D.29. Provide a second northbound through lane on the segment of Dale Road between Kiernan Avenue and Technology Drive.	Project Developers	Project Developers shall submit road improvement plans for the segment of Dale Road between Kiernan Avenue and Technology Drive to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase A developments.
D.30. Provide a second northbound through lane on the segment of Dale Road between Technology Drive and Kaiser Medical Center Entrance.	Project Developers	Project Developers shall submit road improvement plans for the segment of Dale Road between Technology Drive and Kaiser Medical Center Entrance to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase A developments.
D.31. Provide a third southbound through lane on the segment of Dale Road between Kaiser Medical Center Entrance and Bangs Avenue.	Project Developers	Project Developers shall submit road improvement plans for the segment of Dale Road between Kaiser Medical Center Entrance and Bangs Avenue to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase A developments
D.32. Provide a third southbound through lane on the segment of Dale Road between Bangs Avenue and Fleur de Lis Drive.	Project Developers	Project Developers shall submit road improvement plans for the segment of Dale Road between Bangs Avenue and Fleur de Lis Drive to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase A developments.

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
D.33. Provide a third southbound through lane on the segment of Dale Road between Fleur de Lis Drive and Pelandale Avenue.	Project Developers	Project Developers shall submit road improvement plans for the segment of Dale Road between Fleur de Lis Drive and Pelandale Avenue to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase A developments.
D.34. Provide a third southbound through lane on Dale Road from Veneman Avenue to Standiford Avenue.	Project Developers	Project Developers shall submit road improvement plans for the segment of Dale Road between Veneman Avenue and Standiford Avenue to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase A developments.
D.38. Provide additional sidewalks/pedestrian paths between the Kaiser Medical Center main entrance and the extension of the driveway from Dale Road.	Project Developers	Project Developers shall submit Master Site Plan to the Community and Economic Development Department.	Community and Economic Development Department shall review the Master Site Plan to ensure that pedestrian access is provided to each building from bicycle and automobile parking facilities and from bus stops.	All improvements shall be completed prior to certificate of occupancy of Phase A developments.

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
<p>D.39. Revise the site plan to remove the entrances to the Kaiser Medical Center parking lots from the Kaiser Modesto Medical Center Entrance driveway. At the intersection of the main driveway with the internal ring road, install STOP signs for the internal ring road approaches and for the eastbound main driveway approach in order to provide right of way to vehicles entering the Kaiser Medical Center. In addition, adjust the curb radii to allow for 15 mph travel speeds for vehicles entering the Kaiser Medical Center and turning right onto the internal ring road.</p>	<p>Project Developers</p>	<p>Project Developers shall revise site plan and submit plan to the Community and Economic Development Department.</p>	<p>Community and Economic Development Department shall review and approve revised site plan.</p>	<p>All improvements shall be completed prior to certificate of occupancy of Phase A developments.</p>
<p>D.44.a. At the intersection of Dale Road and Kiernan Avenue, add a northbound right turn lane on Dale Road.</p>	<p>Project Developers</p>	<p>Project Developers shall submit road improvement plans for the intersection of Dale Road and Kiernan Avenue to the City Engineer.</p>	<p>City Engineer shall review and approve road improvement plans.</p>	<p>All improvements shall be completed prior to certificate of occupancy of Phase B developments.</p>
<p>D.45. At the intersection of Dale Road and Technology Drive, add a southbound right turn lane on Dale Road and revise signal phasing to provide overlap phase.</p>	<p>Project Developers</p>	<p>Project Developers shall submit road improvement and signal phasing plans for the intersection of Dale Road and Technology Drive to the City Engineer.</p>	<p>City Engineer shall review and approve road improvement and signal phasing plans and shall implement signal phasing.</p>	<p>All improvements shall be completed prior to certificate of occupancy of Phase B developments.</p>
<p>D.46.a. At the intersection of Dale Road and Kaiser Medical Center Entrance, extend the northbound left turn lane on Dale Road to provide 340 feet of storage capacity.</p>	<p>Project Developers</p>	<p>Project Developers shall submit road improvement plans for the intersection of Dale Road and Kaiser Medical Center Entrance to the City Engineer</p>	<p>City Engineer shall review and approve road improvement plans.</p>	<p>All improvements shall be completed prior to certificate of occupancy of Phase B developments.</p>
<p>D.46.b. At the intersection of Dale Road and Kaiser Medical Center Entrance, allow for free eastbound right turn movement from the Kaiser Medical Center Entrance onto Dale Road southbound.</p>	<p>Project Developers</p>	<p>Project Developers shall submit road improvement plans for the intersection of Dale Road and Kaiser Medical Center Entrance to the City Engineer.</p>	<p>City Engineer shall review and approve road improvement plans.</p>	<p>All improvements shall be completed prior to certificate of occupancy of Phase B developments.</p>

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
<p>D.47.a. At the intersection of Dale Road and Bangs Avenue, convert the roundabout to a signalized intersection having the following configuration: on southbound approach – two left turn lanes, two through lanes, and one shared through/right lane; on westbound approach – two left turn lanes, one right turn lane; on northbound approach – two through lanes and one right turn lane; and on eastbound approach – one or two right turn lanes (depending on signal phasing).</p>	<p>Project Developers</p>	<p>Project Developers shall submit road improvement plans for the intersection of Dale Road and Bangs Avenue to the City Engineer.</p>	<p>City Engineer shall review and approve road improvement plans.</p>	<p>All improvements shall be completed prior to certificate of occupancy of Phase B developments.</p>
<p>D.47.b. Restrict the Kaiser driveway (west) leg of the Dale Road and Bangs Avenue intersection to right-turn-in and right-turn-out access.</p>	<p>Project Developers</p>	<p>Project Developers shall submit road improvement plans for the intersection of Dale Road and Bangs Avenue to the City Engineer.</p>	<p>City Engineer shall review and approve road improvement plans.</p>	<p>All improvements shall be completed prior to certificate of occupancy of Phase B developments.</p>
<p>D.47.c. At the intersection of Dale Road and Bangs Avenue, add a second eastbound receiving lane on Bangs Avenue.</p>	<p>Project Developers</p>	<p>Project Developers shall submit road improvement plans for the intersection of Dale Road and Bangs Avenue to the City Engineer.</p>	<p>City Engineer shall review and approve road improvement plans.</p>	<p>All improvements shall be completed prior to certificate of occupancy of Phase B developments.</p>
<p>D.48.a. Signalize the intersection of Bangs Avenue and American Avenue.</p>	<p>Project Developers</p>	<p>Project Developers shall submit plans for the installation of a traffic signal at the intersection of Bangs Avenue and American Avenue to the City Engineer.</p>	<p>City Engineer shall review and approve road improvement plans.</p>	<p>All improvements shall be completed prior to certificate of occupancy of Phase B developments.</p>

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
<p><b>Or an alternative mitigation measure</b>  <b>D.48.b</b> Alternative Mitigation Measure: Construct a roundabout at the intersection of Bangs Avenue and American Avenue.</p>	Project Developers	Project Developers shall submit plans for the installation of a traffic signal at the intersection of Bangs Avenue and American Avenue to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase B developments. The City Council will determine, prior to occupancy of Phase A, whether intersection will be signalized or have a roundabout.

D.58. Prepare a Construction Parking Management Plan for the Kaiser Medical Center.	Project Developers	Construction Parking Management Plan shall be submitted to the Community and Economic Development Department for approval and may include valet parking, off-site staff parking with a shuttle system and other elements.	Community and Economic Development Department shall review and approve the Construction Parking Management Plan.	Construction Parking Management Plan shall be approved by the Community and Economic Development Department prior to issuance of a building permit for Phase B structures by OSHPD.

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
D.62.a. Along the segment of Dale Road between Kiernan Avenue and Technology Drive, provide a third northbound through lane.	Project Developers	Project Developers shall acquire sufficient rights-of-way to accommodate and construct the additional northbound lane on Dale Road.	<u>City Engineer</u> shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase C developments.
D.62.b. Along the segment of Dale Road between Kiernan Avenue and Technology Drive, provide a third southbound through lane.	Project Developers	Project Developers shall construct the third southbound through lane on Dale Road, and reconfigure parking spaces on the Cornerstone Business Park site adjacent to the Dale Road segment of roadway.	<u>City Engineer</u> shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase C developments.
D.63. Along the segment of Dale Road between Kaiser Medical Center Entrance and Bangs Avenue, provide a third northbound through lane.	Project Developers	Project Developers shall submit road improvement plans for the segment of Dale Road between Kaiser Medical Center Entrance and Bangs Avenue to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase C developments.
D.64. Along the segment of Dale Road between Bangs Avenue and Pelandale Avenue, provide a third northbound through lane.	Project Developers	Project Developers shall submit road improvement plans for the segment of Dale Road between Bangs Avenue and Pelandale Avenue to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase C developments.
D.68.a. At the intersection of Dale Road and Technology Drive, add a southbound right turn lane on Dale Road, and revise signal phasing to provide overlap phase. (Same as Mitigation Measure D.45.)	Same as Mitigation Measure D.45.	Same as Mitigation Measure D.45.	Same as Mitigation Measure D.45.	Same as Mitigation Measure D.45.

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
D.68.b. At the intersection of Dale Road and Technology Drive, provide a northbound right turn lane and restripe shared through/right lane to a through lane on Dale Road.	Project Developers	Project Developers shall submit road improvement plans for the intersection of Dale Road and Technology Drive to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase C developments.
D.68.c. At the intersection of Dale Road and Technology Drive, provide a third southbound through lane on Dale Road.	Project Developers	Project Developers shall submit road improvement plans for the intersection of Dale Road and Technology Drive to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase C developments.
D.68.d. At the intersection of Dale Road and Technology Drive, provide a second eastbound right turn lane and second left turn lane on Technology Drive.	Project Developers	Project Developers shall submit road improvement plans for the intersection of Dale Road and Technology Drive to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase C developments.
D.68.e. At the intersection of Dale Road and Technology Drive, provide a westbound right turn lane and restripe shared through/right lane to a through lane on Technology Drive.	Project Developers	Project Developers shall submit road improvement plans for the intersection of Dale Road and Technology Drive to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase C developments.
D.69.a. At the intersection of Dale Road and Kaiser Medical Center Entrance, extend the northbound left turn lane on Dale Road to provide 340 feet of storage capacity. (Same as Mitigation Measure D.46.a.)	Same as Mitigation Measure D.46.a.	Same as Mitigation Measure D.46.a.	Same as Mitigation Measure D.46.a.	Same as Mitigation Measure D.46.a.
D.69.b. At the intersection of Dale Road and Kaiser Medical Center Entrance, provide a third northbound through lane on Dale Road.	Project Developers	Project Developers shall submit road improvement plans for the intersection of Dale Road and Kaiser Medical Center Entrance to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase C developments.

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
D.69.c. At the intersection of Dale Road and Kaiser Medical Center Entrance, provide a southbound right turn lane and restripe the shared through/right lane to a through lane on Dale Road.	Project Developers	Project Developers shall submit road improvement plans for the intersection of Dale Road and Kaiser Medical Center Entrance to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase C developments.
D.69.d. At the intersection of Dale Road and Kaiser Medical Center Entrance, provide a second eastbound right turn lane and second left turn lane at Kaiser Medical Center Entrance.	Project Developers	Project Developers shall submit road improvement plans for the intersection of Dale Road and Kaiser Medical Center Entrance to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase C developments.
D.70.a. Same as Mitigation Measures D.47.a, D.47.b, D.47.c, and D.47.d.	Same as Mitigation Measures D.47.a, D.47.b, D.47.c, and D.47.d.	Same as Mitigation Measures D.47.a, D.47.b, D.47.c, and D.47.d.	Same as Mitigation Measures D.47.a, D.47.b, D.47.c, and D.47.d.	Same as Mitigation Measures D.47.a, D.47.b, D.47.c, and D.47.d.
D.70.b. At the intersection of Dale Road and Bangs Avenue, provide a third northbound through lane on Dale Road.	Project Developers	Project Developers shall submit road improvement plans for the intersection of Dale Road and Bangs Avenue to the City Engineer.	City Engineer shall review and approve road improvement plans.	All improvements shall be completed prior to certificate of occupancy of Phase C developments.
D.71. Signalize the intersection of Western Driveway II and Technology Drive.	Project Developers	Project Developers shall submit signalization plans for the intersection of Western Driveway II and Technology Drive to the City Engineer.	City Engineer shall review and approve signalization plans.	All improvements shall be completed prior to certificate of occupancy of Phase C developments.

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
<p>D.72. Prepare a Construction Parking Management Plan for the Kaiser Medical Center to accommodate the temporary parking shortage anticipated under Phase C.</p>	<p>Project Developers</p>	<p>Construction Parking Management Plan shall be submitted to the Community and Economic Development Department for approval and may include valet parking, off-site staff parking with a shuttle system and other elements.</p>	<p>Community and Economic Development Department shall review and approve the Construction Parking Management Plan.</p>	<p>Construction Parking Management Plan shall be approved by the Community and Economic Development Department prior to issuance of a building permit for Phase C structures.</p>
<p><b>Air Quality</b></p>				
<p>E.1. Implement air district recommendations to minimize emissions during construction phases.</p>				
<p>The Project Developers shall review Regulation VIII of the San Joaquin Valley Air Pollution Control District (SJVAPCD) regulations and submit a compliance plan to the City of Modesto prior to commencing any phase of construction. The compliance plan must demonstrate that the current requirements of Regulation VIII will be implemented.</p> <p>(cont'd.)</p>	<p>Project Developers</p>	<p>Project Developers shall review Regulation VIII and submit a compliance plan to the City of Modesto's Community and Economic Development Department. The compliance plan shall be incorporated in construction contracts.</p>	<p>Project Developers shall provide draft compliance plan to the Community and Economic Development Department for review and approval.</p>	<p>Compliance plan shall be submitted to and approved by the Community and Economic Development Department prior to the start of any phase of construction.</p>

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
<p><b>E.1. (cont'd.)</b></p> <p>Prior to the issuance of construction contracts, the Project Developers shall perform a review of new technology, as it relates to heavy-duty equipment, to determine what if any advances in emissions reduction are available for use. It is anticipated that in the near future both NO<sub>x</sub> and PM<sub>10</sub> control equipment will be available. The SJVAPC District should be consulted during this process.</p>	<p>Project Developers</p>	<p>Project Developers shall consult with SJVAPCD and identify available new technology and shall incorporate requirements for new technology in construction contracts.</p>	<p>Project Developers shall consult with the SJVAPC. Project Developers shall report to the Community and Economic Development Director on new technology to be included.</p>	<p>The Project Developers shall incorporate available new technology in construction contracts.</p>
<p>The Project Developers shall install sandbags or other control measures to prevent silt runoff to public roadways from sites with a slope greater than 1 percent.</p> <p><b>(cont'd.)</b></p>	<p>Project Developers</p>	<p>All slopes shall be measured by the Project Developers and identified on the building permit plan set submitted. The construction foreman or liaison shall oversee the placement of sandbags or other runoff control measure(s) on all slopes determined to have a slope greater than 1 percent.</p>	<p>The construction foreman or liaison shall monitor runoff control measure(s) and shall ensure such measures are installed and operating to the specifications of the Community and Economic Development Department.</p>	<p>The building permit submittal shall identify slope measurements. Throughout the construction duration, the construction foreman or liaison shall conduct weekly runoff control measure(s) inspections and shall submit results in a monthly report to the Community and Economic Development Director.</p>

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
<p>E.1. (cont'd.)</p> <p>The Project Developers shall install wheel washers for all exiting trucks, or wash off all trucks and equipment leaving the site, to prevent track-out of soil to public roadways.</p>	<p>Project Developers</p>	<p>The construction foreman or liaison shall ensure that wheel washers and/or equipment washers are in place at all points of exit from the site.</p>	<p>The construction foreman or liaison shall conduct and record daily inspections.</p>	<p>Construction foreman or liaison shall record inspections in a daily construction log and submit results in a monthly report to the Community and Economic Development Director.</p>
<p>The Project Developers shall install wind breaks at windward sides of construction areas, if necessary, to prevent wind-blown dust.</p> <p>(cont'd.)</p>	<p>Project Developers</p>	<p>Wind breaks shall be installed by the Project Developers prior to the issuance of building permits.</p>	<p>The construction foreman or liaison shall inspect installed wind breaks.</p>	<p>The construction foreman or liaison shall ensure that breaks are correctly placed prior to the start of any construction activity, and shall inspect such breaks on a weekly basis and record inspections in the construction log.</p> <p>Inspection results shall be submitted in a monthly report to the Community and Economic Development Director.</p>

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
<p>E.1. (cont'd.)</p> <p>The Project Developers shall suspend excavation and grading activity when winds exceed 20 miles per hour.</p> <p>(cont'd.)</p>	<p>Project Developers</p>	<p>Project developers shall install wind speed measuring devices.</p>	<p>The construction foreman shall suspend all excavation and grading activity when wind speeds exceed 20 mph.</p>	<p>Mitigation shall be implemented when winds exceed 20 mph. The construction foreman shall cease all excavating and grading activities when wind speed measuring devices indicate speeds over 20 mph.</p> <p>Suspension of construction activity due to wind speeds shall be recorded in the construction log. Construction reports shall be submitted to the Community and Economic Development Director on a monthly basis.</p>

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
<p><b>E.1. (cont'd.)</b></p> <p>The Project Developers shall limit the area subject to excavation, grading, and other construction activity at any one time.</p> <p><b>(cont'd.)</b></p>	<p>Project Developers</p>	<p>The project sponsor shall provide a written statement with any request for development permits or other permits involving movement of soil supporting a determination that the request minimizes the amount of exposed soil on the project site during the relevant construction period. The Community and Economic Development Director will either accept the report or require additional means to reduce the amount of exposed soil, such as hydroseeding or planting vegetation with irrigation, in areas that are proposed to be exposed for more than 20 days with no construction activity, prior to authorizing issuance of the permit.</p>	<p>The construction foreman or liaison shall ensure that construction activities do not exceed the allowable area of excavation and grading activity permitted on the site and shall oversee implementation of any required best management practices.</p>	<p>Throughout the construction duration, the construction foreman or liaison shall ensure that excavation and grading activities do not exceed the amount of allowable activity that may take place at any one time and shall implement any required means to reduce the amount of exposed soil.</p> <p>The construction foreman or liaison shall record excavation and grading activities in a construction log on a daily basis and submit results in a monthly report to the Community and Economic Development Director.</p>

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
<p><b>E.1. (cont'd.)</b></p> <p>The Project Developers shall ensure that the accumulation of mud or dirt is expeditiously removed from adjacent public streets at least once every 24 hours when construction activities are occurring (the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions).</p>	Project Developers	The construction foreman or liaison shall establish a daily street sweeping schedule during construction activities that involve movement of soil.	The construction foreman or liaison shall monitor daily street sweeping.	The construction foreman or liaison shall monitor streets and record inspections in a daily construction log. Results shall be submitted in a monthly report to the Community and Economic Development Director.
<p>The Project Developers shall use alternative-fuel construction equipment, where feasible.</p>	Project Developers	Project Developers shall consult with SJVAPCD to identify feasible goals for equipment use. These goals shall be incorporated into construction contracts.	Project Developers shall consult with the SJVAP. The Project Developers shall report to the Community and Economic Development Director the alternative-fuel equipment to be used in each Phase.	The Project Developers shall use alternative-fuel construction equipment throughout the construction duration, where feasible.
<p>The Project Developers shall minimize idling time (e.g., to a 10-minute maximum).</p> <p><b>(cont'd.)</b></p>	Project Developers	The construction foreman or liaison shall limit idling time on the construction site to a 10-minute maximum.	The construction foreman or liaison shall monitor idling.	Throughout the construction duration, the construction foreman or liaison shall limit idling to a maximum of 10 minutes.

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
<p><b>E.1. (cont'd.)</b></p> <p>The Project Developers shall limit the hours of operation of heavy-duty equipment and/or the amount of equipment in use to the minimum practical.</p>	<p>Project Developers</p>	<p>The construction foreman or liaison shall limit the hours of heavy-duty equipment and/or the amount of equipment in use on the construction site.</p>	<p>The construction foreman or liaison shall monitor hours and use of heavy-duty equipment.</p>	<p>Throughout the construction duration, the construction foreman or liaison shall limit hours and use of heavy-duty equipment.</p>
<p>The Project Developers shall replace fossil-fueled equipment with electrically driven equivalents (provided they are not run via a portable generator set), where feasible.</p>	<p>Project Developers</p>	<p>Project Developers shall incorporate requirements to replace fossil-fueled equipment with electrically driven equivalents, where feasible.</p>	<p>Project Developers shall report to the Community and Economic Development Director electrically driven equipment to be used in each Phase.</p>	<p>The Project Developers shall use electrically driven equipment throughout the construction duration, where feasible.</p>
<p>The Project Developers shall take steps to curtail construction activity during periods of high ambient pollutant concentrations; this may include reducing construction activity during the peak hour of vehicular traffic on adjacent roadways or ceasing construction activity during days declared as Spare the Air days by the San Joaquin Valley Air Pollution Control District.</p>	<p>Project Developers</p>	<p>The construction foreman or liaison shall comply with traffic control programs to curtail construction activities during periods of high ambient pollutant concentrations based on advisories from the SJVAPCD, such as on declared 'Spare the Air' days.</p>	<p>The construction foreman or liaison shall curtail or cease construction activity based on SJVAPCD advisories.</p>	<p>During advisory periods, such as 'Spare the Air' days, construction activity shall be curtailed or stopped.</p>

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
E.2.a. Implement design features to reduce emissions from motor vehicle activity.				
The Project Developers shall incorporate improvements for transit service, including bus turnouts, transit loading areas, and shelters.	Project Developers	Project Developers shall submit plans for bus turnout, loading and shelters on Dale Road, as part of a Master Site Plan to the Community and Economic Development Department.	The Community and Economic Development Department shall review and approve the Master Site Plan.	Review and approval of transit service improvements shall occur before issuance of building permits. All improvements shall be completed prior to certificate of occupancy of Phase A developments.
The Project Developers shall incorporate sidewalks and bicycle paths throughout the site and connect those facilities to any nearby pedestrian and bicycle facilities, including those located at open space areas, parks, schools, or commercial areas.	Project Developers	Project Developers shall submit a Master Site Plan to the Community and Economic Development Department that identifies the appropriate locations of all pedestrian and bicycle facilities elements, as indicated in Mitigation Measure D.38.	The Community and Economic Development Department shall review and approve the Master Site Plan.	Review and designation of pedestrian and bicycle facilities shall occur before issuance of building permits. All improvements shall be completed prior to certificate of occupancy of Phase A developments.
The Project Developers shall incorporate secure bicycle storage and parking facilities throughout the site.	Project Developers	Project Developers shall submit a Master Site Plan to the Community and Economic Development Department that identifies all the bicycle storage and parking facilities on the project site.	The Community and Economic Development Department shall review and approve the Master Site Plan.	Review of on-site bicycle storage and parking facilities shall occur before issuance of building permits for each development Phase. All improvements shall be completed prior to certificate of occupancy of Phase A developments.

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
<p><b>E.2.b.</b> Develop and implement an approved trip reduction plan to reduce emissions from motor vehicle activity. Such a plan may include, but need not be limited to, the following:</p> <ul style="list-style-type: none"> <li>Provision of matching services (for participants in carpools and vanpools) by employers with over 100 weekday employees or coordination with Caltrans' "Commuter Computer" program.</li> <li>Employer-based dissemination of commute information.</li> <li>Employer subsidies for transit passes and incorporation of transit stop facilities into site design.</li> <li>A program to guarantee rideshare participants a ride home in case of emergency.</li> <li>Flex-time scheduling.</li> <li>Site plan design which encourages pedestrian movement between adjacent land uses.</li> <li>Incentives such as preferred parking for carpoolers.</li> <li>Encouraging employers to experiment with telecommuting options, where feasible.</li> </ul>	Project Developers	Project Developers shall prepare a trip reduction plan for use by the Medical Center and tenants of the Cornerstone Business Park.	<p>The Community and Economic Development Department shall review all submitted trip reduction plans, and ensure, at a minimum, that all of the required elements are included in the plan.</p> <p>Project Developers shall ensure that all measures detailed in the trip reduction plan are being carried out.</p>	<p>The trip reduction plan shall be submitted for review and approval by the Community and Economic Development Department prior to certificate of occupancy of each phase of the project.</p> <p>The Project Developers shall submit status results of the trip reduction plan in an annual report to the Community and Economic Development Director.</p>
<p><b>E.2.c.</b> Implement site design features to reduce emissions from energy consumption.</p>				
<p>The Project Developers shall incorporate energy efficient building design features including automated control systems for heating and air conditioning and energy efficiency beyond the requirements of the Building Code (Title 24, California Code of Regulations, or for the Kaiser Hospital, those established by the Office of Statewide Health Planning and Development), increased wall and ceiling insulation beyond Building Code requirements, energy-efficient roof materials, and energy efficient lighting and lighting controls.</p> <p>(cont'd.)</p>	Project Developers	Project Developers shall submit construction drawings showing energy efficient building design features.	The Community and Economic Development Department shall review and approve all construction plans to ensure that all required energy efficiency measures are included.	Prior to building permit issuance of each Phase, construction plans shall show that all energy efficient measures are included.

F.2.b. Implement traffic control features, which may include calming strategies, restrictions on heavy truck traffic, and speed limit, to reduce traffic-related noise on Dale Road, between Kiernan Avenue and Pelandale Road.	Project Developers, City of Modesto	Project Developers shall provide traffic control recommendations. City shall implement traffic control plan.	Project Developers, City of Modesto	Traffic control plan to be implemented prior to issuance of occupancy permits.
F.3.a. Implement programs to minimize adverse noise from ambulance traffic.	Project Developers	Project Developers shall require ambulance operators to travel with sirens off when accessing the medical center from the south of Dale Road or Chapman Road between Pelandale Avenue and the emergency room.	Project Developers shall notify ambulance operators of designated travel routes. Ambulance operators shall maintain travel logs and shall submit these to the Project Developers.	Once emergency facilities are operational, ambulance operators shall adhere to ambulance traffic noise restrictions. Travel logs shall be submitted to the Project Developers on a monthly basis.
F.3.b. Evaluate and implement programs to minimize adverse noise from ambulance traffic on vehicle routes.	Project Developers, City of Modesto	Project Developers shall evaluate the regularly used emergency vehicle routes and siren use. The City of Modesto shall schedule and notice a publicly noticed meeting so that additional feasible noise reduction measures can be identified.	The Community and Economic Development Director shall approve necessary changes or establish new ambulance noise restrictions based on documentation submitted by Project Developers and from public comments generated at the meeting.	Evaluation to be submitted to City within 6 months after the emergency room is opened.

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
F.6. Implement appropriate noise attenuation measures in proposed hospital facilities.	Project Developers	Project Developers shall submit acoustical treatment design plans with the building permit submittal to the Chief Building Official. Project Developers shall submit certification that appropriate noise attenuation measures are implemented.	The Chief Building Official shall require additional acoustical treatment should exterior noise levels near areas occupied by patients exceed 70 dBA.	Prior to issuance of building permits the Chief Building Official shall ensure implementation of appropriate noise attenuation measures.
F.7. Implement traffic control features, which may include calming strategies, restrictions on heavy truck traffic, and speed limit, to reduce traffic-related noise on Dale Road, between Kiernan Avenue and Pelandale Road. <b>Hydrology and Water Quality</b>				
<p>I.1.a. Design appropriate retention facilities, if necessary, for the pervious pavement/infiltration trench system for the Kaiser Modesto Medical Center Campus.</p>	<p>Project Developers</p>	<p>Project Developer shall submit retention facility design plans to the City Engineer for review and approval, if necessary.</p>	<p>If necessary, the City Engineer shall ensure that the design is in conformance with the City of Modesto <i>Guidance Manual for New Development Stormwater Quality Control Measures</i>.</p>	<p>The City Engineer shall review all necessary design level retention facility designs for each Phase of development before issuing construction, development or building permits.</p>
<p>I.1.b. Develop and implement a Stormwater Management Plan (SMP) that incorporates the requirements of the statewide General Permit for Storm Water Discharges Associated with Construction Activity. The SMP shall include a post-construction Maintenance Plan that describes the operation plan activities and schedule, the equipment and resource requirements necessary to operate and maintain the facilities, and identification of the responsible party for operation and maintenance. The SMP would also require that the owner/operator enter into a Stormwater Access &amp; Maintenance Agreement with the City of Modesto, which shall include a street sweeping program, hazardous materials storage program, hazardous materials spill prevention and response plan, and pavement inspection and repair program.</p>	<p>Project Developers</p>	<p>Project Developers shall develop a Stormwater Management Plan, a Post-Construction Maintenance Plan, and enter into a Stormwater Access and Maintenance Agreement with the City of Modesto.</p>	<p>The City Engineer shall review and approve the Stormwater Management Plan and Post-Construction Maintenance Plan.</p> <p>The City of Modesto shall oversee the Stormwater Access and Maintenance Agreement.</p> <p>Project Developers shall conduct inspections to ensure approved design are being implemented.</p>	<p>The City Engineer shall approve the plans, and the City of Modesto shall enter into the agreement prior to issuance of permits of any construction phase.</p> <p>The City of Modesto will inspect on a periodic basis in accordance with the Stormwater Access and Maintenance Agreement.</p>

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
<p>I.2.a. Design the retention facilities so that infiltration features are constructed to maximize the distance between the base of the infiltration feature and the groundwater table and in no case shall the bottom of the feature be less than ten feet above the groundwater table.</p>	<p>Project Developers</p>	<p>Project Developers shall submit retention facility design plans to the City Engineer.</p>	<p>The City Engineer shall ensure an appropriate design for the retention facilities.</p>	<p>The City shall approve all design level retention facility designs for each phase of development before issuing construction, development or building permits.</p>
<p>I.2.b. Include pollutant source control in the Stormwater Management Plan, including but not limited to the following best management practices:</p>				
<p>All refuse disposal areas and loading bays (and any other similar types of outdoor uses that could impact water quality runoff) shall be either completely contained within enclosed weatherproof structures or designed to capture all runoff, wash water, leaks and spills. For facilities not in enclosures, impermeable berms, drop inlets, trench catch basins, and/or overflow containment structures around these areas shall be used to prevent spilled materials and wash-down waters from entering the storm drain system. The drains shall be connected to a sump(s) for collection and disposal. Direct connection of these areas to the storm drain system is prohibited.</p>	<p>Project Developers</p>	<p>Project Developers shall submit a Stormwater Management Plan to the City Engineer that includes best management practices for refuse disposal areas and loading bays.</p>	<p>The City Engineer shall review the Stormwater Management Plan and ensure that all refuse disposal areas and loading bays are contained or adequately designed.</p>	<p>The City Engineer shall approve the Stormwater Management Plan for each phase of development before issuing construction, development or building permits.</p>
<p>All chemicals and other materials that could contribute pollutants to runoff shall be properly stored and protected from contact with rainfall.</p> <p>(cont'd.)</p>	<p>Project Developers</p>	<p>Project Developers shall submit a Stormwater Management Plan to the City Engineer that includes best management practices for the storage of chemicals and other pollutant-contributing materials.</p>	<p>The City Engineer shall review the Stormwater Management Plan and ensure that the design includes the proper storage of chemicals and other pollutant-contributing materials.</p>	<p>The City Engineer shall approve the Stormwater Management Plan for each phase of development before issuing construction, development or building permits.</p>

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
<p><b>I.2.b. (cont'd.)</b></p> <p>Any outdoor chemical spills shall be promptly mitigated in accordance with the site's Spill Prevention Plan.</p>	<p>Project Developers</p>	<p>Project Developers shall submit a Stormwater Management Plan that includes provisions for a Spill Prevention Plan to the City Engineer for review.</p>	<p>The City Engineer shall review the Stormwater Management Plan and ensure that the Spill Prevention Plan is adequate.</p>	<p>The City Engineer shall approve the Spill Prevention Plan of the Stormwater Management Plan for each phase of development before issuing construction, development or building permits.</p>
<p>Any pesticides and/or fertilizers applied to landscaping shall be done in compliance with a site specific Integrated Pest Management Plan (IPM). The project proponents shall develop and implement IPMs for all landscaped areas. The IPM shall be prepared by a qualified professional approved by the City of Modesto. The IPM shall address and recommend methods of pest prevention and plant management that use pesticides as a last resort in pest control. Types and rates of fertilizer and pesticide application shall be specified. Special attention in the IPM shall be directed toward avoiding persistent pesticides that could leach to the shallow groundwater table. Pesticides shall be used only in response to a persistent pest problem. Preventative chemical use shall not be employed. Institutional and biological approaches to pest control shall be more fully integrated into the IPM with an emphasis toward reducing pesticide application.</p>	<p>Project Developers</p>	<p>Project Developers shall submit an Integrated Pest Management Plan to a qualified pest control specialist for certification and to the Public Works Department for review.</p>	<p>The Project Developers shall obtain certification from a qualified pest control specialist and the Public Works Department shall review adequacy of the Integrated Pest Management Plan.</p>	<p>The Project Developers shall submit certification of the Integrated Pest Management Plan to the Public Works Department for each phase of development prior to issuance of construction, development or building permits.</p>

Mitigation Measure	Mitigation Responsibility	Monitoring Actions	Monitoring / Reporting Responsibility	Schedule
<p>I.3. Well abandonment. The water supply wells shall either be:</p>				
<p>Properly abandoned in compliance with the California Department of Water Resources, California Well Standards and Stanislaus County Code, Chapter 9.36 prior to final approval of the grading plan, or inspected by a qualified professional to determine whether each well is properly sealed at the surface to prevent infiltration of water-borne contaminants into the well casing or surrounding gravel pack. The well seal shall be consistent with the California Well Standards. If any of the wells are found not to comply with this requirement, the applicant shall retain a qualified well driller to install the required seal. Documentation of the inspections and seal installations, if any, shall be provided to the City prior to final approval of the grading plan.</p>	<p>Project Developers</p>	<p>Project Developers shall conduct a well survey to determine location and characteristics of each well. The survey shall be conducted by a state-registered geologist or engineer, and results shall be submitted to the City Engineer and the Community and Economic Development Department.</p>	<p>The City Engineer and the Community and Economic Development Department shall review the well survey and determine whether the well be abandoned or sealed.</p>	<p>Prior to approval of a grading permit for development of the medical center and business park.</p>

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-424**

**A RESOLUTION APPROVING SPECIFIC PLAN AMENDMENT NO. 3 TO THE KIERNAN BUSINESS PARK SPECIFIC PLAN TO MODIFY THE LAND USE AND CIRCULATION DIAGRAMS AND DEVELOPMENT STANDARDS FOR THE KAISER MEDICAL CENTER SITE, TO REVISE THE PLANNED STREET SYSTEM IN THE FUTURE BUSINESS PARK, AND TO INCORPORATE DESIGN STANDARDS INTO THE SPECIFIC PLAN (KAISER FOUNDATION HOSPITALS)**

WHEREAS, Government Code Section 65450 et. seq. permits cities and counties to adopt specific plans for the systematic implementation of the General Plan and to provide for a greater level of detail in planning sites or areas of special interest or value, and

WHEREAS, on April 1, 1997, the City Council by Resolution No. 97-159 adopted the Kiernan Business Park Specific Plan, and

WHEREAS, Government Code Section 65453 permits the amendment of specific plans as often as deemed necessary by the legislative body, and

WHEREAS, on November 4, 1997, the City Council by Resolution No. 97-631 adopted Amendment No. 1 to the Kiernan Business Park Specific Plan to add language to allow for changes in utility service providers; and

WHEREAS, on April 7, 1998, the City Council by Resolution No. 98-170 adopted Amendment No. 2 to the Kiernan Business Park Specific Plan to add language to permit indoor theaters in the Regional Commercial Designation within a Planned Development Zone, and

WHEREAS, Kaiser Foundation Hospitals has filed an application to amend the Kiernan Business Park Specific Plan to add a "Medical Campus Subarea"; to

modify development regulations regarding building height and hours of operation in the Medical Campus Subarea; and to realign the planned extension of Technology Drive to the north adjacent to the proposed medical center, and

WHEREAS, City staff is also proposing to amend the Kiernan Business Park Specific Plan to: modify the Specific Plan Circulation Diagram to accommodate the expected traffic from the proposed Medical Center, to accommodate other planning efforts in the area, and to bring the Specific Plan circulation system into conformance with the Modesto Urban Area General Plan; to modify the Bike Paths and Public Facilities Diagrams to match the modified Circulation Diagram; to modify the cross-section of the Class I bike trail on the north side of M.I.D. Lateral No. 6; to incorporate design guidelines into the Specific Plan; and to require administrative approval of site plans and building elevations by the Community and Economic Development Director for otherwise permitted uses in the Specific Plan, and

WHEREAS, in connection with public circulation and review of the Draft Environmental Impact Report for the Kaiser Modesto Medical Center/Cornerstone Business Park Project (SCH No. 2003072085), the proposed amendments to the Kiernan Business Park Specific Plan were released for public review and comment for a 45-day period from March 26, 2004 to May 10, 2004, and

WHEREAS, on July 19, 2004, the Planning Commission held a duly noticed public hearing in the Tenth Street Place Chambers located at 1010 10th Street, Modesto, California, relating to this proposed amendment to the Kiernan Business Park Specific Plan, and

WHEREAS, after said public hearing, the Modesto City Planning Commission adopted Resolution No. 2004-37, recommending to the City Council an amendment to the Kiernan Business Park Specific Plan to modify the land use and circulation diagrams and development standards for the Kaiser Medical Center site, to revise the planned street system in the future business park, and to incorporate design standards into the Specific Plan, and

WHEREAS, said matter was set for a public hearing of the City Council to be held on August 10, 2004, in the Tenth Street Place Chambers located at 1010 10th Street, Modesto, California, at which date and time said duly noticed public hearing of the Council was held for the purpose of receiving public comment on the proposed amendment to the Kiernan Business Park Specific Plan, and

WHEREAS, the proposed specific plan amendment was analyzed by the Final EIR for the Kaiser Modesto Medical Center/Cornerstone Business Park Project (SCH No. 2003072085), and the City Council by Resolution No. 2004-423 has certified the Final EIR.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby finds and determines that the proposed amendment to modify the land use and circulation diagrams and development standards for the Kaiser Medical Center site, to revise the planned street system in the future business park, and to incorporate design standards into the Specific Plan is consistent with the Modesto Urban Area General Plan, and the Kiernan Business Park Specific Plan is hereby amended to read as shown on **Exhibit "A"** attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED by the Council that the City Clerk is hereby authorized and directed to send certified copies of this resolution and said amendment to the Kiernan Business Park Specific Plan to the Board of Supervisors of the County of Stanislaus.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of August, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

NOES: Councilmembers: None

ABSENT: Councilmembers: None

ATTEST: Jean Zahr  
JEAN ZAHR, City Clerk

(SEAL)

APPROVED AS TO FORM:

By: Michael D. Milich  
MICHAEL D. MILICH, City Attorney

**EXHIBIT "A"**

**SPECIFIC PLAN AMENDMENT NO. 3 TO THE KIERNAN BUSINESS PARK**

**Proposed Changes to the  
Kiernan Business Park Specific Plan**

## **Proposed Changes to Chapter I**

## Chapter I INTRODUCTION

### A. Purpose

The Kiernan Avenue area represents an important economic resource to the City of Modesto. The Specific Plan area consists of approximately 614 acres located adjacent to the City of Modesto's northern border, east of Highway 99, and south of Kiernan Avenue in a portion of unincorporated Stanislaus County.

The intent of the Specific Plan is to provide for the development of new Business Park and industrial uses and a medical campus in the vicinity of Kiernan Avenue, because of its location adjacent to Highway 99 and North Modesto, a prime job-creating industrial location. The Kiernan Business Park Specific Plan will assist in implementing Modesto's long-range objectives to enhance its local economy, generate jobs for residents, and create a better jobs/housing balance.

The Kiernan Business Park Specific Plan serves as a tool to guide the orderly development of land within the Plan area. The purpose of the Specific Plan is to implement the City of Modesto's General Plan as authorized by Section 65450 of the State Government Code.

### A. Background and Planning Process

The City of Modesto first began considering the Kiernan Avenue area as an opportunity for industrial development in the late 1980s when the City Council identified a need for additional industrial land within Modesto's corporate limits. In 1992, as the City began to update its General Plan, the economic consulting firm of Kreines & Kreines was hired to prepare an *Economic Development Strategy* for the City. This study also identified the need for more industrial land and identified the area south of Kiernan Avenue as a prime location.

In 1995, the city of Modesto completed and adopted a revised General Plan, which designates the Plan area for Business Park development. This Specific Plan was initiated early in the General Plan update process to support the City's efforts in attracting employment-intensive businesses to Modesto and in anticipation of implementing a portion of the updated General Plan.

As first steps in the planning process, an *Industrial Development Strategy* was prepared to estimate future market demand for development at Kiernan Business Park, and the existing conditions of the area were documented. An initial public meeting regarding the planning process was held on March 16, 1995, at which the public was invited to share their concern and ideas regarding the Specific Plan.

## **Proposed Changes to Chapter III.**

## B. Land Use Policies

Early in the Specific Plan process an *Industrial Development Strategy* was prepared to estimate future market demand for development at Kiernan Business Park. Based on forecasted demand and locational opportunities and constraints associated with the Kiernan Avenue area, the *Industrial Development Strategy* identifies a group of target industries for the Kiernan Business Park. Industries in the target group include office-based users interested in the high-end business image provided by north Modesto and more industrial-oriented sectors such as distributing, warehousing, and light manufacturing which favor locations with good access to regional transportation networks.

For these uses, the following issues must be addressed:

- The Business Park will need to accommodate a variety of users including enterprises wishing to combine their office and production activities.
- New uses will require sensitive siting and design to ensure compatibility with adjacent residential development.
- The Business Park could attract large corporate offices at the expense of downtown's central business district.

The following land use policies respond to these opportunities, constraints and issues and will guide development in the Plan area. The policies were developed on the basis of the *Industrial Development Strategy*, the *Recommended Modesto Economic Development Strategy*, and concerns voiced by citizens during the community meetings.

***Policy LU-1: Lands adjacent to existing Landmark Business Center shall be designated for Business Park uses.***

***Policy LU-2: Development of large corporate offices shall be discouraged in the Kiernan Business Park. These uses should be encouraged to locate downtown.***

***Policy LU-3: Adequate buffers shall be provided between business park uses and neighboring residential uses.***

Additional land use policies are provided throughout the remainder of this chapter as applicable.

## C. Land Use Plan Summary

Figure III-1, the Land Use Plan Diagram, identifies three areas, A, B, and C, which are designated for Business Park, Office, and Regional commercial development, respectively. A summary of these areas is presented in Table III-2.

**Table III-2  
LAND USE SUMMARY**

<b>Development Area</b>	<b>Acres</b>
<b>Area A (Business park)</b>	
Phase I	226.6
Phase II	313.8
<b>Subtotal</b>	<b>540.4</b>
<b>Area B (Office)</b>	
Phase I	18.5
Phase II	0
<b>Subtotal</b>	<b>18.5</b>
<b>Area C (Regional Commercial)</b>	
Phase I	55.4
Phase II	0
<b>Subtotal</b>	<b>55.4</b>
<b>Total</b>	<b>614.3</b>

**D. Land Use Designations**

*Policy LU-4: Development shall be required to be consistent with Figure III-1, the Land Use Plan Diagram, which is hereby adopted into this Specific Plan. All subsequent development shall conform to these designated land uses.*

The Specific Plan defines three land use designations for the Plan area: Business Park, Office, and Regional Commercial. Figure III-1, Land Use Plan Diagram, delineates the location and extent of the land use designations in the Plan area. The intent of this Plan is to provide adequate land for both office-oriented, employment-intensive uses and light-industrial uses, and to provide a buffer of non-nuisance uses adjacent to residential areas.

This Plan establishes land use designations for the Plan area that modify existing zones defined in the City of Modesto Zoning Ordinance. The purpose of each land use designation and its allowable uses are described below. Development standards, which establish minimum requirements for development activities, are contained in Section E, Development Criteria, of this chapter.

**1. Area A – Business Park**

*Policy LU-5: All development in Area A, as shown in Figure III-1 and designated Business Park, shall be required to conform with the uses and regulations of the Business Park (B-P) Zone (Sec. 10-2.1601 et seq. of the Modesto Municipal Code), except where other wise noted below or in Section E, Development Criteria.*

- a. Purpose. The Business Park designation is intended to accommodate the development of modern, employment-intensive office and non-nuisance light industrial space. The principal development and employment generating uses allowed within this designation are characterized by research, product development, professional office, limited manufacturing and distribution, and commercial business services intended to support the immediate area. Development within this district should support the creation of a campus-like environment for office, light production, or warehouse uses in high quality single- or multiple-occupant buildings. Medical-related uses shall be allowed and

encouraged in the Medical Campus Subarea of Area A. The Medical Campus Subarea is indicated "MC" in Figure III-1.

- b. Allowable Uses. The land uses allowed in Area A shall be those allowed in the B-P Zone, except where noted below. Examples include:
- Light industrial uses such as the manufacture of electronic machinery, photographic and optical goods, furniture, apparel, fabricated plastic and rubber products.
  - Research and development uses such as laboratories, printing and publishing, and records processing centers.
  - Offices
  - Wholesale and retail sale of goods produced on the premises.
  - Business services, personal services, retail trade, and restaurants incidental to and serving the needs of industries.
  - In the Medical Campus Subarea, businesses related to medical and health services shall be allowed, such as a hospital, medical office buildings, service buildings, parking structures, and ancillary uses.
- c. Modifications to Allowable Uses.
- (1) All offices, regardless of the number of employees, will be allowed without the need for a Conditional Use Permit. However, large corporate offices should be encouraged to locate downtown, rather than in the Kiernan Business Park.
  - (2) Permitted uses shall include any other uses which the Community Development Director may determine to be compatible with and of the same general character as the uses mentioned above. In exercising discretion under this part, the Community and Economic Development Director shall be guided by the principle that the Kiernan Business Park is intended to facilitate the development of office/industrial park complexes distinguishable in appearance and purpose from typical office/industrial areas, that the uses will not adversely impact the permitted uses and adjacent residential areas, or generate traffic in excess of the amount predicted in the Kiernan Business Park EIR.

## 2. Area B – Office

*Policy LU-6: Require all development in Area B, as shown in Figure III-1 and designated Office, to conform with the uses and regulations of the Professional Office (P-O) Zone (Sec. 10-2.901 et seq. of the Modesto Municipal Code), except where otherwise noted below or in Section E, Development Criteria.*

- a. Purpose. The office designation provides for business and professional offices, institutions and related services, in areas adjacent to related activity centers. The designation is intended to support nonresidential uses of a less intensive nature than allowed in commercial zones adjacent to residential areas. Compatibility is ensured through development standards, which are noncommercial in nature.

b. Allowable Uses. The land uses allowed in Area B shall be those allowed in the P-O Zone, with the exception that no residential uses shall be allowed. Examples of allowed uses include:

- Business offices, such as real estate, insurance, and stock broker
- Medical and dental offices.
- Professional offices such as accountants, attorneys, architects and engineers.

### 3. Area C – Regional Commercial

*Policy LU-7: All development in Area C, as shown in figure III-1, designated Regional Commercial, shall be required to conform with the uses and regulations of the Highway Commercial (C-3) Zone (Sec. 10-2.1201 et seq. of the Modesto Municipal Code), except where otherwise noted below or in Section E, Development Criteria.*

a. Purpose. The Regional commercial designation is intended to accommodate limited retail uses that are generally dependent on a regional rather than a local population for their support.

b. Allowable Uses. The land uses allowed in Area C shall be those allowed in the C-3 Zone, except where noted below. Examples include:

- Department stores
- Volume discount department stores
- Home Improvement, hardware stores (not stores devoted exclusively to lumber or any other building material)
- Automobile dealers

c. Modifications to Allowable Uses

- (1) No residential uses are allowed in Area C.
- (2) No radio/TV transmitters are allowed in Area C
- (3) Indoor theatres are allowed with a Planned Development Zone, as specified in Section 10-2.1703 of the Municipal Code.

### E. Development Criteria

This section provides the standards and criteria by which development in the Kiernan Business Park will proceed including performance, development and supplemental development standards in compliance with Section 65451 (a) (3) of the California Government Code. These development standards are intended to create an integrated development pattern and encourage complementary development while allowing flexibility.

*Policy LU-8: All Development in this Specific Plan shall conform to all applicable City zoning and other regulations except where otherwise noted.*

1. Development Standards

*Policy LU-9: Development shall be required to meet the following development standards, which are hereby adopted into the Specific Plan. All subsequent development shall conform to these standards.*

- a. Area A. All development in Area A will be subject to the development standards of the B-P Zone, with the following exceptions:
1. All development shall be subject to Plot Plan Review by the Community and Economic Development Director.
  - ~~2.~~ There is no minimum lot size.
  - ~~3.~~ Maximum building height is limited to three stories or 45', whichever is less, for those parcels adjacent to that portion of M.I.D. Lateral No. 6 and the bike trail adjacent to the Fleur de Ville subdivision, except for the Medical Campus Subarea, which shall have a height limit of 95 feet. All other parcels are not subject to this height limitation.
  - ~~4.~~ All development on parcels adjacent to the planned bike path along the north side of M.I.D. Lateral No. 6 shall have an eight-foot-high decorative wrought-iron fence on the property line adjacent to the bike path right-of-way and the MID lateral. This requirement may be adjusted in the Medical Campus Subarea in the site review process to achieve the purpose of this requirement while encouraging an aesthetically desirable result.
  - 4 5. All developments in Area A adjacent to that portion of MID Lateral No. 6 and the planned bike path right-of-way abutting the Fluer de Ville subdivision shall be subject to Plot Plan Review by the Community and Economic Development Director. All staff determinations are appealable to the Board of Zoning Adjustment. This development shall be subject to the following additional development standards:
    - A 10-foot wide screen landscaping buffer on the north side of the fence. The landscaping installed should be fast-growing, evergreen shrubs or trees, designed to achieve a height of 15 feet within five years, with an automatic irrigation system. The landscaping shall be as approved by the Director of Parks ~~and Recreation.~~ Recreation and Neighborhoods.
    - Loading docks shall be oriented away from the residential uses to the south.
    - Hours of operation shall be limited to 7 AM to 10 PM, including loading dock operations. This requirement does not apply to the Medical Campus Subarea. Limited exception to these hours' limitations may be allowed subject to a Conditional Use Permit approved by the Board of Zoning Adjustments.
- b. Area B. All development in Area B shall be subject to the development standards of the P-O Zone, with the following exceptions:

1. All development in Area B shall be subject to Plot Plan Review by the Community Development Director. All staff determinations are appealable to the Board of Zoning Adjustment.
  2. All development adjacent to the Fleur de Ville subdivision shall include a 10-foot wide screen-landscaping buffer adjacent to the Fleur de Ville subdivision. The landscaping installed should be fast-growing, evergreen shrubs or trees, designed to achieve a height of 15 feet within five years, with an automatic irrigation system. The landscaping shall be as approved by the Director of Parks and Recreation.
  3. There is no minimum lot size.
- c. Area C. All development in Area C will be subject to the development standards of the C-3 Zone, with the following exception:
1. There is no minimum lot size.
- d. Plan Area. The following development standards shall apply to all subsequent development within the Specific Plan area including Areas A, B and C. Under these standards, the Community and Economic Development Director shall have the discretion to approve alternative design features which accomplish the design goals of the Specific Plan, unless otherwise prohibited by the General Plan or Municipal Code.
- (1) Required Parking and Loading Areas. All uses in the Plan area shall provide adequate space for parking, loading, outdoor storage and refuse areas on site. These areas shall be screened from view as described below in the Landscaping and Screening subsection. Requirements for off-street parking in the Kiernan Business Park shall be as set forth by Article 20 of the City of Modesto Zoning Ordinance.
  - (2) Limited Access. Vehicular access to individual parcels shall be prohibited along the following street frontages, unless it meets the requirements of General Plan Policy V-4.c.(4).
    - Kiernan Avenue east of Chapman Road
    - Pelandale Avenue east of Dale Road
  - (3) Landscaping and Screening. When landscaping is required by this Specific Plan or the Principle Underlying Zoning, it shall be consistent with Section 10-2.2309 Landscape Plans and Maintenance of Modesto Zoning Ordinance. The landscape standards and guidelines recognize that landscape is of great importance to the establishment of the design and character of the Kiernan Business Park. The standards and guidelines are intended to provide for a neat and well-maintained appearance in areas not covered by buildings or parking, to enhance the existing site character, to minimize the adverse visual and environmental impacts of large, paved areas and to promote the conservation of water.
- The landscape standards and guidelines for general landscaping within the Kiernan Business Park define a strong overall landscape planting framework that creates an aesthetically pleasing environment. The concept includes establishing an overall image and visual order to the business park; provides an urban forest to create shade in summer; allow solar gain in the wintertime; buffer particular uses; provide tree-shaded corridors

for pedestrians; create a pedestrian-scale at active areas; and encourage water conservation techniques.

- (a) *Front Side and Street Side Yards.* All front yards, required side yards, and rear yards abutting a street shall be landscaped and maintained. Street trees will be planted and maintained along street frontage within the street right-of-way and encouraged within front and street side yards. When right-of-way area between the sidewalk and the front or street side property line exists, it shall be incorporated into the adjacent landscaped area and treated and maintained as a unit. The owner, lessee or occupant shall be responsible for maintaining this area.
- (b) *Screening and Landscaping of Parking Areas.* Landscaping and screening of parking areas shall be in accordance with the provisions of Sections 10-2.2006 and 10-2.2007 of the City's Zoning Ordinance. Additionally, street level views of all automobile and truck parking areas shall be screened within the required setback. Such screening shall include, but not be limited to, low hedges, berms, shrub or tree masses, and/or fences with a minimum height of three feet.
- (c) *Screening and Landscaping of Outdoor Storage or Loading Areas.* For all uses in the Plan area, outdoor storage of materials and equipment incidental to the primary activity is permitted provided the outside storage area is screened by a view-obscuring wall or fence. Such screening ~~may~~ should include landscaping and/or architectural features such as walls compatible with the surrounding buildings and environment. The use of free-standing storage facilities, cargo containers, trailers, etc. is prohibited unless completely screened from view.
- (d) *Screening of Refuse Areas.* Dumpsters and other refuse receptacles shall be located out of view or screened from the public rights-of-way and adjacent properties. ~~Such screening shall be compatible with the surrounding buildings and environment.~~ Trash enclosures should be designed with the same materials, finishes, and colors as the adjacent building. Solid metal gates shall be provided. Trash enclosures shall have a minimum three-foot (3') wide landscape planter on all non-accessible sides, with climbing vines to prevent graffiti and soften the look (see also Section (8)).
- (e) *Street Trees.* Street tree planting and maintenance throughout the Plan area will be in accordance with the provisions and standards set forth by the City of Modesto Street Tree Master Plan and Title 12, Chapter 5 of the Modesto Municipal Code establishing the City's Street Tree Program. The city will determine tree selection and will be responsible for placement, planting and maintenance for all street trees placed within public rights-of-way or planting easements established between private property owners and the City. Fees shall only be assessed for new street tree plantings.
- (f) *Screening of utility services.* All utility service including meters, vaults, sprinklers, etc. and all service areas shall be screened by a combination of walls and/or landscape materials including trees, shrubs, vines, and groundcovers. Other considerations should include existing walls and fences which may be softened to minimize height and mass with the use of vines and shrubs. Proposed utility vaults should be shown on site plans so that proper landscaping can be determined. Transformers, where required, shall be screened as described for

trash enclosures, or by using landscape screening devices such as five-gallon shrubs at three-foot (3') on center, minimum.

(g) General Landscaping Standards.

i. A single species of tree should not be used for large discreet areas to insure biological diversity.

ii. Trees and shrubs should be used to create a natural setting and shall not be pruned or clipped into balled or boxed forms.

iii. Landscape design and plant material selection should encourage drought tolerant species. Use of turf should be limited to accent areas, activity areas, or in parkways, between sidewalk and street or in open space corridors or detention basins.

iv. All required landscaping shall be continually preserved and maintained, including watering, weeding, fertilizing, spraying, pruning, root aeration, and irrigation repair.

v. Plant materials should be used in front of buildings to break up long walls, including the use of trellis-type structures to encourage vertical growth on long walls.

vi. Prior to planting, tree wells shall be prepared to insure adequate relief from soil compaction incurred in the establishment of the parking lot.

(4) Architecture. The purpose of the architectural design guidelines is to provide an orderly and aesthetically pleasing development of high-quality architecture. The buildings in the Kiernan Business Park should incorporate the concepts of conservation and regional vernacular through the design of unique architectural character that defines a symbiotic relationship between the users, the architecture and the natural environment. All buildings, therefore, should conform to the following sets of guidelines.

(a) All elevations of a building facing public streets should contain elements drawn from those in the primary frontages.

(b) Buildings in the Kiernan Business Park should be designed to create a harmonious image through the use of design, including materials, color, texture, proportions, and rooflines.

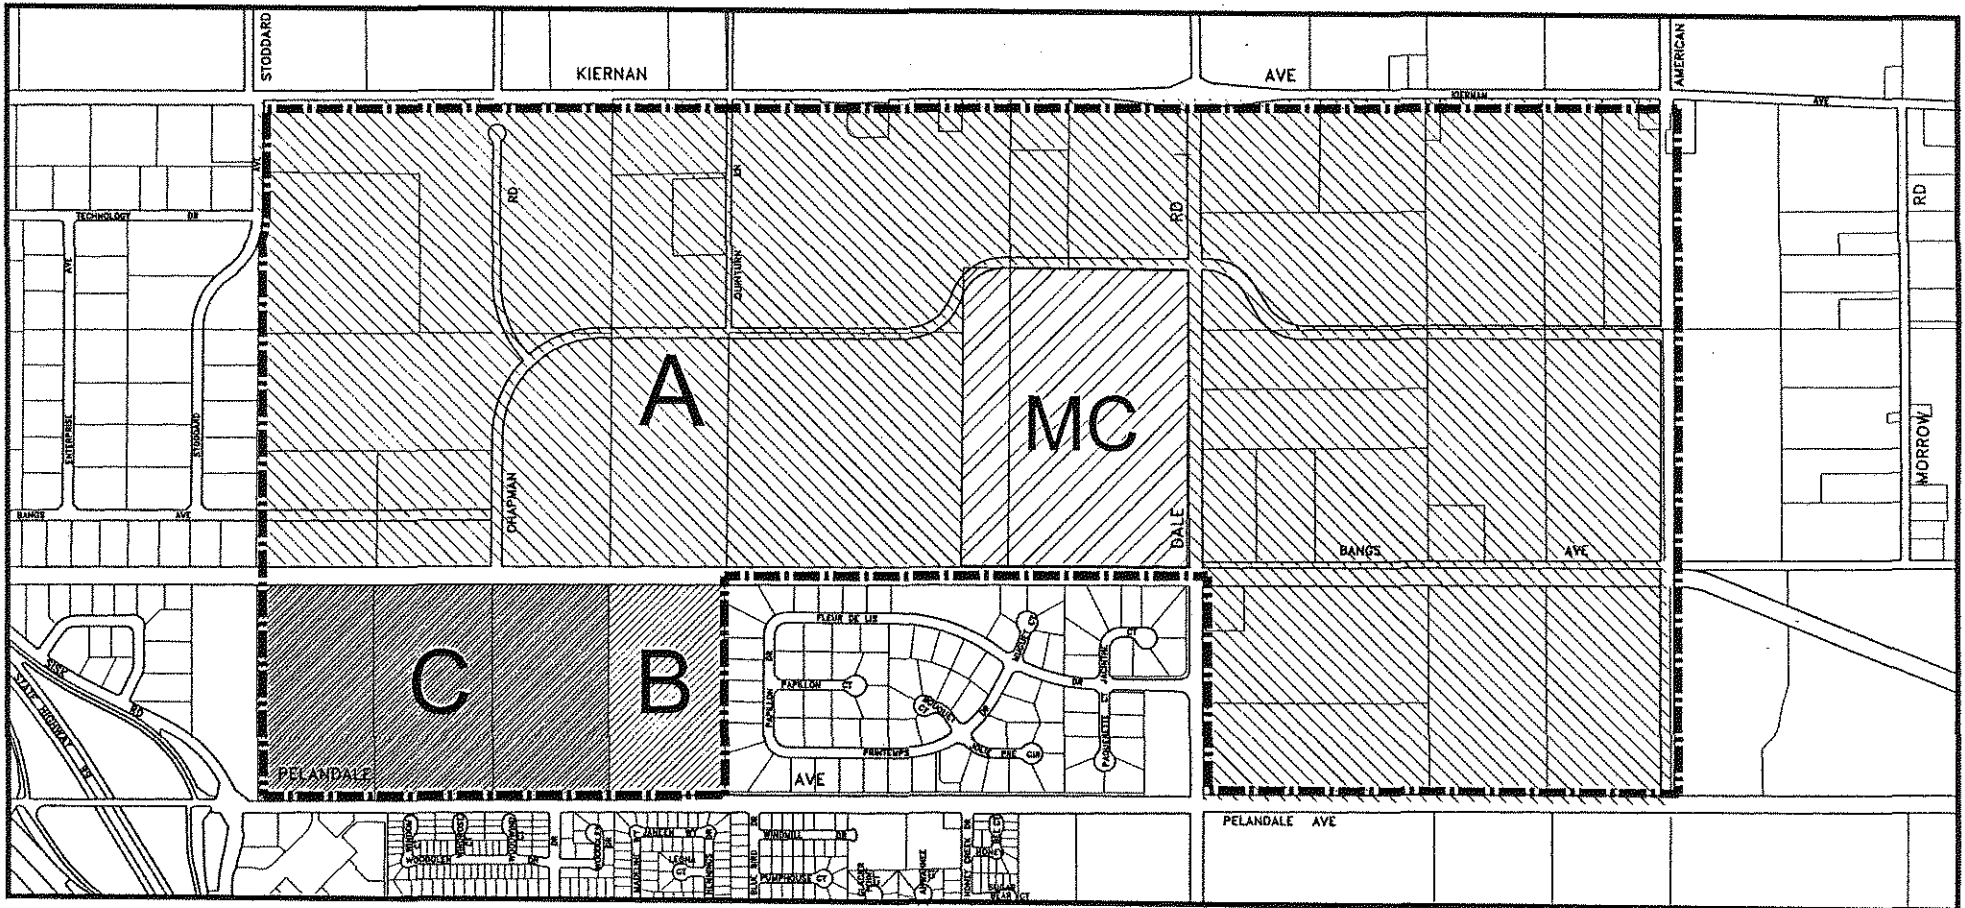

(c) Building should be visually broken up by changing volumes, articulating walls, varying heights and using ornamentation.

(d) The acceptable primary building materials are site cast concrete, architectural precast concrete, brick, concrete masonry units (CMU), or an Exterior Insulation and Finish System (EIFS). Concrete masonry unit walls should be either integrally colored, or textured and integrally colored. All other concrete masonry units should be finished with a plaster base coat then a plaster finish coat. No painted block walls should be permitted. Site-cast concrete should be finished with a textured elastomeric. Metal finishes should be limited to colorized aluminum or steel. Metal should not be allowed as the primary building material and will be limited to a maximum of twenty-five percent (25%) of the total finish. Blank walls should be prohibited.

- (e) A variety of facades, finishes, and patterns should be encouraged. Site-cast concrete for example, should include areas defined by reveals, textures (sandblast finish, architectural formwork), and varying wall planes to provide visual interest and character.
- (f) The two main components of the Kiernan Business Park building types are the office/administrative, and warehouse:
- Office/administrative buildings should have pedestrian scale, including but not limited to windows, awnings, trellises, planters, and material changes. The building should maintain a minimum ratio of fifty-percent (50%) glass. The building should provide an overhead plane located at the building main entry to emphasize pedestrian scale. It should project from the wall a minimum distance of one-quarter (1/4) of the building height, and extend a minimum of six-feet (6') past either side of the main entry doors(s).
  - Warehouses should provide a combination of colors and patterning within the wall panels. The primary building color should be comprised of a maximum of seventy-five percent (75%) of the building finish and no primary area should exceed twenty-two hundred square feet (2,200 SF) before being differentiated. The secondary color should comprise a maximum of twenty-percent (20%) of the building finish. The remaining five-percent (5%) should be comprised of a tertiary color.
- (g) Parcels located in the high-visibility business park areas along Kiernan Avenue (State Route 219), Dale Road and Pelandale Avenue should include all of the above-mentioned plus at least one of the following:
- Office – Should include an increase in the proportion of glass to a minimum of sixty-percent (60%). Fifty-percent (50%) of the wall panels or glass should be articulated a minimum of three-feet (3').
  - Warehouse – Should incorporate articulated wall panels at a minimum of one per ninety lineal feet (90 LF) of building with a minimum offset of one-foot (1'), or the use of pilasters at a minimum of one per sixty lineal feet (60 LF) of building and a minimum offset of one-foot (1'). Rooflines should be broken up at a minimum of once every ninety lineal feet (90 LF). The use of landscaping utilizing trellises or climbing vines to break up long walls is encouraged.
- (h) The use of metal finishes should be limited to architectural detailing and ornamentation, such as breaking up wall massing with metal banding; highlighting recessed wall panels, columns, or other components; emphasizing main entries or office portions of buildings.
- (i) Roof-mounted equipment, including but not limited to air conditioners, fans, vents, antennas, and dishes should be set back from the roof edge, placed behind a parapet wall, or in a wall, so they are not visible to motorists or pedestrians on the adjacent roads or streets.

- (j) Screening for equipment should be integrated into the building and roof design by the use of compatible materials, colors, and forms. Wood lattice and fence-like coverings should not be used as screening materials.
- (k) Retaining walls should not be constructed of wood but of permanent materials, (i.e., concrete, brick, masonry). Block walls should use integrally colored masonry units. No painted block walls should be permitted.
- (l) Building trim should be painted.
- (5) Site Furnishings. Site furnishings such as benches, bollards and trash receptacles should be consistent with the design character of Kiernan Business Park.
- (6) Hardscape Elements. The use of enhanced paving treatment is encouraged at building entry areas. Examples of enhanced materials include stamped concrete, stained or integral colors, scored patterns, and special finishes such as exposed aggregate and pavers. Paving materials should serve as a primary means of unifying the appearance of the project while at the same time providing interest and character to key areas.
- (7) Walls and Fences.
  - (a) Walls and fences for the Kiernan Business Park should complement the building design and the prevailing materials and design elements in the project.
  - (b) Walls shall be concrete masonry unit or brick. Block walls shall be integrally colored masonry units. No painted block walls shall be permitted.
  - (c) Climbing vines should be utilized on walls to soften the look of the wall and reduce graffiti.
- (8) Trash Enclosures. In addition to the screening requirements listed above (see Section 3 (d)), all trash enclosures shall conform to the following requirements.
  - (a) Trash enclosures shall be designed and located so as to be convenient for deposit of refuse generated on-site.
  - (b) Trash enclosures shall not be permitted within the landscape setback area.
  - (c) Refuse collection vehicles are to have clear and convenient access to these areas.
- (9) Site Lighting.
  - (a) Site lighting of the Kiernan Business Park shall provide a safe, pedestrian-friendly environment for the employees, visitors and general public.
  - (b) Lights shall be placed to direct and control glare, obtrusive light, light trespass, and upward directed wasted light.
  - (c) All light fixtures visible from public streets should be concealed source / full cut-off fixtures except for pedestrian oriented lights.
  - (d) Light standards for parking areas shall not exceed thirty-feet (30') in height.

- (e) Lighting shall provide illumination that meets foot-candle requirements established by the City of Modesto Municipal Code and adopted standards.
  - (f) Parking lot lights shall be or similar to Gardco fixture Gullwing G13 or Gardco Circa CR-20 or CR-25, 250W or 400W, high pressure sodium (HPS) lights, with straight round poles painted to match that of the luminaries, or other light fixtures as approved by the Community and Economic Development Director.
  - (g) Lights in parking lots shall be on three-foot (3') high concrete bases.
  - (h) Lights in parking lots shall not be co-located with trees in the planters. The lighting and landscape plan must be fully integrated and coordinated.
  - (i) Service area lighting shall be contained within the service yard boundaries and enclosure walls. No light spillover shall occur outside the service area. The light source shall not be visible from the street. Full cut-off luminaries shall be used.
  - (j) Building illumination and architectural lighting shall be indirect. Floodlights are prohibited.
  - (k) The use of low-level lighting to enhance the architecture, landscape, or other features is encouraged.
  - (l) Architectural lighting should articulate the building design as well as provide functional lighting for the safety of pedestrian movement.
  - (m) Security lighting fixtures shall not project above the fascia or roofline of the building and are to be shielded. The shields shall be painted to match the surface to which they are attached. All security lighting designs shall be fully shielded (full cut-off) and subject to City of Modesto approval.
- (4 10) Signage. All signs shall conform to Article 21, Sign Regulations, of the City's Zoning Ordinance. Within the Medical Campus Subarea, signs be as approved in conjunction with the entitlements for the medical campus.

KIERNAN  
BUSINESS PARK

## **Proposed Changes to Chapter IV.**

## B. Existing and Planned Areawide Circulation

### 1. Existing Roads

The Kiernan Business Park area is currently served by the following highway and roadways:

- *State Route 99 (Highway 99)*: Highway 99 is a north-south freeway facility providing six travel lanes to the west of the project. Highway 99 provides access throughout the Central Valley connecting Sacramento, to the north; to Merced, Fresno, and Bakersfield, to the south. It also provides access to other routes serving the San Francisco Bay Area.
- *Kiernan Avenue: (State Route 219)*: Kiernan Avenue is an east-west, rural arterial that provides two travel lanes and is controlled by unsignalized intersections. It connects Highway 99 to McHenry Avenue (State Route 108). This segment of Kiernan Avenue is designated part of the state Highway system.
- *Pelandale Avenue*: Pelandale Avenue is an east-west, two-to-four lane facility. It runs between Highway 99 and Dale Road. Pelandale Avenue is planned to function as an expressway.
- *Dale Road*: Dale Road is a rural, north-south, two-lane road that connects Kiernan Avenue to Pelandale Avenue and provides local access.
- *Chapman Road*: Chapman Road is a rural, north-south, two-lane road that runs between Kiernan Avenue and the Modesto Irrigation District (MID) Lateral No. 6.

### 2. Planned Areawide Circulation

As part of development included in the City of Modesto General Plan, the surrounding and internal transportation network for the Specific Plan Area would be expanded and modernized. Under ultimate build-out of the City's General Plan (estimated at the year 2025), both Kiernan Avenue and Pelandale Avenue (east of Dale Road) would be improved to six-lane expressways. In addition, Chapman Road would be extended to the south to intersect with Pelandale Avenue and improved to a four-lane arterial, and Dale Road would be improved to a four-lane arterial.

Figure IV-1, Circulation Plan Diagram, shows the proposed roadway system in the Specific Plan area. This roadway system was designed using the City of Modesto's Transportation Model and in coordination with City of Modesto planning and public work staff. ~~It should be noted that this system differs from the network included in the City's adopted General Plan and shown on Figure V-1, Circulation and Transportation Diagram in the General Plan. The difference is that the previously proposed Dakota Avenue flyover of Highway 99 has been removed, and Dakota Avenue is now expected to tie into the West Side of the Pelandale Avenue Expressway interchange with Highway 99. Kiernan Avenue is designated a six-lane arterial along its existing alignment, and Chapman Road is designated a minor arterial to provide a link between Kiernan Avenue and Pelandale Avenue.~~

## C. Specific Plan Area Circulation

In order to plan for the future travel demand in the Kiernan Business Park, traffic forecasts were generated for build-out of the Specific Plan land uses as show on the Land Use Plan Diagram (Figure III-1) in Chapter III. The traffic forecasts used the City of Modesto traffic model, which incorporates

planned development in the vicinity of the Kiernan Business Park as identified in the Modesto General Plan.

***Policy C-1: Roadways shall be developed according to Figure IV-1, Circulation Plan Diagram that is hereby adopted into this Specific Plan. All subsequent development shall conform to this diagram.***

Figure IV-1, Circulation Plan Diagram shows the proposed road classifications, internal street layout, and transit turnout locations for the Kiernan Business Park. ~~Four~~ Five roadway facility types are included within the Specific Plan area: six-lane principal arterials, four-lane minor arterials, four-lane major connectors, two-lane industrial connectors, and two-lane minor connectors. In addition to these facility types, the Specific Plan area is bounded on the north and south by six-lane expressways.

Access to the Kiernan Business Park would be made primarily from Chapman Road/Quinturn Lane and Dale Road, which are four-lane, signalized, north-south arterials that intersect with the planned Kiernan and Pelandale expressways. Chapman Road will be realigned north of M.I.D. Lateral No. 6 to curve to the east and connect to Quinturn Lane. Quinturn Lane will connect to Kiernan Avenue at a new signalized intersection. Roundabouts are planned at two locations: the three-way intersection of Chapman Road, Quinturn Lane, and the four-lane major connector street; and at the intersection of Dale Road and Bangs Avenue. Three arterial intersections serve as gateways: Kiernan Avenue at Quinturn Lane ~~Chapman Road~~, Pelandale Avenue at Chapman Road, and Kiernan Avenue at Dale Road. Because of their functions as gateways, Chapman/Quinturn and Dale Roads have been planned with generous median and sidewalk landscaping.

Internal access to parcels within the Specific Plan area will be provided from a planned east-west, two-and-four-lane industrial connector street. The new industrial connector has been planned with generous landscape areas. The Bangs Avenue segment from Dale Road to just west of American Avenue is planned as a two-lane industrial connector ~~terminating in a cul-de-sac~~. ~~Four~~ Two two-lane, minor connectors also provide internal access. These include an extensions of Bangs Avenue and Technology Drive from Landmark Business Park to Chapman Road and an extension of American Avenue from Kiernan Avenue to Pelandale Avenue, and a new north-south cul-de-sac between Chapman Road and Dale Road to connect with the planned Kiernan Avenue expressway. In addition, the remaining portion of Chapman Road north of the realignment will be designated a minor connector and the current connection to Kiernan Avenue will be replaced by a cul-de-sac bulb.

The Specific Plan circulation system provides access to most parcels via industrial and minor connector streets. Most of the connectors provide east-west connections to north-south arterials, Chapman Road/Quinturn Lane and Dale Road. A north-south connection between the Kiernan Avenue and Pelandale Avenue expressways is provided via the American Avenue extension east of Dale Road. ~~A connection to Kiernan Avenue is provided via a new north-south cul-de-sac between Chapman Road and Dale Road. These connections~~ This connection would provide right-turn-in/right-turn-out access only, as shown on the Circulation Plan Diagram.

In order to allow some flexibility in the types of uses and sizes of various parcels, local streets have not been included in the Specific Plan network, but are assumed to be part of future development. Local streets will be designed as part of the tentative subdivision map application. Local street connections should be made to connectors and arterials, and direct connections to expressways should be prohibited.

***Policy C-2: The City shall promote the improvement and development of Kiernan Avenue and Pelandale Avenue and their connection to Highway 99 to accommodate future development in the Kiernan Business Park area.***

***Policy C-3: Property owners shall be required, through the discretionary permit process, to reserve right-of-way for Kiernan Avenue expressway and Pelandale Avenue expressway.***

*Policy C-4: Direct connector street, local street or driveway connections to expressways will be allowed only under the following criteria:*

- a. *For connections to Kiernan Avenue and Pelandale Avenue east of Dale Road (Class B expressway):*
  - *No driveway connections are permitted*
  - *Only connector street connections with right-turn-in/right-turn-out treatment are allowed at a minimum spacing of one-quarter mile.*
- b. *For connections to Pelandale Avenue west of Dale Road (Principal Arterial Class-C expressway):*
  - *Driveway connections with right-turn-in/right-turn-out treatment are allowed at a minimum spacing of 300 feet.*
  - *Local and connector street connections are allowed with permitted right-turns in, right-turns out and left-turns in (when left turn pockets are provided in the median) and a minimum spacing of ~~one-half~~ one-quarter mile.*

*Policy C-5: The City shall promote the development of local road circulation facilities that connect to connector and arterial streets shown in the Circulation Plan Diagram to adequately serve the planned land uses in the Kiernan Business Park.*

*Policy C-6: Concurrent with the submittal of each Tentative Map (Chapter 4 of the Modesto Municipal Code), each Conditional Use Permit (Section 10-2.250 et seq.), and/or any other 'development' as defined by Section 66418.1 of the State Government Code, applicants shall provide a commitment to construct the necessary and feasible street and intersection improvements to meet the following standards. A Site Access Study as described in Chapter V of the Modesto General Plan may be used as the method for providing this analysis.*

- a. *All access to the existing street network shall be through the dedication of right-of-way and improvement of public streets, consistent with the standards contained in the Specific Plan and/or Section 7-1.701 (Street Dedication and Improvements) of the Modesto Municipal Code.*
- b. *All necessary and feasible street improvements shall be constructed to ensure that the street segments and intersections presented in Table IV-A-11 (in Section IV-A(III)(B) of the Final EIR) meet the following:*
  - 1.. *Individual development projects that could affect conditions on traffic facilities predicted by the General Plan Traffic Analysis (Appendix II-A of the General Plan Master EIR) to operate at LOS "D" or better in the year 2025 shall not cause conditions to be worse than LOS "D" at any time prior to the year 2025.*
  2. *Individual development projects that could affect conditions on traffic facilities predicted by the General Plan Traffic Analysis to operate at LOS "E" in the year 2025 shall not cause conditions on those facilities to exceed LOS "E" at any time prior to year 2025.*
  3. *Individual development projects that could affect conditions on traffic facilities predicted by the General Plan Traffic Analysis to operate at LOS "F" shall not cause further substantial degradation of conditions. Further substantial degradation shall be*

*defined as an increase in the peak hour volume/capacity (V/C) ratio of 0.05 or greater for roadway segments or intersections whose V/C ratio is estimated to be 1.00 or higher in year 2025 by the traffic model.*

- c. *In making these determinations, this list of transportation facility improvements presented in Table IV-A-12 (in Section IV-A(III)(B) of the Final Focused EIR) shall be consulted, and the improvements needed to meet the above standards shall be drawn from this list:*

*Table IV-A-9 (in Section IV-A(II)(C) of the Final Focused EIR) provides a preliminary basis for determining the degree to which development enabled under the Kiernan Business Park and Carver-Bangs Specific Plans could contribute to funding for the required intersection improvements. A more refined method could be developed at the time a Mello-Roos District is established.*

## 1. Street Sections

Typical street sections for the various facility types (with the exception of Kiernan Avenue) are shown in Figures IV-2, IV-3, and IV-4. The street sections have the following characteristics:

- Street sections include generous landscaped areas both in the medians of arterials and the edges of arterials and connectors;
- Arterial street sections include service/bike lanes to reduce congestion associated with vehicle breakdowns and other incidents and to promote bicycle commuting;
- On-street parking will not be provided on arterial or connector streets, but can be included on local streets at the discretion of the City during the subdivision review process; and
- Sidewalks are provided within road right-of-way to encourage pedestrian connections between transit stops and business park uses.

*Policy C-7: All roadways shall be developed in accordance with the sections shown in Figure IV-2, IV-3, and IV-4 Cross Sections, which are hereby adopted into this Specific Plan. All subsequent development shall conform to these street sections.*

*Policy C-8: Public and private road design shall be required to follow all road standards of this Specific Plan and the Modesto General Plan.*

2. **Primary Gateways.** The Kiernan Business Park shall have primary gateways at the following intersections:

- Pelandale Avenue with Chapman Road
- Kiernan Avenue with Quinturn Lane ~~Chapman Road~~, and
- Kiernan Avenue with Dale Road.

Buildings at these entry points, shall be oriented toward and reinforce the gateway concept. These building will be highly visible and set the tone for future development in the Business Park.

At these three distinct points, consistent design elements and landscape treatment shall be used to articulate the gateway and boundary of Kiernan Business Park, as presented in the adopted "Kiernan Business Park Gateway Concept Feature Context Plan Report". The Kiernan/Chapman

and Pelandale/Chapman Gateways shall be framed by Business Park uses to reinforce the Park's identify and capitalize on locational associations with the established Landmark Business Center. The Kiernan/Dale Gateways should be framed by and in proximity to Industrial type uses. This gateway, through its design, location and surrounding land uses, will accommodate the bulk of heavy truck traffic. Each gateway shall be emphasized with planting, special paving treatment and signing.

These gateways will be constructed and maintained through the establishment of a Mello-Roos Community Facility District over the Plan area.

### 3. Bicycle and Bus Circulation

***Policy C-9: The City shall develop Class I Bike Paths along Pelandale and Kiernan expressways and along the north side of MID Lateral No. 6 and Class II Bike Lanes on minor arterial and collector streets as shown on Figure IV-5, Bike Paths, which is hereby adopted into this Specific Plan. All subsequent development shall conform with these planned bike facilities.***

As shown on the Bike Path diagram (Figure IV-5), continuous and connective bike facilities have been planned for the Specific Plan area as follows:

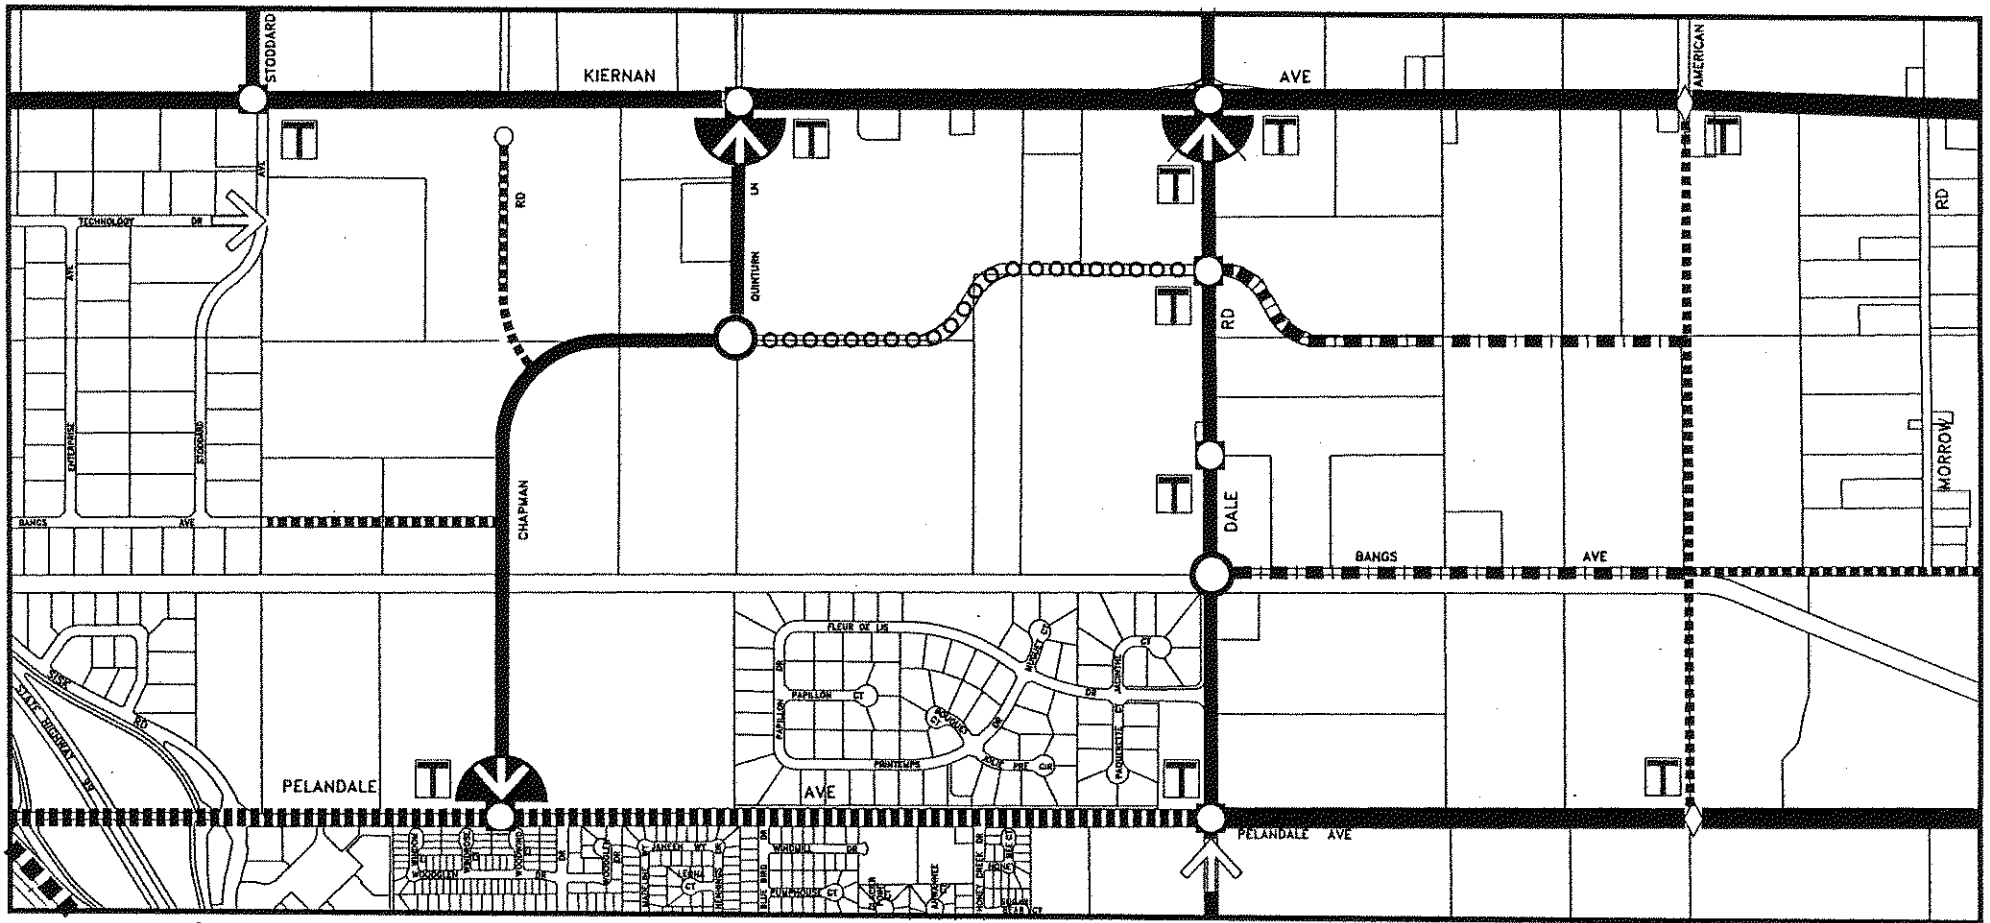

- Expressway facilities (Pelandale and Kiernan Avenues) will provide Class I Bike Paths;
- A Class I Bike Path is planned along the north side of the Modesto Irrigation District (MID) Lateral No. 6 (as shown in Figure IV-6); and
- Minor arterial and connector streets will provide Class II Bike Lanes.

Local streets should be planned to encourage low speeds and minimize cut-through traffic so that bikes can safely share the road with vehicular traffic.

All streets shown on the Circulation Plan Diagram can accommodate bus routes and the landscape improvements can include locations for bus turnouts. Potential locations and design of turnouts are shown on the Circulation Plan Diagram. Bus turnouts have been provided along the Kiernan and Pelandale expressways, where bus routes are proposed. Additionally, bus stops should be provided within the Kiernan Business Park if a decision is made to extend bus service on to streets within the Kiernan Business Park.

***Policy C-10: The City shall provide for development of a bicycle system that will provide a safe and convenient means of transportation for bicyclists that encourages commuting by bicycle.***

***Policy C-11: Future development shall provide for bicycle parking and related facilities such as lockers and showers, in accordance with Bicycle Master Plan.***

## **Proposed Changes to Chapter V.**

## Chapter V PUBLIC FACILITIES

♦ ♦ ♦

### A. Overview

This chapter describes the development of the basic wastewater collection, water supply, and storm drainage infrastructure needed to support anticipated growth in the Kiernan Business Park Specific Plan area. The Specific Plan's public facilities goal is stated below:

#### 1. Specific Plan Public Facilities Goal

*Provide public facilities and infrastructure in the Kiernan Business Park in an orderly manner consistent with the needs of planned development in the business park and applicable City standards.*

#### 2. Modesto General Plan Policies

This chapter of the Kiernan Business Park Specific Plan is consistent with the stated goals and policies of the city of Modesto General Plan including applicable overall infrastructure and public facility policies, as shown on Table V-1.

Following are the agencies and organizations, which were providing services to the project area at the time the Specific Plan was originally adopted. Subsequent changes in service responsibilities may occur without affecting the validity of the Specific Plan. The City intends that adequate service will be provided to the project area, irrespective of the organization providing that service.

### B. Wastewater Collection

***Policy PF-1: All infrastructure and public facilities shall be constructed in accordance with Figure V-1, Public Facilities Plan Diagram, which is hereby adopted as part of this Specific Plan.***

An existing ~~48~~ 39-inch wastewater collection line ~~is planned to be extended approximately 2,800 feet to Bangs Avenue in the future alignment of Marsala Way, which would intersect with the proposed alignment of American Avenue in the Specific Plan area~~ has been extended through American Avenue to Bangs Avenue. Sanitary sewer service to the Kiernan Business Park will be provided by this extension. The existing ~~48~~ 39-inch line flows south into the City's West Trunk Main.

The existing City of Modesto wastewater treatment system will have the capacity to provide service to the property in the Plan area as development occurs.

As shown in Figure V-1, the extension of the ~~48~~ 39-inch line ~~would pass~~ will through the Pelandale/Snyder Specific Plan area and ~~would enter~~ will enter the Kiernan Specific Plan area along the southeastern edge. ~~The extension of the line would include an under crossing of the MID Canal.~~ As shown on Figure V-1, at Bangs Avenue the sewer main will branch into an east-west line. The line to the east is ~~planned to be a~~ 42 39-inch line. To the west ~~a the sewer main will be extended~~ the sewer main will be extended extends approximately ~~8,100~~ 2,650 feet to Dale Road. ~~The future extension of this line will be to the western boundary of the Kiernan Business Park.~~ The size of this line is undetermined at this time and will depend on planned extensions to serve future developments to the northwest. This line will probably be in the range of 30 inches.

Branch lines from east-west main will extend north into the Kiernan Business Park in the north-south streets. The size of these lines will probably be eight inches and ten inches in diameter unless there are planned future extensions to the north, in which case they may be sized larger.

The main in Bangs Avenue between Dale Road and American Avenue and the extension of the ~~48~~ 39-inch main south to the existing line in Marsala Way ~~will need to be~~ have been constructed ~~with the first phase of development.~~

***Policy PF-2: The City shall require all development to be connected to the public sanitary sewer system.***

***Policy PF-3: The City shall require all downstream sanitary sewer improvements to be constructed and sized consistent with the City Wastewater master Plan.***

***Policy PF-4: The City shall require all sanitary sewer mains to be within public street right-of-ways. Branch lines, where appropriate, may be within public easements, within private driveways and roadways, as approved by the City.***

***Policy PF-5: The City shall require each sanitary sewer line to be constructed prior to paving the street under which it is to be located.***

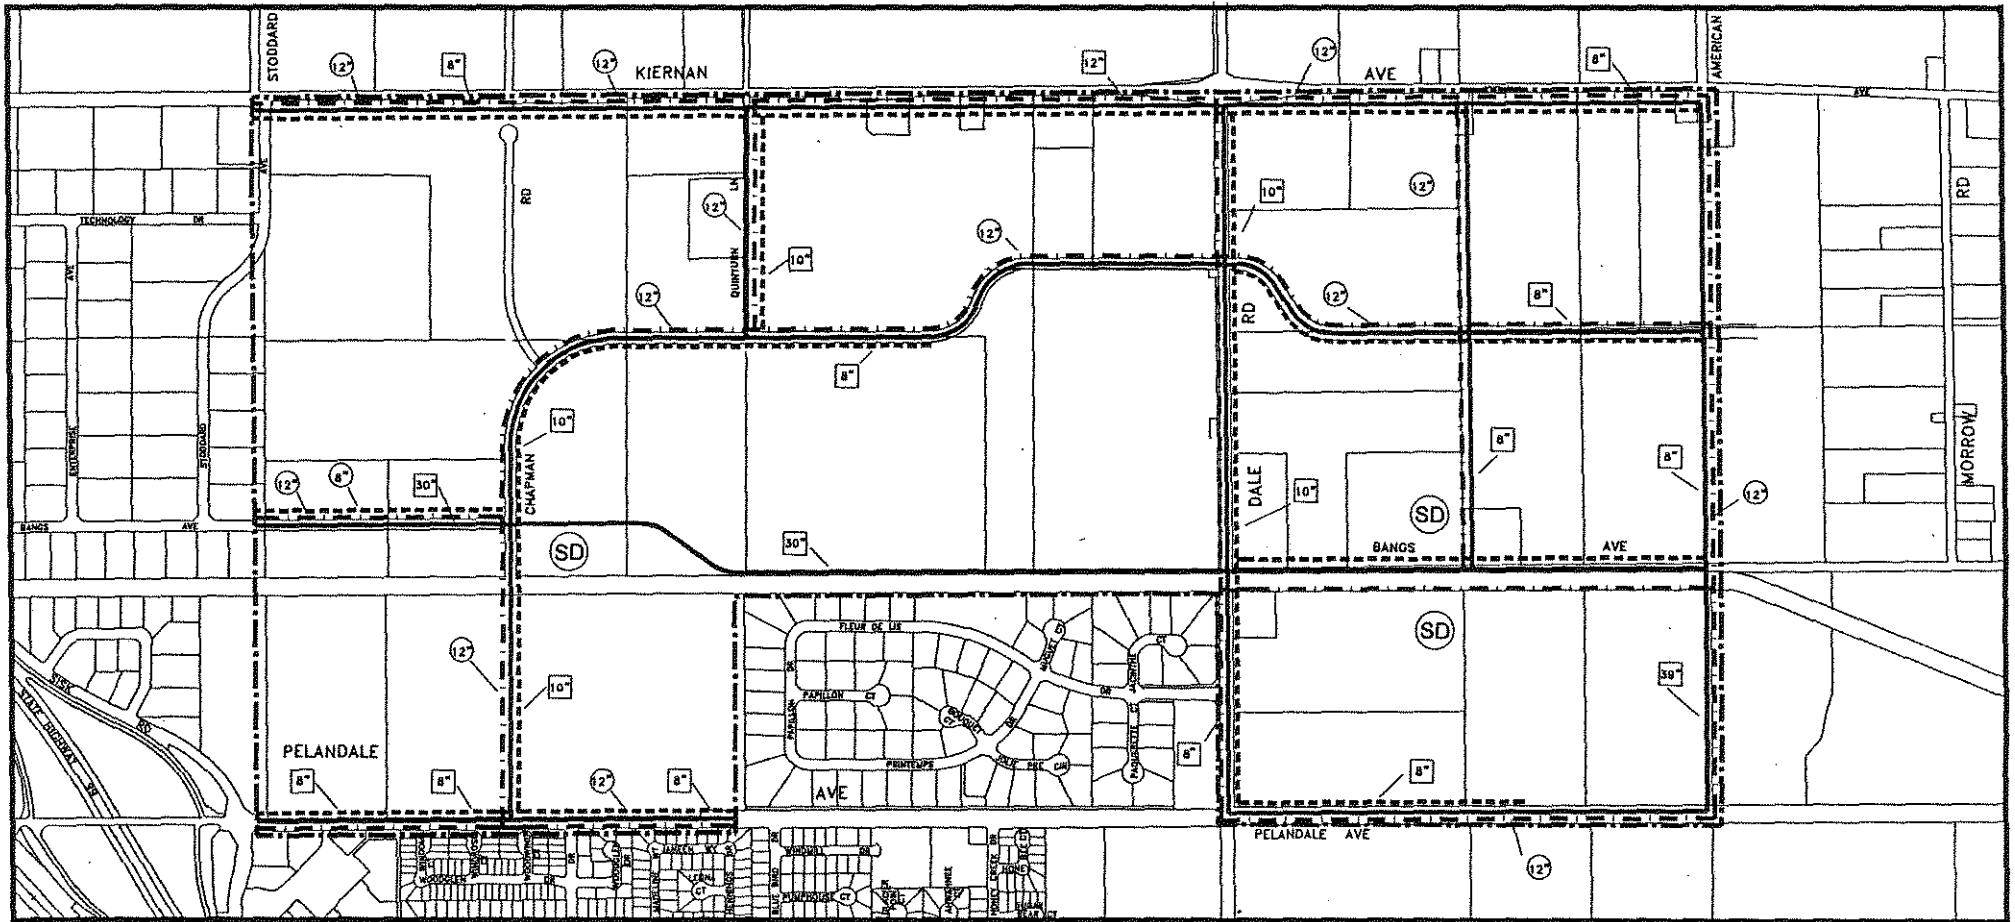

#### D. Storm Drainage

***Policy PF-10: The City shall require all storm drainage facilities for the Kiernan Business Park to be designed and constructed in accordance with the City of Modesto's Drainage Master Plan and Figure V-1, Public Facilities Plan Diagram, which is hereby adopted as part of this Specific Plan.***

The storm drainage system for the Kiernan Business Park will be designed in accordance with the City of Modesto's Drainage Master Plan. The storm drainage system will consist of a positive storm drainage system consisting of catch basins, pipe lines, recharge/detention basins and pumping facilities (see Figure V-1).

The drainage system for the Specific Plan area is anticipated to include pumping storm waters from recharge/detention basins on-site into the Modesto Irrigation District (MID) Canal Lateral No. 6. This canal runs east-west along the southern side of Bangs Avenue. The MID has significant restrictions regarding timing, flow rate and water quality for discharge into their facilities. These restrictions will need to be taken into consideration when designing the storage capacity of the discharge/detention basin. Based on the City standard for commercial/industrial areas, storage requirements of 2 inches of water over the entire developed area is required. Using the maximum City allowed depth of 10 feet, this standard results in a minimum storage of five acres for Phase I with an additional 5 acres for Phase II. The actual area for the discharge/detention basin will depend on location, soil infiltration properties, MID requirements, the total area being served (could extend beyond Specific Plan area) and detailed hydrology/hydraulic calculations.

The City's Draft Master Drainage Plan has identified two sites for a retention/detention basin to serve the study area east of Dale Road. These sites are on the north and south sides of Bangs Avenue midway between Dale Road and American Avenue, as shown in Figure V-1. The City's Draft Master Drainage Plan does not address the area west of Dale Road. Figure V-1 identifies a storm drain basin on the east side of Chapman Road north of MID Lateral No. 6. This basin is designed to serve the development south of MID Lateral No. 6, and could also be expanded to serve development north of MID Lateral No. 6. Storm drainage for the Medical Campus Subarea shall be accommodated on site. ~~two potential locations west of Dale Road. The basin south of the MID canal would serve the Phase I portion of the project area located west of Flour de Ville and the basin located north of the MID canal would serve the Phase II of the Specific Plan area.~~

KIERNAN  
 BUSINESS PARK

**AMENDED**

on 4-7-09  
By Resolution 2009-158

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-425**

**A RESOLUTION APPROVING A DEVELOPMENT PLAN FOR PLANNED  
DEVELOPMENT PREZONE, P-P-D(567). (KAISER FOUNDATION HOSPITALS)**

WHEREAS, a verified application for an amendment to Section 2-3-8 of the Zoning Map was filed by Kaiser Foundation Hospitals on January 9, 2003, to rezone property located on the west side of Dale Road north of Bangs Avenue from Prezone Specific Plan-Overlay Zone, to Prezone Planned Development Zone, P-P-D(567), and from Specific Plan-Overlay Zone to Planned Development Zone, P-D(567) to allow a 1,425,000-square-foot medical center, described as follows:

P-SP-O to P-P-D(567)

All that certain real property situated in the City of Modesto, County of Stanislaus, State of California, and being a portion of the Northeast Quarter of Section 2, Township 3 South, Range 8 East, Mount Diablo Base and Meridian, more particularly described as follows:

Beginning at the southeast corner of said northeast quarter of section 2; thence South 89°38'01" West along the south line of said northeast quarter of section 2, a distance of 25 feet to the west line of Dale Road and the True Point of Beginning; thence continuing South 89°38'01" West along said south line of said section 2 a distance of 1283.02 feet to the west line of Lot 30 as shown on the Map of Eden Colony filed in Volume 4 of Maps, Page 32, Stanislaus County Records; thence North 00°09'38" West along said west line, a distance of 1323.13 feet to the northwest corner of said Lot 30; thence continuing North 00°09'38" West along the west line of Lot 17 of said Eden Colony, a distance of 365.63 feet to the westerly prolongation of the north line of Parcel 2 as described in the deed to Ronald J. Malik recorded July 30, 1991, as Instrument Number 57416, Stanislaus County Records; thence North 89°38'01" East along said westerly prolongation a distance of 272.70 feet to the northwest corner of said Parcel 2; thence continuing North 89°38'01" East along the north line of said Parcel 2, a distance of 328.22 feet to the east line of said Lot 17; thence South 00°11'22" East along said east line, a distance of 4.11 feet to the northwest corner of Parcel 3 as described in the deed to Ronald J. Malik and Edna Malik recorded April 29, 2003, as instrument Number 66261, Stanislaus County Records; thence North 89°32'03" East along said north line of Parcel 3, a distance of 682.69 feet to the west line of Dale Road, thence South 00°08'27" East along said west line, a distance of 1685.88 feet to the True Point of Beginning;

Also including all of MID Lateral No. 6, being immediately adjacent to the above described property.

SP-O to P-D(567)

All that certain real property situated in the City of Modesto, County of Stanislaus, State of California, and being a portion of the Northeast Quarter of Section 2, Township 3 South, Range 8 East, Mount Diablo Base and Meridian, more particularly described as follows:

Beginning at the southeast corner of said northeast quarter of section 2; thence South to the point of intersection of the east line of said section 2 and the easterly prolongation of the south line of MID Lateral Number 6; thence West along said prolongation of the south line of MID Lateral Number 6 to the west line of Dale Road; thence North along the west line of Dale Road to the northeast corner of Parcel 3 as described on the deed to Ronald J. Malik and Edna Malik recorded April 29, 2003, as Instrument Number 66261, Stanislaus County Records; thence East along the prolongation of said Lot 3 to the east line of said section 2; thence South along the east line of Section 2 to the point of beginning.

WHEREAS, after a public hearing held on July 19, 2004, in the Tenth Street Place Chambers located at 1010 10<sup>th</sup> Street, Modesto, California, it was found and determined by the Planning Commission, by its Resolution No. 2004-38, that rezoning of the property as requested is required by public necessity, convenience, and general welfare for the following reasons:

1. The proposed Medical Center will alleviate the existing and projected shortfall of hospital beds in Stanislaus County and enhance Modesto's emergence as a Regional Center of Health Care Excellence by creating a third hospital;
2. The proposed uses of the Medical Center are consistent with the intent of the Kiernan Business Park Specific Plan, in which the site is located, to provide opportunities for employment-intensive uses; and
3. The design and features of the proposed Medical Center help to ensure compatibility with the adjacent residential area.
4. The proposed rezone is consistent with the Modesto Urban Area General Plan, because:

- a. The proposed uses are consistent with the purpose and intent of the Business Park General Plan Land Use Designation, and the project is consistent with the General Plan's Economic Development Goal to provide opportunities for "the types of businesses that will thrive in the 21<sup>st</sup> Century." (Sec. I.D.1.);
- b. The proposal is consistent with the Overall Mission Statement of the General Plan to preserve "Modesto's "quality of life" while providing direction for the growth of business and industry to meet the needs of the future generations in the Modesto community." (Sec. I.2.a.);
- c. The proposal furthers General Plan Economic Goals which call for Modesto to "strive for a local jobs/housing balance by facilitating business growth..." and "Adequate land, strategically located to facilitate the expansion of Modesto's economic base, should be provided for the employment opportunities of Modesto residents. These opportunities should be focused on the types of businesses that will thrive in the 21<sup>st</sup> Century." (Sec. I.D.1. and Sec. II.B.1.a.(2));
- d. With the infrastructure requirements that the developer is required to build for the Medical Center as imposed by the conditions of approval, the proposal is consistent with General Plan Economic Development Goal I.D.4, which states "Community growth should be managed so that the quality of life is enhanced without imposing significant fiscal burdens on the existing community. Whenever appropriate, and to the extent provided by law, the costs of public infrastructure required to serve new development should be financed from revenue attributable to that development. There may be instances in which it would be appropriate to invest community wide resources in public infrastructure which could lead to a significant increase in jobs or other benefits to the community." and with Community Growth Policy II.B.a.b., which states "As the City expands and vacant land becomes developed, infrastructure such as roads, sewer, water and drainage is necessary to support that development. As the City directs the extension of this infrastructure, economic development opportunities should receive the highest priority for receiving such infrastructure."; and
- e. The location of the project immediately adjacent to the existing City limits and Sphere of Influence is consistent with Urban Growth Policy II.C.1.b., which states "Urban

development should be kept as contiguous as possible in order to avoid premature urbanization of valuable farm land, foster resident convenience, and provide for economy in City services.”

WHEREAS, said matter was set for a public hearing of the City Council to be held on August 10, 2004, in the Tenth Street Place Chambers located at 1010 10<sup>th</sup> Street, Modesto, California, at which date and time said duly noticed public hearing was held, and

WHEREAS, after said public hearing the Council found and determined that the application of Kaiser Foundation Hospitals for a Planned Development Zone should be granted as consonant with public necessity, convenience and general welfare for the reasons set forth in Planning Commission Resolution No. 2004-38 and quoted above, and

WHEREAS, Kaiser is proposing to construct a helistop (helicopter landing facility (“Helistop”)) as part of the proposed Medical Center, for which it will be required to obtain a permit from the California Department of Transportation Division of Aeronautics (“State Permit”), and

WHEREAS, Public Utilities Code Section 21661.5 provides that prior to submitting an application for a State Permit, the construction plan for the proposed helistop must be approved by the city council of the city in which the proposed helistop will be located, and

WHEREAS, Kaiser has submitted its proposed Helistop construction plan for review by City staff, copies of which are on file with the Community and Economic Development Department and incorporated herein by this reference, and

WHEREAS, City staff has evaluated the proposed Helistop construction plan and recommends that there will be no interference with existing flight paths, there is

sufficient clearance with existing overhead utility lines, and the Helistop is compatible with existing surrounding land uses, and

WHEREAS, City staff recommends that the City Council approve the Helistop construction plan pursuant to Public Utilities Code Section 21661.5, and

WHEREAS, the Council has introduced Ordinance No. 3356-C.S. on the 10th day of August, rezoning the above-described property from Prezone Specific Plan-Overlay Zone, to Prezone Planned Development Zone, P-D(567), and from Specific Plan-Overlay Zone to Planned Development Zone, P-D(567).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. DEVELOPMENT PLAN. The development plan for Planned Development Zone, P-D(567), is hereby approved subject to the following conditions:

1. All development for the Phase 1 medical office building and hospital support wing and the Phase 2 hospital shall conform to the plot plan and building elevations titled "Kaiser Modesto Medical Center" as amended in red, stamped approved by the City Council on August 10, 2004.
2. Prior to the issuance of a building permit for the Phase 3 hospital expansion and parking garage, site plans and building elevations for the respective buildings shall require review and approval by the Community and Economic Development Director or designee. The Community and Economic Development Director may approve Phase 3 after administrative review, provided the proposed hospital expansion and parking garage are consistent with the location, size and height restrictions as shown on the plot plan approved by the City Council on August 10, 2004, and are consistent with the Kiernan Business Park Specific Plan and with the Kaiser Modesto Medical Center Cornerstone Business Park Project Final EIR. This review shall also include approval of a parking plan to ensure adequate parking provisions during the construction period of this building phase. The developer shall use best efforts to complete the parking garage for Phase 3 prior to

issuance of a building permit for the Phase 3 hospital expansion. Supplemental environmental review may be required for Phase 3.

3. Prior to the issuance of a building permit for the Phase 4 or Phase 5 medical office buildings and parking garages, the site plans and building elevations for the respective buildings shall require review and approval by the Planning Commission after a public hearing. The Planning Commission may approve Phases 4 and 5 after plot plan review, provided the proposed Phases are consistent with the location, size and height restrictions as shown on the plot plan approved by the City Council on August 10, 2004, and consistent with the Kiernan Business Park Specific Plan and the Kaiser Modesto Medical Center Cornerstone Business Park Project Final EIR. This review shall also include approval of a parking plan to ensure adequate parking provisions during the construction period of these building phases. The developer shall use best efforts to complete the parking garages for Phase 4 and 5 prior to issuance of building permits for the respective Phase 4 or 5 medical office buildings. An Initial Study and analysis shall be required with Phases 4 and 5 to determine their conformance with the Kaiser Modesto Medical Center Cornerstone Business Park Project Final EIR, and whether supplemental environmental review is required.
4. Prior to the issuance of a building permit, a landscaping and irrigation plan for the entire site shall be approved by the Parks, Recreation and Neighborhoods Director or designee. Landscaping and the irrigation system shall be installed and maintained in accordance with the approved plan.
5. Prior to issuance of a building permit, the developer shall dedicate a 20-foot-wide right-of-way along the south edge of the project site, adjacent to MID Lateral No. 6, for a Class I bike path. Prior to occupancy of any Phase 1 building, the developer shall design and construct passive landscaping and irrigation, as approved by the Parks, Recreation and Neighborhoods Director. At such time as required by the Public Works Director or designee, the developer shall install the Class I bike path, including all required landscaping and irrigation as approved by the Parks, Recreation and Neighborhoods Director.
6. Prior to issuance of a building permit for the Phase 1 medical office building or hospital support wing, the developer shall dedicate sufficient right-of-way along the east edge of the property for a Class I bike path. Prior to occupancy of any Phase 1 building, the developer shall design and construct a Class I bike path on Dale Road within said right-of-way as approved by the City Engineer or designee and the Parks, Recreation and Neighborhoods Director or designee.

7. Fences or walls shall be constructed as follows:
  - a. A two-foot-high decorative masonry wall with a four-foot-high decorative wrought iron fence on top along the south side of the Class I bike path between the Class I bike path and M.I.D. Lateral No. 6, to be constructed prior to occupancy of the first building on the project site.
  - b. A five-foot-high decorative wrought iron fence on the north side of the Class I bike path on the property line between the Class I bike path and the project site, to be constructed in conjunction with construction of the Class I bike trail, at such time as required by the Public Works Director or designee.
8. All landscaping, fences, and walls shall be maintained and the premises shall be kept free of weeds, trash, and other debris. All public area landscaping installed in conjunction with required improvements on Dale Road, Technology/Healthcare Way and the Class I bike path right-of-way along the south edge of the project site shall be maintained by the developer until such time as a Community Facilities District is formed to maintain said landscaping and is financially able to assume maintenance responsibilities.
9. Prior to issuance of a building permit, improvement plans for all required improvements shall be prepared by a Registered Civil Engineer and approved by the City Engineer or designee. Improvements shall be constructed in accordance with the approved plans.
10. Prior to issuance of a building permit, the developer shall dedicate all public utility easements for the project as required by the utility companies and the City Engineer or designee.
11. Existing underground and overhead electric facilities and existing irrigation lines within the subdivision shall be removed, protected, or relocated as required by the Modesto Irrigation District and the City Engineer or designee. Appropriate easements for electric facilities and irrigation lines to remain shall be dedicated as necessary.
12. All outdoor lighting shall be shielded from adjacent residential properties as required by the City Engineer or designee.
13. Trash bins shall be kept in enclosures in accordance with the approved plan and in accordance with plans approved by the Public Works Director or designee. Enclosures shall be architecturally compatible with and constructed of building

materials consistent with those used in the major buildings as approved by the Community and Economic Development Department Director or designee.

14. The developer shall, in a manner approved by the City Attorney, provide a vehicular accessway for on-site traffic circulation for the benefit of the property to the west, Assessor's Parcel Number 078-013-009, substantially as shown in red on the plot plan.
15. Prior to occupancy of the first structure, the developer shall dedicate to the City a minimum 100-foot by 100-foot site for a municipal well, and shall construct and dedicate a well for domestic water, including connection to the City of Modesto water system, appropriate wellhead treatment, site development including appropriate screening and security, and adequate access to allow for maintenance of the well, all as approved by the City Engineer or designee. The well shall require final approval by the City Engineer or designee and be operable prior to occupancy of the first structure.
16. Prior to occupancy of the Phase 2 hospital, the developer shall design, engineer and construct an appropriately sized on-site grinder pump and appurtenances to minimize the amount of large objects discharged into the City's sewer collection and treatment system and shall enter into a written agreement with City regarding the developer's obligation to maintain and repair the grinder. Said grinder shall be designed and installed as directed by the City Engineer or designee.
17. The developer shall install a 30-inch-diameter sewer line in Dale Road to the point of the Medical Center connection to the line, and a 27-inch-diameter sewer line in Dale Road north of the Medical Center connection and in Technology/ Healthcare Way, in accordance with plans submitted for review and approval by the City Engineer or designee. Prior to installation of the sewer lines, the developer shall enter into a reimbursement agreement in a form approved by the City Attorney if reimbursement for oversizing of sewer lines is desired by the developer.
18. All required fire hydrants shall be installed and maintained in accordance with City of Modesto Standard Specifications prior to the delivery of combustible building materials to the site or the start of construction.
19. All fire apparatus access roads shall be installed and maintained in accordance with City of Modesto Standard Specifications prior to the start of construction, as required by the Fire Marshal or designee.

20. Ten-foot-wide public utility easements, and planting easements located within the ten-foot-wide public utility easements, shall be dedicated along all street frontages as required by the City Engineer or designee.
21. No operations conducted on the premises shall cause an unreasonable amount of noise, odor, dust, mud, smoke, vibration, or electrical interference detectable off the premises. All machinery or equipment shall be soundproofed as required by the Chief Building Official or designee.
22. Signs shall be permitted as follows:
  - a. The following signs as shown on the “Kaiser Permanente Modesto Medical Center Site Signage Master Plan” dated March 2, 2004:
    - i. A 24-square-foot, 4-foot-high monument sign at the eastern entrance on Technology/Healthcare Way,
    - ii. A 72-square-foot, 6-foot-high monument sign at the intersection of Dale Road and Technology/Healthcare Way,
    - iii. A 78-square-foot, 13-foot-high monument sign at the main entrance on Dale Road,
    - iv. Seven 20-square-foot, 9-foot-high interior directional signs located on interior driveways as shown in the “Kaiser Permanente Modesto Medical Center Site Signage Masterplan” dated March 2, 2004,
    - v. Nineteen 9-square-foot, 6-foot-high internal directional signs located on interior driveways as shown in the “Kaiser Permanente Modesto Medical Center Site Signage Masterplan” dated March 2, 2004,
    - vi. A 150-square-foot wall sign, to be located initially on the east elevation of the hospital support wing building, and to be relocated to the east elevation of the hospital when constructed. This sign shall be located below the main building ridgeline on both buildings.
  - b. All other signs in the Medical Center shall comply with the sign requirements of the P-O Zone.

23. Prior to obtaining an occupancy permit from the City for the Phase 1 and 2 buildings, Kaiser may provide services to members at the project site in modular buildings that will be brought on to the project site. Placement and installation of modular buildings shall be consistent with and conform to all building and land use requirements contained in the Kiernan Business Park Specific Plan, and subject to administrative site plan approval, including without limitation, approval of all elevations, setbacks, parking and screen landscaping, by the Community and Economic Development Director or designee. Prior to moving or installing any modular buildings on the project site, the developer shall submit to the Community and Economic Development Director a proposed site plan and building elevations and such other information and documentation as the Director may reasonably require, for review and approval. All such modular buildings will be removed from the project site prior to issuance of a Certificate of Occupancy for the hospital support wing, or by December 31, 2007, whichever is earlier.
24. The Capital Facilities Fees for all buildings except the hospital shall be payable at the time of the issuance of a building permit for any construction in the medical center and shall be based on the rates in effect at time of issuance of the building permit or upon annexation of the site to the City of Modesto, whichever occurs later. For the hospital buildings, the Capital Facilities Fees shall be payable prior to issuance of a building permit by OSHPD or concurrent with recordation of the Certificate of Completion for the annexation, whichever occurs later, and shall be based on the rate in effect for hospitals at the time that the completed building permit application is accepted by OSHPD or upon annexation of the site to the City of Modesto, whichever occurs later.
25. The property owner and developer shall, at their sole expense, defend, indemnify and hold harmless the City of Modesto, its agents, officers, directors and employees, from and against all claims, actions, damages, losses, or expenses of every type and description, including but not limited to payment of attorneys' fees and costs, by reason of, or arising out of, this development approval. The obligation to defend, indemnify and hold harmless shall include but is not limited to any action to arbitrate, attack, review, set aside, void or annul this development approval on any grounds whatsoever. The City of Modesto shall promptly notify the developer of any such claim, action, or proceeding and shall cooperate fully in the defense.
26. Prior to issuance of a building permit, developer shall take all actions reasonably necessary to secure and establish a City Mello-Roos Community Facilities District ("CFD") for the purpose of funding ongoing maintenance of public landscaping and irrigation,

bike trails, storm drain facilities and other public facilities set forth in the Kiernan Business Park Specific Plan to be maintained by said CFD or, if said CFD has been established for the Kiernan Business Park Specific Plan, developer shall take all actions reasonably necessary to annex its development to said CFD, which shall actually result in annexation of its development to said CFD at the tax rate for the zone of said CFD to which the development is ultimately annexed; or alternatively, in the event complete annexation does not occur for any reason, developer may provide a funding mechanism for said ongoing maintenance to the same general standard as other similar ongoing maintenance financed by said CFD, subject to approval of the funding mechanism by the City, such approval not to be unreasonably withheld.

The following conditions are either mitigation measures from the Environmental Impact Report (EIR) for the Kaiser Modesto Medical Center and Cornerstone Business Park Project (SCH No. 2003072085), or improvements assumed by the EIR to have been constructed by the project:

27. Prior to occupancy of any structure, the following street dedication consistent with Standard Specifications and the Kaiser Modesto Medical Center EIR shall be made, and the following street improvements consistent with Standard Specifications and the Kaiser Modesto Medical Center EIR shall be constructed, as approved by the City Engineer or designee:
  - a. Dale Road and Technology Drive/Health Care Way
    - i. Signalize intersection.
    - ii. Addition of a first and second northbound left- turn lane and provide 300 feet of storage for each lane. (Reference p. IV.D.40 of the EIR)
    - iii. Addition of a second northbound through lane. (Reference p. IV.D.40 of the EIR)
    - iv. Addition of a first and second eastbound left-turn lane.
    - v. Addition of an eastbound right-turn lane.
    - vi. Addition of a second southbound through lane.
    - vii. Addition of a southbound right-turn lane and revise signal phasing to provide overlap phase. (Reference p. IV.D.68 of the EIR)
  - b. Dale Road and Kaiser Medical Center Entrance
    - i. Signalize intersection.
    - ii. Addition of a first and second northbound left- turn lane and provide storage length of 340 feet for each lane. (Reference p. IV.D.40 of the EIR)
    - iii. Addition of a second northbound through lane.

- iv. Create free eastbound right turn movement from the Kaiser Medical Center Entrance onto Dale Road southbound. (Reference p. IV.D.68 of the EIR)
  - v. Addition of a second southbound through lane.
  - vi. Addition of a southbound right-turn lane.
- c. Dale Road and Bangs Avenue
- i. Signalized intersection.
  - ii. Addition of a second northbound turn lane.
  - iv. Addition of one or two eastbound right-turn lanes (depending on signal phasing).
  - v. Addition of a second eastbound receiving lane on Bangs Avenue. (Reference p. IV.D.69 of the EIR)
  - vi. Addition of a first and second southbound left-turn lanes.
  - vii. Addition of a second southbound through lane.
  - viii. Addition of a southbound shared through/right turn lane.
  - ix. Restrict the Kaiser driveway (west) leg of the intersection, to right-turn-in and right turn-out access. (Reference p. IV.D.68 of the EIR)
- d. Dale Road and Pelandale Avenue (North, South and West Approaches)
- i. Addition of a second eastbound left-turn lane. (Reference p. IV.D.42 of the EIR)
  - ii. Addition of a third eastbound through lane at the approach and departure legs of the intersection. (Reference p. IV.D.41 of the EIR)
  - iii. Addition of a second southbound left-turn lane, providing 300 feet of storage.
  - iv. Addition of a southbound right-turn lane.
  - v. Addition of a third southbound through lane at the approach and departure legs of the intersection. (Reference p. IV.D.41 of the EIR)
  - vi. Addition of a second westbound left-turn lane. (Reference p. IV.D.70 of the EIR)
  - vii. Addition of a third westbound through lane. (Reference p. IV.D.70 of the EIR)
- e. Pelandale Avenue Between Chapman Road and Dale Road
- i. Addition of a third eastbound through lane. (Reference p. IV.D.46 of the EIR)
  - ii. Addition of a second and third westbound through lanes. (Reference p. IV.D.46 of the EIR)
- f. Dale Road Between Kiernan Avenue and Technology Drive/Health Care Way

- i. Addition of a second northbound through lane.  
(Reference p. IV.D.48 of the EIR)
  - ii. Addition of a second southbound through lane.
  - iii. Addition of Class II bike lanes on both sides of Dale Road.
  
- g. Dale Road Between Technology Drive/Health Care Way and Kaiser Medical Center Entrance
  - i. Addition of a second northbound through lane.  
(Reference p. IV.D.48 of the EIR)
  - ii. Addition of a second southbound through lane.
  - iii. Addition of Class II bike lanes on the east side of Dale Road, and a combined Class I bike trail and sidewalk on the west side of Dale Road, as approved by the Parks, Recreation and Neighborhoods Director.
  
- h. Dale Road Between the Kaiser Medical Center Entrance and Bangs Avenue
  - i. Addition of a second northbound through lane.
  - ii. Addition of a second and a third southbound through lane. (Reference p. IV.D.48 of the EIR)
  - iii. Addition of Class II bike lanes on the east side of Dale Road, and a combined Class I bike trail and sidewalk on the west side of Dale Road, as approved by the Parks, Recreation and Neighborhoods Director.
  - iv. A bus turnout of sufficient length to accommodate two City buses, as approved by the Transit Manager.
  
- i. Dale Road Between Bangs Avenue and Fleur de Lis Drive
  - i. Addition of a second northbound through lane.
  - ii. Addition of a third southbound through lane.  
(Reference pp. IV.D.48-IV.D.49 of the EIR)
  
- j. Dale Road Between Fleur de Lis Drive and Pelandale Avenue
  - i. Addition of a second northbound through lane.
  - ii. Addition of a third southbound through lane.  
(Reference p. IV.D.49 of the EIR)
  
- k. Dale Road Between Snyder Avenue and Standiford Avenue
  - i. Addition of a third southbound through lane, from Braden Avenue to Standiford Avenue. (Reference p. IV.D.49 of the EIR)
  
- l. Technology Drive/Health Care Way Between Dale Road and the Westerly Property Line of the Kaiser Facility

- i. Addition of a first and second eastbound through lane.
  - ii. Addition of a first and a second westbound through lane.
  
- 28. Prior to occupancy of the Phase 2 hospital, the following street dedication consistent with Standard Specifications and the Kaiser Modesto Medical Center EIR shall be made, and the following street improvements consistent with Standard Specifications and the Kaiser Modesto Medical Center EIR shall be constructed, as approved by the City Engineer or designee:
  - a. Dale Road and Kiernan Avenue
    - i. Signalize intersection.
    - ii. Addition of a second northbound left-turn lane, providing 300 feet of storage for each lane. (Reference p. IV.D.39 of the EIR)
    - iii. Addition of a northbound right-turn lane. (Reference p. IV.D.67 of the EIR)
    - iv. Addition of a third eastbound through lane. (Reference p. IV.D.67 of the EIR)
    - v. Addition of an eastbound right-turn lane and restripe shared through/right lane to through lane. (Reference p. IV.D.39 of the EIR)
    - vi. Addition of a second westbound left-turn lane. (Reference p. IV.D.39 of the EIR)
  
  - b. Dale Road and Standiford Avenue
    - i. Convert the existing westbound right-turn lane into a third westbound through lane and create a new westbound free right-turn lane. (Reference p. IV.D.43 of the EIR)
  
- 29. Prior to occupancy of the Phase 3 expansion of the hospital, the following street dedication consistent with Standard Specifications and the Kaiser Modesto Medical Center EIR shall be made, and the following street improvements consistent with Standard Specifications and the Kaiser Modesto Medical Center EIR shall be constructed, as approved by the City Engineer or designee:
  - a. Bangs Avenue and American Avenue
    - i. Signalize intersection, or construct a roundabout, as determined by the City Engineer. (Reference p. IV.D.69 of the EIR)
  
- 30. Prior to issuance of a building permit for the Phase 1 medical office building or hospital support wing, the developer shall supply documentation, in a form acceptable to the Community and

Economic Development Director or designee, that the project sponsor has contributed to the California Farm-land Conservancy Fund for the purposes of funding authorized farmland conservation projects in Stanislaus County under the California Farmland Conservancy Program, pursuant to Public Resources Code Section 10230, or to a bona fide alternative program for funding farmland preservation projects in Stanislaus County. The amount of such contribution shall allow the conservation of one acre of farmland in Stanislaus County for each acre of farmland covered by the building permit sought under the proposed project.

The amount of such contribution shall, at minimum, reflect the then-current value of an agricultural easement on comparable prime agricultural land of equal size to the acreage of the parcel for which a permit is sought, and a 10% increment for program administration under the Farmland Conservancy Program, or an equivalent program for funding farmland preservation projects in Stanislaus County.

The valuation of such easement shall be determined by the City in consultation with the California Department of Conservation. Where current information on such valuation is not available, the City may require that applicants for building permits furnish an appraisal of the valuation of an agricultural easement on comparable agricultural land in the project vicinity to inform the City's determination as to valuation.

31. Prior to issuance of a building permit for the Phase 1 medical office building or hospital support wing, the developer shall submit a plan for review and approval by the Community and Economic Development Director or designee to implement the following measures, in accordance with the provisions contained in the attached "Kaiser Modesto Medical Center/ Cornerstone Business Park Mitigation Monitoring and Reporting Program", said approval to also be subject to review and approval by the San Joaquin Valley Air Pollution Control District, if required by District regulations:
  - The project developer shall designate a construction liaison to be responsible for all monitoring and reporting to the appropriate City Departments and relevant agencies on all construction-related mitigation measures.
  - The project developer shall submit a compliance plan consistent with Regulation VIII of the San Joaquin Valley Air Pollution Control District to the City of Modesto prior to commencing any phase of construction. The compliance plan must demonstrate that the current requirements of Regulation

VIII applicable at the time of construction will be implemented.

- Prior to the issuance of construction contracts, the project developer shall perform a review of new technology, as it relates to heavy-duty equipment, to determine what if any advances in emissions reduction are available for use. It is anticipated that in the near future both NO<sub>x</sub>, PM<sub>2.5</sub>, and PM<sub>10</sub> control equipment will be available. The San Joaquin Valley Air Pollution Control District should be consulted during this process.
- The project developer shall install sandbags or other control measures to prevent silt runoff to public roadways from sites with a slope greater than one percent (1%).
- The project developer shall install wheel washers for all exiting trucks, or wash off all trucks and equipment leaving the site, to prevent track-out of soil to public roadways.
- The project developer shall install wind breaks at windward sides of construction areas, if necessary to prevent wind-blown dust.
- The project developer shall suspend excavation and grading activity when winds exceed 20 miles per hour.
- The project developer shall limit the area subject to excavation, grading, and other construction activity at any one time.
- The project developer shall ensure that the accumulation of mud or dirt is expeditiously removed from adjacent public streets at least once every 24 hours when construction activities are occurring (the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions).
- The project developer shall use alternative-fuel construction equipment, where feasible.
- The project developer shall minimize idling time (e.g., to a 10-minute maximum).
- The project developer shall limit the hours of operation of heavy-duty equipment and/or the amount of equipment in use to the minimum practical.

- The project developer shall replace fossil-fueled equipment with electrically driven equivalents (provided they are not run via a portable generator set), where feasible.
- The project developer shall take steps to curtail construction activity during periods of high ambient pollutant concentrations; this may include reducing construction activity during the peak hour of vehicular traffic on adjacent roadways or ceasing construction activity during days declared as Spare the Air days by the San Joaquin Valley Air Pollution Control District.
- Outside construction activities shall be restricted to the hours between 7:00 a.m. and 9:00 p.m., Monday through Friday, and between 9:00 a.m. and 9:00 p.m., Saturday and Sunday and State or Federal holidays; minor construction equipment servicing and maintenance shall be excepted from this restriction, as shall inside construction, provided said construction does not result in any outside construction noise.
- Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations.
- Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields.
- Stationary noise sources and staging areas shall be located as far as possible from existing residences and occupied hospital facilities (preferably at least 200 feet), or contractors shall be required to provide additional noise-reducing engine enclosures (with the goal of achieving approximately 10 dBA of reduction compared to uncontrolled engines).
- Construction vehicle access routes shall be designed to minimize the impact on existing residences and occupied hospital facilities.
- A "construction liaison" shall be designated to ensure coordination between construction staff, neighbors, hospital staff, medical office building tenants, and business park tenants to minimize disruptions due to construction noise. Hospital and medical office staffs shall be made aware of the construction schedule and activities. Occupants and property owners of residences within 400 feet of construction activity

shall be notified in writing of the construction schedule and the contact information for the construction liaison.

32. The site design submitted for a building permit for any structure shall include the following requirements in accordance with the provisions contained in the attached "Kaiser Modesto Medical Center/Cornerstone Business Park Mitigation Monitoring and Reporting Program":
- The project developer shall incorporate improvements for transit service, including bus turnouts, transit loading areas, and shelters, as approved by the Public Works Director or designee.
  - The project developer shall incorporate sidewalks and bicycle paths throughout the site and connect those facilities to any nearby pedestrian and bicycle facilities, including those located at open space areas, parks, schools, or commercial areas.
  - The project developer shall incorporate secure bicycle storage and parking facilities throughout the site.
  - The project developer shall incorporate energy efficient building design features including automated control systems for heating and air conditioning and energy efficiency beyond the requirements of the Building Code (Title 24, California Code of Regulations, or for the hospital, those established by the Office of Statewide Health Planning and Development), increased wall and ceiling insulation beyond Building Code requirements, light-colored roof materials to reflect heat, and energy efficient lighting and lighting controls.
  - The project developer shall incorporate approved deciduous trees to provide shade on the south- and west-facing sides of buildings.
33. Prior to occupancy of any structure, the project developer shall prepare a trip- reduction plan consistent with the provisions contained in the attached "Kaiser Modesto Medical Center/Cornerstone Business Park Mitigation Monitoring and Reporting Program". The plan shall be submitted for review and approval by the Community and Economic Development Director or designee prior to occupation of each phase of the proposed project:

- Provision of matching services (for participants in carpools and vanpools) by employers with over 100 weekday employees or coordination with Caltrans' "Commuter Computer" program;
  - Employer-based dissemination of commute information;
  - Employer subsidies for transit passes and incorporation of transit stop facilities into site design;
  - A program to guarantee rideshare participants a ride home in case of emergency;
  - Flex-time scheduling;
  - Site plan design which encourages pedestrian movement between adjacent land uses;
  - A minimum of 4% of parking spaces designated for preferred parking for carpools and hybrid and alternative fuel vehicles; and
  - Encouraging employees to experiment with telecommuting options, where feasible.
  - The Trip Reduction Plan will include procedures that the project developer shall utilize to monitor and document to the Community and Economic Development Director or designee compliance with the Plan.
34. The building design of the proposed hospital facilities and medical office buildings shall incorporate appropriate acoustical treatment features (increased insulation, fixed windows, mechanical ventilation) to ensure that interior noise levels do not exceed 45 dBA  $L_{dn}$  for hospital facilities under future noise conditions.
35. Prior to issuance of a building permit for the Phase I medical office building or hospital support wing, the developer shall submit for review and approval by the City Engineer or designee a plan and supporting calculations to provide on-site treatment of stormwater to accomplish the following requirements. Storm drain improvements shall be constructed in accordance with the approved plans, and shall be maintained by the medical center owner.
- a. The pervious pavement/infiltration trench system for the Kaiser Modesto Medical Center Campus shall be designed in conformance with the City of Modesto *Guidance Manual for New Development Stormwater Quality Control*

*Measures* (“Design Criteria for Infiltration Treatment Control Measures and Porous Paving Blocks”). If necessary, the design should provide for a redundant collection system (e.g., system of perimeter catch basins piped into a retention facility or infiltration trenches) for runoff in the event that the pervious pavement expected infiltration rate does not allow collection of all design storm runoff. The designs shall be based on appropriate testing of the infiltration rates of soils at the site of the retention facilities and the City’s Storm Drainage Design Standards. Final design of the facilities shall be submitted to the Modesto Public Works Department for review and approval prior to issuance of a building permit for the Phase 1 medical office building and hospital support wing.

- b. The owner/operator of the developed site shall develop and implement a Stormwater Management Plan (SMP) that incorporates the requirements of the Statewide General Permit for Storm Water Discharges Associated with Construction Activity. The SMP shall include provisions to control the discharge of sediment onto pervious pavement, into infiltration trenches, and percolation basins during and after construction. The owner/operator shall also include a post-construction Maintenance Plan that describes the operation plan activities and schedule, the equipment and resource requirements necessary to operate and maintain the facilities, and identification of the responsible party for operation and maintenance. In addition, the SMP would require that the owner/operator shall enter into a Stormwater Access & Maintenance Agreement with Modesto. At a minimum, the SMP shall provide for:
  - A regular and thorough street sweeping program;
  - A detailed hazardous materials storage program;
  - A hazardous materials spill prevention and response plan;
  - A pavement inspection and repair program.
- c. All infiltration features shall be constructed to maximize the distance between the base of the infiltration feature and the groundwater table and in no case shall the bottom of the feature be less than ten feet above the groundwater table.
- d. All infiltration features shall be located the minimum distance specified by the State Department of Health Services from any potable water well.

- e. The project developer shall describe in detail in the Stormwater Management Plan and implement, at a minimum, the following BMPs to minimize pollutant loading at the site:
- All refuse disposal areas and loading bays (and any other similar types of outdoor uses that could impact water quality runoff) shall be either completely contained within enclosed weatherproof structures or designed to capture all runoff, wash water, leaks and spills. For facilities not in enclosures, impermeable berms, drop inlets, trench catch basins, and/or overflow containment structures around these areas shall be used to prevent spilled materials and wash-down waters from entering the storm drain system. The drains shall be connected to a sump(s) for collection and disposal. Direct connection of these areas to the storm drain system is prohibited.
  - All chemicals and other materials that could contribute pollutants to runoff shall be properly stored and protected from contact with rainfall.
  - Any outdoor chemical spills shall be promptly mitigated in accordance with the site's Spill Prevention Plan.
  - Any pesticides and/or fertilizers applied to landscaping shall be done so in compliance with a site specific Integrated Pest Management Plan (IPM). The project proponents shall develop and implement IPMs for all landscaped areas. The IPM shall be prepared by a qualified professional approved by the Public Works Director or designee. The IPM shall address and recommend methods of pest prevention and plant management that use pesticides as a last resort in pest control. Types and rates of fertilizer and pesticide application shall be specified. Special attention in the IPM shall be directed toward avoiding persistent pesticides that could leach to the shallow groundwater table. Pesticides shall be used only in response to a persistent pest problem. Preventative chemical use shall not be employed. Institutional and biological approaches to pest control shall be more fully integrated into the IPM with an emphasis toward reducing pesticide application.

36. Prior to issuance of a building permit for the Phase 1 medical office building or hospital support wing, the developer shall submit for review and approval by the City Engineer or designee a plan

and supporting calculations to provide treatment of off-site stormwater on Dale Road and Technology/Healthcare Way to accomplish the following requirements. Storm drain improvements shall be constructed in accordance with the approved plans, and shall be maintained by the medical center owner.

- a. Inasmuch as the infiltration bed system is being proposed as an alternative to a positive storm drain system, the system shall be designed to perform to the criteria required in the City of Modesto Standard Specifications for a positive storm drain system. The infiltration bed system shall be designed to the criteria for Percolation (Infiltration) Basins.
- b. The design shall be based on appropriate testing of the infiltration rates of soils at the site of the retention facilities and the City's Storm Drainage Design Standards. The system shall be designed to include Stormwater Quality Control Measures to prevent, to the maximum extent possible, pollutants from entering the infiltration beds. Final design of the facilities shall be submitted to the Public Works Director or designee for review and approval prior to issuance of a building permit for the Phase 1 medical office building and hospital support wing.
- c. All infiltration features shall be constructed to maximize the distance between the base of the infiltration feature and the groundwater table and in no case shall the bottom of the feature be less than ten feet above the groundwater table.
- d. Prior to occupancy of the Phase 1 medical office building or hospital support wing, the developer shall enter into an agreement with the City of Modesto to assume all maintenance and liability, either directly or indirectly, associated with the permanent storage and treatment of stormwater from the adjacent frontages on the west side of Dale Road and the south side of Technology/Healthcare Way, the temporary storage and treatment of stormwater in facilities constructed by the developer on the non-adjacent frontages of Dale Road and Technology/Healthcare Way. The agreement shall also include a provision that in the event the infiltration bed system fails or is deemed unacceptable by any regulatory entity having jurisdiction over stormwater, the developer shall at its sole expense install a positive storm drain system in accordance with City standards. Failure of the system is defined as failure to meet the design criteria in the Standard Specifications at any time.

- e. As a temporary measure until development occurs on the east side of Dale Road, a temporary storm drain solution may be implemented in accordance with the plans submitted for review and approval by the City Engineer or his designee. Infiltration trenches with appropriate Stormwater Quality Control Measures are allowable. Rockwells are not allowed in this area.
  - f. The developer shall not construct anything that prevents the future installation of the storm drain trunk line in Dale Road needed for future development in the Kiernan Business Park.
37. Prior to approval of a grading plan for development of the Medical Center, a well survey shall be conducted to determine the location and characteristics of all existing wells. The survey shall be conducted and documented by a State-registered geologist or engineer, and the results submitted to the City Engineer or designee for review.

The water supply wells shall either be:

- a. Properly abandoned in compliance with the California Department of Water Resources, California Well Standards and Stanislaus County Code, Chapter 9.36 prior to final approval of the grading plan, or
  - b. Inspected by a qualified professional to determine whether each well is properly sealed at the surface to prevent infiltration of water-borne contaminants into the well casing or surrounding gravel pack. The well seal shall be consistent with the California Well Standards. If any of the wells are found not to comply with this requirement, the developer shall retain a qualified well driller to install the required seal. Documentation of the inspections and seal installations, if any, shall be provided to the City Engineer or designee prior to final approval of the grading plan.
38. Use of the helistop shall be limited to four trips (each trip to include a takeoff and landing) during any continuous 30-day period, unless the Medical Center owner submits future studies for review and approval by the Airport Manager or designee, demonstrating that additional helicopter trips will not cause unreasonable noise and disturbance to nearby residential areas in excess of the impacts identified in the Kaiser Modesto Medical Center EIR.

39. In addition to the above mitigation measures, the developer shall complete all required mitigation measures for Phases A, B and C presented in the attached “Kaiser Modesto Medical Center/Cornerstone Business Park Mitigation Monitoring and Reporting Program”, in the manner and schedule prescribed by the Mitigation Monitoring and Reporting Program.

SECTION 2. DEVELOPMENT SCHEDULE. The following development schedule is hereby approved for said Planned Development Zone, P-D(567):

The construction program be accomplished in phases as follows:

Phase 1: Construction to start on or before August 10, 2006, and be completed by not later than August 10, 2008.

Phase 2: Construction to start on or before August 10, 2007, and be completed by not later than August 10, 2009.

Phase 3: Construction to start on or before August 10, 2014, and be completed by not later than August 10, 2016.

Phases 4 and 5: Requires approval by the Planning Commission prior to the start of construction.

SECTION 3. CHANGES IN DEVELOPMENT PLAN. Any changes in the above approved development plan shall be made in accordance with the provisions of Section 10-2.1709 of the Modesto Municipal Code.

SECTION 4. APPROVAL OF HELISTOP CONSTRUCTION PLAN. Pursuant to Public Utilities Code Section 21661.5, the proposed construction plan for a Helistop in the approximate location shown on the proposed site plan for the Kaiser Medical Center is hereby approved.

SECTION 5. COMPLIANCE WITH CODE PROVISIONS, ETC. In all other respects said planned development shall be accomplished in accordance with and in

strict adherence to the provisions of Article 17 of Title 10 of the Modesto Municipal Code relating to Planned Development Zones and other applicable City laws, rules, regulations and procedures.

SECTION 6. EFFECTIVE DATE. This resolution shall not become effective unless and until the ordinance reclassifying the above-described property to Planned Development Zone, P-D(567), becomes effective.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of August, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-426**

**RESOLUTION APPROVING THE FILING OF A SPHERE OF INFLUENCE PLAN, MASTER SERVICES ELEMENT, AND MUNICIPAL SERVICE REVIEW TO THE STANISLAUS LOCAL AGENCY FORMATION COMMISSION IN CONJUNCTION WITH THE APPLICATION TO AMEND MODESTO'S SPHERE OF INFLUENCE AND ANNEX APPROXIMATELY 88 ACRES OF PROPERTY LOCATED ON THE WEST SIDE OF DALE ROAD SOUTH OF KIERNAN AVENUE TO THE CITY OF MODESTO**

WHEREAS, the City has received a written request from Kaiser Foundation Hospitals to initiate an amendment to Modesto's adopted sphere of influence and annex the Property to the City of Modesto under the Cortese-Knox-Hertzberg Local Reorganization Act of 2000, California Government Code Section 56000, et seq, and

WHEREAS, California Government Code Section 56430 requires the Local Agency Formation Commission (LAFCO) to conduct a service review before, or in conjunction with, but no later than the time it is considering an action to update a sphere of influence, and

WHEREAS, on December 5, 2001, Stanislaus LAFCO adopted Policies and Procedures that specify informational standards for local agency's Sphere of Influence and require each agency to prepare a Sphere of Influence Plan and Master Services Element ("MSE") which contains specific information relative to the need, capacity, and anticipated timing of the required services, and

WHEREAS, Stanislaus LAFCO requires that an application to amend the sphere of influence be accompanied by a Municipal Service Review ("MSR") prepared pursuant to Section 56430, and a Sphere of Influence Plan and Master Services Element ("MSE") prepared pursuant to Stanislaus LAFCO requirements, and

WHEREAS, a Sphere of Influence Plan, Master Services Element, and Municipal Service Review have been prepared by Economic & Planning Systems in accordance with California Government Code 56430 and Stanislaus LAFCO requirements, and

WHEREAS, the City Council has received and considered the Final Environmental Impact Report for the Kaiser Modesto Medical Center/Cornerstone Business Park Project (SCH No. 2003072085) that analyzed the potential environmental effects of the proposed Sphere of Influence amendment and annexation and has, by separate resolution, certified said Final Environmental Impact Report.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the City of Modesto Sphere of Influence Plan, Master Services Element, and Municipal Services Review, a copy of which is on file in the City Clerk's office.

BE IT FURTHER RESOLVED by the Council that the Community and Economic Development Director is hereby authorized and directed to submit said City of Modesto Sphere of Influence Plan, Master Services Element, and Municipal Services Review to the Stanislaus Local Agency Formation Commission in conjunction with the application to amend Modesto's Sphere of Influence for the Kaiser Medical Center and Cornerstone Business Park project.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of August, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-427**

**RESOLUTION OF APPLICATION TO THE STANISLAUS LOCAL AGENCY  
FORMATION COMMISSION TO AMEND MODESTO'S SPHERE OF  
INFLUENCE AND ANNEX APPROXIMATELY 88 ACRES OF PROPERTY  
LOCATED ON THE WEST SIDE OF DALE ROAD SOUTH OF KIERNAN  
AVENUE TO THE CITY OF MODESTO AND THE MODESTO SEWER  
DISTRICT NO. 1 AND TO DETACH SAID PROPERTY FROM THE SALIDA  
FIRE PROTECTION DISTRICT (OWNER INITIATED – UNINHABITED)**

WHEREAS, Kaiser Foundation Hospitals, Ron and Edna Malik, Leaping Lizards Land Development LLC, and Ernest George, Jr. (collectively "Owners") are the owners of five parcels totaling approximately 88 acres of real property, located on the west side of Dale Road south of Kiernan Avenue ("Property"), and propose that the Property be developed as the Kaiser Modesto Medical Center/Cornerstone Business Park ("Project"), and

WHEREAS, the City has received a written request from Owners to initiate an amendment to Modesto's adopted sphere of influence and annex the Property to the City of Modesto under the Cortese-Knox-Hertzberg Local Reorganization Act of 2000, California Government Code Section 56000, et seq, and

WHEREAS, Government Code section 56428 authorizes any person or local agency to file a written request with the Executive Officer of its Local Agency Formation Commission ("LAFCO") to amend a sphere of influence, and

WHEREAS, Government Code Section 56650 provides that proceedings to initiate a change of organization to annex additional territory to a City may be initiated by Resolution of Application or Petition, and

WHEREAS, the request to amend the City of Modesto's sphere of influence and the Resolution of Application are proposed pursuant to California Government Code Sections 56428, 56650, 56654 and 56700, and

WHEREAS, the Property proposed to be annexed is uninhabited, and a description of the boundaries of the subject Property is set forth in Exhibits "A" and "B," and the proposed sphere of influence amendment boundary is set forth in Exhibit "C", attached hereto and by this reference incorporated herein, and

WHEREAS, the subject Property proposed to be annexed is within Stanislaus County, is contiguous to the existing sphere of influence and City limits and can be most efficiently served by City services, and

WHEREAS, Stanislaus LAFCO requires that an application to amend City's sphere of influence be accompanied by a Municipal Service Review ("MSR") prepared pursuant to Section 56430 and a Master Services Element ("MSE") prepared pursuant to Stanislaus LAFCO requirements, and

WHEREAS, City has prepared an MSR and MSE and, concurrent with this Resolution of Application, has authorized staff to submit the MSR/MSE to the Stanislaus LAFCO with City's application to amend the Sphere of Influence, and

WHEREAS, before an annexation application may be heard by LAFCO, there must be an agreement with the County providing for the sharing of property taxes following an annexation, and

WHEREAS, an agreement for the sharing of property taxes for the Property was approved by the Stanislaus County Board of Supervisors and the Modesto City Council on July 13, 2004, and

WHEREAS, Government Code Section 56425(a) requires that at least thirty (30) days prior to submitting an application to LAFCO to update an existing sphere of influence for a city, representatives from the city shall meet with county representatives to discuss the proposed sphere and its boundaries, and to explore methods to reach agreement on the boundaries, development standards and zoning requirements within the sphere, and

WHEREAS, on or about June 14, 2004, City of Modesto representatives met with County of Stanislaus representatives to discuss the proposed sphere amendment and its boundaries, and reached a verbal agreement that the parties would support Owners' request for an amendment to the City's sphere of influence and annexation to the City of Modesto for the purpose of constructing the proposed Kaiser Medical Campus/Cornerstone Business Park, in accordance with the proposed site plans attached hereto as Exhibit "D", and

WHEREAS, the proposed Property is not subject to a Williamson Act Contract pursuant to Government Code Sections 51200, et seq, and

WHEREAS, City desires that its sphere of influence be amended and that a reorganization of the Property be approved as follows:

- (a) The annexation of said Property to the City of Modesto and Modesto Sewer District No. 1.
- (b) The detachment of said Property from the Salida Fire Protection District.

WHEREAS, the reasons for this proposed sphere of influence amendment and reorganization to the City of Modesto are as follows:

- (a) Staff has received a written request signed by all property owners of the Property to annex the Property to the City of Modesto.
- (b) The proposed annexation is consistent with the Urban Area General Plan and can be most efficiently served by City services.
- (c) The proposed annexation will result in planned, orderly and efficient development of the area, and provision of services, and

WHEREAS, pursuant to Government Code Section 56653, a plan for providing services is set forth in Exhibit "E", attached hereto and by this reference incorporated herein, and

WHEREAS, on July 19, 2004, City of Modesto Planning Commission held a duly noticed public hearing in the Chambers, Tenth Street Place, 1010 Tenth Street, Modesto, California, at which time both oral and documentary evidence were received and considered, and

WHEREAS, after said public hearing, the City of Modesto Planning Commission adopted Resolution No. 2004-40, recommending to the City Council that they adopt the Resolution of Application for an amendment to add the Property to the City's sphere of influence and annexation of the Property to the City of Modesto, and

WHEREAS, said matter was set for public hearing of the City Council to be held on August 10, 2004, in the Tenth Street Place Chambers located at 1010 10<sup>th</sup> Street, Modesto, California, at which date and time said duly noticed public hearing of the Council was held for the purpose of receiving public comment on the proposed annexation and sphere of influence amendment, and

WHEREAS, the City Council has received and considered the Final Environmental Impact Report for the Kaiser Modesto Medical Center/Cornerstone Business Park Project (SCH No. 2003072085) that analyzed the potential environmental effects of the proposed Sphere of Influence amendment and annexation and has, by separate resolution, certified said Final Environmental Impact Report.

NOW, THEREFORE, the Council of the City of Modesto hereby finds and determines as follows:

1. That the proposed sphere of influence amendment and annexation are consistent with the Modesto Urban Area General Plan, because they are consistent with General Plan Urban Growth Policy II.C.1.b., which states "Urban development should be kept as contiguous as possible in order to avoid premature urbanization of valuable farm land, foster resident convenience, and provide for economy in City services" and because the development resulting from the proposed Sphere of Influence amendment and annexation is consistent with the General Plan.
2. The Property proposed to be added to Modesto's sphere of influence and annexed is uninhabited, and a description of the boundaries of the subject Property is set forth in Exhibits "A", "B," and "C" attached hereto and by this reference incorporated herein.
3. The Property is located within Stanislaus County, is contiguous to the existing sphere of influence and City limits and can be most efficiently served with City services.
4. The proposed annexation will result in planned, orderly and efficient development of the area, and the most efficient provision of services.
5. An MSR and MSE has been prepared and approved for submission with the proposed application to amend the Sphere of Influence.
6. An agreement for the sharing of property taxes for the Property was approved by the Stanislaus County Board of Supervisors and the Modesto City Council on July 13, 2004.
7. Pursuant to Government Code section 56425(a), on or about June 14, 2004, City of Modesto representatives met with County of Stanislaus representatives to discuss the proposed sphere amendment and its

boundaries, and reached a verbal agreement that the parties would support Owners' request for an amendment to the City's sphere of influence and annexation to the City of Modesto for the purpose of constructing the proposed Kaiser Medical Campus/Cornerstone Business Park, in accordance with the proposed site plans attached hereto as Exhibit "D".

8. The proposed Property is not subject to a Williamson Act Contract pursuant to Government Code Sections 51200, et seq.
9. The proposed Sphere of Influence amendment and annexation is within the scope of the Kaiser Modesto Medical Center/Cornerstone Business Park Final EIR (SCH No. 2003072085) and has been adequately analyzed by the EIR.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby adopts this Resolution of Application for an amendment to add the Property to the City of Modesto's sphere of influence, for annexation of the Property to the City of Modesto and Modesto Sewer District No. 1 and the detachment of the Property from the Salida Fire Protection District.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that:

1. All owners of land within the affected Property have given their written consent to the reorganization and therefore, pursuant to California Government Code Section 56663 (c)(1), the City Council hereby consents to a waiver of conducting authority proceedings.
2. Pursuant to Government Code Section 56653, the City Council submit the plan for providing services as set forth in Exhibit "E", attached hereto and by this reference incorporated herein.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of August, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

**PLAN FOR SERVICE**

## PUBLIC SERVICES PLAN

---

Upon annexation, the City of Modesto will be the primary provider of a broad range of urban services to the Kaiser /Cornerstone Project. Table 1 summarizes current and proposed service providers to the Project. Table 2 summarizes required infrastructure improvements to the City's SOI, and specifically to the Kaiser/Cornerstone Project. The following sections describe the provision of major services to the Project.

### WATER SUPPLY

The Kaiser /Cornerstone Project will be served by the City of Modesto's municipal water system. The *Water Supply Assessment (WSA)* prepared by the City of Modesto for the Kaiser project estimates a future demand for water on the project site of 586,075 gpd. The Cornerstone Business Park is expected to generate a water demand of 83,663 gpd at buildout. Together, the entire project is projected to demand 670,000 gpd, or 750 acre-feet.

The proposed project includes plans for a new well on the southwest corner of the Cornerstone Business Park site. The well is designed to pump 800 to 1,000 gpm and would provide sufficient water to account for the entire demand from the Kaiser/Cornerstone project. The well would be constructed during Phase A of the development process.

### WASTEWATER COLLECTION AND TREATMENT

The City of Modesto's wastewater collection and treatment system will serve the project site. A portion of the collection facilities to serve the site are already in place, and have adequate capacity to serve additional flows from the project. The remaining lines necessary to convey wastewater from the site to the existing lines are already planned and will be developer-funded and constructed.

### STORM DRAINAGE

The City of Modesto will oversee the provision of storm drainage facilities and their maintenance. Both the Kaiser and the Cornerstone projects are required to develop a Storm Water Pollution Prevention Program (SWPPP) to comply with RWQCB regulations. Stormwater at both sites is intended to remain onsite, not creating any additional demand on downstream drainage facilities.

**Table 1**  
**Summary of Existing and Proposed Services and Providers**  
**City of Modesto**

Service	Providers Serving Modesto SOI		Proposed Providers upon Annexation
	Existing Providers Outside City Limits	Existing Providers Serving Kaiser/Cornerstone	
Government (including land use planning, finance, administration, public works, etc.)	County of Stanislaus	County of Stanislaus	City of Modesto
Water	City of Modesto serves some unincorporated areas; other existing residences served by non-City groundwater wells. Modesto Irrigation District serves ag water needs	Existing residences served by non-City groundwater wells.	City of Modesto Municipal Water System
Wastewater collection and treatment	City of Modesto serves some unincorporated areas; existing buildings currently served by septic tanks	Existing buildings currently served by septic tanks	City of Modesto Municipal Sewer District No. 1
Storm water drainage	County of Stanislaus, funding from CSA 7, CSA 8, and CSA 20	None: storm water drains to perimeter ditches and does not leave site.	On-site improvements responsibility of developer; runoff will not enter City storm drainage system
Roads, Circulation	County of Stanislaus (funding for street lighting in certain areas from dependent special districts)	County of Stanislaus (funding for street lighting in certain areas from dependent special districts)	City of Modesto
Police	Stanislaus County Sheriff and Modesto Area Office of the California Highway Patrol	Stanislaus County Sheriff and Modesto Area Office of the California Highway Patrol	City of Modesto Police Department, CHP patrols along state routes and county highways
Fire	Salida FPD Burbank/Paradise FPD Industrial, Woodland, Stanislaus Consolidated Fire Districts	Salida FPD	City of Modesto Fire Department
Solid Waste	Various private providers	Bertolotti Disposal	Gitton Solid Waste
Parks and Recreation	Stanislaus County	Stanislaus County	City of Modesto
Schools	Several School Districts	Stanislaus Union School District (elementary) Modesto City School District (high school)	No change

Table 2  
Summary of Service Provided by the City of Modesto and Capacities Needed to Serve Buildout of the Sphere of Influence  
City of Modesto

Service	Current (2004) Capacity/ Level of Service within City Limits	Current (2004) Service within Sphere of Influence	Capacity Required to Serve Kaiser/Cornerstone	Capacity Required to Serve Sphere of Influence Buildout	Plan for Improvements/ Increased Capacity in Place?	Primary Funding Sources
Wastewater Collection	City of Modesto collects sewage from entire City, plus unincorporated community of Empire, northern portion of City of Ceres, and some other unincorporated islands within Modesto's S.O.I.	The Empire Sanitary District collects wastewater from the town of Empire, but it is transferred for treatment to the City of Modesto. Wastewater from the northern part of the City of Ceres is collected by Ceres and treated by the City of Modesto. Existing buildings on the Kaiser/Cornerstone site have private septic tanks.	New collection infrastructure to be funded by developer; City's 30-inch wastewater collection line on Bangs Ave. is sufficient	Wastewater system will need to accommodate an average daily dry weather flow of 72 mgd to accommodate projected General Plan buildout.	Modesto Wastewater Master Plan 1995, currently being updated	Developer, User fees
Wastewater Treatment	Treats an average of 27.8 mgd (dry weather flow) plus cannery waste at two treatment plants. Treatment capacity is 82.7 mgd.		No additional capacity is expected to be needed at wastewater treatment plant.		Modesto Wastewater Master Plan 1995, currently being updated	
Water Supply and Distribution	Modesto pumps 42,625 acre-feet per year from the Modesto and Turlock sub-basins. Surface water from MID is treated at the regional water treatment plant with capacity to treat 33,607 acre-feet per year.	Several communities outside Modesto's City limits are served by Modesto's water system, including Salida, Empire, Waterford, Hickman, Grayson, and Del Rio, plus portions of the cities of Ceres and Turlock. The Riverdale Park Tract Community Service Water District provides potable water to 180 connections southwest of the City limits. Existing buildings on the project site have private wells.	Total water demand from Kaiser/Cornerstone is estimated to be 670,000 gpd or 750 acre-feet per year. A new well will be constructed on project site.	Construction of Phase II of the water treatment plant will increase treatment capacity of surface water to 80 mgd. Additional sources of water could come from a combination of conversion of agricultural water to urban uses, new water treatment technologies, and increasing conversion and reuse.	Modesto 2000 Urban Water Management Plan, Water Supply Assessment (WSA) for the Kaiser Modesto Medical Center	Cost of water treatment plant expansion funded by the City (user fees).
Police	1.3 Sworn Officers per 1,000 residents with a response time ranging from 5.8 to 6.5 minutes.	The Modesto Police Dept. occasionally responds to calls for service outside City limits. The Sphere of Influence is also served by the Stanislaus County Sheriff's Dept. and law enforcement and traffic control is provided by California Highway Patrol.	The Kaiser Medical Center will hire its own security force. The Modesto Police Department estimates the addition of one sworn officer to respond to increased number of calls and traffic incidents, but no new expansion of facilities required.	The Modesto Police Department will need to expand both its staffing and its facilities to serve population growth at the desired ratio of 1.85 sworn officers per 1,000 population. The Police Dept. projects the need for an additional 373 employees by General Plan buildout.	2003 Urban Area General Plan Community Services Element	Modesto General Fund, Capital Facilities Fees
Fire	Modesto Fire Department maintains an ISO rating of 2.	Fire service outside City limits is provided by the Burbank/Paradise, Industrial, Woodland, and Stanislaus Consolidated Fire Districts and the Salida Fire Protection District (SFPD). The Kaiser/Cornerstone site is served by the SFPD with an ISO rating of 8.	City of Modesto expects completion of Fire Station No. 11 (fall of 2004), which will serve northwest area, including Kaiser/Cornerstone. Secondary service provided by Fire Station No. 8. Also, development will require fire pumps and a fire service pipeline to provide adequate water pressure for multi-story buildings.	The Modesto Fire Dept. will require new fire stations and an expanded staff to serve General Plan buildout.	2003 Urban Area General Plan Community Services Element	Modesto General Fund, Capital Facilities Fees
Storm Drainage	11,000 rockwells serve 2/3 of the City and positive storm drains serve the remainder. Pipeline drainage empties to Tuolumne River, Dry Creek, or MID canals.	Three County Service Areas (CSAs) provide storm drainage control within City limits, not including the Kaiser/Cornerstone project site. On-site stormwater runoff flows to perimeter drainage ditches; site is highly permeable vegetated soil surface and surrounded by raised roadbeds, so on-site runoff is minimized and contained and off-site runoff does not enter site.	Kaiser proposes to construct pervious asphalt pavements on surface parking areas; runoff would permeate to underlying soils. At Cornerstone, runoff would be collected and conveyed to percolation basin onsite; thus no runoff would leave project site and the project would not contribute additional runoff to downstream drainage facilities. Additionally, the Kaiser/Cornerstone project must consider the possibility of hazardous materials discharge.	Developers are required to prepare Stormwater Management Plans and to self-finance or establish a Community Facilities District to finance new stormwater infrastructure.	City of Modesto Guidance Manual for New Development Stormwater Quality Control Measures ("Guidance Manual")	Developers, special districts
Circulation	Modesto strives to maintain LOS D, but some streets, especially during rush hour, do not meet this standard. The City operates a bus system but as of yet lacks extensive bicycle/pedestrian/carpool facilities.	Currently mostly rural roads; few transit, bicycle or pedestrian facilities. Bus service by Modesto Area Express (MAX). Street lighting funded by County dependent special districts.	The City will need to widen and reconfigure various existing roads, adding left and right turn lanes and installing new intersections.	Individual developers are required to plan for and fund local streets and off-site minor collector streets. The City will need to complete improvements on expressways, arterials, major collectors, and intersections as development occurs. The City will also need to purchase new buses, construct public transit infrastructure, and construct carpooling and bicycle facilities.	Fehr & Peers Transportation Impact Analysis for Kaiser Permanente Modesto Medical Center EIR Feb 2004.	Capital Facilities Fees, gas taxes, grants, developer dedications

Source: City of Modesto and Economic & Planning Systems, Inc.

## **CIRCULATION**

The City of Modesto will be responsible for assuring that adequate facilities for circulation are provided and maintained, and will also provide transit service to the project. Improvements to the area will be constructed by project developers, the City, and CalTrans, drawing on a variety of private, local, State and Federal sources.

## **FIRE PROTECTION**

Provision of fire service for the Kaiser/Cornerstone project site will transfer from the Salida Fire Protection District to the City of Modesto Fire Department. The City of Modesto expects to complete construction on Fire Station No. 11 in northwest Modesto by fall of 2004. This station will be located 1.5 miles east of the project site and will be the primary service provider to the site.

## **POLICE PROTECTION**

The City of Modesto's police department will serve the area. The project site is located contiguous to "Beat 66" in the City's northwest area of command. The nearest command center is in the Vintage Faire Mall and is located less than two miles south of the project site. Kaiser will employ its own on-site security maintenance force, and Modesto Police will be called when there is criminal activity on-site.

## **PARKS AND RECREATION**

The City of Modesto will manage public parks and recreation facilities available for use by the employees working in the area. Facilities managed by the City of Modesto's Parks, Recreation and Neighborhoods Department include parks, open space, community centers, pools, sports centers and other recreational resources.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-428**

**A RESOLUTION AUTHORIZING THE APPOINTMENT OF MAYOR JIM  
RIDENOUR AND COUNCILMEMBER GARRAD MARSH TO THE JPA  
GOVERNING BOARD FOR TENTH STREET PLACE**

WHEREAS, the City Councilmembers serve on various boards and committees and act as representative on behalf of the City of Modesto,

WHEREAS, the recent election left vacancies on several boards and committees.

WHEREAS, the Tenth Street Place JPA Agreement calls for the creation of a governing board which includes two members of the Modesto City Council to act in an advisory capacity to staff in carrying out the provisions of the agreements and also act in an advisory capacity to the legislative bodies of the parties of these agreements.

WHEREAS, the term of offices for the councilmembers serving on these committees have expired,

NOW, THEREFORE, be it resolved, that Mayor JIM RIDENOUR and Councilmember GARRAD MARSH are appointed as the City Council representatives to the Tenth Street Place Joint Powers Agency.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of September, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NUMBER 2004-429**

**A RESOLUTION OPPOSING PROPOSITION 66, A NOVEMBER 2004  
BALLOT INITIATIVE**

WHEREAS, the Council of the City of Modesto has considered the provisions of Proposition 66 relating to California's Three Strikes Law, and

WHEREAS, Proposition 66 would amend the Three Strikes law to require increased sentences only when the current conviction is for specified violent and/or serious felonies and only prior convictions for specified violent and/or serious felonies, brought and tried separately, would qualify for second and third strike sentence increases, and

WHEREAS, Proposition 66 would allow conditional re-sentencing of persons with sentences increased under the Three Strikes law if the previous sentencing offenses, or prior convictions used to increase sentences, would no longer qualify as violent and/or serious felonies, and

WHEREAS, Proposition 66 would therefore send thousands of convicted felons back to cash-strapped counties for re-sentencing and likely release, and

WHEREAS, these criminals are serving time for serious and violent crimes – threatening public safety and would cost taxpayers millions of dollars in new court and law enforcement costs, and

WHEREAS, the initiative would weaken the law against burglary, arson, felony gang crimes, felonies resulting in great bodily injury and violent crimes against the elderly and disabled, and

WHEREAS, a criminal spree of many felonies would only be a single strike, and

WHEREAS, the current structure of the Three Strikes law is effective in protecting our community and holding violent offenders accountable, and

WHEREAS, the California Police Chiefs Association, the California Governor and the California Attorney General have taken positions against Proposition 66, and

WHEREAS, the Attorney General predicts increased one-time costs of up to several tens of millions of dollars for jail and court-related costs and ongoing costs, and

WHEREAS, the Modesto Chief of Police desires to take a public position against this initiative,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it is hereby opposed to the passage of Proposition 66, on the November 2004 ballot, into law.

BE IT FURTHER RESOLVED that the Modesto Chief of Police is hereby authorized to take a public stand against Proposition 66.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of September, 2004, by Councilmember Keating, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**RESOLUTION APPROVING A STANDARD AGREEMENT FOR  
CONSULTANT SERVICES WITH AARON READ & ASSOCIATES FOR STATE  
LOBBYING SERVICES FOR AN AMOUNT NOT TO EXCEED \$69,300 AND  
AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT.**

WHEREAS, On January 1, 2001, the City entered into an agreement with Aaron Read & Associates to perform legislative advocacy in Sacramento, and

WHEREAS, though originally hired to work solely on transportation issues, Aaron Read and Associates (ARA) have assisted the City with other state issues, and

WHEREAS, three members of their staff, Aaron Read, Terry McHale and Robyn Black have been responsible for performance of contracted services for the City, and

WHEREAS, ARA has provided key and critical advocacy for the City since January 2001, and

WHEREAS, their influence and assistance has spanned far beyond the area of transportation, and

WHEREAS, staff recommends that the City of Modesto execute a standard agreement for consultant services with Aaron Read & Associates for state lobbying services for an amount not to exceed \$63,900, and

WHEREAS, on August 11, 2004 the Finance Committee met and recommended support for this item,

NOW, THEREFORE, BE IT RESOLVED, that the City Council of Modesto approves a standard agreement for consultant services with Aaron Read & Associates for state lobbying services for an amount not to exceed \$63,900.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of September, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**COMMENTS/JUSTIFICATION**

The cable settlement monies came in prior to the start of FY2005 for \$100,000 on June 29, 2004. We have received the funds in FY2004 and need to reduce the budget in FY2005. The impact to General Fund is as follows: Increase \$100,000 in FY2004 and Decrease in FY2005 of \$100,000 equals a net impact to General Fund of 0.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-435**

**A RESOLUTION AUTHORIZING THE PURCHASE OF GRANULAR ACTIVATED CARBON (GAC) FROM THE CITY OF FRESNO CONTRACT WITH CARBON ACTIVATED CORPORATION, COMPTON, CA, FOR A TERM OF ONE (1) YEAR, WITH TWO (2) ONE-YEAR EXTENSION OPTIONS, AT AN ESTIMATED ANNUAL COST OF \$176,000**

WHEREAS, granular activated carbon (GAC) units are pressure vessels filled with GAC, and

WHEREAS, the GAC is a filter used to remove and dissolve organics and chlorine from drinking water, and

WHEREAS, these vessels treat water down flow through a fixed bed of GAC, handling varying flows and on-off operating conditions, and

WHEREAS, the GAC has a life expectancy of approximately two (2) years while filtering contaminants out of groundwater, and

WHEREAS, the City of Modesto currently has nineteen (19) water wells retrofitted with GAC vessels, and

WHEREAS, in an ongoing effort to improve the quality of the City's drinking water, the Public Works Department, Water Division periodically replaces the GAC in these vessels as required, and

WHEREAS, a GAC unit typically contains two (2) vessels that hold 22,000 lbs of GAC in each vessel, and

WHEREAS, a unit change-out requires that the old GAC is removed and replaced with a total of 44,000 lbs of new GAC, and

WHEREAS, the average cost for one (1) City of Modesto unit change-out is approximately \$22,000, and

WHEREAS, there are approximately eight (8) unit change-outs performed annually, and

WHEREAS, the City of Modesto has historically “piggybacked” off of a competitively bid City of Fresno contract for the purchase of GAC, and

WHEREAS, the GAC that was bid by the City of Fresno meets all of the appropriate quality standards, and

WHEREAS, the City of Fresno went through a competitive bid process for the purchase of GAC and awarded a contract to the lowest responsive and responsible bidder, which was Carbon Activated Corporation, and

WHEREAS, to take advantage of this process and award by “piggyback” would be an efficient and effective way to purchase GAC, by shortening the time period required to begin unit change-outs, and by saving the time and expense to the City to formally solicit Request for Bids, and

WHEREAS, Carbon Activated Corporation has a ready supply of GAC and is able to furnish unit change-outs to the City of Modesto in an expeditious manner, thus minimizing downtime at the City’s water wells and pump stations, and

WHEREAS, adequate water pressure during high demand periods of the year would remain constant, which is critical for fire protection, and

WHEREAS, City staff recommends the purchase of GAC from the City of Fresno contract with Carbon Activated Corporation, Compton, CA, for a term of one (1) year, with two (2) one-year extension options, at an estimated annual cost of \$176,000, and

WHEREAS, the Modesto Municipal Code, MMC 8-3.203, generally requires all purchases, which meet or exceed \$50,000.00 for material, equipment or contractual services to be formally bid, and

WHEREAS, one exception, MMC8-3.204 (d), is available where the Purchasing Supervisor, in his or her discretion, determines that a process other than the formal bid procedure set forth in Section MMC 8-3.203 will result in procurement for the City at the lowest possible cost commensurate with the desired quality. Acting within his discretion, the Purchasing Supervisor invoked that exception for this purchase. The purchase of GAC from the City of Fresno contract with Carbon Activated Corporation, Compton, CA, will conform to MMC 8-3.204 (d),

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the purchase of GAC from the City of Fresno contract with Carbon Activated Corporation, Compton, CA, for a term of one (1) year, with two (2) one-year extension options, at an estimated annual cost of \$176,000.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute said contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of September, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 436**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO  
FORMALLY SOLICIT REQUEST FOR BIDS (RFB) FOR HYDROCHLORIC  
ACID FOR AN INITIAL ONE-YEAR PERIOD, WITH FOUR (4) ONE-YEAR  
CONTRACT EXTENSION OPTIONS FOR A TOTAL ESTIMATED ANNUAL  
COST OF \$40,000.00**

WHEREAS, the Public Works Department-Water Quality Control (WQC) has requested the purchase of hydrochloric acid, and

WHEREAS, hydrochloric acid (HCL) is used during the river discharge season from October 1<sup>st</sup> through May 31. This product is utilized at the Jennings Road facility for pH adjustment as required in the City's NPDES permit, and

WHEREAS, the Jennings Road facility, located at 7007 Jennings Road, borders the San Joaquin River. The plant was constructed in 1965, and in 2002 the HCL system was installed due to change in NPDES permit requirements, and

WHEREAS, the system includes a 10,000 gallon storage tank and 2-75 gph feed pumps, and

WHEREAS, the hydrochloric acid is delivery by tanker truck with a maximum load capacity of 4,000 gallons per delivery, and

WHEREAS, The City Council has appropriated \$210,149.00 in account number 6210-480-5214-0312 for hydrochloric acid, and

WHEREAS, Modesto Municipal Code, (MMC) Section 8-3.203, generally requires all purchases that meet or exceed \$50,000.00 for material, equipment, or contractual services to be formally bid, and

WHEREAS, by soliciting formal bids for the purchase of hydrochloric acid for an initial one-year period, with four (4) one-year contact extension options for an estimated annual cost of \$40,000.00, the Finance Department, Purchasing Division will comply with MMC Section 8-3.203 regarding formal bid procedures.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Purchasing Supervisor to solicit formal Request for Bids (RFB) for hydrochloric acid for an initial one-year period, with four (4) one-year contact extension options for an estimated annual cost of \$40,000.00 as follows:

SECTION 1. The City Clerk is hereby authorized to call for public formal bids for the purchase of hydrochloride acid to be opened in the office of the City Clerk, 1010 Tenth Street, in the City of Modesto. The City Clerk shall be directed to give notice inviting such sealed bids in the time, form, and manner provided by law.

SECTION 2. After the sealed bids are opened, they shall be tabulated and analyzed and a report submitted to Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of September, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-437**

**A RESOLUTION APPROVING AN AMENDMENT TO THE FIRST HOME AGREEMENT WITH THE HOUSING AUTHORITY OF THE COUNTY OF STANISLAUS FOR THE MILLER POINTE PROJECT, AND AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE TO EXECUTE THE AMENDMENT TO THE AGREEMENT.**

WHEREAS, on November 20, 2001, the City of Modesto released Requests for Proposals for Affordable Quality Housing for Working Citizens for fiscal year 2001-2002; two organizations were awarded funding to provide multi-family units for very-low, low and moderate-income families, and

WHEREAS, on April 9, 2002, by Resolution No. 2002-168, the City Council approved the Citizens Housing and Community Development Committee's (CH&CDC) recommendations to allocate \$250,000 in fiscal year 2001-2002 HOME funds to the Miller Pointe project submitted by the Housing Authority of the County of Stanislaus, and authorized the City Manager to execute necessary documents, and

WHEREAS, on October 2, 2002, the City Council by Resolution 2002-519, approved the agreement with the Housing Authority of Stanislaus County to provide \$250,000 in HOME funds for the development of Miller Pointe project, and authorized the City Manager to execute the necessary documents, and

WHEREAS, on July 8, 2003, the City of Modesto released a Request for Proposals for fiscal year 2003-2004; the same organizations were awarded additional funding for the same projects they applied for during fiscal year 2001-2002, and

WHEREAS, while preparing the new agreement, staff realized that some terms of the first loan agreement needed clarification; after reviewing the loan documents, staff recommended amending the agreements to reflect the extension on the deadline to complete the construction of the units on or before June 30, 2005, instead of on or before

December 31, 2003, and clarifying that the principal of the loan shall bear simple interest and reflects the correct amount on the repayment of the loan based on the simple interest, and

WHEREAS, the regulatory agreement has been amended to add additional language to outline the affordability requirements for the units that are non-HOME assisted, to amend a typographical error; add language requiring that the landlord shall attend and complete a landlord training class sponsored by the Modesto Police Department, a requirement for the project to be certified under the City of Modesto Crime Free Multi-Housing Program; and add language regarding discrimination and form of nondiscrimination and non-segregation clauses, and

WHEREAS, the amendments will clarify the agreement, which will benefit the agencies that received the HOME Investment Partnership Program funds for the development of these two projects,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves an amendment to the first HOME agreement with the Housing Authority of the County of Stanislaus for the Miller Pointe Project as set forth herein.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the amendment to the agreement.

**A RESOLUTION ACCEPTING \$36,276 IN FEDERAL LAND AND WATER  
CONSERVATION FUND FUNDING FROM THE STATE OF CALIFORNIA  
RESOURCES AGENCY FOR CONSTRUCTION OF A PICNIC SHELTER AT  
ORVILLE WRIGHT NEIGHBORHOOD PARK AND AUTHORIZING THE  
CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE GRANT  
CONTRACT**

WHEREAS, staff has been notified by the State of California Resources Agency that the City of Modesto has been awarded \$36,276 in funding from the Federal Land and Water Conservation Fund (LWCF), and

WHEREAS, said funding will allow for construction of a picnic shelter at Orville Wright Neighborhood Park, and

WHEREAS, LWCF grants require a fifty percent (50%) local match which will come from Park Fund 1400, and

WHEREAS, in order to accept the funding, the City Manager must be authorized to execute the Grant Contract,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby accepts \$36,276 in funding from the Federal Land and Water Conservation Fund program for construction of a picnic shelter at Orville Wright Neighborhood Park.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Grant Contract.

EXTEND THE LEASE, AND AUTHORIZING THE CITY MANAGER TO  
EXECUTE THE LEASE AGREEMENT.**

WHEREAS, Metro PCS California/Florida, Inc., a Delaware corporation, d/b/a Metro PCS, desires to lease a cellular tower site located on a portion of Creekside Golf Course for a period of five years, with three five-year options to extend the lease, for the installation of phone equipment, and

WHEREAS, the City of Modesto is willing to lease a portion of Creekside Golf Course to Metro PCS for said use for the sum of \$1,400.00 per month with a rental increase of three percent (3%) at the beginning of years two through five and a rental increase equal to the Consumer Price Index for the San Francisco/Oakland/San Jose Metropolitan Statistical Area (MSA) at the beginning of each renewal period, and

WHEREAS, Metro PCS is also willing to pay the City a lump sum of \$10,000 for the purpose of supporting The First Tee program,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Five-Year Lease Agreement between the City of Modesto and Metro PCS California/Florida, Inc., a Delaware Corporation, d/b/a/ Metro PCS, for a cellular site located on a portion of Creekside Golf Course, with three, five-year options to extend the lease.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Lease Agreement.

**A RESOLUTION AUTHORIZING STAFF TO ISSUE A REQUEST FOR PROPOSALS (RFP) FOR DEVELOPMENT OF A POLICY AND MARKETING PLAN FOR PROGRAM SPONSORSHIP AND THE DEVELOPMENT OF PRESENTATION SPONSORS FOR THE CITY'S PARKS, PROGRAMS, AND CITY OWNED PROPERTIES**

WHEREAS, on February 25, 2003, the City Council by Resolution No. 2003-95 accepted the Parks, Recreation and Neighborhoods Department's first Fund Development Report, and

WHEREAS, as part of City Council Resolution No. 2003-95, staff was directed to develop a policy and marketing plan for Corporate Program sponsorship, and

WHEREAS, City of Modesto staff has identified a special need for sponsorship funding for the City's Activity Guide, city recreational programs and park projects and maintenance, and

WHEREAS, City of Modesto staff, through the evaluation of the creation of the corporate program sponsorship, came to the conclusion that the marketing of sponsorships for the City is a specialized field, and

WHEREAS, City of Modesto staff believes that City staff does not have the depth of expertise that is needed to be successful in marketing of sponsorships, and

WHEREAS, the City of Modesto staff is interested in issuing a Request for Proposal to qualified companies to successfully serve the City in developing a policy and marketing plan for Presentation Sponsors, which will include the City's activity guide, parks and City-owned properties as well as their projects, programs and aesthetics,

NOW, THEREFORE, BE IT RESOLVED, that the City Council of Modesto hereby authorizes staff to issue a Request for Proposal to search for a qualified company to develop a policy and marketing plan for Program Sponsorship and the development of Presentation Sponsors.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of September, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-442**

**A RESOLUTION AUTHORIZING STAFF TO NEGOTIATE A SOLE SOURCE AGREEMENT WITH PACIFIC MEDIA GROUP FOR DEVELOPMENT OF A MARKETING PLAN FOR NAMING RIGHTS TO MODESTO CENTRE PLAZA**

WHEREAS, on February 25, 2003, the City Council, by Resolution No. 2003-95, accepted the Parks, Recreation and Neighborhoods Department's first Fund Development Report, and

WHEREAS, as part of City Council Resolution No. 2003-95, staff was directed to develop a policy and marketing plan for Corporate Naming Rights and to identify properties to include in naming rights inventory, and

WHEREAS, City of Modesto staff has identified the Modesto Centre Plaza as a premier City owned property to be the first of City-owned property to acquire naming rights sponsorship, and

WHEREAS, City of Modesto staff, through the evaluation of the creation of the corporate naming rights sponsorship, came to the conclusion that the marketing of naming rights and sponsorships for the City is a highly specialized field. The field is limited to both knowledge of the local area and businesses as well as expertise in the corporate naming rights market, and

WHEREAS, City of Modesto staff believes that City staff does not have the depth of expertise that is needed to be successful in corporate naming rights, and

WHEREAS, the City of Modesto staff has located a company, Pacific Media Group, that has both the local contacts and the expertise in naming rights marketing

within the Modesto market area, and recommends negotiating a sole source agreement with Pacific Media Group,

NOW, THEREFORE, BE IT RESOLVED, that the City Council of Modesto hereby authorizes staff to negotiate a sole source agreement with Pacific Media Group for the development of a marketing plan for naming rights for the Modesto Centre Plaza.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of September, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-443**

**A RESOLUTION REVISING THE POSITION CLASSIFICATION PLAN FOR  
THE CITY OF MODESTO.**

WHEREAS, a Position Classification Plan for the City of Modesto was adopted by Modesto City Council Resolution 88-338 pursuant to Rule 2 of the Personnel Rules and Regulations of the City of Modesto, and

WHEREAS, the City Manager has recommended to the Council amendments to the Position Classification Plan, and

WHEREAS, Rule 2.2 of the City of Modesto Personnel Rules provides that revisions to the Classification Plan shall be effective upon adoption of resolution of the City Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION I. CLASSIFICATIONS REVISED. The Position Classification Plan of the City of Modesto is hereby amended to revise the following classifications:

1. Transportation Planner
2. Laboratory & Environmental Monitoring Supervisor

The job specification for Transportation Planner is being revised as a result of a job audit recently completed on this classification. The specification for the classification of Transportation Planner as shown on the attached **Exhibit "A,"** which is hereby made a part of this resolution by reference, is hereby approved and made part of the Position Classification Plan of the City of Modesto.

The job specification for Environmental Laboratory Supervisor is being revised as a result of a title change from Laboratory and Environmental Monitoring Supervisor to Environmental Laboratory Supervisor. The specification for the classification of Environmental Laboratory Supervisor as shown on the attached **Exhibit "B,"** which is hereby made a part of this resolution by reference, is hereby approved and made part of the Position Classification Plan of the City of Modesto.

SECTION 2. EFFECTIVE DATE. This resolution shall become effective on and after September 7, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of September, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

## TRANSPORTATION PLANNER

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

### DEFINITION

To perform professional work in transportation planning and transportation demand management. To administer, coordinate, and implement city-wide and area-wide transportation/circulation plans, incorporate system improvements and traffic management to meet both current needs and future development.

### SUPERVISION RECEIVED AND EXERCISED

Receives direction from higher-level engineering staff the Traffic Engineer or Deputy Director of Public Works.

May exercises functional and technical supervision over assigned staff.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS - Essential and other important responsibilities and duties may include, but are not limited to, the following:

Conduct feasibility studies and planning for transportation deficiencies and improvements.

Develop, prepare and review transportation policies and transportation systems for the General Plan, specific plans, and precise plans.

Develop and update policies, guidelines, and specifications for street and street access design in the City's Standard Specifications.

Update street projects in the City Capital Facility Fee (CFF) Program. Review CFF documents, conduct analyses and recommend specific CFF rates for developments.

Conduct, direct and review advanced level traffic studies and analyses. Perform and check traffic engineering simulation. Check intersection geometric design, traffic signal phasing and timing, roadway capacity, traffic delay and queuing; conduct engineering calculation and prepare drawings.

Review, evaluate, and make recommendations on public and private development maps, site plans and designs, conditional use permits, rezoning and lot line adjustment proposals. Ensure project compliance with Federal, State

and local traffic/transportation laws, rules, and regulations.

Confer and negotiate with developers, business and property owners, consultants, attorneys, and various agencies and jurisdictions including state, county adjacent cities, schools and hospitals on traffic issues, conditions of approval and traffic impact mitigation measures.

Coordinate with state, regional agencies, adjacent jurisdictions and city departments on transportation system planning, street classifications, design standards, traffic modeling applications and requirements.

Manage and enhance the computerized travel forecast model, and develop traffic forecast and analyses for decision making on long-range citywide transportation plan alternatives, area-wide specific plans, current land developments, capital facility improvement and operation projects and Caltrans freeway interchange design alternatives.

Make recommendations to engineers on traffic operation studies, project development and improvement plan checking on traffic-related issues.

Provide information and interpretation on City policies, street classifications, right of way, design standards, and other traffic related issues to citizens, businesses and developers; respond to members of the public on a wide range of transportation related matters; resolve citizen complaints.

~~Prepare traffic studies to analyze land use impact on traffic flow and circulation and recommend mitigations:~~

Direct, review, and conduct traffic, economic, and demographic data collection, statistical analyses and research. ~~To append and edit the City Traffic Model data base.~~

~~Use City's Traffic Model to forecast future traffic, and traffic impacts, due to proposed developments and changes to City's transportation systems.~~

~~Determine impact location and areas for traffic studies, discuss the scope of traffic studies with developers and consultants:~~

~~Comment on traffic studies prepared by consultants:~~

Prepare both oral and written reports and represent City staff at the Planning Commission and City Council meetings regarding transportation planning, traffic demand forecast and management issues.

~~Participate with Planning and Community Development staff in writing and/or amending the Land Use Element and Circulation Element of the General Plan.~~

~~Develop most efficient routing for intercity transit buses. Provide information to the public; respond to and resolve citizen inquiries and complaints.~~

May participate in the selection of staff; provide or coordinate staff training; work with employees to correct deficiencies; implement discipline procedures; recommend employees terminations.

Participate in the preparation of the departmental budget.

~~Coordinate Capital Improvements Program submittals.~~

Perform related duties as assigned.

### QUALIFICATIONS

#### Knowledge of:

Theories, principles and practices of transportation planning, traffic engineering, and urban planning. ~~Transportation planning process and analytical planning techniques.~~

Transportation system management, access management and travel demand management.

Pertinent Federal, State and local rules, regulations, ordinances and policies.

Travel demand model and traffic simulation model theory, technology, software packages, the current literature and new methods.

Transportation funding source and mechanism at Federal, State and local levels.

~~Procedures related to transportation planning and micro processing applications.~~

A variety of information management systems and applications including GIS, database management and computer programming.

~~Computer simulation models for developing traffic scenarios.~~

Research methods and statistical analysis and source of data and information.

Ability to:

Apply transportation and traffic engineering principles and techniques to a variety of assigned functional areas.

Perform a wide range of duties involving sensitive issues simultaneously under tight time lines.

Conduct comprehensive traffic related studies, prepare reports and make sound decisions and appropriate recommendations based on professional judgment and experience.

Develop innovative approaches and solutions to a variety of issues.

Ensure project compliance with State, Federal and local rules, laws and regulations.

Recommend street coverage in CFF and develop CFF rates for specific development projects.

Perform travel forecast modeling and traffic simulation modeling.

Communicate effectively and establish positive working relationships with a wide variety of people at all levels of the organization including staff, outside agencies, citizens, businesses, developers and property owners. Effectively communicate orally and in writing.

Prepare clear and accurate reports, memos and other correspondence.

Read and understand desk-top computer program instructions, input data and perform interactive operations to obtain desired results.

Prepare and monitor a program budget.

Plan, direct, and coordinate work of others.

Supervise, train and evaluate assigned staff.

~~Establish and maintain cooperative working relationships with those contacted in the course of work.~~

EXPERIENCE AND TRAINING GUIDELINES

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

Three years of increasingly responsible professional transportation planning/traffic engineering experience.

Training:

A Bachelor's degree from an accredited college or university with major course work in civil/transportation engineering, transportation planning or a related field. A master's degree in a similar field is highly desirable.

License

Possession of, or ability to obtain, an appropriate, valid California driver's license.

WORKING CONDITIONS

Environmental Conditions:

Office and field environment; exposure to traffic.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for sitting for prolonged periods of time, bending and stooping to retrieve files, walking, measuring and using a personal computer and other office equipment.

~~LABORATORY & ENVIRONMENTAL MONITORING SUPERVISOR~~  
~~ENVIRONMENTAL LABORATORY SUPERVISOR~~

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

DEFINITION

Supervise, plan, direct, and coordinate the City's Laboratory and Environmental Monitoring Program; to maintain the consistency of the City's Laboratory with State and Federal mandates, approved standards and quality assurance and control; to maintain consistency of the City's Environmental Monitoring Programs with State and Federal mandates; to direct the implementation of required sampling and testing; to direct the activities related to state, Federal and local regulations regarding stormwater and pretreatment sampling and industrial discharges into the City's wastewater collection system; to direct the monitoring, sampling and record keeping associated with compliance with discharge permits; to coordinate the development and maintenance of a data base regarding Industrial, pretreatment, Water Quality processes, and Water Quality discharge samples and testing, to correspond and write required documents associated with NPDES discharges; and to do related work as required.

DISTINGUISHING CHARACTERISTICS

This is a single-position, first level supervisor for the Laboratory and Environmental Monitoring functions. The incumbent is responsible for supervising two major programs consisting of laboratory and environmental sampling and directing the work of assigned staff, ensuring that programs are fully implemented and meet required standards and mandates. In addition, the incumbent has a major role in the development of new markets for water quality and water laboratory services.

SUPERVISION RECEIVED AND EXERCISED

Receives direction from the Deputy Director of Operations and Maintenance. Exercises direct and indirect supervision over technical and clerical support staff.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS – Essential and other important responsibilities and duties may include, but are not limited to, the following:

ESSENTIAL FUNCTIONS, Continued:

Direct Industrial and Water Quality Control sampling and testing programs and Laboratory Staff in accordance with regulations, standards, and quality assurance requirements.

Coordinate the development of additional markets for existing laboratory services and recommend further testing apparatus be purchased based on cost effectiveness or the need to meet regulatory requirements.

Coordinate with the Water Operations Division and other existing clients to make sure client monitoring, sampling, testing, and reporting needs are being met.

Supervise, evaluate and coach assigned staff including maintaining discipline and ensuring all rules, policies and procedures are enforced; advise and counsel subordinates; follow up on problems and complaints; participate in selection of staff.

Develop programs for the implementation and enforcement of environmental monitoring, sampling, and testing programs to protect collection systems, groundwater, and receiving waters in compliance with state, Federal, and local laws, regulations, and ordinances.

Develop and manage program budgets, projecting future goals and projects based on program elements, ensuring proper spending and funding.

Oversee development and submission of required reports for State and Federal regulatory agencies associated with programs.

Monitor and coordinates contractual service activities related to effluent discharges, storm water, and pretreatment sampling activities.

Meet with industry managers to discuss current pretreatment sampling needs and pending regulations.

Oversee the development and maintenance of a laboratory, water quality control, and environmental monitoring database.

Meet with various City and community groups and committees to discuss Laboratory and environmental monitoring issues.

MARGINAL FUNCTION STATEMENTS:

Perform related duties as assigned.

QUALIFICATIONS

Knowledge of:

Program planning and development methods and techniques.

Principles of budget development and fiscal monitoring.

Principles and practices of water/wastewater laboratory operations, maintenance, and services.

Approved related laboratory practices and procedures.

Pertinent State and Federal environmental health and water quality regulations.

Policies and procedures of the City's Environmental Compliance Program.

State and Federal laws, rules, regulations, requirements and procedures governing laboratory and pretreatment, and storm water sampling including applicable local ordinances, and related State and Federal regulations.

Chemical, biological, physical, and environmental sciences.

Principles and practices of environmental sampling and testing, methods and practices.

Functions and operations of State and Federal environmental health and regulatory agencies.

Sampling techniques and standards.

Computers and software used in laboratory testing and environmental sampling.

Principles of personnel administration including staff supervision, training, and performance evaluation.

Ability to:

Plan, develop, organize, implement, and direct laboratory and environmental monitoring programs and staff to ensure compliance with State and Federal programs.

Supervise and train staff to perform a variety of laboratory and environmental monitoring and associated activities.

Analyze, and interpret environmental data, reaching valid conclusions.

Prepare a variety of technical reports, which includes use of word processing and spreadsheet software.

Develop budget and conduct fiscal monitoring activities.

Prepare or oversee the preparation of a variety of technical program reports.

Operate a variety of office and technical equipment and computers in the performance of laboratory sampling and testing and environmental monitoring.

Effectively represent the Environmental Services Section of the Water Quality Control Division in contacts with the public, businesses, engineers, architects, and other City staff.

Establish and maintain cooperative working relationships.

Experience and Training Guidelines:

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

Three (3) years of experience performing laboratory analyses chemical, biological, or microbiological analysis and/or a variety of laboratory work including with emphasis on environmental monitoring, sampling, and analysis of water, wastewater or other closely related environmental samples, including at least one year of lead or supervisory experience

Training:

Education equivalent to completion of college degree in biology, chemistry, biochemistry, or closely related field.

License or Certificate

Possession of, or ability to obtain, an appropriate, valid California Driver's license.

Possession of a valid CWEA Grade II Laboratory Certificate within two and a half years (2.5 years) years of appointment. Possession of a CWEA Grade III Laboratory Certificate within four (4) years of appointment.

Completion of Hazardous Material Forty-Hour (40) First Responder Training, as prescribed by the State Office of Emergency Services within two (2) years of appointment.

WORKING CONDITIONS

Environmental Conditions:

Work is usually performed in office environment; some work is performed in varying temperatures and humidity; some exposure to dust; possible exposure to hazardous waste and materials; possible

Environmental Conditions, Continued:

exposure to gases, fumes, and a variety of pollutants; contact with other staff and the public.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for sitting for prolonged periods of time, and frequently standing and walking.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-444**

**A RESOLUTION AMENDING EXHIBIT "A" OF RESOLUTION NO. 2003-178 (MODESTO CONFIDENTIAL AND MANAGEMENT ASSOCIATION MEMORANDUM OF UNDERSTANDING) TO AMEND THE CLASS RANGE TABLE FOR REPRESENTED MANAGEMENT AND CONFIDENTIAL NON-SWORN CLASSES TO CHANGE THE TRANSPORTATION PLANNER FROM RANGE 438 TO RANGE 440 AND TO CHANGE THE TITLE OF LABORATORY AND ENVIRONMENTAL MONITORING SUPERVISOR TO ENVIRONMENTAL LABORATORY SUPERVISOR REMAINING AT RANGE 434.**

WHEREAS, the City Council desires to amend Exhibit "A" of Resolution No. 2003-178 (MCMA Memorandum Of Understanding),

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION I. AMENDMENT TO RESOLUTION NO. 2003-178. (MCMA Memorandum of Understanding), Resolution No. 2003-178 Effective April 8, 2003, is hereby amended as shown on the amended Exhibit "A" entitled "City of Modesto Class Range Table Represented Management and Confidential Non-Sworn Classes Effective September 7, 2004, which is attached hereto and made a part hereof as though set forth in full herein. Said amended Exhibit "A" changes the salary range for Transportation Planner from Range 438 to Range 440 and changes the title of the Laboratory and Environmental Monitoring Supervisor to Environmental Laboratory Supervisor remaining at Range 434.

SECTION 2. EFFECTIVE DATE. This resolution shall become effective on and after September 7, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of September, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

NOES: Councilmembers: None

ABSENT: Councilmembers: None

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-445**

**A RESOLUTION INCREASING THE DIRECTOR OF PUBLIC WORKS'  
AUTHORITY TO ISSUE CHANGE ORDERS ON THE "CENTRE PLAZA  
ELEVATOR EXTENSION" PROJECT FROM \$25,000 TO \$41,000.**

WHEREAS, on February 24, 2004, the City Council awarded a \$232,900 contract to TCB Industrial, Inc. to construct the "Centre Plaza Elevator Extension" project, and

WHEREAS, the contractor started work on March 29, 2004, and

WHEREAS, additional work not included in the original bid needs to be added to the project to allow completion of a useable elevator that conforms to code requirements, and

WHEREAS, the cost of the extra work could be as high as an estimated \$41,000, an amount, which exceeds the Director's authority for the project as established by the Council's Change Order Approval Policy adopted by Resolution No. 94-443 on July 19, 1994, and

WHEREAS, the Director currently has authority to approve change orders up to a cumulative amount of \$25,000,

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby increases the Public Works Director's authority level to issue change orders, from \$25,000 to \$41,000 for the project entitled "Centre Plaza Elevator Extension."

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of September, 2004, by Councilmember Dunbar, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-450**

**A RESOLUTION REJECTING THE SOLE BID FOR THE PROJECT TITLED  
“COMMUNITY GATEWAY” AND AUTHORIZING STAFF TO RE-  
ADVERTISE THE PROJECT AT A FUTURE DATE**

WHEREAS, the bid received for Community Gateway was opened at 11:00 a.m. on August 17, 2004, and later tabulated by the Public Works Director for the consideration of the Council, and

WHEREAS, during the bid evaluation process staff determined that the sole bid for the project unreasonably exceeded the Engineer’s estimate. Therefore, staff recommends the bid be rejected and staff be allowed to re-advertise the project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the sole bid received for “Community Gateway,” opened in the office of the City Clerk on August 17, 2004, is hereby rejected.

BE IT FURTHER RESOLVED that staff is hereby authorized to re-advertise the project at a future date.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of September, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-451**

**A RESOLUTION AMENDING THE ROUNDABOUT POLICY TO INCLUDE  
THE FEDERAL HIGHWAY ADMINISTRATION AND CALTRANS  
GUIDELINES AND RESCINDING RESOLUTION NO. 2004-114**

WHEREAS, staff has been implementing roundabout installations in both newly developing areas and in retrofit areas in Modesto, and

WHEREAS, there is currently an accepted City policy regarding guidelines for use and installation of roundabouts, and

WHEREAS, staff developed a Roundabout Policy to create consistent guidelines for installation and use of roundabouts, and

WHEREAS, on September 3, 2002, by Resolution No. 2002-432 the City Council adopted the Roundabout Policy, and

WHEREAS, on February 24, 2004, by Resolution No. 2004-114 City Council adopted the amended Roundabout Policy to include 1,000 ft notification area, and

WHEREAS, the Federal Highway Administration (FHWA) and Caltrans have established guidelines for the design of roundabouts, and

WHEREAS, staff recommends that the Roundabout Policy be amended to include the FHWA and Caltrans guidelines for the design of roundabouts, and

WHEREAS, the Economic Development Committee at their July 12, 2004 meeting reviewed and approved staff's recommended changes to the Roundabout Policy,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Roundabout Policy to include the Federal Highway Administration and Caltrans guidelines for the design of roundabouts, a copy of which is attached hereto as **Exhibit "A"**, and incorporated by reference as though fully set forth herein.

BE IT FURTHER RESOLVED that effective September 7, 2004, Resolution No. 2004-114 adopted on February 12, 2004, is hereby rescinded.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of September, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

## **MODESTO ROUNDABOUT POLICY**

**This policy was approved and revised as per City Council  
Resolution 2004-114 at the City Council meeting of  
February 24, 2004**

## Roundabout Policy

- I. Introduction
- II. Modern Roundabouts – What Are They?
- III. The Benefits of Roundabouts
- IV. The Use of Roundabouts – Where They Are Applicable and Where They Are Not.
- V. Roundabout Justification
- VI. Implementation Strategy
- VII. Design Criteria
- VIII. Roundabout Installation in Newly Developing Areas
- IX. Roundabout Installation at Retrofit Locations
- X. Operation & Maintenance
- XI. Appeal of Staff Decision

## **I. Introduction**

Each year the City receives numerous requests to reduce the traffic congestion on streets throughout the City. Citizens also express concerns about the safety of the streets on which they live. In an effort to find appropriate ways to deal with these concerns, reduce traffic congestion and improve safety, the City has recently considered the use of roundabouts.

The purpose of this Roundabout Policy is to establish guidance on where roundabouts are to be used in the City, to describe the performance and operation of roundabouts, and to give general guidance on design standards for roundabouts, so that high standard and uniform design can be implemented. It is recognized that the use and design of roundabouts in the United States is an emerging technology and that as the technology improves, changes in design and application will be modified so that the best available practices can be implemented.

## **II. Modern Roundabouts – What Are They?**

In essence, a roundabout is a traffic circle that has been refined in its design principles and characteristics. These improved principles and design standards have made roundabouts a safe and efficient form of intersection control.

Traffic circles have many forms, but their common feature is that they are designed around a central island that prevents vehicles from passing through them on a linear path. Until recently, roundabouts have been slow to gain support in this country. The lack of acceptance can generally be attributed to the negative experience with traffic circles built in the earlier half of the twentieth century. Severe safety and operational problems caused these traffic circles to fall out of favor by the 1950's. However, substantial progress has been achieved in the subsequent design of circular intersections, and a modern roundabout should not be confused with the traffic circles of the past.

The modern roundabout is defined by four basic principles that distinguish it from a nonconforming traffic circle.

1. Roundabouts follow the “yield-at-entry” rule, in which approaching vehicles must wait for a gap in the circulating flow before entering the circle, whereas traffic circles require circulating vehicles to grant the right of way to entering vehicles.
2. Roundabouts involve low speeds for entering and circulating traffic, as governed by small diameters and deflected entrances. In contrast, traffic circles emphasize high-speed merging and weaving, made possible by larger diameters and tangential entrances.
3. Compared to most traffic circles, roundabouts are small. Usually, a roundabout can be retrofitted within the space used by an existing traffic signal or stop-controlled intersection, with little or no additional right-of-way required.
4. At the entrance of each roundabout, triangular ‘splitter islands’ prevent drivers from going around the circle the wrong way, and simultaneously provide a safe refuge for crossing pedestrians. These islands are not used in traffic circles.

In giving priority to entering vehicles, a traffic circle tends to lock up at higher volumes. The operation of a traffic circle is further compromised by the high-speed environment in which large gaps are required for proper merging. These deficiencies have been corrected with the modern roundabout.

Figure 1-1 following shows the layout and design of a basic modern roundabout.

### III. The Benefits of Roundabouts

In the interest of safety, the conflict between two competing traffic movements must be resolved by a traffic control device that gives one movement priority over the other. When both movements are heavy, the priority must be alternated or distributed in some manner or else one of the movements will fail. For high volume roadways, traffic signals provide the most common traffic control discipline in the U.S. because of the positive way in which the priority is alternated. Low volume roads are normally controlled by stop signs. A growing number of studies show that in many situations, modern roundabouts are both safer and more efficient than either traffic signals or stop signs.

For the past two decades, thousands of modern roundabouts have been replacing traffic signals and stop signs all across Europe. This trend is well documented by several papers presented at the conference "Giratoires '92" (Roundabouts '92). France, for instance, has been building about 1,000 roundabouts per year. In the Netherlands, more than 400 were built between 1986 and 1992. In Norway, the number swelled from just 15 in 1980 to 500 in 1992; in Switzerland, from 19 to 220 during the same period. And, with the construction of some 50 to 100 modern roundabouts in the last five to eight years, roundabouts have finally gained a foothold in the U.S.

Modern roundabouts are now found in a number of U.S. states, including California, Nevada, Florida, South Carolina, Massachusetts, Vermont, Tennessee, Texas, Washington, Kansas, Wisconsin and Maryland. They are being used in a wide range of applications: to control speeds on residential streets; to improve capacity at congested freeway interchanges; to beautify gateway entrances to towns and shopping centers; and, most importantly, to reduce the number and severity of crashes at both major and minor intersections. In many communities, the roundabouts have been so successful that residents have quickly demanded more to fix other problem intersections.

Sources such as Public Roads Magazine, Tech Transfer from the University of California Institute of Transportation Studies, and Transportation Departments from the states of Maryland and Florida indicate that the following benefits are gained through the use of roundabouts:

1. Safety – Roundabouts have been shown to reduce fatal and injury accidents as much as 75% in Australia and 86% in Great Britain. The reduction in accidents is attributed to slower speeds and reduced number of conflict points.
2. Low Maintenance – Eliminates maintenance costs associated with traffic signals. In addition, electricity costs are reduced.
3. Reduced Delay – By yielding at the entry rather than stopping and waiting for a green light, delay is significantly reduced. A reduction in delay corresponds to a decrease in fuel consumption and air pollution.
4. Capacity – Intersections with a high volume of left turns are better handled by a roundabout than a multi-phased traffic signal.
5. Aesthetics – The central island affords an opportunity to provide landscaping, or some other forms of beautification.

The reduction in crashes occurs for several reasons:

- The number of possible conflict points between vehicles decreases from 32 at a four-way intersection, to 8 at a roundabout. (See the figures below.) By reducing the number of conflict points, roundabouts also reduce the number of collisions.
- Vehicle speeds at roundabouts are much lower, generally less than 20mph. Lower speeds mean shorter braking distances and longer decision-making time. Therefore, even if someone makes a mistake a collision is easier to avoid.

- Decision-making is simplified. A driver about to enter has one decision: “Is there a vehicle circulating in the roundabout blocking my path?” If not, the driver enters. Otherwise, the driver waits for a gap.
- If a collision does occur at a roundabout, the force of impact is much lower due to the lower speed and the low angle of impact. No one can “run the red” and cause a right angle collision. Nor can a left-turning driver make a mistake in selecting a gap in the approaching through traffic, with the resulting head-on or right angle crash.

#### **IV. The Use of Roundabouts – Where They Are Applicable and Where They Are Not.**

Roundabouts perform better at intersections with roughly similar traffic flows and a high proportion of left turning traffic. This does not mean that all movements must be of the same magnitude. Rather, that the predominant movements are “broken up” by circulating traffic, so that gaps are provided to allow vehicles waiting on adjacent legs to enter the roundabout without major delays.

Engineering judgement and traffic analysis must be factored into the decision making process when roundabouts are being considered. Roundabouts are not the solution to all traffic problems at all locations. Careful study is required to identify the most appropriate control mode at any given location. The studies required to justify the installation of traffic signal control and all-way stop control are based on the warrants and requirements set forth in the Caltrans Traffic Manual. No such warrants or requirements exist for roundabouts.

Three general questions must be answered to justify a roundabout as the most appropriate form of control at any intersection.

- Will a roundabout be expected to perform better than other alternative control modes? In other words, will it reduce delay, improve safety or solve some other operational problem?
- Are there factors present to suggest that a roundabout would be a more appropriate control, even if delays with a roundabout are slightly higher?
- If any factors exist that makes installation of a roundabout inadvisable, can they be resolved satisfactorily?

If these questions may be answered favorably, then a roundabout should be considered as a logical candidate control mode.

Generally speaking, roundabouts are particularly suited in the following situations:

- Heavy delay on minor road.
- Traffic signals result in greater delay.
- Intersection with heavy left turning traffic.
- Intersection with more than four legs or unusual geometry.
- At rural intersections (including those in high-speed areas) at which there is an accident involving crossing traffic.
- Where major roads intersect at “Y” or “T” junctions.
- At locations where traffic growth is expected to be high and where future traffic patterns are uncertain or changeable.
- At intersections where U-turns are desirable.
- At Freeway Interchange Ramps.
- High accident intersection where right angle accidents are prominent.

Generally speaking, roundabouts are unsuitable in the following situations:

- Where a satisfactory geometric design cannot be provided.
- Where a signal interconnect system would provide a better level of service.
- Where it is desirable to be able to modify traffic via signal timings.
- Where peak period reversible lanes may be employed.
- Where the roundabout is close to existing signals and queuing from the signal could be a problem.
- Where there are insufficient gaps in the major flow, so that the minor flow has difficulty entering the roundabout. (Sometimes, however, this problem can be fixed by signaling one approach to a roundabout to create gaps for another leg. Usually, this signal need only be turned on during the peak hour.)
- Where traffic volumes are very high, say 6,000 vph. (Here a very large signalized intersection is necessary to separate vehicles in time. Alternatively, an overpass is probably more suitable and safer.)

## **V. Roundabout Justification**

Roundabouts have been used successfully in many cities throughout the world, including several in the U.S. They offer a proven form of traffic control that has, up to this point, not been applied extensively in Modesto. There may be several locations in the City that could benefit from the installation of a roundabout as an alternative to the more conventional intersection control methods.

This section sets forth the procedure required to justify a roundabout as the most appropriate form of control for a given situation. The procedure is intended to provide documented support for the decision to install a roundabout.

### **A. Intersection Control Alternatives**

There are three alternatives to roundabouts for intersection control. Each has significant operational limitations in comparison with a roundabout. Each alternative will be discussed separately:

**Traffic Signals** – Roundabouts can efficiently handle particular intersections with decreased delay and greater efficiency than traffic signals. This is especially true where traffic volumes entering the roundabout are roughly similar and where there are a high number of left turning vehicles.

**Two-Way Stop Control (TWSC)** can accommodate low traffic volumes with much less delay than traffic signals, but this control mode favors the major street (unstopped) movements at the expense of the minor street (stopped) movement. When the major street traffic volumes are heavy (typically 1400 vph or more) there is little or no opportunity for cross street access. This places a definite limit on the application of TWSC. Even when TWSC capacity is not exceeded, there is often public pressure to install signals at TWSC intersections.

**All-Way Stop Control (AWSC)** treats the cross street movements more favorably, without the wasted time associated with traffic signals. However, the rate at which vehicles may enter an intersection (i.e. headway) under AWSC is relatively low and, therefore, the total intersection capacity is somewhat limited.

The roundabout on the other hand, overcomes all of these disadvantages. There is no sequential assignment of right-of-way and therefore no wasted time. Left turns are not subordinated to through

traffic. Vehicles enter under yield control instead of stop control and therefore have lower headways and higher capacities. There are no electrical components to malfunction.

## **B. Roundabout Justification Categories**

To provide an organized approach to the justification process, a series of categories has been developed, each of which represents a good reason to install a roundabout. These categories are summarized in the following Table in terms of their anticipated relationships to warrants contained in the Caltrans Traffic Manual. A brief description of the justification categories is provided.

### **1. Community Enhancement**

Projects qualifying for roundabout treatment in this category should demonstrate that a roundabout is an essential part of the community's development plan for a given area, and not just an arbitrary idea. Roundabouts in this category would typically have one or more of the following characteristics:

- They are often located in commercial and civic districts. Traffic volumes would typically be low, otherwise, one of the more operationally oriented justification categories would normally be more appropriate;
- Aesthetics are an important factor in this category. Particular attention will be required with respect to choice of materials, landscaping requirements, etc.; and
- They will not generally be proposed as a solution to traffic problems. Therefore, any factors that would imply either operational or safety problems should be taken very seriously.

### **2. Traffic Calming**

Projects qualifying for roundabout treatment in this category should demonstrate that there is a need for traffic calming along the intersecting roadways. Although these roundabouts are primarily located in residential areas, there are situations where a roundabout on a higher classification road would be justified under this category. Examples of conditions that might suggest a need for traffic calming include:

- Documented observations of speeding, high traffic volumes and/or careless driving activities; or
- New construction (road opening, traffic signal, new road, etc.) which would potentially increase the volumes of "cut-through" traffic.

### **3. Safety Improvement**

Projects qualifying for roundabout treatment in this category should demonstrate that there is a safety problem at the intersection. In addition, it should be documented how the roundabout treatment will improve safety at the intersection. A special review of accident reports and the type of accidents occurring is usually necessary. Examples of safety problems include:

- High rates of crashes involving conflicts that would be readily resolved by a roundabout (right angle, head-on, left/through, U-turns, etc.);
- High crash severity that should be reduced by the slower speeds associated with roundabouts;
- Site visibility problems that reduce the effectiveness of stop sign control; and
- Inadequate separation of movements, especially on single lane approaches.

#### **4. All Way Stop Control Alternative**

Projects qualifying for roundabout treatment in this category should demonstrate that an all-way stop control (AWSC) is warranted and that delay from the roundabout treatment would compare favorably with the AWSC treatment. Traffic volumes in this category will not normally meet the Caltrans warrants for traffic signals.

#### **5. Low Volume Signal Alternative**

Projects qualifying for roundabout treatment in this category should demonstrate that warrants for a traffic signal have been met. It should also be demonstrated that delay from the roundabout treatment would compare favorably with the signal treatment. This category will normally be limited to single lanes on the approaches and on the circulating roadway.

#### **6. Medium Volume Signal Alternative**

Projects qualifying for roundabout treatment in this category should demonstrate that warrants for a traffic signal have been met. It should also be demonstrated that delay from the roundabout treatment would compare favorably with the signal treatment. This justification category is appropriate for two lane roundabouts, however, designs involving more than one lane should only be considered when an operational analysis indicates a significant advantage compared to a signalized intersection.

The conversion of an existing signalized intersection to a two-lane roundabout would normally be undertaken as a solution to an observed operational or safety problem caused by the signal.

#### **7. Special Conditions**

Projects qualifying for roundabout treatment in this category should demonstrate that site specific conditions make a roundabout the appropriate intersection treatment. These conditions include unusual geometrics, high traffic volumes, right-of-way limitations, 5 or more legs in the intersection, etc.

### **VI. Implementation Strategy:**

As stated earlier, roundabouts may be deployed at a variety of locations throughout the City of Modesto's transportation system. It is the policy of the City of Modesto to implement roundabouts at the following locations and in the following manner:

#### **A. At Minor Collector/Minor Collector Intersections:**

- For newly developing areas, each Minor Collector/Minor Collector intersection shall be evaluated for the installation of a roundabout, and except where there are physical constraints or significant overriding circumstances, roundabouts are proposed for installation.
- For retrofit locations, Section IX of this policy governs.

**B. At Intersections that are classified Minor Arterial/Collector; Minor Arterial/Minor Arterial or Principal Arterial/Minor Arterial, the following shall apply:**

**Before Installation:**

A roundabout at intersections with a classification higher than Collector/Collector cannot be justified as the most appropriate form of control without a sense of how it will perform at a specific intersection and how that performance will compare to other intersection control alternatives.

In the City of Modesto, the implementation of roundabouts at intersections classified Minor Arterial/Collector and above will be accomplished using the following approach:

- Step 1. Identify the target location.
- Step 2. Perform computerized capacity analysis of proposed roundabout installation. If favorable, then
- Step 3. Recommend, design and install the roundabout.

A capacity analysis of each proposed roundabout installation shall be conducted to demonstrate its ability to handle anticipated traffic volumes for the subject intersection using a 20-year design period. The capacity analysis shall be accomplished using traffic projections from the most up to date traffic model the City possesses and by using the most up to date simulation software available to simulate roundabout operation as determined by the City's Traffic Engineer. The capacity of the roundabout must be equal to or better than that provided by the appropriately warranted traditional traffic control devices for the same traffic design volumes being analyzed.

**After Installation:**

The analytical models described above can only estimate the performance of a roundabout. Actual performance can only be obtained through field observation. However, given that the roundabouts are designed and simulated based on a 20-year design period, the roundabouts should perform very well when first opened, and for a good number of years thereafter. Nonetheless, initial field observations of the roundabout operation at its inception is prudent. Observations will be made to verify that the roundabout operates as intended and the travelling public negotiates the roundabout in an appropriate manner. All of the following questions should produce negative answers:

- Do drivers stop unnecessarily at the yield point?
- Do drivers stop unnecessarily within the circulating roadway?
- Do any vehicles pass on the wrong side of the central island?
- Do queues from an external bottleneck back up in the roundabout on an exit road?
- Do the actual number of entry lanes differ from those intended by the design?
- Do smaller vehicles encroach on the truck apron?
- Is there evidence of damage to any of the signs in the roundabout?
- Is there any pedestrian activity on the central island?
- Do pedestrians and cyclists fail to use the roundabout as intended?
- Are there tire marks on any of the curb surfaces to indicate vehicle contact?
- Is there any evidence of minor accidents, such as broken glass, pieces of trim, etc., on the approaches or the circulating roadway?
- Is there any gravel or other debris collected in non-traveled areas that could be a hazard to bicycles or motorcycles?

These questions should all be examined in the days immediately after the roundabout opening. Both daytime and nighttime observations of the operating characteristics should be made. Follow-up strategies to ensure satisfactory operation may be implemented as necessary after initial observation. Periodic checks should also be made to ensure that no serious sight distance obstructions have occurred due to growth of foliage or roadside development. The City's Traffic Engineering Staff will continue to monitor traffic volumes, accidents and operations at intersections with roundabouts, just as they do at intersections where other alternative traffic control devices are in place.

## **VII. Design Criteria**

*As per Federal Highway Administration publication "ROUNDABOUTS: AN INFORMATIONAL GUIDE" and Caltrans Design Bulletin 80, both design guidelines and subsequent revisions shall be considered. Final approval will be by the City Traffic Engineer.*

The final approval will be based on whether the proposal conforms with the general concepts contained in this policy. The purpose of this document is to provide a basis for evaluating roundabout proposals, and it is not intended to contain the comprehensive information needed to complete a design. Proposed roundabouts being designed by City engineering staff and by those other than City staff should be discussed with the City's Traffic Engineer throughout the conceptual and design stages of the project.

## **VIII. Roundabout Installation in Newly Developing Areas**

Section V of this policy describes in general terms when a roundabout installation may be appropriate for a given situation. It is recognized that roundabout installation is applicable in a variety of geometric configurations, and as such, the design can vary greatly, depending on the situation. As such, it is incumbent upon the designer to work closely with the City's Traffic Engineer on the detailed design of a roundabout.

Roundabout installation, whether contemplated by the development community or by City staff, shall be coordinated with the City's Traffic Engineer. The City's Traffic Engineer shall give approval to the roundabout concept being proposed for a given intersection. Once approval is given, the design of the roundabout shall be in accordance with design standards set forth in the City's Standard Specifications or as directed by the City's Traffic Engineer to accommodate non-standard situations.

In newly developing areas, the developer shall be responsible to install roundabouts at Collector/Collector intersections. Roundabouts installed at higher classified intersections will be the responsibility of the developer as conditions of approval may warrant. In some cases, the City of Modesto may be responsible for installation via proceeds from a Community Facilities District.

## **IX. Roundabout Installation at Retrofit Locations**

There will be occasions when existing intersections in the City are scheduled to have new stop signs or traffic signals added to them, due to the need to assign right of way for increased safety purposes. Similarly, existing controlled intersections may be destined for an upgrade in controls (i.e., from a 2-way stop to a 4-way stop, or from a 4-way stop to a traffic signal). Thirdly, there may be occasions where an existing controlled intersection may warrant replacement with a roundabout (i.e., replace a 4-way stop with a roundabout). Lastly, an existing intersection may be destined for a roundabout for either traffic calming or beautification purposes.

In such cases as these, the installation of roundabouts may be considered as an alternative to the traditional forms of traffic control. These are considered “retrofit” situations and special consideration of roundabout installation is required.

If a roundabout is proposed in a retrofit situation, the design and installation must be such that all modes of vehicles using that particular intersection are accommodated, and the “modern roundabout” concept and operational characteristics are preserved. Generally speaking, roundabouts in retrofit situations would not be applicable to anything less than a minor collector/minor collector intersection (i.e., 60’ of right of way on each leg of the intersection). Even then, additional right of way may be required to gain proper deflection angles and tapers on all approaches. Each retrofit situation shall be analyzed on a case-by-case basis, and the final design of any proposed roundabouts at a retrofit location shall be approved by the Engineering and Transportation Director.

In the event a “retrofit” development adds a roundabout to an intersection in a previously-approved specific plan area that did not include such a roundabout, then that specific plan shall be amended in the usual and customary manner in accordance with state law and the applicable provision of the Modesto Municipal Code.

If it is decided that a roundabout will be deployed in a retrofit situation, and right of way is needed to install a properly designed roundabout, the City shall be responsible to acquire the right of way. If the situation is such that development has not occurred on one or more corners of the target intersection, then the property owner or developer of those non-developed parcels is responsible to dedicate the necessary right of way for proper installation of the roundabout.

In retrofit situations for a roundabout, notification will be 1,000 ft. All properties within 1,000 ft will be notified of the roundabout proposal.

## **X. Operation and Maintenance**

Roundabouts generally will become an asset of the City once public improvements are accepted as complete by the City Council. Exceptions would be those roundabouts that are constructed within a private gated community, or on any other non-public thoroughfare. The City of Modesto will assume responsibility for operation and maintenance of those roundabouts that are within the public right of way. Maintenance of landscaping associated with a City-owned roundabout may be the City’s responsibility, or may be included in a Capital Facilities District, and therefore, the CFD’s responsibility.

## **XI. Appeal of Staff Decision**

Any staff decision made pursuant to this policy may be appealed to the City Council pursuant to Section 1-4.01 through 1-4.05 of the Modesto Municipal Code.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-452**

**A RESOLUTION APPROVING THE RECOMMENDATION OF THE CITIZENS HOUSING AND COMMUNITY DEVELOPMENT COMMITTEE (CH&CDC) TO PROVIDE A \$640,000 LOAN TO HABITAT FOR HUMANITY, STANISLAUS, TO PURCHASE A 1.85-ACRE PARCEL FOR THE DEVELOPMENT OF THE HOPE VILLAGE PROJECT, A 20-UNIT AFFORDABLE HOUSING PROJECT FOR LOW-INCOME FAMILIES, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE LOAN AGREEMENT.**

WHEREAS, on March 1, 2004, Anita Hellam, Executive Director for Habitat for Humanity, Stanislaus (Habitat), contacted the City of Modesto, Parks, Recreation and Neighborhoods Department (PR&N) regarding a 1.85-acre parcel of property that the Habitat "Site Selection Committee" had recently found for sale, and

WHEREAS, Habitat was interested in pursuing the property due to the parcel's appropriate zoning and ideal location, a parcel zoned R-3, Medium High Density Residential, in a low-income census tract, at the end of Houser Lane in Southwest Modesto, north of Paradise Road, and

WHEREAS, after several negotiations between Habitat for Humanity and the property owner, both parties agreed on a selling price of \$650,000 for this parcel, and

WHEREAS, Habitat for Humanity was required to pay \$10,000 deposit, and escrow is currently scheduled to close on September 10, 2004, pending approval of the \$640,000 loan, and

WHEREAS, the City of Modesto received an appraisal of this parcel on March 31, 2004, prepared by Cogdill & Giomi Real Estate Appraisers and Consultants; the 1.85-acre rectangular shaped site, void of any structural improvements, was appraised "as is" at a market value of \$650,000; the parcel has been mapped to a subdivision of ten residential lots, averaging around 6,450 square feet in size; and the price per paper lot is \$65,000, and

WHEREAS, according to the property appraisal, the property under discussion, owned by the Petersen family, has existed as a partially improved multi-family rental, with excess land, for several years; recently the Petersens decided to map a large portion of the property to the ten proposed lots, then, deciding against actual development and construction of duplex properties, the Petersens opted to sell the proposed lot portion of their property to Michael Beckwith, a local developer/builder, and

WHEREAS, in February of this year, escrow opened with Northern American Title to facilitate the sale from the Petersens to Michael Beckwith; the appraisal states the purchase price established by the sellers at \$35,000 per potential lot, and

WHEREAS, after Michael Beckwith deposited substantial non-refundable money to secure the property, a deal was agreed on between Michael Beckwith and Habitat for Humanity; the property was never listed for sale, but a local broker, Fred Miller with Lapata Realty brought the two parties together, and after negotiation, structured a contract based on \$65,000 per paper lot, and

WHEREAS, on April 6, 2004, by Resolution 2004-194, the City Council approved the allocation of \$10,000 of Community Housing Development Organization (CHDO) set-aside funds from the HOME Investment Partnership Program to Habitat for Humanity, for the deposit required for the purchase of this property; also, on this date, Habitat for Humanity submitted a timeline for the land acquisition, predevelopment activities and construction of the proposed twenty (20) affordable housing units, and

WHEREAS, a review sub-committee, consisting of three members of the CH&CDC, met on Friday, May 7, and Monday, May 10, 2004, to review the request from Habitat for Humanity, the appraisal and project timeline; the sub-committee agreed that this is a good opportunity to provide affordable housing; the sub-committee also

recommended that the City request a development proforma from Habitat for Humanity, which has been submitted, and

WHEREAS, on May 14, 2004, the CH&CDC supported the general recommendation that the City Council approve a \$640,000 loan to Habitat for Humanity, Stanislaus, to purchase a 1.85-acre parcel for the development of 20 affordable housing units; however, the specific agreement terms were not decided at this point, so the staff brought this item to the CH&CDC meeting on June 28, 2004, and

WHEREAS, since the first contact with Habitat for Humanity, staff has been meeting with the City Attorney's Office as well as the representatives of Habitat for Humanity to discuss options for the acquisition of the property, the terms of a potential loan, and the relocation of the residents that are occupying the two existing structures, and

WHEREAS, staff has also obtained an estimated cost of the infrastructure needed for this piece of property; the cost to add the infrastructure is approximately \$620,000; this estimate does not include PG&E, MID, SBC, Cable TV, engineering, mapping, sewer connection or water connection charges or service fees; Habitat for Humanity will be responsible for raising the necessary funds to add the infrastructure, and

WHEREAS, on June 28, 2004, the CH&CDC discussed this issue extensively, primarily due to two "risk issues" identified by staff:

- Habitat for Humanity has minimum experience developing a project of this magnitude; this project will not only include the construction of 20 houses, but will also involve the planning and development of the corresponding infrastructure; this is a new undertaking for the local Habitat organization,
- the funding needed to complete this project has not been secured nor have all the potential sources been identified yet,

and

WHEREAS, The CH&CDC ultimately recommended an initial loan to Habitat for \$640,000 with a two-year agreement with the following items:

1. Habitat will raise funds of \$325,000 to match a portion of the City's contribution of \$650,000 within one year of the date of the signed loan agreement. Habitat will raise an additional \$300,000 within two years of the signed loan agreement. The funds may come from diverse sources such as donations, grants, loans or other sources. The funds shall be set aside or designated to the Hope Village Project. The funds can be in hand or guaranteed by written commitment or authorization. A total of \$625,000 will be raised by Habitat within two years of the signed loan agreement between Habitat and the City of Modesto.
2. Habitat will submit a complete application for the 20-parcel lot split to the City of Modesto Planning Division within two years of the signed loan agreement between Habitat and the City of Modesto. Habitat received a letter from the City of Modesto Planning Division stating that the feasibility for placing 20 homes on the 1.85-acre lot looks promising.
3. If the previous conditions are not met, Habitat will refund \$640,000 to the City.

and

WHEREAS, if all conditions listed above are met and Habitat raises funds in the amount of \$625,000 within two years, then the City of Modesto will re-issue a loan agreement with a 30-year amortization period, deferred for 5 years for 16 low-income units, and a 30-year deferral for 4 very low-income units, with the following affordability clauses and loan conditions:

**Low-Income Households:**

- A. 16 units will be allocated for low-income families (60% of the Area Median Income or below).
- B. 30-year amortized loan, zero percent (0%) interest, and deferred for five years from the day the money is transferred to Habitat for Humanity. Until the properties are built and "sold" to low-income households, Habitat will hold the title and will be responsible for any payments or relocation issues on the property.
- C. The repayment of debt will be transferred from Habitat at a rate of 1/20 for each property (\$32,500) when it is sold to individual households. Title for each unit will be transferred to the new owner and secured by a Note.

**Very Low-Income Households:**

- D. In addition, twenty (20%) percent of the units, or four (4) units, will be assigned to very-low income families, including homeless families, or households that are under 35% of the Area Median Income or below. Both parties agreed to the following terms for four (4) of the twenty units:
- 1) Defer payments on these units for thirty (30) years, or
  - 2) Require that the total amount owed to the City become due and payable at the time of sale or transfer of ownership from the first household, refinancing of the property or upon change of use of the property, if the first household owner moves out and/or rents the unit.

**Timeline for construction:**

- E. Habitat will complete one fourth of the units (5 units) by January 2008.
- F. Habitat will complete one half of the units (10 units) by January 2009.
- G. Habitat will complete three fourths of the units (15 units) by January 2010.
- H. Habitat will complete all 20 proposed units by January 2011.

and

WHEREAS, although staff believes that this transaction is risky, the high demand of affordable housing requires immediate action; the City of Modesto and Habitat have worked together to provide performance triggers that will help protect the City's investment as well as ensuring a positive project completion,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby authorizes staff to allocate \$640,000 for a loan to Habitat for Humanity, Stanislaus, to purchase a 1.85-acre parcel for the development of the Hope Village Project, a 20-unit affordable housing project for low-income families.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the necessary loan agreement and documents.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of September, 2004, by Mayor Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

NOES: Councilmembers: None

ABSENT: Councilmembers: None

Attest: Jean Zahr  
JEAN ZAHR, City Clerk

APPROVED AS TO FORM:

By: Michael D. Milich  
MICHAEL D. MILICH, City Attorney

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-453**

**RESOLUTION APPROVING A LOAN AGREEMENT FOR A NO-INTEREST \$400,000 LOAN BETWEEN THE CITY OF MODESTO AND THE STANISLAUS COUNCIL OF GOVERNMENTS FOR THE STATE ROUTE 132 WIDENING PROJECT AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT**

WHEREAS, Stanislaus Council of Governments (StanCOG) is the Regional Transportation Planning Agency (RTPA) for Stanislaus County pursuant to Section 29532(b) of the California Government Code and, as such, is responsible for State transportation planning and programming for Stanislaus County, and

WHEREAS, under California Government Code Section 14529.7, StanCOG may enter into an agreement with the California Transportation Commission (CTC) to use local funds to implement a State Transportation Implementation Program (STIP) project at an earlier date than it has been programmed by the State and to receive a later reimbursement from STIP funds, and

WHEREAS, StanCOG proposes to widen State Route 132 (SR 132) to a uniform four lanes from Frazine Road and Codoni Road in the east to Riverside drive in the west including:

- A median divider designed and equipped for future landscaping;
- Intersection and pedestrian safety improvements;
- Sidewalk installation on the north side of road;
- Storm drainage improvements; and
- A continuous bicycle lane; and

WHEREAS, the completion of this project will significantly improve overall traffic flow in the State Route 132/Beard Industrial Tract Area, facilitate up to 15,000 daily truck trips, stimulate jobs and economic development, and ease congestion on adjacent roadways, and

WHEREAS, insufficient STIP funds are available to implement the project on schedule resulting in a potential delay of the project, and

WHEREAS, StanCOG has requested that the City of Modesto, the Economic Development Bank, the State Infrastructure Bank, the private sector, and the StanCOG Regional Surface Transportation Program to loan or grant funds to implement the project on schedule under the provisions of Government Code Section 14529.7 according to the following formula:

Federal Regional Funds Grant (RSTP)	\$ 140,000
Federal Regional Funds Loan (RSTP)	\$ 75,000
Stanislaus County Economic Development Bank Loan	\$ 420,000
City of Modesto Loan	\$ 400,000
State Infrastructure Bank Loan	\$ 520,000
Private Sector Grants	\$ 25,000
<hr/> TOTAL	<hr/> \$ 1,580,000

and

WHEREAS, the Council has identified this project as an important transportation project within the City's General Plan Sphere of Influence, and

WHEREAS, initially, it appeared that by entering into this loan agreement there was no risk to the City but after legal review a potential risk was identified, and

WHEREAS, it was believed that once StanCOG entered into an AB 3090 agreement with the California Transportation Commission (CTC) State law required that these funds be paid back on the agreed upon date, and

WHEREAS, in reality, these funds are subject to annual legislative appropriation, and the potential exists that the legislature will not appropriate STIP funds permitting StanCOG to reimburse the City pursuant to the provisions of Section 14529.7, and

WHEREAS, despite this risk, staff feels that the benefits of providing this loan to StanCOG outweigh the potential risk of late or nonpayment, and

WHEREAS, staff recommends that the City Council approve, and the City Manager execute, a loan agreement that provides StanCOG \$400,000 as a no-interest loan to be repaid on or before July 1, 2007, and

WHEREAS, StanCOG agrees to repay the \$400,000 loan on or before July 1, 2007, using State funds with only those limitations consistent with Public Utility Code Section 99402, and

WHEREAS, no interest will be charged to StanCOG if the loan is repaid on or before July 1, 2007, and

WHEREAS, in the unlikely circumstance that StanCOG does not repay the loan on or before July 1, 2007, the loan will convert to a 4% APR, compounded interest-bearing loan beginning July 1, 2007, and

WHEREAS, all reimbursements to the City or to other parties of the SR132 Loan Package made by StanCOG or any project overrun costs incurred by StanCOG will not decrease the City's state or federal apportionment from any funding source that it would otherwise received in any year, and

WHEREAS, the following requirements as defined in the City Manager's Letter of Intent dated December 8, 2003, have been meet as follows:

1. StanCOG has executed agreements with all parties of the funding package.
2. The CTC has approved the required STIP amendment for reimbursement of the loan,
3. StanCOG and Caltrans have executed the required Government Code Section 14529.7 reimbursement agreement for this project,

4. StanCOG board has approved the City's supplemental Local Transportation Fund claim for FY 2003 and the City has received payment of this claim, and

WHEREAS, StanCOG has agreed to provide the City a complete set of executed loan and grant agreements before the September 7, 2004, Council Meeting,

NOW, THEREFORE, BE IT RESOLVED, that the City Council hereby approves a loan agreement for a no-interest \$400,000 loan between the City of Modesto and the Stanislaus Council of Governments for the State Route 132 Widening Project.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of September, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Council members: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 454**

**A RESOLUTION AMENDING THE BUDGET TO APPROPRIATE \$400,000 INTO ACCOUNT 0510-430-4382-0497 TO ENABLE THE CITY OF MODESTO TO EXECUTE A \$400,000 NO-INTEREST LOAN WITH THE STANISLAUS COUNCIL OF GOVERNMENTS FOR THE STATE ROUTE 132 WIDENING PROJECT**

WHEREAS, Stanislaus Council of Governments (StanCOG) is the Regional Transportation Planning Agency (RTPA) for Stanislaus County pursuant to Section 29532(b) of the California Government Code and, as such, is responsible for State transportation planning and programming for Stanislaus County, and

WHEREAS, under California Government Code Section 14529.7, StanCOG may enter into an agreement with the California Transportation Commission (CTC) to use local funds to implement a State Transportation Implementation Program (STIP) project at an earlier date than it has been programmed by the State and to receive a later reimbursement from STIP funds, and

WHEREAS, StanCOG proposes to widen State Route 132 (SR 132) to a uniform four lanes from Frazine Road and Codoni Road in the east to Riverside drive in the west, and

WHEREAS, the City desires to provide a \$400,000, no-interest loan to StanCOG to help fund said project,

NOW, THEREFORE, BE IT RESOLVED by the City Council that it hereby approves amending the FY 04-05 budget to appropriate \$400,000 in account number 0510-430-4382-0497 in order to execute said loan with the Stanislaus Council of Governments in the amount of \$400,000 for the State Route 132 Widening Project.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of September, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 455**

**WAS NOT USED**

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-456**

**A RESOLUTION APPROVING AN AGREEMENT FOR \$981,750.00 BETWEEN THE CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2004-1 (VILLAGE ONE #2) AND HASHEM NARAGHI, TRUSTEE OF THE NORA NARAGHI SEPARATE PROPERTY TRUST FOR RIGHT OF WAY ACQUISITION OF PROPERTY FOR CONSTRUCTION OF FLOYD AVE. AND AUTHORIZING THE DISTRICT ADMINISTRATOR TO EXECUTE THE AGREEMENT AND ALL RELATED PROPERTY DOCUMENTS, AND AUTHORIZE THE CITY ENGINEER TO ACCEPT THE DEDICATIONS OF RIGHT-OF-WAY AS GRANTEE ON BEHALF OF THE CITY OF MODESTO**

WHEREAS, the Floyd Ave. road widening project is listed as a priority 1 facility on the Village One Facilities Prioritization List included in the Village One Facilities Master Plan, and

WHEREAS, this segment of Floyd between Oakdale Rd. and Roselle Ave. is currently being designed to accommodate a four lane road as described in the Village One Facilities Master Plan, and

WHEREAS, additional right-of-way must be acquired on the north side of Floyd Ave. to construct the proposed Floyd Ave. road widening project, and

WHEREAS, additional right-of-way must be acquired on Roselle Ave. and Oakdale Rd. to construct the proposed Floyd Ave. at Oakdale Rd. intersection and the Floyd Ave. at Roselle Ave. intersection, and

WHEREAS, The City of Modesto desires to acquire 5.775 acres of property for right-of-way from Hashem Naraghi, trustee of the Nora Naraghi separate property trust,

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that the Agreement for the amount of \$981,750.00 between the City of Modesto Community Facilities District No. 2004-1 and Hashem Naraghi, trustee of the Nora

Naraghi Separate Property Trust, for right of way acquisition of property for construction of Floyd Ave. is hereby approved.

BE IT FURTHER RESOLVED that the District Administrator, or his designee, is hereby authorized to execute the Agreement and all related property documents as Grantee on behalf of the City of Modesto.

BE IT FURTHER RESOLVED that the City Engineer, or his designee, is hereby authorized to accept the dedication of right-of-way as Grantee on behalf of the City of Modesto.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of September, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-457**

**A RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS  
CONSISTENT WITH THE SCOPE OF THE VILLAGE ONE  
ENVIRONMENTAL IMPACT REPORT (SCH NO. 90020181), AS AMENDED BY  
THE SUPPLEMENTAL EIR: ACQUISITION OF RIGHT OF WAY FOR THE  
WIDENING OF FLOYD AVENUE**

WHEREAS, the Modesto City Council has adopted Resolution No. 90-757 certifying that the Village One Final Environmental Impact Report (“EIR”) (State Clearinghouse No. 90020181) is complete and adequate pursuant to Section 15090 of the California Environmental Quality Act (“CEQA”) Guidelines, and

WHEREAS, on May 24, 1994, the Modesto City Council has adopted Resolution No. 94-297 which certified the Final Supplemental EIR for Village One which amended and supplemented the 1990 Village One Program EIR, and

WHEREAS, the City is proposing to acquire right-of-way on the north side of Floyd Avenue for the purpose of widening Floyd Avenue in accordance with the adopted Village One Specific Plan and Village One Facilities Master Plan (“Project”), and,

WHEREAS, City staff prepared a Written Checklist, Environmental Assessment No. CM 2004-1, which concluded that the proposed Project is within the scope of the Village One Program EIR (SCH No. 90020181), as amended by the Village One Supplemental EIR, and

WHEREAS, on September 14, 2004, at 5:30 p.m. in the Tenth Street Place Chambers, located at 1010 Tenth Street, Modesto, California, said matter was considered by the City Council at a duly noticed public hearing,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered Environmental Assessment No. EA/CM 2004-1 entitled “City of Modesto Written Checklist – Acquisition of Right of Way for the

Widening of Floyd Avenue”, for the proposed Project, and the Council hereby makes the following findings:

- A. As per Sections 15168(c) and 15182 of the California Environmental Quality Act ("CEQA") Guidelines, this Project is within the scope of the projects covered by the Village One Specific Plan Program EIR, as amended by the Village One Supplemental EIR ("Program EIR") and no new environmental document or findings are required by CEQA.
- B. There are no substantial changes proposed in the Project which result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the Village One Program EIR, as amended by the 1994 Supplemental EIR are required.
- C. No substantial changes have occurred with respect to the circumstances under which the Project is undertaken which will result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the Village One Program EIR, as amended by the 1994 Supplemental EIR are required.
- D. There is no new information of substantial importance which was not known and could not have been known with the exercise of reasonable diligence when the Village One Program EIR, as amended by the 1994 Supplemental EIR, was adopted which shows any of the following:
  - a. one or more significant effects which is not discussed in the Village One Program EIR, as amended by the 1994 Supplemental EIR; or,
  - b. significant effects which were previously examined will be substantially more severe than previously shown; or,
  - c. previously infeasible mitigation measures or alternatives are now feasible and would substantially reduce one or more significant effects of the Project, but the Project proponents decline to adopt the mitigation measure or alternative; or,
  - d. mitigation measures or alternatives which are considerably different from those analyzed in the Village One Program EIR, as amended by the 1994 Supplemental EIR, would substantially reduce one or more significant effects on the environment, but the Project proponents decline to adopt the mitigation measure or alternative.
- E. There are no specific features which are unique to the proposed Project that require project specific mitigation measures. Accordingly, the certified mitigation measures identified in the Program EIR will be sufficient for this Project. All feasible mitigation measures set forth in the

Program EIR which are appropriate to the Project shall be incorporated into the Project.

- F. The Written Checklist, Environmental Assessment No. EA/CM 2004-1, provides the substantial evidence to support findings A through E, above, and the City hereby determines that no further environmental documentation is required for the proposed project.

A copy of said Environmental Assessment No. EA/CM 2004-1, entitled "City of Modesto Written Checklist – Acquisition of Right of Way for the Widening of Floyd Avenue", is attached hereto as **Exhibit "A"**, and incorporated herein by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of September, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour

## WRITTEN CHECKLIST

EA/C&ED No. 2004-

### I. PURPOSE

This written checklist, pursuant to CEQA Guidelines Section 15168 (C) (4), serves to make a determination where subsequent activities of a Program EIR involve site-specific operations, based on evaluation of the site and the activity to determine whether the environmental effects of the operation were covered in the program EIR. Based on a review of the project and Section 15162(a), this determination would permit the lead agency (City of Modesto) to approve the activity as being within the scope of the project covered by the Program EIR. This determination includes whether any new environmental document is required beyond the adopted Village One Specific Plan Program EIR (SCH# 90020181) for the proposed Floyd Avenue , Roselle Avenue and Oakdale Road Right of Way acquisition project.

The 1994 Supplemental EIR that amended and superseded the 1990 Program EIR is the document reviewed for projects within the Village One Specific Plan area. Where appropriate those feasible mitigation measures developed in the Supplement to the program EIR shall be incorporated into the proposed project.

### II. PROJECT INFORMATION

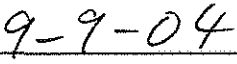

1. **Project Title:** Floyd Avenue , Roselle Avenue and Oakdale Road Right of Way acquisition.
  
2. **Lead Agency Name and Address:** City of Modesto  
1010 Tenth Street  
Modesto, Ca 95353
  
3. **Contact Person and Phone Number:** Victoria Dion  
209/577-5211

- 4. Project Location:** Village One Specific Plan Area  
Modesto, California  
APNs: 077-008 parcels 30-36.
- 5. Project Sponsor's Name and Address:** City of Modesto  
CFD 2004-1  
P.O. Box 642  
Modesto, CA 95353
- 6. General Plan Designation:** The General Plan land use designations include Village Residential (VR) which allows predominantly single-family residential uses; Multi-Family Residential; Senior Housing; School/Park/Basin site; Commercial; and Business Park (BP) which allows light industrial manufacturing, office, associated service retail (and, in Village One, regional commercial) uses.
- 7. Zoning:** Village Residential and multi family residential
- 8. Description of Project:** Pursuant to the adopted Village One Specific Plan, the City of Modesto is acquiring right of way for the improvements of Roselle and Floyd Avenues and Oakdale Road.
- 9. Surrounding Land Uses and Setting:** The Village One Specific Plan Area is over half built, as planned and approved by the 1990 Village One Specific Plan. The project area is surrounded by rural, agricultural, and open space land uses to the North, South and East, and by residential uses to the West.
- 10. Other Public Agencies whose Approval Is Required:** None.

### **III. DETERMINATION:**

Based on the analysis contained in this document, staff finds that pursuant to Guidelines Section 15162 the following is true for the proposed project:

- (1) Major revisions to the Village One Program EIR as amended by the 1994 Supplement, are not required because the project will not involve new significant environmental effects or increase severity of effects previously identified, and
- (2) Major revisions to the Village One Program EIR as amended by the 1994 Supplement, are not required because no substantial changes to circumstances have occurred that involve new significant environmental effects or increase severity of effects previously identified, and
- (3) No new information of substantial importance that was not known has become available that shows:
  - a. one or more significant effects is not discussed in the Village One Program EIR as amended by the 1994 Supplement,
  - b. identified significant effects will be more severe,
  - c. previously infeasible mitigation measures are now feasible,
  - d. project proponents have declined to adopt mitigation measures that would substantially reduce significant effects.
- (4) Because no new significant effects have been identified and no new mitigation is required for the project, the environmental effects of the operation of the proposed project were covered by the Village One Program EIR as updated by the 1994 Supplement. Therefore, pursuant to CEQA Section 15168 (C) (4) no new environmental document is required.
- (5) Therefore, the Floyd Avenue , Roselle Avenue and Oakdale Road Right of Way acquisition.. project is within the scope of the Village One Program EIR.

   
\_\_\_\_\_  
Project Manager Date

**IV. PROJECT EVALUATION:**

The following written Checklist based on Appendix G of the CEQA Guidelines serves to document the evaluation of the site and activity of the proposed project pursuant to CEQA Guidelines Section 15168 (c) (4) to determine whether the environmental effects of the operation were covered in the Program EIR.

		Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
<b>I. AESTHETICS.</b>	Would the project:				
a.	Have a substantial adverse effect on a scenic vista?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b.	Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings along a scenic highway?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c.	Substantially degrade the existing visual character or quality of the site and its surroundings?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d.	Create a new source of substantial light or glare that would adversely affect daytime or nighttime views in the area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Aesthetic and visual impacts are analyzed on pages III-100 through III-101 of the 1994 Supplement.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**II. AGRICULTURAL RESOURCES.** In determining whether impacts on agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Department of Conservation. Would the project:

- |    |   |                          |                          |                          |                                     |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Conflict with existing zoning for agricultural use or conflict with a Williamson Act contract?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Involve other changes in the existing environment that, due to their location or nature, could result in conversion of Farmland to non-agricultural use?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on agricultural resources are analyzed on pages III-80 through III-94 of the 1994 Supplement.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**III. AIR QUALITY.** When available, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the following determinations. Would the project:

- |    |   |                          |                          |                          |                                     |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Conflict with or obstruct implementation of the applicable air quality plan?                                    | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Violate any air quality standard or contribute substantially to an existing or projected air quality violation? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

- |    |   |                          |                          |                          |                                     |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| c. | Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is a nonattainment area for an applicable federal or state ambient air quality standard (including releasing emissions that exceed quantitative thresholds for ozone precursors)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Expose sensitive receptors to substantial pollutant concentrations?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e. | Create objectionable odors affecting a substantial number of people?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on air quality are analyzed on pages III-45 through III-54 of the 1994 Supplement.

		Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
<b>IV. BIOLOGICAL RESOURCES.</b>	Would the project:				
a.	Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special-status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b.	Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c.	Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marshes, vernal pools, coastal wetlands, etc.) through direct removal, filling, hydrological interruption, or other means?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d.	Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
		Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
e.	Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f.	Conflict with the provisions of an adopted	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan?

Impacts on biological resources are analyzed on pages III-68 through III-79 of the 1994 Supplement.

**Responses to Checklist Questions**

a.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
<b>V. CULTURAL RESOURCES.</b> Would the project:				
a. Cause a substantial adverse change in the significance of a historical resource as defined in Section 15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Cause a substantial adverse change in the significance of an archaeological resource pursuant to Section 15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c. Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Disturb any human remains, including those interred outside of formal cemeteries?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

**Responses to Checklist Questions**

a.-d. Impacts on cultural resources resulting from the Right-of-Way Acquisition (e.g., from construction of associated infrastructure) are addressed in the Opportunities/Constraints Report prepared for the Modesto Planning Commission (December 1, 1989). The report concluded that there are no known historic, archaeological, or paleontological resources in the Village One Specific Plan area.

Potentially Significant Impact    Less than Significant with Mitigation Incorporated    Less-than-Significant Impact    No Impact

**VI. GEOLOGY AND SOILS.** Would the project:

- a. Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving:
  - 1. Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42.
  - 2. Strong seismic groundshaking?
  - 3. Seismic-related ground failure, including liquefaction?
  - 4. Landslides?
- b. Result in substantial soil erosion or the loss of topsoil?
- c. Be located on a geologic unit or soil that is unstable or that would become unstable as a result of the project and potentially result in an onsite or offsite landslide, lateral spreading, subsidence, liquefaction, or collapse?
- d. Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property?
- e. Have soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater?

Impacts associated with geology and soils are analyzed on pages III-105 through III-108 of the 1994 Supplement.

**Responses to Checklist Questions**

Potentially Significant Impact    Less than Significant with Mitigation Incorporated    Less-than-Significant Impact    No Impact

**VII. HAZARDS AND HAZARDOUS MATERIALS.** Would the project:

- |    |  |                          |                          |                          |                                     |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Emit hazardous emissions or involve handling hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Be located on a site that is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?                   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e. | Be located within an airport land use plan area or, where such a plan has not been adopted, be within two miles of a public airport or public use airport, and result in a safety hazard for people residing or working in the project area? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

		Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
f.	Be located within the vicinity of a private airstrip and result in a safety hazard for people residing or working in the project area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g.	Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
h.	Expose people or structures to a significant risk of loss, injury, or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with hazards and hazardous materials are analyzed on pages III-80 through III-94 and III-109 through III-119 of the 1994 Supplement.

		Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
<b>VIII. HYDROLOGY AND WATER QUALITY.</b>					
Would the project:					
a.	Violate any water quality standards or waste discharge requirements?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b.	Substantially deplete groundwater supplies or interfere substantially with groundwater recharge, resulting in a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level that would not support existing land uses or planned uses for which permits have been granted)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

		Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
c.	Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner that would result in substantial erosion or siltation onsite or offsite?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d.	Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner that would result in flooding onsite or offsite?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e.	Create or contribute runoff water that would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f.	Otherwise substantially degrade water quality?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g.	Place housing within a 100-year flood hazard area, as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
h.	Place within a 100-year flood hazard area structures that would impede or redirect floodflows?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
i.	Expose people or structures to a significant risk of loss, injury, or death involving flooding, including flooding as a result of the failure of a levee or dam?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
j.	Contribute to inundation by seiche, tsunami, or mudflow?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with hydrology are analyzed on pages III-109 through III-119 of the 1994 Supplement.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**IX. LAND USE AND PLANNING.** Would the project:

- |    |   |                          |                          |                          |                                     |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Physically divide an established community?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Conflict with any applicable land use plan, policy, or regulation of an agency with jurisdiction over the project (including, but not limited to, a general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Conflict with any applicable habitat conservation plan or natural community conservation plan?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts associated with land use and planning are analyzed on pages III-80 through III-94 of the 1994 Supplement.

**Responses to Checklist Questions**

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**X. MINERAL RESOURCES.** Would the project:

- |    |   |                          |                          |                          |                                     |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?                                 | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

## Responses to Checklist Questions

- a., b. No known mineral resources or important recovery sites are located in the Village One Specific Plan Area. There would be no impact. No mitigation is required.

		Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
<b>XI. NOISE.</b> Would the project:					
a.	Expose persons to or generate noise levels in excess of standards established in a local general plan or noise ordinance or applicable standards of other agencies?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b.	Expose persons to or generate excessive groundborne vibration or groundborne noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c.	Result in a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d.	Result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e.	Be located within an airport land use plan area, or, where such a plan has not been adopted, within two miles of a public airport or public use airport and expose people residing or working in the project area to excessive noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f.	Be located in the vicinity of a private airstrip and expose people residing or working in the project area to excessive noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with noise are analyzed on pages III-55 through III-67 of the 1994 Supplement.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**XII. POPULATION AND HOUSING.** Would the project:

- |    |  |                          |                          |                          |                                     |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Induce substantial population growth in an area, either directly (e.g., by proposing new homes and businesses) or indirectly (e.g., through extension of roads or other infrastructure)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Displace a substantial number of existing housing units, necessitating the construction of replacement housing elsewhere?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Displace a substantial number of people, necessitating the construction of replacement housing elsewhere?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on population and housing are analyzed on pages III-95 through III-99 of the 1994 Supplement.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**XIII. PUBLIC SERVICES.** Would the project:

- a. Result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities or a need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times, or other performance objectives for any of the following public services:

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

	Impact	with Mitigation Incorporated	Impact	
Fire protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Police protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Schools?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Parks?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Other public facilities?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on public services are analyzed on pages III-120 through III-158 of the 1994 Supplement.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Significant Impact
<b>XIV. RECREATION.</b> Would the project:				
a. Increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Include recreational facilities or require the construction or expansion of recreational facilities that might have an adverse physical effect on the environment?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on recreation are analyzed on pages III-120 through III-158 of the 1994 Supplement.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**XV. TRANSPORTATION/TRAFFIC.** Would the project:

- |    |   |                          |                          |                          |                                     |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Cause an increase in traffic that is substantial in relation to the existing traffic load and capacity of the street system (i.e., result in a substantial increase in the number of vehicle trips, the volume-to-capacity ratio on roads, or congestion at intersections)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Cause, either individually or cumulatively, exceedance of a level-of-service standard established by the county congestion management agency for designated roads or highways?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Substantially increase hazards because of a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e. | Result in inadequate emergency access?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f. | Result in inadequate parking capacity?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| g. | Conflict with adopted policies, plans, or programs supporting alternative transportation (e.g., bus turnouts, bicycle racks)?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on transportation and traffic are analyzed on pages III-40 – III-44 of the 1994 Supplement.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**XVI. UTILITIES AND SERVICE SYSTEMS.**

Would the project:

- |    |   |                          |                          |                          |                                     |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?                           | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Require or result in the construction of new stormwater drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?                                     | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Have sufficient water supplies available to serve the project from existing entitlements and resources, or would new or expanded entitlements be needed?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e. | Result in a determination by the wastewater treatment provider that serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f. | Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| g. | Comply with federal, state, and local statutes and regulations related to solid waste?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on utilities and service systems are analyzed on pages III-120 through III-158 of the 1994 Supplement.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**XVII. MANDATORY FINDINGS OF SIGNIFICANCE.**

- |    |  |                          |                          |                          |                                     |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Does the project have impacts that are individually limited but cumulatively considerable? (“Cumulatively considerable” means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.)   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Does the project have environmental effects that will cause substantial adverse effects on human beings, either directly or indirectly?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Cumulative impacts are analyzed on page III-161 of the 1994 Supplement.

**Responses to Checklist Questions**

- a. As described above, the proposed Floyd Avenue , Roselle Avenue and Oakdale Road Right of Way acquisition would not result in any significant impacts on the environment over and above those associated with implementation of the Village One Specific Plan and as analyzed in the Village One Specific Plan program EIR.
- b. As described above, the proposed Floyd Avenue , Roselle Avenue and Oakdale Road Right of Way acquisition would not result in any significant impacts, either on a project or on cumulative level, over and above those associated with implementation of the Village One Specific Plan and as analyzed in the Village One Specific Plan program EIR.

- c. As described above, the proposed Floyd Avenue , Roselle Avenue and Oakdale Road Right of Way acquisition would not result in any significant impacts affecting humans over and above those associated with implementation of the Village One Specific Plan and as analyzed in the Village One Specific Plan program EIR.

**V. MITIGATION APPLIED TO PROJECT**

Not applicable.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-458**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO OF INTENTION TO ANNEX TERRITORY TO COMMUNITY FACILITIES DISTRICT NO. 2004-1 (VILLAGE ONE #2) AND TO AUTHORIZE THE LEVY OF SPECIAL TAXES THEREIN (ANNEXATION No. 4)**

WHEREAS, pursuant to Chapter 3.5 Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the “Mello-Roos Community Facilities Act of 1982” (the “Act”), proceedings for the annexation of territory to an existing community facilities district may, pursuant to Chapter 3.5 of the Act, be instituted by the adoption by the legislative body of a resolution of intention to annex such territory; and

WHEREAS, pursuant to the Act, this Council did, by its Resolution No. 2004-199, adopted on April 6, 2004 (the “Resolution of Formation”), establish the City’s Community Facilities District No. 2004-1 (Village One #2) (“the District”); and

WHEREAS, this Council hereby determines that the public convenience and necessity require the annexation of certain territory to the District; and

WHEREAS, the territory to be annexed is within the City limits;

NOW, THEREFORE, BE IT RESOLVED, ORDERED AND FOUND by the City Council of the City of Modesto, California, that:

SECTION 1. The above recitals are true and correct.

SECTION 2. The boundaries of the District are shown on a map entitled “Proposed Boundaries of Community Facilities District No. 2004-1 (Village One #2) of the City of Modesto, County of Stanislaus, State of California” on file with the County

Recorder of the County of Stanislaus, at Book 3 of Maps of Assessment and Community Facilities Districts, at Page 85; the map entitled “Proposed Boundaries of Annexation #1 to City of Modesto CFD No. 2004-1 (Village One #2)”, on file with the County Recorder at Book 3 of Maps of Assessment and Community Facilities Districts, at page 86 (as amended by the map entitled “Annexation Map No. 1 of Community Facilities District No. 2004-1 (Village One #2)”, on file with the County Recorder at Book 3 of Maps of Assessment and Community Facilities Districts, at page 90); the map entitled “Annexation Map No. 2 of Community Facilities District No. 2004-1 (Village One #2),” on file with the County Recorder at Book 3 of Maps of Assessment and Community Facilities Districts, at Page 91; and the map entitled “Annexation Map No. 3 of Community Facilities District No. 2004-1 (Village One #2),” on file with the County Recorder at Book 3 of Maps of Assessment and Community Facilities Districts, at Page 96.”

SECTION 3. The territory proposed to be annexed to the District (the “Territory”) is described in Exhibit A.

SECTION 4. The boundaries of the Territory are also shown on the map thereof, entitled “Annexation Map No. 4 of Community Facilities District No. 2004-1 (Village One #2) of the City of Modesto, County of Stanislaus, State of California,” on file in the office of the City Clerk, hereby approved and adopted. Pursuant to Sections 3110.5 and 3113 of the California Streets and Highways Code, the City Clerk shall endorse her certificate on the original and one copy of the map evidencing the date and adoption of this Resolution, file the original in her office and, not later than 10 days after the adoption of this Resolution, file a copy of the map with the County Recorder of the County of

Stanislaus. The map shall contain the legends provided in Sections 3110 and 3110.5 of the California Streets and Highways Code, including a reference to the title, book, page and recording date of the original boundary map of the District.

SECTION 5. The public facilities and services to be provided for the District are set forth in the Resolution of Formation. It is intended that these same facilities and services be provided to the Territory.

SECTION 6. The special taxes to be levied in the District are also set forth in the Resolution of Formation. It is intended that the same special taxes be levied in the Territory.

SECTION 7. A public hearing on this Resolution will be held at 5:30 p.m., or as soon thereafter as practicable, on Tuesday, October 26, 2004, at the regular meeting place of the City Council, City Council Chambers, Basement Level, 1010 Tenth Street, Modesto, California 95353, such time being not less than 30 or more than 60 days following the adoption hereof.

SECTION 8. At the hearing, any interested persons for or against the annexation of the Territory to the District, and the levy of the special taxes therein, may appear and will be heard and considered. Any protest may be made orally or in writing. However, any protests pertaining to the regularity or sufficiency of the proceedings shall be in writing and clearly set forth the irregularities and defects to which the objection is made. All written protests shall be filed with the City Clerk on or before the time fixed for the public hearing. Written protests may be withdrawn in writing at any time before the conclusion of the hearing.

SECTION 9. The City Clerk is directed to publish, not later than seven (7) days prior thereto, a notice of the hearing, in the form required by the Act, in a newspaper of general circulation published in the area of the District, being *The Modesto Bee*, and otherwise in accordance with Section 6061 of the California Government Code, stating (a) the text or a summary of this Resolution, (b) the time and place of the hearing, and (c) that all interested persons for or against the annexation of the Territory to the District or the levying of the special taxes in the Territory will be heard.

SECTION 10. (a) If a majority (but at least six) of the registered voters residing within the District or a majority (but at least six) of the registered voters residing within the Territory, or the owners of one-half or more of the area of the land in the District and not exempt from the special tax, or the owners of one-half or more of the Territory, file written protests against the proposed annexation, and the protests are not withdrawn so as to reduce the value of the protests to less than a majority, no further proceedings to annex the Territory to the District, or to levy in the Territory the special taxes to be levied in the District, shall be taken for a period of one year from the date of the decision of the Council on the issues discussed at the hearing.

SECTION 11. At the conclusion of the hearing, if the Council determines to annex the Territory to the District, it will submit the levy of the special taxes to the qualified electors of the Territory in a special election.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of September 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 459**

**WAS NOT USED**

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 460**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO  
FORMALLY SOLICIT REQUEST FOR BIDS (RFB) FOR ONE (1) WINDROW  
TURNER FOR A TOTAL ESTIMATED COST OF \$260,000.00**

WHEREAS, the Public Works Department-Water Quality Control (WQC)  
Division has requested the purchase of one (1) windrow turner, and

WHEREAS, a windrow turner is an important piece of equipment used to produce  
compost, and

WHEREAS, the materials to be composted is placed into windrows and the  
windrow turner passes over each windrow and mixes the composting material, and

WHEREAS, this helps stimulate the microorganisms in the material, which break  
down coarse organic matter into compost, and

WHEREAS, it is important that the windrows are turned frequently and  
efficiently in order to help the material mature into a high quality composting product,  
and is part of our permitted composting process, and

WHEREAS, staff currently operates a Scarab Manufacturing windrow turner at  
its composting site on Jennings Road which has become very costly to operate, and

WHEREAS, the windrow turner was purchased in 1996 and has been used  
heavily from that point forward, and

WHEREAS, at this time the turner is worn down and in need of constant repairs,  
and

WHEREAS, since 2002, over \$180,000 has been expended for needed repairs just  
to keep the machine running, and

WHEREAS, recently staff was forced to spend \$40,000 when the tracks became so dilapidated that the windrow turner could not be operated, and

WHEREAS, other major components have failed and others could fail at any time, and

WHEREAS, since this piece of equipment is a key component to the success of the composting operations, it is imperative that staff have access to a reliable windrow turner, and

WHEREAS, in addition to being very expensive, the breakdowns also impact staff productivity and efficiency, and

WHEREAS, on many occasions staff has been forced to cease producing compost to make the necessary repairs to the Scarab windrow turner, and

WHEREAS, this is inefficient use of time and adds greatly to the compost production costs, and

WHEREAS, the existing Scarab windrow turner will be sold by seal bid, with a minimum seal bid price, and

WHEREAS, windrow turner technology has changed greatly over the last eight (8) years, with the development of a trans-fluid-coupler system windrow turner, and

WHEREAS, there are two types of windrow turners available today, the hydraulic drive system and the trans-fluid-coupler system, and

WHEREAS, the trans-fluid-coupler system technology has an efficiency rating of 98% as compared to 89% for the hydraulic drive system windrow turner, and

WHEREAS, the hydraulic drive system has valves, hoses, fittings, filters and gauges, which can decrease the hydraulic system efficiency by more than 10%, and

WHEREAS, the trans-fluid-coupler system has no fitting or complicated drums and motors to replace, which means less maintenance, and

WHEREAS, the trans-fluid-coupler system can be engaged or disengaged at high idle without damage, where the hydraulic drive system has to be engaged at low idle only, and

WHEREAS, if the trans-fluid-coupler quits for some reason while turning the windrow, the fluid coupler will automatically disengage, where the hydraulic drum system windrow turner would stay connected until the engine stalled from overload, and

WHEREAS, shock absorption is very critical to the life span of a windrow turner, and

WHEREAS, the trans-fluid-coupler windrow turner will absorb shock from rocks or other debris in the windrow without damage to the drive system, and

WHEREAS, the belt will also take a beating without slipping and allow the fluid coupler to do its job and take the load, where the hydraulic drive system has very little shock absorption, and

WHEREAS, a windrow turner must operate in a very dusty and dirty environment, and

WHEREAS, the hydraulic system is prone to contamination from dust, which is abundant at the compost facility, and

WHEREAS, some agencies have had to replace the drum drive motors on their hydraulic drive system every two or three months, and

WHEREAS, the drive components on the trans-fluid-coupler windrow turner are suitably isolated from the dust and dirt and the system is designed to handle contaminants of this nature, and

WHEREAS, the synchronous belt drive on the trans-fluid-coupler technology has a 5000-hour service interval, where the hydraulic drum system has a 500-hour service interval, and

WHEREAS, the trans-fluid-coupler technology has a stronger drum than the hydraulic drive system windrow turner, and

WHEREAS, the trans-fluid-coupler has a ¾ inch thick wall on the drum pipe and is twice as thick as what has been available in the past, and

WHEREAS, drum replacement can cost over \$10,000; and if the drum is bent, it cannot be used, and a new drum costs approximately \$16,000, and

WHEREAS, the trans-fluid-coupler system has a six (6) inch shaft on the turning drum, the largest shaft in the industry, and

WHEREAS, the hydraulic drive system windrow turner has a three (3) inch shaft, and

WHEREAS, the trans-fluid-coupler technology has the largest drum flail diameter, and

WHEREAS, the larger the cross section of the windrow the drum contacts with, the more production the compost will have, and

WHEREAS, the trans-fluid-coupler windrow turner has the largest tip-to-tip flail dimension on the market, working 75% of the window, and

WHEREAS, this provides the best aeration and production available, and

WHEREAS, the trans-fluid-coupler system windrow turner is the most refined compost turner on the market, and

WHEREAS, the combination fluid coupler, poly chain drive, large diameter drum, large diameter drum shafts and heavy duty drum wall makes this technology unique to the market, and is more efficient than the hydraulic drum system windrow turner, and

WHEREAS, with the purchase of new windrow turner, required maintenance costs should decrease and compost productivity should increase, and

WHEREAS, by soliciting formal bids for the purchase of one (1) windrow turner the Finance Department, Purchasing Division will comply with MMC Section 8-3.203 regarding formal bid procedures,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Purchasing Supervisor is hereby authorized to solicit formal Request for Bids for one (1) windrow turner with a trans-fluid-coupler system as follows:

SECTION 1. The City Clerk is hereby authorized to call for public formal bids for the purchase of one (1) windrow turner to be opened in the office of the City Clerk, 1010 Tenth Street, in the City of Modesto. The City Clerk shall be directed to give notice inviting such sealed bids in the time, form, and manner provided by law.

SECTION 2. After the sealed bids are opened, they shall be tabulated and analyzed and a report submitted to Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 461**

**A RESOLUTION AUTHORIZING THE FINANCE DEPARTMENT TO TRANSFER \$33,030 FROM 7210-800-8000-8003, \$150,000 FROM 6210-480-5227-0360, AND \$76,970 FROM 6290-480-5222-0223 INTO 6290-480-5222-5900 AND AMEND THE BUDGET TO APPROPRIATE THESE FUNDS FOR THE PURCHASE OF ONE (1) WINDROW TURNER FOR A TOTAL ESTIMATED COST OF \$260,000.00**

WHEREAS, the Public Works Department-Water Quality Control (WQC) Division has requested the purchase of one (1) windrow turner, and

WHEREAS, a windrow turner is an important piece of equipment used to produce compost, and

WHEREAS, the materials to be composted are placed into windrows and the windrow turner passes over each windrow and mixes the composting materials, and

WHEREAS, the windrow turner presently in use is expensive to repair, impacts staff productivity and efficiency and adds greatly to the compost production cost, and

WHEREAS, with the purchase of a new windrow turner required maintenance costs should decrease and compost productivity should increase, and

WHEREAS, Council desires to amend the budget for said purchase,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorized the Finance Department to transfer \$33,030 from 7210-800-8000-8003, \$150,000 from 6210-480-5227-0360, and \$76,970 from 6290-480-5222-0223 into 6290-480-5222-5900 and amend the budget to appropriate these funds for the purchase of one (1) windrow turner.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-462**

**A RESOLUTION APPROVING THE ADDITION OF ONE POSITION TO THE  
POSITION ALLOCATION TABLE IN THE PUBLIC WORKS DEPARTMENT  
FOR FISCAL YEAR 2004-2005.**

WHEREAS, the addition of one position to the Public Works Department's position allocation table was proposed during the budget development process and submitted as a Decision Package for Fiscal Year 2004-2005, and

WHEREAS, the addition of this position was initially approved by the City Manager, the Deputy City Manager, and the Finance Committee, but was omitted from the final published budget document, and

WHEREAS, during the final budget process, this enhancement package was set aside for consideration outside the budget development process, and

WHEREAS, the need for this position allocation change still exists, and

WHEREAS, the resignation of one part-time employee and the pending retirement of yet another part-time employee creates an opportunity to provide a more appropriate level of staffing in the Transit Division to complement the additional workload that has evolved due to the implementation of several new programs in recent years, and

WHEREAS, as the Transit System continues to grow more effort will be needed to keep pace with the growth in the number of bus stops and bus pass sales that will ultimately occur, and

WHEREAS, by combining the two part-time positions together into one full-time position the duties that would be handled by this combined position would fit perfectly into a forty-hour workweek, and

WHEREAS, a major portion of this person's time will be dedicated to gathering of data, designing, printing and posting of bus stop schedules at each of the 800 bus stops in the Modesto Area Express (MAX) bus system, and

WHEREAS, these tasks stem from a project, which was assigned by the City Council to the Transit Division, and has proven very popular with MAX customers, and

WHEREAS, making this position full-time is important to the continued success of the program by helping to ensure that it will be staffed by a qualified, competent individual, and

WHEREAS, funding for this position will be provided by combining \$26,892 currently allocated to fund two part-time positions, with an additional appropriation of \$24,755 in Local Transportation Funds (LTF) for the purpose of funding a full-time Transit Planning Technician I, and

WHEREAS, at its meeting of August 11, 2004, the Finance Committee approved this position allocation change and recommended approval to Council,

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto, that the following position change is hereby approved in the Public Works Department:

Add one (1) permanent full-time Transit Planning Technician I (working title) position in range 115, in Organization 1672 (Transit Division).

BE IT FURTHER RESOLVED that City staff is hereby authorized to make the necessary position changes in coordination with the Personnel Department.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-463**

**A RESOLUTION AMENDING THE FY04-05 OPERATING BUDGET TO  
APPROPRIATE \$24,755 FROM LOCAL TRANSPORTATION FUND 6540-165-  
1672-3158 TO 6540-165-1672-0182 FOR THE ACCOUNT TITLED "BUS FIXED  
ROUTE MAX OPERATIONS"**

WHEREAS, on September 14, 2004, the City Council approved the following position change in the Public Works Department:

Add one (1) permanent full-time Transit Planning Technician I (working title) position in range 115, in Organization 1672 (Transit Division), and

WHEREAS funding for this position will be provided by combining \$26,892 currently allocated to fund two part-time positions, with an additional appropriation of \$24,755 in Local Transportation Funds (LTF) for the purpose of funding a full-time Transit Planning Technician I (working title), and

WHEREAS the City Council authorized City staff to make the necessary position changes in coordination with the Personnel Department,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Operating Budget for fiscal year 2004-05 to appropriate an additional \$24,755 from Local Transportation Fund 6540-165-1672-3158 to operating account 6540-165-1672-0182 in the Bus Fixed Route MAX Operations operating budget to fully fund this position.

BE IT FURTHER RESOLVED that the Finance Director, or his designee, is hereby authorized to take the steps necessary to amend the Operating Budget.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-464

A RESOLUTION IN SUPPORT OF THE RENEWAL OF THE STANISLAUS COUNTY RECYCLING MARKET DEVELOPMENT ZONE AND RESOLUTION NO. 93-515

THIS RESOLUTION WAS  
RESCINDED BY MODESTO  
CITY COUNCIL RESOLUTION  
NO.

2014-418

WHEREAS, the California Public Resources Code Section 42010 provides for the establishment of the Recycling Market Development Zone (RMDZ) program throughout the State to provide incentives to stimulate development of post-consumer and secondary materials markets for recyclables, and

WHEREAS, cities and counties must meet a 50 percent reduction in landfill waste disposal as mandated in the California Integrated Waste Management Act, and

WHEREAS, the Stanislaus County RMDZ is dedicated to establishing, sustaining and expanding recycling-based manufacturing businesses, which is essential for market development and to assist local jurisdictions to meet the established landfill reduction goals, and

WHEREAS, the Stanislaus County RMDZ designation will expire in November 2004 unless re-designation by the California Integrated Waste Management Board, and

WHEREAS, the City of Modesto still desires existing and new recycling-based manufacturing businesses locating within the region to be eligible for the technical and financial incentives associated with the RMDZ program, and

WHEREAS, the renewal of the Stanislaus County RMDZ is still necessary to facilitate local and regional planning, coordination, support of existing recycling-based manufacturing businesses, as well as attract private sector recycling business investments to the region, and

WHEREAS, the current and proposed waste management practices and conditions are favorable to the development of post-consumer and secondary waste materials markets, and

WHEREAS, the California Integrated Waste Management Board, in its Strategic Plan, has adopted a goal to continuously integrate environmental justice concerns into all of the Board's programs and activities, and

WHEREAS, the California Legislature has defined environmental justice as "the fair treatment of people of all races, cultures, and incomes with respect to the development, adoption, implementation, and enforcement of the environmental laws, regulations, and policies" [Government Code section 65040.12(e)], and has directed the California Environmental Protection Agency to conduct its programs, policies, and activities that substantially affect human health or the environment in a manner that ensures the fair treatment of people of all races, cultures, and income levels, including minority populations and low-income populations of the state [Public Resources Code section 71110(a)], and

WHEREAS, Stanislaus County as Lead Agency under the California Environmental Quality Act, has prepared, or caused to be prepared, and adopted a Negative Declaration for this zone renewal project that finds that the project will not have a significant impact on the environment,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the submittal of a Recycling Market Development Zone renewal application to include the City of Modesto.

BE IT FURTHER RESOLVED that Resolution No. 93 - 515 is hereby rescinded, effective September 14, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of September 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-465**

**A RESOLUTION ACCEPTING IMPROVEMENTS IN PAPTONE WEST  
SUBDIVISION, IN THE VILLAGE ONE SPECIFIC PLAN AREA, AUTHORIZING  
THE CITY CLERK TO RECORD A NOTICE OF COMPLETION AND  
AUTHORIZING RELEASE OF BONDS**

WHEREAS, MODESTO ANNEX DEVELOPERS, L.P., a California Limited Partnership, by Modesto Annex Investors, LLC, a California limited liability company, is the subdivider of the PAPTONE WEST SUBDIVISION (“SUBDIVISION”), in the Village One Specific Plan Area, and

WHEREAS, MODESTO ANNEX DEVELOPERS, L.P., a California Limited Partnership, by Modesto Annex Investors, LLC, a California limited liability company has filed irrevocable subdivision bonds to secure faithful performance and payment for labor and materials in the amounts of \$2,150,936.82 and \$1,075,468.41, respectively, and

WHEREAS, MODESTO ANNEX DEVELOPERS, L.P., a California Limited Partnership, by Modesto Annex Investors, LLC, a California limited liability company has filed a warranty bond in the amount of \$215,093.68 to guarantee improvements in the Papatone West Subdivision, and

WHEREAS, the Public Works Director, in a memorandum to Council, indicates that all work required by the Subdivision Agreement has been completed to the satisfaction of the Public Works Department, and

WHEREAS, the Public Works Director has indicated that it would be in order for the City Council to accept the improvements in said subdivision as complete, and authorize the City Clerk to file a Notice of Completion and release the bonds upon expiration of the statutory periods,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto

that:

1. The improvements in the Papatone West Subdivision are hereby accepted and the City Clerk is hereby authorized to record a Notice of Completion for the improvements.
2. The City Clerk is hereby authorized to release the subdivision bond for faithful performance in the amount of \$2,150,936.82 upon recordation of the Notice of Completion.
3. The City Clerk is hereby authorized to release the subdivision bond for labor and materials in the amount of \$1,075,468.41 sixty (60) days after the recordation of the Notice of Completion, provided no claim is made thereon.
4. The City Clerk is hereby authorized to release the warranty bond to guarantee improvements in the amount of \$215,093.68 one year and one day after the effective date of this resolution, provided no claim is made thereon.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of September, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-466**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO CALLING AN ELECTION FOR THE PURPOSE OF SUBMITTING THE LEVY OF THE CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2004-1 (VILLAGE ONE #2) SPECIAL TAXES TO THE QUALIFIED ELECTORS OF THE TERRITORY PROPOSED TO BE ANNEXED TO THE DISTRICT (ANNEXATION NO. 3)**

WHEREAS, this Council did, on August 10, 2004, adopt its Resolution No. 2004-409 (the "Resolution of Intention to Annex") to indicate its intention to annex certain territory to the City's Community Facilities District No. 2004-1 (Village One #2) (the "District") and authorize the levy of the District special taxes within the territory proposed to be annexed (the "Annexed Territory"), pursuant to Chapter 2.5 of Part 1 of Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the "Mello-Roos Community Facilities Act of 1982" (the "Act"), and set a hearing thereon; and

WHEREAS, notice of the hearing was duly published as required by law, as evidenced by the proof of publication on file with the City Clerk; and

WHEREAS, a map of the Annexed Territory, entitled "Annexation Map No. 3 of Community Facilities District No. 2004-1 ("Village One #2) of the City of Modesto, County of Stanislaus, State of California," was recorded on August 11, 2004, in the Office of the County Recorder of the County of Stanislaus, in Book 3 of Maps of Assessment and Community Facilities Districts, at page 96; and

WHEREAS, at the time and date set for the hearing (September 14, 2004) pursuant to the Resolution of Intention to Annex, this Council held the public hearing, as required by the Act, related to the proposed annexation and the levy of the District special

taxes within the Annexed Territory, and all other matters set forth in the Resolution of Intention to Annex; and

WHEREAS, at the hearing all persons desiring to be heard on all matters pertaining to the proposed annexation and the levy of the District special taxes within the Annexed Territory, and all other matters set forth in the Resolution of Intention to Annex, including all interested persons for or against the proposed annexation to the District and the levy of the District special taxes within the Annexed Territory were heard and considered, and a full and fair hearing was held thereon; and

WHEREAS, at the hearing evidence was presented to this Council on the matters before it, and this Council, at the conclusion of the hearing, was fully advised as to all matters related to the proposed annexation and the levy of the District special taxes within the Annexed Territory, and all other matters set forth in the Resolution of Intention to Annex; and

WHEREAS, written protests against the proposed annexation and the levy of the District special taxes within the Annexed Territory have not been filed with the City Clerk by 50 percent or more of the registered voters or six registered voters, whichever is more, residing within the District or residing within the District or residing within the Annexed Territory, or the owners of one-half or more of the land in the District, or in the Annexed Territory; and

WHEREAS, the Stanislaus County Registrar of Voters has certified there are less than 12 registered voters residing in the Annexed Territory; accordingly, the qualified electors are the landowners; and

WHEREAS, the City Clerk, being the Council's designated election official for purposes of the election herein called, has concurred in the election date herein set forth for the election;

NOW THEREFORE, BE IT RESOLVED, ORDERED AND FOUND by the City Council of the City of Modesto that:

SECTION 1. The foregoing recitals are true and correct.

SECTION 2. All prior proceedings taken with respect to the annexation of the Annexed Territory to the District, and the levy of the District special taxes within the Annexed Territory were valid and in conformity with the requirements of the Act. This determination shall be final and conclusive upon all persons.

SECTION 3. The proposed annexation of the Annexed Territory to the District and the levy of the District special taxes within the Annexed Territory have not been precluded by majority protest pursuant to Section 53339.5 of the Act.

SECTION 4. As stated in the Resolution of Intention to Annex, it is the intention of this Council, subject to the approval of the qualified electors of the Annexed Territory, to annex the Annexed Territory to the District and levy the District special taxes within the Annexed Territory. Upon such approval the Council will be authorized to levy the District special taxes within the Annexed Territory.

SECTION 5. A special election is hereby called at which the question of levying the District special taxes within the Annexed Territory shall be submitted to the qualified electors of the Annexed Territory. The election shall be held in accordance with and subject to the Act, all of the terms of which shall, unless waived as herein provided, be

applicable to such election. The ballot measure shall be substantially in the form attached hereto as **Exhibit A**.

SECTION 6. Fewer than 12 persons have been registered to vote within the Annexed Territory for each of the 90 days preceding the close of the hearing referenced herein. Accordingly, the vote shall be by the landowners of the Annexed Territory, and each such landowner shall have one vote for each acre or portion thereof that he or she owns within the Annexed Territory. The ballots shall be distributed by mail with return postage prepaid, or by personal service, to each landowner, all as provided in Section 53326 of the Act.

Since the City Clerk has received appropriate waivers of time limits and other requirements pertaining to the conduct of the election by each of the owners of land in the Annexed Territory (collectively, the "Landowners"), the election shall be held on the 14<sup>th</sup> day of September 2004. The election shall be conducted by the City Clerk in the manner required by this resolution, the Act and applicable laws.

The hour on such date when the ballots are required to be received in the office of the City Clerk is noon, Pacific Time. If all qualified electors have voted prior to such time, the election shall be closed.

SECTION 7. In accordance with Section 53327(b) of the Act, analysis and arguments, as required by Section 53327(a) of the Act are hereby waived, as the City Clerk has received the unanimous consent to such waivers from the Landowners.

SECTION 8. The publication of this Resolution as notice of the special election is hereby waived as the City Clerk has received the unanimous consent to such waiver from the landowners.

SECTION 9. The Annexed Territory shall constitute a single election precinct for the purpose of holding the election.

SECTION 10. The City Clerk is hereby authorized to take any and all steps necessary for the holding of the election, and to perform and render all services and proceedings incidental to and in connection with the election.

SECTION 11. The City Clerk shall canvass the returns and certify the results of the election to this Council. If two-thirds or more of the votes cast are in favor of levying the District special taxes in the Annexed Territory, this Council may thereafter, order the annexation of the Annexed Territory to the District and levy the District special taxes in the Annexed Territory in the amount and for the purposes specified in Resolution No. 2004-199 adopted by this Council on April 6, 2004 (the "Resolution of Formation"). The Special Tax will be levied only at the rate and apportioned only in the manner specified in the Resolution of Formation.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of September, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-467**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO CANVASSING THE RESULTS OF THE SEPTEMBER 14, 2004, ELECTION HELD WITHIN THE TERRITORY PROPOSED TO BE ANNEXED TO CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2004-1 (VILLAGE ONE #2), AND ORDERING ANNEXATION OF THE TERRITORY TO THE DISTRICT (ANNEXATION NO. 3)**

WHEREAS, this Council is conducting proceedings pertaining to the annexation of certain territory to the City's Community Facilities District No. 2004-1 (Village One #2) (the "District") and the levy of the District special taxes (the "District Special Taxes") within such territory, as described in its Resolution No. 2004-409, entitled "A Resolution of the City Council of the City of Modesto of Intention to Annex Territory to Community Facilities District No. 2004-1 (Village One #2) and to Authorize the Levy of Special Taxes therein (Annexation No. 3)" adopted on August 10, 2004, pursuant to Chapter 2.5 of Part 1 of Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the "Mello-Roos Community Facilities Act of 1982" (the "Act"); and

WHEREAS, the owners of all the property within the territory proposed to be annexed to the District waived those provisions related to the timing and conduct of the election referenced in Sections 5, 6, 7 and 8 of this Council's Resolution No. 2004-466, adopted on September 14, 2004, and, as a result, this Council called an election within the territory proposed to be annexed to the District (the "Election") for September 14, 2004, relative to the foregoing; and

WHEREAS, on September 14, 2004, the Election was held; and

WHEREAS, the City Clerk has certified that at the Election the proposition of levying the District Special Taxes within the territory proposed to be annexed to the District was approved by more than two-thirds (2/3) of the votes cast at the Election;

NOW, THEREFORE, BE IT RESOLVED, ORDERED AND FOUND by the City Council of the City of Modesto that:

SECTION 1. The Election was duly and validly conducted in conformity with all applicable laws pertaining thereto. It is hereby determined that the owners of the territory proposed to be annexed is as set forth in the Certificate of City Clerk as to Distribution of Official Ballots, submitted to this Council and on file with the City Clerk.

SECTION 2. The ballot proposition presented to the qualified electors of the territory proposed to be annexed at the Election received at least two-thirds (2/3) of the votes cast at the Election. A copy of the City Clerk's certificate of election results is attached.

SECTION 3. Pursuant to Section 53339.8 of the Act, it is hereby ordered that the territory proposed to be annexed to the District pursuant to Resolution No. 2004-409 be annexed to and be a part of the District with full legal effect, and that the District Special Taxes be levied within the territory so annexed.

SECTION 4. The City Clerk is hereby directed to enter this resolution on the minutes of this City Council, which shall constitute the official declaration of the result of the Election.

SECTION 5. The City Clerk is further authorized and directed to record an amendment to the Notice of Special Tax Lien with the County Recorder of the County of

Stanislaus, within 15 days from the date hereof, in accordance with the provisions of Sections 3114.5 and 3117.7 of the California Streets and Highways Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of September, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-468**

**A RESOLUTION APPROVING THE CITY OF MODESTO CONSOLIDATED ANNUAL PERFORMANCE AND EVALUATION REPORT (CAPER) FOR FISCAL YEAR 2003-2004, AND AUTHORIZING THE CITY MANAGER TO SUBMIT THE REPORT TO THE U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT (HUD).**

WHEREAS, the City of Modesto receives several Federal grants from the U.S. Department of Housing and Urban Development (HUD), and

WHEREAS, the Consolidated Annual Performance and Evaluation Report (CAPER) reflects the activities of the City and its sub-recipients for the period of July 1, 2003, through June 30, 2004, and

WHEREAS, each year the City must review and report on the performance of activities funded under the Community Development Block Grant (CDBG), HOME Investment Partnership Grant, and Emergency Shelter Grant (ESG) funds, and

WHEREAS, the CAPER must be made available for public review and comment for a minimum 15-day period, and

WHEREAS, the CAPER was made available for public review and comment from August 27, 2004 through September 14, 2004, and

WHEREAS, all public comments, and staff responses to these comments, must be presented to the City Council for review and approval, and

WHEREAS, the Citizens Housing and Community Development Committee (CH&CDC) met on August 27, 2004, and reviewed and recommended the CAPER, and

WHEREAS, a duly noticed public hearing was held by the Council on September 14, 2004, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, to consider approval of the CAPER,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. That the Consolidated Annual Performance and Evaluation Report for Fiscal Year 2003-2004 is hereby approved subject to any correction for accuracy being made by the City Manager, and a copy of said report is on file in the office of the City Clerk.
2. That the City Manager, or his authorized designee, is hereby authorized, after having made any necessary correction, to submit said report to the U.S. Department of Housing and Urban Development (HUD).

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of September, 2004, by Councilmember Dunbar, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-469**

**A RESOLUTION ADOPTING A MITIGATED NEGATIVE DECLARATION  
(SCH NO. 2004062131) FOR THE FOLLOWING PROJECT COVERED BY A  
MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 1999082041): MARY  
E. GROGAN COMMUNITY PARK.**

WHEREAS, on March 4, 2003, the City Council of the City of Modesto certified the Final Master Environmental Impact Report ("Master EIR") (SCH No 1999082041) for the Modesto Urban Area General Plan, and

WHEREAS, the Parks, Recreation and Neighborhoods Department, by Initial Study / Environmental Assessment EA/PR&N No. 2003-09, dated June 16, 2004, reviewed the proposed Project pursuant to Section 21157.1 of the Public Resources Code to analyze whether the proposed project is within the scope of the Master Environmental Impact Report, and

WHEREAS, Section 21080(c)(2) allows the adoption of a Mitigated Negative Declaration (MND) if the lead agency, after reviewing and considering the entire record before the agency, identifies potentially significant effects on the environment, but (a) revisions in the Project plans or proposals made by, or agreed to by, the applicant before the Initial Study (IS) is released for public review would avoid the effects or mitigate the effects to a point where clearly no significant effect on the environment would occur; and (b) there is no substantial evidence in light of the whole record before the public agency that the Project, as revised, may have a significant effect on the environment, and

WHEREAS, the City of Modesto, the lead agency, after reviewing and considering the Master EIR, the Initial Study and the entire record before it identified potentially significant effects on the environment, but (a) revisions in the Project plans agreed to by the City before the proposed Mitigated Negative Declaration and the Initial

Study were released for public review would avoid or mitigate the effects to a point where clearly no significant effect on the environment would occur; and (b) there was no substantial evidence in light of the whole record before the public agency that the Project, as revised, may have a significant effect on the environment and determined that it would be appropriate to prepare a Mitigated Negative Declaration for the Project, and

WHEREAS, the City of Modesto prepared, circulated and posted, pursuant to Sections 15070 and 15105 of the CEQA Guidelines, an Initial Study / Environmental Assessment EA/PR&N 2003-09 and a Draft Mitigated Negative Declaration (SCH No. 2004062131), dated June 2004, (“IS/MND”) and

WHEREAS, the IS/MND was released for public review and comment for the required 30-day period beginning on June 25, 2004, and ending on July 26, 2004, and

WHEREAS, no comments were submitted in response to the Draft Mitigated Negative Declaration which would require a significant revision of the proposed IS/MND, and

WHEREAS, in a public hearing on September 14, 2004, the City Council reviewed and considered the IS/MND for the proposed development and construction of Mary E. Grogan Neighborhood Park Project, together with all comments received during the public review and circulation period and responses thereto,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study / Environmental Assessment EA/PR&N 2003-09 and the Draft Mitigated Negative Declaration (“IS/MND”) (SCH No. 2004062131) for the proposed Project, a copy of which are on file in the Parks, Recreation and Neighborhoods Department, together with all comments

received during the public review and circulation period, and based on the substantial evidence included in said IS/MND makes the following findings:

1. The Mitigated Negative Declaration prepared for the proposed Project pursuant to CEQA Section 21157.1, have identified additional significant environmental effects that were not analyzed in the Master Environmental Impact Report (“EIR”). These additional significant effects are potential impacts to Aesthetics, Air Quality, Biological Resources, Cultural Resources, Geology and Soils, Hazards and Hazardous Materials, Hydrology and Water Quality, Land Use, Noise and Traffic and Circulation.
2. Feasible mitigation measures were incorporated to revise the subsequent Project before the proposed Mitigated Negative Declaration was released for public review, in order to avoid or mitigate the effects to a point where clearly no significant effect on the environment will occur.
3. There is no substantial evidence in light of the whole record before the public agency that the Project, as revised and mitigated, may have a significant effect on the environment (CEQA Section 21064.5(2)).
4. As part of the adoption of the Mitigated Negative Declaration, the City Council finds that the report or declaration reflects the independent judgment of the lead agency for the project.
5. As required by CEQA Section 21081.6 et. Seq., a Mitigation Monitoring Program will be adopted by incorporating the Mitigation Measures into the project plan (CEQA Section 21081.6(b)).

BE IT FURTHER RESOLVED by the Council of the City of Modesto that, based on the above findings, the City of Modesto hereby adopts the Initial Study / Environmental Assessment EA/PR&N 2003-09 and Mitigated Negative Declaration (SCH No. 2004062131) for the proposed development and construction of the Mary E. Grogan Community Park Project by the City of Modesto and hereby designates the Parks Planning and Development Services Division of the Parks, Recreation and Neighborhoods Department as the custodian of the documents or other material which constitute the record of proceedings upon which this decision is based, and specifies the

Department of Parks, Recreation and Neighborhoods, 1010 Tenth Street, Suite 4400, Modesto, California, as the location of said documents.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that pursuant to Section 21081.6 of the Public Resources Code, a Mitigation Monitoring Program is hereby adopted by incorporating the mitigation measures into the Project plan as set forth in Appendix "D" of the Final Initial Study/Mitigated Negative Declaration.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Parks, Recreation and Neighborhoods Director is hereby authorized and directed to file a Notice of Determination with the County Clerk's Office within five (5) working days of the date of this determination, pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of September, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-470**

**A RESOLUTION APPROVING THE DESIGN DEVELOPMENT REPORT AND  
MASTER PLAN INCLUDED THEREIN FOR MARY E. GROGAN COMMUNITY  
PARK.**

WHEREAS, in July 2004, Purkiss Rose RSI completed a Design Development Report, which includes the Master Plan, for Mary E. Grogan Community Park, and

WHEREAS, prior to adopting the Design Development Report, the California Environmental Quality Act (CEQA) requires that the City of Modesto consider the environmental consequences of the proposed project, and

WHEREAS, on July 5, 2004, the Safety and Communities Committee recommended approval of the Mary E. Grogan Community Park, and

WHEREAS, by an agenda report dated August 18, 2004 from the Parks, Recreation and Neighborhoods Director, staff recommended to the Council approving the Mary E. Grogan Community Park Design Development Report, a copy of said report is on file in the office of the City Clerk, and

WHEREAS, the Mary E. Grogan Community Park Design Development Report dated July 2004, is within the scope of and contemplated by the City of Modesto Urban Area General Plan, and

WHEREAS, on September 14, 2004, concurrent with this resolution, the Modesto City Council adopted Resolution No. 2004-469, finding that development and construction of the Mary E. Grogan Community Park is in conformance with the City Of Modesto General Plan MEIR (SCH No. 1999082041),

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby finds that the Mary E. Grogan Community Park Design Development Report is complete and adequate, and it hereby approves the Mary E. Grogan Community Park Design Development Report, and Master Plan included therein, a copy of which is on file in the office of the City Clerk.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of September, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-471**

**A RESOLUTION INITIATING A PROPOSITION 218 PROTEST PROCESS TO ADJUST WATER RATES, AS RECOMMENDED IN THE “WATER UTILITY COST OF SERVICE RATE STUDY” PREPARED BY FORESIGHT CONSULTING, TO CONSTRUCT NECESSARY WATER SYSTEM IMPROVEMENTS, AS IDENTIFIED BY WEST YOST ASSOCIATES IN “JUSTIFICATION AND COST ALLOCATION FOR PROPOSED WATER SYSTEM IMPROVEMENTS”**

WHEREAS, on March 23, 2004, Council directed staff to undertake the necessary steps to initiate implementation of water rate increases for the water utility, and

WHEREAS, Council took this action based upon a review of water system needs and financial obligations, and

WHEREAS, Council provided further direction to establish a single water zone with a uniform rate structure, and

WHEREAS, following Council’s action, the City established a Water Rate Task Force, led by Councilmember Brad Hawn and including members from various City departments, to oversee an engineering needs assessment and cost of service rate study for the water utility, and

WHEREAS, Council approved a contract with Foresight Consulting to prepare the cost of service rate study analysis for the water utility, and

WHEREAS, Council also approved a contract with West Yost Associates to prepare a hydraulic model, and

WHEREAS West Yost also completed an engineering needs assessment of the water utility, and

WHEREAS, West Yost's report, *Justification and Cost Allocation for Proposed Water System Improvements*, identifies water system needs totaling \$152.8 Million over the course of the next five (5) fiscal years, and

WHEREAS, the West Yost report allocates the bulk of these needs (seventy-four and two-tenths percent (74.2%) / \$113.4 million) to existing customers and the remaining system needs (twenty-five and eight-tenths percent (25.8%) / \$39.4 million) to future system customers, and

WHEREAS, the *Water Utility Cost of Service Rate Study* prepared by Foresight Consulting concludes rate increases are needed in order to fund the necessary system improvements, as well as to continue to offer high quality service to water utility customers, and

WHEREAS, Foresight's proposed rate adjustments would increase rates by varying amounts for the initial adjustment, effective January 1, 2005, dependent on lot size, customer type and zone, and averaging thirty-five percent (35%) for most residential flat-rate customers, and

WHEREAS, Foresight also proposes subsequent across-the-board rate increases for all customer types and classes effective July 1, 2005, in the amount of twenty percent (20%), effective July 1, 2006, in the amount of fifteen percent (15%), effective July 1, 2007, in the amount of five percent (5%), and effective July 1, 2008, in the amount of five percent (5%), and,

WHEREAS, the Foresight Study further recommends adopting annual automatic rate adjustments beginning July 1, 2009, which would be linked to changes in the

Consumer Price Index, Urban Wage Earners and Clerical Workers Series for the San Francisco CMSA, as prepared by the California Department of Finance, and

WHEREAS, the actual rates levied each year would not exceed the adjusted maximum rates in any given fiscal year without further notification of the property owners, and

WHEREAS, in order to enact the proposed rate increases needed to fund system improvements identified by West Yost the City must conduct a Proposition 218 protest process affording property owners the opportunity to protest the proposed rates, and

WHEREAS, the protest process provides for notices to be mailed to each property owner explaining the new rate structure and proposed rate adjustments, and

WHEREAS, the protest process also requires a public hearing be set for a date not less than forty-five (45) days from the date when protest notices are mailed to property owners, and

WHEREAS, the Finance Committee received the findings and recommendations from West Yost and Foresight Consulting during its meeting on September 2, 2004 and forwarded said findings, recommendations and reports to the full Council for review,

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto, that a Proposition 218 Protest process be initiated to adjust rates according to the Foresight report's proposed Financial Plan with varying rate adjustments for Fiscal Year 2004-2005 (dependent upon customer class, lot size, current zone and current rate) and twenty percent (20%), fifteen percent (15%), five percent (5%) and five percent (5%) across-the-board rate adjustments in subsequent years (2005-2006 through 2008-2009) to support the Financial Plan.

BE IT FURTHER RESOLVED that the protest process include automatic rate adjustments, subject to annual review, beginning July 1, 2009, which would provide for annual rate adjustments linked to changes in the Consumer Price Index, Urban Wage Earners and Clerical Workers Series for the San Francisco CMSA, as prepared by the California Department of Finance.

BE IT FURTHER RESOLVED that actual rates levied each year will not exceed the adjusted maximum rates in any given fiscal year without further notification of the property owners.

BE IT FURTHER RESOLVED that protest notices be mailed to property owners explaining the new rate structure and proposed rate adjustments and allowing for a protest response.

BE IT FURTHER RESOLVED that a public hearing be set for November 23, 2004 to consider the results of the protest response and to act on the proposed rate adjustments.

BE IT FURTHER RESOLVED that Council will review water rates every three years to determine if further adjustments are warranted

BE IT FURTHER RESOLVED that the additional utility user's tax received as a result of the increased water rates will be used to assist low income seniors.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of September, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-472**

**A RESOLUTION APPROVING THE RENAMING OF THE CITY PARK CURRENTLY REFERRED TO AS "ORVILLE WRIGHT NEIGHBORHOOD PARK", LOCATED AT 1601 HILLSIDE DRIVE, TO "GEORGE A. ROGERS NEIGHBORHOOD PARK".**

WHEREAS, at its April 26, 2004, meeting, the Culture Commission met with Tom Myers, a teacher at Rose Avenue Elementary School and a group of citizens, who gave a brief presentation asking the members to consider a proposal to rename Orville Wright Neighborhood Park (located at 1601 Hillside Drive) as George A. Rogers Neighborhood Park, and

WHEREAS, George A. Rogers was a respected and dynamic individual who was a dedicated teacher and mentor at Orville Wright Elementary School for 30 years, and

WHEREAS, the group presented 105 letters requesting this name change and a petition containing 535 signatures of support to the Commission, and

WHEREAS, per City Council Policy No. 6.005 (1) parks located adjacent to schools shall be given the same name as the school, unless the request meets the following exception stated in (3) of the above policy:

"An exception to the above procedure would be made when the park has been made possible by a public-spirited citizen and the Council determines it appropriate to name the park after the citizen or a name suggested by the citizen."

and

WHEREAS, Mr. Rogers was involved from the beginning when meetings were held with the Modesto Airport Neighbors United to discuss the possibility of a park with a baseball field that would benefit the Airport neighborhood, Mr. Rogers presented this "park idea" to the Orville Wright staff and gained their support for the neighborhood park, and Mr. Rogers' involvement in numerous school and community organizations supports his qualification as a public-spirited citizen, and

WHEREAS, the Culture Commission believed this request met the exception listed in City Council Policy No. 6.005 (3) and directed staff to follow the proper procedures, and

WHEREAS, a duly noticed public hearing of the Culture Commission was held on June 28, 2004, at which time several citizens voiced their support for this name change including: Scott Genzmer, former Principal of Orville Wright Elementary School; Jim Enochs, Superintendent of Modesto City Schools; Craig Orona, Mr. Roger's nephew; and Mary Lynn Lebow, Airport Neighbors United Coordinator, and all expressed their admiration for George A. Rogers, stating that he was a man of enormous integrity who has inspired three generations of pupils at Orville Wright Elementary School, and

WHEREAS, at the September 8, 2004, Safety and Communities meeting, the above individuals, and others, reiterated their admiration and respect for George Rogers and his many acts of dedication, most notably to the youth of Modesto and the Airport neighborhood, and

WHEREAS, the Safety and Communities Committee met on September 8, 2004, and supported the recommendation to rename the Orville Wright Neighborhood Park to George A. Rogers Neighborhood Park,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves renaming the city park currently referred to as "Orville Wright Neighborhood Park", located at 1601 Hillside Drive, to "George A. Rogers Neighborhood Park".

RESOLUTION NO. 2004-474**

**A RESOLUTION OF THE COUNCIL OF THE CITY OF MODESTO  
ADOPTING AN AMENDED CONFLICT OF INTEREST CODE FOR THE  
OFFICE OF THE CITY MANAGER OF THE CITY OF MODESTO AND  
RESCINDING RESOLUTION NO. 2002-450**

WHEREAS, pursuant to Government Code Section 87300, every local agency must adopt a conflict of interest code, and

WHEREAS, the City Clerk is authorized to maintain a current list of the City agencies/departments which have adopted conflict of interest codes, and

WHEREAS, pursuant to Government Code Section 82011, this Council is the code reviewing body for agencies of the City of Modesto, and

WHEREAS, the Council, at its meeting of September 28, 2004 considered the adoption of amended conflict of interest codes for various City departments, including the Office of the City Manager.

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto hereby adopts an amended Conflict of Interest Code for the Office of the City Manager of the City of Modesto as submitted, a copy of which Code is attached hereto.

BE IT FURTHER RESOLVED that Resolution No. 2002-450 adopted by the Council is hereby rescinded.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28<sup>th</sup> day of September 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh was upon roll call carried and the resolution adopted by the following vote:

**CONFLICT OF INTEREST CODE  
OF THE  
OFFICE OF THE CITY MANAGER  
OF THE CITY OF MODESTO**

The Political Reform Act (Government Code Section 8100, et seq.) requires state and local government agencies to adopt and promulgate conflict of interest codes. The Fair Political Practices Commission has adopted a regulation (2 Cal. Code of Regs. 18730) which contains the terms of a standard conflict of interest code. After public notice and hearing it may be amended by the Fair Political Practices Commission to conform to amendments in the Political Reform Act. Therefore, the terms of 2 California Code of Regulations Section 18730 and any amendments to it duly adopted by the Fair Political Practices Commission are hereby incorporated by reference. This regulation and the attached Appendix designating officials and employees and establishing disclosure categories, shall constitute the conflict of interest code of the Office of the City Manager.

Designated employees shall file their statements with the Office of the City Clerk and Auditor which will make the statements available for public inspection and reproduction. (Gov. Code Section 81008). Statements for all designated employees will be retained by the Office of the City Clerk & Auditor.

Disclosure Categories

An investment, interest in real property, or income is reportable if the business entity in which the investment is held, the interest in real property, or the income, or source of income may foreseeably be affected materially by any decision made or participated in by the designated employee by virtue of the employee's position.

Group 1: The City Manager is required, pursuant to Government Code Section 87200, to disclose investments, interests in real property and income. No other or additional disclosure requirements are imposed by this Conflict of Interest Code.

Group 2: Designated employees in this group shall report all business positions, all investments, interests in real property, income, loans or gifts from individuals or businesses - Schedules A, B, C, D, E and F - from all sources located in or doing business within the jurisdiction. (Real property shall be deemed to be "within the jurisdiction" if the property or any part of it is located within or not more than two miles outside the boundaries of the city or within two miles of any land owned or used by the City.)

Group 3: A consultant is any person who under contract provides information, advice, recommendation or counsel to any agency. The head of the department which hires a consultant shall determine on a case-by-case basis the appropriate disclosure of economic interest which the consultant is required to file with the City Clerk on beginning and ending the job.

**CONFLICT OF INTEREST CODE  
OF THE  
PUBLIC WORKS DEPARTMENT  
OF THE CITY OF MODESTO**

The Political Reform Act (Government Code Section 8100, et seq.) requires state and local government agencies to adopt and promulgate conflict of interest codes. The Fair Political Practices Commission has adopted a regulation (2 Cal. Code of Regs. 18730) which contains the terms of a standard conflict of interest code. After public notice and hearing it may be amended by the Fair Political Practices Commission to conform to amendments in the Political Reform Act. Therefore, the terms of 2 California Code of Regulations Section 18730 and any amendments to it duly adopted by the Fair Political Practices Commission are hereby incorporated by reference. This regulation and the attached Appendix designating officials and employees and establishing disclosure categories, shall constitute the conflict of interest code of the Public Works Department.

Designated employees shall file their statements with the Office of the City Clerk and Auditor which will make the statements available for public inspection and reproduction. (Gov. Code Section 81008). Statements for all designated employees will be retained by the Office of the City Clerk & Auditor.

EXHIBIT "B"

Disclosure Categories

An investment, interest in real property, or income is reportable if the business entity in which the investment is held, the interest in real property, or the income, or source of income may foreseeably be affected materially by any decision made or participated in by the designated employee by virtue of the employee's position.

Group 1: Designated employees in this group shall report all business positions, all investments, interests in real property, income, loans or gifts from individuals or businesses - Schedules A, B, C, D, E and F - from all sources located in or doing business within the jurisdiction. (Real property shall be deemed to be "within the jurisdiction" if the property or any part of it is located within or not more than two miles outside the boundaries of the city or within two miles of any land owned or used by the City.)

Group 2: Designated employees in this group shall report all business positions, all investments, income, loans or gifts from individuals or businesses - Schedules A, C, D, E and F - from business entities located in or doing business within the jurisdiction which manufacture, sell or supply equipment, including but not limited to horticulture, construction, craft, office and safety supplies and/or equipment.

Group 3: A consultant is any person who under contract provides information, advice, recommendation or counsel to any agency. The head of the department which hires a consultant shall determine on a case-by-case basis the appropriate disclosure of economic interest which the consultant is required to file with the City Clerk on beginning and ending the job.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-485**

**A RESOLUTION APPROVING AN AGREEMENT BETWEEN THE CITY OF MODESTO AND HELEN M. GLEASON FOR THE ACQUISITION OF PROPERTY, BEING ASSESSORS PARCEL NO. 066-025-069, FOR THE RECONSTRUCTION AND EXPANSION OF THE ROSE/CELESTE SANITARY SEWER LIFT STATION AND AUTHORIZING THE CITY MANAGER TO EXECUTE ALL DOCUMENTS RELATED TO SAID ACQUISITION.**

WHEREAS, as part of the City Council policy to ensure redundancy and reliability in Modesto's sanitary sewer system, the sanitary sewer lift station at Rose/Celeste has been evaluated and it has been determined to be undersized and located in a street right of way requiring street closures for maintenance or repair, and

WHEREAS, it has been determined that the current sanitary sewer lift station should be abandoned and that a replacement sanitary sewer lift station should be placed on an adjacent parcel of land located at 1924/1926 Rose Avenue which is also described as Assessors Parcel Number 066-025-069, and

WHEREAS, a property acquisition needs to be completed for this lift station project, and

WHEREAS, at the direction of the City Council, City staff has contracted with Mr. Steve Castellano of Associated Right of Way Services (ARWS) to complete the negotiations with the property owner, Helen M. Gleason, to purchase said parcel located at 1924/1926 Rose Avenue for a purchase price of Two Hundred, Eight-five Thousand and No Dollars (\$285,000), and

WHEREAS, an agreement is needed for the acquisition of the needed property acquisition, and

WHEREAS, the Economic Development Committee reviewed the proposed acquisition on February 9, 2004 and recommended proceeding with the acquisition and subsequent lift station replacement, and

WHEREAS, said lift station project is categorically exempt from CEQA pursuant to Section 15303 (d): New construction – Water main, sanitary sewer utility extension and street improvements of reasonable length, and

WHEREAS, this project has been found to be in conformance with the General Plan as part of the FY 2004 approval of the Capital Improvement Program project list – “Sewer Lift Station Upgrade – Rose Avenue”, and

WHEREAS, a Phase I Environmental review was completed on September 7, 2004 and the conclusion was that there was no evidence of known Recognized Environmental Conditions of Concern for the property,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Agreement between the City of Modesto and Helen M. Gleason for the acquisition of property, being Assessors Parcel No. 066-025-069, for the replacement of the Rose/Celeste sanitary sewer lift station is hereby approved.

BE IT FURTHER RESOLVED that the City Manager, or his designee, on behalf of the City of Modesto is hereby authorized to execute the Agreement.

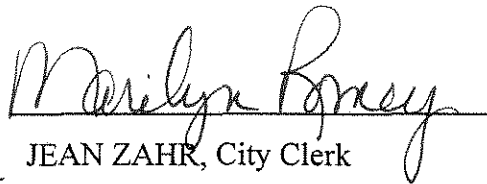

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of September, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-488**

**A RESOLUTION AUTHORIZING THE AWARD OF BID AND CONTRACT FOR THE FURNISHING OF WATER STORAGE TANK DIVING INSPECTION SERVICE AND REPAIR, TO ADVANCED DIVING SERVICES, INC., MESQUITE, NV, FOR A THREE (3) YEAR AGREEMENT, WITH TWO (2) ONE-YEAR EXTENSION OPTIONS, FOR AN ESTIMATED ANNUAL COST OF \$21,376**

WHEREAS, the City of Modesto operates and maintains seven (7) above ground non-elevated potable water storage tanks, and

WHEREAS, each tank varies in size, holding from .22 million gallons to 2.0 million gallons of potable water, and

WHEREAS, the Public Works Department, Water Division has requested water storage tank diving inspection service and repair for the following potable water storage tanks Nos. 3, 4, 5, 6, 7, 8 and 9, and

WHEREAS, tank diving services shall be performed on an annual basis, scheduled by the Public Works Department, Water Division, and

WHEREAS, services consist of providing all of the labor, parts, materials and equipment necessary to furnish underwater closed circuit video inspection of the tank floor and interior coating, and visual inspection of the exterior coating, and

WHEREAS, services also included the removal of underwater sediments that collect on the tank floor, touch-up and repair of corrosive areas found in the interior of the tank, and underwater cutting and welding, as required, and

WHEREAS, on May 25, 2004, Council approved Resolution No. 2004-272, authorizing the Purchasing Supervisor to formally solicit bids for the furnishing of water

storage tank diving inspection service and repair, for a three (3) year agreement, with two (2) one-year extension options, and

WHEREAS, the Purchasing Supervisor solicited Request for Bid No. 0304-24, for the furnishing of water storage tank diving inspection service and repair to seventeen (17) companies, posted the bid on the City's web site, and formally advertised as required by law, and

WHEREAS, of the seventeen (17) companies solicited, two (2) companies chose to respond, and

WHEREAS, based on being the lowest responsive bid, City staff recommends the award of Bid No. 0304-24 and contract for the furnishing of water storage tank diving inspection service and repair, to Advanced Diving Services, Inc., Mesquite, NV, for a three (3) year agreement, with two (2) one-year extension options, for an estimated annual cost of \$21,376.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards Bid No. 0304-24 and contract for the furnishing of water storage tank diving inspection service and repair, to Advanced Diving Services, Inc., Mesquite, NV, for a three (3) year agreement, with two (2) one-year extension options, for an estimated annual cost of \$21,376.

BE IT FURTHER RESOLVED that the City Manager or his designee, is hereby authorized to execute said contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28<sup>th</sup> day of September 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-489**

**A RESOLUTION AUTHORIZING THE AWARD OF BID AND CONTRACT FOR THE FURNISHING OF DISCING AND FLAIL MOWING SERVICES, TO JOE SCOTO FARMING, MODESTO, CA, FOR A THREE (3) YEAR AGREEMENT, WITH TWO (2) ONE-YEAR EXTENSION OPTIONS, FOR AN ESTIMATED ANNUAL COST OF \$67,324**

WHEREAS, the Parks, Recreation and Neighborhoods Department, Park Operations Division has requested discing and flail mowing services for twenty-two (22) City locations, consisting of approximately 632 acres, and

WHEREAS, discing and flail mowing are performed on open fields as part of a weed abatement program to control the over-growth of weeds and grasses, and

WHEREAS, a complete discing or flail mowing consists of one (1) complete pass through the field, and

WHEREAS, it is anticipated that services shall be performed four (4) times per year at each City location, and

WHEREAS, the Parks, Recreation and Neighborhoods Department, Park Operations Division shall determine the service schedule, and

WHEREAS, on May 25, 2004, Council approved Resolution No. 2004-271, authorizing the Purchasing Supervisor to formally solicit bids for the furnishing of discing and flail mowing services, for a three (3) year agreement, with two (2) one-year extension options, and

WHEREAS, the Purchasing Supervisor solicited Request for Bid No. 0405-01, for the furnishing of discing and flail mowing services to sixteen (16) companies, posted the bid on the City's web site, and formally advertised as required by law, and

WHEREAS, of the sixteen (16) companies solicited, two (2) companies chose to respond, and

WHEREAS, based on being the lowest responsive bid, City staff recommends the award of Bid No. 0405-01 and contract for the furnishing of discing and flail mowing services, to Joe Scotto Farming, Modesto, CA, for a three (3) year agreement, with two (2) one-year extension options, for an estimated annual cost of \$67,324.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards Bid No. 0405-01 and contract for the furnishing of discing and flail mowing services, to Joe Scotto Farming, Modesto, CA, for a three (3) year agreement, with two (2) one-year extension options, for an estimated annual cost of \$67,324.

BE IT FURTHER RESOLVED that the City Manager or his designee, is hereby authorized to execute said contract.

CONTRACT FOR UNIFORMS AND LAUNDRY SERVICES TO PRUDENTIAL  
OVERALL SUPPLY OF FRESNO, CA. FOR AN INITIAL ONE-YEAR PERIOD  
WITH FOUR (4), ADDITIONAL ONE-YEAR, CONTRACT EXTENSIONS FOR  
AN APPROXIMATE ANNUAL AMOUNT OF \$97,605.14**

WHEREAS, the Public Works Department has requested the purchase of uniforms and laundry services, and

WHEREAS, Article 23 of the Memorandum of Understanding (MOU) between the City of Modesto and the Modesto City Employees Association (MCEA) details Dress and Grooming criteria for Non-Sworn City employees, and

WHEREAS, subsection (c) of the article requires employees in the following classifications to wear uniform cap and shirts provided by the City: Storekeeper, Senior Storekeeper, Maintenance Worker I/II, Parks Crew Leader, Maintenance Mechanic-Parks, Equipment Operator, Tree Trimmer, Tree Trimmer Crew Leader, Maintenance Mechanic-Pumps, Equipment Crew Leader, Water Distribution System Operator, WWC System Operator, Electrical Technician I/II, Assistant Electrician, Electrician, Custodian I/II, Civil Engineering Technical I/II/II, and

WHEREAS, the City is also required to provide coveralls, pants, and rain gear for certain employees, dependent upon classification, and

WHEREAS, the City also provides uniforms for certain classifications of Management and Confidential Employees, including Operations and Maintenance Supervisor, Custodial Supervisor, Land Surveyor, Plant Maintenance Supervisor,

Secondary Treatment Facilities Supervisor, Electrical Supervisor, and WQC Operations Supervisor, and

WHEREAS, at its March 22, 2004, meeting the Finance Committee gave unanimous approval to move this request for authorization to issue Request for Proposal (RFP) to full Council for review, and

WHEREAS, Resolution 2004-257 authorized the Purchasing Supervisor to solicit a Request for Proposals for (RFP) for uniforms and laundry services for an initial one-year period with four (4) additional one-year contract extensions for an approximate annual amount of \$97,605.14, and

WHEREAS, staff estimates it will cost approximately \$128,970 in FY 04/05 for uniforms and laundry services, and

WHEREAS, Modesto Municipal Code (MMC) Section 8-3.203 generally requires all purchases exceeding \$50,000 for materials and equipment to be formally bid, and

WHEREAS, the code also states that a purchase whose total maximum cost to the City exceeds \$50,000 shall receive preliminary approval of Council to bid (Modesto Municipal Code (8-3.203 (a)), and

WHEREAS, the Purchasing Division solicited formal proposals for uniforms and laundry services on RFP 0304-07, and

WHEREAS, all five (5) vendors solicited responded to the RFP, and

WHEREAS, proposals received for uniforms and laundry services were evaluated per evaluation criteria as defined in Specification 0304-07, by a committee consisting of City staff from the Public Works Department and the Purchasing Division, and

WHEREAS, based on a total RFP evaluation score, Prudential Overall Supply of Fresno, CA. is the best proposer for uniforms and laundry services,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the award of proposal and contract for uniforms and laundry services to Prudential Overall Supply of Fresno, CA. for an initial one-year period, with four (4) additional one-year contract extensions options for an approximate annual cost of \$97,605.14.

RESOLUTION NO. 2004-491**

**A RESOLUTION DECLARING ONE (1) VAN PELT FIRE ENGINE AS SURPLUS, AND APPROVING ITS SALE TO THE YOSEMITE COMMUNITY COLLEGE DISTRICT FOR USE AT THE REGIONAL FIRE TRAINING CENTER (RFTC).**

WHEREAS, in 1994, the City of Modesto partnered with the Yosemite Community College District and Stanislaus County in the construction and operation of the Regional Fire Training Center (RFTC), and

WHEREAS, the RFTC is equipped through the Fire Science Program at Modesto Junior College, the RFTC partnership funds, and donations, and

WHEREAS, the RFTC maintains two (2) very old fire engines utilized by the Regional Fire Academy, Modesto Fire Explorers and others who rent the facility, and

WHEREAS, the Modesto Fire Department has a 1997 Van Pelt engine that is due to be surplus and sold at auction, and

WHEREAS, the estimated auction value of the engine is approximately \$3,000-\$5,000, minus the associated fees, and

WHEREAS, the Modesto Fire Department would like to sell the 1997 Van Pelt engine to the Yosemite Community College District for \$1.00, and

WHEREAS, by selling the engine to the Yosemite Community College District, the City would benefit by having the engine available for use by the Modesto Fire Department and Fire Explorers, the revenue derived from renting the engine to non-member agencies would offset the City's annual partnership costs, and the engine would be available in case of an emergency, and

WHEREAS, the Safety and Communities Committee reviewed and approved this item at its September 8, 2004, meeting,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto it hereby declares one 1997 Van Pelt engine as surplus.

BE IT FURTHER RESOLVED that the Council hereby approves the sale of the 1997 Van Pelt engine to the Yosemite Community College District for the sum of \$1.00 for use at the Regional Fire Training Center.

RESOLUTION NO. 2004-492**

**A RESOLUTION AUTHORIZING THE ACTING CITY MANAGER TO  
SUBMIT THE APPLICATION FOR THE DEPARTMENT OF HOMELAND  
SECURITY, 2004 FIRE PREVENTION AND SAFETY GRANT IN THE  
AMOUNT OF \$85,200.00.**

WHEREAS, the Congress appropriated a total of \$745,125,000 to carry out the activities of the Assistance to Firefighters Grant Program as authorized by the establishment of the Federal Fire Protection and Control Act of 1974. As such, \$27,500,000 of the total appropriated funds support fire prevention and safety grants, and

WHEREAS, the Fire Prevention Bureau is responsible for administration of the fire and life safety programs in the City of Modesto, and

WHEREAS, the funds will be used to purchase a fire safety trailer, provide \$6,000 towards the cost of a tow vehicle, and hire a part-time public education employee to coordinate and help staff the trailer at schools and community events, and

WHEREAS, said adopted procedures established by the City of Modesto require the applicant to certify by resolution the approval of applications and the availability of local matching funds prior to submission of said application to the state,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby:

1. Approves the submission and filing of an application for the Federal Fire Protection and Control Act, Grant Fund for assistance; and

2. Certifies that said agency has matching funds from the following source: Fire Prevention Bureau (1822), and can finance 100 percent of the project, 70% of which will be reimbursed; and
3. Authorizes and appoints the Acting City Manager or his designee, as agent of the City to execute all necessary grant documents, including, but not limited to, the applications, which may be necessary for submission of said grant application.

**A RESOLUTION APPROVING THE APPLICATION FOR \$1,000,000 IN FUNDING FROM THE STATE URBAN PARKS AND HEALTHY COMMUNITIES PROGRAM UNDER THE CALIFORNIA CLEAN WATER, CLEAN AIR, SAFE NEIGHBORHOOD PARKS, AND COASTAL PROTECTION ACT OF 2002, FOR THE DEVELOPMENT OF A SOCCER COMPLEX AT MARY E. GROGAN PARK AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE GRANT APPLICATION AND CONTRACT DOCUMENTS.**

WHEREAS, the people of the State of California have enacted the CALIFORNIA CLEAN WATER, CLEAN AIR, SAFE NEIGHBORHOOD PARKS, AND COASTAL PROTECTION ACT OF 2002, which provides funds to the State of California for grants to eligible Applicants, and

WHEREAS, the California Department of Parks and Recreation has been delegated the responsibility for the administration of State Urban Parks and Healthy Communities Program and the grant Project shown above within the State, setting up necessary procedures, and

WHEREAS, development of the Soccer Complex at Grogan Community Park is consistent with the State Urban Parks and Healthy Communities Program grant project criteria, and

WHEREAS, said procedures established by the California Department of Parks and Recreation require the Applicant's Governing Body to certify by resolution the approval of the Application before submission of said Application to the State, and

WHEREAS, the Applicant will enter into a Contract with the State of California for the Project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby:

1. Approves the filing of an Application for \$1,000,000 in local assistance funds from the State Urban Parks and Healthy Communities Program under the California Clean Water, Clean Air, Safe Neighborhood Parks and Coastal Protection Act of 2002;
2. Certifies that the Applicant has or will have sufficient funds to operate and maintain the Project;
3. Certifies that the Applicant has reviewed, understands, and agrees to the General Provisions contained in the Contract shown in the Procedural Guide;
4. Certifies that the Grantee has or will have available, prior to commencement of any work on the project, the required match;
5. Certifies that the Project conforms to the recreation element of any applicable city or county general plan; and
6. Appoints the City Manager, or his designee, as agent to conduct all negotiations, execute and submit all documents including, but not limited to, applications, agreements, payment requests and so on, which may be necessary for the completion of the Project.

**A RESOLUTION APPROVING A FIVE-YEAR LEASE AGREEMENT  
BETWEEN THE CITY OF MODESTO AND METRO PCS  
CALIFORNIA/FLORIDA, INC., A DELAWARE CORPORATION, D/B/A  
METRO PCS, FOR A CELLULAR TOWER SITE LOCATED ON A PORTION  
OF BEYER COMMUNITY PARK, WITH THREE FIVE-YEAR OPTIONS TO  
EXTEND THE LEASE, AND AUTHORIZING THE CITY MANAGER TO  
EXECUTE THE LEASE AGREEMENT.**

WHEREAS, Metro PCS California/Florida, Inc., a Delaware corporation, d/b/a Metro PCS, desires to lease a cellular tower site located on a portion of Beyer Community Park for a period of five years, with three five-year options to extend the lease, for the installation of phone equipment, and

WHEREAS, the City of Modesto is willing to lease a portion of Beyer Community Park to Metro PCS for said use for the sum of \$1,800.00 per month with a rental increase equal to the Consumer Price Index for the San Francisco/Oakland/San Jose Metropolitan Statistical Area (MSA) at the beginning of each renewal period, and

WHEREAS, Metro PCS will replace an existing ball field light pole that will meet its structural requirements, and

WHEREAS, the new light pole installed by Metro PCS will become the property of the City of Modesto, and

WHEREAS, at its August 26, 2004, meeting, by Resolution No. 2004-19, the Board of Zoning Adjustment approved a conditional use permit, subject to the following conditions:

1. All development shall conform to the plot plan and elevation plans titled "Metro PCS – Beyer," as amended in red, stamped approved by the Board of Zoning Adjustment on August 26, 2004.
2. All landscaping, fences, and walls shall be maintained and the premises shall be kept free of weeds, trash and other debris.

3. The Applicant shall record a "Notice of Conditions" in the Stanislaus County Recorder's Office on a form available in the Community and Economic Development Department.
4. The developer shall indemnify, defend, and hold harmless the City of Modesto, its agents, officers, and employees from any and all claims, actions or proceedings against the City of Modesto, its agents, officers, and employees to arbitrate, attack, review, set aside, void, or annul, any approval by the City of Modesto of a development approval. The City of Modesto shall promptly notify the developer of any claim, action, or proceeding and shall cooperate fully in the defense. If the City fails to do so, the developer shall not thereafter be responsible to defend, indemnify or hold City harmless.

and,

WHEREAS, also by Resolution 2004-19, the Board of Zoning Adjustment adopted the findings of Initial Study, Environmental Assessment No. EA/C&ED 2004-42, "Wireless Antenna on Replacement Ball Field Light Pole in Beyer Park", which find and determine:

1. The proposed subsequent project will have no additional significant effect as defined in CEQA Section 21158 that was not identified in the Modesto Urban Area General Plan Master Environmental Impact Report (SCH No. 1999082041).
2. No new or additional mitigation measures or alternatives are required.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Five-Year Lease Agreement between the City of Modesto and Metro PCS California/Florida, Inc., a Delaware Corporation, d/b/a/ Metro PCS, for a cellular site located on a portion of Beyer Community Park, with three, five-year options to extend the lease.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Lease Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28<sup>th</sup> day of September 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-495**

**A RESOLUTION APPROVING A FIVE-YEAR LEASE AGREEMENT BETWEEN THE CITY OF MODESTO AND METRO PCS CALIFORNIA/FLORIDA, INC., A DELAWARE CORPORATION, D/B/A METRO PCS, FOR A CELLULAR TOWER SITE LOCATED ON A PORTION OF DAVIS COMMUNITY PARK, WITH THREE FIVE-YEAR OPTIONS TO EXTEND THE LEASE, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE LEASE AGREEMENT.**

WHEREAS, Metro PCS California/Florida, Inc., a Delaware corporation, d/b/a Metro PCS, desires to lease a cellular tower site located on a portion of Davis Community Park for a period of five years, with three five-year options to extend the lease, for the installation of phone equipment, and

WHEREAS, the City of Modesto is willing to lease a portion of Davis Community Park to Metro PCS for said use for the sum of \$1,800.00 per month with a rental increase equal to the Consumer Price Index for the San Francisco/Oakland/San Jose Metropolitan Statistical Area (MSA) at the beginning of each renewal period, and

WHEREAS, Metro PCS will replace an existing ball field light pole that will meet its structural requirements, and

WHEREAS, the new light pole installed by Metro PCS will become the property of the City of Modesto, and

WHEREAS, at its August 26, 2004, meeting, by Resolution No. 2004-19, the Board of Zoning Adjustment approved a conditional use permit, subject to the following conditions:

1. All development shall conform to the plot plan and elevation plans titled "Metro PCS – Davis," as amended in red, stamped approved by the Board of Zoning Adjustment on August 26, 2004.
2. All landscaping, fences, and walls shall be maintained and the premises shall be kept free of weeds, trash and other debris.

3. The Applicant shall record a "Notice of Conditions" in the Stanislaus County Recorder's Office on a form available in the Community and Economic Development Department.
4. The developer shall indemnify, defend, and hold harmless the City of Modesto, its agents, officers, and employees from any and all claims, actions or proceedings against the City of Modesto, its agents, officers, and employees to arbitrate, attack, review, set aside, void, or annul, any approval by the City of Modesto of a development approval. The City of Modesto shall promptly notify the developer of any claim, action, or proceeding and shall cooperate fully in the defense. If the City fails to do so, the developer shall not thereafter be responsible to defend, indemnify or hold City harmless.

and,

WHEREAS, also by Resolution 2004-19, the Board of Zoning Adjustment adopted the findings of Initial Study, Environmental Assessment No. EA/C&ED 2004-43, "Wireless Antenna on Replacement Ball Field Light Pole in Davis Park", which find and determine:

1. The proposed subsequent project will have no additional significant effect as defined in CEQA Section 21158 that was not identified in the Modesto Urban Area General Plan Master Environmental Impact Report (SCH No. 1999082041).
2. No new or additional mitigation measures or alternatives are required.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Five-Year Lease Agreement between the City of Modesto and Metro PCS California/Florida, Inc., a Delaware Corporation, d/b/a/ Metro PCS, for a cellular site located on a portion of Davis Community Park, with three, five-year options to extend the lease.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Lease Agreement.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-496**

**A RESOLUTION AUTHORIZING STAFF TO SOLICIT FORMAL PROPOSALS FOR ASSISTANCE IN UPDATING THE CITY'S FIVE-YEAR CONSOLIDATED PLAN (2005-2010) AND ANALYSIS OF IMPEDIMENTS TO FAIR HOUSING UPDATE.**

WHEREAS, the U.S. Department of Housing and Urban Development (HUD) requires entitlement grantees to adopt a comprehensive, long-term plan for the use of HUD funds; the Five-Year Consolidated Plan analyzes the City's housing and community development needs, with a priority focus on low- and moderate-income individuals, households and neighborhoods, and describes long-term strategies for meeting those needs, and

WHEREAS, in addition to the development of a broad policy framework, the Consolidated Plan also addresses how the City will utilize funding from three different entitlement grants to meet those needs: the Community Development Block Grant (CDBG), the HOME Investment Partnership Grant (HOME), and the Emergency Shelter Grant (ESG), and

WHEREAS, HUD requires grantees to conduct an "Analysis of Impediments to Fair Housing" every 5 years; HUD is committed to eliminating racial and ethnic segregation, illegal physical and other barriers to persons with disabilities and other discriminatory practices in housing, through the implementation of fair housing actions., and

WHEREAS, the City's current Consolidated Plan was adopted in 2000 and the last Analysis of Impediments to Fair Housing was completed in 1996; both documents are currently due and should be completed before the end of Fiscal Year 2004-2005, and

WHEREAS, due to several staff vacancies, staff is recommending that a portion of the Five-Year Consolidated Plan and the Analysis of Impediments to Fair Housing Update be performed by an outside service provider, and

WHEREAS, the Citizens Housing and Community Development Committee met on August 27, 2004, and supported the recommendation to authorize staff to solicit formal proposals for assistance in updating the City's Five-Year Consolidated Plan (2005-2010) and Analysis of Impediments to Fair Housing Update,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby authorizes staff to solicit formal proposals for assistance in updating the City's Five-Year Consolidated Plan (2005-2010) and Analysis of Impediments to Fair Housing Update.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-497**

**A RESOLUTION AUTHORIZING STAFF TO PROCEED WITH A REQUEST FOR QUALIFICATIONS FOR ON-CALL LANDSCAPE ARCHITECTURAL SERVICES AND APPROVE THE PROPOSED EVALUATION CRITERIA.**

WHEREAS, due to a significant amount of design work related to parks in the coming years and the current operating budget challenges that the City of Modesto is facing, Parks Planning and Development staff wishes to streamline the design process for landscape architectural projects, and

WHEREAS, currently, the process involves sending a Request for Qualifications (RFQ) and Request for Proposals (RFP) out and holding interviews for each project that we need to design; this process involves significant staff time and takes about six (6) months to complete, and

WHEREAS, there are many small projects that come up from time-to-time that staff has to design in-house, because the timeline doesn't allow for 6 months to hire a consultant; these small design projects significantly impact the workload of the division and delay other important projects or require staff overtime to complete, and

WHEREAS, City staff wishes to pursue the option of preparing a short-list of landscape architectural consultants to prepare master plans, design development reports, construction documents and other related work, and

WHEREAS, the landscape architectural consultants will be used on an on-call basis as the need arises and the list will be in place for three years, and

WHEREAS, this On-Call list will then be updated every three years, and

WHEREAS, if approved, staff will send out the RFQ to a list of qualified landscape architectural firms, and

WHEREAS, a review team, made up of staff from the Public Works Department and the Parks, Recreation and Neighborhoods Department will review the RFQ's submitted based on their qualifications and demonstrated ability to perform the type of work required as outlined in the RFQ; the review team will then select eight (8) to twelve (12) firms to be interviewed, and

WHEREAS, following the interviews, the review team will recommend to the City Council three (3) to six (6) firms to be placed on the City's "On-Call" list for Landscape Architectural Services, and

WHEREAS, the Safety and Communities Committee met on September 8, 2004, and supported the recommendation to develop an On-Call Short-List for landscape architectural services,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby authorizes staff to proceed with a Request for Qualifications for On-Call Landscape Architectural Services.

BE IT FURTHER RESOLVED that the proposed evaluation criteria are hereby approved.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28<sup>th</sup> day of September 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-498**

**A RESOLUTION AWARDING A CONTRACT TO CALLANDER ASSOCIATES LANDSCAPE ARCHITECTURE, INC. FOR PROFESSIONAL LANDSCAPE ARCHITECTURAL SERVICES TO PREPARE A CONCEPTUAL DESIGN AND CONSTRUCTION DOCUMENTS FOR LANDSCAPE ENHANCEMENTS ON STATE ROUTE 99 WITHIN AND NEAR THE BRIGGSMORE EXPRESSWAY INTERCHANGE, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT.**

WHEREAS, at the March 13, 2001, City Council Meeting, the Council authorized the City Manager to submit an application and negotiate an agreement for the use of Transportation Enhancement Activities (TEA) funds for a landscape beautification project within and near the Briggsmore / State Route 99 Interchange; also at that time, the City Council committed matching funds of up to \$75,000 for this project from the General Fund, and

WHEREAS, in late March of 2001, the City Manager submitted an application for \$1,000,000 in State TEA funds for this project, and

WHEREAS, the City was notified in fall of 2002 that funding had been identified for this project and Amendment #34 to the Federal Transportation Improvement Program (FTIP) was approved; Amendment #34 identified \$1,000,000 of State TEA funds, \$200,000 of Regional TEA funds and \$100,000 of Caltrans Minor Program funds for the Highway 99 Briggsmore Expressway Landscape Improvements Project, and

WHEREAS, in Fall of 2002, City staff began working with Caltrans District 10 to prepare a cooperative agreement for the funding of the construction of landscape enhancements within and near the Briggsmore / State Route 99 Interchange, and

WHEREAS, the project area included landscape enhancements to the Briggsmore Interchange and along State Route 99 for 0.5 miles to the south and 0.8 miles to the north of the Briggsmore Expressway along the northbound and southbound lanes, and

WHEREAS, the Cooperative Agreement also required the maintenance of the improvements to be paid for by the City of Modesto for three years from the time of completion of construction, and after the initial three years of maintenance, the State of California will take responsibility for maintenance of the improvements indefinitely, and

WHEREAS, on May 3, 2004, the Safety and Communities Committee endorsed approval of the Cooperative Agreement and on May 25, 2004, the Modesto City Council approved it and authorized the City Manager to execute said agreement, and

WHEREAS, Caltrans returned an executed copy of the Cooperative Agreement in June 2004, and

WHEREAS, on May 25, 2004, the City Council also approved the RFP that City staff subsequently sent to Royston Hanamoto Alley and Abey, Callander Associates, and Stantec Consulting, landscape architectural firms which were deemed the most qualified based on their qualification package submitted, and

WHEREAS, Callander Associates Landscape Architecture, Inc. was deemed the most qualified, due to their project experience in local projects of a very similar nature; they have agreed to provide the Master Plan and Construction Documents at a cost not to exceed \$133,500.00, and

WHEREAS, the Safety and Communities Committee met on September 8, 2004, and supported the recommendation to award a contract to Callander Associates Landscape Architecture, Inc. for professional landscape architectural services to prepare a

conceptual design and construction documents for Landscape Enhancements on State Route 99 within and near the Briggsmore Expressway Interchange,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the award of a contract to Callander Associates Landscape Architecture, Inc. for professional landscape architectural services to prepare a conceptual design and construction documents for Landscape Enhancements on State Route 99 within and near the Briggsmore Expressway Interchange at a cost not to exceed \$133,500.00.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28<sup>th</sup> day of September 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-499**

**A RESOLUTION AUTHORIZING STAFF TO WORK COOPERATIVELY WITH THE MODESTO A'S TO PURSUE NAMING RIGHTS FOR JOHN THURMAN FIELD, DESIGNATING MR. PETER JOHANSEN AS THE PERSON AUTHORIZED TO PURSUE NAMING RIGHTS ON BEHALF OF THE CITY AND THE MODESTO A'S, AND AUTHORIZING CITY STAFF TO NEGOTIATE AN AGREEMENT WITH MR. JOHANSEN.**

WHEREAS, on December 11, 2003, by Resolution No. 2003-648, the City of Modesto entered into a two-year license agreement with the Modesto A's (A's) for use of John Thurman Field, and

WHEREAS, this agreement spells out the responsibilities and privileges of each party, and

WHEREAS, one of the provisions of the agreement is that any efforts to secure naming rights for John Thurman Field will be approved by both parties, and

WHEREAS, both the City and the A's are interested in pursuing securing a company or organization to provide funding in exchange for re-naming the ball field, and

WHEREAS, the Modesto A's have identified Peter Johansen as a party who can secure naming rights for the field, and

WHEREAS, the Economic Development Committee met on September 13, 2004, and supported the recommendation to enter into a cooperative agreement with the Modesto A's to pursue naming rights for John Thurman Field,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby authorizes staff to work cooperatively with the Modesto A's to pursue naming rights for John Thurman Field.

BE IT FURTHER RESOLVED that the Council hereby designates Mr. Peter Johansen as the person authorized to pursue naming rights on behalf of the City and the Modesto A's.

BE IT FURTHER RESOLVED that the Council hereby authorizes City staff to negotiate an agreement with Mr. Johansen, and return to Council for approval of said agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28<sup>th</sup> day of September 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-500**

**A RESOLUTION INCREASING THE .75 PRODUCTION TECHNICIAN  
POSITION AT THE MODESTO CENTRE PLAZA TO FULL-TIME.**

WHEREAS, the responsibility of maintaining the audio visual equipment and lighting systems at the Modesto Centre Plaza, as well as working with clients to meet each of their unique needs, requires the fulltime expertise of the Production Technician (Production Tech), and

WHEREAS, with an increase in hours of the Production Tech, the quality of service at the Centre Plaza will not only be enhanced, but the revenue gain from professional services will increase, and

WHEREAS, the Centre Plaza will be replacing its lighting system this fiscal year with a state of the art system, which will require the expertise of the Production Tech on a fulltime basis, and

WHEREAS, the Centre Plaza has recently introduced a theatrical lighting package marketing campaign to sell enhanced lighting at events held at the Centre Plaza, and an increase in hours by the Production Tech will allow more time for him to market sound and light ideas with clients, and thus increase revenues, and

WHEREAS, the position is currently budgeted in Organization 3414, and

WHEREAS, funding for the increase will be off-set by additional revenue from additional professional services and through a reduction in part-time Sound and Lighting Technician hours, and

WHEREAS, the position is currently filled, and

WHEREAS, the Safety and Communities Committee met on September 8, 2004, and supported the recommendation to increase the Production Technician position to full-time,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves increasing the .75 Production Technician position at the Modesto Centre Plaza to full-time.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28<sup>th</sup> day of September 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 501**

**A RESOLUTION ACCEPTING A GRANT ENTITLED “SURVIVE THE NIGHT”  
FROM THE STATE OFFICE OF TRAFFIC SAFETY FOR INCREASING DUI  
ENFORCEMENT, EDUCATION AND DECREASING DUI INVOLVED  
COLLISIONS AND AUTHORIZING THE CITY MANAGER TO EXECUTE  
THE NECESSARY GRANT DOCUMENTS**

WHEREAS, the Modesto Police Department has made application to the State Office of Traffic Safety for a DUI and traffic safety program to reduce alcohol involved collisions, their injuries and fatalities, in the City of Modesto, by conducting DUI checkpoints, intensive saturation DUI patrols, increasing DUI arrests, targeting of multiple-DUI offenders, training, and providing community public information and education by adding two new City of Modesto DUI Traffic Officers to the City of Modesto Police Department Traffic Unit.

WHEREAS, these officers will conduct DUI checkpoints, saturation patrols, stakeouts, court sting operations, warrant service operations targeting multiple DUI offenders who fail to appear in court and violate probation, in addition to providing special community outreach for training, education and public information, and

WHEREAS, the officers will also conduct “Every 15 Minutes” and high school assembly programs. Alcohol involved collisions, their injuries and fatalities are projected to decrease from 20 to 40 percent, and

WHEREAS, the City of Modesto’s most pressing traffic collision problems are:

Fatal and injury collisions  
Nighttime collisions and,  
Had-been drinking drivers, ages 21 – 34, and

WHEREAS, speed related collisions and alcohol-involved collisions are also of great concern, and

WHEREAS, there was a ten percent increase in collisions in 2002, as compared to 2000; speed related collisions increased seven percent in 2002, as compared to 2000; in 2003, DUI arrests increased 82 percent but DUI involved collisions decreased only three percent.

WHEREAS, the monies provided in this grant will provide for two new traffic officers to work, full time on this program, and

WHEREAS, there is no required City match for this program for this fiscal year and all costs are paid for by funds from the State, and

WHEREAS, the City match for this program will be \$87,177 (fifty percent of the salaries, benefits and budgeted overtime of the two grant Traffic Officers in the second year of the grant). The City's required match is as follows, by City fiscal year:

2004/05	No costs for the grant program
2005/06	\$65,383
2006/07	\$21,794, and

WHEREAS, at its meeting of September 8, 2004 the Safety and Communities Committee unanimously recommended acceptance of this program,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the "Survive the Night" grant in the amount of \$263,510 from the State Office of Traffic Safety, and

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized, to execute the grant contract with OTS, including any extentions or amendments thereof and any subsequent contract with the State in relation thereto.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28<sup>th</sup> day of September 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 502**

**A RESOLUTION AMENDING THE 2004/2005 ANNUAL BUDGET TO  
ESTIMATE REVENUE AND APPROPRIATE FUNDS FOR THE TRAFFIC  
SAFETY PROGRAM – “SURVIVE THE NIGHT” – MODESTO’S DUI AND  
TRAFFIC ENFORCEMENT GRANT PROGRAM**

WHEREAS, the Modesto Police Department has made application to the State Office of Traffic Safety for a DUI and traffic safety program to reduce alcohol involved collisions, their injuries and fatalities, in the City of Modesto, by conducting DUI checkpoints, intensive saturation DUI patrols, increasing DUI arrests, targeting of multiple-DUI offenders, training, and providing community public information and education by adding two new City of Modesto DUI Traffic Officers to the City of Modesto Police Department Traffic Unit, and

WHEREAS, acceptance of the grant will provide for two new traffic officers to work full time on this program, and

WHEREAS, the project cost is \$350,687 for the 24 months of the project’s duration from October 1, 2004 to September 30, 2006 and,

WHEREAS, the State Office of Traffic Safety will fund \$263,51 for the 24 month project and the City of Modesto must match \$87,177 (fifty percent of the salaries, benefits and budgeted overtime of the two grant Traffic Officers in the second year of the grant project), and

WHEREAS, the City’s required match is as follows, by City fiscal year:

2004/05	No costs for the grant program
2005/06	\$65,383
2006/07	\$21,794, and

WHEREAS, at its meeting of September 8, 2004, the Safety and Communities Committee unanimously recommended acceptance of this grant program,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the 2004/2005 Annual Budget is hereby amended to recognize additional revenue of \$130,451 to State Grant Revenue, 0410-190-2967-3490 and that budget accounts be amended as follows:

0410-190-2967-0110	Salaries	\$86,825
0410-190-2967-188	Benefits	33,862
0410-190-2967-0130	Overtime	7,514
0410-190-2967-0207	Conference	1,200
0410-190-2967-0207	Printing	1,050
Total		\$130,451

BE IT FURTHER RESOLVED that the Finance Director is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28<sup>th</sup> day of September 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 -503**

**A RESOLUTION AUTHORIZING THE PURCHASE OF THIRTEEN TOTAL USED VEHICLES AT AUCTION- FOUR POLICE SEDANS FOR POLICE PERSONNEL ASSIGNED TO THE GANG INTELLIGENCE TASK FORCE AND FOR POOLING IN THE INVESTIGATIVE SERVICE DIVISION AND NINE COMPACT CARS FOR AREA OFFICE PERSONNEL, VOLUNTEERS, POLICE ASSISTANTS, POLICE CLERK SUPERVISORS, AN ADMINISTRATIVE ANALYST AND THE POLICE FACILITIES COORDINATOR FOR A TOTAL ESTIMATED COST OF \$152,000**

WHEREAS, the Police Department is in need of four new police sedans, three for the Sergeant and two investigators in the newly formed Gang Intelligence Task Force and one for the Investigative Services Division for service as a pooled vehicle among a Detective Trainee, a special investigator and the CSO in the Pawn Detail, and

WHEREAS, the Police Department currently does not have vehicles for the personnel in these special assignments, and

WHEREAS, the Police Department is also in need of nine compact cars to replace eight held-over police patrol vehicles and a pick-up truck for area office personnel, volunteers, police assistants, police clerk supervisors, an administrative analyst and the police facilities coordinator, and

WHEREAS, these Police personnel currently utilize eight held-over police patrol vehicles and a pick-up truck that have a cost of \$300 per month in vehicle maintenance, and

WHEREAS, both the maintenance and replacement costs for these compact cars will be \$300 per month, and

WHEREAS, the Fleet Services Fund has available \$152,000 for this purchase due to police vehicle maintenance savings in that fund, and

WHEREAS, the Finance Department will make the purchase of these vehicles according to all established City of Modesto purchasing dictates at auction,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the purchase of four police sedans at auction and nine compact cars at an estimated cost not to exceed \$152,000.

BE IT FURTHER RESOLVED that the Finance Director is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28<sup>th</sup> day of September 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NUMBER 2004-504**

**A RESOLUTION AMENDING THE FISCALYEAR 2004/05 BUDGET TO  
TRANSFER FUNDS FROM FLEET SERVICE REPLACEMENT TO  
ADDITIONAL POLICE VEHICLES FOR THE PURCHASE OF FOUR POLICE  
SEDANS AND NINE REPLACEMENT COMPACT CARS**

WHEREAS, the Police Department is in need of four new police sedans, three for the Sergeant and two investigators in the newly formed Gang Intelligence Task Force and one for the Investigative Services Division for service as a pooled vehicle among a Detective Trainee, a special investigator and the CSO in the Pawn Detail, and

WHEREAS, the Police Department is in need of nine compact cars to replace eight held-over police patrol vehicles and a pick-up truck for area office personnel, volunteers, police assistants, police clerk supervisors, an administrative analyst and the police facilities coordinator, and

WHEREAS, the Fleet Services Fund has available \$152,000 for these purchases due to police vehicle maintenance savings in that fund, and

WHEREAS, the Finance Department will make these vehicle purchases according to all established City of Modesto purchasing dictates at auction.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the 2004/05 Annual Budget is hereby amended as indicated below:

Appropriate:

To: 7210-480-5814-XXXX      \$152,000      Additional Police Vehicles

Revenue:

From: 7210-800-8000-8003      \$152,000      Fleet Service Replacement

BE IT FURTHER RESOLVED that the Finance Director is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28<sup>th</sup> day of September, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-505**

**A RESOLUTION APPROVING A POSITION ALLOCATION CHANGE IN THE PUBLIC WORKS DEPARTMENT FOR FISCAL YEAR 2004-2005 TO INCLUDE ONE LIMITED-TERM SENIOR CIVIL ENGINEER FOR A PERIOD NOT TO EXCEED THREE YEARS.**

WHEREAS, the City has made a commitment to Kaiser Permanente to expedite permit and other approvals necessary to build a new facility in Modesto, and

WHEREAS, to fulfill that commitment will require the dedicated resources of one full-time staff person, and

WHEREAS, present staffing and workload levels do not permit existing staff to devote sufficient attention to this project, and

WHEREAS, by an agenda report dated September 17, 2004, City staff sets forth the need for this position allocation change, and

WHEREAS, the Finance Committee will consider this item at its September 27, 2004, meeting,

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto, that the following position change is hereby approved in the Public Works Department: Addition of one (1) limited-term Senior Civil Engineer in the Development Services Division (organization 4213) for a period not to exceed three years.

BE IT FURTHER RESOLVED that City staff is hereby authorized to make the necessary position changes in coordination with the Personnel Department.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto, held on the 28<sup>th</sup> day of September, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-506**

**A RESOLUTION APPROVING THE REVISED MASTER PLAN, COST ESTIMATE AND PROJECT SCHEDULE FOR THE NEIGHBORHOOD CENTER AT MARSHALL PARK PROJECT AND APPROVING AN AMENDMENT TO THE ARCHITECTURAL SERVICE CONTRACT WITH WLC ARCHITECTS TO INCREASE THE FEE FROM \$243,840 TO \$261,040, WITH AN ADDITIONAL \$5,000 CONTINGENCY.**

WHEREAS, three City departments desire to develop a joint service facility at the southwest corner of Sutter and Chicago Avenues, on the existing Marshall Park site, and

WHEREAS, WLC Architects of Folsom, California was selected to provide architectural services for the project and a professional services agreement was approved by the City Council on March 6, 2002; the architectural services agreement included a fee of \$197,500 and included construction management for phase I, fire station only, and

WHEREAS, the Master Plan, Design Development Report, Environmental Document and an Amendment to the architectural services contract with WLC Architects (for additional construction management and civil engineering) were approved by Council on March 23, 2004, and

WHEREAS, the approved Master Plan shows an 8,500 square foot fire station, which includes an extra third parking bay for the Police mobile command unit, and a 4,075 square foot police and recreation office, and

WHEREAS, the total budget for the project in March 2004, was \$3,344,500 and included the (amended) architect's fee of \$243,840, as well as staff administrative costs, construction inspection and contingencies, and

\*

WHEREAS, the majority of the project funding was to be accomplished via HUD Section 108 Loan Funds, with a \$166,000 contribution from a CDBG Jobs Housing Balance Grant, and

WHEREAS, since March 2004, the construction estimate has risen from approximately \$210 per square foot to approximately \$320 per square foot, due in most part to significant spikes in materials costs, and

WHEREAS, due to unanticipated dramatic cost increases within the building industry for materials and labor, staff has requested that the architect reduce the size and complexity of the proposed joint services facility, with savings anticipated to be approximately \$630,000, and

WHEREAS, the revised Master Plan shows a 7,750 square foot fire station and a 3,452 square foot police and recreation office, and

WHEREAS, in order to complete the revised Master Plan, Cost Estimate and Project Schedule for the Neighborhood Center at Marshall Park project, an amendment to the architectural service contract with WLC Architects to increase the fee from \$243,840 to \$261,040, with an additional \$5,000 contingency is necessary, and

WHEREAS, the Safety and Communities Committee met on September 8, 2004, and supported the recommendation to approve the revised Master Plan, Cost Estimate and Project Schedule for the Neighborhood Center at Marshall Park project and approve an amendment to the architectural service contract with WLC Architects to increase the fee from \$243,840 to \$261,040, with an additional \$5,000 contingency,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the revised Master Plan, Cost Estimate and Project

Schedule for the Neighborhood Center at Marshall Park project and approves an amendment to the architectural service contract with WLC Architects to increase the fee from \$243,840 to \$261,040, with an additional \$5,000 contingency.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the amendment to the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28<sup>th</sup> day of September, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-507**

**A RESOLUTION DENYING THE APPEAL OF MICHAEL AND MICHELLE MAHER TO A PLANNING COMMISSION DECISION APPROVING THE JOHNSTON ESTATES VESTING TENTATIVE SUBDIVISION MAP**

WHEREAS, Modesto Municipal Code Section 4-4.404 authorizes the Planning Commission to take action on proposed subdivision maps, and

WHEREAS, on June 2, 2004, Richard W. Johnston and Randy S. Johnston submitted an application for a vesting tentative subdivision map entitled Johnston Estates, and

WHEREAS, the Planning Commission considered the application at its regularly scheduled meeting on August 16, 2004, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered, and

WHEREAS, the Planning Commission approved the vesting tentative subdivision map entitled Johnston Estates, because the proposed subdivision map, together with the provisions for design and improvements, was deemed consistent with the Modesto Urban Area General Plan, the City of Modesto Municipal Code and State of California Subdivision Map Act, and

WHEREAS, an appeal to the Planning Commission's approval of the Johnston Estates vesting tentative subdivision map was filed with the Office of the City Clerk by Michael and Michelle Maher, on August 31, 2004, and

WHEREAS, said appeal was set for a duly noticed public hearing before the City Council at its regular meeting place located in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at 5:30 p.m. on September 28, 2004, at which

time said public hearing was held and evidence both oral and documentary was received and considered, and

WHEREAS, after said public hearing the Council found and determined that said appeal to the decision of the Planning Commission should be denied and the decision of the Planning Commission should be affirmed for the following reason:

The proposed vesting tentative subdivision map entitled Johnston Estates, together with the provisions for its design and improvements, is consistent with the Modesto Urban Area General Plan, the City of Modesto Municipal Code, and the State of California Subdivision Map Act.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appeal of Michael and Michelle Maher to the decision of the Planning Commission approving the Johnston Estates vesting tentative subdivision map is denied and the decision of the Planning Commission is hereby affirmed for the reason set forth in Planning Commission Resolution No. 2004-44 and quoted above.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28<sup>th</sup> day of September, 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-508**

**A RESOLUTION APPROVING A PUBLIC IMPROVEMENT AGREEMENT  
BETWEEN THE CITY OF MODESTO AND FLYING RHINO DEVELOPMENT  
AND THE FRUITYARD, INC. REGARDING PROPOSED DEVELOPMENT AT  
THE NORTHWEST CORNER OF CARPENTER ROAD AND PARADISE ROAD  
AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE THE  
AGREEMENT.**

WHEREAS, Flying Rhino Development and The Fruityard, Inc. (“Applicants”) desire to develop a commercial project at the intersection of Carpenter Road and Paradise Road, property which currently is within the County of Stanislaus and within the City of Modesto’s Sphere of Influence, and

WHEREAS, the Stanislaus County General Plan provides that development applications within the City’s Sphere of Influence be referred to the City, and

WHEREAS, the Applicants have requested that the City provide support for the proposed project to the County in its consideration of the project, and

WHEREAS, on September 13, 2004, the Economic Development Committee of the City Council met and considered a Public Improvement Agreement as a mechanism to provide for the project to be developed consistent with City policies and standards, and recommended this item be forwarded to the full Council for approval, and

WHEREAS, after discussion the Council determined that the Public Improvement Agreement will provide for the project to be developed consistent with City policies and standards,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Public Improvement Agreement is hereby approved.

BE IT FURTHER RESOLVED that the Acting City Manager or his designee, is hereby authorized to execute said Agreement upon satisfaction of the required provisions.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28<sup>th</sup> day of September, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-509**

**A RESOLUTION APPROVING THE CITY CLERK AND AUDITOR'S STATUS  
REPORT ON THE 2003-04 AUDIT PLAN AND ADOPTING THE PROPOSED  
2004-05 AUDIT PLAN.**

WHEREAS, the City of Modesto Municipal Code, Section 2-3.302, describes the purposes and functions of the Office of the City Clerk and Auditor, and

WHEREAS, said section of the Municipal Code directs that certain performance audits, special audits and investigations, and, financial related audits be performed upon assignment of the City Council, after recommendation by the Audit Committee, and

WHEREAS, the Audit Committee received the status report on the 2003-04 Audit Plan and the proposed 2004-05 Audit Plan on September 27, 2004, and recommended that the Council approve the status report on the 2003-04 Audit Plan, and adopt the proposed 2004-05 Audit Plan,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the City Clerk and Auditor's status report on the 2003-04 Audit Plan.

BE IT FURTHER RESOLVED that the Council hereby adopts the proposed 2004-05 Audit Plan.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5<sup>th</sup> day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-510**

**A RESOLUTION ADOPTING THE CITY OF MODESTO SPECIFIC PLAN  
PROCEDURES AND PREPARATION GUIDE**

WHEREAS, the Modesto Urban Area General Plan (Section III.D.1.e) mandates the development of new growth areas within a Comprehensive Planning District (CPD) to occur through adoption of a comprehensive plan which is interpreted to mean a specific plan in accordance with Section 65450 of the Government Code, and

WHEREAS, specific plans also may serve to guide the development of infill and redevelopment areas within the City's Baseline Developed Area and the Redevelopment Area, and

WHEREAS, Government Code Section 65450 et. seq. permits cities and counties to adopt specific plans for the systematic implementation of the General Plan for all or part of the area covered by the General Plan, and

WHEREAS, a specific plan is a comprehensive planning document setting forth broad policy concepts as well as detailed direction to every facet of development from the type, location and intensity of uses to the design and capacity of infrastructure, and the resources used to finance public improvements to the design guidelines of a subdivision and other development projects, and

WHEREAS a Specific Plan Procedures and Preparation Guide was prepared to outline and discuss procedures for the initiation, preparation, review and implementation of specific plans within the City of Modesto, and

WHEREAS, on August 2, 2004, in the Tenth Street Place Chambers located at 1010 10<sup>th</sup> Street, Modesto, California, the Planning Commission recommended by its Resolution No. 2004-41, that the City Council adopt the City of Modesto Specific Plan Procedures and Preparation Guide, and

WHEREAS, on September 13, 2004, the Economic Development Committee of the City Council met to discuss the Specific Plan Procedures and Preparation Guide and referred the matter to the City Council for review and consideration, and

WHEREAS, on October 5, 2004, the City Council considered the City of Modesto Specific Plan Procedures and Preparation Guide, and

WHEREAS, the Specific Plan Procedures and Preparation guide is “not a project” in accordance with Section 15378(b)(2) of CEQA Guidelines/Section 21084 of the Public Resources Code, and no new environmental review is required,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby finds and determines as follows:

1. The proposed Specific Plan Procedures and Preparation Guide is consistent with the General Plan, because it provides clear direction to those involved in specific plan preparation for proper implementation of State law and the Modesto Urban Area General Plan.
2. The Specific Plan Procedures and Preparation Guide is “not a project” in accordance with Section 15378(b)(2) of CEQA Guidelines/Section 21084 of the Public Resources Code, and therefore, no new environmental review is required.

BE IT FURTHER RESOLVED by the Council of the City of Modesto they hereby adopt the City of Modesto Specific Plan Procedures and Preparation Guide as described in Exhibit "A," attached hereto and incorporated herein by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of October, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

***Specific Plan Procedures and  
Preparation Guide***

**Purpose:**

The purpose of the Specific Plan Procedures & Preparation Guide is to outline and discuss procedures for the initiation, preparation, review and implementation of specific plans within the City of Modesto. This procedures and preparation guide consists of three parts:

- Part I describes the review process and anticipated timeline for specific plans from submittal to approval.
- Part II describes the form and content and organization of a specific plan for submittal purposes.
- Part III describes measures and documents required to facilitate development of the specific plan.

**Background:**

The specific plan process enacted by state law (California Government Code 65450 et seq.) provides a powerful tool to comprehensively plan for the implementation of a jurisdiction's General Plan. Modesto's General Plan mandates the development of new growth areas through adoption of a "comprehensive plan" which is usually interpreted to mean a Specific Plan in accordance with Section 65450 of the Government Code. The specific plan also provides a powerful tool for planning the development of infill and redevelopment areas.

**Intent:**

The specific plan is a major planning document used to guide development policy in the City of Modesto. It is the intent of the City that specific plans be utilized to implement the goals and policies of the General Plan and that the specific plan process not be used to circumvent the general plan process by creation of policies and standards that do not achieve general plan goals.

The preparation of specific plans will be a collaborative effort on the part of the project applicant and the City. Input shall also be obtained through the public process from community members and property owners and responsible agencies. Based on this input, the City and project applicant should strive to create a plan that conforms to community-wide planning goals. A sense of partnership exists because while the applicant may prepare the document, the City must eventually administer it.

Specific Plans are the primary planning document for development of the General Plan and are typically prepared in conjunction with other related entitlements required for development. The attached Specific Plan Process flow diagram also shows the related entitlement documents required to facilitate development of a Specific Plan and their basic relationship to the process.

## **PART I**

### **SPECIFIC PLAN PROCEDURES**

The following outlines key steps of the review process for a Specific Plan:

#### **1. Initial Consultation**

Project initiation - as part of briefing the applicant on the City's overall entitlement process, the first step is to communicate the purpose of preparing a specific plan, then define the proposed project, outline the potential issues and concerns to be addressed in the specific plan and describe the required components of the Specific Plan (Part II of this guide). The process begins with a review of the general plan context and identification of the issues that are relevant to the specific plan area as well as opportunities to achieve General Plan goals. This meeting sets the stage for preparation of the concept land plan and step 2. The initial consultation should cover the following items:

- Define relevant General Plan policies/standards
- Define the project area
- Define project goals
- Identify reasons for preparing the specific plan
- Identify issues of local concern, e.g. infrastructure/services availability, land use or traffic.
- Define project opportunities and constraints
- Describe the CEQA environmental review process and consultant selection
- Property owner representative participation
  - Potential work program (rough timelines, responsibilities of staff/consultants/applicant)
  - List of generalized processing fees/costs
  - Determine who prepares the specific plan (consultant hired by applicant or City)

#### **2. Pre-Application Meeting**

A pre-application meeting is required to ensure the components outlined in Government Code Section 65451 and the topics outlined in the Specific Plan Model Format contained in Section II of the Guide, are included in the Draft Specific Plan Document. It is also to inform the applicant of any special concerns to be addressed by the plan pursuant to Government Code Section 65452. Important infrastructure, environmental or other issues to be addressed by the Plan should be defined, as special studies may be needed. The meeting also should result in a draft work schedule that includes deadlines that are applicable to all parties. The consulting firms, including special studies should be identified at this step (see EIR section for consultant selection process).

A fee determined by the Community & Economic Development Director, will be charged to provide for staff time with the pre application process. The pre-application meeting should cover the following items:

**Minimum Requirements:**

- Draft Land Plan/Concept Plan designating land use by area
- Land use table describing development intensities, unit count
- Preliminary infrastructure concept plan
- List of property owners supporting proposal
- Proposed method of financing infrastructure
- Outline of Draft Specific Plan (Table of Contents per Part II of guide)
- Identify Special Studies needed
- Outline CEQA Review issues, and the process (EIR etc.)
- Defined work program (timelines, staff/consultant/applicant/public process)
- Consultant(s) determined
- List of fees/costs

**3. Submittal of Administrative Draft Specific Plan**

The specific plan review process will commence upon submittal of a complete specific plan and related studies, applications (i.e. Uniform Application, Specific Plan Checklist & Notice of Intent/Environmental Assessment), and required fees. The following outlines submittal requirements and related process:

- Submittal of Uniform Application & Notice of Intent Environmental Application
- Specific Plan Application is checked by C&ED Staff for completeness
- Plan must meet Requirements of Section 65450 of State Law, and Specific Plan Guidelines (see Part II of this Guide), and General Plan Goals and Policies.
- Include additional submittals or special studies
- Submit required Fees

**4. Review of Administrative Draft Specific Plan**

The purpose of this process is to give staff the opportunity to comment on the text and diagrams before the document is finalized into a draft to be circulated for public review and comment. This process is important in identifying any staff concerns as early as possible. The document may be incomplete but text and diagrams should be very close to a final draft form.

- Review of Draft Specific Plan by appropriate City Departments
- Review of Draft Specific Plan by appropriate agencies/parties
- Staff prepares comment letter(s) notifying applicant/consultant of all required revisions

## **5. EIR - CEQA Environmental Review**

Adoption of a Specific Plan or its Amendment is a project subject to the California Environmental Quality Act (CEQA). Under most circumstances, a specific plan will require an Environmental Impact Report (EIR). Revisions to Specific Plans, which are also projects under CEQA, may warrant consideration of a Supplemental or Subsequent EIR, tiered EIR or Mitigated Negative Declaration.

The environmental review for the Specific Plan is prepared and adopted concurrently with the Specific Plan. This provides opportunity for revisions to the Specific Plan to lessen any identified impacts and to incorporate identified mitigation measures. Upon completion of a draft specific plan, and technical studies, preparation of the environmental documentation may proceed, and will commence upon formal submittal of the draft specific plan and final technical studies to the City along with payment of the related fees. This is important because, before meaningful work on the EIR can begin, the major components of the Draft Specific Plan must be solidified so that a coherent project description that will not significantly change can be created to base the analysis on. Alternatives analysis can be used via the CEQA process to sort out desirable project options that represent variations of the project that could feasibly occur.

The EIR process is integrated with the Specific Plan process and consists of the following components:

- Consultant Selection
- Initial Study/Notice of Preparation (NOP)
- Draft EIR/special studies
- Final EIR/Mitigation Monitoring Plan/Findings for Adoption
- Certification
- Notice of Determination (NOD)

## **6. Selection of Environmental Consultant**

Consultant selection should begin once the deposit is received. The City of Modesto is responsible for selecting the consultant to prepare the EIR (the applicant may select a consultant of their choosing to prepare the specific plan, or allow the City to select and manage the specific plan consultant). The consultant is selected by the City from a list of pre-qualified firms. Once the selection process is complete, the applicant is notified of the selected firm. The prime consultant may also select sub-consultants to prepare needed special studies.

The Contract between the City of Modesto and consultant known as a "Standard Agreement for Consultant Services" must be forwarded to the City Attorney's office for review and approval as to form and content. Execution of the contract may require approval by the City Council. Current City Council policy authorizes the City Manager to execute an agreement with a third party consultant for an amount not to exceed \$50,000. Contracts in excess of that amount require City Council approval. Prior to contract approval, the City must receive the applicant's authorization to proceed, including the funds to cover the cost of preparing the EIR. Following City Council

approval, the contract is signed by all applicable parties, including the City Manager, City Clerk, City Attorney, and chosen consultant. At that point, the consultant is then authorized to proceed with preparation of the EIR.

**7. Initial Study/Notice of Preparation (IS/NOP)**

Based on the administrative draft specific plan documents that provide sufficient detail for a complete project description pursuant to CEQA, the Initial Study(IS)/Notice of Preparation (NOP) is prepared. The scope of analysis, including special studies needed, to be contained in the EIR is determined by evaluating information provided by the applicant along with comments received from agencies that commented on the IS/NOP. The IS/NOP is circulated for a 30-day period. The Initial Study/NOP solicits input from Responsible and trustee agencies and/or interested parties regarding the potential environmental effects of the project. Document distribution is selected from a Master Distribution list maintained by the Community & Economic Development Department. The agencies will submit written comments on various aspects of the project that they think need analysis in the EIR.

**8. Submittal of the Draft Specific Plan and Technical Studies**

After staff reviews the preliminary administrative draft(s) specific plan and technical studies, documents will be revised to final draft form and submitted to the City for formal review. The specific plan text and diagrams should be in a finished state and packaged as one complete document. The applicant will submit these final documents along with a written "request to initiate staff review." The Community & Economic Development Department staff will have 30 days to deem the documents complete or identify additional analysis/information that is necessary and refer the documents back to the applicant.

**9. Draft EIR**

Preparation of the Draft EIR begins upon completion of a final draft specific plan and its related technical studies. Existing conditions inventory and site analysis information will have been well documented in the early stages of the specific plan process, due to the coordination between the applicant and City staff.

There is coordination between specific plan development and environmental analysis in the EIR. The development concepts contained in the specific plan shall consider and incorporate the environmental data generated in technical studies and guide formulation of the plan. The specific plan should be "self-mitigating" to the extent possible. The environmental document will focus on significant and unavoidable impacts and provide a "Master" document that will allow for subsequent consideration of development proposals within the framework of the specific plan, these procedures and the CEQA Guidelines.

Once the draft environmental document is completed by staff, the environmental document and draft specific plan will be circulated for public review and comment as provided by the CEQA Guidelines. The Environmental Document must be circulated to all Responsible Agencies and interested parties, and the specific plan must also be made

available for review. A public hearing shall be held by the Planning Commission to receive comments on the Draft EIR. This hearing may be combined with other public hearings on the draft specific plan as required.

While the City is responsible for preparation of the environmental document, the applicant shall be responsible for all costs associated with preparation of the environmental document and shall pay an estimated fee prior to its preparation.

#### **10. Public Review Specific Plan Document**

Referral and public review of a draft specific plan document is set forth under Government Code Section 65352, and is the same as required for adoption of General Plans.

- 45-day review to State Office of Planning & Research (OPR), Responsible & Trustee Agencies and Interested Parties.
- The distribution of this document parallels and accompanies the Public Review Draft EIR
- The transmittal letter for both documents outlines issues of importance that the City desires input on

#### **11. Final EIR, Mitigation Monitoring Plan and Findings for Certification**

A Final EIR document is prepared that contains public review comments received, a response to those comments, and all attached documentation including the Draft document, any special studies, and the original Initial Study. The public review comments will be forwarded to the Community & Economic Development Department to prepare a Response to Comments and a Final Environmental Impact Report. Depending on the range and number of comments, the City will require staff time to prepare a response prior to a hearing by the City Council. If any significant issues are raised by comments received, additional analysis or information may be requested of the applicant. A Mitigation Monitoring and Reporting plan must accompany the EIR. The Findings for adoption/certification are important and should be prepared in advance of the public hearings and reviewed by the City Attorney.

#### **12. Final Draft Specific Plan Document**

Revisions are made to the Specific Plan in response to input from City Departments & agency review comments on the public review document. The final plan incorporates information collected from public review of both the Specific Plan and EIR, mitigation measures resulting from the EIR and related special studies in the form of revised or new policies, standards or alternatives.

**13. Planning Commission Hearing**

The Final EIR and Specific Plan are considered by the Planning Commission. Regular noticing requirements of both the Planning Commission hearing and the City Council hearing must be met. Planning Commission revisions to the specific plan may require revisions to and recirculation of the environmental document. The Commission's recommendation will be forwarded to the City Council; in the event of recommendation for denial, the specific plan will be forwarded (to the City Council) and an appeal will not be necessary. After the recommendation of the Planning Commission has been made, a public hearing will be scheduled with the City Council. A final environmental document shall be prepared. The City Council may then approve or deny the proposed project. Several meetings may be required by the Commission or City Council to solicit comments, evaluate the project and make a final determination.

**14. City Council Hearing**

Adoption of a Specific Plan is governed by the same laws and procedures set forth in the Government Code for General Plans (Section 65453). The Final EIR and Specific Plan along with any revisions resulting from Planning Commission review are considered by the Council. If approval is granted, the specific plan will normally be adopted by resolution. Adoption by resolution rather than ordinance facilitates subsequent amendment to the plan. In approving the Specific Plan, the Council would also consider certification of the environmental document/EIR along with the Specific Plan. Adoption of the related entitlement documents: Finance Plan, Facilities Master Plan, CFD Formation and initiation of Annexation would typically follow shortly after Specific Plan adoption as separate actions.

**15. Notice of Determination (NOD)**

Once the final EIR is certified by the City Council, a Notice of Determination document needs to be filed with the County Clerk Recorder as well as the State Clearinghouse.

**16. Specific Plan Implementation**

Pursuant to Government Code Section 65451 (a) (4), the Specific Plan will contain a program of implementation measures including references to all the applicable municipal regulations and codes. This program will typically identify the capital infrastructure projects needed for development of the plan, costs and method of financing. In addition, the subsequent development entitlements necessary for implementation are identified and basic information regarding cost components is included in the Specific Plan. Any development review process that is set forth in the plan for subsequent staff review and approvals would be implemented at this time.

## **17. Specific Plan Administration**

This includes the processing of subsequent amendments to the plan as well as minor technical revisions. Amendments to the Plan will require public hearings by the Planning Commission and City Council. An administrative staff procedure may be included in the plan for revisions to subsequent development entitlements from the Plan such as plot plans and subdivision maps as long as conformance with the plan can be determined (see Part II of the guide).

Each specific plan shall specify the revision procedures and define what types of modifications qualify as a revision. The approval of the Community & Economic Development Director will be required in order to incorporate requested revisions of a specific plan. Revisions may consist of such items as typographical errors, measurement errors or boundary adjustments as allowed by the specific plan. Revisions should comply with the requirements and intent of the specific plan and shall not change the basic configuration or intent of the Plan. **(Note: "substantial" Revisions Per State Law triggers a Specific Plan Amendment).**

For large projects developed over many years, it is difficult to predict with complete accuracy how the market or other conditions may change. Many specific plans build in some flexibility to account for change. An example might be to allow some minor shifts of planning area boundaries or a shift in density from one planning area to another, such as a 10% shift in the number of permitted units, provided the total density for the project does not change.

The specific plan shall specify what types of modifications qualify as an amendment. A specific plan adopted by resolution should be amended by resolution.

## **RELATED ENTITLEMENTS REQUIRED FOR DEVELOPMENT**

The City has found that in order to adequately prepare for the implementation of a Specific Plan pursuant to Government Code Section 65450, several companion documents are required to be adopted along with the Specific Plan, or immediately afterwards, before construction can proceed. Typically, the documents listed below are required. These entitlements must be in place before final discretionary or ministerial approvals by the City (i.e. Tentative Map, Final Map and Building Permit) can be received to allow actual construction to proceed.

## **18. Finance Plan**

The Specific Plan provides a general description of the type and cost of utilities and facilities required to serve the developed specific plan area as well as community amenities, open space, trails etc. Typically, a consultant would be hired to prepare the finance plan. The plan would identify the types of funding mechanisms to be used for each type of facility/amenity. The Finance plan provides the basis for the actual funding

mechanisms by providing a detailed description and analysis of the funding mechanisms, the Facilities to be Financed in general terms, the cost of facilities to be financed in detail (normally by land use type), the allocation of costs to the funding sources in detail, project requirements and procedures. The Finance plan will often include analysis of any specific financing mechanism such as a Community Facilities District and the cost spread to establish such special taxes. The Finance Plan is therefore a critical document to be adopted before any development can proceed.

**19. Facilities Master Plan**

The Facilities Master Plan provides a detailed analysis and description of the public facilities required to serve the Specific Plan area (including where appropriate, project amenities). Typically an engineering firm specializing in this type of document would be hired. Based on the generalized discussion of the Specific Plan, the Facilities Master Plan includes calculations and engineering drawings that provide the sizing and capacity of facilities as well as the layout in relation to the project area properties. The major infrastructure components are included: street system, sanitary sewer, potable water, parks, storm drainage, are included. The document is typically prepared by an Engineering firm consultant. The detailed information from this effort is used to refine the cost estimates used in the Finance plan and any funding mechanisms. Although the Facilities Master Plan level of detail can be combined into the Specific Plan, it is more useful to create a separate document.

**20. CFD Formation**

The Community Facilities District (CFD) (Mello-Roos District) is a special taxing district formed over the Specific Plan area to construct and maintain certain infrastructure or amenities within the Specific Plan area. The initial CFD taxing district may be formed to just prior to the first phase of development. The CFD must be in place prior to the recordation of any Final Maps for development. Future phases of development will be annexed to the CFD as development occurs. The CFD typically will finance streets, water, wastewater, storm drainage, parks, parks maintenance, landscaping, trails and any other specified uses or maintenance thereof.

**21. Annexation - LAFCO Process – if necessary (refer to flow chart)**

Annexation is required before development can proceed. Except for occasional infill projects, the Specific Plan process is typically used for development of larger new growth areas of the City. Before annexation of an area is initiated by City Council resolution, the LAFCO annexation application is prepared. The application requires preparation of detailed documentation of the City's ability to provide services, including calculations showing capacity to provide sanitary and potable water for the specific plan area. Information from the Specific Plan EIR will serve as a source in completing infrastructure capacity data required by LAFCO.

## **22. Development Applications - Final Maps/Building Permits**

Before any construction can proceed, development applications must be processed and approved by the Planning Commission and City Council as required by statute and set forth in the Specific Plan document. These would include any subdivision or parcel maps, and/or plot plans or development agreements etc. Issuance of a building permit is the last step towards actual construction and can only occur when all the preceding required entitlements have been accomplished.

### **Initial Environmental Review**

In order to accomplish these objectives, the City shall review the application and meet with the applicant, if necessary. General areas and issues requiring study shall be identified. The City shall seek early input from responsible agencies and trustee agencies and the public regarding key issues in preparation of the specific plan. Should any technical studies (such as transportation analysis) be prepared for the plan alternatives, the City shall be involved in the commissioning of these studies, so that the resultant report(s) will be in a format which is useful in preparation of a specific plan, but is also useable for CEQA documentation following preparation and submittal of the plan.

The issues identified by the City and other key agencies will be listed in a letter to the applicant identifying the necessary information and technical studies. For purposes of processing the specific plan, request and receipt of information at this early stage will not result in determining the application as complete. Careful consideration will be given to technical studies that may require preparation during a particular season of the year. Such studies should be requested as soon as the need is identified to avoid missing the season. After the project is defined and formally submitted, the formal application and review process begins. As provided by the CEQA Guidelines, additional information may be required of the applicant during preparation of the environmental document if other significant impacts are discovered.

## **PART II SPECIFIC PLAN PREPARATION**

Part II of the guide describes in some detail the content of specific plan documents needed to meet City of Modesto standards for a complete plan. The sections of this part include:

1. Form and Content – the structure and information contained in the document
2. Environmental Review – CEQA review of specific plan and subsequent development

## **1. FORM AND CONTENT**

The following text describes the expected content and organization of a specific plan that would be submitted for review and consideration by the City of Modesto. This guide is intended to assist those involved in specific plan preparation to clearly understand the elements and scope of work to be included for proper implementation of State law (Government Code Section 65451) and the Modesto Urban Area General Plan. The guide allows flexibility in the organization and content of a specific plan; not all design elements may apply given the unique conditions of individual planning areas (e.g. size of project area, proposed land uses, etc.). Variations of the design elements will be considered on a case-by-case basis, based on discussions with City staff.

Throughout the preparation, and subsequent adoption and amendment of the plan document, hardcopy should be in a 3-ring binder, all text and graphics should be submitted and maintained in electronic form compatible with the City's computer software (Microsoft Word, Excel, Access, and AutoCAD; graphics must be in a format that can be viewed in a Microsoft Word- version '97 or newer). Base mapping shall be compatible with the City's GIS Arcview system.

Following is a detailed outline of the sections and chapters of a specific plan:

### **INTRODUCTORY SECTION:**

- A. Title Page
  - 1. Name of Specific Plan
  - 2. Specific Plan File No. ( i.e., SP - 2003-003)
  - 3. Name, address and telephone number of Developer and/Applicant
    - a. Name and e-mail address of contact person
  - 4. Name, address and telephone number of Document Preparer
    - a. Name and e-mail address of contact person
  - 5. Agency Name
  - 6. Date of Plan Adoption, Resolution No. & any Amendments to Plan
- B. Table of Contents
- C. List of tables, exhibits and maps
- D. List of Appendices

### **SUMMARY (CHAPTER I):**

- A. Purpose of specific plan and summary of issues covered
- B. Location, including regional context
- C. Acreage, basic land use information
- D. Summary of preparation process (overall flow chart)

**INTRODUCTION (CHAPTER II):**

- A. Project description and general range of issues addressed in Specific Plan.
- B. Statement that the specific plan is a regulatory document, prepared pursuant to California Government Code Sections 65450 through 65457, and that site plans, tentative parcel maps and tract maps must be consistent with the Specific Plan.
- C. Purpose of the specific plan and how the plan's policies and regulations accomplish it.
- D. Relationship of the specific plan to the Modesto Urban Area General Plan.
- E. Relationship of the specific plan to other specific plans and/or planning documents in the immediate area.
- F. Relationship of the specific plan to the plans of neighboring jurisdictions, regional agencies and the state.
- G. Relationship of the specific plan to program-level environmental documentation.
- H. Severability Clause (i.e., "if any regulations, condition, program, or portion of this Specific Plan is held invalid or unenforceable, such portions shall be deemed separate, distinct, and independent provisions, and the invalidity of such provisions shall not affect the validity of the remaining provisions thereof").

**Existing Conditions Section**

- A. Project Location:
  - 1. Written description of the location, including site acreage(s).
  - 2. Regional Map – location of project in relation to freeways, major roads, cities, riparian corridors or other sensitive habitats, etc.
  - 3. Vicinity Map – show project boundaries plotted on USGS topography or similar base
  - 4. Site Diagrams – use the same base map for all site diagrams in the document.
  - 5. Airphoto of site – use most recent photo available from City
- B. Existing Site Conditions – include site diagram describing:
  - 1. Existing land uses and built environment
  - 2. Surrounding land uses
  - 3. City boundary lines (i.e. general plan boundary, sphere of influence, etc.)
- C. Existing Circulation – include site diagram(s) describing all transportation modes:
  - 1. Regional Circulation
  - 2. Local Circulation

- D. Existing Utilities – include site diagrams describing:
  - 1. Water Supply Facilities
  - 2. Wastewater Facilities
  - 3. Stormwater/drainage Facilities
  - 4. Solid Waste Facilities
  - 5. Natural Gas Lines
  - 6. Electrical Facilities
  - 7. Telephone
  - 8. Cable T.V
  - 9. Microwave tower facilities
  
- E. Property ownership - include site diagram depicting property ownership information that includes name, acreage and Assessors Parcel Number for each parcel in the plan area.
  
- F. Existing Environmental Conditions – include site diagrams describing:
  - 1. Topography
  - 2. Geology and Soils
  - 3. Seismicity
  - 4. Drainage
  - 5. FEMA floodway and flood plain information if applicable
  - 6. Vegetation
  - 7. Historic and/or Archeological, Paleontological areas/sites
  - 8. Biological Resources
  - 9. Property subject to Williamson Act contracts
  - 10. CalEPA hazardous materials list sites
  - 11. Potential Wetlands delineation

*Note: information covering existing environmental conditions will duplicate much of the environmental setting section of the Environmental Impact Report for the plan.*

**SPECIFIC PLAN ELEMENTS (CHAPTER III):**

- A. **Land Use Plan** – articulates a vision for the ultimate development and establishes the general distribution and extent of land uses within the plan area.

The following items shall be addressed:

- 1. General Plan Policies – purpose and intent, locational criteria and land use intensity.
- 2. General Plan consistency- how the plan implements the General Plan land use policies.
- 3. Character of Development.

4. Land Use Diagram delineating the planned distribution, location, and extent of land uses (including open space).
5. Permitted Land Uses – a table defining all uses permitted in the plan area and describing the characteristics of each land use designation (e.g., low-density residential, open-space, neighborhood commercial, etc.). Additional categories may be considered to accommodate the special needs of the specific plan concept.
6. Land Use Table, describing each proposed land use with respective acreage, minimum and maximum number of units, development intensity/density, Floor Area Ratio (FAR) and other pertinent information.
7. Generalized plotting diagram, describes the range of parcel sizes including range of densities and types of housing proposed for residential areas.
8. Provisions for protection of agricultural lands including buffering techniques and transitional uses.
9. Provisions for protection of riparian corridors or other sensitive habitat, if applicable.
10. Location of public facilities and infrastructure necessary to serve the specific plan area, e.g. roads, parks, water wells, tanks, sewers, storm drainage basins, schools, solid waste disposal, energy, etc.

**B. Housing Plan** – this section covers the overall concept of housing within the Specific Plan. The goals of housing within the Specific Plan should be stated. Consistency of these goals with the Modesto Urban Area General Plan “Housing Element” goals should be addressed.

1. A key section of this element is the Specific Plan’s affordable housing program. This program shall be consistent with the affordable housing goals contained in the Housing Element of the Modesto Urban Area General Plan. The Specific Plan should state how it would provide for a range of housing types to ensure socially and economically integrated neighborhoods.
2. Provisions for housing for all economic segments of the present and future community including the City’s fair share of the regional housing need, pursuant to the Housing Element of the Modesto Urban Area General Plan.
3. Address minimum densities, mix of densities, range of housing products, mechanisms to facilitate affordable housing, etc.

**C. Circulation Plan** – articulates the vision for the ultimate circulation network and establishes the general circulation system within the plan area, a statement of objectives and policies pertaining to the planned distribution, location, extent, and

intensity of major components of public and private transportation as well as non-motorized transportation opportunities, and consists of:

1. Diagram(s), written descriptions, characteristics, including standards, criteria and diagrams, of planned major transportation components, including improvements that support the land use proposals (*include cross-sections describing right-of-way dimensions, intersection layout, signals, traffic control measures, roundabouts, landscape easements, medians, parkways, street slope, etc.*)
  2. The Specific Plan shall clearly identify non-motorized transportation, including bikeways and pedestrian paths and conform to the Non-Motorized Transportation Plan.
  3. This section should also clearly state how public transportation will be addressed within the Specific Plan area. If the Specific Plan is being prepared for a new area, it should clearly state how this area will hook up with the existing transit system. Locations of bus turnouts should be clearly identified.
  4. The specific plan should include a transitional roadway plan, where road right of way are to be relocated, identify existing roads to be maintained for agricultural product transport or farm equipment routes that:
    - Identifies existing roads to be maintained for agricultural product transport or farm equipment routes;
    - Determines roadway specifications and markings that identify the roads as being used for agricultural vehicles; and
    - Establishes criteria to determine when the road should transition from being predominately used for agricultural purposes to being used for urban purposes.
- D. Streetscape Plan** – a statement of development objectives and policies (based on opportunities, issues, and the analysis of data) pertaining to planned streetscape improvements describing location, extent, and intensity of streetscape improvements including arterial streetscapes, gateway/entry monumentation, project perimeter improvements, landscape features, walls and fences, theme walls, neighborhood walls, private walls and fences and any other applicable improvements, and consisting of:
1. Diagram(s), written descriptions, characteristics, including standards and criteria, of planned streetscape components, including improvements that support the land use planning proposals (*include cross-sections describing landscape and hardscape improvements, entry monumentation design, landscape buffers, etc.*).
- E. Public Facilities Concept Plan**: The Public Facilities Plan element provides concept level facilities design to establish the base infrastructure for roads, water (including water source to serve the Specific Plan area), sanitary sewer, storm drainage facilities,

parcs and other public facilities to serve new development in the planning area. It provides base information for the separately prepared, and more detailed, Facilities Master Plan document for construction (see Implementation Section 3 B, Facilities Master Plan, for details). The public facilities concept plan provides base information on the "backbone" infrastructure system, showing preliminary alignment and sizing layouts for roadways, potable water systems, sanitary sewer systems, and storm drainage.

**F. Conceptual Grading Plan**

1. Preliminary grading concept/drainage analysis for the project, including existing and proposed drainage facilities (use appropriate contour interval but no greater than five (5) feet).

**DEVELOPMENT STANDARDS (CHAPTER IV):**

This section contains specific development standards that will be applied to development projects within the plan area, including standards for the conservation, development and utilization of natural resources, if applicable. City staff will work with each project applicant to determine the appropriate development standards to include in the specific plan, however, most specific plans will likely need to include the following standards:

1. Site Development Standards -
  - a. Intensity of Development (floor area ratio indicated)
  - b. Minimum Parcel Size
  - c. Building and parking setbacks
  - d. Building Height
  - e. Landscaping
  - f. Parking
  - g. Fencing and walls
  - h. Loading area
  - i. Solid Waste and Recycling
  - j. Outdoor storage
  - k. Signage
2. Performance Standards -
  - a. Noise Attenuation
  - b. Lighting and glare
  - c. Nuisances
3. Other Regulations -
  - a. Specific Plan Overlay Zone
  - b. Exceptions to Development Regulations
  - c. Improvement Standard Regulations
  - d. Designation of Sub-Areas

**DESIGN GUIDELINES (CHAPTER V):**

1. *Overall Design Concept* - This section describes the planned character of development in the plan area. City staff will work with each project applicant to determine the appropriate items to be addressed in the Guidelines, however, most Guidelines will likely need to include the following:
2. Site Planning Guidelines -
  - a. Site layout/parcelization
  - b. Site Grading
  - c. Entry Drives
  - d. On-site Circulation and access
  - e. Parking
  - f. Loading and Storage Areas
  - g. Refuse Collection Areas
  - h. Building Orientation
  - i. Walkways
  - j. Site Access
  - k. Handicap Accessibility
  - l. Energy Conservation Techniques
  - m. Security Provisions
  - n. Relationship to Adjacent sites
3. Architectural Guidelines -
  - a. Building Massing, Articulation and Relationships
  - b. Building Entries
  - c. Building materials, colors and finishes
  - d. Mechanical Equipment screening
  - e. Exterior lighting
  - f. Exterior paving and furnishings
4. Landscape Guidelines -
  - a. Landscape Design
  - b. Site Layout
  - c. Existing Healthy Trees (for preservation in the Plan)
  - d. Plant Materials
  - e. The right-of-way area
  - f. Pedestrian walkway systems
  - g. Perimeter landscaping
  - h. Parking lots
  - i. Interior property lines
  - j. Entry drives
  - k. Entry plaza areas and courtyards
  - l. Landscape buffer
  - m. Landscape screening
  - n. Landscape lighting
  - o. Water conservation – landscaping to meet Leadership in Energy and Environmental Design (LEEDS) requirements for run-of and shading

5. Signage Guidelines -
  - a. Wall signs
  - b. Free standing signs
  - c. Directional signs
  - d. Temporary signs
  
6. Lighting Guidelines
  - a. Illumination of buildings
  - b. Illumination of landscaping
  - c. Illumination of parking areas
  - d. Illumination of walkways and courtyards
  - e. Illumination of signs

**COMMUNITY SERVICES AND UTILITIES (CHAPTER VI):**

This chapter contains a statement of development objectives and policies (based on opportunities, issues, and the analysis of data) regarding the planned distribution, location, extent and intensity of community facilities (e.g., schools, fire stations, police sub-stations etc.) and their related facilities (i.e. utilities, solid waste disposal, electric sub-stations, irrigation canals, microwave towers etc.). Chapter III contains a detailed discussion of public Infrastructure - roads, sewer, water and storm drainage); This chapter consists of the following, including a table that identifies the service providers responsible for each of the services listed below:

1. Public Safety – This section should explain how police and fire protection will be provided to the area. The impact of this project on the level of service goals for police and fire (as stated in the General Plan) should be addressed.
  
2. Schools – the developer of the Specific Plan should coordinate closely with the respective school district that serves the area to ensure there area adequate school(s) for the residents of the Specific Plan Area. The location of any school(s) should be shown on a map. There should be a description of all school facilities provided and available, both on and off-site, to the project area. This description should extend from preschool through college level programs.
  
3. Child Care – a description of child care facilities, both on and off-site, that are available to the residents of the Specific Plan Area should be included.
  
4. Solid Waste - This section should state where solid waste for the proposal will be disposed of and how this project will impact the life expectancy of that landfill.
  
5. Flood Control – A map should be included which shows the FEMA designations for the property. Measures that will be taken to reduce flood concerns (if any) should be discussed.
  
6. Utilities - There should be a discussion of how electricity, gas, telephone and cable TV and information technology will be provided to the area.

**PARKS AND RECREATION (CHAPTER VII):**

This Chapter contains a statement of development objectives and policies based on opportunities, issues and the analysis of data pertaining to the planned distribution, location, extent, and intensity of open space and recreational facilities (e.g., parks, natural and improved open space areas, bicycle/pedestrian trails and other recreational trails) and consisting of:

1. Diagram(s), written descriptions, characteristics, including standards and criteria, of existing and proposed parks, natural or improved open space areas, dual-use facilities, non-motorized trails and other recreational trails that will support planned land uses. The location of any community centers should also be identified.
2. There should also be a discussion of the facilities being provided and their relationship to the standards for new facilities contained in the Modesto Urban Area General Plan. The relationship to the Parks Facilities Master Plan should be addressed in the plan.

**ENVIRONMENTAL RESOURCES (CHAPTER VIII) :**

The Specific Plan should include 1) a summary of environmental issues/impacts, 2) summary of mitigation measures including what measures have been incorporated into the specific plan development and design standards 3) who is responsible for implementing the mitigation measures, 4) what triggers the mitigation (include references to text and EIR if necessary), and 5) who or what agency monitors the mitigation. This section will evolve throughout the process as staff and the environmental consultant formulate solutions to potential environmental and design issues.

**IMPLEMENTATION (CHAPTER IX):**

Based on the specific plan policies and objectives, the implementation chapter consists of a program of implementation measures including regulations, programs, public works projects, and financing measures necessary to carry out the Specific Plan Elements defined in Chapter III, including the land use plan and the public facilities plan. Variations of the implementation section will be considered on a case-by-case basis, based on discussions with City staff.

- A. Overview**
  1. Sub area concept development plan
- B. Public Facility Infrastructure Policies**
  1. Overall Infrastructure Policies
  2. Infrastructure to serve Sub-Areas
  3. Maintenance and facilities
- C. Public Facility Financing Policies**
  1. Statutory Authority
  2. General Plan Facility Financing Policies
  3. Specific Plan Facility Financing Policies

- a. Required Public Facilities and their Design Standards (e.g. dedication & development of parkland according to "turn-key" guidelines).
- b. Overall Financing Policies
- c. Specific Financing Policies – by Public Facility
  1. Streets
  2. Sewer
  3. Water
  4. Storm Drainage
  5. School
  6. Landscaping
  7. Summary (matrix) of Public Facilities Funding Mechanisms, by type
  8. Landscape maintenance plan

**D. Sub-Area Financing Policies**

- a. Financing Policies Applicable to applicable Sub-Areas

**E. Annexation Policies**

**PLAN ADMINISTRATION (CHAPTER X):**

- A. **Adoption** – Adoption of the specific plan and its implementing documents, Facilities Master Plan and Finance Plan, is by a Resolution of the City Council, following review and recommendation by the Planning Commission.
- B. **Subsequent Entitlements** – This section should outline the procedures for actual development within the Specific Plan Area. It should clearly state what types of action (e.g. conditional use permits, development plan reviews, planned residential developments, planned commercial developments, development agreements, etc.) will be needed for future entitlements, (such as day care center, churches) including which types of projects will require additional environmental documentation.
- C. **Development Plan Review** – summarize the development plan review procedures, including submittal requirements, plan review and approval, time limitations, environmental determinations, and revisions to approved plans.
- D. **Specific Plan Amendment Procedures** – This section outlines the procedures for revisions and amendments to the Specific Plan and minor adjustments to project proposals. At a minimum the following shall apply:
  1. **Amendment:** Amendment to a Specific Plan will require review and approval by the Planning Commission and City Council. Such amendments are governed by California Government Code, Section 65500, and require an application and fee to be submitted to the Community Development Department, stating in detail the reason for the proposed amendment.
  2. **Administrative Procedure:** A procedure may be included in the specific plan for Minor adjustments to project proposals which may be allowed through an

administrative mechanism where a determination by City staff can be made that the proposal is in "substantial conformance" with the specific plan. The scope and exact language of this procedure must be approved by the Community and Economic Development Director and City Attorney.

- E. **Appeals** - The Specific Plan shall contain an appeal procedure for administrative determinations, decisions, or requirements made by City staff. The procedure shall direct the appeal first to the Planning Commission, then, if necessary, to the City Council. The procedure may be modeled after Article 28, Title X, Modesto Municipal Code.
- F. **Interpretation/Enforcement** – This section shall state that the Community Development Director has the responsibility to interpret provisions of the Specific Plan, and that decisions of the Director can be appealed to the Planning Commission. This section should also state that the Community Development Director is responsible for enforcing provisions of the Specific Plan.
- G. **Severability** – The Specific Plan shall contain the following severability clause: "If any regulation, condition, or program or portion thereof of the Specific Plan is for any reason held invalid or unconstitutional by any court or competent jurisdiction, such portion shall be deemed a separate, distinct, and independent provision and the invalidity of such provision shall not affect the validity of the remaining provisions".
- H. **Specific Plan Reimbursement Fees** – Pursuant to Government Code Section 65456, the City of Modesto has adopted an ordinance, Municipal Code Section 10-4.101, et seq. for the reimbursement of the costs of development and preparation of the specific plan and its related environmental review document. The plan should address how this fee would be implemented or collected.
- I. **Indemnity** - The Specific Plan shall contain an indemnity clause with language similar to the following: "the specific plan applicant shall indemnify, defend, and hold harmless the City of Modesto, its agents, officers, and employees from any and all claims, actions or proceedings against the City of Modesto, its agents, officers, and employees to attack, set aside, void, or annul, any approval by the City of Modesto and its advisory agency, appeal board, or a legislative body concerning the specific plan and its related documents (e.g. Environmental Impact Report, Facilities Master Plan and Finance Plan)". Final wording of this clause is subject to approval by the City Attorney.

**APPENDICES:**

- A. **Precise Description** of the Specific Plan boundary; a legal description taken from the title report of from deeds of the exact properties affected by the Specific Plan shall be included.
- B. **Summaries** of key Specific Plan background data and information.

List of Applicable mitigation measures/Mitigation Monitoring program from Focused EIR

- C. **Glossary** of Specific Plan terms (this may need to be included in introductory sections).
- D. **Technical Reports** – Technical Reports, the executive summaries of technical reports, or a reference to where technical reports are located should be located in the appendices including:
1. Traffic Study and or Traffic Impact Analysis
  2. Hydrology/Drainage Study and Drainage Master Plan for the Specific Plan Area.
  3. Sewer Master Plan for the Specific Plan Area.
  4. Water Master Plan for the Specific Plan Area.
  5. Geotechnical/Soils study (if applicable) for the Specific Plan Area.

## **2. ENVIRONMENTAL REVIEW OF PLAN AREA DEVELOPMENT PROJECTS**

### **Specific Plan EIR:**

A Specific Plan Environmental Impact Report is prepared to cover the development of the Specific Plan. This CEQA document would normally be a Focused EIR that would be tiered off of the City's General Plan Master EIR. The Final EIR would identify all project impacts and contain a complete program of mitigation measures to reduce or eliminate effects. Many of these measures are project-specific, but many of them are taken directly from the Master EIR.

Environmental review for development projects within the specific plan area will typically require preparation of an Initial Study that makes the finding that the project is within the scope of the specific plan EIR and General Plan Master EIR. These projects will then draw down all appropriate mitigation measures and apply them to the project approval. A list of these measures should be attached to the environmental review document.

### **A. Level of Review for Subsequent Projects:**

1. Projects that qualify as exempt – Notice of Exemption prepared. This includes Government Code Section 65457 exemption for residential development projects, subdivision, or zoning change undertaken to implement and is consistent with a specific plan.
2. Projects that are within the scope of the Focused EIR/Master EIR – an Initial Study is prepared.
3. Projects that introduce new project-specific effects not covered – a Mitigated Negative Declaration is prepared.
4. Minor Amendments to the Specific Plan – an Initial Study possibly leading to a Mitigated Negative Declaration or Addendum depending on whether new effects are identified, an Addendum to the EIR may be required for minor technical revisions to the EIR.

5. Major Amendments to the Specific Plan – Supplemental or Subsequent EIR depending on the extent of the change and the effects.
- B.** **Mitigation Monitoring Program** – Pursuant to Public Resources Code Section 21081.6, include a summary of conditions of project approval to mitigate or avoid significant effects on the environment to insure that the project and all future development within the project area complies with all applicable environmental mitigation and permit requirements.

### **PART III**

## **IMPLEMENTATION MEASURES AND DOCUMENTS**

- A.** **Fiscal Impact Analysis** - Report on the costs and revenues anticipated by the City as a result of the proposed development. This analysis can be attached to the Specific Plan as a technical appendix, but should be summarized here. Fiscal Impact Reports will be based on a modeling procedure established by the City and will include the latest available multiplier data from actual city revenues and expenditures. The fiscal impact analysis is required to achieve the following purposes:
1. To ensure that decision-makers are fully apprised of the probable municipal costs and revenue streams which may be generated by the proposed development.
  2. To identify the fiscal impacts of the proposed land use mix, provision of evidence for preliminary forecasting of budget impacts, and supply of project-specific economic information to assist in the deliberations of the Planning Commission and City Council.
- B.** **Facilities Master Plan** - This is the engineering implementation document that is prepared from the concept level, base information provided in the specific plan. This document is prepared separately and based on the concept level infrastructure data, provides preliminary design calculations, demand calculations and requirements set forth in the plan, and adds an additional level of detail placing the location and sizing of facilities in order that actual construction drawings can be produced. This document must be prepared concurrent with the Specific Plan and is necessary to be adopted concurrent with adoption of the Specific Plan.

The Appendix, Section 4 of this document contains the detailed requirements for preparation of the Facilities Master Plan. The Public Facilities Plan will include technical studies required to define the infrastructure for the area, include scale drawings based on existing City aerial photos, record drawings, and GIS data. The Facilities Master Plan would also address dual-use drainage/open space facilities including trails/pedestrian paths adjacent to drainage basins. Specific location and area requirements for storm drainage basins will be determined, based on a comprehensive hydrology study. Infrastructure plans would be addressed as part of the Facilities Master Plan, discussed in Section 4 of the Appendix.

- C. **Finance Plan** – The Finance Plan will be completed in conjunction with preparation of the specific plan. This document includes preparation of a market study to look at (i) the potential absorption of the proposed land uses, and (ii) the recommended combination of land uses based on analysis of the competitive market place and existing supply and demand. The finance plans will address all of the facilities to be financed, including roadways, storm drainage system, sewer system, water system, utility relocation, public facilities, and other facilities. The Finance Plan is required to be completed in conjunction with preparation of the specific plan. A program for addressing any fiscal deficits to ensure adequate personnel and ongoing operations and maintenance should be included. The Finance Plan shall provide the following:
1. Estimated costs of the public improvements proposed by the specific plan's infrastructure plans.
  2. The measures and/or methods by which each proposed public improvement(s) will be financed.
  3. Identify persons or agencies responsible for and constructing the proposed public improvement.
  4. Financing Measures necessary for implementing the specific plan's proposals other than capital improvements shall include:
    - a) Descriptions of the projects requiring financing.
    - b) Estimated costs.
    - c) The measures by which each specific plan proposal (including public infrastructure improvements) will be financed.
    - d) Persons or agencies responsible for financing and carrying out such proposals.
  5. Formation of a Community Facilities District (CFD) , facilities to be included and explanation of how the CFD would be monitored and administered on an ongoing basis.
- D. **Phasing/Sequence of Improvements**– The phasing of the project shall be described. The provisions for development phasing should ensure orderly and contiguous development consistent with the population projections and growth rate of the General Plan. For the specific plan's proposals, including capital improvements; identify the phasing of development as it pertains to recreation facilities, public facilities (including infrastructure facilities) and other uses within the plan (including a phasing diagram). The phasing programs shall ensure that adequate supporting public services, retail, parks, schools and other uses are in place to support residential uses. The phasing program shall include thresholds of residential development that cannot be exceeded until the construction of appropriate improvements has been initiated or to be completed by a specific date. The phasing plan shall be consistent with City approved

infrastructure studies. Provide a list of public improvements and supporting exhibits which must be built with the development of each phase so that the phased development is self sustaining and independently viable. It should be noted that certain improvements may be needed beyond the phase boundaries to support the respective phase.

**E. Comprehensive Maintenance Program** : Summary of maintenance responsibilities for streets (including street median and parkway landscaping), common area, open space, parks, bicycle and pedestrian facilities, drainage facilities, water and sewer, and other facilities, including the following:

1. Maintenance Program Matrix: describing list of facilities and improvement with responsible party.
2. Streetscape/Open Space/Parks Maintenance Diagram – identify location of landscape areas, bicycle and pedestrian facilities, and open space areas with party responsible for maintenance of respective improvements.
3. Examples and/or model of Conditions, Covenants and Restrictions (CC&Rs).

## **APPENDIX – Detailed Facilities Master Plan Requirements**

The Public Facilities Master Plan should cover the following Sections:

The Plan will include technical studies required to define the infrastructure for the area, include scale drawings based on existing City photogrammetry, record drawings, and Geographic Information System (GIS) data. Consultant shall perform field survey as necessary to assure consistency between right-of-way information and photogrammetry. The Plan shall cover at a minimum, the following areas:

- **Introduction:** description of project area, site characteristics, purpose and objectives of FMP, etc.
- **Circulation System:** Scale drawings showing all minor collectors and all street classifications above minor collectors, improvements in their final configuration based on the Specific Plan, City Standards and Caltrans plans where applicable. Right-of-way acquisition for all facilities shall be defined on separate drawings as well as impacts to existing improvements. The circulation plan should address pedestrian circulation along public right-of-way.
- **Transit System Improvements:** the circulation system drawings shall also show the transit turnouts as well as impacts to existing improvements.
- **Bicycle Path System:** Scale drawings showing all bike path improvements in their final configuration based on the Specific Plan, City Standards, and Caltrans plans where applicable. The plans shall incorporate the standards and guidelines outlined in the City of Modesto Non-Motorized Transportation Plan. Right-of-way acquisition for all facilities shall be defined on separate drawings as well as impacts to existing improvements.
- **Parks/Open Space:** Scale drawings showing open space system including dual use storm drainage/park facilities.
- **Street Lights:** Scale drawings showing all street lighting, including location of street lighting, specifications on pole type, height,
- **Public Safety:** Address concerns/comments from the Modesto Police Department.
- **Estimate of probable cost:** for all facilities.
- **Construction Phasing:** outline phasing for "backbone" infrastructure.
- **Funding Sources for Infrastructure:** Finance Public Facility Finance policies
- **Sewer, water and storm drainage facilities:** see guidelines below.

**Underground Utilities Guidelines (i.e Sewer, Water and Storm Drainage):**

1. All proposed water, sewer, and storm drainage facilities are subject to written approval by the City Engineer.
2. Design calculations supporting all facility assumptions shall be land-use based and generated for total build out of the Specific Plan area (to be included in an appendix to the Specific Plan).
3. The Specific Plan should indicate any phasing requirements, from both a construction and financing perspective, for the proposed improvements.
4. Water, sewer, and storm drainage facilities installed in the early phases of development shall be sized to accommodate ultimate build-out of the Specific Plan and adjoining areas, as necessary.
5. Maps of sufficient detail to adequately show the proposed and existing (above and below ground) infrastructure shall be included. This includes showing existing topography (USGS topographic information for undeveloped areas is acceptable) and aerial photographic information of existing conditions.
6. An itemized Engineer's Estimate for all backbone facilities (including land costs) is required and unit costs for those facilities shall be based on actual costs from recent municipal projects and/or from local industry standard cost estimating guides. Present all estimates in current dollars and inflate to more accurately reflect construction costs at the time when delayed facilities are anticipated to be built. Annual utility infrastructure maintenance costs for those backbone facilities shall also be included.
7. The cost burden of infrastructure shall be assigned in a manner described in the Finance Plan.
8. Providing supplemental engineering data and design details not otherwise specified herein, is the responsibility of the engineer designing the facilities.
9. All permits and agency approvals required for development of the Specific Plan shall be identified, including written confirmation of future acceptance by any irrigation district where discharge into their facilities is contemplated.

**Water System:**

10. The proposed water system shall be consistent with the City's water related plans and permits, adjacent Specific Plans, Community Facility Districts, and existing facilities.
11. Water facilities shall be sized and located to accommodate peak demand requirements according to the procedures and methodologies of the Water System Design Standards (Section 6) of the City's Standard Specifications.

12. A map showing alignment of all backbone facilities (i.e. pipes eight inches and larger, wells, wellhead treatment facilities, tanks, booster pump stations, ASR wells, connections to adjacent facilities, etc.) is required, along with a narrative description of the proposed improvements.
13. Water demand calculations for all major facilities (i.e. acreage of expected service areas, projected land uses, production requirements of any wells, storage requirements of any tanks, number and size of pumps, pipe sizes, peak flow rates at critical junctions, current fire flow results, etc.) are required.
14. Identify and demonstrate the adequacy of the anticipated water supply for the Specific Plan area. If the Specific Plan constitutes a "project", as defined by Senate Bill 610 and/or Senate Bill 221, then a Water Supply Assessment will be required as part of the approval process of the Specific Plan. The plan should incorporate the appropriate findings and determinations that are required to document compliance with the Water Supply Assessment.
15. Where feasible, consider installing a dual piping system with "purple pipe" to accommodate recycled water for landscape irrigation, etc. Water sources to consider include reclaimed water and non-potable water from wells with unfavorable water quality conditions.

**Wastewater System:**

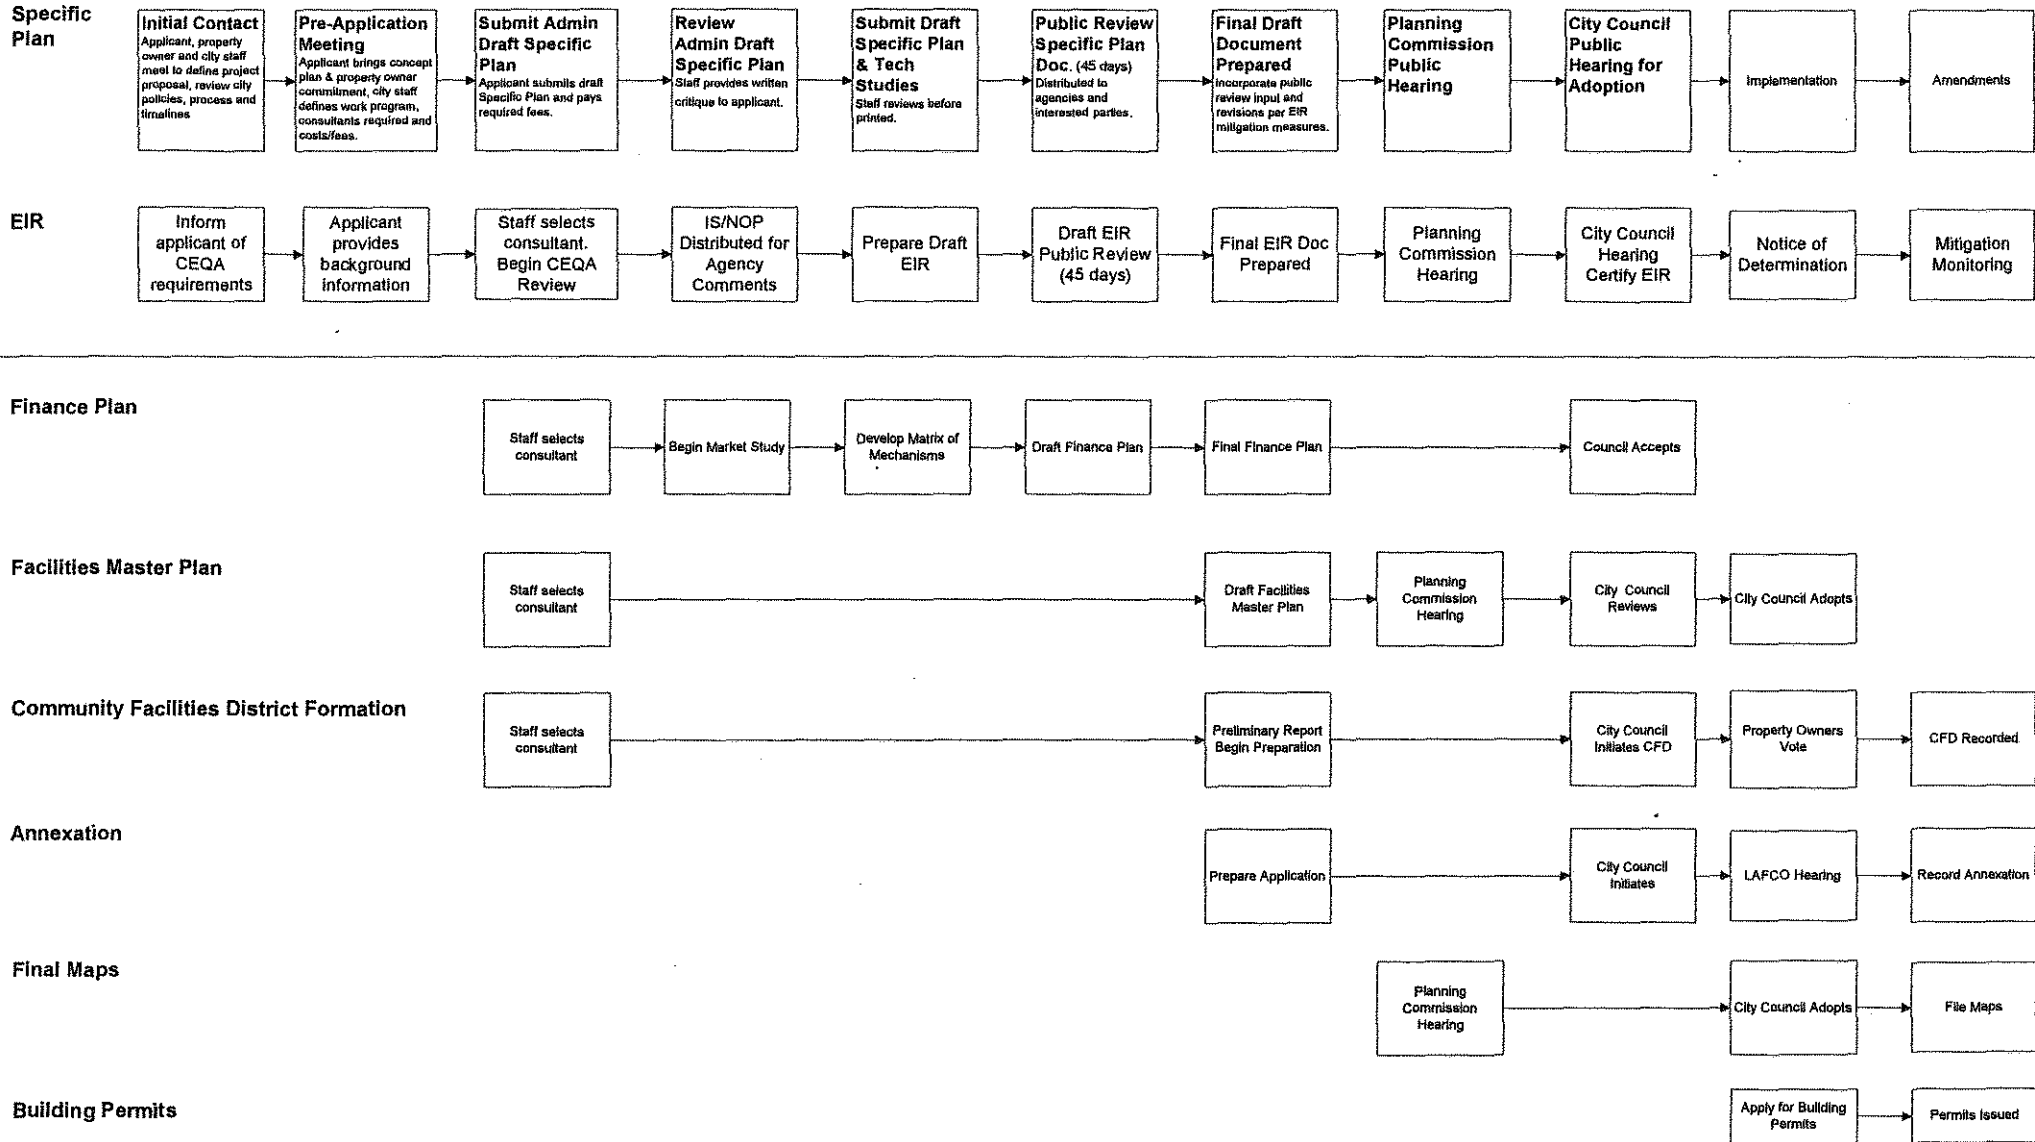

16. The proposed wastewater system shall be consistent with the City's wastewater related plans, adjacent Specific Plans, Community Facility Districts, and existing facilities.
17. Wastewater facilities shall be sized and located to accommodate the peak flow rates according to the procedures and methodologies of the Sanitary Sewer System Design Standards (Section 5) of the City's Standard Specifications.
18. A map showing alignment of all backbone facilities (i.e. pipes ten inches and larger, lift stations, connections to adjacent facilities, etc.) is required, along with a narrative description of the proposed improvements.
19. Wastewater capacity calculations for all major facilities (i.e. topographic map of the expected tributary area(s) to be served, projected land uses, number and size of pumps, pipe sizes, peak flow rates at critical junctions, etc.) are required.
20. Identify and demonstrate the capacity of the downstream facilities expected to accommodate wastewater flows from the Specific Plan area, including the identification of special requirements to dispose of any anticipated industrial wastes.

**Storm Drainage System:**

21. The proposed storm drainage system shall be consistent with the City's storm drainage related plans and permits (i.e. "Design Standards for Dual Use Flood Control/Recreation Facilities", "Guidance Manual for New Development Stormwater Quality Control Measures", "National Pollutant Discharge Elimination System" (NPDES) permit, etc.), adjacent Specific Plans, Community Facility Districts, and existing facilities.
22. Storm drainage facilities shall be sized and located to accommodate the peak runoff flow rates according to the procedures and methodologies of the Storm Drainage System Design Standards (Section 4) of the City's Standard Specifications.
23. A map showing alignment of all backbone facilities (i.e. pipes ten inches and larger, lift stations, detention basins, outfall facilities, basin service roads, connections to adjacent facilities, flood hazard areas, etc.) is required, along with a narrative description of the proposed improvements.
24. Storm drainage capacity calculations for all major facilities (i.e. topographic map of the expected tributary area(s) to be served, projected land uses, time of concentrations, detention basin volumes, number and size of pumps, pipe sizes, peak flow rates at critical junctions, etc.) are required.
25. Identify and demonstrate the capacity of the downstream facilities expected to accommodate storm drainage flows from the Specific Plan area.

## Specific Plan Process and Related Entitlements Required for Development

Typical Timeframe is 18-24 Months (Following Measure "M" Vote, if required\*)

\* NOTE: This diagram is an idealized representation of a complex, multi-year process that will vary somewhat depending on the complexity of the actual proposal. The Specific Plan process is an integrated approach that includes several other major components that must be developed in concert with, and are all adopted prior to development of the Specific Plan Area. The Specific Plan program will dictate the content of the other documents. However, revisions or changes may need to be made to the Specific Plan program based on the results of the other components (EIR, Facilities Master Plan, Finance Plan and CFD). Minor technical revisions and more significant amendments may need to be made to the Plan program during its implementation phase before buildout in order to best guide development of the area.

MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 511

A RESOLUTION AMENDING THE FISCAL YEAR 2004-2005 ANNUAL  
BUDGET

WHEREAS, a monthly financial analysis has been completed and it has been determined that certain adjustments are required to the Annual Budget of the City of Modesto for the Fiscal Year 2004-2005,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that appropriations, revenues, and transfers for the 2004-2005 budget have been adjusted as shown in **Schedule A**.

BE IT FURTHER RESOLVED that the Finance Director is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5<sup>th</sup> day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following votes:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant,  
Mayor Ridenour

NOES: Councilmembers: None

ABSENT: Councilmembers: None

ATTEST: Jean Zahr  
JEAN ZAHR, City Clerk

(seal)

APPROVED AS TO FORM:

By: Mike Milich  
MIKE MILICH, City Attorney

0100 340 3415 5900	3415C	\$85,653	\$18,517	\$104,170	John Thurman Field Improvments

**COMMENTS/JUSTIFICATION**

John Thurman Field appropriates \$50,000 a year for stadium and field improvements. At the end of fiscal year 2003/2004, a trash compactor was encumbered in order to try and alleviate the high cost of trash disposal at the stadium during baseball season. Although the compactor was encumbered, the labor and materials to install the compactor could not be encumbered since City staff would be doing the installation. The remaining monies need to be re-appropriated in 2004/2005.

**COMMENTS/JUSTIFICATION**

July 1, 2004 Green Fee Increases were not incorporated into the adopted budget. This adjustment increases green fees at all three golf courses, eliminates the \$47,652 "plug" in miscellaneous revenue to balance the golf budget, increases expenditures to balance the budget and to cover unexpected costs including the unallowable \$6,000 CFF expense expected to be charged back to the golf fund, the HVAC repairs at the Dryden Maintenance Shed, and the waste water pump repair at Dryden Golf Course.

<u>TO</u>					

**APPROPRIATIONS**

<u>FROM</u>					
6700-800-8000-8003	6700R		(\$2,145)	(\$2,145)	Centre Plaza Reserves
<u>TO</u>					
6700 340 3412 1027	3400C	\$7,500	\$2,145	\$9,645	Parade of Lights Promotion

**COMMENTS/JUSTIFICATION**

Sponsorships for the Parade of Lights in downtown Modesto are obtained to offset those costs of the parade which exceed parade entry fees. Businesses donate money specifically to be used for the holiday parade. In Fiscal Year 2003/2004, all the donation revenues were not appropriated and thus need to be re-appropriated in FY 2004/2005 to be used for the Parade of Lights in December 2004 as intended by the donors.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 512**

**A RESOLUTION AUTHORIZING THE AWARD OF BID AND CONTRACT FOR THE FURNISHING OF ELEVATOR MAINTENANCE SERVICE AND REPAIR, TO THYSSENKRUPP ELEVATOR CORP., WEST SACRAMENTO, CA, FOR A THREE (3) YEAR AGREEMENT, WITH TWO (2) ONE-YEAR EXTENSION OPTIONS, FOR AN ESTIMATED ANNUAL COST OF \$22,932**

WHEREAS, the Parks, Recreation and Neighborhoods Department, Building Services Division, has requested elevator services for the City's passenger and freight elevators located at the following sites: Centre Plaza Complex, John Thurman Field, McHenry Mansion, McHenry Museum, Police Department, Ninth Street Garage and Eleventh Street Garage, and

WHEREAS, the passenger elevators located at the Tenth Street Place and Tenth Street Garage are currently under contract for preventative maintenance service and repair with Otis Elevator Co., until August 31, 2005, and

WHEREAS, Request for Bid No. 0304-21 extends any resulting contract to other Government/Publicly funded agencies, if mutually agreeable to all parties, and

WHEREAS, it is the intention of the Parks, Recreation and Neighborhoods Department, Building Services Division, to transfer these services to ThyssenKrupp Elevator Corporation, once the current contract with Otis Elevator Co. expires, and

WHEREAS, on May 11, 2004, Council approved Resolution No. 2004-256, authorizing the Purchasing Supervisor to formally solicit bids for the furnishing of elevator maintenance service and repair, for a three (3) year agreement, with two (2) one-year extension options, and

WHEREAS, the Purchasing Supervisor solicited Request for Bid No. 0304-21, for the furnishing of elevator maintenance service and repair to nine (9) companies, posted the bid on the City's web site, and formally advertised as required by law, and

WHEREAS, of the nine (9) companies solicited, two (2) companies chose to respond, and

WHEREAS, based on being the lowest responsive bid, City staff recommends the award of Bid No. 0304-21 and contract for the furnishing of elevator maintenance service and repair, to ThyssenKrupp Elevator Corp., West Sacramento, CA, for a three (3) year agreement, with two (2) one-year extension options, for an estimated annual cost of \$22,932,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards Bid No. 0304-21 and the contract for the furnishing of elevator maintenance service and repair, to ThyssenKrupp Elevator Corp., West Sacramento, CA, for a three (3) year agreement, with two (2) one-year extension options, for an estimated annual cost of \$22,932.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute said contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5<sup>th</sup> day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following votes:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-513**

**A RESOLUTION REVISING THE POSITION CLASSIFICATION PLAN FOR THE CITY OF MODESTO.**

WHEREAS, a Position Classification Plan for the City of Modesto was adopted by Modesto City Council Resolution 88-338 pursuant to Rule 2 of the Personnel Rules and Regulations of the City of Modesto, and

WHEREAS, the Acting City Manager has recommended to the Council amendments to the Position Classification Plan, and

WHEREAS, Rule 2.2 of the City of Modesto Personnel Rules provides that revisions to the Classification Plan shall be effective upon adoption of resolution of the City Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION I. CLASSIFICATIONS AMENDED. The Position Classification Plan of the City of Modesto is hereby amended to revise the following classifications:

1. Electrical Supervisor
2. Planning Technician I/II

The job specification for Electrical Supervisor is being revised as a result of a job audit recently completed on this classification. The revised specification for the classification of Electrical Supervisor as shown on the attached **Exhibit "A,"** which is hereby made a part of this resolution by reference, is hereby approved and made part of the Position Classification Plan of the City of Modesto.

The job specification for Planning Technician I/II is being revised as a result of a title change from Planning Technician I/II to Administrative Services Technician I/II. The revised specification for the classification of Administrative Services Technician I/II as shown on the attached Exhibit "B," which is hereby made a part of this resolution by reference, is hereby approved and made part of the Position Classification Plan of the City of Modesto.

SECTION 2. EFFECTIVE DATE. This resolution shall become effective on and after October 5, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5<sup>th</sup> day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following votes:

## ELECTRICAL SUPERVISOR

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are **not** intended to reflect all duties performed within the job.

### DEFINITION

Under general administrative direction, to plan, organize, supervise and participate in a wide variety of electrical work in the installation, maintenance and repair of electrical, radio, and fiber optic control monitoring systems equipment, depending on assignment, and to perform a variety of technical tasks relative to assigned area of responsibility.

### SUPERVISION RECEIVED AND EXERCISED

Receives direction from higher level management staff.

Exercises direct supervision over technical and other assigned staff.

~~EXAMPLES OF DUTIES - Duties may include, but are not limited to, the following:~~

### ESSENTIAL AND MARGINAL FUNCTION STATEMENTS

Essential and other important responsibilities may include, but are not limited to, the following:

Recommend and assist in the implementation of goals and objectives; establish schedules and methods for electrical services; implement policies and procedures.

Plan, prioritize, assign, supervise and review the work of staff involved in the maintenance and repair of utility, building, and street light electrical; traffic signals, Advanced Traffic Management System (ATMS), CCTV, and electronic communication systems.

Assign work projects to electrician staff and follow up to ensure the appropriate service level is provided.

Perform the full range of the electrician duties as required; design, install, maintain repair electric and electronic systems.

Maintain time, material and equipment use records. Requisition supplies and materials. Inspect the work of assigned staff while in progress; provide advice and assistance to subordinates; coach and evaluate subordinate staff on work performance.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS (continued)

Evaluate operations and activities of assigned responsibilities; recommend and implement improvements and modifications; prepare various reports on operations and activities.

Participate in budget preparation and administration; prepare cost estimates for budget recommendations; submit justifications for electrical services activities; monitor and control expenditures.

Participate in the selection of staff; provide or coordinate staff training; work with employees to correct deficiencies; implement discipline procedures.

Assist in coordinating electrical services activities with other City departments, divisions and sections, and with outside agencies.

Answer questions and provide information to the public; investigate complaints and recommend corrective action as necessary to resolve complaints.

Coordinate work unit safety program including ensuring that training is provided as appropriate.

Marginal Functions:

Perform related duties as assigned.

QUALIFICATIONS

Knowledge of:

Electrical codes and related ordinances and regulations.

Methods, practices and equipment used in electric, radio, fiber optic and electronic services and activities.

Operational, maintenance and repair characteristics of the electrical, radio, fiber optic, and electronic systems employed by the City.

CCTV operations and installation, Traffic Management systems, operation, and installation; traffic signals, street lighting and street lighting systems.

Principles of supervision, training and performance evaluation.

Knowledge of (continued):

Safe work practices.

Budgeting procedures and techniques.

Personal computer software applications including specialized programs related to assigned area.

Ability to:

Supervise and coordinate electrical and electronic installation, maintenance and repair services and activities.

Supervise, train and evaluate assigned staff.

Establishing schedules and implementing goals and objectives.

Keep Maintaining records and make preparing reports.

Repair electrical signal, lighting, control and alarm systems  
Use electrical tools and equipment skillfully and safely.

Evaluating operations and activities.

Diagnose causes of electrical malfunction.

Read and follow electrical plans, specifications, schematics and diagrams.

Prepare and administer a budget.

Communicate clearly and concisely, both orally and in writing.

Establish and maintain cooperative-working relationships with those contacted in the course of work.

Experience and Training Guidelines

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

Four years of increasingly responsible experience in electrical services at the Journey level.

Training:

Equivalent to completion of the twelfth grade supplemented by specialized training in electronics and or electrical services, CCTV, fiber optics, radio and Advanced Traffic Management Systems.

License or Certificate

Possession of, or ability to obtain, an appropriate, valid California driver's license.

Possession of certificates issued by the International Municipal Signal Association in Traffic Signals Level I and II and Work Zone Safety are considered highly desirable based on assignment.

WORKING CONDITIONS

Environmental Conditions:

Field environment; travel from site to site. Hot and cold temperatures; inclement weather and confined spaces.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for walking, standing, stooping, using ladder and working on uneven terrain and in confined spaces and sitting for prolonged periods of time; operating motorized equipment and vehicles; and using a personal computer.

PLANNING TECHNICIAN I  
PLANNING TECHNICIAN II  
ADMINISTRATIVE SERVICES TECHNICIAN I  
ADMINISTRATIVE SERVICES TECHNICIAN II

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

### DEFINITION

To provide technical assistance and support to the professional planning staff in an assigned department; to do perform research gathering technical and statistical research; to assist with program monitoring and evaluation; to provide information to the general public, and to provide general technical support in a variety of ways which may include specialized program(s) and/or project(s).

### DISTINGUISHING CHARACTERISTICS

Administrative Services Planning Technician I - This is the entry level class in the Planning Administrative Services Technician series. This class is distinguished from the Planning Administrative Services Technician II by the performance of the more routine tasks under close supervision and duties assigned to positions within the series including to research, gather, and present data and information needed in the daily running operation of the a department. Since this class is typically used as a training class, employees may have only limited or no directly related work experience. Some positions in this class are flexibly staffed. Those positions which are not flexibly staffed perform a relative narrow scope of routine duties. Those positions which are flexibly staffed normally advance to the II level after a minimum of 12 months and demonstration of proficiency which meets the requirements of the Administrative Services Technician II.

Administrative Services Planning Technician II - This is the full journey level class within the Planning Administrative Services Technician series. Employees within this class are distinguished from the Planning Administrative Services Technician I by the performance of the full range of more complex duties as assigned. This class is distinguished from the Planning Assistant in that the latter perform more complex technical duties. Employees at this level receive only occasional instruction or assistance as new or unusual situations arise, and are fully aware of the operating procedures and policies of the work unit. Positions are characterized by the presence of fairly clear guidelines from which to make decisions and the availability of supervision in non-routine circumstances. Specific duties including the amount of public contact and direct support for functions of the unit will vary with the organizational unit to which assigned.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS – Essential and other important responsibilities and duties may include, but are not limited to, the following:

Provide technical assistance to departmental ~~higher level planning~~ staff; collect, research, verify ~~gather~~ and present data and information on a variety of topics for the ~~planning staff~~; and assist in the preparation of various reports. ~~such as the Urban Growth Policy Review report.~~

Conduct research using standard reference materials, interviews and field observation.

Assist in the compilation and analysis of statistical and other types of information.

Maintain administrative records for program/project area to which assigned; collect and input demographic and program data into automated systems.

Assist in maintaining databases and other records management systems.

Work with the City's GIS system to create and update data.

Assist with maintaining the Department's web site.

May conduct surveys in the field or over the phone.

Depending on assignment, assist the general public by providing information and addressing ~~with zoning and street address~~ a variety of requests and concerns.

When Assigned to Community & Economic Development Department-Planning Division:

Create and work with maps and drawings using computer programs such as AutoCAD and CorelDraw.

Post notices of hearings for the Planning Commission, City Council and Board of Zoning Adjustment in field; make deliveries.

Conduct background research on plan reviews and make recommendations for approval or denial; prepare notices and ownership lists; conduct field survey for additions.

Prepare notices for Planning Commission and Board of Zoning Adjustment hearings; prepare mailing list and mail notices for meetings.  
Enter zoning changes on the city Zoning maps; verify accuracy of zoning descriptions.

Assist in the collection of data for annexations; assist in processing annexation applications.

When Assigned to Public Works Department-Transit Division

Work with bus stop locations and improvements.

Take measurements and draw accurate maps of bus stops and surrounding features.

Maintain databases for bus stop locations, signage and associated street furniture.

Assist in the preparation and distribution of marketing materials.

Prepare bus stop schedules for placement at Modesto Area Express (MAX) bus stops.

Distribute and account for bus passes and other bus fare media.

Work with members of the public to resolve issues and concerns related to bus stops.

Ride buses and inspect various bus stops and other transit facilities to insure compliance for a variety of purposes.

Marginal Functions:

Perform related duties as assigned.

QUALIFICATIONS

**Administrative Services Planning Technician I**

Knowledge of (depending on assignment):

Basic research methods and sources.

Various word processing and spreadsheet applications

Report writing techniques.

Principles, practices and techniques of drafting and graphic design.

Computer mapping and graphics creation and manipulation programs such as AutoCAD or CorelDraw, (depending on assignment).

The use and manipulation of GIS systems.

Principles and techniques of Web site design.

Ability to:

Learn principles, practices and trends in ~~planning, zoning assigned area and land use.~~

Learn ~~pertinent applicable~~ Federal, State, and local laws, codes and regulations.

May prepare maps, graphs, charts, site plans, and other descriptive material using computer graphics programs such as AutoCAD and CorelDraw, depending on assignment.

Provide ~~service and information to the public on a variety of topics, developers and realtors regarding address and zoning regulation.~~

Collect, compile, analyze and interpret data.

Establish and maintain cooperative-working relationships with those contacted in the course of work.

Communicate clearly and concisely, both orally and in writing.

Use a computer to enter data into databases.

Make accurate mathematic calculations.

Experience and Training Guidelines

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

No experience is required. Related experience including conducting research, report writing and extensive public contact is highly desirable.

Training:

Equivalent to the completion of the twelfth grade.

Additional specialized training in drafting, graphic design, computer graphic design, urban planning, surveying, engineering, mathematics, computer sciences or a related field is desirable based on assignment.

**Administrative Services Planning Technician II**

In addition to the qualifications for Administrative Services Planning Technician I:

Knowledge of:

Administrative Services Technician II, Knowledge of, Continued:

Principles, practices and trends in planning and land use related to specific assignment.

Procedures for gathering population and land use a variety of data.

Basic practices of City planning:

Applicable Pertinent Federal, State, and local laws, codes and regulations.

Statistical and engineering practices as applied to planning specific assignment.

Ability to:

Independently research required background information for planning studies.

Conduct special projects and statistical studies.

Experience and Training Guidelines

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

Two years of responsible technical planning related experience including conducting research, report writing and extensive public contact.

Training:

Equivalent to the completion of the twelfth grade. Additional specialized training in drafting, graphic design, urban planning, surveying, engineering, mathematics, computer science, the physical sciences or a related field is desirable.

License or Certificate

Possession of, or ability to obtain, an appropriate, valid California driver's license.

WORKING CONDITIONS

Environmental Conditions:

Office and/or field environment.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for viewing a computer screen and sitting for prolonged periods of time; working in a field environment around traffic and in uneven terrain; lifting and moving boxes weighing approximately 30 lbs; setting up and tearing down displays, and bending and stooping to take measurements.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-514**

**A RESOLUTION AMENDING EXHIBIT "A" OF RESOLUTION NO. 2003-178 (MODESTO CONFIDENTIAL AND MANAGEMENT ASSOCIATION MEMORANDUM OF UNDERSTANDING) TO AMEND THE CLASS RANGE TABLE FOR REPRESENTED MANAGEMENT AND CONFIDENTIAL NON-SWORN CLASSES TO CHANGE THE CLASS RANGE TABLE FOR THE ELECTRICAL SUPERVISOR FROM RANGE 434 TO RANGE 436.**

WHEREAS, the City Council desires to amend Exhibit "A" of Resolution No. 2003-178 (MCMA Memorandum Of Understanding),

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION I. AMENDMENT TO RESOLUTION NO. 2003-178. (MCMA Memorandum of Understanding), Resolution No. 2003-178 Effective April 8, 2003, is hereby amended as shown on the amended Exhibit "A" entitled "City of Modesto Class Range Table Represented Management and Confidential Non-Sworn Classes Effective October 5, 2004, which is attached hereto and made a part hereof as though set forth in full herein. Said amended **Exhibit "A"** changes the salary range for Electrical Supervisor from Range 434 to Range 436.

SECTION 2. EFFECTIVE DATE. This resolution shall become effective on and after October 5, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5<sup>th</sup> day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following votes:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-516**

**A RESOLUTION REVISING THE POSITION CLASSIFICATION PLAN FOR  
THE CITY OF MODESTO.**

WHEREAS, a Position Classification Plan for the City of Modesto was adopted by Modesto City Council Resolution 88-338 pursuant to Rule 2 of the Personnel Rules and Regulations of the City of Modesto, and

WHEREAS, the Acting City Manager has recommended to the Council amendments to the Position Classification Plan, and

WHEREAS, Rule 2.2 of the City of Modesto Personnel Rules provides that revisions to the Classification Plan shall be effective upon adoption of resolution of the City Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. CLASSIFICATIONS AMENDED. The Position Classification Plan of the City of Modesto is hereby amended to revise the job specifications for the following classifications:

1. Water Distribution System Operator
2. Accountant II
3. Maintenance Mechanic – Pumps
4. Senior Construction Inspector
5. Coach Mechanic

Said classifications are being amended to revise the job specifications to more accurately reflect the requirements of the various job classifications. The Coach Mechanic job specification is also being revised to change the title to Heavy Equipment Mechanic.

SECTION 2. CLASSIFICATION DELETED. The Position Classification Plan of the City of Modesto is hereby amended to delete the classification of Senior Programmer Analyst. Said classification is no longer being used.

SECTION 3. EFFECTIVE DATE. This resolution shall become effective on and after October 5, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5<sup>th</sup> day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following votes:

## WATER DISTRIBUTION SYSTEM OPERATOR

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

### DEFINITION

Under general supervision, perform skilled and semi-skilled labor in the full range of assigned duties related to the Water Distribution System. This may include construction, maintenance, repair, and meter reading activities.

### SUPERVISION RECEIVED AND EXERCISED

Receives general supervision from higher level supervisory and management staff. May exercise technical and functional supervision of other maintenance staff.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS - Essential and other important responsibilities may include, but are not limited to, the following:

#### Essential Functions:

Lay and fit pipelines, make water line taps, install water services, fire hydrants, blow-offs, valves, meters, vaults, boxes, exercise valves, locate and mark services and mains for Underground Service Alert.

Flush water mains and services to maintain a safe, potable water system.

Respond to emergencies including flood, line breaks and overflows, and repair and restore system as required.

Respond to customer water problems including leaks, low water pressure, meter connects and disconnects, and unusual meter readings.

Collect water samples from wells, mains and services for lab testing.

Read and update water distribution maps and as-built plans and blueprints; analyze projected new routes.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS (Continued)

Identify and locate service and main leaks for heavy crews; operate pipe locators and gas-sensing equipment; install and inspect backflow devices; raise and maintain water meters above ground.

Excavate trenches and install shoring; back fill trenches with proper material to achieve correct compaction.

Operate construction equipment and power tools such as dump trucks, front-end loaders, tampers, tap machines, pavement saw, cutting torch and welder.

Operate hand-held and office computers to enter and retrieve data; prepare written and computerized records and reports, and review reports for accuracy.

Install street barricades, cones, flags and standards prior to the performance of construction and repair activities; direct and control traffic around work sites.

Tactfully respond to requests and inquiries from customers of the water utility and from the general public.

Identify equipment needs for each assigned project.

Utilize proper safety precautions related to all work performed.

Perform work in emergency situations as required.

Perform on-call duties as required.

Marginal Functions:

Perform related duties as assigned.

QUALIFICATIONS

Knowledge of:

Methods, techniques, and tools, and the operational characteristics of mechanical equipment used in the construction, maintenance and repair of water utility facilities and meters.

QUALIFICATIONS (Continued)

Methods and procedures used in monitoring water systems.

Practices for collection of water samples.

Basic arithmetic principles.

Disinfection (chlorination) rules and regulations.

Safe work practices.

Ability to:

Perform skilled and semi-skilled maintenance, construction, and repair work in the area of work assigned.

Handle contaminated materials and equipment.

Identify equipment, tools and materials needed for each project.

Fabricate tools and equipment if needed for project.

Identify possible or potential sources of contamination and how to deal with it to ensure a safe water system.

Disassemble water meters, clean meter parts; reassemble meters; test and adjust meters; install and remove meters; check for proper operation of meters.

Perform heavy manual labor, including but not limited to lifting and carrying 100 pounds of weight, climbing, bending, stooping, etc.

Understand and follow oral and written instructions.

Work in confined areas.

Work in deep trenches and follow trenching and shoring safety standards.

Use and operate hand tools, mechanical equipment, power tools, and other equipment required for the work in a safe and efficient manner.

QUALIFICATIONS (Continued)

Read and interpret basic maps and blueprints.

Establish and maintain cooperative relationships with those contacted during the course of work.

EXPERIENCE AND TRAINING GUIDELINES

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

One year of increasingly responsible experience performing field maintenance duties. Work experience with a municipal or private water utility is highly desirable.

Training:

Equivalent to graduation from High School or possession of a G.E.D. certificate.

License or Certificate

Possession of an appropriate and valid California driver's license.

Possession of a Grade III Water Distribution Operator Certificate issued by the ~~State Department of Health Services American Water Works Association~~ (AWWA) is required within two years ~~48 months~~ of appointment.

Possession of a Backflow Tester Certificate issued by the American Water Works Association (AWWA) is highly desirable.

WORKING CONDITIONS:

Environmental Conditions:

Field environment; travel from site to site. Hot and cold temperatures; inclement weather; exposure to heavy traffic and other hazards in confined spaces with possible hazardous materials.

Physical Conditions:

Essential and marginal functions may require lifting/carrying objects of up to 100 pounds of weight, maintaining physical condition necessary for walking, standing for long periods of time, crawling; operating motorized equipment and vehicles.

Work Assignment:

Must be willing to work overtime and off hours in emergency situations.

## ACCOUNTANT II

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

### DEFINITION

To perform professional level accounting and auditing work; to record and report financial transactions for the City in accordance with generally accepted accounting principles; to review accounting records for accuracy; and to prepare financial reports, statements, and special financial analyses for both internal and external customers; to review accounting transactions for accuracy and to supervise the activities and staff of the payroll, accounts receivable, or accounts payable function; may supervise the activities and staff of an assigned function.

### SUPERVISION RECEIVED AND EXERCISED

Receives direction from the higher level accounting staff senior level management staff.

May exercise direct supervision over technical and clerical accounting staff.

### DISTINGUISHING CHARACTERISTICS

This is the full journey level class fully trained professional level in the professional accounting series and is distinguished from the I level by the ability to perform the full range of assigned duties with only instruction or assistance as unusual or unique situations arise. Positions in this class also have may be assigned supervisory responsibility over a function and/or staff such as payroll, accounts payable or accounts receivable.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS – Essential and other important responsibilities and duties may include, but are not limited to, the following:

#### Essential Functions:

Maintain and reconcile a variety of ledgers and accounts; examine all accounting transactions to ensure for accuracy; correct financial records accounting transactions as necessary.

Assist in monitoring various accounts, verifying availability of funds and classification of expenditures; research and analyze transactions to resolve problems.

Essential Functions: (Continued)

~~Perform comprehensive financial activity studies as directed; Assist in preparing of the annual financial reports for internal as well as external purposes.~~

~~Recommend or implement changes in accounting and auditing systems, policies and procedures.~~

~~Prepare a variety of management financial reports for the Finance Director, City Manager and other City departments.~~

~~Review and evaluate laws, controls, grants and administrative policies for guidelines in performing accounting and fiscal operations.~~

~~Prepare a variety of financial documents and reports.~~

~~Prepare spreadsheets and other account data for the annual audit.~~

~~Prepare clear and concise reports, records, correspondence and other written material.~~

Marginal Functions:

~~Perform related duties as assigned.~~

QUALIFICATIONS

Knowledge of:

~~Generally accepted accounting principles and procedures.~~

~~Governmental accounting principles and practices as it pertains to assigned function.~~

~~Principles and procedures of account classification and auditing.~~

~~Principles of technical financial report preparation.~~

~~Application of generally accepted accounting principles and procedures to a variety of accounting audits, transactions and problems.~~

~~Use of automated financial management systems, spreadsheet applications, word processing, and other related software.~~

Knowledge of: (Continued)

Financial research and report preparation methods and techniques.

Account reconciliation principles.

Principles and practices of organization, administration and personnel management.

Pertinent Applicable Federal, State and local laws, codes and regulations affecting governmental fiscal operations.

Principles of training and supervision.

Technical report writing principles.

Basic statistical techniques.

Ability to:

Apply generally accepted accounting principles to the maintenance of financial accounting transactions and/or auditing of financial records.

Prepare, or assist in the preparation of, a variety of complex financial statements, reports and analyses.

Examine and verify a wide variety of financial documents and reports transactions and make necessary corrections.

Research, analyze and make effective recommendations on accounting work processes and fiscal practices.

Conduct fiscally sound audits of financial records.

Apply Federal, State and local laws and regulations pertaining to accounting and auditing work.

Communicate clearly and concisely, both orally and in writing.

Establish and maintain cooperative working relationships with those contacted in the course of work.

Skill in:

Use of computers, calculators, computer applications and software.

EXPERIENCE AND TRAINING GUIDELINES

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

Two years of professional governmental level accounting/ and auditing experience. Experience including in governmental accounting, grant accounting and auditing is desirable.

Training:

Equivalent to a Bachelor's degree from an accredited college or university with major course work in accounting or closely a related field.

WORKING CONDITIONS

Environmental Conditions:

Office environment.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for sitting, standing, bending, and stooping for prolonged periods of time and occasional lifting; using various office equipment including a computer screen and keyboard.

## MAINTENANCE MECHANIC – PUMPS

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

### DEFINITION

To perform a variety of skilled and semiskilled tasks in the maintenance, repair and service of water, sewer and storm drain lift stations.

### SUPERVISION RECEIVED AND EXERCISED

Receives general supervision from higher-level supervisory staff.

May exercise technical supervision over lower level maintenance staff.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS – Essential and other important responsibilities and duties may include, but are not limited to, the following:

#### Essential Functions:

Inspect, maintain, troubleshoot, repair and service facilities, machinery and equipment including pumps, valves, motors, engines, compressors and computerized pneumatic and odor control systems.

Rebuild and overhaul pumps, pneumatic control systems, and ventilation blower units.

Read and interpret blueprints; provide input on design blueprints and recommend changes before finalization.

Operate and maintain a variety of equipment and tools in the performance of maintenance tasks.

Operate steam cleaner.

Fabricate parts and equipment including mounts, brackets and shields; operate welding and cutting equipment.

Essential Functions: (Continued)

Perform preventive maintenance checks and servicing on equipment; develop maintenance schedules.

Inspect and calibrate gauges and meters; inspect and test air quality analyzers.

Spray pesticides, herbicides and insecticides as required.

Coordinate activities with other departments and divisions; recommend improvements to design, installation, and maintenance of lift stations.

Train maintenance staff in confined space entry procedures and lift station maintenance safety procedures.

Maintain inventory of supplies, parts and equipment used in pump station maintenance.

Respond to public concerns regarding water quality problems.

Collect state-mandated water and/or stormwater samples.

Perform plumbing, electrical, and carpentry duties as required.

Keep detailed maintenance records.

Additional duties when assigned to Water:

Operate portable sample pump.

Pack, lubricate, clean and paint pumping equipment and motors.

Flush distribution system to maintain water quality.

~~Initiate well and water distribution system disinfection procedures.~~

~~Maintain and operate chemical feed systems and perform dosage computations.~~

Install, maintain, and calibrate hypochlorinators.

Monitor and maintain Granular Activated Carbon (GAC) filters; assist in removal and replacement of carbon, backwashes as required.

Essential Functions: (Continued)

Monitor and maintain wellhead water treatment units and storage reservoirs.

Perform concrete repair including sawing, pouring, finishing and jack hammering.

Perform call-duty as assigned.

Additional duties when assigned to Collections:

Maintain mechanical seals, lubricate, clean and paint pumping equipment and motors.

Practice the CAL-OSHA required confined space safety rules and regulations when working in confined spaces.

Monitor and maintain wastewater lift station odor control soil filter beds.

Monitor and maintain wastewater lift station chemical injection – odor/corrosion control systems.

Coordinate activities with the Environmental Services Division to inspect, monitor and assess hazardous material spills and illegal discharges into the wastewater and stormwater collection systems.

Marginal Functions:

Perform related duties as assigned.

QUALIFICATIONS

Knowledge of:

Principles, methods, materials, and tools employed in the repair and maintenance of pumps, motors, and related equipment.

Safety procedures for confined space entry.

Basic plumbing and electrical principles.

Principles and practices of hydraulics related to pumps.

Practices and techniques of metal cutting and welding.

QUALIFICATIONS (Continued)

Preventive maintenance and inspection methods.

Appropriate safety practices and regulations.

Supervisory Control and Data Acquisition (SCADA) computerized pump control system.

Water and/or stormwater sampling methods.

Additional "Knowledge of" when assigned to Water Division:

Water disinfection procedures.

Safety procedures in handling chlorine.

Additional "Knowledge of" when assigned to Collections:

Confined Space Safety-Entry Procedures.

Safety procedures in handling of chemicals used in odor and corrosion control.

Ability to:

Independently perform a variety of skilled and complex repair, maintenance, servicing, and cleaning tasks involving pumps, motors, and computerized and pneumatic controls.

Read and interpret blueprints.

Perform medium-heavy manual labor, including but not limited to lifting up to 75 pounds, climbing, bending, and stooping.

Troubleshoot and diagnose malfunctions with pumping capacities, pneumatic controls, computerized controls and determine effective course of action for correcting them.

Work in confined work spaces.

Understand and carry out oral and written directions.

Establish and maintain effective working relationships with those contacted in the course of work.

EXPERIENCE AND TRAINING GUIDELINES:

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

One year of experience comparable to a Water Distribution System Operator or a Wastewater Collection System Operator.

Training:

Equivalent to high school diploma or G.E.D. supplemented by specialized training in the areas of mechanical maintenance and repair.

License or Certificate:

Possession of, or ability to obtain, an appropriate, valid California Driver's license. When assigned to Water, must obtain a Class B driver's license with hazardous materials and tank endorsements within 45 days of appointment. Failure to obtain the required license may result in release from probation or termination.

When assigned to Collections:

Possession of a California Water Environmental Association (CWEA) Plant Maintenance-Grade I Certification is desirable.

Possession of a CWEA Mechanical Technologist-Grade II is desirable.

Possession of a CWEA Collections Systems Maintenance Technologist Grade I or II Certification is desirable.

When assigned to Water:

Possession of a Water Distribution Operator Grade III Certification issued by the State of California Department of Health Services is required within two years of appointment. Failure to obtain this certificate may result in demotion to the previously held position (promoted employee) or release from employment (person hired from the outside into a position).

Possession of a Water Sampling Certificate is desirable.

Possession of a Grade I, Water Treatment Plant Operator Certificate issued by the State of California Department of Health Services is

desirable required ~~at the time~~ within one year of appointment. Failure to obtain this certificate may result in demotion to the previously held position (promoted employee) or release from employment (person hired from the outside into a position).

### WORKING CONDITIONS

#### Environmental Conditions:

Field environment, travel from site to site, exposure to hot and cold temperatures, inclement weather, hazards of confined spaces and other hazardous materials.

#### Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for medium-heavy lifting up to 75 pounds, walking, standing, bending, stooping and crawling for prolonged periods of time; operating motorized equipment and vehicles.

## SENIOR CONSTRUCTION INSPECTOR

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

### DEFINITION

To perform a variety of public works construction project inspection duties at various stages of alteration and repair; to provide technical assistance to other inspection staff; and to provide information and assistance to the public.

### SUPERVISION RECEIVED AND EXERCISED

Receives general supervision from the Supervising Construction Inspector.

Exercises functional supervision over construction inspection staff.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS – Essential and other important responsibilities and duties may include, but are not limited to, the following:

#### Essential Functions:

Inspect a variety of public works construction projects for adherence to plans and specifications such as subdivision and major street construction and reconstruction, sidewalks, curbs, and gutters, waterlines, storm drains, sewer lines, sprinkler systems, airport facilities, street lighting facilities, public buildings and structures, parks and park facilities.

Approve construction procedures and authorize the use of construction materials; enforce compliance with approved plans and specifications.

Provide technical assistance and educational programs to other construction inspection staff.

Confer with architects, contractors and the general public in the field and office; explain and interpret requirements and restrictions.

Monitor traffic control problems at construction site and coordinate corrections if necessary.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS (Continued)

Record amounts of materials used and work performed; prepare necessary reports for progress payments.

Review plans and specifications of assigned project; attend pre-construction conferences as necessary.

Perform a variety of field tests including soil tests and other materials testing.

Observe work during progress and upon completion; monitor contractor workforce for adequate staffing levels.

Inspect adjacent properties for damage from construction activity.

Confer with the public regarding project schedule, hazards and inconvenience.

Coordinate work with other City departments and utilities.

Prepare a variety of activity records and reports; maintain as-built notes for each set of plans.

Evaluate and negotiate contract change orders related to construction.

Marginal Functions:

Perform related duties as assigned.

QUALIFICATIONS

Knowledge of:

Principles, methods; materials, equipment and safety hazards of construction inspection.

Defects and faults in construction.

Basic mathematics including algebra, geometry, and trigonometry.

Basic soil mechanics and geology.

QUALIFICATIONS (Continued)

Materials sampling and estimate procedures.

Engineering mechanics of structures.

Applicable laws, regulations, codes and departmental policies governing the construction of assigned projects.

Research methods and sources of information related to construction inspection.

Ability to:

Provide technical assistance and supervision to other construction inspection staff.

Understand and interpret engineering plans and specifications and prepare accurate engineering records.

Detect and locate faulty materials and workmanship and determine the stage of construction during which defects are most easily found and remedied.

Address issues from contractors, engineers, and members of the public in an assertive and tactful manner.

Apply technical knowledge and follow proper inspection techniques to examine workmanship and materials, and detect deviations from plans, regulations, and standard construction practices.

Work independently without supervision.

Communicate clearly and concisely, both orally and in writing.

Establish and maintain cooperative working relationships with those contacted in the course of work.

Use basic computer software programs.

### EXPERIENCE AND TRAINING GUIDELINES

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

#### Training:

Equivalent to an Associate of Arts degree from an accredited college with major course work in civil engineering, construction technology or a related field.

#### Experience:

Three years of increasingly responsible experience performing construction inspection in a variety of public works or related construction projects, such as preparing daily reports, monitoring change order work, evaluating material testing results, preparing correction notices and obtaining corrective action, and preparing monthly progress payments; including one (1) year of experience as a Construction Inspector for the City of Modesto in a public agency.

#### License or Certificate

Possession of, or ability to obtain, an appropriate, valid California driver's license.

### WORKING CONDITIONS

#### Environmental Conditions:

Office and field environment; travel from site to site.

#### Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for walking or standing for prolonged periods of time; operate motorized equipment and vehicles; occasionally lifting and carrying up to fifty (50) pounds.

~~COACH~~ HEAVY EQUIPMENT MECHANIC

DEFINITION

To maintain and make minor and major repairs to the City's transit coaches-buses and other gas and diesel powered vehicles.

SUPERVISION RECEIVED AND EXERCISED

Receives general supervision from higher level Equipment Maintenance staff.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS – Essential and other important responsibilities and duties may include, but are not limited to, the following:

Essential Functions:

Inspect, diagnose, and locate mechanical difficulties on City transit coachesbuses, and a variety of other diesel and gasoline powered equipment as required.

Weld, fabricate and assemble parts and equipment for City transit coachesbuses; weld, braze, cut shape and fasten metal parts; fabricate and weld, vehicle frames, chassis, and exhaust systems.

Use welding equipment, drill presses, lathes, grinders and a large assortment of other power and hand tools and measurement instruments required for journey level fabrication work.

Overhaul, repair, and adjust engines, transmissions, differentials, valves and air and hydraulic systems.

Tune up engines, replacing electrical and electronic parts and cleaning and adjusting fuel injection systems.

Replace or repair faulty parts including wheel bearings, clutches, or oil seals, shock absorbers, exhaust systems, steering mechanisms, and related parts and equipment.

Diagnose and repair such components as generators, alternators, distributors, relays, lights and switches.

Maintain and repair air conditioning and climate systems.

Essential Functions: (Continued)

Diagnose and repair wheel chair lifts, and coin collection equipment.

Make roadside repairs as required.

Maintain work, time, and material records.

Diagnose and repair various electronic and computer controlled devices.

Perform smog certification on City-owned vehicles.

Diagnose and repair emissions systems.

Marginal Functions:

Perform related duties as assigned.

QUALIFICATIONS

Knowledge of:

Tools, equipment, and procedures used in the overhaul, repair, and adjustment of transit coachesbuses and other gas and diesel powered equipment.

Operation and care of internal combustion engines and hydraulic equipment.

Methods, materials, equipment and tools used in welding and fabrication work.

Operating and repair characteristics of City transit coachesbuses.

Safe work practices.

Computers and electronics in vehicle applications.

Ability to:

Perform skilled welding and fabrication work.

Perform minor and major mechanical work on mechanical equipment.

Use a variety of tools, testers and equipment with skill.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-517**

**A RESOLUTION AMENDING EXHIBIT "A" OF RESOLUTION NO. 95-26 TO REVISE THE CLASS RANGE TABLE FOR GENERAL NON-SWORN CLASSES TO REVISE THE JOB SPECIFICATIONS OF MAINTENANCE MECHANIC-PUMPS, SENIOR CONSTRUCTION INSPECTOR, WATER DISTRIBUTION SYSTEM OPERATOR, AND TO CHANGE THE TITLE OF COACH MECHANIC TO HEAVY EQUIPMENT MECHANIC.**

WHEREAS, the City Council desires to amend Exhibit "A" of Resolution No. 95-26,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. AMENDMENT TO RESOLUTION NO. 95-26. **Exhibit "A"** entitled "City of Modesto Class Range Table General Non-Sworn Classes Effective January 10, 1995," attached to Resolution No. 95-26, is hereby amended as shown on the amended Exhibit "A" entitled "City of Modesto Class Range Table General Non-Sworn Classes Effective October 5, 2004," which is attached hereto and made a part hereof as though set forth in full herein. Said amended Exhibit "A" revises the job specifications for Maintenance Mechanic-Pumps remaining at Range 119, Senior Construction Inspector at Range 134, Water Distribution System Operator remaining at Range 116 and changes the title of the Coach Mechanic to Heavy Equipment Mechanic remaining at Range 122.

SECTION 2. EFFECTIVE DATE. This resolution shall become effective on and after October 5, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5<sup>th</sup> day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following votes:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant,  
Mayor Ridenour

NOES: Councilmembers: None

ABSENT: Councilmembers: None

ATTEST: Jean Zahr  
JEAN ZAHR, City Clerk

(SEAL)

APPROVED AS TO FORM:

By Michael D. Milich  
MICHAEL D. MILICH, City Attorney

QUALIFICATIONS (Continued)

Maintain a variety of shop and repair records.

Understand and operate a computerized Fleet Management System.

Understand and carry out oral and written directions.

Perform journey level equipment mechanical work including the troubleshooting of equipment for both major and minor repair work.

Work independently in the absence of supervision.

Accurately determine mechanical appropriate repair needs and estimate the cost and time of repairs.

Occasionally perform heavy lifting of objects up to 100 pounds.

Establish and maintain cooperative working relationships with those contacted in the course of work.

EXPERIENCE AND TRAINING GUIDELINES

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

Three years of increasingly responsible experience performing automotive and heavy equipment maintenance and repair duties.

Training:

Equivalent to completion of the twelfth grade and specialized training in the maintenance and repair of gas and diesel powered equipment.

License or Certificate:

Possession of, or ability to obtain, an appropriate, valid California driver's license. Must obtain a Class B commercial California driver's license within 45 days of appointment.

Possession of, or ability to obtain, an appropriate, valid Vehicle Inspection Pollution Controls license.

EXPERIENCE AND TRAINING GUIDELINES (Continued)

Possession of, or ability to obtain, an appropriate, valid Motor Vehicle Air Conditioning Certification is desirable.

Possession of Certification from the National Institute for Automotive Service Excellence (ASE) in at least three (3) areas in heavy-duty class is required within one year of appointment.

Special Requirements:

Possession of a complete set of mechanic hand tools through 1-1/2" and tool box.

WORKING CONDITIONS

Environmental Conditions:

Field environment, travel from site to site, exposure to hot and cold temperatures, inclement weather, hazards of confined spaces and other hazardous materials.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for heavy lifting up to 100 pounds, walking, standing, bending, stooping and crawling for prolonged periods of time; operating motorized equipment and vehicles.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-519**

**A RESOLUTION AMENDING EXHIBIT "A" OF RESOLUTION 2003-330, ENTITLED "A RESOLUTION GRANTING SALARY AND BENEFIT CHANGES TO UNREPRESENTED MANAGEMENT AND CONFIDENTIAL EMPLOYEES, INCLUDING CHARTER OFFICERS AND EXECUTIVES, EFFECTIVE JULY 1, 2003 AND RESCINDING RESOLUTION NO. 2002-307 AND 2003-81A AND AMENDING EXHIBIT A OF RESOLUTION NO. 2003-331 EFFECTIVE JUNE 30, 2003," TO REVISE THE CLASS RANGE TABLE FOR THE JOB SPECIFICATION FOR ACCOUNTANT II (UNREPRESENTED).**

WHEREAS, Resolution No. 2003-330 granted salary and benefit changes to Unrepresented Management and Confidential Employees including Charter Officers and Executives, effective July 1, 2003, and

WHEREAS, the City Council desires to amend Resolution No. 2003-330,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. AMENDMENT OF RESOLUTION NO. 2003-330. **Exhibit "A"** entitled "City of Modesto Class Range Table, Unrepresented Management and Confidential Non-sworn Classes, Effective July 1, 2003" attached to Resolution No. 2003-330, is hereby amended as shown on the amended Exhibit "A" entitled, "City of Modesto Class Range Table, Unrepresented Management and Confidential Non-sworn Classes, Effective October 5, 2004," which is attached hereto and made a part hereof as though set forth in full herein. Said amended Exhibit "A" revises the job specification for Accountant II remaining at range 2428.

SECTION 2. EFFECTIVE DATE. This resolution shall become effective on and after October 5, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5<sup>th</sup> day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following votes:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 520**

**A RESOLUTION APPROVING THE ADDITION OF ONE NEW POLICE  
OFFICER POSITION IN THE MODESTO POLICE DEPARTMENT TO SERVE  
AS THE RECRUIT TRAINING OFFICER AT THE REGIONAL ACADEMY  
TRAINING CENTER**

WHEREAS, the Modesto Police Department budgeted \$85,000 in the 2004/05 budget for overtime in the Operations Division of the Police Department to pay for backfill duties of a Recruit Training Officer for the Training Academy, and

WHEREAS, a Recruit Training Officer is a necessity for the programs of the Regional Academy Training Center, and

WHEREAS, the \$85,000 would be better spent for a position than on backfill overtime for the various duties of the position, and

WHEREAS, there will be only one person in the position and he or she will not be paid overtime as he or she will be on regular duty time, and

WHEREAS, this new position will be a part of the Training Unit in the Support Division of the Police Department and when not required by the Training Center, will work in Training or in general Patrol, which is always in need of officers, and

WHEREAS, the actual Recruit Training Officer will be an experienced Modesto Police Officer and this new position will allow for his or her backfill, and

WHEREAS, this action is fiscally neutral and can be accomplished with an appropriation transfer, and

WHEREAS, the Safety and Communities Committee unanimously supported this action at its meeting of September 8, 2004 and the Finance Committee recommended this action at its meeting of September 27, 2004,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves one new Police Officer position in the Modesto Police Department to serve as a Recruit Training Officer at the Regional Academy Training Center.

BE IF FURTHER RESOLVED that City staff is hereby authorized to hire one new Police Officer.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5<sup>th</sup> day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following votes:

RESOLUTION NO. 2004-521**

**A RESOLUTION ACCEPTING IMPROVEMENTS IN THE OLYMPIC PARK NO. 1 SUBDIVISION, IN THE VILLAGE ONE SPECIFIC PLAN AREA, AUTHORIZING THE CITY CLERK TO RECORD A NOTICE OF COMPLETION AND AUTHORIZING RELEASE OF BONDS**

WHEREAS, DAVANTE VILLAS, a California Limited Partnership by NOVA DEVELOPMENT GROUP LLC, a California Limited Liability Company, is the subdivider of the Olympic Park No. 1 Subdivision, and

WHEREAS, DAVANTE VILLAS, a California Limited Partnership, has filed irrevocable subdivision bonds to secure faithful performance and payment for labor and materials in the amounts of \$66,000.00 and \$33,000.00, respectively, and

WHEREAS, DAVANTE VILLAS, a California Limited Partnership, has filed a warranty security in the amount of \$6,600.00 to guarantee improvements in the Olympic Park No. 1 Subdivision, and

WHEREAS, the City Engineer, in a memorandum to Council, indicates that all work required by the Subdivision Agreement has been completed to the satisfaction of the Public Works Department, and

WHEREAS, the City Engineer has indicated that it would be in order for the City Council to accept the improvements in said subdivision as complete, and authorize the City Clerk to file a Notice of Completion and release the bonds upon expiration of the statutory periods,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that:

1. The improvements in the Olympic Park No. 1 Subdivision are hereby accepted and the City Clerk is hereby authorized to file a Notice of Completion for the improvements.
2. The City Clerk is hereby authorized to release the subdivision security for faithful performance in the amount of \$66,000.00 upon recordation of the Notice of Completion.
3. The City Clerk is hereby authorized to release the subdivision security for labor and materials in the amount of \$33,000.00 sixty (60) days after the recordation of the Notice of Completion, provided no claim is made thereon.
4. The City Clerk is hereby authorized to release the warranty security to guarantee improvements in the amount of \$6,600.00 one year and one day after the effective date of this resolution, provided no claim is made thereon.

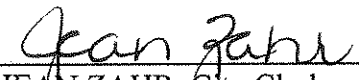

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5<sup>th</sup> day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following votes:

**A RESOLUTION APPROVING AN UPDATE TO THE DISADVANTAGED  
BUSINESS ENTERPRISE (DBE) PROGRAM FOR FEDERALLY FUNDED  
STREET, AIRPORT, AND TRANSIT PROJECTS**

WHEREAS, the Federal Government has adopted Federal Regulation 49 CFR Part 26, which mandates that the City adopt a Disadvantaged Business Enterprise (DBE) Program to be eligible to receive federal highway, airport, and transit funds, and

WHEREAS, Caltrans has tentatively approved the draft City of Modesto DBE Program for federally funded streets projects, contingent upon Council adopting the program, and

WHEREAS, the recommended overall goal for Modesto in the upcoming year is seven (7%) percent DBE participation, and

WHEREAS, in order to continue to receive federal funding for street, airport and transit projects, the City must adopt a DBE Program consistent with federal regulations and receive approval, and

WHEREAS, the City of Modesto has requested public comments regarding the DBE Program, and none were received,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the City of Modesto DBE Program for federally funded streets and transit projects is hereby approved and adopted.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5<sup>th</sup> day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following votes:

**A RESOLUTION ADOPTING THE CITY OF MODESTO EQUAL  
OPPORTUNITY PLAN FOR FISCAL YEARS 2003-04 THROUGH 2007-08.**

WHEREAS, City staff has recommended to the Council the adoption of an Equal Opportunity Plan for Fiscal Years 2003-04 through 2007-08, a copy of said Plan is on file in the office of the City Clerk, and

WHEREAS, said plan contains the City's plans and objectives which have been developed in accordance with existing laws in an effort to ensure that minorities, women, disabled individuals and other groups are afforded equal opportunity, and

WHEREAS, the Equal Opportunity Plan is provided to Council as a five-year blueprint for workforce objectives relative to ethnicity and gender. This report sets forth the guidelines to be used by the City to measure annual progress towards those objectives set for Fiscal Years 03/04 through 07/08, and

WHEREAS, the City is fully committed to the effective implementation of the Equal Opportunity Plan, and to continued progress toward the achievement of its objectives,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the City of Modesto Equal Opportunity Plan for Fiscal Years 2003-04 through 2007-08.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-527**

**A RESOLUTION AMENDING RESOLUTION 99-385 AND AMENDING  
RESOLUTION 98-27 AND AMENDING RESOLUTION 2001-124 TO PROVIDE  
FOR THE DEFERRAL AND EXEMPTION OF CAPITAL FACILITIES FEES**

WHEREAS, the City Council of the City of Modesto has adopted Modesto Municipal Code sections 8-1.904 et seq., creating and establishing the authority for imposing and charging capital facilities fees; and

WHEREAS, the current capital facilities fees for residential development are set forth in Resolution No. 2003-310; and

WHEREAS, on January 17, 2001, the Community Development and Housing Committee of the City Council recommended to the City Council that the City's Capital Facilities Fee Program be amended to provide for the deferral and exemption of capital facilities fees in certain cases.

WHEREAS, on April 27, 2004, the City Council of the City of Modesto adopted Resolution Number 2004-233 updating the Housing Element of the Modesto Urban Area General Plan, and

WHEREAS, the City of Modesto Housing Element contains goals, policies and programs for the development and preservation of housing that is affordable to very-low- and low-income households, and

WHEREAS, Housing Element Goal Number 5 "Reduce Governmental Constraints" includes Policy 5.2 to continue to provide financial incentives such as fee deferral and exemptions for developments meeting the affordable and special housing needs of the community, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council finds and determines that Resolution No. 99-385 is hereby amended to

2013-177

add the following, and Resolution No. 98-27 and Resolution N. 2001-124 is hereby amended to read as follows:

EXEMPTIONS FROM AND DEFERRAL OF CAPITAL FACILITIES FEES.

- (a) The Capital Facilities Fees (CFF) established by this resolution shall not be imposed on any of the following:
1. Any low income housing units constructed or expanded by the Housing Authority of the County of Stanislaus or any entity in which the Housing Authority is a major partner.
  2. Any low income or special needs housing, as identified in the Housing Element, constructed or expanded by any other person or entity. The exemption authorized by this subparagraph may be granted by the City Council on a case-by-case basis after a public hearing. The public hearing shall focus on whether or not the units to be constructed or expanded are in fact "low income". As used in this subparagraph and the preceding subparagraph, the term "low income housing" shall mean: housing at rents affordable to households earning sixty percent (60%) or less of the Area Median Income as determined from time to time by the United States Department of Housing and Urban Development. The term for the CFF exemption would be the term of the period deemed low income.
  3. For each use listed above for which the fee is calculated on the basis of the total number of square feet of building space, the area of public or private parking garages shall not be included in the area of building space for the purpose of calculating the capital facilities fee for that use. As used herein, the term "public parking garage" and the term "private parking garage" shall mean the same as those terms are defined in the Uniform Building Code.
  4. Any alteration or addition to a residential structure, except to the extent that additional units are created.
  5. Any replacement or reconstruction of a residential structure existing on November 21, 1989 that has been destroyed or demolished since that time.
  6. Any replacement or reconstruction of a non-residential structure existing on November 21, 1989, that has been destroyed or demolished since that time, unless the replacement or reconstruction increases the square footage of the structure, ten percent (10%) or more, changes the use of the structure to a higher density category, or will result in the generation of additional peak hour trip ends.

7. Any replacement of an existing residential or non-residential structure that has been or will be vacated due to the fact that the title to the property has been acquired by a public entity through eminent domain proceedings or the threat of such proceedings provided that the building permit for the replacement structure or structures is applied for within two (2) years after the transfer of title or within two (2) years after the property has been vacated, whichever occurs last. The exemption granted by this subparagraph shall not apply to the replacement of a non-residential structure to the extent it adds additional square feet, the use is devoted to a higher density category, or results in the generation of additional peak hour trip ends or to the replacement of a residential structure to the extent additional units are created.
8. Any single-family affordable housing unit constructed by any person or entity. As used in this subparagraph, the term "single-family affordable housing unit" shall mean a single-family home purchased by a homebuyer earning sixty percent (60%) or less of Area Median Income as determined from time to time by the United States Department of Housing and Urban Development to be used by the homebuyer as its principle place of residence. The homebuyer would be granted a full CFF exemption provided there is no resale or refinance for ten (10) years. If a resale or refinance should occur within the ten (10)-year period, the full CFF exemption would be due, with no interest thereon.

The exemption authorized by this subparagraph may be granted by the City Council on a case-by-case basis after a public hearing. The public hearing shall focus on whether or not the unit to be constructed would be a single-family affordable housing unit. If approved by the City Council, the benefit of the CFF exemption would be transferred to the homebuyer at the time purchase. The homebuyer would be required to sign a CFF exemption agreement, promissory note, and City trust deed to secure the note, as prepared by the City Attorney.

- (b) Any alteration or change of use of an existing building shall not trigger the payment of CFF, provided no new dwelling units are created or no new square footage is added with non-residential structures. When an additional residential unit or new square footage for a non-residential structure is created, CFF shall be due for the additional units or square footage only.
- (c) Rather than paying CFF at the time a building permit is issued, the developer of a "qualified project" may elect to defer payment of all or a portion of those fees as hereinafter set forth.

1. There shall be two (2) categories of qualified projects defined as follows:
  - a. Category "A" qualified project shall include any non-residential project (except industrial/warehouse projects but including hotel/motel projects) on one parcel of land or a group of contiguous parcels under the same ownership for which CFF exceed \$150,000.00. Category "A"

qualified projects shall also include any industrial/warehouse project on one parcel of land or a group of contiguous parcels under the same ownership for which capital facilities fees exceed \$50,000.00.

- b. Category "B" qualified projects shall include any non-residential project (except industrial/warehouse projects but including hotel/motel projects) on one parcel of land or a group of contiguous parcels under the same ownership for which CFF is more than \$25,000.00 but less than \$150,000.00. Category "B" qualified projects shall also include industrial warehouse projects on one parcel of land or a group of contiguous parcels under the same ownership for which CFF is more than \$25,000.00 but less than \$50,000.00.
2. Other projects which may be designated by the City Council as "qualified projects," are privately constructed projects on the City/Council Airport where the CFF exceeds \$5,000.00.
  3. The property owner and/or developer in the case of "Category 'A' qualified projects" may enter into Deferred Payment Agreement with the City to pay ten percent (10%) of those fees at the time the building permit is issued with the remaining ninety percent (90%) to be paid in equal installments over the next ten (10) years (or less at the property owner's option).

The property owner and/or developer in the case of "Category B qualified projects" may enter into a Deferred Payment Agreement with the City to pay twenty percent (20%) of those fees at the time the building permit is issued with the remaining eighty percent (80%) to be paid in equal installments over the next five (5) years (or less at the property owner's option).

The unpaid balance of the fees will be subject to interest and collection charges. The annual interest rate shall be equal to the Wall Street Journal Prime Rate adjusted thereafter semi-annually every July and January. Adequate security acceptable to the City in the form of an irrevocable letter of credit in an amount sufficient to secure both principle and interest shall be provided for the duration of the deferral. The terms and conditions of the deferral shall be set forth in an agreement which shall also provide that the unpaid balance of the fee shall be due and payable on the sale or the transfer to the property. As an alternative to providing the irrevocable letter of credit, the agreement may, at the option of the property owner/developer, authorize the City to lien the property and collect the balance of the CFF due through property tax assessment.

4. For those projects where a mitigated negative declaration or an Environmental Impact Report (EIR) has been certified, no CFF deferral shall be allowed to the extent that one or more of the mitigation measures consists of payment of CFF or construction or installation of a public

improvement, the cost of which is eligible as a credit toward the payment of CFF.

(d) Rather than paying CFF at the time the building permit is issued for the construction of a single-family affordable housing unit, the developer may elect to defer payment of all or a portion of those fees on the following:

1. Any single-family affordable housing unit constructed by any person or entity. As used in this subparagraph and the preceding subparagraph, the term “single-family affordable housing unit” shall mean a single family home purchased by a homebuyer earning between sixty-one percent (61%) and eighty percent (80%) Area Median Income as determined from time to time by the United States Department of Housing and Urban Development to be used by the homebuyer as its principle place of residence.

The homebuyer would be granted a CFF deferral for five (5) years, with payments of principle and interest to begin in year six (6). Interest will not accrue during the deferral period, and the CFF would be paid over a ten (10)-year period with five percent (5%) interest rate on the unpaid balance. The deferral authorized by this subparagraph may be granted by the City Council on a case-by-case basis after a public hearing. The public hearing shall focus on whether or not the unit to be constructed would be a single-family affordable housing unit. If approved by the City Council, the benefit of the CFF deferral would be transferred to the homebuyer at the time of purchase. The homebuyer would be required to sign a CFF deferral agreement, promissory note, and City trust deed to secure the note, as prepared by the City Attorney. If a resale or refinance should occur within the ten (10)-year period, the full CFF exemption would be due, with no interest thereon.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12<sup>th</sup> day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-528**

**RESOLUTION APPROVING A \$10,000.00 DONATION TO THE UNITED WAY OF STANISLAUS COUNTY FOR THE PURPOSE OF CONDUCTING AN AFTER-SCHOOL AND RELATED PROGRAMS STUDY AND AUTHORIZING THE ACTING CITY MANAGER TO ISSUE THIS DONATION.**

WHEREAS, there are as many as 500 to 1000 after-school and related programs in Stanislaus County that are designed to provide opportunities for children and youth aged 6 to 18, and

WHEREAS, these are programs that operate outside of regular school hours, either before or after school, on weekends or holidays or during breaks between school sessions, and

WHEREAS, these after-school and related programs provide children and youth with educational activities, life enrichment experiences, sports and recreational opportunities, and supports if they have special needs or life challenges, and

WHEREAS, these programs are available throughout the county and are provided by a variety of organizations including schools, government agencies such as park and recreation departments, churches and faith based organizations, and community-based organizations, and

WHEREAS, these programs may be small and localized like a family resource center or provide extensive activities throughout the county such as the YMCA, and

WHEREAS, the inventory will be produced in the form of a database suitable for integration into the existing database maintained by the United Way of Stanislaus County, and

WHEREAS, additionally, a short 5 to 10 page report will be prepared summarizing the detailed inventory, and

WHEREAS, included in this report will be a series of maps and related data of youth aged 6 to 18 in Stanislaus County, and

WHEREAS, these data will provide estimates of the number of children and youth for 2005 and be disaggregated by age group (elementary, middle school and high school ages), race/ethnicity, in-school and not-in-school, and, for high school-aged youth, estimates of the number of youth with jobs, and

WHEREAS, these data will help provide better understandings of need and potential gaps in the provision of after-school and related programs, and

WHEREAS, on September 27, 2004 the Finance Committee met and recommended support for this item,

NOW, THEREFORE, BE IT RESOLVED, that the City Council of Modesto hereby approves the donation of \$10,000.00 to the United Way of Stanislaus County for the purpose of conducting an After-School and Related Programs Study.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to issue the donation to the United Way of Stanislaus County.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12<sup>th</sup> day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

CONSULTANTS, AN MBIA SERVICES COMPANY**

WHEREAS, Municipal Resources Consultants, an MBIA Services Company has submitted an Amendment to their contract between MBIA and City of Modesto, and

WHEREAS, Amendment No. 2 to the MBIA contract allows MBIA to recover revenues otherwise lost to the City of Modesto, paying MBIA 43% of discovery up to \$250,000 per year for fees and services, and

WHEREAS, the Finance Committee met on September 27, 2004, and directed staff to seek City Council approval of the amendment to the contract,

NOW, THEREFORE, BE IT RESOLVED that Amendment No. 2 of the contract between MBIA Municipal Resources Consultants, an MBIA Services Company and the City of Modesto, is hereby approved.

BE IT FURTHER RESOLVED that the Acting City Manager is hereby authorized to execute said Amendment.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12<sup>th</sup> day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 530**

**A RESOLUTION REINSTATING THE POSITION OF FINANCE DIRECTOR  
TO THE FINANCE DEPARTMENT AND AMENDING THE FISCAL YEAR  
2004-2005 BUDGET TO TRANSFER APPROPRIATIONS TO FULLY FUND  
THE POSITION**

WHEREAS, as part of the fiscal year FY04-05 budget reductions, the City Manager eliminated the position and reduced the budget for the Finance Director, and

WHEREAS, the Acting City Manager is recommending that the Finance Director position be reinstated and the Finance Department's budget be increased to fully fund this position,

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Modesto that it hereby approves the reinstatement of the Finance Director position to the Finance Department.

BE IT FURTHER RESOLVED by the City Council of the City of Modesto that it hereby amends the Finance Department's budget by transferring \$146,536 from the General Fund Reserves Account #0100-800-8000-8003 to the Finance Operating Budget Account #0100-120-1201-0181.

BE IT FURTHER RESOLVED that the Finance Director is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12<sup>th</sup> day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 531**

**A RESOLUTION AUTHORIZING THE LEASE PURCHASE OF TWO (2) JOHN DEERE 644J WHEEL LOADERS UNDER THE STATE OF CALIFORNIA, DEPARTMENT OF GENERAL SERVICES, CALIFORNIA MULTIPLE AWARD SCHEDULE (CMAS) CONTRACT FROM NORTRAX WEST OF FRENCH CAMP, CA. FOR A TOTAL ESTIMATED COST OF \$450,982.20, WHICH WILL BE PAID OUT IN FIVE (5) ANNUAL INSTALLMENTS OF \$90,196.44.**

WHEREAS, the Public Works Department-Water Quality Control (WQC) Division have requested the lease purchase of two (2) John Deer 644J wheel loader with preventive maintenance, and

WHEREAS, these units will replace the wheel loaders in operation at the City's Composting Facility that have become unreliable and are costly to keep operational, and

WHEREAS, these units have met their life expectancy and funds are available to begin the lease purchase, and

WHEREAS, the loaders play an important role in the City's composting operations as they are used in almost every aspect of the composting process, and

WHEREAS, on a daily basis, the loaders are used to move large quantities of green waste, load materials into grinders, and place ground-up material into rows to be composted, and

WHEREAS, the current loaders were purchased in 1997 and have been used for over 12,000 hours each, and

WHEREAS, the useful life of this type of loader under normal circumstance is 10,000 hours and even less when operated in extreme or dusty environments, and

WHEREAS, the City's composting site is an extremely dusty and harsh environment that wears very heavily on the equipment, and

WHEREAS, due to the age and wear on the loaders staff has seen an increase in the amount of time the equipment is out of service and in need of repairs, and

WHEREAS, since 2001 over \$230,000 has been spent to repair the loaders which helps increase compost production costs, and

WHEREAS, with the purchase of new loaders it is anticipated that required maintenance costs will decrease and compost productivity will increase, and

WHEREAS, the Purchasing Division and the Public Works Department staff have evaluated lease-purchase quotations based on CMAS pricing for two loaders, with preventive maintenance from Holt of California and Nortrax West, and

WHEREAS, Nortrax West is the lowest responsive and responsible bidder with an estimated total cost of \$450,982.20 for two loaders, with includes preventive maintenance, and

WHEREAS, the pricing received from Nortrax West is based upon the California Multiple Award Schedule (CMAS), General Services Administration, statewide contract pricing, and

WHEREAS, by “piggybacking” off the CMAS contract, the City will be receiving the lowest possible price for the equipment needed, and

WHEREAS, Nortrax West, French Camp, California is the closest authorized dealer for this equipment, and

WHEREAS, the total estimated total cost consists of \$417,633.10 for the lease-purchase of the two loaders, and \$46,724.71 for the preventive maintenance, plus a lease-purchase interest rate of 4.50 percent, and

WHEREAS, the combined annual five (5) installment payments for the lease-purchase and preventive maintenance is \$90,196.44, and

WHEREAS, the Modesto Municipal Code (MMC) generally requires all purchases exceeding \$50,000 for material and equipment of this type to be formally bid, and

WHEREAS, per MMC Section 8-3.204 (d) the Purchasing Supervisor may determine that a processes other than the formal bid procedure set forth in Section 8-3.203 will result in procurement for the City at the lowest possible cost commensurate with the desired quality, and

WHEREAS, by piggybacking off the state CMAS contract, the purchase of this equipment will confirm to MMC Section 8-3204 (d),

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Purchasing Supervisor is hereby authorized to issue a purchase order and contract in the amount of \$450,982.20 for a lease-purchase agreement with Nortrax West for two (2) John Deere 644J wheel loaders, payable in five (5) annual installment payments of \$90,196.44 each.

BE IT FURTHER RESOLVED that the City Manager is hereby authorized to execute the lease-purchase agreement.

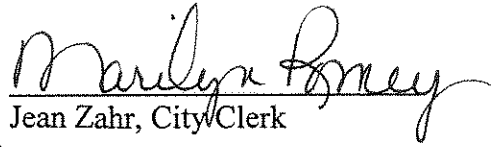

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12<sup>th</sup> day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-533**

**A RESOLUTION AUTHORIZING THE AGENCY-APPROVED CONSULTANT (GARTNER GROUP), TO ISSUE A FORMAL REQUEST FOR PROPOSAL (RFP) FOR INTEGRATED PUBLIC SAFETY SYSTEMS.**

WHEREAS, in December 2003, the Joint Powers Agency (JPA) approved a project not to exceed \$90,000 with Gartner Consulting to select a replacement/upgrade system for our Computer Aided Dispatch System (CAD), and

WHEREAS, this project represented a joint effort between the City and the County, with costs to be shared equally, and

WHEREAS, subsequently City Police and Fire organizations decided to expand the scope of this project to include a fully Integrated Public Safety System that would ensure optimum results for our City of Modesto Public Safety organizations, and

WHEREAS, this project has been under way since May and we are now ready to release an RFP, and

WHEREAS, cost estimates for the CAD & Integrated Public Safety System are approximately \$3-1/2 to 5 million dollars, of which approximately \$3 to 3-1/2 million will be City responsibility, and

WHEREAS, funding sources for the project are yet to be determined, but we are continuing to jointly (City and County) pursue several possible funding sources for the implementation phase of this project, including Local, State, and Federal grants.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the JPA's Consultant, Gartner Group, to issue a formal request for proposal (RFP) for Integrated Public Safety Systems.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12<sup>th</sup> day of October, 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004- 534**

**A RESOLUTION APPROVING AN AMENDMENT TO AN AGREEMENT FOR  
PROFESSIONAL SERVICES WITH INDEPENDENT SOLUTIONS, AND  
AUTHORIZING THE CITY MANAGER TO EXECUTE SAID AMENDMENT**

WHEREAS, on February 23<sup>rd</sup>, 2004, the City of Modesto entered into an Agreement for Professional Services with Independent Solutions, for a not-to-exceed amount of \$480,000, and

WHEREAS, the City has determined that additional services will be needed after the expiration of the original Agreement, and

WHEREAS, all contracts over the amount of \$50,000, are required to be approved by the City Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that an Amendment to Agreement for Professional Services with Independent Solutions in the form attached hereto is hereby approved.

BE IT FURTHER RESOLVED that the City Manager or his designee is hereby authorized to execute said Amendment.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12<sup>th</sup> day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-535**

**ADOPT A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR  
TO FORMALLY SOLICIT REQUEST FOR BIDS (RFB) FOR INET  
EQUIPMENT PURCHASES IN THE APPROXIMATE AMOUNT OF \$150,000.**

WHEREAS, as part of the City of Modesto's franchise agreement with Comcast, Comcast is to develop a citywide fiber INET to be utilized by the City of Modesto and several participating school districts, and.

WHEREAS, the construction of the INET has begun and is scheduled to be completed by the Spring of 2005, and

WHEREAS, the INET will not be functional until the City and its participants are able to acquire and install equipment that will allow communications to flow between facilities connected to the INET, and

WHEREAS, staff anticipates the total costs to "light up" the INET to be approximately \$800,000 to \$1,200,000 (depending upon which INET capabilities we choose to take advantage of), and

WHEREAS, during FY03/04 staff encumbered a portion of the total project cost in anticipation of purchasing several of the necessary pieces of equipment, specifically the Modesto Fire Department (MFD) encumbered \$150,000 in funding for the purchase of INET equipment, and

WHEREAS, The Modesto Municipal Code generally requires all purchases exceeding \$50,000 for material and equipment of this type to be formally bid. This request for authorization to formally solicit bids for INET equipment conforms to code, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves for the City Clerk to advertise the call for bids.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that it hereby approves The Purchasing Division, along with representatives from the Information Technology Department to evaluate the bids and then present a request for award to the City Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12<sup>th</sup> day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**A RESOLUTION AUTHORIZING THE PARKS, RECREATION AND NEIGHBORHOODS DEPARTMENT TO APPLY FOR GRANT FUNDS FOR THE PER CAPITA GRANT PROGRAM UNDER THE CALIFORNIA CLEAN WATER, CLEAN AIR, SAFE NEIGHBORHOOD PARKS, AND COASTAL PROTECTION ACT OF 2002 (PROPOSITION 40) AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE ALL GRANT-RELATED DOCUMENTS.**

WHEREAS, the people of the State of California have enacted the Per Capita Grant Program which provides funds for the acquisition and development of neighborhood, community, and regional parks and recreation lands and facilities, and

WHEREAS, the California Department of Parks and Recreation has been delegated the responsibility for the administration of the grant program, setting up necessary procedures, and

WHEREAS, said procedures established by the California Department of Parks and Recreation require the Applicant's Governing Body to certify by resolution the approval of the Applicant to apply for the Per Capita Allocation, and

WHEREAS, the Applicant will enter into a Contract with the State of California, and

WHEREAS, the City of Modesto's share of the Per Capita funds is \$873,000, which the City now desires to encumber,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the filing of an Application for local assistance funds from the Per Capita Grant Program under the California Clean Water, Clean Air, Safe Neighborhood Parks, and Coastal Protection Act of 2002.

BE IT FURTHER RESOLVED that the Council certifies that the City of Modesto has or will have sufficient funds to operate and maintain the Project.

BE IT FURTHER RESOLVED that the Council certifies that the City of Modesto has reviewed, understands and agrees to the General Provisions contained in the Contract shown in the Procedural Guide.

BE IT FURTHER RESOLVED that the Council appoints the City Manager, or his designee, as agent to conduct all negotiations, execute and submit all documents including, but not limited to Applications, agreements, payment requests and so on, which may be necessary for the completion of Project(s).

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12<sup>th</sup> day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-537**

**A RESOLUTION DIRECTING STAFF TO INSTALL THE SKYLOGIX SYSTEM AT DOWNEY PARK TENNIS COURTS, AUTHORIZING STAFF TO PURSUE THE SKYLOGIX SYSTEM FOR TENNIS COURT LIGHTING AT ALL LIGHTED TENNIS COURTS AT CITY PARKS, AND AUTHORIZING STAFF TO TURN ON LIGHTING AT DOWNEY COMMUNITY PARK WHILE THE SKYLOGIX SYSTEM IS BEING INSTALLED AT DOWNEY PARK.**

WHEREAS, due to the budget challenges facing the City of Modesto and the State of California in general, during the past fiscal year's budget meetings, the Modesto City Council made the decision, based on staff recommendation, to turn the lights off at all tennis courts in the Parks System, and

WHEREAS, City staff has received a few complaints from citizens and organizations that are interested in getting the lights turned back on, and

WHEREAS, in response to those complaints and the City Council request that staff return with recommendations, three options were studied for recovering costs from users for the lighting, in order to turn them back on, and

WHEREAS, staff believes that the SkyLogix System would be the most feasible option to pursue and would allow for the most flexibility and closest control of the use of the facility, allowing for the best control of cost recovery, and

WHEREAS, the Finance Committee met on October 4, 2004, and supported the recommendation to turn the lights back on at the tennis courts at Downey Park and to pursue lighting systems, and

WHEREAS, the Finance Committee further recommended that the SkyLogix system be installed at the tennis courts at Downey Park as a test site,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby directs staff to install the SkyLogix system at Downey Park tennis courts.

BE IT FURTHER RESOLVED that the Council authorizes staff to pursue the SkyLogix system for tennis court lighting at all lighted tennis courts at City Parks.

BE IT FURTHER RESOLVED that the Council authorizes staff to turn on lighting at Downey Community Park while the SkyLogix system is being installed at Downey Park.

WHEREAS, due to the budget challenges facing the City of Modesto and the State of California in general, during the past fiscal year's budget meetings, the Modesto City Council made the decision, based on staff recommendation, to turn the lights off at all tennis courts in the Parks System, and

WHEREAS, staff now desires to install a lighting system that will allow for recovery of costs, and

WHEREAS, staff is recommending the SkyLogix system, with an approximate cost of \$7,100 per site, and

WHEREAS, the Safety and Communities Committee met on October 4, 2004, and recommended that this system be installed at the tennis courts at Downey Community Park as a test site,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby amends the Capital Improvement Program, establishing a Park Fund operating account, Tennis Court Lighting Systems, and transferring \$8,000 from the Park Fund Reserve 1400-800-8000-8003 to this project.

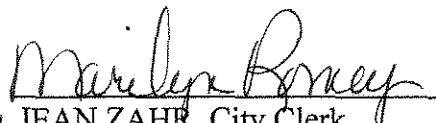

BE IT FURTHER RESOLVED that the Finance Director, or her designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

RESOLUTION NO. 2004- 539**

**RESOLUTION APPROVING AND ADOPTING THE WATER SUPPLY ASSESSMENT (WSA) PREPARED FOR THE PROPOSED PROMENADE DEVELOPMENT (PROJECT), LOCATED ON DALE ROAD BETWEEN SNYDER AVENUE AND VENEMAN AVENUE, WHICH HAS DETERMINED THAT AN ASSURED WATER SUPPLY FOR THE PROJECT CAN BE MADE ON THE CONDITION AT LEAST ONE OF THE PLANNED NEW WELLS BEING DEVELOPED IN THE VICINITY OF THE PROJECT IS IN PRODUCTION BY THE COMPLETION OF THE PROJECT**

WHEREAS, Senate Bill 610 (SB 610) requires water suppliers to conduct Water Supply Assessment (WSA) studies for projects meeting the legislative criteria to determine if a sufficient water supply is available to meet the demands of the project, and requires the governing legislative body to approve and adopt such assessments, and

WHEREAS, the City of Modesto received a request to conduct a WSA for the proposed approval of the Promenade development (“Project”), and

WHEREAS, Public Works staff completed a WSA for the Project, and

WHEREAS, a determination was made that an assured water supply for the project can be made on the condition that at least one of the planned new wells being developed in the vicinity of the Project is in production by the completion of the Project, located on Dale Road between Snyder Avenue and Veneman Avenue,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Water Supply Assessment for the proposed Promenade development is hereby approved and adopted.

BE IT FURTHER RESOLVED that an adequate water supply is available to meet the demands of the proposed Promenade development, and that the WSA for the

proposed Promenade development provides substantial evidence to support this determination.

**T-HANGAR USE POLICY**  
**MODESTO CITY – COUNTY AIRPORT**

**Adopted by the Modesto City Council on October 12, 2004,  
Resolution No. 2004 -540**

Scope: This policy covers the procedures required of general aviation aircraft tenants or prospective tenants in the use of T-hangars at the Modesto City – County Airport.

Purpose: It is the intent of the City of Modesto to manage the use of T-hangars at the Modesto City – County Airport in a consistent, reasonable and responsible manner, and in accordance with applicable sections of the Modesto Municipal Code. This Policy is intended to provide the Airport Manager and T-hangar tenants alike with guidelines that all parties can follow to assure proper leasing and use of T- hangars at the Airport. It is not the intent of this policy to make provisions that are contrary to the Municipal Code, and in the event that there is a discrepancy or conflict between the two, the Municipal Code shall govern.

Location: The location of the T-hangars is on the southwest, or general aviation side of the Airport. Exhibit A, attached as a part of this policy, identifies the T-hangar rows (existing and future) to which this policy applies.

Policy Statements:

- The leasing of T-hangars shall be in accordance with the Modesto Municipal Code and the Aircraft Hangar Waiting List Policy adopted by the Modesto City Council in January 1990, Resolution 90-49.
- Aircraft owners wishing to lease a T-hangar at the Modesto City-County Airport shall execute a Lease Agreement in a form provided by the City of Modesto and shall abide at all times by the terms and provisions of the Lease Agreement.
- It is the intent of the City of Modesto that those leasing a T-hangar at the Airport will use the T-hangar for aircraft purposes only, except with written consent of the City to do otherwise. To that end, the following provisions further define appropriate use of a T-hangar.
  1. Pursuant to the Lease Agreement, an aircraft must be stored in the hangar. The storage of vehicles, boats, furniture, construction materials, machinery, household goods etc. only, or in lieu of an aircraft is not permitted.
  2. Aircraft parts only, i.e., fuselages, wing sections, engines etc. do not qualify as an aircraft unless reasonable and verifiable progress is made to restore the aircraft, or complete a home-built aircraft. Reasonable progress is further defined as active and consistent work on assembling the aircraft with the intent of restoring it to full flight status within one (1) year. If the aircraft being worked on is a homebuilt kit, the construction of the aircraft must be complete within one (1) year of its original purchase.

The tenant is responsible to provide evidence substantiating reasonable progress to the Airport Manager. Extensions of these time provisions may be requested of the Airport Manager, with an explanation for cause. The Airport Manager shall consider the explanation provided and either grant or deny the time extension requested. Restoration or construction of aircraft as herein described is subject to annual inspection by the Airport Manager. Failure to meet these deadlines will be deemed unacceptable and grounds for the termination of the Lease Agreement. It is not the intent of this policy to allow storage of aircraft in T-hangars, unless they are being actively worked on to restore them to flying condition within a reasonable amount of time. It is the intent of this policy to have T-hangars occupied with fully functioning aircraft to the extent possible.

3. The aircraft in the T-hangar must be owned (fully or partially) by the tenant who signed the hangar Lease Agreement. The tenant can also lease an aircraft for exclusive use. Aircraft 'N' number(s) will be compared with the owner's name(s) and the certificate of insurance to verify proper tenancy. If an aircraft was recently acquired and does not show on the FAA aircraft registration database, the tenant should provide a copy of the Aircraft Registration Application (FAA Form 8050-1). If the aircraft is leased, the insurance must show the tenant as the policyholder, and the owner as an additional insured.
4. Structures and/or lofts constructed inside a T-hangar. Permission for construction of such facilities requires the prior approval of the Airport Manager. The construction of these kinds of facilities will be done under the auspices of the City's Building Inspection Department, with an associated Building Permit obtained and displayed during construction.
5. T-hangars will be subject to a triennial inspection by the City of Modesto Fire Marshal and by Airport Maintenance and Operation staff for the purpose of determining compliance with applicable provisions of the Modesto Municipal Code, Fire Code and T-Hangar Lease Agreement.
6. Installation of additional wiring for lighting and equipment needs to be done in conformance with all applicable Building and Fire Codes. Permission for the use of extension cords must be obtained from the Modesto Fire Department prior to implementation. Extension cords may not be used in lieu of permanent wiring. Any extension cord that is permitted for use must be unplugged when you leave the hangar.
7. Heaters of any type are not permitted in the hangars unless they are first inspected and approved for use by the Fire Department.
8. Storage in the T-hangar should be neat and minimal. Unobstructed fire or emergency access to the rear of the hangar must be provided.
9. The storage, use, or handling of flammable/combustible liquids is prohibited inside of T-hangars unless approved by the Fire Marshal in accordance with the California Fire Code.

10. No objects may be hung from or attached to the supporting members of the T-hangar without the prior approval of the Airport Manager.

- It is the intent of this policy to provide for a safe environment in which aircraft can be housed at the Modesto City – County Airport. If either the Airport Manager or Fire Marshal determines that an unsafe situation is present in the T-hangar, the tenant shall immediately correct that situation in consultation with the Airport Manager or the Fire Marshal. Failure to comply with the directives of either individual will be grounds for terminating the hangar Lease Agreement. The tenant may appeal the determination rendered, but only after correcting the situation as directed by the Fire Marshal or Airport Manager.

Deviations:

It is recognized that not every situation, which someone may encounter in the lease of a T-hangar, can reasonably be covered by this policy. In the case where a tenant wants to deviate from this policy, or perform an activity not covered by this policy, prior approval shall be obtained from the Airport Manager or Fire Marshal, as the situation may dictate.

Appeals Process:

In the case where a T-hangar tenant does not agree with a determination made by either the Fire Marshal or the Airport Manager, the tenant shall have the right to an appeal. If the appeal is in regards to an issue from the Fire Marshal, the tenant shall follow appeal procedures as established by the Modesto Fire Department. If the appeal is in regard to an issue from the Airport Manager, the tenant shall present their information to the Engineering and Transportation Director, who shall render a decision either supporting or denying the appeal. If the tenant is still not satisfied with the decision rendered, either by the Fire Department or by the Engineering and Transportation Director, then the tenant may invoke the appeal process as outlined in the Modesto Municipal Code, Sections 1-4.01 through 1-4.05.

**We truly appreciate your continued cooperation and attention to the items listed above. As a result, your help will provide safe hangar facilities, and support a fair and enjoyable tenant/landlord relationship, which is to everyone's best interest.**

**Approved by the Airport Advisory Committee on May 19, 2004.**

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 541**

**A RESOLUTION AMENDING THE FISCAL YEAR 2004-2005 CAPITAL  
IMPROVEMENT PROGRAM BUDGET TO REAPPROPRIATE NEW AND  
EXISTING PROJECTS AND RECOGNIZE ADDITIONAL REVENUE FOR  
FY2004-05**

WHEREAS, a financial analysis has been completed and it has been determined that certain adjustments are required to the Capital Improvement Budget of the City of Modesto for the Fiscal Year 2004-2005, and

WHEREAS, specific projects have unspent budgets as of July 1, 2004 which need to be reallocated into FY2004-05, and

WHEREAS, additional revenues for Fiscal Year 2004-05 have been identified,

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Modesto that existing projects and new projects which are referenced in the Proposed 2004-2005 Capital Improvement Program and under the CIP Budget by Fund section of the budget document hereby be reappropriated into the FY2004-05 budget.

BE IT FURTHER RESOLVED by the City Council of the City of Modesto that additional revenues, which are referenced in the Proposed 2004-2005 Capital Improvement Program and under the Revenues by Source and Project section of the budget document, hereby recognized.

BE IT FURTHER RESOLVED that the Finance Director is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12<sup>th</sup> day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following votes:

AYES: Councilmembers: Dunbar, Jackman, Hawn, Keating, Marsh, O'Bryant,  
Mayor Ridenour

NOES: Councilmembers: None

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 542**

**RESOLUTION FINDING THAT A SHELTER CRISIS EXISTS WITHIN THE CITY OF MODESTO, DECLARING A SHELTER EMERGENCY AS AUTHORIZED BY THE CALIFORNIA GOVERNMENT CODE, AND AUTHORIZING THE CITY MANAGER OR DESIGNEE TO TAKE ACTIONS NECESSARY TO MITIGATE THE EFFECTS OF THE SHELTER CRISIS.**

WHEREAS, there are estimated to be between 7,200 and as many as 11,000 homeless citizens in Stanislaus County, and

WHEREAS, more than an estimated 3,450 citizens are homeless in and about the City of Modesto, and

WHEREAS, all emergency shelters serving Modesto are full and unable to provide overnight shelter, and

WHEREAS, the California Legislature has determined that “A fundamental purpose of government is to protect the health and safety of persons within its jurisdiction,” and

WHEREAS, the California Legislature has determined that “Homelessness is a state which results in a direct threat to the health and safety of its victims, many of who have died, particularly during severe weather conditions, as a result of this state of homelessness,” and

WHEREAS, the months of January, February and March are historically among the coldest and most inclement months of the year in the San Joaquin Valley, and

WHEREAS, the Council of the City of Modesto finds that there is a significant number of persons who are without the ability to obtain shelter in Modesto, resulting in a threat to their health and safety, and

WHEREAS, on January 6, 2004, the City Council, by Resolution No. 2004-020, declared that a shelter crisis existed within the City of Modesto, and declared a Shelter Emergency as authorized in the California Government Code, and

WHEREAS, after the declaration of the Shelter Emergency crisis in Modesto, the Salvation Army opened a winter shelter and provided shelter to 426 unduplicated individuals and the Community Housing and Shelter Services provided motel vouchers to 239 unduplicated families and individuals, and

WHEREAS, \$1,500 from the General Fund should be allocated to the Salvation Army to assist with the operation of the winter shelter, and

WHEREAS, in kind services provided by the City to the Salvation Army Winter Shelter will include exterior, non-structural maintenance, graffiti abatement, weed control and debris and litter collection, and

WHEREAS, a 3 yard-bin and weekly services will be provided by Waste Management free of charge until April 30, 2005,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. That a Shelter Crisis, as that term is defined in Section 8698 of the California Government Code (“Code”), is hereby proclaimed to exist in the City of Modesto.
2. That during the term of the Shelter Crisis proclaimed by this resolution, the provisions of any state or local regulatory statute, regulation, or ordinance prescribing standards of housing, health, or safety shall be suspended to the extent that strict compliance would in any way prevent, hinder, or delay the mitigation of the effects of the Shelter Crisis.

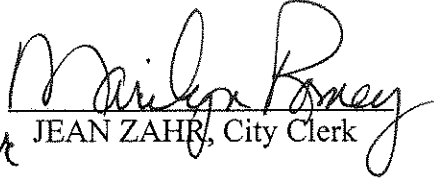

3. That during the term of the Shelter Crisis, the Acting City Manager, or his designee, is hereby authorized to take any action that he or she deems necessary in his or her sole discretion to assist in the mitigation of the Shelter Crisis proclaimed by this resolution for the purpose of providing emergency housing in any Public Facility, as that term is defined in Code Section 8698, provided the Public Facility is located in a C-M, M-1, or M-2 zone and further provided that the Public Facility is greater than 500 feet from any single-family residence.
4. That during the term of the Shelter Crisis proclaimed by this resolution, the Acting City Manager, or his designee, shall, despite the suspension of any state or local regulatory statute, regulation, or ordinance prescribing standards of housing, health, or safety as set forth in paragraph 2, require such conditions as he or she deems necessary to ensure minimal public health and safety with respect to any Public Facilities open to the homeless during the term of the Shelter Crisis.
5. That the Acting City Manager, or his designee, is authorized to execute one or more agreements with any not-for-profit entity which is now, or proposes in the future, to operate a Public Facility open to the homeless during the term of the Shelter Crisis proclaimed by this resolution.
6. That \$1,500 from the General Fund will be allocated to The Salvation Army to assist with operational costs of the winter shelter, and in kind services will be provided by the City to the Salvation Army Winter Shelter, including exterior, non-structural maintenance, graffiti abatement, weed control, debris and litter collection, a 3 yard-bin and waste management weekly services until April 30, 2005.
7. That on or before May 24, 2005, the Acting City Manager, or his designee, shall provide a report to the Council describing any and all actions taken by him or her pursuant to the authority conferred by this resolution.
8. That the Shelter Crisis proclaimed by this resolution shall terminate on April 30, 2005, unless earlier terminated or extended by a subsequent resolution of the Modesto City Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of October, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-543**

**A RESOLUTION APPROVING THE PROPOSAL BY DAN MACHADO TO REPAIR, REBUILD AND INSTALL THE ROGERS DRINKING FOUNTAIN IN A NEW PLAZA IN THE TRIANGLE PARCEL OF CITY LAND AT THE INTERSECTIONS OF L STREET, 14<sup>TH</sup> STREET AND NEEDHAM AVENUE USING DONATIONS AND PRIVATE FUNDS, AND DIRECTING STAFF FROM THE PARKS, RECREATION AND NEIGHBORHOODS DEPARTMENT TO WORK WITH MR. MACHADO TO BRING THIS PROJECT TO FRUITION.**

WHEREAS, City of Modesto staff has been contacted by Dan Machado, a local Landscape Architect, with a plan of rebuilding the Rogers Drinking Fountain to its original grandeur and installing it in a new plaza on the parcel of City land bordered by L Street, 14<sup>th</sup> Street and Needham Avenue, and

WHEREAS, the Rogers Drinking Fountain, a donation to the City from Mrs. Caroline Rogers DeYoe, is a piece of Modesto's history, and

WHEREAS, Mr. Machado is interested in forming a group to rebuild the fountain and then install it in a new plaza on the triangle of land across the street from Graceada Park using donations and private funds, and

WHEREAS, the Safety and Communities Committee met on October 4, 2004, and supported the recommendation to restore the fountain and install it across from Graceada Park,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the proposal by Dan Machado to repair, rebuild and install the Rogers Drinking Fountain in a new plaza in the triangle parcel of City land at the intersections of L Street, 14<sup>th</sup> Street and Needham Avenue using donations and private funds.

BE IT FURTHER RESOLVED that the Council directs staff from the Parks, Recreation and Neighborhoods Department to work with Mr. Machado to bring this project to fruition.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26<sup>th</sup> day of October, 2004, by Councilmember O'Bryant, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-544**

**A RESOLUTION APPROVING THE 2004-2005 LEGISLATIVE PLATFORM  
FOR THE CITY OF MODESTO.**

WHEREAS, the City Manager's Office is tasked with maintaining a legislative program to provide Council with a more proactive approach for influencing policy and other governmental entities, and

WHEREAS, the key component of this approach is development of a legislative platform that contains policy statements adopted by Council on an annual basis, based on the "Strategic Plan", and

WHEREAS, in addition to providing a proactive approach to policy, the platform allows the City's position on bills to be expressed without the need for Council action on individual legislative measures, and

WHEREAS, historically, the City of Modesto's City Council has adopted an annual legislative platform to assist City staff and lobbyists in their work with federal and state legislatures, and

WHEREAS, the platform items were coordinated with the City Manager's Office, the Community and Economic Development Department, the Personnel Department, the City Attorney's Office, the Fire Department, the Police Department, the Finance Department, the Parks, Recreation & Neighborhoods Department, and Public Works, and

WHEREAS, on August 11, 2004 the Finance Committee considered this item and recommended approval by the full Council, and

WHEREAS, on September 8, 2004 the Safety and Communities Committee considered this item and recommended approval by the full Council, and

WHEREAS, on September 13, 2004 the Economic Development Committee considered this item and forwarded this item to full Council with suggested language changes to the General Goals section of the document,

NOW, THEREFORE, BE IT RESOLVED, that the City Council of Modesto hereby approves the 2004-2005 Legislative Platform.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of October, 2004, by Councilmember Dunbar, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

# City of Modesto Legislative Platform

*Modesto: A healthy, safe, attractive, economically vibrant, socially diverse and culturally rich city with a strong sense of identity and pride, a community engaged in the practice of citizenship with governance based on the principle of stewardship.*

# General Goals

The Modesto City Council and employees are committed to our Vision of:

*Modesto: A healthy, safe, attractive, economically vibrant, socially diverse and culturally rich city with a strong sense of identity and pride, a community engaged in the practice of citizenship with governance based on the principle of stewardship.*

The City's Legislative Platform reflects the City's Vision and Council's goals, as outlined in the *Strategic Plan*.

In ~~2002~~2004, the City Council will, as a top priority, support legislation that supports and finances public safety as well as facilitates and encourages attractive economic development, including infrastructure funding. The Council will support measures that retain local control over land use and annexation decisions. The Council will also oppose measures limiting the annexation and growth potential of the City but strive to preserve open space, farmland, natural beauty, historic buildings, and critical environmental areas. ~~and oppose measures that limit the annexation and growth potential of the City.~~

At the same time, Council will continue to support legislation that brings health and safety funding to the City. The Council endorses the continuance of technology and other funding for public safety. Council also supports local authority to determine which ambulance companies operate in our jurisdiction.

As in past years, the Council will continue to oppose measures imposed by the state or federal government that serve as

unfunded mandates or which threaten local control. Council will also support measures that bring increased federal and state funding to the City for projects that support the City's Vision and *Strategic Plan*.

This platform was prepared by the following City Council Committees: Finance Committee, Economic Development Committee and Health and Safety Committee. It forms the cornerstone of Council's policy direction and provides a proactive approach to influencing policy and other governmental entities.

## **Preamble**

Whereas, the City of Modesto's legislative agenda is to promote the general welfare for citizens of California and specifically improve the quality of life for residents of Modesto, it shall be the policy of the Modesto City Council to: Support legislation that protects individual rights and to oppose legislation that infringes, denies, or restricts individual rights established in the Constitution of the United States and its amendments and the Constitution of the State of California.

# City of Modesto

## 2002-20032004-2005 Legislative Platform

<b>1. Housing and Neighborhoods</b>	
<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
<p>V.A.3. Create housing opportunities and choices for a range of household types, family sizes and incomes.</p> <p>H.II.C.1. Increase opportunities for home ownership.</p>	<p><b>Issue: 1.1.</b> Community Development Block Grant (CDBG) program funding, Federal Low Income Housing Tax program funding, and HOME Investment Partnership program funding target the affordable housing production needs of the local community, which would be difficult to address without the continued support of focused Federal housing program dollars. Loss of these program funds would eliminate or reduce qualified activities and/or areas qualifying for assistance.</p> <p><b>Action: 1.1.</b> Support continued funding of the CDBG program as provided by the U.S. Department of Housing and Urban Development. Support continued funding of the Federal Low Income Housing Tax program. Support continued funding of the HOME Investment Partnership program. Oppose changes to, or defunding of, the CDBG program, Low Income Housing Tax program, or HOME program.</p>
<p>H.IV.A.6. Resolve issues and identify a site for a Day Center for Homeless individuals.</p>	<p><b>Issue: 1.2.</b> As pressures increase on local housing supply and costs, the issue of potential homelessness should be addressed proactively rather than reactively, before significant problems arise locally.</p> <p><b>Action: 1.2</b> Support continued funding for programs such as the Emergency Shelter Grant fund programs and McKinney Homeless Act fund program to address the problem of homelessness.</p>

**City of Modesto  
2004-2005 Legislative Platform**

<b>1. Housing and Neighborhoods</b>	
<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
<p>V.A.2. Promote compact building design.</p> <p>V.A.3. Create housing opportunities and choices for a range of household types, family sizes and incomes.</p>	<p><b>Issue: 1.3.</b> Affordable housing production for low-income persons is often made more difficult as a result of political interest groups who advance a Not-In-My-Backyard (NIMBY) philosophy.</p>
	<p><b>Action: 1.3.</b> Support development of state programs that would fund tax incentives to neighboring property owners in order to encourage neighborhood development of affordable housing. Support funding to provide incentives to residential developers who elect to include a fixed percentage of affordable housing within each subdivision development permit.</p>
<p>IX.D. Promote high density housing in the downtown core.</p>	<p><b>Issue: 1.4.</b> Bringing high density housing back downtown will diversify housing stock available within the City, will not contribute to urban sprawl and degradation of agricultural lands, and will stimulate the continued revitalization of the downtown area by creating a mixed-use environment with both peak and off-peak hours usage.</p>
	<p><b>Action: 1.4.</b> Support development of state and federal funding sources to provide financing for high density housing projects in core downtown areas. Support legislation that would create incentives to developers who create high density housing in core downtown areas.</p>
<p>V.A.3. Create housing opportunities and choices for a range of household types, family sizes and incomes.</p> <p>V.A.3.b. Increase multi-family residential and affordable housing inventory.</p>	<p><b>Issue: 1.5.</b> As the price of housing increases, fewer residents can afford to buy houses and the inventory of available multi-family housing diminishes. An adequate housing inventory to meet the City's varied and diverse housing needs is critical.</p>
	<p><b>Action: 1.5.</b> Support development of state and federal funding sources to provide incentives to encourage construction of multi-family housing.</p>

**City of Modesto  
2004-2005 Legislative Platform**

<b>2. Land Use and Planning</b>	
<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
<p>V.A.6. Preserve open space, farmland, natural beauty, historic buildings, and critical environmental areas.</p> <p>V.A.7. Reinvest in and strengthen existing communities and achieve more balanced regional development.</p>	<p><b>Issue: 2.1</b> Sustaining California's economy and environment in a way that ensures quality-of-life for all residents requires innovative thinking and a balanced, integrated, and inclusive approach. A statewide Growth Management Policy should be considered.</p> <p><b>Action: 2.1</b> Encourage the State Legislature to adopt a statewide policy for growth management.</p>
<p>I.B.1.b. Form regional partnerships for water and wastewater development.</p> <p>I.B.1.b.(1) Assemble water and wastewater Task Forces with area agencies and seek funding/buy-in from governing bodies.</p>	<p><b>Issue: 2.2.</b> Unrestrained and/or inadequately planned-for urban growth will stretch current water resources to the limit in the not-too-distant future. Finite water resources will soon play a much larger role in land use planning. It is imperative that local government entities and regional government entities work together to ensure we will have adequate water resources for our future.</p> <p><b>Action: 2.2.</b> Support federal and state funding targeted towards regional and inter-regional water resource planning efforts and related land use planning.</p>
<p>III.A.2. Incorporate Smart Growth principles as part of transportation planning.</p>	<p><b>Issue: 2.3.</b> New demographic and economic realities pose challenges and opportunities for more efficiently linked land use and transportation strategies. When planned in concert with other regional strategies, transportation infrastructure can be used to channel growth in a more efficient and environmentally sensitive manner.</p> <p><b>Action: 2.4.</b> Support a statewide study to strengthen the linkages between regional transportation planning and land use planning that seeks recommendations from local governments.</p>
<p>V.B.1. Achieve an equitable jobs-housing balance and avoid fiscal strains of leapfrog development.</p> <p>X.A.2.c.(2). Attract new industries that are "commuter employers".</p>	<p><b>Issue: 2.5.</b> The Central Valley has an imbalance in the ratio of jobs available compared with increasing residential growth. This jobs-housing imbalance exerts pressure on both transportation infrastructure, as local residents must commute outside of the local area to find employment, and upon air quality.</p> <p><b>Action: 2.5.</b> Support federal and state funding targeted towards correcting the imbalance in jobs available compared with residential growth locally and in the Central Valley.</p>

**City of Modesto  
2004-2005 Legislative Platform**

<b>2. Land Use and Planning</b>	
<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
III.B.2. Address transportation funding issues.	<b>Issue: 2.6.</b> Increasing demands for local residential housing production place a heavy burden on existing transportation infrastructure.
	<b>Action: 2.6.</b> Support development of state programs that would provide funding for construction of new transportation infrastructure and upgrades within communities experiencing explosive residential growth.
V.A.8. Make development decisions predictable, fair and cost-effective. VII.A. Seek external funding sources to improve revenue stream.	<b>Issue: 2.7.</b> Local governments often plan and approve land uses that compete with other jurisdictions (1) in order to increase tax revenues to meet growing demands for social and other municipal services, and (2) because of unreliable alternative sources of funding.
	<b>Action: 2.7.</b> Support changes in state legislation to provide local government with a stable revenue base in order to reduce the fiscalization of local land use policies.
VI.A.1. Develop an equitable distribution of revenues in a mutually beneficial binding agreement.	<b>Issue: 2.8.</b> Local jurisdictions are in the best position to judge appropriate land uses within their own spheres of influence (SOI). Development that occurs within a city's SOI prior to annexation, without approval from the city, often results in a conflict with the city's General Plan and/or zoning standards upon annexation. The development of commercial and/or industrial uses within a city's SOI can also result in the inadequate distribution sales tax revenues.
	<b>Action: 2.8.</b> Support legislation which would prohibit the issuance of building permits or land use approval in a city's sphere of influence without an agreement between the city and the county.
V.A.6. Preserve open space, farmland, natural beauty, historic buildings, and critical environmental areas. V.A.7. Reinvest in and strengthen existing communities and achieve more balanced regional development. V.A.7.a. Upgrade infrastructure and target infill areas for development.	<b>Issue: 2.9.</b> To preserve agriculture and reduce urban sprawl, residential growth should be directed to the incorporated areas within each county.
	<b>Action: 2.9.</b> Support legislation that would allow a city to control any increase in the intensity of land use within a city's general plan area. Support legislation that would grant LAFCO the jurisdiction over new development in unincorporated areas of county.

**City of Modesto  
2004-2005 Legislative Platform**

<b>3. Finances</b>	
<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
VII.A.1. Proactively seek state and federal funding for local projects.	<b>Issue: 3.1.</b> Timely and accurate receipt of revenues and grants from the county, state and federal agencies protects the financial stability of and revenue projections for municipalities.
	<b>Action: 3.1.a.</b> Support efforts that would provide greater accountability on the part of counties, state and federal agencies for the distribution of funds to municipalities, including but not limited to fines and forfeitures.
	<b>Action: 3.1.b.</b> Support legislation to improve collection capabilities for cities and counties.
	<b>Issue: 3.2.</b> State law authorizes counties to charge property tax administration fees. These fees reduce revenues for cities.
	<b>Action: 3.2.</b> Support the repeal or reimbursement of property tax administration collection fees.
	<b>Issue: 3.3.</b> In the recession of the early 1990s, the state of California reduced property tax distributions to cities and counties. To make up for part of the shortfall, counties passed along costs to cities. Some counties, including Stanislaus County, charged cities booking fees for prisoners placed in county jail facilities. These additional fees were difficult for cities to afford. In addition, these fees are unfair, as residents of cities are charged for booking services, while residents of unincorporated areas are not.
	<b>Action: 3.3.</b> Support legislation to increase reimbursement and funding necessary for the management and booking of prisoners.
	<b>Issue: 3.4.</b> Local governments pay millions of dollars annually to support the Public Employees' Retirement System (PERS). This fund should not serve as a slush fund for state government and the policies which govern distribution should be determined by the agencies which pay into the fund, not by the state.
	<b>Action: 3.4.</b> Oppose legislation or actions by the Public Employees' Retirement System (PERS) Board which change PERS programs to benefit the state at the financial expense of local agencies.

**City of Modesto  
2004-2005 Legislative Platform**

**3. Finances**

<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
VII.A.2. Reevaluate sales tax agreement with County to increase revenue base.	<b>Issue: 3.5.</b> Local agency control over policy and resource decisions is vital so that citizens may have an active voice in local government and local agencies can serve as stewards of public resources.
	<b>Action: 3.5.a.</b> Oppose any further shift that would make local agencies more dependent on the state for financial stability and policy direction.
	<b>Action: 3.5.b.</b> Oppose the shift of any city taxes or fees to any other jurisdiction.
	<b>Issue: 3.6.</b> Unfunded mandates by the state and federal government add to local costs and can impact our ability to perform essential government services.
	<b>Action: 3.6.</b> Oppose state and federal programs [unfunded mandates] unless funding is provided to support these programs.
	<b>Issue: 3.7.</b> Local governments rely upon fees, taxes and other revenue sources for fiscal solvency.
	<b>Action: 3.7.</b> Oppose any change in tax allocations or limitations/restrictions on local control which would negatively effect local government, including potential loss of franchise fees due to Federal efforts to deregulate the utility industry.
	<b>Issue: 3.8.</b> Annexations and tax sharing agreements are matters of local interest and authority and are best addressed at the local level.
	<b>Action: 3.8.</b> Oppose any requirement that there be a mutual agreement for cities and counties for tax distribution for all annexation proposals.

<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
	<b>Issue: 3.9.</b> Over the course of the past 25 years, voter initiatives and state and federal government programs and policies have limited the financial ability of local governments to provide city services. Sales tax has replaced property tax as the primary revenue source for most local agencies.
	<b>Action: 3.9.</b> Support comprehensive long-term reform efforts to return to local governments their historical discretionary use of local revenues. Such efforts would include amending or permanently ameliorating the impacts of ERAF, property tax shifts and unfunded mandates.

**City of Modesto  
2004-2005 Legislative Platform**

**4. Fire and Emergency Response**

<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
	<p><b>Issue: 4.1.</b> Many older essential building (police and fire stations, hospitals) in California may not survive serious earthquakes because they do not meet necessary construction standards. Local agencies do not have the funding needed to retrofit these buildings. Modesto Fire Station 1 is an example.</p> <p><b>Action: 4.1.</b> Support legislation providing cities and counties with state funding for retrofitting essential buildings (e.g. hospitals, fire, and police) to current earthquake building standards.</p>
<p>H.III.A. Improve levels of emergency response.</p> <p>H.IV.A. Improve community access to health services.</p>	<p><b>Issue: 4.2.</b> During the past 30 years cities have assumed a large role in delivering emergency medical services. In many cases citizens and cities could benefit from public/private partnerships or public delivery systems. However, in most cases counties have the authority and responsibility to determine how emergency medical services are provided and which ambulance companies operate in cities.</p> <p><b>Action: 4.2.</b> Support legislation granting cities the right to determine which ambulance companies operate within their jurisdiction.</p>

<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
	<p><b>Issue: 4.3.</b> Funding enhancements and improvements to public safety systems is difficult for local providers because of the competing demands for the resources that are available. The Federal FIRE act and AB 1022 (Pacheco) are two fire/emergency service examples of pending legislation.</p> <p><b>Action: 4.3.</b> Support legislation that will increase funding for public safety including public safety technology improvements.</p>
<p>H.II.K.1.a. Expand the use of Automatic Fire Sprinklers and other prevention technology.</p>	<p><b>Issue: 4.4.</b> Design and construction standards for schools is a responsibility of the State. Many new schools are being built that do not have automatic fire sprinkler systems. Automatic fire sprinklers are an effective way to reduce fire losses and enhance the safety of students. SB 575 (O'Connell) is a current bill that would require sprinklers. This bill is identical to AB 2115 (Lempert, 2000) that was vetoed by the Governor last year.</p> <p><b>Action: 4.4.</b> Support legislation that requires automatic fire sprinklers in all new schools.</p>

2004-2005 Legislative Platform

<b>5. Economic Development &amp; Business Attraction</b>	
<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
VIII.A.3.a. Expand and enhance a workforce training and development program.	<b>Issue: 5.1.</b> An educated, literate and skilled workforce is an economic stimulant that fosters business attraction and economic development.
	<b>Action: 5.1.a.</b> Support funding by the California Department of Education for funding for public adult schools and for worker literacy programs at work sites.
	<b>Action: 5.1.b.</b> Support legislation to ensure and coordinate continued funding for programs providing training and job preparation.
I.A.1. Our infrastructure is modern, efficient, effective, attractive and cost competitive.	<b>Issue: 5.2.</b> Adequate public infrastructure is critical to successful business attraction.
	<b>Action: 5.2.</b> Support legislation that provides additional funds for infrastructure or which provides options for financing developer requirements.
	<b>Issue: 5.3.</b> The state gives a competitive advantage [self help] for state highway funds to jurisdictions which have a sales tax for transportation projects.
	<b>Action: 5.3.</b> Support legislation giving cities/counties which have adopted developer fees "Self Help" status.
I.A.2.a. Assure design, installation and maintenance of attractive infrastructure.	<b>Issue: 5.4.</b> Additional parking is needed to stimulate economic development in the City's Downtown Core area.
	<b>Action: 5.4.</b> Seek federal funding to assist with the construction of additional parking facilities in the Downtown.

**City of Modesto  
2004-2005 Legislative Platform**

<b>5. Economic Development &amp; Business Attraction</b>	
<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
<p>V.B.1. Achieve an equitable jobs-housing balance and avoid fiscal strains of leapfrog development.</p>	<p><b><u>Issue: 5.5.</u></b> The City of Modesto has a jobs-housing imbalance, providing more housing than jobs for our residents. In recent years, this imbalance has been aggravated by escalated Bay Area housing prices that have forced residents to the more affordable Central Valley housing market. The Inter-Regional Partnership was established to seek state funding and other avenues to address this issue.</p> <p><b><u>Action: 5.5.a.</u></b> Support legislation to increase funding and local flexibility to design and develop economic development programs that would increase job opportunities.</p> <p><b><u>Action: 5.5.b.</u></b> Support legislation to encourage business creation and expansion.</p> <p><b><u>Action: 5.5.c.</u></b> Support legislation providing tax credit priority for job generating projects in areas with a jobs-housing imbalance.</p> <p><b><u>Action: 5.5.d.</u></b> Support legislation that will create a “jobs-housing opportunity zone” eligible for infrastructure incentives and tax-exemption incentives.</p>

**City of Modesto  
2004-2005 Legislative Platform**

<b>5. Economic Development &amp; Business Attraction</b>	
<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
<p>XII.A. Leverage private and public funds to enhance redevelopment.</p> <p>XII.A.5. Evaluate and explore expansion of the Redevelopment Area to include declining / underdeveloped portions of the City (i.e. Yosemite Corridor).</p>	<p><b>Issue: 5.6.</b> Use of redevelopment funds outside of the project area are necessary in order to retain local authority over redevelopment expenditures for housing.</p>
	<p><b>Action: 5.6.</b> Support legislation to continue receiving credit for redevelopment outside of the project area.</p>
	<p><b>Issue: 5.7.</b> Local communities such as the City of Modesto rely on the tax base generated by private development in order to fund provision of services for the community. Enterprise Zone designation is an economic development tool that provides regulatory, tax, and other incentives for private investment and employment.</p>
	<p><b>Action: 5.7.</b> Support legislation designating an enterprise zone within the County of Stanislaus.</p>
	<p><b>Issue: 5.8.</b> The California Infrastructure and Economic Development Bank promotes economic revitalization and job creation by issuing tax-exempt and taxable revenue bonds providing financing to public agencies for infrastructure projects (e.g., essential infrastructure for business park developments). Current application procedures are cumbersome and difficult; local communities must often hire a consultant just to get through the application process. In addition, the state legislature has proposed cutting funding to this program.</p>
	<p><b>Action: 5.8.</b> Support legislation that would make the application process for CIEDB funds easier. Oppose legislation that would cut funding for the CIEDB program.</p>

City of Modesto  
2004-2005 Legislative Platform

<b>5. Economic Development &amp; Business Attraction</b>	
<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
XII.A. Leverage private and public funds to enhance redevelopment.	<p><b>Issue: 5.9.</b> Redevelopment activities have proven to be a vital economic development tool in Modesto. Redevelopment Law currently requires redevelopment agencies to use not less than 20% of all tax revenue for low- and moderate-income housing. There have been recent discussions at the State level regarding increasing the affordable housing expenditure requirement to not less than 25% of all tax revenue. A mandatory increase in required deposits to the L&amp;M Housing fund would decrease the amount of funding available for redevelopment purposes by a corresponding amount, thus slowing down the progress that Modesto is making in redevelopment. The L&amp;M Housing Fund grows only when assessed value in the project area increases as the result of revitalization and public investment in infrastructure, and the attraction of new employers, land developers, business tenants, and retail development. In addition, the 20% set-aside is usually a much greater percentage of the “net” amount of tax increment available to an agency after pass-through of a portion of the tax increment to other taxing entities. The housing set-aside is 20% of the “gross” tax increment, but it can be a greater amount of the “net” tax increment after deducting the amount of tax increment shared with pass-through agencies.</p> <p><b>Action: 5.9.</b> Oppose legislation that would amend Redevelopment Law to require any increase in the amount of tax revenue that must be set aside for low- and moderate-income housing.</p>
XII.A. Leverage private and public funds to enhance redevelopment.	<p><b>Issue: 5.10.</b> California Redevelopment Law gives local communities the authority and financing tools to be able to attack problems of urban blight and decay. As such, legislation designed to place unnecessary and burdensome restrictions on local redevelopment efforts should be opposed; and legislation designed to give local redevelopment agencies flexibility and control over how best to utilize tax increment should be supported.</p> <p><b>Action: 5.10.</b> Oppose additional or expanded mandates on redevelopment activities or local authority to allocate redevelopment dollars; Support legislation that provides local redevelopment agencies with flexibility and local control over tax increment allocation.</p>

**City of Modesto  
2004-2005 Legislative Platform**

<b>6. Employee Relations/Workers Compensation</b>	
<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
	<p><b>Issue: 6.1.</b> In order for the City to prudently plan for the future and remain fiscally healthy, local authority over employee benefit and compensation decisions is necessary.</p> <p><b>Action: 6.1.</b> Oppose any measure that would grant employee benefits that would be more properly decided at the local bargaining table.</p>
	<p><b>Issue: 6.2.</b> The City desires to maintain local control over all employee disputes.</p> <p><b>Action: 6.2.</b> Oppose any efforts that would reduce local control over public employee disputes and impose regulations of an outside agency.</p>
	<p><b>Issue: 6.3.</b> Current law provides extensive rights and protections to police officers in the areas of administrative investigations and discipline.</p> <p><b>Action: 6.3.a.</b> Oppose efforts to make disciplinary proceedings for police officers similar to criminal proceedings, making it impossible to prove an administrative violation.</p> <p><b>Action: 6.3.b.</b> Oppose any expansion to the California Public Safety Officers Procedural Bill of Rights or creation of new Federal "Police Officers Bill of Rights." Oppose extending these rights to firefighters or to other non-peace officers.</p>
	<p><b>Issue: 6.4.</b> The City of Modesto does not participate in Social Security. The associated cost savings allows us to offer competitive salaries and attract well-qualified employees to our workforce.</p> <p><b>Action: 6.4.</b> Oppose any form of mandatory Social Security Coverage for local government employees, who already enjoy superior retirement benefits.</p>
	<p><b>Issue: 6.5.</b> Current law only requires local governments to pay for Medicare coverage for employees hired on or after April 1, 1986. The City does not pay coverage for any employee hired prior to this date. Our fiscal planning does not include the added costs of providing this benefit to non-covered employees.</p> <p><b>Action: 6.5.</b> Oppose expansion of requirement for local governments to pay Medicare coverage for local employees beyond the current requirement of coverage for employees hired after April 1, 1986.</p>

**City of Modesto  
2004-2005 Legislative Platform**

<b>6. Employee Relations/Workers Compensation</b>	
<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
	<p><b>Issue: 6.6.</b> Workers compensation benefits can be cost prohibitive if not monitored, defined and appropriately managed.</p> <p><b>Action: 6.6.a.</b> Support legislation that manages costs of workers compensation benefits for occupational injuries/illnesses.</p> <p><b>Action: 6.6.b.</b> Oppose legislation that expands or extends any presumptions of occupational injury or illness.</p>
	<p><b>Issue: 6.7.</b> The Fair Labor Standards Act was originally enacted as a protection for employees in the private sector. For public agencies, it does not take into consideration the nature of public accountability, the generous leave benefits, nor the disciplinary process for exempt employees (particularly supervisors and managers).</p> <p><b>Action: 6.7.</b> Support Federal legislation to modify or eliminate FLSA requirements on public agencies.</p>

<b>7. General Government</b>	
<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
	<p><b>Issue: 7.1.</b> With limited funding for roadway maintenance, cities need to take measures to protect their right of way.</p> <p><b>Action: 7.1.</b> Support legislation to protect the public right of way.</p>
	<p><b>Issue: 7.2.</b> Consumers who purchase items through the Internet and via mail order are not charged local sales taxes on their purchases. This practice gives Internet and mail order companies a competitive advantage and, at the same time, restricts the amount of sales tax revenues for local jurisdictions.</p> <p><b>Action: 7.2.</b> Support legislation that fairly assesses local sales taxes for all methods of transaction.</p>
	<p><b>Issue: 7.3.</b> In today's litigious environment, it is critical for public agencies to limit their liability exposure.</p> <p><b>Action: 7.3.</b> Support measures to reform California's tort system to curtail unreasonable liability exposure for public agencies and restore the ability of public agencies to obtain affordable insurance.</p>

City of Modesto  
2004-2005 Legislative Platform

<b>8. Transportation &amp; Infrastructure</b>	
<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
VII.A.1. Proactively seek state and federal funding for local projects.	<p><b>Issue: 8.1.</b> The City of Modesto has hundreds of miles of underground water, sanitary sewer and storm drain pipelines that require maintenance and replacement. In addition, \$20 million a year is needed to maintain the City roadways; approximately \$5 million a year is budgeted. Federal and State money is needed to assist in maintaining the existing infrastructure and for its operation.</p>
	<p><b>Action: 8.1.a.</b> Support legislation that enhances resources for local jurisdiction to maintain and operate their infrastructure.</p>
	<p><b>Action: 8.1.b</b> Support legislation that provides that revenue collected from sales taxes on gasoline is used solely for the purpose of operating and maintaining the streets and highways network throughout the state.</p>
	<p><b>Action: 8.1.b Proposition 42 devotes sales taxes paid on gasoline to highway and transit improvements but this proposition contains a loophole which allows for the State to borrow from these funds. Support legislation that will close this loophole and make it impossible for the State to borrow from these funds.</b></p>
	<p><b>Issue: 8.2.</b> Federal and State funding is allocated to the City, but can only be spent on specific streets with large volumes of traffic, and restricted corridors cannot be widened.</p>
	<p><b>Action: 8.2.</b> Support legislation that provides increased local control over spending on streets and highways.</p>
	<p><b>Issue: 8.3.</b> Contractors have the ability to file construction claims on a project due to additional work, time of days, profit loss, etc. Some claims are filed only to negotiate a settlement. If the City wins the claim, the contractor shall pay for legal fees defending the City.</p>
	<p><b>Action: 8.3.</b> Support State legislation that would make contractors financially responsible for costs incurred by local agencies in response to defending frivolous construction claims.</p>
	<p><b>Issue: 8.4.</b> When the City secures property in Stanislaus County, the County must approve of the acquisition, and if necessary allow the City the right to proceed with eminent domain.</p>
	<p><b>Action: 8.4.</b> Support legislation amending Section 1810 of the Streets &amp; Highway Code relating to acquisition of property outside boundaries in unincorporated areas, deleting the requirement that counties must consent to such acquisition, and thereby "leveling the playing field" for cities.</p>
VII.A.1. Proactively seek state and federal funding for local projects.	<p><b>Issue: 8.5.</b> A new and expanded Bus Maintenance Facility is needed to replace the existing one, which is undersized and in very poor condition. Approximately half of the funds needed for the new facility have been earmarked in the federal budget. City staff is planning to begin construction in <del>May 2002</del> <b>Summer 2004</b>. However, construction cannot proceed unless the project is fully funded.</p>

**City of Modesto  
2004-2005 Legislative Platform**

	<b>Action: 8.5.</b> Support measures to finance local transportation facilities including the balance for the Bus Maintenance facility.
<b>8. Transportation and Infrastructure</b>	
<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
	<b>Issue: 8.6.</b> The Modesto/City County Airport is updating the Airport Master Plan to consider the extension of runway RW10L/28R. Wilson and Orville Wright Elementary schools are approximately one-half mile from the airport runways, and Wilson Elementary will be closer if the runway is extended. <b>Action: 8.6.</b> Oppose legislation that prohibits airport expansion when the existing facility is within close proximity (e.g., two miles) of a proposed or established public school site.
	<b>Issue: 8.7.</b> When property is listed for sale, property owners should be required to include a disclosure on the property deed, when a parcel is within Modesto City/County Airport's area of influence. The area of influence should not be smaller than suggested in the Caltrans Aeronautics' Airport Land Use Planning Handbook. <b>Action: 8.7.</b> Support legislation that requires property owners to provide a Notice of Public Disclosure of the proximity of an airport if the property is next to or near an airport. In addition, support Caltrans' Airport Land Use Planning Handbook's latest edition to prevent incompatible property development when the property lies within an airport's Runway Protection Zones, Inter Safety Zones, Inter Turning Zones, Outer Safety Zones, Sideline Safety Zones, and/or Traffic Pattern Zones.
	<b>Issue: 8.8.</b> Aviation fuel is taxed. These taxes should be used at the airport for airport services and aviation. <b>Action: 8.8.</b> Oppose legislation that would allow taxes collected from aviation fuel sales to be used for any other purpose than airport and aviation.
VII.A.1. Proactively seek state and federal funding for local projects.	<b>Issue: 8.9.</b> City growth requires new transportation corridors and utility extensions. An expressway/beltway will provide efficient travel around the perimeter of the City. In addition, existing improvements, such as water, sanitary sewer, storm drains, streets, public transit and lighting, need to be operated and maintained. Improvements to these facilities are needed to continue their required functions. <b>Action: 8.9.</b> Support legislation that provides additional funding to improve transportation, public transit and the existing infrastructure in the City and region.
III.B.2. Address transportation funding issues.	<b>Issue: 8.10.</b> Adequate funds are necessary for the proper development of Modesto City-County Airport. Legislation at both the federal and state level should promote the maximum use of funds available in the aviation trust fund and state funds derived from aviation sources and services.

**City of Modesto  
2004-2005 Legislative Platform**

issues.	<b>Action: 8.10.</b> Support a comprehensive national air transportation strategy that includes adequate, predictable and long-term funding necessary to sustain the planning and financing of airport development and provide adequate aviation facilities for an orderly and safe flow of air traffic.
---------	--

## 8. Transportation & Infrastructure

City's Strategic Plan Element	Legislative Issue
III.B.2. Address transportation funding issues.  VII.A.1. Proactively seek state and federal funding for local projects.	<b>Issue: 8.11.</b> The City competes with other jurisdictions for funding that provides traffic signalization, medians, public transit and designated turn lanes.
	<b>Action: 8.11.</b> Support legislation to increase transportation funding sources and financial programs to ensure local government receives a reasonable share of competitive funds for congestion relief and transportation systems.
	<b>Issue: 8.12.</b> Modesto City-County Airport has a low activity tower that is staffed by professional air traffic controllers through the Federal Aviation Administration's Contract Control Tower Program.
	<b>Action: 8.12.</b> Support the Federal Aviation Administration's contract control tower program in order to insure that the safety of the airport, its users and local community is maximized.
III.B.3.a. Provide connections from conveniently located park and ride lots to ACE train.  VII.A.1. Proactively seek state and federal funding for local projects.	<b>Issue: 8.13.</b> Currently a proposal is being reviewed to bring the Altamont Commuter Express (ACE) train to Modesto. The state budget includes \$8 million specifically for an extension of ACE to Stanislaus County. The City of Modesto currently provides shuttle bus service to the ACE train Station in Lathrop/Manteca.
	<b>Action: 8.13.</b> Support legislation and funding to extend the Altamont Commuter Express Train to Modesto.
III.B.6. Reduce transportation impacts on air quality	<b>Issue: 8.14.</b> The California Air Quality Board has adopted regulations restricting and controlling public transit operations with increasingly rigid air quality standards. These regulations can and will impact the operational costs of providing public transit service.
	<b>Action: 8.14.</b> Support legislation that provides additional funding to assist public transit systems in meeting air quality standards. Oppose legislation that will mandate any single operational practice or use of fuel. Support legislation that allows city transit agencies flexibility in meeting air quality standards.

**City of Modesto  
2004-2005 Legislative Platform**

VII.A.1. Proactively seek state and federal funding for local projects.	<p><b>Issue: 8.15.</b> The most difficult to predict operational cost for public transit operations is the cost of fuel.</p> <p><b>Action: 8.15.</b> Support legislation to provide supplemental funding to transit agencies to cover unexpected increases in fuel prices.</p>
---	--

**8. Transportation & Infrastructure**

<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
VII.A.1. Proactively seek state and federal funding for local projects.	<p><b>Issue: 8.16.</b> The City of Modesto Transit Services is dependent upon federal and state funds for capital and operating expenses. Expansion of service is dependent on federal and state funds.</p> <p><b>Action: 8.16.</b> Support legislation and funding that protects existing transit revenues from both state and federal budget cuts. Support appropriations of addition federal and state funds to public transit systems.</p>
VII.A.1. Proactively seek state and federal funding for local projects.	<p><b>Issue: 8.17.</b> Protection of existing and future water sources.</p> <p><b>Action: 8.17.</b> Support legislation, which enhances resources for local jurisdiction to maintain and operate their infrastructure.</p>
	<p><b>Issue: 8.18.</b> Local governing bodies are in the best position to understand local circumstances. Decisions regarding land use should be based upon local criteria such as public safety, aesthetics, and economic and community development.</p> <p><b>Action: 8.18.</b> Support legislation that provides increased local control over spending on streets and highways.</p>
	<p><b>Issue: 8.19.</b> Every effort should be made to discourage frivolous lawsuits against municipalities.</p> <p><b>Action: 8.19.</b> Support State legislation, which would make contractors financially responsible for costs incurred by local agencies in response to defending frivolous construction claims.</p>
	<p><b>Issue: 8.20.</b> Section 1810 of the Streets &amp; Highway Code provides that a City may acquire, or purchase or eminent domain, property outside its boundaries, if it is necessary to connect or widen the existing streets of the city and if the county consents to the acquisition.</p> <p><b>Action: 8.20.</b> Support legislation amending Section 1810 of the Streets &amp; Highway Code deleting the requirement that counties must consent to such acquisition and thereby "leveling the playing field" for cities which can be required to accept such streets.</p>

**City of Modesto  
2004-2005 Legislative Platform**

<b>9. Environment</b>	
<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
	<p><b>Issue: 9.1.</b> Air quality credits impact a region's ability to attract and retain business.</p> <p><b>Action: 9.1.</b> Oppose air quality legislation for the San Joaquin Basin which gives a competitive edge or any particular advantage to any individual county in regards to offset credits.</p>
I.C.1.b. Protect water supply from storm drainage contamination.	<p><b>Issue: 9.2.</b> Stormwater pollution prevention efforts such as best management practices and maximum extent practicable are effective water quality protective measures.</p> <p><b>Action: 9.2.</b> Support amendments to the 1987 Clean Water Act that would clarify that numerical effluent standards do not apply to NPDES Stormwater Discharge Permits and that "Maximum Extent Practicable" (MEP) is the standard for stormwater discharges.</p>
	<p><b>Issue: 9.3.</b> Remediation of groundwater contamination should be the financial responsibility of the entity responsible for the upstream-contaminated discharge.</p> <p><b>Action: 9.3.</b> Support legislation, which amends the Porter Cologne Water Quality Act in such a way that the local governments would not be held accountable to assess and remediate water contamination (such as PCE in the case of Turlock) by the sole virtue of being the discharger of water contaminated by a second party.</p>
	<p><b>Issue: 9.4.</b> Environmental fees should be based on the service levels provided by the revenue-seeking agency.</p> <p><b>Action: 9.4.</b> Support legislation, which repeals Fish and Game filing fees, unless these fees are clearly related to the level of service provided by the Department of Fish and Game in promptly reviewing environmental documents.</p>
	<p><b>Issue: 9.5.</b> Current CEQA rules and regulations are sufficient for adequate protection of the environment.</p> <p><b>Action: 9.5.</b> Support legislation, which minimizes, or streamlines, project level environmental review (particularly cumulative effects and growth inducing effects), if key issues have already been adequately addressed at the "Master EIR" or "Program EIR level."</p>

**City of Modesto  
2004-2005 Legislative Platform**

<b>9. Environment</b>	
<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
II.B.2. Establish a city/county hazardous waste team to coordinate the use and disposal of hazardous materials, particularly in the case of emergencies.	<b>Issue: 9.6.</b> State and local governments must have an influence on the designation of hazardous material sites since the local level is most impacted.
	<b>Action: 9.6.</b> Support legislation such as HR 3000 to provide a role for state and local government for designation of hazardous waste sites.

<b>10. Solid Waste</b>	
<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
II.C. Maximize recycling and recovery participation through education and program assessment and development.	<b>Issue: 10.1.</b> The Waste-to-Energy Facility generates electricity by diverting garbage that otherwise would be disposed of in the landfill and converting it into power.
	<b>Action: 10.1.</b> Oppose legislation, which would limit or reduce recycling credits for Waste-to-Energy projects in California.
II.C.3. Develop and implement new programs which will increase resource recovery and diversion.	<b>Issue: 10.2.</b> To assist in meeting diversion goals, local recyclers must have end markets for their products.
	<b>Action: 10.2.</b> Support legislation, which would enhance or provide market incentives for recycling materials (e.g., plastics, compost).

**City of Modesto  
2004-2005 Legislative Platform**

<b>10. Solid Waste</b>	
<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
II.D. Develop market for co-compost materials to allow for all biosolids to be utilized in the co-compost product.	<b>Issue: 10.3.</b> The recycling and composting of greenwaste and bio-solids increases waste diversion from landfills, and its reuse provides an excellent source of viable material for land and beautification use.
	<b>Action: 10.3.</b> Oppose legislation limiting reuse of greenwaste, bio-solids, or compost material.
	<b>Issue: 10.4.</b> In order to continue to provide quality service and to keep costs as low as possible for the rate payers, local jurisdictions must have flow control authority.
	<b>Action: 10.4.</b> Oppose legislation that would limit the local jurisdiction's authority by the County to regulate or direct municipal solid waste.
II.D.1. Continue use of green waste materials in co-composting operation to dispose of biosolids and expand markets for the co-compost.	<b>Issue: 10.5.</b> The land application of bio-solids and bio-solids compost has been demonstrated to be safe when done in accordance with State and Federal regulations.
	<b>Action: 10.5.</b> Support legislation which would prohibit counties from imposing outright bans or overly restrictive ordinance that would impose de-facto bans on the land application of bio-solids or bio-solids composts.
II.C.2. In accordance with AB939 regulations, prepare a resource recovery assessment that includes: <ul style="list-style-type: none"> <li>• reevaluation of recycling program</li> <li>• green waste strategies</li> <li>• composting</li> </ul>	<b>Issue: 10.6.</b> Waste diversion, through recycling and source reduction, should be monitored for consistency according to each jurisdiction's existing programs and demographics.
	<b>Action: 10.6.</b> Oppose legislation, which would increase diversion mandates above 50%.

**City of Modesto  
2004-2005 Legislative Platform**

<b>10. Solid Waste</b>	
<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
	<b>Issue: 10.7.</b> Hazardous electronic discards are an increasing problem, with over a million computers becoming obsolete in California each year. Cathode ray tubes from computers, televisions, camcorders, and other items contain lead and other materials that can pose hazards to human health and the environment and are prohibited from disposal in Class III landfills.
	<b>Action: 10.7</b> Support legislation requiring computer and other hazardous electronics producers to operate or fund comprehensive programs whereby products are sustainably designed and labeled, as well as legislation that creates a convenient collection infrastructure that will result in a high rate of recovery and maximizes environmentally sound reuse and recycling of such hazardous electronics products.

<b>11. Water Supply/Management</b>	
<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
	<b>Issue: 11.1.</b> The City's ability to protect its groundwater reserves is impacted by the ability to secure rights to surface water and groundwater reserves.
	<b>Action: 11.1.</b> Support measures, which increase water supply or improve water quality within the city/region.
	<b>Issue: 11.2.</b> Conservation of resources is a responsibility of all, including local government.
	<b>Action: 11.2.</b> Support legislation that will encourage the use of drought tolerant plant material and water conservation techniques.
	<b>Issue: 11.3.</b> Support water management strategies that are financially as well as scientifically responsible.
	<b>Action: 11.3.</b> Oppose mandatory groundwater management unless it is reasonable and the management reflects the representative views of all agencies which will be regulated, particularly local government.

**City of Modesto  
2004-2005 Legislative Platform**

City's Strategic Plan Element	Legislative Issue
	<p><b>Issue: 11.4.</b> Water providers must comply with drinking water standards established at both the State and Federal level.</p> <p><b>Action: 11.4.</b> Support a fiscally and environmentally responsible reauthorization of the Safe Drinking Water Act.</p>
VII.A.1. Proactively seek state and federal funding for local projects.	<p><b>Issue: 11.5.</b> Support water management strategies that are financially as well as scientifically responsible.</p> <p><b>Action: 11.5.</b> Support measures that will fund water management improvements.</p>
	<p><b>Issue: 11.6. Proposed legislation, Assembly Bill No. 2572, requires urban water suppliers to install water meters by 2025 on all service connections constructed before 1992. It further requires urban water suppliers to charge customers who have meters installed based upon the volume of water deliveries. This charge must be set in place by 2010. The bill provides no state funding mechanism for meter installation, but provides for urban water providers to recover these costs from rates, fees or charges.</b></p> <p><b>Action: 11.6. Support AB No. 2572. Citywide metering extends the life of the water system, promotes conservation and eliminates inequities associated with a flat rate structure.</b></p>

**12. Communication/Technology**

City's Strategic Plan Element	Legislative Issue
IV.B.1. Seek state, federal and private grant funding for technology.	<p><b>Issue: 12.1.</b> Cities must have the authority to zone and plan for the deployment of telecommunications infrastructure and to maintain and manage the public rights-of-way and receive compensation for its use.</p> <p><b>Action: 12.1.</b> Support State and Federal legislation to reaffirm home rule in oversight and revaluation of telecommunication entities, using public right-of-ways and affecting conditions addressed by local planning and land use policies.</p>
IV.B.2. Identify potential public/private technology partnerships.	<p><b>Issue: 12.2.</b> Technology fuels economic development. That said, it is unlikely that local funding alone will accomplish the level of investment necessary to recognize all the benefits of the "information superhighway."</p> <p><b>Action: 12.2.</b> Support legislation to fund telecommunication planning and implementation.</p>

**City of Modesto  
2004-2005 Legislative Platform**

<p>IV.B.1. Seek state, federal and private grant funding for technology.</p> <p>IV.B.2. Identify potential public/private technology partnerships.</p>	<p><b>Issue: 12.3.</b> Geographic Information Systems (GIS) is a computerized mapping system that allows for the computerized inventory of infrastructure and other city assets. It provides an easy means for graphically presenting information, enhances the planning process, and promotes the sharing of information between agencies.</p> <p><b>Action: 12.3.</b> Support legislation to fund GIS to better manage regional resources, respond to emergencies and plan for growth.</p>
--	--

### 13. Energy

City's Strategic Plan Element	Legislative Issue
<p>VII.A.1. Proactively seek state and federal funding for local projects.</p>	<p><b>Issue: 13.1.</b> Numerous bills have been introduced during the 2001 legislative session to deal with the energy situation facing California consumers. Earlier this year, the League of California Cities adopted policy positions related to this issue. These policy statements will focus the League's efforts as all of these bills start moving through the process. The Modesto City Council, at their meeting of April 10, 2001, agreed to adopt these policy statements as part of their legislative platform when it is brought forward. The following Actions summarize the aforementioned policy statements.</p> <p><b>Action: 13.1.a.</b> Support conservation recommendations proposed by the League and California State Association of Counties.</p> <p><b>Action: 13.1.b.</b> Support legislation that provides direct funding for conservation and demand reduction projects in city facilities; seek grant or loan funding for essential services (i.e., police/fire, water/wastewater) to purchase new or replace existing back-up generators that are more energy efficient and less polluting.</p> <p><b>Action: 13.1.c.</b> Support incentives that stimulate development and siting of more energy generation facilities.</p> <p><b>Action: 13.1.d.</b> Support legislation that increases the threshold at which a city is the lead permitting agency for an energy facility from 50 to 100 MW (or above) and oppose legislation which decreases the threshold.</p> <p><b>Action: 13.1.e.</b> Support not getting directly involved with proposals to streamline the facility approval process except to suggest revisions which reflect technical comments from city experts on local government review and comment related provisions.</p> <p><b>Action: 13.1.f.</b> Support actions to exempt cities with municipal utilities completely from the Energy Commission review process for all power plant proposed within their jurisdiction, regardless of the size of the facility.</p> <p><b>Action: 13.1.g.</b> Support not getting directly involved in legislative discussions and take no position on legislation to relax, suspend, or eliminate environmental regulations except to ensure that cities do not bear the burden of meeting the shortfall in environmental protection.</p> <p><b>Action: 13.1.h.</b> Support all bills that enhance the public power options available to cities and counties.</p>

**City of Modesto  
2004-2005 Legislative Platform**

	<p><b>Action: 13.1.i.</b> Support attempts to ensure that resolution of the energy shortage seeks equity for ratepayer classes and communities.</p> <p><b>Action: 13.1.j.</b> Ensure that police and fire facilities are appropriately protected either legislatively or administratively if the range of exempted facilities is expanded; seek legislation or administrative resolution to giving advance notification to those businesses that use hazardous materials which could pose a danger if the plant is not shut down properly.</p> <p><b>Action: 13.1.k.</b> Support efforts to determine whether market abuse occurred and asking that appropriate action be taken to remedy the problem if illegal activity did occur.</p>
--	--

**14. Public Safety**

City's Strategic Plan Element	Legislative Issue
	<p><b>Issue: 14.1.</b> The Modesto Police Department, like other municipal law enforcement agencies, spends an inordinate amount of time enforcing federal and state drug laws. In many drug cases, assets of responsible parties can be seized and after due process can be sold, with the proceeds going to local criminal justice agencies involved in the responsible parties' arrests and prosecutions.</p> <p><b>Action: 14.1.</b> Support measures which would provide a greater share of seized assets to localities.</p>
	<p><b>Issue: 14.2.</b> Driving under the influence of alcohol/drugs constitutes a dangerous crime to the Modesto citizenry and DUI laws are strictly enforced by the Modesto Police Department. Each and every DUI arrest by the Modesto Police Department is a significant drain on public safety resources for the City.</p> <p><b>Action: 14.2.</b> Support efforts which allow local agencies to recover from the guilty party in accidents involving driving under the influence of drugs and/or alcohol.</p>
	<p><b>Issue: 14.3.</b> Fines and forfeitures are a traditional source of revenue for local law enforcement. These revenues have been eroded for municipal government through the passage of State law that allow numerous state or county charges, penalties or assessments to be levied against those fines and forfeitures.</p> <p><b>Action: 14.3.a.</b> Oppose attempts to transfer more fine and forfeiture funds to counties.</p> <p><b>Action: 14.3.b.</b> Oppose legislation which allows state or county charges, penalties or assessments to be levied in lieu of or to replace actual fines and forfeitures.</p>
H.I.B.6. Assess Drug Enforcement Efforts and minimize duplication of	<p><b>Issue: 14.4.</b> Illegal drug trafficking, manufacture, sales and use are crimes in themselves and are also linked to other crimes that consume vast amounts of law enforcement resources. Prevention of illegal drug use is the most cost effective and efficient method to reduce drug and drug-related crime.</p>

**City of Modesto  
2004-2005 Legislative Platform**

minimize duplication of efforts (SDEA, MNET, etc.).	<b>Action: 14.4.</b> Support legislation encouraging, establishing, or enhancing drug use prevention programs and policies.
---	---

<b>14. Public Safety</b>	
<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
	<p><b>Issue: 14.5.</b> Graffiti is a blight to Modesto's community appearance; it is a crime of vandalism; and, it may incite gang action and/or retaliation.</p> <p><b>Action: 14.5.</b> Support additional legislation to fight graffiti which would:</p> <ol style="list-style-type: none"> <li>1) Expand parental responsibility.</li> <li>2) Prohibit the issuance of a driver's license to anyone under the age of 18 who has been convicted of graffiti offenses.</li> <li>3) Require publication of names to anyone arrested for graffiti offenses.</li> </ol>
	<p><del><b>Issue: 14.6.</b> The City of Modesto currently faces the cost of retrofitting the old Police Building into a patrol operations facility. The costs for this remodel/retrofit are high, in part due to the state requirements to bring the building to current earthquake building standards.</del></p> <p><del><b>Action: 14.6.</b> Support legislation providing cities and counties with State funding for retrofitting essential buildings (for examples: hospitals, fire and police buildings) to current earthquake standards.</del></p>
VII.A.1. Proactively seek state and federal funding for local projects.	<p><b>Issue: 14.76.</b> City of Modesto law enforcement costs continue to escalate due to the costs of necessary police personnel, the need for more sophisticated technological police equipment, the need for effective juvenile crime prevention programs and the existence of clandestine methamphetamine labs in the area.</p> <p><b>Action: 14.76.a.</b> Support Federal legislation to continue funding the Omnibus Crime Bill for the benefit of Modesto communities (for law enforcement officers and equipment).</p> <p><b>Action: 14.76.b.</b> Support legislation that will increase funding for public safety technology improvement.</p> <p><b>Action: 14.76.c.</b> Support legislation and increased funding for juvenile crime prevention and abatement programs.</p> <p><b>Action: 14.76.d.</b> Support legislation that will reimburse agencies responsible for identifying, tagging and removing waste from illegal drug labs.</p>

**City of Modesto  
2004-2005 Legislative Platform**

<b>14. Public Safety</b>	
<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
	<b>Action: 14.76.e</b> Support legislation that would make Bureau of Narcotics Enforcement Task Force labs available to our jurisdiction for evidence process and drug lab clean-up.
	<b>Action: 14.76.f</b> Support legislation that would mandate revenue reporting of the State's 911 Fund, mandate revenue use for 911 systems only, and mandate distribution of all or a finite percentage of the funds to local governmental jurisdictions or communications centers.
	<b>Action: 14.87.g</b> Support State legislation that protects current City revenues: SLESF (State Law Enforcement Services Fund) CLEEP (California Law Enforcement Equipment Program) Payment of Booking Fees Vehicle License Fees Property Taxes Sales Taxes

City of Modesto  
2004-2005 Legislative Platform

	<p><b><u>Issue: 14.8 California Proposition 36 also known as the “Substance Abuse and Crime Prevention Act of 2000” currently allows 1st and 2nd time nonviolent, simple drug possession to receive drug treatment instead of incarceration. In a sense this decriminalize drug use and needs to be either repealed or modified. The Drug Court Model is a proven method that has been weakened by Proposition 36.</u></b></p> <p><b><u>Action:14.8a Support legislation that repeals or significantly modifies Proposition 36.</u></b></p> <p><b><u>Action: 14.8b Support legislation that facilitates the implementation of the Drug Court Model.</u></b></p>
	<p><b><u>Issue: 14.9 California’s Three Strike Law is intended to keep repeat violent and serious felony offenders off the streets. The proposed Proposition 66 weakens that law and gives criminals more avenues to avoid life term incarcerations.</u></b></p> <p><b><u>Action: 14.9 Oppose legislation that weakens California’s Three Strike Law</u></b></p>
	<p><b><u>Issue: 14.10 The current process that local law enforcement agencies must go through to acquire Federal Homeland Security funds is difficult and cumbersome.</u></b></p> <p><b><u>Action:14.10 Support legislation that facilitates local law enforcement ability to acquire the needed Federal Homeland Security funds.</u></b></p>
	<p><b><u>Issue: 14.11 Legislation reducing the immunity of local public safety entities for public safety actions such as pursuits, SWAT activities, negotiations, fire suppression and other emergency responses will hinder the ability of City of Modesto public safety departments to protect and to serve the community.</u></b></p> <p><b><u>Action: 14.11 Oppose legislation that reduces immunity for public safety actions i.e. pursuits, SWAT activities, negotiations, fire suppression and general emergency responses.</u></b></p>
	<p><b><u>Issue: 14.12 There are occasions when the Modesto Police Department works on extreme or extraordinary criminal cases. An example of this is the Scott Peterson murder investigation. These investigations are very costly and can deplete the funds in the department’s budget very quickly.</u></b></p>
	<p><b><u>Action: 14.12 Support legislation that provides funding support to local law enforcement agencies who work on extreme or extraordinary criminal investigations.</u></b></p>

**City of Modesto  
2004-2005 Legislative Platform**

<b>15. Parks and Open Space</b>	
<b>City's Strategic Plan Element</b>	<b>Legislative Issue</b>
I.A.2.a (10) Preserve existing park infrastructure, such as tennis courts, buildings, swimming pools, etc.	<b>Issue: 15.1.</b> Many of the City's older parks and facilities are in need of renovation, and some infrastructure has been removed due to its unsafe condition. In addition, many facilities in need of rehabilitation contain asbestos and other toxic materials.
	<b>Action: 15.1</b> Support/encourage legislation that includes funding for general facility rehabilitation and asbestos/toxic material abatement.
	<b>Issue: 15.2</b> The City of Modesto is aggressively trying to meet the regulations on accessibility to its existing facilities. The City is now relying on the use of CDBG funding, which could be better redirected into programs and services.
	<b>Action: 15.2</b> Encourage inclusion to any park related legislation, per capita funds to renovate public recreation facilities to conform to Federal Americans with Disabilities Act (ADA) regulations.
III.B.5.c Develop the Virginia Corridor as a priority Class I Bikeway	<b>Issue: 15.3</b> The City of Modesto is currently finalizing the process of securing an abandoned railroad corridor, utilizing the Rails to Trails Program. The City's plan for this 4.2 mile right-of-way is to develop a linear park and a Class I bikeway/pedestrian trail.
	<b>Action: 15.3</b> Seek legislation that will include funding for this project as a line item. Encourage inclusion of non-motorized projects in air quality and traffic congestion mitigation legislation.
IX.B.4. Physically and visually link downtown amenities to the Tuolumne River Regional Park Gateway parcel. C.I.A.4. Seek funding for, and implement the Tuolumne River Regional Park Master Plan	<b>Issue: 15.4</b> The Tuolumne River Regional Park Joint Powers Authority has completed the Master Plan and Environmental Impact Report for the 700+ acre park. The next step is to develop specific plans and related environmental assessments for each park segment. Recently, state funding originally identified for the Tuolumne River Parkway was re-allocated to other projects. In addition, Proposition 40 contains funding for river parkways that has yet to be specifically allocated.
	<b>Action: 15.4</b> Seek support from the City's lobbyists and legislators to specifically identify the Tuolumne River Regional Park as a line item in Proposition 40 as well as other legislation providing funding for riparian habitat restoration and river parkways.

**MODESTO CITY COUNCIL  
RESOLUTION NO.2004-545**

**A RESOLUTION OF INTENTION TO ANNEX TERRITORY TO COMMUNITY FACILITIES DISTRICT NO.2004-1 (VILLAGE ONE #2) AND TO AUTHORIZE THE LEVY OF SPECIAL TAXES THEREIN (ANNEXATION No. 5)**

WHEREAS, pursuant to Chapter 3.5 Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the “Mello-Roos Community Facilities Act of 1982” (the “Act”), proceedings for the annexation of territory to an existing community facilities district may, pursuant to Chapter 3.5 of the Act, be instituted by the adoption by the legislative body of a resolution of intention to annex such territory; and

WHEREAS, pursuant to the Act, this Council did, by its Resolution No. 2004-199, adopted on April 6, 2004 (the “Resolution of Formation”), establish the City’s Community Facilities District No. 2004-1 (Village One #2) (“the District”); and

WHEREAS, this Council hereby determines that the public convenience and necessity require the annexation of certain territory to the District; and

WHEREAS, the territory to be annexed is within the City limits;

NOW, THEREFORE, BE IT RESOLVED, ORDERED AND FOUND by the City Council of the City of Modesto, California, that:

SECTION 1. The above recitals are true and correct.

SECTION 2. The boundaries of the District are shown on a map entitled “Proposed Boundaries of Community Facilities District No. 2004-1 (Village One #2) of the City of Modesto, County of Stanislaus, State of California” on file with the County

Recorder of the County of Stanislaus, at Book 3 of Maps of Assessment and Community Facilities Districts, at Page 85; the map entitled “Proposed Boundaries of Annexation #1 to City of Modesto CFD No. 2004-1 (Village One #2),” on file with the County Recorder at Book 3 of Maps of Assessment and Community Facilities Districts, at page 86 (as amended by the map entitled “Annexation Map No. 1 of Community Facilities District No. 2004-1 (Village One #2),” on file with the County Recorder at Book 3 of Maps of Assessment and Community Facilities Districts, at page 90); the map entitled “Annexation Map No. 2 of Community Facilities District No. 2004-1 (Village One #2),” on file with the County Recorder at Book 3 of Maps of Assessment and Community Facilities Districts, at Page 91; the map entitled “Annexation Map No. 3 of Community Facilities District No. 2004-1 (Village One #2),” on file with the County Recorder at Book 3 of Maps of Assessment and Community Facilities Districts, at Page 96; and the map entitled “Annexation Map No. 4 of Community Facilities District No. 2004-1 (Village One #2),” on file with the County Recorder at Book 3 of Maps of Assessment and Community Facilities Districts, at Page 99.

SECTION 3. The territory proposed to be annexed to the District (the “Territory”) is described in **Exhibit A**.

SECTION 4. The boundaries of the Territory are also shown on the map thereof, entitled “Annexation Map No. 4 of Community Facilities District No. 2004-1 (Village One #2) of the City of Modesto, County of Stanislaus, State of California,” on file in the office of the City Clerk, hereby approved and adopted. Pursuant to Sections 3110.5 and 3113 of the California Streets and Highways Code, the City Clerk shall endorse her certificate on the original and one copy of the map evidencing the date and adoption of

this Resolution, file the original in her office and, not later than ten days after the adoption of this Resolution, file a copy of the map with the County Recorder of the County of Stanislaus. The map shall contain the legends provided in Sections 3110 and 3110.5 of the California Streets and Highways Code, including a reference to the title, book, page and recording date of the original boundary map of the District.

SECTION 5. The public facilities and services to be provided for the District are set forth in the Resolution of Formation. It is intended that these same facilities and services be provided to the Territory.

SECTION 6. The special taxes to be levied in the District are also set forth in the Resolution of Formation. It is intended that the same special taxes be levied in the Territory.

SECTION 7. A public hearing on this Resolution will be held at 5:30 p.m., or as soon thereafter as practicable, on Tuesday, December 7, 2004, at the regular meeting place of the City Council, City Council Chambers, Basement Level, 1010 Tenth Street, Modesto, California 95353, such time being not less than 30 or more than 60 days following the adoption hereof.

SECTION 8. At the hearing, any interested persons for or against the annexation of the Territory to the District, and the levy of the special taxes therein, may appear and will be heard and considered. Any protest may be made orally or in writing. However, any protests pertaining to the regularity or sufficiency of the proceedings shall be in writing and clearly set forth the irregularities and defects to which the objection is made. All written protests shall be filed with the City Clerk on or before the time fixed for the

public hearing. Written protests may be withdrawn in writing at any time before the conclusion of the hearing.

SECTION 9. The City Clerk is directed to publish, not later than seven days prior thereto, a notice of the hearing, in the form required by the Act, in a newspaper of general circulation published in the area of the District, being *The Modesto Bee*, and otherwise in accordance with Section 6061 of the California Government Code, stating (a) the text or a summary of this Resolution, (b) the time and place of the hearing, and (c) that all interested persons for or against the annexation of the Territory to the District or the levying of the special taxes in the Territory will be heard.

SECTION 10. (a) If a majority (but at least six) of the registered voters residing within the District or a majority (but at least six) of the registered voters residing within the Territory, or the owners of one-half or more of the area of the land in the District and not exempt from the special tax, or the owners of one-half or more of the Territory, file written protests against the proposed annexation, and the protests are not withdrawn so as to reduce the value of the protests to less than a majority, no further proceedings to annex the Territory to the District, or to levy in the Territory the special taxes to be levied in the District, shall be taken for a period of one year from the date of the decision of the Council on the issues discussed at the hearing.

SECTION 11. At the conclusion of the hearing, if the Council determines to annex the Territory to the District, it will submit the levy of the special taxes to the qualified electors of the Territory in a special election.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of October 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

# 2003 Annual Report on the Modesto Urban Area General Plan

## Purpose

This Annual Report on the Modesto Urban Area General Plan is prepared pursuant to California Government Code Section 65400 (b). The purpose of this report is to update the Planning Commission, the City Council, the Governor's Office of Planning and Research (OPR), and the State Department of Housing and Community Development (HCD) of the City's progress in implementing the City's General Plan and on progress in meeting regional housing needs. The General Plan serves to guide the City's overall growth for the next twenty years.

## Status of the Modesto Urban Area General Plan

The current Modesto Urban Area General Plan was adopted in August 1995. It is internally consistent and complies with California Planning and Zoning Law and the General Plan Guidelines adopted pursuant to Government Code Sections 65300 et seq.

In April 2004, the City adopted an updated Housing Element, which is one component of the General Plan, pursuant to Government Code Section 65588. The Housing Element was certified to be in compliance with State Law by HCD in May 2004.

## Progress in Implementation of the General Plan

Implementation of the Modesto Urban Area General Plan is ongoing. Activities generally include processing private development applications, amendments to adopted specific plans and the General Plan. All planning-related applications and development permits including building permits, rezones, parcel maps, and specific plans must be found to be consistent with the General Plan to obtain approval. Where inconsistencies are determined to exist, the Planning Commission and the City Council conduct public discussions to weigh the merits of the proposal as it affects the implementation and integrity of the General Plan.

A summary of various planning applications and efforts during 2003 is provided below. The summary describes applicant-initiated planning activity, City-initiated planning activity, and a discussion of housing policy implementation.

### **A. APPLICANT-INITIATED PLANNING ACTIVITY**

#### **1. General Plan Amendments**

The City considered one applicant-initiated general plan amendment, amending small areas on the City's General Plan Land Use Diagram as described below:

- a. An amendment to the Modesto Urban Area General Plan to shift comprehensive planning district boundaries in order to add a 17.4-acre property, located at the northeast corner of Coffee Road and Claratina Avenue, to the North Beyer Park Comprehensive Planning District.

A location map of each of this General Plan Amendments is provided as Map 1.

2. Specific Plan Amendments

In 2003, the City considered two specific plan amendments and commenced efforts to amend the Kiernan Business Park Specific Plan.

- a. An amendment to the North Beyer Park Specific Plan to include a 17.4-acre property at the northeast corner of Coffee Road and Claratina Avenue in the North Beyer Specific Plan and designate the site as Church (CH).
- b. An amendment to the Village One Specific Plan to allow for a revised Infrastructure Financing Plan, including the formation of a new Capital Facilities District for remaining undeveloped, unvested property in Village One.
- c. Efforts to amend the Kiernan Business Park Specific Plan began to accommodate the Kaiser Hospital and Cornerstone Business park project. The project would result in amending the specific plan, an amendment to the City's Sphere of Influence and annexation to the City limits. At the time of writing this report, the project was approved by the City and LAFCO and the annexation of the site was pending recordation.

3. General Plan Conformity Request. There was one applicant-initiated request considered for conformity with the General Plan in 2003.

- a. Conformity request for the vacation and abandonment of Beyer Park Drive.

4. Amendments to the Title X of Modesto Municipal Code (zoning code)

- a. There were no applicant-initiated requests considered in 2003.

5. Amendments to Standard Specifications. There were no amendments to the City's development standards during 2003.

6. Rezone of land use designations

During 2003, the City considered eight zone changes, listed as follows:

- a. Approved to prezone a 17.4-acre property to Specific Plan Overlay (SP-O) at Coffee Road and Claratina Avenue, within the North Beyer Specific Plan.
- b. Approved an amendment of Planned Development Zone (483) to redesignate land on the southwest corner of Dale Road and Fleur de Lis from retail to professional office condominiums.
- c. Approved to rezone property located on the southeast corner of Briggsmore Avenue and Coffee Road from Low-Density Residential (R-1) Zone and Professional Office (P-O) Zone to Planned Development Zone (559) to allow a 17,800-square-foot medical building and associated off-street parking.
- d. Approved to rezone property located between Briggsmore Avenue and St. Paul's Way, east of Oakdale Road from Low Density Residential (R-1) to Planned Development Zone (560) to allow for two dental offices and a sign package for the First Church of the Nazarene.
- e. Approved to rezone property located on the northwest corner of West Orangeburg and Martin Avenues from Planned Development Zones (416) and (550) to a new Planned Development (561) to allow for a three-story hotel.
- f. Approved to rezone property located on the west side of Carver Road opposite Montclair Drive from Low-Density Residential (R-1) to Planned Development Zone (562) to allow for a 14-unit townhouse, multi-family residential development.
- g. Approved to rezone property located on the east corner of 16<sup>th</sup> and G streets from Planned Development Zone (480) to Planned Development Zone (563) to allow for a two-story professional office building.
- h. Approved to rezone property located on the southwest corner of Briggsmore Avenue and Oakdale Road from Planned Development Zone (454) to Planned Development Zone (564) to allow 24,295 square feet of office and a 7,350-square-foot restaurant and an 8,625-square-foot financial/ retail building.

7. Precise Plan Amendments

In 2003, the City adopted or amended 9 Precise Plan Areas within the Village One Specific Plan. Precise Plan Areas serve as specific zoning and are intended to implement the Village One Specific Plan. The nine precise plan applications were as follows:

- a. Adoption of Precise Plan Area No. 20 of the Village One Specific Plan amending the zoning from Specific Plan Holding (SP-H) to Specific Plan Overlay (SP-O). The area is located on the northwest corner of Roselle and Floyd Avenues.
- b. Adoption of Precise Plan Area No. 18 of the Village One Specific Plan amending the zoning from SP-H to SP-O. The area is generally located at the northwest corner of Floyd Avenue and Lincoln Oak Drive.
- c. Approval of a Final Development Plan in the Village One Specific Plan Precise Plan Area No. 27 for a twenty-four-unit apartment complex on property located at the northwest and northeast corners of Merle Avenue and Paramount Way.
- d. Approval of a Final Development Plan in the Village One Specific Plan Precise Plan Area No. 18 for a 248-unit apartment complex on property located at the southwest corner of Kodiak and Lincoln Oak Drives.
- e. Approval of a Final Development Plan in the Village One Specific Plan Precise Plan Area No. 20 for a 248-unit apartment complex on property located at the northwest corner of Floyd and Roselle Avenues.
- f. Adoption of Precise Plan Area No. 15 of the Village One Specific Plan amending the zoning from SP-H to SP-O. The property is located at the northwest corner of Kodiak Drive and Bear Cub Lane.
- g. Adoption of Precise Plan Area No. 16 of the Village One Specific Plan amending the zoning from SP-H to SP-O. The property is located east of convergence of Hillglen Avenue and Kodiak Drive.
- h. Adoption of Precise Plan Area No. 2 of the Village One Specific Plan amending the zoning from SP-H to SP-O. The property is located at the southeast corner of Sylvan Avenue and Oakdale Road.
- i. Adoption of Precise Plan Area No. 17 of the Village One Specific Plan amending the zoning from SP-H to SP-O. The property is located at the northeast corner of Floyd Avenue and Oakdale Road.

8. Variances

The City considered three variance applications consisting of three requests to encroach within the setback requirements, listed as follows:

- a. Denial of a variance for properties located at 1629 Westridge Place and 1620 Radcliff Avenue. The variance request was to permit an extension of a six-foot- high fence into the side-yard setbacks.
- b. Approval of a variance to permit a new two-story house with four-foot and six- foot side and rear-yard setbacks respectively on property located at 926 Fourth Street in the R-3 Zone.
- c. Approval of a variance to allow a new garage to be built ten feet from the street right-of-way (Lucern Avenue) at 110 Chabot Court.

9. Conditional Use Permits

The City considered 13 conditional use permit (CUP) applications. These CUP applications involved a variety of land use proposals listed below.

- a. CUP granted for a parking area on a R-2 lot on Melrose Avenue.
- b. CUP granted for a second dwelling at 811 Third Street.
- c. CUP granted for Phase I of a 57,000-square-foot office development at Pelandale Avenue and Prescott Road.
- d. CUP granted for professional offices at Dale Road and Snyder Avenue.
- e. CUP granted to convert an existing duplex and add a new second dwelling unit at 529 Terminal Avenue.
- f. CUP granted for a 6-foot Tall Cellular Communications Antenna Facility and Related equipment at 2925 Snyder Avenue.
- g. CUP granted for a parking lot at Alma and Audrey Avenues.
- h. CUP granted for a combined business identification sign at 3025 McHenry Avenue.
- i. CUP amendment to allow an additional modular classroom building at 3337 Coffee Road.

- j. CUP granted for an expansion of Bethany Missionary Baptist Church at 3135 Sixth Street.
- k. CUP granted for a 48-bedroom residential care/service facility and variance to provide a18 off-street parking spaces, 1932 Evergreen Avenue.
- l. CUP granted for a new fire station at Carver Road and Pelandale Avenue.
- m. CUP granted to the applicant to occupy an existing building at Sylvan Avenue and Oakdale Road.

10. Plot Plan Applications

The City considered three residential and two commercial Plot Plan applications. They are further described below:

- a. Plot Plan approval for property located at the northeast corner of Julian and Fusco Avenues. The Plot Plan application was for the creation and development of two flag lots in the R-1 Zone.
- b. Plot Plan approval for property located on 924 Rouse Avenue. The Plot Plan application was for the development of nine additional residential units in the R-2 Zone.
- c. Plot Plan approval for property located at 1304 Fiori Avenue. The Plot Plan application was for the development of a second dwelling unit in the R-1 Zone.
- d. Plot Plan approval for property located at on the west side of Coffee Road opposite Ensenada Drive. The Plot Plan application was for the development of a 2,600-foot office building in the Professional Office (PO) Zone.
- e. Plot Plan approval for property located at the northwest corner of Sylvan Avenue and Kingswood Drive. The Plot Plan application is for the development of a 7,500-square-foot medical office building and associated off-street parking.

11. Parcel and Subdivision Map Applications

The City processed 18 parcel map applications and 9 subdivision applications. The subdivision map applications involved 146.91 acres resulting in 678 new lots, a 47% increase over the previous year. The subdivision activity consisted of the following maps.

- a. Vesting Tentative Map of Granite Bay Townhouse Subdivision dividing 2.19 acres located at the southeast corner of Carson Oak Drive and Bridgewood Way into 24 lots.

- b. Vesting Tentative Map of Mira Loma Subdivision dividing 5.1 acres located on the southeast corner of Encina Avenue and North Conejo Avenue into 24 lots.
- c. Vesting Tentative Map of Pelandale Professional Park Subdivision dividing 1.82 acres located at the southwest corner of Dale Road and Fleur de Lis Drive into 16 office condominium lots.
- d. Vesting Tentative Map of Hacienda Del Sol Subdivision dividing 50 acres located on the northwest corner of Floyd Avenue and Lincoln Oak Drive into 171 single-family lots and a ten-acre multi-family parcel.
- e. Vesting Tentative Map of Village Ranch Subdivision dividing 40 acres located on the northwest corner of Floyd and Roselle Avenue into 138 single family lots and a ten-acre multi-family.
- f. Vesting Tentative Map of Udonia Grove Subdivision dividing 2.7 acres located on the north side of Chicago Avenue, east of Udonia Lane into nine lots and a remainder parcel.
- g. Vesting Tentative Subdivision Map of Mesilla Valley Estates Subdivision dividing 1.06 acres located on the north side of Kansas Avenue, east of Garzas Court into 10 lots.
- h. Vesting Tentative Map of Kodiak Village Subdivision dividing 50 acres located immediately east of the convergence of Hillglen Avenue and Kodiak Drive into 201 lots.
- i. Vesting Tentative Map of Oakdale Road Subdivision dividing 13.5 acres located at the northwest corner of Hillglen Avenue and Wood Sorrell Drive into 93 lots.

A location map depicting the approved tentative subdivisions is included as Map 2.

12. Miscellaneous Development Permits

The City processed nine additional development entitlement permits as follows:

- a. Revised Development Plan for Planned Development (P-D)437 to allow outdoor storage on property located on the southwest corner of Carpenter and Torrid Avenues.
- b. Revised Development Plan for P-D(451) to allow a Walgreen's Drugstore at the southwest corner of Standiford Avenue and Carver Road.
- c. Revised Development Plan for P-D(35) to allow for the addition of a 5,000-square-foot office building on property located on the northwest corner of Celeste and Vera Cruz Drives.

- d. Amendment to P-D(133) for addition of two freestanding signs on property located on the north side of Standiford Avenue, west of Tully Road.
- e. Revised Development Plan for P-D(470) reducing building square footage and modified Condition No. 3, relating to traffic improvements for property located at the northwest corner of Carpenter Road and Torrid Avenue.
- f. Amendment to P-D(73) for a six-story, eight level parking structure and a two-story office building addition on property located at the northeast corner of Coffee Road and Briggsmore Avenue.
- g. Vacation and Abandonment of walkway right-of-way between 1333 and 1401 Locke Road.
- h. Denial of an appeal for a second-story addition at 928 Enslin Avenue.
- i. Denial of an appeal to re-use and existing freestanding sign at 2024 West Orangeburg Avenue.

13. Annexations

Approved the submittal of one annexation application of 17.4 acres located at the northeast corner Coffee Road and Claratina Avenue to the City of Modesto.

14. Building Permit Activity

During 2003, a total of 920 new resident building permits were issued. 844 were for single-family homes and 76 for multi-family units. A total of 44 building permits for new commercial development valued at approximately \$36,937,000 were issued. A total of 3 building permits for new industrial development valued at approximately \$936,700 were also issued.

15. Summary of Planning Application Activity

A table summarizing the complete applicant initiated planning activity during 2003 is provided below.

**Table A  
Summary of Planning Application Activity During 2003:**

<b>Type of Application Activity in 2003</b>	<b>Number of Applications</b>
General Plan Amendments	2
Specific Plan Amendments	3
Precise Plan Amendments	9
Rezoning	8
Variances	3

## **B. CITY INITIATED PLANNING ACTIVITY**

During 2003, the City of Modesto also conducted proactive planning activities. These activities focused on a variety of development issues.

### **1. General Plan Amendment and Master Environment Impact Report.**

On March 4, 2003, the City Council certified the General Plan Master Environmental Impact report (MEIR) update and adopted amendments to the General Plan to approve changes to the Circulation and Transportation Map, School Policy text, Archaeological and Historic Resource Policies, Airport Noise Policy, Employment Estimates in Comprehensive Planning Districts (CPD), combine CPD's to create a Salida CPD consistent with the County General Plan.

### **2. Housing Element Update**

The Community and Economic Development Department in collaboration with the Parks, Recreation and Neighborhoods Department completed a draft of the Housing Element update in 2003. The Housing Element was eventually adopted by the City of Modesto on April 27, 2004 and certified to be in compliance with Housing Element Law by the Housing and State Department of Housing and Community Development on May 11, 2004.

### **3. Virginia Corridor Specific Plan**

The City Adopted the Virginia Avenue Corridor Specific Plan for the Virginia Corridor Trail Project, which is a proposed bicycle and pedestrian trail to be located within 4.2 miles of abandoned Union Pacific Railroad corridor, from Needham Avenue near downtown to Bangs Avenue in the north Modesto.

### **4. Kansas Avenue Business Park**

During 2003, the Community and Economic Development Department drafted a Guide for Development of the Kansas Avenue Business Park. The Guide outlines general design objectives for the Kansas Avenue Business Park, and is also used to reach a consensus for the development envisioned for the area. Work is now underway to complete a specific plan for the property. In addition, staff is also working on a focused environmental impact report for the proposed project. The proposed site is comprised 27 industrially zoned parcels, totaling 94 acres with approximately 45 acres being undeveloped.

### **5. Kiernan Business Park East**

The City held a series of meetings with property owners in the Kiernan Business Park Specific Plan to discuss the preparation of the Kiernan Business Park Implementation Plan. The plan would identify the necessary infrastructure and funding commitments necessary to permit development to occur within the Specific Plan area.

6. Roselle/Claribel Specific Plan, General Plan Amendment and Focused EIR

Staff from various City departments reviewed revised conceptual plans for the development of the Roselle/Claribel Specific Plan area. Oakdale Road, Sylvan Avenue, Roselle Avenue, and the Claratina Expressway border the project area. The Plan would establish the development pattern for approximately 480 acres.

7. Infrastructure Studies

The Public Works Department continued several infrastructure studies to measure the carrying capacity of existing sewer, water, and storm drainage infrastructure along with anticipated impact from the development of new growth areas. The results of these studies are scheduled for completion in 2004.

8. Community Parks

The City began the master plans for two community parks (Grogan Community Park and Sutton Community Park). Preparation of the site plans and the environmental review process for the projects began in 2003 and is expected to be adopted in 2004.

9. Urban Growth Policy Review

On July 1, 2003, the City Council approved the 2003 Urban Growth Policy Review Report. This report fulfills the Community Growth Strategy identified in the Modesto Urban Area General Plan. The primary purpose of the Urban Growth Policy Review Strategy is to review growth trends in Modesto and provide for the selection of potential areas to be served with urban infrastructure during the ensuing five years. As an end result of the review, the City Council scheduled the following three areas for a Measure M public advisory vote:

- a. Johansen/Empire North Comprehensive Planning District (CPD) areas (624 acres).
- b. A portion of the Kiernan/Carver CPD (limited to the Waterman and Luchessa properties, consisting of approximately 80 acres).
- c. Shackelford Neighborhood (153 acres of existing residential development).

Each of the three areas received a positive advisory vote. Actual annexation and development of these areas will be subject to additional requirements.

### **C. IMPLEMENTATION OF ENVIRONMENTAL MITIGATION MEASURES**

The City continues to require appropriate conditions to mitigate potential impacts to the environment. In association with the 1995 General Plan update, the City adopted a Master Environmental Impact Report (MEIR). The adopted MEIR contained a number of environmental mitigation measures that are triggered when certain criteria are present in or near the project area (e.g.: riparian area, noise contour levels). The City incorporates appropriate mitigation measures identified in the MEIR as conditions of project approval. Several Program Environmental Impact Reports have been prepared and adopted since the adoption of the MEIR in 1995. These documents are also used to augment the mitigation measures listed in the Final MEIR. The City updated the certain components of the Modesto Urban Area General Plan as well as certain components of the MEIR in March 2003 as described earlier.

### **D. IMPLEMENTATION OF HOUSING POLICY**

As part of the Annual General Plan Report, the City is encouraged to report on certain housing conditions as listed in Government Code 65583 and 65584.

#### **1. Local Housing Growth**

During calendar year 2003, the region and the City experienced average population and housing unit increases. The City issued 920 permits for new housing units in calendar year 2003. Applying an average density of 2.85 persons per household would increase the City's population by approximately 2,622 persons during 2003.

#### **2. Local Housing Costs**

For the most part, new housing units built during 2003 catered to moderate and above moderate-income households. The median sales price of homes increased from \$190,000 to \$220,000.

#### **3. Lending Rates**

During 2003, mortgage interest rates remained low. This has enabled households to either refinance or afford a new and often larger residence. However the cost of housing has continued to increase as well.

#### **4. Residential Land Inventory**

The City's vacant residential land inventory has decreased due to housing development around the City's fringe. At this time, it appears that the City has sufficient land to accommodate average housing construction for the next four years, based on historical growth rates. The ability to provide sufficient infrastructure to serve new development will continue to present a major challenge in the future.

5. Housing Element Update

During 2003, the City continued its efforts to update the Housing Element. The City conducted a series of committee workshops to facilitate the update of the Housing Element. The City contracted with a housing analyst (Cotton/Bridges/Associates) to assist in this effort. The update efforts resulted in a review of housing accomplishments, identification of housing needs, identification of constraints to housing development, and review of housing goals, policies and programs. At the time of writing this report, the State Department of Housing and Community Development found the City's adopted Housing Element to be in compliance with State Housing Law.

6. 2001-2008 Regional Housing Needs Allocation (RHNA)

During 2002, Stanislaus Council of Governments (StanCOG) developed the 2001-2008 Regional Housing Needs Allocation report. This report was submitted to the State's Department of Housing and Community Development (HCD) for review and consideration. HCD did not approve StanCOG's Regional Housing Needs Allocation. The State projected an overall RHNA of 35,000 for the StanCOG area. This resulted in allocation of 15,347 housing units for Modesto.

7. Accomplishments of Federally funded Housing Assistance Programs [HOME and Community Development Block Grant (CDBG)]

The following summarizes accomplishments in fiscal year 2003-2004 under Consolidated Plan goals. In both the Five-Year Consolidated Plan and the One-Year Annual Action Plan, the City of Modesto adopted the national goals that accompany the HUD entitlement grants, as well as prioritizing specific activities within those national goals. Please refer to the chart at the end of this section that provides detail on fiscal year 2003-2004 accomplishments by the type of program within each national goal area.

❖ ***Goal: Provide decent housing, including assisting homeless persons in efforts to obtain affordable housing, retention of affordable housing stock, and increasing the stock of housing affordable to low- and moderate-income people.***

Assessment of Progress: During the year, the City supported this goal through the use of HOME funds for the construction of affordable housing, by providing CDBG funds for the housing maintenance program to preserve existing housing stock, and the use of CDBG and ESG funds for emergency and transitional shelters. Lack of adequate, affordable housing continues to be a major concern in our community. All low-income individuals and families are impacted, especially those with disabilities.

The main funding provided by the City of Modesto for the construction of new affordable housing was the funding to the Housing Authority of Stanislaus County for the construction of Miller Pointe and additional funds

for the STANCO project located at 3333 Carver. The Miller Pointe project, slated to open in September of 2004, will provide very-low income citizens with psychiatric disabilities with 16 units of housing. The project, co-sponsored by the Housing Authority of Stanislaus County, the County of Stanislaus Behavioral Health & Recovery Services Department, as well as the City of Modesto, is another excellent example of supportive housing in Modesto.

The Carver Road project will add an additional 18 units of affordable apartment complex units to the low-income residents of Modesto. This project is currently under construction, with the opening of the complex slated for January 2005. The City funded both projects with an additional funding of \$1,024,831, meeting the goal for Community Housing Development Organization (CHDO) set-aside funds and committing within \$100,000 of the amount estimated for HOME direct loans.

The Housing Rehabilitation Program continued to gain momentum in the target areas through the mandatory rehabilitation program areas and Citywide with the Emergency Home Repair Program (EHRP)/Disabled Access Assistance Program (DAAP) as well as the Minor Home Repair Grant Program. Over 52 housing units in the two mandatory target areas were inspected and completed, with 15 units currently in progress. Additionally, 13 housing units were completed under the EHRP/DAAP and 15 inspections and completions took place in the Minor Home Repair Grant Program. These statistics represent a 400% increase in inspections and completions from prior year's accomplishments. Additionally, the Housing Rehabilitation staff inspected 50 housing units in conjunction with the Tenant Based Rental Assistance (TBRA) Program, far exceeding the stated goal. Aid in the amount of \$124,973 was provided for the EHRP loans and \$25,301 for the Housing Maintenance Program loans in the mandatory target areas. In this area, the goal of completing 36 new inspections was far exceeded as well as the number of EHRP units completed. Due to an increased amount of private financing, the direct loan amount required was down; resulting in an increased number of units completed with less HUD funds. In the housing program, no demolitions were required and only one housing rehabilitation unit required temporary relocations, due to the project scope. No permanent relocation activities were triggered by HUD funds during program year 2003-2004.

The need for emergency and transitional shelters for the homeless continues to grow in our community. The City contracted out all of its Emergency Shelter Grant (ESG) funds to provide shelter needs of the homeless. Unfortunately, ESG funding can only provide for a minimum of the needs in our community, due to the small amount of funds received. In addition to the ESG, a special round of CDBG funding in the amount of \$69,000 was allocated to two local agencies to provide emergency winter shelter services. Due to this funding, as well as significant leveraging by the partnership agencies, over 602 homeless residents received housing during the winter season.

Also, City staff continued to work closely with the Housing and Support Services Collaborative to bring more funding into our community to address both the short- and long-term needs of our homeless population. It is only through the collaborative efforts of the many agencies that real progress in the homeless arena will be made. This "Collaborative" is in progress of creating a "10-year Plan to Eliminate Long-Term Homelessness" in response to HUD's mandate. It is anticipated that a community meeting to discuss the draft report will be scheduled before the end of the calendar year.

**Table B**  
**Summary of Federally Funded**  
**Housing Program accomplishments during 2003-2004:**

<b>Housing Type</b>	<b>Number of Households Assisted</b>
Owner Occupied Housing <i>Rehabilitation</i>	# of rehabs completed for low income households: <b>12</b> # of rehabs completed for very-low income households: <b>1</b>
Tenant Occupied Housing <i>Rehabilitation</i>	# of rehabs completed for low income households: <b>1</b>
Housing Unit Inspected in Target Areas	# of houses inspected: <b>45</b> # of houses with no code violations: <b>39</b> # of houses with Rehab in Progress: <b>6</b>
Owner Occupied Housing <i>Property Enhancement/Improvement</i>	# of low income households assisted: <b>1</b>
Owner Occupied Housing <i>Emergency Home Repairs</i>	# of low income households assisted: <b>11</b> # of very low income households assisted: <b>2</b>
Owner Occupied Housing <i>Disabled Access Assistance</i>	# of disabled households assisted: <b>4</b> (all of these also received an emergency home repair loan as well)
Owner Occupied Housing <i>Acquisition/Down Payment</i>	# of homebuyers assisted: <b>7</b>
Rental Housing-Multi Family <i>Acquisition/Construction</i>	# of units constructed: <b>34</b> units funded and in process- 0 complete at this time
Rental Housing-Multi Family <i>Acquisition/Rehabilitation</i>	# of units acquired/rehabilitated: <b>0</b>
Rental Housing <i>Tenant Based Rental Assistance</i>	# of low income households assisted: <b>23</b> # of very low income households: <b>19</b>
Emergency Shelter & Services	# of unduplicated homeless persons served: <b>2,185</b>
Special Facilities & Services <i>Children &amp; Teenagers at risk</i>	# of unduplicated homeless persons served: <b>524</b>

**E. PROGRESS IN MEETING THE REGIONAL HOUSING NEEDS**

The 2001-2008 Housing Needs Report required a total annual housing need as follows:

<b>Income Group</b>	<b>Annual Housing Need</b>	<b>Housing added in 2003</b>	<b>Remaining Need</b>
<b>Very Low</b>	450	0	<b>450</b>
<b>Low</b>	348	76	<b>272</b>
<b>Moderate</b>	430	42	<b>388</b>
<b>Above Moderate</b>	818	802	<b>16</b>
<b>Total</b>	2,046	920	<b>1,126</b>

The development of housing for very-low and low-income residents has been low at best. Affordable housing is a common issue faced by other communities throughout the State, and at this time is the focus of the proposed Housing Element update.

**F. ISSUES TO BE ADDRESSED**

The following issues are proposed to be addressed in the near future. As this report is intended for informational purposes, no action is requested on these issues at this time.

1. General Plan Update

The General Plan's Community Growth Policy Review states:

*"A review of the growth trends in the Modesto Urban Area should be held on a periodic basis, perhaps annually. This periodic review should provide for the selection of potential urban areas to be served with urban infrastructure during the ensuing five years."*

*(Source: Modesto Urban Area General Plan Chapter II, Section C General Plan Maintenance, 1. Urban Area Growth Policy Review.)*

The Urban Growth Review considers existing residential, industrial, and commercial vacant land inventories. With this information the City Council provides direction on the timing and location of annexation of lands to the City. This will be based on availability and capacity of existing public infrastructure and the City's financial resources. With limited financial resources, the City will have to closely evaluate the rate of future growth and development. The City Council is scheduled to consider the City's Urban Growth Policy in the spring-summer of 2005.

As a result of any Urban Growth Policy Review actions, the City Council may require a General Plan Amendment. A comprehensive General Plan update may also be directed by the City Council. Subsequent development proposals will be encouraged to be developed under a comprehensive development plan (e.g. Specific Plan). The Modesto downtown area may also be an area of special focus to help it become a regional business and cultural center for the Stanislaus County region.

## 2. Infrastructure

As part of the Urban Growth Policy Review, City staff will be providing information on the adequacy of existing public infrastructure and the availability of City resources. The City will be examining the availability of water for domestic use. The City will be evaluating the ability of its wastewater delivery and treatment system. The costs associated with providing adequate infrastructure will be tied to development fees.

## 3. Affordable Housing

Land values continue to increase as available vacant land sites dwindle. This directly affects the ability of a household to purchase a home in Modesto. The City will review actions that may result in increasing the supply of vacant residentially designated land.

The Housing Element will examine a variety of strategies that the City can apply in increasing opportunities for housing.

Housing affordability is also directly tied to a household's earning level. To this end, the City is moving forward on developing specific plans for the development of business parks (e.g. Kansas Avenue Business Park, North Gateway Business Park, Northwest Business Park). In addition, the retention and expansion of local jobs will remain a Council priority.

## 4. Preservation of Important Farmland

The City is committed to preserving important farmland outside of its Sphere of Influence. As part of the Urban Growth Review, the City will be carefully considering the direction of development within its Sphere of Influence as it affects important farmland.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 548**

**A RESOLUTION AUTHORIZING THE AWARD OF BID AND CONTRACT  
FOR FOUR (4) LIGHTED CROSSWALK UNITS TO SMARTSTUD SYSTEM OF  
VICTORIA BC, CANANDA FOR A TOTAL ESTIMATED COST OF \$68,288.88**

WHEREAS, the Public Works Department-Traffic and Development Services Division has requested the purchase of four (4) Lighted Crosswalk Units, and

WHEREAS, the economic Development Committee (EDC), at their February 9, 2004, meeting discussed this item and concurred with staff's recommendation, and

WHEREAS, on February 24, 2004, the City Council adopted Resolution No. 2004-113 approving the installation of lighted crosswalks at the intersections of Sunrise Avenue and Coolidge Avenue, Orangeburg Avenue and Martin Avenue, Floyd Avenue and Vicki Drive, and Rumble Road and Wales Way, and

WHEREAS, funding from an Office of Traffic Safety (OTS) grant in the amount of \$60,000, and a \$10,000 grant from the Community Development Block Grant (CDBG) has been awarded to the City for the purchase of this equipment, and

WHEREAS, funding for the lighted crosswalk units are budgeted in Account No. 2300-160-A221 (OTS Lighted Crosswalks Various) and Account No. 1130-320-3254-0505 (Direct Services Non-Housing), and

WHEREAS, the installation of the lighted crosswalks will promote citizen safety and enhance the quality of life in our community in accordance with the goals stated in the City of Modesto Strategic Plan by providing efficient and effective movement of people, goods, and services by enhancing traffic safety in the area, and

WHEREAS, Modesto Municipal Code, (MMC) Section 8-3.203, generally requires all purchases that meet or exceed \$50,000.00 for material, equipment, or contractual services to be formally bid, and

WHEREAS, by resolution No. 2004-410, the City Council authorized the Purchasing Supervisor to solicit formal bids for the purchase of four (4) lighted crosswalk units, and

WHEREAS, the Purchasing Division solicited formal bids for four (4) lighted crosswalk units, and

WHEREAS, out of eight (8) vendors solicited, three (3) responded to the RFB, and

WHEREAS, the bids received were evaluated per specification 0405-02 by the Purchasing Division and the Public Works Department staff, and

WHEREAS, SmartStud System of Victoria, BC, Canada is the lowest responsive and responsible bidder,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the award of bid and contact for four (4) lighted crosswalk units to SmartStud Systems of Victoria, BC. Canada for a total estimated amount of \$68,288.88.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of October 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-549**

**A RESOLUTION TERMINATING DESARROLLO LATINO AMERICANO, INC. (DLA) COMMUNITY HOUSING DEVELOPMENT ORGANIZATION (CHDO) AND COMMUNITY BASED DEVELOPMENT ORGANIZATION (CBDO) STATUS.**

WHEREAS, On September 15, 1998, by Resolution 98-490, the City Council designated Desarrollo Latino Americano, Inc. (DLA) as a local Community Housing Development Organization (CHDO); the "CHDO" term is a Department of Housing and Urban Development (HUD) designation given to local non-profit agencies that work in communities to provide affordable housing for communities low-income residents, and

WHEREAS, to be designated as a CHDO, an organization must meet certain requirements pertaining to their legal status, organizational structure, capacity, and experience; a CHDO is intended to respond to a particular community's needs; and a minimum of one-third of the organization's board is required to be either a low income resident, reside in a low-income community, or be an elected representative of a low-income neighborhood organization, and

WHEREAS, in addition, to receive a CHDO designation, the organization must be legally recognized as a non-profit, community-based service organization; a CHDO must be committed and have the capacity to develop affordable housing in the community it serves, and

WHEREAS, on May 23, 2000, by Resolution 2000-241, the City Council designated DLA as a local Community Based Development Organization (CBDO); to receive a CBDO designation, an organization must be a legally recognized non-profit,

community based service organization conducting activities in neighborhood revitalization, community economic development, or energy conservation, and

WHEREAS, in addition, there is a requirement that 51% of the agency's board be low-moderate income residents of its service area or owners or officers of entities located in the service area or representatives of low-moderate income organizations in the service area; HUD regulations Section 570.24(c)(2) qualifies any entity as a CBDO that has been designated by a HOME participating jurisdiction as a CHDO, and

WHEREAS, after reviewing the HOME Program and the Community Development Block Grant (CDBG) regulations and DLA's organizational capacity, financial status, and lack of Board participation or existence, staff is recommending terminating this organization's CHDO and CBDO status, and

WHEREAS, the Community Development Committee (CH&CDC) met on September 24, 2004, and accepted staff's recommendations,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby authorizes staff to terminate Desarrollo Latino Americano, Inc. (DLA's) Community Housing Development Organization (CHDO) and Community Based Development Organization (CBDO) status.

BE IT FURTHER RESOLVED that staff is hereby authorized to send a letter to Desarrollo Latino Americano with the Council's resolution, and to notify the Department of Housing and Urban Development (HUD) to remove DLA's CHDO and CBDO status.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of October 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-550**

**A RESOLUTION APPROVING THE APPLICATION FOR \$1,000,000 IN FUNDING FROM THE CALIFORNIA YOUTH SOCCER AND RECREATION DEVELOPMENT PROGRAM UNDER THE CALIFORNIA CLEAN WATER, CLEAN AIR, SAFE NEIGHBORHOOD PARKS, AND COASTAL PROTECTION ACT OF 2002, FOR THE DEVELOPMENT OF A SOCCER COMPLEX AT MARY E. GROGAN PARK AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE THE GRANT APPLICATION AND CONTRACT DOCUMENTS.**

WHEREAS, the people of the State of California have enacted the CALIFORNIA CLEAN WATER, CLEAN AIR, SAFE NEIGHBORHOOD PARKS, AND COASTAL PROTECTION ACT OF 2002, which provides funds to the State of California for grants to eligible Applicants, and

WHEREAS, the California Department of Parks and Recreation has been delegated the responsibility for the administration of the California Youth Soccer and Recreation Development Program and the grant Project shown above within the State, setting up necessary procedures, and

WHEREAS, development of the Soccer Complex at Grogan Community Park is consistent with the California Youth Soccer and Recreation Development Program grant project criteria, and

WHEREAS, said procedures established by the California Department of Parks and Recreation require the Applicant's Governing Body to certify by resolution the approval of the Application before submission of said Application to the State, and

WHEREAS, the Applicant will enter into a Contract with the State of California for the Project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby:

1. Approves the filing of an Application for \$1,000,000 in local assistance funds from the California Youth Soccer and Recreation Development Program under the California Clean Water, Clean Air, Safe Neighborhood Parks and Coastal Protection Act of 2002; and
2. Certifies that the City of Modesto has or will have sufficient funds to operate and maintain the Project; and
3. Certifies that the City of Modesto has reviewed, understands, and agrees to the General Provisions contained in the Contract shown in the Procedural Guide; and
4. Certifies that the Grantee has or will have available, prior to commencement of any work on the project, the required match; and
5. Certifies that the Project conforms to the recreation element of any applicable city or county general plan; and
6. Appoints the Acting City Manager, or his designee, as agent to conduct all negotiations, execute and submit all documents including, but not limited to, Applications, agreements, payment requests and so on, which may be necessary for the completion of the Project.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of October 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-551**

**A RESOLUTION APPROVING AN ADDITIONAL AGREEMENT WITH CALLANDER ASSOCIATES LANDSCAPE ARCHITECTURE, INC. FOR PREPARING DESIGN DEVELOPMENT, CONSTRUCTION DOCUMENTS, AND FOR PERFORMING BIDDING AND CONSTRUCTION ADMINISTRATION SERVICES FOR THE VIRGINIA AVENUE CORRIDOR BIKE TRAIL/LINEAR PARK PROJECT, PHASES III THROUGH VII, AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE THE AGREEMENT.**

WHEREAS, the Virginia Avenue Corridor Trail Project (“Project”) consists of conversion of the abandoned, 4.2 mile Union Pacific Railroad corridor – from City’s central business district at Needham Avenue to the northern City boundary at Bangs Avenue – to a premier linear park with Class I bikeway and pedestrian trail, and

WHEREAS, the project will provide a key north-south component to the City’s non-motorized transportation system, and it will provide links to three of the City’s existing east-west Class I bike trails (the Dry Creek and Tuolumne River corridors and the Hetch-Hetchy Right-of-Way corridor) as well as numerous Class II bike lanes and Class III bike routes along roadways, and

WHEREAS, Phase I of the trail construction is titled “Virginia Corridor Crossings and Grade Restoration”, and will provide LED lighted crosswalks at five crossings, lowered grades at most street/trail crossings, lights and accessible ramps; this phase of work has begun construction and is anticipated for completion by April 2005, and

WHEREAS, Phase II trail construction will occur along the old rail corridor adjacent to Roseburg Square, between Roseburg and Orangeburg Avenues; Modesto’s five Rotary Clubs have committed to combining resources with the City in providing funding, in-kind labor and materials for this project phase, to be known as the “Five

Rotary Clubs of Modesto Centennial Junction” section of the Project; and this phase of the Project will commence this December, with completion anticipated for July 2005., and

WHEREAS, the City of Modesto wishes to continue the design development and construction of the Virginia Corridor as identified in the adopted Virginia Corridor Specific Plan, and

WHEREAS, the City’s Parks, Recreation and Neighborhoods Department now wishes to enter into a separate agreement with Callander Associates Landscape Architecture to provide for design development, construction documents, and bidding and construction administration services for Phase III through Phase VII, and

WHEREAS, the opportunity to utilize the same consultant from Specific Plan through final construction documents, for all phases, continues a proven relationship with the City and the community, ensures consistency in the project design, and maintains the necessary background and knowledge base, thus reducing costs to the City because the knowledge base will not need to be transferred, and

WHEREAS, the Safety and Communities Committee met on October 4, 2004, and supported the recommendation to enter into an additional agreement with Callander Associates Landscape Architecture, Inc. for preparing design development, construction documents, and for performing bidding and construction administration services for the Virginia Avenue Corridor Bike Trail/Linear Park Project, Phases III through VII,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves an additional agreement with Callander Associates Landscape Architecture, Inc. for preparing design development, construction documents,

and for performing bidding and construction administration services for the Virginia Avenue Corridor Bike Trail/Linear Park Project, Phases III through VII.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of October 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

# EXHIBIT "A" or "Project"

## Scope of Work Virginia Corridor Master Plan Phase Three Design Development, Construction Documents, and Bidding and Construction Administration

### A. Project Description:

The City of Modesto wishes to continue design development and construction of the Virginia Corridor Master Plan as identified in the adopted Virginia Corridor Specific Plan. The City envisions the bicycle path and associated linear park elements to provide a major north/south non-motorized transportation spine for the residents of Modesto. The magnitude of the project, both in length and anticipated construction costs, requires that the project be constructed over a series of seven phases. The first two phases being complete, the following Scope of Work includes provisions for design development, construction documents, and bidding and construction administration services for phase three only.

### B. Construction Costs

The following construction estimates are based upon the October 8, 2003 estimate of probable construction costs by phase. These estimates include our assumptions for scope of improvements and construction costs. Refer to attached Phase Three Project Limits Diagram, dated September 17, 2004, for phase location.

Phase Three	\$3,185,742
Needham to Roseburg	
Orangeburg to Granger	

### C. Phase Three Elements

The elements to be included in the phase three project are as follows and within the project limits as indicated in the June 28, 2004 Project Limits Diagram attached and as detailed in the September 11, 2003 Estimate of Probable Construction Costs and the October 8, 2003 estimate of probable construction costs by phase.

- Development of donation package and marketing poster for the entire Virginia Corridor
- Class One bike path from Roseburg to Needham
- Entry nodes at Granger (southside), Orangeburg (northside), Roseburg (southside), Griswold/Princeton, Coldwell, Morris, Stoddard, College, and Needham
- On-street parking along Terminal Avenue
- Pedestrian lighting along path alignment

- Approximately 300 linear feet of box culvert for MID Lateral #4
- Pre-fabricated pedestrian bridge over MID Lateral #4
- Small park at Morris Avenue including play area, pre-fabricated restroom, picnic tables, and other amenities listed in cost estimates
- Coordinate work with a separate Virginia Corridor crossings and grade restoration project
- Improvements at Needham, College, Stoddard, Morris, Coldwell, Griswold, Roseburg, Orangeburg, and Granger will be from back of walk since intersection improvements will be completed as a separate project by the City.
- Trail amenities including thematic fencing, split rail fencing, benches, trash receptacles, informational kiosk, and trail signage
- Landscape and irrigation improvements
- Project excludes trailhead parking lot at College Avenue.
- Provide area at Orangeburg Place for train placement, but no provisions for actual placement are included (exclusions include structural, logistics, rail placement, etc.).

#### D. Phase Three Services

In an effort to guide and control the schedule, scope and improvement costs of the Virginia Corridor Phase Three project, Callander Associates has developed the following scope. Modifications and refinements can be accommodated at the project start and adjusted periodically throughout the process as may be beneficial to the project. Items shown in *boldface italics* represent the deliverables or work documents to be provided at that task.

The following scope and corresponding fees are based on a construction budget of \$3,185,742 as the anticipated lowest responsible bid. This budget includes \$3,065,742, from the October 8, 2003 estimate of probable construction costs by phase, and an estimated \$120,000 for a new pedestrian bridge crossing MID Lateral #4. This budget is established as a condition of this Agreement. It shall be reviewed by the parties and shall include a bidding contingency of ten percent unless another amount is indicated. Callander Associates shall be permitted to determine what materials, equipment, component systems and types of construction are to be included in the Contract Documents, and to make reasonable adjustments in the scope of the project to bring it within the fixed limit. Callander Associates may also include in the Contract Documents alternate bids to adjust the construction cost to the fixed limit.

#### Task 1.0 Donation And Marketing Materials

- 1.01 **Initial Meeting:** Review scope, schedule and cost for donation and marketing efforts, design development, and construction documents with City staff. Review City process. Identify available and required City documents, define project goals, update design program, and submit *written summary* of same.
- 1.02 **Document Review:** Obtain and review other information that may be pertinent from Parks, Recreation, and Neighborhoods and Planning Departments. Review existing design guidelines,

documents, or other existing base information provided by City. Evaluate adequacy and/or need for additional information. Prepare *summary memo*.

- 1.03 **Schedule:** Prepare a detailed time *schedule* in bar chart format for the entire project through construction.
- 1.04 **Donation Opportunities Booklet:** Based upon the Virginia Corridor Specific Plan identify those items that the City could accept donations for including but not limited to site furnishings, lighting, plant materials, maintenance, etc. Prepare 8-1/2x11 booklet with a picture or graphic and written description of each item. Description to include product information, description, quantities, and donation dollar amount based upon a given formula to be provided by the City. Submit five copies of the *draft donation opportunities booklet* to City for review.
- 1.05 **Donation Brochure:** Prepare a marketing mailer, to be sent to prospective donors, that would provide basic information about the project, donation opportunities available, and where to obtain more information. Mailer to a maximum one double-sided, 8-1/2x11 sheet folded for mailing. Submit five copies of the *draft donation brochure* to City for review.
- 1.06 **Marketing Poster:** Based upon the Virginia Corridor Specific Plan, proceed to develop a graphic marketing poster delineating major aspects of the corridor through graphic images and descriptive text. The poster will be a maximum 18" x24" in size and will utilize existing and newly developed graphics and text. Submit five copies of the *draft marketing poster* to City for review.
- 1.07 **Staff Meeting:** Review the above information in a single work session with Parks, Recreation, and Neighborhoods staff to refine, change and modify where prudent. Prepare *written summary* of meeting.
- 1.08 **Final Donation and Marketing Materials:** Based upon the comments generated in the above task, proceed to revise and finalize documents. Submit one camera-ready original and electronic file as *final donation opportunities booklet, final donation brochure, and final marketing poster* for use and reproduction by the City.

## Task 2.0 Design Development

- 2.01 **Topographic Survey:** Provide supplemental survey information to the topographic survey provided during the conceptual design phase and prepared by Hawkins & Associates Engineering. Additional topographic information will be provided within project limits, up to the amount indicated for survey in the compensation summary. Information to include contours at one foot intervals, existing tree locations and sizes, surface and subsurface utility information based upon available record information, property lines, and other existing features (excludes potholing). Submit electronic *topographic survey* in Autocad 2002 for City records.
- 2.02 **Utility Evaluation:** Verify existing water, electrical, and storm drain service connections for domestic and irrigation water service, storm drainage, and pedestrian lighting. Indicate same on overlay of topographic survey and designate as *utility connections diagram*.
- 2.03 **Site Reconnaissance:** Conduct site reconnaissance with topographic survey in hand. Evaluate access, grades, utilities, trees, fences, buffers, etc. Photograph site for in-house study and reference, as well as for future presentations. Prepare photo *log* for studio use.
- 2.04 **Base Maps:** Using prepared topographic survey, prepare *twenty scale base maps*, in Autocad 2002 format, within project limits. Six base sheets are anticipated.

- 2.05 **Horticultural Soils Analysis:** Obtain up to six horticultural soils samples to verify agricultural suitability of existing; submit *letter report*.
- 2.06 **Geotechnical Report:** Take up to 50 borings along the length of the project. Majority of borings will only extend to the bottom of the ballast with ten (10) deeper borings along the trail and at the proposed pedestrian bridge (50 foot depth borings) and box culvert. Borings will be reviewed to determine depth of ballast and deeper borings will be tested to determine engineering properties. Specific recommendations will be made in regards to site preparation and fill placement, light pole foundation design, exterior flatwork, deep foundation design, retaining wall design, site drainage, and bike path pavements. Provide *summary report* detailing above including pavement section and structural recommendations for parking lots, trails, and pedestrian walkways.
- 2.07 **MID/Utility Coordination:** Provide up to 36 hours of ongoing coordination with MID, SBC, Comcast, PG&E, Water, and Sewer Company staff during construction document process. Submit plans at each stage for MID review, contact and coordinate with staff, confirm standards, and review design.
- 2.08 **Design Development Submittal - 35% Submittal:** Based on the comments received from the above meetings and the analysis of other items, revise plan as required. Proceed to develop *construction documents* to a 35% level of completion. All drawings shall prepared on AutoCAD Version 2002. Package to include:
- Title Sheet
  - Preliminary Grading Plan (including storm drain points of connection) (1:20)
  - Preliminary Site Construction Plan (1:20)
  - Preliminary Irrigation Plan (including water point of connection) (1:20)
  - Preliminary Planting Plan (1:20)
  - Preliminary Lighting Plan (including electrical point of connection) (1:20)
  - Design development level construction details
- 2.09 **Cost Estimate:** Prepare a preliminary list of quantities and provide a preliminary *construction cost estimate*.
- 2.10 **Draft Specifications:** Prepare draft contract specifications book and bid form, using City of Modesto standard boilerplate and Standard Specifications, as appropriate.
- 2.11 **Design Development Book:** Confirm final selections of pre-manufactured items and design details for major features with City staff. Prepare packet of information to contain catalog cuts and information on site amenities, site furniture, irrigation equipment, electrical equipment, plant materials, and related items. Submit five copies of the *Design Development Book* to City for review and approval.
- 2.12 **Staff Meeting:** Review the above information in a single joint work session with Parks, Recreation, and Neighborhoods and Planning Department staff to refine, change and modify where prudent. Prepare *written summary* of meeting.

### Task 3.0 Construction Documents

- 3.01 **Construction Documents - 65% Submittal:** Based on direction from City staff, comments received from the above meetings and the analysis of other items, proceed to develop

*construction documents* to a draft 65% level of completion. Plans shall adhere to City of Modesto Standards and Specifications. Package to include;

- Title Sheet
- Key Map/General Notes
- Demolition Plan
- Grading and Drainage Plan
- Signing and Pavement Marking Plan
- Site Construction Plan
- Irrigation Plans
- Planting Plans
- Construction Details
- Irrigation/Planting Details
- Electrical Plans (footing designs based upon geotechnical report)
- Structural Engineering Plans
- Technical Specifications

- 3.02 **Update Cost Estimate:** Prepare an updated list of quantities and provide an updated *construction cost estimate*.
- 3.03 **Staff Meeting:** Review the above information in a single joint work session with Parks, Recreation, and Neighborhoods and Planning Department staff to refine, change and modify where prudent. Prepare *written summary* of meeting.
- 3.04 **Permit or other Agency Reviews:** No services have been provided.
- 3.05 **Construction Documents - 95% Submittal:** After review of the 65% submittal by the City, proceed to develop *construction documents* to a draft 95% level of completion. Submittal to include updated plans, specifications, and estimate of probable construction costs. Submit for City review.
- 3.06 **Storm Water Plan:** Prepare required storm water pollution prevention plan (SWPPP) in order to obtain the necessary General Permit, for the project, from the California State Water Resources Control Board (SWRCB). The plan shall include required information such as existing conditions description and plan, scope of construction, grading plan, inventory of contractor's activities, special site conditions, best management practices (BMPs) for contractor activities, BMPs for erosion and sediment control, post construction BMPs, and monitoring/maintenance plan. Submit 5 copies of SWPPP to City for application and submission to SWRCB.
- 3.07 **Staff Meeting:** Review the above information in a single joint work session with Parks, Recreation, and Neighborhoods and Planning Department staff to refine, change and modify where prudent. Prepare *written summary* of meeting.
- 3.08 **Bid Documents:** After review of the 95% submittal by the City, proceed to modify the documents for submission as a *final bidding package*. Provide five (5) sets of full size plans, plus camera-ready originals of plans and specifications for bidding.
- 3.09 **Final Landscape Architect's Estimate:** Prepare an updated *list of quantities* and provide an updated *landscape architect's construction cost estimate*.
- 3.10 **Project Archive:** Submit one *archive CD-ROM* of all electronic data including construction documents, specifications, cost estimate, survey, and other base information provided by the City to be scanned and included in electronic format.

## **4.0 Bidding and Construction Administration**

During the bidding and construction of Virginia Corridor Phase 3, Callander Associates will provide construction administration services to support City Inspectors. Services may include the following.

### **4.01 Pre-Construction Phase**

- a. Attend pre-bid meeting and assist City staff as directed.
- b. Review Engineer's takeoffs of quantities.
- c. Prepare project documentation system.
- d. Attend bid opening.
- e. Prepare agency for pre-construction conference.
- f. Attend pre-construction conference and prepare meeting minutes.
- g. Review coordination and communication procedures.
- h. Review procedures for receiving, logging, and transmitting submittals, RFI's and RFC's.
- i. Document pre-construction conditions using video and digital photographs, as directed by City staff.

### **4.02 Construction Phase**

- a. Verify Contractor has obtained all necessary approvals/permits prior to commencing work.
- b. Conduct weekly progress meetings with all pertinent parties in attendance.
- c. Prepare agendas and minutes to meetings.
- d. Process clarifications of the contract documents in response to requests by the Contractor.
- e. Review those submittals that are appropriate. Submittals requiring review by the Engineer of Record shall be logged and transmitted for formal review. Monitor Contractor's work for adherence to contract plans and specifications.
- f. Provide inspection and documentation of project related activities.
- g. Prepare inspection reports.
- h. Provide digital pictorial logbook of construction activities, if required.
- i. Review Contractor's construction schedule, request updates as appropriate, and track delays or accelerations based on actual Contractor operations.
- j. Develop "punch list" items and follow-up with corrective measures.
- k. Document information related to manpower, equipment and time for extra or force account work.
- l. Assist in preparing Change Orders for City execution.
- m. Review progress payments.
- n. Receive and evaluate all notices of potential claims and make recommendations to Department of Parks, Recreation, and Neighborhoods.

### **4.03 Post-Construction**

- a. Coordinate and schedule final inspection with City staff.
- b. Verify completion of punch-list items.
- c. Process and recommend final payment request.
- d. Review as-builts with Contractor and submit to City.
- e. Process notice of substantial/final completion.
- f. Process warranty/guarantee letter and/or bond if required.
- g. Transmit set of project files to the Department of Parks, Recreation, and Neighborhoods.

Promptly after the construction work associated with a work order is completed, Consultant shall notify Department of Parks, Recreation, and Neighborhoods in writing whether such work should be accepted by City as complete and final in accordance with the terms and conditions of City's contract for that construction work. Consultant's determination shall be given Department

of Parks, Recreation, and Neighborhoods. after diligent investigation including satisfaction of its other obligations under this contract. If Consultant recommends that the work should not be accepted by the City, Consultant shall document the facts and analysis supporting its determination in its written notification to the Department of Parks, Recreation, and Neighborhoods.

## **5.0 Additional Services**

- 5.01 **Additional Services:** All tasks not specifically noted above could be performed as additional services. These tasks would include, but not be limited to, all revisions or additional submittals required by the City or any other agency's review, other meetings, additional design studies, additional MID coordination or negotiating beyond specifically noted time period, or other tasks not specifically noted in the foregoing. These services would be billed hourly or on a lump sum fee basis to be documented in a written amendment to this agreement.

-END-

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-552**

**A RESOLUTION AUTHORIZING STAFF TO ISSUE A REQUEST FOR PROPOSALS (RFP) FOR PROPERTY MANAGEMENT OF PARKS, RECREATION AND NEIGHBORHOODS DEPARTMENT RENTAL PROPERTIES.**

WHEREAS, the City of Modesto's Parks Recreation and Neighborhoods Department has five rental properties it administers, and

WHEREAS, these properties are: 4205 Gomes Rd, Modesto; 801 N. McClure Rd., Modesto; 660 El Vista Dr., Modesto; 1204 River Rd., Modesto; 1318 W. Hatch Rd., Modesto, and

WHEREAS, City of Modesto staff has identified a special need for professional property management for these properties, and

WHEREAS, City of Modesto staff does not have the depth of expertise that is needed to be successful in professional property management, and

WHEREAS, City of Modesto staff is requesting authority to issue a Request for Proposal to qualified companies to contract with the City in Property Management for certain specified City-owned properties managed by the Parks, Recreation and Neighborhoods Department, and

WHEREAS, the company selected as a result of the RFP process will demonstrate the following management approach: (1) ability to provide management services that focus on long-term results, which add value to the City's property assets; (2) ability to resolve disputes in an expeditious manner while maintaining professionalism and ensuring the best benefit for the City; (3) ability to accurately apply the principles,

practices and legal requirements of real estate, property management and any and all pertinent laws and practices, and (4) ability to accurately apply the principles and practices of negotiations, conflict resolution, principles and practices of management, administration and resource allocation planning,

NOW, THEREFORE, BE IT RESOLVED, that the City Council of Modesto hereby authorizes staff to issue a Request for Proposal to search for a qualified company to provide high-quality property management for certain specified City-owned properties, managed by the Parks, Recreation and Neighborhoods Department.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of October 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-553**

**A RESOLUTION ACCEPTING THE REPORT ON XCLAMATION FEST 2004  
AND APPROVING XCLAMATION FEST 2005 HOSTED BY CHRIS RICCI  
PRESENTS, INC. AND JCD CONCEPTS 2000, INC. IN DOWNTOWN  
MODESTO ON SATURDAY JULY 23, 2005.**

WHEREAS, on April 25, 2000, by Resolution No. 2000-189, the City Council approved a license agreement with Chris Ricci Presents, Inc., to hold an annual Xclamation Fest, and

WHEREAS, the Safety & Communities Committee met on September 3, 2003, and supported approval of the Xclamation Fest 2004 for July 17, 2004, and

WHEREAS, on September 23, 2003, by Resolution No. 2003-511, the City Council approved Xclamation Fest 2004 hosted by Chris Ricci Presents, Inc. and JCD Concepts 2000, Inc. in downtown Modesto on Saturday, July 17, 2004, and

WHEREAS, the fifth annual Xclamation Fest was held on Saturday, July 17, 2004, and

WHEREAS, this downtown music and arts festival was successful, both financially and for providing a safe, entertaining festival for Modesto residents, and

WHEREAS, the proposed date for the 2005 annual Xclamation Fest is Saturday, July 23, 2005, and

WHEREAS, Mr. Ricci coordinates all Xclamation Fest events with the Modesto Police Department, the Downtown Improvement District, and the Modesto Centre Plaza staff in order to secure approvals and coordination for the event, and

WHEREAS, this event is of financial benefit to the City of Modesto and downtown merchants, and

WHEREAS, the Economic Development Committee reviewed this item at its September 13, 2004, meeting and supported approval of staff's report of Xclamation Fest 2004 and accepted the recommendation to support Xclamation Fest 2005,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby accepts staff's report on Xclamation Fest 2004 held in Downtown Modesto on Saturday, July 17, 2004.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Council hereby approves Xclamation Fest 2005 to be held in Downtown Modesto on Saturday, July 23, 2005.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of October 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-554**

**A RESOLUTION REVISING THE POSITION CLASSIFICATION PLAN FOR THE CITY OF MODESTO.**

WHEREAS, a Position Classification Plan for the City of Modesto was adopted by Modesto City Council Resolution 88-338 pursuant to Rule 2 of the Personnel Rules and Regulations of the City of Modesto, and

WHEREAS, the Acting City Manager has recommended to the Council amendments to the Position Classification Plan, and

WHEREAS, Rule 2.2 of the City of Modesto Personnel Rules provides that revisions to the Classification Plan shall be effective upon adoption of resolution of the City Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION I. CLASSIFICATION CREATED. The Position Classification Plan of the City of Modesto is hereby amended to create the following classification:

Housing and Urban Development Manager

The job specification for this classification is being created as a result of a reorganization previously approved by Council on July 6, 2004. The job specification for the classification of Housing and Urban Development Manager as shown on the attached **Exhibit "A,"** which is hereby made a part of this resolution by reference, is hereby approved and made part of the Position Classification Plan of the City of Modesto.

SECTION 2. EFFECTIVE DATE. This resolution shall become effective on and after October 26, 2004.

The foregoing resolution was introduced in a special meeting of the Council of the City of Modesto held on the 26th day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour

## HOUSING AND URBAN DEVELOPMENT MANAGER

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

### DEFINITION

Under general direction, the Housing and Urban Development (HUD) Manager is responsible to manage and coordinate the City's HUD entitlement programs including: Community Development Block Grant (CDBG) Administration, Emergency Shelter Grant funds, Public Service Grants, HOME program, housing rehabilitation, capital projects and related direct services.

### SUPERVISION EXERCISED AND RECEIVED

Receives administrative direction from the Deputy Director of Recreation and Neighborhoods.

Exercises direct supervision over professional, technical and clerical staff.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS – Essential and other important responsibilities and duties may include, but are not limited to, the following:

#### Essential Functions:

Direct, oversee and participate in the development of the unit's work plan; assign work activities, projects and programs; monitor workflow; implement policies and procedures; recommend goals and objectives.

Participate in the selection of staff; provide and coordinate staff training, work with employees to correct deficiencies; implement disciplinary procedures as necessary.

Develop, prepare and submit all reports to HUD, including the Five Year Consolidated Plan, Impediment to Fair Housing Plan, Annual Action Plan, the Comprehensive Annual Program Evaluation Report, and required amendments.

Provide direction and oversight to the disbursement of HUD funds.

Essential Functions: (Continued)

Manage, direct and organize the unit's housing rehabilitation activities, including preparing policies and alternatives for City Council, overseeing the progress of the rehabilitation "Target Areas" and relating to the Housing Rehabilitation Loan Committee.

Prepare the annual operating and capital HUD funded budget, and coordinate with other senior management staff; direct the forecast of funds needed for division goals; monitor and approve expenditures; implement mid-year adjustments.

Coordinate division activities with those of other departments and outside agencies and organizations; promote public relations; prepare and present staff reports and other necessary correspondence.

Prepare and present information to the public; work with diverse, grass roots neighborhood groups, leaders and residents; investigate complaints and recommend corrective action as necessary to resolve complaints.

Prepare and make presentation to the City Council, various committees, advisory group and neighborhood groups. Prepare policy statements and alternatives for City Council consideration in the areas, but not limited to: affordable housing programs and development, low income job development program, capital improvement projects in low income areas and programs for the homeless.

Serve as a liaison to the HUD-related citizens committees.

Marginal Functions:

Performs related duties as assigned.

QUALIFICATIONS:

Knowledge of:

Principles and practices of: organization, administration, supervision, training and personnel management.

Principles and practices of general HUD rules and regulations regarding eligible activities and yearly program requirements are strong desired.

Understanding of issues that affect the homeless population (in general) and the challenges for this group of citizens to secure quality housing and job placement on a long-term basis.

Exhibit "A"

Knowledge of: (Continued)

Housing rehabilitation program management including program guidelines and requirements.

Federal, State and local laws policy and best practices pertaining to housing and community development programs in low -income areas.

Record keeping and reporting procedures, including computerized systems.

Methods and techniques of statistical analysis, effective technical report preparation and presentation (both oral and graphic).

Principles of budgeting procedures and expenditure control, including federal reporting requirements.

Ability to:

Effectively manage assigned areas of the departmental program.

Interpret and apply pertinent laws, rules and regulations.

Ensure program compliance with: Federal, State, local rules, laws and regulations.

Prepare and administer a budget.

Supervise contracts with outside agencies for compliance.

Supervise one-stop facility consisting of multiple agencies.

Supervise, train, coach and evaluate assigned staff.

Prepare and analyze technical and comprehensive administrative reports, statements and correspondence.

Communicate clearly and concisely, both orally and in writing.

Establish and maintain cooperative-working relationships with those contacted in the course of work.

Work effectively with diverse, grass roots neighborhood groups, leaders, and residents.

Exhibit "A"

Experience and Training Guidelines:

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

Fours years of administrative level experience involving: community development program, housing development administration, financing or a related field, including two years of supervisor or lead responsibility.

Administrative experience with grant or entitlement funding is strongly desired.

Training:

Equivalent to a Bachelor's degree from an accredited college with major coursework in business administration, finance, public administration or a related field.

License or Certificate:

Possession of, or the ability to obtain, an appropriate, valid California driver's license.

WORKING CONDITIONS

Environmental Conditions:

Office and field environment; travel from site to site.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for walking, standing or sitting for prolonged periods of time using a personal computer and attending meetings.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-555**

**A RESOLUTION AMENDING EXHIBIT "A" OF RESOLUTION NO. 2003-178 (MODESTO CONFIDENTIAL AND MANAGEMENT ASSOCIATION MEMORANDUM OF UNDERSTANDING) TO AMEND THE CLASS RANGE TABLE FOR REPRESENTED MANAGEMENT AND CONFIDENTIAL NON-SWORN CLASSES TO ESTABLISH A SALARY RANGE FOR HOUSING AND URBAN DEVELOPMENT MANAGER AT RANGE 441.**

WHEREAS, the City Council desires to amend Exhibit "A" of Resolution No. 2003-178 (MCMA Memorandum Of Understanding),

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION I. AMENDMENT TO RESOLUTION NO. 2003-178. (MCMA Memorandum of Understanding), Resolution No. 2003-178 Effective April 8, 2003, is hereby amended as shown on the amended **Exhibit "A"** entitled "City of Modesto Class Range Table Represented Management and Confidential Non-Sworn Classes Effective October 26, 2004", which is attached hereto and made a part hereof as though set forth in full herein. Said amended **Exhibit "A"** establishes the salary range for Housing and Urban Development Manager at Range 441.

SECTION 2. EFFECTIVE DATE. This resolution shall become effective on and after October 26, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of October 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION No. 2004-556**

**A RESOLUTION APPROVING A FIVE (5%) PERCENT INCREASE IN SALARY FOR THE CITY ATTORNEY, A THIRTEEN (13%) PERCENT INCREASE IN SALARY FOR THE CITY CLERK/AUDITOR AND ADDITIONAL PAY AND BENEFITS FOR THE ACTING CITY MANAGER**

WHEREAS, by Resolution No. 2003-330 effective June 26, 2003, the City Council approved and established a "City of Modesto Schedule of Salary Ranges in City Service For FY 04-05 Effective June 29, 2004," for Executive Management (Exhibit "P"), and

WHEREAS, salaries for Charter Officers appointed by the Council are subject to periodic review and adjustment, and

WHEREAS, the Council desires to approve a thirteen (13%) percent increase in salary to JEAN ZAHR, City Clerk/Auditor, effective October 26<sup>th</sup>, 2004 which increase is within the range established in Exhibit "P" of Resolution No. 2003-330,

WHEREAS, the Council desires to approve a five (5%) percent increase in salary to MICHAEL MILICH, City Attorney, effective October 26<sup>th</sup>, 2004, which increase is within the range established in Exhibit "P" of Resolution No. 2003-330,

WHEREAS, Council desires to approve a five (5%) percent increase in salary to GEORGE BRITTON, Acting City Manager, in recognition of his acting assignment, effective October 26, 2004, which increase is within the range established in Exhibit "P" of Resolution No. 2003-330,

WHEREAS, Council desires to increase the City's contribution to GEORGE BRITTON'S 401(a) Money Purchase Deferred Compensation plan to four (4%) percent, requiring an equal contribution from the employee, consistent with the other Charter

Officers,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves increases in salary to JEAN ZAHR, City Clerk/Auditor, MICHAEL MILICH, City Attorney and GEORGE BRITTON, Acting City Manager, effective October 26, 2004, as follows:

Title	Hourly	Bi-Weekly	Monthly
City Clerk/Auditor	44.2197	3,537.58	7,694

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-561**

**A RESOLUTION APPROVING AND AUTHORIZING SUBMISSION OF THE LOCAL TRANSPORTATION FUND (LTF) CLAIM FOR FISCAL YEAR 2004-2005 (\$2,537,827), THE FISCAL YEAR 2003-2004 SUPPLEMENTAL (\$657,729), AND THE FISCAL YEAR 2003-2004 LTF CARRYOVER CLAIMS (\$2,846,623), FOR NON-TRANSIT PURPOSES ONLY, TO THE STANISLAUS COUNCIL OF GOVERNMENTS (STANCOG)**

WHEREAS, on February 11, 2003, StanCOG pursuant to California State Public Utility Codes (PUC) Section 99401.6 determined that there are no reasonable needs to meet, and

WHEREAS, on June 1, 2004, by Resolution No. 2004-289, the City Council approved the fiscal year 2004-2005 annual claim for Local Transportation Funds (LTF) for transit purposes only, and

WHEREAS, StanCOG informed the Finance Department it will allocate both the Annual and Supplemental LTF for use on local streets and roads pursuant to PUC Sections 99400 and 99233.11, and

WHEREAS, StanCOG informed the Finance Department it has allocated both the Annual and Supplemental LTF for pedestrian and bicycle facility uses pursuant to PUC Sections 99233.3 and 99234, and

WHEREAS, StanCOG informed the Finance Department the City of Modesto may claim \$2,401,699 of Annual fiscal year 2004-2005 LTF for street purposes, and \$136,158 for pedestrian and bicycle projects, and

WHEREAS, StanCOG informed the Finance Department the City of Modesto may claim \$623,048 of Supplemental LTF for street purposes, \$12,181 for pedestrian and bicycle projects, and \$22,500 for Transit Related operations.

WHEREAS, Council action authorizing the above claim is required by StanCOG pursuant to PUC Section 99261 before LTF can be released to the City of Modesto, and

WHEREAS, City of Modesto had a \$2,846,623 carryover of fiscal year 2003-2004 LTF funded Operations and Capital Improvement Project budget projects to fiscal year 2004-2005, and

WHEREAS, Council action authorizing the carryover claim is required by StanCOG pursuant to PUC Section 99261 before LTF can be budgeted by the City of Modesto for multi-year and fiscal year 2004-2005 Operations and Capital Improvement Projects,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves and authorizes the execution and submission of the claim for apportionment of the fiscal year 2004-2005 Annual (\$2,537,827) and fiscal year 2003-2004 Supplemental LTF (\$657,729) to StanCOG to obtain non-transit funds in the amount of \$3,195,556.

BE IT FURTHER RESOLVED, by the Council of the City of Modesto that it hereby approves and authorizes the execution and submission of the claim for apportionment of \$2,846,623 of carryover funds from fiscal year 2003-2004 to the fiscal year 2004-2005 Operations and Capital Improvement Budgets.

The foregoing resolution was introduced in a special meeting of the Council of the City of Modesto held on the 26th day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**A RESOLUTION ACCEPTING IMPROVEMENTS IN THE COVINGTON  
POINTE SUBDIVISION, IN THE PELANDALE-SNYDER SPECIFIC PLAN  
AREA, AUTHORIZING THE CITY CLERK TO RECORD A NOTICE OF  
COMPLETION AND AUTHORIZING RELEASE OF BONDS**

WHEREAS, MODESTO TULLY INVESTORS, L.P., A CALIFORNIA LIMITED PARTNERSHIP, BY MODESTO TULLY VENTURES, LLC, A CALIFORNIA LIMITED PARTNERSHIP COMPANY, is the subdivider of the COVINGTON POINTE SUDIVISION (“SUBDIVISION”), in the Pelandale-Snyder Specific Plan Area, and

WHEREAS, MODESTO TULLY INVESTORS, L.P., a California Limited Partnership, has filed irrevocable subdivision bonds to secure faithful performance and payment for labor and materials in the amounts of \$1,011,917.00 and \$505,958.50, respectively, and

WHEREAS, MODESTO TULLY INVESTORS, L.P., a California Limited Partnership, has filed a warranty bond in the amount of \$101,191.70 to guarantee improvements in the Covington Pointe Subdivision, and

WHEREAS, the City Engineer, in a memorandum to Council, indicates that all work required by the Subdivision Agreement has been completed to the satisfaction of the Public Works Department, and

WHEREAS, the City Engineer has indicated that it would be in order for the City Council to accept the improvements in said subdivision as complete, and authorize the City Clerk to file a Notice of Completion and release the bonds upon expiration of the statutory periods,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that:

1. The improvements in the Covington Pointe Subdivision are hereby accepted and the City Clerk is hereby authorized to record a Notice of Completion for the improvements.
2. The City Clerk is hereby authorized to release the subdivision bond for faithful performance in the amount of \$1,011,917.00 upon recordation of the Notice of Completion.
3. The City Clerk is hereby authorized to release the subdivision bond for labor and materials in the amount of \$505,958.50 sixty (60) days after the recordation of the Notice of Completion, provided no claim is made thereon.
4. The City Clerk is hereby authorized to release the warranty bond to guarantee improvements in the amount of \$101,191.70 one year and one day after the effective date of this resolution, provided no claim is made thereon.

The foregoing resolution was introduced in a special meeting of the Council of the City of Modesto held on the 26th day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

WHEREAS, the City of Modesto's Modesto Area Express (MAX) transit system operates an express commuter bus service between Modesto and the Dublin/Pleasanton BART station, and

WHEREAS, customers of that service need a place where they can park and then board the bus, and

WHEREAS, passengers of that service used the Vintage Faire Mall Park and Ride Lot, and

WHEREAS, in January 2003 Vintage Faire Mall informed staff that they planned to close its Park and Ride lot later that year, and

WHEREAS, the City began using the parking lot at Orchard Supply Hardware (OSH) on Sisk Road beginning July 1, 2003 on an informal basis due to the impending closure of the Vintage Fair Mall Park and Ride Lot, and

WHEREAS, Sears, Roebuck and Co., owners of OSH, are willing to lease fifty (50) spaces in the OSH Sisk Road parking lot at a cost of \$750 per quarter commencing retroactive to July 1, 2003 and expiring on September 30, 2005, and

WHEREAS, the Public Works Department staff recommended to the Economic Development Committee (EDC) approval of a lease agreement with Sears, Roebuck and Co. for the lease of fifty (50) spaces at the OSH Sisk Road parking lot, and

WHEREAS, the EDC met on October 11, 2004 and supported the recommendation of City staff and requested that the City Council be given the opportunity to raise fares on the BART Commuter Express bus to offset the cost of the lease, and

WHEREAS, by an agenda report to the City Council dated October 7, 2004, from the Public Works Director, City staff recommended to the Council that it approve the agreement with Sears, Roebuck and Co.,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the lease agreement with Sears, Roebuck and Co. for the lease of 50 parking spaces for park and ride purposes at a cost of \$750 per quarter year, commencing July 1, 2003 and expiring September 30, 2005.

BE IT FURTHER RESOLVED that the Acting City Manager is authorized to execute the lease agreement.

The foregoing resolution was introduced in a special meeting of the Council of the City of Modesto held on the 26th day of October, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating,  
Marsh, O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-564**

**A RESOLUTION ALLOCATING \$1,030,791 FROM FISCAL YEAR 2004-2005 HOME FUNDS TO THE HOUSING AUTHORITY OF THE COUNTY OF STANISLAUS FOR THE DEVELOPMENT OF THE VILLAGE ONE MULTI-FAMILY HOUSING PROJECT, AND AUTHORIZING THE ACTING CITY MANAGER OR HIS DESIGNEE TO EXECUTE THE AGREEMENTS, AND DIRECTING STAFF TO SEND A LETTER TO THE THREE ACTIVE AND APPROVED COMMUNITY HOUSING DEVELOPMENT ORGANIZATIONS (CHDOs) INVITING THEM TO SUBMIT A LETTER OF INTENT FOR THE CHDO SET ASIDE AND CHDO OPERATING FUNDS.**

WHEREAS, the City of Modesto receives annual entitlements from the Department of Housing and Urban Development (HUD) based on the population size, number of households living below poverty level and number of sub-standard housing units; a percentage of the HOME Investment Partnership Program (HOME) entitlement plus estimated program income may be allocated for the purposes of providing assistance consistent with the functions of HOME funding, CHDO funds can be allocated only to non-profit organizations that have been approved by the City of Modesto as CHDOs, and are active in Modesto and operating in compliance with the HOME regulations, and

WHEREAS, in fiscal year 2004-2005, HUD allocated \$1,375,817 in HOME entitlement funds to the City of Modesto; staff estimates program income to be \$100,000; which brings the HOME funds up to \$1,485,817, and

WHEREAS, in the past, the City of Modesto has released a Request For Proposal (RFP) to find projects that will provide affordable housing to very-low and low-income families or individuals; the RFP includes the direct loans funds as well as the CHDO set aside and CHDO operating funds; in the last few years we have received two responses to the RFP, and one response to the CHDO operating funds, and

WHEREAS, in fiscal year 2002-2003, the City of Modesto allocated \$245,000 to the Housing Authority for the pre-development of the Village One project; several

neighborhood meetings have been held; a design committee was created, with residents from Village One and staff from the Housing Authority; the City and the residents have invested a substantial amount of time in this project; all the above actions have assisted the Housing Authority to accomplish the pre-development phase with neighborhood participation, and

WHEREAS, recently, the Housing Authority submitted a letter stating that the Village One project will cost \$11.6 million; the Housing Authority has been able to secure some layers of funding but the current funding gap for this project is approximately \$4 million, and

WHEREAS, staff is recommending allocating additional \$1,030,791 from the HOME Investment Partnership Program funds to the Housing Authority for the development of this multi-family housing project to lower the \$4 million gap; without additional funding, the Housing Authority will not be able to begin construction, and

WHEREAS, the City has already pledged \$933,600, 80% of the FY 2002-2003 HOME funds, for the construction of this project; the Housing Authority is ready to prepare the site for construction; the neighborhood has accepted this project and is looking forward to its completion, and

WHEREAS, this project will add 60 affordable rental units to the City's housing stock. This apartment complex will provide decent safe and sanitary housing to low-income families; in addition, since the City has three active CHDOs and there is CHDO funding available, staff is recommending sending a letter to these organizations and inviting them to send a letter of intent if they are interested in applying for these funds; staff will set up a meeting with the review committee members to review the letters of intent and to make further recommendations for the allocations of the CHDO funds, and

WHEREAS, the Community Development Committee (CH&CDC) met on September 24, 2004, and accepted staff's recommendations,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby authorizes staff to allocate an additional \$1,030,791 from the HOME Investment Partnership Program funds to the Housing Authority of the County of Stanislaus for the development of the Village One Project.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the agreement.

BE IT FURTHER RESOLVED that staff is hereby directed to send a letter to the three active and approved Community Housing Development Organizations (CHDOs) inviting them to submit a letter of intent for the CHDO set aside and CHDO operating funds.

The foregoing resolution was introduced in a special meeting of the Council of the City of Modesto held on the 26th day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-565**

**A RESOLUTION AMENDING THE FISCAL YEAR 2004-05 OPERATING BUDGET TO TRANSFER \$1,030,791 FROM 1170-320-3259-3512, HOME CARRYOVER, TO 1170-320-3259-0497, DIRECT LOANS.**

WHEREAS, the City of Modesto receives annual entitlements from the Department of Housing and Urban Development (HUD) based on the population size, number of households living below poverty level and number of sub-standard housing units; a percentage of the HOME Investment Partnership Program (HOME) entitlement plus estimated program income may be allocated for the purposes of providing assistance consistent with the functions of HOME funding, and

WHEREAS, staff is recommending allocating \$1,030,791 from the HOME Investment Partnership Program funds to the Housing Authority for the development of a multi-family housing project in Village One, and

WHEREAS, funding is available from the HOME Fund Carryover, and

WHEREAS, in order to make these funds available to the Housing Authority, they need to be transferred into an operating account, and

WHEREAS, the Community Development Committee (CH&CDC) met on September 24, 2004, and accepted staff's recommendations to allocate \$1,030,791 to the Housing Authority,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves amending the FY 04-05 operating budget to transfer \$1,030,791 from 1170-320-3259-3512, HOME Carryover, to 1170-320-3259-0497, Direct Loans to fully fund the proposed FY 04-05 HOME Fund allocations.

MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-566

A RESOLUTION ESTABLISHING FIRST TEE GREEN FEE RATES AT THE MUNICIPAL NINE-HOLE GOLF COURSE, THE DRYDEN PARK MUNICIPAL GOLF COURSE AND THE CREEKSIDE MUNICIPAL GOLF COURSE, RESTATING GREEN FEE RATES AT THE MUNICIPAL NINE-HOLE GOLF COURSE, THE DRYDEN PARK MUNICIPAL GOLF COURSE AND THE CREEKSIDE MUNICIPAL GOLF COURSE, RESTATING RATES FOR ANNUAL PASSES, RESTATING RATES FOR SCHOOL GOLF TEAM ROUNDS AND RESTATING TOURNAMENT FEES, ENCOURAGING NEIGHBORING GOLF COURSES TO SUPPORT THE FIRST TEE PROGRAM AND RESCINDING RESOLUTION NO 2004-283.

WHEREAS, on May 25, 2004, the City Council adopted Resolution No. 2004-283 which increased green fees at Municipal Nine-Hole Golf Course, Dryden Park Municipal Golf Course and Creekside Golf Course, and

WHEREAS, Resolution No. 2004-283 also established new rates for annual passes, high school rounds and tournament play and introduced a 6-hole rate at Municipal Golf Course, and

WHEREAS, Resolution No. 2004-283 also dedicated \$1.00 per 18-hole round at the end of each fiscal year to the golf fund reserve for capital improvements, and

WHEREAS, the City entered into an agreement on June 10, 2003 with the Del Rio CC Foundation to administer The First Tee Program at Municipal Golf Course, and

WHEREAS, City staff is recommending that green fee rates be established for members of The First Tee at the Municipal Nine-Hole Golf Course, Dryden Park Municipal Golf Course, and Creekside Municipal Golf Course, and

WHEREAS, City staff is also recommending that neighboring golf courses be encouraged to support members of The First Tee program, and

WHEREAS, the Golf Courses Committee met on September 15, 2004 and supported The First Tee green fee rates at Municipal Nine-Hole Golf Course, Dryden Park Municipal Golf Course and Creekside Golf Course, and

WHEREAS, the Finance Committee met on September 27, 2004 and supported establishing First Tee green fee rates at all City Municipal courses and the encouragement of neighboring golf courses to supported the Golf Course, and

WHEREAS, by an agenda report to the City Council from the Parks, Recreation and Neighborhoods Department dated October 6, 2004, City staff recommended the changes as outlined in the report, and

WHEREAS, said matter was set for a public hearing of the City Council to be held at 5:30 p.m. on October 26, 2004, in the Tenth Street Place Chambers located at 1010 10<sup>th</sup> Street, Modesto, California, at which date and time said duly noticed public hearing of the Council was held for the purpose of receiving public comment on the proposed amended golf fees, and

WHEREAS, the Council of the City of Modesto finds that First Tee green fees for play need to be established at the Municipal Golf Course, the Dryden Park Municipal Golf Course and the Creekside Municipal Golf Course, and

WHEREAS, the Council of the City of Modesto encourages neighboring golf course to support members of The First Tee Program,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. RATES. The rates for players upon the Modesto Nine-Hole Municipal Golf Course, the Dryden Park Municipal Golf Course, and the Creekside Municipal Golf Course are hereby established as set forth on Exhibit "A" attached hereto.

The policies and rates for tournament players upon the Modesto Nine-Hole Municipal Golf Course, the Dryden Park Municipal Golf Course, and the Creekside Municipal Golf Course are hereby established as set forth on Exhibit "B" attached hereto.

SECTION 2. DISCOUNTS. (a) School Golf Teams. School golf team passes are to be issued only upon presentation by holder of a current high school or college student body card and verification of golf team membership by the school golf coach. Students shall possess and display an etiquette card obtained by completing a required training course in golf rules and etiquette at a recognized golf facility. Team members with team member passes must be accompanied by their respective golf coaches and shall play only between the hours of 2:00 p.m. and 5:00 p.m. during the spring golf season. The specific spring school golf team season will be set by the golf professional after receiving the schools' schedules of matches from each school coach. Green fees at the rate of \$5.00 per round shall be implemented for high school and Modesto Junior College golf programs at the Modesto Nine Hole Municipal Golf Course, the Dryden Park Municipal Golf Course and the Creekside Municipal Golf Course.

(b) Junior Discounts. Junior discounts are to be given only to persons eighteen (18) years of age and younger any day after 12:00 noon. Juniors shall possess and display an etiquette card obtained by completing a required training course in golf rules and etiquette at a recognized golf facility.

(c) Senior/Junior/Disabled Discounts. Senior/Junior/Disabled discounts are to be given only to persons who are sixty-two (62) years of age or older or to those who are on disability retirement. Proof of age or proof of disability retirement must be displayed to obtain a Senior/Retired/Disabled discount. Discounts are good weekdays except for holidays.

Members of the five officially recognized golf clubs (Muni Niners, Modesto Golf Club, Dryden Park Women's Golf Club, Creekside Golf Club and S.I.R.S.), who qualify, will be allowed to use Senior/Junior/Disabled discounts for official club tournaments Monday through Thursday, excluding holidays.

(d) Valu- Play Cards. Golfers can purchase a weekday, 6-round Valu-Play (multiple play) card for Dryden/Creekside or Muni. Valu-Play Discounts are effective for sixty (60) days from the date of purchase except for the months of December, January and February. During this period multiple play cards will be good for the entire three months. Multiple play cards are not refundable or transferable. The multiple play card is not good on weekends or holidays.

(e) Special Rates. From time to time, the Recreation and Neighborhoods Director or his or her designee may provide up to a fifty percent (50%) discount off of daily greens fees. Such specials shall occur no more than twenty (20) days per month at each golf course.

(f) Family Tee Program. To promote family play, golfers may play from established "family tees" to be set no more than 175 yards from the greens at Municipal Nine-Hole Golf Courses. Rates for play are \$6.00 weekdays and \$7.00 weekends. All members of the foursome or group must use the family tees for this rate to be in effect.

(g) Play one round, get the second round at half price. This discount is good on the day and at the course on which the original full-fee round is played. The fee for the second round shall be one-half of the green fee in effect at the time the second round is played.

SECTION 3. COMPLIMENTARY TICKETS. Complimentary tickets without fee may be issued by or under the direction of the Golf Course Professional to visiting

professionals or others, for services rendered to the golf course. Free play must be approved by the Parks, Recreation and Neighborhoods Director or designee.

SECTION 4. CHILDREN. Children under the age of eleven (11) will not be permitted to play golf unless accompanied by an adult playing golf.

SECTION 5. POLICY. In order for fees to be consistent and competitive with other courses in the valley, the Play Day Policy for Play at the City's Municipal Golf Courses by Non-Affiliated Groups shall continue to be implemented as set forth on Exhibit "C" attached hereto.

SECTION 6. HOLIDAYS. "Holidays", as used herein, shall mean New Year's Day (January 1st), Martin Luther King's Birthday (the third Monday in January), Washington's Birthday (the third Monday in February), Memorial Day (the last Monday in May), Independence Day (July 4th), Labor Day (the first Monday in September), Veterans Day (November 11th), Thanksgiving Day (the fourth Thursday in November) and the day after Thanksgiving. When a holiday falls on Sunday, the following Monday shall be observed as a holiday. When a holiday falls on Saturday, the preceding Friday shall be observed as a holiday.

SECTION 7. SIGNS. The Golf Course Professional is authorized and directed to post a sign in a conspicuous place informing all golfers of the established greens fees.

SECTION 8. OFFICIALLY RECOGNIZED AFFILIATED GOLF CLUBS. Golf Clubs officially recognized under the terms of this resolution are: Muni Niners, Modesto Golf Club, Dryden Park Women's Golf Club, Creekside Golf Club and S.I.R.S.

SECTION 9. EFFECTIVE DATE. This resolution shall go into effect and be in full force and operation on and after November 1, 2004.

SECTION 10. REPEALS. Resolution No. 2004-283 is hereby rescinded effective October 31, 2004.

The foregoing resolution was introduced in a special meeting of the Council of the City of Modesto held on the 26th day of October, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

Modified shotgun tee time style tournaments require a minimum of 72 players at Creekside/Dryden. Per player fees include: green fees (\$26.50 weekdays at Creekside; \$24.50 weekdays at Dryden); Pro Shop merchandise credit (\$7.00 at Creekside/Dryden); and golf course restaurant credit (\$7.00 at Creekside/Dryden). Cart rental is required for modified shotgun style tournaments. Modified shotgun style tournaments are not available at Muni.

Members of the five officially recognized affiliated golf clubs (Muni Niners, Modesto Golf Club, Dryden Park Women's Club, Creekside Golf Club and S.I.R.S.), who qualify, will be allowed to use Senior/Junior/Disabled discounts for official club tournaments Monday through Friday, excluding holidays.

PLAY DAY POLICY  
FOR PLAY AT THE CITY'S  
MUNICIPAL GOLF COURSES  
BY NON-AFFILIATED GROUPS

The following policy is hereby established for Non-Affiliated Groups to encourage their use of the City's municipal golf courses:

Criteria for these groups are:

1. They are a group with an identification or organizational structure;
2. They commit to use the City's golf course(s) on a regular basis (weekly, bi-weekly, monthly, etc.);
3. They have a minimum of twenty-four (24) players;
4. Regular tee-time style starting will be used (no shotgun style starting will be allowed);
5. Their events do not promote a formal competition or championship; and
6. Play days will be restricted to Monday through Wednesday after 9:00 a.m.

In recognition of their contribution to the golf program, no mandatory pro shop or restaurant fees will be assessed. Tee time reservations, in advance of public reservations, will be allowed.

**MODESTO CITY COUNCIL  
RESOLUTION NUMBER 2004-567**

**A RESOLUTION APPROVING THE FEDERAL 2004 LOCAL LAW  
ENFORCEMENT BLOCK GRANT WITH THE U.S. DEPARTMENT OF  
JUSTICE, BUREAU OF JUSTICE ASSISTANCE FOR THE PROCUREMENT  
OF EQUIPMENT AND TECHNOLOGY AND AUTHORIZING THE ACTING  
CITY MANAGER TO EXECUTE SAID GRANT**

WHEREAS, the City of Modesto Police Department made application to the U. S. Department of Justice, Bureau of Justice Assistance for the 2004 Local Law Enforcement Block Grant Program, and

WHEREAS, the program is of 24-month duration, and it includes the program area of procuring equipment and technology to enhance law enforcement, and

WHEREAS, the Police Department submitted an application for various unmet equipment and technology needs, as attached, and

WHEREAS, acceptance of this grant enhances Healthy and Safe Strategic Action Plan action, H.1.B.8. which calls for obtaining public service grants, and

WHEREAS, the total grant project is \$81,277 of which the federal share is \$73,149 and the local match is \$8,128 and that match is available from the Asset Forfeiture Trust Account, and

WHEREAS, the grant will make possible the purchase of specialized computer equipment, an access system, a scanner, digital recorders, and ear pieces for portable radios to free sworn officers' hands,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto, that it hereby approves the Federal 2004 Local Law Enforcement Block Grant contract for the purchase of police equipment and technology, as attached.

BE IT FURTHER RESOLVED that the Acting City Manager is hereby authorized to execute said grant contract.

The foregoing resolution was introduced in a special meeting of the Council of the City of Modesto held on the 26th day of October, 2004, by Councilmember Dunbar, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 569**

**A RESOLUTION CALLING AN ELECTION FOR THE PURPOSE OF  
SUBMITTING THE LEVY OF THE CITY OF MODESTO COMMUNITY  
FACILITIES DISTRICT NO. 2004-1 (VILLAGE ONE #2) SPECIAL TAXES TO  
THE QUALIFIED ELECTORS OF THE TERRITORY PROPOSED TO BE  
ANNEXED TO THE DISTRICT (ANNEXATION NO. 4)**

WHEREAS, this Council did, on September 14, 2004, adopt its Resolution No. 2004-458 (the "Resolution of Intention to Annex") to indicate its intention to annex certain territory to the City's Community Facilities District No. 2004-1 (Village One #2) (the "District") and authorize the levy of the District special taxes within the territory proposed to be annexed (the "Annexed Territory"), pursuant to Chapter 2.5 of Part 1 of Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the "Mello-Roos Community Facilities Act of 1982" (the "Act"), and set a hearing thereon;

WHEREAS, notice of the hearing was duly published as required by law, as evidenced by the proof of publication on file with the City Clerk;

WHEREAS, a map of the Annexed Territory, entitled "Annexation Map No. 4 of Community Facilities District No. 2004-1 ("Village One #2) of the City of Modesto, County of Stanislaus, State of California," was recorded on September 15, 2004, in the Office of the County Recorder of the County of Stanislaus, in Book 3 of Maps of Assessment and Community Facilities Districts, at page 99;

WHEREAS, at the time and date set for the hearing (October 26, 2004) pursuant to the Resolution of Intention to Annex, this Council held the public hearing, as required by the Act, related to the proposed annexation and the levy of the District special taxes

within the Annexed Territory, and all other matters set forth in the Resolution of Intention to Annex;

WHEREAS, at the hearing all persons desiring to be heard on all matters pertaining to the proposed annexation and the levy of the District special taxes within the Annexed Territory, and all other matters set forth in the Resolution of Intention to Annex, including all interested persons for or against the proposed annexation to the District and the levy of the District special taxes within the Annexed Territory were heard and considered, and a full and fair hearing was held thereon;

WHEREAS, at the hearing evidence was presented to this Council on the matters before it, and this Council, at the conclusion of the hearing, was fully advised as to all matters related to the proposed annexation and the levy of the District special taxes within the Annexed Territory, and all other matters set forth in the Resolution of Intention to Annex;

WHEREAS, written protests against the proposed annexation and the levy of the District special taxes within the Annexed Territory have not been filed with the City Clerk by 50 percent or more of the registered voters or six registered voters, whichever is more, residing within the District or residing within the District or residing within the Annexed Territory, or the owners of one-half or more of the land in the District, or in the Annexed Territory;

WHEREAS, the Stanislaus County Registrar of Voters has certified there are less than 12 registered voters residing in the Annexed Territory; accordingly, the qualified electors are the landowners; and

WHEREAS, the City Clerk, being the Council's designated election official for purposes of the election herein called, has concurred in the election date herein set forth for the election;

NOW THEREFORE, BE IT RESOLVED, ORDERED AND FOUND by the City Council of the City of Modesto that:

SECTION 1. The foregoing recitals are true and correct.

SECTION 2. All prior proceedings taken with respect to the annexation of the Annexed Territory to the District, and the levy of the District special taxes within the Annexed Territory were valid and in conformity with the requirements of the Act. This determination shall be final and conclusive upon all persons.

SECTION 3. The proposed annexation of the Annexed Territory to the District and the levy of the District special taxes within the Annexed Territory have not been precluded by majority protest pursuant to Section 53339.5 of the Act.

SECTION 4. As stated in the Resolution of Intention to Annex, it is the intention of this Council, subject to the approval of the qualified electors of the Annexed Territory, to annex the Annexed Territory to the District and levy the District special taxes within the Annexed Territory. Upon such approval the Council will be authorized to levy the District special taxes within the Annexed Territory.

SECTION 5. A special election is hereby called at which the question of levying the District special taxes within the Annexed Territory shall be submitted to the qualified electors of the Annexed Territory. The election shall be held in accordance with and subject to the Act, all of the terms of which shall, unless waived as herein provided, be

applicable to such election. The ballot measure shall be substantially in the form attached hereto as Exhibit A.

SECTION 6. Fewer than 12 persons have been registered to vote within the Annexed Territory for each of the 90 days preceding the close of the hearing referenced herein. Accordingly, the vote shall be by the landowners of the Annexed Territory, and each such landowner shall have one vote for each acre or portion thereof that he or she owns within the Annexed Territory. The ballots shall be distributed by mail with return postage prepaid, or by personal service, to each landowner, all as provided in Section 53326 of the Act.

Since the City Clerk has received appropriate waivers of time limits and other requirements pertaining to the conduct of the election by each of the owners of land in the Annexed Territory (collectively, the "Landowners"), the election shall be held on the 26<sup>th</sup> day of October 2004. The election shall be conducted by the City Clerk in the manner required by this resolution, the Act and applicable laws.

The hour on such date when the ballots are required to be received in the office of the City Clerk is noon, Pacific Time. If all qualified electors have voted prior to such time, the election shall be closed.

SECTION 7. In accordance with Section 53327(b) of the Act, analysis and arguments, as required by Section 53327(a) of the Act are hereby waived, as the City Clerk has received the unanimous consent to such waivers from the Landowners.

SECTION 8. The publication of this Resolution as notice of the special election is hereby waived as the City Clerk has received the unanimous consent to such waiver from the landowners.

SECTION 9. The Annexed Territory shall constitute a single election precinct for the purpose of holding the election.

SECTION 10. The City Clerk is hereby authorized to take any and all steps necessary for the holding of the election, and to perform and render all services and proceedings incidental to and in connection with the election.

SECTION 11. The City Clerk shall canvass the returns and certify the results of the election to this Council. If two-thirds or more of the votes cast are in favor of levying the District special taxes in the Annexed Territory, this Council may thereafter, order the annexation of the Annexed Territory to the District and levy the District special taxes in the Annexed Territory in the amount and for the purposes specified in Resolution No. 2004-199 adopted by this Council on April 6, 2004 (the "Resolution of Formation"). The Special Tax will be levied only at the rate and apportioned only in the manner specified in the Resolution of Formation.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of October 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 570**

**A RESOLUTION CANVASSING THE RESULTS OF THE OCTOBER 26, 2004, ELECTION HELD WITHIN THE TERRITORY PROPOSED TO BE ANNEXED TO CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2004-1 (VILLAGE ONE #2), AND ORDERING ANNEXATION OF THE TERRITORY TO THE DISTRICT (ANNEXATION NO. 4)**

WHEREAS, this Council is conducting proceedings pertaining to the annexation of certain territory to the City's Community Facilities District No. 2004-1 (Village One #2) (the "District") and the levy of the District special taxes (the "District Special Taxes") within such territory, as described in its Resolution No. 2004-458, entitled "A Resolution of the City Council of the City of Modesto of Intention to Annex Territory to Community Facilities District No. 2004-1 (Village One #2) and to Authorize the Levy of Special Taxes therein (Annexation No. 4)" adopted on September 14, 2004, pursuant to Chapter 2.5 of Part 1 of Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the "Mello-Roos Community Facilities Act of 1982" (the "Act");

WHEREAS, the owners of all the property within the territory proposed to be annexed to the District waived those provisions related to the timing and conduct of the election referenced in Sections 5, 6, 7 and 8 of this Council's Resolution No. 2004-569, adopted on October 26, 2004, and, as a result, this Council called an election within the territory proposed to be annexed to the District (the "Election") for October 26, 2004, relative to the foregoing;

WHEREAS, on October 26, 2004, the Election was held; and

WHEREAS, the City Clerk has certified that at the Election the proposition of levying the District Special Taxes within the territory proposed to be annexed to the District was approved by more than two-thirds (2/3) of the votes cast at the Election;

NOW, THEREFORE, BE IT RESOLVED, ORDERED AND FOUND by the City Council of the City of Modesto that:

SECTION 1. The Election was duly and validly conducted in conformity with all applicable laws pertaining thereto. It is hereby determined that the owners of the territory proposed to be annexed is as set forth in the Certificate of City Clerk as to Distribution of Official Ballots, submitted to this Council and on file with the City Clerk.

SECTION 2. The ballot proposition presented to the qualified electors of the territory proposed to be annexed at the Election received at least two-thirds (2/3) of the votes cast at the Election. A copy of the City Clerk's certificate of election results is attached.

SECTION 3. Pursuant to Section 53339.8 of the Act, it is hereby ordered that the territory proposed to be annexed to the District pursuant to Resolution No. 2004-458 be annexed to and be a part of the District with full legal effect, and that the District Special Taxes be levied within the territory so annexed.

SECTION 4. The City Clerk is hereby directed to enter this resolution on the minutes of this City Council, which shall constitute the official declaration of the result of the Election.

SECTION 5. The City Clerk is further authorized and directed to record an amendment to the Notice of Special Tax Lien with the County Recorder of the County of

Stanislaus, within 15 days from the date hereof, in accordance with the provisions of Sections 3114.5 and 3117.7 of the California Streets and Highways Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of October 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-571**

**A RESOLUTION AMENDING SECTIONS 1 AND 2 OF RESOLUTION NO. 96-164 ENTITLED "A RESOLUTION APPROVING A DEVELOPMENT PLAN FOR PLANNED DEVELOPMENT ZONE, P-D(346), AS AN ADDITION TO PLANNED DEVELOPMENT P-D(346). (TERRY MUNDY)" (TERRY MUNDY)**

WHEREAS, Planned Development Zone, P-D(346), was established in 1983 for the English Oaks Convalescent Hospital on the north side of W. Rumble Road, east of Hahn Drive, and

WHEREAS, the Modesto City Council, by Ordinance No. 2982-C.S., which became effective May 16, 1996, approved an amendment to P-D(346) to add an additional one-and three-fourth acre property located at 2630 W. Rumble Road across from the main facility to P-D(346), which property would house offices, storage, pharmacy, and classrooms along with considerable off-street parking, and

WHEREAS, City Council Resolution No. 96-164 adopted by City Council on April 9, 1996, approved the revised development plan to accommodate the additional acreage, and

WHEREAS, an application for an amendment to P-D(346) was filed by Terry L. Mundy on June 28, 2004, to add a 14,811-square-foot two-story office building, a 4,200-square-foot second-story storage building addition, and additional off-street parking, including a carport covering 20 new parking spaces on the southern portion of the P-D Zone, and

WHEREAS, after a public hearing held on September 20, 2004, in the Tenth Street Place Chambers located at 1010 10<sup>th</sup> Street, Modesto, California, it was found and determined by the Planning Commission, by its Resolution No. 2004-56, that the

amendment to P-D(346) as requested is required by public necessity, convenience, and general welfare for the following reasons:

1. The proposed amendment to P-D(346) is consistent with the Modesto Urban Area General Plan, because the use is consistent with the MU, Mixed Use General Plan designation for the site.
2. The Conditions of Approval along with the revised plans will ensure that the proposed office/storage/parking additions will be compatible with other uses in the area.

WHEREAS, said matter was set for a public hearing of the City Council to be held on October 26, 2004, in the Tenth Street Place Chambers located at 1010 10<sup>th</sup> Street, Modesto, California, at which date and time said duly noticed public hearing was held, and

WHEREAS, after said public hearing the Council found and determined that the application of Terry L. Mundy for an amendment to P-D(346) should be granted as consonant with public necessity, convenience and general welfare for the reasons set forth in Planning Commission Resolution No. 2004-56 and quoted above, and

WHEREAS, the Council has introduced Ordinance No. 3358-C.S. on the 26<sup>th</sup> day of October, 2004, amending Section 2 of Ordinance No. 2982-C.S. to add business/professional offices as allowed in the P-O Zone and indoor storage as approved uses in P-D(346).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that Sections 1 and 2 of Modesto City Council Resolution No. 96-164 entitled "A Resolution Approving a Development Plan for Planned Development Zone,

P-D(346), as an Addition to Planned Development, P-D(346) (Terry Mundy)" are hereby amended to read as follows:

"SECTION 1. DEVELOPMENT PLAN. The amended development plan for Planned Development Zone, P-D(346), is hereby approved subject to the following conditions:

1. All development shall conform to the plot plan and floor plans titled "Proposed Site Plan C.R. Lifestyle" as amended in red, stamped approved by the City Council on October 26, 2004.
2. Prior to the issuance of a building permit, a landscaping and irrigation plan shall be approved by the Parks, Recreation and Neighborhood Director or designee. Landscaping and the irrigation system shall be installed and maintained in accordance with the approved plan.
3. All landscaping, fences, and walls shall be maintained and the premises shall be kept free of weeds, trash, and other debris.
4. All signs shall comply with the sign requirements of the P-O Zone.
5. All conditions of City Council Resolution Nos. 96-164, 87-36, and 83-830 not in conflict with this action shall remain in full force and effect.
6. The property owner and developer shall, at their sole expense, defend, indemnify, and hold harmless the City of Modesto, its agents, officers, directors and employees, from and against all claims, actions, damages, losses or expenses of every type and description, including but not limited to payment of attorneys' fees and costs, by reason of, or arising out of, this development approval. The obligation to defend, indemnify and hold harmless shall include but is not limited to any action to arbitrate, attack, review, set aside, void or annul this development approval on any grounds whatsoever. The City of Modesto shall promptly notify the developer of any such claim, action, or proceeding and shall cooperate fully in defense."

"SECTION 2. DEVELOPMENT SCHEDULE. The following development schedule is hereby approved for said Planned Development Zone P-D(346):

That the entire construction be accomplished in one phase, construction to begin on or before October 26, 2006, and be completed by not later than October 26, 2007."

SECTION 3. CHANGES IN DEVELOPMENT PLAN. Any changes in the above approved development plan shall be made in accordance with the provisions of Section 10-2.1709 of the Modesto Municipal Code.

SECTION 4. COMPLIANCE WITH CODE PROVISIONS, ETC. In all other respects said planned development shall be accomplished in accordance with and in strict adherence to the provisions of Article 17 of Title 10 of the Modesto Municipal Code relating to Planned Development Zones and other applicable City laws, rules, regulations and procedures.

SECTION 5. EFFECTIVE DATE. This resolution shall not become effective unless and until Ordinance No. 3358-C.S. amending Ordinance No. 2982-C.S becomes effective.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26<sup>th</sup> day of October, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-572**

**A RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 1999082041): AMENDING THE SOUTH PORTION OF PLANNED DEVELOPMENT ZONE P-D (346), PROPERTY LOCATED AT 2630 W. RUMBLE ROAD (TERRY L. MUNDY)**

WHEREAS, on March 4, 2003, the City Council of the City of Modesto certified the Final Master Environmental Impact Report (“Master EIR”) (SCH No. 1999082041) for the Modesto Urban Area General Plan, and

WHEREAS, Terry L. Mundy has proposed an amendment to the south portion of Planned Development Zone, P-D(346) for office and storage building additions and additional off-street parking at 2630 West Rumble Road on the south side of West Rumble Road, east of Hahn Drive, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent project for a Master EIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the master environmental impact report and whether the subsequent project was described in the master environmental impact report as being within the scope of the project, and

WHEREAS, the City’s Community and Economic Development Department by Environmental Assessment Initial Study EA/C&ED No. 2004-51

(“Initial Study”) reviewed the proposed amendment to P-D(346) to determine whether the project is within the scope of the project covered by the Modesto Urban Area General Plan Master EIR (“Master EIR”), and made the determination that the proposed

project will have no additional significant effect on the environment that was not identified in the Master EIR, and further, that no or new additional mitigation measures or alternatives are required, and that, therefore, the proposed project is within the scope of the project covered by the Master EIR, and

WHEREAS, in accordance with CEQA guidelines, beginning on October 9, 2004, the City caused to be published a 10-day notice of the City's intent to make a finding that the proposed project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on October 26, 2004, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed amendment to P-D(346), a copy of which is attached hereto as **Exhibit "A"**, and incorporated herein by reference, and based on the substantial evidence included in said Initial Study makes the following findings:

1. The type of project is described in Chapter II of the Modesto Urban Area General Plan Master EIR (MEIR).
2. All applicable policies, regulation, and mitigation measures identified in the MEIR have been applied to the project or otherwise made Conditions of Approval of the project.
3. An Initial Study was prepared by the City of Modesto that analyzed whether the proposed subsequent project may cause any significant effect on the environment that was not examined in the MEIR and it has been determined that the project was described in the MEIR as being within the scope of the MEIR.
4. Based on the Initial Study, the City of Modesto finds and determines:
  - a. The proposed subsequent project will have no additional significant effect as defined in CEQA Section 21158 that was not identified in the MEIR.

- b. No new or additional mitigation measures or alternatives are required.
- 5. The Initial Study, Environmental Assessment No. EA/C&ED 2004-51, provides the substantial evidence to support finding numbers 1-4 , noted above.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26<sup>th</sup> day of October, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

## Master EIR Initial Study Checklist

### I. PURPOSE

CEQA allows for the limited environmental review of subsequent projects under the City's Master EIR. This Initial Study Checklist is used in determining whether the proposed Amendment to P-D(346) is "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 1999082041) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformity.

A subsequent project is "within the scope" of the Master EIR when:

1. it will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and
2. no new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect in the Master EIR. (Public Resources Code Section 21158(d))

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (State CEQA Guidelines Section 15384)

### II. PROJECT DESCRIPTION

A. Title: Amendment to P-D(346) for addition of office/storage/parking.

B. Address or Location: 2630 W. Rumble Road  
Modesto, CA 95350

C. Applicant: Terry Mundy  
P.O. Box 5336  
Modesto, CA 95352

D. City Contact Person:

Project Manager: Bob Cannell  
Department: Community & Economic Development  
Phone Number: (209) 577-5274  
E-mail address: bcannell@modestogov.com

- E. Current General Plan Designation: MU, for Mixed Used Development
- F. Current Zoning Classification(s): P-D(346) for the Office, storage and parking facilities
- G. Surrounding Land Uses: North: Convalescent Care Facility  
 South: Office / Residential  
 East: Commercial  
 West: Multi-Family Residential
- H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR (Attach additional maps/support materials as needed for complete record):
- The applicant seeks approval of amendment to the south portion of P-D(346) to allow addition of a 14,811-square-foot office building, a second-story addition to a storage building and additional off-street parking.
- I. Other Public Agencies Whose Approval is Required: None

### III. FINDINGS / DETERMINATION

The project is within the scope of the Master EIR and no new environmental document or Public Resources Code Section 21081 findings are required. The following items are found to be true:

- A. The type of project is described in Chapter II of the Master EIR.
- B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the project or otherwise made conditions of approval of the project.
- C. An Initial Study was prepared by the City of Modesto that analyzed whether the proposed subsequent project may cause any significant effect on the environment that was not examined in the MEIR and it has been determined that the project was described in the MEIR as being within the scope of the MEIR.
- D. Based on the Initial Study, the City of Modesto finds and determines:
- a) The proposed subsequent project will have no additional significant effect as defined in CEQA Section 21158 that was not identified in the MEIR.
  - b) No new or additional mitigation measures or alternatives are required.
- E. The criteria for currency of the Master EIR were reviewed (section 5 below) and it was determined that the Master EIR is current for all areas of the Initial Study.

 Date

#### 4. Within the Scope Analysis of this Document:

The Master EIR permits projects to be found within the scope of the MEIR if certain criteria are met. Basically, if the following statements are found to be true for all 20 sections of this Initial Study, then the project was covered by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

- |   | YES | NO                       |
|---|-----|--------------------------|
| (1) The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.  | X   | <input type="checkbox"/> |
| (2) City policies that reduce, avoid, or mitigate environmental effects will continue to be in effect and therefore would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures contained within the Master EIR. | X   | <input type="checkbox"/> |
| (3) Federal, State, Regional and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).  | X   | <input type="checkbox"/> |
| (4) No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources.  | X   | <input type="checkbox"/> |
| (5) The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.  | X   | <input type="checkbox"/> |
| (6) Development within the project will comply with all mitigation measures identified in the General Plan Master EIR.  | X   | <input type="checkbox"/> |

#### 5. Currency of the Master EIR Document

The MEIR should be reviewed on a regular basis to determine its currency, and whether additional analysis/mitigation should be incorporated into the MEIR via a Supplemental or Subsequent EIR (CEQA Section 21157.6). Staff has reviewed sections 1 through 20 of this document in light of the criteria listed below to determine whether the MEIR is current. The analysis contained within the Master EIR is current as long as the following circumstances have not changed. Any negative response must be discussed.

- |  | YES | NO                       |
|--|-----|--------------------------|
| (1) Certification of the General Plan Master EIR occurred less than five years prior to the filing of the application for this subsequent project. | X   | <input type="checkbox"/> |
| (2) This project was described in the Master EIR and its approval will not affect the adequacy of the Master EIR for any subsequent project.       | X   | <input type="checkbox"/> |
| (3) No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified.                               | X   | <input type="checkbox"/> |

- (4) No new information, which was not known and could not have been known at the time the Master EIR was certified as complete, has become available. X
- (5) Policies that require site-specific mitigation remain in place, in addition to avoidance or other mitigation of impacts as a prerequisite to future development. X

**IV. ENVIRONMENTAL ANALYSIS**

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any project-specific significant effect on the environment that was not examined in the Final Master EIR (MEIR) for the General Plan and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the project is "within the scope" of the Master EIR.

Pursuant to Public Resources Code Section 21157.1, no new environmental document or findings are necessary for projects that are determined to be within the scope of the MEIR. Adoption of a notice of conformity after completion of the Initial Study fulfills the City's obligation in that situation.

All environmental effects cited reflect year 2025 buildout of the Urban Area General Plan as identified in the MEIR.

The Master EIR for the General Plan organizes its analysis of environmental impacts into eighteen subject areas. The following analysis is based on the impact analyses contained in Chapter V of the Master EIR. For ease of cross-reference, the sections are numbered in the same order as the analyses in Chapter V.

In addition to the 18 Master EIR subject areas, the Initial Study checklist addresses the issues of land use/planning and aesthetics. The reason for including these additional issues is to ensure that consideration is being given to the full range of subjects of importance contained in Appendix G of the CEQA Guidelines. The format for the land use/planning and aesthetics sections differs from that of the other 18 subject areas since these two subjects were not addressed as distinct subjects in the Master EIR.

**1. TRAFFIC AND CIRCULATION**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant and unavoidable traffic and circulation impacts:

Effect: Increased traffic will result in certain roadway segments operating at LOS D or worse.

Effect: The Substantial increase in traffic relative to the existing load and capacity of the street system will cause violation, either individually or cumulatively, of an LOS standard established by the County CMP for designated roads and highways.

Effect: Creation of need for Capacity-enhancing modifications to existing facilities.

Effect: Increase in energy consumption associated with the operation of highway projects, rail improvements, and aviation facilities.

Effect: Severe contrast with existing neighborhood or area character caused by highway and transit projects.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Traffic and Circulation mitigation measures that are pertinent to this project are found on MEIR pages V-1-15 through V-1-21. All feasible measures appropriate to the project – including any new measures - will be incorporated into or made conditions of approval of this project and will be listed in Section V, Mitigation Measures Applied to Project.

**c. Project-Specific Effects**

Section V-1.B of the MEIR provides analysis of Traffic and Circulation impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

- |   | YES                      | NO                                  |
|---|--------------------------|-------------------------------------|
| (1) The project would contribute more than an additional 100 average daily trips (ADT) to adjoining roads and generates more trips than assumed for their general plan land use category and zoning in the Master EIR. City Engineering & Transportation Staff will review the project to determine whether the project contributes more than 100 ADT thresholds. Such Projects are presumed to generate more trips than assumed by the Master EIR. | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Where a project exceeds an additional 100 ADT contribution, a site access study will be conducted to determine to what extent the project would exceed the year 2025 level of service (LOS) expected for the adjoining roadways under the Master EIR. The site access study will recommend new, project-specific mitigation measures. Where the project also exceeds the Master EIR's traffic generation assumption, as determined by Engineering & Transportation staff, a comprehensive traffic study will be required that will include off-site traffic impact analysis.

- |  | YES                      | NO                                  |
|--|--------------------------|-------------------------------------|
| (2) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g. farm equipment). | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| (3) Result in inadequate emergency access.   | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| (4) Result in inadequate parking capacity.   | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Discussion:

The proposed project would generate less than 100 ADT, and would have no impact relative to transportation system design, incompatible uses, and emergency access, nor would it result in inadequate parking capacity.

**2. AIR QUALITY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to air quality:

Effect: Projected traffic levels will result in increased ambient carbon monoxide (CO) levels in the project area. This is a significant and unavoidable impact.

Effect: Projected traffic levels will result in increased ROG and NOX levels in the project area. This is a significant and unavoidable impact.

These are also cumulative impacts on air quality.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Air Quality mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-2-11 through V-2-18 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

**c. Project-Specific Effects**

Section V-2.B of the MEIR provides analysis of Air Quality impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project exceeds the emissions thresholds established for CO and NOx by the San Joaquin Valley Unified Air Pollution Control District's (SJVUAPCD) adopted CEQA Guidelines.	<input type="checkbox"/>	X
(1) The project does not incorporate the best management practices for PM10 reduction established by the SJVUAPCD.	<input type="checkbox"/>	X
(2) The project does not comply with the air quality policies of the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(4) The project would expose sensitive receptors to substantial pollutant concentrations.	<input type="checkbox"/>	X

- (5) The project would create objectionable odors affecting a substantial number of people.  X

Discussion:

The proposed project would not result in long-term air quality-related impacts, as it is simply an expansion of an existing land-use pattern. However, in order to minimize any short-term air quality-related impacts associated with construction, the appropriate mitigation measures will be applied from the MEIR.

**3. NOISE**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant and unavoidable environmental impacts relative to noise:

Effect: Traffic noise levels for future conditions in the plan area have the potential to exceed the City's Noise Significance Standards (see Table 3-3 MEIR).

Effect: Noise level projections based on the traffic levels anticipated in the General Plan indicate that noise will exceed the City's General Plan and noise ordinance standards.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-10 through V-3-15 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project. New measures are listed in Section V: Mitigation Applied to Project.

**c. Project-Specific Effects**

Section V-3.B of the MEIR provides analysis of noise impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

		YES	NO
(1)	The project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance.	<input type="checkbox"/>	X
(2)	The project will exceed the noise policies of or otherwise be inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(3)	The project will result in a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?	<input type="checkbox"/>	X

- (4) The project will result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project.  X

Discussion:

The proposed project will not result in any substantial increase in noise levels that exist without the project. Any noise generated by virtue of expansion self-insulating by the building mass separating the subject business from residential properties to the south and west. The appropriate mitigation measures will be applied from the MEIR.

**4. AGRICULTURAL LANDS**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to agricultural lands:

Effect: Development within the urbanized Baseline Developed Area and Redevelopment Area will have a less-than-significant impact on agricultural lands.

Effect: Conversion of agricultural land will occur as available developable land is occupied within the City. This is a significant and unavoidable impact.

Effect: Growth within Modesto's planning area would contribute considerably to the loss of agricultural land within Stanislaus County. This is a significant and unavoidable cumulative impact.

**b. Master EIR and/or New Mitigation Measures Pertinent to the Project**

Agricultural Land mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-4-7 and V-4-8 MEIR. All feasible measures appropriate to the project and any new mitigation to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

**c. Project-Specific Effects**

Section V-4.B of the MEIR provides analysis of Agricultural Lands impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project will directly result in the development of land outside the March 2003 planning area boundaries. | <input type="checkbox"/> | X  |

- (3) The project will Conflict with existing zoning for agricultural use, or a Williamson Act contract.  X
- (4) The project will Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland to non-agricultural use.  X

Discussion:

The proposed project is in an urbanized area, and will have no effect on agricultural lands of any kind.

**5. WATER SUPPLY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to water supply:

Effect: Urban Area General Plan policies are established to limit groundwater extractions to the safe yield of the aquifer and thereby avoid aquifer over drafting. In addition, the UWMP requires that new urban development would proceed in conjunction with the availability of water supplies and distribution facilities. It is assumed that increased entitlement of surface water supplies such as a water transfer from another water purveyor would undergo independent environmental review pursuant to CEQA. This is a less-than-significant impact.

Effect: Development to the future projected City population would require expansion of the MRWTP to its full 60 mgd capacity, development of additional groundwater wells, and construction of additional water distribution and treatment facilities. Construction of some of the required facilities would most likely require site-specific environmental impact assessments to be conducted under CEQA. Consequently, the potential environmental impacts of the Urban Area General Plan are considered less-than-significant.

Effect: During drought years, despite available options, significant water shortages are forecast for the San Joaquin River basin by the year 2020. Modesto would make a cumulatively considerable contribution to the cumulative impact on water supply under drought conditions. This is a significant and unavoidable cumulative impact.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Water Supply mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-5-7 through V-5-8 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

**c. Project-Specific Effects**

Section V-5.B of the MEIR provides analysis of Water Supply impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

YES NO

- (1) The project is inconsistent with the Modesto Urban Area General Plan.  YES  NO
- (2) Sufficient water supplies are not available to serve the project from existing entitlements and resources, new or expanded entitlements are needed.  YES  NO

Discussion:

Water supplies are available to serve the existing and expanding office and storage facility.

**6. SANITARY SEWER SERVICES**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to sanitary sewer services:

Effect: The City has already begun to implement the provisions of the Wastewater Master Plan (WMP) to meet future demand for sanitary sewer services. As City wastewater treatment facilities are expanded to meet the needs of the Baseline Developed, Redevelopment, and Planned Urbanizing Areas, the City will obtain the necessary wastewater discharge and NPDES permits from the Central Valley RWQCB, as required under Urban Area General Plan Policy V-D.2(a). Implementing the WMP, requirement of Best Management Practices for post-construction activities, as well as the Urban Area General Plan policy cited above, will avoid violation of wastewater discharge requirements. As a result, this impact would be less-than-significant.

Effect: The City has adopted the WMP specifically to ensure that sewer capacity will match the level of growth projected by the Urban Area General Plan. Development within the Baseline Developed and the Planned Urbanizing Areas that is consistent with the Urban Area General Plan will not have a significant effect on capacity. Urban Area General Plan Policy III-D.1(d) will ensure that development in the Planned Urbanizing Area will fund the necessary improvements. This is a less-than-significant impact.

Note on the WMP Master EIR. The WMP Master EIR identified a number of impacts and mitigation measures. Its mitigation measures have been adopted by the City and are being implemented by the City under the WMP. Those impacts are being independently addressed under that Master EIR and do not need to be considered under this Initial Study. Refer to the WMP Master EIR for details.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Sewer Service mitigation measure(s) pertinent to the project being analyzed in this Initial Study, are found on pages V-6-4 through V-6-7 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

### c. Project-Specific Effects

Section V-6.B of the MEIR provides analysis of Sanitary Sewer Service impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) The project will result in a determination by the wastewater treatment provider who serves or may serve the project that there is not adequate capacity to serve the project's projected demand in addition to the provider's existing commitments. | <input type="checkbox"/> | X  |

#### Discussion:

The City of Modesto wastewater infrastructure has adequate capacity to serve the existing project.

## 7. SENSITIVE WILDLIFE AND PLANT HABITAT

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to sensitive wildlife and plant habitat:

Effect: Although many sensitive species live in riparian habitats within the planning area, the policies of the plan will ensure that impacts of the Urban Area General Plan will be less-than-significant.

Effect: Requiring higher residential density than the suburban norm and a compact pattern of growth within the designated planning area to the year 2025 will minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

Wildlife and Plant Habitat mitigation measure pertinent to the project being analyzed in this Initial Study are found on pages V-7-19 through V-7-21. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

### c. Project-Specific Effects

Section V-7.B of the MEIR provides analysis of Wildlife and Plant Habitat impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) Consultation with the California Department of Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on special status species. | <input type="checkbox"/> | X  |
| (3) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.  | <input type="checkbox"/> | X  |

#### Discussion:

The proposed project would not have any impact on wildlife nor plant habitat.

## 8. ARCHAEOLOGICAL OR HISTORICAL SITES

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to archaeological or historical sites:

Effect: If a site-specific project involves the modification or demolition of a qualifying structure more than 50 years in age, then the impact will be significant.

Effect: Areas of high probability for archaeological resources are located within the riparian corridors along the Tuolumne River, Dry Creek, and the Stanislaus River. There, the potential impact comes from earthmoving activities that could result in disturbance of resources or human remains. There is a low probability that archaeological resources will be uncovered in areas outside of the riparian corridors.

Effect: The City Zoning Ordinance requires that when substantial changes to a structure are proposed, the development will be required to comply with other Zoning Ordinance provisions such as parking or landscaping requirements. This could result in modifications to the structure, which substantially reduce its historical significance. This would be a less-than-significant impact with the imposition of new mitigation measure Cultural-1.

## b. Master EIR and/or New Mitigation Measures Applied to the Project

Archaeological or Historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on page V-8-13 and V-8-14 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

## c. Project-Specific Effects

Section V-8.B of the MEIR provides analysis of Archaeological/Historical impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO                                  |
|---|--------------------------|-------------------------------------|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| (2) The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources, or that is listed by the City of Modesto as a Designated Landmark Preservation Site. | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

### Discussion:

The proposed building and parking additions would have absolutely no impact whatsoever on archaeological / historical sites.

## 9. STORM DRAINAGE

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to storm drainage:

Effect: The potential impacts on storm water drainage that could occur from the project were qualitatively evaluated with respect to several factors including: extent of the projected increase in urban surface area compared to undeveloped ground; magnitude of projected changes to hydrologic and physical site characteristics of the study area compared to existing conditions; regulatory criteria and guidelines; and professional judgment. Because the Urban Area General Plan includes policies that require new development in all three sections of the planning area to install approved drainage facilities, the potential impacts of the Urban Area General Plan on storm water drainage are considered less-than-significant.

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious areas and associated urban storm water drainage. Cumulative hydrologic impacts of storm water flows from Modesto urban areas and other areas of the County could occur due to the

fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel. Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Storm Drainage mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-9-4 through V-9-8. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

**c. Project-Specific Effects**

Section V-9.B of the MEIR provides analysis of Storm Drainage impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

		YES	NO
(1)	The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2)	The project would substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or offsite.	<input type="checkbox"/>	X
(3)	Create or contribute runoff water that would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff.	<input type="checkbox"/>	X

Discussion:

The proposed building and parking addition would not at all affect or substantially increase the rate nor amount of surface runoff. Furthermore, the storm water drainage system will accommodate all on-site runoff.

**10. FLOODING AND WATER QUALITY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to flooding and water quality:

Effect: Increased runoff can accelerate soil erosion, stream channel scouring, and sedimentation of channels, and also increase pollutant transport to waterways. The potential impacts of the project on flooding are considered less-than-significant because the Urban Area General Plan Update includes policies to restrict development in the floodplain and therefore

would avoid exposing persons and property to flood hazards. In addition, new development under the Urban Area General Plan is required to install storm water drainage facilities that restrict the amount of post-development runoff from exceeding pre-development conditions.

Effect: The potential impacts of the project on surface-water quality are considered less-than-significant because the City policies and capital improvement projects for storm water drainage facilities would minimize discharges of urban pollutants to natural waterways. The City drainage program policies require new development to prepare drainage plans and implement urban runoff control measures; larger Specific Plan developments must have storm drainage systems designed to control pollutant runoff. The City's implementation policies for the municipal NPDES storm water permit require new development to implement an appropriate selection of permanent pollution control measures. Permanent erosion control measures such as seeding and planting vegetation for new cut-and-fill slopes, directing runoff through vegetation, or otherwise reducing the offsite discharge of particulates and sediment are the most effective method of controlling offsite discharges of urban pollutants.

Effect: The City's future development will contribute to cumulative water quality effects. EPA regulations for NPDES storm water permits and new proposed regulatory additions to the rules have become much more comprehensive in recent years and are being implemented to reduce pollutant runoff from both large- and small-scale activities. Implementation of NPDES-permitting programs throughout the county will reduce potential water-quality impacts to a less-than-significant level.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Flooding and Water Quality mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-10-7 through V-10-10 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

**c. Project-Specific Effects**

Section V-10.B of the MEIR provides analysis of Flooding and Water Quality impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act.	<input type="checkbox"/>	X
(3) The project does not comply with Modesto's Guidance Manual for New Development Storm water Quality Control Measures.	<input type="checkbox"/>	X
(4) The project would create or contribute runoff water, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff.	<input type="checkbox"/>	X

Discussion:

The proposed project is subject to all City of Modesto storm water quality control requirements.

**11. PARKS AND OPEN SPACE**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to parks and open space:

Effect: Within the Baseline Developed and Redevelopment Areas, the Urban Area General Plan does not propose any elimination of existing park and/or open space land. Impacts on parks and open space will be less-than-significant.

Effect: The projected population of the Planned Urbanizing Area is 148,600, requiring 149 acres of neighborhood parks and 298 acres of community parks. The required minimum acreages can be met through the application of existing policies and regulations, including Government Code Section 66474, which require developers to pay Parks Capital Facilities Fees to fund the acquisition of appropriate parkland acreage. This impact is less-than-significant.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Parks and Open Space Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-11-4 through V-11-19 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

**c. Project-Specific Effects**

Section V-11.B of the MEIR provides analysis of Parks and Recreation impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

YES NO

- (1) The project is inconsistent with the Modesto Urban Area General Plan.  YES  NO

## 12. SCHOOLS

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to schools:

Effect: The estimated increase in population over 1994/1995 would generate an additional 29,200 elementary school students, 7,330 middle school students, and 14,640 high school students above those enrollments. Assuming that existing facilities cannot sufficiently accommodate this increase and that all of the new students would require new school facilities, build out of the General Plan would result in the need for approximately 37 elementary schools, 8 middle schools, and 7 high schools beyond 1994/1995 levels. This would result in a significant impact on schools in that it would exceed current capacity. By statute, this impact is considered to be mitigated below a level of significance by payment of school impact fees and exercise of any or all of the financing options set out in Government Code Section 65997.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. ). As long as all anticipated subsequent projects apply these policies, no new mitigation is necessary. Further, payment of school impact fees and compliance with SB 50 is statutorily deemed to be full mitigation of school impacts (Government Code Section 65995). The proposed additional school policy will address the situation that would arise should AB 50 be repealed. It will authorize impact fees or other methods to finance additional school facilities.

The following schools mitigation measure(s) are pertinent to the project being analyzed in this Initial Study. See pages V-12-4 through V-12-7 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

### c. Project-Specific Effects

Section V-12.B of the MEIR provides analysis of Schools impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project does not comply with SB 50/Proposition 1A funding provisions, or succeeding measures, which provide that compliance results in less-than-significant impacts on schools. | <input type="checkbox"/> | X  |

#### Discussion:

The proposed building and parking addition would have no impact to schools.

### 13. POLICE SERVICES

#### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to police services:

Effect: The 1995 Master EIR identified two impacts on the demand for police services; however, it concluded that no significant impact, based on the mitigation measures identified in the 1995 Master EIR, would occur. Those mitigation measures are now policies of the Urban Area General Plan. The impact is less-than-significant.

Effect: Within the Planned Urbanizing Area, complying with the Urban Area General Plan policies, particularly the policy that requires a long-range financing strategy for each Comprehensive Plan Area, will allow the City to provide the resources necessary to extend service to the newly growing Planned Urbanizing areas. These policies reduce the impact to a less-than-significant level.

#### b. Master EIR and/or New Mitigation Measures Applied to the Project

Police Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-13-3 and V-13-4 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

#### c. Project-Specific Effects

Section V-13.B of the MEIR provides analysis of police services impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project would result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives.	<input type="checkbox"/>	X

#### Discussion:

The proposed project would have little effect relative to provision of police services.

## 14. FIRE SERVICES

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to fire services:

Effect: The Baseline Developed Area and Redevelopment Area are already developed. Impacts on fire services of development in these areas will be less-than-significant.

Effect: In the Planned Urbanizing Area, the Urban Area General Plan would result in the need for additional fire protection services due to increases in the number of employees, permanent population, and associated improvements. City policy requires that fire protection be in place concurrent with construction in the Planned Urbanizing Area. This policy will be implemented with the adoption of future Comprehensive Plans in the Planned Urbanizing Area. This impact would be less-than-significant.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Fire Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-14-3 through V-14-5 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project. are listed in Section V, Mitigation Measures Applied to Project.

### c. Project-Specific Effects

Section V-14.B of the MEIR provides analysis of fire services impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project would result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives.	<input type="checkbox"/>	X

#### Discussion:

The proposed project would have no effect relative to provision of fire services.

## 15. SOLID WASTE

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to solid waste:

Effect: Since the project would exceed available landfill capacity, it is identified as a significant impact. The Fink Road Landfill may be closed by the time the City reaches build out, unless an expansion is approved by the County and the Integrated Waste Management Board. As the waste stream generated increases with population, additional landfills and methods for diversion would have to be utilized. The project will also generate the need for additional collection and transfer facilities. This impact is significant and unavoidable. The impact would be less-than-significant at such time as the Fink Road Landfill expansion is approved.

Effect: The project makes a considerable contribution to the cumulative impact on landfill capacity of development in Stanislaus County. This impact is significant and unavoidable.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

Solid Waste Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study, are found on pages V-15-5 and V-15-6 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

### c. Project-Specific Effects

Section V-15.B of the MEIR provides analysis of solid waste impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The County is unable to expand its solid waste disposal capacity and the project would result in waste stream levels that exceed disposal capacity.	<input type="checkbox"/>	X

#### Discussion:

The proposed project will have not impact relative to solid waste.

## 16. HAZARDOUS MATERIALS

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to hazardous materials:

Effect: The impacts of the project relative to hazardous materials are less-than-significant, based on the existing regulatory framework. New development will be required to comply with regulations monitoring and controlling the handling and use of hazardous and toxic materials.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under federal, state and county policies and regulations, and the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Hazardous Materials Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-16-9 through V-16-12 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

### c. Project-Specific Effects

Section V-16.B of the MEIR provides analysis of hazardous materials impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project does not comply with all applicable federal, state, and county standards and regulations relative to the handling, storage, disposal, and transport of hazardous or toxic materials or wastes.	<input type="checkbox"/>	X
(3) The project contains a contaminated site not identified as of March 2003.	<input type="checkbox"/>	X
(4) The project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.	<input type="checkbox"/>	X
(5) The project would be located on a site that is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment.	<input type="checkbox"/>	X

Discussion:

The proposed project would have no impacts relative to hazardous materials.

**17. LANDSLIDES AND SEISMIC ACTIVITY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to landslides and seismic activity:

Effect: There are areas of known sand and gravel resources within the Baseline Developed Area and Redevelopment Area. Future development will be subject to SMARA requirements, therefore, the project impact will be less-than-significant.

Effect: There are areas of known sand and gravel resources within the Planned Urbanizing Area. Future development will be subject to SMARA requirements, therefore, the project impact will be less-than-significant.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Landslide and Seismic Activity Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-17-6 and V-17-7 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

**c. Project-Specific Effects**

Section V-17.B of the MEIR provides analysis of landslides and seismic impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project would be located on soil that is unstable, or that would become unstable as a result of the project, and potentially result in on or off-site landslide, lateral spreading, subsidence, liquefaction or collapse.	<input type="checkbox"/>	X

Discussion:

The proposed building and parking addition would have no potential to increase risks associated with landslides or seismic activity.

## 18. ENERGY

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to energy:

Effect: The Baseline Developed Area and Redevelopment Area are already developed. New development within the Redevelopment Area will comply with Title 24 standards as well as City Urban Area General Plan policies. Impacts on energy by development in these areas (i.e., changes in levels of use above the current baseline) will be less-than-significant.

Effect: Build out under the Urban Area General Plan will utilize an estimated 1,400 million cubic feet per month of natural gas, 1,300 million kilowatt hours (kwh) of electricity per year and 650,000 gallons of gasoline per day. PG&E has indicated that they have at the current time sufficient supplies of natural gas to serve the increased natural gas demands of the project. At present, gasoline supplies are apparently sufficient to serve the gasoline demands of the project. Title 24 of the California Code of Regulation, which ensures that the project will not exceed local, state, and federal energy standards. The impact is less-than-significant.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

The following energy mitigation measure(s) are pertinent to the project being analyzed in this Initial Study. See page V-18-3 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

### c. Project-Specific Effects

Section V-18.B of the MEIR provides analysis of energy impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed-in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-than significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan. | <input type="checkbox"/> | X  |

## 19. PLANNING AND LAND USE

The Master EIR was certified for the Modesto Urban Area General Plan. The significant effects described in the 18 subject areas contained in the Master EIR are based on the planning policies and diagrams adopted as part of the General Plan. Planning and land use were not among the 18 subject areas analyzed in the Master EIR because they essentially defined the project being evaluated in the EIR.

### a. Project-Specific Effects

Determination of project effects will be based on the following threshold. A project-specific effect is less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.                | <input type="checkbox"/> | X  |
| (2) The project includes a substantive amendment to the Modesto Urban Area General Plan. | <input type="checkbox"/> | X  |
| (3) The project would physically divide an established community                         | <input type="checkbox"/> | X  |

#### Discussion:

The proposed building and parking addition is consistent with the Modesto Urban Area General Plan, and would not physically divide an established community.

## 20. AESTHETICS

The Master EIR was certified for the Modesto Urban Area General Plan. The significant effects described in the 18 subject areas contained in the Master EIR, are based on the planning policies and diagrams adopted as part of the General Plan. At that level of detail, no significant effects on aesthetics were identified.

### a. Project-Specific Effects

Determination of project effects will be based on the following threshold. A project-specific effect is less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project would have a substantial adverse effect on a scenic vista.   | <input type="checkbox"/> | X  |
| (3) The project would substantially degrade the existing visual character or quality of the project site and its surroundings.             | <input type="checkbox"/> | X  |
| (4) The project would create a new source of substantial light and glare, which would adversely affect day or nighttime views in the area. | <input type="checkbox"/> | X  |

## V. MITIGATION MEASURES APPLIED TO THE PROJECT

### A. Master EIR Mitigation Measures Applied to the Project

Pursuant to CEQA Section 21157.1(c), in order for a Finding of Conformance to be made, all feasible measures from the Master EIR appropriate to the project shall be incorporated into the project. The following adopted General Plan Policies and Master EIR Mitigation Measures (also contained in Section III, "Global List") shall be made part of the project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan:

**Traffic and Circulation Measures:** N/A

#### **Air Quality Measures:**

- A. The City of Modesto shall work with the SJVUAPCD to reduce particulate matter emissions from construction, grading, excavation, and demolition to the maximum extent feasible.
- B. All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover
- C. All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.

#### **Noise Measures:**

The City's noise ordinance (Modesto Municipal Code Section 4-9.101) prohibits the "loud and raucous discharge into the open air of the steam of any steam equipment or exhaust from any stationary internal-combustion engine."

The noise ordinance prohibits the loud and raucous operation or use of any of the following before 7:00 a.m. or after 9:00 p.m. daily (except Saturday and Sunday and State or federal holidays, when the prohibited time shall be before 9:00 a.m. and after 9:00 p.m.):

- 1. A hammer, or any other device or implement used to pound or strike an object.
- 2. An impact wrench, or other tool or equipment powered by compressed air.
- 3. A hand-powered saw.
- 4. Any tool or piece of equipment powered by an internal-combustion engine such as, but not limited to, chain saw, backpack blower, and lawn mower.
- 5. Any electrically powered (whether by alternating current electricity or by direct current electricity) tool or piece of equipment used for cutting, drilling, or shaping wood, plastic, metal, or other materials or objects, such as, but not limited to, a saw, drill, lathe, or router.

6. Any of the following: heavy equipment (such as but not limited to bulldozer, steam shovel, road grader, back hoe), ground drilling and boring equipment (such as but not limited to derrick or dredge), hydraulic crane and boom equipment, portable power generator or pump, pavement equipment (such as but not limited to pneumatic hammer, pavement breaker, tamper, compacting equipment), pile-driving equipment, vibrating roller, sand blaster, gunite machine, trencher, concrete truck, and hot kettle pump.
7. Any construction, demolition, excavation, erection, alteration, or repair activity. In the case of urgent necessity and in the interest of public health and safety, the Chief Building Official may issue a permit for exemption from these. Such period shall not exceed three (3) working days in length while the emergency continues but may be renewed for successive periods of three (3) days or less while the emergency continues. The Chief Building Official may limit such permit as to time of use and/or permitted action, depending upon the nature of the emergency and the type of action requested.
8. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields.

**Agricultural Land Measures:** N/A

**Water Supply Measures:** N/A

**Sanitary Sewer Service Measures:** N/A

**Sensitive Wildlife and Plant Habitat Measures:** N/A

**Archaeological or Historic Sites Measures:**

If archaeological resources are discovered at any time during construction, all activity shall cease until the site is surveyed by a qualified archaeologist. The survey shall include mitigation measures, which shall be implemented before construction resumes. The survey shall follow the criteria presented in Appendix K of the State CEQA Guidelines.

**Storm Drainage Measures:** N/A

**Flooding and Water Quality Measures:** N/A

**Parks and Open Space Measures:** N/A

**Schools Measures:** N/A

**Police Services:** N/A

**Fire Services:** N/A

**Generation of Solid Waste:** N/A

**Generation of Hazardous Materials:** N/A

**Potential for Landslides and Seismic Activity:** N/A

**Energy:** N/A

**Planning and Land Use:** N/A

**Aesthetics:** N/A

#### **B. New or Additional Mitigation Measures or Alternatives Required**

Where the project's effects would exceed the specific thresholds defined for each environmental category, a mitigated negative declaration or Focused EIR must be prepared. Staff has reviewed the project against those thresholds set forth in the Master EIR for all applicable categories in this Initial Study. The following project-specific mitigation measures are necessary to reduce the identified new significant effect: None.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-573**

**A RESOLUTION AMENDING SECTIONS 1 AND 2 OF RESOLUTION NO. 71-348,  
ENTITLED, "A RESOLUTION APPROVING A DEVELOPMENT PLAN FOR  
PLANNED DEVELOPMENT ZONE, P-D(87)" (TED BRANVOLD/JAMES  
CHAMPION)**

WHEREAS, in mid-1971, the City Council, by Ordinance No. 1103-C.S., established Planned Development Zone, P-D(87), on property located on the west side of Tully Road south of Pearl Street and north of West Orangeburg Avenue, and

WHEREAS, the Planned Development Zone, P-D(87), was to allow development of a one-and two-story apartment complex, to be constructed in two phases, of which the first eleven units have been built to date as the first phase, and

WHEREAS, City Council Resolution No. 71-348 adopted by the City Council on April 26, 1971, approved the development plan for Planned Development Zone, P-D(87) and contained conditions of approval therefore, and

WHEREAS, a verified application for an amendment to Section 19-3-9 of the Zoning Map was filed by Ted Brandvold, architect on behalf of James Champion on June 10, 2004, to reclassify from Low Density Residential Zone, R-1, to Planned Development Zone, P-D(87), as an addition to Planned Development Zone, and to amend the Development Plan for Planned Development Zone, P-D(87) to allow construction of an additional 12 one- and two-story apartments, property located on the west side of Tully Road south of Pearl Street ("the Property"), described as follows:

Rezone R-1 to P-D(87)

All that certain real property situated in the City of Modesto, County of Stanislaus, State of California, and being a portion of the northeast Quarter of the northeast Quarter of Section 19, Township 3 South, Range 9 East, Mount Diablo Base and Meridian, more particularly described as follows:

Starting at the northeast corner of said Section 19, thence S0°34'48"E, 916.00 feet to a point on the east line of said Section 19; thence N89°06'47"W, 45.01 feet, to the southeast corner of the property labeled as "Champion" on that Record of Survey filed in the office of the Recorder of Stanislaus County in Book 17 of Recorded Surveys, Page 96, said point being the True Point of Beginning; thence N89°06'47"W, 186.51 feet to the southwest corner of that land added to the Champion land by Lot Line Adjustment #88-09 as recorded February 23, 1988, as instrument #011134; thence N0°33'20"W, 65.44 feet to the northwest corner of said land in said Lot Line Adjustment #88-09; thence S83°02'00"E, 51.93 feet to the northeast corner of said land in said Lot Line Addition #88-09; thence S89°08'08"E, 134.99 feet to the northeast corner of said Champion property; thence S0°34'48"E, 60.00 feet to the Point of Beginning;

Also including the westerly half of Tully Road and the southerly half of the alley, all being immediately adjacent to the above described property.

WHEREAS, after a public hearing held on September 20, 2004, in the Tenth Street Place Chambers located at 1010 10<sup>th</sup> Street, Modesto, California, it was found and determined by the Planning Commission, by its Resolution No. 2004-58, that rezoning of the Property and amending the Development Plan as requested is required by public necessity, convenience, and general welfare for the following reasons:

1. The proposed amendment and rezoning is consistent with the Modesto Urban Area General Plan, because the use is consistent with the Residential General Plan, (R), designation for the site.
2. The Conditions of Approval and the revised plans will ensure that the proposed apartment expansion will be compatible with other uses in the area.

WHEREAS, said matter was set for a public hearing of the City Council to be held on October 26, 2004, in the Tenth Street Place Chambers located at 1010 10<sup>th</sup> Street, Modesto, California, at which date and time said duly noticed public hearing was held, and

WHEREAS, after said public hearing the Council found and determined that the application of Ted Brandvold, architect, on behalf of James Champion for an amendment to Planned Development Zone, P-D(87) to rezone the property from R-1 to P-D(87) as an addition to P-D(87), and to amend the Development Plan for P-D(87) to allow an additional 12 one- and two-story apartments on the Property should be granted as consonant with public necessity, convenience and general welfare for the reasons set forth in Planning Commission Resolution No. 2004-58 and quoted above, and

WHEREAS, the Council has introduced Ordinance No. 3358-C.S. on the 26<sup>th</sup> day of October, 2004, reclassifying the above-described property from Low-Density Residential Zone, R-1, to Planned Development Zone, P-D(87), as an addition to Planned Development Zone, P-D(87), and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that Sections 1 and 2 of Modesto City Council Resolution No. 71-348 entitled "A Resolution Approving a Development Plan for Planned Development Zone, P-D(87)" are hereby amended to read as follows:

"SECTION 1. DEVELOPMENT PLAN. The development plan for for Phase II of Planned Development Zone, P-D(87), is hereby approved subject to the following conditions:

1. All development shall conform to the plot plan and floor plans titled "Apartment Complex on Tully, Mr. Jim Champion" as amended in red, stamped approved by the City Council on October 26, 2004.
2. Prior to the issuance of a building permit, the applicant shall submit to and obtain approval from the Planning Director plans pursuant to screening of the three stairways and landings serving the second-story units. These screenings shall be constructed on the north and west elevations to prevent views into the adjoining

neighbor's yards. These elevations shall have window sill heights at a minimum of six (6) feet.

3. Prior to issuance of a building permit, the developer shall establish with the Director of Public Works a system of providing for the treatment and disposal of storm water.
4. Prior to the issuance of a building permit, a landscaping and irrigation plan shall be approved by the Parks, Recreation and Neighborhood Director or designee. Screen landscaping shall be installed along the north and west property line(s) of Phase II. Landscaping and the irrigation system shall be installed and maintained in accordance with the approved plan.
5. Fences or walls shall be constructed prior to occupancy and shall be as follows:

Six (6')-foot-high wood fence with decorative masonry pilasters at 16-foot on center on the north and west portions of Phase II.
6. All landscaping, fences, and walls shall be maintained and the premises shall be kept free of weeds, trash, and other debris.
7. All outdoor lighting shall be shielded from adjacent residential properties as required by the City Engineer or designee.
8. Trash bins shall be kept in enclosures in accordance with the approved plan and in accordance with plans approved by the Public Works Director or designee. Enclosures shall be constructed of building materials consistent with those used in the major buildings as approved by the Community and Economic Development Department Director or designee.
9. All signs shall comply with the sign requirements of the R-3 Zone.
10. All conditions of City Council Resolution No. 71-348 not in conflict with this action shall remain in full force and effect.
11. The property owner and developer shall, at their sole expense, defend, indemnify and hold harmless the City of Modesto, its agents, officers, directors, and employees, from and against all claims, actions, damages, losses, or expenses of every type and description, including but not limited to payment of attorneys' fees and costs, by reason of, or arising out of, this development approval. The obligation to defend, indemnify and hold harmless

shall include but is not limited to any action to arbitrate, attack, review, set aside, void or annul this development approval on any grounds whatsoever. The City of Modesto shall promptly notify the developer of any such claim, action, or proceeding and shall cooperate fully in the defense.

SECTION 2. DEVELOPMENT SCHEDULE. The following development schedule is hereby approved for said Planned Development Zone, P-D(87):

The entire construction program be accomplished in one phase, construction to begin on or before September 20, 2006, and completion to be not later than September 20, 2007."

SECTION 3. CHANGES IN DEVELOPMENT PLAN. Any changes in the above approved development plan shall be made in accordance with the provisions of Section 10-2.1709 of the Modesto Municipal Code.

SECTION 4. COMPLIANCE WITH CODE PROVISIONS, ETC. In all other respects said planned development shall be accomplished in accordance with and in strict adherence to the provisions of Article 17 of Title 10 of the Modesto Municipal Code relating to Planned Development Zones and other applicable City laws, rules, regulations and procedures.

SECTION 5. EFFECTIVE DATE. This resolution shall not become effective unless and until Ordinance No. 3359-C.S, becomes effective.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26<sup>th</sup> day of October, 2004, by Councilmember O'Bryant, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

NOES: Councilmembers: None

ABSENT: Councilmembers: None

ATTEST: Jean Zahr  
JEAN ZAHR, City Clerk

Planning Division

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-574**

**A RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 1999082041): AMENDING SECTION 19-3-9 OF THE ZONING MAP TO REZONE FROM R-1, LOW-DENSITY RESIDENTIAL ZONE, TO PLANNED DEVELOPMENT ZONE, P-D(87), PROPERTY LOCATED ON THE WEST SIDE OF TULLY ROAD SOUTH OF PEARL STREET (TED BRANDVOLD/JAMES CHAMPION)**

WHEREAS, on March 4, 2003, the City Council of the City of Modesto certified the Final Master Environmental Impact Report (“Master EIR”) (SCH No. 1999082041) for the Modesto Urban Area General Plan, and

WHEREAS, Mr. Ted Brandvold, architect on behalf of Mr. James Champion has proposed that Section 19-3-9 of the Zoning Map be amended to rezone from R-1, Low-Density Residential Zone, to Planned Development Zone, P-D(87), as an addition to P-D(87) and to amend P-D(87) to allow twelve additional one and two-story apartments, property located on the west side of Tully Road, south of Pearl Street, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a Master EIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the master environmental impact report and whether the subsequent project was described in the master environmental impact report as being within the scope of the project, and

WHEREAS, the City’s Community & Economic Development Department by Environmental Assessment Initial Study EA/C&ED No. 2004-53 (“Initial Study”) reviewed the proposed amendment to the zoning map and rezone to P-D(87) and the

proposed amendment to P-D(87) to determine whether the project is within the scope of the project covered by the Modesto Urban Area General Plan Master EIR (“Master EIR”), and made the determination that the proposed project will have no additional significant effect on the environment that was not identified in the Master EIR, and further, that no or new additional mitigation measures or alternatives are required, and that, therefore, the proposed project is within the scope of the project covered by the Master EIR, and

WHEREAS, in accordance with CEQA guidelines beginning on October 9, 2004, the City caused to be published a 10-day notice of the City’s intent to make a finding that the proposed project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on October 26, 2004, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed amendment to the zoning map and rezone to P-D(87) and amendment to P-D(87), a copy of which is attached hereto as **Exhibit “A”**, and incorporated herein by reference, and based on the substantial evidence included in said Initial Study makes the following findings:

1. The type of project is described in Chapter II of the Modesto Urban Area General Plan Master EIR (MEIR).
2. All applicable policies, regulation, and mitigation measures identified in the MEIR have been applied to the project or otherwise made Conditions of Approval of the project.
3. An Initial Study was prepared by the City of Modesto that analyzed whether the proposed subsequent project may cause any significant effect on the environment that was not examined in the MEIR and it has been determined that the project was described in the MEIR as being within the scope of the MEIR.
4. Based on the Initial Study, the City of Modesto finds and determines:
  - a. The proposed subsequent project will have no additional significant effect as defined in CEQA Section 21158 that was not identified in the MEIR.
  - b. No new or additional mitigation measures or alternatives are required.
5. The Initial Study, Environmental Assessment No. EA/C&ED 2004-53, provides the substantial evidence to support finding numbers 1-4, noted above.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26<sup>th</sup> day of October, 2004, by Councilmember O'Bryant, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

NOES: Councilmembers: None

ABSENT: Councilmembers: None

ATTEST: Jean Zahr  
JEAN ZAHR, City Clerk

# City of Modesto

## Master EIR Initial Study Checklist

### I. PURPOSE

CEQA allows for the limited environmental review of subsequent projects under the City's Master EIR. This Initial Study Checklist is used in determining whether the proposed rezone R-1 to P-D(87) and amendment to P-D(87) for the addition of 12 apartment units is "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 1999082041) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformity.

A subsequent project is "within the scope" of the Master EIR when:

1. it will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and
2. no new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect in the Master EIR. (Public Resources Code Section 21158(d))

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (State CEQA Guidelines Section 15384)

### II. PROJECT DESCRIPTION

- A. Title: Rezone R-1 to P-D(87) and Amendment to P-D(87) for the addition of 12 apartment units.
- B. Address or Location: 1425, 1427, and 1435 Tully Road  
Modesto, CA 95350
- C. Applicant: Ted Brandvold, Architect  
for Mr. Jim Champion (Owner)  
Commercial Architecture  
1300 Tenth Street, Suite B  
Modesto, CA 95354
- D. City Contact Person:
- Project Manager: Bob Cannell  
Department: Community & Economic Development  
Phone Number: (209) 577-5274  
E-mail address: bcannell@modestogov.com

- E. Current General Plan Designation: R, Residential
- F. Current Zoning Classification(s): P-D(87) for the existing 11 apartment units; R-1 for area undergoing change to P-D(87) for additional 12 units.
- G. Surrounding Land Uses: North: Residential  
South: Residential  
East: Church, Residential  
West: Residential
- H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR (Attach additional maps/support materials as needed for complete record):  
  
The applicant seeks approval of a rezoning for R-1 to P-D(87) as a addition to P-D(87) currently containing 11 apartment units, and to amend P-D(87) to allow an additional 12 dwelling units
- I. Other Public Agencies Whose Approval is Required: None

**III. FINDINGS / DETERMINATION**

The project is within the scope of the Master EIR and no new environmental document or Public Resources Code Section 21081 findings are required. The following items are found to be true:

- A. The type of project is described in Chapter II of the Master EIR.
- B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the project or otherwise made conditions of approval of the project.
- C. An Initial Study was prepared by the City of Modesto that analyzed whether the proposed subsequent project may cause any significant effect on the environment that was not examined in the MEIR and it has been determined that the project was described in the MEIR as being within the scope of the MEIR.
- D. Based on the Initial Study, the City of Modesto finds and determines:
  - a) The proposed subsequent project will have no additional significant effect as defined in CEQA Section 21158 that was not identified in the MEIR.
  - b) No new or additional mitigation measures or alternatives are required.
- E. The criteria for currency of the Master EIR were reviewed (section 5 below) and it was determined that the Master EIR is current for all areas of the Initial Study.

 Date

#### 4. Within the Scope Analysis of this Document:

The Master EIR permits projects to be found within the scope of the MEIR if certain criteria are met. Basically, if the following statements are found to be true for all 20 sections of this Initial Study, then the project was covered by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

- |   | YES | NO                       |
|---|-----|--------------------------|
| (1) The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.  | X   | <input type="checkbox"/> |
| (2) City policies that reduce, avoid, or mitigate environmental effects will continue to be in effect and therefore would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures contained within the Master EIR. | X   | <input type="checkbox"/> |
| (3) Federal, State, Regional and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).  | X   | <input type="checkbox"/> |
| (4) No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources.  | X   | <input type="checkbox"/> |
| (5) The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.  | X   | <input type="checkbox"/> |
| (6) Development within the project will comply with all mitigation measures identified in the General Plan Master EIR.  | X   | <input type="checkbox"/> |

#### 5. Currency of the Master EIR Document

The MEIR should be reviewed on a regular basis to determine its currency, and whether additional analysis/mitigation should be incorporated into the MEIR via a Supplemental or Subsequent EIR (CEQA Section 21157.6). Staff has reviewed sections 1 through 20 of this document in light of the criteria listed below to determine whether the MEIR is current. The analysis contained within the Master EIR is current as long as the following circumstances have not changed. Any negative response must be discussed.

- |  | YES | NO                       |
|--|-----|--------------------------|
| (1) Certification of the General Plan Master EIR occurred less than five years prior to the filing of the application for this subsequent project. | X   | <input type="checkbox"/> |
| (2) This project was described in the Master EIR and its approval will not affect the adequacy of the Master EIR for any subsequent project.       | X   | <input type="checkbox"/> |
| (3) No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified.                               | X   | <input type="checkbox"/> |

- (4) No new information, which was not known and could not have been known at the time the Master EIR was certified as complete, has become available. X
- (5) Policies that require site-specific mitigation remain in place, in addition to avoidance or other mitigation of impacts as a prerequisite to future development. X

**IV. ENVIRONMENTAL ANALYSIS**

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any project-specific significant effect on the environment that was not examined in the Final Master EIR (MEIR) for the General Plan and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the project is "within the scope" of the Master EIR.

Pursuant to Public Resources Code Section 21157.1, no new environmental document or findings are necessary for projects that are determined to be within the scope of the MEIR. Adoption of a notice of conformity after completion of the Initial Study fulfills the City's obligation in that situation.

All environmental effects cited reflect year 2025 buildout of the Urban Area General Plan as identified in the MEIR.

The Master EIR for the General Plan organizes its analysis of environmental impacts into eighteen subject areas. The following analysis is based on the impact analyses contained in Chapter V of the Master EIR. For ease of cross-reference, the sections are numbered in the same order as the analyses in Chapter V.

In addition to the 18 Master EIR subject areas, the Initial Study checklist addresses the issues of land use/planning and aesthetics. The reason for including these additional issues is to ensure that consideration is being given to the full range of subjects of importance contained in Appendix G of the CEQA Guidelines. The format for the land use/planning and aesthetics sections differs from that of the other 18 subject areas since these two subjects were not addressed as distinct subjects in the Master EIR.

**1. TRAFFIC AND CIRCULATION**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant and unavoidable traffic and circulation impacts:

Effect: Increased traffic will result in certain roadway segments operating at LOS D or worse.

Effect: The Substantial increase in traffic relative to the existing load and capacity of the street system will cause violation, either individually or cumulatively, of an LOS standard established by the County CMP for designated roads and highways.

Effect: Creation of need for Capacity-enhancing modifications to existing facilities.

Effect: Increase in energy consumption associated with the operation of highway projects, rail improvements, and aviation facilities.

Effect: Severe contrast with existing neighborhood or area character caused by highway and transit projects.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Traffic and Circulation mitigation measures that are pertinent to this project are found on MEIR pages V-1-15 through V-1-21. All feasible measures appropriate to the project – including any new measures - will be incorporated into or made conditions of approval of this project and will be listed in Section V, Mitigation Measures Applied to Project.

**c. Project-Specific Effects**

Section V-1.B of the MEIR provides analysis of Traffic and Circulation impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

- |   | YES                      | NO                                  |
|---|--------------------------|-------------------------------------|
| (1) The project would contribute more than an additional 100 average daily trips (ADT) to adjoining roads and generates more trips than assumed for their general plan land use category and zoning in the Master EIR. City Engineering & Transportation Staff will review the project to determine whether the project contributes more than 100 ADT thresholds. Such Projects are presumed to generate more trips than assumed by the Master EIR. | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Where a project exceeds an additional 100 ADT contribution, a site access study will be conducted to determine to what extent the project would exceed the year 2025 level of service (LOS) expected for the adjoining roadways under the Master EIR. The site access study will recommend new, project-specific mitigation measures. Where the project also exceeds the Master EIR's traffic generation assumption, as determined by Engineering & Transportation staff, a comprehensive traffic study will be required that will include off-site traffic impact analysis.

- |  | YES                      | NO                                  |
|--|--------------------------|-------------------------------------|
| (2) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g. farm equipment). | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| (3) Result in inadequate emergency access.   | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| (4) Result in inadequate parking capacity.   | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Discussion:

The proposed project would generate less than 100 ADT, and would have no impact relative to transportation system design, incompatible uses, and emergency access, nor would it result in inadequate parking capacity.

**2. AIR QUALITY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to air quality:

Effect: Projected traffic levels will result in increased ambient carbon monoxide (CO) levels in the project area. This is a significant and unavoidable impact.

Effect: Projected traffic levels will result in increased ROG and NOX levels in the project area. This is a significant and unavoidable impact.

These are also cumulative impacts on air quality.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Air Quality mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-2-11 through V-2-18 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

**c. Project-Specific Effects**

Section V-2.B of the MEIR provides analysis of Air Quality impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project exceeds the emissions thresholds established for CO and NOx by the San Joaquin Valley Unified Air Pollution Control District's (SJVUAPCD) adopted CEQA Guidelines.	<input type="checkbox"/>	X
(1) The project does not incorporate the best management practices for PM10 reduction established by the SJVUAPCD.	<input type="checkbox"/>	X
(2) The project does not comply with the air quality policies of the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(4) The project would expose sensitive receptors to substantial pollutant concentrations.	<input type="checkbox"/>	X

- (5) The project would create objectionable odors affecting a substantial number of people.  X

Discussion:

The proposed project would not result in long-term air quality-related impacts, as it is only an additional 12 apartment units. However, in order to minimize any short-term air quality-related impacts associated with construction, the appropriate mitigation measures will be applied from the MEIR.

**3. NOISE**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant and unavoidable environmental impacts relative to noise:

Effect: Traffic noise levels for future conditions in the plan area have the potential to exceed the City's Noise Significance Standards (see Table 3-3 MEIR).

Effect: Noise level projections based on the traffic levels anticipated in the General Plan indicate that noise will exceed the City's General Plan and noise ordinance standards.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-10 through V-3-15 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project. New measures are listed in Section V: Mitigation Applied to Project.

**c. Project-Specific Effects**

Section V-3.B of the MEIR provides analysis of noise impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |     |  | YES                      | NO |
|-----|--|--------------------------|----|
| (1) | The project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance.                               | <input type="checkbox"/> | X  |
| (2) | The project will exceed the noise policies of or otherwise be inconsistent with the Modesto Urban Area General Plan.                                   | <input type="checkbox"/> | X  |
| (3) | The project will result in a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project? | <input type="checkbox"/> | X  |

- (4) The project will result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project.  X

Discussion:

The proposed project will not result in any substantial increase in noise levels that exist without the project. Any noise thus generated by expansion is well-insulated by the enclosed design of the building complex. The appropriate mitigation measures will be applied from the MEIR.

**4. AGRICULTURAL LANDS**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to agricultural lands:

Effect: Development within the urbanized Baseline Developed Area and Redevelopment Area will have a less-than-significant impact on agricultural lands.

Effect: Conversion of agricultural land will occur as available developable land is occupied within the City. This is a significant and unavoidable impact.

Effect: Growth within Modesto's planning area would contribute considerably to the loss of agricultural land within Stanislaus County. This is a significant and unavoidable cumulative impact.

**b. Master EIR and/or New Mitigation Measures Pertinent to the Project**

Agricultural Land mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-4-7 and V-4-8 MEIR. All feasible measures appropriate to the project and any new mitigation to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

**c. Project-Specific Effects**

Section V-4.B of the MEIR provides analysis of Agricultural Lands impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project will directly result in the development of land outside the March 2003 planning area boundaries. | <input type="checkbox"/> | X  |

- (3) The project will Conflict with existing zoning for agricultural use, or a Williamson Act contract.  X
- (4) The project will Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland to non-agricultural use.  X

Discussion:

The proposed project is in an urbanized area, and will have no effect on agricultural lands of any kind.

**5. WATER SUPPLY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to water supply:

Effect: Urban Area General Plan policies are established to limit groundwater extractions to the safe yield of the aquifer and thereby avoid aquifer over drafting. In addition, the UWMP requires that new urban development would proceed in conjunction with the availability of water supplies and distribution facilities. It is assumed that increased entitlement of surface water supplies such as a water transfer from another water purveyor would undergo independent environmental review pursuant to CEQA. This is a less-than-significant impact.

Effect: Development to the future projected City population would require expansion of the MRWTP to its full 60 mgd capacity, development of additional groundwater wells, and construction of additional water distribution and treatment facilities. Construction of some of the required facilities would most likely require site-specific environmental impact assessments to be conducted under CEQA. Consequently, the potential environmental impacts of the Urban Area General Plan are considered less-than-significant.

Effect: During drought years, despite available options, significant water shortages are forecast for the San Joaquin River basin by the year 2020. Modesto would make a cumulatively considerable contribution to the cumulative impact on water supply under drought conditions. This is a significant and unavoidable cumulative impact.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Water Supply mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-5-7 through V-5-8 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

**c. Project-Specific Effects**

Section V-5.B of the MEIR provides analysis of Water Supply impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) Sufficient water supplies are not available to serve the project from existing entitlements and resources, new or expanded entitlements are needed. | <input type="checkbox"/> | X  |

Discussion:

Water supplies are available to serve the existing and expanding apartment development.

**6. SANITARY SEWER SERVICES**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to sanitary sewer services:

Effect: The City has already begun to implement the provisions of the Wastewater Master Plan (WMP) to meet future demand for sanitary sewer services. As City wastewater treatment facilities are expanded to meet the needs of the Baseline Developed, Redevelopment, and Planned Urbanizing Areas, the City will obtain the necessary wastewater discharge and NPDES permits from the Central Valley RWQCB, as required under Urban Area General Plan Policy V-D.2(a). Implementing the WMP, requirement of Best Management Practices for post-construction activities, as well as the Urban Area General Plan policy cited above, will avoid violation of wastewater discharge requirements. As a result, this impact would be less-than-significant.

Effect: The City has adopted the WMP specifically to ensure that sewer capacity will match the level of growth projected by the Urban Area General Plan. Development within the Baseline Developed and the Planned Urbanizing Areas that is consistent with the Urban Area General Plan will not have a significant effect on capacity. Urban Area General Plan Policy III-D.1(d) will ensure that development in the Planned Urbanizing Area will fund the necessary improvements. This is a less-than-significant impact.

Note on the WMP Master EIR. The WMP Master EIR identified a number of impacts and mitigation measures. Its mitigation measures have been adopted by the City and are being implemented by the City under the WMP. Those impacts are being independently addressed under that Master EIR and do not need to be considered under this Initial Study. Refer to the WMP Master EIR for details.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Sewer Service mitigation measure(s) pertinent to the project being analyzed in this Initial Study, are found on pages V-6-4 through V-6-7 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

**c. Project-Specific Effects**

Section V-6.B of the MEIR provides analysis of Sanitary Sewer Service impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project will result in a determination by the wastewater treatment provider who serves or may serve the project that there is not adequate capacity to serve the project's projected demand in addition to the provider's existing commitments.	<input type="checkbox"/>	X

Discussion:

The City of Modesto wastewater infrastructure has adequate capacity to serve the existing project.

**7. SENSITIVE WILDLIFE AND PLANT HABITAT**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to sensitive wildlife and plant habitat:

Effect: Although many sensitive species live in riparian habitats within the planning area, the policies of the plan will ensure that impacts of the Urban Area General Plan will be less-than-significant.

Effect: Requiring higher residential density than the suburban norm and a compact pattern of growth within the designated planning area to the year 2025 will minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Wildlife and Plant Habitat mitigation measure pertinent to the project being analyzed in this Initial Study are found on pages V-7-19 through V-7-21. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

### c. Project-Specific Effects

Section V-7.B of the MEIR provides analysis of Wildlife and Plant Habitat impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) Consultation with the California Department of Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on special status species.	<input type="checkbox"/>	X
(3) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	<input type="checkbox"/>	X

#### Discussion:

The proposed project would not have any impact on wildlife nor plant habitat.

## 8. ARCHAEOLOGICAL OR HISTORICAL SITES

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to archaeological or historical sites:

Effect: If a site-specific project involves the modification or demolition of a qualifying structure more than 50 years in age, then the impact will be significant.

Effect: Areas of high probability for archaeological resources are located within the riparian corridors along the Tuolumne River, Dry Creek, and the Stanislaus River. There, the potential impact comes from earthmoving activities that could result in disturbance of resources or human remains. There is a low probability that archaeological resources will be uncovered in areas outside of the riparian corridors.

Effect: The City Zoning Ordinance requires that when substantial changes to a structure are proposed, the development will be required to comply with other Zoning Ordinance provisions such as parking or landscaping requirements. This could result in modifications to the structure, which substantially reduce its historical significance. This would be a less-than-significant impact with the imposition of new mitigation measure Cultural-1.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Archaeological or Historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on page V-8-13 and V-8-14 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

**c. Project-Specific Effects**

Section V-8.B of the MEIR provides analysis of Archaeological/Historical impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources, or that is listed by the City of Modesto as a Designated Landmark Preservation Site.	<input type="checkbox"/>	X

Discussion:

The proposed 12 additional apartments would have absolutely no impact whatsoever on archaeological / historical sites.

**9. STORM DRAINAGE**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to storm drainage:

Effect: The potential impacts on storm water drainage that could occur from the project were qualitatively evaluated with respect to several factors including: extent of the projected increase in urban surface area compared to undeveloped ground; magnitude of projected changes to hydrologic and physical site characteristics of the study area compared to existing conditions; regulatory criteria and guidelines; and professional judgment. Because the Urban Area General Plan includes policies that require new development in all three sections of the planning area to install approved drainage facilities, the potential impacts of the Urban Area General Plan on storm water drainage are considered less-than-significant.

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious areas and associated urban storm water drainage. Cumulative hydrologic impacts of storm water flows from Modesto urban areas and other areas of the County could occur due to the

fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel. Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Storm Drainage mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-9-4 through V-9-8. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

**c. Project-Specific Effects**

Section V-9.B of the MEIR provides analysis of Storm Drainage impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project would substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or offsite.	<input type="checkbox"/>	X
(3) Create or contribute runoff water that would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff.	<input type="checkbox"/>	X

Discussion:

The proposed 12 additional apartments would not at all affect substantially increase the rate nor amount of surface runoff. Furthermore, the storm water drainage system will accommodate all on-site runoff.

**10. FLOODING AND WATER QUALITY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to flooding and water quality:

Effect: Increased runoff can accelerate soil erosion, stream channel scouring, and sedimentation of channels, and also increase pollutant transport to waterways. The potential impacts of the project on flooding are considered less-than-significant because the Urban Area General Plan Update includes policies to restrict development in the floodplain and therefore

would avoid exposing persons and property to flood hazards. In addition, new development under the Urban Area General Plan is required to install storm water drainage facilities that restrict the amount of post-development runoff from exceeding pre-development conditions.

Effect: The potential impacts of the project on surface-water quality are considered less-than-significant because the City policies and capital improvement projects for storm water drainage facilities would minimize discharges of urban pollutants to natural waterways. The City drainage program policies require new development to prepare drainage plans and implement urban runoff control measures; larger Specific Plan developments must have storm drainage systems designed to control pollutant runoff. The City's implementation policies for the municipal NPDES storm water permit require new development to implement an appropriate selection of permanent pollution control measures. Permanent erosion control measures such as seeding and planting vegetation for new cut-and-fill slopes, directing runoff through vegetation, or otherwise reducing the offsite discharge of particulates and sediment are the most effective method of controlling offsite discharges of urban pollutants.

Effect: The City's future development will contribute to cumulative water quality effects. EPA regulations for NPDES storm water permits and new proposed regulatory additions to the rules have become much more comprehensive in recent years and are being implemented to reduce pollutant runoff from both large- and small-scale activities. Implementation of NPDES-permitting programs throughout the county will reduce potential water-quality impacts to a less-than-significant level.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Flooding and Water Quality mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-10-7 through V-10-10 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

**c. Project-Specific Effects**

Section V-10.B of the MEIR provides analysis of Flooding and Water Quality impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

		YES	NO
(1)	The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2)	The project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act.	<input type="checkbox"/>	X
(3)	The project does not comply with Modesto's Guidance Manual for New Development Storm water Quality Control Measures.	<input type="checkbox"/>	X
(4)	The project would create or contribute runoff water, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff.	<input type="checkbox"/>	X

Discussion:

The proposed project is subject to all City of Modesto storm water quality control requirements.

**11. PARKS AND OPEN SPACE**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to parks and open space:

Effect: Within the Baseline Developed and Redevelopment Areas, the Urban Area General Plan does not propose any elimination of existing park and/or open space land. Impacts on parks and open space will be less-than-significant.

Effect: The projected population of the Planned Urbanizing Area is 148,600, requiring 149 acres of neighborhood parks and 298 acres of community parks. The required minimum acreages can be met through the application of existing policies and regulations, including Government Code Section 66474, which require developers to pay Parks Capital Facilities Fees to fund the acquisition of appropriate parkland acreage. This impact is less-than-significant.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Parks and Open Space Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-11-4 through V-11-19 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project. are listed in Section V, Mitigation Applied to Project.

**c. Project-Specific Effects**

Section V-11.B of the MEIR provides analysis of Parks and Recreation impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

YES NO

- (1) The project is inconsistent with the Modesto Urban Area General Plan.  YES  NO

## 12. SCHOOLS

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to schools:

Effect: The estimated increase in population over 1994/1995 would generate an additional 29,200 elementary school students, 7,330 middle school students, and 14,640 high school students above those enrollments. Assuming that existing facilities cannot sufficiently accommodate this increase and that all of the new students would require new school facilities, build out of the General Plan would result in the need for approximately 37 elementary schools, 8 middle schools, and 7 high schools beyond 1994/1995 levels. This would result in a significant impact on schools in that it would exceed current capacity. By statute, this impact is considered to be mitigated below a level of significance by payment of school impact fees and exercise of any or all of the financing options set out in Government Code Section 65997.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. ). As long as all anticipated subsequent projects apply these policies, no new mitigation is necessary. Further, payment of school impact fees and compliance with SB 50 is statutorily deemed to be full mitigation of school impacts (Government Code Section 65995). The proposed additional school policy will address the situation that would arise should AB 50 be repealed. It will authorize impact fees or other methods to finance additional school facilities.

The following schools mitigation measure(s) are pertinent to the project being analyzed in this Initial Study. See pages V-12-4 through V-12-7 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

### c. Project-Specific Effects

Section V-12.B of the MEIR provides analysis of Schools impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project does not comply with SB 50/Proposition 1A funding provisions, or succeeding measures, which provide that compliance results in less-than-significant impacts on schools. | <input type="checkbox"/> | X  |

#### Discussion:

The proposed 12 additional apartments would have negligible impact to schools.

### 13. POLICE SERVICES

#### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to police services:

Effect: The 1995 Master EIR identified two impacts on the demand for police services; however, it concluded that no significant impact, based on the mitigation measures identified in the 1995 Master EIR, would occur. Those mitigation measures are now policies of the Urban Area General Plan. The impact is less-than-significant.

Effect: Within the Planned Urbanizing Area, complying with the Urban Area General Plan policies, particularly the policy that requires a long-range financing strategy for each Comprehensive Plan Area, will allow the City to provide the resources necessary to extend service to the newly growing Planned Urbanizing areas. These policies reduce the impact to a less-than-significant level.

#### b. Master EIR and/or New Mitigation Measures Applied to the Project

Police Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-13-3 and V-13-4 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

#### c. Project-Specific Effects

Section V-13.B of the MEIR provides analysis of police services impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project would result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives.	<input type="checkbox"/>	X

#### Discussion:

The proposed project would have little effect relative to provision of police services.

## 14. FIRE SERVICES

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to fire services:

Effect: The Baseline Developed Area and Redevelopment Area are already developed. Impacts on fire services of development in these areas will be less-than-significant.

Effect: In the Planned Urbanizing Area, the Urban Area General Plan would result in the need for additional fire protection services due to increases in the number of employees, permanent population, and associated improvements. City policy requires that fire protection be in place concurrent with construction in the Planned Urbanizing Area. This policy will be implemented with the adoption of future Comprehensive Plans in the Planned Urbanizing Area. This impact would be less-than-significant.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Fire Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-14-3 through V-14-5 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project. are listed in Section V, Mitigation Measures Applied to Project.

### c. Project-Specific Effects

Section V-14.B of the MEIR provides analysis of fire services impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project would result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives.	<input type="checkbox"/>	X

#### Discussion:

The proposed project would have no effect relative to provision of fire services.

## 15. SOLID WASTE

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to solid waste:

Effect: Since the project would exceed available landfill capacity, it is identified as a significant impact. The Fink Road Landfill may be closed by the time the City reaches build out, unless an expansion is approved by the County and the Integrated Waste Management Board. As the waste stream generated increases with population, additional landfills and methods for diversion would have to be utilized. The project will also generate the need for additional collection and transfer facilities. This impact is significant and unavoidable. The impact would be less-than-significant at such time as the Fink Road Landfill expansion is approved.

Effect: The project makes a considerable contribution to the cumulative impact on landfill capacity of development in Stanislaus County. This impact is significant and unavoidable.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

Solid Waste Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study, are found on pages V-15-5 and V-15-6 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

### c. Project-Specific Effects

Section V-15.B of the MEIR provides analysis of solid waste impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) The County is unable to expand its solid waste disposal capacity and the project would result in waste stream levels that exceed disposal capacity. | <input type="checkbox"/> | X  |

#### Discussion:

The proposed project will have not impact relative to solid waste.

## 16. HAZARDOUS MATERIALS

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to hazardous materials:

Effect: The impacts of the project relative to hazardous materials are less-than-significant, based on the existing regulatory framework. New development will be required to comply with regulations monitoring and controlling the handling and use of hazardous and toxic materials.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under federal, state and county policies and regulations, and the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Hazardous Materials Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-16-9 through V-16-12 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

### c. Project-Specific Effects

Section V-16.B of the MEIR provides analysis of hazardous materials impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project does not comply with all applicable federal, state, and county standards and regulations relative to the handling, storage, disposal, and transport of hazardous or toxic materials or wastes.	<input type="checkbox"/>	X
(3) The project contains a contaminated site not identified as of March 2003.	<input type="checkbox"/>	X
(4) The project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.	<input type="checkbox"/>	X
(5) The project would be located on a site that is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment.	<input type="checkbox"/>	X

Discussion:

The proposed project would have no impacts relative to hazardous materials.

## 17. LANDSLIDES AND SEISMIC ACTIVITY

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to landslides and seismic activity:

Effect: There are areas of known sand and gravel resources within the Baseline Developed Area and Redevelopment Area. Future development will be subject to SMARA requirements, therefore, the project impact will be less-than-significant.

Effect: There are areas of known sand and gravel resources within the Planned Urbanizing Area. Future development will be subject to SMARA requirements, therefore, the project impact will be less-than-significant.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Landslide and Seismic Activity Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-17-6 and V-17-7 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

### c. Project-Specific Effects

Section V-17.B of the MEIR provides analysis of landslides and seismic impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) The project would be located on soil that is unstable, or that would become unstable as a result of the project, and potentially result in on or off-site landslide, lateral spreading, subsidence, liquefaction or collapse. | <input type="checkbox"/> | X  |

Discussion:

The proposed 12 additional apartments would have no potential to increase risks associated with landslides or seismic activity.

## 18. ENERGY

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to energy:

Effect: The Baseline Developed Area and Redevelopment Area are already developed. New development within the Redevelopment Area will comply with Title 24 standards as well as City Urban Area General Plan policies. Impacts on energy by development in these areas (i.e., changes in levels of use above the current baseline) will be less-than-significant.

Effect: Build out under the Urban Area General Plan will utilize an estimated 1,400 million cubic feet per month of natural gas, 1,300 million kilowatt hours (kwh) of electricity per year and 650,000 gallons of gasoline per day. PG&E has indicated that they have at the current time sufficient supplies of natural gas to serve the increased natural gas demands of the project. At present, gasoline supplies are apparently sufficient to serve the gasoline demands of the project. Title 24 of the California Code of Regulation, which ensures that the project will not exceed local, state, and federal energy standards. The impact is less-than-significant.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

The following energy mitigation measure(s) are pertinent to the project being analyzed in this Initial Study. See page V-18-3 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

### c. Project-Specific Effects

Section V-18.B of the MEIR provides analysis of energy impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input checked="" type="checkbox"/>

## 19. PLANNING AND LAND USE

The Master EIR was certified for the Modesto Urban Area General Plan. The significant effects described in the 18 subject areas contained in the Master EIR are based on the planning policies and diagrams adopted as part of the General Plan. Planning and land use were not among the 18 subject areas analyzed in the Master EIR because they essentially defined the project being evaluated in the EIR.

**a. Project-Specific Effects**

Determination of project effects will be based on the following threshold. A project-specific effect is less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project includes a substantive amendment to the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(3) The project would physically divide an established community	<input type="checkbox"/>	X

Discussion:

The proposed 12 additional apartments is consistent with the Modesto Urban Area General Plan, and would not physically divide an established community.

**20. AESTHETICS**

The Master EIR was certified for the Modesto Urban Area General Plan. The significant effects described in the 18 subject areas contained in the Master EIR, are based on the planning policies and diagrams adopted as part of the General Plan. At that level of detail, no significant effects on aesthetics were identified.

**a. Project-Specific Effects**

Determination of project effects will be based on the following threshold. A project-specific effect is less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project would have a substantial adverse effect on a scenic vista.	<input type="checkbox"/>	X
(3) The project would substantially degrade the existing visual character or quality of the project site and its surroundings.	<input type="checkbox"/>	X
(4) The project would create a new source of substantial light and glare, which would adversely affect day or nighttime views in the area.	<input type="checkbox"/>	X

## V. MITIGATION MEASURES APPLIED TO THE PROJECT

### A. Master EIR Mitigation Measures Applied to the Project

Pursuant to CEQA Section 21157.1(c), in order for a Finding of Conformance to be made, all feasible measures from the Master EIR appropriate to the project shall be incorporated into the project. The following adopted General Plan Policies and Master EIR Mitigation Measures (also contained in Section III, "Global List") shall be made part of the project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan:

**Traffic and Circulation Measures:** N/A

#### **Air Quality Measures:**

- A. The City of Modesto shall work with the SJVUAPCD to reduce particulate matter emissions from construction, grading, excavation, and demolition to the maximum extent feasible.
- B. All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover
- C. All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.

#### **Noise Measures:**

The City's noise ordinance (Modesto Municipal Code Section 4-9.101) prohibits the "loud and raucous discharge into the open air of the steam of any steam equipment or exhaust from any stationary internal-combustion engine."

The noise ordinance prohibits the loud and raucous operation or use of any of the following before 7:00 a.m. or after 9:00 p.m. daily (except Saturday and Sunday and State or federal holidays, when the prohibited time shall be before 9:00 a.m. and after 9:00 p.m.):

1. A hammer, or any other device or implement used to pound or strike an object.
2. An impact wrench, or other tool or equipment powered by compressed air.
3. A hand-powered saw.
4. Any tool or piece of equipment powered by an internal-combustion engine such as, but not limited to, chain saw, backpack blower, and lawn mower.
5. Any electrically powered (whether by alternating current electricity or by direct current electricity) tool or piece of equipment used for cutting, drilling, or shaping wood, plastic, metal, or other materials or objects, such as, but not limited to, a saw, drill, lathe, or router.

6. Any of the following: heavy equipment (such as but not limited to bulldozer, steam shovel, road grader, back hoe), ground drilling and boring equipment (such as but not limited to derrick or dredge), hydraulic crane and boom equipment, portable power generator or pump, pavement equipment (such as but not limited to pneumatic hammer, pavement breaker, tamper, compacting equipment), pile-driving equipment, vibrating roller, sand blaster, gunite machine, trencher, concrete truck, and hot kettle pump.
7. Any construction, demolition, excavation, erection, alteration, or repair activity. In the case of urgent necessity and in the interest of public health and safety, the Chief Building Official may issue a permit for exemption from these. Such period shall not exceed three (3) working days in length while the emergency continues but may be renewed for successive periods of three (3) days or less while the emergency continues. The Chief Building Official may limit such permit as to time of use and/or permitted action, depending upon the nature of the emergency and the type of action requested.
8. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields.

**Agricultural Land Measures:** N/A

**Water Supply Measures:** N/A

**Sanitary Sewer Service Measures:** N/A

**Sensitive Wildlife and Plant Habitat Measures:** N/A

**Archaeological or Historic Sites Measures:**

If archaeological resources are discovered at any time during construction, all activity shall cease until the site is surveyed by a qualified archaeologist. The survey shall include mitigation measures, which shall be implemented before construction resumes. The survey shall follow the criteria presented in Appendix K of the State CEQA Guidelines.

**Storm Drainage Measures:** N/A

**Flooding and Water Quality Measures:** N/A

**Parks and Open Space Measures:** N/A

**Schools Measures:** N/A

**Police Services:** N/A

**Fire Services:** N/A

**Generation of Solid Waste:** N/A

**Generation of Hazardous Materials:** N/A

**Potential for Landslides and Seismic Activity:** N/A

**Energy:** N/A

**Planning and Land Use:** N/A

**Aesthetics:** N/A

## **B. New or Additional Mitigation Measures or Alternatives Required**

Where the project's effects would exceed the specific thresholds defined for each environmental category, a mitigated negative declaration or Focused EIR must be prepared. Staff has reviewed the project against those thresholds set forth in the Master EIR for all applicable categories in this Initial Study. The following project-specific mitigation measures are necessary to reduce the identified new significant effect: None.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-575**

**A RESOLUTION DENYING THE APPEAL BY KAREN BURDICK AND  
UPHOLDING THE DENIAL BY THE BOARD OF ZONING ADJUSTMENT OF  
A VARIANCE TO RETAIN A FENCE ENCREACHING INTO THE 15-FOOT  
SETBACKS FROM TWO ADJOINING STREETS, PROPERTY LOCATED AT  
1201 OJAI LANE**

WHEREAS, Sections 10-1.202(a) and 10-2.2501 of the Modesto Municipal Code authorizes the Board of Zoning Adjustment to grant variances subject to findings specified in Section 10-2.2502, and

WHEREAS, the applicant has caused a new five-and-one-half-foot high fence to be constructed within the fifteen-foot setbacks from the two adjoining streets of her corner lot at 1201 Ojai Lane, on the northwest corner of Ojai Lane and Wildflower Drive, and

WHEREAS, the fence is constructed approximately six and one-half feet from the Ojai Lane property line and only three feet from the Wildflower Drive property line and also encroaches into the clear vision triangle, as defined in Section 10-2.2314(a) of the Modesto Municipal Code, and

WHEREAS, an application for a variance from the provisions of Section 10-2.510 of the Modesto Municipal Code to allow retention of the fence which encroaches into the respective street setbacks was filed by Karen Burdick on July 12, 2004, and

WHEREAS, a public hearing was held by the Board of Zoning Adjustment on September 23, 2004, in Chambers, Tenth Street Place, 1010 Tenth Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered, and

WHEREAS, after public hearing, the Board of Zoning Adjustment, by Resolution No. 2004-22, denied the application for a variance, finding that the findings for granting a variance cannot be made as required in Section 10-2.2502 of the Modesto Municipal Code, because there are no special circumstances or conditions applicable to the subject property which do not exist for other property in the same zone and immediate vicinity, and that strict application of setback provisions would not deprive the applicant of practical use of the property in question, and

WHEREAS, on October 1, 2004, an appeal to the denial by the Board of Zoning Adjustment was filed by Karen Burdick, and

WHEREAS, said appeal was set for a duly noticed public hearing before the City Council to be held on October 26, 2004, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which time said public hearing was held, and evidence both oral and documentary was received and considered, and

WHEREAS, after said public hearing the Council of the City of Modesto found and determined that the appeal to the decision of the Board of Zoning Adjustment to deny the variance should be denied and that this decision by the Board should be upheld for the reason set forth in Board of Zoning Adjustment Resolution No. 2004-22 and set forth above, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appeal of Karen Burdick of denial by the Board of Zoning Adjustment of a variance to retain a fence encroaching into the 15-foot setbacks from two adjoining streets at 1201 Ojai Lane is hereby denied and the decision of the Board of Zoning Adjustment is hereby affirmed.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26<sup>th</sup> day of October, 2004, by Councilmember O'Bryant, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**COMMENTS/JUSTIFICATION**

In September 2001, Council approved \$220,014 for capital improvements to the McClure Country Place. These major improvements included a sewer line, HVAC, electrical wiring, foundation repair, fencing and security. Progress has been slow in completing these improvements to ready the house for possible rental. There was \$43,574 remaining in the McClure budget in 03/04 that was not encumbered with specific contractors. These funds need to be re-appropriated to finish the remaining work on the McClure Country Place.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 578**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO SOLICIT FORMAL REQUEST FOR BIDS (RFB) FOR STORM BASIN WEED ABATEMENT SERVICES FOR AN INITIAL TWO-YEAR PERIOD WITH THREE (3) ONE-YEAR CONTRACT EXTENSION OPTIONS FOR A TOTAL ESTIMATED ANNUAL COST OF \$22,450.00**

WHEREAS, the Public Works Department-Waste Water Collections Division has requested the purchase of storm basin weed abatement services, and

WHEREAS, currently the City of Modesto has twenty (20) storm basins throughout the storm collection system, and

WHEREAS, some are detention basins, while others are detentions basins, and

WHEREAS, retention basins collect water through a sequence of underground pipes that feed the basin, and

WHEREAS, storm water is stored in theses basins and allowed to percolate or evaporate, and

WHEREAS, detention basins have the added component of removing the storm water via a lift station located at the basin that pumps to an open waterway, MID canal, creek or river, and

WHEREAS, it is very important to maintain the integrity of the these basins to be able to hold as much capacity as possible, and

WHEREAS, this allows removal of storm water from streets during heavy rain events, thus removing a public safety hazard, and

WHEREAS, basins are excavated into the ground and consist of sloped dirt banks with access roads around the basins for maintenance, and

WHEREAS, it is imperative that weeds be kept at minimum to allow for optimal percolation and prevent possible vegetation from reaching the pump stations, and

WHEREAS, our current weed abatement contract includes regularly scheduled spraying of weed throughout our basin system, and

WHEREAS, this includes spraying at needed basins a total of four (4) times a year or as needed, and

WHEREAS, any chemicals used in the process are applied by a licensed and certified weed abatement contractor, and

WHEREAS, by soliciting competitive bids the City will achieve the best value for storm basin weed abatement services and meet City requirements for formal bids, and

WHEREAS, the City Council has appropriated \$22,450.00 in account number 6280-480-5312-0212-50 for storm basin weed abatement, and

WHEREAS, Modesto Municipal Code (MMC) Section 8-3.203 generally requires all purchases that meet or exceed \$50,000.00 for material, equipment, or contractual services to be formally bid, and

WHEREAS, by soliciting formal bids for the purchase of storm basin weed abatement services for an initial two-year period with three (3) one-year contract extension options for a total estimated annual cost of \$22,450.00, the Finance Department, Purchasing Division will comply with MMC Section 8-3.203 regarding formal bid procedures.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Purchasing Supervisor to solicit formal Request for Bids (RFB) for storm basin weed abatement services for an initial two-year period with three (3) one-year contact extension options for an estimated annual cost of \$22,450.00 as follows:

SECTION 1. The City Clerk is hereby authorized to call for public formal bids for the purchase of storm basin weed abatement services to be opened in the office of the City Clerk, 1010 Tenth Street, in the City of Modesto. The City Clerk shall be directed to give notice inviting such sealed bids in the time, form, and manner provided by law.

SECTION 2. After the sealed bids are opened they shall be tabulated and analyzed and a report submitted to Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 3<sup>rd</sup> day of November, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-579**

**A RESOLUTION AWARDING THE BID FOR PERSONAL PROTECTIVE  
EQUIPMENT (GROUPS 1 AND 6) TO L.N. CURTIS FOR AN ESTIMATED  
ANNUAL AMOUNT OF \$120,000.00.**

WHEREAS, personal protective equipment is paramount to the well being of line personnel, and

WHEREAS, the equipment includes turnout pants and jackets, structure boots, hoods, helmets, gloves, etc., and

WHEREAS, the City provides personal protective equipment to line personnel at the time of hire, and

WHEREAS, that equipment is then replaced when it no longer meets standards for said equipment, and

WHEREAS, on March 2, 2004, Council approved by Resolution the formal solicitation of bids for personal protective equipment, and

WHEREAS, bids were solicited from twenty-two (22) companies, and

WHEREAS, the bid specification was also posted on the City's web site and formally advertised by the City Clerk's office, and

WHEREAS, four (4) companies responded with valid bids, and

WHEREAS, a cost analysis was performed on the bids received, and

WHEREAS, it is recommended that the bids be awarded by grouping, and

WHEREAS, L. N. Curtis submitted the lowest responsive and responsible bid for Groups 1 and 6 of the Personal Protective Equipment bid for an estimated annual amount of \$120,000.00,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the award of bid for Groups 1 and 6 of the personal protective equipment bid to L.N. Curtis, for an estimated annual amount of \$120,000.00.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-583**

**RESOLUTION APPROVING A SECOND AMENDMENT TO AN AGREEMENT WITH KRAMER.FIRM, INC. FOR PROFESSIONAL CABLE CONSULTATION SERVICES IN AN AMOUNT NOT TO EXCEED \$355,000 AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE THE AGREEMENT.**

WHEREAS, ON April 23, 2002, Council approved an Agreement between City and Kramer.Firm, Inc for consulting services relating to the City's cable franchise in the amount of \$55,000 and,

WHEREAS, on January 6, 2003 Council adopted a resolution approving a first amendment to an Agreement with Kramer.Firm, Inc for professional cable consultation services for an amount not to exceed \$155,000, and

WHEREAS, since that time Kramer.Firm, Inc has been conducting grounding inspections and providing sighting services for the issue of permits related to the cable rebuild, and

WHEREAS, the City continues to work with Comcast Corporation on franchise compliance issues but has concerns regarding progress toward meeting the franchise requirements, and

WHEREAS, existing staff does not have the expertise to assess legal and technical issues pertaining to the cable franchise transfer and compliance, and

WHEREAS, the City has utilized the services of Kramer.Firm, Inc., in the past and been very satisfied with the level of technical knowledge and expertise of that firm, and

WHEREAS, City wishes to enter into a second Amendment to Agreement with Kramer.Firm, Inc, for an additional \$200,000, and

WHEREAS the cost of continued services by Kramer.Firm, Inc., to resolve technical issues pertaining to the transfer and cable franchise compliance is estimated at \$355,000, and

WHEREAS, the City is reimbursed for expenditures for these purposes, as per the Cable Transfer Agreement, and

WHEREAS, an additional funding allocation is not being requested,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an amendment to Item 3 Compensation of the existing agreement with Kramer.Firm, Inc., for professional technical cable services in an amount not to exceed \$355,000, a copy of which is attached hereto as **Attachment 1**.

BE IT FURTHER RESOLVED that the Deputy City Manager, or his designee, is hereby authorized to execute the Amendment to the Agreement.

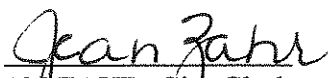

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 3<sup>rd</sup> day of November, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

SECOND AMENDMENT TO STANDARD  
AGREEMENT FOR CONSULTING SERVICES

This Amendment is made and entered into in the City of Modesto, County of Stanislaus, State of California, effective the \_\_\_\_ day of October, 2004, by and between the City of Modesto, ("City"), a municipal corporation of the State of California, and Kramer.Firm, Inc. ("Consultant").

This Amendment is made with reference to the following recitals:

- A. City and Consultant executed an agreement for consulting services in connection with City's cable franchise on April 23, 2002.
- B. City and Consultant now desire to amend the Agreement to amend paragraph 3.

NOW, THEREFORE, in consideration of the mutual covenants, promises, and agreements contained herein, the parties mutually agree and covenant as follows:

- 1. Except as provided herein, the terms used in this Second Amendment shall have the same meaning as the terms have in the original Agreement.
- 2. The Agreement is hereby amended as follows: Paragraph 3 of said Agreement entitled Compensation is hereby amended to read as follows:  
3. Compensation. Consultant agrees to perform the services set forth in Exhibit A at the rates set forth in Exhibit B, both exhibits are incorporated herein by reference. The total amount of the contract including salaries and expenses shall not exceed three hundred fifty-five thousand and no/100ths (\$355,000.00) dollars without the express written permission of the City to extend the contract above this amount. Payment of all vendor costs, salaries, wages and other forms of compensation or reimbursement, and all applicable federal, state and local taxes, including unemployment taxes, social security and state disability insurance as well as all other payroll charges are the responsibility of the Consultant. City shall make

payments to Consultant within thirty (30) business days of timely submission of invoice.

3. Except as provided herein, all other terms and provisions of the Agreement shall remain in full force and effective.

IN WITNESS WHEREOF, the City of Modesto, a municipal corporation, and Consultant have caused this Amendment to be executed in duplicate by its Acting City Manager and attestation by its City Clerk under authority of Resolution No. \_\_\_\_\_, adopted by the Council of the City of Modesto on the \_\_\_\_\_ day of \_\_\_\_\_, 2004 and Kramer.Firm, Inc. has caused this agreement to be duly executed.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-584**

**A RESOLUTION REVISING THE POSITION CLASSIFICATION PLAN FOR THE CITY OF MODESTO.**

WHEREAS, a Position Classification Plan for the City of Modesto was adopted by Modesto City Council Resolution 88-338 pursuant to Rule 2 of the Personnel Rules and Regulations of the City of Modesto, and

WHEREAS, the Acting City Manager has recommended to the Council amendments to the Position Classification Plan, and

WHEREAS, Rule 2.2 of the City of Modesto Personnel Rules provides that revisions to the Classification Plan shall be effective upon adoption of resolution of the City Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION I. CLASSIFICATION CREATED. The Position Classification Plan of the City of Modesto is hereby amended to create the following classification:

**Emergency Dispatch Director**

The job specification for this classification is being created for use as part of a joint powers authority between the City of Modesto and the Consolidated Emergency Dispatch Agency. This classification is in the unclassified service and the individual appointed will be considered an “at will” employee of the City of Modesto pursuant to Section 1201(a)(6) of the City’s Charter. The job specification for the classification of Emergency Dispatch Director as shown on the attached **Exhibit “A,”** which is hereby

made a part of this resolution by reference, is hereby approved and made part of the Position Classification Plan of the City of Modesto.

SECTION 2. EFFECTIVE DATE. This resolution shall become effective on and after November 1, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 3<sup>rd</sup> day of November, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

## EMERGENCY DISPATCH DIRECTOR

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

### DEFINITION

Subject to the Joint Powers Agency Commission determination of policy, the Emergency Dispatch Director is to manage and lead a centralized emergency dispatch operation for the Joint Powers Agency and to perform related duties as required.

As such, the incumbent shall be considered "at will".

### SUPERVISION EXERCISED AND RECEIVED

Receives administrative direction from the Joint Powers Agency Commission.

Exercises direct supervision over administrative, technical, and support staff.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS – Essential and other important responsibilities and duties may include, but are not limited to, the following:

#### Essential Functions:

Plan and supervise the day-to-day operation of Stanislaus Regional 911 Dispatch Center including managing the work of staff performing emergency dispatching services as well as the administrative, technical and support personnel necessary to operate a consolidated emergency dispatch service.

Meet regularly with dispatch liaison officers, appointed by the Advisory, to consider and implement recommendations concerning the processing and resolution of complaints and the day-to-day coordination of dispatch Services between the City, County and participating agencies.

Work with the Advisory Board, staff and representatives of member agencies to set the direction of the department based on customer expectations and the Dispatch Commission's missions, values and objectives.

Essential Functions: (Continued)

Prepare Emergency Dispatch budget requests, estimating and anticipating changes in the level of service required and continuously monitor, administer, and report on the budget after approval and adoption.

Design and implement a staff development system consistent with the Agency's goals and objectives and enthusiastically promote the professional growth and recognition of all employees.

Coordinate and participate in the maintenance, design, modification and installation of the communications systems and equipment.

Insure all technical problems arising in or resulting from the operation of communications systems and equipment are corrected.

Appear before public groups and give talks on functions and activities of the Consolidated Dispatch Agency.

Focus on the future, creating linkages with internal and external customers, translating strategy into effective action plans, continually assessing these plans and taking action as appropriate.

Working with the Commission and Advisory Board, develop the human resource plan to support the Consolidated Emergency Dispatch services needs to include change in work design, employee development, recruitment and compensation.

Perform internal and external customer needs assessments and establish an effective response system for ongoing internal/external customer feedback to insure continuous improvement.

Maintain information, prepare reports and use information and analysis to anticipate potential issues/trends and implements appropriation actions.

Identify and prioritize key processes for improvement based upon customer feedback/trends and develop and implement process improvement measures and controls and recommend and advise on procedures and policies required in the public interest.

Establish operational performance indicators and measures them to ensure results.

Review, implement and monitor Federal Communications Commission operational directives and procedures and work with all user agencies relative to these directives.

Essential Functions: (Continued)

Foster a cooperative relationship with employee organization, promoting an interest-based problem solving approach to resolve employee issues.

Marginal Functions:

Perform related duties as assigned.

QUALIFICATIONS:

Knowledge of:

Consolidated emergency dispatch operations, including staffing, and methods, materials and equipment requirements used in the design, installation, operation and maintenance of a complex emergency communication system.

Applicable State and Federal laws regarding CLETS, communications standards and rules and regulations of the Federal Communications Commission.

Functions of human resource development and management including work design, employee development, evaluation, recruitment, retention and recognition.

Principles, practices, technology and trends in public safety emergency communication systems operations and administration.

Information gathering methods and analysis, budget preparation and report writing techniques.

Ability to:

Effectively plan, develop, implement and maintain consolidated emergency dispatch services, policies and procedures.

Manage highly technical programs and activities.

Meet with user committees and other agencies in resolving problems, developing programs or discussing services.

Work effectively and cooperatively with all customers including staff, Commission members, Advisory Board, and agency partners.

Ability to: (Continued)

Serve as an effective leader, promoting personal responsibility, integrity and accountability.

Provide appropriate and effective written and verbal communication including preparation of the annual report of Emergency Dispatch services.

Create a positive and optimistic work environment, maintaining the self-confidence and self-esteem of others.

Analyze information, anticipate potential issues and trends and make decision based upon facts.

Perform customer needs assessments and benchmarking and evaluate the data collected.

Plan, direct and evaluate the work of staff engaged in all aspects of a consolidated emergency dispatch operation.

Establish and maintain an effective response system for ongoing internal/external customer feedback.

Experience and Training Guidelines:

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

Five (5) years progressively responsible experience in an administrative managerial capacity, which includes experience in budget preparation and personnel administration, or any equivalent combination of experience and training which clearly demonstrates the ability to perform the typical tasks.

Training:

Bachelor's degree in public or business administration from an accredited college or university (qualifying experience may be substituted for college education on a year for year basis).

License or Certificate:

Possession of, or the ability to obtain, an appropriate, valid California driver's license.

WORKING CONDITIONS

Environmental Conditions:

Office and field environment; exposure to computers.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for walking, standing or sitting for prolonged periods of time using a personal computer and attending meetings.

MODESTO CITY COUNCIL  
RESOLUTION No. 2004-585

**A RESOLUTION AMENDING EXHIBIT "N" OF RESOLUTION 2003-330, ENTITLED "A RESOLUTION GRANTING SALARY AND BENEFIT CHANGES TO UNREPRESENTED MANAGEMENT AND CONFIDENTIAL EMPLOYEES, INCLUDING CHARTER OFFICERS AND EXECUTIVES, EFFECTIVE JULY 1, 2003 AND RESCINDING RESOLUTION NOS. 2002-307 AND 2003-81A AND AMENDING EXHIBIT "A" OF RESOLUTION NO. 2003-331 EFFECTIVE JUNE 20, 2003," TO ESTABLISH A SALARY RANGE FOR EMERGENCY DISPATCH DIRECTOR AT RANGE 1417, EFFECTIVE NOVEMBER 1, 2004.**

WHEREAS, Resolution No. 2003-330 granted salary and benefit changes to Unrepresented Management and Confidential Employees including Charter Officers and Executives, effective June 26, 2003, and

WHEREAS, the City Council desires to amend Resolution No. 2003-330,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. AMENDMENT OF RESOLUTION NO. 2003-330.

Exhibit "N" entitled "City of Modesto Class Range Table, Executive Management Effective July 1, 2003," attached to Resolution No. 2003-330, is hereby amended as shown on the amended **Exhibit "A"** entitled, "City of Modesto Class Range Table Executive Management Effective November 1, 2004," which is attached hereto and made a part hereof as though set forth in full herein. Said amended **Exhibit "A"** establishes the Salary Range for Emergency Dispatch Director at Range 1417.

SECTION 2. EFFECTIVE DATE. The resolution shall become effective on and

after November 1, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 3<sup>rd</sup> day of November, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Hawn, Jackman, Keating, Marsh, O'Bryant

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-586**

**A RESOLUTION ALLOCATING A NEW POSITION TITLED EMERGENCY  
DISPATCH DIRECTOR TO THE POLICE DEPARTMENT.**

WHEREAS, the City of Modesto and the County of Stanislaus have entered into a Joint Exercise of Powers Agreement (JPA), and

WHEREAS, this JPA provides for the sharing of cost for dispatch services between the City, County, and other participating agencies, and

WHEREAS, the JPA also calls for the hiring of an Emergency Dispatch Director to manage and lead a centralized emergency dispatch operation for the JPA, and

WHEREAS, the Emergency Dispatch Director will be an employee of the City of Modesto, and

WHEREAS, the JPA members will reimburse the City of Modesto for the salary and benefit costs associated with this position on a quarterly basis beginning January 15, 2005,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto, that the following position change is hereby approved in the Police Department: as follows:

Add one (1) full-time Emergency Dispatch Director position in the unclassified services at salary range of 1417, in organization 1901, effective November 1, 2004.

BE IT FURTHER RESOLVED that City staff is hereby authorized to make the necessary allocation changes in coordination with the Personnel Department.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 3<sup>rd</sup> day of November, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

FROM JVD, INC., FOR THE PROJECT TITLED “ROTARY CENTENNIAL  
JUNCTION INFRASTRUCTURE,” AND AUTHORIZING STAFF TO RE-  
ADVERTISE THE PROJECT AT A FUTURE DATE**

WHEREAS, the sole bid received for “Rotary Centennial Junction Infrastructure Project” was opened at 11:00 a.m. on October 5, 2004, and

WHEREAS, during the bid evaluation process staff discovered a discrepancy between the unit cost and the total for a unit bid basis line item, and

WHEREAS, the City Attorney’s office determined that the existence of the irregularity in the bid made the bid unacceptable and also recommended that the project be rebid, and

WHEREAS, the Public Works Director also recommends that the bid be rejected and that staff be allowed to re-advertise the project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the bid received for the “Rotary Centennial Junction Project,” opened in the office of the City Clerk on October 5, 2004, is hereby rejected.

BE IT FURTHER RESOLVED that staff is hereby authorized to re-advertise the project at a future date.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 3<sup>rd</sup> day of November, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-589**

**A RESOLUTION APPROVING A DEVELOPMENT PLAN FOR PLANNED  
DEVELOPMENT ZONE, P-D(568). (ARCHITECTURE PLUS)**

WHEREAS, a verified application for an amendment to Section 9-3-9 of the Zoning Map was filed by Architecture Plus on July 5, 2004, to reclassify from Professional Office Zone, P-O, to Planned Development Zone, P-D(568), to allow the creation of a parcel without street frontage in conjunction with development of previously-approved office buildings, property located on the north side of Sylvan Avenue west of Claremont Avenue, described as follows:

P-O to P-D(564)

All that certain real property situated in the City of Modesto, County of Stanislaus, State of California, and being a portion of the Northeast Quarter of Section 9, Township 3 South, Range 9 East, Mount Diablo Base and Meridian, in the City of Modesto, County of Stanislaus, State of California, more particularly described as follows:

All of Parcel 1 as shown in Book 49 of Parcel Maps, Page 46, Stanislaus County Records;

Also including the northerly half of Sylvan Avenue, being immediately adjacent to the above described property.

WHEREAS, after a public hearing held on September 20, 2004, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, it was found and determined by the Planning Commission, by its Resolution No. 2004-57, that rezoning of the property as requested is required by public necessity, convenience, and general welfare for the following reasons:

1. The proposed rezoning will not result in any additional development beyond what has previously been approved for the site.

2. The proposed project is compatible with existing and potential surrounding development, because it consists of single-story offices that orient to Sylvan Avenue, a Principal Arterial street.

WHEREAS, said matter was set for a public hearing of the City Council to be held on November 3, 2004, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing was held, and

WHEREAS, after said public hearing the Council found and determined that the application of Architecture Plus for a Planned Development Zone should be granted as consonant with public necessity, convenience and general welfare for the reasons set forth in Planning Commission Resolution No. 2004-57 and quoted above, and

WHEREAS, the Council has introduced Ordinance No. 3360-C.S. on the 3rd day of November, 2004, reclassifying the above-described property from Professional Office Zone, P-O, to Planned Development Zone, P-D(568).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. DEVELOPMENT PLAN. The development plan for Planned Development Zone, P-D(568), is hereby approved subject to the following conditions:

1. All development shall conform to the plot plan and floor plans titled "Proposed Development for 1001 Sylvan" as amended in red, stamped approved by the City Council on November 3, 2004.
2. Prior to the issuance of a building permit, a landscaping and irrigation plan shall be approved by the Parks, Recreation and Neighborhood Director or designee. Screen landscaping shall be installed along the north and west

property lines. Landscaping and the irrigation system shall be installed and maintained in accordance with the approved plan.

3. Fences or walls shall be constructed prior to occupancy and shall be as follows:
  - a. Six-foot-high wood fence with decorative masonry pilasters at 16-foot on centers along the west property line adjacent to the professional office buildings.
  - b. Six-foot-high, solid double-sided alternating board fence with decorative masonry pilasters at 16-foot on centers, or stucco wall with masonry pilasters at 16-foot on centers, or masonry wall along the entire north property line and along that portion of the west property line adjacent to the parking area.
4. All landscaping, fences, and walls shall be maintained and the premises shall be kept free of weeds, trash, and other debris.
5. Seven-foot street dedication, consistent with Standard Specifications, shall be made on Sylvan Avenue prior to occupancy or at any time requested by the City Engineer or designee to alleviate a health, safety, or traffic problem in the area.
6. Prior to issuance of a building permit the developer shall dedicate public utility easements as required by the utility companies and the City Engineer or designee.
7. All outdoor lighting shall be shielded from adjacent residential properties as required by the City Engineer or designee.
8. Trash bins shall be kept in enclosures in accordance with the approved plan and in accordance with plans approved by the Public Works Director or designee. Enclosures shall be constructed of building materials consistent with those used in the major buildings as approved by the Community and Economic Development Department Director or designee.
9. Prior to the issuance of a building permit, the developer shall, in a manner approved by the City Attorney, provide a vehicular accessway for on-site traffic circulation for the benefit of the property to the east, substantially as shown in red on the plot plan.

10. Prior to issuance of a building permit, the developer shall show on the plans submitted to Building & Development Services all fire hydrants as required by the Fire Chief. All hydrants required by the Fire Chief shall be installed and operable prior to construction of any structures.
11. No operations conducted on the premises shall cause an unreasonable amount of noise, odor, dust, mud, smoke, vibration, or electrical interference detectable off the premises. All machinery or equipment shall be soundproofed as required by the Chief Building Official.
12. Prior to the issuance of a building permit, the developer shall submit a plan to provide on-site treatment of stormwater, as approved by the Public Works Director or designee. Storm drain improvements shall be constructed in accordance with the approved plans.
13. All signs shall comply with the sign requirements of the P-O Zone.
14. All conditions of Board of Zoning Adjustment Resolution No. 98-14 not in conflict with this action shall remain in full force and effect.
15. The property owner and developer shall, at their sole expense, defend, indemnify and hold harmless the City of Modesto, its agents, officers, directors and employ-ees, from and against all claims, actions, damages, losses, or expenses of every type and description, including but not limited to payment of attorneys' fees and costs, by reason of, or arising out of, this development approval. The obligation to defend, indemnify and hold harmless shall include but is not limited to any action to arbitrate, attack, review, set aside, void or annul this development approval on any grounds whatsoever. The City of Modesto shall promptly notify the developer of any such claim, action, or proceeding and shall cooperate fully in the defense.
16. The Capital Facilities Fees payable at the time of the issuance of a building permit for any construction in this subdivision map shall be based on the rates in effect at time of issuance of the building permit.

The following conditions of approval are mitigation measures from the Modesto Urban Area General Plan Master Environmental Impact Report:

17. All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover.
18. All land clearing, grubbing, scraping, excavation, land leveling, grading, cut and fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.
19. When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.
20. All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. The use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions. Use of blower devices is expressly forbidden.
21. Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.
22. Within urban areas, trackout shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.
23. The City's Noise Ordinance (Modesto Municipal Code Section 4-9.101) prohibits the "loud and raucous discharge into the open air of the steam of any steam equipment or exhaust from any stationary internal-combustion engine."  

The Noise Ordinance prohibits the loud and raucous operation or use of any of the following before 7:00 a.m. or after 9:00 p.m. daily (except Saturday and Sunday and State or Federal holidays, when the prohibited time shall be before 9:00 a.m. and after 9:00 p.m.):

  - a. A hammer or any other device or implement used to pound or strike an object.
  - b. An impact wrench or other tool or equipment powered by compressed air.

- c. A hand-powered saw.
- d. Any tool or piece of equipment powered by an internal-combustion engine such as, but not limited to, chain saw, backpack blower, and lawn mower.
- e. Any electrically powered (whether by alternating current electricity or by direct current electricity) tool or piece of equipment used for cutting, drilling, or shaping wood, plastic, metal, or other materials or objects, such as, but not limited to, a saw, drill, lathe, or router.
- f. Any of the following: heavy equipment (such as but not limited to bulldozer, steam shovel, road grader, back hoe), ground drilling and boring equipment (such as but not limited to derrick or dredge), hydraulic crane and boom equipment, portable power generator or pump, pavement equipment (such as but not limited to pneumatic hammer, pavement breaker, tamper, compacting equipment), pile-driving equipment, vibrating roller, sand blaster, gunite machine, trencher, concrete truck, and hot kettle pump.
- g. Any construction, demolition, excavation, erection, alteration, or repair activity. In the case of urgent necessity and in the interest of public health and safety, the Chief Building Official may issue a permit for exemption from these. Such period shall not exceed three (3) working days in length while the emergency continues but may be renewed for successive periods of three (3) days or less while the emergency continues. The Chief Building Official may limit such permit as to time of use and/or permitted action, depending upon the nature of the emergency and the type of action requested.
- h. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields.

24. If archaeological resources are discovered at any time during construction, all activity shall cease until the site is surveyed by a qualified archaeologist. The survey shall include mitigation measures, which shall be implemented before construction resumes. The survey shall follow the criteria presented in Appendix K of the CEQA Guidelines.

SECTION 2. DEVELOPMENT SCHEDULE. The following development schedule is hereby approved for said Planned Development Zone, P-D(568):

The entire construction program be accomplished in one phase, construction to begin on or before November 3, 2006, and completion to be not later than November 3, 2007.

SECTION 3. CHANGES IN DEVELOPMENT PLAN. Any changes in the above approved development plan shall be made in accordance with the provisions of Section 10-2.1709 of the Modesto Municipal Code.

SECTION 4. COMPLIANCE WITH CODE PROVISIONS, ETC. In all other respects said planned development shall be accomplished in accordance with and in strict adherence to the provisions of Article 17 of Title 10 of the Modesto Municipal Code relating to Planned Development Zones and other applicable City laws, rules, regulations and procedures.

SECTION 5. EFFECTIVE DATE. This resolution shall not become effective unless and until the ordinance reclassifying the above-described property to Planned Development Zone, P-D(568), becomes effective.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 3<sup>rd</sup> day of November, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-590**

**A RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 1999082041): AMENDING SECTION 9-3-9 OF THE ZONING MAP TO REZONE FROM PROFESSIONAL OFFICE ZONE, P-O, TO PLANNED DEVELOPMENT ZONE, P-D(568) PROPERTY LOCATED ON THE NORTH SIDE OF SYLVAN AVENUE WEST OF CLAREMONT AVENUE (ARCHITECTURE PLUS)**

WHEREAS, on March 4, 2003, the City Council of the City of Modesto certified the updated Final Master Environmental Impact Report (“Master EIR”) (SCH No. 1999082041) for the Modesto Urban Area General Plan, and

WHEREAS, Architecture Plus has proposed that the zoning designation for property located on the north side of Sylvan Avenue west of Claremont Avenue be amended to rezone from Professional Office Zone, P-O, to Planned Development Zone, P-D(568), in the City of Modesto (“the project”) to allow the creation of a parcel without street frontage in conjunction with development of previously-approved office buildings, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a Master EIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the master environmental impact report and whether the subsequent project was described in the master environmental impact report as being within the scope of the project, and

WHEREAS, the City’s Community & Economic Development Department by Environmental Assessment Initial Study EA/C&ED 2004-52 (“Initial Study”) reviewed

the proposed amendment to the Zoning Map and rezone to P-D(568) project to determine whether the project is within the scope of the project covered by the Modesto Urban Area General Plan Master EIR ("Master EIR"), and made the determination that the proposed project will have no additional significant effect on the environment that was not identified in the Master EIR, and further, that no new or additional mitigation measures or alternatives are required, and that, therefore, the proposed project is within the scope of the project covered by the Master EIR, and

WHEREAS, in accordance with CEQA guidelines beginning on October 14, 2004, the City caused to be published a 10-day notice of the City's intent to make a finding that the proposed project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on November 3, 2004, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed amendment to the Zoning Map and rezone to P-D(568) project, a copy of which is attached hereto as **Exhibit "A"**, and incorporated herein by reference, and based on the substantial evidence included in said Initial Study makes the following findings:

1. That the proposed project is contemplated and described in the Master EIR (SCH No. 1999082041) as being within the scope of the Master EIR.

2. That the project will have no new significant effects on the environment not identified or examined in the Master EIR, and no new or additional mitigation measures are required.
3. That, as per Section 21157.1 of the Public Resources Code, no new environmental document or findings are required by the California Environmental Quality Act (CEQA).
4. That there are no specific features which are unique to the proposed project that require project specific mitigation measures. Accordingly, the certified mitigation measures identified in the Master EIR will be sufficient for this project.
5. That all feasible mitigation measures set forth in the Master EIR which are appropriate to the project shall be incorporated in the project.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 3<sup>rd</sup> day of November, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

EXHIBIT A

Initial Study

EA/C&ED 2004-52

**City of Modesto**

**Finding of Conformance to  
General Plan Master EIR:**

**Initial Study C&ED No. (2004-52)**

**For the proposed:**

**Rezoning from P-O to P-D, 1001 Sylvan Avenue**

**Prepared by:  
City of Modesto  
Community & Economic Development Department  
Planning Division**

**September 1, 2004**

**City of Modesto**  
**Master EIR Initial Study Checklist**

**I. PURPOSE**

CEQA allows for the limited environmental review of subsequent projects under the City's Master EIR. This Initial Study Checklist is used in determining whether P-D (Eastgate Center) is "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 1999082041) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformity.

A subsequent project is "within the scope" of the Master EIR when:

1. it will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and
2. no new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect in the Master EIR. (Public Resources Code Section 21158(d))

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (State CEQA Guidelines Section 15384)

**II. PROJECT DESCRIPTION**

- A. Title: Rezone P-O to P-D, 1001 Sylvan.
- B. Address or Location: 1001 Sylvan Avenue.
- C. Applicant: Architecture Plus, 1207 Thirteenth Street, Suite 6, Modesto, CA 95354
- D. City Contact Person: Josh Bridegroom

Project Manager: Josh Bridegroom  
Department: Community and Economic Development Department  
Phone Number: (209) 571-5540  
E-mail address: jbridegroom@modestogov.com

- E. Current General Plan Designation(s): Mixed Use (MU)
- F. Current Zoning Classification(s): Professional Office (P-O) Zone
- G. Surrounding Land Uses:  
North: Single family residences  
South: Single-family residences on south side of Sylvan Avenue  
East: Offices  
West: Single family residences

- H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR (Attach additional maps/support materials as needed for complete record):

This is miscellaneous land use project as defined by Section II.C of the MEIR. This is an application to rezone a 1.15-acre parcel from Professional Office (P-O) Zone to Planned Development (P-D) Zone to allow a parcel split which would result in the creation of a parcel without street frontage, in conjunction with development of previously-approved office buildings. The office buildings are single-story, and total 10,976 square feet. They will be accessed via an existing driveway that will be shared with the existing office development to the east.

- I. Other Public Agencies Whose Approval is Required: none.

### III. FINDINGS/DETERMINATION (SELECT ONE ON THE BASIS OF THE ANALYSIS IN SECTION IV)

A.  **Within the Scope** - The project is within the scope of the Master EIR and no new environmental document or Public Resources Code Section 21081 findings are required. The following items are found to be true:

1. The type of project is described in Chapter II of the Master EIR.
2. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the project or otherwise made conditions of approval of the project.
3. An Initial Study was prepared by the City of Modesto that analyzed whether the proposed subsequent project may cause any significant effect on the environment that was not examined in the MEIR and it has been determined that the project was described in the MEIR as being within the scope of the MEIR.
4. Based on the Initial Study, the City of Modesto finds and determines:
  - a. The proposed subsequent project will have no additional significant effects as defined in CEQA Section 21158 that were not identified in the MEIR.
  - b. No new or additional mitigation measures or alternatives are required.
5. The criteria for currency of the Master EIR were reviewed (Section E below) and it was determined that the Master EIR is current for all areas of the Initial Study.

B.  **Mitigated Negative Declaration Required** - On the basis of the above determinations, the project is not within the scope of the Master EIR. A mitigated negative declaration will be prepared for the project. The following items are found to be true:

1. The type of project is described in Chapter II of the Master EIR.
2. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the project or otherwise made conditions of approval of the project.
3. The project will have one or more potential new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation

measures are being required of the project that will reduce the effects to a less-than-significant level.

**C. Focused EIR Required-** On the basis of the above determinations, the project is not within the scope of the Master EIR. A Focused EIR will be prepared for the project. The following items are found to be true:

1. The type of project is described in Chapter II of the Master EIR.
2. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the project or otherwise made conditions of approval of the project.
3. The project will have one or more new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures or alternatives are required as a result.

**D. Within the Scope Analysis of this Document:**

The Master EIR permits projects to be found within the scope of the MEIR if certain criteria are met. Basically, if the following statements are found to be true for all 20 sections of this Initial Study, then the project was covered by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

- |   | YES                                 | NO                       |
|---|-------------------------------------|--------------------------|
| (1) The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.  | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| (2) City policies which reduce, avoid or mitigate environmental effects, will continue to be in effect and therefore would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures attached to the Initial Study template. | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| (3) Federal, State, Regional and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).  | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| (4) No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources.  | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| (5) The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.  | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| (6) Development within the project will comply with all mitigation measures identified in the General Plan Master EIR.  | <input checked="" type="checkbox"/> | <input type="checkbox"/> |

**E. Currency of the Master EIR Document**

The MEIR should be reviewed on a regular basis to determine its currency, and whether additional analysis/mitigation should be incorporated into the MEIR via a Supplemental or Subsequent EIR (CEQA Section 21157.6). Staff has reviewed sections 1 through 20 of this document in light of the criteria listed below to determine whether the MEIR is current. The analysis contained within the Master EIR is current as long as the following circumstances have not changed. Any no response must be discussed.

- |   | YES                                 | NO                       |
|---|-------------------------------------|--------------------------|
| (1) Certification of the General Plan Master EIR occurred less than five years prior to the filing of the application for this subsequent project.  | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| (2) This project was described in the Master EIR and its approval will not affect the adequacy of the Master EIR for any subsequent project because the City can make the following findings: | <input checked="" type="checkbox"/> | <input type="checkbox"/> |

- (a) No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified.
- (b) No new information, which was not known and could not have been known at the time the Master EIR was certified as complete, has become available.
- (c) Policies remain in place that require site-specific mitigation, and avoidance or other mitigation of impacts as a prerequisite to future development.

**IV. ENVIRONMENTAL ANALYSIS**

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any project-specific significant effect on the environment that was not examined in the Final Master EIR (MEIR) for the General Plan and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the project is "within the scope" of the Master EIR.

Pursuant to Public Resources Code Section 21157.1, no new environmental document or findings are necessary for projects that are determined to be within the scope of the MEIR. Adoption of a notice of conformity after completion of the Initial Study fulfills the City's obligation in that situation.

All environmental effects cited reflect year 2025 buildout of the Urban Area General Plan as identified in the MEIR.

The Master EIR for the General Plan organizes its analysis of environmental impacts into eighteen subject areas. The following analysis is based on the impact analyses contained in Chapter V of the Master EIR. For ease of cross-reference, the sections are numbered in the same order as the analyses in Chapter V.

In addition to the 18 Master EIR subject areas, the Initial Study checklist addresses the issues of land use/planning and aesthetics. The reason for including these additional issues is to ensure that consideration is being given to the full range of subjects of importance contained in Appendix G of the CEQA Guidelines. The format for the land use/planning and aesthetics sections differs from that of the other 18 subject areas since these two subjects were not addressed as distinct subjects in the Master EIR.

**1. TRAFFIC AND CIRCULATION**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant and unavoidable traffic and circulation impacts:

Effect: Increased traffic will result in certain roadway segments operating at LOS D or worse.

Effect: The substantial increase in traffic relative to the existing load and capacity of the street system will cause, violation, either individually or cumulatively, of an LOS standard established by the County CMP for designated roads and highways.

Effect: Creation of need for capacity-enhancing modifications to existing facilities.

Effect: Increase in energy consumption associated with the operation of highway projects, rail improvements, and aviation facilities.

Effect: Severe contrast with existing neighborhood or area character caused by highway and transit projects.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Traffic and Circulation mitigation measures that are pertinent to this project are found on MEIR pages V-1-15 through V-1-21. All feasible measures appropriate to the project – including any new measures – will be incorporated into or made conditions of approval of this project and will be listed in Section IV, Mitigation Measures Applied to Project.

Discussion:

No Traffic and Circulation mitigation measures are appropriate to the project. The project will pay its fair share for Citywide traffic mitigation measures by paying the City's Capital Facilities Fees, which is a Citywide financing mechanism to pay for Traffic and Circulation mitigation measures identified in the Master EIR.

**c. Project-Specific Effects**

Section V-1.B of the MEIR provides analysis of Traffic and Circulation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

YES NO

- (1) The project would contribute one hundred (100) or more peak hour trips to or from the site during the adjacent roadway's peak hour or the development's peak hour, to adjoining roads and generates more trips than assumed for their general plan land use category and zoning in the Master EIR.  YES  NO

Where a project exceeds an additional one hundred (100) or more peak hour trips contribution, a site access study may be conducted to determine to what extent the project would exceed the year 2025 level of service (LOS) expected for the adjoining roadways under the Master EIR. The site access study will recommend new, project-specific mitigation measures. Where the project also exceeds the Master EIR's traffic generation assumption, as determined by Public Works staff, a comprehensive traffic study will be required that will include off-site traffic impact analysis.

YES NO

- (2) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g. farm equipment).  YES  NO
- (3) Result in inadequate emergency access.  YES  NO

(4) Result in inadequate parking capacity.

Discussion:

- (1) The Institute of Traffic Engineers (ITE) Manual specifies a P.M. Peak Hour Trip Generation rate of 3.72 trips per 1,000 square feet of medical/dental offices. Using this rate, the 10,976 square feet of offices proposed by this development would generate 41 peak-hour trips, well below the 100 peak-hour threshold for additional study.
- (2) The project does not substantially increase hazards due to the fact that it will use an existing driveway, and thereby will not introduce a new access point onto public streets.
- (3) The project meets the City's Standards with regard to the maneuverability of emergency vehicles, and therefore will provide adequate emergency access.
- (4) The project will provide 71 parking spaces, well in excess of the minimum 55 spaces that the Modesto Municipal Code requires, so the project will have ample parking capacity.

## **2. AIR QUALITY**

### **a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to air quality:

Effect: Projected traffic levels will result in increased ambient carbon monoxide (CO) levels in the project area. This is a significant and unavoidable impact.

Effect: Projected traffic levels will result in increased ROG and NOX levels in the project area. This is a significant and unavoidable impact.

These are also cumulative impacts on air quality.

### **b. Master EIR and/or New Mitigation Measures Applied to the Project**

Air Quality mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-2-11 through V-2-18 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

Air Quality mitigation measures appropriate to this project include: AQ-17

### **c. Project-Specific Effects**

Section V-2.B of the MEIR provides analysis of Air Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project exceeds the emissions thresholds established for CO and NOx by the San Joaquin Valley Unified Air Pollution Control District's (SJVUAPCD) adopted CEQA Guidelines.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(2) The project does not incorporate the best management practices for PM10 reduction established by the SJVUAPCD.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(3) The project does not comply with the air quality policies of the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(4) The project would expose sensitive receptors to substantial pollutant concentrations.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(5) The project would create objectionable odors affecting a substantial number of people.	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is within the scope of the Master EIR for traffic related impacts. Therefore, it should be within the scope of the Master EIR for CO and NOx emissions in that these pollutants are traffic induced.
- (2) The project will incorporate the best management practices for PM10 reduction established by the SJVUAPD (see mitigations measures above).
- (3) Applicable General Plan Policies will be applied to the project. Therefore, project-specific effects will be less than significant for this impact (see mitigations measures above).
- (4) The project will not generate substantial pollutant concentrations because of the small size (10,900 square feet) of the project, and because the traffic impacts are within the scope of the MEIR. PM10 emissions created through the construction phase will be mitigated as called for by the MEIR by the measures listed above.
- (5) As the project is medical and professional offices, it should not produce objectionable odors.

**3. NOISE**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant and unavoidable environmental impacts relative to noise:

Effect: Traffic noise levels for future conditions in the plan area have the potential to result in exceedances of the City's Noise Significance Standards (see Table 3-3 MEIR).

Effect: Noise level projections based on the traffic levels anticipated in the General Plan indicate that noise will exceed the City's General Plan and noise ordinance standards.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-10 through V-3-15 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project. and any new measures are listed in Section IV, Mitigation Applied to Project:

Discussion:

Noise mitigation measures appropriate to this project include: N-4, N-5 and N-6

**c. Project-Specific Effects**

Section V-3.B of the MEIR provides analysis of noise impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project - specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(2) The project will exceed the noise policies of or otherwise be inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(3) The project will result in a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(4) The project will result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project.	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The City's noise policy is incorporated into the conditions of approval as a mitigation measure (see mitigation measures above).
- (2) The project is consistent with what the General Plan assumed for the site both in land use and intensity and is consistent with the noise policies of the General Plan. The noise mitigation

measures called for by the General Plan for projects within the baseline developed area are incorporated into the conditions of approval for the project (see mitigation measures above).

- (3) The only permanent noise levels produced by the project would be associated with traffic. The increased traffic levels are within the scope of what the MEIR assumed for the site. Therefore, this project will not result in a substantial permanent increase in ambient noise levels.
- (4) The project will not result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity. The noise mitigation measures called for by the General Plan for projects within the baseline developed area, are incorporated into the conditions of approval for the project (see mitigation measures above).

#### 4. AGRICULTURAL LANDS

##### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to agricultural lands:

Effect: Development within the urbanized Baseline Developed Area and Redevelopment Area will have a less-than-significant impact on agricultural lands.

Effect: Conversion of agricultural land will occur as available developable land is occupied within the City. This is a significant and unavoidable impact.

Effect: Growth within Modesto's planning area would contribute considerably to the loss of agricultural land within Stanislaus County. This is a significant and unavoidable cumulative impact.

##### b. Master EIR and/or New Mitigation Measures Pertinent to the Project

Agricultural Land mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-4-7 and V-4-8 MEIR. All feasible measures appropriate to the project and any new mitigation to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project:

Discussion:

There are no Agricultural Land mitigation measures applicable to this project.

##### c. Project-Specific Effects

Section V-4.B of the MEIR provides analysis of Agricultural Lands impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO                                  |
|---|--------------------------|-------------------------------------|
| (1) The project is inconsistent with the Modesto Urban Area General Plan. | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

- (2) The project will directly result in the development of land outside the March 2003 planning area boundaries.
- (3) The project will Conflict with existing zoning for agricultural use, or a Williamson Act contract.
- (4) The project will Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use.

Discussion:

- (1) The project is consistent with the General Plan land use policies. It is an infill project, proposed within the urbanized area of the City. There are no agricultural parcels affected by the proposal and no agricultural and will be converted.
- (2) The project is within the baseline developed area of the City and therefore will not result in the development of land outside the March 2003 planning area boundaries.
- (3) The project site is not zoned for agriculture, nor is it under Williamson Act contract.
- (4) The project will not involve changes to the existing environment that could result in the conversion of farmland to non-agricultural uses. The project is completely surrounded by urbanization.

**5. WATER SUPPLY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to water supply:

Effect: Urban Area General Plan policies are established to limit groundwater extractions to the safe yield of the aquifer and thereby avoid aquifer over drafting. In addition, the UWMP requires that new urban development would proceed in conjunction with the availability of water supplies and distribution facilities. It is assumed that increased entitlement of surface water supplies such as a water transfer from another water purveyor would undergo independent environmental review pursuant to CEQA. This is a less-than-significant impact.

Effect: Development to the future projected City population would require expansion of the MRWTP to its full 60 mgd capacity, development of additional groundwater wells, and construction of additional water distribution and treatment facilities. Construction of some of the required facilities would most likely require site-specific environmental impact assessments to be conducted under CEQA. Consequently, the potential environmental impacts of the Urban Area General Plan are considered less-than-significant.

Effect: During drought years, despite available options, significant water shortages are forecast for the San Joaquin River basin by the year 2020. Modesto would make a cumulatively considerable

contribution to the cumulative impact on water supply under drought conditions. This is a significant and unavoidable cumulative impact.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Water Supply mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-5-7 through V-5-8 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

There are no Water Supply mitigation measure applicable to this project.

**c. Project-Specific Effects**

Section V-5.B of the MEIR provides analysis of Water Supply impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

YES NO

- (1) The project is inconsistent with the Modesto Urban Area General Plan.
- (2) Sufficient water supplies are not available to serve the project from existing entitlements and resources, new or expanded entitlements are needed.

Discussion:

- (1) The project is consistent with the Modesto Urban Area General Plan both in land use and intensity.
- (2) Sufficient water supplies are available to serve the proposed development.

**6. SANITARY SEWER SERVICES**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to sanitary sewer services:

Effect: The City has already begun to implement the provisions of the Wastewater Master Plan (WMP) to meet future demand for sanitary sewer services. As City wastewater treatment facilities are expanded to meet the needs of the Baseline Developed, Redevelopment, and Planned Urbanizing Areas, the City will obtain the necessary wastewater discharge and NPDES permits from the Central Valley RWQCB, as required under Urban Area General Plan Policy V-D.2(a). Implementing the WMP, requirement of Best Management Practices for post-construction activities, as well as the Urban Area General Plan policy

cited above, will avoid violation of wastewater discharge requirements. As a result, this impact would be less-than-significant.

Effect: The City has adopted the WMP specifically to ensure that sewer capacity will match the level of growth projected by the Urban Area General Plan. Development within the Baseline Developed and the Planned Urbanizing Areas that is consistent with the Urban Area General Plan will not have a significant effect on capacity. Urban Area General Plan Policy III-D.1(d) will ensure that development in the Planned Urbanizing Area will fund the necessary improvements. This is a less-than-significant impact.

Note on the WMP Master EIR. The WMP Master EIR identified a number of impacts and mitigation measures. Its mitigation measures have been adopted by the City and are being implemented by the City under the WMP. Those impacts are being independently addressed under that Master EIR and do not need to be considered under this Initial Study. Refer to the WMP Master EIR for details.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Sewer Service mitigation measure(s) pertinent to the project being analyzed in this Initial Study. are found on pages V-6-4 through V-6-7 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

There are no Sewer Service mitigation measure applicable to this project.

**c. Project-Specific Effects**

Section V-6.B of the MEIR provides analysis of Sanitary Sewer Service impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(2) The project will result in a determination by the wastewater treatment provider which serves or may serve the project that it has inadequate capacity to serve the project's projected demand in addition to the provider's existing commitments.	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the Modesto Urban Area General Plan both in land use and intensity.
- (2) Sufficient sewer capacity is available to serve the proposed development.

## 7. SENSITIVE WILDLIFE AND PLANT HABITAT

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to sensitive wildlife and plant habitat:

Effect: Although many sensitive species live in riparian habitats within the planning area, the policies of the plan will ensure that impacts of the Urban Area General Plan will be less-than-significant.

Effect: Requiring higher residential density than the suburban norm and a compact pattern of growth within the designated planning area to the year 2025 will minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

Wildlife and Plant Habitat mitigation measure pertinent to the project being analyzed in this Initial Study are found on pages V-7-19 through V-7-21. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

#### Discussion:

There are no Wildlife and Plant Habitat mitigation measure applicable to this project. The project site is not a biologically sensitive site as defined by Figures V-7-1a through V-7-1e of the MEIR.

### c. Project-Specific Effects

Section V-7.B of the MEIR provides analysis of Wildlife and Plant Habitat impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(2) Consultation with the California Department of Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on special status species.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(3) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	<input type="checkbox"/>	<input checked="" type="checkbox"/>

#### Discussion:

(1) The project is consistent with the Modesto Urban Area General Plan both in land use and intensity.

- (2) The project site is not a biologically sensitive site as defined by Figures V-7-1a through V-7-1e of the MEIR. The California Department of Fish and Game and the U.S. Fish and Wildlife Service were consulted in the production of the MEIR.
- (3) There is no conflict with any local policies or ordinances protecting biological resources

## **8. ARCHAEOLOGICAL OR HISTORICAL SITES**

### **a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to archaeological or historical sites:

Effect: If a site-specific project involves the modification or demolition of a qualifying structure more than 50 years in age, then the impact will be significant.

Effect: Areas of high probability for archaeological resources are located within the riparian corridors along the Tuolumne River, Dry Creek, and the Stanislaus River. There, the potential impact comes from earthmoving activities that could result in disturbance of resources or human remains. There is a low probability that archaeological resources will be uncovered in areas outside of the riparian corridors.

Effect: The City Zoning Ordinance requires that when substantial changes to a structure are proposed, the development will be required to comply with other Zoning Ordinance provisions such as parking or landscaping requirements. This could result in modifications to the structure, which substantially reduce its historical significance. This would be a less-than-significant impact with the imposition of new mitigation measure Cultural-1.

### **b. Master EIR and/or New Mitigation Measures Applied to the Project**

Archaeological or Historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-8-13 and V-8-14 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project:

#### Discussion:

Archaeological and Historic mitigation measures applicable to this project include: AH-8.

### **c. Project-Specific Effects**

Section V-8.B of the MEIR provides analysis of Archaeological/Historical impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

YES NO

- |     |   |                          |                                     |
|-----|---|--------------------------|-------------------------------------|
| (1) | The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| (2) | The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources, or that is listed by the City of Modesto as a Designated Landmark Preservation Site. | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Discussion:

- (1) The project is consistent with the Modesto Urban Area General Plan in both land use and intensity.
- (2) The project would not adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources, or that is listed by the City of Modesto as a Designated Landmark Preservation Site. The mitigation measure called for by the General Plan is incorporated into the conditions of approval for the project.

## 9. STORM DRAINAGE

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to storm drainage:

Effect: The potential impacts on storm water drainage that could occur from the project were qualitatively evaluated with respect to several factors including: extent of the projected increase in urban surface area compared to undeveloped ground; magnitude of projected changes to hydrologic and physical site characteristics of the study area compared to existing conditions; regulatory criteria and guidelines; and professional judgment. Because the Urban Area General Plan includes policies that require new development in all three sections of the planning area to install approved drainage facilities, the potential impacts of the Urban Area General Plan on storm water drainage are considered less-than-significant.

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious areas and associated urban storm water drainage. Cumulative hydrologic impacts of storm water flows from Modesto urban areas and other areas of the County could occur due to the fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel. Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Storm Drainage mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-9-4 through V-9-8. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

Storm Drainage mitigation measures appropriate to this project include: SD-7. This mitigation measure is addressed by condition of approval no. 12.

**c. Project-Specific Effects**

Section V-9.B of the MEIR provides analysis of Storm Drainage impacts of development of the General Plan; the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-than significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(2) The project would substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or off-site.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(3) Create or contribute runoff water that would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff.	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the Modesto Urban Area General Plan in both land use and intensity.
- (2) The project proposes to increase the impervious surface. However, it will be designed to meet the standards contained in the "Guidance Manual for New Development-Storm Water Quality Control Measures," adopted by the City and applied to the project as a Mitigation Measure. With the application of the appropriate mitigation, the effect will be less than significant.
- (3) The project will contribute additional water runoff. However, with the application of the mitigation measures called for in the conditions of approval of the project, the effect will be less than significant.

## **10. FLOODING AND WATER QUALITY**

### **a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to flooding and water quality:

Effect: Increased runoff can accelerate soil erosion, stream channel scouring, and sedimentation of channels, and also increase pollutant transport to waterways. The potential impacts of the project on flooding are considered less-than-significant because the Urban Area General Plan Update includes policies to restrict development in the floodplain and therefore would avoid exposing persons and property to flood hazards. In addition, new development under the Urban Area General Plan is required to install storm water drainage facilities that restrict the amount of post-development runoff from exceeding pre-development conditions.

Effect: The potential impacts of the project on surface-water quality are considered less-than-significant because the City policies and capital improvement projects for storm water drainage facilities would minimize discharges of urban pollutants to natural waterways. The City drainage program policies require new development to prepare drainage plans and implement urban runoff control measures; larger Specific Plan developments must have storm drainage systems designed to control pollutant runoff. The City's implementation policies for the municipal NPDES storm water permit require new development to implement an appropriate selection of permanent pollution control measures. Permanent erosion control measures such as seeding and planting vegetation for new cut-and-fill slopes, directing runoff through vegetation, or otherwise reducing the offsite discharge of particulates and sediment are the most effective method of controlling offsite discharges of urban pollutants.

Effect: The City's future development will contribute to cumulative water quality effects. EPA regulations for NPDES storm water permits and new proposed regulatory additions to the rules have become much more comprehensive in recent years and are being implemented to reduce pollutant runoff from both large- and small-scale activities. Implementation of NPDES-permitting programs throughout the county will reduce potential water-quality impacts to a less-than-significant level.

### **b. Master EIR and/or New Mitigation Measures Applied to the Project**

Flooding and Water Quality mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-10-7 through V-10-10 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project:

#### Discussion:

Flooding and Water Quality mitigation measures appropriate to this project include: FWQ-14. This is addressed by condition of approval no. 12.

### **c. Project-Specific Effects**

Section V-10.B of the MEIR provides analysis of Flooding and Water Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(2) The project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(3) The project does not comply with Modesto's Guidance Manual for New Development Storm water Quality Control Measures.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(4) The project would create or contribute runoff water, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff.	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the General Plan Designation for the site both in land use and intensity.
- (2) The project would comply with the Federal Clean Water Act and the Porter Cologne Act requirements.
- (3) Mitigation Measures as called for by FWQ-14 will be applied to the project so that the project will comply with the Guidance Manual for New Development Storm Water Quality Control Measures.
- (4) The project would not create or contribute to runoff water in excess of the capacity of existing or planned storm water drainage systems or provide additional sources of polluted runoff. The appropriate mitigation measures will be applied to the project.

**11. PARKS AND OPEN SPACE**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to parks and open space:

Effect: Within the Baseline Developed and Redevelopment Areas, the Urban Area General Plan does not propose any elimination of existing park and/or open space land. Impacts on parks and open space will be less-than-significant.

Effect: The projected population of the Planned Urbanizing Area is 148,600, requiring 149 acres of neighborhood parks and 298 acres of community parks. The required minimum acreages can be met through the application of existing policies and regulations, including Government Code Section 66474, which require developers to pay Parks Capital Facilities Fees to fund the acquisition of appropriate parkland acreage. This impact is less-than-significant.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Parks and Open Space Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-11-4 through V-11-19 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project. are listed in Section IV, Mitigation Applied to Project:

Discussion:

There are no Parks and Open Space mitigation measure applicable to this project. It is not on or adjacent to any park sites, nor is it near any of the riparian area identified by Figures V-7-1a through V-7-1e of the MEIR.

**c. Project-Specific Effects**

Section V-11.B of the MEIR provides analysis of Parks and Recreation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

YES NO

- (1) The project is inconsistent with the Modesto Urban Area General Plan.

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.

**12. SCHOOLS**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to schools:

Effect: The estimated increase in population over 1994/1995 would generate an additional 29,200 elementary school students, 7,330 middle school students, and 14,640 high school students above those enrollments. Assuming that existing facilities cannot sufficiently accommodate this increase and that all of the new students would require new school facilities, build out of the General Plan would result in the need for approximately 37 elementary schools, 8 middle schools, and 7 high schools beyond 1994/1995 levels. This would result in a significant impact on schools in that it would exceed current capacity. By statute, this impact is considered to be mitigated below a level of significance by payment of school impact fees and exercise of any or all of the financing options set out in Government Code Section 65997.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation

of the policies in place under the Modesto Urban Area General Plan. ). As long as all anticipated subsequent projects apply these policies, no new mitigation is necessary. Further, payment of school impact fees and compliance with SB 50 is statutorily deemed to be full mitigation of school impacts (Government Code Section 65995). The proposed additional school policy will address the situation that would arise should AB 50 be repealed. It will authorize impact fees or other methods to finance additional school facilities.

The following schools mitigation measure(s) are pertinent to the project being analyzed in this Initial Study. See pages V-12-4 through V-12-7 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section IV, Mitigation Applied to Project:

Discussion:

There are no mitigation measure applicable to this project. The project will pay applicable schools fees as provided under state law.

**c. Project-Specific Effects**

Section V-12.B of the MEIR provides analysis of Schools impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project - specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(2) The project does not comply with SB 50/Proposition 1A funding provisions, or succeeding measures which provide that compliance results in less-than-significant impacts on schools.	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.
- (2) The project will pay any schools fees applicable under SB 50.

**13. POLICE SERVICES**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to police services:

Effect: The 1995 Master EIR identified two impacts on the demand for police services; however, it concluded that no significant impact, based on the mitigation measures identified in the 1995 Master EIR, would occur. Those mitigation measures are now policies of the Urban Area General Plan. The impact is less-than-significant.

Effect: Within the Planned Urbanizing Area, complying with the Urban Area General Plan policies, particularly the policy that requires a long-range financing strategy for each Comprehensive Plan Area, will allow the City to provide the resources necessary to extend service to the newly growing Planned Urbanizing areas. These policies reduce the impact to a less-than-significant level.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Police Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-13-3 and V-13-4 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

No Police Services mitigation measures are applicable to this project.

**c. Project-Specific Effects**

Section V-13.B of the MEIR provides analysis of police services impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(2) The project would result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives.	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.
- (2) The project would not result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. The project meets City Standards for emergency services access.

**14. FIRE SERVICES**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to fire services:

Effect: The Baseline Developed Area and Redevelopment Area are already developed. Impacts on fire services of development in these areas will be less-than-significant.

Effect: In the Planned Urbanizing Area, the Urban Area General Plan would result in the need for additional fire protection services due to increases in the number of employees, permanent population, and associated improvements. City policy requires that fire protection be in place concurrent with construction in the Planned Urbanizing Area. This policy will be implemented with the adoption of future Comprehensive Plans in the Planned Urbanizing Area. This impact would be less-than-significant.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Fire Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-14-3 through V-14-5 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project. are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

No Fire Services mitigation measures are applicable to this project.

**c. Project-Specific Effects**

Section V-14.B of the MEIR provides analysis of fire services impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(2) The project would result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives.	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.
- (2) The project would result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. The project meets City Standards for emergency services access.

**15. SOLID WASTE**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to solid waste:

Effect: Since the project would exceed available landfill capacity, it is identified as a significant impact. The Fink Road Landfill may be closed by the time the City reaches build out, unless an expansion is approved by the County and the Integrated Waste Management Board. As the waste stream generated increases with population, additional landfills and methods for diversion would have to be utilized. The project will also generate the need for additional collection and transfer facilities. This impact is significant and unavoidable. The impact would be less-than-significant at such time as the Fink Road Landfill expansion is approved.

Effect: The project makes a considerable contribution to the cumulative impact on landfill capacity of development in Stanislaus County. This impact is significant and unavoidable.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Solid Waste Mitigation Measures pertinent to the project being analyzed in this Initial Study. are found on pages V-15-5 and V-15-6 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project:

Discussion:

No Solid Waste mitigation measures are applicable to this project.

**c. Project-Specific Effects**

Section V-15.B of the MEIR provides analysis of solid waste impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project - specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(2) The County is unable to expand its solid waste disposal capacity and the project would result in waste stream levels that exceed disposal capacity.	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.
- (2) The existing disposal systems have adequate capacity to serve the project.

## 16. HAZARDOUS MATERIALS

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to hazardous materials:

Effect: The impacts of the project relative to hazardous materials are less-than-significant, based on the existing regulatory framework. New development will be required to comply with regulations monitoring and controlling the handling and use of hazardous and toxic materials.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under federal, state and county policies and regulations, and the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Hazardous Materials Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-16-9 through V-16-12 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

#### Discussion:

No Hazardous Materials mitigation measures are applicable to this project.

### c. Project-Specific Effects

Section V-16.B of the MEIR provides analysis of hazardous materials impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(2) The project does not comply with all applicable federal, state, and county standards and regulations relative to the handling, storage, disposal, and transport of hazardous or toxic materials or wastes.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(3) The project contains a contaminated site not identified as of March 2003.	<input type="checkbox"/>	<input checked="" type="checkbox"/>

- (4) The project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.
- (5) The project would be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment.

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.
- (2) The project does comply with all applicable federal, state, and county standards and regulations relative to the handling, storage, disposal, and transport of hazardous or toxic materials or wastes.
- (3) The project site is not known to contain any contaminants.
- (4) The project is not located within a ¼ mile of any existing school.
- (5) The project would not be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would not create a significant hazard to the public or the environment.

**17. LANDSLIDES AND SEISMIC ACTIVITY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to landslides and seismic activity:

Effect: There are areas of known sand and gravel resources within the Baseline Developed Area and Redevelopment Area. Future development will be subject to SMARA requirements, therefore, the project impact will be less-than-significant.

Effect: There are areas of known sand and gravel resources within the Planned Urbanizing Area. Future development will be subject to SMARA requirements, therefore, the project impact will be less-than-significant.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Landslide and Seismic Activity Mitigation Measures pertinent to the project being analyzed in this Initial Study are found on pages V-17-6 and V-17-7 MEIR. All feasible measures appropriate to the project to

be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

No Landslide and Seismic Activity mitigation measures are applicable to this project.

**c. Project-Specific Effects**

Section V-17.B of the MEIR provides analysis of landslides and seismic impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(2) The project would be located on soil that is unstable, or that would become unstable as a result of the project, and potentially result in on or off-site landslide, lateral spreading, subsidence, liquefaction or collapse.	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.
- (2) The project would not be located on soil that is unstable, or that would become unstable as a result of the project.

**18. ENERGY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to energy:

Effect: The Baseline Developed Area and Redevelopment Area are already developed. New development within the Redevelopment Area will comply with Title 24 standards as well as City Urban Area General Plan policies. Impacts on energy by development in these areas (i.e., changes in levels of use above the current baseline) will be less-than-significant.

Effect: Build out under the Urban Area General Plan will utilize an estimated 1,400 million cubic feet per month of natural gas, 1,300 million kilowatt hours (kwh) of electricity per year and 650,000 gallons of gasoline per day. PG&E has indicated that they have at the current time sufficient supplies of natural gas to serve the increased natural gas demands of the project. At present, gasoline supplies are apparently sufficient to serve the gasoline demands of the project. Title 24 of the California Code of Regulation, which ensures that the project will not exceed local, state, and federal energy standards. The impact is less-than-significant.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

The following Energy mitigation measures are pertinent to the project being analyzed in this Initial Study. See page V-18-3 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section IV, Mitigation Applied to Project:

Discussion:

No Energy mitigation measures are applicable to this project.

**c. Project-Specific Effects**

Section V-18.B of the MEIR provides analysis of energy impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project - specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   |                          |                                     |
|---|--------------------------|-------------------------------------|
|   | YES                      | NO                                  |
| (1) The project is inconsistent with the Modesto Urban Area General Plan. | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.

**19. PLANNING AND LAND USE**

The Master EIR was certified for the Modesto Urban Area General Plan. The significant effects described in the 18 subject areas contained in the Master EIR are based on the planning policies and diagrams adopted as part of the General Plan. Planning and land use were not among the 18 subject areas analyzed in the Master EIR because they essentially defined the project being evaluated in the EIR.

**a. Project-Specific Effects**

Determination of project effects will be based on the following threshold. A project-specific effect is less-than-significant unless:

- |   |                          |                                     |
|---|--------------------------|-------------------------------------|
|   | YES                      | NO                                  |
| (1) The project is inconsistent with the Modesto Urban Area General Plan. | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

- (2) The project includes a substantive amendment to the Modesto Urban Area General Plan.    
X
- (3) The project would physically divide an established community

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.
- (2) No amendment to the General Plan is required by this project.
- (3) The project will be located immediately adjacent to existing offices, and is currently zoned to allow offices. Further, it is located on a principal arterial street, and does not separate existing residential neighborhoods.

**20. AESTHETICS**

The Master EIR was certified for the Modesto Urban Area General Plan. The significant effects described in the 18 subject areas contained in the Master EIR, are based on the planning policies and diagrams adopted as part of the General Plan. At that level of detail, no significant effects on aesthetics were identified.

**a. Project-Specific Effects**

Determination of project effects will be based on the following threshold. A project-specific effect is less-than-significant unless:

- |  | YES                      | NO                                  |
|--|--------------------------|-------------------------------------|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| (2) The project would have a substantial adverse effect on a scenic vista.   | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| (3) The project would substantially degrade the existing visual character or quality of the project site and its surroundings.             | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| (4) The project would create a new source of substantial light and glare, which would adversely affect day or nighttime views in the area. | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.
- (2) There are no scenic vistas from the location of the proposed development. It is completely surrounded by urbanization. Views to the Diablo and Sierra Mountain Ranges are already precluded from this site and its surroundings.
- (3) The project would not substantially degrade the existing visual character or quality of the project site and its surroundings. The new office buildings are single-story, and design of the buildings is

residential in character, to complement the existing adjacent residential areas.. The project will be made to meet City Standards for setbacks from public streets and landscaping.

- (4) The project would not create a substantial source of light or glare that would adversely affect daytime or nighttime views in the area, as all parking area lighting will be required to be shielded from adjacent residential areas.

## **V. MITIGATION MEASURES APPLIED TO THE PROJECT**

### **A. Master EIR Mitigation Measures Applied to the Project**

Pursuant to CEQA Section 21157.1 ( c), in order for a Finding of Conformance to be made, all feasible measures from the Master EIR appropriate to the project shall be incorporated into the project. The following adopted General Plan Policies and Master EIR Mitigation Measures (also contained in Section III, "Global List") shall be made part of the project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan:

All applicable and appropriate mitigation measures have been applied to the project.

#### **Traffic and Circulation Measures:**

No Traffic and Circulation Measures have been identified as appropriate for the project.

#### **Air Quality Measures:**

1. All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover
2. All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.
3. When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.
4. All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. *(the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)*
5. Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.

6. Within urban areas, trackout shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.

**Noise Measures:**

1. The City's noise ordinance (Modesto Municipal Code Section 4-9.101) prohibits the "loud and raucous discharge into the open air of the steam of any steam equipment or exhaust from any stationary internal-combustion engine."

The noise ordinance prohibits the loud and raucous operation or use of any of the following before 7:00 a.m. or after 9:00 p.m. daily (except Saturday and Sunday and State or federal holidays, when the prohibited time shall be before 9:00 a.m. and after 9:00 p.m.):

- a. A hammer, or any other device or implement used to pound or strike an object.
- b. An impact wrench, or other tool or equipment powered by compressed air.
- c. A hand-powered saw.
- d. Any tool or piece of equipment powered by an internal-combustion engine such as, but not limited to, chain saw, backpack blower, and lawn mower.
- e. Any electrically powered (whether by alternating current electricity or by direct current electricity) tool or piece of equipment used for cutting, drilling, or shaping wood, plastic, metal, or other materials or objects, such as, but not limited to, a saw, drill, lathe, or router.
- f. Any of the following: heavy equipment (such as but not limited to bulldozer, steam shovel, road grader, back hoe), ground drilling and boring equipment (such as but not limited to derrick or dredge), hydraulic crane and boom equipment, portable power generator or pump, pavement equipment (such as but not limited to pneumatic hammer, pavement breaker, tamper, compacting equipment), pile-driving equipment, vibrating roller, sand blaster, gunite machine, trencher, concrete truck, and hot kettle pump.
- g. Any construction, demolition, excavation, erection, alteration, or repair activity. In the case of urgent necessity and in the interest of public health and safety, the Chief Building Official may issue a permit for exemption from these. Such period shall not exceed three (3) working days in length while the emergency continues but may be renewed for successive periods of three (3) days or less while the emergency continues. The Chief Building Official may limit such permit as to time of use and/or permitted action, depending upon the nature of the emergency and the type of action requested.
- h. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields.

2. Construction equipment and vehicles shall be equipped with properly operating mufflers according to the manufacturer's recommendations. Air compressors and pneumatic equipment shall be equipped with mufflers and impact tools shall be equipped with shrouds or shields.

**Planning and Land Use Measures**

No Planning and Land Use Measures have been identified as appropriate for the project.

**Aesthetics Measures**

No Aesthetics Measures have been identified as appropriate for the project.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-591**

**A RESOLUTION APPOINTING MEMBERS TO THE PLANNING  
COMMISSION**

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards and Commissions, and

WHEREAS, the Economic Development Committee met on October 27, 2004, and recommended appointment of MARY ARIAS and F. TOM BERGLUND to the Planning Commission.

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. MARY ARIAS, is hereby appointed to the Planning Commission with a term expiration of January 1, 2007.

SECTION 2. F. TOM BERGLUND is hereby appointed to the Planning Commission commencing January 1, 2005, with a term expiration of January 1, 2009.

SECTION 3. The City Clerk is hereby directed to transmit a copy of this resolution to the appointed members of the Planning Commission, and the Secretary thereof.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of November, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-592**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO  
DECLARING THE OFFICIAL INTENT OF THE CITY TO BE REIMBURSED  
FOR CERTAIN CAPITAL EXPENDITURES FROM THE PROCEEDS OF  
INDEBTEDNESS**

(Village One Project)

WHEREAS, this City intends to acquire and construct certain capital facilities (collectively, the "Village One Project") authorized to be financed for its Community Facilities District No. 2004-1 (Village One #2) under proceedings being conducted pursuant to this Council's Resolution Nos. 2004-127 and -128, each adopted on March 2, 2004, and

WHEREAS, the City has paid, and will pay on or after the date hereof certain capital expenditures (the "Expenditures") in connection with the Village One Project prior to the issuance of one or more series of tax-exempt bonds or other forms of indebtedness (the "Indebtedness"), in the principal amount of not to exceed \$75,000,000, for the purpose of financing the Village One Project, and

WHEREAS, the City reasonably expects that it will be reimbursed for the Expenditures from the proceeds of the Indebtedness, and

WHEREAS, Section 1.150-2 of the Treasury Regulations requires the City to declare its reasonable official intent to be reimbursed for prior capital expenditures made for the Village One Project with proceeds of the Indebtedness,

NOW, THEREFORE, BE IT RESOLVED, ORDERED AND FOUND by the City Council of the City of Modesto that:

SECTION 1. The foregoing recitals are true and correct.

SECTION 2. The City declares its official intent to use proceeds of the Indebtedness to reimburse itself for Expenditures paid on or after the date which is no more than 60 days prior to the date hereof. This declaration is made solely for the

purpose of establishing compliance with the requirements of Section 1.150-2 of the Treasury Regulations, and does not bind the City to make any expenditure, incur any indebtedness, or proceed with the Village One Project.

SECTION 3. The City will make a reimbursement allocation, which is a written allocation by the City that evidences the City's use of proceeds of the Indebtedness to reimburse itself for an Expenditure, no later than 18 months after the later of the date on which the Expenditure is paid or the facility with respect to which such Expenditure relates is placed in service or abandoned, but in no event more than three years after the date on which the Expenditure is paid.

SECTION 4. The City recognizes that exceptions are also available under the Treasury Regulations for certain "preliminary expenditures," costs of issuance, certain *de minimis* amounts, expenditures by "small issuers" (based on the year of issuance and not the year of expenditure) and expenditures for construction projects of at least 5 years.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9<sup>th</sup> day of November, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-593**

**A RESOLUTION APPROVING AN AGREEMENT AMENDING THE DESIGN SERVICE CONTRACT WITH O'DELL ENGINEERING TO INCREASE THE CONTRACT AMOUNT FROM \$190,700 TO \$207,580 WITH AN ADDITIONAL \$5,000 CONTINGENCY AND AUTHORIZING THE COMMUNITY FACILITIES DISTRICT ADMINISTRATOR TO EXECUTE SAID AMENDMENT.**

WHEREAS, on March 16, 2004, the Village One Community Facilities District (CFD #1996-1) retained O'Dell Engineering to design the necessary road improvements along Floyd Ave. between Oakdale Rd. and Roselle Ave., and

WHEREAS, it is necessary that O'Dell Engineering perform additional tasks that were not included in the original scope of work, and the total cost proposal for these additional items is \$16,880, and

WHEREAS, in order to complete the design of the Floyd Ave. improvement project, an amendment to the design service contract with O'Dell Engineering to increase the fee from \$190,700 to \$207,580, with an additional \$5,000 contingency is necessary,

NOW, THEREFORE, BE IT RESOLVED that the City Council hereby approves an amendment to the design service contract with O'Dell Engineering to increase the contract amount from \$190,700.00 to \$207,580.00 with an additional \$5,000 contingency.

BE IT FURTHER RESOLVED that the Council hereby authorizes the District Administrator, or his designee, to execute said amendment to agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of November, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 594**

**A RESOLUTION AUTHORIZING THE AWARD OF BID AND CONTRACT  
FOR HYDROCHLORIC ACID TO REAGENT CHEMICAL OF APPEGATE,  
CA. FOR AN INITIAL ONE-YEAR PERIOD, WITH THREE (3) ONE-YEAR  
CONTRACT EXTENSION OPTIONS FOR A TOTAL ESTIMATED ANNUAL  
COST OF \$31,625**

WHEREAS, the Public Works Department-Water Quality Control (WQC) has requested the purchase of hydrochloric acid, and

WHEREAS, by Resolution No. 2004-436, the City Council authorized the Purchasing Supervisor to solicit Request for Bids (RFB) for hydrochloric acid, and

WHEREAS, hydrochloric acid (HCL) is used during the river discharge season from October 1<sup>st</sup> through May 31. This product is utilized at the Jennings Road facility for pH adjustment as required in the City's NPDES permit, and

WHEREAS, the Jennings Road facility, located at 7007 Jennings Road, borders the San Joaquin River. The plant was constructed in 1965, and in 2002 the HCL system was installed due to change in NPDES permit requirements, and

WHEREAS, the system includes a 10,000 gallon storage tank and 2-75 gph feed pumps, and

WHEREAS, the hydrochloric acid is delivered by tanker truck with a maximum load capacity of 4,000 gallons per delivery, and

WHEREAS, the City Council has appropriated \$210,149.00 in account number 6210-480-5214-0312 for hydrochloric acid, and

WHEREAS, the Purchasing Division solicited formal bids for hydrochloric acid on RFB 0405-06, and

WHEREAS, out of nine (9) vendors solicited, three (3) responded to the RFB, and

WHEREAS, one of the bids was deemed to be non-responsive because the bidder did not provide two signed original bid documents as required, and

WHEREAS, based on bids received, Reagent Chemical of Applegate, CA. is the lowest responsive and responsible bidder for hydrochloric acid,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the award of bid and contract for hydrochloric acid to Reagent Chemical of Applegate, CA. for an initial one-year period, with three (3) one-year contract extension options, for an estimated annual cost of \$31,625.00.

BE IT FURTHER RESOLVED that the Purchasing Supervisor is hereby authorized to issue a contract not to exceed \$31,625 to Reagent Chemical of Applegate, CA. for an initial one-year period, with three (3) one-year contract extensions.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of November, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-595**

**A RESOLUTION APPROVING A GRANT APPLICATION FOR \$10,000 IN FUNDING FROM THE STANISLAUS COUNTY CHILDREN AND FAMILIES COMMISSION (PROPOSITION 10) FOR PLAYGROUND EQUIPMENT AT MANCINI PARK, A PART OF THE TUOLUMNE RIVER REGIONAL PARK, AND AUTHORIZING THE ACTING CITY MANAGER TO SIGN THE GRANT APPLICATION.**

WHEREAS, Parks, Recreation and Neighborhoods Department staff has been notified of the opportunity to apply for Stanislaus County Children and Families Commission (Proposition 10) funding, and

WHEREAS, the intent of this program is to address the health, safety, children developing in emotionally supportive environments, quality child care and school readiness, and

WHEREAS, this program will provide Mini-Grant funds to support community-based activities that support children 0 through 5 years old, and

WHEREAS, staff is recommending submission of an application for construction of a "tot lot" at Mancini Park, which is a part of the Tuolumne River Regional Park, to include installation of ADA accessible play equipment, scaled and designed for children ages 2 to 5 years,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the filing of an Application for \$10,000 in Proposition 10 funds from the Stanislaus County Children and Families Commission for construction of a "tot lot" at Mancini Park, which is a part of the Tuolumne River Regional Park.

BE IT FURTHER RESOLVED that the City Council hereby authorizes the Acting City Manager or his designee to execute the grant application.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of November, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-596**

**A RESOLUTION APPROVING ALLOCATION OF \$15,000 IN COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) FUNDING TO COMMUNITY HOUSING AND SHELTER SERVICES TO PROVIDE MOTEL VOUCHERS FOR HOMELESS FAMILIES DURING THE WINTER SEASON, APPROVING \$2000 IN COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) FUNDING TO INTER-FAITH MINISTRIES FOR THE OPERATION AND PROVISION OF A WINTER SHELTER FOR HOMELESS FAMILIES, AND APPROVING \$43,884 IN EMERGENCY SHELTER GRANT (ESG) FUNDING AND \$23,103 IN COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) FUNDING TO THE SALVATION ARMY FOR THE OPERATION AND PROVISION OF A WINTER SHELTER FOR THE HOMELESS, FOR FISCAL YEAR 2004-2005, AND AUTHORIZING THE ACTING CITY MANAGER OR HIS DESIGNEE TO SIGN AND EXECUTE THE AGREEMENTS.**

WHEREAS, the City of Modesto receives annual entitlements from the Department of Housing and Urban Development (HUD) based on population size, number of households living below poverty level and number of sub-standard housing units; up to fifteen percent of the Community Development Block Grant (CDBG) entitlement amount for the year, plus up to fifteen percent of the previous year's program income, may be programmed for public service activities, as defined in the regulations, and

WHEREAS, for fiscal year 2004-2005, 15% of the CDBG entitlement and program income is \$458,100, 15% of the prior year program income from the Revolving Loan Fund is \$110,000, and ESG entitlement for fiscal year 2004-2005 is \$105,715, and

WHEREAS, on April 6, 2004, the City Council by Resolution 2004-211 approved the allocation of Community Development Block Grant (CDBG) funds of \$308,100 for public services and \$109,443 for services for the homeless, and Emergency Shelter Grant

(ESG) funds of \$61,831, and authorized staff to release a Request for Proposal (RFP) for a Winter Shelter for the remaining \$43,884 of ESG funds, and

WHEREAS, an additional \$40,103 was allocated from the CDBG program income and Revolving Loan Fund program income, providing a total of \$83,987 for the Winter Shelter RFP for fiscal year 2004-2005, and

WHEREAS, staff issued the RFP on September 13, 2004, with a proposal due date of October 8, 2004; in response to the RFP, proposals were received from The Salvation Army, Community Housing and Shelter Services and Inter-Faith Ministries, and

WHEREAS, a proposal review committee, consisting of one Council member, Parks, Recreation and Neighborhoods Department staff, three members of the Citizens Housing and Community Development Committee (CH&CDC), and a representative from the City's Fire Department, evaluated the proposals received and provided funding recommendations to the CH&CDC as follows,

- Community Housing and Shelter Services, Winter Shelter for Homeless 04-05, \$15,000 in CDBG funding to provide motel vouchers for homeless families, for the period of November 1, 2004 through April 30, 2005,
- Inter-Faith Ministries for the Santa Fe Project Winter Shelter for Homeless Families, \$2,000 in CDBG funds. This program has been previously funded with CDBG funds to pay the rent of the units to be utilized by homeless families, and
- The Salvation Army, Emergency Winter Shelter, \$23,103 in CDBG funding and 43,884 in ESG funding to provide for the operational costs of a 100-bed congregate shelter site located at 320 Ninth Street, Modesto. Single (male and female) homeless adults over the age of 18 will be the target population to be served from the period of November 1, 2004 through April 30, 2005,

and

WHEREAS, the reasons for the funding recommendations are:

- Community Housing and Shelter Services is proposing to serve homeless families. The funds will cover five motel rooms and the committee agreed that the vouchers could be used only at the Travelodge Motel on Kansas Avenue,
- Inter-Faith Ministries is proposing to serve only homeless families,
- The Salvation Army is proposing to serve single homeless adults. There is currently one shelter option within the City for single adults, and this will provide additional shelter beds for this population, which is greatly needed;

and

WHEREAS, there is a tremendous need for additional emergency shelter beds in our community; the most recent Continuum of Care Plan for Stanislaus County estimates that the unmet need for emergency shelter beds county-wide is 458 beds for individuals and 340 beds for families with children; at a minimum, half of this need is in the City of Modesto, where most of the County's population resides, and

WHEREAS, the Citizens Housing and Community Development Committee met on October 22, 2004, and accepted the review committee's recommendations,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the allocation of \$15,000 in Community Development Block Grant (CDBG) funding to Community Housing and Shelter Services to provide motel vouchers for homeless families during the winter season.

BE IT FURTHER RESOLVED that the Council hereby approves the allocation of \$2,000 in Community Development Block Grant (CDBG) funding to Inter-Faith Ministries for the operation and provision of a winter shelter for homeless families.

BE IT FURTHER RESOLVED that the Council hereby approves the allocation \$43,884 in Emergency Shelter Grant (ESG) funding and \$23,103 in Community Development Block Grant (CDBG) funding to The Salvation Army for the operation and provision of a winter shelter for the homeless.

BE IT FURTHER RESOLVED that the Acting City Manager or his authorized designee is hereby authorized to execute the necessary documents with respect to implementation of the allocation of Fiscal Year 2004-2005 CDBG Public Service Grant funding and ESG funding to the Community Housing and Shelter Services, Inter-Faith Ministries, and The Salvation Army.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9<sup>th</sup> day of November, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**A RESOLUTION APPROVING A GRANT APPLICATION FOR UP TO \$940,000 IN TRANSPORTATION ENHANCEMENT PROJECTS GRANT PROGRAM FUNDING UNDER THE RE-APPROPRIATION OF THE INTERMODAL SURFACE TRANSPORTATION EFFICIENCY ACT OF 1991, NOW REFERRED TO AS THE TRANSPORTATION EQUITY ACT FOR THE 21<sup>ST</sup> CENTURY (TEA-21), ADMINISTERED THROUGH STANISLAUS COUNTY COUNCIL OF GOVERNMENTS AND AVAILABLE THROUGH THE FEDERAL HIGHWAYS ADMINISTRATION AND THE CALIFORNIA TRANSPORTATION COMMISSION, AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE THE APPLICATION.**

WHEREAS, the Federal Government has made funding available through the Federal Highways Administration and the California Transportation Commission to the regionally designated agencies for project selection and programming of the Transportation Equity Act For The 21<sup>st</sup> Century (Tea-21), which provides funds to the State of California for the Transportation Enhancement grants to eligible applicants, and

WHEREAS, the Stanislaus Council of Governments (Stan COG) was designated as the regional agency for the administration of the Transportation Enhancement Program, and

WHEREAS, development of the Virginia Avenue Corridor Trail Project (the "Project") is consistent with the Transportation Enhancement Program under (TEA-21), and

WHEREAS, said procedures established by the California Transportation Commission require the applicant's governing body to certify by resolution the approval of the applicants before submission of said application to the State, and

WHEREAS, the applicant will enter into a contract with the State of California for the Project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto

that the Council hereby:

1. Approves the filing of an application for up to \$940,000 in local assistance funds from the Transportation Enhancements project through the Transportation Equity Act for the 21<sup>st</sup> Century (TEA-21); and
2. Certifies that the applicant has or will have sufficient funds to operate and maintain the Project; and
3. Certifies that the applicant has reviewed, understands, and agrees to the General Provisions contained in the contract shown in the Procedural Guide; and
4. Authorizes the Acting City Manager, or his designee, as agent to conduct all negotiations, execute and submit all documents including, but not limited to, applications, agreements, payment requests and so on, which may be necessary for the completion of the Project.

BETWEEN TOM AND STACY ANNE SAUREY AND THE CITY OF MODEST  
FOR THE LEASE OF PROPERTY LOCATED AT THE SOUTHWEST CORNER  
OF N WASHINGTON STREET AND LAUREL STREET FOR TEMPORARY  
PARKING AND STORAGE AND AUTHORIZING THE ACTING CITY  
MANAGER TO EXECUTE THE LEASE AGREEMENT.**

WHEREAS, a majority of the funding for a new Bus Maintenance Facility at the Corporation Yard has been received, and

WHEREAS, demolition to remove existing structures in support of the Bus Maintenance Facility project was completed in September of 2004, and

WHEREAS, construction for the Bus Maintenance Facility project is anticipated to begin in spring of 2005, and

WHEREAS, during the construction phase of the Bus Maintenance Facility project existing City equipment and employee parking will be displaced, and

WHEREAS, staff has negotiated with the owner of property located at the southwest corner of N Washington Street and Laurel Street (the "property") for a temporary lease of said property to be used to support parking and temporary storage needs associated with the Bus Maintenance Facility project, and

WHEREAS, the property is located within close proximity to the Corporation Yard and the Bus Maintenance Facility, and

WHEREAS, the property is located in the Downtown Improvement District where temporary parking is permitted, and

WHEREAS, the property has been used for parking in the past, and

WHEREAS, the property owners, Tom and Stacy Anne Saurey, are willing to lease the property to the City for \$700 per month plus an initial \$700 security deposit, and

WHEREAS, the proposed lease is for a period of two years commencing on December 1, 2004,

NOW THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby approves the Lease Agreement between Tom and Stacy Anne Saurey and the City of Modesto for temporary parking and storage on property located at the Southwest Corner of Washington and Laurel Streets for a period of two years commencing on December 1, 2004.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the Lease Agreement.

RESOLUTION NO. 2004-601**

**A RESOLUTION APPROVING AN AGREEMENT IN THE AMOUNT OF \$200,000 WITH KAISER FOUNDATION HOSPITALS FOR PARTIAL FUNDING OF A FULL-TIME, LIMITED TERM PROJECT MANAGER TO ACT AS A LIAISON BETWEEN THE CITY AND KAISER AND OVERSEE DEVELOPMENT OF THE KAISER FACILITY PROJECT AND AUTHORIZING THE ACTING CITY MANAGER TO SIGN THE AGREEMENT.**

WHEREAS, Council approved development of a state-of-the-art Kaiser Medical Center (the "Project") campus to be located at the southeast corner of Dale Road and the future Healthcare Way, and

WHEREAS, the Project will be constructed in phases and includes installation of substantial on-site and off-site public infrastructure to both serve the Project and to mitigate impacts of the Project, and

WHEREAS, construction for the Project will require significant oversight and coordination between Kaiser, the City and other public agencies in order to ensure timely completion of initial project phases, and

WHEREAS, the City and Kaiser have agreed to jointly fund a full-time, limited term project manager to serve as a liaison between the City and Kaiser, and

WHEREAS, this project manager would provide oversight and construction management for the public infrastructure associated with the Project, as well as assist in obtaining permits and approvals from other agencies, and

WHEREAS, Kaiser agrees to pay \$200,000 to fund the project manager position, which represents sixty percent (60%) of the salary, benefits and associated costs for a Senior Civil Engineer for a term of three (3) years, and

WHEREAS, Kaiser's share of these costs will be paid up front (within 10 days of agreement execution), and

WHEREAS, the remaining funding for the position (\$80,000) will be provided by Capital Facility Fees associated with infrastructure improvements needed for construction of the project, and

WHEREAS, the City has the option to terminate the agreement on July 1 of any fiscal year during which the agreement is in effect, should the City determine insufficient funds are available to continue the City's support for the proposed position, and

WHEREAS, the Finance Committee considered the limited term position at its September 27, 2004 meeting and recommended approval to the Council,

NOW THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby approves the Agreement between Kaiser and the City of Modesto in the amount of \$200,000 for partially funding a full-time, limited term Project Manager for a period of three years commencing on November 19, 2004.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the Agreement.

WHEREAS, on June 24, 2003, the City Council awarded a \$1,038,900 contract to Goodland Landscape Company, Inc., to construct the "Ustach Neighborhood Park" project, and

WHEREAS, the contractor started work on August 25, 2003, and

WHEREAS, during the course of construction the Contractor was required to perform extra work not anticipated or included in the original contract, and

WHEREAS, the cost of the extra work is estimated to be as high as \$88,306.50, an amount which exceeds the Director's authority for the project as established by the Council's Change Order Approval Policy adopted by Resolution No. 94-443 on July 19, 1994, and

WHEREAS, the Director currently has authority to approve change orders up to a cumulative amount of 8 percent of the original contract price, which amounts to \$83,112.00 on a project this size,

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby increases the Director of Public Works' authority to issue change orders from 8 percent (\$83,112.00) to 8.5 percent (\$88,306.50) for the project entitled "Ustach Neighborhood Park."

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9<sup>th</sup> day of November, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-603**

**A RESOLUTION INCREASING THE DIRECTOR OF PUBLIC WORKS'  
AUTHORITY TO ISSUE CHANGE ORDERS ON THE "CENTRE PLAZA  
ELEVATOR EXTENSION" PROJECT FROM \$41,000 TO \$45,000.**

WHEREAS, on February 24, 2004, the City Council awarded a \$232,900 contract to TCB Industrial, Inc., to construct the "Centre Plaza Elevator Extension" project, and

WHEREAS, the contractor started work on March 29, 2004, and

WHEREAS, additional work not included in the original bid needed to be added to the project to allow completion of a useable elevator that conforms to code requirements, and

WHEREAS, the cost of the extra work was estimated to be as high as \$41,000, an amount which exceeded the Director's authority for the project as established by the Council's Change Order Approval Policy adopted by Resolution No. 94-443 on July 19, 1994, and

WHEREAS, the Council by Resolution No. 2004-445 increased the Director of Public Works' authority to approve change orders up to a cumulative amount of \$41,000, and

WHEREAS, additional work needed to be performed that was not included in the previous estimate for the project, and

WHEREAS, the total cost of the extra work is estimated to be as high as \$45,000, which will exceed the previously approved Director's Authority increase to \$41,000,

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby increases the Public Works Director's authority level to issue change orders from \$41,000 to \$45,000 for the project entitled "Centre Plaza Elevator Extension."

RESOLUTION NO. 2004-604**

**A RESOLUTION ACCEPTING IMPROVEMENTS IN THE MIRA LOMA  
SUBDIVISION AND AUTHORIZING THE CITY CLERK TO RECORD A  
NOTICE OF COMPLETION AND AUTHORIZING RELEASE OF BONDS**

WHEREAS, RIDGE SUTTER, a married man as his sole and separate property,  
is the subdivider of MIRA LOMA SUDIVISION (“SUBDIVISION”), and

WHEREAS, RIDGE SUTTER, has filed irrevocable subdivision bonds to secure  
faithful performance and payment for labor and materials in the amounts of \$309,350.00  
and \$154,675.00, respectively, and

WHEREAS, RIDGE SUTTER, has filed a warranty letter of credit in the amount  
of \$30,935.00 to guarantee improvements in the Mira Loma Subdivision, and

WHEREAS, the City Engineer, in a memorandum to Council, indicates that all  
work required by the Subdivision Agreement has been completed to the satisfaction of  
the Public Works Department, and

WHEREAS, the City Engineer has indicated that it would be in order for the City  
Council to accept the improvements in said subdivision as complete, and authorize the  
City Clerk to file a Notice of Completion and release the bonds upon expiration of the  
statutory periods,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto  
that:

1. The improvements in the Mira Loma Subdivision are hereby accepted and the  
City Clerk is hereby authorized to record a Notice of Completion for the  
improvements.

2. The City Clerk is hereby authorized to release the subdivision bond for faithful performance in the amount of \$309,350.00 upon recordation of the Notice of Completion.
3. The City Clerk is hereby authorized to release the subdivision bond for labor and materials in the amount of \$154,675.00 sixty (60) days after the recordation of the Notice of Completion, provided no claim is made thereon.
4. The City Clerk is hereby authorized to release the warranty letter of credit to guarantee improvements in the amount of \$30,935.00 one year and one day after the effective date of this resolution, provided no claim is made thereon.

**MODESTO CITY COUNCIL  
RESOLUTION NUMBER 2004-605**

**A RESOLUTION APPROVING THE EXPENDITURE OF THE STATE OF CALIFORNIA SUPPLEMENTAL LAW ENFORCEMENT SERVICES FUND GRANT MONIES ALLOCATED TO THE CITY OF MODESTO IN THE 2004/2005 FISCAL YEAR**

WHEREAS, in 1996, the State Legislature passed, and the Governor signed, Assembly Bill 3229, the Supplemental Law Enforcement Services Act, and

WHEREAS, the legislation has continued to be funded each subsequent year at \$100 million, statewide, from sales and use taxes, for exclusive funding of municipal police services, in accordance with written requests submitted by the Chief of Police of a city to his or her governing body, convened in public hearing, and

WHEREAS, the purpose of the law is to ensure public safety, and

WHEREAS, the funding for each county and city is based upon proportionate population, and

WHEREAS, the allocation to the City of Modesto for fiscal year 2004/2005 is \$302,843, and

WHEREAS, the program requires a public hearing by local governmental Chiefs of Police or Sheriffs regarding spending plans, and

WHEREAS, these funds must be held in an interest-bearing Supplemental Law Enforcement Services Fund and must not be used to supplant existing budget funds, and

WHEREAS, the Modesto Police Department plans to budget these funds for overtime in patrol operations,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto, after holding a public hearing, that it hereby approves the Chief of Police's spending plan for the 2004/2005 State Supplemental Law Enforcement Services Fund allocation of \$302,843 for overtime in patrol operations.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9<sup>th</sup> day of November, 2004, by Councilmember O'Bryant, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NUMBER 2004-605A**

**A RESOLUTION AMENDING THE 2004/2005 FISCAL YEAR BUDGET,  
TO APPROPRIATE REVENUES AND EXPENSES FOR THE STATE OF  
CALIFORNIA SUPPLEMENTAL LAW ENFORCEMENT SERVICES FUND  
GRANT**

WHEREAS, in 1996, the State Legislature passed, and the Governor signed, Assembly Bill 3229, the Supplemental Law Enforcement Services Act, and

WHEREAS, the legislation has continued to be funded each subsequent year at \$100 million, statewide, from sales and use taxes, for exclusive funding of municipal police services, in accordance with written requests submitted by the Chief of Police of a city to his or her governing body, convened in public hearing, and

WHEREAS, the purpose of the law is to ensure public safety, and

WHEREAS, the funding for each county and city is based upon proportionate population, and

WHEREAS, the allocation to the City of Modesto for fiscal year 2004/2005 is \$302,843, and

WHEREAS, the Modesto Police Department plans to budget these funds for overtime in patrol operations, and

WHEREAS, the adopted 2004/2005 Police Overtime budget is \$2,288,914 and it will be increased to \$2,591,757 with these funds,

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto, after holding a public hearing, that it amends the 2004/2005

budget to appropriate revenues and expenses to move all SLESF functions from Fund 0400 to the General Fund except overtime and to use the 2004 SLESF revenues for overtime only.

BE IT FURTHER RESOLVED that the Finance Director is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9<sup>th</sup> day of November, 2004, by Councilmember O'Bryant, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-606**

**A RESOLUTION APPROVING A REFUND TO HABITAT FOR HUMANITY, STANISLAUS, FOR CAPITAL FACILITIES FEES (CFF) PAID ON PROPERTIES LOCATED AT 1308, 1312 AND 1320 DAN WEST COURT, MODESTO, AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE CFF REFUND AGREEMENTS WITH HABITAT FOR HUMANITY, STANISLAUS, AND TO EXECUTE A CFF EXEMPTION AGREEMENT WITH EACH OF THE THREE OWNERS OF THESE PROPERTIES.**

WHEREAS, On September 21, 2004, Anita Hellam, Executive Director of the Habitat for Humanity, Stanislaus, local chapter, submitted a letter requesting a refund for \$11,457 in Capital Facilities Fees (CFF) fees already paid on three properties on Dan West Court located in the Modesto City Limits, and

WHEREAS, Habitat for Humanity (Habitat) is a non-profit organization created in 1976; through volunteer labor and donations of money and materials, Habitat for Humanity builds and rehabilitates simple, decent houses with the help of the homeowner (partner) families, and

WHEREAS, Habitat for Humanity's houses are sold to partner families at no profit, financed with affordable, no-interest loans; the loan payments are based on what is affordable to the families; the homeowners' monthly mortgage payments are used to build more houses by Habitat for Humanity; and, in essence, Habitat for Humanity creates affordable houses for low-income households, and

WHEREAS, Habitat for Humanity completed two of the three homes on Dan West Court in 1998 and the third home in 2000, but Habitat is requesting the refunds at this time, after completing all the paperwork on this project, and

WHEREAS, in 1997, by Resolution 97-148, the City Council approved Habitat's request for the deferral of Capital Facilities Fees at the time the building permits were issued; however, Habitat did not complete the paperwork for the CFF exemption to transfer to the low-income buyers upon completion of the homes, and therefore, Habitat had to pay \$3,819 per home to obtain the occupancy permits for the completed homes, and

WHEREAS, under the current CFF policy, the homeowners at 1308, 1312 and 1320 Dan West Court are eligible for CFF exemptions based on household income level and family size, the income is based on the household income at the time the families moved into the completed homes, and the CFF exemption will be based on ten years of residency from the date of move in, and

WHEREAS, City development fees as determined by the City, in its Housing Element and Consolidated Plan, often serve as barriers to quality housing for working families; the City is interested in further housing opportunities to all segments of our community and has adopted an exemption and deferral policy for housing units dedicated to low-income households; and, the creation of affordable housing has been established as a high priority by the Department of Housing and Urban Development, and

WHEREAS, although Habitat for Humanity is aware that they should have completed the paperwork for the exemption of the fees prior to the completion of the homes, they have now completed the required documentation to have the fees assumed by the eligible households, and

WHEREAS, there is a need for the creation of affordable housing in the Modesto community, and the refund will be done in an effort to assist Habitat for Humanity and

their partner families; the partner families will receive credits toward their existing mortgage loans with Habitat for Humanity,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a refund to Habitat for Humanity, Stanislaus, for \$11,457 paid for Capital Facilities Fees (CFF) on properties located at 1308, 1312 and 1320 Dan West Court, Modesto.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute CFF refund agreements with Habitat for Humanity, Stanislaus.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute a CFF exemption agreement with each of the three owners of properties located at 1308, 1312 and 1320 Dan West Court, Modesto.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9<sup>th</sup> day of November, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-607**

**A RESOLUTION ACCEPTING STAFF'S REPORT ON WASTE  
MANAGEMENT'S PERFORMANCE DURING THE PERIOD DECEMBER 2003  
THROUGH SEPTEMBER 30, 2004 GRANTING A ONE (1) YEAR EXTENSION  
OF THE INTERIM SERVICE AGREEMENT THROUGH JANUARY 1, 2006,  
AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE THE  
AGREEMENT.**

WHEREAS, on November 1, 1997, the City executed a Service Agreement with Modesto Garbage Company, Inc., D.B.A. Modesto Disposal Service, which was then a subsidiary of USA Waste of California, which later acquired Waste Management and changed the name of the corporate parent to Waste Management, for a term through January 1, 2007, and

WHEREAS, while the term of this Service Agreement with Waste Management was for 10 years, due to concerns about the corporation's problems in other cities, the City Council added a provision to the Service Agreement to allow the City to terminate the agreement on January 1, 2004, if the City found the company did not meet certain performance standards to the satisfaction of the City, and

WHEREAS, pursuant to Modesto Municipal Code Section 5-5.33, the City Council held a public hearing, on Thursday, November 13th, 2003, at 5:30 p.m. in the Tenth Street Place Chambers located at 1010 10<sup>th</sup> Street, Modesto, California, at which hearing the Council heard a report from City staff detailing that over a 3 year period, the company had violated multiple provisions of Section b.1. of their Service Agreement, and

WHEREAS, at said hearing, having considered evidence presented by staff as well as testimony from the Company and members of the public, the Council terminated the Service Agreement with Waste Management (D.B.A. Modesto Disposal Service)

effective January 1, 2004, authorized the City Manager to execute a one (1) year Interim Agreement with Waste Management allowing them to continue providing service through January, 2005, authorized the City Manager to extend the Interim Agreement for a total of two, one (1) year extensions if the company fully complies with the service requirements of the City, and required Waste Management to compensate the City for staff time expended in the resolution of customer service complaints, and

WHEREAS, the Interim Agreement required the City to review Waste Management's performance after 9 months to determine whether the company was making progress in complying with the terms and conditions of the Agreement, and

WHEREAS, staff has conducted this 9 month review, and believes that the performance improvements reflected by the service logs and the improved operations at Waste Management's transfer station warrant a one (1) year extension of the Interim Agreement, and

WHEREAS, staff presented a recommendation to the Economic Development Committee at its October 11, 2004 meeting, that the Acting City Manager be authorized to execute a one (1) year extension of the Interim Agreement, through January 1, 2006, and that the City conduct a second performance review in July, 2005, and return to the Council with a recommendation on whether or not the City should give the company a second, one (1) year extension through January 1, 2007, and either go out to bid at the end of the additional year, allocate Waste Management's Service Area to the other collection companies, or enter into negotiations with Waste Management on a new, longer term contract, and

WHEREAS, the Economic Development Committee voted 2:1 to approve this recommendation,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto, that the Council hereby:

1. Authorizes the Acting City Manager to execute a one (1) year extension of the Interim Agreement, through January 1, 2006,
2. Directs staff to conduct a second 9 month performance review in July, 2005, and return to the Council with a recommendation on whether or not the City should give the company a second, one (1) year extension, through January 1, 2007, and either go out to bid at the end of the additional year, allocate Waste Management's Service Area to the other collection companies, or enter into negotiations with Waste Management on a new, longer term contract.

The foregoing resolution was introduced at a public hearing of the Council of the City of Modesto held on the 9th day of November, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004- 608**

**A RESOLUTION AUTHORIZING THE ACTING CITY MANAGER TO TAKE ALL APPROPRIATE ACTIONS TO COMPLETE THE SALE OF APPROXIMATELY 17,000 SQUARE FEET OF APN 033-22-16 LOCATED AT DRY CREEK AND SCENIC AVENUE; AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE ALL REQUIRED DOCUMENTS RELATED TO THE PROPERTY SALE**

WHEREAS, the City of Modesto acquired APN 033-22-16 located at Dry Creek and Scenic Avenue in 1973, and it is now part of Dry Creek Regional Park, and

WHEREAS, approximately 17,000 square feet of APN 033-22-16 lies on the north bank of Dry Creek and is landlocked by the adjacent properties, and

WHEREAS, the adjacent property identified as APN 033-22-06 is owned by Joyce A. Fischer, Dale M. Clemens and Wanda Clemens, and

WHEREAS, the adjacent property identified as APN 033-22-07 is owned by Andrew B. Katakis, and

WHEREAS, the adjacent property owners have requested that they be allowed to acquire the property adjacent to their own and extend their lots to the creek, and

WHEREAS, if the City retains this property, it will need to be maintained by the City at City expense, and

WHEREAS, this item was approved by the Economic Development Committee on October 11, 2004, and

WHEREAS, upon Council approval staff will sell said property to the adjacent property owners and to return all proceeds from said parcel sale to the City's Parks, Recreation & Neighborhoods revenue account number 0100-310-3120-8101R,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes staff to take all appropriate actions to complete the sale of the approximately 17,000 square feet of property located at Dry Creek and Scenic Avenue to the property owners of

APN 033-22-06 and APN 033-22-07.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute all required documents related to said property sale.

**COMMENTS/JUSTIFICATION**

Due to the uncertainty about contributions to the TRRP Fund by the TRRP agencies, staff was unable to enter correct data into the BRASS system in time for Council approval; therefore the numbers are also incorrect in the AFIN system. Final-funding for the Tuolumne River Regional Park operating budget was approved by the JPA in April, which was after data entry into the BRASS system was closed. Adjustments were made to the budget to reflect decreases in revenues, primarily from apportionment contributions. This budget action will align the budget adopted by the JPA with the City's accounting system.

NOV - 4 2004

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-610**

**A RESOLUTION APPROVING THE HIRING OF ENTRY-LEVEL  
FIREFIGHTERS UTILIZING THE AB 1929 DISPLACED FIREFIGHTER LIST  
ESTABLISHED BY THE STATE OF CALIFORNIA**

WHEREAS, the Modesto Fire Department last established a hiring list in July 2003, and

WHEREAS, the Modesto Fire Department's list is nearly 18 months old and the top 86 candidates have been evaluated for hire, and

WHEREAS, the Modesto Fire Department has approximately 12 vacancies to fill due to retirements and the opening of Station 11, and

WHEREAS, in the last round of interviews, 27 candidates on the current list were interviewed and of those, six have completed the process and were deemed suitable for hire, and,

WHEREAS, in February 2004, the California State Legislature passed Assembly Bill (AB) 1929 allowing local government agencies to hire firefighters who have been laid off by other fire departments due to reduction in service from a list established by the State of California, and

WHEREAS, the Modesto Fire Department would like to fill the remaining vacancies, prior to establishing a new list, using the AB 1929 list,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the hiring of entry-level firefighters utilizing the AB 1929 Displaced Firefighter List established by the State of California.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of November 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour

NOES: Councilmembers: None

ABSENT: Councilmembers: None

Attest: Jean Zahr  
JEAN ZAHR, City Clerk

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-611**

**A RESOLUTION (1) APPROVING THE DEFERMENT OF THE FACILITY RENTAL FEE INCREASE FOR THE REGULAR USERS AT THE MODESTO SENIOR CITIZENS CENTER UNTIL DECEMBER 31, 2005, OR UNTIL THE GROUPS RECEIVE THEIR 501(C) 3 STATUS AND OBTAIN A SPONSOR, WHICHEVER OCCURS FIRST, (2) RECOGNIZING THAT PROJECTED REVENUE IN 0100-370-3741-6228, SENIOR CITIZENS CENTER RENTAL WILL BE \$1,893 LESS THAN ESTIMATED FOR FY 2004-205-05, AND (3) RECOGNIZING THAT PROJECTED REVENUE IN 0100-370-3741-6228 MAY NEED TO BE DECREASED BY \$2,141 FOR FY 2005-2006.**

WHEREAS, the Modesto Senior Citizens Center (Senior Center) is a regular meeting location for the following six community groups, and most of these groups are fraternal or social clubs and have been grand fathered in as “regular users” that receive non-profit rates for uses at the Modesto Senior Citizens Center;

- Modesto Senior Citizens, Inc. – a non-profit,
- The Modesto Ballroom Dance Club – a non-profit,
- The Modesto Garden Club, a non-profit,
- Native Daughters of the Golden West,
- Skirts & Flirts,
- Forever Young Dance Club,

and

WHEREAS, in March 2004, the City Council approved a new Use Policy and Fee Schedule for the Parks, Recreation and Neighborhoods Department’s facilities, whereby the facility rental fees have been calculated to gradually increase over the next four years to equal today’s cost of service of the facility, with non-profit groups such as the regular users at the Senior Center paying 50% of the cost of service, and

WHEREAS, the effective date of the new fees was April 1, 2004, and

WHEREAS, regular users at the Senior Center that had previously signed a contract with the City would pay the old fee until their contracts expire on December 31, 2004, and

WHEREAS, the Forever Young Dance Club contacted staff regarding their concerns about the new facility fee schedule, stating that the new fee would result in negative impact on their group's financial condition, and the Forever Young Dance Club also believes the increase will reduce their membership which would additionally decrease their revenue source, and

WHEREAS, staff presented this item to the Finance Committee on October 25, 2004, and the Finance Committee recommended (1) that the facility rental fee increase be deferred to the Forever Young Dance Club at the Senior Center for up to one year and (2) that the Forever Young Dance Club organize itself as a non-profit organization so that it will be eligible to solicit sponsorship, and (3) that the facility rental fee to all regular users at the Senior Center be deferred so as to not favor one club over another, and

WHEREAS, the 1996 rate for each group will be effective until December 31, 2005, or until the groups receive their 501(c) 3 status and obtain a sponsor, whichever occurs first, and

WHEREAS, beginning January 1, 2006, the Modesto Senior Citizen Center facility rental fees for the regular users would resume at the City Council approved facility fee schedule for fiscal year 2005-2006, and

WHEREAS, due to said deferral of the facility rental fee increase, staff recognizes that FY 2004-2005 revenue will be less than estimated, and projected revenue in Fiscal Year 2005-2006 may need to be decreased,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the deferment of the facility rental fee increase for the Regular Users at the Modesto Senior Citizens Center until December 31, 2005, or until the groups receive their 501(c) 3 status and obtain a sponsor, whichever occurs first.

BE IT FURTHER RESOLVED that the Council hereby recognizes that revenue in 0100-370-3741-6228, Senior Citizens Center Rental, will be \$1,893 less than estimated for FY 2004-2005.

BE IT FURTHER RESOLVED that the Council hereby recognizes that projected revenue in 0100-370-3741-6228, Senior Citizens Center Rental, may need to be decreased by \$3,141 for FY 2005-2006.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of November 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-612**

**A RESOLUTION APPROVING A LEASE AGREEMENT BETWEEN THE CITY OF MODESTO AND DAVID E. KAMRAR AND CAROLE L. KAMRAR FOR PROPERTY LOCATED AT 121 ELM STREET, AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE THE AGREEMENT.**

WHEREAS, the City of Modesto leases a 5,841 square foot commercial building located at 121 Elm Street in Modesto for use by the Building and Parking Services Division of the Parks, Recreation and Neighborhoods Department, and

WHEREAS, the lease expires on December 31, 2004, and

WHEREAS, staff desires to renew the lease for this property, and

WHEREAS, the lease will be for a five year term commencing on January 1, 2005, and

WHEREAS, the monthly rent is \$2,520, with an annual increase of \$.03 per square foot, and

WHEREAS, funds are budgeted in 7800-350-3512-0215, Rental of Real Property,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the lease agreement between the City of Modesto and David E. Kamrar and Carole L. Kamrar for the property located at 121 Elm Street.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of November 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-613**

**A RESOLUTION REVISING THE POSITION CLASSIFICATION PLAN FOR  
THE CITY OF MODESTO.**

WHEREAS, a Position Classification Plan for the City of Modesto was adopted by Modesto City Council Resolution 88-338 pursuant to Rule 2 of the Personnel Rules and Regulations of the City of Modesto, and

WHEREAS, the Acting City Manager has recommended to the Council amendments to the Position Classification Plan, and

WHEREAS, Rule 2.2 of the City of Modesto Personnel Rules provides that revisions to the Classification Plan shall be effective upon adoption of resolution of the City Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. CLASSIFICATIONS AMENDED. The Position Classification Plan of the City of Modesto is hereby amended to revise the job specifications for the following classifications:

1. Construction Inspector
2. Supervising Construction Inspector
3. Heavy Equipment Mechanic
4. Equipment Service Worker
5. Coach Mechanic Crewleader

Said classifications are being amended to revise the job specifications to more accurately reflect the requirements of the various job classifications. The Equipment Service

Worker II job specification is being revised to change the title to Equipment Service Technician. The Coach Mechanic Crewleader job specification is being revise to change the title to Heavy Equipment Mechanic Crewleader.

SECTION 2. CLASSIFICATION DELETED. The Position Classification Plan of the City of Modesto is hereby amended to delete the classification of Equipment Service Worker I. Said classification is no longer being used.

SECTION 3. EFFECTIVE DATE. This resolution shall become effective on and after November 23, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of November 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

## CONSTRUCTION INSPECTOR

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

### DEFINITION

To inspect workmanship and materials used in a variety of public works projects and to ensure conformance with plans, specifications and Departmental regulations.

### SUPERVISION RECEIVED AND EXERCISED

Receives general supervision from the Supervising Construction Inspector.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS – Essential and other important responsibilities and duties may include, but are not limited to, the following:

#### Essential Functions:

Inspect various structures and construction projects for conformance with specifications and regulations; check line, grade, size, elevation and location of structures.

Monitor traffic control problems at construction site and coordinate corrections if necessary.

Record amounts of materials used and work performed; prepare necessary reports for progress payments.

Review plans and specifications of assigned project; attend pre-construction conferences as necessary.

Inspect materials for identifications as conforming to specifications.

Perform a variety of field tests.

Observe work during progress and upon completion; monitor contractor workforce for adequate staffing levels.

Inspect adjacent properties for damage from construction activity.

Confer with the public regarding project schedule, hazards and inconvenience.

Coordinate work with other City departments and utilities.

### ESSENTIAL AND MARGINAL FUNCTION STATEMENTS (Continued)

Prepare a variety of activity records and reports; maintain as-built notes for each set of plans.

Evaluate and negotiate contract change orders related to construction.

Marginal Functions:

Perform related duties as assigned.

QUALIFICATIONS

Knowledge of:

Principles, methods, materials, equipment and safety hazards of constructions inspection.

Defects and faults in construction.

Basic mathematics including algebra, geometry, and trigonometry.

Basic soil mechanics and geology.

Materials sampling and estimate procedures.

Engineering mechanics of structures.

Applicable laws, regulations, codes and departmental policies governing the construction of assigned projects.

Ability to:

Understand and interpret engineering plans and specifications and prepare accurate reports.

Detect and locate faulty materials and workmanship and determine the stage of construction during which defects are most easily found and remedied.

Address issues from contractors, engineers, and members of the public in an assertive and tactful manner.

Establish and maintain cooperative working relationships with those contacted in the course of work.

Communicate clearly and concisely, both orally and in writing.

Ability to: (Continued)

Use basic computer software programs.

**Occasionally perform medium lifting of objects up to 50 lbs.**

EXPERIENCE AND TRAINING GUIDELINES

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Training:

Equivalent to an Associate of Arts degree from an accredited college with major course work in civil engineering, construction technology or a related field.

Experience:

Two years of increasingly responsible experience performing construction inspection in a variety of public works or related construction projects, such as preparing daily reports, monitoring change order work, evaluating material testing results, preparing correction notices and obtaining corrective action, and preparing monthly progress payments.

License or Certificate

Possession of, or ability to obtain, an appropriate, valid California driver's license.

WORKING CONDITIONS

Environmental Conditions:

Office and field environment; travel from site to site.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for walking or standing for prolonged periods of time; operate motorized equipment and vehicles; **occasionally lifting and carrying up to fifty (50) lbs.**

EQUIPMENT SERVICE WORKER I  
EQUIPMENT SERVICE WORKER II TECHNICIAN

**Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.**

DEFINITION

To perform semi-skilled work in servicing gasoline or diesel powered automotive, heavy construction and other power-driven equipment **including the maintenance and minor repair of a variety of City equipment.**

DISTINGUISHING CHARACTERISTICS

~~Equipment Service Worker I—This is the entry level class in the Equipment Service Worker series. This class is distinguished from the Equipment Service Worker II by the performance of the more routine tasks and duties assigned to positions within the series including the routine maintenance of a variety of city vehicles. Since this class is typically used as a training class, employees may have only limited or no directly related work experience.~~

~~Equipment Service Worker II—This is the full journey level class within the Equipment Service Worker series. Employees within this class are distinguished from the Equipment Service Worker I by the performance of the full range of duties as assigned including the maintenance and minor repair of a variety of City vehicles. Employees at this level receive only occasional instruction or assistance as new or unusual situations arise, and are fully aware of the operating procedures and policies of the work unit.~~

SUPERVISION RECEIVED AND EXERCISED

Receives immediate supervision from higher level supervisory and management staff.

~~EXAMPLES OF DUTIES—Duties may include, but are not limited to, the following:~~

**ESSENTIAL AND MARGINAL FUNCTION STATEMENTS – Essential and other important responsibilities and duties may include, but are not limited to, the following:**

**Essential Functions:**

Fuel, grease and lubricate automobiles, trucks and heavy automotive equipment; service batteries and other parts.

Perform safety inspections on vehicles and equipment; perform routine repair work and reports safety and other priority repair work to supervisor.

Change and repair tires and install and service batteries, spark plugs, light bulbs, fan belts and other simple mechanical parts.

Service automotive equipment with gasoline ~~fuel~~ and oil; keep records of amounts used, assist in general maintenance and cleanliness of automotive shop area.

Perform service calls; make temporary repairs, pick up and deliver vehicles to outside garage; pick up parts; road test vehicles to insure proper operation.

Assist other mechanics in the performance of **advanced** mechanical repairs as required.

Requisition, issue, pick-up, and deliver automotive equipment parts and supplies.

Steam clean and wash motorized equipment.

Sweep and vacuum car interiors.

Wash windows, tighten body bolts, sweep, wash and otherwise keep shop and equipment in a clean and orderly condition.

Assist Equipment Mechanic as required.

**Marginal Functions:**

Perform related duties as assigned.

**QUALIFICATIONS**

**Equipment Service Worker I**

**Knowledge of:**

Tools and materials used in repair and adjustment of automotive equipment.

**Knowledge of:** (Continued)

Lubricating systems and oils, greases and attachments used in lubricating automotive and related equipment.

Less-complex components of automotive equipment.

Safe work practices.

**Basic computer skills.**

**Procedures used in repair and adjustment of automotive equipment.**

**Common automotive parts and supplies.**

Ability to:

Demonstrate a high degree of mechanical aptitude.

Perform heavy manual labor including lifting and carrying heavy equipment.

Understand and follow oral and written instructions.

Keep simple records.

Learn to service automotive and heavy equipment according to City procedures.

**Work independently with minimal supervision.**

**Perform minor mechanical work on City owned ~~motor sweepers~~ equipment.**

**Use a variety of tools and equipment with skill.**

**Maintain shop and repair records.**

**Establish and maintain cooperative-working relationships with those contacted in the course of work.**

**Perform manual labor including heavy lifting and carrying up to 100 lbs.**

EXPERIENCE AND TRAINING GUIDELINES

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

One year of increasingly responsible experience performing **related** automotive servicing work ~~is desirable.~~

Training:

Formal or informal education or training which ensures the ability to read and write at a level necessary for successful job performance.

License or Certificate

Possession of, or ability to obtain, an appropriate, valid California driver's license. Possession of a valid **Class B California driver's license is required within 45 days of appointment. Failure to obtain the license within this period shall be grounds for release from probation.**

Special Requirements:

Possession of a complete set of mechanic hand tools through 1-1/4" and tool box.  
Equipment Service Worker II

~~In addition to the requirements for Equipment Service Worker I:~~

## QUALIFICATIONS

### Knowledge of:

Procedures used in repair and adjustment of automotive equipment

Common automotive parts and supplies

### Ability to:

Perform minor mechanical work on City owned motor sweepers.

Use a variety of tools and equipment with skill.

Maintain shop and repair records.

Establish and maintain cooperative working relationships with those contacted in the course of work.

## EXPERIENCE AND TRAINING GUIDELINES

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

### Experience:

Six months of responsible equipment maintenance experience equivalent that of a Service Worker I.

## WORKING CONDITIONS

### Environmental Conditions:

Field environment, travel from site to site, exposure to hot and cold temperatures, inclement weather, hazards of confined spaces and other hazardous materials.

### Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for heavy lifting up to 100 pounds, walking, standing, bending, stooping and crawling for prolonged periods of time; operating motorized equipment and vehicles.

### Work Assignment:

This classification is subject to a variety of shifts, including nights and weekends as well as rotating shifts periodically.

**GOACH HEAVY EQUIPMENT MECHANIC CREWLEADER**

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

**DEFINITION**

To lead ~~each~~ **Heavy Equipment** Mechanics in the maintenance and repair of the City's transit ~~each~~ **buses** and other gas and diesel powered vehicles; and to personally make the most complex mechanical repairs.

**SUPERVISION RECEIVED AND EXERCISED**

Receives general supervision from higher level Equipment Maintenance staff.

Exercises functional and technical supervision over lower level equipment maintenance staff.

~~EXAMPLES OF DUTIES – Duties may include, but are not limited to, the following:~~

**ESSENTIAL AND MARGINAL FUNCTION STATEMENTS – Essential and other important responsibilities and duties may include, but are not limited to, the following:**

**Essential Functions:**

Lead, train and assist journey level and semi-skilled mechanics; assign work to mechanics; assist the Fleet Maintenance Supervisor in the day-to-day supervision activities.

Inspect, diagnose, and locate mechanical difficulties on City transit ~~each~~ **buses**, and a variety of other diesel and gasoline powered equipment as required.

Weld, fabricate and assemble parts and equipment for City transit ~~each~~ **buses**; weld, braze, cut shape and fasten metal parts; fabricate and weld vehicle frames, chassis, and exhaust systems.

Use welding equipment, drill presses, lathes, grinders and a large assortment of other power and hand tools and measurement instruments required for journey level fabrication work.

**Essential Functions: (Continued)**

Overhaul, repair, and adjust engines, transmissions, differentials, valves and air and hydraulic systems.

Tune up engines, replacing electrical and electronic parts and cleaning and adjusting fuel injection systems.

Replace or repair faulty parts including wheel bearings, oil seals, shock absorbers, exhaust systems, steering mechanisms, and related parts and equipment.

Diagnose and repair such components as generators, alternators, distributors, relays, lights and switches.

Maintain and repair air conditioning and climate systems.

Diagnose and repair wheel chair lifts and coin collection equipment.

Make roadside repairs as required.

Assist in the purchasing of equipment maintenance parts and materials.

Maintain work, time, and material records.

~~Perform smog certification on City-owned vehicles.~~

**Diagnose and repair various electronic and computer controlled devices.**

**Diagnose and repair emissions systems.**

Marginal Functions:

Perform related duties as assigned.

## QUALIFICATIONS

Knowledge of:

Tools, equipment, and procedures used in the overhaul, repair, and adjustment of transit ~~each~~**buses** and other gas and diesel powered equipment.

Operation and care of internal combustion engines and hydraulic equipment.

Methods, materials, equipment and tools used in welding and fabrication work.

Knowledge of: (Continued):

Operating and repair characteristics of City transit ~~each~~**buses**.

Safe work practices.

Principles of personnel supervision and training.

Basic computer skills.

**Computers and electronics in vehicle applications.**

Ability to:

Lead and train skilled and semi-skilled mechanics.

Perform skilled welding and fabrication work.

Perform minor and major mechanical work on mechanical equipment.

Use a variety of tools, ~~testers~~ and equipment with skill.

Maintain a variety of shop and repair records.

Understand and operate a computerized Fleet Management System.

Understand and carry out oral and written directions.

Perform journey level equipment mechanical work including the troubleshooting of equipment for both major and minor repair work.

Work independently in the absence of supervision.

**Perform heavy manual labor including occasional lifting and carrying up to 100 lbs.**

Accurately determine mechanical repair needs and estimate the cost and time of repairs.

Establish and maintain cooperative-working relationships with those contacted in the course of work.

#### EXPERIENCE AND TRAINING GUIDELINES

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

##### Experience:

Four years of increasingly responsible experience performing automotive and **heavy** equipment maintenance and repair duties comparable to those of a ~~Coach~~**Heavy Equipment Mechanic**.

##### Training:

Equivalent to completion of the twelfth grade and specialized training in the maintenance and repair of gas and diesel powered equipment.

##### License or Certificate

Possession of, or ability to obtain, an appropriate, valid California driver's license.

**Possession of a valid Class B California driver's license is required within 45 days of appointment. Failure to obtain the license within this period shall be grounds for release from probation.**

Possession of, or ability to obtain, an appropriate, valid Vehicle Inspection Pollution Controls license.

**In compliance with Environmental Protection Agency (EPA) regulations, possession of an appropriate Motor Vehicle Air Conditioning Certification is required within one year of appointment. Failure to obtain this certification within this period shall be grounds for release from probation.**

Possession of Certification from the National Institute for Automotive Service Excellent (ASE) in at least four (4) areas in heavy-duty class within one year of appointment. **Failure to obtain this certification**

**within this period shall be grounds for release from probation.**

Special Requirements

Possession of a complete set of mechanic hand tools through 1-1/2" and toolbox.

WORKING CONDITIONS

Environmental Conditions:

**Field environment, travel from site to site, exposure to hot and cold temperatures, inclement weather, hazards of confined spaces and other hazardous materials.**

Physical Conditions:

**Essential and marginal functions may require maintaining physical condition necessary for heavy lifting up to 100 pounds, walking, standing, bending, stooping and crawling for prolonged periods of time; operating motorized equipment and vehicles.**

Work Assignment:

**This classification is subject to a variety of shifts, including nights and weekends, as well as rotating shifts periodically.**

## HEAVY EQUIPMENT MECHANIC

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

### DEFINITION

To maintain and make minor and major repairs to the City's transit buses and other gas and diesel powered vehicles.

### SUPERVISION RECEIVED AND EXERCISED

Receives general supervision from higher level Equipment Maintenance staff.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS – Essential and other important responsibilities and duties may include, but are not limited to, the following:

#### Essential Functions:

Inspect, diagnose, and locate mechanical difficulties on City transit buses, and a variety of other diesel and gasoline powered equipment as required.

Weld, fabricate and assemble parts and equipment for City transit buses; weld, braze, cut shape and fasten metal parts; fabricate and weld vehicle frames, chassis, and exhaust systems.

Use welding equipment, drill presses, lathes, grinders and a large assortment of other power and hand tools and measurement instruments required for journey level fabrication work.

Overhaul, repair, and adjust engines, transmissions, differentials, valves and air and hydraulic systems.

Tune up engines, replacing electrical and electronic parts and cleaning and adjusting fuel injection systems.

Replace or repair faulty parts including wheel bearings, clutches, or oil seals, shock absorbers, exhaust systems, steering mechanisms, and related parts and equipment.

Diagnose and repair such components as generators, alternators, distributors, relays, lights and switches.

Maintain and repair air conditioning and climate systems.

Diagnose and repair wheel chair lifts, and coin collection equipment.

#### Essential Functions: (Continued)

Make roadside repairs as required.

Maintain work, time, and material records.

Diagnose and repair various electronic and computer controlled devices.

Diagnose and repair emissions systems.

Marginal Functions:

Perform related duties as assigned.

**QUALIFICATIONS**

Knowledge of:

Tools, equipment, and procedures used in the overhaul, repair, and adjustment of transit buses and other gas and diesel powered equipment.

Operation and care of internal combustion engines and hydraulic equipment.

Methods, materials, equipment and tools used in welding and fabrication work.

Operating and repair characteristics of City transit buses.

Safe work practices.

Computers and electronics in vehicle applications.

Ability to:

Perform skilled welding and fabrication work.

Perform minor and major mechanical work on mechanical equipment.

Use a variety of tools, testers and equipment with skill.

Maintain a variety of shop and repair records.

Understand and operate a computerized Fleet Management System.

Ability to: (Continued)

Understand and carry out oral and written directions.

Perform journey level equipment mechanical work including the troubleshooting of equipment for both major and minor repair work.

Work independently in the absence of supervision.

Accurately determine appropriate repair needs and estimate the cost and time of repairs.

**Perform heavy manual labor including occasional lifting and carrying up to 100 lbs.**

Establish and maintain cooperative-working relationships with those contacted in the course of work.

**EXPERIENCE AND TRAINING GUIDELINES**

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

Three years of increasingly responsible experience performing automotive and heavy equipment maintenance and repair duties.

Training:

Equivalent to completion of the twelfth grade and specialized training in the maintenance and repair of gas and diesel powered equipment.

**License or Certificate:**

Possession of, or ability to obtain, an appropriate, valid California driver's license. ~~Must obtain~~ Possession of a valid Class B California driver's license is required within 45 days of appointment. Failure to obtain the license within this period shall be grounds for release from probation.

Possession of, or ability to obtain, an appropriate, valid Vehicle Inspection Pollution Controls license.

License or Certificate: (Continued)

**In compliance with Environmental Protection Agency (EPA) regulations, possession of an appropriate Motor Vehicle Air Conditioning Certification is required within one year of appointment. Failure to obtain this certification within this period shall be grounds for release from probation.**

Possession of Certification from the National Institute for Automotive Service Excellence (ASE) in at least three (3) areas in heavy-duty class is required within one year of appointment. **Failure to obtain this certification within this period shall be grounds for release from probation.**

Special Requirements:

**Possession of a complete set of mechanic hand tools through 1-1/2" and toolbox.**

**WORKING CONDITIONS**

Environmental Conditions:

Field environment, travel from site to site, exposure to hot and cold temperatures, inclement weather, hazards of confined spaces and other hazardous materials.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for heavy lifting up to 100 pounds, walking, standing, bending, stooping and crawling for prolonged periods of time; operating motorized equipment and vehicles.

Work Assignment:

**This classification is subject to a variety of shifts, including nights and weekends as well as rotating shifts periodically.**

### SUPERVISING CONSTRUCTION INSPECTOR

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

#### DEFINITION

To inspect workmanship and materials used in a variety of public works projects; to ensure conformance with plans, specifications and Departmental regulations; and to provide technical assistance and training to other inspection staff.

#### SUPERVISION RECEIVED AND EXERCISED

Receives general direction from the Senior Civil Engineer assigned to Construction Administration.

Exercises direct supervision including both technical and functional supervision over assigned staff.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS – Essential and other important responsibilities and duties may include, but are not limited to, the following:

#### Essential Functions:

Plan, prioritize, assign, supervise and review the work of staff involved in construction inspection.

Participate in the selection of staff; provide or coordinate staff training; work with employees to correct deficiencies; implement discipline procedures.

Evaluate operations and activities of assigned responsibilities; recommend improvements and modifications; prepare various reports on operations and activities.

Participate in budget preparation and administration; prepare cost estimates for budget recommendations; monitor and control expenditures.

Resolve work problems and interpret administrative policies to subordinates, other departments, consultants, contractors and the public.

Essential Functions: (Continued)

Participate in the most complex inspections of various structures and major construction projects for conformance with specifications and regulations; check line, grade, size, elevation and location of structures.

Monitor traffic control problems at construction site and coordinate corrections if necessary.

Record amounts of materials used and work performed; prepare and review necessary reports for progress payments.

Review plans and specifications of assigned project; attend and conduct pre-construction conferences as necessary.

Inspect materials for identification as conforming to specifications.

Evaluate and negotiate contract change orders related to construction.

Perform a variety of field tests.

Observe work during progress and upon completion; monitor contractor workforce for adequate staffing levels.

Inspect adjacent properties for damage from construction activity.

Confer with the public regarding project schedule, hazards and inconvenience.

Coordinate work with other City departments and utilities.

Prepare a variety of activity records and reports; maintain as-built notes for each set of plans.

Marginal Functions:

Perform related duties as assigned.

## QUALIFICATIONS

### Knowledge of:

Principles, methods, materials, equipment and safety hazards of construction inspection.

Defects and faults in construction.

Basic mathematics including algebra, geometry, and trigonometry.

Basic soil mechanics and geology.

Materials sampling and estimating procedures.

Engineering mechanics of structures.

Applicable laws, regulations, codes and departmental policies governing the construction of assigned projects.

### Ability to:

Understand and interpret engineering plans and specifications and prepare accurate reports.

Detect and locate faulty materials and workmanship and determine the stage of construction during which defects are most easily found and remedied.

Address issues from contractors, engineers, and members of the public in an assertive and tactful manner.

Establish and maintain cooperative working relationships with those contacted in the course of work.

Communicate clearly and concisely, both orally and in writing.

Use basic computer software programs.

**Perform medium lifting up to 50 lbs.**

## EXPERIENCE AND TRAINING GUIDELINES

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

### Training:

Equivalent to an Associate of Arts degree from an accredited college with major course work in civil engineering, construction technology or a related field.

### Experience:

Four years of increasingly responsible experience performing a variety of public works or related construction inspection work. One year of the required experience must be in a lead or supervisory capacity.

### License or Certificate

Possession of, or ability to obtain, an appropriate, valid California driver's license.

## WORKING CONDITIONS

### Environmental Conditions:

Office and field environment; travel from site to site.

### Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for walking or standing for prolonged periods of time; operate motorized equipment and vehicles; **occasionally lifting and carrying up to fifty (50) pounds.**

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-614**

**A RESOLUTION AMENDING EXHIBIT "A" OF RESOLUTION NO. 95-26 TO REVISE THE CLASS RANGE TABLE FOR GENERAL NON-SWORN CLASSES TO REVISE THE JOB SPECIFICATIONS OF CONSTRUCTION INSPECTOR AND HEAVY EQUIPMENT MECHANIC; TO CHANGE THE TITLE OF EQUIPMENT SERVICE WORKER II TO EQUIPMENT SERVICE TECHNICIAN; TO CHANGE THE TITLE OF COACH MECHANIC CREWLEADER TO HEAVY EQUIPMENT MECHANIC CREWLEADER AND TO DELETE THE CLASSIFICATION OF EQUIPMENT SERVICE WORKER I.**

WHEREAS, the City Council desires to amend Exhibit "A" of Resolution No. 95-26,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. AMENDMENT TO RESOLUTION NO. 95-26. Exhibit "A" entitled "City of Modesto Class Range Table General Non-Sworn Classes Effective January 10, 1995," attached to Resolution No. 95-26, is hereby amended as shown on the amended **Exhibit "A"** entitled "City of Modesto Class Range Table General Non-Sworn Classes effective November 23, 2004," which is attached hereto and made a part hereof as though set forth in full herein. Said amended **Exhibit "A"** revises the job specifications for Construction Inspector and Heavy Equipment Mechanic; changes the title of Equipment Service Worker II to Equipment Service Technician remaining at salary range 114; changes the title of Coach Mechanic Crewleader to Heavy Equipment Mechanic Crewleader remaining at salary range 126; and deletes the classification of Equipment Service Worker I.

SECTION 2. EFFECTIVE DATE. This resolution shall become effective on and after November 23, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of November, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-616**

**A RESOLUTION AMENDING THE 2004-2005 BUDGET TO RECOGNIZE AND APPROPRIATE NEW SAFE ROUTE TO SCHOOL (SR2S) GRANT REVENUES OF \$166,500, FOR FISCAL YEAR 2004-2005**

WHEREAS, SR2S funds are awarded statewide by the State of California through a competitive process, and

WHEREAS, City staff submitted applications to Caltrans in March 2004, for SR2S funding, and

WHEREAS, our number two priority project to construct curb, gutter, sidewalk, and street lighting on California Avenue near Mark Twain Jr. High School was selected by Caltrans, and

WHEREAS, the City's match for the SR2S project is \$18,500 which is budgeted in Account No. 2300-160-Q206, "New Traffic Control Devices," and

WHEREAS, this improvement project will benefit the students of Mark Twain Jr. High School, as well as the residents in the area, at a minimal cost to the City, and

WHEREAS, this project will add \$185,000 in infrastructure improvements at a cost of \$18,500 to the City,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the 2004-2005 Budget to recognize and appropriate new Safe Route to School (SR2S) grant revenues of \$166,500,

BE IT FURTHER RESOLVED that the Finance Director, or his designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of November 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-617**

**A RESOLUTION AMENDING THE 2004-2005 CAPITAL IMPROVEMENT  
PROGRAM (CIP) TO INCLUDE A SAFE ROUTE TO SCHOOL (SR2S)-  
FUNDED CIP PROJECT**

WHEREAS, City staff submitted applications to Caltrans in March 2004, for SR2S funding, and

WHEREAS, on October 29, 2004, the City received notification of its fiscal year 2004-2005 SR2S award which totals \$166,500, and

WHEREAS, SR2S funds may be used to fund up to 90% of covered project costs, and

WHEREAS, the City's match requirement is 10%, and

WHEREAS, acceptance and appropriation of the SR2S funding requires amending the City's CIP to include this project since it was not included at the time the CIP was considered for adoption, and

WHEREAS, staff recommends the City take advantage of Federal funds available to enhance safety near schools,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the 2004-2005 Capital Improvement Program (CIP) to include a Safe Routes to School (SR2S)-funded CIP project,

BE IT FURTHER RESOLVED that the Finance Director, or his designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of November 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-618**

**A RESOLUTION REJECTING THE LOW BID OF \$71,040 FROM STEINY AND COMPANY, INC., FOR THE PROJECT TITLED, "SCENIC DRIVE LIGHTED CROSSWALK," AUTHORIZING STAFF TO SOLICIT INFORMAL BIDS FOR THE EQUIPMENT AND CONSTRUCT THE IMPROVEMENTS WITH CITY CREWS**

WHEREAS, this project will install a solar-powered lighted crosswalk and handicap ramps at the intersection of Scenic Drive and Wycliffe Drive, and

WHEREAS, this project will increase safety and encourage pedestrian use in this neighborhood, and

WHEREAS, after several neighborhood meetings and receiving feedback, the Economic Development Committee (EDC) at their May 12, 2003, meeting directed staff to leave the intersection status quo, and to install a lighted crosswalk east of Wycliffe Drive on Scenic Drive, embellish existing striping, replace existing signs with lime green signs, and to add advance signs, and

WHEREAS, this lighted crosswalk project was the preferred alternative of the neighborhood over a traffic signal at Scenic/Lakewood, and

WHEREAS, following the direction from EDC in May, 2003, and approval by Council, staff requested that StanCOG reappropriate the funding intended for a traffic signal at Scenic/Lakewood to be used for a lighted crosswalk at Scenic/Wycliffe, and

WHEREAS, staff received StanCOG's approval of the fund change in January 2004, and

WHEREAS, at the June 3, 2003, Council meeting, staff reported to Council that they were proceeding with the installation of a lighted crosswalk at the intersection of Scenic Drive and Wycliffe Drive, and

WHEREAS, the project was advertised for three weeks during the month of June and bid opening was October 12, 2004, at 11:00 a.m., and

WHEREAS, Steiny and Company, Inc., was the low bidder and staff recommends rejecting the bid received due to the fact that this low bid is 116% over the engineer's estimate, and

WHEREAS, there will be no impact to the operating budget if the low bid is rejected and staff is authorized to solicit informal bids for the equipment and to construct the improvements with City crews,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes staff to reject the low bid of \$71,040 from Steiny and Company, Inc., for the project titled, "Scenic Drive Lighted Crosswalk,"

BE IT FURTHER RESOLVED that City staff is hereby authorized to solicit informal bids for the equipment and to construct the improvements with City crews.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of November 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-619**

**A RESOLUTION ADOPTING THE INITIAL STUDY AND ADOPTING A FINDING THAT THE CITY COUNCIL HAS REVIEWED, CONSIDERED, AND MADE FINDINGS REGARDING THE CEQA ENVIRONMENTAL REVIEW DOCUMENT**

WHEREAS, on March, 4, 2003, the City Council of the City of Modesto adopted Resolution No. 2003-123 certifying that the Modesto Urban Area General Plan Master Environmental Impact Report (“Master EIR”) (SCH No. 1999082041) for the Modesto Urban Area General Plan is complete and adequate pursuant to Section 15090 of the California Environmental Quality Act (“CEQA”) Guidelines, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a Master EIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the Master Environmental Impact Report and whether the subsequent project was described in the Master Environmental Impact Report as being within the scope of the project, and

WHEREAS, the Public Works Department, by Initial Study, E.A./E.T. 2004-02 reviewed the proposed “Lighted Crosswalk on Scenic Drive at Wycliffe Drive” project which determined that the proposed project is within the scope of the project covered by the Master EIR and that the project will have no additional significant effect on the environment that was not identified in the Master EIR; and further, that no new or additional mitigation measures or alternatives may be required, and

WHEREAS, on February 9, 2004, the Engineering and Transportation Department caused to be published public notification of the determination conferred in Initial Study EA/ET 2004-02, pursuant to Public Resources Code Section 21092, and

WHEREAS, said matter was considered by the City Council at a duly noticed meeting held on the 23rd day of November 2004, at 5:30 p.m., in the Tenth Street Place Chambers, located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study EA/ET 2004-02 prepared for the proposed Lighted Crosswalk on Scenic Drive at Wycliffe Drive project, a copy of which is attached hereto as **Attachment "B"**, and incorporated herein by referenced, and based on the substantial evidence included in said Initial Study makes the following findings:

- A. The proposed lighted crosswalk project is within the scope of the City of Modesto General Plan Master EIR (SCH No. 1999082041), which analyzed the potential impacts of buildout of the Urban Area General Plan, including roadways in this area.
- B. No additional significant environmental effects will occur as a result of the proposed lighted crosswalk project that were not previously examined in the General Plan Master EIR.
- C. No new or additional mitigation measures or alternatives will be required as a result of the proposed lighted crosswalk project that were not previously considered in the General Plan Master EIR.
- D. There are no specific features unique to the lighted crosswalk project that require specific mitigation measures. All certified mitigation measures identified in the General Plan MEIR will apply city wide, including this project, as appropriate.
- E. This Initial Study, Environmental Assessment No. EA/ET 2004-02 provides substantial evidence to support findings A, B, C, and D above.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Public Works Director is hereby authorized and directed to file a Notice of Approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of November 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

City of Modesto  
Initial Study

Lighted Crosswalk  
On Scenic Drive at Wycliffe Drive

**E.A./E.T. No: 2004-02**

**I. PURPOSE**

Section 21157.1 of the Public Resources Code, allows for limited environmental review of subsequent projects under a Master EIR, provided that certain findings are made. The Modesto Urban Area General Plan Master EIR (SCH No. 199082041), adopted March 4, 2003, allows such limited review for projects in the Baseline Developed Area that are consistent with the General Plan and existing zoning.

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any significant effects on the environment that were not examined in the General Plan Master EIR. This Initial Study also provides documentation that the project is within the scope of the General Plan Master EIR.

**II. PROJECT DESCRIPTION**

A. Project Title:

Lighted Crosswalk on Scenic Drive at Wycliffe Drive

B. Lead Agency Name and Address:

City of Modesto, P.O. Box 642, Modesto, CA 95353

C. Contact Person, Address, and Phone Number:

Paul J. Hom, Engineering and Transportation Department, (209) 577-5294

D. Project Location:

Scenic Drive at Wycliffe Drive

E. Project Sponsor:

City of Modesto, P.O. Box 642, Modesto, CA 95353

F. General Plan Designation:

Redevelopment Planning District (RPD)

G. Zoning:

Redevelopment Planning District (RPD)  
Mixed Use (MU)

H. Description of Proposed Project:

This is an application to install a lighted crosswalk. To aid pedestrians south of Scenic Drive in crossing the City of Modesto is installing a lighted crosswalk at an existing marked crosswalk on Scenic Drive at Wycliffe Drive (see attached Map, Exhibit A).

All work will take place in existing City of Modesto right of ways.

I. Surrounding Land Uses:

The project is located primarily in a residential area.

J. Other Public Agencies Whose Approval is Required:

None

**III. ANALYSIS OF CONFORMANCE WITH THE MASTER EIR**

There are eighteen subject areas in the Master EIR for the General Plan. Following is an analysis of how this project conforms to the analysis contained within the Master EIR.

A. Traffic and Circulation

The Lighted Crosswalk project will not result in a physical change to any existing land use. It is consistent with the General Plan designation for this site. Therefore, the traffic impacts of this project are consistent with those contained in the General Plan Master EIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Traffic and Circulation Needs (pages V-1-1 through V-1-33) are, therefore, still valid.

B. Degradation of Air Quality

The air quality impacts for this development are directly related to the traffic impacts. Since traffic impacts are no greater than those anticipated in the Master EIR, this development would not cause additional impacts to air quality beyond those described in the Degradation of Air Quality section of the MEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Degradation of Air Quality (pages V-2-1 through V-2-26) are, therefore, still valid.

C. Generation of Noise

The Lighted Crosswalk project will not result in a physical change to any existing land use. The proposed use is consistent with the General Plan in land use and intensity, and the noise impacts from the project and to the project are consistent with those analyzed in the Master EIR. Therefore, the project will not create additional significant effects, and the Mitigation Measures listed in the MEIR for Generation of Noise (pages V-3-1 through V-3-22) are, therefore, still valid.

D. Loss of Productive Agricultural Land

The proposed Lighted Crosswalk is located in developed areas outside of productive agricultural land. Therefore, the project is consistent with the Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for Loss of Productive Agricultural Land (pages V-4-1 through V-4-12) and they are, therefore, still valid.

E. Increased Demand for Water Supplies

The proposed project includes the installation of a lighted crosswalk, and will require no additional water beyond that identified in the Increased Demand for Water Supplies section of the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Water Supplies (pages V-5-1 through V-5-13 are, therefore, still valid.

F. Increased Demand for Sanitary Sewer Services

The proposed project includes the installation of a lighted crosswalk, and will create no additional demand for sewer capacity not identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Sanitary Sewer Services (pages V-6-1 through V-6-12) are, therefore, still valid.

G. Loss of Sensitive Wildlife and Plant Habitat

The proposed lighted crosswalk location is not located in a Potential Biological Resource Study Area, as presented in Figure 7-1 of the MEIR. Therefore, the project will not impact sensitive wildlife or any plant habitat above and beyond that which was identified in the Loss of Sensitive Wildlife and Plant Habitat section of the MEIR. The Existing Conditions, Impact Analysis, and the Mitigation Measures listed in this section of the MEIR (pages V-7-1 through V-7-29) are still valid.

H. Disturbance of Archaeological and Historic Sites

This project will not disturb any archaeological or historic sites that have been identified in the Disturbance of Archaeological or Historical Sites section of the MEIR. Figure 8-1 of the MEIR indicates that it is also outside the Archaeological Resource Study Area, which shows areas that may require additional site specific investigations. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Disturbance of Archaeological or Historical Sites (pages V-8-1 through V-8-22) are, therefore, still valid.

I. Drainage, Flooding and Water Quality

Because the project is consistent with the General Plan in land use and intensity, it will not present any new impacts to drainage, flooding and water quality that have not already been addressed in the MEIR. The mitigation measures in the Master EIR will not reduce the impacts of increased runoff within the baseline developed area to a less than significant level. In adopting the Master EIR, the City Council adopted a finding of overriding findings for this impact. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Drainage, Flooding, and Water Quality (pages V-9-1 through V-9-13) are still valid.

J. Increased Demand for Storm Drainage

The project will not present any new impacts that have not already been addressed in the MEIR. The mitigation measures contained in the Master EIR will not reduce the impacts of increased runoff within the baseline developed area to a less than significant level. In adopting the Master EIR, the City Council adopted a finding of overriding findings for this impact. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Storm Drainage (pages V-10-1 through V-10-16) are still valid.

K. Increased Demand for Parks and Open Space

The proposed improvements will not have an effect upon the parks or open space needs in the area over that anticipated in the Master EIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Parks and Open Space (pages V-11-1 through V-11-14) are, therefore, still valid.

L. Increased Demand for Schools

The proposed improvements will not create any additional demand for schools. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Schools (pages V-12-1 through V-12-11) are still valid.

M. Increased Demand for Police Services

Because the project is consistent with the General Plan in land use and intensity, it will not present any increased demand for police services that has not already been addressed in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Police Services (pages V-13-1 through V-13-7) are, therefore, still valid.

N. Increased Demand for Fire Services

Because the project is consistent with the General Plan in land use and intensity, it will not present any increased demand for fire services that has not already been addressed in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Fire Services (pages V-14-1 through V-14-9) are, therefore, still valid.

O. Generation of Solid Waste

This project will not cause the generation of solid waste beyond that which is identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Solid Waste (pages V-15-1 through V-15-10) are, therefore, still valid.

P. Generation of Hazardous Materials

This proposed use will not result in additional hazardous materials generated beyond those identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Hazardous Materials (pages V-16-1 through V-16-15) are, therefore, still valid.

Q. Landslides and Seismic Activity

This use will result in no additional potential for exposing people to landslides or earthquake related hazards such as liquefaction beyond those identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Landslides and Seismic Activity (pages V-17-1 through V-17-12) are, therefore, still valid.

R. Energy

This use will result in less than significant additional demands for energy, as identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Energy (pages V-18-1 through V-18-7) are, therefore, still valid.

**IV. CONCLUSIONS/DETERMINATIONS OF FINDINGS**

- A. The proposed lighted crosswalk project is within the scope of the General Plan Master EIR (SCH No. 1999082041), which analyzed the potential impacts of buildout of the Urban Area General Plan, including roadways in this area.
- B. No additional significant environmental effects will occur as a result of the lighted crosswalk project that were not previously examined in the General Plan Master EIR.
- C. No new mitigation measures or alternatives will be required as a result of the proposed lighted crosswalk project that were not previously considered in the General Plan Master EIR.
- D. There are no specific features unique to the lighted crosswalk project that requires project specific mitigation measures. All certified mitigation measures identified in the MEIR would apply city wide, including this project as appropriate.
- E. This initial study provides substantial evidence to support findings A, B, C, and D above.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-620**

**A RESOLUTION REJECTING THE LOW BID OF \$312,285 FROM BDS  
CONSTRUCTION, INC., FOR THE PROJECT TITLED, "ENCINA AVENUE  
ROUNABOUT," AND AUTHORIZING STAFF TO REBID THE PROJECT**

WHEREAS, BDS Construction, Inc., was the low bidder for the Encina Avenue Roundabout project, and

WHEREAS, staff recommends rejecting the bid due to the fact the bid is 41% over the engineer's estimate, and

WHEREAS, many contractors were so busy that they did not bid on the project, and

WHEREAS, staff intends to rebid the project in December, a month typically more amenable to competitive prices, and

WHEREAS, staff also intends to include a dozen contractors that bid on three roundabouts in Sacramento this year, and

WHEREAS, there will be no impact to the operating budget if the low bid is rejected and the project re-advertised,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes staff to reject the low bid of \$312,285 from BDS Construction, Inc., for the project titled, "Encina Avenue Roundabout," and authorizes staff to rebid the project.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of November 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour

NOES: Councilmembers: None

ABSENT: Councilmembers: None

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-621**

**A RESOLUTION ADOPTING AN INITIAL STUDY FOR THE PROJECT  
TITLED, "ENCINA AVENUE ROUNDABOUT," IN THE CITY OF MODESTO,  
AND ADOPTING A FINDING THAT THE CITY COUNCIL HAS REVIEWED,  
CONSIDERED, AND MADE FINDINGS REGARDING THE CEQA  
ENVIRONMENTAL REVIEW DOCUMENT**

WHEREAS, on March, 4, 2003, the City Council of the City of Modesto adopted Resolution No. 2003-123 certifying that the Modesto Urban Area General Plan Master Environmental Impact Report ("Master EIR") (SCH No. 1999082041) for the Modesto Urban Area General Plan is complete and adequate pursuant to Section 15090 of the California Environmental Quality Act ("CEQA") Guidelines, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a Master EIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the Master Environmental Impact Report and whether the subsequent project was described in the Master Environmental Impact Report as being within the scope of the project, and

WHEREAS, the Public Works Department, by Initial Study, E.A./E.T. 2004-19 reviewed the proposed roundabout on Encina Avenue which determined that the proposed project is within the scope of the project covered by the Master EIR and that the project will have no additional significant effect on the environment that was not identified in the Master EIR; and further, that no new or additional mitigation measures or alternatives may be required, and

WHEREAS, on June 7, 2004, the Engineering and Transportation Department caused to be published notification of the determination conferred in Initial Study 2004-19, pursuant to Public Resources Code Section 21092, and

WHEREAS, said matter was considered by the City Council at a duly noticed meeting held on the 23rd day of November 2004, at 5:30 p.m., in the Tenth Street Place Chambers, located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study EA 2004-19 prepared for the proposed roundabout on Encina Avenue project, a copy of which is attached hereto as **Attachment "B"**, and incorporated herein by referenced, and based on the substantial evidence included in said Initial Study makes the following findings:

- A. The proposed roundabout project is within the scope of the General Plan Master EIR (SCH No. 1999082041), which analyzed the potential impacts of buildout of the Urban Area General Plan, including roadways in this area.
- B. No additional significant environmental effects will occur as a result of the lighted crosswalk project that were not previously examined in the General Plan Master EIR.
- C. No new mitigation measures or alternatives will be required as a result of the proposed lighted crosswalk project that were not previously considered in the General Plan Master EIR.
- D. There are no specific features unique to the roundabout project that requires project specific mitigation measures. All certified mitigation measures identified in the MEIR would apply city wide, including this project as appropriate.
- E. This Initial Study, Environmental Assessment No. EA 2004-19 provides substantial evidence to support findings A, B, C, and D above.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Public Works Director is hereby authorized and directed to file a Notice of Approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of November 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

City of Modesto  
Initial Study

ENCINA AVENUE ROUNDABOUT IMPROVEMENTS

E.A./E.T. No: 2004-19

I. PURPOSE

Section 21157.1 of the Public Resources Code, allows for limited environmental review of subsequent projects under a Master EIR, provided that certain findings are made. The Modesto Urban Area General Plan Master EIR (SCH No. 199082041), adopted March 4, 2003, allows such limited review for projects in the Baseline Developed Area that are consistent with the General Plan and existing zoning.

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any significant effects on the environment that were not examined in the General Plan Master EIR. This Initial Study also provides documentation that the project is within the scope of the General Plan Master EIR.

II. PROJECT DESCRIPTION

A. Project Title:

ENCINA AVENUE ROUNDABOUT IMPROVEMENTS

B. Lead Agency Name and Address:

City of Modesto, P.O. Box 642, Modesto, CA 95353

C. Contact Person, Address, and Phone Number:

Paul J. Hom, Engineering and Transportation Department, (209) 577-5294

D. Project Location:

The City is proposing to connect a missing segment of Encina Avenue west of El Vista, install a roundabout at the intersection of Encina/Conejo, and install "speed cushions" throughout the neighborhood. All work will take place in existing City of Modesto right-of-way.

E. Project Sponsor:

City of Modesto, P.O. Box 642, Modesto, CA 95353

F. General Plan Designation:

Redevelopment Planning District (RPD)  
Mixed Use (MU)

G. Zoning:

Redevelopment Planning District (RPD)  
Mixed Use (MU)

H. Description of Proposed Project:

The purpose of this project is to complete a missing portion of Encina Avenue and make improvements which will enhance the drivability of the neighborhood.

It includes the missing portion of Encina Avenue (approximately 300 ft), a roundabout at the intersection of Encina/Conejo, and the addition of speed cushions at key locations throughout the neighborhood. All work will take place in existing City of Modesto right of ways.

I. Surrounding Land Uses:

The projects are located in primarily residential areas adjacent to schools.

J. Other Public Agencies Whose Approval is Required:

None

**III. ANALYSIS OF CONFORMANCE WITH THE MASTER EIR**

There are eighteen subject areas in the Master EIR for the General Plan. Following is an analysis of how this project conforms to the analysis contained within the Master EIR.

A. Traffic and Circulation

The Encina Avenue Roundabouts Improvement Project will not result in a physical change to any existing land use. It is consistent with the General Plan designation for this site. Therefore, the traffic impacts of this project are consistent with those contained in the General Plan Master EIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Traffic and Circulation Needs (pages V-1-1 through V-1-33) are, therefore, still valid.

B. Degradation of Air Quality

The air quality impacts for this development are directly related to the traffic impacts. Since traffic impacts are no greater than those anticipated in the Master

EIR, this development would not cause additional impacts to air quality beyond those described in the Degradation of Air Quality section of the MEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Degradation of Air Quality (pages V-2-1 through V-2-26) are, therefore, still valid.

C. Generation of Noise

The Encina Avenue Roundabouts Improvement Project will not result in a physical change to any existing land use. The proposed use is consistent with the General Plan in land use and intensity, and the noise impacts from the project and to the project are consistent with those analyzed in the Master EIR. Therefore, the project will not create additional significant effects, and the Mitigation Measures listed in the MEIR for Generation of Noise (pages V-3-1 through V-3-22) are, therefore, still valid.

D. Loss of Productive Agricultural Land

All work is located in developed areas outside of productive agricultural land. Therefore, the project is consistent with the Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for Loss of Productive Agricultural Land (pages V-4-1 through V-4-12) and they are, therefore, still valid.

E. Increased Demand for Water Supplies

The proposed project includes traffic calming enhancements, and will require no additional water beyond that identified in the Increased Demand for Water Supplies section of the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Water Supplies (pages V-5-1 through V-5-13) are, therefore, still valid.

F. Increased Demand for Sanitary Sewer Services

The proposed project includes traffic calming enhancements, and will create no additional demand for sewer capacity not identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Sanitary Sewer Services (pages V-6-1 through V-6-12) are, therefore, still valid.

G. Loss of Sensitive Wildlife and Plant Habitat

All work is located in developed areas and are not located in a Potential Biological Resource Study Area, as presented in Figure 7-1 of the MEIR. Therefore, the project will not impact sensitive wildlife or any plant habitat above and beyond that which was identified in the Loss of Sensitive Wildlife and Plant

Habitat section of the MEIR. The Existing Conditions, Impact Analysis, and the Mitigation Measures listed in this section of the MEIR (pages V-7-1 through V-7-29) are still valid.

H. Disturbance of Archaeological and Historic Sites

This project will not disturb any archaeological or historic sites that have been identified in the Disturbance of Archaeological or Historical Sites section of the MEIR. Figure 8-1 of the MEIR indicates that it is also outside the Archaeological Resource Study Area, which shows areas that may require additional site specific investigations. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Disturbance of Archaeological or Historical Sites (pages V-8-1 through V-8-22) are, therefore, still valid.

I. Drainage, Flooding and Water Quality

Because the project is consistent with the General Plan in land use and intensity, it will not present any new impacts to drainage, flooding and water quality that have not already been addressed in the MEIR. The mitigation measures in the Master EIR will not reduce the impacts of increased runoff within the baseline developed area to a less than significant level. In adopting the Master EIR, the City Council adopted a finding of overriding findings for this impact. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Drainage, Flooding, and Water Quality (pages V-9-1 through V-9-13) are still valid.

J. Increased Demand for Storm Drainage

The project will not present any new impacts that have not already been addressed in the MEIR. The mitigation measures contained in the Master EIR will not reduce the impacts of increased runoff within the baseline developed area to a less than significant level. In adopting the Master EIR, the City Council adopted a finding of overriding findings for this impact. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Storm Drainage (pages V-10-1 through V-10-16) are still valid.

K. Increased Demand for Parks and Open Space

The proposed improvements will not have an effect upon the parks or open space needs in the area over that anticipated in the Master EIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Parks and Open Space (pages V-11-1 through V-11-14) are, therefore, still valid.

L. Increased Demand for Schools

The proposed improvements will not create any additional demand for schools. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Schools (pages V-12-1 through V-12-11) are still valid.

M. Increased Demand for Police Services

Because the project is consistent with the General Plan in land use and intensity, it will not present any increased demand for police services that has not already been addressed in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Police Services (pages V-13-1 through V-13-7) are, therefore, still valid.

N. Increased Demand for Fire Services

Because the project is consistent with the General Plan in land use and intensity, it will not present any increased demand for fire services that has not already been addressed in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Fire Services (pages V-14-1 through V-14-9) are, therefore, still valid.

O. Generation of Solid Waste

This project will not cause the generation of solid waste beyond that which is identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Solid Waste (pages V-15-1 through V-15-10) are, therefore, still valid.

P. Generation of Hazardous Materials

This proposed use will not result in additional hazardous materials generated beyond those identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Hazardous Materials (pages V-16-1 through V-16-15) are, therefore, still valid.

Q. Landslides and Seismic Activity

This use will result in no additional potential for exposing people to landslides or earthquake related hazards such as liquefaction beyond those identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Landslides and Seismic Activity (pages V-17-1 through V-17-12) are, therefore, still valid.

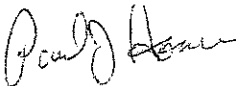

R. Energy

This use will result in less than significant additional demands for energy, as identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Energy (pages V-18-1 through V-18-7) are, therefore, still valid.

**IV. CONCLUSIONS/DETERMINATIONS OF FINDINGS**

- A. The proposed Encina Avenue Roundabouts Improvement Project is within the scope of the General Plan Master EIR (SCH No. 1999082041), which analyzed the potential impacts of buildout of the Urban Area General Plan, including roadways in this area.
- B. No additional significant environmental effects will occur as a result of the Encina Avenue Roundabouts Improvement Project that were not previously examined in the General Plan Master EIR.
- C. No new mitigation measures or alternatives will be required as a result of the proposed Encina Avenue Roundabouts Improvement Project that were not previously considered in the General Plan Master EIR.
- D. There are no specific features unique to the Encina Avenue Roundabouts Improvement Project that requires project specific mitigation measures. All certified mitigation measures identified in the MEIR would apply city wide, including this project as appropriate.
- E. This initial study provides substantial evidence to support findings A, B, C, and D above.

City of Modesto  
**NOTICE OF AVAILABILITY**

**INITIAL STUDY**

**ENCINA AVENUE ROUNDABOUT IMPROVEMENTS**

Pursuant to Section 21092 of the California Environmental Quality Act (CEQA) the City of Modesto (City), acting as lead agency, has prepared an Initial Study for the proposed ENCINA AVENUE ROUNDABOUT IMPROVEMENTS ("Project"). The City is issuing public notice of the availability of the Initial Study and, pursuant to Section 15105 of CEQA, is providing an opportunity for public review and the submission of comments regarding the potential environmental effects related to implementation of this project.

**Project Description and Location** - The City is proposing to connect a missing segment of Encina Avenue west of El Vista, install a roundabout at the intersection of Encina/Conejo, and install "speed cushions" throughout the neighborhood. All work will take place in existing City of Modesto right-of-way.

**Public Review Period** - The official public review period for the Initial Study will begin on June 14, 2004, and will close on June 21, 2004. Written comments should be forwarded to the following address on or before July 14, 2004: Paul Horn, City of Modesto, Traffic Division, Engineering & Transportation, P.O. Box 642, Modesto, CA 95353.

**Environmental Findings** - Based on the City's General Plan Master EIR (SCH#92052017) an Initial Study, EA No. 2004-19, was prepared, leading to a finding that the project is within the scope of the Master EIR per CEQA Section 21157.1 for the proposed project, which makes the following determination:

- A. The proposed Encina Avenue Roundabout Improvements Project will have no new additional significant effect on the environment not addressed in the General Plan Master Environmental Impact Report (SCH#92052017).
- B. No new or additional mitigation measures are required for the proposed Encina Avenue Roundabout Improvements Project.
- C. The proposed Encina Avenue Roundabout Improvements Project is within the scope of the project covered by the General Plan Master Environmental Impact Report (SCH# 92052017).
- D. No new environmental document nor findings pursuant to Section 21081 shall be required by the California Environmental Quality Act (per Section 21157.1) for the Encina Avenue Roundabout Improvements Project.
- E. There are no specific features unique to this proposed Encina Avenue Roundabout Improvements Project that require project specific mitigation measures. All certified mitigation measures identified in the MEIR will apply citywide including this project as appropriate.
- F. The Initial Study provides substantial evidence to support findings "A, B, C, D, and E" above.

**Location Where Copies of the Initial Study and all Project Files are Available for Public Review** - Copies of the Initial Study for this project may be reviewed at 1010 Tenth Street, Suite 4100, Modesto, California, on weekdays during regular business hours between 8:00 a.m. and 5:00 p.m.

**Requests for Additional Information** - For further information about this Project and the Initial Study, please contact Paul Horn, at 209-577-5294.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-622**

**A RESOLUTION AMENDING THE FISCAL YEAR 2004-05 BUDGET TO  
RECOGNIZE AND APPROPRIATE NEW CONGESTION MITIGATION AND  
AIR QUALITY (CMAQ) GRANT REVENUES OF \$2,828,531 FOR FISCAL  
YEAR 2004-2005**

WHEREAS, on May 27, 2003, Council approved the City's application for  
Congestion Mitigation and Air Quality (CMAQ) grant funding, and

WHEREAS, CMAQ funds are awarded to the City by StanCOG and are dispersed  
both competitively and based upon population, and

WHEREAS, recently, the City received notification of its fiscal year 2004-2005  
CMAQ award, which totals \$2,828,531, and

WHEREAS, the City's matching share for the CMAQ projects is \$721,469 all of  
which is currently budgeted within existing CIP projects,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto  
that it hereby approves amending the Fiscal Year 2004-2005 Annual Budget to recognize  
and appropriate new Congestion Mitigation and Air Quality (CMAQ) grant revenues of  
\$2,828,531,

BE IT FURTHER RESOLVED that the Council hereby authorizes the Finance  
Director to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of November 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-623**

**A RESOLUTION AMENDING THE 2004-2005 CAPITAL IMPROVEMENT PROGRAM (CIP) TO INCLUDE CMAQ-FUNDED CIP PROJECTS**

WHEREAS, on May 27, 2003, Council approved the City's application for Congestion Mitigation and Air Quality (CMAQ) grant funding, including competitive project submitted for funding, and

WHEREAS, CMAQ funds may be used to fund up to 88.53% of covered project costs, and

WHEREAS, the Economic Development Committee reviewed the CMAQ project applications and recommended Council approval, and

WHEREAS, acceptance and appropriation of the CMAQ funding requires amending the City's CIP to include projects not included at the time the CIP was considered for adoption, and

WHEREAS, most of the new projects are classified as secondary projects and fall beneath primary projects already approved by Council, and

WHEREAS, primary projects serve as the budgetary control device within the CIP, and

WHEREAS, secondary projects are related projects, which fall beneath the primary project category,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the 2004-2005 Capital Improvement Program (CIP) to include CMAQ-funded CIP projects and authorizes the City Manager to move funds between secondary projects within a single primary project to include CMAQ-funded CIP projects.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of November 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 626**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO  
ISSUE FORMAL REQUEST FOR BIDS (RFB) FOR ELECTRIC MOTOR  
REWINDING/REBUILDING SERVICES FOR AN INITIAL TWO-YEAR  
PERIOD, WITH THREE (3) ONE-YEAR CONTRACT EXTENSIONS FOR A  
TOTAL ESTIMATED ANNUAL COST OF \$50,000.00**

WHEREAS, the Public Works Department-Electrical Division has requested the purchase of electric motor rewinding/rebuilding services for an initial two-year period, with three (3) one-year contract extensions, and

WHEREAS, electric motor rewinding/rebuilding services are required because motors experience wear and failure in their normal operations, suffer bearing failure, electrical insulation failure and degradation, winding breaks or shorting, and physical damage, and

WHEREAS, electric motors are used to pump fresh water from wells or tanks, to pump sewage and storm water through the collection systems, and to pump wastewater through the Sutter and Jennings treatment facility's, and

WHEREAS, electric motors are also used to move air through HVAC systems, operate conveyors, open and close roll up doors and gates, and in other numerous City applications, and

WHEREAS, staff uses rewinding/rebuilding services when these services are less than 60% of the motor replacement cost, and repairing/rebuilding a motor is often faster than replacement on large specialized motors, and

WHEREAS, motors are used in many processes including those processes needed to comply with state and federal permits and regulations such as the wastewater facility's NPDES permits and water systems that meet Department of Health requirements, and

WHEREAS, other regulations are safety related such as ventilation to reduce heat or dangerous atmospheric situations in restricted areas such as pumping station dry wells, and others are convenience or security related to gate or door openers and elevators, and

WHEREAS, one major advantage for an electric motor rewind/rebuild contract is a stable, known price over a period of time, and

WHEREAS, the price of copper used in the manufacturer of motors is very volatile and can cause fluctuations in rewinding costs, and

WHEREAS, City staff is unable to perform this function due to lack of facilities and the fact that it is a very specialized, technical trade, and

WHEREAS, funding for electric motor rewinding/rebuilding is budgeted in account numbers: 6210-480-5212, 6280-480-5312-0223, 6210-480-5213-0223, 6210-480-5214-0223, and 6100-480-5013-0223, and

WHEREAS, Modesto Municipal Code (MMC) Section 8-3.203 generally requires all purchases that meet or exceed \$50,000.00 for material, equipment, or contractual services to be formally bid, and

WHEREAS, by soliciting formal bids for the purchase of electric motor rewinding/rebuilding services for an initial two-year period, with three (3) one-year contract extension options for an estimated annual cost of \$50,000.00, the Finance Department, Purchasing Division will comply with MMC Section 8-3.203 regarding formal bid procedures,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Purchasing Supervisor to solicit formal Request for Bids for

electric motor rewinding/rebuilding services for an initial two-year period, with three (3) one-year contract extensions options, for an estimated annual cost of \$50,000 as follows:

SECTION 1. The City Clerk is hereby authorized to call for public formal bids for the purchase of electric motor rewinding/rebuilding services for an initial two-year period, with three (3) one-year contract extension options for an estimated annual cost of \$50,000.00 to be opened in the office of the City Clerk, 1010 Tenth Street, in the City of Modesto. The City Clerk shall be directed to give notice inviting such sealed bids in the time, form, and manner provided by law.

SECTION 2. After the sealed bids are opened, they shall be tabulated and analyzed and a report submitted to Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of November 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

Michael D. Milich, City Attorney

**AMENDED**  
on 8-9-2016  
By Resolution 2016-343 **MODESTO CITY COUNCIL**  
**RESOLUTION NO. 2004-627**

**AMENDED**  
on 4-26-05  
By Resolution 2005-204

**A RESOLUTION RESCINDING ALL PREVIOUS WATER FEE RESOLUTIONS, ESTABLISHING A SINGLE RATE BASE, AND ESTABLISHING FEES FOR THE PROVISION OF WATER AND ALL FEES ASSOCIATED WITH WATER OPERATIONS AND MANAGEMENT.**

WHEREAS, Section 11-1.04 of the Modesto Municipal Code authorizes the Council, by resolution, to establish charges for water service installation, and MMC Section 11-1.05 authorizes the Council, by resolution, to establish charges for water main connection charges, and MMC Section 11-6.05 authorizes the Council, by resolution, to establish charges for metered water services, and MMC Section 11-6.06 authorizes the Council, by resolution, to establish charges for unmetered water services, and

WHEREAS, MMC Section 11-6.02 authorizes the Council, by resolution, to establish charges for deposits for utility services, and MMC Section 11-6.08 authorizes the Council, by resolution, to establish charges for use of fire hydrants, and

WHEREAS, the City Council intends to rescind all previous resolutions specifying fees for the provision of water or for fees related to water operations and management, and to enact new fees therefore, and

WHEREAS, the City Council has reviewed and approved the reports of rate-setting and engineering consultants, and based proposed water service fee increases on the recommendations of those reports, and

WHEREAS, notice was provided to the City's water ratepayers on October 8, 2004, of the water fee increases proposed, and a majority protest was not received by the close of the public hearing on November 23, 2004, all in accordance with Article XIII D, Section 6 of the California Constitution,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

DEFINITIONS:

**AMENDED**  
on 5-24-05  
By Resolution 2005-282

A. Connection Charge - A one-time prorata charge to be paid by or on behalf of a prospective ratepayer for facilities existing in, or planned to be added to the City water system, minus deficiencies (previously known as Water System Fee).

B. City Water System ("System") - The City's physical assets dedicated to the provision of water to the public for human consumption, including assets for the collection, treatment, pumping, storage and distribution of water under the control of the City's operator.

C. Connection - The attachment of pipe facilities to the City water System for one or more water service uses.

D. Costs of Service - All costs appropriately borne by the entire rate base, calculated on a consumption basis to the extent practicable, and consisting of a fixed component, and a variable component including the distribution of estimated costs of service obligations allocated to the System by the City Council on a System-wide basis. Such costs shall exclude all capacity charges, and include all deficiency charges.

E. Deficiencies - Water facilities required by law or recommended by generally recognized authority as being necessary to the provision of a modern, safe, adequate, water system of the City's size, with prudent reserves of quantity, pressure and transmission infrastructure to meet reasonably foreseeable contingencies that are absent from the City water System at any particular point in time.

F. MMC - Modesto Municipal Code.

G. Standard Billing Cycle - A standard period of time, usually consisting of one 28-35 day month commencing from date of initiation of water service, and continuing until water service termination. The Finance Director, or designee, shall have the authority to, from time to time, redefine the standard billing cycle to better fit the needs and requirements of the City.

H. Water Acquisition Costs - All direct and indirect costs to the City for water purchase, treatment and transmission to a connection with the System.

SECTION 1. WATER CHARGES BASED SOLELY ON COST OF SERVICES TO THE RATEPAYER. In accordance with law, the charge for all water delivered by the System shall be based solely on the cost of service to the ratepayer. Costs of service, in turn, shall consist of two components: fixed costs, such as those for billing, meter reading where applicable, and other general overhead, and variable costs, such as proportionate costs of the acquisition and transmission of water, removal of deficiencies, higher operating and maintenance costs apportioned to ratepayers with service demands requiring larger meters, and the costs of the commitment of the System to high-quality maintenance, and the provision of clean water at adequate pressure under all circumstances under the System's control, or as mandated by agencies outside the City as elaborated more fully below.

The City Council has evaluated the costs of service, including the costs of correcting existing deficiency in its water System and of growth, and of underwriting certain commitments to its rate base on a System-wide basis. The City's water utility is regional in nature, and its revenue requirements, or cash needs, have been attributed to the System as a whole. In certain cases, costs of only the engineering characteristics of the System may vary with a ratepayer's location. Nevertheless the Council believes the cost of service exceeds asset costs, because the Council has committed to intangible service elements in addition to fixed asset costs. These are:

1. To provide high-quality maintenance at cost.
2. To plan for and provide adequate future supplies of water for the metropolitan area.
3. To act promptly to assure a clean water supply in light of the likelihood that unpredictable and possibly dramatic changes in the regulatory climate will occur.
4. To provide clean water at adequate pressures under all reasonable circumstances.

The Council is advised that some, or perhaps many, of the assets planned to insure its promises will be located geographically apart from existing System

components because different areas of a large regional System will have differing physical asset requirements through time. Thus, the primary benefit of the System to any individual ratepayer will be in the fulfillment of the Council's commitments, in contrast to the ratepayer's proximity to any specific existing or planned physical asset. In sum, the principal service of the System is and shall be the keeping of its commitments, not the geographical distribution of its physical components, or their physical effects on the water commodity those assets provide.

SECTION 2. COST OF DELIVERED WATER BASED ON QUANTITY USED IN BILLING CYCLE. It is the policy of the City of Modesto that all charges for water delivered by the System shall be determined by the quantity of water used in a standard billing cycle as determined from metered water usage for metered services, and estimated usage of unmetered (flat-rate) services, where services are metered and said meters are read for billing purposes. All estimated flat rate services will be a metered rate as services are converted and/or as funds become available.

SECTION 3. PAYMENT OF CONNECTION CHARGES. In the case of new subdivisions or parcel maps, this charge shall be paid at the time of filing the final subdivision or parcel map. If no parcel or subdivision map is required for the development of the property, then the fee shall be collected upon the issuance of the building permit.

SECTION 4. DEFICIENCY CHARGES. System modernization and improvement, as opposed strictly to expansion, benefits all of the rate base. Accordingly, the cost of removing deficiencies shall be borne by the entire rate base as a component of the variable cost per 100 cubic feet of delivered water.

SECTION 5. ALLOCATION OF WATER ACQUISITION AND TRANSMISSION COSTS. Water acquisition and transmission costs for the System are appropriately apportioned between existing deficiencies and growth requirements. Accordingly, an engineering determination has been made in the West Yost "Justification

and Cost Allocation for Proposed Water System Improvements Study", accepted by Council on September 14, 2004, that 74.2% of the City's water acquisition costs be included in deficiency charges, and that the remaining 25.8% be attributed to growth, and apportioned to and collected in connection charges.

SECTION 6. DETERMINATION OF FIXED AND VOLUME BASED CHARGES FOR DELIVERY OF WATER TO RATEPAYERS. The charge for all water delivered through a metered service where the meters are read for billing purposes, as practical, and as determined by the Finance Director, or designee, with the concurrence of the Public Works Director after December 31, 2004, set forth in the *Water Utility Cost of Service Rate Study* prepared by Foresight Consulting, accepted by Council on September 14, 2004, shall be:

Proposed Monthly Metered Water Rates (by meter size)					
	Year 1 1-Jan-05	Year 2 1-Jul-05	Year 3 1-Jul-06	Year 4 1-Jul-07	Year 5 1-Jul-08
Volume-based Rate (\$/hcf)	\$0.84	\$1.01	\$1.16	\$1.22	\$1.28
Fixed Monthly Meter Charge (in addition to volume-based charges)					
5/8"-3/4" meter	\$9.01	\$10.82	\$12.44	\$13.06	\$13.71
1" meter	\$12.78	\$15.34	\$17.64	\$18.52	\$19.45
1-1/2" meter	\$22.13	\$26.55	\$30.53	\$32.06	\$33.66
2" meter	\$33.38	\$40.06	\$46.06	\$48.37	\$50.79
3" meter	\$63.43	\$76.12	\$87.53	\$91.91	\$96.51
4" meter	\$97.19	\$116.63	\$134.13	\$140.83	\$147.88
6" meter	\$190.95	\$229.14	\$263.51	\$276.68	\$290.51
8" meter	\$303.49	\$364.19	\$418.82	\$439.76	\$461.75
10" meter	\$434.84	\$521.80	\$600.07	\$630.08	\$661.58
12" meter	\$809.95	\$971.95	\$1,117.74	\$1,173.62	\$1,232.31

hcf = Hundred cubic feet

The above listed fixed meter charges shall be charged to all ratepayers in every billing cycle. This fixed cost will be charged whether or not any water is actually used by a ratepayer in a given billing cycle until such time as water service is terminated by the customer.

The proposed rate increase(s) are based on currently available information. The actual bills are rounded and may be slightly different than listed above.

**SECTION 7. CHARGES FOR UNMETERED WATER SERVICES.**

The charge for all water delivered from an unmetered service after December 31, 2004, has been cost-estimated as closely as possible to average metered rates as follows: Until such time as the subject residential property is billed at a metered rate:

Proposed Monthly SFR Flat Water Rates*					
	Year 1	Year 2	Year 3	Year 4	Year 5
	1 Jan-05	1-Jul-05	1-Jul-06	1-Jul-07	1-Jul-08
0-5,000 sq. ft. lot	\$24.47	\$29.36	\$33.77	\$35.45	\$37.23
5,001-7,000 sq. ft. lot	\$27.81	\$33.37	\$38.38	\$40.30	\$42.31
7,001-11,000 sq. ft. lot	\$33.00	\$39.60	\$45.54	\$47.82	\$50.21
11,001-17,000 sq. ft. lot	\$35.03	\$42.04	\$48.34	\$50.76	\$53.30
Over 17,000 sq. ft. lot	\$41.19	\$49.42	\$56.84	\$59.68	\$62.66

SFR = Single Family Residential

\* If a SFR property has a water meter that is read, then the appropriate Metered Water Rate will be used.

The proposed rate increase(s) are based on currently available information. The actual bills are rounded and may be slightly different than listed above.

When water service is turned on or off anytime between the beginning and end of a billing cycle, the amount charged to an unmetered (flat-rate) service shall be pro-rated.

**SECTION 8. RESCISSION OF ALL PREVIOUS RESOLUTIONS RELATING TO WATER DELIVERY OR WATER OPERATIONS AND MANAGEMENT.** All resolutions of the City Council setting any rates or fees whatsoever for the delivery of water, or for costs associated with operation or management of the water System, are hereby rescinded; except that water rates

established by the rescinded resolutions shall remain in effect until the rates established in this resolution take effect on January 1, 2005. This resolution shall be the sole basis for determining any water fee to be charged to a ratepayer or potential ratepayer, or paid on behalf of a potential ratepayer by the City on and after January 1, 2005.

SECTION 9. COST OF METERS AND INSTALLATION. The cost of meters and of meter installation and repair for existing ratepayers when this resolution is enacted has been included in the fixed cost assigned to the rate base for water consumption, since metering has been determined to benefit the rate base as a whole.

SECTION 10. CONNECTION FEES. The law requires that charges attributable purely to growth (new connections) be borne solely by those new connections. Accordingly, the planned infrastructure cost for deficiencies in the existing System, and for costs associated with new growth have been apportioned as follows: 74.2% attributable to existing deficiencies and 25.8% attributable to new growth. These percentages have been applied to anticipated capital costs on a going forward basis for the five-year period following the date of this resolution. Combined with the growth-induced component of water acquisition costs and the apportioned cost of "buying-into" the existing system, this will result in the establishment of connection charges. The connection fee study is incomplete at the date of this resolution. This resolution will be restated and amended to include appropriate charges when the City Council has accepted the subject report. Until then, existing connection fees are restated and made applicable to growth by Section 14 of this resolution.

SECTION 11. WATER DISCOUNT FOR LOW INCOME SENIOR CITIZENS AND LOW INCOME DISABLED. The law prohibits all such cross-category

subsidies requiring one ratepayer to subsidize the costs of another. Accordingly, the City Council may from time to time, by separate resolution, enact subsidies for certain categories of ratepayers, as the City Council may see fit, provided that the source(s) of funds to implement such subsidies are source(s) separate from the water enterprise fund.

SECTION 12. INFLATOR INDEX AND REASSESSMENT OF COST OF SERVICE. The costs of service set forth above shall be re-examined every two years by engineers, consultants, and professionals competent in the field. Such engineers, consultants and professionals shall provide a report to the City updating both fixed and volume based costs as appropriate and as recommended to the Council by the Finance Director and the Public Works Director. After June 30, 2009, the Finance Director, or designee, with the concurrence of the Public Works Director, shall have the authority, on an annual basis, to raise either fixed or variable costs, or both, as appropriate, by an amount not to exceed the percentage increase in the Consumer Price Index (CPI), Urban Wage Earners and Clerical Workers Series for the San Francisco CMSA, as prepared by the California Department of Finance Demographics Research Unit.

SECTION 13. WATER CHARGES FOR WATER USED DURING BUILDING CONSTRUCTION.

- (a) The water service charge furnished to single-family residences, duplexes, and triplexes that are under construction will be a flat rate charge based on the formula below. This charge will be assessed and paid at the time of building permit issuance.

120 Day Residential Construction Water Rate:  
Current Flat Rate for Smallest Lot Area + Current City  
Utility Tax x 4 months

- (b) The water service charge specified in the first paragraph provides for water service for 120 days. Subsequent to that time, the water service fee shall be collected on a regular monthly billing based on

the full size of the lot unless the owners request the water to be turned off at the end of 120 days.

- (c) In the event construction ceases before the building is completed, the water to the building site will be turned off unless the property owner has made arrangements for regular service.
- (d) In the event a structure is occupied before final inspection of the structure, or water is used for other than normally required for construction, the water service charge will be made at the established rate for regular service.
- (e) Charges for water services during the construction of apartments, commercial buildings, and industrial buildings will be at the regular metered water service charge.

**SECTION 14. Fixed fees for all System operations and management**

services have been calculated and are hereby imposed as follows:

FEE	AMOUNT
Deposit	Not to exceed 3 times the estimated average bill or 2 times the normal monthly bill.
Disconnect	\$10.00
Reconnect	\$10.00
Late Payment Penalty	\$4.35
Returned Check	\$10.00
Collection Agency	\$16.50
Water Disconnection Notice (final notice mailed or doorhangers)	\$10.00
Unauthorized Reconnect (illegal on)	\$25.00
Lock Breakage/Lock Replacement	\$75.00
Disconnect Waterline at Main for Non-payment (line cut)	\$375.00
Connection Charge	\$.05 per sq. ft. of gross lot area
Water Main Installation Charge	\$18.00 per lineal foot of lot frontage
Water Service Installation Charge	
1" Service	\$1,108.00
1-1/2" Service	\$1,130.00
2" Service	\$1,156.00
4" Service	\$2,131.00
6" Service	\$2,131.00
8" Service	\$2,347.00
10" Service or larger	At Cost

Water Meter Fee	
1" Meter/New Service - pedestrian lid	\$115.00
1" Meter/New Service - traffic lid	\$176.00
1" Meter/Retrofit Service - pedestrian lid	\$520.00
1" Meter/Retrofit /Service - traffic lid	\$600.00
1-1/2" Meter with pedestrian lid	\$484.00
1-1/2" Meter with traffic lid	\$545.00
2" Meter with pedestrian lid	\$520.00
2" Meter with traffic lid	\$582.00
4" Meter	\$1,820.00
6" Meter	\$2,400.00
8" Meter	\$3,350.00
10" Meter or larger	At Cost
Pavement	\$439.00 for each trench
Parcel Reduction	\$37.00
Water Connection for Main extension	\$2,820.00
Reimbursement Agreement Preparation	\$175.00
Outside City Limits Agreement	\$35.00
Fire Hydrant Installation (each)	\$2,635.00
Fire Hydrant Line from Main per Lineal Foot	\$3.00
Pavement Replacement	\$439.00
Fire Main Test	\$90.00
Deposit to Install Meter on Fire Hydrant for Construction Water	\$500.00
Fire Hydrant Meter Use Deposit	\$500.00
Fire Service Installation Inspection/Test	\$90.00
Install 4" Single Check Valve	\$390.00
Install 6" Single Check Valve	\$479.00
Install 8" Single Check Valve	\$688.00
Voluntary Installation of Fire Sprinklers, Apartments	8.3% of normal charge
Voluntary Installation of Fire Sprinklers, SFD, Duplexes, Townhouses	\$50.00

SECTION 15. This resolution shall become effective on and after January 1, 2005.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23<sup>rd</sup> day of November, 2004, by Councilmember Dunbar, who moved its adoption, having duly noted the failure of the rate base to protest under Sections 13C and 13D of the California constitution, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
Mayor Ridenour

NOES: Councilmembers: O'Bryant

ABSENT: Councilmembers: None

ATTEST: Jean Zahr  
JEAN ZAHR, City Clerk

MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-628

**A RESOLUTION APPROVING AMENDMENTS TO THE POLICY AGAINST HARASSMENT AND DISCRIMINATION AND THE COMPLAINT PROCEDURE FOR ALLEGED VIOLATIONS OF THAT POLICY TO SHIFT THE PRIMARY RESPONSIBILITY FOR FORMAL INVESTIGATIONS OF ALLEGED VIOLATIONS TO THE CITY ATTORNEY.**

WHEREAS, upon the advice of outside counsel the City Council has determined that it is in the best interest of the City to amend the City's Policy Against Harassment and Discrimination and the procedure for investigating violations of that policy to the City Attorney,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the City of Modesto Policy Against Harassment and Discrimination is hereby amended as set forth in **Exhibit "A"** and the City of Modesto Complaint Procedure in Violation of Policy Against Harassment and Discrimination is hereby amended as set forth in **Exhibit "B"**.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of December, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant  
NOES: Councilmembers: None  
ABSENT: Councilmembers: Mayor Ridenour

## CITY OF MODESTO POLICY AGAINST HARASSMENT AND DISCRIMINATION

It is the policy of the City of Modesto that harassment is unacceptable and will not be tolerated. Further, it is the policy of the City of Modesto to treat its citizens, customers and employees with respect and dignity and to strive to provide a working environment free of discrimination and harassment. This policy applies to all employees, officials, agents and volunteers, and all non-employees who have contact with employees during working hours.

Any City employee who has been found, after an investigation, to have harassed another City employee, official, agent, volunteer, consultant or non-employee because of their race, color, ancestry, religion or creed, sex, national origin, marital status, age, physical or mental disability or perceived disability, medical condition, pregnancy-related condition, sexual orientation or political affiliation or belief will be subject to disciplinary action up to and including termination.

### **Definition of Harassment**

Harassment based on a person's race, color, ancestry, religion or creed, sex, national origin, marital status, age, mental or physical disability, or perceived disability, medical condition, pregnancy-related condition, sexual orientation, or political affiliation or belief can constitute a violation of Title VII of the Civil Rights Act, the California Fair Employment Act and/or the City of Modesto's Equal Opportunity Policy. Harassment based on a person's race, color, ancestry, religion or creed, sex, national origin, marital status, age, mental or physical disability, or perceived disability, medical condition, pregnancy-related condition, sexual orientation, or political affiliation or belief occurs when:

1. The focus and/or content of the harassing act is race, color, ancestry, religion or creed, sex, national origin, marital status, age, physical or mental disability or perceived disability, medical condition, pregnancy-related condition, sexual orientation or political affiliation or belief; and,
2. The harassing act tends to create an intimidating, oppressive, hostile or offensive working environment or tends to otherwise interfere with an individual's emotional well being or ability to perform work.

Sexual harassment is a form of sex discrimination. It includes an unwelcome or unsolicited sexual advance, a request for sexual favors, and other verbal or physical conduct of a sexual nature, and can constitute a violation of Title VII of the Civil Rights Act, and Fair Employment Housing Act.

Conduct is considered sexual harassment when:

- a. Submission is made an express or implied term or condition of employment; or
- b. Submission to or rejection of the harassing act is used as a basis for employment or business decisions affecting an individual; or
- c. Such conduct may have the purpose or effect of interfering with an individual's work performance and/or may create an intimidating, hostile or otherwise offensive work or business environment.

## Examples of Harassment

- Written examples include suggestive or obscene letters, notes, jokes, e-mails and invitations.
- Verbal examples include derogatory comments, slurs, jokes, and racial epithets.
- Physical examples include assault, touching, impeding or blocking movements.
- Visual examples include leering, gestures or displays of sexually suggestive objects or pictures, cartoons or posters.

Other examples include, but are not limited to, threats of reprisal, implying or actually withholding support for appointments, promotion or transfer, rejection during probation, punitive actions, changes of assignments, or suggesting that a poor performance report will be prepared if requests for sexual favors are not met.

The harassing act may be focused on an individual who is not physically present at the time, or who was present but did not actually see or hear the acts.

## Retaliation

It is also a violation of this Policy for an employee to retaliate against the complainant(s), witness(es) or other parties to a complaint of discrimination or harassment. A verified allegation of retaliation will be treated the same as any other violation of this Policy and may result in action taken against the retaliator, even if the original complaint is not determined to have merit.

## Responsibilities

1. Except as set forth below, the The City Manager is responsible for enforcement of the City Policy Against Harassment and Discrimination.
2. The City Attorney designated Equal Opportunity Officer is responsible for ensuring that all complaints of harassment are investigated thoroughly and promptly, including presentation of recommendations for any necessary action to the City Manager, Department Director, or Supervisor.
3. Every Department Director is responsible for informing all employees of the City Policy Against Harassment and Discrimination and for taking the steps necessary to set a positive example in the prevention of harassment.
4. Every Supervisor is responsible for taking immediate and appropriate corrective action upon the observation of any incident of harassment or upon receipt of an oral or written report of any occurrence of harassment.
5. Every City Employee is responsible for reporting any act of harassment to the immediate Supervisor or Department Director, or the City Attorney City's designated Equal Opportunity Officer or Personnel Director.

## Complaint Resolution Procedures

City employees shall report any act of harassment to their immediate Supervisor or Department Director, and to the City Attorney or to the City's designated Equal Opportunity Officer or the Personnel Director. The City Attorney Equal Opportunity Officer (or designee) will investigate and attempt resolution of harassment complaints in accordance with the City's Complaint Process as outlined in Exhibit B to the City's Equal Opportunity Plan.

**CITY OF MODESTO  
COMPLAINT PROCEDURE  
VIOLATION OF POLICY AGAINST HARASSMENT AND DISCRIMINATION**

1. **Intent** - Any person who feels that he/she has encountered discrimination and/or harassment is encouraged to come forward and present that information. All complaints are kept confidential to the extent permitted by law. However, it should be noted that when a supervisor or other management employee is made aware of a situation of potential harassment or discrimination, he/she is required to take steps to verify whether or not the discrimination/harassment occurred and to take whatever action is necessary to correct the situation. A prompt and appropriate investigation may require disclosure of the allegations, the person making the allegations and may necessitate the use of other parties to assist in the investigation.

It is the intent of this procedure to provide an effective means for resolving individual or group problems of a sensitive nature quickly and with a minimum of formal procedural requirements.

2. **Scope** - This procedure should be used for perceived discrimination or harassment based on age (40 and over), ancestry, color, mental or physical disability including HIV and AIDS or perceived disability, marital status, medical condition (cancer and genetic characteristics), pregnancy-related condition, national origin, race, religion or creed, sex, sexual orientation or political affiliation or belief.
3. **Limitations** - This procedure for resolving complaints of discrimination and harassment is not intended to supplant or prohibit employees or applicants from filing complaints with the federal Equal Employment Opportunity Commission (EEOC), the state Department of Fair Employment and Housing (DFEH), other appropriate state or federal agencies, or with the courts.

---

**PROCEDURE:**     **The procedure for reporting incidents of discrimination or harassment is meant to be as flexible as possible. It is the goal that complaints be resolved informally, if possible. If informal resolution is not achieved, then a process for formal resolution is provided.**

- a) Complainants should come forward as soon as possible after an incident of harassment or discrimination. Generally, an issue or concern should be raised no later than 30 days from the date the complainant knew or should have known about the incident.
- b) Complainants have the option of contacting their immediate supervisor for assistance or contacting the City Attorney~~designated Equal Opportunity Officer or the Personnel Director~~. If an employee goes directly to a supervisor, the supervisor should notify the City Attorney ~~designated Equal Opportunity Officer~~ that he/she has received the complaint. This can be done informally and confidentially.
- c) Depending on the nature of the complaint, the supervisor may refer the complaint immediately to the City Attorney so that ~~conduct~~ a formal investigation, be conducted. Alternatively, the supervisor may conduct an informal investigation or may recommend

an alternative means of dispute resolution. If the complainant declines the informal or alternative process, a formal investigation by the City Attorney will be initiated.

- d) The City Attorney supervisor, designated Equal Opportunity Officer or other investigator should begin a confidential investigation of the complaint as soon as possible. A reasonable time line to begin an internal investigation would be two-five (2-5) working days, depending on employees' work schedules.
- e) The complainant should be assured that the matter will be kept confidential to the extent possible, but be advised that a full investigation will include advising the alleged discriminator/harasser of the charges and interviewing witnesses. The alleged discriminator/harasser should be cautioned that DFEH, EEOC and this Policy prohibit any retaliation against the complainant, witnesses or other parties to the complaint. A verified allegation of retaliation will be treated as a violation of this policy and the City may take action against the retaliator, even if the original complaint is not determined to have merit.
- f) The investigation may include witness interviews, review of documents or materials and discussions with the complainant and the alleged discriminator/harasser. Witnesses shall be directed to maintain confidentiality during the investigation and shall be admonished not to engage in retaliation against either the complainant or alleged discriminator/harasser.
- g) The investigation should be completed in a timely manner. If the investigation will require greater than 30 days, the investigator or department shall notify the complainant of the status of the investigation and anticipated completion date.
- h) The investigator will prepare a written report including a finding related to each allegation. The complainant and the alleged discriminator/harasser shall be notified of the findings.
- i) If the investigator finds that discrimination or harassment has occurred, the department management, in consultation with the City Attorney and the designated Equal Opportunity Officer or Personnel Director, shall determine what remedial action is appropriate. Remedial action may include but is not limited to coaching the responsible employee, training, a record of discussion, written reprimand, or formal discipline.
- j) If the complainant has first taken their complaint to a supervisor and is not satisfied with the supervisor's or department's timeliness or efforts, he/she may then contact the City Attorney and designated Equal Opportunity Officer or the Personnel Director. He/she should notify the department that this is being done. If the supervisor or department cannot effect conciliation and negotiation within a reasonable amount of time, the complainant should contact the City Attorney designated Equal Opportunity Officer. The City Attorney designated Equal Opportunity Officer may assist the department in completing the investigation or in identifying an alternate investigator to complete the confidential investigation and come to a resolution.
- k) The complainant should be notified that he/she has the right to file a complaint with the federal Equal Employment Opportunity Commission (EEOC) or the state Department of

Fair Employment and Housing (DFEH) or other appropriate state or federal agency or the court.

- 1) Complaints against the City Attorney shall be made to and investigated by the City Manager in a manner consistent with this procedure who shall report his/her findings to the City Council who shall determine the appropriate remedial action.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 629**

**A RESOLUTION OF THE COUNCIL OF THE CITY OF MODESTO  
CONFIRMING THE CANVASS OF THE SPECIAL MUNICIPAL ELECTION  
WHICH WAS HELD IN THE CITY OF MODESTO ON NOVEMBER 2, 2004,  
AND DECLARING THE RESULTS OF SAID SPECIAL ELECTION.**

WHEREAS, on Tuesday, November 2, 2004, a Special Municipal Election was held in the City of Modesto (herein called "City") of Stanislaus County to submit to the qualified electors in the City of Modesto an advisory measure, as follows:

1. **Measure "D" relating to the "Robertson Road Infill Area" sewer service extension, and**

WHEREAS, said election was held on Tuesday, November 2, 2004, in accordance with law and the proceedings of this Council, and the votes thereat received and canvassed, and the returns thereof ascertained, determined and declared in all respects as required by law, and

WHEREAS, the City Clerk canvassed the returns of said special municipal election in accordance with law and certified the results of the election to the Council by a Certificate Of Canvass And Statement of Vote dated November 30, 2004, a copy of which is attached hereto marked **Exhibit "A"** and made a part hereof.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. Said canvass by the City Clerk as shown on said Certificate of Canvass and Statement of Vote and the results of the election are hereby ratified, confirmed and approved.

SECTION 2. That in accordance with Sections 15374 of the Elections Code, a copy of said Certificate of Canvass and Statement of Vote, which is attached hereto marked as Exhibit "A" and made a part hereof, shows a complete tabulation of the following:

- (a) The whole number of votes cast in the City.
- (b) The number of votes given in the City for Measure D.

SECTION 3. The following votes were cast for Measure D:

<b>Measure</b>	<b>Total Votes For</b>	<b>Total Votes Against</b>
Measure D	36,532	21,436

**Measure D.** A majority of all of the votes cast at the election on Measure D were in favor of said "Robertson Road Infill Area" Sewer Service Extension, and said Measure carried and was approved and was ratified by a majority of the qualified voters voting on Measure D.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of December, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant

NOES: Councilmembers: None

ABSENT: Councilmembers: Mayor Ridenour

ATTEST: Jean Zahr  
JEAN ZAHR, City Clerk

(seal)

APPROVED AS TO FORM:

By: Mike Milich  
MIKE MILICH, City Attorney

STATEMENT OF VOTE  
OF  
STANISLAUS COUNTY

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-630**

**A RESOLUTION APPROVING SEWER SERVICE TO THE ROBERTSON  
ROAD NEIGHBORHOOD.**

WHEREAS, City owns, operates and maintains a sewer district which is designated and intended to serve residents and businesses located in the greater Modesto area, and

WHEREAS, there exists an unincorporated County island within the City limits which is commonly known as the Robertson Road Neighborhood, and

WHEREAS, County has requested that City sewer district provide sewer service to the infill area, and

WHEREAS, City and County entered into a Public Improvement Agreement in July, 2004, which provides, among other things, that City will consider providing sewer service to the Robertson Road Neighborhood after first holding an advisory election pursuant to the Modesto Citizens Advisory Growth Management Act, commonly known as Measure A and the Modesto Citizens Advisory Growth Management Act of 1995, commonly known as Measure M, and

WHEREAS, said advisory election was held on November 2, 2004, and

WHEREAS, the results of such advisory election were that a majority of the voters of Modesto approved of providing sewer service to the Robertson Road Area.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves of providing sewer service to the Robertson Road Infill Area pursuant to the terms and conditions of the Public Improvement Agreement entered into between the City and the County in July, 2004, a copy of which is attached hereto and incorporated by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of December, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-631**

**A RESOLUTION SUPPORTING THE GREAT VALLEY CENTER ROUTE 99  
CORRIDOR IMPROVEMENT GUIDE**

WHEREAS, the Great Valley Center is a regional nonprofit organization working to make California's Central Valley a better place to live by supporting organizations and activities that promote the economic, social, and environmental well-being of the region, and

WHEREAS, the Highway 99 Task Force is an integral part of the Great Valley Center and specifically, a collaborative effort composed of business, community, and government leaders from jurisdictions throughout the San Joaquin Valley, focused on the improvement of the Route 99 Corridor from Kern County through the San Joaquin Valley communities, and

WHEREAS, Scenic California is also an integral part of the Great Valley Center with the mission of promoting and carrying out programs that protect the natural beauty of the environment, landscapes and streetscapes, historical and cultural resources, and enhancement of scenic approaches and settings to cities, counties, and towns, and

WHEREAS, Highway 99 is a key economic and transportation corridor of the San Joaquin Valley, and

WHEREAS, Highway 99 represents a common thread of history and culture to the people and communities from Kern County through the San Joaquin Valley, and

WHEREAS, the Highway 99 Task Force has composed a written "Route 99 Corridor Improvement Guide" which, among other things, identifies practical guidance to communities attempting to improve the Route 99 Corridor,

NOW, THEREFORE, incorporating the above recitals herein, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. That the Modesto City Council appreciates the dedication and efforts of the individuals, companies, and other groups which comprise the Great Valley Center, the Highway 99 Task Force, and the Scenic California organization and their combined efforts to enhance Highway 99 and our community.

2. That the Modesto City Council recognizes the significance of promoting and beautifying Highway 99.

3. That the Modesto City Council supports the concepts contained in the written "Route 99 Corridor Improvement Guide", published May 2004/Version 1.0.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of December, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-632**

**A RESOLUTION GRANTING A CAPITAL FACILITY FEE CREDIT IN THE  
AMOUNT OF \$3,819 FOR ELWYN AND MARY HEINEN FOR THEIR  
PREVIOUSLY DEMOLISHED UNIT**

WHEREAS, previously, the City granted capital facility fee, CFF, credits for buildings that previously existed,

WHEREAS, Elywn and Mary Heinen had previously received a fee credit from the City of Modesto in 1995 for a demolished home,

WHEREAS, Elwyn and Mary Heinen were told by the City of Modesto, and the City's software supports that a fee credit is owed,

NOW, THEREFORE, BE IT RESOLVED that a fee credit in the amount of \$3,819 be granted to Elwyn and Mary Heinen.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of December, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-633**

**A RESOLUTION APPROVING THE DELAY OF CONSIDERATION FOR FY  
05-06 SUPPLEMENTAL BUDGET REQUESTS UNTIL FINANCIAL  
REPORTING FOR FY 04-05 IS COMPLETE.**

WHEREAS, supplemental budget requests have historically been developed and reviewed by the City Council during the operating budget development process, and

WHEREAS, this process does not provide for a complete accounting of the prior year's financial status, and

WHEREAS, by delaying the review of these requests the City Council will have access to better financial data in their decision-making process, and

WHEREAS, at its meeting of November 15, 2004, the Finance Committee approved delaying the review of these supplemental budget requests,

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby approves the delay of FY 05-06 supplemental budget requests until the completion of FY 04-05 financial reporting.

BE IT FURTHER RESOLVED that City staff is hereby authorized to make the necessary scheduling changes to implement this budget policy.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of December, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-634**

**A RESOLUTION APPROVING THE APPLICATION FOR GRANT FUNDS FOR THE ROBERTI-Z'BERG-HARRIS URBANIZED AREA NEED-BASIS PROGRAM UNDER THE CALIFORNIA CLEAN WATER, CLEAN AIR, SAFE NEIGHBORHOOD PARKS, AND COASTAL PROTECTION ACT OF 2002 FOR RENOVATION OF THE MADDUX YOUTH CENTER, AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE THE GRANT APPLICATION**

WHEREAS, the people of the State of California have enacted the CALIFORNIA CLEAN WATER, CLEAN AIR, SAFE NEIGHBORHOOD PARKS AND COASTAL PROTECTION ACT OF 2002 which provides funds to the State of California for grants to eligible applicants, and

WHEREAS, the California Department of Parks and Recreation has been delegated the responsibility for the administration of the Roberti-Z' Berg-Harris Urbanized Area Need-Basis Program for grants and the grant Project shown above within the State, setting up necessary procedures, and

WHEREAS, said procedures established by the California Department of Parks and Recreation require the Applicant's Governing Body to certify by resolution the approval of the Application before submission of said Application to the State, and

WHEREAS, the Applicant will enter into a Contract with the State of California for the Project;

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto hereby:

1. Approves the filing of an Application for local assistance funds from the Roberti-Z' Berg-Harris Urbanized Area Need-Basis Program under the California Clean Water, Clean Air, Safe Neighborhood Parks and Coastal Protection Act of 2002; and

2. Certifies that the Applicant has or will have sufficient funds to operate and maintain the Project; and Certifies that the Applicant has reviewed, understands, and agrees to the General Provisions contained in the Contract shown in the Procedural Guide; and
3. Certifies that the Grantee has or will have available, prior to commencement of any work on the Project, the required Match; and
4. Certifies that the Project conforms to the recreation element of any applicable city or county general plan; and
5. Appoints the Acting City Manager, or his designee, as agent to conduct all negotiations, execute and submit all documents including, but not limited to, Applications, agreements, payment requests and so on, which may be necessary for the completion of the Project.

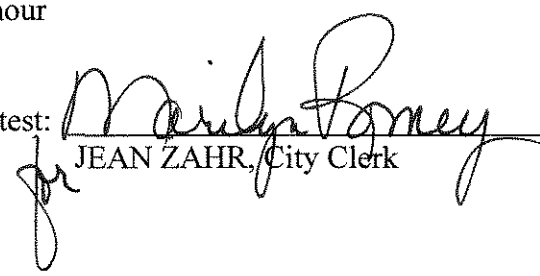

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of December 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar was upon roll call carried and the resolution adopted by the following vote:

**A RESOLUTION APPROVING AN AGREEMENT WITH THE STANISLAUS  
COMMUNITY FOUNDATION TO ACT AS THE CITY'S FISCAL AGENT FOR  
ACCEPTANCE OF ENDOWMENTS AND GIFTS FOR OPEN SPACE  
DEVELOPMENT AND PROGRAM ACTIVITIES, AND AUTHORIZING THE  
ACTING CITY MANAGER TO SIGN THE AGREEMENT.**

WHEREAS, on February 25, 2003, the City Council by Resolution No. 2003-95 accepted the Parks, Recreation and Neighborhoods Department's first Fund Development Report, and

WHEREAS, as part of City Council Resolution No. 2003-95, staff was directed to negotiate an agreement with the Stanislaus Community Foundation to allow the Parks, Recreation and Neighborhoods Department to be eligible for grants for which government agencies are not eligible, and

WHEREAS, the Stanislaus Community Foundation is a 501(c)(3) nonprofit organization governed by a board of private citizens chosen to represent the public interest, and

WHEREAS, the Stanislaus Community Foundation will be a vehicle for acceptance of endowments and gifts for open space development and program activities, and

WHEREAS, the Stanislaus Community Foundation will provide a means to invest and manage gifts for park and recreation purposes, and

WHEREAS, this item was considered and supported at the August 11, 2004, Finance Committee meeting,

NOW, THEREFORE, BE IT RESOLVED that the City Council of Modesto hereby approves an agreement with the Stanislaus Community Foundation, for the Foundation to act as the City's fiscal agent for acceptance of endowments and gifts for open space development and program activities.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to sign the agreement with the Stanislaus Community Foundation.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-636**

**A RESOLUTION TO SUPPLEMENT MILITARY PAY AND CONTINUE HEALTH INSURANCE FOR UP TO TWENTY-FOUR (24) MONTHS FOR EMPLOYEES CALLED TO ACTIVE DUTY FOR NATIONAL DEFENSE BEFORE JANUARY 1, 2007.**

WHEREAS, in the wake of the September 11<sup>th</sup> terrorist attack on America, Four (4) City employees have already been called into active duty, and

WHEREAS, on November 20, 2001, the City Council adopted Resolution 2001-592 extending pay and benefits for twelve (12) months for Reservists called into active military duty, and

WHEREAS, on January 7, 2003, the City Council adopted Resolution 2003-3 extending pay and benefits for months two (2) through twenty-four (24) for Reservists called into active military duty, to sunset on January 1, 2005, and

WHEREAS, the City now desires to extend the benefit of supplementing military pay and continuing health insurance for employees called to active duty for up to twenty-four (24) months, and

WHEREAS, the City has identified 12 regular City employees who are Reservists and who could be called into active duty, and

WHEREAS, the Modesto Police Officers' Association supports the City's efforts to continue to provide additional salary and health benefits to activated employees, and

WHEREAS, on November 22, 2004, the Council Finance Committee voted unanimously to recommend approval of this action to the full City Council,

NOW, THEREFORE, BE IT RESOLVED by the City Council that the City will pay the difference between an employee's base City salary and the employee's military

pay including all military allowances and/or premiums (if the base City salary exceeds the military pay).

BE IT FURTHER RESOLVED, that the City will pay the same contribution towards an employee's health, dental and vision premiums for an employee called into active duty that it was paying at the time the employee was called up, excluding in-lieu deferred compensation payments.

BE IT FURTHER RESOLVED, the City will continue the benefits outlined in this Resolution for up to twenty-four (24) months for employees remaining in active duty and called into such duty before January 1, 2007.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of December, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**A RESOLUTION AUTHORIZING THE PERSONNEL DIRECTOR TO SOLICIT  
INFORMAL BIDS FOR A PROFESSIONAL SERVICES CONTRACT TO  
CONDUCT CLASSIFICATION STUDIES**

WHEREAS, the Personnel Director has been delegated the authority, by the City Manager, to establish and maintain a Position Classification Plan, and

WHEREAS, this responsibility is summarized in Personnel Rule 2, and

WHEREAS, part of the responsibility of maintaining a Position Classification Plan includes review of positions whose duties have changed substantially, resulting in allocating these positions to appropriate classes, and

WHEREAS, the Personnel Department has received approximately eleven (11) employee or Employee Association requests for classification reviews which have not been initiated, and

WHEREAS, it is the desire of the City to conduct these reviews in a timely manner, and

NOW, THEREFORE, BE IT RESOLVED by the City Council that it hereby authorizes the Personnel Director to solicit informal proposals for a Professional Services Contract to conduct previously identified classification studies received on, or before, November 15, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of December, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-639**

**A RESOLUTION APPROVING THE REOPENING OF CAPITAL  
IMPROVEMENT PROGRAM PROJECTS CLOSED IN ERROR AND  
AMENDING THE ADOPTED BUDGET FOR FISCAL YEAR 2004-2005 TO RE-  
APPROPRIATE FUNDING TO THE CLOSED PROJECTS.**

WHEREAS, staff from the Public Works Department was asked to identify existing capital improvement projects that were completed and ready to close, and

WHEREAS, during that process four projects were inadvertently closed by the Finance Department, and

WHEREAS, these four projects are still under construction and still have outstanding work to be completed, as well as staff charges and invoices yet to be received and charged against these project accounts, and

WHEREAS, until all of these expenses are accounted for and reconciled, and the contracts complete and the encumbrances closed, these projects cannot and should not be closed, and

WHEREAS, funding for the aforementioned projects was approved for appropriation in previous years by the City Council, and

WHEREAS, within these individual projects the appropriated funding is now tied to encumbrances wherein the City has entered into a contract with a particular contractor and/or grant provider, and to which the City is obligated to fulfill the terms of said contract and/or grant, and

WHEREAS, in order to fulfill these contractual obligations the projects need to be re-opened and the funds remaining in them at the time they were closed need to be reinstated so that they may be completed and finalized, and

WHEREAS, at its meeting of November 22, 2004, the Finance Committee approved this request to re-open these projects and to amend the budget to re-appropriate funds to these projects and further recommended approval to Council,

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto, that the following capital improvement program projects be reopened:

1. 0520-160-N045 – Virginia Corridor Safe Routes to School - \$58,991
2. 1410-430-A014 - Hatch Road Improvements at Dallas Street Intersection - \$35,574
3. 1410-480-M278 – Pelandale Ave Interchange Widening/Highway 99 - \$1,329,990
4. 6320-440-N559 – Emergency Airfield Generator - \$9,948,

BE IT FURTHER RESOLVED that City staff is hereby authorized to make the necessary amendments, as identified above, to the budget in coordination with the Finance Department to re-appropriate funds to these projects.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-641**

**A RESOLUTION ADOPTING THE INITIAL STUDY AND ADOPTING A FINDING THAT THE CITY COUNCIL HAS REVIEWED, CONSIDERED, AND MADE FINDINGS REGARDING THE CEQA ENVIRONMENTAL REVIEW DOCUMENT**

WHEREAS, on March, 4, 2003, the City Council of the City of Modesto adopted Resolution No. 2003-123 certifying that the Modesto Urban Area General Plan Master Environmental Impact Report (“Master EIR”) (SCH No. 1999082041) for the Modesto Urban Area General Plan is complete and adequate pursuant to Section 15090 of the California Environmental Quality Act (“CEQA”) Guidelines, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a Master EIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the Master Environmental Impact Report and whether the subsequent project was described in the Master Environmental Impact Report as being within the scope of the project, and

WHEREAS, the Public Works Department, by Initial Study, E.A./E.T. 2003-25 reviewed the proposed Traffic Signal Modifications at 7 Locations” which determined that the proposed project is within the scope of the project covered by the Master EIR and that the project will have no additional significant effect on the environment that was not identified in the Master EIR; and further, that no new or additional mitigation measures or alternatives may be required, and

WHEREAS, on September 5, 2003, the Engineering and Transportation Department caused to be published notification of the determination conferred in Initial Study 2003-25, pursuant to Public Resources Code Section 21092, and

WHEREAS, said matter was considered by the City Council at a duly noticed meeting held on the 7th day of December 2004, at 5:30 p.m., in the Tenth Street Place Chambers, located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study EA 2003-25 prepared for the proposed "Traffic Signal Modifications at 7 Locations" project, a copy of which is attached hereto as **Attachment "B"**, and incorporated herein by referenced, and based on the substantial evidence included in said Initial Study makes the following findings:

- A. The proposed "Traffic Signal Modifications at 7 Locations" project is within the scope of the General Plan Master EIR (SCH No. 1999082041), which analyzed the potential impacts of buildout of the Urban Area General Plan, including roadways in this area.
- B. No additional significant environmental effects will occur as a result of the "Traffic Signal Modifications at 7 Locations" project that were not previously examined in the General Plan Master EIR.
- C. No new or additional mitigation measures or alternatives will be required as a result of the proposed "Traffic Signal Modifications at 7 Locations" project that were not previously considered in the General Plan Master EIR.
- D. There are no specific features unique to the "Traffic Signal Modifications at 7 Locations" project that require specific mitigation measures. All certified mitigation measures identified in the MEIR will apply city wide, including this project, as appropriate.
- E. This Initial Study, Environmental Assessment No. EA 2003-25 provides substantial evidence to support findings A, B, C, and D above.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Public Works Director is hereby authorized and directed to file a Notice of Approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of December, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

E.A./E.T. No: 2003-25

I. PURPOSE

Section 21157.1 of the Public Resources Code, allows for limited environmental review of subsequent projects under a Master EIR, provided that certain findings are made. The Modesto Urban Area General Plan Master EIR (SCH No. 199082041), adopted March 4, 2003, allows such limited review for projects in the Baseline Developed Area that are consistent with the General Plan and existing zoning.

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any significant effects on the environment that were not examined in the General Plan Master EIR. This Initial Study also provides documentation that the project is within the scope of the General Plan Master EIR.

II. PROJECT DESCRIPTION

A. Project Title:

Rewire 8 Traffic Signals Phase II

B. Lead Agency Name and Address:

City of Modesto, P.O. Box 642, Modesto, CA 95353

C. Contact Person, Address, and Phone Number:

Paul J. Hom, Engineering and Transportation Department, (209) 577-5294

D. Project Location:

10<sup>th</sup> & G Streets, 11<sup>th</sup> & G Streets, 12<sup>th</sup> & G Streets, 14<sup>th</sup> & G Streets, 17<sup>th</sup> & G Streets, Burney & G Streets, 19<sup>th</sup> & H Streets, Briggsmore Avenue & Oakdale Road

E. Project Sponsor:

City of Modesto, P.O. Box 642, Modesto, CA 95353

F. General Plan Designation:

Redevelopment Planning District (RPD)  
Mixed Use (MU)

G. Zoning:

Redevelopment Planning District (RPD)  
Mixed Use (MU)

H. Description of Proposed Project:

This is an application to rewire 8 existing traffic signals. The existing signal cable has deteriorated to the point where it must now be replaced. The project will also include new conduit at various locations as needed for the ease of rewiring the intersection. It will also include certain pedestrian ADA improvements. All work will take place in existing City of Modesto right of ways.

Seven of the 8 locations are in the downtown core, and one is near the Village I development (see attached Map, Exhibit A).

I. Surrounding Land Uses:

The project is located primarily in the downtown core, with the exception of the Briggsmore Avenue and Oakdale Road intersection.

J. Other Public Agencies Whose Approval is Required:

None

**III. ANALYSIS OF CONFORMANCE WITH THE MASTER EIR**

There are eighteen subject areas in the Master EIR for the General Plan. Following is an analysis of how this project conforms to the analysis contained within the Master EIR.

A. Traffic and Circulation

The Rewire 8 Traffic Signals Phase II project will not result in a physical change to any existing land use. It is consistent with the General Plan designation for this site. Therefore, the traffic impacts of this project are consistent with those contained in the General Plan Master EIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Traffic and Circulation Needs (pages V-1-1 through V-1-33) are, therefore, still valid.

B. Degradation of Air Quality

The air quality impacts for this development are directly related to the traffic impacts. Since traffic impacts are no greater than those anticipated in the Master EIR, this development would not cause additional impacts to air quality beyond those described in the Degradation of Air Quality section of the MEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Degradation of Air Quality (pages V-2-1 through V-2-26) are, therefore, still valid.

C. Generation of Noise

The Rewire 8 Traffic Signals Phase II project will not result in a physical change to any existing land use. The proposed use is consistent with the General Plan in land use and intensity, and the noise impacts from the project and to the project are consistent with those analyzed in the Master EIR. Therefore, the project will not create additional significant effects, and the Mitigation Measures listed in the MEIR for Generation of Noise (pages V-3-1 through V-3-22) are, therefore, still valid.

D. Loss of Productive Agricultural Land

All existing Traffic Signals are located in developed areas downtown and at the Briggsmore/Oakdale intersection outside of productive agricultural land. Therefore, the project is consistent with the Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for Loss of Productive Agricultural Land (pages V-4-1 through V-4-12) and they are, therefore, still valid.

E. Increased Demand for Water Supplies

The proposed project includes traffic signal related improvements and maintenance, and will require no additional water beyond that identified in the Increased Demand for Water Supplies section of the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Water Supplies (pages V-5-1 through V-5-13) are, therefore, still valid.

F. Increased Demand for Sanitary Sewer Services

The proposed project includes traffic signal related improvements and maintenance, and will create no additional demand for sewer capacity not identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Sanitary Sewer Services (pages V-6-1 through V-6-12) are, therefore, still valid.

G. Loss of Sensitive Wildlife and Plant Habitat

All existing Traffic Signals are located in developed areas downtown and at the Briggsmore/Oakdale intersection and are not located in a Potential Biological Resource Study Area, as presented in Figure 7-1 of the MEIR. Therefore, the project will not impact sensitive wildlife or any plant habitat above and beyond that which was identified in the Loss of Sensitive Wildlife and Plant Habitat section of the MEIR. The Existing Conditions, Impact Analysis, and the Mitigation Measures listed in this section of the MEIR (pages V-7-1 through V-7-29) are still valid.

H. Disturbance of Archaeological and Historic Sites

This project will not disturb any archaeological or historic sites that have been identified in the Disturbance of Archaeological or Historical Sites section of the MEIR. Figure 8-1 of the MEIR indicates that it is also outside the Archaeological Resource Study Area, which shows areas that may require additional site specific investigations. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Disturbance of Archaeological or Historical Sites (pages V-8-1 through V-8-22) are, therefore, still valid.

I. Drainage, Flooding and Water Quality

Because the project is consistent with the General Plan in land use and intensity, it will not present any new impacts to drainage, flooding and water quality that have not already been addressed in the MEIR. The mitigation measures in the Master EIR will not reduce the impacts of increased runoff within the baseline developed area to a less than significant level. In adopting the Master EIR, the City Council adopted a finding of overriding findings for this impact. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Drainage, Flooding, and Water Quality (pages V-9-1 through V-9-13) are still valid.

J. Increased Demand for Storm Drainage

The project will not present any new impacts that have not already been addressed in the MEIR. The mitigation measures contained in the Master EIR will not reduce the impacts of increased runoff within the baseline developed area to a less than significant level. In adopting the Master EIR, the City Council adopted a finding of overriding findings for this impact. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Storm Drainage (pages V-10-1 through V-10-16) are still valid.

K. Increased Demand for Parks and Open Space

The proposed improvements will not have an effect upon the parks or open space needs in the area over that anticipated in the Master EIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Parks and Open Space (pages V-11-1 through V-11-14) are, therefore, still valid.

L. Increased Demand for Schools

The proposed improvements will not create any additional demand for schools. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Schools (pages V-12-1 through V-12-11) are still valid.

M. Increased Demand for Police Services

Because the project is consistent with the General Plan in land use and intensity, it will not present any increased demand for police services that has not already been addressed in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Police Services (pages V-13-1 through V-13-7) are, therefore, still valid.

N. Increased Demand for Fire Services

Because the project is consistent with the General Plan in land use and intensity, it will not present any increased demand for fire services that has not already been addressed in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Fire Services (pages V-14-1 through V-14-9) are, therefore, still valid.

O. Generation of Solid Waste

This project will not cause the generation of solid waste beyond that which is identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Solid Waste (pages V-15-1 through V-15-10) are, therefore, still valid.

P. Generation of Hazardous Materials

This proposed use will not result in additional hazardous materials generated beyond those identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Hazardous Materials (pages V-16-1 through V-16-15) are, therefore, still valid.

Q. Landslides and Seismic Activity

This use will result in no additional potential for exposing people to landslides or earthquake related hazards such as liquefaction beyond those identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Landslides and Seismic Activity (pages V-17-1 through V-17-12) are, therefore, still valid.

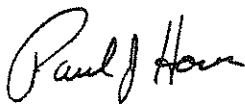

R. Energy

This use will result in less than significant additional demands for energy, as identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Energy (pages V-18-1 through V-18-7) are, therefore, still valid.

IV. CONCLUSIONS/DETERMINATIONS OF FINDINGS

- A. The proposed Rewire 8 Traffic Signals Phase II project is within the scope of the General Plan Master EIR (SCH No. 1999082041), which analyzed the potential impacts of buildout of the Urban Area General Plan, including roadways in this area.
- B. No additional significant environmental effects will occur as a result of the Rewire 8 Traffic Signals Phase II project that were not previously examined in the General Plan Master EIR.
- C. No new mitigation measures or alternatives will be required as a result of the proposed Rewire 8 Traffic Signals Phase II project that were not previously considered in the General Plan Master EIR.
- D. There are no specific features unique to the Rewire 8 Traffic Signals Phase II project that requires project specific mitigation measures. All certified mitigation measures identified in the MEIR would apply city wide, including this project as appropriate.
- E. This initial study provides substantial evidence to support findings A, B, C, and D above.

Associate Traffic Engineer

MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-642

A RESOLUTION ESTABLISHING ANGLE PARKING IN THE CITY OF  
MODESTO AND RESCINDING RESOLUTION NO. 2004-333

WHEREAS, Article 10 of Chapter 2 of Title 3 of the Modesto Municipal Code  
authorizes the City Council, by resolution, to establish angle parking in the City of  
Modesto, and

WHEREAS, City staff received a request from Mr. Bill Leer of Leer Corp to  
install angle parking on the south side of M Street between 7<sup>th</sup> and 8<sup>th</sup> Streets to make  
additional on-street parking available, and

WHEREAS, staff evaluated the traffic volumes and the speeds for this section of  
roadway and concluded that angle parking can be accommodated on the south side of M  
Street between 7<sup>th</sup> and 8<sup>th</sup> Streets without creating a hazard and without impeding traffic  
flow, and

WHEREAS, the Economic Development Committee considered the additional  
angle parking on M Street at its November 8, 2004, meeting and supported staff's  
recommendation,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto  
as follows:

SECTION 1. ANGLE PARKING. Angle parking in the City of Modesto is  
hereby established at the following locations:

- Portions of 10<sup>th</sup> Street, between I & K Streets (west side) (diagonal)
- 18<sup>th</sup> Street, between G and H Streets (west side) (diagonal)
- F Street, between 10<sup>th</sup> and 11<sup>th</sup> Streets (south side) (diagonal)
- I Street, between 9<sup>th</sup> and 12<sup>th</sup> Streets (both sides) (diagonal)

- P Street, between 9<sup>th</sup> and Needham Streets (both sides) (diagonal)
- Coldwell Avenue, between Tully Road and College Avenue
- 4<sup>th</sup> Street, between E Street and G Street (west side)
- 16<sup>th</sup> Street, between I Street and J Street (east side)
- Elm Street, between Jefferson and Washington Streets (diagonal)
- Jefferson Street, between 8<sup>th</sup> and Laurel Streets (diagonal)
- 13<sup>th</sup> Street, between H and L Streets (east side)
- J Street, between 7<sup>th</sup> Street and 8<sup>th</sup> Street (north side)
- 10<sup>th</sup> Street, between G Street and F Street (east side) (diagonal)
- F Street, between 10<sup>th</sup> Street and 11<sup>th</sup> Street (north side) (diagonal)
- 15<sup>th</sup> Street, between K Street and H Street (east side) (diagonal)
- F Street, between 9<sup>th</sup> Street and 10<sup>th</sup> Street (north side) (diagonal)
- 8<sup>th</sup> Street, between J Street and K Street (east side) (diagonal)
- 8<sup>th</sup> Street, between K Street and L Street (east side) (diagonal)
- Sierra Drive between F Street and 4<sup>th</sup> Street (north side)
- 8<sup>th</sup> Street between L Street and Jefferson Street (east side) (diagonal)
- M Street between 7<sup>th</sup> Street and 8<sup>th</sup> Street (south side) (diagonal)

SECTION 2. The Public Works Director is hereby directed to implement the provisions of this resolution.

SECTION 3. Resolution No. 2004-333 is hereby rescinded.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of December, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant

NOES: Councilmembers: None

ABSENT: Councilmembers: Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-643**

**A RESOLUTION AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE TO APPLY FOR FEDERAL FUNDING THROUGH THE REGIONAL SURFACE TRANSPORTATION PROGRAM (RSTP) TO THE STANISLAUS COUNCIL OF GOVERNMENTS (STANCOG) FOR THE PROJECTS LISTED IN EXHIBIT A (ATTACHED), AND TO EXECUTE THE NECESSARY GRANT APPLICATIONS AND DOCUMENTS NECESSARY TO OBTAIN SAID FUNDING**

WHEREAS, on August 11, 2004, the Stanislaus Council of Governments (StanCOG) Policy Board approved guidelines to allocate Regional Surface Transportation Program (RSTP) program funds to eligible proposers for the Federal Fiscal Year 2005/2006 through 2009/2010, and

WHEREAS, on September 9, 2004, StanCOG staff distributed a call for RSTP project nominations to local jurisdictions, further stipulating that \$24,161,000 of RSTP funding was estimated for distribution among local agencies County-wide, and

WHEREAS, pursuant to StanCOG guidelines for distribution to local governments in Stanislaus County, including an estimate of funds available to each, the City of Modesto anticipates \$8,278,000 in funds for eligible pavement maintenance projects on arterial streets, and

WHEREAS, City staff has identified 39 projects for funding which are in need of pavement maintenance, and

WHEREAS, the Economic Development Committee has reviewed said projects generally and recommends approval of the projects for RSTP funding and prioritization of the projects as shown on **Exhibit A**, and

WHEREAS, RSTP grants require an 11.47% local match of funds, and

WHEREAS, the match required for many of the projects may be funded out of Local Gas Tax Funds, Local Transportation Funds or Transit Fare Revenues, and

WHEREAS, applications for each project are required to be submitted to the Stanislaus Council of Governments by December 10, 2004,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the City Manager, or his authorized designee, to apply to the Stanislaus Council of Governments for Regional Surface Transportation Program (RSTP) funds to be used for various projects set forth in the attached Exhibit "A", recommended by City staff, which will assist in the pavement maintenance of arterial streets.

BE IT FURTHER RESOLVED that the City Manager, or his authorized designee, is hereby authorized to execute all applications and documents necessary to obtain said funding.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of December, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant

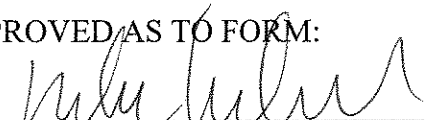

NOES: Councilmembers: None

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-644**

**A RESOLUTION APPROVING AN AMENDMENT TO THE AGREEMENT WITH HDR ENGINEERING, INC., FOR ADDITIONAL ENGINEERING DESIGN SERVICES IN THE AMOUNT OF \$32,859, FOR THE PROJECT TITLED "REPLACEMENT OF THE LA LOMA SEWAGE LIFT STATION," AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE THE AMENDMENT TO THE AGREEMENT, INCREASING THE TOTAL ESTIMATED COST OF THE SERVICES TO \$225,603**

WHEREAS, on August 6, 2003, the City Council approved a Professional Services Agreement with HDR Engineering, Inc., in the amount of \$192,744, to develop engineering plans for the design of the new La Loma Lift Station, and

WHEREAS, the City of Modesto has requested additional design services for the design of a new El Rio sewer system, and

WHEREAS, a new El Rio sewer would be relocated to the public right-of-way in El Rio Drive, and

WHEREAS, on October 8, 2004, HDR Engineering, Inc., submitted to City a scope of work and a fee schedule not to exceed the amount of \$32,859, to provide additional engineering for the design of the El Rio sewer,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the amendment to agreement with HDR Engineering, Inc., in the not to exceed amount of \$32,859, for additional design services and for reimbursable expenses for the design of the El Rio sewer.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the amendment to agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of December, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 645**

**A RESOLUTION AUTHORIZING THE AWARD OF BID AND CONTRACT TO PETERSON PACIFIC CORP. OF EUGENE, OREGON. FOR ONE (1) SELF-PROPELLED STRADDLE COMPOST TURNER (WINDROW TURNER) FOR AN ESTIMATED TOTAL COST OF \$273,229.53**

WHEREAS, the Public Works Department-Water Quality Control (WQC) Division has requested the purchase of one (1) self-propelled straddle compost turner (windrow turner), and

WHEREAS, a self-propelled straddle compost turner (windrow turner) is an important piece of equipment used to produce compost, and

WHEREAS, the materials to be composted are placed into windrows and the windrow turner passes over each windrow and mixes the composting material, and

WHEREAS, this helps stimulate the microorganisms in the material, which break down coarse organic matter into compost, and

WHEREAS, it is important that the windrows are turned frequently and efficiently in order to help the material mature into a high quality composting product, and is part of our permitted composting process, and

WHEREAS, the windrow turner was purchased in 1996 and has been used heavily from that point forward, and

WHEREAS, staff currently operates a hydraulic drive system windrow turner at its composting site on Jennings Road which has become very costly to operate, and at this time the turner is worn down and in need of constant repairs, and

WHEREAS, since 2002, over \$180,000 has been expended for needed repairs just to keep the machine running, and

WHEREAS, the trans-fluid-coupler system can be engaged or disengaged at high idle without damage, and

WHEREAS, if the trans-fluid-coupler quits for some reason while turning the windrow, the fluid coupler will automatically disengage, and

WHEREAS, the trans-fluid-coupler technology has a stronger drum than the hydraulic drive system windrow turner, and

WHEREAS, the trans-fluid-coupler has a ¾ inch thick wall on the drum pipe and is twice as thick as what has been available in the past, and

WHEREAS, drum replacement on the hydraulic drive windrow turner can cost over \$10,000; and if the drum is bent, it cannot be used, and a new drum costs approximately \$16,000, and

WHEREAS, the trans-fluid-coupler system has a six (6) inch shaft on the turning drum, the largest shaft in the industry, and

WHEREAS, the trans-fluid-coupler technology has the largest drum flail diameter, and

WHEREAS, the larger the cross section of the windrow the drum contacts with, the more production the compost will have, and

WHEREAS, the trans-fluid-coupler windrow turner has the largest tip-to-tip flail dimension on the market, working 75% of the window, and

WHEREAS, this provides the best aeration and production available, and

WHEREAS, the trans-fluid-coupler system windrow turner is the most refined compost turner on the market, and

WHEREAS, the combination fluid coupler, poly chain drive, large diameter drum, large diameter drum shafts and heavy duty drum wall makes this technology unique to the market, and is more efficient than the hydraulic drum system windrow turner, and

WHEREAS, with the purchase of a new windrow turner, required maintenance costs should decrease and compost productivity should increase, and

WHEREAS, Modesto Municipal Code, (MMC) Section 8-3.203, generally requires all purchases that meet or exceed \$50,000.00 for material, equipment, or contracts service to be formally bid, and

WHEREAS, by Resolution No. 2004-261, the City Council authorized the Purchasing Supervisor to solicit formal bids for one (1) self-propelled straddle compost turner (windrow turner) with a trans fluid-coupler system, and

WHEREAS, the Purchasing Division solicited formal bids for one (1) self-propelled straddle compost turner (windrow turner) with a trans fluid-coupler system, and

WHEREAS, out of six (6) vendors solicited, three (3) responded to the RFB, and

WHEREAS, two of the bids were deemed to be non-responsive because the bidders took exceptions to specification requirements for a trans fluid coupler system technology windrow turner, and

WHEREAS, bids received were evaluated per specification 0405-08 by the Purchasing Division and the Public Works Department staff, and

WHEREAS, Peterson Pacific Corporation Eugene, OR. was deemed to be the lowest responsive and responsible bidder,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the award of bid and contract for one (1) self-propelled straddle compost turner (windrow turner) to Peterson Pacific Corp. of Eugene, OR. for an estimated total cost of \$273,229.53.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of December, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant

NOES: Councilmembers: None

ABSENT: Councilmembers: Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-646**

**A RESOLUTION FINDING THAT THE POTENTIAL ENVIRONMENTAL EFFECTS OF AMENDMENT #1 TO THE VILLAGE ONE FACILITIES MASTER PLAN UPDATE (MAY 2003) HAVE BEEN ADEQUATELY ADDRESSED BY THE PREVIOUSLY CERTIFIED VILLAGE ONE SPECIFIC PLAN PROGRAM EIR AS MODIFIED BY THE 1994 FINAL SUPPLEMENTAL EIR (SCH NO. 90020181), WITH ADDENDUMS FOR THE VILLAGE ONE STORM DRAINAGE MASTER PLAN UPDATE (EA/CM 2003-02) AND THE VILLAGE ONE FACILITIES MASTER PLAN UPDATE (EA/CM 2003-03).**

WHEREAS, on September 11, 1990, the Modesto City Council adopted Resolution No. 90-757 certifying that the Village One Specific Plan Program Environmental Impact Report ("EIR") (State Clearing House No. 90020181) was complete and adequate pursuant to Section 15090 of the California Environmental Quality Act ("CEQA") Guidelines, and

WHEREAS, the Modesto City Council adopted Resolution No. 94-297 which certified the Final Supplemental EIR for Village One; thus, the 1990 Village One Program EIR has been superseded and updated by the 1994 Supplemental EIR, adopted on May 24, 1994, which Supplemental EIR incorporates by reference technical studies and background material from the 1990 Program EIR, and

WHEREAS, the development of the utility infrastructure for the Village One Specific Plan area is contemplated by, and acknowledged within, the Village One EIR, as amended by the Supplemental EIR, and

WHEREAS, on May 6, 2003, the City Council adopted Resolution No. 2003-223 which adopted an Addendum to Village One Specific Plan Program Environmental Impact Report for the Village One Facilities Master Plan Update – May 2003 ("VI FMP"), and

WHEREAS, Chapter 5 in the text portion of the V1 FMP discusses the Storm Drainage System and refers to the Storm Drainage Master Plan (“SDMP”) prepared by Camp Dresser & McKee (“CDM”), and

WHEREAS, a requirement of the SDMP and the VI FMP is that a 6 acre-foot storm water detention area would be needed in the vicinity of Freedom Neighborhood Park; very early in the design process for Freedom Neighborhood Park it was determined that this requirement would not be feasible and should not have been included in the plan, and

WHEREAS, Freedom Neighborhood Park is designated in the Village One Specific Plan and Precise Plan #29 as a seven-acre neighborhood park; holding 6 acre-feet of water on this park would seriously impact the recreational value of the park, and

WHEREAS, in order to accommodate the 6 acre-feet of storm water, it would be necessary to increase the size of the park, and

WHEREAS, the City retained CDM to determine if there was a way to reduce the storm water storage requirement; in response, CDM modeled several different scenarios and prepared a document entitled “Addendum to the Storm Drainage Master Plan Update Report for the Village One Community Facilities District of April 26, 2002”, prepared June 14, 2004, and

WHEREAS, this report documents the different scenarios that were modeled and the various options available to the City, and

WHEREAS, Condition #2 is the scenario recommended by staff, as it seems to be the most feasible option; in this scenario, the 6 acre-foot detention of storm water in the vicinity of Freedom Neighborhood Park is decreased to 0.5 acre-feet of retention

(basically detaining the storm water that falls in the park), and the need for the 36” overflow pipe from Fine Avenue to the park site is eliminated, and

WHEREAS, there will be short-term ponding in the sub graded field area of Freedom Elementary School, and

WHEREAS, street ponding volume and duration will increase but remain at an acceptable level, and

WHEREAS, City staff prepared a Written Checklist, which concluded that the proposed project is within the scope of the Village One Program EIR (SCH No. 90020181), as

amended by the Village One Supplemental EIR, with addendums for the Village One Storm Drainage Master Plan Update (EA/CM 2003-02) and the Village One Facilities Master Plan Update (EA/CM 2003-03), and

WHEREAS, said Written Checklist also concludes that the additional ponding as a result of this Amendment will be negligible, and

WHEREAS, by an agenda report to the City Council from the Parks, Recreation and Neighborhoods Department dated November 2, 2004, City staff recommended modifying the existing FMP per Condition #2; parameters for Condition #2 include the following:

- 1) Reduce the 6 acre-feet storm water detention basin requirement at Freedom Neighborhood Park (Junction C-165) to .5 acre-feet and
- 2) Eliminate the proposed 36” overflow pipe connecting Fine Avenue to Freedom Neighborhood Park,

and

WHEREAS, a duly noticed public hearing was set before the City Council to be held on November 9, 2004, at 5:30 p.m., in the Tenth Street Place Chambers, located at 1010 Tenth Street, Modesto, California, and

WHEREAS, said hearing was thereafter continued to November 23, 2004, at 5:30 p.m., in the Tenth Street Place Chambers, located at 1010 Tenth Street, Modesto, California, at which time evidence both oral and documentary was received and considered,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered Written Checklist (EA# CM 2004-02), for Amendment #1 to the Village One Facilities Master Plan Update (May 2003), and the Council hereby makes the following findings:

- A. Major revisions to the Village One Program EIR as amended by the 1994 Final Supplement EIR (SCH No. 90020181), with Addendums for the Village One Storm Drainage Master Plan and the Village One Facilities Master Plan Update are not required because the project will not involve new significant environmental effects or increase severity of effects previously identified, and
- B. Major revisions to the Village One Program EIR as amended by the 1994 Final Supplemental EIR, with Addendums for the Village One Storm Drainage Master Plan and the Village One Facilities Master Plan Update, are not required because no substantial changes to circumstances have occurred that involve new significant environmental effects or increase severity of effects previously identified, and
- C. No new information of substantial importance that was not known has become available that shows:
  - a. one or more significant effects is not discussed in the Village One Program EIR as amended by the 1994 Final Supplemental EIR, with Addendums for the Village One Storm Drainage Master Plan and the Village One Facilities Master Plan Update.
  - b. identified significant effects will be more severe,
  - c. previously infeasible mitigation measures are now feasible,
  - d. project proponents have declined to adopt mitigation measures that would substantially reduce significant effects.

- D. Because no new significant effects have been identified and no new mitigation is required for the project, the environmental effects of the operation of the proposed project were covered by the Village One Program EIR as amended by the 1994 Final Supplemental EIR with Addendums for the Village One Storm Drainage Master Plan and the Village One Facilities Master Plan Update. Therefore, pursuant to CEQA Section 15168 (C) (4) no new environmental document is required.
- E. Therefore, Amendment #1 to the Village One Facilities Master Plan is within the scope of the Village One Program EIR with Addendums for the Village One Storm Drainage Master Plan and the Village One Facilities Master Plan Update.
- F. This Written Checklist provides substantial evidence to support findings A, B, C, D and E above.

A copy of said Written Checklist (EA# CM 2004-02), entitled "Amendment #1 to the Village One Facilities Master Plan Update, October 2004", is attached hereto as **Exhibit "A"**, and incorporated herein by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of December, 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant

NOES: Councilmembers: None

ABSENT: Councilmembers: Mayor Ridenour

# WRITTEN CHECKLIST

EA/CM No. 2004-2

## I. PURPOSE

On September 11, 1990, the Modesto City Council certified a Final Program Environmental Impact Report for the Village One Specific Plan (SCH# 90020181). This Program EIR analyzed the impacts of build-out of the Village One Specific Plan, which includes the area in which this project is proposed.

Subsequently, on May 24, 1994, the City Council certified a Supplement to the Village One Program EIR. This supplement updated and modified the original EIR.

In Addition, on May 6, 2003, the City Council determined that the environmental effects of the Village One Facilities Master Plan Update (May 2003) and the Storm Drainage Master Plan Update projects have been addressed by the Village One EIR, as amended by the Supplemental EIR or are less than significant. Addenda for the Village One Facilities Master Plan Update (May 2003) and the Storm Drainage Master Plan Update were then prepared and certified by the City Council.

Section 15182 of the CEQA Guidelines allows the approval of subsequent projects within the scope of the Project EIR without further environmental review, provided the following findings are made:

- (1) There are no substantial changes proposed in the project which result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the Village One Program EIR, as amended by the 1994 Supplemental EIR and Addenda for the Village One Facilities Master Plan Update (May 2003) and the Storm Drainage Master Plan Update are required, and
- (2) No substantial changes have occurred with respect to the circumstances under which the project is undertaken which will result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the Village One Program EIR, as amended by the 1994 Supplemental EIR and Addenda for the Village One Facilities Master Plan Update (May 2003) and the Storm Drainage Master Plan Update are required, and
- (3) There is no new information of substantial importance that was not known and could not have been known with the exercise of reasonable diligence when the Village One Program EIR, as amended by the 1994 Supplemental EIR and Addenda for the Village One Facilities Master Plan Update (May 2003) and the Storm Drainage Master Plan Update, was adopted which shows any of the following:
  - a. one or more significant effects which is not discussed in the Village One Program EIR, as amended by the 1994 Supplemental EIR and Addenda

for the Village One Facilities Master Plan Update (May 2003) and the Storm Drainage Master Plan Update; or,

- b. significant effects which were previously examined will be substantially more severe than previously shown; or,
- c. previously infeasible mitigation measures or alternatives are now feasible and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative; or,
- d. mitigation measures or alternatives which are considerably different from those analyzed in the Village One Program EIR, as amended by the 1994 Supplemental EIR and Addenda for the Village One Facilities Master Plan Update (May 2003) and the Storm Drainage Master Plan Update, would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.

The purpose of this written checklist is to provide the substantial evidence to support the above findings.

The 1994 Supplemental EIR that amended and superseded the 1990 Program EIR is the document reviewed for projects within the Village One Specific Plan area. A summary of significant impacts and their mitigation measures from the 1994 Supplemental EIR is attached as Exhibit "A." Where appropriate those feasible mitigation measures developed in the Supplement to the program EIR shall be incorporated into the proposed project.

## II. PROJECT INFORMATION

1. **Project Title:** Amendment #1 to the Village One Facilities Master Plan Update, October 2004
2. **Lead Agency Name and Address:** City of Modesto
3. **Contact Person and Phone Number:** Vickey Dion  
City Managers Office  
(209)577-5211
4. **Project Location:** Village One Specific Plan Area
5. **Project Sponsor's Name and Address:** City of Modesto  
P.O. Box 642  
Modesto, CA 95353
6. **General Plan Designation:** Multiple land use designations in the Village One

## Specific Plan Area

7. **Zoning:** Multiple zonings in the Village One Specific Plan Area
8. **Description of Project:** Update the storm drainage component of the Village One Facilities Master Plan to reduce the 6 acre-foot storm water detention basin requirement at Freedom Neighborhood Park to 0.5 acre-feet and to eliminate the proposed 36" overflow pipe connecting Fine Avenue to Freedom Neighborhood Park.
9. **Surrounding Land Uses and Setting:** The Village One Specific Plan Area is over half built, as planned and approved by the 1990 Village One Specific Plan.
10. **Other Public Agencies whose Approval Is Required:** None.

### **III. DETERMINATION:**

Based on the analysis contained in this document, staff finds that pursuant to Guidelines Section 15182 the following is true for the proposed project:

- (1) There are no substantial changes proposed in the project which result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the Village One Program EIR, as amended by the 1994 Supplemental EIR and Addenda for the Village One Facilities Master Plan Update (May 2003) and the Storm Drainage Master Plan Update are required, and
- (2) No substantial changes have occurred with respect to the circumstances under which the project is undertaken which will result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the Village One Program EIR, as amended by the 1994 Supplemental EIR and Addenda for the Village One Facilities Master Plan Update (May 2003) and the Storm Drainage Master Plan Update are required, and
- (3) There is no new information of substantial importance that was not known and could not have been known with the exercise of reasonable diligence when the Village One Program EIR, as amended by the 1994 Supplemental EIR and Addenda for the Village One Facilities Master Plan Update (May 2003) and the Storm Drainage Master Plan Update, was adopted which shows any of the following:
  - a. one or more significant effects which is not discussed in the Village One Program EIR, as amended by the 1994 Supplemental EIR and Addenda for the Village One Facilities Master Plan Update (May 2003) and the

Storm Drainage Master Plan Update; or,

- b. significant effects which were previously examined will be substantially more severe than previously shown; or,
- c. previously infeasible mitigation measures or alternatives are now feasible and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative; or,
- d. mitigation measures or alternatives which are considerably different from those analyzed in the Village One Program EIR, as amended by the 1994 Supplemental EIR and Addenda for the Village One Facilities Master Plan Update (May 2003) and the Storm Drainage Master Plan Update, would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.

November 3, 2004

Date

## IV. PROJECT EVALUATION:

The following written Checklist based on Appendix G of the CEQA Guidelines serves to document the evaluation of the site and activity of the proposed project pursuant to CEQA Guidelines Section 15168 (c) (4) to determine whether the environmental effects of the operation were covered in the Program EIR.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
<b>I. AESTHETICS.</b> Would the project:				
a. Have a substantial adverse effect on a scenic vista?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings along a scenic highway?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c. Substantially degrade the existing visual character or quality of the site and its surroundings?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Create a new source of substantial light or glare that would adversely affect daytime or nighttime views in the area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Aesthetic and visual impacts are analyzed on pages III-100 through III-101 of the 1994 Supplement.

### Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that as the Specific Plan area is developed, it will eliminate views of the valley and the distant mountains from adjacent areas and reduce the area's visual open space. However, the program EIR found the effects of build out of Village One on scenic vistas to be less than significant because views from the project area are minimal. The proposed Amendment #1 to the Facilities Master Plan Update would not change the extent or nature of construction in the Specific Plan area, or cause any other changes in the project area. Impacts on scenic vistas would therefore remain the same as those identified in the program EIR. There would be no additional impact. No mitigation is required.
- b. The Village One Specific Plan program EIR found that there are no scenic resources in the project area, and that development within the Specific Plan area

would therefore not result in significant impacts on scenic resources. This finding would not be affected by the proposed Amendment #1 to the Facilities Master Plan Update. There would be no impact. No mitigation is required.

- c. The Village One Specific Plan program EIR found that the development within the Specific Plan area would have a less-than-significant impact on the visual character of the area. The proposed Amendment #1 to the Facilities Master Plan Update would not significantly change the design or layout of the development proposed within the Village One Specific Plan. For this reason, impacts on the visual character of the area would remain the same as those identified in the program EIR. There would be no additional impact. No mitigation is required.
- d. The proposed Amendment # 1 to the Facilities Master Plan Update is consistent with the Village One Specific Plan. For this reason, impacts associated with additional light and glare would remain the same as those identified in the program EIR. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**II. AGRICULTURAL RESOURCES.** In determining whether impacts on agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Department of Conservation. Would the project:

- |    |   |                          |                          |                          |                                     |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Conflict with existing zoning for agricultural use or conflict with a Williamson Act contract?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Involve other changes in the existing environment that, due to their location or nature, could result in conversion of Farmland to non-agricultural use?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on agricultural resources are analyzed on pages III-80 through III-94 of the 1994 Supplement.

## Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that land designated as Prime Farmland would be lost as a result of development in the Village One Specific Plan area. This impact was determined to be significant and not mitigable. The proposed Amendment #1 to the Facilities Master Plan Update would not affect this finding because the project area would remain the same. There would be no additional impact. No mitigation is required.
- b. The Village One Specific Plan program EIR presented information showing that any Williamson Act contracts in the Village One Specific Plan area would be automatically cancelled on annexation of the land to the City of Modesto, which has occurred, or would expire within 10 years of the time the original program EIR was prepared. The last Williamson Act contract covering land in the Village One Specific Plan area expired in 2001. There would be no additional impact. No mitigation is required.
- c. The Village One Specific Plan program EIR identified a potential land use conflict between new residential uses in the specific plan area and adjacent agricultural uses. Such conflicts can lead to conversion of adjacent farmlands to other uses. The program EIR proposed mitigation measures for this potential impact that would reduce the impact's significance, although the EIR noted that the mitigation measure might not fully mitigate the impact. No additional mitigation measures are available for this impact. This finding would not be affected by the proposed project because the project area and proposed land uses would remain the same. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**III. AIR QUALITY.** When available, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the following determinations. Would the project:

- |    |   |                          |                          |                          |                                     |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Conflict with or obstruct implementation of the applicable air quality plan?                                    | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Violate any air quality standard or contribute substantially to an existing or projected air quality violation? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
c. Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is a non-attainment area for an applicable federal or state ambient air quality standard (including releasing emissions that exceed quantitative thresholds for ozone precursors)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Expose sensitive receptors to substantial pollutant concentrations?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e. Create objectionable odors affecting a substantial number of people?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on air quality are analyzed on pages III-45 through III-54 of the 1994 Supplement.

## Responses to Checklist Questions

- a. / b. The Village One Specific Plan program EIR found that air pollution from project-related construction traffic and fireplaces & wood stoves in planned residential areas would violate air quality standards and contribute to an existing air quality violation. Construction traffic emissions would contribute to violation of the state and federal 8-hour carbon monoxide (CO) and particulate matter (PM10) standards and the federal ozone standard in the Modesto Urban Area and the San Joaquin Valley Air Basin. Urban traffic pollution would contribute to violations of the state ozone, CO, and PM10 standards in the Modesto Urban Area and San Joaquin Valley Air Basin. Residential pollution would contribute to violations of the pollutant standard index in the Modesto Urban Area. Partial mitigation for these impacts is included in the program EIR (Mitigation Measures 3–5), and the City of Modesto adopted a statement of overriding consideration for each impact. The proposed Amendment #1 to the Facilities Master Plan Update would not change the amount of development and construction in the project area, so trips generated by the project would not be affected and the types of land uses would not change. There would be no additional impact. No mitigation is required.
- c. The Village One Specific Plan program EIR found that air pollutant emissions associated with traffic at build out of Village One would exacerbate the existing ozone, PM10, and CO violations in the Modesto area and cause a significant cumulative impact. Partial mitigation for these emissions is included in the program EIR (Mitigation Measures 4.5.3[a] and 4.5.3[b]), and the City of Modesto made a statement of overriding consideration for each impact. The proposed Amendment #1 to the Facilities Master Plan Update would not change

the amount of traffic associated with build out of Village One or the types of land uses. There would be no additional impact. No mitigation is required.

- d. The Village One Specific Plan program EIR found that PM10 generated during construction would aggravate the respiratory problems of people living and working nearby, therefore exposing sensitive receptors in the area to pollutant concentrations and causing a significant impact. However, the program EIR outlines mitigation measures that will be implemented to reduce the impact to an acceptable level (Mitigation Measure 40). The proposed Amendment #1 to the Facilities Master Plan Update would not change the level of construction emissions. There would be no additional impact. No additional mitigation is required.
- e. The proposed Amendment #1 to the Facilities Master Plan Update would not create odors. There would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**IV. BIOLOGICAL RESOURCES.** Would the project:

- |    |   |                          |                          |                          |                                     |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special-status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marshes, vernal pools, coastal wetlands, etc.) through direct removal, filling, hydrological interruption, or other means?                                 | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
e. Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f. Conflict with the provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on biological resources are analyzed on pages III-68 through III-79 of the 1994 Supplement.

## Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that the build out could result in the loss of foraging habitat for Swainson's Hawk, a state-listed threatened species, but found that mitigation measures identified in the program EIR would reduce the impact to a less-than-significant level. The proposed Amendment #1 to the Facilities Master Plan update will not create an additional impact. No additional mitigation is required.
- b. The Village One Specific Plan program EIR did not find that any riparian habitat or other designated sensitive natural community was present in the project area, and so found that the project would have a less-than-significant impact. The proposed Amendment #1 to the Facilities Master Plan Update would not change the boundaries of the Specific Plan area. There would be no impact. No mitigation is required.
- c. The Village One Specific Plan program EIR found that build out of the Village One Specific Plan area would result in the loss of lands that might be classified as wetlands by the U.S. Army Corps of Engineers but that, with mitigation, the impact would be less than significant. The proposed Amendment # 1 to the Facilities Master Plan Update would not change the Specific Plan area boundaries or the areas that would be disturbed. There would be no additional impact. No mitigation is required.
- d. The Village One Specific Plan program EIR did not identify any migratory corridors in the project area, nor did it find that the project would interfere with the movement of any species. The proposed Amendment # 1 to the Facilities Master Plan Update would not change the Specific Plan area boundaries. There would be no impact. No mitigation is required.
- e. / f. No local biological resource protection policies, ordinances, habitat conservation plans, or natural community conservation plans apply to the Village One Specific Plan area. There would be no impact. No mitigation is required.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
<b>V. CULTURAL RESOURCES.</b> Would the project:				
a. Cause a substantial adverse change in the significance of a historical resource as defined in Section 15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Cause a substantial adverse change in the significance of an archaeological resource pursuant to Section 15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c. Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Disturb any human remains, including those interred outside of formal cemeteries?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

## Responses to Checklist Questions

- a.-d. Impacts on cultural resources resulting from the build out of Village One (e.g., from construction of associated infrastructure) are addressed in the Opportunities/Constraints Report prepared for the Modesto Planning Commission (December 1, 1989). The report concluded that there are no known historic, archaeological, or paleontological resources in the Village One Specific Plan area. Based on the results of this report, (Cultural and Historic Resources Report, page 3) it was determined that the likelihood that the proposed residential development would change or disturb human remains or significant historic, archaeological, or paleontological resources was low.

The proposed Amendment #1 to the Facilities Master Plan Update would not change the locations or types of construction in the project area nor the boundaries of the project area. Development of the proposed project will not result in effects on scattered existing structures. No historic structures are located within the project area boundaries. Therefore, no mitigation measures are necessary.

Since no archaeological, or paleontological resources were found in the previous document to be located in the project area, and since the proposed Amendment #1 to the Facilities Master Plan Update would not have a significant impact on historic structures, there would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**VI. GEOLOGY AND SOILS.** Would the project:

- |    |  |                          |                          |                          |                                     |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving:  |                          |                          |                          |                                     |
|    | 1. Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
|    | 2. Strong seismic groundshaking?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
|    | 3. Seismic-related ground failure, including liquefaction?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
|    | 4. Landslides?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Result in substantial soil erosion or the loss of topsoil?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Be located on a geologic unit or soil that is unstable or that would become unstable as a result of the project and potentially result in an onsite or offsite landslide, lateral spreading, subsidence, liquefaction, or collapse?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e. | Have soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts associated with geology and soils are analyzed on pages III-105 through III-108 of the 1994 Supplement.

## Responses to Checklist Questions

- a.-d. The program EIR, as supplemented, found that the project area is not subject to geologic or soil-related hazards that cannot be adequately mitigated through the implementation of existing city regulations, such as the building code. No significant impacts were identified, and no mitigation measures were required. The proposed Amendment #1 to the Facilities Master Plan Update would not change the locations or types of construction in the project area nor the boundaries of the project area. There would be no additional impact. No mitigation is required.
- e. The Village One Specific Plan included provisions for the project to be served by public sewers. No septic tanks or alternative wastewater systems were proposed. The proposed Amendment #1 to the Facilities Master Plan Update would not change the proposed method of wastewater disposal. There would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

### VII. HAZARDS AND HAZARDOUS MATERIALS.

Would the project:

- |    |  |                          |                          |                          |                                     |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Emit hazardous emissions or involve handling hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Be located on a site that is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?                   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e. | Be located within an airport land use plan area or, where such a plan has not been adopted, be within two miles of a public airport or public use airport, and result in a safety hazard for people residing or working in the project area? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
f. Be located within the vicinity of a private airstrip and result in a safety hazard for people residing or working in the project area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g. Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
h. Expose people or structures to a significant risk of loss, injury, or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with hazards and hazardous materials are analyzed on pages III-80 through III-94 and III-109 through III-119 of the 1994 Supplement.

## Responses to Checklist Questions

- a.-c. The Village One Specific Plan does not allow any land uses that would use hazardous materials. The proposed Amendment #1 to the Facilities Master Plan Update would not change land uses contemplated by the Specific Plan. There would be no impact. No mitigation is required.
- d. The Village One Specific Plan program EIR, as supplemented, found no hazardous materials were stored at or near the project site. No significant impacts were identified, and no mitigation measures were required. There would be no additional impact. No mitigation is required.
- e. The Village One Specific Plan area is not located in an airport land use plan area or within 2 miles of a public airport. There would be no impact. No mitigation is required.
- f. The Village One Specific Plan program EIR found that a private airstrip, the Eastside Mosquito Abatement District Airstrip, is located to the east of the Village One Specific Plan area. However, take-offs and landings were found to take place parallel to and outside the Specific Plan area boundaries, and flight patterns are generally situated to the east of the Specific Plan area. There would be no additional impact. No mitigation is required.
- g. Since the adoption of the Village One Specific Plan, the Modesto General Plan has been updated to include development of Village One consistent with the specific plan. City emergency plans are developed with the assumption that the Village One Specific Plan will be implemented. The proposed Amendment #1 to

the Facilities Master Plan Update would not change construction, land use, or other physical attributes of the project. There would be no additional impact. No mitigation is required.

- h. The project site is located in an area of the City of Modesto planned for build out of an urban neighborhood. The potential for wild land fires is low, and this potential will decrease further as build out continues. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

**VIII. HYDROLOGY AND WATER QUALITY.**

Would the project:

a.	Violate any water quality standards or waste discharge requirements?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b.	Substantially deplete groundwater supplies or interfere substantially with groundwater recharge, resulting in a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level that would not support existing land uses or planned uses for which permits have been granted)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c.	Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner that would result in substantial erosion or siltation onsite or offsite?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d.	Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner that would result in flooding onsite or offsite?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
e.	Create or contribute runoff water that would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
f.	Otherwise substantially degrade water quality?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
g. Place housing within a 100-year flood hazard area, as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
h. Place within a 100-year flood hazard area structures that would impede or redirect flood flows?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
i. Expose people or structures to a significant risk of loss, injury, or death involving flooding, including flooding as a result of the failure of a levee or dam?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
j. Contribute to inundation by seiche, tsunami, or mudflow?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with hydrology are analyzed on pages III-109 through III-119 of the 1994 Supplement.

## Responses to Checklist Questions

- a. The Village One Specific Plan program EIR did not find that residential development would violate any water quality standards or waste discharge requirements. The proposed Amendment #1 to the Facilities Master Plan Update is consistent with the Village One Specific Plan, so there would be no additional impacts. No mitigation is required.
- b. The Village One Specific Plan program EIR found that build out of the Village One Specific Plan area might interfere with local groundwater recharge. The Amendment #1 to the Facilities Master Plan Update will have no affect on the groundwater recharge. No mitigation is required.
- c.-e. The Village One Specific Plan program EIR found that development will substantially alter the existing drainage pattern of the area but, because the project will incorporate an urban storm drain system, will not result in any erosion impacts.

A requirement of the Storm Drainage Master Plan (SDMP) and the Village One Facilities Plan Update of May 2003 (VI FMP) is that a 6 acre-foot storm water detention area would be needed in the vicinity of Freedom Neighborhood Park. It was determined that this requirement would not be feasible. The City retained CDM to determine if there was a way to reduce the storm water storage requirement. In response, CDM modeled several different scenarios and prepared a document entitled "Addendum to the Storm Drainage Master Plan Update Report for the Village One Community Facilities District of April 26, 2002" prepared June 14, 2004. This report documents the different scenarios that

were modeled and the various options available to the City. Condition #2 is the scenario recommended by staff and seems to be the most feasible option. In this scenario, the 6 acre-foot retention of storm water in the vicinity of Freedom Neighborhood Park is decreased to 0.5 acre-feet of detention (basically detaining the storm water that falls in the park). In addition, Condition #2 eliminates the need for the 36" overflow pipe from Fine Avenue to the park site.

Per the CDM addendum, Condition #2 will result in the following change in the level of service of the storm drain system:

- 1) There will be short-term ponding in the sub graded field area of Freedom Elementary School.
- 2) Street ponding volume and duration will increase but remain at an acceptable level.

The ponding at Junction C-121 and C-123 will be contained in the public right-of-way for a 10-year storm event and will be very short term (approx 25 minutes). The impact of the proposed Amendment #1 to the Facilities Master Plan is negligible. No mitigation is required.

- f. The Village One Specific Plan program EIR did not find that development would substantially degrade water quality. The proposed Amendment #1 to the Facilities Master Plan Update would not change water use or discharge associated with the build out of the Village One Specific Plan area. There would be no additional impact. No mitigation is required.
- g.-i. According to the Village One Specific Plan program EIR, the project site is not situated in a 100-year flood hazard area or downstream from a levee or dam. There would be no impact. No mitigation is required.
- j. The project site is located in a flat, inland area not susceptible to seiche, tsunami, or mudflow. There would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

**IX. LAND USE AND PLANNING.** Would the project:

- |  |                          |                          |                          |                                     |
|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. Physically divide an established community?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. Conflict with any applicable land use plan, policy, or regulation of an agency with jurisdiction over the project (including, but not | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

limited to, a general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect?

- c. Conflict with any applicable habitat conservation plan or natural community conservation plan?

Impacts associated with land use and planning are analyzed on pages III-80 through III-94 of the 1994 Supplement.

## Responses to Checklist Questions

- a. The proposed project would not result in any physical changes to the environment beyond those described in the Village One Specific Plan. The Village One area would continue to be developed as a planned community; therefore, the project would not divide an established community. There would be no impact, and no mitigation is required.
- b., c. The Village One Specific Plan has been adopted by the City of Modesto and has been incorporated into the Modesto General Plan. The proposed Amendment #1 to the Facilities Master Plan Update would be consistent with the Village One Specific Plan. There are no other applicable land use or conservation plans for the project area. There would be no impact. No mitigation is required.

- |  | Potentially Significant Impact | Less than Significant with Mitigation | Less-than-Significant Impact | No Impact                           |
|--|--------------------------------|---------------------------------------|------------------------------|-------------------------------------|
| <b>X. MINERAL RESOURCES.</b> Would the project:  |                                |                                       |                              |                                     |
| a. Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?                                 | <input type="checkbox"/>       | <input type="checkbox"/>              | <input type="checkbox"/>     | <input checked="" type="checkbox"/> |
| b. Result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan? | <input type="checkbox"/>       | <input type="checkbox"/>              | <input type="checkbox"/>     | <input checked="" type="checkbox"/> |

## Responses to Checklist Questions

- a., b. No known mineral resources or important recovery sites are located in the Village One Specific Plan Area. There would be no impact. No mitigation is required.

		Potentially Significant Impact	Less than Significant with Mitigation	Less-than- Significant Impact	No Impact
<b>XI. NOISE.</b>	Would the project:				
c.	Result in a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d.	Result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e.	Be located within an airport land use plan area, or, where such a plan has not been adopted, within two miles of a public airport or public use airport and expose people residing or working in the project area to excessive noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f.	Be located in the vicinity of a private airstrip and expose people residing or working in the project area to excessive noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with noise are analyzed on pages III-55 through III-67 of the 1994 Supplement.

## Responses to Checklist Questions

- a., c. The Village One Specific Plan program EIR found that proposed residential housing in the project area would be exposed to noise levels exceeding general plan thresholds, but mitigation measures were incorporated to reduce the impact to a less-than-significant level. The proposed project would not change project-related noise-generating activities. There would be no additional impact. No mitigation is required.
- b. The Village One Specific Plan program EIR found that the build out of Village One would not expose people to, or generate excessive, groundborne vibration or groundborne noise levels. There would be no impact. No mitigation is required.

- d. The proposed Amendment #1 to the Facilities Master Plan Update would not change construction activities. There would be no additional impact. No mitigation is required.
- e. The Village One Specific Plan program EIR found that the Village One Specific Plan area is not located in an airport land use plan area or within 2 miles of a public airport. There would be no impact. No mitigation is required.
- f. The Village One Specific Plan program EIR found that a private airstrip, the Eastside Mosquito Abatement District Airstrip, is located east of the Village One Specific Plan area. However, take-offs and landings take place parallel to and outside the Specific Plan boundaries, and flight patterns are generally situated east of the project area. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**XII. POPULATION AND HOUSING.** Would the project:

- |    |  |                          |                          |                          |                                     |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Induce substantial population growth in an area, either directly (e.g., by proposing new homes and businesses) or indirectly (e.g., through extension of roads or other infrastructure)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Displace a substantial number of existing housing units, necessitating the construction of replacement housing elsewhere?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Displace a substantial number of people, necessitating the construction of replacement housing elsewhere?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on population and housing are analyzed on pages III-95 through III-99 of the 1994 Supplement.

## Responses to Checklist Questions

- a.-c. The Village One Specific Plan program EIR found that build out of the Village One Specific Plan area would not result in significant adverse impacts on population and housing units. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**XIII. PUBLIC SERVICES.** Would the project:

- a. Result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities or a need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times, or other performance objectives for any of the following public services:

Fire protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Police protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Schools?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Parks?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Other public facilities?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on public services are analyzed on pages III-120 through III-158 of the 1994 Supplement.

## Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that the only significant impact that build out of the Village One Specific Plan area would have on public services would be in the areas of fire protection and law enforcement. Mitigation measures were identified in the program EIR to reduce the level of this impact to a less-than-significant level. No other significant impacts on public services were identified. The proposed Amendment #1 to the Facilities Master Plan Update would not change the provision of public services. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**XIV. RECREATION.** Would the project:

- |    |   |                          |                          |                          |                                     |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Include recreational facilities or require the construction or expansion of recreational facilities that might have an adverse physical effect on the environment?                        | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on recreation are analyzed on pages III-120 through III-158 of the 1994 Supplement.

## Responses to Checklist Questions

- a., b. No significant impacts on recreation were identified in the program EIR. The proposed project Amendment #1 to the Facilities Master Plan Update would not change the provision of parks and recreation facilities. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**XV. TRANSPORTATION/TRAFFIC.** Would the project:

- |    |   |                          |                          |                          |                                     |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Cause an increase in traffic that is substantial in relation to the existing traffic load and capacity of the street system (i.e., result in a substantial increase in the number of vehicle trips, the volume-to-capacity ratio on roads, or congestion at intersections)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Cause, either individually or cumulatively, exceedance of a LOS standard established by the county congestion management agency for designated roads or highways?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Result in a change in air traffic patterns, including an increase in traffic levels or a change in location that results in substantial safety risks?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Substantially increase hazards because of a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
e. Result in inadequate emergency access?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f. Result in inadequate parking capacity?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g. Conflict with adopted policies, plans, or programs supporting alternative transportation (e.g., bus turnouts, bicycle racks)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on transportation and traffic are analyzed on pages III-40 – III-44 of the 1994 Supplement.

## Responses to Checklist Questions

- a., b. The Village One Specific Plan program EIR found that build out of the Village One Specific Plan area would cause an increase in traffic that is substantial in relation to the existing traffic load and capacity of the street system and would affect level of service at several intersections. Mitigation measures identified in the program EIR were identified to reduce impacts to a less-than-significant level for all intersections except the Briggsmore Avenue/Oakdale Avenue intersection. For that intersection, the impact was determined to be significant and not mitigable. The City of Modesto made a statement of overriding considerations for that impact at the time it certified the 1994 Supplement. The proposed Amendment #1 to the Facilities Master Plan Update would not alter traffic patterns in the Specific Plan area or result in additional trips. There would be no additional impact. No mitigation is required.
- c. The Village One Specific Plan program EIR did not find that the build out of the Village One Specific Plan area would result in a change in air traffic patterns. The proposed Amendment #1 to the Facilities Master Plan Update does not include any elements that would affect air traffic patterns. There would be no impact. No mitigation is required.
- d. The Village One Specific Plan program EIR did not find that build out of the Village One Specific Plan area included any hazardous design features or increased any incompatible uses for roads in the project area. The proposed Amendment #1 to the Facilities Master Plan Update would not change roadway design or land uses. There would be no impact. No mitigation is required.
- e. The Village One Specific Plan program EIR did not find that build out of the Village One Specific Plan area would result in inadequate emergency access in the Specific Plan area. The Specific Plan includes provision of adequate roadways to serve the Village One development. The proposed Amendment #1 to the Facilities Master Plan Update would not change roadway design or land uses contained within the Specific Plan. There would be no additional impact. No mitigation is required.

- f. The Village One Specific Plan program EIR did not find that build out of the Village One Specific Plan area would result in inadequate parking capacity in the Specific Plan area. The proposed Amendment #1 to the Facilities Master Plan Update has no impact on parking capacity. No mitigation is required.
- g. The proposed Amendment #1 to the Facilities Master Plan Update does not include any changes related to transportation policies, and would have no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact

**XVI. UTILITIES AND SERVICE SYSTEMS.**

Would the project:

- |    |   |                          |                          |                          |                                     |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?                           | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Require or result in the construction of new storm water drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?                                    | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Have sufficient water supplies available to serve the project from existing entitlements and resources, or would new or expanded entitlements be needed?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e. | Result in a determination by the wastewater treatment provider that serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f. | Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| g. | Comply with federal, state, and local statutes and regulations related to solid waste?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on utilities and service systems are analyzed on pages III-120 through III-158 of the 1994 Supplement.

## Responses to Checklist Questions

- a. The City provides sewer services to the Village One area. All wastewater would be directed to city wastewater treatment facilities. No wastewater discharges would occur in the project area. The proposed Amendment #1 to the Facilities Master Plan Update would not increase the amount of wastewater that will be generated at build out of the Specific Plan area. There would be no additional impact. No mitigation is required.
- b., e. The Village One Specific Plan program EIR discusses the changes and new facilities that will be needed to accommodate build out of the Village One Specific Plan area. The EIR found that, with mitigation, there would be no significant impact on water or wastewater infrastructure. There would be no additional impact as a result of the proposed Amendment #1 to the Facilities Master Plan Update. No mitigation is required.
- c. The Village One Specific Plan program EIR discusses the changes and new facilities that will be needed in order to accommodate build out of the Village One Specific Plan area. The EIR found that, with mitigation, there would be no significant impact on storm water drainage facilities. An update to the Storm Drainage Master Plan was prepared and approved by the City. An addendum to the Village One program EIR for the Storm Drainage Master Plan was also prepared and was approved by the City. The project would not result in any additional impacts or the need for any additional mitigation beyond that assessed in the Addendum to the Village One Program EIR for the Storm Drainage Master Plan.
- d. The Village One Specific Plan program EIR found that, with mitigation, the effects of build out of the Village One Specific Plan area on water supply would be less than significant. There would be no additional impact resulting from the proposed Amendment #1 to the Facilities Master Plan Update. No mitigation is required.
- f., g. The Village One Specific Plan program EIR found that the area's landfills have sufficient permitted capacity to accommodate the project's solid waste disposal needs. The proposed Amendment #1 to the Facilities Master Plan Update would not result in any physical changes in the environment or the generation of any additional solid waste. There would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**XVII. MANDATORY FINDINGS OF SIGNIFICANCE.**

- |    |  |                          |                          |                          |                                     |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Does the project have impacts that are individually limited but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.)   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Does the project have environmental effects that will cause substantial adverse effects on human beings, either directly or indirectly?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Cumulative impacts are analyzed on page III-161 of the 1994 Supplement.

**Responses to Checklist Questions**

- a. As described above, the proposed project would not result in any significant impacts on the environment over and above those associated with implementation of the Village One Specific Plan and as analyzed in the Village One Specific Plan program EIR.
- b. As described above, the proposed project would not result in any significant impacts, either on a project or on cumulative level, over and above those associated with implementation of the Village One Specific Plan and as analyzed in the Village One Specific Plan program EIR.
- c. As described above, the proposed project would not result in any significant impacts affecting humans over and above those associated with implementation of the Village One Specific Plan and as analyzed in the Village One Specific Plan program EIR.

## **V. MITIGATION APPLIED TO PROJECT**

None

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-647**

**A RESOLUTION APPROVING THE PROPOSED AMENDMENT #1 TO THE  
VILLAGE ONE FACILITIES MASTER PLAN UPDATE (MAY 2003).**

WHEREAS, on May 6, 2003, the City Council adopted Resolution No. 2003-223 which adopted the Village One Facilities Master Plan Update – May 2003 (“VI FMP”), and

WHEREAS, Chapter 5 in the text portion of the V1 FMP discusses the Storm Drainage System and refers to the Storm Drainage Master Plan (“SDMP”) prepared by Camp Dresser & McKee (“CDM”), and

WHEREAS, a requirement of the SDMP and the VI FMP is that a 6 acre-foot storm water detention area would be needed in the vicinity of Freedom Neighborhood Park; however, very early in the design process for Freedom Neighborhood Park it was determined that this requirement would not be feasible and should not have been included in the plan, and

WHEREAS, Freedom Neighborhood Park is designated in the Village One Specific Plan and Precise Plan #29 as a seven-acre neighborhood park, and holding 6 acre-feet of water on this park would seriously impact the recreational value of the park, and

WHEREAS, in order to accommodate the 6 acre-feet of storm water, it would be necessary to increase the size of the park, and

WHEREAS, the City retained CDM to determine if there was a way to reduce the storm water storage requirement; in response, CDM modeled several different scenarios and prepared a document entitled “Addendum to the Storm Drainage Master Plan Update

Report for the Village One Community Facilities District of April 26, 2002”, prepared June 14, 2004, and

WHEREAS, this report documents the different scenarios that were modeled and the various options available to the City, and

WHEREAS, Condition #2 is the scenario recommended by staff, as it seems to be the most feasible option; in this scenario, the 6 acre-foot detention of storm water in the vicinity of Freedom Neighborhood Park is decreased to 0.5 acre-feet of retention (basically detaining the storm water that falls in the park), and the need for the 36” overflow pipe from Fine Avenue to the park site is eliminated,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the proposed Amendment #1 to the Village One Facilities Master Plan Update (May 2003), a copy of which is attached hereto as **Exhibit “A”** and incorporated herein by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of December, 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O’Bryant

NOES: Councilmembers: None

ABSENT: Councilmembers: Mayor Ridenour

Attest: Jean Zahr  
JEAN ZAHR, City Clerk

APPROVED AS TO FORM:

By: Michael D. Milich  
MICHAEL D. MILICH, City Attorney

**Addendum**

**to the**

**Storm Drainage Master Plan Update Report  
for the Village One Community Facilities District  
of April 26, 2002**

**Prepared June 14, 2004**

## Introduction

The purpose of the Storm Drainage Master Plan Update report, prepared by CDM in April 2002, was to ensure adequate storm drainage system capacity for existing and future users, and to provide uniform guidelines for designing the remaining storm drainage facilities in Village One.

Recommended improvements in the Master Plan Update report included a deep West Basin, a West Basin Pump Station, a force main from the West Basin to the Central Basin, an improved Central Basin, a Central Basin Pump Station, a force main from the Central Basin to Modesto Irrigation District Lateral No.3, a new detention basin north of Sylvan Avenue near Esta Avenue, a new detention basin near Merle Avenue and Fine Avenue, a new detention basin north of Merle Avenue near Litt Road, a 60-inch pipe on Hillglen Avenue from Roselle Avenue to Esta Avenue, 36-inch and 48-inch pipe on Kodiak Drive west of Roselle Avenue, a 30-inch pipe at the west end of Hillglen Avenue, a 36-inch pipe west of Fine Avenue to the new detention basin north of Merle Avenue near Litt Road, a 24-inch pipe on Litt Road north of Merle Avenue, and a 60-inch pipe from Merle Avenue to the Central Basin. These recommended improvements are shown on Figure 9 in the April 2002 report, attached.

The purpose of this addendum is to evaluate the 10-year flooding conditions with a small detention basin in the new park near Junction C-165, and without a 36-inch pipe west from Fine Avenue to the small detention basin. The detention basin volume reduction and pipe deletion are different from the recommendations presented in the Master Plan Update Report of April 2002.

## Recent Improvements to the Storm Drainage System

Residential, school and park development has occurred during the past two years. Listed below are improvements that have or will be made to the storm drainage system that are different from, or in addition to, the recommendations presented in the April 2002 report.

- An 18-inch pipe approximately 350 feet in length on Merle Avenue from Junction C-106 to Junction C-6. (Orleans Tract).
- An 18-inch pipe crossing Merle Avenue from Junction C-108A to Junction C-108. (Orleans Tract).

- A 24-inch pipe in Fine Avenue that conveys runoff to Junction C-161 at Sharon Avenue. (Banyon Estates).

## **Proposed Improvements to the Storm Drainage System**

In addition to the above described improvements, changes to the recommendations presented in the Master Plan Update Report of April 2002 have been proposed. These changes are:

- Deletion of the 36-inch pipe from Fine Avenue to the detention basin at the park site near Junction C-165.
- Reduction in size of the 6 acre-foot detention basin at the park site near Junction C-165.

## **Stormwater Model**

The EPA Storm Water Management Model (SWMM) was used to model the storm drainage system at Village One for the preparation of the Master Plan Update Report of April 2002. In order to evaluate the effectiveness of the system with the improvements described above, the subwatersheds, pipes and detention basins in the SWMM model were updated to represent the recently constructed improvements and changes to proposed improvements. Model simulations were then performed for the following conditions:

- Condition 1 0.5 acre-foot detention basin at Junction C-165.  
Ultimate land use for all lands in Village One.  
Stormwaters from the 40 acres bounded by Merle Avenue, Fine Avenue, Sharon Avenue and Claus Road will be diverted to a future detention basin east of Fine Avenue. The existing 36-inch pipe on Fine Avenue will drain into the future detention basin.
- Condition 2 0.5 acre-foot detention basin at Junction C-165.  
Ultimate land use for all lands in Village One, except for the 40 acres bounded by Merle Avenue, Fine Avenue, Sharon Avenue and Claus Road where there will be existing land use.  
For these 40 acres, stormwaters from the 20 acres along the east side of Fine Avenue will enter the existing 36-inch pipe on Fine Avenue. Stormwaters from the 20 acres along the west side of Claus Road will be retained on site.

Condition 3 Same as Condition 1, except a 2.0 acre-foot detention basin at Junction C-165.

Condition 4 Same as Condition 2, except a 2.0 acre-foot detention basin at Junction C-165.

## **Model Results**

The results of the SWMM simulations are listed below and are shown on Figures 1 and 2.

### ***Condition 1***

The storm drainage system can accommodate runoff from the 10-year storm. The locations where there will be ponding in the street during a 10-year storm are the same as in the April 2002 report. The street ponding volumes at these locations will be 4,000 cubic feet or less. The volume of the future detention basin west of Fine Avenue will need to be approximately 11 acre-feet.

With a 0.5 acre-foot detention basin at Junction C-165 the pipe from Junction C-165 to Junction C-109 can be downsized from 24-inch to 12-inch. There is no benefit of the 0.5 acre-foot detention basin downstream of Junction C-109.

### ***Condition 2***

The 36-inch pipe in Fine Avenue from Sharon Avenue to Merle Avenue cannot accommodate the 10-year flow. The ponding volumes will be larger than the volumes given in the April 2002 report. During the 10-year storm approximately 3,000 cubic feet of ponding will occur in the excavated play area at the south side of Elementary School #8, and approximately 3,000 cubic feet of ponding will occur in the streets located northeast of the intersection of Fine and Sharon Avenues.

There will be greater flow in the 42-inch pipe in Merle Avenue west of Fine Avenue than there would be with the improvements recommended in the Master Plan Update Report. This greater flow results in ponding upstream of the intersection of Fine and Merle Avenues. During the 10-year storm there will be approximately 9,900 cubic feet of street ponding at Junction C-121, and 5,200 cubic feet of street ponding at Junction C-123.

With a 0.5 acre-foot detention basin at Junction C-165, the pipe from Junction C-165 to Junction C-109 can be downsized from 24-inches to 12-inches, which is the City's minimum pipe size.

### ***Condition 3***

The results of Condition 1 indicate that the storm drainage system can accommodate runoff from the 10-year storm. By enlarging the detention basin from 0.5 acre-feet to 2.0 acre-feet there will be no benefit.

### ***Condition 4***

The results of Condition 2 indicate that the storm drainage system located west of Junction C-109 can accommodate runoff from the 10-year storm. By enlarging the detention basin from 0.5 acre-feet to 2.0 acre-feet there will be no benefit.

## **Findings and Conclusions**

### ***Conditions 1 and 2***

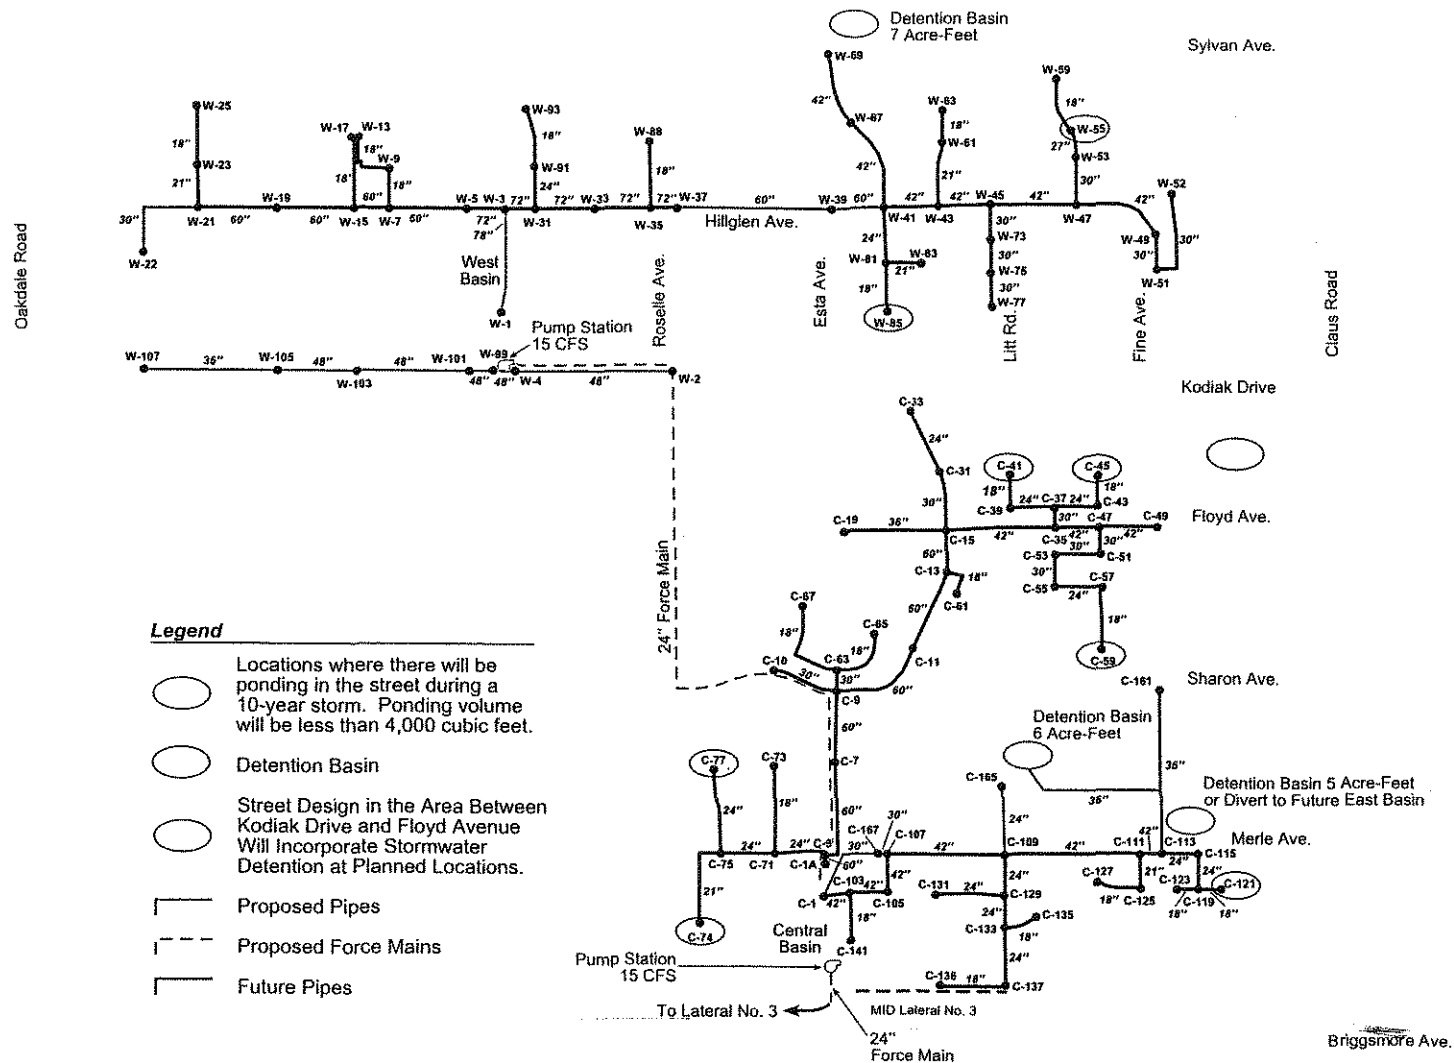

- The street elevations in the area northeast of the intersection of Fine and Sharon Avenues should be at elevations appropriate for gravity flow to the existing 36-inch pipe at Junction C-161.
- Pumping may be needed to empty the future detention basin between Fine Avenue and Claus Road because ground elevations increase toward the east.

### ***Condition 2***

- The duration of the ponding at the excavated play area at the south side of Elementary School #8 will be less than 15 minutes during the 10-year storm. The ponding volume of approximately 3,000 cubic feet can be accommodated in the play area that has a capacity of more than 35,000 cubic feet.
- During the 10-year storm, the volume of street ponding at Junction C-121 will increase from approximately the 3,500 cubic feet in the April 2002 report to approximately 9,800 cubic feet. Also the volume of street ponding at Junction C-123 will increase from approximately 1,000 to 5,000 cubic feet.
- During the 10-year storm, the duration of street ponding at Junction C-121 and C-123 will increase from approximately 15 to 25 minutes.
- As development occurs in the 40 acres bounded by Merle Avenue, Fine Avenue, Sharon Avenue and Claus Road, stormwaters from the developments will need to be drained to a future detention basin east of Fine Avenue.

## **Conditions and Limitations**

The conditions and limitations stated in the Storm Drainage Master Plan Update Report of April 2002 also apply to this addendum.

This figure is from the April 26, 2000 Report

Condition 2

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-648**

**A RESOLUTION APPROVING A DEVELOPMENT PLAN FOR PLANNED DEVELOPMENT ZONE, P-D(569). (JAMES AND SUSAN COLEMAN)**

WHEREAS, a verified application for an amendment to Section 23-3-9 of the Zoning Map was filed by James and Susan Coleman on June 15, 2004, to reclassify from Low Density Residential (R-1) Zone to Planned Development Zone, P-D(569), to allow the development of 12 custom homes, property located on the south side of Scenic Drive, east of Scenic Drive described as follows:

R-1 to P-D(569)

All that certain real property situated in the City of Modesto, County of Stanislaus, State of California, and being a portion of the Southwest Quarter of Section 23, Township 3 South, Range 9 East, Mount Diablo Base and Meridian, more particularly described as follows:

All of Parcel "A" as per Parcel Map filed on March 1, 1972 in Book 13 of Parcel Maps, at Page 85, Stanislaus County Records.

Also including that half of Scenic Drive and that half of Scenic Bend immediately adjacent to the above described property.

and

WHEREAS, after a public hearing held on October 18, 2004, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, it was found and determined by the Planning Commission, by its Resolution No. 2004-63, that rezoning of the property as requested is required by public necessity, convenience, and general welfare for the following reasons:

1. The proposed custom homes are consistent with the current General Plan land use designation for the site.
2. The proposed custom homes are compatible with the adjacent land uses along Scenic Bend.

and

WHEREAS, said matter was set for a public hearing of the City Council to be held on December 7, 2004, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing was held, and

WHEREAS, after said public hearing the Council found and determined that the application of James and Susan Coleman for a Planned Development Zone should be granted as consonant with public necessity, convenience and general welfare for the reasons set forth in Planning Commission Resolution No. 2004-63 and quoted above, and

WHEREAS, the Council has introduced Ordinance No. 3372-C.S. on the 7<sup>th</sup> day of December, 2004, reclassifying the above-described property from Low Density Residential Zone, R-1, to Planned Development Zone, P-D(569),

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. DEVELOPMENT PLAN. The development plan for Planned Development Zone, P-D(569), is hereby approved subject to the following conditions:

1. All development shall conform to the plot plan and design guidelines titled "Coleman Custom Homes" as amended in red, stamped approved by the City Council on December 7, 2004.
2. Prior to the issuance of a building permit, a landscaping and irrigation plan shall be approved by the Parks, Recreation and Neighborhoods Director along Scenic Drive, Scenic Bend, and the front yard area. Landscaping and the irrigation system shall be installed and maintained in accordance with the approved plan.
3. Prior to the issuance of a building permit for any structure, a tentative map shall be approved and final subdivision map shall be recorded.
4. All landscaping, fences, and walls shall be maintained and the premises shall be kept free of weeds, trash, and other debris.

5. Prior to the issuance of a building permit, dedication along Scenic Drive to a modified 90-foot standard as approved by the Public Works Department and dedication of Scenic Bend shall be made consistent with Standard Specifications.
6. Prior to issuance of a building permit, the developer shall show on the plans submitted to Building Inspection all fire hydrants and plans with turning radius of the private street as required by the Fire Chief. All hydrants required by the Fire Chief shall be installed and operable prior to construction of any structures.
7. A five-foot-wide planting easement shall be provided along Scenic Bend as approved by the Public Works Department.
8. Prior to City Council approval of a final subdivision map the subdivider shall submit for approval by the City Attorney the articles of incorporation and bylaws, as well as all covenants, conditions, and restrictions which are to be recorded to create a homeowner's association which shall guarantee continued maintenance of the front yard area, which is demarcated on the site plan as the area between the street right-of-ways and the dashed line on the street-facing side of each dwelling unit. The Articles of Incorporation shall be filed with the Secretary of State prior to recordation of the final subdivision map. The covenants, conditions and restrictions shall be recorded prior to or concurrently with the final subdivision map.
9. The developer shall indemnify, defend and hold harmless the City of Modesto, its agents, officers, and employees from any and all claims, actions, or proceedings against the City of Modesto, its agents, officers, and employees to arbitrate, attack, review, set aside, void, or annul, any approval by the City of Modesto of a development approval. The City of Modesto shall promptly notify the developer of any claim, action, or proceeding and shall cooperate fully in the defense. If the City fails to do so, the developer shall not thereafter be responsible to defend, indemnify, or hold City harmless.
10. Prior to issuance of a Certificate of Occupancy, a seven-foot-high decorative masonry wall shall be installed along Scenic Drive and a neighborhood fence shall be installed along Scenic Bend as approved by the Community and Economic Development Director.

In addition to the above, the following conditions are mitigation measures from the Master Environmental Impact Report:

Air Quality Measures:

11. All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover.
12. All land clearing, grubbing, scraping, excavation, land leveling, grading, cut and fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.
13. When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.
14. All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. (The use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions. Use of blower devices is expressly forbidden.)
15. Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.
16. Within urban areas, trackout shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.
17. Install wheel washers for all exiting trucks, or wash off all trucks and equipment leaving the site;
18. Suspend excavation and grading activity when winds exceed 20 mph; and
19. Limit the area subject to excavation, grading and other construction activity at any one time.

Noise Measures:

20. The City's Noise Ordinance (Modesto Municipal Code Section 4-9.101) prohibits the "loud and raucous discharge into the open air

of the steam of any steam equipment or exhaust from any stationary internal-combustion engine.”

The Noise Ordinance prohibits the loud and raucous operation or use of any of the following before 7:00 a.m. or after 9:00 p.m. daily (except Saturday and Sunday and State or Federal holidays, when the prohibited time shall be before 9:00 a.m. and after 9:00 p.m.):

- A. A hammer, or any other device or implement used to pound or strike an object.
- B. An impact wrench, or other tool or equipment powered by compressed air.
- C. A hand-powered saw.
- D. Any tool or piece of equipment powered by an internal-combustion engine such as, but not limited to, chain saw, backpack blower, and lawn mower.
- E. Any electrically powered (whether by alternating current electricity or by direct current electricity) tool or piece of equipment used for cutting, drilling, or shaping wood, plastic, metal, or other materials or objects, such as, but not limited to, a saw, drill, lathe, or router.
- F. Any of the following: heavy equipment (such as but not limited to bulldozer, steam shovel, road grader, backhoe), ground drilling and boring equipment (such as but not limited to derrick or dredge), hydraulic crane and boom equipment, portable power generator or pump, pavement equipment (such as but not limited to pneumatic hammer, pavement breaker, tamper, compacting equipment), pile-driving equipment, vibrating roller, sand blaster, gunite machine, trencher, concrete truck, and hot kettle pump.
- G. Any construction, demolition, excavation, erection, alteration, or repair activity. In the case of urgent necessity and in the interest of public health and safety, the Chief Building Official may issue a permit for exemption from these. Such period shall not exceed three (3) working days in length while the emergency continues but may be renewed for successive periods of three (3) days or less while the emergency continues. The Chief Building Official may limit such permit as to time of use and/or permitted action, depending upon the nature of the emergency and the type of action requested.

- H. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields.
21. The City of Modesto shall require noise-reducing construction practices to be implemented as conditions of approval for development projects where substantial construction-related noise impacts would be likely to occur (e.g. where construction would include extended periods of pile driving, where construction would occur over an unusually long period, or where noise-sensitive uses like homes and schools would be in the immediate vicinity, etc.). The city should consider potential mitigation measures, including, but not limited to, the following;
- A. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields.
  - B. Other proposed uses: the noise/land use compatibility guidelines (i.e., those noise levels which are "conditionally acceptable," "normally Unacceptable," or "clearly unacceptable,") shown in Table 1 and the most recent noise contours for the City shown in Figure VII-1 [of the City's Urban Area General Plan].
22. For new single-family residential development within the  $L_{dn}$  65 contour, the City of Modesto shall require developers to demonstrate that the proposed development will incorporate measures to reduce noise impacts to a less-than-significant level, as follows:
- A. Where feasible and consistent with General Plan policy, incorporate setbacks and/or locate less-sensitive uses between a noise source and noise-sensitive uses.
  - B. Provide (to the extent feasible and consistent with General Plan policy) berms, barriers, or other techniques to shield noise-sensitive uses.

- C. Incorporate construction techniques to achieve an interior noise limit of 45 L<sub>dn</sub> (these potential techniques are presented in CCR Title 24 standards).

Archaeological or Historic Sites Measures:

23. For proposed development outside an identified archaeological resource study area (as depicted on Figure 8-1 in the 1995 Master EIR), no further research for prehistoric deposits is warranted unless specific information concerning the known or potential presence of significant cultural resources is identified in future updates at the applicable cultural resource information repository or through formal or informal input received from a qualified source. If previously unknown subsurface cultural resources are discovered during excavation activities, excavation would be temporarily halted and an archaeologist consulted as to the importance of the resources. Should the archaeologist determine that the resources are important, the project sponsor would follow the procedure described in Policy 2(a), above.
24. If archaeological resources are discovered at any time during construction, all activity shall cease until the site is surveyed by a qualified archaeologist. The survey shall include mitigation measures, which shall be implemented before construction resumes. The survey shall follow the criteria presented in Appendix K

Storm Drainage, Flooding, and Water Quality Measures:

25. The State Water Control Board and City of Modesto require a Storm Water Pollution Prevention Plan (SWPPP) to be developed prior to construction activity. A copy of the notice of intent (NOI) and SWPPP shall be required to obtain a grading permit if required by the Public Works Department.
26. The developer shall implement pre- and post-construction best management practices (BMPs) to minimize pollutants entering the storm system.

Schools Measures:

27. To the extent allowed by State law, annexation to the appropriate schools Community Facilities District will be required as a condition of final map approval. If this requirement cannot be enforced due to the status of State law, then prior to issuance of the first building permit or final map approval, whichever is earlier, the developer shall provide written verification from the affected school districts that a determination has been made as to whether the developer will pay the school fees in effect or annex to the appropriate Community Facilities District.

SECTION 2. DEVELOPMENT SCHEDULE. The following development schedule is hereby approved for said Planned Development Zone,

---

P-D(569):

The construction program be accomplished in phases as follows:

Construction to begin on or before December 7, 2006 and completion to be not later than December 7, 2007.

SECTION 3. CHANGES IN DEVELOPMENT PLAN. Any changes in the above approved development plan shall be made in accordance with the provisions of Section 10-2.1709 of the Modesto Municipal Code.

SECTION 4. COMPLIANCE WITH CODE PROVISIONS, ETC. In all other respects said planned development shall be accomplished in accordance with and in strict adherence to the provisions of Article 17 of Title 10 of the Modesto Municipal Code relating to Planned Development Zones and other applicable City laws, rules, regulations and procedures.

SECTION 5. EFFECTIVE DATE. This resolution shall not become effective unless and until the ordinance reclassifying the above-described property to Planned Development Zone, P-D(569), becomes effective.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of December, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant

NOES: Councilmembers: None

ABSENT: Councilmembers: Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-649**

**A RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 1999082041): AMENDING SECTION 23-3-9 OF THE ZONING MAP TO REZONE FROM LOW-DENSITY RESIDENTIAL ZONE, R-1, TO PLANNED DEVELOPMENT ZONE, P-D(569), PROPERTY LOCATED ON THE SOUTH SIDE OF SCENIC DRIVE, EAST OF SCENIC BEND (JAMES AND SUSAN COLEMAN)**

WHEREAS, on March 4, 2003, the City Council of the City of Modesto certified the Final Master Environmental Impact Report (“Master EIR”) (SCH No. 1999082041) for the Modesto Urban Area General Plan, and

WHEREAS, James and Susan Coleman have proposed that the zoning designation for the property located on the south side of Scenic Drive, east of Scenic Bend be amended to rezone from Low-Density Residential Zone, R-1, to Planned Development Zone, P-D(569), in the City of Modesto (the “project”), to allow a 12 unit custom homes, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a Master EIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the master environmental impact report and whether the subsequent project was described in the master environmental impact report as being within the scope of the project, and

WHEREAS, the City’s Community & Economic Development Department by Environmental Assessment Initial Study EA/C&ED 2004-57 reviewed the proposed amendment to the Zoning Map and rezone P-D(569) project to determine whether the

project is within the scope of the project covered by the Modesto Urban Area General Plan Master EIR (“Master EIR”), and made the determination that the proposed project will have no additional significant effect on the environment that was not identified in the Master EIR, and further, that no new or additional mitigation measures or alternatives are required, and that, therefore, the proposed project is within the scope of the project covered by the Master EIR, and

WHEREAS, in accordance with CEQA guidelines beginning on November 5, 2004, the City caused to be published a 20-day notice of the City’s intent to make a finding that the proposed project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on December 7, 2004, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed amendment to the Zoning Map and rezone to P-D(569) project, a copy of which is attached hereto as **Exhibit “A”**, and incorporated herein by reference, and based on the substantial evidence included in said Initial Study makes the following findings:

1. The type of project is described in Chapter II of the Master EIR (SCH No. 1999082041).
2. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the project or otherwise made conditions of approval of the project.
3. An Initial Study was prepared by the City of Modesto that analyzed whether the proposed subsequent project may cause any significant effect on the environment that was not examined in the MEIR and it has been determined that the project was described in the MEIR as being within the scope of the MEIR.

4. Based on the Initial Study, the City of Modesto finds and determines:
  - a. The proposed subsequent project will have no additional significant effect as defined in CEQA Section 21158 that was not identified in the MEIR.
  - b. No new or additional mitigation measures or alternatives are required.
  - c. The project is within the scope of the MEIR.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of December, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant

NOES: Councilmembers: None

EXHIBIT A  
Initial Study  
EA/C&ED 2004-57

**City of Modesto**

**Finding of Conformance to the  
General Plan Master EIR:**

**Initial Study C&ED No. (2004-57)**

**For the proposed:**

**PDZ- COLEMAN**

**Prepared by:  
City of Modesto  
Community & Economic Development Department  
Planning Division**

**September 30, 2004**

**City of Modesto  
Master EIR Initial Study Checklist**

**I. PURPOSE**

CEQA allows for the limited environmental review of subsequent projects under the City's Master EIR. This Initial Study Checklist is used in determining whether the proposed Planned Development for new single family homes is "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 1999082041) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformity.

A subsequent project is "within the scope" of the Master EIR when:

1. it will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and
2. no new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect by the Master EIR. (Public Resources Code Section 21158(d))

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (State CEQA Guidelines Section 15384)

**II. PROJECT DESCRIPTION**

- A. Title: Rezone to Planned Development to develop single-family homes
- B. Address or Location: South Side of Scenic Avenue, East of Scenic Bend
- C. Applicant: James and Susan Coleman, 2702 Scenic Bend, Modesto, Ca. 95355
- D. City Contact Person: Paul Liu

Project Manager: Paul Liu  
Department: Community and Economic Development Department  
Phone Number: (209) 577-5267  
E-mail address: pliu@modestogov.com

- E. Current General Plan Designation(s): (R) Residential
- F. Current Zoning Classification(s): (R-1) Low-Density Residential

- G. Surrounding Land Uses: North: Single Family Residential  
South: Single Family Residential, there are large parcels southwest of the project site  
East: Single Family Residential  
West: Single Family Residential

- H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR (Attach additional maps/support materials as needed for complete record):

This is an application to rezone 4.71 acres from R-1, Low Density Residential to P-D, Planned Development for 12 custom single family homes served by a private street. A tentative subdivision map would follow to formally create the individual lots. The tentative map would be covered by this environmental document if it is consistent with the approve P-D approval.

- I. Other Public Agencies Whose Approval is Required:

None

### III. FINDINGS/DETERMINATION (SELECT ONE ON THE BASIS OF THE ANALYSIS IN SECTION IV)

1.  **Within the Scope** - The project is within the scope of the Master EIR and no new environmental document or Public Resources Code Section 21081 findings are required. The following items are found to be true:

- A. The type of project is described in Chapter II of the Master EIR.
- B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the project or otherwise made conditions of approval of the project.
- C. An Initial Study was prepared by the City of Modesto that analyzed whether the proposed subsequent project may cause any significant effect on the environment that was not examined in the MEIR and it has been determined that the project was described in the MEIR as being within the scope of the MEIR.
- D. Based on the Initial Study, the City of Modesto finds and determines:
  - a) The proposed subsequent project will have no additional significant effect as defined in CEQA Section 21158 that was not identified in the MEIR.
  - b) No new or additional mitigation measures or alternatives are required.
  - c) The project is within the scope of the MEIR
- E. The criteria for currency of the Master EIR were reviewed (section 5 below) and it was determined that the Master EIR is current for all areas of the Initial Study.

2.  **Mitigated Negative Declaration Required** - On the basis of the above determinations, the project is not within the scope of the Master EIR. A mitigated negative declaration will be prepared for the project. The following items are found to be true:

- A. The type of project is described in Chapter II of the Master EIR.
  - B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the project or otherwise made conditions of approval of the project.
  - C. The project will have one or more potential new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures are being required of the project that will reduce the effects to a less-than-significant level.
3.      **Focused EIR Required-** On the basis of the above determinations, the project is not within the scope of the Master EIR. A Focused EIR will be prepared for the project. The following items are found to be true:
- A. The type of project is described in Chapter II of the Master EIR.
  - B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the project or otherwise made conditions of approval of the project.
  - C. The project will have one or more new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures or alternatives are required as a result.

Paul J. Fin  
Project Manager

Associate Planner 10-1-04  
Title Date

#### 4. Within the Scope Analysis of this Document:

The Master EIR permits projects to be found within the scope of the MEIR if certain criteria are met. Basically, if the following statements are found to be true for all 20 sections of this Initial Study, then the project was covered by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

- |   | YES | NO                       |
|---|-----|--------------------------|
| (1) The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.  | X   | <input type="checkbox"/> |
| (2) City policies which reduce, avoid or mitigate environmental effects, will continue to be in effect and therefore would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures attached to the Initial Study template.         | X   | <input type="checkbox"/> |
| (3) Federal, State, Regional and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).  | X   | <input type="checkbox"/> |
| (4) No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources outside of the scope of the information identified in the Master EIR. | X   | <input type="checkbox"/> |
| (5) The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.  | X   | <input type="checkbox"/> |
| (6) Development within the project will comply with all mitigation measures identified in the General Plan Master EIR.  | X   | <input type="checkbox"/> |

#### 5. Currency of the Master EIR Document

The MEIR should be reviewed on a regular basis to determine its currency, and whether additional analysis/mitigation should be incorporated into the MEIR via a Supplemental or Subsequent EIR (CEQA Section 21157.6). Staff has reviewed sections 1 through 20 of this document in light of the criteria listed below to determine whether the MEIR is current. The analysis contained within the Master EIR is current as long as the following circumstances have not changed. Any no response must be discussed.

- |   | YES | NO                       |
|---|-----|--------------------------|
| (1) Certification of the General Plan Master EIR occurred less than five years prior to the filing of the application for this subsequent project.  | X   | <input type="checkbox"/> |
| (2) This project was described in the Master EIR and its approval will not affect the adequacy of the Master EIR for any subsequent project because the City can make the following findings: . | X   | <input type="checkbox"/> |
| (3) No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified.  | X   | <input type="checkbox"/> |

- (4) No new information, which was not known and could not have been known at the time the Master EIR was certified as complete, has become available. X
- (5) Policies remain in place that require site-specific mitigation, and avoidance or other mitigation of impacts as a prerequisite to future development. X

#### IV. ENVIRONMENTAL ANALYSIS

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any project-specific significant effect on the environment that was not examined in the Final Master EIR (MEIR) for the General Plan and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the project is "within the scope" of the Master EIR.

Pursuant to Public Resources Code Section 21157.1, no new environmental document or findings are necessary for projects that are determined to be within the scope of the MEIR. Adoption of a notice of conformity after completion of the Initial Study fulfills the City's obligation in that situation.

All environmental effects cited reflect year 2025 buildout of the Urban Area General Plan as identified in the MEIR.

The Master EIR for the General Plan organizes its analysis of environmental impacts into eighteen subject areas. The following analysis is based on the impact analyses contained in Chapter V of the Master EIR. For ease of cross-reference, the sections are numbered in the same order as the analyses in Chapter V.

In addition to the 18 Master EIR subject areas, the Initial Study checklist addresses the issues of land use/planning and aesthetics. The reason for including these additional issues is to ensure that consideration is being given to the full range of subjects of importance contained in Appendix G of the CEQA Guidelines. The format for the land use/planning and aesthetics sections differs from that of the other 18 subject areas since these two subjects were not addressed as distinct subjects in the Master EIR.

#### 1. TRAFFIC AND CIRCULATION

##### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant and unavoidable traffic and circulation impacts:

Effect: Increased traffic will result in certain roadway segments operating at LOS D or worse.

Effect: The Substantial increase in traffic relative to the existing load and capacity of the street system will cause, violation, either individually or cumulatively, of an LOS standard established by the County CMP for designated roads and highways.

Effect: Creation of need for Capacity-enhancing modifications to existing facilities.

Effect: Increase in energy consumption associated with the operation of highway projects, rail improvements, and aviation facilities.

Effect: Severe contrast with existing neighborhood or area character caused by highway and transit projects.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Traffic and Circulation mitigation measures that are pertinent to this project are found on MEIR pages V-1-15 through V-1-21. All feasible measures appropriate to the project – including any new measures - will be incorporated into or made conditions of approval of this project and will be listed in Section IV, Mitigation Measures Applied to Project.

Discussion: No mitigation measures are applicable to this project.

**c. Project-Specific Effects**

Section V-1.B of the MEIR provides analysis of Traffic and Circulation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

	YES	NO
(1) The project would contribute one hundred (100) or more peak hour trips to or from the site during the adjacent roadway's peak hour or the development's peak hour, to adjoining roads and generates more trips than assumed for their general plan land use category and zoning in the Master EIR.		X

Where a project exceeds an additional one hundred (100) or more peak hour trips contribution, a site access study may be conducted to determine to what extent the project would exceed the year 2025 level of service (LOS) expected for the adjoining roadways under the Master EIR. The site access study will recommend new, project-specific mitigation measures. Where the project also exceeds the Master EIR's traffic generation assumption, as determined by Engineering & Transportation staff, a comprehensive traffic study will be required that will include off-site traffic impact analysis.

	YES	NO
(2) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g. farm equipment).	<input type="checkbox"/>	X
(3) Result in inadequate emergency access.	<input type="checkbox"/>	X
(4) Result in inadequate parking capacity.	<input type="checkbox"/>	X

Discussion:

- (1) The proposed project will not generate traffic impacts to the adjacent roadways in excess of what was assumed under the MEIR. No traffic study is required.
- (2) The project does not substantially increase hazards due to a design feature.
- (3) The City's Standards for emergency access will be accommodated by this project.
- (4) The project meets City Standards with regard to parking.

**2. AIR QUALITY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to air quality:

Effect: Projected traffic levels will result in increased ambient carbon monoxide (CO) levels in the project area. This is a significant and unavoidable impact.

Effect: Projected traffic levels will result in increased ROG and NOX levels in the project area. This is a significant and unavoidable impact.

These are also cumulative impacts on air quality.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Air Quality mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-2-11 through V-2-18 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section IV, Mitigation Measures Applied to Project:

Discussion: Mitigation Measures appropriate to this project include: AQ-17

**c. Project-Specific Effects**

Section V-2.B of the MEIR provides analysis of Air Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-than significant unless:

	YES	NO
(1) The project exceeds the emissions thresholds established for CO and NOx by the San Joaquin Valley Unified Air Pollution Control District's (SJVUAPCD) adopted CEQA Guidelines.		X
(2) The project does not incorporate the best management practices for PM10 reduction established by the SJVUAPCD.	<input type="checkbox"/>	X

- (3) The project does not comply with the air quality policies of the Modesto Urban Area General Plan.  X
- (4) The project would expose sensitive receptors to substantial pollutant concentrations.  X
- (5) The project would create objectionable odors affecting a substantial number of people.  X

Discussion:

- (1) The project for 12 single-family dwellings will not exceeds the emissions thresholds.
- (2) This project does incorporate the best management practices for PM10 reduction established by the SJVUAPD (see mitigations measures above).
- (3) Applicable General Plan Policies will be applied to the project. Therefore, project-specific effects will be less than significant for this impact (see mitigations measures above).
- (4) The project is not a significant contributor to pollution levels in that it a subdivision for residential development. PM10 emissions created through the construction phase will be mitigated as called for by the MEIR by the measures listed above.
- (5) The residential subdivision should not produce objectionable odors.

**3. NOISE**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant and unavoidable environmental impacts relative to noise:

Effect: Traffic noise levels for future conditions in the plan area have the potential to result in exceedances of the City's Noise Significance Standards (see Table 3-3 MEIR).

Effect: Noise level projections based on the traffic levels anticipated in the General Plan indicate that noise will exceed the City's General Plan and noise ordinance standards.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-10 through V-3-15 MEIR. . All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project and any new measures are listed in Section IV, Mitigation Applied to Project:

Discussion:

The project site is located within the Ldn 65 contour from Scenic Road and the developer will have to demonstrate that the proposed development will incorporate measures to reduce noise impacts to less-than-significant level. Mitigation Measures appropriate to this project include: N-4, N-5, N-6, and N-8.

**c. Project-Specific Effects**

Section V-3.B of the MEIR provides analysis of noise impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance.	<input type="checkbox"/>	X
(2) The project will exceed the noise policies of or otherwise be inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(3) The project will result in a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?	<input type="checkbox"/>	X
(4) The project will result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project.	<input type="checkbox"/>	X

Discussion:

- (1) The City's noise policy is incorporated into the conditions of approval as a mitigation measure.
- (2) The project is consistent with what the General Plan assumed for the site both in land use and intensity and is consistent with the noise policies of the General Plan. The noise mitigation measures called for by the General Plan for projects within the baseline developed area, are incorporated into the conditions of approval for the project.
- (3) The only permanent noise levels produced by the project would be associated with traffic. The traffic levels are within the scope of what the MEIR assumed for the site. Therefore, this project will not result in a substantial permanent increase in ambient noise levels.
- (4) The project will not result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity. The noise mitigation measures called for by the General Plan for projects within the baseline developed area, are incorporated into the conditions of approval for the project.

#### 4. AGRICULTURAL LANDS

##### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to agricultural lands:

Effect: Development within the urbanized Baseline Developed Area and Redevelopment Area will have a less-than-significant impact on agricultural lands.

Effect: Conversion of agricultural land will occur as available developable land is occupied within the City. This is a significant and unavoidable impact.

Effect: Growth within Modesto's planning area would contribute considerably to the loss of agricultural land within Stanislaus County. This is a significant and unavoidable cumulative impact.

##### b. Master EIR and/or New Mitigation Measures Pertinent to the Project

Agricultural Land mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-4-7 and V-4-8 MEIR. All feasible measures appropriate to the project and any new mitigation to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project:

##### Discussion:

There are no mitigation measure applicable to this project.

##### c. Project-Specific Effects

Section V-4.B of the MEIR provides analysis of Agricultural Lands impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(2) The project will directly result in the development of land outside the March 2003 planning area boundaries.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(3) The project will Conflict with existing zoning for agricultural use, or a Williamson Act contract.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(4) The project will Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use.	<input type="checkbox"/>	<input checked="" type="checkbox"/>

## Discussion:

- (1) The project is consistent with the General Plan land use policies. The project site's current uses include a single family dwelling with an abandoned orchard. The property is located within the Baseline Developed Area but is not identified as Important Farmland on Figure V-4-1 of the Modesto Urban Area General Plan and is considered to have minimal effect on the conversion of agricultural land with no mitigation required.
- (2) The March 2003 planning area includes the subject property within its boundaries.
- (3) The project site is not zoned for agriculture, nor is it under Williamson Act contract.
- (4) The project will not involve changes to the existing environment that could result in the conversion of farmland to non-agricultural uses.

## **5. WATER SUPPLY**

### **a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to water supply:

Effect: Urban Area General Plan policies are established to limit groundwater extractions to the safe yield of the aquifer and thereby avoid aquifer over drafting. In addition, the UWMP requires that new urban development would proceed in conjunction with the availability of water supplies and distribution facilities. It is assumed that increased entitlement of surface water supplies such as a water transfer from another water purveyor would undergo independent environmental review pursuant to CEQA. This is a less-than-significant impact.

Effect: Development to the future projected City population would require expansion of the MRWTP to its full 60 mgd capacity, development of additional groundwater wells, and construction of additional water distribution and treatment facilities. Construction of some of the required facilities would most likely require site-specific environmental impact assessments to be conducted under CEQA. Consequently, the potential environmental impacts of the Urban Area General Plan are considered less-than-significant.

Effect: During drought years, despite available options, significant water shortages are forecast for the San Joaquin River basin by the year 2020. Modesto would make a cumulatively considerable contribution to the cumulative impact on water supply under drought conditions. This is a significant and unavoidable cumulative impact.

### **b. Master EIR and/or New Mitigation Measures Applied to the Project**

Water Supply mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-5-7 through V-5-8 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

There are no mitigation measures applicable to this project.

**c. Project-Specific Effects**

Section V-5.B of the MEIR provides analysis of Water Supply impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.		X
(2) Sufficient water supplies are not available to serve the project from existing entitlements and resources, new or expanded entitlements are needed.	<input type="checkbox"/>	X

Discussion:

- (1) The project is consistent with the Modesto Urban Area General Plan both in land use and intensity.
- (2) Sufficient water supplies are available to serve the proposed development. Engineering and Transportation Staff required the developer to provide a fire flow/water pressure test and have determined that the City has adequate water resources to serve the project for both regular and emergency uses.

**6. SANITARY SEWER SERVICES**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to sanitary sewer services:

Effect: The City has already begun to implement the provisions of the Wastewater Master Plan (WMP) to meet future demand for sanitary sewer services. As City wastewater treatment facilities are expanded to meet the needs of the Baseline Developed, Redevelopment, and Planned Urbanizing Areas, the City will obtain the necessary wastewater discharge and NPDES permits from the Central Valley RWQCB, as required under Urban Area General Plan Policy V-D.2(a). Implementing the WMP, requirement of Best Management Practices for post-construction activities, as well as the Urban Area General Plan policy cited above, will avoid violation of wastewater discharge requirements. As a result, this impact would be less-than-significant.

Effect: The City has adopted the WMP specifically to ensure that sewer capacity will match the level of growth projected by the Urban Area General Plan. Development within the Baseline Developed and the Planned Urbanizing Areas that is consistent with the Urban Area General Plan will not have a significant effect on capacity. Urban Area General Plan Policy III-D.1(d) will

ensure that development in the Planned Urbanizing Area will fund the necessary improvements. This is a less-than-significant impact.

Note on the WMP Master EIR. The WMP Master EIR identified a number of impacts and mitigation measures. Its mitigation measures have been adopted by the City and are being implemented by the City under the WMP. Those impacts are being independently addressed under that Master EIR and do not need to be considered under this Initial Study. Refer to the WMP Master EIR for details.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Sewer Service mitigation measure(s) pertinent to the project being analyzed in this Initial Study, are found on pages V-6-4 through V-6-7 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

There are no mitigation measures applicable to this project.

**c. Project-Specific Effects**

Section V-6.B of the MEIR provides analysis of Sanitary Sewer Service impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.		X
(2) The project will result in a determination by the wastewater treatment provider which serves or may serve the project that it has inadequate capacity to serve the project's projected demand in addition to the provider's existing commitments.	<input type="checkbox"/>	X

Discussion:

- (1) The project is consistent with the Modesto Urban Area General Plan both in land use and intensity.
- (2) Engineering and Transportation Staff required that the developer submit estimated sewer demands for the project and determined that the City had adequate sewer capacity to serve the project for both regular and emergency uses.

**7. SENSITIVE WILDLIFE AND PLANT HABITAT**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to sensitive wildlife and plant habitat:

Effect: Although many sensitive species live in riparian habitats within the planning area, the policies of the plan will ensure that impacts of the Urban Area General Plan will be less-than-significant.

Effect: Requiring higher residential density than the suburban norm and a compact pattern of growth within the designated planning area to the year 2025 will minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Wildlife and Plant Habitat mitigation measure pertinent to the project being analyzed in this Initial Study are found on pages V-7-19 through V-7-21 of the MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

There are no mitigation measures applicable to this project.

**c. Project-Specific Effects**

Section V-7.B of the MEIR and provides analysis of Wildlife and Plant Habitat impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR as supplemented by the FEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) Consultation with the California Department of Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on special status species.	<input type="checkbox"/>	X
(3) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	<input type="checkbox"/>	X

Discussion:

- (1) The project is consistent with the Modesto Urban Area General Plan both in land use and intensity.
- (2) The California Department of Fish and Game and the U.S. Fish and Wildlife Service were consulted in the production of the MEIR. The project site is located within the Baseline Developed Area and is not within the Dry Creek Community Planning District and not overlooking the Dry Creek bluff. No further biological review is needed unless specific information is identified in future California Natural Diversity Data Base or through other formal input. The 2003 CNDDDB show Swainson's Hawk nest about 1.5 miles to the east that was documented in 1997. This nest is considered inactive because the siting was longer than five years. The site is surrounded by single-family development although a few large parcels are located to the southwest portion of the site. The site characteristics make it very unlikely that the project would have a significant affect on special status species. The mitigation measures from the MEIR appropriate to this project have been applied to the project as conditions of approval. These are listed in Section V, Mitigation Measures Applied To The Project, below.
- (3) There is no conflict with any local policies or ordinances protecting biological resources.

## **8. ARCHAEOLOGICAL OR HISTORICAL SITES**

### **a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to archaeological or historical sites:

Effect: If a site-specific project involves the modification or demolition of a qualifying structure more than 50 years in age, then the impact will be significant.

Effect: Areas of high probability for archaeological resources are located within the riparian corridors along the Tuolumne River, Dry Creek, and the Stanislaus River. There, the potential impact comes from earthmoving activities that could result in disturbance of resources or human remains. There is a low probability that archaeological resources will be uncovered in areas outside of the riparian corridors.

Effect: The City Zoning Ordinance requires that when substantial changes to a structure are proposed, the development will be required to comply with other Zoning Ordinance provisions such as parking or landscaping requirements. This could result in modifications to the structure, which substantially reduce its historical significance. This would be a less-than-significant impact with the imposition of new mitigation measure Cultural-1.

### **b. Master EIR and/or New Mitigation Measures Applied to the Project**

Archaeological or Historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on page V-8-13 and V-8-14 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project:

Discussion:

Mitigation Measures applicable to this project include: AH-8 and AH-12, Master EIR.

**c. Project-Specific Effects**

Section V-8.B of the MEIR provides analysis of Archaeological/Historical impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR as supplemented by the FEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources, or that is listed by the City of Modesto as a Designated Landmark Preservation Site.	<input type="checkbox"/>	X

Discussion:

- (1) The project is consistent with the Modesto Urban Area General Plan in both land use and intensity.
- (2) The project would not adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources, or that is listed by the City of Modesto as a Designated Landmark Preservation Site. The mitigation measure called for by the General Plan is incorporated into the conditions of approval for the project.

**9. STORM DRAINAGE**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to storm drainage:

Effect: The potential impacts on storm water drainage that could occur from the project were qualitatively evaluated with respect to several factors including: extent of the projected increase in urban surface area compared to undeveloped ground; magnitude of projected changes to hydrologic and physical site characteristics of the study area compared to existing conditions; regulatory criteria and guidelines; and professional judgment. Because the Urban Area General Plan includes policies that require new development in all three sections of the planning area to install approved drainage facilities, the potential impacts of the Urban Area General Plan on storm water drainage are considered less-than-significant.

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious areas and associated urban storm water drainage. Cumulative hydrologic impacts of storm water flows from Modesto urban areas and other areas of the County could occur due to the fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel. Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Storm Drainage mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-9-4 through V-9-8. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

Mitigation measures appropriate to this project include: SD-7, MEIR.

**c. Project-Specific Effects**

Section V-9.B of the MEIR provides analysis of Storm Drainage impacts of development of the General Plan; the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

		YES	NO
(1)	The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2)	The project would substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or offsite.	<input type="checkbox"/>	X
(3)	Create or contribute runoff water that would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff.	<input type="checkbox"/>	X

Discussion:

- (1) The project is consistent with the Modesto Urban Area General Plan in both land use and intensity.
- (2) The project proposes to increase the impervious surface. However, it should be designed to meet the standards contained in the "Guidance Manual for New

Development-Storm Water Quality Control Measures,” adopted by the City and applied to the project as a Mitigation Measure. With the application of the appropriate mitigation, the effect will be less than significant.

- (3) The project will contribute additional water runoff. However, with the application of the mitigation measures called for in the conditions of approval of the project, the effect will be less than significant.

## 10. FLOODING AND WATER QUALITY

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to flooding and water quality:

Effect: Increased runoff can accelerate soil erosion, stream channel scouring, and sedimentation of channels, and also increase pollutant transport to waterways. The potential impacts of the project on flooding are considered less-than-significant because the Urban Area General Plan Update includes policies to restrict development in the floodplain and therefore would avoid exposing persons and property to flood hazards. In addition, new development under the Urban Area General Plan is required to install storm water drainage facilities that restrict the amount of post-development runoff from exceeding pre-development conditions.

Effect: The potential impacts of the project on surface-water quality are considered less-than-significant because the City policies and capital improvement projects for storm water drainage facilities would minimize discharges of urban pollutants to natural waterways. The City drainage program policies require new development to prepare drainage plans and implement urban runoff control measures; larger Specific Plan developments must have storm drainage systems designed to control pollutant runoff. The City's implementation policies for the municipal NPDES storm water permit require new development to implement an appropriate selection of permanent pollution control measures. Permanent erosion control measures such as seeding and planting vegetation for new cut-and-fill slopes, directing runoff through vegetation, or otherwise reducing the offsite discharge of particulates and sediment are the most effective method of controlling offsite discharges of urban pollutants.

Effect: The City's future development will contribute to cumulative water quality effects. EPA regulations for NPDES storm water permits and new proposed regulatory additions to the rules have become much more comprehensive in recent years and are being implemented to reduce pollutant runoff from both large- and small-scale activities. Implementation of NPDES-permitting programs throughout the county will reduce potential water-quality impacts to a less-than-significant level.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

Flooding and Water Quality mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-10-7 through V-10-10 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project:

Discussion:

The site is not located within the 100-year flood zone. Mitigation measures appropriate to this project include: FWQ-14, MEIR.

**c. Project-Specific Effects**

Section V-10.B of the MEIR provides analysis of Flooding and Water Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR as supplemented by the FEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act.	<input type="checkbox"/>	X
(3) The project does not comply with Modesto's Guidance Manual for New Development Storm water Quality Control Measures.	<input type="checkbox"/>	X
(4) The project would create or contribute runoff water, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff.	<input type="checkbox"/>	X

Discussion:

- (1) The project is consistent with the General Plan Designation for the site both in land use and intensity.
- (2) The project would comply with the Federal Clean Water Act and the Porter Cologne Act requirements.
- (3) Mitigation Measures as called for by FWQ-14 will be applied to the project so that the project will comply with the Guidance Manual for New Development Storm Water Quality Control Measures.
- (4) The project would not create or contribute to runoff water in excess of the capacity of existing or planned storm water drainage systems or provide additional sources of polluted runoff. The appropriate mitigation measures will be applied to the project.

**11. PARKS AND OPEN SPACE**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to parks and open space:

Effect: Within the Baseline Developed and Redevelopment Areas, the Urban Area General Plan does not propose any elimination of existing park and/or open space land. Impacts on parks and open space will be less-than-significant.

Effect: The projected population of the Planned Urbanizing Area is 148,600, requiring 149 acres of neighborhood parks and 298 acres of community parks. The required minimum acreages can be met through the application of existing policies and regulations, including Government Code Section 66474, which require developers to pay Parks Capital Facilities Fees to fund the acquisition of appropriate parkland acreage. This impact is less-than-significant.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Parks and Open Space Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-11-4 through V-11-19 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project:

Discussion:

There are no mitigation measures applicable to this project.

**c. Project-Specific Effects**

Section V-11.B of the MEIR provides analysis of Parks and Recreation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR as supplemented by the FEIR

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

YES NO

- (1) The project is inconsistent with the Modesto Urban Area General Plan.  YES  NO

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.

## 12. SCHOOLS

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to schools:

Effect: The estimated increase in population over 1994/1995 would generate an additional 29,200 elementary school students, 7,330 middle school students, and 14,640 high school students above those enrollments. Assuming that existing facilities cannot sufficiently accommodate this increase and that all of the new students would require new school facilities, build out of the General Plan would result in the need for approximately 37 elementary schools, 8 middle schools, and 7 high schools beyond 1994/1995 levels. This would result in a significant impact on schools in that it would exceed current capacity. By statute, this impact is considered to be mitigated below a level of significance by payment of school impact fees and exercise of any or all of the financing options set out in Government Code Section 65997.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. ). As long as all anticipated subsequent projects apply these policies, no new mitigation is necessary. Further, payment of school impact fees and compliance with SB 50 is statutorily deemed to be full mitigation of school impacts (Government Code Section 65995). The proposed additional school policy will address the situation that would arise should AB 50 be repealed. It will authorize impact fees or other methods to finance additional school facilities.

The following schools mitigation measure(s) are pertinent to the project being analyzed in this Initial Study. See pages V-12-4 through V-12-7 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section IV, Mitigation Applied to Project:

#### Discussion:

The project will be made to comply with SB 50 as required by the MEIR.

### c. Project-Specific Effects

Section V-12.B of the MEIR provides analysis of Schools impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) The project does not comply with SB 50/Proposition 1A funding provisions, or succeeding measures which provide that compliance results in less-than-significant impacts on schools. | <input type="checkbox"/> | X  |

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.
- (2) The project addresses compliance with SB 50/Proposition 1A funding provisions as required by the MEIR.

**13. POLICE SERVICES**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to police services:

Effect: The 1995 Master EIR identified two impacts on the demand for police services; however, it concluded that no significant impact, based on the mitigation measures identified in the 1995 Master EIR, would occur. Those mitigation measures are now policies of the Urban Area General Plan. The impact is less-than-significant.

Effect: Within the Planned Urbanizing Area, complying with the Urban Area General Plan policies, particularly the policy that requires a long-range financing strategy for each Comprehensive Plan Area, will allow the City to provide the resources necessary to extend service to the newly growing Planned Urbanizing areas. These policies reduce the impact to a less-than-significant level.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Police Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-13-3 and V-13-4 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

No mitigation measures are applicable to this project.

**c. Project-Specific Effects**

Section V-13.B of the MEIR provides analysis of police services impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project would result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. | <input type="checkbox"/> | X  |

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.
- (2) The project would not result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. The project meets City Standards for emergency services access.

**14. FIRE SERVICES**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to fire services:

Effect: The Baseline Developed Area and Redevelopment Area are already developed. Impacts on fire services of development in these areas will be less-than-significant.

Effect: In the Planned Urbanizing Area, the Urban Area General Plan would result in the need for additional fire protection services due to increases in the number of employees, permanent population, and associated improvements. City policy requires that fire protection be in place concurrent with construction in the Planned Urbanizing Area. This policy will be implemented with the adoption of future Comprehensive Plans in the Planned Urbanizing Area. This impact would be less-than-significant.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Fire Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-14-3 through V-14-5 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project. are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

No mitigation measures are applicable to this project.

**c. Project-Specific Effects**

Section V-14.B of the MEIR provides analysis of fire services impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

YES NO

- |     |  |                          |   |
|-----|--|--------------------------|---|
| (1) | The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X |
| (2) | The project would result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. | <input type="checkbox"/> | X |

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.
- (2) The project would not result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. The project will be meets City Standards for emergency services access.

**15. SOLID WASTE**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to solid waste:

Effect: Since the project would exceed available landfill capacity, it is identified as a significant impact. The Fink Road Landfill may be closed by the time the City reaches build out, unless an expansion is approved by the County and the Integrated Waste Management Board. As the waste stream generated increases with population, additional landfills and methods for diversion would have to be utilized. The project will also generate the need for additional collection and transfer facilities. This impact is significant and unavoidable. The impact would be less-than-significant at such time as the Fink Road Landfill expansion is approved.

Effect: The project makes a considerable contribution to the cumulative impact on landfill capacity of development in Stanislaus County. This impact is significant and unavoidable.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Solid Waste Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study, are found on pages V-15-5 and V-15-6 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project:

Discussion:

No mitigation measures are applicable to this project.

**c. Project-Specific Effects**

Section V-15.B of the MEIR provides analysis of solid waste impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) The County is unable to expand its solid waste disposal capacity and the project would result in waste stream levels that exceed disposal capacity. | <input type="checkbox"/> | X  |

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.
- (2) This project was referred to the County and Solid Waste Division of the Engineering and Transportation Division for review, and no indication was given that there would be a problem serving this project.

## 16. HAZARDOUS MATERIALS

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to hazardous materials:

Effect: The impacts of the project relative to hazardous materials are less-than-significant, based on the existing regulatory framework. New development will be required to comply with regulations monitoring and controlling the handling and use of hazardous and toxic materials.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under federal, state and county policies and regulations, and the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Hazardous Materials Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-16-9 through V-16-12 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

No mitigation measures are applicable to this project.

### c. Project-Specific Effects

Section V-16.B of the MEIR provides analysis of hazardous materials impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR as supplemented by the FEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) The project does not comply with all applicable federal, state, and county standards and regulations relative to the handling, storage, disposal, and transport of hazardous or toxic materials or wastes.                                | <input type="checkbox"/> | X  |
| (3) The project contains a contaminated site not identified as of March 2003.   | <input type="checkbox"/> | X  |
| (4) The project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.  | <input type="checkbox"/> | X  |
| (5) The project would be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment. | <input type="checkbox"/> | X  |

#### Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.
- (2) The project does comply with all applicable federal, state, and county standards and regulations relative to the handling, storage, disposal, and transport of hazardous or toxic materials or wastes.
- (3) The project site is not known to contain any contaminants.
- (4) The project would not emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste. It is a residential subdivision.
- (5) The project would not be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would not create a significant hazard to the public or the environment.

**17. LANDSLIDES AND SEISMIC ACTIVITY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to landslides and seismic activity:

Effect: There are areas of known sand and gravel resources within the Baseline Developed Area and Redevelopment Area. Future development will be subject to SMARA requirements, therefore, the project impact will be less-than-significant.

Effect: There are areas of known sand and gravel resources within the Planned Urbanizing Area. Future development will be subject to SMARA requirements, therefore, the project impact will be less-than-significant.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Landslide and Seismic Activity Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-17-6 and V-17-7 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

No mitigation measures are applicable to this project.

**c. Project-Specific Effects**

Section V-17.B of the MEIR provides analysis of landslides and seismic impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project would be located on soil that is unstable, or that would become unstable as a result of the project, and potentially result in on or off-site landslide, lateral spreading, subsidence, liquefaction or collapse.	<input type="checkbox"/>	X

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.

- (2) The project would not be located on soil that is unstable, or that would become unstable as a result of the project. There are no areas identified in the MEIR that are considered unstable or have the potential to become unstable and result in on or off-site landslide, lateral spreading, subsidence, liquefaction or collapse.

**18. ENERGY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to energy:

Effect: The Baseline Developed Area and Redevelopment Area are already developed. New development within the Redevelopment Area will comply with Title 24 standards as well as City Urban Area General Plan policies. Impacts on energy by development in these areas (i.e., changes in levels of use above the current baseline) will be less-than-significant.

Effect: Build out under the Urban Area General Plan will utilize an estimated 1,400 million cubic feet per month of natural gas, 1,300 million kilowatt hours (kwh) of electricity per year and 650,000 gallons of gasoline per day. PG&E has indicated that they have at the current time sufficient supplies of natural gas to serve the increased natural gas demands of the project. At present, gasoline supplies are apparently sufficient to serve the gasoline demands of the project. Title 24 of the California Code of Regulation, which ensures that the project will not exceed local, state, and federal energy standards. The impact is less-than-significant.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

The following energy mitigation measure(s) are pertinent to the project being analyzed in this Initial Study. See page V-18-3 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section IV, Mitigation Applied to Project:

Discussion:

No mitigation measures are applicable to this project.

**c. Project-Specific Effects**

Section V-18.B of the MEIR provides analysis of energy impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.

**19. PLANNING AND LAND USE**

The Master EIR was certified for the Modesto Urban Area General Plan. The significant effects described in the 18 subject areas contained in the Master EIR are based on the planning policies and diagrams adopted as part of the General Plan. Planning and land use were not among the 18 subject areas analyzed in the Master EIR because they essentially defined the project being evaluated in the EIR.

**a. Project-Specific Effects**

Determination of project effects will be based on the following threshold. A project-specific effect is less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project includes a substantive amendment to the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(3) The project would physically divide an established community	<input type="checkbox"/>	X

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.
- (2) No amendment to the General Plan is required by this project.
- (3) The project will be an infill project within an existing residential area of the urbanized City. It will not divide an established community.

**20. AESTHETICS**

The Master EIR was certified for the Modesto Urban Area General Plan. The significant effects described in the 18 subject areas contained in the Master EIR, are based on the planning policies and diagrams adopted as part of the General Plan. At that level of detail, no significant effects on aesthetics were identified.

**a. Project-Specific Effects**

Determination of project effects will be based on the following threshold. A project-specific effect is less-than-significant unless:

	YES	NO
(1) The project is inconsistent with the Modesto Urban Area General Plan.	<input type="checkbox"/>	X
(2) The project would have a substantial adverse effect on a scenic vista.	<input type="checkbox"/>	X
(3) The project would substantially degrade the existing visual character or quality of the project site and its surroundings.	<input type="checkbox"/>	X
(4) The project would create a new source of substantial light and glare, which would adversely affect day or nighttime views in the area.	<input type="checkbox"/>	X

Discussion:

- (1) The project is consistent with the General Plan in both land use and intensity.
- (2) The project site is not located within the Dry Creek Community Planning District and no scenic vistas are at risk from this project. Therefore, this project will not have a substantial adverse affect on scenic vistas.
- (3) The project would not substantially degrade the existing visual character or quality of the project site and its surroundings, because it is a low density single family subdivision consistent with the surrounding residential areas.
- (4) The project would not create a substantial source of light or glare that would adversely affect daytime or nighttime views in the area.

**V. MITIGATION MEASURES APPLIED TO THE PROJECT**

**A. Master EIR Mitigation Measures Applied to the Project**

Pursuant to CEQA Section 21157.1 ( c), in order for a Finding of Conformance to be made, all feasible measures from the Master EIR appropriate to the project shall be incorporated into the project. The following adopted General Plan Policies and Master EIR Mitigation Measures (also contained in Section III, "Global List") incorporation into the appropriate document or plan:

All applicable and appropriate mitigation measures have been applied to the project.

**Traffic and Circulation Measures:**

N/A

**Air Quality Measures:**

1. All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover
2. All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.
3. When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.
4. All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. *(the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)*

5. Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.
6. Within urban areas, trackout shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.
7. Install wheel washers for all exiting trucks, or wash off all trucks and equipment leaving the site;
8. Suspend excavation and grading activity when winds exceed 20 mph; and
9. Limit the area subject to excavation, grading and other construction activity at any one time.

**Noise Measures:**

1. The City's noise ordinance (Modesto Municipal Code Section 4-9.101) prohibits the "loud and raucous discharge into the open air of the steam of any steam equipment or exhaust from any stationary internal-combustion engine."

The noise ordinance prohibits the loud and raucous operation or use of any of the following before 7:00 a.m. or after 9:00 p.m. daily (except Saturday and Sunday and State or federal holidays, when the prohibited time shall be before 9:00 a.m. and after 9:00 p.m.):

- A. A hammer, or any other device or implement used to pound or strike an object.
- B. An impact wrench, or other tool or equipment powered by compressed air.
- C. A hand-powered saw.
- D. Any tool or piece of equipment powered by an internal-combustion engine such as, but not limited to, chain saw, backpack blower, and lawn mower.
- E. Any electrically powered (whether by alternating current electricity or by direct current electricity) tool or piece of equipment used for cutting, drilling, or shaping wood, plastic, metal, or other materials or objects, such as, but not limited to, a saw, drill, lathe, or router.
- F. Any of the following: heavy equipment (such as but not limited to bulldozer, steam shovel, road grader, back hoe), ground drilling and boring equipment (such as but not limited to derrick or dredge), hydraulic crane and boom equipment, portable power generator or pump, pavement equipment (such as but not limited to pneumatic hammer, pavement breaker, tamper, compacting equipment), pile-driving equipment, vibrating roller, sand blaster, gunite machine, trencher, concrete truck, and hot kettle pump.
- G. Any construction, demolition, excavation, erection, alteration, or repair activity. In the case of urgent necessity and in the interest of

public health and safety, the Chief Building Official may issue a permit for exemption from these. Such period shall not exceed three (3) working days in length while the emergency continues but may be renewed for successive periods of three (3) days or less while the emergency continues. The Chief Building Official may limit such permit as to time of use and/or permitted action, depending upon the nature of the emergency and the type of action requested.

- H. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields.
2. The City of Modesto shall require noise-reducing construction practices to be implemented as conditions of approval for development projects where substantial construction-related noise impacts would be likely to occur (e.g. where construction would include extended periods of pile driving, where construction would occur over an unusually long period, or where noise-sensitive uses like homes and schools would be in the immediate vicinity, etc.). The city should consider potential mitigation measures, including, but not limited to, the following:
- A. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields.
  - B. Other proposed uses: the noise/land use compatibility guidelines (i.e., those noise levels which are "conditionally acceptable," "normally Unacceptable," or "clearly unacceptable,") shown in Table 1 and the most recent noise contours for the City shown in Figure VII-1 [of the City's Urban Area General Plan].
3. For new single-family residential development within the  $L_{dn}$  65 contour, the City of Modesto shall require developers to demonstrate that the proposed development will incorporate measures to reduce noise impacts to a less-than-significant level, as follows:
- A. Where feasible and consistent with General Plan policy, incorporate setbacks and/or locate less-sensitive uses between a noise source and noise-sensitive uses.
  - B. Provide (to the extent feasible and consistent with General Plan policy) berms, barriers, or other techniques to shield noise-sensitive uses.
  - C. Incorporate construction techniques to achieve an interior noise limit of 45  $L_{dn}$  (these potential techniques are presented in CCR Title 24 standards).

**Agricultural Land Measures:**

N/A

**Water Supply Measures:**

N/A

**Sanitary Sewer Service Measures:**

N/A

**Sensitive Wildlife and Plant Habitat Measures:**

N/A

**Archaeological or Historic Sites Measures:**

1. For proposed development outside an identified archaeological resource study area (as depicted on Figure 8-1 in the 1995 Master EIR), no further research for prehistoric deposits is warranted unless specific information concerning the known or potential presence of significant cultural resources is identified in future updates at the applicable cultural resource information repository or through formal or informal input received from a qualified source. If previously unknown subsurface cultural resources are discovered during excavation activities, excavation would be temporarily halted and an archaeologist consulted as to the importance of the resources. Should the archaeologist determine that the resources are important, the project sponsor would follow the procedure described in Policy 2(a), above.
2. If archaeological resources are discovered at any time during construction, all activity shall cease until the site is surveyed by a qualified archaeologist. The survey shall include mitigation measures, which shall be implemented before construction resumes. The survey shall follow the criteria presented in Appendix K

**Storm Drainage Measures:**

1. The State Water Control Board and City of Modesto require a Storm Water Pollution Prevention Plan (SWPPP) to be developed prior to construction activity. A copy of the notice of intent (NOI) and SWPPP shall be required to obtain a grading permit if required by the Engineering and Transportation Director.
2. The developer shall implement pre- and post- construction best management practices (BMPs) to minimize pollutants entering the storm system.

**Flooding and Water Quality Measures:**

1. The State Water Control Board and City of Modesto require a Storm Water Pollution Prevention Plan (SWPPP) to be developed prior to construction activity. A copy of the notice of intent (NOI) and SWPPP shall be required to obtain a grading permit if required by the Engineering and Transportation Director.
2. The developer shall implement pre- and post- construction best management practices (BMPs) to minimize pollutants entering the storm system.

**Parks and Open Space Measures:**

N/A

**Schools Measures:**

1. To the extent allowed by state law, annexation to the appropriate schools community facilities district will be required as a condition of final map approval. If this requirement cannot be enforced due to the status of state law, then prior to issuance of the first building permit or final map approval, whichever is earlier, the developer shall provide written verification from the affected school districts that a determination has been made as to whether the developer will pay the school fees in effect or annex to the appropriate community facilities district.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-650**

**A RESOLUTION APPROVING SPECIFIC PLAN AMENDMENT NO. 18 TO THE VILLAGE ONE SPECIFIC PLAN TO AMEND THE VILLAGE ONE SPECIFIC PLAN TO CHANGE THE LAND USE DESIGNATIONS OF PRECISE PLAN AREAS 23 AND 24 FROM COMMERCIAL, VILLAGE RESIDENTIAL, AND MULTI-FAMILY RESIDENTIAL TO VILLAGE RESIDENTIAL AND MEDIUM-DENSITY RESIDENTIAL, AND TO AMEND TO SOME OF THE VILLAGE ONE DESIGN AND DEVELOPMENT STANDARDS RELATED TO PRECISE PLAN AREAS 23 AND 24, PROPERTY LOCATED ON THE WEST SIDE OF CLAUS ROAD, NORTH AND SOUTH OF FLOYD AVENUE. (MONTEREY DEVELOPMENT GROUP)**

WHEREAS, Government Code Section 65450 et. seq. permits cities and counties to adopt specific plans for the systematic implementation of the General Plan and to provide for a greater level of detail in planning sites or areas of special interest or value, and

WHEREAS, on October 16, 1990, the City Council by Resolution No. 90-828A adopted the Village One Specific Plan, to guide the development of 1,780 acres located in northeast Modesto, and

WHEREAS, Government Code Section 65453 permits the amendment of specific plans as often as deemed necessary by the legislative body, and

WHEREAS, the City Council on June 18, 1991, by Resolution No. 91-405, adopted Specific Plan Amendment No. 1 to the Village One Specific Plan to adopt an amended Affordable Housing Program, and

WHEREAS, the City Council on May 5, 1992, by Resolution No. 92-222, adopted Specific Plan Amendment No. 2 to the Village One Specific Plan to improve technical correctness, readability, and comprehension, and

WHEREAS, the City Council on February 1, 1994, by Resolution No. 94-72, adopted Specific Plan Amendment No. 3 to the Village One Specific Plan to rewrite and reorganize the Plan to be more implementation oriented, and

WHEREAS, the City Council on May 24, 1994, by Resolution No. 94-297, certified the Final Supplemental EIR for Village One (SCH No. 90020181) which provided environmental analysis for the revisions in Specific Plan Amendment No. 4, and

WHEREAS, the City Council on May 24, 1994, by Resolution No. 94-298, adopted Specific Plan Amendment No. 4 to the Village One Specific Plan to widen Floyd Avenue from three-to-five lanes, realign the Claus/Sylvan intersection, delete the non-potable water supply for public landscaping, and integrate mitigation monitoring into the Specific Plan, and

WHEREAS, the City Council on June 28, 1994, by Resolution No. 94-372, adopted Specific Plan Amendment No. 5 to the Village One Specific Plan to revise the Residential Design Policies for cul-de-sacs, alleys, garage orientation, and plan processing, and

WHEREAS, the City Council on June 28, 1994, by Resolution No. 94-373, adopted Specific Plan Amendment No. 6 to the Village One Specific Plan to revise the school and park sites within the Specific Plan and redistribute residential units among the Village One Precise Plan Areas, and

WHEREAS, the City Council on October 10, 1995, by Resolution No. 95-487, adopted Specific Plan Amendment No. 7 to the Village One Specific Plan to reduce costs and to implement recommendations to increase the marketability of development within the Village One area, and

WHEREAS, the City Council on May 14, 1996, by Resolution No. 96-245, adopted Specific Plan Amendment No. 7.1 to the Village One Specific Plan to delete the multiple-family development designation from Precise Plan Areas Nos. 8 and 33, and Resolution No. 26-246 to amend the Design Standard portion of the Village One Specific Plan pertaining to single-family dwelling setbacks and three-car garages, limited to Precise Plan Areas Nos. 8, 32, and 33, and

WHEREAS, the City Council on June 4, 1996, by Resolution No. 96-295, adopted Specific Plan Amendment No. 8 to the Village One Specific Plan to incorporate changes previously approved in Specific Plan Amendment No. 7 into the Specific Plan document itself, to make minor editorial changes to the Specific Plan, and to incorporate changes resulting from development of a revised Village One Facilities Master Plan, and

WHEREAS, the City Council on August 13, 1996, by Resolution No. 96-453, adopted Specific Plan Amendment No. 9 to the Village One Specific Plan to modify the standards for dwelling setbacks and three-car garages for the entire Specific Plan area, and

WHEREAS, the City Council on May 6, 1997, by Resolution No. 97-225, adopted Specific Plan Amendment No. 10 to the Village One Specific Plan to eliminate redundancy with the General Plan Housing Element policies and to eliminate language that was too restrictive, and

WHEREAS, the City Council on June 3, 1997, by Resolution No. 97-300, adopted Specific Plan Amendment No. 11 to the Village One Specific Plan to exempt public facilities from precise plan requirements, to streamline the Specific Plan

amendment process, and to provide minor clarification to various policies and diagrams,  
and

WHEREAS, the City Council on October 21, 1997, by Resolution No. 97-602, adopted Specific Plan Amendment No. 12 to the Village One Specific Plan to allow changes in public service providers, delete the requirement for a business park market study, revise Amtrak station language, revise the business park precise plan diagram, and allow regional commercial uses in the business park, and

WHEREAS, the City Council on February 17, 1998, by Resolution No. 98-97, adopted Specific Plan Amendment No. 13 to the Village One Specific Plan to redesignate 9.8 acres in Precise Plan Area No. 3 from Multi-Family Residential to Village Residential, and

WHEREAS, the City Council on August 17, 1999, by Resolution No. 99-416, adopted Specific Plan Amendment No. 14 to the Village One Specific Plan to modify the mix of land uses allowed in the southeast quadrant of Precise Plan Area No. 20, and

WHEREAS, the City Council on September 26, 2000, by Resolution No. 2000-507, adopted Specific Plan Amendment No. 15 to the Village One Specific Plan to reduce the noise setback along Claus Road, and

WHEREAS, the City Council on May 7, 2002, by Resolution No. 2002-230, adopted Specific Plan Amendment No. 16 to the Village One Specific Plan to move 4.1 acres from Precise Plan Area No. 6 to Precise Plan Area No. 7, and

WHEREAS, the City Council on April 1, 2003, by Resolution No. 2003-177, adopted Specific Plan Amendment No. 17 to the Village One Specific Plan to allow for a revised infrastructure financing plan for Village One, including the formation of a new

community facilities district for the remaining undeveloped, unvested property in Village One, and

WHEREAS, the Monterey Development Group filed an application to amend the Village One Specific Plan to change the land use designations of Precise Plan Areas 23 and 24 from Commercial, Village Residential, and Multi-Family Residential to Village Residential and Medium-Density Residential and to amend some of the Village One design and development standards, and

WHEREAS, on October 18, 2004, at 7:00 p.m. the Planning Commission held a noticed public hearing in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which hearing evidence both oral and documentary was received concerning the Village One Specific Plan Amendment, but the hearing was continued to November 15, 2004, due to an error in notification, and

WHEREAS, on November 15, 2004, at 7:00 p.m. the Planning Commission held a duly noticed public hearing in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered regarding the proposed Village One Specific Plan amendment, and

WHEREAS, after said public hearing, the Modesto City Planning Commission by Resolution No. 2004-66, recommended to the City Council approval of an amendment to the Village One Specific Plan to change the land use designations of Precise Plan Areas 23 and 24 from Commercial, Village Residential, and Multi-Family Residential to Village Residential and Medium-Density Residential and to amend some of the Village One design and development standards, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing on December 7, 2004, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby finds and determines that the proposed Amendment No. 18 to the Village One Specific Plan to change the land use designations of Precise Plan Areas 23 and 24 from Commercial, Village Residential, and Multi-Family Residential to Village Residential and Medium-Density Residential and to amend some of the Village One design and development standards is consistent with the Modesto Urban Area General Plan and the Village One Specific Plan is hereby amended to read as shown on **Exhibit "A"** attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED by the Council that the City Clerk is hereby authorized and directed to send certified copies of this resolution and said Amendment to the Village One Specific Plan to the Board of Supervisors of the County of Stanislaus.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of December, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant

NOES: Councilmembers: None

ABSENT: Councilmembers: Mayor Ridenour

ATTEST: Jean Zahr  
JEAN ZAHR, City Clerk

MICHAEL D. MILICH, City Attorney

EXHIBIT "A"  
VILLAGE ONE SPECIFIC PLAN AMENDMENT NO. 18

**FALLING LEAF SUBDIVISION  
VILLAGE ONE SPECIFIC PLAN AMENDMENT  
FOR PRECISE PLAN AREAS 23 AND 24  
November 29, 2004**

**B-1 Description of Amendment**

This application proposes to amend the Village One Specific Plan for purposes of developing the Falling Leaf Subdivision. The development encompasses land within both Precise Plan Areas (PPA) 23 and 24, and through a transference of density calculation, we will demonstrate that the project will remain in substantial compliance with the Village One Guiding Principles and intent of the underlying zoning.

In addition, this application will request specific plan exceptions, in both Precise Plan Area #23 and #24, to reduce the minimum lot size of 2750 sq. ft. and the minimum width criteria of using 15' in determining the 300 sq. ft. of "usable yard area". These exceptions are requested because of the proposed unique housing type of single family homes at medium density. This application will also establish new standards for small lot development by providing a minimum of 150 sq. ft. of common park area per lot and one on-street "guest" parking space per lot.

**B-2 Presentation of Need for Amendment**

Chapter V, paragraph B (2) of the Village One Specific Plan, requires that the applicant (Monterey Development Group) document the need for a Specific Plan Amendment indicating the economic, social, or technical issues which generate the need.

The Falling Leaf application request for a Specific Plan Amendment is a response to an evaluation of the Modesto housing market in general, and the Village One area specifically. We have determined that most recent projects have continued a pattern of developing in repeated lot sizes and housing types which only service a narrow segment of the market demand for new housing. Most, if not all of these housing options, offer similarity in design and price.

Falling Leaf is our response to the demand for more varied and affordable housing options. Our project offers three distinctive living environments, two of which are not currently being provided in the local marketplace. The first neighborhood provides for homes with garages in the rear of the house accessed off an alley. This enhances the character of the street and is consistent with the original intent of the Village One Specific Plan. In addition, 44 of these units incorporate an innovative carriage type, 625 sq. ft., 1-bedroom unit with its own garage, which will contribute to the City of Modesto's affordable housing needs. The second neighborhood provides houses built in clusters of five, accessed from a common parking court. The orientation of this product minimizes the impact of garages on the residential streets, as did the product in the first neighborhood. The third neighborhood consists of a more traditional lot which mirrors the Banyon Estates project. This

neighborhood provides a project buffer from the denser cluster home neighborhood to the traditional residential living in Banyon Estates.

The Falling Leaf land plan provides a number of dwelling units in substantial conformance with that envisioned by the Specific Plan, with more diversity of housing type and price range, which will be affordable to a wider range of residents. Falling Leaf also maintains the affordable housing element that would have been provided by the multifamily designation under the Specific Plan guidelines.

With the proposed changes offered by Falling Leaf, the fee revenue generated will be equal to or greater than that previously envisioned Specific Plan, adding much needed additional revenues for the Village One projects.

Based on the influences of the housing market, the Falling Leaf development proposes to offer three uniquely different single-family neighborhood products on a total of 314 lots by eliminating the recommended commercial zones and redistributing the multi-family density over the larger project area. PPA 23 will feature 100 Alley Homes, with rear access to a 2-car garage. Of the 3 Alley Home models being offered, the 44 "Plan 3" models will feature a secondary dwelling unit, with a separate entrance and an additional 1-car garage. PPA 24 provides for 131 Court Homes with garage access off a common court driveway. In addition the medium density Alley and Court Home will provide at least one on-street guest parking space per lot. The existing Banyon Estates neighborhood will be buffered by 64 standard front loaded units on 5,000 sq. ft. lots, and the existing Sundance Lake neighborhood will be buffered by 19 standard front loaded units on 4,730 sq. ft. lots.

The Alley Homes, in PPA 23, and the Court Homes, in PPA 24, shall include lots of less than 2750 square feet minimum as indicated in the Specific Plan.

In PPA #23, Alley Homes shall be constructed on lots ranging from 2100 square feet to 3550 square feet. Due to the unique use of "cross easements", they shall be in substantial conformance to the Specific Plan's "usable yard area" requirement of 300 square feet.

In PPA #24, the Court Homes shall be comprised of five (5) cluster units constructed on lots ranging from 2260 square feet to 3229 square feet, averaging 2730 square feet within each cluster. Again "cross easements" and common driveways shall be instrumental in the development of the individual character of each dwelling unit. All of the cluster lots are designed with a minimum of 300 sq. ft. "usable yard area". A common play area, based on 150 sq. ft. per residential lot, has been provided, in both Area #23 and #24, as supplemental compensation for the adherence to the "usable yard area" standards. The small lots and yard areas are needed to provide the unique and diverse single family housing type at medium density.

B-3 Criteria for Analysis of Amendment

The following analysis, of the amendment's effects, is in compliance with Chapter V(3)(a-h) of the Village One Specific Plan as follows:

- a) Conformance with the Specific Plan Guiding Principles is being adhered to. The current Specific Plan recommends a mixture of commercial, single-family, and multi-family developments equaling approximately 5 acres, 56.4 acres, and 9 acres, respectively, with a combined average number of 485 dwelling units. By factoring in residential units for the commercial areas and reducing the number of units for the required storm basin in PPA 23, this number increases to approximately 507 dwelling units.

In comparison, the Falling Leaf Subdivision is proposing 358 dwelling units (314 lots, 44 of which have the auxiliary one bedroom dwelling unit) combined with the 48 lots in Banyon Estates and the projection for developments on the Vincent/Fiez properties (30 lots), the church site (51 lots) and the rural homesite (3 lots) located on Sharon Avenue for a combined average number of 490 dwelling units (see calculations per item "b").

- b) As further illustrated on the next page, PPA 23 and 24 will remain substantially in compliance with the intent of the underlying Specific Plan zoning. PPA 24 will experience a decrease from its original density that will be offset by an increase in the PPA 23 density. All transfer calculations affect only those areas within the limits of the proposed Falling Leaf Subdivision development. Areas outside the development shall maintain densities in accordance with the original guidelines of the Specific Plan. The designated commercial sites have been deemed less desirable based on physical accessibility and mitigation factors attributing to traffic impacts.

Original Dwelling Unit Calculations:

<u>Area 23</u>		
Sub-Area A	Commercial Conversion to Residential (2.5 ac)(avg. density calculated @ 5.8 du/ac)	= 14 du
Sub-Area B	Village Residential (see Village One Specific Plan) (assumes development of church site per Specific Plan)	= 164 du
<u>Area 24</u>		
Sub-Area A	Commercial Conversion to Residential (2.5 ac) x (avg. density calculated @ 5.6 du/ac)	= 14 du
Sub-Area B	Village Residential (see Village One Specific Plan)	= 108 du
Sub-Area C	Medium High Density Residential (see Village One Specific Plan)	= <u>213 du</u>
<b>Original Total Dwelling Units for PPA 23 and 24</b>		<b>513 du</b>
Area 23 dwelling unit adjustment due to a new storm basin required per the Village One Facilities Master Plan Update (1.1 ac) x (5.8 du/ac)		= <u>-6 du</u>
<b>Adjusted Total Dwelling Units for PPA 23 and 24</b>		<b>507 du</b>

Proposed Dwelling Unit Transfer Calculations:

<u>Area 23</u>		
Sub-Area A	Falling Leaf Alley Home (Lots)	= 100 du
	Falling Leaf Alley Home (Studio Units - Plan 3)	= 44 du
Sub-Area B	Falling Leaf Village Residential (lots)	= 19 du
	Fiez Property, and Vincent Property Remainder (5.2 ac) x (5.8 du/ac)	= 30 du
	Church Site (8.9 ac) x (5.8 du/ac)	= 51 du
<u>Area 24</u>		
Sub-Area A	Falling Leaf Court Homes	= 131 du
Sub-Area B	Falling Leaf Village Residential (lots)	= 64 du
	Banyon Estates (existing development)	= 48 du
	3839 Sharon Avenue (existing 1 ac homesite)	= <u>3 du</u>
<b>Proposed Total Dwelling Units for PPA 23 and 24</b>		<b>490 du</b>

- c) This amendment proposes that the Falling Leaf project will remain consistent with the Comprehensive Policies of Chapter II inasmuch as the anticipated “build out” for PPA 23 and 24 are accomplished through the described method of density transfer. Whereby the project proposes unique single family homes at medium density by means of the Alley Home and Court Home neighborhoods.

The Alley Homes on the northern portion of the site front onto the community avenues, with rear garages off of interior alleys. By moving the garages off the main roads, a community of small cottage homes is created which is very livable and pedestrian friendly. To further enhance the neighborhood streets, we have given the homes a rich architectural style, based on traditional forms and elements that will mesh well with the existing surrounding context.

These homes have three different floor plans, with two elevations each. Massing of the homes consists of one, two and three story elements that aid in creating a visually diverse streetscape. Sizes of these homes range from 1,700 – 2,400 sq. ft., all with 3 bedrooms and 2 car garages. 44 of these homes incorporate a carriage type, one bedroom unit with its own garage, all separated from the main living space. This unit can be rented to help subsidize the mortgage of the home making the unit more accessible to a wider range of potential homeowners. It is anticipated that these income producing unit will adhere to the affordable housing standards of the city.

Each of the alley homes shall have a private, at grade, courtyard to one side in addition to their front porch or stoop. With a 4’ setback between homes, the utilization of this outdoor space is expanded by the use of a landscape easement from the adjacent neighbor’s property and through jogging the exterior wall at the private outdoor space. Through these measures, we are able to create courtyards that range in depth from 11’-6” to 18’-4” with areas ranging from 308 sq. ft. to over 460 sq. ft. while still reaching a density of approximately 12 dwelling units per acre.

The Court Homes directly south of Floyd Avenue consist of a series of five home clusters placed around a landscaped off street courtyard. Each residence within these courtyard homes has a garage that is accessible from the central court. These courtyards remove the garage doors from the main streets producing a soft and inviting neighborhood, and creating a safe place for children to play away from traffic. The five homes arranged around the courtyard also creates smaller micro-communities within the larger one where strong relationships can be formed between its residents. In addition, each home has a private back yard ranging from 330 to 400 square feet of useable space.

Through utilization of these methods, we are able to create a beautiful and friendly community, made up of single-family detached homes with private rear yards, while also achieving a density of 11.4 dwelling units per acre. This density is also brought about through the use of a 4' setback between homes, softened with landscape easements between the three homes at the rear of the cluster. This easement has been put in place to allow the two corner lots to enhance their entry porch with landscaping as well as enrich the overall courtyard.

Each five home cluster is made up of three different plans ranging from 1,600 – 2,100 sq. ft. with 3 – 5 bedrooms and 2 car garages. Each floor plan has been designed with two elevations using traditional massing and detailing pulled from the neighboring communities. The largest plan, which faces the street, has an additional third elevation to aid in creating a more diverse streetscape along the main streets of the community.

The project seeks exceptions to the minimum lot size of 2750 sq. ft. and 15 foot dimension for “usable yard area” in order to accomplish the single family developments at medium density.

- d) The Falling Leaf project will provide a buffer to the residents of Banyon Estates and Sundance Lake developments by providing conventional single-family lots adjacent to the common property lines.

PPA 23 is unique in several ways. First, is the presence of the Church of the Latter Day Saints at the northeast corner of Floyd and Fine Avenues. The site has an underlying residential zoning; however, it is compatible by definition of conditional use in the Specific Plan and will remain unaffected by this amendment.

The second concern was with the communication tower located on the Vincent property. Stevens, Ferrone & Bailey Engineering Company, Inc., performed a review and evaluation (see attached report dated May 14, 2004, of the structural and safety issues associated with the 280-foot high tower). Their findings recommended that a clear zone setback area, equal to the height of the tower, be designated to restrict building. The Falling Leaf Subdivision design has followed this recommendation.

The approval of this amendment will not have significant visual impacts on-site or off-site that are not in substantial conformance with the Village One Guiding Principles and intent of the underlying zoning. Due to the increased density, small lot developments require particular attention to architectural elements and landscaping enhancement in order to ensure the continued livability, appeal, and viability of the neighborhood.

- e) Direct traffic impacts associated with Floyd Avenue and the future development of the Claus Road urban interchange are of concern. By eliminating the multi-family and the commercial areas, the impacts to Floyd Avenue will be reduced. Ingress and egress into PPA 23 is provided by a residential street that intersects with Fine Avenue. A secondary interim access onto Floyd Avenue should be permitted until the ultimate urban interchange is built. At which time, the interim access point will be converted into a pedestrian and emergency vehicle access only. An access control wall will be constructed to restrict pedestrian and vehicular access along the remaining frontage on both sides of Floyd Avenue, and the Claus Expressway frontage.
- f) The proposed amendment remains consistent with the preservation of open space as presented in the Village One Specific Plan. Additional open space has been designated for a "park/tot lot" based on providing 150 sf per lot.
- g) All public utilities are available at the project site and adhere to the conceptual design standards as presented in Chapter II of the Village One Specific Plans.

The services of URS Corporation were solicited to evaluate PPA 23 and 24 for purposes of mitigating the presence of the Swainson's Hawk (see attached letter dated April 5, 2004). Their findings concluded that the properties have a low potential for nesting or foraging of the Swainson's Hawk and would provide a poor habitat for prey.

**1PRECISE PLAN AREA NO. 23  
(FIGURE III-24)**

1. Acreage: 32.1 Acres (of which 2.3 acres is devoted to noise setback area)
2. Land Use Intensity:
  - a. Medium Density Residential (Alley Homes) 14.3 Acres (of which 1.8 acres is devoted to noise setback area, and 1.1 acre for a basin)
  - b. Village Residential 17.8 Acres (of which 0.5 acre is devoted to noise setback area)
3. Special Considerations:

The Precise Plan shall incorporate the following policies:

- a. Within Sub-Area "A," Single-Family Residential and Multi-Family Residential mix shall be allowed, yielding an average density of 11.5 dwelling units/acre.
  1. The average number of dwelling units is 144.
  2.  $144 \text{ dwelling units} \div 12.5 \text{ acres} = 11.5 \text{ dwelling units/acre}$ .
  3. Sub-Area "A" site plan and plot plan shall be approved by means of an approved Tentative Subdivision Map and Final Development Plan.
- b. Within Sub-Area "B," only Single-Family Residential uses shall be allowed.
  1. The average number of dwelling units is 100. ( $17.3\text{ac} \times 5.8\text{du/ac}$ )
- c. The existing church shall be allowed to remain. However, its Principal Underlying Zone is R-1, Single-Family Residential. Expansion of the church facilities shall require a Conditional Use Permit.
- d. Vehicle access to the existing church from Floyd Avenue shall be provided with minimal disruption to through-traffic flow.
- e. The northern boundary of the Precise Plan Area shall be the north boundaries of Assessor's Parcel Numbers 52-23-06 and 52-23-56.
- f. Development in this Precise Plan Area shall conform to the "Noise Mitigation for Residential Precise Plan Areas" policy presented in Chapter III Section D.11&12.
- g. Parcels adjacent to Floyd Avenue and Claus Expressway shall be back-up lots, and provide a traffic noise mitigation setback where no habitable dwellings shall be placed, for all residential units as well as a 7-foot high sound wall, in accordance with Figure II-3 and Chapter III Section D.11.

Precise Plan Area No. 23  
(Figure III-24)

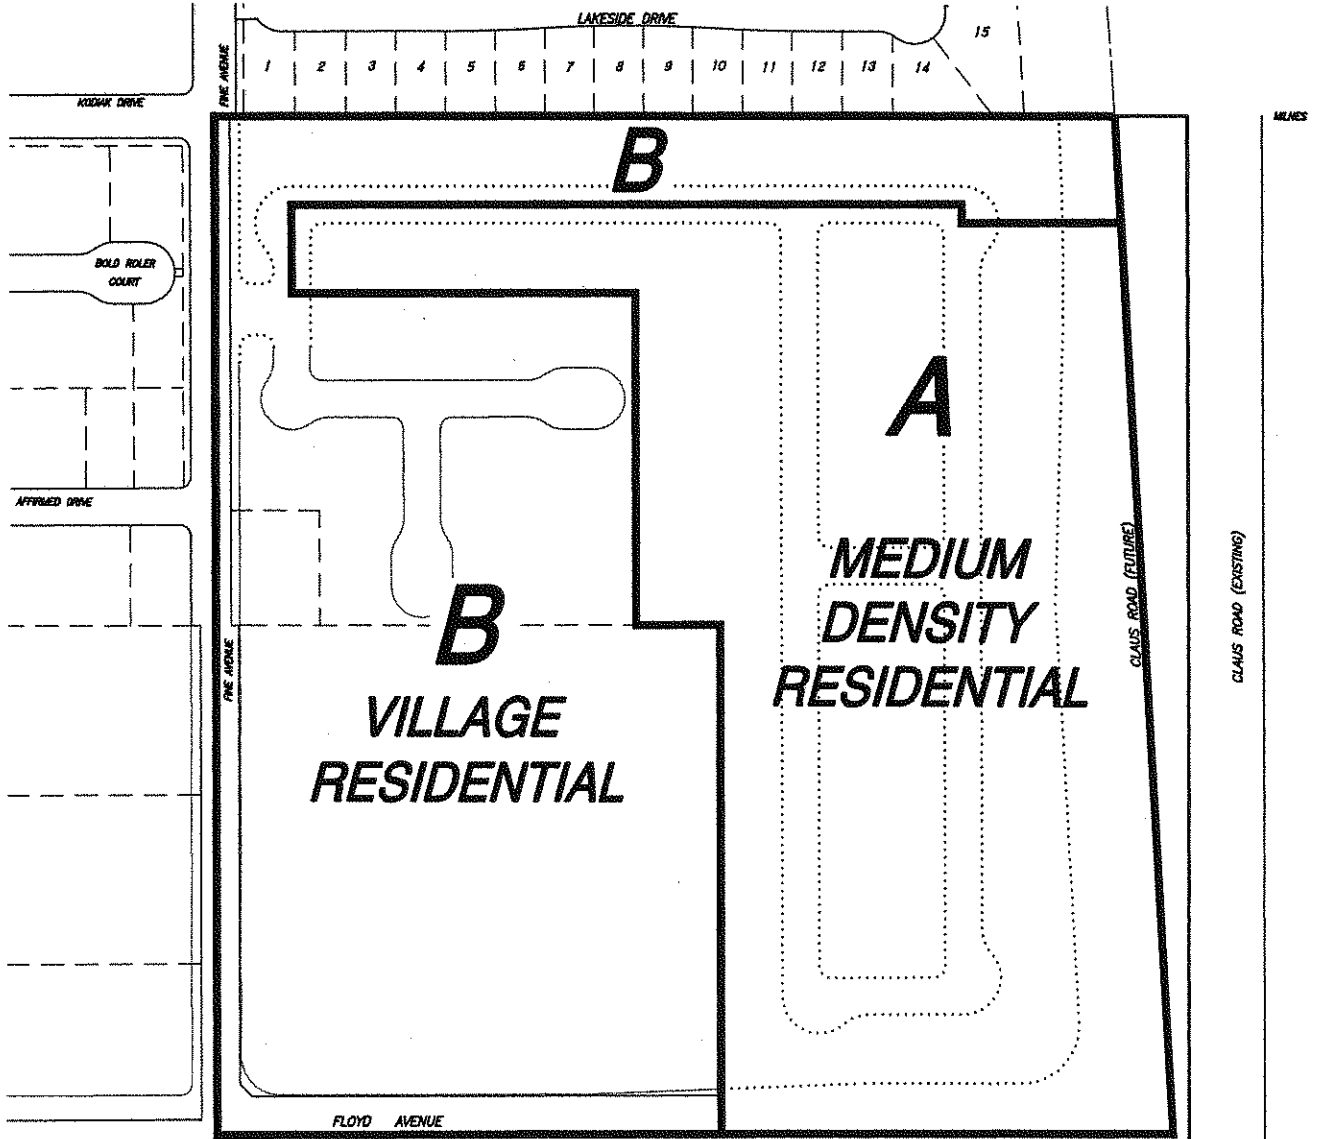

- h. Setback areas for landscaping and the trail system on Claus Expressway shall be provided in accordance with the standards in Chapter II.
- i. Floyd Avenue dedication will be required to the ultimate right-of-way alignment as shown on the Falling Leaf Vesting Tentative Map. In the interim, Floyd Avenue will be constructed to the 104' minor arterial street standard to the existing location of Claus Road. Landscaping shall be installed between the curb and sound wall. Interim access on to Floyd Ave from Sub-Area "A" is recommended to alleviate traffic congestion of Fine Ave. Requirements and approval shall be by the Precise Plan. See Section IV, subsection "Circulation" of the Precise Plan.
- j. The bike route on Floyd Avenue shall be Class 1 as shown on the Floyd Avenue cross section in the Facilities Master Plan Update, Layouts of Roads & Intersections.
- k. Parcels less than 2750 square feet shall be permitted within Sub-Area "A" by the approved Final Development Plan which includes Architectural Site Plans.
- l. In accordance with Chapter II Section G.13.a.4, medium density single family lots within Sub-Area "A" shall substantially conform to the 300 square feet minimum of "usable yard space". A variance of the minimum 15-foot dimension criteria will be permitted by the approved Final Development Plan which includes Architectural Site Plans.
- m. A community park/open space totaling a minimum of 150 square feet per every medium density single family lot within Sub-Area "A" shall be established.
- n. A minimum of one "guest" on-street parking space or a dedicated off-street parking space shall be provided per single family lot within Sub-Area "A".
- o. Small lot developments in Sub-Area "A" require particular attention to architectural elements and landscaping enrichment in order to ensure the continued livability, appeal, and viability of the neighborhood. Facades that are visible from adjacent streets or common open spaces should display greater visual interest. This can be done by using architectural elements that break up the massing of large buildings, such as windows, porches, bay windows, balconies, and other architectural features. High clerestory-fixed windows shall be provided on the first floor adjacent to the neighbor's yard area. Attention should be provided for landscaping in the front yards and between dwelling units. Other design features may include but not limited to stamped concrete for the alleys. The Final Development Plan will approve the design standards. The design features for the village residential homes in Sub Area "B" shall be compatible with the homes in Sub Area "A" within the Falling Leaf project.

Precise Plan Area No. 23  
(Figure III-24)

- p. The building setbacks for Sub-Area "A" will be approved by the Final Development Plan. The guidelines for the setbacks are a minimum 10 feet next to public streets (including back-up situations), minimum 4 feet on the sides and rear.
- q. Habitable dwellings shall be prohibited within a 280-foot radius clear zone around the communications tower as shown on the Falling Leaf Vesting Tentative Subdivision Map.
- r. The village residential lots within Sub Area "B" adjoining the north boundary of Precise Plan Area 23 shall have the following minimum setbacks; 10-foot front yard, 20-feet to garage, 5-foot side yard, and 20-foot rear yard.
- s. Disclosure of Claus Expressway shall be provided to home buyers of lots adjoining the Claus Expressway lineal trail as shown in Chapter II, as approved by the Tentative Subdivision Map and/or the Final Development Plan.
- t. A masonry wall shall be built alongside the existing wood fence of Precise Plan Area 10. The new masonry wall shall match the height of the existing wood fence.
- u. The Falling Leaf development shall install off-site improvements limited to curb, gutter, sidewalk, and street widening only, along the east side of Fine Ave within Precise Plan Area 23. Said improvements will bridge any non-improved frontages between the Falling Leaf entrance and the existing church improvements, providing a safe route to school. Right-of-way will be dedicated without expense to the Falling Leaf developer. Improvement obligation will cease when construction of the Falling Leaf development is complete and necessary right-of-way has not been dedicated.

4. Principal Underlying Zone(s)

- a. Sub-Area "A" – Medium-Density Residential, yielding an average gross density of 11.5 dwelling units/acre.
- b. Sub-Area "B" – R-1, Low-Density Residential

**PRECISE PLAN AREA NO. 24  
(FIGURE III-25)**

1. Acreage: 34.4 Acres (of which 2.4 acres is devoted to noise setback area)
  
2. Land Use Intensity:
  - a. Medium-Density Residential 12.7 Acres (of which 1.2 acres is devoted to noise setback area)
  - b. Village Residential 21.7 Acres (of which 1.2 acres is devoted to noise setback area)
  
3. Special Considerations:

The Precise Plan shall incorporate the following policies:

- a. Within Sub-Area "A," only Single-Family Residential uses shall be allowed, with an average density of 11.4 dwelling units/acre.
  1. The average number of dwelling units is 131.
  2.  $131 \text{ dwelling units} \div 11.5 \text{ acres} = 11.4 \text{ dwelling units/acre}$ .
  3. Sub-Area "A" site plan and plot plan shall be approved by means of an approved Tentative Subdivision Map and Final Development Plan.
- b. Within Sub-Area "B," only Single-Family Residential uses shall be allowed.
  1. The average number of dwelling units is 115.
- c. Setback areas for landscaping and the trail system on Claus Expressway shall be provided in accordance with the standards in Chapter II.
- d. Vehicle access to Sub-Areas "A" should be designed to minimize disruption to traffic flow on Floyd Avenue, consistent with Chapter II Section G.13.a.14.
- e. A knuckle shall close Sharon Avenue at its access to Claus Road. Abandonment of the right-of-way shall be processed.
- f. Development in this Precise Plan Area shall conform to the "Noise Mitigation for Residential Precise Plan Areas" policy presented in Chapter III Section D.11&12.
- g. Parcels adjacent to Floyd Avenue and Claus Expressway shall be back-up lots, and provide a traffic noise mitigation setback where no habitable dwellings shall be placed, for all residential units as well as a 7-foot high sound wall, in accordance with Figure II-3 and Chapter III Section D.11.

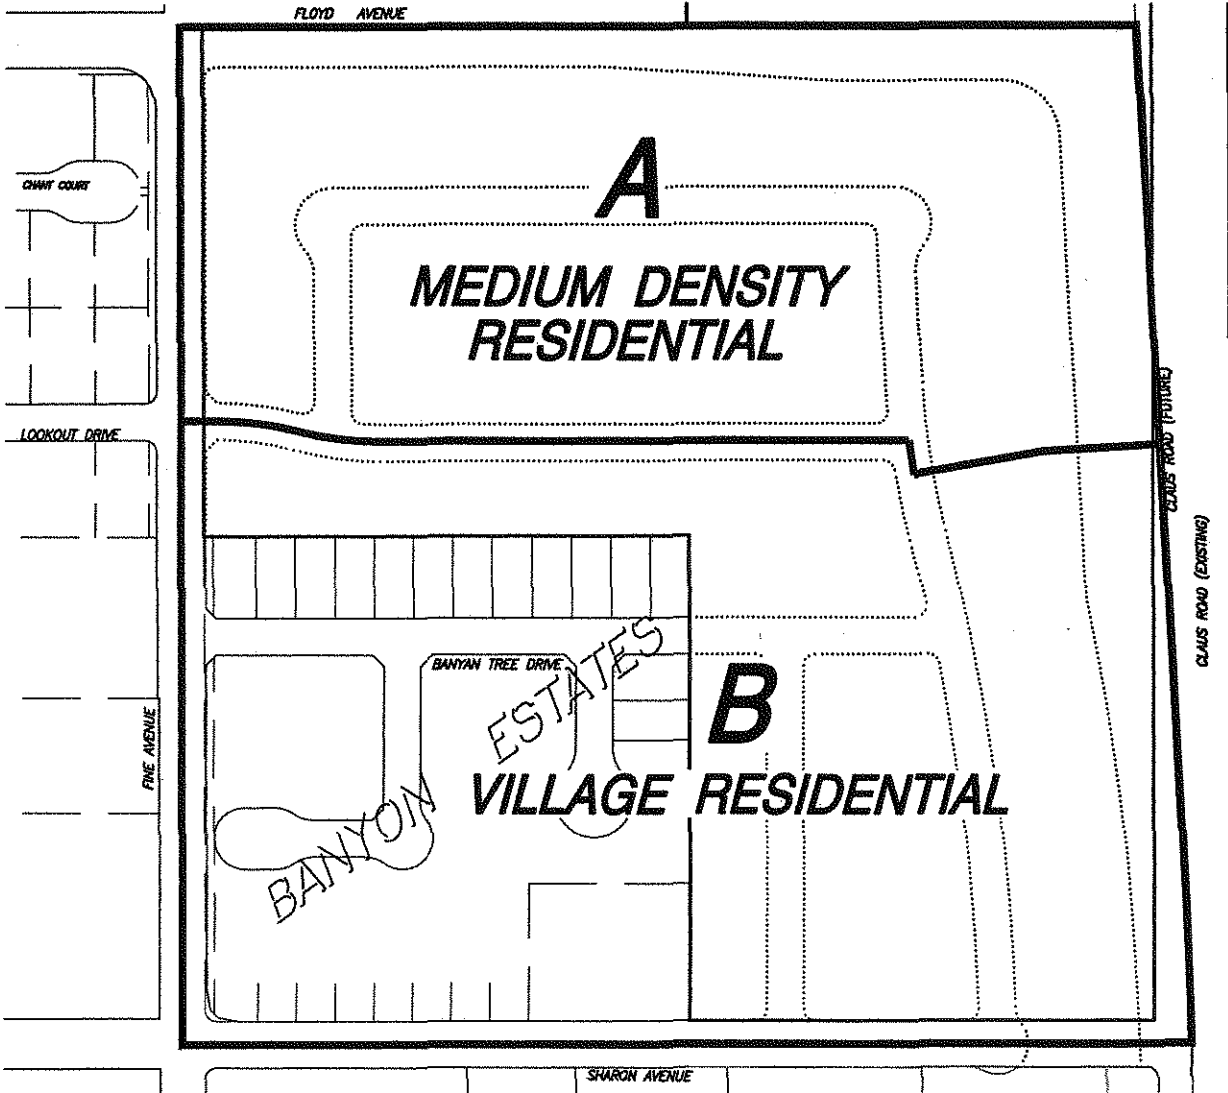

Precise Plan Area No. 24  
(Figure III-25)

- h. Floyd Avenue dedication will be required to the ultimate right-of-way alignment as shown on the Falling Leaf Vesting Tentative Map. In the interim, Floyd Avenue will be constructed to the 104' minor arterial street standard to the existing location of Claus Road. Landscaping shall be installed between the curb and sound wall.
- i. The bike route on Floyd Avenue shall be Class 1 as shown on the Floyd Avenue cross section in the Facilities Master Plan Update, Layouts of Roads & Intersections.
- j. Parcels less than 2750 square feet shall be permitted within Sub-Area "A" by the approved Final Development Plan which includes Architectural Site Plans.
- k. In accordance with Chapter II Section G.13.a.4, medium density single family lots within Sub-Area "A" shall substantially conform to the 300 square feet minimum of "usable yard space". A variance of the minimum 15-foot dimension criteria will be permitted by the approved Final Development Plan which includes Architectural Site Plans.
- l. A community park/open space totaling a minimum of 150 square feet per every medium density single family lot within Sub-Area "A" shall be established.
- m. A minimum of one "guest" on-street parking space or a dedicated off-street parking space shall be provided per single family lot within Sub-Area "A".
- n. Small lot developments in Sub-Area "A" require particular attention to architectural elements and landscaping enrichment in order to ensure the continued livability, appeal, and viability of the neighborhood. Facades that are visible from adjacent streets or common open spaces should display greater visual interest. This can be done by using architectural elements that break up the massing of large buildings, such as windows, porches, bay windows, balconies, and other architectural features. High clerestory-fixed windows shall be provided on the first floor adjacent to the neighbor's yard area. Attention should be provided for landscaping in the front yards and between dwelling units. Other design features may include but not limited to stamped concrete for the alleys. The Final Development Plan will approve the design standards. The design features for the village residential homes in Sub Area "B" shall be compatible with the homes in Sub Area "A" within the Falling Leaf project.
- o. The building setbacks will be approved by the Final Development Plan. The guidelines for the setbacks are a minimum 10 feet next to public streets (including back-up situations), minimum 4 feet on the sides and rear.
- p. Disclosure of Claus Expressway shall be provided to home buyers of lots adjoining the Claus Expressway lineal trail as shown in Chapter II, as approved by the Tentative Subdivision Map and/or the Final Development Plan.

Precise Plan Area No. 24  
(Figure III-25)

4. Principal Underlying Zone(s)

- a. Sub-Area "A" – Medium-Density Residential, yielding an average gross density of 11.4 dwelling units/acre.
- b. Sub-Area "B" – R-1, Low-Density Residential

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 -651**

**A RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS WITHIN THE SCOPE OF THE VILLAGE ONE PROGRAM ENVIRONMENTAL IMPACT REPORT (SCH NO. 90020181), AS AMENDED BY THE SUPPLEMENTAL EIR: SPECIFIC PLAN AMENDMENT NO. 18 TO THE VILLAGE ONE SPECIFIC PLAN TO AMEND THE VILLAGE ONE SPECIFIC PLAN TO CHANGE THE LAND USE DESIGNATIONS OF PRECISE PLAN AREAS 23 AND 24 FROM COMMERCIAL, VILLAGE RESIDENTIAL, AND MULTI-FAMILY RESIDENTIAL TO VILLAGE RESIDENTIAL AND MEDIUM-DENSITY RESIDENTIAL AND TO AMEND SOME OF THE VILLAGE ONE DESIGN AND DEVELOPMENT STANDARDS, ADOPTION OF A PRECISE PLAN FOR AREA NO. 23 AND CONCURRENT REZONING FROM SPECIFIC PLAN-HOLDING ZONE TO SPECIFIC PLAN-OVERLAY ZONE, AND AN AMENDMENT TO PRECISE PLAN NO. 24, PROPERTIES LOCATED ON THE WEST SIDE OF CLAUS ROAD NORTH AND SOUTH OF FLOYD AVENUE. (MONTEREY DEVELOPMENT GROUP)**

WHEREAS, the Modesto City Council has adopted Resolution No. 90-757 certifying that the Village One Final Environmental Impact Report ("EIR") (State Clearinghouse No. 90020181) is complete and adequate pursuant to Section 15090 of the California Environmental Quality Act ("CEQA") Guidelines, and

WHEREAS, the Modesto City Council has adopted Resolution No. 94-297 which certified the Final Supplemental EIR for Village One; thus, the 1990 Village One Program EIR has been amended and updated by the 1994 Supplemental EIR, adopted by Resolution No. 94-297 on May 24, 1994, and

WHEREAS, on May 6, 2003, the City Council adopted Resolution No. 2003-223 which adopted an Addendum to Village One Specific Plan Program Environmental Impact Report for the Village One Facilities Master Plan Update – May 2003 ("VI FMP"), and

WHEREAS, an application has been filed by Monterey Development Group for an (1) amendment to the Village One Specific Plan to change the land use designations of

Precise Plan Areas 23 and 24 from Commercial, Village Residential, and Multi-Family Residential to Village Residential and Medium-Density Residential and to amend some of the Village One design and development standards, (2) approval of a Precise Plan for Area No. 23 in the Village One Specific Plan Area, and concurrent rezoning from Specific Plan-Holding Zone to Specific Plan-Overlay Zone, (3) an amendment to the Precise Plan for Area No. 24 in the Village One Specific Plan Area (collectively “Project”), and

WHEREAS, the City's Community Development Department reviewed the proposed Project to determine if said Project might have a significant effect on the environment, and

WHEREAS, City staff has prepared a Written Checklist, Environmental Assessment No. EA/C&ED 2004-58, which concluded that the proposed Project is within the scope of the Village One Program EIR (SCH No. 90020181), as amended by the Village One Supplemental EIR, and the Addendum to Village One Specific Plan Program Environmental Impact Report for the Village One Facilities Master Plan, and

WHEREAS, the Planning Commission, by Resolution Nos. 2004-66, 2004-67, and 2004-68, adopted on November 15, 2004, and City staff, by a report dated November 15, 2004, from the Community Development Department, recommended to the City Council approval of Amendment No. 18 to the Village One Specific Plan to change the land use designations of Precise Plan Areas 23 and 24 from Commercial, Village Residential, and Multi-Family Residential to Village Residential and Medium-Density Residential and to amend some of the Village One design and development standards, to adopt a Precise Plan for Area No. 23 of the Village One Specific Plan and rezone Area

No. 23 to Specific Plan-Overlay Zone, and to amend the Precise Plan for Area No. 24,  
and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on December 7, 2004, at 5:15 p.m., in the Tenth Street Place Chambers located at 1010 10<sup>th</sup> Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered Environmental Assessment No. EA/C&ED 2004-58, entitled "Amendment of the Village One Specific Plan, Amendment of Precise Plan Area 24, Approval of Precise Plan Area 23, Falling Leaf Tentative Subdivision Map, and any Subsequent Approvals Consistent with Proposed Project", for the proposed Project, and the Council hereby makes the following findings:

1. The proposed Specific Plan Amendment No. 18, Precise Plan No. 23, and amendment to Precise Plan No. 24 is consistent with the Modesto Urban Area General Plan and will not result in any substantive change to the Village One Specific Plan. The proposed Plan is consistent with the land use Plan because it provides an equivalent number of units as the current Plan, addresses the issue of affordability housing, and establishes a unique and varied housing type with a quality living environment.
2. As per Section 15182 of the California Environmental Quality Act ("CEQA") Guidelines, this Project is within the scope of the projects covered by the Program EIR, and no new environmental document or findings are required by CEQA.
3. There are no substantial changes proposed in the project which result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the Village One Program EIR, as amended by the 1994 Supplemental EIR are required, and
4. No substantial changes have occurred with respect to the circumstances under which the project is undertaken which will result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects

and, therefore, no major revisions to the Village One Program EIR, as amended by the 1994 Supplemental EIR are required, and

5. There is no new information of substantial importance that was not known and could not have been known with the exercise of reasonable diligence when the Village One Program EIR, as amended by the 1994 Supplemental EIR, was adopted which shows any of the following:
  - a. One or more significant effects which is not discussed in the Village One Program EIR, as amended by the 1994 Supplemental EIR; or,
  - b. Significant effects which were previously examined will be substantially more severe than previously shown; or,
  - c. Previously infeasible mitigation measures or alternatives are now feasible and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative; or,
  - d. Mitigation measures or alternatives which are considerably different from those analyzed in the Village One Program EIR, as amended by the 1994 Supplemental EIR, would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.
  
3. The Initial Study, Environmental Assessment No. EA/C&ED 2004-58, provides the substantial evidence to support findings 3-5, noted above.

A copy of said Environmental Assessment No. EA/C&ED 2004-58, entitled "Amendment of the Village One Specific Plan, Amendment of Precise Plan Area 24, Approval of Precise Plan Area 23, Falling Leaf Tentative Subdivision Map, and any Subsequent Approvals Consistent with Proposed Project", is on file with the City Clerk attached as **Exhibit A**.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of December, 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant

# WRITTEN CHECKLIST

EA/C&ED No. 2004-58

## I. PURPOSE

On September 11, 1990, the Modesto City Council certified a Final Program Environmental Impact Report for the Village One Specific Plan (SCH# 90020181). This Program EIR analyzed the impacts of build-out of the Village One Specific Plan, which includes the area in which this project is proposed.

Subsequently, on May 24, 1994, the City Council certified a Supplement to the Village One Program EIR. This supplement updated and modified the original EIR.

Section 15182 of the CEQA Guidelines allows the approval of subsequent residential projects within the scope of the Project EIR without further environmental review, provided the following findings are made:

- (1) There are no substantial changes proposed in the project which result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the Village One Program EIR, as amended by the 1994 Supplemental EIR are required, and
- (2) No substantial changes have occurred with respect to the circumstances under which the project is undertaken which will result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the Village One Program EIR, as amended by the 1994 Supplemental EIR are required, and
- (3) There is no new information of substantial importance that was not known and could not have been known with the exercise of reasonable diligence when the Village One Program EIR, as amended by the 1994 Supplemental EIR, was adopted which shows any of the following:
  - a. one or more significant effects which is not discussed in the Village One Program EIR, as amended by the 1994 Supplemental EIR; or,
  - b. significant effects which were previously examined will be substantially more severe than previously shown; or,
  - c. previously infeasible mitigation measures or alternatives are now feasible and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative; or,

- d. mitigation measures or alternatives which are considerably different from those analyzed in the Village One Program EIR, as amended by the 1994 Supplemental EIR, would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.

The purpose of this initial study is to provide the substantial evidence to support the above findings.

The 1994 Supplemental EIR that amended and superseded the 1990 Program EIR is the document reviewed for projects within the Village One Specific Plan area. A summary of significant impacts and their mitigation measures from the 1994 Supplemental EIR is attached as Exhibit "A." Where appropriate those feasible mitigation measures developed in the Supplement to the program EIR shall be incorporated into the proposed project.

## II. PROJECT INFORMATION

- 1. **Project Title:** Amendment of the Village One Specific Plan, Amendment of Precise Plan Area 24, Approval of Precise Plan Area 23, Falling Leaf Vesting Tentative Subdivision Map, and subsequent approval consistent with the proposed project.
  
- 2. **Lead Agency Name and Address:** City of Modesto
  
- 3. **Contact Person and Phone Number:** Paul Liu, Associate Planner  
City of Modesto Community & Economic  
Development Department (209) 577-5267
  
- 4. **Project Location:** Located on the West Side of Claus Road, North and South of Floyd Avenue- Modesto, California
  
- 5. **Project Sponsor's Name and Address:** Monterey Development Group  
9781 Blue Larkspur Lane, Suite 202  
Monterey, CA 93940
  
- 6. **General Plan Designation:** The General Plan land use designation for the project site is: Village Residential (VR). The proposed project is consistent with this designation.
  
- 7. **Zoning:** Specific Plan Holding Zone (SP-H) for Precise Plan Area 23 and Specific Plan Overlay Zone for Precise Plan Area 24

**8. Description of Project:** The proposed amendment to the Village One Specific Plan and Precise Plan Area 24 and proposed Precise Plan Area 23 is a change in the land use designation from Commercial, Village Residential, and Multi-Family Residential to Village Residential and Medium Density Residential. There are also proposed amendments to some of the Village One design and development standards. The project site consisting of Precise Plan Area 23 and 24 is approximately 75 acres planned for a total of 502 low and medium density single family homes. The project applicant proposes to subdivide about 50 acres to create 325 residential lots.

**9. Surrounding Land Uses and Setting:** The Village One Specific Plan Area is over half built, as planned and approved by the 1990 Village One Specific Plan. The project area is surrounded largely by recently developed single family homes to the north (Sundance Lake) and west (Legends Village). To the south is Precise Plan Area 30 designated for Village Residential with existing with existing single family homes on large ranchette and rural parcels that could further develop under. To the east is Precise Plan Area 35, designated for Business Park development on the east side of Claus Road with existing agricultural parcels and a church.

**10. Other Public Agencies whose Approval Is Required:** None.

### III. DETERMINATION:

Based on the analysis contained in this document, staff finds that pursuant to Guidelines Section 15182 the following is true for the proposed project:

- (1) There are no substantial changes proposed in the project which result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the Village One Program EIR, as amended by the 1994 Supplemental EIR are required, and
- (2) No substantial changes have occurred with respect to the circumstances under which the project is undertaken which will result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the Village One Program EIR, as amended by the 1994 Supplemental EIR are required, and
- (3) There is no new information of substantial importance that was not known and could not have been known with the exercise of reasonable diligence when the Village One Program EIR, as amended by the 1994 Supplemental EIR, was adopted which shows any of the following:
  - a. one or more significant effects which is not discussed in the Village One Program EIR, as amended by the 1994 Supplemental EIR; or,
  - b. significant effects which were previously examined will be substantially more severe than previously shown; or,
  - c. previously infeasible mitigation measures or alternatives are now feasible and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative; or,
  - d. mitigation measures or alternatives which are considerably different from those analyzed in the Village One Program EIR, as amended by the 1994 Supplemental EIR, would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.

## IV. PROJECT EVALUATION:

The following written Checklist based on Appendix G of the CEQA Guidelines serves to document the evaluation of the site and activity of the proposed project pursuant to CEQA Guidelines Section 15168 (c) (4) to determine whether the environmental effects of the operation were covered in the Program EIR.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
<b>I. AESTHETICS.</b> Would the project:				
a. Have a substantial adverse effect on a scenic vista?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings along a scenic highway?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c. Substantially degrade the existing visual character or quality of the site and its surroundings?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Create a new source of substantial light or glare that would adversely affect daytime or nighttime views in the area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Aesthetic and visual impacts are analyzed on pages III-100 through III-101 of the 1994 Supplement.

### Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that as the Specific Plan area is developed, it will eliminate views of the valley and the distant mountains from adjacent areas and reduce the area's visual open space. However, the program EIR found the effects of build out of Village One on scenic vistas to be less than significant because views from the project area are minimal. The proposed residential development would not change the extent or nature of construction in the Specific Plan area, or cause any other changes in the project area. Impacts on scenic vistas would therefore remain the same as those identified in the program EIR. There would be no additional impact. No mitigation is required.
- b. The Village One Specific Plan program EIR found that there are no scenic resources in the project area, and that development within the Specific Plan area would therefore not result in significant impacts on scenic resources. This

finding would not be affected by the proposed residential project. There would be no impact. No mitigation is required.

- c. The Village One Specific Plan program EIR found that the development within the Specific Plan area would have a less-than-significant impact on the visual character of the area. The proposed residential development would not change the design or layout of the development proposed within the Village One Specific Plan. For this reason, impacts on the visual character of the area would remain the same as those identified in the program EIR. There would be no additional impact. No mitigation is required.
- d. The proposed residential development is consistent with the Village One Specific Plan. For this reason, impacts associated with additional light and glare would remain the same as those identified in the program EIR. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**II. AGRICULTURAL RESOURCES.** In determining whether impacts on agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Department of Conservation. Would the project:

- |    |   |                          |                          |                          |                                     |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Conflict with existing zoning for agricultural use or conflict with a Williamson Act contract?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Involve other changes in the existing environment that, due to their location or nature, could result in conversion of Farmland to non-agricultural use?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on agricultural resources are analyzed on pages III-80 through III-94 of the 1994 Supplement.

## Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that land designated as Prime Farmland would be lost as a result of development in the Village One Specific Plan area. This impact was determined to be significant and not mitigable. The proposed residential development would not affect this finding because the project area would remain the same. There would be no additional impact. No mitigation is required.
- b. The Village One Specific Plan program EIR presented information showing that any Williamson Act contracts in the Village One Specific Plan area would be automatically cancelled on annexation of the land to the City of Modesto, which has occurred, or would expire within 10 years of the time the original program EIR was prepared. The last Williamson Act contract covering land in the Village One Specific Plan area expired in 2001. There are no lands in the project area under Williamson Act contract. The Village One Specific Plan area has also been rezoned consistent with the specific plan, and no lands in the project area are now zoned for agricultural use. There would be no additional impact. No mitigation is required.
- c. The Village One Specific Plan program EIR identified a potential land use conflict between new residential uses in the specific plan area and adjacent agricultural uses. Such conflicts can lead to conversion of adjacent farmlands to other uses. The program EIR proposed mitigation measures for this potential impact that would reduce the impact's significance, although the EIR noted that the mitigation measure might not fully mitigate the impact. No additional mitigation measures are available for this impact. This finding would not be affected by the proposed project because the project area and proposed land uses would remain the same. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**III. AIR QUALITY.** When available, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the following determinations. Would the project:

- |    |   |                          |                          |                          |                                     |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Conflict with or obstruct implementation of the applicable air quality plan?                                    | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Violate any air quality standard or contribute substantially to an existing or projected air quality violation? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
c. Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is a nonattainment area for an applicable federal or state ambient air quality standard (including releasing emissions that exceed quantitative thresholds for ozone precursors)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Expose sensitive receptors to substantial pollutant concentrations?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e. Create objectionable odors affecting a substantial number of people?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on air quality are analyzed on pages III-45 through III-54 of the 1994 Supplement.

## Responses to Checklist Questions

- a. / b. The Village One Specific Plan program EIR found that air pollution from project-related construction traffic and fireplaces & wood stoves in planned residential areas would violate air quality standards and contribute to an existing air quality violation. Construction traffic emissions would contribute to violation of the state and federal 8-hour carbon monoxide (CO) and particulate matter (PM10) standards and the federal ozone standard in the Modesto Urban Area and the San Joaquin Valley Air Basin. Urban traffic pollution would contribute to violations of the state ozone, CO, and PM10 standards in the Modesto Urban Area and San Joaquin Valley Air Basin. Residential pollution would contribute to violations of the pollutant standard index in the Modesto Urban Area. Partial mitigation for these impacts is included in the program EIR (Mitigation Measures 3–5), and the City of Modesto adopted a statement of overriding consideration for each impact. The proposed residential project would not change the amount of development and construction in the project area, so trips generated by the project would not be affected and the types of land uses would not change. There would be no additional impact. No mitigation is required.
- c. The Village One Specific Plan program EIR found that air pollutant emissions associated with traffic at buildout of Village One would exacerbate the existing ozone, PM10, and CO violations in the Modesto area and cause a significant cumulative impact. Partial mitigation for these emissions is included in the program EIR (Mitigation Measures 4.5.3[a] and 4.5.3[b]), and the City of Modesto made a statement of overriding consideration for each impact. The proposed residential development would not change the amount of traffic associated with buildout of Village One or the types of land uses, so trips

generated by the project would not be affected. There would be no additional impact. No mitigation is required.

- d. The Village One Specific Plan program EIR found that PM10 generated during construction would aggravate the respiratory problems of people living and working nearby, therefore exposing sensitive receptors in the area to pollutant concentrations and causing a significant impact. However, the program EIR outlines mitigation measures that will be implemented to reduce the impact to an acceptable level (Mitigation Measure 40). The proposed residential development would not change the level of construction emissions. There would be no additional impact. No additional mitigation is required.
- e. The proposed residential development would not create odors. There would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**IV. BIOLOGICAL RESOURCES.** Would the project:

- |    |   |                          |                          |                          |                                     |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special-status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marshes, vernal pools, coastal wetlands, etc.) through direct removal, filling, hydrological interruption, or other means?                                 | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
e. Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f. Conflict with the provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on biological resources are analyzed on pages III-68 through III-79 of the 1994 Supplement.

## Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that the build out could result in the loss of foraging habitat for Swainson's Hawk, a state-listed threatened species, but found that mitigation measures identified in the program EIR would reduce the impact to a less-than-significant level. The project applicant hired a qualified biologist to survey the project site in order to determine whether the project site contains foraging habitat for the Swainson's Hawk. The Biologist determined that there would be no additional impact. No additional mitigation is required. (Swanson's Hawk Foraging Habitat Survey Village One Precise Plan No. 23 and 24, prepared by Rosemary Laird, URS Corporation. April 5, 2004).
- b. The Village One Specific Plan program EIR did not find that any riparian habitat or other designated sensitive natural community was present in the project area, and so found that the project would have a less-than-significant impact. The proposed residential development would not change the boundaries of the Specific Plan area. There would be no impact. No mitigation is required.
- c. The Village One Specific Plan program EIR found that buildout of the Village One Specific Plan area would result in the loss of lands that might be classified as wetlands by the U.S. Army Corps of Engineers but that, with mitigation, the impact would be less than significant. The proposed residential development would not change the Specific Plan area boundaries or the areas that would be disturbed. There would be no additional impact. No mitigation is required.
- d. The Village One Specific Plan program EIR did not identify any migratory corridors in the project area, nor did it find that the project would interfere with the movement of any species. The proposed residential development would not change the Specific Plan area boundaries. There would be no impact. No mitigation is required.
- e. / f. No local biological resource protection policies, ordinances, habitat conservation plans, or natural community conservation plans apply to the Village One Specific Plan area. There would be no impact. No mitigation is required.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
<b>V. CULTURAL RESOURCES.</b> Would the project:				
a. Cause a substantial adverse change in the significance of a historical resource as defined in Section 15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Cause a substantial adverse change in the significance of an archaeological resource pursuant to Section 15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c. Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Disturb any human remains, including those interred outside of formal cemeteries?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

## Responses to Checklist Questions

- a.-d. Impacts on cultural resources resulting from the buildout of Village One (e.g., from construction of associated infrastructure) are addressed in the Opportunities/Constraints Report prepared for the Modesto Planning Commission (December 1, 1989). The report concluded that there are no known historic, archaeological, or paleontological resources in the Village One Specific Plan area. Based on the results of this report, (Cultural and Historic Resources Report, page 3) it was determined that the likelihood that the proposed residential development would change or disturb human remains or significant historic, archaeological, or paleontological resources was low.

The proposed project would not change the locations or types of construction in the project area nor the boundaries of the project area. Development of the proposed project will not result in effects on scattered existing structures. A Cultural Resources Assessment was prepared to determine if any of these affected structures are considered historic resources. No historic structures are located within the project area boundaries. Therefore, no mitigation measures are necessary.

Since no archaeological, or paleontological resources were found in the previous document to be located in the project area, and since the proposed project would not have a significant impact on historic structures, there would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

**VI. GEOLOGY AND SOILS.** Would the project:

a. Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving:

- |  |                          |                          |                          |                                     |
|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| 1. Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| 2. Strong seismic groundshaking?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| 3. Seismic-related ground failure, including liquefaction?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| 4. Landslides?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

b. Result in substantial soil erosion or the loss of topsoil?

c. Be located on a geologic unit or soil that is unstable or that would become unstable as a result of the project and potentially result in an onsite or offsite landslide, lateral spreading, subsidence, liquefaction, or collapse?

d. Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property?

e. Have soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater?

Impacts associated with geology and soils are analyzed on pages III-105 through III-108 of the 1994 Supplement

## Responses to Checklist Questions

- a.-d. The program EIR, as supplemented, found that the project area is not subject to geologic or soil-related hazards that cannot be adequately mitigated through the implementation of existing city regulations, such as the building code. No significant impacts were identified, and no mitigation measures were required. The proposed residential development would not change the locations or types of construction in the project area nor the boundaries of the project area. There would be no additional impact. No mitigation is required.
- e. The Village One Specific Plan included provisions for the project to be served by public sewers. No septic tanks or alternative wastewater systems were proposed. The proposed residential project would not change the proposed method of wastewater disposal. There would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

### VII. HAZARDS AND HAZARDOUS MATERIALS.

Would the project:

- |    |  |                          |                          |                          |                                     |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Emit hazardous emissions or involve handling hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Be located on a site that is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?                   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e. | Be located within an airport land use plan area or, where such a plan has not been adopted, be within two miles of a public airport or public use airport, and result in a safety hazard for people residing or working in the project area? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

		Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
f.	Be located within the vicinity of a private airstrip and result in a safety hazard for people residing or working in the project area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g.	Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
h.	Expose people or structures to a significant risk of loss, injury, or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with hazards and hazardous materials are analyzed on pages III-80 through III-94 and III-109 through III-119 of the 1994 Supplement.

## Responses to Checklist Questions

- a.-c. The Village One Specific Plan does not allow any land uses that would use hazardous materials. The proposed residential development would not change land uses that would increase the exposure to hazardous materials contemplated by the Specific Plan. There would be no impact. No mitigation is required.
- d. The Village One Specific Plan program EIR, as supplemented, found no hazardous materials were stored at or near the project site. No significant impacts were identified, and no mitigation measures were required. There would be no additional impact. No mitigation is required.
- e. The Village One Specific Plan area is not located in an airport land use plan area or within 2 miles of a public airport. There would be no impact. No mitigation is required.
- f. The Village One Specific Plan program EIR found that a private airstrip, the Eastside Mosquito Abatement District Airstrip, is located to the east of the Village One Specific Plan area. However, take-offs and landings were found to take place parallel to and outside the Specific Plan area boundaries, and flight patterns are generally situated to the east of the Specific Plan area. There would be no additional impact. No mitigation is required.
- g. Since the adoption of the Village One Specific Plan, the Modesto General Plan has been updated to include development of Village One consistent with the specific plan. City emergency plans are developed with the assumption that the

Village One Specific Plan will be implemented. The proposed residential development would not change construction, land use, or other physical attributes of the Right-of-Way Acquisition. There would be no additional impact. No mitigation is required.

- h. The project site is located in an area of the City of Modesto planned for buildout of an urban neighborhood. Approximately 50% of the project area remains undeveloped, with a covering of dry brush and vegetation. The potential for wildland fires is low, and this potential will decrease further as buildout continues. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**VIII. HYDROLOGY AND WATER QUALITY.**

Would the project:

- |    |  |                          |                          |                          |                                     |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Violate any water quality standards or waste discharge requirements?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Substantially deplete groundwater supplies or interfere substantially with groundwater recharge, resulting in a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level that would not support existing land uses or planned uses for which permits have been granted)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner that would result in substantial erosion or siltation onsite or offsite?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner that would result in flooding onsite or offsite?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

		Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
e.	Create or contribute runoff water that would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f.	Otherwise substantially degrade water quality?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g.	Place housing within a 100-year flood hazard area, as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
h.	Place within a 100-year flood hazard area structures that would impede or redirect floodflows?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
i.	Expose people or structures to a significant risk of loss, injury, or death involving flooding, including flooding as a result of the failure of a levee or dam?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
j.	Contribute to inundation by seiche, tsunami, or mudflow?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with hydrology are analyzed on pages III-109 through III-119 of the 1994 Supplement.

## Responses to Checklist Questions

- a. The Village One Specific Plan program EIR did not find that residential development would violate any water quality standards or waste discharge requirements. The proposed project is consistent with the Village One Specific Plan, so there would be no additional impacts. No mitigation is required.
- b. The Village One Specific Plan program EIR found that buildout of the Village One Specific Plan area might interfere with local groundwater recharge. A water supply assessment study was prepared to evaluate the availability of water supplies to accommodate the proposed residential development. Therefore, there would be no additional impact. No mitigation is required.
- c.-e. The Village One Specific Plan program EIR found that development will substantially alter the existing drainage pattern of the area but, because the project will incorporate an urban storm drain system, will not result in any

erosion impacts. The proposed project would not change the amount of impervious surface or the proposed storm drain facilities. There would be no additional impact. No mitigation is required.

- f. The Village One Specific Plan program EIR did not find that development would substantially degrade water quality. The proposed project would not change water use or discharge associated with the buildout of the Village One Specific Plan area. There would be no additional impact. No mitigation is required.
- g.-i. According to the Village One Specific Plan program EIR, the project site is not situated in a 100-year flood hazard area or downstream from a levee or dam. There would be no impact. No mitigation is required.
- j. The project site is located in a flat, inland area not susceptible to seiche, tsunami, or mudflow. There would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**IX. LAND USE AND PLANNING.** Would the project:

- |    |   |                          |                          |                          |                                     |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Physically divide an established community?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Conflict with any applicable land use plan, policy, or regulation of an agency with jurisdiction over the project (including, but not limited to, a general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Conflict with any applicable habitat conservation plan or natural community conservation plan?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts associated with land use and planning are analyzed on pages III-80 through III-94 of the 1994 Supplement.

## Responses to Checklist Questions

- a. The proposed project would not result in any physical changes to the environment beyond those described in the Village One Specific Plan. The Village One area would continue to be developed as a planned community; therefore, the project would not divide an established community. There would be no impact, and no mitigation is required.

- b. The current land use designations for Precise Plan Areas 23 and 24 consist of 5 acres of Commercial use (General Commercial), 9 acres of Multi-Family use (Medium High Density Residential), and 52 acres of Village Residential (Low Density). There is roughly 9 acres for the Claus Road street dedication and noise setback area. The proposed land use designations are for 36 acres of Village Residential and 30 acres of Medium Density Residential. The current and proposed land use designations would yield essentially the same number of dwelling units of just over 500 units. The current land use designation would net an estimated 508 units and proposed would net 502 units.

The two commercial sites in the current plan are next to a future urban interchange at the corner of Floyd Avenue and Claus Road. The removal of the commercial sites is appropriate because of access limitations and traffic congestion issues at this intersection.

The current plan also includes 9 acres for multi-family residential development intended to provide some affordable housing. The proposed plan addressed the affordability issue with single family detached homes at medium density with over 11 units per acre. Conventional single family development is typically less than 6 units per acre. The proposed medium density single family product will be a varied housing option with better affordability. There are also 44 lots in Precise Plan Area 23 with a second one bedroom and 625 square feet unit that will include affordability covenants. There are a total of 174 units in Precise Plan Area 23.

The project proposes unique housing products with special and unique design features. Alley Homes are proposed in Precise Plan Area 23 where the units front on the public street with the garage rear access to a private alley. The lots range from 2,100 to 3,600 square feet. There would be "cross easements" in the side yards to maximize the "usable yard area" for each lot to a minimum of 300 square feet as required in the Specific Plan. Court Homes are proposed in Precise Plan Area 24 where typically five units will share a common driveway. The lots range from 2,300 to 3,200 square feet and each lot will also have at least 300 square feet of "usable yard area".

The proposed housing products need exception to two design standards of the Village One Specific Plan. The first is an exception to the minimum lot size of 2,750 square feet. Some lots will be as small as 2,100 square feet. The other exception is to the minimum dimension of 15 feet for the "usable yard area". The proposed minimum usable yard area dimension is 9 feet.

Due to the higher density small lot single family housing two new standards are proposed. A common play area must be provided at a ratio of 150 square feet per lot and one on-street guest parking must be provided for each lot. The ratio for common play area is based on lots and not units because the small second unit in Precise Plan Area 23 is not design for families with children. Also special architectural and landscaping features must be incorporated to insure an attractive and quality housing product.

The proposed plan is consistent with the land use plan because it provides an equivalent number of units of the current plan, relatively affordable home ownership, and establishes a unique and varied housing type with a quality living environment.

- c. There are no other applicable conservation plans for the project area. There would be no impact. No mitigation is required.

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
<b>X. MINERAL RESOURCES.</b> Would the project:				
a. Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

## Responses to Checklist Questions

- a., b. No known mineral resources or important recovery sites are located in the Village One Specific Plan Area. There would be no impact. No mitigation is required.

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
<b>XI. NOISE.</b> Would the project:				
a. Expose persons to or generate noise levels in excess of standards established in a local general plan or noise ordinance or applicable?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Expose persons to or generate excessive groundborne vibration or groundborne noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
c. Result in a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e. Be located within an airport land use plan area, or, where such a plan has not been adopted, within two miles of a public airport or public use airport and expose people residing or working in the project area to excessive noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f. Be located in the vicinity of a private airstrip and expose people residing or working in the project area to excessive noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with noise are analyzed on pages III-55 through III-67 of the 1994 Supplement.

## Responses to Checklist Questions

- a., c. The Village One Specific Plan program EIR found that proposed residential housing in the project area would be exposed to noise levels exceeding general plan thresholds, but mitigation measures were incorporated to reduce the impact to a less-than-significant level. The project would comply with the minimum noise setback of 76 feet from the centerline of Floyd Avenue and 132.5 feet from the centerline of Claus Road north of Floyd Avenue and 137.5 the centerline of Claus Road south of Floyd Avenue. The proposed project would not change project-related noise-generating activities. There would be no additional impact. No mitigation is required.
- b. The Village One Specific Plan program EIR found that the buildout of Village One would not expose people to, or generate excessive, groundborne vibration or groundborne noise levels. There would be no impact. No mitigation is required.
- d. The Village One Specific Plan program EIR found that construction of the proposed project would result in a substantial temporary increase in ambient noise levels for residential housing. However, mitigation measures were incorporated into the program EIR to reduce the impact to a less-than-significant

level. The proposed project would not change construction activities. There would be no additional impact. No mitigation is required.

- e. The Village One Specific Plan program EIR found that the Village One Specific Plan area is not located in an airport land use plan area or within 2 miles of a public airport. There would be no impact. No mitigation is required.
- f. The Village One Specific Plan program EIR found that a private airstrip, the Eastside Mosquito Abatement District Airstrip, is located east of the Village One Specific Plan area. However, take-offs and landings take place parallel to and outside the Specific Plan boundaries, and flight patterns are generally situated east of the project area. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**XII. POPULATION AND HOUSING.** Would the project:

- |    |  |                          |                          |                          |                                     |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Induce substantial population growth in an area, either directly (e.g., by proposing new homes and businesses) or indirectly (e.g., through extension of roads or other infrastructure)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Displace a substantial number of existing housing units, necessitating the construction of replacement housing elsewhere?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Displace a substantial number of people, necessitating the construction of replacement housing elsewhere?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on population and housing are analyzed on pages III-95 through III-99 of the 1994 Supplement.

## Responses to Checklist Questions

- a.-c. The Village One Specific Plan program EIR found that buildout of the Village One Specific Plan area would not result in significant adverse impacts on population and housing units. The proposed amendment to the Specific Plan would result in the same number of units as the current plan. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**XIII. PUBLIC SERVICES.** Would the project:

a. Result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities or a need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times, or other performance objectives for any of the following public services:

Fire protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Police protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Schools?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Parks?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Other public facilities?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on public services are analyzed on pages III-120 through III-158 of the 1994 Supplement.

## Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that the only significant impact that buildout of the Village One Specific Plan area would have on public services would be in the areas of fire protection and law enforcement. Mitigation measures were identified in the program EIR to reduce the level of this impact to a less-than-significant level. No other significant impacts on public services were identified. The proposed project would not change the provision of public services. There would be no additional impact. No mitigation is required.

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
<b>XIV. RECREATION.</b> Would the project:				
a. Increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Include recreational facilities or require the construction or expansion of recreational facilities that might have an adverse physical effect on the environment?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on recreation are analyzed on pages III-120 through III-158 of the 1994 Supplement.

## Responses to Checklist Questions

- a., b. No significant impacts on recreation were identified in the program EIR. The proposed project would not change the provision of parks and recreation facilities. The small lot projects are required to provide private common play area. There would be no additional impact. No mitigation is required.

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
<b>XV. TRANSPORTATION/TRAFFIC.</b> Would the project:				
a. Cause an increase in traffic that is substantial in relation to the existing traffic load and capacity of the street system (i.e., result in a substantial increase in the number of vehicle trips, the volume-to-capacity ratio on roads, or congestion at intersections)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Cause, either individually or cumulatively, exceedance of a LOS standard established by the county congestion management agency for designated roads or highways?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c. Result in a change in air traffic patterns, including an increase in traffic levels or a change in location that results in substantial safety risks?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
d. Substantially increase hazards because of a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e. Result in inadequate emergency access?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f. Result in inadequate parking capacity?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g. Conflict with adopted policies, plans, or programs supporting alternative transportation (e.g., bus turnouts, bicycle racks)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on transportation and traffic are analyzed on pages III-40 – III-44 of the 1994 Supplement.

## Responses to Checklist Questions

- a., b. The Village One Specific Plan program EIR found that buildout of the Village One Specific Plan area would cause an increase in traffic that is substantial in relation to the existing traffic load and capacity of the street system and would affect level of service at several intersections. Mitigation measures identified in the program EIR were identified to reduce impacts to a less-than-significant level for all intersections except the Briggsmore Avenue/Oakdale Avenue intersection. For that intersection, the impact was determined to be significant and not mitigable. The City of Modesto made a statement of overriding considerations for that impact at the time it certified the 1994 Supplement. The proposed project would not alter traffic patterns in the Specific Plan area or result in additional trips. There would be no additional impact. No mitigation is required.
- c. The Village One Specific Plan program EIR did not find that the buildout of the Village One Specific Plan area would result in a change in air traffic patterns. The proposed project does not include any elements that would affect air traffic patterns. There would be no impact. No mitigation is required.
- d. The Village One Specific Plan program EIR did not find that buildout of the Village One Specific Plan area included any hazardous design features or increased any incompatible uses for roads in the project area. The proposed project would not change roadway design or the land use concept of the Specific Plan. There would be no impact. No mitigation is required.

- e. The Village One Specific Plan program EIR did not find that buildout of the Village One Specific Plan area would result in inadequate emergency access in the Specific Plan area. The Specific Plan includes provision of adequate roadways to serve the Village One development. The proposed project would not change roadway design or land use concept contained within the Specific Plan. There would be no additional impact. No mitigation is required.
- f. The Village One Specific Plan program EIR did not find that buildout of the Village One Specific Plan area would result in inadequate parking capacity in the Specific Plan area. The provision of parking, consistent with zoning requirements for the proposed project, is included in the project design. There would be no impact. No mitigation is required.
- g. The proposed project does not include any changes related to transportation policies, and would have no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**XVI. UTILITIES AND SERVICE SYSTEMS.**

Would the project:

- |    |   |                          |                          |                          |                                     |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?                           | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Require or result in the construction of new stormwater drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?                                     | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Have sufficient water supplies available to serve the project from existing entitlements and resources, or would new or expanded entitlements be needed?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e. | Result in a determination by the wastewater treatment provider that serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

		Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
f.	Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g.	Comply with federal, state, and local statutes and regulations related to solid waste?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on utilities and service systems are analyzed on pages III-120 through III-158 of the 1994 Supplement.

## Responses to Checklist Questions

- a. The City provides sewer services to the Village One area. All wastewater would be directed to city wastewater treatment facilities. No wastewater discharges would occur in the project area. The proposed project would not increase the amount of wastewater that will be generated at buildout of the Specific Plan area. There would be no additional impact. No mitigation is required.
- b., e. The Village One Specific Plan program EIR discusses the changes and new facilities that will be needed to accommodate buildout of the Village One Specific Plan area. The EIR found that, with mitigation, there would be no significant impact on water or wastewater infrastructure. There would be no additional impact as a result of the proposed project. No mitigation is required.
- c. The Village One Specific Plan program EIR discusses the changes and new facilities that will be needed in order to accommodate buildout of the Village One Specific Plan area. The EIR found that, with mitigation, there would be no significant impact on stormwater drainage facilities. An update to the Storm Drainage Master Plan has been prepared and is under consideration by the City. An addendum to the Village One program EIR for the Storm Drainage Master Plan has also been prepared and is under consideration by the City. A temporary basin will be required in Precise Plan Area 23. The project would not result in any additional impacts or the need for any additional mitigation beyond that assessed in the Addendum to the Village One Program EIR for the Storm Drainage Master Plan.
- d. The Village One Specific Plan program EIR found that, with mitigation, the effects of buildout of the Village One Specific Plan area on water supply would be less than significant. There would be no additional impact resulting from the proposed project. No mitigation is required.

- f., g. The Village One Specific Plan program EIR found that the area's landfills have sufficient permitted capacity to accommodate the project's solid waste disposal needs. The proposed project would not result in any physical changes in the environment or the generation of any additional solid waste. There would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

**XVII. MANDATORY FINDINGS OF SIGNIFICANCE.**

- |   |                          |                          |                          |                                     |
|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. Does the project have impacts that are individually limited but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.)   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. Does the project have environmental effects that will cause substantial adverse effects on human beings, either directly or indirectly?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Cumulative impacts are analyzed on page III-161 of the 1994 Supplement.

**Responses to Checklist Questions**

- a. As described above, the proposed project would not result in any significant impacts on the environment over and above those associated with implementation of the Village One Specific Plan and as analyzed in the Village One Specific Plan program EIR.
- b. As described above, the proposed project would not result in any significant impacts, either on a project or on cumulative level, over and above those

associated with implementation of the Village One Specific Plan and as analyzed in the Village One Specific Plan program EIR.

- c. As described above, the proposed project would not result in any significant impacts affecting humans over and above those associated with implementation of the Village One Specific Plan and as analyzed in the Village One Specific Plan program EIR.

## V. MITIGATION APPLIED TO PROJECT

The following mitigation measures developed in the 1994 Village One Specific Plan Supplement to the Program EIR are appropriate to the project and will be incorporated into the project. Therefore, the environmental effects of the project were covered by the program EIR.

1. "All deeds for lots sold in this subdivision shall contain the following statement:

"This lot is located near existing agricultural operations. Residents may be subjected to customary and accepted farming practices that produce noise, dust, smoke and other impacts. The grantee accepts the potential impacts of customary farming practices, which may include the application and use of various, chemicals through spraying, spreading or other customary means in accordance with applicable state and federal regulations regarding such applications. The grantee also acknowledges the need to avoid activities that conflict with nearby farm uses."

2. The following statement shall be placed in all Precise Plans for Residential Development:

Prior to the Final Inspection, Building Inspection Division shall verify that all fireplaces and wood stoves in residential units are equipped to meet the performance and emissions standards set forth in Part 60, Title 40, Subpart AAA Code of Federal Regulations, February 26, 1988.

3. Noise Mitigation for Residential Precise Plan Areas

Noise measures might include, but are not necessarily limited to, setbacks, barriers, site design, or acoustical building treatment. Precise Plans shall determine from this list which measures are most relevant. This requirement shall apply to dwellings located within the identified 65 dBA exterior noise level contours. Verification of noise treatment to reduce interior noise levels to 45dBA, prior to final inspection by Building Inspection Division shall constitute compliance with this measure.

Noise mitigation for residential dwellings is required along the following streets up to the indicated distance:

Without acoustical treatment, noise levels inside proposed residential housing along the following project area major streets would exceed 45 dBA, the City's General Plan standard. The street segments and distances in feet from centerline these impacts would occur are:

Floyd Avenue, between Roselle Avenue and Claus Road:	76.0 ft.
Claus Road, between Sylvan and Floyd Avenues:	132.5 ft.
Claus Road, between Floyd and Briggsmore Avenues:	137.5 ft.

4. "Construction noise is regulated by the City's Noise Ordinance, Section 4.9 – 103. Construction noise is generally permitted during the hours of 7:00 am to 9:00 pm. To avoid complaints from nearby residents, and possible citations, the full text of the ordinance should be reviewed by builders prior to construction. City construction projects will be monitored by Construction Inspection for conformance with the City's Noise Ordinance."
5. During construction activities, Building Inspection Division shall verify that contractors observe the requirements of City of Modesto Standard Specification 2.07(A)(5), Dust Control, and when necessary, Regulation VIII of the San Joaquin Valley Unified Air Pollution Control District to control the generation of PM 10 from construction related dust and emissions.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-652**

**A RESOLUTION AUTHORIZING THE WATER DIVISION OF THE PUBLIC WORKS DEPARTMENT TO PROCEED WITH IMPLEMENTING THE 15-YEAR WATER METER INSTALLATION PLAN FOR ALL CITY-OWNED WATER SYSTEMS.**

WHEREAS, on July 8, 2003, the City Council approved a phased program of meter installation and metered water billing for single-family dwellings in the city's outlying water systems (Resolution No. 2003-387), and

WHEREAS, by Motion on May 11, 2004, the City Council directed the Public Works Department to develop a plan to meter all city-owned systems and to meter and begin billing all churches and schools by January 1, 2005, and

WHEREAS, on September 29, 2004 Governor Schwarzenegger, State of California, signed into law Assembly Bill (AB) 2572, mandating that water utilities install water meters on all service connections constructed before January 1, 1992, and

WHEREAS, most of the City of Modesto was built prior to 1992, and

WHEREAS, previously mandated installation of water meters began with new services constructed after January 1, 1992, and

WHEREAS, AB 2572 further requires metered customers to be billed on the actual volume of water delivered beginning on January 1, 2010, and

WHEREAS, those services installed after January 1, 1992 were not previously required to be read or billed, and

WHEREAS, as of June 2004 the city's water systems contain approximately 74,313 service connections, of which almost 62,000 services do not have active meters, and

WHEREAS, AB 2572 also mandates that service providers have until January 1, 2025, to install said water meters, and

WHEREAS, on October 25, 2004, the Water Division of the City of Modesto Public Works Department submitted a 15-year Water Meter Installation Plan to the City of Modesto Finance Committee, and

WHEREAS, the City of Modesto Finance Committee met on October 25, 2004, and recommended the 15-year Water Meter Installation Plan for approval to the full City Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the 15-year Water Meter Installation Plan, and authorizes the Water Division of the Public Works Department to proceed with implementation.

BE IT FURTHER RESOLVED that meter reading and usage billing will take effect by geographic area as each area's installations are completed.

BE IT FURTHER RESOLVED that customers will be notified in advance of their first metered billing, with each notice including a guide to water conservation and important contact information.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of December, 2004, by Councilmember Dunbar, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh

NOES: Councilmembers: None

ABSENT: Councilmembers: O'Bryant, Mayor Ridenour

Attest: Jean Zahr  
JEAN ZAHR, City Clerk

APPROVED AS TO FORM:

By: Michael D. Milich  
MICHAEL D. MILICH, City Attorney

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-653**

**A RESOLUTION AUTHORIZING THE ISSUANCE OF A REQUEST FOR PROPOSALS FOR THE PURCHASE AND INSTALLATION OF AN AUTOMATED (WATER) METER READ (AMR) SYSTEM.**

WHEREAS, the city-owned water systems currently include 74,313 service connections, of which only 12,405 have active meters being read and billed, and

WHEREAS, the City Council, on May 11, 2004, authorized Public Works to move ahead with developing a metering plan for all city-owned systems, which involves the installation or upgrade of approximately 62,000 meters over a 15-year period, and

WHEREAS, Assembly Bill (AB) 2572 was signed into law on September 29, 2004, mandating the installation of meters on all service connections constructed before January 1, 1992, and

WHEREAS, most of the City of Modesto was built prior to 1992, and previously mandated installation of water meters began with new services constructed after January 1, 1992, and

WHEREAS, AB2572 further requires that metered customers be billed on the actual volume of water delivered, and

WHEREAS, services installed after January 1, 1992 were not previously required to be read or billed, and

WHEREAS, the 15-year metering plan and AB2572 mandates water service providers to substantially increase the number of active city-owned meters, and the implementation of an Automated Meter Read (AMR) System, installed in conjunction with the 15-year Meter Installation Plan, would allow Water Operations to 1) more effectively manage the additional workload, 2) minimize staffing requirements through

more efficient allocation of resources, 3) aid water conservation efforts, and 4) increase revenues and improve efficiency, and

WHEREAS, on October 25, 2004, the Water Division of the City of Modesto Public Works Department submitted a proposal for an Automated Meter Read (AMR) System to the City of Modesto Finance Committee, and the Committee recommended the Automated Meter Read (AMR) System proposal for approval to the full City Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves authorizing the issuance of a Request for Proposals for the purchase of an Automated Meter Read (AMR) System, to be installed in conjunction with the 15-year Meter Installation Plan.

BE IT FURTHER RESOLVED, that meter reading and usage billing will take effect by geographic area as each area's installations are completed.

BE IT FURTHER RESOLVED, that customers will be notified in advance of their first metered billing, with each notice including a guide to water conservation and important contact information.

BE IT FURTHER RESOLVED, that the City of Modesto's Standard Specifications will be amended to include automated water meter and register specifications, and the requirement that automated meter read devices be installed on all new service connections.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7<sup>th</sup> day of December, 2004, by Councilmember Dunbar, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh

NOES: Councilmembers: None

ABSENT: Councilmembers: O'Bryant, Mayor Ridenour

**COMMENTS/JUSTIFICATION**

In fiscal year 2003, the Engineering and Transportation Department went to Council and appropriated \$350,000 in ABS savings to fund the LED Replacement Program. These monies were placed in a roll-forward operating organization 0700-160-1630. When fiscal year 2004 began these funds were not rolled forward in this account as was stipulated at the time of appropriation. Although a request was made for this action to occur to date it has not. This action is being taken to restore these funds to the LED Replacement Program account where they are needed in this fiscal year to begin replacement and installation of amber traffic signal indications per state mandate and for which no other funding is available. This program is funded annually at a lesser amount, to accrue funds to allow for replacement of these indicators every four to five years, as necessary. Because installation of the green and red indications was done all at once, it is anticipated that a good number of these will need to be replaced at the same time. The purpose of this account was to provide an ongoing funding source for replacement of the LED indications.

6550-700-1676-9070		\$3,000	\$3,882	\$6,882	Transfer Gas Tax Match (11.47%)

COMMENTS/JUSTIFICATION

CMAQ Grant was received in the amount of \$106,236 over two (2) years. Grant match funding will be provided by the Gas Tax Fund in the amount of \$13,764. Total funding \$120,000. These funds are to be appropriated into an existing operating organization 6550-165-1676. \$3,000 in Gas Tax funding was appropriated at the beginning of the fiscal year to cover expenses until the grant came in. No monies were budgeted for fiscal year 04-05. This organization should be set up as a multi-year operating budget. This will ensure that the funds from this grant are expended properly and in-keeping with the proposed grant application.

### COMMENTS/JUSTIFICATION

This budget amendment is being made to increase funding for Scenic and Bodem Right Turn Lane Project. This increase is necessary to cover the costs of additional environmental work that was required prior to going out to bid. This work caused a delay in the project timeline. Due to the amount of time that has passed since the project was originally budgeted, costs for construction have gone up significantly. This amendment is being made to cover the revised estimated costs of construction.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-657**

**RESOLUTION APPROVING THE EXTENSION OF THE CITY'S SUPPORT  
FOR THE PUBLIC ACCESS CHANNEL OPERATION THROUGH THE END  
OF APRIL 2005.**

WHEREAS, the Local Cable Committee was reestablished on March 3, 2004, and tasked with creating a non-profit corporation to manage the Public Access Channel and given a completion date of December 31, 2004 and

WHEREAS, the non-profit was to be created specifically for the sole purpose of managing the Public Access channel and would assume responsibility for the management of Public Access once formed, and

WHEREAS, the non-profit corporation would also seek private funding sources for the operation of the Public Access channel, and

WHEREAS, the Local Cable Programming Committee has formally requested by letter, a copy of which is attached as **Exhibit "A"**, that the operation of the Public Access be extended to April 30, 2005, and

WHEREAS, staff recommends approval of a four month extension until April 30, 2005, which will provide the best opportunity for the committee to succeed in creating a viable non-profit corporation and to assume the non-profit plan that was developed by Community Media Network, and

WHEREAS, staff presented this item to the Safety and Communities Committee on December 6, 2004, and the Committee recommended taking the item to full Council for approval.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the extension of the City's support for the public access channel operation through the end of April 2005.

BE IT FURTHER RESOLVED that upon approval of the four-month extension, City Staff shall reactivate the non-profit corporation Community Media Network while the Local Cable Committee continues to focus on recruiting members for the non-profit corporation and securing funding sources for operational costs.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of December 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

NOES: Councilmembers: None

Michael D. Milich

MICHAEL D. MILICH, CITY ATTORNEY

Dec. 6, 2004

**EXHIBIT A**

Councilmember Will O'Bryant, Chair  
Safety and Communities Committee  
City of Modesto  
Modesto, CA

Dear Councilmember O'Bryant,

On behalf of the Local Cable Programming Committee, I am writing to you and the other members of the Modesto City Council, to request an extension of the current Dec. 31, 2004 deadline facing our committee in its task of forming a non-profit corporation to oversee the operation of the Public Access Channel, currently located on Channel 26 on the Comcast cable television system. It is the understanding of the committee that without this formal request for an extension, the operation of Channel 26 would go "dark" as of Jan. 1, 2005 due to the fact that no funding for its operation has been provided for in the 2005 City of Modesto budget.

At its Dec. 2, 2004 meeting, the Local Cable Programming Committee voted unanimously to authorize me, as its chairman, to write a letter to the City Council requesting that the operation of the Public Access Channel be extended to April 30, 2004. This request is based upon budget information provided by city staff that as of Dec. 31, 2004 there will be approximately \$8,050 remaining in the current operational budget for Channel 26.

Along with this request, the Committee would like to update the Council on its efforts to date.

- A Bylaws Subcommittee has been formed for the purpose of writing bylaws necessary for the creation of a non-profit corporation. That subcommittee has met with the local accounting firm of Clendenin and Bird, which has indicated its willingness to assist in the creation of a non-profit. Discussions with the firm are ongoing and the subcommittee is gathering anticipated costs. Additionally, the subcommittee has secured a pledge of pro bono work from Modesto attorney Bradley Post from the law offices of Borton, Petrini & Conron to assist in the setting up of the non-profit.
- A Board of Directors Recruitment Subcommittee has been formed. At this time, approximately 10 citizens have indicated their willingness to serve on the board of the non-profit corporation. The recruitment effort is being publicized through placement of announcements on the three PEG channels, as well as through a press release to local media outlets. A copy of the press release is provided with this information packet. The subcommittee hopes to recruit approximately 25 citizens to serve as directors.
- In partnership with the Stanislaus County Office of Education, the Committee authorized video production classes for the public at no charge. The classes held

in September were well received with four community groups participating in the sessions. It is this type of collaborative effort that is the model for the success of Public Access.

- The Committee has met with the Executive Director of Sacramento Access, Ron Cooper. He has provided valuable insight into the formation of a non-profit and provided the Committee with various resources in the non-profit sector.

Looking to the future timeline, the Committee anticipates that it will take two to three months to complete the necessary paperwork and legal review to form the non-profit. During this time, the Board of Directors will need to meet and familiarize themselves with the basics of Public Access and formally organize their structure.

As the non-profit becomes operational, one of its major tasks will be structuring a budget. Based on financial data provided by city staff to the Committee on the current operational costs of the Public Access Channel 26, the Committee estimates that Public Access will need an approximate annual operational budget of \$85,333.

The Local Cable Programming Committee stands ready to assist the new non-profit with the task of identifying possible funding streams, including underwriting by local businesses and possible grants from government sources. However, the Committee would like to strongly state its belief that the City of Modesto must continue with the commitment it has made to the public portion of PEG by dedicating a portion of the current 3% franchise fee to Public Access. A review by the Committee of every successful Public Access Channel operation in California shows that a strong and viable Public Access Channel is possible only with the financial support of a portion of the franchise fee. The Committee would be glad to offer documentation of these models to the City. The nearest examples are Access Sacramento and the current franchise agreement currently being negotiated between the City of Fresno and Comcast.

On behalf of the Committee, I would like to thank the Council for its support to date of the efforts to form a non-profit organization to oversee Public Access. This effort faces many formidable challenges, but the Committee is confident that the City will continue to be supportive of the public's right to access cable television just as strongly as it supports the operation of the Education and Government channels.

Sincerely,

Mark Looker, Chairman  
Local Cable Programming Committee

**The City of Modesto Local Cable Committee is Seeking Board of Director Members for a Public Access Nonprofit Organization**

The City of Modesto Local Cable Committee is seeking Board of Director members for a Public Access nonprofit organization.

Local Cable Programming Committee has been directed by the Modesto City Council to form an independent non-profit organization to oversee the management of Modesto's public access television channel and is issuing a call for any citizens interested in serving on the board of directors. The Public Access Channel, Channel 26 on the Comcast cable television system, is currently operated by the City of Modesto.

To be eligible, directors must reside in the Comcast cable television system, covering 56,000 cable-viewing homes in the Modesto-Oakdale area. Applicants should be willing to devote at least two hours monthly for board meetings and be willing to speak to various community-based organizations seeking support for public access television in Modesto. It is anticipated the board will meet on a monthly basis during the initial phase.

Directors will be asked to provide guidance to the organization as it develops its operational philosophy, mission, operating rules and procedures. Directors will also be asked to help seek financial assistance from the community to underwrite the non-profit corporation's activities in serving the community's access to noncommercial cable television.

Any citizens interested in serving on the Board of Directors can obtain further information by contacting Local Cable Programming Committee Chairman Mark Looker at (209) 575-2094 or email [mlooker@ainet.com](mailto:mlooker@ainet.com).

# Modesto Public-Education-Government (PEG) Historical Background:

- 2000-2002. Community Media Network, a non-profit corporation, is formed by volunteer citizens in Modesto to manage the PEG channels. A board of directors is recruited and a conceptual budget for both capital costs and operating costs is adopted, based upon the expectation that a percentage of the franchise fee would be allocated to operation of PEG. The group becomes inactive after the city of Modesto completes franchise negotiations and no portion of the 3% franchise fee is allocated to PEG.
- July 5, 2001, the City Council approved an agreement allowing the City to establish a PEG facility and assume operation within 12 months of the PEG channels from the then franchise holder AT&T.
- June 11, 2002. The City Council approved the transfer of the franchise agreement from AT&T to Comcast, Resolution No. 2002-299. The franchise agreement provided for a ten-year renewal and set the franchise fee at 3% of gross revenues. At the same time, the Council approved the purchase of equipment "necessary to privatize the Cable Television Master Control Room for the sum of \$100,000" and authorized the City Manager to "negotiate all necessary agreements for the continued operation of Public-Education-Government (PEG) Programming," Resolution No. 2002-300.
- Aug. 15, 2002. AccessModesto becomes operational and controls Comcast Broadband Channels 26 (Public), 7 (Government) and 96 (Education) in the Modesto-Oakdale area.
- July 23, 2002. Council approved a two-year agreement with Final Cut Media, for the management of the daily operations of a Master Control Room located at 1100 H Street for the purposes of airing Public-Education-Government television programming and to provide camera production support for various Education/Government meetings and events. Estimated annual cost is \$160,000, with the City's contribution \$80,000 annually.
- Nov. 26, 2003, the City Council unanimously adopted Resolution No. 2002-593 that approved "the concept of establishing a non-profit organization to perform current and future functions of AccessModesto." The Local Cable Programming Committee is inactive at the time of this resolution and is reactivated with the Council advertising for citizen members. The current Committee is activated and on April 28, 2004 held its first meeting at which I was elected Chairman.
- Spring 2004. City of Modesto adopts budget, reflecting cuts in the budget for Office of Information Technology, which oversees operational budget for PEG.
- June 1, 2004, the franchise agreement is amended by the City of Modesto and Comcast to provide for the construction of the Institutional Network (I-Net) with the franchise agreement renewal being extended for 15 years until July 4, 2016. The action followed a settlement of a lawsuit between the City and Comcast over improper plant electrical grounding. Comcast agreed to complete the I-Net with the operator bearing the city's cost of the project estimated to cost up to \$3

million. In addition, Comcast paid a \$50,000 fine and contributed \$100,000 in youth recreation grants over two years.

- Aug. 10, 2004. City of Modesto renews the agreement with Final Cut Media to manage the daily operations of a PEG Master Control Room. This agreement is for five years with compensation set at \$167,000 annually. The city of Modesto provides half of this cost, with Stanislaus County providing the other half. In Exhibit A, Scope of Services, Section D refers to Production and Broadcasting Services. Those services include providing camera crew to produce, broadcast and/or videotape a variety of meetings, all of which are governmental or educational in nature. Section C references coordinating scheduling and playbacks of tapes produced by non-profit groups or citizens on the Public Channel. There currently are approximately 70 producers providing material for Public Access. Section B references that items submitted for the Video Bulletin Boards on Public Channel must be posted within 10 days.
- Dec. 6, 2004. Local Cable Programming Committee requests extension of Dec. 31, 2004 deadline for formation of non-profit corporation to oversee Public Access Channel.

*Compiled by Mark Looker, Chairman, Local Cable Programming Committee  
Dec. 4, 2004*

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-658**

**A RESOLUTION APPROVING A REQUEST FROM THE VALLEY PT  
CRUISER CLUB FOR USE OF GRACEADA PARK AND FOR AMPLIFIED  
MUSIC AT MANCINI BOWL FOR THEIR ANNUAL EVENT ON JUNE 3, 2005.**

WHEREAS, staff from the Parks, Recreation and Neighborhoods Department has received a letter from the Valley PT Cruiser Club, requesting use of Mancini Bowl on Friday, June 3, 2005 for their Musicfest Concert, which is a part of their Cruiserfest 2005 event, and

WHEREAS, Cruiserfest is a public event, which will be held in various venues around the City of Modesto the weekend of June 3-5, 2005, and it is an alcohol-free event, with attendees averaging in age from 45 to 55, and

WHEREAS, specifically, they are requesting to be allowed to have live music, which will require the City Council to approve the use of amplification, and

WHEREAS, the Safety and Communities Committee met on November 1, 2004, and supported the request for amplified music,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves a request from the Valley PT Cruiser Club for use of Graceada Park and for amplified music at Mancini Bowl for their annual event on June 3, 2005.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of December 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-659**

**A RESOLUTION ACCEPTING THE MODESTO CONVENTION & VISITORS BUREAU ANNUAL REPORT AND FINANCIAL REPORT FOR FISCAL YEAR 2003/2004 AND OPERATING BUDGET FOR FISCAL YEAR 2004/2005.**

WHEREAS, the City of Modesto signed an agreement with the Modesto Convention & Visitors Bureau on June 27, 2003, to provide Convention and Visitors Bureau services, and

WHEREAS, the role of the Modesto Convention & Visitors Bureau is to strengthen the local economy by marketing the City of Modesto as a destination for meetings, conventions, sporting events, motor coach tours, film production, and leisure travel, and

WHEREAS, the Modesto Convention & Visitors Bureau is required to submit to the City of Modesto an annual report showing the results of the year's marketing programs and operations, and

WHEREAS, the Modesto Convention & Visitors Bureau is also required to submit to the City of Modesto a year-end financial report, showing income, expenses and fund balances, and

WHEREAS, a final operating budget for the Modesto Convention & Visitors Bureau is included for Fiscal Year 2004/2005, and

WHEREAS, at their November 22, 2004, meeting, the Finance Committee accepted the Modesto Convention & Visitors Bureau annual report for 2003/2004 and the operating budget for 2004/2005,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby accepts the Modesto Convention & Visitors Bureau 2003/2004 Annual Report and Financial Report and the Operating Budget for 2004/2005.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of December 2004, by Councilmember Dunbar, who moved its adoption, which motion being duly seconded by Councilmember Jackman was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-660**

**A RESOLUTION AMENDING THE FISCAL YEAR 2004-05 OPERATING BUDGET TO: (1) ESTIMATE \$40,000 IN ADDITIONAL PARKING REVENUES (\$10,000 TO 6000-350-3583-4103R, AND \$30,000 TO 0100-190-1961-4025R) AND APPROPRIATE \$10,000 TO 6000-350-3583-0140 AND \$30,000 TO 0100-190-1961-0130; (2) TO ESTIMATE \$10,000 IN REVENUE FROM THE DOWNTOWN IMPROVEMENT DISTRICT TO 0100-190-1961-8155, AND TO APPROPRIATE \$10,000 TO 0100-190-1961-0130; AND (3) TO TRANSFER \$40,000 FROM THE GENERAL FUND RESERVE, 0100-800-8000-8003, TO 0100-190-1961-0130.**

WHEREAS, an Entertainment Task Force was formed in early 2004 to address issues important to downtown restaurants, clubs, theaters and other entertainment venues, and

WHEREAS, one of its chief objectives was to partner with the Modesto Police Department to make downtown Modesto a safe and fun place to visit, and

WHEREAS, the Parks, Recreation and Neighborhoods Department, supports the first concept presented by the Entertainment Task Force, which is to make parking garage management changes in the staffing plan, utilization for special events and capturing more evening revenue, resulting in an increase in revenue of \$40,000, \$30,000 of which would be allocated to the Police Department, and

WHEREAS, the Finance Committee at its meeting on November 22, 2004, supported the management changes and also recommended that the City Council accept a voluntary assessment of \$10,000 by the Downtown Improvement District and a \$40,000 transfer from the General Fund Reserve to the Police Department to fully fund the additional police presence needed on weekend and special event evenings,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby amends the Fiscal Year 2004-05 operating budget to estimate \$40,000 in additional parking revenues (\$10,000 to 6000-350-3583-4103R, and \$30,000

to 0100-190-1961-4025R) and appropriate said \$10,000 to 6000-350-3583-0140 and said \$30,000 to 0100-190-1961-0130.

BE IT FURTHER RESOLVED that the Council hereby amends the Fiscal Year 2004-05 operating budget to estimate \$10,000 in revenue from the Downtown Improvement District to 0100-190-1961-8155, and to appropriate said \$10,000 to 0100-190-1961-0130.

BE IT FURTHER RESOLVED that the Council hereby amends the Fiscal Year 2004-05 operating budget to transfer \$40,000 from the General Fund Reserve, 0100-800-8000-8003, to 0100-190-1961-0130.

BE IT FURTHER RESOLVED that the Finance Director, or her designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of December 2004, by Councilmember Marsh, who moved its adoption, which motion being duly seconded by Councilmember Dunbar was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Marsh,  
O'Bryant, Mayor Ridenour

NOES: Councilmembers: Keating

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004- 661**

**A RESOLUTION AMENDING EXHIBIT "A" OF RESOLUTION 2003-330, ENTITLED "A RESOLUTION GRANTING SALARY AND BENEFIT CHANGES TO UNREPRESENTED MANAGEMENT AND CONFIDENTIAL EMPLOYEES, INCLUDING CHARTER OFFICERS AND EXECUTIVES, EFFECTIVE JULY 1, 2003 AND RESCINDING RESOLUTION NO. 2002-307 AND 2003-81A AND AMENDING EXHIBIT A OF RESOLUTION NO. 2003-331 EFFECTIVE JUNE 30, 2003," TO ESTABLISH A SALARY RANGE FOR DEPUTY DIRECTOR OF PERSONNEL AT RANGE 2452 AND TO DELETE THE CLASSIFICATION OF ASSISTANT PERSONNEL DIRECTOR AT RANGE 2441 FROM THE CLASS RANGE TABLE.**

WHEREAS, Resolution No. 2003-330 granted salary and benefit changes to Unrepresented Management and Confidential Employees including Charter Officers and Executives, effective July 1, 2003, and

WHEREAS, the City Council desires to amend Resolution No. 2003-330,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

**SECTION 1. AMENDMENT OF RESOLUTION NO. 2003-330.**

Exhibit "A" entitled "City of Modesto Class Range Table, Unrepresented Management and Confidential Non-sworn Classes, Effective July 1,2003" attached to Resolution No. 2003-330, is hereby amended as shown on the amended **Exhibit "A"** entitled, "City of Modesto Class Range Table, Unrepresented Management and Confidential Non-sworn Classes, Effective December 14, 2004," which is attached hereto and made a part hereof as though set forth in full herein. Said amended Exhibit "A" establishes the Salary Range for Deputy Director of Personnel at Range 2452 and deletes the classification of Assistant Personnel Director from the Class Range Table.

SECTION 2. EFFECTIVE DATE. This resolution shall become effective on and after December 14, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of December 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Jackman was upon roll call carried and the resolution adopted by the following vote:

**A RESOLUTION REVISING THE POSITION CLASSIFICATION PLAN FOR  
THE CITY OF MODESTO.**

WHEREAS, a Position Classification Plan for the City of Modesto was adopted by Modesto City Council Resolution 88-338 pursuant to Rule 2 of the Personnel Rules and Regulations of the City of Modesto, and

WHEREAS, the Acting City Manager has recommended to the Council amendments to the Position Classification Plan, and

WHEREAS, Rule 2.2 of the City of Modesto Personnel Rules provides that revisions to the Classification Plan shall be effective upon adoption of resolution of the City Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION I. CLASSIFICATION CREATED. The Position Classification Plan of the City of Modesto is hereby amended to establish the following classification:

Deputy Director of Personnel

The job specification for this classification is being established as a result of a reclassification of the Assistant Personnel Director. The specification for the classification of Deputy Director of Personnel, as shown on the attached **Exhibit "A,"** which is hereby made a part of this resolution by reference, is hereby approved and made part of the Position Classification Plan of the City of Modesto.

SECTION 2. CLASSIFICATION DELETED. The Position Classification Plan of the City of Modesto is hereby amended to delete the classification of Assistant Personnel Director, as it is no longer being used.

SECTION 3. EFFECTIVE DATE. This resolution shall become effective on and after December 14, 2004.

## DEPUTY DIRECTOR OF PERSONNEL

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

### DEFINITION

To assist the Personnel Director in the planning, coordinating and the administration of departmental functions with emphasis on employee relations, labor relations, discipline, budget development and administration, supervision of personnel activities including recruitment, selection, classification and compensation and close coordination with, and technical direction to, risk management operations; to coordinate assigned activities with other City departments and outside agencies; and to provide highly responsible and complex administrative support to the Personnel Director.

### SUPERVISION RECEIVED AND EXERCISED

Receives administrative direction from the Personnel Director.

Exercises direct supervision over professional, technical and clerical staff.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS – Essential and other important responsibilities and duties may include, but are not limited to, the following:

Assist in developing, planning and implementing department goals and objectives; drafts, recommends and implements policies and procedures.

Direct, oversee and participate in the development of the department performance measures; assign work activities, projects and programs; monitor workflow; review and evaluate work products, methods and procedures.

Assist in managing the labor relations program, assist in planning and implementing negotiation goals, objectives and strategies; serve as chief negotiator in collective bargaining; manage the collective bargaining process, update elected officials and managers on collective bargaining activities; recommend and obtain authorization for negotiating parameters.

Manage, direct and coordinate the disciplinary process in collaboration with the City Attorney's Office; advise managers on disciplinary actions and advise on the discipline investigation process.

Advise departments on leave issues including Family Medical Leave Act (FMLA), Pregnancy Disability Leave (PDL), California Family Rights Act (CFRA), Catastrophic and Military; and leave coordination with Fair Employment and Housing Act (FEHA),

Exhibit "A"

Americans With Disabilities Act (ADA) and Workers' Compensation provisions. Advises on non-safety disability retirements. Ensures fair and even application of federal and state laws and regulations, negotiated agreements and City policies.

Supervise through subordinate supervisor the recruitment, testing and selection, and classification and compensation functions; negotiate impacts of classification process as required.

Supervise, through subordinate supervisor, the general personnel functions; supervise citywide position control and personnel action processing.

Prepare department budget; forecast division funds needed for staffing, equipment, materials, services and supplies; administer the approved division budget.

Select and recommend the appointment and termination of personnel; train and orient staff; assign and review work, evaluate performance and implement progressive discipline as required.

Analyze legislation and regulations to determine effect on personnel programs and services; stay knowledgeable of current legislation and or court decisions affecting public personnel management.

Coordinate the Equal Employment Opportunity (EEO) Program. Receive inquiries from Equal Employment Opportunity Commission (EEOC) and Department of Fair Employment and Housing (DFEH) regarding complaints filed with those agencies; coordinate the response process with the City Attorney and affected department.

Meet with department managers to discuss needs and concerns; coordinate department activities with other departments; represent the department at city committees and meetings; represent the City in hearings, meetings, and negotiations.

Provide highly responsible administrative support to the Personnel Director; assist with special projects as assigned; prepare complex and sensitive reports, correspondence and closed session presentations.

#### QUALIFICATIONS:

##### Knowledge of:

Principles and practices of public personnel administration, including methods and techniques used in labor relations, recruitment and selection, testing, classification and pay, salary and benefits administration, training and equal opportunity.

Principles and current methods of public and business administration.

Knowledge of: (Continued)

Principles and practices of organization, administration and personnel management.

Principles and practices of supervision, training and performance evaluation.

Modern office management practices and procedures including the operation of a variety of office equipment.

Technical report writing procedures.

Applications of statistical methods to management analysis.

Advanced methods of report preparation and presentation.

English usage, spelling, grammar, punctuation at an advanced level.

Administrative research techniques, sources and availability of information.

Applicable Federal, State, and local laws, codes and regulations.

Principles and practices of budget preparation and administration.

Ability to:

Analyze problems, identify alternative solutions, project consequences of proposed actions and implement recommendations in support of goals.

Organize, direct and implement a comprehensive personnel program.

Interpret and apply applicable policies, procedures, laws and regulations.

Deal constructively with conflict and develop a consensus.

Prepare complex reports.

Select, supervise, evaluate, train and coach assigned staff.

Prepare and administer a division budget.

Work with and control sensitive, confidential information.

Communicate clearly and concisely, both orally and in writing.

Ability to: (Continued)

Establish and maintain cooperative-working relationships with those contacted in the course of work.

Gain cooperation through discussion and persuasion.

Perform advanced professional level labor relations and employee relations work.

Administer contract services.

Skill In:

Use of computers and computer applications and software.

Experience and Training Guidelines

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

Five years of professional personnel management experience, including three years of administrative and supervisory responsibility. Experience in a public agency is desirable.

Training:

Equivalent to a Bachelor's degree from an accredited college or university with major course work in public or business administration, human resources management or a closely related field.

License or Certificate

Possession of or ability to obtain an appropriate valid California driver's license.

WORKING CONDITIONS:

Environmental Conditions:

Office environment; occasionally travel from site to site.

Physical Conditions:

Essential and marginal functions may require maintaining physical conditions necessary for sitting for prolonged periods of time; traveling to and from sites, attending meetings and using a personal computer and other office equipment.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004 - 663**

**A RESOLUTION ACCEPTING A GRANT IN THE AMOUNT OF \$35,043 AND APPROVING THE MODESTO JUVENILE IMPACT PROGRAM, A GRANT PROGRAM WITH THE STATE BOARD OF, AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE THE NECESSARY GRANT DOCUMENTS**

WHEREAS, the Modesto Police Department has proposed a project to the State Board of Corrections designated the Modesto Juvenile Impact Program to continue the WAKE-UP (Willing to become Aware and to Gain Knowledge of Experiences that are Useful Program) sessions and the Diversion Clean-Up Work Details, and

WHEREAS, Modesto's allocation under this program is \$35,043 from the State with a local match of \$3,894 for a total program amount of \$38,937 for the 2004/2005 fiscal year, and

WHEREAS, 645 of Modesto's at-risk and diversion referred juveniles will be served by this program, and

WHEREAS, approval of this program will assist in attaining the Health and Safety Plan Strategic Action to "Develop and implement Youth Crime Prevention Programs,"

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the grant in the amount of \$35,043 and approves the Modesto Juvenile Impact Program with the State Board of Corrections.

BE IT FURTHER RESOLVED that the Acting City Manager is hereby authorized to execute the necessary grant documents.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the City of Modesto agrees to provide the matching funds in the amount of \$3,894 for the program.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the grant funds received hereunder shall not be used to supplant expenditures controlled by this body.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of December 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NUMBER 2004-664**

**A RESOLUTION AMENDING THE FISCAL YEAR 2004/05 BUDGET TO  
RECOGNIZE REVENUE AND APPROPRIATE FUNDS FOR THE 2004  
“MODESTO JUVENILE IMPACT PROGRAM”**

WHEREAS, the Modesto Police Department proposed a project to the State Bureau of Corrections designated the “Modesto Juvenile Impact Program” to continue the WAKE-UP (Willing to become Aware and to Gain Knowledge of Experiences that are Useful Program) sessions and the Diversion Clean-Up Work Details, and

WHEREAS, Modesto’s allocation under the Modesto Juvenile Impact Program was \$35,043 from the State with a match of \$3,894 for a total program amount of \$38,937 for the 2004/2005 fiscal year,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the 2004/05 Annual Budget is hereby amended as follows:

To:			
Revenue:	\$35,043	0410-190-2986-3507	2004 Juvenile Impact Grant
	\$ 3,894	0100-800-8000	General Fund Reserves
To:			
Appropriations:	\$38,937	0410-190-2986 Various accounts	2004 Juvenile Impact Grant

BE IT FURTHER RESOLVED that the Finance Director is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of December 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-665**

**A RESOLUTION APPROVING THE REMOVAL OF THE PROTECTED/PERMISSIVE LEFT-TURN OPERATION AT THE FOLLOWING SIGNALIZED INTERSECTIONS: OAKDALE ROAD AND LANCEY DRIVE (NORTH/SOUTH DIRECTION)/COFFEE ROAD AND FLOYD AVENUE (NORTH/SOUTH DIRECTION)/PRESCOTT ROAD AND RUMBLE ROAD (NORTH/SOUTH DIRECTION)/ORANGEBURG AVENUE AND COFFEE ROAD (NORTH/SOUTH DIRECTION). FUNDS ARE BUDGETED IN ACCOUNT NO. 0700-160-1612-0365-02, "STREET LIGHT & TRAFFIC MAINTENANCE"**

WHEREAS, our most recent protected/permissive (P/P) signal evaluation tabulates intersections with P/P phasing with corresponding speeds and total vs. left-turn related accidents, and

WHEREAS, the data trends, rather than single data point, are used in our evaluation and appropriate phasing decisions, and

WHEREAS, after reviewing the data presented in the attached evaluation, staff is suggesting replacing the P/P phase operation with fully protected left-turn phase operation at the following intersections:

- Oakdale Road and Lancey Drive (north/south direction)
- Coffee Road and Floyd Avenue (north/south direction)
- Prescott Road and Rumble Road (north/south direction)
- Orangeburg Avenue and Coffee Road (north/south direction), and

WHEREAS, in response to the increasing traffic collision trend, staff recommends replacing the P/P phasing at the above-mentioned intersections with protected left-turn only phasing, and

WHEREAS, at its meeting on December 6, 2004, the Safety and Communities Committee recommended approval of this item,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the removal of the P/P left-turn operation at the following signalized intersections:

- Oakdale Road and Lancey Drive (north/south direction)
- Coffee Road and Floyd Avenue (north/south direction)
- Prescott Road and Rumble Road (north/south direction)
- Orangeburg Avenue and Coffee Road (north/south direction).

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of December 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-666**

**A RESOLUTION AUTHORIZING THE CITY MANAGER TO MAKE A  
PAYMENT TO SBC IN THE AMOUNT OF \$75,783.72 IN DAMAGES  
RESULTING FROM CITY WATER CREWS INADVERTENTLY STRIKING  
UNDERGROUND FACILITIES.**

WHEREAS, City Water crews were installing service connections to new services located on the north side of Scenic Avenue using standard operating procedures, and

WHEREAS, City Water crews used a “bullet” device to dig the trench during this installation and inadvertently damaged underground facilities belonging to SBC, and

WHEREAS, it took SBC several days to repair the damages, totaling \$75,783.72 in materials, labor and loss of use, and

WHEREAS, the City was at fault in this accident and the resulting damages should be paid to SBC, and

WHEREAS, costs associated with this claim will be paid from the City’s General Liability Fund, and

WHEREAS, payment will be made in exchange for a Release of Claim form from SBC,

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby approves payment to SBC in the amount of \$75,783.72 for damages to their underground facilities.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to issue payment to SBC.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of December 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2004-669**

**A RESOLUTION AUTHORIZING THE CITY MANAGER, DEPUTY CITY MANAGER OR ASSISTANT TO THE CITY MANAGER TO SUBMIT APPLICATIONS AND GRANT RELATED DOCUMENTS FOR ALL GRANTS AVAILABLE FROM THE CALIFORNIA INTEGRATED WASTE MANAGEMENT BOARD, TO ACCEPT GRANT AWARDS AND TO AMEND THE ANNUAL BUDGET; AND RECINDING RESOLUTION NO. 2002-58.**

WHEREAS, the State of California collects fees which provide funds to cities and counties for establishing and maintaining solid waste programs throughout the state, and

WHEREAS, the California Integrated Waste Management Board has the responsibility for the administration of the solid waste programs within the state and setting up necessary procedures governing application by cities and counties under these programs, and

WHEREAS, to simplify the application process, the California Integrated Waste Management Board allows jurisdictions to adopt a single resolution authorizing a designated official to execute and submit applications and related documents for such funding,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the City Manager, Deputy City Manager or Assistant To The City Manager are hereby authorized to submit applications and all grant related documents, accept grant awards and to amend the annual budget for all solid waste related grants available through the State of California.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that this resolution shall remain in full force and effect until rescinded by the City Council.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that Resolution No. 2002-58 is hereby rescinded.

RESOLUTION NO. 2004-670**

**A RESOLUTION REJECTING ALL BIDS FOR THE PROJECT TITLED  
"RUMBLE ROAD SIDEWALKS" AND AUTHORIZING STAFF TO RE-  
ADVERTISE THE PROJECT AT A FUTURE DATE**

WHEREAS, the bids received for Rumble Road Sidewalks were opened at 11:00 a.m. on August 3, 2004, and later tabulated by the Public Works Director for the consideration of the Council, and

WHEREAS, due to unforeseen delays in the acquisition of adjoining property, the Contractor can no longer honor his bid price, and

WHEREAS, during the bid evaluation process staff determined that the bids unreasonably exceeded the Engineer's estimate. Therefore, staff recommends the bids be rejected and staff be allowed to re-advertise the project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the bids received for "Rumble Road Sidewalks," opened in the office of the City Clerk on August 3, 2004, are hereby rejected.

BE IT FURTHER RESOLVED that staff is hereby authorized to re-advertise the project at a future date.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of December 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-671**

**A RESOLUTION APPROVING THE AWARD OF A PROFESSIONAL SERVICES AGREEMENT TO WEST YOST AND ASSOCIATES FOR \$710,200 TO COMPLETE PRELIMINARY ENGINEERING SERVICES FOR THE CITY WATER SYSTEM TIER 1 DOWNSTREAM IMPROVEMENTS TO ACCOMMODATE THE MODESTO REGIONAL WATER TREATMENT PLANT PHASE TWO EXPANSION, AND AUTHORIZING THE ACTING CITY MANAGER TO EXECUTE THE AGREEMENT**

WHEREAS, the City of Modesto and the Modesto Irrigation District (MID) have begun work planning to expand the Modesto Regional Water Treatment Plant (MRWTP) from its existing capacity of 30 million gallons per day (mgd) to 60 mgd, and

WHEREAS, downstream improvements consisting of water storage tanks, booster pumping stations, pressure and/or flow control valves, and pipelines are needed to fully integrate the Phase Two expansion of the MRWTP with the City's water system, and

WHEREAS, an initial evaluation of the water distribution system, using the City's recently developed computer model, has confirmed the need for these improvements and has provided a general project description of the improvements, and

WHEREAS, the design for the critical downstream improvements needs to be completed by the fall of 2005 to remain on schedule with the Phase Two project's scheduled operation in the year 2007, and

WHEREAS, the Economic Development Committee at its meeting on March 8, 2004, concurred with staff's recommendation of requiring critical facilities consisting of the pressure and/or flow regulating valves, the north tank and pump station, and water transmission pipelines to be moved into design, and

WHEREAS, on March 8, 2004, the Economic Development Committee directed staff to proceed with the negotiations with West Yost and Associates for the preparation of the design of the critical downstream facilities, and

WHEREAS, on April 6, 2004, the Council of the City of Modesto adopted Resolution 2004-176 approving the agreement with West Yost and Associates, for preparation of the Preliminary Design Report of the Downstream Improvements for the City of Modesto's water system in an amount not to exceed \$449,000, and

WHEREAS, City staff determined that Design Services for the City Water System Tier 1 Downstream Improvements to accommodate the MRWTP Phase Two Expansion would be prepared in two stages namely Preliminary Engineering and Final Design, and

WHEREAS, the Public Works Director has recommended accepting the proposed contract with West Yost and Associates to complete Preliminary Engineering Services for the City Water System Tier 1 Downstream Improvements to accommodate the MRWTP Phase Two Expansion in an amount not to exceed \$710,200,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the agreement with West Yost and Associates to complete Preliminary Engineering Services for the City Water System Tier 1 Downstream Improvements to accommodate the MRWTP Phase Two Expansion in an amount not to exceed \$710,200.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the agreement.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-674**

**A RESOLUTION APPROVING THE FINAL MAP AND ACCEPTING PUBLIC IMPROVEMENTS IN THE MESILLA VALLEY ESTATES SUBDIVISION OF THE CITY OF MODESTO AND AUTHORIZING THE CITY MANAGER TO EXECUTE A SUBDIVISION AGREEMENT WITH MESILLA VALLEY DEVELOPMENT, LLC**

WHEREAS, MESILLA VALLEY DEVELOPMENT, LLC, us possessed of a tract of land situated in the City of Modesto, County of Stanislaus, consisting of 1.81 acres, known as the MESILLA VALLEY ESTATES SUBDIVISION (“SUBDIVISION”), and

WHEREAS, an application for a vesting tentative subdivision map was deemed complete by the Secretary of the Planning Commission on August 8, 2003, and

WHEREAS, a tentative map of said tract was approved by the Planning Commission of the City of Modesto on the 22nd day of September, 2003, and

WHEREAS, the Secretary of the Planning Commission of the City of Modesto has certified that the final map of said tract substantially conforms to the approved tentative map, and

WHEREAS, the City Engineer of the City of Modesto has certified that the final map of said SUBDIVISION meets all of the provisions of the California Subdivision Map Act and the provisions of the Modesto Municipal Code relating to subdivisions, and that the map is technically correct, and

WHEREAS, the Public Works Director has certified that all public improvements required by the City of Modesto have been completed in said tract to the satisfaction of the Public Works Director, and

WHEREAS, the Public Works Director has indicated that it would be in order for the City Council to accept the public improvements in said subdivision as complete and authorize the City Clerk to file a Notice of Completion and release the bonds upon the expiration of the statutory periods,

WHEREAS, the subdivider has posted a warranty security in an amount equal to the estimated cost of the public improvements, as determined by the City Engineer, to guarantee and warranty the public improvements for a period of one year after acceptance.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that:

1. The final map is hereby approved.
2. The dedications for streets and easements as shown thereon within the boundaries of said tract are hereby accepted on behalf of the public for public use.
3. The improvements completed in Mesilla Valley Estates Subdivision are hereby accepted and the City Clerk is hereby authorized to file a Notice of Completion for the improvements.
4. The City Clerk is hereby authorized to certify the map of said tract on behalf of the City of Modesto, after the fees and deposits required by the Modesto Municipal Code in amounts determined by the City Engineer have been paid.

5. The City Manager and the City Clerk are hereby authorized to execute and attest, respectively, an agreement with subdivider as required by Section 4-4.604(c) of the Municipal Code.
6. The City Clerk is further authorized to release the warranty security to guarantee improvements in the amount of \$7,400.00 one year and one day after the effective date of this resolution, provided no claim is made thereon.

**A RESOLUTION ADOPTING LIMITED REVISIONS TO THE STANDARD SPECIFICATIONS OF THE CITY OF MODESTO, 2001 EDITION**

WHEREAS, Section 4-4.801 of the Modesto Municipal Code provides for the adoption by the City Council of “Standard Specifications of the City of Modesto”, said Standard Specifications to be prepared by the Public Works Department and recommended by the Planning Commission, and

WHEREAS, the Public Works Department, Development Services Division, has recommended revisions, which include the addition of several Standard Details, and

WHEREAS, the proposed revisions are to accomplish adding new text and drawings, and

WHEREAS, the proposed revisions were considered by the Building Industry Association and the Construction Industry Liaison Committee and notices of an informal public hearing by the Planning Commission to consider the proposed revisions were sent to the Building Industry Association, Board of Realtors, Stanislaus County Public Works, and local developers, engineers, and utility companies, and

WHEREAS, the Planning Commission, by Resolution No. 2004--??, adopted on December 6, 2004, recommended to City Council the adoption of limited revisions to the Standard Specifications of the City of Modesto as incorporated in the document titled “Standard Specifications of the City of Modesto, 2001 Edition”, copies of which are on file in the offices of the Public Works Director and the Secretary of the Planning Commission, and

WHEREAS, said proposed revisions to the Standard Specifications of the City of Modesto, 2001 Edition, as prepared by the Public Works Director and recommended by

the Planning Commission, were considered by the City Council at its regular meeting on December 14, 2004, at which time the Council determined that the proposed revisions to the Standard Specifications should be adopted.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that pursuant to the provisions of Section 4-4.801 of the Modesto Municipal Code, those certain revisions of the "Standard Specifications of the City of Modesto, 2001 Edition", copies of which are on file in the offices of the Public Works Director and the Secretary of the Planning Commission, are hereby adopted as revisions to the Standard Specifications of the City of Modesto.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-676**

**A RESOLUTION APPROVING AMENDMENT NO. 1 TO THE AGREEMENT  
WITH MODESTO IRRIGATION DISTRICT RELATING TO THE ADVANCE  
FUNDING OF COSTS RELATED TO THE PHASE 2 EXPANSION OF THE  
MODESTO REGIONAL WATER TREATMENT PLANT, AND AUTHORIZING  
THE ACTING CITY MANAGER TO EXECUTE THE AGREEMENT**

WHEREAS, the Council of the City of Modesto approved Resolution No. 92-183 on April 21, 1992, authorizing the original Treatment and Delivery Agreement with the Modesto Irrigation District (MID) and the former Del Este Water Company, and

WHEREAS, the original Treatment and Delivery Agreement contemplated the design, construction, and operation of the Modesto Regional Water Treatment Plant (MRWTP) Phase 2 Expansion, and

WHEREAS, City and MID wish to pursue the design, construction, and operation of the MRWTP Phase 2 Expansion, and

WHEREAS, City and MID agree that the preliminary costs should be included in the project costs to be financed at a later date, and

WHEREAS, MID agrees to initially fund certain costs related to preliminary work for the project, and

WHEREAS, City agrees that MID should be reimbursed for certain costs related to preliminary work for the project, and

WHEREAS, the Economic Development Committee recommended approval of the Agreement at its August 11, 2003 meeting, and

WHEREAS, the Council of the City of Modesto adopted Resolution No. 2003-538 approving the advance funding agreement with the Modesto Irrigation District for the reimbursement of costs related to the Phase 2 Expansion of the Modesto Regional Water Treatment Plant authorizing the City Manager to execute said Agreement, and

WHEREAS, City and MID agree that the preliminary costs shall be shared and reimbursed as summarized in amended **Attachment "A"** attached hereto and incorporated herein by this reference, and

WHEREAS, the Financial Policy Committee recommended approval of the First Amendment to Agreement at its December 9, 2004, meeting,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves Amendment No. 1 to the Agreement Relating to the Advance Funding of Costs Related to the Phase 2 Expansion of the Modesto Regional Water Treatment Plant.

BE IT FURTHER RESOLVED that the Council hereby authorizes the Acting City Manager or his designee, to execute said Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of December 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

REIMBURSEMENT OF COSTS RELATED TO THE EXPANSION OF THE  
MODESTO REGIONAL WATER TREATMENT PLANT**

This Amendment No. 1 to Agreement Relating to the Advance Funding and Reimbursement of Costs Related to the Expansion of the Modesto Regional Water Treatment Plant is made and entered into this \_\_\_ day of December, 2004, by and between Modesto Irrigation District, a California irrigation district (hereinafter, the "District"), and the City of Modesto, a California municipal corporation (hereinafter, the "City"), and is made with regard to the following facts and circumstances, among others:

A. The parties entered into that certain Agreement Relating to the Advance Funding and Reimbursement of Costs Related to the Expansion of the Modesto Regional Water Treatment Plant on October 7, 2003 (hereinafter, the "Agreement"), which provided, in general terms, for the advancement by the District of funds for certain consulting expenses, and for the reimbursement by the City of such expenses.

B. The parties desire to retain consultants to perform services additional to those contemplated in the Agreement, and to incur costs additional to those contemplated in the Agreement.

Now, therefore, the parties agree as follows:

1. The Agreement shall be amended by replacing Exhibit "A" in the Agreement with Exhibit "A" as attached hereto.

2. Except as specifically set forth in Paragraph 1, above, the Agreement shall remain in full force and effect, without further modification or amendment.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-677**

**A RESOLUTION AUTHORIZING MODESTO IRRIGATION DISTRICT TO EXECUTE AN AMENDMENT TO AGREEMENT WITH JONES AND STOKES IN AN AMOUNT NOT TO EXCEED AN ADDITIONAL \$50,000, FOR A TOTAL AGREEMENT AMOUNT OF \$220,000, TO PROVIDE CEQA SERVICES RELATED TO THE PHASE 2 EXPANSION OF THE MODESTO REGIONAL WATER TREATMENT PLANT**

WHEREAS, the Council of the City of Modesto approved Resolution No. 92-183 on April 21, 1992, authorizing the original Treatment and Delivery Agreement with the Modesto Irrigation District (MID) and the former Del Este Water Company, and

WHEREAS, the original Treatment and Delivery Agreement contemplated the design, construction, and operation of the Modesto Regional Water Treatment Plant (MRWTP) Phase 2 Expansion, and

WHEREAS, City and MID wish to pursue the design, construction, and operation of the MRWTP Phase 2 Expansion, and

WHEREAS, by Resolution No. 2004-676, adopted on December 14, 2004, the Council has authorized the Acting City Manager, or his designee, to execute an amendment to the agreement with MID relating to the advance funding of costs related to the MRWTP Phase 2 Expansion, and

WHEREAS, the aforementioned agreement requires MID to obtain City authorization to proceed beyond certain milestones in MRWTP Phase 2 Expansion, and

WHEREAS, MID issued a request for proposals for CEQA services for the MRWTP Phase 2 Expansion, and

WHEREAS, On May 21, 2003, five proposals were received from environmental consulting firms in response to a Request for Proposals solicited by MID staff, and

WHEREAS, a task force was formed consisting of both City and MID staff, which reviewed each of the proposals for compliance with the project's scope of work and all five of the responding firms were interviewed on June 6, 2003, by the task force, and

WHEREAS, the task force selected Jones and Stokes as the firm most qualified to provide CEQA services for the MRWTP Phase 2 Expansion, and

WHEREAS, the Council of the City of Modesto adopted Resolution 2003-539, authorizing Modesto Irrigation District to execute an agreement with Jones and Stokes to provide CEQA services, not to exceed \$170,000, and

WHEREAS, MID and City staff agree that additional services are needed and justified for the project in an additional amount not to exceed \$50,000,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes Modesto Irrigation District to execute an amendment to the agreement with Jones and Stokes in an amount not to exceed an additional \$50,000, for a total of \$220,000, to provide CEQA services related to the Phase 2 Expansion of the Modesto Regional Water Treatment Plant.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of December 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-678

**A RESOLUTION RESCINDING RESOLUTION 2003-310 AND REMOVING THE CAPPED RATE FOR CAPITAL FACILITY FEES RESTORING THE FEE TO ITS ADOPTED RATE.**

WHEREAS, the City Council adopted Resolution 2003-309 which updated the City's Capital Facility Fee Program, and

WHEREAS, subsequently, the Council also adopted Resolution 2003-310 capping the Capital Facility Fees and establishing a tracking program;

WHEREAS, prior to adoption of Resolution 2003-310, a cost-burden analysis revealed that the increase in fees could not be absorbed by the market, and

WHEREAS, the market has changed considerably and land values have risen significantly, and

WHEREAS, the tracking program has revealed approximately \$344,818 is needed to backfill; and

WHEREAS, the backfill will continue to be monitored for grant and other funding opportunities, and

WHEREAS, the CFF program is an ongoing funding mechanism for capital infrastructure of the City; and

WHEREAS, to ensure that the City collects enough funds for build out, it is necessary to remove the cap and restore the fees to their full amount.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby rescinds Resolution 2003-310 so that the "Cap" on certain Capital Facility Fee categories established by said resolution is hereby removed effective January 1, 2005.

BE IT FURTHER RESOLVED that the City will continue to monitor the existing backfill obligation and report annually to the Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of December 2004, by Councilmember Dunbar,

who moved its adoption, which motion being duly seconded by Councilmember Keating,  
was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-679**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO  
CALLING AN ELECTION FOR THE PURPOSE OF SUBMITTING THE LEVY  
OF THE CITY OF MODESTO COMMUNITY FACILITIES DISTRICT  
NO. 2004-1 (VILLAGE ONE #2) SPECIAL TAXES TO THE QUALIFIED  
ELECTORS OF THE TERRITORY PROPOSED TO BE ANNEXED TO THE  
DISTRICT (ANNEXATION NO. 5)**

WHEREAS, this Council did, on October 26, 2004, adopt its Resolution No. 2004-545 (the "Resolution of Intention to Annex") to indicate its intention to annex certain territory to the City's Community Facilities District No. 2004-1 (Village One #2) (the "District") and authorize the levy of the District special taxes within the territory proposed to be annexed (the "Annexed Territory"), pursuant to Chapter 2.5 of Part 1 of Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the "Mello-Roos Community Facilities Act of 1982" (the "Act"), and set a hearing thereon;

WHEREAS, notice of the hearing was duly published as required by law, as evidenced by the proof of publication on file with the City Clerk;

WHEREAS, a map of the Annexed Territory, entitled "Annexation Map No. 5 of Community Facilities District No. 2004-1 ("Village One #2) of the City of Modesto, County of Stanislaus, State of California," was recorded on October 28, 2004, in the Office of the County Recorder of the County of Stanislaus, in Book 4 of Maps of Assessment and Community Facilities Districts, at page 2;

WHEREAS, at the time and date set for the hearing (December 7, 2004 and duly continued to December 14, 2004) pursuant to the Resolution of Intention to Annex, this Council held the public hearing, as required by the Act, related to the proposed

annexation and the levy of the District special taxes within the Annexed Territory, and all other matters set forth in the Resolution of Intention to Annex;

WHEREAS, at the hearing all persons desiring to be heard on all matters pertaining to the proposed annexation and the levy of the District special taxes within the Annexed Territory, and all other matters set forth in the Resolution of Intention to Annex, including all interested persons for or against the proposed annexation to the District and the levy of the District special taxes within the Annexed Territory were heard and considered, and a full and fair hearing was held thereon;

WHEREAS, at the hearing evidence was presented to this Council on the matters before it, and this Council, at the conclusion of the hearing, was fully advised as to all matters related to the proposed annexation and the levy of the District special taxes within the Annexed Territory, and all other matters set forth in the Resolution of Intention to Annex;

WHEREAS, written protests against the proposed annexation and the levy of the District special taxes within the Annexed Territory have not been filed with the City Clerk by 50 percent or more of the registered voters or six registered voters, whichever is more, residing within the District or residing within the District or residing within the Annexed Territory, or the owners of one-half or more of the land in the District, or in the Annexed Territory;

WHEREAS, the Stanislaus County Registrar of Voters has certified there are less than 12 registered voters residing in the Annexed Territory; accordingly, the qualified electors are the landowners; and

WHEREAS, the City Clerk, being the Council's designated election official for purposes of the election herein called, has concurred in the election date herein set forth for the election;

NOW THEREFORE, BE IT RESOLVED, ORDERED AND FOUND by the City Council of the City of Modesto that:

SECTION 1. The foregoing recitals are true and correct.

SECTION 2. All prior proceedings taken with respect to the annexation of the Annexed Territory to the District, and the levy of the District special taxes within the Annexed Territory were valid and in conformity with the requirements of the Act. This determination shall be final and conclusive upon all persons.

SECTION 3. The proposed annexation of the Annexed Territory to the District and the levy of the District special taxes within the Annexed Territory have not been precluded by majority protest pursuant to Section 53339.5 of the Act.

SECTION 4. As stated in the Resolution of Intention to Annex, it is the intention of this Council, subject to the approval of the qualified electors of the Annexed Territory, to annex the Annexed Territory to the District and levy the District special taxes within the Annexed Territory. Upon such approval the Council will be authorized to levy the District special taxes within the Annexed Territory.

SECTION 5. A special election is hereby called at which the question of levying the District special taxes within the Annexed Territory shall be submitted to the qualified electors of the Annexed Territory. The election shall be held in accordance with and subject to the Act, all of the terms of which shall, unless waived as herein provided, be

applicable to such election. The ballot measure shall be substantially in the form attached hereto as **Exhibit A**.

SECTION 6. Fewer than 12 persons have been registered to vote within the Annexed Territory for each of the 90 days preceding the close of the hearing referenced herein. Accordingly, the vote shall be by the landowners of the Annexed Territory, and each such landowner shall have one vote for each acre or portion thereof that he or she owns within the Annexed Territory. The ballots shall be distributed by mail with return postage prepaid, or by personal service, to each landowner, all as provided in Section 53326 of the Act.

Since the City Clerk has received an appropriate waiver of time limits and other requirements pertaining to the conduct of the election by the owner of all of the land in the Annexed Territory (the "Landowner"), the election shall be held on the 14<sup>th</sup> day of December 2004. The election shall be conducted by the City Clerk in the manner required by this resolution, the Act and applicable laws.

The hour on such date when the ballots are required to be received in the office of the City Clerk is noon, Pacific Time. If all qualified electors have voted prior to such time, the election shall be closed.

SECTION 7. In accordance with Section 53327(b) of the Act, analysis and arguments, as required by Section 53327(a) of the Act are hereby waived, as the City Clerk has received the unanimous consent to such waivers from the Landowner.

SECTION 8. The publication of this Resolution as notice of the special election is hereby waived as the City Clerk has received the unanimous consent to such waiver from the Landowner.

SECTION 9. The Annexed Territory shall constitute a single election precinct for the purpose of holding the election.

SECTION 10. The City Clerk is hereby authorized to take any and all steps necessary for the holding of the election, and to perform and render all services and proceedings incidental to and in connection with the election.

SECTION 11. The City Clerk shall canvass the returns and certify the results of the election to this Council. If two-thirds or more of the votes cast are in favor of levying the District special taxes in the Annexed Territory, this Council may thereafter, order the annexation of the Annexed Territory to the District and levy the District special taxes in the Annexed Territory in the amount and for the purposes specified in Resolution No. 2004-199 adopted by this Council on April 6, 2004 (the "Resolution of Formation"). The Special Tax will be levied only at the rate and apportioned only in the manner specified in the Resolution of Formation.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of December 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour

RESOLUTION NO. 2004-680**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO CANVASSING THE RESULTS OF THE DECEMBER 14, 2004, ELECTION HELD WITHIN THE TERRITORY PROPOSED TO BE ANNEXED TO CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2004-1 (VILLAGE ONE #2), AND ORDERING ANNEXATION OF THE TERRITORY TO THE DISTRICT (ANNEXATION NO. 5)**

WHEREAS, this Council is conducting proceedings pertaining to the annexation of certain territory to the City's Community Facilities District No. 2004-1 (Village One #2) (the "District") and the levy of the District special taxes (the "District Special Taxes") within such territory, as described in its Resolution No. 2004-545, entitled "A Resolution of the City Council of the City of Modesto of Intention to Annex Territory to Community Facilities District No. 2004-1 (Village One #2) and to Authorize the Levy of Special Taxes therein (Annexation No. 5)" adopted on October 26, 2004, pursuant to Chapter 2.5 of Part 1 of Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the "Mello-Roos Community Facilities Act of 1982" (the "Act");

WHEREAS, the owner of all the property within the territory proposed to be annexed to the District waived those provisions related to the timing and conduct of the election referenced in Sections 5, 6, 7 and 8 of this Council's Resolution No. 2004-679, adopted on December 14, 2004, and, as a result, this Council called an election within the territory proposed to be annexed to the District (the "Election") for December 14, 2004, relative to the foregoing;

WHEREAS, on December 14, 2004, the Election was held; and

WHEREAS, the City Clerk has certified that at the Election the proposition of levying the District Special Taxes within the territory proposed to be annexed to the District was approved by more than two-thirds (2/3) of the votes cast at the Election;

NOW, THEREFORE, BE IT RESOLVED, ORDERED AND FOUND by the City Council of the City of Modesto that:

SECTION 1. The Election was duly and validly conducted in conformity with all applicable laws pertaining thereto. It is hereby determined that the owners of the territory proposed to be annexed is as set forth in the Certificate of City Clerk as to Distribution of Official Ballots, submitted to this Council and on file with the City Clerk.

SECTION 2. The ballot proposition presented to the qualified electors of the territory proposed to be annexed at the Election received at least two-thirds (2/3) of the votes cast at the Election. A copy of the City Clerk's certificate of election results is attached.

SECTION 3. Pursuant to Section 53339.8 of the Act, it is hereby ordered that the territory proposed to be annexed to the District pursuant to Resolution No. 2004-545 be annexed to and be a part of the District with full legal effect, and that the District Special Taxes be levied within the territory so annexed.

SECTION 4. The City Clerk is hereby directed to enter this resolution on the minutes of this City Council, which shall constitute the official declaration of the result of the Election.

SECTION 5. The City Clerk is further authorized and directed to record an amendment to the Notice of Special Tax Lien with the County Recorder of the County of

Stanislaus, within 15 days from the date hereof, in accordance with the provisions of Sections 3114.5 and 3117.7 of the California Streets and Highways Code.

## CERTIFICATE OF CITY CLERK

I, JEAN ZAHR, City Clerk of the City of Modesto, hereby certify that, pursuant to Resolution No. 2004-679, A Resolution of the City Council of the City of Modesto Calling an Election for the Purpose of Submitting the Levy of the City of Modesto Community Facilities District No. 2004-1 (Village One #2) Special Taxes to the Qualified Electors of the Territory Proposed to be Annexed to the District (Annexation No. 5) adopted on December 14, 2004, by the City Council of the City of Modesto, I did conduct the Special Tax Election on December 14, 2004, and that the election was conducted by mail or in person at the City Hall of the City of Modesto.

I further certify that the following shows the full text of the measure submitted to the voters at the election and the full and true totals of all votes cast for and against the measure.

**Proposition A.** Shall special taxes, with maximum rates, method of apportionment, and manner of collection as provided in Exhibit A to the City's Resolution No. 2004-199, entitled "A Resolution of the City Council of the City of Modesto of Formation, Establishing City of Modesto Community Facilities District No. 2004-1 (Village One #2), Authorizing the Levy of Special Taxes within the District, Preliminarily Establishing an Appropriations Limit for the District, and Calling an Election for the Purpose of Submitting the Levy of the Special Taxes and the Establishment of the Appropriations Limit to the Qualified Electors of the District" (the "Resolution of Formation"), adopted by the City Council of the City of Modesto on April 6, 2004, which is incorporated herein by this reference, be levied within the territory proposed to be annexed to City of Modesto Community Facilities District No. 2004-1 (Village One #2) pursuant to the City's Resolution No. 2004-545, entitled "A Resolution of the City Council of the City of Modesto of Intention to Annex Territory to Community Facilities District No. 2004-1 (Village One #2) and to Authorize the Levy of Special Taxes therein (Annexation No. 5)" (the "Resolution of Intention to Annex") adopted by they City Council of the City of Modesto on October 26, 2004, for the purposes set forth in the Resolution of Formation?

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-681**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF  
MODESTO CLARIFYING RATE AND METHOD OF APPORTIONMENT OF  
SPECIAL TAXES FOR COMMUNITY FACILITIES DISTRICT NO. 2004-1  
(VILLAGE ONE #2)**

WHEREAS, this Council has, pursuant to its Resolution No. 2004-127, “A Resolution of the City Council of the City of Modesto of Intention to Establish City of Modesto Community Facilities District No. 2004-1 (Village One #2) and Authorize the Levy of Special Taxes Therein,” adopted on March 2, 2004, conducted proceedings for the formation of the City’s Community Facilities District No. 2004-1 (Village One #2) (the “District”) pursuant to Chapter 3.5 of Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the “Mello-Roos Community Facilities Act of 1982” (the “Act”); and

WHEREAS, following the approval of the special taxes by the qualified electors in the District, this Council, by its Ordinance No. 3345-C.S., “An Ordinance of the City Council of the City of Modesto Authorizing the Levy of Special Taxes within City of Modesto Community Facilities District No. 2004-1 (Village One #2),” adopted on April 27, 2004, authorized the levy of the special taxes; the special taxes are set forth in Exhibit A to Ordinance No. 3345-C.S. (the “Rate and Method”); and

WHEREAS, the obligation to pay the special taxes has, pursuant to the Act, become a lien upon all nonexempt real property within the District as a result of the recordation, in the office of the Stanislaus County Recorder, of a Notice of Special Tax Lien to which the Rate and Method is also attached as Exhibit A; and

WHEREAS, Section C.1 of the Rate and Method provides that, until an Original Parcel is subdivided, the Maximum Special Taxes as set forth therein will be the Maximum Special Taxes for the Parcel and that, in the event a rezoning of the Parcel results in a Land Use Class that has a lower Per-Acre Special Tax than the previous Expected Land Uses, there shall be no corresponding reduction in the Maximum Special Taxes for the Parcel (capitalized terms used herein being defined in Exhibit A); “Expected Land Uses,” as defined in Exhibit A, means the “Net Taxable Acreage of each Land Use Class expected on an Original Parcel in CFD No. 2004-1 based on reference to the Expected Land Use Map,” also therein defined, such map (entitled “Village One Zoning of Unvested Properties,” dated February 21, 2003) having been filed with the District Administrator and the City Clerk as a part of the District proceedings; and

WHEREAS, a question has arisen as to whether an exception should be made from the levy of the Maximum Special Taxes on an Original Parcel based on the Expected Land Use Map in the event a rezoning of the Parcel, that results in a Land Use Class that has a lower Per-Acre Special Tax than the previous Expected Land Uses, occurs prior to the Parcel becoming a part of the District; and

WHEREAS, Section I of the Rate and Method allows for interpretations thereof to be made by resolution of this Council for the purpose of clarifying any vagueness or ambiguity therein; and

NOW, THEREFORE, BE IT RESOLVED, ORDERED AND FOUND, by the City Council of the City of Modesto that:

SECTION 1. The foregoing recitals are true and correct.

SECTION 2. The Maximum Special Taxes, as set forth in the Rate and Method, were based on the estimate of the costs of the facilities and services authorized to be financed by the Maximum Special Taxes; and those costs were developed based upon the Expected Land Uses set forth on the Expected Land Use Map. The facilities are those which this Council determined are necessary to meet increased demands placed upon the City and other local agencies as a result of development occurring within the boundaries of the District; the services are those which this Council determined are in addition to those services provided in the District before it was created and that are necessary to meet the demands placed upon the City and other local agencies as a result of such development.

SECTION 3. To allow for a reduction in the Maximum Special Taxes on an Original Parcel as a result of a rezoning, regardless whether the rezoning occurs before or after the Parcel becomes a part of the District, could result in a reduction in the amount of revenue raised therefrom, and a shortfall in the generation of monies needed to pay for the facilities and services.

SECTION 4. It is in the public interest, and in the best interests of the landowners and other interested parties in the District, to preserve the special tax revenue stream in the manner contemplated in the Rate and Method in order to pay for the cost of the facilities and services authorized to be financed by the levy thereof for the District.

SECTION 5. The Rate and Method provides that, in the event a rezoning of an Original Parcel results in a Land Use Class that has a lower Per-Acre Special Tax than the previous Expected Land Uses, there shall be no corresponding reduction in the Maximum Special Taxes for the Parcel, and that Expected Land Uses are the Net Taxable Acreage of each Land Use Class expected on an Original Parcel based on reference to the Expected Land Use Map on file with the District Administrator and City Clerk. An exception shall not be made from the application of this provision in the event the rezoning occurs prior to the Original Parcel becoming a part of the District.

SECTION 6. The City Clerk is directed to provide an executed copy of this Resolution to the District Administrator.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of December 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-682**

**A RESOLUTION APPROVING AMENDMENT #2 TO THE VILLAGE ONE  
FACILITIES MASTER PLAN UPDATE (MAY 2003).**

WHEREAS, on May 6, 2003, the City Council adopted Resolution No. 2003-223 which adopted the Village One Facilities Master Plan Update – May 2003 (“VI FMP”), and

WHEREAS, Resolution No. 2003-223 requested that periodic reviews of the VI FMP occur to assure that the base requirements, guidelines and cost estimates remain current, and

WHEREAS, on December 7, 2004, the City Council approved Amendment #1 to the VI FMP (Resolution No. 2004-647) which reduced the storm water storage requirement for Freedom Neighborhood Park, and

WHEREAS, staff has reviewed the VI FMP and identified that right-of-way, originally programmed at \$150,000 per acre, has increased to \$350,000 per acre, and

WHEREAS, staff has reviewed the VI FMP and further identified that MID pole relocation, originally programmed at \$5,000 per pole, has increased to \$15,000 per wooden pole and \$35,000 per steel pole, and

WHEREAS, staff has reviewed the VI FMP and further identified that there was a \$100,000 addition error in Intersection Project INT-005,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the proposed Amendment #2 to the Village One Facilities Master Plan Update (May 2003), a copy of which is attached hereto as **Exhibit “A”** and incorporated herein by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of December 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-683**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF  
MODESTO CREATING TAX ZONE #2 IN COMMUNITY FACILITIES  
DISTRICT NO. 2004-1 (VILLAGE ONE #2), APPROVING AN INCREASE  
IN THE ONE-TIME FACILITIES SPECIAL TAX THEREIN, AND APPROVING  
UPDATES OF THE RATE AND METHOD OF APPORTIONMENT OF  
SPECIAL TAXES FOR THE DISTRICT**

WHEREAS, this Council has, pursuant to its Resolution No. 2004-127, “A Resolution of the City Council of the City of Modesto of Intention to Establish City of Modesto Community Facilities District No. 2004-1 (Village One #2) and Authorize the Levy of Special Taxes Therein,” adopted on March 2, 2004, conducted proceedings for the formation of the City’s Community Facilities District No. 2004-1 (Village One #2) (the “District”) pursuant to Chapter 3.5 of Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the “Mello-Roos Community Facilities Act of 1982” (the “Act”); and

WHEREAS, following the approval of the special taxes by the qualified electors in the District, this Council, by its Ordinance No. 3345-C.S., “An Ordinance of the City Council of the City of Modesto Authorizing the Levy of Special Taxes within City of Modesto Community Facilities District No. 2004-1 (Village One #2),” adopted on April 27, 2004, authorized the levy of the special taxes; the special taxes being set forth in **Exhibit A** thereto (the “Rate and Method”); and

WHEREAS, the obligation to pay the special taxes has, pursuant to the Act, become a lien upon all nonexempt real property within the District as a result of the recordation, in the office of the Stanislaus County Recorder, of a Notice of Special Tax Lien to which the Rate and Method is attached as **Exhibit A**; and

WHEREAS, all parcels in the District upon its formation, as well as those parcels subsequently annexed into the District, being Annexation Nos. 1 through 5, have been assigned to Tax Zone #1, being the only Tax Zone currently in the District; and

WHEREAS, the Rate and Method, in Section C thereof and in the definition of “Tax Zone”, provides that additional Tax Zones may be created when property is annexed to the District; and

WHEREAS, additional annexations to the District are contemplated; and

WHEREAS, staff has provided its report to this Council that the “One-Time Facilities Special Tax”, as defined in the Rate and Method, needs to be increased due to an increase in the cost of the facilities to be financed by the One-Time Facilities Special Tax, such increase to be applicable to parcels annexed into the District subsequent to Annexation No. 5; and

WHEREAS, The One-Time Facilities Special Tax is not a special tax to pay for bond financed facilities; and

WHEREAS, this Council, having considered the staff report, wants to revise the “One-Time Facilities Special Tax” consistent with the report, and, in order to do so, wants to create within the District a Tax Zone #2 in which the increased One-Time Facilities Special Tax would be authorized to be levied; and

WHEREAS, the Rate and Method provides for the updating of Table 1 therein and Attachments 1 and 2 thereto to reflect annexations to the District, and staff has recommended that the Rate and Method be updated to reflect the parcels annexed to the District pursuant to Annexation Nos. 1 through 5; and

WHEREAS, staff has also submitted to this Council a revised Rate and Method, a copy of which is attached as Exhibit A hereto, in which the actions herein ordered have been incorporated; and

WHEREAS, the actions herein ordered will not increase the One-Time Facilities Special Tax on any parcels within the existing District, including those parcels annexed as a part of Annexation Nos. 1 through 5,

NOW, THEREFORE, BE IT RESOLVED, ORDERED AND FOUND, by the City Council of the City of Modesto, that:

SECTION 1. The foregoing recitals are true and correct.

SECTION 2. It is in the public interest, and in the best interests of the landowners and other interested parties in the District, to preserve the special tax revenue stream in a manner which will enable this City to pay for the cost of the facilities and services authorized to be financed by the levy of the special taxes in the District. The facilities are those which this Council has determined are necessary to meet increased demands placed upon the City and other local agencies as a result of development occurring within the boundaries of the District; the services are those which this Council has determined are in addition to those services provided in the District before it was created and that are necessary to meet the demands placed upon the City and other local agencies as a result of such development.

SECTION 3. There is created a Tax Zone #2 within the District, in which the special taxes heretofore authorized to be levied within the District shall be levied, except that the One-Time Facilities Special Tax is authorized to be levied at the increased rate as set forth in Exhibit A;

SECTION 4. The revised Rate and Method, set forth in **Exhibit A**, in which Tax Zone #2 is created and for which the "One-Time Facilities Special Tax" is increased, is approved.

SECTION 5. The updates to Table 1 and Attachments 1 and 2 of the Rate and Method, to reflect the parcels annexed to the District pursuant to Annexation Nos. 1 through 5, have been made in accordance with the Rate and Method, and are approved.

SECTION 6. Any subsequent proceedings for the annexation of a parcel into the District shall incorporate the revisions to the Rate and Method hereby ordered and approved, and the Amendment to the Notice of Special Tax Lien, recorded pursuant to Section 3117.5 of the California Streets and Highways Code in connection with the annexation, shall identify the Tax Zone to which the Parcel has been assigned.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of December 2004, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant,  
Mayor Ridenour

NOES: Councilmembers: None

ABSENT: Councilmembers: None

ATTEST: Jean Zahr

MICHAEL D. MILICH, City Attorney

## APPENDIX B

### CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2004-1 (VILLAGE ONE #2)

#### UPDATED RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAXES ADDING TAX ZONE #2

Special Taxes applicable to each Assessor's Parcel in Community Facilities District No. 2004-1 (Village One #2) [herein "CFD No. 2004-1" or "the CFD"] shall be levied and collected according to the tax liability determined by the City Council of the City of Modesto, through the application of the appropriate amount or rate for Taxable Property, as described below. All of the property in CFD No. 2004-1, unless exempted by law or by the provisions of Section G below, shall be taxed for the purposes, to the extent, and in the manner herein provided, including property subsequently annexed to CFD No. 2004-1 unless a separate Rate and Method of Apportionment is adopted for the annexation area.

#### A. DEFINITIONS

The terms hereinafter set forth have the following meanings:

**"Acre" or "Acreage"** means the land area of an Assessor's Parcel as shown on an Assessor's Parcel Map, or if the land area is not shown on an Assessor's Parcel Map, the land area shown on the applicable Final Map or other Development Plan.

**"Act"** means the Mello-Roos Community Facilities Act of 1982, as amended, being Chapter 2.5, (commencing with Section 53311), Division 2 of Title 5 of the California Government Code.

**"Administrative Expenses"** means any or all of the following: the fees and expenses of any fiscal agent or trustee (including any fees or expenses of its counsel) employed in connection with any Bonds, and the expenses of the City carrying out its duties with respect to CFD No. 2004-1 and the Bonds, including, but not limited to, levying and collecting the Special Taxes, the fees and expenses of legal counsel, charges levied by the County Auditor's Office, Tax Collector's Office, and/or Treasurer's Office, costs related to annexing property into the CFD, costs related to property owner inquiries regarding the Special Taxes, costs associated with complying with any continuing disclosure requirements for the Bonds and the Special Taxes, and all other costs and expenses of the City in any way related to the establishment or administration of the CFD.

**"Administrator"** means the person or firm designated by the City to administer the Special Taxes according to this Rate and Method of Apportionment of Special Taxes.

**“Annual Facilities Special Tax”** means a special tax levied in any Fiscal Year to pay the Annual Facilities Special Tax Requirement, as defined below.

**“Annual Facilities Special Tax Requirement”** means the amount necessary in any Fiscal Year (i) to pay principal and interest, including scheduled sinking fund payments, on Bonds, (ii) pay administrative expenses of CFD No. 2004-1 that have not been included in the Annual Maintenance Special Tax Requirement for the Fiscal Year, (iii) to create or replenish reserve funds, (iv) to cure any delinquencies in the payment of principal or interest on indebtedness of CFD No. 2004-1 which have occurred in the prior Fiscal Year or (based on delinquencies in the payment of the Annual Facilities Special Taxes which have already taken place) are expected to occur in the Fiscal Year in which the tax will be collected, and (v) to construct or acquire Authorized Facilities. The amounts referred to in clauses (i) and (iii) of the preceding sentence may be reduced in any Fiscal Year by: (i) interest earnings on or surplus balances in funds and accounts for the Bonds to the extent that such earnings or balances are available to apply against debt service pursuant to a Bond indenture, Bond resolution, or other legal document that sets forth these terms; (ii) proceeds received by CFD No. 2004-1 from the collection of penalties associated with delinquent Annual Facilities Special Taxes; and (iii) any other revenues available to pay debt service on the Bonds as determined by the Administrator.

**“Annual Maintenance Special Tax”** means a special tax levied in any Fiscal Year to pay the Maintenance Special Tax Requirement, as defined below.

**“Annual Maintenance Special Tax Requirement”** means that amount necessary in any Fiscal Year to (i) pay for Authorized Services, (ii) pay administrative expenses of CFD No. 2004-1 that have not been included in the Annual Facilities Special Tax Requirement for the Fiscal Year, and (iii) cure any delinquencies in the payment of Annual Maintenance Special Taxes levied in prior Fiscal Years or (based on delinquencies in the payment of Annual Maintenance Special Taxes which have already taken place) are expected to occur in the current Fiscal Year.

**“Assessor’s Parcel”** or **“Parcel”** means a lot or parcel shown on an Assessor’s Parcel Map with an assigned Assessor’s Parcel number.

**“Assessor’s Parcel Map”** means an official map of the County Assessor designating parcels by Assessor’s Parcel number.

**“Authorized Facilities”** means those facilities that are authorized to be funded by CFD No. 2004-1.

**“Authorized Services”** means those services that are authorized to be funded by CFD No. 2004-1.

**“Bonds”** means bonds or other debt (as defined in the Act), whether in one or more series, issued, insured or assumed by CFD No. 2004-1 related to Authorized Facilities.

**“Capitalized Interest”** means funds in any capitalized interest account available to pay debt service on Bonds.

**“CFD Formation”** means the date on which the Resolution of Formation to form CFD No. 2004-1 was adopted by the City Council.

**“City”** means the City of Modesto.

**“City Council”** means the City Council of the City of Modesto, acting as the legislative body of CFD No. 2004-1.

**“Commercial Property”** means all Parcels in CFD No. 2004-1 for which building permits have been or may be issued for construction of a commercial building based on reference to the Village One Specific Plan and/or the Parcel’s zoning designation.

**“County”** means the County of Stanislaus.

**“Developed Property”** means, in any Fiscal Year, the following:

*For purposes of levying the Annual Maintenance Special Tax, “Developed Property” means:*

- for Low Density Residential Property and Village Residential Property, all Parcels for which a Final Map was recorded prior to June 30 of the preceding Fiscal Year but not prior to June 30, 2002,
- for Multi-Family Property, all Parcels for which a building permit for new construction of a residential structure was issued prior to June 30 of the preceding Fiscal Year, and
- for Commercial Property and Industrial Property, all Parcels for which a building permit for construction, reconstruction or expansion of a building structure was issued prior to June 30 of the preceding Fiscal Year. Notwithstanding the foregoing, Parcels of Commercial Property or Industrial Property on which a vacant building is located that cannot be occupied without demolition or reconstruction of the building shall not be categorized as Developed Property until a permit is issued for construction of a new building or reconstruction of the existing building.

*For purposes of levying the Annual Facilities Special Tax, “Developed Property” means:*

- for Low Density Residential Property and Village Residential Property, all Parcels for which a building permit for construction, or reconstruction of a unit was issued prior to June 30 of the preceding Fiscal Year but not prior to June 30, 2002,
- for Multi-Family Attached Property, all Parcels for which a building permit for new construction of a residential structure was issued prior to June 30 of the preceding Fiscal Year, and

- for Commercial Property and Industrial Property, all Parcels for which a building permit for construction, reconstruction or expansion of a building structure was issued prior to June 30 of the preceding Fiscal Year. Notwithstanding the foregoing, Parcels of Commercial Property or Industrial Property on which a vacant building is located that cannot be occupied without demolition or reconstruction of the building shall not be categorized as Developed Property until a permit is issued for construction of a new building or reconstruction of the existing building.

**“Expected Land Uses”** means the Net Taxable Acreage of each Land Use Class expected on an Original Parcel in CFD No. 2004-1 based on reference to the Expected Land Use Map. The Expected Land Uses for each Original Parcel in the CFD at the time of CFD Formation, and the corresponding Maximum Special Tax for each Parcel, are reflected in Attachment 2, which will be updated with each annexation of property into CFD No. 2004-1.

**“Expected Land Use Map”** means the map entitled “Village One Zoning of Unvested Properties” and dated February 21, 2003, which is on file with the CFD Administrator at the City and the City Clerk and which identifies the Expected Land Uses on all Parcels within the Village One Specific Plan that either (i) are in CFD No. 2004-1 at CFD Formation, or (ii) may be annexed into the CFD in future Fiscal Years. The Expected Land Use Map may be updated in future years to add property within the Village One Specific Plan that was vested to develop when the map was prepared and, therefore, was not included in the map but subsequently has its vesting expire or for any other reason becomes subject to a condition of development that requires formation of, or annexation into, a CFD.

**“Final Map”** means a final map, or portion thereof, approved by the City pursuant to the Subdivision Map Act (California Government Code Section 66410 *et seq.*) that creates lots which do not need to be further subdivided prior to issuance of a building permit for a residential or non-residential structure. The term “Final Map” shall not include any Assessor’s Parcel Map or subdivision map or portion thereof, that does not create lots that are in their final configuration, including Assessor’s Parcels that are designated as remainder parcels.

**“Fiscal Year”** means the period starting July 1 and ending on the following June 30.

**“Improvement Area”** means a geographic area that, upon annexation into CFD No. 2004-1, is identified as an improvement area as defined in the Act instead of a Tax Zone, as defined below. Special Taxes collected within an Improvement Area will be the sole security for Bonds issued for that Improvement Area.

**“Industrial Property”** means all Parcels in CFD No. 2004-1 for which building permits have been or may be issued for construction of an industrial building based on reference to the Village One Specific Plan and/or the Parcel’s zoning designation.

**“Land Use Class”** means one of the five mutually-exclusive land use classes identified in Table 1 in Section C below and defined in this Section A. The City shall, in its sole discretion, determine the appropriate Land Use Class for Parcels on which a structure was built prior to CFD Formation.

**“Low Density Residential Property”** means all Parcels in CFD No. 2004-1 for which a building permit has been or may be issued for construction of a residential unit on a Parcel with a maximum density of two or less dwelling units per gross acre based on reference to the Village One Specific Plan and/or the Parcel’s zoning designation.

**“Maximum Annual Facilities Special Tax”** means the greatest amount of Annual Facilities Special Tax that can be levied on an Assessor’s Parcel in any Fiscal Year determined in accordance with Sections C and D below.

**“Maximum Annual Maintenance Special Tax”** means the greatest amount of Annual Maintenance Special Tax that can be levied on an Assessor’s Parcel in any Fiscal Year determined in accordance with Sections C and D below.

**“Maximum One-Time Facilities Special Tax”** means the greatest amount of One-Time Facilities Special Tax that can be levied on an Assessor’s Parcel in any Fiscal Year determined in accordance with Sections C and D below.

**“Maximum Special Taxes”** means, collectively, the Maximum One-Time Facilities Special Tax, Maximum Annual Facilities Special Tax, and Maximum Annual Maintenance Special Tax.

**“Multi-Family Property”** means all Parcels in CFD No. 2004-1 for which building permits have been or may be issued for construction of a residential structure consisting of two or more residential units that share common walls, including but not limited to, townhomes, condominiums, duplexes, triplexes, fourplexes, and apartment units. If a building permit has not yet been issued on the Parcel, the Administrator shall reference the Village One Specific Plan and/or the Parcel’s zoning designation to determine whether the Parcel is Multi-Family Property.

**“Net Taxable Acreage”** or **“Net Taxable Acre”** means the total acreage within a Final Map or Parcel less arterial road right-of-ways and property that is defined in the Final Map for use as a park site, school site, or City-owned or CFD-owned storm drainage basin. If a Subdivision Map is recorded which is not a Final Map for some or all Parcels created by the subdivision, the Administrator shall calculate the Net Taxable Acreage of such unsubdivided Parcels by identifying the Acreage of the Parcel and (i) adding a portion of the acreage of any non-arterial right-of-way that fronts the Parcel determined by drawing lines at right angles to the right-of-way, and (ii) subtracting a portion of the acreage of any arterial right-of-way that fronts the Parcel determined by drawing lines at right angles to the right-of-way. The Net Taxable Acreage of a Parcel or Final Map shall be determined in the sole discretion of the City.

**“One-Time Facilities Special Tax”** means a Special Tax, levied and collected in full by the City prior to a structural building permit being issued for new construction on Taxable Property.

**“Original Parcel”** means an Assessor’s Parcel in CFD No. 2004-1 at the time of CFD Formation or added to the CFD upon annexation, as identified in Attachment 2 (which shall be updated after each annexation). A Successor Parcel that is being further subdivided shall also be considered an

Original Parcel for purposes of determining the Maximum Special Taxes pursuant to Section C below.

**“Per-Acre Special Taxes”** means the per-acre Special Taxes identified in Table 1 in Section C below.

**“Proportionately”** means, for Developed Property, that the ratio of the actual Annual Facilities Special Tax and Annual Maintenance Special Tax levied in any Fiscal Year to the Maximum Annual Facilities Special Tax and Maximum Annual Maintenance Special Tax authorized to be levied in that Fiscal Year is equal for all Assessor’s Parcels of Developed Property, respectively. In addition, for Undeveloped Property, “Proportionately” means that the ratio of the actual Annual Facilities Special Tax and actual Annual Maintenance Facilities Special Tax to the Maximum Annual Facilities Special Tax and Maximum Annual Maintenance Special Tax is equal for all Assessor’s Parcels of Undeveloped Property, respectively.

**“Public Property”** means any property within the boundaries of CFD No. 2004-1 that is owned by the federal government, State of California, County, City, or other public agency.

**“Single Family Detached Lot”** means an individual numbered lot, which is in its final configuration and for which a building permit may be issued for a single family detached unit.

**“Special Taxes”** means, collectively, the One-Time Facilities Special Tax, the Annual Facilities Special Tax, and the Annual Maintenance Special Tax.

**“Special Tax Category”** means, individually, the One-Time Facilities Special Tax, the Annual Facilities Special Tax, and the Annual Maintenance Special Tax.

**“Subdivision Map”** means a Final Map, large lot subdivision map, or other map recorded with the County that results in the subdivision of an Original Parcel into two or more Successor Parcels.

**“Successor Parcel”** means an Assessor’s Parcel of Taxable Property created by the subdivision or reconfiguration of an Original Parcel on which construction of a residential or non-residential structure is permitted.

**“Taxable Property”** means all of the Assessor’s Parcels within the boundaries of CFD No. 2004-1 which are not exempt from the Special Tax pursuant to law or Section G below.

**“Taxable Public Property”** means, in any Fiscal Year, all Parcels of Public Property within CFD No. 2004-1 that, (i) based on the Village One Specific Plan, were expected to be Taxable Property and, (ii) based on this expectation, Maximum Special Taxes were assigned to the Parcels in a prior Fiscal Year.

**“Tax Zone”** means a mutually exclusive geographic area within which particular Special Tax rates may be levied pursuant to this Rate and Method of Apportionment of Special Taxes. Attachment 1 identifies the boundaries of Tax Zone #1 and Tax Zone #2 as of the date of adoption of this updated

Rate and Method of Apportionment of Special Tax; additional Tax Zones may be created when property is annexed into the CFD. Alternatively, additional Original Parcels may be added to a Tax Zone with assigned Maximum Special Taxes based on the Expected Land Uses on each Original Parcel.

**“Tax Zone #1”** means the geographic area that is designated in Attachment 1 of this Rate and Method of Apportionment of Special Tax as Tax Zone #1. Tax Zone #1 may be expanded to include additional Original Parcels that annex to CFD No. 2004-1; Attachments 1 and 2 will be updated each time such an annexation takes place.

**“Tax Zone #2”** means the geographic area that is designated in Attachment 1 of this Rate and Method of Apportionment of Special Tax as Tax Zone #2. Tax Zone #2 may be expanded to include additional Original Parcels that annex to CFD No. 2004-1; Attachments 1 and 2 will be updated each time such an annexation takes place.

**“Undeveloped Property”** means, in any Fiscal Year, all Parcels of Taxable Property within CFD No. 2004-1 that are not Developed Property.

**“Village One Specific Plan”** means the specific plan for development within the Village One project in the City of Modesto adopted by the City Council on April 1, 2003, as amended from time to time.

**“Village Residential Property”** means, in any Fiscal Year, all Parcels in CFD No. 2004-1 for which a building permit has been or may be issued for construction of a residential unit on a Parcel with a maximum density greater than two dwelling units per gross acre based on reference to the Village One Specific Plan and/or the Parcel’s zoning designation.

## **B. DATA FOR ANNUAL ADMINISTRATION**

On or about July 1 of each Fiscal Year, the Administrator shall identify the current Assessor’s Parcel numbers for all Parcels of Taxable Property in CFD No. 2004-1. The Administrator shall also determine: (i) the Tax Zone within which each Parcel of Taxable Property is located, (ii) whether each Assessor’s Parcel of Taxable Property is Developed Property or Undeveloped Property, (iii) which Parcels are Commercial Property, Industrial Property, Multi-Family Property, Low Density Residential Property, and Village Residential Property (the City shall, in its sole discretion, determine the appropriate Land Use Class for Parcels on which a structure was built prior to CFD Formation), (iv) the Net Taxable Acreage of each Parcel, and (v) the Annual Facilities Special Tax Requirement and the Annual Maintenance Special Tax Requirement.

In any Fiscal Year, if it is determined that (i) a parcel map for a portion of property in CFD No. 2004-1 was recorded after January 1 of the prior Fiscal Year (or any other date after which the Assessor will not incorporate the newly-created Parcels into the then current tax roll), (ii) because of the date the parcel map was recorded, the Assessor does not yet recognize the new Parcels created by the parcel map, and (iii) one or more of the newly-created Parcels meets the definition of

Developed Property, the Administrator shall calculate the Special Tax for the property affected by recordation of the parcel map by determining the Special Tax that applies separately to each newly-created Parcel, then applying the sum of the individual Special Taxes to the Original Parcel or Successor Parcel that was subdivided by recordation of the parcel map.

**C. CALCULATING MAXIMUM SPECIAL TAXES**

The Administrator shall use the procedures set forth below to calculate the Maximum Special Taxes for each Parcel in CFD No. 2004-1 in each Fiscal Year, including the Maximum One-Time Facilities Special Tax, Maximum Annual Facilities Special Tax, and Maximum Annual Maintenance Special Tax. A separate method of calculating the Maximum Special Taxes may be identified for Tax Zones or Improvement Areas added to CFD No. 2004-1 as a result of future annexations. The Per-Acre Special Taxes set forth in Table 1 below shall be used for purposes of Sections C.1 and C.2 below:

**Table 1  
Per-Acre Special Taxes  
Fiscal Year 2004-05 \***

<b>Land Use Class</b>	<b>Per-Acre Special Tax: One-Time Facilities Special Tax TAX ZONE #1</b>	<b>Per-Acre Special Tax: One-Time Facilities Special Tax TAX ZONE #2</b>	<b>Per-Acre Special Tax: Annual Facilities Special Tax</b>	<b>Per-Acre Special Tax: Annual Maintenance Special Tax</b>
Low Density Residential Property	\$13,342 per Net Taxable Acre	\$19,576 per Net Taxable Acre	\$3,517 per Net Taxable Acre	\$525 per Net Taxable Acre
Village Residential Property	\$30,281 per Net Taxable Acre	\$44,429 per Net Taxable Acre	\$6,405 per Net Taxable Acre	\$1,233 per Net Taxable Acre
Multi-Family Property	\$101,437 per Net Taxable Acre	\$148,832 per Net Taxable Acre	\$7,222 per Net Taxable Acre	\$4,020 per Net Taxable Acre
Commercial Property	\$52,102 per Net Taxable Acre	\$76,446 per Net Taxable Acre	\$3,570 per Net Taxable Acre	\$920 per Net Taxable Acre
Industrial Property	\$13,103 per Net Taxable Acre	\$19,225 per Net Taxable Acre	\$2,550 per Net Taxable Acre	\$920 per Net Taxable Acre

*\* All Per-Acre Special Taxes shown in Table 1 are subject to the annual adjustments described in Section D below.*

**1. Original Parcels**

The Maximum Special Taxes for each Land Use Class in the Original Parcels in CFD No. 2004-1 as of the date of adoption of this updated Rate and Method of Apportionment of Special Tax are identified in Attachment 2. Attachment 2 will be updated by the Administrator as needed to reflect Original Parcels added to the CFD due to additional annexations. Until an Original Parcel is subdivided, the Maximum Special Taxes shown in

Attachment 2 (escalated as set forth herein) shall be the Maximum Special Taxes for the Parcel unless the zoning on the Original Parcel changes to a Land Use Class that has higher Per-Acre Special Taxes, as shown in Table 1 above. Upon approval of such change in zoning by the City Council, the Administrator shall multiply the applicable Per-Acre Special Taxes by the Net Taxable Acreage of each Land Use Class that is expected on the Parcel based on the rezone. The Administrator shall then update Attachment 2 to reflect the higher Maximum Special Taxes for the Parcel. If a rezone results in a Land Use Class that has a lower Per-Acre Special Tax than the previous Expected Land Uses, there shall be no corresponding reduction in the Maximum Special Taxes for the Parcel. The potential reduction in Maximum Special Tax revenues must be considered separately for each Special Tax Category. If the rezone would cause a reduction in the Maximum Special Tax revenues in any Special Tax Category, the Maximum Special Tax identified for that Special Tax Category shall remain the same as originally assigned to the Original Parcel.

**2. Successor Parcels**

**a. *All Successor Parcels are Single Family Detached Lots***

If the Parcels created by a recorded Subdivision Map are all Single Family Detached Lots, the Administrator shall apply the following steps to allocate the Maximum Special Taxes for the Original Parcel to each of the Successor Parcels created by the subdivision:

**Step 1:** Determine the greater of (i) the Maximum Special Taxes assigned to each Expected Land Use for the Original Parcel, or (ii) the Net Taxable Acreage of Low Density Residential Property and/or Village Residential Property within the Subdivision Map multiplied by the Per-Acre Special Taxes for such Land Use Classes from Table 1 above. If the Subdivision Map includes both Low Density Residential Property and Village Residential Property, separately calculate the amount that applies to each Land Use Class.

**Step 2:** Separately for any Low Density Residential Property and Village Residential Property created by the Subdivision Map, divide the Maximum Special Taxes from Step 1 by the number of Successor Parcels to determine the Maximum Special Taxes for each Single Family Detached Lot.

**b. *No Successor Parcels are Single Family Detached Lots***

If none of the Successor Parcels created by recordation of a Subdivision Map are Single Family Detached Lots, the Administrator shall apply the following steps to allocate the Maximum Special Taxes assigned to the Original Parcel to each of the Successor Parcels:

- Step 1:** Identify the Expected Land Uses for the Original Parcel.
- Step 2:** Determine the Net Taxable Acreage within each Land Use Class created by the Subdivision Map.
- Step 3:** If the Net Taxable Acreage of each Land Use Class from Step 2 is the same as the Expected Land Uses, the Maximum Special Taxes assigned to each of the Expected Land Uses on the Original Parcel shall be allocated to the Successor Parcels based on the Acreage of each Land Use Class that occurs on each Successor Parcel.
- Step 4:** If the Net Taxable Acreage within each Land Use Class from Step 2 is different than the Expected Land Uses for the Original Parcel, the Administrator shall apply the following steps separately for each Special Tax Category:

*Step 4a.* Multiply the applicable Per-Acre Special Tax by the Net Taxable Acreage of each Land Use Class created by the Subdivision Map.

*Step 4b.* If the amount calculated in Step 4a is *greater than* the Maximum Special Tax assigned to the Original Parcel, multiply the Net Taxable Acreage of each Land Use Class on each Successor Parcel by the applicable Per-Acre Special Tax from Table 1 above to determine the Maximum Special Tax for each Successor Parcel.

*Step 4c.* If the amount calculated in Step 4a is *less than* the Maximum Special Tax assigned to the Original Parcel: (i) identify the Maximum Special Tax that was assigned to each of the Expected Land Uses on the Parcel, (ii) divide the Maximum Special Tax for each Land Use Class by the Net Taxable Acreage of each Land Use Class actually created by the Subdivision Map, and (iii) multiply the per-acre Maximum Special Tax calculated in (ii) by the Net Taxable Acreage of each Land Use Class on each Successor Parcel to determine the Maximum Special Tax for each Parcel.

If the Land Use Classes on a Successor Parcel or Parcels are different than the Expected Land Uses for that Parcel(s) and such difference would result in a reduction in the Maximum Special Tax assigned to the Original Parcel for any Special Tax Category, the Maximum Special Tax assigned to the Original Parcel shall either be distributed equally on a per-acre basis to the Successor Parcels or, if multiple Land Use

Classes are created by the Subdivision Map, the Maximum Special Tax from the Original Parcel shall be distributed to each Land Use Class so that the per-acre tax for each Land Use Class has the same proportional relationship as the Per-Acre Special Taxes in Table 1 above.

*If, after subdivision of an Original Parcel, a Successor Parcel is further subdivided, the Successor Parcel shall be treated as an Original Parcel for purposes of allocating Maximum Special Taxes pursuant to Section C.2a, C.2b, or C.2c, as appropriate.*

**c. *Some, But Not All, Successor Parcels are Single Family Detached Lots***

If a Subdivision Map divides an Original Parcel into Successor Parcels, of which some are Single Family Detached Lots and some are not, the Administrator shall (i) break out the Net Taxable Acreage of Low Density Residential Property and/or Village Residential Property separately from the Net Taxable Acreage of other Land Use Classes, (ii) for the Low Density Residential Property and/or Village Residential Property created by the Subdivision Map, apply the steps in Section C.2a to determine the Maximum Special Taxes for each Single Family Detached Lot, and (iii) apply the steps in Section C.2b above to determine the Maximum Special Taxes for Land Use Classes other than Low Density Residential Property and Village Residential Property.

*If, after subdivision of an Original Parcel, a Successor Parcel is further subdivided, the Successor Parcel shall be treated as an Original Parcel for purposes of allocating Maximum Special Taxes pursuant to Section C.2a, C.2b, or C.2c, as appropriate.*

**After each reallocation of the Maximum Special Taxes upon subdivision or reconfiguration of Original Parcels, the sum of the Maximum Special Taxes assigned to Successor Parcels shall never be less, but may be more, than the Maximum Special Taxes assigned to the Original Parcels prior to such reallocation.**

**D. ESCALATION OF MAXIMUM SPECIAL TAXES**

**1. One-Time Facilities Special Tax**

Beginning in January 2005 and each January thereafter, the Maximum One-Time Facilities Special Tax assigned to each Parcel and the Per-Acre Special Tax shown in Table 1 above shall be adjusted annually by the greater of (i) the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or (ii) four percent (4.0%). Each annual adjustment of the One-Time Facilities Special Tax shall become effective on the subsequent July 1.

## **2. Annual Facilities Special Tax**

Beginning in Fiscal Year 2005-06, and each Fiscal Year thereafter, the Maximum Annual Facilities Special Tax assigned to each Parcel and the Per-Acre Special Tax shown in Table 1 above shall be increased by two percent (2%) of the amount in effect in the prior Fiscal Year.

## **3. Annual Maintenance Special Tax**

Beginning in January 2005 and each January thereafter, the Maximum Annual Maintenance Special Tax assigned to each Parcel and the Per-Acre Special Tax shown in Table 1 above shall be adjusted annually by the greater of (i) the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or (ii) four percent (4.0%). Each annual adjustment of the Maximum Annual Maintenance Special Tax shall become effective on the subsequent July 1.

## **E. METHOD OF LEVY OF THE SPECIAL TAX**

### **1. One-Time Facilities Special Tax**

The Maximum One-Time Facilities Special Tax determined pursuant to Sections C and D above shall be levied on all Taxable Property in CFD No. 2004-1 and shall be collected as set forth in Section F below.

### **2. Annual Facilities Special Tax**

Commencing with Fiscal Year 2004-05 and for each following Fiscal Year, the Administrator shall determine the Annual Facilities Special Tax Requirement for the Fiscal Year. The Annual Facilities Special Tax shall then be levied on all Parcels of Taxable Property in CFD No. 2004-1 as follows:

*Step 1:* The Annual Facilities Special Tax shall be levied Proportionately on each Parcel of Developed Property within the CFD up to 100% of the Maximum Annual Facilities Special Tax for each Parcel for such Fiscal Year until the amount levied on Developed Property is equal to the Special Tax Requirement prior to applying any Capitalized Interest that is available in the CFD accounts;

*Step 2:* If additional revenue is needed after Step 1, and after applying Capitalized Interest to the Annual Facilities Special Tax Requirement, the Annual Facilities Special Tax shall be levied Proportionately on each Assessor's

Parcel of Undeveloped Property within the CFD, up to 100% of the Maximum Annual Facilities Special Tax for each Parcel of Undeveloped Property for such Fiscal Year;

*Step 3:* If additional revenue is needed after applying the first two steps, the Annual Facilities Special Tax shall be levied Proportionately on each Assessor's Parcel of Taxable Public Property, up to 100% of the Maximum Annual Facilities Special Tax assigned to each Parcel of Taxable Public Property.

### **3. Annual Maintenance Special Tax**

Commencing with Fiscal Year 2004-05 and for each following Fiscal Year, the Administrator shall determine the Maintenance Special Tax Requirement for the Fiscal Year. The Annual Maintenance Special Tax shall then be levied on all Parcels of Taxable Property as follows:

*Step 1:* The Annual Maintenance Special Tax shall be levied Proportionately on each Parcel of Developed Property within the CFD up to 100% of the Maximum Annual Maintenance Special Tax for each Parcel for such Fiscal Year;

*Step 2:* If additional revenue is needed after Step 1, the Annual Maintenance Special Tax shall be levied Proportionately on each Assessor's Parcel of Undeveloped Property within the CFD, up to 100% of the Maximum Annual Maintenance Special Tax for each Parcel of Undeveloped Property for such Fiscal Year;

*Step 3:* If additional revenue is needed after applying the first two steps, the Annual Maintenance Special Tax shall be levied Proportionately on each Assessor's Parcel of Taxable Public Property, up to 100% of the Maximum Annual Maintenance Special Tax assigned to each Parcel of Taxable Public Property.

## **F. COLLECTION OF SPECIAL TAX**

The Maximum One-Time Facilities Special Tax shall be collected prior to a building permit being issued for new construction of any residential or non-residential structure on Taxable Property within CFD No. 2004-1, and shall be immediately delinquent if not so paid.

The Annual Facilities Special Tax and Annual Maintenance Special Tax for CFD No. 2004-1 shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided, however, that prepayments are permitted as set forth in Section H below and provided further that the City may directly bill, collect at a different time or in a different manner, and/or collect delinquent Annual Facilities Special Taxes and Annual Maintenance Special Taxes through foreclosure or other available methods.

The Annual Facilities Special Tax shall be levied and collected until principal and interest on Bonds have been repaid, costs of constructing or acquiring Authorized Facilities from Annual Facilities Special Tax proceeds have been paid, and all Administrative Expenses have been reimbursed. However, in no event shall an Annual Facilities Special Tax be levied after Fiscal Year 2060-61. The Annual Maintenance Special Tax will continue to be levied and collected unless and until the City determines that the Annual Maintenance Special Tax no longer needs to be levied to pay Authorized Services of the CFD and all Administrative Expenses have been reimbursed. Under no circumstances may the Annual Facilities Special Tax on one Parcel in the CFD be increased by more than ten percent (10%) as a consequence of delinquency or default in payment of the Annual Facilities Special Tax levied on another Parcel or Parcels in the CFD.

#### **G. EXEMPTIONS**

Notwithstanding any other provision of this Rate and Method of Apportionment of Special Taxes, no Special Taxes shall be levied on Public Property, except Taxable Public Property, as defined herein.

#### **H. PREPAYMENT OF SPECIAL TAX**

The following definitions apply to this Section H:

**“Outstanding Bonds”** means all Previously Issued Bonds which remain outstanding, with the following exception: if an Annual Facilities Special Tax has been levied against, or already paid by, an Assessor’s Parcel making a prepayment, and a portion of the Annual Facilities Special Tax will be used to pay a portion of the next principal payment on the Bonds that remain outstanding (as determined by the Administrator), that next principal payment shall be subtracted from the total Bond principal that remains outstanding, and the difference shall be used as the amount of Outstanding Bonds for purposes of this prepayment formula.

**“Previously Issued Bonds”** means all Bonds that have been issued on behalf of the CFD prior to the date of prepayment.

**“Public Facilities Requirements”** means either \$14,100,000 in 2004 dollars, which shall increase on January 1, 2005, and on each January 1 thereafter by the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or such other number as shall be determined by the City as sufficient to fund Authorized Facilities. The Public Facilities Requirements shown above shall be adjusted or a separate Public Facilities Requirements identified each time property annexes into CFD No. 2004-1; at no time shall the added Public Facilities Requirement for the annexation area exceed the amount of public

improvement costs that are expected to be supportable by the Maximum Annual Facilities Special Tax generated within that annexation area.

**“Remaining Facilities Costs”** means the Public Facilities Requirements (as defined above), minus costs of Authorized Facilities funded by Outstanding Bonds (as defined above), developer equity, and/or any other source of funding.

The Annual Facilities Special Tax obligation applicable to an Assessor’s Parcel in the CFD may be prepaid and the obligation of the Assessor’s Parcel to pay the Annual Facilities Special Tax permanently satisfied as described herein, provided that a prepayment may be made only if there are no delinquent Annual Facilities Special Taxes with respect to such Assessor’s Parcel at the time of prepayment. The Annual Maintenance Special Tax may not be prepaid. An owner of an Assessor’s Parcel intending to prepay the Annual Facilities Special Tax obligation shall provide the City with written notice of intent to prepay. Within 30 days of receipt of such written notice, the City or its designee shall notify such owner of the prepayment amount for such Assessor’s Parcel. Prepayment must be made not less than 75 days prior to any redemption date for Bonds to be redeemed with the proceeds of such prepaid Annual Facilities Special Taxes. The Prepayment Amount shall be calculated as follows: (capitalized terms as defined below):

	Bond Redemption Amount
plus	Remaining Facilities Amount
plus	Redemption Premium
plus	Defeasance Requirement
plus	Administrative Fees and Expenses
<u>less</u>	<u>Reserve Fund Credit</u>
equals	Prepayment Amount

As of the proposed date of prepayment, the Prepayment Amount shall be determined by application of the following steps:

- Step 1.** Compute the total Maximum Annual Facilities Special Tax that could be collected from the Assessor’s Parcel prepaying the Annual Facilities Special Tax in the Fiscal Year in which prepayment would be received by the City.
- Step 2.** Divide the Maximum Annual Facilities Special Tax from Step 1 by the total amount that could be collected if the Maximum Annual Facilities Special Tax was levied on all Parcels of Taxable Property in the CFD.
- Step 3.** Multiply the quotient computed pursuant to Step 2 by the Outstanding Bonds to compute the amount of Outstanding Bonds to be retired and prepaid (*the “Bond Redemption Amount”*).
- Step 4.** Compute the current Remaining Facilities Costs (if any).

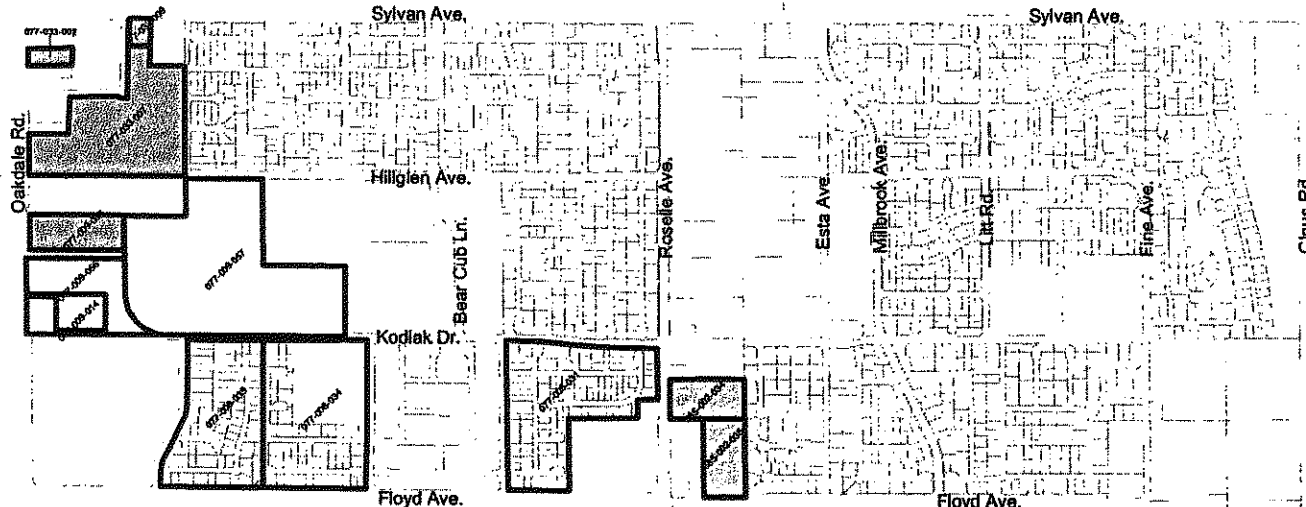

- Step 5.** Multiply the quotient computed pursuant to Step 2 by the amount determined pursuant to Step 4 to compute the amount of Remaining Facilities Costs to be prepaid (the "*Remaining Facilities Amount*").
- Step 6.** Multiply the Bond Redemption Amount computed pursuant to Step 3 by the applicable redemption premium, if any, on the Outstanding Bonds to be redeemed (the "*Redemption Premium*").
- Step 7.** Compute the amount needed to pay interest on the Bond Redemption Amount starting with the first Bond interest payment date after which the prepayment has been received until the earliest redemption date for the Outstanding Bonds, which, depending on the Bond offering document, may be as early as the next interest payment date.
- Step 8:** Compute the amount of interest the City reasonably expects to derive from reinvestment of the Bond Redemption Amount plus the Redemption Premium from the first Bond interest payment date after which the prepayment has been received until the redemption date for the Outstanding Bonds.
- Step 9:** Take the amount computed pursuant to Step 7 and subtract the amount computed pursuant to Step 8 (the "*Defeasance Requirement*").
- Step 10.** Determine the costs of computing the prepayment amount, the costs of redeeming Bonds, and the costs of recording any notices to evidence the prepayment and the redemption (the "*Administrative Fees and Expenses*").
- Step 11.** If and to the extent so provided in the indenture pursuant to which the Outstanding Bonds to be redeemed were issued, a reserve fund credit shall be calculated as a reduction in the applicable reserve fund for the Outstanding Bonds to be redeemed pursuant to the prepayment (the "*Reserve Fund Credit*").
- Step 12.** The Annual Facilities Special Tax prepayment is equal to the sum of the amounts computed pursuant to Steps 3, 5, 6, 9, and 10, less the amount computed pursuant to Step 11 (the "*Prepayment Amount*").

If an owner that has prepaid the Annual Facilities Special Tax obligation assigned to a Parcel subsequently rezones the Parcel to a Land Use Class that has a higher Per-Acre Annual Facilities Special Tax, the City may in its sole discretion and as a condition of approval of the rezoning, collect the additional Annual Facilities Special Tax prepayment that would have applied had the Parcel been rezoned at the time of the original prepayment for the Parcel.

**I. INTERPRETATION OF SPECIAL TAX FORMULA**

The City reserves the right to make minor administrative and technical changes to this document that does not materially affect the Rate and Method of Apportionment of Special Taxes. In addition, the interpretation and application of any section of this document shall be left to the City's discretion. Interpretations may be made by the City by ordinance or resolution for purposes of clarifying any vagueness or ambiguity in this Rate and Method of Apportionment of Special Taxes.

1. Beginning in January 2005 and each January thereafter, the Maximum One-Time Facilities Special Tax shall be adjusted by the greater of (i) the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or (ii) four percent (4.0%). Each annual adjustment of the Maximum One-Time Facilities Special Tax shall become effective on the subsequent July 1.

2. Beginning in Fiscal Year 2005-06 and each Fiscal Year thereafter, the Maximum Annual Facilities Special Tax shall escalate by 2.0% of the amount in effect in the prior Fiscal Year.

3. Beginning in January 2005 and each January thereafter, the Maximum Annual Maintenance Special Tax shall be adjusted by the greater of (i) the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or (ii) four percent (4.0%). Each annual adjustment of the Maximum Annual Maintenance Special Tax shall become effective on the subsequent July 1.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-684**

**A RESOLUTION APPROVING A DEVELOPMENT PLAN FOR PREZONED  
PLANNED DEVELOPMENT ZONE P-PD(570), PROPERTY LOCATED SOUTH  
OF GLENN AVENUE AND EAST OF CROWS LANDING ROAD. (EAGLE  
VALLEY INVESTMENTS, INC.)**

WHEREAS, Larry Buehner Trust is the owner of approximately 20 acres of real property, located south of Glenn Avenue and east of Crows Landing Road; and

WHEREAS, a verified application for an amendment to Section 9-4-9 of the Zoning Map was filed by Eagle Valley Investments, Inc., on August 6, 2004, to prezone to Prezoned Planned Development Zone, P-PD(570), to allow for the development of industrial uses on property located south of Glenn Avenue, east of Crows Landing Road, as described in **Exhibit "A"** attached hereto ("Property"); and

WHEREAS, after a public hearing held on November 15, 2004, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, the Planning Commission of the City of Modesto recommends by its Resolution Nos. 2004-65A and 2004-65B that the City Council find and determines, that prezoning of the Property as requested is required by public necessity, convenience, and general welfare for the following reasons:

1. The proposed project will provide needed increase in the amount of industrial land available for development;
2. New industrial development on the site will provide new employment opportunities; and
3. New industrial development on the site will increase the City's tax base; and
4. The proposed prezoning will result in orderly planning and use of land resources because future industrial development on the site

will be consistent with the existing industrial area and provides the opportunity to take advantage of the existing Union Pacific Railroad line.

5. The proposed prezone is consistent with the Modesto Urban Area General Plan, because:
  - a. Industrial development on the site will be consistent with the Industrial designation in the Modesto Urban Area General Plan; and
  - b. The location of the Property immediately adjacent to the existing City limits and within the Sphere of Influence is consistent with Urban Growth Policy II.C.1.b., which states “Urban development should be kept as contiguous as possible in order to avoid premature urbanization of valuable farm land, foster resident convenience, and provide for economy in City services.”

WHEREAS, the Planning Commission further recommends the City Council amend Section 9-4-9 of the Zoning Map to prezone the Property to Planned Development, P-PD(570) in accordance with the following conditions:

1. Prior to the issuance of a building permit, development on the site will be subject to site plan and elevation review and approval by the Community and Economic Development Director or designee, in accordance with the site design standards in the Planned Development attached as Exhibit “C.” All development shall conform to the approved site plans and elevations.
2. Prior to the issuance of a building permit, applicant shall pay for a backup pump and generator for City of Modesto Tank No. 8 and the installation of the backup pump and generator to improve system reliability. Prior to issuance of a building permit, improvement plans and specifications for the backup pump and generator shall be prepared by a Registered Civil Engineer and approved by the City Engineer or designee.
3. Prior to issuance of a building permit, the applicant(s) shall be required to pay a mitigation impact fee for applicant’s proportional share of all costs associated with acquisition and/or condemnation of property and installation of street improvements and a traffic control device at the southeast

corner of the intersection of Crows Landing Road and Glenn Avenue, in an amount to be determined by the City Engineer.

WHEREAS, said matter was set for a public hearing of the City Council to be held on December 14, 2004, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing was held, and

NOW, THEREFORE, after said public hearing the Council found and determined that the application of Eagle Valley Investments, Inc., for a Planned Development Zone, P-PD(570) should be granted as consonant with public necessity, convenience and general welfare for the reasons set forth in Planning Commission Resolution Nos. 2004-65A and 2004-65B and quoted above.

WHEREAS, the Council has introduced Ordinance No. 3376-C.S. on the 14<sup>th</sup> day of December, 2004, rezoning the above-described property to Prezoned Planned Development Zone, P-PD(570),

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. DEVELOPMENT PLAN. The development plan for the Prezoned Planned Development Zone, P-PD(570) is hereby approved subject to the following conditions:

1. Prior to the issuance of a building permit, development on the site will be subject to site plan and elevation review and approval by the Community and Economic Development Director or designee, in accordance with the site design standards in the Planned Development attached as Exhibit "C." All development shall conform to the approved site plans and elevations.

2. Prior to the issuance of a building permit, a backup pump and generator will be provided for City of Modesto Tank #8 to improve system reliability to the satisfaction of the City Engineer.
3. Prior to issuance of a building permit, the applicant(s) will be asked to pay a mitigation impact fee for their proportional share of the improvement of the intersection of Crows Landing Road and Glenn Avenue.
4. The Vesting Tentative Subdivision Map application cannot proceed to Planning Commission until the annexation process is complete.
5. Prior to approval of the Vesting Tentative Subdivision Map or the issuance of any building permits, a storm drainage basin must be constructed that meets City standards and as approved by the Director Public Works.
6. The property is in Modesto Municipal Sewer District #1. Sewer service shall be taken from East Glenn Avenue.
7. Storm water quality and runoff from the site must be mitigated. The new development guidelines must be followed.
8. Improvement plans shall be prepared by a California-licensed civil engineer and in accordance with City of Modesto standards.

The following conditions of approval are mitigation measures from the Modesto Urban Area General Plan Master Environmental Impact Report:

9. SJVUAPCD Regulation VIII Control Measures for Construction Emissions of PM-10. The following controls are required to be implemented at all construction sites:
  - a. All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover
  - b. All on-site unpaved roads and off-site unpaved access roads shall be effectively stabilized of dust emissions using water or chemical stabilizer/suppressant.
  - c. All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively

controlled of fugitive dust emissions utilizing application of water or by presoaking.

- d. With the demolition of buildings up to six stories in height, all exterior surfaces of the building shall be wetted during demolition.
  - e. When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.
  - f. All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. *(the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)*
  - g. Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.
  - h. Within urban areas, trackout shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.
  - i. Any site with 150 or more vehicle trips per day shall prevent carryout and trackout.
10. Plans and specifications for new stormwater facilities within the City of Modesto are reviewed and approved by the engineering and Transportation Department. Development of stormwater drainage facilities must be in compliance with the requirements for the installation of Best Management Practices (BMPs) as defined in the City's Comprehensive Stormwater Management Program (CSMP), and as outlined in the City of Modesto Design Standards for Dual Use Flood Control/Recreation Facilities, adopted December 12, 2000.
11. Two-thirds of the Baseline Developed Area is served by underground injection of urban runoff, commonly termed "rockwells." New rockwells will be discouraged within the Baseline Developed Area. Instead, new storm drainage in the Baseline Developed Area shall be by means of appositve storm

drainage systems unless the proposed service area is so isolated from surface waters that it is infeasible to provide positive drainage. The new storm drainage facilities shall consider the drainage facility requirements presented in Table 9-1 of the Master EIR. This policy applies to both positive storm drainage systems and to new rockwells (which are generally discouraged) in the Baseline Developed Area. (General Plan Policy V-E.2[a])

12. The Modesto Irrigation District shall be consulted during the preparation of drainage studies required by the Urban Area General Plan. (General Plan Policy V-E.2[b])
13. The City of Modesto shall prevent water pollution from urban storm runoff as established by the Central Valley Regional Water Quality Control Board for surface discharges and Environmental Protection Agency for underground injection. (General Plan Policy V-E.2[c])
14. Storm water drainage facilities shall be constructed, operated, maintained, and replaced in a manner that will provide the best possible service to the public, given the financial abilities and constraints of the City and of the private sector alike. In developing implementation plans, consideration shall be given to rehabilitation of existing facilities, remediation of developed areas with inadequate levels of drainage service, and the timely expansion of the system for future development. (General Plan Policy V-E.2[d])
15. The California Environmental Protection Agency is authorized to endow qualifying local agencies with oversight and permitting responsibility for certain state programs. The Unified Program was created by state legislation in 1993 to consolidate, coordinate, and make consistent the administrative requirements, permits, inspections, and enforcement activities for the following environmental and emergency management programs:
  - a. Hazardous Materials Release Response Plans and Inventories (Business Plans)
  - b. California Accidental Release Prevention (CalARP) Program
  - c. UST Program
  - d. Aboveground Petroleum Storage Act Requirements for Spill Prevention, Control and Countermeasure (SPCC) Plans
  - e. Hazardous Waste Generator and Onsite Hazardous Waste Treatments (tiered permitting) Programs
  - f. California Uniform Fire Code: Hazardous Material Management Plans and Hazardous Material Inventory Statements

16. Any construction which occurs as a result of the Urban Area General Plan must conform with the current UBC regulations, which address seismic safety of new structures and slope requirements. As appropriate, the City will require a geotechnical analysis prior to tentative map review in order to ascertain site-specific subsurface information necessary to estimate foundation conditions. These geotechnical studies should reference and make use of the most recent regional geologic maps available from the California Department of Conservation Division of Mines and Geology. (General Plan Policy VI.E.1[a])

SECTION 2. DEVELOPMENT SCHEDULE. The requirement for a development schedule as described in Section 10-2.1708 of the Modesto Municipal Code, is hereby waived.

SECTION 3. CHANGES IN DEVELOPMENT PLAN. Any changes in the above approved development plan shall be made in accordance with the provisions of Section 10-2.1709 of the Modesto Municipal Code.

SECTION 4. COMPLIANCE WITH CODE PROVISIONS, ETC. In all other respects said planned development shall be accomplished in accordance with and in strict adherence to the provisions of Article 17 of Title 10 of the Modesto Municipal Code relating to Planned Development Zones and other applicable City laws, rules, regulations and procedures.

SECTION 5. EFFECTIVE DATE. This resolution shall not become effective unless and until Ordinance No. 3376-C.S. rezoning the above-described property to Prezoned Planned Development P-PD(570) becomes effective.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of December, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

**EXHIBIT "A"**  
**Buehner Reorganization to the City of Modesto**

A portion of the southwest quarter of Section 9, Township 4 South, Range 9 East, Mount Diablo Base and Meridian, situate in the County of Stanislaus, State of California, more particularly described as follows:

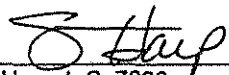

Commencing at the northeast corner of said southwest quarter of Section 9;

1. thence North 89°56'28" West along the north line of the said southwest quarter of Section 9, a distance of 25.00 to the west line of the Union Pacific Railroad Right-of-Way, the existing city limit line as described in the "Modesto Industrial Park Addition to the City of Modesto" and the TRUE POINT OF BEGINNING;
2. thence South 00°19'10" East along said west line of the Union Pacific Railroad and the existing city limit line, a distance of 672.54 feet;
3. thence North 89°52'25" West along the existing city limit line of the "Whitmore No. 1 Addition to the City of Modesto" and its westerly extension, a distance of 1297.95 feet;
4. North 00°11'33" West along the city limit of "Crows Landing Road Annexation to the City of Modesto", a distance of 671.00 feet;
5. thence South 89°56'28" East along north line of the southwest quarter of Section 9 and the existing city limit line of the "Modesto Industrial Park Addition to the City of Modesto", a distance of 1296.45 feet to the point of beginning.

Contains 20.00 acres, more or less.

This real property description has been prepared by me, or under my direction, in conformance with the Professional Land Surveyor's Act.

**PLANNED DEVELOPMENT SITE DESIGN STANDARDS**

## **Planned Development Design Standards**

### **Buehner Reorganization/Glenn Avenue**

#### **Authority and Purpose**

The Planned Development (PD) zone is described in Article 17 of the Modesto Municipal Code.

Development in this PD zone shall be subject to standards set forth in Articles 15 (M-2, Heavy Industrial), 17 (PD, Planned Development), 20 (Off-Street Parking Requirements), and 21 (Sign Regulations) of the City of Modesto Zoning Ordinance, unless specifically addressed herein. All off-site improvements are subject to applicable City standards and policies in effect at the time of submittal of improvement plans.

The purpose of this Planned Development is to achieve a higher quality development that will improve the look of industrial development in the City of Modesto and attract higher-quality businesses to industrial areas of the City.

#### **Design Standards**

No additional processing will be required. Approval of site plans and building elevations will be at the discretion of the Director of the Community and Economic Development Department, based on the design standards presented below, and will occur during the building plan review process. The development package submitted at the time a building permit is applied for must include a complete set of building elevations and a site plan.

##### For metal or wood frame buildings:

- Non-metallic base trim three feet in height shall be used along all portions of the main building visible from a public street. Base trim must be in a contrasting color to the body of the building. Trim may include brick, stone, tile, stucco, or other similar material.
- Roof trim must be at least two feet in height and must be of a color coordinating with the base trim. Roof trim should be designed to alter the bulk of the roof line. Neither a "belly band" nor paint stripes shall be considered roof trim.

##### For concrete buildings:

- Concrete masonry unit (CMU) walls shall be either integrally colored or textured and integrally colored. All other concrete masonry units shall be finished with a plaster base coat and a plaster finish coat. No painted block walls shall be permitted.
- Personal doors shall be accented with metal awnings to draw attention to entrances and provide some shelter from the weather. This shall not apply to personal doors used exclusively for emergency egress.
- Windows facing the street shall be accented with raised trim and/or awnings.

## **Other Development Standards**

- Buildings shall be set back no less than 20 feet from the front property line.
- At a minimum, half of the front setback area (10 feet) shall be landscaped.
- Whenever feasible, the portion of the building facing a public street shall "read" as the building front by locating personal entry doors and office windows on this side of the building.
- Outdoor storage areas shall be fenced and screened such that material stored outdoors is not visible from the street frontage.
- Unless stored inside a building, trash receptacles shall be located in an enclosure that is gated and locked at all times to prevent unauthorized dumping. Enclosures shall be constructed such that trash receptacles are not visible from outside the enclosure.

### Loading and Service Areas

- Truck loading and service areas shall be screened from view from a public street by plantings or berms.

### Mechanical Equipment Screening

Roof-mounted equipment, including, but not limited to, air conditioners, fans, and vents shall be set back from the roof edge, placed behind a parapet wall, or in a wall enclosure, so it is not visible from adjacent public streets. Screening equipment shall be integrated into the building and roof design by the use of compatible materials, colors, and forms. Wood lattice and fence-like coverings shall not be used as screening materials.

Ground-mounted equipment should be screened with landscaping. Large structures and/or equipment such as water tanks, silos, and large bins, should be screened by the main building from view from public streets.

### Storm Water Drainage Basin

- The storm water drainage basin must be enclosed with a concrete masonry wall which is covered with vines and other climbing plants to prevent graffiti or enclosed with a wrought iron fence accented with masonry pilasters (see Walls and Fences, below).
- The basin must be buffered from the street and sidewalk with a landscaped 20-foot setback from the front property line.

### Walls and Fences

Where used, walls shall complement the building design. Walls fronting a public street shall be concrete masonry unit, concrete, brick, or wrought iron with masonry pilasters. Along interior property lines, where not visible from a public street, chain link or wrought iron with masonry pilasters is acceptable.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-685**

**A RESOLUTION OF APPLICATION TO THE STANISLAUS LOCAL AGENCY FORMATION COMMISSION TO ANNEX 20 ACRES OF PROPERTY LOCATED SOUTH OF GLENN AVENUE AND EAST OF CROWS LANDING ROAD TO THE CITY OF MODESTO AND SEWER DISTRICT NO. 1 AND TO DETACH SAID PROPERTY FROM THE INDUSTRIAL FIRE PROTECTION DISTRICT (OWNER INITIATED – UNINHABITED)**

WHEREAS, Larry Buehner Trust is the owner of approximately 20 acres of real property, located south of Glenn Avenue and east of Crows Landing Road (“Property”); and

WHEREAS, the City has received a written request from the applicant’s representative, Eagle Valley Investments, Inc., to initiate annexation of the Property to the City of Modesto under the Cortese-Knox-Hertzberg Local Reorganization Act of 2000, California Government Code Section 56000, et seq; and

WHEREAS, Government Code Section 56650 provides that proceedings to initiate a change of organization to annex additional territory to a City may be initiated by Resolution of Application or Petition; and

WHEREAS, the Property proposed to be annexed is uninhabited, and a description of the boundaries of the subject Property is set forth in Exhibits “A” and “B”, attached hereto and by this reference incorporated herein; and

WHEREAS, the subject territory proposed to be annexed is within Stanislaus County, contiguous to the existing City limits and within the current Sphere of Influence of the City of Modesto, as adopted by Stanislaus Local Agency Formation Commission, Resolution No. 97-11, on December 19, 1994; and

WHEREAS, before an annexation application may be heard by LAFCO, there must be an agreement with the County providing for the sharing of property taxes following an annexation; and

WHEREAS, the proposed annexation area is covered by the Master Property Tax Agreement entered into between the County of Stanislaus and City of Modesto which was approved by Council Resolution No. 96-170 on April 9, 1996; and

WHEREAS, the proposed Property is not subject to a Williamson Act contract, pursuant to Government Code Section 51200, et seq; and

WHEREAS, it is desired to provide that the proposed reorganization be subject to the following terms and conditions:

- (a) The annexation of said territory, as set forth on Exhibits "A" and "B" attached hereto, to the City of Modesto.
- (b) The annexation of said territory, as set forth on Exhibits "A" and "B" attached hereto, to the Modesto Sewer District No. 1.
- (c) The detachment of said territory from the Industrial Fire Protection District.

WHEREAS, the reasons for this proposed reorganization to the City of Modesto are as follows:

- (a) Staff has received a written request signed by the sole property owner, Larry Buehner Trust, to annex its property to the City of Modesto.
- (b) The proposed annexation is within the existing Sphere of Influence and is consistent with the Urban Area General Plan and can be most efficiently served by City services.
- (c) The proposed annexation will result in planned, orderly and efficient development of the area, and provision of services; and

WHEREAS, pursuant to Government Code Section 56653, a plan for providing services is set forth in Exhibit "C", attached hereto and by this reference incorporated herein; and

WHEREAS, an Initial Study (Environmental Assessment No. EA/C&ED 2004-63) was prepared by the City of Modesto that analyzed whether the proposed subsequent

project may cause any significant effect on the environment that was not examined in the MEIR; and

WHEREAS, on December 14, 2004, at 5:30 p.m., in the Tenth Street Place Chambers at 1010 Tenth Street, Modesto, California, the City Council held a duly noticed public hearing to consider the proposed Resolution of Application for annexation of the Property; and

NOW, THEREFORE, BE IT RESOLVED THAT the City Council of the City of Modesto hereby finds and determines as follows:

1. That the proposed annexation and this Resolution of Application are consistent with the Modesto Urban Area General Plan, because they are consistent with General Plan Urban Growth Policy II.C.1.b., which states, "Urban development should be kept as contiguous as possible in order to avoid premature urbanization of valuable farm land, foster resident convenience, and provide for economy in City services," and because the development resulting from the proposed annexation is consistent with the General Plan.
2. The type of project under consideration is described in Chapter II of the MEIR and is within the scope of the MEIR (SCH No. 1999082041), which analyzed the potential impacts of build out of the Baseline Development Area.
3. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the project or have otherwise been made conditions of approval of the project.
4. That the proposed subsequent project will have no additional significant effect as defined in CEQA Section 21158 that was not identified in the MEIR.
5. That no new or additional mitigation measures or alternatives are required.
6. The Initial Study, Environmental Assessment No. EA/C&ED 2004-63, provides the substantial evidence to support findings 2-5 above.
7. The Property proposed to be annexed to the City of Modesto is uninhabited, and a description of the boundaries of the subject Property is set forth in Exhibits "A" and "B," attached hereto and by this reference incorporated herein.

8. The Property is located within Stanislaus County, is within the City's existing Sphere of Influence, is contiguous to the existing City limits and can be most efficiently served with City services.
9. The proposed annexation will result in planned, orderly, and efficient development of the area, and the most efficient provision of services.
10. An agreement for the sharing of property taxes for the Property was approved by the Master Property Tax Agreement entered into between the County of Stanislaus and City of Modesto which was approved by Council Resolution No. 96-170 on April 9, 1996.
11. The Property is not subject to a Williamson Act Contract pursuant to Government Code Section 51200, et seq.
12. The proposed annexation is within the scope of the Urban Area General Plan MEIR (SCH No. 1999082041) and has been adequately analyzed in the MEIR.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that it hereby adopts this Resolution of Application to annex the Property to the City of Modesto and Modesto Sewer District No. 1 and to detach the Property from the Industrial Fire Protection District.

BE IT FURTHER RESOLVED by the City Council of the City of Modesto that:

1. All owners of land within the affected Property have given their written consent to the reorganization and therefore, pursuant to California Government Code Section 56663 (c)(1), the City Council consent to waiver of conducting authority proceedings.
2. Pursuant to Government Code Section 56653, the City Council shall submit the plan for providing services as set forth in Exhibit "C," attached hereto and by this reference incorporated herein.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of December, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by

Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

NOES: Councilmembers: None

## TECHNICAL MEMORANDUM

DATE: January 15, 2004 Project No.: 418-02-01

TO: Will Wong, City of Modesto

CC: Jack Bond, City of Modesto  
Craig Scott, City of Modesto

FROM: Gerry Nakano, Project Manager  
Charles Duncan, Project Engineer  
Carman Ng, Staff Engineer

SUBJECT: 414 East Glenn Avenue Fire Flow Comparison and Analysis

This Technical Memorandum summarizes the findings and conclusions of West Yost and Associates' (WYA) technical evaluation of the ability and reliability of the City of Modesto's (City) existing water distribution system to meet required minimum pressures and flows during an assumed high demand period plus fire flow condition, in the area of 414 East Glenn Avenue, in the South Modesto service area.

### BACKGROUND

A 20-acre industrial parcel located in the vicinity of 414 East Glenn Avenue (Project) is planning to be annexed into the City. The subject property is planning to be sub-divided into 20 individual parcels, each approximately 1 acre in size. On August 20, 2003 at 10:30 AM, the City's Fire Department performed a hydrant flow test at 414 East Glenn Avenue, and observed a flow of 1,126 gallons per minute (gpm) and a residual pressure of 45 pounds per square inch (psi) at the observed hydrant.

The City requested that WYA attempt to replicate the field-observed pressure and hydrant flow measurements using the September 2003 calibrated hydraulic water model of the City's water system. The City also requested that a hydraulic analysis be performed to evaluate whether the field-observed pressure and flow measurements could be sustained if a nearby City well or pump station were assumed to be non-operational. Figure 1 provides a schematic location of these facilities. An analysis of Project water demands, or water supply availability was not part of the City requested analysis.

## MODELING CRITERIA

The hydraulic modeling criteria used by WYA in the analysis of the City's existing water system are listed below:

- A demand of 131.5 million gallons per day as measured by the City's SCADA system on August 20, 2003 at 10:00 AM in Modesto (total within North and South Modesto), was replicated in the hydraulic simulation model. Individual SCADA flow data was also available for each of the City's groundwater supply wells.
- The September 2003 calibrated hydraulic model of the City's existing water system was used to evaluate the hydraulic conditions.

## ANALYSIS AND FINDINGS

The South Modesto portion of the City's September 2003 calibrated hydraulic model was modified to reflect the supply conditions according to SCADA information provided for August 20, 2003 at 10:00 AM. WYA then ran the hydraulic simulation model to determine resultant system pressures during a 1,126 gpm hydrant fire flow at the Project. Then to evaluate system reliability/redundancy, this analysis was re-run, assuming that the booster pump supplying water from Tank 8 into the distribution system was out of service.

### Hydrant Flow Test with Tank 8 Booster Pump Station Online

The hydraulic model simulation of a 1,126 gpm fire flow at the Project location produced a residual system pressure of approximately 41 psi (see Figure 2). This calculated system pressure was 4 psi lower than the pressure observed in the field. This model simulation result confirms the ability of the City's existing water distribution system to provide approximately 1,125 gpm at the Project at a pressure of  $\pm 40$  psi, if local wells 49, 100, 214, 217, and 284 are all operating at their design points, and the booster pump station at Tank 8 is in service.

### Hydrant Test with Tank 8 Booster Pump Station Out of Service

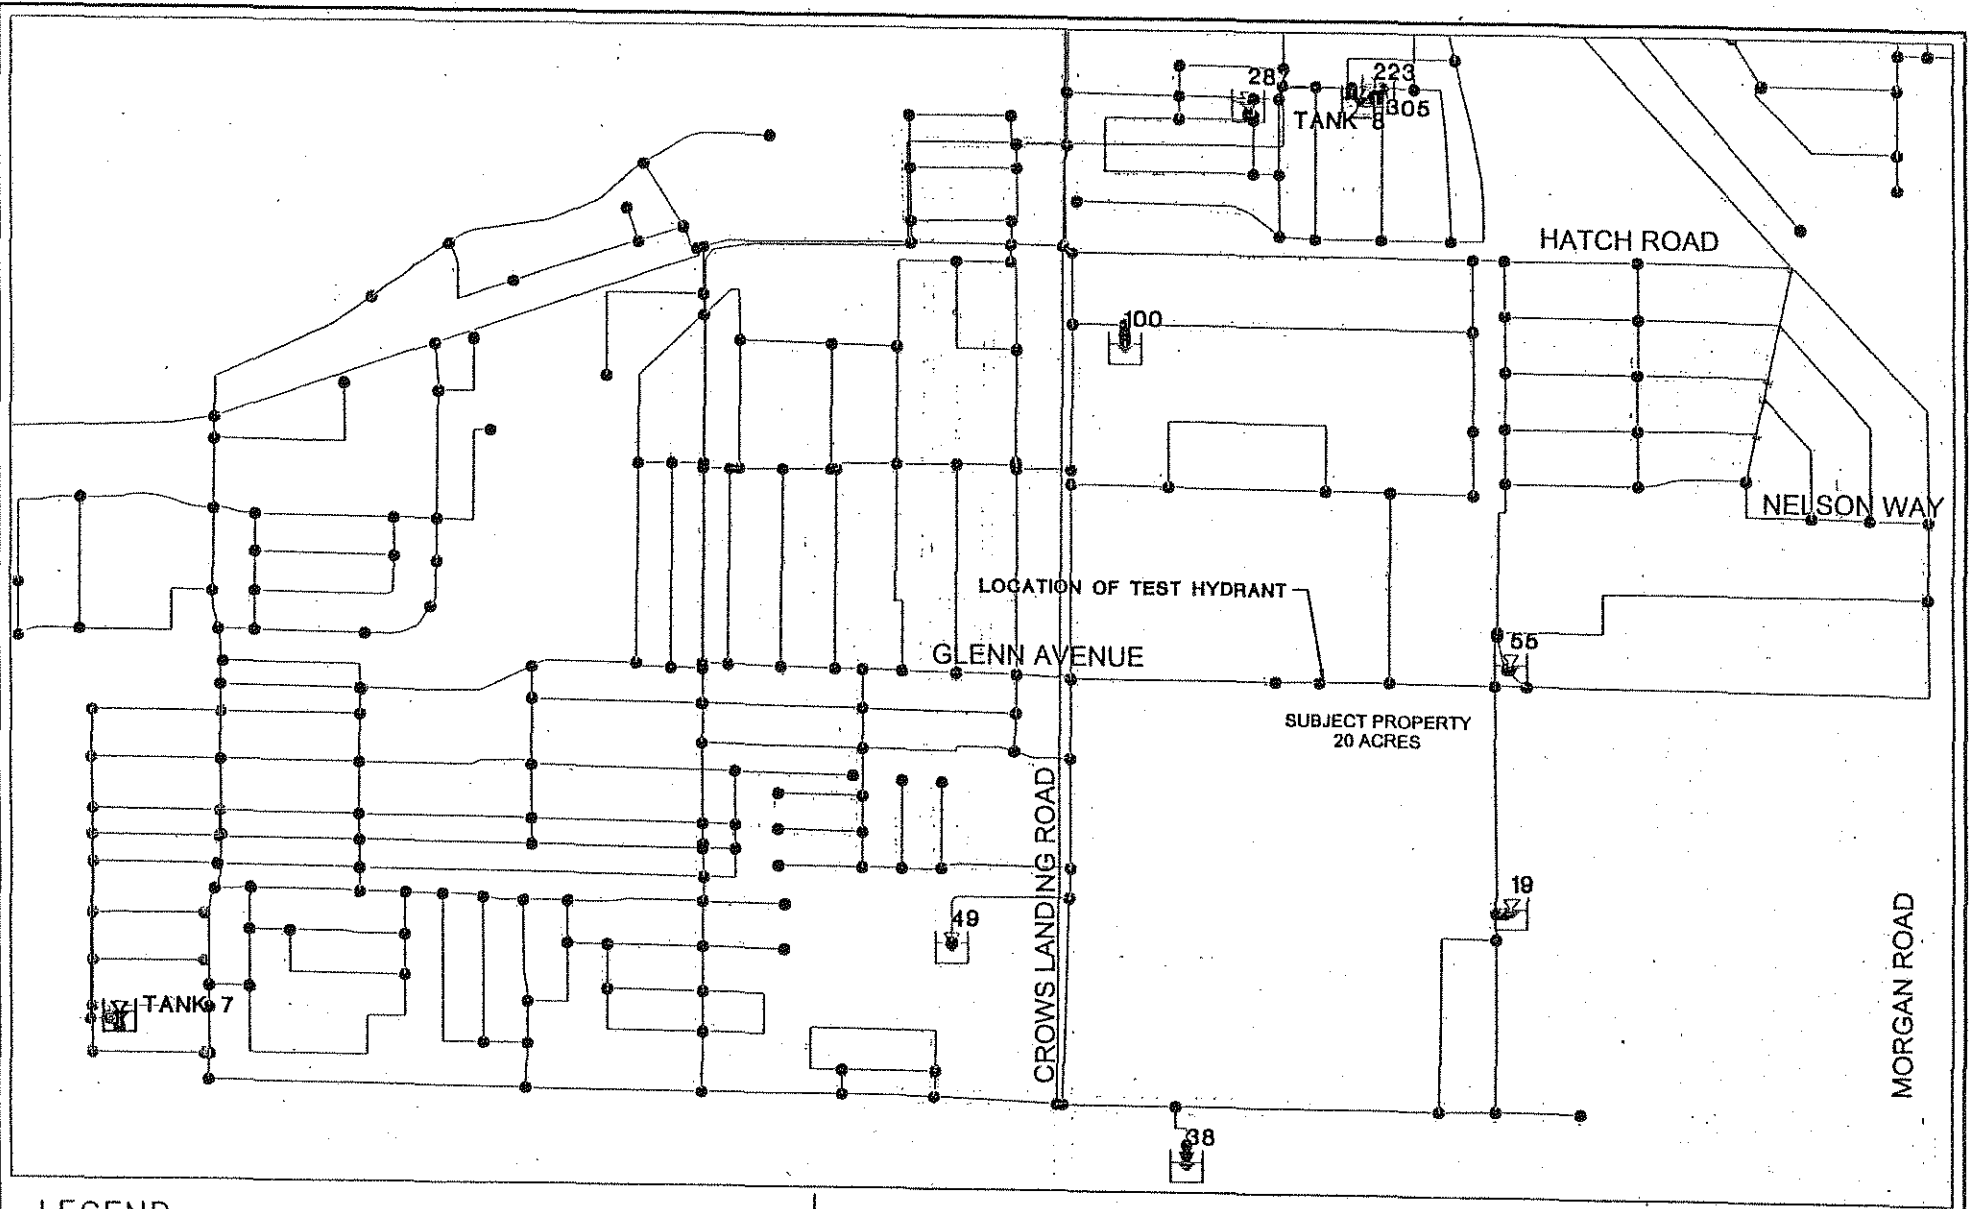

Hydraulic modeling indicates that if the pump station located at Tank 8 were to be taken out of service (for maintenance or other reasons), system pressures would fall significantly below the City's minimum 40 psi requirement, even with all available wells turned on. If the 1,126 gpm fire flow demand occurred during a time period when the Tank 8 booster pump station was out of service, pressures at the Project area would drop significantly (resultant system pressures would be less than 20 psi), indicating that there is inadequate supply to maintain pressures in the region (see Figure 3). It should also be noted that this area of the City has experienced groundwater supply reliability problems, due to chemical and/or radionuclides impacting the groundwater drinking supplies.

This result indicates that a redundant booster pump of the same size must be installed at Tank 8 to ensure system reliability, and the ability to maintain minimal pressures and flows during a loss of one of the pumps.

## CONCLUSION

Results from the September 2003 hydraulic model validated the field observations obtained during the hydrant flow test near 414 East Glenn Avenue by the City's Fire Department. In addition, the analysis indicated that a redundant pump at Tank 8 is necessary to be able to reliably maintain required system pressures and flows. Therefore, as a condition of annexation, we recommend that the Project's applicant be conditioned to provide funding for the installation of a redundant pump and associated appurtenances to connect this pump into the existing distribution system, at the Tank 8 reservoir site.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-686**

**A RESOLUTION FINDING THAT THE PREZONE TO PREZONED PLANNED DEVELOPMENT, P-PD (570), AND ANNEXATION TO THE CITY OF MODESTO AND MODESTO SEWER DISTRICT NO. 1 AND DETACHMENT FROM THE INDUSTRIAL FIRE PROTECTION DISTRICT OF 20 ACRES OF PROPERTY LOCATED SOUTH OF GLENN AVENUE AND EAST OF CROWS LANDING ROAD IS WITHIN THE SCOPE OF THE URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH No. 1999082041)**

WHEREAS, on August 15, 1995, by Resolution No. 95-409, the City Council of the City of Modesto certified the Master Environmental Impact Report (“EIR”) for the Urban Area General Plan (SCH No. 1999082041); and

WHEREAS, on March 4, 2003, by Resolution No. 2003-122, the City Council of the City of Modesto certified the amendments to the Master EIR for the Urban Area General Plan (SCH No. 1999082041); and

WHEREAS, Larry Buehner Trust has filed an application requesting that the 20+/- acres of property located south of Glenn Avenue and east of Crows Landing Road (“Property”) be rezoned to Prezoned Planned Development, P-PD (570); and

WHEREAS, the City of Modesto proposes to prezone the Property as requested and adopt a Resolution of Application to the Stanislaus County Local Agency Formation Commission for a proposed reorganization to annex the Property to the City of Modesto and the Modesto Sewer District No.1 and to detach the Property from the Industrial Fire Protection District; and

WHEREAS, the proposed rezoning designation and the Resolution of Application are hereafter collectively referred to as “the Projects”, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a Master EIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the project, and

WHEREAS, the Initial Study EA/C&ED 2004-63 was considered by the City Council at a duly noticed public hearing which was held on December 14, 2004, at 5:30 p.m., in the Tenth Street Place Chambers, 1010 Tenth Street, Modesto, California.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it has reviewed and considered the Initial Study prepared for the proposed Projects, a copy of which it attached hereto as Exhibit "A" and incorporated herein by reference, and based on the substantial evidence included in said Initial Study makes the following findings:

1. The type of Projects under consideration are described in Chapter II of the Master EIR.
2. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to The Projects or have otherwise been made conditions of approval of The Projects.
3. An Initial Study was prepared by the City of Modesto that analyzed whether the proposed subsequent project may cause any significant effect on the environment that was not examined in the MEIR. It has been determined that the project was described in the MEIR and is within the scope of the MEIR (SCH No. 1999082041), which analyzed the potential impacts of build out of the Baseline Developed Area.
4. Based on the Initial Study, the City of Modesto finds and determines:

- a. That the proposed subsequent project will have no additional significant effect as defined in CEQA Section 21158 that was not identified in the MEIR.
  - b. That no new or additional mitigation measures or alternatives are required.
5. The Initial Study, Environmental Assessment No. EA/C&ED 2004-63, provides the substantial evidence to support findings 1 through 4, above.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community Development Director is hereby authorized and directed to file a notice of determination within five (5) business days with the Stanislaus County Clerk, pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of December, 2004, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour

## Master EIR Initial Study Checklist

### I. PURPOSE

CEQA allows for the limited environmental review of subsequent projects under the City's Master EIR. This Initial Study Checklist is used in determining whether the **Buehner Reorganization** is "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 1999082041) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformity.

A subsequent project is "within the scope" of the Master EIR when:

1. It will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and
2. No new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect in the Master EIR. (Public Resources Code Section 21158(d))

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (State CEQA Guidelines Section 15384)

City staff consulted with appropriate Responsible Agencies and City Departments regarding potential environmental impacts associated with this project. Any significant comments and conditions are incorporated into this Initial Study. The City's MEIR (SCH# 1999082041) was also consulted which lists both General Plan policies and mitigation measures for each area of environmental study.

### II. PROJECT DESCRIPTION

- A. Title: Buehner Reorganization
- B. Address or Location: South side of Glenn Avenue east of Crows Landing Road and adjacent to the west of the Union Pacific Railroad tracks.
- C. Applicant: Eagle Valley Investments, Inc., 801 S. 7<sup>th</sup> Street, Modesto, CA 95351
- D. Application Contact Person: Chann Eayrs

City Project Manager: Cindy van Empel, Senior Planner  
Department: Community & Economic Development Department  
Phone Number: (209) 577-5280

E-mail address: cvanempel@modestogov.com

E. Current General Plan Designation(s): I, Industrial

F. Current Zoning Classification(s): Stanislaus County has zoned the property M, Industrial

G. Surrounding Land Uses: West: vacant industrial land in the City  
North: vacant and built industrial land in the City  
East: Union Pacific Railroad tracks; east of the tracks is vacant and built industrial land within City limits  
Southeast: built industrial land in the City  
Southwest: vacant industrial land in the County

H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR (Attach additional maps/support materials as needed for complete record):

The applicant seeks to annex the subject 20+/- acre parcel to the City of Modesto to allow more intensive development than would be permitted without public sewer and water connections. Prezone to PD, Planned Development are included as part of the application.

A Vesting Tentative Subdivision Map for the site has been filed with the Community and Economic Development Department. Because staff has an application for a Tentative Map, an evaluation of the Map is included in this Initial Study. However, the Tentative Map cannot be processed until after the project site is annexed and the zoning becomes effective. Additionally, there is inadequate information at this time to complete review of the Tentative Map. The City has requested the applicant prepare studies demonstrating the proposed storm drainage basin is adequate to serve the subdivision described by the Vesting Tentative Subdivision Map. Following annexation, rezoning, and receipt of complete drainage studies, the City will prepare an Initial Study to evaluate the potential impacts of development of this site.

A map of the site area is shown as Exhibit A and a map of the site is shown as Exhibit B.

I. Other Public Agencies Whose Approval is Required:

Local Agency Formation Commission

### III. FINDINGS/DETERMINATION (SELECT ONE ON THE BASIS OF THE ANALYSIS IN SECTION IV)

1. X **Within the Scope** - The project is within the scope of the Master EIR and no new environmental document or Public Resources Code Section 21081 findings are required. The following items are found to be true:

A. The type of project is described in Chapter II of the Master EIR.

B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the project or otherwise made conditions of approval of the project.

C. An Initial Study was prepared by the City of Modesto that analyzed whether the proposed subsequent project may cause any significant effect on the environment that was not examined in the MEIR and it has been determined that the project was described in the MEIR as being within the scope of the MEIR.

D. Based on the Initial Study, the City of Modesto finds and determines:

- a) The proposed subsequent project will have no additional significant effect as defined in CEQA Section 21158 that was not identified in the MEIR.
- b) No new or additional mitigation measures or alternatives are required.

2.      **Mitigated Negative Declaration Required** - On the basis of the above determinations, the project is not within the scope of the Master EIR. A mitigated negative declaration will be prepared for the project. The following items are found to be true:

A. The type of project is described in Chapter II of the Master EIR.

B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the project or otherwise made conditions of approval of the project.

C. The project will have one or more potential new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures are being required of the project that will reduce the effects to a less-than-significant level.

3.      **Focused EIR Required**- On the basis of the above determinations, the project is not within the scope of the Master EIR. A Focused EIR will be prepared for the project. The following items are found to be true:

A. The type of project is described in Chapter II of the Master EIR.

B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the project or otherwise made conditions of approval of the project.

C. The project will have one or more new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures or alternatives are required as a result.

#### 4. Within the Scope Analysis of this Document:

The Master EIR permits projects to be found within the scope of the MEIR if certain criteria are met. Basically, if the following statements are found to be true for all 20 sections of this Initial Study, then the project was covered by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

- |  | YES | NO                       |
|--|-----|--------------------------|
| (1) The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.   | X   | <input type="checkbox"/> |
| (2) City policies which reduce, avoid or mitigate environmental effects, will continue to be in effect and therefore would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures attached to this document. | X   | <input type="checkbox"/> |
| (3) Federal, State, Regional and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).   | X   | <input type="checkbox"/> |
| (4) No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources.   | X   | <input type="checkbox"/> |
| (5) The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.   | X   | <input type="checkbox"/> |
| (6) Development within the project will comply with all mitigation measures identified in the General Plan Master EIR.   | X   | <input type="checkbox"/> |

#### Discussion:

- (1) The City of Modesto is the Lead Agency for processing the requested land use entitlements (i.e.: rezoning and annexation).
- (2) The subject project proposes improvements to an existing site located within the Baseline Developed Area. The site is a single parcel which is occupied by two mobile homes and various accessory buildings.
- (3) The Master EIR was last updated in March 2003. Since that update, there have been no changes to Federal, State, Regional and County regulations that have resulted in less restrictive regulations.
- (4) The subject site, approximately 20 acres designated in the Urban Area General Plan as I (Industrial) and rezoned PD (Planned Development), is proposed to be annexed to the City of Modesto. After the application proposals were referred to Trustee Agencies, no significant resources are identified in this proposal
- (5) The subject area is located within the Modesto Urban Area General Plan in the Baseline Developed Area, as shown on Figure II-1 on page II-8 in the General Plan. All

appropriate mitigation measures as listed in the Master EIR and attached to this document are incorporated into the project.

- (6) A Global list of General Plan Policies and Mitigation Measures was reviewed (which is attached to this document) and appropriate Mitigation Measures will be required as part of the project's approval.

#### IV. ENVIRONMENTAL ANALYSIS

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any project-specific significant effect on the environment that was not examined in the Final Master EIR (MEIR) for the General Plan and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the project is "within the scope" of the Master EIR.

Pursuant to Public Resources Code Section 21157.1, no new environmental document or findings are necessary for projects that are determined to be within the scope of the MEIR. Adoption of a Finding of Conformity after completion of the Initial Study fulfills the City's obligation in that situation.

All environmental effects cited reflect 2025 build out of the Urban Area General Plan as identified in the MEIR.

The Master EIR for the General Plan organizes its analysis of environmental impacts into eighteen subject areas. The following analysis is based on the impact analyses contained in Chapter V of the Master EIR. For ease of cross-reference, the sections are numbered in the same order as the analyses in Chapter V.

In addition to the 18 Master EIR subject areas, the Initial Study checklist addresses the issues of land use/planning and aesthetics. The reason for including these additional issues is to ensure that consideration is being given to the full range of subjects of importance contained in Appendix G of the CEQA Guidelines. The format for the land use/planning and aesthetics sections differs from that of the other 18 subject areas since these two subjects were not addressed as distinct subjects in the Master EIR.

#### 1. TRAFFIC AND CIRCULATION

##### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant and unavoidable traffic and circulation impacts:

Effect: Increased traffic will result in certain roadway segments operating at LOS D or worse.

Effect: The Substantial increase in traffic relative to the existing load and capacity of the street system will cause, violation, either individually or cumulatively, of an LOS standard established by the County CMP for designated roads and highways.

Effect: Creation of need for Capacity-enhancing modifications to existing facilities.

Effect: Increase in energy consumption associated with the operation of highway projects, rail improvements, and aviation facilities.

Effect: Severe contrast with existing neighborhood or area character caused by highway and transit projects.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Traffic and Circulation mitigation measures that are pertinent to this project are found on MEIR pages V-1-6 through V-1-21. All feasible measures appropriate to the project – including any new measures - will be incorporated into or made conditions of approval of this project and will be listed in Section IV, Mitigation Measures Applied to Project.

Discussion:

The Master EIR for the Urban Area General Plan included the subject site. The annexation of property designated for industrial uses is consistent with the Master EIR. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-1.B of the MEIR provides analysis of Traffic and Circulation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project would contribute more than an additional 100 average daily trips (ADT) to adjoining roads and generates more trips than assumed for their general plan land use category and zoning in the Master EIR. City Engineering & Transportation Staff will review the project to determine whether the project contributes more than 100 ADT thresholds. Such Projects are presumed to generate more trips than assumed by the Master EIR. | <input type="checkbox"/> | X  |

Where a project exceeds an additional 100 ADT contribution, as compared to the analysis in the Master EIR, a site access study will be conducted to determine to what extent the project would exceed the year 2025 level of service (LOS) expected for the adjoining roadways under the Master EIR. The site access study will recommend new, project-specific mitigation measures. Where the project also exceeds the Master EIR's traffic generation assumption, as determined by Engineering and Transportation staff, a comprehensive traffic study will be required that will include off-site traffic impact analysis.

- |  | YES                      | NO |
|--|--------------------------|----|
| (2) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g. farm equipment). | <input type="checkbox"/> | X  |

- (3) Result in inadequate emergency access.  X
- (4) Result in inadequate parking capacity.  X

Discussion:

- (1) The project was referred to the Engineering and Transportation Division of the Public Works Department. Staff did not cite the need for a site access study.
- (2) The project was referred to the Engineering and Transportation Department and the Transportation Division commented that City's Standards Specifications require that the Glenn Avenue be dedicated and improved to full City Street Standards when development is approved for the site. Certain other street improvements will be established during review of the Vesting Tentative Subdivision Map.
- (3) The project was referred to the City of Modesto Police and Fire Departments. The City Fire Marshal and the Police Department indicated that those departments are able to provide adequate service to the site. When development is approved, specific conditions will be applied to that future development to ensure compliance with City development standards.
- (4) Annexation and rezoning will have no effect on parking in the area. Future development on the site will be required to comply with City standards for parking.

**2. AIR QUALITY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to air quality:

Effect: Projected traffic levels will result in increased ambient carbon monoxide (CO) levels in the project area. This is a significant and unavoidable impact.

Effect: Projected traffic levels will result in increased ROG and NO<sub>x</sub> levels in the project area. This is a significant and unavoidable impact.

These are also cumulative impacts on air quality.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Air Quality mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-2-11 through V-2-18 in the MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section IV, Mitigation Measures Applied to Project.

Discussion:

Construction impacts would be less than significant with implementation of Mitigation Measure Air-1 (page V-2-24 in the MEIR). No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-2.B of the MEIR provides analysis of Air Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project exceeds the emissions thresholds established for CO and NOx by the San Joaquin Valley Unified Air Pollution Control District's (SJVUAPCD) adopted CEQA Guidelines. | <input type="checkbox"/> | X  |
| (2) The project does not incorporate the best management practices for PM10 reduction established by the SJVUAPCD.   | <input type="checkbox"/> | X  |
| (3) The project does not comply with the air quality policies of the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (4) The project would expose sensitive receptors to substantial pollutant concentrations.  | <input type="checkbox"/> | X  |
| (5) The project would create objectionable odors affecting a substantial number of people.   | <input type="checkbox"/> | X  |

Discussion:

- (1-3) Annexation and rezoning of this property, designated for Industrial use, was anticipated in and is consistent with the Urban Area General Plan Master EIR. Future development of the site will occur following the approval of a Vesting Tentative Subdivision Map, which will also be subject to an Initial Study. Development projects must comply with Rules established by the San Joaquin Valley Unified Air Pollution Control District for reducing air quality impacts.
- (4) The site is designated for Industrial use and adjoins industrial property on all sides. The site is expected to be developed with industrial uses in the future, which may result in substantial air pollution, however, there are no sensitive receptors nearby.
- (5) The site is designated for Industrial use and adjoins industrial property on all sides. The site is expected to be developed with heavy industrial uses in the future, which may result in objectionable odors, however, there are no sensitive receptors nearby.

### 3. NOISE

#### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant and unavoidable environmental impacts relative to noise:

Effect: Traffic noise levels for future conditions in the plan area have the potential to result in exceedances of the City's Noise Significance Standards (see Table 3-3 MEIR).

Effect: Noise level projections based on the traffic levels anticipated in the General Plan indicate that noise will exceed the City's General Plan and noise ordinance standards.

#### b. Master EIR and/or New Mitigation Measures Applied to the Project

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-9 through V-3-15 of the MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project and any new measures are listed in Section IV, Mitigation Applied to Project.

#### Discussion:

Table V-3-3 indicates the normally acceptable outdoor noise level in an industrial area is 70dB CNEL. The project site is adjacent to a spur of the Union Pacific Railroad mainline that serves the industrial area. Due to the rail spur, a portion of the site lies within the 65dB L<sub>dn</sub> contour. Both CNEL and L<sub>dn</sub> are measures of noise that factor in use of a site during non-business (evening and nighttime) hours. However, because this is an Industrial site and because the greatest noise level expected on the site is 65dB L<sub>dn</sub>, no mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate conditions of approval that satisfy City development standards.

#### c. Project-Specific Effects

Section V-3.B of the MEIR provides analysis of noise impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

- |  | YES                      | NO                                  |
|--|--------------------------|-------------------------------------|
| (1) The project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance.                               | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| (2) The project will exceed the noise policies of or otherwise be inconsistent with the Modesto Urban Area General Plan.                                   | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| (3) The project will result in a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project? | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

- (4) The project will result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project.  X

Discussion:

- (1) The acceptable outdoor noise level is 70dB CNEL and the site lies within the 65dB L<sub>dn</sub> noise contour, thus, no significant impact from noise would be expected on the project site.
- (2-3) The subject site is planned for Industrial use and is adjacent to properties planned for and developed with industry. No sensitive receptors are in the vicinity of the site. Future development on site is expected to be consistent with that on surrounding properties and is expected to result in a similar noise environment.
- (4) Although the project site lies in an industrial area, exterior noise levels could rise to unpleasant levels if more than one piece of construction equipment is operating simultaneously. In order to reduce the temporary noise impacts associated with construction, equipment should be equipped with mufflers, shrouds, and shields for noise reduction.

#### 4. AGRICULTURAL LANDS

##### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts related to agricultural lands:

Effect: Development within the urbanized Baseline Developed Area and Redevelopment Area will have a less-than-significant impact on agricultural lands.

Effect: Conversion of agricultural land will occur as available developable land is occupied within the City. This is a significant and unavoidable impact.

Effect: Growth within Modesto's planning area would contribute considerably to the loss of agricultural land within Stanislaus County. This is a significant and unavoidable cumulative impact.

##### b. Master EIR and/or New Mitigation Measures Pertinent to the Project

Agricultural Land mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-4-4 through V-4-8 in the MEIR.

Discussion:

The subject property is designated for Industrial use and is not in agricultural production. Further, the site is identified by the California Department of Conservation as Important Farmland on Figure V-4-1 in the MEIR. The project site is also shown as lying within the Baseline Developed Area, as shown on page II-8 in the Urban Area General Plan. Policy AL-

17 (MEIR, page V-4-7) states that if a subsequent project is within the Baseline Developed Area, the project is considered to have a minimal effect on the conversion of agricultural land and no mitigation is required. Thus, no new or additional mitigation measures or alternatives are required for the project.

**c. Project-Specific Effects**

Section V-4.B of the MEIR provides analysis of Agricultural Lands impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

- |   | YES                      | NO                                  |
|---|--------------------------|-------------------------------------|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| (2) The project will directly result in the development of land outside the March 2003 planning area boundaries.  | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| (3) The project will conflict with existing zoning for agricultural use, or a Williamson Act contract.  | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| (4) The project will involve other changes in the existing environment, which, due to their location or nature, could result in conversion of Farmland to non-agricultural use. | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Discussion:

- (1) The Modesto Urban Area General Plan designates the site as I, Industrial. No change in the Industrial designation is proposed. The prezone to PD is intended to establish site design standards, but the site would be developed with industrial uses.
- (2) The subject site is within the March, 2003, planning area boundary.
- (3) The site is not zoned for agriculture, nor is there a Williamson Act contract on the property.
- (4) The site is in the Baseline Developed Area, and, thus, is considered to have a minimal effect on the conversion of agricultural land.

**5. WATER SUPPLY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to water supply:

Effect: Urban Area General Plan policies are established to limit groundwater extractions to the safe yield of the aquifer and thereby avoid aquifer overdraft. In addition, the UWMP requires that new urban development would proceed in conjunction with the availability of water supplies

and distribution facilities. It is assumed that any increased entitlement of surface water supplies such as a water transfer from another water purveyor would undergo independent environmental review pursuant to CEQA. This is a less-than-significant impact.

Effect: Development to the future projected City population would require expansion of the MRWTP to its full 60 mgd capacity, development of additional groundwater wells, and construction of additional water distribution and treatment facilities. Construction of some of the required facilities would most likely require site-specific environmental impact assessments to be conducted under CEQA. Consequently, the potential environmental impacts of the Urban Area General Plan are considered less than significant.

Effect: During drought years, despite available options, significant water shortages are forecast for the San Joaquin River basin by 2020. Modesto will have a cumulatively considerable contribution to the cumulative impact on water supply under drought conditions. This is a significant and unavoidable cumulative impact.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Water Supply mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-5-7 through V-5-8 of the MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-5.B of the MEIR provides analysis of Water Supply impacts on development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) Sufficient water supplies are not available to serve the project from existing entitlements and resources, new or expanded entitlements are needed. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Industrial in the Modesto Urban Area General Plan. It is located in an area that is developed with industrial uses. The proposed annexation and prezone are consistent with the City's General Plan.

- (2) There is an adequate quantity of water to serve the industrial use expected to occur on the property. The site will be supplied from water held at a nearby water tank. However, the delivery system lacks adequate redundancy to ensure a consistent water supply. The applicant will be required to provide a backup pump and generator at the tank prior to the construction of any new buildings, which will provide the needed redundancy in the system (see Exhibits C & D).

## 6. SANITARY SEWER SERVICES

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to sanitary sewer services:

Effect: The City has already begun to implement the provisions of the Wastewater Master Plan (WMP) to meet future demand for sanitary sewer services. As City wastewater treatment facilities are expanded to meet the needs of the Baseline Developed, Redevelopment, and Planned Urbanizing Areas, the City will obtain the necessary wastewater discharge and NPDES permits from the Central Valley RWQCB, as required under Urban Area General Plan Policy V-D.2(a)(MEIR mitigation SS-1, page V-6-2). Implementing the WMP, requiring the implementation of Best Management Practices for post-construction activities, and Urban Area General Plan policy V-D.2(a), will avoid violation of wastewater discharge requirements. As a result, this impact would be less than significant.

Effect: The City has adopted the WMP specifically to ensure that sewer capacity will match the level of growth projected by the Urban Area General Plan. Development within the Baseline Developed and Planned Urbanizing Areas that is consistent with the Urban Area General Plan will not have a significant effect on capacity. Urban Area General Plan Policy III-D.1(d) will ensure that development in the Planned Urbanizing Area will fund the necessary improvements. This is a less-than-significant impact.

Note on the WMP Master EIR. The WMP Master EIR identified a number of impacts and mitigation measures. Its mitigation measures have been adopted by the City and are being implemented by the City under the WMP. Those impacts are being independently addressed under the Wastewater Master Plan MEIR and do not need to be considered under this Initial Study. Refer to the WMP Master EIR for details.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

Sewer Service mitigation measure(s) pertinent to the project being analyzed in this Initial Study, are found on pages V-6-2 through V-6-7 of the MEIR. All feasible measures appropriate to the project are listed in Section IV, Mitigation Measures Applied to Project.

#### Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-6.B of the MEIR provides analysis of Sanitary Sewer Service impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) The project will result in a determination by the wastewater treatment provider which serves or may serve the project that it has inadequate capacity to serve the project's projected demand in addition to the provider's existing commitments. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Industrial in the Modesto Urban Area General Plan. It is located in an area that is developed with industrial uses. Annexation and rezoning of the site will result in ultimate development of the site consistent with the City's General Plan.
- (2) Annexation and rezoning of the site would be consistent with the existing Industrial designation on the site. A 30-inch sewer line lies adjacent to the project site in Glenn Avenue. Because industrial development typically creates small amounts of wastewater, Capital Planning staff has indicated that the wastewater treatment and conveyance system is adequate to serve the project.

**7. SENSITIVE WILDLIFE AND PLANT HABITAT**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to sensitive wildlife and plant habitat:

Effect: Although many sensitive species live in riparian habitats within the planning area, the policies of the plan will ensure that impacts of the Urban Area General Plan will be less than significant.

Effect: Requiring higher residential density than the suburban norm and a compact pattern of growth within the designated planning area to 2025 will minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Wildlife and Plant Habitat mitigation measure pertinent to the project being analyzed in this Initial Study are found on pages V-7-15 through V-7-21 of the MEIR. All feasible measures

appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project.

Discussion:

The project site lies outside the Biological Resource Study Area, shown on Figure V-7-1a in the MEIR. Therefore, no mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project.

**c. Project-Specific Effects**

Section V-7.B of the MEIR provides analysis of Wildlife and Plant Habitat impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) Consultation with the California Department of Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on special status species. | <input type="checkbox"/> | X  |
| (3) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.  | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Industrial in the Modesto Urban Area General Plan and is located in an area that is developed with industrial uses. The annexation, prezone, and Vesting Tentative Subdivision Map are consistent with the City's General Plan.
- (2) The site lies outside the Biological Resource Study Area and there is no specific information known that would suggest the possible presence of significant plant or animal species on or near the project site.
- (3) See discussion above. In addition, there are no mature trees on the project site.

**8. ARCHAEOLOGICAL OR HISTORICAL SITES**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to archaeological or historical sites:

Effect: If a site-specific project involves the modification or demolition of a qualifying structure more than 50 years in age, then the impact will be significant.

Effect: Areas of high probability for archaeological resources are located within the riparian corridors along the Tuolumne River, Dry Creek, and the Stanislaus River. There, the potential impact comes from earthmoving activities that could result in disturbance of resources or human remains. There is a low probability that archaeological resources will be uncovered in areas outside of the riparian corridors.

Effect: The City Zoning Ordinance requires that when substantial changes to a structure are proposed, the development will be required to comply with other Zoning Ordinance provisions such as parking or landscaping requirements. This could result in modifications to the structure, which substantially reduce its historical significance. No impact would be expected to occur, since the buildings to be removed or demolished are not considered to have historical significance.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Archaeological or historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-8-9 through V-8-14 in the MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project.

Discussion:

The site proposed for annexation into the City of Modesto is currently occupied by two mobile homes and some accessory structures, but is otherwise vacant. No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-8.B of the MEIR provides analysis of Archaeological/Historical impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources, or that is listed by the City of Modesto as a Designated Landmark Preservation Site. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Industrial in the Modesto Urban Area General Plan and is located in an area that is developed with industrial uses. The annexation, rezoning,

and Vesting Tentative Subdivision Map applications for this site are consistent with industrial uses anticipated by the Urban Area General Plan.

- (2) The MEIR did not identify a listed or eligible cultural resource either on or in the vicinity of the site, thus no impacts are expected to occur.

## 9. STORM DRAINAGE

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to storm drainage:

Effect: The potential impacts on storm water drainage that could occur from the project were qualitatively evaluated with respect to several factors including: extent of the projected increase in urban surface area compared to undeveloped ground; magnitude of projected changes to hydrologic and physical site characteristics of the study area compared to existing conditions; regulatory criteria and guidelines; and professional judgment. Because the Urban Area General Plan includes policies that require new development in all three sections of the planning area to install approved drainage facilities, the potential impacts of the Urban Area General Plan on storm water drainage are considered less than significant.

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious areas and associated urban storm water drainage. Cumulative hydrologic impacts of storm water flows from Modesto urban areas and other areas of the County could occur due to the fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel. Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

Storm Drainage mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-9-3 through V-9-8 of the MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project.

#### Discussion:

Annexation and rezoning of the site will not directly result in development. Future development of the site will occur following approval of a Vesting Tentative Subdivision Map, prior to which the size of a storm drainage basin will be proposed and appropriate studies prepared. The 20-acre site is more than adequate to accommodate a storm drainage basin for future development; the future storm drainage basin must be sized and designed in accordance

with City standards. No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project.

**c. Project-Specific Effects**

Section V-9.B of the MEIR provides analysis of Storm Drainage impacts of development of the General Plan; the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project would substantially increase the rate or amount of surface runoff in a manner that would result in flooding on or off site.  | <input type="checkbox"/> | X  |
| (3) Create or contribute runoff water that would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Industrial in the Modesto Urban Area General Plan and is located in an area that is developed with industrial uses. Annexation of the property to the City and rezoning it PD for industrial development are consistent with the City's General Plan.
- (2-3) The project does not include site development. However, the City has received an application for a Vesting Tentative Subdivision Map, which shows a lot intended to serve as a storm water drainage basin. However, the design of the Vesting Tentative Subdivision Map will be evaluated to determine the appropriate size of the drainage basin. An additional Initial Study will be prepared for the VTSM. Future development will be required to control storm drainage in accordance with the City's Guidance Manual for New Development Stormwater Quality Control Measures.

**10. FLOODING AND WATER QUALITY**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to flooding and water quality:

Effect: Increased runoff can accelerate soil erosion, stream channel scouring and sedimentation of channels, and also increase pollutant transport to waterways. The potential impacts of the project on flooding are considered less than significant because the Urban Area General Plan Update includes policies to restrict development in the floodplain and therefore would avoid exposing persons and property to flood hazards. In addition, new development under the Urban Area General Plan is required to install storm water drainage facilities that restrict the amount of post-development runoff from exceeding pre-development conditions.

Effect: The potential impacts of the project on surface water quality are considered less than significant because the City policies and capital improvement projects for storm water drainage facilities would minimize discharges of urban pollutants to natural waterways. The City drainage program policies require new development to prepare drainage plans and implement urban runoff control measures; larger Specific Plan developments must have storm drainage systems designed to control pollutant runoff. The City's implementation policies for the municipal NPDES storm water permit require new development to implement an appropriate selection of permanent pollution control measures. Permanent erosion control measures such as seeding and planting vegetation for new cut-and-fill slopes, directing runoff through vegetation, or otherwise reducing the offsite discharge of particulates and sediment are the most effective method of controlling offsite discharges of urban pollutants.

Effect: The City's future development will contribute to cumulative water quality effects. EPA regulations for NPDES storm water permits and new proposed regulatory additions to the rules have become much more comprehensive in recent years and are being implemented to reduce pollutant runoff from both large- and small-scale activities. Implementation of NPDES-permitting programs throughout the county will reduce potential water quality impacts to a less-than-significant level.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Flooding and Water Quality mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-10-4 through V-10-10 of the MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project.

Discussion:

As shown on Figure V-10-1b in the MEIR, the project site does not lie in an area having a potential for flooding. No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project.

**c. Project-Specific Effects**

Section V-10.B of the MEIR provides analysis of Flooding and Water Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act. | <input type="checkbox"/> | X  |
| (3) The project does not comply with Modesto's Guidance Manual for New Development Storm Water Quality Control Measures.         | <input type="checkbox"/> | X  |

- (4) The project would create or contribute runoff water, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff.  X

Discussion:

- (1) The subject site, designated Industrial in the Modesto Urban Area General Plan, is consistent with the City's General Plan and is located in an area that is developed with industrial uses.
- (2) Development on the site will be required to comply with the Clean Water Act and the Porter-Cologne Act. The City will require adherence to any Clean Water Act requirements it deems appropriate.
- (3) Future development on the site must comply with the City's Guidance Manual for New Development Storm Water Quality Control Measures. Compliance is ensured through review of building plans and building inspection.
- (4) The site will be developed to City standards with full street improvements along the project's Glenn Avenue frontage. The correct size of the storm water drainage basin will be verified by City staff when soils tests and percolation rates become available. The Vesting Tentative Subdivision Map will be reevaluated in an Initial Study prior to the public hearing.

## 11. PARKS AND OPEN SPACE

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to parks and open space:

Effect: Within the Baseline Developed and Redevelopment Areas, the Urban Area General Plan does not propose any elimination of existing park and/or open space land. Impacts on parks and open space will be less than significant.

Effect: The projected population of the Planned Urbanizing Area is 148,600, requiring 149 acres of neighborhood parks and 298 acres of community parks. The required minimum acreages can be met through the application of existing policies and regulations, including Government Code Section 66474, which require developers to pay Parks Capital Facilities Fees to fund the acquisition of appropriate parkland acreage. This impact is less than significant.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

Parks and Open Space Mitigation Measure(s) pertinent to the proposed project are found on pages V-11-3 through V-11-9 MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project. All feasible measures appropriate to the project that will be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project.

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-11.B of the MEIR provides analysis of Parks and Recreation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

- |   |                          |                                     |
|---|--------------------------|-------------------------------------|
|   | YES                      | NO                                  |
| (1) The project is inconsistent with the Modesto Urban Area General Plan. | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Discussion:

- (1) The subject site is designated Industrial in the Modesto Urban Area General Plan and is located in an area that is developed with industrial uses. The annexation and rezoning are consistent with the City's General Plan and future industrial development on the site is expected to be consistent, as well. Appropriate Capital Facility Fees, including parks fees, must be paid before any building permits can be issued. Fees applied to new development on the site will be those fees in effect at the time the Vesting Tentative Subdivision Map is approved.

**12. SCHOOLS**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to schools:

Effect: The estimated increase in population over 1994/1995 would generate an additional 29,200 elementary school students, 7,330 middle school students, and 14,640 high school students above those enrollments. Assuming that existing facilities cannot sufficiently accommodate this increase and that all of the new students would require new school facilities, build out of the General Plan would result in the need for approximately 37 elementary schools, eight middle schools, and seven high schools beyond 1994/1995 levels. This would result in a significant impact on schools in that increased enrollment would exceed current capacity. By statute, this impact is considered to be mitigated below a level of significance by payment of school impact fees and exercise of any or all of the financing options set out in Government Code Section 65997.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. As long as all anticipated subsequent projects apply these policies, no new mitigation is necessary.

Further, payment of school impact fees and compliance with SB 50 is statutorily deemed to be full mitigation of school impacts (Government Code Section 65995). The proposed additional school policy will address the situation that would arise should AB 50 be repealed. It will authorize impact fees or other methods to finance additional school facilities.

The following schools mitigation measure(s) are pertinent to the project being analyzed in this Initial Study. See pages V-12-3 through V-12-7 in the MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section IV, Mitigation Applied to Project.

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-12.B of the MEIR provides analysis of Schools impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) The project does not comply with SB 50/Proposition 1A funding provisions, or succeeding measures which provide that compliance results in less-than-significant impacts on schools. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated Industrial in the Modesto Urban Area General Plan, with which the proposal is consistent. The site is located in an area that is developed with industrial uses.
- (2) Future development on the site will be required to comply with the provisions of SB 50/Proposition 1A and must pay schools fees in effect at the time the Vesting Tentative Subdivision Map is approved.

**13. POLICE SERVICES**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to police services:

Effect: The 1995 Master EIR identified two impacts on the demand for police services; however, it concluded that no significant impact, based on the mitigation measures identified in the 1995 Master EIR, would occur. Those mitigation measures are now policies of the Urban Area General Plan. The impact is less than significant.

Effect: Within the Planned Urbanizing Area, complying with the Urban Area General Plan policies, particularly the policy that requires a long-range financing strategy for each Comprehensive Plan Area, will allow the City to provide the resources necessary to extend service to the newly growing Planned Urbanizing areas. These policies reduce the impact to a less-than-significant level.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Police Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-13-2 through V-13-4 in the MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-13.B of the MEIR provides analysis of police services impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project would result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated Industrial in the Modesto Urban Area General Plan and is located in an area that is developed with industrial uses. Future development on the site is expected to be industrial and, therefore, consistent with the City's General Plan.
- (2) The Police Department's ideal ratio of officers to residents is 1.85 per 1,000, although the current ratio is approximately 1.3 per 1,000. The Modesto Police Department has indicated that it has the ability to provide adequate service to the project site.

**14. FIRE SERVICES**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to fire services:

Effect: The Baseline Developed Area and Redevelopment Area are already developed. Impacts on fire services of development in these areas will be less than significant.

Effect: In the Planned Urbanizing Area, the Urban Area General Plan would result in the need for additional fire protection services due to increases in the number of employees, permanent population, and associated improvements. City policy requires that fire protection be in place concurrent with construction in the Planned Urbanizing Area. This policy will be implemented with the adoption of future Comprehensive Plans in the Planned Urbanizing Area. This impact would be less than significant.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study.

Fire Services mitigation measure(s) pertinent to the proposed project are found on pages V-14-2 through V-14-5 of the MEIR. All feasible measures appropriate to the project that will be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-14.B of the MEIR provides analysis of fire services impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project would result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Industrial in the Modesto Urban Area General Plan and is located in an area that is developed with industrial uses. The annexation and rezoning, as well as the expected future industrial development are consistent with the City's General Plan.

- (2) The Modesto Fire Department currently provides fire protection to the project site by contract. The site must detach from the contract area as part of annexation; the Fire Department has indicated that it can provide adequate service to the subject site. Future development on the site will be required to meet all City Fire safety requirements.

**15. SOLID WASTE**

**a. Significant Effects Identified in the Master EIR**

The Master EIR identified the following significant environmental impacts relative to solid waste:

Effect: Since the project would exceed available landfill capacity, it is identified as a significant impact. The Fink Road Landfill may be closed by the time the City reaches build out, unless an expansion is approved by the County and the Integrated Waste Management Board. As the waste stream generated increases with population, additional landfills and methods for diversion would have to be utilized. The project will also generate the need for additional collection and transfer facilities. This impact is significant and unavoidable. The impact would be less than significant at such time as the Fink Road Landfill expansion is approved.

Effect: The project makes a considerable contribution to the cumulative impact on landfill capacity of development in Stanislaus County. This impact is significant and unavoidable.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

Solid Waste Mitigation Measure(s) pertinent to the proposed project are found on pages V-15-3 through V-15-6 of the MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Applied to Project.

Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-15.B of the MEIR provides analysis of solid waste impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) The County is unable to expand its solid waste disposal capacity and the project would result in waste stream levels that exceed disposal capacity. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated Industrial in the Modesto Urban Area General Plan. The site is located in an area that is developed with industrial uses. The annexation and rezoning and expected future industrial development are consistent with the City's General Plan.
- (2) This project was referred to the Solid Waste Division of the City's Department of Public Works, which had no comment regarding this project's impact on solid waste disposal capacity.

## 16. HAZARDOUS MATERIALS

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to hazardous materials:

Effect: The impacts of the project relative to hazardous materials are less than significant, based on the existing regulatory framework. New development will be required to comply with regulations monitoring and controlling the handling and use of hazardous and toxic materials.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under Federal, State, and County policies and regulations and the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to this document.

Hazardous Materials Mitigation Measures pertinent to the project being analyzed in this Initial Study are found on pages V-16-5 through V-16-12 in the MEIR. Because the property is planned for industrial uses, it is possible that future property owners or building tenants may have hazardous materials on site. Mitigation measures from the MEIR will be applied to the Vesting Tentative Subdivision Map to ensure compliance with all appropriate regulations. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project.

Discussion:

Actions to approve the annexation, rezoning, and Vesting Tentative Subdivision Map do not require mitigation measures for hazardous materials, as these approvals do not generate hazardous materials. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

### c. Project-Specific Effects

Section V-16.B of the MEIR provides analysis of hazardous materials impacts due to development of the General Plan; the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) The project does not comply with all applicable Federal, State, and County standards and regulations relative to the handling, storage, disposal, and transport of hazardous or toxic materials or wastes.                                | <input type="checkbox"/> | X  |
| (3) The project contains a contaminated site not identified as of March 2003.   | <input type="checkbox"/> | X  |
| (4) The project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.  | <input type="checkbox"/> | X  |
| (5) The project would be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Industrial in the Modesto Urban Area General Plan and is located in an area that is developed with industrial uses. The project and future industrial development expected to occur on the site is consistent with the City's General Plan.
- (2) Because the property is planned for industrial uses, it is possible that future property owners or building tenants may have hazardous materials on site. The Vesting Tentative Subdivision Map will be conditioned ensure that any hazardous materials used on site are properly identified, handled, and stored.
- (3-5) The City's Final Master Environmental Impact Report lists hazardous materials sites and this project is not near any of those sites. Additionally, the property lies more than ¼ mile from the nearest school.

## 17. LANDSLIDES AND SEISMIC ACTIVITY

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to landslides and seismic activity:

Effect: There are areas of known sand and gravel resources within the Baseline Developed Area and Redevelopment Area. Future development will be subject to SMARA requirements, therefore, the project impact will be less than significant.

Effect: There are areas of known sand and gravel resources within the Planned Urbanizing Area. Future development will be subject to SMARA requirements, therefore, the project impact will be less than significant.

**b. Master EIR and/or New Mitigation Measures Applied to the Project**

The Master EIR did not identify any new mitigation measures. Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. These are identified and described in the list of policies in place and MEIR mitigation measures attached to the Initial Study template.

Landslide and Seismic Activity Mitigation Measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-17-5 through V-17-7 in the MEIR. All feasible measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section IV, Mitigation Measures Applied to Project:

Discussion:

Mitigation measures pertinent to the project are found on pages V-17-5 through V-16-12 in the MEIR. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards.

**c. Project-Specific Effects**

Section V-17.B of the MEIR provides analysis of landslides and seismic impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

- |   | YES                      | NO |
|---|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.   | <input type="checkbox"/> | X  |
| (2) The project would be located on soil that is unstable, or that would become unstable as a result of the project, and potentially result in on or off-site landslide, lateral spreading, subsidence, liquefaction or collapse. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Industrial in the Modesto Urban Area General Plan and is located in an area that is developed with industrial uses. The annexation, prezone, and Vesting Tentative Subdivision Map are consistent with the City's General Plan.
- (2) According to the MEIR's physical description of the General Plan study area, the site is not located in area subject to landslide, lateral spreading, subsidence, liquefaction or collapse.

## 18. ENERGY

### a. Significant Effects Identified in the Master EIR

The Master EIR identified the following significant environmental impacts relative to energy:

Effect: The Baseline Developed Area and Redevelopment Area are already developed. New development within the Redevelopment Area will comply with Title 24 standards as well as City Urban Area General Plan policies. Impacts on energy by development in these areas (i.e., changes in levels of use above the current baseline) will be less-than-significant.

Effect: Build out under the Urban Area General Plan will utilize an estimated 1,400 million cubic feet per month of natural gas, 1,300 million kilowatt hours (kwh) of electricity per year and 650,000 gallons of gasoline per day. PG&E has indicated that they have at the current time sufficient supplies of natural gas to serve the increased natural gas demands of the project. At present, gasoline supplies are apparently sufficient to serve the gasoline demands of the project. Title 24 of the California Code of Regulation, which ensures that the project will not exceed local, state, and federal energy standards. The impact is less-than-significant.

### b. Master EIR and/or New Mitigation Measures Applied to the Project

The following energy mitigation measure(s) are pertinent to the project being analyzed in this Initial Study. See page V-18-3 MEIR. All feasible measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section IV, Mitigation Applied to Project:

#### Discussion:

No mitigation measures from the MEIR are required to be applied to the project. No new or additional mitigation measures or alternatives are required for the project. The project will incorporate appropriate conditions of approval that satisfy City development standards

### c. Project-Specific Effects

Section V-18.B of the MEIR provides analysis of energy impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the MEIR.

Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

- |   |                          |    |
|---|--------------------------|----|
|   | YES                      | NO |
| (1) The project is inconsistent with the Modesto Urban Area General Plan. | <input type="checkbox"/> | X  |

#### Discussion:

- (1) The subject site is designated as Industrial in the Modesto Urban Area General Plan. It is located in an area that is developed with industrial uses. The annexation, prezone, and Tentative Map are consistent with the City's General Plan.

Parking areas that will eventually be created to serve future development will be required to contain shade trees as required in the Modesto Municipal Code. Enforcement will occur through site plan review when building permits are applied for.

## 19. PLANNING AND LAND USE

The Master EIR was certified for the Modesto Urban Area General Plan. The significant effects described in the 18 subject areas contained in the Master EIR are based on the planning policies and diagrams adopted as part of the General Plan. Planning and land use were not among the 18 subject areas analyzed in the Master EIR because they essentially defined the project being evaluated in the EIR.

### a. Project-Specific Effects

Determination of project effects will be based on the following threshold. A project-specific effect is less-than-significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.                | <input type="checkbox"/> | X  |
| (2) The project includes a substantive amendment to the Modesto Urban Area General Plan. | <input type="checkbox"/> | X  |
| (3) The project would physically divide an established community.                        | <input type="checkbox"/> | X  |

#### Discussion:

- (1) The subject site is designated as Industrial in the Modesto Urban Area General Plan and is located in an area developed with industrial uses. Annexation is consistent with expansion of the City described in the General Plan. The site is proposed to be rezoned to PD, Planned Development, which is intended to establish design standards for the site. Industrial uses consistent with the Industrial designation would be developed on the property.
- (2) The project involves annexation to the City consistent with expansion of the City anticipated in the General Plan. No amendment to the Modesto Urban Area General Plan is proposed.
- (3) The project is an expansion of an existing industrial area; no community will be divided as part of this proposal.

## 20. AESTHETICS

The Master EIR was certified for the Modesto Urban Area General Plan. The significant effects described in the 18 subject areas contained in the Master EIR are based on the planning policies and diagrams adopted as part of the General Plan. At that level of detail, no significant effects on aesthetics were identified.

**a. Project-Specific Effects**

Determination of project effects will be based on the following threshold. A project-specific effect is less than significant unless:

- |  | YES                      | NO |
|--|--------------------------|----|
| (1) The project is inconsistent with the Modesto Urban Area General Plan.  | <input type="checkbox"/> | X  |
| (2) The project would have a substantial adverse effect on a scenic vista.   | <input type="checkbox"/> | X  |
| (3) The project would substantially degrade the existing visual character or quality of the project site and its surroundings.             | <input type="checkbox"/> | X  |
| (4) The project would create a new source of substantial light and glare, which would adversely affect day or nighttime views in the area. | <input type="checkbox"/> | X  |

Discussion:

- (1) The subject site is designated as Industrial in the Modesto Urban Area General Plan and is located in an area developed with industrial uses. Annexation would have no effect on aesthetics, however, the proposed Planned Development zone would establish design criteria for new industrial development in order to improve the overall quality of physical development in the area.
- (2-4) The project is located within an established industrial area and there are no scenic vistas of or from the area. The expansion of the existing school is consistent with the type of development in the area.

**V. MITIGATION MEASURES APPLIED TO THE PROJECT**

**A. Master EIR Mitigation Measures Applied to the Project**

Pursuant to CEQA Section 21157.1 (c), in order for a Finding of Conformance to be made, all feasible measures from the Master EIR appropriate to the project shall be incorporated into the project. The following adopted General Plan Policies and Master EIR Mitigation Measures shall be made part of the project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan:

All applicable and appropriate mitigation measures have been applied to the project (see mitigation measures listed below).

Traffic and Circulation Measures:

**Mitigation Measure TC-6 (page V-1-7 of the MEIR)**

Road Objective 3: Develop a roadway system that supports efficient goods movement within and through the region.

Policy 3A: Ensure that local transportation design standards and land use planning anticipate the infrastructure and operational needs of trucks, rail, and air transportation.

Policy 3B: Promote the use of analytical techniques to identify goods movement-related transportation deficiencies and to evaluate the potential benefits of transportation improvement projects.

### Air Quality Measures:

#### Mitigation Measure Air-1: PM10 Control Measures (page V-2-24 of the MEIR)

1. SJVUAPCD Regulation VIII Control Measures for Construction Emissions of PM-10. The following controls are required to be implemented at all construction sites:
  - a. All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover
  - b. All on-site unpaved roads and off-site unpaved access roads shall be effectively stabilized of dust emissions using water or chemical stabilizer/suppressant.
  - c. All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.
  - d. With the demolition of buildings up to six stories in height, all exterior surfaces of the building shall be wetted during demolition.
  - e. When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.
  - f. All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. *(the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)*
  - g. Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.
  - h. Within urban areas, trackout shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.
  - i. Any site with 150 or more vehicle trips per day shall prevent carryout and trackout.

### Noise Measures:

None

**Agricultural Land Measures:**

None

**Water Supply Measures:**

None

**Sanitary Sewer Service Measures:**

None

**Sensitive Wildlife and Plant Habitat Measures:**

None

**Archaeological or Historic Sites Measures:**

None

**Storm Drainage Measures:**

**Mitigation Measure SD-4 (page V-9-4 of the MEIR)**

Plans and specifications for new stormwater facilities within the City of Modesto are reviewed and approved by the engineering and Transportation Department. Development of stormwater drainage facilities must be in compliance with the requirements for the installation of Best Management Practices (BMPs) as defined in the City's Comprehensive Stormwater Management Program (CSMP), and as outlined in the City of Modesto Design Standards for Dual Use Flood Control/Recreation Facilities, adopted December 12, 2000.

**Mitigation Measure SD-5 (page V-9-4 of the MEIR)**

Two-thirds of the Baseline Developed Area is served by underground injection of urban runoff, commonly termed "rockwells." New rockwells will be discouraged within the Baseline Developed Area. Instead, new storm drainage in the Baseline Developed Area shall be by means of appositive storm drainage systems unless the proposed service area is so isolated from surface waters that it is infeasible to provide positive drainage.

The new storm drainage facilities shall consider the drainage facility requirements presented in Table 9-1 of the Master EIR. This policy applies to both positive storm drainage systems and to new rockwells (which are generally discouraged) in the Baseline Developed Area. (General Plan Policy V-E.2[a])

**Mitigation Measure SD-6 (page V-9-4 of the MEIR)**

The Modesto Irrigation District shall be consulted during the preparation of drainage studies required by the Urban Area General Plan. (General Plan Policy V-E.2[b])

**Mitigation Measure SD-7 (page V-9-4 of the MEIR)**

The City of Modesto shall prevent water pollution from urban storm runoff as established by the Central Valley Regional Water Quality Control Board for surface discharges and Environmental Protection Agency for underground injection. (General Plan Policy V-E.2[c])

**Mitigation Measure SD-8 (page V-9-4 of the MEIR)**

Storm water drainage facilities shall be constructed, operated, maintained, and replaced in a manner that will provide the best possible service to the public, given the financial abilities and constraints of the City and of the private sector alike. In developing implementation plans, consideration shall be given to rehabilitation of existing facilities, remediation of developed areas with inadequate levels of drainage service, and the timely expansion of the system for future development. (General Plan Policy V-E.2[d])

**Flooding and Water Quality Measures:**

None

**Parks and Open Space Measures:**

None

**Schools Measures:**

None

**Police Services:**

None

**Fire Services:**

None

**Generation of Solid Waste**

None

**Generation of Hazardous Materials**

**Mitigation Measure HM-3 (page V-16-5 of the MEIR)**

Hazardous Materials Release Response Plans and Inventory Act of 1985.

The Hazardous Materials Release Response Plans and Inventory Act (Section 25500 et seq. of the Health and Safety Code, also known as the Business Plan Act), requires businesses using hazardous materials to prepare a plan that describes their facilities, inventories materials and sets of emergency response plans, and training programs. Hazardous materials are defined as raw or unused materials that are part of a process

or manufacturing step, and they are not considered hazardous wastes. Health concerns pertaining to the release of hazardous materials, however, are similar to those relating to hazardous wastes. Often, the facilities subject to this act also generate hazardous wastes. Reports are filed with the county. The required plan also informs emergency responders of hazardous materials.

#### **Mitigation Measure HM-10 (page V-16-7 of the MEIR)**

The California Environmental Protection Agency is authorized to endow qualifying local agencies with oversight and permitting responsibility for certain state programs. The Unified Program was created by state legislation in 1993 to consolidate, coordinate, and make consistent the administrative requirements, permits, inspections, and enforcement activities for the following environmental and emergency management programs:

- a. Hazardous Materials Release Response Plans and Inventories (Business Plans)
- b. California Accidental Release Prevention (CalARP) Program
- c. UST Program
- d. Aboveground Petroleum Storage Act Requirements for Spill Prevention, Control and Countermeasure (SPCC) Plans
- e. Hazardous Waste Generator and Onsite Hazardous Waste Treatments (tiered permitting) Programs
- f. California Uniform Fire Code: Hazardous Material Management Plans and Hazardous Material Inventory Statements

#### **Mitigation Measure HM-12 (page V-16-8 of the MEIR)**

Stanislaus County is Certified Unified Program Agency authorized to administer a number of state programs at the local level. It regulates hazardous materials within its incorporated (including Modesto) and unincorporated areas. The County's role includes the following (Stanislaus County 2002):

1. Implement Risk Management and Prevention laws to minimize chemical releases in the community.
2. Maintain hazardous materials response team to assist police and fire agencies during transportation and industrial accidents involving chemical spills.
3. Prepare and implement county's Area Plan for emergency response to chemical spills in the community.
4. Permit and inspect removal of USTs.
5. Permit and monitor new USTs.
6. Oversee site investigation for soil and ground water contamination and clean-up.
7. Inspect hazardous waste generators.
8. Review procedures for storage, treatment and disposal of hazardous wastes.
9. Prepare and implement the county Hazardous Waste Management Plan.
10. Develop and implement the county Household Hazardous Waste collection program.
11. Inspect medical facilities to ensure compliance with state medical waste management laws.
12. Implement hazardous materials disclosure laws (business plans) to ensure access to information about chemicals handled by businesses.

### **Mitigation Measure HM-13 (page V-16-9 of the MEIR)**

The City shall comply with all existing federal and state laws, which regulate the generation, transportation, storage, and disposal of hazardous materials (General Plan Policy V-M.2[a]).

### **Potential for Landslides and Seismic Activity**

#### **Mitigation Measure LSA-9 (page V-17-6 of the MEIR)**

The City shall continue to require all new buildings in the City to be built under the seismic requirements of the Uniform Building Code, 1979 (or subsequent) edition. (General Plan Policy VI-B.2[b])

#### **Mitigation Measure LSA-11 (page V-17-7 of the MEIR)**

Any construction which occurs as a result of the Urban Area General Plan must conform with the current UBC regulations, which address seismic safety of new structures and slope requirements. As appropriate, the City will require a geotechnical analysis prior to tentative map review in order to ascertain site-specific subsurface information necessary to estimate foundation conditions. These geotechnical studies should reference and make use of the most recent regional geologic maps available from the California Department of Conservation Division of Mines and Geology. (General Plan Policy VI.E.1[a])

### **Energy**

None

### **Planning and Land Use**

None

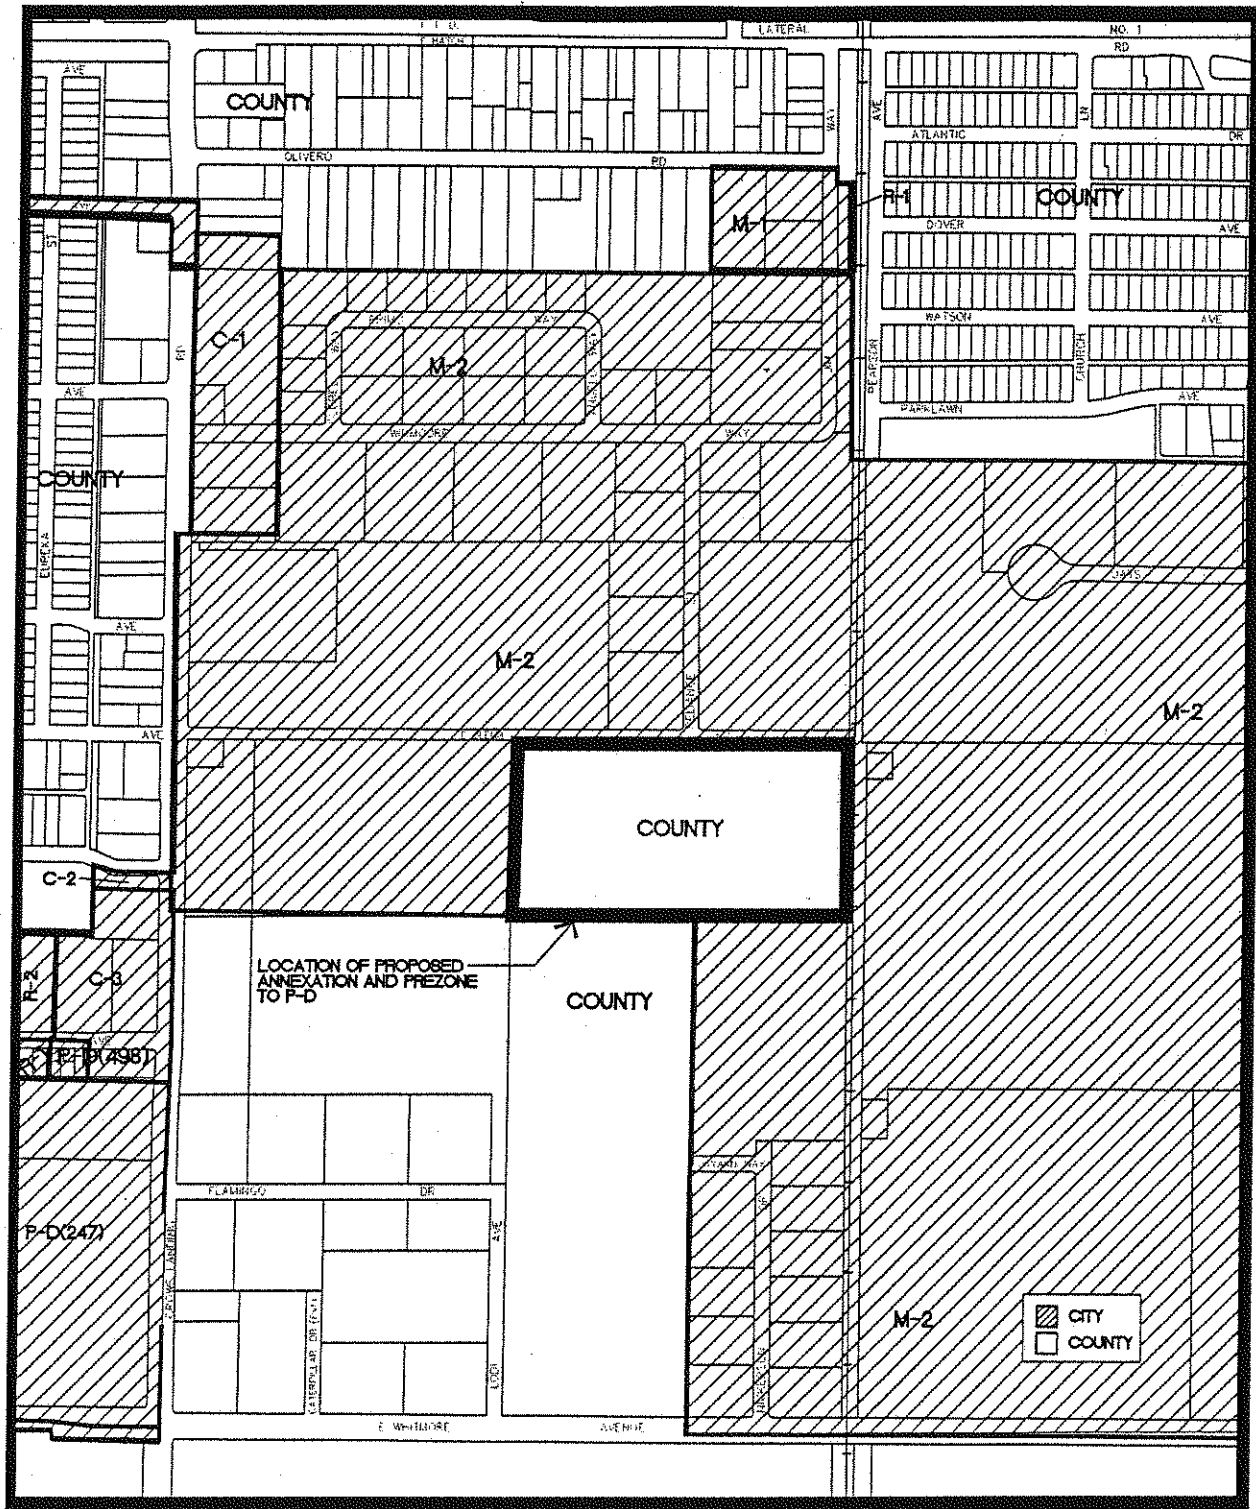

### **Aesthetics**

None

## **B. Recommended Conditions of Project Approval**

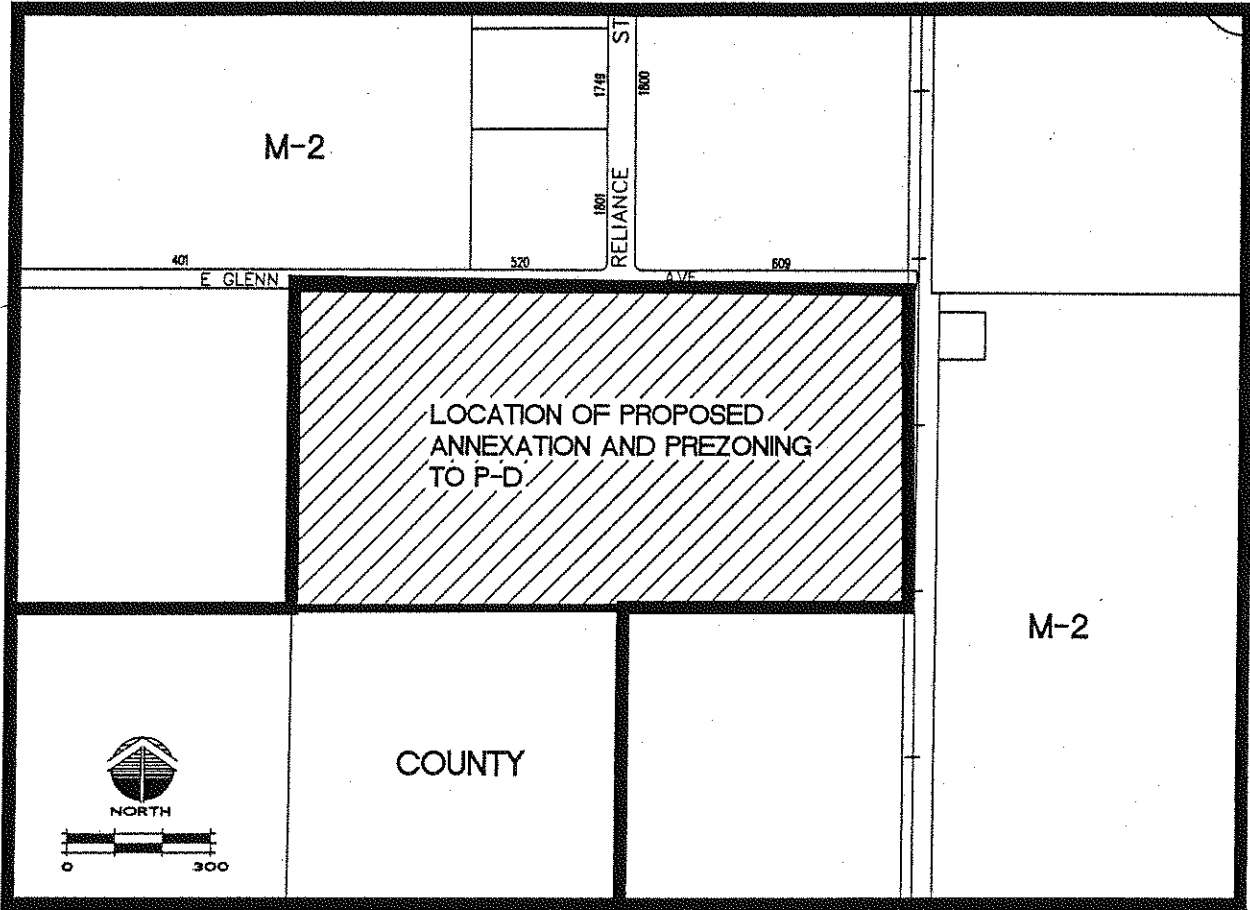

1. The Vesting Tentative Subdivision Map application cannot proceed to Planning Commission until the annexation process is complete.
2. Coordinate with the City Attorney's office an agreement to assess this parcel's share of the acquisition and improvement of the southeast corner of Glenn Avenue and Crows Landing Road. There is an existing agreement with the Agrestis and Buzz Oates Construction for this acquisition and cost sharing. As this parcel will contribute traffic to that intersection, this parcel should share in the cost of acquiring and improving that corner.

3. Prior to approval of the Vesting Tentative Subdivision Map or the issuance of any building permits, a storm drainage basin must be constructed that meets City standards and as approved by the Director of Public Works.
4. The property is in Modesto Municipal Sewer District #1. Sewer service shall be taken from East Glenn Avenue.
5. Prior to any development on the property, the property owner shall provide an additional booster pump and generator at City Tank #8.
6. Storm water quality and runoff from the site must be mitigated. The new development guidelines must be followed.
7. Improvement plans shall be prepared by a California-licensed civil engineer and in accordance with City of Modesto standards.

AREA MAP OF PROPOSED  
ANNEXATION AND PREZONING TO P-D

TECHNICAL MEMORANDUM

DATE: January 15, 2004 Project No.: 418-02-01

TO: Will Wong, City of Modesto

CC: Jack Bond, City of Modesto  
Craig Scott, City of Modesto

FROM: Gerry Nakano, Project Manager  
Charles Duncan, Project Engineer  
Carman Ng, Staff Engineer

SUBJECT: 414 East Glenn Avenue Fire Flow Comparison and Analysis

This Technical Memorandum summarizes the findings and conclusions of West Yost and Associates' (WYA) technical evaluation of the ability and reliability of the City of Modesto's (City) existing water distribution system to meet required minimum pressures and flows during an assumed high demand period plus fire flow condition, in the area of 414 East Glenn Avenue, in the South Modesto service area.

BACKGROUND

A 20-acre industrial parcel located in the vicinity of 414 East Glenn Avenue (Project) is planning to be annexed into the City. The subject property is planning to be sub-divided into 20 individual parcels, each approximately 1 acre in size. On August 20, 2003 at 10:30 AM, the City's Fire Department performed a hydrant flow test at 414 East Glenn Avenue, and observed a flow of 1,126 gallons per minute (gpm) and a residual pressure of 45 pounds per square inch (psi) at the observed hydrant.

The City requested that WYA attempt to replicate the field-observed pressure and hydrant flow measurements using the September 2003 calibrated hydraulic water model of the City's water system. The City also requested that a hydraulic analysis be performed to evaluate whether the field-observed pressure and flow measurements could be sustained if a nearby City well or pump station were assumed to be non-operational. Figure 1 provides a schematic location of these facilities. An analysis of Project water demands, or water supply availability was not part of the City requested analysis.

## MODELING CRITERIA

The hydraulic modeling criteria used by WYA in the analysis of the City's existing water system are listed below:

- A demand of 131.5 million gallons per day as measured by the City's SCADA system on August 20, 2003 at 10:00 AM in Modesto (total within North and South Modesto), was replicated in the hydraulic simulation model. Individual SCADA flow data was also available for each of the City's groundwater supply wells.
- The September 2003 calibrated hydraulic model of the City's existing water system was used to evaluate the hydraulic conditions.

## ANALYSIS AND FINDINGS

The South Modesto portion of the City's September 2003 calibrated hydraulic model was modified to reflect the supply conditions according to SCADA information provided for August 20, 2003 at 10:00 AM. WYA then ran the hydraulic simulation model to determine resultant system pressures during a 1,126 gpm hydrant fire flow at the Project. Then to evaluate system reliability/redundancy, this analysis was re-run, assuming that the booster pump supplying water from Tank 8 into the distribution system was out of service.

### Hydrant Flow Test with Tank 8 Booster Pump Station Online

The hydraulic model simulation of a 1,126 gpm fire flow at the Project location produced a residual system pressure of approximately 41 psi (see Figure 2). This calculated system pressure was 4 psi lower than the pressure observed in the field. This model simulation result confirms the ability of the City's existing water distribution system to provide approximately 1,125 gpm at the Project at a pressure of  $\pm 40$  psi, if local wells 49, 100, 214, 217, and 284 are all operating at their design points, and the booster pump station at Tank 8 is in service.

### Hydrant Test with Tank 8 Booster Pump Station Out of Service

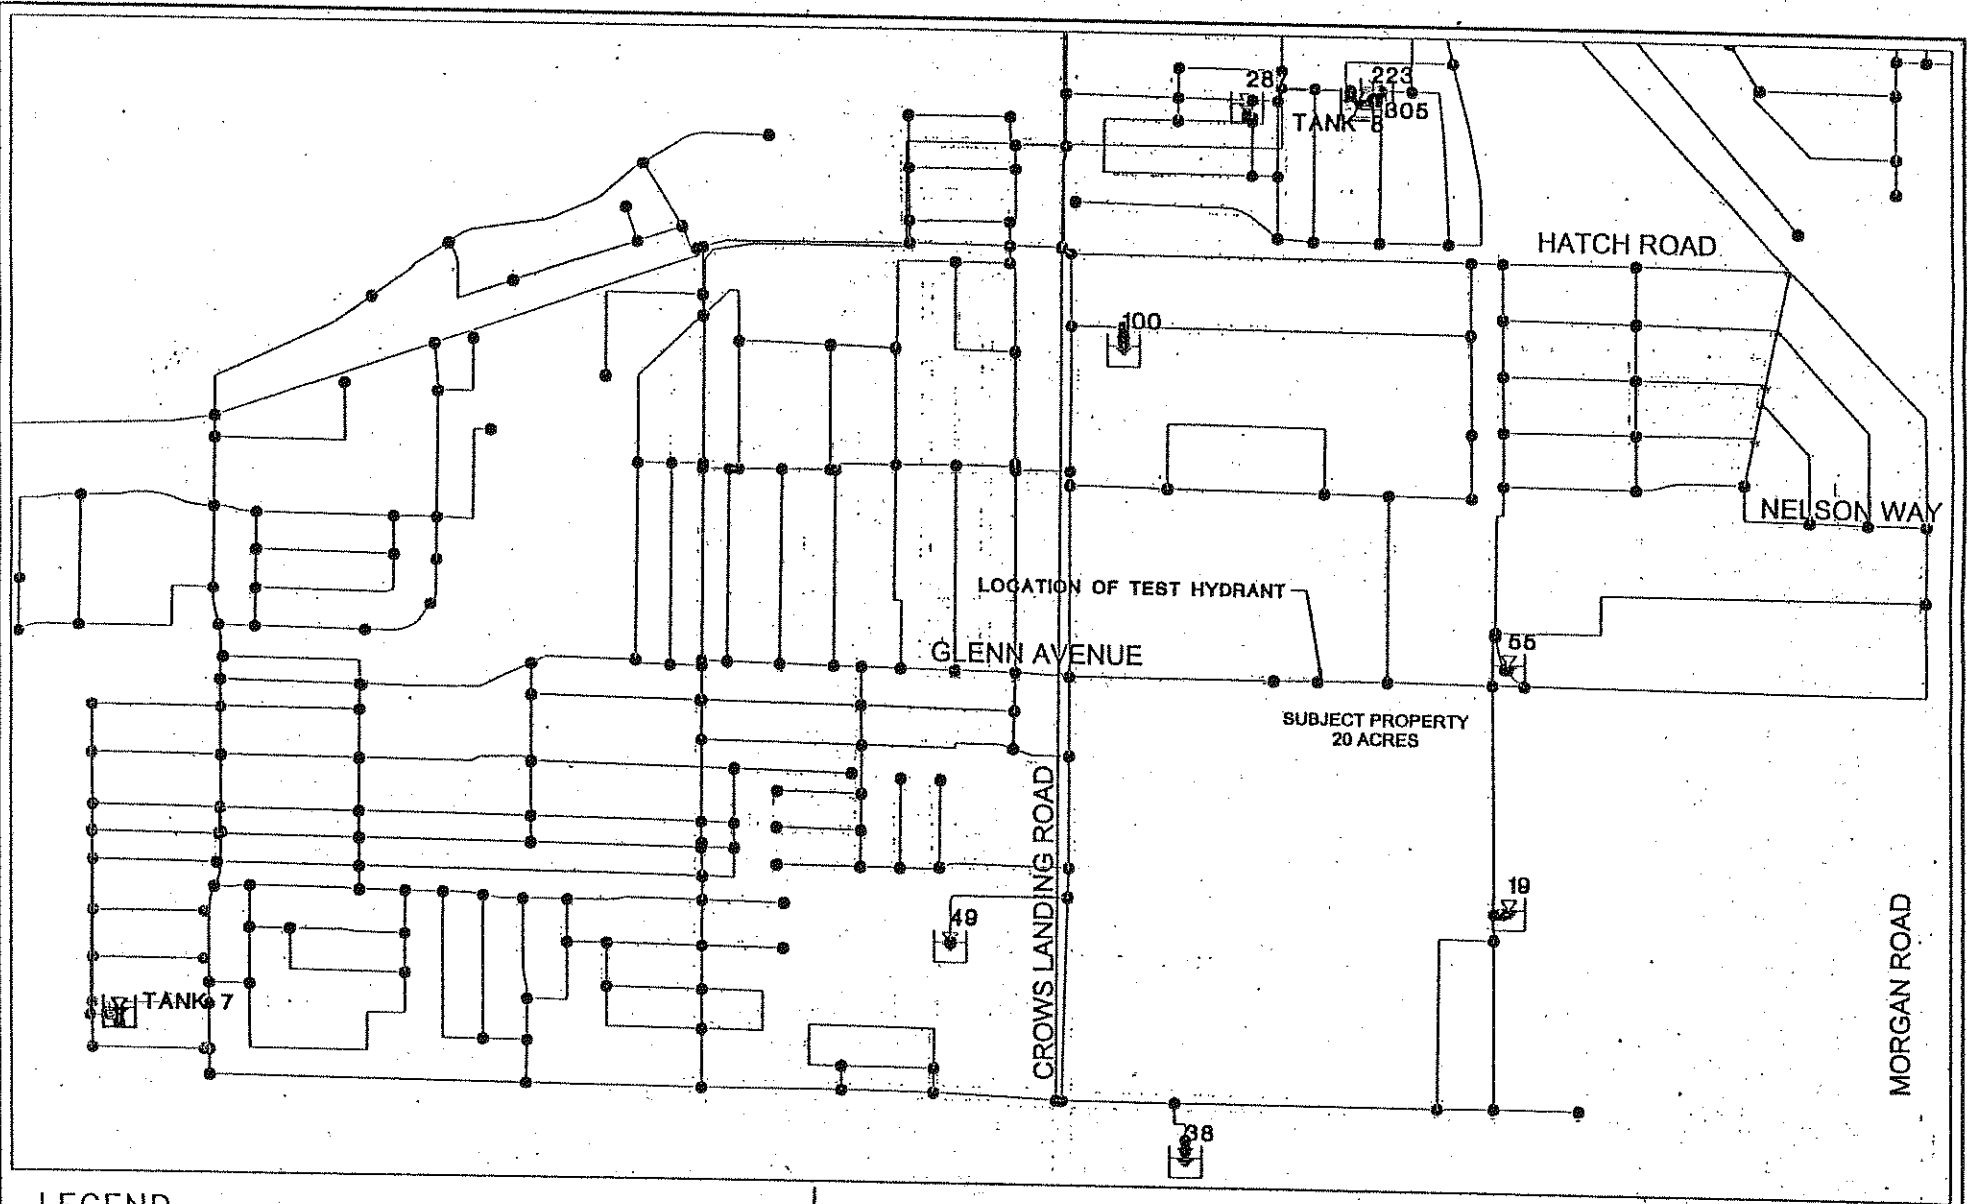

Hydraulic modeling indicates that if the pump station located at Tank 8 were to be taken out of service (for maintenance or other reasons), system pressures would fall significantly below the City's minimum 40 psi requirement, even with all available wells turned on. If the 1,126 gpm fire flow demand occurred during a time period when the Tank 8 booster pump station was out of service, pressures at the Project area would drop significantly (resultant system pressures would be less than 20 psi), indicating that there is inadequate supply to maintain pressures in the region (see Figure 3). It should also be noted that this area of the City has experienced groundwater supply reliability problems, due to chemical and/or radionuclides impacting the groundwater drinking supplies.

This result indicates that a redundant booster pump of the same size must be installed at Tank 8 to ensure system reliability, and the ability to maintain minimal pressures and flows during a loss of one of the pumps.

## CONCLUSION

Results from the September 2003 hydraulic model validated the field observations obtained during the hydrant flow test near 414 East Glenn Avenue by the City's Fire Department. In addition, the analysis indicated that a redundant pump at Tank 8 is necessary to be able to reliably maintain required system pressures and flows. Therefore, as a condition of annexation, we recommend that the Project's applicant be conditioned to provide funding for the installation of a redundant pump and associated appurtenances to connect this pump into the existing distribution system, at the Tank 8 reservoir site.

# Memo

**To:** Cindy Van Empel  
**From:** Will Wong *WW*  
**CC:** Jack Bond  
**Date:** 10/14/2004  
**Re:** 414 East Glenn Avenue water service.

---

Cindy,

A recent hydraulic model analysis for the future development for 414 East Glenn Avenue concluded that, based on existing conditions in the area, the City of Modesto Water Distribution System is able to provide sufficient water supply to the proposed 19-unit development at 414 East Glenn Avenue. This determination is based on the proposed light industrial/commercial use of the development.

However, the analysis also identified a deficiency of the current water system. When the booster pump at Tank #8 is out-of-service (either due to repairs or electrical outages), there are water supply and pressure problems in the South Modesto water system.

Therefore, the City Engineering Department recommends that, before any permits are issued for this development, improvements must be made to Tank #8. These improvements include, but not limited to, an additional water booster pump, and back-up generator. The back-up booster pump and generator will provide reliability to the water system, and ensure the quality of water service can be maintained.

Cindy, if you have any questions or comments, please feel free to contact me at 1-5801. Thanks.

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-687**

**A RESOLUTION APPROVING AN AMENDMENT TO THE CITY OF  
MODESTO 2004-2005 HUD ANNUAL ACTION PLAN.**

WHEREAS, the City of Modesto receives several Federal grants from the United States Department of Housing and Urban Development (HUD), and

WHEREAS, the Modesto City Council, at its May 11, 2004, meeting approved the adoption of the 2004-2005 Annual Action Plan, and

WHEREAS, City staff has proposed amendments to the Annual Action Plan, and said proposed amendments are as set forth in Exhibit "A" attached hereto and incorporated herein by reference, and

WHEREAS, notice has been duly given to notify the community of proposed amendments to the Annual Action Plan, and to provide a 30-day comment period, which began November 12, 2004, and ended on December 14, 2004, and

WHEREAS, the Citizens Housing and Community Development Committee (CH&CDC) considered the proposed changes to the Annual Action Plan at its November 19, 2004, meeting, and the Committee recommended that the City Council approve amendments to the Annual Action Plan as proposed by staff as well as budgetary adjustments as recommended by staff, and

WHEREAS, a duly noticed public hearing was held by the City Council on December 14, 2004, at 5:30 p.m., in the Tenth Street Place Chambers, located at 1010 Tenth Street, to consider approval of the proposed amendments to the 2004-2005 Annual Action Plan,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Amendment to the 2004-2005 Annual Action Plan as presented to the Council is hereby approved, and a copy of said Amendment to the 2004-2005 Annual Action Plan is attached hereto as **Exhibit "A"** and incorporated herein by reference.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Acting City Manager, or his designee, is hereby authorized to execute any documents with respect to the Amendment to be submitted to the Regional HUD office.

BE IT FURTHER RESOLVED that any and all documents necessary to implement the Action Plan shall require further Council approval.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of December, 2004, by Councilmember O'Bryant, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Dunbar, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Ridenour
NOES:	Councilmembers:	None
ABSENT:	Councilmembers:	None

Attest: Jean Zahr  
JEAN ZAHR, City Clerk

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-688**

**A RESOLUTION AMENDING THE FISCAL YEAR 2004-2005 ANNUAL  
OPERATING BUDGET TO REFLECT APPROVED CHANGES TO THE HUD  
ANNUAL ACTION PLAN.**

WHEREAS, the City of Modesto receives several Federal grants from the United States Department of Housing and Urban Development (HUD), and

WHEREAS, the City Council, at its May 11, 2004, meeting approved the adoption of the 2004-2005 Annual Action Plan, and

WHEREAS, since adoption of the Annual Action Plan, staff has determined that changes should be made to programs and services provided to better meet the needs of the citizens of Modesto, and

WHEREAS, these program changes require reallocation of operating budget funds, and

WHEREAS, reallocation of these funds is more fully described on Exhibit "A", attached hereto and incorporated by reference, and

WHEREAS, the Citizens Housing and Community Development Committee (CH&CDC) considered the proposed changes to the Annual Action Plan at its November 19, 2004, meeting, and the Committee recommended that the City Council approve amendments to the Annual Action Plan as proposed by staff as well as budgetary adjustments as recommended by staff, and

WHEREAS, a duly noticed public hearing was held by the City Council on December 14, 2004, at 5:30 p.m., in the Tenth Street Place Chambers, located at 1010

Tenth Street, to consider approval of the proposed amendments to the 2004-2005 Annual Action Plan,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Fiscal Year 2004-2005 Annual Operating Budget is hereby amended to reallocate the Community Development Block Grant (CDBG) as indicated on Exhibit "A" attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of December, 2004, by Councilmember O'Bryant, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-689**

**A RESOLUTION AMENDING THE FISCAL YEAR 2004-2005 FUNDING FOR  
THE CAPITAL IMPROVEMENT BUDGET TO REFLECT APPROVED  
CHANGES TO THE HUD ANNUAL ACTION PLAN.**

WHEREAS, the City of Modesto receives several Federal grants from the United States Department of Housing and Urban Development (HUD), and

WHEREAS, the City Council, at its May 11, 2004, meeting approved the adoption of the 2004-2005 Annual Action Plan, and

WHEREAS, since adoption of the Annual Action Plan, staff has determined that additional revenue from prior years' carryover Community Development Block Grant (CDBG) program funds will be available for capital improvement projects, and

WHEREAS, staff recommends that the available funding be programmed for new and existing projects, and

WHEREAS, programming of these funds is more fully described on Exhibit "A", attached hereto and incorporated by reference, and

WHEREAS, the Citizens Housing and Community Development Committee (CH&CDC) considered the proposed changes to the Annual Action Plan at its November 19, 2004, meeting, and the Committee recommended that the City Council approve the amendments to the Annual Action Plan as proposed by staff as well as budgetary adjustments as recommended by staff, and

WHEREAS, a duly noticed public hearing was held by the City Council on December 14, 2004, at 5:30 p.m., in the Tenth Street Place Chambers, located at 1010

Tenth Street, to consider approval of the proposed amendments to the 2004-2005 HUD Annual Action Plan,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Fiscal Year 2004-2005 funding for the Capital Improvement Plan Budget is hereby amended to estimate new revenue, appropriate new expenses and reallocate HUD Funds as indicated on **Exhibit "A"** attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of December, 2004, by Councilmember O'Bryant, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-691**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO FORMALLY SOLICIT REQUEST FOR PROPOSALS (RFP) FOR LANDSCAPE MAINTENANCE SERVICES FOR ALL PARK, RIGHT-OF-WAY AND PUBLIC LANDSCAPING OWNED AND/OR MANAGED BY THE CITY OF MODESTO FOR A FIVE (5) YEAR PERIOD WITH AN OPTION TO RENEGOTIATE FOR AN ADDITIONAL FIVE (5) YEAR PERIOD AT AN ESTIMATED ANNUAL COST OF \$1,200,000.**

WHEREAS, the City of Modesto's Parks, Recreation and Neighborhoods Department, Park Services Division provides landscape maintenance services to over 530 acres of landscaping for 66 parks and about 150 other landscaped sites including public buildings, street medians, sound walls, traffic islands and other miscellaneous sites, and

WHEREAS, funding for this maintenance is provided primarily by the City's General Fund, although a number of sites are funded from other sources including the Tuolumne River Regional Park JPA, Parking Fund, Centre Plaza, Storm Drain Fund and several Community Facility Districts, and

WHEREAS, over the past four to five years there has been a dramatic decline in landscape maintenance service levels, and

WEHREAS, staff now desires to solicit Requests for Proposals (RFP) for Landscape Maintenance Services for all park, right-of-way and public landscaping owned and/or managed by the City of Modesto, and

WHEREAS, the pre-eminent reason for seeking proposals from the private sector is to determine if such an action would indeed restore those service levels that have deteriorated over the past 4-5 years at no greater a cost than is currently expended for landscape services at the existing service levels, and

WHEREAS, the Economic Development Committee met on September 13, 2004, and supported the recommendation to solicit Requests for Proposals for Landscape Maintenance Services, and

WHEREAS, the Finance Committee met on September 27, 2004, and supported the recommendation to solicit Requests for Proposals for Landscape Maintenance Services

WHEREAS, Modesto Municipal Code, Section 8-3.203, generally requires all purchases, which meet or exceed \$50,000.00 for material, equipment or contractual services to be formally bid, and

WHEREAS, the issuance of a formal Request for Proposal for the furnishing of Landscape Maintenance Services will conform to Modesto Municipal Code Section 8-3.203,

NOW, THEREFORE, BE IT HEREBY RESOVLED by the Council of the City of Modesto as follows:

SECTION 1. The City Clerk is hereby authorized to call for public competitive sealed proposals for Landscape Maintenance Services for all park, right-of-way and public landscaping owned and/or managed by the City of Modesto, for a five (5) year period, with an option to renegotiate for an additional five (5) year period, to be opened in the office of the City Clerk, 1010 Tenth Street, in the City of Modesto. The City Clerk shall be directed to give notice inviting such sealed proposals in the time, form, and manner provided by law.

SECTION 2. After the sealed proposals are opened, they shall be tabulated and analyzed and a report submitted to Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of December 2004, by Councilmember O'Bryant, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Dunbar, Hawn, Jackman, Keating, Marsh,  
O'Bryant, Mayor Ridenour

NOES: Councilmembers: None

ABSENT: Councilmembers: None

Attest: Jean Zahr  
JEAN ZAHR, City Clerk

**MODESTO CITY COUNCIL  
RESOLUTION NO. 2004-692**

**A RESOLUTION DIRECTING STAFF TO NEGOTIATE WITH MCEA AND MCMA RELATED TO THE POTENTIAL DISPLACEMENT OF FULL-TIME EMPLOYEES THAT MIGHT OCCUR AS A RESULT OF CONTRACTING OUT LANDSCAPE MAINTENANCE SERVICES, AND TO DECLARE AN IMPASSE IN NEGOTIATIONS IF THESE GROUPS AND THE CITY ARE UNABLE TO REACH AN AGREEMENT.**

WHEREAS, the City of Modesto's Parks, Recreation and Neighborhoods Department, Park Services Division provides landscape maintenance services to over 530 acres of landscaping for 66 parks and about 150 other landscaped sites including public buildings, street medians, sound walls, traffic islands and other miscellaneous sites, and

WHEREAS, staff now desires to solicit Requests for Proposals for Landscape Maintenance Services from pre-qualified bidders for all park, right-of-way and public landscaping owned and/or managed by the City of Modesto, and

WHEREAS, the Memoranda of Understanding between the City and the Modesto City Employees Association (MCEA) and the Modesto Confidential and Management Association (MCMA) provide for negotiation when full-time employees face potential displacement, and

WHEREAS, the Economic Development Committee met on September 13, 2004, and supported the recommendation to solicit Requests for Proposals for Landscape Maintenance Services, and

WHEREAS, the Finance Committee met on September 27, 2004, and supported the recommendation to solicit Requests for Proposals for Landscape Maintenance Services,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby directs staff to negotiate with MCEA and MCMA related to the potential displacement of full-time employees that might occur as a result of contracting out landscape maintenance services.

BE IT FURTHER RESOLVED that the Council authorizes staff to declare an impasse in negotiations if these groups and the City are unable to reach an agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14<sup>th</sup> day of December 2004, by Councilmember O'Bryant, who moved its adoption, which motion being duly seconded by Councilmember Dunbar, was upon roll call carried and the resolution adopted by the following vote:
