## Plan Review Process

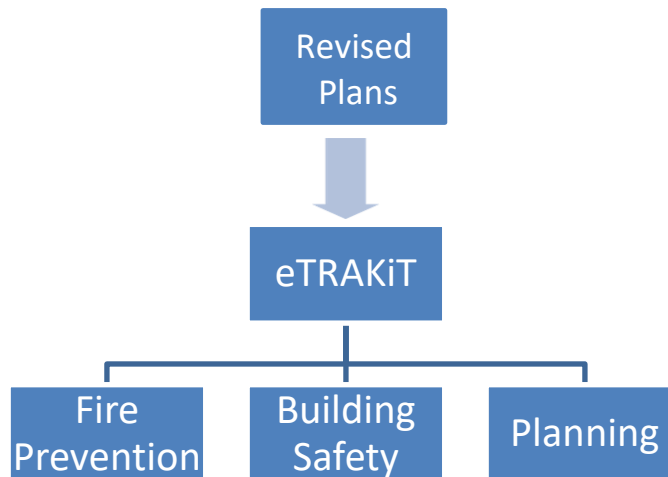

The City of Modesto will receive your plans via your upload in eTRAKiT ( <http://permits.modestogov.com> ).

The plans will be reviewed by the various departments. Once all reviews are received, the redlined plans will be uploaded to your eTRAKiT account and you will be notified.

You can view the redlined plans by accessing eTRAKiT and clicking on attachments under your permit. Once the revisions are completed, upload the revised plans to your permit in eTRAKiT.

eTRAKiT will automatically route the revised plans to City Staff. Once the plans have been approved, Building Safety will contact you to obtain the permit. If there are any questions during the process, contact Building Safety Program Coordinator at 209-577-5277
