HELP KEEP OUR STORM DRAINS FREE OF LEAVES

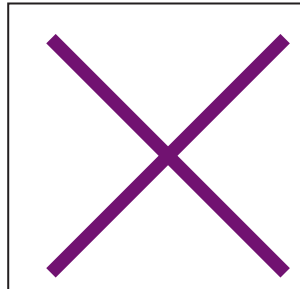

In the winter months when the leaves fall from the trees, they block gutters and clog storm drains, causing streets to flood. The City's storm drain system relies on the ability to effectively capture the stormwater in the gutters and drain it off the street through storm drain inlets. It then discharges into local streams, rivers, and storage basins. Even in moderate rain storms, this process can typically take between 24 and 36 hours.

We can really use your help in preventing street flooding by making sure the leaves in your area are kept away from gutters and storm drain inlets

The pictures below demonstrate what to do and what not to do in order to keep our storm drains clean:

Rake leaves away from storm drain inlet grates to help with draining the rain water and therefore reducing the potential for street flooding.

Keep leaves 12-18 inches away from the curb in order to allow the storm water to flow to the storm drain inlet. If leaves are left next to the curb, the leaves will block the storm water causing the street to flood.

Thank you for your help in preventing street flooding!
 Please report street flooding by calling 209.577.6200.

Electronic Billing

CITY OF MODESTO UTILITY BILLING GOES PAPERLESS

The "e-billing" process allows customers to receive their City of Modesto water, sewer, and garbage utility bill through e-mail instead of a paper bill in the mail. Customers will have the ability to instantly view and pay their bill online, and store and print bills while expediting delivery time.

Once customers connect to our Interactive Web Pay System, they can pay their City of Modesto utility bill using a Visa, MasterCard, or a Debit Card with the Visa or MasterCard logo. The credit card payment is applied to the account immediately, with complete card verification.

To switch to paperless electronic utility billing, call Customer Services at (209) 577-5395 and ask one of our customer service representatives about switching to paperless "e-billing."
