Upon completion of annexation to the City of Modesto, the following services will be made available or extended to properties in the annexation area in the manner indicated:

1. FIRE PROTECTION: Upon annexation the property will be withdrawn from the Empire Fire Protection District and fire protection will be provided by the Modesto Fire Department. Primary fire response would come from Fire Station No. 3 at El Vista Avenue and Edgebrook Drive. This service would be extended upon the effective date of annexation.

2. POLICE PROTECTION: Modesto City Police would assume responsibility for police protection upon the effective date of annexation.

3. GARDEN REFUSE PICKUP: Weekly garden refuse pickup would be extended to the area upon the effective date of annexation. There is no separate charge for this service.

4. SANITARY SEWER SERVICE: Currently 7 of the 44 parcels in the annexation area are connected to the City sewer system; 17 other lots are adjacent to the existing lines and can be connected. These lots would be required to connect to the sewer system within two years after the annexation is effective. The City of Modesto anticipates that an improvement district will be formed and that the sewer will become available to the parcels not adjacent to existing lines within two years after the annexation is effective. The costs of connecting to the sewer may be financed as follows:

   a. Actual construction of sewer laterals where they do not presently exist will be financed by the formation of an improvement district. Financing through improvement district bonds can be for 15 years. A lateral fee is required for the lots adjacent to existing sewer lines but financing of this fee is not available.

   b. Bond redemption fees and subtrunk charges for all lots can be financed by the City of Modesto for a period of two years at 7 percent simple interest. (Payable bimonthly with sewer bill.)

   c. Remaining costs - The cost of actual connection of home to sewer is to be paid as privately arranged by property owner.

   The total cost of connecting to the City sanitary sewer system will vary. For the homes located on Lance Street, the cost will be approximately $1,510. These homes can be served by existing sewer lines. For the remaining homes located on Ellis Street, the cost will be approximately $2,260. For the homes already connected to the sewer, there will be a savings on their service bill amounting to $8.22 annually.

5. WATER: Water service to the area is currently provided by the Del Este Water Company. This service would continue upon annexation.

6. GARBAGE COLLECTION: Garbage is presently collected from the annexation area by the Bertolotti Garbage Company. This company would continue the collection after annexation but at a slightly lower rate under the City franchise. The exact reduction would depend upon the level of service desired. (One-can pickup or two-can pickup.)

RESOLUTION NO. 79-688

A RESOLUTION COMPROMISING DISPUTED AMOUNTS BILLED FOR WATER SERVICE INSTALLATION CHARGES AND WATER MAIN CONNECTION CHARGES FROM JUNE 7, 1978, THROUGH JULY 31, 1978, ON CERTAIN LOTS IN THE CITY OF MODESTO.

WHEREAS, by Ordinance No. 1726-C. S., which became effective on June 6, 1978, Sections 11-1.04 and 11-1.05 of the Modesto Municipal Code were amended to increase the City's water service installation charges and water main connection charges, and,

WHEREAS, on June 6, 1978, there were seven subdivisions in various stages of development in the City of Modesto, the lots in which the City's staff initially determined were subject to the old water service installation charges and water main connection charges, and

WHEREAS, subsequently, it was determined by the City's staff that the new water service installation charges and water main connection charges were applicable to one hundred thirty (130) lots in said seven subdivisions, and

WHEREAS, the persons who had obtained building permits for said one hundred thirty (130) lots in said subdivisions were billed for the additional amounts due under the new charges, and

WHEREAS, an appeal has been filed on behalf of said persons challenging said additional charges, and

WHEREAS, the City Council has received and considered two staff reports, dated March 16, 1979, and June 26, 1979, which reports detail the background and history of the above referred to billings for increased water service installation charges and water main connection charges, and

WHEREAS, the staff report of June 26, 1979, recommends that the City of Modesto compromise the dispute over the increased costs billed on the building permits for said one hundred thirty (130) lots for water service installation charges and water main

connection charges during the period of June 7, 1978, through July 31, 1978, and that said bills be reduced by fifty (50%) percent, and

WHEREAS, after due consideration of said recommendation, this Council has found and determined that a controversy does exist over the amount that should have been charged for water service installation charges and water main connection charges on the building permits for said one hundred thirty (130) lots and that compromising said dispute at fifty (50%) percent of said increased charges will be fair and equitable to both the City of Modesto and the persons who obtained the building permits for said lots,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the increased costs billed for water service installation charges and water main connection charges during the period of June 7, 1978, through July 31, 1978, for the above referred to one hundred thirty (130) lots be reduced by fifty (50%) percent.

BE IT FURTHER RESOLVED that those persons who have already paid the full amount of the additional charges as previously billed shall be refunded one-half (1/2) of said amount and those persons who have not already paid the amount previously billed shall be billed for one-half (1/2) of said amount.

MODESTO CITY COUNCIL
RESOLUTION NO. 79-700

A RESOLUTION OVERRULING THE DECISION OF THE BOARD OF ZONING ADJUSTMENT DENYING A CONDITIONAL USE PERMIT IN THE H-1 ZONE FOR EXPANSION OF THE TREE FROG TAVERN, 2024 WEST ORANGEBURG AVENUE, WITH A SUBSTANDARD FRONT SETBACK.

WHEREAS, an application for a conditional use permit in the H-1 Zone for a 1,110-square foot building addition to the Tree Frog Tavern, 2024 Orangeburg Avenue, with the front building setback being only 11 feet from the Orangeburg Avenue property line, instead of the 15 feet called for in the H-1 Zone development standards contained in the Modesto Municipal Code, was filed by Stan Azevedo, owner of the Tree Frog Tavern, on May 2, 1979, and

WHEREAS, Section 10-2.1904 of the Modesto Municipal Code provides that the Board of Zoning Adjustment may grant conditional use permits, and

WHEREAS, Section 10-2.2903 of the Modesto Municipal Code provides that eating and drinking places are a permitted use in the H-1 Zone, subject to the securing of a conditional use permit from the Board of Zoning Adjustment, and

WHEREAS, a public hearing was held by the Board of Zoning Adjustment on May 24, 1979, in the City Council Chambers, City Hall, 801 - 11th Street, Modesto, California, on said application and evidence both oral and documentary was received and considered, and

WHEREAS, at said public hearing, the Board of Zoning Adjustment, by Resolution No. 865, found and determined that the application for a conditional use permit for a 1,110-square foot building addition to the Tree Frog Tavern, 2024 Orangeburg Avenue, with the front building setback being only 11 feet from the Orangeburg Avenue property line, instead of the 15 feet called for in the H-1 Zone development

standards contained in the Municipal Code, should be denied for the following reasons:

1. The proposed building expansion intrudes four feet into a minimum standard front yard setback area.

2. On April 26, 1979, the Board of Zoning Adjustment granted a similar restaurant expansion on the same side of the street, which expansion was required to be maintained behind the 15-foot front setback line.

3. The property owners have many design alternatives available which would allow expansion of the facility without encroaching into the 15-foot front yard setback area.

WHEREAS, an appeal was filed by Stan Azevedo with the Modesto City Council, by letter dated May 25, 1979, to the decision of the Board of Zoning Adjustment denying his request for said conditional use permit, and

WHEREAS, said appeal was set for public hearing before the City Council at its regular meeting place located in the Council Chambers in the City Hall, 801 - 11th Street, Modesto, California, at 7:30 o'clock p.m. on July 10, 1979, and

WHEREAS, at said meeting said Council, after hearing evidence both oral and documentary, found and determined that the appeal filed by Stan Azevedo, owner of the Tree Frog Tavern, to the decision of the Board of Zoning Adjustment denying his request for a conditional use permit in the H-1 Zone to allow a 1,110-square foot building addition to the Tree Frog Tavern, 2024 West Orangeburg Avenue, with the front building setback being only 11 feet from the Orangeburg Avenue property line, instead of the 15 feet called for in the H-1 Zone development standards contained in the Municipal Code, should be granted for the following reasons, and that the decision of the Board of Zoning Adjustment should be overruled:

1. The building on the property to the immediate north is setback only 11 feet from the property line.

2. The existing roof overhang on the subject building extends to approximately 13 feet from the property line.

3. The subject parcel is very shallow, making expansion in other directions difficult.

and

WHEREAS, the City Council at said Council meeting, reviewed and considered the findings of the City of Modesto Environmental Assessment Committee which resulted in a negative declaration in regard to the environmental impact of the proposed project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appeal of Stan Azevedo, owner of the Tree Frog Tavern, to the decision of the Board of Zoning Adjustment denying his request for a conditional use permit in the H-1 Zone to allow a 1,110-square foot building addition to the Tree Frog Tavern at 2024 West Orangeburg Avenue with the front building setback 11 feet from the Orangeburg Avenue property line, is hereby granted, and the decision of the Board of Zoning Adjustment, as set forth in its Resolution No. 865, is hereby overruled.

BE IT FURTHER RESOLVED that a conditional use permit in the H-1 Zone to allow a 1,110-square foot building addition to the Tree Frog Tavern at 2024 West Orangeburg Avenue with a front building setback 11 feet from the Orangeburg Avenue property line is hereby granted, subject to the following conditions:

1. That all development shall conform to the plot plan titled "2024 W. Orangeburg Avenue - Site Plan - 1"=10'" as amended in red, stamped approved by the City Council on July 10, 1979 and on file in the Planning and Community Development Department.

2. That all landscaping, fences, and walls shall be maintained and the premises shall be kept free of weeds, trash, and other debris.

3. That all trash shall be maintained within buildings or in fully enclosed trash areas in locations approved by the Director of Planning and Community Development. If trash enclosures are used, they shall be constructed of the same building materials used

in the major building or of decorative masonry as determined by the Director of Planning and Community Development.

4. That all signs shall comply with the sign requirements of the H-1 Zone.

5. That all conditions of Planning Commission Resolution No. 67-98 and Board of Zoning Adjustment Resolution No. 766 not in conflict with this action shall remain in full force and effect.

6. That the applicant shall record a "Notice of Conditions" form.

BE IT FURTHER RESOLVED by the Council that the Director of Planning and Community Development of the City of Modesto is hereby directed to file or cause to be filed with the Stanislaus County Clerk a Notice of Determination in regard to the environmental impact of the proposed rezoning.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of July, 1979, by Councilmember Lang, who moved its adoption, which motion being duly seconded by Councilmember Kullijian, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 79-701

A RESOLUTION APPROVING A DEVELOPMENT PLAN FOR PLANNED-DEVELOPMENT ZONE, P-D (230).

WHEREAS, a verified application for an amendment to Section 30-3-9 of the Zoning Map was filed by R. T. Hughes Co. on April 18, 1979, to reclassify from Light Industrial Zone, M-1 to Planned-Development Zone, P-D, the following described property:

COOPERATION AGREEMENT

THIS AGREEMENT, entered into this _____ day of _____, 1979, by and between the HOUSING AUTHORITY OF THE COUNTY OF STANISLAUS (hereinafter called the "Local Authority" or "LHA"), a Public Housing Agency of PHA as defined in the U. S. Housing Act of 1937, as amended, and the CITY OF MODESTO (hereinafter called the "Municipality"),

WITNESSETH:

In consideration of the mutual covenants hereinafter set forth, the parties hereto do agree as follows:

1. Whenever used in this Agreement:

(a) The term "Project" shall mean any low-income housing hereafter developed or acquired by the Local Authority with financial assistance of the United States of America acting through the Secretary of the Housing and Urban Development (hereinafter called the "Government"); excluding, however, any low-income housing project covered by any contract for loans and annual contributions entered into between the Local Authority and the Government, or its predecessor agencies, prior to the date of this Agreement. Further, the term, "Project", means a "low rent housing project" as that term is used in Article XXXIV of the Constitution of the State of California.

(b) The term "Taxing Body" shall mean the State or any political subdivision or taxing unit thereof in which a Project is situated and which would have authority to assess or levy real or personal property taxes or to certify such taxes to a taxing body or public officer to be levied for its use and benefit with respect to a Project if it were not exempt from taxation.

Exhibit "A"

(c) The term "Shelter Rent" shall mean the total of all charges to all tenants of a Project for dwelling rents and nondwelling rents (excluding all other income of such Project), less the cost of the Local Authority of all dwelling and nondwelling utilities.

2. The Local Authority shall endeavor to (a) secure a contract or contracts with the Government for loans and annual contributions covering one or more Projects compromising approximately 400 units of low-income housing, and (b) to develop or acquire and administer such Project or Projects, each of which shall be located within the corporate limits of the Municipality. The obligations of the parties hereto shall apply to each such Project.

3. (a) Under the Constitution and statutes of the State of California, all Projects are exempt from all real and personal property taxes and special assessments levied or imposed by any Taxing Body. With respect to any Project, so long as either (i) such Project is owned by a public body or governmental agency and is used for low-income housing purposes, or (ii) any contract between the Local Authority and the Government for loans or annual contributions, or both, in connection with such Project remains in force and effect, or (iii) any bonds issued in connection with such Project or any monies due to the Government in connection with such Project remain unpaid, whichever period is the longest, the Municipality agrees that it will not levy or impose any real or personal property taxes or special assessments upon such Project or upon the Local Authority with respect thereto. During such period, the Local Authority shall make annual payments (hereinafter called "Payments in Lieu of Taxes") in lieu of such taxes and special assessments and in payment for the public services and facilities furnished from time to time without other costs or charges for or with respect to such Project.

(b) Each such annual Payment in Lieu of Taxes shall be made after the end of the fiscal year established for such Project, and shall be in an amount equal to either (i) ten percent (10%) of the Shelter Rent actually collected but in no event to exceed ten percent (10%) of the Shelter Rent charged by the Local Authority in respect to such Project during such fiscal year, or (ii) the amount permitted to be paid by applicable State law in effect on the date such payment is made, whichever amount is lower.

(c) The Municipality shall distribute the Payments in Lieu of Taxes among the Taxing Bodies in the proportion which the real property taxes which would have been paid to each Taxing Body for such year if the Project were not exempt from taxation bears to the total real property taxes which would have been paid to all the Taxing Bodies for each such year if the Project were not exempt from taxation; provided, however, that no payment for any year shall be made to any Taxing Body in excess of the amount of the real property taxes which would have been paid to such Taxing Body for such year if the Project were not exempt from taxation.

(d) Upon failure of the Local Authority to make any Payment in Lieu of Taxes, no lien against any Project or assets of the Local Authority shall attach, nor shall any interest or penalties accrue or attach on account thereof.

4. During the period commencing with the date of the acquisition of any part of the site or sites of any Project and continuing so long as either (i) such Project is owned by a public body or governmental agency and is used for low-income housing purposes, or (ii) any contract between the Local Authority and the Government for loans or annual contributions, or both, in connection wich such Project remains in force and effect, or (iii) any bonds issued in connection with such Project or any monies due to the Government in connection with such

Project remain unpaid, whichever period is the longest, the Municipality without cost or charge to the Local Authority or the tenants of such Project (other than the Payments in Lieu of Taxes), shall:

(a) Furnish or cause to be furnished to the Local Authority and the tenants of such Project public services and facilities of the same character and to the same extent as are furnished from time to time without cost or charge to other dwellings and inhabitants in the Municipality;

(b) Insofar as the Municipality may lawfully do so, vacate such streets, roads, and alleys within the area of such Project as may be necessary in the development thereof, and convey without charge to the Local Authority such interest as the Municipality may have in such vacated area; and, insofar as it is lawfully able to do so without cost or expense to the Local Authority or to the Municipality, cause to be removed from such vacated areas, insofar as it may be necessary, all public or private utility lines and equipment;

(c) Insofar as the Municipality may lawfully do so, (i) grant such deviations from the building code of the Municipality as are reasonable and necessary to promote economy and efficiency in the development and administration of such Project, and at the same time safeguard health and safety, and (ii) make such changes in any zoning of the site and surrounding territory of such Project as are reasonable and necessary for the development and protection of such Project and the surrounding territory;

(d) Accept grants of public easement(s) necessary for the development of such Project; and,

(e) Cooperate with the Local Authority by such other lawful action or ways as the Municipality and the Local Authority may find necessary in connection with the development and administration of the Project.

5. In respect to any Project the Municipality further agrees that within a reasonable time after receipt of a written request therefor from the Local Authority;

(a) It will accept the dedication of all interior streets, roads, alleys, and adjacent sidewalks within the area of such Project, together with all storm and sanitary sewer mains in such dedicated areas, after the Local Authority, at its own expense, has completed the grading, improvement, paving, and installation thereof in accordance with specifications acceptable to the Municipality;

(b) It will accept necessary dedications of land for, and will grade, improve, pave, and provide sidewalks for, all streets bounding such Project or necessary to provide adequate access thereto (in consideration whereof, the Local Authority shall pay to the Municipality such amount as would be assessed against the Project site for such work if such site were privately owned); and,

(c) Insofar as the Municipality may lawfully and physically do so, it will provide, or cause to be provided, water mains, and storm and sanitary sewer mains, leading to such Project and serving the bounding streets thereof (in consideration whereof the Local Authority shall pay to the Municipality such amount as would be assessed against the Project site for such work if such site were privately owned).

6. If by reason of the Municipality's failure or refusal to furnish or cause to be furnished any public services or facilities which it has agreed hereunder to furnish or to cause to be furnished to the Local Authority or to the tenants of any Project, the Local Authority incurs any expense to obtain such services or facilities then the Local Authority may deduct the amount of such expense from any Payments in Lieu of Taxes due or to become due to the Municipality in respect to any Project or any other low-income housing projects owned or operated by the Local Authority.

7. No Cooperation Agreement heretofore entered into between the Municipality and the Local Authority shall be construed to apply to any Project covered in this Agreement.

8. No member of the governing body of the Municipality or any other public official of the Municipality who exercises any responsibilities or functions with respect to any Project during his tenure or for one year thereafter shall have any interest, direct or indirect, in any Project or any property included or planned to be included in any Project, or any contracts in connection with such Projects or property. If any such governing body member or such other public official of the Municipality involuntarily acquires or had acquired prior to the beginning of his tenure any such interest, he shall immediately disclose such interest to the Local Authority.

9. So long as any contract between the Local Authority and the Government for loans (including preliminary loans) or annual contributions or both, in connection with any Project remains in force and effect, or so long as any bonds issued in connection with any Project or any monies due to the Government in connection with any Project remain unpaid, this Agreement shall not be abrogated, changed, or modified without the consent of the Government. The privileges and obligations of the Municipality hereunder shall remain in full force and effect with respect to each Project so long as beneficial title to such Project is held by the Local Authority or by any other public body or government agency, including the Government, authorized by law to engage in the development or administration of low-income housing projects. If at any time the beneficial title to, or possession of, any Project is held by such other public body or governmental agency, including the Government, the provisions hereof shall inure to the benefit of, and may be enforced by, such other public body or governmental agency, including the Government.

IN WITNESS WHEREOF, the Municipality and the Local Authority have respectively signed this Cooperation Agreement and caused their Seals to be affixed and attested as of the day and year first written above.

MODESTO CITY COUNCIL
RESOLUTION NO. 79-798

A RESOLUTION DENYING THE APPEAL OF MOBIL OIL CORPORATION TO THE DECISION OF THE BOARD OF ZONING ADJUSTMENT ON THE NUMBER AND LOCATION OF DRIVEWAYS AND THE HEIGHT OF THE IDENTIFICATION SIGN PROVIDED FOR IN THE H-1 USE PERMIT FOR THE COMMERCIAL COMPLEX ON THE WESTERLY SIDE OF SISK ROAD, SOUTH OF BECKWITH ROAD IN THE CITY OF MODESTO.

WHEREAS, an application for a conditional use permit in the H-1 Zone to allow a commercial complex including a service station, two restaurants, retail stores and shops and freestanding signs on the westerly side of Sisk Road, south of the Beckwith Road Freeway 99 overcrossing, was filed by Sanders Construction Company on April 18, 1979, and

WHEREAS, Section 10-2.1904(a) and Section 10-2.2903(f) of the Modesto Municipal Code authorize the granting of conditional use permits for retail trade and consumer service establishments in the H-1 Zone, and Section 10-2.3510 specifies that under certain circumstances, one freestanding sign of variable height may be allowed by the Board of Zoning Adjustment after public hearing, and

WHEREAS, a public hearing was held by the Board of Zoning Adjustment on May 24, 1979, and thereafter continued to June 28, 1979, in the City Council Chambers, City Hall, 801 11th Street, Modesto, California, and at said continued hearing, the Board of Zoning Adjustment by Resolution No. 867 found that an H-1 use permit for the commercial complex and only one freestanding sign of 150 square feet in area and a maximum of 35 feet in height was required by public necessity, convenience, and general welfare for the following reasons:

1. Retail trade and consumer service establishments are permitted in the H-1 Zone subject to securing a conditional use permit from the Board of Zoning Adjustment.

2. The proposed commercial complex is compatible with other existing and potential commercial uses in the surrounding area and the limitation of acess near the Sisk-Beckwith intersection will ease the traffic impact generated at this projected heavy traffic area.

3. Granting one freestanding sign for the service station at a maximum of 35 feet in height instead of the requested 50 feet is reasonable since actual field inspection by the Board and visual checking a sign target held at different heights showed that additional height over 35 feet is not needed or warranted,

and

WHEREAS, an appeal was filed by Mobil Oil Corporation with the City Council of the City of Modesto on July 11, 1979, to the decision of the Board of Zoning Adjustment on the number and location of driveways and the height of the identification sign provided for in the H-1 use permit for the commercial complex on the westerly side of Sisk Road, south of Beckwith Road in the City of Modesto, and

WJEREAS, said matter was set for public hearing before the Council at its regular meeting place located in the Council Chambers in the City Hall, 801 - 11th Street, Modesto, California, at 4:00 o'clock p.m., on August 7, 1979, at which time evidence, both oral and documentary, was taken and introduced,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appeal to the decision of the Board of Zoning Adjustment to its decision to allow only one freestanding sign of 150 square feet in area and a maximum of 35 feet in height and limitation of access to the area near the Sisk-Beckwith intersection granted in the H-1 use permit for the commercial complex in the Board of Zoning Adjustment Resolution No. 867, adopted on June 28, 1979, is hereby denied for the following reasons:

1. The limitation of access near the Sisk-Beckwith intersection will ease the traffic impact generated at this projected heavy traffic area.

2. Granting one freestanding sign for the service station at a maximum

of 35 feet in height instead of the requested 50 feet is reasonable since the actual field inspection by the Council and visual checking a sign target held at different heights showed that additional height over 35 feet is not needed or warranted.

BE IT FURTHER RESOLVED that the decision of the Board of Zoning Adjustment to allow only one freestanding sign of 150 square feet in area and a maximum of 35 feet in height and limitation of access to the area near the Sisk-Beckwith intersection granted in the H-1 use permit for the commercial complex is hereby affirmed.

MODESTO CITY COUNCIL
RESOLUTION NO. 79- 802

A RESOLUTION ADOPTING ADDITIONS TO THE URBAN GROWTH POLICY FOR THE CITY OF MODESTO.

WHEREAS, the Council of the City of Modesto adopted an Urban Growth Policy for the City of Modesto on March 25, 1974 by Resolution No. 74-238, and

WHEREAS, various revisions to said Urban Growth Policy have subsequently been approved, and

WHEREAS, a revised Urban Growth Policy incorporating all of said revisions was adopted on June 5, 1979, by Resolution No. 79-566, and

WHEREAS, the Department of Planning and Community Development has recommended to the Council two new additions to the Urban Growth Policy,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby adopts the following revised Urban Growth Policy for the City of Modesto:

(a) That urban growth be directed to areas currently served with city services as long as economically reasonable. The amount of land developed each year and maintenance of an urban land inventory should also be considered.

(b) Urban development should be kept as contiguous as possible in order to avoid premature urbanization of valuable farm land, foster resident convenience and provide for economy in City services. It is the policy of the City of Modesto that residential growth and development within the Modesto Urban Area General Plan shall take place only following annexation to the City.

(c) Residential development should be encouraged in the west and southwest sections of the urban area. City-County cooperation and coordination is necessary to develop means to achieve this goal.

(d) That interim agricultural preservation of lands beyond the current sanitary service area but within the ultimate sanitary sewer service area be supported by "opposition" to Williamson Act contract referrals from the County. Such "opposition" enables the landowner to break the contract and convert his land to urban uses without penalty if through annexation city services become available to the property.

(e) That long-term agricultural preservation of lands beyond the ultimate sanitary sewer service area be encouraged by support of Williamson Act contract referrals from the County.

(f) That by the first regular City Council meeting in October, or in years in which an advisory election is to be held, by the first regular City Council meeting the following January, the City staff prepare a written review of the effects of the urban growty policy and its supportive findings such as an update each year including but not limited to:

(1) Inventory of agricultural and vacant land suitable for residential development within the current sewer service area.

(2) The relationship between this inventory and the General Plan and zoning maps.

(3) Population growth.

(4) Building trends.

(5) Adequacy of all public services and their inclusion in the Capital Improvement Program (sewer, water, fire, police, parks, transportation networks, schools, etc.)

(6) Adequacy of utilities (P.G. & E., M.I.D., P.T. & T.).

(7) Residential land prices.

(8) Consideration of potential neighborhoods to be added to the current sewer service area during the ensuing five years.

(g) That during October, or, in years, in which an advisory election is to be held, during the following January, the Public Projects Committee shall meet to review the urban growth policy and make recommendations to the City Council. The Council shall determine which, if any trunk sewer extension(s) as defined by the Modesto Citizens Advisory Growth Management Act, (Measure A) shall be scheduled for a public advisory election in November and shall select potential neighborhoods to be added

to the current sewer service area during the ensuing five years. Council review and actions shall be complete within one month following receipt of the Public Projects Committee recommendations.

(h) That any proposed sewer trunk extension(s) shall be subject to preparation of an Environmental Impact Report which shall include a General Plan Amendment, Neighborhood Zoning and Development Plan, Capital Improvement Program review, and Williamson Act contract review prior to holding an advisory election.

(i) That following the advisory election the Council shall hold a public hearing to determine which, if any, trunk sewer which has been voted upon shall be extended.

(j) That a determination to extend any trunk sewer shall be followed by Planning Commission and City Council review, via public hearing, and adoption of a General Plan and Neighborhood Zoning and Development Plan.

(k) It is a goal of the Urban Growth Policy that the city-wide average net residential density shall increase to at least 7.0 units/net acres by 1985. This density shall be monitored in the annual Urban Growth Policy Review.

1. The proposed project will interfere with vehicular safety and traffic flow in the adjacent streets and intersection.

2. Inadequate on-site parking has been provided, and

WHEREAS, the City Council, at said Council meeting, reviewed and considered the findings of the City of Modesto Environmental Assessment Committee which resulted in a negative declaration in regard to the environmental impact of the proposed project,

A RESOLUTION DENYING AN APPLICATION FOR AN AMENDMENT TO PLANNED DEVELOPMENT ZONE, P-D(150) AND OVERRULING THE RECOMMENDATION OF THE PLANNING COMMISSION, PROPERTY LOCATED ON THE NORTHWEST CORNER OF SYLVAN AVENUE AND OAKDALE ROAD. (JEFFREY TAMKIN)

WHEREAS, a verified application for an amendment to Section 10-3-9 of the Zoning Map to amend Planned Development Zone, P-D(150) was filed by Jeffrey Tamkin on June 22, 1979, to allow inclusion of a 72, 896± square foot K-Mart Department Store including an auto service center in the place of smaller shops, on property located on the northwest corner of Sylvan Avenue and Oakdale Road, and

WHEREAS, a public hearing was held on said application by the Planning Commission on July 16, 1979, in the City Council Chambers, City Hall, 801 - 11th Street, Modesto, California, and

WHEREAS, the Planning Commission also considered conditions of approval at its meeting on August 6, 1979, and

WHEREAS, thereafter the Planning Commission adopted Resolution No. 79-214 recommending to the Council an amendment to Planned Development Zone, P-D(150), to allow inclusion of a 72, 896± square foot K-Mart Department Store including an auto service center in the place of smaller shops, on property located on the northwest corner of Sylvan Avenue and Oakdale Road, as requested by the applicant, and

WHEREAS, said matter was set for a public hearing before the Council of the City of Modesto at its regular meeting place located in the Council Chambers in the City Hall, 801 11th Street, Modesto, California, on September 11, 1979, at which time evidence both oral and documentary was taken and introduced, and

WHEREAS, the City Council certifies it has received and reviewed the findings of the City of Modesto Environmental Assessment Committee which resulted in a negative declaration in regard to the environmental impact of the subject project, and

WHEREAS, after said public hearing, the Council of the City of Modesto determined that the proposed amendment to Planned Development Zone, P-D(150), to allow inclusion of a 72,896± square foot K-Mart Department Store including an auto service center in the place of smaller shops on property located on the northwest corner of Sylvan Avenue and Oakdale Road should be denied for the following reasons:

WHEREAS, if said ramp is constructed it will leave a sidewalk adjacent thereto of only thirty-eight (38") inches in width, and

WHEREAS, the Center has requested an encroachment permit to construct said ramp in the sidewalk-planting strip area of Coyada Way and a variance for the remaining sidewalk adjacent thereto to be only thirty-eight (38") inches in width, and

WHEREAS, Section 7-1.104 of the Modesto Municipal Code authorizes the granting of permits for encroachments in the sidewalk-planting strip area of streets, subject to conditions established by the Council, and

WHEREAS, the Standard Specifications of the City of Modesto for sidewalks, adopted pursuant to Section 7-1.301 of the Modesto Municipal Code, prescribe a minimum width of sixty (60") inches for sidewalks on Coyada Way, and

WHEREAS, Sections 9955 et seq. of the Health and Safety Code of the State of California and Sections 4450 et seq. of the Government Code of the State of California and standards adopted pursuant thereto prescribe minimum widths for sidewalks to assure access and usability for the physically handicapped, and

WHEREAS, said provisions provide for exceptions from the literal requirements thereof where there are practical difficulties, unnecessary hardship or extreme differences, and

WHEREAS, this Council has found and determined as follows:

(a) The ramp is necessary for the full use and enjoyment of the Center's property.

(b) There is no other reasonable and convenient place that the Center can construct or install the ramp.

(c) The ramp will not be unsightly or create a nuisance.

(d) The ramp will not unreasonably interfere with the rights of the public in the sidewalk-planting strip area and in the adjacent street.

(e) The ramp can be constructed in such a manner that it will not be a hazard to the public using the sidewalk-planting strip area or the adjacent street.

(f) The ramp can be removed at any time in the future that the permit may be revoked.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it does hereby grant an encroachment permit to the Stanislaus Center for the Physically Handicapped for the construction and maintenance of a ramp for physically handicapped persons on Coyada Way adjacent to the building occupied by said Center and located at 208 Campus Way, Modesto, California, subject to the following conditions:

(b) The Center shall defend, at its own cost and expense, any and all lawsuits that may arise out of or be connected in any way with the exercise of the construction, maintenance and use of the above described ramp and the resulting thirty-eight (38") inch wide sidewalk, a variance for which is granted by this resolution.

Such action shall include, but not be limited to, the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination, rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex or national origin.

(3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The contractor will comply with all provisions of Executive Order 11246 of 24 September 1965, and of the rules and regulations, and relevant orders of the Secretary of Labor.

(5) The contractor will furnish all information and reports required by Executive Order 11246 of September 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be cancelled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further government contractors or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of 24 September 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 1965, or by rules, regulations, or orders of the Secretary of Labor, or as otherwise provided by law.

The Sponsor agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency with the Secretary

of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The Sponsor further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of 24 September 1965 with a contractor debarred from, or who has not demonstrated eligibility for, government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or by the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the Sponsor agrees that if it fails or refuses to comply with these undertakings the administering agency may take any or all of the following actions: cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the Sponsor under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from the Sponsor; or refer the case to the Department of Justice for appropriate legal proceedings.

(b) State and local governments intending to impose affirmative action hiring and/or training requirements of federally assisted construction already subject to federal minority hiring and/or training plans established pursuant to the Order shall submit such requirements to the Director prior to their inclusion in any federally assisted construction contracts. Such state or local government requirements will be deemed applicable to federally assisted construction contracts unless the Director, or in the case of an appeal of the Director's determination, the Assistant Secretary for Employment Standards, determines that such requirements are inconsistent with the Order or incompatible with the effective implementation of the federal minority hiring and/or training plan (either voluntary or imposed) in the area. The state or local government affirmative action hiring and/or training requirements shall not be included in federally assisted construction contracts until the Director, or in the case of an appeal, the Assistant Secretary, has had an opportunity to make a determination in accordance with this paragraph. The Director shall make his determination within 60 days of his receipt of the state or local government's submission, which should include the pertinent affirmative action hiring and/or training requirements and supporting data.

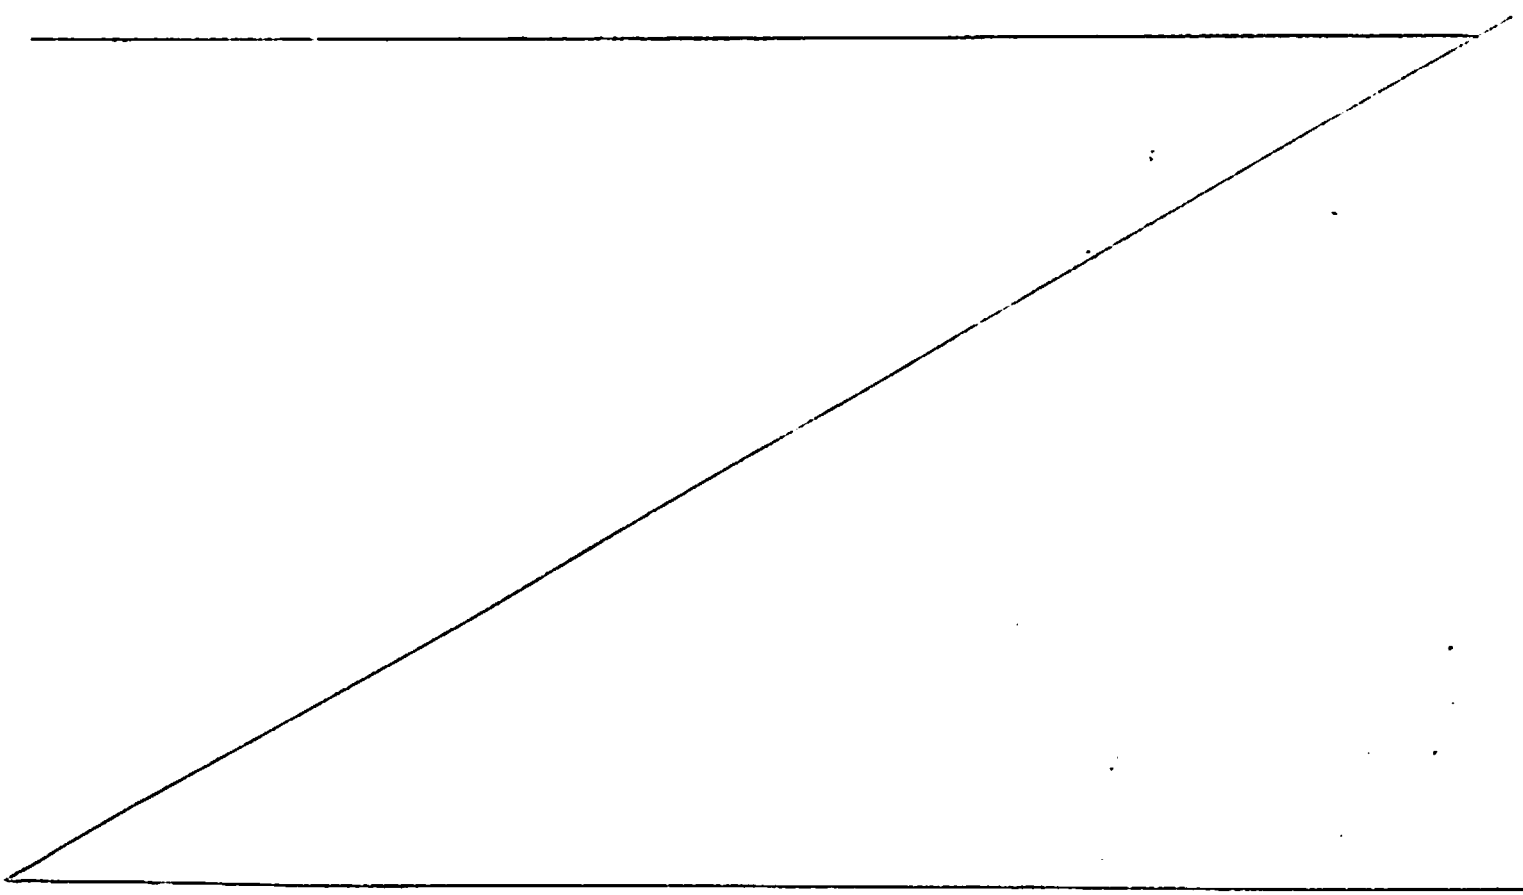
The Director may also request the state or local government to supply information and data necessary for his determination. The Director's determination shall be communicated directly to the state or local governmental body by registered mail, return receipt requested, together, in the case of an adverse determination, with a notification of its right to appeal to the Assistant Secretary. The Director's determination shall also be announced in a Federal Register notice, which shall also indicate that the state or local government, and any other persons or groups affected by the Director's determination, including construction trades contractors, labor organizations, associations or other organizations of construction trades contractors and/or labor organizations, and minority community groups, may appeal such determination to the Assistant Secretary by requesting a hearing within 21 days of the publication of the Federal Register notice. Following this appeal period, if any requests for a hearing have been filed with the Assistant Secretary, the Department of Labor shall then designate an administrative law judge who shall conduct a hearing to make proposed findings and a recommended decision to the Assistant Secretary upon the basis of the record before him. The administrative law judge shall give reasonable notice of the opportunity to participate in such hearing by registered mail, return receipt requested, to those requesting the hearing and shall also give reasonable notice of such hearing in the Federal Register to inform all other persons, organizations, and other entities affected by the Director's determination of their opportunity to participate in the hearing. Each participant shall have the right to counsel and a fair opportunity to present his case, including such cross-examination as the administrative law judge may deem appropriate in the circumstances. Within 80 days of the close of the appeal period for requesting a hearing, the Assistant Secretary shall make a final decision on the basis of the record before him, which shall consist of the record for recommended decision, the rulings and recommended decision of the administrative law judge, and the exceptions and briefs filed subsequent to the administrative law judge's decision. In determining whether state or local government affirmative action hiring and/or training requirements are inconsistent with the Order or incompatible with the effective implementation of the applicable federal minority hiring and/or training plan in the area, at least the following factors shall be considered under this subparagraph; (i) the impact of the state or local government requirements on the successful implementation of the federal plan in the area; (ii) the minority population in the

area to be covered by the state or local government plan; (iii) the minority manpower utilization in the area construction industry, on a trade-by-trade basis; (iv) the availability of minorities for employment in the area construction industry; (v) the need and availability of training programs in the area construction industry; (vi) the projected growth and attrition factors of the area construction industry in the near future; (vii) available procedures to ensure that contractors, subcontractors and others are provided with notice and a full opportunity to contest allegations of noncompliance; and (viii) assurances that the state or local government minority hiring and/or training requirements are not intended and shall not be used to discriminate against any qualified person on the basis of race, color, religion, sex or national origin. State and local governments are encouraged: to participate in the formulation and implementation of federal minority hiring and/or training plans consonant with the aforementioned criteria in areas currently without such plans; to enforce their fair employment practices laws with respect to acts of discrimination affecting federally assisted construction and to assist the administering Federal agency in monitoring the compliance of contractors and subcontractors performing on federally assisted projects. For purposes of this subparagraph. "Assistant Secretary" means the Assistant Secretary for Employment Standards or his designee.

16. The sponsor will comply with the requirements of Section 504 of the Rehabilitation Act of 1973 and 49 CFR Part 27 which provides for nondiscrimination on the basis of handicap in federally assisted programs and activities receiving or benefiting from Federal financial assistance and requires certain design standards to be implemented at airports.

17. It is understood and agreed by and between the parties hereto that this Grant Offer is made and accepted upon the basis of preliminary plans and specifications; and the parties hereby covenant and agree that within 120 days from the date of acceptance of this Grant Offer the sponsor shall furnish final plans and specifications to the FAA and that no construction work will be commenced hereunder nor will there be any advertisement for bids for accomplishment of such work until the said final plans and specifications have been approved by the FAA; and the parties do hereby further covenant and agree that any reference made in this Grant Offer or in the aforesaid Application for Federal Assistance to plans and specifications shall be considered as having reference to said final plans and specifications as so approved.

18. The Federal Government does not now plan or contemplate the construction of any structures pursuant to Paragraph 27 of Part V - Sponsor's Assurances - of the Application for Federal Assistance dated August 28, 1979, and therefore, it is understood and agreed that the sponsor is under no obligation to furnish any areas or rights without cost to the Federal Government under this Grant Agreement. However, nothing contained herein shall be construed as altering or changing the rights of the United States and/or the obligations of the sponsor under prior Grant Agreements to furnish rent-free space and/or such estates or interests in such land or rights in buildings for the activities specified in such agreements.



The Sponsor's acceptance of this Offer and ratification and adoption of the Application for Federal Assistance incorporated herein shall be evidenced by execution of this instrument by the Sponsor, as hereinafter provided, and said Offer and Acceptance shall comprise a Grant Agreement, as provided by the Airport and Airway Development Act of 1970, as amended, constituting the obligations and rights of the United States and the Sponsor with respect to the accomplishment of the Project and the operation and maintenance of the Airport. Such Grant Agreement shall become effective upon the Sponsor's acceptance of this Offer and shall remain in full force and effect throughout the useful life of the facilities developed under the Project but in any event not to exceed twenty years from the date of said acceptance, except as otherwise provided in Sponsor's Assurance No. 17, Part V of the Application for Federal Assistance.

CITY ANNEXATION QUESTIONNAIRE

1. Name of City Modesto

2. Name of Proposed Annexation Gomes Vista

3. Can the City provide complete City Services to the annexation area if the proposal is approved?

Yes

4. If the proposal is approved, are there any conditions the city would like LAFCO to impose?

Yes, due to the fact that LAFCO is considering the Claus-Parker and the Gomes Vista Annexation on the same agenda, the City of Modesto requests that LAFCO combine the two annexations and include the adjacent parcel (14-37-27) owned by HOCA Investments Inc. as the Claus-Parker Annexation.

5. Other comments the city would like to make.

A. The City of Modesto has attempted to designate all annexations by adjacent street names to facilitate locating them. The use of personal names (i.e. Gomes Vista) creates confusion. If approved as submitted, the annexation should be named Claus-Parker No.2

B. The submitted map and description are not in a form acceptable to the City of Modesto.

WHEREAS, said application was set for a public hearing before the Planning Commission on September 4, 1979, in the City Council Chambers, City Hall, 801 - 11th Street, Modesto, California, and

WHEREAS, the Planning Commission, by its Resolution No. 79-233, adopted on September 4, 1979, found and determined that rezoning of the property as requested was required by public necessity, convenience and general welfare for the following reasons:

1. The R-3 density fronting on Claus Road generally conforms to the Lakewood Neighborhood Zoning and Development Plan.

2. The R-2 zoning is an appropriate transition between the zero-lot line project to the west (P-D 204) and the R-3 on Claus,

and

WHEREAS, the Planning Commission by said Resolution No. 79-233 recommended to this Council an amendment to Section 24-3-9 of the Zoning Map to reclassify from Low Density Residential Zone, R-1, to Medium Density Residential Zone, R-2, and Medium High Density Residential Zone, R-3, the above described property, as requested by the applicant, and

WHEREAS, after said public hearing, this Council finds and determines that rezoning the portion of the above described property along Vicki Lynn Way from Single Family Residential Zone, R-1, to Medium Density Residential Zone, R-2, should be denied for the following reasons:

1. The requested R-2 zoning along Vicki Lynn Way does not conform to the Lakewood Neighborhood Zoning and Development Plan.

2. The requested R-2 zoning along Vicki Lynn Way would result in an undue high density for this portion of the Lakewood Neighborhood,

and

WHEREAS, after said public hearing, this Council finds and determines that rezoning the remainder of the above-described property from Single Family Residential Zone, R-1, to Medium Density Residential Zone, R-2, and Medium High Density Residential Zone, R-3, as recommended by the Planning Commission, is in accordance with the General Plan and will serve the public health, safety, and general welfare, and should be granted for the following reasons:

1. The R-3 density fronting on Claus Road generally conforms to the Lakewood Neighborhood Zoning and Development Plan.

2. The R-2 density along Kerry Lynn Way conforms to the Lakewood Neighborhood Zoning and Development Plan,

MODESTO CITY COUNCIL
RESOLUTION NO. 79-1170

A RESOLUTION URGING THE CREATION OF A LAKE TAHOE NATIONAL RECREATION AREA.

WHEREAS, Lake Tahoe, located in both California and Nevada, is a recreational, wilderness and scenic area of national importance, and

WHEREAS, Lake Tahoe is acclaimed as one of the world's most unique mountain lakes with characteristics similar to only one other lake in the world and attracts more visitors per year than any other recreation area of national significance in America, and

WHEREAS, over seventy-one percent of the land in the Lake Tahoe basin is held in public ownership, meaning the Lake Tahoe region belongs primarily to the people of the United States of America as a whole, and

WHEREAS, the environmental quality of Lake Tahoe has declined at an alarming rate over the past decade due to rapid and almost uncontrollable urbanization which has caused federal clean air quality standards to be violated frequently, water clarity to be reduced by sixteen percent since 1970, and over half the meadows in the basin to be converted to urban use, and

WHEREAS, the deterioration of Lake Tahoe is predicted to worsen dramatically because of the recent approval of four major gambling casino projects which will double the current population and subsequently multiply the threats to the fragile environment of Lake Tahoe, and

WHEREAS, repeated attempts have been made by state, regional and local governments to manage the competing interests at the lake in the best interests of the Tahoe basin, but all have met with dismal failure and continued irreversable harm to the area, and

WHEREAS, the inability of these levels of government to adequately protect and preserve the public's resources and investment in Lake Tahoe leaves no other choice except to ask for federal intervention in the management of the Lake Tahoe basin, and

WHEREAS, the creation of a Lake Tahoe National Recreation Area, administered by the U. S. Department of Agriculture through the U. S. Forest Service could protect Lake Tahoe by giving these agencies authority for management, planning, acquisition and enforcement of zoning and environmental standards in the basin, and

WHEREAS, the National League of Cities has been an advocate for the preservation of our nation's most precious natural resources and has sought to assure our citizens continued opportunity to experience the scenic majesty of our country's irreplaceable natural beauty and heritage,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it urges the National League of Cities to support legislation to protect Lake Tahoe from further environmental harm through the creation of a Lake Tahoe National Recreation Area.

BE IT FURTHER RESOLVED that the National League of Cities and Congress are urged to seek creative ways to fund the land acquisition necessary for creation of a Lake Tahoe National Recreation Area to preserve and protect Lake Tahoe for generations to come.

WHEREAS, the Modesto City Council, by Resolution No. 76-939 adopted on August 9, 1976, granted an unclassified use permit to Doctor's Hospital of Modesto, Inc. to allow construction of a one and four story building expansion to the existing Doctor's Hospital complex, including an additional 53 beds and an expanded parking area on property located on the north side of W. WHEREAS, an application for a conditional use permit in the H-1 Zone for a restaurant with drive-up window and a commercial/office building on the east side of McHenry Avenue south of Sheila Court was filed by Del Taco, Inc. c/o Stan Westfall on September 5, 1979, and

WHEREAS, a public hearing was held by the Board of Zoning Adjustment on September 27, 1979, and thereafter continued to October 25, 1979, in the City Council Chambers, City Hall, 801 11th Street, Modesto, California, and at said continued hearing, the Board of Zoning Adjustment by Resolution No. 889 found that an H-1 zone conditional use permit for a restaurant with drive-up window and a commercial/office building on the east side of McHenry Avenue south of Sheila Court is required by public necessity, convenience, and general welfare for the following reasons:

1. Restaurants and commercial/office buildings are permitted in the H-1 zone subject to granting a Conditional Use Permit by the Board of Zoning Adjustment.

2. The proposed development will replace old nonconforming buildings and structures with new contemporary H-1 development.

3. The design and condition of approval assure compatibility with existing and potential surrounding land uses,

and

WHEREAS, an appeal was filed by Stanley A. Westfall on behalf of Del Taco with the City Council of the City of Modesto on November 5, 1979, to the decision of the Board of Zoning Adjustment eliminating the proposed exit only driveway from its plot plan submitted for the H-1 conditional use permit for a restaurant with drive-up window and commercial/office building on the east side of McHenry Avenue south of Sheila Court in the City of Modesto, and

WHEREAS, said matter was set for public hearing before the Council at its regular meeting place located in the Council Chambers in the City Hall, 801 - 11th Street, Modesto, California, at 4:00 o'clock p.m. on December 4, 1979, at which time evidence, both oral and documentary, was taken and introduced,

1. The proposed exit only driveway is too close to the driveway which exists on adjacent property to the north.

2. City policy is to keep the number of driveways to a minimum on McHenry Avenue.

BE IT FURTHER RESOLVED that the decision of the Board of Zoning Adjustment to eliminate the exit only driveway from the H-1 conditional use permit granted for a restaurant with drive-up window and a commercial/office building on the east side of McHenry Avenue south of Sheila Court in the City of Modesto is hereby affirmed.

MODESTO CITY COUNCIL
RESOLUTION NO. 79- 1270

A RESOLUTION ORDERING AN ORDINANCE PETITIONED FOR BY AN INITIATIVE PETITION BE SUBMITTED TO THE VOTERS AT THE GENERAL MUNICIPAL ELECTION TO BE HELD IN THE CITY OF MODESTO ON MARCH 3, 1981.

WHEREAS, on November 9, 1979, an initiative petition was filed with the City Clerk of the City of Modesto requesting that a proposed ordinance entitled "AN ORDINANCE TO BAR THE CITY FROM ACQUIRING ADDITIONAL LAND FOR PROPOSED DRY CREEK GOLF COURSE, AND REQUIRING THE CITY TO SELL BLUFF LAND PREVIOUSLY ACQUIRED FOR SAID GOLF COURSE" be passed without alteration by this Council or be submitted to a vote of the people at the next general election for which the initiative qualifies, and

WHEREAS, the City Clerk of the City of Modesto has examined said initiative petition and has determined that said petition is signed by not less than ten (10%) percent of the voters of the City according to the County Clerk's last official report of registration to the Secretary of State, and

WHEREAS, the City Clerk has certified, by a certificate dated November 30, 1979, the results of said examination to this Council at the regular meeting thereof on December 4, 1979, and

WHEREAS, the next general election of the City of Modesto will be the General Municipal Election to be held on March 3, 1981, and

WHEREAS, Section 4011 of the Elections Code of the State of California requires this Council to either pass said ordinance without change or submit said ordinance to a vote of the voters of the City of Modesto at the General Municipal Election to be held on March 3, 1981, and

WHEREAS, this Council has not passed said ordinance without change,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. The Council of the City of Modesto does hereby submit to the qualified electors of the City of Modesto at the General Municipal Election to be held in said City of Modesto on March 3, 1981, said proposed ordinance, which reads as follows:

"AN ORDINANCE TO BAR THE CITY FROM ACQUIRING ADDITIONAL LAND FOR PROPOSED DRY CREEK GOLF COURSE, AND REQUIRING THE CITY TO SELL BLUFF LAND PREVIOUSLY ACQUIRED FOR SAID GOLF COURSE.

BE IT ORDAINED BY THE PEOPLE OF THE CITY OF MODESTO:

SECTION 1. Legislative Findings. The people of the City of Modesto hereby find and declare as follows:

(a) The City has previously acquired bluff land to the immediate south of Dry Creek and generally between North Riverside Drive and McClure Road, and proposes to expend more funds to acquire additional bluff land in the same area to build and operate an 18-hole championship golf course, all of which will consume in excess of 100 acres.

(b) The area designated for the proposed golf course is within the City's current sewer service area which contains the most expensive undeveloped land in the Modesto area.

(c) Excessive use of sewerable acreage in Modesto's current sewer service urban area for extremely low-density or open space purposes greatly increases urban pressure on adjoining farm land, all of which is inconsistent with the City's land-use policy and the intent of the recently-adopted Modesto Citizens' Advisory Growth Management Act. (Measure A).

(d) Apart from the proposed golf course project, the City now owns in excess of 370 acres of conventional park and recreational facilities, much of which requires further development, owns and operates an 18-hole championship golf course together with a regulation sized 9-hole golf course, and has acquired land and is in the process of acquiring additional land for the development of the 279-acre Dry Creek Park which will provide for multiple recreational uses.

(e) To fully develop the existing 370-acre conventional park facilities and Dry Creek Park will require the expenditure of in excess of $8,000,000.

(f) The cost of operating, supervising and maintaining the existing City-owned Dryden Golf Course facilities significantly exceeds income generated therefrom thereby requiring the use of other monies to insure continued availability of such facilities.

(g) The cost to complete the proposed Dry Creek Golf Course Project has increased dramatically over all original projections.

(h) In addition to the City-owned and operated Dryden Golf Course facilities, there exist several other golfing facilities available for public use, either in or within a reasonable distance from the metropolitan Modesto area.

(i) By abandoning the bluff land as a site for the proposed golf course the City will save further land acquisition and development costs exceeding $2,500,000, will avoid long term use of monies to subsidize its operation, and can recover a substantial amount of funding by selling off all or a portion of the land previously acquired for the golf course.

(j) The City may reprogram the monies saved and recovered in a manner it deems appropriate to meet more immediate, broader-based citizen needs.

(k) Development of a second championship golf course facility in the current sewer service area on excessively expensive land is not advisable or appropriate in view of the passage of Proposition 13 and financial uncertainty created by other similar proposed legislation.

(l) To the extent that the area for the proposed golf course project is utilized for more efficient, higher density urban purposes, the abandonment of said golf course will mitigate urban sprawl, unnecessary urbanization of farm land and costs to taxpayers caused thereby.

SECTION 2. Implementation.

(a) The City shall, immediately upon this ordinance's effective date, proceed to eliminate the proposed golf course from Phase II of the Dry Creek Park Plan and City's General Plan in the manner deemed most appropriate and expeditious by said City.

(b) The City shall abandon any further action to acquire land for said golf course project.

(c) To the maximum extent legally permissible, the City shall cause to be sold any bluff land heretofore acquired for the proposed golf course portion of the Dry Creek Park, Phase II.

(d) The City shall reprogram monies saved and recovered from the abandonment of said golf course project in a manner consistent with the best interests of the citizens of the City of Modesto.

SECTION 3. Inconsistent Legislation Repealed. All ordinances, resolutions, regulations and legislation authorizing the acquisition and development of bluff land for purposes of the development of Dry Creek Park, Phase II Golf Course Project are hereby repealed.

to the extent that they conflict with Section 2.

SECTION 4. Severability. If any section, sentence, clause or phrase of this ordinance or any part thereof is held invalid, such invalidity shall not affect the remaining portions of this ordinance and to this end the provisions of the ordinance are declared to be severable."

SECTION 2. The form of the measure to be used on the ballots and voting machines, including the title and designation of the measure, shall be as follows:

Measure A City of Modesto Initiative Ordinance	Shall the ordinance entitled "An Ordinance to Bar the City from Acquiring Additional Land for Proposed Dry Creek Golf Course, and Requiring the City to Sell Bluff Land Previously Acquired for Said Golf Course" be adopted?	YES NO

SECTION 3. (a) On the ballot and voting machines to be used at said General Municipal Election, in addition to all other matters required by law to be printed thereon, shall appear the measure set forth in Section 2 of this resolution.

(b) Where ballots are used, to vote in favor of said proposed ordinance, a voter shall stamp a cross (X) in the blank space opposite the word "YES" on the ballot to the right of said measure, and to vote against said proposed ordinance, a voter shall stamp a cross (X) in the blank space opposite the word "NO" on the ballot to the right of said measure.

Where voting machines are used, said voting machines shall be so arranged that to vote in favor of said proposed ordinance a voter shall pull down a voting pointer over the word "YES" near said measure appearing on cardboard, paper or other material placed on the front of the machine, and pull an operating lever, and to vote against said proposed ordinance, a voter shall pull down a voting pointer over the word "NO" near said measure appearing on cardboard, paper or other material placed on the front of the machine, and pull an operating lever.

The votes cast for and against said measure shall be counted separate and apart from all other measures to be submitted at said General Municipal Election, and if a majority of the qualified voters voting on said measure vote in favor thereof, said proposed ordinance shall become a valid and binding ordinance of the City of Modesto.

SECTION 4. The City Clerk of the City of Modesto is hereby authorized and directed to cause the proposed ordinance to be printed and to cause a copy thereof to be mailed with a sample ballot to each of the qualified electors of said City, at least ten (10) days prior to said General Municipal Election.

MODESTO CITY COUNCIL
RESOLUTION NO. 79-1275

A RESOLUTION AMENDING SECTIONS 1 AND 2 OF RESOLUTION NO. 78-856 ENTITLED "A RESOLUTION APPROVING A DEVELOPMENT PLAN FOR PLANNED DEVELOPMENT ZONE, P-D (196)."

WHEREAS, the City Council, by Ordinance No. 1763-C. S. which was introduced on August 14, 1978, finally adopted on August 21, 1978, and which became effective on September 20, 1978, amended Section 21-3-9 of the Zoning Map to reclassify from Medium Density Residential Zone, R-2, to Planned Development Zone, P-D(196), property located on the north side of East Coolidge Avenue, west of Melrose Avenue in the City of Modesto, to allow a 30-unit, one-story single-family residential development with specific off-street parking requirements, and

WHEREAS, City Council Resolution No. 78-856 which was adopted on August 14, 1978, approved a development plan for P-D(196) and contained the conditions of approval thereof, and

WHEREAS, a verified application for an amendment to Planned Development Zone, P-D(196) was filed by the Cummins-Goatley Development Company on October 5, 1979, to amend Planned Development Zone, P-D(196) to allow a 16-unit, one-story apartment complex comprised of 8 duplexes on the property located on the north side of East Coolidge Avenue west of Melrose Avenue in the City of Modesto, and

WHEREAS, said application was set for a public hearing before the Planning Commission on November 5, 1979, in the City Council Chambers, City Hall, 801 11th Street, Modesto, California, and

WHEREAS, at said hearing, after hearing evidence both oral and documentary, the Planning Commission, by its Resolution No. 79-282, found and determined that an amendment to P-D(196) to allow a 16-unit, one-story apartment complex comprised of 8 duplexes instead of the 30-unit one-story single-family residential development

with specific off-street parking requirements is required by public necessity, convenience, and general welfare for the following reasons:

1. The presently approved P-D plans allow a 30 unit R-2 density and the proposed 16 unit at a low 5.9 dwellings per acre would certainly not overload the site.

2. The conditions of approval include entire peripheral pilaster fencing and the plot plan contains adequate room for off-street parking and open space,

and

WHEREAS, said matter was set for a public hearing before the City Council at its regular meeting place in the Council Chambers in the City Hall, 801 11th Street, Modesto, California, on December 11, 1979, and

WHEREAS, after hearing evidence, both oral and documentary, the Council finds and determines that the requested amendment to permit a 16 unit, one-story apartment complex comprised of 8 duplexes is required by public necessity, convenience and general welfare for the reasons set forth in Planning Commission Resolution No. 79-282 and quoted above,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that Sections 1 and 2 of Modesto City Council Resolution No. 78-856 entitled "A Resolution Approving a Development Plan for Planned Development Zone, P-D (196)" are hereby amended to read as follows:

CITY OF MODESTO

MEMORANDUM

December 6, 1979

TO: Modesto City Council

FROM: City Council-Supervisors Liaison Committee
Members Mensinger and Muratore

SUBJECT: Policy for Extension of Sewer Service into Unincorporated Areas

The City Council in July of 1974 adopted a policy regarding extension of sewer service into unincorporated areas. A copy of that resolution and policy statement is attached.

While the policy statement concerning extension of sewer service into unincorporated areas provided guidance on the handling of sewer extensions over the past five years, interpretation of the intent of the policy has become clouded. The policy statement has been redrafted into a format which we believe continues the policy established in July, 1974 but is more easily read and understood. Also attached as an exhibit to the policy statement is a drawing which delineates the various service areas described in the policy statement. It is recommended that the Council consider adoption of the redrafted policy statement regarding extension of sewer service into unincorporated areas.

Of particular importance in redrafting the policy statement is paragraph 5b dealing with sewer service to developed properties in the unincorporated area. As the policy is established, developed areas would need to annex or agree to annex to the City before sewer service would be extended to the area. This is a policy which was established in 1974 and would be reaffirmed by the Council in the adoption of this redrafted policy statement.

The significance of this action impacts two developed areas in the County that are being considered for sewer improvements by the County through HCD Block Grant Funds. The two areas are the Butte-Glenn area in South Modesto and the Airport District. In both cases, the residents in the areas have reservations concerning annexation. The County staff and members of the County Board of Supervisors feel that the two areas are in need of sewer service and that the City could help allay the concerns of the residents by addressing two specific issues. One issue is the mandatory requirement to connect to the sewerage system within two years. The other issue is the fear of City Council mandated improvement districts for curb and gutters, sidewalks, and storm drainage which would place added and unwanted cost burdens on their properties.

The City staff has agreed that extending the time limit from two to five years for mandatory connection to the sewerage system is reasonable and workable. We recommend the staff be directed to prepare appropriate Code amendments to implement such a change.

The second issue concerning City Council mandated improvement districts can be addressed by formalizing an existing administrative policy of the City. The policy provides:

EXHIBIT "A"

1. A petition bearing the names of a substantial number of property owners in area requesting specific public improvements should be submitted to the City Council.

2. If the City Council determines that the petition represents significant interest by property owners in an area for particular public improvements to insure success of an improvement district, the staff will be directed to proceed with the formation of an improvement district.

It is recommended the above policy statement be adopted by the City Council.

The policy requiring annexation is a good one and should be maintained. Our wastewater treatment capacity, limited as it is, should be reserved to meet existing commitments and provide sewer service to areas which do annex to the City.

CITY OF MODESTO SANITARY SEWERAGE POLICY REGARDING

EXTENSION OF SERVICE INTO UNINCORPORATED AREAS

The Modesto Urban Area General Plan, Land Use Element, has as an urban growth objective to: "avoid the wasteful and inefficient sprawl or urban uses into the prime agricultural land surrounding the urban area." This objective is strengthened by a County General Plan, Land Use Element which features an Urban-Transition designation on Modesto's fringe with the intent that: "urban development should be permitted to occur only upon annexation to an adjacent city."

The Policy

It is the policy of the City of Modesto that urban development occur within the City limits by City building permit rather than on the unincorporated fringe. In those cases where annexation is not imminent, such development should be considered premature and approved only in response to unique and overriding circumstances. Even then such approval should be made only with guarantees of ultimate provision of public sanitary sewerage facilities to the development.

Implementation

1. Property within the Municipal Sewer District

The Municipal Sewer District is composed of the incorporated area of the City plus the industrial zoned property in the unincorporated fringe area of the City which includes the Beard Industrial District (East Modesto), Tidewater Southern Indusrial District and Janopaul District (South Modesto) and FMC District (West Modesto).

Sewer service to properties within the Municipal Sewer District is a matter of right subject to available treatment capacity and the payment of appropriate fees and charges.

2. Property within the Urban Reserve Area as shown on the General Plan

Properties in the Urban Reserve are outside the current sewer service area except a portion of the College West Neighborhood. Sewer service to these properties and said portion of the College West Neighborhood will have to await an amendment of the General Plan converting the Urban Reserve designation to Urban Land Uses. An advisory vote of the voters in the City, is also required before sewer service can be extended to properties converted from Urban Reserve to Urban Land Uses.

3. Property within the boundary or sphere of influence of another public agency

The Empire Sanitary District is totally within the Modesto sewer service area. The District is responsible for sewer service within the District boundaries. Sewage generated within the District boundaries is handled by the City of Modesto per agreement with the district.

EXHIBIT "A"

The area between the Tuolumne River and Hatch Road from South Ninth Street east to Mitchell Road is within the City of Ceres sphere of influence. Portions of the area have been annexed to ceres. Sewer service within the area is the responsibility of Ceres. Sewage generated within the area is handled by the City of Modesto per agreement with Ceres.

4. Property that is undeveloped in the unincorporated area and within the current sewer service area.

Undeveloped property in the unincorporated areas adjacent to the City should annex to the City prior to development. Only in special situations where annexation is not possible will sewer service be approved and only then on the basis of an agreement to annex when requested to do so by the City.

5. Property that is developed in the unincorporated area and within the currest sewer service area.

a) Sewer Laterals Exist

Developed properties in the unincorporated areas adjacent to the City where sewer laterals exist may connect to the sewerage system by entering into a sewer service agreement with the City. The agreement provides for properties to annex to the City upon request.

b) Sewer Laterals Do Not Exist

Developed properties in the unincorporated areas adjacent to the City where sewer laterals do not exist to serve the property may request the creation of an appropriately-sized sewer improvement district which reasonably assures an equitable distribution of sewer collection system costs in the area. Annexation is to accompany this process. If annexation is not possible, agreement to annex to the City of Modesto is required.

RESOLUTION NO. 74-563

A RESOLUTION APPROVING POLICY FOR SANITARY SEWER AND WATER SERVICE FOR UNINCORPORATED AREAS

WHEREAS, the Planning Commission of the City of Modesto, by Resolution No. 74-54 adopted April 2, 1974, has recommended that the City Council adopt as City policy, the "Proposed Policy for Sanitary Sewer and Water Service in Unincorporated Areas" dated March, 1974, and

WHEREAS, the Deputy City Manager, in a memorandum dated July 2, 1974, entitled "Proposed Policy for Sanitary Sewer and Water Service in Unincorporated Areas," has recommended that the third paragraph of Section 3(d) of the above-mentioned proposed policy be amended for purpose of clarification.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the document marked Exhibit "A" attached hereto and made a part hereof, entitled "Proposed Policy for Sanitary Sewer and Water Service in Unincorporated Areas, Modesto Planning Department, March, 1974," as amended, is hereby adopted as the City of Modesto's policy for Sanitary Sewer and Water Service for Unincorporated areas.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8th day of July, 1974, by Councilman Dunlap, who moved its adoption, which motion being duly seconded by Councilman Mensinger, was upon roll call carried and the resolution adopted by the following vote:

CITY OF MODESTO SANITARY SEWER AND WATER POLICY REGARDING EXTENSION OF SERVICE INTO UNINCORPORATED AREAS

Recommended for adoption by the Planning Commission, April 2, 1974
Adopted by City Council, July 8, 1974

The Modesto Urban Area General Plan, Land Use Element, has as an urban growth objective to: "avoid the wasteful and inefficient sprawl of urban uses into the prime agricultural land surrounding the urban area". This objective is strengthened by a County General Plan, Land Use Element which features an Urban-Transition designation on Modesto's fringe with the intent that: "urban development should be permitted to occur only upon annexation to an adjacent city".

The Policy

It is the policy of the City of Modesto for urban development to occur within the City limits by City building permit rather than on the unincorporated fringe. In those cases where annexation is not imminent, such development should be considered premature and approved only in response to unique and overriding circumstances and then only with guarantees of ultimate provision of public water and sanitary sewer facilities.

Implementation

1. Properties in the unincorporated fringe area that can be annexed to the City of Modesto (excepting industrial categories noted below)

Property owners and developers wishing to obtain City sanitary sewer and City water service and develop their properties are encouraged to annex their parcels of land to the City and the Modesto Municipal Sewer District No. 1 and then apply for the appropriate zoning necessary to permit the project. An equally acceptable alternative is for the property owner or developer to submit a prezoning application to the City for processing, with annexation following the approval of the prezoning.

Owners of existing County Planned Development zoned properties are likewise encouraged to apply for prezoning and annexation or annexation and rezoning in order to obtain sanitary sewer and/or water service. It is City policy that County Planned Development zoned properties shall, immediately upon annexation to the City, be automatically given a City low density residential, R-1 Zone, classification unless prezoned to another zoning designation prior to annexation. Other County zoning shall convert to City zoning upon annexation based upon the conversion table contained in Section 10-2.1505.1 of the Municipal Code, a copy at end of this policy.

2. Properties in the unincorporated fringe area that are already in the Modesto Municipal Sewer District No. 1

This category consists generally of industrial tracts: Beard Industrial District (East Modesto), Tidewater Southern Industrial District and Janopaul District (South Modesto) and a Northwest Modesto District roughly bounded by Carpenter, Blue Gum, 9th and Kansas.

Developments within these tracts are permitted sanitary sewer as a matter of right as long as they pay the usual fees and hookup to existing subtrunk sewers.

The policy in these areas is to insure that all urban developments are hooked up to public sanitary sewer and public water. To whatever extent possible, encouragement of annexation to the City should be made.

EXHIBIT "A"

EXHIBIT "A"

This category consists of four distinct types:

a. Subdivisions or other large acreage urban developments that can be served with public sanitary sewer but that are not close enough to city limits to annex.

b. Subdivisions or other large acreage urban development or small lot urban development that can be served with public sanitary sewer but that are within the Ceres sphere of influence.

c. Developed single-family residences or developed non-residential uses in developed unincorporated areas wherein a larger inhabited annexation is necessary (such as a single-family residence in Sherwood Forest or a single-family residence in an existing south or west Modesto subdivision that was initially developed on septic tank).

d. Subdivision or other large acreage development (such as a mobilehome park) south of the Tuolumne River which may or may not be adjacent to the existing city limits.

The first type (subdivisions serviceable by sewer but not close enough to city limits to annex) should await that time when lands can be annexed as the County's urban-transition designation on the General Plan requires. If the County and City deem development should proceed, the development should meet City standards and be served by City water and sewer with individual lot agreements to annex upon the request of the City. Urban development in the unincorporated area, however, creates urban service responsibilities that the County would prefer to avoid if possible.

The second type (developments within the Ceres sphere of influence) are similar to the first type except that Modesto should attempt to make certain that the property annexes to the City of Ceres so that urban development does not occur within the County. By working with Ceres, utility services could be conditioned on Ceres land use standards. The area in this category extends from Herndon Road easterly, Hatch Road northerly, at present.

The third type (developed, individual lots) should be encouraged to hook onto public water and sewer, subject to agreements to annex upon request of the City. Water and sewer service would be provided only where water distribution lines and sewer laterals exist. Annexation will have to await the time when a majority in a given annexation proposal appear to be in favor of annexation.

The fourth type (subdivision south of the Tuolumne River and in the County) would be inconsistent with the County's General Plan. City of Modesto policy on lands south of the Tuolumne River has been to limit annexation to non-residential forms of urban development requiring few municipal services and to advise those wishing to add residential developments to the City to gain support from a broad enough area to justify the separate set of Municipal services needed - specifically, a branch fire station. Development to City standards, public sanitary sewer and water service, and annexation agreements should accompany any utility extensions or service hookups.

MODESTO MUNICIPAL CODE EXERPT:
SEC. 10-2.1505.1 CLASSIFICATION OF ANNEXED TERRITORY.

(a) All territory annexed to the City which has not been prezoned pursuant to Section 10-2.1505 shall automatically be classified with the City's zone classification most comparable to the County's zone classification held immediately prior to its annexation to the City as shown on the following conversion table, except as provided in subsections (b) and (c) hereof.

(b) Any territory annexed to the City which in the County was unclassified or in a zoning classification that does not appear in the table specified in subsection (a) above, shall be classified as R-1, Low Density Residential Zone.

(c) The application of County zoning in accordance with the provisions of subsections (a) and (b) of this section shall not prejudice the right of the Council or the Planning Commission to initiate rezoning of any land within the City at a date subsequent to annexation in accordance with the procedures set forth in Articles 21 and 22 of this chapter.

MODESTO CITY COUNCIL
RESOLUTION NO. 79-1294

A RESOLUTION APPROVING A DEVELOPMENT PLAN FOR PLANNED DEVELOPMENT ZONE, P-D(250).

WHEREAS, a verified application for an amendment to Section 17-3-9 of the Zoning Map was filed by Lapata International, Ltd. on May 21, 1979, to rezone from Low Density Residential Zone, R-1, to Planned Development Zone, P-D(236) to allow a 10-unit, 2-story residential condominium, property located on the east side of Sherwood Avenue, south of Bowen Avenue, which is hereinafter described, and

WHEREAS, on August 14, 1979, by Resolution No. 79-846, the City Council denied the requested rezoning for the following reasons:

1. There is inadequate visitor off-street parking.

2. The density is too high and is not compatible with the surrounding Low Density Residential Zone, R-1, area,

and

WHEREAS, on August 14, 1979, by Resolution No. 79-846, the City Council, in accordance with the provisions of Section 10-2.2103 of the Modesto Municipal Code, determined that it was appropriate to waive the one year limitation for Lapata International, Ltd. to submit a new application to the Planning Commission for an amendment to Section 17-3-9 of the Zoning Map to reclassify the hereinafter described property, and

WHEREAS, thereafter, a verified reapplication for an amendment to Section 17-3-9 of the Zoning Map was filed by Lapata International, Ltd. on August 28, 1979, to reclassify from Low Density Residential Zone, R-1, to Planned Development Zone, P-D(250) to allow a 10-unit, two-story condominium with a slightly revised parking layout, the following described property:

County of Stanislaus, State of California: That portion of Lot 5 of the FRESNO TRACT, as per map filed March 14, 1903, in Volume 1 of Maps, Page 76, and as said Lot is shown on the Map of Resurvey of Lot 5 of FRESNO TRACT, filed on May 19, 1941, in Volume 3 of Surveys, Page 26, described as follows, to-wit:

COMMENCING at the Northwest corner of said Lot 5 of FRESNO TRACT and running along the West line of said Lot 5 of FRESNO TRACT, South 0° 48' East 143.46 feet to the point of beginning of this description; thence running along the West line of said Lot 5 of FRESNO TRACT, South 0° 48' East 123.47 feet to a point; thence North 89° 27' East 398.03 feet to a point in the centerline of irrigation ditch, thence along the centerline of said irrigation ditch, North 1° 28' West, 117.53 feet to a point; thence running in a Westerly direction in a straight line from said last named point to the point of beginning,

and

WHEREAS, said reapplication was set for a public hearing by the Planning Commission on October 1, 1979, and thereafter continued to November 5, 1979, in the City Council Chambers, City Hall, 801 11th Street, Modesto, California, at which hearing evidence, both oral and documentary, was received and considered, and

WHEREAS, on November 5, 1979, the Planning Commission considered a revised plan for a 9-unit condominium which plan also significantly increased the parking places available to residents and guests, and it was found and determined by the Planning Commission that rezoning of the property as requested is required by public necessity, convenience and general welfare for the following reasons:

1. The proposed P-D Zone for 9 condominium units will allow a residential development of a density that is consonant with the approved density standards for single-family residential areas as specified in the General Plan.

2. The proposed P-D plan, as revised, will allow a varied housing type while maintaining a compatible relationship with the surrounding residential area.

3. The revised plan for 9 units has reduced the density by 10% by deleting a unit from the north side of the site which also cuts down on the massiveness of this exposure, a previous criticism of the plan.

4. The parking ratio exceeds 3 spaces per unit and the plan practically can accommodate more than 4 cars per unit offstreet,

and

WHEREAS, after a public hearing held on December 18, 1979, in the City Council Chambers, City Hall, 801 11th Street, Modesto, California, the Council found and determined that the reapplication of Lapata International, Ltd. for a Planned Development Zone should be granted as consonant with public necessity, convenience and general welfare for the reasons set forth in Planning Commission Resolution No. 79-275 and quoted above, and

WHEREAS, the Council has introduced Ordinance No. 1903 -C. S. on the 18th day of December, 1979, reclassifying the above-described property from Low Density Residential Zone, R-1, to Planned Development Zone, P-D(250),

VIII. PROPONENTS' STATEMENT

A. State the reason(s) why the proponent(s) feel the annexation should be approved. (Note: this statement or a synopsis of it, will be included in the written report which is submitted to LAFCO.)

We feel this is the best possible use for this property and are presently under construction with our own company's new headquarters building on this site. (photos are attached)

We, further are convinced that a development of this type will precipitate orderly development of the surrounding area. The results will benefit the community in the form of more permanent jobs, tax revenues, as well as rehabilitation of some less desirable facilities of varying kinds in the general area.

The esthetic and environmental quality of this area will be greatly improved as a direct result of this development.

Our conceptual programs call for stringent and orderly control of all visual phases of this project. This will effect the maximum benefit both to ourselves, as well as the community as a whole.

Sincerely,

Gerrit Vander Pol

EXHIBIT B

IX. ENVIRONMENTAL ASSESSMENT

[All proposals submitted to LAFCO are subject to the provisions of the California Environmental Quality Act of 1970. This law, which is complex, basically requires LAFCO to assess the environmental impact of the annexation proposals which are submitted to it. The first step in the assessment process is the completion of an Initial Study. This is the responsibility of the applicant. The questions set forth below, and elsewhere in the application, constitute the Initial Study.

The Initial Study is reviewed by the Stanislaus County Environmental Review Committee, which has to determine whether an Environmental Impact Report (EIR) will have to be prepared on the project. If an EIR is required, LAFCO's consideration of the annexation proposal could be delayed for approximately 60 days. Therefore, it is essential that the Initial Study be carefully prepared. Inaccurate or superficial responses to the following questions could result in the refusal of the Executive Officer to accept the application for annexation.

In some cases, the city to which annexation is proposed--not LAFCO--is responsible for conducting the environmental assessment. One such case is when the city has prezoned the land involved in the annexation. If the city is the "lead agency," the applicant need not answer the following questions. It is recommended that the applicant contact the subject city or the LAFCO assistant executive officer to determine whether LAFCO or the city is the "lead agency."]

A. Please answer the following questions concerning the proposed annexation's possible effects.

Could the project--	Yes	No	If yes, discuss degree of effect.
1. affect climate?		X	
2. affect local or regional air quality?		X	
3. have substantial effects on, or be affected by, ambient noise levels?		X	
4. remove prime soils?		X	
5. remove land from agricultural use?		X	
6. increase erosion or cause siltation?		X

VIII. PROPONENTS' STATEMENT

A. State the reason(s) why the proponent(s) feel the annexation should be approved. (Note: this statement or a synopsis of it, will be included in the written report which is submitted to LAFCO.)

The described parcel is now adjacent to the City of Modesto and there are residences in the immediate area.

The parcel of land has been dormant for years and at this time being used as a short cut for trespassers and occasional dumping of trash and litter.

We intend to improve the area with housing for lower and middle income families.

IX. ENVIRONMENTAL ASSESSMENT

[All proposals submitted to LAFCO are subject to the provisions of the California Environmental Quality Act of 1970. This law, which is complex, basically requires LAFCO to assess the environmental impact of the annexation proposals which are submitted to it. The first step in the assessment process is the completion of an Initial Study. This is the responsibility of the applicant. The questions set forth below, and elsewhere in the application, constitute the Initial Study.

The Initial Study is reviewed by the Stanislaus County Environmental Review Committee, which has to determine whether an Environmental Impact Report (EIR) will have to be prepared on the project. If an EIR is required, LAFCO's consideration of the annexation proposal could be delayed for approximately 60 days. Therefore, it is essential that the Initial Study be carefully prepared. Inaccurate or superficial responses to the following questions could result in the refusal of the Executive Officer to accept the application for annexation.

In some cases, the city to which annexation is proposed--not LAFCO--is responsible for conducting the environmental assessment. One such case is when the city has prezoned the land involved in the annexation. If the city is the "lead agency," the applicant need not answer the following questions. It is recommended that the applicant contact the subject city or the LAFCO assistant executive officer to determine whether LAFCO or the city is the "lead agency."]

A. Please answer the following questions concerning the proposed annexation's possible effects.

Could the project--	Yes	No	If yes, discuss degree of effect.
1. affect climate?		X	
2. affect local or regional air quality?		X	
3. have substantial effects on, or be affected by, ambient noise levels?		X	
4. remove prime soils?		X	
5. remove land from agricultural use?		X	
6. increase erosion or cause siltation?		X
