security passenger-screening checkpoints from execution of this RA while this RA remains in force in accordance with Article XV, Effective Date and Term of Agreement, Amendments, and Modifications of this RA or until such time as this RA is terminated in accordance with Article XVII, Termination. The applicable Security Directive (S.D.) under which TSA makes payment for services is the S.D. that was in effect on the day the Contracting Officer signs this RA.

### **C. Actions for Noncompliance or Material Breach**

If City of Modesto does not comply with all of the terms and requirements of this RA, or if a disagreement arises on the interpretation of the provisions of this RA, or modifications and/or revisions thereto, the Contracting Officer in consultation with the FSD will attempt to resolve the matter. If the matter cannot be resolved, the Contracting Officer will determine with the FSD the materiality of the breach and/or resolution of the interpretation of the RA and the appropriate action(s) that may be taken. The Contracting Officer's determination and proposed action will be in writing and shall be presented to City of Modesto by either the FSD or the Contracting Officer.

A material breach and/or resolution of the interpretation of this RA may result in action by the Contracting Officer including but not limited to: suspension or termination of the RA; withholding and/or termination of reimbursement to City of Modesto.

If action based on noncompliance is taken, the Contracting Officer's determination of a material breach and associated action may be appealed in accordance with Article XX of this RA. Should the City of Modesto have a continuing disagreement with the interpretation of the RA that interpretation may be appealed also in accordance with Article XX of this RA.

## **V. FUNDING AND PAYMENT**

### **A. Limitation of Funds**

The total estimated funding of this RA for Federal fiscal year 2004 shall not exceed \$125,534.34 as payment for City of Modesto Police Department providing the required law enforcement services on-site at the airport for response to the security passenger-screening checkpoints in accordance with the terms of this RA, Security Directive 1542-01-07 (series), the Airport Security Program, or other subsequent and superseding regulations or documents regarding law enforcement services for aviation security. Reimbursement is limited to payment for actual hours of LEO service at the agreed fixed hourly rate. The total estimated funding of this RA will be revised annually either by modification of this RA or by purchase order. The total estimated funding is considered to be a ceiling that City of Modesto may not exceed (except at its own financial risk) without the written approval of the Contracting Officer.

### **B. Ceiling on Payment**

The funding ceiling amount of this RA provided by Paragraph A of Article V. of \$125,534.34 may only be increased by mutual agreement of the parties. The funds presently available for payment and allotted to this RA are \$62,767.17. It is estimated that funding for this RA is sufficient to support providing the required law enforcement services on-site at the airport for response to the security passenger-screening checkpoints in accordance with the terms of this RA, Security Directive 1542-01-07 (series), the Airport Security Program, or other subsequent and superseding regulations or documents regarding law enforcement services for aviation security and meeting the level of effort stated in Appendix A from the effective date of this agreement through September 30, 2004.

### **C. Process for Funding**

This RA may be incrementally funded during the fiscal year subject to the availability of Federal funds. Funds presently available for payment and allotted to this RA are \$62,767.17

PR Number	PREQ 04-LEF-060
Accounting Data	05AV000000-2004-1C2BLEFA21-2B11MOD000-25407
Amount	\$62,767.17

**D. Billing Instructions**

Invoices shall contain the information listed below. City of Modesto shall submit invoices to the following with **a full copy to the FSD**:

For FedEx or other overnight services, and/or US Mail:

Transportation Security Administration  
LEO Reimbursement Program  
TSA-Headquarters, East Building  
Floor 8, TSA-7  
601 South 12<sup>th</sup> Street  
Arlington, VA 22202-4220

Payment for work performed under this RA will be made as soon as possible after receipt of invoices, subject to review and approval by the Contracting Officer and other TSA designated representatives. Should any relevant information reflected on submitted invoices be questioned, the Contracting Officer may withhold all amounts in question until such time as the information is confirmed.

Invoices shall be submitted no more frequently than monthly and shall only reflect the hours of LEO service provided at the fixed hourly rate accumulated through City of Modesto normal month-end accounting cutoff date. City of Modesto invoice formats are acceptable. However, all invoices shall, as a minimum include the following:

1. Reimbursable Agreement Number – this number appears at the top of the cover sheet for this RA. The complete number must be provided and will appear in the following alpha (A)-numeric (N) sequence: HSTS01-04-A-LEFN
2. Invoice Date
3. Invoice Number
4. Name and Address of Party Requesting Reimbursement
5. Point of Contact, with Address, Telephone, Fax and Email Contact Information
6. Tax Identification Number
7. Period of Service for which Reimbursement is Requested (from and to dates)
8. Description of Services Performed
9. Total Number of LEO Hours Billed for Time Period
10. Total Amount of Reimbursement Requested
11. Electronic Funds Transfer (EFT) Banking Information (only required on first submitted invoice unless information changes)
12. Remittance Address
13. Certification of Requester, including the following language:

*This is to certify that the services set forth herein were performed during the period stated and that the invoice is for hours actually worked.*

14. Signature of Requester's Authorized Representative with Date

The Department of Transportation will make payment using the Automatic Clearing House (ACH) Network, unless City of Modesto requests a waiver. After award, but before submitting the first invoice, City of Modesto shall designate a financial institution for receipt of electronic funds transfer payments.

Said submission shall be done on a Standard Form 3881 which can be found at [www.gsa.gov/forms](http://www.gsa.gov/forms). Submit this form to the TSA Finance Office indicated for the receipt of invoices.

**E. Prompt Payment**

Notwithstanding any other payment clause in this RA, the Government will make invoice payments under the terms and conditions specified in this clause. Payment shall be considered as being made on the day a check is dated or an electronic funds transfer is made. All days referred to in this clause are calendar days, unless otherwise specified.

(a) Invoice Payments.

(1) For purposes of this clause, invoice payment means a Government disbursement of monies to City of Modesto under a contract or other authorization for supplies or services accepted by the Government. This includes payments for partial deliveries that have been accepted by the Government, final payments under T&M and labor-hour contracts, and final cost or fee payments where amounts owed have been settled between the Government and City of Modesto.

(2) Except as indicated in Sub article (a)(3) and Article (c) of this clause, the due date for making invoice payments by the designated payment office shall be the later of the following two events:

(i) The 30th day after the designated billing office has received a proper invoice from City of Modesto.

(ii) The 30th day after Government acceptance of services performed by City of Modesto. On a final invoice where the payment amount is subject to contract settlement actions, acceptance shall be deemed to have occurred on the effective date of the contract settlement. However, if the designated billing office fails to annotate the invoice with the actual date of receipt, the invoice payment due date shall be deemed to be the 30th day after the date City of Modesto's invoice is dated, provided a proper invoice is received and there is no disagreement over quantity, quality, or City of Modesto compliance with contract requirements.

(3) An invoice is City of Modesto's bill or written request for payment under the contract for supplies delivered or services performed. An invoice shall be prepared and submitted to the designated billing officer specified in the contract. A proper invoice must include the items listed in Article V, Paragraph D above. If the invoice does not comply with these requirements, then City of Modesto will be notified of the defect within seven (7) days after receipt of the invoice at the designated billing office. Untimely notification will be taken into account in the computation of any interest penalty owed City of Modesto in the manner described in Sub article (a)(6) of this clause.

(4) An interest penalty shall be paid automatically by the Government, without request from City of Modesto, if payment is not made by the due date and the conditions listed in subdivisions (a)(4)(i) through (a)(4)(iii) of this clause are met, if applicable.

(i) A proper invoice was received by the designated billing office.

(ii) A receiving report or other Government documentation authorizing payment was processed and there was no disagreement over quantity, quality, or City of Modesto compliance with any contract term or condition.

(iii) In the case of a final invoice for any balance of funds due City of Modesto for supplies delivered or services performed, the amount was not subject to further contract settlement actions between the Government and City of Modesto.

(5) The interest penalty amount, interest rate and the period for which the interest penalty was computed, will be separately stated by the designated payment office on the check, in accompanying remittance advice, or, in the case of wire transfers, by an appropriate electronic data message accompanying the wire transfer. If the designated billing office failed to notify City of Modesto of a defective invoice within the periods prescribed in Sub article (a)(3) of this clause, then the due date on the corrected invoice will be adjusted by subtracting the number of days taken beyond the prescribed notification of defects period. Any interest penalty owed City of Modesto will be based on this adjusted due date. Adjustments will be made by the designated payment office for errors in calculating interest penalties, if requested by City of Modesto.

(i) For the sole purpose of computing an interest penalty that might be due City of Modesto, Government acceptance shall be deemed to have occurred constructively on the 7th day (unless otherwise specified in this contract) after City of Modesto delivered the supplies or performed the services in accordance with the terms and conditions of the contract, unless there is a disagreement over quantity, quality, or City of Modesto's compliance with a contract

provision. In the event that actual acceptance occurs within the constructive acceptance period, the determination of an interest penalty shall be based on the actual date of acceptance. The constructive acceptance requirement does not, however, compel Government officials to accept supplies or services, perform contract administration functions, or make payment prior to fulfilling their responsibilities.

(ii) The following periods of time will not be included in the determination of an interest penalty:

(A) The period taken to notify City of Modesto of defects in invoices submitted to the Government, but this may not exceed seven (7) days.

(B) The period between the defects notice and resubmission of the corrected invoice by the City of Modesto.

(C) Any period of delay caused by incorrect electronic funds transfer (EFT) information, in accordance with the EFT clause of this contract.

(iii). Interest penalties of less than \$1.00 need not be paid.

(iv) Interest penalties are not required on payment delays due to disagreement between the Government and City of Modesto over the payment amount or other issues involving contract compliance or on amounts temporarily withheld or retained in accordance with the terms of the RA. Contract disputes, and any interest that may be payable, will be resolved in accordance with TSA contract disputes resolution procedures.

(6) An interest penalty shall also be paid automatically by the designated payment office, without request from City of Modesto, if a discount for prompt payment is taken improperly. The interest penalty will be calculated as described in Sub article (a)(5) of this clause on the amount of discount taken for the period beginning with the first day after the end of the discount period through the date when City of Modesto is paid.

## **VI. AUDITS**

TSA shall have the right to examine or audit relevant financial records for a period of three (3) years after expiration of the terms of this RA. City of Modesto must maintain an established accounting system that complies with generally accepted accounting principles.

**A. Audit and Records**

As used in this clause, records includes books, documents, accounting procedures and practices, and other data, regardless of type and regardless of whether such items are in written form, in the form of computer data, or in any other form.

**B. Examination of Records**

This is a fixed labor-hour rate RA, under which City of Modesto shall maintain and the Contracting Officer, Contracting Officer's Representative, or an authorized representative of the Contracting Officer, or other authorized Federal official shall have the right to examine and audit all records and other evidence sufficient to reflect properly all hours claimed to have been incurred in performance of this RA. This right of examination shall include inspection at all reasonable times of City of Modesto offices, or parts of them, engaged in performing the RA. City of Modesto shall provide notice to TSA of the location and custodian of supporting documentation to include Time Sheets, Payroll Report or Other Documentation that substantiates the hours worked under the RA and will make them available for review during normal working hours when requested by an authorized Federal official.

**C. Comptroller General**

The Comptroller General of the United States, or an authorized representative, shall have access to and the right to examine any of City of Modesto's directly pertinent records involving transactions related to this RA or a subcontract hereunder.

This Article may not be construed to require City of Modesto or subcontractor to create or maintain any record that City of Modesto or subcontractor does not maintain in the ordinary course of business or pursuant to a provision of law.

**D. Availability**

City of Modesto shall make available at its office at all reasonable times the records, materials and other evidence described in Articles (A), (B), and (C) of this clause, for examination, audit, or reproduction, until three (3) years after final payment under this RA, or for any longer period required by statute or by other clauses of this RA. In addition:

- (1) If this RA is completely or partially terminated, the records relating to the work terminated shall be made available for three (3) years after any resulting final termination settlement; and
- (2) Records relating to appeals under the "Contract Disputes" clause or to litigation or the settlement of contract disputes arising under or relating to this RA shall be made available until such appeals, litigation, or contract disputes are finally resolved.

**E. Flow Down Clause**

City of Modesto shall insert a clause containing all the terms of Article VI. of this RA, including this Paragraph (E), in all subcontracts to perform services there under that are labor-hour rate contracts for LEOs.

This clause may be altered only as necessary to identify properly the contracting parties and the Contracting Officer under this RA.

**F. Refund of Payments**

The Contracting Officer has the right to demand the return of payments made to City of Modesto should the Contracting Officer determine that the hours used to calculate the invoice exceeds the actual hours worked by City of Modesto.

**VII. CONTRACTING OFFICER'S REPRESENTATIVE**

The Contracting Officer will designate a Contracting Officer's Representative (COR) to act as his or her authorized representative for contract administration functions which do not involve changes to the scope, performance, price, schedule, or terms and conditions of the RA. The designation will be in writing, signed by the Contracting Officer, and will set forth the authorities and limitations of the representative(s) under the RA. Such designation will not contain authority to sign contractual documents, order contract changes, modify contract terms, or create any commitment or liability on the part of the Government different from that set forth in the RA.

City of Modesto shall immediately contact the Contracting Officer if there is any question regarding the authority of an individual to act as a representative of the Contracting Officer under this RA.

The COR for this RA is:

**Toni Smith  
Transportation Security Administration  
TSA Headquarters, East Tower  
Floor #8, TSA-7  
601 South 12<sup>th</sup> Street  
Arlington, VA 22202-4220  
(571) 227-2467**

## **VIII. RECORDS AND RELEASE OF INFORMATION**

In the course of service under this RA, LEOs will have access to certain information called "Sensitive Security Information" or SSI, which is protected by Federal statute and regulation. LEOs may also create and maintain records that contain SSI, such as investigative reports that relate to aviation security. SSI is specifically defined in 49 CFR 1520.7. LEOs assigned to work under this RA are subject to the duties and requirements imposed by 49 CFR Part 1520, Protection of Sensitive Security Information. As such, they may not publicly disclose SSI in any context, including litigation or pursuant to a state open records act request, without the advance approval of TSA as provided in 49 C.F.R. part 1520. If a party in a legal proceeding seeks SSI in discovery or otherwise seeks disclosure of SSI from a LEO performing duties under this agreement, the LEO must provide immediate notice of the request for SSI to the FSD or the FSD's designee, who will, in turn, forward the request to TSA's Field Counsel. LEOs asked to testify about purely factual matters that do not reveal SSI may do so without consultation with TSA.

All records created by LEOs that contain SSI shall be marked with the following legend:

WARNING: THIS DOCUMENT CONTAINS SENSITIVE SECURITY INFORMATION THAT IS CONTROLLED UNDER THE PROVISIONS OF 49 CFR PART 1520. NO PART OF THIS DOCUMENT MAY BE RELEASED WITHOUT THE WRITTEN PERMISSION OF THE ADMINISTRATOR OF THE TRANSPORTATION SECURITY ADMINISTRATION, WASHINGTON D.C. UNAUTHORIZED RELEASE MAY RESULT IN CIVIL PENALTY OR OTHER ACTION. FOR U.S. GOVERNMENT AGENCIES, PUBLIC AVAILABILITY IS DETERMINED UNDER 5 U.S.C. 552.

## **IX. LEGAL DOCUMENTS**

A copy of any summons, complaint, subpoena, or other legal document served upon a State or local LEO that is related to a legal proceeding that seeks records or testimony containing SSI shall be promptly forwarded to the FSD or the FSD's designee for forwarding to TSA's Field Counsel.

## **X. PROTECTION OF INFORMATION**

The parties agree that they shall take appropriate measures to protect proprietary, privileged, or otherwise confidential information that may come into their possession as a result of this RA, including SSI as explained in Article VIII above.

## **XI. MEDIA INQUIRIES**

All media releases and other contact with or by media specific to the Security Directive 1542-01-07 (series), the Airport Security Program, or other subsequent and superseding regulations or documents regarding law enforcement services for aviation security shall be coordinated with the FSD or the FSD's designee. All media releases and other contact with or by media on the terms and conditions of this RA shall be coordinated with the Contracting Officer. See Article XIX.

## **XII. GENERAL ALLOCATION OF LIABILITY**

Unless specifically addressed by the terms of this RA or otherwise provided by Federal law, the parties agree to be responsible for the negligent or wrongful acts or omissions of their respective employees.

## **XIII. OTHER PROVISIONS**

Nothing in this RA or any appendix thereto is intended to conflict with current law or regulation or the directives of DHS, TSA, or any other Executive Department. If a term of this RA or any appendix thereto is inconsistent with such authority, then that term shall be invalid to the extent of such inconsistency, but the remainder of that term and all other terms and conditions of this RA and any appendix thereto shall remain in full force and effect.

## **XIV. RIGHTS AND BENEFITS**

Nothing in this RA is intended to diminish or otherwise affect the authority of any agency to carry out its statutory, regulatory, or other official functions, nor is it intended to create any right or benefit, substantive or procedural, enforceable at law by any party against the United States, its agencies or officers, state agencies or officers carrying out programs authorized under Federal law, or any other person.

## **XV. EFFECTIVE DATE AND TERM OF AGREEMENT, AMENDMENTS, AND MODIFICATIONS**

This RA will become enforceable when signed by all parties. The effective date and term of this RA is October 1, 2003 and shall continue in effect until September 30, 2004, unless terminated earlier by the parties as provided herein. The termination of this RA by either party does not, in itself, relieve the The City of Modesto from compliance with any Federal law, rule, regulation, or directive in effect.

Changes and/or modifications to this RA shall be in writing and signed by a TSA Contracting Officer and the City Manager, Jack R. Crist. The modification shall cite the subject RA, and shall state the exact nature of the modification. No oral statement by any person shall be interpreted as modifying or otherwise affecting the terms of this RA.

## **XVI. OPTION TO EXTEND AGREEMENT**

The TSA may elect to continue performance under this RA with the limits and at the rates specified in Appendix A and Appendices A-1 through A-3 as applicable to this RA. This option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed four (4) years. The Contracting Officer may exercise the option by written notice to City of Modesto within thirty (30) days of the end of the term of the RA.

## **XVII. TERMINATION**

In addition to any other termination rights provided by this RA, either party may terminate this RA at any time prior to its expiration date, with or without cause, and without incurring any liability or obligation to the terminated party (other than payment of amounts due and owing and performance of obligations accrued, in each case on or prior to the termination date) by giving the other party at least thirty (30) days prior written notice of termination. Termination by any party does not, in itself, relieve the The City of Modesto from compliance with any Federal law, rule, regulation, or directive in effect.

In the event of termination or expiration of this RA, any funds that have not been spent or obligated for allowable expenses prior to the date of termination, and are not reasonably necessary to cover termination expenses shall be unilaterally de-obligated via a modification to the purchase order that is issued as a result of this RA.

## **XVIII. ORDER OF PRECEDENCE**

In the event of any inconsistency between the terms of the RA or any law, regulation, or Security Directive, the inconsistency shall be resolved by giving preference in the following order:

- (1) Laws, Regulations, Security Directives
- (2) This RA, then
- (3) The Appendices to this RA

## **XIX. POINTS OF CONTACT**

The contacts of each party to this RA are:

**Toni Smith**  
**Contracting Officer's Representative**  
**Transportation Security Administration**  
**TSA Headquarters, East Tower, Floor #8, TSA-7**

The parties agree that if there is a change regarding the information in this Article, the party making the change will notify the other parties in writing of such change.

## **XX. RESOLUTION OF DISAGREEMENTS**

### **A. Material Breach**

If action based on noncompliance with the terms of the RA is taken under Article IV, the Contracting Officer's determination of a material breach and associated action may be appealed to the Assistant Administrator for Aviation Operations. Appeals must be submitted in writing to the Assistant Administrator for Aviation Operations, via the FSD and Contracting Officer within 60 days of the receipt of the TSA determination that a material breach of this RA has occurred. The appeal shall state the specific basis for contesting the determination of a material breach. The appeal will be reviewed by the TSA Assistant Administrator for Aviation Operations, who shall render a decision regarding the appeal with the concurrence of the Director, TSA Office of Acquisitions and the Deputy Chief Counsel for Procurement.

### **B. Interpretation**

Should disagreement arise on the interpretation of the provisions of this RA, or amendments and/or revisions thereto that cannot be resolved by the Contracting Officer in consultation with the FSD as provided in Article IV. C., the area(s) of disagreement shall be stated in writing by each party and presented to the other party for consideration. If agreement on interpretation is not reached within sixty (60) days, the parties shall forward the written presentation of the disagreement to the TSA Assistant Administrator for Aviation Operations, who shall render a decision regarding the disagreement with the concurrence of the Director, TSA Office of Acquisition and the TSA Deputy Chief Counsel for Procurement.

Any appeal of decisions under A. or B. above will be subject to applicable Federal law.

**XXI. APPROVED BY**

The undersigned represent and warrant that they have full authority to sign the instant document and bind the parties in question.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 -011**

**A RESOLUTION APPROVING AN AMENDMENT TO A GRANT AGREEMENT WITH THE FEDERAL AVIATION ADMINISTRATION FOR THE ELECTRICAL VAULT/EMERGENCY GENERATOR PROJECT AT THE MODESTO CITY-COUNTY AIRPORT AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AMENDMENT ON BEHALF OF THE CITY**

WHEREAS, the City of Modesto and the Federal Aviation Administration (FAA) entered into a Grant Agreement on September 25, 2001, which provides Federal funding for various projects at the Modesto City-County Airport, and

WHEREAS, said Grant Agreement contains a project description that includes a listing of projects which are eligible for Federal reimbursement, and

WHEREAS, the City of Modesto by letter dated August 19, 2003 requested that FAA amend the project description to include two additional projects, construction of an electrical vault and installation of airfield electrical regulators, and

WHEREAS, including said projects in the project description makes those projects eligible for Federal reimbursement under the terms of the Grant, and

WHEREAS, FAA has agreed to modify the project description to include the two additional projects as requested by the City of Modesto, and

WHEREAS, FAA has prepared Amendment No. 1 to Grant Agreement for Project No. 3-06-0153-25 which provides for the requested change in project description.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves Amendment No. 1 to Grant Agreement for Project No. 3-06-0153-26.

BE IT FURTHER RESOLVED that the City Manager or his authorized designee is authorized to execute Amendment No. 1 on behalf of the City.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of January, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-012**

**A RESOLUTION AMENDING THE CAPITAL IMPROVEMENT PROGRAM (CIP) BUDGET TO ESTIMATE REALLOCATION OF \$644,498 FOR FISCAL YEAR 2003/04 CIP, MAKING ADJUSTMENTS TO ONE PROJECT AND CREATING 2 NEW PROJECTS**

WHEREAS, in May 2003, staff requested reallocation of existing Congestion Mitigation and Air Quality (CMAQ) activities for the 2002 Federal Transportation Improvement Program (FTIP), and

WHEREAS, the Stanislaus Council of Governments (StanCOG) approved the FTIP amendment for reallocating funds via Amendment #13 at its July 9, 2003, Policy Board meeting, and

WHEREAS, the Council of the City of Modesto has amended the fiscal year 2003-2004 Capital Improvement Program (CIP) budget in previous resolution action,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the FY 2003-2004 Capital Improvement Budget is hereby amended as shown in **Attachment A.**

BE IT FURTHER RESOLVED that the Finance Director is hereby authorized to take the necessary steps to implement the provisions of this resolution, including making adjustments for CIP appropriations and revenues.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of January, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-013**

**A RESOLUTION AWARDING THE BID AND CONTRACT FOR HOT PATCH WORK TO CORNISH PAVING, INC. OF RIVERBANK, CA. FOR AN INITIAL ONE-YEAR PERIOD, WITH TWO (2) ONE-YEAR CONTRACT EXTENSION OPTIONS, FOR AN ANTICIPATED ANNUAL AMOUNT OF \$80,000.00.**

WHEREAS, the Operations and Maintenance Department-Water Division has requested contractual assistance to perform hot patch work in Empire and Zone 3 of the City's water system, and

WHEREAS, Resolution 2003-129 authorized the solicitation of bids for hot patch work, and

WHEREAS, Zone 3 is comprised of Waterford, Hickman, Salida, Del Rio, Ceres, Turlock, Grayson, and other County areas just outside of the City limits that do not receive surface water from the Modesto Irrigation District (MID) water plant, and

WHEREAS, hot patch work consists of asphalt repairs to street cuts made in order to make repairs to the water system, and

WHEREAS, City crews perform some of this work, but often in-house resources are not available to perform the hot patch work as needed, and

WHEREAS, Cornish Paving, Inc. of Riverbank, CA. is the lowest responsive and responsible bidder for hot patch work with a total approximate per square foot cost of \$6.50,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards the bid and contract for hot patch work to Cornish Paving of Riverbank, CA. for an initial one-year period with two (2) one-year contract extension options, for a total annual cost of approximately \$80,000.00.

BE IT FURTHER RESOLVED that the Purchasing Supervisor is authorized to issue contract not to exceed \$80,000.00 to Cornish Paving of Riverbank, CA. for an initial one-year period.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of January, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-014**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO  
FORMALLY SOLICIT REQUEST FOR BIDS FOR THE FURNISHING OF  
HEATING, VENTILATION AND AIR CONDITIONING (HVAC) SERVICE AND  
REPAIRS FOR THE MODESTO CENTRE PLAZA, FOR A THREE (3) YEAR  
AGREEMENT WITH TWO (2) ONE-YEAR EXTENSION OPTIONS**

WHEREAS, the Parks, Recreation and Neighborhoods Department has requested heating, ventilation and air conditioning (HVAC) service and repairs at the Modesto Centre Plaza, and

WHEREAS, the HVAC services consist of scheduled preventative maintenance and service repairs, on an "as needed basis", to ensure top performance, and

WHEREAS, by authorizing the Purchasing Supervisor to solicit bids, the City will achieve the best value possible for HVAC preventative maintenance and service repairs, and

WHEREAS, Modesto Municipal Code, MMC Section 8-3.203, generally requires all purchases that meet or exceed \$50,000.00 for material, equipment or contractual services to be formally bid, and

WHEREAS, by soliciting competitive bids for the furnishing of heating, ventilation and air conditioning scheduled preventative maintenance and service repairs for the Modesto Centre Plaza HVAC system, the Finance Department, Purchasing Division will comply with MMC Section 8-3.203 regarding formal bid procedures,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. The City Clerk is hereby authorized to call for public competitive sealed bids for the furnishing of heating, ventilation and air conditioning scheduled preventative maintenance and service repairs, for a three (3) year agreement with two (2) one-year extension options, to be opened in the office of the City Clerk, 1010 Tenth Street, in the City of Modesto. The City Clerk shall be directed to give notice inviting such sealed bids in the time, form, and manner provided by law.

SECTION 2. After the sealed bids are opened, they shall be tabulated and analyzed and a report submitted to Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of January, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-015**

**A RESOLUTION AWARDING A \$174,298 CONTRACT TO LARRY WALKER ASSOCIATES FOR CONSULTING SERVICES FOR THE PROJECT TITLED "NPDES POLLUTION PREVENTION PLANS" AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE CONTRACT.**

WHEREAS, on June 5, 2001 Council awarded Larry Walker Associates a contract to conduct special studies, as required by the City of Modesto's NPDES permit issued by the Regional Water Quality Control Board, and

WHEREAS, these studies have been completed and significant amounts of data have been gathered, and

WHEREAS, in order to comply with the requirements of the NPDES permit, specific pollution prevention plans must be developed and submitted to the regional board, and

WHEREAS, the Operations and Maintenance Director has recommended that Larry Walker Associates, be accepted as the most qualified consulting firm to provide the necessary pollution prevention plan services, and

WHEREAS, the Economic Development Committee considered this item at its December 6, 2003 meeting and recommended award of the contract for developing pollution prevention plans to Larry Walker Associates in an amount not to exceed \$174,298.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards a contract for consulting services for the project titled "NPDES Pollution Prevention Plans" to Larry Walker Associates, in an amount not to exceed \$174,298.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of January, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-016**

**A RESOLUTION ACCEPTING THE RECOMMENDATION OF THE CITIZENS HOUSING AND COMMUNITY DEVELOPMENT COMMITTEE (CH&CDC) TO ALLOCATE \$69,079 IN HOME COMMUNITY HOUSING DEVELOPMENT ORGANIZATION (CHDO) OPERATING FUNDS TO HABITAT FOR HUMANITY, STANISLAUS, AND AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE TO SIGN AND EXECUTE THE AGREEMENT.**

WHEREAS, by Resolution No. 2003-338, on July 1, 2003, the City Council authorized staff to solicit Request for Proposals (RFP) for the development and construction of multi-family housing, rehabilitation and conversion of Market Rate units to affordable units or the development of new entry-level single-family units, which will increase the affordable housing stock within the City of Modesto, and

WHEREAS, a total of \$1,536,624 of assistance is available in FY 03-04, consisting of \$1,154,720 in HOME entitlement funds, \$312,825 in Community Housing Development Organization (CHDO) set-aside funds, and \$69,079 in CHDO operating expense funding, and

WHEREAS, inasmuch as the federal HOME program provides these funds, all funding recipients will be governed by HOME regulations, and

WHEREAS, a RFP was released on July 8, 2003, and due on September 5, 2003, and

WHEREAS, four proposals were received; one proposal was late and incomplete, this proposal has been rejected, and

WHEREAS, the review committee recommended the approval of Habitat for Humanity's proposal for CHDO operating expenses in the amount of \$69,079, and

WHEREAS, the review committee further requested additional information from other proposals to clarify the increase of construction costs before making a final recommendation, and

WHEREAS, the Citizens Housing and Community Development Committee (CH&CDC) met on November 21, 2003, and recommended these actions,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby authorizes staff to allocate \$69,079 in Community Housing Development Organization (CHDO) Operating Funds to Habitat for Humanity, Stanislaus.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to sign and execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of January, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-017**

**A RESOLUTION APPROVING A GRANT APPLICATION FOR \$2,867,000 IN URBAN PARK ACT OF 2001 PROGRAM FUNDING UNDER THE CALIFORNIA CLEAN WATER, CLEAN AIR, SAFE NEIGHBORHOOD PARKS, AND COASTAL PROTECTION ACT OF 2002, FOR DEVELOPMENT OF PORTIONS OF PHASE 2 AND 3 OF THE VIRGINIA AVENUE CORRIDOR TRAILS PROJECT (THE "PROJECT"), AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE GRANT APPLICATION AND CONTRACT DOCUMENTS.**

WHEREAS, the people of the State of California have enacted the CALIFORNIA CLEAN WATER, CLEAN AIR, SAFE NEIGHBORHOOD PARKS, AND COASTAL PROTECTION ACT OF 2002, which provides funds to the State of California for grants to eligible applicants, and

WHEREAS, the California Department of Parks and Recreation has been delegated the responsibility for the administration of the Urban Park Act of 2001 Program and the grant Project shown above within the State, setting up necessary procedures, and grant funding in the amount of \$2,867,000 is available for parks and park facilities, and

WHEREAS, development of the Virginia Avenue Corridor Trail Project (the "Project") is consistent with the Urban Park Act of 2001 Program grant project criteria, and

WHEREAS, said procedures established by the California Department of Parks and Recreation require the applicant's governing body to certify by resolution the approval of the applicants before submission of said application to the State, and

WHEREAS, the applicant will enter into a contract with the State of California for the Project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto  
that the Council hereby:

1. Approves the filing of an application for \$2,867,000 in local assistance funds from the Urban Park Act of 2001 Program under the California Clean Water, Clean Air, Safe Neighborhood Parks and Coastal Protection Act of 2002; and
2. Certifies that the application has or will have sufficient funds to operate and maintain the Project; and
3. Certifies that the application has reviewed, understands, and agrees to the General Provisions contained in the contract shown in the Procedural Guide; and
4. Certifies that the Project conforms to the recreation element of any applicable city or county general plan; and
5. Authorizes the City Manager, or his designee, as agent to conduct all negotiations, execute and submit all documents including, but not limited to, applications, agreements, payment requests and so on, which may be necessary for the completion of the Project.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of January, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-018**

**A RESOLUTION PLEDGING LAND AND BUILDINGS, SPECIFICALLY MARSHALL PARK, CÉSAR CHÁVEZ PARK AND THE BUILDINGS AND IMPROVEMENTS AT SAID PARKS AS COLLATERAL AS A PART OF THE APPLICATION SUBMITTED TO THE DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT (HUD) FOR A \$4.5 MILLION SECTION 108 LOAN GUARANTEE TO FINANCE THE CONSTRUCTION OF THE NEIGHBORHOOD CENTER AT MARSHALL PARK AND THE RENOVATION AND EXPANSION OF MADDUX YOUTH CENTER.**

WHEREAS, on June 24, 2003, by Resolution No. 2003-325 the Modesto City Council authorized the City Manager, or his designee, to execute the final application for the Section 108 Loan Guarantee from HUD, and

WHEREAS, the City will borrow against a \$4.5 million Section 108 Loan Guarantee, and

WHEREAS, \$3.1 million is for the construction of a joint service facility, the Neighborhood Center at Marshall Park, which would house a fire station, a police sub-station and a recreation office/ facility, and

WHEREAS, \$1.4 million is for the renovation and expansion of the Maddux Youth Center, and

WHEREAS, HUD requires that the City use its future CDBG entitlement as collateral, as well as other collateral which in the City's situation would be Marshall Park, César Chávez Park (the location of the Maddux Youth Center), the buildings and all improvements, and

WHEREAS, at its meetings of January 24, 2003, and June 3, 2003, the Citizens Housing and Community Development Committee supported submission of an

application for a Section 108 loan for construction of the Neighborhood Center at Marshall Park and for the renovation and expansion of Maddux Youth Center,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby pledges the land, buildings and all improvements at Marshall Park and at César Chávez Park (the location of the Maddux Youth Center), as collateral as part of the application submitted to the Department of Housing and Urban Development (HUD) for a \$4.5 million Section 108 Loan Guarantee to finance the construction of the Neighborhood Center at Marshall Park and the renovation and expansion of Maddux Youth Center.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of January, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-019

A RESOLUTION APPROVING THE SUBMISSION OF AN APPLICATION TO THE DEPARTMENT OF HEALTH AND HUMAN SERVICES FOR THE SURPLUS PROPERTY LOCATED ON 1230 12<sup>TH</sup> STREET, MODESTO, CALIFORNIA (GSA NO. 9-G-CA-1610), AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT AND SUBSEQUENT DOCUMENTS.

WHEREAS, certain real property owned by the United States, located in the County of Stanislaus, State of California, has been declared surplus and is subject to assignment for disposal for homeless or public health purposes by the Secretary of Health and Human Services under the provisions of Section 203(k)(1) of the Federal Property and Administrative Services Act of 1949, as amended, and rules and regulations promulgated pursuant thereto, more particularly described as follows:

1230 12<sup>th</sup> Street, Modesto, California (GSA No. 9-G-CA-1610),

and

WHEREAS, on October 14, 2003, by Resolution No. 2003-548, the City Council authorized the City Manager, or his designee, to submit a "Letter of Interest" to obtain necessary application instructions from the Department of Health and Human Services (HHS) for the surplus property located on 1230 12<sup>th</sup> Street, Modesto, (GSA No. 9-G-CA-1610), previously used by the Social Security Administration (SSA), and

WHEREAS, the City of Modesto needs and can utilize said property for public health purposes in accordance with the requirements of said Act and the rules and regulations promulgated thereunder of which this Council is informed, including commitments regarding use and time such use shall commence, and

WHEREAS, the property consists of a .62-acre corner lot improved with an 11,957-square-foot office building and 24 paved outdoor parking spaces, with the zoning designation as C-2 (general commercial), and the building is handicapped accessible, and

WHEREAS, the building contains lead-based paint and does not meet current seismic standards, and the cost estimate for both structural and nonstructural seismic retrofit is \$58,860, and

WHEREAS, asbestos-containing material (ACM) in the form of wallboard joint compound is located throughout the building in the walls and ceilings, and the ACM is in good condition and is non-friable, and

WHEREAS, although the building is in good condition, the mechanical and electrical system and the roof are the major items requiring repair and/or replacement, with the total preliminary estimate to rehabilitate this building approximately \$400,000, and

WHEREAS, it is estimated that the total costs to complete the rehabilitation and furnishing of the facility will be approximately \$600,000, and

WHEREAS, of the \$600,000 figure, the City of Modesto has budgeted \$305,752 through the 2003-2004 Annual Action Plan, and the County of Stanislaus has tentatively set aside \$100,000 from their CDBG funds for the project; at this time, and staff proposes that the remaining \$194,248 come from the City's CDBG Revolving Loan Fund, and

WHEREAS, staff proposes that the building could be utilized for several necessary purposes, including:

- Offices, meeting spaces and storage for the many governmental, non-profit and faith-based agencies involved in the Stanislaus Housing and Support Services Collaborative that provides services to the homeless,
- Offices for the Restorative Police Function and Bicycle Officers. The Restorative Policing Program, in collaboration with the Behavior Health

and Recovery Services, is designed to address adults with mental illness or other disabilities that are at high risk of being repeatedly victimized or arrested for activities related to their disability,

and

WHEREAS, if the City's application request is approved, the City of Modesto and the Collaborative's agencies could work in coordination to rehabilitate this facility for the outlined uses, and

WHEREAS, it is expected that eventually the Collaborative will be the agency to oversee this facility, and

WHEREAS, at its meetings of October 7, 2003, the Safety and Communities Committee supported submission of an application for the use of 1230 12<sup>th</sup> Street, Modesto, (GSA No. 9-G-CA-1610), previously used by the Social Security Administration (SSA), and

WHEREAS, at its meetings of October 10, 2003, the Citizens Housing and Community Development Committee also supported submission of this application, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it has legal authority, is willing, and is in a position financially to care and maintain the property, and

BE IT FURTHER RESOLVED that Jack R. Crist, the City Manager, is hereby authorized, for and on behalf of the City of Modesto, to do and perform any and all acts and things which may be necessary to carry out the foregoing resolution, including the preparing, making, and filing of plans, applications, reports, and other documents.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of January, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-020**

**RESOLUTION ADOPTING A FINDING OF A SHELTER CRISIS WITHIN THE CITY OF MODESTO, DECLARING A SHELTER EMERGENCY AS AUTHORIZED BY THE CALIFORNIA GOVERNMENT CODE, AND AUTHORIZING THE CITY MANAGER OR DESIGNEE TO TAKE ACTIONS NECESSARY TO MITIGATE THE EFFECTS OF THE SHELTER CRISIS.**

WHEREAS, there are estimated to be between 7,200 and as many as 11,000 homeless citizens in Stanislaus County, and

WHEREAS, more than an estimated 3,450 citizens are homeless in and about the City of Modesto, and

WHEREAS, all emergency shelters serving Modesto are full and unable to provide overnight shelter, and

WHEREAS, the California Legislature has determined that “A fundamental purpose of government is to protect the health and safety of persons within its jurisdiction,” and

WHEREAS, the California Legislature has determined that “Homelessness is a state which results in a direct threat to the health and safety of its victims, many of who have died, particularly during severe weather conditions, as a result of this state of homelessness,” and

WHEREAS, the months of January, February and March are historically among the coldest and most inclement months of the year in the San Joaquin Valley, and

WHEREAS, the Council of the City of Modesto finds that there is a significant number of persons who are without the ability to obtain shelter in Modesto, resulting in a threat to their health and safety,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. That a Shelter Crisis, as that term is defined in Section 8698 of the California Government Code (“Code”), is hereby proclaimed to exist in the City of Modesto.
2. That during the term of the Shelter Crisis proclaimed by this resolution, the provisions of any state or local regulatory statute, regulation , or ordinance prescribing standards of housing, health, or safety shall be suspended to the extent that strict compliance would in any way prevent, hinder, or delay the mitigation of the effects of the Shelter Crisis.
3. That during the term of the Shelter Crisis, the City Manager, or his designee, is hereby authorized to take any action that he or she deems necessary in his or her sole discretion to assist in the mitigation of the Shelter Crisis proclaimed by this resolution for the purpose of providing emergency housing in any Public Facility, as that term is defined in Code Section 8698, provided the Public Facility is located in a C-M, M-1, or M-2 zone and further provided that the Public Facility is greater than 500 feet from any single-family residence.
4. That during the term of the Shelter Crisis proclaimed by this resolution, the City Manager, or his designee, shall, despite the suspension of any state or local regulatory statute, regulation, or ordinance prescribing standards of housing, health, or safety as set forth in paragraph 2, require such conditions as he or she deems necessary to ensure minimal public health and safety with respect to any Public Facilities open to the homeless during the term of the Shelter Crisis.
5. That the City Manager, or his designee, is authorized to execute one or more agreements with any not-for-profit entity which is now, or proposes in the future, to operate a Public Facility open to the homeless during the term of the Shelter Crisis proclaimed by this resolution.

6. That on or before April 6, 2004, the City Manager, or his designee, shall provide a report to the Council describing any and all actions taken by him or her pursuant to the authority conferred by this resolution.
7. That the Shelter Crisis proclaimed by this resolution shall terminate on April 30, 2004, unless earlier terminated or extended by a subsequent resolution of the Modesto City Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of January, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-021**

**A RESOLUTION APPROVING ALLOCATION OF \$39,000 IN COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) FUNDING TO THE SALVATION ARMY AND \$30,000 IN COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) FUNDING TO COMMUNITY HOUSING AND SHELTER SERVICES FOR FISCAL YEAR 2003-2004 AND AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE TO SIGN AND EXECUTE THE AGREEMENTS**

WHEREAS, the City of Modesto receives several Federal grants from the United States Department of Housing and Urban Development (HUD), and

WHEREAS, the City receives a Community Development Block Grant (CDBG), and

WHEREAS, the City receives this grant annually because of its population size, number of households living below the poverty level, and the number of housing units that are considered substandard, and

WHEREAS, a maximum of fifteen percent of the City's available CDBG entitlement grant may be allocated to nonprofit organizations for the purposes of providing assistance that is consistent with the functions of CDBG funding to very-low, low and moderate income persons and families residing within the city limits of Modesto, and

WHEREAS, in Fiscal Year 2003-2004, fifteen percent of the City's available CDBG entitlement is \$433,500, and,

WHEREAS, by Resolution No. 2003-68, on February 4, 2003, the Modesto City Council approved an allocation of \$150,000 in CDBG public service funds to the Modesto Police Department for the operation of the Crime Free Multi-Housing Program, and

WHEREAS, by Resolution No. 2003-184, on April 8, 2003, the Modesto City Council approved an allocation of \$190,745 in CDBG public service funding requests for FY 2003-2004, and

WHEREAS, by Resolution No. 2003-238, on May 13, 2003, the Modesto City Council approved the allocation of \$69,888 in CDBG public service funding, and

WHEREAS, by Resolution No. 2003-283, on June 10, 2003, the Modesto City Council approved the balance of \$22,867 in CDBG public service funding, and

WHEREAS, at a public meeting on December 11, 2003, by Resolution No. 2003-654, the City Council approved allocating \$69,000 in CDBG public service funding for a winter shelter for homeless individuals and families,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the allocation of \$39,000 in Fiscal Year 2003-2004 CDBG funding to The Salvation Army, for the operation of a winter shelter for the homeless and \$30,000 in Fiscal Year 2003-2004 CDBG funding to Community Housing and Shelter Services for the provision of winter shelter for the homeless,

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the City Manager or his authorized designee is hereby authorized to execute the necessary documents with respect to implementation of the allocation of Fiscal Year 2003-2004 CDBG Public Service Grant funding to The Salvation Army and Community Housing and Shelter Services.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of January, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-022**

**A RESOLUTION ADOPTING A MITIGATED NEGATIVE DECLARATION (SCH NO. 2003102131) AND FINDING OF NO SIGNIFICANT IMPACT FOR THE FOLLOWING PROJECT COVERED BY A MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 1999082041): VIRGINIA AVENUE CORRIDOR SPECIFIC PLAN.**

WHEREAS, on March 4, 2003, the City Council of the City of Modesto certified the Final Master Environmental Impact Report (“Master EIR”) (SCH No 1999082041) for the Modesto Urban Area General Plan, and

WHEREAS, the Parks, Recreation and Neighborhoods Department proposes the adoption of a Specific Plan for the development and construction of the Virginia Avenue Corridor Trail Project (“Project”) which consists of conversion of the abandoned, 4.2-mile Union Pacific Railroad corridor – from the City’s central business district at Needham Avenue to the northern City boundary at Bangs Avenue – to a premier linear park with Class I bikeway and pedestrian trail, and

WHEREAS, the Parks, Recreation and Neighborhoods Department, by Initial Study / Environmental Assessment EA/PR&N No. 2003-07, dated October 9, 2003, reviewed the proposed Project pursuant to Section 21157.1 of the Public Resources Code to analyze whether the proposed project is within the scope of the Master Environmental Impact Report, and

WHEREAS, Section 21080(c)(2) allows the adoption of a Mitigated Negative Declaration (MND) if the lead agency, after reviewing and considering the entire record before the agency, identifies potentially significant effects on the environment, but (a) revisions in the Project plans or proposals made by, or agreed to by, the applicant before the Initial Study (IS) is released for public review would avoid the effects or mitigate the

effects to a point where clearly no significant effect on the environment would occur; and  
(b) there is no substantial evidence in light of the whole record before the public agency  
that the Project, as revised, may have a significant effect on the environment, and

WHEREAS, the City of Modesto, the lead agency, after reviewing and  
considering the Master EIR, the Initial Study and the entire record before it identified  
potentially significant effects on the environment, but (a) revisions in the Project plans  
agreed to by the City before the Initial Study was released for public review would avoid  
or mitigate the effects to a point where clearly no significant effect on the environment  
would occur; and (b) there was no substantial evidence in light of the whole record before  
the public agency that the Project, as revised, may have a significant effect on the  
environment and determined that it would be appropriate to prepare a Mitigated Negative  
Declaration for the Project, and

WHEREAS, the City of Modesto prepared, circulated and posted, pursuant to  
Sections 15070 and 15105 of the CEQA Guidelines, an Initial Study / Environmental  
Assessment EA/PR&N 2003-07 and a Mitigated Negative Declaration / Finding of No  
Significant Impact (SCH No. 2003102131), dated October 9, 2003, ("IS/MND") and

WHEREAS, the IS/MND was released for public review and comment for the  
required 30-day period beginning on October 27, 2003, and ending on November 25,  
2003, and

WHEREAS, no comments were submitted in response which would require a  
revision of the proposed IS/MND, and

WHEREAS, in a public hearing on January 6, 2004, the City Council considered  
the IS/MND for the proposed adoption of a Specific Plan for the development and

construction of the Virginia Avenue Corridor Trail Project, together with all comments received during the public review and circulation period and responses thereto,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study / Environmental Assessment EA/PR&N 2003-07 and the Mitigated Negative Declaration / Finding of No Significant Impact (“IS/MND”) (SCH No. 2003102131) for the proposed Project, a copy of which is on file in the Parks, Recreation and Neighborhoods Department, together with all comments received during the public review and circulation period, and based on the substantial evidence included in said IS/MND makes the following findings:

1. An IS/MND has identified potentially significant effects on the environment that were not analyzed in the Master EIR. These additional significant environmental effects are potential impacts to Traffic, Noise, Agricultural Resources, Drainage, Flooding and Water Quality, and Storm Drainage.
2. Revisions in the Project agreed to by the City and feasible mitigation measures which were incorporated into the Project before the IS/MND was released for public review will avoid or mitigate the effects of the proposed Project to a point where clearly no significant effect on the environment would occur.
3. There is no substantial evidence in light of the whole record before the public agency that the Project, as revised and mitigated, may have a significant effect on the environment.

4. As part of the adoption of the IS/MND, the City Council finds that the report or declaration reflects its independent judgment as the lead agency for the Project.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that, based on the above findings, the City of Modesto hereby adopts the Initial Study / Environmental Assessment EA/PR&N 2003-07 and Mitigated Negative Declaration / Finding of No Significant Impact (SCH No. 2003102131) for the proposed adoption of a Specific Plan for the development and construction of the Virginia Avenue Corridor Trail Project by the City of Modesto and hereby designates the Parks Planning and Development Services Division of the Parks, Recreation and Neighborhoods Department as the custodian of the documents or other material which constitute the record of proceedings upon which this decision is based, and specifies the Department of Parks, Recreation and Neighborhoods, 1010 Tenth Street, Suite 4400, Modesto, California, as the location of said documents.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that pursuant to Section 21081.6 of the Public Resources Code, a Mitigation Monitoring Program is hereby adopted by incorporating the mitigation measures into the Project plan as set forth in Appendix "H" of the Initial Study.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the City Clerk is hereby authorized and directed to file a Notice of Determination with the County Clerk's Office within five (5) working days of the date of this determination, pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of January, 2004, by Councilmember Dunbar, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-023**

**A RESOLUTION ADOPTING THE SPECIFIC PLAN FOR THE VIRGINIA AVENUE CORRIDOR.**

WHEREAS, Government Code Section 65450 et. seq. permits cities and counties to adopt Specific Plans for the systematic implementation of the General Plan and to provide for a greater level of detail in planning sites or areas of special interest or value, and

WHEREAS, on March 11, 2003, the City Council by Resolution No. 2003-134 adopted amendments to the City of Modesto Urban Area General Plan which contain Community Development policies including the Virginia Avenue Corridor Trail Project area, and

WHEREAS, a Specific Plan has been prepared for the proposed Virginia Avenue Corridor Trail Project, which is a proposed bicycle and pedestrian trail to be located within 4.2 miles of the abandoned Union Pacific Railroad corridor, from Needham Street near downtown Modesto to Bangs Avenue in north Modesto, and

WHEREAS, the City referred the proposed Virginia Avenue Corridor Specific Plan to all affected state, regional and local agencies for review, beginning on October 27, 2003 and ending on November 25, 2003, in conformance with Government Code Section 65352, and

WHEREAS, a duly noticed public hearing was held by the Planning Commission on December 15, 2003, to receive evidence both oral and documentary to consider making a recommendation to the City Council regarding the adoption of the Draft Specific Plan, and

WHEREAS, in accordance with Section 15205 (c) of the CEQA Guidelines, the Planning Commission reviewed and considered the proposed Initial Study / Environmental Assessment EA/PR&N 2003-07 and the proposed Mitigated Negative Declaration / Finding of No Significant Impact (SCH No. 2003102131) in conjunction with the proposed Virginia Avenue Corridor Specific Plan, and

WHEREAS, on November 3, 2003, the Safety and Communities Committee recommended approval of the Virginia Avenue Corridor Specific Plan, and

WHEREAS, by Resolution No. 2003-66, adopted on December 15, 2003, the Planning Commission recommended to the City Council the adoption of the Virginia Avenue Corridor Specific Plan dated October 2003, and

WHEREAS, said matter was set for a public hearing of the City Council to be held at 5:30 p.m. on January 6, 2004, in the City Council Chambers, 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing of the Council was held and evidence both oral and documentary was received and considered,

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto finds and determines as follows:

1. That the Initial Study / Environmental Assessment EA/PR&N 2003-07 and the Mitigated Negative Declaration / Finding of No Significant Impact (SCH#2003102131) are complete and adequate, and that they have been prepared, completed and adopted in accordance with the provisions of CEQA.
2. That the proposed Virginia Avenue Corridor Specific Plan is consistent with the City of Modesto Urban Area General Plan for the following reasons:

- a. The Project is compatible with the surrounding existing and planned land uses.
- b. The goals, policies and strategies set forth in this plan are consistent with and supporting of the General Plan's goals and policies regarding the encouragement of walking and bicycle use, alternatives to auto travel, parks and open space, and air quality.
- c. Modesto Engineering and Transportation Department staff has indicated that the Project can be served by existing treatment facilities, and will not require the construction of any new facilities to meet the needs of the Project.
- d. Modesto Engineering and Transportation Department staff has indicated that there are sufficient water supplies available to serve the Project from existing supplies. No additional or expanded entitlements are needed as a result of the Project.
- e. Flood control measures that will be implemented with this project will ensure that there will be no significant impact to planned storm water drainage systems.

BE IT FURTHER RESOLVED that the Council hereby adopts the Virginia Avenue Corridor Specific Plan dated October 2003 (Exhibit "A"), a copy of which is on file in the Office of the City Clerk.

BE IT FURTHER RESOLVED that this resolution shall become effective thirty (30) days from and after the date it was passed.

BE IT FURTHER RESOLVED that the City Clerk is hereby authorized and directed to certify copies of this Resolution and said Specific Plan to the Board of Supervisors of the County of Stanislaus.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of January, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-024**

**A RESOLUTION APPROVING A SECOND AMENDMENT TO AGREEMENT WITH CALLANDER ASSOCIATES LANDSCAPE ARCHITECTURE, INC. TO PROVIDE ADDITIONAL SERVICES RELATED TO THE PREPARATION OF THE CONSTRUCTION DOCUMENTS FOR THE VIRGINIA AVENUE CORRIDOR SPECIFIC PLAN, INCREASING THE CONTRACTUAL FEE BY \$103,695 FROM \$376,640 TO \$480,335, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE SECOND AMENDMENT TO AGREEMENT.**

WHEREAS, the Virginia Avenue Corridor Trail Project (“Project”) consists of conversion of the abandoned 4.2-mile Union Pacific Railroad corridor to a linear park with Class I bikeway and pedestrian trail, and

WHEREAS, on October 8, 2001, the City Council approved an agreement with Callander Associates Landscape Architecture, Inc. to prepare a Specific Plan for the Project with a professional service fee of \$304,000, and

WHEREAS, on April 22, 2003, the City Council approved an Amendment to Agreement with Callander Associates to increase the contract by \$72,640 to \$376,640 to prepare environmental documents for the Project, and

WHEREAS, since that time, staff has determined that the preparation of the construction documents for Phase I of the Project could best be undertaken by Callander Associates Landscape Architecture, Inc., and therefore proposes a Second Amendment to the Agreement with Callander Associates Landscape Architecture, Inc., and

WHEREAS, by including this work within a revised scope of the Agreement with Callander Associates, this firm will have direct oversight to provide coordination between the Project, the environmental documents and the construction documents, and

WHEREAS, on January 6, 2004, the City Council adopted a Mitigated Negative Declaration / Finding of No Significant Impact for the Virginia Avenue Corridor Specific Plan (SCH 2003102131) in compliance with the National Environmental Protection Act (NEPA) and State of California Environmental Quality Act (CEQA) so as to qualify the Project for federal and state funding sources, and

WHEREAS, on January 6, 2004, the City Council reviewed the Mitigated Negative Declaration / Finding of No Significant Impact for the Virginia Avenue Corridor Specific Plan (SCH 2003102131) and determined that the proposed Second Amendment to Agreement is within the scope of the Project previously studied, and

WHEREAS, staff is recommending a Second Amendment to Agreement with Callander Associates Landscape Architecture, Inc. to provide the additional work as described in **Exhibit "A-2"**, attached hereto and incorporated by reference, increasing the contractual fee by \$103,695, from \$376,640 to \$480,335, and

WHEREAS, the Safety and Communities Committee met on November 3, 2003, and supported staff's recommendation to approve a Second Amendment to Agreement with Callander Associates Landscape Architecture, Inc. to provide the additional work as described in Exhibit "A-2" and to increase the contractual fee by \$103,695 from \$376,640 to \$480,335,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves a Second Amendment to Agreement with Callander Associates Landscape Architecture, Inc. to provide additional services related to the preparation of the environmental documents for the Virginia Avenue Corridor Specific Plan for a total contract cost not to exceed \$480,335.

BE IT FURTHER RESOLVED that the City Manager or his designee is hereby authorized to execute the Second Amendment to Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of January, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

## *Exhibit A-2*

# *Rotary Centennial Junction - Scope of Work*

In an effort to guide and control the schedule, scope and improvement costs of the Rotary Centennial Junction, Callander Associates has developed the following scope. Modifications and refinements can be accommodated at the project start and adjusted periodically throughout the process as may be beneficial to the project. Items shown in *boldface italics* represent the deliverables or work documents to be provided at that task.

The following scope and corresponding fees are based on a construction budget of \$700,000 as the anticipated lowest responsible bid. This budget is established as a condition of this Agreement. It shall be reviewed by the parties and shall include a bidding contingency of ten percent unless another amount is indicated. Callander Associates shall be permitted to determine what materials, equipment, component systems and types of construction are to be included in the Contract Documents, and to make reasonable adjustments in the scope of the project to bring it within the fixed limit. Callander Associates may also include in the Contract Documents alternate bids to adjust the construction cost to the fixed limit.

If this fixed limit of construction cost, including the bidding contingency, is exceeded by the lowest bona fide bid or negotiated proposal, or the statement of probable construction cost, the City shall (1) give written approval of an increase in such fixed limit, (2) authorize rebidding the project within a reasonable time, or (3) cooperate in revising the project scope and quality as required to reduce the probable construction cost. In the case of (3), Callander Associates, without additional charge, shall modify the drawings and specifications as necessary to bring the construction cost within the fixed limit. The providing of such service shall be the limit of Callander Associates' responsibility in this regard and having done so, Callander Associates shall be entitled to compensation in accordance with this Agreement.

The elements to be included in the project are as follows and within the project limits as indicated in Project Limits Diagram attached.

- Class One bike path from Orangeburg to Roseburg
- Entry nodes at Orangeburg, Roseburg, and at Roseburg Square Shopping Center
- Parking stalls along Virginia Lane
- Pedestrian lighting along path alignment
- Trail amenities including thematic fencing, split rail fencing, benches, trash receptacles, informational kiosk, and trail signage
- Landscape and irrigation improvements

## 1.0 CONCEPTUAL DESIGN (completed)

## 2.0 DESIGN DEVELOPMENT

- 2.01 **Initial Meeting:** Review scope, schedule and cost for both construction and design services with City staff. Review City process. Identify available and required City documents, define project goals, update design program, and submit *written summary* of same.
- 2.02 **Document Review:** Obtain and review other information that may be pertinent from Parks, Recreation, and Neighborhoods and Planning Departments. Review existing design guidelines, documents, or other existing base information provided by City. Evaluate adequacy and/or need for additional information. Prepare *summary memo*.
- 2.03 **Schedule:** Prepare a detailed time *schedule* in bar chart format for the entire project through construction.
- 2.04 **Topographic Survey:** Review existing topographic survey provided during the conceptual design phase and prepared by Hawkins & Associates Engineering. Evaluate the need for additional supplemental survey information and provide *summary memo*. If existing survey is inadequate, additional topographic information will be provided within project limits, up to the amount indicated for survey in the compensation summary. Information to include contours at one foot intervals, existing tree locations and sizes, surface and subsurface utility information based upon available record information, property lines, and other existing features (excludes potholing). Submit electronic *topographic survey* in Autocad 2002 for City records.
- 2.05 **Utility Evaluation:** Verify existing water, electrical, and storm drain service connections for domestic and irrigation water service, storm drainage, and pedestrian and sports field lighting. Indicate same on overlay of topographic survey and designate as *utility connections diagram*.
- 2.06 **Site Reconnaissance:** Conduct site reconnaissance with topographic survey in hand. Evaluate access, grades, utilities, trees, fences, buffers, etc. Photograph site for in-house study and reference, as well as for future presentations. Prepare photo *log* for studio use.
- 2.07 **Base Maps:** Using prepared topographic survey, prepare *twenty scale base maps*, in Autocad 2002 format, within project limits.

- 2.08 **Horticultural Soils Analysis:** Obtain up to four horticultural soils samples to verify agricultural suitability of existing; submit *letter report*.
- 2.09 **Geotechnical Report:** Take up to three borings of existing corridor to determine suitability of subgrade for drainage, and structural suitability for foundations and pavements Provide *summary report* detailing above including pavement section recommendations for parking lots, trails, and pedestrian walkways.
- 2.10 **Design Development Submittal - 35% Submittal:** Based on the comments received from the above meetings and the analysis of other items, revise plan as required. Proceed to develop *construction documents* to a 35% level of completion. All drawings shall prepared on AutoCAD Version 2002. Package to include:
- Title Sheet
  - Preliminary Grading Plan (including storm drain points of connection) (1:20)
  - Preliminary Site Construction Plan (1:20)
  - Preliminary Irrigation Plan (including water point of connection) (1:20)
  - Preliminary Planting Plan (1:20)
  - Preliminary Lighting Plan (including electrical point of connection) (1:20)
  - Design development level construction details
- 2.11 **Cost Estimate:** Prepare a preliminary list of quantities and provide a preliminary *construction cost estimate*.
- 2.12 **Draft Specifications:** Prepare draft contract specifications book and bid form, using City of Modesto standard boilerplate and Standard Specifications, as appropriate.
- 2.13 **Design Development Book:** Confirm final selections of pre-manufactured items and design details for major features with City staff. Prepare packet of information to contain catalog cuts and information on site amenities, site furniture, irrigation equipment, electrical equipment, plant materials, and related items. Submit five copies of the *Design Development Book* to City for review and approval.
- 2.14 **Staff Meeting:** Review the above information in a single joint work session with Parks, Recreation, and Neighborhoods and Planning Department staff to refine, change and modify where prudent. Prepare *written summary* of meeting.

### 3.0 CONSTRUCTION DOCUMENTS

- 3.01 **Construction Documents – 95% Submittal:** Based on direction from City staff, comments received from the above meetings and the analysis of other items, proceed to develop *construction documents* to a draft 95% level of completion. Plans shall adhere to City of Modesto Standards and Specifications. Package to include;
- Title Sheet
  - Key Map/General Notes
  - Demolition Plan
  - Grading and Drainage Plan
  - Signing and Pavement Marking Plan
  - Site Construction Plan
  - Irrigation Plans
  - Planting Plans
  - Construction Details
  - Irrigation/Planting Details
  - Electrical Plans
  - Preliminary Interpretive Panel Graphics (2 total)
  - Technical Specifications
- 3.02 **Update Cost Estimate:** Prepare an updated list of quantities and provide an updated *construction cost estimate*.
- 3.03 **Staff Meeting:** Review the above information in a single joint work session with Parks, Recreation, and Neighborhoods and Planning Department staff to refine, change and modify where prudent. Prepare *written summary* of meeting.
- 3.04 **Permit or other Agency Reviews:** No services have been provided.
- 3.05 **Bid Documents:** After review of the 95% submittal by the City, proceed to modify the documents for submission as a *final bidding package*. Provide five (5) sets of full size plans, plus camera-ready originals of plans and specifications for bidding.
- 3.06 **Storm Water Plan:** Prepare required storm water pollution prevention plan (SWPPP) in order to obtain the necessary General Permit, for the project, from the California State Water Resources Control Board (SWRCB). The plan shall include required information such as existing conditions description and plan, scope of construction, grading plan, inventory of contractor's activities, special site conditions, best management practices (BMPs) for contractor activities, BMPs for erosion and sediment control, post construction BMPs, and

monitoring/maintenance plan. Submit 5 copies of SWPPP to City for application and submission to SWRCB.

- 3.07 **Final Landscape Architect's Estimate:** Prepare an updated *list of quantities* and provide an updated *landscape architect's construction cost estimate*.
- 3.08 **Project Archive:** Submit one *archive CD-ROM* of all electronic data including construction documents, specifications, cost estimate, survey, and other base information provided by the City to be scanned and included in electronic format.

#### AND CONSTRUCTION ADMINISTRATION

##### 4.01 Pre-Construction Phase

- a. Attend pre-bid meeting and assist City staff as directed.
- b. Review Engineer's takeoffs of quantities.
- c. Prepare project documentation system.
- d. Attend bid opening.
- e. Prepare agency for pre-construction conference.
- f. Conduct pre-construction conference and prepare meeting minutes.
- g. Review coordination and communication procedures.
- h. Review procedures for receiving, logging, and transmitting submittals, RFI's and RFC's.
- i. Document pre-construction conditions using video and digital photographs, as directed by City staff.

##### 4.02 Construction Phase

- a. Verify Contractor has obtained all necessary approvals/permits prior to commencing work.
- b. Conduct weekly progress meetings with all pertinent parties in attendance.
- c. Prepare agendas and minutes to meetings.
- d. Process clarifications of the contract documents in response to requests by the Contractor.
- e. Review those submittals that are appropriate. Submittals requiring review by the Engineer of Record shall be logged and transmitted for formal review. Monitor Contractor's work for adherence to contract plans and specifications.
- f. Provide inspection and documentation of project related activities.
- g. Prepare inspection reports.
- h. Provide digital pictorial logbook of construction activities, if required.
- i. Review Contractor's construction schedule, request updates as appropriate, and track delays or accelerations based on actual Contractor operations.
- j. Develop "punch list" items and follow-up with corrective measures.

- k. Document information related to manpower, equipment and time for extra or force account work.
- l. Assist in preparing Change Orders for City execution.
- m. Receive Contractor certified payroll and monitor compliance, if required.
- n. Review progress payments.
- o. Receive and evaluate all notices of potential claims and make recommendations to Department of Parks, Recreation, and Neighborhoods.

#### 4.03 Post-Construction

- a. Coordinate and schedule final inspection with City staff.
- b. Verify completion of punch-list items.
- c. Process and recommend final payment request.
- d. Review as-builts with Contractor and submit to City.
- e. Process notice of substantial/final completion.
- f. Process warranty/guarantee letter and/or bond if required.
- g. Transmit set of project files to the Department of Parks, Recreation, and Neighborhoods.

Promptly after the construction work associated with a work order is completed, Consultant shall notify Department of Parks, Recreation, and Neighborhoods in writing whether such work should be accepted by City as complete and final in accordance with the terms and conditions of City's contract for that construction work. Consultant's determination shall be given Department of Parks, Recreation, and Neighborhoods after diligent investigation including satisfaction of its other obligations under this contract. If Consultant recommends that the work should not be accepted by the City, Consultant shall document the facts and analysis supporting its determination in its written notification to the Department of Parks, Recreation, and Neighborhoods.

-END-

## Rotary Centennial Junction - Fee Estimate

### Professional Services

The following lump sum fees for tasks 2 and 3, and hourly fees for task 4, are proposed and will remain valid for a period of sixty days from the date of this proposal. We have estimated our time and expenses based on the overall project budget, with drawings and services being prepared in a single package at one time.

CITY OF MODESTO  
PLANNING, RECREATION, AND MAINTENANCE SERVICES DEPARTMENT

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-025**

**A RESOLUTION AMENDING THE FISCAL YEAR 2003-2004 CAPITAL IMPROVEMENT PLAN BUDGET TO 1) ESTIMATE \$73,000 IN REVENUE FROM THE STATE CLEAN WATER, CLEAN AIR, SAFE NEIGHBORHOOD PARKS AND COASTAL PROTECTION BOND ACT OF 2002 (PROPOSITION 40) AND APPROPRIATE THIS FUNDING TO 0520-310-M139-6010, VIRGINIA AVENUE CORRIDOR TRAIL PROJECT AND 2) REDUCE THE BUDGET OF 2300-310-A087, VIRGINIA CORRIDOR PHASE I CONSTRUCTION, BY \$43,000 AND RE-APPROPRIATE THIS FUNDING TO 0520-310-M139-6010 TO FULLY FUND PREPARATION OF CONSTRUCTION DOCUMENTS.**

WHEREAS, in March, 2002, the State Clean Water, Clean Air, Safe Neighborhood Parks and Coastal Protection Bond Act of 2002 (Proposition 40) was enacted, and

WHEREAS, the Proposition 40 Per Capita grant program is intended to maintain a high quality of life for California's growing population by providing a continuing investment in parks and recreation facilities, specifically through the acquisition and development of neighborhood, community and regional parks and recreation lands and facilities in urban and rural areas, and

WHEREAS, the City of Modesto is eligible for \$873,000 in Per Capita funding, and

WHEREAS, on October 7, 2003, by Resolution 2003-531, the City Council authorized staff to apply for Proposition 40 Per Capita grant funding, specifically to request \$500,000 for playground equipment replacement and \$373,000 for development of the Virginia Avenue Corridor, and

WHEREAS, \$300,000 of this funding was allocated to project 2300-310-A087, Virginia Avenue Corridor Construction, as part of the adoption of the Fiscal Year 2003-2004 Capital Improvement Budget, and

WHEREAS, an additional \$73,000 will be available and needs to be appropriated,  
and

WHEREAS, \$116,000 of said funding will be used for the preparation of  
construction documents, with the balance to be used for future phases of the Project, and

WHEREAS, the Safety and Communities Committee met on November 3, 2003,  
and supported the recommendation to use Proposition 40 Per Capita funding for the  
Virginia Avenue Corridor Trail Project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto  
that the Council hereby approves amending the Fiscal Year 2003-2004 Capital  
Improvement budget to 1) estimate an additional \$73,000 in revenue from the State Clean  
Water, Clean Air, Safe Neighborhood Parks and Coastal Protection Bond Act of 2002  
(Proposition 40) and appropriate this funding to 0520-310-M139-6010, Virginia Avenue  
Corridor Trail Project, and 2) reduce the budget for 2300-310-A087, Virginia Corridor  
Construction by \$43,000 and re-appropriate this funding to 0520-310-M139-6010.

BE IT FURTHER RESOLVED that the Finance Director, or her designee, is  
hereby authorized to take the necessary steps to implement the provisions of this  
resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of January, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**A RESOLUTION CONFIRMING THE APPOINTMENTS TO THE FOUR  
STANDING COMMITTEES OF THE CITY COUNCIL BY MAYOR RIDENOUR.**

WHEREAS, Section 2-1.18 of the Modesto Municipal Code requires Council confirmation of the Mayor's appointments to standing committees, and

WHEREAS, Mayor Ridenour has made appointments to the four standing committees of the Modesto City Council as follows:

Safety & Communities Committee

Will O'Bryant, Chair  
Brad Hawn, Vice Chair  
Bob Dunbar

Economic Development Committee

Janice Keating, Chair  
Denny Jackman, Vice Chair  
Garrad March

Finance Committee

Brad Hawn, Chair  
Denny Jackman, Vice Chair  
Bob Dunbar

Audit Committee

Jim Ridenour, Chair  
Janice Keating, Vice Chair  
Will O'Bryant

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that Mayor Ridenour's appointments are hereby confirmed.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13<sup>th</sup> day of January, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004 - 036**

**A RESOLUTION APPROVING BOND COUNSEL AGREEMENT FOR LEGAL SERVICES BETWEEN THE LAW FIRM OF SIDLEY, AUSTIN, BROWN & WOOD AND THE CITY OF MODESTO AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT**

WHEREAS, from time to time developers and property owners file with the City petitions requesting the formation of a community facilities district and the issuance of bonds to provide financing for public infrastructure to serve new development, and

WHEREAS, City has determined that it is necessary and appropriate to hire bond and disclosure counsel to assist and advise City with respect to formation of City's bonded community facilities districts and the issuance of said bonds, on an as needed basis, and

WHEREAS, the City desires to retain the law firm of Sidley, Austin, Brown & Wood to provide said legal advice and counsel, and has determined that said law firm is experienced and qualified to provide these services.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Bond Counsel Agreement between the law firm of Sidley, Austin, Brown & Wood and the City of Modesto be, and is hereby, approved.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Agreement.

RESOLUTION NO. 2004-038**

**A RESOLUTION APPROVING THE FINAL MAP OF THE BRIDGEWOOD TOWNHOUSE SUBDIVISION AND AUTHORIZING THE CITY MANAGER TO EXECUTE A SUBDIVISION AGREEMENT WITH GRANITE BAY HOLDINGS, LLC, A LIMITED LIABILITY COMPANY**

WHEREAS, GRANITE BAY HOLDINGS, LLC, a Limited Liability Company, is possessed of a tract of land situated in the City of Modesto, County of Stanislaus, consisting of 2.19 acres, known as the BRIDGEWOOD TOWNHOUSE ("SUBDIVISION"), and

WHEREAS, a tentative map of said tract was approved by the Planning Commission of the City of Modesto on the 27<sup>th</sup> day of January, 2003, and

WHEREAS, the Secretary of the Planning Commission of the City of Modesto has certified that the final map of said tract substantially conforms to the approved tentative map, and

WHEREAS, the City Engineer of the City of Modesto has certified that the final map of said SUBDIVISION meets all of the provisions of the California Subdivision Map Act and the provisions of the Modesto Municipal Code relating to subdivisions, and that the map is technically correct,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that said final map be approved; that the dedications for streets, alleys and easements as shown thereon within the boundaries of said tract be accepted on behalf of the public for public use; and that the City Clerk be authorized to certify the map of said tract on behalf of the City of Modesto after the fees and deposits required by the Modesto Municipal Code in amounts determined by the City Engineer have been paid, and after subdivider

has furnished securities, as set forth in Section 4-4.605 of the Modesto Municipal Code, which shall secure the obligations set forth in Section 66499.3 of the Government Code of the State of California. Said securities shall be in forms acceptable to the City Attorney and in the amounts required by the City Engineer.

BE IT FURTHER RESOLVED that the City Manager and the City Clerk be authorized to execute and attest, respectively, an agreement with subdivider as required by Section 4-4.604(c) of the Modesto Municipal Code.

RESOLUTION NO. 2004-039**

**A RESOLUTION RESCINDING RESOLUTION NO. 2003-590 APPROVING A  
COOPERATIVE AGREEMENT WITH CALTRANS FOR THE  
CONSTRUCTION OF A NEW TRAFFIC SIGNAL AT YOSEMITE  
BOULEVARD (STATE ROUTE-132) AND MORTON BOULEVARD**

WHEREAS, on November 5, 2003, City Council approved a Cooperative Agreement with Caltrans District 10 for the construction of a traffic signal at the intersection of Yosemite Boulevard (State Route 132) and Morton Boulevard, and

WHEREAS, City staff received opposition to this Cooperative Agreement from a local business, and

WHEREAS, on November 26, 2003, this issue was brought before the Economic Development Committee for information and discussion, and

WHEREAS, the Economic Development Committee approved and recommended that this item be presented to the full Council for action, and

WHEREAS, on December 30, 2003, City Staff met with Caltrans District 10 whereby it was decided that Caltrans could change the proposed project from signalization control to a Morton Boulevard right-in, right-out configuration with Yosemite Boulevard,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby rescinds Resolution No. 2003-590 approving a Cooperative Agreement with Caltrans for the construction of a new traffic signal at Yosemite Boulevard (State Route-132) and Morton Boulevard.

RESOLUTION NO. 2004-040**

**A RESOLUTION RESCINDING RESOLUTION NO. 2003-591 AMENDING THE FISCAL YEAR 2003 CAPITAL IMPROVEMENT PROGRAM AND OPERATING BUDGETS TO FUND THE INSTALLATION OF A TRAFFIC SIGNAL AT THE INTERSECTION OF YOSEMITE BOULEVARD (STATE ROUTE 132) AND MORTON**

WHEREAS, on November 5, 2003, by Resolution No. 2003-590, the Council approved a Cooperative Agreement with Caltrans for the construction of a new traffic signal at Yosemite Boulevard (State Route 132) and Morton Boulevard, and

WHEREAS, the City of Modesto has budgeted \$85,000 in the Fiscal Year 2003-2004 Capital Improvement Program (CIP) in MY-2300-160-Q206 to fund a share of the construction of new traffic signal at the intersection of Yosemite Boulevard (State Route 132) and Morton Boulevard, and

WHEREAS, the City of Modesto has also budgeted \$13,210 in the Fiscal Year 2003-2004 CIP in MY-2300-160-M144 to fund a share of the construction of other new traffic signals, and

WHEREAS, City Council adopted Resolution No. 2003-591 to amend the FY 03 Capital Improvement Program and Operating Budgets to fund a signal installation at Yosemite Boulevard (State Route 132) and Morton Boulevard, and

WHEREAS, on January 13, 2003, the City Council by Resolution No. 2004-? rescinded the previously approved Cooperative Agreement for Caltrans to construct this traffic signal,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby rescinds Resolution 2003-591 amending the FY 02-03 Operations Budget to establish a new operational account in the Gas Tax Fund: 04-0700-160-1627-6040,

“Gas New TS Yosemite & Morton w/Caltrans,” for \$98,210; the Fiscal Year 2003-2004 CIP Budget reducing the expenditure appropriation of MY-2300-160-Q206-6040 and the Inter-fund transfer MY-2300-700-Q206-9070 by \$85,000 each to partially fund the new Operations account; and the Fiscal Year 2003-2004 CIP Budget reducing the expenditure appropriation of MY-2300-160-M144-6040 and the Inter-fund transfer MY-2300-700-M144-9070 by \$13,210 each to partially fund the new operations account.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2003-043**

**A RESOLUTION DENYING THE APPEAL OF BEN ALLUSTIARTE, CENTURY 21 M & M AND ASSOCIATES TO A BOARD OF ZONING ADJUSTMENT DECISION DENYING THE APPEAL OF BEN ALLUSTIARTE TO STAFF'S DECISION PERTAINING TO THE REUSE OF AN EXISTING FREE-STANDING, FREEWAY-ORIENTED SIGN AT 2024 W. ORANGEBURG AVENUE.**

WHEREAS, Century 21 M & M and Associates are preparing to occupy, for its business office location, a building first built for a Pizza Inn Restaurant, later Tree Frog Tavern, Blue Moon Café, and more recently Jakes Sports Bar located at 2024 W. Orangeburg Avenue, backing up to Freeway 99, and

WHEREAS, Century 21 M&M and Associates wishes to reuse the existing 144-square foot free-standing, freeway-oriented sign located at 2024 W. Orangeburg Avenue, and

WHEREAS, Ben Allustiarte a representative of Century 21 M & M Associates approached City staff with a request to reface the existing sign for the new business, and

WHEREAS, per Modesto Municipal Code Section 10-2.2114(g), the City Sign Regulations clearly do not allow use of this sign for this type of business City staff would not issue such a permit, and

WHEREAS, on October 16, 2003, an appeal was filed by Ben Allustiarte to the City Staff's refusal to allow the sign reuse, and

WHEREAS, a public hearing was held by the Board of Zoning Adjustment on November 20, 2003, in the Tenth Street Place Chambers, located at 1010 Tenth Street at which meeting evidence both oral and documentary was received and considered, and

WHEREAS, by Resolution No. 2003-21, the Board of Zoning Adjustment denied the appeal of Ben Allustiarte of Century 21 M & M Associates pertaining to the reuse of the

existing 144-square foot free-standing, freeway-oriented sign located at 2024 W. Orangeburg Avenue, on November 20, 2003, and

WHEREAS, on November 20, 2003, an appeal to the decision of the Board of Zoning Adjustment was filed with the office of the City Clerk by Ben Allustiarte in regard to the reuse of the subject sign, and

WHEREAS, said appeal was set for a hearing before the City Council to be held on December 11, 2003 in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, CA, at which meeting evidence both oral and documentary was received and considered, and

WHEREAS, after said hearing, the council found and determined that said appeal to the decision of the Board of Zoning Adjustment should be denied and the decision of the Board of Zoning Adjustment should be affirmed because use of a free-standing, freeway-oriented sign is not allowed in the C-3, Highway Commercial Zone, except for gas, good, and lodging uses and for shopping centers containing a minimum of 250,000 square feet of retail space and Century 21 M & M Associates is a business office use which does not qualify for a free-standing, freeway-oriented sign,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appeal of Ben Allustiarte, Century 21 M & M Associates, to the Board of Zoning Adjustment's decision denying the appeal of Ben Allustiarte to staff's decision pertaining to the reuse of an existing 144-square foot free-standing, freeway-oriented sign located at 2024 W. Orangeburg Avenue is hereby denied, and the decision of the Board of Zoning Adjustment is hereby affirmed for the reason set forth above.

BE IT FURTHER RESOLVED that the Council hereby directs that said sign located at 2024 W. Orangeburg Avenue be removed.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13<sup>th</sup> day of January, 2004, by Councilmember Dunbar, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-044**

**A RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 1999082041): AMENDING SECTION 22-3-9 OF THE ZONING MAP TO REZONE FROM PLANNED DEVELOPMENT ZONE, P-D(454), TO PLANNED DEVELOPMENT ZONE, P-D(564) PROPERTY LOCATED ON THE SOUTHWEST CORNER OF BRIGGSMORE AVENUE AND OAKDALE ROAD (SOELLING)**

WHEREAS, on March 4, 2003, the City Council of the City of Modesto certified the updated Final Master Environmental Impact Report ("Master EIR") (SCH No. 1999082041) for the Modesto Urban Area General Plan, and

WHEREAS, Warner Soelling has proposed that the zoning designation for property located on the southwest corner of Briggsmore Avenue and Oakdale Road be amended to rezone from Planned Development Zone, P-D(454), to Planned Development Zone, P-D(564), in the City of Modesto ("the project") to allow 24,925 square feet of office, a 7,350-square-foot restaurant and a 8,625-square-foot financial/retail building, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a Master EIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the master environmental impact report and whether the subsequent project was described in the master environmental impact report as being within the scope of the project, and

WHEREAS, the City's Community & Economic Development Department by Environmental Assessment Initial Study EA/C&ED 2003-91 ("Initial Study") reviewed

the proposed amendment to the Zoning Map and rezone to P-D(564) project to determine whether the project is within the scope of the project covered by the Modesto Urban Area General Plan Master EIR (“Master EIR”), and made the determination that the proposed project will have no additional significant effect on the environment that was not identified in the Master EIR, and further, that no new or additional mitigation measures or alternatives are required, and that, therefore, the proposed project is within the scope of the project covered by the Master EIR, and

WHEREAS, in accordance with CEQA guidelines beginning on December 19, 2003, the City caused to be published a 20-day notice of the City’s intent to make a finding that the proposed project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on January 13, 2004, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed amendment to the Zoning Map and rezone to P-D(564) project, a copy of which is attached hereto as **Exhibit “A”**, and incorporated herein by reference, and based on the substantial evidence included in said Initial Study makes the following findings:

1. That the proposed project is contemplated and described in the Master EIR (SCH No. 1999082041) as being within the scope of the Master EIR.

2. That the project will have no new significant effects on the environment not identified or examined in the Master EIR, and no new or additional mitigation measures are required.
3. That, as per Section 21157.1 of the Public Resources Code, no new environmental document or findings are required by the California Environmental Quality Act (CEQA).
4. That there are no specific features which are unique to the proposed project that require project specific mitigation measures. Accordingly, the certified mitigation measures identified in the Master EIR will be sufficient for this project.
5. That all feasible mitigation measures set forth in the Master EIR which are appropriate to the project shall be incorporated in the project.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13<sup>th</sup> day of January, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

EXHIBIT A

Initial Study

EA/C&ED 2003-91

**City of Modesto**

**Finding of Conformance to  
General Plan Master EIR:**

**Initial Study C&ED No. (2003-91)**

**For the proposed:**

**P-D (Eastgate Center)**

**Prepared by:  
City of Modesto  
Community & Economic Development Department  
Planning Division**

**12/10/03**

**City of Modesto  
Master EIR Initial Study Checklist**

**I. PURPOSE**

CEQA allows for the limited environmental review of subsequent projects under the City's Master EIR. This Initial Study Checklist is used in determining whether P-D (Eastgate Center) is "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 1999082041) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformity.

A subsequent project is "within the scope" of the Master EIR when:

1. it will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and
2. no new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect in the Master EIR. (Public Resources Code Section 21158(d))

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (State CEQA Guidelines Section 15384)

**II. PROJECT DESCRIPTION**

- A. Title: P-D (Eastgate Center)
- B. Address or Location: Southwest corner of Briggsmore Avenue and Oakdale Road.
- C. Applicant: Warner Soelling, 1500 Santa Paula Drive #11, Modesto, Ca. 95355
- D. City Contact Person: Josh Bridegroom

Project Manager: Josh Bridegroom  
Department: Community and Economic Development Department  
Phone Number: (209) 571-5540  
E-mail address: jbridegroom@modestogov.com

- E. Current General Plan Designation(s): Mixed Use
- F. Current Zoning Classification(s): P-D(454)
- G. Surrounding Land Uses: North: Briggsmore Avenue  
South: Residential and Office  
East: Oakdale Road  
West: Residential

- H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR (Attach additional maps/support materials as needed for complete record):

This is zoning and miscellaneous land use project as defined by Section II.C of the MEIR. This is an application to rezone P-D(454) to Planned Development to allow for the development of a 24,925 square foot office complex with a 7,350 square foot restaurant on the corner of Briggsmore Avenue and Oakdale Road and a 8,625 square foot financial/retail building on the southeast corner of the property. The development is proposed to be constructed in four phases. A phasing schedule has yet to be submitted. The project is proposed to gain ingress and egress from and to Oakdale Road at the southwestern corner of the property and ingress from Briggsmore Avenue via a slip ramp at the north end of the property. The applicant is proposing 215 parking stalls in conjunction with this development.

- I. Other Public Agencies Whose Approval is Required:

None

**III. FINDINGS/DETERMINATION (SELECT ONE ON THE BASIS OF THE ANALYSIS IN SECTION IV)**

1. X **Within the Scope** - The project is within the scope of the Master EIR and no new environmental document or Public Resources Code Section 21081 findings are required. The following items are found to be true:

- A. The type of project is described in Chapter II of the Master EIR.
- B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the project or otherwise made conditions of approval of the project.
- C. An Initial Study was prepared by the City of Modesto that analyzed whether the proposed subsequent project may cause any significant effect on the environment that was not examined in the MEIR and it has been determined that the project was described in the MEIR as being within the scope of the MEIR.
- D. Based on the Initial Study, the City of Modesto finds and determines:
  - a) The proposed subsequent project will have no additional significant effect as defined in CEQA Section 21158 that was not identified in the MEIR.
  - b) No new or additional mitigation measures or alternatives are required.
- E. The criteria for currency of the Master EIR were reviewed (section 5 below) and it was determined that the Master EIR is current for all areas of the Initial Study.

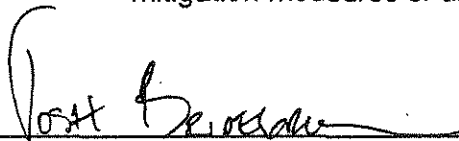

2.      **Mitigated Negative Declaration Required** - On the basis of the above determinations, the project is not within the scope of the Master EIR. A mitigated negative declaration will be prepared for the project. The following items are found to be true:

- A. The type of project is described in Chapter II of the Master EIR.
- B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the project or otherwise made conditions of approval of the project.
- C. The project will have one or more potential new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures are being required of the project that will reduce the effects to a less-than-significant level.

3.      **Focused EIR Required**- On the basis of the above determinations, the project is not within the scope of the Master EIR. A Focused EIR will be prepared for the project. The following items are found to be true:

- A. The type of project is described in Chapter II of the Master EIR.
- B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the project or otherwise made conditions of approval of the project.

C. The project will have one or more new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures or alternatives are required as a result.

Date

**4. Within the Scope Analysis of this Document:**

The Master EIR permits projects to be found within the scope of the MEIR if certain criteria are met. Basically, if the following statements are found to be true for all 20 sections of this Initial Study, then the project was covered by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

- |   | YES | NO                       |
|---|-----|--------------------------|
| (1) The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.  | X   | <input type="checkbox"/> |
| (2) City policies which reduce, avoid or mitigate environmental effects, will continue to be in effect and therefore would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures attached to the Initial Study template. | X   | <input type="checkbox"/> |
| (3) Federal, State, Regional and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).  | X   | <input type="checkbox"/> |
| (4) No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources.  | X   | <input type="checkbox"/> |
| (5) The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.  | X   | <input type="checkbox"/> |
| (6) Development within the project will comply with all mitigation measures identified in the General Plan Master EIR.  | X   | <input type="checkbox"/> |

**5. Currency of the Master EIR Document**

The MEIR should be reviewed on a regular basis to determine its currency, and whether additional analysis/mitigation should be incorporated into the MEIR via a Supplemental or Subsequent EIR (CEQA Section 21157.6). Staff has reviewed sections 1 through 20 of this document in light of the criteria listed below to determine whether the MEIR is current. The analysis contained within the Master EIR is current as long as the following circumstances have not changed. Any no response must be discussed.

- |   | YES | NO                       |
|---|-----|--------------------------|
| (1) Certification of the General Plan Master EIR occurred less than five years prior to the filing of the application for this subsequent project.  | X   | <input type="checkbox"/> |
| (2) This project was described in the Master EIR and its approval will not affect the adequacy of the Master EIR for any subsequent project because the City can make the following findings: . | X   | <input type="checkbox"/> |
| (3) No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified.  | X   | <input type="checkbox"/> |

- (4) No new information, which was not known and could not have been known at the time the Master EIR was certified as complete, has become available. X
- (5) Policies remain in place that require site-specific mitigation, and avoidance or other mitigation of impacts as a prerequisite to future development. X

**IV. ENVIRONMENTAL ANALYSIS**

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any project-specific significant effect on the environment that was not examined in the Final Master EIR (MEIR) for the General Plan and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the project is "within the scope" of the Master EIR.

Pursuant to Public Resources Code Section 21157.1, no new environmental document or findings are necessary for projects that are determined to be within the scope of the MEIR. Adoption of a notice of conformity after completion of the Initial Study fulfills the City's obligation in that situation.

All environmental effects cited reflect year 2025 buildout of the Urban Area General Plan as identified in the MEIR.

The Master EIR for the General Plan organizes its analysis of environmental impacts into eighteen subject areas. The following analysis is based on the impact analyses contained in Chapter V of the Master EIR. For ease of cross-reference, the sections are numbered in the same order as the analyses in Chapter V.

In addition to the 18 Master EIR subject areas, the Initial Study checklist addresses the issues of land use/planning and aesthetics. The reason for including these additional issues is to ensure that consideration is being given to the full range of subjects of importance contained in Appendix G of the CEQA Guidelines. The format for the land use/planning and aesthetics sections differs from that of the other 18 subject areas since these two subjects were not addressed as distinct subjects in the Master EIR.

**1. TRAFFIC AND CIRCULATION**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant and unavoidable traffic and circulation impacts:

Effect: Increased traffic will result in certain roadway segments operating at LOS D or worse.

Effect: The Substantial increase in traffic relative to the existing load and capacity of the street system will cause, violation, either individually or cumulatively, of an LOS standard established by the County CMP for designated roads and highways.

Effect: Creation of need for Capacity-enhancing modifications to existing facilities.

Effect: Increase in energy consumption associated with the operation of highway projects, rail improvements, and aviation facilities.

Effect: Severe contrast with existing neighborhood or area character caused by highway and transit projects.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Traffic and Circulation mitigation measures that are pertinent to this project are found on MEIR pages V-1-15 through V-1-21. All feasible measures appropriate to the project – including any new measures - will be incorporated into or made conditions of approval of this project and will be listed in Section IV, Mitigation Measures Applied to Project.

**c. Project-Specific Effects**

Section V-1.B of the MEIR provides analysis of Traffic and Circulation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

- |  | YES | NO |
|--|-----|----|
| (1) The project would contribute one hundred (100) or more peak hour trips to or from the site during the adjacent roadway's peak hour or the development's peak hour, to adjoining roads and generates more trips than assumed for their general plan land use category and zoning in the Master EIR. |     | X  |

Where a project exceeds an additional one hundred (100) or more peak hour trips contribution, a site access study may be conducted to determine to what extent the project would exceed the year 2025 level of service (LOS) expected for the adjoining roadways under the Master EIR. The site access study will recommend new, project-specific mitigation measures. Where the project also exceeds the Master EIR's traffic generation assumption, as determined by Engineering & Transportation staff, a comprehensive traffic study will be required that will include off-site traffic impact analysis.

- |  | YES                      | NO |
|--|--------------------------|----|
| (2) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g. farm equipment). | <input type="checkbox"/> | X  |
| (3) Result in inadequate emergency access.   | <input type="checkbox"/> | X  |
| (4) Result in inadequate parking capacity.   | <input type="checkbox"/> | X  |

Discussion:

- (1) Engineering and Transportation Staff reviewed the proposed project and have the following comments:
  - A. The proposed project will not generate traffic impacts to the adjacent roadways in excess of what was assumed under the MEIR. No traffic study is required.
  - B. Engineering and Transportation staff have indicated that a site access study is not required for this project.
- (2) The project proposes access from Briggsmore Avenue via a slip ramp. However, the slip ramp meets City Standards as defined by the Standard Specifications.
- (3) Fire and Police Staff have reviewed this proposal and have not indicated that there is an emergency access problem. The project meets the City's Standards with regard to number of access points and maneuverability of emergency vehicles:
- (4) The project meets the City Standards for parking to building-area ratio.

## 2. AIR QUALITY

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to air quality:

Effect: Projected traffic levels will result in increased ambient carbon monoxide (CO) levels in the project area. This is a significant and unavoidable impact.

Effect: Projected traffic levels will result in increased ROG and NOX levels in the project area. This is a significant and unavoidable impact.

These are also cumulative impacts on air quality.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

Air Quality mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-2-11 through V-2-18 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

Mitigation Measures appropriate to this project include: AQ-17

**c. Project-Specific Effects**

Section V-2.B of the MEIR provides analysis of Air Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

		YES	NO
(1)	The project exceeds the emissions thresholds established for CO and NOx by the San Joaquin Valley Unified Air Pollution Control District's (SJVUAPCD) adopted CEQA Guidelines.		X
(2)	The project does not incorporate the best management practices for PM10 reduction established by the SJVUAPCD.	<input type="checkbox"/>	X
(3)	The project does not comply with the air quality policies of the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(4)	The project would expose sensitive receptors to substantial pollutant concentrations.	<input type="checkbox"/>	X
(5)	The project would create objectionable odors affecting a substantial number of people.	<input type="checkbox"/>	X

Discussion:

- (1) The project is within the scope of the Master EIR for traffic related impacts. Therefore, it should be within the scope of the Master EIR for CO and NOx emissions in that these pollutants are traffic induced.
- (2) This project does incorporate the best management practices for PM10 reduction established by the SJVUAPD (see mitigations measures above).
- (3) Applicable General Plan Policies will be applied to the project. Therefore, project-specific effects will be less than significant for this impact (see mitigations measures above).
- (4) The project is not a significant contributor to pollution levels in that it is primarily an office complex with one restaurant. Thus, the main source of pollution that would come with the development is traffic related. Since the traffic impacts are within the scope of the MEIR, so are the traffic-related pollution concentration impacts. PM10 emissions created through the construction phase will be mitigated as called for by the MEIR by the measures listed above.
- (5) The project, being primarily office related in nature, should not produce objectionable odors.

**3. NOISE**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant and unavoidable environmental impacts relative to noise:

Effect: Traffic noise levels for future conditions in the plan area have the potential to result in exceedances of the City's Noise Significance Standards (see Table 3-3 MEIR).

Effect: Noise level projections based on the traffic levels anticipated in the General Plan indicate that noise will exceed the City's General Plan and noise ordinance standards.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-10 through V-3-15 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project, and any new measures are listed in Section IV, Mitigation Applied to Project:

Discussion:

Mitigation Measures appropriate to this project include: N-4, N-5 N-6 and N-10.

**c. Project-Specific Effects**

Section V-3.B of the MEIR provides analysis of noise impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-than significant unless:

		YES	NO
(1)	The project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance.	<input type="checkbox"/>	X
(2)	The project will exceed the noise policies of or otherwise be inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(3)	The project will result in a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?	<input type="checkbox"/>	X
(4)	The project will result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project.,m./	<input type="checkbox"/>	X

Discussion:

- (1) The City's noise policy is incorporated into the conditions of approval as a mitigation measure.
- (2) The project is consistent with what the General Plan assumed for the site both in land use and intensity and is consistent with the noise policies of the General Plan. The noise mitigation measures called for by the General Plan for projects within the baseline developed area, are incorporated into the conditions of approval for the project.
- (3) The only permanent noise levels produced by the project would be associated with traffic. The increased traffic levels are within the scope of what the MEIR assumed for the site. Therefore, this project will not result in a substantial permanent increase in ambient noise levels.
- (4) The project will not result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity. The noise mitigation measures called for by the General Plan for projects within the baseline developed area, are incorporated into the conditions of approval for the project.

#### **4. AGRICULTURAL LANDS**

##### **a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to agricultural lands:

Effect: Development within the urbanized Baseline Developed Area and Redevelopment Area will have a less-than-significant impact on agricultural lands.

Effect: Conversion of agricultural land will occur as available developable land is occupied within the City. This is a significant and unavoidable impact.

Effect: Growth within Modesto's planning area would contribute considerably to the loss of agricultural land within Stanislaus County. This is a significant and unavoidable cumulative impact.

##### **b. Master EIR and/or New Mitigation Measures Pertinent to the Project**

Agricultural Land mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-4-7 and V-4-8 MEIR. All feasible measures appropriate to the project and any new mitigation to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project:

Discussion:

There are no mitigation measure applicable to this project.

**c. Project-Specific Effects**

Section V-4.B of the MEIR provides analysis of Agricultural Lands impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project will directly result in the development of land outside the March 2003 planning area boundaries.	<input type="checkbox"/>	X
(3) The project will Conflict with existing zoning for agricultural use, or a Williamson Act contract.	<input type="checkbox"/>	X
(4) The project will Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use.	<input type="checkbox"/>	X

Discussion:

- (1) The project is consistent with the General Plan land use policies. It is an infill project, proposed within the urbanized area of the City. There are no agricultural parcels affected by the proposal and no agricultural and will be converted.
- (2) The project is within the baseline developed area of the City and therefore will not result in the development of land outside the March 2003 planning area boundaries.
- (3) The project site is not zoned for agriculture nor is it under Williamson Act contract.
- (4) The project will not involve changes to the existing environment that could result in the conversion of farmland to non-agricultural uses. The project is completely surrounded by urbanization.

**5. WATER SUPPLY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to water supply:

Effect: Urban Area General Plan policies are established to limit groundwater extractions to the safe yield of the aquifer and thereby avoid aquifer over drafting. In addition, the UWMP requires that new urban development would proceed in conjunction with the availability of water supplies and distribution facilities. It is assumed that increased entitlement of surface water supplies such as a water transfer from another water purveyor would undergo independent environmental review pursuant to CEQA. This is a less-than-significant impact.

Effect: Development to the future projected City population would require expansion of the MRWTP to its full 60 mgd capacity, development of additional groundwater wells, and construction of additional water distribution and treatment facilities. Construction of some of the required facilities would most likely require site-specific environmental impact assessments to be conducted under CEQA. Consequently, the potential environmental impacts of the Urban Area General Plan are considered less-than-significant.

Effect: During drought years, despite available options, significant water shortages are forecast for the San Joaquin River basin by the year 2020. Modesto would make a cumulatively considerable contribution to the cumulative impact on water supply under drought conditions. This is a significant and unavoidable cumulative impact.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Water Supply mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-5-7 through V-5-8 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

There are no mitigation measure applicable to this project.

**c. Project-Specific Effects**

Section V-5.B of the MEIR provides analysis of Water Supply impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.		X
(2) Sufficient water supplies are not available to serve the project from existing entitlements and resources, new or expanded entitlements are needed.	<input type="checkbox"/>	X

Discussion:

- (1) The project is consistent with the Modesto Urban Area General Plan both in land use and intensity.

- (2) Sufficient water supplies are available to serve the proposed development. Engineering and Transportation Staff required that the developer submit estimated water demands for the project and determined that the City had adequate water resources to serve the project for both regular and emergency uses.

## 6. SANITARY SEWER SERVICES

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to sanitary sewer services:

Effect: The City has already begun to implement the provisions of the Wastewater Master Plan (WMP) to meet future demand for sanitary sewer services. As City wastewater treatment facilities are expanded to meet the needs of the Baseline Developed, Redevelopment, and Planned Urbanizing Areas, the City will obtain the necessary wastewater discharge and NPDES permits from the Central Valley RWQCB, as required under Urban Area General Plan Policy V-D.2(a). Implementing the WMP, requirement of Best Management Practices for post-construction activities, as well as the Urban Area General Plan policy cited above, will avoid violation of wastewater discharge requirements. As a result, this impact would be less-than-significant.

Effect: The City has adopted the WMP specifically to ensure that sewer capacity will match the level of growth projected by the Urban Area General Plan. Development within the Baseline Developed and the Planned Urbanizing Areas that is consistent with the Urban Area General Plan will not have a significant effect on capacity. Urban Area General Plan Policy III-D.1(d) will ensure that development in the Planned Urbanizing Area will fund the necessary improvements. This is a less-than-significant impact.

Note on the WMP Master EIR. The WMP Master EIR identified a number of impacts and mitigation measures. Its mitigation measures have been adopted by the City and are being implemented by the City under the WMP. Those impacts are being independently addressed under that Master EIR and do not need to be considered under this Initial Study. Refer to the WMP Master EIR for details.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

Sewer Service mitigation measure(s) pertinent to the project being analyzed in this Initial Study, are found on pages V-6-4 through V-6-7 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

#### Discussion:

There are no mitigation measure applicable to this project.

### c. Project-Specific Effects

Section V-6.B of the MEIR provides analysis of Sanitary Sewer Service impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   |                          | X  |
| (2) The project will result in a determination by the wastewater treatment provider which serves or may serve the project that it has inadequate capacity to serve the project's projected demand in addition to the provider's existing commitments. | <input type="checkbox"/> | X  |

Discussion:

- (1) The project is consistent with the Modesto Urban Area General Plan both in land use and intensity.
- (2) Engineering and Transportation Staff required that the developer submit estimated sewer demands for the project and determined that the City had adequate sewer capacity to serve the project for both regular and emergency uses.

## 7. SENSITIVE WILDLIFE AND PLANT HABITAT

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to sensitive wildlife and plant habitat:

Effect: Although many sensitive species live in riparian habitats within the planning area, the policies of the plan will ensure that impacts of the Urban Area General Plan will be less-than-significant.

Effect: Requiring higher residential density than the suburban norm and a compact pattern of growth within the designated planning area to the year 2025 will minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

Wildlife and Plant Habitat mitigation measure pertinent to the project being analyzed in this Initial Study are found on pages V-7-19 through V-7-21. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

There are no mitigation measure applicable to this project. The project site is not a biologically sensitive site as defined by Figures V-7-1a through V-7-1e of the MEIR.

**c. Project-Specific Effects**

Section V-7.B of the MEIR provides analysis of Wildlife and Plant Habitat impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) Consultation with the California Department of Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on special status species.	<input type="checkbox"/>	X
(3) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	<input type="checkbox"/>	X

Discussion:

- (1) The project is consistent with the Modesto Urban Area General Plan both in land use and intensity.
- (2) The project site is not a biologically sensitive site as defined by Figures V-7-1a through V-7-1e of the MEIR. The California Department of Fish and Game and the U.S. Fish and Wildlife Service were consulted in the production of the MEIR.
- (3) There is no conflict with any local policies or ordinances protecting biological resources.

**8. ARCHAEOLOGICAL OR HISTORICAL SITES**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to archaeological or historical sites:

Effect: If a site-specific project involves the modification or demolition of a qualifying structure more than 50 years in age, then the impact will be significant.

Effect: Areas of high probability for archaeological resources are located within the riparian corridors along the Tuolumne River, Dry Creek, and the Stanislaus River. There, the potential impact comes from earthmoving activities that could result in disturbance of resources or human remains. There is a low probability that archaeological resources will be uncovered in areas outside of the riparian corridors.

Effect: The City Zoning Ordinance requires that when substantial changes to a structure are proposed, the development will be required to comply with other Zoning Ordinance provisions

such as parking or landscaping requirements. This could result in modifications to the structure, which substantially reduce its historical significance. This would be a less-than-significant impact with the imposition of new mitigation measure Cultural-1.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Archaeological or Historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on page V-8-13 and V-8-14 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project:

Discussion:

Mitigation Measures applicable to this project include: AH-8, Master EIR.

**c. Project-Specific Effects**

Section V-8.B of the MEIR provides analysis of Archaeological/Historical impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources, or that is listed by the City of Modesto as a Designated Landmark Preservation Site. | <input type="checkbox"/> | X  |

Discussion:

- (1) The project is consistent with the Modesto Urban Area General Plan in both land use and intensity.
- (2) The project would not adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources, or that is listed by the City of Modesto as a Designated Landmark Preservation Site. The mitigation measure called for by the General Plan is incorporated into the conditions of approval for the project.

## 9. STORM DRAINAGE

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to storm drainage:

Effect: The potential impacts on storm water drainage that could occur from the project were qualitatively evaluated with respect to several factors including: extent of the projected increase in urban surface area compared to undeveloped ground; magnitude of projected changes to hydrologic and physical site characteristics of the study area compared to existing conditions; regulatory criteria and guidelines; and professional judgment. Because the Urban Area General Plan includes policies that require new development in all three sections of the planning area to install approved drainage facilities, the potential impacts of the Urban Area General Plan on storm water drainage are considered less-than-significant.

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious areas and associated urban storm water drainage. Cumulative hydrologic impacts of storm water flows from Modesto urban areas and other areas of the County could occur due to the fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel. Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

Storm Drainage mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-9-4 through V-9-8. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

#### Discussion:

Mitigation measures appropriate to this project include: SD-7, MEIR. This mitigation measure is addressed by conditions of approval nos. 12 and 14.

### c. Project-Specific Effects

Section V-9.B of the MEIR provides analysis of Storm Drainage impacts of development of the General Plan; the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project would substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or offsite.  | <input type="checkbox"/> | X  |
| (3) Create or contribute runoff water that would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff. | <input type="checkbox"/> | X  |

Discussion:

- (1) The project is consistent with the Modesto Urban Area General Plan in both land use and intensity.
- (2) The project proposes to increase the impervious surface. However, it should be designed to meet the standards contained in the "Guidance Manual for New Development-Storm Water Quality Control Measures," adopted by the City and applied to the project as a Mitigation Measure. With the application of the appropriate mitigation, the effect will be less than significant.
- (3) The project will contribute additional water runoff. However, with the application of the mitigation measures called for in the conditions of approval of the project, the effect will be less than significant.

## 10. FLOODING AND WATER QUALITY

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to flooding and water quality:

Effect: Increased runoff can accelerate soil erosion, stream channel scouring, and sedimentation of channels, and also increase pollutant transport to waterways. The potential impacts of the project on flooding are considered less-than-significant because the Urban Area General Plan Update includes policies to restrict development in the floodplain and therefore would avoid exposing persons and property to flood hazards. In addition, new development under the Urban Area General Plan is required to install storm water drainage facilities that restrict the amount of post-development runoff from exceeding pre-development conditions.

Effect: The potential impacts of the project on surface-water quality are considered less-than-significant because the City policies and capital improvement projects for storm water drainage facilities would minimize discharges of urban pollutants to natural waterways. The City drainage program policies require new development to prepare drainage plans and implement urban runoff control measures; larger Specific Plan developments must have storm drainage systems designed to control pollutant runoff. The City's implementation policies for the municipal NPDES storm water permit require new development to implement an appropriate selection of permanent pollution control measures. Permanent erosion control measures such as seeding and planting vegetation for new cut-and-fill slopes, directing runoff through vegetation, or

otherwise reducing the offsite discharge of particulates and sediment are the most effective method of controlling offsite discharges of urban pollutants.

Effect: The City's future development will contribute to cumulative water quality effects. EPA regulations for NPDES storm water permits and new proposed regulatory additions to the rules have become much more comprehensive in recent years and are being implemented to reduce pollutant runoff from both large- and small-scale activities. Implementation of NPDES-permitting programs throughout the county will reduce potential water-quality impacts to a less-than-significant level.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Flooding and Water Quality mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-10-7 through V-10-10 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project:

Discussion:

Mitigation measures appropriate to this project include: FWQ-14, MEIR.

**c. Project-Specific Effects**

Section V-10.B of the MEIR provides analysis of Flooding and Water Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

		YES	NO
(1)	The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2)	The project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act.	<input type="checkbox"/>	X
(3)	The project does not comply with Modesto's Guidance Manual for New Development Storm water Quality Control Measures.	<input type="checkbox"/>	X
(4)	The project would create or contribute runoff water, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff.	<input type="checkbox"/>	X

Discussion:

- (1) The project is consistent with the General Plan Designation for the site both in land use and intensity.

- (2) The project would comply with the Federal Clean Water Act and the Porter Cologne Act requirements.
- (3) Mitigation Measures as called for by FWQ-14 will be applied to the project so that the project will comply with the Guidance Manual for New Development Storm Water Quality Control Measures.
- (4) The project would not create or contribute to runoff water in excess of the capacity of existing or planned storm water drainage systems or provide additional sources of polluted runoff. The appropriate mitigation measures will be applied to the project.

## 11. PARKS AND OPEN SPACE

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to parks and open space:

Effect: Within the Baseline Developed and Redevelopment Areas, the Urban Area General Plan does not propose any elimination of existing park and/or open space land. Impacts on parks and open space will be less-than-significant.

Effect: The projected population of the Planned Urbanizing Area is 148,600, requiring 149 acres of neighborhood parks and 298 acres of community parks. The required minimum acreages can be met through the application of existing policies and regulations, including Government Code Section 66474, which require developers to pay Parks Capital Facilities Fees to fund the acquisition of appropriate parkland acreage. This impact is less-than-significant.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

Parks and Open Space Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-11-4 through V-11-19 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project:

#### Discussion:

There are no mitigation measure applicable to this project. It is not on or adjacent to any park sites, nor is it near any of the riparian area identified by Figures V-7-1a through V-7-1e of the MEIR.

### c. Project-Specific Effects

Section V-11.B of the MEIR provides analysis of Parks and Recreation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

YES NO

- (1) The project is inconsistent with the Modesto Urban Area General Plan.  YES  NO

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.

**12. SCHOOLS**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to schools:

Effect: The estimated increase in population over 1994/1995 would generate an additional 29,200 elementary school students, 7,330 middle school students, and 14,640 high school students above those enrollments. Assuming that existing facilities cannot sufficiently accommodate this increase and that all of the new students would require new school facilities, build out of the General Plan would result in the need for approximately 37 elementary schools, 8 middle schools, and 7 high schools beyond 1994/1995 levels. This would result in a significant impact on schools in that it would exceed current capacity. By statute, this impact is considered to be mitigated below a level of significance by payment of school impact fees and exercise of any or all of the financing options set out in Government Code Section 65997.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. As long as all anticipated subsequent projects apply these policies, no new mitigation is necessary. Further, payment of school impact fees and compliance with SB 50 is statutorily deemed to be full mitigation of school impacts (Government Code Section 65995). The proposed additional school policy will address the situation that would arise should AB 50 be repealed. It will authorize impact fees or other methods to finance additional school facilities.

The following schools mitigation measure(s) are pertinent to the project being analyzed in this Initial Study. See pages V-12-4 through V-12-7 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section IV, Mitigation Applied to Project:

Discussion:

There are no mitigation measure applicable to this project.

## 6. Project-Specific Effects

Section V-12.B of the MEIR provides analysis of Schools impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) The project does not comply with SB 50/Proposition 1A funding provisions, or succeeding measures which provide that compliance results in less-than-significant impacts on schools. | <input type="checkbox"/> | X  |

### Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.
- (2) The project is an office and commercial complex with no residential student gathering component.

## 13. POLICE SERVICES

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to police services:

Effect: The 1995 Master EIR identified two impacts on the demand for police services; however, it concluded that no significant impact, based on the mitigation measures identified in the 1995 Master EIR, would occur. Those mitigation measures are now policies of the Urban Area General Plan. The impact is less-than-significant.

Effect: Within the Planned Urbanizing Area, complying with the Urban Area General Plan policies, particularly the policy that requires a long-range financing strategy for each Comprehensive Plan Area, will allow the City to provide the resources necessary to extend service to the newly growing Planned Urbanizing areas. These policies reduce the impact to a less-than-significant level.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

Police Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-13-3 and V-13-4 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

### Discussion:

No mitigation measures are applicable to this project.

**c. Project-Specific Effects**

Section V-13.B of the MEIR provides analysis of police services impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project would result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. | <input type="checkbox"/> | X  |

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.
- (2) The project would not result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. The project meets City Standards for emergency services access.

**14. FIRE SERVICES**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to fire services:

Effect: The Baseline Developed Area and Redevelopment Area are already developed. Impacts on fire services of development in these areas will be less-than-significant.

Effect: In the Planned Urbanizing Area, the Urban Area General Plan would result in the need for additional fire protection services due to increases in the number of employees, permanent population, and associated improvements. City policy requires that fire protection be in place concurrent with construction in the Planned Urbanizing Area. This policy will be implemented with the adoption of future Comprehensive Plans in the Planned Urbanizing Area. This impact would be less-than-significant.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Fire Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-14-3 through V-14-5 MEIR. All feasible measures appropriate to the

project to be incorporated into or made conditions of approval of this project. are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

No mitigation measures are applicable to this project.

**c. Project-Specific Effects**

Section V-14.B of the MEIR provides analysis of fire services impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project would result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. | <input type="checkbox"/> | X  |

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.
- (2) The project would result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. The project meets City Standards for emergency services access.

**15. SOLID WASTE**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to solid waste:

Effect: Since the project would exceed available landfill capacity, it is identified as a significant impact. The Fink Road Landfill may be closed by the time the City reaches build out, unless an expansion is approved by the County and the Integrated Waste Management Board. As the waste stream generated increases with population, additional landfills and methods for diversion would have to be utilized. The project will also generate the need for additional collection and transfer facilities. This impact is significant and unavoidable. The impact would be less-than-significant at such time as the Fink Road Landfill expansion is approved.

Effect: The project makes a considerable contribution to the cumulative impact on landfill capacity of development in Stanislaus County. This impact is significant and unavoidable.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Solid Waste Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study, are found on pages V-15-5 and V-15-6 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project:

Discussion:

No mitigation measures are applicable to this project.

**c. Project-Specific Effects**

Section V-15.B of the MEIR provides analysis of solid waste impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The County is unable to expand its solid waste disposal capacity and the project would result in waste stream levels that exceed disposal capacity.	<input type="checkbox"/>	X

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.
- (2) This project was referred to the County and Solid Waste Division of the Engineering and Transportation Division for review, and no indication was given that there would be a problem serving this project

**16. HAZARDOUS MATERIALS**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to hazardous materials:

Effect: The impacts of the project relative to hazardous materials are less-than-significant, based on the existing regulatory framework. New development will be required to comply with regulations monitoring and controlling the handling and use of hazardous and toxic materials.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under federal, state and county policies and regulations, and the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Hazardous Materials Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-16-9 through V-16-12 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

No mitigation measures are applicable to this project.

**c. Project-Specific Effects**

Section V-16.B of the MEIR provides analysis of hazardous materials impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

		YES	NO
(1)	The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2)	The project does not comply with all applicable federal, state, and county standards and regulations relative to the handling, storage, disposal, and transport of hazardous or toxic materials or wastes.	<input type="checkbox"/>	X
(3)	The project contains a contaminated site not identified as of March 2003.	<input type="checkbox"/>	X
(4)	The project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.	<input type="checkbox"/>	X
(5)	The project would be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment.	<input type="checkbox"/>	X

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.

- (2) The project does comply with all applicable federal, state, and county standards and regulations relative to the handling, storage, disposal, and transport of hazardous or toxic materials or wastes.
- (3) The project site has never had any development on it and is not known to contain any contaminants.
- (4) The only hazardous materials that will be potentially present on the site are those related to the proposed medical and dental offices. However, these are subject to state and federal regulations that will reduce the impact on nearby Orchard School to less than significant.
- (5) The project would not be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would not create a significant hazard to the public or the environment.

## 17. LANDSLIDES AND SEISMIC ACTIVITY

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to landslides and seismic activity:

Effect: There are areas of known sand and gravel resources within the Baseline Developed Area and Redevelopment Area. Future development will be subject to SMARA requirements, therefore, the project impact will be less-than-significant.

Effect: There are areas of known sand and gravel resources within the Planned Urbanizing Area. Future development will be subject to SMARA requirements, therefore, the project impact will be less-than-significant.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Landslide and Seismic Activity Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-17-6 and V-17-7 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

#### Discussion:

No mitigation measures are applicable to this project.

**c. Project-Specific Effects**

Section V-17.B of the MEIR provides analysis of landslides and seismic impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project would be located on soil that is unstable, or that would become unstable as a result of the project, and potentially result in on or off-site landslide, lateral spreading, subsidence, liquefaction or collapse.	<input type="checkbox"/>	X

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.
- (2) The project would not be located on soil that is unstable, or that would become unstable as a result of the project.

**18. ENERGY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to energy:

Effect: The Baseline Developed Area and Redevelopment Area are already developed. New development within the Redevelopment Area will comply with Title 24 standards as well as City Urban Area General Plan policies. Impacts on energy by development in these areas (i.e., changes in levels of use above the current baseline) will be less-than-significant.

Effect: Build out under the Urban Area General Plan will utilize an estimated 1,400 million cubic feet per month of natural gas, 1,300 million kilowatt hours (kwh) of electricity per year and 650,000 gallons of gasoline per day. PG&E has indicated that they have at the current time sufficient supplies of natural gas to serve the increased natural gas demands of the project. At present, gasoline supplies are apparently sufficient to serve the gasoline demands of the project. Title 24 of the California Code of Regulation, which ensures that the project will not exceed local, state, and federal energy standards. The impact is less-than-significant.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

The following energy mitigation measure(s) are pertinent to the project being analyzed in this Initial Study. See page V-18-3 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section IV, Mitigation Applied to Project:

Discussion:

No mitigation measures are applicable to this project.

**c. Project-Specific Effects**

Section V-18.B of the MEIR provides analysis of energy impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan. | <input type="checkbox"/> | X  |

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.

**19. PLANNING AND LAND USE**

The Master EIR was certified for the Modesto Urban Area General Plan. The significant effects described in the 18 subject areas contained in the Master EIR are based on the planning policies and diagrams adopted as part of the General Plan. Planning and land use were not among the 18 subject areas analyzed in the Master EIR because they essentially defined the project being evaluated in the EIR.

**a. Project-Specific Effects**

Determination of project effects will be based on the following threshold. A project-specific effect is less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.                | <input type="checkbox"/> | X  |
| (2) The project includes a substantive amendment to the Modesto Urban Area General Plan. | <input type="checkbox"/> | X  |
| (3) The project would physically divide an established community                         | <input type="checkbox"/> | X  |

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.
- (2) No amendment to the General Plan is required by this project.

- (3) The project will be located on the periphery of a single family development south of Briggmore Avenue and east of Oakdale Road. It will not divide this established community.

**20. AESTHETICS**

The Master EIR was certified for the Modesto Urban Area General Plan. The significant effects described in the 18 subject areas contained in the Master EIR, are based on the planning policies and diagrams adopted as part of the General Plan. At that level of detail, no significant effects on aesthetics were identified.

**a. Project-Specific Effects**

Determination of project effects will be based on the following threshold. A project-specific effect is less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project would have a substantial adverse effect on a scenic vista.	<input type="checkbox"/>	X
(3) The project would substantially degrade the existing visual character or quality of the project site and its surroundings.	<input type="checkbox"/>	X
(4) The project would create a new source of substantial light and glare, which would adversely affect day or nighttime views in the area.	<input type="checkbox"/>	X

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.
- (2) There are no Scenic Vistas from the location of the proposed development. It is completely surrounded by urbanization. Views to the Diablo and Sierra Mountain Ranges are already precluded from this site and its surroundings.
- (3) The project would not substantially degrade the existing visual character or quality of the project site and its surroundings. The project will be made to meet City Standards for setbacks from public streets and landscaping. Curb, gutter and sidewalk will be installed, and the buildings will be made to tie together architecturally.
- (4) The project would not create a substantial source of light or glare that would adversely affect daytime or nighttime views in the area. Standard conditions of approval requiring lighting to be shielded from adjacent residential uses and walling to be constructed between the project and adjacent residences would be imposed on this project. This will mitigate the effects of lighting and glare to less than significant.

## V. MITIGATION MEASURES APPLIED TO THE PROJECT

### A. Master EIR Mitigation Measures Applied to the Project

Pursuant to CEQA Section 21157.1 (c), in order for a Finding of Conformance to be made, all feasible measures from the Master EIR appropriate to the project shall be incorporated into the project. The following adopted General Plan Policies and Master EIR Mitigation Measures (also contained in Section III, "Global List") shall be made part of the project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan:

All applicable and appropriate mitigation measures have been applied to the project.

#### Traffic and Circulation Measures:

N/A

#### Air Quality Measures:

1. All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover
2. All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.
3. When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.
4. All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. *(the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)*
5. Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.
6. Within urban areas, trackout shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.
7. Install wheel washers for all exiting trucks, or wash off all trucks and equipment leaving the site;
8. Suspend excavation and grading activity when winds exceed 20 mph; and
9. Limit the area subject to excavation, grading and other construction activity at any one time.

## Noise Measures:

1. The City's noise ordinance (Modesto Municipal Code Section 4-9.101) prohibits the "loud and raucous discharge into the open air of the steam of any steam equipment or exhaust from any stationary internal-combustion engine."

The noise ordinance prohibits the loud and raucous operation or use of any of the following before 7:00 a.m. or after 9:00 p.m. daily (except Saturday and Sunday and State or federal holidays, when the prohibited time shall be before 9:00 a.m. and after 9:00 p.m.):

- A. A hammer, or any other device or implement used to pound or strike an object.
- B. An impact wrench, or other tool or equipment powered by compressed air.
- C. A hand-powered saw.
- D. Any tool or piece of equipment powered by an internal-combustion engine such as, but not limited to, chain saw, backpack blower, and lawn mower.
- E. Any electrically powered (whether by alternating current electricity or by direct current electricity) tool or piece of equipment used for cutting, drilling, or shaping wood, plastic, metal, or other materials or objects, such as, but not limited to, a saw, drill, lathe, or router.
- F. Any of the following: heavy equipment (such as but not limited to bulldozer, steam shovel, road grader, back hoe), ground drilling and boring equipment (such as but not limited to derrick or dredge), hydraulic crane and boom equipment, portable power generator or pump, pavement equipment (such as but not limited to pneumatic hammer, pavement breaker, tamper, compacting equipment), pile-driving equipment, vibrating roller, sand blaster, gunite machine, trencher, concrete truck, and hot kettle pump.
- G. Any construction, demolition, excavation, erection, alteration, or repair activity. In the case of urgent necessity and in the interest of public health and safety, the Chief Building Official may issue a permit for exemption from these. Such period shall not exceed three (3) working days in length while the emergency continues but may be renewed for successive periods of three (3) days or less while the emergency continues. The Chief Building Official may limit such permit as to time of use and/or permitted action, depending upon the nature of the emergency and the type of action requested.
- H. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields.

2. Construction equipment and vehicles shall be equipped with properly operating mufflers according to the manufacturer's recommendations. Air compressors and pneumatic equipment shall be equipped with mufflers and impact tools shall be equipped with shrouds or shields.

**Agricultural Land Measures:**

N/A

**Water Supply Measures:**

N/A

**Sanitary Sewer Service Measures:**

N/A

**Sensitive Wildlife and Plant Habitat Measures:**

N/A

**Archaeological or Historic Sites Measures:**

1. If archaeological resources are discovered at any time during construction, all activity shall cease until the site is surveyed by a qualified archaeologist. The survey shall include mitigation measures, which shall be implemented before construction resumes. The survey shall follow the criteria presented in Appendix K

**Storm Drainage Measures:**

1. Prior to the issuance of a building permit, the developer shall submit a plan for approval by the Operations and Maintenance Director to provide on-site treatment of storm water in accordance with the guidance manual for new development stormwater quality control measures. Storm drain improvements shall be constructed in accordance with the approved plans.
2. The developer shall implement pre- and post- construction best management practices (BMPs) to minimize pollutants entering the storm system.

**Flooding and Water Quality Measures:**

1. Prior to the issuance of a building permit, the developer shall submit a plan for approval by the Operations and Maintenance Director to provide on-site treatment of storm water in accordance with the guidance manual for new development stormwater quality control measures. Storm drain improvements shall be constructed in accordance with the approved plans.
2. The developer shall implement pre- and post- construction best management practices (BMPs) to minimize pollutants entering the storm system.

**Parks and Open Space Measures:**

N/A

**Schools Measures:**

N/A

**Police Services:**

N/A

**Fire Services:**

N/A

**Generation of Solid Waste**

N/A

**Generation of Hazardous Materials**

N/A

**Potential for Landslides and Seismic Activity**

N/A

**Energy**

N/A

**Planning and Land Use**

N/A

**Aesthetics**

1. Prior to the issuance of a building permit for any other construction, a six-foot-high decorative masonry where the property is adjacent to Santa Paula Drive and Kendell Avenue shall be installed ten feet behind property line.
2. All outdoor lighting shall be shielded from adjacent residential properties as required by the Engineering and Transportation Director.

Amended on 7/14/04

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-045**

**A RESOLUTION APPROVING A DEVELOPMENT PLAN FOR PLANNED  
DEVELOPMENT ZONE, P-D(564). (SOELLING)**

WHEREAS, a verified application for an amendment to Section 22-3-9 of the Zoning Map was filed by Warner Soelling on October 14, 2003, to reclassify from Planned Development Zone, P-D(454), to Planned Development Zone, P-D(564), to allow 24,925 square feet of office, a 7,350-square-foot restaurant and a 8,625-square-foot financial/retail building, described as follows:

P-D(454) to P-D(564)

All that certain real property situated in the City of Modesto, County of Stanislaus, State of California, and being a portion of the Northeast Quarter of Section 22, Township 3 South, Range 9 East, Mount Diablo Base and Meridian, in the City of Modesto, County of Stanislaus, State of California, more particularly described as follows:

All of Lot 18 in Block 1345, of Eastgate, according to the Official Map thereof, filed in the office of the Recorder of Stanislaus County, California, on August 23, 1989 in Volume 34 of Maps, at Page 29;

Also including the easterly half of Santa Paula Drive, the northerly half of Kendall Avenue, the southerly half of the 60 foot eastbound lane of East Briggsmore Avenue, and the westerly half of Oakdale Road, all being immediately adjacent to the above described property.

WHEREAS, after a public hearing held on December 15, 2003, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, it was found and determined by the Planning Commission, by its Resolution No. 2003-65, that rezoning of the property as requested is required by public necessity, convenience, and general welfare for the following reasons:

1. The proposed office development serves as a good buffer between Briggsmore Avenue and the single-family residential neighborhood to the south.

2. The proposed office development is consistent with the current General Plan land use designation for the site.

WHEREAS, said matter was set for a public hearing of the City Council to be held on January 13, 2004, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing was held, and

WHEREAS, after said public hearing the Council found and determined that the application of Warner Soelling for a Planned Development Zone should be granted as consonant with public necessity, convenience and general welfare for the reasons set forth in Planning Commission Resolution No. 2003-65 and quoted above, and

WHEREAS, the Council has introduced Ordinance No. 3342-C.S. on the 13<sup>th</sup> day of January, 2004, reclassifying the above-described property from Planned Development Zone, P-D(454), to Planned Development Zone, P-D(564).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. DEVELOPMENT PLAN. The development plan for Planned Development Zone, P-D(564), is hereby approved subject to the following conditions:

1. All development shall conform to the plot plan and elevations titled "Eastgate Center" as amended in red, stamped approved by the City Council.
2. Prior to the issuance of a building permit, a landscaping and irrigation plan shall be approved by the Parks, Recreation and Neighborhoods Director. Provision shall be made for the installation and maintenance of one deciduous shade-giving tree for every eight parking stalls, evenly distributed. Landscaping and the irrigation system shall be installed and maintained in accordance with the approved plan.

3. Prior to the issuance of certificate of occupancy for Building A, all internal landscaping for the first phase of development and all perimeter landscaping and the irrigation system shall be installed in accordance with the approved plan.
4. Prior to the issuance of certificate of occupancy for Buildings B through E all associated landscaping and the irrigation system to service that landscaping shall be installed in accordance with the approved plan.
5. Prior to the issuance of a building permit for any construction, a chain link fence with slats shall be installed along the property line adjacent to Santa Paula Drive and Kendell Avenue.
6. Prior to the certificate of occupancy of Building A, a six-foot-high decorative masonry where the property is adjacent to Santa Paula Drive and Kendell Avenue shall be installed ten feet behind property line.
7. All landscaping, fences, and walls shall be maintained in accordance with the approved plan and the premises shall be kept free of weeds, trash, and other debris.
8. Prior to occupancy of any building, irrigation, electrical, gas and domestic water lines shall be removed, relocated, or protected as required by the Engineering and Transportation Director and/or the utility companies, and easements for utility lines to remain shall be dedicated.
9. Prior to the issuance of occupancy of Building A, dedication and improvements consistent to Standard Specifications shall be provided, including the following:
  - a. Both points of access, the slip ramp from Briggsmore Avenue and the ingress/egress from Oakdale Road, including the designated right turn lane shall be constructed.
  - b. Full dedication and improvements on all street frontages.
  - c. The Median on Oakdale Road from the intersection of Briggsmore Avenue.

10. Prior to the issuance of a building permit, a phasing plan shall be submitted. Adequate parking, traffic circulation and fire apparatus access shall be accommodated to meet City Standards for each phase of development as approved by the Community and Economic Development Director.
11. Prior to issuance of a building permit, the developer shall show on the plans submitted to Building Inspection all fire hydrants as required by the Fire Chief. All hydrants required by the Fire Chief shall be installed and operable prior to construction of any structures.
12. Ten-foot-wide public utility easements, and planting easements located within the ten-foot-wide public utility easements, shall be dedicated along all street frontages as required by the Engineering and Transportation Director.
13. Prior to the issuance of a building permit, the developer shall submit a plan for approval by the Operations and Maintenance Director to provide on-site treatment of storm water in accordance with the guidance manual for new development stormwater quality control measures. Storm drain improvements shall be constructed in accordance with the approved plans.
14. The property owner and developer shall, at their sole expense, defend, indemnify and hold harmless the City of Modesto, its agents, officers, directors and employ-ees, from and against all claims, actions, damages, losses, or expenses of every type and description, including but not limited to payment of attorneys' fees and costs, by reason of, or arising out of, this development approval. The obligation to defend, indemnify and hold harmless shall include but is not limited to any action to arbitrate, attack, review, set aside, void or annul this development approval on any grounds whatsoever. The City of Modesto shall promptly notify the developer of any such claim, action, or proceeding and shall cooperate fully in the defense.
15. The developer shall implement pre- and post- construction best management practices (BMPs) to minimize pollutants entering the storm system.
16. All signs shall comply with the sign requirements of the P-O Zone, except for the restaurant and Building D which shall comply with the sign requirements of the C-3 Zone.
17. Trash bins shall be kept in enclosures in accordance with the approved plan and in accordance with plans approved by the Operations and Maintenance Department Director. Enclosures shall be constructed of building materials consistent with those used in the

major buildings as approved by the Community and Economic Development Department Director.

18. The Capital Facilities Fees payable at the time of the issuance of a building permit for any construction in this parcel map shall be based on the rates in effect at time of issuance of the building permit.
19. All outdoor lighting shall be shielded from adjacent residential properties as required by the Engineering and Transportation Director.
20. Prior to the issuance of certificate of occupancy, the developer shall, in a manner approved by the City Attorney, provide two points of vehicular access for on-site traffic circulation for the benefit of the property to the south, substantially as shown in red on the plot plan.
21. Prior to the issuance of a building permit for each of the buildings proposed, the developer shall provide elevations for approval by the Community and Economic Development Director. The elevations for each of the buildings shall relate architecturally to each of the others. Elevations for the restaurant and retail/ financial buildings shall return to the Commission for approval.
22. Prior to the issuance of a building permit for Building A, the developer shall submit elevations embellished with a wainscot for approval by the Community and Economic Development Director.

In addition, the following recommended conditions of approval are mitigation measures from the Modesto Urban Area General Plan Master Environmental Impact Report that should be applied to the project:

23. If archaeological resources are discovered at any time during construction, all activity shall cease until the site is surveyed by a qualified archaeologist. The survey shall include mitigation measures, which shall be implemented before construction resumes. The survey shall follow the criteria presented in Appendix K of the State CEQA Guidelines.
24. All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical

stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover

25. All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.
26. When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.
27. All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. *(the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)*
28. Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.
29. Within urban areas, trackout shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.
30. Install wheel washers for all exiting trucks, or wash off all trucks and equipment leaving the site;
31. Suspend excavation and grading activity when winds exceed 20 mph; and
32. Limit the area subject to excavation, grading and other construction activity at any one time.
33. The City's noise ordinance (Modesto Municipal Code Section 4-9.101) prohibits the "loud and raucous discharge into the open air of the steam of any steam equipment or exhaust from any stationary internal-combustion engine."

The noise ordinance prohibits the loud and raucous operation or use of any of the following before 7:00 a.m. or after 9:00 p.m. daily (except Saturday and Sunday and State or federal holidays, when the prohibited time shall be before 9:00 a.m. and after 9:00 p.m.):

- A. A hammer, or any other device or implement used to pound or strike an object.

- B. An impact wrench, or other tool or equipment powered by compressed air.
- C. A hand-powered saw.
- D. Any tool or piece of equipment powered by an internal-combustion engine such as, but not limited to, chain saw, backpack blower, and lawn mower.
- E. Any electrically powered (whether by alternating current electricity or by direct current electricity) tool or piece of equipment used for cutting, drilling, or shaping wood, plastic, metal, or other materials or objects, such as, but not limited to, a saw, drill, lathe, or router.
- F. Any of the following: heavy equipment (such as but not limited to bulldozer, steam shovel, road grader, back hoe), ground drilling and boring equipment (such as but not limited to derrick or dredge), hydraulic crane and boom equipment, portable power generator or pump, pavement equipment (such as but not limited to pneumatic hammer, pavement breaker, tamper, compacting equipment), pile-driving equipment, vibrating roller, sand blaster, gunite machine, trencher, concrete truck, and hot kettle pump.
- G. Any construction, demolition, excavation, erection, alteration, or repair activity. In the case of urgent necessity and in the interest of public health and safety, the Chief Building Official may issue a permit for exemption from these. Such period shall not exceed three (3) working days in length while the emergency continues but may be renewed for successive periods of three (3) days or less while the emergency continues. The Chief Building Official may limit such permit as to time of use and/or permitted action, depending upon the nature of the emergency and the type of action requested.
- H. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields.

34. Construction equipment and vehicles shall be equipped with properly operating mufflers according to the manufacturer's recommendations. Air compressors and pneumatic equipment shall be equipped with mufflers and impact tools shall be equipped with shrouds or shields.

SECTION 2. DEVELOPMENT SCHEDULE. The following development schedule is hereby approved for said Planned Development Zone, P-D(564):

The construction program be accomplished in two phases as follows:

Phase I – Construction to begin on or before January 13, 2006 and completion to be not later than January 13, 2007.

Phase II – Construction to begin on or before January 13, 2008 and completion to be not later than January 13, 2009.

SECTION 3. CHANGES IN DEVELOPMENT PLAN. Any changes in the above approved development plan shall be made in accordance with the provisions of Section 10-2.1709 of the Modesto Municipal Code.

SECTION 4. COMPLIANCE WITH CODE PROVISIONS, ETC. In all other respects said planned development shall be accomplished in accordance with and in strict adherence to the provisions of Article 17 of Title 10 of the Modesto Municipal Code relating to Planned Development Zones and other applicable City laws, rules, regulations and procedures.

SECTION 5. EFFECTIVE DATE. This resolution shall not become effective unless and until the ordinance reclassifying the above-described property to Planned Development Zone, P-D(564), becomes effective.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13<sup>th</sup> day of January, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-046**

**A RESOLUTION APPROVING A TAX-EXEMPT BOND FINANCING TO BE  
ISSUED BY THE CALIFORNIA STATEWIDE COMMUNITIES  
DEVELOPMENT AUTHORITY TO BENEFIT SUTTER HEALTH AND  
CERTAIN AFFILIATES**

WHEREAS, Sutter Health, Memorial Hospitals Association and certain other affiliates of Sutter Health, each a nonprofit public benefit corporation (collectively, the "Health Institutions"), have requested that the California Statewide Communities Development Authority (the "Authority") issue bonds in one or more series in an aggregate principal amount not to exceed \$375,000,000 (the "Bonds") for the purpose of, among other things, financing or refinancing the acquisition, improvement and equipping (the "Financing") of certain health facilities owned or operated by the Health Institutions, including Memorial Hospitals Association (the "Facilities") located in the City of Modesto (the "City"), and

WHEREAS, pursuant to Section 147(f) of the Internal Revenue Code of 1986 (the "Code"), the issuance of the Bonds by the Authority must be approved by the City because the Facilities are located within the territorial limits of the City, and

WHEREAS, the City Council of the City (the "Council") is the elected legislative body of the City and is one of the applicable elected representatives required to approve the issuance of the Bonds under Section 147(f) of the Code, and

WHEREAS, the Authority has requested that the Council approve the issuance of the Bonds by the Authority in order to satisfy the public approval requirement of Section 147(f) of the Code and the requirements of Section 9 of the Amended and Restated Joint Exercise of Powers Agreement, dated as of June 1, 1988 (the "Agreement"), among

certain local agencies, including the City, and

WHEREAS, pursuant to Section 147(f) of the Code, the Council has, following notice duly given, held a public hearing regarding the issuance of the Bonds, and now desires to approve the issuance of the Bonds by the Authority,

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Modesto as follows:

Section 1. The Council hereby approves the issuance of the Bonds by the Authority. It is the purpose and intent of the Council that this Resolution constitute approval of the issuance of the Bonds by the Authority, for the purposes of (a) Section 147(f) of the Code by the applicable elected representative of the governmental unit having jurisdiction over the area in which the Facilities are to be located, in accordance with said Section 147(f) and (b) Section 9 of the Agreement.

Section 2. The officers of the City are hereby authorized and directed, jointly and severally, to do any and all things and to execute and deliver any and all documents which they deem necessary or advisable in order to carry out, give effect to and comply with the terms and intent of this Resolution and the financing transaction approved hereby.

Section 3. This Resolution shall take effect immediately upon its adoption.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13<sup>th</sup> day of January, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**A RESOLUTION APPOINTING JOE GARDELLA TO THE BOARD OF  
ZONING ADJUSTMENT**

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards and Commissions, and

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. JOE GARDELLA, as representative of the Planning Commission, is hereby appointed to the Board of Zoning Adjustment with a term expiration of January 1, 2005.

SECTION 2. The City Clerk is hereby directed to transmit a copy of this resolution to the reappointed member of the Board of Zoning Adjustment, and the Secretary thereof.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27<sup>th</sup> day of January, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-048**

**A RESOLUTION IN SUPPORT OF A STATEWIDE BALLOT INITIATIVE TO  
REQUIRE VOTER APPROVAL BEFORE STATE GOVERNMENT MAY  
“TAKE” LOCAL TAX FUNDS**

WHEREAS, state government currently seizes over \$800 million in city property tax funds (ERAF) statewide, seriously reducing resources available for local public safety and other services, and

WHEREAS, this property tax loss to Modesto now exceeds \$3.5 million annually and continues to grow, and

WHEREAS, in adopting the state budget this year the Legislature and Governor appropriated local vehicle license fee backfill and redevelopment property tax funds that are needed to finance critical city services such as public safety, parks, street maintenance, housing and economic development, and

WHEREAS, the state budget relies on a deficit bond financing program that is predicated on a local property and sales tax swap that leaves city services vulnerable to future losses if the state’s economic condition fails to improve, and

WHEREAS, it is abundantly clear that the state will continue to use local tax funds to balance the state budget unless the voters limit the power of the legislature and governor to do so, and

WHEREAS, the voters of California are the best judges of whether local tax funds should be diverted, confiscated, shifted or otherwise taken by the legislature to finance an ever expanding state government, and

WHEREAS, the General Assembly of Voting Delegates of the League of California Cities at its September 10, 2003 meeting voted to sponsor a statewide ballot

initiative to empower the voters to limit the ability of state government to confiscate local tax funds to fund state government, and

WHEREAS, The League of California Cities has requested that cities offer support for a November 2004 ballot initiative that will allow voters to decide whether state government may appropriate local tax funds to fund state government operations and responsibilities,

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that the City hereby expresses its strong support for a statewide ballot initiative to allow voters to decide whether local tax funds may be taken, confiscated, shifted, diverted or otherwise used to fund state government operations and responsibilities.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27<sup>th</sup> day of January 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-049**

**A RESOLUTION RETROACTIVELY ADJUSTING THE APPROPRIATIONS LIMIT  
FOR COMMUNITY FACILITIES DISTRICT NO. 1998-2 (CARVER-  
BANGS/PELANDALE-SNYDER)**

WHEREAS, on December 8, 1998, the City formed Community Facilities District No. 1998-2 (Carver-Bangs/Pelandale-Snyder) ("CFD") for the purpose of funding the construction of infrastructure in the Carver-Bangs and Pelandale-Snyder Specific Plan areas, and

WHEREAS, as part of the CFD formation, the City was required to establish an appropriations limit which establishes the maximum amount of annual expenditures which can be made by the CFD, and

WHEREAS, the original appropriations limit for the CFD was inadvertently established as \$1,000,000 rather than \$10,000,000 due to a typographical error in the original public report for the CFD, and

WHEREAS, as a result of a financial and performance audit conducted by Vavrinek, Trine, Day & Company ("VTD"), the City was advised of the low appropriations limit and that it had exceeded the appropriations limit in fiscal years 2000-2001 and 2001-2002, and

WHEREAS, once an appropriations limit has been established the legislative body may adjust the appropriations limit annually for changes in population since the inception of the CFD, and may calculate said changes retroactively in order to establish a more accurate appropriations limit, and

WHEREAS, the CFD desires to adjust retroactively the annual appropriations limit based on substantial increases in population within the CFD so that previous expenditures will fall within the appropriations limit and in order to proceed with its objectives of timely

construction of facilities to serve the CFD and issuing reimbursements for previously constructed facilities.

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto finds and determines as follows:

1. That the City Council, as the governing body for the CFD, hereby estimates the changes in population within the CFD in the absence of an estimate by the Department of Finance.
2. That the estimated population within Community Facilities District 1998-2 (Carver-Bangs/Pelandale-Snyder) ("CFD") increased from 7 on December 15, 1998 to 36 on June 30, 1999. This estimated population increase in the CFD population represents an approximately 514% annual increase which would have supported an adjusted appropriations limit of \$5,142,857.14 for fiscal year 1999-2000.
3. That the estimated population within Community Facilities District 1998-2 (Carver-Bangs/Pelandale-Snyder) ("CFD") increased from 36 on June 30, 1999 to 241 on June 30, 2000. This estimated population increase in the CFD population represents an approximately 669% annual increase which supports an adjusted appropriations limit of \$34,428,571.41 for fiscal years 2000-2001 and 2001-2002.
4. All documentation used to calculate and support the increase in the appropriations limit has been available to the public for at least fifteen (15) days prior to the meeting at which this resolution was considered.

BE IT FURTHER RESOLVED that the Council hereby adjusts and increases the annual appropriations limit for Community Facilities District No. 199802 (Carver-Bangs/Pelandale/Snyder) from \$1,000,000 to \$34,428,571.41. The adjustment to the appropriations limit is effective retroactively as of June 30, 2000.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27<sup>th</sup> day of January, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmrmber Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-050**

**A RESOLUTION APPROVING A \$998,200 AGREEMENT WITH CAROLLO ENGINEERS, OF WALNUT CREEK, CALIFORNIA, FOR PROFESSIONAL ENGINEERING SERVICES TO DEVELOP THE WASTEWATER MASTER PLAN, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT**

WHEREAS, the City of Modesto completed its current Wastewater Master Plan (WWMP) in 1995 and, to date, it has served its intended purpose of guiding wastewater system improvements, and

WHEREAS, Municipality Wastewater Master Plans are typically updated every five to seven years to incorporate new growth and current operations and planning data, and

WHEREAS, a number of changes have occurred in the last eight years which make it necessary to update the WWMP, and

WHEREAS, the Proposals and Interviews of consulting firms qualified to prepare the City's Wastewater Master Plan were rated by the selection team, and later tabulated by the Engineering and Transportation Director for the consideration of the Council, and

WHEREAS, the Engineering and Transportation Director has recommended that Carollo Engineers, be accepted as the most qualified engineering consulting firm, and

WHEREAS, the Engineering & Transportation Director has recommended accepting the proposal of Carollo Engineers, in an amount not to exceed \$998,200,

WHEREAS, the Economic Development Committee reviewed this item at its meeting on January 12, 2004, and recommended its approval,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the agreement with Carollo Engineers, for preparation of the Wastewater Master Plan in an amount not to exceed \$998,200.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27<sup>th</sup> day of January, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmrmber Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-051**

**A RESOLUTION AMENDING THE FY03-04 CAPITAL IMPROVEMENT BUDGET TO REAPPROPRIATE \$300,000 FROM 6210-430-A211 (JEFFERSON SEWER TRUNK REHABILITATION) AND \$50,000 FROM 6210-430-A209 (ENGINEERING SYSTEM ANALYSIS) TO 6210-800-8000-8003 (WASTEWATER RESERVES), FOLLOWED BY THE REAPPROPRIATION OF THAT SAME \$350,000 FROM 6210-800-8000-8003 (WASTEWATER RESERVES) TO 6210-430-A208 (WASTEWATER MASTER PLAN UPDATE)**

WHEREAS, on January 27, 2004, the City Council approved a professional services agreement with Carollo Engineers to prepare the Wastewater Master Plan (Plan), and

WHEREAS, the Plan will perform critical infrastructure planning tasks, including identifying improvements for existing and future services, and

WHEREAS, the Plan's total cost of \$998,200 is more than the Wastewater Master Plan Fund balance of \$700,000, by an amount of \$298,200, and

WHEREAS, the Jefferson Subtrunk Rehabilitation Fund has sufficient funds to cover the additional amount of \$298,200, and

WHEREAS, the Jefferson Subtrunk Rehabilitation planning and design work has been incorporated in the Wastewater Master Plan scope of work, and

WHEREAS, additional funds in the amount of \$50,000 are needed to cover staff costs to manage the project, and

WHEREAS, the Engineering Systems Analysis Fund has sufficient funds to cover the additional amount of \$50,000,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the FY03-04 Capital Improvement Budget to reappropriate \$300,000 from 6210-430-A211 (Jefferson Sewer Trunk Rehabilitation) and

\$50,000 from 6210-430-A209 (Engineering System Analysis) to 6210-800-8000-8003 (Wastewater Reserves), followed by the reappropriation of that same \$350,000 from 6210-800-8000-8003 (Wastewater Reserves) to 6210-430-A208 (Wastewater Master Plan Update).

BE IT FURTHER RESOLVED that the Finance Director, or her designee, is hereby authorized to take the steps necessary to amend the Capital Improvement Budget.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-052**

**A RESOLUTION AUTHORIZING STAFF TO PROCEED WITH A REQUEST FOR PROPOSALS FOR THE PRELIMINARY DESIGN OF THE CITY OF MODESTO'S PHASE TWO DOWNSTREAM IMPROVEMENTS AND APPROVING THE PROPOSED CONSULTANT SELECTION EVALUATION CRITERIA AS PER ATTACHMENT 2**

WHEREAS, the City of Modesto and the Modesto Irrigation District (MID) have begun work planning to expand the Modesto Regional Water Treatment Plant (MRWTP) from its existing capacity of 30 million gallons per day (mgd) to 60 mgd, and

WHEREAS, downstream improvements consisting of water storage tanks, booster pumping stations, pressure and/or flow control valves, and pipelines are needed to fully integrate the Phase Two expansion of the MRWTP with the City's water system, and

WHEREAS, an initial evaluation of the water distribution system, using the City's recently developed computer model, has confirmed the need for these improvements and has provided a general project description of the improvements, and

WHEREAS, the preliminary design for the downstream improvements needs to be completed by the fall of 2004 to remain on schedule with the Phase Two project's scheduled operation in the year 2007, and

WHEREAS, City staff has proposed evaluation criteria to be included in the Request for Proposals, and

WHEREAS, Attachment A of the Director of Engineering and Transportation's January 27, 2004, agenda report to Council contains the recommended evaluation criteria to be used in selecting a firm to perform the Preliminary Design of the downstream improvements, and

WHEREAS, this study is a capital improvement project within the water program (CIP Account #6100-430-A202) for a total amount of \$8,800,000 over fiscal years 2003/04 through 2005/06 with \$700,000 in it for FY2003/04 to go towards preliminary and final design of the downstream improvements,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes City staff to proceed with a Request for Proposals for preparation of the preliminary design of the downstream improvements for the City of Modesto's water system.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the evaluation criteria contained in Attachment 2 of the Engineering and Transportation Director's January 27, 2004, agenda report to Council is hereby approved.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27<sup>th</sup> day of January 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-053**

**A RESOLUTION ACCEPTING IMPROVEMENTS IN THE BANYON ESTATES  
SUBDIVISION, AUTHORIZING THE CITY CLERK TO RECORD A NOTICE OF  
COMPLETION AND AUTHORIZING RELEASE OF BONDS**

WHEREAS, GREG AVERY, INC., a California Corporation, is the subdivider of the Banyon Estates Subdivision, and

WHEREAS, GREG AVERY, has filed irrevocable subdivision bonds to secure faithful performance and payment for labor and materials in the amount of \$686,714.16 and \$343,357.08, respectively, and

WHEREAS, GREG AVERY, has filed a warranty bond in the amount of \$68,671.42 to guarantee improvements in the Banyon Estates Subdivision, and

WHEREAS, the Engineering & Transportation Director, in a memorandum to Council, indicates that all work required by the Subdivision Agreement has been completed to the satisfaction of the Engineering & Transportation Department, and

WHEREAS, the Engineering & Transportation Director has indicated that it would be in order for the City Council to accept the improvements in said subdivision as complete, and authorize the City Clerk to file a Notice of Completion and release the bonds upon expiration of the statutory periods,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that:

1. The improvements in the Banyon Estates Subdivision are hereby accepted and the City Clerk is hereby authorized to file a Notice of Completion for the improvements.

2. The City Clerk is hereby authorized to release the subdivision bond for faithful performance in the amount of \$686,714.16 upon recordation of the Notice of Completion.
3. The City Clerk is hereby authorized to release the subdivision bond for labor and materials in the amount of \$343,357.08 sixty (60) days after the recordation of the Notice of Completion, provided no claim is made thereon.
4. The City Clerk is hereby authorized to release the warranty bond to guarantee improvements in the amount of \$68,671.42 one year and one day after the effective date of this resolution, provided no claim is made thereon.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-054**

**A RESOLUTION SUMMARILY VACATING A SANITARY SEWER  
EASEMENT LOCATED BEHIND 319 6<sup>th</sup> STREET ON APN 103-009-006 IN THE  
CITY OF MODESTO**

WHEREAS, Chapter 4, Part 3 of Division 9, Section 8330, et seq of the California Streets and Highway Code authorizes a city council, by resolution, to summarily vacate public service easements where the easement has been superseded by relocation and no other public facilities are located within the easement, and

WHEREAS, on or about June 1, 1966, the State of California, the then owner of the property, dedicated to the City of Modesto a public easement for sanitary sewer purposes located behind 319 6<sup>th</sup> Street on APN 103-009-006 (“Sanitary Sewer Easement”), and

WHEREAS, the Sanitary Sewer easement is more particularly described in **Exhibit “A”** attached hereto and incorporated herein by this reference, and

WHEREAS, on or about September 1, 1966 the City of Modesto Public Works & Transportation Department relocated the sanitary sewer line from the Sanitary Sewer Easement to the alley adjacent to APN 103-009-006 so the Sanitary Sewer Easement is no longer needed for the purpose for which it was dedicated, and

WHEREAS, the City of Modesto has received a request from DR. CHARLES R. EVINS II, Pastor of NEW BETHANY MISSIONARY BAPTIST CHURCH, of NEW BETHANY MISSIONARY BAPTIST CHURCH, INC., to vacate the Sanitary Sewer Easement, and

WHEREAS, the Engineering and Transportation Department has contacted the Operations and Maintenance Department, and they have no objection to the proposed vacation, and

WHEREAS, the Council of the City of Modesto finds and declares that:

1. The vacation of this easement is made pursuant to Chapter 4, Part 3 of Division 9, Section 8333(c) of the California Streets and Highways Code.

2. The easement which is proposed to be vacated is a public sanitary sewer easement located behind 319 6<sup>th</sup> Street on APN 103-009-006 in the City of Modesto. This use has been superseded by relocation, there are no other public sewer facilities within the easement and the easement is no longer required for public sewer purposes.

3. That from and after the date this resolution is recorded, the sanitary sewer easement which is proposed for vacation will no longer constitute a public service easement.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the public sanitary sewer easement located behind 319 6<sup>th</sup> Street on APN 103-009-006 in the City of Modesto, which is more particularly described in Exhibit "A", attached hereto and incorporated herein by reference, be and is hereby vacated.

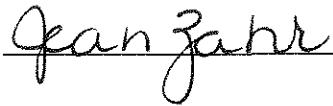

BE IT FURTHER RESOLVED that the City Clerk is hereby directed to record a certified copy of this resolution in the Stanislaus County Recorder's Office. From and after the date this resolution is recorded, said public sanitary service easement shall no longer constitute a public service easement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27<sup>th</sup> day of January, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-055**

**A RESOLUTION AUTHORIZING STAFF TO REIMBURSE PROPERTY OWNERS OR THEIR SUCCESSORS FOR THE OUTSTANDING AMOUNTS DUE FOR RIGHT-OF-WAY DEDICATED FOR PELANDALE AVENUE IN ADVANCE OF THE SEPTEMBER 1, 2006 DEADLINE IN THE REIMBURSEMENT AGREEMENTS AUTHORIZED BY RESOLUTION 2001-599**

WHEREAS, on October 21, 1997, Council adopted Resolution No. 97-591 approving the Pelandale-Snyder Financing Strategy and Facilities Master Plan, and

WHEREAS, the Pelandale-Snyder Financing Strategy and Facilities Master Plan included provisions for reimbursement to the original dedicating property owners for thirty feet of the right-of-way dedicated for the Pelandale Avenue Expressway and ten feet of the Prescott Road right-of-way, and

WHEREAS, there are a total of 14 parcels and 11 property owners involved in the reimbursement, and

WHEREAS, the original dedicating property owners received the same form of the agreement modified to reflect the owner's amount of right-of-way dedication that is eligible for reimbursement and the amount of said reimbursement, and

WHEREAS, on November 20, 2001, the City Council adopted Resolution 2001-599 approving agreements to reimburse property owners for dedication of rights-of-ways for the Pelandale Avenue Expressway, and

WHEREAS, the Pelandale-Snyder Specific Plan area is nearly fully developed, and

WHEREAS, the Pelandale-Snyder Financing Strategy and Facilities Master Plan estimated the amount of CFF funds to be set aside for each dwelling unit such that the reimbursements would be paid in full once the area was fully developed, and

WHEREAS, the amount of the set-aside was estimated too low, and

WHEREAS, approximately one third of the total amount due the property owners is still outstanding, and

WHEREAS, sufficient funds are available in the CFF Streets fund reserves to pay all outstanding amounts due to the property owners,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes staff to reimburse property owners or their successors for the outstanding amounts due for right-of-way dedicated for Pelandale Avenue in advance of the September 1, 2006, deadline in the reimbursement agreements authorized by Resolution 2001-599.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27<sup>th</sup> day of January, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-056**

**A RESOLUTION AMENDING THE FY03-04 CAPITAL IMPROVEMENT  
BUDGET TO APPROPRIATE \$125,000.00 FROM STREETS CFF RESERVES  
1410-800-8000-8003 TO 1410-430-N004-6030 FOR THE ACCOUNT TITLED  
“PELANDALE – SNYDER RIGHT-OF-WAY REIMBURSEMENTS”**

WHEREAS, on November 20, 2001, the City Council approved agreements to reimburse property owners for dedication of rights-of-ways for the Pelandale Avenue Expressway, and

WHEREAS, on November 20, 2001, City Council appropriated \$450,000.00 to partially fund the reimbursements, and

WHEREAS, it was anticipated that additional funds would need to be appropriated to fund the \$538,265.00 in reimbursements and interest due under the terms of the agreements, and

WHEREAS, staff estimates that an additional \$125,000.00 is needed to cover the outstanding reimbursements and interest due, and

WHEREAS, the CFF Streets Reserve Fund has sufficient funds to cover the additional amount of \$125,000.00,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Capital Improvement Budget to appropriate \$125,000.00 from CFF Streets Reserve Fund 1410-800-8000-8003 to 1410-430-N004-6030, “Pelandale Snyder Right of Way Reimbursements.

BE IT FURTHER RESOLVED that the Finance Director, or her designee, is hereby authorized to take the steps necessary to amend the Capital Improvement Budget.

RESOLUTION NO. 2004-057**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO  
ISSUE A REQUEST FOR BIDS (RFB) FOR CONCRETE BOXES AND COVERS,  
AND CAST IRON COVERS AND FRAMES FOR AN ESTIMATED ANNUAL  
COST OF \$75,000.00**

WHEREAS, the Central Stores Division of the Finance Department has requested the purchase of concrete boxes and covers, and cast iron covers and frames, and

WHEREAS, the Central Stores Division is responsible for maintaining inventory for concrete boxes and covers, and cast iron covers and frames (See Exhibit D) used by all City departments for City projects, and

WHEREAS, concrete boxes and covers, and cast iron covers and frames are used in several applications related to Water Division activities, and

WHEREAS, they allow access to valve connections that move water from the street main to a house, and

WHEREAS, by soliciting competitive bids for concrete boxes and covers, and cast iron covers and frames, the Finance Department-Purchasing Division will comply with Modesto Municipal Code Section 8-3.203, formal bid procedures, while obtaining the lowest possible pricing for the city,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. The City Clerk is hereby authorized to call for public competitive sealed bids for concrete boxes and covers, and cast iron covers and frames to be opened in the office of the City Clerk, 1010 10<sup>TH</sup> Street, in the City of Modesto. The City Clerk

shall be directed to give notice inviting such sealed bids in the time, form, and manner provided by law.

SECTION 2. After the bids are opened, they shall be tabulated and analyzed and a report submitted to Council.

**A RESOLUTION ACCEPTING A GRANT IN THE AMOUNT OF \$16,147.00 TO FUND THE COMMUNITY EMERGENCY RESPONSE TEAM "CERT" PROGRAM AND AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH THE GOVERNOR'S OFFICE OF SERVICE AND VOLUNTEERISM FOR \$16,147.00 IN GRANT FUNDS.**

WHEREAS, the grant application for Modesto for the Community Emergency Response Team (CERT) was approved by the Governor's Office of Service and Volunteerism in the amount of \$16,147.00, and

WHEREAS, the funds are available to support expansion of CERT, and

WHEREAS, the CERT mission is to make communities safer, stronger and better prepared to respond to threats of terrorism, public health issues, and disasters of all kinds by engaging individuals in emergency preparedness and response education, training, and volunteer service, and

WHEREAS, the CERT program more specifically trains individual citizens in emergency response skills, and

WHEREAS, the purpose of the program is to have all citizens better prepared to respond to disasters of all kinds and a nation prepared to respond to emergencies, and

WHEREAS, the City desires to provide CERT training which will consist of both classroom and hands-on instruction to citizens in the community, and

WHEREAS, the Council on October 28, 2003, adopted Resolution No. 2003-572 approving submittal of the application for the CERT grant, and

WHEREAS, the City is required to enter into a contract with the Governor's Office on Service and Volunteerism for the \$16,147.00,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts a grant for \$16,147.00 from the Governor's Office of Service and Volunteerism to fund the CERT program.

BE IT FURTHER RESOLVED that the City Council hereby authorizes the City Manager, or his designee, as the agent of the City, to execute and submit all documents which may be necessary for the completion of the grant.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27<sup>th</sup> day of January, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-061**

**RESOLUTION AUTHORIZING STAFF TO PARTICIPATE IN THE DEVELOPMENT OF GROUNDWATER MANAGEMENT PLANS AND AUTHORIZING THE INITIAL EXPENDITURE OF CURRENTLY BUDGETED FUNDS FOR THE DEVELOPMENT OF GROUNDWATER MANAGEMENT PLANS FOR BOTH OF THE TWO GROUNDWATER SUB-BASINS UNDERLYING THE CITY OF MODESTO, SPECIFICALLY, \$50,000 FOR WORK RELATED TO THE MODESTO GROUNDWATER SUB-BASIN AND \$50,000 FOR WORK RELATED TO THE TURLOCK GROUNDWATER SUB-BASIN**

WHEREAS, the City of Modesto overlies two groundwater basins and is currently participating in two groundwater associations, the Stanislaus and Tuolumne Rivers' Groundwater Basin Association (STRGBA) and the Turlock Groundwater Basin Association (TGBA), to discuss groundwater issues within these respective basins, and

WHEREAS, the City of Modesto receives approximately 60% of its annual water supply from groundwater wells located throughout the City and has experienced a decline in groundwater quality at a number of well sites, which has resulted in those wells being taken out of service, and

WHEREAS, the California Legislature passed Assembly Bill (AB) 3030, which is designed to provide local public agencies increased management authority over their groundwater resources through the adoption of a Groundwater Management Plan (GMP), and

WHEREAS, Senate Bill (SB) 1938 expanded AB 3030 by requiring GMP's to include certain specific components in order to be eligible for grant funding for various types of groundwater related projects administered by the California Department of Water Resources (DWR), and

WHEREAS, both Groundwater Basin Associations are considering developing GMP's for the respective basins, according to the requirements of AB 3030 and SB 1938, in order to be eligible for the DWR groundwater grants,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes staff to continue working with both the STRGBA and the TGBA to develop City-wide Groundwater Management Plans.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that it hereby authorizes the initial expenditure of currently budgeted funds for the development of groundwater management plans for both of the two groundwater sub-basins underlying the City of Modesto, specifically \$50,000 for work related to the Modesto Groundwater sub-basin and \$50,000 for work related to the Turlock Groundwater sub-basin.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27<sup>th</sup> day of January, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

GROUNDWATER BASIN MANAGEMENT GRANTS THROUGH THE  
BALANCE OF THE CURRENT 2003/04 FISCAL YEAR AND THROUGH THE  
UPCOMING 2004/05 FISCAL YEAR, AND AUTHORIZING THE CITY  
MANAGER TO EXECUTE APPLICATIONS RELATED TO SUCH GRANTS ON  
BEHALF OF THE CITY**

WHEREAS, the City of Modesto receives approximately 60% of its annual water supply from groundwater wells located throughout the City and has experienced a decline in groundwater quality at a number of well sites, which has resulted in those wells being taken out of service, and

WHEREAS, the City of Modesto overlies two groundwater basins, the Modesto Groundwater Sub-basin (MGB) and the Turlock Groundwater Sub-basin (TGB), and

WHEREAS, the Local Groundwater Management Assistance Act of 2000 (California Water Code Section 10795 *et seq.*) was enacted to allow the Department of Water Resources (DWR) to administer grants to local agencies to conduct groundwater monitoring and studies, and

WHEREAS, City Staff has identified groundwater studies that are eligible for state grant funding,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes City Staff to apply for DWR groundwater basin management grants.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the City Manager, or his designee, is hereby authorized and directed to execute any applications for such grants.

**MODESTO CITY COUNCIL  
RESOLUTION No. 2004-063**

**A RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A SETTLEMENT AGREEMENT WITH THE WHISPERING WOODS HOMEOWNERS ASSOCIATION WHEREBY THE CITY FORGOES COLLECTION OF \$137,953 IN CODE ENFORCEMENT COSTS.**

WHEREAS, from 1999 through 2003, the City aggressively pursued enforcement of City codes in the crime ridden, high-density fourplex neighborhood known as Prescott Estates, and

WHEREAS, code violations were extensive and included unsafe and/or unsanitary living conditions in most of the units, which ultimately resulted in the required vacation of almost all of the 312 units, and

WHEREAS, the majority of the private dwelling units were ultimately boarded up by private contractors hired by the City at a cost totaling \$117,824, and

WHEREAS, costs incurred by the City in this board up effort were billed to the Homeowners Association, and

WHEREAS, Apartment Renovation Group, Inc. (RPM) the management company for the new owners of the properties boarded up the remainder of the units at their expense, and

WHEREAS, because the rockwell drainage was not functioning properly at the site and the City staff were concerned for the safety of children who were playing in the ponding water, as well as potential adverse impacts to the City rockwell system from Prescott Estates, these private rockwells were sealed by the court appointed Receiver as a safety precaution, and

WHEREAS, costs incurred by the City in sampling, testing, and analyzing of these private wells totaled \$79,041, and

WHEREAS, cost for both the board-up of the buildings (\$117,824) and the rockwell work (\$79,041) totaled \$196,865 due from RPM to the City of Modesto, and

WHEREAS, the rockwell work costs pre-existed the RPM ownership who had to incur additional costs to rejuvenate the private rockwells after they took over the complex, and

WHEREAS, the new ownership group is saving the City significant dollars in law enforcement costs by virtue of the best practices management of the property, thus significantly reducing calls for emergency service, and

WHEREAS, these two unpaid obligations (board-up work and rockwell rejuvenation) totaling \$196,865 are a significant burden on the new ownership group and would result in higher rents to City of Modesto residents renting in the complex, and

WHEREAS, the new Whispering Woods Homeowners Association has paid off the other pre-2001 loans owed by the Prescott Estates Homeowners Association including rental rehabilitation grants on ten of the units and a \$150,000 roof loan, and

WHEREAS, on December 23, 2003, the City received a written request from Whispering Woods Homeowners Association asking for the City's forbearance on two invoices; one for work on pre-existing rockwell problems, and the second for costs associated with the board-up work done on the property,

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Modesto that it hereby approves a settlement agreement with Whispering Woods Homeowners Association in which the City foregoes collection of the rockwell work, and

the cost of the board-up work is shared equally between the City and the Whispering Woods Homeowners Association. The City Manager is authorized and directed to execute the settlement agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27<sup>th</sup> day of January, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

WHEREAS, the City Councilmembers serve on various boards and committees and act as representative on behalf of the City of Modesto, and

WHEREAS, the recent election left vacancies on several boards and committees, and

WHEREAS, the StanCOG Policy Board includes three members of the Modesto City Council to act in an advisory capacity to staff in carrying out the provisions of the agreements and also act in an advisory capacity to the legislative bodies of the parties of these agreements, and

WHEREAS, the term of offices for the councilmembers serving on these committees has expired.

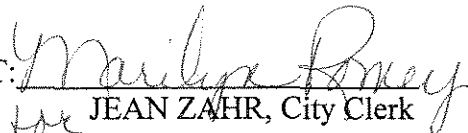

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that Mayor JIM RIDENOUR, Councilmember DENNY JACKMAN, Councilmember JANICE KEATING and Councilmember BOB DUNBAR as alternate are hereby appointed as the City Council representatives to the StanCOG Policy Board.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10<sup>th</sup> day of February, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**Budget Adjustments for the Month of January 2004**

	e Type of									
n #	Account	Description	Fund	Agcy	Orgn	Object/ Revenue	App Unit	Current Budget (\$)	Adjustment Amount (\$)	Revised Budget (\$)

<b><u>Engineering &amp; Transportation</u></b>										
#1										
			From:							
Appropriation	General Fund Reserves		0100	800	8000	8003	0100r	-\$1,396,160	-\$40,899	-\$1,437,059
			To:							
Appropriation	Salary Adjustment		0100	420	4213	0181	4200a	-\$29,296	\$31,096	\$1,800
			0100	420	4213	0191	4200a	-7,803	9,803	\$2,000
Justification	This adjustment is to restore funding to an Assistant Civil Engineer in the Development Review and Permits Section. The position was part of the add backs that the Council recommended for E&T during the budget hearings. This adjustment will put the funding back to the position that was recently filled.									

#2	Revenues	FAA Grant AIP #24	To:							
		Match Grant	6320	440	M275	3613	M275		503,900	503,900
			6320	440	M275	4405	M275		55,988	55,988
			To:							
Appropriation	Increase Budget to Match		6320	440	M275	6040	M275	556,000	3,888	559,888
			6320	800	8000	8003	6320R		556,000	556,000
Justification	This adjustment allows us to book the mid-year revenue and match for better tracking and reimbursement purposes. Adjustment being made to the construction object line reflects an increase in budget to match the amount of the grant.									

#3	Revenue	FAA Grant AIP #26 and #27 City Match	To:							
			6320	440	N561	3613	N561		335,000	335,000
			From:							
Appropriations	County Aircraft Revenue Reserve		6330	800	8000	8003	6330r		-\$37,221	-\$37,221
	Services: City Forces		6320	440	N561	6010	N561	\$100,000	-\$5,556	\$94,444
			To:							
Appropriations	Construction increased to match AIP27		6320	440	N561	6040	N561		\$277,777	\$277,777
	Airport CIP Fund Contingency Reserve		6320	800	8000	8003	6320r		\$100,000	\$100,000
			From:							
Transfer	City Match for AIP#26 & #27 Using Aircraft Tax		6330	700	N561	7632	6330G		\$37,221	\$37,221
			To:							
			6320	700	N561	9633			\$37,221	\$37,221
Justification	This adjustment is a cleanup of Airport CIP N561 - Security ID Display and will allow the revenues to be placed in the mid-year revenue so that they will roll with the project until completion. This allows for better tracking of reimbursements and expenses. Also being done is to recognize AIP27 FAA grant of \$250,000 and increasing the project budget to reflect increase in funding. The match for AIP26&27 will be Aircraft Tax. Also, an adjustment for design is being made to reflect the actual									

**Budget Adjustments for the Month of January 2004**

e Type of m # Account	Description	Fund	Agcy	Orgn	Object/ Revenue	App Unit	Current Budget (\$)	Adjustment Amount (\$)	Revised Budget (\$)
#4 Appropriations	Aircraft Tax Reserve								
		From:							
		6330	800	8000	8003	6330r		-44,444	(44,444)
	Decrease budget to match	6320	440	N559	6010	N559	\$353,000	-\$556	\$352,444
		To:							
Appropriations	Airport CIP Fund Contingency Reserve	6320	800	8000	8003	6320r		\$45,000	\$45,000
		From:							
Transfer	Aircraft tax to cover match	6330	700	N559	7632	6330g		\$44,444	\$44,444
		To:							
Transfer	Aircraft tax to cover match	6320	700	N559	9633			\$44,444	\$44,444
Justification	This adjustment to N559 - Emergency Airfield Generator, allows us to book the mid-year revenue and match for better tracking and reimbursement purposes.								

#5 Appropriations	Aircraft Tax Reserve								
		From:							
		6330	800	8000	8003	6330r	(44,444)	-29,000	(73,444)
		To:							
Appropriations	Contingency Reserve	6320	800	8000	8003	6320r		\$29,000	\$29,000
		From:							
Transfer	Aircraft tax to cover match	6330	700	N127	7632	6330g		\$29,000	\$29,000
		To:							
Transfer	Aircraft tax to cover match	6320	700	N127	9633			\$29,000	\$29,000
Justification	This adjustment to N127 (Perimeter Access Road) allows us to book the mid-year revenue and match for better tracking and reimbursement purposes.								

#6 Revenues	FAA Grant AIP-25								
		To:							
		6320	160	M254	3613			\$270,000	\$270,000
		6320	160	M254	4405			\$30,000	\$30,000
		From:							
Appropriations	Reduce Budget	6320	160	M254	6081	M254	\$305,084	-\$5,084	\$300,000
		To:							
Appropriations	Airport Operating Reserve	6310	800	8000	8003	6310R	-\$66,317	\$305,084	\$238,767
Justification	This adjustment to M254 (Master Plan) allows us to book the mid-year revenue and match for better tracking and reimbursement purposes. The reduction of object 608 is to correct a prior budget adjustment (BT085) made in error.								

**Budget Adjustments for the Month of January 2004**

e n #	Type of Account	Description	Fund	Agcy	Orgn	Object/ Revenue	App Unit	Current Budget (\$)	Adjustment Amount (\$)	Revised Budget (\$)	
						To:					
#7	Revenues	FAA Grant AIP-28	6320	440	Q143	3613			\$330,000	\$330,000	
						From:					
	Appropriations	Aircraft Tax Reserve	6330	800	8000	8003	6330r		-\$25,555	-\$25,555	
		Decrease construction to match revenue	6320	440	Q143	6040	Q143	\$357,000	-\$94,445	\$262,555	
						To:					
	Appropriations	Airport Operating Reserve	6320	800	8000	8003	6320r		\$450,000	\$450,000	
						From:					
	Transfer	FAA Match AIP-28	6330	700	Q143	7632	6330g		\$25,555	\$25,555	
						To:					
	Transfer	FAA MatchAIP-28	6320	700	Q143	9633			\$25,555	\$25,555	
	Justification	This budget adjustment is to show the grant revenue for Project #Q143. The grant requires a 10% match. Since the Passenger Fees (PFC) are committed at this time, the City did not want to pass on the opportunity to receive an overall \$2.5 million grant. The match is available in Fund 6330.									

						To:					
#8	Revenues	FAA Grant AIP-28	6320	440	X219	3613			\$670,000	\$670,000	
						From:					
	Appropriations	Aircraft Tax Reserve	6330	800	8000	8003	6330r		-\$74,444	-\$74,444	
		Decrease construction to match revenue	6320	440	X219	6040	X219	\$627,000	-\$22,556	\$604,444	
						To:					
	Appropriations	Airport Operating Reserve	6320	800	8000	8003	6320r		\$767,000	\$767,000	
						From:					
	Transfer	Aircraft Tax as Match	6330	700	X219	7632	A208g		\$74,444	\$74,444	
						To:					
	Transfer	Aircraft Tax as Match	6320	700	X219	9633			\$74,444	\$74,444	
	Justification	This budget adjustment is to show the revenue received from the FAA grant AIP#28 and a 10% match is required. Since the Passenger Fees (PFC) are committed at this time, the City did not want to pass on the opportunity to receive a \$2.5 million grant, so it was decided that the General Fund would loan the Airport Fund the match. Once the adjustments are completed, this project will be renamed to A008 to signify this is a current project ("X" delineates future project).									

**Budget Adjustments for the Month of January 2004**

e m #	Type of Account	Description	Fund	Agcy	Orgn	Object/ Revenue	App Unit	Current Budget (\$)	Adjustment Amount (\$)	Revised Budget (\$)	
<u><b>CFD Administration - City Manager's Department</b></u>											
							To:				
#9	Appropriation	Contingency Reserve	0800	800	8000	8003	0800r		-\$10,000	-\$10,000	
							From:				
	Revenue	CFD Formation Fees	2600	020	0206	4048	26006c		\$10,000	\$10,000	
							From:				
	Transfer	Transfer out to Fund 2600	0800	700	7000	7260	0800g		\$10,000	\$10,000	
							To:				
	Transfer	Transfer from Fund 0800	2600	700	7000	9080			\$10,000	\$10,000	
	Justification	In 1997, JKB Homes posted a deposit of \$10,000 for annexation #2 to CFD #1996-1 (Village One). At that time, administration of the CFDs was being transferred to the City Attorney's office from CEDD. The \$10,000 deposit was inadvertently deposited into #080-140-1436-4058.15 rather than into the formation/annexation account for CFD #1996-1									
<u><b>Operations &amp; Maintenance Department</b></u>											
							From:				
#10	Appropriation	General Fund Reserves	0100	800	8000	8003	0100r		-\$34,399	-\$34,399	
							To:				
	Appropriations	Professional Services	0100	480	4522	0235	4800c	\$349,277	\$34,399	\$383,676	
	Justification	This budget adjustment is to reimburse Parks, Service and Maintenance for the design, installation and additional work of a beautification project authorized in 2001 by									
<u><b>Finance Department</b></u>											
							From:				
#11	Appropriation	Contingency Reserves	0100	800	8000	8003	0100r	(1,396,160)	-\$20,972	-\$1,417,132	
							To:				
	Appropriations	Professional Services	0100	120	1222	0235	1200c	\$137,800	\$20,972	\$158,772	
	Justification	On December 11, 2003, Council approved the use of General Fund Reserves to pay Vavrinek, Trine, Day and Co. LLP for additional work on CFD audits. This adjustment will authorize the Finance Department to amend the budget to appropriate funds from the General Fund Reserve to cover the payment to VTD.									

**Budget Adjustments for the Month of January 2004**

e	Type of					Object/	App	Current	Adjustment	Revised
n #	Account	Description	Fund	Agcy	Orgn	Revenue	Unit	Budget (\$)	Amount (\$)	Budget (\$)

<u>Police Department</u>											
			From:								
#12	Appropriation	Reserves - Special Fund for Capital Outlay	1300	800	8000	8003	1300r	2,100,000	-\$1,100,000	\$1,000,000	
			To:								
	Appropriations	Contingency	1300	190	J299	6050	J299		\$1,100,000	\$1,100,000	
	Justification	This adjustment in the amount of \$1,100,000 is to appropriate monies set-aside for anticipated costs related to a bond financed construction project.									

<u>Airport Operations</u>											
			From:								
#12	Appropriation	Aircraft Taxes	6330	800	8000	8003			-\$25,000	-\$25,000	
			To:								
	Appropriations	Services, Professional & Other	6310	440	5412	0235		\$9,485	\$25,000	\$34,485	
			From:								
	Transfer	Transfer out to Fund 6310	6330	700	5412	7631			\$25,000	\$25,000	
			To:								
	Transfer	Transfer from Fund 6330	6310	700	5412	9633			\$25,000	\$25,000	
	Justification	With the recent retirement of Airport Manager, Howard Cook, an amendment needs to be made to provide the necessary funding allowing the City Manager to enter into a contract with Ralph Anderson & Associates to conduct a nationwide recruitment for the position of Airport Manager. Once transferred, these funds will then be encumbered to a contract with Ralph Anderson & Associates for an amount not to exceed \$25,000.									

<u>Airport Operations</u>											
			From:								
#13	Appropriation	Aircraft Taxes	6310	800	8000	8003			-\$3,600	-\$3,600	
			To:								
	Appropriations	Services, Professional & Other	6310	440	5412	0235		\$9,485	\$2,500	\$11,985	
			6310	440	5412	5600		\$18,700	\$1,100	\$19,800	
	Justification	This budget adjustment is to appropriate additional funds into the operating budget to cover unanticipated expenses in the current year's budget. The \$2,500 is to cover expenses for Police Dept security services not covered by the Transportation Security Administration mandate. A transfer in the amount of \$1,100 is to cover the cost associated with the purchase of a roll-up door for one of the T-Hangar storage units in order to provide secure all-weather storage.									

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-090**

**A RESOLUTION AMENDING EXHIBIT "N" OF RESOLUTION 2003-330, ENTITLED "A RESOLUTION GRANTING SALARY AND BENEFIT CHANGES TO UNREPRESENTED MANAGEMENT AND CONFIDENTIAL EMPLOYEES, EFFECTIVE JULY 1, 2003" TO CHANGE THE SALARY RANGE FOR POLICE CHIEF AND FIRE CHIEF FROM RANGE 1425 TO RANGE 1427, EFFECTIVE FEBRUARY 10, 2004.**

WHEREAS, Resolution No. 2003-330 granted salary and benefit changes to Unrepresented Management and Confidential Employees including Charter Officers and Executives, effective July 1, 2003, and

WHEREAS, the City Council desires to increase the Salary Range for Police Chief and Fire Chief from Range 1425 to Range 1427,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

**SECTION 1. AMENDMENT OF RESOLUTION NO. 2003-330.**

Exhibit "N" entitled "City of Modesto Class Range Table, Executive Management Effective July 1, 2003," attached to Resolution No. 2003-330, is hereby amended as shown on the amended **Exhibit "N"** entitled, "City of Modesto Class Range Table Executive Management Effective February 10, 2004," which is attached hereto and made a part hereof as though set forth in full herein. Said amended Exhibit "N" changes the Salary Range for Police Chief and Fire Chief from Range 1425 to Range 1427.

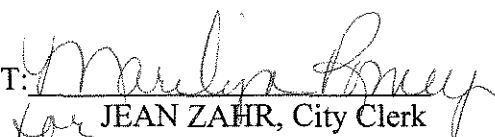

**SECTION 2. EFFECTIVE DATE.** This resolution shall become effective on and after February 10, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10<sup>th</sup> day of February, 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-091**

**A RESOLUTION APPROVING THE TIMELINE FOR CITIZEN PARTICIPATION CALENDAR OF EVENTS FOR 2004-2005 HUD ANNUAL ACTION PLAN AND PUBLIC SERVICE GRANTS, AND ESTIMATED AMOUNTS FOR THE PUBLIC SERVICE GRANTS.**

WHEREAS, Federal Housing and Urban Development (HUD) regulations require the City of Modesto to have a Citizens' Participation Plan which contains the City's procedures for community participation in the development of the Annual Action Plan and the use of Community Development Block Grant (CDBG), HOME Investment Partnership Grant (HOME) and Emergency Shelter Grant (ESG) funds, and

WHEREAS, the City adopted and last amended its Citizen Participation Plan in October 1998, a copy of which is available for review at the Recreation and Neighborhood Services Division office at Tenth Street Place, and

WHEREAS, the proposed calendar for citizen participation includes Public Service grant applications for CDBG as well as ESG proposals, and

WHEREAS, staff anticipates the proposed allocation of \$150,000 of Public Service grants will be designated for the operation of allowable City programs, such as the Crime Free Multi Housing Project and recreation programs, and

WHEREAS, staff anticipates the proposed estimated RFP amounts for Public Service grants will be \$308,100 in CDBG funds and \$105,715 in ESG funds, and

WHEREAS, at its January 29, 2004, meeting, the Citizens Housing and Community Development Committee considered and supported staff recommendations for the timeline for the Citizen Participation Calendar of Events for 2004-2005 HUD Annual Action Plan and Public Service grants, and for the estimated RFP amounts for Public Service grants,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the timeline for the Citizen Participation Calendar of Events for 2004-2005 HUD Annual Action Plan and Public Service grants, and for the estimated RFP amounts for Public Service grants, a copy of which is attached hereto as **Exhibit "A"** and incorporated herein by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10<sup>th</sup> day of February, 2004, by Councilmember Dunbar, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant  
Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-092**

**A RESOLUTION APPOINTING WILLIAM GLICK TO THE CITIZENS  
ADVISORY COMMITTEE ON RECYCLING**

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards and Commissions, and

WHEREAS, the Economic Development Committee met on February 9, 2004, and recommended appointment of WILLIAM GLICK to the Citizens Advisory Committee on Recycling.

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. WILLIAM GLICK is hereby appointed to the Citizens Advisory Committee on Recycling with a term expiration of January 1, 2008.

SECTION 2. The City Clerk is hereby directed to transmit a copy of this resolution to the newly appointed member of the Citizens Advisory Committee on Recycling, and the Secretary thereof.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of February, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-098**

**A RESOLUTION AWARDING A \$190,700 CONTRACT TO O'DELL  
ENGINEERING, INC. FOR ENGINEERING DESIGN SERVICES FOR THE  
PROJECT TITLED "FLOYD AVE. ROAD IMPROVEMENT PROJECT FROM  
OAKDALE RD. TO ROSELLE AVE."**

WHEREAS, following a Request for Qualifications which was sent to all local engineering firms, six statements of qualifications were received for the Floyd Avenue Design and were submitted to the City, and

WHEREAS, a selection team decided all six firms were qualified to provide engineering design services, and

WHEREAS, the selection team decided that O'Dell Engineering, Inc., rated highest for the design of the Floyd Avenue Road Improvement Project, in accordance with Administrative Directive 3.1, and

WHEREAS, the District Engineer has recommended that O'Dell Engineering, Inc., be accepted as the most qualified engineering consulting firm for engineering design services for the "Floyd Ave. Road Improvement Project From Oakdale Rd. to Roselle Ave.", and

WHEREAS, the District Engineer has recommended accepting the proposal of O'Dell Engineering, Inc., in an amount not to exceed \$190,700.00,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards a contract for engineering design services for the project titled "Floyd Ave. Road Improvement Project From Oakdale Rd. to Roselle Ave." to O'Dell Engineering, Inc., in an amount not to exceed \$190,700.00.

BE IT FURTHER RESOLVED that the District Administrator, or his designee, is hereby authorized to execute the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of February, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-099**

**A RESOLUTION AWARDING A \$197,139 CONTRACT TO STANTEC, INC. FOR ENGINEERING DESIGN SERVICES FOR THE PROJECT TITLED “CARVER-BANGS/PELANDALE-SNYDER CFD NO. 1998-2 STORM DRAINAGE IMPROVEMENTS, EAST BASIN AND WEST BASIN PUMP STATIONS TO MID LATERAL NO. 6.”**

WHEREAS, following a Request for Qualifications which was sent to 100+ civil engineering firms including all local engineering firms, 13 statements of qualifications were received by the District, and

WHEREAS, a selection team unanimously decided that one engineering firm stood out amongst the 12 other firms and was best qualified to provide the necessary engineering design services, and

WHEREAS, the selection team determined that Stantec, Inc., rated highest in accordance with Administrative Directive 3.1, and

WHEREAS, the District Engineer has recommended that Stantec Inc., be accepted as the most qualified engineering consulting firm to provide engineering design services for the “Carver-Bangs/Pelandale-Snyder CFD No. 1998-2 Storm Drainage Improvements, East Basin and West Basin Pump Stations to MID Lateral No. 6 Project”, and

WHEREAS, the District Engineer has recommended accepting the proposal of Stantec, Inc., in an amount not to exceed \$197,139.00,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards a contract for engineering design services for the project titled “Carver-Bangs/Pelandale-Snyder CFD No. 1998-2 Storm Drainage Improvements, East

Basin and West Basin Pump Stations to MID Lateral No. 6 Project.” to Stantec, Inc., in an amount not to exceed \$197,139.00.

BE IT FURTHER RESOLVED that the District Administrator, or his designee, is hereby authorized to execute the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of February, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O’Bryant, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-100**

**A RESOLUTION ACCEPTING WITH REGRET THE RESIGNATION OF FRED  
HERMAN FROM THE COMMUNITY QUALITIES FORUM, EFFECTIVE  
FEBRUARY 24, 2004**

WHEREAS, FRED HERMAN was appointed a member of the Community  
Qualities Forum on May 8, 2001; and

WHEREAS, FRED HERMAN has tendered her resignation from the Community  
Qualities Forum, effective February 24, 2004; and

WHEREAS, FRED HERMAN has been a devoted and sincere public servant and  
has contributed greatly to our civic progress,

NOW, THEREFORE, BE IT RESOLVED that the resignation of FRED  
HERMAN from the Community Qualities Forum be, and hereby is accepted with regret.

BE IT FURTHER RESOLVED that the Council of the City of Modesto, on its  
own behalf, and on behalf of the citizens of this City, hereby expresses its sincere  
appreciation to FRED HERMAN for her outstanding service to the community.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of February, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-101**

**A RESOLUTION ADOPTING REASONABLY AVAILABLE 2004 LOCAL  
GOVERNMENT TRANSPORTATION CONTROL MEASURES IN THE  
EXTREME OZONE ATTAINMENT DEMONSTRATION PLAN FOR THE SAN  
JOAQUIN VALLEY**

WHEREAS, the San Joaquin Valley Air Pollution Control District (SJVAPCD) has been designated by the Governor of California as the regional air quality planning agency in San Joaquin Valley, and

WHEREAS, the San Joaquin Valley non-attainment area was initially classified as a Severe Area for ozone according to the Clean Air Act, and

WHEREAS, on February 5, 2002, by Resolution Number 2002-43 the City adopted Modesto's Reasonably Available Transportation Control Measures (TCMs) which were included in the SJVAPCD Severe Area Ozone Plan, and

WHEREAS, the San Joaquin Valley Air Pollution Control District has reclassified the San Joaquin Valley as Extreme non-attainment for the one-hour ozone standard and is now developing an Extreme Ozone Attainment Demonstration Plan, and

WHEREAS, the Extreme Ozone Attainment Demonstration Plan is required to include Reasonably Available Control Measures from the City of Modesto, and

WHEREAS, the City of Modesto is required to make a new commitment recognizing the Extreme status by implementing updated Reasonably Available Control Measures,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council finds, determines, and orders as follows:

1. That the Council of the City of Modesto agrees to proceed with a good faith effort to implement the Transportation Control Measures (TCMs) identified in **Exhibit A** which is part of this resolution; and
2. That the Council of the City of Modesto commits to implement the TCMs as scheduled and with the funding sources identified. Recognizing, however, that the availability of necessary funding may depend on the funding programs or processes of various state and federal agencies, the City of Modesto agrees to consider modifications of the funding or schedules for implementation actions, if necessary.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of February, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

## EXHIBIT A

### Explanations for Commitment to the 2004 Control Measures

#### **Measure Title: ST 1.1: Regional Express Bus Program**

**Measure Description:** Purchase of buses to operate regional express bus services.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation, Operations and Maintenance

**Implementation Schedule:** Existing. Continuation of existing service dependent upon continued availability of revenue from federal and state sources and continued level of existing demand for service. Evaluation of service expansion contingent upon availability of full capital and operating funding from State and Federal sources specifically earmarked for public transit service.

**Funding Allocated to Measure and Source:** Service expansion contingent upon availability of funding from State and Federal sources specifically earmarked for public transit service. Potential funding sources include: Congestion Mitigation and Air Quality, Local Transportation Funds and passenger fares.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

#### **Measure Title: ST 1.2: Transit Access to Airports**

**Measure Description:** Operation of transit to regional airports to serve air passengers.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation, Operations and Maintenance

**Implementation Schedule:** Existing. Continuation of service dependent upon continuation of existing level of state and federal transit revenue and in rider demand.

**Funding Allocated to Measure and Source:** Continuation of service dependent upon continuation of existing level of state and federal transit revenue. Potential funding sources include FTA Sec 5307, Local Transportation Funds, and passenger fares.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 1.5: Expansion of Public Transportation Systems**

**Measure Description:** Expand and enhance existing public transit services. Monitor needs for increased frequencies on heavily used routes; implement as appropriate; implement service as appropriate for newly developed areas.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation, Operations and Maintenance

**Implementation Schedule:** Dependent upon available revenue and rider demand. Implementation of service subject to an increase in state and federal funding to fully fund both capital and operating costs for public transit service.

**Funding Allocated to Measure and Source:** Potential funding sources include FTA Section 5307, Local Transportation Funds, and passenger fares.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 1.7 Free Transit During Special Events**

**Measure Description:** As funding is available offer free transit during selected special events to reduce event related congestion and associated emissions increases. Includes Try Transit Week, Modesto's International Festival, and service to the annual free Thanksgiving dinner at Modesto Centre Plaza.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation, Operations and Maintenance

**Implementation Schedule:** Dependent upon available revenue and rider demand.

**Funding Allocated to Measure and Source:** Potential funding sources include: FTA Section 5307, Local Transportation Funds and passenger fares.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 3.5: Preferential Parking for Carpools and Vanpools**

**Measure Description:** This measure encourages public and private employers to provide preferential parking spaces for carpools and vanpools to decrease the number of single occupant automobile work trips. The preferential treatment could include covered parking spaces or close-in spaces.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation, Operations and Maintenance

**Implementation Schedule:** The feasibility of this strategy at Tenth Street Plan has been evaluated. This plan will be reviewed every 24 months to assess if the feasibility of this strategy has changed.

**Funding Allocated to Measure and Source:** There is no cost involved with the evaluation.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 3.16: Telecommuting**

**Measure Description:** Goal of specified percentage of employees telecommuting at least once per week.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation, Operations and Maintenance, Information Technology, Parks, Recreations and Neighborhoods (pilot project)

**Implementation Schedule:** We have supported one full time telecommuter on a pilot basis, and are providing limited telecommuting opportunities to staff and contractors where business necessity recommends this approach. Employees have access to their city e-mail account to facilitate telecommuting

**Funding Allocated to Measure and Source:** There is no cost involved with the evaluation.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 5.1: Develop Intelligent Transportation Systems**

**Measure Description:** "Intelligent Transportation Systems" includes various technological applications intended to produce more efficient use of existing transportation corridors.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation (Traffic Engineering)

**Implementation Schedule:** Three projects currently identified for this measure have been completed. These projects include an expansion of the ATMS Northeast completed by the end of 2002, an expansion of the ATMS Northwest completed by the end of 2003 and Phase III of the Closed Circuit Television completed by the end of 2002.

**Funding Allocated to Measure and Source:** The current projects are funded out of Congestion Mitigation and Air Quality funds.

ATMS Northeast \$490,428                      Pelandale-ATMS/CCTV: \$425,000  
Expand ATMS – College \$100,000      ATMS Northwest: \$805,000      CCTV: \$1,290,940

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District’s Annual Report.

---

**Measure Title: ST 5.2: Coordinate Traffic Signal Systems**

**Measure Description:** This measure implements and enhances synchronized traffic signal systems to provide steady traffic flow at moderate speeds. In 2002 the City of Modesto won CATS award for best use of federal funds for the synchronizing the light outside the downtown core.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation (Traffic Engineering)

**Implementation Schedule:** Ongoing as long as Congestion Mitigation and Air Quality funds remain available for these projects. Current projects included: 1- synchronize downtown lights 2004; and 2- synchronize outside downtown core 2006.

**Funding Allocated to Measure and Source:** There is no specific funding associated with this measure. Future projects will be dependent upon Congestion Mitigation and Air Quality allocations.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District’s Annual Report.

---

**Measure Title: ST 5.3: Reduce Traffic Congestion at Major Intersections**

**Measure Description:** This measure implements a wide range of traffic control techniques designed to facilitate smooth, safe travel through intersections. These techniques include signalization, turn lanes, roundabouts, or median dividers. The use of grade separations may also be appropriate in cases where adequate funding is available for high volume or unusually configured intersections.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation (Traffic Engineering)

**Implementation Schedule:** On-going as long as Congestion Mitigation and Air Quality funding is available for these projects. Recent projects include roundabouts on Bowen and La Loma.

**Funding Allocated to Measure and Source:** Potential funding sources include Congestion Mitigation and Air Quality funds, Gas Tax funds and Capital Facilities Fees.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 5.4: Site-Specific Traffic Control Measures**

**Measure Description:** This measure could include geometric or traffic control improvements at specific congested intersections or at other substandard locations. Another example might be programming left turn signals at intersections to lag, rather than lead, the green time for through traffic.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation (Traffic Engineering)

**Implementation Schedule:** On-going as long as Congestion Mitigation and Air Quality funds remain available. Recent projects include: 1 - Woodland / Carpenter to 9<sup>th</sup> Street; 2- Scenic and Oakdale; 3 – Pelandale Dale to Tully; and, 4 – Kansas Needham Overpass.

**Funding Allocated to Measure and Source:** Potential funding sources include Congestion Mitigation and Air Quality funds, Capital Facilities Fees, and Gas Tax funds.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 5.9: Bus Pullouts in Curbs for Passenger Loading**

**Measure Description:** Provide a limited number of additional bus pullouts in curbs, or queue jumper lanes for passenger loading and unloading in new areas.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation (Traffic Engineering)

**Implementation Schedule:** The City of Modesto operates a program to install bus pullouts in new development through the City's standard specifications for new development.

**Funding Allocated to Measure and Source:** This measure is to be paid from the Capital Facilities Fees program until such a time as the program is modified or discontinued.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 5.13: Fewer Stop Signs**

**Measure Description:** Improve traffic flow by removing stop signs and implementing alternative intersection control devices such as roundabouts.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation (Traffic Engineering)

**Implementation Schedule:** This project is on-going as long as Congestion Mitigation and Air Quality funds remain available for utilization.

**Funding Allocated to Measure and Source:** Potential funding sources include Congestion Mitigation and Air Quality funds, Capital Facilities Fees, and Gas Tax funds.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 7.16: Trip Reduction Oriented Development**

**Measure Description:** The General Plan provides that all new Specific Plan areas are to incorporate walkability and include commercial, residential and schools in proximity to residential. Modesto's development pattern is well above average density for the region.

**Responsible Agency for Implementation:** City of Modesto: Planning and Community Development Department

**Implementation Schedule:** On-going until revised by Council. As part of the upcoming General Plan Update and future Specific Plans the Council will consider expansion of, or additional pedestrian-oriented and "smart growth" development policies or standards that would result in trip reduction oriented development.

**Funding Allocated to Measure and Source:** No funding source was identified.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 7.18: Sustainable Development**

**Measure Description:** The General Plan provides that all new Specific Plan areas are to incorporate walkability and include commercial, residential and schools in proximity to residential. Modesto's development pattern is well above average density for the region.

**Responsible Agency for Implementation:** City of Modesto: Planning and Community Development Department

**Implementation Schedule:** On-going until revised by Council. As part of the upcoming General Plan Update and future Specific Plans the Council will consider expansion of, or additional pedestrian-oriented and “smart growth” development policies or standards that would result in trip reduction oriented development.

**Funding Allocated to Measure and Source:** No funding source has been identified for this measure.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District’s Annual Report.

---

**Measure Title: ST 8.1: Financial Incentives, Including Zero Bus Fares**

**Measure Description:** Provide financial incentives or other benefits, such as free or subsidized bus passes and cash payments for not driving, in lieu of parking spaces for employees who do not drive to the workplace.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation

**Implementation Schedule:** The City of Modesto currently provides free rides to work for all of its employees and will continue this program subject to evaluation/termination during the meet and confer process with City employee representatives.

**Funding Allocated to Measure and Source:** Currently, this program is funded with Local Transportation Funds.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District’s Annual Report.

---

**Measure Title: ST 8.3: Preferential Parking for Carpoolers**

**Measure Description:** Provide preferential for carpoolers.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation

**Implementation Schedule:** The feasibility of this strategy at Tenth Street Place has been evaluated. This feasibility will be reviewed every 24 months.

**Funding Allocated to Measure and Source:** There is no cost involved with the evaluation.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District’s Annual Report.

---

**Measure Title: ST 9.2: Encouragement of Pedestrian Travel**

**Measure Description:** This measure involves the use of pedestrian travel as an alternative to automobile travel. Pedestrian travel is quite feasible for short shopping, business, or school trips. Promotion of pedestrian travel could be included in air pollution public awareness efforts to remind people of this basic alternative. The City of Modesto encourages pedestrian travel by providing Class I trails that connect neighborhoods with schools, shopping and employment centers. The planned 4.2-mile Virginia Corridor bike/pedestrian trail will be a major north-south artery connecting downtown Modesto with residential neighborhoods, schools, parks and commercial areas. Other Class I trails include the 3-mile Hetch-Hetchy Trail in north Modesto, the 5-mile Mensinger Trail along Dry Creek between downtown and Claus Road at the eastern limits of Modesto. The 3-mile Bev Kilpatrick Trail along the Tuolumne River provides a recreational walking experience and will ultimately connect to the downtown Modesto. The City also has plans for Class I trails along the irrigation canals within the city limits and for the entire river and creek system in Modesto.

**Responsible Agency for Implementation:** The City of Modesto Parks, Recreation and Neighborhood Department.

**Implementation Schedule:** The City's ongoing rideshare program that encourages alternative forms of transportation. In addition, as part of the upcoming General Plan Update and future Specific Plans the Council will consider expansion of, or additional pedestrian-oriented and "smart growth" development policies or standards that would result in pedestrian-oriented development. In addition the city's Parks, Recreation and Neighborhood Department has an ongoing program for the development of walking trails.

**Funding Allocated to Measure and Source:** The City of Modesto will continue its rideshare program so long as CMAQ funds are available for that purpose.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 9.3: Bicycle/Pedestrian program**

**Measure Description:** Fund high priority projects within the City of Modesto as part of countywide plans consistent with funding availability. The Parks Recreation and Neighborhoods Department is seeking State and Federal funding for Class I trail construction of the trails listed above in ST 9.2. The Virginia Corridor Trail is a high priority project for funding. All 11 miles of existing Class I trails and those that are planned are to be multi-user trails and will support walking, biking jogging and skating.

**Responsible Agency for Implementation:** City of Modesto Parks Recreation and Neighborhoods Department

**Implementation Schedule:** As part of the upcoming General Plan Update and future Specific Plans the Council will consider expansion of, or additional alternative transportation and “smart growth” development policies or standards that would result in development friendly to bicycle/pedestrian travel.

**Funding Allocated to Measure and Source:** Current funding includes Safe Routes to Schools funds for trail/street crossing improvements from College to Granger \$440,000 grant; \$44,000 City match; Proposition 40: \$350,000; Federal RSTP: \$400,000; State Bicycle Transportation Account (BTA): \$697,000 to apply toward construction from Orangeburg to College. Rotary Centennial Project: Donation of Labor and funds by Modesto's 5 Rotary Clubs, with a value of \$500,000 for construction from Roseburg to Orangeburg. Future funding may include CMAQ, LTF. All funding sources will be aggressively pursued.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District’s Annual Report.

---

**Measure Title: ST 9.5: Encouragement of Bicycle Travel**

**Measure Description:** Promotion of bicycle travel to reduce automobile use and improve air quality. Bikeway system planning routes for inter-city bike trips to help bicyclists avoid other, less safe facilities. Another area for potential actions is the development and distribution of educational materials, regarding bicycle use and safety.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation, City of Modesto Parks Recreation and Neighborhoods Department

**Implementation Schedule:** The City of Modesto will continue to hold the bike to work day and family cycling festival to encourage bicycle travel. In addition, as part of the upcoming General Plan Update and future Specific Plans the Council will consider expansion of, or additional “smart growth” development policies or standards that would result in neighborhood design to encourage connectivity, and linkages between residential and non-residential development to provide opportunities for non-motorized modes including bicycles.

**Funding Allocated to Measure and Source:** Congestion Mitigation and Air Quality has been identified as a potential funding source.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District’s Annual Report.

---

**Measure Title: ST 9.11: Safe Routes to School**

**Measure Description:** Continue to apply for grants to improve pedestrian and bicycle travel for school trips. The current Safe Routes to Schools grant monies will fund construction of intersection improvements along the Virginia Corridor Trail between College Avenue and

Granger Avenue. The improvements will include L.E.D. lights in crosswalks at five street crossings, sidewalk, curb ramp and street light improvements and is to be constructed Summer, 2004. See item 9.2 for more detail on the Virginia Corridor. Other projects will be considered for funding applications as opportunities come available.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation (Traffic Engineering), City of Modesto Parks Recreation and Neighborhoods Department

**Implementation Schedule:** On-going as long as funding remains available. In 2004 the City of Modesto received \$698,798 of state department of transportation funds for a bicycle train along the Virginia Corridor. In 2003 \$294,000 was received from the state to pay for flashing-light crosswalks, curb ramps, streetlights and sidewalks at the trail crossings on the corridor.

**Funding Allocated to Measure and Source:** Potential funding sources for this measure include the Safe Routes to School Program and Congestion Mitigation and Air Quality funds.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 10.2: Bicycle Racks on Buses**

**Measure Description:** Bicycle racks have been placed on all urban buses to increase bicycle travel.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation

**Implementation Schedule:** All City of Modesto urban transit buses have bicycle racks on them. Bicycle racks will be added to new buses as long as Federal and State funding remains available for the purchase of buses.

**Funding Allocated to Measure and Source:** Congestion Mitigation and Air Quality Funds as well as, Federal Transit Agency Section 5307 funds have been identified as potential funding sources.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 11.8: Ban Cruising during Ozone Alert Days**

**Measure Description:** Police enforced. Cruising is prohibited by ordinance in Modesto.

**Responsible Agency for Implementation:** City of Modesto Police Department

**Implementation Schedule:** On-going until such time as the measure is revisited/revoked.

**Funding Allocated to Measure and Source:** No specific funding source was identified.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 11.9: Discourage Drive-Thru's in new development**

**Measure Description:** Reduce the number of drive-thrus in new development or declare a moratorium on new development with drive-thrus until air quality standards are achieved.

**Responsible Agency for Implementation:** City of Modesto: Community and Economic Development Department

**Implementation Schedule:** As part of the upcoming General Plan Update and future Specific Plans the Council will consider expansion of, or additional alternative transportation and "smart growth" development policies or standards that would result in development friendly to bicycle/pedestrian travel.

**Funding Allocated to Measure and Source:** No specific funding source was identified.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure ST 13.1: Alternative Work Schedules**

**Measure Description:** Where appropriate, based on work requirements and employee availability for customer service, consider and implement limited pilot projects for alternative work schedules.

**Responsible Agency for Implementation:** City of Modesto: Personnel, Engineering and Transportation Department, Modesto Police Department, Modesto Fire Department, Operations and Maintenance Department

**Implementation Schedule:** In labor negotiations, alternative work schedules are options in each of the bargaining unit memorandums of understanding. Based on these MOU's alternative work schedules are utilized in several departments and are based on work requirements, employee scheduling and the needs of the department.

Currently there are employees in many departments including Police, Fire, Engineering and Transportation and Operations and Maintenance Departments who work alternative work schedules. This has been worked through any pilot stage issues and are part of the normal business practices for the departments. In the future, when appropriate, the City of Modesto will consider looking at other options for alternative work schedule projects.

**Funding Allocated to Measure and Source:** Funding for alternative work schedules are not available. Alternative work schedules projects will only be able to be accomplished if they work within existing funding availability.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 13.5: Internet Commerce and Education**

**Measure Description:** Encourage the use of the Internet to conduct public and private business and education.

**Responsible Agency for Implementation:** Various City departments in coordination with the City's Information Services Department.

**Implementation Schedule:** Currently underway and on-going. Examples of City services available on the Internet are: business license forms and listings, Purchasing contracting opportunities, claim forms, employment opportunities and applications forms, zoning maps and Assessor's plats, utility information, City Standard Design and Construction Specifications, streaming live and archived City Council Meetings, City Council agendas, staff reports and minutes, Council Committee Agendas, the Modesto Municipal Code, Parks and Recreation Department recreational activity registration forms, and complaint/comment/suggestion forms.

**Funding Allocated to Measure and Source:** These activities are supported by the General Fund and various Utility Enterprise Funds, as may be appropriate.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 14.3: Land Use/Development Alternatives**

**Measure Description:** This measure includes encouraging land use patterns which support public transit and other alternative modes of transportation. In general this measure would also encourage land use patterns designed to reduce travel distances between related land uses (eg. Residential-commercial). Shorter trip lengths ultimately relieve traffic congestion and improve air quality. The Modesto General Plan provides that all new Specific Plan areas are to incorporate walkability and include commercial, residential and schools in proximity to residential. Modesto's development pattern is well above average density for the region.

**Responsible Agency for Implementation:** City of Modesto: Planning Economic and Development Department

**Implementation Schedule:** As part of the upcoming General Plan Update and future Specific Plans the Council will consider expansion of existing “neo-traditional” policies, or additional “smart growth” development policies and standards that would result in Specific Plan and neighborhood design to encourage connectivity and linkages between residential and non-residential uses and land-use patterns that would provide increased opportunities for non-motorized and alternative modes as well as reduce reliance on automobiles.

**Funding Allocated to Measure and Source:** No specific funding source was identified for this measure.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District’s Annual Report.

---

**Measure Title: ST 15.2: Pedestrian and Bicycle Overpasses Where Safety Dictates**

**Measure Description:** On-going implementation as development occurs and as funding is available. One current project is the 9th Street Bridge that will have pedestrian sidewalks on either side of the bridge, with a fog stripe delineating a shoulder area for stalled vehicles. This shoulder is approximately 7.5 feet wide and could facilitate bicycle travel. The Specific Plan for the Virginia Corridor Trail project includes pedestrian bridge over crossings at three road crossings: Briggsmore Avenue, Standiford Avenue and Pelandale Avenue. The over crossings are considered essential over these roads due to the high-speed and high-volume of vehicle traffic they experience. A future pedestrian over crossing at the new Enochs High School has been identified as a specific project. Pedestrian and Bicycle safety necessitate these over crossings.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation (Traffic Engineering)

**Implementation Schedule:** On-going as funding is available. The Enochs High School over Crossing is funded through a combination of developer fees and school funding.

**Funding Allocated to Measure and Source:** Potential sources include developer funding, pedestrian safety funds and Congestion Mitigation and Air Quality funds.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District’s Annual Report.

---

**Measure ST 17.15: Encourage the Purchase and Use of Alternative, Cleaner Vehicles.**

**Measure Description:** Encourage the purchase and use of alternative, cleaner vehicles in city operations where appropriate

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation, Modesto Police Department

**Implementation Schedule:** This project is on-going as long as funds are available for purchase and operations of the vehicles. Current projects include the addition of hybrid vehicles to the city fleet, purchase of hybrid buses for the transit fleet and purchase and operation of electric vehicles for police parking control.

**Funding Allocated to Measure and Source:** Potential funding sources include Congestion Mitigation and Air Quality funds, Capital Facilities Fees, and Gas Tax funds.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

## **Explanations for Non-Commitment to the 2004 Control Measures**

### **Measure ST 1.4: Mass Transit Alternatives**

The City of Modesto already operates a fixed route service as well as, a Dial-A-Ride service. As such, this measure is fiscally infeasible due to the expanded transit service already provided by the City of Modesto.

### **Measure ST 3.1: Commute Solutions**

This measure would be better served by implementation at the regional level. As such, the City of Modesto does not find it to be fiscally feasible to implement this measure. However, it should be noted that the City of Modesto supports the StanCOG regional rideshare program.

### **Measure ST 3.9: Encourage Merchants and Employers to Subsidize the Cost of Transit for Employees**

This measure would be better served by implementation at the regional level. As such, the City of Modesto does not find it to be fiscally feasible to implement this measure.

### **Measure ST 5.16: Adaptive Traffic Signals and Signal Timings**

Modesto currently has deployed a closed loop system with flexibility to implement a traffic responsive mode. Conversion to an adaptive traffic signal system is not fiscally feasible for the City of Modesto to implement.

### **Measure ST 7.14: Incentives for Cities with Good Development Practices**

This measure needs to be implemented on a larger scale to make it effective and would be best implemented on a regional or statewide scale. This measure is not fiscally feasible for the City of Modesto to implement.

### **Measure ST 7.15: Cash Incentives to Foster Jobs/Housing Balance**

This measure needs to be implemented on a larger scale to make it effective and would be best implemented on a regional or statewide scale. This measure is not fiscally feasible for the City of Modesto to implement.

### **Measure ST 7.17: Transit Oriented Development**

While with the upcoming General Plan Update and future Specific Plans the Council will consider expansion of existing “neo-traditional” policies, or additional “smart growth” development policies and standards to encourage alternate land-use patterns, there are limited opportunities within the Modesto Urban Area to plan and construct a true Transit-Oriented Development (TOD). The Amtrak station and the downtown rail station/transit center are the major opportunities for planning a TOD in Modesto. Typically, TODs are developed along rail or major transportation corridors in larger Metro areas with an excess of a million in population to support the associated rail/light rail/express bus systems (e.g. Laguna West in Sacto). Nonetheless, the opportunity could be explored for a mixed-use TOD at the Village One Amtrak site with future proposals in that area.

**Measure ST 7.19: Establishment of Urban Growth Boundaries**

Effective establishment of urban growth boundaries can only be accomplished in a regional setting. In the upcoming General Plan Update the Council will consider additional “smart growth” development policies and alternate growth patterns. There will also be opportunity to explore alternate growth boundaries for the General Plan. The General Plan Update will be an opportunity for Modesto to do its part in a regional effort by reexamining the Community Growth Policy process set forth in the General Plan including the potential for redefining or establishing Modesto’s permanent urban growth boundaries.

**Measure ST 8.2: Internet Ride Matching Services**

This measure would be better served by implementation at the regional level. As such, the City of Modesto does not find it to be fiscally feasible to implement this measure. However, it should be noted that the City of Modesto supports the StanCOG regional rideshare program.

**Measure ST 15.1: Encouragement of Pedestrian Travel**

This measure would be better served by implementation at the regional level through Commute Connection.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-102**

**A RESOLUTION APPROVING THE FINAL MAP AND ACCEPTING PUBLIC IMPROVEMENTS IN THE PELANDALE PROFESSIONAL PARK SUBDIVISION OF THE CITY OF MODESTO AND AUTHORIZING THE CITY MANAGER TO EXECUTE A SUBDIVISION AGREEMENT WITH PELANDALE PROFESSIONAL PARK, LLC, A CALIFORNIA LIMITED LIABILITY COMPANY**

WHEREAS, PELANDALE PROFESSIONAL PARK, LLC, a California Limited Liability Company, is possessed of a tract of land situated in the City of Modesto, County of Stanislaus, consisting of 1.64 acres, known as the PELANDALE PROFESSIONAL PARK SUBDIVISION (“SUBDIVISION”), and

WHEREAS, a tentative map of said tract was approved by the Planning Commission of the City of Modesto on the 19th day of May, 2003, and

WHEREAS, the Secretary of the Planning Commission of the City of Modesto has certified that the final map of said tract substantially conforms to the approved tentative map, and

WHEREAS, the City Engineer of the City of Modesto has certified that the final map of said SUBDIVISION meets all of the provisions of the California Subdivision Map Act and the provisions of the Modesto Municipal Code relating to subdivisions, and that the map is technically correct, and

WHEREAS, the Engineering and Transportation Director has certified that all public improvements required by the City of Modesto have been completed in said tract to the satisfaction of the Engineering and Transportation Director, and

WHEREAS, the Engineering and Transportation Director has indicated that it would be in order for the City Council to accept the public improvements in said subdivision as complete and authorize the City Clerk to file a Notice of Completion and release the bonds upon the expiration of the statutory periods,

WHEREAS, the subdivider has posted a warranty security in an amount equal to the estimated cost of the public improvements, as determined by the City Engineer, to guarantee and warranty the public improvements for a period of one year after acceptance.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that:

1. The final map is hereby approved.
2. The dedications for streets, alleys and easements as shown thereon within the boundaries of said tract are hereby accepted on behalf of the public for public use.
3. The improvements completed in Pelandale Professional Park Subdivision are hereby accepted and the City Clerk is hereby authorized to file a Notice of Completion for the improvements.
4. The City Clerk is hereby authorized to certify the map of said tract on behalf of the City of Modesto, after the fees and deposits required by the Modesto Municipal Code in amounts determined by the City Engineer have been paid.
5. The City Manager and the City Clerk are hereby authorized to execute and attest, respectively, an agreement with subdivider as required by Section 4-4.604(c) of the Municipal Code.

6. The City Clerk is further authorized to release the warranty security to guarantee improvements in the amount of \$1,924.34 one year and one day after the effective date of this resolution, provided no claim is made thereon.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of February, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-103**

**A RESOLUTION APPROVING THE FINAL MAP OF THE MIRA LOMA  
SUBDIVISION AND AUTHORIZING THE CITY MANAGER TO EXECUTE A  
SUBDIVISION AGREEMENT WITH RIDGE SUTTER, A MARRIED MAN AS  
HIS SOLE AND SEPARATE PROPERTY**

WHEREAS, RIDGE SUTTER, a married man as his sole and separate property, is possessed of a tract of land situated in the City of Modesto, County of Stanislaus, consisting of 5.66 acres, known as the MIRA LOMA ("SUBDIVISION"), and

WHEREAS, a tentative map of said tract was approved by the Planning Commission of the City of Modesto on the 7<sup>th</sup> day of April, 2003, and

WHEREAS, the Secretary of the Planning Commission of the City of Modesto has certified that the final map of said tract substantially conforms to the approved tentative map, and

WHEREAS, the City Engineer of the City of Modesto has certified that the final map of said SUBDIVISION meets all of the provisions of the California Subdivision Map Act and the provisions of the Modesto Municipal Code relating to subdivisions, and that the map is technically correct,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that said final map be approved; that the dedications for streets, alleys and easements as shown thereon within the boundaries of said tract be accepted on behalf of the public for public use; and that the City Clerk be authorized to certify the map of said tract on behalf of the City of Modesto after the fees and deposits required by the Modesto Municipal Code in amounts determined by the City Engineer have been paid, and after subdivider has furnished securities, as set forth in Section 4-4.605 of the Modesto Municipal Code,

which shall secure the obligations set forth in Section 66499.3 of the Government Code of the State of California. Said securities shall be in forms acceptable to the City Attorney and in the amounts required by the City Engineer.

BE IT FURTHER RESOLVED that the City Manager and the City Clerk be authorized to execute and attest, respectively, an agreement with subdivider as required by Section 4-4.604(c) of the Modesto Municipal Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of February, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004- 104**

**A RESOLUTION AFFIRMING THE CITY'S CO-SPONSORSHIP OF "EARTH DAY IN THE PARK FESTIVAL, 2004" AT GRACEADA PARK AND ALLOWING THE SALE OF MERCHANDISE IN THE PARK DURING THE EVENT.**

WHEREAS, in 1970, Earth Day was established to make the public aware of programs successful in protecting the environment and conserving natural resources, and

WHEREAS, by Resolution No. 92-129, adopted March 24, 1992, the City Council acknowledged "Earth Day in the Park" as an annual event, and

WHEREAS, the Citizen's Advisory Committee on Recycling (CACOR) sponsors the event, and the 15<sup>th</sup> Annual "Earth Day in the Park" will be held on Saturday, April 17, 2004, at Graceada Park, and

WHEREAS, "Earth Day in the Park Festival, 2003" drew approximately 90 vendors, and

WHEREAS, because the CACOR is an advisory committee to the City Council, the group's ability to obtain event liability coverage is restricted, and City co-sponsorship of the event will allow provision of automatic coverage under the umbrella of the City's existing insurance policy, and

WHEREAS, the City's Risk Manager has assessed the scope of the event and determined it to be of minimal exposure to the City, and

WHEREAS, as in prior years' events, the Committee seeks Council approval for the sale of merchandise in the Park during the event, and

WHEREAS, this event provides a forum for merchants to display and sell their "environmentally friendly" merchandise, and for the creation of a "festival atmosphere",

while giving the public an opportunity to make purchases of positive benefit to the environment,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the City hereby affirms its co-sponsorship of "Earth Day in the Park Festival, 2004", at Graceada Park.

BE IT FURTHER RESOLVED by the Council that it hereby approves the sale of merchandise at Graceada Park during the "Earth Day in the Park Festival, 2004" event.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of February, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-105**

**A RESOLUTION INCREASING THE DIRECTOR OF ENGINEERING AND  
TRANSPORTATION'S AUTHORITY LEVEL TO ISSUE CHANGE ORDERS  
ON THE "KANSAS-NEEDHAM OVERHEAD" PROJECT FROM 8% TO 10%  
OF THE ORIGINAL CONTRACT PRICE WITH AGEE CONSTRUCTION  
CORPORATION**

WHEREAS, on May 7, 2002, the City Council awarded an \$8,992,823.30 contract to Agee Construction Corporation to construct an overhead crossing of 9<sup>th</sup> Street, 8<sup>th</sup> Street and the Union Pacific Railroad tracks from the College/Needham/10<sup>th</sup> Street intersection to the Franklin/Beech Street intersection, future connect to Highway 132, and

WHEREAS, the contractor started work on July 22, 2002, and

WHEREAS, during the course of construction, the contractor was required to perform additional work to construct the project that was not included in the original contract, and

WHEREAS, the Director currently has the authority to approve change orders up to a cumulative amount of 8% of the original contract price, or \$719,425.86 in this case, in accordance with the "Change Order Approval Policy" enacted by City Council Resolution No. 94-443 on July 19, 1994, and

WHEREAS, the total estimated cost of the extra work is \$896,500.00, an amount that exceeds the Director's change order approval authority,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby increases the Director of Engineering and Transportation's authority level to issue change orders on the "Kansas-Needham Overhead" project from 8% to 10% of the original contract price with Agee Construction Corporation.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of February, 2004, by Councilmember Dunbar, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-106**

**A RESOLUTION AUTHORIZING PREPARATION OF A PROJECT  
CLOSEOUT FINANCIAL LETTER FOR THE FINAL PROJECT COST PRIOR  
TO COUNCIL FINAL ACCEPTANCE, AND AUTHORIZING ITS SUBMITTAL  
TO THE STATE DEPARTMENT OF TRANSPORTATION (CALTRANS) TO  
ACQUIRE COST OVERRUN REIMBURSEMENT FOR THE “KANSAS-  
NEEDHAM OVERHEAD” PROJECT**

WHEREAS, in 1996 the City received a \$10 million dollar Grade Separation Grant from the State of California to construct an overhead crossing of 9<sup>th</sup> Street, 8<sup>th</sup> Street, and the Union Pacific Railroad tracks from the College/Needham/10<sup>th</sup> Street intersection to the Franklin/Beech Street intersection, future connect to Highway 132, and

WHEREAS, on May 7, 2002, the City Council awarded an \$8,992,823.30 contract to Agee Construction Corporation to construct the project, and

WHEREAS, the contractor started work on July 22, 2002, and

WHEREAS, the final project costs are anticipated to be approximately \$17.2 million dollars, including right-of-way, design services, construction and contract management services, and

WHEREAS, according to State Statutes for Grade Separation funding, as long as the Grade Separation Program is approved in the State Budget on a yearly basis and our project ranking does not change with the added costs, the State is required to pay for all legitimate cost overruns at the rate of 80 percent of actual costs, and

WHEREAS, applications for reimbursement of cost overruns are accepted on a one-time basis, and

WHEREAS, on May 1, 2004, Caltrans will be assigning Program funds to new Grade Separation projects, and

WHEREAS, Caltrans has advised City Staff to issue a Project Closeout Finance letter before April 1, 2004, to ensure overrun reimbursement this year, and

WHEREAS, if the fund is depleted before submission of a project closeout letter, the City will have to wait until the State Legislature funds the program,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes preparation of a Project Closeout Financial letter for the final project cost prior to Council final acceptance, and authorizes its submittal to the State Department of Transportation (Caltrans) to acquire cost overrun reimbursement for the "Kansas-Needham Overhead" project.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of February, 2004, by Councilmember Dunbar, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-107**

**A RESOLUTION AUTHORIZING STAFF TO CONTINUE NEGOTIATIONS  
FOR A PHASE III CONSTRUCTION AND MAINTENANCE (C & M)  
AGREEMENT WITH THE UNION PACIFIC RAILROAD (UPRR) FOR THE  
CONSTRUCTION OF THE TUOLUMNE BOULEVARD EXTENSION**

WHEREAS, the Kansas-Needham Overhead Grade Separation project is nearing completion, and

WHEREAS, the final Grade Separation project, the Tuolumne Boulevard Extension (TBE), remains to be constructed, and

WHEREAS, a Federal Highway Administration (FHWA) Grant will be sought to fund eighty (80) percent of engineering and construction of the TBE, and

WHEREAS, the Union Pacific Railroad will fund five (5) percent (fixed sum) of the total cost of engineering and construction, and

WHEREAS, the City of Modesto will fund fifteen (15) percent of the total cost of the engineering and construction, and

WHEREAS, the Engineering and Transportation Department will review and update the total cost of the project, presently estimated at \$7,624,000.00, before execution of the agreement, and

WHEREAS, the Economic Development Committee approved this item at its February 9, 2004, meeting,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes staff to continue negotiations for a Phase III Construction and Maintenance (C&M) agreement with Union Pacific Railroad (UPRR) for the construction of the TBE.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of February, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour

NOES: Councilmembers: None

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-108**

**A RESOLUTION AMENDING THE FY 2003-2004 CAPITAL IMPROVEMENT BUDGET (1) TO REDUCE THE 'TRAFFIC SIGNALS MODIFICATIONS' CIP (MY-1410-160-M195) APPROPRIATION BY \$80,640 AND TO RETURN THOSE FUNDS TO THE FUND BALANCE; AND (2) TO APPROPRIATE \$240,840 TO A NEW CIP PROJECT (MY-1410-430-A014) FOR STREET WIDENING IMPROVEMENTS ALONG HATCH ROAD AT ITS INTERSECTION WITH DALLAS STREET TO BE FUNDED BY THE 1410 FUND BALANCE**

WHEREAS, on September 2000, the City Council approved a development plan for Planned Development Zone, P-D (542) which allowed for the creation of a neighborhood commercial development, including a convenience market/gas station on the southeast and southwest corners of Hatch Road and Dallas Street, and

WHEREAS, the developer has since constructed the convenience market/gas station at the southwest corner, and

WHEREAS, the right-of-way and public utility easements dedications required for the commercial development has been completed and accepted by the City of Modesto through the Planned Development P-D 542 conditions of approval, and

WHEREAS, street improvements along Hatch Road are part of the Capital Facility Fees (CFF) program and the developer has requested that improvements fronting his development be constructed to enhance business and alleviate potential traffic issues, and

WHEREAS, the Engineering and Transportation Department was tasked to assist the developer and has completed preparing plans, specifications, and estimate as an engineering project for the Hatch Road improvements including street widening improvements and traffic signals modifications, and

WHEREAS, the Finance Department has indicated that there will be sufficient funds in the Fund 1410 fund balance for the appropriation of this project within the FY 2003-2004 Capital Improvement Program Budget.

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto hereby amends the FY2003-2004 Capital Improvement Budget (1) to reduce the 'Traffic Signals Modifications' CIP (MY-1410-160-M195) appropriation by \$80,640 and to return those funds to fund balance; and (2) to appropriate \$240,840 to a new CIP project (MY-1410-430-A014) for street widening improvements along Hatch Road at its intersection with Dallas Street to be funded by the 1410 fund balance.

BE IT FURTHER RESOLVED that the Finance Director, or her designee, is hereby authorized to take the steps necessary to amend the Capital Improvement Program Budget.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of February, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-109**

**A RESOLUTION ALLOCATING THE REMAINING \$1.9 MILLION DOLLARS  
OF THE FEDERAL DEMONSTRATION BUDGET FOR REMOVAL OF  
RAILROAD TRACKS AND PERFORMING STREET IMPROVEMENTS IN  
THE VIRGINIA CORRIDOR, NORTH OF NEEDHAM AVENUE AND SOUTH  
OF THE PELANDALE EXPRESSWAY**

WHEREAS, the Union Pacific Railroad work billable to the Federal  
Demonstration project is complete, and

WHEREAS, the Kansas-Needham Overhead is no longer Federally Funded, and

WHEREAS, a Federal Highway Administration (FHWA) Grant will be sought to  
fund the engineering, and construction of the Tuolumne Boulevard Extension, and

WHEREAS, Caltrans has approved the use of Federal Demonstration Funding for  
the removal of railroad tracks and street improvements, and

WHEREAS, Caltrans has reviewed the Federal Demonstration Project  
environmental studies and has stated that the work falls under the jurisdiction of the  
present report, and

WHEREAS, the Economic Development Committee reviewed this item at its  
February 9, 2004, meeting,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of  
Modesto that it hereby approves allocating the remaining Federal Demonstration Funding  
for the removal of railroad tracks and performing street improvements in the  
Virginia Corridor, north of Needham Avenue and south of the Pelandale Expressway.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of February, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-110**

**A RESOLUTION AMENDING THE FISCAL YEAR 2004 CAPITAL IMPROVEMENT PROGRAM TO CLOSE MY-0700-430-K265 AND, AFTER ALL APPROPRIATE ACCOUNTING ACTIONS ARE COMPLETE AND ALL ENCUMBRANCES CLEARED, TO AMEND THE EXISTING CIP PROJECT MY-2300-0700-430-A265 TO INCLUDE ALL OF THE REMAINING FEDERAL DEMONSTRATION BUDGET AND CORRESPONDING CITY OF MODESTO AND UNION PACIFIC RAILROAD MATCH FOR REMOVAL OF RAILROAD TRACKS AND PERFORMING STREET IMPROVEMENTS IN THE VIRGINIA CORRIDOR, NORTH OF NEEDHAM AVENUE AND SOUTH OF THE PELANDALE EXPRESSWAY.**

WHEREAS, the City Council has approved allocating the remaining 9<sup>th</sup> Street Railroad Removal Federal Demonstration budget for the removal of railroad tracks and performing street improvements in the Virginia Corridor, north of Needham Avenue and south of the Pelandale Expressway, and

WHEREAS, these funds were previously budgeted in the CIP project MY-0700-430-K265, Removal of 9<sup>th</sup> Street Railroad Tracks Phase II, and

WHEREAS, the Fiscal Year 2003-2004 CIP project MY-2300-0700-430-A265 has been established to remove railroad tracks and to perform street improvements in the Virginia Corridor, north of Needham Avenue and south of the Pelandale Expressway, and

WHEREAS, the Economic Development Committee reviewed this item at its February 9, 2004, meeting,

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto hereby amends the Fiscal Year 2004 Capital Improvement Program to close MY-0700-430-K265, and after all appropriate accounting actions are complete and all encumbrances are cleared, to amend the existing CIP project MY-2300-0700-430-A265

to include all of the remaining federal demonstration budget and corresponding City of Modesto and Union Pacific Railroad match for removal of railroad tracks and performing street improvements in the Virginia Corridor, north of Needham Avenue and south of the Pelandale Expressway.

BE IT FURTHER RESOLVED that the Finance Director, or her designee, is hereby authorized to take the steps necessary to amend the Capital Improvement Program Budget.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of February, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-111**

**A RESOLUTION AWARDING THE BID AND APPROVING A \$232,900  
CONTRACT WITH TCB INDUSTRIAL, INC., FOR THE PROJECT TITLED  
“CENTRE PLAZA ELEVATOR EXTENSION,” AND AUTHORIZING THE  
CITY MANAGER TO EXECUTE THE AGREEMENT**

WHEREAS, the bids received for the Centre Plaza Elevator Extension project were opened at 11:00 a.m. on February 3, 2004, and

WHEREAS, the Engineering and Transportation Director has recommended that the bid of \$232,900 received from TCB Industrial, Inc., be accepted as the lowest responsible bid and the contract be awarded to TCB Industrial, Inc.,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the bid of \$232,900, and hereby awards TCB Industrial, Inc., the contract titled “Centre Plaza Elevator Extension.”

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of February, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 -112**

**A RESOLUTION APPROVING AMENDMENT NO. 2 TO AN ENGINEERING SERVICES AGREEMENT WITH MEAD & HUNT, INC. FOR ADDITIONAL ENGINEERING SERVICES FOR THE ELECTRICAL VAULT/EMERGENCY GENERATOR PROJECT AT THE MODESTO CITY-COUNTY AIRPORT AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AMENDMENT ON BEHALF OF THE CITY**

WHEREAS, the City of Modesto and Mead & Hunt, Inc. entered into an Engineering Services Agreement on December 6, 2001, which provides for the design of the Electrical Vault/Emergency Generator project at the Modesto City-County Airport, and

WHEREAS, said Agreement contemplated the potential need for Additional Engineering Services during the course of the work, and

WHEREAS, the Agreement further provides for amendments to the original Agreement when agreed to in writing by both parties, and

WHEREAS, the first amendment to agreement was entered into between the City and Mead & Hunt on November 25, 2003 for construction services on the project, and

WHEREAS, there is a need for Mead & Hunt to provide additional engineering services on the project to incorporate review comments made by the City staff and others into the plans and specifications and to resubmit these documents to FAA for approval, and

WHEREAS, said additional engineering services are compensable under the terms of the original agreement, and

WHEREAS, Amendment No. 2 to the original Agreement has been prepared to provide compensation for additional engineering services performed by Mead & Hunt, Inc. on the design of the project, and

WHEREAS, said Amendment No. 2 has received the Federal Aviation Administration's approval as to form and reimbursable expense, and

WHEREAS, the City Attorney's Office finds the terms of the amendment acceptable.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves Amendment No. 2 to the Engineering Services Agreement with Mead & Hunt, Inc. in the amount of \$12,400 for additional engineering services.

BE IT FURTHER RESOLVED that the City Manager or his authorized designee is authorized to execute Amendment No. 2 on behalf of the City.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of February, 2004, by Councilmember Dunbar, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-113**

**A RESOLUTION APPROVING LIGHTED CROSSWALKS AT THE FOLLOWING LOCATIONS: SUNRISE AVENUE AND COOLIDGE AVENUE, ORANGEBURG AVENUE AND MARTIN AVENUE, FLOYD AVENUE AND VICKI DRIVE, AND RUMBLE ROAD AND WALES WAY**

WHEREAS, City staff keeps a running list of requests from the public for lighted crosswalks, and

WHEREAS, to date this list includes all of the most current requests and data gathered as shown in Attachment 1 hereto, and

WHEREAS, staff recommends installing lighted crosswalks at locations 1, 2, 4, and 6 set forth below. The 3<sup>rd</sup> and 5<sup>th</sup> highest locations are short distances to already proposed locations:

1. Sunrise Avenue and East Coolidge Avenue
2. Orangeburg Avenue and Martin Avenue
3. Orangeburg Avenue/Enslin Avenue
4. Floyd Avenue and Vicki Drive
5. Floyd Avenue/Newport Drive
6. Rumble Road and Wales Way, and

WHEREAS, when citizens request a location, information regarding that particular crossing is gathered and assigned a point value, and

WHEREAS, this ranking method, based on point value, was approved by Council on March 19, 2002, and

WHEREAS, funding from the OTS grant covers 50% of these installations and the remaining 50% is budgeted in Account Number 2300-160-A221, "Office of Traffic Safety Lighted Crosswalks Various," and

WHEREAS, the Economic Development Committee discussed this item at its February 9, 2004, meeting, and concurred with staff's recommendation.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the installation of Lighted Crosswalks at the following locations: Sunrise Avenue and Coolidge Avenue, Orangeburg Avenue and Martin Avenue, Floyd Avenue and Vicki Drive, and Rumble Road and Wales Way.

BE IT FURTHER RESOLVED that the Council hereby authorizes staff to proceed with plans for implementation and installation of said Lighted Crosswalks.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of February, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-114**

**A RESOLUTION AMENDING THE ROUNDABOUT POLICY ESTABLISHING  
PUBLIC NOTIFICATION IN RETROFIT SITUATIONS AND RESCINDING  
RESOLUTION NO. 2002-432**

WHEREAS, staff has been implementing roundabout installations in both newly developing areas and in retrofit areas in Modesto, and

WHEREAS, there is currently an accepted City policy regarding guidelines for use and installation of roundabouts, and

WHEREAS, staff developed a Roundabout Policy to create consistent guidelines for installation and use of roundabouts, and

WHEREAS, on September 3, 2002, by Resolution No. 2002-432 the City Council reviewed and adopted the Roundabout Policy, and

WHEREAS, the City Council directed staff to develop an amendment to the Policy setting forth and more fully describing the approval process of retrofitting existing intersections, and

WHEREAS, at the October 28, 2003, City Council meeting, Councilmember O'Bryant raised several concerns with the Roundabout Policy with regards to public notification, and

WHEREAS, the Economic Development Committee at their February 9, 2004 meeting, reviewed and discussed the proposed public notification in retrofit situations, and recommended a 1,000 ft notification area be added to the Roundabout Policy and directed staff to go forward for full Council approval, and

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the amended Modesto Roundabout Policy for installation and use of roundabouts in the City of Modesto, a copy of which is attached hereto as Exhibit "A", and incorporated by reference as though fully set forth herein.

BE IT FURTHER RESOLVED that effective February 24, 2004, Resolution No. 2002-432 adopted on September 3, 2003, is hereby rescinded.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of February, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

## **MODESTO ROUNDABOUT POLICY**

**This policy is revised as per Economic Development Committee direction at the February 9, 2004 meeting to include public notification guidelines in retrofit situations in Section IX**

**This policy was approved and revised as per City Council Resolution 2002-432 at the City Council meeting of September 3, 2002**

## **Roundabout Policy**

- I. Introduction**
- II. Modern Roundabouts – What Are They?**
- III. The Benefits of Roundabouts**
- IV. The Use of Roundabouts – Where They Are Applicable and Where They Are Not.**
- V. Roundabout Justification**
- VI. Implementation Strategy**
- VII. Design Criteria**
- VIII. Roundabout Installation in Newly Developing Areas**
- IX. Roundabout Installation at Retrofit Locations**
- X. Operation & Maintenance**
- XI. Appeal of Staff Decision**

## **I. Introduction**

Each year the City receives numerous requests to reduce the traffic congestion on streets throughout the City. Citizens also express concerns about the safety of the streets on which they live. In an effort to find appropriate ways to deal with these concerns, reduce traffic congestion and improve safety, the City has recently considered the use of roundabouts.

The purpose of this Roundabout Policy is to establish guidance on where roundabouts are to be used in the City, to describe the performance and operation of roundabouts, and to give general guidance on design standards for roundabouts, so that high standard and uniform design can be implemented. It is recognized that the use and design of roundabouts in the United States is an emerging technology and that as the technology improves, changes in design and application will be modified so that the best available practices can be implemented.

## **II. Modern Roundabouts – What Are They?**

In essence, a roundabout is a traffic circle that has been refined in its design principles and characteristics. These improved principles and design standards have made roundabouts a safe and efficient form of intersection control.

Traffic circles have many forms, but their common feature is that they are designed around a central island that prevents vehicles from passing through them on a linear path. Until recently, roundabouts have been slow to gain support in this country. The lack of acceptance can generally be attributed to the negative experience with traffic circles built in the earlier half of the twentieth century. Severe safety and operational problems caused these traffic circles to fall out of favor by the 1950's. However, substantial progress has been achieved in the subsequent design of circular intersections, and a modern roundabout should not be confused with the traffic circles of the past.

The modern roundabout is defined by four basic principles that distinguish it from a nonconforming traffic circle.

1. Roundabouts follow the “yield-at-entry” rule, in which approaching vehicles must wait for a gap in the circulating flow before entering the circle, whereas traffic circles require circulating vehicles to grant the right of way to entering vehicles.
2. Roundabouts involve low speeds for entering and circulating traffic, as governed by small diameters and deflected entrances. In contrast, traffic circles emphasize high-speed merging and weaving, made possible by larger diameters and tangential entrances.
3. Compared to most traffic circles, roundabouts are small. Usually, a roundabout can be retrofitted within the space used by an existing traffic signal or stop-controlled intersection, with little or no additional right-of-way required.
4. At the entrance of each roundabout, triangular ‘splitter islands’ prevent drivers from going around the circle the wrong way, and simultaneously provide a safe refuge for crossing pedestrians. These islands are not used in traffic circles.

In giving priority to entering vehicles, a traffic circle tends to lock up at higher volumes. The operation of a traffic circle is further compromised by the high-speed environment in which large gaps are required for proper merging. These deficiencies have been corrected with the modern roundabout.

Figure 1-1 following shows the layout and design of a basic modern roundabout.

### III. The Benefits of Roundabouts

In the interest of safety, the conflict between two competing traffic movements must be resolved by a traffic control device that gives one movement priority over the other. When both movements are heavy, the priority must be alternated or distributed in some manner or else one of the movements will fail. For high volume roadways, traffic signals provide the most common traffic control discipline in the U.S. because of the positive way in which the priority is alternated. Low volume roads are normally controlled by stop signs. A growing number of studies show that in many situations, modern roundabouts are both safer and more efficient than either traffic signals or stop signs.

For the past two decades, thousands of modern roundabouts have been replacing traffic signals and stop signs all across Europe. This trend is well documented by several papers presented at the conference "Giratoires '92" (Roundabouts '92). France, for instance, has been building about 1,000 roundabouts per year. In the Netherlands, more than 400 were built between 1986 and 1992. In Norway, the number swelled from just 15 in 1980 to 500 in 1992; in Switzerland, from 19 to 220 during the same period. And, with the construction of some 50 to 100 modern roundabouts in the last five to eight years, roundabouts have finally gained a foothold in the U.S.

Modern roundabouts are now found in a number of U.S. states, including California, Nevada, Florida, South Carolina, Massachusetts, Vermont, Tennessee, Texas, Washington, Kansas, Wisconsin and Maryland. They are being used in a wide range of applications: to control speeds on residential streets; to improve capacity at congested freeway interchanges; to beautify gateway entrances to towns and shopping centers; and, most importantly, to reduce the number and severity of crashes at both major and minor intersections. In many communities, the roundabouts have been so successful that residents have quickly demanded more to fix other problem intersections.

Sources such as Public Roads Magazine, Tech Transfer from the University of California Institute of Transportation Studies, and Transportation Departments from the states of Maryland and Florida indicate that the following benefits are gained through the use of roundabouts:

1. Safety – Roundabouts have been shown to reduce fatal and injury accidents as much as 75% in Australia and 86% in Great Britain. The reduction in accidents is attributed to slower speeds and reduced number of conflict points.
2. Low Maintenance – Eliminates maintenance costs associated with traffic signals. In addition, electricity costs are reduced.
3. Reduced Delay – By yielding at the entry rather than stopping and waiting for a green light, delay is significantly reduced. A reduction in delay corresponds to a decrease in fuel consumption and air pollution.
4. Capacity – Intersections with a high volume of left turns are better handled by a roundabout than a multi-phased traffic signal.
5. Aesthetics – The central island affords an opportunity to provide landscaping, or some other forms of beautification.

The reduction in crashes occurs for several reasons:

- The number of possible conflict points between vehicles decreases from 32 at a four-way intersection, to 8 at a roundabout. (See the figures below.) By reducing the number of conflict points, roundabouts also reduce the number of collisions.
- Vehicle speeds at roundabouts are much lower, generally less than 20mph. Lower speeds mean shorter braking distances and longer decision-making time. Therefore, even if someone makes a mistake a collision is easier to avoid.

- Decision-making is simplified. A driver about to enter has one decision: “Is there a vehicle circulating in the roundabout blocking my path?” If not, the driver enters. Otherwise, the driver waits for a gap.
- If a collision does occur at a roundabout, the force of impact is much lower due to the lower speed and the low angle of impact. No one can “run the red” and cause a right angle collision. Nor can a left-turning driver make a mistake in selecting a gap in the approaching through traffic, with the resulting head-on or right angle crash.

#### **IV. The Use of Roundabouts – Where They Are Applicable and Where They Are Not.**

Roundabouts perform better at intersections with roughly similar traffic flows and a high proportion of left turning traffic. This does not mean that all movements must be of the same magnitude. Rather, that the predominant movements are “broken up” by circulating traffic, so that gaps are provided to allow vehicles waiting on adjacent legs to enter the roundabout without major delays.

Engineering judgement and traffic analysis must be factored into the decision making process when roundabouts are being considered. Roundabouts are not the solution to all traffic problems at all locations. Careful study is required to identify the most appropriate control mode at any given location. The studies required to justify the installation of traffic signal control and all-way stop control are based on the warrants and requirements set forth in the Caltrans Traffic Manual. No such warrants or requirements exist for roundabouts.

Three general questions must be answered to justify a roundabout as the most appropriate form of control at any intersection.

- Will a roundabout be expected to perform better than other alternative control modes? In other words, will it reduce delay, improve safety or solve some other operational problem?
- Are there factors present to suggest that a roundabout would be a more appropriate control, even if delays with a roundabout are slightly higher?
- If any factors exist that makes installation of a roundabout inadvisable, can they be resolved satisfactorily?

If these questions may be answered favorably, then a roundabout should be considered as a logical candidate control mode.

Generally speaking, roundabouts are particularly suited in the following situations:

- Heavy delay on minor road.
- Traffic signals result in greater delay.
- Intersection with heavy left turning traffic.
- Intersection with more than four legs or unusual geometry.
- At rural intersections (including those in high-speed areas) at which there is an accident involving crossing traffic.
- Where major roads intersect at “Y” or “T” junctions.
- At locations where traffic growth is expected to be high and where future traffic patterns are uncertain or changeable.
- At intersections where U-turns are desirable.
- At Freeway Interchange Ramps.
- High accident intersection where right angle accidents are prominent.

Generally speaking, roundabouts are unsuitable in the following situations:

- Where a satisfactory geometric design cannot be provided.
- Where a signal interconnect system would provide a better level of service.
- Where it is desirable to be able to modify traffic via signal timings.
- Where peak period reversible lanes may be employed.
- Where the roundabout is close to existing signals and queuing from the signal could be a problem.
- Where there are insufficient gaps in the major flow, so that the minor flow has difficulty entering the roundabout. (Sometimes, however, this problem can be fixed by signaling one approach to a roundabout to create gaps for another leg. Usually, this signal need only be turned on during the peak hour.)
- Where traffic volumes are very high, say 6,000 vph. (Here a very large signalized intersection is necessary to separate vehicles in time. Alternatively, an overpass is probably more suitable and safer.)

## **V. Roundabout Justification**

Roundabouts have been used successfully in many cities throughout the world, including several in the U.S. They offer a proven form of traffic control that has, up to this point, not been applied extensively in Modesto. There may be several locations in the City that could benefit from the installation of a roundabout as an alternative to the more conventional intersection control methods.

This section sets forth the procedure required to justify a roundabout as the most appropriate form of control for a given situation. The procedure is intended to provide documented support for the decision to install a roundabout.

### **A. Intersection Control Alternatives**

There are three alternatives to roundabouts for intersection control. Each has significant operational limitations in comparison with a roundabout. Each alternative will be discussed separately:

**Traffic Signals** – Roundabouts can efficiently handle particular intersections with decreased delay and greater efficiency than traffic signals. This is especially true where traffic volumes entering the roundabout are roughly similar and where there are a high number of left turning vehicles.

**Two-Way Stop Control (TWSC)** can accommodate low traffic volumes with much less delay than traffic signals, but this control mode favors the major street (unstopped) movements at the expense of the minor street (stopped) movement. When the major street traffic volumes are heavy (typically 1400 vph or more) there is little or no opportunity for cross street access. This places a definite limit on the application of TWSC. Even when TWSC capacity is not exceeded, there is often public pressure to install signals at TWSC intersections.

**All-Way Stop Control (AWSC)** treats the cross street movements more favorably, without the wasted time associated with traffic signals. However, the rate at which vehicles may enter an intersection (i.e. headway) under AWSC is relatively low and, therefore, the total intersection capacity is somewhat limited.

The roundabout on the other hand, overcomes all of these disadvantages. There is no sequential assignment of right-of-way and therefore no wasted time. Left turns are not subordinated to through

traffic. Vehicles enter under yield control instead of stop control and therefore have lower headways and higher capacities. There are no electrical components to malfunction.

## **B. Roundabout Justification Categories**

To provide an organized approach to the justification process, a series of categories has been developed, each of which represents a good reason to install a roundabout. These categories are summarized in the following Table in terms of their anticipated relationships to warrants contained in the Caltrans Traffic Manual. A brief description of the justification categories is provided.

### **1. Community Enhancement**

Projects qualifying for roundabout treatment in this category should demonstrate that a roundabout is an essential part of the community's development plan for a given area, and not just an arbitrary idea.

Roundabouts in this category would typically have one or more of the following characteristics:

- They are often located in commercial and civic districts. Traffic volumes would typically be low, otherwise, one of the more operationally oriented justification categories would normally be more appropriate;
- Aesthetics are an important factor in this category. Particular attention will be required with respect to choice of materials, landscaping requirements, etc.; and
- They will not generally be proposed as a solution to traffic problems. Therefore, any factors that would imply either operational or safety problems should be taken very seriously.

### **2. Traffic Calming**

Projects qualifying for roundabout treatment in this category should demonstrate that there is a need for traffic calming along the intersecting roadways. Although these roundabouts are primarily located in residential areas, there are situations where a roundabout on a higher classification road would be justified under this category. Examples of conditions that might suggest a need for traffic calming include:

- Documented observations of speeding, high traffic volumes and/or careless driving activities; or
- New construction (road opening, traffic signal, new road, etc.) which would potentially increase the volumes of "cut-through" traffic.

### **3. Safety Improvement**

Projects qualifying for roundabout treatment in this category should demonstrate that there is a safety problem at the intersection. In addition, it should be documented how the roundabout treatment will improve safety at the intersection. A special review of accident reports and the type of accidents occurring is usually necessary. Examples of safety problems include:

- High rates of crashes involving conflicts that would be readily resolved by a roundabout (right angle, head-on, left/through, U-turns, etc.);
- High crash severity that should be reduced by the slower speeds associated with roundabouts;
- Site visibility problems that reduce the effectiveness of stop sign control; and
- Inadequate separation of movements, especially on single lane approaches.

#### **4. All Way Stop Control Alternative**

Projects qualifying for roundabout treatment in this category should demonstrate that an all-way stop control (AWSC) is warranted and that delay from the roundabout treatment would compare favorably with the AWSC treatment. Traffic volumes in this category will not normally meet the Caltrans warrants for traffic signals.

#### **5. Low Volume Signal Alternative**

Projects qualifying for roundabout treatment in this category should demonstrate that warrants for a traffic signal have been met. It should also be demonstrated that delay from the roundabout treatment would compare favorably with the signal treatment. This category will normally be limited to single lanes on the approaches and on the circulating roadway.

#### **6. Medium Volume Signal Alternative**

Projects qualifying for roundabout treatment in this category should demonstrate that warrants for a traffic signal have been met. It should also be demonstrated that delay from the roundabout treatment would compare favorably with the signal treatment. This justification category is appropriate for two lane roundabouts, however, designs involving more than one lane should only be considered when an operational analysis indicates a significant advantage compared to a signalized intersection.

The conversion of an existing signalized intersection to a two-lane roundabout would normally be undertaken as a solution to an observed operational or safety problem caused by the signal.

#### **7. Special Conditions**

Projects qualifying for roundabout treatment in this category should demonstrate that site specific conditions make a roundabout the appropriate intersection treatment. These conditions include unusual geometrics, high traffic volumes, right-of-way limitations, 5 or more legs in the intersection, etc.

### **VI. Implementation Strategy:**

As stated earlier, roundabouts may be deployed at a variety of locations throughout the City of Modesto's transportation system. It is the policy of the City of Modesto to implement roundabouts at the following locations and in the following manner:

#### **A. At Minor Collector/Minor Collector Intersections:**

- For newly developing areas, each Minor Collector/Minor Collector intersection shall be evaluated for the installation of a roundabout, and except where there are physical constraints or significant overriding circumstances, roundabouts are proposed for installation.
- For retrofit locations, Section IX of this policy governs.

**B. At Intersections that are classified Minor Arterial/Collector; Minor Arterial/Minor Arterial or Principal Arterial/Minor Arterial, the following shall apply:**

**Before Installation:**

A roundabout at intersections with a classification higher than Collector/Collector cannot be justified as the most appropriate form of control without a sense of how it will perform at a specific intersection and how that performance will compare to other intersection control alternatives.

In the City of Modesto, the implementation of roundabouts at intersections classified Minor Arterial/Collector and above will be accomplished using the following approach:

- Step 1. Identify the target location.
- Step 2. Perform computerized capacity analysis of proposed roundabout installation. If favorable, then
- Step 3. Recommend, design and install the roundabout.

A capacity analysis of each proposed roundabout installation shall be conducted to demonstrate its ability to handle anticipated traffic volumes for the subject intersection using a 20-year design period. The capacity analysis shall be accomplished using traffic projections from the most up to date traffic model the City possesses and by using the most up to date simulation software available to simulate roundabout operation as determined by the City's Traffic Engineer. The capacity of the roundabout must be equal to or better than that provided by the appropriately warranted traditional traffic control devices for the same traffic design volumes being analyzed.

**After Installation:**

The analytical models described above can only estimate the performance of a roundabout. Actual performance can only be obtained through field observation. However, given that the roundabouts are designed and simulated based on a 20-year design period, the roundabouts should perform very well when first opened, and for a good number of years thereafter. Nonetheless, initial field observations of the roundabout operation at its inception is prudent. Observations will be made to verify that the roundabout operates as intended and the travelling public negotiates the roundabout in an appropriate manner. All of the following questions should produce negative answers:

- Do drivers stop unnecessarily at the yield point?
- Do drivers stop unnecessarily within the circulating roadway?
- Do any vehicles pass on the wrong side of the central island?
- Do queues from an external bottleneck back up in the roundabout on an exit road?
- Do the actual number of entry lanes differ from those intended by the design?
- Do smaller vehicles encroach on the truck apron?
- Is there evidence of damage to any of the signs in the roundabout?
- Is there any pedestrian activity on the central island?
- Do pedestrians and cyclists fail to use the roundabout as intended?
- Are there tire marks on any of the curb surfaces to indicate vehicle contact?
- Is there any evidence of minor accidents, such as broken glass, pieces of trim, etc., on the approaches or the circulating roadway?
- Is there any gravel or other debris collected in non-traveled areas that could be a hazard to bicycles or motorcycles?

These questions should all be examined in the days immediately after the roundabout opening. Both daytime and nighttime observations of the operating characteristics should be made. Follow-up strategies to ensure satisfactory operation may be implemented as necessary after initial observation. Periodic checks should also be made to ensure that no serious sight distance obstructions have occurred due to growth of foliage or roadside development. The City's Traffic Engineering Staff will continue to monitor traffic volumes, accidents and operations at intersections with roundabouts, just as they do at intersections where other alternative traffic control devices are in place.

## **VII. Design Criteria**

Neither Caltrans nor ASSHTO currently maintains standards for the design of roundabouts. Until design standards are adopted by Caltrans, all proposals for roundabouts on the City of Modesto street system shall be in accordance with details provided in the City's Standard Specifications, or as conceptually approved by the City's Traffic Engineer.

The conceptual approval will be based on whether the proposal conforms with the general concepts contained in this policy. The purpose of this document is to provide a basis for evaluating roundabout proposals, and it is not intended to contain the comprehensive information needed to complete a design. Proposed roundabouts being designed by City engineering staff and by those other than City staff should be discussed with the City's Traffic Engineer throughout the conceptual and design stages of the project.

## **VIII. Roundabout Installation in Newly Developing Areas**

Section V of this policy describes in general terms when a roundabout installation may be appropriate for a given situation. It is recognized that roundabout installation is applicable in a variety of geometric configurations, and as such, the design can vary greatly, depending on the situation. As such, it is incumbent upon the designer to work closely with the City's Traffic Engineer on the detailed design of a roundabout.

Roundabout installation, whether contemplated by the development community or by City staff, shall be coordinated with the City's Traffic Engineer. The City's Traffic Engineer shall give approval to the roundabout concept being proposed for a given intersection. Once approval is given, the design of the roundabout shall be in accordance with design standards set forth in the City's Standard Specifications or as directed by the City's Traffic Engineer to accommodate non-standard situations.

In newly developing areas, the developer shall be responsible to install roundabouts at Collector/Collector intersections. Roundabouts installed at higher classified intersections will be the responsibility of the developer as conditions of approval may warrant. In some cases, the City of Modesto may be responsible for installation via proceeds from a Community Facilities District.

## **IX. Roundabout Installation at Retrofit Locations**

There will be occasions when existing intersections in the City are scheduled to have new stop signs or traffic signals added to them, due to the need to assign right of way for increased safety purposes. Similarly, existing controlled intersections may be destined for an upgrade in controls (i.e., from a 2-way stop to a 4-way stop, or from a 4-way stop to a traffic signal). Thirdly, there may be occasions where an existing controlled intersection may warrant replacement with a roundabout (i.e., replace a 4-way stop with a roundabout). Lastly, an existing intersection may be destined for a roundabout for either traffic calming or beautification purposes.

In such cases as these, the installation of roundabouts may be considered as an alternative to the traditional forms of traffic control. These are considered “retrofit” situations and special consideration of roundabout installation is required.

If a roundabout is proposed in a retrofit situation, the design and installation must be such that all modes of vehicles using that particular intersection are accommodated, and the “modern roundabout” concept and operational characteristics are preserved. Generally speaking, roundabouts in retrofit situations would not be applicable to anything less than a minor collector/minor collector intersection (i.e., 60’ of right of way on each leg of the intersection). Even then, additional right of way may be required to gain proper deflection angles and tapers on all approaches. Each retrofit situation shall be analyzed on a case-by-case basis, and the final design of any proposed roundabouts at a retrofit location shall be approved by the Engineering and Transportation Director.

In the event a “retrofit” development adds a roundabout to an intersection in a previously-approved specific plan area that did not include such a roundabout, then that specific plan shall be amended in the usual and customary manner in accordance with state law and the applicable provision of the Modesto Municipal Code.

If it is decided that a roundabout will be deployed in a retrofit situation, and right of way is needed to install a properly designed roundabout, the City shall be responsible to acquire the right of way. If the situation is such that development has not occurred on one or more corners of the target intersection, then the property owner or developer of those non-developed parcels is responsible to dedicate the necessary right of way for proper installation of the roundabout.

In retrofit situations for a roundabout, notification will be 1,000 ft. All properties within 1,000 ft will be notified of the roundabout proposal.

## **X. Operation and Maintenance**

Roundabouts generally will become an asset of the City once public improvements are accepted as complete by the City Council. Exceptions would be those roundabouts that are constructed within a private gated community, or on any other non-public thoroughfare. The City of Modesto will assume responsibility for operation and maintenance of those roundabouts that are within the public right of way. Maintenance of landscaping associated with a City-owned roundabout may be the City’s responsibility, or may be included in a Capital Facilities District, and therefore, the CFD’s responsibility.

## **XI. Appeal of Staff Decision**

Any staff decision made pursuant to this policy may be appealed to the City Council pursuant to Section 1-4.01 through 1-4.05 of the Modesto Municipal Code.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-115**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO  
FORMALLY SOLICIT BIDS FOR THE PURCHASE OF NINE (9) GRANULAR  
ACTIVATED CARBON UNITS FOR THE OPERATIONS AND MAINTENANCE  
DEPARTMENT, WATER DIVISION**

WHEREAS, granular activated carbon (GAC) are pressure vessels filled with granular activated carbon, and

WHEREAS, granular activated carbon is a filter used to remove and dissolve organics and chlorine from drinking water, and

WHEREAS, as of January 2004, seventeen (17) drinking water wells were out of service and at least one (1) additional well may be removed from service if test results do not improve, and

WHEREAS, the cumulative effect of this is that the City's overall well production capacity is reduced by nineteen (19%) percent, and

WHEREAS, as part of an overall strategy to recover production capacity before the peak demand season starts, City staff identified four (4) drinking water wells that could be returned to service prior to June 1, 2004, with the installation of granular activated carbon units, and

WHEREAS, returning these wells to service, coupled with the completion of work on three (3) additional wells will regain approximately thirty-six (36%) percent of the lost drinking water well production capacity, and

WHEREAS, implementing this strategy requires quick action as it will take approximately 8-12 weeks for a vendor to produce, ship and install the number of

granular activated carbon units required. This entire process needs to be completed by June 2004, and

WHEREAS, returning these wells to service is critical for meeting peak usage demands present during the summer months, and

WHEREAS, without an improvement in well production capacity, the City will likely need to consider the implementation of Stage 2 water use restrictions, and

WHEREAS, Modesto Municipal Code, MMC Section 8-3.203, generally requires all purchases that meet or exceed \$50,000.00 for material, equipment or contractual services to be formally bid, and

WHEREAS, by soliciting formal bids for the purchase of nine (9) granular activated carbon units for the Operations and Maintenance Department, Water Division, the Finance Department, Purchasing Division will comply with MMC Section 8-3.203 regarding formal bid procedures,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. The City Clerk is hereby authorized to call for public formal bids for the purchase of nine (9) granular activated carbon units, to be opened in the office of the City Clerk, 1010 Tenth Street, in the City of Modesto. The City Clerk shall be directed to give notice inviting such sealed bids in the time, form, and manner provided by law.

SECTION 2. After the sealed bids are opened, they shall be tabulated and analyzed and a report submitted to Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of February, 2004, by Councilmember Dunbar, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

NOES: Councilmembers: None

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-116**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO  
ISSUE REQUEST FOR BIDS (RFB) FOR FOUR (4), ¾ TON PICKUPS FOR AN  
FOR AN ESTIMATED ANNUAL COST OF \$120,000.00.**

WHEREAS, the Operations and Maintenance Department-Fleet Services Division has requested the purchase of four (4), ¾ ton pickups, and

WHEREAS, these additional pickups are to be added to the vehicle pool, and

WHEREAS, three of the trucks will be used by the Water Division field crew in the construction and maintenance of the City's water system, and

WHEREAS, one truck will be used by the Wastewater Division in the maintenance of the City's wastewater system, and

WHEREAS, these pickups are fully funded for replacement from the funds set aside out of the Fleet Enterprise Fund, and

WHEREAS, the combined estimated total cost of this purchase is \$120,000.00, and

WHEREAS, the Modesto Municipal Code generally requires all purchases exceeding \$50,000 for materials and equipment of this type to be formally bid, and

WHEREAS, by soliciting competitive bids the City will achieve the best value for the four (4), ¾ ton pickups and meet the City's requirements for formal bidding, and

WHEREAS, at the January 26, 2004, meeting the Finance Committee gave its unanimous approval to move this request for authority to issue Request for Bids on to Council for review,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that formal solicitation of bids for four (4), ¾ ton pickups is hereby authorized as follows:

SECTION 1. The City Clerk is hereby authorized to call for public competitive sealed bids for four (4), ¾ ton pickups to be opened in the office of the City Clerk, 1010 10<sup>th</sup> Street, in the City of Modesto. The City Clerk shall be directed to give notice inviting such sealed bids in the time, form and manner provided by law.

SECTION 2. After the bids are opened, they shall be tabulated and analyzed and a report submitted to Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of February, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-117**

**A RESOLUTION REJECTING ALL PROPOSALS FOR SPOILS REMOVAL SERVICES AND AUTHORIZING RE-ISSUING A REQUEST FOR PROPOSAL (RFP) FOR SPOILS REMOVAL SERVICES FOR AN ESTIMATED ANNUAL COST OF \$75,000.00, AND RESCINDING RESOLUTION 2003-526.**

WHEREAS, the Operations and Maintenance Department-Water Division has requested the purchase of spoils removal services, and

WHEREAS, the spoils removal service contractor would remove dirt, mud, asphalt, and other debris related to various maintenance and construction activities, and

WHEREAS, this activity affects a number of work areas in the Department, and

WHEREAS, one of the largest generators of spoil materials is the Water Operations Division where spoils materials are generated each time staff repairs a water leak, installs a new water line, renews a water service, and

WHEREAS, if left along the roadside the spoil materials become an eyesore within the community as well as an attractive nuisance with potential liability concerns for the City, and

WHEREAS, one of the benefits of removing spoils is that the material may be recycled into other products used in construction projects, and

WHEREAS, recycling keeps the materials out of landfills and out of the waste stream, and

WHEREAS, the estimated annual total cost for spoils removal services is \$75,000.00, and

WHEREAS, Resolution 2003-526 authorized the solicitation of proposals for spoils removal services, and

WHEREAS, Request for Proposals 0304-03 were opened and recorded on January 6, 2004, and

WHEREAS, an evaluation committee consisting of Operation and Maintenance and Purchasing Division staff determined that Exhibit B of the proposal document was confusing and resulted in inadequate pricing information being submitted for review, and

WHEREAS, as a result, the Evaluation Committee was unable to evaluate and equitably compare prices submitted for spoil removal services, and

WHEREAS, staff requests that all proposals received be rejected, staff be authorized to reissue a Request for Proposal (RFP) for spoils removal services, and Resolution No. 2003-526 be rescinded, and

WHEREAS, Modesto Municipal Code Section 8-3.203 requires all purchases exceeding \$50,000 for materials and equipment of this type to be formally bid, and

WHEREAS, by reissuing Request for Proposals and soliciting competitive bids the City will achieve the best value for spoil removal services and meet the City's requirements for formal bidding,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby rescinds Resolution No. 2003-526 and rejects all proposals for spoils removal services, and authorizes reissuing a formal solicitation for Request for Proposals for spoils removal services for an estimated annual cost of \$75,000.00

SECTION 1. The City Clerk is hereby authorized to call for public competitive sealed proposals for spoils removal services to be opened in the City Clerk, 1010 10<sup>TH</sup> Street, in the City of Modesto. The City Clerk shall be directed to give notice inviting such sealed proposals in the time, form, and manner provided by law.

SECTION 2. After the proposals are opened, they shall be tabulated and analyzed and a report submitted to Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of February, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-118**

**A RESOLUTION AUTHORIZING THE AWARD OF BID AND CONTRACT FOR SIX (6) UTILITY TRUCKS TO THE FOLLOWING VENDORS: S & C FORD, INC. OF SAN FRANCISCO, CA. FOR FIVE (5) UTILITY TRUCKS IN THE APPROXIMATE AMOUNT OF \$136,049.49 AND AMERICAN CHEVROLET OF MODESTO, CA. FOR ONE (1) UTILITY TRUCK IN THE APPROXIMATE AMOUNT OF \$46,161.59. THE TOTAL APPROXIMATE PURCHASE AMOUNT FOR ALL SIX (6) UTILITY TRUCKS IS \$182,211.08.**

WHEREAS, the Operations and Maintenance Department-Fleet Services has requested the purchase of six (6) utility trucks, and

WHEREAS, Resolution No. 2003-505 authorized the Purchasing Supervisor to solicit Request for Bid (RFB) for six (6) utility trucks, and

WHEREAS, the six utility trucks consist of one (1), ¾ ton extended cab truck with utility body; one (1), ¾ ton extended cab truck; one (1), 21,000 Gross Vehicle Weight (GVW) cab and chassis; two (2), ¾ ton trucks with utility body; and one (1) 15,000 Gross Vehicle Weight (GVW) truck with utility body, and

WHEREAS, the ¾ ton extended pickup, the ¾ ton extended cab truck with utility body, and the 21,000 GVW cab and chassis are additional truck for the Water Division, and

WHEREAS, these trucks will be used by the heavy construction crew doing installation and major line construction, and

WHEREAS, these trucks will also be used by pump mechanics and have been added to the City's Water Division, and

WHEREAS, replacement trucks are replacing trucks that have met their life expectancy and are in need of replacement for maintenance and reliability reasons, and

WHEREAS, one 3/4 ton truck with utility body is a replacement for an existing truck in the Community Forestry Division, and

WHEREAS, the 15,000 GVW truck with utility body is an additional unit for the Transit Division and will be used for maintenance of bus shelters, and

WHEREAS, S & C Ford Inc. of San Francisco, CA. is the lowest responsive and responsible bidder for five (5) utility trucks for a combined total approximate cost of \$136,049.49, and

WHEREAS, American Chevrolet of Modesto, CA. is the lowest responsive and responsible bidder for one (1) utility truck for a total approximate cost of \$46,161.59, and

WHEREAS, the combined estimated total cost of all six (6) utility trucks is \$182,211.08, and

WHEREAS, on August 13, 2003 the Finance Committee recommended taking the request for authorization to bid for the six trucks to the full Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards the bid and contract for a total of six (6) utility trucks to the following vendors:

S & C Ford Inc. of San Francisco, CA., for five (5) utility trucks in the approximate amount of \$136,049.49 and American Chevrolet of Modesto CA., for one (1) utility truck in the approximate amount of \$46,161.59. The approximate total purchase amount for the six (6) utility trucks is \$182,211.08.

BE IT FURTHER RESOLVED that the Purchasing Supervisor is hereby authorized to issue purchase orders for six (6) utility trucks.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of February, 2004, by Councilmember Dunbar, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-119**

**A RESOLUTION DECLARING AS SURPLUS FROM FEBRUARY 1, 2004 THROUGH JANUARY 31, 2005 THE FOLLOWING ITEMS: LOST, STOLEN, UNCLAIMED AND/OR SEIZED PROPERTY FROM THE POLICE DEPARTMENT; EXCESS PROPERTY ACCUMULATED BY THE CITY; AND SURPLUS CITY VEHICLES AND AUTHORIZING THE PURCHASING DIVISION TO SELL SAME BY SEALED BID, BY AUCTION, OR SELL AS SCRAP.**

WHEREAS, the City's surplus items consist of stolen, unclaimed and/or seized property from the Police Department, excess property accumulated by the City, and surplus City vehicles, and

WHEREAS, the City Manager is authorized by City Charter Section 801 to sell obsolete, unclaimed, or surplus personal property of the City of Modesto with the approval of the City Council, and

WHEREAS, it is the intent of the City's Purchasing Division to seek City Council approval for the disposition of surplus property for the period of February 1, 2004, through January 31, 2005, in accordance with Section 801 of the City Charter, and

WHEREAS, by approving staff's recommendation for authorization to dispose of surplus property without having to return to City Council for subsequent approval, the City will save substantial staff and processing time, and

WHEREAS, the estimated gross revenue to be received from the sale of surplus property ranges from \$100,000 to \$140,000, and

WHEREAS, by Resolution No. 2001-423, the City Council authorized the City's current auction agreement dated August 14, 2001, which provides for auctioneering services to be conducted by Roger Ernst and Associates (now named "The Auction House" at their facility located at 824 W. Kiernan Avenue, in Modesto, and

WHEREAS, The Auction House charges a 6.75% Commission Fee on all rolling stock, consisting of motor driven vehicles and a 15% Commission Fee for miscellaneous surplus, consisting of bicycles, furniture, tools, and computers, and

WHEREAS, all revenues received (less administrative fees) from the sale of non-rolling stock shall be deposited in the General Fund per (MCC 2-7.08), and

WHEREAS, all Fleet vehicle/equipment revenues received (less administrative fees) shall be deposited in the Vehicle Replacement Fund, 7210, and

WHEREAS, the City's Purchasing Division has recommended on occasion that specific surplus property could best be sold on a sealed bid basis; however, if said property does not sell on a sealed bid basis, said property should then be sold at a public auction to be conducted by The Auction House, and

WHEREAS, should the sealed bid process or the public auction process not bring the desired results, City staff proposes that the property should be sold for scrap, and

WHEREAS, the list of items to be sold at auction or surplus will be on file in the office of the City Clerk, and

WHEREAS, after an auction is held, the Purchasing Division will prepare a recap memorandum to account for the items sold and the proceeds obtained from the auction, and

WHEREAS, this item was presented to the Finance Committee on January 26, 2004, and approval was given to move this item forward to the full Council,

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. For the period of February 1, 2004, through January 31, 2005, the Council hereby declares the following items as surplus: 1) lost, stolen, unclaimed and/or seized property from the Police Department, 2) excess property accumulated by the City, and 3) surplus City fleet vehicles/equipment. The revenues from the sale of surplus fleet vehicles/equipment shall be deposited in the Fleet Replacement Fund, 7210.

SECTION 2. That the City Manager, or his designated representatives, is hereby authorized to sell said surplus property to the highest bidder by sealed bid, auction, or as scrap in accordance with Section 801 of the City Charter. The non-vehicle revenues received (less administrative fees) shall be deposited in the General Fund per (MMC Section 2-7.09).

SECTION 3. The City's Central Stores Manager is hereby authorized to contact The Auction House, (formerly known as Roger Ernst and Associates) the City's current auctioneer, to coordinate pick-up and sale of surplus property after the necessary surplus property forms have been approved by the Purchasing Division.

SECTION 4. The Purchasing Division is hereby directed to prepare a recap memorandum to account for the items sold and proceeds obtained from said auction.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24<sup>th</sup> day of February, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-120**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO ISSUE REQUEST FOR BIDS (RFB) FOR SIXTEEN (16), 2004 MODEL, CHP CLASS "E" PATROL SEDANS FOR AN ESTIMATED ANNUAL COST OF \$417,000.00.**

WHEREAS, the Operations and Maintenance Department-Fleet Services has requested the purchase of sixteen (16), 2004 Model, CHP Class "E" patrol sedans, and

WHEREAS, the CHP Class "E" patrol sedan is the standard that has been developed for the City's patrol sedans, and

WHEREAS, delivery of these vehicles will be coordinated to coincide with the lifecycles of the current patrol fleet in order to meet the replacement needs over the next twelve (12) months, and

WHEREAS, Modesto Municipal Code Section 8-3.203 requires all purchases exceeding \$50,000 for materials and equipment of this type to be formally bid, and

WHEREAS, by soliciting competitive bids the City will achieve the best value for sixteen (16), 2004 Model, CHP Class "E" patrol sedans and meet the City's requirements for formal bidding, and

WHEREAS, on February 23, 2004, the Finance Committee recommended taking this request for authorization to purchase said vehicles to the full Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes solicitation of formal bids for sixteen (16), 2004 Model, Class "E" patrol sedans is hereby approved as follows:

SECTION 1. The City Clerk is hereby authorized to call for public competitive sealed bids for sixteen (16), 2004 Model, Class "E" patrol sedans to be opened in the

office of the City Clerk, 1010 10<sup>th</sup> Street, in the City of Modesto. The City Clerk shall be directed to give notice inviting such sealed bids in the time, form and manner provided by law.

SECTION 2. After bids are opened, they shall be tabulated and analyzed and a report submitted to Council.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-121**

**A RESOLUTION APPROVING AN AGREEMENT WITH THE STATE OF CALIFORNIA – CALIFORNIA CONSERVATION CORPS TO PROVIDE MATCHING IN-KIND FUNDS IN AN AMOUNT NOT TO EXCEED \$15,000 FOR A RIPARIAN AREA RESTORATION PROJECT IN DRY CREEK REGIONAL PARK AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT**

WHEREAS, the California Conservation Corps (CCC) is eligible for monies from Park Bond Acts 12 and 40 to perform riparian restoration projects, and

WHEREAS, the CCC approached the City of Modesto and offered to partner with the City in a short-term restoration project of the City's choice, and

WHEREAS, the City has budgeted funds for riparian restoration in Dry Creek Regional Park as part of the Trees for Tots program, and

WHEREAS, a partnership with CCC for this project would meet both the City's needs and those of CCC, and

WHEREAS, CCC must show a fifty percent (50%) match on the part of the partnering organization in order to receive the state grant funding for restoration, and

WHEREAS, the City has budgeted \$15,000 for the 2004 Trees for Tots program in the Community Forestry Division and Parks Operations Division budgets, and

WHEREAS, the CCC agreement would allow the City to receive \$30,000 worth of restoration benefits for the \$15,000 budgeted cost, and

WHEREAS, the proposed project area is located next to Dry Creek along the Peggy Mensinger Bicycle Path and includes irrigation system installation, tree planting, tree maintenance and training of CCC members, and

WHEREAS, the restoration project must be completed by June 30, 2004, in order for the CCC to be eligible for the Park Bond funding,

NOW THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby approves the Agreement between the City of Modesto and the State of California – California Conservation Corps for the City to provide matching in-kind funds in an amount not to exceed \$15,000 for a riparian area restoration project in Dry Creek Regional Park.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24<sup>th</sup> day of February, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, March,  
O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-122**

**A RESOLUTION APPROVING THE SUBMISSION OF AN APPLICATION TO THE DEPARTMENT OF HEALTH AND HUMAN SERVICES FOR THE SURPLUS PROPERTY LOCATED ON 1230 12<sup>TH</sup> STREET, MODESTO, (GSA NO. 9-G-CA-1610), AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT AND SUBSEQUENT DOCUMENTS, AND RESCINDING RESOLUTION NO. 2004-019.**

WHEREAS, certain real property owned by the United States, located in the County of Stanislaus, State of California, has been declared surplus and is subject to assignment for disposal for homeless or public health purposes by the Secretary of Health and Human Services under the provisions of Section 203(k)(1) of the Federal Property and Administrative Services Act of 1949, as amended, and rules and regulations promulgated pursuant thereto, more particularly described as follows:

1230 12<sup>th</sup> Street, Modesto, California (GSA No. 9-G-CA-1610),

and

WHEREAS, on October 14, 2003, by Resolution No. 2003-548, the City Council authorized the City Manager, or his designee, to submit a "Letter of Interest" to obtain necessary application instructions from the Department of Health and Human Services (HHS) for the surplus property located on 1230 12<sup>th</sup> Street, Modesto, (GSA No. 9-G-CA-1610), previously used by the Social Security Administration (SSA), and

WHEREAS, the City of Modesto needs and can utilize said property for public health purposes in accordance with the requirements of said Act and the rules and regulations promulgated thereunder of which this Council is informed, including commitments regarding use and time such use shall commence, and

WHEREAS, the property consists of a .62-acre corner lot improved with an 11,957-square-foot office building and 24 paved outdoor parking spaces, with the zoning designation as C-2 (general commercial), and the building is handicapped accessible, and

WHEREAS, the building contains lead-based paint and does not meet current seismic standards, and the cost estimate for both structural and nonstructural seismic retrofit is \$58,860, and

WHEREAS, asbestos-containing material (ACM) in the form of wallboard joint compound is located throughout the building in the walls and ceilings, and the ACM is in good condition and is non-friable, and

WHEREAS, although the building is in good condition, the mechanical and electrical system and the roof are the major items requiring repair and/or replacement, with the total preliminary estimate to rehabilitate this building approximately \$400,000, and

WHEREAS, it is estimated that the total costs to complete the rehabilitation and furnishing of the facility will be approximately \$600,000, and

WHEREAS, of the \$600,000 figure, the City of Modesto has budgeted \$305,752 through the 2003-2004 Annual Action Plan, and the County of Stanislaus has tentatively set aside \$100,000 from their CDBG funds for the project at this time, and staff proposes that the remaining \$194,248 come from the City's CDBG Revolving Loan Fund, and

WHEREAS, staff proposes that the building could be utilized for several necessary purposes, including:

- Offices, meeting spaces and storage for the many governmental, non-profit and faith-based agencies involved in the Stanislaus Housing and Support Services Collaborative that provides services to the homeless, and
- Offices for the Restorative Police Function and Bicycle Officers. The Restorative Policing Program, in collaboration with the Behavior Health and Recovery Services, is designed to address adults with mental illness or other disabilities that are at high risk of being repeatedly victimized or arrested for activities related to their disability,

and

WHEREAS, if the City's application request is approved, the City of Modesto and the Collaborative's agencies could work in coordination to rehabilitate this facility for the outlined uses, and

WHEREAS, it is expected that eventually the Collaborative will be the agency to oversee this facility, and

WHEREAS, at its meeting of October 7, 2003, the Safety and Communities Committee supported submission of an application for the use of 1230 12<sup>th</sup> Street, Modesto, (GSA No. 9-G-CA-1610), previously used by the Social Security Administration (SSA), and

WHEREAS, at its meetings of October 10, 2003, the Citizens Housing and Community Development Committee also supported submission of this application, and

WHEREAS, on January 6, 2004, by Resolution 2004-019, the City Council approved the submission of the application, and

WHEREAS, on February 9, 2004, the City received a letter from the Department of Health and Human Services requesting a resolution with additional information,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it has legal authority, is willing, and is in a position financially to care for and maintain the property.

BE IT FURTHER RESOLVED that Jack R. Crist, the City Manager, or his designee, is hereby authorized, for and on behalf of the City of Modesto, to do and perform any and all acts and things which may be necessary to carry out the foregoing resolution, including the preparing, making, and filing of plans, applications, reports, and other documents; the execution, acceptance, delivery, and recordation of agreements, deeds, and other instruments pertaining to the transfer of said property; and the payment of any and all sums necessary on account of the purchase price thereof, including fees or costs incurred in connection with the transfer of said property for surveys, title searches, appraisals, recordation of instruments, or escrow costs, together with any payments by virtue of nonuse or deferral of use of the property.

BE IT FURTHER RESOLVED that if the City of Modesto is unable to place the property into use within the time limitation of 18 months, it is understood that the City of Modesto will pay to the Department the sum of 1/360 of the fair market value for each month of nonuse, beginning 18 months after the date of the deed, or 36 months where construction or major renovation is contemplated.

BE IT FURTHER RESOLVED that Resolution No. 2004-019 is hereby rescinded.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24<sup>th</sup> day of February, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, March,  
O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-123**

**A RESOLUTION SUPPORTING THE EXTENSION OF A 1/8 CENT SALES TAX  
WHICH WOULD FUND THE STANISLAUS COUNTY LIBRARY.**

WHEREAS, the Stanislaus County Library is seeking continued funding through an extension of a 1/8 cent sales tax; and

WHEREAS, an election will be held on March 2, 2004, whereupon the voters will be asked to extend the 1/8 cent sales tax to assist in funding of the Stanislaus County Library; and

WHEREAS, the Stanislaus county Library is requesting cities in Stanislaus County to support the extension of the 1/8 cent sales tax which supports the Stanislaus County Library by adoption of this resolution, and a certified copy of this resolution shall be delivered to the Stanislaus County Library;

NOW BE IT HEREBY RESOLVED by the Council of the City of Modesto hereby endorses the March 2004 election in support of the extension of the 1/8 cent sales tax which funds the Stanislaus County Library.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24<sup>th</sup> day of February, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-124**

**RESOLUTION ACCEPTING THE ANNUAL REPORT FOR THE 2001-2004  
*STRATEGIC PLAN AND VISION***

WHEREAS, in September 2000, Council and staff embarked on a strategic planning process to develop a Vision and *Strategic Plan* for the City, and

WHEREAS, the Vision forms the foundation for the *Strategic Plan*, and

WHEREAS, the Vision and *Strategic Plan* build upon previous visioning and planning efforts on the part of the City, and

WHEREAS, the City's organization structure has been realigned to reflect the City's Vision and *Strategic Plan*, and

WHEREAS, on June 18, 2001, Council held a Workshop to review the draft *Strategic Plan* and Vision and

WHEREAS, since that time, numerous public presentations have been made to receive comments on the Vision and *Strategic Plan*, and

WHEREAS, the Vision and *Strategic Plan* have been refined based upon public comments received during the review process, and

WHEREAS, the plan is intended to be a fluid document, which is modified from time to time, and

WHEREAS, a report of the current status has been brought to the Council in an annual update form,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the annual report for 2003 of the *2001-2004 Strategic Plan and Vision* as set forth in **Exhibit A**, a copy of which is attached hereto as Exhibit "A" and incorporated herein by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24<sup>th</sup> day of February, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

## Completed/Completed-Ongoing/ Eliminated projects through 2003

Status

A

Lead Departm	Full Action	Project Status	Update Date	Milestone
CEDD	Develop apprentice and intern programs.	12/01 - Several City Departments have hired interns. Personnel has developed an intern policy. 1st class graduated 12/01, 2nd class in process	12/1/2001	2001-12
CEDD	Form development partnerships between the private sector and the Modesto Redevelopment Agency.	Hinchey office building, Kansas Avenue Business Park. Future items: housing, parking, hotel/motels	12/1/2001	2001-07
CMO	Seek state, federal and private grant funding for technology.	The City is currently applying for a grant related to code enforcement that is targeted for improving their services with wireless technology.	3/21/2003	Ongoing
CMO	Conduct quarterly town hall meetings held in different neighborhoods throughout the city.	The City continues to hold meetings to address issues specific to particular neighborhoods. Citywide workshops conducted during this quarter include: Housing (date of this)	7/9/2002	Ongoing
CMO	Work with Hispanic Media as a means for communicating with the Hispanic community.	The Communications & Marketing Division is currently working with representatives from Univision Channel 19, Telefutera Channel 27 and the El Sol newspaper to enhance communication methodologies between the City and each agency to outreach to the Hispanic community of Modesto.	7/19/2002	2002-01

CMO	Proactively seek state and federal funding for local projects.	<p>The City received 3 federal earmarks as part of the 2001-2002 budget cycle: 1) Bus Maintenance Facility, 2) Infrastructure in Distressed Neighborhoods, 3) Ninth Street Storm Drain. At present, we have 6 federal earmark requests pending: 1) Bus Maintenance Facility, 2) Virginia Corridor Rail-Trail Project, 3) Ninth Street Storm Drain, 4) AVL-CAD System for Police Cars, 5) Gallo Performing Arts Center Streetscape and 6) Partnership for Healthy Youth (lunchtime recreation programs).</p> <p>From the state, we received an earmark for the Tuolumne River Regional Park. We also received grant funding for the Briggsmore Gateway. Our state lobbyists are also assisting us in obtaining other grant funding for parks projects.</p>	7/9/2002 2001-03
E&T	Continue providing public education and collection mechanisms to prevent used oil from being illegally dumped in the storm drains.	<p>Staff continues to present pollution-prevention information and education at community meetings, elementary classrooms and community events. Events completed in 2003 include Stanislaus County Home &amp; Garden Show (March), Earth Day (April), Cinco de Mayo (May), and the Roselawn "Knock &amp; Talk" Community Education Day (May).</p> <p>In June 2002, staff began installing "Only Rain Down the Drain" storm drain stenciling in Spanish. To date, staff has installed more than 4,000 storm drain markers in Spanish. This storm drain project is supported by newspaper, radio, and billboard advertising.</p>	6/13/2003 Ongoing

E&T	Expand and enhance Earth Day celebration at Graceada Park	The Annual Earth Day in-the-Park event was held on April 12, 2003 and had 79 vendor booths. Sponsorship totaled \$19,300 in cash and in-kind services, an 8% decrease from last year. Attendance was low this year due to inclement weather conditions. Staff estimates there were approximately 3,000 people in attendance. Staff has confirmed the 2004 event for April 17th.	6/13/2003 Annually
E&T	Perform review of existing transportation-related documents and policies to ensure Smart Growth principles are included.  * Review General Plan * Review CFF * Review City Standards	Review and revisions of the General Plan is currently underway. Smart Growth principles will be included in any recommended amendments to the General Plan.	6/16/2003 2001-08
E&T	Design roadways to accommodate non-motorized uses in conformance with the City's Non-motorized Transportation Plan.	All new roadways and asphalt overlay projects will be reviewed for their compliance to the Long-Term Non-Motorized Transportation System and Bike Lane Implementation Strategy on existing streets.	6/13/2003 Ongoing
E&T	Develop street maintenance strategy linked to CIP and budget	CIP includes maintenance strategy projects, which are part of the City's 5-year plan for pavement maintenance.  Staff has presented Council with a prioritized list of street projects that have been programmed into the CIP. The State Budget shortfall will impact the budget available for pavement maintenance in the future. The CIP has been adjusted accordingly.	6/13/2003 2001-07

E&T

Develop and implement new programs which will increase resource recovery and diversion.

A pilot recycling program was started at 4 elementary schools in the Modesto City School District. District officials were very supportive and within the next 2 years we hope to have an established program at all locations.

6/13/2003 2001-12

Staff started a renewable energy projected working group to look at diverting cannery waste and other agricultural waste and converting it into energy. Support letters have been received from the community and staff will look at seeking Federal grant money to conduct a feasibility study.

E&T

Assess linkages between rail, air and bus transportation systems to ensure connectivity.

The Amtrak Station has curbside service hourly. A MAX route is within one block of the airline terminal.

6/13/2003 2001-08

United Airlines(UAL), code-sharing partner of SkyWest dba United Express, filed for bankruptcy protection in December 2002. UAL's financial problems will require a plan of reorganization and a possible reduction in United Express' service. Plans are underway to submit a request for Department of Transportation funding from the Small Community Air Service Development Program. Applications are due by June 30, 2003. Efforts are in the works to form a private/public consortium for air service and Horizon Air will provide their letter of support, which will be included as part of the application.

E&T	Assess efficiency of air and transit systems and implement improvements.	MAX cost per passenger, as well as other efficiency measures, consistently places MAX in the top 20% of transit agencies nationally.  The Airport air service marketing presentation has been updated, and a travel survey has been added to the Airport website. Original projection of direct service to Los Angeles International Airport continues to be valid.	6/13/2003 2003-01
E&T	Promote household hazardous waste collection sites and events year-round, financed via garbage disposal surcharges.	The permanent Household Hazardous Waste facility at 1716 Morgan Road continues to provide residents with free disposal of household hazardous wastes. The availability of this facility continues to prove successful in diverting illegal dumping and ensuring proper disposal.	6/13/2003 Annually
E&T	Promote the use of Amtrak for regional travel.	Amtrak is presently not designed to handle regional commuting. Amtrak is a private business and the City would be out of place in promoting it as something it is not, thus the wording on this item has been changed to drop the word commuting.	6/13/2003 2001-08
E&T	Continue to work with Stanislaus County to ensure any fees collected are being appropriately charged and allocated, including reevaluation of the Waste to Energy Plant contract and restriction of medical waste.	The Solid Waste Manager is continuing to work with the County in the City's best interest and monitors the County's financial transaction reports to ensure that revenues from fees are being used appropriately. The 10-year audit of the account is completed, and an audit of 2000-2002 is being initiated. A recommendation for a tip fee reduction will be considered by the Waste-to-Energy Executive Committee on June 12, 2003.	6/13/2003 Ongoing
E&T	Maintain Long Range Transit Plan and implement recommendations, as warranted.	A Long Range Transit Plan was adopted in August 2001. Recommendations will be implemented as warranted.	6/13/2003 Ongoing

E&T	Seek rate increases adequate to fund water/wastewater master plan strategies.	The Utility Rate Setting function has been reassigned to the Finance Department. Finance currently has a recruitment underway to fill a vacancy to take the lead on rate setting for the three utility enterprise funds.	2/7/2003 2002-12
E&T	Ensure quality and convenient services are provided for our customers.	Staff continues to oversee the garbage contracts and programs ensuring excellent services are being provided. Phone calls are being made weekly to all new residents to assist them with understanding our programs.  Staff has gotten involved in three City/Community projects: the Anti-Litter Committee, the Roselawn Team, and the Weed and Seed Project. This allows staff to meet directly with residents to hear their issues or concerns and provide information.  Staff began a pilot program in which the Solid Waste Office handles the investigation and removal of all illegal dumping that occurs on the street. This should result in cleaner streets throughout the City.	6/13/2003 Quarterly
E&T	Conduct annual rate surveys, updating program information.	Staff is currently in the process of the 2003/04 garbage rate and program survey, which will be completed in August 2003.	6/13/2003 Annually
E&T	Develop a program to maintain / improve the quality of containerized green waste.	Staff continues to enforce this program. We have partnered with Modesto Junior College and have a student intern checking containers weekly. 21 containers have been pulled for non-compliance since the start of this program. 766 yellow first-notice violations have been issued, and 112 red second-notice violations have been issued.	6/13/2003 Ongoing

E&T	Conduct annual rate reviews/cost-of-service analysis for water, sewer, storm drainage and garbage collection.	The Utility Rate Setting function has been reassigned to the Finance Department. Finance currently has a recruitment underway to fill a vacancy to take the lead on rate setting for the 3 utility enterprise funds.  Annual garbage rate review is underway.	6/13/2003 2001-10
E&T	Develop revenue sources for maintenance, beautification, right-of-way and construction that are linked to Capital Improvement Projects and budget process.	Proposed CIP budget for FY 03-04 includes revenue sources for maintenance, beautification, right-of-way and construction.	6/13/2003 2001-07
FD	Expand CPR & Early Defibrillation Training program to neighborhoods	The community CPR program continues with classes offered once a month. As part of our Community Emergency Response Training (CERT) program CPR is taught to CERT program attendees.	2/4/2004 2002-01
FD	Support Regional Fire Training Center and ensure City's participation is equitable	The Fire Department continues to play a major role in management of the RFTC. The use of the center continues to increase, and revenues are rising due to facility rental.	2/12/2003 Ongoing
FD	Coordinate a Citizen's Emergency Response Team.	The Community Emergency Response Team (CERT) was formed in November 2003. We had 63 citizens complete the training. This year we have received another FEMA grant to put on additional CERT classes. We are adding instructors and hope to train an additional 120 citizens in CERT.	2/4/2004 2002-12
FD	Complete Emergency Operations Center and develop working agreement with other jurisdictions	The Emergency Operations Center is complete, and a use procedure has been developed. A cost sharing agreement is again being negotiated.	6/12/2003 2002-01

FD	Collaborate with Ambulance Providers to improve response time and improve efficiency	<p>In November, 2002 Mountain-Valley Emergency Medical Services Agency (MVEMSA) completed the contract renewal process with all of the Ambulance providers in Stanislaus County. As required by the contracts, a "System Status Committee" was formed. The Emergency Medical Service Committee (EMSC) will continue to monitor information provided by MVEMSA staff and the stanind committees invoved with emergency medical services delivery within Stanislaus county. Through the EMSC, there are on-going discussions related to the merging of the ambulance dispatch services within the Stanislaus County Emergency Dispatch Center. As an interim step, the ambulance providers have all come under one roof at the AMR dispatch center located in downtown Modesto.</p>	2/12/2002 2002-06
FD	Develop Emergency Operations Plans for rotating outages, floods, earthquakes and other emergencies.	<p>The City of Modesto Emergency Operations Plan is an ongoing document that continually addresses the role of the City during various major emergencies. The plan needs annual updating and city-wide training on its use. The new updated plan will be distributed in the first quarter of 2004. A terrorism annex is being developed and will be added to the plan in the future</p>	2/2/2004 2002-05

O&M

Improve the appearance of key transportation corridors within the city, e.g. S.R. 99, Yosemite Boulevard, Briggsmore, McHenry, etc.

We have 33 NEAT teams doing litter pick up on streets. Of these, seven (7) of these are pay for service agreements. We have completed the Welcome Sign landscaping at Sisk and Briggsmore and the 19th and H Street Fountain project. We are implementing the 20/20 Vision Plan to improve/install landscape on 20 high-visibility sites throughout Modesto. [12/10/2003]

12/9/2003 2002-11

A beautification master plan is targeted for completion in the next two years for the SR 99 corridor from the Merced River to the Stanislaus River. Three wall planting projects have been completed in partnership with CalTrans, the Workforce Investment Board, and the City. A \$1.3 million TEA grant was approved for the Briggsmore interchange and other TEA grants are in the pipeline for future year consideration. Shrub and vine plantings have been completed along Briggsmore between Claus and Oakdale. The City is also partnering with Scenic America for the SR 99 Corridor and has implemented an Adopt-A-Right of Way program. [3/10/2003]

O&M

Expand public education program for rockwells. Developed "Go with the Flow" educational video; Estimated 1000 elementary students watched the video. Staff attended Principal/Teacher meetings to promote the Video and try to integrate it into class curriculums. Approximately 200-300 students took field trips and participated in classroom sessions conducted by a Stanislaus County-Tuolumne River pollution prevention awareness program. Approximately 75% of the 4th Graders in the urbanized area were provided with educational materials relating to pollution prevention and stormwater quality. Distributed more than 40,000 promotional and educational materials, including 4,200 new residential packets with recycling and storm drain information. An update to the 1996 Godbe Survey of residents was done in 2002. The survey found a 3% increase in rockwell awareness and a 4% decrease in residents believing that water in rockwells went to a treatment plant. [12/10/2003]

12/10/2003 Ongoing

Distributed more than 10,000 promotional and educational materials, including 1,200 new resident packets with recycling and storm drain information. Installed 4,000 Spanish placards and distributed more than 10,000 bilingual door hangers with "Only Rain Down the Drain" message. Attended numerous festivals and made presentations at elementary schools. [3/10/2003]

O&M	Work with permitting agencies to ensure the City meets NPDES requirements.	Staff has submitted the Stormwater Management Plan to the Regional Water Quality Control Board. The plan outlines specifics for meeting the NPDES Permit requirements. Staff is waiting for comments back. Staff is continuing efforts to coordinate permit required activities with other City Departments and divisions.	7/9/2002 Ongoing
O&M	Evaluate conversion of City vehicles to alternative fuel sources to improve air quality.	Fleet Services recently participated in a one-year deployment of 21 Neighborhood Electric Vehicles (NEV's) for evaluation in several applications. In addition, staff is in the process of purchasing three (3) more Hybrid sedans. Other alternative-fuel applications are being evaluated. [12/10/2003]  Staff has aggressively been purchasing Ultra Low Emission Vehicles (ULEV); 49 ULEV have been purchased in the last two years. Two Super Low Emission Vehicles (SULEV) have been purchased along with two Zero Emission Vehicles (ZEV). In addition, grant funding has been sought for two additional ZEVs.  Repowered 18 older model diesel buses with clean-burning diesel engines. Only clean burning low sulfur diesel fuel is now being purchased for the fleet. [3/10/2003]	12/10/2003 2002-01
O&M	Support and expand use of Self-Directed Work Teams.	Forestry teams have reached a level of maturity. They are performing meeting functions that has allowed them to learn a few tasks that had been the responsibility of supervisors. The biggest result of teams has been a general move to the employees solving minor relational problems.	3/14/2003 Ongoing

PD	Incorporate CPTED Crime, Health & Safety Prevention Principles in planning documents (Zoning Ordinance/General Plan)	Training for all City departments in the CPTED principles completed. Crime Prevention assigned to the Area Offices will work in collaboration with other City departments to incorporate CPTED concepts. Part of ongoing projects	12/8/2003 2002-12
PD	Implement a Chief's Advisory Council to work on community and neighborhood problems	Up and running with monthly meetings.	12/11/2003 2001-08
PD	Expand and Improve National Night Out	The National Night Out Committee functions almost year-round. It obtained a National First Place for Modesto's 2002 National Night Out. Results for National Night Out 2003 competition are expected to be excellent. The Committee is planning to compete well again in its 2004 National Night Out.	12/8/2003 2002-08
PD	Utilize Gang Unit in a preventive role	During 2003, the Gang Unit has made over thirty presentations to schools - students and faculties, the NAACP, the Modesto Teachers' Association, and businesses. Additionally, the Unit has been extremely proactive in cooperation with the Tactical Patrol Unit and SWAT in working on known gang hotspots. The Units have cleared two homicide investigations, lowered the overall call load for gang disturbances and activities. The Unit also joined in a partnership with Stan.Co. Probation concentrating on a Violent Juvenile Offender Program.	5/1/2002 2001-12
PD	Build Relationships with the City's Latin and SE Asian communities.	The Department has membership on the Hispanic Leadership Council, partnerships with HLC and NAACP, interaction with the Latino Round Table, GI Forum and the various citizen academies such as Vietnamese Laotian.  The eleventh Spanish Speaking Citizens' Academy was completed and a Russian Citizens' Academy is in progress.	12/12/2003 2002-10

PER	Invest in enhancing education levels of City employees through our Tuition Assistance and Training Allowance Programs.	Plans are being made for a summer workshop to be open to all employees for further explanation of our tuition assistance program. Has been achieved and will continue to be an ongoing goal for the program. Goal has been met and exceeded.	2/15/2004	Ongoing
PER	Collaborate with the County on enhancing private-public partnerships for the Annual Safety Faire.	Participated in Annual Safety and Wellness Faire at Modesto Centre Plaza on May 21-23.	7/16/2002	2002-05
PER	Support Mid-contract Interest-Based Resolution of issues with all bargaining units.	MCEA Problem-Solving Committee is very active and continues to meet every 4-6 weeks.	7/22/2002	Ongoing
PER	Implement a Problem Solving Committee with MCEA.	MCEA Problem Solving Committee is very active and continues to meet every 4-6 weeks.	3/1/2002	2001-01
PER	Reward performance and innovation through Employee Recognition and Suggestion Programs.	Systems changes are being made to allow for on-line nomination of recognition candidates and on-line submittal of Bright Ideas. Has been achieved and will continue to be an ongoing goal for the program. Goal has been met	12/31/2003	Ongoing
PER	Deliver training to City employees on a variety of work-related topics and Promote Supervisory and Customer Service Academies.	The Training Division continues to plan and deliver both on-site and off-site coursework on a variety of topics. Legal Training Consortium classes have been held twice during the first half of the Fiscal Year. Additional in-house and outside courses will be held during the second half of Fiscal Year 04. Supervisory and Customer Service Academies beginning 04.	2/15/2004	Ongoing
PER	Provide tuition assistance to allow employees to work & earn college degrees.	Plans are being made for a summer workshop to be open to all employees for further explanation of our tuition assistance program.	3/10/2003	Ongoing
PER	Identify Critical Knowledge, Skills and Abilities for specific job classes to clearly distinguish the best qualified candidates.	12/14/01 - The Personnel Department continues to update job description and has taken 10 job specs to council for revision this calendar year (03). An additional seven new job classifications have been established during the same period.	2/15/2004	Ongoing

PER	Participate in Community Activities, marketing the City as an inclusive employer.	12/17/01 - In November, Jason Mauga had a speaking engagement at CSUS Turlock to discuss employment opportunities in conjunction with available City internships, serving as a panel member for the discussion alongside other business entities within the community.	12/17/2001 Ongoing
PER	Update policies to ensure they Promote Fairness and Provide for Equal Opportunity.	12/14/01 - City's Policy Against Harassment complete; sent to all employees on 11/20/01.	12/14/2001 Ongoing
PER	Participate in apprentice and intern programs.	<p>The goal of City Internships is to create and stimulate career interest in Public Service and to market the City of Modesto as a viable option for employment. There are currently 14 student interns working for the City of Modesto. 2 in the City Manager's Office, 6 in Engineering &amp; Transportation, 1 in Operations and Maintenance, 3 in Parks, Recreation and Neighborhood, and 2 in Information and Technology. The City recruits interns from local high schools, colleges and Cal-Work type partnerships. By July 2002, the City will hire on an additional 5 interns for special summer work programs.</p> <p>During the fourth quarter of this fiscal year, the City marketed its internship program by attending the Cinco De Mayo celebration, sponsored by the Hispanic Chamber of Commerce &amp; Cal State Stanislaus, Meet the Firms Night, Two Job Fairs at Modesto Junior College, one Job fair at the Center Plaza and one High School Career Fair. Additionally, several flyers were distributed and posted at specific departments within the High school and College institutions.</p>	7/16/2002 Ongoing

PR&N	Partner with promoters to make X-Fest a viable, safe event.	Xfest 2003 was a truly outstanding event. Several changes were implemented to make it even better. The most critical was the site location being moved two blocks to the south and new entry locations were established. The 2004 Xfest has already been approved by the City Council.	12/1/2003	Ongoing
PR&N	Expand and enhance the Art in Public Places program	The Public Arts Committee continues to meet on a monthly basis. They have developed a set of guidelines for public art and have created goals.	2/20/2003	2002-12
PR&N	Expand recreation programming offerings to include Visual, Literary and Performing Arts Courses.	The Child Services organization offered 36 specialty classes that were visual, literary or performing arts. The organization continues to recruit instructors for specialty classes in the arts. Art classes co-sponsored by the Central California Art League have also been added.	12/2/2003	2002-06
PR&N	Assist and support the activities of local performing and visual arts groups.	Applications for funding for the 2004-05 fiscal year will be released in January 2004.	12/2/2003	Ongoing
PR&N	Use the Culture Commission to develop funding priorities for cultural expenditures	Funding recommendations were presented to City Council.	7/19/2002	Ongoing
PR&N	Expand the market and evaluate costs for use of Centre Plaza and Tenth Street Place Plaza area.	The Centre Plaza Five-Year Plan is being used as a guideline to create new business and maintain optimal service levels for regular users.	12/2/2003	2003-05
PR&N	Support Poetry Writing Contest and Poetry Reading at the Mansion	The 2004 Poetry Contest applications are available.	12/2/2003	Ongoing
PR&N	Strengthen, define roles, track & collaborate on Code Enforcement efforts	An Inter-Departmental team developed a plan to address various code enforcement issues. Code Enforcement staff is participating in the Roselawn Weed and Seed Program.	12/2/2003	2002-07
PR&N	Support Rights of Passage Programs for teens	Staff recruited 20 to 30 young men and ensued between February to April 2002. Ten people completed the project.	7/19/2002	Ongoing

PR&N	Look for opportunities to expand open space within the urban area, including development of the Virginia Corridor and expansion of the boundaries of the Tuolumne River Regional Park.	Property along Scenic Drive at the foot of Coffee Road was acquired. The Mensinger Trail and the second phase of the Hetch-Hetchy trail were dedicated. The Redevelopment Agency is looking at property in the Hetch-Hetchy planning area and a park site in the Fairway neighborhood/	2/10/2003	Ongoing
PR&N	Provide financial assistance for the State Theater and seek opportunities to expand use of that facility	Staff continues working with the State Theater on event issues including front of house and production.	12/1/2003	Ongoing
PR&N	Market Existing Neighborhoods.	Newsletters continue to be posted on the City's web page.	7/19/2002	2002-12
PR&N	Establish and define partnerships with non-profit organizations to obtain Public Service Grants	The RFP cycle for 2003-2004 CDBG grants with non-profits opened on February 5, 2003 and closed on February 28, 2003. Staff conducted two technical workshops in conjunction with these grant opportunities.	6/4/2003	2002-06
PR&N	Seek Opportunities for Collaboration in other areas, e.g. recreation planning, citizens health & safety academy	Staff collaborates on many of the department's programs and activities.	2/20/2003	Ongoing
PR&N	Examine potential to retrofit and/or beautify existing single-use facilities.	Dual Use Policy is now in place. The Grecian basin is starting to go into review as that area is completing it's development.	12/2/2003	2003-07
PR&N	Partner with and assist sponsors of Cultural Festivals, including: * International Festival * Greek Festival * Highland Games * Hmong New Year Celebration * Cinco de Mayo * September 16 Event * Others	The department provided support to Cinco de Mayo celebration, the Fourth of July Parade, picnic and fireworks, the International Festival, and the Hmong New Year.	12/3/2003	Ongoing
PR&N	Increase the use of the McHenry Museum and Mansion for public gatherings	The auditorium at the Museum is being improved to encourage additional use.	12/2/2003	Ongoing

PR&N	Increase use of Mancini Bowl	Staff continues to book many reservations of the Bowl. Increasing use is difficult, since many potential renters want amplified music. Staff looked into improving the lighting and found the cost to be prohibitive.	7/19/2002	2002-07
PR&N	Organize Special Events at historical facilities	Special events are enumerated weekly in the City Council's FYI.	12/2/2003	2003-12
PR&N	Expand and enhance Multicultural Diversity training	The "Day of Empowerment" was held in September 2003. Multi-cultural training also took place.	2/20/2003	2002-03
PR&N	Expand Fourth of July Parade to include wider community representation	Staff met and discussed the 2004 Fourth of July parade. City staff from both the Recreation Services and Cultural and Enterprise Services Divisions will work with the Modesto Jaycees in coordination of the parade. The City Council has approved funding in the amount of \$10,000 annually.	12/2/2003	2002-07
PR&N	Participate in planning and promotion efforts for the Modesto Relays	The 2003 Modesto Relays was a success. Staff will be working with Save Mart Cares for the 2004 Modesto Relays.	12/1/2003	2002-05
PR&N	Work with West Modesto King Kennedy collaborative and Twenty-first Century Learning Grant program to promote the Juneteenth Event	Juneteenth was held on June 19-21, 2003, with 1,500 to 2,000 attendees. Staff will plan next year's event in early 2004.	12/2/2003	Ongoing
PR&N	Participate in planning and promotion efforts for the Martin Luther King, Jr. celebration and speech	A successful Martin Luther King, Jr. event was held on January 17, 2003. The City co-sponsored Mae Jemison's presentation. Staff is planning to co-sponsor Cornel West's presentation in January 2004.	12/2/2003	Ongoing
PR&N	Coordinate Neighborhood Cleanup in the Yosemite/Airport District.	This event is now city-wide. It still occurs twice per year and is very successful. Staff is also looking into amending the Municipal Code for litter control.	12/2/2003	2002-12

PR&N	Use Neighborhood Volunteers to perform projects that enhance neighborhood aesthetics and form opportunities for social interaction	Staff has hired a coordinator and the program is underway toward full implementation. Target neighborhoods include E. Morris & Kimble, Kansas, Rosemore, and the Airport area. Staff is still in the process of training, with plans to be fully operational by February 2004.	12/2/2003 2002-06
PR&N	Increase After School Programs for youth in the City.	Staff received a grant and has used matching funds to offer more After School Learning programs at the elementary levels.	7/19/2002 2002-12
PR&N	Seek funding for and implement the Tuolumne River Regional Park Master Plan	Staff has continued to visit Sacramento and the local legislature to secure funding. Grant applications are out for future phases of the Gateway Parcel.	12/2/2003 Ongoing
PR&N	Coordinate with the County and local businesses to develop events/uses for the Tenth Street Place Plaza and surrounds.	Staff secured a sponsor and organized a Brown Bag Lunch Concert Series in the spring 2003. Staff plans to hold this event annually and is planning the next concert series for the fall of 2004. Staff booked a total of 65 events that were held in Tenth Street Plaza, with 3 scheduled for December.	12/1/2003 2002-05
PR&N	Create events which Foster Interaction between all High Schools.	MoBand is currently fulfilling this action item. Also upcoming teen movie nights and movie in the park are also in the works.	6/4/2003 Ongoing
PR&N	Identify ways to Involve Youth in Strategic Plan Implementation	Annually staff works with the Youth Commission and other youth that have shown an interest in youth issues to discuss what are some ways to better implement the strategic plan items that concern youth. During the month of August or early September, staff met with the commissioners to go over the relevant actions of the Plan in an effort to direct attention in these directions, thus creating goals for the Youth Commission.	2/10/2003 2002-07

PR&N	Expand programming and uses of King Kennedy Center	Recreation & Neighborhoods staff is working to secure private funds for the continued operation of the PARTY MOBILE at school and neighborhood sites.	12/2/2003	2002-12
PR&N	Increase Citywide participation at the Skate Park	Staff is currently looking at alternatives for the operation of the skate park.	12/2/2003	2002-07
PR&N	Coordinate and expand annual Celebration of Lights	Staff was successful in recruiting a large number of city employees as volunteers to work the day of the parade. It was the largest number of staff participation to date. The 2003 Celebration of Lights was successful, attracting large crowds to downtown Modesto to watch the parade and tree lighting. Parade Grand Marshal, Grace Lieberman, led the parade with the theme of "Toys in Dreamland". Festivities at the tree lighting included holiday music and a visit from Santa.	12/1/2003	2002-12
PR&N	Provide financial assistance and law enforcement support for MoBand	The 84th year of the Mo Band concerts was a big success. A new filming platform at the rear of the bowl was in place and allowed filming without obstructing the views of concert-goers. The Parks, Recreation and Neighborhoods, Operations and Maintenance and Police Departments provided a variety of services weekly to ensure the success of the concerts.	12/2/2003	Ongoing
PR&N	Expand the Park Partners Program to make maximum use of public funds.	The park partners program will be used in the near future for Sharp, Mark Twain and John Muir parks for playground equipment upgrades and new installations. The Dog Park will use the park partners process, but will not use any Park Partners funds.	6/4/2003	Ongoing
PR&N	Expand and Enhance the Sister Cities program	Delegations visited France (for a potential sister county agreement) and Aguascalientes Mexico.	6/4/2003	2003-12
PR&N	Ensure Crime Free Multi-Housing Addenda are attached to federally-funded agreements	This requirement has been placed on all applicable HOME funded loans.	12/31/2001	2001-12

PR&N	Expand First Time Homebuyers program using CDBG HOME funds	Staff is still providing down-payment assistance to qualifying families.	2/20/2003	2002-07
PR&N	Seek opportunities to market and expand the Down Payment Assistance Program	Presentations were made. Additional amendments were added to the program guidelines.	2/20/2003	2002-07
PR&N	Provide for Dual Use of storm drain and other infrastructure facilities wherever possible	Coffee-Claratina Park will be completed in Spring 2004. This has a dual use basin/park element - the first of it's kind in recent development.	12/2/2003	Ongoing
PR&N	Use Community-Oriented Governance to connect people to services	Community Oriented Governance is incorporated into all of the department's programs, activities and services.	2/20/2003	2002-12
PR&N	Create Health Services Partnerships for delivery of services (e.g., flu shots, blood drives) from City facilities and/or through partnership programs	The Senior Citizens Organization is partnering with the Stanislaus County Health Department that provides a Registered Nurse to do health exams twice weekly. The Health Department conducted two flu shot clinics with 550 seniors receiving shots.	2/10/2003	Ongoing
PR&N	Expand Mental Health/Substance Abuse treatment capabilities through projects such as the Fifth Street Project	The Fifth Street Project is operational.	7/19/2002	2002-07
PR&N	Attract Private Investment in quality housing for working citizens through wisely investing public dollars	City council approved two new projects on April 9, 2002: 3333 Carver Road, and Miller Pointe.	7/19/2002	2002-12
PR&N	Work with the Youth Commission to develop more activities for teens in the community, including: * Coffee Shop * Concerts * Y Fest * Movie Nights * Game Shows	The Youth Commission has decided to offer a Teen Movie night during the summer. The dates for these events are late July and August. The Youth Commission has voted on which movies they would like shown during these nights. The sub-committee is currently discussing what types of activities would complement each movie and their themes.	12/2/2003	2002-07
PR&N	Partner with schools in the Character Education Program	This action is complete.	12/2/2003	Ongoing

PR&N	Educate the public by promoting housing success stories.	Staff is currently workin on a pre-development loan for multi-family housing in Village One.	2/20/2003	Ongoing
PR&N	Continue and expand the MoBand Café for teens.	The commissioners and staff are working with the Police Department to offer the MoBand Café until 10:00 p.m. every week during the MoBand season. The Parks, Recreation and Neighborhoods Department has budgeted funds to have a variety of activities available for all six weeks of the concert series. Staff and the commissioners are currently working with other agencies in an effort to provide education and information to teens on issues that relate to their age groups.	6/4/2003	2002-06
PR&N	Look for opportunities to Bring Students from Different High Schools Together in non-confrontational settings.	Moband is currently in place; staff and Youth Commission have sponsored teen movie nights.	12/2/2003	2002-12
PR&N	Offer a Place for Teens to Gather between the hours of 9pm and midnight.	Moband is currently in place, staff and Youth Commission presented summer teen movie nights. Youth Commission will continue to consider a coffee house, Y-Fest and other evening opportunities such as dances and teen nights throughout the community.	12/2/2003	2003-12
PR&N	Involve youth in planning and implementation of Youth Activities.	The Youth Commissioners hosted a very successful Youth-in-Government Day. Three local youth were recognized through the Honoring Outstanding Youth program. Movies in the Park will take place during the summer months, and MoBand Café will be held during the MoBand concerts. The Commission will continue to play an active role in the implementation of all activities they represent.	6/4/2003	Ongoing

PR&N	Expand and enhance the Youth in Government Day.	The County participated in the job shadowing portion of this event. Four additional schools were invited to participate in the all day program. The commission was able to negotiate a favorable price for the luncheon portion of the day, which meant that the commissioners and advisory board members had time to participate in the job shadowing. It has also allowed an increase in participants from 200 to 300.	6/4/2003 2002-02
PR&N	Preserve existing park infrastructure, such as tennis courts, buildings, swimming pools, etc.	Beyer Park and Graceada Park picnic shade structures are completed. The pool will be upgraded at Davis High School, and the Maddux Youth Center Improvements have been accepted by the council - Construction documents to follow.	12/2/2003 Ongoing
PR&N	Partner with schools to enhance After School Programs	The City partnership with the grant received by the Modesto City School District at four school sites was completed. Preparations to begin in the fall are now being arranged. The City was a partner in a grant received by the Modesto City School District for \$370,000 annually for three years. Funding will serve 280 kids daily at 4 school sites.	7/19/2002 2001-12
PR&N	Build Neighborhood Connections to work on neighborhood-based issues	Grants for neighborhood improvements were issued to Orville Wright Little League to renovate their baseball diamond at Orville Wright school, to Habitat for Humanity for projects in the Airport Neighborhood, and to the Volunteer Center for a project at the Redwood Family Center.	12/3/2003 2002-12
PR&N	Recognize and provide support to Organized Neighborhood Groups	Mini-grants were awarded to Habitat for Humanity and the Volunteer Center of the United Way.	6/4/2003 Ongoing

PR&N	Increase Scholarships and Co-sponsorships of sports groups	Staff continues to work with co-sponsored groups to ensure that local youth have safe and rewarding sports experiences. The County was unable to continue its contribution for youth residing outside Modesto's City Limits.	12/2/2003 2002-07
PR&N	Improve inter-departmental coordination to be certain non-motorized facilities are considered for grant funding and are included as part of motorized project design.	A Transportation Action Committee (TAC) has been formed. A Non-Motorized Transportation Plan update is being developed.	12/2/2003 2002-07
PR&N	Seek opportunities to expand Formal Co-Sponsorship of Recreation Programs in the community	Staff is working with contractors to develop a marketing video showcasing the department and its activities and the opportunities for co-sponsorships and donations and to develop an Asset Inventory and Valuation Audit, in order to be better placed to seek endowments, donations and other forms of funding.	12/2/2003 2002-12
PR&N	Expand role in United Way Impact Councils: <ul style="list-style-type: none"> <li>* Building Strong Neighborhoods</li> <li>* Children &amp; Youth</li> <li>* Providing a Safety Net for the Disadvantaged</li> <li>* Promoting Health &amp; Well-being</li> <li>* Strengthening Families</li> </ul>	Staff actively participates on all United Way Impact Councils that have relevance to the department's mission.	2/20/2003 2002-06

PR&N	Facilitate and evaluate Community Wide Festivals/Events	<p>Staff worked with the Downtown Improvement District and the State Theatre to plan and coordinate Rock'n Rods, a new community festival, which was held in June, with plans to be an annual event. It included a display of classic vehicles lined up along J Street. The event also featured two different entertainment stages, one at each end of the event area, strolling entertainment, beer gardens, and a children's activity area.</p> <p>A salsa Festival with Comedian George Lopez was coordinated with the Modesto A's. It was quite successful and will be brought back next year.</p> <p>The Octoberfest this year took on a new twist. The festival featured a prominent concert band - America. The event was attended by about 4,000 people.</p>	12/1/2003 Ongoing
PR&N	Support and expand the uses of John Thurman Field	<p>Concert power was installed at JTF to meet the power requirements of large outdoor shows and special events. The back stop netting also went through a retrofit that allows it to be lowered to give everyone clear views of concert stages. With the added seating capacity and power, John Thurman Field hosted some major events, including the 9-11 Memorial with Oliver North as guest speaker, an expanded Octoberfest with rock group America, and a sold-out comedy show featuring George Lopez.</p>	12/2/2003 2002-07
PR&N	Increase exposure to First Sundays Educational Program at the museum/mansion	<p>First Sundays will begin in February and will run through June.</p>	12/2/2003 2003-03
PR&N	Link Service Delivery to Neighborhoods	<p>Staff provided a workshop for neighborhood groups on the process to form a non profit organization.</p>	2/20/2003 2002-12
PR&N	Celebrate cultural diversity through Picnics in the Park	<p>Events were held June through August, 2003. Plans are to hold this event in 2004.</p>	12/2/2003 Ongoing

PR&N	Seek support and guidance from Citizen's Advisory Groups, including Board of Building Appeals, Citizens Housing and Community Development Committee, Community Qualities Forum, Golf Courses Committee, Housing Rehabilitation Loan Committee, Tuolumne River Regional Park Citizens Advisory Committee and Youth Commission	The department provides full staff support to the Culture Commission, Landmark Preservation Commission, Golf Courses Committee, Tuolumne River Regional Park Citizens Advisory Committee, Tuolumne River Regional Park Commission, Community Qualities Forum, Convention and Visitors Bureau Board, Citizens Housing and Community Development Committee, Housing Rehabilitation Loan Committee and the Youth Commission.	2/20/2003	Ongoing
PR&N	Involve the community in Park/Recreation Facility Design and development	Each project presented for development goes through a public comment and review period, facilitated by community meetings, council committee and council meetings. Park Partners also facilitates this activity.	12/2/2003	Ongoing
PR&N	Build Relationships with and Increase Services to all sectors of the community	Neighborhood interns are continuing with outreach to the neighborhoods in order to improve services. Staff actively participates in the Housing and Support Services Collaborative.	12/2/2003	Ongoing
PR&N	Schedule Quarterly Meetings with community groups to discuss items of community importance	Staff worked in all neighborhoods to form the CDBG Annual Action Plan.	12/2/2003	2002-12
PR&N	Expand and enhance educational programs at the McHenry Mansion and Museum	A number of exhibits were held at the McHenry Museum:	6/4/2003	2002-05
PR&N	Expand inventory of designated Landmark Preservation Sites	A property on W. Morris was designated as a Modesto Landmark Preservation Site.	12/2/2003	2003-07

Status

C

Lead Departm	Full Action	Project Status	Update Date	Milestone

Assist SkyTrek Aviation and Foster Farms with the occupancy of hangars under construction	Construction of Corporate Hangars is now complete and Sky Trek Aviation and Foster Farms have taken occupancy of their newly constructed hangars. Sky Trek Aviation has lost interest, at this time in another property option.	2/7/2003	2001-10
E&T	Identify bottlenecks and low service levels, real and perceived, in the city's road network.	Project completed. List of bottlenecks was presented to the City Council on April 24, 2002. Staff was directed by Council to prioritize the list. Staff will develop a priority list, as directed by Council.	7/18/2002	2002-01
E&T	In accordance with AB939 regulations, prepare a resource recovery assessment that includes:  * reevaluation of recycling program, including curbside pick up and/or better distribution of blue bags * green waste strategies * composting	In February 2003, the California Integrated Waste Management Board (CIWMB) approved a recycling diversion rate of 61% for the year 2000. Therefore, The City of Modesto has successfully met and surpassed the required diversion mandate of 50% in the year 2000. The CIWMB has complimented the City on the numerous programs it has implemented and offers to its residents.	2/7/2003	2001-08
FD	Benchmark Against National Standards for emergency response	A new procedure has been developed and implemented to improve response accuracy to alarms. Several response types have been reclassified to improve system reliability.	2/12/2003	2002-07
FIN	Reevaluate sales tax agreement with County to increase revenue base.	After a review, it was determined that the current Tax Sharing agreement with the County was the result of a negotiation process that lasted more than a year and generates in excess of \$500,000 to the City. There are no plans to renegotiate this agreement at this time.	12/31/2001	2001-07

FIN	Research ICMA, GFOA and other resources to develop comprehensive "reserve" recommendations.	As part of the budget process for Fiscal 2003, the Finance Department will assess current reserve levels in the General Fund and the Internal Service Funds. Specific recommendations will be made to Council for changes in the policies where they are deemed to be warranted.	12/31/2001	2001-07
FIN	Develop City Council approved policies that call for increased "reserves".	As part of the budget process for Fiscal 2002,, staff recommended and the City Council adopted a policy that increases the recommended General Fund Reserve from 5% to 8%.	12/31/2001	2001-07
FIN	Prepare a budget to adequately fund these auditing systems.	Budgeted 150,000+ in the City Clerk's office for Internal Audits and budgeted 50,000 in Finance for External Audits.	12/31/2001	2001-07
FIN	Begin training program to ensure that City Council, staff and interested citizens understand the budget process and fiscal limitations.	Finance has monthly FPC workshops to inform the Council and Citizens which is televised on Cable.	12/31/2001	2001-04
FIN	Expand the budget process to include more time for City Council and citizen input.	Budget process involved FPC and other Councilmembers.	12/31/2001	2000-11
FIN	Coordinate with I&T to allow Web Access.	The following services can currently be accessed through the Web: Business License Applications and Listings and Utility Billing Automated Clearing House (ACH) Payment Applications.	3/27/2002	2002-08
FIN	Work with departments to encourage Recycling of Business Equipment and Supplies.	Reviewed and updated surplus property procedures to assist departments in the processing of surplus property.	3/29/2002	2002-12
FIN	Post all Requests for Proposals (RFP's) and Requests for Qualifications (RFQ's) on the City's web site.	This project will be completed by January 31st	12/31/2001	2001-12
FIN	Improve Monthly Budgetary Reporting.	Reviewing and updating BRASS reports.	3/27/2002	2002-01

FIN	Develop On-line Bidding procedures.	The Purchasing Web Page is operational for the posting of Bids via the Internet.	3/27/2002	2002-07
I&T	Create Information Technology and GIS committees to improve internal technology communications.	The GIS Advisory Group has not met recently and is being evaluated as to whether or not it should be consolidated into the IT Advisory Group.	12/15/2003	2002-01
I&T	Create data warehouses for accessing financial and human resource information.	Both the financial and human resource warehouses have been completed.	3/21/2003	2002-01
O&M	Develop a branch of the California Conservation Corps in the Greater Modesto Area.	Due to budget constraints, the California Conservation Corps crews were not funded in the FY 2002-2003 operating budget.	7/2/2002	2001-10
O&M	Review and update stormwater quality ordinances for implementation impacts.	This project is complete. City Council action in April 2001, amended Chapter 10, Title 5 of the MMC dealing with stormwater management and discharge controls and adopted by resolution, a Guidance Manual for New Development Stormwater Quality Control Measures. These ordinance changes became effective May 30, 2001.	12/31/2001	2001-07
O&M	Explore public-private partnerships that enhance litter removal throughout the community and beautify community streetscapes, including such programs as Adopt-A-Roundabout.	The City continues to partner with neighborhood and community groups to fund beautification projects. In February 2003, Council adopted a program similar to the Caltrans Adopt-A-Highway model. Here, Neighborhood Environmental Action Teams partner with the City to adopt parks, planters, trails and rights-of-ways.	3/10/2003	2003-01
O&M	Continue use of green waste materials in co-composting operation to dispose of biosolids and expand markets for the co-compost.	This project is complete. All biosolids are used in the compost product.	12/31/2001	2001-12
PD	Evaluate existing facilities and identify opportunities for improving Neighborhood Linkages	This is redundant of prior projects (H.I.F.1.d/PR&N; H.I.F.1.b and PD Citizens Academy Mark as completed in PD area.	2/4/2003	2001-12

PD	Explore reviving "Graffiti" Event	Working with Chamber supported June Graffiti month with many events related to graffiti theme including Kiwanis Classic Car Parade. Events will be on-going for safe family oriented events related to the graffiti theme.	6/10/2002	2002-07
PD	Expand and enhance "Not in Our Town" anti-hate rally	The event has been successfully held for the last three years and is continuing in the future with community involvement	2/4/2003	Ongoing
PD	Enhance police investigative support for the Arson Task Force	Sharing facilities at 3705 Oakdale Road is working well. One Modesto Police Detective is working with the Arson Task Force. We will continue to monitor this assignment's effectiveness.	12/12/2003	2002-07
PD	Clearly establish role and determine effectiveness of Campus Police Officers in schools	1/8/02 The role of our School Police Officers (SPOs) is threefold. They're law enforcement officers, counselors and trainers within a single school. The SPOs work at the five Modesto High Schools, Elliott Alternative Education Center, P.A.C.E., (Petersen Alternative Center for Education) and the four Modesto City Junior High Schools. The SPOs are considered a part of the staff at each school. As such, their roles include being a mentor, a teacher, a role model as well the various duties of law enforcement. This highly effective unit continues to provide a valuable service to our schools.	1/8/2002	2001-12
PD	Establish and Adopt Response Standards according to priority of call / service request	Completed as an adopted performance measure.	2/4/2003	2002-01
PD	Identify Existing Neighborhoods	1-11-02 This was a combined project for all Area Commands. Crime Prevention Officers and Area Command Staff worked on this project last year and finalized their area maps after the city wide Neighborhood Watch Barbecue which was held at Graceada Park on July 11th.		Ongoing

PD	Revise Street Closure policy	12/14/01 Project was completed July 10, 2001	12/14/2001 2001-06
		This has been an on-going project since January 2001. The final proposal went to the Public Safety Committee on April 16. It was presented to and approved by City Council on July 10. This revised street closure policy reduces the fees to \$12.50 from \$20.00. The Policy calls for "no charge" for eight city and state approved holidays.	
PD	Perform Workload Analysis (# of assignments/time, unassigned time, productivity benchmarking, self-directed vs. project-directed activities, etc.) to ensure optimal coverage	3/27/02 - The Workload Analysis has been completed. The Police Support Services Supervisor who conducted the analysis reviewed several clerical positions within the department but outside the Records Unit. She confirmed that the workloads of the clerks were appropriate and concluded that any duplication in effort prior to the HTE RMS implementation has been eliminated. The final report detailing each position assessed will be completed the first of April.	3/27/2002 2002-05
PD	Expand and enhance the Spanish Citizen's Academy	3/26/02 Two citizen's academies are currently running; Spanish and Cambodian (Khmer). Spanish academy has enrollment of 30 participants, Cambodian academy has 18 participants.	3/26/2002 2002-07
PER	Adopt an Interest Based Grievance Process with MPMA.	12/14/01 - Completed	12/14/2001 2001-01
PR&N	Partner with the community, non-profits, YMCA, etc. to develop a Youth Master Plan and action items.	This item was not implemented. Funds were used for after school programming in low-income schools.	12/2/2003 2002-07
PR&N	Coordinate a Lease-to-Own Program	Presentation of the Lease to Own Program have been made. This program received funds in January 2002. One hundred thirty two families have submitted applications.	2/20/2003 2002-12

PR&N	Complete the Tuolumne River Regional Park Master Plan and Master Environmental Impact Report.	This has been completed.	3/1/2002	2001-12
PR&N	Expand Golf Program to include First Tee Program at Municipal Golf Course	This project is completed. The First Tee of Modesto is in the organizing stage. The Advisory Committee has been formulated and had its first meeting on December 2, 2003, Bob Quintella has been appointed to the Executive Board of the Del Rio Foundation to oversee the First Tee of Modesto	12/2/2003	2002-12
PR&N	Complete Regional Sports Facility Study	The Regional Sports Facility Study Final Draft Action Plan Report was presented to the Modesto City Council, the Stanislaus County Board of Supervisors and the public at a workshop on March 25, 2002. Ongoing work is proceeding to find funds to develop Sutton and Grogan Community Parks.	7/19/2002	2002-10
PR&N	Provide for increased Landscape Review of development proposals	A project coordinator was selected and hired to manage Landscape Review for the division.	2/10/2003	2001-11

Assemble water and wastewater Task Forces with area agencies and seek funding/buy-in from governing bodies.	I.B.1.b.(1).	Planning is in progress. Grant funding for feasibility study has been secured. A consultant has been selected to perform the feasibility study. Assembly of a Regional Task Force will be completed as part of the study.	6/13/2003	2001-10
Explore alternative transportation options (automated people movers, etc.) to reduce vehicle impacts in the downtown core.	IX.B.5.	Staff reported to the Economic Development Committee in May 2003 that there are no comparable cities with successful downtown circulator systems. Staff will continue to explore alternative transportation options to reduce vehicle impacts in the downtown core.	6/13/2003	2003-12

Form a team & develop Street Design Standards that incorporate calming devices and meet neighborhood needs	H.II.G.1.a.	Staff comprehensively evaluated Village One for traffic calming opportunities. Staff developed and Council adopted a roundabout policy. Staff has conducted several neighborhood study sessions to inform and familiarize citizens about roundabouts. Subsequently, Council has approved several roundabouts.	6/16/2003 2002-07
Develop Modesto Airport non-aviation uses. Contact potential restaurant operation and solicit interest in establishing an outlet at Mitchell and Tenaya.	III.B.4.b.	Consideration is being given to changing the designation of airport property where a restaurant/hotel was previously recommended at Mitchell Road and Tenaya Drive. Staff is now looking at the possibilities of using this property for aviation use rather than non-aviation use. It is anticipated that a final determination will be made by the time the Airport Master Plan is completed in May 2003.  Staff continues to explore additional avenues of development.  No efforts are currently in progress regarding potential restaurant operation. This will be delayed until the Airport Master Plan is updated.	6/13/2003 2003-06
Participate with StanCOG, other cities, and the County in developing a Regional Transportation Expenditure Plan to support a half-cent sales tax and/or request the State Legislature adjust the gasoline tax.	III.B.2.a.	Staff is working on a preliminary plan to present, if this item moves forward through StanCOG. Plans for Fresno and San Joaquin Counties are being used as models. At this point we are awaiting action by StanCOG to determine whether the item will move forward.	6/13/2003 2002-08

Develop a Water and Wastewater Master Plan that includes:	I.B.1.a.(1).	Work on updating the City's Wastewater Master Plan is underway and is expected to be completed in early 2004.	6/13/2003 2002-12
<ul style="list-style-type: none"> <li>* water &amp; wastewater quality</li> <li>* water supply/quantity &amp; wastewater treatment capacity</li> <li>* water source identification</li> <li>* growth impacts analysis</li> <li>* opportunities for regional facilities</li> <li>* conservation strategies (water meters, variable water rates, etc.)</li> <li>* infrastructure needs (business parks, etc.)</li> <li>* Del Este system improvements</li> <li>* Address existing system deficiencies.</li> </ul>		Development of a comprehensive Water Master Plan is budgeted for FY 2003/04. However, a component of that Master Plan - creating a hydraulic model of the system - is currently under way.	
Develop partnerships with other agencies & districts and seek regional storm drainage solutions.	I.C.1.a.(3).	This will be completed once the Master Plan is at least 80% complete.	6/13/2003 2002-09
Prepare and adopt access management guidelines.	III.A.1.f.	Draft Guidelines prepared by Dowling and Associates (Feb. 29, 2000). Reviewed by Osner, Mitchell, Canell and Helen Wang with comments back. Then, on hold, pending resolution of 1) Expressway Access Guidelines; 2) Roundabout Policy. Contract with Dowling (Joe Holland) is \$15,000 with \$9,842.07 expended to date.	6/16/2003 2002-07
Identify critical problem areas (flooding, pedestrian safety, etc.) and develop short and long term solutions / priorities to ensure Community Safety.	H.II.K.1.k.	Problems are being identified through citizen input, staff evaluation, and master planning efforts. Identified solutions are being programmed in the CIP as funding is available in the respective areas. An inventory of all missing ADA ramps within the City have been completed.	6/13/2003 2002-12

Expand and enhance the ATMS/CCTV system. III.A.1.b. Construction of the extension of the fiber optics in the northeast section of town is complete. The northwest section was bid out in March 2003. The project was awarded to SB Cable on a low responsive bid basis. 6/16/2003 2002-07

Extend the ACE commuter train service to Modesto with provision for a downtown station. III.B.3.a. While the Long Range Transit Plan indicates that light rail is not cost-effective for Modesto within the foreseeable future, monies have been earmarked in the state budget for an extension of the ACE (Altamont Commuter Express) train service to Modesto. The designated funding is inadequate to complete the project and, in light of the state's present fiscal status, there may be few additional dollars forthcoming. Staff will continue to explore this option and offer MAX connections to ACE in the interim. 6/13/2003 2003-06

Stanislaus County completed a study of the feasibility of extending the ACE train to Modesto and Turlock. The conclusion was that it is feasible, but that additional study would be needed to identify all costs and benefits as well as environmental impacts. The County is now studying this matter in more detail.

Develop pilot Advanced Life Support program	H.IV.A.1.	The program officially began on Engine 24 on July 19, 2003. This project continues it's pilot evaluation period. Strategic Plan:H.IV.A.1 Develop pilot Advanced Life Support program.	2/4/2004	2002-01
Explore opportunities to for a Fire Department Museum at Fire Station Number 2	C.IV.B.2.	The relocation and building of the Community Center that will house Station #2 continues to progress. It is anticipated to open in the Spring of 2004. Discussions continue on the conversion the the exiting station to a fire museum after staff have been relocated.	2/12/2003	2002-07

Utilize Fire Station Facilities as "Safe Houses" for children where volunteers could provide tutoring and mentoring.

H.I.A.1.e.

This item has moved from its conceptual stages to a research stage and we anticipate further action in Summer of 2004. This item is dependent on the completion of the West Side Service Center (Action Item: H.I.A.1.d)

2/4/2004 2003-06

Work with the County to ensure Communications Center staffing, funding & policy issues are resolved in a matter that is fair and equitable

H.I.B.2.

The JPA recently approved the 2003-04 budget for the communications center. Revisions of the cost sharing agreement was again discussed and a verbal agreement was made to pursue an updated cost sharing format.

Develop Agency-wide GIS Program	IV.M.1.	In conjunction with Stanislaus County, staff have recently held a meeting to encourage agencies throughout Stanislaus County to partner together to form the Stanislaus Regional GIS Consortium which would serve as the sub-region to the California State GIS Council. The group was provided an overview of the purpose of formation and was asked to also fill out two surveys requesting GIS data currently worked with and level of discussion.	12/15/2003	2003-07
Develop standards-based PC desktop working environments, policies and procedures.	IV.G.2.	No Report		2002-01
Deploy high level virus protection and prevention strategies.	IV.G.3.	A high standards virus scanning and SPAM filtering device was installed. An enterprise-wide virus scanning plan was implemented and enforced.	3/21/2003	2002-01
Develop a list of projects and internal strategies focusing on preventative and/or proactive technology maintenance.	IV.H.2.	The IT Department has developed five-year plans which are updated annually focusing on proactive preventative maintenance. The IT Department has also implemented monthly a maintenance window for planned maintenance of its computer and network systems.	3/21/2003	2002-03
Build demand for advanced communication service and promote policies that foster infrastructure development.	IV.D.1.	No Report		2002-07
Encourage greater utilization of the Intranet and Internet for skills training.	IV.E.3.	No Report		2003-01

Establish links to educational systems to encourage professional growth and development.	IV.E.2.	This action has been completed. The local school district, Modesto Junior College and Stanislaus State University have all be contacted and partnered with to hire students/interns. The interns have added value to the City's Information Technology programs while providing them with on the job training and professional growth opportunities.	3/21/2003	2003-01
Implement a high standard based firewall and intrusion detection system between the City's systems and access to other agencies and the Internet.	IV.G.1.	Software-based firewall systems were replaced with a hardware-based firewall systems at both Tenth Street Place and Modesto Police Department. An IDS system was installed. An external connection audit is being performed to identify and document external routes.	3/21/2003	2002-01
Develop an e-commerce strategy to guide and provide 24/7 service to our customers.	IV.A.8.	No Report		2003-01
Develop standards, policies, and procedures to govern teehnology in the organization.	IV.A.2.	Policies were developed for Computer Use, E-mail Use, Internet Use, Desktop Hardware Standard and Office Automation Software Standard. Work continues to develop policies for Security and Separation and a Wireless Technology Standard.	3/21/2003	2002-01
Provide On-Line Access to fire, police and recreation data and services	H.II.K.1.c.	Access to information on-line has increased greatly over the quarter through new services offered. The most dramatic to note is the Webcasting of Council meetings. This has allowed both external and internal customers to veiw a council live in session as well as the ability to perform research of past council action through the archiving capability.	1/30/2004	2002-05
Establish an integrated network system with a single source of oversight, management and administration.	IV.A.7.	INET, CBEG and MPD efforts are continuing in movement to IT. Network assessment has been performed.	3/21/2003	2003-01
Use GIS Modeling to ensure coverage and improve response times	H.II.K.1.g.	No Report.	12/12/2001	2002-03

Establish continuous technology training programs for software programs adopted by the City.	IV.E.1.	Steps to accomplish this goal have been delayed due to lack of funding.	3/21/2003	2003-01
Develop Web Based Customer Information Systems.	S.B.4.a.(1).	The city is currently piloting the ability to apply for job positions from the city's web site. This ability will allow a job applicant to completely fill out a job application over the internet safely and securely. The process also includes the additional supplemental requirements that some positions require as well as attaching resumes and additional applicable electronic documentation.		2002-07
Create Master Address File.	IV.M.2.	Staff is currently researching addressing standards and the availability of existing address files. The GIS Advisory Group assigned this project, combined with Master Land Use file, as their number one priority.	3/21/2003	2002-07
Create GIS Needs Analysis and Data/Map Inventory.	IV.K.2.	After several delays, the inventory has now officially begun. To date, approximately 15 interviews have been conducted. The interview process takes about 30 minutes to one hour to complete. The results provide us with information of what maps and data sets are used or needed (not only GIS related) and how they are utilized.	3/21/2003	2002-07
Develop GIS Strategic Plan.	IV.K.3.	No Report		2002-09
Provide access to Oracle tools, Discoverer, Forms and Reports.	IV.L.4.	The Oracle Discoverer report writing tool has been rolled out to seven departments City-wide.	3/21/2003	2002-05
Provide the ability for staff to manage documents more efficiently for quicker responses to community requests.	IV.L.5.	This implementation of a document imaging system has been delayed due to a lack of funding.	3/21/2003	2003-07
Extend capabilities of managing user accounts to select staff on a limited and secure basis using the City's network systems.	IV.L.6.	No Report		2003-05

Install H.T.E. Upgrades.

S.B.4.a.(2).

No applicable relevancy. I am not involved with this project.

Work with the community to create an environment in Modesto that Encourages Employment and discourages panhandling.	H.II.A.2.k.	The City Council has adopted a new ordinance prohibiting solicitation and thereby enhancing business, in specified areas of the City, which the Police Department is now enforcing. Additionally, the Police Department is now actively involved in restorative policing with the Mental Health Department and the District Attorney to serve the specific needs of the habitually offending nuisance population that has substance abuse and mental health problems. This policing discourages solicitation/panhandling.	12/12/2003	2003-07

Develop Lunch-Time Programs to build relationships with our youth	H.V.A.3.	No Report	12/12/2003	2002-07
Develop strategies to focus on School Safety	H.V.A.10.	In the early fall, before the start of the traditional school year, Police management staff confers with school administrative staff regarding school safety and particular campus needs.	12/12/2003	2002-07
Implement Family Violence Prevention Program	H.V.A.11.	No Report.	12/12/2003	2003-12
Create a Violence Prevention Support Group to promote tolerance for the diverse cultural and ethnic backgrounds of the citizens of Modesto.	H.I.A.5.	Participated in forming a support group for hate crime victims (PFLAG, GSELEN, NAACP). Co-sponsored with NAACP and YCCD "Not in Our Town" anti-hate crime and diversity tolerance marches in October 2002 and will again in 2003. Participated in PGLAG and GLESEN press conferences at the unveiling of anti-hate and tolerance billboards.  The Department has a member on and is active with the Hispanic Leadership Council, the NAACP, the Asian Advisory Board and PFLAG.	12/12/2003	2002-07
Benchmark against other communities to develop Animal Control Laws to provide safe neighborhoods for all residents.	H.II.A.2.j.	No Report	12/8/2003	2002-12
Expand Neighborhood Watch network and use as a conduit to connect to the community	H.II.A.1.b.	Neighborhood Watch Programs continue to expand, with most of the growth occurring in the new Northeast area. Some groups have become inactive so the total number remains at about 700 groups. Research is being done regarding Business Watch Programs. Most other cities' programs are informational and informal. We are looking for a more formal citywide program.	12/8/2003	2002-06
Renegotiate agreement with Stanislaus County for Animal Control to more equitably reflect costs of sheltering/disposal	H.I.B.7.	Project will remain with Information Services Lieutenant and Administrative Services Sergeant.	12/8/2003	2002-06

Install the police Records Management System, including mobile data computers in patrol vehicles, digital photo capture and storage, CAD interface, Bar Code capability for Property and Evidence, and GIS interface. IV.F.4.

Records Management System installed and live for citations, incidents, warrants, field interviews and evidence. Alternatives to current mobile data computer system were explored, obtained and evaluated proposals from prospective vendors, and received Council approval for implementation with new vendor. Digital Photo Capture and Storage has been implemented with Modesto Police Department connected to Stanislaus County Sheriff's Office. The CAD interface between Records Management System and 911-CAD has been completed. Conversion to Bar Code Capability for property and evidence has been completed. GIS Interface Project continues with the extraction and loading of data.

3/21/2003 2003-02

Work with NAACP to enhance relationship between the City and members of their organization C.III.B.2.

Liaison was maintained with the NAACP and the Administration of Modesto City Schools, following reported racially-based threats and potentially related retaliatory violence at the Beyer High School campus. These incidents, occurring in November 2002, appear to be isolated as there has been no reports of ongoing problems.

2/4/2003 2003-07

Resolve Police Training Center issues. H.I.B.13.

The Joint Powers Agreement that exists among Stanislaus County, the City of Modesto and the Yosemite Community College District is in the process of being dissolved. Asset ownership is currently being resolved. Training is now being accomplished with Stanislaus Sheriff's Office and the Modesto Police Department. Final dissolution is near completion.

Plan for and develop Community Centers in the neighborhoods	C.I.A.3.	Architectural design is in development for the Westside Service Center in Marshall Park as well as Maddux Youth Center, with completed Master Plans for each facility. Additionally, staff is working on preliminary plans to improve the King-Kennedy Center with ADA renovations and also working to expand the KKMC to house the West Modesto King-Kennedy Neighborhood Collaborative.	2/20/2003	2003-12
Develop matching fund sources to Encourage Construction of Adequate MFR Facilities.	H.II.B.1.d.	No action this quarter.	3/1/2002	2003-12
Seek opportunities for Sweat Equity projects	H.II.C.1.d.	Staff is currently working with STANCO and Habitat for Humanity.	3/1/2002	2002-12
Develop strategies to better respond to Teens in Crisis	H.V.A.12.	During the Youth Commission meetings, agencies have made themselves available to better educate the Commission on resources in our community for youth in crisis.	2/10/2003	2003-12
Use the Culture Commission to revise the Master Plan for Cultural Activities and Historic Buildings.	C.II.D.3.	Commissioners have been assigned various sections of the Plan.	12/2/2003	2002-07
Research and analyze potential Modesto tourist attractions and evaluate how they could be developed and marketed.	X.B.I.a.(1).	No action this quarter.	12/2/2003	2002-12

Partner with MID to develop an Urban Trail System using canal easements	H.II.E.1.a.	Future actions are contingent upon the completion of the Modesto Non-Motorized Transportation plan update. Staff proposed to take the plan to MID before it is adopted, tentatively in Spring 2004.	12/2/2003	2003-12
Resolve issues and identify a site for a Day Center for Homeless individuals	H.IV.A.6.	Staff is reviewing an RFP for the implementation of a "Homeless Day Facility".	2/20/2003	2003-07
Design and plan for construction of the West Side Community Service Center	H.II.F.1.a.	The West Side Community Service Center now called the Neighborhood Center at Marshall Park has a completed Master Plan. Construction documents will be completed soon, with construction estimated to begin in 2004.	12/2/2003	2002-07
Identify and assess Community Center Opportunity Sites	H.II.F.1.c.	No action this quarter.	3/1/2002	2002-07
Explore partnering with the County to develop child care programs that meet the needs of downtown workers.	VIII.B.1.e.	No action this quarter.	3/1/2002	2003-07
Prepare Geographically Based Services / Programs / Facilities Analysis for parks and recreation activities.	H.II.K.1.h.	No action this quarter.	3/1/2002	2002-03
Remodel and upgrade the Maddux Youth Center	C.I.A.7.	The Master Plan is complete. Staff is ready to proceed with construction documents. Construction is anticipated to begin in 2004.	12/2/2003	2003-04
Partner with School Inter-Act Clubs to utilize teen volunteers.	H.V.D.2.	Even though we have not had a formal partnership established, the Youth Commission has done a tremendous job getting students on campus to promote various Youth Commission programs throughout their schools and community.	7/19/2002	2002-12
Expand and Enhance Recreation on Campus for Kids (ROCKS) Program	H.V.A.6.	School-site lunch programs were held and staff took the PARTY mobile to several school sites.	12/2/2003	2002-12
Promote historical Photograph Collection housed at the Museum	C.IV.A.4.	A volunteer is working on the photo collection.	12/2/2003	2002-09

Expand Golf Appeal to include women, juniors, ethnic diversity, families, etc.	C.V.A.12.	An expanded marketing plan is being written by FM Golf.	12/2/2003	2003-07
Partner with business and non-profits to develop Meeting Space for Neighborhood Groups.	C.I.A.11.	No action on this item.	3/1/2002	2003-12
Develop a Cable Access program run by youth.	H.V.C.1.	No action this quarter.	3/1/2002	2002-10
Explore development of a Youth Mentor Program.	H.V.B.2.	No action this quarter.	3/1/2002	2002-10
Seek ways to connect the Youth Commission to the School Board.	H.V.A.17.	No action this quarter. Will continue to investigate.	12/3/2003	2002-12
Identify opportunity sites for Conversion of Market-Rate Housing to affordable housing	H.II.B.2.b.	Staff has been researching for opportunities to convert more market-rate housing to affordable housing.	7/19/2002	2002-06
Develop the Virginia Corridor as a priority Class I Bikeway and linear parkway. * Master Plan Complete * Corridor Developed	III.B.5.c.	The first segment of this corridor will be completed by the 5 Modesto Rotary Clubs in early 2005 - Roseburg to Orangeburg. Staff is seeking funding for future segments.	12/2/2003	2003-12
Support the Skate Park and identify potential sites for additional parks	C.V.A.9.	Staff is currently looking at alternatives for the operation of the skatepark.	12/3/2003	2003-12
Create a Sports Foundation via the Convention & Visitors Bureau	C.V.A.4.	Discussions are ongoing. However, no definitive plans have been made to date.	12/2/2003	2003-07
Develop "Apple of Our Eye" award program for neighborhood beautification.	I.A.2.a.(8).	Staff is looking at other possibilities.	12/2/2003	2002-07
Integrate Parks, Recreation & Neighborhood services into Area Command model	H.II.A.1.a.	This action will partially occur with the construction of the Neighborhood Center at Marshall Park.	12/2/2003	2002-12
Create master plan and develop the Virginia Corridor Greenway	H.II.H.1.b.	The Master Plan is pending approval by council in January, 2004.	12/2/2003	2002-12
Update Non-Motorized Transportation Master Plan.	III.B.5.a.	Project has been assigned to staff. Work will be completed in Spring 2004.	12/2/2003	2003-07

Utilize Fire Station Facilities and Police Department Community Room for neighborhood activities and events	H.II.A.1.d.	Progress continues on the Westside Services Center. The design is nearly complete and several community groups have assisted in this project. The plans have been accepted by the City Council and the project is moving forward. A community meeting room has been included in the design and facility design has been completed.	2/4/2004	2002-07
Examine Mutual Aid Agreements with neighboring fire districts to ensure maximal resource recovery	H.I.B.9.	Agreements with Stanislaus Consolidated and Burbank Paradise have been updated to improve efficiency emergency response. Each of these agreements will now be reviewed annually.	6/12/2003	2002-12

Enhance Fire Prevention Program with efforts targeted at juveniles	H.II.K.1.b.	<p>The fire department continues to participate in community events involving juvenile activities. During the spring months many schools have hosted carnivals and safety fairs giving fire department personnel the opportunity to teach fire safety to hundreds of kids.</p> <p>In addition to the school programs, there are several family events throughout the city that fire prevention and suppression personnel have attended. These programs include the 4 Footed Fun Faire, YMCA Health and Safety Faire, Cesar Chavez Celebration, Cinco De Mayo, Carol Sund Event and Career Day for the Pearson Alternative Center. These events and others like them give us the opportunity to reach out to a wide age range of young kids and teenagers.</p>	6/12/2003 2002-06
Prepare local resources for Domestic Terrorism Threat	H.III.B.1.	<p>Local preparedness efforts continue to be coordinated through the City/County Domestic Terrorism Task Force. Stanislaus County, as the Regional Area Coordinator, has applied for and received grants to provide both equipment and training to local responders in case of a terrorism incident. A regional approach continues to be used by the task force to address our local needs. On August 7, 2003 a full scale exercise was organized to test the area's response to a major incident.</p>	6/12/2003 2002-01
Expand the use of Automatic Fire Sprinklers and other prevention technology	H.II.K.1.a.	<p>We continue to closely review proposed plans for new construction and tenant improvements. We are requiring the installation of Automatic Fire Sprinklers in all facilities that meet City's the requirements. We are actively requiring these facilities to meet current fire code requirements or provide alternate fire prevention technology that provides the same level of safety for our community.</p>	2/12/2003 2002-12

Evaluate opportunities to expand the use of Internal Service funds to fund "costs" of services, thus increasing replacement reserves.	VII.D.1.	We are currently analyzing current Internal Service Funds to assure that rate and reserve methodologies are adequate. We expect to make some recommendations for change as part of the Fiscal 2003 Budget Process.	12/31/2001	2001-12
Develop Monthly Cash Reports.	S.B.1.a.(2).	The Department is currently investigating procedural and software options that will enable us to use financial databases to improve all of our financial reporting.	3/29/2002	2002-07
Consider bonded growth financing to provide funding up front when infrastructure is needed for growth.	VII.C.1.	The City has several projects going at present whose goal is to determine the costs of the infrastructure and financing possibilities for Village 1, other current and future Capital Facilities Districts (CFD) and storm drain needs along Ninth Street	12/31/2001	2001-12
Adopt comprehensive planning process that targets CIP projects for Economic Development.	VII.C.3.	Finance will be working with Community Development's Economic Development Division for the upcoming budget year FY 02-03.	12/31/2001	2001-07
Develop policies to ensure Procurement Card Use is responsible and transaction costs are lower.	S.B.3.b.(1).	Performing ongoing random line item audits of the Procurement Card statements	3/29/2002	2002-07
Review Inventory Practices and Procedures to reduce costs.	S.B.3.b.(4).	Lowering inventory levels as part of an ongoing effort to implement Just In Time (JIT) inventory control.	5/20/2002	2003-12

Determine costs of growth and identify revenues to cover shortages (i.e. Village One). VII.B.1.

We are moving forward in several areas concerning this Action Item. This spring we will issue a Request for Proposal for a thorough review and possible update of our Capital Facilities Fees (CFF). In addition, this year we should be able to issue an RFP that, as part of a comprehensive look at our Water and Wastewater rate structure, will determine the adequacy of our current utility capital charges.

12/31/2001 2001-12

Simplify CIP budget process to clearly differentiate between maintenance and capital needs. VII.C.4.

Last year the Finance Department began an intensive evaluation of the entire CIP process. The first results of this multi-year project will become apparent with the Fiscal 2003 budget. There will be a clear distinction between maintenance and capital projects and improved CIP reporting.

Prepare plans to fully fund deferred maintenance needs in water, wastewater, stormwater and streets.	I.B.1.c.(1).	Ten year proformas for water and sewer projects increased levels of deferred maintenance activities. A hydraulic analysis is underway for the water system to identify any major weaknesses in the system. A storm drain master plan is also being conducted to identify overall needs within this system. Any increases in deferred maintenance efforts for the water, sewer, or storm systems will require additional rate increases beyond what is projected in the proformas.	3/10/2003	2002-07

Utilize Community Volunteers to better reach  
the community

H.I.I.A.1.h.

1/7/2002 2002-12

1/7/02 I was assigned management of the MPD  
Volunteers In Police Service Program (VIPS) in  
August of 2001. Some of the things we are  
doing to improve the program and better reach  
the community are:

Have expanded from 28 to 33 volunteers since  
August.  
Implemented monthly business/training  
meetings with meeting minutes and agendas  
prepared for all volunteers.  
Created a volunteer roster for better  
communication and call backs.  
Started a quarterly volunteer newsletter  
Looking to expand volunteers to all bureaus and  
divisions of the department.  
Identifying training needs.  
Increase recruitment efforts to include setting up  
information tables at public events, shopping  
centers, etc.  
Expanding volunteer assistance in abandoned  
auto enforcement.  
Looking into possible grant funds for volunteer  
training and equipment.  
Scheduling future field trips for volunteer  
training (February 2002 seminar).  
Elected volunteer coordinators for area offices.  
Assigned one volunteer as the lead volunteer  
coordinator to help manage the program.

9/5/01 Existing Neighborhoods will be  
scheduling meetings with Area Command Crime  
Prevention Officers to solicit community input  
in defining their communities. This can be  
done in conjunction with Neighborhood Watch  
meetings.

Develop and implement Youth Crime Prevention Programs

H.V.A.9.

The Modesto Police Department hosts a number of different programs aimed at crime prevention/awareness for our community youth. Among them are Diversion, WAKE-UP, PAL football, basketball, baseball, and soccer, and the Westview Gardens tutoring center. A new COPS in Schools Grant from the federal government has allowed the Department to provide School Police Officers at Garrison Elementary, Marshall Elementary and Mark Twain Junior High Schools.

12/12/2003 2002-12

Continue & enhance Crime Free Multi-Housing Program

H.I.A.2.

There are 39 fully certified apartment communities and one condominium community participating in the program which represents 4,788 living units. The program is being expanded to include smaller rental communities (10 units or less). The area Crime Prevention Officers have received in-house training, They started inspections in October 2003. HUD has expressed interest. Their properties will start the inspection process during the year.

12/8/2003 2002-07

Seven properties that were with the program for more than one year had a dramatic overall decrease of 32% in calls for service. On 2/4/03, the City Council approved funding for the continuation of the program through 2005. The Crime Free Multi-Housing Program will focus on duplexes and triplexes.

Improve upon Area Command Offices / Community Centers Relationship	H.II.F.1.b.	The Area Offices are under the direction of Lieutenants Bill Lyons and Joel Broumas. The offices provide the community information on crime prevention, telephonic reports may be made through the offices, and Area Office personnel continue to meet with community groups/Neighborhood Watch Groups regarding issues in different areas of town. Area Offices are used for community meetings such as Skate Park Advisory Board, Neighborhood Watch, National Night Out, etc.	12/8/2003 2002-07
Work with business community to create Business Crime Watch programs	H.II.K.1.j.	Nothing to report--just new employee lead	12/12/2003 2002-06
Perform Crime Analysis by crime type and evaluate clearance rates, convictions, arrests and costs	H.II.K.1.e.	Crime Analysis performed specific data collection and analysis for the performance measures tied to the Strategic Plan. This analysis included work on response times, crime types, and Modesto crime rates vs state crime rates, juvenile crime rates, and gang-related crime. This data was reflected in Excel spreadsheets and graphs.	2/4/2003 2002-12
Evaluate City's participation in StanCAT (Stanislaus County Auto TaskForce) for return on investment	H.II.B.5.	Ongoing interaction with the StanCatt Board comprised of the law enforcement executives within the county. Has taken on a very active role in directing this Task Force. Substantial information has been made in reporting, evaluating, and operating at reducing (or targeting) auto theft countywide and especially in Modesto as about one-half of all stolen autos occur within the City of Modesto. This effort will continue.	12/8/2003 2002-09

Action Numb	Action Item	Project Status	Update Date
III.B.1.a.	Assess Rail/Air/Bus Linkages for Connectivity	The Amtrak Station has curbside service hourly. A MAX route is within one block of the airline terminal.  United Airlines(UAL), code-sharing partner of SkyWest dba United Express, filed for bankruptcy protection in December 2002. UAL's financial problems will require a plan of reorganization and a possible reduction in United Express' service. Plans are underway to submit a request for Department of Transportation funding from the Small Community Air Service Development Program. Applications are due by June 30, 2003. Efforts are in the works to form a private/public consortium for air service and Horizon Air will provide their letter of support, which will be included as part of the application.	6/13/2003

III.A.4.a.	Link Street Maintenance to CIP/Budget	<p>CIP includes maintenance strategy projects, which are part of the City's 5-year plan for pavement maintenance.</p> <p>Staff has presented Council with a prioritized list of street projects that have been programmed into the CIP. The State Budget shortfall will impact the budget available for pavement maintenance in the future. The CIP has been adjusted accordingly.</p>	6/13/2003
III.A.2.b.	Design Roadways to Accommodate Non-motorized Use	All new roadways and asphalt overlay projects will be reviewed for their compliance to the Long-Term Non-Motorized Transportation System and Bike Lane Implementation Strategy on existing streets.	6/13/2003
III.B.3.b.	Promote Amtrak for Regional Travel	Amtrak is presently not designed to handle regional commuting. Amtrak is a private business and the City would be out of place in promoting it as something it is not, thus the wording on this item has been changed to drop the word commuting.	6/13/2003
II.A.2.	Perform Annual Rate Surveys	Staff is currently in the process of the 2003/04 garbage rate and program survey, which will be completed in August 2003.	6/13/2003
III.B.1.b.	Assess Air/Transit System Efficiency	<p>MAX cost per passenger, as well as other efficiency measures, consistently places MAX in the top 20% of transit agencies nationally.</p> <p>The Airport air service marketing presentation has been updated, and a travel survey has been added to the Airport website. Original projection of direct service to Los Angeles International Airport continues to be valid.</p>	6/13/2003
III.A.2.a.	Incorporate Smart Growth Principles in Transportation	Review and revisions of the General Plan is currently underway. Smart Growth principles will be included in any recommended amendments to the General Plan.	6/16/2003

II.C.3.	Develop and Implement Resource Recovery & Diversio	<p>A pilot recycling program was started at 4 elementary schools in the Modesto City School District. District officials were very supportive and within the next 2 years we hope to have an established program at all locations.</p> <p>Staff started a renewable energy projected working group to look at diverting cannery waste and other agricultural waste and converting it into energy. Support letters have been received from the community and staff will look at seeking Federal grant money to conduct a feasibility study.</p>	6/13/2003
II.A.1.	Conduct Fee Structure Analysis with Stanislaus County	<p>The Solid Waste Manager is continuing to work with the County in the City's best interest and monitors the County's financial transaction reports to ensure that revenues from fees are being used appropriately. The 10-year audit of the account is completed, and an audit of 2000-2002 is being initiated. A recommendation for a tip fee reduction will be considered by the Waste-to-Energy Executive Committee on June 12, 2003.</p>	6/13/2003
II.A.4.	Improve Customer Service	<p>Staff continues to oversee the garbage contracts and programs ensuring excellent services are being provided. Phone calls are being made weekly to all new residents to assist them with understanding our programs.</p> <p>Staff has gotten involved in three City/Community projects: the Anti-Litter Committee, the Roselawn Team, and the Weed and Seed Project. This allows staff to meet directly with residents to hear their issues or concerns and provide information.</p> <p>Staff began a pilot program in which the Solid Waste Office handles the investigation and removal of all illegal dumping that occurs on the street. This should result in cleaner streets throughout the City.</p>	6/13/2003

III.A.1.c.	Identify Revenues for Link Maintenance/Beautification/	Proposed CIP budget for FY 03-04 includes revenue sources for maintenance, beautification, right-of-way and construction.	6/13/2003
II.B.4.	Develop Illegal Dumping Education Program	Staff continues to present pollution-prevention information and education at community meetings, elementary classrooms and community events. Events completed in 2003 include Stanislaus County Home & Garden Show (March), Earth Day (April), Cinco de Mayo (May), and the Roselawn "Knock & Talk" Community Education Day (May).  In June 2002, staff began installing "Only Rain Down the Drain" storm drain stenciling in Spanish. To date, staff has installed more than 4,000 storm drain markers in Spanish. This storm drain project is supported by newspaper, radio, and billboard advertising.	6/13/2003
II.A.3.	Expand and Improve Containerized Green Waste Progra	Staff continues to enforce this program. We have partnered with Modesto Junior College and have a student intern checking containers weekly. 21 containters have been pulled for non-compliance since the start of this program. 766 yellow first-notice violations have been issued, and 112 red second-notice violations have been issued.	6/13/2003
III.B.1.c.	Long Range Transit Plan	A Long Range Transit Plan was adopted in August 2001. Recommendations will be implemented as warranted.	6/13/2003
II.B.1.	Create Permanent Year-Round Hazardous Waste Collect	The permanent Household Hazardous Waste facility at 1716 Morgan Road continues to provide residents with free disposal of household hazardous wastes. The availability of this facility continues to prove successful in diverting illegal dumping and ensuring proper disposal.	6/13/2003
I.B.1.a.(2).	Keep Rates Current through Annual Small Increases	The Utility Rate Setting function has been reassigned to the Finance Department. Finance currently has a recruitment underway to fill a vacancy to take the lead on rate setting for the three utility enterprise funds.	2/7/2003

I.A.1.a.(1). Conduct Annual Rate Reviews  
 The Utility Rate Setting function has been reassigned to the Finance Department. Finance currently has a recruitment underway to fill a vacancy to take the lead on rate setting fo the 3 utility enterprise funds.  
 6/13/2003  
 Annual garbage rate review is underway.

C.I.B.1. Earth Day  
 The Annual Earth Day in-the-Park event was held on April 12, 2003 and had 79 vendor booths. Sponsorship totaled \$19,300 in cash and in-kind services, an 8% decrease from last year. Attendance was low this year due to inclement weather conditions. Staff estimates there were approxiamtely 3,000 people in attendance. Staff has confirmed the 2004 event for April 17th.

Action Numb	Action Item	Project Status	Update Date
V.C.1.h.	Develop Dual-Use Stormwater Basins in Commercial/In	Included in Stormwater Standards update, adopted by Council in November 2002	2/7/2003
I.A.2.a.(9).	Remodel Police Station	Bids were open on 11/27/01. The apparent low bidder was Bollo Construction from West Sacramento at \$2,279,820. Work has been completed.	2/7/2003
III.A.1.e.	Adopt Roundabout Policy	City Council adopted the Roundabout Policy on September 3, 2002.	2/7/2003
I.A.2.a.(1).	Update and Adopt Streetscape Policies	11-30-01 - City downtown streetscape approved by CLIC of BIA. Included in the new Standards, effective January 1, 2002.	11/30/2001
III.A.1.a.	Identify Bottlenecks in Road System	Project completed. List of bottlenecks was presented to the City Council on April 24, 2002. Staff was directed by Council to prioritize the list. Staff will develop a priority list, as directed by Council.	7/18/2002

II.C.2.	Prepare Resource Recovery Assessment	In February 2003, the California Integrated Waste Management Board (CIWMB) approved a recycling diversion rate of 61% for the year 2000. Therefore, The City of Modesto has successfully met and surpassed the required diversion mandate of 50% in the year 2000. The CIWMB has complimented the City on the numerous programs it has implemented and offers to its residents.	2/7/2003
I.A.2.a.(2).	Improve Oversight/Regulation of Developer-Installed In	11-30-01 - The new Standard Specifications have some enhanced features. New standards become effective January 1, 2002.	11/30/2001
I.B.1.a.(3).	Adopt an Urban Water Management Plan	11-30-01 - Completed with the adoption of the Urban Water Management Plan on 9/18/01.	11/30/2001
I.C.1.a.(1).	Increase Storm Drainage Standard to Protect Property	New standard specifications for storm drainage were developed and adopted by City Council in November 2002.	2/7/2003
I.C.1.c.(1).	Adopt Dual Use Design Standards	12-21-01 - Adopted December 2000.	12/21/2001
III.B.4.c.	Expand Private Hangar Space at Airport	Construction of Corporate Hangars is now complete and Sky Trek Aviation and Foster Farms have taken occupancy of their newly constructed hangars. Sky Trek Aviation has lost interest, at this time in another property option.	2/7/2003
III.A.1.g.	Integrate City Traffic Signals with Caltrans	Traffic Signal Retiming Project is complete. Minegar and Associates has developed and submitted their final report. The final report shows a benefit of fuel savings to be approximately \$9.5 million per year city-wide. Additional benefits identified are a major reduction in air pollution and travel delay. These are extraordinary results. The final results were presented to the City Council in July, 2002. Request for Proposals for retiming of downtown traffic signals will go out in April 2003.	2/7/2003
III.B.2.c.	Hire State Transportation Lobbyist	12-21-01 - Contract signed in March.	12/21/2001

I.B.1.a.(4). Urban Water Management Plan Update

Urban Water Management Plan was adopted by Council in September 2001.

4/30/2002

Status

D - Delayed

Action Numb	Action Item	Project Status	Update Date
I.C.1.a.(2).	Adopt Fully-Funded Stormwater Fee Structure	The development of a new storm drainage fee structure is tied to the completion of the Storm Drainage Master Plan. The Storm Drainage Master Plan is currently underway and is expected to be completed by December 2003. An update to the storm drainage fee structure will reflect the results of the Storm Drainage Master Plan.	6/13/2003
III.A.1.d.	Modify Development Standards to Eliminate Bottleneck	Staff is still waiting on the 1st Bonded CFD Formation and how that is structured so that the next Standard Specifications update can incorporate the steps in forming a bonded CFD to address complete street build-out to eliminate bottleneck situations.	6/13/2003
I.A.1.a.(2).	Perform Utility Benchmarking	Lack of available staff has delayed this item. The recruitment to fill the vacant staff position is currently underway and it is expected that the Utility Benchmarking Task will be completed in Fiscal Year 03/04	6/13/2003

Action Numb	Action Item	Project Status	Update Date
H.II.K.1.k.	Community Safety - Identify critical problem areas	Problems are being identified through citizen input, staff evaluation, and master planning efforts. Identified solutions are being programmed in the CIP as funding is available in the respective areas. An inventory of all missing ADA ramps within the City have been completed.	6/13/2003
III.A.1.b.	Expand and Enhance ATMS/CCTV System	Construction of the extension of the fiber optics in the northeast section of town is complete. The northwest section was bid out in March 2003. The project was awarded to SB Cable on a low responsive bid basis.	6/16/2003

III.B.3.a.	Provide Rail Connections to ACE Train	<p>While the Long Range Transit Plan indicates that light rail is not cost-effective for Modesto within the foreseeable future, monies have been earmarked in the state budget for an extension of the ACE (Altamont Commuter Express) train service to Modesto. The designated funding is inadequate to complete the project and, in light of the state's present fiscal status, there may be few additional dollars forthcoming. Staff will continue to explore this option and offer MAX connections to ACE in the interim.</p> <p>Stanislaus County completed a study of the feasibility of extending the ACE train to Modesto and Turlock. The conclusion was that it is feasible, but that additional study would be needed to identify all costs and benefits as well as environmental impacts. The County is now studying this matter in more detail.</p>	6/13/2003
IX.B.5.	Alternative Transportation Options	<p>Staff reported to the Economic Development Committee in May 2003 that there are no comparable cities with successful downtown circulator systems. Staff will continue to explore alternative transportation options to reduce vehicle impacts in the downtown core.</p>	6/13/2003
I.B.1.b.(1).	Assemble Regional Task Forces for Water & Wastewater	<p>Planning is in progress. Grant funding for feasibility study has been secured. A consultant has been selected to perform the feasibility study. Assembly of a Regional Task Force will be completed as part of the study.</p>	6/13/2003
III.A.1.f.	Prepare and Adopt Access Management Guidelines	<p>Draft Guidelines prepared by Dowling and Associates (Feb. 29, 2000). Reviewed by Osner, Mitchell, Canell and Helen Wang with comments back. Then, on hold, pending resolution of 1) Expressway Access Guidelines; 2) Roundabout Policy. Contract with Dowling (Joe Holland) is \$15,000 with \$9,842.07 expended to date.</p>	6/16/2003

III.B.2.a.	Develop Transportation Expenditure Plan	Staff is working on a preliminary plan to present, if this item moves forward through StanCOG. Plans for Fresno and San Joaquin Counties are being used as models. At this point we are awaiting action by StanCOG to determine whether the item will move forward.	6/13/2003
H.II.G.1.a.	Street Design Standards	Staff comprehensively evaluated Village One for traffic calming opportunities. Staff developed and Council adopted a roundabout policy. Staff has conducted several neighborhood study sessions to inform and familiarize citizens about roundabouts. Subsequently, Council has approved several roundabouts.	6/16/2003
III.B.4.b.	Develop Non-aviation Uses at Airport	<p>Consideration is being given to changing the designation of airport property where a restaurant/hotel was previously recommended at Mitchell Road and Tenaya Drive. Staff is now looking at the possibilities of using this property for aviation use rather than non-aviation use. It is anticipated that a final determination will be made by the time the Airport Master Plan is completed in May 2003.</p> <p>Staff continues to explore additional avenues of development.</p> <p>No efforts are currently in progress regarding potential restaurant operation. This will be delayed until the Airport Master Plan is updated.</p>	6/13/2003
I.C.1.a.(3).	Form Partnerships to Develop Regional Storm Drain Sol	This will be completed once the Master Plan is at least 80% complete.	6/13/2003
I.B.1.a.(1).	Develop Water and Wastewater Master Plan	<p>Work on updating the City's Wastewater Master Plan is underway and is expected to be completed in early 2004.</p> <p>Development of a comprehensive Water Master Plan is budgeted for FY 2003/04. However, a component of that Master Plan - creating a hydraulic model of the system - is currently under way.</p>	6/13/2003

Action Numb	Action Item	Project Status	Update Date
II.C.1.	Expand Recycling Education Program	<p>Ongoing education continues for all of the City's recycling programs via CityPride Citywide utility billing inserts, new resident packets and web page articles and information. Additional efforts include billboard at Modesto A's ballpark, installation of 20 bus benches and 37 interior bus signs. Installed approximately 50 new recycling containers throughout the City, and began production of three television commercials promoting recycling of beverage containers.</p> <p>Promotion of Earth Day Festival via Council presentations, school and public presentations; promotion of Business Recycling Award winners; promotion of compost class and bin sales, and booths at community events.</p> <p>Published and mailed Volume 4 of Waste Not, Want Not, a business newsletter addressing waste streams and recycling issues.</p>	6/13/2003
II.B.2.	Coordinate with County for Hazardous Waste Disposal	Staff continues to participate on the Stanislaus County Hazardous Waste Advisory Committee. The Advisory Committee reviews hazardous material disposal and recycling needs within the community, as well as budget analysis. The next meeting is set for July 25, 2003.	6/13/2003

II.B.3.	Enhance Tire Recycling/Collection Program	Conducted 1 Tire Amnesty Event, resulting in the collection of 955 waste tires, (20.76 tons).	6/13/2003
		Completed and closed out existing tire clean up grant. Submitted final report and payment request for \$12,258.14 for total grant cycle expenses. Developed and submitted application for the next cycle for the tire cleanup grant.	
		Awarded grant in May 2003 for \$68,016.55 to clean up \$1,300 waste tires in the Tuolumne River/Dry Creek areas and approximately 4,000 illegally dumped tires throughout the city during the 18 month grant cycle.	
		Hired new solid waste temporary position for tire/television collection.	
III.A.3.a.	Collaborate Regionally on Circulation Policies	StanCOG is working with Stanislaus County and other jurisdictions to adopt expressway corridors and associated design standards. The City of Modesto is actively collaborating with StanCOG in achieving this goal.	6/16/2003
III.B.4.a.	Expand Corporate & General Aviation Uses at Airport	T-Hangar K is completed and all units in the hangar are leased. Annual revenue from this hangar is expected to be approximately \$29,000.	6/13/2003
		Expansion plans for General Aviation and Corporate Facilities will be recommended when the Airport Master Plan Update is completed.	
		Waiting for completion of the Airport Master Plan which will recommend future corporate and general aviation facility development.	
H.II.G.1.c.	Traffic Calming Devices	Staff is developing standards in cooperation with the fire and police departments. This is ongoing.	6/16/2003

H.II.A.2.1.	Emergency Operations Plans	The City of Modesto Emergency Operations Plan is an ongoing document that continually addresses the role of the City during various major emergencies. The plan needs annual updating and city-wide training on its use. The new updated plan will be distributed in the first quarter of 2004. A terrorism annex is being developed and will be added to the plan in the future	2/2/2004
H.I.B.10.	Collaborate with Ambulance Providers	In November, 2002 Mountain-Valley Emergency Medical Services Agency (MVEMSA) completed the contract renewal process with all of the Ambulance providers in Stanislaus County. As required by the contracts, a "System Status Committee" was formed. The Emergency Medical Service Committee (EMSC) will continue to monitor information provided by MVEMSA staff and the stanind committees invoved with emergency medical services delivery within Stanislaus county. Through the EMSC, there are on-going discussions related to the merging of the ambulance dispatch services within the Stanislaus County Emergency Dispatch Center. As an interim step, the ambulance providers have all come under one roof at the AMR dispatch center located in downtown Modesto.	2/12/2002

H.III.B.2.	Community Emergency Response Team	The Community Emergency Response Team (CERT) was formed in November 2003. We had 63 citizens complete the training. This year we have received another FEMA grant to put on additional CERT classes. We are adding instructors and hope to train an additional 120 citizens in CERT.	2/4/2004
H.I.B.4	Regional Fire Training Center	The Fire Department continues to play a major role in management of the RFTC. The use of the center continues to increase, and revenues are rising due to facility rental.	2/12/2003
H.IV.A.5.	CPR & Early Defibrillation Training	The community CPR program continues with classes offered once a month. As part of our Community Emergency Response Training (CERT) program CPR is taught to CERT program attendees.	2/4/2004
H.I.B.3.	Emergency Operations Center	The Emergency Operations Center is complete, and a use procedure has been developed. A cost sharing agreement is again being negotiated.	6/12/2003

H.II.K.1.a.	Automatic Fire Sprinklers	We continue to closely review proposed plans for new construction and tenant improvements. We are requiring the installation of Automatic Fire Sprinklers in all facilities that meet City's the requirements. We are actively requiring these facilities to meet current fire code requirements or provide alternate fire prevention technology that provides the same level of safety for our community.	2/12/2003
H.III.B.1.	Domestic Terrorism Threat	Local preparedness efforts continue to be coordinated through the City/County Domestic Terrorism Task Force. Stanislaus County, as the Regional Area Coordinator, has applied for and received grants to provide both equipment and training to local responders in case of a terrorism incident. A regional approach continues to be used by the task force to address our local needs. On August 7, 2003 a full scale exercise was organized to test the area's response to a major incident.	6/12/2003

H.I.B.9.	Mutual Aid Agreements	Agreements with Stanislaus Consolidated and Burbank Paradise have been updated to improve efficiency emergency response. Each of these agreements will now be reviewed annually.	6/12/2003
H.V.A.8.	Mentor Program	No formal program has been implemented to address this component of the Strategic Plan. This is an ongoing process supported by career presentations, drunk driving programs and other contacts.	12/31/2001
H.I.K.1.b.	Fire Prevention Program	<p>The fire department continues to participate in community events involving juvenile activities. During the spring months many schools have hosted carnivals and safety fairs giving fire department personnel the opportunity to teach fire safety to hundreds of kids.</p> <p>In addition to the school programs, there are several family events throughout the city that fire prevention and suppression personnel have attended. These programs include the 4 Footed Fun Faire, YMCA Health and Safety Faire, Cesar Chavez Celebration, Cinco De Mayo, Carol Sund Event and Career Day for the Pearson Alternative Center. These events and others like them give us the opportunity to reach out to a wide age range of young kids and teenagers.</p>	6/12/2003
H.I.A.1.d.	Fire Station Facilities and Police Department Communit	Progress continues on the Westside Services Center. The design is nearly complete and several community groups have assisted in this project. The plans have been accepted by the City Council and the project is moving forward. A community meeting room has been included in the design and facility design has been completed.	2/4/2004

Action Numb	Action Item	Project Status	Update Date
VII.C.3.	Target CIP Projects for Economic Development	Finance will be working with Community Development's Economic Development Division for the upcoming budget year FY 02-03.	12/31/2001
VII.B.1.	Determine Costs of Growth and Identify Revenue Strea	We are moving forward in several areas concerning this Action Item. This spring we will issue a Request for Proposal for a thorough review and possible update of our Capital Facilities Fees (CFF). In addition, this year we should be able to issue an RFP that, as part of a comprehensive look at our Water and Wastewater rate structure, will determine the adequacy of our current utility capital charges.	12/31/2001
S.B.1.a.(2).	Monthly Cas Reports.	The Department is currently investigating procedural and software options that will enable us to use financial databases to improve all of our financial reporting.	3/29/2002
S.B.3.b.(4).	Inventory Practices and Procedures	Lowering inventory levels as part of an ongoing effort to implement Just In Time (JIT) inventory control.	5/20/2002
VII.C.4.	Simplify Budget Process to Differentiate between Maint	Last year the Finance Department began an intensive evaluation of the entire CIP process. The first results of this multi-year project will become apparent with the Fiscal 2003 budget. There will be a clear distinction between maintenance and capital projects and improved CIP reporting.	12/31/2001
S.B.3.b.(1).	Procurement Card Use	Performing ongoing random line item audits of the Procurement Card statements	3/29/2002
VII.D.1.	Expand the Use of Internal Service Funds to Increase Re	We are currently analyzing current Internal Service Funds to assure that rate and reserve methodologies are adequate. We expect to make some recommendations for change as part of the Fiscal 2003 Budget Process.	12/31/2001

VII.C.1. Consider Bonded Infrastructure Financing

The City has several projects going at present whose goal is to determine the costs of the infrastructure and financing possibilities for Village 1, other current and future Capital Facilities Districts (CFD) and storm drain needs along Ninth Street

12/31/2001

Action Numb	Action Item	Project Status	Update Date
IV.F.2.	Establish Dedicated Return Line from EOC to Tenth Str	This is being planned for in the new INET design in conjunction with Comcast.	3/21/2003

IV.G.1.	High Standard Based Firewall	Software-based firewall systems were replaced with a hardware-based firewall systems at both Tenth Street Place and Modesto Police Department. An IDS system was installed. An external connection audit is being performed to identify and document external routes.	3/21/2003
IV.L.5.	Manage Documents More Efficiently	This implementation of a document imaging system has been delayed due to a lack of funding.	3/21/2003
IV.L.6.	User Accounts Expansion	No Report	
IV.B.2.	Identify Public-Private Technology Partnerships	AT&T/Comcast, City Schools and County are participating in INET.	3/21/2003
IV.J.1.	Centralized Electronic Repository	City web site now includes a "City Services A-Z" database, online Business License listings, and City/County Contracting Opportunities.	3/21/2003
IV.M.2.	Master Address File	Staff is currently researching addressing standards and the availability of existing address files. The GIS Advisory Group assigned this project, combined with Master Land Use file, as their number one priority.	3/21/2003
IV.K.2.	GIS Needs Analysis	After several delays, the inventory has now officially begun. To date, approximately 15 interviews have been conducted. The interview process takes about 30 minutes to one hour to complete. The results provide us with information of what maps and data sets are used or needed (not only GIS related) and how they are utilized.	3/21/2003
IV.L.4.	Access to Oracle Tools, Discoverer, Forms and Reports	The Oracle Discoverer report writing tool has been rolled out to seven departments City-wide.	3/21/2003
IV.I.3.	Outreach and Evaluation	Addressed enhanced contract capabilities through preparation of standardized email form. Initial release completed on all department home pages. Reviewed entire website to ensure accurate page titles and meta tags for increased search engine visibility (still in progress).	12/31/2001

IV.M.1.	Agency-wide GIS Program	In conjunction with Stanislaus County, staff have recently held a meeting to encourage agencies throughout Stanislaus County to partner together to form the Stanislaus Regional GIS Consortium which would serve as the sub-region to the California State GIS Council. The group was provided an overview of the purpose of formation and was asked to also fill out two surveys requesting GIS data currently worked with and level of discuss formation.	12/15/2003
IV.A.5.	Modify Internal Processes to Accommodate E-governme	IT staff has implemented an interactive voice response system for utility billing. City of Modesto accepts utility billing payments via credit card 24X7.	12/31/2001
IV.A.2.	Develop Standards, Policies & Procedures for Technolo	Policies were developed for Computer Use, E-mail Use, Internet Use, Desktop Hardware Standard and Office Automation Software Standard. Work continues to develop policies for Security and Separation and a Wireless Technology Standard.	3/21/2003
IV.A.1.	Implement Technology Action Plan	Staff have been working on the development of a data architecture plan that will lay the foundation for planning future system acquisitions. In addition to this, staff are working through the RFP process to select a vendor to perform a business analysis and requirements study to help City staff and the IT Department understand its business processes better and determine areas for improvement including efficiencies via systems integration.	12/12/2003
S.B.4.a.(2).	H.T.E. Upgrades	No applicable relevancy. I am not involved with this project.	
S.B.4.a.(1).	Web Based Customer Information Systems	The city is currently piloting the ablitly to apply for job positions from the city's web site. This ability will allow a job applicant to completely fill out a job application over the internet safely and securely. The processs also inlcudes the additional supplemental requirements that some positions require as well as attaching resumes and additional applicable electronic documentation.	

H.II.K.1.g.	GIS Modeling	No Report.	12/12/2001
H.II.K.1.c.	On-Line Access	Access to information on-line has increased greatly over the quarter through new services offered. The most dramatic to note is the Webcasting of Council meetings. This has allowed both external and internal customers to view a council live in session as well as the ability to perform research of past council action through the archiving capability.	1/30/2004
IV.D.1.	Advanced Communication Service	No Report	
IV.A.7.	Establish Integrated Network System	INET, CBEG and MPD efforts are continuing in movement to IT. Network assessment has been performed.	3/21/2003
IV.K.3.	GIS Strategic Plan	No Report	
IV.H.2.	List of Projects and Internal Strategies	The IT Department has developed five-year plans which are updated annually focusing on proactive preventative maintenance. The IT Department has also implemented monthly a maintenance window for planned maintenance of its computer and network systems.	3/21/2003
IV.A.8.	Develop E-Commerce Strategy for 24/7 Service	No Report	
IV.E.4.	Training in Computer Virus Prevention	Staff provides a presentation at the new employee orientation to train and educate new employees on computer borne viruses and City's computer policy covering this issue.	3/21/2003
IV.G.2.	Standards-Based PC Desktops	No Report	
IV.E.1.	Establish Technology Training Programs for City Softw	Steps to accomplish this goal have been delayed due to lack of funding.	3/21/2003
IV.L.3.	Automate & Synchronize Mapping	Staff recently completed a process to automate a portion of our GIS Intranet and Internet site maintenance. The automation of a portion of the previously manual process will greatly reduce the staff hours required to update these GIS web applications.	12/15/2003

IV.H.1.	Benchmark With Other Agencies	A site visit was made to Santa Clara to review their building permit service program compared to Modesto's. It was determined that both agencies are providing similar services and performance levels and both were looking to improve their processes using E-Government technologies.	4/3/2002
IV.E.3.	Encourage Intranet/Internet Utilization for Employee Sk	No Report	
IV.G.3.	High Level Virus Protection	A high standards virus scanning and SPAM filtering device was installed. An enterprise-wide virus scanning plan was implemented and enforced.	3/21/2003
IV.L.2.	GIS Intranet and Internet Sites	Staff have recently added additional data sets and reporting capabilities to the GIS Intranet site. The more significant of these is the ability to generate a population report based on the 2000 Census and a resident mailing labels report.	12/15/2003
IV.E.2.	Create Links to Educational Systems for Professional De	This action has been completed. The local school district, Modesto Junior College and Stanislaus State University have all be contacted and partnered with to hire students/interns. The interns have added value to the City's Information Technology programs while providing them with on the job training and professional growth opportunities.	3/21/2003

III.B.6.a.	Develop Plan to Convert City Vehicles to Alternative Fu	<p>Fleet Services recently participated in a one-year deployment of 21 Neighborhood Electric Vehicles (NEV's) for evaluation in several applications. In addition, staff is in the process of purchasing three (3) more Hybrid sedans. Other alternative-fuel applications are being evaluated. [12/10/2003]</p> <p>Staff has aggressively been purchasing Ultra Low Emission Vehicles (ULEV); 49 ULEV have been purchased in the last two years. Two Super Low Emission Vehicles (SULEV) have been purchased along with two Zero Emission Vehicles (ZEV). In addition, grant funding has been sought for two additional ZEVs.</p> <p>Repowered 18 older model diesel buses with clean-burning diesel engines. Only clean burning low sulfur diesel fuel is now being purchased for the fleet. [3/10/2003]</p>	12/10/2003
S.A.4.b.(2).	Self-Directed Work Teams	<p>Forestry teams have reached a level of maturity. They are performing meeting functions that has allowed them to learn a few tasks that had been the responsibility of supervisors. The biggest result of teams has been a general move to the employees solving minor relational problems.</p>	3/14/2003

I.C.1.b.(2). Expand Rockwell Education Program

12/10/2003

Developed "Go with the Flow" educational video; Estimated 1000 elementary students watched the video. Staff attended Principal/Teacher meetings to promote the Video and try to integrate it into class curriculums. Approximately 200-300 students took field trips and participated in classroom sessions conducted by a Stanislaus County-Tuolumne River pollution prevention awareness program. Approximately 75% of the 4th Graders in the urbanized area were provided with educational materials relating to pollution prevention and stormwater quality. Distributed more than 40,000 promotional and educational materials, including 4,200 new residential packets with recycling and storm drain information. An update to the 1996 Godbe Survey of residents was done in 2002. The survey found a 3% increase in rockwell awareness and a 4% decrease in residents believing that water in rockwells went to a treatment plant. [12/10/2003]

Distributed more than 10,000 promotional and educational materials, including 1,200 new resident packets with recycling and storm drain information. Installed 4,000 Spanish placards and distributed more than 10,000 bilingual door hangers with "Only Rain Down the Drain" message. Attended numerous festivals and made presentations at elementary schools. [3/10/2003]

I.A.2.a.(3). Enhance Key Transportation Corridors

We have 33 NEAT teams doing litter pick up on streets. Of these, seven (7) of these are pay for service agreements. We have completed the Welcome Sign landscaping at Sisk and Briggsmore and the 19th and H Street Fountain project. We are implementing the 20/20 Vision Plan to improve/install landscape on 20 high-visibility sites throughout Modesto. [12/10/2003]

12/9/2003

A beautification master plan is targeted for completion in the next two years for the SR 99 corridor from the Merced River to the Stanislaus River. Three wall planting projects have been completed in partnership with CalTrans, the Workforce Investment Board, and the City. A \$1.3 million TEA grant was approved for the Briggsmore interchange and other TEA grants are in the pipeline for future year consideration. Shrub and vine plantings have been completed along Briggsmore between Claus and Oakdale. The City is also partnering with Scenic America for the SR 99 Corridor and has implemented an Adopt-A-Right of Way program. [3/10/2003]

I.C.1.a.(5). NPDES Requirements

Staff has submitted the Stormwater Management Plan to the Regional Water Quality Control Board. The plan outlines specifics for meeting the NPDES Permit requirements. Staff is waiting for comments back. Staff is continuing efforts to coordinate permit required activities with other City Departments and divisions.

I.A.2.a.(6).	Form Public/Private Beautification Partnerships	The Greater Modesto Tree Foundation has been formed and is working on city-related projects such as the Trees for Tots. The City Council allotted \$50,000 in support of partnership opportunities. The City partnered with Universal Charter School and the Hispanic Youth Leadership Council in a restoration program to plant native oaks in Tuolumne River Regional Park (TRRP). The City also joined with Friends of the Tuolumne to develop a native grasses restoration program for TRRP. The Third Annual Trees for Tots program involved several hundred citizens who planted oak trees in Dry Creek Regional Park. In addition, the City has partnered with the Eagle Scouts and other groups on beautification projects.	3/10/2003
I.B.1.c.(1).	Fully Fund Deferred Maintenance	Ten year proformas for water and sewer projects increased levels of deferred maintenance activities. A hydraulic analysis is underway for the water system to identify any major weaknesses in the system. A storm drain master plan is also being conducted to identify overall needs within this system. Any increases in deferred maintenance efforts for the water, sewer, or storm systems will require additional rate increases beyond what is projected in the proformas.	3/10/2003

IX.B.3.	Expand and Enhance Downtown Beautification Program	The Modesto Garden Club, DID, and the City continue to partner on plantings in the downtown. More than 175 hanging baskets are now in place along with 400 concrete pots for flower planting. Ground covers for trees wells are being tested.	3/10/2003
C.I.C.4.	Partner with Color Modesto	Partnered with Anti-Litter Stering Committee to address litter and blight on City right-of-ways. Litter pick up events held in April and November resulted in more than 1,000 participants and 15,000 pounds of litter removed.	3/10/2003

H.II.K.1.f.	Workload Analysis	3/27/02 - The Workload Analysis has been completed. The Police Support Services Supervisor who conducted the analysis reviewed several clerical positions within the department but outside the Records Unit. She confirmed that the workloads of the clerks were appropriate and concluded that any duplication in effort prior to the HTE RMS implementation has been eliminated. The final report detailing each position assessed will be completed the first of April.	3/27/2002

H.II.A.2.g.	Street Closure	12/14/01 Project was completed July 10, 2001	12/14/2001
		This has been an on-going project since January 2001. The final proposal went to the Public Safety Committee on April 16. It was presented to and approved by City Council on July 10. This revised street closure policy reduces the fees to \$12.50 from \$20.00. The Policy calls for "no charge" for eight city and state approved holidays.	
H.II.A.1.i.	Existing Neighborhoods	1-11-02 This was a combined project for all Area Commands. Crime Prevention Officers and Area Command Staff worked on this project last year and finalized their area maps after the city wide Neighborhood Watch Barbecue which was held at Graceada Park on July 11th.	
H.II.I.1.b.	Neighborhood Linkages	This is redundant of prior projects (H.II.F.1.d/PR&N; H.II.F.1.b and PD Citizens Academy Mark as completed in PD area.	2/4/2003
H.V.A.4.	Campus Police Officers	1/8/02 The role of our School Police Officers (SPOs) is threefold. They're law enforcement officers, counselors and trainers within a single school. The SPOs work at the five Modesto High Schools, Elliott Alternative Education Center, P.A.C.E., (Petersen Alternative Center for Education) and the four Modesto City Junior High Schools. The SPOs are considered a part of the staff at each school. As such, their roles include being a mentor, a teacher, a role model as well the various duties of law enforcement. This highly effective unit continues to provide a valuable service to our schools.	1/8/2002
C.I.B.9.	"Graffiti" Event	Working with Chamber supported June Graffiti month with many events related to graffiti theme including Kiwanis Classic Car Parade. Events will be on-going for safe family oriented events related to the graffiti theme.	6/10/2002
C.I.B.8.	Not in Our Town	The event has been successfully held for the last three years and is continuing in the future with community involvement	2/4/2003

H.III.A.1.	Adopt Response Standards	Completed as an adopted performance measure.	2/4/2003
H.I.A.1.	Arson Task Force	Sharing facilities at 3705 Oakdale Road is working well. One Modesto Police Detective is working with the Arson Task Force. We will continue to monitor this assignment's effectiveness.	12/12/2003
C.III.B.1.	Spanish Citizen's Academy	3/26/02 Two citizen's academies are currently running; Spanish and Cambodian (Khmer). Spanish academy has enrollment of 30 participants, Cambodian academy has 18 participants.	3/26/2002

IV.F.3.	Upgrade Police/Fire Radio System to 800 mhz	Project estimated at \$8,408,000. Seeking Federal Funds and Homeland Security grants, not yet announced by the Federal government	2/4/2003
H.I.A.5.	Violence Prevention Support Group	Participated in forming a support group for hate crime victims (PFLAG, GSLEN, NAACP). Co-sponsored with NAACP and YCCD "Not in Our Town" anti-hate crime and diversity tolerance marches in October 2002 and will again in 2003. Participated in PFLAG and GSLEN press conferences at the unveiling of anti-hate and tolerance billboards.  The Department has a member on and is active with the Hispanic Leadership Council, the NAACP, the Asian Advisory Board and PFLAG.	12/12/2003
H.I.B.7.	Animal Control	Project will remain with Information Services Lieutenant and Administrative Services Sergeant.	12/8/2003
H.V.A.3.	Lunch-Time Programs	No Report	12/12/2003

H.II.K.1.d.	Target Healthy and Safe Programs	The first targeted area has been identified as the Roselawn Project and is underway with PR&N with Julie Hannon providing the report. Further, a designated steering committee is in the process of formation.	2/4/2003
H.V.A.10.	School Safety	In the early fall, before the start of the traditional school year, Police management staff confers with school administrative staff regarding school safety and particular campus needs.	12/12/2003
H.I.B.6.	Drug Enforcement Efforts	No report. Ongoing.	12/12/2003
H.I.B.13.	Police Training Center	The Joint Powers Agreement that exists among Stanislaus County, the City of Modesto and the Yosemite Community College District is in the process of being dissolved. Asset ownership is currently being resolved. Training is now being accomplished with Stanislaus Sheriff's Office and the Modesto Police Department. Final dissolution is near completion.	12/12/2003
H.II.A.2.j.	Animal Control Laws	No Report	12/8/2003
H.II.A.2.k.	Encourage Employment	The City Council has adopted a new ordinance prohibiting solicitation and thereby enhancing business, in specified areas of the City, which the Police Department is now enforcing. Additionally, the Police Department is now actively involved in restorative policing with the Mental Health Department and the District Attorney to serve the specific needs of the habitually offending nuisance population that has substance abuse and mental health problems. This policing discourages solicitation/panhandling.	12/12/2003

C.III.B.2.	NAACP	Liaison was maintained with the NAACP and the Administration of Modesto City Schools, following reported racially-based threats and potentially related retaliatory violence at the Beyer High School campus. These incidents, occurring in November 2002, appear to be isolated as there has been no reports of ongoing problems.	2/4/2003
IV.F.4.	Police Records Management System	Records Management System installed and live for citations, incidents, warrants, field interviews and evidence. Alternatives to current mobile data computer system were explored, obtained and evaluated proposals from prospective vendors, and received Council approval for implementation with new vendor. Digital Photo Capture and Storage has been implemented with Modesto Police Department connected to Stanislaus County Sheriff's Office. The CAD interface between Records Management System and 911-CAD has been completed. Conversion to Bar Code Capability for property and evidence has been completed. GIS Interface Project continues with the extraction and loading of data.	3/21/2003
H.II.A.1.b.	Neighborhood Watch	Neighborhood Watch Programs continue to expand, with most of the growth occurring in the new Northeast area. Some groups have become inactive so the total number remains at about 700 groups. Research is being done regarding Business Watch Programs. Most other cities' programs are informational and informal. We are looking for a more formal citywide program.	12/8/2003
H.V.A.11.	Family Violence Prevention Program	No Report.	12/12/2003

Status

H.I.B.5.	StanCAT	Ongoing interaction with the StanCatt Board comprised of the law enforcement executives within the county. Has taken on a very active role in directing this Task Force. Substantial information has been made in reporting, evaluating, and operating at reducing (or targeting) auto theft countywide and especially in Modesto as about one-half of all stolen autos occur within the City of Modesto. This effort will continue.	12/8/2003
H.II.K.1.j.	Business Crime Watch	Nothing to report--just new employee lead	12/12/2003

1/7/02 I was assigned management of the MPD Volunteers In Police Service Program (VIPS) in August of 2001. Some of the things we are doing to improve the program and better reach the community are:

Have expanded from 28 to 33 volunteers since August. Implemented monthly business/training meetings with meeting minutes and agendas prepared for all volunteers.

Created a volunteer roster for better communication and call backs.

Started a quarterly volunteer newsletter

Looking to expand volunteers to all bureaus and divisions of the department.

Identifying training needs.

Increase recruitment efforts to include setting up information tables at public events, shopping centers, etc.

Expanding volunteer assistance in abandoned auto enforcement.

Looking into possible grant funds for volunteer training and equipment.

Scheduling future field trips for volunteer training (February 2002 seminar).

Elected volunteer coordinators for area offices.

Assigned one volunteer as the lead volunteer coordinator to help manage the program.

9/5/01 Existing Neighborhoods will be scheduling meetings with Area Command Crime Prevention Officers to solicit community input in defining their communities. This can be done in conjunction with Neighborhood Watch meetings.

H.II.K.1.e.	Crime Analysis	Crime Analysis performed specific data collection and analysis for the performance measures tied to the Strategic Plan. This analysis included work on response times, crime types, and Modesto crime rates vs state crime rates, juvenile crime rates, and gang-related crime. This data was reflected in Excel spreadsheets and graphs.	2/4/2003
H.V.A.9.	Youth Crime Prevention Programs	The Modesto Police Department hosts a number of different programs aimed at crime prevention/awareness for our community youth. Among them are Diversion, WAKE-UP, PAL football, basketball, baseball, and soccer, and the Westview Gardens tutoring center. A new COPS in Schools Grant from the federal government has allowed the Department to provide School Police Officers at Garrison Elementary, Marshall Elementary and Mark Twain Junior High Schools.	12/12/2003
H.II.G.1.b.	Target Areas	Traffic calming efforts customarily involve environmental design features and techniques which calm and slow traffic. The Traffic Unit Officers regularly identify and recommend, through chain of command, areas suitable for traffic calming. In addition, Traffic Officers invite members of Engineering and Transportation to selected collision scenes to allow them the opportunity to cross-train. Targeting areas for traffic calming is an ongoing effort.	12/8/2003
H.II.F.1.b.	Area Command Offices / Community Centers Relations	The Area Offices are under the direction of Lieutenants Bill Lyons and Joel Broumas. The offices provide the community information on crime prevention, telephonic reports may be made through the offices, and Area Office personnel continue to meet with community groups/Neighborhood Watch Groups regarding issues in different areas of town. Area Offices are used for community meetings such as Skate Park Advisory Board, Neighborhood Watch, National Night Out, etc.	12/8/2003

H.II.G.1.d. Targeted Traffic Enforcement

The California Office of Traffic Safety granted the City of Modesto \$34,469 to participate in a statewide intensive two-week seat belt compliance enforcement project. A pre-enforcement survey conducted by traffic officers showed a seat belt use compliance rate of 88 percent in the City. The goal of the grant was to raise compliance rate, statewide, to 94 percent. The post-enforcement survey, conducted following the two-week enforcement program, showed a seat belt use compliance rate of 98 percent in the City. One strategy used during the grant project was locating officers in highly visible locations to encourage motorist compliance. Saturation enforcement was also used in selected areas of the City. During the two week grant traffic officers issued approximately 2,000 seat belt citations.

12/11/2003

Each month, a targeted enforcement calendar is created and issued to traffic officers. Listed on each day of the calendar are high collision streets and intersections. The officers prioritize and work the targeted areas each day prior to their routine selective enforcement efforts. Targeted enforcement is an ongoing effort.

H.I.A.2. Crime Free Multi-Housing

There are 39 fully certified apartment communities and one condominium community participating in the program which represents 4,788 living units. The program is being expanded to include smaller rental communities (10 units or less). The area Crime Prevention Officers have received in-house training. They started inspections in October 2003. HUD has expressed interest. Their properties will start the inspection process during the year.

12/8/2003

Seven properties that were with the program for more than one year had a dramatic overall decrease of 32% in calls for service. On 2/4/03, the City Council approved funding for the continuation of the program through 2005. The Crime Free Multi-Housing Program will focus on duplexes and triplexes.

H.II.A.1.j.	Link Service Delivery to Neighborhoods	Staff provided a workshop for neighborhood groups on the process to form a non profit organization.	2/20/2003
H.II.A.2.a.	Citizen's Advisory Groups	The department provides full staff support to the Culture Commission, Landmark Preservation Commission, Golf Courses Committee, Tuolumne River Regional Park Citizens Advisory Committee, Tuolumne River Regional Park Commission, Community Qualities Forum, Convention and Visitors Bureau Board, Citizens Housing and Community Development Committee, Housing Rehabilitation Loan Committee and the Youth Commission.	2/20/2003
H.II.A.2.b.	Park/Recreation Facility Design	Each project presented for development goes through a public comment and review period, facilitated by community meetings, council committee and council meetings. Park Partners also facilitates this activity.	12/2/2003
H.II.A.2.c.	Build Relationships with and Increase Services	Neighborhood interns are continuing with outreach to the neighborhoods in order to improve services. Staff actively participates in the Housing and Support Services Collaborative.	12/2/2003
H.II.A.1.f.	Neighborhood Connections	Grants for neighborhood improvements were issued to Orville Wright Little League to renovate their baseball diamond at Orville Wright school, to Habitat for Humanity for projects in the Airport Neighborhood, and to the Volunteer Center for a project at the Redwood Family Center.	12/3/2003

H.I.B.12.	United Way Impact Councils	Staff actively participates on all United Way Impact Councils that have relevance to the department's mission.	2/20/2003
H.I.B.11.	Formal Co-Sponsorship of Recreation Programs	Staff is working with contractors to develop a marketing video showcasing the department and its activities and the opportunities for co-sponsorships and donations and to develop an Asset Inventory and Valuation Audit, in order to be better placed to seek endowments, donations and other forms of funding.	12/2/2003
H.II.A.2.d.	Quarterly Meetings	Staff worked in all neighborhoods to form the CDBG Annual Action Plan.	12/2/2003
C.V.A.8.	John Thurman Field	Concert power was installed at JTF to meet the power requirements of large outdoor shows and special events. The back stop netting also went through a retrofit that allows it to be lowered to give everyone clear views of concert stages. With the added seating capacity and power, John Thurman Field hosted some major events, including the 9-11 Memorial with Oliver North as guest speaker, an expanded Octoberfest with rock group America, and a sold-out comedy show featuring George Lopez.	12/2/2003
H.II.A.1.k.	Existing Neighborhoods.	Newsletters continue to be posted on the City's web page.	7/19/2002
H.V.A.7.	Character Education Program	This action is complete.	12/2/2003
I.A.2.a.(10).	Preserve Park Infrastructure	Beyer Park and Graceada Park picnic shade structures are completed. The pool will be upgraded at Davis High School, and the Maddux Youth Center Improvements have been accepted by the council - Construction documents to follow.	12/2/2003

H.V.B.1.	Youth in Government Day	The County participated in the job shadowing portion of this event. Four additional schools were invited to participate in the all day program. The commission was able to negotiate a favorable price for the luncheon portion of the day, which meant that the commissioners and advisory board members had time to participate in the job shadowing. It has also allowed an increase in participants from 200 to 300.	6/4/2003
H.V.A.20.	Youth Activities	The Youth Commissioners hosted a very successful Youth-in-Government Day. Three local youth were recognized through the Honoring Outstanding Youth program. Movies in the Park will take place during the summer months. and MoBand Café will be held during the MoBand concerts. The Commission will continue to play an active role in the implementation of all activities they represent.	6/4/2003
H.V.A.19.	Place for Teens to Gather	Moband is currently in place, staff and Youth Commission presented summer teen movie nights. Youth Commission will continue to consider a coffee house, Y-Fest and other evening opportunities such as dances and teen nights throughout the community.	12/2/2003
H.V.A.18.	Bring Students from Different High Schools Together	Moband is currently in place, staff and Youth Commission have sponsored teen movie nights.	12/2/2003
H.V.A.16.	MoBand Café	The commissioners and staff are working with the Police Department to offer the MoBand Café until 10:00 p.m. every week during the MoBand season. The Parks, Recreation and Neighborhoods Department has budgeted funds to have a variety of activities available for all six weeks of the concert series. Staff and the commissioners are currently working with other agencies in an effort to provide education and information to teens on issues that relate to their age groups.	6/4/2003
H.II.B.1.e.	Promote Housing Successes	Staff is currently workin on a pre-development loan for multi-family housing in Village One.	2/20/2003

III.B.5.b.	Improve Inter-departmental Coordination for Non-motor	A Transportation Action Committee (TAC) has been formed. A Non-Motorized Transportation Plan update is being developed.	12/2/2003
H.V.A.2.	After School Programs	The City partnership with the grant received by the Modesto City School District at four school sites was completed. Preparations to begin in the fall are now being arranged. The City was a partner in a grant received by the Modesto City School District for \$370,000 annually for three years. Funding will serve 280 kids daily at 4 school sites.	7/19/2002
H.II.A.1.c.	Community Wide Festivals/Events	Staff worked with the Downtown Improvement District and the State Theatre to plan and coordinate Rock'n Rods, a new community festival, which was held in June, with plans to be an annual event. It included a display of classic vehicles lined up along J Street. The event also featured two different entertainment stages, one at each end of the event area, strolling entertainment, beer gardens, and a children's activity area. A salsa Festival with Comedian George Lopez was coordinated with the Modesto A's. It was quite successful and will be brought back next year. The Oktoberfest this year took on a new twist. The festival featured a prominent concert band - America. The event was attended by about 4,000 people.	12/1/2003
H.II.A.2.e.	Organized Neighborhood Groups	Mini-grants were awarded to Habitat for Humanity and the Volunteer Center of the United Way.	6/4/2003
C.V.A.5.	Scholarships and Co-sponsorships	Staff continues to work with co-sponsored groups to ensure that local youth have safe and rewarding sports experiences. The County was unable to continue its contribution for youth residing outside Modesto's City Limits.	12/2/2003
H.IV.A.3.	Mental Health/Substance Abuse	The Fifth Street Project is operational.	7/19/2002

H.IV.A.2.	Health Services Partnerships	The Senior Citizens Organization is partnering with the Stanislaus County Health Department that provides a Registered Nurse to do health exams twice weekly. The Health Department conducted two flu shot clinics with 550 seniors receiving shots.	2/10/2003
H.II.F.1.d.	Community-Oriented Governance	Community Oriented Governance is incorporated into all of the department's programs, activities and services.	2/20/2003
H.II.E.1.c.	Dual Use	Coffee-Claratina Park will be completed in Spring 2004. This has a dual use basin/park element - the first of it's kind in recent development.	12/2/2003
H.II.C.1.b.	Down Payment Assistance Program	Presentations were made. Additional amendments were added to the program guidelines.	2/20/2003
H.II.C.1.a.	First Time Homebuyers	Staff is still providing down-payment assistance to qualifying families.	2/20/2003
H.II.B.2.c.	Crime Free Multi-Housing Addenda	This requirement has been placed on all applicable HOME funded loans.	12/31/2001
H.II.B.2.a.	Private Investment	City council approved two new projects on April 9, 2002: 3333 Carver Road, and Miller Pointe.	7/19/2002
C.V.A.13.	Work with Youth Commission	The Youth Commission has decided to offer a Teen Movie night during the summer. The dates for these events are late July and August. The Youth Commission has voted on which movies they would like shown during these nights. The sub-committee is currently discussing what types of activities would complement each movie and their themes.	12/2/2003
C.II.A.2.	State Theatre	Staff continues working with the State Theater on event issues including front of house and production.	12/1/2003
C.I.A.4.	Tuolumne River Regional Park Master Plan	Staff has continued to visit Sacramento and the local legislature to secure funding. Grant applications are out for future phases of the Gateway Parcel.	12/2/2003
C.I.C.5.	Neighborhood Cleanup in the Yosemite/Airport District	This event is now city-wide. It still occurs twice per year and is very successful. Staff is also looking into amending the Municipal Code for litter control.	12/2/2003

C.III.A.1.	Cultural Festivals	The department provided support to Cinco de Mayo celebration, the Fourth of July Parade, picnic and fireworks, the International Festival, and the Hmong New Year.	12/3/2003
C.II.D.2.	Poetry Writing Contest and Poetry Reading	The 2004 Poetry Contest applications are available.	12/2/2003
C.I.A.8.	King Kennedy Center	Recreation & Neighborhoods staff is working to secure private funds for the continued operation of the PARTY MOBILE at school and neighborhood sites.	12/2/2003
C.II.D.1.	Culture Commission	Funding recommendations were presented to City Council.	7/19/2002
C.II.C.2	Performing and Visual Arts	Applications for funding for the 2004-05 fiscal year will be released in January 2004.	12/2/2003
C.II.C.1.	Visual, Literary and Performing Arts Courses.	The Child Services organization offered 36 specialty classes that were visual, literary or performing arts. The organization continues to recruit instructors for specialty classes in the arts. Art classes co-sponsored by the Central California Art League have also been added.	12/2/2003
C.I.A.10.	Mancini Bowl	Staff continues to book many reservations of the Bowl. Increasing use is difficult, since many potential renters want amplified music. Staff looked into improving the lighting and found the cost to be prohibitive.	7/19/2002
C.II.B.1.	Art in Public Places	The Public Arts Committee continues to meet on a monthly basis. They have developed a set of guidelines for public art and have created goals.	2/20/2003
C.I.A.2.	Tenth Street Place Plaza	Staff secured a sponsor and organized a Brown Bag Lunch Concert Series in the spring 2003. Staff plans to hold this event annually and is planning the next concert series for the fall of 2004. Staff booked a total of 65 events that were held in Tenth Street Plaza, with 3 scheduled for December.	12/1/2003

C.I.B.2.	Celebration of Lights	Staff was successful in recruiting a large number of city employees as volunteers to work the day of the parade. It was the largest number of staff participation to date. The 2003 Celebration of Lights was successful, attracting large crowds to downtown Modesto to watch the parade and tree lighting. Parade Grand Marshal, Grace Lieberman, led the parade with the theme of "Toys in Dreamland". Festivities at the tree lighting included holiday music and a visit from Santa.	12/1/2003
C.I.A.6.	McHenry Museum and Mansion	The auditorium at the Museum is being improved to encourage additional use.	12/2/2003
C.II.A.1.	MoBand	The 84th year of the Mo Band concerts was a big success. A new filming platform at the rear of the bowl was in place and allowed filming without obstructing the views of concert-goers. The Parks, Recreation and Neighborhoods, Operations and Maintenance and Police Departments provided a variety of services weekly to ensure the success of the concerts.	12/2/2003
C.I.B.3.	Fourth of July Parade	Staff met and discussed the 2004 Fourth of July parade. City staff from both the Recreation Services and Cultural and Enterprise Services Divisions will work with the Modesto Jaycees in coordination of the parade. The City Council has approved funding in the amount of \$10,000 annually.	12/2/2003
C.I.B.4.	Modesto Relays	The 2003 Modesto Relays was a success. Staff will be working with Save Mart Cares for the 2004 Modesto Relays.	12/1/2003
C.I.B.5.	Juneteenth Event	Juneteenth was held on June 19-21, 2003, with 1,500 to 2,000 attendees. Staff will plan next year's event in early 2004.	12/2/2003
C.I.B.7.	Martin Luther King, Jr.	A successful Martin Luther King, Jr. event was held on January 17, 2003. The City co-sponsored Mae Jemison's presentation. Staff is planning to co-sponsor Cornel West's presentation in January 2004.	12/2/2003

XI.B.3.	Look for Open Space Expansion Opportunities	Property along Scenic Drive at the foot of Coffee Road was acquired. The Mensinger Trail and the second phase of the Hetch-Hetchy trail were dedicated. The Redevelopment Agency is looking at property in the Hetch-Hetchy planning area and a park site in the Fairway neighborhood/	2/10/2003
C.I.C.1.	Park Partners Program	The park partners program will be used in the near future for Sharp, Mark Twain and John Muir parks for playground equipment upgrades and new installations. The Dog Park will use the park partners process, but will not use any Park Partners funds.	6/4/2003
H.V.A.13.	Involve Youth in Strategic Plan Implementation	Annually staff works with the Youth Commission and other youth that have shown an interest in youth issues to discuss what are some ways to better implement the strategic plan items that concern youth. During the month of August or early September, staff met with the commissioners to go over the relevant actions of the Plan in an effort to direct attention in these firections, thus creating goals for the Youth Commission.	2/10/2003
C.I.C.3.1	Neighborhood Volunteers	Staff has hired a coordinator and the program is underway toward full implementation. Target neighborhoods include E. Morris& Kimble, Kansas, Rosemore, and the Airport area. Staff is still in the process of training, with plans to be fully operational by February 2004.	12/2/2003
H.V.D.1.	Foster Interaction	MoBand is currently fulfilling this action item. Also up coming teen movie nights and movie in the park are also in the work's.	6/4/2003
C.II.A.4.	X-Fest	Xfest 2003 was a truly outstanding event. Several changes were implemented to make it even better. The most critical was the site location being moved two blocks to the south and new entry locations were established. The 2004 Xfest has already been approved by the City Council.	12/1/2003
C.III.B.4.	Multicultural Diversity	The "Day of Empowerment" was held in September 2003. Multi-cultural training also took place.	2/20/2003

C.I.A.1.	Centre Plaza and Tenth Street Place Plaza	The Centre Plaza Five-Year Plan is being used as a guideline to create new business and maintain optimal service levels for regular users.	12/2/2003
C.IV.B.1.	Landmark Preservation Sites	A property on W. Morris was designated as a Modesto Landmark Preservation Site.	12/2/2003
C.IV.A.5.	First Sundays Educational Program	First Sundays will begin in February and will run through June.	12/2/2003
C.IV.A.3.	Special Events	Special events are enumerated weekly in the City Council's FYI.	12/2/2003
C.IV.A.1.	McHenry Mansion and Museum	A number of exhibits were held at the McHenry Museum:	6/4/2003
C.III.C.1.	Sister Cities	Delegations visited France (for a potential sister county agreement) and Aguascalientes Mexico.	6/4/2003
C.III.B.3.	Rights of Passage Programs	Staff recruited 20 to 30 young men and ensued between February to April 2002. Ten people completed the project.	7/19/2002
H.I.B.8.	Public Service Grants	The RFP cycle for 2003-2004 CDBG grants with non-profits opened on February 5, 2003 and closed on February 28, 2003. Staff conducted two technical workshops in conjunction with these grant opportunities.	6/4/2003
H.V.D.4.	Programs for After School	Staff received a grant and has used matching funds to offer more After School Learning programs at the elementary levels.	7/19/2002
H.I.A.4.	Opportunities for Collaboration	Staff collaborates on many of the department's programs and activities.	2/20/2003
I.C.1.c.(2).	Beautify Existing Single-Use Stormwater Basins	Dual Use Policy is now in place. The Grecian basin is starting to go into review as that area is completing it's development.	12/2/2003
H.V.C.3.	Skating Park	Staff is currently looking at alternatives for the operation of the skate park.	12/2/2003

H.I.A.3.	Code Enforcement	An Inter-Departmental team developed a plan to address various code enforcement issues. Code Enforcement staff is participating in the Roselawn Weed and Seed Program.	12/2/2003
C.III.A.2.	Picnics in the Park	Events were held June through August, 2003. Plans are to hold this event in 2004.	12/2/2003

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-125**

**A RESOLUTION APPROVING AN AGREEMENT TO TERMINATE THE CRIMINAL JUSTICE TRAINING AGENCY INCLUDING THE “PLAN FOR WINDING UP THE AFFAIRS OF THE CRIMINAL JUSTICE TRAINING AGENCY”; ACCEPTING THE FINANCIAL REVIEW REPORT OF THE STANISLAUS COUNTY AUDITOR/CONTROLLER IN LIEU OF A FORMAL AUDIT; REQUESTING THE AUDITOR/CONTROLLER TO MAKE THE RECOMMENDED CORRECTIONS TO THE JPA BUDGETS AND ACCOUNTS; AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT ON BEHALF OF THE CITY OF MODESTO.**

WHEREAS, on or about July 1, 1997, the Yosemite Community College District (“YCCD”), the County of Stanislaus (“County”), and the City of Modesto (“City”) entered into a joint powers agreement establishing the Criminal Justice Training Agency (“JPA”), and

WHEREAS, for the reasons set forth in the staff report (“Report”) to the Modesto City Council dated February 19, 2004, which is attached to this Resolution and incorporated herein by reference, the County, YCCD, and the City now desire to terminate the JPA, and

WHEREAS, City and County staff, including the Auditor/Controller of Stanislaus County performed a financial review (in lieu of an audit) of the expenditures and revenue of the JPA as described in the attached Report, and

WHEREAS, the proposal for winding up of the financial affairs of the JPA as described in the Report is acceptable to the City Council, and

WHEREAS, it is in the best interest of the City to terminate the JPA as recommended in the Report,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Criminal Justice Training Agency Joint Powers Termination

Agreement including the “**Plan for Winding up the Affairs of the Criminal Justice Training Agency**”, which is attached to this Resolution and incorporated herein by reference, and accepts the financial report of the Stanislaus County Auditor/Controller in lieu of a formal audit and request the Auditor/Controller to make the recommended corrections to the JPA budgets and accounts.

BE IT FURTHER RESOLVED that the Council hereby authorizes the City Manager, or his designee, to execute the Criminal Justice Training Agency Joint Powers Termination Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24<sup>th</sup> day of February, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

CITY OF MODESTO  
AGENDA REPORT

COUNCIL MEETING:  
February 24, 2004

February 19, 2004

TO: Modesto City Council

FROM: Jack Crist, City Manager

SUBJECT: Termination of the Criminal Justice Training Agency Joint Powers Agreement

Contact: Greg Baird, ([gbaird@modestogov.com](mailto:gbaird@modestogov.com)) 577-5458

**RECOMMENDED COUNCIL ACTION:**

This item is for the Council to approve to finalize the Criminal Justice Training Agency Joint Powers Termination Agreement including the "Plan for winding up the affairs of the Criminal Justice Training Agency." This agenda item also requests Council to accept the Financial Review Report of the County Auditor Controller in lieu of a formal audit and request the County Auditor Controller to make the recommended corrections to the JPA budgets and accounts and give the authority to the City Manager to finalize and sign the agreements that will dissolve the Criminal Justice Training Agency Joint Powers Agreement between the City of Modesto, Stanislaus County and the Yosemite Community College District.

**OVERVIEW**

Pursuant to the Joint Powers Agency (JPA) agreement dated July 1, 1997, the County of Stanislaus (County), City of Modesto (City), and the Yosemite Community College District (College District) agreed to create a JPA for the purpose of providing criminal justice educational programs.

The Agency was administered by a four-member commission that consisted of the Chief Executive Officer of the District; the President of Modesto Junior College, the Chief Executive Officer of the County and the Modesto City Manager.

The College District was authorized to cast two votes with the City and County each having one.

Beginning in January 1998, classes were begun under the JPA and have continued under the agreement until June 30, 2003. While training efforts were successful in that thousands of hours of criminal justice education classroom instruction were provided, the staffing, funding, and approval mechanisms of the agreement weakened the overall model. The parties did not agree

on several issues, but did recognize that a new approach to provide criminal justice training education in this community needed to be pursued. On May 8, 2003, the College District and the County commission members voted in favor of terminating the JPA agreement. The City of Modesto agreed in concept pending legal review and winding up plan negotiations. Upon legal review of the documents minor changes of the termination agreement have been made in the winding up plans.

JPA Commission Members did not take required actions stipulated in the original agreement following the government code.

**The JPA was not reported as a separate public entity.**

**The Commission did not adopt annual budgets.**

**The audits as prescribed in the JPA Agreement were not conducted.**

Staff from the City of Modesto Police Department and Finance Department conducted an analytical review of the County's Ray Simon Training Center accounting records. A year-by-year model of expenditure and revenue data was created.

Interim County Chief Executive Officer, Patricia Hill Thomas, and City of Modesto Manager, Jack Crist, agreed to designate County and City representatives, including the Auditor-Controller to perform an in lieu audit "financial review" of the expenditures and revenue and to identify and resolve outstanding issues relative to completing the financial closeout of the JPA. Through a letter from Patricia Hill Thomas, Interim Chief Executive Officer, the College District was invited to participate in the financial review process, but elected not to do so.

The financial review effort resulted in expenditure adjustments for \$853,285.40 and revenue adjustments in the amount of \$771,011.76. The major adjustments were dealing with fixed assets and purchases. A total cash balance was \$156,644.05.

Some of the expenditure adjustments included County building maintenance overhead on labor limited to 15% and certain County indirect cost allocation charges (CAP) were not allowable JPA expenditures, including Grand Jury Audit, Risk Management, and CEO charges. The County Controller Auditor reviewed Sheriff payroll records to verify JPA only related charges in the area of Salaries and Benefits. City and County negotiations agreed to the Services and Supplies charges. YCCD could have contributed more towards the costs of supplies. MJC did not provide requested information concerning training classes and instructors. The City also allowed the JPA expenditure to pay for a \$23,000 County training center sign. The County used CEO special projects funds to purchase additional classroom space at the Ray Simon Regional Criminal Justice Training Center.

Minutes from the JPA meetings documented an agreement to apply \$64,000 to the County's Debt Service on the training facilities. The County had expected that entrepreneurial efforts related to the training could pay for the debt service, but were not successful due to the strict requirements of the College District.

The City and the County negotiated the interpretation of the JPA agreement and minutes to include paying instructional hours at time and one half during the last two years (MPD \$39,194 and Sheriff \$65,044). Also included in the negotiations was to allow the Modesto Police Department to include a portion of un-reimbursed non-instructional staff time (\$39,194) towards the city's cash or in-kind contribution. The City of Modesto's cash and in-kind contribution of \$125,000 per year was met.

The \$92,644.05 cash remaining was split between the Sheriff's time and one half credit of \$65,044 and instead of dividing the cash balance of \$27,600.05 at an 80/20 split (County/City), the balance was applied to the County's training facility's debt service.

**RECAP**

**Expenditure/Revenue Summary**

Actual Expenditures	(\$2,491,031.30)
Expenditure Adjustment	\$853,285.40
Actual Revenue	<b>\$2,565,401.71</b>
Revenue Adjustment	(\$771,011.76)
<u>Revenue in excess of (Expenditures)</u>	<u>\$156,644.05</u>

JPA Minutes payment of Debt Service	(\$64,000.00)
<u>New Cash Balance</u>	<u>\$92,644.05</u>

JPA Minutes Interpretation and Negotiations	
Credit for Sheriff's non-compensated instructional hrs	<u>(\$65,044.00)</u>

Remaining Cash Balance	
80/20 Split was discussed, both the City and County agreed to apply remaining balance to Debt Service	<u>\$27,600.05</u>
	\$0.00

The property of each party, which was contributed for the training operations, will remain with each party. Items purchased with City and YCCD money and owned by the JPA will be given to the County to use towards future law enforcement training needs. This may include \$20,000 worth of assts including weight equipment. An asset list has not been finalized.

The new model with YCCD/MJC to conduct law enforcement training that began on July 1, 2003 is currently an oral agreement based upon a pending draft contract. YCCD/MJC has paid training instructors and also has promised to pay the costs of the Training Center's current Director, a MPD Lieutenant. As a result of these arrangements, 27 students graduated on February 13 and 34 students will graduate on June 5, 2004.

It is expected that this type of financial review will be applied to other City/County JPAs.

The attachments include the JPA Termination Agreement, JPA Winding Up Plans, the Auditor's Financial Review Report and JPA Financial spreadsheets.

**REASONS FOR RECOMMENDATION:**

The JPA will not be lawfully terminated until all members have mutually and unanimously terminated the Agreement meaning the College District, the County, and the City.

**EXISTING POLICY/RELATIONSHIP TO STRATEGIC PLAN:**

N/A

**POLICY ALTERNATIVES:**

If the JPA is not dissolved then all parties are still subject to the terms of the original JPA agreement.

**FISCAL IMPACTS:**

The Modesto Police Department will not be required to pay \$84,289 based on Sheriff instructional hours only billings. \$125,000 of cash or in-kind services for the Police Department will be available to meet training needs. YCCD has promised to pay all MPD personnel costs incurred beginning on July 1, 2003.

**INTERDEPARTMENTAL COORDINATION:**

Modesto Police Department, City Manager, and Finance.

**PUBLIC PARTICIPATION:**

N/A

**STEPS FOLLOWING APPROVAL:**

The City Manager will finalize and sign the agreements that will dissolve the Criminal Justice Training Agency Joint Powers Agreement between the City of Modesto, Stanislaus County and the Yosemite Community College District.

AGREEMENT BY AND BETWEEN THE YOSEMITE COMMUNITY COLLEGE  
DISTRICT, THE COUNTY OF STANISLAUS AND THE CITY OF MODESTO TO  
TERMINATE JOINT EXERCISE OF POWERS AGREEMENT

This Agreement by and between the Yosemite Community College District, the County of Stanislaus, and the City of Modesto to terminate joint exercise of powers agreement ("Agreement") is made in accordance with Chapter 5 of Division 7 of Title 1 of the Government Code of the State of California (commencing with section 6500), as amended and supplemental from time to time (the "Law"). This Agreement is made for the purposes of terminating the Joint Exercise of Powers Agreement ("JPA Agreement") of the Criminal Justice Training Agency ("Agency"), for convenience dated as of July 1, 1997, by and between the Yosemite Community College District ("District"), the County of Stanislaus ("County") and the City of Modesto ("City"), collectively the "Parties," disposing of all property, settling all accounts, and winding up all affairs of the Agency.

WHEREAS, Title 1, Division 7, Chapter 5 of the California Governmental Code authorizes two or more public agencies to agree to the joint exercise of any power common to them.

WHEREAS, on or about July 1, 1997, the parties entered into the JPA Agreement.

WHEREAS, in accordance with section 6510 of the Law, the Parties may terminate the JPA Agreement.

WHEREAS, the parties desire to terminate the Agency and wind up all affairs of the Agency by this Agreement, which shall be effective as of July 1, 2003.

WHEREAS, Modesto Junior College ("College") will continue to operate a smaller Criminal Justice Training Program that will serve local law enforcement,

WHEREAS, County will continue to provide a defensive driving range for use by the College's Criminal Justice Program,

WHEREAS, City will continue to provide access to its firing range and firing simulator for use by the College's firearms classes,

1. Definitions. Unless the context otherwise requires, the terms defined in this section and initially capitalized in the text shall for all purposes of this Agreement have the meanings herein specified.

“Agency” shall mean Criminal Justice Training Agency, a joint exercise of powers agency created by the Members hereunder.

“Agreement” shall mean this agreement as same now exists and as it may from time to time be amended.

“Commission” shall mean the Commission described in Section 7 of the JPA Agreement.

“Effective Date” shall mean July 1, 2003.

“JPA Agreement” shall mean the Joint Exercise of Powers Agreement for convenience dated as of July 1, 1997, among the Members as it now exists and as it may from time to time be amended by all supplemental agreements entered into pursuant to Section 14 of the JPA Agreement.

“Law” shall mean Chapter 5 of Division 7 of Title 1 of the Government Code of the State (commencing with Section 6500, of the Government Code), and all laws amendatory thereof or supplemental thereto, and the Education Code.

“Member” shall mean the District, the County or the City.

“Parties” shall mean the District, the County and the City.

“Program” shall mean the Criminal Justice Training Program.

2. Purpose of Agreement. The purpose of this Agreement is for the District, County and City to terminate the JPA Agreement and wind up all affairs of the Agency as of the Effective Date.

3. Termination of the Agency and Disposition of Property.

- 3.1 Termination by Mutual and Unanimous Consent. The members of the Commission hereby agree mutually and unanimously to the termination of the Agency pursuant to section 6510 of the Law and sections 4.4 and 5 of the JPA Agreement, to be effective as of the Effective Date.

- 3.2 Filing of Notice of Agreement. The Agency shall, within thirty (30) days after the Effective Date, cause a notice of this termination to be prepared and filed with the office of the Secretary of State, pursuant to section 6503.5 of the Law.
- 3.3 Plan for Winding Up of the Affairs of the Agency. Within thirty (30) days of the Effective Date, the Commission shall adopt a plan for the winding up of the business and affairs of the Agency; the collection of all amounts due to the Agency, the payment and satisfaction or allocation to the Members of all debts, obligations, liabilities, and expenses of the Agency, the payment by the Members of any liabilities in excess of Agency assets, and the disposition and distribution of all surplus money, net assets and property of Agency to the Members in proportion of the contributions of the Members to the Agency as set forth in Section 6 of the JPA Agreement (the "Plan").
- 3.4 Disposition of Property. In accordance with Section 6511 of the Law, after the satisfaction and payment of all liabilities, obligations, debts and expenses of the Agency, the Commission shall distribute all property of the Agency to the Members pursuant to the Plan. The Members agree that Training Center and its furnishings and fixtures provided by the County are owned by the County and are not Agency property, and that furnishings, fixtures, and equipment purchased by the City or the District are the property of the Party that purchased or provided those furnishings, fixtures and/or equipment.
- 3.5 Winding Up of the Affairs of the Agency. Not more than ninety (90) days from the date of adoption of the Plan or by such other date as to which the Members shall agree, the Commission shall complete the winding up of the business and affairs of the Agency asset forth in the Plan.
- 3.6 Surplus Money. After the winding up of the affairs of the Agency, the Commission shall return any surplus money to the Members as set forth in the Plan, as required by Section 6512 of the Law.
- 3.7 Termination of Powers. From and after the Effective Date, the Agency shall continue to exercise the powers conferred upon it herein and in the JPA Agreement only for the purposes of terminating the Agency and winding up the business and affairs of the Agency, and only until it has completed execution of the Plan.

4. Term. This Agreement shall become effective as of the Effective Date and shall continue in full force and effect until the completion and full satisfaction of the duties, covenants, and conditions set forth herein and in the Plan.

5. Liability.

5.1 The provisions of Section 10 of the JPA Agreement shall survive the termination of the JPA Agreement and of this Agreement, and each Member hereby affirms the provisions of that Section.

5.2 The Agency and each Member shall jointly and severally indemnify and hold harmless the Agency, the other Parties, their agents, officers, and employees from and against all claims, damages, losses, judgments, liabilities, expenses and other costs, including litigation costs and attorneys' fees, arising out of or resulting from this Agreement, the JPA Agreement, or acts or omissions of the Agency or that Member whether intentional or negligent. The Agency shall keep any and all policy and policies of insurance acquired pursuant to section 10.1 of the JPA Agreement in effect until one (1) year after execution of the Plan, the winding up of the affairs of the Agency and performance of all duties, obligations, covenants, and conditions related to the winding up of the affairs of the Agency set forth in this Agreement or the Plan have been completed.

6. Breach. If any Member shall default with regard to any covenant contained in this Agreement or the JPA Agreement, such default shall not excuse any of the other Members from fulfilling its obligations under the Agreement and the other Members shall continue to be liable for obligations herein contained. The Members hereby declare that the Agreement is entered into for the benefit of the Parties hereto. Each and all of the remedies given to the Parties hereto or by any law now or hereafter enacted are cumulative and the exercise of any one right or remedy shall not impair the rights of the Parties to any or all other remedies.

7. Severability. Should any part, term or provision of the Agreement be decided by a court of competent jurisdiction to be illegal or in conflict with any law of the State of California, or otherwise be rendered unenforceable or ineffectual, the validity of the remaining parts, terms or provisions hereof shall not be affected thereby.

8. Section Headings. All section headings contained herein are for convenience of reference only and are not intended to define or limit the scope of any provision in this Agreement.

9 State Governing Law. This Agreement shall be construed in accordance with any governed by the laws of the State of California.

10 Counterparts. This Agreement may be executed in counterparts.

IN WITNESS WHEREOF, the parties hereto have caused the Agreement to be executed as of the day and year written below.

## CITY OF MODESTO

### Plan for winding Up of the Affairs of the Criminal Justice Training Agency

Definition: The word "Committee" as used in this plan shall mean the Committee appointed by the City Manager and the Acting County Chief Administrative Officer to look into the financial affairs and winding up of the Ray Simon Criminal Justice Center Joint Powers Agreement following an exchange of correspondence between the City Manager and the Acting County Chief Administrative Officer with respect to those matters. The Committee was composed of City members: Police Chief Roy Wasden, Assistant Police Chief Michael Harden, Captain Dave Funk, Deputy Finance Director Greg Baird, and Lieutenant David Cooperider and County of Stanislaus members: Assistant Sheriff Richard Breshears, Retired Sheriff's Department Business Manager Pat Glatke, Senior Management Consultant Aileen Melson, Deputy Executive Officer Monica Nino-Reid and Auditor-Controller Larry Haugh. This committee is also known as the City/County Criminal Justice Committee.

**Representatives from the Yosemite Community College District were invited to attend and participate in this committee process. This invitation was declined.**

The work of this Committee resulted in a report of approximately February 2, 2004, setting forth the deficiencies in the administration of the Ray Simon Joint Powers Agreement and an equitable resolution of Joint Powers Agreement financial and property issues as set forth in the findings of the Committee which are intended by the Committee to be attached to the winding up plan.

This plan is not the same plan adopted by the Yosemite Community College District and the County of Stanislaus. The plan adopted by these two agencies was prepared prior to the work of the City/County Criminal Justice Committee. This earlier plan does not recognize the formation of the City/County Criminal Justice Committee and the Fiscal Closeout Report, a product of that committee. The initial plan and this City of Modesto plan are intended to comply with Section 3.3 of the Agreement by and Between the Yosemite Community College District, the County of Stanislaus, and the City of Modesto to Terminate Joint of Powers Agreement.

This City of Modesto Plan acknowledges that the Chairperson of the Commission of the Criminal Justice Training Agency and the Yosemite Community College District assert that the original plan was adopted on May 08, 2003. This City of Modesto Plan also asserts that the adoption of the original plan by the Commission of the Criminal Justice Training Agency was in opposition of the position of the City of Modesto and that the actions of the Commission were not in compliance with the original Joint Powers Agreement and was legally incorrect.

This City of Modesto plan recognizes the following findings of the City/County Criminal Justice Committee:

- The Joint Powers Agreement was not reported as a separate public entity.
- The Commission did not adopt annual budgets.
- The audits as prescribed in the Joint Powers Agreement were not conducted.

1. The Criminal Justice Training Agency has collected all known amounts due to the Agency (additionally, the current Director of the Ray Simon Regional Criminal Justice Training Center is aware of no outstanding debts that are yet to be paid by the Criminal Justice Training Agency).
2. The Agency has paid all debts of the Agency of which the Members of the Agency have knowledge as of the date of acceptance of this Plan by the Commission.
3. Any remaining debts or liabilities of the Agency incurred or received by the Agency from a person who is not a party to the Termination Agreement after the adoption of the Plan shall be shared equally among the three Members of the Agency to the extent that they exceed the assets of the Agency at the time of acceptance of the debt for payment by the Agency and each Member shall pay its share directly to the third party creditor (as stated previously, it is the understanding of the City/County Criminal Justice Committee that there are no outstanding debts yet to be paid by the Criminal Justice Training Agency).
4. All furnishings, fixtures and equipment purchased by the County, the City or the District are the property of that Member and shall be disbursed in accordance with the recommendations of the City/County Criminal Justice Committee to the appropriate Member. Property purchased by the Criminal Justice Training Agency shall be disbursed, as agreed upon by the City/County Criminal Justice Committee.
5. The Training Center and its furnishings and fixtures provided by the County and are not Agency property.
6. Any surplus money and remaining assets of the Agency, after payment and satisfaction of any remaining debts, obligations, liabilities, and expenses of the Agency incurred or received by the Agency from a person who is not a Member after the adoption of this Plan, shall be distributed in accordance with the approved findings of the City/County Criminal Justice Committee.
7. The City does not recognize any responsibility to pay any portion of any insurance premiums related to the ongoing operations of the Ray Simon Regional Criminal Justice Training Center, subsequent to July 01, 2003.
8. The City/County Criminal Justice Committee shall complete the winding up of the affairs of the Criminal Justice Training Agency within thirty (30) days of the date of adoption of this City of Modesto Plan by providing to each Member a final balance sheet indicating assets and liabilities of the Agency in accordance with the findings of the City/County Criminal Justice Committee, and a financial statement indicating income and expenses of the Criminal Justice Training Agency to the date of the statement.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-126**

**A RESOLUTION ACCEPTING WITH REGRET THE RESIGNATION OF  
ROBERT TRACHE FROM THE CITIZENS HOUSING & COMMUNITY  
DEVELOPMENT COMMITTEE**

WHEREAS, ROBERT TRACHE was appointed a member of the Citizens Housing & Community Development Committee on July 22, 2003, and

WHEREAS, ROBERT TRACHE has tendered his resignation from the aforementioned committee, and

WHEREAS, ROBERT TRACHE has been a devoted and sincere public servant and has contributed greatly to our civic progress,

NOW, THEREFORE, BE IT RESOLVED that the resignation of ROBERT TRACHE from the Citizens Housing & Community Development Committee hereby is accepted with regret.

BE IT FURTHER RESOLVED that the Council of the City of Modesto, on its own behalf, and on behalf of the citizens of this City, hereby expresses its sincere appreciation to ROBERT TRACHE for his outstanding service to the community.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2<sup>nd</sup> day of March, 2004 by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant  
Mayor Ridenour

NOES: Councilmembers: None

ABSENT: Councilmembers: None

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-127**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO OF INTENTION TO ESTABLISH CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2004-1 (VILLAGE ONE #2) AND AUTHORIZE THE LEVY OF SPECIAL TAXES THEREIN**

WHEREAS, an owner of not less than 10 percent of the area of land proposed to be included within the community facilities district herein described has filed with the City Clerk of this City (the "City") a petition requesting that this Council (the "Council") form a community facilities district pursuant to Chapter 2.5 of Part 1 of Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the "Mello-Roos Community Facilities Act of 1982" (the "Act") in order to:

- (i) finance certain public facilities having a useful life of 5 years or longer (the "Facilities") more particularly described in Exhibit B, including expenses incidental thereto; and
- (ii) finance certain services (the "Services") more particularly described in Exhibit C; and

WHEREAS, upon receipt of the petition, this Council is, pursuant to Section 53320 of the California Government Code, required to adopt a resolution of intention to establish the community facilities district; and

WHEREAS, in the event the community facilities district is established, it is the intention of this Council to: finance the Facilities through the authorization, issuance and sale of bonds to be approved at an election to be held within the boundaries of the district,

- (ii) pay debt service on the bonds through the levy of a special tax therein, and
- (iii) finance the Services through the levy of a special tax therein; and

WHEREAS, this Council has adopted local goals and policies concerning the use of the Act;

NOW, THEREFORE, BE IT RESOLVED, ORDERED, AND FOUND by the City Council of the City of Modesto that:

SECTION 1. The above recitals are true and correct.

SECTION 2. A community facilities district is proposed to be established under the terms of the Act. The name proposed for the community facilities district is “City of Modesto Community Facilities District No. 2004-1” and is referred to in this Resolution as the “District.”

SECTION 3. The boundaries of the District are shown on a map, hereby approved, entitled “Proposed Boundaries of City of Modesto Community Facilities District No. 2004-1 (Village One #2) of the City of Modesto, County of Stanislaus, State of California,” a copy of which is on file in the office of the City Clerk. Pursuant to Sections 3110 and 3111 of the California Streets and Highways Code, the City Clerk shall certify on the original and one copy of the map evidencing the date and adoption of this Resolution, file the original in the City Clerk’s office and, within 15 days after the adoption of this Resolution and in no event later than 15 days prior to the date of the public hearing referred to in Section 8, file a copy of the map with the County Recorder of the County of Stanislaus.

The Council finds that no land proposed to be included in the District is devoted primarily to agricultural, timber, or livestock uses and being used for the commercial production of agricultural, timber or livestock products.

SECTION 4. The Facilities proposed to be provided by the District are public facilities authorized to be acquired or constructed under the Act that have a useful life of five (5) years or longer. The Facilities are governmental facilities which the Council is authorized by law to contribute revenue to, or construct, own or operate; or which a local public agency is authorized by law to provide. The Council further determines that such

Facilities are necessary to meet increased demands placed upon the City and other local agencies as a result of development occurring within the boundaries of the District.

The Facilities are proposed to include any and all incidental expenses related thereto, as authorized by the Act, including the payment in full of all amounts necessary to eliminate any fixed special assessment liens or to pay, repay, or defease any obligation to pay or any indebtedness secured by any tax, fee, charge, or assessment levied within the area of the District or to pay debt service on that indebtedness.

The Services proposed to be provided by the District are in addition to those provided in the District before its creation, since none of the Services have been or will be provided in the District before its creation.

SECTION 5. The Council determines that the public interest will not be served by allowing the owner(s) of property within the proposed District to enter into a contract pursuant to Section 53329.5(a) of the Act.

SECTION 6. (a) It is the intention of the Council that, except where funds are otherwise available to pay for the Facilities to be financed by the District and/or the principal and interest as it becomes due on bonds issued to finance such Facilities, the incidental expenses related thereto, and the Services, special taxes sufficient to pay the costs thereof, secured by recordation of a continuing lien against all nonexempt real property in the District, will be levied annually within the boundaries of the District. The rate, method of apportionment and manner of collection of the proposed special taxes is set forth in Exhibit A. Exhibit A provides sufficient detail to allow each landowner or resident within the District to estimate the maximum amount that such person will have to pay for the Facilities and the Services.

(b) In the case of the special tax to pay for the Facilities that is to be levied against any parcel of land used for private residential purposes (as defined and provided

in the Act), (1) the maximum special tax has been specified as a dollar amount which will be calculated and thereby established not later than the date of which any such parcel of land is first subject to the special tax because of its use for private residential purposes, and which amount will not be increased over time by an amount exceeding two per cent (2%) per year, (2) after Fiscal Year 2060-2061, the special tax will no longer be levied or collected against any such parcel of land, and (3) under no circumstances will the special tax be increased as a consequence of delinquency or default by the owner of any other parcel or parcels of land within the District by more than ten per cent (10%). The special tax to pay for the Facilities may, however, establish different tax rates for different categories of residential property, and may provide for a change in the dollar amount of the special tax for the parcel if the size of the residence is increased or if the size or use of the parcel is changed.

(c) The obligation to pay the special tax to pay for the Facilities may be prepaid and permanently satisfied, and the lien of the special tax to pay for the Facilities discharged pursuant to the procedures set forth in EXHIBIT A.

(d) If the special tax to pay for the Facilities is prepaid and permanently satisfied as to a particular parcel of land, this Council shall cause to be prepared and recorded in the office of the County Recorder of the County of Stanislaus, which shall accept for recordation, a Notice of Cancellation of Special Tax Lien as to that parcel. The Notice of Cancellation of Special Tax Lien shall identify with particularity the special tax to pay for the Facilities which has been prepaid and permanently satisfied, state the book and page number in the records of the County Recorder where the Notice of Special Tax Lien being cancelled is recorded, contain the legal description and assessor's parcel number of the particular parcel of land subject to the lien, and contain the name of the owner of record of the parcel. The County Recorder shall mail the

original Notice of Cancellation of Special Tax Lien to the owner of the property after recording the document. This Council may specify a charge for the preparation and recordation of the Notice.

SECTION 7. Pursuant to Section 53314.9 of the Act, this Council may accept advances of funds or work-in-kind from any source, including, but not limited to, private persons or private entities, and may provide, by resolution, for the use of those funds or that work-in-kind for any authorized purpose, including, but not limited to, paying any cost incurred by the City in creating the District.

SECTION 8. A public hearing on the establishment of the District and the proposed rate, method of apportionment, and manner of collection of the special taxes shall be held at 5:30 p.m., or as soon thereafter as practicable, on Tuesday, April 6, 2004, at the regular meeting place of the City Council, City Council Chambers, Basement Level, 1010 Tenth Street, Modesto, California 95353, such time being not less than 30 or more than 60 days following the adoption hereof.

SECTION 9. The Public Works & Transportation Director, as the officer of the City who will be responsible for providing the proposed Facilities and Services to be financed by the District, if it is established, is directed to study the proposed District, and, at or before the time of the hearing, cause to be prepared and filed with the Council a report containing: (a) a brief description of the Facilities and Services by type which will in such officer's opinion be required to adequately meet the needs of the District; (b) an estimate of: (i) the cost of providing the Facilities and Services; (ii) the fair and reasonable cost of any of the Facilities to be purchased; and (iii) the fair and reasonable cost of incidental expenses to be incurred in connection therewith, including the costs of the proposed bond financing and other related costs as provided in Section 53345.3 of the Act.

The report shall be made a part of the record of the hearing.

SECTION 10. At the time and place set forth in this Resolution for the hearing, any interested persons, including taxpayers, property owners and registered voters residing within the boundaries of the proposed District, may appear and be heard, and the testimony of all interested persons for or against the establishment of the District, the extent of the District, the furnishing of the Facilities and Services, or the proposed rate, method of apportionment and manner of collection of the special taxes will be heard and considered. Any protest may be made orally or in writing. However, any protests pertaining to the regularity or sufficiency of the proceedings shall be in writing and clearly set forth the irregularities and defects to which the objection is made. All written protests shall be filed with the City Clerk on or before the time fixed for the public hearing. Written protests may be withdrawn in writing at any time before the conclusion of the hearing.

SECTION 11. The City Clerk is directed to publish a notice of the hearing, in the form required by the Act, not later than seven (7) days prior thereto, in a newspaper of general circulation published in the area of the District, being *The Modesto Bee*, and otherwise in accordance with Section 6061 of the California Government Code.

SECTION 12. (a) If fifty percent (50%) or more of the registered voters, or six (6) registered voters, whichever is more, residing within the territory proposed to be included in the District, or the owners of one-half (1/2) or more of the area of the land in the territory proposed to be included in the District and not exempt from the special taxes, file written protests against the establishment of the District, and the protests are not withdrawn so as to reduce the value of the protests to less than a majority, no further proceedings to create the District or to levy the special taxes will be taken for a period of one year from the date of the decision of the Council.

(b) If the majority protests of the registered voters or the landowners are only against the furnishing of a specified type or types of the Facilities or Services within the District, or against levying a specified special tax, those types of Facilities or Services or the specified special tax will be eliminated from the District proceedings.

(c) At the conclusion of the hearing, if the Council determines to establish the District, it will adopt a resolution of formation and then submit the levy of the special taxes to the qualified electors of the District in a special election.

SECTION 13. (a) If, after the hearing, the Council adopts a resolution of formation establishing the District and submits the levy of the special taxes to the qualified electors of the District in a special election, such election will be held at least ninety (90) days, but not more than one hundred eighty (180) days following the adoption of the resolution of formation. The City Clerk shall, within three business days after the adoption of the resolution of formation, provide a copy of the resolution of formation, a certified map of sufficient scale and clarity to show the boundaries of the District, and a sufficient description to allow the election official to determine the boundaries of the District, to the official conducting the election. Assessor's parcel numbers for the land within the District shall be included if it is a landowner election or the District does not conform to an existing district's boundaries and if requested by the official conducting the election.

(b) If the election is to be held less than one hundred twenty-five (125) days after the adoption of the resolution of formation, the concurrence of the election official conducting the election shall be required.

(c) Such time limits, or requirement pertaining to the conduct of the election, may be waived with the unanimous consent of the qualified electors of the District and the concurrence of the election official conducting the election.

(d) The special election on (i) the proposition of the District incurring a bonded indebtedness in an amount not to exceed \$75,000,000, (ii) the proposition with respect to the levy of special taxes on the land within the District, and (iii) the proposition with respect to the establishment of an appropriations limit for the District in the amount of \$75,000,000, per fiscal year, if the District is established, will be consolidated.

(e) If at least twelve (12) persons, who need not necessarily be the same twelve (12) persons, have been registered to vote within the territory of the proposed District for each of the ninety (90) days preceding the close of the hearing, the vote will be by the registered voters of the proposed District, with each voter having one vote. Otherwise, the vote will be by the landowners of the proposed District and each landowner who is the owner of record at the close of the hearing, or the authorized representative thereof, will have one (1) vote for each acre or portion of an acre of land that such landowner owns within the proposed District. The number of votes to be voted by a particular landowner will be specified on the ballot provided to that landowner.

(f) Ballots for the special election authorized may be distributed to qualified electors by mail with return postage prepaid or by personal service by the election official. The official conducting the election may certify the proper mailing or personal delivery of ballots by an affidavit, which shall constitute conclusive proof of such mailing or personal delivery in the absence of fraud. The voted ballots shall be returned to the election officer conducting the election not later than the hour specified in the resolution calling the election. However, if all the qualified voters have voted, the election shall be closed.

(g) Except as otherwise provided in the Act, the provisions of law regulating elections of the City, insofar as they may be applicable, will govern the election. Except as provided in the next sentence, there will be prepared and included in the ballot material

provided to each voter an impartial analysis and arguments and rebuttals, if any, as provided in the California Elections Code. If the vote is to be by the landowners of the proposed District, analysis and arguments may be waived with the unanimous consent of all the landowners.

If the election is to be conducted by mail ballot, the election official conducting the election shall provide ballots and election materials, together with all supplies and instructions necessary for the use and return of the ballot. The identification envelope for return of mail ballots used in a landowner election shall contain the following: (1) the name of the landowner; (2) the address of the landowner; (3) a declaration, under penalty of perjury, stating that the voter is the owner of record or the authorized representative of the landowner entitled to vote and is the person whose name appears on the identification envelope; (4) the printed name and signature of the voter; (5) the address of the voter; (6) the date of signing and the place of execution of the declaration described in (3) above; and (7) a notice that the envelope contains an official ballot and will be opened only by the canvassing board.

(h) The procedures set forth in this Section for conducting the consolidated special election may be modified as the Council may determine to be necessary or desirable by a resolution subsequently adopted by the Council.

SECTION 14. This Council may, by ordinance, authorize contributions by the City from any sources of revenue not otherwise prohibited by law, of any specified amount, portion or percentage of such revenue for any of the following: (1) acquiring or constructing any of the Facilities; (2) the acquisition of interests in real property; (3) paying debt service with respect to the financing of any such acquisition or construction; (4) providing the authorized Services; and (5) the payment of expenses incidental to any of the foregoing.

SECTION 15. This Council reserves to itself the right and authority to allow any interested owner of property within the District, subject to the provisions of Section 53344.1 of the Act and to those conditions it may impose, and any applicable prepayment penalties as described in the bond indenture or comparable instrument or document, to tender in full payment or part payment of any installment of the special tax levied to pay for the Facilities or the interest or penalties thereon which may be due or delinquent, but for which a bill has been received, any bond or other obligation secured thereby, the bond or other obligation to be taken at par and credit to be given for the accrued interest shown thereby computed to the date of tender.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2<sup>nd</sup> day of March, 2004 by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant  
Mayor Ridenour

# Exhibit "A"

## **Rate and Method of Apportionment**

**CITY OF MODESTO  
COMMUNITY FACILITIES DISTRICT NO. 2004-1  
(VILLAGE ONE #2)**

**RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX**

---

Special Taxes applicable to each Assessor's Parcel in Community Facilities District No. 2004-1 (Village One #2) [herein "CFD No. 2004-1" or "the CFD"] shall be levied and collected according to the tax liability determined by the City Council of the City of Modesto, through the application of the appropriate amount or rate for Taxable Property, as described below. All of the property in CFD No. 2004-1, unless exempted by law or by the provisions of Section G below, shall be taxed for the purposes, to the extent, and in the manner herein provided, including property subsequently annexed to CFD No. 2004-1 unless a separate Rate and Method of Apportionment is adopted for the annexation area.

**A. DEFINITIONS**

The terms hereinafter set forth have the following meanings:

**"Acre" or "Acreage"** means the land area of an Assessor's Parcel as shown on an Assessor's Parcel Map, or if the land area is not shown on an Assessor's Parcel Map, the land area shown on the applicable Final Map or other Development Plan.

**"Act"** means the Mello-Roos Community Facilities Act of 1982, as amended, being Chapter 2.5, (commencing with Section 53311), Division 2 of Title 5 of the California Government Code.

**"Administrative Expenses"** means any or all of the following: the fees and expenses of any fiscal agent or trustee (including any fees or expenses of its counsel) employed in connection with any Bonds, and the expenses of the City carrying out its duties with respect to CFD No. 2004-1 and the Bonds, including, but not limited to, levying and collecting the Special Taxes, the fees and expenses of legal counsel, charges levied by the County Auditor's Office, Tax Collector's Office, and/or Treasurer's Office, costs related to annexing property into the CFD, costs related to property owner inquiries regarding the Special Taxes, costs associated with complying with any continuing disclosure requirements for the Bonds and the Special Taxes, and all other costs and expenses of the City in any way related to the establishment or administration of the CFD.

**"Administrator"** means the person or firm designated by the City to administer the Special Taxes according to this Rate and Method of Apportionment of Special Tax.

**“Annual Facilities Special Tax”** means a special tax levied in any Fiscal Year to pay the Annual Facilities Special Tax Requirement, as defined below.

**“Annual Facilities Special Tax Requirement”** means the amount necessary in any Fiscal Year (i) to pay principal and interest, including scheduled sinking fund payments, on Bonds, (ii) pay administrative expenses of CFD No. 2004-1 that have not been included in the Annual Maintenance Special Tax Requirement for the Fiscal Year, (iii) to create or replenish reserve funds, (iv) to cure any delinquencies in the payment of principal or interest on indebtedness of CFD No. 2004-1 which have occurred in the prior Fiscal Year or (based on delinquencies in the payment of the Annual Facilities Special Taxes which have already taken place) are expected to occur in the Fiscal Year in which the tax will be collected, and (v) to construct or acquire Authorized Facilities. The amounts referred to in clauses (i) and (iii) of the preceding sentence may be reduced in any Fiscal Year by: (i) interest earnings on or surplus balances in funds and accounts for the Bonds to the extent that such earnings or balances are available to apply against debt service pursuant to a Bond indenture, Bond resolution, or other legal document that sets forth these terms; (ii) proceeds received by CFD No. 2004-1 from the collection of penalties associated with delinquent Annual Facilities Special Taxes; and (iii) any other revenues available to pay debt service on the Bonds as determined by the Administrator.

**“Annual Maintenance Special Tax”** means a special tax levied in any Fiscal Year to pay the Maintenance Special Tax Requirement, as defined below.

**“Annual Maintenance Special Tax Requirement”** means that amount necessary in any Fiscal Year to (i) pay for Authorized Services, (ii) pay administrative expenses of CFD No. 2004-1 that have not been included in the Annual Facilities Special Tax Requirement for the Fiscal Year, and (iii) cure any delinquencies in the payment of Annual Maintenance Special Taxes levied in prior Fiscal Years or (based on delinquencies in the payment of Annual Maintenance Special Taxes which have already taken place) are expected to occur in the current Fiscal Year.

**“Assessor’s Parcel”** or **“Parcel”** means a lot or parcel shown on an Assessor’s Parcel Map with an assigned Assessor’s Parcel number.

**“Assessor’s Parcel Map”** means an official map of the County Assessor designating parcels by Assessor’s Parcel number.

**“Authorized Facilities”** means those facilities that are authorized to be funded by CFD No. 2004-1.

**“Authorized Services”** means those services that are authorized to be funded by CFD No. 2004-1.

**“Bonds”** means bonds or other debt (as defined in the Act), whether in one or more series, issued, insured or assumed by CFD No. 2004-1 related to Authorized Facilities.

**“Capitalized Interest”** means funds in any capitalized interest account available to pay debt service on Bonds.

**“CFD Formation”** means the date on which the Resolution of Formation to form CFD No. 2004-1 was adopted by the City Council.

**“City”** means the City of Modesto.

**“City Council”** means the City Council of the City of Modesto, acting as the legislative body of CFD No. 2004-1.

**“Commercial Property”** means all Parcels in CFD No. 2004-1 for which building permits have been or may be issued for construction of a commercial building based on reference to the Village One Specific Plan and/or the Parcel’s zoning designation.

**“County”** means the County of Stanislaus.

**“Developed Property”** means, in any Fiscal Year, the following:

*For purposes of levying the Annual Maintenance Special Tax, “Developed Property” means:*

- for Low Density Residential Property and Village Residential Property, all Parcels for which a Final Map was recorded prior to June 30 of the preceding Fiscal Year but not prior to June 30, 2002,
- for Multi-Family Property, all Parcels for which a building permit for new construction of a residential structure was issued prior to June 30 of the preceding Fiscal Year, and
- for Commercial Property and Industrial Property, all Parcels for which a building permit for construction, reconstruction or expansion of a building structure was issued prior to June 30 of the preceding Fiscal Year. Notwithstanding the foregoing, Parcels of Commercial Property or Industrial Property on which a vacant building is located that cannot be occupied without demolition or reconstruction of the building shall not be categorized as Developed Property until a permit is issued for construction of a new building or reconstruction of the existing building.

*For purposes of levying the Annual Facilities Special Tax, “Developed Property” means:*

- for Low Density Residential Property and Village Residential Property, all Parcels for which a building permit for construction, or reconstruction of a unit was issued prior to June 30 of the preceding Fiscal Year but not prior to June 30, 2002,
- for Multi-Family Attached Property, all Parcels for which a building permit for new construction of a residential structure was issued prior to June 30 of the preceding Fiscal Year, and

- for Commercial Property and Industrial Property, all Parcels for which a building permit for construction, reconstruction or expansion of a building structure was issued prior to June 30 of the preceding Fiscal Year. Notwithstanding the foregoing, Parcels of Commercial Property or Industrial Property on which a vacant building is located that cannot be occupied without demolition or reconstruction of the building shall not be categorized as Developed Property until a permit is issued for construction of a new building or reconstruction of the existing building.

**“Expected Land Uses”** means the Net Taxable Acreage of each Land Use Class expected on an Original Parcel in CFD No. 2004-1 based on reference to the Expected Land Use Map. The Expected Land Uses for each Original Parcel in the CFD at the time of CFD Formation, and the corresponding Maximum Special Tax for each Parcel, are reflected in Attachment 2, which will be updated with each annexation of property into CFD No. 2004-1.

**“Expected Land Use Map”** means the map entitled “Village One Zoning of Unvested Properties” which is on file with the CFD Administrator at the City and the City Clerk and which identifies the Expected Land Uses on all Parcels within the Village One Specific Plan that either (i) are in CFD No. 2004-1 at CFD Formation, or (ii) may be annexed into the CFD in future Fiscal Years. The Expected Land Use Map may be updated in future years to add property within the Village One Specific Plan that was vested to develop when the map was prepared and, therefore, was not included in the map but subsequently has its vesting expire or for any other reason becomes subject to a condition of development that requires formation of, or annexation into, a CFD.

**“Final Map”** means a final map, or portion thereof, approved by the City pursuant to the Subdivision Map Act (California Government Code Section 66410 *et seq.*) that creates lots which do not need to be further subdivided prior to issuance of a building permit for a residential or non-residential structure. The term “Final Map” shall not include any Assessor’s Parcel Map or subdivision map or portion thereof, that does not create lots that are in their final configuration, including Assessor’s Parcels that are designated as remainder parcels.

**“Fiscal Year”** means the period starting July 1 and ending on the following June 30.

**“Improvement Area”** means a geographic area that, upon annexation into CFD No. 2004-1, is identified as an improvement area as defined in the Act instead of a Tax Zone, as defined below. Special Taxes collected within an Improvement Area will be the sole security for Bonds issued for that Improvement Area.

**“Industrial Property”** means all Parcels in CFD No. 2004-1 for which building permits have been or may be issued for construction of an industrial building based on reference to the Village One Specific Plan and/or the Parcel’s zoning designation.

**“Land Use Class”** means one of the five mutually-exclusive land use classes identified in Table 1 in Section C below and defined in this Section A. The City shall, in its sole discretion, determine the appropriate Land Use Class for Parcels on which a structure was built prior to CFD Formation.

**“Low Density Residential Property”** means all Parcels in CFD No. 2004-1 for which a building permit has been or may be issued for construction of a residential unit on a Parcel with a maximum density of two or less dwelling units per gross acre based on reference to the Village One Specific Plan and/or the Parcel’s zoning designation.

**“Maximum Annual Facilities Special Tax”** means the greatest amount of Annual Facilities Special Tax that can be levied on an Assessor’s Parcel in any Fiscal Year determined in accordance with Sections C and D below.

**“Maximum Annual Maintenance Special Tax”** means the greatest amount of Annual Maintenance Special Tax that can be levied on an Assessor’s Parcel in any Fiscal Year determined in accordance with Sections C and D below.

**“Maximum One-Time Facilities Special Tax”** means the greatest amount of One-Time Facilities Special Tax that can be levied on an Assessor’s Parcel in any Fiscal Year determined in accordance with Sections C and D below.

**“Maximum Special Taxes”** means, collectively, the Maximum One-Time Facilities Special Tax, Maximum Annual Facilities Special Tax, and Maximum Annual Maintenance Special Tax.

**“Multi-Family Property”** means all Parcels in CFD No. 2004-1 for which building permits have been or may be issued for construction of a residential structure consisting of two or more residential units that share common walls, including but not limited to, townhomes, condominiums, duplexes, triplexes, fourplexes, and apartment units. If a building permit has not yet been issued on the Parcel, the Administrator shall reference the Village One Specific Plan and/or the Parcel’s zoning designation to determine whether the Parcel is Multi-Family Property.

**“Net Taxable Acreage”** or **“Net Taxable Acre”** means the total acreage within a Final Map or Parcel less arterial road right-of-ways and property that is defined in the Final Map for use as a park site, school site, or City-owned or CFD-owned storm drainage basin. If a Subdivision Map is recorded which is not a Final Map for some or all Parcels created by the subdivision, the Administrator shall calculate the Net Taxable Acreage of such unsubdivided Parcels by identifying the Acreage of the Parcel and (i) adding a portion of the acreage of any non-arterial right-of-way that fronts the Parcel determined by drawing lines at right angles to the right-of-way, and (ii) subtracting a portion of the acreage of any arterial right-of-way that fronts the Parcel determined by drawing lines at right angles to the right-of-way. The Net Taxable Acreage of a Parcel or Final Map shall be determined in the sole discretion of the City.

**“One-Time Facilities Special Tax”** means a Special Tax, levied and collected in full by the City prior to a structural building permit being issued for new construction on Taxable Property.

**“Original Parcel”** means an Assessor’s Parcel in CFD No. 2004-1 at the time of CFD Formation or added to the CFD upon annexation, as identified in Attachment 2 (which shall be updated after each annexation). A Successor Parcel that is being further subdivided shall also be considered an Original Parcel for purposes of determining the Maximum Special Taxes pursuant to Section C below.

**“Per-Acre Special Taxes”** means the per-acre Special Taxes identified in Table 1 in Section C below.

**“Proportionately”** means, for Developed Property, that the ratio of the actual Annual Facilities Special Tax and Annual Maintenance Special Tax levied in any Fiscal Year to the Maximum Annual Facilities Special Tax and Maximum Annual Maintenance Special Tax authorized to be levied in that Fiscal Year is equal for all Assessor’s Parcels of Developed Property, respectively. In addition, for Undeveloped Property, “Proportionately” means that the ratio of the actual Annual Facilities Special Tax and actual Annual Maintenance Facilities Special Tax to the Maximum Annual Facilities Special Tax and Maximum Annual Maintenance Special Tax is equal for all Assessor’s Parcels of Undeveloped Property, respectively.

**“Public Property”** means any property within the boundaries of CFD No. 2004-1 that is owned by the federal government, State of California, County, City, or other public agency.

**“Single Family Detached Lot”** means an individual numbered lot, which is in its final configuration and for which a building permit may be issued for a single family detached unit.

**“Special Taxes”** means, collectively, the One-Time Facilities Special Tax, the Annual Facilities Special Tax, and the Annual Maintenance Special Tax.

**“Special Tax Category”** means, individually, the One-Time Facilities Special Tax, the Annual Facilities Special Tax, and the Annual Maintenance Special Tax.

**“Subdivision Map”** means a Final Map, large lot subdivision map, or other map recorded with the County that results in the subdivision of an Original Parcel into two or more Successor Parcels.

**“Successor Parcel”** means an Assessor’s Parcel of Taxable Property created by the subdivision or reconfiguration of an Original Parcel on which construction of a residential or non-residential structure is permitted.

**“Taxable Property”** means all of the Assessor’s Parcels within the boundaries of CFD No. 2004-1 which are not exempt from the Special Tax pursuant to law or Section G below.

**“Taxable Public Property”** means, in any Fiscal Year, all Parcels of Public Property within CFD No. 2004-1 that, (i) based on the Village One Specific Plan, were expected to be Taxable Property and, (ii) based on this expectation, Maximum Special Taxes were assigned to the Parcels in a prior Fiscal Year.

**“Tax Zone”** means a mutually exclusive geographic area within which particular Special Tax rates may be levied pursuant to this Rate and Method of Apportionment of Special Tax. Attachment 1 identifies the Tax Zone in CFD No. 2004-1 at CFD Formation; additional Tax Zones may be created when property is annexed into the CFD. Alternatively, additional Original Parcels may be added to a Tax Zone with assigned Maximum Special Taxes based on the Expected Land Uses on each Original Parcel.

**“Tax Zone #1”** means the geographic area that is designated in Attachment 1 of this Rate and Method of Apportionment of Special Tax as Tax Zone #1. Tax Zone #1 may be expanded to include additional Original Parcels that annex to CFD No. 2004-1; Attachments 1 and 2 will be updated each time such an annexation takes place.

**“Undeveloped Property”** means, in any Fiscal Year, all Parcels of Taxable Property within CFD No. 2004-1 that are not Developed Property or, in the discretion of the City, any portion of a Parcel of Developed Property on which an additional structure will be constructed pursuant to issuance on an additional building permit.

**“Village One Specific Plan”** means the specific plan for development within the Village One project in the City of Modesto adopted by the City Council on April 1, 2003, as amended from time to time.

**“Village Residential Property”** means, in any Fiscal Year, all Parcels in CFD No. 2004-1 for which a building permit has been or may be issued for construction of a residential unit on a Parcel with a maximum density greater than two dwelling units per gross acre based on reference to the Village One Specific Plan and/or the Parcel’s zoning designation.

## **B. DATA FOR ANNUAL ADMINISTRATION**

On or about July 1 of each Fiscal Year, the Administrator shall identify the current Assessor’s Parcel numbers for all Parcels of Taxable Property in CFD No. 2004-1. The Administrator shall also determine: (i) the Tax Zone within which each Parcel of Taxable Property is located, (ii) whether each Assessor’s Parcel of Taxable Property is Developed Property or Undeveloped Property, (iii) which Parcels are Commercial Property, Industrial Property, Multi-Family Property, Low Density Residential Property, and Village Residential Property (the City shall, in its sole discretion, determine the appropriate Land Use Class for Parcels on which a structure was built prior to CFD Formation), (iv) the Net Taxable Acreage of each Parcel, and (v) the Annual Facilities Special Tax Requirement and the Annual Maintenance Special Tax Requirement.

If, in any Fiscal Year, an Assessor’s Parcel includes both Developed Property and Undeveloped Property, the Administrator shall determine the Net Taxable Acreage of Developed Property, subtract this Net Taxable Acreage from the total Net Taxable Acreage of the Assessor’s Parcel, and use the remaining Net Taxable Acreage to calculate the Special Taxes that will apply to Undeveloped

Property within the Assessor's Parcel. The Special Taxes shall then be calculated for the Developed Property on the Parcel, and the total Special Taxes levied on the Assessor's Parcel shall be the sum of the Special Taxes determined separately for the Undeveloped Property and Developed Property on the Parcel.

**C. CALCULATING MAXIMUM SPECIAL TAXES**

The Administrator shall use the procedures set forth below to calculate the Maximum Special Taxes for each Parcel in CFD No. 2004-1 in each Fiscal Year, including the Maximum One-Time Facilities Special Tax, Maximum Annual Facilities Special Tax, and Maximum Annual Maintenance Special Tax. A separate method of calculating the Maximum Special Taxes may be identified for Tax Zones or Improvement Areas added to CFD No. 2004-1 as a result of future annexations. The Per-Acre Special Taxes set forth in Table 1 below shall be used for purposes of Sections C.1 and C.2 below:

**Table 1  
Per-Acre Special Taxes  
Fiscal Year 2004-05 \***

<b>Land Use Class</b>	<b>Per-Acre Special Tax: One-Time Facilities Special Tax</b>	<b>Per-Acre Special Tax: Annual Facilities Special Tax</b>	<b>Per-Acre Special Tax: Annual Maintenance Special Tax</b>
Low Density Residential Property	\$13,342 per Net Taxable Acre	\$3,517 per Net Taxable Acre	\$525 per Net Taxable Acre
Village Residential Property	\$30,281 per Net Taxable Acre	\$6,405 per Net Taxable Acre	\$1,233 per Net Taxable Acre
Multi-Family Property	\$101,437 per Net Taxable Acre	\$7,222 per Net Taxable Acre	\$4,020 per Net Taxable Acre
Commercial Property	\$52,102 per Net Taxable Acre	\$3,570 per Net Taxable Acre	\$920 per Net Taxable Acre
Industrial Property	\$13,103 per Net Taxable Acre	\$2,550 per Net Taxable Acre	\$920 per Net Taxable Acre

*\* All Per-Acre Special Taxes shown in Table 1 are subject to the annual adjustments described in Section D below.*

**1. Original Parcels**

The Maximum Special Taxes for each Land Use Class in the Original Parcel in CFD No. 2004-1 as of CFD Formation is identified in Attachment 2. Attachment 2 will be updated by the Administrator as needed to reflect Original Parcels added to the CFD due to annexations. Until an Original Parcel is subdivided, the Maximum Special Taxes shown in Attachment 2

(escalated as set forth herein) shall be the Maximum Special Taxes for the Parcel unless the zoning on the Original Parcel changes to a Land Use Class that has higher Per-Acre Special Taxes, as shown in Table 1 above. Upon approval of such change in zoning by the City Council, the Administrator shall multiply the applicable Per-Acre Special Taxes by the Net Taxable Acreage of each Land Use Class that is expected on the Parcel based on the rezone. The Administrator shall then update Attachment 2 to reflect the higher Maximum Special Taxes for the Parcel. If a rezone results in a Land Use Class that has a lower Per-Acre Special Tax than the previous Expected Land Uses, there shall be no corresponding reduction in the Maximum Special Taxes for the Parcel. The potential reduction in Maximum Special Tax revenues must be considered separately for each Special Tax Category. If the rezone would cause a reduction in the Maximum Special Tax revenues in any Special Tax Category, the Maximum Special Tax identified for that Special Tax Category shall remain the same as originally assigned to the Original Parcel.

**2. Successor Parcels**

**a. *All Successor Parcels are Single Family Detached Lots***

If the Parcels created by a recorded Subdivision Map are all Single Family Detached Lots, the Administrator shall apply the following steps to allocate the Maximum Special Taxes for the Original Parcel to each of the Successor Parcels created by the subdivision:

**Step 1:** Determine the greater of (i) the Maximum Special Taxes assigned to each Expected Land Use for the Original Parcel, or (ii) the Net Taxable Acreage of Low Density Residential Property and/or Village Residential Property within the Subdivision Map multiplied by the Per-Acre Special Taxes for such Land Use Classes from Table 1 above. If the Subdivision Map includes both Low Density Residential Property and Village Residential Property, separately calculate the amount that applies to each Land Use Class.

**Step 2:** Separately for any Low Density Residential Property and Village Residential Property created by the Subdivision Map, divide the Maximum Special Taxes from Step 1 by the number of Successor Parcels to determine the Maximum Special Taxes for each Single Family Detached Lot.

**b. *No Successor Parcels are Single Family Detached Lots***

If none of the Successor Parcels created by recordation of a Subdivision Map are Single Family Detached Lots, the Administrator shall apply the following steps to allocate the Maximum Special Taxes assigned to the Original Parcel to each of the Successor Parcels:

- Step 1:** Identify the Expected Land Uses for the Original Parcel.
- Step 2:** Determine the Net Taxable Acreage within each Land Use Class created by the Subdivision Map.
- Step 3:** If the Net Taxable Acreage of each Land Use Class from Step 2 is the same as the Expected Land Uses, the Maximum Special Taxes assigned to each of the Expected Land Uses on the Original Parcel shall be allocated to the Successor Parcels based on the Acreage of each Land Use Class that occurs on each Successor Parcel.
- Step 4:** If the Net Taxable Acreage within each Land Use Class from Step 2 is different than the Expected Land Uses for the Original Parcel, the Administrator shall apply the following steps separately for each Special Tax Category:

**Step 4a.** Multiply the applicable Per-Acre Special Tax by the Net Taxable Acreage of each Land Use Class created by the Subdivision Map.

**Step 4b.** If the amount calculated in Step 4a is *greater than* the Maximum Special Tax assigned to the Original Parcel, multiply the Net Taxable Acreage of each Land Use Class on each Successor Parcel by the applicable Per-Acre Special Tax from Table 1 above to determine the Maximum Special Tax for each Successor Parcel.

**Step 4c.** If the amount calculated in Step 4a is *less than* the Maximum Special Tax assigned to the Original Parcel: (i) identify the Maximum Special Tax that was assigned to each of the Expected Land Uses on the Parcel, (ii) divide the Maximum Special Tax for each Land Use Class by the Net Taxable Acreage of each Land Use Class actually created by the Subdivision Map, and (iii) multiply the per-acre Maximum Special Tax calculated in (ii) by the Net Taxable Acreage of each Land Use Class on each Successor Parcel to determine the Maximum Special Tax for each Parcel.

If the Land Use Classes on a Successor Parcel or Parcels are different than the Expected Land Uses for that Parcel(s) and such difference would result in a reduction in the Maximum Special Tax assigned to the Original Parcel for any Special Tax Category, the Maximum Special Tax assigned to the

Original Parcel shall either be distributed equally on a per-acre basis to the Successor Parcels or, if multiple Land Use Classes are created by the Subdivision Map, the Maximum Special Tax from the Original Parcel shall be distributed to each Land Use Class so that the per-acre tax for each Land Use Class has the same proportional relationship as the Per-Acre Special Taxes in Table 1 above.

*If, after subdivision of an Original Parcel, a Successor Parcel is further subdivided, the Successor Parcel shall be treated as an Original Parcel for purposes of allocating Maximum Special Taxes pursuant to Section C.2a, C.2b, or C.2c, as appropriate.*

**c. *Some, But Not All, Successor Parcels are Single Family Detached Lots***

If a Subdivision Map divides an Original Parcel into Successor Parcels, of which some are Single Family Detached Lots and some are not, the Administrator shall (i) break out the Net Taxable Acreage of Low Density Residential Property and/or Village Residential Property separately from the Net Taxable Acreage of other Land Use Classes, (ii) for the Low Density Residential Property and/or Village Residential Property created by the Subdivision Map, apply the steps in Section C.2a to determine the Maximum Special Taxes for each Single Family Detached Lot, and (iii) apply the steps in Section C.2b above to determine the Maximum Special Taxes for Land Use Classes other than Low Density Residential Property and Village Residential Property.

*If, after subdivision of an Original Parcel, a Successor Parcel is further subdivided, the Successor Parcel shall be treated as an Original Parcel for purposes of allocating Maximum Special Taxes pursuant to Section C.2a, C.2b, or C.2c, as appropriate.*

**After each reallocation of the Maximum Special Taxes upon subdivision or reconfiguration of Original Parcels, the sum of the Maximum Special Taxes assigned to Successor Parcels shall never be less, but may be more, than the Maximum Special Taxes assigned to the Original Parcels prior to such reallocation.**

**D. ESCALATION OF MAXIMUM SPECIAL TAXES**

**1. One-Time Facilities Special Tax**

Beginning in January 2005 and each January thereafter, the Maximum One-Time Facilities Special Tax assigned to each Parcel and the Per-Acre Special Tax shown in Table 1 above shall be adjusted annually by the greater of (i) the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or (ii) four

percent (4.0%). Each annual adjustment of the One-Time Facilities Special Tax shall become effective on the subsequent July 1.

## **2. Annual Facilities Special Tax**

Beginning in Fiscal Year 2005-06, and each Fiscal Year thereafter, the Maximum Annual Facilities Special Tax assigned to each Parcel and the Per-Acre Special Tax shown in Table 1 above shall be increased by two percent (2%) of the amount in effect in the prior Fiscal Year.

## **3. Annual Maintenance Special Tax**

Beginning in January 2005 and each January thereafter, the Maximum Annual Maintenance Special Tax assigned to each Parcel and the Per-Acre Special Tax shown in Table 1 above shall be adjusted annually by the greater of (i) the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or (ii) four percent (4.0%). Each annual adjustment of the Maximum Annual Maintenance Special Tax shall become effective on the subsequent July 1.

# **E. METHOD OF LEVY OF THE SPECIAL TAX**

## **1. One-Time Facilities Special Tax**

The Maximum One-Time Facilities Special Tax determined pursuant to Sections C and D above shall be levied on all Taxable Property in CFD No. 2004-1 and shall be collected as set forth in Section F below.

## **2. Annual Facilities Special Tax**

Commencing with Fiscal Year 2004-05 and for each following Fiscal Year, the Administrator shall determine the Annual Facilities Special Tax Requirement for the Fiscal Year. The Annual Facilities Special Tax shall then be levied on all Parcels of Taxable Property in CFD No. 2004-1 as follows:

**Step 1:** The Annual Facilities Special Tax shall be levied Proportionately on each Parcel of Developed Property within the CFD up to 100% of the Maximum Annual Facilities Special Tax for each Parcel for such Fiscal Year;

**Step 2:** If additional revenue is needed after Step 1, and after applying Capitalized Interest to the Annual Facilities Special Tax Requirement, the Annual Facilities Special Tax shall be levied Proportionately on each Assessor's Parcel of Undeveloped Property within the CFD, up to 100% of the

Maximum Annual Facilities Special Tax for each Parcel of Undeveloped Property for such Fiscal Year;

**Step 3:** If additional revenue is needed after applying the first two steps, the Annual Facilities Special Tax shall be levied Proportionately on each Assessor's Parcel of Taxable Public Property, up to 100% of the Maximum Annual Facilities Special Tax assigned to each Parcel of Taxable Public Property.

### **3. Annual Maintenance Special Tax**

Commencing with Fiscal Year 2004-05 and for each following Fiscal Year, the Administrator shall determine the Maintenance Special Tax Requirement for the Fiscal Year. The Annual Maintenance Special Tax shall then be levied on all Parcels of Taxable Property as follows:

**Step 1:** The Annual Maintenance Special Tax shall be levied Proportionately on each Parcel of Developed Property within the CFD up to 100% of the Maximum Annual Maintenance Special Tax for each Parcel for such Fiscal Year;

**Step 2:** If additional revenue is needed after Step 1, the Annual Maintenance Special Tax shall be levied Proportionately on each Assessor's Parcel of Undeveloped Property within the CFD, up to 100% of the Maximum Annual Maintenance Special Tax for each Parcel of Undeveloped Property for such Fiscal Year;

**Step 3:** If additional revenue is needed after applying the first two steps, the Annual Maintenance Special Tax shall be levied Proportionately on each Assessor's Parcel of Taxable Public Property, up to 100% of the Maximum Annual Maintenance Special Tax assigned to each Parcel of Taxable Public Property.

## **F. COLLECTION OF SPECIAL TAX**

The Maximum One-Time Facilities Special Tax shall be collected prior to a building permit being issued for new construction of any residential or non-residential structure on Taxable Property within CFD No. 2004-1, and shall be immediately delinquent if not so paid.

The Annual Facilities Special Tax and Annual Maintenance Special Tax for CFD No. 2004-1 shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided, however, that prepayments are permitted as set forth in Section H below and provided further that the City may directly bill, collect at a different time or in a different manner, and/or collect delinquent Annual Facilities Special Taxes and Annual Maintenance Special Taxes through foreclosure or other available methods.

The Annual Facilities Special Tax shall be levied and collected until principal and interest on Bonds have been repaid, costs of constructing or acquiring Authorized Facilities from Annual Facilities Special Tax proceeds have been paid, and all Administrative Expenses have been reimbursed. However, in no event shall an Annual Facilities Special Tax be levied after Fiscal Year 2060-61. The Annual Maintenance Special Tax will continue to be levied and collected unless and until the City determines that the Annual Maintenance Special Tax no longer needs to be levied to pay Authorized Services of the CFD and all Administrative Expenses have been reimbursed. Under no circumstances may the Special Taxes on one Parcel in the CFD be increased by more than ten percent (10%) as a consequence of delinquency or default in payment of the Special Taxes levied on another Parcel or Parcels in the CFD.

#### **G. EXEMPTIONS**

Notwithstanding any other provision of this Rate and Method of Apportionment of Special Tax, no Special Taxes shall be levied on Public Property, except Taxable Public Property, as defined herein.

#### **H. PREPAYMENT OF SPECIAL TAX**

The following definitions apply to this Section H:

**“Outstanding Bonds”** means all Previously Issued Bonds which remain outstanding, with the following exception: if an Annual Facilities Special Tax has been levied against, or already paid by, an Assessor’s Parcel making a prepayment, and a portion of the Annual Facilities Special Tax will be used to pay a portion of the next principal payment on the Bonds that remain outstanding (as determined by the Administrator), that next principal payment shall be subtracted from the total Bond principal that remains outstanding, and the difference shall be used as the amount of Outstanding Bonds for purposes of this prepayment formula.

**“Previously Issued Bonds”** means all Bonds that have been issued on behalf of the CFD prior to the date of prepayment.

**“Public Facilities Requirements”** means either \$1,327,000 in 2004 dollars, which shall increase on January 1, 2005, and on each January 1 thereafter by the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or such other number as shall be determined by the City as sufficient to fund Authorized Facilities. The Public Facilities Requirements shown above shall be adjusted or a separate Public Facilities Requirements identified each time property annexes into CFD No. 2004-1; at no time shall the added Public Facilities Requirement for the annexation area exceed the amount of public

improvement costs that are expected to be supportable by the Maximum Annual Facilities Special Tax generated within that annexation area.

**“Remaining Facilities Costs”** means the Public Facilities Requirements (as defined above), minus costs of Authorized Facilities funded by Outstanding Bonds (as defined above), developer equity, and/or any other source of funding.

The Annual Facilities Special Tax obligation applicable to an Assessor’s Parcel in the CFD may be prepaid and the obligation of the Assessor’s Parcel to pay the Annual Facilities Special Tax permanently satisfied as described herein, provided that a prepayment may be made only if there are no delinquent Annual Facilities Special Taxes with respect to such Assessor’s Parcel at the time of prepayment. The Annual Maintenance Special Tax may not be prepaid. An owner of an Assessor’s Parcel intending to prepay the Annual Facilities Special Tax obligation shall provide the City with written notice of intent to prepay. Within 30 days of receipt of such written notice, the City or its designee shall notify such owner of the prepayment amount for such Assessor’s Parcel. Prepayment must be made not less than 75 days prior to any redemption date for Bonds to be redeemed with the proceeds of such prepaid Annual Facilities Special Taxes. The Prepayment Amount shall be calculated as follows: (capitalized terms as defined below):

	Bond Redemption Amount
plus	Remaining Facilities Amount
plus	Redemption Premium
plus	Defeasance Requirement
plus	Administrative Fees and Expenses
<u>less</u>	<u>Reserve Fund Credit</u>
equals	Prepayment Amount

As of the proposed date of prepayment, the Prepayment Amount shall be determined by application of the following steps:

- Step 1.** Compute the total Maximum Annual Facilities Special Tax that could be collected from the Assessor’s Parcel prepaying the Annual Facilities Special Tax in the Fiscal Year in which prepayment would be received by the City.
- Step 2.** Divide the Maximum Annual Facilities Special Tax from Step 1 by the total amount that could be collected if the Maximum Annual Facilities Special Tax was levied on all Parcels of Taxable Property in the CFD.
- Step 3.** Multiply the quotient computed pursuant to Step 2 by the Outstanding Bonds to compute the amount of Outstanding Bonds to be retired and prepaid (*the “Bond Redemption Amount”*).
- Step 4.** Compute the current Remaining Facilities Costs (if any).

- Step 5.** Multiply the quotient computed pursuant to Step 2 by the amount determined pursuant to Step 4 to compute the amount of Remaining Facilities Costs to be prepaid (*the “Remaining Facilities Amount”*).
- Step 6.** Multiply the Bond Redemption Amount computed pursuant to Step 3 by the applicable redemption premium, if any, on the Outstanding Bonds to be redeemed (*the “Redemption Premium”*).
- Step 7.** Compute the amount needed to pay interest on the Bond Redemption Amount starting with the first Bond interest payment date after which the prepayment has been received until the earliest redemption date for the Outstanding Bonds, which, depending on the Bond offering document, may be as early as the next interest payment date.
- Step 8:** Compute the amount of interest the City reasonably expects to derive from reinvestment of the Bond Redemption Amount plus the Redemption Premium from the first Bond interest payment date after which the prepayment has been received until the redemption date for the Outstanding Bonds.
- Step 9:** Take the amount computed pursuant to Step 7 and subtract the amount computed pursuant to Step 8 (*the “Defeasance Requirement”*).
- Step 10.** Determine the costs of computing the prepayment amount, the costs of redeeming Bonds, and the costs of recording any notices to evidence the prepayment and the redemption (*the “Administrative Fees and Expenses”*).
- Step 11.** If and to the extent so provided in the indenture pursuant to which the Outstanding Bonds to be redeemed were issued, a reserve fund credit shall be calculated as a reduction in the applicable reserve fund for the Outstanding Bonds to be redeemed pursuant to the prepayment (*the “Reserve Fund Credit”*).
- Step 12.** The Annual Facilities Special Tax prepayment is equal to the sum of the amounts computed pursuant to Steps 3, 5, 6, 9, and 10, less the amount computed pursuant to Step 11 (*the “Prepayment Amount”*).

If an owner that has prepaid the Annual Facilities Special Tax obligation assigned to a Parcel subsequently rezones the Parcel to a Land Use Class that has a higher Per-Acre Annual Facilities Special Tax, the City may in its sole discretion and as a condition of approval of the rezoning, collect the additional Annual Facilities Special Tax prepayment that would have applied had the Parcel been rezoned at the time of the original prepayment for the Parcel.

## **I. INTERPRETATION OF SPECIAL TAX FORMULA**

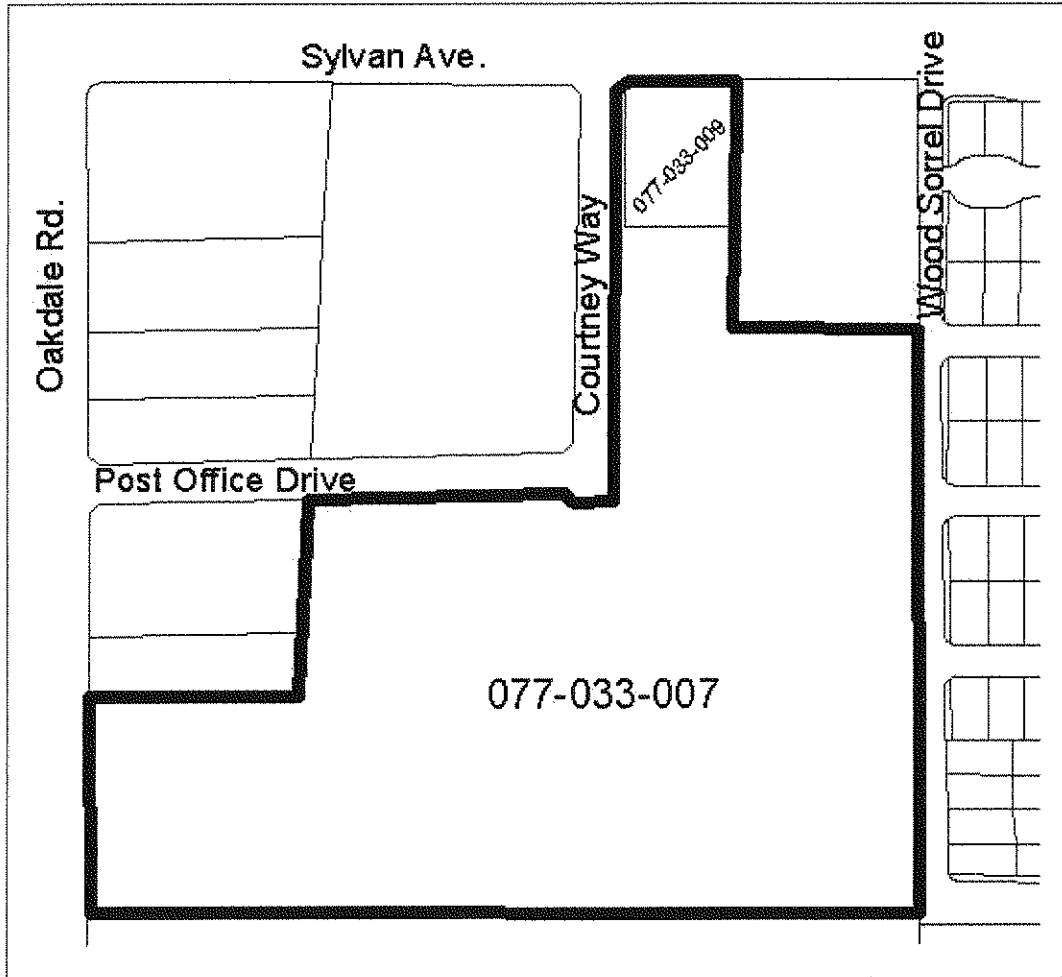

The City reserves the right to make minor administrative and technical changes to this document that does not materially affect the Rate and Method of Apportionment of Special Tax. In addition, the interpretation and application of any section of this document shall be left to the City's discretion. Interpretations may be made by the City by ordinance or resolution for purposes of clarifying any vagueness or ambiguity in this Rate and Method of Apportionment of Special Tax.

- Beginning in January 2005 and each January thereafter, the Maximum One-Time Facilities Special Tax shall be adjusted by the greater of (i) the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or (ii) four percent (4.0%). Each annual adjustment of the Maximum One-Time Facilities Special Tax shall become effective on the subsequent July 1.
- Beginning in Fiscal Year 2005-06 and each Fiscal Year thereafter, the Maximum Annual Facilities Special Tax shall escalate by 2.0% of the amount in effect in the prior Fiscal Year.
- Beginning in January 2005 and each January thereafter, the Maximum Annual Maintenance Special Tax shall be adjusted by the greater of (i) the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or (ii) four percent (4.0%). Each annual adjustment of the Maximum Annual Maintenance Special Tax shall become effective on the subsequent July 1.

# Exhibit "B"

## LIST OF FACILITIES

### Description of Facilities

All facilities described herein are as presented in the Village One Facilities Master Plan ("FMP") update dated May 2003. Said master plan is incorporated herein by reference. The following descriptions summarize the facilities to be funded within CFD 2004-1.

#### A. Arterial Roads:

Included in the FMP are improvements to four arterial roads that will be funded by the CFD. They include Roselle Ave., from Briggsmore to the northern boundary of Village One (north of Sylvan), Floyd Ave. from Oakdale Rd. to Claus Rd., Oakdale Rd. from Briggsmore to Sylvan Ave., and Sylvan Ave. from Oakdale Rd. to Claus Rd. Also included in the CFD is partial funding for a pedestrian overcrossing on Sylvan Ave. to serve the new high school.

#### B. Storm Drain System:

The storm drainage system for Village One contains three detention basins:

1. West Basin: Dual-use basin that pumps water to the Central Basin.
2. Central Basin: Percolation/detention basin that pumps water to the MID Lateral #3 and may pump to Dry Creek via Claus Rd. at some time in the future.
3. East Basin: Dual-use basin that pumps water to Dry Creek via Claus Rd.

The facilities to be funded by the CFD include: basin property, trunk pipelines, force mains, pump stations, and other necessary appurtenances.

#### C. Parks:

Three neighborhood parks and one community park will be developed within the Village One Specific Plan area. The development of the parks will include the acquisition of land, park improvements and street frontage improvements for the Grogan Community Park, the Roselle Neighborhood Park, the Claus Neighborhood Park and the Merle Neighborhood Park.

In addition, buffer land for the community park is to be acquired, a bike trail is to be developed along MID Lateral No. 3, and a trail is to be developed along Claus Rd.

#### D. Public Facilities:

An area office for police is proposed within Village One. Funds are provided within the CFD for tenant improvements necessary to set up an area office.

#### E. Other:

Other costs associated with Village One include reimbursement to the City of Modesto for engineering of the Facilities Master Plan and planning related to the Village One Specific Plan, future annual administration costs for the CFD, and community signage for Village One.

## Exhibit “C”

### **LIST OF SERVICES**

Included in this CFD is the maintenance of the Grogan Community Park, Roselle Neighborhood Park, Merle Neighborhood Park, Claus Neighborhood Park, arterial road parkway, median and roundabout landscaping, connector street parkway, median and roundabout landscaping, bike trails and storm drain facilities.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-128**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO OF INTENTION TO INCUR A BONDED INDEBTEDNESS IN AN AMOUNT NOT TO EXCEED \$75,000,000 WITHIN PROPOSED CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2004-1 (VILLAGE ONE #2)**

WHEREAS, this Council (the "Council") has adopted its Resolution No. 2004-127 (the "Resolution of Intention to Establish the District") stating its intention to establish City of Modesto Community Facilities District No. 2004-1 (Village One #2) (the "District") pursuant to Chapter 2.5 of Part 1 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the "Mello-Roos Community Facilities Act of 1982" (the "Act"), for the purpose of financing certain public facilities (the "Facilities") described in the Resolution of Intention to Establish the District, and the incidental expenses thereof, and certain services (the "Services") as therein described; and

WHEREAS, in order to finance the Facilities and incidental expenses, it is necessary to incur bonded indebtedness in an amount not to exceed \$75,000,000, the repayment of which is to be secured by a special tax levied in accordance with Section 53328 of the Act, and the rate, method of apportionment and manner of collection described in the Resolution of Intention to Establish the District;

NOW, THEREFORE, BE IT RESOLVED, ORDERED AND FOUND by the City Council of the City of Modesto that:

SECTION 1. The above recitals are true and correct.

SECTION 2. It is necessary to incur bonded indebtedness within the boundaries of the proposed District for the purpose of financing the Facilities described in the Resolution of Intention to Establish the District, and the incidental expenses thereof.

SECTION 3. The bonded indebtedness is proposed to be incurred in order to finance the Facilities, including acquisition and construction costs, and all costs incidental to, or connected with the accomplishment of such purpose and the financing thereof, as permitted by Section 53345.3 of the Act.

SECTION 4. The whole of the proposed District will pay for the bonded indebtedness according to the rate and method of apportionment of the special tax as provided in the Resolution of Intention to Establish the District.

SECTION 5. The bonded indebtedness will be in an aggregate principal amount not to exceed \$75,000,000.

SECTION 6. A public hearing on the proposed bonded indebtedness will be held at 5:30 p.m., or as soon thereafter as practicable, on Tuesday, April 6, 2004, at the regular meeting place of the City Council, City Council Chambers, Basement Level, 1010 Tenth Street, Modesto, California 95353.

SECTION 7. At the time and place set forth above for the hearing, any person interested, including all persons owning property in the area, may appear and be heard on the proposed debt issuance.

The City Clerk is directed to publish a notice of the hearing, in the form required by the Act, one time, pursuant to Section 6061 of the Government Code, in a newspaper of general circulation published in the area of the proposed District, being *The Modesto Bee*. Such publication shall be completed at least seven (7) days prior to the date set for the hearing.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2<sup>nd</sup> day of March, 2004 by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-129**

**A RESOLUTION APPROVING AN ADVANCED FUNDING AGREEMENT FOR  
CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2004-1  
(VILLAGE ONE #2)**

WHEREAS, B&G Development, LLC (the “Developer”) has filed with this City Council a petition requesting the formation of a community facilities district and the issuance of bonds to finance and maintain certain infrastructure; and

WHEREAS, in connection therewith there has been presented to this City Council the form of an Advanced Funding Agreement by and between the City and the Developer relating to advances made and to be made by the Developer to the City (the “Advanced Funding Agreement”);

NOW, THEREFORE, BE IT HEREBY RESOLVED that the Council of the City of Modesto that the Advanced Funding Agreement between the City of Modesto and B&G Development LLC be hereby approved and that the City Manager is hereby authorized to execute the Advanced Funding Agreement.

RESOLUTION NO. 2004-132**

**A RESOLUTION AUTHORIZING THE PURCHASE OF A JOHN DEERE 304H WHEEL LOADER UNDER THE STATE OF CALIFORNIA, DEPARTMENT OF GENERAL SERVICES, CALIFORNIA MULTIPLE AWARD SCHEDULE (CMAS) CONTRACT FROM NORTREX WEST OF FRENCH CAMP, CA. FOR A TOTAL ESTIMATED COST OF \$75,002.**

WHEREAS, the Operations and Maintenance Department-Fleet Services has requested the purchase of a John Deere 304H wheel loader, and

WHEREAS, this unit will replace a loader which has met its life expectancy and has become unreliable and costly to keep operational, and

WHEREAS, this unit is fully funded for replacement from funds set aside out of the Fleet Replacement Fund, and

WHEREAS, the estimated cost of a new John Deere 304H loader purchased under a California Multiple Award Schedule (CMAS), General Services Administration Statewide pricing contract is \$75,002, and

WHEREAS, the estimated State Service Charge for using the CMAS contract is \$1,349, and

WHEREAS, purchasing the equipment from Nortrex West under the CMAS contract will allow the City to receive the lowest possible price for this piece of industrial equipment, and

WHEREAS, Nortrex West, French Camp, CA. is the closest authorized dealer for this equipment, and there are no local vendors authorized to sell this piece of industrial equipment, and

WHEREAS, the Modesto Municipal Code (MMC) generally requires all purchases exceeding \$50,000 for materials and equipment of this type to be formally bid, and

WHEREAS, per MMC Section 8-3.204 (d) the Purchasing Supervisor may determine that a process other than the formal bid procedure set forth in Section 8-3.203 will result in a procurement for the City at the lowest possible cost commensurate with the desired quality, and

WHEREAS, on August 26, 2002 the Finance Committee recommended that Fleet Services bring critical equipment and vehicles needs to Council for approval on an as needed basis, and

WHEREAS, at its meeting on February 23, 2003, the Finance Committee authorized City staff to take this same piece of equipment to full Council for approval,

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto hereby approves the purchase of a John Deere 304H wheel loader from Nortrex West under the CMAS statewide pricing contract for a total estimated cost of \$75,002.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2<sup>nd</sup> day of March, 2004 by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**A RESOLUTION AUTHORIZING THE ISSUANCE OF A REQUEST FOR BIDS  
FOR PERSONAL PROTECTIVE EQUIPMENT FOR FIRE DEPARTMENT  
PERSONNEL AT AN ESTIMATED ANNUAL COST OF \$150,000.00.**

WHEREAS, personal protective equipment is paramount to the well being of line personnel, and

WHEREAS, this equipment includes turnout pants and jackets, structure boots, hoods, helmets, gloves, self-contained breather equipment, EMS gloves, etc., and

WHEREAS, the City provides personal protective equipment to line personnel at the time of hire, and

WHEREAS, that equipment is then replaced when it no longer meets standards for said equipment,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the issuance of request for bids for personal protective equipment for Fire Department personnel at an estimated annual cost of \$150,000.

RESOLUTION NO. 2004-134**

**A RESOLUTION DECLARING AS SURPLUS ONE 1978 INTERNATIONAL  
TYPE III APPARATUS AND AUTHORIZING THE SALE OF THIS UNIT  
THROUGH THE AUCTION PARK AT AN ESTIMATED VALUE OF \$2,000.00.**

WHEREAS, the City purchased a new International cab and chassis in 1978, and

WHEREAS, a utility bed was added to the cab and chassis and it was equipped as  
a rescue vehicle, and

WHEREAS, the International was used as a rescue vehicle until 1993, and

WHEREAS, in 1993, due to a change in philosophy and equipment, the rescue  
equipment was moved to the ladder trucks, and

WHEREAS, the International was then converted to a quasi-Type III engine, and

WHEREAS, the conversion posed several problems which intensified with age  
and Department of Transportation regulation changes, and

WHEREAS, in 2002 the Council approved the purchase of a new Type III  
(wildland) apparatus, and

WHEREAS, the 1978 International has reached the end of fire fighting service  
life and has been replaced with new equipment,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto  
that it hereby declares as surplus the 1978 International Type III apparatus at an estimated  
value of \$2,000.

BE IT FURTHER RESOLVED that the sale of this unit through The Auction  
Park is hereby authorized.

**Budget Adjustments for the Month of February 2004**

#	Type of Account	Description	Fund	Agcy	Orgn	Object/ Revenue	App Unit	Current Budget (\$)	Adjustment Amount (\$)	Revised Budget (\$)
---	-----------------	-------------	------	------	------	-----------------	----------	---------------------	------------------------	---------------------

<i>Operations &amp; Maintenance</i>										
#1										
			From:							
	Appropriation	General Fund Reserves	0100	800	8000	8003	0100r	-\$1,396,160	-\$80,000	-\$1,476,160
			To:							
	Appropriation	One-time labor	0100	480	4722	0130	4800a	\$0	\$20,000	\$20,000
		Equipment Rental	0100	480	4722	0218	4800c	7,176	10,000	\$17,176
		Professional Services & Other	0100	480	4712	0235	4800c	62,409	10,000	\$72,409
		M&R Supplies	0100	480	4712	0360	4800c	37,856	40,000	\$77,856
	Justification	Appropriation transfer from General Fund Reserve to Graffiti Abatement operating accounts to fund the unexpected costs of removing graffiti incurred through recent increases in graffiti attributed to increased gang activity. Since graffiti, left unabated, leads to even more graffiti, timely abatement is critical. Expenses have been higher than budgeted for hiring temporary help and paying overtime for full-time employees to address the increased graffiti levels. In addition, we have experienced an increase in print prices. This adjustment is expected to cover expenses through the remainder of the fiscal year.								

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-139**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO  
PURCHASE FIFTEEN (15) USED VEHICLES AT WHOLESALE AUCTION  
FOR AN ESTIMATED TOTAL COST OF \$262,500.**

WHEREAS, the Operations and Maintenance Department-Fleet Services Division has requested the purchase of fifteen (15) used vehicles, and

WHEREAS, the used vehicles will replace current vehicles budgeted for replacement, and

WHEREAS, twelve (12) of the used vehicles will be used by the Modesto Police Department for their investigation and administrative staff, and

WHEREAS, the remaining three (3) used vehicles will be used by Neighborhood Preservation, Motor Pool, and the Water Division, and

WHEREAS, Fleet Services staff will attend various wholesale auctions held throughout California, and make a recommendation to the Purchasing Supervisor to purchase fifteen (15) used vehicles by auction at a cost not to exceed \$262,500, and

WHEREAS, by buying the used vehicles at auction the City will realize considerable savings, and

WHEREAS, based on direction from Council, the Purchasing Division issued a Request for Interest (RFI) to eighty-eight (88) local automobile dealers to see if it would be more cost effective to have a local automobile dealer perform the purchasing of used vehicles on behalf of the City, and

WHEREAS, six (6) responses were received to the RFI , and

WHEREAS, the Fleet Services Manager reviewed the responses received, and based on pricing submitted, determined that it would be more cost effective for the City to purchase the used vehicles at auction utilizing City staff, and

WHEREAS, Modesto Municipal Code Section (MMC) 8.3-204 (d) allows the Purchasing Supervisor discretion to determine that a process other than the formal bid procedures will result in a procurement for the City at the lowest possible cost commensurate with the desired quality, and

WHEREAS, the purchase of used vehicles at auction will conform to MMC Section 8.3-204 (d), and

WHEREAS, this item was presented to the Finance Committee at its February 25, 2004 meeting and received unanimous approval to move the matter forward to full Council for review,

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto that the Purchasing Supervisor is hereby authorized to purchase fifteen (15) used sedan vehicles at wholesale auction, utilizing City staff, for an estimated not to exceed total cost of \$262,500.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of March, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-145**

**A RESOLUTION APPROVING THE FIRST AMENDMENT TO THE MASTER PROPERTY TAX SHARING AGREEMENT BETWEEN THE CITY OF MODESTO AND THE COUNTY OF STANISLAUS AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT.**

WHEREAS, the Modesto City School District recently acquired five single-family lots adjacent to the Bret Harte Elementary School for purposes of expansion of the school, and

WHEREAS, the expansion area lies just outside the Modesto city limits, and it is in the best interests of the City, the County and the School District to have all of the school area located in the Modesto city limits, and

WHEREAS, the School District proposes to annex the expansion area to the City of Modesto, and

WHEREAS, a legal prerequisite to the annexation is a Property Tax Sharing Agreement between the City and the County providing for the allocation of property tax revenues even though the School District property is exempt, and

WHEREAS, on April 9, 1996, by Resolution No. 96-170 the City of Modesto entered into a Master Property Tax Agreement with the County of Stanislaus, and

WHEREAS, amending the Master Property Tax Sharing Agreement would make the expansion area subject to the Master Property Tax Sharing Agreement so that the annexation can legally proceed, and

WHEREAS, the City Council considered this matter at its meeting of March 9, 2004,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the first amendment to the Master Property Tax Sharing Agreement and authorizes the City Manager or his authorized designee to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of March, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-146**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO OF INTENTION TO ANNEX TERRITORY TO COMMUNITY FACILITIES DISTRICT NO. 2004-1 (VILLAGE ONE #2) AND TO AUTHORIZE THE LEVY OF SPECIAL TAXES THEREIN [ANNEXATION #1]**

WHEREAS, pursuant to Chapter 3.5 Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the “Mello-Roos Community Facilities Act of 1982” (the “Act”), proceedings for the annexation of territory to an existing community facilities district may, pursuant to Chapter 3.5 of the Act, be instituted by the adoption by the legislative body of a resolution of intention to annex such territory;

WHEREAS, pursuant to the Act, this Council did, by its Resolution No. 2004-127, adopted on March 2, 2004 (the “Resolution of Intention to Establish the District”) declare its intention to establish the City’s Community Facilities District No. 2004-1 (Village One #2) (“the District”);

WHEREAS, this Council hereby determines that the public convenience and necessity require the annexation of certain territory to the District; and

WHEREAS, the territory to be annexed is within the City limits;

NOW, THEREFORE, BE IT RESOLVED, ORDERED AND FOUND by the City Council of the City of Modesto, California, that:

SECTION 1. The above recitals are true and correct.

SECTION 2. The boundaries of the District are shown on a map entitled “Proposed Boundaries of Community Facilities District No. 2004-1 (Village One #2) of

the City of Modesto, County of Stanislaus, State of California” on file with the County Recorder of the County of Stanislaus, at Book 3 of Maps of Assessment and Community Facilities Districts, at Page 85.

SECTION 3. The territory proposed to be annexed to the District (the “Territory”) is described in Exhibit A.

SECTION 4. The boundaries of the Territory are also shown on the map thereof, entitled “Annexation Map No.1 of Community Facilities District No. 2004-1 (Village One #2) of the City of Modesto, County of Stanislaus, State of California,” on file in the office of the City Clerk, hereby approved and adopted. Pursuant to Sections 3110.5 and 3113 of the California Streets and Highways Code, the City Clerk shall endorse her certificate on the original and one copy of the map evidencing the date and adoption of this Resolution, file the original in her office and, not later than 10 days after the adoption of this Resolution, file a copy of the map with the County Recorder of the County of Stanislaus. The map shall contain the legends provided in Sections 3110 and 3110.5 of the California Streets and Highways Code, including a reference to the title, book, page and recording date of the original boundary map of the District.

SECTION 5. The public facilities and services to be provided for the District are set forth in the Resolution of Intention to Establish the District. It is intended that these same facilities and services be provided to the Territory.

SECTION 6. The special taxes to be levied in the District are also set forth in the Resolution of Intention to Establish the District. It is intended that the same special taxes be levied in the Territory.

SECTION 7. A public hearing on this Resolution will be held at 5:30 p.m., or as soon thereafter as practicable, on Tuesday, May 4, 2004, at the regular meeting place of the City Council, City Council Chambers, Basement Level, 1010 Tenth Street, Modesto, California 95353, such time being not less than 30 or more than 60 days following the adoption hereof.

SECTION 8. At the hearing, any interested persons for or against the annexation of the Territory to the District, and the levy of the special taxes therein, may appear and will be heard and considered. Any protest may be made orally or in writing. However, any protests pertaining to the regularity or sufficiency of the proceedings shall be in writing and clearly set forth the irregularities and defects to which the objection is made. All written protests shall be filed with the City Clerk on or before the time fixed for the public hearing. Written protests may be withdrawn in writing at any time before the conclusion of the hearing.

SECTION 9. The City Clerk is directed to publish, not later than seven (7) days prior thereto, a notice of the hearing, in the form required by the Act, in a newspaper of general circulation published in the area of the District, being *The Modesto Bee*, and otherwise in accordance with Section 6061 of the California Government Code, stating (a) the text or a summary of this Resolution, (b) the time and place of the hearing, and (c) that all interested persons for or against the annexation of the Territory to the District or the levying of the special taxes in the Territory will be heard.

SECTION 10. (a) If a majority (but at least six) of the registered voters residing within the District or a majority (but at least six) of the registered voters residing within the Territory, or the owners of one-half or more of the area of the land in the District and

not exempt from the special tax, or the owners of one-half or more of the Territory, file written protests against the proposed annexation, and the protests are not withdrawn so as to reduce the value of the protests to less than a majority, no further proceedings to annex the Territory to the District, or to levy in the Territory the special taxes to be levied in the District, shall be taken for a period of one year from the date of the decision of the Council on the issues discussed at the hearing.

SECTION 11. At the conclusion of the hearing, if the Council determines to annex the Territory to the District, it will submit the levy of the special taxes to the qualified electors of the Territory in a special election.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of March, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-147**

**A RESOLUTION ORDERING THE ENGINEERING AND TRANSPORTATION  
DIRECTOR TO PREPARE AND FILE AN ANNUAL REPORT FOR  
LANDSCAPE MAINTENANCE ASSESSMENT DISTRICT NO. 1 FOR DRY  
CREEK MEADOWS SUBDIVISION NOS. 1-6.**

WHEREAS, Resolution No. 88-935 adopted by the Council of the City of Modesto on December 13, 1988, initiated proceedings for the formation of Landscape Assessment District No. 1 for the purpose of administering the maintenance of landscaping in the public right of way within the street medians and adjacent to the access control walls in Dry Creek Meadows Subdivisions Nos. 1-6.

WHEREAS, said assessment district was formed in accordance with the Landscaping and Lighting Act of 1972 (Streets and Highways Code Sections 22500 through 22679), and

WHEREAS, Section 22622 of the Streets and Highways Code requires the legislative body (the City Council) to adopt a resolution which shall generally describe any proposed new improvements or any substantial changes in existing improvements and order the engineer to prepare and to file a report accordingly,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that there being no proposed new improvements or any substantial changes in existing improvements in Dry Creek Meadows Subdivision Nos. 1-6 the Engineering and Transportation Director, the person designated by this Council as the Engineer of Work for Assessment District No. 1, is hereby directed to prepare and file an annual report in accordance with the provisions of the Landscaping and Lighting Act of 1972, as amended, (Streets and Highways Code Sections 22500 through 22679).

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of March, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-149**

**A RESOLUTION APPROVING THE FINAL MAP AND ACCEPTING PUBLIC IMPROVEMENTS IN THE LORETELLI MANOR SUBDIVISION OF THE CITY OF MODESTO AND AUTHORIZING THE CITY MANAGER TO EXECUTE A SUBDIVISION AGREEMENT WITH WILLIAM T. LORETELLI AND VERONICA A. LORETELLI, TRUSTEES OF THE LORETELLI REVOCABLE TRUST AND MORRISON HOMES, INC., A DELAWARE CORPORATION**

WHEREAS, WILLIAM T. LORETELLI and VERONICA A. LORETELLI, TRUSTEES OF THE LORETELLI REVOCABLE TRUST and MORRISON HOMES, INC., A DELAWARE CORPORATION, is possessed of a tract of land situated in the City of Modesto, County of Stanislaus, consisting of 10.81 acres, known as the LORETELLI MANOR SUBDIVISION (“SUBDIVISION”), and

WHEREAS, a tentative map of said tract was approved by the Planning Commission of the City of Modesto on the 16th day of December, 2002, and

WHEREAS, the Secretary of the Planning Commission of the City of Modesto has certified that the final map of said tract substantially conforms to the approved tentative map, and

WHEREAS, the City Engineer of the City of Modesto has certified that the final map of said SUBDIVISION meets all of the provisions of the California Subdivision Map Act and the provisions of the Modesto Municipal Code relating to subdivisions, and that the map is technically correct, and

WHEREAS, the Engineering and Transportation Director has certified that all public improvements required by the City of Modesto have been completed in said tract to the satisfaction of the Engineering and Transportation Director, and

WHEREAS, the Engineering and Transportation Director has indicated that it would be in order for the City Council to accept the public improvements in said subdivision as complete and authorize the City Clerk to file a Notice of Completion and release the bonds upon the expiration of the statutory periods,

WHEREAS, the subdivider has posted a warranty security in an amount equal to the estimated cost of the public improvements, as determined by the City Engineer, to guarantee and warranty the public improvements for a period of one year after acceptance.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that:

1. The final map is hereby approved.
2. The dedications for streets and easements as shown thereon within the boundaries of said tract are hereby accepted on behalf of the public for public use.
3. The improvements completed in Loretelli Manor Subdivision are hereby accepted and the City Clerk is hereby authorized to file a Notice of Completion for the improvements.
4. The City Clerk is hereby authorized to certify the map of said tract on behalf of the City of Modesto, after the fees and deposits required by the Modesto Municipal Code in amounts determined by the City Engineer have been paid.

5. The City Manager and the City Clerk are hereby authorized to execute and attest, respectively, an agreement with subdivider as required by Section 4-4.604(c) of the Municipal Code.
6. The City Clerk is further authorized to release the warranty security to guarantee improvements in the amount of \$52,033.00 one year and one day after the effective date of this resolution, provided no claim is made thereon.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of March, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

\$51,309.00 (11.2%) OF THE ORIGINAL CONTRACT PRICE WITH JAMES  
MICHAEL JOHNSON GENERAL ENGINEERING, INC., DBA ON GRADE  
CONTRACTING**

WHEREAS, on May 6, 2003, the City Council awarded a \$458,117.41 contract to James Michael Johnson General Engineering, Inc., dba On Grade Contracting, to construct the "Carpenter Road Waterline" project, and

WHEREAS, the contractor started work on August 11, 2003, and the work is complete, and

WHEREAS, during the course of construction, the contractor was required to perform additional work that was not covered under the original contract, and

WHEREAS, the total cost of the extra work is \$51,020.94, an amount which exceeds the Director's authority for the project as established by the Council's Change Order Approval Policy adopted by Resolution No. 94-443 on July 19, 1994, and

WHEREAS, the Director currently has authority to approve change orders up to a cumulative amount of \$45,811.74,

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby increases the Engineering and Transportation Director's authority level to issue change orders, from \$45,811.74 (10%) to \$51,309.00 (11.2%) of the original contract price for the project entitled "Carpenter Road Waterline."

WHEREAS, the City of Modesto has entered into a contract with DMJM+Harris for construction management services in conjunction with the Kansas-Needham Overhead project, and

WHEREAS, the original contract was for \$998,046, which now has a balance of \$13,314 remaining, and

WHEREAS, the project is in the plant establishment period and project close-out mode, and

WHEREAS, the construction oversight period was lengthened by items beyond the consultants' control, and

WHEREAS, DMJM+Harris is currently negotiating the remainder of the extra work and contract credit items with the contractor, and

WHEREAS, DMJM+Harris' contractual presence for change order negotiations is critical for controlling the final cost of the project, and

WHEREAS, execution of the amendment to the agreement for \$63,807 will enable DMJM+Harris to complete the project close-out process,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the \$63,807 amendment to the DMJM+Harris consultant contract for construction management services associated with the Kansas-Needham Overhead project, and authorizes the City Manager to execute the amendment.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-155**

**A RESOLUTION AMENDING THE FY 2003-2004 CAPITAL IMPROVEMENT PROGRAM 1) TO REDUCE CIP PROJECT 2300-160-Q205, "INTERSECTION UPGRADES" BY \$29,668 AND TRANSFERRING THESE BUDGETED FUNDS FROM THE CAPITAL IMPROVEMENT FUND (2300) BACK TO THE SPECIAL GAS TAX FUND (0700) RESERVES, AND 2) TO INCREASE THE EXPENDITURE APPROPRIATION OF PROJECT MY-0700-160-L921, "BOWEN AVENUE TRAFFIC CALMING," IN THE AMOUNT OF \$29,668 OF GAS TAX RESERVE TO REFLECT THE INCREASE OF THE PROJECT'S CONSTRUCTION COSTS**

WHEREAS, at the January 14, 2003, City Council meeting, Council rejected bids for the second time and directed staff to construct "Bowen Avenue Traffic Calming," allocating \$150,000 for construction, based on the engineer's estimate, and

WHEREAS, the project had been bid two times, and each time had only one bidder; the same company, and

WHEREAS, the first bid came in at \$291,975, 112.83% over engineer's estimate in June 2002, and

WHEREAS, staff modified the plans and specifications to reduce construction costs and rebid the project. The second bid came in at \$262,258, 78.41% over engineer's estimate in January 2003, and

WHEREAS, funds for this project are budgeted in the Capital Improvement Program (CIP) project MY-0700-160-L921, "Bowen Avenue Traffic Calming." The total budget for this project including Engineering Design and Contingencies was \$171,000. Of this amount, \$21,000 was anticipated for design and routine changes, and

WHEREAS, staff proposes that the budget in project account MY-0700-160-L921 be increased by \$29,668 using special Gas Tax Fund reserves to meet the added

expenses, to match the total construction costs to \$198,894. To balance these reserves, it is proposed that revenue transferred to CIP project MY-2300-160-Q205, "Intersection Upgrades" be reduced accordingly, and

WHEREAS, the final project budget, including Engineering Design and Contingencies is now at \$219,894. Vendors were paid from the original budget and the intersection upgrade budget. This transfer is in essence to cover additional staff charges, and

WHEREAS, the Economic Development Committee discussed this item at its March 8, 2004, meeting, and concurred with staff's recommendation.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the FY 2003-2004 Capital Improvement Program to reduce CIP Project 2300-160-Q205, "Intersection Upgrades" by \$29,668 and transferring these budgeted funds from the Capital Improvement Fund (2300) back to the Special Gas Tax Fund (0700) Reserves, and 2) to increase the expenditure appropriation of project MY-0700-160-L921, "Bowen Avenue Traffic Calming," in the amount of \$29,668 of gas tax reserve to reflect the increase of the project's construction costs.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of March, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Hawn, Jackman, Keating, Marsh, O'Bryant,  
Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-156**

**A RESOLUTION AWARDING BID AND APPROVING A \$270,193  
“INSTALLATION OF TWO TRAFFIC SIGNALS AT THE FOLLOWING  
INTERSECTIONS: OAKDALE ROAD AT MANOR OAK DRIVE AND COFFEE  
ROAD AT SYLVAN MEADOWS DRIVE” CONSTRUCTION CONTRACT  
WITH TIM PAXIN’S PACIFIC EXCAVATION, INC., FOR THE PROJECT  
ENTITLED “INSTALLATION OF TWO TRAFFIC SIGNALS AT THE  
FOLLOWING INTERSECTIONS: OAKDALE ROAD AT MANOR OAK DRIVE  
AND COFFEE ROAD AT SYLVAN MEADOWS DRIVE”**

WHEREAS, the bids received for the “Installation of Two Traffic Signals at the Following Intersections: Oakdale Road at Manor Oak Drive and Coffee Road at Sylvan Meadows Drive” project were opened at 11:00 a.m., on February 24, 2004, and later tabulated by the Engineering and Transportation Director for the consideration of the Council, and

WHEREAS, the Acting Engineering and Transportation Director has recommended that the bid of \$270,193 received from Tim Paxin’s Pacific Excavation, Inc., be accepted as the lowest responsible bid,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards the bid for “Installation of Two Traffic Signals at the Following Intersections: Oakdale Road at Manor Oak Drive and Coffee Road at Sylvan Meadows Drive” project to Tim Paxin’s Pacific Excavation, Inc., and approves a \$270,193 contract for completion of said project.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of March, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Hawn, Jackman, Keating, Marsh, O'Bryant,  
Mayor Ridenour

NOES: Councilmembers: None

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-157**

**A RESOLUTION FINDING THAT THE “INSTALLATION OF TWO TRAFFIC SIGNALS AT THE FOLLOWING INTERSECTIONS: OAKDALE ROAD AT MANOR OAK DRIVE AND COFFEE ROAD AT SYLVAN MEADOWS DRIVE” PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY A MASTER ENVIRONMENTAL IMPACT REPORT (MEIR), SCH NO. 1999082041**

WHEREAS, on March 4, 2003, the City Council of the City of Modesto certified the Final MEIR, SCH No. 1999082041, for the Modesto Urban Area General Plan, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a MEIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the MEIR, whether the subsequent project was described in the MEIR, and whether the subsequent project was described in the MEIR as being within the scope of the project, and

WHEREAS, the Engineering and Transportation Department, by Initial Study, EA/ET 2002-27, reviewed and proposed “Installation of Two Traffic Signals at the Following Intersections: Oakdale Road at Manor Oak Drive and Coffee Road at Sylvan Meadows Drive” Project, which determines that the proposed project is within the scope of the project covered by the MEIR, that the proposed project will have no additional, significant effect on the environment that was not identified in the MEIR, and that no new or additional mitigation measures or alternatives may be required,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed “Installation of Two Traffic Signals at the Following Intersections: Oakdale Road at

Manor Oak Drive and Coffee Road at Sylvan Meadows Drive” Project, a copy of which is attached hereto as **Exhibit “A”**, and incorporated herein by reference, and based on the substantial evidence included in said Initial Study makes the following findings:

- A. The proposed Project is consistent with the City of Modesto General Plan and is within scope of the project covered by the General Plan Final MEIR (SCH No. 1999082041).
- B. There are no substantial changes proposed in the Project which result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the General Plan MEIR are required.
- C. No substantial changes have occurred with respect to the circumstances under which the Project is undertaken which will result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the General Plan MEIR are required.
- D. There is no new information of substantial importance which was known and could not have been known with the exercise of reasonable diligence when the General Plan MEIR was adopted which shows any of the following:
  - a. one or more significant effects which is not discussed in the General Plan MEIR; or,
  - b. significant effects which were previously examined will be substantially more severe than previously shown; or,

- c. previously infeasible mitigation measures or alternatives are now feasible and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative; or,
- d. mitigation measures or alternatives which are considerably different from those analyzed in the General Plan MEIR would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Engineering and Transportation Director is hereby authorized and directed to file a Notice of Approval within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of March, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour

City of Modesto  
Initial Study

INSTALLATION OF NEW TRAFFIC SIGNALS  
AT TWO INTERSECTIONS:  
OAKDALE ROAD AT MANOR OAK DRIVE  
COFFEE ROAD AT SYLVAN MEADOWS DRIVE

E.A./E.T. No: 2002-27

I. PURPOSE

Section 21157.1 of the Public Resources Code, allows for limited environmental review of subsequent projects under a Master EIR, provided that certain findings are made. The Modesto Urban Area General Plan Master EIR (SCH No. 199082041), adopted March 4, 2003, allows such limited review for projects in the Baseline Developed Area that are consistent with the General Plan and existing zoning.

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any significant effects on the environment that were not examined in the General Plan Master EIR. This Initial Study also provides documentation that the project is within the scope of the General Plan Master EIR.

II. PROJECT DESCRIPTION

A. Project Title:

Installation of Two New Traffic Signals at the Intersections of Oakdale Road at Manor Oak Drive, and Coffee Road at Sylvan Meadows Drive ("Project")

B. Lead Agency Name and Address:

City of Modesto, P.O. Box 642, Modesto, CA 95353

C. Contact Person, Address, and Phone Number:

Steven Liu, Engineering and Transportation Department, (209) 577-5297

D. Project Locations:

At Two (2) Intersections at:

- Oakdale Road and Manor Oak Drive
- Coffee Road and Sylvan Meadows Drive

E. Project Sponsor:

City of Modesto, P.O. Box 642, Modesto, CA 95353

F. General Plan Designation:

Location 1: Oakdale Road at Manor Oak Drive – MU (Mixed Use)

Location 2: Coffee Road at Sylvan Meadows Drive – MU (Mixed Use)

G. Zoning:

Location 1: Oakdale Road at Manor Oak Drive – PD (Planned Development), R3 (Medium High Density Residential), and C1 (Neighborhood Commercial).

Location 2: Coffee Road at Sylvan Meadows Drive – PD (Planned Development).

H. Description of Proposed Project:

The City is proposing to construct two new traffic signals at the intersections of Oakdale Road and Manor Oak Drive, and Coffee Road and Sylvan Meadows Drive. Currently, both locations have stop controls on the minor approaches. Oakdale Road is a major arterial with a posted speed limit of 40 mph at the site vicinity. Oakdale is currently carrying approximately 32,000 vehicular traffic per day. Coffee is a minor arterial at Sylvan Meadows with 40 mph speed limit, which is carrying a daily traffic about 16,700.

The proposed new traffic signals will help reduce stopping delay, increase traffic safety, and result in a reduction in air pollution. The proposed signal project will include pedestrian phasing and crosswalks, vehicle detection, and other typical improvements associated with traffic signal installation. Both signals will be coordinated with existing coordination plans on the major streets.

I. Surrounding Land Uses:

The project is located at developed areas in town as follows.

Location 1: Oakdale Road at Manor Oak Drive – PD (Planned Development), R3 (Medium High Density Residential), and C1 (Neighborhood Commercial).

Location 2: Coffee Road at Sylvan Meadows Drive – PD (Planned Development), R2 (Medium Density Residential), and PO (Professional Office).

J. Other Public Agencies Whose Approval is Required:

None

III. ANALYSIS OF CONFORMANCE WITH THE MASTER EIR

There are eighteen subject areas in the Master EIR for the General Plan. Following is an analysis of how this project conforms to the analysis contained within the Master EIR.

A. Traffic and Circulation

The proposed Installation of Two New Traffic Signals Project will not result in a physical change to any existing land use. It is consistent with the General Plan designation for this site. Therefore, the traffic impacts of this project are consistent with those contained in the General Plan Master EIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Traffic and Circulation Needs (pages V-1-1 through V-1-33) are, therefore, still valid.

B. Degradation of Air Quality

The air quality impacts for this development are directly related to the traffic impacts. Since traffic impacts are no greater than those anticipated in the Master EIR, this development would not cause additional impacts to air quality beyond those described in the Degradation of Air Quality section of the MEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Degradation of Air Quality (pages V-2-1 through V-2-26) are, therefore, still valid.

C. Generation of Noise

The Project will not result in a physical change to any existing land use. The proposed use is consistent with the General Plan in land use and intensity, and the noise impacts from the project and to the project are consistent with those analyzed in the Master EIR. Therefore, the project will not create additional significant effects, and the Mitigation Measures listed in the MEIR for Generation of Noise (pages V-3-1 through V-3-22) are, therefore, still valid.

D. Loss of Productive Agricultural Land

The proposed new traffic signals will be located in developed areas outside of productive agricultural land. Therefore, the project is consistent with the Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for Loss of Productive Agricultural Land (pages V-4-1 through V-4-12) and they are, therefore, still valid.

E. Increased Demand for Water Supplies

The proposed Project includes traffic signal related improvements, and will require no additional water beyond that identified in the Increased Demand for Water Supplies section of the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Water Supplies (pages V-5-1 through V-5-13) are, therefore, still valid.

F. Increased Demand for Sanitary Sewer Services

The proposed Project includes traffic signal related improvements, and will create no additional demand for sewer capacity not identified in the MEIR. The Existing

Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Sanitary Sewer Services (pages V-6-1 through V-6-12) are, therefore, still valid.

G. Loss of Sensitive Wildlife and Plant Habitat

The proposed new traffic signals will be located in developed areas and not located in a Potential Biological Resource Study Area, as presented in Figure 7-1 of the MEIR. Therefore, the project will not impact sensitive wildlife or any plant habitat above and beyond that which was identified in the Loss of Sensitive Wildlife and Plant Habitat section of the MEIR. The Existing Conditions, Impact Analysis, and the Mitigation Measures listed in this section of the MEIR (pages V-7-1 through V-7-29) are still valid.

H. Disturbance of Archaeological and Historic Sites

This project will not disturb any archaeological or historic sites that have been identified in the Disturbance of Archaeological or Historical Sites section of the MEIR. Figure 8-1 of the MEIR indicates that it is also outside the Archaeological Resource Study Area, which shows areas that may require additional site specific investigations. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Disturbance of Archaeological or Historical Sites (pages V-8-1 through V-8-22) are, therefore, still valid.

I. Drainage, Flooding and Water Quality

Because the project is consistent with the General Plan in land use and intensity, it will not present any new impacts to drainage, flooding and water quality that have not already been addressed in the MEIR. The mitigation measures in the Master EIR will not reduce the impacts of increased runoff within the baseline developed area to a less than significant level. In adopting the Master EIR, the City Council adopted a finding of overriding findings for this impact. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Drainage, Flooding, and Water Quality (pages V-9-1 through V-9-13) are still valid.

J. Increased Demand for Storm Drainage

The project will not present any new impacts that have not already been addressed in the MEIR. The mitigation measures contained in the Master EIR will not reduce the impacts of increased runoff within the baseline developed area to a less than significant level. In adopting the Master EIR, the City Council adopted a finding of overriding findings for this impact. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Storm Drainage (pages V-10-1 through V-10-16) are still valid.

K. Increased Demand for Parks and Open Space

The proposed improvements will not have an effect upon the parks or open space needs in the area over that anticipated in the Master EIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Parks and Open Space (pages V-11-1 through V-11-14) are, therefore, still valid.

L. Increased Demand for Schools

The proposed improvements will not create any additional demand for schools. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Schools (pages V-12-1 through V-12-11) are still valid.

M. Increased Demand for Police Services

Because the Project is consistent with the General Plan in land use and intensity, it will not present any increased demand for police services that has not already been addressed in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Police Services (pages V-13-1 through V-13-7) are, therefore, still valid.

N. Increased Demand for Fire Services

Because the Project is consistent with the General Plan in land use and intensity, it will not present any increased demand for fire services that has not already been addressed in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Fire Services (pages V-14-1 through V-14-9) are, therefore, still valid.

O. Generation of Solid Waste

This project will not cause the generation of solid waste beyond that which is identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Solid Waste (pages V-15-1 through V-15-10) are, therefore, still valid.

P. Generation of Hazardous Materials

This proposed use will not result in additional hazardous materials generated beyond those identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Hazardous Materials (pages V-16-1 through V-16-15) are, therefore, still valid.

Q. Landslides and Seismic Activity

This use will result in no additional potential for exposing people to landslides or earthquake related hazards such as liquefaction beyond those identified in the

MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Landslides and Seismic Activity (pages V-17-1 through V-17-12) are, therefore, still valid.

R. Energy

This use will result in less than significant additional demands for energy, as identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Energy (pages V-18-1 through V-18-7) are, therefore, still valid.

IV. CONCLUSIONS/DETERMINATIONS OF FINDINGS

- A. The proposed Installation of Two New Traffic Signals Project is within the scope of the General Plan Master EIR (SCH No. 1999082041), which analyzed the potential impacts of buildout of the Urban Area General Plan, including roadways in this area.
- B. No additional significant environmental effects will occur as a result of the Project that were not previously examined in the General Plan Master EIR.
- C. No new mitigation measures or alternatives will be required as a result of the Project that were not previously considered in the General Plan Master EIR.
- D. There are no specific features unique to the Project that requires project specific mitigation measures. All certified mitigation measures identified in the MEIR would apply city wide, including this project as appropriate.
- E. This initial study provides substantial evidence to support findings A, B, C, and D above.

L. Steven Liu  
Assistant Traffic Engineer

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-158**

**A RESOLUTION AMENDING THE CAPITAL IMPROVEMENT PROGRAM BUDGET 1) TO INCREASE THE EXPENDITURE APPROPRIATION OF MY-2300-160-N498 TO REFLECT THE INCREASE OF CONSTRUCTION COSTS BY AN APPROPRIATION TRANSFER FROM MY-1410-160-M194 "GROWTH RELATED NEW TRAFFIC SIGNALS" IN THE AMOUNT OF \$64,000**

WHEREAS, on February 24, 2004, the City Council received bids for a project titled, "Installation of Two Traffic Signals at the Following Intersections: Oakdale Road at Manor Oak Drive and Coffee Road at Sylvan Meadows Drive" Account No. MY-2300-160-N498, and

WHEREAS, the acceptable low bidder was Tim Paxin's Pacific Excavation, Inc., of Elk Grove, California, with a bid of \$270,193, and

WHEREAS, the City has obtained CMAQ funding to pay for up to \$247,883, of the project costs and the remaining portion will be appropriated from CFF account MY-1410-160-M194, "Growth Related New Traffic Signals," and

WHEREAS, \$64,000 in additional local matching funds is required to fully fund the construction of this project, and

WHEREAS, there are sufficient funds in the CFF account MY-1410-160-M194, "Growth Related New Traffic Signals," to fully fund 2300-160-N498,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the CIP budget is hereby amended to increase the expenditure appropriation of MY-2300-160-N498 to reflect the anticipated increase of the construction costs in the amount of \$64,000.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of March, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Hawn, Jackman, Keating, Marsh, O'Bryant,  
Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-159**

**A RESOLUTION APPROVING THE MARCH 12<sup>TH</sup> INSTALLATION OF AN ALL-WAY STOP ON JEFFERSON STREET AT VINE STREET. FUNDS ARE BUDGETED IN ACCUNT NOS. 0700-480-4622-0110 "SALARIES & WAGES REGULAR AND 0700-480-4622-0360 "REAL PROPERTY MAINTENANCE & REPAIR SUPPLIES"**

WHEREAS, staff received a request from neighbors to install an all-way stop on Jefferson Street at Vine Street, and

WHEREAS, the neighbors were concerned with safety at this intersection, and

WHEREAS, after review of the collision rate and recognizing the location is near a high school, staff proceeded to install an all-way stop sign on March 12th at this location due to the need for immediate action, and

WHEREAS, City staff has reviewed the intersection's collision history, traffic volumes, and performed a speed survey at this location and has concluded that an all-way stop could be accommodated as requested without creating a hazard and without impeding traffic flow, and

WHEREAS, based on the traffic volumes warrant from the Caltrans Traffic Manual, an all-way stop is warranted at this intersection, and

WHEREAS, the Economic Development Committee at its March 8, 2004, meeting reviewed and approved the installation of an all-way stop, as requested by the neighbors,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the March 12<sup>th</sup> installation of an all-way stop on Jefferson Street at Vine Street.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of March, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-160

**A RESOLUTION APPROVING INSTALLATION OF ANGLE PARKING ON THE NORTH SIDE OF SIERRA DRIVE BETWEEN F AND 4<sup>TH</sup> STREETS AND SHIFTING OF THE EXISTING CENTERLINE OF SIERRA DRIVE TO THE SOUTH TO ACCOMMODATE THE ANGLE PARKING.**

2004-333

WHEREAS, Article 10 of Chapter 2 of Title 3 of the Modesto Municipal Code authorizes the City Council by resolution to establish angle parking in the City of Modesto, and

WHEREAS, the City of Modesto Parks, Recreation and Neighborhoods Department is planning to begin construction soon to remodel and expand the existing Maddux Youth Center at 615 Sierra Drive, and

WHEREAS, the proposed building addition will nearly double the size of the existing structure and will provide a new multi-purpose room, computer classroom and Police Activities League boxing facility, and

WHEREAS, by Agenda Report dated March 15, 2004, from the Parks, Recreation and Neighborhoods Department, City staff recommended the installation of angle parking on the north side of Sierra Drive between F and 4<sup>th</sup> Streets, and

WHEREAS, the entrance to the “new” youth center will be moved from “F” Street to Sierra Drive, and will lead through a trellised entry to a new reception/lobby area, and

WHEREAS, to enhance the vehicle parking supply at the youth center, the City proposes to install angle parking along Sierra Drive, commencing about 200-feet east of Sunset Avenue and ending about 100-feet west of Fourth Street, and

WHEREAS, the proposed parking will require the shifting of the existing centerline of Sierra Drive between Fourth Street and "F" Street, and

WHEREAS, Sierra Drive is 66 feet wide and can accommodate the angle parking and the shifting of the road centerline, and

WHEREAS, the adjustment of the centerline will actually improve the alignment of Sierra Drive across the "F" Street intersection, and

WHEREAS, the proposed plan would increase the existing parking on the north side of Sierra Drive between "F" and 4<sup>th</sup> Streets from 31 parallel spaces to 35 angle and 9 parallel, for a new total of 44 spaces, and

WHEREAS, the Economic Development Committee met on March 8, 2004, and supported the recommendation to install angle parking on the north side of Sierra Drive between F and 4<sup>th</sup> Streets and to shift the existing centerline of Sierra Drive 10 feet to the south to accommodate the angle parking,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the installation of angle parking on the north side of Sierra Drive between F and 4<sup>th</sup> Streets and shifting of the existing centerline of Sierra Drive 10 feet to the south to accommodate the angle parking.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of March, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-161**

**A RESOLUTION ADOPTING A MITIGATED NEGATIVE DECLARATION (SCH #2004022070), FINDINGS, AND A MITIGATION MONITORING PLAN FOR THE NEIGHBORHOOD CENTER AT MARSHALL PARK.**

WHEREAS, on August 15, 1995, the City Council of the City of Modesto certified the Final Master Environmental Impact Report (“Master EIR”) (SCH # 92052017) for the Modesto Urban Area General Plan, and

WHEREAS, on March 4, 2003, the City Council of the City of Modesto certified an Update to the Master EIR (SCH # 19990820) for the Modesto Area General Plan, and

WHEREAS, Sections 15070 to 15073 of the CEQA Guidelines relating to Initial Study/Mitigated Negative Declaration permits a lead agency to prepare an Initial Study/Mitigated Negative Declaration on any proposed project to analyze whether the project may cause any significant effect on the environment, and

WHEREAS, the Parks, Recreation and Neighborhoods Department proposes to construct the Neighborhood Center at Marshall Park (“Project”) which consists of a joint service facility and amenities at an existing neighborhood park to house a fire station, a Police Area Command Office and new recreation offices, and

WHEREAS, the Parks, Recreation and Neighborhoods Department, prepared an Initial Study (Environmental Assessment EA/PR&N No. 2003-06), dated January 22, 2004 (“IS”), which reviewed the proposed Project pursuant to Section 21157.5 of the Public Resources Code to analyze whether the proposed project is within the scope of the Master Environmental Impact Report, and

WHEREAS, feasible mitigation measures were incorporated to revise the subsequent project before the Initial Study/Mitigated Negative Declaration was released for public review pursuant to CEQA Section 21092 in order to avoid or mitigate the identified effects to a point where clearly no significant effect on the environment will occur, and

WHEREAS, the IS lead to the preparation, circulation and posting, pursuant to Sections 15070 and 15105 of the CEQA Guidelines, of an Initial Study / Environmental Assessment EA/PR&N 2003-07 and a Mitigated Negative Declaration / Finding of No Significant Impact, dated January 22, 2004, (SCH# 2004022070) ("IS/MND"), a copy of which is on file in the City Clerk's Office, and

WHEREAS, the IS/MND was released for public review and comment for the required 30-day period beginning on February 12, 2004, and ending on March 15, 2004, and

WHEREAS, no comments were submitted in response to the proposed IS/MND which would require a revision of the proposed IS/MND, and

WHEREAS, Findings Approving a Mitigated Negative Declaration and Adopting Mitigation Measures as Performance Standards and Design Criterion for the Neighborhood Center at Marshall Park have been prepared and are attached hereto as **Exhibit A**, and

WHEREAS, in a public hearing on March 23, 2004, the City Council considered the IS/MND for the proposed construction of the Neighborhood Center at Marshall Park, together with all comments received during the public review and circulation period and responses thereto, if any,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study/Environmental Assessment EA/PR&N 2003-06 and the Mitigated Negative Declaration/Finding of No Significant Impact (SCH# 2004022070) ("IS/MND") for the proposed Project, a copy of which is on file in the Parks,

Recreation and Neighborhoods Department, together with all comments received during the public review and circulation period, and based on the substantial evidence included in said IS/MND makes the following findings:

1. An IS/MND has identified potentially significant effects on the environment from the proposed project that were not analyzed in the Master EIR. These additional significant environmental effects are potential impacts to Traffic; Noise; Drainage, Flooding and Water Quality; and Storm Drainage.

2. Feasible mitigation measures or alternatives were incorporated to revise the proposed subsequent project, before the IS/MND were released for public review in order to avoid or mitigate the potential effects to a point where clearly no significant effect on the environment will occur.

3. There is no substantial evidence in light of the whole record before the public agency that the proposed project, as revised, may have a significant effect on the environment.

4. Based on the above-referenced Initial Study and feasible mitigation measures incorporated to revise the proposed project in order to avoid the effects or mitigate the effects to the point where clearly no significant effect on the environment will occur, staff finds that a Mitigated Negative Declaration should be adopted pursuant to CEQA Section 15070-15073 for the proposed Neighborhood Center at Marshall Park Project.

5. Although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because the mitigation measures described above and below have been added to the project. A Mitigated Negative Declaration will therefore be adopted.

6. The cumulative impacts of this project are consistent with those set forth in the Master EIR for the Modesto Urban Area General Plan and the Update to the Master EIR. All

appropriate mitigation measures from the Master EIR and Update to the Master EIR have been incorporated into the project, and no further evaluation of cumulative impacts is required as this project generates no significant cumulative impact.

7. City Council hereby adopts the Findings attached hereto as Exhibit A, which provide substantial evidence to support the findings 1 through 6, above.

8. As required by CEQA Section 21081.6 et seq., a mitigation monitoring program will be, and hereby is adopted as set forth in Exhibit B attached hereto.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that, based on the above findings, the City of Modesto hereby adopts the Initial Study/Environmental Assessment EA/PR&N 2003-06 and the Mitigated Negative Declaration/Finding of No Significant Impact (SCH# 2004022070) for the proposed construction of the Neighborhood Center at Marshall Park by the City of Modesto, a copy of which is on file with the City Clerk's Office, and hereby designates the Parks Planning and Development Services Division of the Parks, Recreation and Neighborhoods Department as the custodian of the documents or other material which constitute the record of proceedings upon which this decision is based, and specifies the Department of Parks, Recreation and Neighborhoods, 1010 Tenth Street, Suite 4400, Modesto, California, as the location of said documents.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the City Clerk is hereby authorized and directed to file a Notice of Determination with the County Clerk's Office within five (5) working days of the date of this determination, pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of March, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Hawn, Jackman, Keating, Marsh, O'Bryant,  
Mayor Ridenour

NOES: Councilmembers: None

ABSENT: Councilmembers: Dunbar

ATTEST: Jean Zahr  
JEAN ZAHR, City Clerk

APPROVED AS TO FORM:

By Michael D. Milich  
MICHAEL D. MILICH, City Attorney

# NEIGHBORHOOD CENTER AT MARSHALL PARK

----	--------------------------

**INITIAL STUDY AND FINDINGS  
DRAFT MITIGATED NEGATIVE DECLARATION**

**PROPOSED DESIGN AND DEVELOPMENT OF THE NEIGHBORHOOD CENTER AT MARSHALL  
PARK**

**EA/PR&N – 2003– 06  
January 22, 2004**

**1. Purpose of Initial Study:**

Section 15177 of the CEQA Guidelines allows for limited environmental review of subsequent projects under a General Plan Master EIR, provided that certain findings are made. The Modesto Urban Area General Plan Master EIR (SCH No. 1999082041), adopted March 4, 2003, allows such limited review for projects in the Baseline Developed Area that are consistent with the General Plan and existing zoning.

This Initial Study, in accordance with Section 15177 of the CEQA Guidelines, analyzes:

- A. Whether this project may cause additional significant effects on the environment that were not examined in the General Plan Master EIR.
- B. Whether new additional mitigation measures or alternatives will be required as result of this project that were not previously considered in the General Plan Master EIR.
- C. Whether the proposed project is described within the scope of the General Plan Master EIR.

**2. Project Title:**

Neighborhood Center at Marshall Park

**3. Lead agency name and address:**

City of Modesto, P.O. Box 642, Modesto, CA 95353  
(Responsible Agency) Recreation and Neighborhoods Department  
1010 Tenth Street, Suite 4400, P.O. Box 642, Modesto, CA, 95353

**4. Contact person and phone number:**

Robert J. Ford, Project Coordinator, Parks, Recreation and Neighborhoods Department,  
(209) 577-5437 email: [bford@modestogov.com](mailto:bford@modestogov.com)

**5. Project location:**

The proposed project is located in the southwestern portion of the City of Modesto in north-central Stanislaus County, California (please see **Figures 1** and **2**). As proposed, the Neighborhood Center at Marshall Park would occupy 1 acre of the existing 6.81-acre James Marshall Neighborhood Park located at 440 Sutter Avenue (at the southwest corner of Sutter and Chicago Avenues). (APN #: 033-022-001)

**6. Project sponsor's name and address:**

City of Modesto  
Parks, Recreation and Neighborhoods Department  
P.O. Box 642, Modesto, CA 95353

**EVALUATION OF ENVIRONMENTAL IMPACTS:  
FOR A PROPOSED SUBSEQUENT PROJECT TO GENERAL PLAN MASTER EIR**

The following sections evaluate the proposed subsequent project to the City's General Plan Master EIR pursuant to CEQA Section 21157.1 (b) whether the subsequent project may cause any significant effect on the environment that was not examined in the master environmental impact report, and, if so, make a determination pursuant to Section 21157.5 which requires a mitigated negative declaration to be prepared for a proposed subsequent project if both of the following occur:

- (1) An initial study has identified potentially new or additional significant effects on the environment that were not analyzed in the master environmental impact report.
- (2) Feasible mitigation measures or alternatives will be incorporated to revise the proposed subsequent project, before the negative declaration is released for public review, in order to avoid the effects or mitigate the effects to a point where clearly no significant effect on the environment will occur.

The following analysis is based on Exhibit G of the CEQA Guidelines and adapted to reflect the eighteen environmental subject areas in the City of Modesto's General Plan Master EIR.

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

**I. TRAFFIC AND CIRCULATION NEEDS** – Compared to the General Plan Master EIR certified for the Modesto Urban Area General Plan, will the project result in increased impacts that would:

- |  |                          |                                     |                                     |                                     |
|--|--------------------------|-------------------------------------|-------------------------------------|-------------------------------------|
| a) Cause an increase in traffic which is substantial in relation to the existing traffic load and capacity of the street system (i.e., result in a substantial increase in either the number of vehicle trips, the volume to capacity ratio on roads, or congestion at intersections)? | <input type="checkbox"/> | <input type="checkbox"/>            | <input checked="" type="checkbox"/> | <input type="checkbox"/>            |
| b) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways?   | <input type="checkbox"/> | <input type="checkbox"/>            | <input checked="" type="checkbox"/> | <input type="checkbox"/>            |
| c) Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks?  | <input type="checkbox"/> | <input type="checkbox"/>            | <input type="checkbox"/>            | <input checked="" type="checkbox"/> |
| d) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?   | <input type="checkbox"/> | <input type="checkbox"/>            | <input checked="" type="checkbox"/> | <input type="checkbox"/>            |
| e) Result in inadequate emergency access?  | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/>            | <input type="checkbox"/>            |
| f) Result in inadequate parking capacity?  | <input type="checkbox"/> | <input type="checkbox"/>            | <input type="checkbox"/>            | <input checked="" type="checkbox"/> |

- c) The Neighborhood Center at Marshall Park is proposed to be constructed inside the existing James Marshall Neighborhood Park, and will be served by the same roadway system as the existing James Marshall Neighborhood Park, as adopted in the General Plan. As a result, the project would have no impact resulting in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks that has not already been addressed in the MEIR.
- d) The Neighborhood Center at Marshall Park will be served by the same roadway system as the existing James Marshall Neighborhood Park, as adopted in the General Plan. The response driveway accessing Sutter Street will be managed in accordance with typical Fire Code and Fire Department standards resulting in a less than significant impact in substantially increasing hazards due to a design feature.
- e) The Neighborhood Center at Marshall Park will be served by the same roadway system as the existing James Marshall Neighborhood Park, as adopted in the General Plan. The design of the park is such that access is provided for emergency vehicles along the paths throughout the park. The response driveway accessing Sutter Street will be managed in accordance with typical Fire Department standards. Parking lots accessed from Chicago Avenue have been designed to provide for proper emergency access. There would be no impact that would result in inadequate emergency access.

As a part of the development of the Neighborhood Center at Marshall Park, the following provision shall be incorporated into the design:

- MM1.1.1** Keep Clear Zone – Prior to final project approval, the project site plan shall locate a “Keep Clear Zone” where the response driveway accesses Sutter Street. The “Keep Clear Zone” shall conform to applicable City Standards.

*Timing/Implementation: Prior to final project approval.*

*Enforcement/Monitoring: City of Modesto Planning Department.*

- f) Construction plans show two new parking lots to be added, adjacent to and accessed by Chicago Avenue. The larger of the two lots, to the west, will provide 23 new parking spaces and will serve park and facility visitors. The lot to the east will add 10 more spaces serving Neighborhood Center at Marshall Park Staff. Therefore, there would be no impact that would result in inadequate parking capacity.
- g) This project would locate a fire response driveway accessing Sutter Street approximately 60 feet south of its intersection with Chicago Avenue. There is currently a covered Modesto Area Express (MAX) bus stop along Sutter Street (Route 21) at or very near the space proposed to be used for the new fire response driveway. The bus stop would be relocated but would remain as close as feasible to its current location. Therefore, there would be no impact that would conflict with adopted policies, plans or programs supporting alternative transportation (e.g. bus turnouts, bicycle racks).

As a part of the development of the Neighborhood Center at Marshall Park, the following provision shall be incorporated into the design:

The project site is located in the San Joaquin Valley Air Basin (SJVAB), defined by the Sierra Nevada in the east, the Coast Ranges in the west, and the Tehachapi mountains in the south. Under the federal Clean Air Act, the San Joaquin Valley Air Basin is a non-attainment area for ozone and PM<sub>10</sub> (particulate matter, ten micron or less). The San Joaquin Valley Unified APCD's *PM<sub>10</sub> Attainment Demonstration Plan* (PM<sub>10</sub> ADP) was recently withdrawn and work is proceeding on a revised attainment plan (there is no state PM<sub>10</sub> plan). The federal regional ozone plan is the *1994 Ozone Attainment Demonstration Plan* (OADP) and *Amended 2002 and 2005 Rate of Progress Plan*. The state-mandated ozone attainment plan is the *California Clean Air Act Triennial Progress Report and Plan Revision 1997-1999*.

The General Plan Master EIR requires that the San Joaquin Valley Unified Air Pollution Control District review all discretionary projects for air quality impacts. Since traffic impacts are no greater than those anticipated in the General Plan Master EIR, the proposed project would not cause additional impacts to air quality beyond those described in the Degradation of Air Quality section of the MEIR. Temporary air quality degradation during construction and development of the site is expected, and controls will be established to reduce these impacts. The Final General Plan Master EIR introduces two new mitigation measures to be implemented by the City of Modesto to reduce PM<sub>10</sub> impacts caused by construction. Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Degradation of Air Quality (pages V-2-1 through V-2-26) remain valid as discussed below. In an effort to further protect air quality, the City of Modesto has added two new PM<sub>10</sub> Control measures found on pages V-2-24 and V-2-25 (AQ-1 through AQ-18) of the General Plan Master EIR.

#### **Discussion:**

- a) Under the existing applicable air quality plan(s), a project would be judged to conflict with implementation of the regional air quality plan if it would be inconsistent with the growth assumptions, in terms of population, employment or regional growth in Vehicle Miles Traveled. A project would obstruct implementation of the regional air quality plan if it would interfere with implementation of the Transportation Control Measures contained in the plans. Construction of the Neighborhood Center at Marshall Park would not generate significantly greater traffic than what is anticipated in the General Plan Master EIR, as discussed in the Traffic and Circulation section of this Initial Study. The project would not conflict with any of the growth assumptions made in the preparation of these plans nor obstruct implementation of any of the proposed control measures contained in these plans. The mitigation measures defined in the General Plan Master EIR will be implemented with a Mitigation Monitoring Program to minimize air quality impacts. Therefore, there would be no impact to conflict with or obstruct the implementation of the San Joaquin Valley Unified Air Pollution Control District air quality plan.

**MM 1.2.1** The following City of Modesto Master EIR policies AQ-1 through AQ-18 shall be implemented to reduce PM<sub>10</sub> emission impacts:

- a. SJVUAPCD Regulation VIII Control Measures for Construction Emissions of PM<sub>10</sub>. The following controls are required to be implemented at all construction sites:
1. All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover.
  2. All on-site unpaved roads and off-site unpaved roads access roads shall be effectively stabilized of dust emissions using water or chemical stabilizer/suppressant.

(Regardless of windspeed, an owner/operator must comply with Regulation VIII's 20 percent (20%) opacity limitation).

*Timing/Implementation: Upon commencement of grading and construction activities.*

*Enforcement/Monitoring: City of Modesto Planning Department.*

- b) The SJVUAPCD significance threshold for construction dust impacts is based on the appropriateness of construction dust controls. The San Joaquin Valley Unified Air Pollution Control District regulates construction emissions through its Regulation VIII. Regulation VIII requires a formal dust control plan, and violations of the requirements of Regulation VIII are subject to enforcement action. The provisions of Regulation VIII pertaining to construction activities require:
- Effective dust suppression for land clearing, grubbing, scraping, excavation, land leveling, grading, cut and fill and demolition activities.
  - Effective stabilization of all disturbed areas of a construction site, including storage piles, not used for seven or more days.
  - Control of fugitive dust from on-site unpaved roads and off-site unpaved access roads.
  - Removal of accumulations of mud or dirt at the end of the work day or once every 24 hours from public paved roads, shoulders and access ways adjacent to the site.
- Project compliance would lead to no significant impact that would result in the violation of any air quality standard or contribute substantially to an existing or projected air quality violation.
- c) The SJVUAPCD's Guide for Assessing and Mitigating Air Quality Impacts identifies types and sizes of projects that have no possibility of exceeding the District's ozone precursor thresholds of significance. This project size is 57,000 square feet for a government civic center project, or 23,000 square feet for a government office building. As proposed, the project is 13,000 square feet, and therefore well below either of these minimum sizes, meaning the project would have a less than significant impact and would have no possibility of exceeding the District's ozone precursor thresholds of significance.
- d) The project would not regularly release any toxic air contaminants. Area source emissions from on-site would be limited to emissions from combustion of natural gas for space and water heating. Project vehicle trip generation would not have the potential to cause an exceedance of the state or federal ambient air quality standards for carbon monoxide. Therefore the project would have a less than significant impact in exposing sensitive receptors to substantial pollutant concentrations.
- e) Various diesel-powered vehicles and equipment in use on the site would create odors during construction. These odors are temporary and not likely to be noticeable to sensitive receptors much beyond construction boundaries. There would be no operational sources of odors associated with the project. Therefore the project would have a less than significant impact on odors affecting a substantial number of people.

the emergency vehicles move away. However, noise generation associated with this project is exempted under Chapter 4 of Title 4 of the City of Modesto Municipal Code (Chapter 9 NOISE REGULATION, 4-9.104 Exemptions, (a), (b), and (d)). Therefore, the project will result in no significant impact to in exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies.

- b) Groundborne vibration or groundborne noise generation can be expected to slightly increase with the added presence of emergency service vehicles such as fire engines and police vehicles. Equipment and apparatus that support the emergency service substations may also contribute to groundborne vibration or noise, but are not generally anticipated to be significant. However, groundborne vibration or groundborne noise generation associated with this project is exempted under Chapter 4 of Title 4 of the City of Modesto Municipal Code (Chapter 9 NOISE REGULATION, 4-9.104 Exemptions, (a), (b), and (d)). Therefore, the project will result in no significant impact to exposure of persons to or generation of excessive groundborne vibration or groundborne noise levels.
- c) Daily operations associated with the project are not anticipated to consistently generate noise levels beyond what is already provided for in the MEIR in the James Marshall Neighborhood Park setting. However, generation of ambient noise may increase, with periodic temporary noise increases due to use of emergency service vehicles and sirens. Noise generation associated with emergency services would be exempted under Chapter 4 of Title 4 of the City of Modesto Municipal Code (Chapter 9 NOISE REGULATION, 4-9.104 Exemptions, (a), (b), and (d)). Therefore, the project will result in no significant impact that would result in a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project.
- d) Noise generation associated with this project is exempted under Chapter 4 of Title 4 of the City of Modesto Municipal Code (Chapter 9 NOISE REGULATION, 4-9.104 Exemptions, (a), (b), and (d)). Noise related to construction activities is addressed in the City of Modesto Municipal Code (Section 4-9.101), which limits construction-type activities to the hours of 7:00AM to 9:00PM on weekdays and to the hours of 9:00AM to 9:00PM on weekends and holidays. Project compliance would lead to there being a less than significant impact in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project.
- e) Because the proposed Neighborhood Center at Marshall Park would be located outside the noise contour of the Modesto City-County Airport, (Figure 3-2 MEIR) as analyzed in the General Plan Master EIR, its development would result in no impact to an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, and the project would not expose people residing or working in the project area to excessive noise levels.
- f) Because the proposed Neighborhood Center at Marshall Park would be located in the Redevelopment Planning District of the General Plan, where there are no private airstrips, and it was analyzed in the General Plan Master EIR, its development would result in no impact to a private airstrip, nor would the project expose people residing or working in the project area to excessive noise levels.

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

**V. INCREASED DEMAND FOR WATER SUPPLIES - Compared to the General Plan Master EIR certified for the Modesto Urban Area General Plan, will the project result in increased impacts that would:**

- a) Have sufficient water supplies available to serve the project from existing entitlements and resources, or are new or expanded entitlements needed?
- b) Require or result in the construction of new water treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effect?

The City of Modesto adopted the following significance standard in the adopted General Plan Master EIR:

The Urban Area General Plan will have a significant impact on long-term water supplies if development will result in water demand that exceeds the capacity for recharge or that will contribute to overdraft of the groundwater basins. (page V-5-11)

It is not anticipated that the proposed 13,000 square foot municipal service center could generate a demand that would approach this criteria. In addition, the facility would be located in an area already adequately serviced by existing water infrastructure and facilities. And, because integration of a municipal services facility into an existing park is consistent with specific language in Chapter 5, Sections G and K of the City of Modesto's General Plan, the project would be consistent with buildout scenarios examined by the Urban Area General Plan Master EIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Water Supplies (pages V-5-1 through V-5-13) remain valid as discussed below.

**Discussion:**

- a) Because construction of the proposed Neighborhood Center at Marshall Park would not result in a significant increase in water demand within the developed James Marshall Neighborhood Park, there would be no impact to water supplies available to serve the project from existing entitlements and resources, and no new or expanded entitlements would be needed.
- b) Because construction of the proposed Neighborhood Center at Marshall Park would not result in a significant increase in water demand within the developed James Marshall Neighborhood Park, there would be no impact to any requirement or need for the construction of new water treatment facilities or expansion of existing facilities, the construction of which would cause significant environmental effects.

facilities that contribute to sewer demand are few and in aggregate would not produce an increase that would exceed the capacity of the existing system. It is expected that project development will deliver a determination by the wastewater treatment provider serving the project (City of Modesto) that it has adequate capacity to serve the project's projected demand.

- b) Because new facilities proposed in the Neighborhood Center at Marshall Park that contribute to sewer demand are few and in aggregate would not produce an increase that would exceed the capacity of the existing system as outlined in the City of Modesto Urban Area General Plan, the project would not generate increased demand for sanitary sewer services over what was assumed in the General Plan Master EIR. Therefore, the project would result in no significant impact to wastewater treatment requirements of the applicable Regional Water Quality Control Board.
- c) Because new facilities proposed in the Neighborhood Center at Marshall Park that contribute to sewer demand are few and in aggregate would not produce an increase that would exceed the capacity of the existing system as outlined in the City of Modesto Urban Area General Plan, the project would not generate increased demand for sanitary sewer services over what was assumed in the General Plan Master EIR. Therefore, the project would result in no significant impact to a requirement for or result in the construction of new wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effect.

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

VII. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT - Compared to the General Plan Master EIR certified for the Modesto Urban Area General Plan, will the project result in increased impacts that would:

- a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U. S. Fish and Wildlife Service?
- b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or U. S. Fish and Wildlife Service?
- c) Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?

habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or U.S. Fish and Wildlife Service.

- c) As described in the Project Description of the document there are no water features on the project site, and therefore no wetlands or other waters of the U.S. occur in the project study area. Since there are no wetlands in the project area, the construction of the Neighborhood Center at Marshall Park will have no impact on federally protected wetlands as defined by Section 404 of the Clean Water Act.
- d) The project site does not contain sensitive habitat, a riparian corridor, or any water features, and therefore construction of Neighborhood Center at Marshall Park would have no impact on the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites.
- e) The proposed project includes uses that are consistent with the standards set by the City of Modesto Urban Area General Plan, which is consistent with what was analyzed in the General Plan Master EIR. Further, the City of Modesto does not currently have a Tree Protection Ordinance in place. The only local ordinance or policy that would protect biological resources is the General Plan and the subsequent MEIR. As the Neighborhood Center at Marshall Park is not located in area determined to be Sensitive Biological Habitat as defined by the General Plan, and the development of the service center is consistent with the General Plan Park Standards for a Neighborhood Park, it can be concluded that there will be no impact or conflict with any local policies or ordinances protecting biological resources.
- f) The proposed project does not conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan. Therefore there is no impact.

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

**VIII. DISTURBANCE OF ARCHAEOLOGICAL OR HISTORICAL SITES - Compared to the General Plan Master EIR certified for the Modesto Urban Area General Plan, will the project result in increased impacts that would:**

- a) Cause a substantial adverse change in the significance of a historical resource as defined in §15064.5?
- b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to §15064.5?
- c) Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?
- d) Disturb any human remains, including those interred outside of formal cemeteries?

This project will not disturb any archaeological or historic sites that have been identified in the Disturbance of Archaeological or Historical Sites section of the MEIR. Figure 8-1 of the MEIR indicates

substantial adverse change in the significance of an archaeological resource pursuant to §15064.5.

**MM 1.8.1** In the event that any prehistoric or historic subsurface cultural resource is discovered during construction-related activity, all work within 50 feet of the resource shall be halted. The City shall consult with a qualified archaeologist to assess the significance of the find. If any find were determined to be significant by the qualified archaeologist, then the City, the developer and the archaeologist would meet to determine the appropriate course of action. Mitigation measures, as recommended by the archaeologist and approved by the City in accordance with Section 15064.5 of the CEQA Guidelines, shall be implemented prior to recommencement of construction activity within the 50-foot perimeter. If Native American resources are involved, Native American organizations and individuals recognized by the City shall be notified and consulted regarding any plans for treatment.

*Timing/Implementation: Upon commencement of project construction activities.*

*Enforcement/Monitoring: City of Modesto Planning Department*

- c) As indicated in the discussion above, this area has no known archaeological sites within the project area. Based on the intensive field survey of the Neighborhood Center at Marshall Park conducted on June 7, 2003, it was concluded that there is no impact above what has already been studied in the MEIR, to directly or indirectly destroy a unique paleontological resource or site or unique geologic feature.
- d) As indicated in the discussion above, this area has no known archaeological sites within the project area. The Management Summary of the Archaeological Resources Inventory states that "[i]f human remains are discovered, California Health and Safety Code Section 7050.5 states that no further disturbance shall occur until the county coroner has made the necessary findings as to origin and disposition pursuant to Public Resources Code Section 5097.8. Therefore, with the existing General Plan mitigation measures in place, it can be concluded that there is no impact, above what has already been studied in the MEIR, to disturb any human remains, including those interred outside of formal cemeteries.

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

**IX. DRAINAGE, FLOODING AND WATER QUALITY - Compared to the General Plan Master EIR certified for the Modesto Urban Area General Plan, will the project result in increased impacts that would:**

- a) Violate any water quality standards or waste discharge requirements?
- b) Substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support the land uses or planned uses for which permits have been granted)?

- b) It is not anticipated that the proposed 13,000 square foot facility would substantially deplete groundwater supplies or interfere substantially with groundwater recharge. In addition, the integration of a municipal services facility into an existing park is consistent with specific language in Chapter 5, Sections G and K of the City of Modesto's General Plan, and consistent with buildout scenarios examined by the Urban Area General Plan Master EIR. Therefore, the project would result in a less than significant impact to substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted).
- c) Although the project will require some grading on the site, after incorporation of design mitigations described in **Exhibit D**, the existing drainage patterns of the site or area will not significantly change. Therefore, the project would result in an impact that would be less than significant with mitigation incorporated (MM 1.9.1) to substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner which would result in substantial erosion or siltation on- or off-site.
- d) Generally, integration of a municipal services facility into a park is consistent with specific language in Chapter 5, Sections G and K of the City of Modesto's General Plan, and consistent with buildout scenarios examined by the Urban Area General Plan Master EIR. In addition, the design mitigations described below would reduce impacts associated with the project would result in a less than significant impact to create or contribute runoff water which would exceed the capacity or existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff.

**MM 1.9.1** As a part of the development of the Neighborhood Center at Marshall Park, the following drainage provisions shall be incorporated into the grading and drainage design:

1. *Elevate Buildings* – Since the site is located in a portion of the City that is not served by positive storm drain facilities, the building pads shall be elevated a minimum of 1.0 feet above the adjacent top of curb elevations for Chicago Avenue and Sutter Avenue in conformance with City Standards.
2. *Grading* – The proposed site buildings and contiguous development features on the south side of the buildings should drain to the rear (south) and into the interior of the existing park towards the existing low-lying area. The south portion of the staff and visitor parking area in the northwest portion of the proposed development should also drain to the interior of the existing park, around the west edge of the proposed police/recreation office building. The north portion of the staff and visitor parking area and the fire department yard/staff parking may drain to Chicago Avenue along the north frontage. The fire department response driveway and portions of contiguous landscaping may drain to Sutter Avenue along the east frontage.
3. *Rock Well* – Runoff increases created by the portions of the Neighborhood Center at Marshall Park development that are recommended to drain to the low-lying area within the interior of the park may be sufficient to warrant the installation of a new rock well near the existing rock well to improve drainage. The need for a new rock well may be determined by the City, based on an interpretation of any prior maintenance issues.
4. *Stormwater Quality Control Measures* – The site development shall include stormwater quality control measures that conform with the requirements set forth in the City policy document entitled "Guidance Manual for New Development Stormwater Quality

Construction of the Neighborhood Center at Marshall Park will increase rates of runoff production compared with the existing condition. There is existing curb and gutter along the northern perimeter of the site, at Chicago Avenue. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Storm Drainage (pages V-9-1 through V-9-13) are still valid for the reasons discussed below.

**Discussion:**

- a) The incorporation of paved surfaces and vehicle parking on the site may produce impacts to downstream stormwater quality if not mitigated, due to the potential introduction of petroleum hydrocarbons, oil and grease into storm runoff. This potential shall be appropriately mitigated as a part of site development (as detailed above in Section VIII DRAINAGE, FLOODING AND WATER QUALITY). The overall rates and volumes of runoff production that will drain to adjacent streets and leave the site are considered to be less than significant with mitigation incorporation (See MM 1.9.1).

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

**XI. INCREASED DEMAND FOR PARKS AND OPEN SPACE - Compared to the General Plan Master EIR certified for the Modesto Urban Area General Plan, will the project result in increased impacts that would:**

- a) Would the project increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?
- b) Does the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment?

This proposed project consists of constructing a joint municipal services facility (and amenities) inside the existing James Marshall Neighborhood Park. Integration of a municipal services facility into an existing park is consistent with specific language in Chapter 5, Sections G and K of the City of Modesto's General Plan, and therefore the project would be consistent with buildout scenarios examined by the Urban Area General Plan Master EIR.

As proposed, the Neighborhood Center at Marshall Park would occupy 1 acre in the northeast portion of the existing 6.81-acre park. No recreation facilities will be removed in association with the proposed project, and the proposed plan does not conflict with established recreational, educational, religious, or scientific use of the park. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Parks and Open Space (pages V-11-1 through V- 11-14) remain valid as discussed below.

The Stanislaus Resource Recovery Facility (SRRF) and the Fink Road Landfill serve the project area. Capacity at SRRF is 3,000,000 tons, and capacity at the landfill is 6,000,000 tons, which is currently in process for expansion.

The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Solid Waste (pages V-15-1 through V-15-10) remain valid, as discussed below.

**Discussion:**

- a) The project proposes the integration of city services into the James Marshall Neighborhood Park, and is consistent with the General Plan in land use. Because the proposed integration of services into an existing park is consistent with specific language in Chapter 5, Sections G and K of the City of Modesto's General Plan, it is consistent with the findings of the Urban Area General Plan Master EIR, the proposed project will not present any generation of solid waste that has not already been addressed in the MEIR. In addition, based on the existing capacity of the SRRF and the landfill serving the project area, construction and planned uses of the proposed 13,000 square foot facility would result in a less than significant impact to increase demand for service by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs.
  
- b) The project proposes the integration of city services into the James Marshall Neighborhood Park, and is consistent with the General Plan in land use. This project will not cause the generation of solid waste that would breach published national, state, or local standards relating to solid waste or litter control, or beyond that which is identified in the MEIR. Therefore, the project would result in no impact to compliance with federal, state, and local statutes and regulations related to solid waste.

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

**XVI. GENERATION OF HAZARDOUS MATERIALS** - Compared to the General Plan Master EIR certified for the Modesto Urban Area General Plan, will the project result in increased impacts to:

- a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?
  
- b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?
  
- c) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?

than small amounts of "household" or typical office cleaning chemicals. Integration of City services into an existing park is consistent with specific language in Chapter 5, Sections G and K of the City of Modesto's General Plan, and is consistent with buildout scenarios examined by the Urban Area General Plan Master EIR. Therefore, there is a less than significant impact to create a significant hazard to the public or the environment greater than that studied in the General Plan MEIR through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment.

- c) Transport of hazardous materials is strictly regulated by federal, state, and local agencies. Hazardous materials are not anticipated to be a part of operations at the service center, other than small amounts of "household" or typical office cleaning chemicals. Although the Neighborhood Center at Marshall Park will be located adjacent to an existing school within the boundaries of the Urban Area General Plan, integration of city services into an existing park is consistent with specific language in Chapter 5, Sections G and K of the City of Modesto's General Plan, and is consistent with buildout scenarios examined by the Urban Area General Plan Master EIR. Therefore, there is a less than significant impact to emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school greater than that studied in the General Plan MEIR.
- d) Based on a review of the lists describing hazardous material sites (under Section 65962.5 of the Government Code) it was determined that there are no listed hazardous materials presently located within the immediate vicinity of the project site. However, the Stanislaus County Environmental Review Committee recently identified a site located within 500 feet of the proposed project. The site, located at 505 Paradise Road, is currently being investigated for contamination by constituents associated with underground storage tanks. Little information has been developed to date, except that the County Department of Environmental Resources is actively investigating the extent of soil and groundwater contamination. Preliminary indications are that effects on the proposed project site are not anticipated. Therefore, impacts associated with health and safety concerns related to the presence of documented hazardous sites are considered to be less than significant.
- e) The proposed site for the Neighborhood Center at Marshall Park is not located within the Modesto City-County Airport Land Use Planning Area Boundary as indicated in the Airport Land Use Commission Plan, adopted August 3, 1978. Therefore, there is no impact to result in a safety hazard for people residing, working or visiting the project area.
- f) Because the proposed Neighborhood Center at Marshall Park would be located in the Baseline Developed Area of the General Plan, and there are no private airstrips within or adjacent to the Modesto General Plan Area, its development would result in no impact to a private airstrip, or to result in a safety hazard for people residing or working in the project area.
- g) Because the Neighborhood Center at Marshall Park will be located within the boundaries of the Urban Area General Plan and will be consistent in use and intensity with Neighborhood Park standards, there is no impact that would impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan.
- h) Because the proposed project location would be in a mostly-developed urban area, there is no impact, beyond that already studied in the MEIR, to expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands.

Construction of the proposed 13,000 square foot facility is not anticipated to increase any existing risk associated with faults. Therefore, locating the Neighborhood Center at Marshall Park would result in no impact to expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault.

- b) The Uniform Building Code indicates that Modesto is in Zone 3, a lower risk zone. It is anticipated that project construction would comply with all related codes, ordinances, and regulations. Construction of the proposed 13,000 square foot facility is not anticipated to increase any existing risk associated with ground shaking. Therefore, locating the Neighborhood Center at Marshall Park would result in no impact to expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving strong seismic ground shaking.
- c) According to the General Plan Master EIR Modesto predominantly lies on young alluvial fans. Liquefaction can occur in areas of unconsolidated sediments, but the risk has not precluded construction in the vicinity. Construction of the proposed 13,000 square foot facility is not anticipated to increase any existing risk associated with liquefaction. Locating the Neighborhood Center at Marshall Park would result in no impact to expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving seismic-related ground failure, including liquefaction.
- d) The General Plan Master EIR states that because the general slope in the Modesto area is very slight, the potential for slope failures is reported to be minimal. Construction of the proposed 13,000 square foot facility is not anticipated to increase any existing risk associated with landslides. Therefore, locating the Neighborhood Center at Marshall Park would result in no impact to expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving landslides.
- e) Erosion by wind or rain may occur when soils are exposed at the surface by construction activities. And while construction of the proposed 13,000 square foot facility may increase the site's exposure to erosion, it is anticipated that project construction would comply with all applicable codes, ordinances, and regulations including BMPs. Therefore, locating the Neighborhood Center at Marshall Park would result in no impact to result in substantial soil erosion or the loss of topsoil.
- f) The General Plan Master EIR states that because the general slope in the Modesto area is very slight, the potential for slope failures is reported to be minimal. Construction of the proposed 13,000 square foot facility is not anticipated to increase any existing risk associated with landslides. Therefore, locating the Neighborhood Center at Marshall Park would result in no impact to being located on a geological unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse.
- g) The Modesto Urban Area is reported to not have soils with a great potential for expansion. Therefore, locating the Neighborhood Center at Marshall Park would result in no impact to being located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property.
- h) Integration of a municipal service facility into an existing park is consistent with specific language in Chapter 5, Sections G and K of the City of Modesto's General Plan, and is consistent with buildout scenarios examined by the Urban Area General Plan Master EIR. Because the

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

**XVIX. AESTHETICS** - Compared to the Master EIR certified for the Modesto Urban Area General Plan, would the project:

- |  |                          |                                     |                                     |                                     |
|--|--------------------------|-------------------------------------|-------------------------------------|-------------------------------------|
| a) Have a substantial adverse effect on a scenic vista?  | <input type="checkbox"/> | <input type="checkbox"/>            | <input checked="" type="checkbox"/> | <input type="checkbox"/>            |
| b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway? | <input type="checkbox"/> | <input type="checkbox"/>            | <input type="checkbox"/>            | <input checked="" type="checkbox"/> |
| c) Substantially degrade the existing visual character or quality of the site and its surroundings?  | <input type="checkbox"/> | <input type="checkbox"/>            | <input type="checkbox"/>            | <input checked="" type="checkbox"/> |
| d) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?                                    | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/>            | <input type="checkbox"/>            |

This use will result in an improvement of aesthetics in the project area by adding to an existing urban park, and is not anticipated to degrade the aesthetic character of the area in any significant way.

**Discussion:**

- a) The proposed project site is in an existing, developed urban park. The park is bounded by residential development to the east and west, and a school to the south. Generally, the park is considered to be in a residential area. Directly north of the project site across Chicago Avenue is a small shopping center with off-street parking. East of the proposed site, across Sutter, is residential housing. There are apartments to the west, and the James Marshall School is located to the south. The addition of the proposed building will not adversely affect a scenic vista or the quality of the surrounding communities and therefore the impact is considered to be less than significant.
- b) The surrounding roadways are not state scenic highways, therefore, there is no impact which would substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway.
- c) The proposed project is within a redevelopment district and will improve the aesthetics of the community. There is no impact to the site and its surroundings.
- c) The City of Modesto is an urban environment with substantial night lighting. The proposed building will have lighting as part of its development plan. There might be the potential to have a significant effect on nighttime views as a result of increased lighting except that the project is already in an urban area with an existing cumulative impact on nighttime views, and the lighting will be mitigated to direct the lighting downwards. Therefore, this project is expected have a less than significant impact on the cumulative problem by the creation of a new source of light or glare which would adversely affect day or nighttime views in the area.

Mitigation Measures identified in this document, it can be concluded that this project has no potential to further degrade the quality of the environment.

- b) Because the proposed integration of a municipal services facility at this location (into an existing park) is generally consistent with the City of Modesto General Plan and buildout scenarios examined by the General Plan Master EIR, the facility does not create impacts which would be considered cumulatively considerable. The MEIR specifically projects development of the entire General Plan by the year 2025, and this project is a small increment of that development. Since the adoption of the MEIR, there are no major projects proposed in the vicinity of this project which would further exacerbate impacts which have not already been reviewed.
- c) Finally, as set forth in both the MEIR and this Initial Study, it is not expected that the project will cause substantial adverse effects on human beings, either directly or indirectly.

## XXI DETERMINATION

Based on substantial evidence provided in the Initial Study, the City of Modesto finds:

- This Initial Study, prepared pursuant to CEQA Section 21157.1, has identified an additional significant environmental effect that was not analyzed in the General Plan Master EIR.
- Feasible mitigation measures will be incorporated to revise the subsequent project before the Negative Declaration and Initial Study is released for public review pursuant to CEQA Section 21092 in order to avoid or mitigate the identified effects to a point where clearly no significant effects on the environment will occur.

The City's Parks, Recreation and Neighborhoods, Engineering and Transportation, Operations and Maintenance, and Community & Economic Development Departments have reviewed the proposed project and have determined the following mitigation measures will address the identified impacts and provide an acceptable level of service.

### Traffic and Circulation Needs:

- MM 1.1.1** Keep Clear Zone – Prior to final project approval, the project site plan shall locate a "Keep Clear Zone" where the response driveway accesses Sutter Street. The "Keep Clear Zone" shall conform to applicable City Standards.

*Timing/Implementation: Prior to final project approval.*

*Enforcement/Monitoring: City of Modesto Planning Department.*

- MM 1.1.2** Relocate Bus Stop – Prior to final project approval, the project site plan shall identify the new bus stop location and design, which shall conform to applicable City Standards.

*Timing/Implementation: Prior to final project approval.*

*Enforcement/Monitoring: City of Modesto Planning Department.*

### Air Quality:

- MM 1.2.1** The following City of Modesto Master EIR policies AQ-1 through AQ-18 shall be implemented to reduce PM<sub>10</sub> emission impacts:

1. Install wheel washers for all exiting trucks, or wash off all trucks and equipment leaving the site;
2. Install wind breaks at windward side(s) of construction areas;
3. Suspend excavation and grading when winds exceed 20 mph; and\*
4. Limit the area subject to excavation, grading, and other construction activity at any one time.

(Regardless of windspeed, an owner/operator must comply with Regulation VIII's 20 percent (20%) opacity limitation).

*Timing/Implementation: Upon commencement of grading and construction activities.  
Enforcement/Monitoring: City of Modesto Planning Department.*

Archaeological:

**MM 1.8.1** In the event that any prehistoric or historic subsurface cultural resource is discovered during construction-related activity, all work within 50 feet of the resource shall be halted. The City shall consult with a qualified archaeologist to assess the significance of the find. If any find were determined to be significant by the qualified archaeologist, then the City, the developer and the archaeologist would meet to determine the appropriate course of action. Mitigation measures, as recommended by the archaeologist and approved by the City in accordance with Section 15064.5 of the CEQA Guidelines, shall be implemented prior to recommencement of construction activity within the 50-foot perimeter. If Native American resources are involved, Native American organizations and individuals recognized by the City shall be notified and consulted regarding any plans for treatment.

*Timing/Implementation: Upon commencement of project construction activities.  
Enforcement/Monitoring: City of Modesto Planning Department*

Drainage, Flooding and Water Quality:

- MM 1.9.1** As a part of the development of the Neighborhood Center at Marshall Park, the following drainage provisions shall be incorporated into the grading and drainage design:
1. *Elevate Buildings* – Since the site is located in a portion of the City that is not served by positive storm drain facilities, the building pads shall be elevated a minimum of 1.0 feet above the adjacent top of curb elevations for Chicago Avenue and Sutter Avenue in conformance with City Standards.
  2. *Grading* – The proposed site buildings and contiguous development features on the south side of the buildings should drain to the rear (south) and into the interior of the existing park towards the existing low-lying area. The south portion of the staff and visitor parking area in the northwest portion of the proposed development should also drain to the interior of the existing park, around the west edge of the proposed police/recreation office building. The north portion of the staff and visitor parking area and the fire department yard/staff parking may drain to Chicago Avenue along the north frontage. The fire department response driveway and portions of contiguous landscaping may drain to Sutter Avenue along the east frontage.

above have been added to the project. A MITIGATED NEGATIVE DECLARATION will be prepared.

I further find that the cumulative impacts of this project are consistent with those set forth in the General Plan Master EIR for the Modesto Urban Area General Plan. This proposed project consists of constructing a joint municipal services facility (and amenities) inside the existing James Marshall Neighborhood Park. Integration of a municipal services facility into an existing park is consistent with specific language in Chapter 5, Sections G and K of the City of Modesto's General Plan, and therefore the project would be consistent with buildout scenarios examined by the Urban Area General Plan Master EIR. The City's Parks, Recreation and Neighborhoods, Engineering and Transportation, Operations and Maintenance, and Community Development Departments have determined that the impacts from this project with mitigation applied will achieve the level of service consistent with the Modesto Urban Area General Plan and General Plan Master EIR. As such, this project would generate no additional cumulative impacts that were not previously addressed in the General Plan Master EIR. All appropriate mitigation measures from the General Plan Master EIR have been incorporated into the project, and no further evaluation of cumulative impacts is required since this project generated no significant cumulative impact.

Chico, CA. 95973

Dear Mr. Ferracone:

The following is my analysis of air quality impacts for the proposed Modesto Westside Service Center. I have prepared my analysis as suggested responses to air quality questions contained in the California Environmental Quality Act (CEQA) checklist. In preparing this analysis I have made use of the methods, assumptions and thresholds of the San Joaquin Valley Unified Air Pollution Control District as described in the District's CEQA guidance document "Guide of Assessing and Mitigating Air Quality Impacts".

## STANDARDS OF SIGNIFICANCE

The CEQA environmental checklist provides five questions regarding air quality impact significance. Where available, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the determinations of significance.

The San Joaquin Valley Air Pollution Control District (SJVUAPCD) has established the following standards of significance:<sup>1</sup>

- A project results in estimated carbon monoxide concentrations exceeding the California Ambient Air Quality Standard of 9 parts per million (PPM) averaged over 8 hours and 20 ppm averaged over 1 hour.
- Project operation results in new direct or indirect emissions of ozone precursors (ROG or NO<sub>x</sub>) in excess of 10 tons per year.
- Any project with the potential to frequently expose members of the public to

---

<sup>1</sup>San Joaquin Valley Unified Air Pollution Control District, Guide for Assessing and Mitigating Air Quality Impacts, August 20, 1998 (Revised June 1, 1999).

Nick Ferracone  
September 3, 2003  
Page 3

A project would be judged to conflict with implementation of the regional air quality plan if it would be inconsistent with the growth assumptions, in terms of population, employment or regional growth in Vehicle Miles Traveled. A project would obstruct implementation of the regional air quality plan if it would interfere with implementation of the Transportation Control Measures contained in the plans. The project would not conflict with any of the growth assumptions made in the preparation of these plans nor obstruct implementation of any of the proposed control measures contained in these plans.

During the construction of the project emissions would be generated by construction equipment and vehicles. Annual emissions from construction have been estimated using the URBEMIS2002 program (output is attached). Annual construction emissions were estimated at 0.28 tons/year for ROG, 0.53 tons/year for NO<sub>x</sub> and 0.13 tons/year for PM<sub>10</sub>.

Construction emissions would not exceed the SJVUAPCD thresholds of significance nor the federal "de minimis" levels that would require a conformity determination. Operational emissions from the project would not exceed the SJVUAPCD thresholds of significant nor the much higher federal "de minimis" levels. The proposed project would therefore not interfere with attainment of the National Ambient Air Quality Standards and would not require a conformity determination.

*b. Violate any air quality standard or contribute substantially to an existing or projected air quality violations?*

*Less than Significant*

*Discussion:* The SJVUAPCD significance threshold for construction dust impacts is based on the appropriateness of construction dust controls. The San Joaquin Valley Unified Air Pollution Control District regulates construction emissions through its Regulation VIII. Regulation VIII requires a formal dust control plan, and violations of the requirements of Regulation VIII are subject to enforcement action. The provisions of Regulation VIII pertaining to construction activities require:

- Effective dust suppression for land clearing, grubbing, scraping, excavation, land leveling, grading, cut and fill and demolition activities.
- Effective stabilization of all disturbed areas of a construction site, including storage piles, not used for seven or more days.

JUN 27 2003

Subject: Westside Service Center at James Marshall Neighborhood Park in the City of Modesto, Stanislaus County, California

Dear Mr. Vieg:

This letter is in response to your request for concurrence from the U.S. Fish and Wildlife Service (Service) that the proposed Westside Service Center at James Marshall Neighborhood Park, located in the City of Modesto, Stanislaus County, California, will not adversely affect federally-listed species. Your letter dated May 12, 2003, was received by our office on May 13, 2003. Our primary concern and mandate is the protection of federally-listed species pursuant to the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*) (Act). Section 9 of the Act prohibits the "take" (e.g., hunt, harm, harass, capture, pursue, injure, kill, trap, or collect) of federally-listed wildlife species. "Harm" (i.e., "take") is further defined to include habitat modification or degradation that kills or injures wildlife by impairing essential behavioral patterns including breeding, feeding, or sheltering.

The proposed Westside Service Center is a 13,000 square-foot joint-use fire, police, and recreation facility, located within the existing James Marshall Neighborhood Park. The project site is an existing urban park, and consists of slightly undulating terrain covered by turfgrass and a mix of native and ornamental trees. There are no water features located at the project site. Based on our review of the project description and the project site, the Service finds that the proposed Westside Service Center is not likely to result in take of federally-listed species. The Service makes this determination based on the lack of evidence of listed species or their habitats at the urban park project site.

reasonable and good faith effort to identify Indian tribes that shall be consulted in the Section 106 process; the federal government has a unique legal relationship with Indian tribes set forth in the Constitution of the United States, treaties, statutes and court decisions, and, therefore, consultations must recognize this government-to-government relationship.

### **The Present Study**

The purpose of the present study is to identify any archaeological resources within the proposed Westside Service Center project area, and to note any buildings that appear to be 50 years old or older on site or clearly visible from the project site.

A records search was conducted by the North Central Information Center, California Historical Resources Information System. The consultant requested of the Native American Heritage Commission a search of its sacred lands file and list of Native American contacts as a source of further information. Pending the commission's response, the consultant mailed letters to Native American contacts and the McHenry Museum Historical Society requesting comments.

Archaeologists usually organize their studies in three phases (De Barros and Weber 1993:7). Phase I is the inventory or identification of archaeological resources within a project area, which usually includes a prefield records or literature search, field survey and a written report. A Phase I inventory may also include preliminary evaluations of importance. Phase II is a comprehensive evaluation of any archaeological resources discovered during Phase I. Phase III is the treatment of those resources considered "unique" or eligible for the California Register of Historical Resources, or eligible for the National Register of Historic Places as a result of the Phase II evaluation. Phase III includes either avoidance of the resources, a means to lessen any adverse effects, "mitigation," or a combination of the two.

For purposes of the present study, the consultant conducted a Phase I archaeological resources inventory of the Westside Service Center project area. The archaeological survey was conducted by a Registered Professional Archaeologist (see Appendix A: Statement of Qualifications).

## **SETTING**

The proposed Westside Service Center is located in California's Great Central Valley, "... one of the most notable structural depressions in the world" (Hinds 1952:145). The valley is more than 400 miles long and approximately 50 miles wide. Elevation is near sea level. The climate is Mediterranean: summers are hot and rainless, while winters are cool, often with low (tule) fog and 6-20 inches rainfall (Storer and Usinger 1963:26).

The proposed project lies at an elevation of 80 feet in the low plains of the northern San Joaquin Valley in the southern portion of the Central Valley. The Tuolumne River lies one mile south of the project site, while the San Joaquin River lies 9 miles southwest (see Appendix D: Maps).

### **Prehistory/Archaeology**

Archaeology of the early to mid-Holocene period following the last Ice Age is poorly known in California's Central Valley. Moratto and Riley (1980) and Moratto (1984:543-544, 555-557) suggest that California was inhabited primarily by Hokan speaking people between 10,000 and 6000 B.C. Artifacts diagnostic of the Western Pluvial Lakes Tradition (Bedwell 1973) are thought by archaeologists to represent the ancient Hokan populations (Peak & Associates, Inc. 1982; see also Peak and Crew 1990 summarizing research at the Clarks Flat Site, CA-CAL-S342).

Utian peoples (including proto-Miwokan and, later, Yokutsan-speaking people) entered the lower Sacramento Valley probably from the northwest Great Basin and Columbian Plateau region during

to the probability that Yokuts people were relatively late arrivals to the San Joaquin Valley. As Numic-speaking Monache from the east side of the Sierra Nevada began entering the San Joaquin River drainage about 500 years ago, tribelets that inhabited the upper San Joaquin and possibly also the upper Kings River, began to move out, over the valley floor (Wallace 1978:463).

The valley Yokuts lived in villages near water sources, whether waterways or springs. Dwellings consisted of round or oval-shaped structures, 25-40 feet across, covered with tules. Individual structures within the village were scattered about, possibly without any intentional order. Semi-subterranean sweat houses and larger semi-subterranean "dance" houses have been recorded by archaeologists (Wallace 1978:465).

Rafts or boats made by lashing together bundles of tules were the means of transportation on the waterways. Early Spanish explorers noted beaten paths through meadows and along river banks. Well-traveled trails were also noted over great distances, such as westward into Salinan territory of the Coast Ranges. Yokuts bands on horseback made regular visits to Monterey Bay in Costanoan territory during the historic period (Wallace 1978:465).

In 1825, one of Mission San Jose's neophytes, a Yokuts-speaking Indian named Estanislao, fled to the San Joaquin Valley taking with him other neophytes who had become disenchanted with mission life. Estanislao then established his own nation near present-day Salida, from which he led raids on missions and settlements. In 1829, the Mexican government sent two expeditions against Estanislao, which burned out the natives who were otherwise protected by Estanislao's complex fortification of trenches and barriers (Barnes 1987:2).

Latta estimated the original *Yalesumne* pre-contact population at 500 (Latta 1977:98). In 1832, a year before the epidemic, hunter and trapper Colonel James J. Warner noted that there were hundreds of Indians living along the Tuolumne and Stanislaus rivers above the San Joaquin River. Many villages supported 50 to 100 dwellings. When Warner returned to the area a few months after the epidemic, he saw only six or eight live Indians (Barnes 1987:2).

## History

The history of the Modesto vicinity during the Spanish, Mexican and American periods is largely a history of agriculture. John C. Fremont wrote of the area between the Stanislaus and Tuolumne rivers, later known as Paradise Valley. Fremont's 1844 account of its beauty and richness of its soil was one of the most descriptive in its day (Barnes 1987:1).

In the late 1700s, early 1800s, European and American visitors to the area were mainly Spanish soldiers and mission priests. One of the earliest Spanish expeditions into the area was led by Pedro Fages in search of Spanish Army deserters. The Spanish also led forces into the region in search of Indian neophytes who had fled mission life (Barnes 1987:1-2).

Explorers and trappers, as Kit Carson, Jedediah Smith and later, John C. Fremont, noted the abundance of game and fertility of the region's soils. In 1842, Dr. John Marsh, whose land grant was located near the foot of Mt. Diablo, forecasted a great agricultural future for both the Sacramento and San Joaquin valleys. In the final decade of Mexican rule, the region that is now Stanislaus County encompassed five land grants. While in the early years, most of the grants were not occupied due to the threat of hostile Indians, cattle became the primary product of the ranchos. Of the five land grants, El Pescadero, a 35,500 acre rancho between Banta and Grayson, and which was deeded to Valentin Higuerra and Rafael Feliz, was the only rancho permanently occupied in the early years. The rancho was started with 1,300 head of cattle, 350 sheep and 300 horses. The first market was for hides and tallow (Barnes 1987:4).

The market shifted from hides and tallow to beef during the Gold Rush. Americans imported midwestern cattle to California beginning in 1850. By 1854, the Stanislaus River region was open range; cattle country. However, the devastating floods of 1861-1862, followed by three years of drought triggered the decline of the Paradise Valley cattle industry (Barnes 1987:5).

## RECORDS SEARCH RESULTS

The Central California Information Center, California Historical Resources Information System, completed a records search for the proposed project area on May 22, 2003. As a result of that search, the information center found that no prehistoric resources had been reported within one mile of the project and no historic archaeological resources or historic properties had been reported within or immediately adjacent to the project area. No cultural resources known to have value to local (ethnic) groups have been reported to the information center (see Appendix B: Records Search Results).

## CONSULTATIONS

As part of the present study, the consultant requested a sacred lands file search of the Native American Heritage Commission. However, the commission has not concluded its file search at the time of this writing. Therefore, the consultant mailed letters to the two Native American representatives who usually appear on the commission's list for Stanislaus County. The consultant also requested comments and concerns from the McHenry Museum Historical Society. However, no responses have been received at this writing (see Appendix C: Consultations).

## FIELD METHODS

Ric Windmiller, Registered Professional Archaeologist, conducted an intensive field survey of the Westside Service Center site on June 7, 2003. The entire site is the north portion of a landscaped park with extensive irrigated lawns, trees, paved walkways and picnic tables. One park-goer was asked if he had ever found any historic or prehistoric artifacts there; his answer was in the negative. Numerous small, fresh exposures of sediments were exposed by burrowing rodents, presumably gophers. These fresh exposures were examined for any evidence of archaeological resources such as historic and prehistoric artifacts, shell, bone and other "ecofacts." None were found. The entire project site was inspected along transects 5-15 meters apart.

In addition, digital video was used to record buildings within the view shed of the proposed service center. The video footage was reviewed by architectural historian, Donald S. Napoli, Ph.D. Dr. Napoli indicated which buildings appeared 50 years old or older, based on architectural style and noted his impressions with respect to their importance reported below under "Findings."

## FINDINGS

### Archaeological Resources

No archaeological resources, either prehistoric or historic, were discovered during the study.

### Buildings and Structures

It is the consultants' opinion that apartment buildings on the west side of the park, south of Chicago Avenue will be within the view shed of the planned service center. However, these buildings appear to have been constructed in the 1960s and, therefore, are less than 50 years old.

A commercial building on the northwest side of Tuolumne Boulevard and its intersection with Chicago Avenue is of undetermined age. However, the commercial buildings on the north side of

2. It is associated with the lives of persons important to local, California, or national history;
3. It embodies the distinctive characteristics of a type, period, region, or method of construction, or represents the work of a master or possesses high artistic values; or
4. It has yielded, or has the potential to yield, information important to the prehistory or history of the local area, California, or the nation.

Eligibility for the California Register also depends on the integrity, or the survival of characteristics of the resource that existed during its period of significance. Eligible historic resources must not only meet one of the above criteria, but also they must retain enough of their historic character or appearance to convey the reasons for their importance, or retain the potential to yield significant scientific or historical information or specific data.

Like the process of evaluating historical resources for National Register eligibility, California Register evaluations include the consideration of seven aspects of integrity: location, design, setting, materials, workmanship, feeling and association. The evaluation of integrity must be judged with reference to the particular criterion or criteria under which a resource may be eligible for the California Register. However, the implementing regulations specifically caution that alterations of a historic resource over time may themselves have historical, cultural or architectural significance.

Most often, historical resources eligible for the California Register will be 50 years old or older. However, the new implementing regulations stipulate that "a resource less than fifty (50) years old may be considered for listing in the California Register if it can be demonstrated that sufficient time has passed to understand its historical importance."

If an archaeological resource does not meet the definition of a "historical resource," it may meet the definition of a "unique archaeological resource" under Public Resource Code 21083.2. An archaeological resource is "unique" if it:

1. Is associated with an event or person of recognized significance in California or American history or recognized scientific importance in prehistory;
2. Can provide information that is of demonstrable public interest and is useful in addressing scientifically consequential and reasonable research questions;
3. Has a special or particular quality such as oldest, best example, largest, or last surviving example of its kind;
4. Is at least 100 years old and possesses substantial stratigraphic integrity;
5. Involves important research questions that historical research has shown can be answered only with archaeological methods.

Generally, a historic site, object, building, structure or district is eligible for listing on the National Register of Historic Places if it is older than 50 years, possesses integrity of location, design, setting, materials, workmanship, feeling and association, and meets at least one of the following criteria (National Park Service 1991):

- A. Association with events that have made significant contributions to the broad patterns of United States history.
- B. Association with the lives of people important in United States history.

## **APPENDIX B: RECORDS SEARCH RESULTS**

This appendix contains information on the specific locations of cultural resources. This information is not for publication or release to the general public. It is for planning, management and research purposes only. Information on the locations of prehistoric and historic sites are exempted from the California Freedom of Information Act, as specified in Government Code 6254.10.

Attached historic maps (regional information):

- 1953 edition of the Salida 7.5' USGS quadrangle map: no structures shown at the project area, but 2 structures shown nearby to the west.
- GLO Plat for T3S/R9E (sheet # unlisted, dated 1853-1854): "Road" shown further northwest in section 31, and another "Road" further southeast in section 32.
- GLO Plat for T4S/R9E (sheet # unlisted, dated 1853-1854): two roads shown in section 6, one entering T3S, section 31, SE ¼; another shown entering T3S, section 32.

**Resources known to have value to local cultural groups:**

None have been formally reported to the Information Center.

**Previous investigations within the project:**

None reported to the Information Center.

**Previous investigations immediately adjacent to the project Area:**

One has been reported within 1/8<sup>th</sup>-mile, cited as follows:

CCIC #	Author/Date	Title
[2930]	Jensen (1996)	<i>Archaeological Inventory Survey: Tracy to Fresno Longhaul Fiberoptics Data Transmission Line, Portions of Fresno, Madera, Merced, Stanislaus, and San Joaquin Counties, California.</i>

**Recommendations/Comments:**

Please be advised that a historical resource is defined as a building, structure, object, prehistoric or historic archaeological site, or district possessing physical evidence of human activities over 45 years old. There may be unidentified features 45 years or older within your project that are considered as historical resources requiring further study and evaluation by a qualified professional of the appropriate discipline.

In accordance with State law, if any historical resources are found during construction, work is to stop and the lead agency and a qualified professional are to be consulted to determine the importance and appropriate treatment of the find.

1899 Sapphire Way  
El Dorado Hills, CA 95762  
Ph (916) 801-3962

*July 10, 2003*

Based on the Flood Insurance Rate Map published by the Federal Emergency Management Agency covering this overall area (Panel 15), the proposed Westside Service Center development and the remainder of James Marshall Neighborhood Park are located outside of the 100-year and 500-year flood hazard area associated with the nearby Tuolumne River and within Flood Insurance Zone C. Zone C is defined as an "area of minimal flooding" by the Federal Emergency Management Agency.

### ***Runoff Production***

Under existing conditions, the roughly 1-acre area proposed to be developed as the Westside Service Center consists of park uses associated with James Marshall Neighborhood Park. Runoff production is rather minimal due to the abundance of turf as the primary ground cover and the low percentage of impervious surfaces.

The Westside Service Center will introduce the following features into this 1-acre portion of the existing park site:

- 13,000 SF of new buildings (fire station and police/recreation office)
- Staff and visitor parking with access drives to Chicago Avenue
- Fire Department yard
- Fire Department response driveway with access to Sutter Avenue
- Community Building patio
- New pedestrian walk
- Landscape areas

Most of these features will increase the rate of runoff production for the 1-acre site when compared with existing conditions due to the introduction of impervious surfaces associated with rooftops, pavement, concrete, etc. For a 10-year return period storm, the total peak runoff rate generated within the Westside Service Center site area would increase from 0.4 cubic feet per second (cfs) for the existing park use to 1.75 cfs under a developed condition (see calculation sheet). Though this represents a high percentage increase in peak runoff, the magnitude of peak rates and volumes is quite small. In addition, the majority of storm runoff originating within the proposed Westside Service Center development will continue to drain to the interior of the existing City park (per the Drainage Design Requirements section of this analysis).

The incorporation of paved surfaces and vehicle parking on the site may produce impacts to downstream stormwater quality if not mitigated, due to the potential introduction of petroleum hydrocarbons, oil and grease into storm runoff. This potential should be appropriately mitigated as a part of site development.

2. There is a potential for the site development to degrade downstream stormwater quality due to the introduction of petroleum hydrocarbons, oil, and grease via new site facilities and uses; however, this potential impact will be reduced to less than significant if mitigated by the implementation of onsite stormwater quality control measures in conformance with City policies.
3. The site is not located in a 100-year or 500-year flood hazard area according to the Federal Emergency Management Agency.
4. Building pads shall be elevated a minimum of 1.0 feet above the top of curb elevations for adjacent streets, and the majority of the site development shall be graded to eventually drain to adjacent streets.

**MITIGATION MONITORING AND REPORTING PROGRAM  
FOR THE NEIGHBORHOOD CENTER AT MARSHALL PARK,  
(Pursuant to Mitigated Negative Declaration EA/PR&N-2003-06)**

1.0 INTRODUCTION

This mitigation and monitoring program has been prepared by the City of Modesto for the Neighborhood Center at Marshall Park. CEQA Section 21081.6 requires public agencies to adopt a mitigation reporting or monitoring program when adopting a Mitigated Negative Declaration. Monitoring programs are designed to ensure that all mitigation measures described in the Negative Declaration are carried out.

2.0 SCOPE

The program described below applies to all mitigation measures described in the Initial Study/Mitigated Negative Declaration, dated November 2003, prepared for the project. The components of project mitigation were reviewed and approved by the City of Modesto's Parks, Recreation and Neighborhoods, Engineering and Transportation, Operations and Maintenance, and Community Development staff.

3.0 MITIGATION

Traffic and Circulation Needs:

- MM 1.1.1** Keep Clear Zone – Prior to final project approval, the project site plan shall locate a "Keep Clear Zone" where the response driveway accesses Sutter Street. The "Keep Clear Zone" shall conform to applicable City Standards.

*Timing/Implementation: Prior to final project approval.*

*Enforcement/Monitoring: City of Modesto Planning Department.*

- MM 1.1.2** Relocate Bus Stop – Prior to final project approval, the project site plan shall identify the new bus stop location and design, which shall conform to applicable City Standards.

*Timing/Implementation: Prior to final project approval.*

*Enforcement/Monitoring: City of Modesto Planning Department.*

Air Quality:

- MM 1.2.1** The following City of Modesto Master EIR policies AQ-1 through AQ-18 shall be implemented to reduce PM<sub>10</sub> emission impacts:

- b. SJVUAPCD Regulation VIII Control Measures for Construction Emissions of PM<sub>10</sub>. The following controls are required to be implemented at all construction sites:

10. All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover.

8. Limit the area subject to excavation, grading, and other construction activity at any one time.

(Regardless of windspeed, an owner/operator must comply with Regulation VIII's 20 percent (20%) opacity limitation).

*Timing/Implementation: Upon commencement of grading and construction activities.*

*Enforcement/Monitoring: City of Modesto Planning Department.*

Archaeological:

**MM 1.8.1** In the event that any prehistoric or historic subsurface cultural resource is discovered during construction-related activity, all work within 50 feet of the resource shall be halted. The City shall consult with a qualified archaeologist to assess the significance of the find. If any find were determined to be significant by the qualified archaeologist, then the City, the developer and the archaeologist would meet to determine the appropriate course of action. Mitigation measures, as recommended by the archaeologist and approved by the City in accordance with Section 15064.5 of the CEQA Guidelines, shall be implemented prior to recommencement of construction activity within the 50-foot perimeter. If Native American resources are involved, Native American organizations and individuals recognized by the City shall be notified and consulted regarding any plans for treatment.

*Timing/Implementation: Upon commencement of project construction activities.*

*Enforcement/Monitoring: City of Modesto Planning Department*

Drainage, Flooding and Water Quality:

- MM 1.9.1** As a part of the development of the Neighborhood Center at Marshall Park, the following drainage provisions shall be incorporated into the grading and drainage design:
1. *Elevate Buildings* – Since the site is located in a portion of the City that is not served by positive storm drain facilities, the building pads shall be elevated a minimum of 1.0 feet above the adjacent top of curb elevations for Chicago Avenue and Sutter Avenue in conformance with City Standards.
  2. *Grading* – The proposed site buildings and contiguous development features on the south side of the buildings should drain to the rear (south) and into the interior of the existing park towards the existing low-lying area. The south portion of the staff and visitor parking area in the northwest portion of the proposed development should also drain to the interior of the existing park, around the west edge of the proposed police/recreation office building. The north portion of the staff and visitor parking area and the fire department yard/staff parking may drain to Chicago Avenue along the north frontage. The fire department response driveway and portions of contiguous landscaping may drain to Sutter Avenue along the east frontage.
  3. *Rock Well* – Runoff increases created by the portions of the Neighborhood Center at Marshall Park development that are recommended to drain to the low-lying area within the interior of the park may be sufficient to warrant the installation of a new rock well near the existing rock well to improve drainage. The need for a new rock well may be determined by the City, based on an interpretation of any prior maintenance issues.
  4. *Stormwater Quality Control Measures* – The site development shall include stormwater quality control measures that conform with the requirements set forth in the City

## **Environmental Assessment**

(HUD recommended format per  
24 CFR 58.36, revised 1/99)

**Project Identification: Neighborhood Center at Marshall Park**

**Preparer: Nicholas Ferracone, Pacific Municipal Consultants, Chico, California**

**Responsible Entity: City of Modesto, California**

**Month/Year: November/2003**

## Environmental Assessment

**Responsible Entity** [24 CFR 58.2(a)(7)]: City of Modesto

**Certifying Officer** [24 CFR 58.2(a)(2)]: Robert J. Ford, Project Coordinator, Parks, Recreation and Neighborhoods Department

**Project Name:** Neighborhood Center at Marshall Park

**Project Location:** The proposed project is located in the southwestern portion of the City of Modesto in north-central Stanislaus County, California. As proposed, the Neighborhood Center at Marshall Park would occupy 1 acre of the existing 6.81-acre James Marshall Neighborhood Park located at 440 Sutter Avenue (at the intersection of Western Way at Sutter and Chicago Avenues).

**Estimated Total Project Cost:** \$3.3 M

**Grant Recipient** [24 CFR 58.2(a)(5)]: City of Modesto

**Recipient Address:** P.O. Box 642, Modesto, CA 95353

**Project Representative:** Robert J. Ford, Project Coordinator, Parks, Recreation and Neighborhoods Department

**Telephone Number:** (209) 577-5437

**Conditions for Approval:** (List all mitigation measures adopted by the responsible entity to eliminate or minimize adverse environmental impacts. These conditions must be included in project contracts or other relevant documents as requirements.) [24 CFR 58.40(d), 40 CFR 1505.2(c)]

See Attachment 1.

**FINDING:** [58.40(g)]

- Finding of No Significant Impact**  
(The project will not result in a significant impact on the quality of the human environment)
- Finding of Significant Impact**  
(The project may significantly affect the quality of the human environment)

**Preparer Signature:** \_\_\_\_\_ **Date:** \_\_\_\_\_  
**Title/Agency:** Contract Planning Staff, City of Modesto

**RE Approving Official Signature:** \_\_\_\_\_ **Date:** \_\_\_\_\_  
**Title/ Agency:** City Administrator/Planning Director, City of Modesto

## Statutory Checklist

[24 CFR §58.5]

For each listed statute, executive order or regulation, record the determinations made. Note reviews and consultations completed as well as any applicable permits or approvals obtained. Attach evidence that all required actions have been taken. Record any conditions or mitigation measures required. Then, make a determination of compliance or consistency.

Factors	Determinations and Compliance Documentation
<b>Historic Preservation</b> [36 CFR 800]	In compliance. Although this property is located in the Archaeological Resource Zone, the Archaeological Resource Inventory indicates that it is unlikely that any archaeological resources will be encountered during the construction of this project. In addition, the General Plan Master EIR (MEIR) has specific mitigation measures that are included with any project within the scope of the General Plan, and these mitigation measures will be included in the construction documents for the park. With these existing mitigation measures in place, there would be no impact above what has already been studied in the General Plan MEIR. <i>Reference: Neighborhood Center at Marshall Park MND, Section VIII (b), and Exhibit C.</i>
<b>Floodplain Management</b> [24 CFR 55, Executive Order 11988]	In compliance. The project site is not located within a floodplain area, as designated by a Flood Insurance Rate Map prepared by FEMA.
<b>Wetlands Protection</b> [Executive Order 11990]	In compliance. There are no water features on the project site, and therefore no wetlands or other waters of the U.S. occur in the project study area. Since there are no wetlands in the project area, the construction of the Neighborhood Center at Marshall Park will have no impact on federally protected wetlands as defined by Section 404 of the Clean Water Act. <i>Reference: Neighborhood Center at Marshall Park MND, Section VII (c), and Exhibit B.</i>
<b>Coastal Zone Management Act</b> [Sections 307(c),(d)]	Not applicable. The project site is not located in any Coastal Zone in California.
<b>Sole Source Aquifers</b> [40 CFR 149]	In compliance. No Sole Source Aquifers have been identified in the project vicinity.
<b>Endangered Species Act</b> [50 CFR 402]	In compliance. On behalf of the City of Modesto, Pacific Municipal Consultants (PMC) provided the San Joaquin Branch of the Endangered Species Division of the U.S. Fish and Wildlife Service (USFWS) a memo dated May 12, 2003 which attached the following material: 1) a summary of the project's attributes, 2) a project aerial and site photos, 3) results of a CNDDDB search for the subject parcel area, 4) and documentation of correspondence with the USFWS requesting a list of sensitive species known to occur or which may occur in the vicinity of the project area. PMC's memo concluded that no listed species inhabit the project site, and that no listed species will be adversely affected by implementation of the proposed project. On June 27, 2003, PMC received concurrence in writing from the USFWS that the proposed action is not likely to adversely affect listed species and that no further consultation is required. Therefore, it is concluded that

**HUD Environmental Standards**

**Determinations and Compliance Documentation**

<p><b>Noise Abatement and Control</b> [24 CFR 51 B]</p>	<p>Not applicable. No residential structures are being constructed as part of this project.</p>
<p><b>Toxic or Hazardous Substances and Radioactive Materials</b> [HUD Notice 79-33]</p>	<p>In compliance. A review of the lists describing hazardous material sites as required under Section 65962.5 of the California Government Code has determined that there are no listed hazardous materials sites presently located within the project site of the Neighborhood Center at Marshall Park at James Marshall Neighborhood Park. The Neighborhood Center at Marshall Park would not be located in a Potential Hazardous Contamination Study Area, as presented in Figure 16-1 of the MEIR. <i>Reference: Neighborhood Center at Marshall Park MND, Section VI (d).</i></p>
<p><b>Siting of HUD-Assisted Projects near Hazardous Operations</b> [24 CFR 51 C]</p>	<p>Not applicable. There are no hazardous operations in the vicinity of the project site.</p>
<p><b>Airport Clear Zones and Accident Potential Zones</b> [24 CFR 51 D]</p>	<p>Not applicable. There are no airports or private airstrips in the vicinity of the project site.</p>

**Environmental Assessment Checklist, continued**

<b>Energy Consumption</b>	1	The project proposes a 13,000 square foot building which at buildout would not consume a significant amount of electricity. In addition, the project would comply with energy conservation provisions of the California Building Code.
<b>Noise - Contribution to Community Noise Levels</b>	1	The proposed project will not significantly increase vehicle trips, so it is anticipated that traffic noise from this source would not increase. Generation of ambient noise may increase somewhat due to the addition of Police and Fire services, with periodic temporary noise increases due to use of sirens. Equipment and apparatus that support the emergency service substations may also contribute to groundborne vibration or noise. However, noise from these public facilities is exempted under the City of Modesto Noise Ordinance. In addition, the integration of such services into a park is consistent with specific language in Chapter 5, Sections G and K of the City of Modesto's General Plan, and examined in buildout scenarios in the adopted General Plan Master EIR.

<b>Land Development</b>	<b>Code</b>	<b>Source or Documentation</b>
<b>Air Quality</b> Effects of Ambient Air Quality on Project and Contribution to Community Pollution Levels	1	The project would not regularly release any toxic air contaminants. Area source emissions from on-site would be limited to emissions from combustion of natural gas for space and water heating. In addition, Exhibit A (attached to this document) states that project vehicle trip generation would not have the potential to cause an exceedance of the state or federal ambient air quality standards for carbon monoxide.
<b>Environmental Design</b> Visual Quality - Coherence, Diversity, Compatible Use and Scale	2	The project would be designed in conformance with City design standards for buildings and infrastructure. In addition, the project is located in a redevelopment overlay zone, where new attractive construction is encouraged.

<b>Socioeconomic</b>	<b>Code</b>	<b>Source or Documentation</b>
<b>Demographic Character Changes</b>	1	The proposed project is not anticipated to cause any change in demographic character.
<b>Displacement</b>	1	No residences would be removed as part of the project. As proposed, the Neighborhood Center at Marshall Park would occupy 1 acre of the northeast portion of the existing 6.81-acre James Marshall Neighborhood Park.
<b>Employment and Income Patterns</b>	1	The proposed project is not anticipated to cause any change in employment and income patterns.

- Recreation	1	The project would have no impact on existing recreational facilities. Although the project is proposed to locate in the northeast portion of the existing James Marshall Neighborhood Park, and a portion of the north end of the park would be converted from turfed mounds, no intensively developed portion of the park, recreation facilities, or recreation opportunities would be lost.
- Cultural Facilities	1	The project would have no impact on existing cultural facilities, since none exist in the project area. No mitigations beyond those listed in the MEIR are necessary.
Transportation	1	The project would have no impact on traffic flow on adjacent roadways and intersections.

### Natural Features

### Source or Documentation

Water Resources	1	The project is expected to place a demand on water supplies of the City. However, the City has adequate water supply to supply the project site.
Surface Water	1	There is no natural surface water on the project site.
Unique Natural Features and Agricultural Lands	1	There are no unique natural features on the project site.
Vegetation and Wildlife	1	On June 27, 2003, PMC received concurrence in writing from the USFWS that the proposed action is not likely to adversely affect listed species and that no further consultation is required. (See Exhibit B attached to this document.)

### Other Factors

### Source or Documentation

Indirect Illumination – Light and Glare	4	The project may introduce new light and glare sources in the area that may indirectly illuminate nearby residences, creating a nuisance. The project includes mitigation measures that would set a maximum level of indirect illumination that the project may not exceed, and would incorporate light and glare reduction measures.
---	---	--

**NOTE:** The Responsible Entity must additionally document and ensure compliance with 24 CFR §58.6 in the ERR, particularly with the Flood Insurance requirements of the Flood Disaster Protection Act and the Buyer Disclosure requirements of the HUD Airport Runway Clear Zone/Clear Zone regulation at 24 CFR 51 Subpart D.

**Mitigation Measures Recommended** [24 CFR 58.40(d), 40 CFR 1508.20]

(Recommend feasible ways in which the proposal or external factors relating to the proposal should be modified in order to eliminate or minimize adverse environmental impacts.)

See Attachment 1A and Additional Studies Performed (described below).

**Additional Studies Performed**

(Attach studies or summaries)

- 1) 2003 City of Modesto Neighborhood Center at Marshall Park Mitigated Negative Declaration (MND)
- 2) 2003 Air Quality Impact Analysis (Neighborhood Center at Marshall Park MND, Exhibit A)

- 4) 2003 Archaeological Resources Study (Neighborhood Center at Marshall Park MND, Exhibit C)
- 5) 2003 Storm Drainage Analysis (Neighborhood Center at Marshall Park MND, Exhibit D)

**List of Sources, Agencies and Persons Consulted** [40 CFR 1508.9(b)]

- 1) 2003 Final Master Environmental Impact Report for the Urban Area General Plan and Related Amendments to the Urban Area General Plan
- 2) 1995 City of Modesto Urban Area General Plan
- 3) 1995 Final Master Environmental Impact Report for the Urban Area General Plan
- 4) San Joaquin Branch of the Endangered Species Division of the U.S. Fish and Wildlife Service (USFWS): 6/27/03 memo

6. All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent streets at the end of each workday. (The use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)
  7. Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of dust emissions using water or chemical stabilizer/suppressant.
  8. Within urban areas, trackout shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.
  9. Any site with more than 150 or more vehicle trips per day shall prevent carryout and trackout.
- a. Enhanced Control Measures. The following measures should be implemented at construction sites when required to mitigate significant PM<sub>10</sub> impacts (note, these measures are to be implemented in addition to Regulation VIII requirements):
1. Limit traffic speeds on unpaved roads to 15mph; and
  2. Install sandbags or other erosion control measures to prevent silt runoff to public roadways from sites with a slope greater than one percent (1%).

*Timing/Implementation: Upon commencement of grading and construction activities.  
Enforcement/Monitoring: City of Modesto Planning Department.*

**MM 1.2.2** The following measures are strongly encouraged at construction sites that are large in area, located near sensitive receptors, or which for any other reason warrant additional emissions reductions.

1. Install wheel washers for all exiting trucks, or wash off all trucks and equipment leaving the site;
2. Install wind breaks at windward side(s) of construction areas;
3. Suspend excavation and grading when winds exceed 20 mph; and\*
4. Limit the area subject to excavation, grading, and other construction activity at any one time.

(Regardless of windspeed, an owner/operator must comply with Regulation VIII's 20 percent (20%) opacity limitation).

*Timing/Implementation: Upon commencement of grading and construction activities.  
Enforcement/Monitoring: City of Modesto Planning Department.*

4. *Stormwater Quality Control Measures* – The site development shall include stormwater quality control measures that conform with the requirements set forth in the City policy document entitled “Guidance Manual for New Development Stormwater Quality Control Measures”, in order to mitigate any site development impacts on downstream stormwater quality.

*Timing/Implementation: Prior to receipt of grading permit.*

*Enforcement/Monitoring: City of Modesto Engineer*

**Aesthetics:**

**MM 1.18.1** The following mitigation measure will apply to lighting and glare:

1. Lighting on the project site shall not indirectly illuminate adjacent residences at a level greater than one foot-candle in intensity when measured from the portion of the residence facing the project site. If indirect illumination at a residence is greater than one foot-candle, the City shall ascertain the cause of the indirect illumination and, if necessary, implement appropriate measures to reduce such illumination.
2. Building materials proposed as part of the project shall include provisions regulating light and glare. Such provisions may include, but are not limited to, the following:
  - Prohibiting the use of reflective materials in the construction of buildings, fencing and other outdoor structures.
  - The use of earth tones that do not reflect sunlight for colors of buildings and other exterior structures.
  - Encouraging measures to reduce the amount of indirect illumination of offsite properties by onsite lighting, such as shielding.

Nothing in this mitigation measure shall be construed so as to prohibit the installation of lighting necessary for safety and/or security purposes.

*Timing/Implementation: Prior to approval of certificate of occupancy.*

*Enforcement/Monitoring: City of Modesto Planning Department*

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-162**

**A RESOLUTION APPROVING THE MASTER PLAN AND DESIGN  
DEVELOPMENT REPORT FOR THE NEIGHBORHOOD CENTER AT  
MARSHALL PARK.**

WHEREAS, three City departments desire to develop a joint service facility at the southwest corner of Sutter and Chicago Avenues, on the existing Marshall Park site (“Project”), and

WHEREAS, WLC Architects of Folsom, California was selected to provide architectural services and prepare a Master Plan and Design Development Report for the Project and a professional services agreement was approved by the City Council on March 6, 2002, and

WHEREAS, the Safety and Communities Committee met on March 1, 2004, and supported the recommendation to approve the Master Plan and Design Development Report, and

WHEREAS, by an agenda report dated March 15, 2004, from the Parks, Recreation and Neighborhoods Director, staff recommended to the Council approving the Master Plan and Design Development Report for the Neighborhood Center at Marshall Park, a copy of said report is on file in the office of the City Clerk, and

WHEREAS, prior to adopting the Design Development Report, the California Environmental Quality Act (CEQA) requires that the City of Modesto consider the environmental consequences of the proposed Project, and

WHEREAS, on March 23, 2004, concurrent with this resolution, the Modesto City Council considered and adopted Initial Study EA/PR&N 2003-06 and Mitigated

Negative Declaration (SCH # 2004022070) for construction of the Neighborhood Center at Marshall Park at 440 Sutter Avenue,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the Master Plan and Design Development Report for the Neighborhood Center at Marshall Park, a copy of said report is on file in the office of the City Clerk.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of March, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour

NOES: Councilmembers: None

ABSENT: Councilmembers: Dunbar

Attest: Jean Zahr  
JEAN ZAHR, City Clerk

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-163**

**A RESOLUTION APPROVING AN AMENDMENT TO THE ARCHITECTURAL SERVICE CONTRACT WITH WLC ARCHITECTS TO INCREASE THE FEE FROM \$197,500 TO \$243,840 TO PROVIDE FOR ADDITIONAL CONSTRUCTION MANAGEMENT AND ENGINEERING AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AMENDMENT TO AGREEMENT.**

WHEREAS, three City departments desire to develop a joint service facility at the southwest corner of Sutter and Chicago Avenues, on the existing Marshall Park site, and

WHEREAS, on March 6, 2002, the City entered into an agreement with WLC Architects ("WLC") to provide a Design Development Report and Construction Documents for the Neighborhood Center at Marshall Park for a total contract amount of \$197,500 for the Master Plan, Construction Documentation for Phase I Fire Station and Phase II Police and Recreation Offices, and Construction Management for Phase I Fire Station Construction ("Agreement"), and

WHEREAS, it was anticipated that the Phase I construction would be completed first, followed by the Phase II construction when funding became available, and

WHEREAS, it was later discovered that the City could apply for a HUD Section 108 loan to cover the cost of construction of both Phase I and Phase II, and

WHEREAS, the Agreement did not include any engineering for the Marshall Park drainage basin alterations, and

WHEREAS, staff now desires to amend the Agreement to expand WLC's scope of work further to include additional Construction Management required for Phase II and engineering for the Marshall Park drainage basin alterations and to increase the amount of the Agreement from \$197,500 to \$243,840 ("Amendment"), and

WHEREAS, the Safety and Communities Committee met on March 1, 2004, and supported staff's recommendation to approve an Amendment to the Agreement with

WLC to provide the additional Construction Management required for Phase II and engineering for the Marshall Park drainage basin alterations, at a cost not to exceed \$46,340.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Amendment to Agreement with WLC Architects for additional services related to the additional Construction Management required for Phase II and engineering for the Marshall Park drainage basin alterations, at a cost not to exceed \$46,340 is hereby approved.

BE IT FURTHER RESOLVED that the City Manager is hereby authorized to execute the Amendment to Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of March, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-164**

**A RESOLUTION ACCEPTING THE RECOMMENDATION OF THE CITIZENS HOUSING AND COMMUNITY DEVELOPMENT COMMITTEE (CH&CDC) TO ALLOCATE \$400,000 IN HOME FUNDS TO THE HOUSING AUTHORITY OF THE COUNTY OF STANISLAUS FOR THE MILLER POINTE PROJECT, AND \$624,831 TO STANISLAUS COUNTY AFFORDABLE HOUSING (STANCO) FOR THE 3333 CARVER ROAD PROJECT, AND AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE TO EXECUTE THE AGREEMENTS.**

WHEREAS, on July 1, 2003, by Resolution No. 2003-338, the City Council authorized staff to solicit a Request for Proposals (RFP) for the development and construction of multi-family housing, rehabilitation and conversion of market rate units to affordable units or the development of new entry-level single-family units, which will increase the affordable housing stock within the City of Modesto, and

WHEREAS, a total of \$1,536,624 of assistance was released this fiscal year, consisting of \$1,154,720 newly allocated HOME funds, \$312,825 of CHDO set-aside funds, and \$69,079 of CHDO operating expense, and

WHEREAS, inasmuch as the federal HOME program provides these funds, all funding recipients will be governed by HOME regulations, and

WHEREAS, a RFP was released on July 8, 2003, and due on September 5, 2003, and

WHEREAS, four proposals were received; with one proposal being late and incomplete, and therefore rejected, and

WHEREAS, the review committee recommended the approval of Habitat for Humanity's proposal for CHDO operating expenses in the amount of \$69,079; as recommended by the Citizens Housing and Community Development Committee

(CH&CDC) on November 21, 2003, and approved by the City Council on January 6, 2004, by Resolution No. 2004-016, and

WHEREAS, the review committee further requested and received additional information from other proposals to clarify the increase of construction costs, and made its recommendations, and

WHEREAS, based on the review committee suggestions, the CH&CDC met on January 22, 2004, and recommended allocation of \$400,000 for the Miller Pointe Project by the Housing Authority of the County of Stanislaus, and approval of the requested funding by STANCO in the amount of \$624,831 for the 3333 Carver Road Project contingent upon receipt of a commitment letter by County Bank,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby authorizes staff to allocate \$400,000 for the Miller Pointe Project by the Housing Authority of the County of Stanislaus, and \$624,831 to STANCO for the 3333 Carver Road Project contingent upon receipt of a commitment letter by County Bank.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreements.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of March, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-165**

**A RESOLUTION AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE TO EXECUTE AN AGREEMENT WITH STANISLAUS COUNTY AFFORDABLE HOUSING (STANCO) FOR COMMUNITY HOUSING DEVELOPMENT ORGANIZATION (CHDO) SET-ASIDE FUNDS IN THE AMOUNT OF \$260,270.**

WHEREAS, on November 22, 2002, the Citizens Housing and Community Development Committee (CH&CDC) recommended that staff be authorized to negotiate with Stanislaus County Affordable Housing (STANCO) for the use of \$260,270 in uncommitted CHDO funds and

WHEREAS, at the time STANCO was the only financially stable CHDO operating within the Modesto city limits, and

WHEREAS, on December 10, 2002, by Resolution No. 2002-638, the City Council directed staff to negotiate with STANCO for the use of the \$260,270 in uncommitted CHDO funds, and

WHEREAS, CHDO funds negotiated with STANCO are needed to complete the financing for the construction of the 3333 Carver Road project, and

WHEREAS, inasmuch as the federal HOME program provides these funds, all funding recipients will be governed by HOME regulations,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby authorizes staff to allocate \$260,270 in Community Housing Development Organization (CHDO) Funds to Stanislaus County Affordable Housing (STANCO).

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of March, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-166**

**A RESOLUTION AMENDING THE FISCAL YEAR 02-03 OPERATING  
BUDGET TO RE-ALLOCATE \$260,270 IN UNOBLIGATED FY 02-03 CHDO  
SET-ASIDE FUNDS TO 1170-320-3259-0508, CHDO SET-ASIDE.**

WHEREAS, ON November 22, 2002, the Citizens Housing and Community Development Committee (CH&CDC) recommended that staff be authorized to negotiate with the Housing Authority of Stanislaus County for use of \$260,270 in uncommitted FY 02-03 CHDO funds, and

WHEREAS, on December 10, 2002, by Resolution No. 2002-638, the City Council authorized staff to negotiate with STANCO for \$260,270, and

WHEREAS, the CHDO funds negotiated with STANCO are needed to complete the financing for the construction of the 3333 Carver Road project, and

WHEREAS, Fiscal Year 02-03 funds are available,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves amending the Fiscal Year 03-04 operating budget to re-allocate \$260,270 in unobligated FY 02-03 CHDO set-aside funds to 1170-320-3259-0508, CHDO Set-aside.

BE IT FURTHER RESOLVED that the Finance Director, or her designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of March, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-167**

**A RESOLUTION ADOPTING POLICIES AND PROCEDURES AND  
ESTABLISHING FEES FOR THE PARKS, RECREATION AND  
NEIGHBORHOODS DEPARTMENT FACILITIES AND SERVICES AND  
RESCINDING RESOLUTION NO. 98-237.**

WHEREAS, on July 16, 1996, the City Council adopted Resolution No. 96-397 establishing certain fees and a Use and Fee Policy for use of facilities managed by the City's Parks, Recreation and Neighborhoods Department, and

WHEREAS, on May 5, 1998, the City Council adopted Resolution No 98-237, restating a comprehensive use policy and fee schedule for use of facilities and services provided by the City of Modesto Community Services and Neighborhood Connections (now Parks, Recreation and Neighborhoods) Department and adding a policy for co-sponsor programs with non-profit and public organizations and superceding Resolutions Nos. 96-397, 97-430, 98-26 and 98-236, and

WHEREAS, pursuant to an agenda report to the City Council dated March 15, 2004, the Parks, Recreation and Neighborhoods Department staff has recommended to the City Council certain and policies and procedures for rental and use of said facilities, a copy of which is attached hereto as Exhibit 1 and incorporated herein by reference, and

WHEREAS, pursuant to an agenda report to the City Council dated March 15, 2004, the Parks, Recreation and Neighborhoods Department staff has recommended to the City Council certain fee assessments relating to the use of facilities and other related services for facilities managed by the Parks, Recreation and Neighborhoods Department, a copy of which is attached hereto as Exhibit 2 and incorporated herein by reference, and

WHEREAS, the Finance Committee met on March 1, 2004, and supported the recommended policies and procedures and increased fees for facilities and related services managed by the Parks, Recreation and Neighborhoods Department, and

WHEREAS, said matter was set for a public hearing of the City Council to be held at 5:30 p.m. on March 23, 2004 in the Tenth Street Place Chambers, located at 1010 Tenth Street, Modesto California, and

WHEREAS, on said date and time said duly noticed public hearing of the City Council was held for the purpose of receiving public comment on the proposed policies and procedures and fees for facilities and related services managed by the Parks, Recreation and Neighborhoods Department,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the policies and procedures for rental and use of facilities and related services managed by the Parks, Recreation and Neighborhoods Department, a copy of which is attached hereto as Exhibit 1 and incorporated herein by reference.

BE IT FURTHER RESOLVED that the Council hereby approves certain fee assessments relating to the use of facilities and other related services for facilities managed by the Parks, Recreation and Neighborhoods Department, a copy of which is attached hereto as **Exhibit 2** and incorporated herein by reference.

BE IT FURTHER RESOLVED that Resolution No. 98-237 is hereby rescinded effective March 31, 2004.

BE IT FURTHER RESOLVED that this resolution shall become effective on April 1, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of March, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Hawn, Jackman, Keating, Marsh, O'Bryant,  
Mayor Ridenour

NOES: Councilmembers: None

ABSENT: Councilmembers: Dunbar

Attest: Jean Zahr  
JEAN ZAHR, City Clerk

APPROVED AS TO FORM:

By: [Signature]  
MICHAEL D. MILICH, City Attorney

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-168**

**A RESOLUTION APPROVING THE DOWNTOWN IMPROVEMENT  
DISTRICT BOARD'S PILOT PARKING VALIDATION PROGRAM**

WHEREAS, in order to increase Downtown Business patronage, the Downtown Improvement District Board approached staff with a proposal for a Pilot Parking Validation Program (Pilot Program), and

WHEREAS, the Pilot Program provides validation stamps redeemable for free parking at the Tenth Street Place and Eleventh Street parking garages, and

WHEREAS, under the Pilot Program, DID will pay the City fifty percent (50%) of the face value of the parking validation stamps, or fifty-two dollars and fifty cents (\$52.50) for a book of one hundred (100) stamps, each of which is redeemable for one (1) hour of free parking, and

WHEREAS, the Pilot Program provides that the validation stamps will be specially marked to be redeemable only during the weekday lunch-hour time period, defined as Monday through Friday, 11 a.m. to 2 p.m., and

WHEREAS, the Pilot Program validation stamps will be made available to DID businesses for use by patrons only, and

WHEREAS, the Pilot Program will commence on or about April 5, 2004 and continue for a period of six (6) months to October 2004, and

WHEREAS, following the conclusion of the Pilot Program period, staff will meet with DID to prepare a report for Council on the success of the program and make appropriate recommendations for continuance of the program, and

WHEREAS, fiscal impacts of the Pilot Program are uncertain, but likely to be negligible, and

WHEREAS, the Finance Committee considered this item at its January 26, 2004, meeting and recommended approval to the full Council,

NOW THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby approves the Downtown Improvement District Board's Pilot Parking Validation Program, as outlined by the Acting Engineering and Transportation Director in an agenda report dated March 11, 2004, and tentatively set to commence April 5, 2004.

BE IT FURTHER RESOLVED that the Pilot Program will be in place for a period of time not to exceed six (6) months, after which time a program evaluation will be prepared and recommendations made to Council regarding continuance of the Pilot Program.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of March, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-169**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO  
ENDORING A GRANT APPLICATION FROM THE STATE THEATRE  
BOARD OF DIRECTORS TO THE STANISLAUS COUNTY ECONOMIC  
DEVELOPMENT BANK.**

WHEREAS, the State Theatre Non-Profit Board of Directors is initiating a capital project to renovate the State Theatre's structure, including ceiling and wall murals; and

WHEREAS, the State Theatre Board of Directors is soliciting a \$150,000 grant from the Stanislaus County Economic Development Bank; and

WHEREAS, the Stanislaus County Economic Development Bank requires endorsement from the incorporated City before it will consider the application; and

WHEREAS, the Economic Development Advisory Board, which includes the nine City Managers in Stanislaus County, recommended a provision to the Alliance Board of Directors that should the State Theatre cease operating as a non-profit organization within the three years, the succeeding organization (for profit) must repay the grant to the City of Modesto. Each year of the three years that the State Theatre continues to operate as a non-profit would release one-third of the obligation so at the end of three years there is no further obligation; and

WHEREAS, the Alliance Board approved this provision and referred to the County Board of Supervisors who requested a Council Resolution accepting the State Theatre's request for City endorsement of their loan request; and

WHEREAS, the Modesto City Manager recommends approval,

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Modesto that the State Theatre \$150,000 grant request to the Stanislaus County Economic Development Bank is hereby endorsed.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of March, 2004, by Councilmember Jackman , who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-170**

**A RESOLUTION APPOINTING NORALYNN DOYLE GOOLD TO THE  
COMMUNITY QUALITIES FORUM**

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards and Commissions, and

WHEREAS, Mayor Jim Ridenour has recommended NORALYNN DOYLE GOOLD as his selection to the Community Qualities Forum.

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. NORALYNN DOYLE GOOLD is hereby appointed to the Community Qualities Forum with a term expiration of January 1, 2008.

SECTION 2. The City Clerk is hereby directed to transmit a copy of this resolution to the newly appointed member of the Community Qualities Forum and the Secretary thereof.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-171**

**A RESOLUTION APPROVING A CONTRACT WITH MAZE & ASSOCIATES, AN ACCOUNTANCY CORPORATION, TO PERFORM FINANCIAL RELATED WORK FOR THE CITY OF MODESTO, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE CONTRACT.**

WHEREAS, the City's Police Department requires an audit firm to perform agreed upon procedures to assure that the City-licensed bingo games operator is in compliance with the City of Modesto's bingo regulations, and

WHEREAS, the City's Community Facilities Fees administrative management requires an audit firm to perform agreed upon procedures to provide assurance that previous accounting and financial calculations are accurate, and

WHEREAS, the City's Internal Audit Division requires a qualified audit firm to perform agreed upon procedures to provide assurance that the City's information systems comply with security and disaster recovery requirements, and

WHEREAS, the City's Finance Department requires assistance from an audit firm to perform its Gann appropriations limit calculations, and

WHEREAS, the Council has previously selected Maze & Associates as the firm most qualified to perform financial audit services for the City, and

WHEREAS, the Audit Committee has, on March 12, 2004, recommended Maze and Associates be approved to perform the required financial services cited above,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a contract with Maze & Associates to perform these services at a price not to exceed \$78,200.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract for these services.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of April, 2004, by Councilmember O'Bryant, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-172**

**A RESOLUTION AMENDING POLICIES AND PROCEDURES FOR THE USE  
OF MELLO-ROOS COMMUNITY FACILITIES DISTRICTS**

WHEREAS, on September 3, 1996, by Resolution No. 96-501, the City Council adopted "Policies and Procedures" for the creation and administration of Mello-Roos Community Facilities Districts, and

WHEREAS, by Resolution No. 96-545, adopted on October 8, 1996, the City Council made certain amendments to its "Policies and Procedures" for the creation and administration of Mello-Roos Community Facilities Districts, and

WHEREAS, by Resolution No. 98-164, adopted on March 24, 1998, the City Council made certain amendments to its "Policies and Procedures" for the creation and administration of Mello-Roos Community Facilities Districts, and

WHEREAS, by Resolution No. 98-186, adopted on April 7, 1998, the City Council made certain amendments to its "Policies and Procedures" for the creation and administration of Mello-Roos Community Facilities Districts, and

WHEREAS, by Resolution No. 98-483, adopted on September 8, 1998, the City Council made certain amendments to its "Policies and Procedures" for the creation and administration of Mello-Roos Community Facilities Districts, and

WHEREAS, by Resolution No. 99-405, adopted August 10, 1999, the City Council made certain amendments to its "Policies and Procedures" for the creation and administration of Mello-Roos Community Facilities Districts, and

WHEREAS, by Resolution No. 99-500, adopted October 5, 1999, the City Council made certain amendments to its “Policies and Procedures” for the creation and administration of Mello-Roos Community Facilities Districts, and

WHEREAS, by Resolution No. 2002-39 the City Council transferred the CFD administration function from the City Clerk and the City Attorney to the City Manager, and by the same Resolution the City Council made certain amendments to its Policies and Procedures for the creation and administration of Mello-Roos Community Facilities Districts, and

WHEREAS, The City Council desires to further amend the City’s Policies and Procedures for formation and administration of Mello-Roos Community Facilities Districts.

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that its “Policies and Procedures” relating to the application for, creation of and administration of Mello-Roos Community Facilities Districts, formerly adopted and amended by this Council, be further amended as set forth below:

1. That Section 3.g. of the Policies and Procedures read as follows:

Agreements Required. Applicant will be required to enter into all necessary agreements incident to CFD proceedings in a form provided by the City and consistent with these Policies and Procedures. These agreements may include, but not be limited to:

- (1) Acquisition and Shortfall Agreement
- (2) Advanced Funding Agreement
- (3) Land Dedication Agreement (where required)
- (4) Acquisition and Disclosure Agreement
- (5) Disposition and Development Agreement (where required)
- (6) Development Agreement
- (7) Other agreements (as required)

2. That Section 3.k. of the Policies and Procedures read as follows:

In retaining construction contractors for work which is reimbursable by a City of Modesto Community Facilities District ("CFD"), the developer shall abide by the following bid process:

1. Using a bid package approved by the City, the developer shall advertise for bids in the appropriate newspapers and periodicals, including but not limited to the local Builders Exchange and the Modesto Bee. Bid opening shall be no sooner than 7 days after the initial publication.
2. The bid package shall include, and be based upon, improvement plans as stamped approved by the City Engineer or his or her designee ("City Engineer"), and the Community Facilities District Engineer or his or her designee ("District Engineer"). The bid package may not contain any alterations, deviations or exceptions to the improvement plans, unless the alteration, deviation or exception is approved in writing by the District Engineer and is advertised for a reasonable period prior to the bid opening.
3. The developer shall only accept bids using a bid proposal form approved by the City. The developer shall ensure that copies of the form are made available to prospective bidders at a local business office located within Stanislaus County during reasonable business hours throughout the bid advertising period. Contractors interested in submitting sealed bids for the project will be directed to do so on the approved form and at a specific date and time (e.g., at 9 a.m. on February 1, 2004, at the developer's place of business) . At this specified time, the District Engineer may be in attendance to receive the bid packages.
4. The bid packages will be opened immediately after the close of the specified time period. The bid opening shall be open to the public and may be in the presence of the District Engineer. All bids will be publicly announced at the bid opening. The developer will then begin the process of executing a contract with the lowest responsible bidder.

If the developer desires to award to a contractor other than the low bidder, a written request must be submitted to the District Engineer. The District Engineer may allow this if the developer can provide adequate justification.

5. The developer shall insure that all contractors and subcontractors are licensed in accordance with sections 7000 through 7145 inclusive, of the California Business and Professions Code and maintain adequate insurance for any work or services performed.
6. In accordance with California Labor Code section 1770, developer shall require the payment of prevailing wages based on the rates determined by the California Director of Industrial Relations. Unless otherwise directed by the District Engineer, Developer's construction schedule shall provide adequate time for completion of the work such that no holiday or overtime labor shall be required. The CFD shall not reimburse developer for any labor costs which exceed the normal and customary straight time rates as described in the City of Modesto General Provisions, Section 4.19, for the work performed unless the District Engineer authorizes the use of overtime or legal holiday time, in advance and in writing.
7. The District Engineer shall retain the right to be in attendance to receive the bid package, or to inspect all bids and change orders. Any extra work or charges during construction for which reimbursement is sought shall be justified and documented. Except in the case of an emergency, any such charges shall be approved by the District Engineer in advance and in writing. In the case of an emergency, any such charges may be authorized by the District Engineer if the developer provides adequate justification that an emergency existed and that the extra work or charges incurred were reasonable. Said justification shall be provided within a reasonable time after the emergency ends and prior to reimbursement for any such charges.
8. No permits shall be issued and no work shall commence until the developer and the District Administrator have executed an Acquisition and Shortfall Agreement for the improvements to be constructed.
9. The developer shall maintain certified payroll records for all labor costs incurred on all CFD reimbursable work for a minimum period of four (4) years from the issuance of the Notice of Completion. Said payroll records shall be made available to the CFD or any state regulatory agency for review, audit, inspection or copying upon request.

10. Developer shall indemnify and hold the City and the CFD harmless for ensuring that the project is bid and constructed in accordance with City and CFD standards, and in compliance with all applicable local, state and federal laws. Developer shall also indemnify and hold the City and the CFD harmless for any damages, claims or actions arising out of said construction activities in a form approved by the City Attorney and the Risk Manager.

11. Developer may be reimbursed for design costs incurred prior to the execution of an Acquisition and Shortfall Agreement for completed and accepted, CFD-funded facilities as determined and approved by the CFD Administrator and the CFD Engineer.

3. That Section 3.u. of the Policies and Procedures read as follows:

Based on substantial evidence presented to the City Council, it is determined that advance deposits in the following sums must be received in all cases, whether reimbursable or not, prior to an applicant's application for a CFD being deemed complete by the CFD Formation Group.

- (1) A CFD is to be created at applicant's request and where bonds are issued - \$64,500.00. The Developer shall make additional advances to the City within ten (10) days following receipt from the City of a request for an additional advance to cover the costs referred to herein.
- (2) A CFD is to be created at applicant's request and where bonds are not to be issued - \$64,500.00. The Developer shall make additional advances to the City within ten (10) days following receipt from the City of a request for an additional advance to cover the costs referred to herein.
- (3) In the case of the creation of a "simple" annexation to an existing CFD, which does not require the preparation of a new public report, or the alteration of an existing Public Report or modification of any other CFD-related document for the existing CFD, and the annexation does not involve the sale of bonds - \$9,500.00. The Developer shall make additional advances to the City within ten (10) days following receipt from the City of a request for an additional advance to cover the costs referred to herein.

- (4) In the case of the creation of a "complex" annexation to an existing CFD, which requires an amendment to or modification of a Public Report or other CFD-related document, and the annexation does not require the sale of bond - \$20,500.00. The Developer shall make additional advances to the City within ten (10) days following receipt from the City of a request for an additional advance to cover the costs referred to herein.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Byant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-173**

**A RESOLUTION OF CONSIDERATION OF THE CITY COUNCIL OF THE CITY OF MODESTO, CALIFORNIA, ACTING IN ITS CAPACITY AS THE LEGISLATIVE BODY OF CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2003-1 (FAIRVIEW VILLAGE), TO AMEND THE EXISTING RATE AND METHOD OF APPORTIONMENT OF THE SPECIAL TAX**

WHEREAS, the City Council of the City of Modesto (the “City Council”), acting as the legislative body of the City of Modesto Community Facilities District No. 2003-01 (Fairview Village) (the “District”), has determined that the rate and method of apportionment of the special tax (the “Existing Rate and Method”), currently described in Ordinance No. 2003-3339 adopted by the City Council on December 11, 2003 (“Ordinance No. 3339”) and approved by the qualified electors within the District at a special election held on December 11, 2003 pursuant to the Mello-Roos Community Facilities Act of 1982, as amended, commencing with Section 53311 of the Government Code (the “Act”), should be changed and replaced by a new rate and method of apportionment as set forth in **Appendix A** hereto (the “Amended Rate and Method”); and

WHEREAS, the boundaries of the District are as depicted on the boundary map recorded with the County Recorder in the book of maps of assessment and community facilities districts in Book No. 3AM, at Page 83, as Instrument No. 03-0190347 (the “Map”); and

WHEREAS, the City Council has determined in accordance with the requirements of Section 53331 of the Act that the public convenience and necessity require the District to consider the Amended Rate and Method; and

WHEREAS, the City Council now deems it appropriate, in light of the foregoing, and intends, to take the initial steps necessary to consider the proposed Amended Rate and Method by adopting this resolution as required by Section 53334 of the Act;

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto hereby finds and determines as follows:

SECTION 1. The above recitals are true and correct.

SECTION 2. The Existing Rate and Method is proposed to be replaced with the Amended Rate and Method attached hereto as Appendix A. If this change is approved, the Amended Rate and Method Amendment will replace the Existing Rate and Method.

SECTION 3. A public hearing (the "Hearing") on the Amended Rate and Method shall be held at 5:30 p.m., or as soon thereafter as practicable, on May 11, 2004, in the Modesto City Council Chamber, 1010 Tenth Street, Modesto, California 95353. Should the City Council determine to submit the Amended Rate and Method to the qualified electors of the District following the Hearing, a special election will be held to authorize the Amended Rate and Method. If the election is held, the proposed voting procedure at the election would be a landowner vote with each landowner who is the owner of record at the close of the Hearing, or authorized representative thereof, having one vote for each acre or portion of an acre of land that he or she owns within the District, or if at least twelve (12) persons, who need not necessarily be the same twelve (12) persons, have been registered to vote within the District for each of the 90 days preceding the close of the Hearing, then the vote shall be by the registered voters of the District, with each voter having one vote. Ballots for the special election may be distributed by mail or by personal service.

SECTION 4. At the time and place set forth above for the Hearing, the City Council, acting in its capacity as the legislative body of the District, shall receive testimony as to whether the Amended Rate and Method should be adopted. The officers of the City responsible for the operation of the District are hereby directed to prepare a report describing the Amended Rate and Method to be submitted to the City Council at the time of the Hearing.

SECTION 5. At the time and place set forth above for the Hearing, any interested person, including all persons owning lands or registered to vote within the District, may appear and be heard.

SECTION 6. The City Clerk is hereby directed to publish a notice (the "Notice") of the Hearing pursuant to Section 6061 of the Government Code in a newspaper of general circulation published in the area of the District. The Notice shall contain the information required by Section 53335 of the Act, the time and place of the Hearing, a statement that the testimony of all interested persons or taxpayers will be heard, a description of the protest rights of the registered voters and landowners to the Amended Rate and Method and a description of the proposed voting procedure for the election required by the Act. Such publication shall be completed at least seven (7) days prior to the date of the Hearing.

SECTION 7. The City Clerk is hereby directed to send a copy of the Notice of the Hearing by first-class mail, postage prepaid, to each landowner within the District as shown on the last equalized assessment roll, or otherwise known to the City Clerk to be a current owner of land within the District. Said mailing shall be completed not less than fifteen (15) days prior to the date of the Hearing.

SECTION 8. This Resolution shall be effective on its adoption.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Byant, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant  
Mayor Ridenour

By Michael D. Milich  
MICHAEL D. MILICH, City Attorney

**APPENDIX A**

**PROPOSED AMENDED AND RESTATED RATE AND METHOD OF  
APPORTIONMENT FOR THE CITY OF MODESTO COMMUNITY  
FACILITIES DISTRICT NO. 2003-1 (FAIRVIEW VILLAGE)**

## APPENDIX C

### CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2003-1 (FAIRVIEW VILLAGE)

#### RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX

Special Taxes applicable to each Assessor's Parcel in Community Facilities District No. 2003-1 (Fairview Village) [herein "CFD No. 2003-1" or "the CFD"] shall be levied and collected according to the tax liability determined by the City Council of the City of Modesto, through the application of the appropriate amount or rate for Taxable Property, as described below. All of the property in CFD No. 2003-1, unless exempted by law or by the provisions of Section G below, shall be taxed for the purposes, to the extent, and in the manner herein provided, including property subsequently annexed to CFD No. 2003-1 unless a separate Rate and Method of Apportionment is adopted for the annexation area.

#### A. DEFINITIONS

The terms hereinafter set forth have the following meanings:

**"Acre" or "Acreage"** means the land area of an Assessor's Parcel as shown on an Assessor's Parcel Map, or if the land area is not shown on an Assessor's Parcel Map, the land area shown on the applicable Final Map or other Development Plan.

**"Act"** means the Mello-Roos Community Facilities Act of 1982, as amended, being Chapter 2.5, (commencing with Section 53311), Division 2 of Title 5 of the California Government Code.

**"Administrative Expenses"** means any or all of the following: the fees and expenses of any fiscal agent or trustee (including any fees or expenses of its counsel) employed in connection with any Bonds, and the expenses of the City carrying out its duties with respect to CFD No. 2003-1 and the Bonds, including, but not limited to, levying and collecting the Special Taxes, the fees and expenses of legal counsel, charges levied by the County Auditor's Office, Tax Collector's Office, and/or Treasurer's Office, costs related to annexing property into the CFD, costs related to property owner inquiries regarding the Special Taxes, costs associated with complying with any continuing disclosure requirements for the Bonds and the Special Taxes, and all other costs and expenses of the City in any way related to the establishment or administration of the CFD.

**"Administrator"** means the person or firm designated by the City to administer the Special Taxes according to this Rate and Method of Apportionment of Special Tax.

**“Annual Maintenance Special Tax”** means a special tax levied in any Fiscal Year to pay the Maintenance Special Tax Requirement, as defined below.

**“Annual Facilities Special Tax”** means a special tax levied in any Fiscal Year to pay the Annual Facilities Special Tax Requirement, as defined below,

**“Annual Facilities Special Tax Requirement”** means the amount necessary in any Fiscal Year (i) to pay principal and interest on Bonds, (ii) to create or replenish reserve funds, (iii) to cure any delinquencies in the payment of principal or interest on indebtedness of CFD No. 2003-1 which have occurred in the prior Fiscal Year or (based on delinquencies in the payment of the Annual Facilities Special Taxes which have already taken place) are expected to occur in the Fiscal Year in which the tax will be collected, and (iv) to pay construction expenses to be funded directly from Annual Facility Special Tax proceeds. The amounts referred to in clauses (i) and (ii) of the preceding sentence may be reduced in any Fiscal Year by: (i) interest earnings on or surplus balances in funds and accounts for the Bonds to the extent that such earnings or balances are available to apply against debt service pursuant to a Bond indenture, Bond resolution, or other legal document that sets forth these terms; (ii) proceeds received by CFD No. 2003-1 from the collection of penalties associated with delinquent Annual Facilities Special Taxes; and (iii) any other revenues available to pay debt service on the Bonds as determined by the Administrator.

**“Assessor’s Parcel”** or **“Parcel”** means a lot or parcel shown on an Assessor’s Parcel Map with an assigned Assessor’s Parcel number.

**“Assessor’s Parcel Map”** means an official map of the County Assessor designating parcels by Assessor’s Parcel number.

**“Bonds”** means bonds or other debt (as defined in the Act), whether in one or more series, issued, insured or assumed by CFD No. 2003-1 related to public-infrastructure and/or improvements that are authorized to be funded by CFD No. 2003-1.

**“Capitalized Interest”** means funds in any capitalized interest account available to pay debt service on Bonds.

**“CFD Formation”** means the date on which the Resolution of Formation to form CFD No. 2003-1 was adopted by the City Council.

**“City”** means the City of Modesto.

**“City Council”** means the City Council of the City of Modesto, acting as the legislative body of CFD No. 2003-1.

**“County”** means the County of Stanislaus.

“Developed Property” means, in any Fiscal Year, the following:

*For purposes of levying the Annual Maintenance Special Tax, “Developed Property” means:*

- for Single Family Detached Property, all Parcels for which a Final Map was recorded prior to June 30 of the preceding Fiscal Year
- for Single Family Attached Property, all Parcels for which a building permit for new construction of a residential structure was issued prior to June 30 of the preceding Fiscal Year.
- for Other Property, all parcels for which a building permit for new construction of a building structure was issued prior to June 30 of the preceding Fiscal Year.

*For purposes of levying the Annual Facilities Special Tax, “Developed Property” means:*

- for Single Family Detached Property, all Parcels for which a building permit for new construction of a Unit was issued prior to June 30 of the preceding Fiscal Year
- for Single Family Attached Property, all Parcels for which a building permit for new construction of a residential structure was issued prior to June 30 of the preceding Fiscal Year.
- for Other Property, all parcels for which a building permit for new construction of a building structure was issued prior to June 30 of the preceding Fiscal Year.

“Development Plan” means a condominium plan, apartment plan, site plan or other development plan that identifies such information as the type of structure, the acreage, the square footage, and/or the number of Units that will be developed on Single Family Attached Property or Other Property.

“Final Map” means a final map, or portion thereof, approved by the City pursuant to the Subdivision Map Act (California Government Code Section 66410 *et seq.*) that creates lots which do not need to be further subdivided prior to issuance of a building permit for a residential or non-residential structure. The term “Final Map” shall not include any Assessor’s Parcel Map or subdivision map or portion thereof, that does not create lots in that are in their final configuration, including Assessor’s Parcels that are designated as remainder parcels.

“Fiscal Year” means the period starting July 1 and ending on the following June 30.

“Maintenance Special Tax Requirement” means that amount necessary in any Fiscal Year to (i) pay for authorized maintenance expenses, (ii) pay administrative expenses of CFD No. 2003-1, and (iii) cure any delinquencies in the payment of Annual Maintenance Special Taxes levied in prior Fiscal Years or (based on delinquencies in the payment of Annual Maintenance Special Taxes which have already taken place) are expected to occur in the current Fiscal Year.

**“Maximum One-Time Facilities Special Tax”** means the greatest amount of One-Time Facilities Special Tax that can be levied on an Assessor’s Parcel in any Fiscal Year determined in accordance with Sections C and D below.

**“Maximum Annual Facilities Special Tax”** means the greatest amount of Annual Facilities Special Tax that can be levied on an Assessor’s Parcel in any Fiscal Year determined in accordance with Sections C and D below.

**“Maximum Annual Maintenance Special Tax”** means the greatest amount of Annual Maintenance Special Tax that can be levied on an Assessor’s Parcel in any Fiscal Year determined in accordance with Sections C and D below.

**“Maximum Special Taxes”** means, collectively, the Maximum One-Time Facilities Special Tax, Maximum Annual Facilities Special Tax, and Maximum Annual Maintenance Special Tax.

**“One-Time Facilities Special Tax”** means a special tax, levied on Taxable Property to pay the One-Time Facilities Special Tax Requirement and collected by the City prior to a structural building permit being issued for new construction on Taxable Property.

**“One-Time Facilities Special Tax Requirement”** means the amount determined by the City and identified in Attachment 2 of this Rate and Method of Apportionment that is needed to pay facility costs authorized to be funded by CFD No. 2003-1, which will not be paid by the Bonds or Annual Facilities Special Tax.

**“Original Parcel”** means an Assessor’s Parcel in CFD No. 2003-1 at the time of CFD Formation, as identified in Attachment 2. A Successor Parcel that is being further subdivided shall also be considered an Original Parcel for purposes of determining the Maximum Special Taxes pursuant to Section C.

**“Other Property”** means all Taxable Property that is Developed Property but is not Single Family Attached Property or Single Family Detached Property.

**“Proportionately”** means, for Developed Property, that the ratio of the actual Annual Facilities Special Tax and Annual Maintenance Special Tax levied in any Fiscal Year to the Maximum Annual Facilities Special Tax and Maximum Annual Maintenance Special Tax authorized to be levied in that Fiscal Year is equal for all Assessor’s Parcels of Developed Property, respectively. In addition, for Undeveloped Property, “Proportionately” means that the ratio of the actual Annual Facilities Special Tax and actual Annual Maintenance Facilities Special Tax to the Maximum Annual Facilities Special Tax and Maximum Annual Maintenance Special Tax is equal for all Assessor’s Parcels of Undeveloped Property, respectively.

**“Public Property”** means any property within the boundaries of CFD No. 2003-1 that is owned by the federal government, State of California, County, City, or other public agency.

**“Single Family Attached Property”** means, in any Fiscal Year, all Parcels of Developed Property for which a building permit was issued for construction of a residential structure consisting of two or more Units that share common walls and are offered as for-sale Units, including such residential structures that meet the statutory definition of a condominium contained in Civil Code Section 1351.

**“Single Family Detached Lot”** means an individual numbered lot, which is in its final configuration and for which a building permit may be issued for a single family detached Unit.

**“Single Family Detached Property”** means, in any Fiscal Year, all Parcels of Developed Property for which a building permit was issued or will be issued for construction of a Unit that does not share a common wall with another Unit.

**“Special Taxes”** means, collectively, the One-Time Facilities Special Tax, the Annual Facilities Special Tax, and the Annual Maintenance Special Tax.

**“Subdivision Map”** means a Final Map, large lot subdivision map, or other map recorded with the County that results in the subdivision of an Original Parcel into two or more Successor Parcels.

**“Successor Parcel”** means an Assessor’s Parcel of Taxable Property created by the subdivision or reconfiguration of an Original Parcel on which construction of a residential or non-residential structure is permitted.

**“Taxable Property”** means all of the Assessor’s Parcels within the boundaries of CFD No. 2003-1 which are not exempt from the Special Tax pursuant to law or Section G below.

**“Taxable Public Property”** means, in any Fiscal Year, all Parcels of Public Property within CFD No. 2003-1 that, (i) based on a tentative map or other Development Plan, were expected to be Taxable Property and, (ii) based on this expectation, Maximum Special Taxes were assigned to the Parcels in prior Fiscal Years.

**“Tax Zone”** means a mutually exclusive geographic area, within which particular Special Tax rates may be levied pursuant to this Rate and Method of Apportionment of Special Tax. Attachment 1 identifies the Tax Zone in CFD No. 2003-1 at CFD Formation; additional Tax Zones may be created when property is annexed into the CFD.

**“Tax Zone #1”** means the geographic area that was identified in Fiscal Year 2003-04 by Assessor’s Parcel number 56-27-02 and is designated in Attachment 1 of this Rate and Method of Apportionment of Special Tax as Tax Zone #1.

**“Undeveloped Property”** means, in any Fiscal Year, all Parcels of Taxable Property within CFD No. 2003-1 that are not Developed Property.

**“Unit”** means (i) for Single Family Detached Property, an individual single-family detached unit, and (ii) for Single Family Attached Property, an individual residential unit within a duplex, triplex,

fourplex, townhome, or condominium structure.

## **B. DATA FOR ANNUAL ADMINISTRATION**

On or about July 1 of each Fiscal Year, the Administrator shall identify the current Assessor's Parcel numbers for all Parcels of Taxable Property. The Administrator shall also determine: (i) the Tax Zone within which each Parcel of Taxable Property is located, (ii) whether each Assessor's Parcel of Taxable Property is Developed Property or Undeveloped Property, (iii) for Developed Property, which Parcels are Single Family Detached Property, Single Family Attached Property, and Other Property, (iv) for Parcels of Single Family Attached Property, the number of Units on each Parcel, (v) for Other Property, the Acreage of each Parcel, and (vi) the One-Time Facilities Special Tax Requirement, the Annual Facilities Special Tax Requirement, and the Maintenance Special Tax Requirement.

For Single Family Attached Property, the number of Units shall be determined by referencing the relevant Development Plan. If, in any Fiscal Year, an Assessor's Parcel includes both Developed Property and Undeveloped Property, the Administrator shall determine the acreage associated with the Developed Property, subtract this acreage from the total Acreage of the Assessor's Parcel, and use the remaining acreage to calculate the Special Tax that will apply to Undeveloped Property within the Assessor's Parcel. The Special Tax shall then be calculated for the Developed Property on the Parcel, and the total Special Tax levied on the Assessor's Parcel shall be the sum of the Special Taxes determined separately for the Undeveloped Property and Developed Property on the Parcel.

## **C. CALCULATING THE MAXIMUM SPECIAL TAXES**

The Administrator shall use the procedures set forth below to calculate the Maximum Special Taxes for each Parcel in CFD No. 2003-1 in each Fiscal Year, including the Maximum One-Time Facilities Special Tax, Annual Facilities Special Tax, and Annual Maintenance Special Tax.

### **1. Original Parcels**

The Maximum Special Taxes for each Original Parcel in CFD No. 2003-1 as of CFD Formation are identified in Attachment 2. Attachment 2 will be updated by the Administrator as needed to reflect Original Parcels added to the CFD due to annexations.

### **2. Successor Parcels**

#### ***a. All Successor Parcels are Single Family Detached Lots***

If the Parcels created by a recorded Subdivision Map are all Single Family Detached Lots, the Administrator shall apply the following steps to allocate the Maximum Special Taxes assigned to the Original Parcel to each of the Successor Parcels created by the subdivision:

- Step 1:** Identify the Maximum Special Taxes assigned to the Original Parcel;
- Step 2:** Divide the Maximum Special Taxes from Step 1 by the number of Single Family Detached Lots created by the Subdivision Map to determine the Maximum Special Taxes for each Single Family Detached Lot.

**b. *No Successor Parcels are Single Family Detached Lots***

If none of the Successor Parcels created by recordation of a Subdivision Map are Single Family Detached Lots, the Administrator shall apply the following steps to allocate the Maximum Special Taxes assigned to the Original Parcel to each of the Successor Parcels:

- Step 1:** Identify the Maximum Special Taxes assigned to the Original Parcel;
- Step 2:** Determine the total Acreage of Taxable Property created by subdivision of the Original Parcel;
- Step 3:** Divide the Maximum Special Taxes from Step 1 by the Acreage from Step 2 to calculate Maximum Special Taxes per acre;
- Step 4:** Multiply the per-acre Maximum Special Taxes from Step 3 by the Acreage in each Successor Parcel to calculate the Maximum Special Taxes for each Successor Parcel.

*If, after subdivision of an Original Parcel, a Successor Parcel is further subdivided, the Successor Parcel shall be treated as an Original Parcel for purposes of allocating Maximum Special Taxes pursuant to Section C.2a, C.2b, or C.2c, as appropriate.*

**c. *Some, But Not All, Successor Parcels are Single Family Detached Lots***

If a Subdivision Map divides an Original Parcel into Successor Parcels, of which some are Single Family Detached Lots and some are not, the Administrator shall apply the following steps to allocate the Maximum Special Taxes assigned to the Original Parcel to each of the Successor Parcels:

- Step 1:** Identify the Maximum Special Taxes assigned to the Original Parcel;
- Step 2:** Determine the total Acreage of Taxable Property created by subdivision of the Original Parcel;

- Step 3:** Determine the total Acreage of Single Family Detached Property created by the subdivision by taking the sum of the Acreage in the individual Single Family Detached Lots;
- Step 4:** Divide the Maximum Special Taxes from Step 1 by the Acreage calculated in Step 2 to calculate Maximum Special Taxes per acre;
- Step 5:** Multiply the per-acre Maximum Special Taxes calculated in Step 4 by the Acreage of Single Family Detached Property calculated in Step 3 to determine the total Maximum Special Taxes to be assigned to the Single Family Detached Property created by the subdivision;
- Step 6:** Divide the amount calculated in Step 5 by the number of Single Family Detached Lots created by the subdivision to determine the Maximum Special Taxes for each Single Family Detached Lot;
- Step 7:** Multiply the per-acre Maximum Special Taxes calculated in Step 4 by the Acreage of each Successor Parcel that is not Single Family Detached Property to calculate the Maximum Special Taxes for such Parcels.

*If, after subdivision of an Original Parcel, a Successor Parcel is further subdivided, the Successor Parcel shall be treated as an Original Parcel for purposes of allocating Maximum Special Taxes pursuant to Section C.2a, C.2b, or C.2c, as appropriate.*

After each reallocation of the Maximum Special Taxes upon subdivision or reconfiguration of Original Parcels, the sum of the Maximum Special Taxes assigned to Successor Parcels shall never be less than the Maximum Special Taxes assigned to the Original Parcels prior to such reallocation.

#### **D. ESCALATION OF MAXIMUM SPECIAL TAXES**

##### **1. One-Time Facilities Special Tax**

Beginning in January 2005 and each January thereafter, the Maximum One-Time Facilities Special Tax assigned to each Parcel shall be adjusted annually by the greater of (i) the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or (ii) four percent (4.0%). Each annual adjustment of the Maximum One-Time Facilities Special Tax shall become effective on the subsequent July 1.

**2. Annual Facilities Special Tax**

Beginning with Fiscal Year 2005-06, and each Fiscal Year thereafter, the Maximum Annual Facilities Special Tax assigned to each Parcel shall be increased by two percent (2%) of the amount in effect in the prior Fiscal Year.

**3. Annual Maintenance Special Tax**

Beginning in January 2005 and each January thereafter, the Maximum Annual Maintenance Special Tax shall be adjusted annually by the greater of (i) the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or (ii) four percent (4.0%). Each annual adjustment of the Maximum Annual Maintenance Special Tax shall become effective on the subsequent July 1.

**E. METHOD OF LEVY OF THE SPECIAL TAX**

**1. One-Time Facilities Special Tax**

The Maximum One-Time Facilities Special Tax determined pursuant to Sections C and D above shall be levied on all Taxable Property in CFD No. 2003-1 and shall be collected as set forth in Section F below.

**2. Annual Facilities Special Tax**

Commencing with Fiscal Year 2004-05 and for each following Fiscal Year, the Administrator shall determine the Annual Facilities Special Tax Requirement for that Fiscal Year. The Annual Facilities Special Tax shall then be levied on all Parcels of Taxable Property as follows:

*Step 1:* The Annual Facilities Special Tax shall be levied Proportionately on each Parcel of Developed Property within the CFD up to 100% of the Maximum Annual Facilities Special Tax for each Parcel for such Fiscal Year;

*Step 2:* If additional revenue is needed after Step 1, and after applying Capitalized Interest to the Annual Facilities Special Tax Requirement, the Annual Facilities Special Tax shall be levied Proportionately on each Assessor's Parcel of Undeveloped Property within the CFD, up to 100% of the Maximum Annual Facilities Special Tax for each Parcel of Undeveloped Property for such Fiscal Year;

*Step 3:* If additional revenue is needed after applying the first two steps, the Annual Facilities Special Tax shall be levied Proportionately on each Assessor's Parcel of Taxable Public Property, up to 100% of the Maximum Annual Facilities Special Tax assigned to each Parcel of Taxable Public Property.

### **3. Annual Maintenance Special Tax**

Commencing with Fiscal Year 2004-05 and for each following Fiscal Year, the Administrator shall determine the Maintenance Special Tax Requirement for that Fiscal Year. The Annual Maintenance Special Tax shall then be levied on all Parcels of Taxable Property as follows:

*Step 1:* The Annual Maintenance Special Tax shall be levied Proportionately on each Parcel of Developed Property within the CFD up to 100% of the Maximum Annual Maintenance Special Tax for each Parcel for such Fiscal Year;

*Step 2:* If additional revenue is needed after Step 1, the Annual Maintenance Special Tax shall be levied Proportionately on each Assessor's Parcel of Undeveloped Property within the CFD, up to 100% of the Maximum Annual Maintenance Special Tax for each Parcel of Undeveloped Property for such Fiscal Year;

*Step 3:* If additional revenue is needed after applying the first two steps, the Annual Maintenance Special Tax shall be levied Proportionately on each Assessor's Parcel of Taxable Public Property, up to 100% of the Maximum Annual Maintenance Special Tax assigned to each Parcel of Taxable Public Property.

## **F. COLLECTION OF SPECIAL TAX**

The Maximum One-Time Facilities Special Tax shall be collected prior to a building permit being issued for new construction of any residential or non-residential structure on Taxable Property within CFD No. 2003-1, and shall be immediately delinquent if not so paid.

The Annual Facilities Special Tax and Annual Maintenance Special Tax for CFD No. 2003-1 shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided, however, that prepayments are permitted as set forth in Section H below and provided further that the City may directly bill, collect at a different time or in a different manner, and/or collect delinquent Annual Facilities Special Taxes and Annual Maintenance Special Taxes through foreclosure or other available methods.

The Annual Facilities Special Tax shall be levied and collected until principal and interest on Bonds have been repaid, costs of constructing or acquiring authorized facilities from Annual Facilities

Special Tax proceeds have been paid, and all administrative expenses have been reimbursed. However, in no event shall an Annual Facilities Special Tax be levied after Fiscal Year 2050-2051. The Annual Maintenance Special Tax will continue to be levied and collected unless and until the City determines that Annual Maintenance Special Tax revenues are no longer needed to pay authorized services of the CFD.

#### G. EXEMPTIONS

Notwithstanding any other provision of this Rate and Method of Apportionment of Special Tax, no Special Taxes shall be levied on Public Property, except Taxable Public Property, as defined herein.

#### H. PREPAYMENT OF SPECIAL TAX

The following definitions apply to this Section H:

**“Outstanding Bonds”** means all Previously Issued Bonds which remain outstanding, with the following exception: if an Annual Facilities Special Tax has been levied against, or already paid by, an Assessor’s Parcel making a prepayment, and a portion of the Annual Facilities Special Tax will be used to pay a portion of the next principal payment on the Bonds that remain outstanding (as determined by the Administrator), that next principal payment shall be subtracted from the total Bond principal that remains outstanding, and the difference shall be used as the amount of Outstanding Bonds for purposes of this prepayment formula.

**“Previously Issued Bonds”** means all Bonds that have been issued on behalf of the CFD prior to the date of prepayment.

**“Public Facilities Requirements”** means either \$3,800,000 in 2004 dollars, which shall increase on January 1, 2005, and on each January 1 thereafter by the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or such lower number as shall be determined by the City as sufficient to fund improvements that are authorized to be funded by the CFD. The Public Facilities Requirements shown above may be adjusted or a separate Public Facilities Requirements identified each time property annexes into CFD No. 2003-1; at no time shall the added Public Facilities Requirement for that annexation area exceed the amount of public improvement costs that are expected to be supportable by the Maximum Annual Facilities Special Tax revenues generated within that annexation area.

**“Remaining Facilities Costs”** means the Public Facilities Requirements (as defined above), minus public facility costs funded by Outstanding Bonds (as defined above), developer equity, and/or any other source of funding.

The Annual Facilities Special Tax obligation applicable to an Assessor's Parcel in the CFD may be prepaid and the obligation of the Assessor's Parcel to pay the Annual Facilities Special Tax permanently satisfied as described herein, provided that a prepayment may be made only if there are no delinquent Annual Facilities Special Taxes with respect to such Assessor's Parcel at the time of prepayment. The Annual Maintenance Special Tax may not be prepaid. An owner of an Assessor's Parcel intending to prepay the Annual Facilities Special Tax obligation shall provide the City with written notice of intent to prepay. Within 30 days of receipt of such written notice, the City or its designee shall notify such owner of the prepayment amount for such Assessor's Parcel. Prepayment must be made not less than 75 days prior to any redemption date for Bonds to be redeemed with the proceeds of such prepaid Annual Facilities Special Taxes. The Prepayment Amount shall be calculated as follows: (capitalized terms as defined below):

	Bond Redemption Amount
plus	Remaining Facilities Amount
plus	Redemption Premium
plus	Defeasance Requirement
plus	Administrative Fees and Expenses
<u>less</u>	<u>Reserve Fund Credit</u>
equals	Prepayment Amount

As of the proposed date of prepayment, the Prepayment Amount shall be determined by application of the following steps:

- Step 1. Compute the total Maximum Annual Facilities Special Tax that could be collected from the Assessor's Parcel prepaying the Annual Facilities Special Tax in the Fiscal Year in which prepayment would be received by the City.
- Step 2. Divide the Maximum Annual Facilities Special Tax from Step 1 by the total amount that could be collected if the Maximum Annual Facilities Special Tax was levied on all Parcels of Taxable Property in the CFD.
- Step 3. Multiply the quotient computed pursuant to Step 2 by the Outstanding Bonds to compute the amount of Outstanding Bonds to be retired and prepaid (*the "Bond Redemption Amount"*).
- Step 4. Compute the current Remaining Facilities Costs (if any).
- Step 5. Multiply the quotient computed pursuant to Step 2 by the amount determined pursuant to Step 4 to compute the amount of Remaining Facilities Costs to be prepaid (*the "Remaining Facilities Amount"*).
- Step 6. Multiply the Bond Redemption Amount computed pursuant to Step 3 by the applicable redemption premium, if any, on the Outstanding Bonds to be redeemed (*the "Redemption Premium"*).

- Step 7.** Compute the amount needed to pay interest on the Bond Redemption Amount starting with the first Bond interest payment date after which the prepayment has been received until the earliest redemption date for the Outstanding Bonds, which, depending on the Bond offering document, may be as early as the next interest payment date.
- Step 8:** Compute the amount of interest the City reasonably expects to derive from reinvestment of the Bond Redemption Amount plus the Redemption Premium from the first Bond interest payment date after which the prepayment has been received until the redemption date for the Outstanding Bonds.
- Step 9:** Take the amount computed pursuant to Step 7 and subtract the amount computed pursuant to Step 8 (the "*Defeasance Requirement*").
- Step 10.** Determine the costs of computing the prepayment amount, the costs of redeeming Bonds, and the costs of recording any notices to evidence the prepayment and the redemption (the "*Administrative Fees and Expenses*").
- Step 11.** If and to the extent so provided in the indenture pursuant to which the Outstanding Bonds to be redeemed were issued, a reserve fund credit shall be calculated as a reduction in the applicable reserve fund for the Outstanding Bonds to be redeemed pursuant to the prepayment (the "*Reserve Fund Credit*").
- Step 12.** The Annual Facilities Special Tax prepayment is equal to the sum of the amounts computed pursuant to Steps 3, 5, 6, 9, and 10, less the amount computed pursuant to Step 11 (the "*Prepayment Amount*").

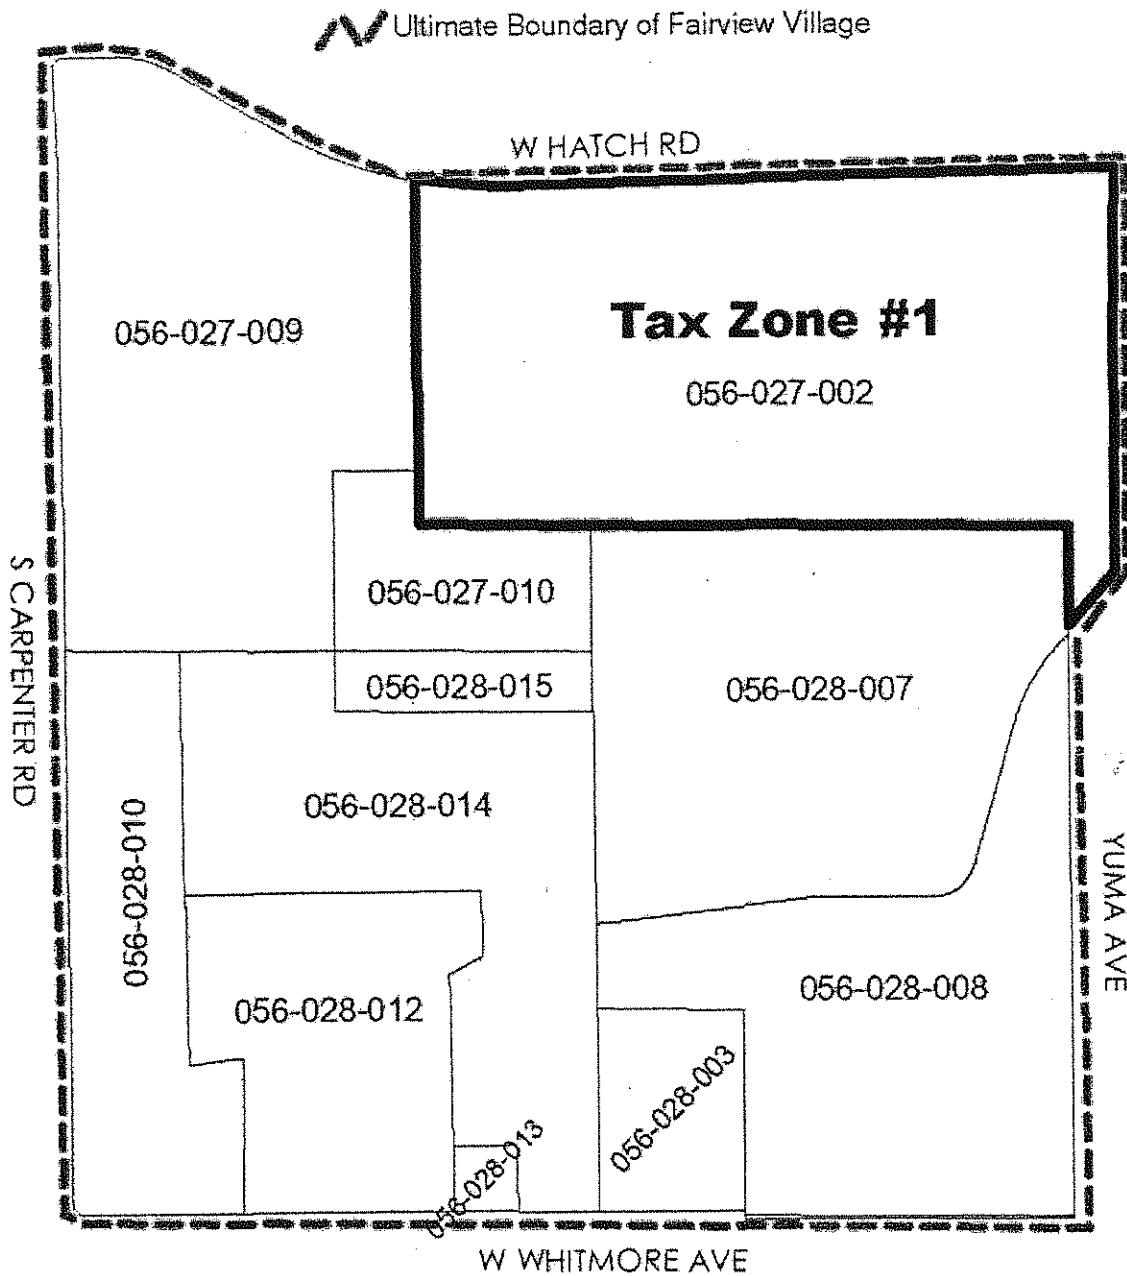

## **I. INTERPRETATION OF SPECIAL TAX FORMULA**

The City reserves the right to make minor administrative and technical changes to this document that does not materially affect the rate and method of apportioning the Special Taxes. In addition, the interpretation and application of any section of this document shall be left to the City's discretion. Interpretations may be made by the City by ordinance or resolution for purposes of clarifying any vagueness or ambiguity in this Rate and Method of Apportionment of Special Tax.

**ATTACHMENT 2**

**CITY OF MODESTO  
COMMUNITY FACILITIES DISTRICT NO. 2003-1  
(FAIRVIEW VILLAGE)**

**MAXIMUM SPECIAL TAXES ASSIGNED TO EACH ORIGINAL PARCEL WITHIN  
EACH TAX ZONE**

Tax Zone	APN	Fiscal Year 2004-05 Maximum One- Time Facilities Special Tax [1]	Fiscal Year 2004-05 Maximum Annual Facilities Special Tax [2]	Fiscal Year 2004-05 Maximum Annual Maintenance Special Tax [3]
1	56-27-02	\$0	\$326,517	\$108,585

1. Beginning in January 2005 and each January thereafter, the Maximum One-Time Facilities Special Tax shall be adjusted by the greater of (i) the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or (ii) four percent (4.0%). Each annual adjustment of the Maximum One-Time Facilities Special Tax shall become effective on the subsequent July 1.
  
2. Beginning in Fiscal Year 2005-06 and each Fiscal Year thereafter, the Maximum Annual Facilities Special Tax shall escalate by 2.0% of the amount in effect in the prior Fiscal Year.
  
3. Beginning in January 2005 and each January thereafter, the Maximum Annual Maintenance Special Tax shall be adjusted annually by the greater of (i) the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or (ii) four percent (4.0%). Each annual adjustment of the Maximum Annual Maintenance Special Tax shall become effective on the subsequent July 1.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-174**

**A RESOLUTION APPROVING AGREEMENTS BETWEEN THE CITY OF MODESTO AND SHELDON GROVER (APN: 005-3707 – PORTION), MATTHEW AND ANNE LONG (APN: 005-3708 – PORTION) AND ROBERT AND LYNNA CAMPANA (APN: 005-3709 – PORTION) FOR THE ACQUISITION OF PROPERTIES ALONG RUMBLE ROAD FOR THE RUMBLE ROAD WIDENING PROJECT AND AUTHORIZING THE CITY MANAGER TO EXECUTE SAID AGREEMENTS.**

WHEREAS, the City Council of the City of Modesto approved the Rumble Road Widening Project – Rumble/Conant Improvements (“Project”) to extend the sidewalk improvements along Rumble Road as part of the City’s Capital Improvement Program projects, and

WHEREAS, certain real property needs to be acquired for said Project which properties are identified as portions of Assessor’s Parcel Nos: 005-3707; 005-3708; 005-3709, and which properties are owned by Sheldon Grover, Matthew and Anne Long and Robert and Lynna Campana, respectively, and

WHEREAS, an agreement is needed for the acquisition of the needed real property.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Agreements between City of Modesto and Sheldon Grover, Matthew and Anne Long and Robert and Lynna Campana for the Rumble Road Widening Project are hereby approved.

BE IT FURTHER RESOLVED THAT the execution of said Agreements by the City Manager or his designee on behalf of the City of Modesto is hereby authorized.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour

NOES: Councilmembers: None

ABSENT: Councilmembers: None

ATTEST:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-175**

**A RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN AN ACCEPTANCE FORM FOR A GRANT DEED FOR THE ACQUISITION OF PROPERTY OWNED BY SHELDON GROVER (APN: 005-3707 – PORTION), MATTHEW AND ANNE LONG (APN: 005-3708 – PORTION) AND ROBERT AND LYNNA CAMPANA (APN: 005-3709 – PORTION) TO THE CITY OF MODESTO FOR PROPERTY ALONG RUMBLE ROAD FOR THE RUMBLE ROAD WIDENING PROJECT**

WHEREAS, Section 27281 of the Government Code requires a public agency to accept real property prior to the recordation of a deed or adopt a resolution accepting real property, and

WHEREAS, the City of Modesto desires to acquire real property from Sheldon Grover (APN: 005-3707 – portion), Matthew and Anne Long (APN: 005-3708 – portion) and Robert and Lynna Campana (APN: 005-3709 – portion) for property along Rumble Road for the Rumble Road Widening Project

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the City Manager or his designee is hereby authorized to sign a Certificate of Acceptance on behalf of the City of Modesto for the Grant Deed for the acquisition of property for the Rumble Road Widening Project.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the City Manager or his designee is hereby authorized and directed to sign any and all documents related to the purchase of real property on behalf of the City of Modesto as it is required for the acquisition of the property for the Rumble Road Widening Project.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004- 176**

**A RESOLUTION ACCEPTING THE PURCHASE AGREEMENT IN THE AMOUNT OF \$929,000 FROM SYLVAN UNION SCHOOL DISTRICT FOR THE SALE OF A PORTION OF A PARCEL (FUTURE SITE OF FREEDOM PARK) LOCATED ALONG SHARON AVENUE (APN: 085-0721) WITHIN THE CITY OF MODESTO AND AUTHORIZING THE CITY MANAGER TO EXECUTE ALL REQUIRED DOCUMENTS TO COMPLETE SAID SALE ON BEHALF OF THE CITY OF MODESTO**

WHEREAS, the City Council has determined that a portion of the parcel of land (“Portion”) owned by the City of Modesto and located along Sharon Avenue within the City of Modesto (Assessors Parcel Number 085-0721) is excess to the City’s future park needs, and

WHEREAS, said Portion consists of 4.22 acres and is a part of a larger parkland parcel consisting of 12.6 acres. Said Portion is more particularly described in “Exhibit A”, which is attached hereto and made a part hereof by this reference, and

WHEREAS, on October 28, 2003, the Council declared said Portion of said parkland excess to the City’s needs and directed staff to offer said Portion for sale and in accordance with Government Code §54222, staff offered said Portion to the Sylvan Union School District who expressed interest in acquiring said Portion, and

WHEREAS, the City negotiated with Sylvan Union School District representatives which action has resulted in an offer in the amount of Nine Hundred, Twenty-Nine Thousand Dollars and No Cents (\$929,000) from Sylvan Union School District. Said Purchase Agreement (“Exhibit B”) is attached hereto and made a part hereof by this reference, and

WHEREAS, City has determined that said offer is reasonable.

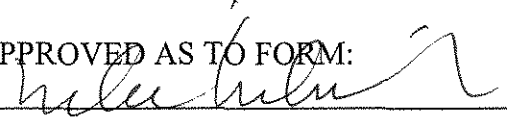

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that said Purchase Agreement and offer from Sylvan Union School District is hereby accepted for the sale of a portion of Assessors Parcel Number 085-0721, as set forth in "Exhibit A".

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the City Manager is hereby authorized to execute the grant deed and any property-related documents in order to sell said property on behalf of the City of Modesto.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Byant, was upon roll call carried and the resolution adopted by the following vote:

## AGREEMENT FOR PURCHASE AND SALE OF REAL PROPERTY AND JOINT ESCROW INSTRUCTIONS OF BUYER AND SELLER

THIS AGREEMENT is made this \_\_\_\_\_ day of April, 2004, by and between City of Modesto, a municipal corporation, an individual (hereinafter "Seller"), and the Sylvan School District ("Buyer").

### RECITALS

WHEREAS, Seller is the owner of a 4.22 acre parcel of property, hereinafter described, which is located in the City of Modesto, County of Stanislaus, State of California; and

WHEREAS, Buyer desires to acquire said property and Seller desires to sell said property on and subject to the terms and conditions contained herein.

### OPERATIVE PROVISIONS

NOW THEREFORE, in consideration of the covenants and agreements hereinafter set forth, Seller and Buyer agree as follows:

#### ARTICLE 1

##### ASSETS PURCHASED

Seller hereby agrees to sell and convey to Buyer and Buyer agrees to purchase from Seller, subject to the terms and conditions set forth herein, the following:

- 1.1 The Real Property described in Exhibit A and shown on Exhibit B, including all mineral and subsurface rights, if any, and all improvements located thereon;
- 1.2 All rights, privileges and easements appurtenant to the Real Property, (all of which are collectively referred to as the "Appurtenances").
- 1.3 The Real Property, the Appurtenances, Easements and Improvements are hereinafter collectively referred to as the "Property."

## ARTICLE 2

### TERMS

2.1 The Purchase Price. The purchase price for the Property shall be nine hundred twenty-nine thousand dollars (\$929,000) ("Purchase Price").

2.2 Terms. The Purchase Price shall be paid as follows:

a. Deposit. Within five (5) days of execution of this Agreement, Buyer shall deposit the sum of fifty thousand dollars (\$50,000) (the "Deposit") in escrow with Fidelity National Title Company, 3425 Coffee Road, Suite C, Modesto CA 95355 (the "Escrow Holder"). The Deposit shall be held in an interest bearing account and the interest accruing thereon shall be held for the account of Buyer.

b. Balance of Purchase Price. Within three (3) days prior to close of escrow Buyer shall deposit with the Escrow Holder, for delivery to Seller at the close of escrow, the balance of the Purchase Price in immediately available funds.

c. Payment of Balance Upon Closing. At the close of escrow ("Closing"), the Deposit and the balance of the Purchase Price, less any amount owed to Buyer in accordance with the terms of this Agreement, shall be paid by Escrow Holder to or at the direction of Seller on account of the Purchase Price.

d. Closing Costs. At least three (3) days prior to the Closing Date, Buyer shall deposit or cause to be deposited with Escrow Holder, in cash or a certified, bank cashier's or treasury check made payable to Escrow Holder or a confirmed wire transfer of funds, the amount of Escrow Holder's estimate of Buyer's share of closing costs, prorations and charges payable pursuant to this Agreement.

e. Grant Deed. Seller shall deposit the Grant Deed described herein into escrow prior to the close of escrow.

f. Preliminary Title Report. Within fifteen (15) days after the opening of escrow, Escrow Holder shall deliver to Buyer a Preliminary Title Report for the Property accompanied by legible copies of all documents referred to in the Report along with plotted easements.

2.3 Conveyance of Title. At the Closing, Seller shall convey to Buyer title to the Property in fee simple by recordation of the Grant Deed as defined herein, clear of all title defects, liens, assessments, encumbrances, easements, deeds of trust and mortgages except the lien for real property taxes, if any, for the current fiscal year not yet due, any assessments for which the Buyer will remain liable as a public agency, if any, for the current fiscal year not yet due, and such exceptions to title as Buyer shall approve pursuant to Section 3.1.

2.4 Issuance of Title Insurance. Evidence of title to the Property shall be the issuance at Closing by Fidelity National Title Company, 3425 Coffee Road, Suite C, Modesto, CA 95355 (the "Title Company") of an ALTA owner's policy of title insurance in the full amount of the Purchase Price, insuring fee simple title to the Property in the condition required by Section 2.3 and containing such endorsements as Buyer shall require. Indemnification of the Title Company to induce it to insure any otherwise unpermitted exception to title shall not be allowed except with the prior consent of Buyer after full disclosure to Buyer of the nature and substance of such exception and indemnity.

## ARTICLE 3

### CONDITIONS TO CLOSE

3.1 Conditions to Buyer's Obligation. Buyer's obligation to purchase the Property under this Agreement is subject to the fulfillment of each of the following conditions, each of which is for the benefit of Buyer and any or all of which may be waived by Buyer in writing at its option:

- a. Delivery of Title. Delivery of title to the Property in the condition required by Section 2.3.
- b. Issuance of an ALTA Policy of Title Insurance. Issuance of an ALTA owner's policy of title insurance in the full amount of the Purchase Price for the Property with only those exceptions which are acceptable to Buyer, accompanied by legible copies of all documents referred to in the report.
- c. Survey. Seller shall provide a survey of the Property to be paid for by Seller prepared by a licensed surveyor or civil engineer in sufficient detail to provide for the policy of title insurance described and required in Section 2.4 above, certified to Buyer and the Title Company in form satisfactory to Buyer without boundary, encroachment, or survey expectations which shall show the location of all easements and improvements. A copy of the survey shall be provided to Buyer and Title Company when complete.
- d. State and Local Regulatory Agencies' Approval. Unconditional acceptance and approval of Buyer's purchase of the Property by appropriate state and local regulatory agencies, including, but not limited to, the California Department of Toxic Substances Control, the California Department of Education, California Department of Conservation, the State Allocation Board, and the Office of Public School Construction.

e. Board of Trustees Acceptance of Purchase. Final acceptance and approval of any final inspections, reports, or analyses prepared by any of the regulatory agencies referred to in Section 3.1(d) or any other regulatory agency with any jurisdiction over the property and its future development as a school site, including approval of requirements imposed by such agencies that Buyer remediate or remove hazardous substances on the Property prior to its use as a school site.

f. Environmental Compliance by Buyer. Determination by Buyer that the Property complies with all federal, state and local environmental requirements applicable for use of the Property as a school site including without limitation, the California Environmental Quality Act, permits, mitigation and monitoring plans, geological and soil engineering investigations, hazardous waste and hazardous air emissions, and completion of any applicable environmental site assessments in compliance with Education Code sections 17213.1, et seq. Any environmental assessment of the Property shall be performed at the expense of Buyer. If the Property is not acceptable to Buyer because of the results of any environmental assessment required by the aforementioned statutes, the provisions of section 3.6 (a) shall apply. Seller shall have no obligation to perform any work of remediation in connection with or resulting from information obtained through any assessments performed.

g. Approval of Condition of Property. Final approval of the Condition of Property by Buyer.

1. Feasibility Review. Buyer shall analyze the feasibility of development of the Property by Buyer. Buyer shall be solely responsible for any and all costs incurred by Buyer in connection with its review and/or investigations of the Property.

2. Delivery of Project Documents. Unless Seller is not in possession of the following, which shall be evidenced by Seller's written notice to Buyer of the same, Seller shall, within fifteen (15) days of the execution of this Agreement, deliver to Buyer any and all documents and information related to the Property which is in the possession of Seller or Seller's agents, including any: (1) environmental documents on the Property or any adjacent property owned or controlled by Seller; (2) copies of all documents evidencing interests not shown on the Title Report, if any; (3) development agreements, tract map conditions of approval, grading and engineering studies and plans, soils reports, environmental studies, impact reports or negative declarations, traffic, noise, and drainage studies, subdivision maps, improvements plans, improvement agreements and bonds, if any; (4) permission for Buyer to discuss the Property with Seller's consultants; and (5) any existing leases and amendments relating to the Property. Buyer shall review and analyze the Project Documents to determine their individual and collective impact on the Property and its development by Buyer.

3. Studies and Investigations. Buyer shall conduct such independent investigations, studies and tests as it deems necessary or appropriate concerning Buyer's proposed use and/or the suitability of the Property for Buyer's intended purposes, including studies related to requirements or limitations imposed on the use of the Property.

4. Approval or Disapproval of Feasibility Studies. Buyer's obligation to consummate the purchase of the Property is conditioned upon delivery of the written approval of the Property to the Escrow Holder by Buyer prior to the Closing.

3.2 a. Seller's Obligations. Seller shall have timely performed all of the obligations required by the terms of this Agreement to be performed by Seller.

b. Seller's Representations. To the best of Seller's knowledge, all representations and warranties made by Seller to Buyer in this Agreement shall be true and correct as of the Closing.

3.3 Condition of Property. Seller represents and warrants that it is not aware of the existence of any defect or condition which would prevent the use of the Property, including, but not limited to, the condition of the soil, the existence of geologic hazards or groundwater contamination on the Property, the existence of ecological or environmental impediments to the intended use of the Property, the transfer of any water rights which are appurtenant to the Property and the existence of any hazardous or toxic materials on, beneath the surface, or in the vicinity of the Property at levels requiring remediation or removal under existing applicable laws. Buyer shall pay for removal of hazardous or toxic materials on the Property, including residual pesticides, herbicides, underground storage tanks and any other substances required to be removed as a condition of acquisition of the Property by any state or local agency with jurisdiction over the Property, and the remediation costs of such removal shall be deducted from the Purchase Price. Remediation costs to be deducted from the Purchase Price shall include the cost of all appropriate or requisite licenses, permits, inspections, clearances, and air monitoring.

3.4 Warranties of Title. Seller warrants and represents that:

a. No Pending Litigation. To Seller's actual knowledge, there are no actions, suits or proceedings pending or threatened against or affecting the Property in any court at law or in equity, or before or by any governmental department, commission, board, bureau, agency or instrumentality relating to the Property.

b. Contracts Concerning the Property. That Seller has received no notice of any contracts, licenses, commitments, or undertakings respecting the Property or the

performance of services on the Property, or the use of the Property or any part of it by which Buyer would become obligated or liable to any person.

c. Violations. That Seller has not received any notice of any violation of any statute, ordinance, regulation or administrative or judicial order or holding, whether or not appearing in public records, with respect to the Property or any improvements on the Property.

d. Material Defects. Seller has not received any notice that any material defect in the Property exists at present or as of the Closing.

e. Easements Not of Record. Seller has no knowledge, actual or constructive, and has not received any notice of the title to be conveyed to Buyer being encumbered by any easements, licenses, or other rights not disclosed by the public record.

f. Status of Title. As a covenant that will survive the Closing, Seller warrants that it is the sole owner of the Property, free and clear of all liens, claims, encumbrances and/or easements, encroachments on the Property from adjacent properties, encroachments by improvements or vegetation of the Property onto adjacent property, or rights of way of any nature. Any and all financial or monetary liens, claims and/or encumbrances shall be satisfied by Seller to the extent required by Section 5.3.

g. Hazardous Material. As a covenant that will survive the Closing, Seller warrants that Seller has no personal knowledge of, either actual or constructive, and has not received any notice, actual or constructive, from any local, state or federal agency of any hazardous material of any type or nature, solid, liquid or gaseous, which exists or has existed above, on, or beneath the Property prior to the date of Closing, including but not limited to, residual pesticides, herbicides and underground storage tanks, damages consequent to their existence on the Property and attorneys fees and costs of litigation arising from any such claims.

Seller shall indemnify and hold Buyer harmless from any and all claims, including third party claims, resulting from the presence of hazardous material above, on or beneath the Property, which was deposited prior to the date of Closing, including but not limited to the cost of removal of all hazardous materials from the Property, residual pesticides, herbicides and underground storage tanks, damages consequent to their existence on the Property and attorneys fees and costs of litigation arising from any such claims. Seller agrees to provide and disclose to Buyer within fifteen (15) days of execution of the Agreement any and all documents in Seller's possession regarding the existence, use, application or removal of hazardous substances on or from the Property including any and all disclosures by current and former tenants of Seller of the use or presence of hazardous materials on or in the vicinity of the Property.

3.5 a. Conditions to Benefit Buyer. The conditions contained in Sections 3.1, through 3.4 are intended solely for the benefit of Buyer. If the Seller is unable to deliver title to the Property, and the Property as required herein, or the conditions described in Sections 3.1 through 3.4 are not satisfied, Buyer shall have the right at its sole election, either to proceed with the purchase of the Property in accordance with the terms hereof, or, in the alternative, to terminate this Agreement and obtain a refund of the deposit plus all interest accrued thereon. In the event Buyer elects to terminate this Agreement for the reasons provided herein, Buyer shall pay any title and escrow charges, and neither party shall have any further rights or obligations under this Agreement.

b. Conditions to Benefit Seller. Seller's Conditions to Close contained in paragraph 3.6 are for the benefit of Seller, and should Buyer fail to timely comply with the Seller's Conditions to Close, Seller may, in its sole discretion, terminate this Agreement and retain the Liquidated Damages as provided in Section 7. In the event Seller elects to terminate

this Agreement for failure of Buyer to satisfy Seller's conditions to close as provided herein, Buyer shall pay any title and escrow charges.

3.6 Conditions to Seller's Obligation. For the benefit of Seller, the Closing shall be conditioned upon the occurrence and/or satisfaction of each of the following conditions (or Seller's written waiver thereof, it being agreed that Seller may waive any or all of such conditions):

a. Buyer's Obligations. Buyer shall have performed by the Closing, all of the obligations required by the terms of this Agreement to be performed by Buyer.

b. Buyer's Representations. All representations and warranties made by Buyer to Seller in this Agreement shall be true and correct as of the Closing.

#### ARTICLE 4

##### ESTABLISHMENT OF ESCROW

4.1 Time to Open Escrow. Promptly after the execution of this Agreement, an escrow shall be opened to consummate the sale of the Property pursuant to this Agreement in accordance with further escrow instructions of Buyer and of Seller (the "Escrow Instructions"), which instructions shall be consistent with the terms of this Agreement.

4.2 Delivery of Agreement. Seller and Buyer shall open the escrow by delivering an executed counterpart of this Agreement to the Escrow Holder.

#### ARTICLE 5

##### CLOSING

5.1 Closing Date. The Closing hereunder shall be held and delivery of all items to be made at the Closing under the terms of this Agreement shall be made at the offices of the Title

Company on or after a date not later than six months from the date of execution of this Agreement (the "Closing Date") or such other date as Buyer and Seller may agree to in writing or as established by Buyer and Seller pursuant to Section 5.2.

5.2 Extension of Closing Date. The Closing Date may be extended, at Buyer's option by written notice to Seller, for a reasonable period of time if required to allow satisfaction of all necessary conditions, such period not to exceed an additional six (6) months, subject to Buyer's further rights to terminate this Agreement upon the expiration of the period of any such extension if all such conditions have not then been satisfied.

If, at the conclusion of the extension period, the necessary conditions have not been satisfied, this Agreement shall either terminate, or at Buyer's option, may be extended after renegotiation of the Purchase Price for the Property. Upon termination of the Agreement pursuant to this Section, the Deposit, plus all interest accrued thereon, shall be returned to Buyer.

5.3 Encumbrances. Except as specified in Section 2.3, the Seller shall pay in full any bonds, liens, claims, or mortgages encumbering the Property, if applicable.

5.4 Recording Fees. Buyer shall pay the fees, if any, for recording the Grant Deed.

5.5 Other Fees and Costs. The cost of an ALTA title policy shall be paid by Buyer. Seller shall pay all costs and expenses of clearing title to achieve the condition required by Section 2.3. Seller shall pay all documentary transfer taxes payable in connection with the recordation of the Grant Deed. Buyer shall pay for any endorsements to the title insurance policy requested by that party. Buyer and Seller shall share equally the Escrow Holder's fees and other customary charges for document drafting, recording, and miscellaneous charges. If, as a result of no fault of Buyer or Seller, Escrow fails to close, Buyer and Seller shall share equally all of Escrow Holder's fees and charges. In the event this escrow fails to close through the fault

of Seller, Seller shall pay any and all escrow costs and expenses in connection therewith, and Buyer shall be at no expense with respect to the same. In the event this escrow fails to close through the fault of Buyer, Buyer shall pay any and all escrow costs and expenses in connection therewith and Seller shall be at no expense with respect to the same.

Delivery of Property. On Closing, Seller shall deliver the Property to Buyer in substantially the same condition, reasonable wear and tear excepted, as on the date of this Agreement.

## ARTICLE 6

### REPRESENTATIONS AND WARRANTIES

6.1 Buyer Representations and Warranties. In consideration of Seller entering into this Agreement and as an inducement to Seller to sell the Property to Buyer, Buyer makes the following representations and warranties, each of which is material and is being relied upon by Seller (the continued truth and accuracy of which shall constitute a condition precedent to Seller's obligations hereunder):

a. Buyer Authority to Execute Agreement. Buyer is a public school district duly formed under the laws of the State of California, and this Agreement and the execution and delivery thereof by the persons designated below have been specifically authorized by Buyer. Buyer has the legal right, power and authority to enter into this Agreement, to consummate the transactions contemplated hereby.

b. Authority of Executing Officer. Each individual executing this Agreement on behalf of Buyer represents, for the benefit of Seller, that he or she is duly authorized to execute and deliver this Agreement on behalf of Buyer.

c. Validity of Buyer's Representations and Warranties at Closing. The representations and warranties of Buyer set forth in this Agreement shall be true on and as of the Closing as if those representations and warranties were made on and as of such time.

6.2 Seller Representations and Warranties. In consideration of Buyer entering into this Agreement and as an inducement to Buyer to purchase the Property from Seller, Seller makes the following representations and warranties, each of which is material and is being relied upon by Buyer (the continued truth and accuracy of which shall constitute a condition precedent to Buyer's obligations hereunder):

a. Seller Authority to Execute Agreement. Seller warrants that the persons executing this Agreement are legally authorized to execute this Agreement and constitute all persons or entities with a legal interest in the Property necessary to convey clear title to a fee simple interest in the Property; that Seller has the legal right, power and authority to enter into this Agreement and to consummate the transactions contemplated hereby; the execution, delivery and performance of this Agreement have been duly authorized, and no other action by Seller is requisite to the valid and binding execution, delivery and performance of this Agreement, except as otherwise expressly set forth herein.

b. Validity of Seller's Representations and Warranties at Closing. The representations and warranties of the Seller set forth in this Agreement shall be true on and as of the Closing as if those representations and warranties were made on and as of such time.

c. Foreign Person. Seller warrants and represents that Seller is not, and will not be at the Closing, a "foreign person", within the meaning of section 1445 of the Internal Revenue Code of 1986, as amended. If required, Seller will deposit in Escrow concurrent with

the deposit of the Grant Deed, Seller's notarized, completed affidavit to such effect, including a California Form 590.

d. No Leases Or Options. Seller represents and warrants that there are no leases or options affecting the Property and that after execution of this Agreement, Seller will not enter into any leases or options with respect to the Property.

e. No Contracts. Seller warrants that at the Closing, there will be no contracts, licenses, commitments, or undertakings respecting maintenance of the Property or equipment on the Property, or the performance of services on the Property, or the use of the Property or any part of it by which Buyer would become obligated or liable to anyone.

6.3 Mutual Indemnification. Seller shall indemnify Buyer and hold Buyer harmless from and against any and all claims, demands, liabilities, costs, expenses, penalties, damages and losses, including, without limitation, reasonable attorneys' fees, resulting from any misrepresentations or breach of warranty or breach of covenant made by Seller in this Agreement or in any document, certificate, or exhibit given or delivered to Buyer pursuant to or in connection with this Agreement. The indemnification provisions of this Section 6.3 shall survive the delivery of the Grant Deed and transfer of title or, if title is not transferred pursuant to this Agreement, any termination of this Agreement.

Buyer shall indemnify Seller and hold Seller harmless from and against any and all claims, demands, liabilities, costs, expenses, penalties, damages and losses, including, without limitation, reasonable attorneys' fees, resulting from any misrepresentations or breach of warranty or breach of covenant made by Buyer in this Agreement or in any document, certificate, or exhibit given or delivered to Seller pursuant to or in connection with this Agreement. The indemnification provisions of this Section 6.3 shall survive the delivery of the

Grant Deed and transfer of title or, if title is not transferred pursuant to this Agreement, any termination of this Agreement.

## ARTICLE 7

### TERMINATION

7.1 Buyer Termination. In addition to the termination rights described in Section 5.2 hereof, this Agreement may be terminated by Buyer without further liability in the event of a breach by Seller of any term, condition, or covenant contained herein. Upon election by Buyer to terminate this Agreement pursuant to this Section 7.1, the Deposit, plus all interest accrued thereon, shall immediately be returned to Buyer.

7.2 Seller Termination. If Buyer defaults in any obligations hereunder, Seller's sole remedy shall be to rescind this Agreement and retain or receive payment of fifty thousand dollars (\$50,000) as liquidated damages for such default ("Liquidated Damages"). If the Deposit has been paid to the Seller at the time of Buyer's default, the balance of the Deposit in excess of the Liquidated Damages shall be refunded by Seller to Buyer.

7.3 Specific Performance. Notwithstanding the above, Buyer does not waive the right to specific performance if permitted by law.

7.4 LIQUIDATED DAMAGES. THE LIQUIDATED DAMAGES REFERRED TO IN 7.2 ABOVE SHALL BE DEEMED TO BE SELLER'S SOLE AND EXCLUSIVE REMEDY IN DAMAGES. THE PARTIES AGREE THAT THIS IS A REASONABLE SUM CONSIDERING ALL OF THE CIRCUMSTANCES EXISTING ON THE DATE OF THIS AGREEMENT, INCLUDING THE RELATIONSHIP OF THE SUM TO THE RANGE OF HARM TO SELLER THAT REASONABLY COULD BE ANTICIPATED, AND THE ANTICIPATION THAT PROVING ACTUAL DAMAGES WOULD BE COSTLY, IMPRACTICAL AND EXTREMELY DIFFICULT. IN PLACING THEIR INITIALS AT THE

PLACES PROVIDED BELOW, EACH PARTY AGREES TO THE LIQUIDATED DAMAGES PROVISIONS CONTAINED HEREIN, AND CONFIRMS THE ACCURACY OF THE STATEMENTS MADE ABOVE AND THE FACT THAT EACH PARTY WAS REPRESENTED BY COUNSEL WHO EXPLAINED THE CONSEQUENCES OF THIS LIQUIDATED DAMAGES PROVISION AT THE TIME THIS AGREEMENT WAS MADE. IN CONSIDERATION OF THE PAYMENT OF SUCH LIQUIDATED DAMAGES, SELLER SHALL BE DEEMED TO HAVE WAIVED ALL OTHER CLAIMS FOR DAMAGES OR RELIEF AT LAW OR IN EQUITY (INCLUDING ANY RIGHTS SELLER MAY HAVE PURSUANT TO CALIFORNIA CIVIL CODE SECTIONS 3389 AND 1680).

#### ARTICLE 8

#### ASSIGNABILITY

Assignment. Seller shall not, voluntarily or by operation of law, assign or otherwise transfer any of its rights or obligations under this Agreement, including, without limitation, transferring ownership of the Property to another party, without obtaining the prior written consent of Buyer. Such consent may only be withheld based upon objective factors which relate to the discharge of obligations set forth herein and in no event shall such consent be unreasonably withheld.

#### ARTICLE 9

#### GENERAL PROVISIONS

9.1 Time of Essence. Time is of the essence of each provision of this Agreement in which time is an element.

9.2 Notice. Any notice required or permitted to be given under this Agreement shall be deemed to have been given, served and received if given in writing and personally delivered or either deposited in the United States mail, registered or certified mail, postage prepaid, return receipt required, or sent by overnight delivery service or facsimile transmission, addressed as follows:

SELLER

Jack R. Crist  
City Manager  
City of Modesto  
1010 10th Street, 6<sup>th</sup> Floor  
Modesto, CA 95354

BUYER

Sylvan School District

Modesto, CA 95350  
Attn: Superintendent

With copy to:

Steve Long, Consultant  
Overland, Pacific & Cutler, Inc.  
8950 Cal Center Drive, Suite 102  
Sacramento, CA 95826

With copy to:

Kenneth S. Levy  
Miller Brown & Dannis  
71 Stevenson St. 19<sup>th</sup> Floor  
San Francisco, CA 94105

Any notice personally given or sent by facsimile transmission shall be effective upon receipt. Any notice sent by overnight delivery service shall be effective the business day next following delivery thereof to the overnight delivery service. Any notice given by mail shall be effective three (3) days after deposit in the United States mail.

9.3 Broker. Seller and Buyer each hereby acknowledge that Overland Pacific and Cutler, Inc., Sacramento, California has been retained by Seller to represent Seller, and Seller's broker acts as Seller's agent with respect to this transaction. Seller's broker is authorized to present this Agreement to Seller.

9.4 Entire Agreement of Parties. This Agreement constitutes the entire Agreement between the parties and supercedes all prior discussions, negotiations and Agreements, whether oral or written. This Agreement may be amended or modified only by a written instrument executed by the Seller and Buyer.

9.5 California Law. This Agreement shall be governed by and the rights, duties and obligations of the parties shall be determined and enforced in accordance with the laws of the State of California.

9.6 Attorneys' Fees. If either party files any action or brings any proceedings against the other arising out of this Agreement, or is made a party to any action or proceeding brought by the title company, then, as between Buyer and Seller, the prevailing party shall be entitled to recover, in addition to its costs of suit and damages, reasonable attorneys' fees to be fixed by the court. The "prevailing party" shall be the party who is entitled to recover its costs of suit, whether or not suit proceeds to final judgment. No sum for attorneys' fees shall be counted in calculating the amount of a judgment for purposes of determining whether a party is entitled to its costs or attorneys' fees.

9.7 Waiver. No waiver by any party of any provision of this Agreement shall be considered a waiver of any other provision or of any subsequent breach of the same or any other provision, including the time for performance of any such provision. The exercise by a party of any remedy provided in this Agreement or at law shall not prevent the exercise by that party of any other remedy provided in this Agreement or at law or in equity.

9.8 Binding Agreement. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective heirs, legal representatives, successors, and assigns.

9.9 Counterparts. This Agreement and all amendments and supplements to it may be executed in counterparts, and all counterparts together shall be construed as one document.

9.10 Captions. The captions contained in this Agreement are for convenience only and shall not in any way affect the meaning or interpretation hereof nor serve as evidence of the interpretation hereof, or of the intention of the parties hereto.

9.11 Disputes. Any actions or proceedings arising under, growing out of, or in any way related to this Agreement shall be instituted and prosecuted only in courts located in the County of Stanislaus, State of California, and each party hereto expressly waives its right, under part II, title IV of the California Code of Civil Procedure, to cause any such actions or proceedings to be instituted or prosecuted elsewhere.

9.12 Time. All periods of time referred to in this Agreement shall include all Saturdays, Sundays and state or national holidays, unless the period of time specifies business days, provided that if the date or last date to perform any act or give any notice with respect to this Agreement shall fall on a Saturday, Sunday or state or national holiday, such act or notice may be timely performed or given on the next succeeding day which is not a Saturday, Sunday or state or national holiday.

9.13 Severability. The unenforceability, invalidity, or illegality of any provision of this Agreement shall not render the other provisions hereof unenforceable, invalid or illegal.

9.14 Review of Form of Agreement. Submission of this instrument for examination or signature by Seller does not constitute an agreement to purchase all, or any portion of, the Property and it is not effective as an Agreement, or otherwise, until execution and delivery by both Buyer and Seller.

9.15 Survival of Warranties, Covenants and Obligations. The warranties, covenants and obligations of each of the parties under the provisions of this Agreement to the extent the same have not been fully performed, and excepting those covenants and obligations which have been extinguished by the expiration of a specified period of time, shall survive the close of the escrow through which the purchase is consummated.

9.16 Incorporation of Recitals and Exhibits. The Recitals and each exhibit attached hereto are hereby incorporated herein by reference.

9.17 Cooperation: Further Documents. Buyer and Seller acknowledge that it may be necessary to execute documents other than those specifically referred to herein in order to complete the acquisition of the Property. Both Buyer and Seller hereby agree to cooperate with each other by executing such other documents or taking such other action as may be reasonably necessary to complete this transaction in accordance with the intent of the parties as evidenced in this Agreement.

9.18 In Lieu of Eminent Domain. Seller's conveyance of fee simple title to the Property is being done voluntarily in lieu of eminent domain proceedings.

## ARTICLE 10

### RIGHT TO ENTER PROPERTY

10.1 Access to Property. Commencing with execution of this Agreement, Buyer or Buyer's representatives shall have the right of access to the Property prior to the Closing, at all reasonable times for the purpose of obtaining data and making surveys, tests, inspections and other studies at Buyer's sole expense, necessary to carry out this Agreement or as required by local and California state regulatory agencies.

10.2 Restoration of Property. Buyer shall, upon completion of data gathering, and making surveys, tests, inspections and other studies, restore the Property to the extent reasonably possible to its condition prior to such data gathering, surveys, tests, inspections and other studies.

10.3 Indemnification Resulting From Access. Buyer shall indemnify and hold harmless Seller of and from any and all mechanic's liens, claims, liabilities, costs, expenses, including attorneys' fees, and damages arising out of or in any way related to any such use of the Property by Buyer or by any other person or entity on behalf of, or at the request of, Buyer, excluding any losses or damages, including but not limited to a reduction in the value of the Property, resulting from any finding or results of any surveys, tests, inspections or other studies, whether or not negligent.

10.4 Seller / Buyer Disclosure. Pursuant to Section 3.1(g)(2) of this Agreement, Seller will deliver to Buyer copies of all surveys, soil tests, engineering studies, reports and any other test results or reports in Seller's possession or under Seller's control concerning the Property. If so requested by Buyer, Seller will instruct those who prepared any such reports as well as Seller's agents and employees, to divulge any other information they may have about the Property to Buyer, provided that Buyer pays any additional costs incurred. Buyer acknowledges that Seller has delivered to Buyer copies of all leases, permits, licenses, notices of violation of law, releases, settlement and correspondence with enforcement agencies, as well as the names and last known addresses of present and former tenants to the extent actually known by Sellers. Buyer shall deliver to Seller at no cost to Seller copies of all written materials prepared by or for Buyer in connection with its investigations, inspections, tests, surveys or studies of the Property, including but not limited to topography maps, aerial photographs, surveys, drainage studies, maps, soils and environmental tests and reports.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement on the date first above written.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-176A**

**A RESOLUTION APPROVING THE AWARD OF A \$449,000 CONTRACT TO WEST YOST AND ASSOCIATES FOR PROFESSIONAL SERVICES RELATED TO DEVELOPING A PRELIMINARY DESIGN REPORT FOR THE MODESTO REGIONAL WATER TREATMENT PLANT PHASE TWO EXPANSION - DOWNSTREAM IMPROVEMENTS, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT**

WHEREAS, the City of Modesto and the Modesto Irrigation District (MID) have begun work planning to expand the Modesto Regional Water Treatment Plant (MRWTP) from its existing capacity of 30 million gallons per day (mgd) to 60 mgd, and

WHEREAS, downstream improvements consisting of water storage tanks, booster pumping stations, pressure and/or flow control valves, and pipelines are needed to fully integrate the Phase Two expansion of the MRWTP with the City's water system, and

WHEREAS, an initial evaluation of the water distribution system, using the City's recently developed computer model, has confirmed the need for these improvements and has provided a general project description of the improvements, and

WHEREAS, the preliminary design for the downstream improvements needs to be completed by the fall of 2004 to remain on schedule with the Phase Two project's scheduled operation in the year 2007, and

WHEREAS, a Request for Proposals was sent to approximately 27 engineering firms, of which three responded, and

WHEREAS, the Proposals and Interviews of consulting firms qualified to prepare the Preliminary Design of the downstream improvements were rated by the selection team, and later tabulated by the Engineering and Transportation Director for the consideration of the Council, and

WHEREAS, the Acting Engineering and Transportation Director has recommended that West Yost and Associates, be accepted as the most qualified engineering consulting firm, and

WHEREAS, the Acting Engineering and Transportation Director has recommended accepting the proposed contract with West Yost and Associates in an amount not to exceed \$449,000, and

WHEREAS, the Economic Development Committee reviewed this item at its meeting on March 8, 2004, and recommended its approval,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the agreement with West Yost and Associates, for preparation of the preliminary design of the downstream improvements for the City of Modesto's water system in an amount not to exceed \$449,000.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of April 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-177**

**A RESOLUTION ACCEPTING IMPROVEMENTS IN THE FERNWOOD PHASE ONE SUBDIVISION, IN THE VILLAGE ONE SPECIFIC PLAN AREA, AUTHORIZING THE CITY CLERK TO RECORD A NOTICE OF COMPLETION AND AUTHORIZING RELEASE OF BONDS**

WHEREAS, KB HOME CENTRAL VALLEY, INC., a California Corporation, is the subdivider of the Fernwood Phase One Subdivision, and

WHEREAS, KB HOME CENTRAL VALLEY, INC., a California Corporation, has filed irrevocable subdivision bonds to secure faithful performance and payment for labor and materials in the amounts of \$407,000.00 and \$203,500.00, respectively, and

WHEREAS, KB HOME CENTRAL VALLEY, INC., a California Corporation, has filed a warranty bond in the amount of \$40,700.00 to guarantee improvements in the Fernwood Phase One Subdivision, and

WHEREAS, the Engineering & Transportation Director, in a memorandum to Council, indicates that all work required by the Subdivision Agreement has been completed to the satisfaction of the Engineering & Transportation Department, and

WHEREAS, the Engineering & Transportation Director has indicated that it would be in order for the City Council to accept the improvements in said subdivision as complete, and authorize the City Clerk to file a Notice of Completion and release the bonds upon expiration of the statutory periods,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that:

1. The improvements in the Fernwood Phase One Subdivision are hereby accepted and the City Clerk is hereby authorized to file a Notice of Completion for the improvements.
2. The City Clerk is hereby authorized to release the subdivision bond for faithful performance in the amount of \$407,000.00 upon recordation of the Notice of Completion.
3. The City Clerk is hereby authorized to release the subdivision bond for labor and materials in the amount of \$203,500.00 sixty (60) days after the recordation of the Notice of Completion, provided no claim is made thereon.
4. The City Clerk is hereby authorized to release the warranty bond to guarantee improvements in the amount of \$40,700.00 one year and one day after the effective date of this resolution, provided no claim is made thereon.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-180**

**A RESOLUTION AMENDING THE FY03-04 CAPITAL IMPROVEMENT  
BUDGET TO APPROPRIATE \$20,000 FROM THE STORM DRAIN RESERVES  
6280-800-8000-8003 TO 6280-430-N686-6010.13 FOR THE PROJECT TITLED  
9TH STREET STORM DRAINAGE**

WHEREAS, the City of Modesto has entered into a contract with Boyle Engineering Corporation for the design of improvements to the Ninth Street Storm Drain, and

WHEREAS, an initial phase of this contract identified a great benefit to extending the scope of the project limits from Tuolumne Boulevard and Seventh Street to Ninth and O Streets, to the new limits of Tuolumne Boulevard and Seventh Street to Ninth Street and Needham Street, and

WHEREAS, Boyle Engineering Corporation has agreed to accomplish this change in scope for an amount of \$29,505, and

WHEREAS, an additional \$20,000 is available in the Storm Drain Reserves 6280-800-8000-8003 to fully fund the change in scope,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the FY03-04 Capital Improvement Budget to appropriate \$20,000 from 6280-800-8000-8003 to 6280-430-N686-6010.13.

BE IT FURTHER RESOLVED that the Finance Director, or her designee, is hereby authorized to take the necessary action to amend the FY 03-04 Capital Improvement Budget.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-182**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO  
FORMALLY SOLICIT REQUEST FOR BIDS FOR THE FURNISHING OF  
BULK FUEL RED DYED #2 DIESEL, FOR A THREE (3) YEAR AGREEMENT,  
FOR AN ESTIMATED ANNUAL COST OF \$44,721**

WHEREAS, red dyed #2 diesel fuel is used by the Operations and Maintenance Department, Waste Water Division and the Operations and Maintenance Department, Water Division to fuel non-public roadway diesel powered equipment and standby diesel powered generators that supply backup power to operate municipal drinking water wells, and

WHEREAS, currently, these departments purchase red dyed #2 diesel fuel in bulk by soliciting request for quotations on an as needed basis, and

WHEREAS, although, City departments have obtained competitive pricing, it is a strain on staff time and resources to solicit quotations each time fuel is needed, and

WHEREAS, by soliciting formal request for bids for bulk fuel red dyed #2 diesel, the City will recognize a savings by combining department volume and freeing staff resources, and

WHEREAS, by authorizing the Purchasing Supervisor to solicit formal request for bids for bulk fuel red dyed #2 diesel, the City will be meeting the legal requirements for purchases that exceed \$50,000, and

WHEREAS, the Purchasing Division is requesting a three (3) year agreement, which if approved by Council, would expire on the same time line as the current bulk unleaded fuel agreement, which expires on December 3, 2007, and

WHEREAS, going forward, both of these commodities would then be bid together to obtain a greater volume discount for the City, and

WHEREAS, Modesto Municipal Code (MMC) Section 8-3.203 generally requires all purchases, which meet or exceed \$50,000.00 for material, equipment or contractual services to be formally bid, and

WHEREAS, by soliciting competitive bids for bulk fuel red dyed #2 diesel the Finance Department, Purchasing Division will comply with MMC Section 8-3.203 regarding formal bid procedures,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. The City Clerk is hereby authorized to call for public competitive sealed bids for the furnishing of bulk fuel red dyed #2 diesel for the Operations and Maintenance Department, Waste Water Division and the Operations and Maintenance Department, Water Division, for a three (3) year agreement, at an estimated annual cost of \$44,721, to be opened in the office of the City Clerk, 1010 Tenth Street, in the City of Modesto. The City Clerk shall be directed to give notice inviting such sealed bids in the time, form, and manner provided by law.

SECTION 2. After the sealed bids are opened, they shall be tabulated and analyzed and a report submitted to Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**COMMENTS/JUSTIFICATION**

This budget adjustment is to increase the budget received by the grant by another \$500,000. The bluesheet from Sept 2,2003 shows a grant increase of \$1,000,000 the project should have been increased by \$1,500,000. The grant for the Runway Pavement Evaluation covers only 90% a 10% match is required by the City. Since, the Passenger Fees are committed at this time on other projects the City did not want to pass on the opportunity to receive 2.5 million in a grant. So remaining one time aircraft tax and reserves will fund the match.  
 The \$83,333 portion is to complete transfer from 6310 to 6320 that was never completed but budgets were increased

Enter budget for Juvenile Impact Program. Originally budgeted at the beginning of the year at \$59,148 (estimate). State closed the OCJP office and now runs the program through the Board of Corrections. Actual budget is now \$49,494 which includes \$6,470 which was spent under the OCJP office. The original estimate was taken out of the budget when the office changed. This new budget includes the match that was not in the original budget estimate.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-184**

**ADOPT A RESOLUTION AUTHORIZING THE PURCHASE OF ONE (1) NEW, HIGH PRODUCTION ROTARY MOWER FROM H. V. CARTER CO., INC OF SACRAMENTO, CALIFORNIA FOR AN ESTIMATED TOTAL COST OF \$76,811.78**

WHEREAS, the Operations and Maintenance Department-Fleet Services has requested the purchase of one (1) new, high production rotary mower, and

WHEREAS, recently the Parks Division converted to this type of high-production mower because it can do what previously was accomplished with two mowers, and

WHEREAS, this mower will replace a 1996 mower which has experienced significant maintenance problems and is currently out of service due to a major engine failure, and

WHEREAS, City Park crews have been without a high-production mower for six (6) weeks and consequently mowing capacity has decreased by twenty-five (25) percent, and

WHEREAS, this decrease in capacity has led to an increase in complaints from the public, and

WHEREAS, the purchase of a new, high production mower will allow staff to return to normal mowing capacities, and

WHEREAS, Resolution 2003-622 authorized the Purchasing Division to solicit formal bids for one (1) new, high production rotary mower, and

WHEREAS, on August 26, 2002 the Finance Committee recommended that Fleet Services identify critical equipment and vehicles for Council approval, and bring those requests forward on as needed basis, and

WHEREAS, on October 27, 2003 the Finance Committee gave authorization to take this piece of equipment to full Council for approval,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the purchase of one (1) new, high production rotary mower from H. V. Carter, Co., Inc. of Sacramento, California for an estimated total cost of \$76,811.78.

BE IT FURTHER RESOLVED that the Purchasing Supervisor is hereby authorized to award the bid and contract for one (1) new, high production rotary mower to H.V. Carter, Co., Inc, of Sacramento, California for an estimated total cost of \$76,811.78.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-185**

**ADOPT A RESOLUTION AUTHORIZING THE AWARD OF BID AND CONTRACT FOR TWELVE (12) NEW CURRENT YEAR/MODEL VEHICLES TO THE FOLLOWING VENDORS: AMERICAN CHEVROLET OF MODESTO, CA. FOR EIGHT (8) NEW CURRENT YEAR/MODEL VEHICLES IN THE APPROXIMATE AMOUNT OF \$149,917, AND TO MAITA CHEVROLET OF ELK GROVE, CA. FOR FOUR (4) NEW CURRENT YEAR/MODEL VEHICLES IN THE APPROXIMATE AMOUNT OF \$63,120. THE TOTAL APPROXIMATE PURCHASE AMOUNT FOR ALL TWELVE (12) NEW CURRENT YEAR MODEL VEHICLES IS \$212,037.**

WHEREAS, the Operations and Maintenance Department-Fleet Services has requested the purchase of twelve (12) new current year model year vehicles, and

WHEREAS, Resolution No. 2003-622 authorized the Purchasing Supervisor to solicit Request for Bid (RFB) for twelve (12) new current year/model vehicles, and

WHEREAS, the twelve (12) new current year model vehicles consist of four (4), ½ ton extended cab pickups; three (3), 6200 gross vehicle weight pickups; one (1), extended cab, 2wd pickup, two (2), pickup full size, 2wd pickup, and one (1), one ton crew cab pickup, and

WHEREAS, the four (4), ½ ton extended cab pickups will be used by the Police Department Community Service Officers, and

WHEREAS, the three (3), 6200 gross vehicle weight pickups will replace pickups used by Building Inspectors, and

WHEREAS, the one (1), full size, 4wd pickup will replace a pickup used by the Industrial Waste Division, and

WHEREAS, the two (2), full size, 2wd pickups are additional vehicles and will be used by the Community Forestry Division, and

WHEREAS, the one (1), 3/4 ton truck with utility body is a replacement for an existing truck in the Community Forestry Division, and

WHEREAS, the one (1), 1-ton crew cab pickup is an additional vehicle that will be used by the Police Department, Traffic Unit, and

WHEREAS, on August 26, 2002 the Finance Committee recommended that Fleet Services identify critical equipment and vehicles for Council approval, and bring those requests forward on an as needed basis, and

WHEREAS, on October 27, 2003 the Finance Committee recommended taking the Request for Bid for authorization to bid twelve (12) new current year model vehicles to full Council for approval, and

WHEREAS, American Chevrolet of Modesto, CA. is the lowest responsive and responsible bidder for eight (8) new current year model vehicles for a combined total approximate cost of \$148,917, and

WHEREAS, Maita Chevrolet of Elk Grove, CA. is the lowest responsive and responsible bidder for four (4) new current year model vehicles for a combined approximate total cost of \$63,120, and

WHEREAS, the combined approximate total cost of all twelve (12) new current year model vehicles is \$212,037,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards the bid and contract for a total of twelve (12) new current year model vehicles to the following vendors:

American Chevrolet of Modesto CA., for eight (8) new current year model vehicles in the approximate amount of \$148,917 and to Maita Chevrolet of Elk Grove, CA., for four (4)

new current year model vehicles in the approximate amount of \$63,120. The approximate total purchase amount for the twelve (12) new current year model vehicles is \$212,037.

BE IT FURTHER RESOLVED that the Purchasing Supervisor is hereby authorized to issue purchase orders for the twelve (12) new current year/model vehicles.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of April, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-186**

**A RESOLUTION AWARDING THE BID AND APPROVING A \$1,692,495  
CONTRACT WITH MAGNUM ENTERPRISES, INC., FOR THE PROJECT  
TITLED "FIRE STATION NO. 11" AND AUTHORIZING THE CITY  
MANAGER TO EXECUTE THE AGREEMENT**

WHEREAS, the bids received for Fire Station No. 11 were opened at 11:00 a.m.  
on March 9, 2004, and

WHEREAS, both the Fire Chief and the Engineering and Transportation Director  
have recommended that the bid of \$1,692,495 received from Magnum Enterprises, Inc.,  
be accepted as the lowest responsible bid and the contract be awarded to Magnum  
Enterprises, Inc., and

Whereas, the Safety & Communities Committee reviewed the design of Fire  
Station No. 11 at its meeting on January 6, 2003, and are supportive of the project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto  
that it hereby accepts the bid of \$1,692,495, and hereby awards Magnum Enterprises,  
Inc., the contract titled "Fire Station No. 11."

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby  
authorized to execute the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-187**

**A RESOLUTION TO APPROVE A LOAN OF \$238,495 FROM CIP ACCOUNT 1300-0180-N412 TITLED "REHABILITATION OF FIRE STATION NO. 1" TO ACCOUNT 1320-0180-M174 FOR THE PROJECT TITLED "FIRE STATION NO. 11" AND SET UP PAYBACK FROM FUTURE FIRE CAPITAL FACILITIES FEES AMORTIZED OVER THE NEXT 5 YEARS.**

WHEREAS, a bid has been received from Magnum Enterprises, Inc., in the amount of \$1,692,495 for the construction of Fire Station No. 11, and

WHEREAS, both the Fire Chief and the Engineering and Transportation Director have recommended that the bid of \$1,692,495 from Magnum Enterprises, Inc., be accepted as the lowest possible bid, and

WHEREAS, funds are budgeted for this project in the 2003-2004 Capital Improvement Program account number 1320-0180-M174, and

WHEREAS, said account is funded in part by General Fund Loans to be paid back from future Fire Capital Facilities Fees, and

WHEREAS, \$1,626,000 is the amount already approved by previous Council action as General Fund Loans to be paid back from future Fire Capital Facilities Fees, and

WHEREAS, said account has been used to purchase the property and hire the architect, and

WHEREAS, a \$238,495 loan from Account 1300-0180-N412 (Rehab. of Fire Station 1) is necessary to fully fund the project titled "Fire Station No. 11", and

WHEREAS, the \$238,495 loan will be paid back to Account 1300-0180-N412 from future Fire Capital Facilities Fees amortized over the next 5 years,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the loan of \$238,495 from Account 1300-0180-N412 to account number 1320-0180-M174 for the project titled "Fire Station No. 11" and that the loan will be paid back from future Fire Capital Facilities Fees amortized over the next 5 years.

RESOLUTION NO. 2004-189**

**A RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR NATIONAL ASSISTANCE TO FIREFIGHTERS GRANT PROGRAM FUNDS IN THE AMOUNT OF \$359,000 AND TO EXECUTE THE NECESSARY GRANT APPLICATION DOCUMENTS.**

WHEREAS, the Congress, under Public Law 107-73, has authorized the establishment of the Federal Fire Protection and Control Act and has appropriated \$750 million dollars to carry out the Assistance to Firefighter's Grant Program, and

WHEREAS, the Office for Domestic Preparedness is responsible for administration of the program, setting up necessary rules and procedures governing application by local agencies under the program, and

WHEREAS, said adopted procedures established by the Office for Domestic Preparedness require the applicant to provide 30% local matching funds, and

WHEREAS, the Fire Department has concluded that an application in the category of Fire Operations and Firefighter Safety Program is the most needed and the most likely to be successful, and

WHEREAS, the City of Modesto and Modesto Fire Department qualify to submit the grant application and

WHEREAS, this request was reviewed and supported by the Safety and Communities Committee at its April 5, 2004 meeting,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby:

1. Authorizes the filing of an application for Assistance to Firefighter's Grant Program funds in the amount of \$359,000.

2. Certifies that said agency has matching funds from the following source: Fire Department Operating Budget, and can finance 100 percent of the project, 70% of which will be reimbursed.
3. Authorizes the City Manager, or his designee, as agent of the City to execute and submit the necessary grant application documents.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

## **AccessModesto TV**

The City of Modesto regulates the local cable television franchise agreement, which allows the cable company to use public rights of way for their cables and wiring. Within this franchise agreement, provisions are made for Public Access - Education-Government (PEG) access channels.

AccessModesto programming is broadcast on Channels 7, 26 and 96 on the Comcast cable system these channels are available to all Comcast cable residents in the City of Modesto as part of their basic cable television service. Channel 96, the government channel, can also be viewed throughout the rest of Stanislaus County on channel 19, on the Charter cable system.

## **Our Purpose**

Assisting residents and organizations to communicate ideas and exchange information through the medium of community access television.

To accomplish this, we will work toward the following goals:

- Advocate the use and benefits of community access television
- Encourage the cablecasting of non-commercial programs directly related to the community of Modesto and/or Stanislaus County
- Encourage the creation of programs aimed at preserving, developing, and enhancing the diversity of thought, culture, and heritage within Modesto and/or Stanislaus County
- Facilitate lifelong learning and community participation in the democratic process
- Serve as a local information exchange
- Develop cooperative partnerships with Education, and Government individuals and groups to help further the goals of community access
- Monitor and incorporate, to the extent funding is available, the use of emerging technologies that will benefit community access users
- Maintain those cable channels dedicated to public use in a manner that is free of censorship and control of program content, except as necessary to comply with State or Federal law
- Attempt to provide equitable access to community channels by developing and utilizing rules and policies

## I. Introduction

These Operating Policies and Procedures set out the rules that govern the operation of the AccessModesto TV channels.

### A. PEG

In the City of Modesto, Channels 7, 26 and 96 on the Comcast cable system and channel 19 on the Charter cable system have been set aside for use by members of the public, community organizations, educational institutions, and governmental agencies as the city's community access channels. AccessModesto TV aims to be the nexus that provides the public with the facilities and equipment needed to produce television programs to be shown over these local community channels.

### B. Public Access

Public Access means TV for you, by you, and about you. This is television made by you free of censorship (to the extent allowed by law) and free of commercials. Public Access allows for varying degrees of an individual's participation. One can participate in Public Access easily by bringing in a previously taped show or by putting a message on the Video Bulletin Board.

### C. Education & Government Access

These channels are used to deliver programming produced by educational institutions, as well as agencies of local and state government. The use of the education and government channels shall be reserved solely for what is deemed informational and educational for the citizens of City of Modesto and Stanislaus County. The fundamental purposes of the Education and Government Access Channels are as follows:

1. To promote the education of the City's citizens concerning local government by cablecasting meetings consisting of the City Council, County Board of Supervisors and boards that are deemed appropriate and beneficial to the City's & County citizens.
2. To inform the citizens at large about programs and public service provided by City and County departments.
3. To promote the education of citizens by presenting educational and cultural programs beneficial to City and County residents.
4. To explain opportunities for citizens to participate in programs and services.
5. To provide information on public health, safety and welfare issues.
6. Programs or events that are sponsored by City of Modesto or Stanislaus County.

### D. Contact Information

The City of Modesto Information Technology Department manages the City's AccessModesto TV programming with assistance from the city's Local Cable Citizen Advisory Committee.

## E. Drop-off Location

Programs for airing on the AccessModesto Public Access may be submitted by:

1. Drop off at the City of Modesto, Customer Service Department, 1010 Tenth Street, Suite 2100, Modesto, California between the hours of Monday through Friday, 8 am – 5 pm.
2. Mailing to AccessModesto, P.O. Box 642, Suite 2100, Modesto, CA 95353

## II. Producers' Responsibilities

### A. Application Forms

Forms must be completed for each show that is produced for AccessModesto TV. The forms provide details about the production and serves as a working production tool for both the producer and AccessModesto TV.

Producers are fully responsible for signing and obtaining all necessary forms and releases involved in their production. This includes talent releases and music rights. The City of Modesto and AccessModesto have no legal liability for clearances that have not been obtained. The following forms must be filled out and submitted:

1. Statement of Compliance
2. Indemnification
3. Duplication Process Policy
4. Program Technical Requirements
5. AccessModesto TV Playback Request
6. Program Content Survey Form

### B. Program Copy

AccessModesto recommends that producers keep possession of their edited master and submit good quality duplication on any AccessModesto accepted media for cablecasting, which may be kept. The AccessModesto is not responsible for damage to the air tape, under the Statement of Compliance form, which is completed for cablecasting.

### C. Conduct and Behavior

It is expected of all individuals, during the process of participating in AccessModesto whether it is dropping off a tape or requesting information, will conduct themselves in a responsible manner at all times. In honoring the spirit of diversity, all participating individuals are asked to respect others within the work environment while on the City of Modesto premises. The following actions would be considered conduct which disturbs the work environment and could be subject to policy violation, which may include permanent forfeiture of privileges on AccessModesto.

1. Personal verbal attacks or harassment of individuals and or groups.
2. Yelling, loud or disruptive discussions or behavior.
3. Individuals who behave in a threatening manner or interfere with orderly conduct.

### III. Services Provided

#### A. Public Service Announcement

A separate bulletin board appears on each of the Public Access-Education-Government channels in between taped or live programming. Eligible users may submit messages and announcements to the Video Bulletin Board. Eligible users include bona fide nonprofit agencies, educational, and governmental organizations.

Messages may be typed or printed on a Public Service Announcement Form. Public Service Announcement messages may be no longer than 35 words, however press releases will be accepted and edited. The information should be submitted 10 days in advance of requested airdate. Pick up a Public Service Announcement form in the City of Modesto Customer Service Office 1010 10<sup>th</sup> Street, or online at [www.modesto.tv](http://www.modesto.tv). This is a free service.

#### B. Duplications

Duplications of AccessModesto TV produced programming may be obtained for a fee of \$10 for VHS or \$15 for DVD. Duplication forms may be obtained in the City of Modesto 1010 10<sup>th</sup> Street, Customer Service Department in Suite 2100.

### IV. Programming Guidelines

#### A. Program Content Policy

AccessModesto has designed its policies and facility to encourage the broadest possible usage of the cable television community channels, to celebrate the diversity of the community, and to strengthen the sense of community in the City of Modesto and Stanislaus County. Public Access is committed to being the vehicle for non-commercial programming made by individuals and groups in the City of Modesto. As such, it is the producer or presenter of the program who accepts responsibility for the content, not AccessModesto. AccessModesto will exercise no control over program content, except that legally, community access programming must not contain:

1. Obscene or indecent matter as defined by the First Amendment to the U.S. Constitution and any applicable case law in the 1992 FCC guidelines.
2. Materials that contain other speech not protected by the Constitution: i.e., speech, which directly results in violence, 'fighting words,' and incitement to riot.
3. The direct or indirect presentation of lottery or other information as prohibited by State Law.
4. Advertising material that promotes the sale of commercial products or services or motivate a viewer to contact guests or businesses for additional information. For example: A program with a guest from a business or organization cannot contain a slate that states, "For more information call or contact."
5. The direct solicitation of funds or donations for any and all purposes is prohibited. Bona fide nonprofit agencies may appeal for volunteers or publicize fundraising events.
6. Material which constitutes libel, slander, invasion of privacy, or publicity rights, unfair competition, violation of trademark or copyright, or which might violate any local, state, or federal law.
7. Material, which has a reasonable probability of creating an immediate danger of damage to property or injury to persons.

## B. Copyright and other Clearances

Users presenting a program for cablecast must state in writing that they have made all appropriate arrangements to obtain all rights to materials to be cablecast. Users shall obtain in writing, the consent of all persons and parental permission for all minors appearing in programs submitted for cablecasting. Sample Talent Release Forms are available online at [www.modesto.tv](http://www.modesto.tv).

## C. Minors Submitting Programs

A parent or legal guardian must sign the Program Content Survey for each program submitted by a minor. Staff may request copies of all clearances and releases before airing a program.

## D. Acknowledgements and Disclaimers

The presenter of a program must be clearly identified on a slate appearing at the beginning and end of each program. The slate must include the presenter's name and address. A phone number is optional. The slate provides the viewer with contact information in case of questions or concerns. (A presenter is a Modesto resident or organization that signs the Program Content Survey form and submits a show for airing. Presenters are legally responsible for the content of a show. The presenter may or may not be the producer of the program.)

## E. Viewer's Discretion

Presenters are required to indicate on their completed Program Content Survey whether or not any portion of their programming content may present cause for AccessModesto viewers to exercise viewer or parental discretion. Programs marked, as 'Yes' will be scheduled as follows:

- Obscene Material ..... Prohibited by Federal Law, will not be scheduled or aired
- Matter Inappropriate for Children .....Must be scheduled after 10:00 PM and before 4:00 AM
- Indecent Material .....Must be scheduled after 1:00 AM and before 4:00 AM
- Material of a Sensitive Nature .....Must be scheduled after 10:00 PM and before 4:00 AM

An announcement must be included at the beginning of the programs disclosing if it is sensitive, indecent material or inappropriate for children, for example:

"The following program contains language or other program content that may be offensive to some viewers. Viewer and parental discretion are advised."

## F. Ownership

The presenter of any program submitted for cablecasting on any of the AccessModesto TV channels retains copyright ownership of the program. AccessModesto reserves the right to retain a copy of the program for later cablecasting on the community channel or for other non-commercial, promotional purpose.

## G. Distribution Rights

The producer/presenter retains the rights of distribution for all programs aired on AccessModesto channels.

## H. Underwriting and Sponsorship Credits

Public Access producers are permitted to seek underwriting and/or sponsorship credits for their productions, as long as the support is in direct relation to the cost of program production. The producer may give on-air credit to the person or organization that has given financial or in-kind support for the production or promotion of a program using the following guidelines:

1. **Length:** A credit of up to 180 seconds is given per every 30 minutes of programming. For instance, a half hour show (30 minutes) would be allotted three minutes (180 seconds) for crediting sponsors and an hour show (60 minutes) would get six minutes (360 seconds) of time for sponsor acknowledgement.
  - a. Total amount of underwriting and/or sponsorship credits may not exceed the length of original programming.
  - b. Each underwriting and/or sponsorship credit cannot exceed 15 seconds in duration.
2. **Placement:** Credits may be placed at the beginning, middle, and/or end of a show. The credit may be split into any time increment.

### Sponsorship Guidelines:

A credit **may** contain:

1. The Company/Person's Name
2. The Company Logo
3. The Company/Person's Address and/or Phone Number
4. A web site address
5. A qualifying line – A 10 word description of the type of business. Example “This has been brought to you by company X, serving the valley since 1940.”

A credit **MAY NOT contain**

1. A video or photograph of any product the company sells.
2. A description of services or products the company provides.
3. A slogan – A slogan is defined by AccessModesto as a copyrighted catch phrase associated with a company that is used for marketing purposes and established to assist that business in making a profit.
4. A promotion of any form for the purchase or use of alcoholic or tobacco products
5. Comparative Descriptions\*
6. Pricing Information\*
7. Calls to action\*
8. Inducements to buy, rent or lease\*

\*Please see attached document for Tips on Evaluating Underwriting and/or Sponsorship Credits.

## I. Underwriting - Financial Reporting

Upon receiving a written request from AccessModesto, producers receiving underwriting sponsorship must explicitly inform of any payment or cash received by an individual or group for the purpose of programs using AccessModesto equipment or facility. Additionally, The Internal Revenue Service may periodically review the non-commercial status of AccessModesto.

## J. Company Sponsorship

Companies can sponsor shows:

- Which cover local public community events.

Companies cannot sponsor shows:

- About themselves
- Showing their product or service exclusively

## V. Promote Programming

### A. Program Schedule

Specific requests for airtimes will be met when possible. Generally, program cablecast requests submitted to AccessModesto four (4) weeks prior to the requested airdate will be listed in the TV listings aired on the Public-Education-Government Bulletin Board. The schedule will also appear on the AccessModesto TV website ([www.modesto.tv](http://www.modesto.tv)) which is updated weekly.

### B. Producer's Promotion

Presenters are encouraged to promote and otherwise encourage viewership of their programs. Presenters can submit program description to AccessModesto. Program Description may be submitted to [info@modesto.tv](mailto:info@modesto.tv)

### C. Cable Guide

The Cable Guide is aired daily on Channel 2. Programming on the AccessModesto TV channels will be submitted each week for this daily listing service. AccessModesto TV is not affiliated with the Cable Guide Channel.

## VI. Program Scheduling Policies

AccessModesto scheduling policies are designed to:

- Provide equitable allocation of available channel time, as determined by our Operating Policies and Procedures
- Give residents, education institution and government agencies of the City of Modesto and Stanislaus County
- Priority in the allocation of airtime on the community access channels.
- Encourage viewership of the community channels
- Maximize opportunities for program promotion

## A. Public Access Scheduling

The Public Access is divided into general categories to show a mix of different types of programming throughout the week. All program schedules are subject to review by AccessModesto and the Local Cable Programming Committee. No individual may reserve a specific time slot, except when a contract is entered into with AccessModesto. The programming schedule appears on the website at [www.modesto.tv](http://www.modesto.tv). To establish priority, the following will be considered.

### Priority:

- Time dated programs
- Locally-produced programming
- Programs that have not been previously shown on the community channel
- Programs submitted by new producers

## B. Scheduling Conflicts

It should be understood, that since this is a shared community resource, specific time requests cannot always be granted. The public access channel time requests will be scheduled on a first come, first served, nondiscriminatory basis. In the case of scheduling conflicts, program times will be determined by a lottery system, which will be held for producers at least once per year.

## C. Scheduled Time Slots

To allow for regularly produced programming aired at a consistent time on regular days of the week, or regular bi-weekly or monthly days and times, AccessModesto will enter into contracts for the public access channel with producers/providers for scheduled time slots within the constraints of the following guidelines.

1. To be eligible to enter into a contract or a scheduled time slot with AccessModesto a producer/providers of programming must have demonstrated the ability to produce programming of consistent quality and not in violation with AccessModesto Policy and Procedures.
2. Producer/providers must demonstrate the ability to deliver the programs in a regular, timely and consistent fashion.
3. Only pre-taped programs on technical approved media will be accepted.
4. AccessModesto reserves the right to pre-empt regularly scheduled programming in order to better serve the public interest such as in the event of an emergency broadcast or a special event.
5. In the event of a scheduling conflict, programming times will be determined by a lottery system that will be held for producers at least once per year.
6. Scheduled time slots may be reallocated every 12 months.
7. A time slot may be revoked or reassigned if the producer/provider assigned to that time slot does not meet the terms of his or her contract, including but not limited to failing to deliver programs in a regular, timely and consistent manner.

## D. New Users and Time Dated Programs

Staff reserves several time slots each week to accommodate programs created by new eligible users and / or time dated programs.

## E. Repeats

AccessModesto reserves the right to repeat the same show within each programming block period. The number of playback times is limited to two (2) per week for all programs, with a maximum playback of three (3) times per week if scheduling allows. This excludes any contractual agreements the City may have with presenters.

## F. Program Submission

A presenter must submit a signed AccessModesto Playback Request prior to submitting any programming. A Program Content Survey form must be submitted with each program. Programs submitted without the Program Content Survey will not be aired. Since a tape must be entered into the AccessModesto TV tape database, labeled, and scheduled, an airdate cannot be given at the time of submission. Airdates will be available approximately three business days after a tape has been submitted. Producers submitting episodes of an approved series must deliver the tape and Program Content Survey to AccessModesto TV at least seven days prior to their time slot to allow for scheduling, unless other arrangements are agreed upon with the Programming Manager.

## G. Sensitive Programs

Programs, which contain material that may be inappropriate for children or deal with issues of a particularly sensitive nature, will be cablecast in accordance with FCC guidelines. It is the program presenter's responsibility to notify AccessModesto staff in advance if their program is of a sensitive nature. A Program Content Survey must be completed for each submission. Presenters are required to indicate on their completed Program Content Survey whether or not any portion of their programming content may present cause for AccessModesto viewers to exercise viewer or parental discretion. An announcement must be included at the beginning of the program and will be scheduled after 10:00 pm; indecent material will be scheduled after 1:00 am.

## H. Re-submittal of regular programs and series programs

AccessModesto will act according to the instructions provided by the presenter on the Program Content Survey form. Re-submittals will be considered on a case-by-case basis. Series programs can be resubmitted for up to two more airdates. These additional airdates will be at the discretion of AccessModesto and will be subordinate to regular submittals and first-time series programs.

## I. Failure to Submit Tape

In the case of a scheduled program, producers who fail to submit tapes on schedule will risk the loss of their time slots. Staff reserves the right to cancel the program's time slot if the producer fails to provide a new show within the agreed upon time frame

## J. Cancellation, Pre-emption and Rescheduling

Staff reserves the right to pre-empt the regular schedule as necessary to accommodate date sensitive programs, technical difficulties, education and/or government related news conferences, or emergency announcements or programming. Staff shall make every effort to reschedule pre-empted programs at the earliest available time slot.

## K. Program Length

The recommended length for programming on Access Modesto Cable TV is 28:30 minutes for a half hour show and 58:30 minutes for an hour show. These lengths allow time in-between programs for public service announcements (PSA's), stations identifications, and the interactive bulletin board. PSA and station ID's may be used for AccessModesto producers to tag onto their programs.

## L. Exceeding Time Slot

The community channels run several hours in the evenings and weekend by computer automation with a limited amount of VCR's for program playback. AccessModesto reserves the right to cut series programming which exceeds its scheduled time slot, unless prior arrangements are made. For example, a half-hour series program should not exceed 30:00 minutes, even by half a second. This could cause the program credits to be cut short, or the next program to start late. Series producers must submit a properly timed program in order to help maintain the schedule and create the best possible appearance of the community channels.

## M. Political Programming

AccessModesto views political programming should be treated like any other programming. On the Public Access channel, programming concerning political issues and candidates for public office will be afforded the same privileges and will be subject to the same limitations as other public access programming. In order to promote the fullest and fairest presentation of divergent political views, issues and candidate forums are encouraged.

However, in an effort to bring fairness and order, AccessModesto has established the following voluntary guidelines, which we encourage candidates to abide by. A candidate in definition is any individual who will appear on an electoral ballot.

### Political Programming Guidelines:

1. A Campaign Period, for the purposes of AccessModesto shall be defined as beginning on Monday of the first full week, 4 weeks prior to an election and will continue until all run-off elections are completed.
2. AccessModesto may broadcast Candidates Forums, a Candidates Forum is considered a program or programs produced specifically for candidates during the election periods in which all-running candidates are invited to participate and non-partisan groups sponsor the forums.
3. All candidates do not have to accept the invitation for a Candidates Forum program in order for AccessModesto to air the program on the access channels.
4. On the Government and Education Channels, programs, other than government meetings, such as council meetings, that have as guest/host/talent political candidates may not air during the Campaign Period.

## VII. Technical Issues

### A. Media Formats

Acceptable media format for cablecasting include prerecorded programs on DVD, Mini-DV, and DV Cam, SVHS, VHS.

### B. Technical Standards

Programs must have technical standards high enough to deliver a clear and unbroken picture to cable subscribers.

1. The audio must be clearly understandable and at audible levels without distortion.
2. Tapes should be recorded in standard play speed (SP).
3. Tapes recorded in extended play (EP) will not be accepted.

## C. Technical Information

1. There must be at least 30 and no more than 90 seconds of black at the head of the tape. Tapes will not be accepted with more than 90 seconds of black before the program. Color bars are not necessary.
2. The black section must be followed by the Viewers Discretion Advisory, if required. The beginning of this Advisory is the beginning of the program.
3. An identification slate, which includes the name and address of the presenter of the program, may then be displayed for at least 10 seconds. A phone number is optional.
4. The program audio and video should begin within 3 seconds of the end of the presenter's slate.
5. Program credits should appear at the end of the program. Credits should include the name of each crewmember (unless anonymity is requested), and allowable credit to the underwriters/sponsors of the show.
6. Repeat the presenter's slate. The end of this page is the end of the show.
7. The end of the show must be followed by 30 seconds of black.

## D. Label Information

The following information must be legibly included on labels affixed to both the videocassette and videocassette box. If the information is not on the label or is unreadable, the tape will not air.

1. Presenter's name, local address, and phone number
2. Program Title
3. Exact length of programs (minutes, seconds, and frames timed from the first frame of the beginning title page to the last frame the end title page)
4. Date (month and year) program is scheduled to air.

## VIII. Infractions and Appeals Process

### A. Violations

Violations of AccessModesto programming policies and procedures, or breaches of the Statement of Compliance may subject the offender to immediate forfeiture of the privilege of using the channel, facilities, and services. The Chief Information Officer, according to the severity and frequency of the infractions, will determine the duration of the forfeiture. Violations of AccessModesto Operating Policies and Procedures will be documented in writing in the user's file. Violators of the AccessModesto Policies and Procedures will face the following penalties:

1. First Violation: Written warning
2. Second Violation: Loss of privileges for 6 months and a possible fine.
3. Third Violation: Subject to Permanent forfeiture of privileges.

## B. Appeals Process

If staff imposes sanctions on a user or refuses to cablecast a user's program, the user may appeal for a hearing. The following steps shall be followed for appeals:

1. Submit a written appeal to the AccessModesto Manager within 15 days of the action. The AccessModesto Manager must then investigate the circumstances surrounding the action and provide a written response.
2. If the user feels his/her concern has not been resolved, the user must present a written report to the Chief Information Officer, which will be reviewed and make recommendations to the AccessModesto Manager and /or the Local Cable Citizen Advisory Committee. If a quorum of the Local Cable Citizen Advisory Committee is not available, appeals will be taken directly to the City Manager to review.
3. The Modesto City Manager may request a public hearing with the City Council.
4. Following investigation, the City Council or Local Cable Citizen Advisory Committee will recommend any action they deem appropriate. The decision will be final and binding upon the AccessModesto user.

I hereby acknowledge having read these AccessModesto Policies and Procedures and agree to abide by these and any other requirements and/or changes that may be instated by AccessModesto or required by The City of Modesto. I understand any violation of the AccessModesto Operating Policies and Procedures may result in immediate forfeiture of privileges on AccessModesto.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-191**

**A RESOLUTION APPROVING THE RENEWAL OF A ONE-YEAR  
AGREEMENT WITH QUALITY VIDEO FOR GRANTED USE OF THE PUBLIC  
ACCESS CABLE CHANNEL DURING DEDICATED TIME ALLOCATIONS  
AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE  
AGREEMENT.**

WHEREAS, on the 26<sup>th</sup> day of November 2002, by Resolution No. 2002-592, the City Council approved the agreement between City of Modesto and Quality Video to grant specific time allocations to cablecast a daily program entitled “Central Valley Reports” on the AccessModesto Public Access Channel, and

WHEREAS, the City Council now desires to renew for a period of one-year agreement between Quality Video and City of Modesto. (Exhibit B), and

WHEREAS, the time slots allocated for “Central Valley Reports” are as follows:

Tuesday through Saturday - \*7:00 to 7:30 a.m.

Tuesday through Saturday -12:00 to 12:30 p.m.

Monday through Friday - 6:00 to 6:30 p.m.

Monday through Friday - 10:00 to 10:30 pm

Monday through Friday - 11:00 to 11:30 p.m.

WHEREAS, the City of Modesto through AccessModesto Community Television reserves the right to pre-empt any of the above scheduled time slots. Previously scheduled programming will take precedence. In the event of scheduling conflicts, program times will be determined by a lottery system on AccessModesto, and

WHEREAS, Quality Video agrees to provide such program on a format that meets the technical playback requirements of AccessModesto Community Television as set forth in the current Operating Policies and Procedures for AccessModesto, and

WHEREAS, the City of Modesto grants this agreement for a one (1) year period which is renewable at the discretion of the Modesto City Council, and

WHEREAS, Quality Video agrees to provide such program within a timely schedule that meets the technical playback requirements of AccessModesto Community Television, and

WHEREAS, Quality Video shall assume all liability related to all content submitted as part of the Central Valley Reports programs, and shall indemnify and hold harmless the City, its agents, officers, and employees from and against all claims, damages, losses, judgments, liabilities, expenses, and other costs, including litigation costs and attorney's fees, arising out of, or resulting from programming written and/or produced by Quality Video, and

WHEREAS, Quality Video shall be solely responsible for obtaining the right to use any patented or copyrighted materials in the performance of this Agreement and shall furnish a warranty of such right to use to City at the request of City, and

WHEREAS, Quality Video has no authority or responsibility to exercise any rights or power vested in the City, and

WHEREAS, Quality Video, its agents, officers and employees are and, at all times during the terms of this Agreement, shall represent and conduct themselves as independent contractors and not as employees of City, and

WHEREAS, the Safety and Communities Committee has reviewed the renewal agreement and recommended that it be submitted to the full Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a one-year agreement with QUALITY VIDEO for granted use of the public access channel during dedicated time allocations.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-192**

**A RESOLUTION ACCEPTING \$300,000 IN GRANT FUNDING FROM THE CALIFORNIA DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT, CALHOME PROGRAM FOR MORTGAGE ASSISTANCE, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE GRANT AGREEMENT.**

WHEREAS, funding for the CalHome Mortgage Assistance Program has been made available by the California Department of Housing and Community Development (Department), Proposition 46, the Housing and Emergency Shelter Trust Fund Act of 2002, to provide funds to local public agencies or non-profit corporations, and

WHEREAS, pursuant to the statute, the Department is authorized to approve funding allocations for the program, subject to the terms and conditions of the program application form, and

WHEREAS, on September 23, 2003, by Resolution No. 2003-508, the City Council approved the submission of a grant application, and the City of Modesto, Parks, Recreation and Neighborhoods (PR&N) Department applied for, and was successful in receiving grant funding in the amount of \$300,000, and

WHEREAS, the PR&N Department shall be subject to the terms and conditions as specified in the standard agreement (Contract), and funds are to be used for allowable expenditures, and

WHEREAS, the application in full is incorporated as part of the Agreement and any and all activities funded, information provided and timelines represented in the application are enforceable through the Agreement,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby accepts \$300,000 in grant funding under the California Department of Housing and Community Development for CalHome Mortgage Assistance Program.

BE IT FURTHER RESOLVED that the City Council hereby authorizes the City Manager, or his designee, to execute the Agreement, and any and all instruments required by the Department for this program.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-193**

**A RESOLUTION AMENDING THE FISCAL YEAR 2003-2004 OPERATING BUDGET TO ESTIMATE \$300,000 IN NEW REVENUE AND APPROPRIATE \$300,000 TO CALHOME MORTGAGE ASSISTANCE PROGRAM (0410-320-3280-0497).**

WHEREAS, on September 23, 2003, by Resolution No. 2003-508, the City Council approved the submission of a grant application to the California State Department of Housing and Community Development for funding under the CalHome Mortgage Assistance Program for \$300,000 for low-income first time homebuyers, and,

WHEREAS, the City of Modesto, Parks, Recreation and Neighborhoods (PR&N) Department applied for, and was successful in receiving grant funding of \$300,000, and

WHEREAS, staff received a grant agreement for the above project in the amount of \$300,000,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves amending the fiscal year 2003-2004 operating budget to estimate \$300,000 in grant revenue from the California Department of Housing and Community Development, and to appropriate \$300,000 to the CalHome Mortgage Assistance Program (0410-320-3280-0497).

BE IT FURTHER RESOLVED that the Finance Director, or her designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-194**

**A RESOLUTION ALLOCATING \$10,000 FROM THE HOME COMMUNITY HOUSING DEVELOPMENT ORGANIZATION (CHDO) SET ASIDE FUNDS TO HABITAT FOR HUMANITY, STANISLAUS (HABITAT) FOR DEPOSIT OF A 2-ACRE PARCEL LAND PURCHASE, AND AUTHORIZING THE CITY MANAGER TO EXECUTE AN AGREEMENT.**

WHEREAS, on March 1, 2004, Anita Hellam, Executive Director for Habitat for Humanity, Stanislaus (Habitat), contacted the City of Modesto Parks, Recreation and Neighborhoods Department (PR&N) regarding a two-acre parcel of property that the Habitat Site Selection Committee had recently discovered for sale, and

WHEREAS, Habitat for Humanity was interested in pursuing the property due to the parcel's appropriate zoning and ideal location, and

WHEREAS, the parcel is located at the end of Houser Lane in Southwest Modesto, north of Paradise Road, and

WHEREAS, Habitat has requested \$650,000 to help fund the purchase of the property, and

WHEREAS, the Citizens Housing and Community Development Committee met on March 26, 2004, and recommended funding the \$10,000 deposit from the CHDO set aside funds, and

WHEREAS, this recommendation will also allow staff, as well as the CH&CDC, to more fully study and examine this issue, without penalizing Habitat for the additional time and study needed, and

WHEREAS, funds are budgeted in 1170-320-3259-0508, CHDO Set-aside,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves allocating \$10,000 from the HOME Community Housing Development Organization (CHDO) set aside funds to Habitat for Humanity, Stanislaus (Habitat) for a deposit on a 2-acre parcel land purchase.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-195**

**A RESOLUTION REVISING THE POSITION CLASSIFICATION PLAN FOR  
THE CITY OF MODESTO.**

WHEREAS, a Position Classification Plan for the City of Modesto was adopted by Modesto City Council Resolution 88-338 pursuant to Rule 2 of the Personnel Rules and Regulations of the City of Modesto, and

WHEREAS, the City Manager has recommended to the Council amendments to the Position Classification Plan, and

WHEREAS, Rule 2.2 of the City of Modesto Personnel Rules provides that revisions to the Classification Plan shall be effective upon adoption of resolution of the City Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION I. CLASSIFICATION CREATED. The Position Classification Plan of the City of Modesto is hereby amended to create the following classification:

Community Services Supervisor

The job specification for this classification is being created as a result of the need for a new job specification as part of a job audit. The specification for the classification of Community Services Supervisor, as shown on the attached **Exhibit "A"**, which is hereby made a part of this resolution by reference, is hereby approved and made part of the Position Classification Plan of the City of Modesto.

SECTION 2. CLASSIFICATION AMENDED. The Position Classification Plan of the City of Modesto is hereby amended to revise the following classification:

Customer Services Supervisor

The job specification for this classification is being amended as a result of updating the job specification as part of a job audit. The specification for the classification of Customer Services Supervisor, as shown on the attached **Exhibit "B"**, which is hereby made a part of this resolution by reference, is hereby approved and made part of the Position Classification Plan of the City of Modesto.

SECTION 3. EFFECTIVE DATE. This resolution shall become effective on and after April 6, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

## COMMUNITY SERVICES SUPERVISOR

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

### DEFINITION:

To plan, coordinate and administer and manage the activities at City Hall At The Mall (CHATM) and other assigned programs including Sister Cities and the Financial Assistance Program in the Parks, Recreation and Neighborhoods Department.

### SUPERVISION RECEIVED AND EXERCISED:

Receives general direction from upper management staff.

Exercises direct supervision over clerical staff.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS - Essential and other important responsibilities and duties may include, but are not limited to, the following:

### Essential Functions:

Recommend goals and objectives including the development and implementation of policies and procedures at City Hall At The Mall, a retail operation; manage all facility needs including acting as a liaison between internal and external clients.

Direct, oversee, and participate in the development of projects; assign work activities; monitor work flow; create attractive and informative displays including window displays; review and evaluate work products, methods, and procedures at City Hall At The Mall.

Respond to requests for information and advise City Departments, governmental agencies, and the public on matters related to assigned areas.

Review and approve applications for assistance related to the Financial Assistance Program; maintain program database.

Coordinate the City's Sister Cities program including acting as a liaison between the council and Sister City's Board to arrange related events and activities.

Maintain the department's registration/reservation software including upgrades; monitor input of classes for the Activity Guide; assist with balancing system to general ledger.

Participate in recommending the appointment of personnel; provide or coordinate staff training; work employees to improve performance; implement discipline procedures as necessary.

Participate in budget preparation; assist in budget implementation; participate in the forecast of additional funds needed for staffing, equipment, materials, and supplies; administer the approved budget.

Participate in intergovernmental meetings for the purpose of developing cooperative methods and practices.

Address a variety of customer service issues and complaints and resolve in an appropriate manner.

Confer with members of the public to respond to complaints and requests for information.

Develop and implement various facility management and reporting procedures for CHATM.

Review, develop, and modify ways to improve existing procedures; ensure conformity to policy and increase effectiveness.

Conduct fiscal analyses and studies.

Marginal Functions:

Perform related duties as assigned.

QUALIFICATIONS:

Knowledge of:

Customer relations practices and techniques.

Principles and practices of organization and public administration.

Principles and practices of effective employee supervision, including selection, training, work evaluation, and discipline.

Laws regulating public utilities and cashiering, activities. Applicable Federal,

State, and local laws, codes, and regulations.

Budget procedures and techniques.

Methods and techniques of effective technical report preparation and presentation.

Ability to:

Analyze problems, identify options, project consequences of proposed actions, and recommend changes in policies and procedures.

Interpret and apply rules, regulations, and policies.

Prepare and analyze technical and administrative reports, statements, and correspondence.

Work with and control sensitive, confidential information.

Communicate clearly and concisely, both orally and in writing.

Establish and maintain effective working relationships with others.

Experience and Training Guidelines: - Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

Four years of increasingly responsible financial experience in a public or utility agency with emphasis in professional utility, collections, cashiering, and customer service; including two years of supervisory or lead responsibility.

Training:

Equivalent to an Associate of Arts degree from an accredited college in business administration, accounting, or a related field.

License:

Possession of, or ability to obtain, an appropriate and valid California driver's license.

WORKING CONDITIONS

Environmental Conditions:

Office environment.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for sitting for prolonged periods of time; using various office equipment including a computer and 10-key.

No: 3544

## CUSTOMER SERVICES SUPERVISOR

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

**MODESTO CITY COUNCIL  
RESOLUTION NUMBER 2004-197**

**A RESOLUTION APPROVING A CONSULTANT SERVICES AGREEMENT WITH  
THE YOSEMITE COMMUNITY COLLEGE DISTRICT FOR RETENTION OF A  
MODESTO POLICE LIEUTENANT AS DIRECTOR OF THE RAY SIMON  
REGIONAL CRIMINAL JUSTICE TRAINING CENTER AND AUTHORIZING  
THE CITY MANAGER TO EXECUTE THE AGREEMENT**

WHEREAS, the Yosemite Community College District is desirous of retaining a Modesto Police Lieutenant as Director of its Ray Simon Regional Criminal Justice Training Center, and

WHEREAS, the Commission on Peace Officer Standards and Training is supportive of this business model, and

WHEREAS, the City of Modesto Police Department can provide a Police Lieutenant for this position, and

WHEREAS, a fulltime sworn Police Manager will benefit both the Yosemite Community College District in the provision of its Law Enforcement Academy and benefit law enforcement agencies in the greater Modesto area that hire the graduates of that academy, and

WHEREAS, the total cost (\$128,718) of this position for fiscal year 2003/2004 will be paid by the Yosemite Community College District,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto, that it hereby approves the agreement with the Yosemite Community College District for a Modesto Police Lieutenant at a cost of \$128,718 to serve as Director of the Ray Simon Regional Criminal Justice Training Center.

BE IT FURTHER RESOLVED that the City Manager is hereby authorized to execute said agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-199**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO OF FORMATION, ESTABLISHING CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2004-1 (VILLAGE ONE #2), AUTHORIZING THE LEVY OF SPECIAL TAXES WITHIN THE DISTRICT, PRELIMINARILY ESTABLISHING AN APPROPRIATIONS LIMIT FOR THE DISTRICT, AND CALLING AN ELECTION FOR THE PURPOSE OF SUBMITTING THE LEVY OF THE SPECIAL TAXES AND THE ESTABLISHMENT OF THE APPROPRIATIONS LIMIT TO THE QUALIFIED ELECTORS OF THE DISTRICT**

WHEREAS, the City Council (the "Council") of the City of Modesto (the "City"), did, on March 2, 2004, adopt its Resolution No. 2004-127, entitled "A Resolution of the City Council of the City of Modesto of Intention to Establish City of Modesto Community Facilities District No. 2004-1 (Village One #2) and Authorize the Levy of Special Taxes Therein" stating its intention to establish its City of Modesto Community Facilities District No. 2004-1 (Village One #2) (the "District"), and levy special taxes therein, pursuant to Chapter 2.5 of Part 1 of Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the "Mello-Roos Community Facilities Act of 1982" (the "Act"); and

WHEREAS, Resolution No. 2004-127 (1) describing the proposed boundaries of the District, the name of the District, and the types of facilities (the "Facilities") and services (the "Services") proposed to be financed by the District, (2) providing that, except where funds are otherwise available to pay for the Facilities to be financed by the District, including the incidental expenses thereof, and/or the principal and interest as it becomes due on the bonds of the District issued to finance such Facilities, and the Services, special taxes sufficient to pay the costs thereof, secured by recordation of a continuing lien against all nonexempt real property in the District, will be levied within

the boundaries of the District, (3) specifying the rate, method of apportionment, and manner of collection of the special taxes in sufficient detail to allow each landowner or resident within the proposed District to estimate the maximum amount that he or she will have to pay, and (4) setting a hearing thereon, is incorporated herein by this reference; and

WHEREAS, notice of the hearing was duly published as required by law, as evidenced by the affidavit of publication on file with the City Clerk; and

WHEREAS, at the time and date set for the hearing, April 6, 2004, this Council held the public hearing as required by law relative to the proposed formation of the District, the levy of the special taxes, and all other matters set forth in Resolution No. 2004-127; and

WHEREAS, at least 15 days prior to the hearing, a map of the proposed boundaries of the District, entitled "Boundary Map of City of Modesto Community Facilities District No. 2004-1 (Village One #2)" (the "Boundary Map") was recorded pursuant to Section 3111 of the California Streets and Highways Code in the office of the County Recorder of the County of Stanislaus, in Book 3 of Maps of Assessment and Community Facilities Districts, at page 85; and

WHEREAS, prior to the hearing a report (the "Report") containing a description of the Facilities and Services required to adequately meet the needs of the District and an estimate of the cost of providing the Facilities and Services, including, to the extent the purchase of completed Facilities or the payment of incidental expenses is proposed, the estimated fair and reasonable cost thereof, including the costs of the proposed bond

financing, was filed with this Council as a part of the record of the hearing and duly considered by this Council; and

WHEREAS, the special tax consultant to the City has recommended that the rate and method of special taxes, attached as Exhibit A to Resolution No. 2004-127, be revised in order to make certain administrative and clarifying amendments. Such amendments have been incorporated into the Report and into Exhibit A hereto. The revisions do not increase either the maximum special taxes or the probable special taxes to be paid by the owner of any lot or parcel.

WHEREAS, at the hearing all persons desiring to be heard on all matters pertaining to the formation of the District, the levy of the special taxes, and all other matters set forth in Resolution No. 2004-127, including all interested persons or taxpayers for or against the establishment of the District, the extent of the District, or the furnishing of specific type or types of Facilities or Services, were heard and considered, and a full and fair hearing was held thereon; and

WHEREAS, at the hearing evidence was presented to this Council on the matters before it, and this Council, at the conclusion of the hearing, was fully advised as to all matters relating to the formation of the District, the levy of the special taxes, and all other matters set forth in Resolution No. 2004-127; and

WHEREAS, written protests against the establishment of the District, the furnishing of specified type or types of Facilities and Services within the District as listed in the Report, or the levying of the special taxes, have not been filed with the City Clerk by fifty percent (50%) or more of the registered voters, or six registered voters, whichever is more, residing within the territory proposed to be included in the District, or

the owners of one-half (1/2) or more of the area of land in the territory proposed to be included in the District and not exempt from this special taxes; and

WHEREAS, the Stanislaus County Registrar of Voters has certified there are less than twelve (12) registered voters residing in the District; accordingly, the qualified electors in the District are the landowners; and

WHEREAS, the City Clerk has concurred in the election date herein set forth for the election herein called;

NOW THEREFORE, BE IT RESOLVED, that the Council hereby finds and determines as follows:

SECTION 1. The foregoing recitals are true and correct.

SECTION 2. The proposed special taxes to be levied in the District have not been precluded by majority protest pursuant to Section 53324 of the Act. All protests (there were none) to the establishment of the District, the extent thereof, or the furnishing of the Facilities and Services proposed therefor, or the levy of the special taxes proposed to be levied in the District, are hereby overruled.

SECTION 3. As proposed in Resolution No. 2004-127, a community facilities district is hereby established pursuant to the Act, designated "City of Modesto Community Facilities District No. 2004-1 (Village One #2)," the boundaries of which are shown on the Boundary Map.

SECTION 4. (a) The Facilities to be financed by the District are set forth in Exhibit B attached hereto and by this reference incorporated herein. The Facilities are public facilities having a useful life of five years or longer.

(b) The Facilities are necessary to meet the increased demands placed upon the City and other local agencies operating within the area of the District as a result of development occurring in the District.

(c) No land within the District is devoted primarily to agricultural, timber or livestock uses or is being used for the commercial production of agricultural, timber or livestock products.

SECTION 5. (a) The Services to be financed by the District are set forth in Exhibit C attached hereto and by this reference incorporated herein. The proposed Services are governmental services which the City is authorized by law to provide since they are in addition to those provided in the territory of the District before the District was created.

(b) The Services are necessary to meet the increased demands placed upon the City and other local agencies operating within the area of the District as a result of development occurring in the District.

SECTION 6. The Report related to the Facilities and Services shall be a part of the record in these proceedings. For purposes hereof, the Report shall refer to the Report as modified, amended, revised or corrected pursuant to and in accordance with any resolution or order heretofore adopted or made by this Council.

SECTION 7. (a) As stated in Resolution No. 2004-127, except where funds are otherwise available, it is the intention of this Council, subject to the approval of the qualified electors of the District, to levy special taxes sufficient to pay for the Facilities to be financed by the District, and/or the principal and interest as it becomes due on bonds issued to finance such Facilities, the Services to be financed by the District, and to pay

incidental expenses related thereto, secured by recordation of a continuing lien against all nonexempt real property in the District.

(b) For purposes hereof, expenses shall include the payment in full of all amounts necessary to eliminate any fixed special assessment liens or to pay, repay, or defease any obligation to pay or any indebtedness secured by any tax, fee charge, or assessment levied within the area of the District or to pay debt service on that indebtedness.

(c) The rate, method of apportionment, and manner of collection of the special taxes, in sufficient detail to allow each landowner or resident within the District to estimate the maximum amount that he or she will have to pay, is described in Exhibit A attached hereto and by this reference incorporated herein.

(d) There is no ad valorem property tax currently being levied on property within the District for the exclusive purpose of making lease payments or paying principal or interest on bonds or other indebtedness incurred to finance the construction of capital facilities which are the same the Facilities to be financed by the District.

(e) Any reimbursement made to the District pursuant to Section 53313.5(e) of the California Government Code shall be utilized to reduce or minimize the special taxes levied within the District or to finance additional Facilities within the District.

(f) Landowners may prepay the “Annual Facilities Special Tax” component of the special taxes (as defined in Exhibit A) pursuant to the procedures set forth in Exhibit A.

(g) The special taxes as apportioned to each parcel pursuant to Exhibit A is based on the cost of making the Facilities and Services available to each parcel, or other reasonable basis, and is not based on or upon the ownership of real property.

(h) Pursuant to Section 53314.9 of the Act, this Council may accept advances of funds or work-in-kind from any source, including, but not limited to, private persons or private entities, and may provide, by resolution, for the use of those funds or that work-in-kind for any authorized purpose, including, but not limited to, paying any cost incurred by the City in creating the District.

SECTION 8. The description of the proposed voting procedure, as set forth in Resolution No. 2004-127, is incorporated herein by this reference, and shall be the voting procedure to be used in these proceedings.

SECTION 9. The District Administrator is hereby designated as the office, department or bureau which will be responsible for annually preparing the current roll of special tax levy obligations by assessor's parcel number on nonexempt property within the District and which will be responsible for estimating future special tax levies. The name, address, and telephone number of the office of the District Administrator, and the person responsible for administering the District, is as follows:

District Administrator  
City of Modesto  
Tenth Street Place  
P.O. Box 642  
Modesto, California 95353  
(209) 577-5211

Such officer is hereby directed to establish procedures to promptly respond to inquiries concerning current and future estimated tax liability pursuant to Section 53340.2 of the Act.

SECTION 10. Upon a determination by this Council, after the canvass of the returns of the election contemplated in Sections 13 and 14 hereof, that at least two-thirds (2/3) of the votes cast upon the question of levying the special taxes were in favor thereof, the City Clerk shall record the notice of special tax lien provided for in Section 3114.5 of the California Streets and Highways Code. Upon recordation of the notice of special tax lien pursuant to Section 3114.5 of the California Streets and Highways Code, a continuing lien to secure each levy of the special taxes shall attach to all nonexempt real property in the District, and this lien shall continue in force and effect until collection of the special taxes by this Council ceases, or, in the case of the Annual Facilities Special Tax Component of the special taxes (as defined in Exhibit A), the obligation to pay that component of the special taxes is prepaid and permanently satisfied and the lien thereof cancelled in accordance with the Act.

SECTION 11. All prior proceedings taken with respect to the establishment of the District were valid and in conformity with the requirements of the Act.

SECTION 12. In accordance with Section 53325.7 of the Act, the annual appropriations limit of the District, as defined by subdivision (h) of Section 8 of Article XIII B of the California Constitution, is hereby preliminarily established at \$75,000,000, and this annual appropriations limit shall be submitted to the voters of the District as hereafter provided. The proposition establishing the appropriations limit shall become effective if approved by the qualified electors voting thereon and shall thereafter be adjusted in accordance with the applicable provisions of Section 53325.7 of the Act.

SECTION 13. This Council hereby calls a special election and submits the question of levying the special taxes, and the establishment of the annual appropriations limit for the District in connection therewith, to the qualified electors within the District, in accordance with and subject to the Act, the terms of which shall, unless waived as herein provided, be applicable to such election.

(a) Fewer than twelve (12) persons have been registered to vote within the territory of the District for each of the ninety (90) days preceding the close of the hearing referenced herein. Accordingly, for the purposes of these proceedings, the qualified electors shall be the landowners within the District. The vote shall be by such landowners, or their authorized representatives, each having one vote for each acre or portion thereof that such landowner owns in the District as of the close of the hearing; and the ballots for the special election shall be distributed by mail with return postage prepaid or by personal service to each such landowner, all as provided in Section 53326 of the Act.

(b) The Council hereby designates the City Clerk, and the City Clerk hereby agrees to serve, as the election official to conduct the election. The shortening of the election as herein provided has been concurred in by the City Clerk.

(c) If the City Clerk receives appropriate waivers of time limits and other requirements pertaining to the conduct of the election by all of the owners of land included in the District (collectively, the "Landowners") on or before the 6<sup>th</sup> day of April, 2004, the election shall be held on the 6<sup>th</sup> day of April, 2004. Otherwise, the election shall be held on the first Tuesday after that date which is 90 days after the date this Resolution is adopted.

(e) Unless waived by the Landowners, there shall be prepared and included in the ballot material provided to each voter an impartial analysis and arguments and rebuttals, if any, as provided in Section 53327 of the Act. The election shall be conducted by the City Clerk in the manner required by this Resolution, the Act and applicable laws.

(f) Unless waived by the Landowners, the City Clerk shall publish this Resolution as notice of the special election.

SECTION 14. This Council hereby further directs that the election at which the question of levying the special taxes and the establishment of an appropriations limit in connection therewith is submitted to the qualified electors within the District be consolidated with the election at which the question of incurring a bonded indebtedness in an aggregate principal amount not to exceed \$75,000,000 for the District, as set forth in Resolution No. 2004-128, is submitted to the qualified electors with the District, and the question of levying the special taxes shall be combined in one ballot proposition with the question of incurring such bonded indebtedness and the question of establishing an appropriations limit for the District, all as provided by the Act; and this Council further directs that the resolution adopted by this Council determining the necessity to incur such bonded indebtedness shall constitute the notice of the consolidated election on the combined propositions of authorizing the levy of the special tax, establishing an appropriations limit, and incurring such bonded indebtedness. However, the giving of such notice is waived if the City Clerk receives unanimous consent to such waiver from the Landowners.

SECTION 15. If two-thirds (2/3) of the votes cast upon the question of levying the special tax are cast in favor of levying the special taxes, as determined by this Council after the canvass of the returns of the consolidated election, this Council may levy the special taxes within the District in the amount and for the purposes specified in this Resolution. The special taxes may be levied only at the rate and may be apportioned only in the manner specified in this Resolution, subject to the Act, except that the special taxes may be levied at a lower rate.

SECTION 16. The City Clerk, as the designated election official, shall, within three business days after the adoption of this Resolution, obtain a certified copy thereof. The City Clerk has previously been provided with a map of the boundaries of the District, a sufficient description from which to determine the boundaries of the District, and the assessor's parcel numbers for the land within the District.

SECTION 17. The Council hereby determines that the formation of the proposed District is the creation of a government funding mechanism which is not a project under the provisions of C.E.Q.A. pursuant to Section 15378(b)(4) of the C.E.Q.A. guidelines.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

NOES: Councilmembers: None

ABSENT: Councilmembers: None

ATTEST: Jean Zahb  
JEAN ZAHB, City Clerk

APPROVED AS TO FORM:

By Michael D. Milich  
MICHAEL D. MILICH, City Attorney

## EXHIBIT A

### CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2004-1 (VILLAGE ONE #2)

#### RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAXES

Special Taxes applicable to each Assessor's Parcel in Community Facilities District No. 2004-1 (Village One #2) [herein "CFD No. 2004-1" or "the CFD"] shall be levied and collected according to the tax liability determined by the City Council of the City of Modesto, through the application of the appropriate amount or rate for Taxable Property, as described below. All of the property in CFD No. 2004-1, unless exempted by law or by the provisions of Section G below, shall be taxed for the purposes, to the extent, and in the manner herein provided, including property subsequently annexed to CFD No. 2004-1 unless a separate Rate and Method of Apportionment is adopted for the annexation area.

#### A. DEFINITIONS

The terms hereinafter set forth have the following meanings:

**"Acre" or "Acreage"** means the land area of an Assessor's Parcel as shown on an Assessor's Parcel Map, or if the land area is not shown on an Assessor's Parcel Map, the land area shown on the applicable Final Map or other Development Plan.

**"Act"** means the Mello-Roos Community Facilities Act of 1982, as amended, being Chapter 2.5, (commencing with Section 53311), Division 2 of Title 5 of the California Government Code.

**"Administrative Expenses"** means any or all of the following: the fees and expenses of any fiscal agent or trustee (including any fees or expenses of its counsel) employed in connection with any Bonds, and the expenses of the City carrying out its duties with respect to CFD No. 2004-1 and the Bonds, including, but not limited to, levying and collecting the Special Taxes, the fees and expenses of legal counsel, charges levied by the County Auditor's Office, Tax Collector's Office, and/or Treasurer's Office, costs related to annexing property into the CFD, costs related to property owner inquiries regarding the Special Taxes, costs associated with complying with any continuing disclosure requirements for the Bonds and the Special Taxes, and all other costs and expenses of the City in any way related to the establishment or administration of the CFD.

**"Administrator"** means the person or firm designated by the City to administer the Special Taxes according to this Rate and Method of Apportionment of Special Taxes.

**"Annual Facilities Special Tax"** means a special tax levied in any Fiscal Year to pay the Annual Facilities Special Tax Requirement, as defined below.

**“Annual Facilities Special Tax Requirement”** means the amount necessary in any Fiscal Year (i) to pay principal and interest, including scheduled sinking fund payments, on Bonds, (ii) pay administrative expenses of CFD No. 2004-1 that have not been included in the Annual Maintenance Special Tax Requirement for the Fiscal Year, (iii) to create or replenish reserve funds, (iv) to cure any delinquencies in the payment of principal or interest on indebtedness of CFD No. 2004-1 which have occurred in the prior Fiscal Year or (based on delinquencies in the payment of the Annual Facilities Special Taxes which have already taken place) are expected to occur in the Fiscal Year in which the tax will be collected, and (v) to construct or acquire Authorized Facilities. The amounts referred to in clauses (i) and (iii) of the preceding sentence may be reduced in any Fiscal Year by: (i) interest earnings on or surplus balances in funds and accounts for the Bonds to the extent that such earnings or balances are available to apply against debt service pursuant to a Bond indenture, Bond resolution, or other legal document that sets forth these terms; (ii) proceeds received by CFD No. 2004-1 from the collection of penalties associated with delinquent Annual Facilities Special Taxes; and (iii) any other revenues available to pay debt service on the Bonds as determined by the Administrator.

**“Annual Maintenance Special Tax”** means a special tax levied in any Fiscal Year to pay the Maintenance Special Tax Requirement, as defined below.

**“Annual Maintenance Special Tax Requirement”** means that amount necessary in any Fiscal Year to (i) pay for Authorized Services, (ii) pay administrative expenses of CFD No. 2004-1 that have not been included in the Annual Facilities Special Tax Requirement for the Fiscal Year, and (iii) cure any delinquencies in the payment of Annual Maintenance Special Taxes levied in prior Fiscal Years or (based on delinquencies in the payment of Annual Maintenance Special Taxes which have already taken place) are expected to occur in the current Fiscal Year.

**“Assessor’s Parcel”** or **“Parcel”** means a lot or parcel shown on an Assessor’s Parcel Map with an assigned Assessor’s Parcel number.

**“Assessor’s Parcel Map”** means an official map of the County Assessor designating parcels by Assessor’s Parcel number.

**“Authorized Facilities”** means those facilities that are authorized to be funded by CFD No. 2004-1.

**“Authorized Services”** means those services that are authorized to be funded by CFD No. 2004-1.

**“Bonds”** means bonds or other debt (as defined in the Act), whether in one or more series, issued, insured or assumed by CFD No. 2004-1 related to Authorized Facilities.

**“Capitalized Interest”** means funds in any capitalized interest account available to pay debt service on Bonds.

**“CFD Formation”** means the date on which the Resolution of Formation to form CFD No. 2004-1 was adopted by the City Council.

**“City”** means the City of Modesto.

**“City Council”** means the City Council of the City of Modesto, acting as the legislative body of CFD No. 2004-1.

**“Commercial Property”** means all Parcels in CFD No. 2004-1 for which building permits have been or may be issued for construction of a commercial building based on reference to the Village One Specific Plan and/or the Parcel’s zoning designation.

**“County”** means the County of Stanislaus.

**“Developed Property”** means, in any Fiscal Year, the following:

*For purposes of levying the Annual Maintenance Special Tax, “Developed Property” means:*

- for Low Density Residential Property and Village Residential Property, all Parcels for which a Final Map was recorded prior to June 30 of the preceding Fiscal Year but not prior to June 30, 2002,
- for Multi-Family Property, all Parcels for which a building permit for new construction of a residential structure was issued prior to June 30 of the preceding Fiscal Year, and
- for Commercial Property and Industrial Property, all Parcels for which a building permit for construction, reconstruction or expansion of a building structure was issued prior to June 30 of the preceding Fiscal Year. Notwithstanding the foregoing, Parcels of Commercial Property or Industrial Property on which a vacant building is located that cannot be occupied without demolition or reconstruction of the building shall not be categorized as Developed Property until a permit is issued for construction of a new building or reconstruction of the existing building.

*For purposes of levying the Annual Facilities Special Tax, “Developed Property” means:*

- for Low Density Residential Property and Village Residential Property, all Parcels for which a building permit for construction, or reconstruction of a unit was issued prior to June 30 of the preceding Fiscal Year but not prior to June 30, 2002,
- for Multi-Family Attached Property, all Parcels for which a building permit for new construction of a residential structure was issued prior to June 30 of the preceding Fiscal Year, and
- for Commercial Property and Industrial Property, all Parcels for which a building permit for construction, reconstruction or expansion of a building structure was issued prior to June 30 of the preceding Fiscal Year. Notwithstanding the foregoing, Parcels of Commercial Property or Industrial Property on which a vacant building is located that cannot be occupied without demolition or reconstruction of the building shall not be categorized as Developed Property

until a permit is issued for construction of a new building or reconstruction of the existing building.

**“Expected Land Uses”** means the Net Taxable Acreage of each Land Use Class expected on an Original Parcel in CFD No. 2004-1 based on reference to the Expected Land Use Map. The Expected Land Uses for each Original Parcel in the CFD at the time of CFD Formation, and the corresponding Maximum Special Tax for each Parcel, are reflected in Attachment 2, which will be updated with each annexation of property into CFD No. 2004-1.

**“Expected Land Use Map”** means the map entitled “Village One Zoning of Unvested Properties” which is on file with the CFD Administrator at the City and the City Clerk and which identifies the Expected Land Uses on all Parcels within the Village One Specific Plan that either (i) are in CFD No. 2004-1 at CFD Formation, or (ii) may be annexed into the CFD in future Fiscal Years. The Expected Land Use Map may be updated in future years to add property within the Village One Specific Plan that was vested to develop when the map was prepared and, therefore, was not included in the map but subsequently has its vesting expire or for any other reason becomes subject to a condition of development that requires formation of, or annexation into, a CFD.

**“Final Map”** means a final map, or portion thereof, approved by the City pursuant to the Subdivision Map Act (California Government Code Section 66410 et seq.) that creates lots which do not need to be further subdivided prior to issuance of a building permit for a residential or non-residential structure. The term “Final Map” shall not include any Assessor’s Parcel Map or subdivision map or portion thereof, that does not create lots that are in their final configuration, including Assessor’s Parcels that are designated as remainder parcels.

**“Fiscal Year”** means the period starting July 1 and ending on the following June 30.

**“Improvement Area”** means a geographic area that, upon annexation into CFD No. 2004-1, is identified as an improvement area as defined in the Act instead of a Tax Zone, as defined below. Special Taxes collected within an Improvement Area will be the sole security for Bonds issued for that Improvement Area.

**“Industrial Property”** means all Parcels in CFD No. 2004-1 for which building permits have been or may be issued for construction of an industrial building based on reference to the Village One Specific Plan and/or the Parcel’s zoning designation.

**“Land Use Class”** means one of the five mutually-exclusive land use classes identified in Table 1 in Section C below and defined in this Section A. The City shall, in its sole discretion, determine the appropriate Land Use Class for Parcels on which a structure was built prior to CFD Formation.

**“Low Density Residential Property”** means all Parcels in CFD No. 2004-1 for which a building permit has been or may be issued for construction of a residential unit on a Parcel with a maximum density of two or less dwelling units per gross acre based on reference to the Village One Specific Plan and/or the Parcel’s zoning designation.

**“Maximum Annual Facilities Special Tax”** means the greatest amount of Annual Facilities Special Tax that can be levied on an Assessor’s Parcel in any Fiscal Year determined in accordance with Sections C and D below.

**“Maximum Annual Maintenance Special Tax”** means the greatest amount of Annual Maintenance Special Tax that can be levied on an Assessor’s Parcel in any Fiscal Year determined in accordance with Sections C and D below.

**“Maximum One-Time Facilities Special Tax”** means the greatest amount of One-Time Facilities Special Tax that can be levied on an Assessor’s Parcel in any Fiscal Year determined in accordance with Sections C and D below.

**“Maximum Special Taxes”** means, collectively, the Maximum One-Time Facilities Special Tax, Maximum Annual Facilities Special Tax, and Maximum Annual Maintenance Special Tax.

**“Multi-Family Property”** means all Parcels in CFD No. 2004-1 for which building permits have been or may be issued for construction of a residential structure consisting of two or more residential units that share common walls, including but not limited to, townhomes, condominiums, duplexes, triplexes, fourplexes, and apartment units. If a building permit has not yet been issued on the Parcel, the Administrator shall reference the Village One Specific Plan and/or the Parcel’s zoning designation to determine whether the Parcel is Multi-Family Property.

**“Net Taxable Acreage”** or **“Net Taxable Acre”** means the total acreage within a Final Map or Parcel less arterial road right-of-ways and property that is defined in the Final Map for use as a park site, school site, or City-owned or CFD-owned storm drainage basin. If a Subdivision Map is recorded which is not a Final Map for some or all Parcels created by the subdivision, the Administrator shall calculate the Net Taxable Acreage of such unsubdivided Parcels by identifying the Acreage of the Parcel and (i) adding a portion of the acreage of any non-arterial right-of-way that fronts the Parcel determined by drawing lines at right angles to the right-of-way, and (ii) subtracting a portion of the acreage of any arterial right-of-way that fronts the Parcel determined by drawing lines at right angles to the right-of-way. The Net Taxable Acreage of a Parcel or Final Map shall be determined in the sole discretion of the City.

**“One-Time Facilities Special Tax”** means a Special Tax, levied and collected in full by the City prior to a structural building permit being issued for new construction on Taxable Property.

**“Original Parcel”** means an Assessor’s Parcel in CFD No. 2004-1 at the time of CFD Formation or added to the CFD upon annexation, as identified in Attachment 2 (which shall be updated after each annexation). A Successor Parcel that is being further subdivided shall also be considered an Original Parcel for purposes of determining the Maximum Special Taxes pursuant to Section C below.

**“Per-Acre Special Taxes”** means the per-acre Special Taxes identified in Table 1 in Section C below.

**“Proportionately”** means, for Developed Property, that the ratio of the actual Annual Facilities Special Tax and Annual Maintenance Special Tax levied in any Fiscal Year to the Maximum Annual Facilities Special Tax and Maximum Annual Maintenance Special Tax authorized to be

levied in that Fiscal Year is equal for all Assessor's Parcels of Developed Property, respectively. In addition, for Undeveloped Property, "Proportionately" means that the ratio of the actual Annual Facilities Special Tax and actual Annual Maintenance Facilities Special Tax to the Maximum Annual Facilities Special Tax and Maximum Annual Maintenance Special Tax is equal for all Assessor's Parcels of Undeveloped Property, respectively.

**"Public Property"** means any property within the boundaries of CFD No. 2004-1 that is owned by the federal government, State of California, County, City, or other public agency.

**"Single Family Detached Lot"** means an individual numbered lot, which is in its final configuration and for which a building permit may be issued for a single family detached unit.

**"Special Taxes"** means, collectively, the One-Time Facilities Special Tax, the Annual Facilities Special Tax, and the Annual Maintenance Special Tax.

**"Special Tax Category"** means, individually, the One-Time Facilities Special Tax, the Annual Facilities Special Tax, and the Annual Maintenance Special Tax.

**"Subdivision Map"** means a Final Map, large lot subdivision map, or other map recorded with the County that results in the subdivision of an Original Parcel into two or more Successor Parcels.

**"Successor Parcel"** means an Assessor's Parcel of Taxable Property created by the subdivision or reconfiguration of an Original Parcel on which construction of a residential or non-residential structure is permitted.

**"Taxable Property"** means all of the Assessor's Parcels within the boundaries of CFD No. 2004-1 which are not exempt from the Special Tax pursuant to law or Section G below.

**"Taxable Public Property"** means, in any Fiscal Year, all Parcels of Public Property within CFD No. 2004-1 that, (i) based on the Village One Specific Plan, were expected to be Taxable Property and, (ii) based on this expectation, Maximum Special Taxes were assigned to the Parcels in a prior Fiscal Year.

**"Tax Zone"** means a mutually exclusive geographic area within which particular Special Tax rates may be levied pursuant to this Rate and Method of Apportionment of Special Taxes. Attachment 1 identifies the Tax Zone in CFD No. 2004-1 at CFD Formation; additional Tax Zones may be created when property is annexed into the CFD. Alternatively, additional Original Parcels may be added to a Tax Zone with assigned Maximum Special Taxes based on the Expected Land Uses on each Original Parcel.

**"Tax Zone #1"** means the geographic area that is designated in Attachment 1 of this Rate and Method of Apportionment of Special Tax as Tax Zone #1. Tax Zone #1 may be expanded to include additional Original Parcels that annex to CFD No. 2004-1; Attachments 1 and 2 will be updated each time such an annexation takes place.

**"Undeveloped Property"** means, in any Fiscal Year, all Parcels of Taxable Property within CFD No. 2004-1 that are not Developed Property.

**“Village One Specific Plan”** means the specific plan for development within the Village One project in the City of Modesto adopted by the City Council on April 1, 2003, as amended from time to time.

**“Village Residential Property”** means, in any Fiscal Year, all Parcels in CFD No. 2004-1 for which a building permit has been or may be issued for construction of a residential unit on a Parcel with a maximum density greater than two dwelling units per gross acre based on reference to the Village One Specific Plan and/or the Parcel’s zoning designation.

**B. DATA FOR ANNUAL ADMINISTRATION**

On or about July 1 of each Fiscal Year, the Administrator shall identify the current Assessor’s Parcel numbers for all Parcels of Taxable Property in CFD No. 2004-1. The Administrator shall also determine: (i) the Tax Zone within which each Parcel of Taxable Property is located, (ii) whether each Assessor’s Parcel of Taxable Property is Developed Property or Undeveloped Property, (iii) which Parcels are Commercial Property, Industrial Property, Multi-Family Property, Low Density Residential Property, and Village Residential Property (the City shall, in its sole discretion, determine the appropriate Land Use Class for Parcels on which a structure was built prior to CFD Formation), (iv) the Net Taxable Acreage of each Parcel, and (v) the Annual Facilities Special Tax Requirement and the Annual Maintenance Special Tax Requirement.

In any Fiscal Year, if it is determined that (i) a parcel map for a portion of property in CFD No. 2004-1 was recorded after January 1 of the prior Fiscal Year (or any other date after which the Assessor will not incorporate the newly-created Parcels into the then current tax roll), (ii) because of the date the parcel map was recorded, the Assessor does not yet recognize the new Parcels created by the parcel map, and (iii) one or more of the newly-created Parcels meets the definition of Developed Property, the Administrator shall calculate the Special Tax for the property affected by recordation of the parcel map by determining the Special Tax that applies separately to each newly-created Parcel, then applying the sum of the individual Special Taxes to the Original Parcel or Successor Parcel that was subdivided by recordation of the parcel map.

**C. CALCULATING MAXIMUM SPECIAL TAXES**

The Administrator shall use the procedures set forth below to calculate the Maximum Special Taxes for each Parcel in CFD No. 2004-1 in each Fiscal Year, including the Maximum One-Time Facilities Special Tax, Maximum Annual Facilities Special Tax, and Maximum Annual Maintenance Special Tax. A separate method of calculating the Maximum Special Taxes may be identified for Tax Zones or Improvement Areas added to CFD No. 2004-1 as a result of future annexations. The Per-Acre Special Taxes set forth in Table 1 below shall be used for purposes of Sections C.1 and C.2 below:

**Table 1**  
**Per-Acre Special Taxes**  
**Fiscal Year 2004-05 \***

<b>Land Use Class</b>	<b>Per-Acre Special Tax: One-Time Facilities Special Tax</b>	<b>Per-Acre Special Tax: Annual Facilities Special Tax</b>	<b>Per-Acre Special Tax: Annual Maintenance Special Tax</b>
Low Density Residential Property	\$13,342 per Net Taxable Acre	\$3,517 per Net Taxable Acre	\$525 per Net Taxable Acre
Village Residential Property	\$30,281 per Net Taxable Acre	\$6,405 per Net Taxable Acre	\$1,233 per Net Taxable Acre
Multi-Family Property	\$101,437 per Net Taxable Acre	\$7,222 per Net Taxable Acre	\$4,020 per Net Taxable Acre
Commercial Property	\$52,102 per Net Taxable Acre	\$3,570 per Net Taxable Acre	\$920 per Net Taxable Acre
Industrial Property	\$13,103 per Net Taxable Acre	\$2,550 per Net Taxable Acre	\$920 per Net Taxable Acre

*\* All Per-Acre Special Taxes shown in Table 1 are subject to the annual adjustments described in Section D below.*

**1. Original Parcels**

The Maximum Special Taxes for each Land Use Class in the Original Parcel in CFD No. 2004-1 as of CFD Formation is identified in Attachment 2. Attachment 2 will be updated by the Administrator as needed to reflect Original Parcels added to the CFD due to annexations. Until an Original Parcel is subdivided, the Maximum Special Taxes shown in Attachment 2 (escalated as set forth herein) shall be the Maximum Special Taxes for the Parcel unless the zoning on the Original Parcel changes to a Land Use Class that has higher Per-Acre Special Taxes, as shown in Table 1 above. Upon approval of such change in zoning by the City Council, the Administrator shall multiply the applicable Per-Acre Special Taxes by the Net Taxable Acreage of each Land Use Class that is expected on the Parcel based on the rezone. The Administrator shall then update Attachment 2 to reflect the higher Maximum Special Taxes for the Parcel. If a rezone results in a Land Use Class that has a lower Per-Acre Special Tax than the previous Expected Land Uses, there shall be no corresponding reduction in the Maximum Special Taxes for the Parcel. The potential reduction in Maximum Special Tax revenues must be considered separately for each Special Tax Category. If the rezone would cause a reduction in the Maximum Special Tax revenues in any Special Tax Category, the Maximum Special Tax identified for that Special Tax Category shall remain the same as originally assigned to the Original Parcel.

2. **Successor Parcels**

a. ***All Successor Parcels are Single Family Detached Lots***

If the Parcels created by a recorded Subdivision Map are all Single Family Detached Lots, the Administrator shall apply the following steps to allocate the Maximum Special Taxes for the Original Parcel to each of the Successor Parcels created by the subdivision:

**Step 1:** Determine the greater of (i) the Maximum Special Taxes assigned to each Expected Land Use for the Original Parcel, or (ii) the Net Taxable Acreage of Low Density Residential Property and/or Village Residential Property within the Subdivision Map multiplied by the Per-Acre Special Taxes for such Land Use Classes from Table 1 above. If the Subdivision Map includes both Low Density Residential Property and Village Residential Property, separately calculate the amount that applies to each Land Use Class.

**Step 2:** Separately for any Low Density Residential Property and Village Residential Property created by the Subdivision Map, divide the Maximum Special Taxes from Step 1 by the number of Successor Parcels to determine the Maximum Special Taxes for each Single Family Detached Lot.

b. ***No Successor Parcels are Single Family Detached Lots***

If none of the Successor Parcels created by recordation of a Subdivision Map are Single Family Detached Lots, the Administrator shall apply the following steps to allocate the Maximum Special Taxes assigned to the Original Parcel to each of the Successor Parcels:

**Step 1:** Identify the Expected Land Uses for the Original Parcel.

**Step 2:** Determine the Net Taxable Acreage within each Land Use Class created by the Subdivision Map.

**Step 3:** If the Net Taxable Acreage of each Land Use Class from Step 2 is the same as the Expected Land Uses, the Maximum Special Taxes assigned to each of the Expected Land Uses on the Original Parcel shall be allocated to the Successor Parcels based on the Acreage of each Land Use Class that occurs on each Successor Parcel.

**Step 4:** If the Net Taxable Acreage within each Land Use Class from Step 2 is different than the Expected Land Uses for the Original Parcel, the Administrator shall apply the following steps **separately for each Special Tax Category:**

**Step 4a.** Multiply the applicable Per-Acre Special Tax by the Net Taxable Acreage of each Land Use Class created by the Subdivision Map.

**Step 4b.** If the amount calculated in Step 4a is **greater than** the Maximum Special Tax assigned to the Original Parcel, multiply the Net Taxable Acreage of each Land Use Class on each Successor Parcel by the applicable Per-Acre Special Tax from Table 1 above to determine the Maximum Special Tax for each Successor Parcel.

**Step 4c.** If the amount calculated in Step 4a is **less than** the Maximum Special Tax assigned to the Original Parcel: (i) identify the Maximum Special Tax that was assigned to each of the Expected Land Uses on the Parcel, (ii) divide the Maximum Special Tax for each Land Use Class by the Net Taxable Acreage of each Land Use Class actually created by the Subdivision Map, and (iii) multiply the per-acre Maximum Special Tax calculated in (ii) by the Net Taxable Acreage of each Land Use Class on each Successor Parcel to determine the Maximum Special Tax for each Parcel.

If the Land Use Classes on a Successor Parcel or Parcels are different than the Expected Land Uses for that Parcel(s) and such difference would result in a reduction in the Maximum Special Tax assigned to the Original Parcel for any Special Tax Category, the Maximum Special Tax assigned to the Original Parcel shall either be distributed equally on a per-acre basis to the Successor Parcels or, if multiple Land Use Classes are created by the Subdivision Map, the Maximum Special Tax from the Original Parcel shall be distributed to each Land Use Class so that the per-acre tax for each Land Use Class has the same proportional relationship as the Per-Acre Special Taxes in Table 1 above.

*If, after subdivision of an Original Parcel, a Successor Parcel is further subdivided, the Successor Parcel shall be treated as an Original Parcel for purposes of allocating Maximum Special Taxes pursuant to Section C.2a, C.2b, or C.2c, as appropriate.*

**c. *Some, But Not All, Successor Parcels are Single Family Detached Lots***

If a Subdivision Map divides an Original Parcel into Successor Parcels, of which some are Single Family Detached Lots and some are not, the Administrator shall (i) break out the Net Taxable Acreage of Low Density Residential Property and/or Village Residential Property separately from the Net Taxable Acreage of other Land Use Classes, (ii) for the Low Density Residential Property and/or Village

Residential Property created by the Subdivision Map, apply the steps in Section C.2a to determine the Maximum Special Taxes for each Single Family Detached Lot, and (iii) apply the steps in Section C.2b above to determine the Maximum Special Taxes for Land Use Classes other than Low Density Residential Property and Village Residential Property.

*If, after subdivision of an Original Parcel, a Successor Parcel is further subdivided, the Successor Parcel shall be treated as an Original Parcel for purposes of allocating Maximum Special Taxes pursuant to Section C.2a, C.2b, or C.2c, as appropriate.*

**After each reallocation of the Maximum Special Taxes upon subdivision or reconfiguration of Original Parcels, the sum of the Maximum Special Taxes assigned to Successor Parcels shall never be less, but may be more, than the Maximum Special Taxes assigned to the Original Parcels prior to such reallocation.**

**D. ESCALATION OF MAXIMUM SPECIAL TAXES**

**1. One-Time Facilities Special Tax**

Beginning in January 2005 and each January thereafter, the Maximum One-Time Facilities Special Tax assigned to each Parcel and the Per-Acre Special Tax shown in Table 1 above shall be adjusted annually by the greater of (i) the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or (ii) four percent (4.0%). Each annual adjustment of the One-Time Facilities Special Tax shall become effective on the subsequent July 1.

**2. Annual Facilities Special Tax**

Beginning in Fiscal Year 2005-06, and each Fiscal Year thereafter, the Maximum Annual Facilities Special Tax assigned to each Parcel and the Per-Acre Special Tax shown in Table 1 above shall be increased by two percent (2%) of the amount in effect in the prior Fiscal Year.

**3. Annual Maintenance Special Tax**

Beginning in January 2005 and each January thereafter, the Maximum Annual Maintenance Special Tax assigned to each Parcel and the Per-Acre Special Tax shown in Table 1 above shall be adjusted annually by the greater of (i) the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or (ii) four percent (4.0%). Each annual adjustment of the Maximum Annual Maintenance Special Tax shall become effective on the subsequent July 1.

**E. METHOD OF LEVY OF THE SPECIAL TAX**

**1. One-Time Facilities Special Tax**

The Maximum One-Time Facilities Special Tax determined pursuant to Sections C and D above shall be levied on all Taxable Property in CFD No. 2004-1 and shall be collected as set forth in Section F below.

**2. Annual Facilities Special Tax**

Commencing with Fiscal Year 2004-05 and for each following Fiscal Year, the Administrator shall determine the Annual Facilities Special Tax Requirement for the Fiscal Year. The Annual Facilities Special Tax shall then be levied on all Parcels of Taxable Property in CFD No. 2004-1 as follows:

*Step 1:* The Annual Facilities Special Tax shall be levied Proportionately on each Parcel of Developed Property within the CFD up to 100% of the Maximum Annual Facilities Special Tax for each Parcel for such Fiscal Year until the amount levied on Developed Property is equal to the Special Tax Requirement prior to applying any Capitalized Interest that is available in the CFD accounts;

*Step 2:* If additional revenue is needed after Step 1, and after applying Capitalized Interest to the Annual Facilities Special Tax Requirement, the Annual Facilities Special Tax shall be levied Proportionately on each Assessor's Parcel of Undeveloped Property within the CFD, up to 100% of the Maximum Annual Facilities Special Tax for each Parcel of Undeveloped Property for such Fiscal Year;

*Step 3:* If additional revenue is needed after applying the first two steps, the Annual Facilities Special Tax shall be levied Proportionately on each Assessor's Parcel of Taxable Public Property, up to 100% of the Maximum Annual Facilities Special Tax assigned to each Parcel of Taxable Public Property.

**3. Annual Maintenance Special Tax**

Commencing with Fiscal Year 2004-05 and for each following Fiscal Year, the Administrator shall determine the Maintenance Special Tax Requirement for the Fiscal Year. The Annual Maintenance Special Tax shall then be levied on all Parcels of Taxable Property as follows:

*Step 1:* The Annual Maintenance Special Tax shall be levied Proportionately on each Parcel of Developed Property within the CFD up to 100% of the Maximum Annual Maintenance Special Tax for each Parcel for such Fiscal Year;

*Step 2:* If additional revenue is needed after Step 1, the Annual Maintenance Special Tax shall be levied Proportionately on each Assessor's Parcel of Undeveloped

Property within the CFD, up to 100% of the Maximum Annual Maintenance Special Tax for each Parcel of Undeveloped Property for such Fiscal Year;

**Step 3:** If additional revenue is needed after applying the first two steps, the Annual Maintenance Special Tax shall be levied Proportionately on each Assessor's Parcel of Taxable Public Property, up to 100% of the Maximum Annual Maintenance Special Tax assigned to each Parcel of Taxable Public Property.

#### **F. COLLECTION OF SPECIAL TAX**

The Maximum One-Time Facilities Special Tax shall be collected prior to a building permit being issued for new construction of any residential or non-residential structure on Taxable Property within CFD No. 2004-1, and shall be immediately delinquent if not so paid.

The Annual Facilities Special Tax and Annual Maintenance Special Tax for CFD No. 2004-1 shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided, however, that prepayments are permitted as set forth in Section H below and provided further that the City may directly bill, collect at a different time or in a different manner, and/or collect delinquent Annual Facilities Special Taxes and Annual Maintenance Special Taxes through foreclosure or other available methods.

The Annual Facilities Special Tax shall be levied and collected until principal and interest on Bonds have been repaid, costs of constructing or acquiring Authorized Facilities from Annual Facilities Special Tax proceeds have been paid, and all Administrative Expenses have been reimbursed. However, in no event shall an Annual Facilities Special Tax be levied after Fiscal Year 2060-61. The Annual Maintenance Special Tax will continue to be levied and collected unless and until the City determines that the Annual Maintenance Special Tax no longer needs to be levied to pay Authorized Services of the CFD and all Administrative Expenses have been reimbursed. Under no circumstances may the Annual Facilities Special Tax on one Parcel in the CFD be increased by more than ten percent (10%) as a consequence of delinquency or default in payment of the Annual Facilities Special Tax levied on another Parcel or Parcels in the CFD.

#### **G. EXEMPTIONS**

Notwithstanding any other provision of this Rate and Method of Apportionment of Special Taxes, no Special Taxes shall be levied on Public Property, except Taxable Public Property, as defined herein.

#### **H. PREPAYMENT OF SPECIAL TAX**

The following definitions apply to this Section H:

**“Outstanding Bonds”** means all Previously Issued Bonds which remain outstanding, with the following exception: if an Annual Facilities Special Tax has been levied against, or already paid by, an Assessor's Parcel making a prepayment, and a portion of the Annual Facilities Special Tax will be used to pay a portion of the next principal payment on the Bonds that remain outstanding (as determined by the Administrator), that next principal payment shall be subtracted from the total Bond principal that remains

outstanding, and the difference shall be used as the amount of Outstanding Bonds for purposes of this prepayment formula.

**“Previously Issued Bonds”** means all Bonds that have been issued on behalf of the CFD prior to the date of prepayment.

**“Public Facilities Requirements”** means either \$1,327,000 in 2004 dollars, which shall increase on January 1, 2005, and on each January 1 thereafter by the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or such other number as shall be determined by the City as sufficient to fund Authorized Facilities. The Public Facilities Requirements shown above shall be adjusted or a separate Public Facilities Requirements identified each time property annexes into CFD No. 2004-1; at no time shall the added Public Facilities Requirement for the annexation area exceed the amount of public improvement costs that are expected to be supportable by the Maximum Annual Facilities Special Tax generated within that annexation area.

**“Remaining Facilities Costs”** means the Public Facilities Requirements (as defined above), minus costs of Authorized Facilities funded by Outstanding Bonds (as defined above), developer equity, and/or any other source of funding.

The Annual Facilities Special Tax obligation applicable to an Assessor’s Parcel in the CFD may be prepaid and the obligation of the Assessor’s Parcel to pay the Annual Facilities Special Tax permanently satisfied as described herein, provided that a prepayment may be made only if there are no delinquent Annual Facilities Special Taxes with respect to such Assessor’s Parcel at the time of prepayment. The Annual Maintenance Special Tax may not be prepaid. An owner of an Assessor’s Parcel intending to prepay the Annual Facilities Special Tax obligation shall provide the City with written notice of intent to prepay. Within 30 days of receipt of such written notice, the City or its designee shall notify such owner of the prepayment amount for such Assessor’s Parcel. Prepayment must be made not less than 75 days prior to any redemption date for Bonds to be redeemed with the proceeds of such prepaid Annual Facilities Special Taxes. The Prepayment Amount shall be calculated as follows: (capitalized terms as defined below):

	Bond Redemption Amount
plus	Remaining Facilities Amount
plus	Redemption Premium
plus	Defeasance Requirement
plus	Administrative Fees and Expenses
less	<u>Reserve Fund Credit</u>
equals	Prepayment Amount

As of the proposed date of prepayment, the Prepayment Amount shall be determined by application of the following steps:

- Step 1:** Compute the total Maximum Annual Facilities Special Tax that could be collected from the Assessor’s Parcel prepaying the Annual Facilities Special Tax in the Fiscal Year in which prepayment would be received by the City.

- Step 2:* Divide the Maximum Annual Facilities Special Tax from Step 1 by the total amount that could be collected if the Maximum Annual Facilities Special Tax was levied on all Parcels of Taxable Property in the CFD.
- Step 3:* Multiply the quotient computed pursuant to Step 2 by the Outstanding Bonds to compute the amount of Outstanding Bonds to be retired and prepaid (the “**Bond Redemption Amount**”).
- Step 4:* Compute the current Remaining Facilities Costs (if any).
- Step 5:* Multiply the quotient computed pursuant to Step 2 by the amount determined pursuant to Step 4 to compute the amount of Remaining Facilities Costs to be prepaid (the “**Remaining Facilities Amount**”).
- Step 6:* Multiply the Bond Redemption Amount computed pursuant to Step 3 by the applicable redemption premium, if any, on the Outstanding Bonds to be redeemed (the “Redemption Premium”).
- Step 7:* Compute the amount needed to pay interest on the Bond Redemption Amount starting with the first Bond interest payment date after which the prepayment has been received until the earliest redemption date for the Outstanding Bonds, which, depending on the Bond offering document, may be as early as the next interest payment date.
- Step 8:* Compute the amount of interest the City reasonably expects to derive from reinvestment of the Bond Redemption Amount plus the Redemption Premium from the first Bond interest payment date after which the prepayment has been received until the redemption date for the Outstanding Bonds.
- Step 9:* Take the amount computed pursuant to Step 7 and subtract the amount computed pursuant to Step 8 (the “**Defeasance Requirement**”).
- Step 10:* Determine the costs of computing the prepayment amount, the costs of redeeming Bonds, and the costs of recording any notices to evidence the prepayment and the redemption (the “**Administrative Fees and Expenses**”).
- Step 11:* If and to the extent so provided in the indenture pursuant to which the Outstanding Bonds to be redeemed were issued, a reserve fund credit shall be calculated as a reduction in the applicable reserve fund for the Outstanding Bonds to be redeemed pursuant to the prepayment (the “**Reserve Fund Credit**”).
- Step 12:* The Annual Facilities Special Tax prepayment is equal to the sum of the amounts computed pursuant to Steps 3, 5, 6, 9, and 10, less the amount computed pursuant to Step 11 (the “**Prepayment Amount**”).

If an owner that has prepaid the Annual Facilities Special Tax obligation assigned to a Parcel subsequently rezones the Parcel to a Land Use Class that has a higher Per-Acre Annual Facilities Special Tax, the City may in its sole discretion and as a condition of approval of the rezoning, collect the additional Annual Facilities Special Tax prepayment that would have applied had the Parcel been rezoned at the time of the original prepayment for the Parcel.

**I. INTERPRETATION OF SPECIAL TAX FORMULA**

The City reserves the right to make minor administrative and technical changes to this document that does not materially affect the Rate and Method of Apportionment of Special Taxes. In addition, the interpretation and application of any section of this document shall be left to the City's discretion. Interpretations may be made by the City by ordinance or resolution for purposes of clarifying any vagueness or ambiguity in this Rate and Method of Apportionment of Special Taxes.

## **EXHIBIT B**

### **DESCRIPTION OF FACILITIES**

All facilities described herein are as presented in the Village One Facilities Master Plan ("FMP") update, dated May 2003. Said master plan is incorporated herein by reference. The following descriptions summarize the facilities to be funded within CFD 2004-1.

#### **A. Arterial Roads:**

Included in the FMP are improvements to four arterial roads that will be funded by the CFD. They include Roselle Ave., from Briggsmore to the northern boundary of Village One (north of Sylvan), Floyd Ave. from Oakdale Rd. to Claus Rd., Oakdale Rd. from Briggsmore to Sylvan Ave., and Sylvan Ave. from Oakdale Rd. to Claus Rd. Also included in the CFD is partial funding for a pedestrian overcrossing on Sylvan Ave. to serve the new high school.

#### **B. Storm Drain System:**

The storm drainage system for Village One contains three detention basins:

1. West Basin: Dual-use basin that pumps water to the Central Basin.
2. Central Basin: Percolation/detention basin that pumps water to the MID Lateral #3 and may pump to Dry Creek via Claus Rd. at some time in the future.
3. East Basin: Dual-use basin that pumps water to Dry Creek via Claus Rd.

The facilities to be funded by the CFD include: basin property, trunk pipelines, force mains, pump stations, and other necessary appurtenances.

#### **C. Parks:**

Three neighborhood parks and one community park will be developed within the Village One Specific Plan area. The development of the parks will include the acquisition of land, park improvements and street frontage improvements for the Grogan Community Park, the Roselle Neighborhood Park, the Claus Neighborhood Park and the Merle Neighborhood Park.

In addition, buffer land for the community park is to be acquired, a bike trail is to be developed along MID Lateral No. 3, and a trail is to be developed along Claus Rd.

#### **D. Public Facilities:**

An area office for police is proposed within Village One. Funds are provided within the CFD for tenant improvements necessary to set up an area office.

E. Other:

Other costs associated with Village One include reimbursement to the City of Modesto for engineering of the Facilities Master Plan and planning related to the Village One Specific Plan, future annual administration costs for the CFD, and community signage for Village One.

## **EXHIBIT C**

### **DESCRIPTION OF SERVICES**

Included in this CFD is the maintenance of the Grogan Community Park, Roselle Neighborhood Park, Merle Neighborhood Park, Claus Neighborhood Park, arterial road parkway, median and roundabout landscaping, connector street parkway, median and roundabout landscaping, bike trails and storm drain facilities.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-200**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO DETERMINING THE NECESSITY TO INCUR A BONDED INDEBTEDNESS WITHIN PROPOSED CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2004-1 (VILLAGE ONE #2) AND CALLING AN ELECTION FOR THE PURPOSE OF SUBMITTING THE PROPOSITION TO THE QUALIFIED ELECTORS OF THE DISTRICT**

WHEREAS, the City Council (the “Council”) of the City of Modesto (the “City”), did, on March 2, 2004, adopt its Resolution No. 2004-127, entitled “A Resolution of the City Council of the City of Modesto of Intention to Establish City of Modesto Community Facilities District No. 2004-1 (Village One #2) and to Authorize the Levy of Special Taxes therein” (the “Resolution of Intention to Establish the District”) stating its intention to form Community Facilities District No. 2004-1 (the “District”) pursuant to Chapter 2.5 of Part 1 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the “Mello-Roos Community Facilities Act of 1982” (the “Act”);

WHEREAS, on such date this Council also adopted its Resolution No. 2004-128, entitled “A Resolution of the City Council of the City of Modesto of Intention to Incur Bonded Indebtedness in an Amount not to Exceed \$75,000,000 within Proposed City of Modesto Community Facilities District No. 2004-1 (Village One #2)” (the “Resolution of Intention to Incur Indebtedness”) stating its intention to incur bonded indebtedness within the boundaries of the District for the purpose of financing the Facilities to be financed by the District as specified in the Resolution of Intention to Establish the District;

WHEREAS, at the time and date set for the hearing (April 6, 2004) pursuant to the Resolution of Intention to Establish the District, this Council held the public hearing, as required by the Act, relative to the formation of the District, the provision of the

Facilities, as well as the Services specified in the Resolution of Intention to Establish the District, and the rate, method of apportionment, and manner of collection of the special taxes to be levied within the District;

WHEREAS, on April 6, 2004, pursuant to the Resolution of Intention to Incur Indebtedness, this Council held the public hearing as required by the Act relative to the matters material to the questions set forth in the Resolution of Intention to Incur Indebtedness;

WHEREAS, no written protests with respect to the matters material to the questions set forth in the Resolution of Intention to Incur Indebtedness were filed with the City Clerk as of the closing of the hearing thereon;

WHEREAS, subsequent to the hearings, this Council did, on April 6, 2004, adopt its Resolution No. 2004-199, entitled "A Resolution of the City Council of the City of Modesto of Formation, Establishing City of Modesto Community Facilities District No. 2004-1 (Village One #2), Authorizing the Levy of Special Taxes within the District, Preliminarily Establishing an Appropriations Limit for the District, and Calling and Election for the Purpose of Submitting the Levy of the Special Taxes and the Establishment of the Appropriations Limit to the Qualified Electors of the District" (the "Resolution of Formation"), which describes the Facilities and Services to be financed by the District;

WHEREAS, this Council did, in the Resolution of Formation, and in accordance with Sections 53325.7 and 53353.5 of the Act, determine to consolidate the election on the levy of the special taxes and the establishment of an appropriations limit for the District with the election on whether to incur a bonded indebtedness in the District;

WHEREAS, the Stanislaus County Registrar of Voters has certified there are less than 12 registered voters residing in the District; accordingly, the qualified electors in the District are the landowners; and

WHEREAS, the City Clerk, being this Council's designated election official for purposes of the election, has concurred in the date herein set forth for the election.

NOW, THEREFORE, the Council hereby finds and determines and orders as follows:

1. The foregoing recitals are true and correct.
2. This Council deems it necessary to incur bonded indebtedness.
3. The indebtedness will be incurred for the purpose of financing the construction and/or acquisition of certain public facilities (the "Facilities"), having a useful life of five years or longer, and the paying of incidental expenses thereof, as provided in the Resolution of Formation.
4. The whole of the District shall pay for the bonded indebtedness.
5. The amount of bonded indebtedness to be incurred is not to exceed \$75,000,000.
6. The maximum term of the bonds of any series thereof shall not exceed thirty-five (35) years from their date.
7. The bonds shall bear interest at rate or rates not to exceed the maximum rate permitted by law at the time the bonds are issued, payable semiannually or in such other manner as this Council shall determine, the actual rate or rates and times of payment of such interest to be determined by this Council at the time or times the bonds are issued.
8. The proposition of incurring the bonded indebtedness shall be submitted to the voters of the District and, pursuant to Section 53353.5 of the Act and the Resolution of Formation, the propositions on the levy of a special taxes, the establishment of an appropriations limit, and whether to incur the bonded indebtedness shall be combined in a single ballot measure substantially in the form attached hereto as **Exhibit A**.

9. A special consolidated election is hereby called at which the measures referenced in Section 8 shall be submitted to the qualified electors of the District. The election shall be held in accordance with and subject to the Act, all the terms of which shall, unless waived as herein provided, be applicable to the election.
10. Fewer than twelve (12) persons have been registered to vote within the territory of the District for the ninety (90) days preceding the close of the hearings on the special tax levy and the proposed bonded indebtedness. Accordingly, the vote shall be by the landowners of the District, and each such landowner shall have one vote for each acre or portion thereof that he or she owns within the District. The City Clerk shall canvass the returns and certify the results of the election to this Council.

The City Clerk has received the appropriate waivers of time limits and other requirements pertaining to the conduct of the election by the owners of all of the Land within the District (the "Landowners") and the election shall be held on the 6<sup>th</sup> day of April, 2004. The election shall be conducted by the City Clerk in the manner required by this Resolution, the Act and applicable laws.

The hour on such date when the ballots are required to be received in the office of the City Clerk is noon, Pacific Time. If all qualified electors have voted prior to such time, the election shall be closed.

11. In accordance with Section 53327(b) of the Act, analysis and arguments as required by Section 53327(a) of the Act are hereby waived subject to the unanimous consent of Landowners, as herein provided.
12. If two-thirds (2/3) of the votes cast upon the question of incurring the bonded indebtedness are cast in favor of the indebtedness, this Council may thereafter, at the time or times it deems proper, incur the indebtedness so authorized.
13. The publication of this resolution as notice of special bond election is hereby waived as the City Clerk has received the unanimous consent to such waiver from the Landowners.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-201**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO  
CANVASSING THE RESULTS OF THE APRIL 6, 2004, ELECTION HELD  
WITHIN CITY OF MODESTO COMMUNITY FACILITIES DISTRICT  
NO. 2004-1 (VILLAGE ONE #2)**

WHEREAS, this Council is conducting proceedings pertaining to the formation of City of Modesto Community Facilities District No. 2004-1 (Village One #2) (the "District"), the authorization to incur a bonded indebtedness in an amount not to exceed \$75,000,000 within the District, the establishment of an appropriations limit for the District, and the levy of a special taxes sufficient to pay all costs necessary to (i) finance certain Facilities and Services, as described in the City's Resolution No. 2004-127, adopted on March 2, 2004, and (ii) administer and pay debt service on the bonds of the District issued to finance the Facilities, including any incidental expenses related thereto as authorized by law; and

WHEREAS, the owners of all of the property in the District waived those provisions related to the timing and conduct of the election referenced in Sections 13 and 14 of this Council's Resolution No. 2004-200 and Sections 9, 10 and 11 of this Council's Resolution No. 2004-200, each adopted on April 6, 2004, and, as a result, this Council called an election within the District (the "Election") for April 6, 2004, relative to the foregoing; and

WHEREAS, on April 6, 2004, the Election was held; and

WHEREAS, the City Clerk has certified that the proposition of incurring a bonded indebtedness, levying the special taxes, and establishing an appropriations limit for the District was approved by at least two-thirds (2/3) of the votes cast at the Election;

NOW, THEREFORE, BE IT RESOLVED, ORDERED AND FOUND, by the City Council of the City of Modesto, that:

1. The Election was duly and validly conducted in conformity with all applicable laws, rules and regulations pertaining thereto. It is hereby determined that the owners of the property in the District is as set forth in the Affidavit of City Clerk as to Distribution of Official Ballots, submitted to this Council and on file with the City Clerk.

2. The ballot proposition presented to the qualified electors of the District at the Election received at least two-thirds (2/3) of the votes cast at the Election. A copy of the City Clerk's certificate of election results is attached hereto as **Exhibit A**.

3. The City Clerk is directed to enter this resolution on the minutes of this City Council, which shall constitute the official declaration of the result of such election.

4. The City Clerk is further authorized and directed to record a notice of special tax lien with the County Recorder of the County of Stanislaus, within 15 days from the date hereof, in accordance with the provisions of Section 3114.5 of the California Streets and Highways Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-202**

**THIS RESOLUTION NUMBER  
WAS NOT USED.**

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-203**

**RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 1999082041); AMENDING SECTION 8-4-9 OF THE ZONING MAP TO PREZONE APPROXIMATELY 1.854 ACRES OF PROPERTY LOCATED ON THE NORTH SIDE OF GLENN AVENUE WEST OF GUTHERIE STREET TO LOW DENSITY RESIDENTIAL ZONE, R-1 AND ANNEX SAID PROPERTY TO THE CITY OF MODESTO, THE MODESTO SEWER DISTRICT NO. 1 AND TO DETACH SAID PROPERTY FROM THE INDUSTRIAL FIRE PROTECTION DISTRICT (OWNER: MODESTO CITY SCHOOLS).**

WHEREAS, on March 4, 2003, the City Council of the City of Modesto certified the updated Final Master Environmental Impact Report ("Master EIR") (SCH No. 1999082041) for the Modesto Urban Area General Plan, and

WHEREAS, Modesto City Schools is the owner of approximately 1.854 acres of real property, located on the north side of Glenn Avenue west of Gutherie Street ("Property"), and

WHEREAS, Becky Meredith on behalf of Modesto City Schools has proposed that the zoning designation for the Property be rezoned to Low-Density Residential Zone, R-1, in the City of Modesto to allow expansion of Bret Harte Elementary School ("Project"), and

WHEREAS, the City has received a written request from Modesto City Schools to initiate annexation of the Property to the City of Modesto under the Cortese-Knox-Hertzberg Local Reorganization Act of 2000, California Government Code Section 56000, et seq, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a Master EIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may

cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the project, and

WHEREAS, the City's Community & Economic Development Department by Environmental Assessment Initial Study EA/C&ED 2003-89 ("Initial Study") reviewed the proposed amendment to the Zoning Map to R-1 and annexation to determine whether the Project is within the scope of the project covered by the Master EIR, and made the determination that the proposed Project will have no additional significant effect on the environment that was not identified in the Master EIR, and further, that no new or additional mitigation measures or alternatives are required, and that, therefore, the proposed Project is within the scope of the project covered by the Master EIR, and

WHEREAS, in accordance with CEQA guidelines, beginning on January 30, 2004, the City caused to be published a 20-day notice of the City's intent to make a finding that the proposed Project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on February 24, 2004, at 5:30 p.m., and continued to April 6, 2004, at 5:30 p.m. in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed amendment to the Zoning Map to prezone the Project area to R-1 and annex the subject Property to the City of Modesto and Modesto Sewer District No. 1 and detach it from the Industrial Fire Protection District, a copy of which is attached hereto as **Exhibit "A"**, and

incorporated herein by reference. Based on the substantial evidence included in said Initial Study, Council hereby makes the following findings:

1. That the proposed Project is contemplated and described in the Master EIR (SCH No. 1999082041) as being within the scope of the Master EIR.
2. That the Project will have no new significant effects on the environment not identified or examined in the Master EIR, and no new or additional mitigation measures are required.
3. That, as per Section 21157.1 of the Public Resources Code, no new environmental document or findings are required by the California Environmental Quality Act (CEQA).
4. That there are no specific features which are unique to the proposed Project that require project specific mitigation measures. Accordingly, the certified mitigation measures identified in the Master EIR will be sufficient for this Project.
5. That all feasible mitigation measures set forth in the Master EIR which are appropriate to the Project shall be incorporated in the Project.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

NOES: Councilmembers: None

ABSENT: Councilmembers: Hawn

ATTEST: Jean Zahr  
JEAN ZAHR, City Clerk

# City of Modesto

## Master EIR Initial Study Checklist

### I. PURPOSE

CEQA allows for the limited environmental review of subsequent projects under the City's Master EIR. This Initial Study Checklist is used in determining whether the **Bret Harte Elementary School Expansion and Modernization Project** is "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 1999082041) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformity.

A subsequent project is "within the scope" of the Master EIR when:

1. It will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and
2. No new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect in the Master EIR. (Public Resources Code Section 21158(d))

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (State CEQA Guidelines Section 15384)

City staff consulted with appropriate Responsible Agencies and City Departments regarding potential environmental impacts associated with this project. Any significant comments and conditions are incorporated into this Initial Study. The City's MEIR (SCH# 1999082041) was also consulted which lists both General Plan policies and mitigation measures for each area of environmental study.

### II. PROJECT DESCRIPTION

- A. Title: Bret Harte Elementary School Expansion and Modernization Project
- B. Address or Location: 909 Bret Harte Place (North side of Glenn Avenue, west of Guthrie Street) Modesto, California, 95351.
- C. Applicant: Modesto City Schools  
426 Locust Street  
Modesto, California, 95351-2699
- D. Application Contact Person: Becky Meredith, Director of Planning and Research

City Project Manager: Miguel A. Galvez, Associate Planner  
Department: Community & Economic Development Department  
Phone Number: (209) 577-5276  
E-mail address: [mgalvez@modestogov.com](mailto:mgalvez@modestogov.com)

- E. Current General Plan Designation(s): R: Residential
- F. Current Zoning Classification(s): Not Applicable, (presently unincorporated).
- G. Surrounding Land Uses: North: Existing Bret Harte Elementary School  
South, East & West: Developed single-family residences  
in the unincorporated area of Stanislaus County.
- H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR (Attach additional maps/support materials as needed for complete record):

Modesto City Schools proposes to expand and modernize Bret Harte Elementary School located at 909 Bret Harte Place, Modesto, California, refer to **Exhibit A**. This School presently serves over 1,000 students in grades, Kindergarten through Sixth grade, on a seven-acre school site. The school presently qualifies as a "Critically Overcrowded School.

The Bret Harte Elementary School expansion and modernization project involves adding to and reconfiguring the onsite parking and circulation area, adding and renovating structures on the school campus, refer to **Exhibit B**. To facilitate this expansion, the School District proposes to annex five adjoining school acquired properties, along with adjacent street and alley rights-of-way located south of the school site to the City of Modesto, refer to **Exhibit C**. The School District also proposes to prezone this subject area to P-R-1 (Low Density Residential), refer to **Exhibit D**. Two additional applications are also proposed and will be considered subsequently by the City of Modesto. One application proposes to abandon Bret Harte Place street right-of-way, a portion of Frazier Street right-of-way, and adjacent alley right-of way, refer to **Exhibit E**. The other subsequent application is a Tentative Parcel Map proposing to merge the School acquired lots along with the proposed abandoned rights-of-way, refer to **Exhibit F**. Exhibits A through F are attached at the end of this document.

- I. Other Public Agencies Whose Approval is Required:

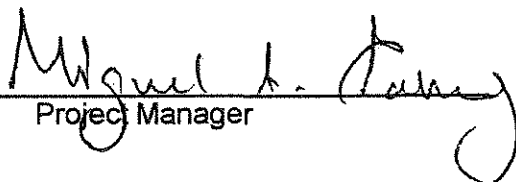

State of California Division of State Architect  
Local Agency Formation Commission  
San Joaquin Valley Air Pollution Control District

### **III. FINDINGS/DETERMINATION (SELECT ONE ON THE BASIS OF THE ANALYSIS IN SECTION IV)**

- 1. X **Within the Scope** - The project is within the scope of the Master EIR and no new environmental document or Public Resources Code Section 21081 findings are required. The following items are found to be true:

A. The type of project is described in Chapter II of the Master EIR.

- B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the project or otherwise made conditions of approval of the project.
  - C. An Initial Study was prepared by the City of Modesto that analyzed whether the proposed subsequent project may cause any significant effect on the environment that was not examined in the MEIR and it has been determined that the project was described in the MEIR as being within the scope of the MEIR.
  - D. Based on the Initial Study, the City of Modesto finds and determines:
    - a) The proposed subsequent project will have no additional significant effect as defined in CEQA Section 21158 that was not identified in the MEIR.
    - b) No new or additional mitigation measures or alternatives are required.
  - E. The criteria for currency of the Master EIR were reviewed (section 5 below) and it was determined that the Master EIR is current for all areas of the Initial Study.
2.      **Mitigated Negative Declaration Required** - On the basis of the above determinations, the project is not within the scope of the Master EIR. A mitigated negative declaration will be prepared for the project. The following items are found to be true:
- A. The type of project is described in Chapter II of the Master EIR.
  - B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the project or otherwise made conditions of approval of the project.
  - C. The project will have one or more potential new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures are being required of the project that will reduce the effects to a less-than-significant level.
3.      **Focused EIR Required**- On the basis of the above determinations, the project is not within the scope of the Master EIR. A Focused EIR will be prepared for the project. The following items are found to be true:
- A. The type of project is described in Chapter II of the Master EIR.
  - B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the project or otherwise made conditions of approval of the project.
  - C. The project will have one or more new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures or alternatives are required as a result.

**4. Within the Scope Analysis of this Document:**

The Master EIR permits projects to be found within the scope of the MEIR if certain criteria are met. Basically, if the following statements are found to be true for all 20 sections of this Initial Study, then the project was covered by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

- |   | YES | NO                       |
|---|-----|--------------------------|
| (1) The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.  | X   | <input type="checkbox"/> |
| (2) City policies which reduce, avoid or mitigate environmental effects, will continue to be in effect and therefore would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures attached to the Initial Study template. | X   | <input type="checkbox"/> |
| (3) Federal, State, Regional and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).  | X   | <input type="checkbox"/> |
| (4) No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources.  | X   | <input type="checkbox"/> |
| (5) The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.  | X   | <input type="checkbox"/> |
| (6) Development within the project will comply with all mitigation measures identified in the General Plan Master EIR.  | X   | <input type="checkbox"/> |

Discussion:

- (1) The City of Modesto is the lead agency for processing the requested land use entitlements (i.e.: rezoning, annexation, parcel map and abandonment applications). Modesto City Schools is the Lead Agency for the expansion and modernization of the Bret Harte Elementary school site.
- (2) The subject project proposes improvements to an existing developed site located within the Baseline Developed Area. The subject area includes five parcels, which each contained a single-family home. All appropriate City General Plan development policies will be continue to be in effect and appropriate mitigation measures will be applied.
- (3) The Master EIR was last updated in March 2003. Since that update, there have been no changes to Federal, State, Regional and County regulations that have resulted in less restrictive regulations.
- (4) The subject site involves five residential lots. After the application proposals were referred to Trustee Agencies, no significant resources are identified in this proposal
- (5) The subject area is located within the Modesto Urban Area General Plan in the Baseline Developed Area, refer to **Exhibit G**, all appropriate mitigation measures as listed in the Master EIR are incorporated into the project.

- (6) A Global list of General Plan Policies and Mitigation Measures was reviewed (which is attached to the initial study) and appropriate Mitigation Measures will be required as part of the project's approval.

### 5. Currency of the Master EIR Document

The MEIR should be reviewed on a regular basis to determine its currency, and whether additional analysis/mitigation should be incorporated into the MEIR via a Supplemental or Subsequent EIR (CEQA Section 21157.6). Staff has reviewed sections 1 through 20 of this document in light of the criteria listed below to determine whether the MEIR is current. The analysis contained within the Master EIR is current as long as the following circumstances have not changed. Any no response must be discussed.

- |  | YES | NO                       |
|--|-----|--------------------------|
| (1) Certification of the General Plan Master EIR occurred less than five years prior to the filing of the application for this subsequent project.   | X   | <input type="checkbox"/> |
| (2) This project was described in the Master EIR and its approval will not affect the adequacy of the Master EIR for any subsequent project because the City can make the following findings (3, 4, 5, below). | X   | <input type="checkbox"/> |
| (3) No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified.   | X   | <input type="checkbox"/> |
| (4) No new information, which was not known and could not have been known at the time the Master EIR was certified as complete, has become available.  | X   | <input type="checkbox"/> |
| (5) Policies remain in place that require site-specific mitigation, and avoidance or other mitigation of impacts as a prerequisite to future development.  | X   | <input type="checkbox"/> |

Discussion:

No discussion is necessary.

### IV. ENVIRONMENTAL ANALYSIS

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any project-specific significant effect on the environment that was not examined in the Final Master EIR (MEIR) for the General Plan and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the project is "within the scope" of the Master EIR.

Pursuant to Public Resources Code Section 21157.1, no new environmental document or findings are necessary for projects that are determined to be within the scope of the MEIR. Adoption of a notice of conformity after completion of the Initial Study fulfills the City's obligation in that situation.

All environmental effects cited reflect year 2025 build out of the Urban Area General Plan as identified in the MEIR.

The Master EIR for the General Plan organizes its analysis of environmental impacts into eighteen subject areas. The following analysis is based on the impact analyses contained in Chapter V of the Master EIR. For ease of cross-reference, the sections are numbered in the same order as the analyses in Chapter V.

In addition to the 18 Master EIR subject areas, the Initial Study checklist addresses the issues of land use/planning and aesthetics. The reason for including these additional issues is to ensure that consideration is being given to the full range of subjects of importance contained in Appendix G of the CEQA Guidelines. The format for the land use/planning and aesthetics sections differs from that of the other 18 subject areas since these two subjects were not addressed as distinct subjects in the Master EIR.

## **1. TRAFFIC AND CIRCULATION**

### **a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant and unavoidable traffic and circulation impacts:

Effect: Increased traffic will result in certain roadway segments operating at LOS D or worse.

Effect: The Substantial increase in traffic relative to the existing load and capacity of the street system will cause, violation, either individually or cumulatively, of an LOS standard established by the County CMP for designated roads and highways.

Effect: Creation of need for Capacity-enhancing modifications to existing facilities.

Effect: Increase in energy consumption associated with the operation of highway projects, rail improvements, and aviation facilities.

Effect: Severe contrast with existing neighborhood or area character caused by highway and transit projects.

### **b. Master EIR and/or New Mitigation Measures Applied to the Project**

Traffic and Circulation mitigation measures that are pertinent to this project are found on MEIR pages V-1-15 through V-1-21. All feasible measures appropriate to the project – including any new measures - will be incorporated into or made conditions of approval of this project and will be listed in Section IV, Mitigation Measures Applied to Project.

#### Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

### **c. Project-Specific Effects**

Section V-1.B of the MEIR provides analysis of Traffic and Circulation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project would contribute more than an additional 100 average daily trips (ADT) to adjoining roads and generates more trips than assumed for their general plan land use category and zoning in the Master EIR. City Engineering & Transportation Staff will review the project to determine whether the project contributes more than 100 ADT thresholds. Such Projects are presumed to generate more trips than assumed by the Master EIR. | <input type="checkbox"/> | X  |

Where a project exceeds an additional 100 ADT contribution, a site access study will be conducted to determine to what extent the project would exceed the year 2025 level of service (LOS) expected for the adjoining roadways under the Master EIR. The site access study will recommend new, project-specific mitigation measures. Where the project also exceeds the Master EIR's traffic generation assumption, as determined by Engineering & Transportation staff, a comprehensive traffic study will be required that will include off-site traffic impact analysis.

- |  | YES                      | NO |
|--|--------------------------|----|
| (2) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g. farm equipment). | <input type="checkbox"/> | X  |
| (3) Result in inadequate emergency access.   | <input type="checkbox"/> | X  |
| (4) Result in inadequate parking capacity.   | <input type="checkbox"/> | X  |

Discussion:

- (1) The project was referred to the Engineering and Transportation Department and the Transportation Division staff did not cite the need for a site access study.
- (2) The project was referred to the Engineering and Transportation Department and the Transportation Division commented that City's Standards Specifications require that the Glenn Avenue be dedicated and improved to full City Street Standards.

The proposed alley abandonment may affect vehicular access to adjacent residences and the Turlock Irrigation District lateral located west of the school site. The City recommends that a separate alley right-of-way be maintained immediately west and adjacent to the western access driveway. A vehicular access easement may serve to meet the access needs of the users of the alley.

All proposed fence and wall heights shall adhere to the City's Clear Vision Triangle requirements.

- (3) The project was referred to the City of Modesto Police and Fire Department as well as to the City of Modesto Engineering and Transportation Department. The City Fire Marshal cited the following California Fire Code requirements:

- a) Fire Hydrants shall be spaced at 450-foot intervals along fire department access roads capable of providing 2,250 gallons per minute.
  - b) Fire department access roads shall extend within 150 feet of all portions of buildings. For buildings provided with an automatic fire sprinkler system this distance may be increased to 200 feet.
  - c) Fire department access roads shall be provided with an inside turning radius of 25 feet and outside 45 feet. Dead end fire department access roads that exceed 150 feet in length shall be provided with an approved turnaround.
- (4) The project will result in additional parking and better on-site circulation for the school site. The project also proposes street improvements along the adjoining streets improving the safety for both pedestrians and vehicular traffic. The proposed relocated alley right-of-way will need to be designed to provide an adequate turning radius for utility service vehicles.

## 2. AIR QUALITY

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to air quality:

Effect: Projected traffic levels will result in increased ambient carbon monoxide (CO) levels in the project area. This is a significant and unavoidable impact.

Effect: Projected traffic levels will result in increased ROG and NOX levels in the project area. This is a significant and unavoidable impact.

These are also cumulative impacts on air quality.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

Air Quality mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-2-11 through V-2-18 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section IV, Mitigation Measures Applied to Project:

#### Discussion:

Mitigation measure Air-1 from the MEIR is required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards. In addition, the San Joaquin Valley Air Pollution Control District commented: "Because the project site contains a building needing renovation/demolition, the applicant will need to be in compliance with the National Emission Standards for Hazardous Air Pollutants (NESHAPS). Specifically, the primary air pollutant of concern is the asbestos. To ascertain whether this project is subject to the NESHAPS, the project applicant is advised to review the Asbestos – Compliance Assistance Bulletin, dated December 1994.

### c. Project-Specific Effects

Section V-2.B of the MEIR provides analysis of Air Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO                                  |
|--|--------------------------|-------------------------------------|
| (1) The project exceeds the emissions thresholds established for CO and NOx by the San Joaquin Valley Unified Air Pollution Control District's (SJVUAPCD) adopted CEQA Guidelines. | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| (2) The project does not incorporate the best management practices for PM10 reduction established by the SJVUAPCD.   | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| (3) The project does not comply with the air quality policies of the Modesto Urban Area General Plan.  | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| (4) The project would expose sensitive receptors to substantial pollutant concentrations.  | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| (5) The project would create objectionable odors affecting a substantial number of people.   | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

#### Discussion:

- (1) The project was referred to the San Joaquin Valley Air Pollution Control District and it commented that the project appears to have a less-than significant impact on the ambient air quality. It commented that the Project will need to be in compliance with the National Emission Standards for Hazardous Air Pollutants (NESHAPS).
- (2-3) See discussion under 1 above.
- (4) The project consists of expanding an existing elementary school and renovating some of the existing structures. The entitlement applications of rezoning, annexation, right-of-way abandonment, and a parcel map do not change or affect the quality of air in the area.
- (5) The project does not involve manufacturing or food processing – it is a minor expansion and improvement of an existing school site.

### 3. NOISE

#### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant and unavoidable environmental impacts relative to noise:

Effect: Traffic noise levels for future conditions in the plan area have the potential to result in exceedances of the City's Noise Significance Standards (see Table 3-3 MEIR).

Effect: Noise level projections based on the traffic levels anticipated in the General Plan indicate that noise will exceed the City's General Plan and noise ordinance standards.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-10 through V-3-15 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project, and any new measures are listed in Section IV, Mitigation Applied to Project:

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-3.B of the MEIR provides analysis of noise impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance.   | <input type="checkbox"/> | X  |
| (2) The project will exceed the noise policies of or otherwise be inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (3) The project will result in a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?             | <input type="checkbox"/> | X  |
| (4) The project will result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project. | <input type="checkbox"/> | X  |

Discussion:

- (1) The project involves an existing school site that operates between 7:00 am and 5:00 pm, within Modesto Noise Ordinance time limits. The project does not change the hours of operation.
- (2) School operations generate mild levels of noise during normal business hours from children playing on the field s or in the playground. The existing school will not generate

higher levels of noise that are presently generated at the school site during regular hours of operation.

- (3) See discussion above.
- (4) To reduce temporary impacts on noise during construction, construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields.

#### 4. AGRICULTURAL LANDS

##### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to agricultural lands:

Effect: Development within the urbanized Baseline Developed Area and Redevelopment Area will have a less-than-significant impact on agricultural lands.

Effect: Conversion of agricultural land will occur as available developable land is occupied within the City. This is a significant and unavoidable impact.

Effect: Growth within Modesto's planning area would contribute considerably to the loss of agricultural land within Stanislaus County. This is a significant and unavoidable cumulative impact.

##### b. Master EIR and/or New Mitigation Measures Pertinent to the Project

Agricultural Land mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-4-7 and V-4-8 MEIR. All feasible measures appropriate to the project and any new mitigation to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project:

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

##### c. Project-Specific Effects

Section V-4.B of the MEIR provides analysis of Agricultural Lands impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

YES NO

- (1) The project is inconsistent with the Modesto Urban Area General Plan.  X
- (2) The project will directly result in the development of land outside the March 2003 planning area boundaries.  X
- (3) The project will Conflict with existing zoning for agricultural use, or a Williamson Act contract.  X
- (4) The project will Involve other changes in the existing environment, which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use.  X

Discussion:

- (1) The Modesto Urban Area General Plan designates the site as R, Residential. Schools are permitted in this land use designation, thus the project is consistent with the General Plan.
- (2) The project involves an existing school in an already that is already developed. Agricultural uses have not been in practice in this area for over 30 years.
- (3) The existing school site is located in the R-1 zoning district. The expansion component is proposed to be annexed and rezoned as R-1. As the area has been developed for some time, there are no Williamson Act contracts in the neighborhood.
- (4) See discussion above.

**5. WATER SUPPLY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to water supply:

Effect: Urban Area General Plan policies are established to limit groundwater extractions to the safe yield of the aquifer and thereby avoid aquifer over drafting. In addition, the UWMP requires that new urban development would proceed in conjunction with the availability of water supplies and distribution facilities. It is assumed that increased entitlement of surface water supplies such as a water transfer from another water purveyor would undergo independent environmental review pursuant to CEQA. This is a less-than-significant impact.

Effect: Development to the future projected City population would require expansion of the MRWTP to its full 60 mgd capacity, development of additional groundwater wells, and construction of additional water distribution and treatment facilities. Construction of some of the required facilities would most likely require site-specific environmental impact assessments to be conducted under CEQA. Consequently, the potential environmental impacts of the Urban Area General Plan are considered less-than-significant.

Effect: During drought years, despite available options, significant water shortages are forecast for the San Joaquin River basin by the year 2020. Modesto would make a cumulatively

considerable contribution to the cumulative impact on water supply under drought conditions. This is a significant and unavoidable cumulative impact.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Water Supply mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-5-7 through V-5-8 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-5.B of the MEIR provides analysis of Water Supply impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) Sufficient water supplies are not available to serve the project from existing entitlements and resources, new or expanded entitlements are needed. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2) The School expansion consist of additional parking, reconfigured on-site traffic circulation, additional school classrooms and auxiliary buildings, and renovation of some of the existing buildings. The expansion will take place on five parcels that were formally developed with single-family homes. The project was referred to the City's Capital Planning staff and adequate water supply and delivery system is present to serve the project.

**6. SANITARY SEWER SERVICES**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to sanitary sewer services:

Effect: The City has already begun to implement the provisions of the Wastewater Master Plan (WMP) to meet future demand for sanitary sewer services. As City wastewater treatment facilities are expanded to meet the needs of the Baseline Developed, Redevelopment, and Planned Urbanizing Areas, the City will obtain the necessary wastewater discharge and NPDES permits from the Central Valley RWQCB, as required under Urban Area General Plan Policy V-D.2(a). Implementing the WMP, requirement of Best Management Practices for post-construction activities, as well as the Urban Area General Plan policy cited above, will avoid violation of wastewater discharge requirements. As a result, this impact would be less-than-significant.

Effect: The City has adopted the WMP specifically to ensure that sewer capacity will match the level of growth projected by the Urban Area General Plan. Development within the Baseline Developed and the Planned Urbanizing Areas that is consistent with the Urban Area General Plan will not have a significant effect on capacity. Urban Area General Plan Policy III-D.1(d) will ensure that development in the Planned Urbanizing Area will fund the necessary improvements. This is a less-than-significant impact.

Note on the WMP Master EIR. The WMP Master EIR identified a number of impacts and mitigation measures. Its mitigation measures have been adopted by the City and are being implemented by the City under the WMP. Those impacts are being independently addressed under that Master EIR and do not need to be considered under this Initial Study. Refer to the WMP Master EIR for details.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Sewer Service mitigation measure(s) pertinent to the project being analyzed in this Initial Study, are found on pages V-6-4 through V-6-7 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-6.B of the MEIR provides analysis of Sanitary Sewer Service impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project will result in a determination by the wastewater treatment provider which serves or may serve the project that it has adequate | <input type="checkbox"/> | X  |

capacity to serve the project's projected demand in addition to the provider's existing commitments.

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2) The School expansion consist of additional parking, reconfigured on-site traffic circulation, additional school classrooms and auxiliary buildings, and renovation of some of the existing buildings. The expansion will take place on five parcels that were formally developed with single-family homes. The project was referred to the City's Capital Planning staff and adequate wastewater treatment and delivery system is present to serve the project.

## **7. SENSITIVE WILDLIFE AND PLANT HABITAT**

### **a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to sensitive wildlife and plant habitat:

Effect: Although many sensitive species live in riparian habitats within the planning area, the policies of the plan will ensure that impacts of the Urban Area General Plan will be less-than-significant.

Effect: Requiring higher residential density than the suburban norm and a compact pattern of growth within the designated planning area to the year 2025 will minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

### **b. Master EIR and/or New Mitigation Measures Applied to the Project**

Wildlife and Plant Habitat mitigation measure pertinent to the project being analyzed in this Initial Study are found on pages V-7-19 through V-7-21. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

### **c. Project-Specific Effects**

Section V-7.B of the MEIR provides analysis of Wildlife and Plant Habitat impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) Consultation with the California Department of Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on special status species. | <input type="checkbox"/> | X  |
| (3) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.  | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2) The School expansion consist of additional parking, reconfigured on-site traffic circulation, additional school classrooms and auxiliary buildings, and renovation of some of the existing buildings. The expansion will take place on five parcels that were formally developed with single-family homes. As the subject property is located in an already developed area and not in a potential biological resource study area, as a result, the proposal was not referred to the U.S. Department of Fish and Game.
- (3) See discussion above. In addition, there are no mature trees in the subject area.

## 8. ARCHAEOLOGICAL OR HISTORICAL SITES

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to archaeological or historical sites:

Effect: If a site-specific project involves the modification or demolition of a qualifying structure more than 50 years in age, then the impact will be significant.

Effect: Areas of high probability for archaeological resources are located within the riparian corridors along the Tuolumne River, Dry Creek, and the Stanislaus River. There, the potential impact comes from earthmoving activities that could result in disturbance of resources or human remains. There is a low probability that archaeological resources will be uncovered in areas outside of the riparian corridors.

Effect: The City Zoning Ordinance requires that when substantial changes to a structure are proposed, the development will be required to comply with other Zoning Ordinance provisions such as parking or landscaping requirements. This could result in modifications to the structure,

which substantially reduce its historical significance. This would be a less-than-significant impact with the imposition of new mitigation measure Cultural-1.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Archaeological or Historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on page V-8-13 and V-8-14 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project:

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-8.B of the MEIR provides analysis of Archaeological/Historical impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources, or that is listed by the City of Modesto as a Designated Landmark Preservation Site. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2) The project involved the acquisition and demolition of five residentially developed parcels located in the County. None of these properties were designated as historical resources or as a Landmark Preservation Site in the Modesto Urban Area General Plan.

**9. STORM DRAINAGE**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to storm drainage:

Effect: The potential impacts on storm water drainage that could occur from the project were qualitatively evaluated with respect to several factors including: extent of the projected increase in urban surface area compared to undeveloped ground; magnitude of projected changes to hydrologic and physical site characteristics of the study area compared to existing conditions; regulatory criteria and guidelines; and professional judgment. Because the Urban Area General Plan includes policies that require new development in all three sections of the planning area to install approved drainage facilities, the potential impacts of the Urban Area General Plan on storm water drainage are considered less-than-significant.

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious areas and associated urban storm water drainage. Cumulative hydrologic impacts of storm water flows from Modesto urban areas and other areas of the County could occur due to the fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel. Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

#### **b. Master EIR and/or New Mitigation Measures Applied to the Project**

Storm Drainage mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-9-4 through V-9-8. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

#### Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

#### **c. Project-Specific Effects**

Section V-9.B of the MEIR provides analysis of Storm Drainage impacts of development of the General Plan; the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project would substantially increase the rate or amount of surface | <input type="checkbox"/> | X  |

runoff in a manner that would result in flooding on- or offsite.

- (3) Create or contribute runoff water that would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff.  X

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2) The project includes the construction of an additional parking area for the school site. The project will be required to control storm drainage in accordance with the City's Guidance Manual for New Development Stormwater Quality Control Measures.
- (3) The neighborhood was developed to County standards and no storm drainage was installed at the time the area was developed. The project will be developed to City standards with the full street improvements along project's frontage along the north half of Glenn Avenue.

## 10. FLOODING AND WATER QUALITY

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to flooding and water quality:

Effect: Increased runoff can accelerate soil erosion, stream channel scouring, and sedimentation of channels, and also increase pollutant transport to waterways. The potential impacts of the project on flooding are considered less-than-significant because the Urban Area General Plan Update includes policies to restrict development in the floodplain and therefore would avoid exposing persons and property to flood hazards. In addition, new development under the Urban Area General Plan is required to install storm water drainage facilities that restrict the amount of post-development runoff from exceeding pre-development conditions.

Effect: The potential impacts of the project on surface-water quality are considered less-than-significant because the City policies and capital improvement projects for storm water drainage facilities would minimize discharges of urban pollutants to natural waterways. The City drainage program policies require new development to prepare drainage plans and implement urban runoff control measures; larger Specific Plan developments must have storm drainage systems designed to control pollutant runoff. The City's implementation policies for the municipal NPDES storm water permit require new development to implement an appropriate selection of permanent pollution control measures. Permanent erosion control measures such as seeding and planting vegetation for new cut-and-fill slopes, directing runoff through vegetation, or otherwise reducing the offsite discharge of particulates and sediment are the most effective method of controlling offsite discharges of urban pollutants.

Effect: The City's future development will contribute to cumulative water quality effects. EPA regulations for NPDES storm water permits and new proposed regulatory additions to the rules have become much more comprehensive in recent years and are being implemented to reduce pollutant runoff from both large- and small-scale activities. Implementation of NPDES-permitting programs throughout the county will reduce potential water-quality impacts to a less-than-significant level.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Flooding and Water Quality mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-10-7 through V-10-10 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project:

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-10.B of the MEIR provides analysis of Flooding and Water Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act.   | <input type="checkbox"/> | X  |
| (3) The project does not comply with Modesto's Guidance Manual for New Development Storm water Quality Control Measures.   | <input type="checkbox"/> | X  |
| (4) The project would create or contribute runoff water, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.

- (2) The construction component of this project is subject to the review and approval of the State Architects Office. The reviewing agency will require adherence to any Clean Water Act requirements, as it deems appropriate.
- (3) The project includes the construction of an additional parking area for the school site. The project will be required to control storm drainage in accordance with the City's Guidance Manual for New Development Stormwater Quality Control Measures.
- (4) The neighborhood was developed to County standards and no storm drainage was installed at the time the area was developed. The project will be developed to City standards with the full street improvements along project's frontage along the north half of Glenn Avenue.

## **11. PARKS AND OPEN SPACE**

### **a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to parks and open space:

Effect: Within the Baseline Developed and Redevelopment Areas, the Urban Area General Plan does not propose any elimination of existing park and/or open space land. Impacts on parks and open space will be less-than-significant.

Effect: The projected population of the Planned Urbanizing Area is 148,600, requiring 149 acres of neighborhood parks and 298 acres of community parks. The required minimum acreages can be met through the application of existing policies and regulations, including Government Code Section 66474, which require developers to pay Parks Capital Facilities Fees to fund the acquisition of appropriate parkland acreage. This impact is less-than-significant.

### **b. Master EIR and/or New Mitigation Measures Applied to the Project**

Parks and Open Space Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-11-4 through V-11-19 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project:

#### Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

### **c. Project-Specific Effects**

Section V-11.B of the MEIR provides analysis of Parks and Recreation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

YES NO

- (1) The project is inconsistent with the Modesto Urban Area General Plan.  YES  NO

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.

## 12. SCHOOLS

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to schools:

Effect: The estimated increase in population over 1994/1995 would generate an additional 29,200 elementary school students, 7,330 middle school students, and 14,640 high school students above those enrollments. Assuming that existing facilities cannot sufficiently accommodate this increase and that all of the new students would require new school facilities, build out of the General Plan would result in the need for approximately 37 elementary schools, 8 middle schools, and 7 high schools beyond 1994/1995 levels. This would result in a significant impact on schools in that it would exceed current capacity. By statute, this impact is considered to be mitigated below a level of significance by payment of school impact fees and exercise of any or all of the financing options set out in Government Code Section 65997.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. As long as all anticipated subsequent projects apply these policies, no new mitigation is necessary. Further, payment of school impact fees and compliance with SB 50 is statutorily deemed to be full mitigation of school impacts (Government Code Section 65995). The proposed additional school policy will address the situation that would arise should AB 50 be repealed. It will authorize impact fees or other methods to finance additional school facilities.

The following schools mitigation measure(s) are pertinent to the project being analyzed in this Initial Study. See pages V-12-4 through V-12-7 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section IV, Mitigation Applied to Project:

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-12.B of the MEIR provides analysis of Schools impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) The project does not comply with SB 50/Proposition 1A funding provisions, or succeeding measures which provide that compliance results in less-than-significant impacts on schools. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2) The project will result in accommodating the students in this already critically overcrowded school.

**13. POLICE SERVICES**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to police services:

Effect: The 1995 Master EIR identified two impacts on the demand for police services; however, it concluded that no significant impact, based on the mitigation measures identified in the 1995 Master EIR, would occur. Those mitigation measures are now policies of the Urban Area General Plan. The impact is less-than-significant.

Effect: Within the Planned Urbanizing Area, complying with the Urban Area General Plan policies, particularly the policy that requires a long-range financing strategy for each Comprehensive Plan Area, will allow the City to provide the resources necessary to extend service to the newly growing Planned Urbanizing areas. These policies reduce the impact to a less-than-significant level.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Police Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-13-3 and V-13-4 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-13.B of the MEIR provides analysis of police services impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project would result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2) The project involves minor expansion of an existing school that is already served with adequate police services. The proposal was referred to the Modesto Police Department which did not comment on the need for additional facilities.

**14. FIRE SERVICES**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to fire services:

Effect: The Baseline Developed Area and Redevelopment Area are already developed. Impacts on fire services of development in these areas will be less-than-significant.

Effect: In the Planned Urbanizing Area, the Urban Area General Plan would result in the need for additional fire protection services due to increases in the number of employees, permanent population, and associated improvements. City policy requires that fire protection be in place concurrent with construction in the Planned Urbanizing Area. This policy will be implemented with the adoption of future Comprehensive Plans in the Planned Urbanizing Area. This impact would be less-than-significant.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Fire Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-14-3 through V-14-5 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-14.B of the MEIR provides analysis of fire services impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project would result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives.	<input type="checkbox"/>	X

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2) The project involves minor expansion of an existing school that is already served with adequate fire protection services. The project will be required to meet all City Fire safety requirements.

**15. SOLID WASTE**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to solid waste:

Effect: Since the project would exceed available landfill capacity, it is identified as a significant impact. The Fink Road Landfill may be closed by the time the City reaches build out, unless an expansion is approved by the County and the Integrated Waste Management Board. As the waste stream generated increases with population, additional landfills and methods for diversion would have to be utilized. The project will also generate the need for additional collection and transfer facilities. This impact is significant and unavoidable. The impact would be less-than-significant at such time as the Fink Road Landfill expansion is approved.

Effect: The project makes a considerable contribution to the cumulative impact on landfill capacity of development in Stanislaus County. This impact is significant and unavoidable.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Solid Waste Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study, are found on pages V-15-5 and V-15-6 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project:

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-15.B of the MEIR provides analysis of solid waste impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) The County is unable to expand its solid waste disposal capacity and the project would result in waste stream levels that exceed disposal capacity. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2) This project was referred to the Solid Waste Division of the City's Engineering and Transportation Department and they had no comments regarding this project's impact on the solid waste impacts.

## 16. HAZARDOUS MATERIALS

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to hazardous materials:

Effect: The impacts of the project relative to hazardous materials are less-than-significant, based on the existing regulatory framework. New development will be required to comply with regulations monitoring and controlling the handling and use of hazardous and toxic materials.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under federal, state and county policies and regulations, and the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Hazardous Materials Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-16-9 through V-16-12 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

#### Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

### c. Project-Specific Effects

Section V-16.B of the MEIR provides analysis of hazardous materials impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project does not comply with all applicable federal, state, and county standards and regulations relative to the handling, storage, disposal, and transport of hazardous or toxic materials or wastes. | <input type="checkbox"/> | X  |
| (3) The project contains a contaminated site not identified as of March 2003.  | <input type="checkbox"/> | X  |
| (4) The project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.                             | <input type="checkbox"/> | X  |
| (5) The project would be located on a site which is included on a list of  | <input type="checkbox"/> | X  |

hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment.

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2-5) The City's Final Master Environmental Impact Report lists hazardous materials sites and this project is not near any those sites.

## 17. LANDSLIDES AND SEISMIC ACTIVITY

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to landslides and seismic activity:

Effect: There are areas of known sand and gravel resources within the Baseline Developed Area and Redevelopment Area. Future development will be subject to SMARA requirements, therefore, the project impact will be less-than-significant.

Effect: There are areas of known sand and gravel resources within the Planned Urbanizing Area. Future development will be subject to SMARA requirements, therefore, the project impact will be less-than-significant.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Landslide and Seismic Activity Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-17-6 and V-17-7 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

### c. Project-Specific Effects

Section V-17.B of the MEIR provides analysis of landslides and seismic impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) The project would be located on soil that is unstable, or that would become unstable as a result of the project, and potentially result in on or off-site landslide, lateral spreading, subsidence, liquefaction or collapse. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2) The project involves property that was previously built-upon with single-family residences and road improvements. According to the MEIR's physical description of the General Plan's study area, the site is not located in area subject to landslide, lateral spreading, subsidence, liquefaction or collapse.

**18. ENERGY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to energy:

Effect: The Baseline Developed Area and Redevelopment Area are already developed. New development within the Redevelopment Area will comply with Title 24 standards as well as City Urban Area General Plan policies. Impacts on energy by development in these areas (i.e., changes in levels of use above the current baseline) will be less-than-significant.

Effect: Build out under the Urban Area General Plan will utilize an estimated 1,400 million cubic feet per month of natural gas, 1,300 million kilowatt hours (kwh) of electricity per year and 650,000 gallons of gasoline per day. PG&E has indicated that they have at the current time sufficient supplies of natural gas to serve the increased natural gas demands of the project. At present, gasoline supplies are apparently sufficient to serve the gasoline demands of the project. Title 24 of the California Code of Regulation, which ensures that the project will not exceed local, state, and federal energy standards. The impact is less-than-significant.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

The following energy mitigation measure(s) are pertinent to the project being analyzed in this Initial Study. See page V-18-3 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section IV, Mitigation Applied to Project:

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards

**c. Project-Specific Effects**

Section V-18.B of the MEIR provides analysis of energy impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |     |   |                          |    |
|-----|---|--------------------------|----|
|     |   | YES                      | NO |
| (1) | The project is inconsistent with the Modesto Urban Area General Plan. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.

The proposed school parking lot should contain shade trees as required in the Modesto Municipal Code. The City suggests that applicant provide for nine shade trees in the parking areas, six in the parking lot fronting Glenn street, and three in the parking area along the east side of the project site.

**19. PLANNING AND LAND USE**

The Master EIR was certified for the Modesto Urban Area General Plan. The significant effects described in the 18 subject areas contained in the Master EIR are based on the planning policies and diagrams adopted as part of the General Plan. Planning and land use were not among the 18 subject areas analyzed in the Master EIR because they essentially defined the project being evaluated in the EIR.

**a. Project-Specific Effects**

Determination of project effects will be based on the following threshold. A project-specific effect is less-than-significant unless:

- |     |  |                          |    |
|-----|--|--------------------------|----|
|     |  | YES                      | NO |
| (1) | The project is inconsistent with the Modesto Urban Area General Plan.                | <input type="checkbox"/> | X  |
| (2) | The project includes a substantive amendment to the Modesto Urban Area General Plan. | <input type="checkbox"/> | X  |
| (3) | The project would physically divide an established community                         | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2) The project involves annexation to the City Limits and does not include an amendment to the Modesto Urban General Plan.
- (3) The project will serve to strengthen the bonds of the neighborhood as the elementary school unites the children and parents in the neighborhood.

## 20. AESTHETICS

The Master EIR was certified for the Modesto Urban Area General Plan. The significant effects described in the 18 subject areas contained in the Master EIR, are based on the planning policies and diagrams adopted as part of the General Plan. At that level of detail, no significant effects on aesthetics were identified.

### a. Project-Specific Effects

Determination of project effects will be based on the following threshold. A project-specific effect is less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project would have a substantial adverse effect on a scenic vista.   | <input type="checkbox"/> | X  |
| (3) The project would substantially degrade the existing visual character or quality of the project site and its surroundings.             | <input type="checkbox"/> | X  |
| (4) The project would create a new source of substantial light and glare, which would adversely affect day or nighttime views in the area. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Residential in the Modesto Urban Area General Plan. It is located in an area that has already been developed with residential uses. The existing school and proposed school expansion and modernization project are consistent with the City's General Plan and the City's Zoning Ordinance.
- (2-4) The project is located within an established residential neighborhood and there are no scenic vistas in the immediate area. The expansion of the existing school is consistent with the type of development in the area.

The applicant is encouraged to provide for screen planting and a CMU block wall between the parking area and the residential unit to the west of the proposed parking area. Provide for a climbing vine planting to cover the CMU block wall.

## V. MITIGATION MEASURES APPLIED TO THE PROJECT

### A. Master EIR Mitigation Measures Applied to the Project

Pursuant to CEQA Section 21157.1 (c), in order for a Finding of Conformance to be made, all feasible measures from the Master EIR appropriate to the project shall be incorporated into the project. The following adopted General Plan Policies and Master EIR Mitigation Measures (also contained in Section III, "Global List") shall be made part of the project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan:

All applicable and appropriate mitigation measures have been applied to the project (see mitigation measures listed below).

#### Traffic and Circulation Measures:

N/A

#### Air Quality Measures:

##### Mitigation Measure Air-1: PM10 Control Measures

1. SJVUAPCD Regulation VIII Control Measures for Construction Emissions of PM-10.  
The following controls are required to be implemented at all construction sites:
  - a. All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover
  - b. All on-site unpaved roads and off-site unpaved access roads shall be effectively stabilized of dust emissions using water or chemical stabilizer/suppressant.
  - c. All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.
  - d. With the demolition of buildings up to six stories in height, all exterior surfaces of the building shall be wetted during demolition.
  - e. When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.
  - f. All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. *(the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)*

- g. Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.
- h. Within urban areas, trackout shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.
- i. Any site with 150 or more vehicle trips per day shall prevent carryout and trackout.

**B. Recommended Conditions of Project Approval**

1. Glenn Avenue be dedicated and improved to full City Standards.
2. The proposed alley abandonment may affect vehicular access to adjacent residences and the Turlock Irrigation District lateral located west of the school site. The City recommends that a separate alley right-of-way be maintained immediately west and adjacent to the western access driveway. A vehicular access easement may serve to meet the access needs of the users of the alley.
3. All fences and walls heights shall adhere to the City's Clear Vision Triangle requirements.
4. The City Fire Marshal cited the following California Fire Code requirements:
  - a) Fire Hydrants shall be spaced at 450-foot intervals along fire department access roads capable of providing 2,250 gallons per minute.
  - b) Fire department access roads shall extend within 150 feet of all portions of buildings. For buildings provided with an automatic fire sprinkler system this distance may be increased to 200 feet.
  - c) Fire department access roads shall be provided with an inside turning radius of 25 feet and outside 45 feet. Dead end fire department access roads that exceed 150 feet in length shall be provided with and approved turnaround.
5. The project will result in additional parking and better on-site circulation for the school site. The project also proposes street improvements along the adjoining streets improving the safety for both pedestrians and vehicular traffic. The proposed relocated alley right-of-way will need to be designed to provide an adequate turning radius for utility service vehicles.
6. SJVUAPCD Regulation VIII Control Measures for Construction Emissions of PM-10. The following controls are required to be implemented at all construction sites:

- a) All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover
  - b) All on-site unpaved roads and off-site unpaved access roads shall be effectively stabilized of dust emissions using water or chemical stabilizer/suppressant.
  - c) All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.
  - d) With the demolition of buildings up to six stories in height, all exterior surfaces of the building shall be wetted during demolition.
  - e) When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.
  - f) All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. *(the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)*
  - g) Following the addition of materials to, or the removal
  - h) Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.
  - i) Within urban areas, trackout shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.
  - j) Any site with 150 or more vehicle trips per day shall prevent carryout and trackout.
  - k) The Project will need to be in compliance with the National Emission Standards for Hazardous Air Pollutants (NESHAPS).
7. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields.
  8. The project will be required to control storm drainage in accordance with the City's Guidance Manual for New Development Stormwater Quality Control Measures.
  9. Fire Hydrants shall be spaced at 450-foot intervals along fire department access roads capable of providing 2,250 gallons per minute.
  10. Fire department access roads shall extend within 150 feet of all portions of buildings. For buildings provided with an automatic fire sprinkler system this distance may be

increased to 200 feet.

11. Fire department access roads shall be provided with an inside turning radius of 25 feet and outside 45 feet. Dead end fire department access roads that exceed 150 feet in length shall be provided with and approved turnaround
12. The proposed school parking lot should contain shade trees as required in the Modesto Municipal Code. The City suggests that applicant provide for nine shade trees in the parking areas, six in the parking lot fronting Glenn street, and three in the parking area along the east side of the project site.
13. The applicant is encouraged to provide for screen planting and a CMU block wall between the parking area and the residential unit to the west of the proposed parking area. Provide for a climbing vine planning to cover the CMU block wall.

**EXHIBIT G**

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-204**

**RESOLUTION APPROVING THE FILING OF AN APPLICATION TO THE STANISLAUS LOCAL AGENCY FORMATION COMMISSION TO ANNEX APPROXIMATELY 1.854 ACRES OF PROPERTY LOCATED ON THE NORTH SIDE OF GLENN AVENUE WEST OF GUTHERIE STREET TO THE CITY OF MODESTO, THE MODESTO SEWER DISTRICT NO.1 AND TO DETACH SAID PROPERTY FROM THE INDUSTRIAL FIRE PROTECTION DISTRICT (OWNER INITIATED – UNINHABITED)**

WHEREAS, Modesto City Schools ("MCS") is the owner of approximately 1.854 acres of real property, located on the north side of Glenn Avenue west of Guthrie Street ("Property"), and proposes that the Property be included as part of the Bret Harte Elementary School Expansion Project ("Project"), and

WHEREAS, the City has received a written request from Modesto City Schools to initiate annexation of the Property to the City of Modesto under the Cortese-Knox-Hertzberg Local Reorganization Act of 2000, California Government Code Section 56000, et seq, and

WHEREAS, the Resolution of Application is proposed pursuant to California Government Code Sections 56654 and 56700, and

WHEREAS, on or about April 6, 2004, a Notice of Intention to adopt said Resolution of Application was given to the Stanislaus County Local Agency Formation Commission ("LAFCO") and the following interested and subject agencies: Stanislaus County, Industrial Fire Protection District, Turlock Irrigation District, Modesto City Elementary School District, Modesto Union High School District, and

WHEREAS, the Property proposed to be annexed is uninhabited, and a description of the boundaries of the subject Property is set forth in Exhibits “A” and “B,” attached hereto and by this reference incorporated herein, and

WHEREAS, the subject Property proposed to be annexed is within Stanislaus County, contiguous to the existing City limits and within the current Sphere of Influence of the City of Modesto, as adopted by Stanislaus Local Agency Formation Commission, Resolution No. 97-11, on May 28, 1997, and

WHEREAS, before an annexation application may be heard by LAFCO, there must be an agreement with the County providing for the sharing of property taxes following an annexation, and

WHEREAS, the proposed Property is covered by the Master Property Tax Agreement entered into between the County of Stanislaus and City of Modesto, approved by Council Resolution No. 96-170 on April 9, 1996, and amended on March 23, 2004, to include the Property within its scope, and

WHEREAS, the proposed Property is not subject to a Williamson Act Contract pursuant to Government Code Sections 51200, et seq, and

WHEREAS, it is desired to provide that the proposed reorganization be subject to the following terms and conditions:

- (a) The annexation of said Property, as set forth on Exhibit “A” attached hereto, to the City of Modesto and Modesto Sewer District No. 1.
- (b) The detachment of said Property from the Industrial Fire Protection District.

WHEREAS, the reasons for this proposed reorganization to the City of Modesto are as follows:

- (a) Staff has received a written request signed by the sole property owner, Modesto City Schools, to annex the Property to the City of Modesto.
- (b) The proposed annexation is consistent with the Urban Area General Plan and can be served by City services.
- (c) The proposed annexation will result in planned, orderly and efficient development of the area, and provision of services, and

WHEREAS, pursuant to Government Code Section 56653, a plan for providing services is set forth in **Exhibit "C"**, attached hereto and by this reference incorporated herein, and

WHEREAS, Planning Commission held a duly noticed public hearing to consider the proposed application for annexation on January 5, 2004, at 7:00 p.m. in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, and recommended adoption of a Resolution of Application to annex the Property, and

WHEREAS, the Modesto City Council held a duly noticed public hearing to consider the proposed application for annexation on April 6, 2004, at 7:00 p.m. in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Modesto City Council:

1. That application be made for reorganization of the Property and that LAFCO is hereby requested to undertake proceedings on the proposed reorganization of the Property pursuant to Government Code Section 56700, subject to the following terms and conditions:

- (a) The annexation of said Property, as set forth on Exhibit "A" attached hereto, to the City of Modesto and Modesto Sewer District No. 1.
  - (b) The detachment of said Property from the Industrial Fire Protection District.
2. That future development of the Property shall be consistent with the Modesto Urban Area General Plan adopted by the Council of the City of Modesto on August 15, 1995, and subsequent amendments.
3. That all owners of land within the affected Property have given their written consent to the reorganization and therefore, pursuant to California Government Code Section 56663 (c)(1), the City Council consents to waiver of conducting authority proceedings.
4. That the Resolution of Application is consistent with the City of Modesto Urban Area General Plan, adopted by the Modesto City Council by Resolution No. 95-409 on August 15, 1995, and is within the City's Sphere of Influence.
5. That the proposed reorganization has received environmental review through an Initial Study EA/C&ED No. 2003-89, leading to a Finding of Conformance pursuant to Public Resources Code Section 21157.1 that the Project is within the scope of the Master Environmental Impact Report for the Modesto Urban Area General Plan (SCH No.1999082041).

BE IT FURTHER RESOLVED that MCS shall indemnify, defend, and hold harmless the City of Modesto, its agents, officers, and employees from any and all claims, actions, or proceedings against the City of Modesto, its agents, officers, and employees to attack, set aside, void, or annul, any approval by the City of Modesto and

its advisory agency, appeal board, or a legislative body concerning the Resolution of Application. The City of Modesto shall promptly notify MCS of any claim, action, or proceeding and shall cooperate fully in the defense. If the City fails to do so, MCS shall not thereafter be responsible to defend, indemnify, or hold City harmless.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**PLAN FOR SERVICE**

## EXHIBIT "C"

### GLENN AVENUE No. 1 REORGANIZATION PLAN FOR PROVIDING SERVICES

Pursuant to Government Code Section 56653, the following Plan for Services to be extended to the affected territory has been prepared for the Glenn Avenue No. 1 Reorganization:

- A. The project site is part of the Bret Harte School Expansion and Modernization Project
- B. The City's Community & Economic Development Department by Environmental Assessment Initial Study EA/C&ED 2003-89 reviewed the proposed amendment to the Zoning Map to R-1 and annexation to determine whether the project is within the scope of the project covered by the Master EIR, and made the determination that the proposed project will have no additional significant effect on the environment that was not identified in the Master EIR, and further, that no new or additional mitigation measures or alternatives are required, and that, therefore, the proposed project is within the scope of the project covered by the Master EIR.

Said Initial Study analyzed community facilities and services. These services include traffic and circulation, waste water collection, water delivery, storm water drainage, solid waste disposal, energy, schools, parks, fire, police and other governmental services. The City of Modesto is a full-service municipal city and would provide the following services:

1. **Fire Protection** – Upon reorganization, the subject properties will be detached from the Industrial Fire Protection District, which presently contracts with Modesto Fire Department, and fire protection services will continue to be provided by the Modesto Fire Department. Primary response will come from Station No. 10 located approximately one (5/8) mile from the project site at 148 Imperial Avenue.
2. **Police Protection** – Modesto City Police would assume responsibility for police protection upon effective date of annexation.
3. **Garbage and Garden Refuse Pickup** – Regular pickup service would remain unchanged to the area upon the effective date of annexation.
4. **Sanitary Sewer Service** – There is an existing 8" sewer line along Glenn Avenue that serves the school site and proposed annexation properties. The existing sewer line servicing the school site will also serve the subject site. According to the City's Engineering and Transportation Department, the increase in sewer service from the school will be offset from the elimination of sewer service from the five residential homes previously serviced by the sewer line.
5. **Water Service** – There is an existing City water line in Bret Harte Place that serves the schools and connects to fire hydrants on the Bret Harte Elementary School site. Service would continue to be provided by the City of Modesto upon annexation.

Exhibit "C" Plan for Services  
Glenn Avenue No. 1 Reorganization

6. **Storm Drainage** – The subject area is currently served by a rock well system. Upon annexation, the subject area will be required to collect and dispose of storm drainage on site.
  7. **Streets** – Glenn Avenue already exists and will become the frontage street for the subject site. As part of Bret Harte School's expansion and renovation project, the School District will be dedicating and constructing street improvements to the centerline to meet Minor Collector street standards. After completion of the road improvements this portion of Glenn Avenue will be the responsibility of the City.
- C. **The level and range of services:**  
The City of Modesto is a full service provider of municipal services and would provide the full range of services for those areas listed above.
- D. **When can the services be provided?**  
The above-described services can be provided upon the effective date of annexation.
- E. **Improvements required as condition of reorganization.**  
No improvements will be required as a condition of reorganization. Improvements would be required as a condition of development.
- F. **How will services be financed?**  
Services will be financed through a combination of City fees and Enterprise Fund.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-205**

**A RESOLUTION APPROVING A DEVELOPMENT PLAN FOR PLANNED DEVELOPMENT ZONE, P-D(565) (VALLEY ASSOCIATED UROLOGY MEDICAL GROUP)**

WHEREAS, a verified application for an amendment to Section 3-3-9 of the Zoning Map was filed by Valley Associated Urology Medical Group on October 10, 2003, to reclassify from Specific Plan Overlay Zone, (SP-O), to Planned Development Zone, P-D(565), described as follows:

SP-O to P-D(565)

All that portion of the south ½ of the southwest ¼ of section 3, Township 3 South, Range 9 East, M.D.B.&M., City of Modesto, County of Stanislaus, State of California.

Parcel 1 of that certain Map filed in Vol. 22 of Parcel Maps at Page 21, Stanislaus County Records;

also including the Easterly ½ of the original 40-foot Coffee Road, and the Northerly ½ of the original 40-foot of Mable Avenue.

WHEREAS, after a public hearing held on March 1, 2004, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, it was found and determined by the Planning Commission, by its Resolution No. 2004-13, that rezoning of the property as requested is required by public necessity, convenience, and general welfare for the following reasons:

1. The project site is large enough to accommodate the proposed planned development zone for medical offices and associated off-street parking, and is located at the intersection of a minor arterial and a minor collector, and therefore will not result in adverse impacts to the adjacent residential neighborhood.

2. Due to the specifics of the proposed site design (masonry wall, driveway locations, etc.), the proposed planned development zone is compatible with existing and potential surrounding development.

WHEREAS, said matter was set for a public hearing of the City Council to be held on April 6, 2004, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing was held, and

WHEREAS, after said public hearing the Council found and determined that the application of Valley Associated Urology Medical Group for a Planned Development Zone should be granted as consonant with public necessity, convenience and general welfare for the reasons set forth in Planning Commission Resolution No. 2004-13 and quoted above, and

WHEREAS, the Council has introduced Ordinance No. 3347-C.S. on the 6<sup>th</sup> day of April 2004, reclassifying the above-described property from Specific Plan Overlay Zone, (SP-O), to Planned Development Zone, P-D(565).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. DEVELOPMENT PLAN. The development plan for Planned Development Zone, P-D(565), is hereby approved subject to the following conditions:

1. All development shall conform to the site plan and elevations titled "Valley Associated Urology Medical Group" as amended in red, stamped approved by the City Council.
2. Prior to development of the two 11,000-square-foot buildings along the Mable Avenue frontage of the project site, the applicant shall make a formal application to the

City for a revised development plan to be considered by the Planning Commission.

3. Fences or walls shall be constructed prior to occupancy and shall be as follows: Eight-foot-high masonry wall along the east property line as shown on the approved plan.
4. Prior to the issuance of a building permit, a landscaping and irrigation plan shall be approved by the Chief Building Official. Screen landscaping shall be installed along the east property line. Landscaping and the irrigation system shall be installed and maintained in accordance with the approved plan. Prior to issuance of any Certificate of Occupancy, landscaping of the entire periphery of the project site, including building pad locations for future single story buildings, shall be installed.
5. All landscaping, fences, and walls shall be maintained and the premises shall be kept free of weeds, trash, and other debris.
6. Trash bins shall be kept in enclosures in accordance with the approved plan and in accordance with plans approved by the Operations and Maintenance Director. Enclosures shall be constructed of building materials consistent with those used in the major buildings as approved by the Community and Economic Development Director.
7. Prior to the issuance of a building permit, developer shall provide a study of the existing Rose Lane storm drainage basin to determine the percolation rate necessary to accommodate storm water runoff from the site in accordance with current City standards as of the date of issuance of the permit, and reconstruct the basin to ensure that it functions in a manner that will allow it to accommodate all storm water runoff from the site in accordance with current City standards as of the date of issuance of the permit. Alternatively, developer shall provide on-site containment and disposal of all storm water runoff in excess of two inches in a 24-hour period. Developer shall complete all required storm water improvements prior to connection to the off-site storm water collection system or prior to issuance of any Certificate of Occupancy, whichever occurs first.

8. Storm drainage control shall be in accordance with the City's Guidance Manual for New Development Storm Water Quality Control Measures. Storm drain improvements shall be constructed in accordance with plans approved by the Engineering and Transportation and Operations & Maintenance Directors.
9. Existing overhead and underground electric facilities shall be removed, protected, or relocated as required by the Modesto Irrigation District and the Engineering and Transportation Director.
10. Street dedication consistent with Standard Specifications, and as shown on the approved site plan, shall be made prior to the issuance of a building permit or at any time requested by the Engineering and Transportation Director to alleviate a health, safety, or traffic problem in the area.
11. Street improvements consistent with Standard Specifications shall be provided prior to the occupancy of any structures or when requested by the Engineering and Transportation Director to alleviate a health, safety, or traffic problem in the area.
12. Prior to issuance of a building permit, improvement plans for required improvements shall be prepared by a Registered Civil Engineer and approved by the Engineering and Transportation Director. Improvements shall be constructed in accordance with the approved plans.
13. Ten-foot-wide public utility easements and four-foot-wide planting easements located within the ten-foot-wide public utility easements shall be dedicated along all street frontages as required by the Engineering and Transportation Director.
14. Prior to issuance of a building permit the developer shall dedicate public utility easements as required by the utility companies and the Engineering and Transportation Director.
15. All signs shall comply with the sign requirements of the P-O Zone.
16. All outdoor lighting shall be shielded from adjacent residential properties as required by the Engineering and Transportation Director.

17. The property owner and developer shall, at their sole expense, defend, indemnify and hold harmless the City of Modesto, its agents, officers, directors and employees, from and against all claims, actions, damages, losses, or expenses of every type and description, including but not limited to payment of attorneys' fees and costs, by reason of, or arising out of, this development approval. The obligation to defend, indemnify and hold harmless shall include but is not limited to any action to arbitrate, attack, review, set aside, void or annul this development approval on any grounds whatsoever. The City of Modesto shall promptly notify the developer of any such claim, action, or proceeding and shall cooperate fully in the defense.

SECTION 2. DEVELOPMENT SCHEDULE. The following development schedule is hereby approved for said Planned Development Zone, P-D(565):

The construction program be accomplished in two phases as follows:

Phase I – Construction to begin on or before March 1, 2005 and completion to be not later than March 1, 2007.

Phase II – Construction to begin on or before March 1, 2006 and completion to be not later than March 1, 2008.

SECTION 3. CHANGES IN DEVELOPMENT PLAN. Any changes in the above approved development plan shall be made in accordance with the provisions of Section 10-2.1709 of the Modesto Municipal Code.

SECTION 4. COMPLIANCE WITH CODE PROVISIONS, ETC. In all other respects said planned development shall be accomplished in accordance with and in strict adherence to the provisions of Article 17 of Title 10 of the Modesto Municipal Code relating to Planned Development Zones and other applicable City laws, rules, regulations and procedures.

SECTION 5. EFFECTIVE DATE. This resolution shall not become effective unless and until the ordinance reclassifying the above-described property to Planned Development Zone, P-D(565), becomes effective.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-206**

**A RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS WITHIN THE SCOPE OF THE NORTH BEYER PARK SPECIFIC PLAN MITIGATED NEGATIVE DECLARATION (SCH NO. 96102053): AMENDING SECTION 3-3-9 OF THE ZONING MAP TO REZONE FROM SPECIFIC PLAN OVERLAY ZONE, (SP-O), TO PLANNED DEVELOPMENT ZONE, P-D(565), PROPERTY LOCATED AT THE NORTHEAST CORNER OF COFFEE ROAD AND MABLE AVENUE. (VALLEY ASSOCIATED UROLOGY MEDICAL GROUP)**

WHEREAS, on November 26, 1996, by Resolution No. 96-640, the City Council of the City of Modesto certified a Mitigated Negative Declaration for the North Beyer Park Specific Plan (SCH No. 96102053), and

WHEREAS, Valley Associated Urology Medical Group has proposed that the zoning designation for the property located at the northeast corner of Coffee Road and Mable Avenue be amended to rezone from Specific Plan Overlay Zone, (SP-O), to Planned Development Zone, P-D(565), in the City of Modesto ("the Project"), to allow the development of a 55,000-square-foot medical office complex and associated off-street parking, and

WHEREAS, the City's Community and Economic Development Department reviewed the proposed Project to determine if said Project might have a significant effect on the environment, and

WHEREAS, City staff has prepared an Initial Study, Environmental Assessment No. EA/C&ED 2004-14, which concluded that the proposed project is within the scope of the North Beyer Park Specific Plan Mitigated Negative Declaration (SCH No. 96102053), and

WHEREAS, the Planning Commission, by Resolution No. 2004-13, adopted on March 1, 2004, and City staff, by a report dated March 1, 2004, from the Community & Economic Development Department, recommended to the City Council approval of the application of Valley Associated Urology Medical Group to rezone a 5.5-acre parcel from Specific Plan Overlay Zone, (SP-O), to Planned Development, P-D(565), located at the northeast corner of Coffee Road and Mable Avenue in the North Beyer Park Specific Plan, to allow the development of a 55,000-square-foot medical office complex and associated off-street parking as set forth in said Resolution No. 2004-13, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on April 6, 2004, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 10<sup>th</sup> Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered Environmental Assessment No. EA/C&ED 2004-14, entitled "City of Modesto Initial Study Proposed Rezone to Planned Development for Medical Offices at the Northeast Corner of Coffee Road and Mable Avenue", for the proposed Project, and the Council hereby makes the following findings:

1. The proposed Project is within the scope of the North Beyer Park Specific Plan Mitigated Negative Declaration (SCH No. 96102053), which analyzed the potential impacts of buildout of the Specific Plan area.
2. No substantial changes are proposed in the Project that will require major revisions of the North Beyer Park Specific Plan Mitigated Negative Declaration.
3. No substantial changes have occurred with respect to the circumstances under which the Project is being undertaken which will require major revisions in the North Beyer Park Specific Plan Mitigated Negative Declaration.

4. No new information of substantial importance, which was not known and could not have been known with the exercise of reasonable diligence at the time the North Beyer Park Specific Plan Mitigated Negative Declaration was adopted shows any of the following:
  - a. Substantial changes are proposed in the project which will require major revisions of the previous EIR or negative declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects;
  - b. Substantial changes occur with respect to the circumstances under which the project is undertaken which will require major revisions of the previous EIR or negative declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; or
  - c. New information of substantial importance, which was not known and could not have been known with the exercise of reasonable diligence at the time the previous EIR was certified as complete or the negative declaration was adopted, shows any of the following:
    1. The project will have one or more significant effects not discussed in the previous EIR or negative declaration;
    2. Significant effects previously examined will be substantially more severe than shown in the previous EIR;
    3. Mitigation measures or alternatives previously found not to be feasible would in fact be feasible and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative; or
    4. Mitigation measures or alternatives which are considerably different from those

analyzed in the previous EIR would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.

5. The Initial Study, Environmental Assessment EA/C&ED 2003-14, provides the substantial evidence to support findings 1-4, noted above.

Be it further resolved that a copy of said Environmental Assessment No. EA/C&ED 2004-14, entitled "City of Modesto Initial Study Proposed Rezone to Planned Development for Medical Offices at the Northeast Corner of Coffee Road and Mable Avenue," is attached hereto as **Exhibit "A"**, and incorporated herein by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

# CITY of MODESTO

## INITIAL STUDY

### Proposed Rezone to Planned Development for Medical Offices at the Northeast Corner of Coffee Road and Mable Avenue

EA/CDD 2004-14

February 11, 2004

#### I. PURPOSE

On November 26, 1996, the Modesto City Council certified the Mitigated Negative Declaration for the North Beyer Park Specific Plan (SCH# 96102053). This document analyzed the impacts of buildout of the North Beyer Park Specific Plan area. Section 21166 of the Public Resources Code allows the North Beyer Park Specific Plan Mitigated Negative Declaration to be used for subsequent projects within the Specific Plan area, provided that the following findings can be made:

- A. No substantial changes are proposed in the project that will require major revisions of the environmental impact report.
- B. No substantial changes are occurring with respect to the circumstances under which the project is being undertaken which will require major revisions in the environmental impact report.
- C. No new information, which was not known and could not have been known at the time the environmental impact report was certified as complete, has become available.

#### II. PROJECT DESCRIPTION

- A. Project title:  
Public Hearing – Application of Valley Associated Urology Medical Group for proposed medical offices at the northeast corner of Coffee Road and Mable Avenue
- B. Lead agency name and address:  
City of Modesto, PO Box 642, Modesto, CA 95353
- C. Contact person, address and phone number:  
Brad Wall

- D. Project Location:  
Northeast corner of Coffee Road and Mable Avenue

- E. Project Sponsors:  
Valley Associated Urology Medical Group  
1541 Florida Avenue  
Modesto CA 95350
- F. General Plan Designation:  
Mixed Use (MU)
- G. Current Zoning:  
Specific Plan Overlay (SP-O)
- H. Description of Proposed Project:  
This is an application to develop a vacant five-acre site with a medical office project totaling approximately 55,000 square feet via a rezone from Specific Plan Overlay (SP-O) to Planned Development (P-D).
- I. Surrounding land uses:  
Property to the east is developed with single-family residential land uses. The properties to the north and west (across Coffee Road) are designated for non-residential uses, but are currently vacant. A relatively new medical office development exists to the south, across Mable Avenue.
- J. Other public agencies whose approval is required: None.

**III. ANALYSIS OF CONFORMANCE WITH CEQA SECTION 21166 FINDINGS**

- A. Are substantial changes proposed in the project that will require major revisions of the environmental impact report?

Following is an analysis of whether there are substantial changes proposed in the project that would require major revisions of the North Beyer Park Specific Plan Mitigated Negative Declaration:

**ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED:**

DETERMINATION: (To be completed by the Lead Agency)

On the basis of this initial evaluation:

- I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.
- I find that although the proposed project could have a significant effect on the environment, there will be not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.
- I find that the proposed project MAY have a significant effect on the environment, an ENVIRONMENT IMPACT REPORT is required.
- I find that the proposed project MAY have a "potentially significant impact" or "potentially significant unless mitigated" impact on the environment, but at least one effect 1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and 2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. AN ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed.
- I find that although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed adequately in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards, and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is requested.

**EVALUATION OF ENVIRONMENTAL IMPACTS:**

- 1) A brief explanation is required for all answers except "No Impact" answers that are adequately supported by the information sources a lead agency cites in the parentheses following each questions. A "No Impact" answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g., the project falls outside a fault rupture zone). A "No Impact" answer should be explained where it is based on project-specific factors as well as general standards (e.g., the project will not expose sensitive receptors to pollutants, based on a project-specific screening analysis).

- 2) All answers must take account of the whole action involved, including off-site as well as on-site, cumulative as well as project-level, indirect as well as direct, and construction as well as operation impacts.
- 3) Once the lead agency has determined that a particular physical impact may occur, then the checklist answers must indicate whether the impact is potentially significant, less than significant with mitigation, or less than significant. "Potentially Significant Impact" is appropriate if there is substantial evidence that an effect may be significant. If there are one or more "Potentially Significant Impact" entries when the determination is made, an EIR is required.
- 4) "Negative Declaration: Less Than Significant With Mitigation Incorporated" applies where the incorporation of mitigation measures has reduced an effect from "Potentially Significant Impact" to a "Less Than Significant Impact." The lead agency must describe the mitigation measures, and briefly explain how they reduce the effect to a less than significant level (mitigation measures from Section XVII, "Earlier Analyses," may be cross-referenced).
- 5) Earlier analyses may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration. Section 15063(c)(3)(d). In this case, a brief discussion should identify the following:
  - a) Earlier Analysis Used. Identify and state where they are available for review.
  - b) Impacts Adequately Addressed. Identify which effects from the above checklist were within the scope of and adequately analyzed in an earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation measures based on the earlier analysis.
  - c) Mitigation Measures. For effects that are "Less than Significant with Mitigation Measures Incorporated," describe the mitigation measures which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project.
- 6) Lead agencies are encouraged to incorporate into the checklist references to information sources for potential impacts (e.g., general plans, zoning ordinances). Reference to a previously prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.
- 7) Supporting Information Sources: A source list should be attached, and other sources used or individuals contacted should be cited in the discussion.
- 8) This is only a suggested form, and lead agencies are free to use different formats; however, lead agencies should normally address the questions from this checklist that are relevant to a project's environment effects in whatever format is selected.
- 9) The explanation of each issue should identify:
  - a) The significance criteria or threshold, if any, used to evaluate each question; and
  - b) The mitigation measure identified, if any, to reduce the impact to less than significance.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
I. <u>AESTHETICS</u> – Would the project:				
a) Have a substantial adverse effect on a scenic vista?	[ ]	[ ]	[ ]	[ X ]
b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway?	[ ]	[ ]	[ ]	[ X ]
c) Substantially degrade the existing visual character or quality of the site and its surroundings? □	[ ]	[ ]	[ ]	[ X ]
d) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?	[ ]	[ ]	[ ]	[ X ]

Discussion: The proposed project would have no impacts relative to scenic vistas nor resources, as none exist in the vicinity of the project site. Furthermore, as the proposed development consists of medical offices, there will be no activity at night. Any parking lot lighting will be required to be shielded and directed away from neighboring residences.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
<p>II. <u>AGRICULTURE RESOURCES</u> - In determining whether impacts to agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Dept. of Conservation as an optional model to use in assessing impacts on agriculture and farmland. Would the project:</p>				
<p>a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?</p>	[ ]	[ ]	[ ]	[X]
<p>b) Conflict with existing zoning for agricultural use, or a Williamson Act contract?</p>	[ ]	[ ]	[ ]	[X]
<p>c) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use?</p>	[ ]	[ ]	[ ]	[X]

Discussion: The project site is not zoned, used, nor designated for agricultural uses. It is not under Williamson Act contract.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
<p>III. <u>AIR QUALITY</u> – Where available, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the following determinations. Would the project:</p>				
<p>a) Conflict with or obstruct implementation of the applicable air quality plan?</p>	[ ]	[ ]	[ ]	[X]
<p>b) Violate any air quality standard or contribute substantially to an existing or projected air quality violation?</p>	[ ]	[ ]	[ ]	[X]
<p>c) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors)?</p>	[ ]	[ ]	[ ]	[X]
<p>d) Expose sensitive receptors to substantial pollutant concentrations?</p>	[ ]	[ ]	[ ]	[X]
<p>e) Create objectionable odors affecting a substantial number of people?</p>	[ ]	[ ]	[ ]	[X]

Discussion: The proposed project will have no adverse effect relative to air quality.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
IV. <u>BIOLOGICAL RESOURCES</u> – Would the project:				
a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?	[ ]	[ ]	[ ]	[X]
b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?	[ ]	[ ]	[ ]	[X]
c) Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?	[ ]	[ ]	[ ]	[X]
d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?	[ ]	[ ]	[ ]	[X]
e) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?	[ ]	[ ]	[ ]	[X]
f) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan?	[ ]	[ ]	[ ]	[X]

Discussion: The proposed project will have no adverse effect relative to biological resources. The site is within the Modesto urban area and not near any riparian area nor migratory corridors.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
V. <u>CULTURAL RESOURCES</u> – Would the project:				
a) Cause a substantial adverse change in the significance of a historical resource as defined in §15064.5?	[ ]	[ ]	[ ]	[X]
b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to §15064.5?	[ ]	[ ]	[ ]	[X]
c) Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?	[ ]	[ ]	[ ]	[X]
d) Disturb any human remains, including those interred outside of formal cemeteries?	[ ]	[ ]	[ ]	[X]

Discussion: The proposed project will not have any effect on cultural nor historic resources. However, if any such resources are discovered during construction, then activities shall cease until the artifacts and site can be fully evaluated by a qualified archeologist.

VI. GEOLOGY AND SOILS – Would the project:

a) Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving:	[ ]	[ ]	[ ]	[X]
i) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42.	[ ]	[ ]	[ ]	[X]
ii) Strong seismic ground shaking?	[ ]	[ ]	[ ]	[X]
iii) Seismic-related ground failure, including liquefaction?	[ ]	[ ]	[ ]	[X]
iv) Landslides?	[ ]	[ ]	[ ]	[X]

VI. GEOLOGY AND SOILS, Continued:

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
b) Result in substantial soil erosion or the loss of topsoil?	[ ]	[ ]	[ ]	[X]
c) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse?	[ ]	[ ]	[ ]	[X]
d) Be located on expansive soil, as defined in Table 18-1B of the Uniform Building Code (1994), creating substantial risks to life or property?	[ ]	[ ]	[ ]	[X]
e) Have soils incapable of adequately supporting the use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste water?	[ ]	[ ]	[ ]	[X]

Discussion: The project site is entirely flat, and not near any known seismic fault lines.

VII. HAZARDS AND HAZARDOUS MATERIALS -

Would the project:

a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?	[ ]	[ ]	[ ]	[X]
b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment.	[ ]	[ ]	[ ]	[X]

VII. HAZARDS AND HAZARDOUS MATERIALS, Continued:

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
c) Emit hazardous emissions or handle hazardous with acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?	[ ]	[ ]	[ ]	[X]
d) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?	[ ]	[ ]	[ ]	[X]
e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard for people residing or working in the project area?	[ ]	[ ]	[ ]	[X]
f) For a project within the vicinity of a private airstrip, would the project result in a safety hazard for people residing or working in the project area?	[ ]	[ ]	[ ]	[X]
g) Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?	[ ]	[ ]	[ ]	[X]
h) Expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands?	[ ]	[ ]	[ ]	[X]

Discussion: The proposed project would have no impacts whatsoever relative to hazards and hazardous materials.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
<b>VIII. <u>HYDROLOGY AND WATER QUALITY</u> – Would the project:</b>				
a) Violate any water quality standards or waste discharge requirements.	[ ]	[ ]	[ ]	[X]
b) Substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)?	[ ]	[ ]	[ ]	[X]
c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner which would result in substantial erosion or siltation on – or off-site?	[ ]	[ ]	[ ]	[X]
d) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner which would result in flooding on – or off-site?	[ ]	[ ]	[ ]	[X]
e) Create or contribute runoff water which would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff?	[ ]	[ ]	[ ]	[X]
f) Otherwise substantially degrade water quality?	[ ]	[ ]	[ ]	[X]
g) Place housing within a 100-year flood hazard area as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?	[ ]	[ ]	[ ]	[X]
h) Place within a 100-year flood hazard area structures which would impede or redirect flood flows?	[ ]	[ ]	[ ]	[X]
i) Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam?	[ ]	[ ]	[ ]	[X]

VIII. HYDROLOGY AND WATER QUALITY, Continued:

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
j) Inundation by seiche, tsunami, or mudflow?	[ ]	[ ]	[ ]	[X]

Discussion: The proposed project will be subject to all relevant and applicable City of Modesto requirements related to municipal water service and storm drainage. The site is not located within the 100-year flood plain.

IX. LAND USE AND PLANNING – Would the project:

a) Physcially divide an established community?	[ ]	[ ]	[ ]	[X]
b) Conflict with any applicable land use plan, policy, or regulation of an agency with jurisdiction over the project (including, but not limited to the general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect?	[ ]	[ ]	[ ]	[X]
c) Conflict with any applicable habitat conservation plan or natural community conservation plan?	[ ]	[ ]	[ ]	[X]

Discussion: The proposed project is consistent with all applicable and relevant City of Modesto plans, policies and regulations.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
X. <u>MINERAL RESOURCES</u> – Would the project:				
a) Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?	[ ]	[ ]	[ ]	[X]
b) Result in the loss of availability of a locally-important mineral resource recovery site delineated on a local general plan, specific plan or other land use pan?	[ ]	[ ]	[ ]	[X]

Discussion: The proposed project would have absolutely no impacts whatsoever relative to mineral resources.

XI. <u>NOISE</u> – Would the project result in:				
a) Exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?	[ ]	[ ]	[ ]	[X]
b) Exposure of persons to or generation of excessive groundborne vibration or groundborne noise levels?	[ ]	[ ]	[ ]	[X]
c) A substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?	[ ]	[ ]	[ ]	[X]
d) A substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?	[ ]	[ ]	[ ]	[X]

XI. NOISE, Continued:

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels?	[ ]	[ ]	[ ]	[X]
f) For a project within the vicinity of a private airstrip, would the project expose people residing or working in the project area to excessive noise levels?	[ ]	[ ]	[ ]	[X]

Discussion: The proposed medical office development operations will result in no significant increase in noise levels associated with pre-project conditions.

XII. POPULATION AND HOUSING - Would the project:

a) Induce substantial population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure?)	[ ]	[ ]	[X]	[ ]
b) Displace substantial numbers of existing housing, necessitating the construction of replacement housing elsewhere?	[ ]	[ ]	[ ]	[X]
c) Displace substantial numbers of people, necessitating the construction of replacement housing elsewhere?	[ ]	[ ]	[ ]	[X]

Discussion: Development of the proposed medical office project would result in no significant increase in population.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
<b>XIII. PUBLIC SERVICES</b>				
a) Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:				
▪ Fire Protection?	[ ]	[ ]	[ ]	[X]
▪ Police protection	[ ]	[ ]	[ ]	[X]
▪ Schools	[ ]	[ ]	[ ]	[X]
▪ Parks	[ ]	[ ]	[ ]	[X]
▪ Other public facilities?	[ ]	[ ]	[ ]	[X]

Discussion: The proposed project will have absolutely no impacts relative to provision of public services.

**XIV. RECREATION**

a) Would the project increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?	[ ]	[ ]	[ ]	[ ]
b) Does the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse effect on the environment?	[ ]	[ ]	[ ]	[ ]

Discussion: The proposed medical office project would result in no recreation-related impacts.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
XV. <u>TRANSPORTATION/TRAFFIC</u> – Would the project:				
a) Cause an increase in traffic which is substantial in relation to the existing traffic load and capacity of the street system (i.e., result in a substantial increase in either the number of vehicle trips, the volume to capacity ratio on roads, or congestion at intersections)?	[ ]	[ ]	[ ]	[X]
b) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways?	[ ]	[ ]	[ ]	[X]
c) Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks?	[ ]	[ ]	[ ]	[X]
d) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?	[ ]	[ ]	[ ]	[X]
e) Result in inadequate emergency access?	[ ]	[ ]	[ ]	[X]
f) Result in inadequate parking capacity?	[ ]	[ ]	[ ]	[X]
g) Conflict with adopted policies, plans or programs supporting alternative transportation (e.g., bus turnouts, bicycle racks)?	[ ]	[ ]	[ ]	[X]

Discussion: The proposed medical office development is located in an area with a well-established roadway network. The existing streets in the vicinity of the project site will easily accommodate both the existing traffic levels and the additional traffic generated as a result of the project. The site design conforms to all applicable City regulations related to traffic and parking.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
<b>XVI. UTILITIES AND SERVICE SYSTEMS – Would the project:</b>				
a) Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board?	[ ]	[ ]	[ ]	[X]
b) Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which would cause significant environmental effect?	[ ]	[ ]	[ ]	[X]
c) Require or result in the construction of new storm water drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effect?	[ ]	[ ]	[ ]	[X]
d) Have sufficient water supplies available to serve the project from existing entitlements and resources, or are new or expanded entitlements needed?	[ ]	[ ]	[ ]	[X]
e) Result in a determination by the wastewater treatment provider which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?	[ ]	[ ]	[ ]	[X]
f) Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs?	[ ]	[ ]	[ ]	[X]
g) Comply with federal, state, and local statutes and regulations related to solid waste?	[ ]	[ ]	[ ]	[X]

Discussion: The conditions of approval for the proposed medical office project will ensure that it can be served by all utilities and service systems, including storm drainage.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------	--------------------------------	---	------------------------------	-----------

XVII. MANDATORY FINDINGS OF SIGNIFICANCE

a) Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?	[ ]	[ ]	[ ]	[X]
b) Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effect of other current projects, and the effects of probable future projects).	[ ]	[ ]	[ ]	[X]
c) Does the project have environmental effects that will cause substantial adverse effects on human beings, either directly or indirectly?	[ ]	[ ]	[ ]	[X]

Discussion: Based on the analysis provided above, it is certain that there would be no impacts related to the areas of concern included within these Mandatory Findings of Significance.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-207**

**A RESOLUTION TO REMOVE A CROSSWALK AND THE WESTBOUND MODESTO AREA EXPRESS BUS STOP ON SCENIC DRIVE APPROXIMATELY 770 FEET EAST OF BODEM STREET, RELOCATE SAID BUS STOP TO THE NORTH SIDE OF SCENIC IMMEDIATELY WEST OF BODEM, CONSTRUCT A BUS TURNOUT AT THAT LOCATION, ELIMINATE THE WESTBOUND BUS STOP ON SCENIC IMMEDIATELY WEST OF MELROSE STREET AND REVISE MAX ROUTE 24 TO PROVIDE SERVICE BETWEEN THE MODESTO TRANSPORTATION CENTER AND THE EASTBOUND BUS STOP ON SCENIC DRIVE ADJACENT TO THE STANISLAUS COUNTY HEALTH SERVICES AGENCY.**

WHEREAS, City staff has received complaints about the crosswalk and bus stop at the above-stated location, and

WHEREAS, Traffic Engineering staff has reviewed said crosswalk and determined that it should be eliminated, and

WHEREAS, the crosswalk exists primarily to enable Modesto Area Express (MAX) passengers to access the westbound bus stop at that location, and

WHEREAS, without the crosswalk the bus stop is difficult to access, and

WHEREAS, staff reviewed the potential of relocating the bus stop to the north side of Scenic Drive immediately west of Bodem Street, and

WHEREAS, staff determined that a bus turnout would be desirable at that location to allow traffic to move freely past buses that are stopped at the bus stop, and

WHEREAS, a westbound bus stop exists on the north side of Melrose Street approximately one block west of Bodem Street, and

WHEREAS, two bus stops located within one block of each other is not conducive to the free flow of traffic or the efficiency of the bus system, and

WHEREAS, to accommodate individuals wishing to take the MAX bus from the Stanislaus County Health Services Agency (HSA) to the Modesto Transportation Center,

MAX Route 24 would need to be revised so that it stops on the south side of Scenic Drive adjacent to the HSA, and

WHEREAS, there is a need to transport students attending the Elliot Alternative Education Center to the Transportation Center, and

WHEREAS, supplemental bus service of approximately three hours each school day is needed to provide the desired student transportation, and

WHEREAS, based on concerns expressed by citizens and councilmembers to increase pedestrian, bus user, and vehicle safety, staff recommends removal of the mid-block crosswalk on Scenic Drive, and

WHEREAS, the Safety and Communities Committee reviewed and approved the crosswalk removal resulting in the relocation of the existing bus stop at their meeting on September 02, 2003, and

WHEREAS, a public hearing was held on October 14, 2003, and by motion Council referred this item to the Economic Development Committee (EDC) to discuss alternatives, and

WHEREAS, at their meeting on December 8, 2003, the EDC reviewed the alternatives presented by staff and approved the alternative in the staff report to remove the crosswalk and the westbound bus stop located approximately 770 feet east of Bodem Street, relocate the bus stop to the north side of Scenic Drive immediately west of Bodem Street, construct a bus turnout at that location, remove the existing westbound bus stop on Scenic Drive immediately west of Melrose Street, and revise MAX Route 24 so that it provides service to the Transportation Center from the bus stop located on the south side of Scenic Drive adjacent to the HSA.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the removal of the crosswalk and the westbound bus stop located approximately 770 feet east of Bodem Street, relocation of the bus stop to the north side of Scenic Drive immediately west of Bodem Street, construction of a bus turnout at that location, removal of the existing westbound bus stop on Scenic Drive immediately west of Melrose Street, revision of MAX Route 24 so that it provides service to the Transportation Center from the bus stop located on the south side of Scenic Drive adjacent to the HSA and provides supplemental bus service of approximately three hours per day.

BE IT FURTHER RESOLVED that these changes be accomplished such that all are implemented during January 2005.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

NOES: Councilmembers: None

ABSENT: Councilmembers: None

ATTEST: Jean Zahr  
JEAN ZAHR, City Clerk

(SEAL)

APPROVED AS TO FORM:

By: Michael D. Milich  
MICHAEL D. MILICH, City Attorney

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-208**

**A RESOLUTION APPROVING IN CONCEPT NEW MODESTO AREA EXPRESS (MAX) ROUTES TO START IN JANUARY 2005 AND APPROVE ADDITIONAL SHORT RANGE TRANSIT IMPROVEMENTS FOR THE MODESTO AREA EXPRESS (MAX) SERVICE.**

WHEREAS, the Economic Development Committee met on March 8, 2004, and concurred with staff's recommendation to implement short-range improvements to the MAX system, including two new routes connecting the downtown Transportation Center with the Vintage Faire Mall and the Stanislaus County Community Services Agency in January 2005, and

WHEREAS, the staff report to the City Council dated March 22, 2004, recommends approval of various short range transit improvements to the MAX system and approval of conceptual plans to implement new routes connecting the downtown Transportation Center with the Vintage Faire Mall and the Stanislaus County Community Services Agency in January 2005, and

WHEREAS, these service improvements are necessary to ensure that the transit system grows as the City of Modesto grows and the transit system maintains its effectiveness, and

WHEREAS, staff must begin work immediately to allow lead-time necessary to implement the new routes proposed to begin operation in January 2005,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves in concept new Modesto Area Express (MAX) routes to start in

January 20005 connecting downtown Modesto with the Vintage Faire Mall and South Modesto.

BE IT FURTHER RESOLVED that the Council hereby approves additional short-range improvements to the MAX system as described in full in the Engineering and Transportation staff report dated March 22, 2004 on file in the Office of the City Clerk.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-209**

**A RESOLUTION COMMITTING FISCAL YEAR 2004-2005 OPERATING  
BASELINE BUDGET FUNDS IN THE AMOUNT OF \$324,000 TO INCREASE  
MODESTO AREA EXPRESS (MAX) BUS SERVICE IN BUS FUND  
ORGANIZATIONS 1672 AND 5612.**

WHEREAS, the City Council has been requested in the staff report from Peter Cowles, Acting Engineering & Transportation Director, to the City Council dated March 22, 2004, to approve the expansion of MAX Bus Service in fiscal year 2004-2005, and

WHEREAS, funds for this expansion are included in the fiscal year 2004-2005 Baseline Budget, and

WHEREAS, an eight-month lead-time is required to complete the community participation process and update informational materials necessary for such an expansion, and

WHEREAS, a commitment of Fiscal Year 2004-2005 Operating Baseline Budget Funds to increase the proposed transit services is necessary before work on said services begins,

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto hereby commits the funds presently identified in the Fiscal Year 2004-2005 Operating Baseline Budget in the amount of \$324,000 to bus service expansion in Organizations 1672 and 5612.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-210**

**A RESOLUTION APPROVING AN AGREEMENT WITH HARRIS &  
ASSOCIATES FOR PROFESSIONAL SERVICES RELATED TO CONDUCTING  
PROPERTY OWNER PROTEST PROCEEDING FOR A PROPOSED  
INCREASE TO THE WATER RATES AND AUTHORIZING THE CITY  
MANAGER TO EXECUTE THE AGREEMENT.**

WHEREAS, the City Council accepted staff's recommendation for water rate increases and

WHEREAS, the City Council directed staff to take the necessary steps to initiate a Proposition 218 water rate increase process with the assistance of an outside firm, in order to complete the process within a designated timeframe and

WHEREAS, there is not sufficient City staff resources and expertise to conduct the election for the Water Rate Increase in-house and

WHEREAS, Harris & Associates has unique experience and knowledge of conducting property owner balloting,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Agreement in an amount not to exceed \$100,000, with Harris & Associates, Inc., related to the property owner protest proceeding for the Water Rate Increase to include justifying the basis of rates complying with Proposition 218, preparation of the required notice, database development of the parcel information, printing, sorting, mailing and tabulating of the notice, and presenting the results to the City Council for certification.

NOW, THEREFORE, BE IT FURTHER RESOLVED that the City Manager, or his authorized designee, is hereby authorized to execute the agreement and appropriate funds from 04-6100-800-8000-8003 in the amount of \$100,000 to 04-0100-120-1205-0235.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of April, 2004, by Councilmember Dunbar, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-211**

**A RESOLUTION APPROVING ALLOCATION OF COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) FUNDS OF \$308,100 FOR PUBLIC SERVICES AND \$109,443 FOR SERVICES FOR THE HOMELESS, AND EMERGENCY SHELTER GRANT (ESG) FUNDS OF \$61,831 FOR FISCAL YEAR 2004-2005, AND AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE TO SIGN AND EXECUTE THE AGREEMENTS.**

WHEREAS, the City of Modesto receives several Federal grants from the United States Department of Housing and Urban Development (HUD), and

WHEREAS, the City receives a Community Development Block Grant (CDBG) and an Emergency Shelter Grant (ESG), and

WHEREAS, the City receives these grants annually because of its population size, number of households living below the poverty level, and the number of housing units that are considered substandard, and

WHEREAS, a maximum of fifteen percent (15%) of the City's available CDBG entitlement plus an amount up to 15% of prior year's program income, may be allocated for the purposes of providing assistance that is consistent with the functions of CDBG funding to very-low, low and moderate income persons and families residing within the city limits of Modesto, and

WHEREAS, in Fiscal Year 2004-2005, 15% of the City's available CDBG entitlement plus prior year program income is \$458,100, and 15% of prior year's CDBG Revolving Loan Fund program income is \$110,000, and

WHEREAS, the available ESG entitlement is \$105,715, and

WHEREAS, in 2000, the City Council recommended that the Modesto Police Department be allocated funds for the Crime Free Multi-Housing Project (Crime Prevention Program) funded with CDBG Public Service funds for three years at \$150,000 per year, and Fiscal Year 2003-2004 was the last year, and

WHEREAS, staff has reduced the amount of CDBG funding available to non-profit agencies by \$150,000 in order to fund the Crime Prevention Program for one additional year, and

WHEREAS, the CH&CDC recommended allocation of \$308,100 in available funds to qualified non-profit agencies as set forth in **Exhibit A**, attached hereto and incorporated by reference, and

WHEREAS, CH&CDC also recommended that \$109,443 be allocated for services for the homeless as set forth in **Exhibit B**, attached hereto and incorporated by reference, and

WHEREAS, in Fiscal Year 2004-2005, the City's ESG grant is \$105,715, and

WHEREAS, the CH&CDC recommended allocation of \$61,831 to local non-profit agencies for the purposes of providing assistance that is consistent with the functions of ESG funding to very-low, low and moderate income persons and families residing within the city limits of Modesto, as set forth in **Exhibit C**, attached hereto and incorporated by reference, and

WHEREAS, the CH&CDC recommended that the balance of \$43,884 be allocated through a new RFP process, and

WHEREAS, at a public meeting on March 26, 2004, the Citizens Housing and Community Development Committee recommended funding as set forth in **Exhibits A, B and C** attached hereto and incorporated by reference,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the allocation of \$308,100 in Community Development Block Grant (CDBG) funds for public services as set forth in **Exhibit A**.

BE IT FURTHER RESOLVED that the Council hereby approves the allocation of \$109,443 in Community Development Block Grant (CDBG) funds for services for the homeless as set forth in **Exhibit B**.

BE IT FURTHER RESOLVED that the Council hereby approves the allocation of Emergency Shelter Grant (ESG) funds of \$61,831 for Fiscal Year 2004-2005 as set forth in Exhibit C.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Council hereby approves the allocation of \$150,000 to the Modesto Police Department for the Crime Prevention Program.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the City Manager or his authorized designee is hereby authorized to execute any documents with respect to implementation of the allocation of Fiscal Year 2004-2005 CDBG and ESG Public Service Grant funding.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**REASONS FOR RECOMMENDATIONS, CDBG PROPOSALS NOT RECOMMENDED FOR FUNDING OR THOSE WITH SPECIAL CONDITIONS:**

**Nirvana, Women of Hope (Shelter beds):** Not recommended for funding. Budget was inconsistent and vague. Proposal was conflicting. The proposal indicates that the cost per bed is \$600 but the funds requested are for \$800 per bed. There is no explanation why are they requesting an additional \$200 per bed. The committee felt that the most recent audit should be at least from 2002. Nirvana submitted an audit dated August 2001.

**United Way, Volunteer Connection:** Not recommended for funding. Based upon the information in the proposal, the funding requested appears to be to replace staff that had been reduced last year. Not a new service.

**Parent Resource Center, The "ABC" of Childcare Expansion:** Recommended for funding for \$21,747 for twenty five percent (25%) of the amount requested for two staff positions plus benefits and a small portion of the direct program costs.

**United Way, Information and Referral:** Recommended for funding for \$13,044 or 50% of the amount requested.

**Victory Life Center/Modesto Love Center, Commodity Supplement Food Program:** Recommended for funding for \$15,470. CDBG will fund seventy percent (70%) of half of the amount requested for two staff positions.

**Stanislaus Community Assistance Project, Nutritional Supplement and Education Program:** Recommended for funding for \$41,485 for a delivery driver and fifty percent (50%) of the amount requested for food.

**Project Sentinel, Tenant-Landlord Services:** Recommended for funding for \$24,569 for a case manager.

**DRAIL, Assistive Technology Services:** Recommended for funding for \$18,000 for equipment only.

**Community Housing & Shelter Services, Children's Supportive Services:** Not recommended for funding. The project description was not adequate for the review committee to establish the increase of services.

**The Salvation Army, Senior Meals (Home Delivered):** Not recommended for funding. Proposal was not descriptive enough in explaining an increase of services.

**Community Housing & Shelter Services, Supportive Housing:** Not recommended for funding. The review committee felt that the proposal did not indicate an increase of services.

**Children's Crisis Center, Sawyer House Nursery Expansion:** Recommended for funding for \$13,000 with the condition that the agency has to submit a copy of the conditional use permit and building permits.

**The Salvation Army, Subsidized Childcare:** Not recommended for funding. Proposal was not descriptive enough in explaining an increase of services. Also there is not information as to how the funds will be subsidized for each slot.

**Community Housing & Shelter Services, Homeless Prevention Case Management:** Recommended for funding for \$43,280 for rental assistance and shelter vouchers.

**Healthy Aging Association, "Young at Heart":** Not recommended for funding. The committee had questions about trainers certifications. The committee also felt that the need for this program is not as critical as others needed in the community.

Total Requests/Recommendations					\$ 339,494	109,443	\$110,000		
Committee is recommending a total allocation of \$109,443 in CDBG funding. Total CDBG funding available is \$110,000									

**REASONS FOR RECOMMENDATIONS, CDBG SERVICES FOR THE HOMELESS PROPOSALS NOT RECOMMENDED FOR FUNDING OR THOSE WITH SPECIAL CONDITIONS:**

**Nirvana, Women of Hope:** Not recommended for funding. Budget was inconsistent and vague. The committee felt that the most recent audit should be at least from 2002. Nirvana submitted an audit dated August 2001.

**Center for Human Services, Pathways:** Recommended for funding for \$16,860 for seventy five percent (75%) of the staff position requested.

**Center for Human Services, Hutton House:** Not recommended for funding. Due to the limited funding resources we could not fund this project.

**Inter-Faith Ministries, Santa Fe Homeless Shelter:** Recommended for funding for \$42,800 for rent only.

**Stanislaus Community Assistance Project, Homeless Prevention:** Not recommended for funding. The committee felt that the request for funds was a duplication of services.

**Community Housing & Shelter Services, Homeless Case Management:** Recommended for funding for \$29,720 shelter vouchers and bus passes.

**ESG Applications  
FY 2004-2005**

Agency	Program Name	Funding Request ESG	Recommended Funding Amounts ESG	Available ESG
Nirvana Drug and Alcohol Treatment	Women of Hope House	\$ 35,360	0	
Center for Human Services	Hutton House Runaway and Homeless Youth Shelter	\$ 5,250	1,700	
Center for Human Services	Pathways, Transitional Living Program (Food)	\$ 17,690	16,848

Interfaith Ministries	Santa Fe Emergency Shelter Project (Salaries and Household)	\$ 47,000	27,000	
Stanislaus Community Assistance Project	Homeless Prevention Counseling Services	\$ 22,252	0	
CHSS	Housing/Supportive Services Case Management	\$ 61,882	0	
Children's Crisis Center of Stanislaus County	Cricket's House Children's Homeless Shelter	\$ 14,040	14,040	
The Salvation Army	Emergency Shelter	\$ 75,000	0	
<b>Total Requests/Recommendations</b>		<b>\$ 281,950</b>	<b>61,831</b>	<b>\$ 105,715</b>

Committee is recommending a total allocation of \$61,831 in ESG funding. Total ESG funding available is \$105,715.

The Committee also recommended to set aside the remaining balance or \$43,884 for Winter Shelter proposals, and to release the proposals in June 2004

**REASONS FOR RECOMMENDATIONS, ESG PROPOSALS NOT RECOMMENDED FOR FUNDING OR THOSE WITH SPECIAL CONDITIONS:**

**Nirvana, Women of Hope:** Not recommended for funding. Budget was inconsistent and vague. The committee felt that the most recent audit should be at least from 2002. Nirvana submitted an audit dated August 2001.

**Center for Human Services, Hutton House:** Recommended for funding for \$1,700 for cabinets only. Bids for the replacement of the cabinets should be submitted to, and approved by, City staff, prior to execution of contract and reimbursement.

**Center for Human Services, Pathways:** Recommended for funding for \$16,848 for direct services only.

**Interfaith Ministries, Redwood Family Center:** Recommended for funding for \$2,243. The committee felt that the water softener was not critical.

**Interfaith Ministries, Santa Fe Emergency Shelter:** Recommended for funding for \$27,000 for security employees only.

**Stanislaus Community Assistance Project, Homeless Prevention:** Not recommended for funding. The budget was unclear as to how the ESG funds would be matched. Also, the committee felt that the request for funds was a duplication of services.

**Community Housing & Shelter Services, Housing/ Supportive Services Case Management:** Not recommended for funding. The proposal does not indicate the number of low-income Modesto residents that will benefit from this program.

**Salvation Army, Emergency Shelter:** Not recommended for funding. The application was unclear as to where the emergency shelter will operate. There is no specified location to date. There was no commitment as to how the ESG funds would be matched.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-212**

**A RESOLUTION AUTHORIZING STAFF TO ISSUE A NEW RFP FOR \$43,884  
OF ESG FUNDS FOR A WINTER SHELTER.**

WHEREAS, the City of Modesto receives several Federal grants from the United States Department of Housing and Urban Development (HUD), and

WHEREAS, the City receives a Community Development Block Grant (CDBG) and an Emergency Shelter Grant (ESG), and

WHEREAS, the City receives these grants annually because of its population size, number of households living below the poverty level, and the number of housing units that are considered substandard, and

WHEREAS, in Fiscal Year 2004-2005, the City's ESG grant is \$105,715, of which \$61,831 is recommended for allocation by the Citizens Housing and Community Development Committee (CH&CDC) to local non-profit agencies for the purposes of providing assistance that is consistent with the functions of ESG funding to very-low, low and moderate income persons and families residing within the city limits of Modesto, and

WHEREAS, the CH&CDC recommended that the balance of \$43,884 be allocated for a Winter Shelter through a new RFP process, and

WHEREAS, local non-profit agencies will be invited to submit applications for Request for Proposals (RFP) to be issued in May 2004, for a Winter Shelter for the balance of available ESG funds of \$43,884.

NOW THEREFORE BE IT RESOLVED by the Council of the City of Modesto that the Council hereby authorizes staff to issue a new RFP for a Winter Shelter for the balance of available FY 2004-2005 ESG funds of \$43,884.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6<sup>th</sup> day of April, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-213**

**A RESOLUTION OPPOSING THE PASSAGE OF SENATE BILL 744 (DUNN),  
HOUSING AND COMMUNITY DEVELOPMENT ACCOUNTABILITY**

WHEREAS, Senate Bill 744 establishes, within the State Department of Housing and Community Development (HCD), a procedure to hear appeals from developers of affordable housing that have had a project denied or have had conditions placed on it that would make the project financially unfeasible, and

WHEREAS, Senate Bill 744 passed the Senate at the end of January 2004, and has currently been read for the first time in the Assembly on January 26, 2004. The bill has not been assigned to a policy committee as of this date, and

WHEREAS, there already exist remedies with the Anti-NIMBY Law, Section 65589.5 of the Government Code to protect developers of low and moderate-income housing development for arbitrary conditions or denials, and

WHEREAS, the legislation proposes to transfer local land use authority to the state, and

WHEREAS, the legislation permits a developer to override local zoning when the Department of Housing and Community Development has failed to certify a local housing element, and

WHEREAS, developers and redevelopment agencies have concern about the significant increase in development costs associated with the recently imposed prevailing wage requirements which have reduced the feasibility of many affordable housing projects. The legislation does not empower the state to consider establishing a panel with

the authority to grant affordable housing developers relief from the state's prevailing wage requirements, and

WHEREAS, on October, 23, 2001, the Modesto City Council adopted a Strategic Plan and Vision to serve as the road map for the City's future, and

WHEREAS, the Strategic Plan Action Item 3.10 states, "Support comprehensive long term reform efforts to return to local governments their historical discretionary use of local revenues,"

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby opposes Senate Bill 744, proposed legislation for HCD State Housing Accountability, a copy of which is attached hereto as **Exhibit "A"** and incorporated herein by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of April 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

AMENDED IN SENATE JUNE 3, 2003

AMENDED IN SENATE APRIL 21, 2003

**SENATE BILL****No. 744**

---

**Introduced by Senators Dunn and Ducheny  
(Principal coauthor: Senator Hollingsworth)  
(Principal coauthor: Assembly Member Steinberg)  
(Coauthors: Senators Burton and Florez)**

February 21, 2003

---

An act to add Section 65585.4 to the Government Code, relating to planning.

## LEGISLATIVE COUNSEL'S DIGEST

SB 744, as amended, Dunn. Planning: housing.

Existing law requires each city, county, or city and county to prepare and adopt a general plan for its jurisdiction that contains certain mandatory elements, including a housing element. One part of the housing element is an assessment of housing needs and inventory of resources and constraints relevant to meeting these needs. The assessment includes the locality's share of regional housing needs which is determined by the appropriate council of governments, subject to revision by the Department of Housing and Community Development.

This bill would ~~establish within~~ *require* the department ~~a Housing Accountability Committee consisting of 5 members, appointed as specified,~~ to hear appeals of city, county, or city and county decisions on applications for the construction of housing developments that meet specified affordability requirements.

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: no.

*The people of the State of California do enact as follows:*

1 SECTION 1. Section 65585.4 is added to the Government  
2 Code, to read:

3 ~~65585.4. (a) There shall be within the department a Housing~~  
4 ~~Accountability Committee consisting of five members. The~~  
5 ~~director of the department and the Director of the Governor's~~  
6 ~~Office of Planning and Research shall be ex officio members,~~  
7 ~~except that either may designate an employee of his or her~~  
8 ~~respective department or office to serve on the committee. The~~  
9 ~~remaining three members shall be appointed by the Governor with~~  
10 ~~the advice and consent of the Senate. One member shall be a~~  
11 ~~member of a city council or board of supervisors, and one other~~  
12 ~~member shall have extensive experience in the development of~~  
13 ~~affordable housing. The appointed members shall serve for terms~~  
14 ~~of two years each, and the director shall designate the chairperson.~~  
15 ~~A member of the committee shall receive no compensation for his~~  
16 ~~or her services, but shall be reimbursed by the department for all~~  
17 ~~reasonable expenses actually or necessarily incurred in the~~  
18 ~~performance of his or her official duties. The committee shall hear~~

19 ~~65585.4. (a) The department shall hear appeals pursuant to~~  
20 ~~this section at least quarterly or more often as necessary. The~~  
21 ~~committee. The department shall conduct the hearings in~~  
22 ~~accordance with rules and regulations established by the~~  
23 ~~department. The department shall provide the space and clerical~~  
24 ~~and other assistance that the committee may require. department.~~

25 (b) Any applicant who proposes to construct a housing  
26 development that meets the criteria of subdivision (c) and whose  
27 application is either denied or approved with conditions that in his  
28 or her judgment render the provision of housing infeasible, may  
29 appeal the decision of the city, county, or city and county to the  
30 ~~Housing Accountability Committee~~ department. However,  
31 conditions or mitigation measures impose pursuant to a local  
32 coastal permit or an environmental review required by the  
33 California Environmental Quality Act (Division 13 (commencing  
34 with Section 21000) of the Public Resources Code) may not be  
35 appealed.

1 (c) An applicant may file an appeal with the committee  
2 department if both of the following criteria are met:

3 (1) The proposed housing development will meet any of the  
4 following affordability requirements:

5 (A) Five percent of the total housing of the housing  
6 development is available at affordable housing cost to extremely  
7 low income households whose household income is less than or  
8 equal to 30 percent of the area median income.

9 (B) Ten percent of the total housing of the development is  
10 available at affordable housing cost to very low income  
11 households, as defined in Section 50105 of the Health and Safety  
12 Code.

13 (C) Twenty percent of the total housing of the development is  
14 available at affordable housing cost to lower income households,  
15 as defined in Section 50079.5 of the Health and Safety Code.

16 (D) Fifty percent of the total housing of the development is  
17 available at affordable housing cost to moderate-income  
18 households, consistent with Section 50052.5 of the Health and  
19 Safety Code.

20 (2) Either of the following criteria is met as of the date on which  
21 the application to the city, county, or city and county is deemed  
22 complete:

23 (A) The city, county, or city and county has adopted a housing  
24 element that the department has determined pursuant to Section  
25 65585 to be in substantial compliance with the requirements of this  
26 article, and the proposed housing development, exclusive of any  
27 density bonus granted pursuant to Section 65915, is consistent  
28 with both the density allowed by the jurisdiction's zoning  
29 ordinance and the general plan land use designation as specified  
30 in any element of the general plan as of the date the application was  
31 deemed complete, provided that consistency shall not be required  
32 with the zoning ordinance or land use designation if the  
33 jurisdiction has not amended the ordinance or the designation to  
34 conform to the adopted housing element.

35 (B) The city, county, or city and county has not adopted a  
36 housing element that the department has determined pursuant to  
37 Section 65585 to be in substantial compliance with the  
38 requirements of this article, and the proposed housing  
39 development; is located on a site that is designated for residential

1 or commercial uses in any element of the general plan as of the date  
2 the application was deemed complete.

3 (d) An applicant may file an appeal with the ~~committee~~  
4 ~~department~~ within 20 days after the date of the decision by the  
5 local agency to deny the application or approve the application  
6 with conditions that render the provision of housing infeasible.  
7 The ~~committee-department~~ shall notify the local agency of the  
8 filing of ~~such~~ an appeal within 10 days, and the local agency shall,  
9 within 10 days of the receipt of the notice, transmit a copy of its  
10 decision and the reasons therefor to the ~~committee-department~~.  
11 The appeal shall be heard within 30 days after receipt of the request  
12 for an appeal by the applicant. The ~~appeal hearing may be~~  
13 ~~conducted by the board, a subcommittee of one or more members~~  
14 ~~of the board, or a hearing officer appointed by the chair of the~~  
15 ~~board appeal hearing may be conducted by the department or a~~  
16 ~~hearing officer appointed by the director of the department. A~~  
17 ~~stenographic record of the proceedings shall be kept. At its next~~  
18 ~~full meeting, the committee- Within 30 days of the appeals hearing,~~  
19 ~~the department~~ shall render a written decision, based upon a  
20 majority vote, stating its findings of fact, its conclusions and the  
21 reasons therefor. The hearing by the ~~Housing Accountability~~  
22 ~~Committee-department~~ shall be limited to the issue of whether, in  
23 the case of the denial of an application, the decision of the city,  
24 county, or city and county was reasonable and consistent with  
25 meeting local housing needs as determined pursuant to Section  
26 65584 and, in the case of an approval of an application with  
27 conditions and requirements imposed, whether those conditions  
28 and requirements render the provision of housing infeasible and  
29 whether they are reasonable and consistent with meeting local  
30 housing needs as determined pursuant to Section 65584. If the  
31 ~~committee-department~~ finds, in the case of a denial, that the  
32 decision of the local agency is not reasonable or consistent with  
33 meeting local housing needs, it shall vacate the decision and shall  
34 direct the local agency to issue any necessary approval or permit  
35 to the applicant. If the ~~committee-department~~ finds, in the case of  
36 an approval with conditions and requirements imposed, that the  
37 decision of the board renders the provision of housing infeasible  
38 and is not reasonable or consistent with meeting local housing  
39 needs, it shall order the local agency to modify or remove any such  
40 condition or requirement so as to make the project no longer

1 infeasible and to issue any necessary permit or approval. Decisions  
2 or conditions and requirements imposed by a local agency that are  
3 consistent with meeting local housing needs shall not be vacated,  
4 modified, or removed by the ~~committee~~—*department*  
5 notwithstanding that those decisions or conditions and  
6 requirements have the effect of rendering the provision of housing  
7 infeasible.

8 (e) In any appeal before the ~~committee~~—*department*, the  
9 applicant shall have the initial burden of proof to show that it has  
10 met the requirements of subdivision (c). In a case of approval with  
11 conditions or requirements imposed, the applicant shall also have  
12 the burden of proof to show that the conditions and requirements  
13 render the provision of housing infeasible. If the applicant meets  
14 the initial burden of proof, then the city, county, or city and county  
15 shall have the burden of proof to show that its action was  
16 reasonable in that denial of the project or the failure to implement  
17 the conditions and requirements, as proposed, would have a  
18 specific, adverse impact, as defined in Section 65589.5, upon the  
19 public health or safety, the physical environment, or on any real  
20 property that is listed in the California Register of Historical  
21 Resources, that there is no feasible method to satisfactorily  
22 mitigate or avoid the specific adverse impact without rendering the  
23 project infeasible, and that the mitigation or avoidance of such  
24 impacts outweigh local housing needs.

25 (f) The ~~Housing Accountability Committee~~—*department* or the  
26 applicant shall have the power to enforce the orders of the  
27 ~~committee~~—*department* at law or in equity in the superior court.  
28 The city, county, or city and county shall carry out the order of the  
29 ~~Housing Accountability Committee~~—*department* within 30 days of  
30 its entry and, upon failure to do so, the order of the ~~committee~~  
31 *department* shall for all purposes, be deemed to be the action of the  
32 local agency, unless the applicant consents to a different decision  
33 or order by the local agency.

34 (g) The department may charge a fee to cover actual costs  
35 directly related to the activities of the ~~Housing Accountability~~  
36 ~~Committee~~—*department in administering this section*. The fee shall  
37 initially be paid by the applicant. If the ~~committee~~—*department*  
38 orders approval of the proposed development or modifies or  
39 removes any conditions or requirements imposed upon the

1 applicant, the city, county, or city and county shall reimburse the  
2 applicant for the fee paid pursuant to this subdivision.

3 (h) (1) For the purposes of this section, “housing  
4 development” means a development project consisting of one or  
5 more residential dwelling units or an emergency shelter facility.

6 (2) For the purposes of this section, an adopted housing  
7 element that has been self-certified pursuant to Section 65585.1  
8 shall be deemed to have been approved by the department, unless  
9 a court finds that the jurisdiction’s housing element does not  
10 substantially comply with this article.

11 (i) The remedies provided in this section are in addition to any  
12 other remedy provided by law.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-214**

**A RESOLUTION APPROVING AN AMENDMENT TO THE CONTRACT FOR AUDIT SERVICES WITH MAZE & ASSOCIATES AT A COST NOT TO EXCEED \$29,040, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE CONTRACT AMENDMENT.**

WHEREAS, at its April 1, 2003, meeting the Modesto City Council adopted Resolution 2003-164 approving execution of a contract with Maze & Associates to perform the City's annual financial audits, and

WHEREAS, the City Manager executed said contract on behalf of the City of Modesto, and

WHEREAS, the audit firm was required as part of its work to perform additional work that was outside the scope of the original contract, at a price not to exceed \$29,040, and

WHEREAS, the contract for these audit services requires Modesto City Council approval for such additional work, and

WHEREAS, at its March 12, 2004, meeting the Audit Committee recommended that the Council approve payment for the additional work,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an amendment to the contract for audit services with Maze & Associates, authorizing the additional work proposed, at a cost not to exceed \$29,040.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute said contract amendment.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of April 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Jackman, Keating, Marsh, O'Bryant,  
Mayor Ridenour

NOES: Councilmembers None

ABSENT: Councilmembers Hawn

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-215**

**A RESOLUTION APPROVING THE AWARD OF A \$138,000 CONTRACT TO GDR ENGINEERING, INC. FOR ENGINEERING DESIGN SERVICES FOR THE PROJECT TITLED "SYLVAN/ROSELLE INTERSECTION IMPROVEMENTS" AND AUTHORIZING THE COMMUNITY FACILITIES DISTRICT ADMINISTRATOR TO EXECUTE THE CONTRACT.**

WHEREAS, following a Request for Qualifications which was sent to all local engineering firms, six statements of qualifications were received for the Sylvan/Roselle Intersection Design Project and were submitted to the City, and

WHEREAS, a selection team decided all six firms were qualified to provide engineering design services, and

WHEREAS, the selection team decided that GDR Engineering, Inc., rated highest for the design of the Sylvan/Roselle Intersection Project, in accordance with Administrative Directive 3.1, and

WHEREAS, the District Engineer has recommended that GDR Engineering, Inc., be accepted as the most qualified engineering consulting firm for engineering design services for the "Sylvan/Roselle Intersection Improvement project", and

WHEREAS, the District Engineer has recommended accepting the proposal of GDR Engineering, Inc., in an amount not to exceed \$138,000.00,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the award of a contract for engineering design services for the project titled "Sylvan/Roselle Intersection Improvement Project." to GDR Engineering, Inc., in an amount not to exceed \$138,000.00.

BE IT FURTHER RESOLVED that the Community Facilities District Administrator, or his designee, is hereby authorized to execute the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of April 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-216**

**A RESOLUTION RESTATING 2004 LOCAL GOVERNMENT  
TRANSPORTATION CONTROL MEASURES IN THE EXTREME OZONE  
ATTAINMENT DEMONSTRATION PLAN FOR THE SAN JOAQUIN VALLEY,  
ADDING MEASURE ST 8.4: CREDITS AND INCENTIVES FOR CARPOOLERS,  
AND RESCINDING RESOLUTION NO. 2004-101**

WHEREAS, the San Joaquin Valley Air Pollution Control District (SJVAPCD) has been designated by the Governor of California as the regional air quality planning agency in San Joaquin Valley, and

WHEREAS, the San Joaquin Valley nonattainment area was initially classified as a Severe Area for ozone according to the Clean Air Act, and

WHEREAS, On February 5, 2002 the City of Modesto adopted Resolution Number 2002-43 that adopted the Modesto's Reasonably Available Control Measures which were included in the SJVAPCD Severe Area Ozone Plan, and

WHEREAS, The San Joaquin Valley Air Pollution Control District (SJVAPCD) has reclassified the San Joaquin Valley as Extreme non attainment for the 1-hour ozone standard and is now developing an Extreme Ozone Attainment Demonstration Plan; and

WHEREAS, the Extreme Ozone Attainment Demonstration Plan is required to include Reasonably Available Control Measures from the City of Modesto, and

WHEREAS, the City of Modesto adopted updated Reasonably Available Control Measures on February 24, 2004, in Resolution No. 2004-101, and

WHEREAS, as described in the Staff Report from Peter Cowles, Acting Engineering and Transportation Director, presented at the April 27, 2004, meeting, the City of Modesto is required to add an additional Reasonably Available Control Measure to the Measures adopted in Resolution 2004-101,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto, that it finds, determines, and orders as follows:

1. That the Council of the City of Modesto agrees to proceed with a good faith effort to implement the Transportation Control Measures (TCMs) identified in Exhibit A which is part of this resolution;
2. That the Council of the City of Modesto commits to implement the TCM's as scheduled and with the funding sources identified. Recognizing, however, that the availability of necessary funding may depend on the funding programs or processes of various state and federal agencies, the City of Modesto agrees to consider modifications of the funding or schedules for implementation actions, if necessary.

BE IT FURTHER RESOLVED, that effective April 27, 2004, Resolution No. 2004-101 adopted on February 24, 2004, is hereby rescinded.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of April 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

## Explanations for Commitment to the 2004 Control Measures

### **Measure Title: ST 1.1: Regional Express Bus Program**

**Measure Description:** Purchase of buses to operate regional express bus services.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation, Operations and Maintenance

**Implementation Schedule:** Existing. Continuation of existing service dependent upon continued availability of revenue from federal and state sources and continued level of existing demand for service. Evaluation of service expansion contingent upon availability of funding from State and Federal sources specifically earmarked for public transit service.

**Funding Allocated to Measure and Source:** Service expansion contingent upon availability of funding from State and Federal sources specifically earmarked for public transit service. Potential funding sources include: Congestion Mitigation and Air Quality, Local Transportation Funds and passenger fares.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

### **Measure Title: ST 1.2: Transit Access to Airports**

**Measure Description:** Operation of transit to regional airports to serve air passengers.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation, Operations and Maintenance

**Implementation Schedule:** Existing. Continuation of service dependent upon continuation of existing level of state and federal transit revenue and in rider demand.

**Funding Allocated to Measure and Source:** Continuation of service dependent upon continuation of existing level of state and federal transit revenue. Potential funding sources include FTA Sec 5307, Local Transportation Funds, and passenger fares.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

### **Measure Title: ST 1.5: Expansion of Public Transportation Systems**

**Measure Description:** Expand and enhance existing public transit services. Monitor needs for increased frequencies on heavily used routes; implement as appropriate; implement service as appropriate for newly developed areas.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation, Operations and Maintenance

**Implementation Schedule:** Dependent upon available revenue and rider demand. Implementation of service subject to an increase in state and federal funding sources specifically available for public transit service.

**Funding Allocated to Measure and Source:** Potential funding sources include FTA Section 5307, Local Transportation Funds, and passenger fares.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 1.7 Free Transit During Special Events**

**Measure Description:** Offer free transit during selected special events to reduce event related congestion and associated emissions increases. Includes Try Transit Week, Modesto's International Festival, and service to the annual free Thanksgiving dinner at Modesto Centre Plaza.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation, Operations and Maintenance

**Implementation Schedule:** Dependent upon available revenue and rider demand.

**Funding Allocated to Measure and Source:** Potential funding sources include: FTA Section 5307, Local Transportation Funds and passenger fares.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 3.5: Preferential Parking for Carpools and Vanpools**

**Measure Description:** This measure encourages public and private employers to provide preferential parking spaces for carpools and vanpools to decrease the number of single occupant automobile work trips. The preferential treatment could include covered parking spaces or close-in spaces.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation, Operations and Maintenance

**Implementation Schedule:** The feasibility of this strategy at Tenth Street Plan has been evaluated. This plan will be reviewed every 24 months to assess if the feasibility of this strategy has changed.

**Funding Allocated to Measure and Source:** There is no cost involved with the evaluation.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 5.1: Develop Intelligent Transportation Systems**

**Measure Description:** "Intelligent Transportation Systems" includes various technological applications intended to produce more efficient use of existing transportation corridors.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation (Traffic Engineering)

**Implementation Schedule:** Three projects currently identified for this measure have been completed. These projects include an expansion of the ATMS Northeast completed by the end of 2002, an expansion of the ATMS Northwest completed by the end of 2003 and Phase III of the Closed Circuit Television completed by the end of 2002.

**Funding Allocated to Measure and Source:** The current projects are funded out of Congestion Mitigation and Air Quality funds.

ATMS Northeast \$490,428                      Pelandale-ATMS/CCTV: \$425,000  
Expand ATMS – College \$100,000    ATMS Northwest: \$805,000    CCTV: \$1,290,940

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 5.2: Coordinate Traffic Signal Systems**

**Measure Description:** This measure implements and enhances synchronized traffic signal systems to provide steady traffic flow at moderate speeds. In 2002 the City of Modesto won CATS award for best use of federal funds for the synchronizing the light outside the downtown core.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation (Traffic Engineering)

**Implementation Schedule:** Ongoing as long as Congestion Mitigation and Air Quality funds remain available for these projects. Current projects included: 1- synchronize downtown lights 2004; and 2- synchronize outside downtown core 2006.

**Funding Allocated to Measure and Source:** There is no specific funding associated with this measure. Future projects will be dependent upon Congestion Mitigation and Air Quality allocations.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 5.3: Reduce Traffic Congestion at Major Intersections**

**Measure Description:** This measure implements a wide range of traffic control techniques designed to facilitate smooth, safe travel through intersections. These techniques include signalization, turn lanes, roundabouts, or median dividers. The use of grade separations may also be appropriate for high volume or unusually configured intersections.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation (Traffic Engineering)

**Implementation Schedule:** On-going as long as Congestion Mitigation and Air Quality funding is available for these projects. Recent projects include roundabouts on Bowen and La Loma.

**Funding Allocated to Measure and Source:** Potential funding sources include Congestion Mitigation and Air Quality funds, Gas Tax funds and Capital Facilities Fees.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 5.4: Site-Specific Traffic Control Measures**

**Measure Description:** This measure could include geometric or traffic control improvements at specific congested intersections or at other substandard locations. Another example might be programming left turn signals at intersections to lag, rather than lead, the green time for through traffic.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation (Traffic Engineering)

**Implementation Schedule:** On-going as long as Congestion Mitigation and Air Quality funds remain available. Recent projects include: 1 - Woodland / Carpenter to 9<sup>th</sup> Street; 2- Scenic and Oakdale; 3 – Pelandale Dale to Tully; and, 4 – Kansas Needham Overpass.

**Funding Allocated to Measure and Source:** Potential funding sources include Congestion Mitigation and Air Quality funds, Capital Facilities Fees, and Gas Tax funds.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 5.9: Bus Pullouts in Curbs for Passenger Loading**

**Measure Description:** Provide bus pullouts in curbs, or queue jumper lanes for passenger loading and unloading in new areas.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation (Traffic Engineering)

**Implementation Schedule:** The City of Modesto operates a program to install bus pullouts in new development through the City's standard specifications for new development.

**Funding Allocated to Measure and Source:** This measure is to be paid from the Capital Facilities Fees program until such a time as the program is modified or discontinued.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 5.13: Fewer Stop Signs**

**Measure Description:** Improve traffic flow by removing stop signs and implementing alternative intersection control devices such as roundabouts.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation (Traffic Engineering)

**Implementation Schedule:** This project is on-going as long as Congestion Mitigation and Air Quality funds remain available for utilization.

**Funding Allocated to Measure and Source:** Potential funding sources include Congestion Mitigation and Air Quality funds, Capital Facilities Fees, and Gas Tax funds.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 7.16: Trip Reduction Oriented Development**

**Measure Description:** The General Plan provides that all new Specific Plan areas are to incorporate walkability and include commercial, residential and schools in proximity to residential. Modesto's development pattern is well above average density for the region.

**Responsible Agency for Implementation:** City of Modesto: Planning and Community Development Department

**Implementation Schedule:** On-going until revised by Council. As part of the upcoming General Plan Update and future Specific Plans the Council will consider expansion of, or additional pedestrian-oriented and "smart growth" development policies or standards that would result in trip reduction oriented development.

**Funding Allocated to Measure and Source:** No funding source was identified.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 7.18: Sustainable Development**

**Measure Description:** The General Plan provides that all new Specific Plan areas are to incorporate walkability and include commercial, residential and schools in proximity to residential. Modesto's development pattern is well above average density for the region.

**Responsible Agency for Implementation:** City of Modesto: Planning and Community Development Department

**Implementation Schedule:** On-going until revised by Council. As part of the upcoming General Plan Update and future Specific Plans the Council will consider expansion of, or additional pedestrian-oriented and "smart growth" development policies or standards that would result in trip reduction oriented development.

**Funding Allocated to Measure and Source:** No funding source has been identified for this measure.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 8.1: Financial Incentives, Including Zero Bus Fares**

**Measure Description:** Provide financial incentives or other benefits, such as free or subsidized bus passes and cash payments for not driving, in lieu of parking spaces for employees who do not drive to the workplace.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation

**Implementation Schedule:** The City of Modesto currently provides free rides to work for all of its employees and will continue this program subject to evaluation/termination during the meet and confer process with City employee representatives.

**Funding Allocated to Measure and Source:** Currently, this program is funded with Local Transportation Funds.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 8.3: Preferential Parking for Carpoolers**

**Measure Description:** Provide free, covered, near-building parking or similar incentives for carpoolers.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation

**Implementation Schedule:** The feasibility of this strategy at Tenth Street Place has been evaluated. This feasibility will be reviewed every 24 months.

**Funding Allocated to Measure and Source:** There is no cost involved with the evaluation.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 8.4: Credits and Incentives for Carpoolers**

**Measure Description:** Self-explanatory- form depends on locality.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation

**Implementation Schedule:** The feasibility of this strategy at Tenth Street Place has been evaluated. This feasibility will be reviewed every 24 months.

**Funding Allocated to Measure and Source:** There is no cost involved with the evaluation.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 9.2: Encouragement of Pedestrian Travel**

**Measure Description:** This measure involves the use of pedestrian travel as an alternative to automobile travel. Pedestrian travel is quite feasible for short shopping, business, or school trips. Promotion of pedestrian travel could be included in air pollution public awareness efforts to remind people of this basic alternative. The City of Modesto encourages pedestrian travel by providing Class I trails that connect neighborhoods with schools, shopping and employment centers. The planned 4.2-mile Virginia Corridor bike/pedestrian trail will be a major north-south artery connecting downtown Modesto with residential neighborhoods, schools, parks and commercial areas. Other Class I trails include the 3-mile Hetch-Hetchy Trail in north Modesto, the 5-mile Mensinger Trail along Dry Creek between downtown and Claus Road at the eastern limits of Modesto. The 3-mile Bev Kilpatrick Trail along the Tuolumne River provides a recreational walking experience and will ultimately connect to the downtown Modesto. The City also has plans for Class I trails along the irrigation canals within the city limits and for the entire river and creek system in Modesto.

**Responsible Agency for Implementation:** The City of Modesto Parks, Recreation and Neighborhood Department.

**Implementation Schedule:** The City's ongoing rideshare program that encourages alternative forms of transportation. In addition, as part of the upcoming General Plan Update and future Specific Plans the Council will consider expansion of, or additional pedestrian-oriented and "smart growth" development policies or standards that would result in pedestrian-oriented development. In addition the city's Parks, Recreation and Neighborhood Department has an ongoing program for the development of walking trails.

**Funding Allocated to Measure and Source:** The City of Modesto will continue its rideshare program so long as CMAQ funds are available for that purpose.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 9.3: Bicycle/Pedestrian program**

**Measure Description:** Fund high priority projects in countywide plans consistent with funding availability. The Parks Recreation and Neighborhoods Department is aggressively

seeking State and Federal funding for Class I trail construction of the trails listed above in ST 9.2. The Virginia Corridor Trail is a high priority project for funding within the next 5 years. All 11 miles of existing Class I trails and those that are planned are to be multi-user trails and will support walking, biking jogging and skating.

**Responsible Agency for Implementation:** City of Modesto Parks Recreation and Neighborhoods Department

**Implementation Schedule:** As part of the upcoming General Plan Update and future Specific Plans the Council will consider expansion of, or additional alternative transportation and “smart growth” development policies or standards that would result in development friendly to bicycle/pedestrian travel.

**Funding Allocated to Measure and Source:** Current funding includes Safe Routes to Schools funds for trail/street crossing improvements from College to Granger \$440,000 grant; \$44,000 City match; Proposition 40: \$350,000; Federal RSTP: \$400,000; State Bicycle Transportation Account (BTA): \$697,000 to apply toward construction from Orangeburg to College. Rotary Centennial Project: Donation of Labor and funds by Modesto's 5 Rotary Clubs, with a value of \$500,000 for construction from Roseburg to Orangeburg. Future funding may include CMAQ, LTF. All funding sources will be aggressively pursued.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 9.5: Encouragement of Bicycle Travel**

**Measure Description:** Promotion of bicycle travel to reduce automobile use and improve air quality. Bikeway system planning routes for inter-city bike trips to help bicyclists avoid other, less safe facilities. Another area for potential actions is the development and distribution of educational materials, regarding bicycle use and safety.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation, City of Modesto Parks Recreation and Neighborhoods Department

**Implementation Schedule:** The City of Modesto will continue to hold the bike to work day and family cycling festival to encourage bicycle travel. In addition, as part of the upcoming General Plan Update and future Specific Plans the Council will consider expansion of, or additional “smart growth” development policies or standards that would result in neighborhood design to encourage connectivity, and linkages between residential and non-residential development to provide opportunities for non-motorized modes including bicycles.

**Funding Allocated to Measure and Source:** Congestion Mitigation and Air Quality has been identified as a potential funding source.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 9.11: Safe Routes to School**

**Measure Description:** Continue to apply for grants to improve pedestrian and bicycle travel for school trips. The current Safe Routes to Schools grant monies will fund construction of intersection improvements along the Virginia Corridor Trail between College Avenue and Granger Avenue. The improvements will include L.E.D. lights in crosswalks at five street crossings, sidewalk, curb ramp and street light improvements and is to be constructed Summer, 2004. See item 9.2 for more detail on the Virginia Corridor. Other projects and will be considered for funding applications as opportunities come available.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation (Traffic Engineering), City of Modesto Parks Recreation and Neighborhoods Department

**Implementation Schedule:** On-going as long as funding remains available. In 2004 the City of Modesto received \$698,798 of state department of transportation funds for a bicycle train along the Virginia Corridor. In 2003 \$294,000 was received from the state to pay for flashing-light crosswalks, curb ramps, streetlights and sidewalks at the trail crossings on the corridor.

**Funding Allocated to Measure and Source:** Potential funding sources for this measure include the Safe Routes to School Program and Congestion Mitigation and Air Quality funds.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 10.2: Bicycle Racks on Buses**

**Measure Description:** Bicycle racks have been placed on all urban buses to increase bicycle travel.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation

**Implementation Schedule:** All City of Modesto urban transit buses have bicycle racks on them. Bicycle racks will be added to new buses as long as Federal and State funding remains available for the purchase of buses.

**Funding Allocated to Measure and Source:** Congestion Mitigation and Air Quality Funds as well as, Federal Transit Agency Section 5307 funds have been identified as potential funding sources.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 11.8: Ban Cruising during Ozone Alert Days**

**Measure Description:** Police enforced. Cruising is prohibited by ordinance in Modesto.

**Responsible Agency for Implementation:** City of Modesto Police Department

**Implementation Schedule:** On-going until such time as the measure is revisited/revoked.

**Funding Allocated to Measure and Source:** No specific funding source was identified.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 11.9: Discourage Drive-Thru's in new development**

**Measure Description:** Reduce the number of drive-thrus in new development or declare a moratorium on new development with drive-thrus until air quality standards are achieved.

**Responsible Agency for Implementation:** City of Modesto: Community and Economic Development Department

**Implementation Schedule:** As part of the upcoming General Plan Update and future Specific Plans the Council will consider expansion of, or additional alternative transportation and "smart growth" development policies or standards that would result in development friendly to bicycle/pedestrian travel.

**Funding Allocated to Measure and Source:** No specific funding source was identified.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure ST 13.1: Alternative Work Schedules**

**Measure Description:** Where appropriate, based on work requirements and employee availability for customer service, consider and implement limited pilot projects for alternative work schedules.

**Responsible Agency for Implementation:** City of Modesto: Personnel, Engineering and Transportation Department, Modesto Police Department, Modesto Fire Department, Operations and Maintenance Department

**Implementation Schedule:** In labor negotiations, alternative work schedules are options in each of the bargaining unit memorandums of understanding. Based on these MOU's alternative work schedules are utilized in several departments and are based on work requirements, employee scheduling and the needs of the department.

Currently there are employees in many departments including Police, Fire, Engineering and Transportation and Operations and Maintenance Departments who work alternative work schedules. This has been worked through any pilot stage issues and are part of the normal business practices for the departments. In the future, when appropriate, the City of Modesto will consider looking at other options for alternative work schedule projects.

**Funding Allocated to Measure and Source:** Funding for alternative work schedules are not available. Alternative work schedules projects will only be able to be accomplished if they work within existing funding availability.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 13.5: Internet Commerce and Education**

**Measure Description:** Encourage the use of the Internet to conduct public and private business and education.

**Responsible Agency for Implementation:** Various City departments in coordination with the City's Information Services Department.

**Implementation Schedule:** Currently underway and on-going. Examples of City services available on the Internet are: business license forms, dog license applications, claim forms, personnel vacancy notices and applications forms, zoning maps and Assessor's plats, utility information, City Standard Design and Construction Specifications, City Council Agendas, staff reports and minutes, Council Committee Agendas, the Modesto Municipal Code, Parks and Recreation Department recreational activity registration forms, and complaint/comment/suggestion forms.

**Funding Allocated to Measure and Source:** These activities are supported by the General Fund and various Utility Enterprise Funds, as may be appropriate.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 14.3: Land Use/Development Alternatives**

**Measure Description:** This measure includes encouraging land use patterns which support public transit and other alternative modes of transportation. In general this measure would

also encourage land use patterns designed to reduce travel distances between related land uses (eg. Residential-commercial). Shorter trip lengths ultimately relieve traffic congestion and improve air quality. The Modesto General Plan provides that all new Specific Plan areas are to incorporate walkability and include commercial, residential and schools in proximity to residential. Modesto's development pattern is well above average for density for the region.

**Responsible Agency for Implementation:** City of Modesto: Planning Economic and Development Department

**Implementation Schedule:** As part of the upcoming General Plan Update and future Specific Plans the Council will consider expansion of existing "neo-traditional" policies, or additional "smart growth" development policies and standards that would result in Specific Plan and neighborhood design to encourage connectivity and linkages between residential and non-residential uses and land-use patterns that would provide increased opportunities for non-motorized and alternative modes as well as reduce reliance on automobiles.

**Funding Allocated to Measure and Source:** No specific funding source was identified for this measure.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure Title: ST 15.2: Pedestrian and Bicycle Overpasses Where Safety Dictates**

**Measure Description:** On-going implementation as development occurs. One current project is the 9th Street Bridge that will have pedestrian sidewalks on either side of the bridge, with a fog stripe delineating a shoulder area for stalled vehicles. This shoulder is approximately 7.5 feet wide and could facilitate bicycle travel. The Specific Plan for the Virginia Corridor Trail project includes pedestrian bridge over crossings at three road crossings: Briggsmore Avenue, Standiford Avenue and Pelandale Avenue. The over crossings are considered essential over these roads due to the high-speed and high-volume of vehicle traffic they experience. A future pedestrian over crossing at the new Enochs High School has been identified as a specific project. Pedestrian and Bicycle safety necessitate these over crossings.

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation (Traffic Engineering)

**Implementation Schedule:** On-going as funding is available. The Enochs High School over Crossing is funded through a combination of developer fees and school funding.

**Funding Allocated to Measure and Source:** Potential sources include developer funding, pedestrian safety funds and Congestion Mitigation and Air Quality funds.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

**Measure ST 17.15: Encourage the Purchase and Use of Alternative, Cleaner Vehicles.**

**Measure Description:** Encourage the purchase and use of alternative, cleaner vehicles in city operations where appropriate

**Responsible Agency for Implementation:** City of Modesto: Engineering and Transportation, Modesto Police Department

**Implementation Schedule:** This project is on-going as long as funds are available for purchase and operations of the vehicles. Current projects include the addition of hybrid vehicles to the city fleet, purchase of hybrid buses for the transit fleet and purchase and operation of electric vehicles for police parking control.

**Funding Allocated to Measure and Source:** Potential funding sources include Congestion Mitigation and Air Quality funds, Capital Facilities Fees, and Gas Tax funds.

**Monitoring:** The City of Modesto agrees to provide information to the Air Pollution Control District as requested to complete the Air District's Annual Report.

---

## **Explanations for Non-Commitment to the 2004 Control Measures**

### **Measure ST 1.4: Mass Transit Alternatives**

The City of Modesto already operates a fixed route service as well as, a Dial-A-Ride service. As such, this measure is fiscally infeasible due to the expanded transit service already provided by the City of Modesto.

### **Measure ST 3.1: Commute Solutions**

This measure would be better served by implementation at the regional level. As such, the City of Modesto does not find it to be fiscally feasible to implement this measure. However, it should be noted that the City of Modesto supports the StanCOG regional rideshare program.

### **Measure ST 3.9: Encourage Merchants and Employers to Subsidize the Cost of Transit for Employees**

This measure would be better served by implementation at the regional level. As such, the City of Modesto does not find it to be fiscally feasible to implement this measure.

### **Measure ST 5.16: Adaptive Traffic Signals and Signal Timings**

Modesto currently has deployed a closed loop system with flexibility to implement a traffic responsive mode. Conversion to an adaptive traffic signal system is not fiscally feasible for the City of Modesto to implement.

### **Measure ST 7.14: Incentives for Cities with Good Development Practices**

This measure needs to be implemented on a larger scale to make it effective and would be best implemented on a regional or statewide scale. This measure is not fiscally feasible for the City of Modesto to implement.

### **Measure ST 7.15: Cash Incentives to Foster Jobs/Housing Balance**

This measure needs to be implemented on a larger scale to make it effective and would be best implemented on a regional or statewide scale. This measure is not fiscally feasible for the City of Modesto to implement.

### **Measure ST 7.17: Transit Oriented Development**

While with the upcoming General Plan Update and future Specific Plans the Council will consider expansion of existing “neo-traditional” policies, or additional “smart growth” development policies and standards to encourage alternate land-use patterns, there are limited opportunities within the Modesto Urban Area to plan and construct a true Transit-Oriented Development (TOD). The Amtrak station and the downtown rail station/transit center are the major opportunities for planning a TOD in Modesto. Typically, TODs are developed along rail or major transportation corridors in larger Metro areas with in excess of a million in population to support the associated rail/light rail/express bus systems (e.g. Laguna West in Sacto). Nonetheless, the opportunity could be explored for a mixed-use TOD at the Village One Amtrak site with future proposals in that area.

**Measure ST 7.19: Establishment of Urban Growth Boundaries**

Effective establishment of urban growth boundaries can only be accomplished in a regional setting. In the upcoming General Plan Update the Council will consider additional “smart growth” development policies and alternate growth patterns. There will also be opportunity to explore alternate growth boundaries for the General Plan. The General Plan Update will provide an opportunity for Modesto to do its part in a regional effort by reexamining the Community Growth Policy process set forth in the General Plan including the potential for redefining or establishing Modesto’s permanent urban growth boundaries.

**Measure ST 8.2: Internet Ride Matching Services**

This measure would be better served by implementation at the regional level. As such, the City of Modesto does not find it to be fiscally feasible to implement this measure. However, it should be noted that the City of Modesto supports the StanCOG regional rideshare program.

**Measure ST 15.1: Encouragement of Pedestrian Travel**

This measure would be better served by implementation at the regional level through Commute Connection.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-217**

**A RESOLUTION ACCEPTING THE WORK BY RICHARD A. HEAPS ELECTRICAL CONTRACTOR, INC. FOR THE "REWIRE 8 TRAFFIC SIGNALS" PROJECT AS COMPLETE, AUTHORIZING THE CITY CLERK TO FILE A NOTICE OF COMPLETION, AND AUTHORIZING PAYMENT OF AMOUNTS DUE TOTALING \$133,059.80 PER THE CONTRACT**

WHEREAS, a report has been filed by the Acting Engineering & Transportation Director that the project titled "Rewire 8 Traffic Signals" has been completed by Richard A. Heaps Electrical Contractor, Inc., in accordance with the contract agreement dated August 12, 2003.

NOW, THEREFORE, BE IT RESOLVED that the "Rewire 8 Traffic Signals" project be accepted from said contractor, Richard A. Heaps Electrical Contractor, Inc., that the notice of completion be filed with the Recorder of Stanislaus County and that payment of amounts due totaling \$133,059.80 as provided in the contract, be authorized.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of April 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Jackman, Keating, Marsh, O'Bryant,  
Mayor Ridenour

NOES: Councilmembers None

ABSENT: Councilmembers Hawn

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-220**

**A RESOLUTION APPROVING AN AMENDMENT TO THE AGREEMENT WITH STANTEC CONSULTING, INC., FOR ADDITIONAL ENGINEERING DESIGN SERVICES IN THE AMOUNT OF \$39,821, FOR THE PROJECT TITLED "REPLACEMENT OF THE ROSE/CELESTE SEWAGE LIFT STATION," AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AMENDMENT TO THE AGREEMENT, INCREASING THE TOTAL ESTIMATED COST OF THE SERVICES TO \$239,501**

WHEREAS, the Operations and Maintenance Department has determined that an additional pressure discharge pipeline from the Rose/Celeste Sanitary Sewer Lift Station to the discharge manhole is necessary, and

WHEREAS, the redundant pipeline is required because of the length of the pipeline and the necessity to maintain a high reliability of the output of the lift station, and

WHEREAS, the reliability of the output of the lift station is necessary because of the 24-hour-a-day nature of the institutional use of the sewage system in that area, and

WHEREAS, the Acting Engineering & Transportation Director has recommended accepting the proposal of Stantec Consulting, Inc., for additional design services in an amount not to exceed \$39,821,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Amendment to Agreement for additional engineering design services for the project titled "Rose/Celeste Lift Station" to Stantec Consulting, Inc., in an amount not to exceed \$39,821.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Amendment to Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of April 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-221**

**A RESOLUTION APPROVING A MITIGATED NEGATIVE DECLARATION  
(SCH #2003062058) FOR THE SHACKELFORD AREA SANITARY SEWER  
CROSSING IN THE CITY OF MODESTO AT THE TUOLUMNE RIVER**

WHEREAS, Section 15064 (f)(2) of the CEQA Guidelines relating to Initial Study/Mitigated Negative Declarations permits a lead agency to prepare an Initial Study/Mitigated Negative Declaration on any proposed project to analyze whether the project may cause any significant effect on the environment, and

WHEREAS, ESA Associates, Inc., under contract with the City, prepared an Initial Study leading to a Mitigated Negative Declaration (SCH #2003062058) which reviewed the proposed Shackelford Area Sanitary Sewer Crossing Project and said Initial Study identified potential significant effects from the proposed project relating to Biological Resources, Cultural Resources, Geology and Soils, Hazards and Hazardous Materials, Hydrology and Water Quality, and

WHEREAS, feasible mitigation measures were incorporated to revise the subsequent project before the Initial Study/Mitigated Negative Declaration was released for public review pursuant to CEQA Section 21092 in order to avoid or mitigate the identified effects to a point where clearly no significant effect on the environment will occur, and

WHEREAS, CEQA Guidelines Section 15070 permits the adoption of Mitigated Negative Declarations when the project has been revised, so that potential significant adverse effects can be avoided or mitigated to a less than significant level.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study/Mitigated Negative Declaration prepared for the Shackelford Sewer Crossing Project, a copy of which is on file in the City Clerk's Office, and based on the substantial evidence included in said Mitigated Negative Declaration makes the following findings:

1. An Initial Study/Mitigated Negative Declaration prepared pursuant to CEQA Section 15064 (f)(2) has identified potential significant environmental effects from the proposed project relating to Biological Resources, Cultural Resources, Geology and Soils, Hazards and Hazardous Materials, Hydrology and Water Quality.

Potential Significant Environmental Effects:

Biological Resources

- a. Candidate, sensitive, or special status species
- b. Federally protected wetlands
- c. Movement of fish or wildlife species

Cultural Resources

- a. Historical resource
- b. Archaeological resource
- c. Paleontological Resource
- d. Human Remains

Geology and Soils

- a. Exposure to adverse effects
- b. Landslides

Hazards and Hazardous Materials

- a. Hazardous materials release
- b. Hazardous materials sites

Hydrology and Water Quality

- a. Water quality standards
- b. Deplete groundwater supplies
- c. Existing drainage pattern
- d. Exposure to flooding

2. Feasible mitigation measures were incorporated to revise the project before the Mitigated Negative Declaration and Initial Study was released for public review in order to avoid or mitigate the identified effects to a point where clearly no significant effects on the environment will occur.

The City's Community Development Department and Engineering and Transportation Department reviewed the proposed project and determined the mitigation measures below will address the identified impacts.

The 30-day public review period began on June 10, 2003 and ended on July 10, 2003. Following Public Review, there were no suggested technical revisions to be made to the mitigation document to clarify and amplify the efficiency of the mitigation. Therefore, the revised mitigation will avoid or mitigate the identified effects to a point where clearly no significant effects on the environment will occur.

Mitigation:

The following mitigation measures summarized below (see Attachment A for detailed mitigation measures) will avoid or mitigate adverse effects:

Biological Resources

- a. Mitigation Measure BIO-1 – Valley Elderberry Longhorn Beetle: Avoid habitat whenever possible. Transplant elderberry shrubs. Provide habitat for the beetle in perpetuity.
- b. Mitigation Measure BIO-2 – Nesting Raptors and California Species of Special Concern: Survey nesting areas within 500' of the construction site, two weeks in advance.
- c. Mitigation Measure BIO-3 – Special Status Fish: Stream Sedimentation and Habitat alteration will be minimized. Fish barriers, entrainment or stranding will be avoided.
- d. Mitigation Measure BIO-4 – Special Status Reptiles: Barrier fencing shall be installed around the proposed project construction area.
- e. Mitigation Measure BIO-5 – Timing: Confine work in streams, wetlands to the dry season between July 1 and October 15.

Cultural Resources

- a. Mitigation Measure CUL-1: If any prehistoric or historic cultural resource is discovered, all work within 50 feet shall be halted until consultation with a qualified archaeologist is complete.
- b. Mitigation Measure CUL-2: A qualified paleontologist shall be notified in the event of an unanticipated discovery.
- c. In the event of the discovery of human remains, the City shall adhere to CEQA Guidelines Section 15064.5 (e)(1) by contacting the county coroner and the Native American Heritage Commission if the

person is believed to be a deceased Native American.

#### Geology and Soils

- a. Mitigation Measure GEO-1: The contractor shall implement the recommendations of the Geotechnical Report as related to excavation slopes, shoring, bracing, pipe bedding and backfill.

#### Hazards and Hazardous Materials

- a. Mitigation Measure HAZARDS-1: All construction-related hazardous materials shall be transported and stored in a manner consistent with relevant regulations and guidelines.
- b. Mitigation Measure HAZARDS-2: Contractor shall immediately control any leak or spill.
- c. Mitigation Measure HAZARDS-3: If contamination is encountered, work shall be halted, contamination identified, and removal consistent with the appropriate regulatory agencies.

#### Hydrology and Water Quality

- a. Mitigation Measure HYDRO-1: The project is required to minimize the exposure of sediments to runoff, implement Best Management Practices that provide erosion and sediment control, insert a copy of the Regional Water Quality Control Board and NPDES permit as a part of the construction contract.

3. There is no substantial evidence in light of the whole record before the public agency that the project, as revised, may have a significant effect on the environment (CEQA Section 21064.5(2)).
4. Based on the above-referenced Initial Study and feasible mitigation measures incorporated to revise the proposed project in order to avoid the effects or mitigate the effects to the point where clearly no significant effect on the environment will occur, staff finds that a Mitigated Negative Declaration should be adopted pursuant to PRC Section 21157.5 for the proposed Shackelford Area Sanitary Sewer Crossing project.
5. Although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because the mitigation measures described above have been added to the project. A MITIGATED NEGATIVE DECLARATION will therefore be adopted.

6. The cumulative impacts of this project are consistent with those set forth in the Wastewater Master Plan Master EIR. All appropriate mitigation measures from the Master EIR have been incorporated into the project, and no further evaluation of cumulative impacts is required as this project generates no significant cumulative impact.
7. As required by CEQA Section 21081.6 et seq., a mitigation monitoring program (see Exhibit A) will be adopted by incorporating the mitigation measures into the project plan (Section 21081.6(b)).

Therefore, pursuant to CEQA Guidelines Section 15070, a Mitigated Negative Declaration should be adopted for this project.

A copy of said Mitigated Negative Declaration (SCH NO. 2003062058) is on file with the City Clerk.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Engineering and Transportation Director is hereby authorized and directed to file a notice pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of April 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 – 222**

**A RESOLUTION APPROVING SUBMISSION OF AN APPLICATION TO THE DEPARTMENT OF TRANSPORTATION FOR A SMALL COMMUNITY AIR SERVICE PROGRAM GRANT IN THE AMOUNT OF \$565,200 FOR AN AIRLINES STARTUP INCENTIVE PROGRAM, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE APPLICATION ON BEHALF OF THE CITY**

WHEREAS, the Federal Department of Transportation (DOT) has called for the submission of applications for a Small Community Air Service Program Grant not later than May 14, 2004, and

WHEREAS, communities that will be considered eligible for funding must either have insufficient air service or have unreasonably high airfares, and

WHEREAS, the Modesto City-County Airport meets the Department of Transportation's definition of a small community that is lacking adequate air service and has unreasonably high airfares, and

WHEREAS, the City applied for a similar grant in 2003 and was unsuccessful in securing a grant at that time, and

WHEREAS, the DOT is encouraging communities such as Modesto who were not awarded grants in 2003 to resubmit their grant applications in 2004, and

WHEREAS, staff has prepared an application that encourages the participation of a public-private consortium of market area businesses and organizations in the program should the City be awarded a grant by DOT, and

WHEREAS, the application recommends a Regional Carrier to provide daily direct service from Modesto to Los Angeles International Airport, and

WHEREAS, the Council's Economic Development Committee considered the recommendation to submit an application for \$565,200 to the DOT and endorsed the recommendation at their April 7, 2004 meeting.

NOW THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves submitting a grant application for \$565,200 to the DOT for the Small Community Air Service Program.

BE IT FURTHER RESOLVED that Council authorizes the City Manager, or his designee, to execute the application on behalf of the City of Modesto.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27<sup>th</sup> day of April, 2004 by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carrier and the resolution adopted by the following vote:

RESOLUTION NO. 2004 -223**

**A RESOLUTION APPROVING SUBMISSION OF A GRANT APPLICATION TO THE FEDERAL AVIATION ADMINISTRATION IN THE AMOUNT OF \$500,000 FOR THE PREPARATION OF AN ENVIRONMENTAL DOCUMENT AND APPROVAL PROCESS FOR THE AIRPORT MASTER PLAN 2002, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE APPLICATION ON BEHALF OF THE CITY**

WHEREAS, the City of Modesto contracted with Coffman Associates in December 2001 to prepare a 20-year Master Plan for the Modesto City-County Airport, and

WHEREAS, a part of Coffman's scope of work included the preparation of an Initial Study to determine the extent of studies and documentation needed to clear the Master Plan from an environmental standpoint, and

WHEREAS, said Initial Study is at such a stage that it is clear that preparation and approval of both Federal and State environmental documents will be required as a part of the Master Plan process, and

WHEREAS, the preparation and approval of the Federal portion of said environmental documents are eligible for Federal participation through Grants administered by the Federal Aviation Administration (FAA), and

WHEREAS, the City of Modesto is required to prepare and submit an Application for Federal Assistance to the FAA in order to receive a Grant Offer for reimbursement of expenditures associated with the preparation and approval of the environmental documents, and

WHEREAS, the Council' Economic Development Committee considered the recommendation to submit an Application for \$500,000 to the FAA and endorsed the recommendation at their April 7, 2004 meeting.

NOW THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves submitting an Application for \$500,000 to the FAA for the preparation and approval of environmental documentation associated with the Airport Master Plan 2002.

BE IT FURTHER RESOLVED that Council authorizes the City Manager to execute the Application on behalf of the City of Modesto.

**A RESOLUTION APPROVING A REFUND OF MIL TAXES TO ALLCARE IN THE AMOUNT OF \$23,686.86 DUE TO APPORTIONMENT AND AUTHORIZING THE FINANCE DIRECTOR, OR HER DESIGNEE, TO PROCESS SAID REFUND.**

WHEREAS, by Resolution No. 2003-501, adopted by the City council on September 23, 2003, the City adopted Business License Tax Apportionment Guidelines pursuant to Section 6-1.436 of the Modesto Municipal Code, and

WHEREAS, on the basis of said Apportionment Guidelines, AllCare has submitted a request for business license tax refund for the period from January 1, 2002, to September 30, 2003, and

WHEREAS, the City Finance Department has verified said refund, and

WHEREAS, the Modesto City Council is required to approve all refunds of more than \$5000.00,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a refund in the amount of \$23,686.86 to AllCare.

BE IT FURTHER RESOLVED that the Finance Director, or her designee, is hereby authorized to process said refund.

EXHIBIT A  
SCOPE OF SERVICES

Project Goal

To assist the Finance Director in the planning and execution of the 2004-05 annual budget process.

Tasks & Deliverables

1. Design the overall outline of the 2004-05 annual budget process and calendar, subject to the approval of the Finance Director and City Manager.

Deliverable(s): Decision memos authorizing the budget process outline, decision procedures, and key definitions for submission to the City Manager.

2. Plan the implementation of the process, once approved by the City Manager. Work with city budget staff to define concrete processes and procedures needed to carry out the process design. Revise forms used for decision packages and other submissions within the budget process.

Deliverable(s): Updated annual budget manual, suitable for distribution to city staff. Updated forms.

3. Redesign materials to be presented to the City Council including the City Manager's Recommended Operating Budget document. Meet with department managers to solicit input regarding budget document contents and format. Develop software to generate documents from data extracted from the City's BRASS system.

Deliverable(s): Budget document design memo, outlining the proposed design for the document and any related materials. Document generating software application, capable of generating applicable sections of the document(s) from data extracted from BRASS. Redesign, develop, complete, produce and deliver the Fiscal Year 2005 operating budget document to be adopted by Council in June 2004.

4. Targeted analysis of Employee Benefit Fund (EBF). Review the condition of the EBF, including audit results, the City's actuarial studies, and current reserving policies. Develop a proposed reserve policy for the future, including the effect of the proposed policy on the 2004-05 annual budget.

Deliverable(s): Analysis memo, presenting the results of the analysis and explaining the proposed future policy. Decision memo summarizing the analysis and presenting the proposed policy for ratification by the City Manager. Budget impact data, suitable for loading into BRASS for the 2004-05 annual budget.

5. Redevelopment Agency review. Review the condition of the Redevelopment Agency.

Deliverable(s): Analysis memo, presenting results of the review.

6. Fleet Fund review. Review the financial status of the fleet fund, fleet capital replacement plans and cash-flow projections, as well as equipment replacement rate calculation methodology. Recommend a reserve level policy and a replacement rate calculation methodology for the future, and identify the results for the 2004-05 budget.

Deliverable(s): Analysis memo, presenting the results of the analysis and explaining the recommended policy and calculation methodology. Decision memo, summarizing the proposed policy for ratification by the City Manager. Budget impact data, suitable for loading into BRASS for the 2004-05 annual budget.

EXHIBIT A  
ADDITIONAL SCOPE OF SERVICES

7. Evaluation of the City's Capital Improvement Projects.

Deliverable(s): Analysis memo presenting the results of the evaluation. The memo will identify the projects to be closed, proposed future expenditures for projects in progress, and new projects for Council consideration.

8. Redesign, development and completion of the Capital Improvement Program budget to be adopted by Council in September 2004.

Deliverable(s): Revised CIP budget document with analysis memo describing the procedures for opening, amending and closing CIP projects. Complete and develop Capital Improvement Program budget for Fiscal Year 2005.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-226**

**ADOPT A RESOLUTION AUTHORIZING THE PURCHASE OF ONE (1) CATERPILLAR 420D BACKHOE UNDER THE STATE OF CALIFORNIA, DEPARTMENT OF GENERAL SERVICES, CALIFORNIA MULTIPLE AWARD SCHEDULE (CMAS) CONTRACT FROM HOLT OF CALIFORNIA OF STOCKTON, CA. FOR A TOTAL ESTIMATED COST OF \$70,029.19.**

WHEREAS, the Operations and Maintenance Department-Fleet Services has requested the purchase of a Caterpillar 420D backhoe, and

WHEREAS, the new storm water basins are larger and require a higher level of maintenance, which can be performed by the Caterpillar 420D backhoe, and

WHEREAS, this additional backhoe will be used by the maintenance crews, and

WHEREAS, CFD funds are being made available for the City to perform maintenance, and

WHEREAS, the estimated cost of a new Caterpillar 420D backhoe purchased under a California Multiple Award Schedule (CMAS), General Service Administration Statewide pricing contract is \$70,029.19, and

WHEREAS, the estimated State Service Charge for using the CMAS contract is \$1,258.73, and

WHEREAS, purchasing the equipment from Holt of California under the CMAS contract will allow the City to receive the lowest possible price for this piece of industrial equipment, and

WHEREAS, Holt of California, Stockton, CA. is the closest authorized dealer for this equipment, and there are no local vendors authorized to sell this piece of industrial equipment, and

WHEREAS, the estimated total cost of this purchase is \$70,029.19, and

WHEREAS, the Modesto Municipal Code (MMC) generally requires all purchases exceeding \$50,000 for materials and equipment of this type to be formally bid, and

WHEREAS, Modesto Municipal Code Section 8-3.204(d) allows the Purchasing Supervisor to determine that a process other than the formal bid procedure set forth in Section 8-3.203 will result in a procurement for the City at the lowest possible cost commensurate with the desired quality, and

WHEREAS, piggybacking off the State of California Multiple Award Schedule (CMAS) will achieve the lowest cost at the desired quality, and

WHEREAS, at its meeting on August 13, 2003, the Finance Committee authorized City staff to take this same requirement purchase to Council for approval.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Purchasing Supervisor is hereby authorized to purchase of a Caterpillar 420D backhoe from Holt of California under the CMAS statewide pricing contract for a total estimated cost of \$70,029.19.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of April 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-227**

**A RESOLUTION AUTHORIZING THE AWARD OF BID AND CONTRACT FOR SEVEN (7) NEW, CURRENT YEAR/MODEL ¾ TON TRUCKS TO THE FOLLOWING VENDORS: HERITAGE FORD OF MODESTO, CA. FOR FIVE (5) NEW, CURRENT YEAR/MODEL ¾ TON TRUCKS IN THE APPROXIMATE AMOUNT OF \$104,481, AND TO AMERICAN CHEVROLET OF MODESTO, CA. FOR TWO (2) NEW, CURRENT YEAR/MODEL ¾ TON TRUCKS IN THE APPROXIMATE AMOUNT OF \$52,087. THE TOTAL APPROXIMATE PURCHASE AMOUNT FOR ALL SEVEN (7) NEW, CURRENT YEAR/MODEL ¾ TON TRUCKS IS \$156,568.**

WHEREAS, the Operations and Maintenance Department-Fleet Services has requested the purchase of seven (7) new, current year/model ¾ ton trucks, and

WHEREAS, Resolution No. 2004-116 authorized the Purchasing Supervisor to solicit Request for Bid (RFB) for four (4) new, current year/model ¾ ton trucks, and

WHEREAS, three (3) additional new, current year/model ¾ ton trucks were requested by Fleet Services and added to the RFB for a total of seven (7) new, current year/model ¾ ton trucks, and

WHEREAS, seven (7) of the new, current/model year trucks are additional trucks to the fleet, and

WHEREAS, three (3) of the trucks will be used by Water Division field crews in the construction and maintenance of the City's water system, and

WHEREAS, three (3) of the trucks will be used by the Wastewater Division in the maintenance of the City's wastewater system, and

WHEREAS, one (1) truck will be used by the Composting operations, and

WHEREAS, out of seven (7) vendors solicited, five (5) responded to the RFB, and

WHEREAS, Heritage Ford of Modesto, CA. is the lowest responsive and responsible bidder for five (5) new, current year/model ¾ ton trucks in the approximate amount of \$104,481, and

WHEREAS, American Chevrolet of Modesto, CA. is the lowest responsive and responsible bidder for two (2) new, current year/model trucks in the approximate amount of \$52,087, and

WHEREAS, the combined estimated total cost of all seven (7) new, current year/model ¾ ton trucks is \$156,568, and

WHEREAS, on January 26, 2004 the Finance Committee recommended taking the request for authorization to award the bid for the seven (7) new, current year/model trucks to the full Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards the bid and contract for a total of seven (7) new, current year/model ¾ ton trucks to the following vendors:

Heritage Ford of Modesto, CA. for five (5) new, current year/model ¾ ton current year trucks in the approximate amount of \$104,481, and American Chevrolet of Modesto CA., for two (2) new, current year/model ¾ ton trucks in the approximate amount of \$52,087. The approximate total purchase amount for the seven (7) new, current year/model ¾ ton trucks is \$156,568.

BE IT FURTHER RESOLVED that the Purchasing Supervisor is hereby authorized to issue purchase orders for the seven (7) new, current year/model ¾ ton trucks.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of April 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-228**

**A RESOLUTION AUTHORIZING THE AWARD OF PROPOSAL AND CONTRACT FOR SPOILS REMOVAL SERVICES TO ON GRADE CONTRACTING OF JAMESTOWN, CA. FOR AN INITIAL ONE-YEAR PERIOD, WITH THE OPTION OF FOUR (4) ADDITIONAL, ONE-YEAR CONTRACT EXTENSIONS FOR AN APPROXIMATE ANNUAL AMOUNT OF \$240,000.**

WHEREAS, the Operations and Maintenance Department-Water Division and Wastewater Collection has requested the purchase of spoils removal services, and

WHEREAS, the spoils removal service contractor would remove dirt, mud, asphalt, and other debris related to various maintenance and construction activities, and

WHEREAS, this activity affects a number of work areas in the Department, and

WHEREAS, the Wastewater Collections Division generates spoils from rockwell maintenance, and

WHEREAS, the Water Operations Division is a large generator of spoils, and

WHEREAS, spoils materials are generated each time staff repairs a water leak, installs a new water line, or renews a water service, and

WHEREAS, if left along the roadside the spoil materials become an eyesore within the community as well as an attractive nuisance with potential liability concerns for the City, and

WHEREAS, one of the benefits of removing spoils is that the material may be recycled into other products used in construction projects, and

WHEREAS, recycling keeps the materials out of landfills and out of the waste stream, and

WHEREAS, it is estimated that the City as a whole generates approximately 20,000 tons annually in spoils, and

WHEREAS, Resolution 2004-117 rejected proposals received on January 6, 2004, and

WHEREAS, Resolution 2004-117 authorized the rebid of proposals for spoils removal services, and

WHEREAS, out of nine (9) vendors solicited, two (2) responded to the RFP, and

WHEREAS, an evaluation committee consisting of Operations and Maintenance and Purchasing Division staff evaluated proposals for spoils removal services per evaluation criteria as defined per Specification 0304-17, Section 2.6, and

WHEREAS, based on a total RFP evaluation score, On Grade Contracting of Jamestown, CA. is the lowest responsive and responsible proposer for spoils removal services,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the award of proposal and contract for spoils removal services to On Grade Contracting of Jamestown, CA. for an initial one-year period, with the option of four (4) additional, one-year contract extensions for an estimated annual amount of \$240,000.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of April 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-229**

**A RESOLUTION AUTHORIZING THE AWARD OF BID AND CONTRACT FOR SIXTEEN (16), 2004 FORD CROWN VICTORIA, CHP CLASS "E" PATROL SEDANS TO HERITAGE FORD OF MODESTO, CA. FOR A TOTAL ESTIMATED COST OF \$410,714.34.**

WHEREAS, the Operations and Maintenance Department-Fleet Services has requested the purchase of sixteen (16), 2004 Ford Crown Victoria, CHP Class "E" patrol sedans, and

WHEREAS, on August 26, 2002 the Finance Committee recommended that Fleet Services identify critical equipment and vehicles for Council approval, and bring those requests forward on an as needed basis, and

WHEREAS, the Ford Crown Victoria, CHP Class "E" patrol sedan is the standard that has been developed for the City's patrol sedans, and

WHEREAS, delivery of these vehicles will be coordinated to coincide with the lifecycles of the current patrol fleet in order to meet the replacement needs over the next twelve (12) months, and

WHEREAS, Resolution 2004-120 authorized the Purchasing Division to solicit formal bids for sixteen (16), 2004 Ford Crown Victoria, CHP Class "E" patrol sedans, and

WHEREAS, out of twenty-six (26) vendors solicited, eight (8) responded to the RFB, and

WHEREAS, Heritage Ford of Modesto, CA., was determined to be the lowest responsive and responsible bidder, and

WHEREAS, the City's two (2) percent vendor preference was a factor in determining the lowest responsive and responsible bidder for patrol sedans, and

WHEREAS, on February 23, 2004, the Finance Committee recommended taking this request for authorization to purchase said vehicles to the full Council for approval, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards the bid and contract for sixteen (16), 2004 Ford Crown Victoria, CHP Class "E" patrol sedans to Heritage Ford of Modesto, CA. for an estimated total cost of \$410,714.34.

BE IT FURTHER RESOLVED that the Purchasing Supervisor is hereby authorized to issue a purchase order for (16), 2004 Ford Crown Victoria, CHP Class "E" patrol sedans to Heritage Ford of Modesto, CA. for a total estimated cost of \$410,714.34.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-231**

**A RESOLUTION REVISING THE POSITION CLASSIFICATION PLAN FOR  
THE CITY OF MODESTO.**

WHEREAS, a Position Classification Plan for the City of Modesto was adopted by Modesto City Council Resolution 88-338 pursuant to Rule 2 of the Personnel Rules and Regulations of the City of Modesto, and

WHEREAS, the City Manager has recommended to the Council amendments to the Position Classification Plan, and

WHEREAS, Rule 2.2 of the City of Modesto Personnel Rules provides that revisions to the Classification Plan shall be effective upon adoption of resolution of the City Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION I. CLASSIFICATION CREATED. The Position Classification Plan of the City of Modesto is hereby amended to create the following classification:

Police Facilities Coordinator

The job specification for this classification is being created as a result of the need for a new job specification as part of a job audit. The specification for the classification of Police Facilities Coordinator, as shown on the attached **Exhibit "A,"** which is hereby made a part of this resolution by reference, is hereby approved and made part of the Position Classification Plan of the City of Modesto.

SECTION 2. EFFECTIVE DATE. This resolution shall become effective on and after April 27, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of April 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

No. 3793

APRIL 2004

## POLICE FACILITIES COORDINATOR

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

### DEFINITION

To facilitate a variety of activities related to the operation, maintenance, repair and reconstruction of department facilities, infrastructure, equipment and grounds; to administer various service contracts for janitorial, landscaping, heating and air conditioning for police facilities; to provide related administrative support to management staff and to coordinate the execution of construction projects related to the physical environment in police facilities to enhance the delivery of police services.

### SUPERVISION RECEIVED AND EXERCISED

Receives supervision from the Support Division Commander and Information Services Lieutenant.

May exercise functional supervision over assigned staff and contractors involved in various projects.

### ESSENTIAL AND MARGINAL FUNCTION STATEMENTS

Essential and other important responsibilities may include, but are not limited to the following:

Assist in the design, planning, prioritizing, assignment and inspection of various maintenance, repair, and construction projects.

Determine facilities/equipment needs, prepare cost estimates, direct and recommend the purchase of materials, both new and replacement equipment; prepare price, quality and value comparisons in the evaluation of bids, materials, services and equipment needs; and provide for contractual services.

Monitor all aspects of property management including lease/operating agreements of the department.

Review division operations and recommend/implement efficient cost saving measures and improvements; assist in the development of policies and procedures in assigned area.

Requisition supplies and materials; maintain time, material and equipment use records in accordance with departmental policies and accepted standards; monitor and control expenditures.

Keep current on laws, regulations, principles and practices of facilities management and purchasing.

May prepare equipment, materials and services specifications and other necessary documents related to assigned area of responsibility.

Arrange for special event production needs including equipment and rentals; schedule and coordinate the set-up and teardown of equipment for special events.

Review, inspect and submit requests for work involving the operation, maintenance, repair and reconstruction of department facilities, infrastructure, equipment and grounds.

Prepare various reports on operations and assigned work activities.

Coordinate maintenance and service contracts and maintain liaison between service providers and contractors and the appropriate operating department.

Issue keys and electronic security access cards; maintain records for these systems.

Marginal Functions:

Perform related duties and responsibilities as required.

QUALIFICATIONS

Knowledge of:

Principles and practices of purchasing operation, including the writing and interpretation of specifications.

Commerical plan review procedures, including reading and interpreting blueprints and/or drawings.

Materials, methods, practices, equipment and elements of construction supplies and equipment used in facilities construction, maintenance and repair.

Procedures and equipment typically used in the provision of police services.

Safe work practices; regulatory safety programs and procedures.

Modern office procedures, methods and practices including the use of a variety of office equipment.

Ability to:

Plan, estimate, coordinate, schedule and review the work of others.

Identify and implement effective courses of action to complete assigned work.

Evaluate the quality and price of product and services and judge the suitability and alternatives offered.

Maintain accurate records and controls.

Coordinate work assignments with other divisions, departments, contractors and service providers.

Use modern office equipment and a personal computer.

Communicate effectively, both orally and in writing.

Establish and maintain cooperative working relationships with those contacted in the course of work.

Experience and Training Guidelines:

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

Two years of increasingly responsible experience related to facilities management and/or the purchasing of services and materials. Experience in a law enforcement environment is desirable.

Training:

High school equivalent supplemented by college coursework or formal training with emphasis in business administration, purchasing, materials management or a related field.

License or Certificate:

Possession of, or the ability to obtain, a valid California driver's license.

WORKING CONDITIONS

Environmental Conditions:

Office and field environment; travel from site-to-site;

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for sitting and standing for prolonged periods of time; operating a personal computer and a motor vehicle.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-232**

**A RESOLUTION REVISING THE POSITION CLASSIFICATION PLAN FOR  
THE CITY OF MODESTO.**

WHEREAS, a Position Classification Plan for the City of Modesto was adopted by Modesto City Council Resolution 88-338 pursuant to Rule 2 of the Personnel Rules and Regulations of the City of Modesto, and

WHEREAS, the City Manager has recommended to the Council amendments to the Position Classification Plan, and

WHEREAS, Rule 2.2 of the City of Modesto Personnel Rules provides that revisions to the Classification Plan shall be effective upon adoption of resolution of the City Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION I. CLASSIFICATIONS DELETED. The Position Classification Plan of the City of Modesto is hereby amended to delete the following classifications:

1. Arborist
2. Assistant To City Manger
3. Assistant to the Events Coordinator
4. Business Development Manager
5. Communications & Marketing Manager
6. Customer Services Specialist
7. Financial/Investment Officer
8. General Services Manager

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-233**

**A RESOLUTION APPROVING AN AMENDMENT TO THE MODESTO  
URBAN AREA GENERAL PLAN TO UPDATE THE HOUSING ELEMENT  
(CITY OF MODESTO)**

WHEREAS, on March 4, 2003, the City Council of the City of Modesto re-certified the Final Master Environmental Impact Report ("Master EIR") (SCH No. 1999082041) for the Modesto Urban Area General Plan, and

WHEREAS, a General Plan for the City of Modesto entitled "City of Modesto Urban Area General Plan", was adopted by the City Council by Resolution No. 95-409, on August 15, 1995, in accordance with Section 65300 of the Government Code, and

WHEREAS, said General Plan has been amended by Modesto City Council Resolution Nos. 95-584, 96-20, 96-338, 96-639, 97-3, 97-137, 97-158, 98-293, 99-162, 99-564, 2000-303, 2000-633, 2001-47, 2001-476, 2002-154, 2002-526, 2003-101, and 2003-122, copies of which are on file in the office of the City Clerk, and

WHEREAS, the City of Modesto's existing Housing Element was adopted in 1992, by Council Resolution 92-273, on May 19, 1992, and was prepared and adopted pursuant to State law at that time, and

WHEREAS, Article 10.6 of the State of California Government Code requires each local government to the review its Housing Element periodically and to revise its Housing Element not less than every five years, or as amended by State law, and

WHEREAS, Government Code Section 65588 (e) requires that the City of Modesto adopt an updated Housing Element by December 31, 2003, and

WHEREAS, the Housing Element is a statement of current housing needs in the Modesto Urban Area and sets forth probable solutions and housing goals for such urban area, and

WHEREAS, the City of Modesto prepared an Initial Study EA/C&ED 2003-54 on the Housing Element Update, in accordance with the California Environmental Quality Act and determined that this project is within the scope of the City Modesto Master EIR (State Clearinghouse No. 199908041) approved earlier, and the Master EIR adequately describes the activity for the purposes of CEQA, and

WHEREAS, City Staff invited citizen participation in the preparation and review of the Housing Element from June 2002 through June 2003, including two joint Planning Commission and City Council workshops, three neighborhood meetings, and a series of public workshops held by the ad hoc Housing Element Advisory Committee, and

WHEREAS, on February 18, 2004, the Planning Commission held a duly noticed public hearing in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which hearing evidence both oral and documentary relating to this proposed amendment to the Modesto Urban Area General Plan was considered, and

WHEREAS, after said public hearing, the Modesto Planning Commission adopted Resolution No. 2004-09, recommending to the City Council an amendment to the Modesto Urban Area General Plan by updating the Housing Element, and

WHEREAS, Government Code Section 65358, permits the amendment of General Plans by the legislative body up to four times per year, and

WHEREAS, said matter was set for a public hearing of the City Council to be held on March 9, 2004 and continued to April 27, 2004, at 5:30 p.m., in the Tenth Street

Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing of the Council was held for the purpose of receiving public comment on the proposed amendment to the Modesto Urban Area General Plan Housing Element Update, and

WHEREAS, the City Council finds that the 2003 Draft Housing Element update to the Modesto Urban Area General Plan would be in the interest of the general welfare.

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby finds and determines that the proposed amendment to the Modesto Urban Area General Plan by amending the Housing Element is required for the public health, safety and welfare of the citizens of Modesto and said General Plan is hereby amended to read as shown on Exhibit "A" attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED, that the City Council determines the following:

SECTION 1: The City Council finds that the 2003-2008 Housing Element is consistent with the Modesto Urban Area General Plan.

SECTION 2: The City Council adopts the update of Housing Element of the Modesto Urban Area General Plan, to replace the existing Housing Element of the Modesto Urban Area General Plan, dated May 1992, for the following reasons:

- a. The State Legislature has mandated that all cities and counties include an updated Housing Element in their adopted local General Plans (Section 65580-65589.8) and;
- b. The Draft Housing Element guides residential development and preservation in a manner that supports the overall economic and social values of the community and;
- c. The Housing Element update to the Modesto Urban Area General Plan is in the interest of the general welfare of the Community because it updates and expands the goals, policies and programs to provide affordable housing to the citizens.

SECTION 3: The City Council further rescinds City Council Resolution 92-273, which was adopted on May 19, 1992, and updated the Housing Element of the Modesto Urban Area General Plan.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community and Economic Development Department Director is hereby authorized and directed to forward certified copies of this resolution and said amendment to the General Plan to the Board of Supervisors, and file a notice of determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

BE IT FURTHER RESOLVED by the City Council of the City of Modesto that it hereby adopts the proposed amendment to the General Plan, which is attached as **Exhibit "A"**, and incorporated herein by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of April 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Jackman, Keating, Marsh, Mayor Ridenour

NOES: Councilmembers None

ABSENT: Councilmembers Hawn, O'Bryant

ATTEST: Jean Zahr  
JEAN ZAHR, City Clerk

# INTRODUCTION

## A. COMMUNITY CONTEXT

The City of Modesto faces a critical need to plan for and provide sufficient housing units, resources, and programs for our residents. Rising housing costs, a large anticipated population growth, and changing demographics all illustrate the need to develop an approach and strategy to producing housing that matches the needs of the people of Modesto. Based on the most up-to-date data, resources, and knowledge available, the City has undertaken the task of planning to meet housing needs for the period of 2003-2008. The result of this effort is the Housing Element of the General Plan.

Since the late 1990s, Modesto has experienced a substantial rise in housing costs for both rental and ownership housing. Despite a relatively high rate of housing production from 2000-2002, housing costs have continued to rise and threaten to make the average home unaffordable to the average working family in the City. Diminishing housing affordability in Bay Area jurisdictions has increased the demand for housing in Modesto, resulting in increased housing prices, housing cost burden, and lack of affordable housing production in Modesto. Meanwhile, the City also faces a need to continue upgrading housing and reinvesting in neighborhoods.

Within this broad context, Modesto must address key housing challenges over the 2003-2008 planning period. These challenges include:

- 1) Providing sites for additional housing;
- 2) Providing for a range in types and prices of housing;
- 3) Continuing to address the need to improve and rehabilitate housing and neighborhoods;
- 4) Providing for those with special housing needs; and
- 5) Maintaining and improving the local environment and quality of life in Modesto.

The 2003-2008 Housing Element addresses these issues through a comprehensive housing strategy.

Creating a suitable and effective housing strategy is a complex process, but one defined by the needs of those living and working within the community. The diverse population of Modesto requires an approach that can produce an equally diverse range of housing choices, including single-family homes, apartments, condominiums, housing for special needs groups

(including the homeless), and many others. While the content of the Housing Element is based on community needs, the format and organization of the document is also largely determined by State law. The sections below provide an overview of the content and format of the Housing Element, describe the input into the Plan by Modesto residents and interested parties, defines the relationship of the Housing Element to the General Plan, and discusses how the Housing Element will be used by the City to encourage housing production in a pace and manner consistent with community goals.

## **B. STATE POLICY AND AUTHORIZATION**

The California Legislature has identified the attainment of a decent home and suitable living environment for every resident as the State's major housing goal. Recognizing the important role of local planning programs in pursuing this goal, the Legislature has mandated that all cities and counties prepare a housing element as part of their comprehensive general plan. Section 65302(c) of the Government Code sets forth the specific components to be contained in a community's housing element.

State law requires housing elements to be updated at least every five years to reflect a community's changing housing needs. The 1992 Modesto Housing Element covered the five-year period spanning 1992 through 1997. However, due to an economic downturn in the mid-1990s and a shortfall in State funds, the Legislature extended the planning period for the 1992 Housing Element through June 30, 2003. Thus, this Housing Element covers the planning period of July 1, 2003 to June 30, 2008. Special legislation was later adopted to provide an extension for completing the Housing Element update to December 31, 2003.

A critical measure of compliance with the State Housing Element law is the ability of a jurisdiction to accommodate its share of the regional housing needs – Regional Housing Needs Allocation (RHNA). For Stanislaus County, the regional growth projected by the State was for the period between January 1, 2001 and June 30, 2008. Therefore, while the Housing Element is a five-year document covering July 1, 2003 to June 30, 2008, the City has seven and one-half years (January 1, 2001 to June 30, 2008) to fulfill the RHNA.

## **C. ROLE OF HOUSING ELEMENT**

The Housing Element of the General Plan is designed to provide the City with a coordinated and comprehensive strategy for promoting the production of safe, decent, and affordable housing within the community. A priority of both State and local governments, Government Code Section 65580 states the intent of creating housing elements:

*The availability of housing is of vital statewide importance, and the early attainment of decent housing and a suitable living environment for every California family is a priority of the highest order.*

Per State law, the Housing Element has two main purposes:

- (1) To provide an assessment of both current and future housing needs and constraints in meeting these needs; and
- (2) To provide a strategy that establishes housing goals, policies, and programs.

Beyond State law requirements, Modesto has areas of special priority that provide additional purpose to the Housing Element. The unique conditions and market forces in play in Modesto require that the Housing Element focus on additional concerns, such as the influence of San Francisco Bay Area workers have on the local housing market and the pursuit of a jobs/housing balance for the economic well-being of the community. The State-mandated concerns and the local concerns combine to set the foundation upon which this Housing Element is built.

The Housing Element is a five-year plan for the 2003-2008 period, unlike other General Plan elements that typically cover a 10- to 30-year planning horizon. The Modesto Urban Area General Plan, for instance, encompasses goals and policies intended to guide growth and development through the year 2025. This Housing Element identifies strategies and programs that focus on:

- 1) Matching housing supply with need;
- 2) Maximizing housing choice throughout the community;
- 3) Assisting in the provision of affordable housing;
- 4) Removing governmental and other constraints to housing investment; and
- 5) Promoting fair and equal housing opportunities.

The Housing Element consists of the following major components:

- An analysis of the City's demographics, housing characteristics, and existing and future housing needs (Section 2).
- A review of potential market, governmental, and environmental constraints to meeting the City's identified housing needs (Section 3).
- An evaluation of the land, financial, and organizational resources available to address the City's identified housing needs (Section 4).
- A review of the City's accomplishments from the previous 1992 Housing Element, including quantified results of programs (Section 5).
- A statement of the Housing Plan to address the City's identified housing needs, including housing goals, policies and programs (Section 6).

## D. DATA SOURCES

In preparing the Housing Element, various sources of information were used. Wherever possible, Census 2000 data provided the baseline for all demographic information. Additional sources provided reliable updates to the 2000 Census. These include housing market data from Dataquick, employment data from the Employment Development Department, lending data from financial institutions provided under the Home Mortgage Disclosure Act (HMDA), and the most recent data available from service agencies and other governmental agencies. In addition, the City's 2003-2008 Housing Element implements the most recent changes to State Housing Element law, including those affecting the development, maintenance, and improvement of housing for persons with disabilities.

## E. RELATIONSHIP TO THE MODESTO URBAN AREA GENERAL PLAN

The Housing Element is a component of the Modesto Urban Area General Plan, which provides guiding policy for all growth and development within the community. The General Plan consists of seven chapters that address both the State-mandated planning issues plus optional subjects that are of particular concern to the City. These chapters are:

- Community Growth Strategy
- Community Development
- Housing
- Community Services and Facilities
- Public Safety
- Environmental Resources and Open Space
- General Plan Implementation

State law requires consistency among sections of the General Plan. As such, goals and policies contained within the Housing Element should be interpreted and implemented consistent with the goals and policies of the rest of the General Plan. To ensure that the contents of the 2003-2008 Housing Element maintain consistency with the adopted General Plan, an analysis of the two documents was conducted. Table 1-1 provides the goals and policies of the Housing Element and other General Plan policies that support them.

The City will ensure consistency between the Housing Element and other General Plan elements so that policies introduced in one element are consistent with other elements. At this time, the Housing Element does not propose significant changes to any other element of the City's General Plan. However, if it becomes apparent that over time that changes to any element are needed for internal consistency, such changes will be proposed for consideration by the Planning Commission and City Council.

**Table 1-1  
General Plan Consistency Analysis**

Housing Element		General Plan Supporting Policies			
#	Policy	Element	Topic	Issue	Policy
1.1	Support housing for all income groups.	Community Development	Neo-Traditional Principles	C	Neighborhoods should contain a diversity of housing types to enable citizens from a wide range of economic levels to live within its boundaries.
1.2	Promote the development of affordable housing throughout the community.	Community Development	Neo-Traditional Principles	C	Neighborhoods should contain a diversity of housing types to enable citizens from a wide range of economic levels to live within its boundaries.
1.2	Facilitate development of housing for special needs groups.	No specific policies in General Plan that either support or contradict this housing element policy			
1.4	Facilitate the development of entry-level and step-up housing.	Community Development	Neighborhood Plan Prototype	A	Neighborhoods should contain a variety of housing types, as allowed by the R-1, R-2, R-3, and P-D zones of the Modesto Zoning Code.
2.1	Promote equal opportunity for all residents to reside in the housing of their choice.	Community Development	Neo-Traditional Principles	C	Neighborhoods should contain a diversity of housing types to enable citizens from a wide range of economic levels to live within its boundaries.
2.2	Continue to make a strong commitment to the issue of fair housing practices.	Community Development	Neo-Traditional Principles	C	Neighborhoods should contain a diversity of housing types to enable citizens from a wide range of economic levels to live within its boundaries.
2.3	Encourage a range of housing types to be constructed in subdivisions and large developments.	Community Development	Neighborhood Plan Prototype	A	Neighborhoods should contain a variety of housing types, as allowed by the R-1, R-2, R-3, and P-D zones of the Modesto Zoning Code.
2.4	Facilitate the development of second units as an affordable housing alternative.	Community Development	Neighborhood Plan Prototype	A	Neighborhoods should contain a variety of housing types, as allowed by the R-1, R-2, R-3, and P-D zones of the Modesto Zoning Code.
2.5	Encourage the development and rehabilitation of housing that is accessible to persons with disabilities.	No specific policies in General Plan that either support or contradict this housing element policy.			

**Table 1-1  
General Plan Consistency Analysis**

Housing Element		General Plan Supporting Policies			
#	Policy	Element	Topic	Issue	Policy
3.1	Maintain the supply of safe, decent and sound affordable housing in the City of Modesto through conservation and rehabilitation.	No specific policies in General Plan that either support or contradict this housing element policy.			
3.2	Focus City resources for housing rehabilitation and assisted housing on those having the greatest need for assistance.	No specific policies in General Plan that either support or contradict this housing element policy.			
3.3	Make a maximum effort to preserve the units in assisted housing developments eligible to change to non-lower-income uses.	No specific policies in General Plan that either support or contradict this housing element policy.			
3.4	Assist non-profit housing providers in acquisition, rehabilitation, and maintenance of older homes as long-term affordable housing.	No specific policies in General Plan that either support or contradict this housing element policy.			
3.5	Promote energy conservation activities in all residential neighborhoods.	No specific policies in General Plan that either support or contradict this housing element policy.			
4.1	Track changes in Housing Law to ensure that land use regulations are consistent with and supportive of State and federal laws.	No specific policies in General Plan that either support or contradict this housing element policy.			
4.2	Review local regulations periodically for the ability to accommodate projected housing demands.	No specific policies in General Plan that either support or contradict this housing element policy.			
4.3	Maintain an up-to-date inventory of the amount, type, and size of vacant and underused land.	No specific policies in General Plan that either support or contradict this housing element policy.			

**Table 1-1  
General Plan Consistency Analysis**

Housing Element		General Plan Supporting Policies			
#	Policy	Element	Topic	Issue	Policy
4.4	Maintain an adequate supply of appropriately designated land for special needs housing.	No specific policies in General Plan that either support or contradict this housing element policy.			
5.1	Establish and maintain development standards that support housing production while protecting quality of life goals.	No specific policies in General Plan that either support or contradict this housing element policy.			
5.2	Continue to provide financial incentives such as fee deferrals and exemptions for affordable and special housing projects.	No specific policies in General Plan that either support or contradict this housing element policy.			
5.3	Continue to provide for timely and coordinated processing of residential development projects.	No specific policies in General Plan that either support or contradict this housing element policy.			
5.4	Review the City's fee structure to ensure that fees do not unduly constrain the production of housing.	No specific policies in General Plan that either support or contradict this housing element policy.			
6.1	Promote coordination between infrastructure master plans, service area boundaries, and housing plans.	Community Facilities	Water Policies Baseline Area	B	The City of Modesto will encourage the optimum beneficial use of water resources within the City. The City shall strive to maintain an adequate supply of high quality water for urban uses.
6.2	Direct housing to areas where infrastructure and utilities can be provided.	Community Facilities	Water Policies Planned Urbanizing Area	B	The City of Modesto shall coordinate land development projects with the expansion of water treatment and supply facilities.
6.3	Promote infill development.	No specific policies in General Plan that either support or contradict this housing element policy			
6.4	Support policies and regulations to ensure implementation of Federal and State laws regarding stormwater pollution prevention.	Community Facilities	Water Policies Baseline Area	B	The City of Modesto will encourage the optimum beneficial use of water resources within the City. The City shall strive to maintain an adequate supply of high quality water for urban uses.

**Table 1-1  
General Plan Consistency Analysis**

Housing Element		General Plan Supporting Policies			
#	Policy	Element	Topic	Issue	Policy
7.1	Encourage the development of workforce housing.	No specific policies in General Plan that either support or contradict this housing element policy.			
7.2	Promote economic development efforts that create employment opportunities for City residents.	No specific policies in General Plan that either support or contradict this housing element policy.			
7.3	Work with Stanislaus County and neighboring jurisdictions to improve the jobs-housing balance in the region.	No specific policies in General Plan that either support or contradict this housing element policy.			

## **F. COMMUNITY INVOLVEMENT**

Public input on housing needs and strategies is critical to developing appropriate and effective City housing programs. As part of the Housing Element update, the City undertook a three-phase effort to involve residents, policy makers, and service providers. In the first phase, the City conducted a series of community workshops to solicit information on housing needs in the community. The second phase involved a series of meetings before the Housing Element Advisory Committee (HEAC). Seven HEAC meetings were held over a six-month period to provide information to the public about the purpose, mandate, and contents of the Element, and to provide opportunities for public input. The third and final community involvement component is the public hearing process associated with the Planning Commission and City Council consideration of the Housing Element.

### **Neighborhood Meetings**

The City conducted neighborhood meetings on September 25, 26, and 30, 2002 for the Housing Element. The purpose of the meetings was to introduce the public to the Housing Element and to obtain feedback and direction on major housing issues facing the City. The meetings were held in various locations and were advertised to generate interest through direct mailing and local newspapers. The events were advertised at City Hall and various City locations.

### **Housing Element Advisory Committee (HEAC) Meetings**

The City held seven public HEAC meetings between October, 2002 and May, 2003 to discuss the housing element mandate, obtain input on community housing needs, and receive policy direction from the HEAC. The HEAC meetings were open to the public, with special invitations issued to service providers, stakeholders, and concerned residents. Of the groups invited or noticed by mail, regular attendees included:

- California Rural Legal Assistance
- Community Housing and Shelter Services
- Disability Resource Agency for Independent Living (DRAIL)
- Habitat for Humanity
- League of Women Voters
- Project Sentinel
- Residents from the community
- Stanislaus County Housing Authority
- Stanislaus County Planning Department

Throughout the plan development process, interim products were prepared to assist the HEAC and the public in formulating policies and programs. The Draft Housing Element was a collaborative effort by the HEAC, service providers, stakeholders, concerned residents, and

staff. The Draft Element was available for public review between May 7 and June 4 and was presented before the Planning Commission and City Council on June 4.

## Public Hearings

A joint study session and public hearing was conducted on June 4, 2003 before the Planning Commission and City Council to discuss the Draft Housing Element prior to submittal of the Element for review by the State Department of Housing and Community Development (HCD). The meeting was attended by residents, public agencies, and community groups, including:

- California Rural Legal Assistance
- Habitat for Humanity
- League of Women Voters
- Stanislaus County Housing Authority

In response to comments by the Planning Commission, City Council, and the public, the Draft Housing Element was modified to strengthen the City's commitment to several housing programs.

Additional public hearings were conducted by the Planning Commission on February 18, 2004 and by the City Council on March 9 and April 27, 2004.

# HOUSING NEEDS ASSESSMENT

## A. PURPOSE

Development of an appropriate and effective housing strategy relies on an accurate and dynamic characterization of the nature and extent of existing housing needs, as well as a projection of how those needs will change in the future. Housing needs are affected by local, regional, and to some extent, global economic and financial conditions. However, many variables that impact the supply and demand of housing can be assessed and addressed at the local level. Such variables include employment and population growth, demographic composition, condition of the local housing stock, relative housing affordability, and the availability of housing-related services.

The following presentation of existing and future housing needs is structured to assist development of programs and policies in the Housing Element.

- ***Community Context*** presents the primary characteristics of Modesto that influence housing needs and housing policy. A summary of local and regional issues introduces the more detailed sections that follow.
- ***Regional Population and Economic Context*** presents the demographic and employment characteristics and trends of the San Joaquin Valley and Stanislaus County communities, with a focus on the regional and interregional issues that could affect housing in Modesto.
- ***Local Population and Economic Characteristics*** distinguishes Modesto from the region, and presents detailed information on the population, household types and incomes, occupations held by residents, housing stock, special needs populations, inventory of affordable housing, and affordability gaps in the City.
- ***Future Housing Needs*** details the City's share of projected regional housing needs.

## B. COMMUNITY CONTEXT

Modesto is located in the northern part of the San Joaquin Valley in Stanislaus County along State Route 99 and between the Stanislaus and Tuolumne rivers (Figure 2-1). Modesto is the largest incorporated city in Stanislaus County and accounts for approximately 42 percent of the County's population (as of 2000). The estimated 2002 population is 199,000.<sup>1</sup> Population growth in Modesto is projected by the Stanislaus Council of Governments (Stan COG) to accelerate between 2000 and 2020, with the City population increasing to 418,000 by 2020 (refer to Table 2-1 and Figure 2-2). The population increase anticipated by the City's Urban Area General Plan Master Environmental Impact Report is 390,000 by 2025, while the estimated holding capacity of the planning area is 400,000.

As the largest city in the County, Modesto serves as Stanislaus County's retail, government, medical, and employment center. Surrounded by small cities and farmland, Modesto is located approximately 90 miles east of San Francisco, 80 miles south of Sacramento, 110 miles west of Yosemite National Park, and 95 miles northwest of Fresno.

**Table 2-1**  
**Modesto Percentage Population Change, 1990-2020**

1990 - 2000	2000 - 2010	2000 - 2020
15%	60%	122%

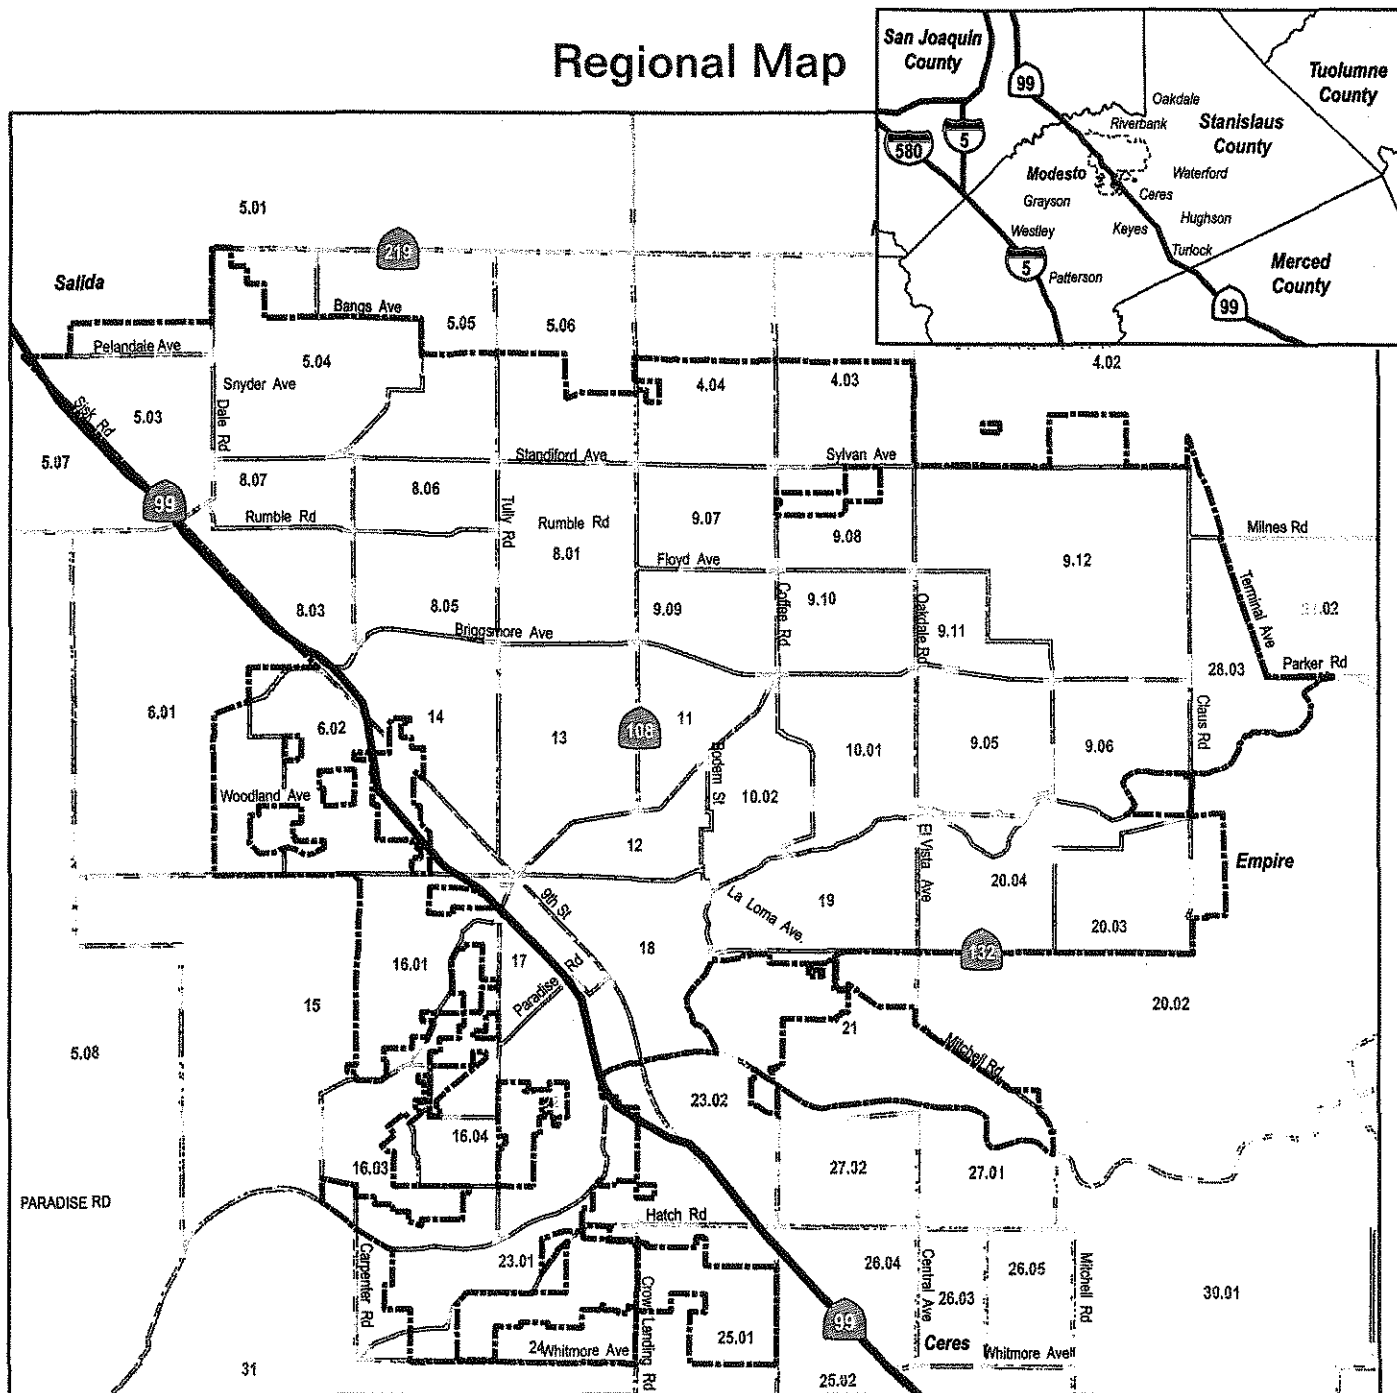

Sources: U.S. Census, 1990, 2000; Stan COG, 2002.

The housing stock in Modesto expanded during the past decade, with a relatively large number of single-family homes added, especially in the northern and western portions of the community. Between 1990 and 2001, multi-family housing construction accounted for only 10 percent of all housing units constructed (see Figure 2-3).

According to the Building Department, more housing units were built in 2000 than in any other year between 1990 and 2001. Multi-family units, which never comprised more than 22 percent of the total units built in any year, were built at the highest rate in 1990 and have decreased since then.

Source: U.S. Census, 1990, 2000; Stan COG, 2002.

**Figure 2-3**  
**Housing Units Constructed, 1990-2001**

Employment growth has not been commensurate with population growth during the last 10 years; the total number of employed residents increased by only 10 percent as population grew 15 percent. The run-away housing market in the Bay Area has resulted in an influx of people who work in the Silicon Valley, San Francisco, and East Bay in search of affordable housing eastward. Locally, this increase in long-distance commuting and imbalance of jobs and housing is an important issue to be addressed through housing policy, economic development initiatives, and land use planning.

## Local Issues

Given its location, rapid growth spurred by regional needs, and the desire to maintain and improve the quality of life it offers, the City strives to manage growth, encourage redevelopment of the downtown areas, ensure provision of infrastructure, and establish village-scale planning. Air quality, traffic congestion, neighborhood character and integrity, provision of adequate infrastructure and services, and farmland preservation are some of the primary issues the City considers in its attempt to appropriately manage growth.

Several roadway segments in Modesto operate at congested levels of service, especially in the central and northern portions of the City. Under buildout conditions specified in the 2003 General Plan Master EIR, 38 arterial segments would operate in excess of Level of Service D, which is below City roadway standards. Air quality and noise impacts of additional traffic caused by future growth are a concern.

In the San Joaquin Valley Air Basin, which the City of Modesto is located within, the primary air pollutants of concern are ozone and particulate matter. The Basin was reclassified from *serious* to *severe* nonattainment in 1999 by the federal Environmental Protection Agency, and is in severe nonattainment for State ozone standards and in nonattainment for State

and federal particulate matter standards. Activities associated with population growth such as automobile traffic and construction further contribute to formation of ozone and emission of particulate matter.

City water comes from approximately 120 groundwater wells and from surface water delivered via the Modesto Regional Treatment Plant. Historically, overdraft of groundwater wells has been a problem in the area. With current surface treatment capacity and safe use of

groundwater, water capacity can support up to 213,000 residents.<sup>2</sup> The available potable surface and groundwater supplies would be short of water demand by about 56 million gallons per day, assuming a 2025 population of 400,000 residents.

Agriculture is the leading industry in Stanislaus County and the San Joaquin Valley in terms of overall value of commodities produced. According to the State Department of Conservation, almost 2,000 acres of important farmland in Stanislaus County were converted to urban use between 1996 and 1998, and another 822 acres were converted between 1998 and 2000, primarily due to development of housing in Modesto, Ceres, Turlock, and Riverbank (Figure 2-4).<sup>3</sup> Much of the land immediately outside the current sphere of influence, especially west of the City, is subject to Williamson Act farmland contracts.<sup>4</sup>

## Visions for the Future

In response to these critical local issues, the Modesto Urban Area General Plan is structured to guide growth without taxing infrastructure, to consider environmental impacts, and to provide for economic growth and development. The overriding mission statement of the Modesto Urban Area General Plan states:

*The Modesto Urban Area General Plan addresses the collective challenges of the future. The Urban Area General Plan presents a blueprint for the preservation of Modesto's quality of life while providing direction for the growth of business and industry to meet the needs of the future generations in the Modesto community.*

In addition, the General Plan focuses on the following critical issues:<sup>5</sup>

- Employment opportunities
- More comprehensive planning
- Defining Modesto's character
- Reducing automobile traffic impacts
- Maintaining older neighborhoods and upgrading unsafe neighborhoods
- Integrating new neighborhoods into the urban pattern
- Agricultural land preservation
- Environmental concerns

Local issues are also addressed by goals identified in the City's Consolidated Plan and Annual Action Plan that guide the use of federal entitlement grants for housing and community development purposes.<sup>6</sup>

### City Council Goals

- Promote economic development, including job training
- Provide capital improvements in low- and moderate-income neighborhoods
- Encourage Welfare to work initiatives including child care, transportation, emergency food provision, and homeless prevention

### Community priorities (developed in community meetings throughout Modesto)

- Promote economic development and jobs
- Provide street improvements
- Ensure traffic safety
- Facilitate neighborhood revitalization and clean up
- Assist and promote neighborhood-based non-profit organizations

<sup>5</sup> City of Modesto. *Urban Area General Plan*. April, 1997.

<sup>6</sup> Goals are included in the City of Modesto Parks, Recreation, and Neighborhoods Department's *Consolidated Annual Performance and Evaluation Report for Fiscal Year 2000-2001*, September 2001.

## Regional Issues

Cities in Stanislaus County and the unincorporated areas are expected to experience lower population growth rates compared to Modesto. The lower growth rates anticipated for the County and smaller cities are partly a function of regional economic forecasts and partly a function of growth management policy.

Population growth is limited by the County to protect agricultural resources threatened by expanding cities and to maintain the small-town, rural character of unincorporated communities.<sup>7</sup> Growth projections recently adopted by Stan COG reflect this desire to direct growth into the urbanized communities. Growth projections are higher for Modesto (5.32 percent annually)<sup>8</sup> than for the County (3.49 percent) and are much higher than for the unincorporated portions of the County (0.35 percent). Directing growth to appropriate geographic areas within Stanislaus County is made more difficult by the evolving residential and employment relationships with Bay Area communities.

## Bay Area Housing Crisis

The San Francisco Bay Area is adjacent to Stanislaus County to the west. The expansion of the Bay Area economy during the 1990s attracted workers from all over the country and around the world, creating a high demand for housing. The internet business expansion and high-tech sector created a generation of sudden wealth that pushed the housing prices to new heights.

Over the last several years, housing prices have increased dramatically in the Bay Area, while the cost of housing in Stanislaus County has remained relatively affordable (Figures 2-5 and 2-6). As shown in Table 2-2, median home prices in East Bay counties increased dramatically between 1990 and 2000 (in constant dollars), while the median home price in Stanislaus County increased by only one percent.

**Table 2-2**  
**Median Home Values in 1990 and 2000 - East Bay Counties and Stanislaus County**

County	Median Home Value		
	1990	2000	% Change 1990 - 2000
Alameda County	\$227,200	\$303,100	33%
Contra Costa County	\$219,400	\$267,800	22%
San Francisco County	\$298,900	\$396,400	33%
San Mateo	\$343,900	\$469,200	36%
Santa Clara County	\$289,400	\$446,400	54%
Stanislaus County	\$124,300	\$125,300	1%

Source: U.S. Census, 1990 and 2000.

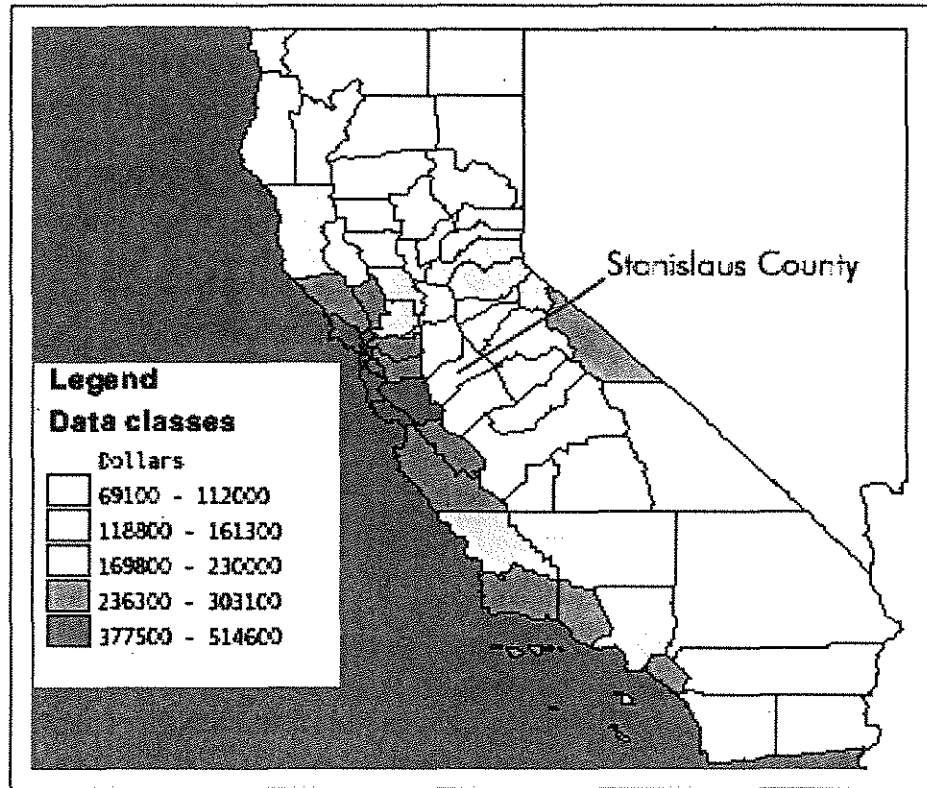

<sup>7</sup> Sellers, Chip. Stanislaus County Council of Governments. Personal communications, October 1, 2002.

<sup>8</sup> The Modesto General Plan Master EIR presents a significantly lower growth projection than Stan COG. See discussion on page 2-21.

As Bay Area workers continue to seek affordable housing in the San Joaquin Valley region, housing prices in Stanislaus County have soared. Since 2000, the median home price in Stanislaus County has increased by 35 percent and the median home price in Modesto by 37 percent, while the median price in San Francisco County increased by 10 percent and in Santa Clara County by 7 percent.<sup>9</sup> Essentially, the housing crisis that originated in the Silicon Valley and Bay Area has shifted eastward to the San Joaquin Valley.

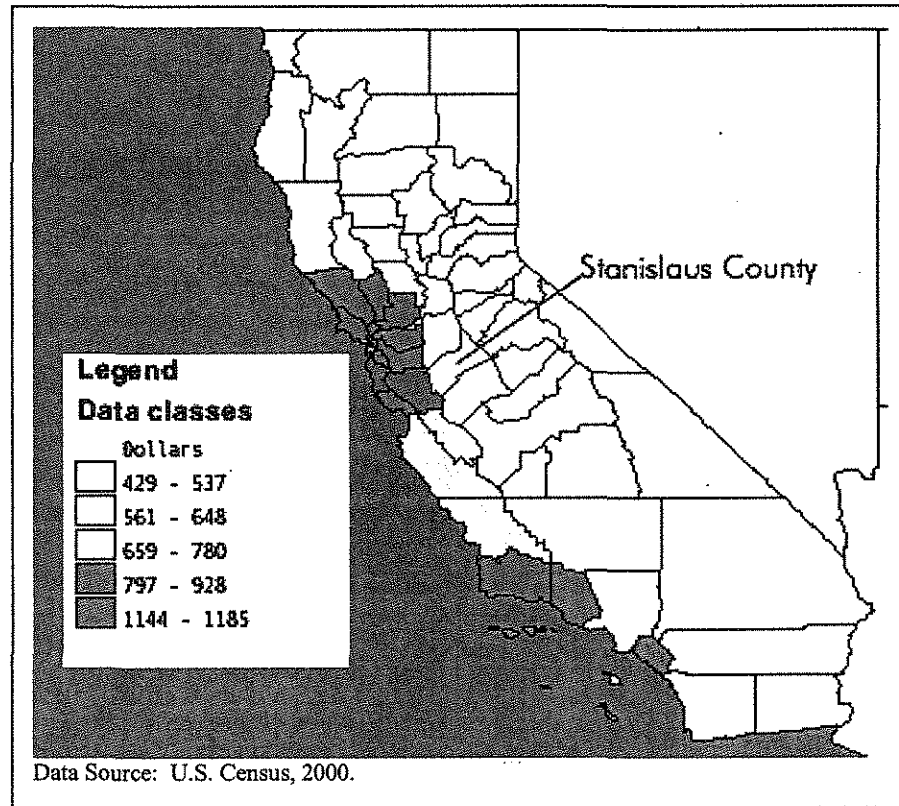

**Figure 2-5**  
**Median Home Value, California Counties, 2000**

<sup>9</sup> Data from the California Association of Realtors generated using real estate database services. Data includes a mixture of new and existing sales and both condos and single-family units.

**Figure 2-6**  
**Median Rent, California Counties, 2000**

Average wages for Bay Area workers have increased in tandem with the cost of living, making Stanislaus County homes inexpensive to those with jobs in Silicon Valley and other Bay Area employment centers. Many who seek affordable housing are willing to make the long commute between the Bay Area and Stanislaus County. The California Department of Transportation estimates that approximately 23,000 Stanislaus County residents make this long distance commute.<sup>10</sup> Trips over the Altamont Pass (the principal roadway between the San Joaquin Valley and the Bay Area) have increased by 400 percent since 1971, from 29,000 to 117,000.<sup>11</sup>

The rising demand for housing in Modesto is driven in part by commuters from the Bay Area. With higher wages, Bay Area workers have the purchasing power to pay higher rents and high prices for homes, pushing the cost of housing in Modesto to levels beyond the reach of many existing Modesto residents.<sup>12</sup> The City intends, through the housing element process, the HCD-administered five-county Inter Regional Partnership, and other policy planning and implementation, to accommodate a more balanced allocation of local jobs and local housing.

## C. REGIONAL POPULATION AND ECONOMIC CONTEXT

Modesto generally is considered part of the San Joaquin Valley, which follows the San Joaquin River from Kern County in the south to San Joaquin County in the north, also including the counties of Tulare, Kings, Fresno, Madera, Merced, and Stanislaus. With approximately 3.3 million residents as of 2000, the major economic activity in the region is agriculture, though in some parts of the valley, areas of job growth are not in farming.<sup>13</sup>

Stanislaus County had 447,000 residents as of 2000, and the population is projected by Stan COG to grow to over 826,000 by 2025, an increase of approximately 84 percent (Table 2-3). Nearly all of this growth (97 percent) is to be directed to the County's incorporated cities in efforts to preserve the rich agricultural resources.

**Table 2-3**  
**San Joaquin Valley Counties, 2000 Population**

County	2000 Population
Madera	123,109
Kings	129,461
Merced	210,554
Tulare	368,021
Stanislaus	446,997
San Joaquin	563,598
Kern	661,645
Fresno	799,407
<b>Total</b>	<b>3,302,792</b>

Source: 2000 U.S. Census.

In the *2000 Cities/County Visioning Project* conducted by Stanislaus County and its incorporated cities, several visions, goals, and actions were articulated in meetings with city and County leaders. The Countywide Visioning Project involved government officials, local business leaders, and educators in a three-year visioning process. The purpose of the process was to create a vision for the future of Stanislaus County based on collaboration and cooperation among local government bodies.<sup>14</sup> The first vision statement and set of actions in that report deals with protecting agricultural land from unnecessary low-density sprawl:

**Actions:** The cities and County of Stanislaus will adopt general plans, policies and agreements that will achieve the following:

1. More compact and clearly defined urban boundaries that avoid unnecessary conversion of farmlands.

<sup>13</sup> City of Modesto. *Analysis of Impediments to Fair Housing*. May 1996. Page 10.

<sup>14</sup> County of Stanislaus web site. <http://www.co.stanislaus.ca.us/visionproject.pdf>. 2002.

2. Protection of farmland outside the urban boundaries.
3. Expansion of city limits to include urbanized unincorporated areas that are substantially surrounded by a city.
4. Compact urban development which encourages redevelopment of blighted areas, "in-fill" development of vacant and underutilized land, and a variety of affordable housing.
5. Urban limit lines, providing for areas of open space, agriculture, very low density, rural development, or green belts in which urban development cannot occur.
6. Tax and revenue policies that will support and encourage good land use decisions.
7. Transportation policies that support and implement the land use vision.

## Housing, Households, and Household Types

Overall, the region is similar to California relative to the distribution of household types. However, the San Joaquin Valley's proportion of Hispanic persons is approximately 7 percentage points higher than the proportion of Hispanics in California, and the region has a proportion of persons under age 18 that is approximately 7 percentage points higher than the State as a whole.<sup>15</sup> Corresponding to the proportion of children, the representation of family households, as a proportion of total households, is approximately 7 percentage points higher in the region compared to California as a whole.

Different household types have different housing needs and different homeownership rates. According to the State Department of Housing and Community Development (HCD), the demographic characteristics of the San Joaquin Valley region will result in an incremental demand for homeownership in the region that will exceed the incremental demand for rental housing by more than 50 percent between 1997 and 2020.<sup>16</sup> The share of owner-occupied housing in the region is greater by 1.4 percentage points than Modesto, and is greater than that in California by 3.2 percentage points (Table 2-4). Among counties in the region, the demand for homeownership will be strongest in Madera and Stanislaus counties and weakest in Kings and Merced counties, according to HCD.

**Table 2-4**  
**Housing Tenure in San Joaquin Valley, Modesto, and California**

Tenure	San Joaquin Valley		Modesto Percentage	California
	Number	Regional Percentage		
Owner-occupied housing units	620,540	60.1%	58.7%	57%
Renter-occupied housing units	412,600	39.9%	41.3%	43%

Source: U.S. Census, 2000.

## Household Income

The San Joaquin Valley has lower median incomes than does California as a whole, but also has a much lower cost of living than many regions in the State. Modesto's median household income is approximately 10 percent more than the San Joaquin Valley region but 15 percent lower than the State's. Of the income categories summarized in Table 2-5, the region lags behind California most significantly in the \$100,000 – \$149,000 range. More importantly, as shown in Table 2-6, compared to the East Bay counties, median income in the San Joaquin Valley is approximately 35 percent lower than Alameda County (\$55,946), 51 percent lower than Santa Clara County (\$74,335), 48 percent lower than San Mateo County (\$70,819), 34 percent lower than San Francisco County (\$55,221), and 42 percent lower than Contra Costa County (\$63,675). These disparities in income affect local residents' ability to compete with East Bay workers for housing in the region.

**Table 2-5**  
**1999 Household Incomes: California, San Joaquin Valley, and Modesto**

Income in 1999	Regional %	Modesto %	California
Less than \$10,000	11.1%	8.9%	8%
\$10,000 to \$14,999	7.6%	7.2%	6%
\$15,000 to \$24,999	15.2%	13.6%	12%
\$25,000 to \$34,999	13.8%	13.5%	11%
\$35,000 to \$49,999	16.6%	17.6%	15%
\$50,000 to \$74,999	18.1%	19.7%	19%
\$75,000 to \$99,999	8.9%	9.9%	12%
\$100,000 to \$149,999	5.9%	6.8%	10%
\$150,000 to \$199,999	1.4%	1.4%	3%
Median Household Income (\$)	\$36,638	\$40,394	\$47,493

Santa Clara	\$74,335	51% higher
San Mateo	\$70,819	48% higher
San Francisco	\$55,221	34% higher
Contra Costa	\$63,675	42% higher

Source: U.S. Census, 2000.

## Employment

### Current Employment Characteristics

As one of the most productive agricultural areas in the world, the central valley of California produces more fruits, vegetables, and nuts than any region of comparable size in the United States (with more than 7 million acres under irrigation). Most of the central valley's agricultural activity is located in the San Joaquin Valley, where agriculture accounts for approximately 32 percent of the total income and 37 percent of the employment.<sup>17</sup>

Employment in the San Joaquin Valley has less representation in management and professional occupations than California, and more representation in farming, fishing, and fishing industries (Table 2-7). Dairy production, fruit and nut harvest, poultry, and cattle production are the most prevalent types of agriculture in the County.<sup>18</sup> Except for fruit and nut harvest that may have some influence on seasonal employment, dairy production, poultry, and cattle production are year-round operations that typically do not rely on migrant farm labor.

**Table 2-7**  
**Occupational Distribution in Modesto, Region, California**

Occupation	Regional %	Modesto %	California %
Management, Professional	27.2%	28.4%	36%
Service	16.2%	15.9%	15%
Sales, Office	25.0%	27.7%	27%
Farming, fishing, forestry	6.8%	1.3%	1%
Construction, extraction	9.9%	10.6%	8%
Production, transportation	15.0%	16.1%	13%

Source: U.S. Census, 2000.

<sup>17</sup> Employment Development Department. *San Joaquin Valley Employment*, 1998.

<sup>18</sup> Employment Development Department *County Snapshots*, 2001.

Stanislaus County has a higher share of agricultural related employment compared to the State as a whole. According to the State Employment Development Department, in Stanislaus County, the share of farm services jobs has increased while the share of farm production jobs has decreased over the past ten years (Figure 2-7). Farm production jobs as a total of all California employment has also decreased over the same period. Farm services are those that support farming, and tend to be less seasonal and higher paying than farm production jobs.

**Figure 2-7**  
**Farming Share of Total Employment, Stanislaus County and California**

Source: California Employment Development Department web site, 2002.

### Regional Jobs-Housing Balance

Assessing the spatial relationship between jobs and housing is not normally relevant at the regional level, where jobs-housing balance is often assumed. However, given the relatively high cost of housing and the concentration of jobs (especially new jobs) in the Bay Area relative to the surrounding regions, the regional distribution of jobs and housing has important planning and quality of life implications. An imbalance of jobs and housing creates issues with traffic congestion, air quality, water quality, fiscal disparity, and housing affordability.

Both Modesto and Stanislaus counties have a higher percentage of residents working in another county compared with California overall, with correspondingly high average commute times (Table 2-8). The counties of San Joaquin, Merced, Madera, and Kings also have a high percentage of out-of-county commuters. As shown in Table 2-9, commute times in Modesto have increased between 1990 and 2000, with drastic increases in the number of

people commuting 20 minutes or more to work (47 percent increase). However, the number of people commuting less than 5 minutes to work also increased by 13 percent.

**Table 2-8  
Commuting in California, San Joaquin Valley Region, Modesto**

Geographic Area	Workers 16 years and over	
	Mean Commute Time (minutes)	% Worked Outside County of Residence
Modesto	25.7	19.5
Stanislaus	26.8	20.9
California	27.7	17.1
Fresno	22.2	7.4
Kern	23.2	6.4
Kings	20.8	20.7
Madera	26.3	31.2

Total	62,844	100%	72,719	100%	16%

Source: U.S. Census, 2000.

### Employment and Population Projections

The region is expected to grow significantly in the future, and Modesto is expected to be one of the leaders in both population and employment growth. Based on figures provided by Stan COG, only the city of Tracy, located just northwest of Modesto between Stockton and the Bay Area, is expected to have a higher average annual growth rate between 2000 and 2025, compared to Modesto. Of San Joaquin, Merced, and Stanislaus counties, Stanislaus County is expected to have the highest annual growth, as shown in Table 2-10.

**Table 2-10  
Regional Population Growth**

City	2000	2010	2020	Average Annual Growth 2000-2025	% Change, 2000-2025
Modesto	188,856	302,546	418,562	5.31%	133%
Ceres	34,609	47,645	60,053	3.47%	87%
Turlock	55,810	73,707	90,911	2.98%	75%

Unincorp. San Joaquin Co.	131,400	134,881	138,056	0.26%	7%
<b>Total San Joaquin County</b>	<b>566,600</b>	<b>700,095</b>	<b>821,851</b>	<b>2.36%</b>	<b>59%</b>

Source: Stanislaus COG, San Joaquin COG, Merced CAG.

Note: Stanislaus COG population information was amended to eliminate the projections for the years 2001-2019. The projections above use the average annual growth for the cities and Stanislaus County to estimate the 2005, 2010, and 2015 populations. Annual average growth for cities and counties outside of Stanislaus County were estimated using 2025 population estimates compared to 2000 populations.

The population increase anticipated by the City’s Urban Area General Plan Master Environmental Impact Report is 390,000 by 2025, while the estimated holding capacity of the planning area is 400,000 (Table 2-11).

**Table 2-11  
Modesto Growth Capacity**

Area	Population	Employment	Housing Units	Single-Family Units	Multi-Family Units

Within the Stan COG region, employment growth is also focused on Modesto, which Stan COG anticipates will add more jobs than the rest of the region combined. The average annual employment growth mirrors that of population growth, as shown in Table 2-12. The population projections from Stan COG reflect the desire to accommodate a more balanced geographic match between jobs and population growth. The County’s total employment in 2020 is projected to be 306,698, which represents an 80 percent increase over the current

level. Not including Modesto, the County is expected to have just a 43 percent increase between 2000 and 2020, according to Stan COG figures.

**Table 2-12**

### Regional Economic Development Trends and Initiatives

The economic conditions in the region are tied to national trends and policy, statewide economic events and legislation, and many other factors. However, some characteristics of the region set it apart economically from the rest of California and the nation, and these economic characteristics have important implications for housing policy.

The cost of living in the Valley is lower than the Bay Area and other parts of metropolitan California. Agriculture remains the highest valued sector of the economy, and agricultural trends can have ripple effects through the rest of the economy. Due in part to the disparity in cost of living between the Valley and the nearby Bay Area, traffic congestion is worsening, especially during peak hours, and is impacting the ability of many regional agencies to provide adequate transportation infrastructure for this expanding demand. This traffic condition is viewed as adversely impacting economic development.

In the Central Valley, some of the key economic trends include:<sup>19</sup>

- Job growth that has eclipsed that of California as a whole, but is slower than labor force growth<sup>20</sup>

<sup>19</sup> Great Valley Center. *Assessing the Region Via Indicators*. May, 1999.

<sup>20</sup> Job growth and labor force growth are similar, but not identical. The labor force may grow, for example, as large numbers of young people enter the labor force, or as men or women that were previously full-time homemakers, seek employment. This would not necessarily be associated with job growth.

- Unemployment that is consistently higher than the rest of the State due to seasonal labor
- Job growth led by addition of service jobs

In Stanislaus County, some of the key economic trends include:

- Decline in agricultural production jobs
- Job growth in service sector (Table 2-13)

**Table 2-13**  
**Stanislaus County Occupations with Job Growth, 1999-2006**

Occupation	Annual Averages		Absolute Change	Percent Change
	1999	2006

Source: Employment Development Department, 2002.

The Stanislaus County Board of Supervisors established the Stanislaus County Workforce Investment Board (WIB), charged with strategic planning and policy oversight of a system for workforce development. Stanislaus County provides access to Workforce Development Services to employers, job and information seekers, serving an average of 5000 customers a month per center. Partners are Stanislaus County (represented by the Community Service Agency and Department of Employment and Training), the Stanislaus County Economic Development Corporation (SCEDCO), and the local office of the California Employment Development Department.

## D. LOCAL POPULATION AND ECONOMIC CHARACTERISTICS

### Population

As of 2000, Modesto's total population was 188,856, representing an average annual increase of 3.8 percent between 1980 and 2000 and 1.5 percent between 1990 and 2000.<sup>21</sup> Modesto's 15 percent increase in population between 1990 and 2000 nearly mirrored the 14 percent population increase in California during the same period. The 2002 population is estimated at 199,000, a 5.4 percent increase over the 2000 population.

According to the most recent population projections adopted by Stan COG, population growth is expected to increase dramatically over the next 20 years, compared to the last 20 years. Population growth in Modesto is also anticipated to be relatively greater than surrounding communities, as shown in Table 2-14. Between 1950 and 1990, Modesto's share of the County population increased from 14 percent to 45 percent.<sup>22</sup> As of 2000, the Modesto population was approximately 42 percent of the County total and according to Stan COG is expected to increase to more than 53 percent of the County total by 2025. Overall, Modesto is projected by Stan COG to account for more than 66 percent of the County population growth between 2000 and 2025. However, the City's General Plan Master Environmental Impact Report (MEIR) projects a more realistic outlook of growth given the City's infrastructure and resource constraints and the desire to maintain and enhance the quality of life for the community. According to the MEIR, population in Modesto may reach 400,000 by 2025, as compared to the Stan COG's projection of 418,562 by 2020.

In general, Modesto became more ethnically diverse between 1990 and 2000 (see Table 2-15). The White population decreased as a share of the City population from 73 percent to 60 percent during the census period. While the African American population increased by approximately 66 percent, compared to only 4 percent increase for California as a whole, the overall representation of African Americans in Modesto is low. The Hispanic population increased significantly by 79 percent, while for California the increase was approximately 43 percent. The number of Asians and Pacific Islanders, however, decreased in Modesto despite a 39 percent increase statewide.

Cultural practices, which are often related to ethnic backgrounds, have implications for housing policy. It is important, as Modesto becomes more diverse, for the evolving set of housing programs and policies to be attuned to any special needs of different populations, and for the City to take necessary steps to involve residents of different backgrounds in the Housing Element planning process. The large Hispanic increase highlights a special need to ensure that housing services are accessible to Spanish-speaking individuals.

Note: Other in 2000 includes those that cite two or more races. N/A = not applicable.

## **Concentration of Minority Population**

Census data is used to identify portions of the City where, due to large numbers of people with particular ethnic backgrounds, certain services may be necessary to ensure an adequate provision of housing. In areas where the City's minority population is concentrated, provision of housing information and services in different languages may be necessary, and housing discrimination issues may be particularly important.

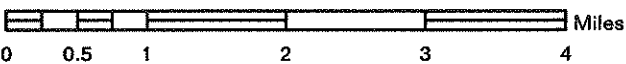

In Modesto, areas southwest of Downtown and in general southwest of the Highway 99 corridor have higher concentrations of minority households (Figure 2-8). The area northwest of Paradise Road and southwest of Highway 99 has minority concentrations of more than 60 percent, and is an area with older housing stock, lower home values, lower rental costs, and lower median incomes. In the eastern part of the City, east of El Vista Avenue and near the southern City boundary is another area of relatively high minority concentration. Most of the northern and northeastern portions of the City have low minority concentrations – 30 percent or less.

## **Household Types**

A "household" is any group of people occupying a housing unit. Though most people think of a household as a family, there are many other types of households, including single persons living alone, families living together, or unrelated persons who share living quarters. Persons living in retirement or convalescent homes, dormitories, or other group living situations are not considered households. Both household size and household type are important to consider when planning for housing since different types and sizes of households require different types of housing and potentially different community services.

Modesto had approximately 58,000 households in 1990 and 65,000 households in 2000, representing an increase of 12 percent, close to California's 11 percent increase (Table 2-16). Surprisingly, Modesto had a fairly large increase in married couples with no children (11 percent), but numeric and proportional decreases in married couples with children (739, 4 percent). This pattern is somewhat unusual since California had a 13 percent increase in families with children during the same period. Married couples without children generally have different housing needs compared to those families with children.

## Tenure

Modesto is a family-oriented community, where most prefer owning their own homes to renting. Homeownership rates in Modesto and Stanislaus County were higher than California as a whole, especially for the 25- to 34-year-old range (Table 2-18).<sup>23</sup> People in this age range are usually first-time homebuyers with smaller household size. In 2000, homeownership rates continue to be higher for Modesto and Stanislaus County residents, but the differences compared to California are less pronounced than in 1990.

**Table 2-18**  
**Tenure by Age**

<sup>23</sup> Department of Housing and Community Development, *Statewide Housing Plan*, 1997.

One way to determine demand for different types of housing relative to the supply is to look at prices and affordability. Table 2-19 shows housing costs as a percentage of income (which effectively controls for different costs of living) for Modesto, the San Joaquin Valley region, and California as a whole. Overall, a higher proportion of households in Modesto pay more than 30 percent of their income on housing than those in San Joaquin Valley. Specifically, Modesto has a higher percentage of renter-households using more than 35 percent of their household income for housing, while the share of owner-households paying more than 35 percent of their income for housing is lower than for California as a whole. This suggests that, as of 2000, affordable rental housing was more difficult to find than for-sale housing in the City.

Compared to East Bay counties such as Alameda, the proportions of households paying more than 30 percent of income on housing is higher for renter-households (45 percent) and lower for owner-households (28 percent) in Modesto. For example, the proportion of households expending more than 30 percent of household income on housing is 31 percent for owners and 41 percent for renters in Alameda County, and 30 percent for owners in Contra Costa County. In 1990, 46 percent of renters and 26 percent of owners paid more than 30 percent of their incomes on housing in Modesto. The increase in owner housing cost burden and persistence in rental housing cost burden may be due to an influx of commuting households with higher household incomes, pushing up the housing prices.

**Table 2-19**  
**Housing Costs as Percentage of Household Income**

Percentage of Household Income Spent on Housing	Modesto	San Joaquin Valley	California
<b>Rental Housing</b>			
Less than 15 percent	13.9%	15.0%	14.6%
15 to 19 percent	14.5%	13.3%	13.6%
20 to 24 percent	12.4%	12.0%	13.1%
25 to 29 percent	11.3%	9.9%	11.1%
30 to 34 percent	8.0%	7.7%	8.2%
35 percent or more	36.6%	34.8%	34.1%
<b>Owner-Occupied Housing</b>			
Less than 15 percent	29.1%	29.0%	28.0%
15 to 19 percent	16.2%	15.7%	14.6%

35 percent or more	20.7%	20.1%	23.2%

Source: U.S. Census, 2000.

## Household Incomes

Among the many factors influencing housing opportunity, household income is one of the most important. With limited household income, trade-offs among basic life needs can constrain housing choice and opportunity. Income levels are highly variable among households and affect choices such as tenure, housing type, and location.

Modesto's income levels tend to be higher than in the region and lower than in the State, while poverty levels tend to be higher than statewide levels and lower than the region (Table 2-20). The region's higher proportion of lower-income households and households living in poverty may be an indicator of the high level of agricultural employment in the region.

Overall, female-headed families are more impacted by poverty than other family types. As discussed before, the group experiencing the largest growth in Modesto is "other families," which is comprised primarily with single-parent households, particularly female-headed households. The need for housing and services for female-headed households with children in Modesto is on the rise.

**Table 2-20**  
**Income in Modesto, Region, State**

Geographic Area	Median Household Income	Median Family Income	Per Capita Income	% below Poverty Level (Families)	% below Poverty Level (Female-Headed Families)	% below Poverty Level (Individuals)
Modesto	\$40,394	\$45,681	\$17,797	12.2%	29.6%	15.7%
Region	\$36,638	\$40,140	\$15,541	16.0%	36.5%	20.5%
California	\$47,493	\$53,025	\$22,711	10.6%	25.0%	14.2%

Source: U.S. Census, 2000.

As shown in Table 2-21, owner-households are better represented in the higher income categories than are renter-households. Elderly renter-households and large family renters are particularly concentrated in the extremely low and low-income categories (less than 50 percent of Area Median Income). Without adequate rental housing choice and affordability, lower-income households may experience overcrowding or have to assume a housing cost burden, among other problems.

**Table 2-21  
Income Level by Tenure**

Household Type	Income Level (as % of Area Median Income)					Total

Total	8%	11%	15%	8%	58%	100%

Source: HUD CHAS, 1993.

**Low Income Target Areas**

The previous information deals with income at the household level for the City as a whole. Planning for the City's housing needs also requires some understanding of the variability of household incomes, housing stock, and other information at the neighborhood level. In some cities, neighborhoods with higher concentrations of lower income households experience deferred maintenance and instability, which can create problems related to adequate housing.

Lower-income households are more common near Modesto's downtown and along the Highway 99 corridor, as well as the airport area and along the Tuolumne River. Figure 2-9 shows low-income areas of the City by Census block group, as determined by HUD.<sup>24</sup> These are many of the same areas of the City that have relatively older housing stock and lower median gross rental rates.

<sup>24</sup> Low-Income Target Areas include block groups with more than 51 percent of the population earning no more than 80 percent of the County Median Family Income.

## Employment

The types of jobs held by Modesto residents, as mentioned earlier, mirror those of the region and California as a whole. During the census period (between 1990 and 2000), service occupations had the largest increase for Modesto residents, which is typical of the time period for most cities in California. The proportion of Modesto residents employed in farming and as machine operators/laborers decreased. Overall, Modesto's employed population increased by 10 percent, while the overall population increased by 15 percent (Table 2-22). Major employers in Modesto include those associated with agriculture, health care, and government (Table 2-23). These industries typically offer a large proportion of lower-paying jobs.

**Table 2-22**  
**Occupations of Modesto Residents, 1990 and 2000**

Occupation	1990		2000		% Change 1990 - 2000
	#	%	#	%	
Managerial/Professional	16,729	24%	21,760	28%	30%

While some Modesto residents work in higher-paying occupations, many others work in the service sector, providing essential services to residents and businesses in the community. These residents may not be able to afford adequate housing in the City. Table 2-24 shows the average salary of selected jobs in Modesto. Many of these are low-paying jobs that fall within the lower-income categories. The City is expected to see the addition of an estimated 106,000 jobs by 2020, many of which, particularly those in the service sector, will be lower paying. Housing costs, as estimated by the median home price, have increased dramatically – by 37 percent in Modesto between 2000 and 2002.<sup>25</sup> As a result, homeownership is becoming increasingly difficult to achieve for moderate-income working professionals, and is almost out of reach for lower-income households.

**Table 2-24**

Source: California Employment Development Department

Note: County Median Income in 2000 was \$43,900.

Unemployment rates in 2000 were slightly lower in Stanislaus County (10.4 percent) and Modesto (9.3 percent) than in 1990 – 11.8 percent and 10.5 percent, respectively. As of October 2002, the unemployment rate in Modesto (9.2 percent) continued to be lower than Stanislaus County (10.3 percent), but higher than that for California (6.2 percent), though the California data is seasonally adjusted, while the County and City data are not.<sup>26</sup>

<sup>25</sup> According to second quarter median home sales price data from the California Association of Realtors.

<sup>26</sup> Employment Development Department web site, 2002.

## Jobs-to-Housing Ratio

Modesto's jobs-to-households ratio is higher than that of San Joaquin County, at 1.1, according to Stan COG estimates, though it is unclear to what extent the jobs are geographically matched with the population (Table 2-25).<sup>27</sup> The Census identifies 76,567 employed persons in Modesto, averaging 1.12 wage-earners per household. A jobs-housing ratio of 1.1 seems to indicate that the City does offer an adequate number of jobs. The jobs-housing issues confronting the City seem to relate more to the spatial mismatch between the jobs located in Modesto and the people working those jobs, as evidenced by the large number of commuters crossing the Altamont Pass daily. Of equal concern is the mismatch between the types of jobs offered and associated pay scales, and the costs of housing in the City.

**Table 2-25**  
**Households and Employment, Modesto and Stanislaus County**

Geographic Area	Households	Employment	Jobs to Households
Ceres	10,967	12,128	1.1
Hughson	1,263	1,670	1.3
Modesto	67,959	75,645	1.1
Newman	2,047	1,883	0.9
Oakdale	5,778	4,923	0.9
Patterson	3,147	3,846	1.2
Riverbank	3,907	4,334	1.1
Turlock	18,658	19,766	1.1
Waterford	1,873	1,849	0.9

Total County	154,927	168,126	1.1

Source: Stan COG, 2002; U.S. Census, 2000.

According to Census and Stan COG figures, the number of jobs in Modesto increased more than the housing stock or number of employed residents. The jobs-housing ratio increased by 5 percent between 1990 and 2000 (Table 2-26). The City also experienced a greater growth in residents employed in service and production/craft/repair occupations that tend to pay lower wages (refer to Table 2-24). On one hand, the City is facing the difficult issue of addressing the need for housing affordable to residents at these pay scales; on the other hand, the City must diversify its employment base to offer well-paid jobs to residents and to reduce the need for commuting to the East Bay for employment opportunities. As a community striving to achieve a balance in housing and job opportunities, improve quality of life, and become a more sustainable community, the City must devise and implement an economic development strategy that works hand-in-hand with the housing strategy.

<sup>27</sup> Stan COG. *Regional Housing Needs Assessment*. Appendix III. October 2002. The Stan COG estimates are for 1999 and the figures shown do not reflect the 2000 Census, but are useful in comparing jobs to household balances.

### Local Economic Development Trends and Initiatives

As discussed above, the jobs-to-housing ratio in Modesto is improving and is better on the aggregate level than in many other cities in the region. However, because of an increasing number of residents who work out of the City and County, and an increasing number of workers in Modesto who live elsewhere, traffic congestion is becoming worse, impacting the City's ability to provide adequate transportation infrastructure and expand economic opportunities. The Inter-Regional Partnership (IRP), a partnership formed in 1998 consisting of 15 selected officials from 5 counties — Alameda, Contra Costa, San Joaquin, Santa Clara, and Stanislaus — indicates that the most effective incentives for economic development in job-poor areas would be those that:

1. Improve their competitive position in the marketplace by reducing the cost of off-site improvements;
2. Improve the quality of the workforce; and/or,
3. Reduce the time for processing local development proposals.<sup>28</sup>

In the City, though plenty of land may be zoned to allow economic development, the cost of providing infrastructure to this land, especially transportation infrastructure, is seen as a constraint to development.<sup>29</sup> Adaptive reuse of redevelopment areas and existing buildings is a potential mechanism for economic development with less-burdening infrastructure costs.

Modesto's Community and Economic Development Department has several programs intended to encourage economic activity that will benefit current and future residents:

- Modesto Redevelopment Project Area Incentives
- Economic Development Revolving Loan Program
- Economic Development Revenue Bonds
- Enterprise Designation Areas

<sup>28</sup> King, James R. *Managing the Consequences of Prosperity: A Report for the Inter-regional Partnership*. January 10, 2001.

<sup>29</sup> Linda Boston, City of Modesto Business Development Manager, personal correspondence, December 13, 2002; and, Bill Bassett, CEO of Stanislaus Economic Development and Workforce Alliance, personal correspondence, December 12, 2002; King, James R., page i-ii.

In the interest of promoting a vibrant economy, the City has prepared an Economic Development Action Plan as a component of an overall Strategic Plan. The Action Plan includes goals, strategies, and actions that are largely focused on public utility and service provision. Some of the actions and policies are relevant for consideration in development of the Housing Element update (Table 2-27).

**Table 2-27  
Relevant Economic Development Action Plan Policies and Actions**

Section of Action Plan	Relevance for Housing Goals, Programs, and Policies	Relevant Action Plan Policies and Actions
Infrastructure	Moderate	<ul style="list-style-type: none"> <li>▪ Conduct annual rate reviews/cost-of-service analyses for water, sewer, and storm drainage.</li> <li>▪ Benchmark against other similar utilities to provide comparable costs.</li> <li>▪ Provide dependable service delivery at rates comparable to or less than elsewhere in the state.</li> <li>▪ Develop internal strategies to focus key resources on preventive and/or proactive infrastructure maintenance.</li> </ul>
Water and Wastewater	Moderate	<ul style="list-style-type: none"> <li>▪ Develop Water and Wastewater Master Plan that includes: water and wastewater quality; water supply/quantity and wastewater; treatment capacity; water source identification; growth impacts analysis; opportunities for regional facilities; conservation strategies (water meters, variable water rates, etc.); infrastructure needs (business parks, etc.)</li> <li>▪ Seek rate increases adequate to fund water/wastewater master plan strategies.</li> <li>▪ Develop a comprehensive water and wastewater strategy.</li> <li>▪ Update and adopt the Urban Water Management Plan Update to address water supply issues related to growth and water quality.</li> </ul>
Solid Waste	Low	N/A
Transportation	Moderate	<ul style="list-style-type: none"> <li>▪ Orient new development toward multi-modal and non-motorized modes.</li> </ul>
Communications and Technology	Low	N/A
Land Use	High	<ul style="list-style-type: none"> <li>▪ Mix land uses within neighborhoods.</li> <li>▪ Create development incentives to encourage compact development and ensure planning/zoning codes facilitate this development.</li> <li>▪ Prepare comprehensive General Plan Housing Element that includes a Housing Overlay for the General Plan.</li> <li>▪ Create housing opportunities and choices for a range of household types, family sizes and incomes.</li> <li>▪ Increase multi-family residential and affordable housing inventory.</li> <li>▪ Establish aesthetic criteria for evaluation of projects.</li> <li>▪ Identify and prioritize farmland/open space areas for preservation as community buffers.</li> <li>▪ Preserve open space, farmland, natural beauty, historic buildings, and critical environmental areas.</li> <li>▪ Identify ultimate urban limit lines based on logic, economy of scale, and agricultural land use (including soil quality).</li> <li>▪ Reinvest in and strengthen existing communities and achieve more balanced regional development.</li> <li>▪ Upgrade infrastructure and target infill areas for development.</li> <li>▪ Perform a comprehensive revision of the City's Zoning Code, to include developing set criteria for evaluating projects that apply to all</li> </ul>

**Table 2-27**  
**Relevant Economic Development Action Plan Policies and Actions**

Section of Action Plan	Relevance for Housing Goals, Programs, and Policies	Relevant Action Plan Policies and Actions
		<p>development proposals.</p> <ul style="list-style-type: none"> <li>▪ Encourage citizen and stakeholder participation in development decisions.</li> <li>▪ Establish project review method that includes public participation and community meetings.</li> <li>▪ Increase the efficiency of the permit process to ensure it is customer friendly and informative.</li> <li>▪ Achieve an equitable jobs-housing balance and avoid fiscal strains of leapfrog development.</li> <li>▪ Conduct a study to determine the optimal mix of land uses for a healthy economy and recommend changes to development proposals.</li> <li>▪ Establish annexation policy based upon the City's ability to assimilate new development and on the desire of residents to join the City, combined with the willingness of the County to provide infrastructure upgrades.</li> <li>▪ Scrap the 5-year inventory policy in favor of growth by ability to provide infrastructure and maintenance of service delivery standards.</li> </ul>
Regional Cooperation	Moderate	N/A
City Finances	High	<ul style="list-style-type: none"> <li>▪ Review and update fees and charges (CFF, etc.) on a regular basis to ensure that fees are adequate.</li> </ul>
Education and Workforce Development	Low	<ul style="list-style-type: none"> <li>▪ Explore partnering with the County to develop child care programs that meet the needs of downtown workers.</li> </ul>
Downtown Vibrancy	High	<ul style="list-style-type: none"> <li>▪ Encourage infill and revitalization by revising fee structure for development within downtown core.</li> <li>▪ Adopt developer incentives for high-density housing.</li> <li>▪ Construct a flagship housing development in downtown.</li> </ul>
Business	Low	
Open Space, Agriculture, and Environment	Moderate	<ul style="list-style-type: none"> <li>▪ Increase the General Plan open space standard.</li> <li>▪ Design and construct community infrastructure and amenities during the initial phases of new development.</li> </ul>
Redevelopment	High	<ul style="list-style-type: none"> <li>▪ Use state-required 20% housing set-aside funds to improve and increase the amount of low to moderate-income housing.</li> <li>▪ Focus housing set-aside funds within the redevelopment area.</li> <li>▪ Encourage expansion of the Redevelopment Area to include declining/underdeveloped portions of the City (i.e. Yosemite Corridor).</li> <li>▪ Look at opportunities to encourage people to develop vacant buildings.</li> </ul>
Marketing	Moderate	N/A

## Special Needs Groups

Certain groups have greater difficulty in finding acceptable, affordable housing due to special circumstances relating to employment and income, household characteristics, and disabilities. Special needs groups, for the purposes of this analysis include:

- Seniors
- Persons with disabilities
- Large households
- Single-parent households (female-headed households with children, in particular)
- Homeless persons
- Agricultural workers

Each special needs group has particular housing needs. Table 2-28 identifies the special needs populations. While single mothers with children continue to outnumber single fathers with children, single-father households experienced the largest increase of the special needs populations, at 78 percent. Single mothers with children increased in the City by 40 percent and represented 74 percent of the single-parent households with children in 2000. Farmworkers in Modesto decreased in population, with a migration toward unincorporated areas of the County.

**Table 2-28**  
**Special Needs Groups, 1990 – 2000**

Special Needs Group	1990		2000		% Change, 1990- 2000
	Persons	Households	Persons	Households	
Seniors (65+)	17,268	--	20,962	--	21%
Senior Households	--	12,067	--	12,773	6%

\* Five or more household members

## Persons with Disabilities

Physical, mental, and/or developmental disabilities may prevent a person from working, restrict one's mobility, or otherwise make caring for oneself difficult. Individuals with physical and mental disabilities often have special needs related to housing that go unmet by the private housing market. Special issues relate to inability to earn a sufficient income for market rate housing, the lack of accessible and affordable housing, and the need for supportive services.

The 2000 Census documented the following disabilities: sensory, physical, mental, self-care, going-outside-home, and employment. Due to the large range of disabilities recorded, the proportion of residents with one or more disabilities reported by the 2000 Census generally is larger than that reported in the 1990 Census. According to the 2000 Census, more than 38,000 residents in Modesto had one or more disabilities, representing approximately 22 percent of the total population (Table 2-29). However, almost half of the non-senior adults with disabilities are employed.

**Table 2-29**  
**Disability and Employment Status of Modesto Residents Aged 5+**

Disability Status	Total	Male	Female
Age 5 to 15	36,734	18,667	18,067
With a Disability	2,285	1,485	800
No Disability	34,449	17,182	17,267
Age 16 to 20	14,567	7,105	7,462
With a Disability	2,229	1,124	1,105
Employed	42%	47%	37%

With a Disability	9,250	3,574	5,676
No Disability	10,477	4,401	6,076

Source: U.S. Census 2000.

Note: Totals may deviate slightly from 100% count of population.  
Figures in this table are based on Census sample data.

Among the Modesto children with disabilities, most are inflicted with mental disabilities, which include development disabilities (Table 2-30). Among the disabled persons age 16 to 64, physical disabilities, going-outside-home disabilities, and employment disabilities are most common. Seniors age 65 or above are more impacted by physical and going-outside-home disabilities than other types of disabilities. To accommodate the housing needs for persons with disabilities, housing designs must be particularly sensitive to the constraints caused by physical and sensory disabilities. Modesto has a number of State-licensed community care facilities to meet the needs of persons with special needs, including those related to physical and mental disabilities, as summarized in Table 2-31.

**Table 2-30  
Disability Type by Age**

<b>Disability Type</b>	<b>% of Total</b>

**Senior Households**

Senior persons often have special housing needs for three key reasons: income, health care costs, and physical disabilities. Some of the most important issues for seniors are presented in Table 2-32. Among the senior population in Modesto, 27 percent of all seniors live alone (Table 2-33). This proportion is significantly higher than in California and indicates a need for housing options designed to meet senior needs.

**Table 2-32  
Housing Issues of Special Importance to Seniors**

Senior Issues	Description	Incidence in Modesto
Fixed/Limited Income	Many seniors have a limited, and/or fixed income from which they pay for health care, housing, and other expenses.	Approximately 33 percent of senior households in Modesto have low or very low incomes.
Disabilities	Seniors have physical disabilities at a higher rate than does the general population. Senior homeowners, particularly elderly women, may require assistance in performing regular home maintenance or repair activities due to physical limitations or disabilities.	Out of the senior population in the City, 37 percent have a disability.
Cost Burden	Limited income and a lack of affordable housing leads to a cost burden (more than 30 percent of one's income spent on housing).	61 percent of renter senior households in the City experience a housing cost burden.

**Table 2-33  
Senior Population**

Category	Modesto		California % of Senior Persons
	Number of Persons	% of Senior Persons	
Total:	20,962	100%	100%
In households:	19,325	92%	95%
In family households:	13,146	63%	67%
Householder:	6,867	33%	34%
In nonfamily households:	6,179	30%	28%
Living alone	5,574	27%	7%
In group quarters:	1,637	8%	5%
Institutionalized population	1,144	5%	3%
Noninstitutionalized population	493	2%	1%

Source: U.S. Census, 2000.

Many senior households in Modesto pay more than 30 percent of their often-limited and small incomes on housing. According to the 2000 Census, 26 percent of the senior owner households and 59 percent of the senior renter households assumed a housing cost burden of more than 30 percent of their incomes (Table 2-34). Affordable housing opportunities for seniors, particularly those who rent, are needed in Modesto. Several housing developments in the City offer affordable housing for seniors. These include the Sherwood Manor and Conant Place.

**Table 2-34  
Housing Cost Burden among Senior Households**

Senior Households	Owner	Renter	Total
Total Households	9,069	3,660	12,729
Paying More than 30% of Income on Housing	26%	59%	35%

Source: U.S. Census, 2000

The special needs of seniors can be met through:

- Congregate care
- Other senior housing with supportive services
- Transportation services
- Architecture to accommodate disabilities
- Rent subsidies
- Shared housing programs
- Housing rehabilitation assistance

Social and supportive services are available from the City's Parks, Recreation and Neighborhoods Department, as well as the Stanislaus County Department of Social Services. The City's Senior Citizens Center offers recreational and social activities, driving courses, tax consulting, health exams, immunizations, lunch program, and a resource and referral service. Several retirement communities throughout Modesto offer assisted living in for-rent and for-purchase units. The Salvation Army's Senior Information and Referral Program

helps seniors with issues related to financial planning, health, and housing assistance. The Stanislaus County Area Agency on Aging, which provides information and referral services, as well as advocating for senior needs locally, is located in Modesto.

### **Single-Parent Families**

Single-parent households, particularly female-headed households often face difficulty in finding adequate and affordable housing, due to their single incomes. Female-headed households also tend to earn lower incomes. Compared to two-parent households, single parents also must dedicate a larger portion of their limited incomes to child care, food, and health care expenses.

According to the 2000 Census, Modesto had 8,122 single-parents with children under the age of 18 (see Table 28). Specifically, 5,998 (74 percent) were female-headed families and 2,124 (26 percent) were male-headed families. Provision of affordable family housing near transit centers and child care and other supportive services helps address the housing needs of this special group.

### **Large Families**

Large households, defined as those with five or more persons, have a need for larger dwelling units, which are often in limited supply and more expensive. To save money for other basic necessities, many lower-income large households live in overcrowded apartments or homes.

According to the Census, 10,054 large households resided in Modesto, representing approximately 16 percent of all households in the City. Among the large households, 5,760 (57 percent) were owner-households and 4,294 (43 percent) were renter-households. Generally, these households require dwelling units with three or more bedrooms for adequate housing. Approximately 76 percent of owner-occupied units have 3 or more bedrooms, but only 27 percent of renter-occupied units have 3 or more bedrooms. Availability of rental housing may be a problem for large families.

Updated 2000 Census data detailing the housing problems confronted by large households is not yet available. According to the 1990 Census, only 15 percent of large families that owned their home had lower incomes, but 66 percent of large families that rented had lower incomes, which was much higher than the overall percentage of households (34 percent) that had lower incomes (Table 2-35). As a result, 48 percent of the large renter-households paid more than 30 percent of their income on housing, and 58 percent of large renter-households experienced overcrowding in 1990. Given the recent escalation of housing prices in Modesto, the extent of housing problems faced by large households, especially those that rent, is expected to have become worse.

**Table 2-35  
Large Family Income Levels**

Household Type	Income Level (% of Median Family Income)				
	0-30%	31-50%	51-80%	81-95%	95%+
All Households	8%	11%	15%	8%	58%
Large Families that Own	2%	4%	9%	9%	76%
Large Families that Rent	13%	26%	27%	7%	27%

Source: HUD CHAS, 1993

To address overcrowding, communities can provide incentives for developers to build larger apartments with three or more bedrooms that can accommodate larger households. Often, the shortage of large rental units can also be alleviated through the provision of affordable ownership housing, such as condominiums coupled with homeownership assistance. However, since 1990, only 10 percent of housing built since 1990 was multi-family housing.

The threat of litigation over construction defects has been a major constraint to multi-family condominium housing construction. Recent legislative changes allow developers to negotiate and mitigate construction defects before going to court, which may relieve some of the concerns for builders, freeing up the for-sale multi-family housing market.

**Homeless**

Due to the transient nature of the homeless population, estimating the precise number of homeless persons in a community is a difficult, if not impossible challenge. As part of the Stanislaus County Continuum of Care Application for 2002, a survey was conducted to estimate the nature and extent of homelessness in the County. Based on that effort, the countywide homeless population is estimated at 10,215 persons. Characteristics of the countywide homeless population include:

- 6.8 percent veterans
- 53.9 percent families
- 37.6 percent individuals
- 39.8 percent disabled
- 29.2 percent dually diagnosed disabled
- 31.2 percent had been homeless for more than 5 years

Domestic violence, alcohol and drug use, mental illness, money management problems, and job loss are the most typical causes for becoming homeless. Of specific note is the rising number of homeless families in the County.

No specific estimate of the homeless population in Modesto is provided as part of the Continuum of Care application. However, the homeless population in Modesto was estimated in 1999 to be approximately 210 to 270 individuals on a nightly basis.<sup>30</sup> Of the

<sup>30</sup> City of Modesto. *Consolidated Plan, Fiscal Years 2001-2005*. Page 37.

adult homeless with families surveyed in 1999 for the City's Consolidated Plan, the following types of homeless individuals were observed (Table 2-36):

**Table 2-36**  
**Types of Homeless**

Homeless	Percent
Seniors	12%
HIV/AIDS	5%
Mentally Ill	17%
Substance Abuse	67%

Source: City of Modesto. *Consolidated Plan*. 1999.

Three types of facilities provide shelter for homeless individuals and families: emergency shelters, transitional housing, and permanent housing:

**Emergency Shelter:** A facility that provides overnight shelter and fulfills a client's basic needs (i.e. food, clothing, and medical care) either on-site or through off-site services. The permitted length of stay can vary from one day at a time to three months.

**Transitional Housing:** A residence that provides housing for up to two years. Residents of transitional housing are usually connected to supportive services designed to assist the homeless in achieving greater economic independence and a permanent, stable living situation. Services may include substance abuse treatment, mental and physical health care interventions, job training and employment services, individual and group counseling, and life skills training.

**Permanent Housing:** Affordable permanent housing or service-enriched permanent housing linked with supportive services (on-site or off-site) and designed to allow formerly homeless clients to live at the facility on an indefinite basis.

A number of emergency shelters are located in the Modesto area (Table 2-37). In addition, a range of transitional housing facilities are available. As shown in Table 2-37, a number of group homes, community residential care facilities for adults, and a social rehabilitation facility are located in the City of Modesto, which all could potentially provide transitional assistance to formerly homeless persons. Additional transitional housing facilities are identified in Table 2-38. A transitional housing facility at 5<sup>th</sup> and F Streets offers accommodation up to 54 homeless persons that are dually diagnosed.

**Table 2-37  
Emergency Shelters in Modesto**

Name	Beds	Services
The Central Valley Homeless Veterans Project	26	Emergency shelter, counseling, information and referral
The Modesto Gospel Mission	225 beds for single women, single men, single women with children, and single men with children.	Emergency shelter, 150,000 meals per year to clients and to the general public. Two thousand people are served by the Mission each year.
Children's Crisis Center	5 to 10 youths and children per month.	Primarily provides child care, overnight emergency shelter on an as-needed basis (referrals from the police department or the County's Child Protective Services).
Hutton House	6	Short-term residential shelter for runaway and homeless youth between the ages of 13 to 17 years. Individual group and family counseling is provided to residents. Program goals include the reunification of teens with their families and the provision of follow-up and ongoing family counseling after the resident moves out. Youth may stay for up to two weeks. Frequently, there is a demand for an additional five beds per night. Referrals are primarily from Community Housing and Shelter Services, the Police Department, Child Protective Services, and the County's Emergency Food and Shelter Program.
Haven Women's Center of Stanislaus County	25	For women who have been abused or are in life-threatening situations. The Center also houses the children of abused women. Counseling services, weekly support groups and legal advocacy program are available.
Community Housing and Shelter Services (CHSS)	15 households per day	Services to on-site clients are provided through contracts with County Mental Health, the Welfare Department, and HOPWA funded service providers.

## Farmworkers

Agricultural workers are traditionally defined as persons whose primary incomes are earned through permanent or seasonal agricultural labor. Permanent farm laborers work in the fields, processing plants, or support activities on generally a year-round basis. When workloads increase during harvest periods, the labor force is supplemented with seasonal labor, often supplied by a labor contractor. For some crops, farms employ migrant workers, defined as those whose travel distance to work prevents them from returning to their primary residence every evening.

Farmworkers work in two major types of situations: farm services, which have higher rates of pay and are less seasonal, and farm production workers. The following addresses only farm production workers. The housing needs of those employed in farm production differ from the rest of the population due to:

- The seasonal nature of farm employment
- Typically low wages
- Language barriers

Between 1990 and 2000, the number of farmworkers in Stanislaus County decreased by approximately 24 percent from 12,000 to 10,000, and the countywide farmworker population in 2008 is estimated at approximately 6,660, representing another 30 percent decline.<sup>31</sup> Similarly, the number of farmworkers residing in Modesto decreased by 45 percent during the 1990s. As of 2000, most farmworkers in the County lived in the unincorporated areas, but approximately 1,351 lived in Modesto, representing 0.3 percent (less than one-third of one percent) of the City population. Planning for low- and very-low-income households as a part of the Housing Element update and continued implementation of fair housing programs will provide housing opportunities for farmworkers wishing to live in Modesto.

## Housing Stock

Housing characteristics and conditions that affect the quality of life for residents include:

- Housing stock and growth
- Tenure and vacancy rates
- Age and condition
- Housing costs
- Affordability

A diversity of housing options is an important resource for households wishing to improve their living conditions. Preservation and improvement of existing housing and neighborhoods, including preservation of affordable units, is important to the overall housing need, especially for low- and moderate-income households.

<sup>31</sup> Stan COG. *Regional Housing Needs Assessment*. Appendix IV. October, 2002.

## Changes to Housing Stock

Most of the housing constructed in Modesto during the 1990 to 2000 Census period was single-family detached housing, as shown in Table 2-39. Only 10 percent of the units built between 1990 and 2001 were multi-family units, according to the City's Building Department. While in 1990, 72 percent of the housing stock was single-family housing, in 2000 more than 74 percent of the housing stock was single-family housing. Most single-family housing tends to be for-sale, rather than for-rent housing, but while Modesto has a proportion of single-family detached housing that is 12 percentage points higher than California as a whole, its share of owner-occupied versus renter-occupied housing is less than 2 percentage points higher than the State share. Based on recent surveys of single-family houses for rent, it appears Modesto has a relatively large stock of for-rent single-family housing.

**Table 2-39**  
**Housing Stock, 1990 and 2000**

## Age of Housing Stock

The age of Modesto's housing stock is a good general indicator of housing condition since, housing is subject to gradual deterioration over time. As a general rule in the housing industry, structures older than 30 years begin to show signs of deterioration and require reinvestment to maintain their quality. Unless properly maintained, homes older than 50 years require major renovations to remain in good condition. If not properly and regularly maintained, housing can deteriorate and discourage reinvestment, thereby depressing neighboring property values and impacting the quality of life in a neighborhood.

Much of Modesto's housing was built between 1970 and 1990, though large Specific Plan areas in the City are planned for future residential development (Table 2-40). During the housing element cycle, based on the number of housing units that will become 30 or more years old, housing maintenance and rehabilitation will become a more important issue in the City.

**Table 2-40**  
**Age of Housing Stock**

Age of Housing Stock as of 2000	Units	%
< 10 Years	9,200	14%
10-20 Years	16,286	24%
20-30 Years	17,635	26%
30-50 Years	17,045	25%
50+ Years	7,112	11%
Total	67,278	100%

### Targeted Neighborhoods for Improvements

Overall, housing in Modesto exhibits exemplary maintenance. However, certain neighborhoods are impacted by deferred maintenance. According to City staff, an estimated 15,000 housing units require rehabilitation and 500 housing units in the City require replacement. Neighborhoods toward the City's center have vintage homes, and many census tracts' homes near downtown have a median age of more than 50 years. Figure 2-10 shows the median age of the housing stock in Modesto by block group. The areas with oldest homes include the downtown area and areas north of downtown. Many of these areas of the City have well-kept vintage homes and are among the City's most valuable, though median owner costs are among the lowest in the City. The median home values (as reported by the Census) for the older housing stock northwest of Paradise Road and southwest of Highway 99 are some of the lowest in the City. Median home values in the Airport Way area west of Vista Road are in about the middle compared to other census tracts in the City.

Many of these areas with older homes correspond with census tracts with higher concentrations of lower income households. Lower-income homeowners and landlords renting to lower-income households are sometimes more apt to defer maintenance on their homes, and due to the age of housing stock in some of the neighborhoods near downtown, considerable maintenance would be necessary to maintain adequate living conditions. The census tract that most represents the downtown and central portion of the City has the lowest median gross rental rate, and the Paradise/Highway 99 area is also more affordable relative to rents compared to almost any City census tract.

## Inventory of Affordable Housing

Many government programs assist with provision of housing using contracts that ensure that the units remain affordable. Publicly assisted housing in the City includes housing developments that were provided with low-interest loans and rent subsidies through various Department of Housing and Urban Development (HUD) and Federal Housing Administration (FHA) programs, City-assisted development, and other privately developed affordable housing using a variety of funding sources.

### City-Supported Affordable Housing

The City has assisted in the development of more than 22 affordable housing projects, including 9 multi-family complexes that total 400 units (274 affordable units), 6 single-family developments that total 129 affordable units, and 7 transitional housing projects that total 42 units (see Table 2-41 and Table 2-38). Among these affordable projects, 472 units were developed within the last decade (Table 2-42) either through new construction or rehabilitation. All of the multi-family developments with affordability covenants are recent projects not at risk of converting to market-rate housing.

**Table 2-41**

## Federally Assisted Affordable Housing

In addition to City-assisted projects, 7 affordable housing projects, totaling 810 units (inclusive of 735 affordable units), were developed in Modesto with federal subsidies (Table 2-43). Three of the seven projects are reserved for families, and the remaining four projects are reserved for seniors.

**Table 2-43**  
**Modesto Federally-Assisted Multi-Family Housing Inventory**

Property	Total Units/ Affordable Units	Section 8 Expiration	Mortgage Funding	Type	Number of bedrooms			
					0	1	2	3

## Loss of Assisted Housing

According to HUD records, all federally assisted projects in Modesto have affordability restrictions/subsidy contracts that are due to expire in the next decade. A total of 735 units are at risk of losing Section 8 subsidies over the 10-year period covered by this analysis.

## Preservation Options

To maintain the existing affordable housing stock, the City may either preserve the existing assisted units or replenish the affordable housing inventory with new units.

HUD provides the *Mark-to-Market* and *Mark-up-to-Market* programs for Section 8 projects seeking renewal. If current contracted rents exceed the Fair Market Rent (FMR), HUD will provide favorable tax treatment to property owners in return for preserving the units at affordable rents (Mark-to-Market). For apartments renting at below FMR rates, HUD allows rents to be increased to levels comparable to market rents, though not exceeding 150 percent

of the FMR (Mark-up-to-Market). When a complex with an expiring Section 8 contract is at risk of conversion, the below-market stock is most likely to be converted to market rents.

Should Section 8 funding become unavailable in the future, the City may use other finding sources to provide ongoing rent subsidies. Table 2-44 presents an estimate of the costs involved in providing ongoing rent subsidies. Approximately \$91,627 in rent subsidies may be needed monthly or \$1,099,524 annually to maintain affordability for the 735 very-low-income households.

**Table 2-44  
Rent Subsidies Required**

Unit Size	Annual Income	(1)*0.3/12 Affordable Monthly Cost	Utility	Fair Market Rent	(4)-[(2)-(3)] Per Unit Monthly Subsidy	# of Units	(5)*(6) Total Monthly Subsidy
Studio	\$13,440	\$335	\$50	\$500	\$115	16	\$1,840
1-bedroom	\$15,360	\$384	\$60	\$537	\$93	497	\$46,221
2-bedroom	\$17,280	\$432	\$70	\$655	\$153	174	\$26,622
3-bedroom	\$19,200	\$480	\$80	\$913	\$353	48	\$16,944
<b>Total</b>						735	\$91,627

Notes:

1. Household size assumptions: Studio = 1-person; 1-bedroom = 2-person; 2-bedroom = 3-person; 3-bedroom = 4-person
2. Annual income (2003) estimated at 80% of the maximum income for low income households, adjusted by household size.

Another option for preservation is to reduce the monthly mortgage payment on the property to the extent that rent subsidies would no longer be needed to maintain the financial viability of the projects. This can be achieved by refinancing the remaining mortgage with a reduced interest rate or by providing a lump-sum principal write-down to the projects.

The City may also seek opportunities to assist the purchase of affordability covenants on existing projects either by nonprofit organizations or other public entities. The cost of the affordability covenants depend on a large number of factors that must be determined at the time of transaction.

**Replacement Option**

The City also may wish to build new low-income housing units to replace any at-risk units lost. The cost of developing housing depends upon a variety of factors, including density, size of the units (i.e., number of bedrooms), location, land costs, and type of construction. The average construction cost for a rental residential unit is approximately \$53,885 (including land, construction, financing, marketing, and profit), based on discussions with developers active in Modesto.<sup>32</sup> Replacement of the 735 affordable units could cost approximately \$40 million, with many important variables that could alter the overall cost.

<sup>32</sup> Figure derived from 1992 Modesto Housing Element, updated to August 2002 dollars using the California Consumer Price Index, as reported on the Department of Finance web site.

Given a limited pool of financial resources, development of replacement housing should seek to leverage participation by non-profit or for-profit housing developers, or other public entities.

## **Housing Affordability**

The cost of housing is closely related to the level and type of housing problems faced by lower- and moderate-income households. If housing costs are high relative to household income, correspondingly the incidence of housing cost burden and overcrowding will be high.

Housing affordability can be inferred by comparing the cost of renting or owning a home with the maximum affordable housing cost to households at different income levels. The Area Median Income (AMI) provides a benchmark for estimating the affordability of housing and the ability of newcomers to move into the community. Taken together, this information can generally demonstrate who can afford what size and type of housing and indicate the type of households most likely to experience overcrowding or a burden on housing cost.

HUD conducts annual household income surveys to determine the maximum affordable payments of different households and the eligibility for federal housing assistance. These income surveys by HUD are adopted by the State HCD to determine eligibility for State housing assistance. In evaluating affordability, the maximum affordable price refers to the greatest amount that could be paid by a household earning 70 percent of the income threshold for their respective income category.

Table 2-45 shows the annual income for very low-, low-, and moderate-income households by household size and the maximum affordable housing payment based on the State and federal standard of 30 percent of household income. Standard housing costs for utilities, taxes, and property insurance are also shown.

**Table 2-45  
Housing Affordability Matrix**

Income Group	Income Levels		Housing Costs		Maximum Affordable Price	
	Annual Income	Affordable Payment	Utilities	Taxes & Insurance	Ownership	Rental
<b>Very Low</b>						
One Person	\$16,300	\$408	\$50	\$79	\$48,926	\$358
Small Family	\$20,950	\$524	\$100	\$94	\$57,993	\$424
Large Family	\$25,100	\$628	\$150	\$106	\$65,349	\$578
<b>Low</b>						
One Person	\$26,050	\$651	\$50	\$133	\$82,285	\$601
Small Family	\$33,500	\$838	\$100	\$163	\$100,931	\$788
Large Family	\$40,150	\$1,004	\$150	\$189	\$116,841	\$954
<b>Moderate</b>						
One Person	\$39,050	\$976	\$50	\$205	\$126,763	\$926
Small Family	\$55,800	\$1,395	\$100	\$287	\$177,229	\$1,345
Large Family	\$64,750	\$1,619	\$150	\$325	\$201,007	\$1,569

Notes:

1. 2002 Income limits are used because housing costs information was collected for 2002.
2. Small Family = 3 persons; Large Families = 5 or more persons
3. Monthly affordable rent based on payments of no more than 30% of household income
4. Property taxes and insurance based on Modesto mortgage lender interviews, September and October of 2002.
5. Calculation of affordable home sales prices based on a down payment of 10%, annual interest rate of 6.5%, 30-year mortgage, mortgage insurance of 0.38% of loan amount, and monthly payment of gross household income

### Housing Costs

In Modesto, the recent increases in housing costs, with the lack of a commensurate increase in wages, create difficulty for lower- and moderate-income households alike. The Dataquick real estate database for single-family homes in 2002 through October identifies a median price of \$194,000 and an average of \$209,000, neither of which the very low- or low-income family in Modesto could afford (Table 2-46). Only the moderate-income large family could afford the overall median-priced home as of 2002.

When broken down by number of bedrooms, it is evident that the average and median prices for homes sold in 2002 are heavily influenced by three- and four- bedroom home sales, and that two-bedroom homes are significantly less expensive, but were less frequently sold (Table 2-47). In Modesto, there are a small number of 2 bedroom homes that would be affordable to the low-income small family and a larger number available to the moderate-income small family.

Condominium sales in Modesto between January and November of 2002 are a small fraction of the overall for-sale housing transactions (Table 2-48). However, this type of housing represents a viable option for market-rate, affordable housing for low-income individuals,

and moderate-income families and individuals. There are a smaller number of these units, according to 2002 sales data, that would be affordable and appropriately sized for low-income small families, as well.

The median gross rent, as reported by the 2000 U.S. Census, was \$639, which has increased since 2000, according to local service providers, to the \$750 - \$850 range.<sup>33</sup> This level of rent is out of reach for very-low-income families, but is in the affordable range for low- and moderate-income families and moderate-income individuals.

**Table 2-46**  
**Home Sales Prices, 1997-2002**

Year	Median Sales Price	% Annual Change	Period	Average	% Annual Change	Period
1990	\$130,700	N/A	Annual	\$134,921	N/A	Annual

When one controls for the size and amenities of homes sold recently in Modesto, the increase in price is more pronounced. The index shown in Figure 2-11 controls for differences in the amenities of homes. For the purposes of analysis, the constant quality house is one with the average characteristics of homes sold during the eight years of the index. The chart below reflects final sale prices of single family, detached homes and does not include new home sales.

**Figure 2-11**  
**Index of Central Valley Home Prices, 1995-2002**

Source: Real Estate Institute, University of the Pacific, 2002.

The cost of housing for owners and renters has increased dramatically for Modesto residents, especially since 2000. However, between 1990 and 2000, the percentage of income spent on housing increased only slightly. Stanislaus County owners saw the largest increase of the geographic areas shown below, at five percent (Table 2-49).

**Table 2-49**  
**Increase in Owner and Renter Costs, Modesto and Bay Area**

Geographic Area	1990	2000	1990	2000	Change, 1990-2000	
	Renters	Renters	Owners	Owners	Renters	Owners

Housing affordability directly affects two issues in a community – overcrowding and cost burden.

### Overcrowding

Overcrowding is typically defined as more than one person per room (living and dining rooms are counted, but kitchens and bathrooms are not). According to the Census, 7.6 percent of the owner-households were overcrowded in 2000, compared to 17.8 percent of the renter-households. Overcrowding had worsened slightly over the years. In 1990, only 4.4 percent of the owner-households and 14.5 percent of the renter-households were overcrowded.

### Cost Burden

A household experiences housing cost burden when it spends at least 30 percent of its gross income on housing costs (rent, mortgage, utilities, taxes, and insurance). Housing cost burden typically affects renter-households more severely, compared to owner-households, in several ways. One, a higher proportion of renters is affected by housing cost burden. Two, renters who cannot afford to rent typically cannot afford to purchase their homes and therefore, are limited in housing options. Three, fluctuations in market conditions affect renters more directly, while existing owner-households typically have fixed mortgage

payments and fluctuations in home prices do not affect those owners with no need to sell or relocate.

According to the 2000 Census, 44.6 percent of the renter-households had a housing cost burden, compared to 27.2 percent of the owner-households (Table 2-19). The cost burden situation in Modesto did not deteriorate significantly between the two census years. In 1990, cost burden was 46.6 percent among renters and 25.1 percent among owners. However, when the cost burden and overcrowding issues are viewed together, it becomes apparent that households are choosing to overcrowd than to overpay for housing.

## **E. FUTURE HOUSING NEEDS**

Future housing need refers to the share of the regional housing need that has been allocated to the City. HCD assigns a regional housing goal number to Stan COG, which is then distributed into four income categories. Stan COG is then mandated to allocate the numbers to city and county jurisdictions in the County. In allocating the County's future housing needs to jurisdictions, Stan COG is required to take the following factors into consideration, pursuant to Section 65584 of the State Government Code:

- Market demand for housing
- Employment opportunities
- Availability of suitable sites and public facilities
- Commuting patterns
- Type and tenure of housing
- Loss of units in assisted housing developments
- Over-concentration of lower-income households
- Geological and topographical constraints

Stan COG completed its Regional Housing Needs Plan (RHNP) in September of 2002, which has been submitted to HCD for approval. Negotiations are still ongoing to refine the allocation to individual jurisdictions.

The major goal of the RHNP is to assure a fair distribution of housing among cities and the county so that every community provides an opportunity for a mix of housing affordable to all economic segments. The housing allocation targets are not building requirements but goals for each community to accommodate through appropriate planning policies and land use regulations. Allocation targets are intended to assure that adequate sites and zoning are made available to address anticipated housing demand during the planning period and that market forces are not inhibited in addressing the housing needs of all economic segments of a community.

## F. SUMMARY OF ISSUES

Modesto faces a number of important challenges that it must meet as it strives to achieve a balanced and sustainable community. Some of the issues to be addressed in the Housing Element include:

- Projected population growth of 60 percent over the next 10 years and double over the next 20 years.
- Employment growth lagging behind population and housing growth during the past 10 years.
- Geographic and income mismatch between jobs and housing available in the City, resulting in increased commuting time, and worse traffic and air quality, among other issues.
- Run-away housing prices in the Bay Area, causing an increased number of workers from the Bay Area seeking affordable housing in the San Joaquin Valley.
- Most significant employment gains in the last 10 years were among the service and production/craft/repair occupations, primarily lower paying jobs.
- Lack of multi-family housing construction, leading to overcrowding and cost burden issues among renter-households.
- Increase in families without children and decrease in families with children indicate the need for smaller size units to accommodate start-up families.
- Increase in “other” families, particularly the single-parent households, indicates a need for affordable housing and child care.
- Approximately 35 percent of the senior households pay more than 30 percent of their limited incomes on housing. Cost burden is particularly prevalent among senior renter-households.
- Limited availability of large rental units for large renter-households.
- A rising homeless issue Countywide with inadequate services and facilities to address the needs. Of specific note is the rising number of homeless families.
- Approximately 36 percent of the housing stock is at least 30 years old. Ongoing maintenance is necessary to preserve and improve the quality of the housing stock.
- Certain neighborhoods exhibit deferred maintenance.
- Some affordable housing developments may be eligible to convert to market-rate housing.
- Lower-income households have limited housing choices and most likely cannot afford homeownership.

# CONSTRAINTS ANALYSIS

The City recognizes that adequate and affordable housing for all income groups strengthens the community. Many factors can work to encourage or constrain the development, maintenance, and improvement of Modesto's housing stock. These include market mechanisms, government codes, and physical and environmental constraints. This section addresses the major constraints to housing within the City.

## A. MARKET CONSTRAINTS

Costs related to the construction, financing, and legal liability of new housing construction represent the most significant sources of market constraint to the provision of housing. Although market conditions represent a set of factors outside of the City's control, the City has some leverage in instituting responsive policies and programs to address market factors. The following discussion highlights the major market constraints to the production, maintenance, and improvement of housing within Modesto.

The price of single-family housing and rents for apartments largely reflect development costs (construction, land, and labor), financing costs (availability of loans, interest rates, insurance), and costs associated with legal requirements. A unique additional cost in Modesto is the market pressure added to the City by Bay Area workers, whose higher incomes raise housing prices and adversely affect housing affordability. Each of these factors influences Modesto's housing market and can impact the amount and cost of housing.

### Development Costs

#### Construction Costs

Construction costs vary widely according to the type of development, with multi-family housing generally less expensive to construct (on a per-unit basis) than single-family homes. However, wide variation exists within each construction type, depending on the size of unit and the number and quality of amenities provided. According to the Construction Industry Research Board, construction costs for a single-family home range from \$60 to \$100 per

square foot. Multi-family developments typically cost \$40-\$75 per square foot. A reduction in amenities and the quality of building materials can result in lower sales prices. The increased use of prefabricated factory-built or manufactured housing, which is permitted in all residential districts in Modesto (consistent with California law), may provide for lower-priced housing by reducing construction and labor costs.

Although construction costs are a significant portion of the overall development cost, Modesto can do little to mitigate its impact. Because construction costs in Modesto are similar to those in other Central Valley areas, the cost of construction is not considered a major constraint to housing production.

### **Land Costs**

Another key cost component is raw land and any necessary improvements. Unlike construction costs and labor costs, the cost of residential and commercial sites is highly variable. Cost considerations include the number of units or density of development permitted on a particular site and the location of the site in relation to other amenities. Modesto still has a significant amount of undeveloped land within the City limits, as well as more land planned for development within the Sphere of Influence. Because undeveloped land on the urban fringes is typically less expensive than properties located nearer to the City's core, this large amount of undeveloped land on the edges of Modesto helps keep land prices low and encourages more housing production in these urban fringe areas.

Land costs for residentially zoned properties within the City limits were calculated through analysis of property assessment information from Stanislaus County. Single-family residential land within Modesto costs an average of \$5.00 to \$6.00 per square foot. Assessment information provides an average land cost of \$6.00 to \$7.00 per square foot for multi-family residential properties. However, several properties have land costs in excess of \$20.00 per square foot.

### **Labor Costs**

Labor costs also factor heavily into the total cost of housing production. The cost of labor is relatively stable throughout a metropolitan area and is typically beyond the control of local government. Thus, labor costs become a fixed cost in relation to other site-specific costs, such as the cost of land. In recent years, however, changes in State law that affect labor costs for public works projects (including housing) have resulted in significantly higher labor costs for construction. Some laws are anticipated to raise labor costs for housing by more than 25 percent.

In January of 2002, Senate Bill 975 became law in California, amending Section 1720 of the Labor Code to require that construction workers for projects utilizing State or federal funds be paid the prevailing wage of labor for their services. This law significantly expanded the definition of public works projects and the application of the State's prevailing wage requirements to such projects. The bill also expands the definition of public funds and captures significantly more projects beyond traditional public works projects that involve public/private partnerships. SB 975 requires payment of prevailing wages for most private

projects built under an agreement with a public agency providing assistance to the project. The breadth of the legislation substantially limits the ability of public agencies and private entities to structure transactions to avoid prevailing wages for private construction work, thus increasing the cost of construction significantly.

Senate Bill 972 further amended Labor Code Section 1720 to provide some relief by exempting from prevailing wage requirements the construction or rehabilitation of some privately owned residential projects. Specifically, SB 972 exempts the following: a self-help housing project in which no less than 500 hours of the construction work is performed by the homebuyers; the new construction, rehabilitation, or expansion of a temporary or transitional housing facility for the homeless; assistance for the rehabilitation of a single-family home; and an affordable housing project funded by below-market interest rate loans that allocates at least 40 percent of its units for at least 20 years to households earning no more than 80% of the area median income. These exemptions have provided some relief from the constraint posed by SB 975, but the prevailing wage laws still represent a significant impediment to affordable housing production.

## Financing Costs

### Home Purchase Loans

The availability of financing affects a person’s ability to purchase a home. Under the Home Mortgage Disclosure Act (HMDA), lending institutions are required to disclose information on the disposition of loan applications by various demographic characteristics (Table 3-1).

**Table 3-1  
Disposition of Home Loans  
Conventional v. Government Insured**

Applicant Income	Conventional Home Purchase Loans			Government Insured Home Purchase Loans		
	Total	Approved	Denied	Total	Approved	Denied
Lower	664	67%	20%	235	79%	5%
Moderate	1,286	79%	12%	467	85%	6%
Upper	3,242	80%	11%	411	84%	7%
Other	278	65%	15%	22	59%	27%
<b>Total</b>	<b>5,470</b>	<b>77%</b>	<b>13%</b>	<b>1,135</b>	<b>83%</b>	<b>7%</b>

Source: Home Mortgage Disclosure Act (HMDA) data, 2001.

Other: Loan applicants who chose not to disclose their income.

Refinance loans are excluded from the analysis. Loans are also made by lenders that are not subject to HMDA. Data on these loans are unavailable.

## **Conventional Home Purchase Loans**

In 2001, a total of 5,470 households applied for conventional loans to purchase homes in Modesto. About 59 percent of the loan applicants were upper-income households (120 percent or more of County median family income, or MFI). Moderate-income (81 percent to 120 percent of MFI) and lower-income (<80 percent of MFI) households accounted for 24 percent and 12 percent of loan applicants, respectively. As expected, the approval rate of conventional loans increased with income. Loan application from upper-income households had an 80 percent approval rate. Moderate-income applicants received a slightly lower approval rate of 79 percent, while lower-income applicants received only a 67 percent approval rate.

In terms of race and ethnic composition, loan applications follow very closely the racial makeup of the community. Hispanics, which make up 26 percent of the population, accounted for 23 percent of the loan applications. Asians (6 percent of population) and Blacks (4 percent of population) were fairly equally represented as well, with 7 percent and 3 percent of conventional loan applications, respectively. Whites, who constitute 60 percent of Modesto population, represented only 48 percent of the conventional loan applications. Approximately 14 percent of the loans could not be classified according to an individual race.

Loan approval rates were highest for Whites, with an 81 percent approval rate. Native Americans were next with a 79 percent approval rate. Following were Blacks at 75 percent, Hispanics at 74 percent, and Asians at 69 percent. Loan applications not identified by race were approved at a rate of 73 percent.

Conventional home purchase loans were approved within Modesto at a slightly higher rate than within Stanislaus County as a whole. Asians received a slightly lower approval rate in the City (69 percent) than in the County (70 percent), but all other major groups received a higher approval rate within the City. The overall loan approval rate for the City was 77 percent, while the Countywide average was 76 percent.

## **Federally Insured Home Purchase Loans**

Federally backed loans are those guaranteed or insured by a federal government agency. In 2001, a total of 1,135 households applied for government-backed loans to purchase homes in Modesto. Of these applications, 41 percent were from moderate-income households. Upper-income and lower-income households accounted for 36 percent and 21 percent of loan applicants, respectively. As with conventional loans, the approval rate was higher for those of upper and moderate incomes (84 percent to 85 percent) than those of lower incomes (79 percent). However, the disparity between income categories is much lower with the government-backed loans, and the overall approval rate is much higher for these loans than conventional loans.

In terms of race and ethnic composition, Hispanics are more likely to apply for government-backed loans than other racial or ethnic groups. Hispanics (26 percent of the population)

were overrepresented, accounting for 35 percent of these loan applications. Blacks were equally represented, with 4 percent of the overall population and loans applications. Whites (60 percent of the Modesto population) and Asians (4 percent) were underrepresented, representing only 46 percent and 3 percent of these loan applications, respectively. Approximately 6% of the loans could not be classified according to an individual's race.

Among these loans, approval rates were highest for Asians, with a 94 percent approval rate. Blacks were next highest with an 84 percent approval rate. Following were Hispanics at 83 percent, Whites at 81 percent, and Native Americans at 80 percent. Loan applications not identified by race were approved at a rate of 79 percent.

**Home Improvement Loans**

The availability of financing also affects a person's ability to make improvements to a home. The Home Mortgage Disclosure Act (HMDA) also requires lending institutions to disclose information provided for home improvement loan applications by various demographic characteristics (Table 3-2).

**Table 3-2  
Disposition of Conventional Home Improvement Loans**

Applicant Income	Conventional Home Improvement Loans		
	Total	Approved	Denied
Lower	178	37%	40%
Moderate	230	43%	40%
Upper	536	58%	28%
Other	68	24%	50%
Total	1,012	49%	34%

Source: Home Mortgage Disclosure Act (HMDA) data, 2001.

Other: Loan applicants who chose not to disclose their income.

There was an insufficient number of government backed loans for analysis. Loans are also made by lenders that are not subject to HMDA. Data on these loans are unavailable.

**Home Improvement Loans**

The provision of home improvement loans is an important means to maintaining and improving the quality of housing, as well as bringing substandard housing up to current code standards. In 2001, 1,012 households applied for conventionally financed home improvement loans in the City. The overall approval rate was 49 percent, noticeably lower than that for conventional home purchase loans (77 percent). Both the number and approval rate of loans increased with income. Lower-income applicants had the fewest number of applications (178) and the lowest approval rate (37 percent). Moderate-income households had a higher number of applications (230) and a higher approval rate (43 percent) as well. Upper-income households accounted for more than half of the overall applications (536 total, or 53 percent), and had the highest approval rate at 58 percent.

The approval rates of home improvement loans for each income category in the City are similar to Stanislaus County as a whole. The County had an approval rate of 47 percent, compared to 49 percent within the City. Approval rates within each income category of the City were within two percentage points of the corresponding category for the County.

### **Condominium Financing**

Condominium construction within California has decreased dramatically since the 1980s. A major reason for this decrease is the cost and lack of availability of financing and insurance for condominium developments. As of 2002, California law allowed for purchasers of condominiums to sue the developers of such buildings for up to four years in the case of a patent defect (a problem that is readily apparent) or ten years in the case of a latent defect (problems with construction that are not easily visible or apparent). This ability for condominium purchasers to sue the project developers has resulted in a reduction in the number of lenders who will provide loans for such development, as well as an increase in the interest rates for such loans. Construction liability lawsuits have led to an increase in insurance costs for condominium projects, and a reduction in the number of insurance companies that will provide coverage.

Although these constraints apply only to one type of development, they are important impediments to development of sufficient and affordable housing within Modesto and in many California communities. Prolonged construction defect lawsuits have served to deter condominium construction in the last ten years. In response, SB 800 was passed in 2002 to provide protection for both homeowners and builders from prolonged litigation over allegations of construction defect. The bill specifies the rights and requirements of a homeowner to bring an action for construction defects, including applicable standards for home construction, the statute of limitations, the burden of proof, the damages recoverable, a detailed pre-litigation procedure, and the obligations of the homeowner.

### **Bay Area Influence**

One of the most pressing constraints to ensuring that a sufficient amount of housing is available, both affordable and market rate, is the influence of homebuyers working in the San Francisco Bay area. Because of exorbitant housing costs and a severe housing shortage in Bay area communities, residents of these cities are relocating in Central Valley communities such as Modesto and commuting into the Bay area daily. The rapid influx of such persons has been a primary factor in rising housing costs in Modesto between 1999 and 2002, and has led to a shortage of affordable houses for sale within the City.

Since 1998, both the City of Modesto and the County of Stanislaus have participated in the Inter-Regional Partnership (IRP), a voluntary joint venture among five counties – Stanislaus, Alameda, Contra Costa, San Joaquin, and Santa Clara. This collaborative partnership was formed to deal with regional issues facing the Bay Area and the Central Valley, including the imbalance of jobs to housing ratios in the different counties. Over time, this partnership will establish enterprise zones to help increase housing supply within the Bay Area counties of

Alameda, Contra Costa, and Santa Clara. The success of this program may help reduce the impact of Bay Area commuters residing in Modesto in the future, but has not yet produced significant housing growth in the identified Bay Area counties.

## B. GOVERNMENTAL CONSTRAINTS

Local policies and regulations can impact the price and availability of housing and in particular, the provision of affordable housing. Land use controls, site improvement requirements, and permit processing procedures may present constraints to the maintenance, development, and improvement of housing. This section discusses potential governmental constraints to the provision of housing within the City.

### Land Use Controls – General Plan and Zoning

Adopted in 1995, the Urban Area General Plan Land Use Element sets forth the City’s policies regarding local land development. These policies, together with existing zoning regulations, establish the amount and distribution of land allocated for different uses. The Land Use Element provides for two residential land use categories, one mixed-use category, and one commercial category that permit residential units, as summarized in Table 3-3.

**Table 3-3  
Land Use Categories Permitting Residential Use**

General Plan Land Use Category	Average Density (Units/Acre)	Implementing Zoning District(s)	Typical Housing Type(s)
Residential	7.5 units per acre	P-D, R-1, R-2, R-3	Single-family, multi-family residential
Village Residential*	5.1 units per acre	SP-O	Single-family, multi-family, and senior housing
Mixed-Use	14 units per acre	R-1, R-2, R-3, P-D, C-1, C-2, C-3, P-O	Multi-story apartment and condominium complexes, single-room occupancy projects
Redevelopment Planning District	Based on redevelopment project areas	R-1, R-2, R-3, C-1, C-2, C-3, P-D, SP-O	Single- and multi-family residential, special-use residential projects as determined by the Redevelopment Agency.

\* Village Residential is implemented through a specific plan that contains mixed use areas that are predominantly single-family residential but with multi-family and senior housing, commercial uses, schools, and parks.

Source: Land Use Element, Modesto Urban Area General Plan, 1995

Land use controls provided in the Zoning Ordinance can influence housing production in a number of ways. The permitted and conditionally permitted uses in each zone guide new development, and provide both developers and the general public an understanding of how unbuilt land will develop in the future. This includes the density of development that will occur within a particular zone, the compatibility of planned uses in a given area, and the range and type of buildings and uses that will be located throughout the City.

**Provisions for a Variety of Housing**

Housing element law requires communities to identify adequate sites to accommodate new homes of all types through appropriate zoning and development standards, including single-family homes, multi-family housing, second units, mobile homes, emergency shelters, and transitional housing. Table 3-4 summarizes housing types permitted within the City’s residential and commercial zones.

**Table 3-4  
Conventional Housing Types Permitted by Zone**

Housing Types Permitted	Residential Zones			Commercial Zones		Mixed-Use/ Special Zones	
	R-1	R-2	R-3	P-O	C-1, C-2, C-3	SP-O	P-D
Single-family dwellings	P	P	P	S	C	*	*
Two-family dwellings	P <sup>1</sup>	P <sup>2</sup>	P <sup>2</sup>	S	C	*	*
Three- or four-family dwellings		P <sup>3</sup>	P <sup>3</sup>	S	C	*	*
Apartment units, 5-16 units <sup>4</sup>		S	S	S	C	*	*
Apartment units, 16+ units <sup>4</sup>		S	S	S	C	*	*
Mixed residential-commercial				S	C	*	*
Condominiums							*
Mobile home rental parks						*	*
Accessory Unit	P	P	P	S	C	*	*

Notations:

P = Permitted

S = Permitted subject to approval of a Plot Plan by Planning Commission.

C = Permitted subject to granting of a Conditional Use Permit by Board of Zoning Adjustment (with public hearing).

\* = Permitted only if specified in ordinance establishing the Planned Development zoning designation on a property.

Notes:

1 = Two-family dwellings are permitted on corner lots in the R-1 zone if and only if there are separate street entrances.

2 = Two residential structures per lot are permitted subject to Plot Plan approval by the Director.

3 = Three to four residential structures per lot are permitted subject to Plot Plan approval by the Director.

4 = The number of units allowed is based on the size of the R-2 and R-3 lots. The R-2 zone permits one dwelling unit for every 3,000 square feet of lot area. The R-3 zone permits three dwelling units for the first 6,000 square feet of lot area and one additional unit for each additional 1,500 square feet of lot area.

Source: Title 10, Zoning Ordinance, City of Modesto.

## **Multi-Family Housing**

Multi-family housing makes up approximately 23 percent of the existing housing stock in Modesto. The City's Zoning Ordinance permits multi-family projects in the R-2, R-3, and P-O zones with review and approval by the Planning Commission. Multi-family projects in the C-1, C-2, and C-3 zones are allowed subject to review and approval by the Board of Zoning Adjustment. As shown later in Table 3-6, the City has over 300 acres of vacant and underdeveloped commercial properties, providing increased opportunities for residential uses. In the R-3 zone, multi-family developments can be built up to a density of 28 units per acre; in R-2 or mixed-use zones, the density of development is a maximum of 14.5 units per acre. Multi-family development is allowed if included as a permitted use in the adopting ordinance for both P-D and SP-O zones. Condominiums are allowed only in P-D zones but are permitted by right in this zone. The Zoning Ordinance also provides for increased density through density bonus provisions.

A potential constraint to the provision of sufficient multi-family housing is the allowance of single-family residential uses in the R-2 and R-3 zones as a matter of right. This concept is typically referred to as the "pyramid" zoning system, where most permitted uses in a lower density zone are permitted in the next higher density zone. Allowing single-family developments within R-2 and R-3 zones reduces the likelihood that vacant R-2 and R-3 properties be developed with multi-family uses. A couple of housing developments were approved in 2002, where single-family housing was proposed on R-2 and R-3 properties. Program 4.2 of the Housing Plan in this Housing Element proposes revisions to the Zoning Ordinance to eliminate this practice.

## **Second Units**

The Zoning Ordinance allows the development of a second living unit in all residential districts. The purpose of permitting additional living units is to allow more efficient use of existing housing and to provide the opportunity for the development of small housing units to meet the special housing needs of seniors and others, while preserving the integrity of single-family neighborhoods. Approval of an accessory unit is permitted through a building permit. The City will be updating the Zoning Ordinance to reflect changes in State law (see Programs 2.2 and 4.2).

## **Factory-Built Housing and Mobile Homes**

The City permits manufactured and factory-built housing in all single-family residential districts, provided that the units are consistent with the Uniform Building Code (UBC) regulations. The City does not treat manufactured houses differently from other single-family structures, thus no information is available regarding the number of such homes located in the City. Mobile home parks are permitted only if so designated in a Planned Development overlay district.

## Special Needs Housing

In addition to conventional housing, the City also permits various special needs housing to accommodate the unique situations of certain groups. These facilities include residential care facilities, transitional housing, emergency shelters, group care facilities, and farm employee housing. Specific zoning code provisions for these uses are detailed in Table 3-5.

Special needs housing is an essential part of housing planning for all communities. Ensuring that the Zoning Ordinance provides adequate areas for development of housing for those with special needs is critical to meeting the goals of the Modesto Housing Element.

**Single-Room Occupancy:** Single-room occupancy (SRO) hotels provide a form of affordable housing suited to single or married couples without children. The Zoning Ordinance does not make mention of SRO hotels. Interpretations of individual development proposals are made by the Community and Economic Development Director or the Planning Commission, which determine the appropriate classification of each development. In general, a development application consisting of an SRO hotel would most likely be considered as a hotel, consistent with the locations and conditions of lodging facilities. Lodging facilities are permitted uses in the R-3 or P-D zones.

**Residential Care Facilities:** According to the Community Care Facilities Act in the California Health and Safety Code, residential facilities serving six or fewer persons (including foster care) must be treated as a regular residential use and permitted in all residential zones. Such facilities cannot be subject to more stringent development standards, fees or other standards than the same type of housing in the same zone. The Zoning Code permits such facilities in residential zones (R-1, R-2, and R-3) by right, and also in the Professional-Office zone with a Conditional Use Permit. Residential Care facilities serving seven or more persons are also allowed in the Professional Office zone and all residential zones, but only with a Conditional Use Permit granted by the Board of Zoning Adjustment.

**Transitional Housing:** Transitional housing is typically defined as temporary (often six months to two years) housing for an individual or a family that is transitioning to permanent housing, or for youth who are moving out of the foster care system. While the Zoning Ordinance does not expressly address these types of facilities, a development application for a transitional housing shelter would most likely be considered as a multiple-family residential development and allowed, consistent with the locations and conditions of multi-family residential uses. Such uses may be provided for in R-2, R-3, and P-O zones with a Plot Plan approval by the Planning Commission. The uses would be permitted in the C-1, C-2, and C-3 zones with approval of a Conditional Use Permit by the Board of Zoning Adjustment. These uses may also be allowed as part of a Planned Development in a P-D zone. Currently, the City has seven transitional housing facilities, totaling 42 units. While the Zoning Ordinance should be updated to explicitly address transitional housing facilities (see Program 4.2), the City has demonstrated a history of facilitating the provision of transitional housing opportunities.

**Table 3-5  
Special Needs Housing Types Permitted by Zone**

Housing Types Permitted	Residential Zones			Commercial/ Industrial Zones						Mixed-Use/ Special Zones	
	R-1	R-2	R-3	P-O	C-1	C-2	C-3	M-1	M-2	SP-O	P-D
Single-Room Occupancy	+	+	P	+					+	*	*
Rooming houses	+	+	P	+					+	*	*
Farm labor housing*	+	+	+	+					+	*	*
Foster home – 6 children or fewer	+	+	+	+					+	*	*
Residential care facility – 6 or fewer persons	P	P	P	C						*	*
7+ persons	C	C	C	C						*	*
Emergency Shelters					C	C	C	C	C	*	*
Transitional Housing	+	+	+	+	C	C	C		+	*	*

Notations:

P = Permitted subject to an administrative review by Zoning Administrator (no public hearing).

C = Permitted subject to granting of a Conditional Use Permit by Board of Zoning Adjustment (with public hearing).

\* = Permitted only if specified in ordinance establishing the Planned Development or SP-O zoning designation on a property.

+ = Subject to interpretation of use by Community and Economic Development Director or Board of Zoning Adjustment.

Source: Title 10, Zoning Ordinance, City of Modesto.

**Emergency Shelters:** An emergency shelter is a facility that provides shelter to families and/or individuals on a limited short-term basis. Emergency shelters are allowed in the C-1, C-2, C-3 Commercial zones and M-1, M-2 Industrial zones, and with a Conditional Use Permit approved by the Board of Zoning Adjustment.

The City processes these use permits like all others, advertising the proposal through public notice, and encouraging public meetings between the proponents and the neighboring residents. When considering these applications, the City considers identified housing needs and goals as they pertain to very-low income and homeless persons. Conditions for approval are no different than those required for similar uses in the same zoning district and therefore, will not unduly constrain the development of emergency shelters.

The City Council has available to it the ability to declare a “shelter crisis” eliminating the requirement for a use permit for the establishment of an emergency shelter for any period of time so designated. This declaration also suspended certain development standards and building code requirements that were non-safety in nature. In January of 2004, the City Council declared a “Shelter Crisis” under California Government Code Section 8698 (d) and a temporary emergency shelter was immediately established at 320 Ninth Street. This emergency shelter facility was remodeled and furnished over a four-week period with City coordination and much community participation. The shelter accommodates 50 adults.

There are approximately 387 acres of vacant commercial and industrial properties and approximately 270 acres of underdeveloped commercial and industrial properties. These totals are broken down further in Table 3-6 and these sites are illustrated on Map (commercial) A-1 and Map A-2 (industrial) in Appendix A of this Housing Element.

**Table 3-6  
Vacant and Underdeveloped Commercial and Industrial Properties**

Land Use Designation	Vacant	Underdeveloped
Commercial	240	74
Industrial	147	196
<b>Total</b>	<b>387</b>	<b>270</b>

In recent years, State and federal funding programs have focused on the provision of transitional housing (e.g. Shelter Plus Care and Supportive Housing programs). This shift in funding direction has impacted the provision of emergency shelters.

**Farm Labor Housing:** Housing for migrant or short-term farmworkers, such as labor camps and specialized dormitory-style living facilities, are not specifically mentioned in the Zoning Ordinance. Like other forms of housing not explicitly mentioned in the Zoning Ordinance, an application for the creation of farmworker housing would be

subject to a zoning interpretation from the Community and Economic Development Director or with decisions appealable to the Board of Zoning Adjustment. Housing for permanent or longer-term agricultural workers may be developed in any zone where residential uses are permitted, governed by the development standards placed on similar types of structures (for instance, if proposed as a medium density residential use, farm worker housing would be permitted in the R-2 zone).

The farmworker population in the City is small, representing 0.7 percent of the City population and is declining. Furthermore, the City has no agriculturally designated land. Housing needs of the declining farmworker population can be accommodated through housing for lower-income households.

## Residential Development Standards

The City regulates the type, location, density, and scale of residential development primarily through the Zoning Ordinance. Zoning regulations are designed to protect and promote the health, safety, and general welfare of residents, as well as implement the policies of the General Plan. The Zoning Ordinance also serves to preserve the character and integrity of neighborhoods. The Ordinance sets forth the City's specific residential development standards, as summarized in Table 3-7. As discussed above, in addition to residential zones, residential uses are also permitted in two commercial zones.

**Table 3-7  
Residential Development Standards**

Zoning District	Maximum Density (du/ac)	Minimum Lot Size (sq.ft.)	Maximum Building Coverage (%)	Maximum Building Height (ft.)
R-1	8.7	5,000 interior lot 5,500 corner lot	50 interior lot 55 corner lot	30
R-2	14.5	6,000 interior lot 6,500 corner lot	55 interior lot 60 corner lot	30
R-3	28.0	6,000 interior lot 6,500 corner lot	60 interior lot 65 corner lot	30
P-O	28.0	6,000 interior lot 6,500 corner lot	N/A	35
C-1	28.0	N/A	N/A	35**
C-2	28.0	N/A	N/A	90**
C-3	28.0	N/A	N/A	N/A
P-D	*	*	*	*
SP-O	*	*	*	*

---

Source: Title 10, Zoning Ordinance, City of Modesto.

\* To be determined in the Ordinance designating the District.

\*\* Except structures for uses permitted with a Conditional Use Permit

Various development standards have the potential to limit the number of units that may be constructed on a particular piece of property and thus increase the unit costs of development. These standards, as they apply in Modesto, discussed below.

### **Density**

The maximum permitted density, as defined in terms of the number of units per acre, varies by zone. The maximum density ranges from 8.7 units per acre in the R-1 (single-family) zone to 28 units per acre in the high-density R-3 zone. In addition, the Planned Development or Overlay zones have no prescribed maximum density. By permitting a range of densities, the City facilitates the development of a variety of housing types, ranging from low-density single-family residences to larger apartment complexes. However, as discussed above, the Zoning Ordinance currently permits single-family housing in multi-family zones, potentially reducing the density that can be realized in multi-family zones. The continued appropriateness of this practice should be reviewed.

### **Structural Limits**

Zoning Ordinance regulations affect the size of structures by setting limits on lot coverage and height. Lot coverages from 50 percent to 65 percent are allowed in residentially zoned areas, while the commercial and P-D zones do not mandate maximum lot coverage. Building heights of up to 30 feet are allowed in all residential districts, while residential buildings in the Professional Office zone can reach 35 feet in height. Structures in the C-3 and P-D zones do not have a maximum building height. These building height and lot coverage standards are consistent with the densities permitted in the various zones and therefore do not serve as a constraint to housing development in Modesto.

### **Parking Requirements**

The City's parking requirements for residential uses vary by type. Single-family homes are required to have two off-street spaces per home, plus an additional space if the property includes a two-car garage (one-half space extra if the garage is only one-car). If the single-family home has a second dwelling unit on the premise, then another space is also required. All other residential uses are required to provide two parking spaces per dwelling unit, plus one Recreational Vehicle space for each 25 dwelling units. The requirements for parking are shown below in Table 3-8. Guest parking is included in the requirement. The City offers flexible parking standards for housing for seniors and persons with disabilities. To facilitate the development of small-size units and mixed-use developments particularly along commercial corridors, the City will review its parking requirements for studio and one-bedroom units, as well as shared parking/off-site parking arrangements for mixed-use developments.

**Table 3-8  
Parking Requirements**

Type of Residential Development	Required Parking Spaces
Single-family Home	2 off-street spaces per home, plus: -- one-half space for a one-car garage -- one space for a two-car garage
Second Unit	1 space per room in the R-1 zone
All other residential uses, including apartments, condominiums, group homes, and similar	2 spaces per unit, plus one Recreational Vehicle space per 25 units

Source: Title 10, Zoning Ordinance, City of Modesto.

**Flexibility in Development Standards**

The City offers various mechanisms to provide relief from development standards that are typically required of all residential projects, including density bonuses, fee deferrals and exemptions, and flexible standards within the Planned Development zones. Certain development standards such as parking requirements can also be waived if deemed appropriate by the Board of Zoning Adjustment or Planning Commission.

**Density Bonus**

Modesto offers a density bonus to developers who agree to set aside a portion of their housing units for low-income residents. Excluding senior housing, all residential development projects are eligible for a maximum 25 percent density bonus and at least one regulatory concession if: (1) 10 percent of the units are reserved for very-low-income households; (2) 20 percent of the units for low-income households; or (3) 50 percent of units for senior residents and condition (1) or (2) is also met. Regulatory concessions may include reductions in development standards or modifications of zoning requirements that result in identifiable cost reductions, such as reductions in setbacks, lot size, and parking requirements, and an additional density bonus in excess of the 25 percent basic bonus. Two density bonuses were granted during the previous housing element cycle.

However, Section 65915 of the State Government Code requires cities to offer density bonuses to developers of low-income and senior housing, providing both increases in allowable densities and regulatory concessions. According to State law, housing with 50 percent of the units reserved for seniors, regardless of their income levels, is entitled to the density increase. In addition, recent legislation (AB 1866) also calls for a density bonus to be provided for condominium projects that include units affordable to moderate income households. Specifically, State law now requires a density bonus of 25 percent if 20 percent of the units are affordable to moderate income households. The City must ensure that these units remain affordable for ten years. The City will revise its Density Bonus provision to comply with State laws, refer to Program 4.2.

## **Capital Facilities Fee Deferrals and Exemptions**

Capital Facilities Fees (CFF) are exactions levied against developers to cover the cost of the facilities and services the City provides to the newly created home, including roadway and utility construction and service, police and fire protection, and government services. These fees can be reduced, deferred, or exempted from a particular development if it provides an additional benefit to the community, such as low-income or senior housing. The City has used deferral or exemption of these fees extensively in the past ten years to help generate affordable housing construction.

## **Planned Development (P-D)**

The P-D zone is designed to: (1) foster development plans for eligible lands that serve public objectives more fully than development plans permitted under conventional zoning regulations; and (2) establish criteria for identifying parcels of land that can benefit from creative development plans requiring special review. A P-D designation allows the regulations of the underlying zone be superseded, modified, or amended. The City frequently uses the P-D designation to permit higher densities on smaller lots and other deviations from conventional zoning regulations. Through the P-D designation, the City can allow deviations from the district regulations relating to lot size, lot width, front yard setback, rear yard setback, and some lot coverage standards.

## **Non-conforming Lot Ordinance**

Modesto contains a significant number of non-conforming lots, resulting from development under earlier City or County development standards. The non-conforming lot ordinance allows existing parcels to continue their use as long as the use is not physically expanded. In addition, it allows non-conforming uses to replace older non-conforming uses if the impact associated with the new use is not greater. This provision protects existing housing by allowing residents an option to maintain units that do not meet all of the standard development requirements of the City. The Board of Zoning Adjustment may grant a Conditional Use Permit for one non-conforming use to replace another provided it finds the new use will have no greater impact surrounding properties and is compatible with the neighborhood. Furthermore, certain development standards, such as off-street parking requirements, cannot be the sole criterion for designating a use as non-conforming.

## **Development Permit Procedures**

The processing time needed to obtain development permits and required approvals varies depending on the scope of the project. Smaller projects typically require less time than larger projects. The City strives to keep its permit procedures streamlined and processing times minimal. The Community and Economic Development Department is the lead agency in processing residential development applications and as appropriate, coordinates the processing of these applications with other City departments/agencies. The following is a listing of the type of permits required for residential developments within Modesto, and what types of projects are required to obtain each permit.

## **Ministerial Permits**

A ministerial permit is one in which an applicant must meet certain stated requirements to obtain a permit. These permits are ministerial because there is no discretion on the part of City staff or elected officials to grant or deny the permit if the stated requirements have been met. Development of an individual home on a lot requires only ministerial building permit approval from the Building Division. Other ministerial projects include duplexes and second units in the R-2 zone or apartments (less than five total units in one building) in an R-2 or R-3 zone. To obtain an administrative approval, an applicant is required to submit site and/or floor plans, and the plans are reviewed and approved by planning staff. The administrative review is processed without public hearings and is processed in an expedient manner, with two to four weeks being the usual processing time.

## **Discretionary Permits**

Three types of discretionary permits apply to residential uses that require special attention to site planning. These include two types of Plot Plan permits (P-Ps) and Conditional Use permits (CUPs). Examples of projects requiring these permits include large apartment complexes, residential uses in commercial zones, larger community care facilities, and emergency shelters and transitional housing. To apply for these permits, an applicant must submit site plans, floor plans, elevation illustrations, grading/drainage plan, soils and drainage reports, and other material as required.

The time frames associated with securing either a P-P or CUP is largely a function of the public hearing process and the staff time required to review the proposal. A P-P requires four to eight weeks to process, and then is forwarded to the Planning Commission or Board of Zoning Adjustment, which may assign conditions before approval. Staff processing time for a CUP is approximately the same, depending on the complexity of the project. For a typical residential project consistent with both the Zoning and General Plan, the total time required to obtain a decision from the determining body is 11 to 12 weeks. Processing procedures and timeframes in Modesto are shorter than those in comparable communities. However, CEQA (California Environmental Quality Act) requirements for large projects often extend the timeframe for processing.

## **On- and Off-Site Improvements**

The City requires standard street widths for most development projects such as:

- Local streets require a 50-foot street right-of-way consisting of 36 feet of roadway, curbs, a 4-foot wide sidewalk on each side of the street and drive-over curb or 6-foot sidewalk with a vertical curb.
- Cul-de-sacs streets require a 50-foot street right-of-way consisting of 34 feet of roadway, drive-over curbs, and 4-foot wide sidewalks on each side.

- Minor Collector streets require 60-foot street right-of-way, consisting of 36 feet of roadway, curbs, and 5-foot sidewalks on each side with a vertical curb.

Other off-site improvements include the installation of sewer, water, and storm drain lines. The installation of street lights, street signage, fire hydrants and street trees are also required at time of recordation of the final map for single-family subdivisions and certificate of occupancy for multi-family development.

**Water and Sewer Connections**

For connection to the City’s sewer service, the developer must pay a series of charges (Bond Redemption, Subtrunk, and Lateral charges). These fees are summarized below:

<b>Residential Sewer</b>		
Bond Redemption	Pays for Treatment Plant and City sewer system	\$500.00
Subtrunk	Pays for Const and Maintenance of lines	\$645.00/gross acre
Lateral Charge	Pays for extension of sewer lateral	\$33/linear foot
<b>Residential Water</b>		
Water Systems Fee	Pays for pumps, wells hydrants and 10” line throughout the City	\$.05/gross lot area
<b>Water Main</b>		
Connection Charge	Pays for construction of specific water main that extends to and serves the property	\$18.00/Linear Foot of Lot Frontage
<b>Water Service</b>		
Installation Charge	Installation of water service	\$1,108 through \$2,347 depending on diameter
Water Meter Fee	Pays for installation of water meter	\$115.00 - \$3,350 varies by line size
Pavement Fee	Pays for removal and replacement of pavement in the street for installation of water service	\$439.00/trench
Fire Hydrant Installation Fee	Pays for the time and materials required	\$2,635
Water Connection	Pays for connection of a new main to an existing main	for main extension

## **Building Codes, Site Improvements, and Enforcement**

### **Building Codes**

The City has adopted the California Building Code (CBC), which establishes standards and requires inspections at various stages of construction to ensure code compliance and minimum health and safety standards. The City's building code also requires new residential construction to comply with the CBC disabled access standards, which specifies a minimum percentage of dwelling units in new multi-family developments that must be fully accessible to the physically disabled. Although these standards and the time required for inspections may increase housing production costs and may impact the viability of rehabilitation of older properties, the codes are mandated of all jurisdictions in California and necessary to ensure safe and decent living environment.

### **Site Improvements**

Site improvements cover the range of water, sewer, circulation, and other services and infrastructure needed to facilitate residential developments. To ensure adequate improvements are in place, the City requires developers of individual and multiple-family housing units to pay impact fees commensurate with the cost of providing essential services to the home(s). Site improvements, as well as pro-rata shares toward infrastructure costs and public services represent a significant cost of housing and have an impact on the affordability of homes. However, site improvements are necessary for health and safety reasons and ensure services and facilities are in place to serve the new residents.

### **Code Enforcement**

The City administers a Code Enforcement Program through the Parks, Recreation and Neighborhoods Department. The program aims to preserve and maintain the safety, livability, and quality of neighborhoods. Code enforcement staff investigates violations of building code and property maintenance standards as defined in the Municipal Code as well as other complaints. When housing code violations are identified or cited, the staff encourages property owners to seek assistance through the City's various rehabilitation loan and grant programs. These programs provide low-interest loans and grants to eligible homeowners to make necessary repairs, which may include plumbing/sewer, electrical, re-roofing, termite damage repair, structural repairs (due to earthquakes, for example), and kitchen and bathroom remodeling.

The Building and Development Services Division of the Community and Economic Development Department administers a building and housing code enforcement program, where residential structures are inspected for health and safety violations. Housing units found to be unsafe are required to be improved or demolished.

## Permit Fees and Exactions

Housing construction imposes short- and long-term costs on communities. Short-term costs include the cost of providing planning services and inspections. In addition, new residential developments can also result in significant long-term costs relating to the maintenance and improvement of the City's infrastructure, facilities, parks, and streets. In response to the taxing constraints imposed by Proposition 13, Modesto, like many other California cities, must rely increasingly on planning and development fees to fund the provision of services needed by new housing.

The City collects various fees from developers to cover the costs of processing permits. These include fees for planning and zoning approvals, subdivision map act approvals, environmental review, plan check services, and building permits, among others. The City also collects fees to cover the costs of providing the necessary services and infrastructure related to new development projects (Capital Facilities Fees). In June of 1999, HCD released a survey of 89 California cities and counties conducted to identify typical fee amounts charged for homes in a 25-unit subdivision (2,500-square-foot homes) for individual infill houses, and for a 45-unit apartment building. At the time of the survey (1999), due to its significant infrastructure needs, Modesto generally had higher infrastructure and impact fees than the North Central Valley jurisdictions that participated in the survey (Manteca, Merced, San Joaquin County, Stockton, and Tracy). However, the City's planning fees, and planning and building check fees were significantly lower than fees charged by other communities, indicating that the City's development process procedures were not onerous. In recent years, the significant infrastructure constraints facing the San Joaquin Valley communities have equalized infrastructure fees among these communities and the pressure for growth has pressed on. Infrastructure constraints and their associated impact on development costs are not unique to Modesto and therefore, do not put the City in a competitive disadvantage among other communities in the region.

Fees associated with new development in the City vary significantly by geographic location. The City has four active Community Facilities Districts (CFDs), each with its own assessment cost for new developments. Many other areas of town are not located in a CFD and are not required to pay any assessment.

Fees have been cited as a potential constraint on the development of affordable housing within the Village One area, where the Community Facilities District has an assessment fee of \$97,681 per acre. To ensure that fees do not constrain affordable housing, fee reductions or waivers are sometimes granted based on project-specific findings. Capital Facilities Fees (CFFs) have been waived for recent affordable housing projects within the City, reducing the potential adverse impact of fees on low-income development. The City has also attempted to utilize an Affordable Housing Fund and other financing tools to promote affordable housing within Village One.

## **Disability Access**

In January of 2002, SB 520 was passed, amending Section 65008 of the Government Code to require localities to analyze potential and actual constraints upon housing for persons with disabilities, demonstrate efforts to remove governmental constraints, and include programs to accommodate housing designed for disabled persons. As part of the Housing Element process, the City must conduct an analysis of its Zoning Ordinance, permitting procedures, development standards, and building codes to identify potential impediments. Where found, the Housing Element must propose specific actions and implementation schedules to remove such impediments. The following summarizes findings from this analysis.

### **Zoning and Land Use**

State and federal housing laws encourage an inclusive living environment, where persons of all walks of life have the opportunity to find housing suited to their needs. As discussed earlier, the Zoning Ordinance permits a range of housing types suitable to special needs groups covered under the uses "Residential Care Facilities." Group homes serving six or fewer persons are permitted by right in all residential zones and larger facilities (seven or more persons) are permitted in all residential zones via the conditional use permit process.

Nevertheless, opportunities exist for making changes to better facilitate the development of housing for persons with disabilities. For instance, all uses that are not listed within the Zoning Ordinance are subject to interpretation by either the Community and Economic Development Director or the Planning Commission. Many typical housing options for the disabled, including single-room occupancy hotels, transitional housing, and the like, are not explicitly defined in the Zoning Ordinance and are therefore open to interpretation. The City may consider updating the Zoning Ordinance to define these types of housing and specify the conditions and process required to develop such facilities within the City. This can improve the clarity of the code and ensure that those seeking to provide housing and housing services for the disabled clearly understand the City's zoning and land use policies relating to these uses.

### **Building Codes and Development Standards**

The City enforces Title 24 of the California Code of Regulations, which regulates the access and adaptability of buildings to accommodate persons with disabilities. ADA requires new residential buildings consisting of three or more units to incorporate design features, including: 1) adaptive design features for the interior of the unit; 2) accessible public and common use portions; and 3) sufficiently wider doors to allow wheelchair access. The City ensures that plans meet ADA accessibility standards.

Currently, the City uses the 1997 edition of the UBC. No unique restrictions are in place for disabled housing, such as minimum distances, special conditions for disabled housing, or other such regulations that could constrain the development, maintenance, improvement, or alteration of housing for disabled persons.

Development standards for housing developments that will serve disabled persons are the same as those for other residential developments. Flexible development standards can be offered through a Planned Development overlay zone. The standard development requirements are not overly burdensome and do not represent a constraint to the provision of housing for the disabled. So-called "Universal Design" houses, which are fully accessible to persons with most disabilities, are allowed under CBC and UBC standards.

### **Permitting Procedures**

The City does not require special building codes or additional levels of review to build, improve, or convert housing for disabled persons. Per State law, requests for modifications to ensure housing access, such as ramps up to 30 inches in height, do not require a building permit and are processed over the counter. The City uses a standard entitlement process to ensure that facilities are sited and operated in a manner compatible with surrounding land uses. The Zoning Ordinance does not specify a unique set of performance standards for community care facilities and other types of housing facilities for disabled persons. Such standards could be determined only after an interpretation of the use by the Community and Economic Development Department Director or Planning Commission.

### **Reasonable Accommodation**

Both the Federal Fair Housing Act and the California Fair Employment and Housing Act impose an affirmative duty on local governments to make reasonable accommodation (modifications or exceptions) in their land use regulations and practices when such accommodation may be necessary to afford disabled persons an equal opportunity to housing. Most typical requests for reasonable accommodation relate to relaxing development standards to accommodate a ramp or location of parking.

As part of the City's 1998 Analysis of Impediments to Fair Housing Choice, the City's Zoning Ordinance and building codes were reviewed for impediments to housing for persons with disabilities. As a result of the study, the Zoning Ordinance was amended to expand the definition of family to accommodate group home development and other licensed community care facilities.

As part of this Housing Element update, the Housing Element update Project Manager interviewed the Chief Building Official in the Building Inspection Division and the Principal Planner of Current Planning Section of the Planning Division to assess if City application and development procedures and codes constrain the development of housing for persons with disabilities. In their review of the City's land use zoning policies, adopted building codes, development standards, and permitting procedures. These sources did not identify any potential constraints for the development of housing for the disabled. On the contrary, the City's Planned Development zoning designation provides for the development of residential projects at relaxed development standards. The City expects that housing development projects for the disabled would be approved with relaxed development standards.

In addition, the City has five advisory committees established to help address the various needs of the disabled. These include: Citizens Housing and Community Development Committee; Disabled Access Appeals Board; Equal Opportunity/Disability Commission; Human Relations Commission; and Housing Rehabilitation Loan Committee. The City does not charge any fees associated with access to these committees and does not assess fees for review or approval of accommodation requests. The one potential constraint is the lack of a specific procedure for processing reasonable accommodation requests.

The City will establish a formal reasonable accommodation process to provide individuals with disabilities, reasonable accommodations in rules, policies, practices and procedures that may be necessary to ensure equal access to housing (refer to Program 4.3). The purpose of this is to provide a process for individuals with disabilities to make requests for reasonable accommodation in regard to relief from the various land use, zoning, building laws, rules, policies, practices and/or procedures of the City.

Although the City currently does not have a specific procedure for processing reasonable accommodation requests, the City routinely assists disabled applicants and/or their representatives with prompt and courteous service. The City proactively identifies barriers and solutions to providing excellent services to each of its residents by staff and committee review. Any person that is physically or developmentally impaired or their representative can request City staff to assist them with filling out City applications and/or addressing City requirements at no cost beyond the normal application cost. The City's new administrative offices are completely accessible by the disabled.

Program 4.2 in the Housing Plan of this Element includes a proposal to revise the zoning ordinance to establish a formal procedure to address this issue, providing relevant criteria to be used when considering such requests. Codifying a formal procedure will ensure prompt, fair, and efficient handling of such requests.

## **C. ENVIRONMENTAL AND INFRASTRUCTURE CONSTRAINTS**

Physical environmental conditions affect the feasibility and cost of residential developments. Environmental conditions can include the suitability of land and area for development, as well as the provision of adequate infrastructure and services. This section addresses the potential environmental and infrastructure constraints associated with housing development in Modesto.

### **Environmental Constraints**

Environmental constraints and hazards affect all forms of residential developments. Discussed below are the major environmental hazards in the City, as identified in the Modesto Urban Area General Plan Master EIR.

#### **Geologic Hazards**

Modesto is located in Alquist-Priolo Zone 3, the lowest risk zone for earthquakes. Modesto is characterized by very flat topography (0.1 percent average slope), non-expansive soils, and low likelihood for landslide, liquefaction, or other geologic hazard. The Urban Area General Plan does not identify any potential geologic hazards that could pose significant constraints to the production of housing within the City.

#### **Flood Hazards**

The major waterways affecting Modesto do not pose any major flood risk. The Tuolumne and Stanislaus Rivers are both controlled by dams and other flood control devices, and Dry Creek does not have a significant record of flooding within the City limits. While flooding from the waterways is not considered a major risk, the General Plan identifies flooding associated with poor storm drainage as a major issue. In future flooding events, the extent of damage will depend upon the area inundated and the level of urbanization that exists in flood-prone areas.

Without major improvements, some flooding is likely to continue in areas served by rock wells with insufficient capacity to handle winter and spring rainfall. All new developments in the expanding areas of the City are required to construct modern storm drains sufficient to handle potential stormwater impacts. However, infill projects may be served by the existing rock wells and face the potential for flooding. This is a potential constraint to the development of infill housing within the City.

## **Fire Hazards**

Residential fire protection is provided by the Modesto Fire Department. The Department maintains a first response time of six minutes or less for all residential areas of the City. Older areas of the City have the greatest risk of fire, as the frequency of vacant buildings, age of building materials, and lack of fire suppression systems all increase with older developments. Sufficient facilities and services are maintained by the Fire Department to handle all known risks associated with fire hazards. Therefore, fire hazards do not represent a significant constraint to the development of housing.

## **Public Facilities and Services**

In planning for growth, the City must ensure that adequate public facilities and services are available to meet the anticipated demand. Discussions below include the major public services in the City. (More detailed discussion of services and infrastructure issues is provided in the Community Services and Facilities Element of the General Plan.)

### **Water Supply and Service**

Water supply in the Modesto area comes from two sources: City operated wells and surface water provided by the Modesto Irrigation District. Water availability is a critical planning issue in the City, as well as throughout California. Due to the previous ten wet years and the effective Modesto Regional Water Treatment Plan, the groundwater basin supplying water to Modesto is adequately replenished (Modesto Water Management Plan, 2001).

The City utilizes a variety of options to help reduce water consumption and increase water supply. Tertiary water treatment, additional well construction, expansion of the surface water supply, and conservation measures are all being considered by the City to ensure that sufficient water resources and services are available to serve new development. Amendments to California statutes in 2002 imposed additional water supply requirements on new developments, mandating that all large developments (both residential and commercial) show an assured water supply prior to project approval. The City continues to seek out alternative methods of improving water service to existing and new developments.

Properties outside of the existing City limits may be eligible to connect to the municipal water system based on certain conditions. In June of 1998, the City Council adopted Resolution No. 98-306, codifying the conditions that must be met for a property outside of the City limits to utilize Modesto water. In general, properties outside the City limits are evaluated for water service extensions based on their location relative to the Modesto Municipal Sewer District No. 1, the former Del Este service area, and the Sphere of Influence. The Policy provides that water service extensions may be approved by the City Manager, on a case-by-case basis, when the following conditions are met:

- 1) The development has been authorized by the appropriate land use agency (i.e. Stanislaus County, City of Waterford, etc.).
- 2) The property is within the City's service areas (as defined and implied by the Policy).

- 3) City staff has completed an analysis and determined that it is reasonable for the City to extend the service based on a plan to pay for the extension costs and the quantity of water used.

The ability of properties to meet these conditions will affect their likelihood of receiving water service from the City.

### **Sewer Service**

The existing and planned sanitary sewer infrastructure poses a potentially significant constraint on the planned growth within the City of Modesto urban area. Many existing main lines used to move sanitary waste from areas of the City to treatment facilities lack sufficient capacity to meet the projected demand from new growth. The City has identified this potential issue in the Urban Area General Plan Master EIR and is devising appropriate measures to address the problem. Residential developments created and approved over the course of the current housing element cycle are not likely to be substantially impacted by such measures. While such measures have not been developed as of the writing of this Housing Element, they have the potential to raise development costs in some areas or otherwise constrain housing production.

A study completed in April 2002 by DJH Engineering and others identified final effluent discharge constraints at the Secondary Facility located at Jennings Road. These constraints were evident in what is stated as a “dry year”, which is a year with less than average San Joaquin River flow. In these dry years, there was less than needed disposal capacity. Less than needed disposal capacity means that the total means for effluent to leave the secondary plant, which is a combination of land discharge, evaporation, percolation, and River discharge, is inadequate to meet current total influent hydraulic load. The reasons for this problem are complex but the major issue is more restrictive NPDES permit limits. The more short-term solution to this shortfall in discharge capability is the installation of technology that cleans the treated stored water during the times the facility can legally discharge to the River but is unable to do so because this stored water exceeds suspended solids limits. In addition, the Ranch is currently not large enough in surface area to handle the peak organic load during certain short-term interval during peak cannery discharge. The technology just mentioned has been piloted and there is a pre-design report. The project, along with funds for additional land, is included in the CIP program for budget year 2003/04.

In addition to the physical constraints, the City has passed two local ordinances that can constrain extension of sewer infrastructure into new residential areas. Measure A (passed in 1979) and Measure M (passed in 1995) require that any planned extension of sewer infrastructure beyond the existing development area be subject to an advisory citizen vote. Measure A votes are held only during regularly scheduled elections (March and November), thus they can delay the potential extension of infrastructure for up to six months. However, these are advisory votes that can potentially serve to delay the availability of sewer infrastructure, but not stop it.

The City is starting to study alternatives such as tertiary treatment of wastewater to deal with this issue, although final strategies have not been settled upon as of the writing of this Housing Element.

# RESOURCES ANALYSIS

To facilitate and encourage the development of a range of housing choices for all economic segments of the population, a community must have available adequate land resources designated for a range of densities and types for new construction. Furthermore, financial resources need to be marshaled to assist in the development of housing affordable to lower and moderate income households. This section evaluates the land and financial resources available to the City for addressing the housing needs of existing and future Modesto residents.

## A. AVAILABILITY OF SITES

The City of Modesto faces significant constraints and challenges in providing adequate sites to meet the City's Regional Housing Needs Allocation (RHNA). The City estimates its RHNA at 15,347 units. Based on housing units built and potential sites available, the City concludes the following:

**15,347 units (3,376 Very Low, 2,609 Low, 3,223 Moderate, and 6,139 Above Moderate)**

- 3,227 units built since January 1, 2001 (50 Very Low, 6 Low, 679 Moderate, and 2,492 Above Moderate).
- 11,120 to 11,270 potential units on vacant/underutilized residential sites, in Redevelopment Planning District, as second units, and in the Roselle/Claribel CPD.
- Overall shortage of sites by 850 to 1,000 units. By income, the City has a shortage of 2,332 to 2,482 lower income units in site potential and 791 units of moderate income units in site potential, but a surplus of 2,273 above moderate income units in site potential. However, surplus in sites that can facilitate above moderate income housing cannot be used to fulfill shortage in sites that can facilitate lower and moderate income housing.

The following sections detail the City's progress so far in housing production and the site potential for meeting the RHNA.

## Share of Regional Housing Needs

The process for allocating housing needs begins with population projections for each region by the State Department of Finance. The State Department of Housing and Community Development (HCD) uses these projections to determine housing need by region in California. Once this occurs, the Stanislaus Council of Governments (Stan COG) is responsible for developing the Regional Housing Needs Plan (RHNP). The RHNP assigns a share of the region's projected future housing unit production need to each community in Stanislaus County. The current RHNA covers a seven and a half-year housing production period, from January 1, 2001 through June 30, 2008.

The HCD estimate of the regional housing needs for Stanislaus County is 35,239 units. The Stanislaus Council of Governments (StanCOG) adopted a lower RHNA of 20,854. StanCOG's proposed allocation is based on employment projections in order to achieve a jobs/housing balance. The City of Modesto believes the job/housing balance RHNA model has merit. However, HCD did not approve StanCOG's RHNA Plan and the City of Modesto will be applying HCD's housing projections for our area. Using the same pro rata allocation, Modesto's share, under the HCD estimate of regional housing needs, is 15,347 units. This estimate is distributed into four income categories, shown in Table 4-1. State law requires communities to demonstrate that an adequate amount of developable land is available to accommodate the share of the projected regional need for housing production.

**Table 4-1**  
**Share of Regional Housing Needs**

	Very Low	Low	Moderate	Above Moderate	Total
RHNA	3,376	2,609	3,223	6,139	15,347

## Progress toward Meeting the RHNA

Housing units built or that have received Certificates of Occupancy since January 1, 2001 can also count toward the City's RHNA. Between January, 2001 and December, 2002, the City issued building permits for 2,299 single-family homes and 49 multi-family housing units for a total of 2,348 units. In addition, 815 single-family homes and 64 multi-family housing units (including the 56-unit Woodstone Apartments) received Certificates of Occupancy since January 1, 2001. Therefore, the overall regional housing needs can be reduced by 3,227 units (3,114 single-family and 113 multi-family units).

With the exception of the 56-unit Woodstone Apartments, the multi-family housing developed during the last two years has been primarily medium-density developments. While specific information on the prices/rents for all these units built is not available, a reasonable assumption can be made that these 57 multi-family units (113 multi-family units minus the 56-unit Woodstone Apartments) are affordable to moderate income households based on Census rent data and discussions with service providers. The Woodstone

Apartments is a Low Income Housing Tax Credit (LIHTC) project, affordable to households with income less than 60 percent of the Median Family Income (MFI). Given the income eligibility, the majority (50 units) of the tenants at Woodstone should be very low income households, with the remaining tenants (6 units) being low income households.

Market-rate single-family homes constructed are most likely only affordable to moderate and above moderate income households based on the median home price presented in the Housing Needs Analysis. According to DataQuick<sup>1</sup>, more than 8,800 real estate transactions occurred between January, 2001 and March, 2003. Given the housing demand in Modesto, housing units built since January of 2001 should have been sold within this period. Of the 8,800 sales records, 60 percent of the units were sold at prices at or below \$200,000, a price affordable to moderate income households (see Table 2-45).

While the majority of these units were resale homes, a portion (at least the 815 units with Certificates of Occupancy and a portion of the 2,299 units issued building permits) of these are new single-family units at prices affordable to moderate income households. A conservative estimate of 20 percent (622) of the single-family homes constructed since January, 2001 are estimated to be affordable to moderate income households, with the remaining 80 percent (2,492) considered affordable only to above moderate income households. Tables 4-2 shows the remaining housing needs within Modesto by income group.

**Table 4-2  
Remaining Allocation**

Income Group	RHNA	Units Built	Remaining Need
Very Low	3,376	50	3,326
Low	2,609	6	2,603
Moderate	3,223	679	2,544
Above Moderate	6,139	2,492	3,647
Total	15,347	3,227	12,120

## Residential Sites Available

### Development Potential within Current City Limits

In December, 2002, as part of the Housing Element update, City staff conducted a sites inventory of all land suitable for residential development (see Table 4-3). Approximately 1,372 acres of residentially zoned land are vacant or underdeveloped<sup>2</sup> within the city limits and available for residential development.

The inventory reports 935 acres of vacant land available for single-family housing construction (including properties with tentative and final maps). Given the estimated

<sup>1</sup> DataQuick is a major provider of real estate transaction data based on public records from County Assessor Offices.

<sup>2</sup> Underdeveloped R-1 sites are larger R-1 designated properties that can accommodate more units than currently existing. Subdivision into smaller lots, infill housing, and second units may be constructed on these lots.

overall average density for single-family neighborhoods at 5.1 units per acre, 4,768 additional single-family units could be constructed on this land.

In addition, 122.5 acres of vacant sites are designated for multi-family uses. Of properties within the Baseline Developed Area (BDA), 62.9 acres of multi-family sites in R-2 and R-3 zones, permitting up to 14.5 and 28 units per acre. Based on location and surrounding uses, the City anticipates accommodating 1,023 units (averaging 14 and 22 units per acre in R-2 and R-3 zones, respectively). Properties surrounding these sites are developed and public utilities and infrastructure are available to serve these sites. The City encourages and offers to facilitate the development of these sites by providing an inventory list of vacant properties to prospective developers. This inventory is provided to prospective developers of affordable multi-family housing as part of City's Requests for Proposals for affordable housing. In addition, a 16-unit apartment development affordable to very low-income households has been approved within the BDA.

**Table 4-3  
Residential Sites Inventory within City Limits**

City Areas	Land in Acres								Total
	Vacant Single-Family			Under-Developed Single-Family (R-1)	Vacant Multi-Family				
	(R-1)	Tentative Tract Map (R-1)	Final Map (R-1)		R-2	R-3	Mixed Use	P-O/C

Note: The majority of development potential is within specific plans or planned developments that have land use designations slightly different than those established in the City Zoning Code. The development potential presented in this table is summarized by the approximate density category.

Source: City of Modesto, October, 2003.

The City of Modesto zoning regulations provides for the development of multi-family housing in the Professional Office and Commercial zone districts with a plot plan and use permit application, respectively. The City has approved such applications within the last 8 years. Residential development, up to the R-3 density (28 units per acre), is permitted in this P-O zone district subject to approval of a plot plan. Several cases occurred in which apartments were approved and developed in the P-O zone. Of the total vacant P-O zone acreage (47.3), the City identified several vacant P-O zoned properties, totaling 7.53 acres

that lend themselves to be readily developed with multi-family units. At the R-3 density (assuming an average of 22 units/per acre), these properties could accommodate up to 165 housing units.

Based on historical precedent, staff also determined 27 acres of Commercial properties could reasonably be expected to be developed with multi-family development within the planning period of this Housing Element. This is based on lot size, configuration, location, and local market conditions. An average density of 22 units per acre would result in approximately 594 housing units.

Village One has 59 acres of multi-family residential land. The Village One Specific Plan provides a density range of 23.7 to 26.25 units per acre for multi-family residential land. Potential yield in Village One is 1,398 to 1,548 units. The City has been working with the Stanislaus County Housing Authority to develop a 50-unit project in Village One. All 50 units will be affordable to lower income households (earning up to 80 percent of the Area Median Income).

In the North Beyer Specific Plan, 14.75 acres of Mixed-Use designated land remains. General Plan policy allows the Mixed-Use category be developed with 60 percent residential uses. High-density residential development consistent with the R-3 development standards (maximum 28 units per acre) is permitted in the Mixed-Use category. Therefore, with 8.8 acres of potential Mixed-Use residential development, the City anticipates the North Beyer Specific Plan can accommodate 193 units (averaging 22 units per acre).

In the Coffee-Claratina Specific Plan, 11 acres of Mixed-Use designated land remains. Similar to the North Beyer Specific Plan, 60 percent of the Mixed-Use designated properties can be developed with residential uses. High-density residential development consistent with the R-3 development standards (up to 28 units per acre) is permitted. Therefore, with 7 acres of potential Mixed-Use residential development, the City anticipates the Coffee-Claratina Specific Plan can accommodate 154 units (averaging 22 units per acre).

The Empire North Unit #1 Specific Plan (refer to Map A-5) contains 14.5 acres of residentially zoned land. In January 2004, a tentative subdivision map application was under consideration and is anticipated to develop during 2005.

The Fairview Village Specific Plan containing approximately 199 net acres of residentially zoned land in the City limits was being processed through a specific plan amendment during the draft stages of this Element and development of the 81.7-acre tentative map was finalized in December 2003. This area is expected to commence development in the year 2005. The Village One Specific Plan area continues to develop and provides the City's greatest amount of currently developable land.

A total of 251 acres of underdeveloped sites exist in the City BDA. These sites are primarily zoned R-1. Redevelopment of these sites, minus the existing units, has the potential to yield another 1,000 additional units, based on an average yield of 4 units per acre.

## **Development in Commercial Areas**

Pursuant to the General Plan, residential uses permitted in Mixed Use and Redevelopment Planning Districts are implemented through the zoning districts C-1, C-2, C-3, P-O, and P-D. Residential uses are permitted in the P-O zone subject to a Plot Plan approval and permitted in the C-1, C-2, and C-3 zone districts subject to approval of a Conditional Use Permit. As discussed in Chapter 3, the land use inventory contains approximately 240 acres of vacant and 74 acres of underdeveloped commercially designated properties. Specifically, the City identified 27 acres of commercially designated properties that can be developed into residential uses with a Conditional Use Permit within the planning period of the Housing Element, providing a potential of 594 additional units. The City has demonstrated a history of approving multi-family residential development in commercial zones within the Baseline Developed Area.

Several City programs also support the creation of mixed-use developments in commercial areas (e.g., reduced parking standards and infill development). Specifically, within the Redevelopment Planning District, additional housing can be accommodated. Residential uses, particularly mixed-use development, are encouraged in the Redevelopment Planning District as a way to facilitate a vibrant downtown and implement smart growth principles that emphasize the efficient use of land and infrastructure.

## **Second Units**

With recent changes in State law, second units must be permitted in single-family zones via ministerial review if proposed units meet the City's established development standards for second units. The City anticipates the demand for and interest in second units will increase significantly in the future, given the housing market conditions in the County and San Joaquin Valley region. Based on conservative estimates, the City anticipates achieving 75 second units over the next 5 years with active promotion by the City. Second units are typically affordable to lower income households.

## **Development in Sphere of Influence**

Outside the City limits but within the City's sphere of influence (SOI), additional development potential exists (Table 4-4). Excluding the acreage with Williamson Act agricultural land preservation contracts, 4,211 acres are available for future residential development within the SOI. Assuming single-family homes are constructed in these areas at 5.1 units per acre, an estimated 21,474 units could be accommodated. On a biennial basis, the City of Modesto reviews its inventory of vacant commercial, industrial and residential land inventory through the Urban Growth Policy Review. If the City Council determines that a shortage of available vacant land exists, then the City Council recommends specific areas to be considered for annexation through a citizens' advisory vote (Measure A or Measure M). This process typically takes approximately six-months to complete. Upon an affirmative advisory vote, the City will consider annexation and extension of City services to the subject area(s).

While Williamson Act contracts may serve as a potential constraint for housing development in the SOI, discussions with developers and communities with similar characteristics indicate that most developers simply pay off the “penalty” associated with early withdrawal of the contracts. Property owners are also able to file a Notice of Non Renewal, resulting in terminating the contract after a ten-year period. Some property owners have already filed such notices in the planned growth areas. Based on these trends, the City has included properties that are under a Williamson Act Contract in the City’s sites inventory. Theoretically, another 3,536 units could be accommodated on land with Williamson Act contracts.

More significant constraints to housing development in the SOI relate to the provision of infrastructure and services, as well as the timing of annexation. Given the significant infrastructure limitation the City faces (cost and timing of providing infrastructure), the City will have difficulty annexing these areas and making them available for housing development within the next few years, except for several targeted areas. Furthermore, Measure A (passed in 1979) and Measure M (passed in 1995) require that any planned extension of sewer infrastructure beyond the existing development area be subject to an advisory citizen vote.

At the writing of the Housing Element, the southwest quadrant of the Roselle/Claribel Planning District (480 acres) received Measure M approval in November 2001. A specific plan, an infrastructure facilities master plan, a financing plan, and an environmental impact report are required prior to development. These documents are presently being prepared for the development of the Roselle/Claribel specific plan area. Development is anticipated to occur by 2006, within the 2003-2008 Housing Element period. In accordance with Program 4.1 of the Housing Plan (in Chapter 6), applying a development factor of 15% to the residential portion of the Roselle-Claribel Specific Plan would yield 49 acres of land designated for multi-family development. An average development factor of 22 units per acre will generate 1,078 housing units that can meet the needs of very low and low-income households. Applying the remaining percentage (85%) to single-family uses would yield 275 acres. At 6 units per acre this area would generate 1,650 single-family dwelling units.

The Fairview Comprehensive Planning District (CPD) received a favorable Measure M vote in 1994 and a specific plan for this area was adopted on December 12, 1995. Approximately half of this CPD, containing approximately 231 acres, was annexed in 1996. The balance of the Fairview Village CPD consists of approximately 120 gross acres. In accordance with Program 4.1 of the Housing Plan (in Chapter 6), applying a development factor of 15% to the residential portion of this area would yield 12 acres of land designated for multi-family development. An average development factor of 22 units per acre will generate 264 housing units that can meet the needs of very low and low-income households. Applying the remaining percentage (85%) to single-family uses would yield 68 acres. At 6 units per acre this area would generate 408 single-family dwelling units. Therefore, this area is expected to generate a total of approximately 672 new housing units. At the writing of this Housing Element, an amendment to the Fairview Village Specific Plan has been initiated and development is anticipated to begin by the year 2006.

In addition, the City identified several areas for potential annexation. The 2003 Urban Growth Policy Review identified three areas to be presented to the Modesto voters for a Measure M vote in November 2003. These areas include the Empire North Comprehensive Planning District consisting of approximately 141 acres, the Johansen Comprehensive Planning District consisting of approximately 501 acres and a portion of the Kiernan/Carver Comprehensive Planning District consisting of approximately 80 acres. The Measure M advisory vote took place in November of 2003. The advisory vote favored the extension of sewer service with the expectation of eventually annexing the land..

The Empire North Comprehensive Planning District and Johansen Comprehensive Planning Districts will be planned together under one master development plan. The combined acreages for these CPD's total 642 acres. In accordance with Program 4.1 of the Housing Plan (in Chapter 6), applying a development factor of 15% to the residential portion of this area would yield 65 acres of land designated for multi-family development. An average development factor of 22 units per acre will generate 1,430 housing units that can meet the needs of very low and low-income households. Applying the remaining percentage (85%) to single-family uses would yield 368 acres. At 6 units per acre this area would generate 3,638 single-family dwelling units. This area is expected to generate a total of approximately 3,638 new housing units. This area is anticipated to have a specific plan adopted by June 2007.

Eighty acres in the Kiernan/Carver Comprehensive Planning District were considered in the November 2003 Measure M election. This area is anticipated to develop in 2006. In accordance with Program 4.1 of the Housing Plan (in Chapter 6), applying a development factor of 15% to the residential portion of this area would yield 8 acres of land designated for multi-family development. An average development factor of 22 units per acre will generate 176 housing units that can meet the needs of very low and low-income households. Applying the remaining percentage (85%) to single-family uses would yield 46 acres. At 6 units per acre this area would generate 276 single-family dwelling units. This area is expected to generate a total of approximately 452 new housing units. This area is anticipated to have a specific plan adopted by December 2006.

**Specific Plan Status Summary**  
(As of January 2004)

<b>Specific Plan Area/Name</b>	<b>Entitlement Status</b>	<b>Anticipated Specific Plan Adoption</b>
Roselle/Claribel SP	Draft plan underway	12/2006
Fairview Village SP	Amendment underway	12/2006
Kiernan/Carver (Waterman/Luchessa)	Pending	12/2006
Johansen/North Empire	Pending	6/2007

**Table 4-4  
Residential Sites Inventory within City Sphere of Influence**

Comprehensive Planning District	Vacant Land in Acres			
	Land Use	Total Acres	Protected by Williamson Act	Net Acres Available
Empire North	Village Residential	141.0	69.0	72.0
Fairview Village	Village Residential	153.0	153.0	0.0
Hetch Hetchy	Village Residential	860.0	24.5	835.5
Johansen	Village Residential	445.0	14.3	430.7

Whitmore Carpenter	Village Residential	550.0	73.7	476.3
<b>Total Acreage</b>		<b>4,904.0</b>	<b>693.3</b>	<b>4,210.7</b>

## Comparison of Residential Sites Inventory and Regional Housing Needs

For purposes of identifying available sites to accommodate the City's share of regional housing needs, only properties currently within the City limits (Table 4-5) and Comprehensive Planning District areas that have already received resident approval for annexation are used.

Given market conditions in Modesto, R-1/Low Density sites are able to facilitate the development of housing affordable to above moderate income households. Based on existing new home sale information, 20 percent of the single-family homes are anticipated to be affordable to moderate income households, with the remaining 80 percent of new market rate housing affordable only to above-moderate income households.

Affordable housing opportunities for moderate income households are likely to be fulfilled with R-2/Medium Density sites. Sites in the R-3/High Density categories can facilitate housing affordable to lower income households. Occasionally, affordable housing for lower income households can also be accommodated on R-2 sites. The recent proposal for a 50-unit development by the Stanislaus County Housing Authority will be affordable to lower income households. The project is being developed at medium density.

Given that the RHNA is 15,347 units, the City estimates an overall surplus of 4,805-4,955 housing units. By income group, the City expects to provide sites to exceed its housing unit allocations by 55-202 housing units for very-low and low income households, to exceed the moderate income group by 153 units and to exceed the above moderate income group by 4,597 housing units, refer to Table 4-5. To ensure that these housing units are provided, all new residentially designated areas in developing Comprehensive Planning Districts will include a minimum of 15 percent area designated for multi-family development (refer to program 4.1). Although the City is able to provide adequate sites to meet its RHNA allocation during the 2003-2008 housing cycle, the City may pursue a combination of the following strategies to further the development of multi-family housing:

- Upzone Medium Density Residential (R-2) properties to High Density Residential (R-3);
- Rezone nonresidential (commercial/industrial) properties to High Density Residential (R-3); and

**Table 4-5  
Sites Inventory and Share of Regional Housing Needs**

	Potential Housing Units			
	Very Low and Low	Moderate	Above Moderate	Total
<b>Single-Family</b>				
Vacant Sites		953	3,815	4,768
Underdeveloped Sites		200	800	1,000
<b>Multi-Family</b>				
BDA – R-2		631		631
BDA – R-3	391			391
BDA – Approved	16			16
BDA – P-O	165			165
BDA – C-1, C-2, C-3	594			594
Village One – Vacant Sites	1,398-1,548			1,398-1,548
Village One - Approved	50			50
North Beyer SP – Mixed Use	193			193
Coffee-Claratina SP – Mixed Use	154			154
Second Units	75			75
CPD Areas Subject to an affirmative Measure M Advisory Vote.				
Roselle/Claribel Specific Plan	1,078	330	1,320	2,728
Kiernan/Carver (Waterman/Luchessa)	176	55	221	452
Fairview Village SP (unincorporated)	264	84	324	672
Johansen/Empire North	1,430	444	1,764	3,638
<b>Total Site Potential</b>	<b>5,984-6,134</b>	<b>5,697</b>	<b>8,244</b>	<b>16,925</b>
<b>Remaining Need</b>	<b>5,929</b>	<b>2,544</b>	<b>3,647</b>	<b>12,120</b>
<b>Surplus/(Shortfall)</b>	<b>55-205</b>	<b>153</b>	<b>4,597</b>	<b>4,805-4,955</b>

The table above reflects the following assumptions:

1. Ten percent of the gross acreage in growth areas with an affirmative Measure M Vote consists of commercial and public facility uses.
2. Twenty-five percent of the gross residentially designated acreage in growth areas with an affirmative Measure M vote consists street right-of-way dedication.
3. The net residential acreage in growth areas with an affirmative Measure M Vote is comprised of 15% as multi-family and 85% as single-family.
4. In growth areas with an affirmative Measure M Vote, an average density of 22 units per net acre applies to multi-family and 6 units per net acre apply to single family.
5. Williamson Act Contracts are eligible for cancellation and will be cancelled

## B. FINANCIAL RESOURCES

The City has access to a variety of existing and potential funding sources available for affordable housing activities. These include programs from federal, state, local, and private resources. The following section describes the key housing funding sources currently used in the City – CDBG, HOME, ESG, and HOPWA funds – as well as other financing tools, including redevelopment set-aside funds, tax credits, and various HUD programs. Table 4-6 provides a complete inventory of the key financial resources available for housing development and services.

### Community Development Block Grant

Through the CDBG program, the federal Department of Housing and Urban Development (HUD) provides funds to local governments for funding a wide range of housing and community development activities for low-income persons.

The Parks, Recreation, and Neighborhoods Department administers the CDBG program for the City. Based on previous allocations, the City anticipates receiving an annual allocation of approximately \$2.5 million in CDBG funds during the 2003-2008 planning period for housing and housing support projects. In addition, revolving loan funds are expected to produce an additional \$1.3 million annually in CDBG monies. Consistent with HUD requirements, the priorities of the CDBG program include financing and support of projects to:

- Provide decent housing, including assisting homeless persons in efforts to obtain affordable housing; retention of affordable housing stock; and increasing the stock of housing affordable to low and moderate income people.
- Provide a suitable living environment, including improving the safety and livability of neighborhoods; increasing access to quality facilities and services; revitalizing deteriorating neighborhoods; restoring and preserving natural and physical features of special value for historic, architectural, or aesthetic reasons; and conserving energy resources.
- Expand economic opportunities, including creating jobs accessible to low and moderate income persons; providing job development and skill training; and providing assistance for persons living in assisted and public housing to achieve self-sufficiency.

CDBG funds are used for site acquisition, rehabilitation, first-time homebuyer assistance, development of emergency and transitional shelters, and fair housing/housing counseling activities, among others. Additional activities in support of the new construction of affordable housing, include site acquisition, site clearance, and the financing of related infrastructure and public facility improvements.

## **HOME Investment Partnership Grant**

The purpose of the federal HOME Program is to improve and/or expand the supply of affordable housing opportunities for low-income households. Approximately \$1.2 million in HOME funds are allocated to the City on an annual basis. In addition, program income is generated from down payment assistance loans, with an expected future income of \$200,000 per year through 2008.

The City's HOME Program priorities include the following:

- Acquisition, rehabilitation and new construction of affordable multifamily rental housing
- Support of Community Housing Development Organizations (CHDOs)
- First-time homebuyer's assistance for low-income households

All projects funded with HOME funds must be targeted to very low and low-income households and must have permanent matching funds from non-federal resources equal to 25 percent of the requested funds. Consistent with program requirements, the City allocates 15 percent of HOME funds for use by CHDOs.

## **Emergency Shelter Grant**

The Emergency Shelter Grant (ESG) Program was established as part of the federal Stewart B. McKinney Homeless Assistance Act. The program provides funds for homeless shelters, social services for the homeless, and for homeless prevention efforts. Over the course of the planning period, Modesto expects to receive approximately \$88,000 annually in ESG funds from HUD. These funds are awarded to local non-profit and public agencies to provide emergency shelter and services for the homeless. In the past, ESG funds have been allocated to non-profits providing emergency shelters, transitional housing, food programs, skills training, and respite child care services.

## **Housing Opportunities for Persons with AIDS**

The Housing Opportunities for Persons with AIDS (HOPWA) program provides funding for housing development and related support services for low-income persons with HIV/AIDS and their families. A December, 1997 study by Community Housing and Shelter Services (CHSS) determined that the greatest needs of persons with AIDS is subsidized housing, with Section 8 vouchers ranking highest among needs. HOPWA funds have been primarily for shelter and rental assistance.

## Redevelopment Set-Aside Funds

In accordance with State law, the Modesto Redevelopment Agency sets aside 20 percent of all tax increment revenue generated from its redevelopment project areas to fund projects that increase, improve, or preserve the supply of affordable housing. Housing developed with these set-aside funds must remain affordable to low- and moderate-income households for at least 55 years for rentals and 45 years for ownership housing. Based on RDA projections, the Agency is expected to generate approximately \$770,000 in set-aside funds annually and anticipates using these funds to support the following major programs/activities during the planning period: new construction of affordable housing, acquisition/rehabilitation, first-time homebuyer assistance, and the residential displacement program. In recent years, the Agency has pooled set-aside monies to help fund planned large-scale projects. Funds may also be used to support other programs, including preservation of assisted housing, special needs housing, and other programs benefiting low and very-low income residents.

## Low Income Housing Tax Credits

Created by the 1986 Tax Reform Act, the Low Income Housing Tax Credits (LIHTC) program has been used in combination with City and other resources to encourage the construction and rehabilitation of rental housing for lower-income households. The program allows investors an annual tax credit over a 10-year period, provided that the housing meets the following minimum low-income occupancy requirements: 20 percent of the units must be affordable to households at 50 percent of area median income (AMI), or 40 percent of the units must be affordable to those at 60 percent of AMI. The total credit over the 10-year period has a present value equal to 70 percent of the qualified construction and rehabilitation expenditures. The tax credit is typically sold to large investors at a syndication value. These credits are available for all projects meeting the above-mentioned criteria and are applied for independently of City programs.

## Section 8 Assistance

The Section 8 program is a federal program that provides rental assistance to very-low income persons in need of affordable housing. The Section 8 program offers a voucher that pays the difference between the current fair market rent and what a tenant can afford to pay (e.g., 30 percent of the household income). The voucher allows a tenant to choose housing that may cost above the payment standard, but the tenant must pay the extra cost. Section 8 vouchers are issued by Stanislaus County, with Modesto's share equal to its percentage of overall population. The County currently has over 2,700 residents who receive Section 8 assistance.

## McKinney Act Funds – Shelter Plus Care

The Shelter Plus Care Program provides rental assistance, in connection with supportive services funded from sources other than this program, to homeless persons with disabilities (primarily persons who are seriously mentally ill, have chronic problems with alcohol, drugs, or both, or have acquired immunodeficiency syndrome and related diseases) and their families. The program provides assistance through four components: (1) Tenant-based Rental Assistance (TRA); (2) Sponsor-based Rental Assistance (SRA); (3) Project-based Rental Assistance (PRA); (4) and Single-Room Occupancy for Homeless Individuals (SRO). The City received \$963,000 in fiscal year 2002 through this program, a funding level expected to continue annually through 2008.

**Table 4-6**
