MODESTO CITY COUNCIL  
RESOLUTION NO. 75-26

A RESOLUTION OVERRULING THE RECOMMENDATION OF THE PLANNING COMMISSION TO AMEND SECTIONS 31-3-9 AND 6-4-9 OF THE ZONING MAP OF THE CITY OF MODESTO TO PREZONE TO R-3, A PORTION OF THE PROPERTIES LOCATED IN THE PARADISE ROAD AREA BETWEEN ELLEN AVENUE AND VERNON AVENUE. (PLANNING COMMISSION INITIATED)

WHEREAS, on October 1, 1974, by Resolution No. 74-167, the Planning Commission initiated proceedings to amend Sections 31-3-9 and 6-4-9 of the Zoning Map to prezone to Medium High Density Residential Zone, R-3, properties located in the Paradise Road area between Ellen Avenue and Vernon Avenue, as shown on the map titled "Paradise Road Area Zoning Study Map, October 1, 1974", which map is on file in the office of the Planning Director, and

WHEREAS, a public hearing was held by the Planning Commission on November 19, 1974, in the City Council Chambers, City Hall, 801 - 11th Street, Modesto, California, at which time evidence, both oral and documentary was received and considered, and

WHEREAS, after said public hearing, the Planning Commission, by its Resolution No. 74-195, found and determined that rezoning to Medium High Density Residential Zone, R-3, of the entire Paradise Road Zoning Study Area, as initiated by the Planning Commission in its Resolution No. 74-167, is not required by public necessity, convenience, and general welfare for the following reasons:

1. There are certain groups of properties located in the Paradise Road Zoning Study Area which already contain substantial commercial developments.

2. The retention of these commercial areas meets an existing need for commercial services in this general area.

and

WHEREAS, after said public hearing, the Planning Commission, by its Resolution No. 74-195, further found and determined that rezoning to Medium High Density Residential Zone, R-3, of a portion of the properties located in the Paradise Road area between Ellen Avenue and Vernon Avenue is required by public necessity, convenience, and general welfare for the following reasons:

1. The recommended rezoning represents positive reaction to a statewide planning policy that zoning should conform to an adopted comprehensive general plan.

2. The recommended rezoning adds multiple-family residential along a major street and substantially breaks up a commercially zoned but not yet developed strip of more than one mile along Paradise Road.

and

WHEREAS, the Planning Commission, by its Resolution No. 74-195, recommended to the City Council rezoning to Medium High Density Residential Zone, R-3, of those areas shown on the map titled "Paradise Road Area Proposed Rezoning, November 19, 1974", a copy of which is attached hereto, and

WHEREAS, a public hearing was held by the Council of the City of Modesto on January 13, 1975, on said Planning Commission recommended rezoning, and after hearing evidence both oral and documentary, the City Council found and determined that the proposed rezoning should be denied for the following reasons:

1. R-2, Medium Density Residential rezoning would be more appropriate than R-3, Medium High Density Residential rezoning along Paradise Road because R-3 zoning could result in an undue concentration of higher density apartments.

2. R-1, Low Density Residential rezoning would be more appropriate than R-3 rezoning on the triangular parcel at the southeast corner of Waverly Drive and Vernon Avenue since it is amidst a single family residential area.

3. C-1, Neighborhood Commercial (no rezoning) is more appropriate than R-3 rezoning on the parcel at the northeast corner of Paradise Road and Vernon Avenue since R-3 rezoning would split an existing parcel with a zone boundary line.

and

WHEREAS, the City Council certifies that at said Council meeting it reviewed and considered the findings of the City of Modesto Environmental Assessment Committee which resulted in a negative declaration in regard to the environmental impact of the subject project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the proposed rezoning, as recommended by the Planning Commission in its Resolution No. 74-195, to rezone to Medium High Density Residential Zone, R-3, a portion of the properties located in the Paradise Road area between Ellen Avenue and Vernon Avenue, as shown on the map titled "Paradise Road Area Proposed Rezoning, November 19, 1974", be denied for the reasons set forth above.

BE IT FURTHER RESOLVED that said rezoning be referred back to the Planning Commission for further study and consideration of rezoning all of said properties, except the two small triangular properties which front on Vernon Avenue just south of Waverly Drive, to Medium Density Residential Zone, R-2, and rezoning of the one small triangular property located at the southeast corner of Waverly Drive and Vernon Avenue, to Low Density Residential Zone, R-1.

BE IT FURTHER RESOLVED that the Director of Planning of the City of Modesto is hereby directed to file or cause to be filed with the Stanislaus County Clerk a Notice of Determination in regard to the environmental impact of the subject project relating to the denial of an amendment to Sections 31-3-9 and 6-4-9 of the Zoning Map of the City of Modesto to prezone certain properties located thereon.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of January, 1975, by Councilman Newton, who moved its adoption, which motion being duly seconded by Councilman Dunlap, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL  
RESOLUTION NO. 75-228

A RESOLUTION OVERRULING THE RECOMMENDATION OF THE PLANNING COMMISSION TO AMEND SECTION 28-3-9 OF THE ZONING MAP OF THE CITY OF MODESTO TO REZONE FROM C-2 TO R-3, (PROPERTY LOCATED NORTH OF YOSEMITE BOULEVARD, WEST OF LAS FLORES AVENUE).

WHEREAS, on October 1, 1974, by Resolution No. 74-168, the Planning Commission initiated proceedings to amend Section 28-3-9 of the Zoning Map to rezone from General Commercial Zone, C-2, to Medium-High Density Residential Zone, R-3, property located north of Yosemite Boulevard and west of Las Flores Avenue, as shown on the map titled "Yosemite Boulevard-Las Flores Avenue, Zoning Study Map, October 1, 1974", which map is on file in the office of the Planning Director, and

WHEREAS, a public hearing was held by the Planning Commission on December 17, 1974, in the City Council Chambers, City Hall, 801 - 11th Street, Modesto, California, at which time evidence, both oral and documentary was received and considered, and

WHEREAS, after said public hearing, the Planning Commission, by its Resolution No. 74-216, found and determined that rezoning from General Commercial Zone, C-2, to Medium-High Density Residential Zone, R-3, of the entire Yosemite Boulevard - Las Flores Avenue Zoning Study Area, as initiated by the Planning Commission in its Resolution No. 74-168, is not required by public necessity, convenience and general welfare and denied rezoning of that parcel of land located at the immediate northwest corner of Yosemite Boulevard and Las Flores Avenue for the following reasons:

1. Said parcel of land is currently developed with a land use permitted in the C-2 zone.
2. Said parcel of land is the only parcel within the area initiated for rezoning having direct frontage on the Yosemite Boulevard Commercial strip.

WHEREAS, after said public hearing referred to above, the Planning Commission, by its Resolution No. 74-216, found and determined that rezoning of the property as initiated, except for that parcel of land located at the immediate northwest corner of Yosemite Boulevard and Las Flores Avenue, is required by public necessity, convenience and general welfare for the following reasons:

1. The remaining three parcels of land do not have frontage on the Yosemite Boulevard Commercial strip.
2. These three properties are within close proximity to developed residential areas to the east and north and commercial development on said properties could result in commercial-residential land use conflicts.

3. These three properties are not developed for commercial use with the exception of a small amount of commercial storage on one parcel.
4. The Modesto Urban Area General Plan Map designates the subject area as being properly located for residential rather than commercial land uses.

and

WHEREAS, the Planning Commission, by its Resolution No. 74-216, recommended to the City Council the rezoning from General Commercial Zone, C-2, to Medium-High Density Residential Zone, R-3, of those areas shown on the map titled "Yosemite Boulevard - Las Flores Avenue Proposed Rezoning, December 17, 1974", a copy of which is attached hereto, and

WHEREAS, a public hearing was held by the Council of the City of Modesto on February 3, 1975, on said Planning Commission recommended rezoning, and after hearing evidence both oral and documentary, the City Council found and determined that the proposed rezoning should be denied for the following reasons:

1. Property zoned commercial for a number of years should not be downzoned unless there is an overriding public purpose.
2. Even though the existing C-2 zoning is not desirable because it permits commercial development with no plot plan review nor assurance of development standards that would insure compatibility with adjacent residential areas and Dry Creek, there are other alternatives such as H-1 zoning which are preferable to R-3 zoning.

and

WHEREAS, the City Council certifies that at said Council meeting it reviewed and considered the findings of the City of Modesto Environmental Assessment Committee which resulted in a negative declaration in regard to the environmental impact of the subject project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the proposed rezoning recommended by the Planning Commission in its Resolution No. 74-216, to rezone from General Commercial Zone, C-2, to Medium-High Density Residential Zone, R-3, that area north of Yosemite Boulevard and west of Las Flores Avenue, as shown on the map titled "Yosemite Boulevard-Las Flores Avenue Proposed Rezoning, December 17, 1974", be denied for the reasons set forth above.

BE IT FURTHER RESOLVED that the Director of Planning of the City of Modesto is hereby directed to file or cause to be filed with the Stanislaus County Clerk a Notice of Determination in regard to the environmental impact of the subject project relating to the denial of an amendment to Section 28-3-9 of the Zoning Map of the City of Modesto to rezone certain properties located thereon.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 3rd day of February, 1975, by Councilman Elliott, who moved its adoption, which motion being duly seconded by Councilman Kullijian, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 75-252

A RESOLUTION WAIVING THE ONE-YEAR LIMITATION ON A NEW APPLICATION BY HORN CONSTRUCTION COMPANY FOR AN AMENDMENT TO SECTION 24-3-9 OF THE ZONING MAP TO PREZONE OR REZONE PROPERTY COMPRISED OF 4 TENTATIVE SUBDIVISION LOTS FRONTING ON THE SOUTH SIDE OF LARAMIE DRIVE IMMEDIATELY EAST OF LAKEWOOD AVENUE.

WHEREAS, Section 10-2.2103 of the Modesto Municipal Code provides that no application for a zone boundary change shall be accepted by the Planning Commission for any property or area for which a previous application for a zone boundary change has been denied until one year has elapsed from the date of such denial, except that the City Council or the Planning Commission may waive the one year limitation, and

WHEREAS, an application for a zone boundary change to amend Section 24-3-9 of the Zoning Map to prezone property owned by Horn Construction Company comprised of 4 tentative subdivision lots fronting on the south side of Laramie Drive, immediately east of Lakewood Avenue was denied by the Planning Commission on November 19, 1974, and

WHEREAS, by letter addressed to the Modesto City Council, dated February 3, 1975, Horn Construction Company requested the Council to waive the one year limitation in order that it could submit a new application to the Planning Commission to amend Section 24-3-9 of the Zoning Map to prezone or rezone its property comprised of 4 tentative subdivision lots fronting on the south side of Laramie Drive, immediately east of Lakewood Avenue, and

WHEREAS, in accordance with the provisions of Section 10-2.2103 of the Modesto Municipal Code, the Council, at its meeting on February 10, 1975, found that Horn Construction Company had shown substantially changed circumstances which justified a time shorter than one year for submitting a new application for an amendment to Section 24-3-9 of the Zoning Map to prezone or rezone its property comprised of 4 tentative subdivision lots fronting on the south side of Laramie Drive, immediately east of Lakewood Avenue,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that in accordance with the provisions of Section 10-2.2103 of the Modesto Municipal Code, it hereby waives the one year limitation for Horn Construction Company to submit a new application to the Planning Commission for an amendment to Section 24-3-9 of the Zoning Map to prezone or rezone its property comprised of 4 tentative subdivision lots fronting on the south side of Laramie Drive, immediately east of Lakewood Avenue, inasmuch as it has shown substantially changed circumstances justifying a shorter period of time for

submitting a new application, and the waiving of the one year limitation will not adversely affect the interest of the general public.

RESOLUTION NO. 75-339

A RESOLUTION APPROVING A DEVELOPMENT PLAN FOR  
PLANNED-DEVELOPMENT ZONE, P-D (124).

WHEREAS, a verified application for an amendment to Section 24-3-9 of the Zoning Map was filed by Domlee Development Corporation on November 15, 1974, to reclassify from Low Density Residential Zone, R-1, to Planned-Development Zone, P-D, the property hereinafter described, and

WHEREAS, a public hearing on said matter was held by the Planning Commission of the City of Modesto in the Council Chambers located at 801 11th Street, Modesto, California, on December 17, 1974, and

WHEREAS, after public hearing, it was found and determined by the Planning Commission that rezoning of the property as requested, with the exception of a 150 foot by 163 foot area at the southeast corner of the parcel, is required by public necessity, convenience, and general welfare for the following reasons:

1. The residential development as proposed in the planned-development zone meets the residential density criteria established by the Planning Commission's adopted zoning and development plan for the Lakewood Neighborhood.
2. The proposed housing meets the locational criteria for multiple family residential dwellings as set forth in the Modesto Urban Area General Plan, and

If the position is considered to be permanent, the Director shall schedule an examination and establish an eligible list from which to make an appointment. A provisional appointment shall not extend beyond six months, except that the City Manager, with the approval of the City Council, may extend such period for not more than sixty days by any one action. Time spent on a provisional appointment shall not constitute a part of the probationary period.

Service credit toward probationary period shall be proportional to time worked.

(f) Emergency: Appointment to meet the immediate requirements of any emergency conditions such as extraordinary fire, flood, earthquake, or enemy attack, which threatens public life or property. With the approval of the City Manager, any department head may employ such persons as may be needed for the duration of the emergency without regard to these rules affecting appointments, except that no such appointments shall exceed fifteen working days without Council approval.

(g) Acting: Appointment of an employee to temporarily fill a regular position when the employee appointed to that position is on vacation leave, sick leave or other authorized leave. MODESTO CITY COUNCIL  
RESOLUTION NO. 75-399

A RESOLUTION GRANTING THE APPEAL OF JAY LAWYER, FILED ON BEHALF OF EXXON, U. S. A., TO THE FINDING BY THE ENVIRONMENTAL ASSESSMENT COMMITTEE OF THE CITY OF MODESTO THAT AN ENVIRONMENTAL IMPACT REPORT IS NECESSARY ON EXXON'S APPLICATION DATED FEBRUARY 18, 1975, FOR AN AMENEMENT TO THE ZONING MAP FOR A PLANNED DEVELOPMENT ZONE; OVERRULING THE DECISION OF THE ENVIRONMENTAL ASSESSMENT COMMITTEE REQUIRING AN ENVIRONMENTAL IMPACT REPORT; AND ALLOWING EXXON, U. S. A. TO PROCEED WITH ITS APPLICATION FOR AN AMENDMENT TO THE ZONING MAP FOR A PLANNED DEVELOPMENT ZONE.

WHEREAS, an application dated February 18, 1975, for an amendment to the Zoning Map for a Planned Development Zone was filed with the Planning Commission by Exxon, U. S. A., and

WHEREAS, said application for an amendment to the Zoning Map for a Planned Development Zone was referred to the Environmental Assessment Committee of the City of Modesto, which Committee found and determined that an Environmental Impact Report was required on the requested rezoning for a Planned Development Zone because the rezoning could conflict with or cause a change in land use not anticipated by the Urban Area General Plan or a neighborhood zoning and development plan, and

WHEREAS, on March 6, 1975, Jay Lawyer, on behalf of Exxon, U. S. A., filed an appeal to the decision of the environmental assessment Committee with the City Clerk of the City of Modesto, which appeal was set for a public hearing by the City Council on March 10, 1975, at 7:45 o'clock P. M., at which time said hearing was continued to March 24, 1975, at 7:45 o'clock P. M., at which time said hearing was held, and

WHEREAS, on March 24, 1975, the City Council of the City of Modesto found and determined that the appeal of Jay Lawyer, filed on behalf of Exxon, U. S. A., to the finding by the Environmental Assessment Committee that an Environmental Impact Report is required on said application should be granted, and that an Environmental Impact Report is not required to be filed for the proposed project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby grants the appeal of Jay Lawyer, filed on behalf of Exxon, U. S. A., to the decision of the Environmental Assessment Committee of the City of Modesto which found that an Environmental Impact Report was necessary on Exxon's application dated February 18, 1975, for an amendment

to the Zoning Map for a Planned Development Zone.

BE IT FURTHER RESOLVED that an Environmental Impact Report is not required on the application of Exxon, U. S. A. for an amendment to the Zoning Map for a Planned Development Zone for office uses because the proposed project will not conflict with or cause a change in land use not anticipated by the Urban Area General Plan or a neighborhood zoning and development plan for the following reasons:

1. The General Plan permits office uses at or near centers of activities. The existing P-D(21) Neighborhood Shopping Center Zone and the other existing commercial and office uses and zones at or near the intersection of Tully and Standiford create such a center of activity near which general offices could be permitted.
2. The proposed rezoning of this small 0.6 acre parcel, considered as a separate application, will not have a substantial adverse environmental impact.

BE IT FURTHER RESOLVED that the City Clerk is hereby directed to file a certified copy of this Resolution with the Stanislaus County Clerk as a negative declaration that the proposed rezoning will not have a significant effect on the environment. Anyone wishing to respond to the finding of a negative declaration may do so within fifteen (15) days of the date of the filing of this resolution with the Stanislaus County Clerk. This response must be in writing and filed with the City Clerk, City of Modesto, P. O. Box 642, Modesto, California, 95353, and shall name the project as "R-1 to P-D - Exxon Co. U. S. A., Standiford Avenue and Tully Road" and the date of filing this resolution with the Stanislaus County Clerk.

MODESTO CITY COUNCIL  
RESOLUTION NO. 75-429

A RESOLUTION DENYING THE APPEAL OF STONE BROTHERS AND ASSOCIATES TO THE DECISION OF THE PLANNING COMMISSION DENYING A REQUEST FOR A CHANGE IN THE DEVELOPMENT SCHEDULE FOR PHASE IV OF P-D(21). (STANDIFORD AVENUE AND TULLY ROAD - STONE BROTHERS AND ASSOCIATES)

WHEREAS, the City Council by Ordinance No. 748-C.S. effective October 27, 1965, granted P-D(21) to the Pacific Investment Company (Stone Brothers and Associates) to allow commercial, professional office, multiple-family, church and other uses on property on the south side of Standiford Avenue and on both sides of Tully Road, and

WHEREAS, City Council Resolution No. 65-502 adopted on September 13, 1965, approved the development plan and schedule for P-D(21), and specified that construction was to be accomplished in four phases which covered a six-year development program, with Phase IV to begin by January 1, 1974, and to be completed not later than January 1, 1976, and

WHEREAS, on November 19, 1973, by Resolution No. 73-948, the City Council on appeal of a denial by the Planning Commission, granted a 120 day time extension for the commencement of Phase IV of P-D(21) with construction to begin on or before May 1, 1974, and to be completed not later than January 1, 1976, and

WHEREAS, Phase IV of P-D(21) was commenced prior to May 1, 1974 by the start of construction of the professional office portion of Phase IV, and

WHEREAS, by letter dated January 17, 1975, Stone Brothers and Associates, the developers of P-D(21), requested a change in the development plan of the neighborhood shopping center portion of Phase IV of P-D(21) to permit completion by January 1, 1976, of only 24,900 square feet of the total 107,725 square feet neighborhood shopping center with the remaining portion of the shopping center to be completed at an unspecified future date, and

WHEREAS, a public hearing was held by the Planning Commission of the City of Modesto on February 4, 1975, in the City Council Chambers, City Hall, 801 11th Street, Modesto, California, at which time evidence, both oral and documentary, was received and considered, and

WHEREAS, after said public hearing, the Planning Commission, by Resolution No. 75-21, denied the request for a change in the development plan of the neighborhood shopping center portion of Phase IV of P-D(21), and

WHEREAS, an appeal from the Planning Commission's denial of said request was made by Stone Brothers and Associates to the City Council of the City of Modesto, and

WHEREAS, a public hearing was held by the Council of the City of Modesto on April 7, 1975, in the City Council Chambers, City Hall, 801 11th Street, Modesto, California, to consider the appeal of Stone Brothers and Associates from the Planning Commission's denial of said request, and

WHEREAS, said Council, after hearing evidence both oral and documentary, found and determined that the appeal of Stone Brothers and Associates from the decision of the Planning Commission denying the request for a change in the development plan of the neighborhood shopping center portion of Phase IV of P-D(21) should be denied for the following reasons:

1. The owner of P-D(21) has had over nine years since approval of the P-D Zone to initiate and complete commercial development on the subject corner.
2. The owners of other corner parcels at the same intersection should be given the opportunity to apply for P-D commercial zoning under the one-corner policy if the subject owner cannot perform within his time limits.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appeal of Stone Brothers and Associates from the Planning Commission denial of a request for a change in the development schedule of the neighborhood shopping center portion of Phase IV of P-D(21) is hereby denied for the reasons set forth above.

BE IT FURTHER RESOLVED that Phase IV of Section 2, entitled "Development Schedule", of City Council Resolution No. 65-502, entitled "A Resolution Approving A Development Plan For Planned-Development Zone, P-D(21), (Pacific Investment Company)", as amended by City Council Resolution No. 73-948, be and is hereby further amended to read as follows to clarify the completion date of the neighborhood shopping center portion of Phase IV:

"Phase IV shall include an area of approximately 4.0 acres for a convalescent hospital or rest home on the east side of Tully Road and an area of approximately 2.7 acres for medical and professional offices on the east side of Tully Road and an area of approximately 8.0 acres for retail shopping on the east side of Tully Road and an area of approximately 1.5 acres for multiple-family on the south side of Standiford Avenue west of Tully Road, construction to begin on or before May 1, 1974, and be completed not later than January 1, 1976, with the retail shopping area portion of Phase IV to be completed as follows:

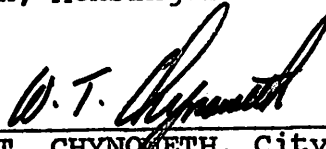

1. A supermarket of approximately 20,000 square feet and general commercial shops of approximately 9,600 square feet shall be completed and ready for occupancy, as evidenced by a certificate of occupancy issued by the City's Building Inspection Division on or before December 31, 1975.

2. The remainder of the approximately 79,000 square feet of general commercial shop space shown on the plot plan for said retail shopping area portion of Phase IV approved by City Council Resolution No. 73-992 must have the exterior shell completed on or before January 1, 1976, suitable for completion thereafter of the interiors and store fronts for individual tenants."

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of April, 1975, by Councilmember Elliott, who moved its adoption, which motion being duly seconded by Councilmember Siefkin, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL  
RESOLUTION NO. 75-430

A RESOLUTION DENYING THE APPEAL OF WARNER M. SOELLING FROM THE DECISION OF THE PLANNING COMMISSION DENYING AN AMENDMENT TO SECTION 22-3-9 OF THE ZONING MAP, AND AFFIRMING THE DECISION OF THE PLANNING COMMISSION.

WHEREAS, the Modesto City Planning Commission held a public hearing on November 20, 1973, and December 4, 1973, in the Council Chambers, City Hall, for the purpose of considering an amendment to Section 22-3-9 of the Zoning Map to rezone from One-Family Residential Zone, R-1, to Planned-Development Zone, P-D, the following described property:

All that portion of Section 22, Township 3 South, Range 9 East of the Mount Diablo Base and Meridian described as follows:

All of Lot 1 of the Broughton Colony Tract as shown on the map filed March 17, 1904, in Volume 1 of Maps, at Page 78, Stanislaus County Records.

Excepting therefrom the Southerly 227.64 feet.

Also excepting therefrom all of M.I.D. Lateral No. 3 and Briggsmore Avenue immediately adjacent to the above described property,

and

WHEREAS, at its meeting of December 4, 1973, the Planning Commission adopted Resolution No. 73-152 denying the application of Warner M. Soelling for an amendment to Section 22-3-9 of the Zoning Map to rezone the property described above as requested, and

WHEREAS, an appeal to the Planning Commission's decision denying the above-requested rezoning was filed by Warner M. Soelling with the City Clerk on December 5, 1973, and

WHEREAS, the Council of the City of Modesto, held a public hearing on said appeal on January 7, 1974, in the Council Chambers in the City Hall, 801 11th Street, Modesto, California, and adopted Resolution No. 74-16 denying said appeal, and

WHEREAS, in the case of Soelling v. City of Modesto, Stanislaus County Superior Court Case No. 126885, the City of Modesto

on March 19, 1975, stipulated that it would grant a new hearing on said appeal, which stipulation was made the subject of a court order on the same date, and

WHEREAS, the new hearing on said appeal was set before the Council of the City of Modesto, on April 7, 1975, at 4:05 o'clock P.M. in the Council Chambers in the City Hall, 801 11th Street, Modesto, California, at which time evidence both oral and documentary was taken and introduced, and

WHEREAS, the Council found and determined that the appeal of Warner M. Soelling from the denial by the Modesto City Planning Commission of an amendment to Section 22-3-9 of the Zoning Map to rezone the above-described property from One-Family Residential Zone, R-1, to Planned-Development Zone, P-D, is not required by public necessity, convenience and general welfare for each of the following separate reasons:

1. The General Plan calls for one neighborhood shopping center at or near this intersection. P-D(104) has been approved near the northwest corner of the subject intersection, and a second neighborhood shopping center in this area would exceed the standards set forth in the General Plan.
2. The City's one corner neighborhood shopping center policy applies to this intersection, and P-D(104), which has been approved near the northwest corner of this intersection, fulfills the one corner policy at this intersection.
3. The Oakdale Road policy adopted by the City Council indicated that there was a need for a community shopping center in this area of the community. This proposed shopping center is not a community shopping center, it does not meet the General Plan standards because it contains less than 10 acres and less than 100,000 square feet of floor area and has mostly neighborhood commercial uses and therefore cannot be approved as a community shopping center.
4. The proposed shopping center plot plan proposes egress from Briggsmore Avenue, an expressway, in conflict with the City's policy of not allowing ingress to or egress from Briggsmore Avenue to individual properties. It is the City's policy to prohibit ingress to or egress from Briggsmore Avenue as a condition of approval of planned development zoning, use permits, and subdivisions.
5. The proposed shopping center has only 330 feet of frontage on Oakdale Road; it lacks an abutting collector street for additional access; the narrow major street frontage on Oakdale Road is located adjacent to a very busy intersection with Briggsmore Avenue; and a high traffic generator like a neighborhood shopping center will create critical traffic problems.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appeal of Warner M. Soelling from the decision of the Planning Commission denying an amendment to Section 22-3-9 of the Zoning Map be denied for each of the separate reasons set forth above, and the decision of the Planning Commission is affirmed.

BE IT FURTHER RESOLVED that this resolution supersedes Modesto City Council Resolution No. 74-16 adopted on January 7, 1974.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of April, 1975, by Councilmember Dunlap, who moved its adoption, which motion being duly seconded by Councilmember Siefkin, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 75-437

A RESOLUTION ADOPTING ENVIRONMENTAL IMPACT GUIDELINES.

WHEREAS, Section 21082 of the California Public Resources Code requires all public agencies to adopt objectives, criteria, and procedures consistent with the provisions of said Code sections and said California Resources Agency Guidelines for the evaluation of projects and the preparation of environmental impact reports, and

WHEREAS, Chapter 9 of Title IV of the Modesto Municipal Code (Sections 4-9.01 - 4-9.04) authorizes the adoption by resolution of guidelines for determining what projects may have a significant effect on the environment and for the preparation and approval of environmental impact reports, and

## SECTION I. INTRODUCTION

These Guidelines establish procedures for the identification and analysis of environmental impact of projects, and the preparation and processing of Environmental Impact Reports for such projects when significant impacts on the environment are anticipated.

### A. Legal Requirements

Sections 21000-21174 of the California Public Resources Code, as amended by Chapter 1154 of the Statutes of 1972 (AB889), comprise the California Environmental Quality Act of 1970.

The Act requires a determination of possible significant impact on the environment be made for most local projects. In addition, the National Environmental Protection Act makes similar requirements for certain federally funded local projects.

### B. State Policy

The legislature has declared that it is the policy of the State to:

- (1) Develop and maintain a high-quality environment now and in the future, and take all action necessary to protect, rehabilitate and enhance the environmental quality of the state.
- (2) Take all action necessary to provide the people of this state with clean air and water, enjoyment of aesthetic, natural, scenic, and historic environmental qualities, and freedom from excessive noise.
- (3) Prevent the elimination of fish or wildlife species due to man's activities, insure that fish and wildlife populations do not drop below self-perpetuating levels, and preserve for future generations representations of all plant and animal communities and examples of the major periods of California history.
- (4) Ensure that the long-term protection of the environment shall be the guiding criterion in public decisions.
- (5) Create and maintain conditions under which man and nature can exist in productive harmony to fulfill the social and economic requirements of present and future generations.
- (6) Require governmental agencies at all levels to develop standards and procedures necessary to protect environmental quality.

- (7) Require governmental agencies at all levels to consider qualitative factors as well as economic and technical factors and long-term benefits and costs, in addition to short-term benefits and costs, and to consider alternatives to proposed actions affecting the environment.

C. City of Modesto Policy

While project-by-project analysis of environmental impact is the thrust of the California Environmental Quality Act of 1970 and the National Environmental Protection Act, the City of Modesto will endeavor also to place emphasis on the environmental impact of the comprehensive urban planning process as embodied primarily in the General Plan.

In this manner, environmental review by the City of Modesto will be considered at two levels:

- (1) The environmental impact of the long-term plans of the community;
- (2) The environmental impact of a given project on the long-term plans of the community and on specific environmental concerns such as natural waterways, etc.

## SECTION II. DEFINITIONS

The definitions that follow are based on the "Guidelines for Implementation of the California Environmental Quality Act of 1970" as adopted and amended by the California Resources Agency and are intended to clarify, but not replace or negate, the definitions used in the California Environmental Quality Act of 1970.

- A. Approval means the decision by the City which commits the City to a definite course of action in regard to a project intended to be carried out by the City, any person, or any other public agency. These guidelines also indicate situations where the staff Environmental Assessment Committee, by Negative Declaration, can approve a project by clearing it of further environmental review.
- B. California Environmental Quality Act (CEQA) means California Public Resources Code Sections 21000 through 21174, as amended.
- C. Categorical Exemption means an exemption from the requirement for the preparation of an environmental impact report for a class of projects based on a finding by the Secretary of the California Resources Agency that the class of projects does not have a significant effect on the environment.
- D. City means the City of Modesto or the City Council, Board of Zoning Adjustment, Planning Commission, Environmental Assessment Committee or authorized official of the City.
- E. Discretionary Project means an activity defined as a project which requires the exercise of judgment, deliberation, or decision on the part of the City in the process of approving or disapproving a particular activity, as distinguished from situations where the City merely has to determine whether there has been conformity with applicable statutes, ordinances, or regulations.
- F. Emergency means a sudden unexpected occurrence demanding immediate action to prevent or mitigate loss or damage to life, health, property, or essential public services.
- G. Environment means the physical conditions which exist in the area which will be affected by a proposed project, including land, air, water, minerals, flora, fauna, ambient noise, and objects of historic or aesthetic significance.

- H. Environmental Assessment means checklist review which serves as an initial study of a discretionary project to determine whether the project may have a significant effect, thereby requiring an EIR or whether it does not and a Negative Declaration can be filed.
- I. Environmental Assessment Committee means a City staff committee whose primary purpose is to screen discretionary projects to determine whether a project is eligible for a Negative Declaration or whether an EIR is required.
- J. Environmental Impact Report (EIR) means a detailed statement setting forth the environmental effects and considerations pertaining to a project as specified in Section 21100 of the California Environmental Quality Act.
1. Draft EIR means an EIR prepared according to Section VII A of these guidelines.
  2. Final EIR means an EIR prepared according to Section VII B of these guidelines. The Final EIR is an informational document to inform public bodies such as the City Council, Board of Zoning Adjustment and Planning Commission and the general public of the environmental effect of projects. The EIR provides environmental input in addition to the economic and social input necessary for a balanced decision.
- K. Environmental Impact Statement (EIS) means an environmental Impact report prepared pursuant to the National Environmental Policy Act (NEPA). The Federal Government uses the term EIS in place of the term EIR which is used in CEQA.
- L. Feasible means capable of being accomplished in a successful manner by reasonably available economic and workable means.
- M. General Plan means the Modesto Urban Area General Plan, as adopted by the City Council in 1965, including all present and future revisions and amendments.
- N. Lead Agency means the public agency which has the principal responsibility for carrying out or approving a project which may have a significant effect on the environment where more than one public agency is involved with the same underlying activity.
- O. Ministerial Projects as a general rule include those activities defined as projects which are undertaken or approved by a governmental decision which a public officer or public agency makes upon a given state of facts in a prescribed manner in obedience to the mandate of legal authority. With these projects, the officer or agency must act upon the given facts without regard to his own judgment or opinion concerning the propriety or wisdom of the act, although the statute, ordinance, or regulation may require, in some degree, a construction of its language by the officer.

- P. Negative Declaration means a statement including reasons by the City that a project, although not otherwise exempt, would not have a significant effect on the environment and therefore does not require an EIR.
- Q. Notice of Completion means a brief report filed with the Secretary of the California Resources Agency when the City has completed a Draft EIR for review. The contents of this notice shall include:
1. A brief description of the project.
  2. The proposed location of the project.
  3. An address where copies of Draft EIR are available.
- R. Notice of Determination means a notice to be filed with the Stanislaus County Clerk by the City when it approves or determines to carry out a project which is subject to the requirements of CEQA. The contents of this report shall include:
1. The decision by the City to approve or disapprove the project.
  2. The determination by the City whether the project will or will not have a significant effect on the environment.
  3. Whether an EIR has been prepared.
- S. Person includes any person, firm, association, organization, partnership, business, trust, corporation, company, district, county, city and county, city, town, the state, and any political subdivisions of such entities.
- T. Project means the whole of an action which has a potential for physical impact on the environment, directly or ultimately, that is any of the following:
1. An activity directly undertaken by any public agency including but not limited to public works construction and related activities, clearing or grading of land, improvements to existing public structures, enactment and amendment of zoning ordinances, and the adoption of the General Plan and amendment and other long-term plans of the community.
  2. An activity undertaken by a person which is supported in whole or in part through public agency contracts, grants, subsidies, loans, or other forms of assistance from one or more public agencies.
  3. An activity involving the issuance to a person of a lease, permit, license, certificate, or other entitlement for use by one or more public agencies.

"Project" does not include:

4. Anything specifically exempted by State law.

5. Continuing administrative or maintenance activities, such as purchases for supplies, personnel-related actions, emergency repairs to public service facilities, general policy and procedure-making (except as they are applied to specific instances covered above), and feasibility or planning studies.
  6. The submittal of proposals to a vote of the people.
- U. Public Agency includes any state agency, board or commission and any local or regional agency. It does not include the courts of the state nor the agencies of the federal government.
- V. Responsible Agency means the public agency which proposes to undertake or approve the project but is not a lead agency for the project. It includes all public agencies other than the lead agency which have approval power over the project.
- W. Significant Effect means a substantial adverse impact on the environment.

SECTION III. PROJECTS NOT REQUIRING ENVIRONMENTAL ASSESSMENTS

A. Certain Ongoing Projects

1. Ongoing projects under the jurisdiction of the National Environmental Policy Act (NEPA) which are deemed too far advanced at the time of NEPA's effective date to require an EIS do not require an environmental assessment.
2. A project as defined in Section II, paragraph T2, or a contract as defined in Section II, paragraph T3, approved prior to April 5, 1973.
3. A discretionary project involving the issuance prior to April 5, 1973, of a lease, permit, license, certificate, or other entitlement by the City for the project, or for part of the project if another or additional approval of said discretionary project by the City, after April 5, 1973, does not involve a greater degree of responsibility and control over the project as a whole.

B. Certain Feasibility and Planning Studies

A project involving only feasibility or planning studies for possible future actions which the City has not approved, adopted, or funded, requires consideration of environmental factors but not the preparation of an EIR. In keeping with the City's policy of monitoring environmental impact of long-term planning, the City may prepare an EIR on some of its feasibility and planning studies.

C. Emergency Projects

1. Projects in a disaster-stricken area in which a state of emergency has been proclaimed by the Governor.
2. Emergency repairs to public service facilities necessary to maintain service.
3. Projects undertaken as immediate action necessary to prevent or mitigate an emergency.

D. Ministerial Projects

Ministerial projects, including the issuance of building permits, issuance of business licenses, approval of final subdivision maps, and approval of individual utility service connections and disconnections, do not need environmental assessments.

E. Projects with Categorical Exemptions

The following classes of projects are determined not to have a significant effect on the environment, are consistent with the class of categorical exemptions as determined by the Secretary of the California Resources Agency, and are declared categorically exempt from an environmental assessment or preparation of an EIR:

**Class 1: Existing Facilities.** Class 1 consists of the operation, repair, maintenance or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that previously existing, including but not limited to:

- (b) Issuance of minor encroachment permits.

Class 6: Information Collection. Class 6 consists of basic data collection, research, experimental management and resource evaluation activities which do not result in a serious or major disturbance to an environmental resource. These may be for strictly information gathering purposes, or as part of a study leading to an action which a public agency has not yet approved, adopted or funded.

Class 7: Regulatory Actions for Protection of Natural Resources. Class 7 consists of action taken by regulatory agencies as authorized by state law or local ordinance to assure the maintenance, restoration or enhancement of a natural resource where the regulatory process involves procedures for the protection of the environment including but not limited to wildlife preservation activities of the State Department of Fish and Game. Construction activities are not included in this exemption.

Class 8: Actions by Regulatory Agencies for Protection of the Environment. Class 8 consists of actions taken by regulatory agencies authorized by state law or local ordinances to assure the maintenance, restoration, enhancement, or protection of the environment where the regulatory process involves procedures for the protection of the environment. Construction activities are not included in this exemption.

Class 13 consists of the acquisition of lands for fish and wildlife conservation purposes, including preservation of fish and wildlife habitat, establishing ecological reserves under Fish and Game Code Section 1580, and preserving access to public lands and waters where the purpose of the acquisition is to preserve the land in its natural condition.

Class 14. Minor Additions to Schools. Class 14 consists of minor additions to existing schools within existing school grounds where the addition does not increase original student capacity by more than 25% or five classrooms, whichever is less. The addition of portable classrooms is included in this exemption.

- F. The Environmental Assessment Committee shall prepare a list of specific activities which fall within each of the exempt classes, which list shall be on file in the office of the Planning Director of the City of Modesto. Said specific activities shall be categorically exempt unless the decision-making body or the City Council pursuant to an appeal determines otherwise. Said body shall direct the Committee to file a Notice and Certificate of Determination of Exemption from Environmental Assessment, a Notice of a Negative Declaration, or a Notice Requiring an Environmental Impact Report, whichever shall be consistent with its findings.

#### SECTION IV. PROJECTS REQUIRING ENVIRONMENTAL ASSESSMENTS

The following is a list of types of projects which require an Environmental Assessment. The Environmental Assessment Committee either makes a Negative Declaration or requires an EIR because the project may have a significant effect. The assessment procedures, timing, fees, etc. are set forth in Section V.

##### A. New Public and Private Projects

All public projects by public agencies and private projects which are discretionary projects shall require environmental assessments excepting those identified in Section III. Using the environmental assessment check list (Exhibit A), if it is found that the project may have a significant effect, an EIR shall be required.

##### B. Certain Ongoing Projects

An environmental assessment shall be required for:

1. A public project approved prior to November 23, 1970, for which the allocated public funds have not been spent and it is still feasible to modify the project to minimize adverse environmental effects or choose a feasible alternative.
2. A public project approved prior to November 23, 1970, for which a significant modification is proposed.

##### C. Categorical Exemptions That DO NOT Apply

Categorical exemption classes 3, 4, 5, and 11 as set forth in Section III E, are qualified by consideration of both where the project is to be located and the cumulative impact of successive projects of the same type in the same place over a period of time. Projects in these classes on lands that abut or are within the Tuolumne River or Dry Creek floodplains are in this qualified category and are not exempt from environmental assessment. Other specific environmental resources or hazards identified by the City from time to time may be mapped, officially adopted and made subject to this qualified category.

SECTION V. ENVIRONMENTAL ASSESSMENT PROCEDURES, TIMING, FEES

A. Initial screening

When a project as defined in Section II is submitted to the City, or when the City intends to carry out a project, an initial screening shall be made by the appropriate department to determine whether or not the project requires an environmental assessment. Those projects requiring environmental assessments shall be reviewed by the Environmental Assessment Committee prior to further processing. If requested by the person or public agency who submitted the project, within seven (7) days thereafter the Committee shall cause to be filed a NOTICE AND CERTIFICATE OF DETERMINATION OF EXEMPTION FROM ENVIRONMENTAL ASSESSMENT (Exhibit E) for projects which are exempt.

B. Review of the Environmental Assessment Committee

For projects requiring environmental assessments, the Environmental Assessment Committee shall use the environmental checklist (Exhibit A) as the initial study to find whether the project has significant effect on the environment. If the project involves the approval of another public agency, the Environmental Assessment Committee shall consult with that agency prior to completing the environmental checklist to determine which public agency shall be the lead agency.

1. If the Environmental Assessment Committee finds that the proposed project will not have a significant effect on the environment, it shall do the following:
  - (a) Complete the Environmental Assessment Committee Findings (Exhibit A) which serves as a Negative Declaration.
  - (b) File such Findings with the Stanislaus County Clerk and the person or public agency who submitted the project within seven (7) days following completion of the Committee's review.
  - (c) If a written public response has been filed with the City Clerk within fifteen (15) days from the date of filing such Findings with the Stanislaus County Clerk, the Committee shall within seven (7) days consider the responses and reconsider its Findings.
  - (d) After such reconsideration, or if no written public response has been filed with the City Clerk within said fifteen (15) days, the Committee shall then file Findings with the decision-making body. The decision-making body shall review the Findings, any written public responses and Committee's comments, and take one of two (2) actions:

- (1) Certify the Findings and direct the filing of a Notice of Determination with the Stanislaus County Clerk. If the project requires discretionary approvals from a State agency, the Notice of Determination also shall be filed with the Secretary of Resources.
  - (11) Determine that an EIR is required and file such Findings with the Stanislaus County Clerk and the person or public agency who submitted the project. The project shall then proceed with the EIR process contained in Section VI of these guidelines.
2. If the Environmental Assessment Committee finds that the proposed project may have a significant effect on the environment, the Committee shall do the following:
- (a) Complete the Environmental Assessment Committee Findings (Exhibit A) and within seven (7) days of the completion of the Committee's review, file such Findings with the Stanislaus County Clerk and the person or public agency who submitted the project, in which case an EIR is required.
  - (b) The project shall then proceed in accordance with the EIR process contained in Section VI of these Guidelines unless on appeal it is determined that the proposed project will not have a significant effect on the environment and that no EIR is required. In that case the appeals' body shall prepare environmental assessment findings in accordance with said determination to be filed by the Committee with the Stanislaus County Clerk pursuant to paragraph B. 1(b) of this section.

C. Fees

No fees shall be charged for the environmental assessment procedure other than the private consultant's fees for the EIR.

SECTION VI. ENVIRONMENTAL IMPACT REPORTS, TIMING, FEES

A. General

Section V outlines the preliminary steps that must be taken prior to the submission of a Draft EIR.

Section VII specifies the contents required in a Draft EIR and a Final EIR.

B. Processing of Draft EIR

1. Draft EIR Preparation

An initial draft of an EIR shall be prepared by the person or public agency who submitted the project. The City shall have the right to:

- (a) Request additional information, data and graphics.
- (b) Request a revised initial draft of the EIR.

Ten copies of the initial draft of the EIR shall be furnished for use by the City. The City shall then prepare Draft EIR. Each initial draft of an EIR and Draft EIR shall have attached a list of public agencies having jurisdiction by law with respect to the project and any persons with special expertise with respect to the environmental impact involved.

2. Review of Draft EIR

After Draft EIR has been completed by the City, it shall be reviewed by the Environmental Assessment Committee. If deemed complete, the Environmental Assessment Committee shall, within 7 days, file a Notice of Completion of Draft EIR (Exhibit B) with the Stanislaus County Clerk and with the Secretary of the California Resources Agency.

3. Distribution of Draft EIR

Distribution of copies of Draft EIR shall be made as follows:

- (a) Three copies shall be filed with the City Clerk for the official record and general public review.
- (b) One copy shall be sent to the person or public agency who submitted the project.
- (c) One copy shall be sent to each person and public agency designated by the Environmental Assessment Committee based on the list attached to Draft EIR.
- (d) One copy shall be sent to the responsible agency, if any, who shall file written comments on the Draft EIR with the City Clerk.

- (e) Two copies shall be sent to the Modesto Stanislaus County Library.

4. Public Review of Draft EIR

The public shall have 30 days from the date of filing a Notice of Completion of Draft EIR with the Stanislaus County Clerk to submit written comments on Draft EIR to the City Clerk. The City shall evaluate comments received and prepare Final EIR.

C. Processing of Final EIR

1. Distribution of Final EIR

Distribution of copies of Final EIR shall be made as follows:

- (a) One copy shall be filed with the City Clerk for the official record and for public inspection.
- (b) One copy shall be sent to the person or public agency who submitted the project.
- (c) Copies shall be presented to the City Council, Board of Zoning Adjustment, or Planning Commission, whichever is the decision-making body for the project.

2. Public Hearing

The decision-making body for the project may determine a public hearing is desirable, prior to the adoption of Final EIR, in order to assure adequate public participation in the evaluation of a project.

3. Certification

The decision-making body shall certify the Final EIR and consider the contents thereof when it makes a decision on a project.

4. Filing Notice

After making a decision on the project, the City shall file a Notice of Determination (Exhibit C) with the Stanislaus County Clerk. If the project requires discretionary approval from a State agency, the Notice shall also be filed with the Secretary for Resources. Such notice shall include:

- (a) The decision of whether the project was approved or disapproved.
- (b) The determination of whether the project will have a significant effect on the environment.
- (c) That Final EIR was prepared pursuant to these Guidelines and the California Environmental Quality Act.

5. Overriding Considerations

If the decision-making body desires to approve a project for which serious adverse environmental consequences have been identified in an EIR, the decision-making body may make a statement identifying the other interests that warrant approval in its point of view. If such a statement is made, it may be attached to the Notice of Determination.

D. Fees

Two types of fees are authorized:

1. The City may charge and collect a fee from a person or public agency submitting a project requiring an EIR, to reimburse the City for the estimated costs incurred in preparing the EIR. The amount of the fee shall be determined based on the actual amount of work anticipated in the preparation of the EIR. The extent of the material furnished in the initial draft of an EIR by the person or public agency submitting the project shall be taken into account in making said determination.
2. The City may charge and collect a fee from members of the public for the actual cost of reproducing a copy of an EIR requested by a member of the public.

## SECTION VII. CONTENTS OF ENVIRONMENTAL IMPACT REPORTS

The preparation of an Environmental Impact Report consists of a two-step process: a Draft EIR and Final EIR.

### A. Contents of Draft EIR

A Draft EIR shall contain the following information:

#### 1. Description of Project

The description of the project shall contain the following information, but should not supply extensive detail beyond that needed for evaluation and review of the environmental impact.

- (a) The precise location and boundaries of the proposed project shall be shown on a detailed map, preferably topographic. The location of the project shall also appear on a regional map.
- (b) A statement of the objectives sought by the proposed project.
- (c) A general description of the project's technical, economical and environmental characteristics, considering the principal engineering proposals and including a description of supporting public service facilities.

#### 2. Description of Environmental Setting

An EIR must include a description of the environment in the vicinity of the project, as it exists before commencement of the project, from both a local and regional perspective. Knowledge of the regional setting is critical to the assessment of environmental impacts. Special emphasis should be placed on environmental resources that are rare or unique to that region. Specific reference to related projects, both public and private, both existent and planned, in the region, should also be included, for purposes of examining the possible cumulative impact of such projects.

Describe water quality aspects of the proposed project which have been previously certified by the appropriate state or interstate organization as being in substantial compliance with applicable water quality standards.

#### 3. Environmental Impact

All phases of a project must be considered when evaluating its impact on the environment: planning, acquisition, development and operation. The following subjects shall be discussed, preferably in separate sections or paragraphs. If they are not discussed separately, the EIR shall include a table showing where each of the subjects is discussed.

(a) The Environmental Impact of the Proposed Action:

Describe the direct and indirect impacts of the project on the environment, giving due consideration to both the short-term and long-term effects.

It should include specifics of the area, the resources involved, physical changes, alterations to ecological systems and changes induced in population distribution, population concentration, the human use of the land (including commercial and residential development) and other aspects of the resource base such as water, scenic quality and public services.

(b) Any Adverse Environmental Effects Which Cannot Be Avoided if the Proposal is Implemented:

Describe any adverse impacts, including those which can be reduced to an insignificant level but not eliminated. Where there are impacts that cannot be alleviated without imposing an alternative design, their implications and the reasons why the project is being proposed, notwithstanding their effect, should be described. Describe impacts on any aesthetically valuable surroundings, or on human health.

(c) Mitigation Measures Proposed to Minimize the Impact:

Describe avoidable adverse impacts, including inefficient and unnecessary consumption of energy, and the measures proposed to minimize these impacts. This discussion shall include an identification of the acceptable levels to which such impacts will be reduced, and the basis upon which such levels were identified. Where alternative measures are available to mitigate an impact, each should be discussed and the basis for selecting one alternative should be identified. Energy conservation measures, as well as other appropriate mitigation measures, shall be discussed. Examples of energy conservation measures are provided in Exhibit F.

(d) Alternatives to the Proposed Action:

Describe reasonable alternatives to the project, or to the location of the project, which could feasibly attain the basic objectives of the project, and why they were rejected in favor of the ultimate choice. The specific alternative of "no project" must also always be evaluated, along with the impact.

Describe alternatives capable of substantially reducing or eliminating any environmentally adverse impacts, even if these alternatives substantially impede the attainment of the project objectives, and are more costly.

(e) The Relationship Between Local Short-Term Uses of Man's Environment and the Maintenance and Enhancement of Long-Term Productivity:

Describe the cumulative and long-term effects of the proposed project which adversely affect the state of the environment. Special attention should be given to impacts which narrow the range of beneficial uses of the environment or pose long-term risks to health or safety. In addition, the reasons why the proposed project is believed by the sponsor to be justified now, rather than reserving an option for further alternatives, should be explained.

(f) Any Irreversible Environmental Changes Which Would be Involved in the Proposed Action Should it be Implemented:

Uses of nonrenewable resources during the initial and continued phases of the project may be irreversible since a large commitment of such resources makes removal or nonuse thereafter unlikely. Primary impacts and, particularly, secondary impacts (such as a highway improvement which provides access to a nonaccessible area) generally commit future generations to similar uses. Also, irreversible damage can result from environmental accidents associated with the project. Irrecoverable commitments of resources should be evaluated to assure that such current consumption is justified.

(g) The Growth-Inducing Impact of the Proposed Action:

Discuss the ways in which the proposed project could foster economic or population growth, either directly or indirectly, in the surrounding environment. Included in this are projects which would remove obstacles to population growth (a major expansion of a wastewater treatment plant might, for example, allow for more construction in service areas). Increases in the population may further tax existing community service facilities so consideration must be given to this impact. Also discuss the characteristic of some projects which may encourage and facilitate other activities that could significantly affect the environment, either individually or cumulatively. It must not be assumed that growth in any area is necessarily beneficial, detrimental, or of little significance to the environment.

4. Organizations and Persons Consulted

The identity of all federal, state or local agencies, other organizations and private individuals consulted in preparing Draft EIR, and the identity of the person, firm or agency preparing Draft EIR, by contract or other authorization, must be given.

B. Content of Final EIR

1. The Final EIR shall<sup>+</sup> consist of:
  - (a) The Draft EIR or a revision of the draft.
  - (b) Comments and recommendations received on the Draft EIR either verbatim or in summary.
  - (c) A list of persons, organizations and public agencies commenting on the Draft EIR.
  - (d) The responses of the Lead Agency to significant environmental points raised in the review and consultation process.
2. The response of the City to comments received may take the form of a revision of Draft EIR or may be an attachment to Draft EIR. The response shall describe the disposition of significant environmental issues raised (e.g. revisions to the proposed project to mitigate anticipated impacts or objections). In particular the major issues raised when the City's position is at variance with recommendations and objections raised in the comments, must be addressed in detail giving reasons why specific comments and suggestions were not accepted, and factors of overriding importance warranting an override of the suggestions.
3. Comments on Draft EIR received either through the review process or independently shall be kept on file in the office of the City Clerk, City Hall, 801 Eleventh Street, Modesto, California, for a reasonable period of time and made available for public inspection at said office. A notice of the availability of such comments for inspection shall be included in Final EIR.

ENERGY CONSERVATION

The California Environmental Quality Act was amended, effective January 7, 1975, to require that the discussion of mitigation measures in an EIR include a discussion of measures to reduce the inefficient and unnecessary consumption of energy. The following discussion is offered as assistance in meeting this requirement.

Energy conservation is the wise use of energy resources. The wisdom of a certain kind of energy use will vary according to the circumstances. In late 1974, a leading consideration in energy use is the reduction in dependence upon high priced imported petroleum. Other considerations are the reduction in pollution from energy use and finding ways to make resources in short supply last longer and be used for the most essential purposes.

Energy conservation measures, including both the available alternatives and those incorporated into the design and operations of a proposed project need to be discussed in EIR's. There are many ways in which a project may be designed or operated to make more efficient and wise use of energy. The following list of conservation measures provides examples that may be used in EIR's where relevant. The list is not exhaustive, and it is not necessary to discuss each example in every EIR.

- (1) Insulation and other protection from heat loss or heat gain to conserve fuel used to heat or cool buildings and mobile homes.
- (2) Use of resource conserving forms of energy such as solar energy for water and space heating, wind for operating pumps, falling water for generating electricity, and heat pumps.
- (3) Energy efficient building design including such features as orientation of structures to summer and winter sunlight to absorb winter solar heat and reflect or avoid summer solar heat.
- (4) Measures to reduce energy consumption in transportation such as:
  - (a) Providing access to alternative means of transportation for people such as bus lines, mass transit, bicycle lanes, pedestrian facilities, and car pooling.
  - (b) Use of small cars rather than large cars where possible.
  - (c) Use of alternative means of shipping which allow for energy savings.
- (5) Efficient lighting practices including use of indirect natural light, use of efficient lighting fixtures and/or sources, establishment of reasonable lighting criteria to prevent over illumination, and minimum use of architectural or display lighting.
- (6) Energy conserving construction practices.
- (7) Use of energy conservation devices such as flywheels.
- (8) Rate structures which discourage unnecessary energy consumption.
- (9) Use of human or animal power where such use is feasible.
- (10) Waste heat recovery.
- (11) Recycling and use of recycled materials.

RESOLUTION NO. 75-455

A RESOLUTION OVERRULING THE DECISION OF THE PLANNING COMMISSION DENYING AN AMENDMENT TO SECTION 23-3-9 OF THE ZONING MAP TO REZONE FROM R-1 TO P-D, AND APPROVING A DEVELOPMENT PLAN FOR PLANNED-DEVELOPMENT ZONE, P-D(127). (PETERSON AND TANNER - COMMUNITY SHOPPING CENTER.)

WHEREAS, a verified application for an amendment to Section 23-3-9 of the Zoning Map was filed by Richard Peterson and David Tanner on August 20, 1974, to reclassify from Low-Density Residential Zone, R-1, to Planned-Development Zone, P-D, for a community shopping center, property located at the northeast corner of Oakdale Road and East Orangeburg Avenue described as follows:

All that portion of Lot 4 of the O. McHenry Ranch, according to the Official Map thereof, filed in the office of the Recorder of Stanislaus County, California in Volume 2 of Maps, at Page 7, and more particularly described as follows:

BEGINNING at the Southwesterly corner of said Lot 4 said corner being at the point of intersection of the center lines of Old Oakdale Road and East Orangeburg Avenue; thence along the west line of said Lot 4 and the center line of said Old Oakdale Road, North 0° 20' West 670.0 feet; thence Parallel with the South Line of Lot 4 South 89° 35' East, 1,314.43 feet to a point on the East line of said Lot 4; thence along said East line, South 0° 21' East, 670 feet to a point on the South line of said Lot 4 and also on the center line of said East Orangeburg Avenue; thence along said last named line; North 89° 35' West, 1,314.59 feet to the point of beginning.

and

WHEREAS, the Planning Commission held a public hearing on said application on January 21, 1975, and found and determined that rezoning of the property as requested was not required by public necessity, convenience and general welfare for the following reasons:

1. The proposed shopping center does not meet the locational criteria for community shopping centers contained within the Modesto Urban Area General Plan.
2. Commercial development on the subject property would foster a commercial strip on Oakdale Road, and

WHEREAS, the Planning Commission denied the application of Richard Peterson and David Tanner for an amendment to Section 23-3-9 of the Zoning Map to rezone the property described above from Low-Density Residential Zone, R-1, to Planned-Development Zone, P-D, and

WHEREAS, an appeal to the Planning Commission's decision denying the rezoning was filed by Richard Peterson and David Tanner with the City Clerk on January 22, 1975, and

WHEREAS, said appeal was set for a public hearing before the Council of the City of Modesto on February 24, 1975, at which time said hearing was continued to March 10, 1975, and

WHEREAS, after the public hearing held on March 10, 1975, the Council, by motion, declared its intention to grant the appeal and the rezoning, and continued the matter to March 24, 1975, for the purpose of considering the conditions and development schedule to be imposed on P-D(127), and

WHEREAS, on March 24, 1975, the Council further continued the matter to April 14, 1975, and

WHEREAS, the Council found and determined that the application of Richard Peterson and David Tanner for a Planned-Development Zone should be granted as consonant with public necessity, convenience and general welfare for the following reasons:

1. The vehicular traffic generated by the shopping center can be adequately handled by its peripheral streets, namely, Oakdale Road which will be developed as a four-lane major street, and East Orangeburg Avenue and St. Pauls Way which will be developed as collector streets.

2. A commercial strip along Oakdale Road will not be fostered through approval of the subject application since the majority of the shopping center's street frontage will be on streets other than Oakdale Road.

3. The development of P-D(127) will fulfill the need for a community shopping center for the Oakdale Road area from Scenic Drive to Floyd Avenue, and the development of P-D(104) will fulfill the need for a neighborhood shopping center in the immediate area,

and

WHEREAS, the Council has introduced Ordinance No. 1447-C.S. on the 14th day of April, 1975, reclassifying the above-described property from Low-Density Residential Zone, R-1, to Planned-Development Zone, P-D(127),

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the decision of the Planning Commission be and is hereby overruled.

BE IT FURTHER RESOLVED by the Council as follows:

SECTION 1. DEVELOPMENT PLAN. The development plan for Planned-Development Zone, P-D(127), is hereby approved in accordance with the plan titled "Site Plan - Proposed Shopping Center for Mr. David C. Tanner and Mr. Richard D. Peterson" as amended in red on its face, stamped approved by the City Council on April 14, 1975, and on file in the office of the Planning Director, subject to the following conditions:

1. That all development be in accordance with said plan.

If trash enclosures are used, they shall be constructed of the same building materials used in the major buildings or the decorative masonry wall as determined by the Planning Director.
8. That the entire east property line shall be developed with a 6-foot decorative masonry wall.
9. That the 50,000 square foot junior department store shall be constructed as part of the first phase of development and may be occupied simultaneously with other buildings in the shopping center but shall not open for business or be occupied after any other building in the P-D Zone.

10. That all outdoor lighting within the P-D Zone shall be shielded from adjacent residential zones in accordance with the requirements of the City Engineer.

11. That all buildings within the P-D Zone be set back a minimum of 15 feet from property lines when said property lines are adjacent to dedicated streets.

12. That no operations conducted on the shopping center premises shall cause an unreasonable amount of noise, odor, dust, mud, smoke, vibration, or electrical interference detectable off the premises. All machinery or equipment located on the shopping center premises shall be soundproofed in accordance with the requirements of the Director of Public Works and shall not be located closer than forty feet to adjacent residentially zoned properties.

13. That all activities in the loading dock area east of the junior department store, including the parking of trucks, may be conducted only between the hours of 7:00 A.M. and 10:00 P.M. of each day.

14. That the loading dock areas may not be used for outside storage of any type of material.

15. That prior to the issuance of a building permit, the developer shall dedicate sufficient street right of way to complete Oakdale Road to a major street standard and St. Paul's Way and East Orangeburg Avenue to a collector street standard.

17. That all public improvements, including fire hydrants, shall be installed prior to occupancy of the premises or by March 24, 1978, whichever occurs first.

18. That prior to the issuance of a building permit, if all required public improvements have not been installed, a cash deposit, savings and loan certificate, surety bond or other instrument of credit in an amount to be determined by the City Engineer shall be filed with the City Clerk to guarantee installation of public improvements, including fire hydrants, by March 24, 1978, or prior to occupancy, whichever occurs first.

19. That two free-standing shopping center identification signs shall be permitted, one on the Orangeburg Avenue street frontage and one on the Oakdale Road street frontage. Each of said free-standing signs shall not exceed six feet in height and twenty-five square feet in total sign area. All other signs shall comply with the sign regulations of the H-1 Zone.

20. That prior to the issuance of a building permit, the developer shall submit street improvement plans prepared by a registered Civil Engineer for approval by the City Engineer.

21. That prior to the issuance of a building permit for any development, the developer shall pay to the City of Modesto the cost of planting 79 street trees at the prevailing rate.

22. That prior to the issuance of a building permit, the developer shall pay to the City of Modesto a storm drainage fee of \$482.00 per gross acre of the total area of the project.

RESOLUTION NO. 75-456

A RESOLUTION CERTIFYING REVIEW OF FINAL ENVIRONMENTAL IMPACT REPORT, MAKING FINDINGS REGARDING SAID FINAL ENVIRONMENTAL IMPACT REPORT, AND DIRECTING THE DIRECTOR OF PLANNING TO FILE NOTICE OF DETERMINATION OF THE ENVIRONMENTAL IMPACT RELATING TO AN AMENDMENT TO SECTION MAP 23-3-9 OF THE ZONING MAP OF THE CITY OF MODESTO, RECLASSIFYING CERTAIN PROPERTY LOCATED THEREON. (PETERSON AND TANNER - COMMUNITY SHOPPING CENTER)

WHEREAS, on April 14,, 1975, the City Council introduced Ordinance No. 1447-C.S. giving approval to a project relating to an amendment to Section Map 23-3-9 of the Zoning Map of the City of Modesto to reclassify certain property from Low-Density Residential Zone, R-1, to Planned-Development Zone, P-D (127), (Peterson and Tanner - Community Shopping Center), and

WHEREAS, the City Council certifies that at said Council meeting it reviewed and considered the Final Environmental Impact Report in regard to the environmental impact of the subject Planned Development Zone, (Peterson and Tanner - Community Shopping Center),

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. The Planned Development Zone is not in conflict with the General Plan. The Plan locates only existing community shopping centers and not future centers. The City Council has previously considered and approved a policy that a community shopping center be located in the north-east portion of Modesto.

2. Some traffic generation and congestion will occur with every community shopping center. The location and plan of this Planned Development Zone mitigate the adverse impact through the use of one major and two collector streets, as well as by design factors which improve the flow of traffic.

3. The design of the Planned Development Zone, by focusing the shopping activity inward, shields the residential area to the south (as well as potential development to the east and north) from most of the traffic and pedestrian noise and movement.

BE IT FURTHER RESOLVED that the Director of Planning of the City of Modesto is hereby directed to file or cause to be filed with the Stanislaus County Clerk

a Notice of Determination in regard to the environmental impact of the subject project relating to an amendment to Section Map 23-3-9 of the Zoning Map of the City of Modesto to reclassify certain property from Low-Density Residential Zone, R-1, to Planned Development Zone, P-D(127) (Peterson and Tanner - Community Shopping Center).

A RESOLUTION ADOPTING A POLICY REGARDING ZONING FOR COMMERCIAL USES THAT DO NOT TYPICALLY LOCATE IN NEIGHBORHOOD OR COMMUNITY SHOPPING CENTERS. (SATELLITE COMMERCIAL AREAS)

WHEREAS, the City Council at its meeting of June 24, 1974, referred to the Planning Commission for study and recommendation, a series of matters pertaining to commercial development, one of which related to the need for a policy regarding zoning for commercial uses that do not typically locate in neighborhood or community shopping centers (satellite commercial areas), and

WHEREAS, the Planning Commission, after holding several informal public hearings, recommended to the City Council, by Resolution No. 75-49, adopted on March 19, 1975, a policy for satellite commercial areas, and

WHEREAS, the City Council held a public hearing on April 21, 1975, in the City Council Chambers, City Hall, 801 - 11th Street, Modesto, California and reviewed the proposed policy for satellite commercial areas, as recommended by the Planning Commission, and finds and determines that it is in the public interest to adopt said policy,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. The policy of the City of Modesto regarding zoning for commercial uses that do not typically locate in neighborhood or community shopping centers (satellite commercial areas) shall be as follows:

POLICY FOR SATELLITE COMMERCIAL AREAS

OBJECTIVES

The objectives of this policy are: 1) to accommodate commercial uses that do not typically locate in shopping centers, and 2) to accommodate persons who prefer to own their own commercial site rather than lease a site from a shopping center developer.

SPECIFICATIONS

It is the policy of the City of Modesto to permit development of a satellite commercial area meeting the following specifications if adequate zoning does not already exist in the area.

A satellite commercial area shall be:

- 1) Limited to one per General Plan neighborhood.
- 2) Located on a major street at its intersection with another major street or with a collector street.
- 3) Located at least 1/4 mile from any other satellite commercial area and at least 1/4 mile from any neighborhood or community shopping center which has been developed, zoned or shown on the General Plan Map.
- 4) Developed under the provisions of the Planned Development (P-D) Zone.
- 5) Limited to uses permitted within the H-1, Highway Frontage Zone.

- 6) Limited to each business having a maximum of a 5,000 square foot building.
- 7) No larger than 1-1/2 net acres in size. For a project involving a single use which does not customarily locate in a shopping center, the maximum size may be increased to 3 net acres.
- 8) Under construction within two years of the effective date of the P-D zoning approving the satellite area.

If construction is not commenced on the satellite commercial area within the two year time limitation, a rezoning shall be initiated to the previous or a more appropriate zone; no time extensions shall be granted.

SECTION 2. The above stated policy shall be reviewed annually to determine its effectiveness.

RESOLUTION NO. 75-477 B

A RESOLUTION ADOPTING A POLICY FOR COMMUNITY SHOPPING CENTERS.

WHEREAS, the City Council at its meeting of June 24, 1974, referred to the Planning Commission for study and recommendation, a series of matters pertaining to commercial development, one of which related to the need for a policy for community shopping centers, and

WHEREAS, a report titled "Commercial Standards Report" dated September 1974 was prepared by the Modesto Planning Department to assist the Commission in its study of a policy for community shopping centers, and

WHEREAS, a public hearing was held by the Planning Commission on October 16, 1974, and November 5, 1974, in the City Council Chambers, City Hall, 801 - 11th Street, Modesto, California, at which times evidence both oral and documentary was received and considered, and

WHEREAS, the Planning Commission by Resolution No. 74-191 adopted on November 5, 1974, recommended to the City Council a proposed policy for community shopping centers, and

WHEREAS, the City Council held a public hearing on April 21, 1975, in the City Council Chambers, City Hall, 801 - 11th Street, Modesto, California, and reviewed the proposed policy for community shopping centers, as recommended by the Planning Commission, and finds and determines that it is in the public interest to adopt said policy,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the policy of the City of Modesto regarding Community Shopping Centers shall be as follows:

POLICY FOR COMMUNITY SHOPPING CENTERS

It is the policy of the City of Modesto to permit development of community shopping centers at intersections of two major streets (higher classification of streets such as expressways and freeways also qualify) in areas where the need for such centers has been previously determined by the Planning Commission and the City Council. The need for additional community shopping centers in an area shall be determined through study by the City Council in conjunction with land use hearings held in October of each year. Since community shopping centers serve a large area and could satisfactorily be located at a number of major streets' intersections, such centers are not shown on the General Plan map prior to development.

Community shopping centers shall be developed under the provisions of the Planned Development (P-D) Zone and shall be located at only one corner of an intersection of major streets. To guarantee that a full community shopping center will be developed, the project area shall contain from 10 to 30 acres and shall have a minimum of 100,000 and a maximum of 300,000 square feet of gross floor area. The first phase of the project shall include the major tenant of the shopping center which shall be a junior department store, a department store, or a discount store. Other uses may accompany construction of the junior department store, department store, or discount store as part of the first phase of the project, but the major tenant shall be the first to open for business.

The time limit for commencement of the first phase of development of the community shopping center shall be three years. If construction of the first phase of a shopping center P-D does not occur within the three-year time limit, one-year time extensions, after benefit of public hearing, not to exceed three in number, may be granted by the Planning Commission if adequate cause is shown by the developer.

WHEREAS, after public hearing held on March 18, 1975, in the Council Chambers, City Hall, 801 11th Street, Modesto, California, it was found and determined by the Planning Commission that rezoning

of the property as requested is required by public necessity, convenience and general welfare for the following reasons:

1. The proposed Planned-Development Zone provides for proper use of the land of the subject property which is bounded by the U. S. 99 Freeway to the west, heavy commercial land use immediately to the south, and commercial industrial land uses to the east.

2. The applicant's plan provides for a good transition of the land use intensity by virtue of the parking area to the north, the screen landscaped strip and the masonry wall along the north side which should insure a good degree of compatibility with future potential land uses on the R-3 and the R-2 to the north as well as the existing R-1 developments to the east and northeast.

WHEREAS, after a public hearing held on April 28, 1975, in the City Council Chambers, City Hall, 801 11th Street, Modesto, California, the Council found and determined that the application of Leroy Hemple for a Planned-Development Zone should be granted as consonant with public necessity, convenience and general welfare for the reasons set forth above, and

WHEREAS, the Council has introduced Ordinance No. 1449 -C.S. on the 28th day of April, 1975, reclassifying the above-described property from Medium Density Residential Zone, R-2, and Medium-High Density Residential Zone, R-3, to Planned-Development Zone, P-D(128),

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. DEVELOPMENT PLAN. The development plan for Planned-Development Zone, P-D(128), is hereby approved in accordance with the plan titled "Proposed Planned Development for Mr. Leroy Hemple" as amended in red on its face, stamped approved by the Planning Commission on March 18, 1975, and on file in the office of the Planning Director, subject to the following conditions:

1. That all development be in accordance with the plan referred to above as amended in red.

2. Landscaping and the irrigation system shall be installed and maintained in accordance with the approved landscaping and irrigation plan. Irrigation shall be by underground sprinkler system.

3. That all landscaping, fences, and walls shall be maintained and the premises shall be kept free of weeds, trash, and other debris.

4. That the development shall be connected to the City of Modesto water and sewer facilities in accordance with the requirements of the Director of Public Works.

5. That all parking and driveway areas shall be improved in accordance with the City standards including the provisions of Sections 10-2.1804 and 10-2.1808 of the Municipal Code. All drainage facilities shall be provided in accordance with the requirements of the Director of Public Works.

6. That all trash shall be maintained within the building or in fully enclosed trash areas in locations approved by the Planning Director. If trash enclosures are used, they shall be constructed of the same building materials used in the major buildings as determined by the Planning Director.

7. That all signs shall comply with the sign requirements of the H-1 Zone except that no signs shall be located on the premises which are visible from the north.

8. That prior to the issuance of a building permit for any development, the applicant shall record a subdivision map or parcel map to divide the subject P-D Zone from the remaining R-3 and R-2 portions.

9. That the entire north property line of the proposed P-D Zone shall be developed with a solid 6 foot decorative masonry wall.

10. That prior to the issuance of a building permit, the developer shall pay the City of Modesto the cost of planting 7 street trees at the prevailing rate.

SECTION 2. DEVELOPMENT SCHEDULE. The following development schedule is hereby approved for said Planned-Development Zone, P-D(128):

That the construction program be accomplished in one phase, construction to begin on or before January 31, 1977, completion to be not later than January 31, 1980.

SECTION 3. CHANGES IN DEVELOPMENT PLAN. Any changes in the above-mentioned development plan shall be made in accordance with the provisions of Section 10-2.2708 of the Modesto Municipal Code.

SECTION 4. COMPLIANCE WITH CODE PROVISIONS, ETC. In all other respects said planned development shall be accomplished in accordance and in strict adherence to the provisions of Article 27 of Title X of the Modesto Municipal Code relating to Planned-Development Zones and other applicable City laws, rules, regulations and procedures.

SECTION 5. EFFECTIVE DATE. This resolution shall not become effective unless and until the ordinance reclassifying the above-described property to Planned-Development Zone, P-D(128), becomes effective.

MODESTO CITY COUNCIL  
RESOLUTION NO. 75-596

A RESOLUTION OVERRULING IN PART THE RECOMMENDATION OF THE PLANNING COMMISSION TO AMEND SECTIONS 31-3-9 AND 6-4-9 OF THE ZONING MAP OF THE CITY OF MODESTO TO PREZONE TO R-2 AND R-1, PROPERTIES LOCATED IN THE PARADISE ROAD AREA BETWEEN ELLEN AVENUE AND VERNON AVENUE. (PLANNING COMMISSION INITIATED.)

WHEREAS, an amendment to Sections 31-3-9 and 6-4-9 of the Zoning Map was initiated by the Planning Commission on October 1, 1974, by Resolution No. 74-167, to prezone to Medium High Density Residential Zone, R-3, properties located in the Paradise Road area between Ellen Avenue and Vernon Avenue as shown on the map titled "Paradise Road Area Zoning Study Map, October 1, 1974", which map is on file in the office of the Planning Director, and

WHEREAS, after a public hearing held on November 19, 1974, it was found and determined by the Planning Commission by Resolution No. 74-195, that the proposed pre zoning of the entire area to Medium High Density Residential Zone, R-3, as initiated, was not required by public necessity, convenience, and general welfare, and

WHEREAS, it was further found and determined by the Planning Commission by Resolution No. 74-195 that pre zoning to Medium High Density Residential Zone, R-3, a portion of the properties proposed for pre zoning as shown on the map titled "Paradise Road Area Proposed Pre zoning, November 19, 1974", which map is on file in the office of the Planning Director, was required by public necessity, convenience, and general welfare, and

WHEREAS, a public hearing was held by the Council of the City of Modesto on January 13, 1975, on said Planning Commission recommended pre zoning, and after hearing evidence both oral and documentary, the City Council found and determined that the proposed pre zoning should be denied for the reasons set forth in Resolution No. 75-26, adopted by the Council of the City of Modesto on January 13, 1975, and

WHEREAS, the Council of the City of Modesto, by said Resolution No. 75-26, referred back to the Planning Commission for further study and consideration the rezoning of all of the properties shown on the map titled "Paradise Road Area Proposed Rezoning, November 19, 1974", except the two small triangular properties which front on Vernon Avenue just south of Waverly Drive, to Medium Density Residential Zone, R-2, and rezoning of the one small triangular property located at the southeast corner of Waverly Drive and Vernon Avenue, to Low Density Residential Zone, R-1, and

WHEREAS, the Planning Commission by Resolution No. 75-35, adopted on March 4, 1975, initiated proceedings to amend Sections 31-3-9 and 6-4-9 of the Zoning Map to rezone to Medium Density Residential Zone, R-2, and Low Density Residential Zone, R-1, properties located in the Paradise Road area between Ellen and Vernon Avenues in accordance with the plan titled "Paradise Road Area Proposed Rezoning, January 13, 1975", a copy of which plan is attached hereto, and

WHEREAS, after a public hearing held on April 22, 1975, it was found and determined by the Planning Commission that rezoning of the property as initiated is required by public necessity, convenience, and general welfare, and

WHEREAS, by Resolution No. 75-61, adopted on April 22, 1975, the Planning Commission recommended to the Council the amendment of Sections 31-3-9 and 6-4-9 of the Zoning Map to rezone to Medium Density Residential Zone, R-2, and Low Density Residential Zone, R-1, properties located in the Paradise Road area between Ellen and Vernon Avenues in accordance with said plan titled "Paradise Road Area Proposed Rezoning, January 13, 1975", a copy of which plan is attached hereto, and

WHEREAS, a public hearing was held by the Council of the City of Modesto on May 27, 1975, on said Planning Commission recommended rezoning, and after hearing evidence both oral and documentary, the City Council found and determined that the proposed rezoning, except for those parcels of land located to the south of the centerline of Paradise Road extending southwesterly from the westerly terminus of

Vicksburg Street, should be granted, and

WHEREAS, the Council of the City of Modesto determined that the proposed rezoning of those parcels of land located to the south of the centerline of Paradise Road extending southwesterly from the westerly terminous of Vicksburg Street, should be denied for the following reasons:

1. Retention of C-1 Zoning on the properties on the south side of Paradise Road could result in larger, better designed and executed commercial developments due to the larger parcel sizes and the limited number of ownerships involved.
2. Denial of rezoning of land on the south side of Paradise Road, which land would remain zoned C-1 if annexed to the City, would still allow for a desired break up of a commercially zoned strip more than one mile long along Paradise Road.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the proposed rezoning, as recommended by the Planning Commission in its Resolution No. 75-61, to rezone to Medium Density Residential Zone, R-2, those parcels of land located to the south of the centerline of Paradise Road extending southwesterly from the westerly terminous of Vicksburg Street as shown on the map titled "Paradise Road Area Proposed Rezoning, January 13, 1975", be denied for the reasons set forth above.
